| Highland Litigation Sub-Trust | |
| Estate Claims | Order approving settlement with Hunter Mountain Investment Trust |

[1] Does not include cash, restricted cash, or treasury holdings, nor does it include assets that are either diminimus in value or non-economic. The "Notes" described below accrue interest at various rates. Accrued, but unpaid interest with respect to these notes is also an asset for the entities.

[2] Appellants are NexPoint Diversified Real Estate Trust and NHF TRS, LLC. Appellees are Joshua N. Terry, Acis Capital Management, LP, and Brigade Capital Management, LP. Each of the Appellants had previously filed counterclaims against the Appellees in the Southern Disctrict of New York, alleging among other things, breach of fiduciary duty and mismanagement of the Acis CLOs. These claims were dismissed with the Court finding that the counterclaims were meritless and failed to state viable causes of action. The order dismissing the counterclaims is the subject of the on-going appeal, for which the opening brief of Appellants was filed June 6, 2025. Funds are currently reserved at Acis CLO 2015-6, Ltd., pending the resolution of the appeal. Highland CLO Funding, Ltd. as the approximately 87% holder of subordinated notes of Acis CLO 2015-6, Ltd., is the largest economic stakeholder in Acis CLO 2015-6, Ltd. Highland CLO Funding, Ltd. is also obligated to remit to Highland Capital Management, LP a percentage of any receipts received on account of the Acis CLO 2015-6, Ltd. subordinated notes.

[3] Highland Capital Management, LP owns 100% of the shares outstanding of HCMK. HCMK is a South Korea-domiciled entity that is the co-general partner and a limited partner of a private equity-style fund and related special purpose entities. Such entities hold minority interests in Caris Life Sciences, Inc., a US-based company that filed a registration statement on Form S-1 with the SEC on May 23, 2025, signifying its intention to go public with an initial public offering. The company has applied to list its shares on the Nasdaq Global Select Market under the ticker symbol "CAI".

**EXHIBIT 2**

# PROMISSORY NOTE

**$24,268,621.69** **May 31, 2017**

THIS PROMISSORY NOTE (this "**Note**") is in substitution for and supersedes in its entirety that certain promissory note dated May 31, 2017, in the original face amount of **$24,198,069.28** (the "**Amended Note**"), which was in substitution for and superseded in its entirety that certain promissory note dated December 28, 2016, in the original face amount of **$23,817,639.58** (the "**Original Note**"), from The Dugaboy Investment Trust, as Maker, and The Get Good Non-Exempt Trust as Payee (collectively, the "**Prior Notes**"), together with the aggregate outstanding principal and accrued and unpaid interested represented thereby.
WHEREAS, The Get Good Non-Exempt Trust sold, transferred and assigned 97.6835% of its interest in the Original Note to Highland Capital Management, L.P. pursuant to that Purchase and Sale Agreement dated December 28, 2016 between Highland Capital Management, L.P. and The Get Good Non-Exempt Trust.

FOR VALUE RECEIVED, THE DUGABOY INVESTMENT TRUST ("**Maker**") promises to pay to the order of HIGHLAND CAPITAL MANAGEMENT, L.P. and THE GET GOOD NON-EXEMPT TRUST (collectively, the "**Payee**"), in legal and lawful tender of the United States of America, the principal sum of TWENTY FOUR MILLION, TWO HUNDRED SIXTY-EIGHT THOUSAND, SIX HUNDRED TWENTY ONE AND 69/100 DOLLARS ($24,268,621.69), together with interest, on the terms set forth below. All sums hereunder are payable to Payee at 300 Crescent Court, Suite 700, Dallas, Texas 75201, or such other address as Payee may specify to Maker in writing from time to time.

1. Interest Rate. The unpaid principal balance of this Note from time to time outstanding shall bear interest at the rate of three and twenty-six hundredths percent (3.26%) per annum from the date hereof until Maturity Date (hereinafter defined), compounded annually on the anniversary of the date of this Note. Interest shall be calculated at a daily rate equal to 1/365th (1/366 in a leap year) of the rate per annum, shall be charged and collected on the actual number of days elapsed, and shall be payable annually.

2. Payment of Principal and Interest. Principal and interest under this Note shall be payable as follows:

2.1 Annual Payment Dates. During the term of this Note, Borrower shall pay the outstanding principal amount of the Note (and all unpaid accrued interest through the date of each such payment) in thirty (30) equal annual payments (the "**Annual Installment**") until the Note is paid in full. 97.6835% of each Annual Installment shall be paid to Highland Capital Management, L.P. and the remaining 2.3165% shall be paid to The Get Good Non-Exempt Trust. Borrower shall pay the Annual Installment on the 31st day of December of each calendar year during the term of this Note, commencing on the first such date to occur after the date of execution of this Note.

2.2 Final Payment Date. The final payment in the aggregate amount of the then outstanding and unpaid Note, together with all accrued and unpaid interest thereon, shall become immediately due and payable in full on December 31, 2047 (the "**Maturity Date**").

3. Prepayment Allowed; Renegotiation Discretionary. Maker may prepay in whole or in part the unpaid principal or accrued interest of this Note. Any payments on this Note shall be applied first to unpaid accrued interest hereon, and then to unpaid principal hereof.

4. Acceleration Upon Default. Failure to pay this Note or any installment hereunder as it becomes due shall, at the election of the holder hereof, without notice, demand, presentment, notice of intent to accelerate, notice of acceleration, or any other notice of any kind which are hereby waived, mature the principal of this Note and all interest then accrued, if any, and the same shall at once become due and payable and subject to those remedies of the holder hereof. No failure or delay on the part of Payee in exercising any right, power or privilege hereunder shall operate as a waiver thereof.

5. Waiver. Maker hereby waives grace, demand, presentment for payment, notice of nonpayment, protest, notice of protest, notice of intent to accelerate, notice of acceleration and all other notices of any kind hereunder.

6. Attorneys' Fees. If this Note is not paid at maturity (whether by acceleration or otherwise) and is placed in the hands of an attorney for collection, or if it is collected through a bankruptcy court or any other court after maturity, the Maker shall pay, in addition to all other amounts owing hereunder, all actual expenses of collection, all court costs and reasonable attorneys' fees and expenses incurred by the holder hereof.

7. Limitation on Agreements. All agreements between Maker and Payee, whether now existing or hereafter arising, are hereby limited so that in no event shall the amount paid, or agreed to be paid to Payee for the use, forbearance, or detention of money or for the payment or performance of any covenant or obligation contained herein or in any other document evidencing, securing or pertaining to this Note, exceed the maximum interest rate allowed by law. The terms and provisions of this paragraph shall control and supersede every other provision of all agreements between Payee and Maker in conflict herewith.

8. Governing Law. This Note and the rights and obligations of the parties hereunder shall be governed by the laws of the United States of America and by the laws of the State of Texas, and is performable in Dallas County, Texas.

9. Prior Notes. The original of each of the Original Note and the Amended Note superseded hereby shall be marked "VOID" by Payee.

# DUGABOY INVESTMENT TRUST

## SUMMARY TERMS OF DUGABOY PROMISSORY NOTE

| | |
|---|---|
| **Maker:** | The Dugaboy Investment Trust |
| **Facility:** | Promissory Note dated 5/31/2017 in the principal amount of $24,268,621.69 payable to Highland Capital Management, LP (97.6835% = $23,706,439.07) and The Get Good Non-Exempt Trust (2.3165% = $562,182.62) |
| **Current Principal:** | Principal Payable to Highland Capital Management is currently $18,174,936.62 (76.67% of original principal amount following amortization payments which occurred between 2017 - 2023) |
| **Security:** | None |
| **Guarantor:** | None |
| **Maturity:** | 12/31/2046[1] |
| **Interest Rate:** | 3.26%, compounding annually on May 31 and payable annually on December 31 |
| **Amortization** | 1 / 30 of original principal amount payable annually on December 31 (4.35% of current principal amount) |
| **Call Protection:** | None; Maker may prepay in whole or in part the unpaid principal or accrued interest of the Note |
| **Event of Default:** | Failure to pay this Note or any installment as it becomes due; immediate acceleration upon default |
| **Cost of Collection:** | Expressly included in note terms |
| **Covenants:** | None |

[1] Based on amortization schedule. The promissory note states the final payment date is 12/31/47 due to a scrivener's error

# DUGABOY INVESTMENT TRUST

## POTENTIAL TRANSACTION EXECUTIVE SUMMARY [1]

- The Dugaboy Investment Trust ("Dugaboy") is a Delaware Trust established in 2010 for the benefit of Jim Dondero ("Dondero")
- Dugaboy is believed to be one of Dondero's most significant personal assets, holding among other items:
  - 100% LP interest in NexPoint Advisors, Dondero's flagship real estate investment platform
  - Significant portfolio of publicly traded Dondero-managed entities as well as privately held real estate investments and other private investments
  - A potential claim to a contingent unvested derivative interest in the HCMLP estate through Dugaboy's purported claim on Hunter Mountain Investment Trust
- Dugaboy was the Maker of a Promissory Note (the "Original Note") dated 12/28/16 in the face amount of $23,817,639.58 owed to The Get Good Non-Exempt Trust [2] as Payee
  - The Get Good Non-Exempt Trust assigned 97.6835% of its interest in the original note to HCMLP on 12/28/16, retaining 2.3165%
  - The Original Note was replaced by an Amended Note in the face amount of $24,198,069.28 dated 5/31/17 and further replaced by a Promissory Note (the "Note") in the face amount of $24,268,621.69, also dated 5/31/17
  - The current face amount owed to HCMLP under the Note is $18,174,936.62 [3]
  - Despite raising defenses with other notes owed by Dondero-affiliated entities, Dugaboy's trustee affirmed under oath that no similar oral agreements existed beyond those specific notes [4]
  - Dugaboy's counsel in fact asserted that "there is no dispute that . . . Dugaboy has been making (and continues to make) payments on the Dugaboy Note and that there is little risk of Dugaboy defaulting on the Dugaboy Note" [5]
- Terms of the Note:
  - Unsecured note due 12/31/46 [6]
  - Interest: 3.26% payable annually on December 31
  - Amortization: 1 / 30 of original principal amount owed annually on December 31 ($790k owed annually to HCMLP, or 4.35% of the current principal amount)

[1] Any offering of the Dugaboy Note will be subject to Oversight Board approval
[2] Dondero trust which is currently not believed to hold significant assets
[3] Principal amount owed following the December 2023 amortization payment
[4] *Appendix in Support of Highland Capital Management, LP's Motion for Partial Summary Judgement in Notes Actions* (Adv Case No. 19-34054, Docket #0127)
[5] Dugaboy's *Brief in Support of the Motion to Dismiss, or in the alternative, Motion for More Definite Statement* entered on 4/30/21 (Adv Case No. 20-03195, Docket #30)
[6] The note states that the final maturity date is 12/31/47, however it also states the note principal is due in thirty equal annual installments beginning 12/31/17, which would make the final installment due 12/31/46

[2] Note potentially subject to creditor dispute

NOTE: Historical financial statement summaries are presented as prepared by Jim Dondero's accountant on an Accrual Basis. These financial statements are not audited, do not include a cashflow statement and do not include supporting notes. Adjustments to the most recently available financial statements (9/30/20) are made by HCMLP to as many items as can be supported to create a "Pro Forma" balance sheet which is intended to reflect a good faith estimate of current fair market value. HCMLP makes no representation as to the completeness or accuracy of these financial statements, and are included in this presentation for illustrative purposes.

**EXHIBIT 4**

**PARTICIPATION AGREEMENT FOR PAR/NEAR PAR TRADES**

**TRANSACTION SPECIFIC TERMS**

THIS PARTICIPATION AGREEMENT FOR PAR/NEAR PAR TRADES is dated as of the Agreement Date and entered into by and between Seller and Buyer to govern the purchase and sale of the Participation in the Loans, the Commitments (if any) and the other Transferred Rights, in accordance with the terms, conditions and agreements set forth in the LSTA Standard Terms and Conditions for Participations for Par/Near Par Trades, published as of July 21, 2023 (the "Standard Terms"). The Standard Terms and (if applicable) the Collateral Annex are incorporated herein by reference without any modification whatsoever except as otherwise agreed herein by the Parties and as specifically supplemented and modified by the terms and elections set forth in the Transaction Summary and Sections A through H below. The Standard Terms, the Collateral Annex (if applicable) and the Transaction Specific Terms together constitute a single integrated Participation Agreement for Par/Near Par Trades governing the Transaction. With respect to the Transaction, the Parties agree to be bound by the Standard Terms and the Transaction Specific Terms set forth herein.

## A. DEFINITIONS

Capitalized terms used in this Agreement shall have the respective meanings ascribed thereto in Section 1 of the Standard Terms, as supplemented by Section A of the Transaction Specific Terms and as otherwise may be provided in other provisions of this Agreement. Terms defined in the Credit Agreement and not otherwise defined in this Agreement shall have the same meanings in this Agreement as in the Credit Agreement. Except as otherwise expressly set forth herein, each reference herein to "the Agreement," "this Agreement," "herein," "hereunder" or "hereof" shall be deemed a reference to this Agreement. If there is any inconsistency between the Transaction Specific Terms and the Standard Terms, the Transaction Specific Terms shall govern and control.

In this Agreement:

"Agent" means none.

Copyright © LSTA 2023. All rights reserved.

"Assignment" means an assignment of the Loans.

"Buyer Purchase Price" select one:

☒ not applicable.

☐ means the purchase price payable by Buyer to Original Buyer pursuant to the Netting Letter (this applies if there are three (3) parties involved in the netting arrangement).

☐ means the purchase price payable by Buyer to Penultimate Buyer pursuant to the Netting Letter (this applies if there are four (4) or more parties involved in the netting arrangement).

"Collateral Annex" means the Collateral Annex to the Participation Agreement for Par/Near Par Trades published by the LSTA as of July 21, 2023.

"Commitments" select one:

☒ none.

☐ means [identify applicable commitment tranche(s) using Credit Agreement definitions] in the principal amount of $/£/€_____ [in each case specify the aggregate amount of the Loans, the Unfunded Commitments and the portion, if any, of the Commitments that is irrevocably "frozen" (i.e., that is not subject to future drawing)].

"Elevation Transfer Fee" means none.

"Loans" means the outstanding principal amount of the Note as of the Trade Date payable to Seller pursuant to the Note (which amount, for the avoidance of doubt, equals 97.6835% of the total outstanding principal amount of the Note).

"Netting Letter" select one:

☒ not applicable.

☐ means that certain Multilateral Netting Agreement in the form currently published by the LSTA dated on or as of the Agreement Date among Seller, Buyer [and] [,] Original Buyer [, Penultimate Buyer] and [describe any other parties to the Netting Letter]].

"Original Buyer" select one:

☒ not applicable.

☐ means [specify original buyer in the netting arrangement].

"Participation Required Consents" means none.

"Participation Transfer Fee" means the transfer fee (if any) set forth in Section E.1 payable to Seller in connection with the assignment by Buyer of all or any portion of the Participation, subject to Section 10.1 of the Standard Terms and Conditions.

"Penultimate Buyer" select one:

☒ not applicable.

☐ none ("none" is applicable if there are only three (3) parties involved in the netting arrangement).

☐ means [_____].

"Seller Purchase Price" select one:

☒ not applicable.

☐ means the purchase price payable by Original Buyer to Seller pursuant to the Netting Letter.

"Unfunded Commitments" means none.

**B. SECTION 5 (BUYER'S REPRESENTATIONS AND WARRANTIES)**

If "Yes" is specified opposite "Delivery of Credit Documents" in the Transaction Summary, Buyer represents and warrants that it (i) was not a Lender on the Trade Date and (ii) requested copies of the Credit Documents from Seller on or prior to the Trade Date.

**C. SECTION 8 (DISTRIBUTIONS; INTEREST AND FEES; PAYMENTS; COMMITMENT REDUCTIONS)**

**C.1** Section 8.3 (Wire Instructions).

Buyer's Wire Instructions:

Bank: M&T Bank
ABA No.: 031100092
Acct.: Highland Indemnity Trust
Acct. No.: 150474-000
Attn.: Neumann Marlett III
Ref.: True Sale Participation 100% Dugaboy Note

Seller's Wire Instructions:

Bank: East West Bank
ABA No.: 322070381
Acct.: Highland Capital Management, LP
Acct. No.: 5500014686
Attn.: Corporate Accounting
Ref.: True Sale Participation 100% Dugaboy Note

**C.2** Section 8.8 (Set-Off).

If "Yes" is specified opposite "Set-Off" in the Transaction Summary, clause (i) of the proviso to the second sentence of Section 8.8 shall apply.

**D. SECTION 9 (NOTICES; RECORDS)**

Buyer's Address for Notices and Delivery:

Highland Indemnity Trust
100 Crescent Court, Suite 1850
Dallas, Texas 75201
Attention: James P. Seery, Jr.
Electronic Mail Address: jpseeryjr@gmail.com; jseery@highlandcapital.com

with a copy (which shall not constitute notice) to:

Pachulski Stang Ziehl & Jones LLP
780 Third Avenue, 34th Floor
New York, New York 10017
Attention: Highland Capital Lead Partner

Seller's Address for Notices and Delivery:

Highland Capital Management, L.P.
100 Crescent Court, Suite 1850
Dallas, Texas 75201
Attention: Chief Financial Officer
Electronic Mail Address: Notices@highlandcapital.com

**E. SECTION 10 (FURTHER TRANSFERS)**

**E.1** Select one:

☒ There is no Participation Transfer Fee.

☐ There is a Participation Transfer Fee, in the amount of $/£/€_____.

**E.2** If an Affiliate of Buyer that is a buyer under a participation agreement with Seller entered into as of the same day as this Agreement makes a Pre-Elevation Transfer (whether or not such transfer is so defined under such participation agreement) of loans and commitments (if any) under the Credit Documents subject

to such participation agreement on the same day as Buyer, on substantially similar documents and to the same Entity as Buyer:

☐ Buyer and such Affiliate(s) of Buyer shall pay only one Participation Transfer Fee.

☐ Buyer and each such Affiliate of Buyer shall pay a separate Participation Transfer Fee in respect of each such Pre-Elevation Transfer.

☒ Not applicable (there is no Participation Transfer Fee).

**E.3** Section 10.1 Right of Buyer to sell subparticipations:

☒ Buyer may sell subparticipations in respect of the Transferred Rights without Seller's prior consent. Section 10.1(b) of the Standard Terms and Conditions will apply.

☐ Buyer may not sell subparticipations in respect of the Transferred Rights without Seller's prior consent. Section 10.1(b) of the Standard Terms and Conditions will not apply.

**F. SECTION 11 (VOTING)**

**F.1** "Voting" select one:

☒ Buyer shall have voting rights with respect to the Transferred Rights, subject to Section 11.1(a) of the Standard Terms and Conditions.

☐ Buyer shall have no voting rights in respect of the Transferred Rights, subject to Section 11.1(b) of the Standard Terms and Conditions, except with respect to the following matters: _____.

**F.2** For purposes of determining the Majority Holders or Majority Claims Holders pursuant to Section 11.1(a) of the Standard Terms and Conditions:

☐ the interests or claims held by Seller for its own account shall be counted;

☐ the interests or claims held by Seller for its own account shall not be counted;

☒ Not applicable;

AND

☐ the interests or claims held by Affiliates of Seller shall be counted.

☐ the interests or claims held by Affiliates of Seller shall not be counted.

☒ Not applicable.

**G. SECTION 15 (ELEVATION)**

**G.1** Select one:

☒ There is no Elevation Transfer Fee.

☐ The Elevation Transfer Fee shall be paid as follows:

☐ The Elevation Transfer Fee shall be paid by Seller to the Agent and Buyer shall reimburse Seller in an amount equal to
- ☐ one-half thereof.
- ☐ [other relevant fraction or percentage] _____ thereof.

☐ The Elevation Transfer Fee shall be paid by Buyer to the Agent and Seller shall reimburse Buyer in an amount equal to
- ☐ one-half thereof.
- ☐ [other relevant fraction or percentage] _____ thereof.

**G.2** If "No" is specified opposite "Elevation" in the Transaction Summary, then select one:

☐ No Elevation shall be permitted unless requested by Seller and otherwise subject to Section 15.

☐ Subject to Section 15, Seller may at any time request an Elevation and Buyer may request an Elevation only in the following circumstances: _____
_____.

**H. SECTION 31 (ADDITIONAL PROVISIONS)**

The following additional provisions, including any modifications to existing provisions, apply:

"**Claimant Trust**" has the meaning set forth in the Indemnity Trust Agreement

"**Direction Letter**" means that certain Direction Letter, dated as of the Agreement Date, by and among Seller, HCMLP GP LLC, Highland Claimant Trust, and Buyer.

"**Indemnity Trust Agreement**" means that certain First Amended and Restated Indemnity Trust Agreement, dated as of July 1, 2024, by and among the Highland Claimant Trust, as grantor (the "**Grantor**"), James P. Seery, Jr., as indemnity trust administrator, Wilmington Trust, National Association, a national banking association, as indemnity trustee, for the benefit of Beneficiaries, and as the Delaware trustee, as the same may be amended, modified or supplemented from time to time.

"**Lender**" means a Payee under the Note.

"**Purchase Price**" means none (for the avoidance of doubt, the Participation shall constitute a contribution by the Grantor to Buyer pursuant to the Direction Letter and in accordance with the Indemnity Trust Agreement).

"**Settlement Date**" means the Agreement Date.

For the avoidance of doubt, Buyer is entitled to all interest accrued and unpaid on the Note through the Agreement Date.

Until the earlier of (x) the termination of this Agreement and (y) thirty (30) day's prior written notice by either Party to the Party, Seller shall provide the following services for the benefit of Buyer with respect to the Note:

(i) Maintain the schedule of Annual Installments (as defined in the Note);

(ii) Monitor the Borrower's compliance with the terms of the Note;

(iii) Confirm wire instructions and amounts for payments under the Note with the Borrower's personnel;

(iv) Communicate with the Borrower as needed, including with respect to noticing any events of default;

(v) Provide bookkeeping and fair value information to Buyer and perform other related miscellaneous requests with respect to the Note and the Participation, in each case, as reasonably requested by Buyer.

As consideration for providing such services, Buyer shall pay to Seller an annual fee equal to 10 bps of Buyer's share of the then outstanding principal amount of the Note. Such fee shall be payable only to the extent the Borrower makes its required Annual Installment payment to Seller under the Note, and notwithstanding anything in this Agreement to the contrary, Seller shall be permitted to set-off the amount of such fee against Buyer's right to receive payments with respect to the Transferred Rights and the Participation.

**IN WITNESS WHEREOF**, Seller and Buyer have executed this Agreement by their duly authorized officers or representatives as of the Agreement Date.

**SELLER**

**HIGHLAND CAPITAL MANAGEMENT, L.P.**

**By: HCMLP GP LLC, its General Partner**

By:_____
Name: James P. Seery, Jr.
Title: President

**BUYER**

**HIGHLAND INDEMNITY TRUST**

By:_____
Name: James P. Seery, Jr.
Title: Indemnity Trust Administrator

**ANNEX TO PARTICIPATION AGREEMENT FOR PAR/NEAR PAR TRADES**

This Participation is a “true-participation” intending to transfer all of Seller’s right, title and beneficial interest in and to the Loans to Buyer.

The amount of any PIK Interest that accreted to the principal amount of the Loans on or after the Trade Date but on or prior to the Settlement Date is $0.

DRAFT – PRIVILEGED AND CONFIDENTIAL

# THE DUGABOY INVESTMENT TRUST

## $18.17 MILLION PROMISSORY NOTE OWED TO HCMLP

## FEBRUARY 2024

HIGHLAND CAPITAL MANAGEMENT

# DUGABOY INVESTMENT TRUST

## EXECUTIVE SUMMARY

- The Dugaboy Investment Trust ("Dugaboy") is a Delaware Trust established in 2010 for the benefit of Jim Dondero ("Dondero")
- [redacted]:
  - 100% LP interest in NexPoint Advisors, Dondero's flagship real estate investment platform
  - Significant portfolio of publicly traded Dondero-managed entities as well as privately held real estate investments and other private investments
  - [redacted]
- Dugaboy was the Maker of a Promissory Note (the "Original Note") dated 12/28/16 in the face amount of $23,817,639.58 owed to The Get Good Non-Exempt Trust [1] as Payee
  - The Get Good Non-Exempt Trust assigned 97.6835% of its interest in the original note to HCMLP on 12/28/16, retaining 2.3165%
  - The Original Note was replaced by an Amended Note in the face amount of $24,198,069.28 dated 5/31/17 and further replaced by a Promissory Note (the "Note") in the face amount of $24,268,621.69, also dated 5/31/17
  - The current face amount owed to HCMLP under the Note is $18,174,936.62 [2]
  - Despite raising defenses with other notes owed by Dondero-affiliated entities, Dugaboy's trustee affirmed under oath that no similar oral agreements existed beyond those specific notes [3]
  - Dugaboy's counsel in fact asserted that "there is no dispute that . . . Dugaboy has been making (and continues to make) payments on the Dugaboy Note and that there is little risk of Dugaboy defaulting on the Dugaboy Note" [4]
- Terms of the Note:
  - Unsecured note due 12/31/46 [5]
  - Interest: 3.26% payable annually on December 31
  - Amortization: 1 / 30 of original principal amount owed annually on December 31 ($790k owed annually to HCMLP, or 4.35% of the current principal amount)
- HCMLP is offering this Note at 50% of par, or $9,087,468.31 / IRR of 13.6%
  - Proposed sale process will include a $3mm overbid should another bidder come in at a higher price than initial bidder

[1] Dondero trust which is currently not believed to hold significant assets
[2] Principal amount owed following the December 2023 amortization payment
[3] *Appendix in Support of Highland Capital Management, LP's Motion for Partial Summary Judgement in Notes Actions* (Adv Case No. 19-34054, Docket #0127)

[redacted]

**EXHIBIT 6**

DRAFT PRIVILEGED AND CONFIDENTIAL

# THE DUGABOY INVESTMENT TRUST

## $18.17 MILLION PROMISSORY NOTE OWED TO HCMLP

## FEBRUARY 2024

HIGHLAND CAPITAL MANAGEMENT

# DUGABOY INVESTMENT TRUST

## EXECUTIVE SUMMARY

- The Dugaboy Investment Trust ("Dugaboy") is a Delaware Trust established in 2010 for the benefit of Jim Dondero ("Dondero")
- [redacted]
  - 100% LP interest in NexPoint Advisors, Dondero's flagship real estate investment platform
  - Significant portfolio of publicly traded Dondero-managed entities as well as privately held real estate investments and other private investments
  - [redacted]
- Dugaboy was the Maker of a Promissory Note (the "Original Note") dated 12/28/16 in the face amount of $23,817,639.58 owed to The Get Good Non-Exempt Trust [1] as Payee
  - The Get Good Non-Exempt Trust assigned 97.6835% of its interest in the original note to HCMLP on 12/28/16, retaining 2.3165%
  - The Original Note was replaced by an Amended Note in the face amount of $24,198,069.28 dated 5/31/17 and further replaced by a Promissory Note (the "Note") in the face amount of $24,268,621.69, also dated 5/31/17
  - The current face amount owed to HCMLP under the Note is $18,174,936.62 [2]
  - Despite raising defenses with other notes owed by Dondero-affiliated entities, Dugaboy's trustee affirmed under oath that no similar oral agreements existed beyond those specific notes [3]
  - Dugaboy's counsel in fact asserted that "there is no dispute that . . . Dugaboy has been making (and continues to make) payments on the Dugaboy Note and that there is little risk of Dugaboy defaulting on the Dugaboy Note" [4]
- Terms of the Note:
  - Unsecured note due 12/31/46 [5]
  - Interest: 3.26% payable annually on December 31
  - Amortization: 1 / 30 of original principal amount owed annually on December 31 ($790k owed annually to HCMLP, or 4.35% of the current principal amount)
- HCMLP is offering this Note at 50% of par, or $9,087,468.31 / IRR of 13.6%
  - Proposed sale process will include a $3mm overbid should another bidder come in at a higher price than initial bidder

[1] Dondero trust which is currently not believed to hold significant assets
[2] Principal amount owed following the December 2023 amortization payment
[3] *Appendix in Support of Highland Capital Management, LP's Motion for Partial Summary Judgement in Notes Actions* (Adv Case No. 19-34054, Docket #0127)
[4] Dugaboy's *Brief in Support of the Motion to Dismiss, or in the alternative, Motion for More Definite Statement* entered on 4/30/21 (Adv Case No. 20-03195, Docket #30)
[5] The note states that the final maturity date is 12/31/47, however it also states the note principal is due in thirty equal annual installments beginning 12/31/17, which would make the final installment due 12/31/46

# DUGABOY INVESTMENT TRUST

## SUMMARY TERMS OF DUGABOY PROMISSORY NOTE

| | |
|---|---|
| **Maker:** | The Dugaboy Investment Trust |
| **Facility:** | Promissory Note dated 5/31/2017 in the principal amount of $24,268,621.69 payable to Highland Capital Management, LP (97.6835% = $23,706,439.07) and The Get Good Non-Exempt Trust (2.3165% = $562,182.62) |
| **Current Principal:** | Principal Payable to Highland Capital Management is currently $18,174,936.62 (76.67% of original principal amount following amortization payments which occurred between 2017 - 2023) |
| **Security:** | None |
| **Guarantor:** | None |
| **Maturity:** | 12/31/2046 |
| **Interest Rate:** | 3.26%, compounding annually on May 31 and payable annually on December 31 |
| **Amortization** | 1 / 30 of original principal amount payable annually on December 31 (4.35% of current principal amount) |
| **Call Protection:** | None. Maker may prepay in whole or in part the unpaid principal or accrued interest of the Note |
| **Event of Default:** | Failure to pay this Note or any installment as it becomes due; immediate acceleration upon default. Cost of collection expressly included in note terms. |
| **Covenants:** | None |

[1] Based on amortization schedule. The promissory note states the final payment date is 12/31/47 due to a scrivener's error

# DUGABOY INVESTMENT TRUST

## SUMMARY OF DONDERO-AFFILIATED NOTES DUE TO HCMLP

- Highland is in the process of collecting on notes owed by Dondero-affiliated entities, which are in default [1]
- Dondero-affiliates raised a number of defenses, including the existence of an alleged oral agreement with Nancy Dondero as Trustee of Dugaboy and holder of a majority of HCMLP units that the notes would be forgiven contingent on Dondero's monetization of certain assets [2]
- On 1/17/23, the Bankruptcy Court filed a supplemental report and recommendation finding the Dondero-affiliates liable for the notes under Highland's motion for summary judgement
- On 7/6/23, the United States District Court, Northern District of Texas, Dallas Division adopted and approved the Bankruptcy Court's Report and Recommendation on HCMLP's motion for summary judgement on the notes and subsequently entered amended final judgements against the Dondero entities
- Defendants have paid the judgement amounts into the court registry, pending appeal to the United States Court of Appeals for the Fifth Circuit

| Party | Judgement Amount | Individual Bond Amount |
|---|---|---|
| NexPoint Advisors, LP | $25,849,816.94 | $28,693,296.80 |
| NexPoint Real Estate Partners, LLC | $13,251,661.00 | $14,709,343.70 |
| James Dondero | $10,152,391.87 | $11,269,154.90 |
| NexPoint Asset Management, LP | $8,441,524.65 | $9,370,092.36 |
| Highland Capital Management Services, Inc. | $7,578,620.41 | $8,412,268.66 |
| NexPoint Asset Management, LP | $3,628,692.37 | $4,027,848.53 |
| **Total** | **$68,902,707.24** | **$76,482,004.95** |

[1] Nexpoint Assset Management, LP was a defendant in two adversary actions and final judgements were handed down in both, which is why there are two discrete judgements against this entity

[2] [redacted]

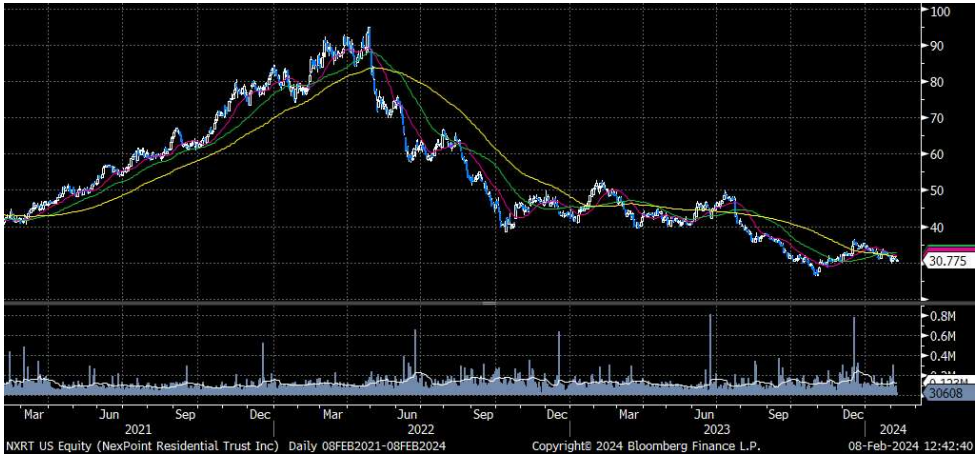
## DUGABOY SECURITIES PORTFOLIO: NXRT

### Business Overview



- NexPoint Residential Trust, Inc ("NXRT") is an externally advised, publicly traded real estate investment trust (REIT)focused on the acquisition, asset management, and disposition of multifamily assets, located primarily in the Sun Belt region of the United States.
- The company pursues investments in class B multifamily real estate properties, typically with a value-add component, where it can invest significant amounts of capital to provde "life-style" amenities to "workforce" housing.
- NXRT was formed via a spin-off from the predecessor to NXDT, which at the time was a closed end fund (NHF)
- NXRT is NexPoint's flagship investment product

### Capital Structure

NexPoint Residential Trust, Inc
*Capital Structure as of 9/30/23*

| | $mm | x LTM EBITDA |
|---|---|---|
| Mortgages payable | $ 1,575 | |
| Credit Facility | $ 41 | |
| Total Debt | $ 1,616 | 11.7x |
| Cash | $ 10 | |
| Net Debt | $ 1,606 | 11.6x |
| Equity Value | $ 769 | |
| Enterprise Value | $ 2,375 | 17.2x |

### NXRT Chart

### Considerations

- Dugaboy owns 7.6% of outstanding NXRT shares
- NXRT benefited from 2015-21 from era of low interest rates
- Growth story has been challenged recently as company forced to sell assets to reduce leverage
- Currently 36% of debt matures by 2026 and carries a weighted average floating rate of 6.3%
- $21.6mm of run-rate annual fees are being waived by NexPoint Advisors, whose LP interest is 100% owned by Dugaboy, therefore if NXRT fundamentals can improve it represents significant upside to Dugaboy through both share appreciation and revenue

# 6.27.24

HIGHLAND CAPITAL MANAGEMENT

CONFIDENTIAL. INTERNAL USE ONLY. NOT FOR PUBLIC DISTRIBUTION.

# SUMMARY OF BACKGROUND AND RECOMMENDATION

- As has been discussed at several prior meetings, Dugaboy is the Maker and HCMLP is a Payee under a promissory note with a long-dated maturity and annual P&I payments
- The note has a current principal balance of approximately $18.2 million and has accrued interest of approximately $0.3 million as of June 30, 2024 and has no restrictions with respect to assignment.
  - The next payment is due December 31, 2024, with $0.8 million of principal and $0.6 million of interest due
  - Subsequent payments are due on December 31 of each year - $0.8 million of principal, plus accrued interest
  - See next slide for amortization schedule
- During 1H 2024, Highland has engaged with numerous parties in an attempt to determine the market for the note and ultimately to assign the note if a willing buyer was prepared to offer reasonable value in exchange
- These efforts (as described in greater detail herein) ultimately proved unsuccessful as neither Dondero parties nor third parties ultimately made any (let alone an attractive) bid for the note
- While the asset lacks a liquid market and carries with it all the stigma and risks associated with its Maker, the note is nevertheless currently performing and has some value
  - However, the time horizon to monetization is long and mismatched with the timing of other remaining assets of HCMLP and the Claimant Trust
- Separately, regarding reserves for indemnification obligations, the Indemnity Trust remains well short of it's 9-figure target
- [redacted]

# SUMMARY OF OUTREACH EFFORTS

| Potential buyer | Person contacted | Title | Initial date contacted | Information/materials provided | Responses |
|---|---|---|---|---|---|
| Riva Ridge Capital Management | Stephen Golden | Founding Partner/PM | 2/27/24 | Over telephone, discussed information in HCMLP-prepared materials and the opportunity | Asked questions regarding the counter-party; rejected receipt of the materials; no interest at all; "life's too short"; actually laughed; stated that while the note was performing, that was for now; in his view the note was an invitation to litigate |
| Cyrus Capital Partners | Svetoslav Nikov | Partner/Analyst | 2/27/24 | Over telephone, discussed information in HCMLP materials and the opportunity | Very quick no; no interest in the materials; believes owning the note is asymmetric risk to the downside – if it pays back, a modest return for the risk; if it defaults, your investors will want to know why you would voluntarily become a creditor to Dondero. Compared the opportunity to the chance to lend money to Phil Falcone. Once again said "life's too short to be a creditor of Dondero" |
| Carronade Capital Management | Dan Gropper | Managing Partner/CIO | 2/23/24 | Initial email mentioning note; lunch meeting with Gropper and head of research Andy Taylor on 2/29/24; reviewed materials at lunch meeting | Gropper and Taylor quickly expressed no interest in the note; upside vs. downside skewed (far too much downside); even if the upside was better balanced, the likelihood of litigation over such a small note made the investment unattractive (even if you got costs of collection); asset transfers out of Maker also a concern; Gropper and Taylor did not want to keep the materials |
| UBS | Nader Attalla | Structured Credit Trading; responsible for day-to-day management of UBS actions against Dondero | 2/23/24 | Initial email mentioning note; follow-up call and emailing of "teaser" | Two calls in March and early April; he has been too busy to focus on it; troubled by the fact that it does not cross-default with other Dugaboy obligations; while UBS is suing Dondero and Dugaboy on other obligations torts, making this note potentially useful at the right price, UBS ultimately did not have a bid |
| Bardin Hill Investment Partners | Pratik Desai | Partner/PM | 6/7/24 | Initial email with "teaser" and requesting follow-up call | 30 minute call on June 10, 2024; reviewed teaser with Desai; questions regarding background of note; why it had not been accelerated; payment history; terms; Dugaboy's assets and liabilities; payback period at various discounts; ultimately would require a material discount to 50% soft offer; asked about lending against the note and/or other Claimant Trust assets with material haircuts. Bardin Hill would not be interested in being a direct counterpart to Dondero especially if that was their only recourse; Bardin Hill would consider ways to lend against the note or other assets if the Claimant Trust was in need of $10-$20 million of liquidity |
| NexPoint/affiliates | Matt McGraner & DC Sauter | CIO<br>General Counsel | 5/16/24 | Email with description of note; Indicated nonbinding offer price of $12M, subject to approval of Oversight Board | DC Sauter responded via email of 5/22/24 that they were not currently interested in the terms outlined. If the terms change, they would be interested in taking another look. They did not have a bid of their own. |

CONFIDENTIAL. INTERNAL USE ONLY. NOT FOR PUBLIC DISTRIBUTION.

# VALUATION AND DISCLOSURE DISCUSSION

- [redacted]
- [redacted]
- [redacted]
- [redacted]
- Based on these and other factors considered, we believe the actual fair value of the note for a non-Dondero-related buyer is approximately ***$3.9*** million or ***21.5%*** of the current par value outstanding

DC,
Thanks for the response. As you are not interested in the note, we will move forward with another transaction. With respect to other settlements, we would be happy to engage whenever you are ready. Thanks and have a nice long weekend.
-Dave

Dave, thanks for following up, and sorry for not responding. We're not currently interested in the terms you outline below, but I think it's a positive thing if we can continue to resolve some of these outlying issues on mutually agreeable terms. If the terms of your proposed transaction change, we'd certainly be interested in taking another look.

Regards,

**D.C. SAUTER**

Matt/DC,
I have not heard anything back from you on the Dugaboy note and other assets mentioned in my email last week. Please let me know if there is any interest in the assets for NexPoint or any of its affiliates. If not, we will go forward with other transactions. I understand you are likely busy but would appreciate if you would confirm that you are passing by tomorrow morning. Thanks.
-Dave

**To:** Matt McGraner <MMcGraner@Nexpoint.com>
**Cc:** DC Sauter <DSauter@Nexpoint.com>
**Subject:** Dugaboy note and misc

Matt/DC,

I wanted to reach out to you on a few points to see if there was any interest amongst the NexPoint affiliated entities. While much of this doesn't fit neatly into your team's world like SE Multi and NHT, the fact that we were able to get those assets traded gives me some hope that traction may be possible in other places. Hoping you may have some feedback on the following:

Dugaboy Note
I'd be happy to provide more details on the note itself, or you could verify these points with Dugaboy's accountant, but the basics are as follows and it's quite a simple asset:

- Principal outstanding to Highland - $18,174,936.62
- Interest rate – 3.26% fixed
- WAL (yrs) – 10.5
- Payments – P+I Due December 31 each year (next payment due 12/31/24)
  - Minimum principal amort to Highland - $790,214.64 each year
  - Next interest payment to Highland is $594,126.23
  - Combined payment of $1,384,340.87 due 12/31/24
- Final payment date– December 31, 2046

This note wasn't part of the "notes litigation" and has not been accelerated because Dugaboy has stayed current on its payments.

Before we complete a transfer of the Dugaboy note, we wanted to at least check NexPoint's/Dondero's interest in buying it back. The following is a summary of the price and terms by which Highland would consider offering to sell the note. These terms are indicative and nonbinding and nothing in this email constitutes a firm commitment. Any firm offer to sell must be in a writing signed by Highland's CEO after approval of the Claimant Trust Oversight Board.

Purchaser – NexPoint Advisors, LP or its affiliates
Proposed purchase price (the "Purchase Price") - $12,000,000.00 in cash
a. Purchase Price as % of principal outstanding – Approximately 66%
b. Discount to current principal outstanding - $6,174,936.62
c. Implied purchaser IRR – Approximately 9%

Trades flat – Purchase Price represents the total amount of consideration to be paid
Closing – on or before May 31, 2024
"As-is, where-is" with no reps or warranties, except ownership and authority to sell

Our willingness to consider any discount is simply to facilitate an immediate sale of the note and does not impact our view of value.

Please revert to us by close of business on Wednesday, May 22, 2024 with any feedback you may have. If you desire to move forward, we will promptly seek Oversight Board approval and prepare documentation with a firm offer. If we don't hear from you, we'll be taking that to mean there is no interest.

Ginn
It's a small stub position, but Highland/Highland-managed funds have ownership interests in Ginn (A & B loans and LLC units). We believe NexPoint also has ownership through its affiliated entities, and understand Matt DiOrio is currently serving as a Director of G-LA Resorts Holdings, LLC. We'd be willing to sell these interests to NexPoint or one of its affiliates for nominal consideration to facilitate the further wind down of entities, which will cost more to maintain than the prospective value that may eventually come out of Ginn, which we understand could take up to several more years. We thought this might be appealing to you since it wouldn't create incremental monitoring burden to your team. If interested, just let me know and I'd be happy to help coordinate documentation.

Global resolution

Since the unsuccessful mediation last October, it's been quiet on this front, but the framework that Highland would consider is essentially unchanged. The level of indemnification reserves needed for indemnified parties and the cash on hand that needs to be maintained for future expenses could be reduced with agreement to broad, unequivocal releases and a permanent cessation of litigation. Dondero's counsel has Highland's position with respect to the scope of these items, which have not changed since the mediation and remain the gating issue to begin a substantive conversation. I raise this point only to highlight that the door is open if he'd like to engage at all – whether now or in the future. I don't want to be wasting peoples' time, but it shouldn't go unsaid either.

Thank you,
Dave

# The Dugaboy Investment Trust Fair Value Template

**Issuer / Industry:** The Dugaboy Investment Trust
**Short Name** Dugaboy
**Date of Valuation:** 06/28/24

**Portfolio Manager:** n/a
**Analyst:** n/a

**Facility Name:** Promissory Note **Method:** Payback Period **Consistent:** Yes **06/28/24 Mark:** $ 3,900,000 **05/31/24 Mark:** $ 18,174,937 **Variance:** $ (14,274,937) **Variance %:** -78.5%

## Background:

**Company Description:** *(Alt+Enter to skip lines in cell)*

The Dugaboy Investment Trust ("Dugaboy") is a Delaware Trust established in 2010 for the benefit of Jim Dondero ("Dondero"). Dugaboy is believed to be one of Dondero's most significaant personal assets, holding among other itesm: 100% LP interest in NexPoint Advisors, Dondero's flagship real estate investment platform; significant portfolio of publicly traded Dondero-managed entities as well as privately held real estate investmentes and ther private investments; a potential claim to a contingent unvested derivative interest in the HCMLP estate through Dugaboy's purported claimon Hunter Mountain Investment Trust.

**Asset Description:**

Dugaboy was the Maker of a Promissory Note (the "Original Note") dated 12/28/16 in the face amount of $23,817,639.58 owed to The Get Good Non-Exempt Trust as Payee. The Get Good Non-Exempt Trust assigned 97.6835% of its interest in the original note to HCMLP on 12/28/16, retaining 2.3165%. The Original Note was replaced by an Amended Note in the face amount of $24,198,069.28 dated 5/31/17 and further replaced by a Promissory Note in the face amount of $24,268,621.69, also dated 5/31/17. The current face amount owed under the Note to HCMLP is $18,174,936.62 (76.67% of the original principal amount following amortization payments which occured between 2017-2023).

**Terms of the Note:**

Unsecured note due 12/31/46 (the note states that the final maturity date is 12/31/47, however it also states the note principal is due in thirty equal annual installments beginning 12/31/17, which would make the final installment due 12/31/46). Interest: 3.26% payable annually on December 31. Amortization: 1/30 of original principal amount owed annually on December 31 ($790k owed annually to HCMLP, or 4.35% of the current principal amount). Call Protection: none; Maker may prepay in whole or in part the unpaid principal or accrued interest of the Note. Event of Default: failure to pay this Note or any installment as it becomes due; immediate acceleration upon default. Cost of Collection: expressly included in note terms. Covenants: none.

## Estimated Current Non-GAAP Balance Sheet, Net of Secured Debt [1]

*USD $mm*

| Assets | | Liabilities | |
|---|---|---|---|
| Private Investments | $ 111.1 | Note owend to Jim Dondero [2] | $ 110.5 |
| Net Securities + Real Estate | $ 69.3 | Note owed to HCMLP | $ 18.2 |
| Notes Receivable | $ 22.8 | Other Liabiliies | $ 16.2 |
| Cash | $ 17.7 | Total Liabilities [3] | $ 144.9 |
| Other Assets | $ 0.0 | | |
| | | Equity | $ 75.9 |
| Total Assets | $ 220.8 | Total Liabilities + Equity | $ 220.84 |
| | | LTV | 65.6% |

[1] Adjust 9/30/20 Accrual Based Balance Sheet to est current FMV, assets shown net of corresponding secured debt
[2] Note potentially subject to creditor dispute
[3] Dugaboy is likely to have significant contingent liabilities in the form of guarantees on borrowings made by other entities

## Methodology

**Rationale for Methodology:**

Because of 1) the extended duration until final maturity, 2) the lack of security or covenants, 3) historical examples of Dugboy / Dondero's unwillingness to pay debts as the come due or to strip debtor entities of assets, 4) the size of the note owed to Jim Dondero and its potential temporal seniority, 5) the litigiousness of the borrower, 6) the illiquidity of the note, and 7) the risk of contingent liabilities leaving Dugaboy insolvent, a 'Payback Period' analysis was performed to value the note. Under this analysis, a fair value for the note is based on the number of amortization / interest payments (each due annually on December 31) until the purchase price is paid back. As a result of the list of associated risks noted above, a shorter payback period is heavily weighted vs longer payback periods.

**Has a 3rd party performed an appraisal in the last 12 months?** No

| | | | | | | | |
| Riva Ridge Capital Management | Stephn Golden | Founding Partner- PM | 2/27/2024 | Over telephone discussed information in HCMLP prepared materials and the opportunity | Asked questions regarding the counter-party; rejected receipt of the materials; no interest at all; "life's too short" | None | Acutally laughed; stated that while the note was performing, that was for now; in his view the note was an invitation to litigate |
| | | | | | | | |
| Cyrus Capital Partners | Svetoslav Nikov | Partner/Analyst | 2/27/2024 | Over telephone, discussed information in HCMLP materials and the opportunity | Very quick no; no interest in the materials; believes owning the note is asymetric risk to the downside -- if it pays back, a modest return for the risk; if it defaults, your investors will want to know why you would voluntarily become a creditor to Dondero. Compared the opportunity to the chance to lend money to Phil Falcone. Once again said "lifes too short to be a creditor of Dondero" | None | |
| | | | | | | | |
| Carronade Capital Management | Dan Gropper | Managing Partner/CIO | 2/23/2024 | Initial email mentioning note; lunch meeting with Gropper and head of research Andy Taylor on 2/29/24; reviewed materials at lunch meeting | Gropper and Taylor quickly expressed no interest in the note; upside vs. downside skewed (far too much downside); even if the upside was better balanced, the liklihood of litigation over such a small note made the investment unattactive (even if you got costs of collection); asset transfers out of maker also a concern | None. Did not want to keep the materials | Small note with likely costly litigation that would be never ending makes the opportunity completely unattactive |
| | | | | | | | |
| UBS | Nader Attalla | Structured Credit Trading; responsible for day-to-day managemnet of UBS actions against Dondero | 2/23/2024 | Initial email mentioning note; follow up call and emailing of "teaser" | Two calls in March and early April; He has been too busy to focus on it; troubled by the fact that it does not cross-default with other Dugaboy obligations | Has Teaser; follow-up discussion required | UBS is suing Dondero and Dugaboy on other obligations/torts; could be useful to them at the right price |
| | | | | | | | |

| | | | | | | | |
| **Potential Buyer Firm** | **Person Contacted** | **Title** | **Date Contacted** | **Information/Materials Provided** | **Initial Responses** | **Follow-Up** | **Notes** |
| NexPoint | Matt McGraner and DC Sauter | CIO / General Counsel | 5/16/2024 | Email with description of note. Indicated nonbinding offer price of $12mm, subject to approval of oversight board. | DC Sauter responded via email on 5/22/24 that they were not currently interested in the terms outlined. If the terms change, they would be interested in taking another look. | Dave Klos sent email on 5/23/24 thanking DC Sauter for response. "As you are not interested in the note, we will move forward with another transaction." | |
| | | | | | | | |
| Bardin Hill Investment Partners | Pratik Desai | Partner/Portfolio Manager | 6/7/2024 | Initial email with "teaser" and requesting follow-up call | 30 min call on June 10, 2024; reviewed teaser with Desai; questions regarding backgorund of note; why it had not been accelerated; payment history; terms; Dugaboy assets and liabilities; payback period at various discounts; ulitimately would require a material discount to 50% soft offer; Desai asks about lending against the note and other Claimant Trust assets with material hair-cuts. Bardin Hill would not be interested in being a direct counterpart to Dondero especially if that was their only recourse. | Desai and Claimant Trust to consider ways to lend against the note and other assets in the event the Claimant Trust desires $10 million to $20 million of liquidity | Thoughtful approach; no interest in Dondero as a counterparty but would like to provided liquidity to the Trust and use a variety of assets to secure the BH advances. |

**COMPLAINT FOR (1) DISALLOWANCE OF CLAIM NO. 205 IN ITS ENTIRETY, (2) ESTIMATION OF CLAIM NO. 205 FOR ALLOWANCE PURPOSES, OR (3) SUBORDINATION OF ANY ALLOWED PORTION OF CLAIM NO. 205 OF PATRICK HAGAMAN DAUGHERTY**

[1] Highland's last four digits of its taxpayer identification number are (8357). The headquarters and service address for Highland is 100 Crescent Court, Suite 1850, Dallas, TX 75201.

Highland Capital Management, L.P., the reorganized debtor ("Highland" or the "Debtor" as applicable) in the above-captioned chapter 11 case ("Bankruptcy Case") and the plaintiff in the above-captioned adversary proceeding (the "Adversary Proceeding"), files the *Complaint for (1) Disallowance of Claim No. 205 in Its Entirety, (2) Estimation of Claim No. 205 for Allowance Purposes, or (3) Subordination of Any Allowed Portion of Claim No. 205 of Patrick Hagaman Daugherty* (the "Complaint"), alleging upon knowledge of its own actions and upon information and belief as to all other matters as follows:

## PRELIMINARY STATEMENT[2]

1. Patrick Daugherty is a former employee of, and former limited partner in, the Debtor. Mr. Daugherty filed a claim (denoted as Claim No. 205) in which he asserted a myriad of claims against the Debtor. All of Mr. Daugherty's claims were settled except his unliquidated, contingent claim that the Debtor has a continuing and indefinite obligation to make him whole if a tax refund he apparently received for tax year 2008 on account of his Partnership Interests is ever successfully challenged by the IRS.

2. As discussed below, in 2009, Mr. Daugherty was allocated his applicable losses from Highland for tax year 2008 on account of his Partnership Interests. The allocation of losses in 2009 fully satisfied the 2008 Refund line item in the 2009 Statement; Mr. Daugherty received exactly what he was entitled to receive from Highland. Accordingly, Mr. Daugherty's Claim against the Debtor for additional compensation for 2008 has no basis and the Claim should be disallowed.

3. To avoid this result, Mr. Daugherty alleges the Debtor is required to make him whole if any portion of the tax refund he received for 2008 on account of his Partnership Interest

[2] All capitalized terms used but not defined in this Preliminary Statement have the meanings given to them below.

is clawed back by the IRS—Highland's 2008 tax return is currently subject to an IRS audit. But the 2009 Statement contains no future, ongoing obligations. Under the 2009 Statement, if Mr. Daugherty received the material equivalent of the "2008 Refund" (which he apparently did), Highland's obligations have been satisfied in full. The 2009 Statement contains no ongoing obligation for Highland to defend Mr. Daugherty or indemnify him. And it would violate basic tenets of contract law to read vague and indefinite precatory language in the 2009 Statement as creating a specific continuing and binding payment obligation that can be enforced forever. This is particularly true where the agreement that governed Mr. Daugherty's employment by the Debtor expressly provided that after his separation from the Debtor, the Debtor would have no further liability or obligation to Mr. Daugherty in connection with his employment.

4. However, even if Mr. Daugherty's Claim is not disallowed in its entirely, it remains contingent on the outcome of the 2008 Audit. It is unclear when, how, or if the 2008 Audit will be finally resolved. Moreover, if the Claim is not disallowed, it will need to be estimated—after taking into account the likely outcome of the 2008 Audit, including adjustments that result therefrom—pursuant to 11 U.S.C. § 502(c). The Claim (in whatever amount) based on his partnership tax allocations must also be subordinated to the interests in Class 10 pursuant to 11 U.S.C. § 510(b).

## JURISDICTION AND VENUE

5. This Adversary Proceeding arises in and relates to Highland's Bankruptcy Case.

6. The Court has jurisdiction over this matter pursuant to 28 U.S.C. §§ 157 and 1334.

7. This matter is a core proceeding within the meaning of 28 U.S.C. § 157(b), and, pursuant to Bankruptcy Rule 7008, Highland consents to the entry of a final order by the Court if

it is later determined that the Court, absent consent of the parties, cannot enter final orders or judgments consistent with Article III of the U.S. Constitution.

8. Venue is proper in this District pursuant to 28 U.S.C. §§ 1408 and 1409.

## THE PARTIES

9. Highland is a limited partnership formed under the laws of Delaware with a business address at 100 Crescent Court, Suite 1850, Dallas, Texas 75201.

10. Upon information and belief, Defendant Patrick Daugherty is an individual residing at 3621 Cornell Avenue, Suite 830, Dallas, Texas 75205.

## STATEMENT OF FACTS

### I. The Bankruptcy Case and Mr. Daugherty's Claims

11. On October 16, 2019 (the "Petition Date"), the Debtor filed a voluntary petition for relief under chapter 11 of the Bankruptcy Code commencing the Bankruptcy Case.

12. On April 1, 2020, Mr. Daugherty filed Proof of Claim No. 67 ("Claim 67"). On April 6, 2020, Mr. Daugherty filed Proof of Claim No. 77 ("Claim 77"), which superseded and replaced Claim 67 in its entirety. On December 23, 2020, Mr. Daugherty filed Proof of Claim No. 205 (the "Claim" or "Claim 205"), which superseded and replaced Claim 77 in its entirety.

13. On February 22, 2021, this Court entered the *Order Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (ii) Granting Related Relief* [Bankr. Docket No. 1943],[3] which confirmed the *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* [Bankr. Docket No. 1808] (as amended, the "Plan"). The Plan became effective August 11, 2021 [Bankr. Docket No. 2700].

[3] Bankr. Docket No. __" refers to the docket maintained in Case No. 19-34054-sgj11.

14. On December 8, 2021, the Debtor filed *Reorganized Debtor's Motion for Entry of an Order Approving Settlement with Patrick Hagaman Daugherty (Claim No. 205) and Authorizing Actions Consistent Therewith* [Bankr. Docket No. 3088] (the "Settlement Motion").

15. This Court approved the Settlement Motion on March 8, 2022 [Bankr. Docket No. 3298] (the "Settlement Order"), disallowing Claim 67 and Claim 77 with prejudice and resolving all of Claim 205 other than Mr. Daugherty's claim for the 2008 Refund.

## II. Mr. Daugherty Was Employed by the Debtor and Became a Limited Partner

16. Mr. Daugherty was hired by the Debtor in 1998. Later, he became eligible to participate in the Debtor's long-term incentive plan (the "LTIP"). Pursuant to the LTIP, at various times, Mr. Daugherty received limited partnership interests in the Debtor (the "Partnership Interests") and became one of the Debtor's limited partners. At all relevant times with respect to Claim 205 as it relates to the 2008 Tax Refund, Mr. Daugherty's employment was governed by an *Amended and Restated Employment Agreement*, dated as of December 31, 2004 (the "Employment Agreement"). For the 2008 tax year, Mr. Daugherty was allocated 0.740262% of the taxable losses of the Debtor on account of his Partnership Interests.

17. Because the Debtor was a limited partnership, it was a pass-through entity for tax purposes and paid no federal income tax. The Debtor's limited partners, including Mr. Daugherty, were therefore required to pay individual federal income taxes (among other taxes) based on, among other things, their allocable share of the Debtor's income, if any, or could use their allocable share of any losses to offset other current income or, in certain circumstances, carry back losses, and receive a tax refund from the Internal Revenue Service (the "IRS"). Thus, because of his Partnership Interests, Mr. Daugherty was entitled to receive a pass through of his allocable share of any taxable gains or losses generated by the Debtor. Taxable gains increase tax liability; taxable losses decrease tax liability.

## III. The 2009 Statement and IRS Audit

18. On February 27, 2009, the Debtor provided Mr. Daugherty with a *Comprehensive Compensation and Benefits Statement* recapping all earnings, awards, and benefits Mr. Daugherty received in connection with his employment by and Partnership Interests in the Debtor during calendar year 2008 (the "2009 Statement"). A true and accurate copy of the 2009 Statement is attached hereto as **Exhibit A**. Such statements were provided to all employees each year at the conclusion of the annual performance review and bonus cycle.

19. The 2009 Statement included what Highland estimated to be the tax refund Mr. Daugherty could expect for tax year 2008 in the amount of $1,475,816 (the "2008 Refund"). That amount purported to be an estimate of the pre-tax equivalent refund that Mr. Daugherty should have expected to receive from the IRS on account of the losses attributable to his Partnership Interests for the 2008 tax year.

20. The 2008 Refund was "an estimated amount" based on the notion that losses in 2008 would equal or exceed total partnership gains that had been allocated to Mr. Daugherty in tax years 2005, 2006, and 2007 and assuming a 27% effective tax rate for each year for all of the employee limited partners. The amount was then "grossed up" by 35% so that Mr. Daugherty could compare it to the value of the other benefits for being a Debtor partner and employee[4]. Finally, the estimated partner tax refund amount was calculated without reference to Mr. Daugherty's other personal tax attributes for the 2008 tax year or prior years, and partners were advised that each person's own actual refund may vary based on their own effective tax rate.

21. While the 2009 Statement vaguely noted that "[i]f actual refund deviates materially from estimate, other compensation will be fairly adjusted," partners like Mr.

[4] The calculation of the 2008 Refund was therefore 2005-2007 allocated income of $3,552,890 x 27% or $959,280. Then the $959,280 was divided by 35% for a "pre-tax" calculated amount of $1,475,816.

Daugherty were told that the tax refund amounts were "not guaranteed," and that if refund amounts were different, Highland would merely "consider what action to take on a case-by case basis, considering several factors."

22. As reflected on his K-1 for tax year 2008 (the "2008 K-1"), Mr. Daugherty was allocated ordinary business losses by Highland in excess of $4 million, along with other losses that well-exceeded the allocated income from 2005-2007.[5] As shown in the 2008 K-1, Mr. Daugherty received what he was promised in the 2009 Statement, if not more.

23. After the obligations to Mr. Daugherty under the 2009 Statement had been satisfied, the IRS began an audit of Highland's 2008 tax return (the "2008 Audit").[6] On information and belief, the 2008 Audit is not yet fully resolved.

24. On October 31, 2011, Mr. Daugherty terminated his employment with Highland. Pursuant to the express conditions of his Employment Agreement, Mr. Daugherty acknowledged and agreed that the Debtor would "have no further liability or obligation to [Mr. Daugherty] under [the Employment Agreement] or in connection with his/her employment of termination."

## IV. The Alleged Basis for the Claim

25. In the Claim, Mr. Daugherty demands the Debtor pay him $2,650,353, which consists of the full amount of the 2008 Refund ($1,475,816) plus interest of $1,174,537.[7] Mr.

[5] In the simplest terms, to determine whether an individual owes additional taxes or is entitled to a refund, income or losses are multiplied by the applicable tax rate. As an example, in a vacuum, $4 million of taxable losses allocated to an individual in the 27% bracket would result in $1.1 million of benefit in terms of reduction to their taxes owed ($4 million x 27% = $1.1 million). Likewise, $1 million of adjusted gross income resulting from W-2 wage income for an individual would result in $270,000 of tax liability for an individual whose effective tax rate is 27%, all else equal.

[6] Strand Advisors, Inc. ("Strand"), is the Debtor's "tax matters partner" for purposes of defending the 2008 Audit. Control of Strand reverted to James Dondero—the Debtor's ousted founder—in 2021, and the Debtor has no role in the 2008 Audit or visibility into its current status or how it is being conducted. On information and belief, the 2008 Audit has not been resolved and is heading to court with a resolution not expected until approximately 2029.

[7] Mr. Daugherty has provided no statutory or other justification for his claim for interest nor has he provided a proposed interest rate.

HCMLPDT000009

Daugherty's theory seems to be that if, upon the conclusion of the 2008 Audit, he is required to reverse the tax loss he received as a limited partner, the Debtor must reimburse him for the entirety of the 2008 Refund with interest. In other words, Mr. Daugherty reads a continuing obligation into the 2009 Statement to indemnify him for personal income taxes he may owe, if any, as a result of the 2008 Audit.

26. However, and as set forth above, there is no such obligation in the 2009 Statement. Mr. Daugherty has no claim.

27. But even if Mr. Daugherty did have a claim (he does not), it would be unliquidated and contingent and subordinated as it arises solely from his Partnership Interests.

**FIRST CLAIM FOR RELIEF**

**(Disallowance under Bankruptcy Code 11 U.S.C. § 502(a))**

28. Highland repeats and re-alleges as if set forth herein the foregoing factual allegations.

29. Under 11 U.S.C. § 502(a) a "claim ..., proof of which is filed under section 501 [of the Bankruptcy Code], is deemed allowed, unless a party in interest ... objects." 11 U.S.C. § 502(a).

30. The ultimate burden of proof for a claim always lies with the claimant. *In re Armstrong*, 347 B.R. 581, 583 (Bankr. N.D. Tex. 2006) (citing *Raleigh v. Ill. Dep't of Rev.*, 530 U.S. 15 (2000)).

31. Mr. Daugherty received and has benefited for the past 16 years from the 2008 Refund, *i.e.*, the 2008 losses allocated to Mr. Daugherty as a Highland partner. The benefit he received from the IRS (either as a tax refund or liability reduced through offsetting of income) did not materially deviate from, and may have exceeded, the basis for the estimated 2008 Refund set forth in the 2009 Statement.

32. Accordingly, the Debtor satisfied its obligations (to the extent it even had any) under the 2009 Statement in full, and no additional, future obligations exist under the 2009 Statement. Because the Debtor has satisfied its obligations, Claim 205 should be disallowed in its entirety.

33. Moreover, even if the tax benefits he received related to tax year 2008 materially deviated from the 2009 Statement, Mr. Daugherty would not be able to recover from the Debtor based on the vague statement in the 2009 Statement that lacks the definiteness required to form a contractual obligation.

**SECOND CLAIM FOR RELIEF**

**(Estimation under Bankruptcy Code 11 U.S.C. § 502(c))**

34. Highland repeats and re-alleges as if set forth herein the foregoing factual allegations.

35. As set forth above, Mr. Daugherty has no Claim; however, to the extent the Court believes he has one, it is unliquidated and contingent on the final outcome of the 2008 Audit, including the magnitude of any adjustments. If the 2008 Audit is successfully defended, Mr. Daugherty will have no claim.

36. Under 11 U.S.C. § 502(c) "[t]here shall be estimated for purposes of allowance … (1) any contingent or unliquidated claim, the fixing or liquidation of which … would unduly delay the administration of the case …."

37. The Plan was confirmed in February of 2021 and has been effective since August of 2021. Mr. Daugherty's Claim is the last unresolved claim[8] against the estate.

38. It is currently unknown when, if, or how the 2008 Audit will be resolved.

[8] The Equity Interests in subordinated Class 10 and further subordinated Class 11 have not been allowed under the terms of the Plan.

39. Accordingly, the Debtor requests that this Court estimate the Claim—after taking into account the likelihood and degree to which the 2008 Audit will be successful or unsuccessful—under 11 U.S.C. § 502(c) for purposes of allowance and distribution.

**THIRD CLAIM FOR RELIEF**

**(Subordination under Bankruptcy Code 11 U.S.C. § 510(b))**

40. Highland repeats and re-alleges as if set forth herein the foregoing factual allegations.

41. Under the Bankruptcy Code,

> a claim arising from rescission of a purchase or sale of a security of the debtor or of an affiliate of the debtor, for damages arising from the purchase or sale of such a security, or for reimbursement or contribution allowed under section 502 on account of such a claim, shall be subordinated to all claims or interests that are senior to or equal the claim or interest represented by such security ….

11 U.S.C. § 510(b). Section 510(b) requires the subordination of claims arising from the purchase of the equity itself and all claims arising thereafter as incidents of ownership. *In re SeaQuest Diving, LP*, 579 F.3d 411, 421 (5th Cir. 2009).

42. Section 510(b) applies to the ownership of limited partnership interests. *Templeton v. O'Cheskey (In re Am. Hous. Found.)*, 785 F.3d 143, 154 (5th Cir. 2015).

43. Mr. Daugherty owned the Partnership Interests, and his Claim is contingent on the IRS clawing back the 2008 Refund he received on account of those Partnership Interests through the 2008 Audit.

44. But for the Partnership Interests, Mr. Daugherty would not have been entitled to the 2008 Refund nor would Mr. Daugherty have any potential liability to the IRS from the 2008 Audit. A nexus or causal relationship exists between Claim 205 and the "purchase" of the Partnership Interests.

45. Accordingly, judgment should issue declaring that the Claim—to the extent it is not disallowed in full—is subordinated pursuant to 11 U.S.C. § 510(b) and shall, subject to such other defenses or objections as may exist with respect to the Claim, have the same rank and priority as Class 11 under the Plan.

**PRAYER**

WHEREFORE, Highland prays for judgment as follows:

1. For the disallowance of the Claim in its entirety;

2. For estimation for the Claim for purposes of allowance and distribution;

3. For subordination of the Claim;

4. For damages and costs of suit, including attorneys' fees, incurred in connection herewith; and

5. For such other and further relief as the Court deems just and proper.

**INSTRUCTIONS**

The filing of a bankruptcy case creates an "estate" under the jurisdiction of the bankruptcy court which consists of all of the property of the debtor, wherever that property is located. Because the bankruptcy estate is so extensive and the jurisdiction of the court so broad, there may be lawsuits over the property or property rights of the estate. There also may be lawsuits concerning the debtor's discharge. If such a lawsuit is filed in a bankruptcy court, it is called an adversary proceeding.

A party filing an adversary proceeding must also complete and file Form 1040, the Adversary Proceeding Cover Sheet, unless the party files the adversary proceeding electronically through the court's Case Management/Electronic Case Filing system (CM/ECF). (CM/ECF captures the information on Form 1040 as part of the filing process.) When completed, the cover sheet summarizes basic information on the adversary proceeding. The clerk of court needs the information to process the adversary proceeding and prepare required statistical reports on court activity.

The cover sheet and the information contained on it do not replace or supplement the filing and service of pleadings or other papers as required by law, the Bankruptcy Rules, or the local rules of court. The cover sheet, which is largely self-explanatory, must be completed by the plaintiff's attorney (or by the plaintiff if the plaintiff is not represented by an attorney). A separate cover sheet must be submitted to the clerk for each complaint filed.

**Plaintiffs** and **Defendants.** Give the names of the plaintiffs and defendants exactly as they appear on the complaint.

**Attorneys.** Give the names and addresses of the attorneys, if known.

**Party**. Check the most appropriate box in the first column for the plaintiffs and the second column for the defendants.

**Demand.** Enter the dollar amount being demanded in the complaint.

**Signature.** This cover sheet must be signed by the attorney of record in the box on the second page of the form. If the plaintiff is represented by a law firm, a member of the firm must sign. If the plaintiff is pro se, that is, not represented by an attorney, the plaintiff must sign.

**PATRICK DAUGHERTY'S**
**MOTION TO DISMISS**

[1] Highland's last four digits of its taxpayer identification number are (8357). The headquarters and service address for Highland is 100 Crescent Court, Suite 1850, Dallas, TX 75201.

4909-5194-8358

Defendant Patrick Daugherty ("Daugherty") moves to dismiss this action pursuant to Federal Rule of Civil Procedure 12(b)(6) (incorporated herein by Fed. R. Bankr. P. 7012(b)) for failure to state a claim upon which relief may be granted. Further, the Court should deny leave for further amendments of the Complaint, as no amendment can cure what is otherwise a fatal defect: that the IRS Audit Dispute remains pending and is not yet final.

## I. SUMMARY

1. Plaintiff filed its *Complaint for (1) Disallowance of Claim No. 205 in its Entirety, (2) Estimation of Claim no. 205 for Allowance Purposes, or (3) Subordination of Any Allowed Portion of Claim No. 205 of Patrick Hagaman Daugherty* [Docket No. 1] (the "Complaint") in the face of a Settlement Agreement approved by this Court on March 8, 2022,[2] that mandates a stay of any litigation by and between Plaintiff and Daugherty until the Internal Revenue Service ("IRS") makes a final determination regarding an IRS Audit Dispute material to Daugherty's Reserved Claim under the Settlement Agreement.[3] As Plaintiff concedes in its briefing, that IRS Audit Dispute remains unresolved.[4] Accordingly, Plaintiff's claim is premature, subject to the

[2] *See* Doc. No. 1 at ¶ 14 (citing Main Case Docket No. 3088, which itself incorporates and relies upon the "Settlement Agreement" at Main Case Docket No. 3089, Ex. 1). When reviewing a 12(b)(6) motion to dismiss, the Court "must consider the complaint in its entirety, as well as other sources courts ordinarily examine when ruling on 12(b)(6) motions to dismiss, in particular documents incorporated into the complaint by reference, and matters of which a court may take judicial notice." *Funk v. Stryker Corp.*, 631 F.3d 777, 783 (5th Cir. 2011)(quoting *Tellabs Inc. v. Makor Issues & Rights, Ltd.*, 551 U.S. 308 (2007)). In doing so, the Court may take judicial notice of its own records. *E.g., Biliouris as next friend of Biliouris v. Patman*, 751 Fed. App'x 603, 604 (5th Cir. 2019)("court may take judicial notice of the record in prior related proceedings"); *ITT Rayonier Inc. v. U.S.*, 651 F.2d 343, 345 n.2 (5th Cir. 1981)("court may… take judicial notice of its own records…"). Plaintiff incorporated the Settlement Agreement by reference in its Complaint. Daugherty also respectfully requests the Court also take judicial notice of the Settlement Agreement at Main Case Docket No. 3089 as it considers this Motion to Dismiss.

[3] All capitalized terms used but not herein defined shall have the meanings ascribed to them in the Settlement Agreement at Main Case Docket No. 3089.

[4] Indeed, Plaintiff concedes as much stating "[o]n information and belief, the 2008 Audit has not been resolved and is heading to court with a resolution not expected until approximately 2029." Docket No. 1 at ¶ 23, n. 6.

Settlement Agreement's mandatory stay, and should be dismissed for failure to state a claim upon which relief may be granted.

## II. BACKGROUND

2. On March 8, 2022, Daugherty and Plaintiff entered a Settlement Agreement to resolve, in part, his claims against Highland Capital Management, L.P. ("Debtor" or "Plaintiff"). Main Case Docket No. 3088, 3089.

3. Under that Settlement Agreement, Daugherty retained a Reserved Claim relating to an audit/dispute between the Debtor and the IRS concerning the Debtor's 2008 tax return.[5] Main Case Docket No. 3089 at Ex. 1, § 9. Critically, under the terms of the Settlement Agreement, "[a]ny litigation by and between the [Debtor] and Daugherty concerning the validity and amount of the Reserved Claim *shall be stayed* until the IRS makes a final determination with respect to the IRS Audit Dispute." *Id.* (emphasis added).

4. Despite the Settlement Agreement's mandatory stay language, Plaintiff filed its Complaint asserting three claims for relief: (1) disallowance under section 502(a) of the Bankruptcy Code; (2) estimation under section 502(c) of the Bankruptcy Code; and (3) subordination under section 510(b) of the Bankruptcy Code. *See* Docket No. 1 at ¶¶ 28-45. Each of those claims seek a determination from this Court on the "validity and amount" of Daugherty's Reserved Claim relating to the IRS Audit Dispute. Yet, Plaintiff concedes that resolution of the

[5] Although Daugherty acknowledges that for purposes of ruling on a motion to dismiss under Fed. R. Civ. P. 12(b)(6) the Court must accept as true the allegations in the Complaint, Daugherty disputes Plaintiff's characterization of the Reserved Claim. The Reserved Claim concerns a compensation and benefits contract, between Plaintiff and Daugherty relating to Daugherty's cash bonus, that was presented pursuant to a tax refund scheme developed by Plaintiff during the financial crisis in 2008 and 2009. That tax refund scheme was later challenged by the IRS. Indeed, despite Plaintiff's passing attempt to downplay the document's language as vague, the "validity and amount" issues that are the gravamen of Daugherty's Reserved Claim (which is subject to the mandatory stay) relate to whether Plaintiff's refund "deviat[ed] materially from [Debtor's] estimate" such that "other compensation [to Daugherty should have been] fairly adjusted" as promised. Docket No. 1-1. Moreover, Plaintiff's Fifth Amended Plan of Reorganization, which was confirmed by the Court, provided for "Disputed Claims" and required the Claimant Trustee under the Plan to maintain a reserve account for such claims.

IRS Audit Dispute is still pending, alleging that "Highland's 2008 tax return *is currently subject to an IRS audit*." *Id.* at ¶ 3 (emphasis added). Plaintiff further concedes "the 2008 Audit has not been resolved" and "[i]t is unclear when, how, or if the 2008 Audit will be finally resolved." *Id.* at ¶¶ 4, 23 n. 6; *see also id.* at ¶ 38. Finally, Plaintiff acknowledges Daugherty's Reserved Claim is "contingent on the final outcome of the 2008 Audit." *Id.* at ¶ 35.

5. As such, Plaintiff's claims are premature, run afoul of the Settlement Agreement's mandatory stay, and should be dismissed pursuant Fed. R. Civ. P. 12(b)(6).

## III. LEGAL STANDARD

6. To survive a motion to dismiss under Rule 12(b)(6), Plaintiff must assert a theory that could entitle it to relief. Fed. R. Civ. P. 12(b)(6). In support of that theory, a complaint must allege "sufficient factual matter" that, taken as true, "state[s] a claim for relief [that] is plausible on its face." *Ashcroft v. Iqbal*, 556 U.S. 662, 678 (2009). Plaintiff must establish more than a "sheer possibility that a defendant has acted unlawfully." *Id.* This Court need not accept as true legal conclusions or conclusory factual allegations. *Id.* "[W]hen the allegations in a complaint, however true, could not raise a claim of entitlement to relief, this basic deficiency should be exposed at the point of minimum expenditure of time and money by the parties and the court." *U.S. ex rel. Bennett v. Medtronic, Inc.*, 747 F. Supp. 2d 745, 761 (S.D. Tex. 2010) (quoting *Cuvillier v. Taylor*, 503 F.3d 397, 401 (5th Cir. 2007)) (cleaned up).

## IV. ARGUMENT

7. The final determination of the IRS Audit Dispute is a dispositive condition precedent to Plaintiff's right to commence and maintain any litigation concerning the amount or validity of Daugherty's Reserved Claim. The Complaint does not allege that a final determination has occurred, nor can it. In fact, the Complaint alleges the exact opposite: that the IRS Audit Dispute is *ongoing*. For this reason alone, the Complaint should be dismissed.

8. To the extent Plaintiff makes any claim of finality—despite not alleging it in the Complaint—that claim is the result of a fundamental misunderstanding of the administrative procedure at the IRS for auditing, assessing, and collecting tax amounts that are allegedly due following a partnership audit. There is no practical or economic effect of the IRS's *proposed* adjustment at the end of an audit beyond just that—*proposing* changes to partnership items subject to challenge by the partners, the courts, and subsequent limitations on assessment and collection.

9. Partnership audit procedures, in this case, are governed by the standards established in the Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA"). *See* 26 U.S.C. §§ 6221-6234, adopted by TEFRA, Pub. L. No. 97-248, § 402(a). TEFRA governs partnership audits for partnership years beginning after September 3, 1982, and applies generally to partnership tax years from 1983 through 2017 and subsequent tax years are governed by different rules.[6] Determinations at the partnership level are binding upon all direct and indirect partners of the partnership and, in the absence of a partnership-level proceeding, the IRS is bound by the partnership items as reported on the partnership return. *Sente Inv. Club P'Ship of Utah v. Commissioner*, 95 T.C. 243, 247-250 (1990); *Roberts v. Commissioner,* 94 T.C. 853, 862 (1990). The tax matters partner ("TMP"),[7] plays an important role in the audit and in any resulting administrative proceedings,[8] conducts judicial proceedings,[9] and is obligated to keep the partners informed.[10] The IRS has a duty to issue

[6] The Bipartisan Budget Act of 2015 repealed the TEFRA procedures entirely for partnership tax years beginning after December 31, 2017. Bipartisan Budget Act of 2015, Pub. L. No. 114-74§§ 1101(g)(1), 1101(g)(4). All references to Internal Revenue Code (IRC) provisions are TEFRA versions of those IRC provisions enacted on September 3, 1982.

[7] 26 U.S.C. § 6231(a)(7); Treas. Reg. § 301.6231(a)(7)-1.

[8] 26 U.S.C. § 6224(c)(3); Treas. Reg. § 301.6224(c)-1.

[9] 26 U.S.C. § 6226.

[10] 26 U.S.C. § 6223(g); Treas. Reg. § 301.6223(g)-1.

certain notices,[11] and partners have a right to participate in the administrative proceedings unless they waive or fail to exercise their rights.[12]

10. The IRS commences an audit by giving notice to all partners and all partners may participate in the audit, but the primary representative is the Tax Matters Partner ("TMP"). 26 U.S.C. § 6223(a); 26 U.S.C. § 6231(a)(7); Treas. Reg. § 301.6231(a)(7)-1(b)(1). A partnership audit is concluded by the IRS issuing a no-change finding or a Final Partnership Administrative Adjustment ("FPAA"). 26 U.S.C. § 6223(a)(2); Internal Revenue Manual § 8.19.12.3. The IRS is required to mail an FPAA to the TMP, all notice partners, and representatives of notice groups. The mailing of the FPAA to the TMP starts the clock on various procedures that are contingent on issuance of an FPAA. *See e.g., Triangle Investors Ltd. Partners v. Comm'r*, 95 TC 610 (1990). The mailing to the remaining partners must occur within 60 days after the mailing to the TMP. *See Byrd Invs. v. CIR*, 89 TC 1 (1988), aff'd, 853 F2d 928 (11th Cir. 1988) (procedures for mailing to partners other than TMP satisfy due process).

11. The IRS cannot assess tax resulting from adjustments to partnership items until the notice of an FPAA has been mailed, at least 150 days have elapsed after the mailing *and* the FPAA has not been contested. 26 U.S.C. § 6225(a)(1). If the IRS violates the assessment restriction, the assessment can be enjoined. 26 U.S.C. § 6225(b). If a Tax Court petition is filed within 150 days after the FPAA notice, no deficiency attributable to a partnership item may be assessed until the court's decision on the matter becomes final. 26 U.S.C. § 6225(a)(1). Partners who receive an FPAA are allowed to file a petition contesting the FPAA in the Tax Court, a federal district court, or the Court of Federal Claims. 26 U.S.C. § 6226; Internal Revenue Manual § 8.19.12.11.1.

[11] 26 U.S.C. § 6223(a)-(b); Treas. Reg. § 301.6223(b)-1, (e)-1, (e)-2.

[12] IRC § 6224(a), IRC § 6224(b); Treas. Reg. § 301.6224(a)-1, (b)-1.

12. Based on information and belief, Defendant expects that a challenge is most likely to occur in the U.S. Tax Court. In that instance, the Tax Court will employ the same reasoning applied in deficiency cases to a decision in a TEFRA proceeding. *See Cinema '84 v. Commissioner*, 122 T.C. 264 (2004). Any partner can appeal the decision, subject to the usual rules for appeals from the deciding court. 26 U.S.C. §§ 6226(g), 7485(b). Under TEFRA, there is only one appeal to one circuit court. *See* 26 U.S.C. § 7482(b)(1)(A); *Abatti v. Comm'r*, 86 T.C. 1319 (1986), *aff'd*, 859 F.2d 115 (9th Cir. 1988). If no notice of appeal is filed within the applicable period, the decision of the trial court becomes final and unappealable at the end of the appeal period. 26 U.S.C. § 7481(a)(1); *see also Benenson v. United States*, 385 F.2d 26 (2d Cir. 1967); *Richland Knox Mutual Ins. Co. v. Kallen*, 376 F.2d 360 (6th Cir. 1967).

13. If an appeal is filed, the decision becomes final after the appeal is resolved and the time to take any further appeal expires. Once the decision becomes final, the decision cannot be challenged without moving to vacate the court decision. *See* Tax Court Rule 162; *see also Tashjian v. Comm'r*, 320 Fed. App'x. 649 (9th Cir. 2009) (cannot contest partnership item decision in subsequent collection due process case for partner). The finality date is critical for determination of the statute of limitations and the IRS generally has at least one year after the date the decision becomes final to assess the partnership item adjustments. *See* 26 U.S.C. § 6229(d)(2).

14. Here, each and every one of Plaintiff's allegations is premised on speculating what the final outcome of the 2008 Audit will be. The FPAA, once one is issued, is subject to challenge and adjustment by the TMP and other partners and, if challenged, no assessment of any proposed adjustment can occur until a final decision is entered by the courts.. Even at the conclusion of all the court proceedings, which Plaintiff itself estimates will not occur until 2029,[13] the adjustments

[13] *Supra*, note 4.

may still never occur if the IRS does not follow the requirements for assessment within the given statute of limitations. In short, the issuance of an FPAA at this stage—assuming one has actually been issued—is meaningless beyond providing a clear understanding of the IRS position on certain tax return items, and is subject to challenge and potential change by the partners or the courts.

15. Therefore, Plaintiff has failed to allege any facts which give rise to plausible claims for relief against Daugherty. As a result, all claims against Daugherty should be dismissed without prejudice.

## V. DISMISSAL SHOULD BE WITHOUT PREJUDICE, AND LEAVE TO AMEND SHOULD BE DENIED

16. Leave to amend is not automatic, but "is within the sound discretion of the district court." *United States ex rel. Doe v. Dow Chem. Co.*, 343 F.3d 325, 329 (5th Cir. 2003) (internal citations omitted). Courts typically afford leave to amend at least once, however, a plaintiff should be denied leave to amend if the court determines that the proposed change is frivolous or advances a claim or defense that is legally insufficient on its face. *U.S. ex rel. Bennett v. Medtronic, Inc.*, 747 F. Supp. 2d 745, 761 (S.D. Tex. 2010); *Ayers v. Johnson*, 247 Fed. Appx. 534, 535 (5th Cir. 2007).

17. As set forth above, Plaintiff's claim is premature and as a result cannot be corrected by an amended pleading. Accordingly, should Plaintiff seek leave to amend, such request would be futile and should be categorically denied.

## VI. CONCLUSION

18. For the foregoing reasons, the Court should dismiss all claims against Daugherty because the Complaint does not satisfy the Rule 12(b)(6) pleading requirements as it fails to state a claim upon which relief may be granted. Additionally, the Court should deny leave to amend because any attempt to amend the Complaint at this time would be futile as the IRS Audit Dispute

remains pending and unresolved. Alternatively, the Court should stay this adversary proceeding until the Debtor's IRS Audit Dispute is fully and finally resolved.

Respectfully submitted this 4th day of June 2025.

PRAYER FOR RELIEF ....141

Plaintiff Marc S. Kirschner (the "Litigation Trustee"), as Litigation Trustee of the Litigation Sub-Trust (the "Trust") established pursuant to the Fifth Amended Plan of Reorganization (the "Plan") of Highland Capital Management L.P. ("HCMLP" or the "Reorganized Debtor") (Docket No. 1472), through his undersigned counsel, brings this action and alleges as follows:

## I. INTRODUCTION[2]

1. The Litigation Trustee brings this action to recover hundreds of millions of dollars in damages that HCMLP suffered at the hands of its founder, James Dondero, acting in concert with other entities that he owned and/or controlled (collectively, the "Dondero Entities"), and with the aid of other HCMLP officers and attorneys who disregarded their fiduciary duties to HCMLP in favor of Dondero and their own self-interests.

2. HCMLP was founded in 1993 as an investment advisor that also provided middle- and back-office services and engaged in proprietary trading. Prior to its bankruptcy filing on October 16, 2019, HCMLP was one of more than 2,000 Dondero Entities. The Dondero Entities were operated and controlled for Dondero's benefit, with Dondero utilizing complex corporate structures and transactions to transfer money and assets between the various Dondero Entities in the manner he viewed most advantageous to his own bottom line, including to avoid creditors, exploit personal tax benefits, and ensure that assets were preserved for his benefit and profits ultimately flowed to him.

3. HCMLP was at the center of Dondero's web: it employed nearly all of the people who performed services for myriad Dondero Entities, and it was those employees who carried out the substantive work for the Dondero Entities. Even when HCMLP's full role was hidden—

[2] Capitalized terms not defined in this section are defined later in the Amended Complaint.

either because it was not credited at all, or because it was identified only as a sub-advisor or service provider to Dondero's other management companies—it was HCMLP personnel executing Dondero's strategies for a wide array of Dondero Entities.

4. In or about 2008, after years of successful operations, HCMLP was hit hard by the economic recession. The recession gave rise to a multitude of lawsuits against HCMLP, and it became embroiled in litigations that threatened to impose crippling damages amounting to hundreds of millions of dollars.

5. Faced with this looming threat, Dondero devised a plan to siphon business away from HCMLP through the creation of "lifeboats" that he owned and controlled, which he sought to insulate from the claims of HCMLP's litigation creditors once they crystalized. The lifeboats were set up to provide the management services that HCMLP had been providing before the lifeboats' creation. The lifeboats were really HCMLP in disguise, however, as they conducted their business through HCMLP's employees, operated out of HCMLP's office, and in several cases, simply took over HCMLP's contracts, diverting the resulting fees away from HCMLP while HCMLP continued to provide the underlying services. The lifeboats collected the lion's share of the profits for HCMLP's work, while HCMLP bore the majority of expenses.

6. In the years that followed, Dondero—acting with the aid of certain HCMLP officers and employees—operated HCMLP to further his own personal interests, to HCMLP's detriment. Among other transgressions, Dondero, standing behind HCMLP's perceived corporate shield:

- Caused HCMLP to pay tens of millions of dollars to or for the benefit of Dondero and his affiliates in order to evade creditors, at a time when HCMLP was insolvent, inadequately capitalized, or intended to incur debts beyond its ability to pay;

- Caused HCMLP to transfer assets to other Dondero Entities for less than reasonably equivalent value at a time when HCMLP was insolvent, inadequately capitalized, or intended to incur debts beyond its ability to pay, in order to deprive creditors of the value of the transferred assets;

- Exploited HCMLP to exact vendettas on employees he perceived as disloyal, going so far as to destroy value at HCMLP and other Dondero Entities solely to inflict losses on his perceived enemies;

- Used HCMLP as a vehicle to fraudulently induce an investment of approximately $75 million into another Dondero Entity, with the goal of moving funds to yet another Dondero Entity;

- Caused the fraudulent transfer of assets worth at least $100 million out of HCMLP-managed funds to evade pending litigation claims asserted by UBS;

- Disregarded HCMLP's contractual and fiduciary obligations to investors in certain of HCMLP liquidating funds; and

- Siphoned funds out of HCMLP for use by other Dondero Entities, in exchange for artificially low interest, long-term notes that Dondero later purported to extend (by 30 years) or retroactively forgive, all for no consideration to HCMLP.

7. Dondero's conduct resulted in a second wave of litigation against HCMLP, exacerbating HCMLP's insolvency, inadequate capitalization, and inability to pay its debts. As was wholly foreseeable, Dondero's conduct hobbled HCMLP with hundreds of millions of dollars of additional contingent litigation liabilities that were all but certain to come due given Dondero's brazen wrongdoing.

8. In October 2019, the dam broke, and the repercussions of Dondero's actions came crashing down on HCMLP. An arbitration award of approximately $190 million was issued against HCMLP based on Dondero's failure to abide by a negotiated plan of distribution for certain of its liquidating funds, forcing HCMLP to file for bankruptcy protection. Shortly thereafter, a judgment of more than $1 billion was rendered for UBS against two HCMLP-managed funds, leading UBS to file a proof of claim against HCMLP that sought to hold

HCMLP responsible for its role in preventing the Fund Counterparties (defined below) from satisfying any of their debt to UBS.

9. In 2020, HCMLP, finally operating under the control of true and independent fiduciaries, negotiated a settlement with UBS for a total of $75 million in allowed claims. HCMLP was forced to reopen settlement discussions and increase that number to $125 million, however, when HCMLP discovered that in 2017, Dondero and his loyalists had surreptitiously transferred the two funds' remaining assets to a Dondero Entity. Other settlements followed, as HCMLP, burdened by Dondero's blatant wrongdoing, was forced to compromise claim after claim in order to avoid even greater dilution of creditor recoveries.

10. HCMLP now stands liable for more than $350 million in allowed creditor claims—in addition to tens of millions of dollars of costs occasioned by HCMLP's bankruptcy filing—that stem solely from, and would not exist but for, the knowing misconduct of Dondero and his loyalists. The Litigation Trustee thus brings this action to seek redress for the significant harm Dondero and his affiliates and accomplices inflicted on HCMLP, and to ensure that Dondero and those who aided him are not permitted to abscond with or divert value that rightfully belongs to HCMLP and its creditors.

## II. PARTIES

11. Plaintiff Marc S. Kirschner is the Litigation Trustee for the Trust established under HCMLP's Plan.

12. Defendant James D. Dondero is an individual who, upon information and belief, at all times relevant to this Amended Complaint was residing in Dallas, Texas. Dondero is the co-founder of HCMLP and, prior to his removal on January 9, 2020, was the Chief Executive Officer and President of HCMLP. From the time that HCMLP was founded through October

16, 2019, when it filed for bankruptcy (the "Petition Date"), Dondero controlled HCMLP through his position at HCMLP, his ownership of HCMLP's general partner, and his ownership of, or control over the owners of, HCMLP's limited partnership interests. As set forth below, Dondero also owns and/or directly or indirectly controls hundreds of Dondero Entities within the Highland web, including the dozens of Dondero Entities referenced herein.

13. Defendant Mark A. Okada is an individual who, upon information and belief, at all times relevant to this Amended Complaint was residing in Dallas, Texas. Okada is the co-founder of HCMLP and was its Chief Investment Officer until he stepped down in 2019, after which he assumed an advisory role through the end of that year. After Dondero, Okada was the next-largest owner of HCMLP or a beneficiary of the distributions it made to its limited partners. Like Dondero, Okada held his interest in HCMLP directly and through trusts.

14. Defendant Strand Advisors, Inc. ("Strand") is a Delaware corporation that is wholly-owned by Dondero. Since HCMLP's formation, Strand has been its general partner and owned limited partnership interests in HCMLP. At all times relevant to this Amended Complaint, Strand's principal place of business was 300 Crescent Court, Suite 700, Dallas, Texas 75201.

15. Defendant NexPoint Advisors, L.P. ("NexPoint") is a Delaware limited partnership. NexPoint is 99.9% owned by the Dugaboy Investment Trust, its sole limited partner. NexPoint's general partner, NexPoint Advisors GP, LLC ("NexPoint GP"), owns the remaining 0.1%. NexPoint and NexPoint GP were both formed on March 20, 2012. NexPoint concedes that it is controlled by Dondero, who owns 100% of NexPoint GP and is NexPoint GP's sole member and president. At all times relevant to this Amended Complaint, NexPoint's principal place of business was 300 Crescent Court, Suite 700, Dallas, Texas 75201.

16. Defendant Nancy Dondero is named in her capacity as Trustee of Defendant Dugaboy Investment Trust ("Dugaboy"). Dugaboy is a grantor trust established under the laws of the state of Delaware. Dugaboy was formed pursuant to an October 2010 Trust Agreement between Dana Scott Breault, as Settlor, and James D. Dondero and Commonwealth Trust Company, as Trustees. Dondero is Dugaboy's primary beneficiary. Under the Dugaboy trust agreement, Dondero has the power to remove trustees without cause, as well as the power to appoint successive trustees. Dugaboy's original Family Trustee was Dondero, and Defendant Grant James Scott III ("Scott") was its Independent Trustee. In 2015, Dondero appointed Scott as the Family Trustee, and shortly thereafter replaced Scott with his sister Nancy. Between 2016 through confirmation of the Plan, Dugaboy owned a 0.1866% economic interest and a 74.4426% voting interest in HCMLP's Class A partnership interests, and, as set forth above, owns a 99.9% economic interest in NexPoint. At all times relevant to this Amended Complaint, Dugaboy's principal place of business was 300 Crescent Court, Suite 700, Dallas, Texas 75201.

17. Defendant Highland Capital Management Fund Advisors, L.P. ("HCMFA") is a Delaware limited partnership.[3] HCMFA is owned by Strand Advisors XVI, Inc.[4] (which is HCMFA's general partner and owns a 1% interest in HCMFA); Highland Capital Management Services, Inc. ("HCMS") (which owns limited partnership interests in HCMFA equal to a 89.6667% ownership interest); and the Okada Family Revocable Trust (which owns limited partnership interests in HCMFA equal to a 9.3333% ownership interest). Dondero controls,

[3] HCMFA was originally created by Dondero on February 9, 2009, as Highland Funds Asset Management, L.P. ("HFAM"). On January 9, 2012, HFAM was renamed Pyxis Capital, L.P. ("Pyxis"), and on February 8, 2013, Pyxis was renamed HCMFA.

[4] Strand Advisors XVI, Inc. purports to be managed by six individuals, all but one of whom were previously on HCMLP's payroll.

and is the sole stockholder and director of, Strand Advisors XVI, Inc. Additionally, Dondero and Okada own 75% and 25% of HCMS, respectively.[5] HCMFA has acknowledged that it is controlled by Dondero. At all times relevant to this Amended Complaint, HCMFA's principal place of business was 300 Crescent Court, Suite 700, Dallas, Texas 75201.

18. Defendant Scott is an individual who currently resides in North Carolina. At all times relevant to this proceeding, Scott had various roles at numerous Dondero-controlled or affiliated entities: he was the trustee of Get Good Trust; a director of the Highland Dallas Foundation; the managing member of Charitable DAF GP, LLC; the sole director of Charitable DAF Holdco, Ltd.; the managing member of the Charitable DAF Fund; and the director of CLO Holdco, Ltd. Scott is Dondero's long-time friend, former college roommate, and was the best man at Dondero's wedding. Scott has testified under oath that Dondero is his "closest friend." Dondero personally selected Scott as his successor to run the Charitable DAF Fund. Dondero also caused Scott to serve on multiple boards on which Dondero also served, including the boards of the Highland Dallas Foundation, Inc., Highland Santa Barbara Foundation, Inc., and Highland Kansas City Foundation, Inc. Scott is also the executor of Dondero's will. Dondero, HCMLP, and/or entities controlled by Dondero transferred tens of thousands of dollars' worth of "business gifts" to Scott in the five years prior to the Petition Date. Scott has no training in finance or compliance and no investment experience. Scott routinely rubber-stamped Dondero's and HCMLP's directives without asking questions or requesting additional information.

[5] Dondero is the Director and President of Highland Capital Management Services, Inc. Scott Ellington is its Secretary.

19. Defendant Scott Ellington ("Ellington") was HCMLP's Chief Legal Officer and General Counsel until he was terminated for cause in January 2021 for acting in a manner adverse to HCMLP's interest. At all times relevant to this Amended Complaint, Ellington was a Texas resident.

20. Defendant Isaac Leventon ("Leventon") was Assistant General Counsel at HCMLP from March 2011 until he was terminated for cause in January 2021 for acting in a manner adverse to HCMLP's interests. At all times relevant to this Amended Complaint, Leventon was a Texas resident.

21. Defendant Charitable DAF Fund, LP (the "DAF") is an exempted company incorporated in the Cayman Islands. Dondero was the initial managing member of the DAF's General Partner, Charitable DAF GP, LLC ("DAF GP"), but in January 2011 he transferred all membership interests to Scott, who held those interests until March 2021. At all times relevant to this proceeding, Scott served as managing member of DAF GP and director of the DAF. HCMLP acted as the formal or informal non-discretionary investment manager for the DAF from its inception through 2020, and provided advisory and back-office services to the DAF and its subsidiaries, including CLO Holdco, Ltd., from 2012 until HCMLP terminated that relationship in February 2021. According to the DAF, Dondero currently serves as its investment advisor (although without an advisory contract).

22. Defendant Charitable DAF Holdco, Ltd. ("DAF Holdco") is an exempted company incorporated in the Cayman Islands. At all times relevant to this proceeding, Scott served as DAF Holdco's managing member and sole director. DAF Holdco is the limited partner of the DAF and owns 100% of the partnership interests in the DAF.

23. Defendant CLO Holdco, Ltd. ("CLO Holdco") is an exempted company incorporated in the Cayman Islands that was formed on December 13, 2010. CLO Holdco is a wholly-owned subsidiary of the DAF. CLO Holdco filed a proof of claim in HCMLP's bankruptcy case, which was subsequently amended to reduce the claim amount to zero.[6] In January 2022, CLO Holdco attempted to further amend the proof of claim to reassert a positive claim amount. CLO Holdco has no employees or officers. According to CLO Holdco, Dondero currently serves as an investment advisor to CLO Holdco (although without an advisory contract). Until Dondero's departure from HCMLP in January 2020, HCMLP (through Dondero) effectively made all investment decisions for the DAF which allocated the investments to CLO Holdco, which would then be rubber-stamped by Scott. At all times relevant to this Amended Complaint, CLO Holdco's principal place of business was 300 Crescent Court, Suite 700, Dallas, Texas 75201.

24. As of December 31, 2020, CLO Holdco and the DAF collectively controlled approximately $260 million in assets. Dondero has testified under oath that he was unaware of a single investment decision that HCMLP ever recommended to Scott regarding the DAF that Scott rejected. Likewise, Dondero was unaware of any investment Scott made on behalf of the DAF that did not originate with HCMLP.

25. Defendant Highland Dallas Foundation ("Highland Dallas") is registered as a Delaware nonprofit, nonstock corporation. The directors of Highland Dallas at the time of the events relevant to this proceeding were Dondero, Scott, and Mary Jalonick. Dondero also acted

[6] This proof of claim was signed by Grant Scott in his capacity as CLO Holdco's sole director. Grant Scott served in that capacity at all times relevant to this proceeding.

as Highland Dallas's president, and Scott served as its treasurer. Highland Dallas's principal office address is 3963 Maple Avenue, Suite 390, Dallas, Texas, 75219.

26. Defendant Scott, in addition to being named above in his individual capacity, is named in his capacity as Trustee of Get Good Trust, a trust established under the laws of the State of Delaware. According to Get Good's July 9, 2021, disclosure to this Court, Get Good consists of three related trusts: Get Good Trust, Get Good Non Exempt Trust No. 1, and Get Good Non Exempt Trust No. 2, all of which are included in the term "Get Good." Dondero is the settlor of Get Good, its beneficiaries are his "living descendants," and Scott was Get Good's trustee at all times relevant to this Amended Complaint.

27. Defendant Hunter Mountain Investment Trust ("Hunter Mountain") is a statutory trust established under the laws of the state of Delaware. Hunter Mountain was formed on December 17, 2015, shortly before it purchased limited partnership interests in HCMLP from HCMLP's then-existing limited partners (*i.e.*, Dondero, Okada, and entities that they controlled) and HCMLP. Through a complex series of transactions that occurred on December 21, 2015, and December 24, 2015, Dondero caused Hunter Mountain to become the owner-in-name of 99.5% of the economic interests of HCMLP. Meanwhile, Dondero caused Hunter Mountain to issue a series of notes and cash, such that Dondero, Okada, and certain entities that they controlled (including Dugaboy, The Mark & Pamela Okada Family Trust – Exempt Trust #1, and The Mark & Pamela Okada Family Trust – Exempt Trust #2) continued to receive the economic benefit of limited partnership distributions made by HCMLP to Hunter Mountain even after they had purportedly sold their limited partnership interests to Hunter Mountain. One such note was a $63 million secured promissory note Hunter Mountain entered into with HCMLP on December 21, 2015 (the "Hunter Mountain Note").

28. Rand PE Fund I, LP, Series 1 ("Rand") is a Delaware series limited partnership. Rand is the indirect parent of Hunter Mountain and is a guarantor of the Hunter Mountain Note.

29. Defendant Lawrence Tonomura is named in his capacity as trustee of Defendant The Mark & Pamela Okada Family Trust – Exempt Trust #1 ("MAP #1"), a trust established under the laws of the state of Texas. Okada controls MAP #1, which he created for the benefit of his children.

30. Defendant Lawrence Tonomura is named in his capacity as trustee of Defendant The Mark & Pamela Okada Family Trust – Exempt Trust #2 ("MAP #2"), a trust established under the laws of the state of Texas. Okada controls MAP #2, which he created for the benefit of his siblings.

31. Defendant Massand Capital, Inc. ("Massand Inc.") is a New York corporation that was created in 2002. Defendant Massand Capital, LLC ("Massand LLC") is a Delaware limited liability company created in 2014, pursuant to a certificate of incorporation signed by Leventon. Massand Inc. received payments from HCMLP between February 4, 2014 and January 7, 2015. Massand LLC received payments from HCMLP between February 25, 2015, and August 1, 2019. Massand Inc. and Massand LLC are referred to collectively herein as "Massand Capital".

32. Defendant SAS Asset Recovery Ltd. ("SAS") is a Cayman Island entity created in 2012, whose principal place of business is Dallas, Texas. Upon information and belief, SAS is a litigation funding and management business created by Dondero and Ellington in 2012 and operated out of HCMLP's headquarters. SAS, along with its direct and indirect subsidiaries, is owned and controlled by Dondero and Ellington, who own 70% and 30% of the economic

interests in SAS, respectively. Upon information and belief, Ellington is the Chief Executive Officer of SAS.

## III. JURISDICTION, VENUE & STANDING

33. This Court has jurisdiction to consider this matter pursuant to 28 U.S.C. §§ 157 and 1334 because this is a civil proceeding arising under or relating to the bankruptcy petition filed by HCMLP under Chapter 11 of the United States Bankruptcy Code. *See In re Highland Capital Management, L.P.*, No. 19-34054-sgj11 (Bankr. N.D. Tex.). This is a core proceeding pursuant to 28 U.S.C. § 157(b).

34. Venue is proper in this Court under 28 U.S.C. § 1409(a).

35. This Court has personal jurisdiction over the defendants because each of the Defendants: (i) is a Texas resident; (ii) was formed under the laws of Texas; (iii) is the alter ego of a Texas resident or an entity that was formed under the laws of Texas; (iv) has a business presence in Texas; (v) filed a proof of claim in HCMLP's bankruptcy case; and/or (vi) had minimum contacts with the state of Texas by either invoking the benefits and protections of the state of Texas or otherwise purposefully directing conduct toward a Texas resident.

36. The Plan created the Claimant Trust, which was vested with assets including substantially "all Causes of Action" and "any proceeds realized or received from such Assets." The Plan also created the Litigation Sub-Trust, as a "sub-trust established within the Claimant Trust or as a wholly-owned subsidiary of the Claimant Trust," for the purpose of "investigating, prosecuting, settling, or otherwise resolving the Estate Claims" transferred to it by the Claimant Trust pursuant to the Plan. The Plan defines Estate Claims to include "any and all estate claims and causes of action against Mr. Dondero, Mr. Okada, other insiders of [HCMLP], and each of the Related Entities, including any promissory notes held by any of the foregoing." Proceeds

from the Litigation Trust's pursuit of claims "shall be distributed . . . to the Claimant Trust for distribution to the Claimant Trust Beneficiaries[.]"

37. On October 8, 2021, the Claimant Trust confirmed the assignment of certain Causes of Action (as defined in the Plan) to the Trust, including all claims set forth in this Amended Complaint. All of the claims asserted in this Amended Complaint belong to the Litigation Sub-Trust, not the Reorganized Debtor.

38. Under the Plan, the Claimant Trust Beneficiaries are (i) the Holders of Allowed General Unsecured Claims and (ii) the Holders of Allowed Subordinated Claims, whose Claims are junior to those distributed to Holders of Allowed General Unsecured Claims.[7] The Claimant Trust Beneficiaries' claims against the Reorganized Debtor's estate are substantial and exceed, in aggregate, $380 million. To date, neither the Holders of Allowed General Unsecured Claims nor the Holders of Allowed Subordinated Claims have been paid at all.

39. The Trustee has standing to avoid all transfers described herein pursuant to 11 U.S.C. § 544(b) and applicable law. On the date of the Debtor's bankruptcy filing, at least one or more unsecured creditors who held an allowable claim, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis (all as defined herein), could have sought under state law to avoid each of the transfers made on or after October 16, 2015. The Internal Revenue Service filed an amended Proof of Claim in the Debtor's bankruptcy case on October 6, 2021, which asserts unsecured claims including for the tax period of June 30, 2015. Under applicable state and federal law, the IRS was entitled to seek to avoid all transfers at issue herein

[7] Holders of certain Allowed Limited Partnership Interests may become Claimant Trust Beneficiaries but only if *all* Allowed General Unsecured Claims, Allowed Subordinated Claims, and costs and expenses are indefeasibly paid in full.

as a present or future creditor, including transfers that occurred on or before October 16, 2015, because the IRS's claim arose within a reasonable time of those transfers.

## IV. FACTUAL ALLEGATIONS

### A. Dondero Creates HCMLP

40. HCMLP was a global alternative investment manager and registered investment advisor that was founded in 1993 by Dondero and Okada. The funds managed by HCMLP originally focused on the leveraged loan market, and subsequently expanded into other asset classes such as high-yield credit, public equities, real estate, private equity and special situations, structured credit, and sector- and region-specific industries.

41. By the mid-2000s, HCMLP employed over 100 employees, including executive-level management employees, finance and legal staff, investment professionals, and back-office accounting and administrative personnel. As of the Petition Date, HCMLP had three primary business lines: (i) investment management; (ii) the provision of middle- and back-office services ("shared services") to other registered investment advisors; and (iii) proprietary trading.

42. Dondero exercised complete control over HCMLP from its founding until January 9, 2020, when this Court entered an order implementing the settlement and term sheet entered into between HCMLP and the unsecured creditors' committee, pursuant to which three new independent directors (the "Independent Board") were appointed at Strand to oversee the management and reorganization of HCMLP. HCMLP's employees have bluntly acknowledged that, prior to the appointment of the Independent Board, Dondero was HCMLP's solitary decision-maker on all matters concerning the company's operation and management. Dondero

served as HCMLP's Chief Executive Officer and President from the time that HCMLP was founded until he resigned from those roles on January 9, 2020.

43. As of December 31, 2006, HCMLP provided investment advisory services pursuant to management agreements for: (i) 22 CLOs, (ii) 1 SLT; (iii) 11 RICs, (iv) 7 warehouse transactions, (v) 4 SMAs; (vi) one trust; and (vii) 10 hedge fund structures.[8] At that time, the value of HCMLP's assets under management ("AUM") was approximately $33.1 billion.[9]

### B. HCMLP Narrowly Survives The Financial Crisis Of 2008, And Emerges Facing Hundreds Of Millions Of Dollars In Potential Litigation Damages

44. Around 2008, HCMLP's business began to falter, as the financial crisis began to set in. The funds that HCMLP managed faced large losses, followed by substantial redemptions. In January 2008, HCMLP experienced its worst performance to date, with the value of many of its managed funds deteriorating significantly.

45. At the same time that HCMLP was facing significant losses that threatened its existence, the company also became ensnared in litigation posing the threat of hundreds of millions of dollars in damages. In March 2008, HCMLP and its managed funds Highland CDO

[8] A collateralized loan obligation ("CLO") is a structure that acquires and manage a pool of debt or loans. The CLO issues multiple debt tranches as well as equity, and uses the proceeds of those issuances to obtain loans. A structured loan transaction ("SLT") is a transaction involving structured financial instruments such as collateralized loan obligations. A registered investment company ("RIC") is a corporation, partnership, or trust registered with the Securities and Exchange Commission under the Investment Company Act of 1940. A warehouse transaction is an intermediate transaction that involves purchasing loans or bonds that will undergo the warehousing period prior to serving as collateral for a CLO security. A separately-managed account ("SMA") is a managed investment vehicle that has only one investor. A trust is a fiduciary agreement in which one entity that holds property or assets as its owner for one or more beneficiaries. A hedge fund structure is an actively managed investment pool held by a limited partnership of investors that allows partners to "redeem" their investment, subject to certain limitations.

[9] At its high-water mark, HCMLP's AUM exceeded $40 billion.

Opportunity Master Fund, L.P. ("CDO Fund") and Highland Special Opportunities Holding Company ("SOHC" and together with CDO Fund, the "Fund Counterparties")[10] had entered into a transaction with UBS to finance the purchase of various CLO tranches (*i.e.*, tranches of debt issued by existing CLOs) and other assets, including credit default swaps ("CDS"). The governing agreements required the Fund Counterparties to post collateral based on the mark-to-market value of certain collateralized debt obligations. The value of these assets dropped by more than $400 million in the fall of 2008, and in November 2008, the Fund Counterparties failed to meet UBS's margin demand. In December 2008, UBS terminated the agreements, and claimed that it was owed 100% of its losses—which UBS alleged was as much as $745 million—from HCMLP and the Fund Counterparties.

46. On February 24, 2009, UBS commenced an action against HCMLP and the Fund Counterparties in New York state court. As amended and consolidated, UBS asserted claims against HCMLP for actual and constructive fraudulent transfer and breach of the implied covenant of good faith and fair dealing. Among other things, UBS alleged that in March 2009, HCMLP had orchestrated transfers of approximately $233 million of assets from SOHC's parent entity HFP, which UBS alleged was the alter ego of SOHC or its subsidiaries (the "March 2009 Transfers"). UBS sought to disgorge those transfers, and also sought damages against

[10] The CDO Fund is an indirectly-controlled subsidiary of HCMLP. At all times relevant to this proceeding, the CDO Fund was controlled by HCMLP, either pursuant to an investment advisory agreement and/or through HCMLP's indirect ownership of CDO Fund's general partner. SOHC is a subsidiary of Highland Financial Partners, L.P. ("HFP"). At all times relevant to this proceeding, HFP was managed and controlled by Dondero in his capacity as an officer of HFP and its general partner and as a member of HFP's monitoring committee. HFP's general partner is a wholly-owned indirect subsidiary of HCMLP. After 2010, Dondero was the sole member of HFP's monitoring committee until his resignation in mid-2021. At all times relevant to this Complaint, Dondero managed and controlled SOHC through his control of HFP.

HCMLP, including punitive damages, attorneys' fees, and pre-judgment interest (calculated at 9% under New York law).

47. Meanwhile, in December 2008, CDO Fund ceased meeting margin calls issued by Citibank N.A., Citigroup Global Markets Limited, Citigroup Financial Products Inc., and Citigroup Global Markets Inc. (together, "Citi") in connection with CDS entered into by CDO Fund and Citi. Citi seized assets posted by CDO Fund to collateralize the CDS, and, by March 2009, conducted two auctions to sell the collateral. The proceeds of the collateral sales, however, were not sufficient to satisfy CDO Fund's obligations to Citi. On April 5, 2012, CDO Fund sued Citi, alleging various claims arising from the margin calls. On May 3, 2013, Citi answered and countersued CDO Fund, HCMLP, and Highland CDO Opportunity Fund GP, L.P. ("CDO Fund GP") to: (i) recover a deficit of more than $24 million, plus accrued interest, still owed under the agreements governing the CDS; (ii) recoup $3 million in liquidation proceeds mistakenly received from a third party; and (iii) seek indemnification for all losses and costs Citi incurred as a result of CDO Fund's breach.

48. In addition, on April 2, 2009, Barclays Bank PLC ("Barclays PLC") and its wholly-owned subsidiary HYMF, Inc. ("HYMF" and, together with Barclays PLC, "Barclays") commenced an action against HCMLP and certain of its managed funds (the "Fund Defendants") and related entities for breach of contract, breach of fiduciary duty, and equitable accounting (the "Barclays Action"). The Barclays Action focused on hedge contracts that HYMF had entered into with various HCMLP-managed funds, which provided that HYMF would be able to remove its investments in a preferential fashion via a "redemption" right, usually as quickly as one day. Barclays alleged that HYMF attempted to exercise that redemption right in mid-October 2008 but was rejected by HCMLP and its managed funds,

notwithstanding the clear terms of the HYMF contracts. This breach of the HYMF contracts was accompanied by Dondero personally stating he would withhold over $100 million for over a year unless HYMF performed certain unrelated financial services for the Fund Defendants. Barclays alleged that it had invested more than $700 million into the Fund Defendants, that Dondero personally held at least $100 million of that "hostage," and that "hundreds of millions of dollars" were still owed to HYMF.

49. Additionally, on June 3, 2011, HCMLP became aware that on November 1, 2010, the Securities and Exchange Commission (the "SEC") had commenced an investigation with respect to potential violations of the Securities Act of 1933, the Securities Exchange Act of 1934, and the Investment Advisers Act of 1940. While the SEC investigation was settled years later for a reduced amount, HCMLP's understanding in 2011 was that the SEC investigation could result in significant penalties, including substantial monetary penalties, for the company.

### C. In A Scheme To Evade HCMLP's Creditors, Dondero Creates "Lifeboats" To Usurp HCMLP's Business

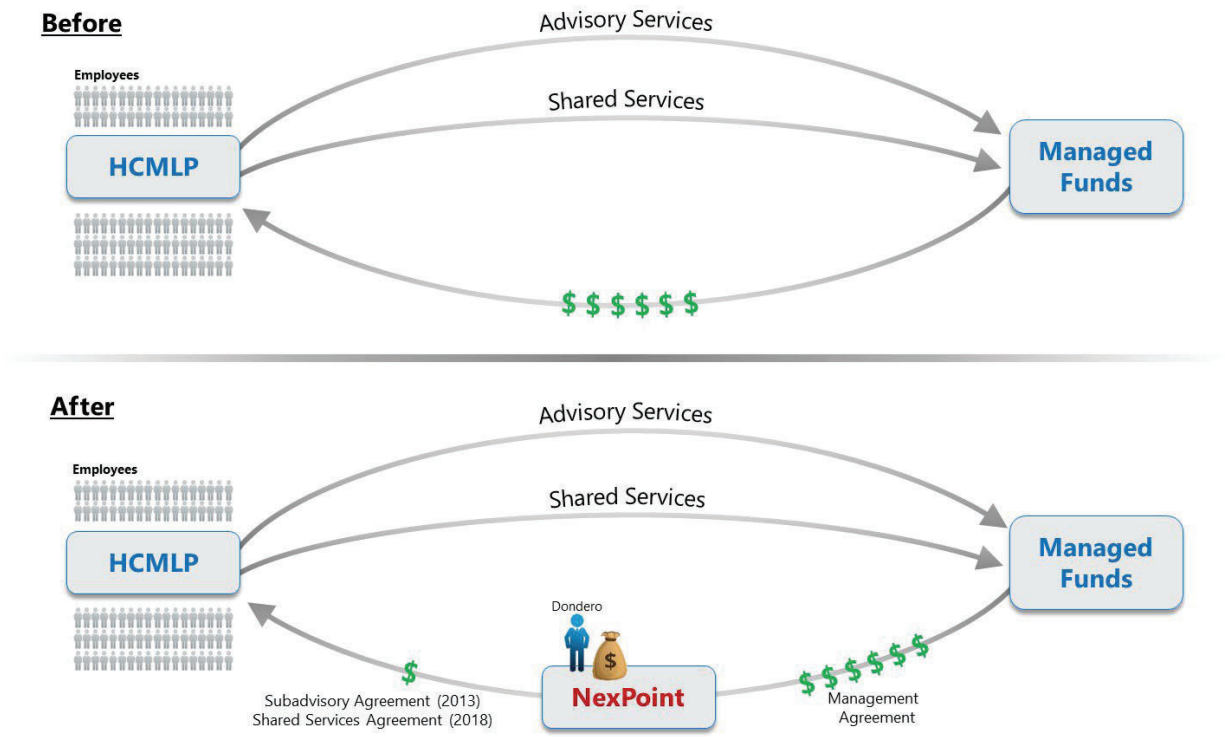
50. In 2012, Dondero explained HCMLP's precarious financial condition, testifying under oath that the 2008 financial crisis took HCMLP "to a state of insolvency and we've been juggling liquidity since that," and that "[t]he last three, four years have been negative to the tune of hundreds of millions of dollars[.]" Dondero testified further that the contingent liabilities resulting from the lawsuits filed against HCMLP were a primary driver of HCMLP's insolvency.

51. It was against this backdrop that in or about 2011, Dondero determined to create a series of new entities—referred to internally by some at HCMLP as "lifeboats"—to take over HCMLP's business, with the aim of placing the resulting profits beyond the reach of HCMLP's

creditors. Ultimately, the most successful of the lifeboats were NexPoint and HCMFA, which are described in greater detail below. However Dondero also created other lifeboats at or around this time, including:

- Tunstall Capital Management, LP—which was created to manage stressed and distressed investing in hedge funds, private equity funds, and retail funds;
- Falcon E&P Opportunities GP, LLC—which was created to manage oil and gas investments in private equity funds;
- Granite Bay Advisors, LP—which was created to manage long-short credit investing; and
- Highland Capital Healthcare Advisors, LP ("HCHA")—which was created to serve as a healthcare equity advisor.

**1. NexPoint**



52. NexPoint was effectively a shell entity that Dondero created in March 2012 to siphon profits from HCMLP in order to evade HCMLP's creditors. Dondero's family trust Dugaboy, of which Dondero is the primary beneficiary, owns 99.9% of NexPoint.

53. Between 2012 and 2015, NexPoint had no employees of its own, and performed no business activities that were distinguishable from those performed by HCMLP. To the contrary, NexPoint used HCMLP's employees to perform the same investment management and advisory services—including investment advisory, compliance, accounting, tax, human resources, and information technology services—that were performed by HCMLP.

54. For over a year, HCMLP performed all services for NexPoint, without any sub-advisory or shared services agreements that even purported to compensate HCMLP for the use of its employees. In mid-2013, Dondero attempted to retroactively infuse this scheme with a patina of legitimacy, by causing NexPoint to enter into a shared services agreement with HCMLP that required NexPoint to pay fees to HCMLP based on a formula that resulted in low

fee payments. NexPoint continued to reap the vast majority of the generated fees, however. NexPoint's fees were based on a percentage of AUM, set at a level to yield fees far in excess of those NexPoint was paying HCMLP. The NexPoint scheme is illustrated in Figure 1, below.

**Figure 1.**

55. Adding insult to injury, HCMLP funded NexPoint's operations whenever needed, seeded large investments made by NexPoint, and funded a large portion of the distributions NexPoint made to its owner, Dugaboy (the beneficiary of which was Dondero). Indeed, in June 2012, at the time that Dondero was transferring HCMLP's advisory services business to NexPoint, Okada complained to Dondero that he was "using Highland's cash flow" to set up new entities controlled by Dondero and to "fund all their negative working capital."

56. Between 2012 and 2017, HCMLP loaned NexPoint approximately $30 million, and entered into a revolving line of credit to provide NexPoint with additional liquidity. Initially, the loans were in the form of demand notes and were unsecured, frequently below-

market, and had few to no covenants. NexPoint paid no principal or interest to HCMLP on the loans during the 2012-2017 period. At the same time, NexPoint made limited partner distributions of approximately $34 million—99.9% of which were made to Dugaboy for Dondero's benefit.

57. Dondero caused HCMLP to enter into multiple forbearance agreements with respect to the NexPoint loans, pursuant to which HCMLP agreed not to collect on the NexPoint loans for a period of one year from the time of the agreement. According to NexPoint's financial statements, these agreements were entered into to provide NexPoint "with the necessary financial support to fund [NexPoint's] obligations as they come due[.]" By May 2017, NexPoint owed HCMLP more than $30 million. Although all of these obligations were payable on demand, HCMLP again agreed not to demand repayment—this time through May 31, 2018—and also agreed to provide support to fund NexPoint's obligations through the same period. Meanwhile, HCMLP recorded the NexPoint loans at face amount on HCMLP's books.

58. Upon information and belief, on May 31, 2017, following discussions with NexPoint's auditors, Dondero restructured the NexPoint loans into a consolidated $30,746,812.33 note (the "NexPoint Loan") with an unusually long 30-year term maturity, a low coupon rate, no covenants, and no security. HCMLP received no consideration in exchange for its agreement to extend the NexPoint loans' maturity date from on-demand to 30 years.

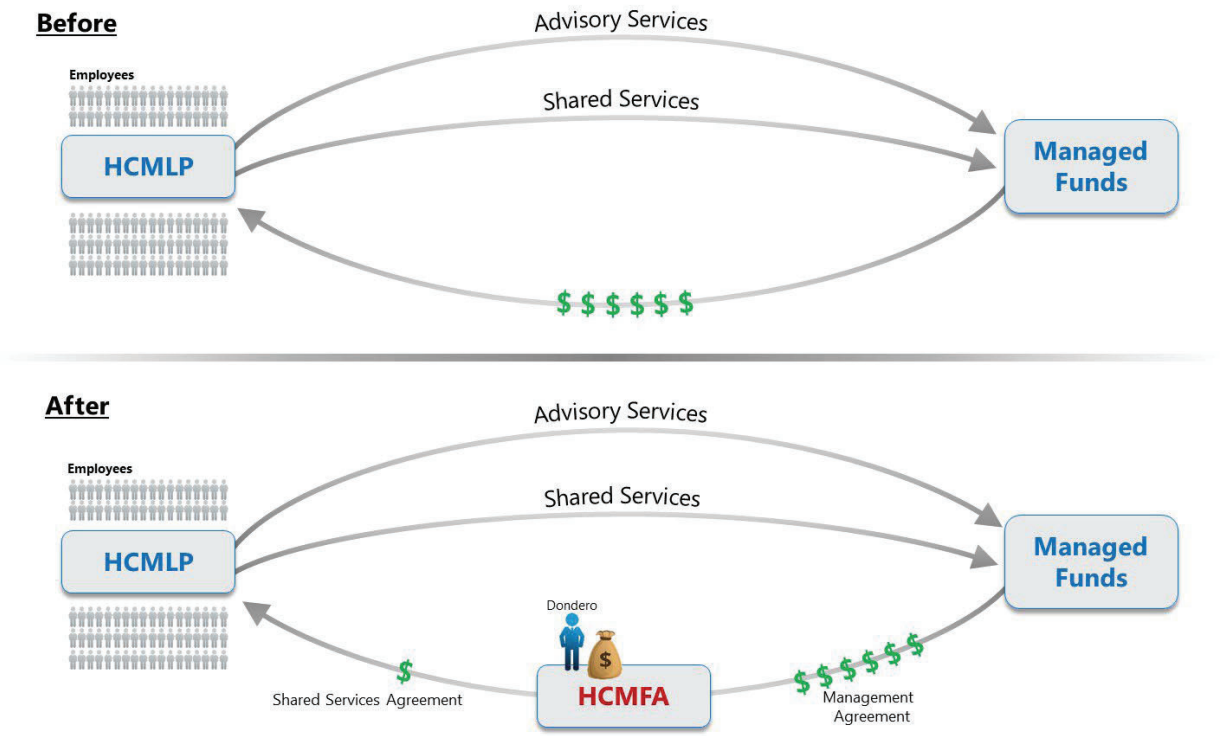
59. Subsequent to Dondero's resignation from HCMLP, on December 31, 2020, NexPoint defaulted on the NexPoint Loan and the full outstanding amount of the loan was accelerated. On January 22, 2021, HCMLP filed an adversary proceeding in the Bankruptcy Court to collect on the NexPoint Loan. *See Highland Capital Management, L.P. v. NexPoint Advisors, L.P.*, Adv. Pro. 21-03005-sgj (Bankr. N.D. Tex. Jan. 22, 2021). NexPoint has raised

a series of frivolous defenses to HCMLP's claims, including that HCMLP—acting through the owner of a majority of its Class A interests, Dugaboy (which was acting through Dondero's sister, as Dugaboy's Family Trustee)—orally agreed to forgive the NexPoint Loan as part of Dondero's compensation. More than $23 million remains outstanding on the NexPoint Loan, and interest and fees continue to accrue. HCMLP has moved for summary judgment on this matter.

60. From the time that it was created in 2012 through 2019, NexPoint—which used HCMLP's employees to perform the same management and advisory services that are performed by HCMLP—earned over $150 million in revenues (including over $120 million in advisory and administrative fees) and approximately $50 million in operating income. Between 2012 and 2015, NexPoint's AUM increased 34%, from $700 million to $936 million, and revenues increased from $4.1 million to $16.2 million. Between 2015 and 2019, NexPoint's AUM increased by approximately 408%—from $936 million to $4.8 billion, and revenue increased from $16.2 million to $46.8 million. By contrast, over the same 2015 to 2019 period, HCMLP's AUM decreased from $9.5 billion to $2.3 billion.

**2. HCMFA**

61. Dondero utilized the same basic playbook for HCMFA, which is directly or indirectly owned by Dondero and Okada. HCMFA was created to replace HCMLP as the new investment manager for certain open-ended retail investment funds, but in a manner similarly designed to ensure that the profits generated by the business would not be available to HCMLP's litigation creditors in the event they achieved favorable judgments.



62. On December 15, 2011, Dondero caused HCMLP to transfer HCMLP's rights and obligations to provide investment advisory services for Highland Credit Strategies Fund,[11] Highland Floating Rate Opportunities Fund ("HFRO") (n/k/a Highland Income Fund), Highland Long/Short Equity Fund, Highland Long/Short Healthcare Fund, and Highland Special Situations Fund to HCMFA. HCMLP received no consideration for the transfer. Prior to the transfer, HCMLP received management and advisory fees under those agreements in return for the services it performed. Following the transfer, it was HCMFA rather than HCMLP that received those fees, notwithstanding that HCMFA used HCMLP's employees to perform most services. Thus, the effect of the transfer was to insert a new entity to reap the profits earned from the same HCMLP employees performing the same work that had been performed prior to the transfer.

63. HCMFA collected management fees from its managed funds based on a percentage of their net asset value ("NAV"). Meanwhile, HCMLP—whose employees performed most services required by HCMFA—received a low fee that was only a small fraction of the fees earned by HCMFA. And HCMLP received no fee with respect to the advisory services it provided to HCMFA, despite the fact that HCMLP's employees were named portfolio managers, and constituted entire teams of supporting investment analysts, for HCMFA-managed funds. Indeed, HCMFA did not execute a sub-advisory agreement with HCMLP, and it was only in May 2018 that HCMFA executed a payroll reimbursement agreement to partially compensate HCMLP for the services of certain HCMLP employees. If

[11] On June 13, 2012, the management agreements for Highland Credit Strategies Fund were purportedly "novated" to the newly-created NexPoint. Highland Credit Strategies Fund's name was changed to NexPoint Credit Strategies Fund, referred to herein as "NHF." The result of this transfer was simply to shift management fees relating to NHF—which had previously been diverted from HCMLP—from one lifeboat (Pyxis/HCMFA) to another (NexPoint).

HCMLP had managed the HCMFA-managed funds directly rather than doing so through an entity that was created to evade HCMLP's creditors, then HCMLP would have earned tens of millions of dollars (potentially over $100 million) in additional fees between 2012 and 2018. The HCMFA scheme is illustrated by Figure 2, below.

**Figure 2.**

64. Following Dondero's "lifeboat" playbook, HCMLP also provided financial support to HCMFA so that HCMFA was well-positioned to earn profits that bypassed HCMLP's creditors and flowed directly to Dondero and his affiliated entities, primarily through HCMFA's largest limited partner, HCMS (of which Dondero and Okada owned 75% and 25%, respectively). Between 2011 and 2019, HCMLP loaned HCMFA approximately $12 million. Those HCMFA loans were evidenced by demand notes, for which Dondero caused HCMLP to enter into multiple forbearances, ultimately preventing HCMLP from demanding payment until May 31, 2021. As of the Petition Date, $6.3 million was outstanding on the notes subject to the

forbearance agreement. In May 2019, HCMFA borrowed an additional $7.4 million from HCMLP pursuant to two additional demand notes.

65. Subsequent to Dondero's resignation from HCMLP, HCMFA defaulted on its debt to HCMLP. On January 22, 2021, HCMLP filed an adversary proceeding in the Bankruptcy Court to collect on the debt. HCMFA has raised a series of frivolous defenses to HCMLP's claims, including that the notes were executed in error. As of December 11, 2020, approximately $7.7 million in principal and interest was due and owing to HCMLP on the HCMFA notes dated May 2 and 3, 2019 and, as of June 4, 2021, approximately $3.1 million in principal and interest was due and owing to HCMLP on the HCMFA notes dated February 26, 2014, and February 26, 2016, and interest and fees continue to accrue. HCMLP has moved for summary judgment on this matter.

### D. Dondero, Ellington, and Leventon Cause HCMLP To Engage In Misconduct That Exposes It To Additional Liability

66. As described more fully below, in addition to establishing the lifeboats to usurp HCMLP's business and evade its contingent creditors, Dondero, along with Scott Ellington, HCMLP's Chief Legal Officer and General Counsel, and Isaac Leventon, HCMLP's Assistant General Counsel, engaged in other actions that meaningfully harmed HCMLP. This included exposing HCMLP to significant liability by utilizing it to exact revenge on Dondero's perceived adversaries, and carrying out schemes that personally benefitted Dondero and, in certain instances, Ellington, but conferred no benefit on HCMLP. Ellington and Leventon were also financially rewarded by Dondero for faithfully serving Dondero's interest, rather than HCMLP's, even where doing was detrimental to HCMLP. As described below, these actions ultimately resulted in more than one billion dollars in litigation and arbitration claims against

HCMLP and millions of dollars in legal fees, necessitated HCMLP's bankruptcy filing, and ultimately forced HCMLP to enter into settlements for hundreds of millions of dollars.

### 1. Dondero Causes HCMLP To Engage In Misconduct Designed To Exact Revenge On Joshua Terry

67. In 2011, Dondero formed Acis Capital Management, L.P. ("Acis") and Acis Capital Management GP, LLC ("Acis GP"). Dondero was President both of Acis and Acis GP, and controlled their overall financial strategies and decisions. Upon information and belief, prior to its bankruptcy filing in 2018, Acis was indirectly owned by Dondero (through Dugaboy), Okada, and Joshua Terry ("Terry"), an HCMLP employee that Dondero tapped to manage Acis. Like HCMLP, Acis was a registered investment advisor whose purpose was to raise money from third-party investors to launch or invest in CLOs. HCMLP was the investment manager for Acis, and Acis performed almost all of its services through HCMLP employees. Dondero created Acis to act as another lifeboat—*i.e.*, to divert income away from HCMLP when HCMLP was facing the risk that all of its assets would be absorbed by its creditors. In 2013, HCMLP began what proved to be a short-lived turnaround, spurred by improving financial performance and settlement of the Barclays litigation. At this point, Dondero became more troubled by the dilution of his share of Acis's income, caused by Terry's ownership in Acis, than he was about evading HCMLP's liabilities. As a result, Dondero once again redirected the flow of money for his own benefit, this time by siphoning value from Acis back to HCMLP.

68. By 2016, tensions between Dondero and Terry hit a boiling point. Dondero sought to finance an acquisition by an HCMLP portfolio company through a loan from HCMLP-managed CLOs, and an extension of the maturity dates on the portfolio company's notes that were held by the CLOs. Terry was the investment manager for the CLOs, and

opposed the plan on the ground that agreeing to extend the notes' maturity dates would breach his fiduciary duties to the CLOs. Dondero responded to Terry's opposition by firing him from Acis and HCMLP, making up a pretextual claim of termination for "cause." Shortly thereafter, Dondero amended the Acis limited partnership agreement to terminate Terry's interests in Acis, and directed Acis to sue Terry in Texas state court. Terry counterclaimed and demanded arbitration.

69. On October 20, 2017, following a ten-day arbitration, the arbitration panel issued Terry an award of $7,949,749.15, plus interest, against Acis. The arbitration panel found, among other things, that (i) Terry's termination was "without cause," and Acis had "knowingly and willfully" invoked HCMLP's false pretext of "for cause" in order to deny Terry his contractual entitlement to the value of his Acis partnership interest, (ii) Acis had breached its limited partnership agreement, and breached the fiduciary duties it owed to Terry as Acis's limited partner, (iii) beginning in 2013, Dondero had caused Acis to pay HCMLP more than its contractual entitlement for shared expenses in order to reduce the amount of Terry's limited partnership distributions, and (iv) one month after Terry was terminated from Acis, Dondero significantly increased the amounts that Acis was paying HCMLP under their shared services and sub-advisory agreements, retroactive to January 1, 2016.

70. Beginning on October 24, 2017—four days after Terry's arbitration judgment was issued—Dondero, acting through HCMLP, and with the aid of Ellington and Leventon, entered into numerous transactions designed to take control of Acis's assets and business, and strip Acis of assets so that it would be unable to pay Terry's arbitration award. Ellington and Leventon aided Dondero by implementing Dondero's directives and taking the steps necessary to consummate these transactions, notwithstanding their knowledge that the transactions

benefitted only Dondero, and would ultimately harm HCMLP by exposing it to significant liability.

71. Ultimately, Dondero's elaborate schemes to render Acis judgment-proof led Terry to file involuntary petitions for protection under chapter 11 of the United States Bankruptcy Code against Acis and Acis GP on January 30, 2018. In response to the bankruptcy filings, Dondero caused HCMLP, which served as the sub-advisor to the Acis CLOs, to grossly mismanage the Acis CLOs, including by failing to purchase a single loan for the CLOs following the appointment of a chapter 11 trustee in the Acis bankruptcy case. This abrogation of duties caused the chapter 11 trustee to replace HCMLP with Brigade Capital Management, LP ("Brigade") and Cortland Capital Markets Services LLC ("Cortland"). Put another way, Dondero's use of HCMLP to cause damage to Acis actually harmed HCMLP itself, leading HCMLP to incur exorbitant legal fees attacking Acis, the loss of its investment management contracts and the income flowing from those contracts, and reputational harm that precluded HCMLP from launching any future CLOs and generating fee income therefrom.

72. Dondero also caused HCMLP to commence litigation against the Acis chapter 11 trustee, prompting a countersuit pursuant to which the chapter 11 trustee sought to recover fraudulent transfers Dondero had directed (through HCMLP) and to stop HCMLP from engaging in a course of conduct that was harmful to Acis and the Acis CLOs. This led to the entry of a temporary restraining order against HCMLP, which Dondero caused HCMLP to violate. Dondero also caused Highland CLO Funding, Ltd. ("HCLOF") to initiate an additional frivolous lawsuit against Terry in the Royal Court of Guernsey (the "Guernsey Suit"), which was ultimately dismissed, resulting in Terry arguing that HCMLP, as the owner of HCLOF's

advisor Highland HCF Advisors, Ltd. ("HHCFA"), was liable for Terry's attorneys' fees and expenses under Guernsey's "loser pays" regime.[12]

**2. Dondero And Ellington Expose HCMLP To Liability By Fraudulently Inducing An Investment From HarbourVest**

73. Dondero and Ellington also exposed HCMLP to substantial liability to third-party investors HarbourVest 2017 Global Fund L.P., HarbourVest 2017 Global AIF L.P., HarbourVest Dover Street IX Investment L.P., HV International VIII Secondary L.P., HarbourVest Skew Base AIF L.P., and HarbourVest Partners L.P. (collectively, "HarbourVest"). At the same time that Dondero was surreptitiously transferring valuable rights associated with the Acis CLOs away from Acis in order to evade Terry's arbitration award, he and Ellington were using HCMLP to induce the HarbourVest Entities to purchase 49.9% of HCLOF—the owner of the equity tranche of the Acis CLOs—from CLO Holdco for approximately $75 million in cash, with a commitment to invest an additional $75 million in HCLOF.[13] In soliciting this investment, Dondero and Ellington failed to disclose material facts

[12] Dondero's litigation crusade against Terry and Acis continues to date. On May 14, 2021, NexPoint, acting under Dondero's direction, caused one of its managed retail funds, NSOF, to commence a lawsuit in the district court for the Southern District of New York against Acis, Terry, U.S. Bank, N.A., and Brigade, alleging that the Acis CLOs had been mismanaged. On May 20, 2021, NSOF then filed a motion in Acis's bankruptcy case, seeking a ruling that the complaint did not violate the injunction contained in Acis's plan of reorganization. On September 9, 2021, the bankruptcy court conducted a lengthy hearing, and on September 24, 2021, declined to issue the order requested by NSOF and held that NSOF must amend its complaint to comply with the plan injunction. On October 8, 2021, NSOF then filed a motion asking the Bankruptcy Court to reconsider its ruling, but withdrew the motion on December 1, 2021. NSOF filed an Amended Complaint in the SDNY action on November 23, 2021. Acis, U.S. Bank, N.A., Brigade, and HCLOF (as defendant intervenor) filed motions to dismiss, which were fully briefed in March 2022, and remain pending.

[13] CLO Holdco acquired Acis CLO equity tranches when the CLOs were launched and then transferred them to HCLOF in exchange for a 100% ownership interest in HCLOF after it was formed.

to HarbourVest regarding the Terry disputes and Acis frauds, thus exposing HCMLP to substantial and unnecessary liability.[14]

74. In inducing HarbourVest's investment, Dondero and Ellington, purportedly acting through HCMLP, made numerous misrepresentations and omissions, including: (1) failing to disclose that Dondero intended to cause Acis to evade Terry's $7.9 million arbitration award against it, including by causing Acis to consummate a series of fraudulent transfers; (2) misrepresenting the reasons that Dondero changed the name of the holding company for the Acis CLOs from Acis Loan Funding, Ltd. ("ALF") to HCLOF immediately prior to the HCLOF Investment; and (3) expressing confidence in HCLOF's ability to reset or redeem the CLOs under its control, when in actuality Dondero's actions to evade Terry's arbitration award against Acis resulted in Acis's bankruptcy, and rendered the resets impossible.

75. Moreover, unbeknownst to HarbourVest, Dondero intended for CLO Holdco to use the $75 million that it received from HarbourVest to make investments in other Dondero-owned entities, including entities managed by NexPoint and HCMFA. Thus, the HarbourVest investment benefitted Dondero personally, but left HCMLP exposed to hundreds of millions of dollars in potential damages to HarbourVest.

### 3. Dondero And His Accomplices, Including Ellington and Leventon, Cause HCMLP To Engage In Misconduct That Increases Its Liability To UBS

76. In March 2017, the New York state court presiding over UBS's claims against HCMLP and the Fund Counterparties ruled that UBS's claims against the Fund Counterparties,

[14] HCLOF has never paid a management fee to HHCFA, a wholly-owned subsidiary of HCMLP that is managed and controlled by HCMLP and operated using HCMLP employees. Consequently, HCMLP has indirectly provided free investment management services to HCLOF since its inception.

and its fraudulent transfer claims against HCMLP, could proceed to trial.[15] Shortly thereafter, Dondero, Ellington, and Leventon, along with HCMLP employees Jean Paul Sevilla, Katie (Irving) Lucas, and Matthew DiOrio, took steps to transfer the Fund Counterparties' remaining assets to Sentinel Reinsurance, Ltd. ("Sentinel"), a Cayman Islands entity indirectly owned and controlled by Dondero and Ellington,[16] in order to ensure that such assets would be out of UBS's reach in the event that a judgment was entered in its favor.[17] In or around August 2017, Dondero, Ellington, Leventon, Sevilla, Lucas, and DiOrio orchestrated the surreptitious transfer of substantially all of the Fund Counterparties' assets—with a face amount of $300 million and a fair market value of at least $100 million—to Sentinel.

77. The pretextual justification for these transfers was to satisfy a $25 million premium on an "after the event" insurance policy issued by Sentinel that purportedly insured the Fund Counterparties' first $100 million of liability to UBS. The real goal of the transfer, however, was to drain the Fund Counterparties' assets and render the Fund Counterparties judgment-proof, while keeping the assets within Dondero's and Ellington's control. There is no legitimate explanation as to why the Fund Counterparties transferred assets worth at least four times the premium payment to Sentinel. And given that Dondero and Ellington indirectly own and control Sentinel, they personally and improperly benefitted from this overpayment.

---

[15] UBS's claim against HCMLP for breach of the implied covenant of good faith and fair dealing was subsequently also permitted to proceed.

[16] Sentinel was created in 2012 and is 70%-owned by Dondero and 30%-owned by Ellington through intermediate holding companies. Sentinel has no employees or physical office space. HCMLP employees, including Leventon, performed work on behalf of Sentinel.

[17] In December 2017, Ellington caused Dilip Massand and DiOrio to be appointed as directors of Sentinel.

78. Moreover, Ellington and Leventon (along with Sevilla, Lucas, and DiOrio) actively concealed the transfer of assets and the existence of the purported insurance policy from the Independent Board, apparently in order to prevent the Fund Counterparties from making a claim under the policy. Indeed, Leventon, who was directly involved in the transfers to Sentinel, was tasked with educating the Independent Board about UBS's claim and the assets potentially available to satisfy it. In response, Leventon delivered an extensive—but intentionally misleading—presentation to the Independent Board that said nothing about the August 2017 asset transfer and the purported Sentinel insurance policy, and lied to HCMLP regarding the Fund Counterparties' assets. Additionally, around the same time that Ellington and Leventon were hiding this secret insurance policy from the Independent Board, (i) Ellington charged the policy for personal expenses in excess of $500,000 that bore no relation to the UBS litigation and provided no benefit whatsoever to the Fund Counterparties or HCMLP; and (ii) Ellington and Leventon, among others, entered into agreements whereby Sentinel agreed to pay attorneys' fees and expenses they incurred in connection with HCMLP's bankruptcy.

79. As a direct result of Ellington's and Leventon's fraudulent concealment of the transfers to Sentinel, HCMLP inadvertently made factually inaccurate statements to the Bankruptcy Court and incurred millions of dollars in additional fees litigating (rather than settling) with UBS. In March 2021, after the policy was uncovered through HCMLP's diligence (notwithstanding Ellington's and Leventon's cover-up), the CDO Fund made a claim on the policy. To date, Sentinel has refused to make any payments.

80. On February 10, 2020, the New York state court entered a judgment against the Fund Counterparties in connection with the phase one litigation, in the principal amount of $519,374,149, plus $523,016,882.79 in prejudgment interest, for an overall judgment of

$1,042,391,031.79. Trial on UBS's claims against HCMLP was still pending when HCMLP filed for bankruptcy on October 16, 2019 (as discussed *infra*).

**4. Dondero Causes HCMLP To Engage In Misconduct That Results In Liability To HERA And Patrick Daugherty**

81. HCMLP's poor performance during the 2008-09 financial crisis left it with insufficient available cash and assets to offer incentive-based compensation to key senior employees. After HCMLP defaulted on a credit facility with a group of unsecured banks, the lender group demanded a security interest in all HCMLP's assets, but permitted the creation of a retention program to stave off an exodus of employees. With the consent of the lenders, on June 23, 2009, HCMLP created Highland Employee Retention Assets LLC ("HERA"), an employee-owned (subject to a two-year vesting period) entity that served as a replacement for certain senior employees' deferred compensation, which had been previously-awarded but wiped out by the financial crisis. HCMLP contributed assets to HERA, which then distributed proceeds from time to time. Patrick Daugherty, a former senior HCMLP employee, was a director of HERA and its largest unitholder.

82. Dondero's relationship with Daugherty deteriorated, and Daugherty resigned from HCMLP in the fall of 2011. Instead of simply allowing HERA to pay Daugherty what he was owed, Dondero caused HCMLP to carry out his personal vendetta against Daugherty through years of spiteful, unnecessary litigation borne out of personal animosity. As a result of that litigation, HCMLP accrued (i) litigation expenses and pre- and post-judgment interest that exceeded the amounts that HERA owed Daugherty in the first place; and (ii) liability in connection with a jury verdict that HCMLP defamed Daugherty with malice and breached the implied covenant of good faith and fair dealing.

83. Moreover, Dondero, through HCMLP, engaged in an asset-stripping campaign designed to render HERA judgment-proof, further exposing HCMLP to liability and unnecessary legal costs. In furtherance of that scheme, Dondero caused: (i) HCMLP to buy out all HERA unitholders except for Daugherty; (ii) HERA's board to transfer its powers to Highland ERA Management, a newly formed entity for which Dondero served as president and sole member; and (iii) HERA to distribute substantially all of HERA's assets to HCMLP, while claiming that HCMLP would place Daugherty's interests in HERA into escrow.

84. When Daugherty demanded payment of his judgment from HERA, HERA claimed it had become insolvent, citing that it owed HCMLP more than $7.5 million for legal expenses—approximately $4.9 million of which HCMLP had written off because of "lack of collectability."

85. Daugherty then sued HCMLP, HERA, Highland ERA Management, and Dondero in the Delaware Chancery Court. A Vice Chancellor concluded that HCMLP, Dondero, and the other defendants (who were also controlled by Dondero) were "improperly withholding documents," that "there is a reasonable basis to believe" that they perpetrated a fraud—and solicited "the services of attorneys to aid in furtherance of that fraud"—as part of an effort to evade Daugherty's judgment during the pendency of his case. The Vice Chancellor concluded that "defendants, with [counsel's] advice and assistance, were never going to let the assets held in the escrow agreement to make their way to Daugherty."

86. In total, HCMLP suffered at least $10 million in harm as a result of Dondero's decision to launch a protracted and unnecessary war against Daugherty.

### E. Dondero, Ellington, and Leventon Cause HCMLP To Engage In Conduct That Results In An Arbitration Award Against It Of Approximately $190 Million And Forces HCMLP Into Bankruptcy

87. Dondero, Ellington, and Leventon also engaged in misconduct relating to HCMLP managed funds Highland Offshore Partners L.P., Highland Crusader Fund, L.P., Highland Crusader Fund, Ltd., and Highland Crusader Fund II, Ltd. (collectively, the "Crusader Funds") that resulted in an arbitration award against HCMLP of approximately $190 million. HCMLP had placed the Crusader Funds into wind-down in October 2008. Investors in the funds subsequently commenced lawsuits alleging breach of fiduciary duty claims against HCMLP, based on allegations that Dondero had refused to make mandated distributions and honor redemption requests, and traded the funds' positions in a manner designed to render them illiquid in order to deter future redemptions, which led to multiple disputes among redeeming investors. Certain of these lawsuits were ultimately resolved in July 2011, when the parties entered into a Joint Plan of Distribution of the Crusader Fund and a Scheme of Arrangement for its creditors (together, the "Joint Plan and Scheme"). As part of the Joint Plan and Scheme, a committee referred to as the "Redeemer Committee" was elected from the Crusader Funds' investors to oversee HCMLP's wind-down of the Crusader Funds and distribution of proceeds to investors.

88. The peace would not last, however. On July 5, 2016, the Redeemer Committee (i) terminated HCMLP as investment manager; (ii) filed a complaint in Delaware Chancery Court against HCMLP seeking a limited status quo order, a declaration that the Redeemer Committee had "cause" to terminate HCMLP as manager, and a declaration that HCMLP had forfeited any right to indemnification as a result of its failure to distribute proceeds to investors of various funds; and (iii) commenced an arbitration proceeding (the "Redeemer Arbitration")

against HCMLP alleging that it had engaged in various forms of misconduct in its role as investment advisor. After two years of arbitration proceedings, the Redeemer Arbitration culminated in a nine-day evidentiary hearing in September 2018 that included testimony from eleven fact witnesses and four expert witnesses. On March 6, 2019, the arbitration panel issued an award in favor of the Redeemer Committee, which resulted in gross damages of $136.8 million and total damages (including interest) of $190.8 million. Ultimately, the panel awarded ten forms of damages: (1) the Deferred Fee Claim ($43,105,395); (2) the Distribution Fee Claim ($22,922,608); (3) the Taking of Plan Claims ($3,277,991); (4) the CLO Trades Claim ($685,195); (5) the Credit Suisse Claim ($3,660,130); (6) the UBS Claim ($2,600,968); (7) the Barclays Claim ($30,811,366); (8) the Legal Fees, Costs, and Expenses Claim ($11,351,850); (9) the Portfolio Company Award ($71,894,891); and (10) the Administrative Fees Award ($514, 164).

89. The claims that were asserted against HCMLP by the Redeemer Committee stemmed from the various breaches of fiduciary duty to the Crusader Funds that Dondero, Ellington, and Leventon caused HCMLP to commit. For example, the "Barclays Claim"—which gave rise to over $30 million in liability for HCMLP—arose out of Dondero, Ellington, and Leventon causing HCMLP to transfer Barclays' limited partnership interests in the Crusader Funds to HCMLP's wholly-owned affiliate, Eames, after the Redeemer Committee had already refused to approve that transfer. In so doing, Dondero, Ellington, and Leventon caused HCMLP to violate the Joint Plan and Scheme and its fiduciary duties. Because of Dondero, Ellington, and Leventon's wrongful conduct, HCMLP was ordered to pay: (1) over $30 million on account of disgorged partnership interests; (2) additional sums for disgorgement

of distribution fees (that were included within the $22.9 million Distribution Fee Award); and (3) interest, fees, and expenses incurred in connection with the arbitration.

90. In addition, from December 2013 through January 2016, Dondero, Ellington, and Leventon caused HCMLP to purchase 28 Plan Claims from Crusader investors in violation of the Redeemer Committee's right of first refusal ("ROFR"). During this time, Leventon told multiple investors interested in possible transfers of their interests that Highland had a ROFR to purchase any Plan Claims, never mentioning the Committee's prior and superior ROFR. Leventon also made affirmative misrepresentations to the Redeemer Committee to disguise the fact that HCMLP had purchased the Plan Claims. Pursuant to the arbitration award, HCMLP was required to transfer the 28 Plan Claims to the Redeemer Committee, and to disgorge to the Committee whatever financial benefits Highland obtained from the 28 transactions, plus interest at the rate of 9%, from the date of each purchase.

91. Dondero's, Ellington's, and Leventon's conduct also resulted in HCMLP becoming liable to the Redeemer Committee for over $71 million (the "Portfolio Company Claim") in connection with claims arising from a portfolio company that was owned, directly and indirectly, by HCMLP (the "Portfolio Company"). Some of the Portfolio Company's stock was owned by the Crusader Funds. Dondero, Ellington, and Leventon caused HCMLP to covertly purchase shares in the Portfolio Company from another fund that Dondero controlled at below-market prices, and failed to liquidate the Crusader Funds' shares in the Portfolio Company as their fiduciary duties required. Pursuant to the arbitration award, HCMLP was required to purchase the Crusader Funds' shares in the Portfolio Company at a fixed price of $48,070,407, and to pay pre-judgment interest that brought the total claim to $71,894,891.

92. Additionally, the Joint Plan and Scheme required HCMLP to defer receipt of certain Deferred Fees until the liquidation of the Crusader Funds was complete. Dondero, Ellington, and Leventon caused HCMLP to violate that provision of the Joint Plan and Scheme by causing HCMLP to surreptitiously transfer approximately $32 million in Deferred Fees from the Crusader Funds' accounts on January 21 and April 6, 2016. The arbitration panel ruled that as a consequence of Dondero's, Ellington's, and Leventon's blatant breach of the payment requirements of the Joint Plan and Scheme, HCMLP forfeited its right to these fees entirely.

93. The Redeemer Committee set a hearing in Delaware Chancery Court for October 8, 2019 to obtain entry of a judgment with respect to the award. The hearing was subsequently continued to October 16, 2019. HCMLP filed for bankruptcy on the day of oral arguments for the Redeemer Committee's motion to enforce the Award in Delaware Chancery Court.

### F. Dondero's Schemes Result In Hundreds Of Millions Of Dollars Of Liability For HCMLP

94. As noted, Dondero's schemes ultimately resulted in hundreds of millions of dollars of liability for HCMLP. As described below, the creditors that Dondero had sought to cheat and evade filed proofs of claim in HCMLP's bankruptcy proceeding, and HCMLP's management, burdened with Dondero's blatant misconduct (and that of Ellington, Leventon, and other of Dondero's loyalists), was forced to settle these claims for amounts that enabled HCMLP to escape the risk of even greater liability.

95. Additionally, HCMLP has incurred in excess of $40 million in professional fees in connection with the bankruptcy filing, which was necessitated solely as a result of Dondero's misconduct. HCMLP also incurred legal expenses for entities that HCMLP did not own, including several of the "lifeboats."

### 1. HCMLP Incurs $125 Million In Liability To UBS As A Result Of Dondero's, Leventon's, and Ellington's Misconduct

96. On June 26, 2020, UBS filed a proof of claim (the "UBS Claim") in HCMLP's bankruptcy proceeding for the full $1,039,957,799.44 of its judgment against the Fund Counterparties.[18] The UBS claim sought "damages arising from HCMLP's breach of the implied covenant of good faith and fair dealing, its specific role in directing the fraudulent transfers of assets involving HFP," and interest, punitive damages, and attorneys' fees.

97. In November 2020, the Court considered the value of the UBS Claim for purposes of plan voting. In connection therewith, the Court temporarily allowed the UBS Claim in the amount of $94,761,076. Of that amount, approximately $43 million related to transfers HCMLP caused to be made to one of HCMLP's managed funds, based on the Court's estimation that there was a 90% chance that UBS would prevail on that portion of its claim under either a fraudulent conveyance or breach of implied covenant theory.

98. Subsequently, HCMLP and UBS engaged in settlement discussions and mediation. Following mediation, the parties reached an initial settlement in principle, pursuant to which UBS would receive a $75 million unsecured claim, consisting of a $50 million Class 8 General Unsecured Claim and a $25 million Class 9 Subordinated General Unsecured Claim. That settlement was disclosed to the Court at the February 2, 2021 confirmation hearing. This settlement was in satisfaction of damages resulting from conduct that Dondero, Ellington, and Leventon perpetrated on behalf of HCMLP. But for that conduct, HCMLP would not have been liable to, or required to enter into the settlement with, UBS.

[18] The UBS Claim consists of two substantively identical claims: (i) Claim No. 190 filed by UBS Securities LLC; and (ii) Claim No. 191 filed by UBS AG, London Branch.

99. While the preliminary settlement for the known misconduct of Dondero, Ellington, and Leventon was being finalized, the Independent Board learned that Dondero and Ellington had surreptitiously caused the Fund Counterparties to transfer their remaining assets to Sentinel, and had caused HCMLP to misrepresent to UBS that the Fund Counterparties had no assets prior to that transfer occurring. Purportedly acting on behalf of HCMLP, Dondero, Ellington, and Leventon had concealed this transfer from the Independent Board, while advising the Independent Board that the Fund Counterparties lacked any material assets. The Independent Board had communicated that information to UBS (and the Court) and negotiated with UBS on those bases.

100. When the Independent Board discovered that Dondero, Ellington, and Leventon engaged in a conspiracy to cover up the fraudulent Sentinel transfer, it disclosed the transfer to UBS. As a result, the parties reopened settlement discussions. Ultimately, in order to limit HCMLP's potential liability to UBS as a result of Dondero's, Leventon's, and Ellington's bad acts, HCMLP entered into a revised settlement with UBS that granted UBS a claim totaling $125 million, consisting of a $65 million Class 8 General Unsecured Claim and a $60 million Class 9 Subordinated Unsecured Claim. In addition to the increased settlement amount and litigation costs, HCMLP is required to expend up to $3 million (subject to reimbursement) pursuant to certain cooperation provisions contained in the settlement agreement with UBS as a result of the fraudulent Sentinel transfer. The Bankruptcy Court approved the UBS settlement on May 27, 2021.

**2. HCMLP Incurs More Than $185 Million In Liability To The Redeemer Committee And Crusader Funds As A Result Of Dondero's Misconduct**

101. On April 3, 2020, the Redeemer Committee filed a general unsecured claim in the amount of its $190,824,557.00 arbitration award, plus "post-petition interest, attorneys' fees, costs and other expenses that continue to accrue." Likewise, on April 3, 2020, the Crusader Funds filed a claim for $23.5 million, consisting of $8.2 million in management fees and $15.3 million in distribution fees. Faced with this potential liability, HCMLP entered into a settlement whereby, among other things: (i) the Redeemer Committee was granted an allowed general unsecured claim of $136,696,610.00; (ii) the Crusader Funds were granted an allowed general unsecured claim of $50,000.00; (iii) HCMLP and Eames each consented to the cancellation of interests they and the Charitable DAF held in the Crusader Funds that the arbitration panel had determined were wrongfully-acquired; (iv) HCMLP and Eames each acknowledged that they would not receive any portion of distributions reserved by the Crusader Funds, and HCMLP further acknowledged that it will not receive any future payments from the Crusader Funds in respect of any Deferred Fees, Distribution Fees, or Management Fees; and (v) HCMLP and the Redeemer Committee agreed to a form of amendment to the Portfolio Company's shareholders' agreement and to a process whereby HCMLP would use commercially reasonable efforts to monetize all Portfolio Company shares held by HCMLP, funds managed by HCMLP, and the Crusader Funds.[19] The Bankruptcy Court approved HCMLP's settlement with the Redeemer Committee and Crusader Funds on October 23, 2020.

[19] Because HCMLP did not have the money to purchase the shares, the Redeemer Committee and HCMLP agreed to treat the Portfolio Company's shares differently than the process required under the arbitration award. Rather than having HCMLP purchase the Crusader Funds' shares in the Portfolio Company for approximately $48 million, they agreed that the Crusader Funds would

### 3. HCMLP Incurs More Than $100 Million In Liability To Acis, Terry, And HarbourVest As A Result Of Dondero's Misconduct

102. Acis also filed proofs of claim against HCMLP, seeking, among other things, the amounts Dondero had caused HCMLP to overcharge Acis in order to diminish Terry's limited partner distributions from Acis, and damages arising from HCMLP's efforts to transfer assets out of Acis, in order to evade Terry's arbitration award and ensure that Dondero would benefit from the transferred assets. Terry and his wife also filed a proof of claim against HCMLP, alleging that HCMLP, acting through Dondero, had misappropriated assets in their retirement account. The Acis and Terry proofs of claim were settled in mediation after Dondero resigned from HCMLP. Pursuant to that settlement, Acis received a $23 million allowed claim against HCMLP, and HCMLP was required to pay (1) Terry and his wife $425,000 plus 10% interest to resolve the Terry's claim that HCMLP had misappropriated their retirement account;[20] (ii) Terry $355,000 in legal fees because of HCLOF's frivolous suit in Guernsey; and (iii) Acis an additional $97,000 for legal fees incurred defending another frivolous lawsuit initiated by Dondero.

103. On April 8, 2020, the HarbourVest entities filed proofs of claim against HCMLP (the "HarbourVest Proofs of Claim") alleging that HCMLP had fraudulently induced them into entering into the HCLOF Investment based on HCMLP's misrepresentations and omissions concerning certain material facts, including that HCMLP: (1) failed to disclose that Dondero intended to cause Acis to evade Terry's $7.9 million arbitration award; (2) failed to disclose that it orchestrated a series of fraudulent transfers to prevent Terry from collecting on his

---

retain their shares in the Portfolio Company and that the total damages award would be reduced by approximately $30.5 million to account for the perceived fair market value of those shares.

[20] Because of the interest component, HCMLP ultimately paid the Terrys approximately $1 million to compensate them for Dondero's theft of their retirement account.

arbitration award, and misrepresented the reasons for changing the portfolio manager for HCLOF immediately prior to HarbourVest's HCLOF Investment; (3) indicated that the dispute with Terry would not impact HCLOF's investment activities; and (4) falsely expressed confidence in HCLOF's ability to reset or redeem the CLOs under its control.

104. HarbourVest sought to rescind its HCLOF Investment and alleged damages in excess of $300 million. Ultimately, following Dondero's departure from HCMLP, the parties reached a resolution whereby HarbourVest agreed to transfer its interests in HCLOF to a new entity designated by HCMLP in exchange for a $45 million general unsecured claim and a $35 million subordinated general unsecured allowed claim. The value of the HCLOF interests that HarbourVest transferred to the HCMLP-designated entity was tens of millions of dollars less than the allowed amount of HarbourVest's claim against HCMLP.

### G. HCMLP Was Insolvent, Inadequately Capitalized, And/Or Intended To Incur Debts Beyond Its Ability To Pay Well Before The Redeemer Committee Arbitration Award Forced It Into Bankruptcy

105. The Redeemer Committee's $190 million arbitration award left HCMLP with no choice but to file for bankruptcy. But HCMLP was insolvent, inadequately capitalized, and/or intended to incur debts beyond its ability to pay well before the Redeemer Committee arbitration award was issued. As Dondero himself has acknowledged under oath, as a result of the economic recession of 2008 HCMLP "almost went under and . . . moved to a state of insolvency" from which HCMLP was still struggling to emerge in 2012.[21] Indeed, as shown below, a valuation of HCMLP's assets and liabilities shows that HCMLP was balance sheet insolvent, inadequately capitalized, and/or intended to incur debts beyond its ability to pay in

[21] Mar. 28, 2012 H'rg Tr. 62:06-10 (J. Dondero), *In the Matter of the Marriage of I.C. and Q.C.*, Cause No. 11-16417-Z (Tex. Dist. [256th Dist.]).

2011 and 2012, when Dondero created lifeboats NexPoint and HCMFA, and transferred certain of HCMLP's management contracts to HCMFA for no value. Contemporaneous valuations performed by the company itself corroborate this conclusion.

106. More specifically, these valuations show that when litigation liabilities resulting from claims by Barclays and UBS against HCMLP are taken into account, HCMLP was insolvent from no later than April 9, 2010 until no earlier than April 30, 2013.

| | Apr. 9, 2010 | Dec. 31, 2010 | Dec. 31, 2011 | Dec. 31, 2012 | Apr. 30, 2013 |
|---|---|---|---|---|---|
| Total Assets Less Financial Liabilities[22] | ($32M) | ($22) | $60M | $101M | $145M |
| Litigation Liabilities[23] | $365M | $365M | $365M | $145M | $145M |
| Net Value | ($397M) | ($387M) | ($305M) | ($44M) | ($1M) |

107. The creation of the lifeboats and subsequent transfer of management contracts (and business value) all but ensured HCMLP's demise. HCMLP's assets under management, operating income from its investment management business, and operating margins steadily declined, and almost no new third-party investor money came into the company. HCMLP continued to shoulder the burden of providing services to NexPoint and HCMFA without compensation. HCMLP's financial condition began to improve in late 2013, due largely to

[22] HCMLP's "Total Assets Less Financial Liabilities" is exclusive of litigation liabilities and is estimated as the sum of the enterprise value of the investment fund management business, the fair market value of HCMLP's investment portfolio, and the value of related parties notes receivable, less HCMLP's non-contingent financial liabilities. HCMLP's valuation is corroborated by valuations prepared by CBIZ, Inc. on behalf of HCMLP's general partner. Figures are rounded to the nearest million.

[23] Litigation liabilities are set at the values at which they were settled, or the values at which they were estimated by the Court in the course of the bankruptcy proceeding.

successful proprietary trading and overall improving market conditions, but those gains began to dissipate in 2015 due to Dondero's reckless trading.

108. By December 2016, the company was again firmly insolvent, inadequately capitalized, and/or unable to pay its debts as they came due, in large part because its CLOs were generating diminishing returns, and the company was earning only minimal fees for servicing other Dondero Entities rather than generating new business of its own, while continuing to bear significant employee expenses. HCMLP's financial condition deteriorated further between 2017 and 2019, as additional litigation claims were levied against the company, and it was forced to answer for the misconduct perpetrated in its name by Dondero and his loyalists.

109. Specifically, as shown below, when litigation liabilities resulting from claims by UBS, the Redeemer Committee, and Acis against HCMLP are taken into account in valuations prepared on HCMLP's behalf, HCMLP was insolvent from no later than December 31, 2016, until the date it filed for bankruptcy.

| | Dec. 19, 2016 | Dec. 31, 2017 | Dec. 31, 2018 | Oct. 16, 2019 |
|---|---|---|---|---|
| Total Assets Less Financial Liabilities[24] | $183M | $260M | $184M | $101M |
| Litigation Liabilities[25] | $212M | $365M | $365M | $365M |
| Net Value | ($29M) | ($105M) | ($181M) | ($264M) |

[24] HCMLP's "Total Assets Less Financial Liabilities" is exclusive of litigation liabilities and is estimated as the sum of the enterprise value of the investment fund management business, the fair market value of HCMLP's investment portfolio, and the value of related parties notes receivable, less HCMLP's non-contingent financial liabilities. HCMLP's valuation is corroborated by valuations prepared by CBIZ, Inc. on behalf of HCMLP's general partner. Figures are rounded to the nearest million.

[25] Litigation liabilities are set at the values at which they were settled, or the values at which they were estimated by the Court in the course of the bankruptcy proceeding.

### H. At All Time Relevant To This Amended Complaint, Dondero Hopelessly Commingled And Exploited Entities Within His Enterprise For His Own Personal Benefit

110. At all times relevant to this Amended Complaint, Dondero exploited HCMLP, Strand, and the various entities he controlled within the Highland empire for his own personal benefit, both directly and through other HCMLP fiduciaries whose loyalties ran to Dondero rather than HCMLP, and who aided Dondero in his various schemes. Dondero treated the elaborate corporate web he had created as a single integrated entity that existed solely to further his own self-enriching schemes, rather than as individual entities with their own respective stakeholders and corporate governance.

#### 1. Prior To Dondero's Resignation From Strand, Dondero Was The Alter Ego Of Strand

111. Dondero singularly dominated and controlled HCMLP and was its solitary decision-maker. Dondero made every material business, operational, management, and financial decision for HCMLP. Dondero exercised his complete control of HCMLP through HCMLP's general partner Strand, which Dondero similarly dominated and controlled. Dondero was Strand's 100% owner, sole director, and president between 1993 and 2020. For eight years he was also its secretary and only officer.

112. Strand did not even attempt to maintain the pretenses of observing corporate formalities. As an initial matter, Strand did not hold regular board meetings. Indeed, the Litigation Trustee, having reviewed HCMLP's books and records, has been unable to identify a single instance in which a Strand board meeting was held prior to the Petition Date. This is consistent with Dondero's own testimony in 2020 in an unrelated proceeding that he cannot recall ever attending a board meeting for Strand or seeing Strand board meeting minutes.

113. Although Strand's bylaws require annual meetings of stockholders, over the 26 years that Dondero controlled Strand, only six annual stockholder meetings were ever held, and no such meetings took place after 2005. The Litigation Trustee was able to identify only twelve instances of documented corporate action taken by the Strand board over the course of approximately 26 years, eight of which related to the appointment or removal of officers.

114. Dondero was the only officer of Strand between 1993 and 2001. Although Strand had certain elected officers between 2001 and 2019, they performed no duties in their capacities as officers of Strand and were appointed or fired from their roles based on their loyalty to, and standing with, Dondero. Indeed, when Dondero was asked under oath in 2020 about Strand's officers, he testified that he did not know if Strand even had officers, and stated that he was "not aware of [Strand] having any employees or active … governance." Moreover, he did not know whether Strand had a board of directors or if he was solely Strand's president.

**2. Dondero Routinely Commingled Entities And Employees Throughout The Dondero Corporate Web And Abused The Corporate Form**

115. As of the Petition Date, the Highland complex spanned more than 2,000 entities. For at least the last two decades, it has functioned largely as a single economic unit that was operated and controlled by Dondero, who abused his direct or indirect ownership stakes for his own personal benefit. Dondero directed the integrated enterprise himself, using friends, family members, and directors-for-hire that the Court has previously described as "nominal figureheads"[26] to carry out his will. As high-level HCMLP employees have testified under

[26] *See In re Acis Cap. Mgmt., L.P.*, No. 18-30264-SGJ-11, 2019 WL 417149, at *17 (Bankr. N.D. Tex. Jan. 31, 2019), *aff'd*, 604 B.R. 484 (N.D. Tex. 2019), *appeal dismissed as moot sub nom. Matter of Acis Cap. Mgmt. G.P., L.L.C.*, 850 F. App'x 300 (5th Cir. 2021), and *aff'd sub nom. Matter of Acis Cap. Mgmt., L.P.*, 850 F. App'x 302 (5th Cir. 2021).

oath, Dondero was the "ultimate decision-maker" for "every [] entity in the firm and for the firm as a whole."

116. Dondero managed the entities as a single integrated unit. Internal business plans and projections were prepared in the aggregate across entities, including entities that were not owned by HCMLP, but were instead otherwise directly or indirectly owned by Dondero. Internal financial forecasts even projected AUM growth in non-HCMLP entities that was predicated upon HCMLP acting as support and service provider, even though HCMLP itself was effectively a melting ice-cube when those projections were made. Indeed, as far back as 2011, company projections provided to the valuation advisor CBIZ Valuation Group projected negative operating income for HCMLP.

117. Dondero used his domination of his web of entities, operated as a single unit, to facilitate his pillaging of HCMLP, moving HCMLP's assets and revenue out of reach of its creditors while preserving those funds and assets for his own use or for the benefit of other entities he created or controlled. As described above, Dondero operated NexPoint and HCMFA for the purpose of siphoning off HCMLP's revenue and value; in addition, he used HCMLP as NexPoint's and HCMFA's direct piggy-bank, transferring not only HCMLP's business and agreements, but also its cash, which was used to seed new funds and investment vehicles, among other things.

118. Dondero's control of the various entities within the Highland web was so pervasive that his own co-founder Okada remarked at one point in 2012, "I am not cool with you coming up with ideas, using Highland's cash flow to set them up, fund all their negative working capital and then somehow think the split shouldn't be 75 25 without some sort of negotiation and true up [(i.e., making new entities that Dondero owned entirely on his own)]."

Indeed, a 2016 draft accounting memo concluded that HCMLP, HCMFA, and NexPoint (and all of their subsidiaries) "are considered to be under common control … James Dondero controls all 3 of the entities." This conclusion accords with statements NexPoint's and HCMFA's own funds have made in public filings,[27] as well as the Bankruptcy Court's finding that they are both "controlled by Dondero."[28]

119. Dondero also funneled his own personal expenses through HCMLP, routinely seeking expense reimbursements from HCMLP in excess of $1 million per year. At Dondero's direction, HCMLP employed certain employees whose only responsibilities and obligations were to manage Dondero's and Okada's personal affairs and private business interests. For example, Melissa Schroth was employed by HCMLP, but her only duties were to serve as Dondero's and Okada's personal bookkeeper. Her duties involved no work for HCMLP, but rather concerned Dondero's and Okada's personal investments and entities, including but not limited to Dugaboy and Get Good. Dondero also used HCMLP and its employees for the benefit of other entities he dominated without adequate compensation to HCMLP—including for the benefit of NexPoint and HCMFA as described above, as well as for the benefit of his personal trusts. For example, Dondero used his domination of HCMLP to make its employee resources available to Dugaboy and Get Good at his sole discretion. HCMLP employees were involved

[27] *See*, *e.g.*, NexPoint Real Estate Strategies Fund, Prospectus (Form 497) (as filed Apr. 29, 2022) ("NexPoint Advisors, L.P. … is controlled by James Dondero by virtue of his control of its general partner, Nexpoint Advisors GP, LLC."); Highland Income Fund, Prospectus Supplement (To Prospectus dated July 1, 2019) (Form 497) (July 29, 2019) ("HCMFA is owned by Highland Capital Management Services, Inc. ("HCM Services") and its general partner, Strand Advisors XVI, Inc., of which James Dondero is the sole stockholder. HCM Services is controlled by Mr. Dondero and Mr. Mark Okada by virtue of their respective share ownership.").

[28] *See* Order Dismissing as Moot Debtor's Motion for a Mandatory Injunction, *Highland Capital Mgmt., L.P. v. Highland Capital Mgmt. Fund Advisors, L.P. (In re Highland Capital Mgmt., L.P.)*, Adv. Proc. No. 21-03010-sgj11 (Bankr. N.D. Tex. Feb. 24, 2021) (Docket No. 25).

in creating, managing, and providing accounting services to Dugaboy, and certain of those employees, including Melissa Schroth, performed work on behalf of Get Good in connection with Dondero's estate planning and transactions between Get Good and other Dondero Entities. Moreover, both Dugaboy and Get Good have acknowledged in the course of HCMLP's bankruptcy that HCMLP hosted their documents on its server. However, neither Dugaboy nor Get Good compensated HCMLP for the use of its employees or its resources.

120. This use of HCMLP's employees for Dondero's personal benefit continued even after the commencement of HCMLP's bankruptcy. For example, after the bankruptcy commenced, Schroth instructed Nancy Dondero to send a letter in her capacity as a trustee of Dugaboy instructing the Swiss entity Highland Capital Management AG ("HCM AG"), which is majority-owned by Dugaboy (which is ultimately owned and controlled by Dondero), to write off a liability that it owed to HCMLP for payments that HCMLP had made on its behalf. Schroth even ghost-wrote a letter for Nancy Dondero to send to HCM AG authorizing this theft. Likewise, Dondero frequently instructed HCMLP's employees to perform services in connection with Dondero's personal and business interests, which conferred no value on HCMLP.

121. Highland employees frequently did not know whether they or their colleagues were employees of HCMLP or another entity within the Dondero web. Employees shared the same office space in HCMLP's headquarters. Indeed, each of Strand, NexPoint, NexPoint GP, HCMFA, Dugaboy, CLO Holdco, the Highland Dallas Foundation, the Highland Santa Barbara Foundation, the Highland Kansas City Foundation, HFP, SAS, and Acis listed its business headquarters at this same address: 300 Crescent Court, Suite 700, Dallas, Texas 75201. Moreover, when employees of HCMLP performed services for other Dondero entities, they

sometimes did so pursuant to agreements that Dondero signed for both HCMLP, on the one hand, and the counterparty, on the other hand. In other instances, HCMLP's employees performed services for non-HCMLP entities without any formal agreements in place at all. For example, Leventon testified that he performed work for SAS "on and off" for approximately seven years (*e.g.*, in connection with whether to invest in a new litigation funding case), notwithstanding that he was never an employee of SAS and HCMLP did not have a shared services agreement with SAS.[29] Moreover, when shared services and advisory agreements were in place, HCMLP frequently charged Dondero's other entities below-market rates for use of HCMLP's employees and resources.

122. Additionally, Dondero delegated authority to his loyalists irrespective of their titles or roles. For example, Dondero delegated decision-making authority for Acis to Ellington, notwithstanding that he was not an officer, director, or employee of Acis. And Leventon testified that although he was an HCMLP employee, HCMLP could request that he perform legal services for any of the 2,000 entities in the Highland web.

123. Dondero would also use HCMLP as his own personal piggy-bank. For example, between January and August of 2018, Dondero borrowed $16,725,000 on four demand notes. Dondero remains obligated on three of the demand notes and maintains an outstanding principal

[29] Similarly, several HCMLP employees, including Ellington, Leventon, Katie Irving, and JP Sevilla, had SAS email addresses, and there were frequent meetings among HCMLP's legal department—including Ellington, Leventon, and Sevilla—and Dilip Massand in connection with SAS. SAS did not compensate any of these HCMLP employees for their work for SAS. Moreover, in 2014, when a telephone call was placed to the number listed on SAS's website, the call was routed to HCMLP's office in Dallas with a message that stated: "Thank you for calling SAS Asset Recovery. For reception press 0. For Scott [Ellington], press 1. For Dilip [Massand], press 2. For JP [Sevilla], press 3. For Tabor [Pittman, former HCMLP Associate GC], press 4. For Katie [Irving], press 5. For Isaac [Leventon], press 6. Thanks and have a good day."

balance of approximately $9 million. HCMLP has demanded payment on all of the outstanding demand notes, but to date, Dondero has failed to make any repayments on that debt.[30]

124. Dondero also effectively paid himself and Okada distributions from HCMLP through other Dondero Entities, including HCMS. Between 2013 and 2017, HCMS issued dozens of demand notes to HCMLP in return for tens of millions of dollars in cash, and between May 2017 through 2020, HCMS issued four additional promissory demand notes with an aggregate face amount of $900,000. Frequently, these notes functioned as disguised distributions to Dondero and Okada, by virtue of a "loan" from HCMLP to HCMS followed by a "loan" from HCMS to Dondero and Okada. As with other intercompany notes between HCMLP and other Dondero Entities, these notes had minimal covenants. Moreover, Dondero caused HCMLP to issue these loans to HCMS with minimal interest.

125. To take yet another example, Dondero exploited HCMLP's employees and capital in order to launch HCRE Partners, LLC ("HCRE"), another entity designed to evade HCMLP's creditors.[31] HCRE pursued financial and real estate investments, failing to pay

[30] In January 2021, HCMLP filed adversary proceedings against Dondero and four of his affiliated entities (HCMFA, NexPoint, HCRE, and HCMS) in the Bankruptcy Court to collect on these notes. *See*, *e.g.*, *Highland Capital Management, L.P. v. James Dondero*, Adv. Pro. 21-03003-sgj (Bankr. N.D. Tex. Jan. 22, 2021). Dondero and his affiliated entities have raised a series of frivolous defenses to repayment of the notes, including that Dugaboy—acting through Dondero's sister—agreed to forgive the notes as part of Dondero's compensation. As of December 2021, the defendants owed an aggregate of over $50 million in past-due principal and interest on the notes. In November 2021, HCMLP filed a second adversary proceeding against HCMFA to collect on additional notes. *See Highland Capital Management, L.P. v. Highland Capital Management Fund Advisors, L.P.*, Adv. Pro. 21-03082-sgj. In this second notes litigation, HCMFA has raised a similarly frivolous defense.

[31] HCRE is 70% owned by Dugaboy, 25% owned by Highland Capital Management Real Estate Holdings I, LLC ("HCMRE I") (owned by a former HCMLP managing director) and 5% owned by Highland Capital Management Real Estate Holdings II, LLC ("HCMRE II") (owned by Ellington).

HCMLP any consideration for advisory, administrative, and other services HCMLP provided. Moreover, Dondero (1) caused HCMLP to loan HCRE tens of millions of dollars on terms that were unfair to HCMLP; (2) used the proceeds of those loans to pay approximately $32 million in distributions (between 2016 and 2020) to Dugaboy, Ellington, and another former HCMLP employee; and (3) caused HCRE to default on its debt to HCMLP and assert frivolous defenses to HCMLP's right to repayment. As of January 8, 2021, approximately $6.1 million in principal and interest was due and owing to HCMLP on HCRE notes.

126. As explained above, Dondero also used HCMLP to support the growth of lifeboats like NexPoint and HCMFA. Additionally, in December 2010, certain preferred tranches of CLOs managed by HCMLP and held by Highland CDO Holding Company, a portion of which was indirectly owned by HCMLP, were sold to CLO Holdco, a Cayman Islands entity then owned and controlled by a Dondero trust. CLO Holdco purported to pay approximately $39 million in return, but $33 million of that amount consisted of a note that was never repaid. The value of these preferred securities predictably skyrocketed soon thereafter, and generated substantial income that was used to benefit Dondero's lifeboats. An analysis of CLO Holdco's cash flows over time demonstrates that income generated from these assets was used to seed a variety of NexPoint-managed funds and entities, HCMFA-managed funds and entities, and Acis-managed CLOs and other vehicles—all for Dondero's benefit—rather than accruing in favor of HCMLP or its subsidiaries.

127. Dondero used HCMLP's funds to support other entities in his web as well. In or around 2013, HCM AG entered into a joint venture with a Brazilian entity named Brasilinvest Investimentos e Participacoes Ltda ("Brasilinvest Investimentos") for a shared interest in a Brazilian entity named Highland Capital Brasilinvest Gestora de Recursos, Ltda (a.k.a Highland

Capital Brasil Gestora de Recursos). With Dondero's approval, HCM AG acquired Brasilinvest Investimentos's shares in this joint venture through a $230,000 cash payment in October 2016. However, at Dondero's direction, the $230,000 was paid by HCMLP rather than HCM AG or Dugaboy.

128. Dondero did not bother to distinguish between himself and HCMLP. After Dondero was removed as HCMLP's Chief Executive Officer and President in January 2020, he continued using his HCMLP email account and continued working out of HCMLP's headquarters until his forced resignation in October 2020 and removal from HCMLP's premises in December 2020. When the Court entered an order restraining Dondero from communicating with HCMLP employees, Dondero flouted the order, including by communicating with Ellington and instructing Melissa Schroth (an HCMLP employee at the time) to resist Dugaboy-related document production requests, even though those documents were always kept on HCMLP's computer system. Likewise, a temporary restraining order entered by this Court prohibited Dondero from participating in, or encouraging others to participate in, any action that undermined decisions made by HCMLP's Chief Restructuring Officer, James Seery ("Seery"), regarding the disposition of HCMLP assets. Nevertheless, Dondero did so multiple times, including by contacting various employees and instructing them to act in a manner that was inconsistent with Seery's directions.

129. Dondero evinced no respect for HCMLP as an entity separate and apart from himself. Thus, he disposed of a cell phone that belonged to HCMLP that contained relevant data, likely resulting in the spoliation of valuable evidence that HCMLP could have used to pursue claims benefitting HCMLP. In addition, Dondero interfered with document productions of HCMLP and trespassed on HCMLP's property.

## I. Dondero And His Loyalists Also Engaged In Other Conduct That Harmed HCMLP

### 1. Dondero And His Loyalists Fraudulently Transferred Assets To Themselves And Their Affiliated Entities

130. Dondero and his loyalists also engaged in other transactions that siphoned value from HCMLP to themselves. As described in greater detail below, these included (i) transfers of liquid assets for illiquid notes that could not have been monetized for the same value as the assets for which they were exchanged, (ii) limited partner distributions, and (iii) payments for services provided to other Dondero Entities rather than HCMLP.

(a) The Fraudulent CLO Holdco Transaction

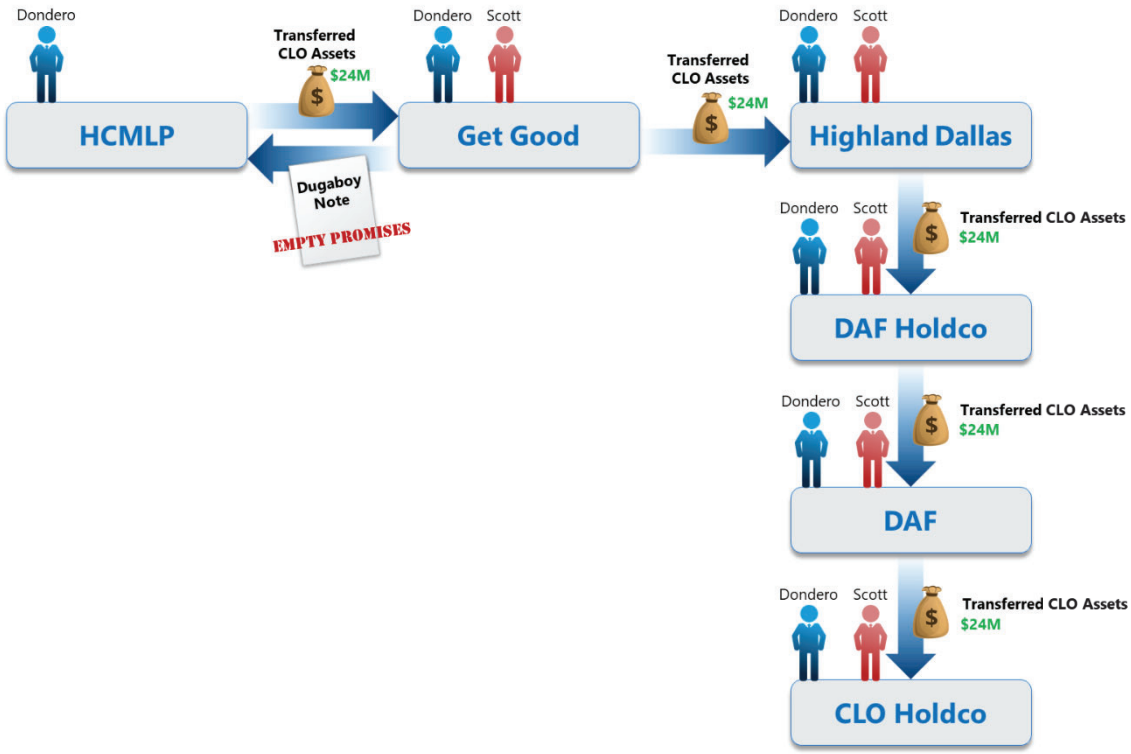
131. On December 28, 2016, shortly after the Redeemer Committee commenced its Delaware state court action and arbitration against HCMLP, and while UBS's action against HCMLP was pending, Dondero, acting with substantial assistance from Scott, undertook a scheme whereby HCMLP transferred assets valued by the company at approximately $24 million through a series of related assignments (the "Transferred CLO Holdco Assets") to CLO Holdco, in exchange for an assignment from Get Good of an existing Dugaboy obligation (the "Dugaboy Note"), which was worth significantly less than the transferred assets (the "CLO Holdco Transaction").

132. Upon information and belief, Dondero consummated the CLO Holdco Transaction in order to claim a charitable deduction on his tax returns, and to place value out of his ex-wife's reach. Specifically, Dondero wanted to transfer assets out of Get Good so that they would not be available to his ex-wife, and to do so through a charitable donation so that he would get the added benefit of a tax deduction. Get Good, however, did not own enough assets that qualified for a tax-deductible charitable donation. Accordingly, Dondero caused Get Good

to exchange the Dugaboy Note, which did not qualify for a tax-deductible donation, for HCMLP's Transferred CLO Holdco Assets, which did. Dondero, acting with Scott's assistance, then caused the Transferred CLO Holdco Assets to be immediately transferred from Get Good to Highland Dallas, to the Charitable DAF, to the DAF, and ultimately to CLO Holdco. The CLO Holdco Transaction thus furthered Dondero's personal interests, but harmed HCMLP and its creditors by replacing liquid and liquidating assets with an illiquid note of significantly less value.

133. The Transferred CLO Holdco Assets consisted of: (1) $2,032,183.24 or potentially more in Series A Interests in Highland Capital Loan Fund, L.P., an HCMLP-managed hedge fund investing primarily in liquid loans; (2) a participation interest worth $8,710,000 or potentially more in call options of publicly-traded American Airlines Group, Inc. (the "AA Interests"); and (3) a participation interest in certain Highland Crusader Fund L.P. and Highland Crusader Fund II, Ltd. shares, as well as a tracking interest in certain participation shares of Highland Crusader Fund II, Ltd., which at the time of the transfer HCMLP valued at $12,625,395.44 (the "Crusader Interests"). The transfer of the Transferred CLO Holdco Assets was initiated pursuant to a Purchase and Sale Agreement executed by Dondero, on behalf of HCMLP, and Scott, on behalf of Get Good. Pursuant to that agreement, the Transferred CLO Holdco Assets were received by Get Good.

134. Dondero caused HCMLP to transfer the Transferred CLO Holdco Assets to Get Good in exchange for the Dugaboy Note. While the face amount of the Dugaboy Note was equal to the reported value of the Transferred CLO Holdco Assets, in actuality, the value of the Dugaboy Note did not come close to the value of the Transferred CLO Holdco Assets. The interest rate on the Dugaboy Note was a paltry 2.75%. There was no security interest provided



in respect of the Dugaboy Note or other material covenants or lender protections other than rights to cost of collections. No payments of principal or interest were required on the note until 2036. And because Dugaboy was a completely private and opaque counterparty, there was no third-party market for the sale of the Dugaboy Note. Lastly, from a counterparty risk perspective, Dondero's control over the repayment of a note clearly does not ensure timely repayment without litigation, as evidenced by the several entities controlled by Dondero that are currently seeking to evade their unambiguous payment obligations on other notes owed to HCMLP, on frivolous grounds such as mistake and subsequent alleged oral agreements between Dondero and his sister. In the end, Dondero caused HCMLP to exchange valuable liquid or otherwise near-term liquidating assets for a paper-thin promise 20 years into the future.

135. Following Get Good's receipt of the Transferred CLO Holdco Assets, Scott—at Dondero's direction—immediately caused Get Good to donate the assets to Highland Dallas Foundation in his capacity as trustee of Get Good. Dondero and Scott caused the Highland Dallas Fund to immediately contribute the Transferred CLO Holdco Assets to DAF Holdco by unanimous written consent executed by Dondero, Scott, and Jalonick, each in their capacity as the directors of Highland Dallas Foundation. Following that transfer, through an omnibus assignment agreement, Scott caused DAF Holdco to transfer the Transferred CLO Holdco Assets to the DAF, which itself immediately transferred them to CLO Holdco. The DAF GP issued a written resolution, as general partner of the DAF and as 100% owner of CLO Holdco, contributing the Transferred CLO Holdco Assets to CLO Holdco. Scott again executed this document as managing member of DAF GP. As purported consideration for these transfers, the Highland Dallas Foundation, DAF Holdco, the DAF, and CLO Holdco all agreed to be fully bound by apparently unrelated "Multi Strat Governing Documents." Scott executed the

requisite consent documents on behalf of each entity, in his capacities as director of DAF Holdco, managing member of the DAF, and director of CLO Holdco. Upon information and belief, Scott consented to each step of the CLO Holdco Transaction on behalf of Get Good, DAF Holdco, the DAF, DAF GP, and CLO Holdco solely at Dondero's request, and without performing any independent analysis.

136. The structure of the CLO Holdco Transaction is set forth below in Figure 3.

**Figure 3.**

(b) Fraudulent Distributions

137. Notwithstanding HCMLP's limited liquidity and hundreds of millions of dollars in looming liabilities, Dondero caused HCMLP to make a series of equity distributions between 2010 and 2012, and 2015 and 2019, for Dondero's and Okada's ultimate benefit, and to the detriment of HCMLP's creditors. These distributions were made at a time when HCMLP was insolvent, inadequately capitalized, and/or intended to incur debts beyond its ability to pay, and

were intended to hinder, delay, and/or defraud creditors by siphoning value to limited partners that should have been preserved for creditors' benefit.

138. Although Dondero and Okada placed certain of their limited partnership interests in trusts that they ultimately owned or controlled, Dondero frequently disregarded corporate formalities, including with respect to limited partnership distributions. Until 2015, distributions were made to Dondero personally, notwithstanding that he owned HCMLP largely through certain trusts. Beginning in 2015, it appears that distributions were made directly to Strand and Dugaboy, *i.e.*, the Dondero Entities that actually held HCMLP limited partnership interests. As such, the distributions made to Dondero between April 9, 2010 and February 28, 2015 (identified below) were made for the benefit of Dondero, Dugaboy, and/or Strand. The distributions made after February 28, 2015, were, upon information and belief, made directly to the limited partnership interest holders, for the benefit of Dondero and Okada.

139. Likewise, until 2015, distributions were made to Okada individually, rather than HCMLP's limited partners MAP #1 and MAP #2. As such, the distributions made to Okada between April 9, 2010, and February 28, 2015, (identified below) were made for the benefit of Okada, MAP #1, and/or MAP #2. The distributions to Okada made after February 28, 2015, were broken out into three transfers in HCMLP's records, in amounts proportionate to the limited partnership interests of Okada, MAP #1, and MAP #2.

140. On or around April 9, 2010, HCMLP made distributions to Dondero and Okada, in the amounts of $1,216,756.87 (two transfers of $1,125,000.00 and $91,756.87) and

$405,585.62 (two transfers of $375,000.00 and $30,585.62), respectively (the "April 9, 2010 Distributions").[32]

141. On or around April 13, 2011, HCMLP made distributions to Dondero and Okada, in the amounts of $649,318.45 and $216,439.49, respectively (the "April 13, 2011 Distributions").

142. On or around May 2, 2011, HCMLP made distributions to Dondero and Okada, in the amounts of $3,124,435.00 and $1,024,018.00, respectively (the "May 2, 2011 Distributions").

143. On or around September 13, 2011, HCMLP made distributions to Dondero and Okada, in the amounts of $5,351,316.00 and $1,705,813.00, respectively (the "September 13, 2011 Distributions").

144. On or around November 25, 2011, HCMLP made distributions to Dondero and Okada, in the amounts of $5,250,000.00 and $1,750,000.00, respectively (the "November 25, 2011 Distributions").

145. On or around February 22, 2012, HCMLP made distributions to Dondero and Okada, in the amounts of $3,000,000.00 and $1,000,000.00, respectively (the "February 22, 2012 Distributions").

146. On or around February 29, 2012, HCMLP made distributions to Dondero and Okada, in the amounts of $4,514,780.25 and $1,504,926.75, respectively (the "February 29, 2012 Distributions").

[32] Plaintiff's original Complaint referred to the distributions as being made on or around the dates reflected on HCMLP's general ledger. Plaintiffs have now located the bank transfer statements for each distribution, and use the bank transfer date instead. The distributions being challenged, however, have not changed.

147. On or around April 10, 2012, HCMLP made distributions to Dondero and Okada, in the amounts of $6,221,364.15 and $2,073,788.05, respectively (the "April 10, 2012 Distributions").

148. On or around April 9, 2013, HCMLP made distributions to Dondero and Okada, in the amounts of $25,375,083.16 and $8,440,148.31, respectively (the "April 9, 2013 Distributions").

149. On or around December 19, 2016, HCMLP made distributions to Hunter Mountain,[33] Dugaboy, and Strand, in the amounts of $4,769,570, $8,945, and $12,017, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2, in the amounts of $2,334, $470, and $201, respectively (the "December 19, 2016 Distributions").

150. On or around January 5, 2017, HCMLP made distributions to Hunter Mountain, Dugaboy, and Strand, in the amounts of $11,034,754, $20,694, and $27,803, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2,[34] in the amounts of $5,401, $1,087, and $466, respectively (the "January 5, 2017 Distributions").

---

[33] In December 2015, Dondero orchestrated two sequential transactions, whereby Hunter Mountain purchased virtually all of HCMLP's limited partnership interests in exchange for cash and notes (collectively, the "Hunter Mountain Transaction"). The effect of the Hunter Mountain Transaction was to consolidate over 99% of all existing limited partners' interests in HCMLP into a single entity, Hunter Mountain. Hunter Mountain is owned through a series of intermediate shell companies, and ultimately all economic interests are held in a series of tax-favored life insurance accounts at Crown Global Life Insurance Ltd. ("Crown Global"). On information and belief, these accounts were created by Dondero and Okada, who were the direct or indirect owners of nearly all of the Debtor's limited partner interests prior to the Hunter Mountain Transaction. Dondero orchestrated the Hunter Mountain Transaction in order to avail himself of personal tax benefits.

[34] At the time of the December 19, 2016 distributions and thereafter, Okada and two trusts (MAP #1 and MAP #2) established for the benefit of Okada's children and siblings held economic interests in HCMLP. HCMLP's accounting records indicate that distributions allocated to Okada, MAP #1, and MAP #2 were all made to a single account in Okada's name. Thus, with respect to this and subsequent, applicable distributions, Plaintiff pleads that they were made to or for the benefit of Okada, MAP #1, and MAP #2.

151. On or around February 7, 2017, HCMLP made distributions to Hunter Mountain, Dugaboy, and Strand, in the amounts of $7,169,970.00, $13,446.40, and $18,065.44, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2, in the amounts of $3,509.32, $706.19, and $302.65, respectively (the "February 7, 2017 Distributions").

152. On or around June 15, 2017, HCMLP made distributions to Hunter Mountain, Dugaboy, and Strand, in the amounts of $79,600.00, $149.28, and $200.56, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2, in the amounts of $38.96, $7.84, and $3.36, respectively (the "June 15, 2017 Distributions").

153. On or around December 21, 2017, HCMLP made distributions to Hunter Mountain, Dugaboy, and Strand, in the amounts of $2,651,675.00, $4,972,89, and $6,681.16, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2, in the amounts of $1,297.86, $261.17, and $111.93, respectively (the "December 21, 2017 Distributions").

154. On or around March 9, 2018, HCMLP made distributions to Hunter Mountain, Dugaboy, and Strand, in the amounts of $84,575.00, $158.61, and $213.10, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2, in the amounts of $41.40, $8.33, and $3.57, respectively (the "March 9, 2018 Distributions").

155. On or around December 19, 2018, HCMLP made distributions to Hunter Mountain, Dugaboy, and Strand, in the amounts of $4,930,722.50, $9,246.96, and $12,423.44, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2, in the amounts of $2,413.33, $485.64, and $208.13, respectively (the "December 19, 2018 Distributions").

156. On or around March 28, 2019, HCMLP made distributions to Hunter Mountain, Dugaboy, and Strand, in the amounts of $3,711,456.47, $6,960.38, and $9,351.38, respectively, and to or for the benefit of Okada, MAP #1, and MAP #2, in the amounts of $1,816.56, $365.55,

and $156.66, respectively (the "March 28, 2019 Distributions," and together with the April 9, 2010 Distributions, April 13, 2011 Distributions, May 2, 2011 Distributions, September 13, 2011 Distributions, November 25, 2011 Distributions, February 22, 2012 Distributions, February 29, 2021 Distributions, April 10, 2012 Distributions, April 9, 2013 Distributions, December 19, 2016 Distributions, January 5, 2017 Distributions, February 7, 2017 Distributions, June 15, 2017 Distributions, December 21, 2017 Distributions, March 9, 2018 Distributions, December 19, 2018 Distributions, March 28, 2019 Distributions, the "HCMLP Distributions").

157. All of these distributions were made at a time when HCMLP was insolvent and as part of a scheme to transfer HCMLP's value to Dondero and Okada and divert value away from HCMLP's current and potential future creditors. The March 28, 2019 Distributions, which were made shortly after the arbitration panel awarded the Redeemer Committee over $190 million, were the final distributions made by HCMLP. The distributions ceased at that time—the end result of HCMLP's valuable businesses being usurped by the "lifeboats" and a years-long effort to transfer HCMLP's remaining cash to its limited partners via distributions.

(c) Fraudulent Transfers To Massand

158. HCMLP also made payments of at least $519,000 per year to Massand Capital from November 2014 through 2019. On January 1, 2014, HCMLP entered into a one-year consulting agreement with Massand Inc., pursuant to which HCMLP agreed to pay Massand Inc. $25,000 per month in fees, $7,500 per month in "accommodations," $750 per month in cell phone expenses, and other "reasonable" expenses. Then, on January 5, 2015, HCMLP entered into a consulting agreement (together, the "Massand Consulting Agreements") on the same terms with Massand LLC, pursuant to which HCMLP agreed to pay Massand LLC $35,000 per

month in fees, $7,500 per month in "accommodations," $750 per month in cell phone expenses, and other "reasonable" expenses. In exchange, the Massand Consulting Agreements provided that HCMLP's Chairman, Dondero, and its General Counsel, Ellington, would assign certain unspecified "tasks" to Massand Capital.

159. Massand Capital's monthly invoices to HCMLP were consecutively numbered, indicating that Massand Capital had no customers other than HCMLP. Moreover, Massand Capital's invoices contained no information about the services it purportedly rendered to HCMLP.

160. The Massand Consulting Agreements noted that Massand Capital would be responsible for advising HCMLP on its "Investment Recovery Strategies business in the Countries of the Gulf Cooperation Council"—specifically Bahrain, Saudi Arabia, the United Arab Emirates, Kuwait, Qatar, and Oman. Based upon a review of information to date, it appears that Massand Capital provided no actual services to HCMLP, and that HCMLP did not have any "business" that was related to "investment recovery strategies."

161. Rather, Massand Capital appears to have provided services solely to SAS—a separate entity that was owned and controlled by Dondero and Ellington. The owner of Massand Capital, Dilip Massand, was assigned an SAS email address, was bestowed the title of "Managing Director" of SAS, and was involved in communications relating to SAS's claims purchase litigation financing business.[35] As set forth above, SAS was owned by Dondero and Ellington, not HCMLP.

[35] In a speaker profile in 2014, Dilip Massand was described as overseeing "the operations of SAS Asset Recovery in the Middle East."

162. Thus, based on the documents and information that Plaintiff has reviewed to date, Dondero caused HCMLP to pay millions of dollars in consulting fees to Massand Capital in exchange for no value to HCMLP, all solely to benefit other Dondero-controlled entities. HCMLP received no value for the payments that Dondero and Ellington directed to Massand Capital.

### J. Dondero And Ellington Breach Their Fiduciary Duties To HCMLP By Misappropriating Its Funds

163. HCMLP owned a 97.5% interest in HE Capital 232 Phase I, LLC ("HE Capital 232"). In February 2018, HE Capital 232 and its wholly-owned subsidiary, HE Capital 232 Phase I Property, LLC ("HE Capital 232 Property"), sold real property in Arizona. Net of costs and expenses in connection with the transaction, HE Capital 232 was due $8,687,245.15. These proceeds were placed in an escrow account maintained by HCMLP's counsel, Wick Phillips Gould & Martin LLP ("Wick Phillips"), "pending distribution of the proceeds to the direct and indirect owners of interests in [HE Capital 232 Property]."

164. On March 2, 2018, Ellington directed Wick Phillips to disburse from the escrow account $4,510,000 to HCMLP and $1,200,000 to an HCMLP managed fund to pay down mezzanine debt. This left $2,977,245.15 in the escrow account that was due and owing to HCMLP. On information and belief, Dondero and Ellington directed Wick Phillips to keep these funds in the escrow account so that they could funnel the money to themselves. For three months, Wick Phillips requested disbursement instructions for the remaining funds from Ellington, but Ellington demurred while "waiting for answers from others so can tell you where to send." Upon information and belief, during this period, Ellington and Dondero were determining how to direct the funds to themselves.

165. On June 4, 2018, Ellington dropped HCMLP's Managing Director (Real Estate) from an email chain and directed Wick Phillips to disburse the remainder to an account in the name of MaplesFS—a fiduciary services company in the Cayman Islands acting as a payment agent—for further credit to Grey Royale Ltd., a Cayman Islands shell company owned and controlled by Dondero and Ellington. MaplesFS subsequently transferred the full amount to Grey Royale Ltd. A Wick Phillips employee commented that the payment to Grey Royale Ltd. was "pretty suspicious."

166. In September 2019, in connection with the preparation of HE Capital 232's tax return, HCMLP's Tax Director inquired about the missing funds owed to HCMLP as a result of the Arizona property sale. Ellington responded that the "facts as I know them" were that the approximately $3 million in missing HCMLP funds were "additional cost[s] of sale, reducing the gain," and "used to pay various legal expenses and other closing costs." Ellington did not disclose that he had directed that the funds be paid to a Cayman Islands shell company owned by Dondero and Ellington, which had no role in the real estate transaction and was not owed any legal expenses or closing costs.

167. Neither Dondero, Ellington, nor Grey Royale Ltd. were parties to the escrow agreement or had any legal claim to the proceeds of the real estate sale held by the escrow agent.

### K. Dondero Loyalists Receive Their Deferred Compensation By Engaging In The Tall Pine Transaction

168. HCMLP employees other than Dondero also engaged in, and improperly benefited from, self-interested transactions and schemes involving HCMLP.

169. In early 2020, only months after the Petition Date, Ellington and Leventon formed a group of entities that have received millions of dollars of payments from four Dondero Entities pursuant to a services agreement dated March 13, 2020, among Tall Pine, NexBank,

DAF Holdco, NexPoint, and HCMFA (the "Tall Pine Services Agreement"). The Tall Pine scheme was an elaborate arrangement pursuant to which Dondero would be able to keep certain key employees, including Ellington and Leventon, loyal to Dondero during the bankruptcy. Through the Tall Pine scheme, Ellington and Leventon ensured that they would profit off their wrongdoing, and that Dondero would compensate them no matter what happened to HCMLP.

170. Pursuant to the Tall Pine Services Agreement, HCMLP employees, including Ellington and Leventon, would receive approximately $17 million through pass-through entities that they created and owned over the course of two years. When Tall Pine would receive a payment from any of the counterparties to the Tall Pine Services Agreement, Tall Pine contemporaneously transferred funds to Leventon's pass-through entity, Clairmont Holdings, LLC ("Clairmont"). Ellington, who owned Tall Pine, profited from the amounts that remained in Tall Pine after it had distributed sums to Clairmont and other pass-through entities controlled by HCMLP employees.

171. After the Petition Date, Dondero surreptitiously approved wire transfers from accounts held by NexPoint, NexBank, and the DAF to Tall Pine for the benefit of himself, Ellington, and Leventon. These payments were made to compensate Ellington and Leventon for the amounts that would have been paid to them in 2020 but for the Committee's objection. Ellington and Leventon did not disclose these payments to the Independent Board.

## V. CAUSES OF ACTION

### COUNT I
### Avoidance and Recovery of HCMLP Distributions as Constructive Fraudulent Transfers Under 11 U.S.C. §§ 544, 548, and 550, 26 U.S.C. § 6502, and Other Applicable Law
*(Against Dondero, Dugaboy, Okada, MAP #1, MAP #2, Strand, and Hunter Mountain)*

172. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

173. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

174. As set forth below, HCMLP made the following HCMLP Distributions to or for the benefit of Dondero, Dugaboy, Okada, MAP #1, MAP #2, Strand, and Hunter Mountain.

| | **Dondero (for the benefit of Dondero, Strand, and/or Dugaboy)** | **Hunter Mountain** | **Dugaboy** | **Okada (for the benefit of Okada)** | **Okada (for the benefit of MAP #1)** | **Okada (for the benefit of MAP #2)** | **Strand** |
|---|---|---|---|---|---|---|---|
| April 9, 2010 Distributions | $1,216,756.87 (two transfers of $1,125,000.00 and $91,756.87) | N/A | N/A | $405,585.62 (two transfers of $375,000.00 and $30,585.62) | | | N/A |
| April 13, 2011 Distributions | $649,318.45 | N/A | N/A | $216,439.49 | | | N/A |
| May 2, 2011 Distributions | $3,124,435.00 | N/A | N/A | $1,024,018.00 | | | N/A |
| September 13, 2011 Distributions | $5,351,316.00 | N/A | N/A | $1,705,813.00 | | | N/A |
| November 25, 2011 Distributions | $5,250,000.00 | N/A | N/A | $1,750,000.00 | | | N/A |
| February 22, 2012 Distributions | $3,000,000.00 | N/A | N/A | $1,000,000.00 | | | N/A |
| February 29, 2012 Distributions | $4,514,780.25 | N/A | N/A | $1,504,926.75 | | | N/A |
| April 10, 2012 Distributions | $6,221,364.15 | N/A | N/A | $2,073,788.05 | | | N/A |
| April 9, 2013 Distributions | $25,375,083.16 | N/A | N/A | $8,440,148.31 | | | N/A |
| December 19, 2016 Distributions | N/A | $4,769,570.00 | $8,945.00 | $2,334.00 | $470.00 | $201.00 | $12,017.00 |

| | Dondero (for the benefit of Dondero, Strand, and/or Dugaboy) | Hunter Mountain | Dugaboy | Okada (for the benefit of Okada) | Okada (for the benefit of MAP #1) | Okada (for the benefit of MAP #2) | Strand |
|---|---|---|---|---|---|---|---|
| January 5, 2017 Distributions | N/A | $11,034,754.00 | $20,694.00 | $5,401.00 | $1,087.00 | $466.00 | $27,803.00 |
| February 7, 2017 Distributions | N/A | $7,169,970.00 | $13,446.40 | $3,509.32 | $706.19 | $302.65 | $18,065.44 |
| June 15, 2017 Distributions | N/A | $79,600.00 | $149.28 | $38.96 | $7.84 | $3.36 | $200.56 |
| December 21, 2017 Distributions | N/A | $2,651,675.00 | $4,972.89 | $1,297.86 | $261.17 | $111.93 | $6,681.16 |
| March 9, 2018 Distributions | N/A | $84,575.00 | $158.61 | $41.40 | $8.33 | $3.57 | $213.10 |
| December 19, 2018 Distributions | N/A | $4,930,722.50 | $9,246.96 | $2,413.33 | $485.64 | $208.13 | $12,423.44 |
| March 28, 2019 Distributions | N/A | $3,711,456.47 | $6,960.38 | $1,816.56 | $365.55 | $156.66 | $9,351.38 |
| Total | $54,703,053.88 | $34,432,322.97 | $64,573.52 | $18,142,416.67 | | | $86,755.08 |
| Grand Total | $107,429,122.12 | | | | | | |

175. At the time of each HCMLP Distribution, HCMLP was insolvent, was engaged or was about to engage in business or a transaction for which the remaining assets of HCMLP were unreasonably small in relation to the business or transaction, and/or believed or reasonably should have believed that HCMLP would incur debts beyond HCMLP's ability to pay as they became due.

176. HCMLP received less than reasonably equivalent value in exchange for each of HCMLP Distributions set forth above. Indeed, HCMLP received no value for HCMLP the Distributions, each of which was a gratuitous transfer from HCMLP, either to one of its limited partners or for the benefit of one of its limited partners and/or Dondero.

177. Dondero, Dugaboy, Okada, MAP #1, MAP #2, Strand, and Hunter Mountain did not receive HCMLP Distributions in good faith. To the contrary, at the times that Dondero, Dugaboy, Okada, MAP #1, MAP #2, Strand, and Hunter Mountain received each of HCMLP Distributions, they knew that HCMLP was balance sheet insolvent (or would be rendered balance sheet insolvent), inadequately capitalized, and/or unable to pay its debts as they came due. Each of these defendants was aware that Dondero had siphoned HCMLP's valuable assets and business opportunities after HCMLP had incurred substantial contingent liabilities. Moreover, each of these defendants was aware that HCMLP Distributions were yet another effort to siphon value from HCMLP to Dondero, Okada, and their affiliated entities at a time when HCMLP was insolvent, inadequately capitalized, and unable to pay its debts as they came due.

178. Dondero, Dugaboy, Okada, MAP #1, and MAP #2 were the beneficiaries of distributions made to Hunter Mountain, given that Hunter Mountain transferred proceeds of such distributions to them.

179. Each HCMLP Distribution is voidable as a constructively fraudulent transfer. Accordingly, each HCMLP Distribution should be set aside, avoided, and recovered under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and Delaware and Texas law, as applicable, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT II**
**Avoidance and Recovery of HCMLP Distributions as Intentional Fraudulent Transfers Under 11 U.S.C. §§ 544, 548, and 550, 26 U.S.C. § 6502, and Other Applicable Law**
*(Against Dondero, Dugaboy, Okada, MAP #1, MAP #2, Strand, and Hunter Mountain)*

180. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

181. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

182. As set forth below, HCMLP made the following HCMLP Distributions to or for the benefit of Dondero, Dugaboy, Okada, MAP #1, MAP #2, Strand, and Hunter Mountain.

| | **Dondero (for the benefit of Dondero, Strand, and/or Dugaboy)** | **Hunter Mountain** | **Dugaboy** | **Okada (for the benefit of Okada)** | **Okada (for the benefit of MAP #1)** | **Okada (for the benefit of MAP #2)** | **Strand** |
|---|---|---|---|---|---|---|---|
| April 9, 2010 Distributions | $1,216,756.87 (two transfers of $1,125,000.00 and $91,756.87) | N/A | N/A | $405,585.62 (two transfers of $375,000.00 and $30,585.62) | | | N/A |
| April 13, 2011 Distributions | $649,318.45 | N/A | N/A | $216,439.49 | | | N/A |
| May 2, 2011 Distributions | $3,124,435.00 | N/A | N/A | $1,024,018.00 | | | N/A |
| September 13, 2011 Distributions | $5,351,316.00 | N/A | N/A | $1,705,813.00 | | | N/A |
| November 25, 2011 Distributions | $5,250,000.00 | N/A | N/A | $1,750,000.00 | | | N/A |
| February 22, 2012 Distributions | $3,000,000.00 | N/A | N/A | $1,000,000.00 | | | N/A |
| February 29, 2012 Distributions | $4,514,780.25 | N/A | N/A | $1,504,926.75 | | | N/A |
| April 10, 2012 Distributions | $6,221,364.15 | N/A | N/A | $2,073,788.05 | | | N/A |
| April 9, 2013 Distributions | $25,375,083.16 | N/A | N/A | $8,440,148.31 | | | N/A |
| December 19, 2016 Distributions | N/A | $4,769,570.00 | $8,945.00 | $2,334.00 | $470.00 | $201.00 | $12,017.00 |

| | Dondero (for the benefit of Dondero, Strand, and/or Dugaboy) | Hunter Mountain | Dugaboy | Okada (for the benefit of Okada) | Okada (for the benefit of MAP #1) | Okada (for the benefit of MAP #2) | Strand |
|---|---|---|---|---|---|---|---|
| January 5, 2017 Distributions | N/A | $11,034,754.00 | $20,694.00 | $5,401.00 | $1,087.00 | $466.00 | $27,803.00 |
| February 7, 2017 Distributions | N/A | $7,169,970.00 | $13,446.40 | $3,509.32 | $706.19 | $302.65 | $18,065.44 |
| June 15, 2017 Distributions | N/A | $79,600.00 | $149.28 | $38.96 | $7.84 | $3.36 | $200.56 |
| December 21, 2017 Distributions | N/A | $2,651,675.00 | $4,972.89 | $1,297.86 | $261.17 | $111.93 | $6,681.16 |
| March 9, 2018 Distributions | N/A | $84,575.00 | $158.61 | $41.40 | $8.33 | $3.57 | $213.10 |
| December 19, 2018 Distributions | N/A | $4,930,722.50 | $9,246.96 | $2,413.33 | $485.64 | $208.13 | $12,423.44 |
| March 28, 2019 Distributions | N/A | $3,711,456.47 | $6,960.38 | $1,816.56 | $365.55 | $156.66 | $9,351.38 |
| Total | $54,703,053.88 | $34,432,322.97 | $64,573.52 | $18,142,416.67 | | | $86,755.08 |
| Grand Total | $107,429,122.12 | | | | | | |

183. Dondero was HCMLP's Chief Executive Officer, President, Co-Chief Investment Officer, and Co-Founder. Okada was HCMLP's Co-Chief Investment Officer and Co-Founder. Together, Dondero and Okada directly or indirectly owned substantially all of the equity interests in HCMLP, or were the beneficiaries of all distributions HCMLP made to its limited partners. Dondero exercised complete control over HCMLP, and Okada acquiesced to and profited from schemes orchestrated by Dondero to enrich HCMLP's direct and indirect owners.

184. To that end, Dondero caused HCMLP to make the HCMLP Distributions set forth above with actual intent to hinder, delay, and defraud HCMLP's creditors, which intent is demonstrated by, among other things, the following badges and direct indications of fraud:

(a) Dondero and Okada were insiders of HCMLP;

(b) before HCMLP Distributions were made, HCMLP had been sued and Dondero believed HCMLP's legal exposure rendered it insolvent;

(c) HCMLP, through Dondero, was engaged in a multi-faceted scheme to remove assets from HCMLP and conceal them from HCMLP's creditors, which involved both siphoning HCMLP's valuable business opportunities through newly-created "lifeboat" entities and siphoning HCMLP's value through HCMLP Distributions (among other means);

(d) HCMLP received less than reasonably equivalent value (and in fact, received zero consideration) in exchange for the HCMLP Distributions;

(e) at the time of each HCMLP Distribution, HCMLP (i) was insolvent, (ii) was engaged in a business or transaction for which its remaining assets were unreasonably small in relation to the business or transaction; and/or (iii) intended to incur, or believed or reasonably should have believed that it would incur, debts beyond its ability to pay as they came due;

(f) The initial recipients of the HCMLP Distributions were Dondero, Dugaboy, Okada, Strand, and Hunter Mountain, each of which was owned and/or controlled by Dondero and Okada;

(g) Dondero and Okada personally received certain HCMLP Distributions instead of HCMLP's limited partners Dugaboy, Strand, MAP #1, and MAP #2; and

(h) Dondero made HCMLP Distributions during a period when he believed HCMLP would be forced to file for bankruptcy as a result of looming

contingent liabilities, and effected the transfers in order to siphon value so that such value would not be available to satisfy HCMLP's creditors.

185. Dondero, Dugaboy, Okada, MAP #1, and MAP #2 were the beneficiaries of distributions made to Hunter Mountain, given that Hunter Mountain transferred proceeds of such distributions to them.

186. Each HCMLP Distribution is voidable as an intentionally fraudulent transfer. Accordingly, each of the HCMLP Distributions should be set aside, avoided, and recovered under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and Delaware and Texas law, as applicable, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT III**
**Illegal Distributions Under Delaware Revised Uniform Limited Partnership Act**
*(Against Dondero, Dugaboy, Strand, and Hunter Mountain)*

187. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

188. The Delaware Revised Uniform Limited Partnership Act ("DRULPA") § 17-607(a) prohibits distributions "to the extent that at the time of the distribution, after giving effect to the distribution, all liabilities of the limited partnership … exceed the fair value of the assets of the limited partnership[.]"

189. Under 17-607(b), "[a] limited partner who receives a distribution in violation of subsection (a) … and who knew at the time of the distribution that the distribution violated subsection (a) of this section, shall be liable to the limited partnership for the amount of the distribution."

190. As set forth below, between December 31, 2016 and the Petition Date, HCMLP made the following distributions to Hunter Mountain, Dugaboy, and Strand (the "Illegal Distributions").

| | Hunter Mountain | Dugaboy | Strand |
|---|---|---|---|
| December 31, 2016 Distributions | $4,769,570.00 | $8,945.00 | $12,017.00 |
| January 31, 2017 Distributions | $11,034,754.00 | $20,694.00 | $27,803.00 |
| February 28, 2017 Distributions | $7,169,970.00 | $13,446.40 | $18,065.44 |

191. Hunter Mountain, Dugaboy, and Strand knew that HCMLP made the Illegal Distributions at a time that its liabilities exceeded the fair value of its assets. As set forth herein and in the counts below, each of Hunter Mountain, Dugaboy, and Strand were the alter egos of Dondero. Even if Hunter Mountain, Dugaboy, or Strand were not the alter egos of Dondero, they would be imputed with Dondero's knowledge. Dondero was the sole owner of Strand. Likewise, Dondero created Hunter Mountain as a shell entity whose sole purpose was to purchase the majority of HCMLP's limited partnership interests from himself and his Dugaboy trust (among others). Through Hunter Mountain, Dondero continued to receive the economic

benefit of HCMLP's limited partnership distributions through distributions on notes that would be triggered by those Illegal Distributions made to Hunter Mountain.

192. Hunter Mountain, Dugaboy, and Strand are liable to HCMLP and its creditors for the full amount of the Illegal Distributions, plus interest.

**COUNT IV**
**Breach of Fiduciary Duty Arising Out Of Dondero's Lifeboat Scheme**
*(Against Dondero and Strand)*

193. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

194. During all periods relevant to the allegations set forth herein, Strand owed fiduciary duties to HCMLP in its capacity as HCMLP's general partner. Likewise, during all periods relevant to the allegations set forth herein, Dondero owed fiduciary duties to HCMLP by virtue of his control over Strand and HCMLP and as an officer of HCMLP.

195. Neither the Litigation Trustee nor the Estate could have discovered the conduct by Dondero or Strand set out herein with reasonable diligence prior to Dondero's removal as Chief Executive Officer and President of HCMLP on January 9, 2020. Moreover, given Strand's and Dondero's fiduciary obligations, neither the Estate nor the Litigation Trustee was able to inquire or was aware of the need to inquire into the breaches set out herein prior to Dondero's removal. By their nature, the breaches alleged herein were inherently undiscoverable because of the complete domination and control that Dondero exercised over HCMLP and the Dondero Entities, including but not limited to the complexity and opacity of the corporate structure he created and wielded for his own benefit. Dondero and Strand transferred HCMLP's valuable business to the lifeboat entities, including but not limited to NexPoint and HCMFA. Pursuant to the scheme, the lifeboats utilized HCMLP's employees to

perform management and advisory services that HCMLP had provided directly, and should have continued to provide directly. As a result of this scheme, HCMLP would perform the same services via the same employees, but would now either receive only a small fraction of the profits that were generated or, in some instances, provide these services at a loss because the service agreements between HCMLP and the lifeboats would not even cover HCMLP's costs of providing the services. The majority of profits were paid to the lifeboats, which were owned by Dondero and/or entities that he controlled, placing those profits beyond the reach of HCMLP's creditors.

196. Dondero and Strand willfully and wantonly orchestrated this scheme in bad faith in order to evade HCMLP's present and future creditors.

197. Strand was dominated and controlled by its sole owner, Dondero. Dondero also owned substantial economic interests in each of the lifeboats either directly or through entities that he owned and/or controlled. As such, Dondero appeared on both sides of the agreements and transactions entered into between HCMLP, on one hand, and NexPoint, HCMFA, Acis, and the other lifeboats, on the other hand.

198. The wrongful acts that Dondero and Strand committed in connection with the lifeboat scheme—including but not limited to funneling new business to the lifeboat entities and undercompensating HCMLP for the use of its employees—continued through the Petition Date. Likewise, injury to HCMLP—in the form of lost profits and misappropriation of its employees and resources—continued through the Petition Date.

199. HCMLP suffered tens or hundreds of millions of dollars of harm, as the result of Dondero's and Strand's breaches, in the form of lost management and advisory fee revenue that far exceeded the amounts that the lifeboats paid to HCMLP under their respective shared

services and other agreements. Between the date of its formation and the Petition Date, NexPoint earned approximately $120 million in advisory and administrative fees and approximately $50 million in profits. Between the date of its formation and the Petition Date, HCMFA earned approximately $150 million in advisory and administrative fees.

200. Strand and Dondero profited from their breaches of fiduciary duties in connection with their lifeboat scheme in violation of Delaware law. Strand and Dondero are liable to HCMLP for their breaches of fiduciary duty in connection with the lifeboat scheme in an amount to be proven at trial.

**COUNT V**
**Breach of Fiduciary Duty Arising Out Of Conduct That Resulted in HCMLP Liabilities To Third Parties**
*(Against Dondero, Strand, Ellington, and Leventon)*

201. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

202. During all periods relevant to the allegations set forth herein: (1) Strand owed fiduciary duties to HCMLP in its capacity as HCMLP's general partner; (2) Dondero owed fiduciary duties to HCMLP by virtue of his control over Strand and HCMLP, and as an officer of HCMLP; (3) Ellington owed fiduciary duties to HCMLP in his capacity as HCMLP's Chief Legal Officer and General Counsel; and (4) Leventon owed fiduciary duties to HCMLP in his capacity as HCMLP's Assistant General Counsel.

203. Neither the Litigation Trustee nor the Estate could have discovered the conduct by Dondero, Strand, Ellington, or Leventon set out herein with reasonable diligence prior to Dondero's removal as Chief Executive Officer and President of HCMLP on January 9, 2020. Moreover, given the fiduciary obligations owed by all these parties to HCMLP, neither the Estate nor the Litigation Trustee was able to inquire or was aware of the need to inquire into

the breaches set out herein prior to Dondero's removal. By their nature, the breaches alleged herein were inherently undiscoverable because of the complete domination and control that Dondero exercised over HCMLP and the Dondero Entities, including but not limited to the complexity and opacity of the corporate structure he created and wielded for his own benefit.

204. Dondero (and in turn, Strand), Ellington, and Leventon each breached their fiduciary duties to HCMLP by engaging in willful and wanton misconduct that foreseeably resulted in liability to HCMLP. In total, these breaches resulted in more than $350 million in allowed claims against HCMLP. But for their breaches of fiduciary duty, either HCMLP never would have incurred these claims, or HCMLP would have resolved these claims for substantially lower amounts. These breaches resulted in millions of dollars to Dondero, Ellington, and Leventon, either directly, through transfers from HCMLP to entities owned in whole or in part by Dondero and Ellington, or indirectly, through compensation paid to Ellington and Leventon in exchange for their loyalty to Dondero in perpetrating schemes that breached their duties to HCMLP.

205. **Liabilities to UBS.** Dondero, Ellington, and Leventon willfully and wantonly caused HCMLP to incur substantial liability to UBS. Dondero exposed HCMLP and its subsidiaries to litigation against UBS that resulted in an adverse judgment that exceeded $1 billion. Among other things, acting through HCMLP, Dondero caused the Fund Counterparties to refuse to meet their obligations to UBS, and orchestrated transfers of more than $233 million of assets from HFP, exposing HCMLP to claims for fraudulent transfer, breach of the implied covenant of good faith and fair dealing, and extensive prejudgment interest and legal fees.

206. Then, in 2017, after a New York state court ruled that UBS's fraudulent transfer claims against HCMLP and claims against the Fund Counterparties could proceed to trial,

Dondero, Ellington, Leventon, Sevilla, Lucas, and DiOrio caused HCMLP, in its capacity as investment manager for the Fund Counterparties, to orchestrate the surreptitious transfer of assets worth at least $100 million to Sentinel, an entity located in the Cayman Islands that was indirectly owned and controlled by Dondero and Ellington. Neither HCMLP nor the Fund Counterparties received legitimate value in exchange for this transfer.

207. After the Petition Date, Dondero, Ellington, and Leventon actively concealed this transfer from the Independent Board, UBS, and the Bankruptcy Court. Ellington even went so far as to state in August 2020 that "[Leventon] and myself have spent in excess of 100 hours trying to piece together everything we can [about the Fund Counterparties' assets] to create a true and accurate document based record of what happened with these target entities['s assets]." Ellington made this statement knowing that the Fund Counterparties' assets had been transferred to an offshore entity he owned and controlled. When this transfer was uncovered, HCMLP was forced to increase the amount of its settlement with UBS from a total of $75 million in allowed claims to $125 million in allowed claims.

208. **Liabilities to Acis.** Dondero willfully and wantonly caused HCMLP to incur over $23 million in liability to Acis and Terry. As with NexPoint and HCMFA, Acis was originally created to perform management and advisory services that were previously provided by HCMLP. When Dondero's relationship with Terry deteriorated, Dondero set in motion a series of contentious litigation with Terry, which resulted in Terry obtaining a $7.95 million arbitration award against Acis.

209. Dondero then embarked on a crusade to ensure Terry would not collect from Acis. In connection therewith, Dondero acted through HCMLP to, among other things: (1) siphon assets from Acis, causing Terry to commence an involuntary bankruptcy against Acis

and causing HCMLP to lose its advisory and shared services contracts with Acis; (2) enter into costly, frivolous litigation with Terry in Guernsey, a "loser pays" jurisdiction; (3) convert the retirement accounts owned by Terry and his wife, leading to additional legal fees incurred in litigation in Texas state court; (4) violate injunctive provisions set forth in Acis's plan of reorganization, exposing HCMLP to additional liability; (5) enter into costly litigation with Acis's chapter 11 trustee in connection with Acis's bankruptcy case; and (6) mismanage Acis CLOs, exposing HCMLP to substantial liability in its capacity as advisor and fiduciary to Acis. As a result of these actions and the reputational harm they caused, it became impossible for HCMLP to launch another CLO either directly or indirectly.

210. In connection with his vendetta against Terry, Dondero willfully and wantonly subjected HCMLP to substantial liability to Acis and Terry, including by giving testimony at trial which, along with Leventon's testimony, was found "to be of questionable reliability" and structured "to convey plausible deniability." Ultimately, in order to avoid further liability to Terry and Acis, HCMLP settled those claims for more than $23 million pursuant to a settlement approved by this Court.

211. Beginning on October 24, 2017, four days after Terry's arbitration judgment was issued, Dondero, Ellington, and Leventon willfully and wantonly caused HCMLP to enter into numerous transactions to take control of Acis's business and strip it of assets so it could not pay the arbitration award. Ellington and Leventon implemented Dondero's directives and took the steps necessary to consummate the transactions.

212. Leventon willfully and wantonly helped to transfer value away from Acis in an attempt to make it judgment-proof. Among other things, Leventon assisted in the drafting and execution of the agreement that transferred Acis's interest in a note receivable from HCMLP,

which had a balance owing of over $9.5 million, to Cayman Island entity Highland CLO Management Ltd. just ten days after Terry obtained his arbitration award. The agreement recites that (1) HCMLP is no longer willing to continue providing support services to Acis; (2) Acis, therefore, can no longer fulfill its duties as a collateral manager; and (3) Highland CLO Management Ltd. agrees to step in to the collateral manager role. Given the timing of the assignment—just days after Terry's arbitration award—Leventon knew that it was part of a scheme to strip Acis of its assets, which ultimately resulted in millions of dollars of damage to HCMLP.

213. **Liabilities to HarbourVest.** Dondero and Ellington also willfully and wantonly caused harm to HCMLP by exposing it to substantial liability to HarbourVest. Dondero and Ellington, acting through HCMLP, fraudulently induced HarbourVest to purchase 49% of HCLOF from CLO Holdco for approximately $75 million in cash, with a commitment for an additional $75 million in the future, while concealing that Dondero was actively engaged in a campaign against Terry that would significantly impair the value of HarbourVest's investment. In addition, Dondero did not intend to use the $75 million that CLO Holdco received from HarbourVest to satisfy capital calls at HCLOF, and instead intended for CLO Holdco to use those funds as part of a scheme to infuse other Dondero Entities (including entities that benefitted the NexPoint and HCMFA lifeboats) with additional cash. Ultimately, HCMLP was forced to settle with HarbourVest by providing it with $80 million in allowed claims, in exchange for a transfer of HarbourVest's interests in HCLOF to a new entity designated by HCMLP. But for Dondero's and Ellington's conduct, HCMLP would not have incurred the foregoing liabilities. As a result of their conduct, those interests in HCLOF were then worth tens of millions of dollars less than the $75 million HarbourVest paid to acquire them.

214. **Liabilities to Crusader Funds.** Dondero, Ellington, and Leventon willfully and wantonly caused HCMLP to incur substantial liability to the Redeemer Committee due to their conduct in connection with HCMLP's wind-down of the Crusader Funds and distribution of proceeds to investors. Among other things, Dondero, Ellington, and Leventon caused HCMLP to: (1) transfer Barclays' limited partnership interests in the Crusader Funds to HCMLP's wholly-owned affiliate, Eames, Ltd., after the Redeemer Committee had refused to approve that transfer, in violation of the Joint Plan and Scheme and HCMLP's fiduciary duties; (2) purchase 28 Plan Claims for the benefit of HCMLP without the approval of the Redeemer Committee, in violation of the Joint Plan and Scheme and HCMLP's fiduciary duties; (3) covertly purchase the stock of the Portfolio Company and fail to liquidate the Crusader Funds' shares in the Portfolio Company, in violation of HCMLP's fiduciary duties; and (4) violate the provision of the Joint Plan and Scheme requiring HCMLP to defer receipt of certain Deferred Fees until the liquidation of the Crusader Funds was complete, causing HCMLP to forfeit its rights to those fees entirely. Both Ellington and Leventon provided false narratives and misrepresentations in furtherance of Dondero's harm to the Crusader Funds. The Redeemer Arbitration panel found, for example, that Leventon "was significantly involved in providing direction" to keep the Redeemer Committee in the dark and "was the principal instrument through which [certain] misrepresentation[s] and omission[s] were communicated." As a result of Dondero's, Ellington's, and Leventon's conduct, the Redeemer Committee received an arbitration award against HCMLP in excess of $190 million, and in HCMLP's bankruptcy, HCMLP agreed to pay over $136 million in connection therewith.

215. Beyond the direct losses identified in the preceding paragraphs, HCMLP suffered additional harm from the breaches of fiduciary duty committed by Dondero, Ellington,

Leventon and Strand. For example, the $190 million Redeemer arbitration award—which was itself caused by Dondero's, Ellington's, Leventon's and Strand's breaches of their fiduciary duty to HCMLP—caused HCMLP to file for bankruptcy. As of October 15, 2021, HCMLP had incurred in excess of $40 million in professional fees in connection with the bankruptcy. But for Dondero's, Ellington's, Leventon's, and Strand's willful and wanton misconduct, HCMLP would not have been obligated to pay any of these fees.

216. In light of the foregoing, Dondero, Strand, Ellington, and Leventon are liable for breaches of their fiduciary duties to HCMLP in an amount to be determined at trial.

**COUNT VI**
**Declaratory Judgment That Strand Is Liable For HCMLP's Debts In Its Capacity As HCMLP's General Partner**
*(Against Strand)*

217. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

218. Under DRULPA § 17-403(b), "a general partner of a limited partnership has the liabilities of a partner in a partnership that is governed by the Delaware Uniform Partnership Law … to persons other than the partnership and the other partners." Moreover, "[e]xcept as provided in this chapter or in the partnership agreement, a general partner of a limited partnership has the liabilities of a partner in a partnership that is governed by the Delaware Uniform Partnership Law … to the partnership and to the other partners." *Id.*

219. Under Delaware Uniform Partnership Law ("DUPL") § 15-306(a), partners of a partnership "are liable jointly and severally for all obligations of the partnership unless otherwise agreed by the claimant or provided by law."

220. During all periods relevant to the allegations set forth herein, Strand was the general partner of HCMLP. Moreover, Strand has not been relieved of its obligation to satisfy HCMLP's obligations by agreement or law.

221. Accordingly, under the operative partnership agreements and applicable law, Strand is liable to HCMLP and "to persons other than [HCMLP]" for the full amount of HCMLP's liabilities.

**COUNT VII**
**Declaratory Judgment That Dondero Is Liable For Strand's Debts As Strand's Alter Ego**
*(Against Dondero)*

222. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

223. Between the formation of Strand and the Petition Date, Dondero, Strand's sole equity owner, dominated and controlled Strand such that Dondero and Strand operated as a single economic entity. Although Strand was the general partner of HCMLP, Strand—as opposed to Dondero himself—rarely took any official corporate action. Between its formation and the Petition Date, Strand documented only 12 instances in which it took corporate action, eight of which related to the appointment or removal of officers.

224. Dondero was the only officer of Strand between 1993 and 2001. Although Strand elected certain officers between 2001 and the Petition Date, they performed no duties in their capacities as officers of Strand and were appointed or fired from their roles based on their loyalty to, and their current relationship with, Dondero. Dondero testified that he did not know whether Strand even had any officers, stating that he was "not aware of [Strand] ever having any employees or active … governance." Likewise, Dondero did not know whether Strand had a board of directors and whether he sat on Strand's board.

225. Strand did not observe corporate formalities. Based on a review of HCMLP's books and records, between the formation of Strand and the Petition Date, Strand never held a board meeting. Indeed, Dondero testified that he is not aware of attending a board meeting for Strand and does not recall ever seeing board minutes for Strand.

226. Strand did not comply with its own bylaws, which require annual meetings of stockholders.

227. Strand was a sham entity whose sole purpose was to serve as a vehicle through which Dondero could dominate and control HCMLP. Dondero used this abuse of the corporate form to facilitate his scheme to make HCMLP act contrary to its own interests and in favor of Dondero's interests by insulating assets from HCMLP's creditors, including those whose liabilities were the direct result of Dondero's own wrongdoing. As such, Dondero is Strand's alter ego, and the Court should pierce the corporate veil to hold Dondero liable for Strand's debts.

**COUNT VIII**
**Declaratory Judgment That Dondero and Strand Are Liable For HCMLP's Debts In Their Capacities As HCMLP's Alter Ego**
*(Against Dondero and Strand)*

228. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

229. Dondero, using his alter ego Strand, dominated and exercised total control over HCMLP through the Petition Date, such that Dondero, Strand, and HCMLP operated as a single economic entity. Dondero had total decision-making authority and governed HCMLP by decree—using the lack of an independent Strand to render HCMLP a mere instrumentality of Dondero. HCMLP had no independence and could not exercise any business discretion separate

and apart from Dondero, in service of his personal interests and the interests of his integrated web of entities.

230. Strand, like innumerable entities within Dondero's empire—including NexPoint GP, HCMFA, Dugaboy, CLO Holdco, Highland Dallas, Highland Santa Barbara, Highland Kansas City, HFP, and Acis—listed HCMLP's headquarters as its business address.

231. Dondero failed to observe corporate formalities with regard to HCMLP. Indeed, he did not distinguish between HCMLP and his personal interests and businesses. Dondero used HCMLP employees to service his own interests that were unrelated to HCMLP. For example, Dondero caused HCMLP to employ individuals to carry out roles serving Dondero personally. Such employees included Dondero's accountant, security guard, and landscaper. Dondero also frequently instructed HCMLP's legal department to perform legal services in connection with his own personal and business interests, which conferred no value on HCMLP.

232. Dondero used his domination and control over HCMLP to perpetrate numerous injustices, abuses, and frauds.

233. Dondero siphoned value from HCMLP to other entities he owned and controlled by causing HCMLP's employees and resources to be used for his lifeboat businesses. In connection with this fraudulent scheme to move assets out of the reach of HCMLP's creditors, Dondero exploited HCMLP by using its employees and resources for the benefit of other lifeboat entities, either at no cost to the lifeboats, at a loss to HCMLP, or at substantially below-market rates. In fact, HCMLP should have received all of the profits generated from the services performed by the lifeboats, which in fact were performed by HCMLP's employees. The purpose and effect of this scheme was to cause HCMLP to provide the employees and

infrastructure that were needed by Dondero's profitable business ventures, while also ensuring that HCMLP would remain cash poor and lack the funds to satisfy its own obligations.

234. Dondero caused HCMLP to enter into agreements, including the Massand Consulting Agreement, the object and purpose of which were to cause HCMLP to incur obligations for services that conferred benefits on Dondero, through benefits conferred to entities he owned other than HCMLP.

235. Dondero used his abusive domination and control to cause HCMLP's assets to be commingled with those of his other businesses, without observing corporate formalities. By commingling entities and using HCMLP's employees and resources to further his own personal goals, Dondero exposed HCMLP to hundreds of millions of dollars in liability to numerous parties, including UBS, Acis, Terry, HarbourVest, the Redeemer Committee, and the Crusader Funds.

236. By virtue of his complete control over HCMLP, Dondero caused HCMLP to willfully and wantonly breach contractual obligations and take measures to render HCMLP "judgment-proof." Ultimately, this brazen disregard for HCMLP as an independent entity with its own obligations rendered HCMLP insolvent, including by resulting in multiple adverse awards such as the $190 million arbitration award that caused HCMLP to file for bankruptcy.

237. Dondero further abused the corporate form to siphon assets from HCMLP by orchestrating intercompany transfers that were designed to siphon assets from HCMLP. For example, Dondero orchestrated the CLO Holdco Transaction, through which he caused HCMLP to transfer assets valued by the company at approximately $24 million through a series of entities he controlled in exchange for consideration that was worth a small fraction of the value of the transferred assets.

238. Because Dondero operated Strand and HCMLP as a single economic entity and used that domination to defraud HCMLP's creditors, Dondero and Strand are the alter egos of HCMLP and should be held liable for the full amount of HCMLP's obligations.

**COUNT IX**
**Declaratory Judgment That Dugaboy Is Liable For The Debts Of Dondero and HCMLP In Its Capacity As Dondero's Alter Ego**
*(Against Dugaboy)*

239. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

240. Dondero operated Dugaboy—Dondero's personal trust—as an extension of himself and his alter ego HCMLP. Dondero treated himself, Dugaboy, and HCMLP as a single economic entity. Dondero dominated and controlled Dugaboy. Under the terms of Dugaboy's trust agreement, Dondero has the power to remove trustees without cause—leverage that allowed him to control Dugaboy. Dondero appointed Scott, his longtime personal friend, as the trustee of Dugaboy, for the purpose of serving as a rubber stamp of approval for all transactions that Dondero (or HCMLP employees acting at Dondero's direction) presented to Scott.

241. Dondero treated Dugaboy as a vehicle for his own interests. For example, Dondero caused Dugaboy to falsely assert in HCMLP's notes litigation that Dugaboy, acting through Dondero's sister, Nancy Dondero, allegedly caused HCMLP to enter into an agreement whereby the notes owed to HCMLP by various Dondero Entities would be forgiven as compensation to Dondero upon satisfaction of certain conditions subsequent. Dondero also caused Dugaboy to help facilitate HCMLP's transfer of the Transferred CLO Holdco Assets to Get Good, by agreeing to provide the Dugaboy Note, purportedly but not actually equal to the value of the Transferred CLO Holdco Assets and with a paltry 2.75% interest rate and no security, covenants, lender protections provided to Dugaboy, or payments due until 2036.

242. Dondero disregarded corporate formalities between Dugaboy and HCMLP. Dondero used HCMLP employees, on HCMLP's payroll, to transact business on behalf of Dugaboy, without any compensation to HCMLP. Dondero used HCMLP employees for Dondero's personal estate planning and caused HCMLP to comingle Dugaboy's electronically stored information with HCMLP's data. Dugaboy shared its principal place of business, 300 Crescent Court, Suite 700, Dallas, Texas 75201, with HCMFA and other Dondero Entities.

243. With Dondero as the primary beneficiary of Dugaboy, there are no other innocent shareholders whose expectations could be impaired by holding Dugaboy liable for Dondero or HCMLP's debts. There are no innocent third-party creditors of Dugaboy who would be harmed by holding Dugaboy liable for Dondero's or HCMLP's debts.

244. Dugaboy is the alter ego of Dondero, and the Court should hold Dugaboy liable for Dondero's debts. Because Dondero is also HCMLP's alter ego, and because Dugaboy knowingly participated in Dondero's scheme to abuse the corporate form to defraud creditors, Dugaboy is also the alter ego of HCMLP and the Court should hold Dugaboy liable for the debts of HCMLP.

**COUNT X**
**Declaratory Judgment That NexPoint Is Liable**
**For The Debts Of Dondero and HCMLP As Their Alter Egos**
*(Against NexPoint)*

245. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

246. Dondero dominated and controlled NexPoint such that Dondero, NexPoint, and Dondero's alter ego HCMLP operated as a single economic entity. NexPoint is owned and controlled by Dondero through Dugaboy and NexPoint GP.

247. NexPoint knowingly participated in—and played a core role in accomplishing—Dondero's scheme to move HCMLP's assets out of reach of its creditors by operating NexPoint as a facade of HCMLP, in order to siphon profits away from HCMLP and to Dondero and other entities he controlled. Dondero and NexPoint acted together to place the profits that were generated from HCMLP's business and services beyond the reach of HCMLP's then present and future creditors.

248. Dondero disregarded the corporate formalities and the distinctions between himself, NexPoint, and HCMLP. Between 2012 and 2015, NexPoint had no employees of its own, and performed no business activities that were distinguishable from those performed by HCMLP. NexPoint shared its principal place of business, 300 Crescent Court, Suite 700, Dallas, Texas 75201, with HCMFA and other Dondero Entities. NexPoint was a facade of HCMLP that used HCMLP's employees to perform the same investment management and advisory services that HCMLP routinely performed. Dondero caused internal business plans and projections to be prepared as if these entities were part of a single economic unit.

249. For over one year, HCMLP performed all services for NexPoint without any sub-advisory or shared services agreements that even purported to compensate HCMLP for the use of its employees. Even after Dondero attempted to infuse this scheme with a patina of legitimacy by causing NexPoint to enter into agreements with HCMLP, they were structured to ensure that NexPoint retained the vast majority of profits for the work performed by HCMLP and its employees.

250. Dondero used NexPoint as a part of his scheme to extract value from HCMLP. Dondero caused HCMLP to fund NexPoint's operations, seed its investments, and provide a substantial amount of the capital that ultimately funded distributions NexPoint made to its

owner, Dugaboy. Transferring funds from HCMLP to NexPoint funded distributions by NexPoint to Dondero's alter ego Dugaboy, draining HCMLP's value to Dondero with NexPoint's knowledge and participation. Between 2012 and 2017, HCMLP loaned NexPoint approximately $30 million, and during that same period, NexPoint made limited partner distributions of approximately $34 million—99.9% of which were paid to Dugaboy. Distributions to Dugaboy were made at the direction of, and for the benefit of, Dondero.

251. Dondero and NexPoint worked together to further extract value from HCMLP by causing HCMLP to lend to NexPoint on terms entirely determined by Dondero. Dondero further caused HCMLP to enter into multiple agreements with NexPoint providing for forbearance and other relief. As of the Petition Date, NexPoint owed HCMLP approximately $23 million, and HCMLP is currently embroiled in litigation with Dondero and NexPoint following a payment default that occurred January 2021.

252. There are no other innocent shareholders whose expectations could be impaired by holding NexPoint liable for Dondero or HCMLP's debts. Similarly, there are no innocent third-party creditors of NexPoint who would be harmed by holding NexPoint liable for Dondero or HCMLP's debts.

253. NexPoint is the alter ego of Dondero and the Court should hold NexPoint liable for the debts of its ultimate shareholder Dondero. Because Dondero is also HCMLP's alter ego, and because NexPoint knowingly participated in Dondero's scheme to abuse the corporate form to defraud creditors, NexPoint is also alter ego of HCMLP and the Court should hold NexPoint liable for the debts of HCMLP.

**COUNT XI**
**Declaratory Judgment That HCMFA Is Liable**
**For The Debts Of Dondero and HCMLP As Their Alter Ego**
*(Against HCMFA)*

254. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

255. Dondero dominated and controlled HCMFA such that Dondero, HCMFA, and Dondero's alter ego HCMLP operated as a single economic entity. HCMFA is controlled by Dondero through its general partner, Strand Advisors XVI, Inc., which owns a 1% interest in HCMFA and is wholly-owned by Dondero. Dondero and Okada are the ultimate owners of the remaining stakes in HCMFA: HCMS owns an 89.6667% ownership interest in HCMFA, and is itself owned 75% by Dondero and 25% by Okada; the Okada Family Revocable Trust owns the remaining 9.3333% ownership interest in HCMFA. Dondero caused internal business plans and projections to be prepared as if these entities were part of a single economic unit.

256. HCMFA knowingly participated in—and played a key role in accomplishing—Dondero's scheme to move HCMLP's assets out of reach of its creditors by operating HCMFA as a facade of HCMLP, in order to siphon profits away from HCMLP and to Dondero directly or indirectly through other entities he controlled. Dondero and HCMFA acted together to place the profits that were generated from HCMLP's business and services beyond the reach of HCMLP's then present and future creditors.

257. Dondero disregarded the corporate formalities and the distinctions between HCMFA and HCMLP. HCMFA was a facade of HCMLP that used HCMLP's employees to perform the same investment management and advisory services that HCMLP routinely performed. Strand Advisors XVI, Inc., HCMFA's general partner, purports to be managed by six individuals, all but one of whom were previously on HCMLP's payroll. HCMFA shared its

principal place of business, 300 Crescent Court, Suite 700, Dallas, Texas 75201, with HCMFA and other Dondero Entities.

258. HCMFA was effectively a shell entity created to replace HCMLP as the new investment manager for open-ended retail investment funds. Agreements between HCMLP and HCMFA were structured to ensure that HCMFA retained the vast majority of profits for the work performed by HCMLP and its employees. To the extent that sub-advisory and shared services agreements existed between HCMLP and HCMFA, they existed to lend credibility to Dondero's fraudulent scheme to divert HCMLP's profits to himself and Okada through HCMFA.

259. Dondero used HCMFA as a part of his scheme to extract value from HCMLP. Dondero caused HCMLP to use its resources to support HCMFA. Between 2011 and 2019, HCMLP loaned HCMFA approximately $12 million; Dondero caused HCMLP to enter into multiple forbearances on HCMFA's debts. In May 2019, HCMLP loaned HCMFA an additional $7.4 million, and HCMFA again failed to repay. Dondero exerted his control and dominance of these entities to direct both sides of those agreements, with the knowing participation of HCMFA, to accomplish his own ultimate goal of siphoning value from HCMLP to insulate it from creditors.

260. There are no other innocent shareholders whose expectations could be impaired by holding HCMFA liable for Dondero or HCMLP's debts. Similarly, there are no innocent third-party creditors of HCMFA who would be harmed by holding NexPoint liable for Dondero or HCMLP's debts.

261. HCMFA is the alter ego of Dondero and the Court should hold HCMFA liable for Dondero's debts. Because Dondero is also HCMLP's alter ego, and because HCMFA

knowingly participated in Dondero's scheme to abuse of the corporate form to defraud creditors, HCMFA is also the alter ego of HCMLP and the Court should hold HCMFA liable for the debts of HCMLP.

**COUNT XII**
**Avoidance of Transfer of Management Agreements As Constructive Fraudulent Transfers Under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and Other Applicable Law**
*(Against HCMFA and NexPoint)*

262. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

263. On the date of the Debtor's bankruptcy filing, the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

264. On December 15, 2011, HCMLP entered into a novation agreement, pursuant to which HCMFA became the investment advisor for Highland Credit Strategies Fund, Highland Floating Rate Opportunities Fund, the Highland Long/Short Equity Fund, the Highland Long/Short Healthcare Fund, and the Highland Special Situations Fund (collectively, the "Transferred Funds"). Dondero caused HCMLP to transfer these agreements to HCMFA as part of his scheme to evade HCMLP's creditors.

265. HCMLP received less than reasonably equivalent value in connection with the novation agreement. Prior to the transfer, HCMLP received management and advisory fees in return for the services that its employees performed for the Transferred Funds. After the transfer, HCMLP's employees provided the same services for the Transferred Funds, except that the vast majority of the profits were diverted to HCMFA following the extinguishment of HCMLP's credit facility.

266. At the time of the transfer, HCMLP was insolvent, was engaged or was about to engage in business or a transaction for which the remaining assets of HCMLP were unreasonably small in relation to the business or transaction, and/or believed or reasonably should have believed that HCMLP would incur debts beyond HCMLP's ability to pay as they became due.

267. On June 13, 2012, Dondero caused HCMFA to transfer the Highland Credit Strategies Fund to the newly-created NexPoint, after which Highland Credit Strategies Fund's name was changed to NexPoint Credit Strategies Fund, referred to herein as NHF. The result of this transfer was simply to shift the management fees relating to NHF from one lifeboat entity to another.

268. The transfer of HCMLP's valuable management and advisory contracts with the Transferred Funds (the fair market value of which likely exceeded $25 million at the time of transfer) is voidable as constructively fraudulent against HCMFA and its subsequent transferee, NexPoint. Accordingly, these transfers should be set aside, avoided, and recovered under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and applicable state law, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XIII**
**Avoidance of Transfer of Management Agreements As Intentionally Fraudulent Transfers Under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and Other Applicable Law**
*(Against HCMFA and NexPoint)*

269. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

270. On the date of the Debtor's bankruptcy filing, the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count. On December 15, 2011, HCMLP entered into

a novation agreement, pursuant to which HCMFA became the investment advisor for the Transferred Funds. Dondero caused HCMLP to transfer these agreements to HCMFA as part of his scheme to evade HCMLP's creditors.

271. Dondero caused HCMLP to make the transfer with actual intent to hinder, delay, and defraud HCMLP's creditors, which intent is demonstrated by, among other things, the following badges and direct indications of fraud:

(a) Dondero was an insider of HCMLP and HCMFA;

(b) before the transfer, HCMLP had been sued and Dondero believed HCMLP's legal exposure rendered it insolvent;

(c) HCMLP, through Dondero, was engaged in a multi-faceted scheme to defraud HCMLP's creditors, which involved, among other things, causing HCMLP to transfer its valuable management contracts and business opportunities to newly-created "lifeboat" entities;

(d) at the time of the transfer, HCMLP (i) was insolvent, (ii) was engaged in a business or transaction for which its remaining assets were unreasonably small in relation to the business or transaction; and/or (iii) intended to incur, or believed or reasonably should have believed that it would incur, debts beyond its ability to pay as they came due;

(e) Dondero caused HCMLP to make the transfer during a period when he believed the value of HCMLP may ultimately be distributed to its creditors, as a result of its looming contingent liabilities, and effected the transfers in order to siphon value so that it would not be available to satisfy HCMLP's present and future creditors; and

(f) HCMLP did not receive reasonably equivalent value in return for transferring its valuable management and advisory contracts with the Transferred Funds to HCMFA.

272. On June 13, 2012, Dondero caused HCMFA to transfer the Highland Credit Strategies Fund to the newly-created NexPoint, after which Highland Credit Strategies Fund's name was changed to NexPoint Credit Strategies Fund, referred to herein as NHF. The result of this transfer was simply to shift the management fees relating to NHF from one lifeboat entity to another.

273. The transfer of HCMLP's valuable management and advisory contracts with the Transferred Funds is voidable as intentionally fraudulent against HCMFA and its subsequent transferee, NexPoint. Accordingly, these transfers should be set aside, avoided, and recovered under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and applicable state law, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XIV**
**Breach of Fiduciary Duty In Connection With Fraudulent Transfers And Schemes**
*(Against Dondero, Strand, Ellington, and Okada)*

274. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

275. During all periods relevant to the allegations set forth herein: (1) Strand owed fiduciary duties to HCMLP in its capacity as HCMLP's general partner; (2) Dondero owed fiduciary duties to HCMLP by virtue of his control over Strand and HCMLP, and as an officer of HCMLP; (3) Ellington owed fiduciary duties to HCMLP in his capacity as HCMLP'S Chief Legal Officer and General Counsel; and (4) Okada owed fiduciary duties to HCMLP in his capacity as Chief Investment Officer.

276. Neither the Litigation Trustee nor the Estate could have discovered the conduct by Dondero, Strand, Ellington, or Okada set out herein with reasonable diligence prior to Dondero's removal as Chief Executive Officer and President of HCMLP on January 9, 2020. Moreover, given the fiduciary obligations owed by all these parties to HCMLP, neither the Estate nor the Litigation Trustee was able to inquire or was aware of the need to inquire into the breaches set out herein prior to Dondero's removal. By their nature, the breaches alleged herein were inherently undiscoverable because of the complete domination and control that Dondero exercised over HCMLP and the Dondero Entities, including but not limited to the complexity and opacity of the corporate structure he created and wielded for his own benefit.

277. Dondero and Ellington caused HCMLP to enter into the Massand Consulting Agreements, with the intent to have Massand Capital perform services for SAS, an entity that they surreptitiously created and owned. Likewise, Dondero and Ellington oversaw and approved the Massand Transfers. The payment obligations Dondero and Ellington caused HCMLP to incur, and the payments that Dondero and Ellington caused HCMLP to make, conferred no benefit on HCMLP. In addition, Dondero and Ellington caused HCMLP employees to perform work for SAS—at least seven HCMLP employees received SAS email addresses—without compensating HCMLP.

278. Likewise, Dondero orchestrated the fraudulent CLO Holdco Transaction, pursuant to which he (acting through Strand) siphoned valuable assets from HCMLP in return for illusory consideration, in the form of a note from Dugaboy, an entity that he controlled. Dondero siphoned these assets from HCMLP in order to benefit other entities that he owned and controlled, including CLO Holdco, NexPoint, and HCMFA.

279. Moreover, as part of his scheme to evade HCMLP's creditors, Dondero, acting through Strand, approved hundreds of millions of dollars of distributions from HCMLP at a time that Dondero believed HCMLP was insolvent and would not be able to satisfy its obligations to its present and future creditors.

280. As Dondero's co-founder and HCMLP's Chief Investment Officer, Okada knew or willfully blinded himself to the fact that the HCMLP Distributions—including, but not limited to, the distributions made to Okada, MAP #1, and MAP #2—were made at times that HCMLP was insolvent and would not be able to satisfy its obligations to its present and future creditors.

281. By willfully and wantonly not returning the distributions made to Okada, MAP #1, and MAP #2 that were made at times that Okada knew that HCMLP was insolvent, and knowingly permitting unlawful distributions to Dondero and his controlled entities, Okada breached his fiduciary duties to HCMLP.

282. Dondero and Okada further breached their fiduciary duties by using HCMLP employees for their own personal affairs and private business interests, on HCMLP's time and payroll.

283. Dondero and Ellington breached their fiduciary duties by diverting approximately $3 million that was held in escrow for HCMLP to an entity that they owned in the Cayman Islands.

284. By willfully and wantonly orchestrating these fraudulent transfers, Dondero, Strand, and Ellington breached their fiduciary duties to HCMLP.

**COUNT XV**
**Aiding and Abetting Breach of Fiduciary Duty Under Delaware Law or Knowing Participation in Breach of Fiduciary Duty under Texas Law**
*(Against NexPoint, HCMFA, SAS, Scott, CLO Holdco, DAF Holdco, DAF, Get Good, Highland Dallas)*

285. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

286. NexPoint and HCMFA aided and abetted the breaches of fiduciary duty committed by Dondero and Strand. NexPoint and HCMFA were each dominated and controlled by Dondero. As such, each of NexPoint and HCMFA knowingly participated in their breaches of their fiduciary duties to HCMLP. NexPoint and HCMFA knowingly participated in Dondero's scheme to divert HCMLP's valuable business into new "lifeboat" entities that he owned and controlled. The breaches of fiduciary duty that were aided and abetted by NexPoint and HCMFA caused tens of million (and potentially over one hundred million) of dollars in damage to HCMLP.

287. SAS, which was owned and controlled by Dondero and Ellington, knowingly participated in Dondero's and Ellington's breaches of their fiduciary duties in connection with the Massand Consulting Agreement and Massand Transfers. SAS was aware of the fiduciary duties that Dondero and Ellington owed to HCMLP as high ranking officers. SAS received the benefit of the services performed by Massand Capital, which Dondero and Ellington surreptitiously charged to HCMLP. The breaches of fiduciary duty that were aided and abetted by SAS caused millions of dollars of damage to HCMLP.

288. Scott, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas aided and abetted Dondero's breach of fiduciary duties relating to the CLO Holdco Transaction. Scott—and in turn, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas—

knowingly participated in the scheme to transfer assets valued by the company at approximately $24 million to CLO Holdco in exchange for a note worth significantly less than the transferred assets. Scott either knew or willfully blinded himself to the fact that Dondero breached his fiduciary duties to HCMLP by orchestrating the CLO Holdco Transaction, as evidenced by, among other things, the low interest rate on the Dugaboy Note; the lack of security, material covenants; or other protections; the unfair repayment terms; and the fact that Dondero stood on both sides of the transaction. Moreover, Scott dutifully executed the necessary documentation in order to cause the Transferred CLO Holdco Assets to be transferred to Get Good, DAF Holdco, DAF, CLO Holdco, and Highland Dallas.

289. Neither the Litigation Trustee nor the Estate could have discovered the conduct set out herein with reasonable diligence prior to Dondero's removal as Chief Executive Officer and President of HCMLP on January 9, 2020. Moreover, given the fiduciary obligations owed to HCMLP, neither the Estate nor the Litigation Trustee was able to inquire or was aware of the need to inquire into the breaches set out herein prior to Dondero's removal. By its nature, the conduct alleged herein was inherently undiscoverable because of the complete domination and control that Dondero exercised over HCMLP and the Dondero Entities, including but not limited to the complexity and opacity of the corporate structure he created and wielded for his own benefit.

**COUNT XVI**
**Civil Conspiracy to Breach Fiduciary Duties Under Texas Law**
*(Against Dondero, Ellington, Leventon, NexPoint, HCMFA, SAS, Scott, CLO Holdco, DAF Holdco, DAF, Get Good, Highland Dallas)*

290. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

291. Ellington, Leventon, NexPoint, HCMFA, SAS, Scott, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas conspired with Dondero to breach his fiduciary duties to HCMLP by intentionally siphoning assets away from HCMLP to evade HCMLP's creditors. To effectuate the conspiracy, Dondero, Ellington, and Leventon acted outside the scope of their HCMLP employments, as agents of the non-HCMLP entities they owned and controlled, and for their personal benefits.

292. Neither the Litigation Trustee nor the Estate could have discovered the conduct set out herein with reasonable diligence prior to Dondero's removal as Chief Executive Officer and President of HCMLP on January 9, 2020. Moreover, given the fiduciary obligations owed to HCMLP, neither the Estate nor the Litigation Trustee was able to inquire or was aware of the need to inquire into the breaches set out herein prior to Dondero's removal. By its nature, the conspiracy alleged herein was inherently undiscoverable because of the complete domination and control that Dondero exercised over HCMLP and the Dondero Entities, including but not limited to the complexity and opacity of the corporate structure he created and wielded for his own benefit.

293. Dondero, Ellington, and Leventon orchestrated myriad transactions to divert funds from HCMLP to Dondero and the entities that he owned and controlled, as well as to Ellington, Leventon, and the entities they owned and controlled. NexPoint and HCMFA took over valuable HCMLP management agreements and used HCMLP's employees to usurp HCMLP's business in return for little or no consideration to HCMLP. SAS—which is owned and controlled by Dondero and Ellington, who own 70% and 30% of the economic interests in SAS, respectively—received valuable services from Massand while HCMLP bore the expense. Scott, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas participated in the

fraudulent CLO Holdco Transaction that siphoned valuable assets from HCMLP in return for patently insufficient consideration.

294. Ellington and Leventon understood that their conduct was directed at enriching themselves and Dondero at the expense of HCMLP, and each of them were compensated in excess of their HCMLP salaries by Dondero (sometimes via minority ownership in an entity, like Ellington's stake in SAS, and sometimes via complex, circuitous schemes like the Tall Pine arrangement) for their participation. NexPoint, HCMFA, and SAS—each of which was controlled by Dondero—likewise understood that their role in the conspiracy was to obtain value for Dondero at HCMLP's expense. Scott, too, understood that he was appointed to be a rubber-stamp for Dondero's self-interested schemes to siphon value from HCMLP and distribute it throughout the vast web of Dondero Entities. Scott acted on the basis of his longstanding loyalty to his "closest friend" Dondero and was compensated with "business gifts" for his service in furtherance of the conspiracy.

295. In furtherance of the conspiracy, Dondero, Ellington, Leventon, NexPoint, HCMFA, SAS, CLO Holdco, DAF Holdco, the DAF, Get Good, and Highland Dallas undertook, *inter alia*, the following schemes and overt acts:

(a) Dondero, NexPoint, and HCMFA conspired to perpetrate the lifeboat scheme in order to place valuable assets outside the reach of HCMLP's creditors, in violation of Dondero's fiduciary duties. NexPoint and HCMFA were each dominated and controlled by Dondero and, as such, they each consciously acted in furtherance of the conspiracy, including by transferring existing business to NexPoint and HCMFA, generating new business through NexPoint and HCMFA, and failing to compensate

HCMLP for the use of its employees and resources. NexPoint and HCMFA were aware that the lifeboat scheme caused substantial damages to HCMLP.

(b) Dondero, Ellington, and SAS caused HCMLP to enter into the fraudulent Massand Consulting Agreements, pursuant to which HCMLP paid Massand millions of dollars in return for services that were rendered for SAS, which Dondero and Ellington owned and controlled. Likewise, SAS acted in furtherance of the conspiracy by surreptitiously receiving the benefits from the Massand Consulting Agreements while HCMLP incurred the costs under those agreements. Each of Dondero, Ellington, and SAS were aware that causing HCMLP to pay SAS's expenses—for the benefit of SAS and its owners Dondero and Ellington—harmed HCMLP.

(c) Dondero, Scott, CLO Holdco, DAF Holdco, the DAF, Get Good, and Highland Dallas conspired to cause HCMLP to transfer valuable assets to CLO Holdco for less than reasonably equivalent value. Scott—and in turn, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas—consciously participated in the scheme to transfer assets valued by the company at approximately $24 million to CLO Holdco in exchange for a note worth significantly less than the transferred assets, including by executing the necessary documentation to cause the Transferred CLO Holdco Assets to be transferred to Get Good, DAF Holdco, DAF, CLO Holdco, and Highland Dallas. Each of Dondero, Scott, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas were aware that the CLO Holdco Transaction breached fiduciary duties to HCMLP, constituted a

fraudulent transfer, and harmed HCMLP by diverting valuable assets in exchange for the far less valuable Dugaboy Note.

(d) Ellington and Dondero conspired to disburse to a Cayman Islands shell company they owned and controlled nearly $3 million of escrowed proceeds rightfully owing to HCMLP.

(e) In furtherance of the conspiracy and to maintain loyalty to Dondero, Ellington and Leventon accepted benefits like minority ownership in entities (like Ellington's stake in SAS) and additional compensation via complex, circuitous schemes like the Tall Pine arrangement.

296. Each of Dondero, Ellington, Leventon, NexPoint, HCMFA, SAS, Scott, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas understood that his or its conduct was causing damage to HCMLP and that Dondero was breaching his fiduciary duties to HCMLP by orchestrating and participating in these transactions. The participants specifically intended to benefit themselves and Dondero at the expense of HCMLP, and agreed with Dondero to undertake acts in furtherance of the conspiracy notwithstanding the harm to HCMLP.

**COUNT XVII**
**Tortious Interference with Prospective Business Relations**
*(Against Dondero, NexPoint, and HCMFA)*

297. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

298. Dondero siphoned business away from HCMLP and its creditors through the creation of "lifeboats" owned and controlled by Dondero. The "lifeboats," which included

NexPoint and HCMFA, were companies set up to provide management services that HCMLP had previously been providing.

299. But for the actions of Dondero, NexPoint, and HCMFA, HCMLP would have continued to pursue the business opportunities that Dondero diverted to NexPoint and HCMFA. Indeed, NexPoint and HCMFA used HCMLP's employees, operated out of HCMLP's office, and performed the same advisory and administrative services for its managed funds that HCMLP had previously performed.

300. By using NexPoint and HCMFA as part of his lifeboat scheme, Dondero breached his fiduciary duties to HCMLP. In addition, Dondero breached his fiduciary duties to HCMLP by causing HCMLP to fraudulently transfer certain of its existing management contracts to NexPoint and HCMFA. NexPoint and HCMFA conspired with, and aided and abetted, Dondero's breaches of his fiduciary duties and HCMLP's fraudulent transfers.

301. Dondero, NexPoint, and HCMFA acted with a conscious desire to prevent HCMLP from continuing to directly manage the funds that were subsequently managed by NexPoint and HCMFA. Moreover, Dondero, NexPoint, and HCMFA knew that their interference in HCMLP's business relationships was certain to occur as a result of their conduct.

302. HCMLP suffered, at minimum, tens of millions of dollars in damage from Dondero's, NexPoint's, and HCMFA's tortious interference with its prospective business relations.

**COUNT XVIII**
**Avoidance of CLO Holdco Transfer and Recovery of Transferred CLO Holdco Assets as Constructive Fraudulent Transfers Under 11 U.S.C. §§ 544 and 550 and Applicable State Law**
*(Against Dondero, Scott, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas Foundation)*

303. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

304. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

305. On December 28, 2016, HCMLP transferred to Get Good the Transferred CLO Holdco Assets, which were valued by the company at approximately $24 million. The transfer of the Transferred CLO Holdco Assets was effectuated pursuant to a Purchase and Sale Agreement executed by Dondero, on behalf of HCMLP, and Scott, on behalf of Get Good.

306. As purported consideration for the Transferred CLO Holdco Assets, HCMLP received the Dugaboy Note, which was worth substantially less than the Transferred CLO Holdco Assets. The Dugaboy Note replaced HCMLP's liquid or liquidating assets with an illiquid, private loan on below market terms.

307. Immediately after HCMLP transferred the Transferred CLO Holdco Assets to Get Good, Dondero caused Get Good to transfer the Transferred CLO Holdco Assets to Highland Dallas by an exercise of discretion executed by Scott in his capacity as trustee of Get Good.

308. Immediately after the Transferred CLO Holdco Assets were transferred to Highland Dallas by Get Good, Dondero caused Highland Dallas to transfer the Transferred CLO Holdco Assets to DAF Holdco by unanimous written consent executed by Dondero, Scott, and Jalonick in their capacities as the sole directors of Highland Dallas.

309. Immediately after the Transferred CLO Holdco Assets were transferred to DAF Holdco by Highland Dallas, Dondero caused DAF Holdco, DAF, and CLO Holdco to enter into an omnibus assignment agreement, pursuant to which DAF Holdco transferred the Transferred CLO Holdco Assets to DAF, and DAF transferred the Transferred CLO Holdco Assets to CLO Holdco. Scott signed on behalf of each entity, as director of DAF Holdco, managing member of the DAF, and director of CLO Holdco. Scott also executed a written resolution by DAF GP, in his capacity as the managing member of the general partner of the DAF, effectuating the transfer of the Transferred CLO Holdco Assets to CLO Holdco (which was wholly-owned by the DAF).

310. Dondero directly or indirectly controlled each entity in the chain of transfers that together constitute the CLO Holdco Transaction. Dondero controlled each of Get Good, Highland Dallas, DAF Holdco, DAF, and CLO Holdco either along with or through Scott, who was Dondero's longtime friend, former roommate, loyalist, and fellow board member on multiple boards of directors.

311. At the time of the CLO Holdco Transaction, HCMLP was insolvent, was engaged or was about to engage in business or a transaction for which the remaining assets of HCMLP were unreasonably small in relation to the business or transaction, and/or believed or reasonably should have believed that HCMLP would incur debts beyond HCMLP's ability to pay as they became due.

312. None of Get Good, DAF Holdco, the DAF, or CLO Holdco paid reasonably equivalent value for the Transferred CLO Holdco Assets, or received the Transferred CLO Holdco Assets in good faith.

313. At all relevant times, each of Get Good, DAF Holdco, the DAF, and CLO Holdco was aware that, pursuant to the CLO Holdco Transaction, HCMLP transferred its assets to CLO Holdco for less than reasonably equivalent value.

314. The CLO Holdco Transaction is voidable as constructively fraudulent transfers. Accordingly, the CLO Holdco Transaction should be set aside and avoided and Transferred CLO Holdco Assets should be recovered under 11 U.S.C. §§ 544 and 550 and Delaware and Texas law, as applicable, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XIX**
**Avoidance of CLO Holdco Transfer and Recovery of Transferred CLO Holdco Assets as Intentionally Fraudulent Transfers Under 11 U.S.C. §§ 544 and 550 and Applicable State Law**
*(Against Dondero, Scott, CLO Holdco, DAF Holdco, DAF, Get Good, and Highland Dallas Foundation)*

315. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

316. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

317. On December 28, 2016, HCMLP transferred to Get Good the Transferred CLO Holdco Assets, which the company valued at approximately $24 million. The transfer of the Transferred CLO Holdco Assets was effectuated pursuant to a Purchase and Sale Agreement executed by Dondero, on behalf of HCMLP, and Scott, on behalf of Get Good.

318. As purported consideration for the Transferred CLO Holdco Assets, HCMLP received the Dugaboy Note, which was worth substantially less than the Transferred CLO Holdco Assets. The Dugaboy Note replaced HCMLP's liquid or liquidating assets with an illiquid, private loan that was worth significantly less than the value of the transferred assets.

319. After HCMLP transferred the Transferred CLO Holdco Assets to Get Good, Dondero caused the assets to be transferred to Get Good, Highland Dallas, DAF Holdco, DAF, and CLO Holdco. Dondero effected each transfer through his direct or indirect control of each of these entities.

320. Dondero caused HCMLP to enter into the CLO Holdco Transaction with actual intent to hinder, delay, and defraud HCMLP's creditors, which intent is demonstrated by, among other things, the following badges and direct indications of fraud:

(a) Dondero was an insider of HCMLP;

(b) Dondero controlled Get Good, the initial transferee, and each of the subsequent transferees, Highland Dallas, DAF Holdco, DAF, and CLO Holdco, through Scott;

(c) before the CLO Holdco Transaction, HCMLP had been sued and Dondero believed HCMLP's legal exposure rendered it insolvent;

(d) at the time of the CLO Holdco Transaction, HCMLP (i) was insolvent, (ii) was engaged in a business or transaction for which its remaining assets were

unreasonably small in relation to the business or transaction; and/or (iii) intended to incur, or believed or reasonably should have believed that it would incur, debts beyond its ability to pay as they came due;

(e) The CLO Holdco Transaction siphoned value away from HCMLP, so that such value would not be available to satisfy HCMLP's creditors; and

(f) The purported consideration for the Transferred CLO Holdco Assets, the Dugaboy Note, was worth less than the reasonably equivalent value of the Transferred CLO Holdco Assets, and replaced HCMLP's liquid or liquidating assets with an illiquid, private loan on below-market terms, the repayment of which was subject to Dondero's control.

321. None of Get Good, DAF Holdco, the DAF, or CLO Holdco paid reasonably equivalent value for the Transferred CLO Holdco Assets, or received the Transferred CLO Holdco Assets in good faith.

322. At all relevant times, each of Get Good, DAF Holdco, the DAF, and CLO Holdco was aware that the CLO Holdco Transaction transferred HCMLP's assets to CLO Holdco for less than reasonably equivalent value.

323. The CLO Holdco Transaction is voidable as an intentionally fraudulent transfer. Accordingly, the CLO Holdco Transaction should be set aside and avoided, and the Transferred CLO Holdco Assets should be recovered under 11 U.S.C. §§ 544 and 550 and Delaware and Texas law, as applicable, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XX**
**Avoidance of Obligations Under Massand Consulting Agreement as Constructively Fraudulent Under 11 U.S.C. § 544, 26 U.S.C. § 6502, and Applicable State Law**
*(Against Massand LLC)*

324. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

325. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

326. On January 5, 2015, HCMLP entered into a consulting agreement with Massand LLC. Pursuant to each agreement, HCMLP agreed to pay Massand Capital tens of thousands of dollars per month.

327. HCMLP received less than reasonably equivalent value in exchange for the payment obligations that it incurred under the Massand Consulting Agreements (and in fact, received zero value). Dondero and Ellington caused HCMLP to hire Massand Capital in order for Massand Capital to provide services to SAS, which conferred no benefit to HCMLP.

328. At the time it entered into the Massand Consulting Agreements, HCMLP was insolvent, was engaged or was about to engage in business or a transaction for which the remaining assets of HCMLP were unreasonably small in relation to the business or transaction, and/or believed or reasonably should have believed that HCMLP would incur debts beyond HCMLP's ability to pay as they became due.

329. HCMLP's obligations incurred under the Massand Consulting Agreements are voidable as constructively fraudulent.

**COUNT XXI**
**Avoidance of Obligations Under Massand Consulting Agreement as Intentionally Fraudulent Under 11 U.S.C. § 544, 26 U.S.C. § 6502, and Applicable State Law**
*(Against Massand Capital)*

330. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

331. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

332. On January 1, 2014, HCMLP entered into a consulting agreement with Massand Inc. On January 5, 2015, HCMLP entered into a consulting agreement with Massand LLC. Pursuant to each agreement, HCMLP agreed to pay them tens of thousands of dollars per month.

333. Dondero caused HCMLP to enter into the Massand Consulting Agreements with actual intent to hinder, delay, and defraud HCMLP's creditors, which intent is demonstrated by, among other things, the following badges and direct indications of fraud:

(a) Dondero was an insider of HCMLP;

(b) Dondero was an insider of SAS;

(c) Dondero benefitted from HCMLP's payments to Massand Capital because they conferred value on SAS, an entity that Dondero owned and controlled;

(d) before HCMLP entered into the Massand Consulting Agreements, HCMLP had been sued and Dondero believed HCMLP's legal exposure rendered it insolvent;

(e) HCMLP, through Dondero, was engaged in a multi-faceted scheme to remove assets from HCMLP and conceal them from HCMLP's creditors, which involved, among other things, causing HCMLP to incur obligations of other entities owned or controlled by Dondero, including SAS;

(f) at the time HCMLP entered into the consulting agreement with Massand LLC, HCMLP (i) was insolvent, (ii) was engaged in a business or transaction for which its remaining assets were unreasonably small in relation to the business or transaction; and/or (iii) intended to incur, or believed or reasonably should have believed that it would incur, debts beyond its ability to pay as they came due; and

(g) Dondero caused HCMLP to enter into the Massand Consulting Agreements during a period when he believed HCMLP would be forced to file for bankruptcy as a result of looming contingent liabilities, and effected the transfers in order to siphon value so that it would not be available to satisfy HCMLP's creditors.

334. HCMLP's obligations incurred under the Massand Consulting Agreements are voidable as intentionally fraudulent.

**COUNT XXII**
**Avoidance and Recovery of Certain Massand Transfers as Constructive Fraudulent Transfers Under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and Applicable State Law**
*(Against Massand Capital, SAS, Dondero, and Ellington)*

335. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

336. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and

Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

337. HCMLP entered into the fraudulent Massand Consulting Agreements, pursuant to which HCMLP agreed to pay Massand Capital tens of thousands of dollars per month. The transfers from HCMLP to Massand Capital (the "Massand Transfers") are set forth below:

| Date | Amount | Date | Amount |
|---|---|---|---|
| January 3, 2017 | $49,644 | May 1, 2018 | $55,852 |
| February 1, 2017 | $55,691 | June 1, 2018 | $55,093 |
| March 3, 2017 | $47,929 | July 2, 2018 | $64,516 |
| April 3, 2017 | $57,563 | August 1, 2018 | $56,539 |
| May 1, 2017 | $57,861 | September 4, 2018 | $53,749 |
| June 1, 2017 | $60,814 | October 1, 2018 | $52,537 |
| July 3, 2017 | $51,974 | November 1, 2018 | $53,278 |
| August 1, 2017 | $58,074 | December 3, 2018 | $52,219 |
| September 5, 2017 | $50,371 | January 2, 2019 | $47,812 |
| October 2, 2017 | $53,016 | February 1, 2019 | $51,437 |
| November 1, 2017 | $59,971 | March 1, 2019 | $51,156 |
| December 1, 2017 | $56,031 | April 2, 2019 | $54,063 |
| January 2, 2018 | $52,894 | May 1, 2019 | $55,359 |
| February 1, 2018 | $51,378 | June 3, 2019 | $56,470 |
| March 1, 2018 | $54,396 | July 1, 2019 | $54,878 |
| April 3, 2018 | $54,538 | August 1, 2019 | $54,979 |
| | | Total | $1,742,082 |

338. HCMLP did not receive any consideration in exchange for its payments to Massand Capital. The consulting agreement between Massand Capital and HCMLP provided that Massand would be responsible for advising HCMLP on its "investment recovery strategies" business in certain countries where HCMLP did not have any business.

339. Rather, upon information and belief, Massand Capital provided services to SAS, a separate entity owned and controlled by Dondero. As such, HCMLP's transfers to Massand Capital were made for the benefit of SAS and Dondero.

340. Massand Capital's monthly invoices to HCMLP were consecutively numbered, indicating that Massand Capital had no customers other than HCMLP, and Massand Capital's invoices contained no information about the services it purportedly rendered to HCMLP.

341. At the time of each of the Massand Transfers, HCMLP was insolvent, was engaged or was about to engage in business or a transaction for which the remaining assets of HCMLP were unreasonably small in relation to the business or transaction, and/or believed or reasonably should have believed that HCMLP would incur debts beyond HCMLP's ability to pay as they became due.

342. The Massand Transfers are voidable as constructively fraudulent transfers. Accordingly, the Massand Transfers should be set aside, avoided, and recovered under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and applicable state law, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XXIII**
**Avoidance and Recovery of Massand Transfers as Intentional Fraudulent Transfers Under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and Applicable State Law**
*(Against Massand Capital, SAS, Dondero, and Ellington)*

343. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

344. On the date of the Debtor's bankruptcy filing, (i) at least one or more unsecured creditors, including but not limited to UBS, the Redeemer Committee, Patrick Daugherty, and Acis, held an allowable claim other than one allowable under § 502(e), and could have sought under state law to avoid the transfers made on or after October 16, 2015, and (ii) the Internal Revenue Service held an allowable unsecured claim other than one allowable under § 502(e) and could have sought to avoid the transfers challenged in this Count.

345. On January 5, 2015, HCMLP entered into a fraudulent consulting agreement, pursuant to which HCMLP agreed to pay Massand Capital tens of thousands of dollars per month. The transfers from HCMLP to Massand Capital (the "Massand Transfers") are set forth below:

| Date | Amount | Date | Amount |
|---|---|---|---|
| January 3, 2017 | $49,644 | May 1, 2018 | $55,852 |
| February 1, 2017 | $55,691 | June 1, 2018 | $55,093 |
| March 3, 2017 | $47,929 | July 2, 2018 | $64,516 |
| April 3, 2017 | $57,563 | August 1, 2018 | $56,539 |
| May 1, 2017 | $57,861 | September 4, 2018 | $53,749 |
| June 1, 2017 | $60,814 | October 1, 2018 | $52,537 |
| July 3, 2017 | $51,974 | November 1, 2018 | $53,278 |
| August 1, 2017 | $58,074 | December 3, 2018 | $52,219 |
| September 5, 2017 | $50,371 | January 2, 2019 | $47,812 |
| October 2, 2017 | $53,016 | February 1, 2019 | $51,437 |
| November 1, 2017 | $59,971 | March 1, 2019 | $51,156 |
| December 1, 2017 | $56,031 | April 2, 2019 | $54,063 |
| January 2, 2018 | $52,894 | May 1, 2019 | $55,359 |
| February 1, 2018 | $51,378 | June 3, 2019 | $56,470 |
| March 1, 2018 | $54,396 | July 1, 2019 | $54,878 |

| Date | Amount | Date | Amount |
|---|---|---|---|
| April 3, 2018 | $54,538 | August 1, 2019 | $54,979 |
| | | Total | $1,742,082 |

346. Dondero caused HCMLP to make the Massand Transfers with actual intent to hinder, delay, and defraud HCMLP's creditors, which intent is demonstrated by, among other things, the following badges and direct indications of fraud:

(a) Dondero was an insider of HCMLP and Massand Capital;

(b) before the Massand Transfers, HCMLP had been sued and Dondero believed HCMLP's legal exposure rendered it insolvent;

(c) HCMLP, through Dondero, was engaged in a multi-faceted scheme to defraud HCMLP's creditors, which involved, among other things, causing HCMLP to become an obligor on certain contracts, including the Massand Consulting Agreements, that did not confer value on HCMLP;

(d) at the time of the transfers to Massand LLC, HCMLP (i) was insolvent, (ii) was engaged in a business or transaction for which its remaining assets were unreasonably small in relation to the business or transaction; and/or (iii) intended to incur, or believed or reasonably should have believed that it would incur, debts beyond its ability to pay as they came due;

(e) Dondero caused HCMLP to make the Massand Transfers during a period when he believed HCMLP would be forced to file for bankruptcy as a result of looming contingent liabilities, and effected the transfers in order to siphon value so that it would not be available to satisfy HCMLP's creditors; and

(f) The Massand Transfers were made for no consideration to HCMLP, and the services provided by Massand were made for the benefit of SAS, an entity that was not owned by HCMLP.

347. The Massand Transfers are voidable as intentionally fraudulent transfers. Accordingly, the Massand Transfers should be set aside, avoided, and recovered under 11 U.S.C. §§ 544 and 550, 26 U.S.C. § 6502, and applicable state law, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XXIV**
**Breach of Contract Arising Out of Hunter Mountain Note**
*(Against Hunter Mountain and Rand)*

348. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

349. On December 21, 2015, HCMLP and Hunter Mountain entered into the Hunter Mountain Note, pursuant to which Hunter Mountain agreed to pay HCMLP $63 million at an interest rate of 2.61% per annum.

350. Rand is a guarantor on the Hunter Mountain Note.

351. Pursuant to the Hunter Mountain Note, accrued interest and principal is due and payable in accordance with an amortization schedule attached to the note.

352. Hunter Mountain breached the Hunter Mountain Note by failing to make the payments due under the note on December 21, 2019 and December 21, 2020.

353. On May 3, 2021, HCMLP sent a demand letter to Hunter Mountain stating that the Hunter Mountain Note was in default and therefore, pursuant to the "Remedies" section of the note, all principal, interest, and any other amounts due and owing on the Hunter Mountain

Note are immediately due and payable. As of May 5, 2021, that amount was more than $72 million, with interest continuing to accrue.

354. The Hunter Mountain Note is currently in default. Pursuant to the Hunter Mountain Note, HCMLP is entitled to damages from Hunter Mountain and Rand in an amount equal to all unpaid principal and interest, in addition to HCMLP's cost of collection, including attorneys' fees.

**COUNT XXV**
**Conversion**
*(Against Dondero and Ellington)*

355. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

356. In February 2018, HE Capital 232 and its wholly-owned subsidiary, HE Capital 232 Property obtained the HE Capital 232 Proceeds and placed them in an escrow account maintained by HCMLP's counsel, Wick Phillips, "pending distribution of the proceeds to the direct and indirect interest owners in [HE Capital 232 Property]."

357. On March 2, 2018, Wick Phillips disbursed a portion of those funds from the escrow account. The Remaining HE Capital 232 Proceeds, worth approximately $2.98 million, were never disbursed to HCMLP.

358. HCMLP owned, had possession of (through its counsel Wick Phillips), or had entitlement to possession of the Remaining HE Capital 232 Proceeds.

359. The Remaining HE Capital 232 Proceeds had been held for safekeeping, were intended to be kept segregated, specific and identifiable money, in the form they were received, and not subject to a claim by anyone other than HCMLP.

360. Upon information and belief, Dondero and Ellington directed Wick Phillips to withhold the Remaining HE Capital 232 Proceeds in a scheme to funnel the money to themselves through shell companies that they owned in the Cayman Islands. Indeed, on June 4, 2018, at Ellington's direction, Wick Phillips disbursed the remainder of the proceeds to MapleFS, a fiduciary services company in the Cayman Islands, which subsequently transferred the full amount to Grey Royale Ltd., a Cayman Islands shell company owned and controlled by Dondero and Ellington.

361. Dondero's and Ellington's acts manifest a clear repudiation of HCMLP's rights in the Remaining HE Capital 232 Proceeds.

**COUNT XXVI**
**Unjust Enrichment or Money Had and Received**
*(Against Dondero)*

362. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

363. As set forth above, Dondero caused HCMLP to enter into numerous intercompany note transactions with other Dondero Entities in order to, among other things: (i) fund distributions to himself and his loyalists; (ii) inject funds into other entities he owns; and (iii) obtain personal tax benefits. Now, Dondero is actively spearheading an expensive, frivolous litigation campaign against HCMLP, through these same Dondero Entities, in order to avoid or delay their repayment obligations.

364. Dondero exploited HCMLP by using it to pursue goals that did not benefit HCMLP. Dondero orchestrated countless transactions and schemes designed to benefit himself and other Dondero Entities at the expense of HCMLP, including but not limited to: (i) the lifeboat scheme; (ii) distributions from HCMLP to himself and certain trusts he owned and

controlled during periods when HCMLP was insolvent; and (iii) intercompany transactions involving various Dondero Entities that distributed cash throughout his vast web of entities. Dondero unjustly profited from these schemes, either by directly transferring value to himself (*e.g.*, through distributions) or by using HCMLP's money to seed business activities and investments that would inure to his own personal benefit. Dondero diverted millions or tens of millions of dollars to himself, at HCMLP's expense.

365. Likewise, Dondero was willing to harm HCMLP even when it would seem economically irrational for him to do so, such as when he caused HCMLP to incur more in legal fees pursuing a vendetta against Daugherty than the total funds Daugherty was owed.

366. Dondero, together with Ellington, caused HCMLP's counsel to improperly divert approximately $3 million of HCMLP's cash being held in an escrow account to an entity that they owned and controlled in the Cayman Islands.

367. Dondero obtained personal services from individuals who were employed and paid by HCMLP, including with respect to private business ventures.

368. There was no valid express contract governing the subject matter of this dispute.

369. As a result of fraud, duress, or taking undue advantage of his own position of authority within HCMLP, Dondero holds or has held money that in equity and good conscience belongs to HCMLP, which unjustly enriched him and would be unconscionable to retain.

370. Plaintiff seeks restitution from Dondero and an order from this Court disgorging all payments, transfers, profits, fees, benefits, incentives, and other things of value obtained by him as a result of the unjust conduct set forth above.

**COUNT XXVII**
**Unjust Enrichment or Money Had and Received**
*(Against Ellington and Leventon)*

371. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

372. Ellington and Leventon were employees of HCMLP who received millions of dollars in compensation. However, each of them understood and performed their duties as functionaries for Dondero. As such, both Ellington and Leventon subordinated the interests of HCMLP to the interests of Dondero, and actively participated in and implemented his schemes to divert value from HCMLP. Portions of Ellington's and Leventon's compensation, paid for by HCMLP, was consideration for their willingness to elevate Dondero's interests over those of HCMLP.

373. Together with Dondero, Ellington caused HCMLP's counsel to improperly divert approximately $3 million of HCMLP's cash being held in an escrow account to an entity that they owned and controlled in the Cayman Islands.

374. Ellington and Leventon engaged in willful and wanton misconduct that gave rise to more than $350 million in allowed claims against HCMLP. Among other things, Ellington and Leventon participated in the scheme to evade UBS collection efforts by fraudulently transferring assets to Sentinel.

375. There was no valid express contract governing the subject matter of this dispute.

376. As a result of fraud, duress, or taking undue advantage of their own positions of authority within HCMLP, Ellington and Leventon hold or have held money that in equity and good conscience belongs to HCMLP, which unjustly enriched them and would be unconscionable to retain.

377. Plaintiff seeks restitution from Ellington and Leventon and an order from this Court disgorging all payments, transfers, profits, fees, benefits, incentives, and other things of value obtained by them as a result of the unjust conduct set forth above.

**COUNT XXVIII**
**Unjust Enrichment or Money Had and Received**
*(Against NexPoint and HCMFA)*

378. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

379. The lifeboat scheme was perpetrated primarily through NexPoint and HCMFA. NexPoint and HCMFA utilized HCMLP's employees to perform management and advisory services that HCMLP had directly provided, and should have continued to provide directly. Neither NexPoint nor HCMFA fairly compensated HCMLP for the use of its employees or resources.

380. HCMLP provided substantial financial support for NexPoint and HCMFA, including in the form of below-market note agreements. Both NexPoint and HCMFA have defaulted on their debts to HCMLP and are currently pursuing expensive, frivolous litigation against HCMLP in an effort to evade their payment obligations.

381. NexPoint and HCMFA were effectively HCMLP in disguise, conducting HCMLP's business, with HCMLP's employees, operating out of HCMLP's office, beginning with HCMLP's contracts.

382. Through their exploitation of HCMLP, NexPoint and HCMFA received tens or hundreds of millions of dollars of profits.

383. There was no valid express contract governing the subject matter of this dispute.

384. As a result of fraud, duress, or taking undue advantage of HCMLP, NexPoint and HCMFA hold or have held money that in equity and good conscience belongs to HCMLP, which unjustly enriched them and would be unconscionable to retain.

385. Plaintiff seeks restitution from NexPoint and HCMFA and an order from this Court disgorging all payments, transfers, profits, fees, benefits, incentives, and other things of value obtained by them as a result of the unjust conduct set forth above.

**COUNT XXIX**
**Unjust Enrichment or Money Had and Received**
*(Against Massand Capital and SAS)*

386. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

387. Massand Capital received millions of dollars in payments from HCMLP under the Massand Consulting Agreements. Nevertheless, Massand Capital was aware that it would not and never intended to perform any services on behalf of HCMLP. Rather, Massand Capital was performing services on behalf of SAS, with HCMLP footing the bill. HCMLP received no benefit under the Massand Consulting Agreements.

388. Further, the value of the services provided to SAS were far less than HCMLP's payments, resulting in Massand receiving unearned profits to the tune of millions of dollars.

389. HCMLP employees performed work for SAS. Indeed, at least four HCMLP employees even received SAS email addresses. SAS did not compensate HCMLP for these services.

390. SAS has profited from the services performed by Massand Capital and from the use of HCMLP's employees and resources.

391. There was no valid express contract governing the subject matter of this dispute.

392. As a result of fraud, duress, or taking undue advantage of HCMLP, Massand and SAS hold or have held money that in equity and good conscience belongs to HCMLP, which unjustly enriched them and would be unconscionable to retain.

393. Plaintiff seeks restitution from Massand Capital and SAS and an order from this Court disgorging all payments, transfers, profits, fees, benefits, incentives, and other things of value obtained by them as a result of the unjust conduct set forth above.

**COUNT XXX**
**Unjust Enrichment or Money Had and Received**
*(Against CLO Holdco)*

394. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

395. Dondero, acting through HCMLP, fraudulently induced HarbourVest to purchase 49% of HCLOF for approximately $75 million, with a commitment to fund an additional $75 million. CLO Holdco was the beneficiary of the funds invested by HarbourVest. HCMLP received no benefit from the HarbourVest investment. Nevertheless, HarbourVest filed a proof of claim against HCMLP for fraudulently inducing the HarbourVest investment, and HCMLP was ultimately forced to settle with HarbourVest by providing them with $80 million in allowed claims, in exchange for a transfer of HarbourVest's interests in HCLOF to a new entity designated by HCMLP. As a result of Dondero's conduct, however, the HCLOF interests were then worth significantly less than the face amount of HarbourVest's allowed claim. HCMLP bore the consequences for Dondero and CLO Holdco in a scheme that deposited $75 million into the coffers of CLO Holdco.

396. CLO Holdco was aware that HarbourVest was fraudulently induced by Dondero to make the $75 million investment. Nonetheless, CLO Holdco said nothing to HarbourVest

and received their money, all while leaving HCMLP on the hook when HarbourVest ultimately filed their proof of claim.

397. There was no valid express contract governing the subject matter of this dispute.

398. As a result of fraud, duress, or taking undue advantage of HCMLP, CLO Holdco holds or has held money that in equity and good conscience belongs to HCMLP, which unjustly enriched it and would be unconscionable to retain

399. Plaintiff seeks restitution from CLO Holdco and an order from this Court disgorging all payments, transfers, profits, fees, benefits, incentives, and other things of value obtained by it as a result of its unjust receipt and use of the proceeds of the HarbourVest investment.

**COUNT XXXI**
**Avoidance and Recovery of the One-Year Transfers as Preferential Transfers under 11 U.S.C. §§ 547 and 550**
*(Against Dondero and Ellington)*

400. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

401. Dondero and Ellington are insiders of HCMLP.

402. As set forth below, within one year of the Petition Date, HCMLP made payments to Dondero of $4,753,911 and payments to Ellington of $318,893 (the "Alleged Expense Transfers" and the "March 28, 2019 Repayment Transfer," as set forth below, and collectively the "One-Year Transfers"):

| March 28, 2019 Repayment Transfer | | |
|---|---|---|
| Date | Transferee | Amount |
| March 28, 2019 | Dondero | $3,750,000 |
| **Alleged Expense Transfers** | | |
| Date | Transferee | Amount |
| October 31, 2018 | Dondero | $8,986 |

| | | |
|---|---|---|
| November 15, 2018 | Dondero | $65,078 |
| December 14, 2018 | Dondero | $115,481 |
| January 15, 2019 | Dondero | $96,786 |
| January 31, 2019 | Dondero | $38,628 |
| February 15, 2019 | Dondero | $42,435 |
| February 28, 2019 | Dondero | $19,063 |
| March 15, 2019 | Dondero | $50,771 |
| March 29, 2019 | Dondero | $21,935 |
| April 15, 2019 | Dondero | $60,191 |
| April 30, 2019 | Dondero | $7,164 |
| May 15, 2019 | Dondero | $89,257 |
| May 31, 2019 | Dondero | $38,804 |
| June 14, 2019 | Dondero | $82,710 |
| June 28, 2019 | Dondero | $7,605 |
| July 15, 2019 | Dondero | $47,006 |
| August 15, 2019 | Dondero | $85,059 |
| August 30, 2019 | Dondero | $12,714 |
| August 30, 2019 | Ellington | $205,788 |
| September 13, 2019 | Dondero | $56,763 |
| September 30, 2019 | Dondero | $24,498 |
| October 15, 2019 | Dondero | $32,977 |
| October 15, 2019 | Ellington | $113,105 |
| Total | Dondero | $4,753,911 |
| Total | Ellington | $318,893 |
| Grant Total | | $5,072,804 |

403. The One-Year Transfers were made on account of antecedent debt.

404. HCMLP was insolvent when each One-Year Transfer was made.

405. Each One-Year Transfer enabled Dondero and Ellington to receive more than they would have if (i) the One-Year Transfers had not been made; and (ii) Dondero and Ellington received payment on account of the debt paid by the One-Year Transfers to the extent provided by the Bankruptcy Code.

406. Each One-Year Transfer constitutes an avoidable preference pursuant to Section 547(b) of the Bankruptcy Code.

407. Plaintiff is entitled to an order and judgment under 11 U.S.C. §§ 547 and 550 that each of the One-Year Transfers is avoided and recoverable.

**COUNT XXXII**
**Avoidance and Recovery of the Alleged Expense Transfers as Constructive Fraudulent Transfers Under 11 U.S.C. §§ 544, 548, and 550, and Other Applicable Law**
*(Against Dondero and Ellington)*

408. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

409. To the extent the Alleged Expense Transfers do not constitute reimbursement for valid expenses, they constitute constructive fraudulent transfers that were made to or for the benefit of Dondero and Ellington.

410. At the time of each Alleged Expense Transfer, HCMLP was insolvent, was engaged or was about to engage in business or a transaction for which the remaining assets of HCMLP were unreasonably small in relation to the business or transaction, and/or believed or reasonably should have believed that HCMLP would incur debts beyond HCMLP's ability to pay as they became due.

411. HCMLP received less than reasonably equivalent value in exchange for each of the Alleged Expense Transfers. Indeed, HCMLP received no value for the Alleged Expense Transfers, each of which was a gratuitous transfer from HCMLP to or for the benefit of Dondero and Ellington.

412. Each Alleged Expense Transfer is voidable as a constructively fraudulent transfer. Accordingly, each Alleged Expense Transfer should be set aside, avoided, and recovered under 11 U.S.C. §§ 544, 548, and 550, and Delaware and Texas law, as applicable,

against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XXXIII**
**Avoidance and Recovery of the Alleged Expense Transfers as Intentional Fraudulent Transfers Under 11 U.S.C. §§ 544, 548, and 550, and Other Applicable Law**
*(Against Dondero and Ellington)*

413. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

414. To the extent the Alleged Expense Transfers do not constitute reimbursement for valid expenses, they constitute intentional fraudulent transfers that were made to or for the benefit of Dondero and Ellington.

415. Dondero was HCMLP's Chief Executive Officer, President, Co-Chief Investment Officer, and Co-Founder. Ellington was HCMLP's Chief Legal Officer and General Counsel until he was terminated for cause in January 2021 for acting in a manner adverse to HCMLP's interest. Dondero exercised complete control over HCMLP, and Ellington acquiesced to and profited from schemes orchestrated by Dondero to enrich Dondero, Ellington, and HCMLP's direct and indirect owners.

416. To that end, Dondero and Ellington caused HCMLP to make the Alleged Expense Transfers with actual intent to hinder, delay, and defraud HCMLP's creditors, which intent is demonstrated by, among other things, the following badges and direct indications of fraud:

(a) Dondero and Ellington were insiders of HCMLP;

(b) although Dondero and Ellington assert that the Alleged Expense Transfers constitute reimbursement for valid expenses, on information and belief, there is no factual basis for that assertion;

(c) before the Alleged Expense Transfers were made, HCMLP had been sued and Dondero and Ellington believed HCMLP's legal exposure rendered it insolvent;

(d) HCMLP, through Dondero, was engaged in a multi-faceted scheme to remove assets from HCMLP and conceal them from HCMLP's creditors, which involved both siphoning HCMLP's valuable business opportunities through newly-created "lifeboat" entities and siphoning HCMLP's value through HCMLP Distributions (among other means);

(e) HCMLP, through Dondero, was engaged in a multi-faceted scheme to remove assets from HCMLP and conceal them from HCMLP's creditors, which involved siphoning HCMLP's value through the Alleged Expense Transfers (among other means);

(f) HCMLP received less than reasonably equivalent value (and in fact, received zero consideration) in exchange for the Alleged Expense Transfers;

(g) at the time of each Alleged Expense Transfer, HCMLP (i) was insolvent, (ii) was engaged in a business or transaction for which its remaining assets were unreasonably small in relation to the business or transaction; and/or (iii) intended to incur, or believed or reasonably should have believed that it would incur, debts beyond its ability to pay as they came due;

(h) Dondero and Ellington made the Alleged Expense Transfers during a period when they believed HCMLP would be forced to file for bankruptcy as a result of looming contingent liabilities, and effected the transfers in order to

siphon value so that such value would not be available to satisfy HCMLP's creditors.

417. Each Alleged Expense Transfer is voidable as an intentionally fraudulent transfer. Accordingly, each of the Alleged Expense Transfers should be set aside, avoided, and recovered under 11 U.S.C. §§ 544, 548, and 550, and Delaware and Texas law, as applicable, against all initial and subsequent transferees and/or entities for whose benefit the transfers were made.

**COUNT XXXIV**
**Aiding and Abetting Breach of Fiduciary Duty Under Delaware Law or Knowing Participation in Breach of Fiduciary Duty under Texas Law Out Of Conduct That Resulted in HCMLP Liabilities**
*(Against Ellington and Leventon)*

418. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

419. Ellington and Leventon aided and abetted the breaches of fiduciary duty committed by Dondero and Strand that foreseeably resulted in liability to HCMLP. Ellington and Leventon knowingly participated in Dondero's schemes that foreseeably resulted in liability to HCMLP. In total, these breaches that were aided and abetted by Ellington and Leventon resulted in more than $350 million in allowed claims against HCMLP.

420. Neither the Litigation Trustee nor the Estate could have discovered the conduct by Ellington and Leventon set out herein with reasonable diligence prior to Dondero's removal as Chief Executive Officer and President of HCMLP on January 9, 2020. Moreover, given the fiduciary obligations owed to HCMLP, neither the Estate nor the Litigation Trustee was able to inquire or was aware of the need to inquire into the conduct set out herein prior to Dondero's removal. By its nature, the conduct alleged herein was inherently undiscoverable because of

the complete domination and control that Dondero exercised over HCMLP and the Dondero Entities, including but not limited to the complexity and opacity of the corporate structure he created and wielded for his own benefit.

421. **Liabilities to UBS.** Ellington and Leventon aided and abetted Dondero in causing HCMLP to incur substantial liability to UBS. In 2017, after a New York state court ruled that UBS's fraudulent transfer claims against HCMLP and claims against the Fund Counterparties could proceed to trial, Ellington and Leventon aided Dondero in causing HCMLP, in its capacity as investment manager for the Fund Counterparties, to orchestrate a surreptitious transfer of more than $300 million in face amount of assets from the Fund Counterparties to Sentinel, an entity located in the Cayman Islands that was indirectly owned and controlled by Dondero and Ellington, ostensibly to pay a premium on the Sentinel insurance policy that was only $25 million. Ellington and Leventon knew or willfully blinded themselves to the fact that Dondero breached his fiduciary duties to HCMLP by orchestrating the transfer to Sentinel

422. After the Petition Date, Dondero, Ellington, and Leventon actively concealed this transfer from the Independent Board, UBS, and the Bankruptcy Court. When this transfer was uncovered, HCMLP was forced to increase the amount of its settlement with UBS from a total of $75 million in allowed claims to $125 million in allowed claims.

423. **Liabilities to Acis.** After the Terry arbitration award issued, Ellington and Leventon aided and abetted Dondero in causing HCMLP to enter into numerous transactions to take control of Acis's business and strip it of assets so it could not pay the arbitration award. Ellington and Leventon implemented Dondero's directives and took necessary steps to

consummate the transactions, knowingly or willfully blinding themselves to the fact that Dondero breached his fiduciary duties to HCMLP by stripping Acis of assets.

424. Leventon knowingly participated in the scheme to transfer value away from Acis in an attempt to make it judgment-proof. Among other things, Leventon assisted in the drafting and execution of the agreement, approved by Dondero in a breach of his fiduciary duty, that transferred Acis's interest in a note receivable from HCMLP, which had a balance owing of over $9.5 million, to Cayman Island entity Highland CLO Management Ltd. just ten days after Terry obtained his arbitration award. The agreement recites that (1) HCMLP is no longer willing to continue providing support services to Acis; (2) Acis, therefore, can no longer fulfill its duties as a collateral manager; and (3) Highland CLO Management Ltd. agrees to step in to the collateral manager role. Given the timing of the assignment—just days after Terry's arbitration award—Leventon knew that it was part of a scheme to strip Acis of its assets and a breach of Dondero's fiduciary duty, which ultimately resulted in millions of dollars of damage to HCMLP.

425. **Liabilities to HarbourVest.** Ellington also aided and abetted Dondero in causing harm to HCMLP by exposing it to substantial liability to HarbourVest. Ellington aided Dondero, acting through HCMLP, in fraudulently inducing HarbourVest to purchase 49% of HCLOF from CLO Holdco for approximately $75 million in cash, with a commitment for an additional $75 million in the future, while concealing that Dondero was actively engaged in a campaign against Terry that would significantly impair the value of HarbourVest's investment. In addition, Dondero did not intend to use the $75 million that CLO Holdco received from HarbourVest to satisfy capital calls at HCLOF, and instead intended for CLO Holdco to use those funds as part of a scheme to infuse other Dondero Entities (including entities that

benefitted the NexPoint and HCMFA lifeboats) with additional cash. Ultimately, HCMLP was forced to settle with HarbourVest by providing it with $80 million in allowed claims, in exchange for a transfer of HarbourVest's interests in HCLOF to an affiliate of HCMLP. As a result of Dondero's and Ellington's conduct, those interests in HCLOF were then worth tens of millions of dollars less than the $75 million HarbourVest paid to acquire them. Ellington either knew or willfully blinded himself to the fact that Dondero breach his fiduciary duties to HCMLP by fraudulently inducing HarbourVest to purchase 49% of HCLOF from CLO Holdco for approximately $75 million in cash.

426. **Liabilities to Crusader Funds.** Ellington and Leventon aided and abetted Dondero in causing HCMLP to incur substantial liability to the Redeemer Committee due to his conduct in connection with HCMLP's wind-down of the Crusader Funds and distribution of proceeds to investors. Among other things, Dondero, Ellington, and Leventon caused HCMLP to: (1) transfer Barclays' limited partnership interests in the Crusader Funds to HCMLP's wholly-owned affiliate, Eames, Ltd., after the Redeemer Committee had refused to approve that transfer, in violation of the Joint Plan and Scheme and HCMLP's fiduciary duties; (2) purchase 28 Plan Claims for the benefit of HCMLP without the approval of the Redeemer Committee, in violation of the Joint Plan and Scheme and HCMLP's fiduciary duties; (3) covertly purchase the stock of the Portfolio Company and fail to liquidate the Crusader Funds' shares in the Portfolio Company, in violation of HCMLP's fiduciary duties; and (4) violate the provision of the Joint Plan and Scheme requiring HCMLP to defer receipt of certain Deferred Fees until the liquidation of the Crusader Funds was complete, causing HCMLP to forfeit its rights to those fees entirely. Additionally, both Ellington and Leventon were active participants in Dondero's scheme; they both provided false narratives or misrepresentations in furtherance

of Dondero's harm to the Crusader Funds. The Redeemer Arbitration panel found, for example, that Leventon "was significantly involved in providing direction" to keep the Redeemer Committee in the dark and "was the principal instrument through which [certain] misrepresentation[s] and omission[s] were communicated." As a result of Dondero's, Ellington's, and Leventon's conduct, the Redeemer Committee received an arbitration award against HCMLP in excess of $190 million, and in HCMLP's bankruptcy, HCMLP agreed to pay over $136 million in connection therewith. Ellington and Leventon either knew or willfully blinded themselves to the fact that Dondero breached his duties to HCMLP through the foregoing acts.

427. Beyond the direct losses identified in the preceding paragraphs, HCMLP suffered additional harm from Ellington's and Leventon's aiding and abetting the breaches of fiduciary duty committed by Dondero and Strand. For example, the $190 million Redeemer arbitration award—which was itself caused by the Dondero's and Strand's breaches of their fiduciary duty to HCMLP and Ellington's and Leventon's aiding and abetting of those breaches—caused HCMLP to file for bankruptcy. As of October 15, 2021, HCMLP had incurred in excess of $40 million in professional fees in connection with the bankruptcy. Ellington and Leventon either knew or willfully blinded themselves to the fact that Dondero and Strand breached their fiduciary duties to HCMLP through their actions that led to the $190 million Redeemer arbitration award.

428. In light of the foregoing, Ellington and Leventon are liable for aiding and abetting Dondero's breaches of fiduciary duties to HCMLP in an amount to be determined at trial.

**COUNT XXXV**
**Aiding and Abetting Breach of Fiduciary Duty Under Delaware Law or Knowing Participation in Breach of Fiduciary Duty under Texas Law In Connection With Fraudulent Transfers And Schemes**
*(Against Ellington and Okada)*

429. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

430. Neither the Litigation Trustee nor the Estate could have discovered the conduct by Ellington and Okada set out herein with reasonable diligence prior to Dondero's removal as Chief Executive Officer and President of HCMLP on January 9, 2020. Moreover, given the fiduciary obligations owed to HCMLP, neither the Estate nor the Litigation Trustee was able to inquire or was aware of the need to inquire into the conduct set out herein prior to Dondero's removal. By its nature, the conduct alleged herein was inherently undiscoverable because of the complete domination and control that Dondero exercised over HCMLP and the Dondero Entities, including but not limited to the complexity and opacity of the corporate structure he created and wielded for his own benefit.

431. Ellington aided and abetted Dondero in causing HCMLP to enter into the Massand Consulting Agreements. Likewise, Ellington aided and abetted Dondero in overseeing and approving the Massand Transfers. The payment obligations Dondero and Ellington caused HCMLP to incur, and the payments that Dondero and Ellington caused HCMLP to make, conferred no benefit on HCMLP. In addition, Ellington aided and abetted Dondero in causing HCMLP employees to perform work for SAS—at least seven HCMLP employees received SAS email addresses—without compensating HCMLP. Ellington either knew or willfully blinded himself to the fact that Dondero breached his fiduciary duties to HCMLP through the foregoing actions.

432. Moreover, as part of his scheme to evade HCMLP's creditors, Dondero, acting through Strand, approved hundreds of millions of dollars of distributions from HCMLP at a time that Dondero believed HCMLP was insolvent and would not be able to satisfy its obligations to its present and future creditors.

433. As Dondero's co-founder and HCMLP's Chief Investment Officer, Okada knew or willfully blinded himself to the fact that the HCMLP Distributions—including the distributions made to Okada, MAP #1, and MAP #2—were made at times that HCMLP was insolvent and would not be able to satisfy its obligations to its present and future creditors. Okada either knew or willfully blinded himself to the fact that Dondero breached his fiduciary duties to HCMLP by approving hundreds of millions of dollars of distributions from HCMLP at a time HCMLP was insolvent.

**COUNT XXXVI**
**Disallowance or Subordination of Claims Under**
**Section 502 and 510 of the Bankruptcy Code**
*(Against CLO Holdco)*

434. Plaintiff repeats and realleges the allegations in all prior paragraphs as if fully set forth herein.

435. On April 8, 2020, CLO Holdco filed Claim No. 133 seeking approximately $11 million (the "CLO Holdco Claim"). The basis of the CLO Holdco Claim was that CLO Holdco purchased a participation interest in certain interests that HCMLP held in the Crusader Fund.

436. HCMLP acquired the interests in the Crusader Fund that are the subject of the CLO Holdco Claim in violation of the Joint Plan and Scheme. HCMLP released its claim on those interests in connection with HCMLP's settlement with the Redeemer Committee. Accordingly, CLO Holdco is not entitled to any value on account of the CLO Holdco Claim. In recognition of this fact, on October 21, 2020, CLO Holdco amended its claim to seek $0.

437. Additionally, CLO Holdco subsequently agreed to withdraw the CLO Holdco Claim. Nevertheless, CLO Holdco has failed to date to actually withdraw the claim, notwithstanding the Reorganized Debtor's request. Accordingly, out of an abundance of caution, and to the extent that CLO Holdco attempts to pursue the CLO Holdco Claim, the Litigation Trustee objects to the CLO Holdco Claim, and the CLO Holdco Claim should be disallowed in its entirety or subordinated.

**[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]**

## PRAYER FOR RELIEF

**WHEREFORE**, Plaintiff requests that the Court enter judgment in favor of Plaintiff and against Defendants as follows:

A. awarding Plaintiff damages against, and disgorgement and restitution from each Defendant in an amount to be determined at trial;

B. setting aside, avoiding, and granting recovery of the HCMLP Distributions;

C. setting aside, avoiding, and granting recovery of the CLO Holdco Transfer;

D. setting aside and avoiding the payment obligations under the Massand Consulting Agreement;

E. setting aside, avoiding, and granting recovery of the Massand Transfers;

F. setting aside and avoiding the transfers of management and advisory agreements to HCMFA and NexPoint;

G. setting aside, avoiding, and granting recovery of the One-Year Transfers;

H. disallowing or subordinating, to the extent applicable, the CLO Holdco Claim;

I. awarding Plaintiff pre- and post-judgment interest at the maximum rate permitted by law;

J. awarding Plaintiff his attorneys' fees, costs, and other expenses incurred in this action; and

K. awarding Plaintiff such other and further relief as the Court deems just and proper.

## I. INTRODUCTION

Before this court is a sanctions motion[1] filed by Highland Capital Management, L.P. ("Highland," the "Debtor," or the "Reorganized Debtor"). [2] The motion seeks sanctions against

[1] *Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in connection with Proof of Claim 146* ("Sanctions Motion"). Dkt. No. 3851.

[2] Highland is a reorganized debtor under the confirmed *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* (the "Plan"). Dkt. No. 1808. *See Order (I) Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (II) Granting Related Relief* ("Confirmation Order"). Dkt. No. 1943.

NexPoint Real Estate Partners, LLC, f/k/a HCRE Partners, LLC ("NexPoint/HCRE") for its filing, prosecution, and then abrupt attempt to withdraw a meritless proof of claim (after almost three years of protracted litigation).

NexPoint/HCRE filed the subject proof of claim, #146 on the claims register ("Proof of Claim"), on April 8, 2020.[3] The Proof of Claim was signed electronically by James D. Dondero ("Dondero") and was prepared and filed by a law firm that was representing him personally at that time.[4] The Proof of Claim was not in a liquidated amount and was somewhat ambiguous. It stated in an Exhibit A thereto, that NexPoint/HCRE, which was a limited partner, along with Highland, in a limited liability company called SE Multifamily Holdings, LLC ("SE Multifamily")—an entity which owned valuable real estate—"may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor" and added that Highland's equity interest "may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor." NexPoint/HCRE stated that it would update the Proof of Claim to provide the exact amount of it "in the next ninety days" but never did.

Highland objected to the Proof of Claim. Thereafter, NexPoint/HCRE (while still not providing any liquidated amount of its Proof of Claim) refined its position therein to argue that the organizational documents relating to SE Multifamily improperly allocated the ownership percentages of the equity members, due to mutual mistake, lack of consideration, and/or failure of consideration. NexPoint/HCRE essentially sought to reform, rescind, and/or modify the SE Multifamily limited liability company agreement (and possibly other documentation) to give Highland less ownership (or no ownership interest) in SE Multifamily and, accordingly,

[3] Claim No. 146.

[4] Bonds Ellis Eppich Schafer Jones LLP.

NexPoint/HCRE would have a larger ownership interest in SE Multifamily. Next, there occurred years of litigation between the parties, including: (a) a skirmish over Highland's motion to disqualify NexPoint/HCRE's newest counsel (*i.e.,* a law firm that had represented both Highland and NexPoint/HCRE in transactions involving SE Multifamily), which was ultimately granted, and (b) an eleventh-hour attempt by NexPoint/HCRE to withdraw its Proof of Claim (by its newest law firm—this one #3 regarding the Proof of Claim), on the eve of depositions of its principals, including Dondero, and just prior to a trial on the merits. Highland objected to the withdrawal. The court held a hearing on that, as required by Bankruptcy Rule 3006. The court declined to allow withdrawal of the Proof of Claim, when the parties could not stipulate to an agreed form of order (*i.e.,* NexPoint/HCRE was unwilling to withdraw the Proof of Claim ***with prejudice*** to asserting its claims again in any future litigation in any forum).

Painfully, after all this, an evidentiary hearing was held on the merits of the Proof of Claim ("Trial") on November 1, 2022. During the Trial, Highland made an oral motion for a bad faith finding and assessment of attorneys' fees against NexPoint/HCRE in connection with its filing and prosecution of the Proof of Claim ("Oral Sanctions Motion"), which this court took under advisement, along with the consideration of the Proof of Claim as a whole.

On April 28, 2023, this court entered a 39-page memorandum opinion and order[5] sustaining Highland's objection to NexPoint/HCRE's Proof of Claim, but denying Highland's Oral Sanctions Motion, without prejudice, ***as procedurally deficient in that it was made orally and for the first time during the Trial.*** Thus, the Oral Sanctions Motion failed to provide NexPoint/HCRE sufficient notice and an opportunity to respond and, therefore, did not satisfy concerns of due process.

[5] *See Memorandum Opinion and Order Sustaining Debtor's Objection to, and Disallowing, Proof of Claim Number 146 [Dkt. No. 906]* ("Proof of Claim Disallowance Order"). Dkt. No. 3767.

On June 16, 2023, Highland filed the instant Sanctions Motion, setting forth the legal and factual bases for the relief sought. The Sanctions Motion specifically seeks a finding of bad faith against NexPoint/HCRE and reimbursement of Highland's attorneys' fees and costs, as a sanction for NexPoint/HCRE's filing and prosecution of the Proof of Claim.

After due notice to NexPoint/HCRE, and a hearing held January 24, 2024 on the Sanctions Motion ("Sanctions Motion Hearing"), and after consideration of the pleadings filed, evidence in the record, and arguments of counsel, the court finds, for the reasons detailed in the findings of fact and conclusions of law below,[6] that NexPoint/HCRE acted in bad faith and willfully abused the judicial process in filing, prosecuting, and then pursuing an eleventh-hour withdrawal of its Proof of Claim. Accordingly, NexPoint/HCRE will be required, as a sanction, to reimburse Highland's attorneys' fees and costs (totaling **$825,940.55)** incurred in connection with its objection to the Proof of Claim.

## II. JURISDICTION

This court has jurisdiction and authority to determine and enter a final order in this matter, pursuant to 28 U.S.C. §§ 157(b)(1) and (b)(2)(A), (B), and (O) and 1334.[7]

## III. BACKGROUND, PROCEDURAL HISTORY, AND FINDINGS OF FACT

### *A. Incorporation Herein of Proof of Claim Disallowance Order*

As noted above, this court, on April 28, 2023, issued its 39-page Proof of Claim Disallowance Order, sustaining Highland's objection to NexPoint/HCRE's Proof of Claim

[6] To the extent that any of the findings of fact should be construed as a conclusion of law, it shall be construed as such. To the extent that any of the conclusions of law should be construed as a finding of fact, it shall be construed as such.

[7] The Fifth Circuit recently confirmed the jurisdiction and authority of bankruptcy courts to issue sanctions orders in connection with bankruptcy cases and proceedings over which they exercise jurisdiction, because they are in the nature of ***civil contempt*** orders—which are considered "part of the underlying case" – "because the bankruptcy court had jurisdiction over the [ ] bankruptcy case, it had jurisdiction to enter the sanctions order, too." *Kreit v. Quinn (In re Cleveland Imaging and Surgical Hospital, L.L.C.)*, 26 F.4th 285, 294 (5th Cir. 2022) (cleaned up).

following the Trial on same. The Proof of Claim Disallowance Order sets forth extensive procedural history, findings of fact, and conclusions of law pertaining to NexPoint/HCRE's filing and prosecution of its Proof of Claim, which Highland alleges in the instant Sanctions Motion was conducted in bad faith. NexPoint/HCRE did not appeal the Proof of Claim Disallowance Order. Thus, it is a final and non-appealable order.[8] The court hereby incorporates by reference the Proof of Claim Disallowance Order (and all of the findings and conclusions therein), as if set forth verbatim herein.[9]

***B. Highland Files Sanctions Motion***

On June 16, 2023, Highland filed the instant Sanctions Motion. It was supported with a Declaration of John A. Morris in support of the Sanctions Motion ("Morris Declaration")[10] and 431 pages of attached exhibits as set forth in the following table:

| | |
|---|---|
| Exhibit A | NexPoint/HCRE's Proof of Claim[11] |
| Exhibit B | Highland's Objection to NexPoint/HCRE's Proof of Claim[12] |
| Exhibit C | NexPoint/HCRE's Response to Objection to Claim[13] |

[8] The Proof of Claim Disallowance Order is one of the few bankruptcy court orders issued in this bankruptcy case that was not appealed by Dondero or a Dondero-controlled entity. Although the court has not counted the exact number of appeals filed by Dondero and/or Dondero-controlled entities in this bankruptcy case and related proceedings, this court takes judicial notice of information contained in a vexatious litigant motion filed by Highland in the district court (before Judge Brantley Starr), reflecting that Dondero and his controlled entities have "filed over 35 total appeals." *See Highland Capital Management, L.P.'s Reply to Objections to Motion to Deem the Dondero Entities Vexatious Litigants and for Related Relief*, 12, at ¶ 24, filed on February 9, 2024. Dkt. No. 189 (NDTX Case No. 3:21-cv-00881-X).

[9] The Proof of Claim Disallowance Order was attached as Exhibit D to the Declaration of John A. Morris, Dkt. No. 3852, which was filed by Highland in connection with, and in support of, the relief requested in the Sanctions Motion.

[10] Dkt. No. 3852.

| Exhibit E | Transcript of November 1, 2022 Trial (on NexPoint/HCRE's Proof of Claim) |
| Exhibit F | Attorneys' Fees of Pachulski Stang Ziehl & Jones LLP ("PSZJ") for the period of August 1, 2021 through December 31, 2022 incurred in connection with the litigation on the NexPoint/HCRE Proof of Claim |
| Exhibit G | Invoices for court reporting services provided in connection with depositions taken and defended during the course of the Proof of Claim litigation |
| Exhibit H | Invoice for services rendered by David Agler, who provided specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim |
| Exhibit I | Summary of Fees and Expenses Incurred by Highland in Connection with NexPoint/HCRE's Proof of Claim |

The Sanctions Motion (unlike the Oral Sanctions Motion made during the Trial) provided NexPoint/HCRE with due and appropriate notice of the legal and factual bases for Highland's request for a bad faith finding and reimbursement of attorneys' fees and costs incurred by it in litigating the Proof of Claim. As stated in the Sanctions Motion, the legal basis for Highland's request for reimbursement of its attorneys' fees as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim is the bankruptcy court's "inherent authority under section 105 of the Bankruptcy Code to issue sanctions after making a finding of bad faith."[14] Highland referred to specific documentary and testimonial evidence adduced during the Trial that it alleges supports a finding that NexPoint/HCRE filed and prosecuted its Proof of Claim in bad faith, and attached invoices evidencing its attorneys' fees and costs incurred as a direct result of this alleged bad faith.

[14] *See* Sanctions Motion, 10, ¶25.

Before NexPoint/HCRE filed its response to the Sanctions Motion, the matter was stayed on August 2, 2023, pending court-ordered global mediation.[15] The mediation ultimately proved to be unsuccessful.[16] Thereafter, NexPoint/HCRE filed its *Response to Debtor's Motion for (A) Bad Faith Finding and (B) Attorneys' Fees* ("Response")[17] on December 22, 2023. NexPoint/HCRE denies that it filed and prosecuted its Proof of Claim in bad faith and argues it should not be sanctioned at all. It further argues that, even if the filing and prosecution of the Proof of Claim are found to have been in bad faith, the amount of the fees incurred by Highland in connection with the Proof of Claim litigation is "*per se* excessive for a single proof of claim objection"[18] and "extraordinarily high given that this dispute could have been brought to a swift close many months ago"—if only NexPoint/HCRE had been allowed to withdraw its Proof of Claim in September of 2022.[19] Highland's has sought reimbursement of more than $800,000 in attorneys' fees and more than $16,000 in expenses, identified in Exhibits F through H (and summarized in Exhibit I) of the Morris Declaration as having been incurred by Highland in connection with its litigation of the Proof of Claim.

Highland filed its *Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in*

---

[15] *See Order Granting in Part and Denying in Part Motion to Stay and to Compel Mediation*. Dkt. No. 3897. This was not the first time the bankruptcy court has ordered global mediation in the Highland case.

[16] *See Joint Notice of Mediation Report* filed on November 7, 2023. Dkt. No. 3995.

[17] Dkt. No. 3995.

[18] Response, 10, ¶34.

[19] Response, 13, ¶45. NexPoint/HCRE argues that, because it had sought to withdraw its Proof of Claim, any fees incurred by Highland after the filing of NexPoint/HCRE's motion to withdraw cannot be attributable to NexPoint/HCRE's alleged bad faith filing and prosecution of its Proof of Claim; rather, such fees were incurred by Highland as a result of Highland's decision to object to NexPoint/HCRE's withdrawal of its Proof of Claim and to proceed with the litigation, including taking depositions, and proceeding to "trial" on the merits instead of "taking a win" with NexPoint/HCRE's withdrawal of its Proof of Claim. *See* Response, 2.

*Connection with Proof of Claim 146*[20] on January 19, 2024, and filed an *Amended Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in Connection with Proof of Claim 146* ("Reply")[21] on January 23, 2024. Highland argues that "[n]othing in the Response warrants the denial of the [Sanctions] Motion or its requested award of attorneys' fees" and that "the record makes clear" that NexPoint/HCRE and its principals "clearly and convincingly acted in bad faith by (a) knowingly filing and prosecuting a baseless Proof of Claim, . . . ([b]) seeking an unfair litigation advantage by trying to withdraw its Proof of Claim ***after*** taking Highland's depositions but ***before*** subjecting its own witnesses to questioning, and ([c]) trying at all times to preserve for another day the claims it asserted (*i.e.*, to "reform, rescind and/or modify the agreement")."[22]

The court held a hearing on the Sanctions Motion ("Hearing") on January 24, 2024, during which NexPoint/HCRE was given a full opportunity to respond to Highland's allegations of bad faith and request for sanctions.

## IV. CONCLUSIONS OF LAW

### *A. The Sanctions Motion Satisfies Due Process Considerations*

In invoking its inherent power to sanction bad faith conduct or a willful abuse of the judicial process, "[a] court must exercise caution . . . , and it must comply with the mandates of due process, both in determining that the requisite bad faith exists and in assessing fees." *In re Correra*, 589 B.R. 76, 125 (Bankr. N.D. Tex. 2018). As noted above, the court entered its Proof of Claim Disallowance Order on April 28, 2023, in which it sustained Highland's objection to, and disallowed, the Proof of Claim but denied, without prejudice, Highland's Oral Sanctions Motion

[20] Dkt. No. 4018.

[21] Dkt. No. 4023.

[22] Reply, 2, ¶2.

as being procedurally defective because, having been raised for the first time during Trial and not having been made in writing, it had not given NexPoint/HCRE adequate notice and an opportunity to respond to the specific allegations of bad faith being made against it. The court pointed out that it did not address or make any determination regarding the substance of Highland's requests in the Oral Sanctions Motion for a bad faith finding and sanctions against NexPoint/HCRE, subject to Highland's right seek a bad faith finding and sanctions against NexPoint/HCRE upon and after giving it proper notice and an opportunity to respond:

> Here, where the Reorganized Debtor's generic oral request for a finding of bad faith and for "an award costs for a bad faith filing" did not articulate the legal basis for such an award and was raised for the first time during the Trial, HCRE was not given sufficient notice and an opportunity to respond, and, therefore, the court will deny, without prejudice, [Highland's] request for reimbursement of its costs incurred in connection with its objection to HCRE's Proof of Claim.

Proof of Claim Disallowance Order, 38-39 (quoting *In re Emanuel*, 422 B.R. 453, 464 (Bankr. S.D.N.Y. 2010) ("[A] person facing possible sanctions is entitled to due process. . . . At a minimum, the respondent is entitled to notice of the authority for the sanctions, notice of the specific conduct or omission that forms the basis of possible sanctions and the opportunity to respond."); *In re Magari*, 2010 WL 817327 at **2-3 (Bankr. N.D. Tex. Mar. 4, 2010) ("By requesting the sanctions award, the Trustee has raised due process concerns that can only be satisfied by providing to the affected party sufficient notice and opportunity to respond.")).

The court concludes that the instant Sanctions Motion and Hearing have provided NexPoint/HCRE with the due process that was lacking in connection with the Oral Sanctions Motion. NexPoint/HCRE was given adequate notice of the legal authority invoked for sanctions (the bankruptcy court's inherent powers under section 105 of the Bankruptcy Code) and NexPoint/HCRE's specific conduct (the filing and prosecution of its Proof of Claim) that Highland

alleges to have been in bad faith, and NexPoint/HCRE was given adequate opportunity to respond through briefing and at the Hearing on the Sanctions Motion.

With due process concerns having been now addressed and satisfied, the court is able to address the substantive questions raised in the instant Sanctions Motion of (1) whether NexPoint/HCRE did, indeed, act in bad faith in the filing and prosecution of its Proof of Claim and (2) if so, whether an award of reimbursement of Highland's attorneys' fees and costs incurred in connection with its litigation of the Proof of Claim is an appropriate sanction for such bad faith.

### *B. NexPoint/HCRE Filed and Prosecuted its Proof of Claim in Bad Faith and Willfully Abused the Judicial Process*

A bankruptcy court may sanction a litigant for bad faith filing or litigation if the court makes specific findings, based on clear and convincing evidence, of bad faith or willful abuse of the judicial process. *See Cleveland Imaging*, 26 F.4th at 292 (A bankruptcy court may only sanction a party using its inherent authority if "(1) the bankruptcy court finds that the party acted in bad faith or willfully abused the judicial process and (2) its finding is supported by clear and convincing evidence.") (citing *Cadle Co. v. Moore (In re Moore)*, 739 F.3d 724, 729-30 (5th Cir. 2014)). The bankruptcy court's power to sanction bad faith or willful abuse of the judicial process derives from its inherent authority under 11 U.S.C. § 105(a) to issue civil contempt orders. *Id.* at 294, 294 n.14 (quoting the "relevant part" of Bankruptcy Code section 105(a), which provides that bankruptcy courts may "sua sponte, tak[e] any action . . . necessary or appropriate to enforce or implement court orders or rules, or to prevent an abuse of process.") (cleaned up).

Having reviewed the record and the evidence adduced at Trial and NexPoint/HCRE's response to the Sanctions Motion (both in its Response and at the hearing on the Sanctions Motion), the court finds and concludes that there is clear and convincing evidence here that

NexPoint/HCRE filed and prosecuted is Proof of Claim in bad faith and that it willfully abused the judicial process.

1. *Dondero's Execution and Authorization of the Filing of the Proof of Claim Without First Having Read the Document or Conducting Any Due Diligence Was in Bad Faith and a Willful Abuse of the Judicial Process*

As noted in the Proof of Claim Disallowance Order, NexPoint/HCRE filed its Proof of Claim in this Highland bankruptcy case on April 8, 2020, several months after the post-petition "nasty breakup" between Highland and its co-founder and president and chief executive officer, Dondero. NexPoint/HCRE described the basis of its claim in Exhibit A attached to its Proof of Claim:[23]

**Exhibit A**

> HCRE Partner, LLC ("Claimant") is a limited partner with the Debtor in an entity called SE Multifamily Holdings, LLC ("SE Multifamily"). Claimant may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor. Additionally, Claimant contends that all or a portion of Debtor's equity, ownership, economic rights, equitable or beneficial interests in SE Multifamily does [not] belong to the Debtor or may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor. Claimant has requested information from the Debtor to ascertain the exact amount of its claim. This process is on-going. Additionally, this process has been delayed due to the outbreak of the Coronavirus. Claimant is continuing to work to ascertain the exact amount of its claim and will update its claim in the next ninety days.

NexPoint/HCRE was one of the many non-debtor Dondero-controlled entities affiliated with Highland. Dondero was the president and sole manager of NexPoint/HCRE, and an individual named Matt McGraner ("McGraner") was NexPoint/HCRE's vice president and secretary. NexPoint/HCRE had no employees of its own but instead relied on Highland's employees (and employees of other entities controlled by Dondero) to conduct business on its behalf. Dondero executed the Proof of Claim as the "person who is completing and signing this claim," checking

[23] Claim No. 146.

the box that indicates he is "the creditor's attorney or authorized agent" and acknowledging that "I have examined the information in this *Proof of Claim* and have reasonable belief that the information is true and correct" and that "I declare under penalty of perjury that the foregoing is true and correct."[24] The evidence overwhelmingly supports a finding that Dondero signed and authorized the filing of the Proof of Claim (that the court ultimately determined was lacking in any factual or legal support) without having even read it and without conducting any due diligence on, or investigation into, whether the statements made in the Proof of Claim were truthful and accurate, which supports a finding that Dondero's signing and filing of the Proof of Claim on behalf of NexPoint/HCRE was done in bad faith and constituted a willful abuse of the judicial process.

At Trial, Dondero testified that he had authorized his electronic signature to be affixed to the document and to be filed on behalf of NexPoint/HCRE and admitted that he had not reviewed the document before doing so.[25] He further testified that he could not recall "personally [doing] any due diligence of any kind to make sure that Exhibit A was truthful and accurate before [he] authorized it to be filed,"[26] and, more specifically, that he did not, prior to authorizing his law firm (Bonds Ellis) to affix his electronic signature on, and to file, the Proof of Claim, review or provide comments to the Proof of Claim or its Exhibit A, review the SE Multifamily Amended LLC Agreement or any documents,[27] "check with any member of the real estate group to see whether or not they believed [the Proof of Claim] was truthful and accurate before [he] authorized Bonds Ellis to file it," or do "anything . . . to make sure that this proof of claim was truthful and accurate before [he] authorized [his] electronic signature to be affixed and to have it filed on behalf of

[24] Proof of Claim, 3.

[25] Transcript of the November 1, 2022 Trial on Debtor's Objection to HCRE's Proof of Claim ("Trial Tr.")[Dkt. No. 3616] 55:2-22.

[26] Trial Tr. 56:20-23.

[27] Trial Tr. 55:10-22, 56:15-57:6.

HCRE."[28] Moreover, he testified that he did not know whose idea it was to file the Proof of Claim,[29] who at NexPoint/HCRE worked with, or provided information to, Bonds Ellis to enable Bonds Ellis to prepare the Proof of Claim, what information was given to Bonds Ellis that enabled them to formulate the Proof of Claim, or whether "Bonds Ellis ever communicated with anybody in the real estate group regarding [the Proof of Claim]."[30]

Dondero has argued that he had a good faith basis to sign and file the Proof of Claim on behalf of NexPoint/HCRE because "he had a host of responsibilities across a sprawling and sophisticated corporate structure and relied on numerous individuals within that structure to help manage the day-to-day operations of Highland and its subsidiaries and managed funds"[31] and that he "ha[d] to rely on systems and processes[,]" because "[he] can't be directly involved in everything."[32] Dondero further testified that "[he] sign[s] a lot of high-risk documents and [has] to rely on the process and the people and internally and externally as part of the process to sign it without direct validation from or verification from me, and this [Proof of Claim] is another one of those items."[33]

Dondero's "I'm-a-very-busy-person/too-busy-to-be-bothered-to-investigate" excuse is not a defense, as a matter of law, to his bad faith and willful abuse of the judicial process in connection with the filing of the Proof of Claim. Nor is Dondero's claimed reliance on systems and processes in connection with the execution and filing of this Proof of Claim, as a matter of fact, supported by the evidence. The court notes that the Proof of Claim is not a complex, lengthy legal or

[28] Trial Tr. 57:25-58:16.

[33] Trial Tr. 57:25-59:2.

corporate document; Exhibit A to the Proof of Claim, which set forth the basis for the claim, is only one paragraph long, yet Dondero did not even bother to read it before signing under penalty of perjury that the information contained in the Proof of Claim, including Exhibit A, was truthful and accurate. And, Dondero's own testimony contradicts his assertion that he relied on "systems and processes" and on other people within the "sprawling and sophisticated corporate structure" and his outside counsel to ensure the accuracy of the Proof of Claim. He had no reasonable or justifiable basis to rely on anyone or any "process" that was allegedly in place in connection with his signing of "high risk" documents, because he asked no questions, conducted no due diligence, and made no effort, whatsoever, to verify that the information that he was swearing was accurate under penalty of perjury was, in fact, truthful.

The court finds and concludes that the foregoing admissions by NexPoint/HCRE, through Dondero, provide clear and convincing evidence that ***NexPoint/HCRE filed its Proof of Claim*** in bad faith and willfully abused the judicial process.

*2. NexPoint/HCRE's Litigation Strategy and Actions in the Prosecution of Its Proof of Claim Are Further Evidence of Its Bad Faith and Willful Abuse of the Judicial Process*

Moreover, NexPoint/HCRE's ***litigation strategy and actions*** taken in the course of prosecuting its Proof of Claim over the next two and a half years, after filing it, ***provide further support for a finding that NexPoint/HCRE engaged in bad faith and willfully abused the judicial process***.

As noted in the Proof of Claim Disallowance Order, six months after Dondero signed and filed the Proof of Claim in April 2020, and in response to Highland's objection to its Proof of Claim,[34] NexPoint/HCRE fleshed-out the legal and factual bases for its claim:[35]

> After reviewing what documentation is available to [NexPoint/HCRE] with the Debtor, [NexPoint/HCRE] believes the organizational documents relating to SE Multifamily Holdings, LLC (the "SE Multifamily Agreement") improperly allocates the ownership percentages of the members thereto due to mutual mistake, lack of consideration, and/or failure of consideration. As such, [NexPoint/HCRE] has a claim to reform, rescind and/or modify the agreement.
>
> However, [NexPoint/HCRE] requires additional discovery, including, but not limited to, email communications and testimony, to determine what happened in connection with the memorialization of the parties' agreement and improper distribution provisions, evaluate the amount of its claim against the Debtor, and protect its interests under the agreement.

The Response was filed by a new law firm—Wick Phillips Gould & Martin, LLP ("Wick Phillips") – not the law firm of Bonds Ellis, which had handled the filing of the Proof of Claim. In the course of discovery, Highland became aware that Wick Phillips had jointly represented NexPoint/HCRE and Highland in connection with at least some of the underlying transactions that were the subject of the Proof of Claim, and, on April 14, 2021, more than a year after NexPoint/HCRE filed its Proof of Claim, Highland moved to disqualify Wick Phillips.[36] Notably, Highland's Plan had been confirmed on February 22, 2021, over the objections of Dondero and his related entities (including NexPoint/HCRE).[37] The effective date ("Effective Date") of the Plan occurred on August 11, 2021, and Highland became the Reorganized Debtor under the Plan.

---

[34] On July 30, 2020, Highland filed an objection to the allowance of the Proof of Claim, contending it had no liability under the Proof of Claim. *See Debtor's First Omnibus Objection to Certain (A) Duplicate Claims; (B) Overstated Claims; (C) Late-Filed Claims, (D) Satisfied Claims; (E) No-Liability Claims; and (F) Insufficient-Documentation Claims*, Dkt. No. 906.

[35] Response to Objection to Claim, 2-3, ¶¶ 5-6.

[36] Dkt. Nos. 2196-2198. On October 1, 2021, Highland filed a supplemental disqualification motion. Dkt. No. 2893.

[37] NexPoint/HCRE, represented by Wick Phillips, filed its *Objection to Debtor's Fifth Amended Plan of Reorganization* on January 5, 2021. Dkt. No. 1673.

Pursuant to the Plan, on or after the Effective Date, all or substantially all of the Debtor's assets vested in the Reorganized Debtor or the claimant trust ("Claimant Trust") created under the terms of the Plan, including Highland's 46.06% membership interest in SE Multifamily.

Meanwhile, NexPoint/HCRE vigorously fought the disqualification of Wick Phillips, filing its opposition to the disqualification motion on May 6, 2021,[38] and initiating a more than six-month period of expensive discovery and side litigation that culminated, after a lengthy hearing on the disqualification motion, with the entry by this court on December 10, 2021, of its *Order Granting in Part and Denying in Part Highland's Supplemental Motion to Disqualify Wick Phillips Gould & Martin, LLP As Counsel to HCRE Partners, LLC and for Related Relief* ("Disqualification Order"),[39] resolving the disqualification motion by, among other things, disqualifying Wick Phillips from representing NexPoint/HCRE in the contested matter concerning the Proof of Claim, but specifically denying Highland's request that NexPoint/HCRE reimburse it all costs and fees incurred in making and prosecuting the disqualification motion.[40]

In the instant Sanctions Motion, Highland acknowledged that the court denied Highland's specific request for sanctions of reimbursement of Highland's costs and fees in making the Disqualification Motion in its December 2021 Disqualification Order.[41] The court notes that the denial was not "with prejudice"[42] to Highland's right to bring a sanctions motion in the future in connection with allegations that NexPoint/HCRE's filing and prosecution of its Proof of Claim, including its vigorous defense of the Disqualification Motion. Notably, while Highland includes

[38] Dkt. Nos. 2278 and 2279.

[39] Dkt. No. 3106.

[40] Disqualification Order, 4.

[41] *See* Sanctions Motion, 4, ¶8.

[42] The Disqualification Order stated, in relevant part, "Highland's request that HCRE reimburse it all costs and fees incurred in making and prosecuting the Motion, including reasonable attorneys' fees, is **DENIED**."

a reference in the instant Sanctions Motion to the lengthy and expensive proceedings on the Disqualification Motion in its recitation of evidence in the record that supports Highland's allegations that NexPoint/HCRE engaged in bad faith conduct in the filing and prosecution of its Proof of Claim, it did ***not*** include them as part of the fees and costs for which Highland is seeking to be reimbursed by NexPoint/HCRE as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.[43]

In any event, following the disqualification of Wick Phillips, NexPoint/HCRE hired yet a third law firm, Hoge & Gameros, LLP, in connection with this matter, and the parties engaged in a second round of extensive discovery, which included the exchange of written discovery and document production and the service of various deposition notices and subpoenas. On August 12, 2022, just two business days after NexPoint/HCRE completed the depositions of Highland's witnesses, and a day after NexPoint/HCRE made a supplemental production of more than 4,000 pages of documentation, and two business days before the consensually scheduled depositions of NexPoint/HCRE's witnesses, Dondero and McGraner, were set to occur, NexPoint/HCRE filed a motion to withdraw its Proof of Claim ("Motion to Withdraw").[44] By this point, Highland had spent hundreds of thousands of dollars objecting to the Proof of Claim.

Query why might NexPoint/HCRE have done this? Just six months earlier, Dondero's family trust, The Dugaboy Investment Trust, had represented to the bankruptcy court that

[43] *See* Morris Declaration, 3-4, at ¶11 (Referencing the court's denial in its Disqualification Order of Highland's previous request for attorneys' fees incurred in connection with the Disqualification Motion, Morris stated "[W]e reviewed the PSZJ Invoices and redacted all entries relating to the Disqualification Motion; thus, for the avoidance of doubt, Highland does not seek any fee award with respect to any work done in connection with the Disqualification Motion.").

[44] *See Motion to Withdraw Proof of Claim* [Dkt. No. 3442].

Highland's 46.06% interest in SE Multifamily was worth $20 million,[45] and now, NexPoint/HCRE (which presumably also spent substantial sums prosecuting its Proof of Claim during the nearly two and a half years of litigation) appeared willing to walk away from its multi-million dollar challenge to Highland's 46.06% interest in SE Multifamily. Highland objected to NexPoint/HCRE's Motion to Withdraw, and the court held a hearing on September 12, 2022 (as required by Bankruptcy Rule 3006), following which the court entered an order denying NexPoint/HCRE's Motion to Withdraw, for the reasons set forth on the record,[46] and directing the parties to "confer in good faith to complete the depositions" of Dondero, McGraner, and NexPoint/HCRE and otherwise comply with the scheduling order that had been entered by the court on this matter, which included appearing for an evidentiary hearing on November 1, 2022.[47] The court denied NexPoint/HCRE's Motion to Withdraw, in part, because it was concerned that the timing of it all–just two business days ***after*** completing Highland's depositions but two business days ***before*** the consensually-scheduled depositions of NexPoint/HCRE's witnesses were to take place—reflected gamesmanship on the part of NexPoint/HCRE (*i.e.,* NexPoint/HCRE prosecuted its Proof of Claim for two and a half years, through and including the taking of depositions of Highland's witness, while shielding its own witnesses from testifying). The court was also concerned by NexPoint/HCRE's repeated attempts to preserve its claims against Highland for use against Highland in the future. In fact, the court entered its order denying NexPoint/HCRE's Motion to Withdraw only after: (1) NexPoint/HCRE refused to agree, at the

[45] *See Motion for Determination of the Value of the Estate and Assets Held by the Claimant Trust* [Docket No. 3382]. As pointed out by Highland in its Response, "[t]here is no dispute that HCRE is the manager of SE Multifamily and therefore—through Mr. Dondero—would be best positioned to opine on the value of Highland's interest in SE Multifamily." Response, 9, at ¶27 n. 4.

[46] The court noted in its order denying HCRE's Motion to Withdraw that, under the Bankruptcy Rules, a creditor does not have an absolute right to withdraw a proof of claim.

[47] Dkt. No. 3525.

September 12 hearing, to language in an order allowing withdrawal of the Proof of Claim that stated, unequivocally, that NexPoint/HCRE waived the right to relitigate or challenge the issue of Highland's 46.06% ownership interest in SE Multifamily, and (2) counsel were thereafter unable, in the day or two after the hearing, to work out mutually acceptable language in an agreed order that protected both parties.[48] As noted in its order denying NexPoint/HCRE's Motion to Withdraw, the court had expressed concerns, during the hearing on the Motion to Withdraw, relating to the integrity of the bankruptcy system and claims process if it allowed NexPoint/HCRE to withdraw its Proof of Claim after two and a half years of litigation, and having caused Highland to spend hundreds of thousands of dollars litigating the Proof of Claim, while at the same time allowing NexPoint/HCRE to preserve its challenges to Highland's ownership interest in SE Multifamily to be used against Highland in the future. The court did not, at the time, make any express findings regarding NexPoint/HCRE's bad faith or abuse of the judicial process, only because Highland's mid-hearing Oral Sanctions Motion had not provided NexPoint/HCRE with adequate notice and an opportunity to respond.[49] With the instant Sanctions Motion, those due process concerns have been satisfied.

Having considered the evidence and argument of counsel at both the Trial on NexPoint/HCRE's Proof of Claim and the hearing on the Sanctions Motion, and the pleadings filed in connection with the Sanctions Motion, including NexPoint/HCRE's written Response, and based on the record as a whole, the court expressly finds and concludes that NexPoint/HCRE's

[48] At the end of the September 12 hearing, the court had expressed concerns about gamesmanship, but, at the same time, assured the parties that it was still open to signing an agreed order regarding withdrawal of the Proof of Claim, if counsel could work out mutually acceptable language that protected both parties "without the pressure of the Court hovering over you." *See* Transcript of Hearing on Motion to Withdraw, Dkt. No. 3519, 50:14-59:14. Apparently, counsel were unable to reach an agreement on the terms of an agreed order, and so the court signed the order at docket number 3525, denying NexPoint/HCRE's Motion to Withdraw.

[49] As noted below, NexPoint/HCRE persisted to the end in arguing that the disallowance of its Proof of Claim could not bar NexPoint/HCRE from making future challenges to Highland's 46.06% membership interest in SE Multifamily.

***litigation strategy and actions*** in prosecution of its Proof of Claim (including vigorous opposition to the Disqualification Motion, the timing of the Motion to Withdraw, and its repeated and overt attempts to preserve the very claims upon which its Proof of Claim was based in connection with the Motion to Withdraw) demonstrates bad faith and a willful abuse of the judicial process on the part of NexPoint/HCRE.

*3. NexPoint/HCRE's Admissions at Trial Are Further Evidence of its Bad Faith Filing and Willful Abuse of the Judicial Process*

Following the denial of NexPoint/HCRE's Motion to Withdraw, the parties complied with the court's order to schedule the depositions of Dondero and McGraner at mutually agreeable times to complete discovery and then appeared at Trial on November 1, 2022. At the conclusion of the Trial, NexPoint/HCRE doubled-down on its request of the court "to grant the proof of claim and reallocate the equity [in SE Multifamily] based on the capital contribution[s]."[50] This was despite admissions by Dondero and McGraner in their Trial testimony that made it clear that NexPoint/HCRE did not, and never did, have a factual or legal basis for its request. Nevertheless, NexPoint/HCRE continued to the end to try to limit any order disallowing its Proof of Claim so as to preserve its right to assert the very claims asserted in its Proof of Claim (for rescission, reformation and/or modification of the SE Multifamily Amended LLC Agreement to reallocate the membership percentages) for use in the future.[51]

The Trial testimony of Dondero and McGraner revealed that NexPoint/HCRE had no factual basis to claim that a mistake was made by any of the parties, much less a mutual mistake

[50] Trial Tr. 179:23-25; 180:8-9.

[51] Trial Tr. 179:21-24 ("They want you to make findings that we can't raise any of these other issues, rescissions, stays, et cetera, going forward. That's not proper relief on a proof of claim."); 200:8-12 ("If Your Honor's going to deny the proof of claim, I would ask that you simply deny the proof of claim. We don't have an adversary proceeding here. There wasn't one started. Mr. Morris considered that and then didn't follow that path, because all we have here today is a proof of claim.").

of the parties, regarding the allocation of ownership percentages in SE Multifamily in corporate documentation,[52] and, in fact, "the evidence overwhelmingly point[ed] to the conclusion that both Mr. Dondero and Mr. McGraner understood that the allocation of 46.06% membership interest to Highland, and a total capital contribution by Highland of $49,000 in the Amended LLC Agreement, reflected the intent of the parties prior to, and at the time of, the execution of the Amended LLC Agreement."[53] The court specifically noted in the Proof of Claim Disallowance Order that Dondero admitted that he had not read or reviewed the Amended LLC Agreement or any drafts of it before he signed it—apparently the Amended LLC Agreement was one of those important, high-risk documents that Dondero was too busy to read or investigate before signing (like the Proof of Claim)—but he nevertheless testified that "the capital contributions and membership allocations contained in Schedule A of the Amended LLC Agreement comported with his understanding and intent when he signed the Amended LLC Agreement on behalf of HCRE and Highland."[54] NexPoint/HCRE was also unable to produce any evidence at Trial to support its factual allegation that there was a "lack of consideration" or a "failure of consideration" with respect to the Amended LLC Agreement, such that NexPoint/HCRE would be entitled to a

[52] The court concluded, specifically, that

> HCRE did not produce any evidence, much less clear and convincing evidence, that the parties to the Amended LLC Agreement – HCRE, Highland, BH Equities, and Liberty – had come to a specific and understanding, prior to the execution of the Amended LLC Agreement in March 2019, that the allocation of percentage membership interests in SE Multifamily was different from the percentage allocations contained in the Amended LLC Agreement. When asked on cross-examination, Mr. McGraner, HCRE's officer and co-owner who was most involved in the negotiations of the terms of the Amended LLC Agreement, was unable to identify any specific mistake made in the drafting of the Amended LLC Agreement. Neither he nor NexPoint/HCRE's other witness, Mr. Dondero, were able to point to a specific meeting of the minds of the members of SE Multifamily prior to (or after, for that matter) the execution of the Amended LLC Agreement that the parties intended Highland's allocation of SE Multifamily membership interests to be any percentage other than the 46.06% allocation attributed to Highland in the written Amended LLC Agreement.

Proof of Claim Disallowance Order, 30.

[53] *Id.*, 30-31.

[54] *Id.*, 31 n. 119.

reformation,[55] rescission,[56] or modification of it, to re-allocate the ownership percentages that the parties agreed to at the time of the execution of it.[57]

In fact, McGraner ultimately admitted in his Trial testimony that the only reason NexPoint/HCRE had for filing its Proof of Claim, which challenged Highland's title to its 46.06% membership interest in SE Multifamily, was, essentially, ***that NexPoint/HCRE was frustrated with the consequences of Dondero's decision in 2019 to seek bankruptcy protection for Highland (notably, the bankruptcy case was filed just a few months after the Amended LLC Agreement was executed), which resulted in Dondero losing control over Highland***, such that, as far as NexPoint/HCRE was concerned, its "partner" [in SE Multifamily] was no longer its "partner." The court noted in the Proof of Claim Disallowance Order that McGraner

> could not point to any provision of the Amended LLC Agreement that was either "wrong" or a "mistake;" rather, he testified that the "mistake" was "when the bankruptcy was filed and we can't amend it" because "[o]ur partners aren't our partners" – "if you have good partners and you're working with partners that are –

---

[55] After noting that "neither lack of consideration nor failure of consideration are bases for reformation of a contract under Delaware law (which is what NexPoint/HCRE is seeking in its Proof of Claim)," the court concluded that "HCRE is not entitled to reformation of the Amended LLC Agreement to reallocate the members' membership interests as requested based on its allegations of lack of consideration and/or failure of consideration." Proof of Claim Disallowance Order, 32 n. 120.

[56] The court noted in the Proof of Claim Disallowance Order that NexPoint/HCRE had not actually stated a claim for rescission of the Amended LLC Agreement with respect to its Proof of Claim, but that, if it had,

> Mr. Dondero's admission that he did not read the Amended LLC Agreement (or even have the terms explained to him by counsel or anyone else) prior to signing it on behalf of HCRE and Highland would bar any claim by HCRE for rescission of the Amended LLC Agreement. Moreover, even if HCRE's claim for rescission was not barred by Mr. Dondero's failure to read the Amended LLC Agreement prior to signing it, HCRE did not present any evidence of the other elements of a rescission claim: that the parties were mistaken as to a basic assumption on which the Amended LLC Agreement was made and that the mistake had a material effect on the agreed-upon exchange of performances.

Proof of Claim Disallowance Order, 33-34.

[57] *See* Proof of Claim Disallowance Order, 32-33 n. 120 (where the court found that "HCRE has not shown that there was a lack or failure of consideration on behalf of Highland in connection with the Amended LLC Agreement. . . . Under Delaware law, the courts 'limit [their] inquiry into consideration to its existence and not whether it is fair or adequate,' . . . . '[E]ven if the consideration exchanged is grossly unequal or of dubious value, the parties to a contract are free to make their bargain.' (citations omitted). Here, it is undisputed that Highland made a cash capital contribution of $49,000, that Highland was a jointly and severally liable coborrower under the KeyBank Loan, and that SE Multifamily (and HCRE), having no employees of their own, relied on Highland's employees to conduct business. Thus, HCRE's claim, to the extent it is based on alleged lack and/or failure of consideration fails.").

> that are known to you, then you make amendments to reflect the contributions of those partners, whether monetary or otherwise . . . [a]nd my understanding is I can't do that right now."[58]

McGraner testified that "despite Mr. Dondero being in control of both HCRE and Highland prior to the bankruptcy filing, and despite 'all of the fears [he] had [related to Highland's bankruptcy filing],' HCRE made no effort to amend the agreement before the bankruptcy or post-bankruptcy (because 'we didn't think it would be worth it')[ ][59] [and] 'because [it] hoped that the issues that caused the bankruptcy filing would resolve themselves.'"[60] This is not a good-faith basis for filing and prosecuting the Proof of Claim, and it exhibits a willful abuse of the bankruptcy claims process by NexPoint/HCRE.

In summary, the admissions by Dondero and McGraner in their Trial testimony made clear that NexPoint/HCRE never had a factual or legal basis for the Proof of Claim. NexPoint/HCRE's principals knew, at the time of filing and through its prosecution of the Proof of Claim, that there was no factual basis for its claim of rescission, reformation, and/or modification of the Amended LLC Agreement to dispossess Highland of some or all of its 46.06% membership interest in SE Multifamily. This clearly and convincingly constitutes bad faith by NexPoint/HCRE and a willful abuse of the judicial process.

### *C. Reimbursement of Attorneys' Fees and Costs Incurred by Highland in the Proof of Claim Litigation Is an Appropriate Sanction for NexPoint/HCRE's Bad Faith*

Having found and concluded by clear and convincing evidence that NexPoint/HCRE filed and prosecuted (and attempted withdrawal of) its Proof of Claim in bad faith and willfully abused the judicial process, this court may use its inherent powers under Bankruptcy Code section 105(a)

---

[58] Proof of Claim Disallowance Order, 27 (citing Trial Tr. 114:24-115:16, 118:6-15).

[59] *Id.* (citing Trial Tr. 121:24-122:9).

to sanction it for such conduct. Reimbursement of the opposing party's fees and costs incurred in responding to a bad faith filing or willful abuse of the judicial process has been upheld as an appropriate form of sanctions. *See Cleveland Imaging*, 26 F.4th at 294 (upholding the bankruptcy court's sanction order that required the parties who were found to have filed bankruptcy petitions in bad faith to reimburse the fees incurred by a post-confirmation litigation trust in responding to the bad faith filing); *Carroll v. Abide (In re Carroll)*, 850 F.3d 811 (5th Cir. 2017) (bankruptcy court did not abuse its discretion in ordering the debtors to "pay $49,432, which represents the amount of attorneys' fees incurred by [the bankruptcy trustee] in responding to certain instances of the [debtors'] bad faith conduct."); *In re Yorkshire, LLC*, 540 F.3d 328, 332 (5th Cir. 2008) (affirming bankruptcy court's use of its inherent powers to issue monetary sanctions for bad faith filing that were, in part, based upon the opposing parties' attorneys' fees and costs "following an extensive hearing in which the bankruptcy court heard testimony from the parties and witnesses and made certain credibility determinations," and "made specific findings that Appellants acted in bad faith."); *In re Paige*, 365 B.R. 632, 637-399 (Bankr. N.D. Tex. 2007) (awarding attorneys' fees against debtor for their "bad faith" conduct during bankruptcy case, noting "[t]he sanction here is derived from the Court's inherent power to sanction" under section 105(a)); *In re Lopez*, 576 B.R. 84, 93 (S.D. Tex. 2017) (same). Any sanction imposed pursuant to a bankruptcy court's inherent powers for bad faith conduct or willful abuse of the judicial process "must be compensatory rather than punitive in nature." *In re Lopez*, 576 B.R. at 93 (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. 101, 108 (2017) (citing *Mine Workers v. Bagwell*, 512 U.S. 821, 826-30 (1994)). "[A] sanction counts as compensatory only if it is 'calibrate[d] to [the] damages caused by' the bad-faith acts on which it is based[,]" and "[a] fee award is so calibrated if it covers the legal bills that the litigation abuse occasioned." *Goodyear Tire & Rubber*, 581 U.S.

at 108 (quoting *Bagwell*, 512 U.S. at 834). The fee award must be "limited to the fees the innocent party incurred solely because of the misconduct—or put another way, to the fees that party would not have incurred but for the bad faith." *Id.* (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. at 104). The "'causal link' between the sanctionable conduct and the opposing party's attorney's fees" must be established "through a 'but-for test:' to wit, the complaining party may only recover the portion of fees that they would not have paid 'but-for' the sanctionable conduct." *Id.* (citing *Goodyear Tire & Rubber*, 581 U.S. at 108-109 (citing *Fox v. Vice*, 563 U.S. 826, 836 (2011)).

Here, as earlier noted, Highland has requested, as a sanction, reimbursement of its attorneys' fees and costs incurred by it in responding to NexPoint/HCRE's filing and prosecution of its Proof of Claim. Specifically, Highland seeks reimbursement of an aggregate amount of **$825,940.55**, consisting of

- **$782,476.50** in attorneys' fees charged by its primary bankruptcy counsel, PSZJ, for the period August 1, 2021 through December 31, 2022, for work performed in connection with the litigation of the Proof of Claim;[61]
- **$16,164.05** in third-party expenses for court reporting services provided in connection with the Proof of Claim litigation;[62] and,

[61] *See* Morris Declaration, 3-4, at ¶¶ 8-13, and Ex. F. As stated in the Morris Declaration, the $782,476.50 amount does not include any fees relating to the Disqualification Motion or any fees that PSZJ concluded were inadvertently coded by a timekeeper to the NexPoint/HCRE Claim Objection category "or that were otherwise unrelated to services rendered in connection with the Proof of Claim litigation." *Id.*, 3-4, at ¶¶ 11 and 12. By way of specific example, Morris stated that "in 2022 and 2023 we charged Highland for services rendered in connection with our unsuccessful attempts to obtain SE Multifamily's books and records but excluded those charges here because they do not directly relate to the litigation of HCRE's Proof of Claim; Highland is seeking those fees in the Delaware Chancery Court where Highland was forced to commence an action against HCRE for specific performance (Case No. 2023-0493-LM))." *Id.*, 4, at ¶ 12.

[62] *See id.*, 4, at ¶ 14, and Ex. G.

- **$27,300.00** in attorneys' fees charged by David Agler for providing Highland with specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim.[63]

NexPoint/HCRE challenges Highland's request for reimbursement of its fees on several bases. ***First***, it argues that it cannot be ordered to reimburse the fees and expenses incurred by Highland ***after*** NexPoint/HCRE attempted to withdraw its Proof of Claim because they do not satisfy the "but for" test for establishing a "causal link" between those fees and costs and NexPoint/HCRE's filing and pursuit of its Proof of Claim—that Highland cannot show that "but for" NexPoint/HCRE's filing and prosecution of its Proof of Claim, Highland would not have incurred those fees and costs. NexPoint/HCRE urges the court to adopt its narrative of the proceedings that "instead of taking a win, [Highland] and its lawyers chose to generate fees to get the same result" and thus Highland's attorneys' efforts were "totally unnecessary" and a "waste of time and resources" that was "the fault of [Highland], not [NexPoint/HCRE]."[64] NexPoint/HCRE states in its Response that "[h]ere, ***it is undisputed*** that, had [Highland] agreed to the withdrawal of the Proof of Claim many months ago – before engaging in costly additional discovery and preparing for and attending a trial on the merits of the claim – [Highland] would have been exactly in the same position that it is in now, but at far less expense" and further that "[t]he real, practical difference between refusing to consent to the withdrawal of [NexPoint/HCRE]'s Proof of Claim and instead prosecuting the Objection to its end is several hundred thousand dollars in attorneys' fees" and, thus, "[t]he Motion abjectly fails any 'but–for' analysis."[65]

---

[63] *See id.*, 4-5, at ¶¶ 15 and 16, and Ex. H. A summary of the aggregate fees and expenses of which Highland is seeking reimbursement in the Sanctions Motion is attached as Exhibit I to the Morris Declaration. *See id.*, 5, at ¶ 17, and Ex. I.

[64] Response, 2.

[65] Response, 20, at ¶60 (emphasis added).

The court disagrees with NexPoint/HCRE's "narrative" and its view of the evidence established at Trial. Highland ***does*** dispute NexPoint/HCRE's contention that, if only it had allowed it to withdraw its Proof of Claim and accepted a "win," that Highland would have been "exactly in the same position that it is in now [after a Trial and ruling on the merits of the Proof of Claim], but at far less expense." The court does as well. As Highland has argued, NexPoint/HCRE's Motion to Withdraw was itself filed in bad faith. Highland was forced to oppose the withdrawal of the Proof of Claim because NexPoint/HCRE would not agree to a withdrawal, with prejudice, to NexPoint/HCRE's right to challenge Highland's title to its 46.06% membership interest in SE Multifamily in the future.[66] The evidence clearly and convincingly established that any "win" or "victory" that Highland would have obtained through the withdrawal of the Proof of Claim[67]

> would have been pyrrhic because ***HCRE—in a clear act of bad faith—tried to withdraw its Proof of Claim while preserving the substance of it claims for another day***. Had HCRE's duplicitous strategy been successful, Highland's interest in SE Multifamily would have remained subject to challenge—an untenable result for anyone, let alone a post-confirmation entity seeking to implement a court-approved asset monetization plan.

The court finds and concludes, as argued by Highland, that there is clear and convincing evidence here that the fees and costs incurred by it, after NexPoint/HCRE sought to withdraw its Proof of Claim (*i.e.,* to prepare for the Trial and prosecute its objection to the Proof of Claim through a trial and ruling on the merits), would not have been incurred "but for" NexPoint/HCRE's bad faith. As pointed out by Highland and as noted above,[68] the court did not enter the Proof of Claim Disallowance Order in December 2022 in a vacuum. Rather, the court denied

---

[66] *See supra* note 45 and accompanying text.

[67] Response, 5, at ¶18.

[68] *See supra* at pages 16-17.

NexPoint/HCRE's Motion to Withdraw only ***after:*** (1) the court had expressed concerns that the timing and context of its filing of its Motion to Withdraw suggested gamesmanship on its part, and that the integrity of the bankruptcy system and claims process would be in jeopardy if the court were to simply allow withdrawal, without protecting Highland from future challenges to its membership interest in SE Multifamily (particularly, after Highland had spent hundreds of thousands of dollars to that point in objecting to the Proof of Claim); and (2) NexPoint/HCRE refused to agree to language in an order that would alleviate these expressed concerns. The court—having now made an express finding that NexPoint/HCRE's filing of its Motion to Withdraw was in bad faith and part of its willful abuse of the bankruptcy claims process that began with the filing of its Proof of Claim in April 2020—now expressly finds that the fees and costs incurred by Highland after NexPoint/HCRE filed its Motion to Withdraw were necessary for Highland to protect its interests and would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

***Second***, NexPoint/HCRE objects to Highland's fees ($809,776.50) and expenses ($16,164.05) as being "*per se* excessive for a single proof of claim objection."[69] Highland argues that "[s]pending less than 5% of the value of an asset (according to Mr. Dondero's family trust) to obtain good, clear title is economically rational and consistent with the Claimant Trust's duty to maximize value for the benefit of the Claimant Trust's beneficiaries." Per the Morris Declaration, Highland only seeks reimbursement of expenses and fees charged to Highland for expenses incurred and work performed in litigating the Proof of Claim (but—as noted earlier—specifically excluding any fees charged relating to the Disqualification Motion). The court agrees with Highland and finds that the fees and expenses incurred by it in objecting to the Proof of Claim,

[69] Response, 10, ¶34.

including the fees incurred ***after*** NexPoint/HCRE sought to withdraw its Proof of Claim, were reasonable and necessary for Highland to protect a valuable asset—it's 46.06% interest in SE Multifamily—and, thus, they are not excessive.

***Third***, NexPoint/HCRE complains, in its Response, that the fees charged by PSZJ were unreasonable and excessive because the PSZJ invoices show that it was seeking reimbursement for fees charged by "layers of timekeepers whose identities and roles have not been disclosed."[70] NexPoint/HCRE points out three professionals (two of whom billed one hour or less) who were identified in PSZJ's invoices only by their initials.[71] In its Reply, Highland identified the timekeepers by name—as a litigator who billed one hour of time; a bankruptcy attorney who billed 0.6 hours of time; and a bankruptcy partner who billed 15.1 hours of time—all of whom were "called upon to provide discrete support."[72] Collectively, the three previously "unidentified" attorneys charged just 0.023% of the total fee request.[73] PSZJ's identification of the "unidentified timekeepers" and explanation of the work performed by them satisfies the court that these fees were reasonable and necessary fees incurred as a direct result of NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim. The court rejects NexPoint/HCRE's suggestion that PSZJ overstaffed and overbilled the file because there were "layers of timekeepers." As pointed out in Highland's Reply, "over 82% of the charges related to one litigation partner . . . , one litigation associate . . . , and one paralegal" and "[t]wo other lawyers who have been on the Pachulski team since the inception of this engagement . . . billed relatively modest amounts of time over the course

[70] *Id.*, 13, ¶45.
[71] *Id.*, 12, ¶38.
[72] Reply, 9, ¶28.
[73] *Id.*

of this prolonged litigation."[74] There is simply no factual basis to support a conclusion that the matter was overstaffed.

***Fourth***, NexPoint/HCRE objects to $9,840 charged by two attorneys for travel time,[75] while acknowledging that those attorneys' non-working travel time was billed at half of the attorneys' regular hourly rate.[76] As pointed out by Highland in its Reply, Highland agreed to pay for travel time in its pre-petition engagement letter, so those "charges cannot come as a surprise to Mr. Dondero."[77] The court takes judicial notice of the fact that attorneys charging half of their hourly rates for non-working travel time, as PSZJ did here, pursuant to its engagement letter with Highland that was approved when the court authorized the retention of PSZJ as counsel for the Debtor, is common practice and is a commonly approved term of engagement of professionals in bankruptcy cases. The $9,840 charged by two attorneys for travel time in this matter was a reasonable and necessary expense incurred by Highland in responding to NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.

***Fifth***, and finally, NexPoint/HCRE objects to the fees charged by David Agler (39 hours of work performed at $700 per hour) for providing Highland with tax advice in August 2022, on the basis that the invoice attached as Exhibit H to the Morris Declaration "indicated that it was 'unbilled' work" and that "[w]hatever work he did, it did not manifest itself in the proceedings."[78] Highland pointed out that it ***had*** explained, in the Morris Declaration, that Mr. Agler provided "specialized tax advice concerning SE Multifamily and other matters related to the Proof of

[74] *Id.*, 9, ¶28 n. 5.

[75] Response, 12, ¶37.

[77] Reply, 9-10, ¶29.

[78] Response, 12, ¶42.

Claim."[79] Highland provided a more detailed description of the services provided by Mr. Agler and why those services were necessary in its Reply: "Mr. Agler provided his services in August 2022 in conjunction with Highlands's deposition preparation, including the deposition of SE Multifamily's accountant. These services were necessary because—as Mr. Dondero and Mr. McGraner admitted and as the evidence showed—Highland's participation in SE Multifamily was expected to provide substantial tax benefits."[80] The court finds that the fees charged by David Agler for work performed for Highland that are set forth in Exhibit H to the Morris Declaration were reasonable and necessary expenses incurred by Highland in responding to HCRE's bad faith conduct and that they would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

The court has determined that the full amount of fees – $809,776.50 – and costs – $16,164.05 – that are set forth in detail in Exhibits F through H (and summarized on Exhibit I) of the Morris Declaration were reasonable and necessary for Highland to respond to, and would not have been incurred "but for," NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim, which the court has found to have been a willful abuse by NexPoit/HCRE of the judicial process. Under Fifth Circuit precedent, it is appropriate for the court, in the use of its inherent power under Bankruptcy Code § 105(a), to order NexPoint/HCRE, as a compensatory sanction for its bad faith conduct and willful abuse of the judicial process, to reimburse Highland the full amount of fees and costs requested by Highland, which, in the aggregate, total $825,940.55. NexPoint/HCRE's objections to such amounts as excessive, unnecessary, unreasonable, or unrelated to NexPoint/HCRE's bad faith conduct, are overruled.

---

[80] *See id.* (citing Morris Declaration, Ex. [E] (Trial Transcript) 43:2-14; 83:17-84:2; 191:23-193:21 (citing to testimony and tax returns that were admitted into evidence)).

## V. CONCLUSION AND ORDER

In summary, the court has determined that NexPoint/HCRE was given adequate notice and an opportunity to respond to the Sanctions Motion and that there is clear and convincing evidence that it filed and prosecuted its Proof of Claim, including its eleventh-hour attempt to withdraw its Proof of Claim, in bad faith and that it willfully abused the judicial process. Such conduct directly caused Highland to incur $825,940.55 in fees and expenses. In the exercise of its inherent power under Bankruptcy Code § 105(a), the court will grant Highland's Sanctions Motion and order NexPoint/HCRE to reimburse Highland for those fees and expenses as an appropriate sanction for NexPoint/HCRE's bad faith or willful abuse of the judicial process.

Accordingly, and based on the foregoing findings of fact and conclusions of law, including those findings and conclusions in this court's Proof of Claim Disallowance Order, which has been incorporated herein by reference,

**IT IS ORDERED** that the Sanctions Motion [Dkt. No. 3851] be, and hereby is **GRANTED**;

**IT IS FURTHER ORDERED** that, in order to compensate Highland for loss and expense resulting from NexPoint/HCRE's bad faith and willful abuse of the judicial process, in filing and prosecuting its Proof of Claim, NexPoint/HCRE is hereby directed to pay Highland the compensatory sum of **$825,940.55**.

**MEMORANDUM OPINION AND ORDER GRANTING HIGHLAND CAPITAL MANAGEMENT, L.P.'S MOTION FOR (A) BAD FAITH FINDING AND (B) ATTORNEYS' FEES AGAINST NEXPOINT REAL ESTATE PARTNERS LLC (F/K/A HCRE PARTNERS, LLC) IN CONNECTION WITH PROOF OF CLAIM # 146**

## I. INTRODUCTION

Before this court is a sanctions motion[1] filed by Highland Capital Management, L.P. ("Highland," the "Debtor," or the "Reorganized Debtor"). [2] The motion seeks sanctions against

[1] *Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in connection with Proof of Claim 146* ("Sanctions Motion"). Dkt. No. 3851.

[2] Highland is a reorganized debtor under the confirmed *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* (the "Plan"). Dkt. No. 1808. *See Order (I) Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (II) Granting Related Relief* ("Confirmation Order"). Dkt. No. 1943.

1934054240305000000000002

NexPoint Real Estate Partners, LLC, f/k/a HCRE Partners, LLC ("NexPoint/HCRE") for its filing, prosecution, and then abrupt attempt to withdraw a meritless proof of claim (after almost three years of protracted litigation).

NexPoint/HCRE filed the subject proof of claim, #146 on the claims register ("Proof of Claim"), on April 8, 2020.[3] The Proof of Claim was signed electronically by James D. Dondero ("Dondero") and was prepared and filed by a law firm that was representing him personally at that time.[4] The Proof of Claim was not in a liquidated amount and was somewhat ambiguous. It stated in an Exhibit A thereto, that NexPoint/HCRE, which was a limited partner, along with Highland, in a limited liability company called SE Multifamily Holdings, LLC ("SE Multifamily")—an entity which owned valuable real estate—"may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor" and added that Highland's equity interest "may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor." NexPoint/HCRE stated that it would update the Proof of Claim to provide the exact amount of it "in the next ninety days" but never did.

Highland objected to the Proof of Claim. Thereafter, NexPoint/HCRE (while still not providing any liquidated amount of its Proof of Claim) refined its position therein to argue that the organizational documents relating to SE Multifamily improperly allocated the ownership percentages of the equity members, due to mutual mistake, lack of consideration, and/or failure of consideration. NexPoint/HCRE essentially sought to reform, rescind, and/or modify the SE Multifamily limited liability company agreement (and possibly other documentation) to give Highland less ownership (or no ownership interest) in SE Multifamily and, accordingly,

[3] Claim No. 146.

[4] Bonds Ellis Eppich Schafer Jones LLP.

NexPoint/HCRE would have a larger ownership interest in SE Multifamily. Next, there occurred years of litigation between the parties, including: (a) a skirmish over Highland's motion to disqualify NexPoint/HCRE's newest counsel (*i.e.,* a law firm that had represented both Highland and NexPoint/HCRE in transactions involving SE Multifamily), which was ultimately granted, and (b) an eleventh-hour attempt by NexPoint/HCRE to withdraw its Proof of Claim (by its newest law firm—this one #3 regarding the Proof of Claim), on the eve of depositions of its principals, including Dondero, and just prior to a trial on the merits. Highland objected to the withdrawal. The court held a hearing on that, as required by Bankruptcy Rule 3006. The court declined to allow withdrawal of the Proof of Claim, when the parties could not stipulate to an agreed form of order (*i.e.,* NexPoint/HCRE was unwilling to withdraw the Proof of Claim ***with prejudice*** to asserting its claims again in any future litigation in any forum).

Painfully, after all this, an evidentiary hearing was held on the merits of the Proof of Claim ("Trial") on November 1, 2022. During the Trial, Highland made an oral motion for a bad faith finding and assessment of attorneys' fees against NexPoint/HCRE in connection with its filing and prosecution of the Proof of Claim ("Oral Sanctions Motion"), which this court took under advisement, along with the consideration of the Proof of Claim as a whole.

On April 28, 2023, this court entered a 39-page memorandum opinion and order[5] sustaining Highland's objection to NexPoint/HCRE's Proof of Claim, but denying Highland's Oral Sanctions Motion, without prejudice, ***as procedurally deficient in that it was made orally and for the first time during the Trial.*** Thus, the Oral Sanctions Motion failed to provide NexPoint/HCRE sufficient notice and an opportunity to respond and, therefore, did not satisfy concerns of due process.

[5] *See Memorandum Opinion and Order Sustaining Debtor's Objection to, and Disallowing, Proof of Claim Number 146 [Dkt. No. 906]* ("Proof of Claim Disallowance Order"). Dkt. No. 3767.

On June 16, 2023, Highland filed the instant Sanctions Motion, setting forth the legal and factual bases for the relief sought. The Sanctions Motion specifically seeks a finding of bad faith against NexPoint/HCRE and reimbursement of Highland's attorneys' fees and costs, as a sanction for NexPoint/HCRE's filing and prosecution of the Proof of Claim.

After due notice to NexPoint/HCRE, and a hearing held January 24, 2024 on the Sanctions Motion ("Sanctions Motion Hearing"), and after consideration of the pleadings filed, evidence in the record, and arguments of counsel, the court finds, for the reasons detailed in the findings of fact and conclusions of law below,[6] that NexPoint/HCRE acted in bad faith and willfully abused the judicial process in filing, prosecuting, and then pursuing an eleventh-hour withdrawal of its Proof of Claim. Accordingly, NexPoint/HCRE will be required, as a sanction, to reimburse Highland's attorneys' fees and costs (totaling **$825,940.55)** incurred in connection with its objection to the Proof of Claim.

## II. JURISDICTION

This court has jurisdiction and authority to determine and enter a final order in this matter, pursuant to 28 U.S.C. §§ 157(b)(1) and (b)(2)(A), (B), and (O) and 1334.[7]

## III. BACKGROUND, PROCEDURAL HISTORY, AND FINDINGS OF FACT

### *A. Incorporation Herein of Proof of Claim Disallowance Order*

As noted above, this court, on April 28, 2023, issued its 39-page Proof of Claim Disallowance Order, sustaining Highland's objection to NexPoint/HCRE's Proof of Claim

[6] To the extent that any of the findings of fact should be construed as a conclusion of law, it shall be construed as such. To the extent that any of the conclusions of law should be construed as a finding of fact, it shall be construed as such.

[7] The Fifth Circuit recently confirmed the jurisdiction and authority of bankruptcy courts to issue sanctions orders in connection with bankruptcy cases and proceedings over which they exercise jurisdiction, because they are in the nature of ***civil contempt*** orders—which are considered "part of the underlying case" – "because the bankruptcy court had jurisdiction over the [ ] bankruptcy case, it had jurisdiction to enter the sanctions order, too." *Kreit v. Quinn (In re Cleveland Imaging and Surgical Hospital, L.L.C.)*, 26 F.4th 285, 294 (5th Cir. 2022) (cleaned up).

following the Trial on same. The Proof of Claim Disallowance Order sets forth extensive procedural history, findings of fact, and conclusions of law pertaining to NexPoint/HCRE's filing and prosecution of its Proof of Claim, which Highland alleges in the instant Sanctions Motion was conducted in bad faith. NexPoint/HCRE did not appeal the Proof of Claim Disallowance Order. Thus, it is a final and non-appealable order.[8] The court hereby incorporates by reference the Proof of Claim Disallowance Order (and all of the findings and conclusions therein), as if set forth verbatim herein.[9]

***B. Highland Files Sanctions Motion***

On June 16, 2023, Highland filed the instant Sanctions Motion. It was supported with a Declaration of John A. Morris in support of the Sanctions Motion ("Morris Declaration")[10] and 431 pages of attached exhibits as set forth in the following table:

| | |
|---|---|
| Exhibit A | NexPoint/HCRE's Proof of Claim[11] |
| Exhibit B | Highland's Objection to NexPoint/HCRE's Proof of Claim[12] |
| Exhibit C | NexPoint/HCRE's Response to Objection to Claim[13] |

[8] The Proof of Claim Disallowance Order is one of the few bankruptcy court orders issued in this bankruptcy case that was not appealed by Dondero or a Dondero-controlled entity. Although the court has not counted the exact number of appeals filed by Dondero and/or Dondero-controlled entities in this bankruptcy case and related proceedings, this court takes judicial notice of information contained in a vexatious litigant motion filed by Highland in the district court (before Judge Brantley Starr), reflecting that Dondero and his controlled entities have "filed over 35 total appeals." *See Highland Capital Management, L.P.'s Reply to Objections to Motion to Deem the Dondero Entities Vexatious Litigants and for Related Relief*, 12, at ¶ 24, filed on February 9, 2024. Dkt. No. 189 (NDTX Case No. 3:21-cv-00881-X).

[9] The Proof of Claim Disallowance Order was attached as Exhibit D to the Declaration of John A. Morris, Dkt. No. 3852, which was filed by Highland in connection with, and in support of, the relief requested in the Sanctions Motion.

| Exhibit H | Invoice for services rendered by David Agler, who provided specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim |
| Exhibit I | Summary of Fees and Expenses Incurred by Highland in Connection with NexPoint/HCRE's Proof of Claim |

The Sanctions Motion (unlike the Oral Sanctions Motion made during the Trial) provided NexPoint/HCRE with due and appropriate notice of the legal and factual bases for Highland's request for a bad faith finding and reimbursement of attorneys' fees and costs incurred by it in litigating the Proof of Claim. As stated in the Sanctions Motion, the legal basis for Highland's request for reimbursement of its attorneys' fees as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim is the bankruptcy court's "inherent authority under section 105 of the Bankruptcy Code to issue sanctions after making a finding of bad faith."[14] Highland referred to specific documentary and testimonial evidence adduced during the Trial that it alleges supports a finding that NexPoint/HCRE filed and prosecuted its Proof of Claim in bad faith, and attached invoices evidencing its attorneys' fees and costs incurred as a direct result of this alleged bad faith.

[14] *See* Sanctions Motion, 10, ¶25.

Before NexPoint/HCRE filed its response to the Sanctions Motion, the matter was stayed on August 2, 2023, pending court-ordered global mediation.[15] The mediation ultimately proved to be unsuccessful.[16] Thereafter, NexPoint/HCRE filed its *Response to Debtor's Motion for (A) Bad Faith Finding and (B) Attorneys' Fees* ("Response")[17] on December 22, 2023. NexPoint/HCRE denies that it filed and prosecuted its Proof of Claim in bad faith and argues it should not be sanctioned at all. It further argues that, even if the filing and prosecution of the Proof of Claim are found to have been in bad faith, the amount of the fees incurred by Highland in connection with the Proof of Claim litigation is "*per se* excessive for a single proof of claim objection"[18] and "extraordinarily high given that this dispute could have been brought to a swift close many months ago"—if only NexPoint/HCRE had been allowed to withdraw its Proof of Claim in September of 2022.[19] Highland's has sought reimbursement of more than $800,000 in attorneys' fees and more than $16,000 in expenses, identified in Exhibits F through H (and summarized in Exhibit I) of the Morris Declaration as having been incurred by Highland in connection with its litigation of the Proof of Claim.

Highland filed its *Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in*

---

[15] *See Order Granting in Part and Denying in Part Motion to Stay and to Compel Mediation*. Dkt. No. 3897. This was not the first time the bankruptcy court has ordered global mediation in the Highland case.

[16] *See Joint Notice of Mediation Report* filed on November 7, 2023. Dkt. No. 3995.

[17] Dkt. No. 3995.

[18] Response, 10, ¶34.

[19] Response, 13, ¶45. NexPoint/HCRE argues that, because it had sought to withdraw its Proof of Claim, any fees incurred by Highland after the filing of NexPoint/HCRE's motion to withdraw cannot be attributable to NexPoint/HCRE's alleged bad faith filing and prosecution of its Proof of Claim; rather, such fees were incurred by Highland as a result of Highland's decision to object to NexPoint/HCRE's withdrawal of its Proof of Claim and to proceed with the litigation, including taking depositions, and proceeding to "trial" on the merits instead of "taking a win" with NexPoint/HCRE's withdrawal of its Proof of Claim. *See* Response, 2.

*Connection with Proof of Claim 146*[20] on January 19, 2024, and filed an *Amended Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in Connection with Proof of Claim 146* ("Reply")[21] on January 23, 2024. Highland argues that "[n]othing in the Response warrants the denial of the [Sanctions] Motion or its requested award of attorneys' fees" and that "the record makes clear" that NexPoint/HCRE and its principals "clearly and convincingly acted in bad faith by (a) knowingly filing and prosecuting a baseless Proof of Claim, . . . ([b]) seeking an unfair litigation advantage by trying to withdraw its Proof of Claim ***after*** taking Highland's depositions but ***before*** subjecting its own witnesses to questioning, and ([c]) trying at all times to preserve for another day the claims it asserted (*i.e.*, to "reform, rescind and/or modify the agreement")."[22]

The court held a hearing on the Sanctions Motion ("Hearing") on January 24, 2024, during which NexPoint/HCRE was given a full opportunity to respond to Highland's allegations of bad faith and request for sanctions.

## IV. CONCLUSIONS OF LAW

### *A. The Sanctions Motion Satisfies Due Process Considerations*

In invoking its inherent power to sanction bad faith conduct or a willful abuse of the judicial process, "[a] court must exercise caution . . . , and it must comply with the mandates of due process, both in determining that the requisite bad faith exists and in assessing fees." *In re Correra*, 589 B.R. 76, 125 (Bankr. N.D. Tex. 2018). As noted above, the court entered its Proof of Claim Disallowance Order on April 28, 2023, in which it sustained Highland's objection to, and disallowed, the Proof of Claim but denied, without prejudice, Highland's Oral Sanctions Motion

[20] Dkt. No. 4018.

[21] Dkt. No. 4023.

[22] Reply, 2, ¶2.

as being procedurally defective because, having been raised for the first time during Trial and not having been made in writing, it had not given NexPoint/HCRE adequate notice and an opportunity to respond to the specific allegations of bad faith being made against it. The court pointed out that it did not address or make any determination regarding the substance of Highland's requests in the Oral Sanctions Motion for a bad faith finding and sanctions against NexPoint/HCRE, subject to Highland's right seek a bad faith finding and sanctions against NexPoint/HCRE upon and after giving it proper notice and an opportunity to respond:

> Here, where the Reorganized Debtor's generic oral request for a finding of bad faith and for "an award costs for a bad faith filing" did not articulate the legal basis for such an award and was raised for the first time during the Trial, HCRE was not given sufficient notice and an opportunity to respond, and, therefore, the court will deny, without prejudice, [Highland's] request for reimbursement of its costs incurred in connection with its objection to HCRE's Proof of Claim.

Proof of Claim Disallowance Order, 38-39 (quoting *In re Emanuel*, 422 B.R. 453, 464 (Bankr. S.D.N.Y. 2010) ("[A] person facing possible sanctions is entitled to due process. . . . At a minimum, the respondent is entitled to notice of the authority for the sanctions, notice of the specific conduct or omission that forms the basis of possible sanctions and the opportunity to respond."); *In re Magari*, 2010 WL 817327 at **2-3 (Bankr. N.D. Tex. Mar. 4, 2010) ("By requesting the sanctions award, the Trustee has raised due process concerns that can only be satisfied by providing to the affected party sufficient notice and opportunity to respond.")).

The court concludes that the instant Sanctions Motion and Hearing have provided NexPoint/HCRE with the due process that was lacking in connection with the Oral Sanctions Motion. NexPoint/HCRE was given adequate notice of the legal authority invoked for sanctions (the bankruptcy court's inherent powers under section 105 of the Bankruptcy Code) and NexPoint/HCRE's specific conduct (the filing and prosecution of its Proof of Claim) that Highland

alleges to have been in bad faith, and NexPoint/HCRE was given adequate opportunity to respond through briefing and at the Hearing on the Sanctions Motion.

With due process concerns having been now addressed and satisfied, the court is able to address the substantive questions raised in the instant Sanctions Motion of (1) whether NexPoint/HCRE did, indeed, act in bad faith in the filing and prosecution of its Proof of Claim and (2) if so, whether an award of reimbursement of Highland's attorneys' fees and costs incurred in connection with its litigation of the Proof of Claim is an appropriate sanction for such bad faith.

### *B. NexPoint/HCRE Filed and Prosecuted its Proof of Claim in Bad Faith and Willfully Abused the Judicial Process*

A bankruptcy court may sanction a litigant for bad faith filing or litigation if the court makes specific findings, based on clear and convincing evidence, of bad faith or willful abuse of the judicial process. *See Cleveland Imaging*, 26 F.4th at 292 (A bankruptcy court may only sanction a party using its inherent authority if "(1) the bankruptcy court finds that the party acted in bad faith or willfully abused the judicial process and (2) its finding is supported by clear and convincing evidence.") (citing *Cadle Co. v. Moore (In re Moore)*, 739 F.3d 724, 729-30 (5th Cir. 2014)). The bankruptcy court's power to sanction bad faith or willful abuse of the judicial process derives from its inherent authority under 11 U.S.C. § 105(a) to issue civil contempt orders. *Id.* at 294, 294 n.14 (quoting the "relevant part" of Bankruptcy Code section 105(a), which provides that bankruptcy courts may "sua sponte, tak[e] any action . . . necessary or appropriate to enforce or implement court orders or rules, or to prevent an abuse of process.") (cleaned up).

Having reviewed the record and the evidence adduced at Trial and NexPoint/HCRE's response to the Sanctions Motion (both in its Response and at the hearing on the Sanctions Motion), the court finds and concludes that there is clear and convincing evidence here that

NexPoint/HCRE filed and prosecuted is Proof of Claim in bad faith and that it willfully abused the judicial process.

1. *Dondero's Execution and Authorization of the Filing of the Proof of Claim Without First Having Read the Document or Conducting Any Due Diligence Was in Bad Faith and a Willful Abuse of the Judicial Process*

As noted in the Proof of Claim Disallowance Order, NexPoint/HCRE filed its Proof of Claim in this Highland bankruptcy case on April 8, 2020, several months after the post-petition "nasty breakup" between Highland and its co-founder and president and chief executive officer, Dondero. NexPoint/HCRE described the basis of its claim in Exhibit A attached to its Proof of Claim:[23]

**Exhibit A**

> HCRE Partner, LLC ("Claimant") is a limited partner with the Debtor in an entity called SE Multifamily Holdings, LLC ("SE Multifamily"). Claimant may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor. Additionally, Claimant contends that all or a portion of Debtor's equity, ownership, economic rights, equitable or beneficial interests in SE Multifamily does [not] belong to the Debtor or may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor. Claimant has requested information from the Debtor to ascertain the exact amount of its claim. This process is on-going. Additionally, this process has been delayed due to the outbreak of the Coronavirus. Claimant is continuing to work to ascertain the exact amount of its claim and will update its claim in the next ninety days.

NexPoint/HCRE was one of the many non-debtor Dondero-controlled entities affiliated with Highland. Dondero was the president and sole manager of NexPoint/HCRE, and an individual named Matt McGraner ("McGraner") was NexPoint/HCRE's vice president and secretary. NexPoint/HCRE had no employees of its own but instead relied on Highland's employees (and employees of other entities controlled by Dondero) to conduct business on its behalf. Dondero executed the Proof of Claim as the "person who is completing and signing this claim," checking

[23] Claim No. 146.

the box that indicates he is "the creditor's attorney or authorized agent" and acknowledging that "I have examined the information in this *Proof of Claim* and have reasonable belief that the information is true and correct" and that "I declare under penalty of perjury that the foregoing is true and correct."[24] The evidence overwhelmingly supports a finding that Dondero signed and authorized the filing of the Proof of Claim (that the court ultimately determined was lacking in any factual or legal support) without having even read it and without conducting any due diligence on, or investigation into, whether the statements made in the Proof of Claim were truthful and accurate, which supports a finding that Dondero's signing and filing of the Proof of Claim on behalf of NexPoint/HCRE was done in bad faith and constituted a willful abuse of the judicial process.

At Trial, Dondero testified that he had authorized his electronic signature to be affixed to the document and to be filed on behalf of NexPoint/HCRE and admitted that he had not reviewed the document before doing so.[25] He further testified that he could not recall "personally [doing] any due diligence of any kind to make sure that Exhibit A was truthful and accurate before [he] authorized it to be filed,"[26] and, more specifically, that he did not, prior to authorizing his law firm (Bonds Ellis) to affix his electronic signature on, and to file, the Proof of Claim, review or provide comments to the Proof of Claim or its Exhibit A, review the SE Multifamily Amended LLC Agreement or any documents,[27] "check with any member of the real estate group to see whether or not they believed [the Proof of Claim] was truthful and accurate before [he] authorized Bonds Ellis to file it," or do "anything . . . to make sure that this proof of claim was truthful and accurate before [he] authorized [his] electronic signature to be affixed and to have it filed on behalf of

[24] Proof of Claim, 3.

[25] Transcript of the November 1, 2022 Trial on Debtor's Objection to HCRE's Proof of Claim ("Trial Tr.")[Dkt. No. 3616] 55:2-22.

[26] Trial Tr. 56:20-23.

[27] Trial Tr. 55:10-22, 56:15-57:6.

HCRE."[28] Moreover, he testified that he did not know whose idea it was to file the Proof of Claim,[29] who at NexPoint/HCRE worked with, or provided information to, Bonds Ellis to enable Bonds Ellis to prepare the Proof of Claim, what information was given to Bonds Ellis that enabled them to formulate the Proof of Claim, or whether "Bonds Ellis ever communicated with anybody in the real estate group regarding [the Proof of Claim]."[30]

Dondero has argued that he had a good faith basis to sign and file the Proof of Claim on behalf of NexPoint/HCRE because "he had a host of responsibilities across a sprawling and sophisticated corporate structure and relied on numerous individuals within that structure to help manage the day-to-day operations of Highland and its subsidiaries and managed funds"[31] and that he "ha[d] to rely on systems and processes[,]" because "[he] can't be directly involved in everything."[32] Dondero further testified that "[he] sign[s] a lot of high-risk documents and [has] to rely on the process and the people and internally and externally as part of the process to sign it without direct validation from or verification from me, and this [Proof of Claim] is another one of those items."[33]

Dondero's "I'm-a-very-busy-person/too-busy-to-be-bothered-to-investigate" excuse is not a defense, as a matter of law, to his bad faith and willful abuse of the judicial process in connection with the filing of the Proof of Claim. Nor is Dondero's claimed reliance on systems and processes in connection with the execution and filing of this Proof of Claim, as a matter of fact, supported by the evidence. The court notes that the Proof of Claim is not a complex, lengthy legal or

[28] Trial Tr. 57:25-58:16.

[29] Trial Tr. 57:7-9.

[30] Trial Tr. 56:1-14.

[33] Trial Tr. 57:25-59:2.

corporate document; Exhibit A to the Proof of Claim, which set forth the basis for the claim, is only one paragraph long, yet Dondero did not even bother to read it before signing under penalty of perjury that the information contained in the Proof of Claim, including Exhibit A, was truthful and accurate. And, Dondero's own testimony contradicts his assertion that he relied on "systems and processes" and on other people within the "sprawling and sophisticated corporate structure" and his outside counsel to ensure the accuracy of the Proof of Claim. He had no reasonable or justifiable basis to rely on anyone or any "process" that was allegedly in place in connection with his signing of "high risk" documents, because he asked no questions, conducted no due diligence, and made no effort, whatsoever, to verify that the information that he was swearing was accurate under penalty of perjury was, in fact, truthful.

The court finds and concludes that the foregoing admissions by NexPoint/HCRE, through Dondero, provide clear and convincing evidence that ***NexPoint/HCRE filed its Proof of Claim*** in bad faith and willfully abused the judicial process.

*2. NexPoint/HCRE's Litigation Strategy and Actions in the Prosecution of Its Proof of Claim Are Further Evidence of Its Bad Faith and Willful Abuse of the Judicial Process*

Moreover, NexPoint/HCRE's ***litigation strategy and actions*** taken in the course of prosecuting its Proof of Claim over the next two and a half years, after filing it, ***provide further support for a finding that NexPoint/HCRE engaged in bad faith and willfully abused the judicial process***.

As noted in the Proof of Claim Disallowance Order, six months after Dondero signed and filed the Proof of Claim in April 2020, and in response to Highland's objection to its Proof of Claim,[34] NexPoint/HCRE fleshed-out the legal and factual bases for its claim:[35]

> After reviewing what documentation is available to [NexPoint/HCRE] with the Debtor, [NexPoint/HCRE] believes the organizational documents relating to SE Multifamily Holdings, LLC (the "SE Multifamily Agreement") improperly allocates the ownership percentages of the members thereto due to mutual mistake, lack of consideration, and/or failure of consideration. As such, [NexPoint/HCRE] has a claim to reform, rescind and/or modify the agreement.
>
> However, [NexPoint/HCRE] requires additional discovery, including, but not limited to, email communications and testimony, to determine what happened in connection with the memorialization of the parties' agreement and improper distribution provisions, evaluate the amount of its claim against the Debtor, and protect its interests under the agreement.

The Response was filed by a new law firm—Wick Phillips Gould & Martin, LLP ("Wick Phillips") – not the law firm of Bonds Ellis, which had handled the filing of the Proof of Claim. In the course of discovery, Highland became aware that Wick Phillips had jointly represented NexPoint/HCRE and Highland in connection with at least some of the underlying transactions that were the subject of the Proof of Claim, and, on April 14, 2021, more than a year after NexPoint/HCRE filed its Proof of Claim, Highland moved to disqualify Wick Phillips.[36] Notably, Highland's Plan had been confirmed on February 22, 2021, over the objections of Dondero and his related entities (including NexPoint/HCRE).[37] The effective date ("Effective Date") of the Plan occurred on August 11, 2021, and Highland became the Reorganized Debtor under the Plan.

---

[34] On July 30, 2020, Highland filed an objection to the allowance of the Proof of Claim, contending it had no liability under the Proof of Claim. *See Debtor's First Omnibus Objection to Certain (A) Duplicate Claims; (B) Overstated Claims; (C) Late-Filed Claims, (D) Satisfied Claims; (E) No-Liability Claims; and (F) Insufficient-Documentation Claims*, Dkt. No. 906.

[35] Response to Objection to Claim, 2-3, ¶¶ 5-6.

[36] Dkt. Nos. 2196-2198. On October 1, 2021, Highland filed a supplemental disqualification motion. Dkt. No. 2893.

[37] NexPoint/HCRE, represented by Wick Phillips, filed its *Objection to Debtor's Fifth Amended Plan of Reorganization* on January 5, 2021. Dkt. No. 1673.

Pursuant to the Plan, on or after the Effective Date, all or substantially all of the Debtor's assets vested in the Reorganized Debtor or the claimant trust ("Claimant Trust") created under the terms of the Plan, including Highland's 46.06% membership interest in SE Multifamily.

Meanwhile, NexPoint/HCRE vigorously fought the disqualification of Wick Phillips, filing its opposition to the disqualification motion on May 6, 2021,[38] and initiating a more than six-month period of expensive discovery and side litigation that culminated, after a lengthy hearing on the disqualification motion, with the entry by this court on December 10, 2021, of its *Order Granting in Part and Denying in Part Highland's Supplemental Motion to Disqualify Wick Phillips Gould & Martin, LLP As Counsel to HCRE Partners, LLC and for Related Relief* ("Disqualification Order"),[39] resolving the disqualification motion by, among other things, disqualifying Wick Phillips from representing NexPoint/HCRE in the contested matter concerning the Proof of Claim, but specifically denying Highland's request that NexPoint/HCRE reimburse it all costs and fees incurred in making and prosecuting the disqualification motion.[40]

In the instant Sanctions Motion, Highland acknowledged that the court denied Highland's specific request for sanctions of reimbursement of Highland's costs and fees in making the Disqualification Motion in its December 2021 Disqualification Order.[41] The court notes that the denial was not "with prejudice"[42] to Highland's right to bring a sanctions motion in the future in connection with allegations that NexPoint/HCRE's filing and prosecution of its Proof of Claim, including its vigorous defense of the Disqualification Motion. Notably, while Highland includes

[38] Dkt. Nos. 2278 and 2279.

[39] Dkt. No. 3106.

[40] Disqualification Order, 4.

[41] *See* Sanctions Motion, 4, ¶8.

[42] The Disqualification Order stated, in relevant part, "Highland's request that HCRE reimburse it all costs and fees incurred in making and prosecuting the Motion, including reasonable attorneys' fees, is **DENIED**."

a reference in the instant Sanctions Motion to the lengthy and expensive proceedings on the Disqualification Motion in its recitation of evidence in the record that supports Highland's allegations that NexPoint/HCRE engaged in bad faith conduct in the filing and prosecution of its Proof of Claim, it did ***not*** include them as part of the fees and costs for which Highland is seeking to be reimbursed by NexPoint/HCRE as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.[43]

In any event, following the disqualification of Wick Phillips, NexPoint/HCRE hired yet a third law firm, Hoge & Gameros, LLP, in connection with this matter, and the parties engaged in a second round of extensive discovery, which included the exchange of written discovery and document production and the service of various deposition notices and subpoenas. On August 12, 2022, just two business days after NexPoint/HCRE completed the depositions of Highland's witnesses, and a day after NexPoint/HCRE made a supplemental production of more than 4,000 pages of documentation, and two business days before the consensually scheduled depositions of NexPoint/HCRE's witnesses, Dondero and McGraner, were set to occur, NexPoint/HCRE filed a motion to withdraw its Proof of Claim ("Motion to Withdraw").[44] By this point, Highland had spent hundreds of thousands of dollars objecting to the Proof of Claim.

Query why might NexPoint/HCRE have done this? Just six months earlier, Dondero's family trust, The Dugaboy Investment Trust, had represented to the bankruptcy court that

[43] *See* Morris Declaration, 3-4, at ¶11 (Referencing the court's denial in its Disqualification Order of Highland's previous request for attorneys' fees incurred in connection with the Disqualification Motion, Morris stated "[W]e reviewed the PSZJ Invoices and redacted all entries relating to the Disqualification Motion; thus, for the avoidance of doubt, Highland does not seek any fee award with respect to any work done in connection with the Disqualification Motion.").

[44] *See Motion to Withdraw Proof of Claim* [Dkt. No. 3442].

Highland's 46.06% interest in SE Multifamily was worth $20 million,[45] and now, NexPoint/HCRE (which presumably also spent substantial sums prosecuting its Proof of Claim during the nearly two and a half years of litigation) appeared willing to walk away from its multi-million dollar challenge to Highland's 46.06% interest in SE Multifamily. Highland objected to NexPoint/HCRE's Motion to Withdraw, and the court held a hearing on September 12, 2022 (as required by Bankruptcy Rule 3006), following which the court entered an order denying NexPoint/HCRE's Motion to Withdraw, for the reasons set forth on the record,[46] and directing the parties to "confer in good faith to complete the depositions" of Dondero, McGraner, and NexPoint/HCRE and otherwise comply with the scheduling order that had been entered by the court on this matter, which included appearing for an evidentiary hearing on November 1, 2022.[47] The court denied NexPoint/HCRE's Motion to Withdraw, in part, because it was concerned that the timing of it all–just two business days ***after*** completing Highland's depositions but two business days ***before*** the consensually-scheduled depositions of NexPoint/HCRE's witnesses were to take place—reflected gamesmanship on the part of NexPoint/HCRE (*i.e.,* NexPoint/HCRE prosecuted its Proof of Claim for two and a half years, through and including the taking of depositions of Highland's witness, while shielding its own witnesses from testifying). The court was also concerned by NexPoint/HCRE's repeated attempts to preserve its claims against Highland for use against Highland in the future. In fact, the court entered its order denying NexPoint/HCRE's Motion to Withdraw only after: (1) NexPoint/HCRE refused to agree, at the

[45] *See Motion for Determination of the Value of the Estate and Assets Held by the Claimant Trust* [Docket No. 3382]. As pointed out by Highland in its Response, "[t]here is no dispute that HCRE is the manager of SE Multifamily and therefore—through Mr. Dondero—would be best positioned to opine on the value of Highland's interest in SE Multifamily." Response, 9, at ¶27 n. 4.

[46] The court noted in its order denying HCRE's Motion to Withdraw that, under the Bankruptcy Rules, a creditor does not have an absolute right to withdraw a proof of claim.

[47] Dkt. No. 3525.

September 12 hearing, to language in an order allowing withdrawal of the Proof of Claim that stated, unequivocally, that NexPoint/HCRE waived the right to relitigate or challenge the issue of Highland's 46.06% ownership interest in SE Multifamily, and (2) counsel were thereafter unable, in the day or two after the hearing, to work out mutually acceptable language in an agreed order that protected both parties.[48] As noted in its order denying NexPoint/HCRE's Motion to Withdraw, the court had expressed concerns, during the hearing on the Motion to Withdraw, relating to the integrity of the bankruptcy system and claims process if it allowed NexPoint/HCRE to withdraw its Proof of Claim after two and a half years of litigation, and having caused Highland to spend hundreds of thousands of dollars litigating the Proof of Claim, while at the same time allowing NexPoint/HCRE to preserve its challenges to Highland's ownership interest in SE Multifamily to be used against Highland in the future. The court did not, at the time, make any express findings regarding NexPoint/HCRE's bad faith or abuse of the judicial process, only because Highland's mid-hearing Oral Sanctions Motion had not provided NexPoint/HCRE with adequate notice and an opportunity to respond.[49] With the instant Sanctions Motion, those due process concerns have been satisfied.

Having considered the evidence and argument of counsel at both the Trial on NexPoint/HCRE's Proof of Claim and the hearing on the Sanctions Motion, and the pleadings filed in connection with the Sanctions Motion, including NexPoint/HCRE's written Response, and based on the record as a whole, the court expressly finds and concludes that NexPoint/HCRE's

[48] At the end of the September 12 hearing, the court had expressed concerns about gamesmanship, but, at the same time, assured the parties that it was still open to signing an agreed order regarding withdrawal of the Proof of Claim, if counsel could work out mutually acceptable language that protected both parties "without the pressure of the Court hovering over you." *See* Transcript of Hearing on Motion to Withdraw, Dkt. No. 3519, 50:14-59:14. Apparently, counsel were unable to reach an agreement on the terms of an agreed order, and so the court signed the order at docket number 3525, denying NexPoint/HCRE's Motion to Withdraw.

[49] As noted below, NexPoint/HCRE persisted to the end in arguing that the disallowance of its Proof of Claim could not bar NexPoint/HCRE from making future challenges to Highland's 46.06% membership interest in SE Multifamily.

***litigation strategy and actions*** in prosecution of its Proof of Claim (including vigorous opposition to the Disqualification Motion, the timing of the Motion to Withdraw, and its repeated and overt attempts to preserve the very claims upon which its Proof of Claim was based in connection with the Motion to Withdraw) demonstrates bad faith and a willful abuse of the judicial process on the part of NexPoint/HCRE.

*3. NexPoint/HCRE's Admissions at Trial Are Further Evidence of its Bad Faith Filing and Willful Abuse of the Judicial Process*

Following the denial of NexPoint/HCRE's Motion to Withdraw, the parties complied with the court's order to schedule the depositions of Dondero and McGraner at mutually agreeable times to complete discovery and then appeared at Trial on November 1, 2022. At the conclusion of the Trial, NexPoint/HCRE doubled-down on its request of the court "to grant the proof of claim and reallocate the equity [in SE Multifamily] based on the capital contribution[s]."[50] This was despite admissions by Dondero and McGraner in their Trial testimony that made it clear that NexPoint/HCRE did not, and never did, have a factual or legal basis for its request. Nevertheless, NexPoint/HCRE continued to the end to try to limit any order disallowing its Proof of Claim so as to preserve its right to assert the very claims asserted in its Proof of Claim (for rescission, reformation and/or modification of the SE Multifamily Amended LLC Agreement to reallocate the membership percentages) for use in the future.[51]

The Trial testimony of Dondero and McGraner revealed that NexPoint/HCRE had no factual basis to claim that a mistake was made by any of the parties, much less a mutual mistake

[50] Trial Tr. 179:23-25; 180:8-9.

[51] Trial Tr. 179:21-24 ("They want you to make findings that we can't raise any of these other issues, rescissions, stays, et cetera, going forward. That's not proper relief on a proof of claim."); 200:8-12 ("If Your Honor's going to deny the proof of claim, I would ask that you simply deny the proof of claim. We don't have an adversary proceeding here. There wasn't one started. Mr. Morris considered that and then didn't follow that path, because all we have here today is a proof of claim.").

of the parties, regarding the allocation of ownership percentages in SE Multifamily in corporate documentation,[52] and, in fact, "the evidence overwhelmingly point[ed] to the conclusion that both Mr. Dondero and Mr. McGraner understood that the allocation of 46.06% membership interest to Highland, and a total capital contribution by Highland of $49,000 in the Amended LLC Agreement, reflected the intent of the parties prior to, and at the time of, the execution of the Amended LLC Agreement."[53] The court specifically noted in the Proof of Claim Disallowance Order that Dondero admitted that he had not read or reviewed the Amended LLC Agreement or any drafts of it before he signed it—apparently the Amended LLC Agreement was one of those important, high-risk documents that Dondero was too busy to read or investigate before signing (like the Proof of Claim)—but he nevertheless testified that "the capital contributions and membership allocations contained in Schedule A of the Amended LLC Agreement comported with his understanding and intent when he signed the Amended LLC Agreement on behalf of HCRE and Highland."[54] NexPoint/HCRE was also unable to produce any evidence at Trial to support its factual allegation that there was a "lack of consideration" or a "failure of consideration" with respect to the Amended LLC Agreement, such that NexPoint/HCRE would be entitled to a

[52] The court concluded, specifically, that

> HCRE did not produce any evidence, much less clear and convincing evidence, that the parties to the Amended LLC Agreement – HCRE, Highland, BH Equities, and Liberty – had come to a specific and understanding, prior to the execution of the Amended LLC Agreement in March 2019, that the allocation of percentage membership interests in SE Multifamily was different from the percentage allocations contained in the Amended LLC Agreement. When asked on cross-examination, Mr. McGraner, HCRE's officer and co-owner who was most involved in the negotiations of the terms of the Amended LLC Agreement, was unable to identify any specific mistake made in the drafting of the Amended LLC Agreement. Neither he nor NexPoint/HCRE's other witness, Mr. Dondero, were able to point to a specific meeting of the minds of the members of SE Multifamily prior to (or after, for that matter) the execution of the Amended LLC Agreement that the parties intended Highland's allocation of SE Multifamily membership interests to be any percentage other than the 46.06% allocation attributed to Highland in the written Amended LLC Agreement.

Proof of Claim Disallowance Order, 30.

[53] *Id.*, 30-31.

[54] *Id.*, 31 n. 119.

reformation,[55] rescission,[56] or modification of it, to re-allocate the ownership percentages that the parties agreed to at the time of the execution of it.[57]

In fact, McGraner ultimately admitted in his Trial testimony that the only reason NexPoint/HCRE had for filing its Proof of Claim, which challenged Highland's title to its 46.06% membership interest in SE Multifamily, was, essentially, ***that NexPoint/HCRE was frustrated with the consequences of Dondero's decision in 2019 to seek bankruptcy protection for Highland (notably, the bankruptcy case was filed just a few months after the Amended LLC Agreement was executed), which resulted in Dondero losing control over Highland***, such that, as far as NexPoint/HCRE was concerned, its "partner" [in SE Multifamily] was no longer its "partner." The court noted in the Proof of Claim Disallowance Order that McGraner

> could not point to any provision of the Amended LLC Agreement that was either "wrong" or a "mistake;" rather, he testified that the "mistake" was "when the bankruptcy was filed and we can't amend it" because "[o]ur partners aren't our partners" – "if you have good partners and you're working with partners that are –

---

[55] After noting that "neither lack of consideration nor failure of consideration are bases for reformation of a contract under Delaware law (which is what NexPoint/HCRE is seeking in its Proof of Claim)," the court concluded that "HCRE is not entitled to reformation of the Amended LLC Agreement to reallocate the members' membership interests as requested based on its allegations of lack of consideration and/or failure of consideration." Proof of Claim Disallowance Order, 32 n. 120.

[56] The court noted in the Proof of Claim Disallowance Order that NexPoint/HCRE had not actually stated a claim for rescission of the Amended LLC Agreement with respect to its Proof of Claim, but that, if it had,

> Mr. Dondero's admission that he did not read the Amended LLC Agreement (or even have the terms explained to him by counsel or anyone else) prior to signing it on behalf of HCRE and Highland would bar any claim by HCRE for rescission of the Amended LLC Agreement. Moreover, even if HCRE's claim for rescission was not barred by Mr. Dondero's failure to read the Amended LLC Agreement prior to signing it, HCRE did not present any evidence of the other elements of a rescission claim: that the parties were mistaken as to a basic assumption on which the Amended LLC Agreement was made and that the mistake had a material effect on the agreed-upon exchange of performances.

Proof of Claim Disallowance Order, 33-34.

[57] *See* Proof of Claim Disallowance Order, 32-33 n. 120 (where the court found that "HCRE has not shown that there was a lack or failure of consideration on behalf of Highland in connection with the Amended LLC Agreement. . . . Under Delaware law, the courts 'limit [their] inquiry into consideration to its existence and not whether it is fair or adequate,' . . . . '[E]ven if the consideration exchanged is grossly unequal or of dubious value, the parties to a contract are free to make their bargain.' (citations omitted). Here, it is undisputed that Highland made a cash capital contribution of $49,000, that Highland was a jointly and severally liable coborrower under the KeyBank Loan, and that SE Multifamily (and HCRE), having no employees of their own, relied on Highland's employees to conduct business. Thus, HCRE's claim, to the extent it is based on alleged lack and/or failure of consideration fails.").

> that are known to you, then you make amendments to reflect the contributions of those partners, whether monetary or otherwise . . . [a]nd my understanding is I can't do that right now."[58]

McGraner testified that "despite Mr. Dondero being in control of both HCRE and Highland prior to the bankruptcy filing, and despite 'all of the fears [he] had [related to Highland's bankruptcy filing],' HCRE made no effort to amend the agreement before the bankruptcy or post-bankruptcy (because 'we didn't think it would be worth it')[ ][59] [and] 'because [it] hoped that the issues that caused the bankruptcy filing would resolve themselves.'"[60] This is not a good-faith basis for filing and prosecuting the Proof of Claim, and it exhibits a willful abuse of the bankruptcy claims process by NexPoint/HCRE.

In summary, the admissions by Dondero and McGraner in their Trial testimony made clear that NexPoint/HCRE never had a factual or legal basis for the Proof of Claim. NexPoint/HCRE's principals knew, at the time of filing and through its prosecution of the Proof of Claim, that there was no factual basis for its claim of rescission, reformation, and/or modification of the Amended LLC Agreement to dispossess Highland of some or all of its 46.06% membership interest in SE Multifamily. This clearly and convincingly constitutes bad faith by NexPoint/HCRE and a willful abuse of the judicial process.

### *C. Reimbursement of Attorneys' Fees and Costs Incurred by Highland in the Proof of Claim Litigation Is an Appropriate Sanction for NexPoint/HCRE's Bad Faith*

Having found and concluded by clear and convincing evidence that NexPoint/HCRE filed and prosecuted (and attempted withdrawal of) its Proof of Claim in bad faith and willfully abused the judicial process, this court may use its inherent powers under Bankruptcy Code section 105(a)

---

[58] Proof of Claim Disallowance Order, 27 (citing Trial Tr. 114:24-115:16, 118:6-15).

[59] *Id.* (citing Trial Tr. 121:24-122:9).

[60] *Id.* at 28 (citing Trial Tr. 122:20-125:21).

to sanction it for such conduct. Reimbursement of the opposing party's fees and costs incurred in responding to a bad faith filing or willful abuse of the judicial process has been upheld as an appropriate form of sanctions. *See Cleveland Imaging*, 26 F.4th at 294 (upholding the bankruptcy court's sanction order that required the parties who were found to have filed bankruptcy petitions in bad faith to reimburse the fees incurred by a post-confirmation litigation trust in responding to the bad faith filing); *Carroll v. Abide (In re Carroll)*, 850 F.3d 811 (5th Cir. 2017) (bankruptcy court did not abuse its discretion in ordering the debtors to "pay $49,432, which represents the amount of attorneys' fees incurred by [the bankruptcy trustee] in responding to certain instances of the [debtors'] bad faith conduct."); *In re Yorkshire, LLC*, 540 F.3d 328, 332 (5th Cir. 2008) (affirming bankruptcy court's use of its inherent powers to issue monetary sanctions for bad faith filing that were, in part, based upon the opposing parties' attorneys' fees and costs "following an extensive hearing in which the bankruptcy court heard testimony from the parties and witnesses and made certain credibility determinations," and "made specific findings that Appellants acted in bad faith."); *In re Paige*, 365 B.R. 632, 637-399 (Bankr. N.D. Tex. 2007) (awarding attorneys' fees against debtor for their "bad faith" conduct during bankruptcy case, noting "[t]he sanction here is derived from the Court's inherent power to sanction" under section 105(a)); *In re Lopez*, 576 B.R. 84, 93 (S.D. Tex. 2017) (same). Any sanction imposed pursuant to a bankruptcy court's inherent powers for bad faith conduct or willful abuse of the judicial process "must be compensatory rather than punitive in nature." *In re Lopez*, 576 B.R. at 93 (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. 101, 108 (2017) (citing *Mine Workers v. Bagwell*, 512 U.S. 821, 826-30 (1994)). "[A] sanction counts as compensatory only if it is 'calibrate[d] to [the] damages caused by' the bad-faith acts on which it is based[,]" and "[a] fee award is so calibrated if it covers the legal bills that the litigation abuse occasioned." *Goodyear Tire & Rubber*, 581 U.S.

at 108 (quoting *Bagwell*, 512 U.S. at 834). The fee award must be "limited to the fees the innocent party incurred solely because of the misconduct—or put another way, to the fees that party would not have incurred but for the bad faith." *Id.* (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. at 104). The "'causal link' between the sanctionable conduct and the opposing party's attorney's fees" must be established "through a 'but-for test:' to wit, the complaining party may only recover the portion of fees that they would not have paid 'but-for' the sanctionable conduct." *Id.* (citing *Goodyear Tire & Rubber*, 581 U.S. at 108-109 (citing *Fox v. Vice*, 563 U.S. 826, 836 (2011)).

Here, as earlier noted, Highland has requested, as a sanction, reimbursement of its attorneys' fees and costs incurred by it in responding to NexPoint/HCRE's filing and prosecution of its Proof of Claim. Specifically, Highland seeks reimbursement of an aggregate amount of **$825,940.55**, consisting of

- **$782,476.50** in attorneys' fees charged by its primary bankruptcy counsel, PSZJ, for the period August 1, 2021 through December 31, 2022, for work performed in connection with the litigation of the Proof of Claim;[61]
- **$16,164.05** in third-party expenses for court reporting services provided in connection with the Proof of Claim litigation;[62] and,

[61] *See* Morris Declaration, 3-4, at ¶¶ 8-13, and Ex. F. As stated in the Morris Declaration, the $782,476.50 amount does not include any fees relating to the Disqualification Motion or any fees that PSZJ concluded were inadvertently coded by a timekeeper to the NexPoint/HCRE Claim Objection category "or that were otherwise unrelated to services rendered in connection with the Proof of Claim litigation." *Id.*, 3-4, at ¶¶ 11 and 12. By way of specific example, Morris stated that "in 2022 and 2023 we charged Highland for services rendered in connection with our unsuccessful attempts to obtain SE Multifamily's books and records but excluded those charges here because they do not directly relate to the litigation of HCRE's Proof of Claim; Highland is seeking those fees in the Delaware Chancery Court where Highland was forced to commence an action against HCRE for specific performance (Case No. 2023-0493-LM))." *Id.*, 4, at ¶ 12.

[62] *See id.*, 4, at ¶ 14, and Ex. G.

- **$27,300.00** in attorneys' fees charged by David Agler for providing Highland with specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim.[63]

NexPoint/HCRE challenges Highland's request for reimbursement of its fees on several bases. ***First***, it argues that it cannot be ordered to reimburse the fees and expenses incurred by Highland ***after*** NexPoint/HCRE attempted to withdraw its Proof of Claim because they do not satisfy the "but for" test for establishing a "causal link" between those fees and costs and NexPoint/HCRE's filing and pursuit of its Proof of Claim—that Highland cannot show that "but for" NexPoint/HCRE's filing and prosecution of its Proof of Claim, Highland would not have incurred those fees and costs. NexPoint/HCRE urges the court to adopt its narrative of the proceedings that "instead of taking a win, [Highland] and its lawyers chose to generate fees to get the same result" and thus Highland's attorneys' efforts were "totally unnecessary" and a "waste of time and resources" that was "the fault of [Highland], not [NexPoint/HCRE]."[64] NexPoint/HCRE states in its Response that "[h]ere, ***it is undisputed*** that, had [Highland] agreed to the withdrawal of the Proof of Claim many months ago – before engaging in costly additional discovery and preparing for and attending a trial on the merits of the claim – [Highland] would have been exactly in the same position that it is in now, but at far less expense" and further that "[t]he real, practical difference between refusing to consent to the withdrawal of [NexPoint/HCRE]'s Proof of Claim and instead prosecuting the Objection to its end is several hundred thousand dollars in attorneys' fees" and, thus, "[t]he Motion abjectly fails any 'but–for' analysis."[65]

---

[63] *See id.*, 4-5, at ¶¶ 15 and 16, and Ex. H. A summary of the aggregate fees and expenses of which Highland is seeking reimbursement in the Sanctions Motion is attached as Exhibit I to the Morris Declaration. *See id.*, 5, at ¶ 17, and Ex. I.

[64] Response, 2.

[65] Response, 20, at ¶60 (emphasis added).

The court disagrees with NexPoint/HCRE's "narrative" and its view of the evidence established at Trial. Highland ***does*** dispute NexPoint/HCRE's contention that, if only it had allowed it to withdraw its Proof of Claim and accepted a "win," that Highland would have been "exactly in the same position that it is in now [after a Trial and ruling on the merits of the Proof of Claim], but at far less expense." The court does as well. As Highland has argued, NexPoint/HCRE's Motion to Withdraw was itself filed in bad faith. Highland was forced to oppose the withdrawal of the Proof of Claim because NexPoint/HCRE would not agree to a withdrawal, with prejudice, to NexPoint/HCRE's right to challenge Highland's title to its 46.06% membership interest in SE Multifamily in the future.[66] The evidence clearly and convincingly established that any "win" or "victory" that Highland would have obtained through the withdrawal of the Proof of Claim[67]

> would have been pyrrhic because ***HCRE—in a clear act of bad faith—tried to withdraw its Proof of Claim while preserving the substance of it claims for another day***. Had HCRE's duplicitous strategy been successful, Highland's interest in SE Multifamily would have remained subject to challenge—an untenable result for anyone, let alone a post-confirmation entity seeking to implement a court-approved asset monetization plan.

The court finds and concludes, as argued by Highland, that there is clear and convincing evidence here that the fees and costs incurred by it, after NexPoint/HCRE sought to withdraw its Proof of Claim (*i.e.,* to prepare for the Trial and prosecute its objection to the Proof of Claim through a trial and ruling on the merits), would not have been incurred "but for" NexPoint/HCRE's bad faith. As pointed out by Highland and as noted above,[68] the court did not enter the Proof of Claim Disallowance Order in December 2022 in a vacuum. Rather, the court denied

[67] Response, 5, at ¶18.

[68] *See supra* at pages 16-17.

NexPoint/HCRE's Motion to Withdraw only ***after:*** (1) the court had expressed concerns that the timing and context of its filing of its Motion to Withdraw suggested gamesmanship on its part, and that the integrity of the bankruptcy system and claims process would be in jeopardy if the court were to simply allow withdrawal, without protecting Highland from future challenges to its membership interest in SE Multifamily (particularly, after Highland had spent hundreds of thousands of dollars to that point in objecting to the Proof of Claim); and (2) NexPoint/HCRE refused to agree to language in an order that would alleviate these expressed concerns. The court—having now made an express finding that NexPoint/HCRE's filing of its Motion to Withdraw was in bad faith and part of its willful abuse of the bankruptcy claims process that began with the filing of its Proof of Claim in April 2020—now expressly finds that the fees and costs incurred by Highland after NexPoint/HCRE filed its Motion to Withdraw were necessary for Highland to protect its interests and would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

***Second***, NexPoint/HCRE objects to Highland's fees ($809,776.50) and expenses ($16,164.05) as being "*per se* excessive for a single proof of claim objection."[69] Highland argues that "[s]pending less than 5% of the value of an asset (according to Mr. Dondero's family trust) to obtain good, clear title is economically rational and consistent with the Claimant Trust's duty to maximize value for the benefit of the Claimant Trust's beneficiaries." Per the Morris Declaration, Highland only seeks reimbursement of expenses and fees charged to Highland for expenses incurred and work performed in litigating the Proof of Claim (but—as noted earlier—specifically excluding any fees charged relating to the Disqualification Motion). The court agrees with Highland and finds that the fees and expenses incurred by it in objecting to the Proof of Claim,

[69] Response, 10, ¶34.

including the fees incurred ***after*** NexPoint/HCRE sought to withdraw its Proof of Claim, were reasonable and necessary for Highland to protect a valuable asset—it's 46.06% interest in SE Multifamily—and, thus, they are not excessive.

***Third***, NexPoint/HCRE complains, in its Response, that the fees charged by PSZJ were unreasonable and excessive because the PSZJ invoices show that it was seeking reimbursement for fees charged by "layers of timekeepers whose identities and roles have not been disclosed."[70] NexPoint/HCRE points out three professionals (two of whom billed one hour or less) who were identified in PSZJ's invoices only by their initials.[71] In its Reply, Highland identified the timekeepers by name—as a litigator who billed one hour of time; a bankruptcy attorney who billed 0.6 hours of time; and a bankruptcy partner who billed 15.1 hours of time—all of whom were "called upon to provide discrete support."[72] Collectively, the three previously "unidentified" attorneys charged just 0.023% of the total fee request.[73] PSZJ's identification of the "unidentified timekeepers" and explanation of the work performed by them satisfies the court that these fees were reasonable and necessary fees incurred as a direct result of NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim. The court rejects NexPoint/HCRE's suggestion that PSZJ overstaffed and overbilled the file because there were "layers of timekeepers." As pointed out in Highland's Reply, "over 82% of the charges related to one litigation partner . . . , one litigation associate . . . , and one paralegal" and "[t]wo other lawyers who have been on the Pachulski team since the inception of this engagement . . . billed relatively modest amounts of time over the course

[70] *Id.*, 13, ¶45.
[71] *Id.*, 12, ¶38.
[72] Reply, 9, ¶28.
[73] *Id.*

of this prolonged litigation."[74] There is simply no factual basis to support a conclusion that the matter was overstaffed.

***Fourth***, NexPoint/HCRE objects to $9,840 charged by two attorneys for travel time,[75] while acknowledging that those attorneys' non-working travel time was billed at half of the attorneys' regular hourly rate.[76] As pointed out by Highland in its Reply, Highland agreed to pay for travel time in its pre-petition engagement letter, so those "charges cannot come as a surprise to Mr. Dondero."[77] The court takes judicial notice of the fact that attorneys charging half of their hourly rates for non-working travel time, as PSZJ did here, pursuant to its engagement letter with Highland that was approved when the court authorized the retention of PSZJ as counsel for the Debtor, is common practice and is a commonly approved term of engagement of professionals in bankruptcy cases. The $9,840 charged by two attorneys for travel time in this matter was a reasonable and necessary expense incurred by Highland in responding to NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.

***Fifth***, and finally, NexPoint/HCRE objects to the fees charged by David Agler (39 hours of work performed at $700 per hour) for providing Highland with tax advice in August 2022, on the basis that the invoice attached as Exhibit H to the Morris Declaration "indicated that it was 'unbilled' work" and that "[w]hatever work he did, it did not manifest itself in the proceedings."[78] Highland pointed out that it ***had*** explained, in the Morris Declaration, that Mr. Agler provided "specialized tax advice concerning SE Multifamily and other matters related to the Proof of

[74] *Id.*, 9, ¶28 n. 5.

[75] Response, 12, ¶37.

[76] *Id.*, 11, ¶36 (Table 1).

[77] Reply, 9-10, ¶29.

[78] Response, 12, ¶42.

Claim."[79] Highland provided a more detailed description of the services provided by Mr. Agler and why those services were necessary in its Reply: "Mr. Agler provided his services in August 2022 in conjunction with Highlands's deposition preparation, including the deposition of SE Multifamily's accountant. These services were necessary because—as Mr. Dondero and Mr. McGraner admitted and as the evidence showed—Highland's participation in SE Multifamily was expected to provide substantial tax benefits."[80] The court finds that the fees charged by David Agler for work performed for Highland that are set forth in Exhibit H to the Morris Declaration were reasonable and necessary expenses incurred by Highland in responding to HCRE's bad faith conduct and that they would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

The court has determined that the full amount of fees – $809,776.50 – and costs – $16,164.05 – that are set forth in detail in Exhibits F through H (and summarized on Exhibit I) of the Morris Declaration were reasonable and necessary for Highland to respond to, and would not have been incurred "but for," NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim, which the court has found to have been a willful abuse by NexPoit/HCRE of the judicial process. Under Fifth Circuit precedent, it is appropriate for the court, in the use of its inherent power under Bankruptcy Code § 105(a), to order NexPoint/HCRE, as a compensatory sanction for its bad faith conduct and willful abuse of the judicial process, to reimburse Highland the full amount of fees and costs requested by Highland, which, in the aggregate, total $825,940.55. NexPoint/HCRE's objections to such amounts as excessive, unnecessary, unreasonable, or unrelated to NexPoint/HCRE's bad faith conduct, are overruled.

---

[79] Reply, 10, ¶30 (citing Morris Declaration, ¶15).

[80] *See id.* (citing Morris Declaration, Ex. [E] (Trial Transcript) 43:2-14; 83:17-84:2; 191:23-193:21 (citing to testimony and tax returns that were admitted into evidence)).

## V. CONCLUSION AND ORDER

In summary, the court has determined that NexPoint/HCRE was given adequate notice and an opportunity to respond to the Sanctions Motion and that there is clear and convincing evidence that it filed and prosecuted its Proof of Claim, including its eleventh-hour attempt to withdraw its Proof of Claim, in bad faith and that it willfully abused the judicial process. Such conduct directly caused Highland to incur $825,940.55 in fees and expenses. In the exercise of its inherent power under Bankruptcy Code § 105(a), the court will grant Highland's Sanctions Motion and order NexPoint/HCRE to reimburse Highland for those fees and expenses as an appropriate sanction for NexPoint/HCRE's bad faith or willful abuse of the judicial process.

Accordingly, and based on the foregoing findings of fact and conclusions of law, including those findings and conclusions in this court's Proof of Claim Disallowance Order, which has been incorporated herein by reference,

**IT IS ORDERED** that the Sanctions Motion [Dkt. No. 3851] be, and hereby is **GRANTED**;

**IT IS FURTHER ORDERED** that, in order to compensate Highland for loss and expense resulting from NexPoint/HCRE's bad faith and willful abuse of the judicial process, in filing and prosecuting its Proof of Claim, NexPoint/HCRE is hereby directed to pay Highland the compensatory sum of **$825,940.55**.

**ORDER DENYING MOTION OF NEXPOINT REAL ESTATE PARTNERS, LLC (F/K/A HCRE PARTNERS, LLC) SEEKING RELIEF FROM ORDER PURSUANT TO FED. R. OF BANKR. P. 9024 AND FED. R. CIV. P. 60(b)(1) & (6)**

On March 18, 2024, NexPoint Real Estate Partners, LLC (f/k/a HCRE Partners, LLC) ("HCRE") filed its *Motion for Relief from Order* (hereinafter, the "Rule 60(b) Motion"),[1] seeking reconsideration of and relief from this court's *Memorandum Opinion and Order Granting Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners, LLC (f/k/a HCRE Partners, LLC) in connection with Proof*

[1] Bankr. Dkt. No. 4040.

1934054240521000000000001

*of Claim # 146* ("HCRE Sanctions Order").[2] The parties stipulated to a briefing schedule and that the parties would seek a setting for a hearing ("Hearing") on the Rule 60(b) Motion. On April 22, 2024, Highland Capital Management, L.P. ("Highland" or "Reorganized Debtor") filed its response ("Response") in opposition to the Rule 60(b) Motion,[3] and HCRE filed its reply ("Reply") thereto on May 1, 2024.[4] The parties presented oral argument at the Hearing that was held on May 16, 2024.

**HCRE and its Proof of Claim.** By way of background, HCRE is an entity whose sole manager is James D. Dondero, the former Chief Executive Officer of the Reorganized Debtor. HCRE and Highland were essentially friendly business partners prepetition—not terribly surprising, as they each had the same chief executive. In any event, HCRE and Highland were equity owners/members of a limited liability company named SE Multifamily Holdings, LLC ("SE").[5] SE owned valuable real estate. SE was only formed in March 2019 and was governed by an amended LLC Agreement ("SE's LLC Agreement"). After Highland filed Chapter 11 in October 2019, and later became managed by three new independent directors and a new CRO and then new CEO, James Seery, Highland and HCRE were no longer amicable business partners. In fact, HCRE filed a proof of claim in Highland's bankruptcy case (on April 8, 2020), for an unliquidated sum, which was electronically signed by Mr. Dondero. The proof of claim asserted that HCRE had a claim against Highland to reduce Highland's equity ownership and rights in SE and, further, that it had grounds to reform, rescind, or modify SE's LLC Agreement based on a mutual mistake.[6] Two years and four months after HCRE filed the proof of claim, on August 12,

[2] Bankr. Dkt. Nos. 4038 & 4039.
[3] Bankr. Dkt. No. 4052.
[4] Bankr. Dkt. No. 4055.
[5] Note that there was also an unrelated minority owner (6%) in SE called BH Equities, LLC.
[6] Claim No. 146 & Bankr. Dkt. No. 1212.

2022, and after significant discovery and litigation regarding the proof of claim, HCRE moved to withdraw the proof of claim.

**HCRE's Motion to Withdraw its Proof of Claim.** There's a rule for withdrawing a proof of claim: Fed. R. Bankr. P. 3006. The bankruptcy court set a hearing, on September 12, 2022, as required by this rule, on HCRE's motion to withdraw the proof of claim ("Sept. 12, 2022 Proof of Claim Withdrawal Hearing").[7] After extensive discussion on the record, the bankruptcy court denied HCRE permission to withdraw its proof of claim—primarily because HCRE declined to withdraw the proof of claim with prejudice to any future litigation in any forum pertaining to the issues raised in the proof of claim. In other words, HCRE would not state unequivocally that it would not re-urge in the future its alleged present entitlement to reform or rescind SE's LLC Agreement. To be clear, HCRE expressed that it would withdraw its proof of claim with prejudice to re-asserting it in the bankruptcy court, and with prejudice to filing any appeal of a bankruptcy court order on same. ***But this type of withdrawal meant little—because the deadline/bar date for filing proofs of claim in the Highland bankruptcy case had passed 16 months earlier anyway***. HCRE would be time-barred from asserting its proof of claim at this late stage in the Highland bankruptcy case. The bankruptcy court was concerned that HCRE was attempting to preserve its present claims against Highland for use in the future in a different forum.[8] If there was going to be litigation over these issues, Highland thought it was time to get on with such litigation. The bankruptcy court was persuaded that, indeed, Highland would be prejudiced if HCRE were allowed to withdraw its proof of claim without clear and unequivocal language in the order that HCRE would not be able to assert its claims and/or theories regarding rescission and/or

[7] Bankr. Dkt. No. 3519 (Transcript).
[8] At the time, it appeared that litigation might be on the horizon in state court involving these parties and regarding business records production.

reformation of the SE LLC Agreement in any future litigation in any court or forum (after all, future litigation is not what a "fresh start" of bankruptcy is about). Thus, the bankruptcy court issued its Order denying withdrawal of the HCRE proof of claim on September 14, 2022 ("Order Denying Withdrawal of HCRE Proof of Claim").[9]

**Trial on the HCRE Proof of Claim.** Thereafter, the bankruptcy court held a trial on November 1, 2022, on the merits of HCRE's proof of claim and ultimately disallowed the proof of claim ("Claim Disallowance Order").[10] There was no evidence presented of any sort of mistake, mutual or otherwise, in connection with SE's LLC Agreement or any other basis for reformation or rescission of SE's LLC Agreement. Moreover, Mr. Dondero testified that he had not even read the HCRE proof of claim or conducted any due diligence regarding the HCRE proof of claim before authorizing his electronic signature to be affixed to it. HCRE did not appeal the Claim Disallowance Order.

**Highland Motion for Sanctions Against HCRE.** Highland thereafter filed a written motion for sanctions pertaining to HCRE conduct surrounding the proof of claim—seeking a bad faith finding and reimbursement of Highland's attorney's fees caused by HCRE's actions. Several months later (after, among other things, renewed attempts at global mediation of the remaining issues in the Highland bankruptcy case), the bankruptcy court granted Highland's motion for sanctions, after a contested hearing ("Order Imposing Sanctions").[11] The Order Imposing Sanctions (which shifted to HCRE approximately $825,000 of the Reorganized Debtor's attorney's fees and expenses incurred by Highland in connection with the HCRE proof of claim—which was less than the entire amount that the Reorganized Debtor had incurred regarding the HCRE proof

[9] Bankr. Dkt. No. 3518.
[10] Bankr. Dkt. No. 3766 & 3767.
[11] Bankr. Dkt. No. 4039.

of claim during the more than three years since it was filed)[12] is the order now subject to HCRE's Rule 60(b) Motion.

**The Rule 60(b) Motion.** HCRE argues, primarily, that the bankruptcy court made two core, related "mistakes" in connection with its Order Imposing Sanctions that it should correct pursuant to Rule 60(b)(1). First, the bankruptcy court allegedly made a "mistake" in refusing to permit HCRE to withdraw its proof of claim based on a mistaken belief by the bankruptcy court that HCRE was not willing to withdraw it with prejudice for all purposes. HCRE now stresses that it was, indeed, willing to withdraw the proof of claim with prejudice to any future litigation in any court—not just in the bankruptcy court. Second, HCRE further argues that the bankruptcy court's mistake of fact on this point caused it to erroneously require an unnecessary trial on the proof of claim—the result of which was Highland incurring/billing unnecessary fees relating to the proof of claim. The bankruptcy court then shifted those fees to HCRE in the Order Imposing Sanctions. HCRE asserts that it is incorrect as a matter of law to conclude that these fees would not have been incurred "but for" HCRE's bad faith conduct. *See Goodyear Tire & Rubber v. Haeger*, 581 U.S. 101, 108 (2017). Therefore, the bankruptcy court should not have shifted them to HCRE as part of the Order Imposing Sanctions.

The court denies the Rule 60(b) Motion. To be sure, this court does not disagree with HCRE that a mistake of fact ***or*** mistake of law can be grounds for granting a Rule 60(b) motion. *See Kemp v. United States*, 596 U.S. 528, 535-36 (2022). The court also does not disagree with

[12] Highland sought attorney's fees and expenses incurred relating to the HCRE proof of claim from the time period of August 1, 2021 through December 31, 2022. The HCRE proof of claim was filed April 8, 2020. Highland not only did not seek any reimbursement for any time and expense for the first 16 months after HCRE filed its proof of claim, but Highland ultimately did not seek (and the bankruptcy court did not allow) any fees that Highland incurred in successfully moving to disqualify HCRE's counsel in this matter, Wick Phillips (note: Wick Phillips was actually the second law firm that HCRE retained pertaining to its proof of claim; a different law firm originally filed the HCRE proof of claim (Bonds Ellis), followed by Wick Philips, and then the Hoge & Gameros, L.L.P. law firm took over, and now the law firm of Reichman Jergensen Lehman & Feldberg LLP is representing HCRE in this matter.

HCRE that an award of fees relating to sanctionable conduct must be limited to fees that would not have been incurred "but for" the sanctionable conduct. *Goodyear Tire*, 581 U.S. 101 at 104, 108 (the "causal link" between the sanctionable conduct and the opposing party's attorney's fees must be established through a "but-for" test; the complaining party may only recover the portion of fees that would not have been paid but-for the sanctionable conduct). However, the bankruptcy court does not believe it made a mistake of fact or of law with regard to either of these points.

First, the bankruptcy court does not believe it made a mistake of fact in interpreting what HCRE was and was not willing to do in connection with its motion to withdraw its proof of claim at the Sept. 12, 2022 Proof of Claim Withdrawal Hearing. HCRE used hedging language, to the extent that it appeared to be willfully obtuse on this point. It was not willing to withdraw the proof of claim ***with prejudice to ever litigating the issues raised in the proof of claim***. It was not future conduct and future theories that HCRE was worried about preserving in future litigation, and the bankruptcy court was certainly not engaging in a mission to ban all future litigation between these parties in perpetuity. The sole concern was about ***claims/theories in the HCRE proof of claim*** being resurrected somewhere else in the future. The transcript of the September 12, 2022 hearing is clear that there was much discussion on this point, and the court even gave the parties a 24-hour break to go talk outside the presence of the court—to hopefully wordsmith an agreed order withdrawing the proof of claim. Apparently, the parties could not reach an agreement on this relatively simple concept. So, the court would not allow withdrawal of the HCRE proof of claim without clarity that the proof of claim issues would not be raised in future litigation somewhere. The court set a trial on the merits of the proof of claim a few weeks later, as the parties were close to being trial-ready. Moreover, a review of the September 12, 2022 Transcript reflects that the bankruptcy court focused on multiple factors in disallowing withdrawal of the HCRE proof of

claim—the so-called *Manchester* factors—not simply the failure of HCRE to withdraw the proof of claim with prejudice to all future litigation. *Manchester, Inc. v. Lyle (In re Manchester, Inc.)*, 2008 Bankr. LEXIS 3312, *11-12 (Bankr. N.D. Tex. Dec. 19, 2008) (the *Manchester* factors include: (1) the movant's diligence in bringing the motion to withdraw, (2) any "undue vexatiousness" on the part of the movant, (3) the extent to which the suit has progressed, including the effort and expense undertaken by the non-moving party to prepare for trial, (4) the duplicative expense of re-litigation, and (5) the adequacy of the movant's explanation for the need to withdraw the claim). In other words, there were several factors that caused the bankruptcy court to deny withdrawal of the HCRE proof of claim.

Moreover, even if the court did make a mistake of fact in interpreting what HCRE was and was not willing to do (i.e., in deciphering what "with prejudice" did or did not mean)—and, in relying on this as a basis to deny HCRE permission to withdraw its proof of claim--wouldn't this have been an error of the bankruptcy court in entering its Order Denying Withdrawal of HCRE Proof of Claim? This order—entered September 14, 2023—was not appealed. Nor was the subsequent Order Disallowing Claim. In some ways, the Rule 60(b) Motion smacks of being a collateral attack on the Order Denying Withdrawal of Proof of Claim which was never appealed. Had there been an appeal of it, it would have been apparent that it was a multi-faceted decision, based on many factors (i.e., the *Manchester* factors)—not merely the "with prejudice" issues.[13]

Which leads to the last issue—was there a mistake of law in allowing reimbursement of Highland's fees and expense incurred ***after*** the Order Denying Withdrawal of HCRE Proof of Claim? In particular, over $300,000 of fees were incurred by Highland (and shifted by the court in the Order Imposing Sanctions) associated with the preparation for and trial on the HCRE proof

[13] Bankr. Dkt. No. 3519 (Transcript, pp. 51-55).

of claim. Was this a mistake of law? Only if the bankruptcy court made a mistake in ordering that there would be a trial on the HCRE proof of claim (i.e., only if the bankruptcy court erred in entering its Order Denying Withdrawal of HCRE Proof of Claim, and, as noted above, that order was not appealed by HCRE). The court never would have ordered trial on the merits if not for HCRE's conduct (beginning with its bad faith filing of its proof of claim and including refusing to withdraw its proof of claim with prejudice to all future litigation on the issues raised in the proof of claim). Thus, Highland would not have incurred this $300,000+ in fees and expenses "but-for" HCRE's conduct.

Having considered the Rule 60(b) Motion, the Response, the Reply, and the argument of the parties, the court finds that there is no basis or justification for granting HCRE the relief requested in its Rule 60(b) Motion. Any arguments made in the Rule 60(b) Motion not herein addressed are denied.

Accordingly,

**IT IS ORDERED** that the Rule 60(b) Motion be, and hereby is, **DENIED**.

## I. INTRODUCTION

Before this court is a sanctions motion[1] filed by Highland Capital Management, L.P. ("Highland," the "Debtor," or the "Reorganized Debtor"). [2] The motion seeks sanctions against

[1] *Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in connection with Proof of Claim 146* ("Sanctions Motion"). Dkt. No. 3851.

[2] Highland is a reorganized debtor under the confirmed *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* (the "Plan"). Dkt. No. 1808. *See Order (I) Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (II) Granting Related Relief* ("Confirmation Order"). Dkt. No. 1943.

NexPoint Real Estate Partners, LLC, f/k/a HCRE Partners, LLC ("NexPoint/HCRE") for its filing, prosecution, and then abrupt attempt to withdraw a meritless proof of claim (after almost three years of protracted litigation).

NexPoint/HCRE filed the subject proof of claim, #146 on the claims register ("Proof of Claim"), on April 8, 2020.[3] The Proof of Claim was signed electronically by James D. Dondero ("Dondero") and was prepared and filed by a law firm that was representing him personally at that time.[4] The Proof of Claim was not in a liquidated amount and was somewhat ambiguous. It stated in an Exhibit A thereto, that NexPoint/HCRE, which was a limited partner, along with Highland, in a limited liability company called SE Multifamily Holdings, LLC ("SE Multifamily")—an entity which owned valuable real estate—"may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor" and added that Highland's equity interest "may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor." NexPoint/HCRE stated that it would update the Proof of Claim to provide the exact amount of it "in the next ninety days" but never did.

Highland objected to the Proof of Claim. Thereafter, NexPoint/HCRE (while still not providing any liquidated amount of its Proof of Claim) refined its position therein to argue that the organizational documents relating to SE Multifamily improperly allocated the ownership percentages of the equity members, due to mutual mistake, lack of consideration, and/or failure of consideration. NexPoint/HCRE essentially sought to reform, rescind, and/or modify the SE Multifamily limited liability company agreement (and possibly other documentation) to give Highland less ownership (or no ownership interest) in SE Multifamily and, accordingly,

[3] Claim No. 146.

[4] Bonds Ellis Eppich Schafer Jones LLP.

NexPoint/HCRE would have a larger ownership interest in SE Multifamily. Next, there occurred years of litigation between the parties, including: (a) a skirmish over Highland's motion to disqualify NexPoint/HCRE's newest counsel (*i.e.,* a law firm that had represented both Highland and NexPoint/HCRE in transactions involving SE Multifamily), which was ultimately granted, and (b) an eleventh-hour attempt by NexPoint/HCRE to withdraw its Proof of Claim (by its newest law firm—this one #3 regarding the Proof of Claim), on the eve of depositions of its principals, including Dondero, and just prior to a trial on the merits. Highland objected to the withdrawal. The court held a hearing on that, as required by Bankruptcy Rule 3006. The court declined to allow withdrawal of the Proof of Claim, when the parties could not stipulate to an agreed form of order (*i.e.,* NexPoint/HCRE was unwilling to withdraw the Proof of Claim ***with prejudice*** to asserting its claims again in any future litigation in any forum).

Painfully, after all this, an evidentiary hearing was held on the merits of the Proof of Claim ("Trial") on November 1, 2022. During the Trial, Highland made an oral motion for a bad faith finding and assessment of attorneys' fees against NexPoint/HCRE in connection with its filing and prosecution of the Proof of Claim ("Oral Sanctions Motion"), which this court took under advisement, along with the consideration of the Proof of Claim as a whole.

On April 28, 2023, this court entered a 39-page memorandum opinion and order[5] sustaining Highland's objection to NexPoint/HCRE's Proof of Claim, but denying Highland's Oral Sanctions Motion, without prejudice, ***as procedurally deficient in that it was made orally and for the first time during the Trial.*** Thus, the Oral Sanctions Motion failed to provide NexPoint/HCRE sufficient notice and an opportunity to respond and, therefore, did not satisfy concerns of due process.

[5] *See Memorandum Opinion and Order Sustaining Debtor's Objection to, and Disallowing, Proof of Claim Number 146 [Dkt. No. 906]* ("Proof of Claim Disallowance Order"). Dkt. No. 3767.

On June 16, 2023, Highland filed the instant Sanctions Motion, setting forth the legal and factual bases for the relief sought. The Sanctions Motion specifically seeks a finding of bad faith against NexPoint/HCRE and reimbursement of Highland's attorneys' fees and costs, as a sanction for NexPoint/HCRE's filing and prosecution of the Proof of Claim.

After due notice to NexPoint/HCRE, and a hearing held January 24, 2024 on the Sanctions Motion ("Sanctions Motion Hearing"), and after consideration of the pleadings filed, evidence in the record, and arguments of counsel, the court finds, for the reasons detailed in the findings of fact and conclusions of law below,[6] that NexPoint/HCRE acted in bad faith and willfully abused the judicial process in filing, prosecuting, and then pursuing an eleventh-hour withdrawal of its Proof of Claim. Accordingly, NexPoint/HCRE will be required, as a sanction, to reimburse Highland's attorneys' fees and costs (totaling **$825,940.55)** incurred in connection with its objection to the Proof of Claim.

## II. JURISDICTION

This court has jurisdiction and authority to determine and enter a final order in this matter, pursuant to 28 U.S.C. §§ 157(b)(1) and (b)(2)(A), (B), and (O) and 1334.[7]

## III. BACKGROUND, PROCEDURAL HISTORY, AND FINDINGS OF FACT

### *A. Incorporation Herein of Proof of Claim Disallowance Order*

As noted above, this court, on April 28, 2023, issued its 39-page Proof of Claim Disallowance Order, sustaining Highland's objection to NexPoint/HCRE's Proof of Claim

[6] To the extent that any of the findings of fact should be construed as a conclusion of law, it shall be construed as such. To the extent that any of the conclusions of law should be construed as a finding of fact, it shall be construed as such.

[7] The Fifth Circuit recently confirmed the jurisdiction and authority of bankruptcy courts to issue sanctions orders in connection with bankruptcy cases and proceedings over which they exercise jurisdiction, because they are in the nature of ***civil contempt*** orders—which are considered "part of the underlying case" – "because the bankruptcy court had jurisdiction over the [ ] bankruptcy case, it had jurisdiction to enter the sanctions order, too." *Kreit v. Quinn (In re Cleveland Imaging and Surgical Hospital, L.L.C.)*, 26 F.4th 285, 294 (5th Cir. 2022) (cleaned up).

following the Trial on same. The Proof of Claim Disallowance Order sets forth extensive procedural history, findings of fact, and conclusions of law pertaining to NexPoint/HCRE's filing and prosecution of its Proof of Claim, which Highland alleges in the instant Sanctions Motion was conducted in bad faith. NexPoint/HCRE did not appeal the Proof of Claim Disallowance Order. Thus, it is a final and non-appealable order.[8] The court hereby incorporates by reference the Proof of Claim Disallowance Order (and all of the findings and conclusions therein), as if set forth verbatim herein.[9]

***B. Highland Files Sanctions Motion***

On June 16, 2023, Highland filed the instant Sanctions Motion. It was supported with a Declaration of John A. Morris in support of the Sanctions Motion ("Morris Declaration")[10] and 431 pages of attached exhibits as set forth in the following table:

| | |
|---|---|
| Exhibit A | NexPoint/HCRE's Proof of Claim[11] |
| Exhibit B | Highland's Objection to NexPoint/HCRE's Proof of Claim[12] |
| Exhibit C | NexPoint/HCRE's Response to Objection to Claim[13] |

[8] The Proof of Claim Disallowance Order is one of the few bankruptcy court orders issued in this bankruptcy case that was not appealed by Dondero or a Dondero-controlled entity. Although the court has not counted the exact number of appeals filed by Dondero and/or Dondero-controlled entities in this bankruptcy case and related proceedings, this court takes judicial notice of information contained in a vexatious litigant motion filed by Highland in the district court (before Judge Brantley Starr), reflecting that Dondero and his controlled entities have "filed over 35 total appeals." *See Highland Capital Management, L.P.'s Reply to Objections to Motion to Deem the Dondero Entities Vexatious Litigants and for Related Relief*, 12, at ¶ 24, filed on February 9, 2024. Dkt. No. 189 (NDTX Case No. 3:21-cv-00881-X).

[9] The Proof of Claim Disallowance Order was attached as Exhibit D to the Declaration of John A. Morris, Dkt. No. 3852, which was filed by Highland in connection with, and in support of, the relief requested in the Sanctions Motion.

[10] Dkt. No. 3852.

[11] Claim No. 146, filed April 8, 2020.

| Exhibit D | Proof of Claim Disallowance Order |
| Exhibit E | Transcript of November 1, 2022 Trial (on NexPoint/HCRE's Proof of Claim) |
| Exhibit F | Attorneys' Fees of Pachulski Stang Ziehl & Jones LLP ("PSZJ") for the period of August 1, 2021 through December 31, 2022 incurred in connection with the litigation on the NexPoint/HCRE Proof of Claim |
| Exhibit G | Invoices for court reporting services provided in connection with depositions taken and defended during the course of the Proof of Claim litigation |
| Exhibit H | Invoice for services rendered by David Agler, who provided specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim |
| Exhibit I | Summary of Fees and Expenses Incurred by Highland in Connection with NexPoint/HCRE's Proof of Claim |

The Sanctions Motion (unlike the Oral Sanctions Motion made during the Trial) provided NexPoint/HCRE with due and appropriate notice of the legal and factual bases for Highland's request for a bad faith finding and reimbursement of attorneys' fees and costs incurred by it in litigating the Proof of Claim. As stated in the Sanctions Motion, the legal basis for Highland's request for reimbursement of its attorneys' fees as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim is the bankruptcy court's "inherent authority under section 105 of the Bankruptcy Code to issue sanctions after making a finding of bad faith."[14] Highland referred to specific documentary and testimonial evidence adduced during the Trial that it alleges supports a finding that NexPoint/HCRE filed and prosecuted its Proof of Claim in bad faith, and attached invoices evidencing its attorneys' fees and costs incurred as a direct result of this alleged bad faith.

[14] *See* Sanctions Motion, 10, ¶25.

Before NexPoint/HCRE filed its response to the Sanctions Motion, the matter was stayed on August 2, 2023, pending court-ordered global mediation.[15] The mediation ultimately proved to be unsuccessful.[16] Thereafter, NexPoint/HCRE filed its *Response to Debtor's Motion for (A) Bad Faith Finding and (B) Attorneys' Fees* ("Response")[17] on December 22, 2023. NexPoint/HCRE denies that it filed and prosecuted its Proof of Claim in bad faith and argues it should not be sanctioned at all. It further argues that, even if the filing and prosecution of the Proof of Claim are found to have been in bad faith, the amount of the fees incurred by Highland in connection with the Proof of Claim litigation is "*per se* excessive for a single proof of claim objection"[18] and "extraordinarily high given that this dispute could have been brought to a swift close many months ago"—if only NexPoint/HCRE had been allowed to withdraw its Proof of Claim in September of 2022.[19] Highland's has sought reimbursement of more than $800,000 in attorneys' fees and more than $16,000 in expenses, identified in Exhibits F through H (and summarized in Exhibit I) of the Morris Declaration as having been incurred by Highland in connection with its litigation of the Proof of Claim.

Highland filed its *Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in*

---

[15] *See Order Granting in Part and Denying in Part Motion to Stay and to Compel Mediation*. Dkt. No. 3897. This was not the first time the bankruptcy court has ordered global mediation in the Highland case.

[16] *See Joint Notice of Mediation Report* filed on November 7, 2023. Dkt. No. 3995.

[17] Dkt. No. 3995.

[18] Response, 10, ¶34.

[19] Response, 13, ¶45. NexPoint/HCRE argues that, because it had sought to withdraw its Proof of Claim, any fees incurred by Highland after the filing of NexPoint/HCRE's motion to withdraw cannot be attributable to NexPoint/HCRE's alleged bad faith filing and prosecution of its Proof of Claim; rather, such fees were incurred by Highland as a result of Highland's decision to object to NexPoint/HCRE's withdrawal of its Proof of Claim and to proceed with the litigation, including taking depositions, and proceeding to "trial" on the merits instead of "taking a win" with NexPoint/HCRE's withdrawal of its Proof of Claim. *See* Response, 2.

*Connection with Proof of Claim 146*[20] on January 19, 2024, and filed an *Amended Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in Connection with Proof of Claim 146* ("Reply")[21] on January 23, 2024. Highland argues that "[n]othing in the Response warrants the denial of the [Sanctions] Motion or its requested award of attorneys' fees" and that "the record makes clear" that NexPoint/HCRE and its principals "clearly and convincingly acted in bad faith by (a) knowingly filing and prosecuting a baseless Proof of Claim, . . . ([b]) seeking an unfair litigation advantage by trying to withdraw its Proof of Claim ***after*** taking Highland's depositions but ***before*** subjecting its own witnesses to questioning, and ([c]) trying at all times to preserve for another day the claims it asserted (*i.e.*, to "reform, rescind and/or modify the agreement")."[22]

The court held a hearing on the Sanctions Motion ("Hearing") on January 24, 2024, during which NexPoint/HCRE was given a full opportunity to respond to Highland's allegations of bad faith and request for sanctions.

## IV. CONCLUSIONS OF LAW

### *A. The Sanctions Motion Satisfies Due Process Considerations*

In invoking its inherent power to sanction bad faith conduct or a willful abuse of the judicial process, "[a] court must exercise caution . . . , and it must comply with the mandates of due process, both in determining that the requisite bad faith exists and in assessing fees." *In re Correra*, 589 B.R. 76, 125 (Bankr. N.D. Tex. 2018). As noted above, the court entered its Proof of Claim Disallowance Order on April 28, 2023, in which it sustained Highland's objection to, and disallowed, the Proof of Claim but denied, without prejudice, Highland's Oral Sanctions Motion

[20] Dkt. No. 4018.

[21] Dkt. No. 4023.

[22] Reply, 2, ¶2.

as being procedurally defective because, having been raised for the first time during Trial and not having been made in writing, it had not given NexPoint/HCRE adequate notice and an opportunity to respond to the specific allegations of bad faith being made against it. The court pointed out that it did not address or make any determination regarding the substance of Highland's requests in the Oral Sanctions Motion for a bad faith finding and sanctions against NexPoint/HCRE, subject to Highland's right seek a bad faith finding and sanctions against NexPoint/HCRE upon and after giving it proper notice and an opportunity to respond:

> Here, where the Reorganized Debtor's generic oral request for a finding of bad faith and for "an award costs for a bad faith filing" did not articulate the legal basis for such an award and was raised for the first time during the Trial, HCRE was not given sufficient notice and an opportunity to respond, and, therefore, the court will deny, without prejudice, [Highland's] request for reimbursement of its costs incurred in connection with its objection to HCRE's Proof of Claim.

Proof of Claim Disallowance Order, 38-39 (quoting *In re Emanuel*, 422 B.R. 453, 464 (Bankr. S.D.N.Y. 2010) ("[A] person facing possible sanctions is entitled to due process. . . . At a minimum, the respondent is entitled to notice of the authority for the sanctions, notice of the specific conduct or omission that forms the basis of possible sanctions and the opportunity to respond."); *In re Magari*, 2010 WL 817327 at **2-3 (Bankr. N.D. Tex. Mar. 4, 2010) ("By requesting the sanctions award, the Trustee has raised due process concerns that can only be satisfied by providing to the affected party sufficient notice and opportunity to respond.")).

The court concludes that the instant Sanctions Motion and Hearing have provided NexPoint/HCRE with the due process that was lacking in connection with the Oral Sanctions Motion. NexPoint/HCRE was given adequate notice of the legal authority invoked for sanctions (the bankruptcy court's inherent powers under section 105 of the Bankruptcy Code) and NexPoint/HCRE's specific conduct (the filing and prosecution of its Proof of Claim) that Highland

alleges to have been in bad faith, and NexPoint/HCRE was given adequate opportunity to respond through briefing and at the Hearing on the Sanctions Motion.

With due process concerns having been now addressed and satisfied, the court is able to address the substantive questions raised in the instant Sanctions Motion of (1) whether NexPoint/HCRE did, indeed, act in bad faith in the filing and prosecution of its Proof of Claim and (2) if so, whether an award of reimbursement of Highland's attorneys' fees and costs incurred in connection with its litigation of the Proof of Claim is an appropriate sanction for such bad faith.

***B. NexPoint/HCRE Filed and Prosecuted its Proof of Claim in Bad Faith and Willfully Abused the Judicial Process***

A bankruptcy court may sanction a litigant for bad faith filing or litigation if the court makes specific findings, based on clear and convincing evidence, of bad faith or willful abuse of the judicial process. *See Cleveland Imaging*, 26 F.4th at 292 (A bankruptcy court may only sanction a party using its inherent authority if "(1) the bankruptcy court finds that the party acted in bad faith or willfully abused the judicial process and (2) its finding is supported by clear and convincing evidence.") (citing *Cadle Co. v. Moore (In re Moore)*, 739 F.3d 724, 729-30 (5th Cir. 2014)). The bankruptcy court's power to sanction bad faith or willful abuse of the judicial process derives from its inherent authority under 11 U.S.C. § 105(a) to issue civil contempt orders. *Id.* at 294, 294 n.14 (quoting the "relevant part" of Bankruptcy Code section 105(a), which provides that bankruptcy courts may "sua sponte, tak[e] any action . . . necessary or appropriate to enforce or implement court orders or rules, or to prevent an abuse of process.") (cleaned up).

Having reviewed the record and the evidence adduced at Trial and NexPoint/HCRE's response to the Sanctions Motion (both in its Response and at the hearing on the Sanctions Motion), the court finds and concludes that there is clear and convincing evidence here that

NexPoint/HCRE filed and prosecuted is Proof of Claim in bad faith and that it willfully abused the judicial process.

1. *Dondero's Execution and Authorization of the Filing of the Proof of Claim Without First Having Read the Document or Conducting Any Due Diligence Was in Bad Faith and a Willful Abuse of the Judicial Process*

As noted in the Proof of Claim Disallowance Order, NexPoint/HCRE filed its Proof of Claim in this Highland bankruptcy case on April 8, 2020, several months after the post-petition "nasty breakup" between Highland and its co-founder and president and chief executive officer, Dondero. NexPoint/HCRE described the basis of its claim in Exhibit A attached to its Proof of Claim:[23]

**Exhibit A**

> HCRE Partner, LLC ("Claimant") is a limited partner with the Debtor in an entity called SE Multifamily Holdings, LLC ("SE Multifamily"). Claimant may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor. Additionally, Claimant contends that all or a portion of Debtor's equity, ownership, economic rights, equitable or beneficial interests in SE Multifamily does [not] belong to the Debtor or may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor. Claimant has requested information from the Debtor to ascertain the exact amount of its claim. This process is on-going. Additionally, this process has been delayed due to the outbreak of the Coronavirus. Claimant is continuing to work to ascertain the exact amount of its claim and will update its claim in the next ninety days.

NexPoint/HCRE was one of the many non-debtor Dondero-controlled entities affiliated with Highland. Dondero was the president and sole manager of NexPoint/HCRE, and an individual named Matt McGraner ("McGraner") was NexPoint/HCRE's vice president and secretary. NexPoint/HCRE had no employees of its own but instead relied on Highland's employees (and employees of other entities controlled by Dondero) to conduct business on its behalf. Dondero executed the Proof of Claim as the "person who is completing and signing this claim," checking

[23] Claim No. 146.

the box that indicates he is "the creditor's attorney or authorized agent" and acknowledging that "I have examined the information in this *Proof of Claim* and have reasonable belief that the information is true and correct" and that "I declare under penalty of perjury that the foregoing is true and correct."[24] The evidence overwhelmingly supports a finding that Dondero signed and authorized the filing of the Proof of Claim (that the court ultimately determined was lacking in any factual or legal support) without having even read it and without conducting any due diligence on, or investigation into, whether the statements made in the Proof of Claim were truthful and accurate, which supports a finding that Dondero's signing and filing of the Proof of Claim on behalf of NexPoint/HCRE was done in bad faith and constituted a willful abuse of the judicial process.

At Trial, Dondero testified that he had authorized his electronic signature to be affixed to the document and to be filed on behalf of NexPoint/HCRE and admitted that he had not reviewed the document before doing so.[25] He further testified that he could not recall "personally [doing] any due diligence of any kind to make sure that Exhibit A was truthful and accurate before [he] authorized it to be filed,"[26] and, more specifically, that he did not, prior to authorizing his law firm (Bonds Ellis) to affix his electronic signature on, and to file, the Proof of Claim, review or provide comments to the Proof of Claim or its Exhibit A, review the SE Multifamily Amended LLC Agreement or any documents,[27] "check with any member of the real estate group to see whether or not they believed [the Proof of Claim] was truthful and accurate before [he] authorized Bonds Ellis to file it," or do "anything . . . to make sure that this proof of claim was truthful and accurate before [he] authorized [his] electronic signature to be affixed and to have it filed on behalf of

[24] Proof of Claim, 3.

[25] Transcript of the November 1, 2022 Trial on Debtor's Objection to HCRE's Proof of Claim ("Trial Tr.")[Dkt. No. 3616] 55:2-22.

[26] Trial Tr. 56:20-23.

[27] Trial Tr. 55:10-22, 56:15-57:6.

HCRE."[28] Moreover, he testified that he did not know whose idea it was to file the Proof of Claim,[29] who at NexPoint/HCRE worked with, or provided information to, Bonds Ellis to enable Bonds Ellis to prepare the Proof of Claim, what information was given to Bonds Ellis that enabled them to formulate the Proof of Claim, or whether "Bonds Ellis ever communicated with anybody in the real estate group regarding [the Proof of Claim]."[30]

Dondero has argued that he had a good faith basis to sign and file the Proof of Claim on behalf of NexPoint/HCRE because "he had a host of responsibilities across a sprawling and sophisticated corporate structure and relied on numerous individuals within that structure to help manage the day-to-day operations of Highland and its subsidiaries and managed funds"[31] and that he "ha[d] to rely on systems and processes[,]" because "[he] can't be directly involved in everything."[32] Dondero further testified that "[he] sign[s] a lot of high-risk documents and [has] to rely on the process and the people and internally and externally as part of the process to sign it without direct validation from or verification from me, and this [Proof of Claim] is another one of those items."[33]

Dondero's "I'm-a-very-busy-person/too-busy-to-be-bothered-to-investigate" excuse is not a defense, as a matter of law, to his bad faith and willful abuse of the judicial process in connection with the filing of the Proof of Claim. Nor is Dondero's claimed reliance on systems and processes in connection with the execution and filing of this Proof of Claim, as a matter of fact, supported by the evidence. The court notes that the Proof of Claim is not a complex, lengthy legal or

[28] Trial Tr. 57:25-58:16.

[33] Trial Tr. 57:25-59:2.

corporate document; Exhibit A to the Proof of Claim, which set forth the basis for the claim, is only one paragraph long, yet Dondero did not even bother to read it before signing under penalty of perjury that the information contained in the Proof of Claim, including Exhibit A, was truthful and accurate. And, Dondero's own testimony contradicts his assertion that he relied on "systems and processes" and on other people within the "sprawling and sophisticated corporate structure" and his outside counsel to ensure the accuracy of the Proof of Claim. He had no reasonable or justifiable basis to rely on anyone or any "process" that was allegedly in place in connection with his signing of "high risk" documents, because he asked no questions, conducted no due diligence, and made no effort, whatsoever, to verify that the information that he was swearing was accurate under penalty of perjury was, in fact, truthful.

The court finds and concludes that the foregoing admissions by NexPoint/HCRE, through Dondero, provide clear and convincing evidence that ***NexPoint/HCRE filed its Proof of Claim*** in bad faith and willfully abused the judicial process.

*2. NexPoint/HCRE's Litigation Strategy and Actions in the Prosecution of Its Proof of Claim Are Further Evidence of Its Bad Faith and Willful Abuse of the Judicial Process*

Moreover, NexPoint/HCRE's ***litigation strategy and actions*** taken in the course of prosecuting its Proof of Claim over the next two and a half years, after filing it, ***provide further support for a finding that NexPoint/HCRE engaged in bad faith and willfully abused the judicial process***.

As noted in the Proof of Claim Disallowance Order, six months after Dondero signed and filed the Proof of Claim in April 2020, and in response to Highland's objection to its Proof of Claim,[34] NexPoint/HCRE fleshed-out the legal and factual bases for its claim:[35]

> After reviewing what documentation is available to [NexPoint/HCRE] with the Debtor, [NexPoint/HCRE] believes the organizational documents relating to SE Multifamily Holdings, LLC (the "SE Multifamily Agreement") improperly allocates the ownership percentages of the members thereto due to mutual mistake, lack of consideration, and/or failure of consideration. As such, [NexPoint/HCRE] has a claim to reform, rescind and/or modify the agreement.
>
> However, [NexPoint/HCRE] requires additional discovery, including, but not limited to, email communications and testimony, to determine what happened in connection with the memorialization of the parties' agreement and improper distribution provisions, evaluate the amount of its claim against the Debtor, and protect its interests under the agreement.

The Response was filed by a new law firm—Wick Phillips Gould & Martin, LLP ("Wick Phillips") – not the law firm of Bonds Ellis, which had handled the filing of the Proof of Claim. In the course of discovery, Highland became aware that Wick Phillips had jointly represented NexPoint/HCRE and Highland in connection with at least some of the underlying transactions that were the subject of the Proof of Claim, and, on April 14, 2021, more than a year after NexPoint/HCRE filed its Proof of Claim, Highland moved to disqualify Wick Phillips.[36] Notably, Highland's Plan had been confirmed on February 22, 2021, over the objections of Dondero and his related entities (including NexPoint/HCRE).[37] The effective date ("Effective Date") of the Plan occurred on August 11, 2021, and Highland became the Reorganized Debtor under the Plan.

---

[34] On July 30, 2020, Highland filed an objection to the allowance of the Proof of Claim, contending it had no liability under the Proof of Claim. *See Debtor's First Omnibus Objection to Certain (A) Duplicate Claims; (B) Overstated Claims; (C) Late-Filed Claims, (D) Satisfied Claims; (E) No-Liability Claims; and (F) Insufficient-Documentation Claims*, Dkt. No. 906.

[35] Response to Objection to Claim, 2-3, ¶¶ 5-6.

[36] Dkt. Nos. 2196-2198. On October 1, 2021, Highland filed a supplemental disqualification motion. Dkt. No. 2893.

[37] NexPoint/HCRE, represented by Wick Phillips, filed its *Objection to Debtor's Fifth Amended Plan of Reorganization* on January 5, 2021. Dkt. No. 1673.

Pursuant to the Plan, on or after the Effective Date, all or substantially all of the Debtor's assets vested in the Reorganized Debtor or the claimant trust ("Claimant Trust") created under the terms of the Plan, including Highland's 46.06% membership interest in SE Multifamily.

Meanwhile, NexPoint/HCRE vigorously fought the disqualification of Wick Phillips, filing its opposition to the disqualification motion on May 6, 2021,[38] and initiating a more than six-month period of expensive discovery and side litigation that culminated, after a lengthy hearing on the disqualification motion, with the entry by this court on December 10, 2021, of its *Order Granting in Part and Denying in Part Highland's Supplemental Motion to Disqualify Wick Phillips Gould & Martin, LLP As Counsel to HCRE Partners, LLC and for Related Relief* ("Disqualification Order"),[39] resolving the disqualification motion by, among other things, disqualifying Wick Phillips from representing NexPoint/HCRE in the contested matter concerning the Proof of Claim, but specifically denying Highland's request that NexPoint/HCRE reimburse it all costs and fees incurred in making and prosecuting the disqualification motion.[40]

In the instant Sanctions Motion, Highland acknowledged that the court denied Highland's specific request for sanctions of reimbursement of Highland's costs and fees in making the Disqualification Motion in its December 2021 Disqualification Order.[41] The court notes that the denial was not "with prejudice"[42] to Highland's right to bring a sanctions motion in the future in connection with allegations that NexPoint/HCRE's filing and prosecution of its Proof of Claim, including its vigorous defense of the Disqualification Motion. Notably, while Highland includes

[38] Dkt. Nos. 2278 and 2279.

[39] Dkt. No. 3106.

[40] Disqualification Order, 4.

[41] *See* Sanctions Motion, 4, ¶8.

[42] The Disqualification Order stated, in relevant part, "Highland's request that HCRE reimburse it all costs and fees incurred in making and prosecuting the Motion, including reasonable attorneys' fees, is **DENIED**."

a reference in the instant Sanctions Motion to the lengthy and expensive proceedings on the Disqualification Motion in its recitation of evidence in the record that supports Highland's allegations that NexPoint/HCRE engaged in bad faith conduct in the filing and prosecution of its Proof of Claim, it did ***not*** include them as part of the fees and costs for which Highland is seeking to be reimbursed by NexPoint/HCRE as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.[43]

In any event, following the disqualification of Wick Phillips, NexPoint/HCRE hired yet a third law firm, Hoge & Gameros, LLP, in connection with this matter, and the parties engaged in a second round of extensive discovery, which included the exchange of written discovery and document production and the service of various deposition notices and subpoenas. On August 12, 2022, just two business days after NexPoint/HCRE completed the depositions of Highland's witnesses, and a day after NexPoint/HCRE made a supplemental production of more than 4,000 pages of documentation, and two business days before the consensually scheduled depositions of NexPoint/HCRE's witnesses, Dondero and McGraner, were set to occur, NexPoint/HCRE filed a motion to withdraw its Proof of Claim ("Motion to Withdraw").[44] By this point, Highland had spent hundreds of thousands of dollars objecting to the Proof of Claim.

Query why might NexPoint/HCRE have done this? Just six months earlier, Dondero's family trust, The Dugaboy Investment Trust, had represented to the bankruptcy court that

[43] *See* Morris Declaration, 3-4, at ¶11 (Referencing the court's denial in its Disqualification Order of Highland's previous request for attorneys' fees incurred in connection with the Disqualification Motion, Morris stated "[W]e reviewed the PSZJ Invoices and redacted all entries relating to the Disqualification Motion; thus, for the avoidance of doubt, Highland does not seek any fee award with respect to any work done in connection with the Disqualification Motion.").

[44] *See Motion to Withdraw Proof of Claim* [Dkt. No. 3442].

Highland's 46.06% interest in SE Multifamily was worth $20 million,[45] and now, NexPoint/HCRE (which presumably also spent substantial sums prosecuting its Proof of Claim during the nearly two and a half years of litigation) appeared willing to walk away from its multi-million dollar challenge to Highland's 46.06% interest in SE Multifamily. Highland objected to NexPoint/HCRE's Motion to Withdraw, and the court held a hearing on September 12, 2022 (as required by Bankruptcy Rule 3006), following which the court entered an order denying NexPoint/HCRE's Motion to Withdraw, for the reasons set forth on the record,[46] and directing the parties to "confer in good faith to complete the depositions" of Dondero, McGraner, and NexPoint/HCRE and otherwise comply with the scheduling order that had been entered by the court on this matter, which included appearing for an evidentiary hearing on November 1, 2022.[47] The court denied NexPoint/HCRE's Motion to Withdraw, in part, because it was concerned that the timing of it all–just two business days ***after*** completing Highland's depositions but two business days ***before*** the consensually-scheduled depositions of NexPoint/HCRE's witnesses were to take place—reflected gamesmanship on the part of NexPoint/HCRE (*i.e.,* NexPoint/HCRE prosecuted its Proof of Claim for two and a half years, through and including the taking of depositions of Highland's witness, while shielding its own witnesses from testifying). The court was also concerned by NexPoint/HCRE's repeated attempts to preserve its claims against Highland for use against Highland in the future. In fact, the court entered its order denying NexPoint/HCRE's Motion to Withdraw only after: (1) NexPoint/HCRE refused to agree, at the

[45] *See Motion for Determination of the Value of the Estate and Assets Held by the Claimant Trust* [Docket No. 3382]. As pointed out by Highland in its Response, "[t]here is no dispute that HCRE is the manager of SE Multifamily and therefore—through Mr. Dondero—would be best positioned to opine on the value of Highland's interest in SE Multifamily." Response, 9, at ¶27 n. 4.

[46] The court noted in its order denying HCRE's Motion to Withdraw that, under the Bankruptcy Rules, a creditor does not have an absolute right to withdraw a proof of claim.

[47] Dkt. No. 3525.

September 12 hearing, to language in an order allowing withdrawal of the Proof of Claim that stated, unequivocally, that NexPoint/HCRE waived the right to relitigate or challenge the issue of Highland's 46.06% ownership interest in SE Multifamily, and (2) counsel were thereafter unable, in the day or two after the hearing, to work out mutually acceptable language in an agreed order that protected both parties.[48] As noted in its order denying NexPoint/HCRE's Motion to Withdraw, the court had expressed concerns, during the hearing on the Motion to Withdraw, relating to the integrity of the bankruptcy system and claims process if it allowed NexPoint/HCRE to withdraw its Proof of Claim after two and a half years of litigation, and having caused Highland to spend hundreds of thousands of dollars litigating the Proof of Claim, while at the same time allowing NexPoint/HCRE to preserve its challenges to Highland's ownership interest in SE Multifamily to be used against Highland in the future. The court did not, at the time, make any express findings regarding NexPoint/HCRE's bad faith or abuse of the judicial process, only because Highland's mid-hearing Oral Sanctions Motion had not provided NexPoint/HCRE with adequate notice and an opportunity to respond.[49] With the instant Sanctions Motion, those due process concerns have been satisfied.

Having considered the evidence and argument of counsel at both the Trial on NexPoint/HCRE's Proof of Claim and the hearing on the Sanctions Motion, and the pleadings filed in connection with the Sanctions Motion, including NexPoint/HCRE's written Response, and based on the record as a whole, the court expressly finds and concludes that NexPoint/HCRE's

[48] At the end of the September 12 hearing, the court had expressed concerns about gamesmanship, but, at the same time, assured the parties that it was still open to signing an agreed order regarding withdrawal of the Proof of Claim, if counsel could work out mutually acceptable language that protected both parties "without the pressure of the Court hovering over you." *See* Transcript of Hearing on Motion to Withdraw, Dkt. No. 3519, 50:14-59:14. Apparently, counsel were unable to reach an agreement on the terms of an agreed order, and so the court signed the order at docket number 3525, denying NexPoint/HCRE's Motion to Withdraw.

[49] As noted below, NexPoint/HCRE persisted to the end in arguing that the disallowance of its Proof of Claim could not bar NexPoint/HCRE from making future challenges to Highland's 46.06% membership interest in SE Multifamily.

***litigation strategy and actions*** in prosecution of its Proof of Claim (including vigorous opposition to the Disqualification Motion, the timing of the Motion to Withdraw, and its repeated and overt attempts to preserve the very claims upon which its Proof of Claim was based in connection with the Motion to Withdraw) demonstrates bad faith and a willful abuse of the judicial process on the part of NexPoint/HCRE.

*3. NexPoint/HCRE's Admissions at Trial Are Further Evidence of its Bad Faith Filing and Willful Abuse of the Judicial Process*

Following the denial of NexPoint/HCRE's Motion to Withdraw, the parties complied with the court's order to schedule the depositions of Dondero and McGraner at mutually agreeable times to complete discovery and then appeared at Trial on November 1, 2022. At the conclusion of the Trial, NexPoint/HCRE doubled-down on its request of the court "to grant the proof of claim and reallocate the equity [in SE Multifamily] based on the capital contribution[s]."[50] This was despite admissions by Dondero and McGraner in their Trial testimony that made it clear that NexPoint/HCRE did not, and never did, have a factual or legal basis for its request. Nevertheless, NexPoint/HCRE continued to the end to try to limit any order disallowing its Proof of Claim so as to preserve its right to assert the very claims asserted in its Proof of Claim (for rescission, reformation and/or modification of the SE Multifamily Amended LLC Agreement to reallocate the membership percentages) for use in the future.[51]

The Trial testimony of Dondero and McGraner revealed that NexPoint/HCRE had no factual basis to claim that a mistake was made by any of the parties, much less a mutual mistake

[50] Trial Tr. 179:23-25; 180:8-9.

[51] Trial Tr. 179:21-24 ("They want you to make findings that we can't raise any of these other issues, rescissions, stays, et cetera, going forward. That's not proper relief on a proof of claim."); 200:8-12 ("If Your Honor's going to deny the proof of claim, I would ask that you simply deny the proof of claim. We don't have an adversary proceeding here. There wasn't one started. Mr. Morris considered that and then didn't follow that path, because all we have here today is a proof of claim.").

of the parties, regarding the allocation of ownership percentages in SE Multifamily in corporate documentation,[52] and, in fact, "the evidence overwhelmingly point[ed] to the conclusion that both Mr. Dondero and Mr. McGraner understood that the allocation of 46.06% membership interest to Highland, and a total capital contribution by Highland of $49,000 in the Amended LLC Agreement, reflected the intent of the parties prior to, and at the time of, the execution of the Amended LLC Agreement."[53] The court specifically noted in the Proof of Claim Disallowance Order that Dondero admitted that he had not read or reviewed the Amended LLC Agreement or any drafts of it before he signed it—apparently the Amended LLC Agreement was one of those important, high-risk documents that Dondero was too busy to read or investigate before signing (like the Proof of Claim)—but he nevertheless testified that "the capital contributions and membership allocations contained in Schedule A of the Amended LLC Agreement comported with his understanding and intent when he signed the Amended LLC Agreement on behalf of HCRE and Highland."[54] NexPoint/HCRE was also unable to produce any evidence at Trial to support its factual allegation that there was a "lack of consideration" or a "failure of consideration" with respect to the Amended LLC Agreement, such that NexPoint/HCRE would be entitled to a

[52] The court concluded, specifically, that

> HCRE did not produce any evidence, much less clear and convincing evidence, that the parties to the Amended LLC Agreement – HCRE, Highland, BH Equities, and Liberty – had come to a specific and understanding, prior to the execution of the Amended LLC Agreement in March 2019, that the allocation of percentage membership interests in SE Multifamily was different from the percentage allocations contained in the Amended LLC Agreement. When asked on cross-examination, Mr. McGraner, HCRE's officer and co-owner who was most involved in the negotiations of the terms of the Amended LLC Agreement, was unable to identify any specific mistake made in the drafting of the Amended LLC Agreement. Neither he nor NexPoint/HCRE's other witness, Mr. Dondero, were able to point to a specific meeting of the minds of the members of SE Multifamily prior to (or after, for that matter) the execution of the Amended LLC Agreement that the parties intended Highland's allocation of SE Multifamily membership interests to be any percentage other than the 46.06% allocation attributed to Highland in the written Amended LLC Agreement.

Proof of Claim Disallowance Order, 30.

[53] *Id.*, 30-31.

[54] *Id.*, 31 n. 119.

reformation,[55] rescission,[56] or modification of it, to re-allocate the ownership percentages that the parties agreed to at the time of the execution of it.[57]

In fact, McGraner ultimately admitted in his Trial testimony that the only reason NexPoint/HCRE had for filing its Proof of Claim, which challenged Highland's title to its 46.06% membership interest in SE Multifamily, was, essentially, ***that NexPoint/HCRE was frustrated with the consequences of Dondero's decision in 2019 to seek bankruptcy protection for Highland (notably, the bankruptcy case was filed just a few months after the Amended LLC Agreement was executed), which resulted in Dondero losing control over Highland***, such that, as far as NexPoint/HCRE was concerned, its "partner" [in SE Multifamily] was no longer its "partner." The court noted in the Proof of Claim Disallowance Order that McGraner

> could not point to any provision of the Amended LLC Agreement that was either "wrong" or a "mistake;" rather, he testified that the "mistake" was "when the bankruptcy was filed and we can't amend it" because "[o]ur partners aren't our partners" – "if you have good partners and you're working with partners that are –

---

[55] After noting that "neither lack of consideration nor failure of consideration are bases for reformation of a contract under Delaware law (which is what NexPoint/HCRE is seeking in its Proof of Claim)," the court concluded that "HCRE is not entitled to reformation of the Amended LLC Agreement to reallocate the members' membership interests as requested based on its allegations of lack of consideration and/or failure of consideration." Proof of Claim Disallowance Order, 32 n. 120.

[56] The court noted in the Proof of Claim Disallowance Order that NexPoint/HCRE had not actually stated a claim for rescission of the Amended LLC Agreement with respect to its Proof of Claim, but that, if it had,

> Mr. Dondero's admission that he did not read the Amended LLC Agreement (or even have the terms explained to him by counsel or anyone else) prior to signing it on behalf of HCRE and Highland would bar any claim by HCRE for rescission of the Amended LLC Agreement. Moreover, even if HCRE's claim for rescission was not barred by Mr. Dondero's failure to read the Amended LLC Agreement prior to signing it, HCRE did not present any evidence of the other elements of a rescission claim: that the parties were mistaken as to a basic assumption on which the Amended LLC Agreement was made and that the mistake had a material effect on the agreed-upon exchange of performances.

Proof of Claim Disallowance Order, 33-34.

[57] *See* Proof of Claim Disallowance Order, 32-33 n. 120 (where the court found that "HCRE has not shown that there was a lack or failure of consideration on behalf of Highland in connection with the Amended LLC Agreement. . . . Under Delaware law, the courts 'limit [their] inquiry into consideration to its existence and not whether it is fair or adequate,' . . . . '[E]ven if the consideration exchanged is grossly unequal or of dubious value, the parties to a contract are free to make their bargain.' (citations omitted). Here, it is undisputed that Highland made a cash capital contribution of $49,000, that Highland was a jointly and severally liable coborrower under the KeyBank Loan, and that SE Multifamily (and HCRE), having no employees of their own, relied on Highland's employees to conduct business. Thus, HCRE's claim, to the extent it is based on alleged lack and/or failure of consideration fails.").

> that are known to you, then you make amendments to reflect the contributions of those partners, whether monetary or otherwise . . . [a]nd my understanding is I can't do that right now."[58]

McGraner testified that "despite Mr. Dondero being in control of both HCRE and Highland prior to the bankruptcy filing, and despite 'all of the fears [he] had [related to Highland's bankruptcy filing],' HCRE made no effort to amend the agreement before the bankruptcy or post-bankruptcy (because 'we didn't think it would be worth it')[ ][59] [and] 'because [it] hoped that the issues that caused the bankruptcy filing would resolve themselves.'"[60] This is not a good-faith basis for filing and prosecuting the Proof of Claim, and it exhibits a willful abuse of the bankruptcy claims process by NexPoint/HCRE.

In summary, the admissions by Dondero and McGraner in their Trial testimony made clear that NexPoint/HCRE never had a factual or legal basis for the Proof of Claim. NexPoint/HCRE's principals knew, at the time of filing and through its prosecution of the Proof of Claim, that there was no factual basis for its claim of rescission, reformation, and/or modification of the Amended LLC Agreement to dispossess Highland of some or all of its 46.06% membership interest in SE Multifamily. This clearly and convincingly constitutes bad faith by NexPoint/HCRE and a willful abuse of the judicial process.

### *C. Reimbursement of Attorneys' Fees and Costs Incurred by Highland in the Proof of Claim Litigation Is an Appropriate Sanction for NexPoint/HCRE's Bad Faith*

Having found and concluded by clear and convincing evidence that NexPoint/HCRE filed and prosecuted (and attempted withdrawal of) its Proof of Claim in bad faith and willfully abused the judicial process, this court may use its inherent powers under Bankruptcy Code section 105(a)

---

[58] Proof of Claim Disallowance Order, 27 (citing Trial Tr. 114:24-115:16, 118:6-15).

[59] *Id.* (citing Trial Tr. 121:24-122:9).

[60] *Id.* at 28 (citing Trial Tr. 122:20-125:21).

to sanction it for such conduct. Reimbursement of the opposing party's fees and costs incurred in responding to a bad faith filing or willful abuse of the judicial process has been upheld as an appropriate form of sanctions. *See Cleveland Imaging*, 26 F.4th at 294 (upholding the bankruptcy court's sanction order that required the parties who were found to have filed bankruptcy petitions in bad faith to reimburse the fees incurred by a post-confirmation litigation trust in responding to the bad faith filing); *Carroll v. Abide (In re Carroll)*, 850 F.3d 811 (5th Cir. 2017) (bankruptcy court did not abuse its discretion in ordering the debtors to "pay $49,432, which represents the amount of attorneys' fees incurred by [the bankruptcy trustee] in responding to certain instances of the [debtors'] bad faith conduct."); *In re Yorkshire, LLC*, 540 F.3d 328, 332 (5th Cir. 2008) (affirming bankruptcy court's use of its inherent powers to issue monetary sanctions for bad faith filing that were, in part, based upon the opposing parties' attorneys' fees and costs "following an extensive hearing in which the bankruptcy court heard testimony from the parties and witnesses and made certain credibility determinations," and "made specific findings that Appellants acted in bad faith."); *In re Paige*, 365 B.R. 632, 637-399 (Bankr. N.D. Tex. 2007) (awarding attorneys' fees against debtor for their "bad faith" conduct during bankruptcy case, noting "[t]he sanction here is derived from the Court's inherent power to sanction" under section 105(a)); *In re Lopez*, 576 B.R. 84, 93 (S.D. Tex. 2017) (same). Any sanction imposed pursuant to a bankruptcy court's inherent powers for bad faith conduct or willful abuse of the judicial process "must be compensatory rather than punitive in nature." *In re Lopez*, 576 B.R. at 93 (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. 101, 108 (2017) (citing *Mine Workers v. Bagwell*, 512 U.S. 821, 826-30 (1994)). "[A] sanction counts as compensatory only if it is 'calibrate[d] to [the] damages caused by' the bad-faith acts on which it is based[,]" and "[a] fee award is so calibrated if it covers the legal bills that the litigation abuse occasioned." *Goodyear Tire & Rubber*, 581 U.S.

at 108 (quoting *Bagwell*, 512 U.S. at 834). The fee award must be "limited to the fees the innocent party incurred solely because of the misconduct—or put another way, to the fees that party would not have incurred but for the bad faith." *Id.* (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. at 104). The "'causal link' between the sanctionable conduct and the opposing party's attorney's fees" must be established "through a 'but-for test:' to wit, the complaining party may only recover the portion of fees that they would not have paid 'but-for' the sanctionable conduct." *Id.* (citing *Goodyear Tire & Rubber*, 581 U.S. at 108-109 (citing *Fox v. Vice*, 563 U.S. 826, 836 (2011)).

Here, as earlier noted, Highland has requested, as a sanction, reimbursement of its attorneys' fees and costs incurred by it in responding to NexPoint/HCRE's filing and prosecution of its Proof of Claim. Specifically, Highland seeks reimbursement of an aggregate amount of **$825,940.55**, consisting of

- **$782,476.50** in attorneys' fees charged by its primary bankruptcy counsel, PSZJ, for the period August 1, 2021 through December 31, 2022, for work performed in connection with the litigation of the Proof of Claim;[61]
- **$16,164.05** in third-party expenses for court reporting services provided in connection with the Proof of Claim litigation;[62] and,

[61] *See* Morris Declaration, 3-4, at ¶¶ 8-13, and Ex. F. As stated in the Morris Declaration, the $782,476.50 amount does not include any fees relating to the Disqualification Motion or any fees that PSZJ concluded were inadvertently coded by a timekeeper to the NexPoint/HCRE Claim Objection category "or that were otherwise unrelated to services rendered in connection with the Proof of Claim litigation." *Id.*, 3-4, at ¶¶ 11 and 12. By way of specific example, Morris stated that "in 2022 and 2023 we charged Highland for services rendered in connection with our unsuccessful attempts to obtain SE Multifamily's books and records but excluded those charges here because they do not directly relate to the litigation of HCRE's Proof of Claim; Highland is seeking those fees in the Delaware Chancery Court where Highland was forced to commence an action against HCRE for specific performance (Case No. 2023-0493-LM))." *Id.*, 4, at ¶ 12.

[62] *See id.*, 4, at ¶ 14, and Ex. G.

- **$27,300.00** in attorneys' fees charged by David Agler for providing Highland with specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim.[63]

NexPoint/HCRE challenges Highland's request for reimbursement of its fees on several bases. ***First***, it argues that it cannot be ordered to reimburse the fees and expenses incurred by Highland ***after*** NexPoint/HCRE attempted to withdraw its Proof of Claim because they do not satisfy the "but for" test for establishing a "causal link" between those fees and costs and NexPoint/HCRE's filing and pursuit of its Proof of Claim—that Highland cannot show that "but for" NexPoint/HCRE's filing and prosecution of its Proof of Claim, Highland would not have incurred those fees and costs. NexPoint/HCRE urges the court to adopt its narrative of the proceedings that "instead of taking a win, [Highland] and its lawyers chose to generate fees to get the same result" and thus Highland's attorneys' efforts were "totally unnecessary" and a "waste of time and resources" that was "the fault of [Highland], not [NexPoint/HCRE]."[64] NexPoint/HCRE states in its Response that "[h]ere, ***it is undisputed*** that, had [Highland] agreed to the withdrawal of the Proof of Claim many months ago – before engaging in costly additional discovery and preparing for and attending a trial on the merits of the claim – [Highland] would have been exactly in the same position that it is in now, but at far less expense" and further that "[t]he real, practical difference between refusing to consent to the withdrawal of [NexPoint/HCRE]'s Proof of Claim and instead prosecuting the Objection to its end is several hundred thousand dollars in attorneys' fees" and, thus, "[t]he Motion abjectly fails any 'but–for' analysis."[65]

---

[63] *See id.*, 4-5, at ¶¶ 15 and 16, and Ex. H. A summary of the aggregate fees and expenses of which Highland is seeking reimbursement in the Sanctions Motion is attached as Exhibit I to the Morris Declaration. *See id.*, 5, at ¶ 17, and Ex. I.

[64] Response, 2.

[65] Response, 20, at ¶60 (emphasis added).

The court disagrees with NexPoint/HCRE's "narrative" and its view of the evidence established at Trial. Highland ***does*** dispute NexPoint/HCRE's contention that, if only it had allowed it to withdraw its Proof of Claim and accepted a "win," that Highland would have been "exactly in the same position that it is in now [after a Trial and ruling on the merits of the Proof of Claim], but at far less expense." The court does as well. As Highland has argued, NexPoint/HCRE's Motion to Withdraw was itself filed in bad faith. Highland was forced to oppose the withdrawal of the Proof of Claim because NexPoint/HCRE would not agree to a withdrawal, with prejudice, to NexPoint/HCRE's right to challenge Highland's title to its 46.06% membership interest in SE Multifamily in the future.[66] The evidence clearly and convincingly established that any "win" or "victory" that Highland would have obtained through the withdrawal of the Proof of Claim[67]

> would have been pyrrhic because ***HCRE—in a clear act of bad faith—tried to withdraw its Proof of Claim while preserving the substance of it claims for another day***. Had HCRE's duplicitous strategy been successful, Highland's interest in SE Multifamily would have remained subject to challenge—an untenable result for anyone, let alone a post-confirmation entity seeking to implement a court-approved asset monetization plan.

The court finds and concludes, as argued by Highland, that there is clear and convincing evidence here that the fees and costs incurred by it, after NexPoint/HCRE sought to withdraw its Proof of Claim (*i.e.,* to prepare for the Trial and prosecute its objection to the Proof of Claim through a trial and ruling on the merits), would not have been incurred "but for" NexPoint/HCRE's bad faith. As pointed out by Highland and as noted above,[68] the court did not enter the Proof of Claim Disallowance Order in December 2022 in a vacuum. Rather, the court denied

---

[66] *See supra* note 45 and accompanying text.

[67] Response, 5, at ¶18.

[68] *See supra* at pages 16-17.

NexPoint/HCRE's Motion to Withdraw only ***after:*** (1) the court had expressed concerns that the timing and context of its filing of its Motion to Withdraw suggested gamesmanship on its part, and that the integrity of the bankruptcy system and claims process would be in jeopardy if the court were to simply allow withdrawal, without protecting Highland from future challenges to its membership interest in SE Multifamily (particularly, after Highland had spent hundreds of thousands of dollars to that point in objecting to the Proof of Claim); and (2) NexPoint/HCRE refused to agree to language in an order that would alleviate these expressed concerns. The court—having now made an express finding that NexPoint/HCRE's filing of its Motion to Withdraw was in bad faith and part of its willful abuse of the bankruptcy claims process that began with the filing of its Proof of Claim in April 2020—now expressly finds that the fees and costs incurred by Highland after NexPoint/HCRE filed its Motion to Withdraw were necessary for Highland to protect its interests and would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

***Second***, NexPoint/HCRE objects to Highland's fees ($809,776.50) and expenses ($16,164.05) as being "*per se* excessive for a single proof of claim objection."[69] Highland argues that "[s]pending less than 5% of the value of an asset (according to Mr. Dondero's family trust) to obtain good, clear title is economically rational and consistent with the Claimant Trust's duty to maximize value for the benefit of the Claimant Trust's beneficiaries." Per the Morris Declaration, Highland only seeks reimbursement of expenses and fees charged to Highland for expenses incurred and work performed in litigating the Proof of Claim (but—as noted earlier—specifically excluding any fees charged relating to the Disqualification Motion). The court agrees with Highland and finds that the fees and expenses incurred by it in objecting to the Proof of Claim,

[69] Response, 10, ¶34.

including the fees incurred ***after*** NexPoint/HCRE sought to withdraw its Proof of Claim, were reasonable and necessary for Highland to protect a valuable asset—it's 46.06% interest in SE Multifamily—and, thus, they are not excessive.

***Third***, NexPoint/HCRE complains, in its Response, that the fees charged by PSZJ were unreasonable and excessive because the PSZJ invoices show that it was seeking reimbursement for fees charged by "layers of timekeepers whose identities and roles have not been disclosed."[70] NexPoint/HCRE points out three professionals (two of whom billed one hour or less) who were identified in PSZJ's invoices only by their initials.[71] In its Reply, Highland identified the timekeepers by name—as a litigator who billed one hour of time; a bankruptcy attorney who billed 0.6 hours of time; and a bankruptcy partner who billed 15.1 hours of time—all of whom were "called upon to provide discrete support."[72] Collectively, the three previously "unidentified" attorneys charged just 0.023% of the total fee request.[73] PSZJ's identification of the "unidentified timekeepers" and explanation of the work performed by them satisfies the court that these fees were reasonable and necessary fees incurred as a direct result of NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim. The court rejects NexPoint/HCRE's suggestion that PSZJ overstaffed and overbilled the file because there were "layers of timekeepers." As pointed out in Highland's Reply, "over 82% of the charges related to one litigation partner . . . , one litigation associate . . . , and one paralegal" and "[t]wo other lawyers who have been on the Pachulski team since the inception of this engagement . . . billed relatively modest amounts of time over the course

[70] *Id.*, 13, ¶45.
[71] *Id.*, 12, ¶38.
[72] Reply, 9, ¶28.
[73] *Id.*

of this prolonged litigation."[74] There is simply no factual basis to support a conclusion that the matter was overstaffed.

***Fourth***, NexPoint/HCRE objects to $9,840 charged by two attorneys for travel time,[75] while acknowledging that those attorneys' non-working travel time was billed at half of the attorneys' regular hourly rate.[76] As pointed out by Highland in its Reply, Highland agreed to pay for travel time in its pre-petition engagement letter, so those "charges cannot come as a surprise to Mr. Dondero."[77] The court takes judicial notice of the fact that attorneys charging half of their hourly rates for non-working travel time, as PSZJ did here, pursuant to its engagement letter with Highland that was approved when the court authorized the retention of PSZJ as counsel for the Debtor, is common practice and is a commonly approved term of engagement of professionals in bankruptcy cases. The $9,840 charged by two attorneys for travel time in this matter was a reasonable and necessary expense incurred by Highland in responding to NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.

***Fifth***, and finally, NexPoint/HCRE objects to the fees charged by David Agler (39 hours of work performed at $700 per hour) for providing Highland with tax advice in August 2022, on the basis that the invoice attached as Exhibit H to the Morris Declaration "indicated that it was 'unbilled' work" and that "[w]hatever work he did, it did not manifest itself in the proceedings."[78] Highland pointed out that it ***had*** explained, in the Morris Declaration, that Mr. Agler provided "specialized tax advice concerning SE Multifamily and other matters related to the Proof of

[74] *Id.*, 9, ¶28 n. 5.

[75] Response, 12, ¶37.

[76] *Id.*, 11, ¶36 (Table 1).

[77] Reply, 9-10, ¶29.

[78] Response, 12, ¶42.

Claim."[79] Highland provided a more detailed description of the services provided by Mr. Agler and why those services were necessary in its Reply: "Mr. Agler provided his services in August 2022 in conjunction with Highlands's deposition preparation, including the deposition of SE Multifamily's accountant. These services were necessary because—as Mr. Dondero and Mr. McGraner admitted and as the evidence showed—Highland's participation in SE Multifamily was expected to provide substantial tax benefits."[80] The court finds that the fees charged by David Agler for work performed for Highland that are set forth in Exhibit H to the Morris Declaration were reasonable and necessary expenses incurred by Highland in responding to HCRE's bad faith conduct and that they would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

The court has determined that the full amount of fees – $809,776.50 – and costs – $16,164.05 – that are set forth in detail in Exhibits F through H (and summarized on Exhibit I) of the Morris Declaration were reasonable and necessary for Highland to respond to, and would not have been incurred "but for," NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim, which the court has found to have been a willful abuse by NexPoit/HCRE of the judicial process. Under Fifth Circuit precedent, it is appropriate for the court, in the use of its inherent power under Bankruptcy Code § 105(a), to order NexPoint/HCRE, as a compensatory sanction for its bad faith conduct and willful abuse of the judicial process, to reimburse Highland the full amount of fees and costs requested by Highland, which, in the aggregate, total $825,940.55. NexPoint/HCRE's objections to such amounts as excessive, unnecessary, unreasonable, or unrelated to NexPoint/HCRE's bad faith conduct, are overruled.

[80] *See id.* (citing Morris Declaration, Ex. [E] (Trial Transcript) 43:2-14; 83:17-84:2; 191:23-193:21 (citing to testimony and tax returns that were admitted into evidence)).

## V. CONCLUSION AND ORDER

In summary, the court has determined that NexPoint/HCRE was given adequate notice and an opportunity to respond to the Sanctions Motion and that there is clear and convincing evidence that it filed and prosecuted its Proof of Claim, including its eleventh-hour attempt to withdraw its Proof of Claim, in bad faith and that it willfully abused the judicial process. Such conduct directly caused Highland to incur $825,940.55 in fees and expenses. In the exercise of its inherent power under Bankruptcy Code § 105(a), the court will grant Highland's Sanctions Motion and order NexPoint/HCRE to reimburse Highland for those fees and expenses as an appropriate sanction for NexPoint/HCRE's bad faith or willful abuse of the judicial process.

Accordingly, and based on the foregoing findings of fact and conclusions of law, including those findings and conclusions in this court's Proof of Claim Disallowance Order, which has been incorporated herein by reference,

**IT IS ORDERED** that the Sanctions Motion [Dkt. No. 3851] be, and hereby is **GRANTED**;

**IT IS FURTHER ORDERED** that, in order to compensate Highland for loss and expense resulting from NexPoint/HCRE's bad faith and willful abuse of the judicial process, in filing and prosecuting its Proof of Claim, NexPoint/HCRE is hereby directed to pay Highland the compensatory sum of **$825,940.55**.

**MEMORANDUM OPINION AND ORDER GRANTING HIGHLAND CAPITAL MANAGEMENT, L.P.'S MOTION FOR (A) BAD FAITH FINDING AND (B) ATTORNEYS' FEES AGAINST NEXPOINT REAL ESTATE PARTNERS LLC (F/K/A HCRE PARTNERS, LLC) IN CONNECTION WITH PROOF OF CLAIM # 146**

## I. INTRODUCTION

Before this court is a sanctions motion[1] filed by Highland Capital Management, L.P. ("Highland," the "Debtor," or the "Reorganized Debtor"). [2] The motion seeks sanctions against

[1] *Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in connection with Proof of Claim 146* ("Sanctions Motion"). Dkt. No. 3851.

[2] Highland is a reorganized debtor under the confirmed *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* (the "Plan"). Dkt. No. 1808. *See Order (I) Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (II) Granting Related Relief* ("Confirmation Order"). Dkt. No. 1943.

1934054240305000000000002

NexPoint Real Estate Partners, LLC, f/k/a HCRE Partners, LLC ("NexPoint/HCRE") for its filing, prosecution, and then abrupt attempt to withdraw a meritless proof of claim (after almost three years of protracted litigation).

NexPoint/HCRE filed the subject proof of claim, #146 on the claims register ("Proof of Claim"), on April 8, 2020.[3] The Proof of Claim was signed electronically by James D. Dondero ("Dondero") and was prepared and filed by a law firm that was representing him personally at that time.[4] The Proof of Claim was not in a liquidated amount and was somewhat ambiguous. It stated in an Exhibit A thereto, that NexPoint/HCRE, which was a limited partner, along with Highland, in a limited liability company called SE Multifamily Holdings, LLC ("SE Multifamily")—an entity which owned valuable real estate—"may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor" and added that Highland's equity interest "may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor." NexPoint/HCRE stated that it would update the Proof of Claim to provide the exact amount of it "in the next ninety days" but never did.

Highland objected to the Proof of Claim. Thereafter, NexPoint/HCRE (while still not providing any liquidated amount of its Proof of Claim) refined its position therein to argue that the organizational documents relating to SE Multifamily improperly allocated the ownership percentages of the equity members, due to mutual mistake, lack of consideration, and/or failure of consideration. NexPoint/HCRE essentially sought to reform, rescind, and/or modify the SE Multifamily limited liability company agreement (and possibly other documentation) to give Highland less ownership (or no ownership interest) in SE Multifamily and, accordingly,

[3] Claim No. 146.

[4] Bonds Ellis Eppich Schafer Jones LLP.

NexPoint/HCRE would have a larger ownership interest in SE Multifamily. Next, there occurred years of litigation between the parties, including: (a) a skirmish over Highland's motion to disqualify NexPoint/HCRE's newest counsel (*i.e.,* a law firm that had represented both Highland and NexPoint/HCRE in transactions involving SE Multifamily), which was ultimately granted, and (b) an eleventh-hour attempt by NexPoint/HCRE to withdraw its Proof of Claim (by its newest law firm—this one #3 regarding the Proof of Claim), on the eve of depositions of its principals, including Dondero, and just prior to a trial on the merits. Highland objected to the withdrawal. The court held a hearing on that, as required by Bankruptcy Rule 3006. The court declined to allow withdrawal of the Proof of Claim, when the parties could not stipulate to an agreed form of order (*i.e.,* NexPoint/HCRE was unwilling to withdraw the Proof of Claim ***with prejudice*** to asserting its claims again in any future litigation in any forum).

Painfully, after all this, an evidentiary hearing was held on the merits of the Proof of Claim ("Trial") on November 1, 2022. During the Trial, Highland made an oral motion for a bad faith finding and assessment of attorneys' fees against NexPoint/HCRE in connection with its filing and prosecution of the Proof of Claim ("Oral Sanctions Motion"), which this court took under advisement, along with the consideration of the Proof of Claim as a whole.

On April 28, 2023, this court entered a 39-page memorandum opinion and order[5] sustaining Highland's objection to NexPoint/HCRE's Proof of Claim, but denying Highland's Oral Sanctions Motion, without prejudice, ***as procedurally deficient in that it was made orally and for the first time during the Trial.*** Thus, the Oral Sanctions Motion failed to provide NexPoint/HCRE sufficient notice and an opportunity to respond and, therefore, did not satisfy concerns of due process.

[5] *See Memorandum Opinion and Order Sustaining Debtor's Objection to, and Disallowing, Proof of Claim Number 146 [Dkt. No. 906]* ("Proof of Claim Disallowance Order"). Dkt. No. 3767.

On June 16, 2023, Highland filed the instant Sanctions Motion, setting forth the legal and factual bases for the relief sought. The Sanctions Motion specifically seeks a finding of bad faith against NexPoint/HCRE and reimbursement of Highland's attorneys' fees and costs, as a sanction for NexPoint/HCRE's filing and prosecution of the Proof of Claim.

After due notice to NexPoint/HCRE, and a hearing held January 24, 2024 on the Sanctions Motion ("Sanctions Motion Hearing"), and after consideration of the pleadings filed, evidence in the record, and arguments of counsel, the court finds, for the reasons detailed in the findings of fact and conclusions of law below,[6] that NexPoint/HCRE acted in bad faith and willfully abused the judicial process in filing, prosecuting, and then pursuing an eleventh-hour withdrawal of its Proof of Claim. Accordingly, NexPoint/HCRE will be required, as a sanction, to reimburse Highland's attorneys' fees and costs (totaling **$825,940.55)** incurred in connection with its objection to the Proof of Claim.

## II. JURISDICTION

This court has jurisdiction and authority to determine and enter a final order in this matter, pursuant to 28 U.S.C. §§ 157(b)(1) and (b)(2)(A), (B), and (O) and 1334.[7]

## III. BACKGROUND, PROCEDURAL HISTORY, AND FINDINGS OF FACT

### *A. Incorporation Herein of Proof of Claim Disallowance Order*

As noted above, this court, on April 28, 2023, issued its 39-page Proof of Claim Disallowance Order, sustaining Highland's objection to NexPoint/HCRE's Proof of Claim

[6] To the extent that any of the findings of fact should be construed as a conclusion of law, it shall be construed as such. To the extent that any of the conclusions of law should be construed as a finding of fact, it shall be construed as such.

[7] The Fifth Circuit recently confirmed the jurisdiction and authority of bankruptcy courts to issue sanctions orders in connection with bankruptcy cases and proceedings over which they exercise jurisdiction, because they are in the nature of ***civil contempt*** orders—which are considered "part of the underlying case" – "because the bankruptcy court had jurisdiction over the [ ] bankruptcy case, it had jurisdiction to enter the sanctions order, too." *Kreit v. Quinn (In re Cleveland Imaging and Surgical Hospital, L.L.C.)*, 26 F.4th 285, 294 (5th Cir. 2022) (cleaned up).

following the Trial on same. The Proof of Claim Disallowance Order sets forth extensive procedural history, findings of fact, and conclusions of law pertaining to NexPoint/HCRE's filing and prosecution of its Proof of Claim, which Highland alleges in the instant Sanctions Motion was conducted in bad faith. NexPoint/HCRE did not appeal the Proof of Claim Disallowance Order. Thus, it is a final and non-appealable order.[8] The court hereby incorporates by reference the Proof of Claim Disallowance Order (and all of the findings and conclusions therein), as if set forth verbatim herein.[9]

***B. Highland Files Sanctions Motion***

On June 16, 2023, Highland filed the instant Sanctions Motion. It was supported with a Declaration of John A. Morris in support of the Sanctions Motion ("Morris Declaration")[10] and 431 pages of attached exhibits as set forth in the following table:

| | |
|---|---|
| Exhibit A | NexPoint/HCRE's Proof of Claim[11] |
| Exhibit B | Highland's Objection to NexPoint/HCRE's Proof of Claim[12] |
| Exhibit C | NexPoint/HCRE's Response to Objection to Claim[13] |

[8] The Proof of Claim Disallowance Order is one of the few bankruptcy court orders issued in this bankruptcy case that was not appealed by Dondero or a Dondero-controlled entity. Although the court has not counted the exact number of appeals filed by Dondero and/or Dondero-controlled entities in this bankruptcy case and related proceedings, this court takes judicial notice of information contained in a vexatious litigant motion filed by Highland in the district court (before Judge Brantley Starr), reflecting that Dondero and his controlled entities have "filed over 35 total appeals." *See Highland Capital Management, L.P.'s Reply to Objections to Motion to Deem the Dondero Entities Vexatious Litigants and for Related Relief*, 12, at ¶ 24, filed on February 9, 2024. Dkt. No. 189 (NDTX Case No. 3:21-cv-00881-X).

[9] The Proof of Claim Disallowance Order was attached as Exhibit D to the Declaration of John A. Morris, Dkt. No. 3852, which was filed by Highland in connection with, and in support of, the relief requested in the Sanctions Motion.

| Exhibit I | Summary of Fees and Expenses Incurred by Highland in Connection with NexPoint/HCRE's Proof of Claim |

The Sanctions Motion (unlike the Oral Sanctions Motion made during the Trial) provided NexPoint/HCRE with due and appropriate notice of the legal and factual bases for Highland's request for a bad faith finding and reimbursement of attorneys' fees and costs incurred by it in litigating the Proof of Claim. As stated in the Sanctions Motion, the legal basis for Highland's request for reimbursement of its attorneys' fees as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim is the bankruptcy court's "inherent authority under section 105 of the Bankruptcy Code to issue sanctions after making a finding of bad faith."[14] Highland referred to specific documentary and testimonial evidence adduced during the Trial that it alleges supports a finding that NexPoint/HCRE filed and prosecuted its Proof of Claim in bad faith, and attached invoices evidencing its attorneys' fees and costs incurred as a direct result of this alleged bad faith.

[14] *See* Sanctions Motion, 10, ¶25.

Before NexPoint/HCRE filed its response to the Sanctions Motion, the matter was stayed on August 2, 2023, pending court-ordered global mediation.[15] The mediation ultimately proved to be unsuccessful.[16] Thereafter, NexPoint/HCRE filed its *Response to Debtor's Motion for (A) Bad Faith Finding and (B) Attorneys' Fees* ("Response")[17] on December 22, 2023. NexPoint/HCRE denies that it filed and prosecuted its Proof of Claim in bad faith and argues it should not be sanctioned at all. It further argues that, even if the filing and prosecution of the Proof of Claim are found to have been in bad faith, the amount of the fees incurred by Highland in connection with the Proof of Claim litigation is "*per se* excessive for a single proof of claim objection"[18] and "extraordinarily high given that this dispute could have been brought to a swift close many months ago"—if only NexPoint/HCRE had been allowed to withdraw its Proof of Claim in September of 2022.[19] Highland's has sought reimbursement of more than $800,000 in attorneys' fees and more than $16,000 in expenses, identified in Exhibits F through H (and summarized in Exhibit I) of the Morris Declaration as having been incurred by Highland in connection with its litigation of the Proof of Claim.

Highland filed its *Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in*

---

[15] *See Order Granting in Part and Denying in Part Motion to Stay and to Compel Mediation*. Dkt. No. 3897. This was not the first time the bankruptcy court has ordered global mediation in the Highland case.

[16] *See Joint Notice of Mediation Report* filed on November 7, 2023. Dkt. No. 3995.

[17] Dkt. No. 3995.

[18] Response, 10, ¶34.

[19] Response, 13, ¶45. NexPoint/HCRE argues that, because it had sought to withdraw its Proof of Claim, any fees incurred by Highland after the filing of NexPoint/HCRE's motion to withdraw cannot be attributable to NexPoint/HCRE's alleged bad faith filing and prosecution of its Proof of Claim; rather, such fees were incurred by Highland as a result of Highland's decision to object to NexPoint/HCRE's withdrawal of its Proof of Claim and to proceed with the litigation, including taking depositions, and proceeding to "trial" on the merits instead of "taking a win" with NexPoint/HCRE's withdrawal of its Proof of Claim. *See* Response, 2.

*Connection with Proof of Claim 146*[20] on January 19, 2024, and filed an *Amended Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in Connection with Proof of Claim 146* ("Reply")[21] on January 23, 2024. Highland argues that "[n]othing in the Response warrants the denial of the [Sanctions] Motion or its requested award of attorneys' fees" and that "the record makes clear" that NexPoint/HCRE and its principals "clearly and convincingly acted in bad faith by (a) knowingly filing and prosecuting a baseless Proof of Claim, . . . ([b]) seeking an unfair litigation advantage by trying to withdraw its Proof of Claim ***after*** taking Highland's depositions but ***before*** subjecting its own witnesses to questioning, and ([c]) trying at all times to preserve for another day the claims it asserted (*i.e.*, to "reform, rescind and/or modify the agreement")."[22]

The court held a hearing on the Sanctions Motion ("Hearing") on January 24, 2024, during which NexPoint/HCRE was given a full opportunity to respond to Highland's allegations of bad faith and request for sanctions.

## IV. CONCLUSIONS OF LAW

### *A. The Sanctions Motion Satisfies Due Process Considerations*

In invoking its inherent power to sanction bad faith conduct or a willful abuse of the judicial process, "[a] court must exercise caution . . . , and it must comply with the mandates of due process, both in determining that the requisite bad faith exists and in assessing fees." *In re Correra*, 589 B.R. 76, 125 (Bankr. N.D. Tex. 2018). As noted above, the court entered its Proof of Claim Disallowance Order on April 28, 2023, in which it sustained Highland's objection to, and disallowed, the Proof of Claim but denied, without prejudice, Highland's Oral Sanctions Motion

[20] Dkt. No. 4018.

[21] Dkt. No. 4023.

[22] Reply, 2, ¶2.

as being procedurally defective because, having been raised for the first time during Trial and not having been made in writing, it had not given NexPoint/HCRE adequate notice and an opportunity to respond to the specific allegations of bad faith being made against it. The court pointed out that it did not address or make any determination regarding the substance of Highland's requests in the Oral Sanctions Motion for a bad faith finding and sanctions against NexPoint/HCRE, subject to Highland's right seek a bad faith finding and sanctions against NexPoint/HCRE upon and after giving it proper notice and an opportunity to respond:

> Here, where the Reorganized Debtor's generic oral request for a finding of bad faith and for "an award costs for a bad faith filing" did not articulate the legal basis for such an award and was raised for the first time during the Trial, HCRE was not given sufficient notice and an opportunity to respond, and, therefore, the court will deny, without prejudice, [Highland's] request for reimbursement of its costs incurred in connection with its objection to HCRE's Proof of Claim.

Proof of Claim Disallowance Order, 38-39 (quoting *In re Emanuel*, 422 B.R. 453, 464 (Bankr. S.D.N.Y. 2010) ("[A] person facing possible sanctions is entitled to due process. . . . At a minimum, the respondent is entitled to notice of the authority for the sanctions, notice of the specific conduct or omission that forms the basis of possible sanctions and the opportunity to respond."); *In re Magari*, 2010 WL 817327 at **2-3 (Bankr. N.D. Tex. Mar. 4, 2010) ("By requesting the sanctions award, the Trustee has raised due process concerns that can only be satisfied by providing to the affected party sufficient notice and opportunity to respond.")).

The court concludes that the instant Sanctions Motion and Hearing have provided NexPoint/HCRE with the due process that was lacking in connection with the Oral Sanctions Motion. NexPoint/HCRE was given adequate notice of the legal authority invoked for sanctions (the bankruptcy court's inherent powers under section 105 of the Bankruptcy Code) and NexPoint/HCRE's specific conduct (the filing and prosecution of its Proof of Claim) that Highland

alleges to have been in bad faith, and NexPoint/HCRE was given adequate opportunity to respond through briefing and at the Hearing on the Sanctions Motion.

With due process concerns having been now addressed and satisfied, the court is able to address the substantive questions raised in the instant Sanctions Motion of (1) whether NexPoint/HCRE did, indeed, act in bad faith in the filing and prosecution of its Proof of Claim and (2) if so, whether an award of reimbursement of Highland's attorneys' fees and costs incurred in connection with its litigation of the Proof of Claim is an appropriate sanction for such bad faith.

### *B. NexPoint/HCRE Filed and Prosecuted its Proof of Claim in Bad Faith and Willfully Abused the Judicial Process*

A bankruptcy court may sanction a litigant for bad faith filing or litigation if the court makes specific findings, based on clear and convincing evidence, of bad faith or willful abuse of the judicial process. *See Cleveland Imaging*, 26 F.4th at 292 (A bankruptcy court may only sanction a party using its inherent authority if "(1) the bankruptcy court finds that the party acted in bad faith or willfully abused the judicial process and (2) its finding is supported by clear and convincing evidence.") (citing *Cadle Co. v. Moore (In re Moore)*, 739 F.3d 724, 729-30 (5th Cir. 2014)). The bankruptcy court's power to sanction bad faith or willful abuse of the judicial process derives from its inherent authority under 11 U.S.C. § 105(a) to issue civil contempt orders. *Id.* at 294, 294 n.14 (quoting the "relevant part" of Bankruptcy Code section 105(a), which provides that bankruptcy courts may "sua sponte, tak[e] any action . . . necessary or appropriate to enforce or implement court orders or rules, or to prevent an abuse of process.") (cleaned up).

Having reviewed the record and the evidence adduced at Trial and NexPoint/HCRE's response to the Sanctions Motion (both in its Response and at the hearing on the Sanctions Motion), the court finds and concludes that there is clear and convincing evidence here that

NexPoint/HCRE filed and prosecuted is Proof of Claim in bad faith and that it willfully abused the judicial process.

1. *Dondero's Execution and Authorization of the Filing of the Proof of Claim Without First Having Read the Document or Conducting Any Due Diligence Was in Bad Faith and a Willful Abuse of the Judicial Process*

As noted in the Proof of Claim Disallowance Order, NexPoint/HCRE filed its Proof of Claim in this Highland bankruptcy case on April 8, 2020, several months after the post-petition "nasty breakup" between Highland and its co-founder and president and chief executive officer, Dondero. NexPoint/HCRE described the basis of its claim in Exhibit A attached to its Proof of Claim:[23]

**Exhibit A**

> HCRE Partner, LLC ("Claimant") is a limited partner with the Debtor in an entity called SE Multifamily Holdings, LLC ("SE Multifamily"). Claimant may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor. Additionally, Claimant contends that all or a portion of Debtor's equity, ownership, economic rights, equitable or beneficial interests in SE Multifamily does [not] belong to the Debtor or may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor. Claimant has requested information from the Debtor to ascertain the exact amount of its claim. This process is on-going. Additionally, this process has been delayed due to the outbreak of the Coronavirus. Claimant is continuing to work to ascertain the exact amount of its claim and will update its claim in the next ninety days.

NexPoint/HCRE was one of the many non-debtor Dondero-controlled entities affiliated with Highland. Dondero was the president and sole manager of NexPoint/HCRE, and an individual named Matt McGraner ("McGraner") was NexPoint/HCRE's vice president and secretary. NexPoint/HCRE had no employees of its own but instead relied on Highland's employees (and employees of other entities controlled by Dondero) to conduct business on its behalf. Dondero executed the Proof of Claim as the "person who is completing and signing this claim," checking

[23] Claim No. 146.

the box that indicates he is "the creditor's attorney or authorized agent" and acknowledging that "I have examined the information in this *Proof of Claim* and have reasonable belief that the information is true and correct" and that "I declare under penalty of perjury that the foregoing is true and correct."[24] The evidence overwhelmingly supports a finding that Dondero signed and authorized the filing of the Proof of Claim (that the court ultimately determined was lacking in any factual or legal support) without having even read it and without conducting any due diligence on, or investigation into, whether the statements made in the Proof of Claim were truthful and accurate, which supports a finding that Dondero's signing and filing of the Proof of Claim on behalf of NexPoint/HCRE was done in bad faith and constituted a willful abuse of the judicial process.

At Trial, Dondero testified that he had authorized his electronic signature to be affixed to the document and to be filed on behalf of NexPoint/HCRE and admitted that he had not reviewed the document before doing so.[25] He further testified that he could not recall "personally [doing] any due diligence of any kind to make sure that Exhibit A was truthful and accurate before [he] authorized it to be filed,"[26] and, more specifically, that he did not, prior to authorizing his law firm (Bonds Ellis) to affix his electronic signature on, and to file, the Proof of Claim, review or provide comments to the Proof of Claim or its Exhibit A, review the SE Multifamily Amended LLC Agreement or any documents,[27] "check with any member of the real estate group to see whether or not they believed [the Proof of Claim] was truthful and accurate before [he] authorized Bonds Ellis to file it," or do "anything . . . to make sure that this proof of claim was truthful and accurate before [he] authorized [his] electronic signature to be affixed and to have it filed on behalf of

[24] Proof of Claim, 3.

[25] Transcript of the November 1, 2022 Trial on Debtor's Objection to HCRE's Proof of Claim ("Trial Tr.")[Dkt. No. 3616] 55:2-22.

[26] Trial Tr. 56:20-23.

[27] Trial Tr. 55:10-22, 56:15-57:6.

HCRE."[28] Moreover, he testified that he did not know whose idea it was to file the Proof of Claim,[29] who at NexPoint/HCRE worked with, or provided information to, Bonds Ellis to enable Bonds Ellis to prepare the Proof of Claim, what information was given to Bonds Ellis that enabled them to formulate the Proof of Claim, or whether "Bonds Ellis ever communicated with anybody in the real estate group regarding [the Proof of Claim]."[30]

Dondero has argued that he had a good faith basis to sign and file the Proof of Claim on behalf of NexPoint/HCRE because "he had a host of responsibilities across a sprawling and sophisticated corporate structure and relied on numerous individuals within that structure to help manage the day-to-day operations of Highland and its subsidiaries and managed funds"[31] and that he "ha[d] to rely on systems and processes[,]" because "[he] can't be directly involved in everything."[32] Dondero further testified that "[he] sign[s] a lot of high-risk documents and [has] to rely on the process and the people and internally and externally as part of the process to sign it without direct validation from or verification from me, and this [Proof of Claim] is another one of those items."[33]

Dondero's "I'm-a-very-busy-person/too-busy-to-be-bothered-to-investigate" excuse is not a defense, as a matter of law, to his bad faith and willful abuse of the judicial process in connection with the filing of the Proof of Claim. Nor is Dondero's claimed reliance on systems and processes in connection with the execution and filing of this Proof of Claim, as a matter of fact, supported by the evidence. The court notes that the Proof of Claim is not a complex, lengthy legal or

[28] Trial Tr. 57:25-58:16.

[29] Trial Tr. 57:7-9.

[30] Trial Tr. 56:1-14.

[33] Trial Tr. 57:25-59:2.

corporate document; Exhibit A to the Proof of Claim, which set forth the basis for the claim, is only one paragraph long, yet Dondero did not even bother to read it before signing under penalty of perjury that the information contained in the Proof of Claim, including Exhibit A, was truthful and accurate. And, Dondero's own testimony contradicts his assertion that he relied on "systems and processes" and on other people within the "sprawling and sophisticated corporate structure" and his outside counsel to ensure the accuracy of the Proof of Claim. He had no reasonable or justifiable basis to rely on anyone or any "process" that was allegedly in place in connection with his signing of "high risk" documents, because he asked no questions, conducted no due diligence, and made no effort, whatsoever, to verify that the information that he was swearing was accurate under penalty of perjury was, in fact, truthful.

The court finds and concludes that the foregoing admissions by NexPoint/HCRE, through Dondero, provide clear and convincing evidence that ***NexPoint/HCRE filed its Proof of Claim*** in bad faith and willfully abused the judicial process.

*2. NexPoint/HCRE's Litigation Strategy and Actions in the Prosecution of Its Proof of Claim Are Further Evidence of Its Bad Faith and Willful Abuse of the Judicial Process*

Moreover, NexPoint/HCRE's ***litigation strategy and actions*** taken in the course of prosecuting its Proof of Claim over the next two and a half years, after filing it, ***provide further support for a finding that NexPoint/HCRE engaged in bad faith and willfully abused the judicial process***.

As noted in the Proof of Claim Disallowance Order, six months after Dondero signed and filed the Proof of Claim in April 2020, and in response to Highland's objection to its Proof of Claim,[34] NexPoint/HCRE fleshed-out the legal and factual bases for its claim:[35]

> After reviewing what documentation is available to [NexPoint/HCRE] with the Debtor, [NexPoint/HCRE] believes the organizational documents relating to SE Multifamily Holdings, LLC (the "SE Multifamily Agreement") improperly allocates the ownership percentages of the members thereto due to mutual mistake, lack of consideration, and/or failure of consideration. As such, [NexPoint/HCRE] has a claim to reform, rescind and/or modify the agreement.
>
> However, [NexPoint/HCRE] requires additional discovery, including, but not limited to, email communications and testimony, to determine what happened in connection with the memorialization of the parties' agreement and improper distribution provisions, evaluate the amount of its claim against the Debtor, and protect its interests under the agreement.

The Response was filed by a new law firm—Wick Phillips Gould & Martin, LLP ("Wick Phillips") – not the law firm of Bonds Ellis, which had handled the filing of the Proof of Claim. In the course of discovery, Highland became aware that Wick Phillips had jointly represented NexPoint/HCRE and Highland in connection with at least some of the underlying transactions that were the subject of the Proof of Claim, and, on April 14, 2021, more than a year after NexPoint/HCRE filed its Proof of Claim, Highland moved to disqualify Wick Phillips.[36] Notably, Highland's Plan had been confirmed on February 22, 2021, over the objections of Dondero and his related entities (including NexPoint/HCRE).[37] The effective date ("Effective Date") of the Plan occurred on August 11, 2021, and Highland became the Reorganized Debtor under the Plan.

---

[34] On July 30, 2020, Highland filed an objection to the allowance of the Proof of Claim, contending it had no liability under the Proof of Claim. *See Debtor's First Omnibus Objection to Certain (A) Duplicate Claims; (B) Overstated Claims; (C) Late-Filed Claims, (D) Satisfied Claims; (E) No-Liability Claims; and (F) Insufficient-Documentation Claims*, Dkt. No. 906.

[35] Response to Objection to Claim, 2-3, ¶¶ 5-6.

[36] Dkt. Nos. 2196-2198. On October 1, 2021, Highland filed a supplemental disqualification motion. Dkt. No. 2893.

[37] NexPoint/HCRE, represented by Wick Phillips, filed its *Objection to Debtor's Fifth Amended Plan of Reorganization* on January 5, 2021. Dkt. No. 1673.

Pursuant to the Plan, on or after the Effective Date, all or substantially all of the Debtor's assets vested in the Reorganized Debtor or the claimant trust ("Claimant Trust") created under the terms of the Plan, including Highland's 46.06% membership interest in SE Multifamily.

Meanwhile, NexPoint/HCRE vigorously fought the disqualification of Wick Phillips, filing its opposition to the disqualification motion on May 6, 2021,[38] and initiating a more than six-month period of expensive discovery and side litigation that culminated, after a lengthy hearing on the disqualification motion, with the entry by this court on December 10, 2021, of its *Order Granting in Part and Denying in Part Highland's Supplemental Motion to Disqualify Wick Phillips Gould & Martin, LLP As Counsel to HCRE Partners, LLC and for Related Relief* ("Disqualification Order"),[39] resolving the disqualification motion by, among other things, disqualifying Wick Phillips from representing NexPoint/HCRE in the contested matter concerning the Proof of Claim, but specifically denying Highland's request that NexPoint/HCRE reimburse it all costs and fees incurred in making and prosecuting the disqualification motion.[40]

In the instant Sanctions Motion, Highland acknowledged that the court denied Highland's specific request for sanctions of reimbursement of Highland's costs and fees in making the Disqualification Motion in its December 2021 Disqualification Order.[41] The court notes that the denial was not "with prejudice"[42] to Highland's right to bring a sanctions motion in the future in connection with allegations that NexPoint/HCRE's filing and prosecution of its Proof of Claim, including its vigorous defense of the Disqualification Motion. Notably, while Highland includes

[38] Dkt. Nos. 2278 and 2279.

[39] Dkt. No. 3106.

[40] Disqualification Order, 4.

[41] *See* Sanctions Motion, 4, ¶8.

[42] The Disqualification Order stated, in relevant part, "Highland's request that HCRE reimburse it all costs and fees incurred in making and prosecuting the Motion, including reasonable attorneys' fees, is **DENIED**."

a reference in the instant Sanctions Motion to the lengthy and expensive proceedings on the Disqualification Motion in its recitation of evidence in the record that supports Highland's allegations that NexPoint/HCRE engaged in bad faith conduct in the filing and prosecution of its Proof of Claim, it did ***not*** include them as part of the fees and costs for which Highland is seeking to be reimbursed by NexPoint/HCRE as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.[43]

In any event, following the disqualification of Wick Phillips, NexPoint/HCRE hired yet a third law firm, Hoge & Gameros, LLP, in connection with this matter, and the parties engaged in a second round of extensive discovery, which included the exchange of written discovery and document production and the service of various deposition notices and subpoenas. On August 12, 2022, just two business days after NexPoint/HCRE completed the depositions of Highland's witnesses, and a day after NexPoint/HCRE made a supplemental production of more than 4,000 pages of documentation, and two business days before the consensually scheduled depositions of NexPoint/HCRE's witnesses, Dondero and McGraner, were set to occur, NexPoint/HCRE filed a motion to withdraw its Proof of Claim ("Motion to Withdraw").[44] By this point, Highland had spent hundreds of thousands of dollars objecting to the Proof of Claim.

Query why might NexPoint/HCRE have done this? Just six months earlier, Dondero's family trust, The Dugaboy Investment Trust, had represented to the bankruptcy court that

[43] *See* Morris Declaration, 3-4, at ¶11 (Referencing the court's denial in its Disqualification Order of Highland's previous request for attorneys' fees incurred in connection with the Disqualification Motion, Morris stated "[W]e reviewed the PSZJ Invoices and redacted all entries relating to the Disqualification Motion; thus, for the avoidance of doubt, Highland does not seek any fee award with respect to any work done in connection with the Disqualification Motion.").

[44] *See Motion to Withdraw Proof of Claim* [Dkt. No. 3442].

Highland's 46.06% interest in SE Multifamily was worth $20 million,[45] and now, NexPoint/HCRE (which presumably also spent substantial sums prosecuting its Proof of Claim during the nearly two and a half years of litigation) appeared willing to walk away from its multi-million dollar challenge to Highland's 46.06% interest in SE Multifamily. Highland objected to NexPoint/HCRE's Motion to Withdraw, and the court held a hearing on September 12, 2022 (as required by Bankruptcy Rule 3006), following which the court entered an order denying NexPoint/HCRE's Motion to Withdraw, for the reasons set forth on the record,[46] and directing the parties to "confer in good faith to complete the depositions" of Dondero, McGraner, and NexPoint/HCRE and otherwise comply with the scheduling order that had been entered by the court on this matter, which included appearing for an evidentiary hearing on November 1, 2022.[47] The court denied NexPoint/HCRE's Motion to Withdraw, in part, because it was concerned that the timing of it all–just two business days ***after*** completing Highland's depositions but two business days ***before*** the consensually-scheduled depositions of NexPoint/HCRE's witnesses were to take place—reflected gamesmanship on the part of NexPoint/HCRE (*i.e.,* NexPoint/HCRE prosecuted its Proof of Claim for two and a half years, through and including the taking of depositions of Highland's witness, while shielding its own witnesses from testifying). The court was also concerned by NexPoint/HCRE's repeated attempts to preserve its claims against Highland for use against Highland in the future. In fact, the court entered its order denying NexPoint/HCRE's Motion to Withdraw only after: (1) NexPoint/HCRE refused to agree, at the

[45] *See Motion for Determination of the Value of the Estate and Assets Held by the Claimant Trust* [Docket No. 3382]. As pointed out by Highland in its Response, "[t]here is no dispute that HCRE is the manager of SE Multifamily and therefore—through Mr. Dondero—would be best positioned to opine on the value of Highland's interest in SE Multifamily." Response, 9, at ¶27 n. 4.

[46] The court noted in its order denying HCRE's Motion to Withdraw that, under the Bankruptcy Rules, a creditor does not have an absolute right to withdraw a proof of claim.

[47] Dkt. No. 3525.

September 12 hearing, to language in an order allowing withdrawal of the Proof of Claim that stated, unequivocally, that NexPoint/HCRE waived the right to relitigate or challenge the issue of Highland's 46.06% ownership interest in SE Multifamily, and (2) counsel were thereafter unable, in the day or two after the hearing, to work out mutually acceptable language in an agreed order that protected both parties.[48] As noted in its order denying NexPoint/HCRE's Motion to Withdraw, the court had expressed concerns, during the hearing on the Motion to Withdraw, relating to the integrity of the bankruptcy system and claims process if it allowed NexPoint/HCRE to withdraw its Proof of Claim after two and a half years of litigation, and having caused Highland to spend hundreds of thousands of dollars litigating the Proof of Claim, while at the same time allowing NexPoint/HCRE to preserve its challenges to Highland's ownership interest in SE Multifamily to be used against Highland in the future. The court did not, at the time, make any express findings regarding NexPoint/HCRE's bad faith or abuse of the judicial process, only because Highland's mid-hearing Oral Sanctions Motion had not provided NexPoint/HCRE with adequate notice and an opportunity to respond.[49] With the instant Sanctions Motion, those due process concerns have been satisfied.

Having considered the evidence and argument of counsel at both the Trial on NexPoint/HCRE's Proof of Claim and the hearing on the Sanctions Motion, and the pleadings filed in connection with the Sanctions Motion, including NexPoint/HCRE's written Response, and based on the record as a whole, the court expressly finds and concludes that NexPoint/HCRE's

[48] At the end of the September 12 hearing, the court had expressed concerns about gamesmanship, but, at the same time, assured the parties that it was still open to signing an agreed order regarding withdrawal of the Proof of Claim, if counsel could work out mutually acceptable language that protected both parties "without the pressure of the Court hovering over you." *See* Transcript of Hearing on Motion to Withdraw, Dkt. No. 3519, 50:14-59:14. Apparently, counsel were unable to reach an agreement on the terms of an agreed order, and so the court signed the order at docket number 3525, denying NexPoint/HCRE's Motion to Withdraw.

[49] As noted below, NexPoint/HCRE persisted to the end in arguing that the disallowance of its Proof of Claim could not bar NexPoint/HCRE from making future challenges to Highland's 46.06% membership interest in SE Multifamily.

***litigation strategy and actions*** in prosecution of its Proof of Claim (including vigorous opposition to the Disqualification Motion, the timing of the Motion to Withdraw, and its repeated and overt attempts to preserve the very claims upon which its Proof of Claim was based in connection with the Motion to Withdraw) demonstrates bad faith and a willful abuse of the judicial process on the part of NexPoint/HCRE.

*3. NexPoint/HCRE's Admissions at Trial Are Further Evidence of its Bad Faith Filing and Willful Abuse of the Judicial Process*

Following the denial of NexPoint/HCRE's Motion to Withdraw, the parties complied with the court's order to schedule the depositions of Dondero and McGraner at mutually agreeable times to complete discovery and then appeared at Trial on November 1, 2022. At the conclusion of the Trial, NexPoint/HCRE doubled-down on its request of the court "to grant the proof of claim and reallocate the equity [in SE Multifamily] based on the capital contribution[s]."[50] This was despite admissions by Dondero and McGraner in their Trial testimony that made it clear that NexPoint/HCRE did not, and never did, have a factual or legal basis for its request. Nevertheless, NexPoint/HCRE continued to the end to try to limit any order disallowing its Proof of Claim so as to preserve its right to assert the very claims asserted in its Proof of Claim (for rescission, reformation and/or modification of the SE Multifamily Amended LLC Agreement to reallocate the membership percentages) for use in the future.[51]

The Trial testimony of Dondero and McGraner revealed that NexPoint/HCRE had no factual basis to claim that a mistake was made by any of the parties, much less a mutual mistake

[50] Trial Tr. 179:23-25; 180:8-9.

[51] Trial Tr. 179:21-24 ("They want you to make findings that we can't raise any of these other issues, rescissions, stays, et cetera, going forward. That's not proper relief on a proof of claim."); 200:8-12 ("If Your Honor's going to deny the proof of claim, I would ask that you simply deny the proof of claim. We don't have an adversary proceeding here. There wasn't one started. Mr. Morris considered that and then didn't follow that path, because all we have here today is a proof of claim.").

of the parties, regarding the allocation of ownership percentages in SE Multifamily in corporate documentation,[52] and, in fact, "the evidence overwhelmingly point[ed] to the conclusion that both Mr. Dondero and Mr. McGraner understood that the allocation of 46.06% membership interest to Highland, and a total capital contribution by Highland of $49,000 in the Amended LLC Agreement, reflected the intent of the parties prior to, and at the time of, the execution of the Amended LLC Agreement."[53] The court specifically noted in the Proof of Claim Disallowance Order that Dondero admitted that he had not read or reviewed the Amended LLC Agreement or any drafts of it before he signed it—apparently the Amended LLC Agreement was one of those important, high-risk documents that Dondero was too busy to read or investigate before signing (like the Proof of Claim)—but he nevertheless testified that "the capital contributions and membership allocations contained in Schedule A of the Amended LLC Agreement comported with his understanding and intent when he signed the Amended LLC Agreement on behalf of HCRE and Highland."[54] NexPoint/HCRE was also unable to produce any evidence at Trial to support its factual allegation that there was a "lack of consideration" or a "failure of consideration" with respect to the Amended LLC Agreement, such that NexPoint/HCRE would be entitled to a

[52] The court concluded, specifically, that

> HCRE did not produce any evidence, much less clear and convincing evidence, that the parties to the Amended LLC Agreement – HCRE, Highland, BH Equities, and Liberty – had come to a specific and understanding, prior to the execution of the Amended LLC Agreement in March 2019, that the allocation of percentage membership interests in SE Multifamily was different from the percentage allocations contained in the Amended LLC Agreement. When asked on cross-examination, Mr. McGraner, HCRE's officer and co-owner who was most involved in the negotiations of the terms of the Amended LLC Agreement, was unable to identify any specific mistake made in the drafting of the Amended LLC Agreement. Neither he nor NexPoint/HCRE's other witness, Mr. Dondero, were able to point to a specific meeting of the minds of the members of SE Multifamily prior to (or after, for that matter) the execution of the Amended LLC Agreement that the parties intended Highland's allocation of SE Multifamily membership interests to be any percentage other than the 46.06% allocation attributed to Highland in the written Amended LLC Agreement.

Proof of Claim Disallowance Order, 30.

[53] *Id.*, 30-31.

[54] *Id.*, 31 n. 119.

reformation,[55] rescission,[56] or modification of it, to re-allocate the ownership percentages that the parties agreed to at the time of the execution of it.[57]

In fact, McGraner ultimately admitted in his Trial testimony that the only reason NexPoint/HCRE had for filing its Proof of Claim, which challenged Highland's title to its 46.06% membership interest in SE Multifamily, was, essentially, ***that NexPoint/HCRE was frustrated with the consequences of Dondero's decision in 2019 to seek bankruptcy protection for Highland (notably, the bankruptcy case was filed just a few months after the Amended LLC Agreement was executed), which resulted in Dondero losing control over Highland***, such that, as far as NexPoint/HCRE was concerned, its "partner" [in SE Multifamily] was no longer its "partner." The court noted in the Proof of Claim Disallowance Order that McGraner

> could not point to any provision of the Amended LLC Agreement that was either "wrong" or a "mistake;" rather, he testified that the "mistake" was "when the bankruptcy was filed and we can't amend it" because "[o]ur partners aren't our partners" – "if you have good partners and you're working with partners that are –

---

[55] After noting that "neither lack of consideration nor failure of consideration are bases for reformation of a contract under Delaware law (which is what NexPoint/HCRE is seeking in its Proof of Claim)," the court concluded that "HCRE is not entitled to reformation of the Amended LLC Agreement to reallocate the members' membership interests as requested based on its allegations of lack of consideration and/or failure of consideration." Proof of Claim Disallowance Order, 32 n. 120.

[56] The court noted in the Proof of Claim Disallowance Order that NexPoint/HCRE had not actually stated a claim for rescission of the Amended LLC Agreement with respect to its Proof of Claim, but that, if it had,

> Mr. Dondero's admission that he did not read the Amended LLC Agreement (or even have the terms explained to him by counsel or anyone else) prior to signing it on behalf of HCRE and Highland would bar any claim by HCRE for rescission of the Amended LLC Agreement. Moreover, even if HCRE's claim for rescission was not barred by Mr. Dondero's failure to read the Amended LLC Agreement prior to signing it, HCRE did not present any evidence of the other elements of a rescission claim: that the parties were mistaken as to a basic assumption on which the Amended LLC Agreement was made and that the mistake had a material effect on the agreed-upon exchange of performances.

Proof of Claim Disallowance Order, 33-34.

[57] *See* Proof of Claim Disallowance Order, 32-33 n. 120 (where the court found that "HCRE has not shown that there was a lack or failure of consideration on behalf of Highland in connection with the Amended LLC Agreement. . . . Under Delaware law, the courts 'limit [their] inquiry into consideration to its existence and not whether it is fair or adequate,' . . . . '[E]ven if the consideration exchanged is grossly unequal or of dubious value, the parties to a contract are free to make their bargain.' (citations omitted). Here, it is undisputed that Highland made a cash capital contribution of $49,000, that Highland was a jointly and severally liable coborrower under the KeyBank Loan, and that SE Multifamily (and HCRE), having no employees of their own, relied on Highland's employees to conduct business. Thus, HCRE's claim, to the extent it is based on alleged lack and/or failure of consideration fails.").

> that are known to you, then you make amendments to reflect the contributions of those partners, whether monetary or otherwise . . . [a]nd my understanding is I can't do that right now."[58]

McGraner testified that "despite Mr. Dondero being in control of both HCRE and Highland prior to the bankruptcy filing, and despite 'all of the fears [he] had [related to Highland's bankruptcy filing],' HCRE made no effort to amend the agreement before the bankruptcy or post-bankruptcy (because 'we didn't think it would be worth it')[ ][59] [and] 'because [it] hoped that the issues that caused the bankruptcy filing would resolve themselves.'"[60] This is not a good-faith basis for filing and prosecuting the Proof of Claim, and it exhibits a willful abuse of the bankruptcy claims process by NexPoint/HCRE.

In summary, the admissions by Dondero and McGraner in their Trial testimony made clear that NexPoint/HCRE never had a factual or legal basis for the Proof of Claim. NexPoint/HCRE's principals knew, at the time of filing and through its prosecution of the Proof of Claim, that there was no factual basis for its claim of rescission, reformation, and/or modification of the Amended LLC Agreement to dispossess Highland of some or all of its 46.06% membership interest in SE Multifamily. This clearly and convincingly constitutes bad faith by NexPoint/HCRE and a willful abuse of the judicial process.

### *C. Reimbursement of Attorneys' Fees and Costs Incurred by Highland in the Proof of Claim Litigation Is an Appropriate Sanction for NexPoint/HCRE's Bad Faith*

Having found and concluded by clear and convincing evidence that NexPoint/HCRE filed and prosecuted (and attempted withdrawal of) its Proof of Claim in bad faith and willfully abused the judicial process, this court may use its inherent powers under Bankruptcy Code section 105(a)

---

[58] Proof of Claim Disallowance Order, 27 (citing Trial Tr. 114:24-115:16, 118:6-15).

[59] *Id.* (citing Trial Tr. 121:24-122:9).

[60] *Id.* at 28 (citing Trial Tr. 122:20-125:21).

to sanction it for such conduct. Reimbursement of the opposing party's fees and costs incurred in responding to a bad faith filing or willful abuse of the judicial process has been upheld as an appropriate form of sanctions. *See Cleveland Imaging*, 26 F.4th at 294 (upholding the bankruptcy court's sanction order that required the parties who were found to have filed bankruptcy petitions in bad faith to reimburse the fees incurred by a post-confirmation litigation trust in responding to the bad faith filing); *Carroll v. Abide (In re Carroll)*, 850 F.3d 811 (5th Cir. 2017) (bankruptcy court did not abuse its discretion in ordering the debtors to "pay $49,432, which represents the amount of attorneys' fees incurred by [the bankruptcy trustee] in responding to certain instances of the [debtors'] bad faith conduct."); *In re Yorkshire, LLC*, 540 F.3d 328, 332 (5th Cir. 2008) (affirming bankruptcy court's use of its inherent powers to issue monetary sanctions for bad faith filing that were, in part, based upon the opposing parties' attorneys' fees and costs "following an extensive hearing in which the bankruptcy court heard testimony from the parties and witnesses and made certain credibility determinations," and "made specific findings that Appellants acted in bad faith."); *In re Paige*, 365 B.R. 632, 637-399 (Bankr. N.D. Tex. 2007) (awarding attorneys' fees against debtor for their "bad faith" conduct during bankruptcy case, noting "[t]he sanction here is derived from the Court's inherent power to sanction" under section 105(a)); *In re Lopez*, 576 B.R. 84, 93 (S.D. Tex. 2017) (same). Any sanction imposed pursuant to a bankruptcy court's inherent powers for bad faith conduct or willful abuse of the judicial process "must be compensatory rather than punitive in nature." *In re Lopez*, 576 B.R. at 93 (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. 101, 108 (2017) (citing *Mine Workers v. Bagwell*, 512 U.S. 821, 826-30 (1994)). "[A] sanction counts as compensatory only if it is 'calibrate[d] to [the] damages caused by' the bad-faith acts on which it is based[,]" and "[a] fee award is so calibrated if it covers the legal bills that the litigation abuse occasioned." *Goodyear Tire & Rubber*, 581 U.S.

at 108 (quoting *Bagwell*, 512 U.S. at 834). The fee award must be "limited to the fees the innocent party incurred solely because of the misconduct—or put another way, to the fees that party would not have incurred but for the bad faith." *Id.* (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. at 104). The "'causal link' between the sanctionable conduct and the opposing party's attorney's fees" must be established "through a 'but-for test:' to wit, the complaining party may only recover the portion of fees that they would not have paid 'but-for' the sanctionable conduct." *Id.* (citing *Goodyear Tire & Rubber*, 581 U.S. at 108-109 (citing *Fox v. Vice*, 563 U.S. 826, 836 (2011)).

Here, as earlier noted, Highland has requested, as a sanction, reimbursement of its attorneys' fees and costs incurred by it in responding to NexPoint/HCRE's filing and prosecution of its Proof of Claim. Specifically, Highland seeks reimbursement of an aggregate amount of **$825,940.55**, consisting of

- **$782,476.50** in attorneys' fees charged by its primary bankruptcy counsel, PSZJ, for the period August 1, 2021 through December 31, 2022, for work performed in connection with the litigation of the Proof of Claim;[61]
- **$16,164.05** in third-party expenses for court reporting services provided in connection with the Proof of Claim litigation;[62] and,

[61] *See* Morris Declaration, 3-4, at ¶¶ 8-13, and Ex. F. As stated in the Morris Declaration, the $782,476.50 amount does not include any fees relating to the Disqualification Motion or any fees that PSZJ concluded were inadvertently coded by a timekeeper to the NexPoint/HCRE Claim Objection category "or that were otherwise unrelated to services rendered in connection with the Proof of Claim litigation." *Id.*, 3-4, at ¶¶ 11 and 12. By way of specific example, Morris stated that "in 2022 and 2023 we charged Highland for services rendered in connection with our unsuccessful attempts to obtain SE Multifamily's books and records but excluded those charges here because they do not directly relate to the litigation of HCRE's Proof of Claim; Highland is seeking those fees in the Delaware Chancery Court where Highland was forced to commence an action against HCRE for specific performance (Case No. 2023-0493-LM))." *Id.*, 4, at ¶ 12.

[62] *See id.*, 4, at ¶ 14, and Ex. G.

- **$27,300.00** in attorneys' fees charged by David Agler for providing Highland with specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim.[63]

NexPoint/HCRE challenges Highland's request for reimbursement of its fees on several bases. ***First***, it argues that it cannot be ordered to reimburse the fees and expenses incurred by Highland ***after*** NexPoint/HCRE attempted to withdraw its Proof of Claim because they do not satisfy the "but for" test for establishing a "causal link" between those fees and costs and NexPoint/HCRE's filing and pursuit of its Proof of Claim—that Highland cannot show that "but for" NexPoint/HCRE's filing and prosecution of its Proof of Claim, Highland would not have incurred those fees and costs. NexPoint/HCRE urges the court to adopt its narrative of the proceedings that "instead of taking a win, [Highland] and its lawyers chose to generate fees to get the same result" and thus Highland's attorneys' efforts were "totally unnecessary" and a "waste of time and resources" that was "the fault of [Highland], not [NexPoint/HCRE]."[64] NexPoint/HCRE states in its Response that "[h]ere, ***it is undisputed*** that, had [Highland] agreed to the withdrawal of the Proof of Claim many months ago – before engaging in costly additional discovery and preparing for and attending a trial on the merits of the claim – [Highland] would have been exactly in the same position that it is in now, but at far less expense" and further that "[t]he real, practical difference between refusing to consent to the withdrawal of [NexPoint/HCRE]'s Proof of Claim and instead prosecuting the Objection to its end is several hundred thousand dollars in attorneys' fees" and, thus, "[t]he Motion abjectly fails any 'but–for' analysis."[65]

---

[63] *See id.*, 4-5, at ¶¶ 15 and 16, and Ex. H. A summary of the aggregate fees and expenses of which Highland is seeking reimbursement in the Sanctions Motion is attached as Exhibit I to the Morris Declaration. *See id.*, 5, at ¶ 17, and Ex. I.

[64] Response, 2.

[65] Response, 20, at ¶60 (emphasis added).

The court disagrees with NexPoint/HCRE's "narrative" and its view of the evidence established at Trial. Highland ***does*** dispute NexPoint/HCRE's contention that, if only it had allowed it to withdraw its Proof of Claim and accepted a "win," that Highland would have been "exactly in the same position that it is in now [after a Trial and ruling on the merits of the Proof of Claim], but at far less expense." The court does as well. As Highland has argued, NexPoint/HCRE's Motion to Withdraw was itself filed in bad faith. Highland was forced to oppose the withdrawal of the Proof of Claim because NexPoint/HCRE would not agree to a withdrawal, with prejudice, to NexPoint/HCRE's right to challenge Highland's title to its 46.06% membership interest in SE Multifamily in the future.[66] The evidence clearly and convincingly established that any "win" or "victory" that Highland would have obtained through the withdrawal of the Proof of Claim[67]

> would have been pyrrhic because ***HCRE—in a clear act of bad faith—tried to withdraw its Proof of Claim while preserving the substance of it claims for another day***. Had HCRE's duplicitous strategy been successful, Highland's interest in SE Multifamily would have remained subject to challenge—an untenable result for anyone, let alone a post-confirmation entity seeking to implement a court-approved asset monetization plan.

The court finds and concludes, as argued by Highland, that there is clear and convincing evidence here that the fees and costs incurred by it, after NexPoint/HCRE sought to withdraw its Proof of Claim (*i.e.,* to prepare for the Trial and prosecute its objection to the Proof of Claim through a trial and ruling on the merits), would not have been incurred "but for" NexPoint/HCRE's bad faith. As pointed out by Highland and as noted above,[68] the court did not enter the Proof of Claim Disallowance Order in December 2022 in a vacuum. Rather, the court denied

---

[66] *See supra* note 45 and accompanying text.

[67] Response, 5, at ¶18.

[68] *See supra* at pages 16-17.

NexPoint/HCRE's Motion to Withdraw only ***after:*** (1) the court had expressed concerns that the timing and context of its filing of its Motion to Withdraw suggested gamesmanship on its part, and that the integrity of the bankruptcy system and claims process would be in jeopardy if the court were to simply allow withdrawal, without protecting Highland from future challenges to its membership interest in SE Multifamily (particularly, after Highland had spent hundreds of thousands of dollars to that point in objecting to the Proof of Claim); and (2) NexPoint/HCRE refused to agree to language in an order that would alleviate these expressed concerns. The court—having now made an express finding that NexPoint/HCRE's filing of its Motion to Withdraw was in bad faith and part of its willful abuse of the bankruptcy claims process that began with the filing of its Proof of Claim in April 2020—now expressly finds that the fees and costs incurred by Highland after NexPoint/HCRE filed its Motion to Withdraw were necessary for Highland to protect its interests and would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

***Second***, NexPoint/HCRE objects to Highland's fees ($809,776.50) and expenses ($16,164.05) as being "*per se* excessive for a single proof of claim objection."[69] Highland argues that "[s]pending less than 5% of the value of an asset (according to Mr. Dondero's family trust) to obtain good, clear title is economically rational and consistent with the Claimant Trust's duty to maximize value for the benefit of the Claimant Trust's beneficiaries." Per the Morris Declaration, Highland only seeks reimbursement of expenses and fees charged to Highland for expenses incurred and work performed in litigating the Proof of Claim (but—as noted earlier—specifically excluding any fees charged relating to the Disqualification Motion). The court agrees with Highland and finds that the fees and expenses incurred by it in objecting to the Proof of Claim,

[69] Response, 10, ¶34.

including the fees incurred ***after*** NexPoint/HCRE sought to withdraw its Proof of Claim, were reasonable and necessary for Highland to protect a valuable asset—it's 46.06% interest in SE Multifamily—and, thus, they are not excessive.

***Third***, NexPoint/HCRE complains, in its Response, that the fees charged by PSZJ were unreasonable and excessive because the PSZJ invoices show that it was seeking reimbursement for fees charged by "layers of timekeepers whose identities and roles have not been disclosed."[70] NexPoint/HCRE points out three professionals (two of whom billed one hour or less) who were identified in PSZJ's invoices only by their initials.[71] In its Reply, Highland identified the timekeepers by name—as a litigator who billed one hour of time; a bankruptcy attorney who billed 0.6 hours of time; and a bankruptcy partner who billed 15.1 hours of time—all of whom were "called upon to provide discrete support."[72] Collectively, the three previously "unidentified" attorneys charged just 0.023% of the total fee request.[73] PSZJ's identification of the "unidentified timekeepers" and explanation of the work performed by them satisfies the court that these fees were reasonable and necessary fees incurred as a direct result of NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim. The court rejects NexPoint/HCRE's suggestion that PSZJ overstaffed and overbilled the file because there were "layers of timekeepers." As pointed out in Highland's Reply, "over 82% of the charges related to one litigation partner . . . , one litigation associate . . . , and one paralegal" and "[t]wo other lawyers who have been on the Pachulski team since the inception of this engagement . . . billed relatively modest amounts of time over the course

[70] *Id.*, 13, ¶45.
[71] *Id.*, 12, ¶38.
[72] Reply, 9, ¶28.
[73] *Id.*

of this prolonged litigation."[74] There is simply no factual basis to support a conclusion that the matter was overstaffed.

***Fourth***, NexPoint/HCRE objects to $9,840 charged by two attorneys for travel time,[75] while acknowledging that those attorneys' non-working travel time was billed at half of the attorneys' regular hourly rate.[76] As pointed out by Highland in its Reply, Highland agreed to pay for travel time in its pre-petition engagement letter, so those "charges cannot come as a surprise to Mr. Dondero."[77] The court takes judicial notice of the fact that attorneys charging half of their hourly rates for non-working travel time, as PSZJ did here, pursuant to its engagement letter with Highland that was approved when the court authorized the retention of PSZJ as counsel for the Debtor, is common practice and is a commonly approved term of engagement of professionals in bankruptcy cases. The $9,840 charged by two attorneys for travel time in this matter was a reasonable and necessary expense incurred by Highland in responding to NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.

***Fifth***, and finally, NexPoint/HCRE objects to the fees charged by David Agler (39 hours of work performed at $700 per hour) for providing Highland with tax advice in August 2022, on the basis that the invoice attached as Exhibit H to the Morris Declaration "indicated that it was 'unbilled' work" and that "[w]hatever work he did, it did not manifest itself in the proceedings."[78] Highland pointed out that it ***had*** explained, in the Morris Declaration, that Mr. Agler provided "specialized tax advice concerning SE Multifamily and other matters related to the Proof of

[74] *Id.*, 9, ¶28 n. 5.

[75] Response, 12, ¶37.

[76] *Id.*, 11, ¶36 (Table 1).

[77] Reply, 9-10, ¶29.

[78] Response, 12, ¶42.

Claim."[79] Highland provided a more detailed description of the services provided by Mr. Agler and why those services were necessary in its Reply: "Mr. Agler provided his services in August 2022 in conjunction with Highlands's deposition preparation, including the deposition of SE Multifamily's accountant. These services were necessary because—as Mr. Dondero and Mr. McGraner admitted and as the evidence showed—Highland's participation in SE Multifamily was expected to provide substantial tax benefits."[80] The court finds that the fees charged by David Agler for work performed for Highland that are set forth in Exhibit H to the Morris Declaration were reasonable and necessary expenses incurred by Highland in responding to HCRE's bad faith conduct and that they would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

The court has determined that the full amount of fees – $809,776.50 – and costs – $16,164.05 – that are set forth in detail in Exhibits F through H (and summarized on Exhibit I) of the Morris Declaration were reasonable and necessary for Highland to respond to, and would not have been incurred "but for," NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim, which the court has found to have been a willful abuse by NexPoit/HCRE of the judicial process. Under Fifth Circuit precedent, it is appropriate for the court, in the use of its inherent power under Bankruptcy Code § 105(a), to order NexPoint/HCRE, as a compensatory sanction for its bad faith conduct and willful abuse of the judicial process, to reimburse Highland the full amount of fees and costs requested by Highland, which, in the aggregate, total $825,940.55. NexPoint/HCRE's objections to such amounts as excessive, unnecessary, unreasonable, or unrelated to NexPoint/HCRE's bad faith conduct, are overruled.

---

[79] Reply, 10, ¶30 (citing Morris Declaration, ¶15).

[80] *See id.* (citing Morris Declaration, Ex. [E] (Trial Transcript) 43:2-14; 83:17-84:2; 191:23-193:21 (citing to testimony and tax returns that were admitted into evidence)).

## V. CONCLUSION AND ORDER

In summary, the court has determined that NexPoint/HCRE was given adequate notice and an opportunity to respond to the Sanctions Motion and that there is clear and convincing evidence that it filed and prosecuted its Proof of Claim, including its eleventh-hour attempt to withdraw its Proof of Claim, in bad faith and that it willfully abused the judicial process. Such conduct directly caused Highland to incur $825,940.55 in fees and expenses. In the exercise of its inherent power under Bankruptcy Code § 105(a), the court will grant Highland's Sanctions Motion and order NexPoint/HCRE to reimburse Highland for those fees and expenses as an appropriate sanction for NexPoint/HCRE's bad faith or willful abuse of the judicial process.

Accordingly, and based on the foregoing findings of fact and conclusions of law, including those findings and conclusions in this court's Proof of Claim Disallowance Order, which has been incorporated herein by reference,

**IT IS ORDERED** that the Sanctions Motion [Dkt. No. 3851] be, and hereby is **GRANTED**;

**IT IS FURTHER ORDERED** that, in order to compensate Highland for loss and expense resulting from NexPoint/HCRE's bad faith and willful abuse of the judicial process, in filing and prosecuting its Proof of Claim, NexPoint/HCRE is hereby directed to pay Highland the compensatory sum of **$825,940.55**.

**ORDER DENYING MOTION OF NEXPOINT REAL ESTATE PARTNERS, LLC (F/K/A HCRE PARTNERS, LLC) SEEKING RELIEF FROM ORDER PURSUANT TO FED. R. OF BANKR. P. 9024 AND FED. R. CIV. P. 60(b)(1) & (6)**

On March 18, 2024, NexPoint Real Estate Partners, LLC (f/k/a HCRE Partners, LLC) ("HCRE") filed its *Motion for Relief from Order* (hereinafter, the "Rule 60(b) Motion"),[1] seeking reconsideration of and relief from this court's *Memorandum Opinion and Order Granting Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners, LLC (f/k/a HCRE Partners, LLC) in connection with Proof*

[1] Bankr. Dkt. No. 4040.

1934054240521000000000001

*of Claim # 146* ("HCRE Sanctions Order").[2] The parties stipulated to a briefing schedule and that the parties would seek a setting for a hearing ("Hearing") on the Rule 60(b) Motion. On April 22, 2024, Highland Capital Management, L.P. ("Highland" or "Reorganized Debtor") filed its response ("Response") in opposition to the Rule 60(b) Motion,[3] and HCRE filed its reply ("Reply") thereto on May 1, 2024.[4] The parties presented oral argument at the Hearing that was held on May 16, 2024.

**HCRE and its Proof of Claim.** By way of background, HCRE is an entity whose sole manager is James D. Dondero, the former Chief Executive Officer of the Reorganized Debtor. HCRE and Highland were essentially friendly business partners prepetition—not terribly surprising, as they each had the same chief executive. In any event, HCRE and Highland were equity owners/members of a limited liability company named SE Multifamily Holdings, LLC ("SE").[5] SE owned valuable real estate. SE was only formed in March 2019 and was governed by an amended LLC Agreement ("SE's LLC Agreement"). After Highland filed Chapter 11 in October 2019, and later became managed by three new independent directors and a new CRO and then new CEO, James Seery, Highland and HCRE were no longer amicable business partners. In fact, HCRE filed a proof of claim in Highland's bankruptcy case (on April 8, 2020), for an unliquidated sum, which was electronically signed by Mr. Dondero. The proof of claim asserted that HCRE had a claim against Highland to reduce Highland's equity ownership and rights in SE and, further, that it had grounds to reform, rescind, or modify SE's LLC Agreement based on a mutual mistake.[6] Two years and four months after HCRE filed the proof of claim, on August 12,

[2] Bankr. Dkt. Nos. 4038 & 4039.
[3] Bankr. Dkt. No. 4052.
[4] Bankr. Dkt. No. 4055.
[5] Note that there was also an unrelated minority owner (6%) in SE called BH Equities, LLC.
[6] Claim No. 146 & Bankr. Dkt. No. 1212.

2022, and after significant discovery and litigation regarding the proof of claim, HCRE moved to withdraw the proof of claim.

**HCRE's Motion to Withdraw its Proof of Claim.** There's a rule for withdrawing a proof of claim: Fed. R. Bankr. P. 3006. The bankruptcy court set a hearing, on September 12, 2022, as required by this rule, on HCRE's motion to withdraw the proof of claim ("Sept. 12, 2022 Proof of Claim Withdrawal Hearing").[7] After extensive discussion on the record, the bankruptcy court denied HCRE permission to withdraw its proof of claim—primarily because HCRE declined to withdraw the proof of claim with prejudice to any future litigation in any forum pertaining to the issues raised in the proof of claim. In other words, HCRE would not state unequivocally that it would not re-urge in the future its alleged present entitlement to reform or rescind SE's LLC Agreement. To be clear, HCRE expressed that it would withdraw its proof of claim with prejudice to re-asserting it in the bankruptcy court, and with prejudice to filing any appeal of a bankruptcy court order on same. ***But this type of withdrawal meant little—because the deadline/bar date for filing proofs of claim in the Highland bankruptcy case had passed 16 months earlier anyway***. HCRE would be time-barred from asserting its proof of claim at this late stage in the Highland bankruptcy case. The bankruptcy court was concerned that HCRE was attempting to preserve its present claims against Highland for use in the future in a different forum.[8] If there was going to be litigation over these issues, Highland thought it was time to get on with such litigation. The bankruptcy court was persuaded that, indeed, Highland would be prejudiced if HCRE were allowed to withdraw its proof of claim without clear and unequivocal language in the order that HCRE would not be able to assert its claims and/or theories regarding rescission and/or

[7] Bankr. Dkt. No. 3519 (Transcript).
[8] At the time, it appeared that litigation might be on the horizon in state court involving these parties and regarding business records production.

reformation of the SE LLC Agreement in any future litigation in any court or forum (after all, future litigation is not what a "fresh start" of bankruptcy is about). Thus, the bankruptcy court issued its Order denying withdrawal of the HCRE proof of claim on September 14, 2022 ("Order Denying Withdrawal of HCRE Proof of Claim").[9]

**Trial on the HCRE Proof of Claim.** Thereafter, the bankruptcy court held a trial on November 1, 2022, on the merits of HCRE's proof of claim and ultimately disallowed the proof of claim ("Claim Disallowance Order").[10] There was no evidence presented of any sort of mistake, mutual or otherwise, in connection with SE's LLC Agreement or any other basis for reformation or rescission of SE's LLC Agreement. Moreover, Mr. Dondero testified that he had not even read the HCRE proof of claim or conducted any due diligence regarding the HCRE proof of claim before authorizing his electronic signature to be affixed to it. HCRE did not appeal the Claim Disallowance Order.

**Highland Motion for Sanctions Against HCRE.** Highland thereafter filed a written motion for sanctions pertaining to HCRE conduct surrounding the proof of claim—seeking a bad faith finding and reimbursement of Highland's attorney's fees caused by HCRE's actions. Several months later (after, among other things, renewed attempts at global mediation of the remaining issues in the Highland bankruptcy case), the bankruptcy court granted Highland's motion for sanctions, after a contested hearing ("Order Imposing Sanctions").[11] The Order Imposing Sanctions (which shifted to HCRE approximately $825,000 of the Reorganized Debtor's attorney's fees and expenses incurred by Highland in connection with the HCRE proof of claim—which was less than the entire amount that the Reorganized Debtor had incurred regarding the HCRE proof

[9] Bankr. Dkt. No. 3518.
[10] Bankr. Dkt. No. 3766 & 3767.
[11] Bankr. Dkt. No. 4039.

of claim during the more than three years since it was filed)[12] is the order now subject to HCRE's Rule 60(b) Motion.

**The Rule 60(b) Motion.** HCRE argues, primarily, that the bankruptcy court made two core, related "mistakes" in connection with its Order Imposing Sanctions that it should correct pursuant to Rule 60(b)(1). First, the bankruptcy court allegedly made a "mistake" in refusing to permit HCRE to withdraw its proof of claim based on a mistaken belief by the bankruptcy court that HCRE was not willing to withdraw it with prejudice for all purposes. HCRE now stresses that it was, indeed, willing to withdraw the proof of claim with prejudice to any future litigation in any court—not just in the bankruptcy court. Second, HCRE further argues that the bankruptcy court's mistake of fact on this point caused it to erroneously require an unnecessary trial on the proof of claim—the result of which was Highland incurring/billing unnecessary fees relating to the proof of claim. The bankruptcy court then shifted those fees to HCRE in the Order Imposing Sanctions. HCRE asserts that it is incorrect as a matter of law to conclude that these fees would not have been incurred "but for" HCRE's bad faith conduct. *See Goodyear Tire & Rubber v. Haeger*, 581 U.S. 101, 108 (2017). Therefore, the bankruptcy court should not have shifted them to HCRE as part of the Order Imposing Sanctions.

The court denies the Rule 60(b) Motion. To be sure, this court does not disagree with HCRE that a mistake of fact ***or*** mistake of law can be grounds for granting a Rule 60(b) motion. *See Kemp v. United States*, 596 U.S. 528, 535-36 (2022). The court also does not disagree with

[12] Highland sought attorney's fees and expenses incurred relating to the HCRE proof of claim from the time period of August 1, 2021 through December 31, 2022. The HCRE proof of claim was filed April 8, 2020. Highland not only did not seek any reimbursement for any time and expense for the first 16 months after HCRE filed its proof of claim, but Highland ultimately did not seek (and the bankruptcy court did not allow) any fees that Highland incurred in successfully moving to disqualify HCRE's counsel in this matter, Wick Phillips (note: Wick Phillips was actually the second law firm that HCRE retained pertaining to its proof of claim; a different law firm originally filed the HCRE proof of claim (Bonds Ellis), followed by Wick Philips, and then the Hoge & Gameros, L.L.P. law firm took over, and now the law firm of Reichman Jergensen Lehman & Feldberg LLP is representing HCRE in this matter.

HCRE that an award of fees relating to sanctionable conduct must be limited to fees that would not have been incurred "but for" the sanctionable conduct. *Goodyear Tire*, 581 U.S. 101 at 104, 108 (the "causal link" between the sanctionable conduct and the opposing party's attorney's fees must be established through a "but-for" test; the complaining party may only recover the portion of fees that would not have been paid but-for the sanctionable conduct). However, the bankruptcy court does not believe it made a mistake of fact or of law with regard to either of these points.

First, the bankruptcy court does not believe it made a mistake of fact in interpreting what HCRE was and was not willing to do in connection with its motion to withdraw its proof of claim at the Sept. 12, 2022 Proof of Claim Withdrawal Hearing. HCRE used hedging language, to the extent that it appeared to be willfully obtuse on this point. It was not willing to withdraw the proof of claim ***with prejudice to ever litigating the issues raised in the proof of claim***. It was not future conduct and future theories that HCRE was worried about preserving in future litigation, and the bankruptcy court was certainly not engaging in a mission to ban all future litigation between these parties in perpetuity. The sole concern was about ***claims/theories in the HCRE proof of claim*** being resurrected somewhere else in the future. The transcript of the September 12, 2022 hearing is clear that there was much discussion on this point, and the court even gave the parties a 24-hour break to go talk outside the presence of the court—to hopefully wordsmith an agreed order withdrawing the proof of claim. Apparently, the parties could not reach an agreement on this relatively simple concept. So, the court would not allow withdrawal of the HCRE proof of claim without clarity that the proof of claim issues would not be raised in future litigation somewhere. The court set a trial on the merits of the proof of claim a few weeks later, as the parties were close to being trial-ready. Moreover, a review of the September 12, 2022 Transcript reflects that the bankruptcy court focused on multiple factors in disallowing withdrawal of the HCRE proof of

claim—the so-called *Manchester* factors—not simply the failure of HCRE to withdraw the proof of claim with prejudice to all future litigation. *Manchester, Inc. v. Lyle (In re Manchester, Inc.)*, 2008 Bankr. LEXIS 3312, *11-12 (Bankr. N.D. Tex. Dec. 19, 2008) (the *Manchester* factors include: (1) the movant's diligence in bringing the motion to withdraw, (2) any "undue vexatiousness" on the part of the movant, (3) the extent to which the suit has progressed, including the effort and expense undertaken by the non-moving party to prepare for trial, (4) the duplicative expense of re-litigation, and (5) the adequacy of the movant's explanation for the need to withdraw the claim). In other words, there were several factors that caused the bankruptcy court to deny withdrawal of the HCRE proof of claim.

Moreover, even if the court did make a mistake of fact in interpreting what HCRE was and was not willing to do (i.e., in deciphering what "with prejudice" did or did not mean)—and, in relying on this as a basis to deny HCRE permission to withdraw its proof of claim--wouldn't this have been an error of the bankruptcy court in entering its Order Denying Withdrawal of HCRE Proof of Claim? This order—entered September 14, 2023—was not appealed. Nor was the subsequent Order Disallowing Claim. In some ways, the Rule 60(b) Motion smacks of being a collateral attack on the Order Denying Withdrawal of Proof of Claim which was never appealed. Had there been an appeal of it, it would have been apparent that it was a multi-faceted decision, based on many factors (i.e., the *Manchester* factors)—not merely the "with prejudice" issues.[13]

Which leads to the last issue—was there a mistake of law in allowing reimbursement of Highland's fees and expense incurred ***after*** the Order Denying Withdrawal of HCRE Proof of Claim? In particular, over $300,000 of fees were incurred by Highland (and shifted by the court in the Order Imposing Sanctions) associated with the preparation for and trial on the HCRE proof

[13] Bankr. Dkt. No. 3519 (Transcript, pp. 51-55).

of claim. Was this a mistake of law? Only if the bankruptcy court made a mistake in ordering that there would be a trial on the HCRE proof of claim (i.e., only if the bankruptcy court erred in entering its Order Denying Withdrawal of HCRE Proof of Claim, and, as noted above, that order was not appealed by HCRE). The court never would have ordered trial on the merits if not for HCRE's conduct (beginning with its bad faith filing of its proof of claim and including refusing to withdraw its proof of claim with prejudice to all future litigation on the issues raised in the proof of claim). Thus, Highland would not have incurred this $300,000+ in fees and expenses "but-for" HCRE's conduct.

Having considered the Rule 60(b) Motion, the Response, the Reply, and the argument of the parties, the court finds that there is no basis or justification for granting HCRE the relief requested in its Rule 60(b) Motion. Any arguments made in the Rule 60(b) Motion not herein addressed are denied.

Accordingly,

**IT IS ORDERED** that the Rule 60(b) Motion be, and hereby is, **DENIED**.

**MEMORANDUM OPINION AND ORDER GRANTING HIGHLAND CAPITAL MANAGEMENT, L.P.'S MOTION FOR (A) BAD FAITH FINDING AND (B) ATTORNEYS' FEES AGAINST NEXPOINT REAL ESTATE PARTNERS LLC (F/K/A HCRE PARTNERS, LLC) IN CONNECTION WITH PROOF OF CLAIM # 146**

## I. INTRODUCTION

Before this court is a sanctions motion[1] filed by Highland Capital Management, L.P. ("Highland," the "Debtor," or the "Reorganized Debtor"). [2] The motion seeks sanctions against

[1] *Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in connection with Proof of Claim 146* ("Sanctions Motion"). Dkt. No. 3851.

[2] Highland is a reorganized debtor under the confirmed *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* (the "Plan"). Dkt. No. 1808. *See Order (I) Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (II) Granting Related Relief* ("Confirmation Order"). Dkt. No. 1943.

NexPoint Real Estate Partners, LLC, f/k/a HCRE Partners, LLC ("NexPoint/HCRE") for its filing, prosecution, and then abrupt attempt to withdraw a meritless proof of claim (after almost three years of protracted litigation).

NexPoint/HCRE filed the subject proof of claim, #146 on the claims register ("Proof of Claim"), on April 8, 2020.[3] The Proof of Claim was signed electronically by James D. Dondero ("Dondero") and was prepared and filed by a law firm that was representing him personally at that time.[4] The Proof of Claim was not in a liquidated amount and was somewhat ambiguous. It stated in an Exhibit A thereto, that NexPoint/HCRE, which was a limited partner, along with Highland, in a limited liability company called SE Multifamily Holdings, LLC ("SE Multifamily")—an entity which owned valuable real estate—"may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor" and added that Highland's equity interest "may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor." NexPoint/HCRE stated that it would update the Proof of Claim to provide the exact amount of it "in the next ninety days" but never did.

Highland objected to the Proof of Claim. Thereafter, NexPoint/HCRE (while still not providing any liquidated amount of its Proof of Claim) refined its position therein to argue that the organizational documents relating to SE Multifamily improperly allocated the ownership percentages of the equity members, due to mutual mistake, lack of consideration, and/or failure of consideration. NexPoint/HCRE essentially sought to reform, rescind, and/or modify the SE Multifamily limited liability company agreement (and possibly other documentation) to give Highland less ownership (or no ownership interest) in SE Multifamily and, accordingly,

[3] Claim No. 146.

[4] Bonds Ellis Eppich Schafer Jones LLP.

NexPoint/HCRE would have a larger ownership interest in SE Multifamily. Next, there occurred years of litigation between the parties, including: (a) a skirmish over Highland's motion to disqualify NexPoint/HCRE's newest counsel (*i.e.,* a law firm that had represented both Highland and NexPoint/HCRE in transactions involving SE Multifamily), which was ultimately granted, and (b) an eleventh-hour attempt by NexPoint/HCRE to withdraw its Proof of Claim (by its newest law firm—this one #3 regarding the Proof of Claim), on the eve of depositions of its principals, including Dondero, and just prior to a trial on the merits. Highland objected to the withdrawal. The court held a hearing on that, as required by Bankruptcy Rule 3006. The court declined to allow withdrawal of the Proof of Claim, when the parties could not stipulate to an agreed form of order (*i.e.,* NexPoint/HCRE was unwilling to withdraw the Proof of Claim ***with prejudice*** to asserting its claims again in any future litigation in any forum).

Painfully, after all this, an evidentiary hearing was held on the merits of the Proof of Claim ("Trial") on November 1, 2022. During the Trial, Highland made an oral motion for a bad faith finding and assessment of attorneys' fees against NexPoint/HCRE in connection with its filing and prosecution of the Proof of Claim ("Oral Sanctions Motion"), which this court took under advisement, along with the consideration of the Proof of Claim as a whole.

On April 28, 2023, this court entered a 39-page memorandum opinion and order[5] sustaining Highland's objection to NexPoint/HCRE's Proof of Claim, but denying Highland's Oral Sanctions Motion, without prejudice, ***as procedurally deficient in that it was made orally and for the first time during the Trial.*** Thus, the Oral Sanctions Motion failed to provide NexPoint/HCRE sufficient notice and an opportunity to respond and, therefore, did not satisfy concerns of due process.

[5] *See Memorandum Opinion and Order Sustaining Debtor's Objection to, and Disallowing, Proof of Claim Number 146 [Dkt. No. 906]* ("Proof of Claim Disallowance Order"). Dkt. No. 3767.

On June 16, 2023, Highland filed the instant Sanctions Motion, setting forth the legal and factual bases for the relief sought. The Sanctions Motion specifically seeks a finding of bad faith against NexPoint/HCRE and reimbursement of Highland's attorneys' fees and costs, as a sanction for NexPoint/HCRE's filing and prosecution of the Proof of Claim.

After due notice to NexPoint/HCRE, and a hearing held January 24, 2024 on the Sanctions Motion ("Sanctions Motion Hearing"), and after consideration of the pleadings filed, evidence in the record, and arguments of counsel, the court finds, for the reasons detailed in the findings of fact and conclusions of law below,[6] that NexPoint/HCRE acted in bad faith and willfully abused the judicial process in filing, prosecuting, and then pursuing an eleventh-hour withdrawal of its Proof of Claim. Accordingly, NexPoint/HCRE will be required, as a sanction, to reimburse Highland's attorneys' fees and costs (totaling **$825,940.55)** incurred in connection with its objection to the Proof of Claim.

## II. JURISDICTION

This court has jurisdiction and authority to determine and enter a final order in this matter, pursuant to 28 U.S.C. §§ 157(b)(1) and (b)(2)(A), (B), and (O) and 1334.[7]

## III. BACKGROUND, PROCEDURAL HISTORY, AND FINDINGS OF FACT

### *A. Incorporation Herein of Proof of Claim Disallowance Order*

As noted above, this court, on April 28, 2023, issued its 39-page Proof of Claim Disallowance Order, sustaining Highland's objection to NexPoint/HCRE's Proof of Claim

[6] To the extent that any of the findings of fact should be construed as a conclusion of law, it shall be construed as such. To the extent that any of the conclusions of law should be construed as a finding of fact, it shall be construed as such.

[7] The Fifth Circuit recently confirmed the jurisdiction and authority of bankruptcy courts to issue sanctions orders in connection with bankruptcy cases and proceedings over which they exercise jurisdiction, because they are in the nature of ***civil contempt*** orders—which are considered "part of the underlying case" – "because the bankruptcy court had jurisdiction over the [ ] bankruptcy case, it had jurisdiction to enter the sanctions order, too." *Kreit v. Quinn (In re Cleveland Imaging and Surgical Hospital, L.L.C.)*, 26 F.4th 285, 294 (5th Cir. 2022) (cleaned up).

following the Trial on same. The Proof of Claim Disallowance Order sets forth extensive procedural history, findings of fact, and conclusions of law pertaining to NexPoint/HCRE's filing and prosecution of its Proof of Claim, which Highland alleges in the instant Sanctions Motion was conducted in bad faith. NexPoint/HCRE did not appeal the Proof of Claim Disallowance Order. Thus, it is a final and non-appealable order.[8] The court hereby incorporates by reference the Proof of Claim Disallowance Order (and all of the findings and conclusions therein), as if set forth verbatim herein.[9]

### *B. Highland Files Sanctions Motion*

On June 16, 2023, Highland filed the instant Sanctions Motion. It was supported with a Declaration of John A. Morris in support of the Sanctions Motion ("Morris Declaration")[10] and 431 pages of attached exhibits as set forth in the following table:

| | |
|---|---|
| Exhibit A | NexPoint/HCRE's Proof of Claim[11] |
| Exhibit B | Highland's Objection to NexPoint/HCRE's Proof of Claim[12] |
| Exhibit C | NexPoint/HCRE's Response to Objection to Claim[13] |

[8] The Proof of Claim Disallowance Order is one of the few bankruptcy court orders issued in this bankruptcy case that was not appealed by Dondero or a Dondero-controlled entity. Although the court has not counted the exact number of appeals filed by Dondero and/or Dondero-controlled entities in this bankruptcy case and related proceedings, this court takes judicial notice of information contained in a vexatious litigant motion filed by Highland in the district court (before Judge Brantley Starr), reflecting that Dondero and his controlled entities have "filed over 35 total appeals." *See Highland Capital Management, L.P.'s Reply to Objections to Motion to Deem the Dondero Entities Vexatious Litigants and for Related Relief*, 12, at ¶ 24, filed on February 9, 2024. Dkt. No. 189 (NDTX Case No. 3:21-cv-00881-X).

[9] The Proof of Claim Disallowance Order was attached as Exhibit D to the Declaration of John A. Morris, Dkt. No. 3852, which was filed by Highland in connection with, and in support of, the relief requested in the Sanctions Motion.

[10] Dkt. No. 3852.

[11] Claim No. 146, filed April 8, 2020.

[12] *Debtor's First Omnibus Objection to Certain (A) Duplicate Claims; (B) Overstated Claims; (C) Late-Filed Claims; (D) Satisfied Claims; (E) No-Liability Claims; and (F) Insufficient-Documentation Claims* ("Objection to Claim"), filed July 30, 2020. Dkt. No. 906.

[13] *NexPoint Real Estate Partners LLC's Response to Debtor's First Omnibus Objection to Certain (A) Duplicate Claims; (B) Overstated Claims; (C) Late-Filed Claims; (D) Satisfied Claims; (E) No-Liability Claims; and (F) Insufficient-Documentation Claims* ("Response to Objection to Claim"), filed October 19, 2020. Dkt. No. 1212.

| | |
|---|---|
| Exhibit D | Proof of Claim Disallowance Order |
| Exhibit E | Transcript of November 1, 2022 Trial (on NexPoint/HCRE's Proof of Claim) |
| Exhibit F | Attorneys' Fees of Pachulski Stang Ziehl & Jones LLP ("PSZJ") for the period of August 1, 2021 through December 31, 2022 incurred in connection with the litigation on the NexPoint/HCRE Proof of Claim |
| Exhibit G | Invoices for court reporting services provided in connection with depositions taken and defended during the course of the Proof of Claim litigation |
| Exhibit H | Invoice for services rendered by David Agler, who provided specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim |
| Exhibit I | Summary of Fees and Expenses Incurred by Highland in Connection with NexPoint/HCRE's Proof of Claim |

The Sanctions Motion (unlike the Oral Sanctions Motion made during the Trial) provided NexPoint/HCRE with due and appropriate notice of the legal and factual bases for Highland's request for a bad faith finding and reimbursement of attorneys' fees and costs incurred by it in litigating the Proof of Claim. As stated in the Sanctions Motion, the legal basis for Highland's request for reimbursement of its attorneys' fees as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim is the bankruptcy court's "inherent authority under section 105 of the Bankruptcy Code to issue sanctions after making a finding of bad faith."[14] Highland referred to specific documentary and testimonial evidence adduced during the Trial that it alleges supports a finding that NexPoint/HCRE filed and prosecuted its Proof of Claim in bad faith, and attached invoices evidencing its attorneys' fees and costs incurred as a direct result of this alleged bad faith.

[14] *See* Sanctions Motion, 10, ¶25.

Before NexPoint/HCRE filed its response to the Sanctions Motion, the matter was stayed on August 2, 2023, pending court-ordered global mediation.[15] The mediation ultimately proved to be unsuccessful.[16] Thereafter, NexPoint/HCRE filed its *Response to Debtor's Motion for (A) Bad Faith Finding and (B) Attorneys' Fees* ("Response")[17] on December 22, 2023. NexPoint/HCRE denies that it filed and prosecuted its Proof of Claim in bad faith and argues it should not be sanctioned at all. It further argues that, even if the filing and prosecution of the Proof of Claim are found to have been in bad faith, the amount of the fees incurred by Highland in connection with the Proof of Claim litigation is "*per se* excessive for a single proof of claim objection"[18] and "extraordinarily high given that this dispute could have been brought to a swift close many months ago"—if only NexPoint/HCRE had been allowed to withdraw its Proof of Claim in September of 2022.[19] Highland's has sought reimbursement of more than $800,000 in attorneys' fees and more than $16,000 in expenses, identified in Exhibits F through H (and summarized in Exhibit I) of the Morris Declaration as having been incurred by Highland in connection with its litigation of the Proof of Claim.

Highland filed its *Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in*

[15] *See Order Granting in Part and Denying in Part Motion to Stay and to Compel Mediation*. Dkt. No. 3897. This was not the first time the bankruptcy court has ordered global mediation in the Highland case.

[16] *See Joint Notice of Mediation Report* filed on November 7, 2023. Dkt. No. 3995.

[17] Dkt. No. 3995.

[18] Response, 10, ¶34.

[19] Response, 13, ¶45. NexPoint/HCRE argues that, because it had sought to withdraw its Proof of Claim, any fees incurred by Highland after the filing of NexPoint/HCRE's motion to withdraw cannot be attributable to NexPoint/HCRE's alleged bad faith filing and prosecution of its Proof of Claim; rather, such fees were incurred by Highland as a result of Highland's decision to object to NexPoint/HCRE's withdrawal of its Proof of Claim and to proceed with the litigation, including taking depositions, and proceeding to "trial" on the merits instead of "taking a win" with NexPoint/HCRE's withdrawal of its Proof of Claim. *See* Response, 2.

*Connection with Proof of Claim 146*[20] on January 19, 2024, and filed an *Amended Reply in Further Support of Its Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners LLC (f/k/a HCRE Partners, LLC) in Connection with Proof of Claim 146* ("Reply")[21] on January 23, 2024. Highland argues that "[n]othing in the Response warrants the denial of the [Sanctions] Motion or its requested award of attorneys' fees" and that "the record makes clear" that NexPoint/HCRE and its principals "clearly and convincingly acted in bad faith by (a) knowingly filing and prosecuting a baseless Proof of Claim, . . . ([b]) seeking an unfair litigation advantage by trying to withdraw its Proof of Claim ***after*** taking Highland's depositions but ***before*** subjecting its own witnesses to questioning, and ([c]) trying at all times to preserve for another day the claims it asserted (*i.e.*, to "reform, rescind and/or modify the agreement")."[22]

The court held a hearing on the Sanctions Motion ("Hearing") on January 24, 2024, during which NexPoint/HCRE was given a full opportunity to respond to Highland's allegations of bad faith and request for sanctions.

## IV. CONCLUSIONS OF LAW

### *A. The Sanctions Motion Satisfies Due Process Considerations*

In invoking its inherent power to sanction bad faith conduct or a willful abuse of the judicial process, "[a] court must exercise caution . . . , and it must comply with the mandates of due process, both in determining that the requisite bad faith exists and in assessing fees." *In re Correra*, 589 B.R. 76, 125 (Bankr. N.D. Tex. 2018). As noted above, the court entered its Proof of Claim Disallowance Order on April 28, 2023, in which it sustained Highland's objection to, and disallowed, the Proof of Claim but denied, without prejudice, Highland's Oral Sanctions Motion

[20] Dkt. No. 4018.

[21] Dkt. No. 4023.

[22] Reply, 2, ¶2.

as being procedurally defective because, having been raised for the first time during Trial and not having been made in writing, it had not given NexPoint/HCRE adequate notice and an opportunity to respond to the specific allegations of bad faith being made against it. The court pointed out that it did not address or make any determination regarding the substance of Highland's requests in the Oral Sanctions Motion for a bad faith finding and sanctions against NexPoint/HCRE, subject to Highland's right seek a bad faith finding and sanctions against NexPoint/HCRE upon and after giving it proper notice and an opportunity to respond:

> Here, where the Reorganized Debtor's generic oral request for a finding of bad faith and for "an award costs for a bad faith filing" did not articulate the legal basis for such an award and was raised for the first time during the Trial, HCRE was not given sufficient notice and an opportunity to respond, and, therefore, the court will deny, without prejudice, [Highland's] request for reimbursement of its costs incurred in connection with its objection to HCRE's Proof of Claim.

Proof of Claim Disallowance Order, 38-39 (quoting *In re Emanuel*, 422 B.R. 453, 464 (Bankr. S.D.N.Y. 2010) ("[A] person facing possible sanctions is entitled to due process. . . . At a minimum, the respondent is entitled to notice of the authority for the sanctions, notice of the specific conduct or omission that forms the basis of possible sanctions and the opportunity to respond."); *In re Magari*, 2010 WL 817327 at **2-3 (Bankr. N.D. Tex. Mar. 4, 2010) ("By requesting the sanctions award, the Trustee has raised due process concerns that can only be satisfied by providing to the affected party sufficient notice and opportunity to respond.")).

The court concludes that the instant Sanctions Motion and Hearing have provided NexPoint/HCRE with the due process that was lacking in connection with the Oral Sanctions Motion. NexPoint/HCRE was given adequate notice of the legal authority invoked for sanctions (the bankruptcy court's inherent powers under section 105 of the Bankruptcy Code) and NexPoint/HCRE's specific conduct (the filing and prosecution of its Proof of Claim) that Highland

alleges to have been in bad faith, and NexPoint/HCRE was given adequate opportunity to respond through briefing and at the Hearing on the Sanctions Motion.

With due process concerns having been now addressed and satisfied, the court is able to address the substantive questions raised in the instant Sanctions Motion of (1) whether NexPoint/HCRE did, indeed, act in bad faith in the filing and prosecution of its Proof of Claim and (2) if so, whether an award of reimbursement of Highland's attorneys' fees and costs incurred in connection with its litigation of the Proof of Claim is an appropriate sanction for such bad faith.

### *B. NexPoint/HCRE Filed and Prosecuted its Proof of Claim in Bad Faith and Willfully Abused the Judicial Process*

A bankruptcy court may sanction a litigant for bad faith filing or litigation if the court makes specific findings, based on clear and convincing evidence, of bad faith or willful abuse of the judicial process. *See Cleveland Imaging*, 26 F.4th at 292 (A bankruptcy court may only sanction a party using its inherent authority if "(1) the bankruptcy court finds that the party acted in bad faith or willfully abused the judicial process and (2) its finding is supported by clear and convincing evidence.") (citing *Cadle Co. v. Moore (In re Moore)*, 739 F.3d 724, 729-30 (5th Cir. 2014)). The bankruptcy court's power to sanction bad faith or willful abuse of the judicial process derives from its inherent authority under 11 U.S.C. § 105(a) to issue civil contempt orders. *Id.* at 294, 294 n.14 (quoting the "relevant part" of Bankruptcy Code section 105(a), which provides that bankruptcy courts may "sua sponte, tak[e] any action . . . necessary or appropriate to enforce or implement court orders or rules, or to prevent an abuse of process.") (cleaned up).

Having reviewed the record and the evidence adduced at Trial and NexPoint/HCRE's response to the Sanctions Motion (both in its Response and at the hearing on the Sanctions Motion), the court finds and concludes that there is clear and convincing evidence here that

NexPoint/HCRE filed and prosecuted is Proof of Claim in bad faith and that it willfully abused the judicial process.

1. *Dondero's Execution and Authorization of the Filing of the Proof of Claim Without First Having Read the Document or Conducting Any Due Diligence Was in Bad Faith and a Willful Abuse of the Judicial Process*

As noted in the Proof of Claim Disallowance Order, NexPoint/HCRE filed its Proof of Claim in this Highland bankruptcy case on April 8, 2020, several months after the post-petition "nasty breakup" between Highland and its co-founder and president and chief executive officer, Dondero. NexPoint/HCRE described the basis of its claim in Exhibit A attached to its Proof of Claim:[23]

**Exhibit A**

> HCRE Partner, LLC ("Claimant") is a limited partner with the Debtor in an entity called SE Multifamily Holdings, LLC ("SE Multifamily"). Claimant may be entitled to distributions out of SE Multifamily, but such distributions have not been made because of the actions or inactions of the Debtor. Additionally, Claimant contends that all or a portion of Debtor's equity, ownership, economic rights, equitable or beneficial interests in SE Multifamily does [not] belong to the Debtor or may be the property of Claimant. Accordingly, Claimant may have a claim against the Debtor. Claimant has requested information from the Debtor to ascertain the exact amount of its claim. This process is on-going. Additionally, this process has been delayed due to the outbreak of the Coronavirus. Claimant is continuing to work to ascertain the exact amount of its claim and will update its claim in the next ninety days.

NexPoint/HCRE was one of the many non-debtor Dondero-controlled entities affiliated with Highland. Dondero was the president and sole manager of NexPoint/HCRE, and an individual named Matt McGraner ("McGraner") was NexPoint/HCRE's vice president and secretary. NexPoint/HCRE had no employees of its own but instead relied on Highland's employees (and employees of other entities controlled by Dondero) to conduct business on its behalf. Dondero executed the Proof of Claim as the "person who is completing and signing this claim," checking

[23] Claim No. 146.

the box that indicates he is "the creditor's attorney or authorized agent" and acknowledging that "I have examined the information in this *Proof of Claim* and have reasonable belief that the information is true and correct" and that "I declare under penalty of perjury that the foregoing is true and correct."[24] The evidence overwhelmingly supports a finding that Dondero signed and authorized the filing of the Proof of Claim (that the court ultimately determined was lacking in any factual or legal support) without having even read it and without conducting any due diligence on, or investigation into, whether the statements made in the Proof of Claim were truthful and accurate, which supports a finding that Dondero's signing and filing of the Proof of Claim on behalf of NexPoint/HCRE was done in bad faith and constituted a willful abuse of the judicial process.

At Trial, Dondero testified that he had authorized his electronic signature to be affixed to the document and to be filed on behalf of NexPoint/HCRE and admitted that he had not reviewed the document before doing so.[25] He further testified that he could not recall "personally [doing] any due diligence of any kind to make sure that Exhibit A was truthful and accurate before [he] authorized it to be filed,"[26] and, more specifically, that he did not, prior to authorizing his law firm (Bonds Ellis) to affix his electronic signature on, and to file, the Proof of Claim, review or provide comments to the Proof of Claim or its Exhibit A, review the SE Multifamily Amended LLC Agreement or any documents,[27] "check with any member of the real estate group to see whether or not they believed [the Proof of Claim] was truthful and accurate before [he] authorized Bonds Ellis to file it," or do "anything . . . to make sure that this proof of claim was truthful and accurate before [he] authorized [his] electronic signature to be affixed and to have it filed on behalf of

[24] Proof of Claim, 3.

[25] Transcript of the November 1, 2022 Trial on Debtor's Objection to HCRE's Proof of Claim ("Trial Tr.")[Dkt. No. 3616] 55:2-22.

[26] Trial Tr. 56:20-23.

[27] Trial Tr. 55:10-22, 56:15-57:6.

HCRE."[28] Moreover, he testified that he did not know whose idea it was to file the Proof of Claim,[29] who at NexPoint/HCRE worked with, or provided information to, Bonds Ellis to enable Bonds Ellis to prepare the Proof of Claim, what information was given to Bonds Ellis that enabled them to formulate the Proof of Claim, or whether "Bonds Ellis ever communicated with anybody in the real estate group regarding [the Proof of Claim]."[30]

Dondero has argued that he had a good faith basis to sign and file the Proof of Claim on behalf of NexPoint/HCRE because "he had a host of responsibilities across a sprawling and sophisticated corporate structure and relied on numerous individuals within that structure to help manage the day-to-day operations of Highland and its subsidiaries and managed funds"[31] and that he "ha[d] to rely on systems and processes[,]" because "[he] can't be directly involved in everything."[32] Dondero further testified that "[he] sign[s] a lot of high-risk documents and [has] to rely on the process and the people and internally and externally as part of the process to sign it without direct validation from or verification from me, and this [Proof of Claim] is another one of those items."[33]

Dondero's "I'm-a-very-busy-person/too-busy-to-be-bothered-to-investigate" excuse is not a defense, as a matter of law, to his bad faith and willful abuse of the judicial process in connection with the filing of the Proof of Claim. Nor is Dondero's claimed reliance on systems and processes in connection with the execution and filing of this Proof of Claim, as a matter of fact, supported by the evidence. The court notes that the Proof of Claim is not a complex, lengthy legal or

[28] Trial Tr. 57:25-58:16.

[29] Trial Tr. 57:7-9.

[30] Trial Tr. 56:1-14.

[33] Trial Tr. 57:25-59:2.

corporate document; Exhibit A to the Proof of Claim, which set forth the basis for the claim, is only one paragraph long, yet Dondero did not even bother to read it before signing under penalty of perjury that the information contained in the Proof of Claim, including Exhibit A, was truthful and accurate. And, Dondero's own testimony contradicts his assertion that he relied on "systems and processes" and on other people within the "sprawling and sophisticated corporate structure" and his outside counsel to ensure the accuracy of the Proof of Claim. He had no reasonable or justifiable basis to rely on anyone or any "process" that was allegedly in place in connection with his signing of "high risk" documents, because he asked no questions, conducted no due diligence, and made no effort, whatsoever, to verify that the information that he was swearing was accurate under penalty of perjury was, in fact, truthful.

The court finds and concludes that the foregoing admissions by NexPoint/HCRE, through Dondero, provide clear and convincing evidence that ***NexPoint/HCRE filed its Proof of Claim*** in bad faith and willfully abused the judicial process.

*2. NexPoint/HCRE's Litigation Strategy and Actions in the Prosecution of Its Proof of Claim Are Further Evidence of Its Bad Faith and Willful Abuse of the Judicial Process*

Moreover, NexPoint/HCRE's ***litigation strategy and actions*** taken in the course of prosecuting its Proof of Claim over the next two and a half years, after filing it, ***provide further support for a finding that NexPoint/HCRE engaged in bad faith and willfully abused the judicial process***.

As noted in the Proof of Claim Disallowance Order, six months after Dondero signed and filed the Proof of Claim in April 2020, and in response to Highland's objection to its Proof of Claim,[34] NexPoint/HCRE fleshed-out the legal and factual bases for its claim:[35]

> After reviewing what documentation is available to [NexPoint/HCRE] with the Debtor, [NexPoint/HCRE] believes the organizational documents relating to SE Multifamily Holdings, LLC (the "SE Multifamily Agreement") improperly allocates the ownership percentages of the members thereto due to mutual mistake, lack of consideration, and/or failure of consideration. As such, [NexPoint/HCRE] has a claim to reform, rescind and/or modify the agreement.
>
> However, [NexPoint/HCRE] requires additional discovery, including, but not limited to, email communications and testimony, to determine what happened in connection with the memorialization of the parties' agreement and improper distribution provisions, evaluate the amount of its claim against the Debtor, and protect its interests under the agreement.

The Response was filed by a new law firm—Wick Phillips Gould & Martin, LLP ("Wick Phillips") – not the law firm of Bonds Ellis, which had handled the filing of the Proof of Claim. In the course of discovery, Highland became aware that Wick Phillips had jointly represented NexPoint/HCRE and Highland in connection with at least some of the underlying transactions that were the subject of the Proof of Claim, and, on April 14, 2021, more than a year after NexPoint/HCRE filed its Proof of Claim, Highland moved to disqualify Wick Phillips.[36] Notably, Highland's Plan had been confirmed on February 22, 2021, over the objections of Dondero and his related entities (including NexPoint/HCRE).[37] The effective date ("Effective Date") of the Plan occurred on August 11, 2021, and Highland became the Reorganized Debtor under the Plan.

---

[34] On July 30, 2020, Highland filed an objection to the allowance of the Proof of Claim, contending it had no liability under the Proof of Claim. *See Debtor's First Omnibus Objection to Certain (A) Duplicate Claims; (B) Overstated Claims; (C) Late-Filed Claims, (D) Satisfied Claims; (E) No-Liability Claims; and (F) Insufficient-Documentation Claims*, Dkt. No. 906.

[35] Response to Objection to Claim, 2-3, ¶¶ 5-6.

[36] Dkt. Nos. 2196-2198. On October 1, 2021, Highland filed a supplemental disqualification motion. Dkt. No. 2893.

[37] NexPoint/HCRE, represented by Wick Phillips, filed its *Objection to Debtor's Fifth Amended Plan of Reorganization* on January 5, 2021. Dkt. No. 1673.

Pursuant to the Plan, on or after the Effective Date, all or substantially all of the Debtor's assets vested in the Reorganized Debtor or the claimant trust ("Claimant Trust") created under the terms of the Plan, including Highland's 46.06% membership interest in SE Multifamily.

Meanwhile, NexPoint/HCRE vigorously fought the disqualification of Wick Phillips, filing its opposition to the disqualification motion on May 6, 2021,[38] and initiating a more than six-month period of expensive discovery and side litigation that culminated, after a lengthy hearing on the disqualification motion, with the entry by this court on December 10, 2021, of its *Order Granting in Part and Denying in Part Highland's Supplemental Motion to Disqualify Wick Phillips Gould & Martin, LLP As Counsel to HCRE Partners, LLC and for Related Relief* ("Disqualification Order"),[39] resolving the disqualification motion by, among other things, disqualifying Wick Phillips from representing NexPoint/HCRE in the contested matter concerning the Proof of Claim, but specifically denying Highland's request that NexPoint/HCRE reimburse it all costs and fees incurred in making and prosecuting the disqualification motion.[40]

In the instant Sanctions Motion, Highland acknowledged that the court denied Highland's specific request for sanctions of reimbursement of Highland's costs and fees in making the Disqualification Motion in its December 2021 Disqualification Order.[41] The court notes that the denial was not "with prejudice"[42] to Highland's right to bring a sanctions motion in the future in connection with allegations that NexPoint/HCRE's filing and prosecution of its Proof of Claim, including its vigorous defense of the Disqualification Motion. Notably, while Highland includes

[38] Dkt. Nos. 2278 and 2279.

[39] Dkt. No. 3106.

[40] Disqualification Order, 4.

[41] *See* Sanctions Motion, 4, ¶8.

[42] The Disqualification Order stated, in relevant part, "Highland's request that HCRE reimburse it all costs and fees incurred in making and prosecuting the Motion, including reasonable attorneys' fees, is **DENIED**."

a reference in the instant Sanctions Motion to the lengthy and expensive proceedings on the Disqualification Motion in its recitation of evidence in the record that supports Highland's allegations that NexPoint/HCRE engaged in bad faith conduct in the filing and prosecution of its Proof of Claim, it did ***not*** include them as part of the fees and costs for which Highland is seeking to be reimbursed by NexPoint/HCRE as a sanction for NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.[43]

In any event, following the disqualification of Wick Phillips, NexPoint/HCRE hired yet a third law firm, Hoge & Gameros, LLP, in connection with this matter, and the parties engaged in a second round of extensive discovery, which included the exchange of written discovery and document production and the service of various deposition notices and subpoenas. On August 12, 2022, just two business days after NexPoint/HCRE completed the depositions of Highland's witnesses, and a day after NexPoint/HCRE made a supplemental production of more than 4,000 pages of documentation, and two business days before the consensually scheduled depositions of NexPoint/HCRE's witnesses, Dondero and McGraner, were set to occur, NexPoint/HCRE filed a motion to withdraw its Proof of Claim ("Motion to Withdraw").[44] By this point, Highland had spent hundreds of thousands of dollars objecting to the Proof of Claim.

Query why might NexPoint/HCRE have done this? Just six months earlier, Dondero's family trust, The Dugaboy Investment Trust, had represented to the bankruptcy court that

[43] *See* Morris Declaration, 3-4, at ¶11 (Referencing the court's denial in its Disqualification Order of Highland's previous request for attorneys' fees incurred in connection with the Disqualification Motion, Morris stated "[W]e reviewed the PSZJ Invoices and redacted all entries relating to the Disqualification Motion; thus, for the avoidance of doubt, Highland does not seek any fee award with respect to any work done in connection with the Disqualification Motion.").

[44] *See Motion to Withdraw Proof of Claim* [Dkt. No. 3442].

Highland's 46.06% interest in SE Multifamily was worth $20 million,[45] and now, NexPoint/HCRE (which presumably also spent substantial sums prosecuting its Proof of Claim during the nearly two and a half years of litigation) appeared willing to walk away from its multi-million dollar challenge to Highland's 46.06% interest in SE Multifamily. Highland objected to NexPoint/HCRE's Motion to Withdraw, and the court held a hearing on September 12, 2022 (as required by Bankruptcy Rule 3006), following which the court entered an order denying NexPoint/HCRE's Motion to Withdraw, for the reasons set forth on the record,[46] and directing the parties to "confer in good faith to complete the depositions" of Dondero, McGraner, and NexPoint/HCRE and otherwise comply with the scheduling order that had been entered by the court on this matter, which included appearing for an evidentiary hearing on November 1, 2022.[47] The court denied NexPoint/HCRE's Motion to Withdraw, in part, because it was concerned that the timing of it all–just two business days ***after*** completing Highland's depositions but two business days ***before*** the consensually-scheduled depositions of NexPoint/HCRE's witnesses were to take place—reflected gamesmanship on the part of NexPoint/HCRE (*i.e.,* NexPoint/HCRE prosecuted its Proof of Claim for two and a half years, through and including the taking of depositions of Highland's witness, while shielding its own witnesses from testifying). The court was also concerned by NexPoint/HCRE's repeated attempts to preserve its claims against Highland for use against Highland in the future. In fact, the court entered its order denying NexPoint/HCRE's Motion to Withdraw only after: (1) NexPoint/HCRE refused to agree, at the

[45] *See Motion for Determination of the Value of the Estate and Assets Held by the Claimant Trust* [Docket No. 3382]. As pointed out by Highland in its Response, "[t]here is no dispute that HCRE is the manager of SE Multifamily and therefore—through Mr. Dondero—would be best positioned to opine on the value of Highland's interest in SE Multifamily." Response, 9, at ¶27 n. 4.

[46] The court noted in its order denying HCRE's Motion to Withdraw that, under the Bankruptcy Rules, a creditor does not have an absolute right to withdraw a proof of claim.

[47] Dkt. No. 3525.

September 12 hearing, to language in an order allowing withdrawal of the Proof of Claim that stated, unequivocally, that NexPoint/HCRE waived the right to relitigate or challenge the issue of Highland's 46.06% ownership interest in SE Multifamily, and (2) counsel were thereafter unable, in the day or two after the hearing, to work out mutually acceptable language in an agreed order that protected both parties.[48] As noted in its order denying NexPoint/HCRE's Motion to Withdraw, the court had expressed concerns, during the hearing on the Motion to Withdraw, relating to the integrity of the bankruptcy system and claims process if it allowed NexPoint/HCRE to withdraw its Proof of Claim after two and a half years of litigation, and having caused Highland to spend hundreds of thousands of dollars litigating the Proof of Claim, while at the same time allowing NexPoint/HCRE to preserve its challenges to Highland's ownership interest in SE Multifamily to be used against Highland in the future. The court did not, at the time, make any express findings regarding NexPoint/HCRE's bad faith or abuse of the judicial process, only because Highland's mid-hearing Oral Sanctions Motion had not provided NexPoint/HCRE with adequate notice and an opportunity to respond.[49] With the instant Sanctions Motion, those due process concerns have been satisfied.

Having considered the evidence and argument of counsel at both the Trial on NexPoint/HCRE's Proof of Claim and the hearing on the Sanctions Motion, and the pleadings filed in connection with the Sanctions Motion, including NexPoint/HCRE's written Response, and based on the record as a whole, the court expressly finds and concludes that NexPoint/HCRE's

[48] At the end of the September 12 hearing, the court had expressed concerns about gamesmanship, but, at the same time, assured the parties that it was still open to signing an agreed order regarding withdrawal of the Proof of Claim, if counsel could work out mutually acceptable language that protected both parties "without the pressure of the Court hovering over you." *See* Transcript of Hearing on Motion to Withdraw, Dkt. No. 3519, 50:14-59:14. Apparently, counsel were unable to reach an agreement on the terms of an agreed order, and so the court signed the order at docket number 3525, denying NexPoint/HCRE's Motion to Withdraw.

[49] As noted below, NexPoint/HCRE persisted to the end in arguing that the disallowance of its Proof of Claim could not bar NexPoint/HCRE from making future challenges to Highland's 46.06% membership interest in SE Multifamily.

***litigation strategy and actions*** in prosecution of its Proof of Claim (including vigorous opposition to the Disqualification Motion, the timing of the Motion to Withdraw, and its repeated and overt attempts to preserve the very claims upon which its Proof of Claim was based in connection with the Motion to Withdraw) demonstrates bad faith and a willful abuse of the judicial process on the part of NexPoint/HCRE.

*3. NexPoint/HCRE's Admissions at Trial Are Further Evidence of its Bad Faith Filing and Willful Abuse of the Judicial Process*

Following the denial of NexPoint/HCRE's Motion to Withdraw, the parties complied with the court's order to schedule the depositions of Dondero and McGraner at mutually agreeable times to complete discovery and then appeared at Trial on November 1, 2022. At the conclusion of the Trial, NexPoint/HCRE doubled-down on its request of the court "to grant the proof of claim and reallocate the equity [in SE Multifamily] based on the capital contribution[s]."[50] This was despite admissions by Dondero and McGraner in their Trial testimony that made it clear that NexPoint/HCRE did not, and never did, have a factual or legal basis for its request. Nevertheless, NexPoint/HCRE continued to the end to try to limit any order disallowing its Proof of Claim so as to preserve its right to assert the very claims asserted in its Proof of Claim (for rescission, reformation and/or modification of the SE Multifamily Amended LLC Agreement to reallocate the membership percentages) for use in the future.[51]

The Trial testimony of Dondero and McGraner revealed that NexPoint/HCRE had no factual basis to claim that a mistake was made by any of the parties, much less a mutual mistake

[50] Trial Tr. 179:23-25; 180:8-9.

[51] Trial Tr. 179:21-24 ("They want you to make findings that we can't raise any of these other issues, rescissions, stays, et cetera, going forward. That's not proper relief on a proof of claim."); 200:8-12 ("If Your Honor's going to deny the proof of claim, I would ask that you simply deny the proof of claim. We don't have an adversary proceeding here. There wasn't one started. Mr. Morris considered that and then didn't follow that path, because all we have here today is a proof of claim.").

of the parties, regarding the allocation of ownership percentages in SE Multifamily in corporate documentation,[52] and, in fact, "the evidence overwhelmingly point[ed] to the conclusion that both Mr. Dondero and Mr. McGraner understood that the allocation of 46.06% membership interest to Highland, and a total capital contribution by Highland of $49,000 in the Amended LLC Agreement, reflected the intent of the parties prior to, and at the time of, the execution of the Amended LLC Agreement."[53] The court specifically noted in the Proof of Claim Disallowance Order that Dondero admitted that he had not read or reviewed the Amended LLC Agreement or any drafts of it before he signed it—apparently the Amended LLC Agreement was one of those important, high-risk documents that Dondero was too busy to read or investigate before signing (like the Proof of Claim)—but he nevertheless testified that "the capital contributions and membership allocations contained in Schedule A of the Amended LLC Agreement comported with his understanding and intent when he signed the Amended LLC Agreement on behalf of HCRE and Highland."[54] NexPoint/HCRE was also unable to produce any evidence at Trial to support its factual allegation that there was a "lack of consideration" or a "failure of consideration" with respect to the Amended LLC Agreement, such that NexPoint/HCRE would be entitled to a

[52] The court concluded, specifically, that

> HCRE did not produce any evidence, much less clear and convincing evidence, that the parties to the Amended LLC Agreement – HCRE, Highland, BH Equities, and Liberty – had come to a specific and understanding, prior to the execution of the Amended LLC Agreement in March 2019, that the allocation of percentage membership interests in SE Multifamily was different from the percentage allocations contained in the Amended LLC Agreement. When asked on cross-examination, Mr. McGraner, HCRE's officer and co-owner who was most involved in the negotiations of the terms of the Amended LLC Agreement, was unable to identify any specific mistake made in the drafting of the Amended LLC Agreement. Neither he nor NexPoint/HCRE's other witness, Mr. Dondero, were able to point to a specific meeting of the minds of the members of SE Multifamily prior to (or after, for that matter) the execution of the Amended LLC Agreement that the parties intended Highland's allocation of SE Multifamily membership interests to be any percentage other than the 46.06% allocation attributed to Highland in the written Amended LLC Agreement.

Proof of Claim Disallowance Order, 30.

[53] *Id.*, 30-31.

[54] *Id.*, 31 n. 119.

reformation,[55] rescission,[56] or modification of it, to re-allocate the ownership percentages that the parties agreed to at the time of the execution of it.[57]

In fact, McGraner ultimately admitted in his Trial testimony that the only reason NexPoint/HCRE had for filing its Proof of Claim, which challenged Highland's title to its 46.06% membership interest in SE Multifamily, was, essentially, ***that NexPoint/HCRE was frustrated with the consequences of Dondero's decision in 2019 to seek bankruptcy protection for Highland (notably, the bankruptcy case was filed just a few months after the Amended LLC Agreement was executed), which resulted in Dondero losing control over Highland***, such that, as far as NexPoint/HCRE was concerned, its "partner" [in SE Multifamily] was no longer its "partner." The court noted in the Proof of Claim Disallowance Order that McGraner

> could not point to any provision of the Amended LLC Agreement that was either "wrong" or a "mistake;" rather, he testified that the "mistake" was "when the bankruptcy was filed and we can't amend it" because "[o]ur partners aren't our partners" – "if you have good partners and you're working with partners that are –

---

[55] After noting that "neither lack of consideration nor failure of consideration are bases for reformation of a contract under Delaware law (which is what NexPoint/HCRE is seeking in its Proof of Claim)," the court concluded that "HCRE is not entitled to reformation of the Amended LLC Agreement to reallocate the members' membership interests as requested based on its allegations of lack of consideration and/or failure of consideration." Proof of Claim Disallowance Order, 32 n. 120.

[56] The court noted in the Proof of Claim Disallowance Order that NexPoint/HCRE had not actually stated a claim for rescission of the Amended LLC Agreement with respect to its Proof of Claim, but that, if it had,

> Mr. Dondero's admission that he did not read the Amended LLC Agreement (or even have the terms explained to him by counsel or anyone else) prior to signing it on behalf of HCRE and Highland would bar any claim by HCRE for rescission of the Amended LLC Agreement. Moreover, even if HCRE's claim for rescission was not barred by Mr. Dondero's failure to read the Amended LLC Agreement prior to signing it, HCRE did not present any evidence of the other elements of a rescission claim: that the parties were mistaken as to a basic assumption on which the Amended LLC Agreement was made and that the mistake had a material effect on the agreed-upon exchange of performances.

Proof of Claim Disallowance Order, 33-34.

[57] *See* Proof of Claim Disallowance Order, 32-33 n. 120 (where the court found that "HCRE has not shown that there was a lack or failure of consideration on behalf of Highland in connection with the Amended LLC Agreement. . . . Under Delaware law, the courts 'limit [their] inquiry into consideration to its existence and not whether it is fair or adequate,' . . . . '[E]ven if the consideration exchanged is grossly unequal or of dubious value, the parties to a contract are free to make their bargain.' (citations omitted). Here, it is undisputed that Highland made a cash capital contribution of $49,000, that Highland was a jointly and severally liable coborrower under the KeyBank Loan, and that SE Multifamily (and HCRE), having no employees of their own, relied on Highland's employees to conduct business. Thus, HCRE's claim, to the extent it is based on alleged lack and/or failure of consideration fails.").

> that are known to you, then you make amendments to reflect the contributions of those partners, whether monetary or otherwise . . . [a]nd my understanding is I can't do that right now."[58]

McGraner testified that "despite Mr. Dondero being in control of both HCRE and Highland prior to the bankruptcy filing, and despite 'all of the fears [he] had [related to Highland's bankruptcy filing],' HCRE made no effort to amend the agreement before the bankruptcy or post-bankruptcy (because 'we didn't think it would be worth it')[ ][59] [and] 'because [it] hoped that the issues that caused the bankruptcy filing would resolve themselves.'"[60] This is not a good-faith basis for filing and prosecuting the Proof of Claim, and it exhibits a willful abuse of the bankruptcy claims process by NexPoint/HCRE.

In summary, the admissions by Dondero and McGraner in their Trial testimony made clear that NexPoint/HCRE never had a factual or legal basis for the Proof of Claim. NexPoint/HCRE's principals knew, at the time of filing and through its prosecution of the Proof of Claim, that there was no factual basis for its claim of rescission, reformation, and/or modification of the Amended LLC Agreement to dispossess Highland of some or all of its 46.06% membership interest in SE Multifamily. This clearly and convincingly constitutes bad faith by NexPoint/HCRE and a willful abuse of the judicial process.

### *C. Reimbursement of Attorneys' Fees and Costs Incurred by Highland in the Proof of Claim Litigation Is an Appropriate Sanction for NexPoint/HCRE's Bad Faith*

Having found and concluded by clear and convincing evidence that NexPoint/HCRE filed and prosecuted (and attempted withdrawal of) its Proof of Claim in bad faith and willfully abused the judicial process, this court may use its inherent powers under Bankruptcy Code section 105(a)

---

[58] Proof of Claim Disallowance Order, 27 (citing Trial Tr. 114:24-115:16, 118:6-15).

[59] *Id.* (citing Trial Tr. 121:24-122:9).

[60] *Id.* at 28 (citing Trial Tr. 122:20-125:21).

to sanction it for such conduct. Reimbursement of the opposing party's fees and costs incurred in responding to a bad faith filing or willful abuse of the judicial process has been upheld as an appropriate form of sanctions. *See Cleveland Imaging*, 26 F.4th at 294 (upholding the bankruptcy court's sanction order that required the parties who were found to have filed bankruptcy petitions in bad faith to reimburse the fees incurred by a post-confirmation litigation trust in responding to the bad faith filing); *Carroll v. Abide (In re Carroll)*, 850 F.3d 811 (5th Cir. 2017) (bankruptcy court did not abuse its discretion in ordering the debtors to "pay $49,432, which represents the amount of attorneys' fees incurred by [the bankruptcy trustee] in responding to certain instances of the [debtors'] bad faith conduct."); *In re Yorkshire, LLC*, 540 F.3d 328, 332 (5th Cir. 2008) (affirming bankruptcy court's use of its inherent powers to issue monetary sanctions for bad faith filing that were, in part, based upon the opposing parties' attorneys' fees and costs "following an extensive hearing in which the bankruptcy court heard testimony from the parties and witnesses and made certain credibility determinations," and "made specific findings that Appellants acted in bad faith."); *In re Paige*, 365 B.R. 632, 637-399 (Bankr. N.D. Tex. 2007) (awarding attorneys' fees against debtor for their "bad faith" conduct during bankruptcy case, noting "[t]he sanction here is derived from the Court's inherent power to sanction" under section 105(a)); *In re Lopez*, 576 B.R. 84, 93 (S.D. Tex. 2017) (same). Any sanction imposed pursuant to a bankruptcy court's inherent powers for bad faith conduct or willful abuse of the judicial process "must be compensatory rather than punitive in nature." *In re Lopez*, 576 B.R. at 93 (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. 101, 108 (2017) (citing *Mine Workers v. Bagwell*, 512 U.S. 821, 826-30 (1994)). "[A] sanction counts as compensatory only if it is 'calibrate[d] to [the] damages caused by' the bad-faith acts on which it is based[,]" and "[a] fee award is so calibrated if it covers the legal bills that the litigation abuse occasioned." *Goodyear Tire & Rubber*, 581 U.S.

at 108 (quoting *Bagwell*, 512 U.S. at 834). The fee award must be "limited to the fees the innocent party incurred solely because of the misconduct—or put another way, to the fees that party would not have incurred but for the bad faith." *Id.* (quoting *Goodyear Tire & Rubber Co. v. Haeger*, 581 U.S. at 104). The "'causal link' between the sanctionable conduct and the opposing party's attorney's fees" must be established "through a 'but-for test:' to wit, the complaining party may only recover the portion of fees that they would not have paid 'but-for' the sanctionable conduct." *Id.* (citing *Goodyear Tire & Rubber*, 581 U.S. at 108-109 (citing *Fox v. Vice*, 563 U.S. 826, 836 (2011)).

Here, as earlier noted, Highland has requested, as a sanction, reimbursement of its attorneys' fees and costs incurred by it in responding to NexPoint/HCRE's filing and prosecution of its Proof of Claim. Specifically, Highland seeks reimbursement of an aggregate amount of **$825,940.55**, consisting of

- **$782,476.50** in attorneys' fees charged by its primary bankruptcy counsel, PSZJ, for the period August 1, 2021 through December 31, 2022, for work performed in connection with the litigation of the Proof of Claim;[61]
- **$16,164.05** in third-party expenses for court reporting services provided in connection with the Proof of Claim litigation;[62] and,

[61] *See* Morris Declaration, 3-4, at ¶¶ 8-13, and Ex. F. As stated in the Morris Declaration, the $782,476.50 amount does not include any fees relating to the Disqualification Motion or any fees that PSZJ concluded were inadvertently coded by a timekeeper to the NexPoint/HCRE Claim Objection category "or that were otherwise unrelated to services rendered in connection with the Proof of Claim litigation." *Id.*, 3-4, at ¶¶ 11 and 12. By way of specific example, Morris stated that "in 2022 and 2023 we charged Highland for services rendered in connection with our unsuccessful attempts to obtain SE Multifamily's books and records but excluded those charges here because they do not directly relate to the litigation of HCRE's Proof of Claim; Highland is seeking those fees in the Delaware Chancery Court where Highland was forced to commence an action against HCRE for specific performance (Case No. 2023-0493-LM))." *Id.*, 4, at ¶ 12.

[62] *See id.*, 4, at ¶ 14, and Ex. G.

- **$27,300.00** in attorneys' fees charged by David Agler for providing Highland with specialized tax advice concerning SE Multifamily and other matters related to the Proof of Claim.[63]

NexPoint/HCRE challenges Highland's request for reimbursement of its fees on several bases. ***First***, it argues that it cannot be ordered to reimburse the fees and expenses incurred by Highland ***after*** NexPoint/HCRE attempted to withdraw its Proof of Claim because they do not satisfy the "but for" test for establishing a "causal link" between those fees and costs and NexPoint/HCRE's filing and pursuit of its Proof of Claim—that Highland cannot show that "but for" NexPoint/HCRE's filing and prosecution of its Proof of Claim, Highland would not have incurred those fees and costs. NexPoint/HCRE urges the court to adopt its narrative of the proceedings that "instead of taking a win, [Highland] and its lawyers chose to generate fees to get the same result" and thus Highland's attorneys' efforts were "totally unnecessary" and a "waste of time and resources" that was "the fault of [Highland], not [NexPoint/HCRE]."[64] NexPoint/HCRE states in its Response that "[h]ere, ***it is undisputed*** that, had [Highland] agreed to the withdrawal of the Proof of Claim many months ago – before engaging in costly additional discovery and preparing for and attending a trial on the merits of the claim – [Highland] would have been exactly in the same position that it is in now, but at far less expense" and further that "[t]he real, practical difference between refusing to consent to the withdrawal of [NexPoint/HCRE]'s Proof of Claim and instead prosecuting the Objection to its end is several hundred thousand dollars in attorneys' fees" and, thus, "[t]he Motion abjectly fails any 'but–for' analysis."[65]

---

[63] *See id.*, 4-5, at ¶¶ 15 and 16, and Ex. H. A summary of the aggregate fees and expenses of which Highland is seeking reimbursement in the Sanctions Motion is attached as Exhibit I to the Morris Declaration. *See id.*, 5, at ¶ 17, and Ex. I.

[64] Response, 2.

[65] Response, 20, at ¶60 (emphasis added).

The court disagrees with NexPoint/HCRE's "narrative" and its view of the evidence established at Trial. Highland ***does*** dispute NexPoint/HCRE's contention that, if only it had allowed it to withdraw its Proof of Claim and accepted a "win," that Highland would have been "exactly in the same position that it is in now [after a Trial and ruling on the merits of the Proof of Claim], but at far less expense." The court does as well. As Highland has argued, NexPoint/HCRE's Motion to Withdraw was itself filed in bad faith. Highland was forced to oppose the withdrawal of the Proof of Claim because NexPoint/HCRE would not agree to a withdrawal, with prejudice, to NexPoint/HCRE's right to challenge Highland's title to its 46.06% membership interest in SE Multifamily in the future.[66] The evidence clearly and convincingly established that any "win" or "victory" that Highland would have obtained through the withdrawal of the Proof of Claim[67]

> would have been pyrrhic because ***HCRE—in a clear act of bad faith—tried to withdraw its Proof of Claim while preserving the substance of it claims for another day***. Had HCRE's duplicitous strategy been successful, Highland's interest in SE Multifamily would have remained subject to challenge—an untenable result for anyone, let alone a post-confirmation entity seeking to implement a court-approved asset monetization plan.

The court finds and concludes, as argued by Highland, that there is clear and convincing evidence here that the fees and costs incurred by it, after NexPoint/HCRE sought to withdraw its Proof of Claim (*i.e.,* to prepare for the Trial and prosecute its objection to the Proof of Claim through a trial and ruling on the merits), would not have been incurred "but for" NexPoint/HCRE's bad faith. As pointed out by Highland and as noted above,[68] the court did not enter the Proof of Claim Disallowance Order in December 2022 in a vacuum. Rather, the court denied

[66] *See supra* note 45 and accompanying text.

[67] Response, 5, at ¶18.

[68] *See supra* at pages 16-17.

NexPoint/HCRE's Motion to Withdraw only ***after:*** (1) the court had expressed concerns that the timing and context of its filing of its Motion to Withdraw suggested gamesmanship on its part, and that the integrity of the bankruptcy system and claims process would be in jeopardy if the court were to simply allow withdrawal, without protecting Highland from future challenges to its membership interest in SE Multifamily (particularly, after Highland had spent hundreds of thousands of dollars to that point in objecting to the Proof of Claim); and (2) NexPoint/HCRE refused to agree to language in an order that would alleviate these expressed concerns. The court—having now made an express finding that NexPoint/HCRE's filing of its Motion to Withdraw was in bad faith and part of its willful abuse of the bankruptcy claims process that began with the filing of its Proof of Claim in April 2020—now expressly finds that the fees and costs incurred by Highland after NexPoint/HCRE filed its Motion to Withdraw were necessary for Highland to protect its interests and would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

***Second***, NexPoint/HCRE objects to Highland's fees ($809,776.50) and expenses ($16,164.05) as being "*per se* excessive for a single proof of claim objection."[69] Highland argues that "[s]pending less than 5% of the value of an asset (according to Mr. Dondero's family trust) to obtain good, clear title is economically rational and consistent with the Claimant Trust's duty to maximize value for the benefit of the Claimant Trust's beneficiaries." Per the Morris Declaration, Highland only seeks reimbursement of expenses and fees charged to Highland for expenses incurred and work performed in litigating the Proof of Claim (but—as noted earlier—specifically excluding any fees charged relating to the Disqualification Motion). The court agrees with Highland and finds that the fees and expenses incurred by it in objecting to the Proof of Claim,

[69] Response, 10, ¶34.

including the fees incurred ***after*** NexPoint/HCRE sought to withdraw its Proof of Claim, were reasonable and necessary for Highland to protect a valuable asset—it's 46.06% interest in SE Multifamily—and, thus, they are not excessive.

***Third***, NexPoint/HCRE complains, in its Response, that the fees charged by PSZJ were unreasonable and excessive because the PSZJ invoices show that it was seeking reimbursement for fees charged by "layers of timekeepers whose identities and roles have not been disclosed."[70] NexPoint/HCRE points out three professionals (two of whom billed one hour or less) who were identified in PSZJ's invoices only by their initials.[71] In its Reply, Highland identified the timekeepers by name—as a litigator who billed one hour of time; a bankruptcy attorney who billed 0.6 hours of time; and a bankruptcy partner who billed 15.1 hours of time—all of whom were "called upon to provide discrete support."[72] Collectively, the three previously "unidentified" attorneys charged just 0.023% of the total fee request.[73] PSZJ's identification of the "unidentified timekeepers" and explanation of the work performed by them satisfies the court that these fees were reasonable and necessary fees incurred as a direct result of NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim. The court rejects NexPoint/HCRE's suggestion that PSZJ overstaffed and overbilled the file because there were "layers of timekeepers." As pointed out in Highland's Reply, "over 82% of the charges related to one litigation partner . . . , one litigation associate . . . , and one paralegal" and "[t]wo other lawyers who have been on the Pachulski team since the inception of this engagement . . . billed relatively modest amounts of time over the course

[70] *Id.*, 13, ¶45.
[71] *Id.*, 12, ¶38.
[72] Reply, 9, ¶28.
[73] *Id.*

of this prolonged litigation."[74] There is simply no factual basis to support a conclusion that the matter was overstaffed.

***Fourth***, NexPoint/HCRE objects to $9,840 charged by two attorneys for travel time,[75] while acknowledging that those attorneys' non-working travel time was billed at half of the attorneys' regular hourly rate.[76] As pointed out by Highland in its Reply, Highland agreed to pay for travel time in its pre-petition engagement letter, so those "charges cannot come as a surprise to Mr. Dondero."[77] The court takes judicial notice of the fact that attorneys charging half of their hourly rates for non-working travel time, as PSZJ did here, pursuant to its engagement letter with Highland that was approved when the court authorized the retention of PSZJ as counsel for the Debtor, is common practice and is a commonly approved term of engagement of professionals in bankruptcy cases. The $9,840 charged by two attorneys for travel time in this matter was a reasonable and necessary expense incurred by Highland in responding to NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim.

***Fifth***, and finally, NexPoint/HCRE objects to the fees charged by David Agler (39 hours of work performed at $700 per hour) for providing Highland with tax advice in August 2022, on the basis that the invoice attached as Exhibit H to the Morris Declaration "indicated that it was 'unbilled' work" and that "[w]hatever work he did, it did not manifest itself in the proceedings."[78] Highland pointed out that it ***had*** explained, in the Morris Declaration, that Mr. Agler provided "specialized tax advice concerning SE Multifamily and other matters related to the Proof of

[74] *Id.*, 9, ¶28 n. 5.

[75] Response, 12, ¶37.

[76] *Id.*, 11, ¶36 (Table 1).

[77] Reply, 9-10, ¶29.

[78] Response, 12, ¶42.

Claim."[79] Highland provided a more detailed description of the services provided by Mr. Agler and why those services were necessary in its Reply: "Mr. Agler provided his services in August 2022 in conjunction with Highlands's deposition preparation, including the deposition of SE Multifamily's accountant. These services were necessary because—as Mr. Dondero and Mr. McGraner admitted and as the evidence showed—Highland's participation in SE Multifamily was expected to provide substantial tax benefits."[80] The court finds that the fees charged by David Agler for work performed for Highland that are set forth in Exhibit H to the Morris Declaration were reasonable and necessary expenses incurred by Highland in responding to HCRE's bad faith conduct and that they would not have been incurred "but for" NexPoint/HCRE's bad faith conduct and willful abuse of the judicial process.

The court has determined that the full amount of fees – $809,776.50 – and costs – $16,164.05 – that are set forth in detail in Exhibits F through H (and summarized on Exhibit I) of the Morris Declaration were reasonable and necessary for Highland to respond to, and would not have been incurred "but for," NexPoint/HCRE's bad faith filing and prosecution of its Proof of Claim, which the court has found to have been a willful abuse by NexPoit/HCRE of the judicial process. Under Fifth Circuit precedent, it is appropriate for the court, in the use of its inherent power under Bankruptcy Code § 105(a), to order NexPoint/HCRE, as a compensatory sanction for its bad faith conduct and willful abuse of the judicial process, to reimburse Highland the full amount of fees and costs requested by Highland, which, in the aggregate, total $825,940.55. NexPoint/HCRE's objections to such amounts as excessive, unnecessary, unreasonable, or unrelated to NexPoint/HCRE's bad faith conduct, are overruled.

---

[79] Reply, 10, ¶30 (citing Morris Declaration, ¶15).

[80] *See id.* (citing Morris Declaration, Ex. [E] (Trial Transcript) 43:2-14; 83:17-84:2; 191:23-193:21 (citing to testimony and tax returns that were admitted into evidence)).

## V. CONCLUSION AND ORDER

In summary, the court has determined that NexPoint/HCRE was given adequate notice and an opportunity to respond to the Sanctions Motion and that there is clear and convincing evidence that it filed and prosecuted its Proof of Claim, including its eleventh-hour attempt to withdraw its Proof of Claim, in bad faith and that it willfully abused the judicial process. Such conduct directly caused Highland to incur $825,940.55 in fees and expenses. In the exercise of its inherent power under Bankruptcy Code § 105(a), the court will grant Highland's Sanctions Motion and order NexPoint/HCRE to reimburse Highland for those fees and expenses as an appropriate sanction for NexPoint/HCRE's bad faith or willful abuse of the judicial process.

Accordingly, and based on the foregoing findings of fact and conclusions of law, including those findings and conclusions in this court's Proof of Claim Disallowance Order, which has been incorporated herein by reference,

**IT IS ORDERED** that the Sanctions Motion [Dkt. No. 3851] be, and hereby is **GRANTED**;

**IT IS FURTHER ORDERED** that, in order to compensate Highland for loss and expense resulting from NexPoint/HCRE's bad faith and willful abuse of the judicial process, in filing and prosecuting its Proof of Claim, NexPoint/HCRE is hereby directed to pay Highland the compensatory sum of **$825,940.55**.

**ORDER DENYING MOTION OF NEXPOINT REAL ESTATE PARTNERS, LLC (F/K/A HCRE PARTNERS, LLC) SEEKING RELIEF FROM ORDER PURSUANT TO FED. R. OF BANKR. P. 9024 AND FED. R. CIV. P. 60(b)(1) & (6)**

On March 18, 2024, NexPoint Real Estate Partners, LLC (f/k/a HCRE Partners, LLC) ("HCRE") filed its *Motion for Relief from Order* (hereinafter, the "Rule 60(b) Motion"),[1] seeking reconsideration of and relief from this court's *Memorandum Opinion and Order Granting Highland Capital Management, L.P.'s Motion for (A) Bad Faith Finding and (B) Attorneys' Fees against NexPoint Real Estate Partners, LLC (f/k/a HCRE Partners, LLC) in connection with Proof*

[1] Bankr. Dkt. No. 4040.

*of Claim # 146* ("HCRE Sanctions Order").[2] The parties stipulated to a briefing schedule and that the parties would seek a setting for a hearing ("Hearing") on the Rule 60(b) Motion. On April 22, 2024, Highland Capital Management, L.P. ("Highland" or "Reorganized Debtor") filed its response ("Response") in opposition to the Rule 60(b) Motion,[3] and HCRE filed its reply ("Reply") thereto on May 1, 2024.[4] The parties presented oral argument at the Hearing that was held on May 16, 2024.

**HCRE and its Proof of Claim.** By way of background, HCRE is an entity whose sole manager is James D. Dondero, the former Chief Executive Officer of the Reorganized Debtor. HCRE and Highland were essentially friendly business partners prepetition—not terribly surprising, as they each had the same chief executive. In any event, HCRE and Highland were equity owners/members of a limited liability company named SE Multifamily Holdings, LLC ("SE").[5] SE owned valuable real estate. SE was only formed in March 2019 and was governed by an amended LLC Agreement ("SE's LLC Agreement"). After Highland filed Chapter 11 in October 2019, and later became managed by three new independent directors and a new CRO and then new CEO, James Seery, Highland and HCRE were no longer amicable business partners. In fact, HCRE filed a proof of claim in Highland's bankruptcy case (on April 8, 2020), for an unliquidated sum, which was electronically signed by Mr. Dondero. The proof of claim asserted that HCRE had a claim against Highland to reduce Highland's equity ownership and rights in SE and, further, that it had grounds to reform, rescind, or modify SE's LLC Agreement based on a mutual mistake.[6] Two years and four months after HCRE filed the proof of claim, on August 12,

[2] Bankr. Dkt. Nos. 4038 & 4039.
[3] Bankr. Dkt. No. 4052.
[4] Bankr. Dkt. No. 4055.
[5] Note that there was also an unrelated minority owner (6%) in SE called BH Equities, LLC.
[6] Claim No. 146 & Bankr. Dkt. No. 1212.

2022, and after significant discovery and litigation regarding the proof of claim, HCRE moved to withdraw the proof of claim.

**HCRE's Motion to Withdraw its Proof of Claim.** There's a rule for withdrawing a proof of claim: Fed. R. Bankr. P. 3006. The bankruptcy court set a hearing, on September 12, 2022, as required by this rule, on HCRE's motion to withdraw the proof of claim ("Sept. 12, 2022 Proof of Claim Withdrawal Hearing").[7] After extensive discussion on the record, the bankruptcy court denied HCRE permission to withdraw its proof of claim—primarily because HCRE declined to withdraw the proof of claim with prejudice to any future litigation in any forum pertaining to the issues raised in the proof of claim. In other words, HCRE would not state unequivocally that it would not re-urge in the future its alleged present entitlement to reform or rescind SE's LLC Agreement. To be clear, HCRE expressed that it would withdraw its proof of claim with prejudice to re-asserting it in the bankruptcy court, and with prejudice to filing any appeal of a bankruptcy court order on same. ***But this type of withdrawal meant little—because the deadline/bar date for filing proofs of claim in the Highland bankruptcy case had passed 16 months earlier anyway***. HCRE would be time-barred from asserting its proof of claim at this late stage in the Highland bankruptcy case. The bankruptcy court was concerned that HCRE was attempting to preserve its present claims against Highland for use in the future in a different forum.[8] If there was going to be litigation over these issues, Highland thought it was time to get on with such litigation. The bankruptcy court was persuaded that, indeed, Highland would be prejudiced if HCRE were allowed to withdraw its proof of claim without clear and unequivocal language in the order that HCRE would not be able to assert its claims and/or theories regarding rescission and/or

[7] Bankr. Dkt. No. 3519 (Transcript).
[8] At the time, it appeared that litigation might be on the horizon in state court involving these parties and regarding business records production.

reformation of the SE LLC Agreement in any future litigation in any court or forum (after all, future litigation is not what a "fresh start" of bankruptcy is about). Thus, the bankruptcy court issued its Order denying withdrawal of the HCRE proof of claim on September 14, 2022 ("Order Denying Withdrawal of HCRE Proof of Claim").[9]

**Trial on the HCRE Proof of Claim.** Thereafter, the bankruptcy court held a trial on November 1, 2022, on the merits of HCRE's proof of claim and ultimately disallowed the proof of claim ("Claim Disallowance Order").[10] There was no evidence presented of any sort of mistake, mutual or otherwise, in connection with SE's LLC Agreement or any other basis for reformation or rescission of SE's LLC Agreement. Moreover, Mr. Dondero testified that he had not even read the HCRE proof of claim or conducted any due diligence regarding the HCRE proof of claim before authorizing his electronic signature to be affixed to it. HCRE did not appeal the Claim Disallowance Order.

**Highland Motion for Sanctions Against HCRE.** Highland thereafter filed a written motion for sanctions pertaining to HCRE conduct surrounding the proof of claim—seeking a bad faith finding and reimbursement of Highland's attorney's fees caused by HCRE's actions. Several months later (after, among other things, renewed attempts at global mediation of the remaining issues in the Highland bankruptcy case), the bankruptcy court granted Highland's motion for sanctions, after a contested hearing ("Order Imposing Sanctions").[11] The Order Imposing Sanctions (which shifted to HCRE approximately $825,000 of the Reorganized Debtor's attorney's fees and expenses incurred by Highland in connection with the HCRE proof of claim—which was less than the entire amount that the Reorganized Debtor had incurred regarding the HCRE proof

[9] Bankr. Dkt. No. 3518.
[10] Bankr. Dkt. No. 3766 & 3767.
[11] Bankr. Dkt. No. 4039.

of claim during the more than three years since it was filed)[12] is the order now subject to HCRE's Rule 60(b) Motion.

**The Rule 60(b) Motion.** HCRE argues, primarily, that the bankruptcy court made two core, related "mistakes" in connection with its Order Imposing Sanctions that it should correct pursuant to Rule 60(b)(1). First, the bankruptcy court allegedly made a "mistake" in refusing to permit HCRE to withdraw its proof of claim based on a mistaken belief by the bankruptcy court that HCRE was not willing to withdraw it with prejudice for all purposes. HCRE now stresses that it was, indeed, willing to withdraw the proof of claim with prejudice to any future litigation in any court—not just in the bankruptcy court. Second, HCRE further argues that the bankruptcy court's mistake of fact on this point caused it to erroneously require an unnecessary trial on the proof of claim—the result of which was Highland incurring/billing unnecessary fees relating to the proof of claim. The bankruptcy court then shifted those fees to HCRE in the Order Imposing Sanctions. HCRE asserts that it is incorrect as a matter of law to conclude that these fees would not have been incurred "but for" HCRE's bad faith conduct. *See Goodyear Tire & Rubber v. Haeger*, 581 U.S. 101, 108 (2017). Therefore, the bankruptcy court should not have shifted them to HCRE as part of the Order Imposing Sanctions.

The court denies the Rule 60(b) Motion. To be sure, this court does not disagree with HCRE that a mistake of fact ***or*** mistake of law can be grounds for granting a Rule 60(b) motion. *See Kemp v. United States*, 596 U.S. 528, 535-36 (2022). The court also does not disagree with

[12] Highland sought attorney's fees and expenses incurred relating to the HCRE proof of claim from the time period of August 1, 2021 through December 31, 2022. The HCRE proof of claim was filed April 8, 2020. Highland not only did not seek any reimbursement for any time and expense for the first 16 months after HCRE filed its proof of claim, but Highland ultimately did not seek (and the bankruptcy court did not allow) any fees that Highland incurred in successfully moving to disqualify HCRE's counsel in this matter, Wick Phillips (note: Wick Phillips was actually the second law firm that HCRE retained pertaining to its proof of claim; a different law firm originally filed the HCRE proof of claim (Bonds Ellis), followed by Wick Philips, and then the Hoge & Gameros, L.L.P. law firm took over, and now the law firm of Reichman Jergensen Lehman & Feldberg LLP is representing HCRE in this matter.

HCRE that an award of fees relating to sanctionable conduct must be limited to fees that would not have been incurred "but for" the sanctionable conduct. *Goodyear Tire*, 581 U.S. 101 at 104, 108 (the "causal link" between the sanctionable conduct and the opposing party's attorney's fees must be established through a "but-for" test; the complaining party may only recover the portion of fees that would not have been paid but-for the sanctionable conduct). However, the bankruptcy court does not believe it made a mistake of fact or of law with regard to either of these points.

First, the bankruptcy court does not believe it made a mistake of fact in interpreting what HCRE was and was not willing to do in connection with its motion to withdraw its proof of claim at the Sept. 12, 2022 Proof of Claim Withdrawal Hearing. HCRE used hedging language, to the extent that it appeared to be willfully obtuse on this point. It was not willing to withdraw the proof of claim ***with prejudice to ever litigating the issues raised in the proof of claim***. It was not future conduct and future theories that HCRE was worried about preserving in future litigation, and the bankruptcy court was certainly not engaging in a mission to ban all future litigation between these parties in perpetuity. The sole concern was about ***claims/theories in the HCRE proof of claim*** being resurrected somewhere else in the future. The transcript of the September 12, 2022 hearing is clear that there was much discussion on this point, and the court even gave the parties a 24-hour break to go talk outside the presence of the court—to hopefully wordsmith an agreed order withdrawing the proof of claim. Apparently, the parties could not reach an agreement on this relatively simple concept. So, the court would not allow withdrawal of the HCRE proof of claim without clarity that the proof of claim issues would not be raised in future litigation somewhere. The court set a trial on the merits of the proof of claim a few weeks later, as the parties were close to being trial-ready. Moreover, a review of the September 12, 2022 Transcript reflects that the bankruptcy court focused on multiple factors in disallowing withdrawal of the HCRE proof of

claim—the so-called *Manchester* factors—not simply the failure of HCRE to withdraw the proof of claim with prejudice to all future litigation. *Manchester, Inc. v. Lyle (In re Manchester, Inc.)*, 2008 Bankr. LEXIS 3312, *11-12 (Bankr. N.D. Tex. Dec. 19, 2008) (the *Manchester* factors include: (1) the movant's diligence in bringing the motion to withdraw, (2) any "undue vexatiousness" on the part of the movant, (3) the extent to which the suit has progressed, including the effort and expense undertaken by the non-moving party to prepare for trial, (4) the duplicative expense of re-litigation, and (5) the adequacy of the movant's explanation for the need to withdraw the claim). In other words, there were several factors that caused the bankruptcy court to deny withdrawal of the HCRE proof of claim.

Moreover, even if the court did make a mistake of fact in interpreting what HCRE was and was not willing to do (i.e., in deciphering what "with prejudice" did or did not mean)—and, in relying on this as a basis to deny HCRE permission to withdraw its proof of claim--wouldn't this have been an error of the bankruptcy court in entering its Order Denying Withdrawal of HCRE Proof of Claim? This order—entered September 14, 2023—was not appealed. Nor was the subsequent Order Disallowing Claim. In some ways, the Rule 60(b) Motion smacks of being a collateral attack on the Order Denying Withdrawal of Proof of Claim which was never appealed. Had there been an appeal of it, it would have been apparent that it was a multi-faceted decision, based on many factors (i.e., the *Manchester* factors)—not merely the "with prejudice" issues.[13]

Which leads to the last issue—was there a mistake of law in allowing reimbursement of Highland's fees and expense incurred ***after*** the Order Denying Withdrawal of HCRE Proof of Claim? In particular, over $300,000 of fees were incurred by Highland (and shifted by the court in the Order Imposing Sanctions) associated with the preparation for and trial on the HCRE proof

[13] Bankr. Dkt. No. 3519 (Transcript, pp. 51-55).

of claim. Was this a mistake of law? Only if the bankruptcy court made a mistake in ordering that there would be a trial on the HCRE proof of claim (i.e., only if the bankruptcy court erred in entering its Order Denying Withdrawal of HCRE Proof of Claim, and, as noted above, that order was not appealed by HCRE). The court never would have ordered trial on the merits if not for HCRE's conduct (beginning with its bad faith filing of its proof of claim and including refusing to withdraw its proof of claim with prejudice to all future litigation on the issues raised in the proof of claim). Thus, Highland would not have incurred this $300,000+ in fees and expenses "but-for" HCRE's conduct.

Having considered the Rule 60(b) Motion, the Response, the Reply, and the argument of the parties, the court finds that there is no basis or justification for granting HCRE the relief requested in its Rule 60(b) Motion. Any arguments made in the Rule 60(b) Motion not herein addressed are denied.

Accordingly,

**IT IS ORDERED** that the Rule 60(b) Motion be, and hereby is, **DENIED**.

| 02/19/2020 | Hearing held on 2/19/2020. (RE: related document(s)68 Application/Motion to Employ/Retain Foley Gardere, Foley & Lardner LLP as Special Texas Counsel Filed by Highland Capital Management, L.P.) (Appearances: G. Demo, J. Pomeranz, J. Morris, M. Hayward, and Z. Annabel for Debtors; M. Clemente and J. Hoffman for Unsecured Creditors Committee; L. Lambert for UST; P. Lamberson, R. Patel, and A. Chiarello for Acis; M. Platt for Redeemer Committee; A. Anderson for certain issuers of CLOs; J. Bentley (telephonically) for certain CLO issuers; M. Hankin (telephonically) for Redeemer Committee. Evidentiary hearing. Court granted in part and denied in part. Foley is approved for representation of Highland in all Acis bankruptcy case and adversary proceeding matters; court does not approve Highland paying Foley for Foleys representation of Neutra in Neutras appeal of Acis involuntary order for relief; court will approve Foley representing Highland in its appeal of Acis confirmation order but fees for Foley in connection with this appeal will be allocated appropriately between Neutra and Highland, and Highland will not pay for Neutras allocated portion of fees. Court added that it is skeptical regarding likely benefits to Highland of the appeal of Acis confirmation order, even assuming success on appeal (in contrast to possible benefits to Neutra and HCLOF) since, among other things, reversal of confirmation order would not reinstate previously rejected contracts or remove the Chapter 11 trustee. Thus, the court will closely evaluate fees requested ultimately for likely benefit to Highland. Order should be submitted.(Edmond, Michael) (Entered: 02/25/2020) |

**MOTION FOR ENTRY OF AN ORDER PURSUANT TO BANKRUPTCY RULE 9019 AND 11 U.S.C. § 363 APPROVING SETTLEMENT WITH THE HMIT ENTITIES AND AUTHORIZING ACTIONS CONSISTENT THEREWITH**

Highland Capital Management, L.P., the reorganized debtor (the "Debtor" or "Highland," as applicable) in the above-captioned chapter 11 case (the "Bankruptcy Case"), the Highland Claimant Trust (the "Claimant Trust"), and the Highland Litigation Sub-Trust (the "Litigation

[1] The last four digits of the Reorganized Debtor's taxpayer identification number are 8357. The headquarters and service address for Highland is 100 Crescent Court, Suite 1850, Dallas, TX 75201.

Sub-Trust" and together with Highland and the Claimant Trust, the "Movants") file this Motion (the "Motion") for entry of an order pursuant to sections 105(a) and 363 of title 11 of the United States Code (the "Bankruptcy Code") and Rule 9019 of the Federal Rules of Bankruptcy Procedure (the "Bankruptcy Rules"), substantially in the form attached hereto as **Exhibit A**, approving a settlement agreement (the "Settlement Agreement")[2] between Highland, the Claimant Trust, the Litigation Sub-Trust, and the Highland Indemnity Trust (the "Indemnity Trust", and together with Highland, the Claimant Trust, and the Litigation Sub-Trust, the "Highland Entities"), on the one hand, and Hunter Mountain Investment Trust ("HMIT"), Beacon Mountain LLC ("Beacon Mountain"), Rand Advisors, LLC ("Rand Advisors"), Rand PE Fund I, LP ("Rand PE Fund"), Rand PE Fund Management, LLC ("Rand GP"), Atlas IDF, LP ("Atlas IDF"), and Atlas IDF GP, LLC ("Atlas GP" and together with HMIT, Beacon Mountain, Rand Advisors, Rand PE Fund, Rand GP, and Atlas IDF, the "HMIT Entities"), on the other hand. A copy of the Settlement Agreement is attached as **Exhibit 1** to the *Declaration of Gregory V. Demo in Support of the Motion for Entry of an Order Pursuant to Bankruptcy Rule 9019 and 11 U.S.C. § 363 Approving Settlement with the HMIT Entities and Authorizing Actions Consistent Therewith* (the "Demo Declaration"), filed concurrently herewith. In support of this Motion, the Movants respectfully state as follows:

## INTRODUCTION

1. Following extensive, arm's-length, good faith negotiations, the Highland Entities and the HMIT Entities, acting through their duly authorized representatives, executed the Settlement Agreement that will result in, among other things: (a) the dismissal with prejudice of all pending litigation between and among them; (b) the disposition of Estate Claims asserted against certain of the HMIT Entities by the Litigation Trustee of the Litigation Sub-Trust and the

[2] Capitalized terms used herein, but not defined, have the meanings ascribed to them in the Settlement Agreement or elsewhere in this Motion, as applicable.

assignment of the balance of the remaining Estate Claims (as defined in the Plan) to the HMIT Entities; (c) the allowance of the HMIT Class 10 Interest in the Claimant Trust in a fixed amount; (d) distributions to HMIT on account of its Class 10 interest, including the assignment of the Dugaboy Note, a long-term note with no ready market, at times and in amounts, and subject to the conditions, set forth in the Settlement Agreement; and (e) the exchange of mutual general and broad releases and other protections consistent with the parties' intent to end all current, and avoid all future litigation, between and among them (except for any alleged breach of the Settlement Agreement).

2. The parties' entry into the Settlement Agreement is one of the most significant developments in the long-running Highland Bankruptcy Case. As this Court is aware, until now, HMIT has used its position as a holder of an unallowed, unvested, contingent interest in Class 10 of the Claimant Trust to commence litigation demanding books and records, seeking judicial declarations as to its claimed status as a beneficiary of the Claimant Trust, and asserting various other claims against the Highland Entities and their Court-appointed fiduciaries. The HMIT Entities have been made subject to a motion filed by Highland in the District Court seeking an adjudication that they or some of them are vexatious litigants. While that motion was denied by the District Court, Highland could bring the same type of motion before this Court. Also certain of the HMIT Entities have been named as defendants by the Liquidation Sub-Trust in the Amended Kirschner Complaint.

3. No more. The parties' willingness to resolve all disputes and settle all claims among them will finally end that portion of the protracted and value-destructive litigation that has impeded the Highland Entities' ability to distribute their assets to their constituents and fully implement the Plan. The Settlement Agreement will also remove substantial hurdles to the

eventual windup of the Highland Entities.[3] Indeed, among the many benefits that will accrue to the Highland Entities from the Settlement Agreement are: (a) the cessation of costly, time-consuming, and disruptive litigation; (b) the disposition of two significant Estate assets—the Estate Claims and another illiquid asset, the Dugaboy Note—via distribution, assignment, and sale in furtherance of the ultimate winding up of the Claimant Trust's affairs; (c) the resolution of all disputes in connection with the HMIT Class 10 interest in the Claimant Trust, which was not previously allowed; and (d) the protection against future value-destructive litigation.

4. The proposed Settlement Agreement is clearly in the best interests of the Highland Entities and their stakeholders and results from a sound exercise of their business judgment. The Motion should be granted.

## RELEVANT BACKGROUND

### I. HMIT's Partnership Interest in Highland

5. In December 2015, HMIT acquired 100% of Highland's Class B and Class C limited partnership interests (the "Class B/C Interests") from James Dondero, Mark Okada, and certain entities affiliated with them. Mr. Dondero—through the Dugaboy Investment Trust ("Dugaboy") and Strand Advisors, Inc. ("Strand")—and Mr. Okada, directly and indirectly, retained Highland's Class A limited partnership interests (the "Class A Interests").

6. The Class B/C Interests represented 99.50% of the Debtor's prepetition total equity. The Class A Interests, in aggregate, represented the remaining 0.50%.

7. Concurrently with its acquisition of the Class B/C Interests, HMIT executed that certain *Secured Promissory Note* dated December 21, 2015, in the original face amount of

[3] Assuming the Settlement Agreement is approved, the only unresolved Claims or Equity Interests will be Patrick Daugherty's claim (Adv. Proc. No. 25-03055-sgj, Docket No. 1 (Bankr. N.D. Tex. May 2, 2025) (the "Daugherty Claim")), and the disputed, out-of-the-money, *de minimis* Class 11 Equity Interests asserted by two Dondero controlled entities—Dugaboy and Strand.

$63,000,000 in favor of Highland (the "HMIT Note"), which, as of the Petition Date, had an outstanding principal balance of $57,690,640.95 (the "HMIT Note Balance").

8. On December 24, 2015, the Debtor and its limited partners, including HMIT, entered into that certain *Fourth Amended and Restated Agreement of Limited Partnership of Highland Capital Management, L.P.* (as subsequently amended, the "LPA"). Pursuant to the LPA, each limited partner had a capital account at the Debtor on account of its limited partnership interests.

9. As of the Petition Date, HMIT's capital account balance on account of its Class B/C Interests was $394,630,871.53 (the "HMIT Capital Account Balance"), and the capital account for all Class A Interests in aggregate was $1,983,069.70.[4]

## II. The Bankruptcy Case

10. The Debtor commenced the Bankruptcy Case in the District of Delaware on October 16, 2019, by filing its voluntary petition for relief under chapter 11 of the Bankruptcy Code. The Bankruptcy Case was subsequently transferred to this Court.

11. On February 22, 2021, the Bankruptcy Court entered the *Order (I) Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (II) Granting Related Relief* [Docket No. 1943], which confirmed the *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* [Docket No. 1943-1] (the "Plan"). The Plan went effective on August 11, 2021 [Docket No. 2700] (the "Effective Date").

12. On the Effective Date, in accordance with the Plan: (a) the Claimant Trust and Litigation Sub-Trust were created; (b) the Class B/C Interests and the Class A Interests were extinguished; (c) holders of allowed Class 10 interests, consisting of Class B/C Interests, would receive contingent and unvested Class 10 Interests if and when their claims or interests were

[4] As of the Petition Date, Dugaboy's capital account was $740,081.61; Strand's capital account was $994,707.76; and Mr. Okada's and his affiliates entities' capital accounts, in aggregate, was $248,280.33.

allowed in amounts determined under the Plan; (d) holders of allowed Class 11 interests, consisting of the Class A Interests, would receive contingent and unvested Class 11 Interests if and when their claims or interests were allowed in amounts under the Plan; (e) James P. Seery, Jr., was appointed the Claimant Trustee of the Claimant Trust; and (f) Marc Kirschner was appointed the Litigation Trustee of the Litigation Sub-Trust.

13. Presently, neither the HMIT Class 10 Interest nor any of the Class 11 Interests have been Allowed (as such term is defined in the Plan).

## III. The Kirschner Litigation

14. On October 15, 2021, the Litigation Trustee filed his *Complaint and Objection to Claims* (Adv. Proc. No. 21-03076-sgj, Docket No. 1 (Bankr. N.D. Tex. Oct. 15, 2021)) (the "Kirschner Complaint") which asserted, among other things, various claims against (a) Rand PE Fund and (b) HMIT, including a cause of action to collect amounts owed to Highland by HMIT pursuant to the HMIT Note.

15. On May 19, 2022, the Litigation Trustee amended the Kirschner Complaint (Adv. Proc. No. 21-03076-sgj, Docket No. 158 (Bankr. N.D. Tex. May 19, 2022)) (the "Amended Kirschner Complaint"). The Amended Kirschner Complaint asserted substantially similar claims against HMIT and Rand PE Fund, including claims to collect the amounts owed under the HMIT Note.

16. On April 4, 2023, upon the motion of the Litigation Trustee, this Court stayed prosecution of the Amended Kirschner Complaint, among other proceedings. Adv. Proc. No. 21-03076-sgj, Docket No. 338 (Bankr. N.D. Tex. April 4, 2023). As of the issuance of the stay, none of the HMIT Entities named a defendant had filed answers and therefore had not been required to file any counterclaims.

## IV. The Pending HMIT Litigation

17. On March 28, 2023, HMIT filed *Hunter Mountain Investment Trust's Emergency Motion for Leave to File Verified Adversary Proceeding* [Docket Nos. 3699, 3760, 3815, 3816] (as amended and supplemented, the "First Motion for Leave") in which HMIT asserted, *inter alia*, claims for breach of fiduciary duty, conspiracy, and unjust enrichment against Highland, the Claimant Trust, and Mr. Seery, among others. On August 25, 2023, this Court denied the First Motion for Leave. *In re Highland Cap. Mgmt., L.P.*, 2023 Bankr. LEXIS 2104 (Bankr. S.D. Tex Aug. 25, 2023). HMIT appealed to the District Court for the Northern District of Texas (the "District Court"), and, on March 21, 2025, the District Court remanded to this Court for further proceedings. *Hunter Mountain Inv. Tr. v. Highland Cap. Mgmt., L.P.*, Case No. 3:23-cv-02071-E, Docket No. 44 (N.D. Tex. Mar. 21, 2025).

18. On May 10, 2023, Dugaboy Investment Trust ("Dugaboy") and HMIT filed that certain *Complaint to (i) Compel Disclosures About the Assets of Highland Claimant Trust and (ii) Determine (a) Relative Value of Those Assets, and (b) Nature of Plaintiffs' Interests in the Claimant Trust*, Adv. Proc. No. 23-03038-sgj, Docket No. 1 (the "Valuation Complaint"), seeking an order (a) compelling the Claimant Trust to provide information about its assets, (b) valuing those assets, and (c) deeming Dugaboy and HMIT "Claimant Trust Beneficiaries." On May 24, 2024, this Court dismissed the Valuation Complaint with prejudice [Docket No. 27]. Dugaboy and HMIT appealed to the District Court (Case No. 3:24-cv-01531-X (N.D. Tex.)), and the appeal is fully briefed and *sub judice*.

19. On January 1, 2024, HMIT filed its *Motion for Leave to File a Delaware Complaint* [Docket. No. 4000] (the "Second Motion for Leave," and together with the First Motion for Leave and the Valuation Complaint, the "Pending HMIT Litigation"). On January 16, 2024, Highland and the Claimant Trust moved to stay the Second Motion for Leave pending

appellate review of the dismissal of the Valuation Complaint [Docket No. 4013] (the "Stay Motion"). On June 22, 2024, this Court granted the Stay Motion [Docket No. 4104]. HMIT subsequently appealed to the District Court (Case No. 3:24-cv-01786-L (N.D. Tex.)), and the appeal is fully briefed and *sub judice*.

## V. Summary of the Salient Terms of the Settlement Agreement

20. To resolve the disputes between the Highland Entities and the HMIT Entities, including the Pending HMIT Litigation, the parties and their counsel engaged in extensive arm's-length, good faith negotiations over the last several months. These negotiations resulted in the Settlement Agreement, which provides for, *inter alia*, the sale and transfer of certain Estate Claims and other Estate assets to the HMIT Entities, the dismissal of the Pending HMIT Litigation, and the exchange of broad mutual releases.

21. Subject to the terms of the Settlement Agreement, the principal terms of the Settlement Agreement are set forth below:[5]

- Within five (5) business days after the Court issues an order approving the allowance of HMIT Class 10 Interest (the "Bankruptcy Court Approval Date"), the HMIT Entities will dismiss the Pending HMIT Litigation with prejudice;[6]
- Within five (5) business days after the Bankruptcy Court Approval Date, the Litigation Trustee will dismiss HMIT and Rand PE Fund from Counts I, II, III, and XXIV (which relates to the HMIT Note) of the Amended Kirschner Complaint with prejudice;
- Within five (5) business days after the Bankruptcy Court Approval Date, Highland will pay $500,000 to HMIT;
- Subject to the Court's approval and the terms and conditions set forth in the Settlement Agreement, the HMIT's Class 10 Interests will be allowed in the amount of

[5] In the event of any inconsistency between this Motion and the Settlement Agreement, the terms of the Settlement Agreement shall control.

[6] The Valuation Complaint will only be dismissed as to HMIT; Dugaboy's claims in the Valuation Complaint will not be impaired.

$336,940,230.58, which represents the HMIT Capital Account Balance, less the HMIT Note Balance;[7]

- Within five (5) business days after the Bankruptcy Court Approval Date, (a) the Indemnity Trust will distribute $10 million Pro Rata to the Holders of allowed Class 10 Claims or Equity Interests and (b)(i) the Highland Entities will cause the portion of that certain *Promissory Note*, dated May 31, 2017, in the original face amount of $24,268,621.69, from Dugaboy, as Maker, and Highland Capital Management, L.P. and The Get Good Non-Exempt Trust, collectively as Payee (the "Dugaboy Note") held by the Highland Entities to be distributed in-kind to HMIT and (ii) the Indemnity Trust will distribute to HMIT cash in the aggregate amount of all principal and interest payments actually received on the Dugaboy Note by the Highland Entities, including the Indemnity Trust, from the date of the Settlement Agreement to the date of such assignment of the Dugaboy Note;[8]

- Subject to certain conditions precedent, the Indemnity Trust will make subsequent distributions Pro Rata to the Holders of allowed Class 10 Claims or Equity Interests with a final distribution date estimated to be on or about April 1, 2029;

- Within five (5) business days after the Bankruptcy Court Approval Date, the Litigation Trustee will, solely to the extent permitted by the Plan, the Litigation Sub-Trust Agreement, and applicable law, transfer, sell and assign to the HMIT Entities all Claims and causes of action that were asserted or could have been asserted by the Litigation Trustee in the Amended Kirschner Complaint (the "Transferred Claims"); and

- On the Bankruptcy Court Approval Date, the HMIT Releasors will provide broad, general releases to the Highland Released Parties and the Highland Releasors will provide broad, general releases to the HMIT Released Parties.

If the Settlement Agreement is approved, the only unresolved Claims or Equity Interests will be the Daugherty Claim and the Class 11 Equity Interests asserted by two Dondero controlled entities—Dugaboy and Strand—that have no value but, if they did, their aggregate maximum value, if allowed, would not exceed approximately $1.7 million.

[7] Notwithstanding anything to the contrary in the Plan or the Claimant Trust Agreement, HMIT shall not be deemed, and no holder of the HMIT Class 10 Interest shall be, a Claimant Trust Beneficiary or a "Beneficiary" under the Claimant Trust Agreement, and the Highland Released Parties, individually and collectively, shall owe no duty to any HMIT Releasor (whether contractual, fiduciary, equitable, statutory or otherwise), including with respect to the HMIT Class 10 Interest, in each case, except as expressly set forth in the Settlement Agreement.

[8] Pursuant to the Settlement Agreement, HMIT will engage an independent valuation service provider to value the Dugaboy Note for purposes of determining the magnitude of reduction to the outstanding allowed Class 10 Interests on account of such in-kind distribution, which shall not be less than 50% of the current balance owed under the Dugaboy Note. Contemporaneously with the assignment of the Dugaboy Note, the Indemnity Trust will make a *pro rata* cash distribution to any other Holder of an Allowed Class 10 Claim or Equity Interest based on such valuation.

**RELIEF REQUESTED**

22. Pursuant to Bankruptcy Rule 9019 and Bankruptcy Code section 363(b), the Movants request entry of an order substantially in the form attached hereto as **Exhibit A**, granting the Motion, approving the Settlement Agreement, and authorizing the Highland Entities and their agents to take all actions necessary or desirable to implement the Settlement Agreement without the need for further notice or approval by the Court.

**BASIS FOR RELIEF REQUESTED**

23. Bankruptcy Rule 9019 provides that "[o]n motion … and after notice and a hearing, the court may approve a compromise or settlement." FED. R. BANKR. P. 9019(a). Settlements are favored in the bankruptcy context to "minimize litigation and expedite the administration of a bankruptcy estate." *Myers v. Martin (In re Martin)*, 91 F.3d 389, 393 (3d Cir. 1996). The approval of a settlement is within the "sound discretion" of the Court. *In re Jackson Brewing Co.*, 624 F.2d 599, 603 (5th Cir. 1980).

24. Pursuant to Bankruptcy Rule 9019(a), the Court may approve a settlement if it is fair, reasonable, and in the best interests of the estate. *See, e.g., Official Comm. of Unsecured Creditors v. Moeller (In re Age Ref., Inc.)*, 801 F.3d 530, 540 (5th Cir. 2015). A settlement should be approved unless it falls below the lowest point in the range of reasonableness, based on a comparison between the terms of the settlement and the costs and benefits of further litigation. *See, e.g., Jackson Brewing Co.*, 624 F.2d at 602 (court must compare the "terms of the compromise with the likely rewards of litigation"); *Cook v. Waldron*, 2006 U.S. Dist. LEXIS 31411, at *10 (S.D. Tex. April 18, 2006) (court should "canvass the issues" to decide if settlement falls "below the lowest point in the range of reasonableness").

25. In evaluating a proposed settlement, courts consider (i) the "probability of success in the litigation, with due consideration for the uncertainty in fact and law," (ii) the "complexity

and likely duration of the litigation and any attendant expense, inconvenience and delay," and (iii) "[a]ll other factors bearing on the wisdom of the compromise." *Official Comm. of Unsecured Creditors v. Cajun Elec. Power Coop. (In re Cajun Elec. Power Coop.)*, 119 F.3d 349, 356 (5th Cir. 1997) (quoting *Jackson Brewing Co.*, 624 F.2d at 602). Assessing the first factor—success on the merits—does not require a "mini-trial" on the merits. *Cajun Elec. Power Coop.*, 119 F.3d at 356. The "other factors" include "the best interests of the creditors, 'with proper deference to their reasonable views,'" as well as "'the extent to which the settlement is truly the product of arms-length bargaining, and not of fraud or collusion.'" *Id.* (quoting *Conn. Gen. Life Ins. Co. v. United Cos. Fin. Corp. (In re Foster Mortg. Corp.)*, 68 F.3d 914, 917-18 (5th Cir. 1995)).

26. A trustee also "is permitted to settle lawsuits pursuant to section 363(b)" of the Bankruptcy Code. *Id*. at 354. Section 363(b) provides that "[t]he trustee, after notice and a hearing, may use, sell, or lease, other than in the ordinary course of business, property of the estate." 11 U.S.C. 363(b)(1). A settlement involving a transaction outside the ordinary course of business "'must be supported by an articulated business justification, good business judgment, or sound business reasons.'" *Gluckstadt Holdings, L.L.C. v. VCR I, L.L.C. (In re VCR I, L.L.C.)*, 922 F.3d 323, 327 (5th Cir. 2019) (quoting *Cadle Co. v. Mims (In re Moore)*, 608 F.3d 253, 263 (5th Cir. 2010)).

27. As discussed in detail below, the factors to be considered pursuant to Bankruptcy Rule 9019 and Bankruptcy Code section 363(b) weigh in favor of approving the Settlement Agreement in this case.

28. First, although the Highland Entities believe they have strong and meritorious defenses to all of the Pending HMIT Litigation, history has shown that defending the Pending HMIT Litigation, including the appeals that could result therefrom, will be costly, time-consuming and value-destructive to the estate and creditor recoveries. Further, there is no guarantee that the

Highland Entities would continue to be successful in defending the Pending HMIT Litigation—or that the HMIT Entities will not file additional litigation against the Highland Entities and their indemnified parties.

29. The second factor—complexity, duration, and costs of litigation—also weighs heavily in favor of approval of the Settlement Agreement. As this Court is aware, the cost of defending against the litigation in this case, including the Pending HMIT Litigation, has been significant. The litigation and its attendant costs have also significantly delayed and reduced distributions to the Debtor's constituents. The Pending HMIT Litigation began in 2023 and, although HMIT has lost in this Court, the Pending HMIT Litigation is subject to at least two pending appeals and has no signs of resolving absent this settlement. If the Settlement Agreement is not approved, the Highland Entities will be faced with significant appellate litigation and potentially additional litigation in this Court and other courts to resolve the Pending HMIT Litigation as well as any other litigation that may be brought by the HMIT Entities if the Settlement Agreement—and the Litigation Protections, including the releases—are not approved.

30. Third, approval of the Settlement Agreement is justified by the paramount interest of Highland's creditors and constituents. The Settlement Agreement resolves the Pending HMIT Litigation, resolves all disputes in connection with the HMIT Class 10 claim; sells, transfers, and assigns the Estate Claims asserted in the Amended Kirschner Complaint—which has been pending since 2021 at significant cost to the estate—to the HMIT Entities; and provides for broad mutual releases and a cessation of the litigation and acrimony that has delayed consummation of the Plan. In exchange the Highland Entities are paying $500,000 and the Indemnity Trust is agreeing to scheduled distributions from the Indemnity Trust to the Holders of Allowed Class 10 Claims and Equity Interests. The Settlement Agreement is clearly a rational exercise of the Highland Entities' business judgment.

31. Finally, the Settlement Agreement was unquestionably negotiated in good faith and at arm's length. The Highland Entities' and HMIT Entities' relationship to date has been defined by hostility. Notwithstanding that history, the Highland Entities and HMIT Entities, with their advisors, negotiated the Settlement Agreement over the last several months, which, although not perfect for any party, finally resolves the years of active litigation and acrimony between the Highland Entities and HMIT Entities.

32. While this Motion is the motion of the Highland Entities, undersigned counsel for the HMIT Entities appears below to evidence the approval by the HMIT Entities of the form and content of this Motion.

## NO PRIOR REQUEST

33. No previous request for the relief sought herein has been made to this Court or any other court.

## PRAYER

**WHEREFORE**, the Movants respectfully request entry of an order, substantially in the form attached hereto as **Exhibit A**, granting the Motion and the relief requested herein, and granting them such other and further relief as the Court deems just and proper.

**ORDER APPROVING SETTLEMENT WITH THE HMIT ENTITIES AND AUTHORIZING ACTIONS CONSISTENT THEREWITH**

This matter having come before the Court on the *Motion for Entry of an Order Pursuant to Bankruptcy Rule 9019 and 11 U.S.C. § 363 Approving Settlement with the HMIT Entities and Authorizing Actions Consistent Therewith* [Docket No. [] (the "Motion")[2] filed by the Movants; and the Court having jurisdiction over this matter pursuant to 28 U.S.C. §§ 157 and 1334 as well as the retention of jurisdiction provisions of the Plan; and the Court having found that this is a

[1] The last four digits of the Reorganized Debtor's taxpayer identification number are 8357. The headquarters and service address for the Highland is 100 Crescent Court, Suite 1850, Dallas, TX 75201.

[2] Capitalized terms not otherwise defined herein have the meanings ascribed to such terms in the Motion.

core proceeding pursuant to 28 U.S.C. § 157(b)(2); and venue in this District being proper pursuant to 28 U.S.C. §§ 1408 and 1409; and the Court having considered the Motion, the materials submitted in support of the Motion, all responses to the Motion, and the arguments presented by counsel at the hearing on the Motion; and the Court having found that the relief requested in the Motion is in the best interests of the Debtor's estate, its creditors, and other parties-in-interest, and is supported by sound business reasons and justifications; and the Court having determined that the legal and factual bases set forth in the Motion establish sufficient cause for the relief granted herein; and adequate notice of the Motion having been given; and after due deliberation and good cause appearing therefor,

**THE COURT FINDS THAT:**

1. The Settlement Agreement was negotiated and entered into by the HMIT Entities without collusion or fraud, in good faith, and was the product of arm's-length negotiations.

2. The HMIT Entities are not "insiders" or "affiliates" of Highland as those terms are defined in Bankruptcy Code sections 101(3) and 101(2).

3. The HMIT Entities entered into the Settlement Agreement and are acquiring the Transferred Claims and Dugaboy Note in good faith and have proceeded with all aspects of the Settlement Agreement in good faith.

4. The Highland Entities have demonstrated a sufficient basis and compelling circumstances to enter into the Settlement Agreement, and entry into the Settlement Agreement is an appropriate exercise of the Highland Entities' business judgment and in the best interests of Highland, its estate, and its creditors.

**NOW, THEREFORE, IT IS ORDERED, ADJUDGED, AND DECREED THAT:**

5. The Motion is **GRANTED**.

6. The Settlement Agreement attached as **Exhibit 1** to the Demo Declaration is approved in all respects pursuant to Rule 9019 of the Federal Rules of Bankruptcy Procedure and section 363(b) of the Bankruptcy Code.

7. The HMIT Entities, as good faith purchasers of Estate assets in the Settlement, are entitled to the protections contained in section 363(m) of the Bankruptcy Code.

8. The Highland Entities and their agents are authorized to take any and all actions necessary or desirable to implement the Settlement Agreement without further notice or further Court approval.

9. The Court shall retain jurisdiction to hear and determine all matters arising from or related to the implementation, interpretation, or enforcement of this Order.

# EXHIBIT 1

EXECUTION VERSION

# SETTLEMENT AGREEMENT & GENERAL RELEASE

THIS SETTLEMENT AGREEMENT & GENERAL RELEASE (this "**Agreement**") is entered into as of May 19, 2025 (the "**Agreement Date**"), by and among Highland Capital Management, L.P., a Delaware limited partnership ("**Highland**"), the Highland Claimant Trust, a Delaware statutory trust governed by the Delaware Statutory Trust Act (the "**Claimant Trust**"), the Highland Litigation Sub-Trust, a Delaware statutory trust governed by the Delaware Statutory Trust Act (the "**Litigation Sub-Trust**"), and the Highland Indemnity Trust, a Delaware statutory trust governed by the Delaware Statutory Trust Act (the "**Indemnity Trust**", and together with Highland, the Claimant Trust and the Litigation Sub-Trust, the "**Highland Entities**"), on the one hand, and Hunter Mountain Investment Trust, a Delaware statutory trust ("**HMIT**"), Beacon Mountain LLC, a Delaware limited liability company ("**Beacon Mountain**"), Rand Advisors, LLC, a Delaware limited liability company ("**Rand Advisors**"), Rand PE Fund I, LP, a Delaware series limited partnership ("**Rand PE Fund**"), Rand PE Fund Management, LLC, a Delaware limited liability company ("**Rand GP**"), Atlas IDF, LP, a Delaware limited partnership ("**Atlas IDF**"), Atlas IDF GP, LLC, a Delaware limited liability company ("**Atlas GP**" and together with HMIT, Beacon Mountain, Rand Advisors, Rand PE Fund, Rand GP and Atlas IDF, the "**HMIT Entities**"), on the other hand. The Highland Entities and the HMIT Entities are collectively referred to as the "**Parties**," and each individually, as a "**Party**".

## DEFINITIONS

Capitalized terms used but not otherwise defined herein shall have the meanings set forth in the Claimant Trust Agreement or the Plan, as applicable (in each case, as hereinafter defined). For purposes of this Agreement, the following capitalized terms have the following meanings:

"**9019 Motion**" means the motion seeking entry of the Bankruptcy Court Order pursuant to Bankruptcy Rule 9019 and in accordance with Section 18.

"**Action**" means any action, claim, demand, arbitration, hearing, charge, complaint, investigation, examination, indictment, litigation, suit or other civil, criminal, administrative or investigative proceedings, including any petition under Rule 202 of the Texas Rules of Civil Procedure.

"**Affiliate**" means a Person that, directly or indirectly, through one or more intermediaries, controls or is controlled by, or is under common control with, a specified Person as of the date on which, or at any time during the period for which, the determination of affiliation is being made. The term "control" (including, with correlative meanings, the terms "controlled by" and "under common control with"), as applied to any Person, means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of such Person, whether through the ownership of voting securities or other ownership interest, by contract or otherwise.

"**Amended Complaint**" means the *Amended Complaint and Objection to Claims*, filed as docket number 158 in *Kirschner v. Dondero*, Adv. Pro. No. 21-03076-sgj (Bankr. N.D. Tex. May 19, 2022).

"**Bankruptcy Case**" means *In re Highland Capital Management, L.P.*, Case No. 19-34054-sgj (Bankr. N.D. Tex.) and its related proceedings.

"**Bankruptcy Code**" means title 11 of the United States Code, 11 U.S.C. §§ 101-1532 (as amended).

"**Bankruptcy Court**" means the U.S. Bankruptcy Court for the Northern District of Texas, Dallas Division.

"**Bankruptcy Court Approval Date**" means the date on which the Bankruptcy Court Order is issued.

"**Bankruptcy Court Order**" means an order of the Bankruptcy Court approving the allowance of the HMIT's Class 10 Interest as provided in this Agreement pursuant to the 9019 Motion.

"**Bankruptcy Rules**" means the Federal Rules of Bankruptcy Procedure.

"**Business Day**" means any day other than (i) a Saturday or a Sunday, (ii) a day on which the Federal Reserve Bank of New York or the New York Stock Exchange is closed, or (iii) a day on which banks in the States of Texas are required, or authorized by law, to close.

"**Claimant Trust Agreement**" means that certain Claimant Trust Agreement of the Claimant Trust (as may have been or may be amended, supplemented or otherwise modified in accordance with the terms thereof from time to time), effective as of August 11, 2021, by and among Highland, as settlor, James P. Seery, Jr., a Claimant Trustee, and Wilmington Trust, National Association, a national banking association, as Delaware trustee.

"**Claims**" means any claims, debts, liabilities, demands, obligations, breaches of contract, breaches of duty or any relationship, misfeasance, malfeasance, promises, acts, omissions, agreements, liens, losses, costs and expenses (including attorney's fees and related costs), damages, injuries, suits, Actions, and causes of action of whatever kind or nature, whenever and however, arising, whether known or unknown, suspected or unsuspected, matured or unmatured, liquidated or unliquidated, contingent or fixed, at law or in equity, statutory or otherwise.

"**Class 10**" means the class of Claims or Equity Interests described in Article II. Section H.10. of the Plan.

"**Class 11**" means the class of Claims or Equity Interests described in Article II. Section H.11. of the Plan.

"**Committee**" means the official committee of unsecured creditors appointed in the Bankruptcy Case.

"**Confirmation Order**" means that certain *Order Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified) and (ii) Granting Related Relief* [Docket No. 1943], as conformed in accordance with the Fifth Circuit's rulings.

"**Dugaboy Note**" means that certain Promissory Note dated May 31, 2017, in the original face amount of $24,268,621.69, from The Dugaboy Investment Trust, as Maker, and Highland Capital Management, L.P. and The Get Good Non-Exempt Trust, collectively as Payee.

"**Final Court Approval Date**" means the date on which the Bankruptcy Court Order becomes a Final Order.

"**Final Order**" means an order or judgment of the Bankruptcy Court, which is in full force and effect, and as to which the time to appeal, petition for certiorari, or move for a new trial, reargument or rehearing has expired and as to which no appeal, petition for certiorari, or other proceedings for a new trial, reargument or rehearing shall then be pending or as to which any right to appeal, petition for certiorari, new trial, reargument, or rehearing shall have been waived in writing in form and substance satisfactory to the Highland Entities, as applicable, or, in the event that an appeal, writ of certiorari, new trial, reargument, or rehearing thereof has been sought, such order of the Bankruptcy Court shall have been determined by the highest court to which such order was appealed, or certiorari, new trial, reargument or rehearing shall have been denied and the time to take any further appeal, petition for certiorari, or move for a new trial, reargument or rehearing shall have expired; provided, however, that the possibility that a motion under Rule 60 of the Federal Rules of Civil Procedure, or any analogous rule under the Bankruptcy Rules, may be Filed with respect to such order shall not preclude such order from being a Final Order.

"**Gatekeeper**" means the gatekeeping provision contained in Article IX. F of the Plan as of August 11, 2021.

"**Governmental Authority**" means any federal, provincial, state, local or foreign government or political subdivision thereof, court of competent jurisdiction, administrative agency, judicial or arbitral body, or commission or other governmental or regulatory authority or instrumentality.

"**Highland Released Parties**" means collectively (i) the Highland Entities, (ii) any Affiliate of any Highland Entity and any Person directly or indirectly majority-owned by any Highland Entity or any of their respective Affiliates, (iii) any Person directly or indirectly managed by any Highland Entity or any of their respective Affiliates, whether by contract or otherwise (the entities described in clauses (i)-(iii), collectively, the "**Highland Parties**"), (iv) each of the Highland Parties' current and former trustees and administrators (including the trustees of any of the Claimant Trust, the Litigation Sub-Trust, or the Indemnity Trust), officers, executives, agents, directors, advisors, advisory representatives, consultants, administrators, managers, members, partners (including limited and general partners), employees, beneficiaries, shareholders, other equityholders, participants, direct and indirect subsidiaries and parents, Affiliates, successors, designees, and assigns, (v) the current and former members of the Oversight Board of the Claimant Trust in any capacity (including Richard Katz) and their Affiliates, (vi) Farallon Capital Management, LLC, Stonehill Capital Management, LLC, Muck Holdings LLC, and Jessup Holdings LLC, in each case, in any capacity, (vii) the Independent Board and its members John Dubel, James P. Seery, Jr., and Russell Nelms, (viii) James P. Seery, Jr., individually and in all capacities for any Highland Released Party, including as Chief Executive Officer of Highland Capital Management, L.P., Claimant Trustee of the Claimant

Trust, and the Indemnity Trust Administrator of the Indemnity Trust, (ix) Marc S. Kirschner, individually and as Trustee of the Litigation Sub-Trust, (x) the Committee and each of its members, (xi) the professionals (and their respective firms) (a) retained by Highland or the Committee during the Bankruptcy Case or which provided services to Highland or the Committee during the Bankruptcy Case or (b) retained by any Highland Released Party on or after August 11, 2021, (xii) any Person indemnified by any Highland Party (the Persons described in clauses (i)-(xii), collectively, the "**Highland Covered Parties**"), and (xii) each Highland Covered Party's current and former officers, executives, agents, attorneys (and their respective firms), directors, advisors, consultants, administrators, managers, members, partners (including limited and general partners), employees, beneficiaries, shareholders, other equityholders, participants, direct and indirect subsidiaries and parents, Affiliates, successors, designees, and assigns, if not otherwise included in the defined term "Highland Covered Parties;" provided, however, and for the avoidance of doubt, and without in any way limiting the scope of the foregoing, "Highland Covered Parties" shall include Highland CLO Funding, Ltd., Highland HCF Advisor, Ltd., Highland Multi Strategy Credit Fund, L.P., Highland Multi Strategy Credit Fund GP, L.P., Highland Multi Strategy Credit GP, LLC, Highland Multi Strategy Credit Fund, Ltd., Highland Select Equity Master Fund, L.P., Highland Select Equity Fund GP, L.P., Highland Select Equity Fund, L.P., Highland Restoration Capital Partners Master, L.P., Highland Restoration Capital Partners GP, LLC, Highland Restoration Capital Partners, L.P., Highland Restoration Capital Partners Offshore, L.P., Highland Offshore Director, LLC, Acis CLO Management, LLC, Neutra, Ltd., Pollack, Ltd., Acis CLO Management Holdings, L.P., Acis CLO Management Intermediate Holdings I, LLC, Acis CLO Management Intermediate Holdings II, LLC, Acis CLO Assets Holdings Limited, CHG Houston Holdings, LLC, Penant Management, L.P., Penant Management GP, LLC, Gunwale, LLC, HE Capital, LLC, Gleneagles CLO, Ltd., Aberdeen Loan Funding, Ltd. through, under or on behalf of, any of Mr. Dondero, Mr. Ellington, or Mr. Leventon in any manner and none of such Persons are released from any Claim by any Person in connection with this Agreement.

"**HMIT Class 10 Interest**" means the unvested, contingent Class 10 interest in the Claimant Trust (a) to be allowed on account of HMIT's pre-petition equity interest in Highland, and (b) subject to the terms and conditions, as applicable, of the Plan, the Plan Documents, the Claimant Trust Agreement, and in accordance with this Agreement, and applicable law.

"**HMIT Note**" means that certain Secured Promissory Note dated December 21, 2015, in the original face amount of $63,000,000 from HMIT, as maker, and Highland, as payee.

"**HMIT Note Claims**" means any Claim related to, in connection with or arising out of the HMIT Note.

"**HMIT Released Parties**" means collectively (i) the HMIT Entities, (ii) any Affiliate of any HMIT Entity and any Person directly or indirectly majority owned by any HMIT Entity or any of their respective Affiliates, (iii) any Person directly or indirectly managed by any HMIT Entity or any of their respective Affiliates, whether by contract or otherwise (the entities described in clauses (i) – (iii), collectively, the "**HMIT Parties**"), (iv) each of the HMIT Parties' current and former trustees, administrators, officer, executives, agents, directors, advisors, consultants, manager, members, partners (including limited and general partners), employees, beneficiaries, shareholders, other equityholders, participants, direct and indirect subsidiaries and parents, Affiliates, successors, designees, and assigns (v) the professionals (and their respective firms (a) retained by any HMIT Party during the Bankruptcy Case or which provided services to any HMIT Party during the Bankruptcy Case or (b) retained by any HMIT Released Party on or after August 11, 2021, (vi) any Person indemnified by any HMIT Party (the Persons described in clauses (i) – (vi), collectively, the "**HMIT Covered Parties**"), and (vii) each HMIT Covered Party's current and former officers, executives, agents, directors, advisors, consultants, administrators, managers, members, partners (including limited and general partners), employees, beneficiaries, shareholders, other equityholders, participants, direct and indirect subsidiaries and parents, Affiliates, successors, designees, and assigns, if not otherwise included in the defined term "HMIT Covered Parties." *Notwithstanding the forgoing*, none of "HMIT Released Parties", "HMIT Parties", nor "HMIT Covered Parties" shall include James Dondero, Scott Ellington, Isaac Leventon, or any Person directly or indirectly owned as of the date hereof (in whole or in part) by, and/or Affiliated as of the date hereof with, or claiming through, under or on behalf of, any of Mr. Dondero, Mr. Ellington, or Mr. Leventon in any manner, and none of such Persons are released from any Claims by any Person in connection with this Agreement.

"**Indemnity Trust Administrator**" has the meaning given to it in the Indemnity Trust Agreement.

"**Indemnity Trust Agreement**" means that certain *Second Amended and Restated Indemnity Trust Agreement of the Indemnity Trust* (as may be amended, supplemented or otherwise modified in accordance with the terms thereof from time to time), effective as of [April 28], 2025, by and among the Claimant Trust, as grantor, James P. Seery, Jr., as indemnity

trust administrator, and Wilmington Trust, National Association, a national banking association, as indemnity trustee and Delaware trustee.

"**Indemnity Trust Assets**" has the meaning set forth in the Indemnity Trust Agreement, but excluding Highland, the Claimant Trust, and their respective assets.

"**Independent Board**" means the independent board appointed by the Bankruptcy Court on January 9, 2020, pursuant to that certain *Order Approving Settlement with Official Committee of Unsecured Creditors Regarding Governance of the Debtor and Procedures for Operations in the Ordinary Course* [Docket No. 339].

"**Kirschner Claims**" means all Claims and causes of action that were asserted or could have been asserted by the Litigation Trustee of the Litigation Sub-Trust, in the Amended Complaint.

"**Liability**" means any liability, debt, obligation, loss, damage, claim, cost or expense (including costs of investigation and defense and attorney's fees, costs and expenses), in each case, whether direct or indirect, whether accrued or contingent, whether or not involving a third-party claim, and including incidental and consequential damages and diminution of value.

"**Litigation Protections**" means, individually and collectively, the rights, duties, and obligations set forth in Sections 1 – 2 and Sections 9 - 16.

"**Litigation Sub-Trust**" means the Highland Litigation Sub-Trust, a Delaware statutory trust governed by the Delaware Statutory Trust Act.

"**Litigation Sub-Trust Agreement**" means that certain Litigation Sub-Trust Agreement of the Litigation Sub-Trust (as may be amended, supplemented or otherwise modified in accordance with the terms thereof from time to time), effective as of August 16, 2021, by and among James P. Seery, Jr., as Claimant Trustee of the Claimant Trust, Wilmington Trust, National Association, a national banking association, as Delaware Trustee, and the Litigation Trustee.

"**Litigation Trustee**" means Marc S. Kirschner, as Litigation Trustee of the Litigation Sub-Trust.

"**LPA**" means that certain *Sixth Amended and Restated Agreement of Limited Partnership of Highland Capital Management, L.P.* (as may be amended, supplemented or otherwise modified in accordance with the terms thereof from time to time), dated as of October 4, 2021.

"**Operating Expenses**" means, except for the expenses of the Indemnity Trust (including any payments to Trust Indemnified Parties or Indemnified Parties (in each case, as defined, and pursuant to the terms and conditions set forth, in the Indemnity Trust Agreement)), the expenses of operating and administering the Highland Entities, including legal expenses, employee compensation, Claimant Trustee/CEO and other trust and trustee related compensation, incentive compensation, and customary general and administrative expenses.

"**Original Plan**" means that certain *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* attached as Exhibit A to the *Order (A) Confirming the Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as modified) and (B) Granting Related Relief*, filed at Docket No. 1943 on the Bankruptcy Court's docket.

"**Oversight Board**" means the oversight board of the Highland Claimant Trust.

"**Pending Litigation**" means (i) *Hunter Mountain Investment Trust v. Highland Cap. Mgmt., L.P.*, Case No. 3:23-cv-02071-E (N.D. Tex.), on remand to the Bankruptcy Court (including *Hunter Mountain Investment Trust's Emergency Motion for Leave to File Adversary Proceeding* filed at Bankruptcy Court Docket No. 3699 and all proceedings, decisions, and orders relating there); (ii) *Dugaboy Investment Trust v. Highland Cap. Mgmt, L.P.*, 3:24-cv-01531-X (N.D. Tex.) (only as to HMIT), and (iii) *Hunter Mountain Investment Trust v. Highland Cap. Mgmt., L.P.*, Case No. 3:24-cv-01786-L (N.D. Tex.).

"**Permitted Investments**" has the meaning set forth in the Indemnity Trust Agreement.

"**Person**" means any natural person, partnership, limited liability partnership, corporation, limited liability company, association, joint stock company, trust, estate, joint venture, unincorporated organization or Governmental Authority.

"**Plan**" means that certain *Fifth Amended Plan of Reorganization of Highland Capital Management, L.P. (as Modified)* as conformed in accordance with the Fifth Circuit's rulings.

"**Plan Documents**" has the meaning given to it in the Plan.

"**Plan Protections**" means, collectively, the provisions of the Plan contained in Article IX thereof.

"**Pro Rata**" means the proportion that (a) the allowed amount of a particular Claim or Equity Interest in Class 10 bears to (b) the aggregate allowed amount of all Claims or Equity Interests in Class 10.

"**Threats**" means any written threats of legal action, legal demands, filed complaints, petitions for pre-suit discovery, suits, litigations, arbitrations, actual or threated restraining orders or injunctions made in writing, or similar written actions of any kind, or sworn statements evidencing the same, in any forum against any Trust Indemnified Parties or Indemnified Party (both as defined in the Indemnity Trust Agreement), excluding any such action that would otherwise be a Threat except that any applicable statute of limitations that could be applicable to such action has expired.

**"Threats Notice"** means the written notice of any Threats received by the Indemnity Trust with respect to any Trust Indemnified Parties or Indemnified Party (both as defined in the Indemnity Trust Agreement), that is hereby required to be provided by the Indemnity Trust to the HMIT Entities, within five (5) Business Days after receipt of such Threat.

## RECITALS

**WHEREAS**, as of the Petition Date, HMIT held Class B and Class C Limited Partnerships Interests in Highland;

**WHEREAS**, on December 21, 2015, HMIT entered into the HMIT Note with Highland, which had a total outstanding principal balance of Fifty-Seven Million Six Hundred Ninety Thousand Six Hundred Forty and 95/100 Dollars ($57,690,640.95) as of the Petition Date (the "**HMIT Note Balance**");

**WHEREAS**, HMIT's Class B and Class C Limited Partnership Interests in Highland were extinguished on August 11, 2021, in accordance with the Plan;

**WHEREAS**, pursuant to the LPA, HMIT's capital account balance at Highland on account of its Class B and Class C Limited Partnership Interests on the Petition Date was Three Hundred Ninety-Four Million Six Hundred Thirty Thousand Eight Hundred Seventy-One and 53/100 Dollars ($394,630,871.53) (the "**HMIT Capital Account Balance**");

**WHEREAS**, some or all of the HMIT Entities have asserted certain Claims against certain Highland Entities and certain other Highland Covered Parties, including those asserted in the Pending Litigation;

**WHEREAS**, certain distributions to be made to the holders of allowed Class 10 Claims or Equity Interests pursuant to the terms and subject to the conditions set forth herein are premised on the consent of certain Highland Covered Parties in their capacity as Holders of Class 9 Interests, and such Persons are only willing to provide such consent in exchange for the releases as set forth in this Agreement;

**WHEREAS**, some or all of the Highland Entities have asserted certain Claims against certain HMIT Entities, including the HMIT Note Claims;

**WHEREAS**, the Parties wish to terminate, extinguish, and release any and all rights, duties, obligations and Claims that (a) any of the Highland Released Parties owed or have, or may have owed or have, to or with respect to any of the HMIT Released Parties, and (b) any of the HMIT Released Parties owed or have, or may have owed or have, to or with respect to any of the Highland Released Parties, as provided in this Agreement (collectively, the "**Rights and Obligations**");

**WHEREAS**, the Parties agree that the Litigation Protections are intended to enact a permanent cessation of all litigation concerning or related to the Highland Released Parties through and including the Agreement Date; and

**WHEREAS**, the Parties, individually and collectively, wish to (a) resolve all disputes between and/or among any of the Highland Entities and their respective indemnitees, on the one hand, and any of the HMIT Entities, on the other hand, including those asserted or attempted to be asserted in the Pending Litigation, (b) fix and allow HMIT's Class 10 Interest at the amount and on the terms provided herein; and (c) terminate, extinguish, and release all Rights and Obligations on the terms provided herein.

**NOW THEREFORE**, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereby agree as follows:

**AGREEMENT**

1. Stay and Dismissal of Pending Litigation With Prejudice.

(a) Within five (5) Business Days after the Agreement Date, the HMIT Entities shall take all steps necessary (at their own cost) to stay the Pending Litigation.

(b) Within five (5) Business Days after the Bankruptcy Court Approval Date, the HMIT Entities shall take all steps necessary (at their own cost) to dismiss the Pending Litigation with prejudice.

2. Maintenance of Stay and Dismissal of Certain Defendants from the Amended Complaint.

(a) The Litigation Trustee shall continue to maintain the stay of Adv. Proc. No. 21-03076-sgj and all related proceedings arising therefrom through the Bankruptcy Court Approval Date. Within five (5) Business Days after the Bankruptcy Court Approval Date, the Litigation Sub-Trust shall take all steps necessary (at its own cost) to dismiss, with prejudice, HMIT and Rand PE from Counts I, II, III, and XXIV of the Amended Complaint.

3. Cash Payment to HMIT. Within five (5) Business Days following the Bankruptcy Court Approval Date, Highland shall pay HMIT a one-time, lump sum of Five Hundred Thousand Dollars (US$500,000.00) (the "**Payment**") by wire transfer:

Hunter Mountain Investment Trust
C/o CLO Holdco, LLC
Hancock Whitney
Account # - 071173413
Routing # - 113000968
(469) 604-0955

4. HMIT Class 10 Interest.

(a) Subject to entry of the Bankruptcy Court Order, and the terms of this Agreement, the HMIT Class 10 Interest shall be deemed allowed in the amount of Three Hundred Thirty-Six Million Nine Hundred Forty Thousand Two Hundred Thirty and 58/100 Dollars (US$336,940,230.58), which amount represents the HMIT Capital Account Balance, less the HMIT Note Balance.

(b) Notwithstanding anything to the contrary in the Plan or the Claimant Trust Agreement, as an integral part of this Agreement to consent to the allowance of the HMIT Class 10 Interest and the other considerations in this Agreement, HMIT shall not be deemed, and no holder of the HMIT Class 10 Interest shall be, a Claimant Trust Beneficiary or a "Beneficiary" under the Claimant Trust Agreement, and the Highland Released Parties, individually and collectively, shall owe no duty to any HMIT Releasor (whether contractual, fiduciary, equitable,

statutory or otherwise), including with respect to the HMIT Class 10 Interest, in each case, except as expressly set forth in this Agreement. Furthermore, without limiting the foregoing and for the avoidance of doubt, the contractual right of the holder of the HMIT Class 10 Interest to receive or recover any payments or Indemnity Trust Assets from the Indemnity Trust as set forth in this Agreement or the Indemnity Trust Agreement does not make any HMIT Releasor or any other Person a beneficiary of the Indemnity Trust or under the Indemnity Trust Agreement.

(c) Notwithstanding anything to the contrary in the Plan, the Claimant Trust Agreement or the Indemnity Trust Agreement, in no event shall HMIT sell, transfer, assign, pledge, hypothecate, participate or otherwise dispose of or encumber the HMIT Class 10 Interest or any rights (including any right to payment) with respect thereto (collectively, a "**Class 10 Assignment**"), and any attempted Class 10 Assignment shall be null and void.

(d) For the avoidance of doubt, the HMIT Class 10 Interest is and shall remain senior to the not yet allowed, unvested contingent Class 11 Claims of Equity Interests as provided for in the Plan, the Plan Documents, and the Claimant Trust Agreement.

5. Initial Interim Distributions on the Allowed Class 10 Interests.

(a) Within five (5) Business Days after the Bankruptcy Court Approval Date, the Indemnity Trust shall distribute (the date on which such distribution is made, the "**Initial Interim Distribution Date**") Pro Rata to the Holders of allowed Class 10 Claims or Equity Interests cash in the aggregate amount of Ten Million Dollars (US$10,000,000.00) (the "**Initial Interim Cash Distribution Amount**"), by means of wire transfer with the Pro Rata portion in respect of the HMIT Class 10 Interest sent to the wire instructions contained in Section 3 ("**Wire Transfer**").

(b) Within five (5) Business Days after the Bankruptcy Court Approval Date (the "**Note Assignment Date**"), the Highland Entities shall cause the portion of the Dugaboy Note held by the Highland Entities to be distributed to HMIT in-kind and take all actions necessary for HMIT to become the holder of such portion of the Dugaboy Note, and shall in addition pay to HMIT cash in the aggregate amount of all principal and interest payments actually received on the Dugaboy Note by the Highland Entities, including the Indemnity Trust, from the Agreement Date to the Note Assignment Date. Prior to the Bankruptcy Court Approval Date, HMIT will engage an independent valuation service provider to value the Dugaboy Note for purposes of determining the magnitude of reduction to the outstanding allowed Class 10 Interests on account of such in-kind distribution, which shall not be less than Fifty percent (50%) of the current balance owed under the Dugaboy Note. The HMIT Entities acknowledge and agree that none of the Highland Entities are representing or warranting that the Dugaboy Note can be sold, or the price, if any, that could be received for the Dugaboy Note and further acknowledge and agree that any such purchase price may be de minimis.

6. Subsequent Distribution(s) on the Allowed Class 10 Interests.

(a) On December 1, 2027, the Indemnity Trust shall distribute (such distribution, collectively, the "**First Subsequent Distribution**", and the date on which such Subsequent Distribution is made, the "**First Subsequent Distribution Date**") Pro Rata to the

Holders of allowed Class 10 Claims or Equity Interests: cash in the aggregate amount of Six Million Five Hundred Thousand Dollars (US$6,500,000.00), by Wire Transfer.

(b) On December 1, 2028, the Indemnity Trust shall distribute (such distribution, collectively, the "**Second Subsequent Distribution**", and the date on which such Subsequent Distribution is made, the "**Second Subsequent Distribution Date**") Pro Rata to the Holders of allowed Class 10 Claims or Equity Interests cash in the aggregate amount of Six Million Five Hundred Thousand Dollars (US$6,500,000.00) by Wire Transfer.

(c) Notwithstanding anything herein to the contrary, the obligations of the Indemnity Trust to make the First Subsequent Distribution or Second Subsequent Distribution is subject in all respects to (i) there being no Threats and (ii) a determination in accordance with Article VIII, Section 8.1(c) of the Indemnity Trust Agreement that the Indemnity Trust Assets comprising such distributions are not reasonably necessary to satisfy current or potential Indemnification Obligations (as defined in the Indemnity Trust Agreement) to all persons who are or might become Beneficiaries (as defined in the Indemnity Trust Agreement).

7. Final Distribution on the Allowed Class 10 Interests.

(a) On the later of the Final Court Approval Date and April 1, 2029, the Indemnity Trust will distribute all excess remaining Indemnity Trust Assets in accordance with Article VIII of the Indemnity Trust Agreement; provided, however, that the obligation of the Indemnity Trust to make any such distributions and/or dissolve and wind up the affairs of the Indemnity Trust is subject in all respects to (i) there being no Threats and (ii) a determination in accordance with Article VIII of the Indemnity Trust Agreement that (1) a Final Order(s) (as defined in the Indemnity Trust Agreement) has been entered resolving all litigation, claims or proceedings in any forum of any kind which could give rise to Indemnity Obligations (as defined in the Indemnity Trust Agreement) and payment in full of all such Indemnity Obligations and (2) all applicable statutes of limitations and any applicable tolling of such statutes of limitation have expired.

(b) The Indemnity Trust agrees to not use Indemnity Trust Assets to fund Operating Expenses.

(c) Following the Bankruptcy Court Approval Date, at the request of Mark Patrick, solely in his capacity, and to the extent he remains, as administrator of HMIT, but not more often than quarterly, Highland and the Indemnity Trust Administrator agree to review (i) the status of their respective assets, (ii) the balance of cash held, (iii) the status of any claims made for indemnification and any resolutions thereof, (iv) the status of any litigation, and (v) forecasted operating expenses with Mr. Patrick, and will each work in good faith to reduce operating expenses where reasonably practicable; provided, however, that all such reporting shall be subject to Mr. Patrick's agreement to maintain confidentiality with respect to any non-public information.

8. Transfer Kirschner Claims; Dismissal of HMIT Note Claims.

(a) Within five (5) Business Days after the Bankruptcy Court Approval Date, but after the dismissal provided for in Section 2, the Litigation Sub-Trust shall execute a short-

form assignment in in favor of the HMIT Entities transferring all of the Litigation Sub-Trust's right, title, and interest in and to the Kirschner Claims (the "**Kirschner Transfer**"). Such assignment shall be in a form mutually acceptable to the Parties and its substance shall be consistent with the terms, conditions and limitations set forth in this Agreement, including Section 8(b) below. Each HMIT Entity acknowledges and agrees that none of the Highland Entities will have any duty or obligation to assist the HMIT Entities in any way with respect to the Kirschner Claims, including the prosecution thereof, except as provided in this Agreement, including the terms of Section 8(c) below.

(b) THE HMIT ENTITIES SPECIFICALLY ACKNOWLEDGE AND AGREE THAT THE LITIGATION SUB-TRUST IS TRANSFERRING THE KIRSCHNER CLAIMS ON AN "AS IS AND WITH ALL FAULTS" BASIS AND THAT THE HMIT ENTITIES ARE NOT RELYING ON ANY REPRESENTATIONS OR WARRANTIES OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, FROM THE HIGHLAND ENTITIES OR THEIR REPRESENTATIVES AS TO ANY MATTERS CONCERNING THE KIRSCHNER CLAIMS AND AMENDED COMPLAINT, INCLUDING WITH RESPECT TO THE ENFORCEABILITY, TRANSFERABILITY, VIABILITY, STRENGTH, OR VALUE OF ANY OF THE KIRSCHNER CLAIMS OR THE AMENDED COMPLAINT. The HMIT Entities hereby specifically acknowledge that they have carefully reviewed this Section and have had the opportunity to discuss its import with legal counsel and that the provisions of this Section are a material part of this Agreement. Thus, if for any reason HMIT is precluded from or is otherwise unable to prosecute all or any of the Kirschner Claims, (i) the HMIT Releasors shall have no recourse against any Highland Released Parties whatsoever and shall not be entitled to compensation of any kind, it being agreed that the HMIT Entities are otherwise receiving adequate consideration for the duties and obligations they are undertaking pursuant to this Agreement and (ii) there will be no effect whatsoever on the validity and enforceability of this Agreement or any of the other transactions contemplated hereby.

(c) As promptly as reasonably practicable following the Bankruptcy Court Approval Date, the Highland Entities shall provide to the HMIT Entities electronic copies of written discovery requests and responses thereto, and documents produced in discovery in respect of the Kirschner Claims and the Amended Complaint. The Highland Entities will not provide any other documents regarding the Kirschner Claims including any attorney-client communications and any documents subject to the attorney work-product doctrine or similar privileges or immunities concerning the Kirschner Claims (collectively, the "**Kirschner Privileges**"), it being understood and agreed that the Highland Entities are retaining, and not transferring or waiving, the Kirschner Privileges.

(d) Each Party acknowledges and agrees that if (i) the Kirschner Transfer is found or deemed to be impermissible or invalid, for any reason, or (ii) any HMIT Entity materially breaches this Agreement, the Kirschner Claims and Amended Complaint will revert to, and remain an asset of, the Litigation Sub-Trust.

9. General Release By The HMIT Entities. On the Bankruptcy Court Approval Date, and to the maximum extent permitted by law, each of the HMIT Entities, on behalf of itself and each of its respective Affiliates (including Affiliated and/or managed funds, accounts and other investment vehicles) and its and their respective current and former advisors, consultants,

administrators, trustees, directors, officers, managers, executives, members, partners (including limited and general partners), employees, beneficiaries, direct and indirect shareholders and other equity holders, agents, participants, direct and indirect subsidiaries and parents, successors, predecessors, designees, and assigns (whether by operation of law or otherwise) and all Persons claiming through, under or on their behalf (collectively with the HMIT Entities, the "**HMIT Releasors**") hereby forever, finally, fully, unconditionally, and completely releases, relieves, acquits, discharges, remises, and exonerates each Highland Released Party from, and waives and relinquishes, any and all Claims, which the HMIT Releasors, or any Person claiming through, under, or on behalf of any of the HMIT Releasors, ever had, now has, or hereafter can, shall, or may have against any of the Highland Released Parties by reason of, arising from, relating to, or in connection with, any fact, matter, or transaction that occurred prior to the Agreement Date, including any fact, matter, transaction, or occurrence asserted by any HMIT Entity in the Pending Litigation or in connection with, relating to, or with respect to the Bankruptcy Case, the management or operation of any of the Highland Released Parties, or the Highland Released Parties' property and including any defense, affirmative defenses, and right to setoff arising out of, or otherwise related to, any of the foregoing (collectively, the "**HMIT Entity Released Claims**").

10. General Release By The Highland Entities. On the Bankruptcy Court Approval Date, and to the maximum extent permitted by law, each of the Highland Entities, on behalf of itself and each of its respective Affiliates (including Affiliated and/or managed funds, accounts and other investment vehicles) and its or their respective current and former advisors, consultants, administrators, trustees, directors, officers, managers, executives, members, partners (including limited and general partners), employees, beneficiaries, direct and indirect shareholders and other equity holders, agents, participants, direct and indirect subsidiaries and parents, successors, predecessors, designees, and assigns (whether by operation of law or otherwise) and all Persons claiming through, under or on their behalf (collectively with the Highland Entities, the "**Highland Releasors**") hereby forever, finally, fully, unconditionally, and completely releases, relieves, acquits, discharges, remises, and exonerates each HMIT Released Party from, and waives and relinquishes, any and all Claims which the Highland Releasors, or any Person claiming through, under, or on behalf of any of the Highland Releasors, ever had, now has, or hereafter can, shall, or may have against any of the HMIT Released Parties by reason of, arising from, relating to, or in connection with, any fact, matter, or transaction that occurred prior to the Bankruptcy Court Approval Date, including any fact, matter, transaction, or occurrence in connection with, relating to, or with respect to the Bankruptcy Case, the management or operation of any of the HMIT Released Parties, or the HMIT Released Parties' property and including any defense, affirmative defenses, and right to setoff arising out of, or otherwise related to, any of the foregoing (collectively, the "**Highland Released Claims**").

11. Further Provisions Concerning The General Releases.

(a) **FOR THE AVOIDANCE OF DOUBT, THE FOREGOING RELEASES ARE INTENDED TO BE GENERAL AND INCLUDE A RELEASE OF ALL RELEASED CLAIMS, WHETHER KNOWN OR UNKNOWN, SUSPECTED OR UNSUSPECTED, ARISING OR EXISTING FROM THE BEGINNING OF TIME THROUGH AND INCLUDING THE AGREEMENT DATE.**

(b) To the maximum extent permitted by law, each of the HMIT Entities and the Highland Entities, on their own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, waives the benefit of any statute or other principle of law or equity that limits the applicability of a release with respect to Claims that the releasing party does not know or suspect to exist in his, her or its favor at the time of executing the release.

(c) Without limiting the scope of the foregoing waiver, in connection with the foregoing release, each of the HMIT Entities and the Highland Entities, on its own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, waives the benefits of Section 1542 of the California Civil Code (to the extent, if any, that Section 1542 might apply to the foregoing release), which provides as follows:

> **A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE AND THAT, IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED PARTY.**

Each of the HMIT Entities and the Highland Entities, on their own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, hereby agrees that the provisions of Section 1542 of the Civil Code of the State of California and all similar federal or state law, rights, rules or legal principles, legal or equitable, in each case solely to the extent such provisions apply, **ARE HEREBY KNOWINGLY AND VOLUNTARILY WAIVED AND RELINQUISHED BY EACH OF THE HMIT ENTITIES AND THE HIGHLAND ENTITIES, ON THEIR OWN BEHALF AND ON BEHALF OF THE OTHER HMIT RELEASORS AND HIGHLAND RELEASORS, RESPECTIVELY,** in each and every capacity, to the full extent that such rights and benefits pertaining to the matters released herein may be waived, and each of the HMIT Entities and the Highland Entities, on their own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, hereby agrees and acknowledges that this waiver and relinquishment is an essential term of this Agreement, without which the consideration provided would not have been given.

In connection with such waiver and relinquishment, each of the HMIT Entities and Highland Entities acknowledges that it is aware that it may hereafter discover Claims presently unknown or unsuspected, or facts in addition to or different from those which it now knows or believes to be true, with respect to the matters released herein. Nevertheless, it is the intent of each of the HMIT Entities and the Highland Entities, on its own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, in executing this Agreement fully, finally, and forever to settle and release all such matters, and all Claims related thereto, which exist, may exist or might have existed (whether or not previously or currently asserted in any action) which are the subject to the releases granted above.

(d) As an integral component of this Agreement, and notwithstanding the Parties' intent set forth in the preamble hereto and the general nature of the releases in Sections 9 and 10, should:

(i) any HMIT Releasor contend or assert that any Claim of any kind whatsoever held by any HMIT Releasor against any Highland Released Party survives this Agreement and is in any way related to or arising from or in connection with any HMIT Entity Released Claim (such claim or cause of action, a "**HMIT Alleged Claim**"), such HMIT Releasor will be deemed to have irrevocably, fully, and finally assigned such HMIT Alleged Claim to the Highland Entities and the Highland Entities will be deemed to have forever, finally, full, unconditionally, and irrevocably, and completely released such HMIT Alleged Claim.

(ii) any Highland Releasor contend or assert that any Claim of any kind whatsoever held by any Highland Releasor against any HMIT Released Party survives this Agreement and is in any way related to or arising from or in connection with any Highland Entity Released Claim (such claim or cause of action, a "**Highland Alleged Claim**"), such Highland Releasor will be deemed to have irrevocably, fully, and finally assigned such Highland Alleged Claim to the HMIT Entities and the HMIT Entities will be deemed to have forever, finally, full, unconditionally, and irrevocably, and completely released such Highland Alleged Claim.

12. Covenant Not To Sue; Limitation on Standing. Upon the Agreement Date:

(a) Each of the HMIT Releasors covenants and agrees that it will not institute or prosecute any Action, in law, in equity or otherwise, against any of the Highland Released Parties, to recover, enforce, investigate, or collect any HMIT Entity Released Claim and will not (i) induce, encourage or direct any other Person to do so or (ii) act in concert with or assist (financially or otherwise) any other Person in doing so.

(b) Each of the Highland Releasors covenants and agrees that it will not institute or prosecute any Action, in law, in equity or otherwise, against any of the HMIT Released Parties, to recover, enforce, investigate, or collect any Highland Entity Released Claim and will not (i) induce, encourage or direct any other Person to do so or (ii) act in concert with or assist (financially or otherwise) any other Person in doing so.

(c) For the avoidance of doubt, this Agreement shall not operate to give any HMIT Entity standing for any purpose in connection with the Bankruptcy Case (or in connection with any appeal arising from any order entered by the Bankruptcy Court), except for the limited purpose of seeking Court approval of this Agreement (including with respect to any appeal concerning any order entered granting or denying such approval), and except for the limited purpose of enforcing this Agreement, no HMIT Entity shall commence any Action in connection with the HMIT Class 10 Interest.

13. Representations and Warranties.

(a) Each of the HMIT Entities hereby represents and warrants that every HMIT Entity Released Claim has not heretofore been assigned or encumbered and is not the subject of a transfer (as such term is defined in 11 U.S.C. § 101(54)), by any HMIT Releasor.

(b) The HMIT Entities, on their own behalf and on behalf of the other HMIT Releasors, acknowledge and agree that each Plan Provision is lawful, effective, and binding on the HMIT Releasors. The HMIT Entities further agree, on their own behalf and on behalf of the

other HMIT Releasors, that the HMIT Releasors will never, in any way, challenge or seek to modify, nullify, vacate, or revoke, or induce, encourage or direct any other Person to do so or act in concert with or assist (financially or otherwise) any other Person in doing so the Confirmation Order, the Plan, the Plan Protections, or any Plan Document, including the Claimant Trust Agreement, the LPA, the Indemnity Trust Agreement or the Litigation Sub-Trust Agreement, in the Bankruptcy Court, in any other state or federal court, in any other forum or tribunal, or otherwise, including administrative or regulatory tribunals and foreign courts.

(c) Each of the Highland Entities hereby represents and warrants that every Highland Entity Released Claim has not heretofore been assigned or encumbered and is not the subject of a transfer (as such term is defined in 11 U.S.C. § 101(54)), by any Highland Releasor.

(d) Each Party severally represents and warrants as to itself only that: (i) it has taken all necessary action to authorize and approve the execution, delivery and performance of this Agreement; (ii) such Party has full power and authority to execute and deliver this Agreement; and (iii) this Agreement constitutes a valid, legal and binding obligation of such Party, and is enforceable subject to its terms. Each individual signatory hereto individually warrants and represents to all Parties hereto that such individual has full power and authority to act on behalf of and bind the Party for which he or she has executed this Agreement; provided, however that no signatory shall otherwise provide any warranty or representation or otherwise be a party to this Agreement on an individual basis.

14. No Continuing Rights, Duties or Obligations. Except for the rights, duties, and obligations expressly set forth in this Agreement, all Rights and Obligations that existed or may have existed shall be deemed terminated, extinguished, and released upon the Agreement Date. For the avoidance of doubt, from and after the Agreement Date, (a) the Highland Released Parties, individually and collectively, shall owe no duty, past or present, including with respect to the Kirchner Claims, to the HMIT Released Parties, individually and collectively, whether contractual, fiduciary, equitable, statutory or otherwise, except as arising out of this Agreement, and (b) the HMIT Released Parties, individually and collectively, shall owe no duty to the Highland Released Parties, individually and collectively, whether contractual, fiduciary, equitable, statutory or otherwise, except as arising out of this Agreement.

15. Gatekeeper Standard.

(a) The HMIT Entities and the Highland Entities, on their own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, acknowledge and agree that, notwithstanding the United States Court of Appeals for the Fifth Circuit's decision in *Highland Capital Management Fund Advisors, L.P. v. Highland Capital Management, L.P.*, No. 23-10$^{53}$4 (5th Cir. Mar. 18, 2025), the "Gatekeeper" provisions contained in Highland's Original Plan is forever binding on each of the HMIT Entities and any Persons claiming through, under or on behalf of any of them, and for a claim or cause of action to be "colorable" for purposes of the Gatekeeper, it must be found by final order of the Bankruptcy Court (the "**Gatekeeper Court**"), which order shall be subject to appeal to a court of competent jurisdiction, to have satisfied the "Gatekeeper Colorability Test" as such term is defined in *In re Highland Capital Management, L.P.*, 2023 Bankr. LEXIS 2104 at *124-36 (Bankr. N.D. Tex. Aug. 24, 2023).

(b) The HMIT Entities and the Highland Entities, on their own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, acknowledge and agree that compliance with the Gatekeeper requires (i) a motion seeking leave to sue an Exculpated Party (as that term is defined in Highland's original Plan) and a finding that the litigant's claims and causes of action are "colorable" attaching a complaint setting forth the basis for such claims or causes of action and (ii), in the Gatekeeper Court's sole discretion, an evidentiary hearing (during which the Gatekeeper Court may, among other things, hear testimony and assess the credibility of any witness(es)) to determine whether a proposed claim or cause of action is "colorable."

(c) The HMIT Entities and the Highland Entities, on their own behalf and on behalf of the other HMIT Releasors and Highland Releasors, respectively, further acknowledge and agree that the moving party under the Gatekeeper has the burden of satisfying the "Gatekeeper Colorability Test," and that the dismissal of the Pending Litigation shall have res judicata effect.

16. Indemnification.

(a) Without in any manner limiting the available remedies for any breach of this Agreement, the HMIT Entities, severally but not jointly, agree to indemnify, defend, and hold the Highland Released Parties harmless from and against any and all Liability, that may arise or result from or on account of, or that are otherwise related or attributable to (x) any breach of this Agreement or of any representation or warranty contained in the Agreement, including the representations and warranties of any HMIT Entity set forth in Section 13 or (y) any Actions brought or prosecuted by or on behalf of, any HMIT Releasor or that are induced, encouraged, assisted or directed by any HMIT Releasor or brought or prosecuted in concert with any HMIT Releasor against any Highland Released Party with respect to or related to any HMIT Entity Released Claims. Without limiting the scope of the foregoing in any manner, any HMIT Entity that breaches Section 12 shall be liable to the Highland Released Party against whom the applicable Action has been brought or prosecuted in violation of Section 12 for the reasonable attorneys' fees and costs incurred by such Highland Released Party in defending against or otherwise responding to such Action. Each HMIT Entity acknowledges and agrees that the HMIT Entities are and shall be severally but not jointly liable for any Liability arising from or out of any breach of this Agreement or of any representation or warranty set forth in this Agreement.

(b) Without in any manner limiting the available remedies for any breach of this Agreement, the Highland Entities, severally but not jointly, agree to indemnify, defend, and hold the HMIT Released Parties harmless from and against any and all Liability, that may arise or result from or on account of, or that are otherwise related or attributable to (x) any breach of this Agreement or of any representation or warranty contained in the Agreement, including the representations and warranties of any Highland Entity set forth in Section 13 or (y) any suits, proceedings, or other actions brought or prosecuted by or on behalf of, any Highland Releasor or that are induced, encouraged, assisted or directed by any Highland Releasor or brought or prosecuted in concert with any Highland Releasor against any HMIT Released Party with respect to or related to any Highland Entity Released Claims. Without in any manner limiting the scope of the foregoing, any Highland Entity that breaches Section 12 shall be liable to the HMIT

Released Party against whom the applicable Action has been brought or prosecuted in violation of Section 12 for the reasonable attorneys' fees and costs incurred by such HMIT Released Party in defending against or otherwise responding to such Action. Each Highland Entity acknowledges and agrees that the Highland Entities are and shall be severally but not jointly liable for any Liability arising from or out of any breach of this Agreement or of any representation or warranty set forth in this Agreement.

17. Execution. This Agreement may be executed by the exchange of signatures by facsimile or by PDF attachment to an email transmittal and in counterparts, and if so executed, shall be fully executed when a counterpart has been executed and delivered by all Parties hereto through counsel. All counterparts taken together shall constitute one and the same agreement and shall be fully enforceable as such.

18. Bankruptcy Court Order. The allowance of the allowed HMIT Class 10 Interest pursuant to Section 4 is subject to the entry of the Bankruptcy Court Order. To that end, the Highland Entities shall file the 9019 Motion no later than five (5) Business Days after the Agreement Date. Each Party shall, and shall cause each of their respective Affiliates to, undertake any and all actions in compliance with applicable law to obtain the Bankruptcy Court Order as promptly as practicable, and without limiting the foregoing, if an Action is threatened or instituted by any Person opposing the 9019 Motion or otherwise challenging the validity or legality, or seeking to restrain the consummation, of the transactions contemplated by this Agreement or the Bankruptcy Court Order, each Party shall, and shall cause its respective Affiliates to, use their commercially reasonable best efforts to avoid, resist, resolve or, if necessary, and defend to effectuate this Agreement and consummate the transactions hereby. If the 9019 Motion is not approved by entry of the Bankruptcy Court Order or if the Bankruptcy Court Approval is precluded from becoming a Final Order, (a) there will be no effect on, adjustment to, or impairment of, in any way, the validity and enforceability of the remainder of this Agreement, and the other transactions contemplated hereby, all of which shall remain in full force and effect and (b) each Party shall, and shall cause its respective Affiliates to, use their best efforts to seek the allowance of the HMIT Class 10 Interest in a substantially similar amount and on substantially similar terms as set forth in Section 4 to the fullest extent possible so as to give effect to the original intent of the Parties as closely as possible.

19. Fees and Expenses. Whether or not the transactions contemplated hereby are consummated or the Bankruptcy Court Order is obtained, and except as otherwise expressly provided in this Agreement, each Party will bear its respective fees, costs and expenses (including legal, accounting and other professional fees) incurred in connection with the preparation, negotiation, execution and performance of this Agreement or the transactions contemplated hereby, including with respect to each Party's respective obligations pursuant to Section 18. Notwithstanding the foregoing, if any Party hereto, any Highland Released Party, or any HMIT Released Party brings an Action to enforce or interpret the terms and provisions of this Agreement, the prevailing Person in that Action shall be entitled to have and recover from the non-prevailing Person all such fees, costs and expenses (including all court costs and reasonable attorneys' fees) as the prevailing Person may suffer or incur in the pursuit or defense of such action or proceeding.

20. Entire Agreement; No Other Representations. **THIS AGREEMENT CONTAINS THE ENTIRE AGREEMENT BETWEEN THE PARTIES, AND NO RIGHTS ARE CREATED IN FAVOR OF ANY PERSON OTHER THAN AS SPECIFIED OR EXPRESSLY SET FORTH IN THIS AGREEMENT. THERE ARE NO REPRESENTATIONS, CONDITIONS, WARRANTIES, STATEMENTS, OR UNDERSTANDINGS (COLLECTIVELY, "REPRESENTATIONS"), EITHER ORAL OR WRITTEN, BETWEEN THE PARTIES OTHER THAN THOSE EXPRESSLY SET FORTH IN THIS AGREEMENT. THE PARTIES EXPRESSLY AGREE THAT THEY HAVE NOT BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY ANY REPRESENTATIONS NOT SET FORTH IN THIS AGREEMENT; AND THE PARTIES EXPRESSLY AGREE THAT THEY HAVE NOT RELIED ON ANY REPRESENTATIONS NOT EXPRESSLY SET FORTH IN THIS AGREEMENT. THE PARTIES EXPRESSLY AGREE THAT THEY ARE ENTERING INTO THIS AGREEMENT RELYING SOLELY ON THEIR OWN JUDGMENT AND NOT ON ANY REPRESENTATIONS BY ANY PARTY, EXCEPT FOR THOSE REPRESENTATIONS EXPRESSLY SET FORTH IN THIS AGREEMENT. THE PARTIES AGREE THAT REPRESENTATIONS NOT EXPRESSLY SET FORTH IN THIS AGREEMENT SHALL NOT BE USED IN THE INTERPRETATION OR CONSTRUCTION OF THIS AGREEMENT, AND NEITHER THE HMIT RELEASED PARTIES NOR THE HIGHLAND RELEASED PARTIES SHALL HAVE ANY LIABILITY FOR ANY CONSEQUENCES ARISING AS A RESULT OF ANY REPRESENTATIONS NOT SET FORTH IN THIS AGREEMENT**.

21. Agreement and Release Knowing and Voluntary. The Parties acknowledge that they have considered this Agreement with their respective attorneys and have carefully read this Agreement, that it has been fully explained by their attorneys, and that they have had a reasonable opportunity to consider this Agreement. The Parties further represent that they know and fully understand the contents of this Agreement, that they intend to be legally bound by this Agreement and the releases and covenants contained herein, and that they are signing this Agreement, including the release provisions herein, voluntarily and of their own free will and without coercion, and with the benefit of advice of counsel.

22. Cooperation. The Parties agree to perform any services or actions reasonably necessary to carry out the terms and conditions of this Agreement or the transactions contemplated hereby, including the execution and delivery of reasonable additional documents, instruments, conveyances and/or assurances, in good faith, and to reasonably communicate and cooperate with one another in this regard. For the avoidance of doubt, nothing in this Section shall obligate the Highland Entities to assist the HMIT Entities in any way with respect to the Kirschner Claims, including the prosecution thereof.

23. Governing Law. This Agreement shall be construed pursuant to and governed by the laws of the State of Delaware (substantive and procedural) without reference to principles of conflicts of law that would result in the application of any other State's laws.

24. Jurisdiction/Venue. The Parties hereby irrevocably submit to the jurisdiction and venue of the Bankruptcy Court with respect to any Action arising out of or related to this Agreement or the subject matter hereof; if (and only if) the Bankruptcy Court lacks personal or

subject matter jurisdiction to adjudicate an Action arising out of or related to this Agreement or the subject matter hereof, then the Parties irrevocably submit to the jurisdiction and venue of the United States District Court for the Northern District of Texas.

25. No Admissions. All Parties acknowledge and agree that the matters set forth in this Agreement constitute the settlement and compromise of disputed Claims and that this Agreement shall not constitute the admission of any fact or liability by any of them regarding any Claim, including the Claims released hereunder, and neither the terms hereof, nor the fact of this Agreement itself, shall be evidence of any kind in any Action, other than an Action to enforce the terms of the Agreement or any instrument executed in connection herewith or any claim for damages or other relief for breach of any representation or warranty contained herein or in any instrument executed in connection herewith.

26. Other Provisions.

(a) No representation, inducement, agreement, promise or understandings altering, modifying, amending, taking from or adding to, the terms and conditions hereof shall have any force or effect unless the same is in writing and validly executed by each of the Parties hereto.

(b) The waiver by any Party of any breach of, or default under, any provision of this Agreement shall not operate or be construed as a waiver of any subsequent breach or default; provided, however, that for any such waiver to be enforceable, it shall be in writing and executed by the non-breaching Party.

(c) The headings contained in this Agreement are for convenience only and shall in no way restrict or otherwise affect the construction of the provisions hereof.

(d) The Parties shall each execute all documents and perform all acts necessary and proper to effectuate the terms of this Agreement.

27. Notices. All notices required or permitted to be provided hereunder shall be afforded to the respective parties to and through their counsel, and shall be transmitted simultaneously by electronic mail (with PDF attachments, as necessary) and by telefax, addressed as follows:

To the Highland Entities:

**PACHULSKI STANG ZIEHL AND JONES LLP**
Jeffrey N. Pomerantz
John A. Morris
10100 Santa Monica Boulevard
Los Angeles, California 90067-4003
310.277.6910
jpomerantz@pszjlaw.com
jmorris@pszjlaw.com

To the HMIT Entities:

**KELLY HART PITRE**
Louis M. Phillips
Amelia Hurt
301 Main Street, Suite 1600
225.381.9643
Louis.Phillips@Kellyhart.com
Amelia.Hurt@Kellyhart.com

28. Severability. Should any term, provision or paragraph of this Agreement be determined to be illegal or void or of no force and effect, the balance of the Agreement shall survive. The invalidity or unenforceability of any provision of this Agreement shall not affect the validity and enforceability of any other provision of this Agreement.

29. Interpretive Provisions. Unless the express context otherwise requires: (a) the words "hereof," "herein" and "hereunder" and words of similar import, when used in this Agreement, shall refer to this Agreement as a whole and not to any particular provision of this Agreement; (b) words defined in the singular shall have a comparable meaning when used in the plural, and vice versa; (c) the words "Dollars" and "$" mean U.S. dollars; (d) references herein to a specific Section, Subsection, Recital, Schedule or Exhibit shall refer, respectively, to Sections, Subsections, Recitals, Schedules or Exhibits of this Agreement; (e) wherever the word "include," "includes" or "including" is used in this Agreement, it shall be deemed to be followed by the words ",without limitation,"; (f) references herein to any gender shall include each other gender; (g) references herein to any Person shall include such Person's heirs, executors, personal representatives, administrators, successors and assigns; provided, however, that nothing contained in this clause (g) is intended to authorize any assignment or transfer not otherwise permitted by this Agreement; (h) with respect to the determination of any period of time, the word "from" means "from and including" and the words "to" and "until" each means "to but excluding"; (i) the word "or" shall be disjunctive but not exclusive; (j) the headings contained in this Agreement are intended solely for convenience and shall not affect the rights of the Parties; and (k) if the last day for the giving of any notice or the performance of any act required or permitted under this Agreement is a day that is not a Business Day, then the time for the giving of such notice or the performance of such action shall be extended to the next succeeding Business Day.

**EXHIBIT 18**

**CONFIDENTIALITY AND NONDISCLOSURE AGREEMENT**

In connection with the evaluation of a potential acquisition of all or a portion of the assets, business and/or interests of or in Highland Capital Management Korea, Ltd., Stonebridge-Highland Private Equity Fund and their respective subsidiaries (collectively, "***Highland Korea***", and such potential acquisition, a "***Potential Transaction***"), [redacted] ("***Receiving Party***") has requested that Highland Capital Management, L.P. ("***Disclosing Party***") furnish Receiving Party with, or cause Receiving Party to be furnished with, certain Confidential Information (as defined below). Disclosing Party and Receiving Party may be referred to herein individually as a "***Party***" or collectively as the "***Parties***." As a condition to furnishing such Confidential Information, Disclosing Party has required that Receiving Party execute and enter into this Confidentiality and Non-Disclosure Agreement (this "***Agreement***"), dated March 18, 2024 (the "***Effective Date***"), with the following terms and conditions.

**1. Confidential Information.** "***Confidential Information***" is defined as any and all of the following items that has been or may hereafter be disclosed to Receiving Party or its Representatives by or on behalf of Disclosing Party: proprietary or non-public information concerning the business and affairs of Disclosing Party, its affiliates, or any of its or their respective managed, subadvised or proposed to be managed or subadvised funds or separate accounts or other entities (including, without limitation, Highland Korea), including without limitation financial statements; reports and data; past, current or planned investment or portfolio information; contracts and agreements; know-how, inventions and ideas, whether past, current or planned; partner or investor lists; partner or investor information; current and anticipated investor requirements; business plans; fund structure details; all compliance related reports, records and information; and any other information, however documented, that is proprietary to Disclosing Party, its affiliates, or any of its or their respective managed or subadvised funds or separate accounts or other entities (including, without limitation, Highland Korea) or is a trade secret within the meaning of applicable state trade secret law.

To the extent that any Confidential Information includes materials subject to the attorney-client privilege, work-product doctrine, or any other applicable privilege concerning pending or threatened legal proceedings or governmental investigations, the Parties understand and agree that they have a commonality of interest with respect to such matters, and it is their desire, intention, and mutual understanding that the sharing of such material is not intended to, and shall not, waive or diminish in any way the confidentiality of such material or its continued protection under the attorney-client privilege, work-product doctrine, or other applicable privilege. Accordingly, all Confidential Information disclosed to Receiving Party or its Representatives by on or on behalf of Disclosing Party that is entitled to protection under the attorney-client privilege, work-product doctrine, or other applicable privilege shall remain entitled to such protection under these privileges, this Agreement, and under the joint-defense doctrine.

Notwithstanding the foregoing, Confidential Information does not include information which Receiving Party can demonstrate (i) is, through no improper action or inaction by Receiving Party in breach of the terms hereof, generally available to the public, (ii) was rightfully in the possession of Receiving Party, on a non-confidential basis from a third-party source, prior to receipt from the Disclosing Party (as evidenced by documentation that was in such persons' possession prior to disclosure), or (iii) was independently developed by employees of the Receiving Party who had no access to, and developed such information without use of, reference to or reliance upon, the Confidential Information (as evidenced by documentation that was in such persons' possession prior to disclosure) and without violating any obligations of or restrictions contained in this Agreement.

**2. Treatment.** Receiving Party agrees (a) to hold the Confidential Information in strict confidence, (b) to take all reasonable precautions to protect the confidentiality of the Confidential Information, and (c) that neither Receiving Party, nor any of its Representatives, will disclose, or cause to be disclosed, directly or indirectly, in whole or in part, any Confidential Information, except with Disclosing Party's prior written consent or as is expressly permitted by this Agreement. Receiving Party agrees that it will not use the Confidential Information, or permit the Confidential Information to be accessed or used, at any time for any purpose except solely in connection with its evaluation of a Potential Transaction. Receiving Party agrees to only share Confidential Information with those of its directors, officers and employees who need to know such information for the purpose of assisting Receiving Party in evaluating a Potential Transaction and who have agreed to abide by the terms of this Agreement as though they were a party hereto ("***Representatives***"). Receiving Party will inform each Representative who is given access to Confidential Information of the confidential nature of the Confidential Information and direct each Representative to treat such information confidentially. Receiving Party shall cause its Representatives to observe and abide by all terms of this Agreement and agrees to be responsible for all breaches of this Agreement by any of its Representatives or any other party who gains access to Confidential Information via Receiving Party as though such failure was a failure to comply with this Agreement by Receiving Party itself. Receiving Party shall promptly notify Disclosing Party of any unauthorized disclosure of Confidential Information or other breaches of this Agreement by Receiving Party or its Representatives of which Receiving Party has knowledge and shall use reasonable best efforts to retrieve the lost or wrongfully disclosed Confidential Information and cooperate with Disclosing Party in any effort undertaken to enforce its rights related to any such breaches or unauthorized disclosures. No rights or licenses of any nature are implied or granted under this Agreement and Confidential Information shall remain the property of Disclosing Party.

If Receiving Party or any of its Representatives are requested (by deposition, interrogatory, request for documents, subpoena, civil investigative demand or similar process) or reasonably believe (on the advice of outside legal counsel) that they are legally required to disclose any Confidential Information by applicable law or regulation, in connection with any judicial or administrative proceedings or by any governmental or regulatory authorities having appropriate jurisdiction (where such request or requirement is not caused by any voluntary action or proposed action by the Receiving Party or any of its Representatives), Receiving Party will promptly notify Disclosing Party in writing to permit the Disclosing Party to seek a protective order or to take another appropriate action. Receiving Party will also, and will cause its Representative to, cooperate as reasonably requested by the Disclosing Party to obtain a protective order or other reasonable assurance that Confidential Information will be accorded confidential treatment. If, in the absence of a protective order, Receiving Party or any of its Representatives are, on the advice of outside legal counsel, required as a matter of law to disclose the Confidential Information to a third party, Receiving Party may disclose to such third party only the part of such Confidential Information as is (on the advice of outside legal counsel) required by law to be disclosed. In such case, prior to such disclosure, Receiving Party will reasonably consult with Disclosing Party and its counsel in advance as to the nature and wording of such disclosure, and Receiving Party will use reasonable best efforts to obtain confidential treatment therefor.

**3. Return of Confidential Information.** Disclosing Party may elect at any time to terminate Receiving Party's further access to Confidential Information. At the request of Disclosing Party, the Receiving Party will promptly return or destroy all Confidential Information, including all of Receiving Party's data, documents, notes and summaries related to the Confidential Information, and shall direct its Representatives to do the same. Destruction must be certified in writing by an officer of Receiving Party within thirty (30) days of the destruction request. Notwithstanding the foregoing, subject to the provisions of this Agreement Receiving Party may retain one copy of the Confidential Information (a) as required to

comply with legal or regulatory compliance obligations, and (b) in electronic format on standard system back-up tapes or other standard system back-up media according to standard electronic back-up and archival procedures, provided that such information is only accessible by information technology personnel in connection with disaster recovery or legal or regulatory compliance measures. Confidential Information so retained will remain subject to the terms of this Agreement notwithstanding its termination for so long as such material is retained and for one (1) year thereafter.

**4. Warranties.** With respect to any information, including but not limited to the Confidential Information, that Disclosing Party or any of its representatives furnishes pursuant to this Agreement, Receiving Party acknowledges that Disclosing Party makes no express or implied representation or warranty, including without limitation as to the completeness, quality, fitness for a particular purpose or accuracy of the Confidential Information, and that Disclosing Party shall have no liability whatsoever to Receiving Party or any of its Representatives relating to or arising from their review or use of any information so furnished. This Agreement does not constitute or create any obligation of the Disclosing Party to provide any Confidential Information or other information to the Receiving Party. Further, Disclosing Party shall have no obligation to update any Confidential Information provided to Receiving Party hereunder.

**5. Term.** This Agreement shall terminate and be of no further force and effect two (2) years from the Effective Date, provided that such termination shall not relieve Receiving Party from its responsibilities with respect to any breach of this Agreement prior to such termination.

**6. Communication; Non-Circumvention.** Except as otherwise consented to in writing by Disclosing Party (which consent may be withheld in Disclosing Party's sole discretion), Receiving Party agrees that all (a) communications regarding Highland Korea, the Potential Transaction and Confidential Information, and (b) requests for additional information will be submitted or directed exclusively to the person or persons specifically designated in writing by Disclosing Party for such purpose[1]. Except as provided for herein and without limiting the generality of the use and non-disclosure obligations set forth in this Agreement, in no event will Receiving Party or any of its Representatives communicate directly or indirectly with any employee, manager, investment manager, co-investment manager, director, officer, agent, customer, licensee, licensor, investor, limited partner, lender, portfolio company, target or business partner of Highland Korea concerning Highland Korea, Highland Korea's assets, business, operations, personnel, prospects, finances, the Confidential Information or the Potential Transaction without Disclosing Party's prior written consent (which consent may be withheld in Disclosing Party's sole discretion). Further, Receiving Party and its Representatives will not, without Disclosing Party's prior written consent (which consent may be withheld in Disclosing Party's sole discretion), (i) attempt to deal directly or indirectly in any matter with any individuals or companies to whom Receiving Party or its Representative was introduced in connection with the Potential Transaction, or (ii) bypass, avoid, obviate, circumvent or attempt to circumvent Disclosing Party relative to the Potential Transaction, including by using any of the Confidential Information. For a period of one (1) year from the Effective Date, Receiving Party and its Representatives will not, and Receiving Party shall cause its controlled affiliates (including its portfolio companies) not to, directly or indirectly, enter into any agreement or transaction with any individual or company that is an acquisition target or prospective acquisition target of Highland Korea which is disclosed to Receiving Party or any of its Representatives by or on behalf of Disclosing Party, in each case, without the prior written consent of Disclosing Party (which consent may be withheld in the Disclosing Party's sole discretion).

[1] As of the Effective Date, the initial list of such persons shall be James P. Seery, Jr., David Klos, Nate Burns, Jun Park, Thomas Surgent and Tim Cournoyer.

**7. Irreparable Harm.** Receiving Party acknowledges and agrees that there may be no adequate remedy at law for any breach of its obligations hereunder, as such breach may result in irreparable harm to Disclosing Party, and therefore, that upon any such breach or any threat thereof, Disclosing Party may be entitled to seek appropriate equitable relief in addition to whatever remedies it might have at law and to be indemnified by Receiving Party from any loss or harm, including, without limitation, attorneys' fees and expenses, in connection with any breach or enforcement of the Receiving Party's obligations hereunder or the unauthorized use or release of any such Confidential Information as set forth herein. In the event of litigation arising out of this Agreement, if a court of competent jurisdiction issues a final, non-appealable judgment, the non-prevailing party in such litigation agrees to reimburse the prevailing party for its costs and expenses (including reasonable attorneys' fees and expenses in obtaining such judgment). Receiving Party will notify Disclosing Party in writing immediately upon the occurrence of any such unauthorized release or other breach of which it is aware.

**8. Severability.** The invalidity or unenforceability of any particular provision of this Agreement will not affect the other provisions of the Agreement. If any provision of this Agreement is held illegal, invalid or unenforceable by a court of competent jurisdiction, such provision shall be limited to the minimum extent necessary so that this Agreement shall otherwise remain in full force and effect.

**9. Choice of Law & Venue.** This Agreement will be governed by the laws of the State of Texas without regard to conflicts of laws principles. The Parties agree that the sole and exclusive jurisdiction and venue for any action or proceeding seeking to enforce any provision of, or based on any right arising out of, this Agreement shall be in the state courts of the State of Texas, or, if it has or can acquire jurisdiction, in the United States District Court for the Northern District of Texas, and each of the parties consents to the jurisdiction of such courts (and of the appropriate appellate courts) in any such action or proceeding and waives any objection to personal jurisdiction, venue, and inconvenient forum laid therein. Process and any action or proceeding referred to in the preceding sentence may be served on any Party anywhere in the world. Receiving Party further hereby irrevocably and unconditionally waives any objection to the laying of venue in any such action, suit or proceeding in such courts and agrees not to plead or claim in any such court that any such action, suit or proceeding has been brought in an inconvenient forum.

**10. Definitive Agreement Controls.** Until a definitive written agreement regarding a Potential Transaction has been executed (the "***Definitive Agreement***"), neither Disclosing Party or Receiving Party shall be under any legal obligation or have any liability to the other Party of any nature whatsoever with respect to a Potential Transaction by virtue of this Agreement or otherwise (other than with respect to the explicit confidentiality and other obligations set forth herein). Except to the extent specified in the Definitive Agreement, Disclosing Party, in its sole discretion, may (i) conduct a transaction process that may or may not result in a Potential Transaction in such manner as it deems appropriate, (ii) enter into a definitive agreement with any third party without notice to the Receiving Party, and (iii) reserve the right to change the transaction process with respect to a Potential Transaction without notice to Receiving Party (including, without limitation, terminating all further discussions with Receiving Party and requesting that the other Party return or destroy the Confidential Information as described above).

**11. Third Party Beneficiaries; Assignment.** Receiving Party is executing this Agreement for the benefit of Disclosing Party and Highland Korea, and Highland Korea shall be a third-party beneficiary of this Agreement, entitled to enforce the terms hereof. Disclosing Party has the right to assign all of its rights under this Agreement to any of its affiliates or to a successor in interest to the business of Disclosing Party, including the right to enforce this Agreement, and Receiving Party hereby consents to such

assignment. Receiving Party shall not assign any of its rights or delegate any of its duties under this Agreement without the prior written consent of Disclosing Party.

**12. Entire Agreement.** This Agreement supersedes all prior discussions and agreements and constitutes the entire agreement between Disclosing Party and Receiving Party with respect to the subject matter hereof.

**13. Waiver.** The waiver of any breach of any provision under this Agreement by any Party shall not be deemed to be a waiver of any preceding or subsequent breach, nor shall any waiver constitute a continuing waiver.

**14. Modification.** This Agreement may only be modified in writing, signed by both Parties.

**15. Counterparts.** This Agreement may be executed by manual, facsimile, or electronic signatures in counterparts, which together will constitute one original.

*[Signature Page Follows]*

IN WITNESS WHEREOF, the Parties have executed this Confidentiality and Nondisclosure Agreement on the date indicated below to be effective as of the Effective Date.

# HCMK Overview

[DRAFT]

- Highland Capital Management Korea ("HCMK") is a wholly-owned Korean subsidiary of Highland Capital Management LP ("HCMLP") that serves as the general partner for three private investment funds and manages a co-investment entity representing in total KRW 208 billion ($180M) of capital raised from Korean institutional investors

  1) HC PEF: private equity fund focused on late-stage growth capital investments in pre-IPO healthcare companies
     - Fund has fully deployed KRW 167 billion ($145M) of committed capital
     - One remaining investment in Caris Life Sciences ("Caris") with estimated fair value of KRW 138 billion ($103M)
     - HCMK serves as co-GP with Stonebridge Capital; management fees and carried interest are split 50/50
     - HCMK has 6% ownership interest in HC PEF portfolio
  2) Caris PEF: deal-specific private equity fund to invest in Caris Series D Preferred financing
     - Raised KRW 8 billion ($7M) to make KRW 7 billion ($6M) investment in Caris Series D Preferred equity
     - HCMK serves as sole GP of Caris PEF; entitled to 2% management fee and 20% carried interest with 8% hurdle
     - HCMK also manages an entity that invested KRW 22 billion ($19M) on behalf of two institutional co-investors alongside HC PEF in Caris Series C Preferred financing; HCMK does not have any economics in co-invest amount
  3) E-Sports PEF: deal-specific private equity fund to invest in T1 eSports JV formed by SK Telecom and Comcast
     - Raised KRW 11 billion ($9M) to make KRW 10 billion ($8M) investment in T1
     - Currently holds 7.4% ownership interest in T1 with estimated fair value of KRW 17 billion ($12M) based on valuation of latest follow-on financing provided in November 2022 by SK Telecom and Comcast
     - HCMLP is entitled to carried interest equal to 20% of net profits on the investment with no hurdle rate through a participation agreement with special purpose entity formed to make the investment

| Total | 8.1 | 8.0 | 6.2 | 4.2 | 10.3 |

- HCMK invested KRW 9.3 billion ($8.1M) to meet its 6% GP commitment to HC PEF; has received KRW 9.4 billion ($8.0M) of net distributions from realized investments
- Remaining fair value of HCMK's 6% interest in HC PEF is KRW 8.3 billion ($6.2M) based on Caris Life Sciences Series D valuation
- HCMK is entitled to receive 50% of the carried interest generated by HC PEF; carried interest is calculated across all investments in aggregate and is not payable until final liquidation of the fund; HCMK has contracted to pay 45% of its share of HC PEF carried interest to select employees
- HCMK currently estimates KRW 5.6 billion ($4.2M) of carried interest from HC PEF, net of 45% employee share

1. Potential HCMK carried interest shown in table above is net of 45% employee share.
Note: KRW/USD exchange rate of 1,336 as of 1/29/24

# CARIS PEF OVERVIEW

# CARIS LIFE SCIENCES COMPANY OVERVIEW

[DRAFT]

- Caris Life Sciences is a leading provider of comprehensive tumor molecular profiling information
- CarisMI tissue-based tumor profiling platform provides full DNA exome and RNA transcriptome gene sequencing to guide clinical treatment decisions for advanced stage cancer patients; represents $7B market opportunity
- Precision Oncology Alliance has strong partnerships with 88 leading cancer centers, with >680 locations and >3,440 physicians who treat >700,000 new patients annually
- CarisMI has been ordered by >6,700 oncologists for >593,000 patients; Caris has compiled a database of matched outcomes data for >482,000 cases, which can be used to identify new clinically-actionable biomarkers
- Targeting FDA approval of CarisMI in FY24; new CMS pricing of $8,455/test will become effective upon FDA approval (vs. $3,368/test under current LCD coverage)
- Launched Caris Assure liquid-biopsy tumor profiling platform; received CMS LCD coverage with $3,650/test reimbursement effective as of December 2023
- Potential future launches of MRD monitoring and early cancer screening liquid biopsy tests would expand total addressable market opportunity by >$40B
- In January 2023, signed $400M credit facility led by Orbimed; completed drawdown of remaining $200M availability in March 2024

# E-SPORTS PEF OVERVIEW

# E-Sports Investment Overview

[DRAFT]

## Company & Situation Overview

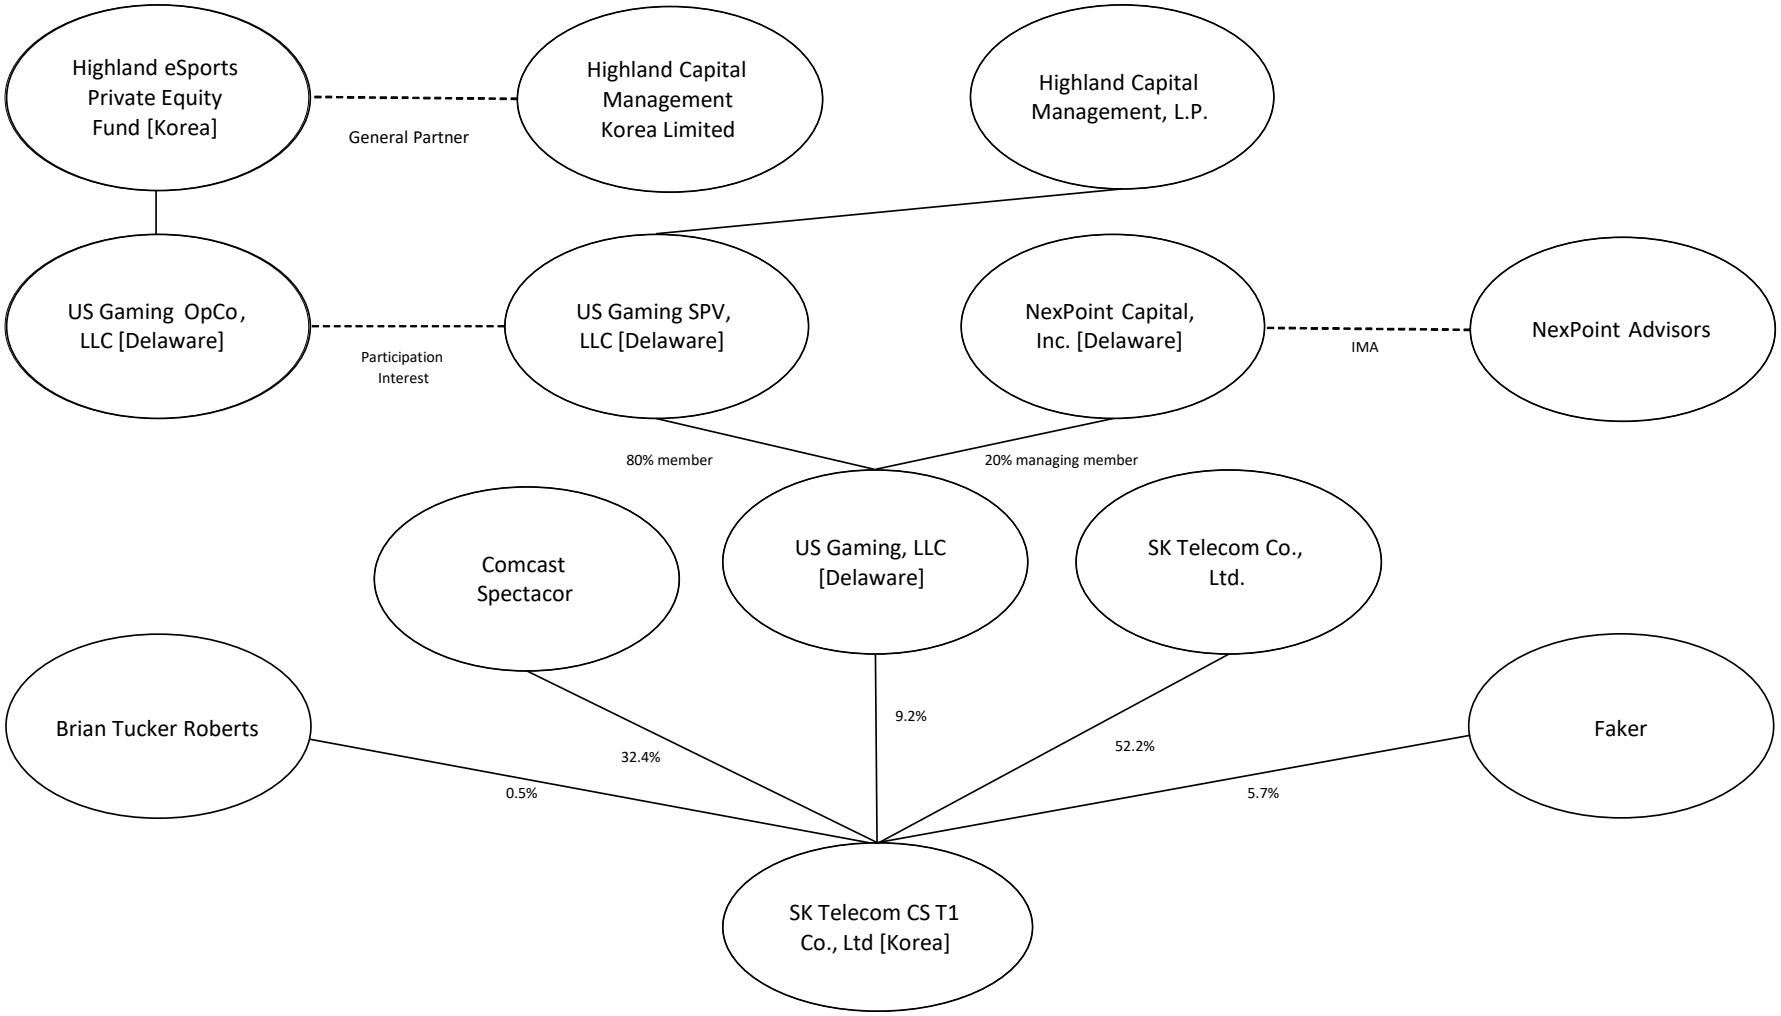
- T1 is a JV formed in 2019 between SK Telecom (SKT) and Comcast to enter the e-sports market; JV was formed through in-kind contribution of SKT's existing e-sports business unit alongside $35M cash contribution from Comcast; HCMK was invited to make $10M minority investment in the new JV entity
- Opportunity to invest in high-growth e-sports industry through Korea's strongest existing team platform, alongside two partners with leading content and media distribution positions in Korea and the US
- SKT is the largest wireless communication carrier in Korea, and is part of SK Group (#2 largest conglomerate in Korea); JV with #1 media company in US, Comcast Corp (NBC, Universal Studio, Infinity); project led by Tucker Roberts (son of Comcast CEO Brian Roberts)
- T1 was originally founded in 2004 as a Starcraft team under the SKT banner; now sponsors teams across various game titles including Smash Bros. Ultimate, PuBG, League of Legends (LoL), and Overwatch
- Only LoL team with 3 Official World Championship victories, and hosts various partnerships within content markets; sponsors Faker, the most famous player in the history of LoL competitive play
- JV targeting to generate revenue from sponsorships and tournament prizes; will also create synergy between SK Group and Comcast that can be monetized through telecommunication streaming services and entertainment content development and distribution
- JV has a "Jump Ball" structure between partners in which each party has the opportunity to commence an exit process beginning on the 4th anniversary of closing, upon which the highest bidder will acquire control of the entity; HCMK investment structured to participate in exit at same valuation as all other parties

SK telecom COMCAST T1

## HCMK Investment Structure

- HCMK initially invested $10M for 11% equity ownership in the JV; funded through $2M investment from NexPoint Capital and $8M raised by HCMK through an e-sports private equity fund with leading Korean institutional investors
- E-Sports PEF $8M investment structured through participation agreement with US Gaming SPV, an entity wholly-owned by HCMLP; distributes 20% of net profits to HCMLP with no hurdle rate
- HCMK $10M investment structured through US Gaming LLC, an entity jointly owned by US Gaming SPV (80%) and Nexpoint Capital (20%) and managed by Nexpoint Capital

## T1 Follow-On Capital Raises



- In June 2021, T1 raised $8M additional financing at $141M pre-money valuation ($1,550/share), representing 55% step-up from initial investment ($1,000/share); participants in follow-on round included SKT ($4.4M), Comcast ($2.7M) and Tucker Roberts ($0.9M)
- In November 2022, T1 raised $10M additional financing from SKT and Comcast at $149M pre-money valuation; $1,550/share issuance price was flat vs. June 2021 valuation

# DISCLAIMER

[DRAFT]

Highland Capital Management Korea Limited ("Highland Korea") is a Korean subsidiary of Highland Capital Management, L.P. ("HCMLP") and is expected to be operationally independent of HCMLP prior to any future fund launch by Highland Korea. HCMLP does not anticipate engaging in any business activities other than in furtherance of the liquidation and monetization of its business and advised accounts and will not have a role in any subsequent Highland Korea fund. Accordingly, no subscriptions will be accepted for any new fund until Highland Korea's operational independence is complete. Potential investors should carefully review all subsequent updated disclosures of Highland Korea and of any such fund made available prior to any investment. These materials are intended solely for distribution outside the United States to non-United States persons. Past performance does not guarantee future results, and private equity investment in particular involves material risk of loss. Accordingly, any investment in a future fund would only be available to sophisticated qualified investors capable of understanding and bearing such risks. Investments made within the Stonebridge-Highland Healthcare Private Equity Fund have involved both former Highland personnel as well as a co-general partner whose consent was required prior to making any investment decisions. Accordingly, the absence of the involvement of any such persons poses additional risks and uncertainties as to the operation and potential performance of any fund managed by Highland Korea in the future. Potential investors should carefully review all applicable risk disclosures prior to making an investment.

CONFIDENTIAL

# HCMK Overview

[DRAFT]

- Highland Capital Management Korea ("HCMK") is a wholly-owned Korean subsidiary of Highland Capital Management LP ("HCMLP") that serves as the general partner for three private investment funds and manages a co-investment entity representing in total KRW 208 billion ($180M) of capital raised from Korean institutional investors

  1) HC PEF: private equity fund focused on late-stage growth capital investments in pre-IPO healthcare companies
     - Fund has fully deployed KRW 167 billion ($145M) of committed capital
     - Two remaining investments in US healthcare companies with estimated fair value of KRW 148 billion ($110M)
     - HCMK serves as co-GP with Stonebridge Capital; management fees and carried interest are split 50/50
     - HCMK has 6% ownership interest in HC PEF portfolio
  2) Caris PEF: deal-specific private equity fund to invest in Series D Preferred financing of Caris Life Sciences ("Caris")
     - Raised KRW 8 billion ($7M) to make KRW 7 billion ($6M) investment in Caris Series D Preferred equity
     - HCMK serves as sole GP of Caris PEF; entitled to 2% management fee and 20% carried interest with 8% hurdle
     - HCMK also manages an entity that invested KRW 23 billion ($19M) on behalf of two institutional co-investors alongside HC PEF in Caris Series C Preferred financing; HCMK does not have any economics in co-invest amount
  3) E-Sports PEF: deal-specific private equity fund to invest in T1 eSports JV formed by SK Telecom and Comcast
     - Raised KRW 11 billion ($9M) to make KRW 10 billion ($8M) investment in T1
     - Currently holds 7.4% ownership interest in T1 with estimated fair value of KRW 17 billion ($12M) based on valuation of latest follow-on financing provided in November 2022 by SK Telecom and Comcast
     - HCMLP is entitled to carried interest equal to 20% of net profits on the investment with no hurdle rate through a participation agreement with special purpose entity formed to make the investment

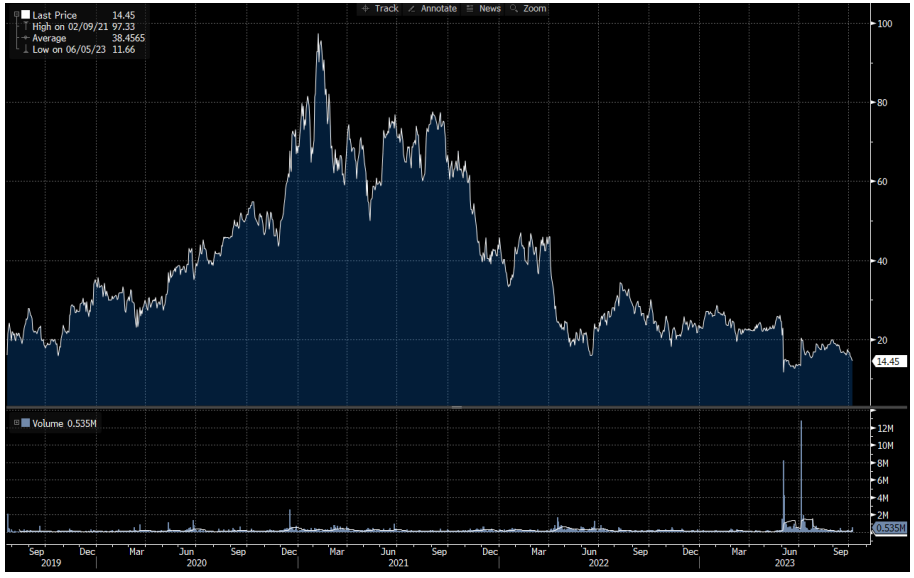
- HCMK invested KRW 9.3 billion ($8.1M) to meet its 6% GP commitment to HC PEF; has received KRW 8.8 billion ($7.5M) of net distributions from realized investments
- Remaining fair value of HCMK's 6% interest in HC PEF is KRW 8.9 billion ($6.6M) based on CSTL closing stock price as of 10/6/23 and Caris Life Sciences Series D valuation
- HCMK is entitled to receive 50% of the carried interest generated by HC PEF; carried interest is calculated across all investments in aggregate and is not payable until final liquidation of the fund; HCMK has contracted to pay 45% of its share of HC PEF carried interest to select employees
- HCMK currently estimates KRW 5.7 billion ($4.3M) of carried interest from HC PEF, net of 45% employee share

1. Potential HCMK carried interest shown in table above is net of 45% employee share.
Note: CSTL share price of $14.45 and KRW/USD exchange rate of 1,350 as of 10/6/23

# HC PEF Portfolio: Castle Biosciences Company Overview



[DRAFT]

- Castle Biosciences is the market leader in dermatologic cancer diagnostics; has expanded into additional targeted gene expression profiling markets
- DecisionDx gene expression tests used to diagnose and risk stratify patients with melanoma (130k patients), squamous cell carcinoma (200k) and suspicious pigmented lesions (300k); represents $2B market opportunity
- In December 2021, acquired Cernostics for $31M, expanding into $1B esophageal cancer diagnostics market with CMS-reimbursed TissueCypher test
- In April 2022, acquired AltheaDx for $65M, expanding into $5B mental health pharmacogenomics market with CMS-reimbursed IDgenetix test for major depressive disorder
- Pipeline tests targeting psoriasis and atopic dermatitis expected to launch by FY25 with potential to expand dermatology addressable market to >$5B
- In July 2023, CMS granted DecisionDx-SCC ADLT status and increased reimbursement to $8,500/test (previously $3,873/test); represents $15M quarterly revenue (2,681 tests in 2Q23 and 65% Medicare mix)
- Management guidance for FY25 revenue of $255-330M (+25-35% 3-year CAGR) with 80-85% gross margin; targets positive operating cash flow in FY25
- Ended 2Q23 with $226M of cash and no debt

## CSTL Stock Price Performance Since IPO (7/24/19)

HIGHLAND CAPITAL MANAGEMENT

# CARIS PEF OVERVIEW

# CARIS LIFE SCIENCES COMPANY OVERVIEW

[DRAFT]

- Caris Life Sciences is a leading provider of comprehensive tumor molecular profiling information
- CarisMI tissue-based tumor profiling platform provides full DNA exome and RNA transcriptome gene sequencing to guide clinical treatment decisions for advanced stage cancer patients; represents $5B market opportunity
- Precision Oncology Alliance has strong partnerships with 88 leading cancer centers, with >680 locations and >3,440 physicians who treat >700,000 new patients annually
- CarisMI has been ordered by >6,700 oncologists for >525,000 patients; Caris has compiled a database of matched outcomes data for >417,000 cases, which can be used to identify new clinically-actionable biomarkers
- Targeting FDA approval of CarisMI in FY24; new CMS pricing of $8,455/test will become effective upon FDA approval (vs. $3,368/test under current LCD coverage)
- In June 2022, launched Caris Assure liquid-biopsy tumor profiling platform; targets to receive CMS LCD coverage with $3,500/test reimbursement
- Potential future launches of MRD monitoring and early cancer screening liquid biopsy tests would expand total addressable market opportunity to >$40B
- In January 2023, signed new $400M credit facility led by Orbimed

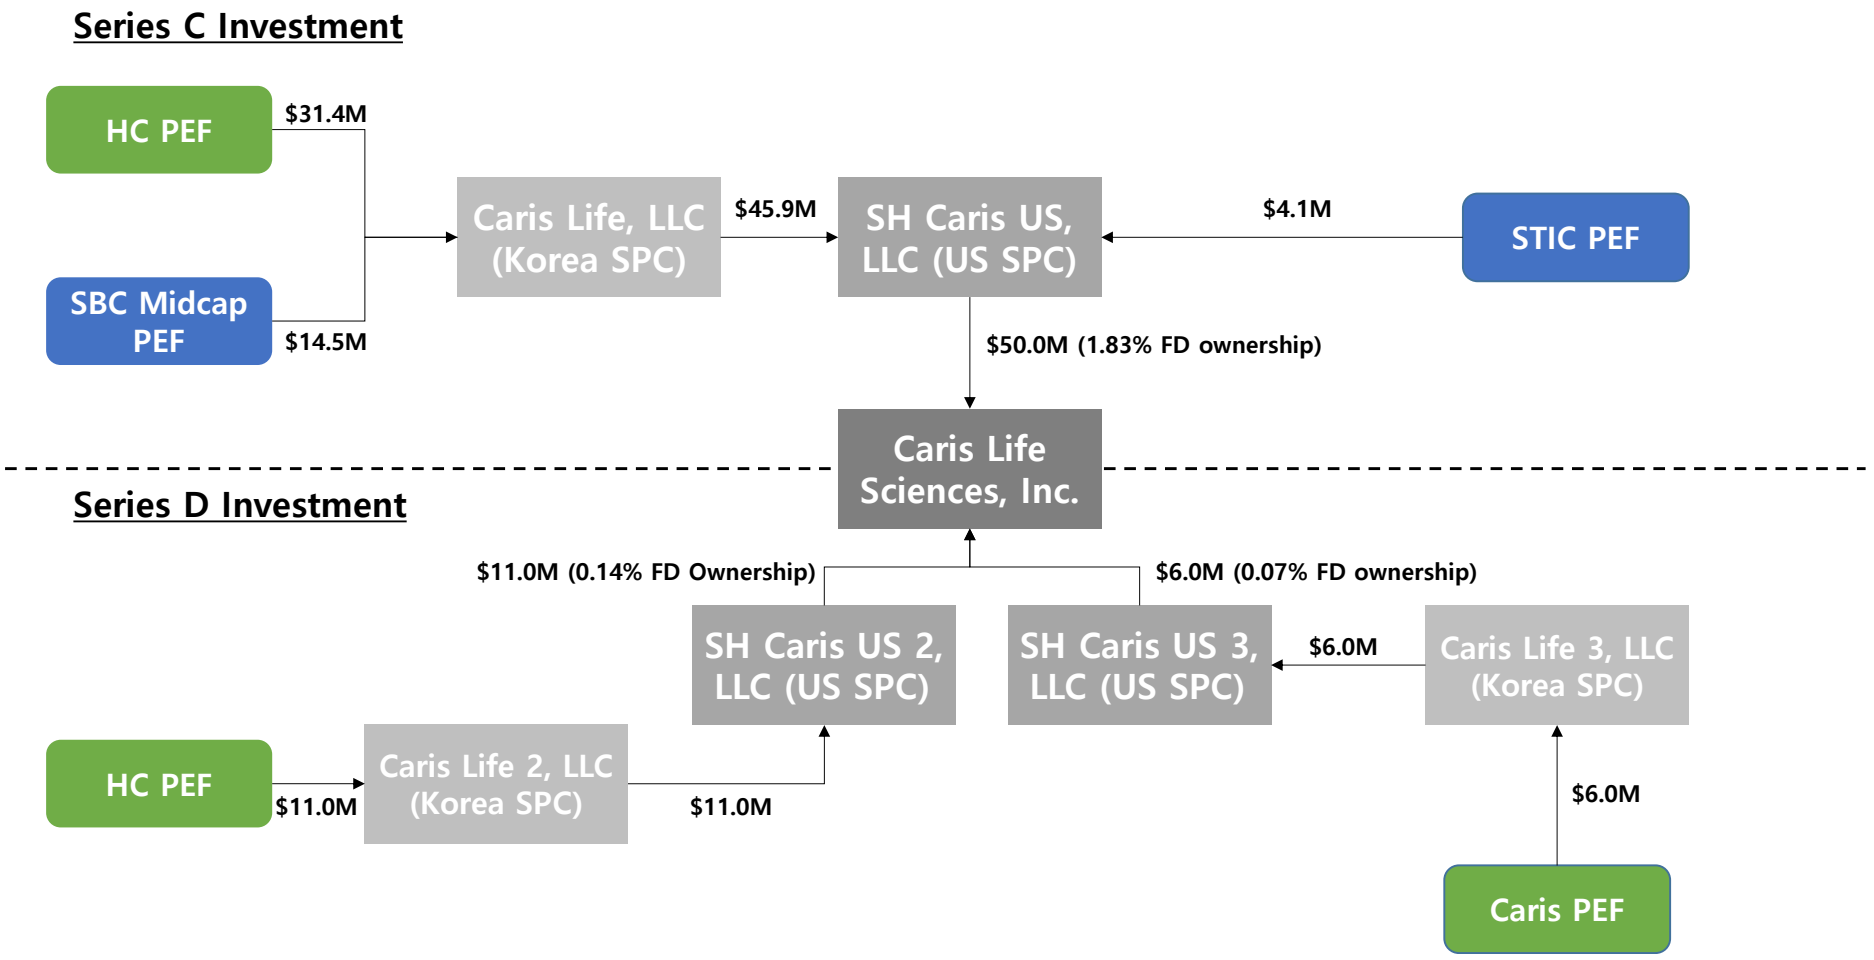
# CARIS INVESTMENT OVERVIEW



[DRAFT]

- In August 2020, Caris completed a $235M Series C Preferred Equity financing
  - HCMK served as lead investor in a syndicate that included participation from Coatue, T. Rowe Price, Sixth Street, Orbimed, Millennium Management, Neuberger Berman, ClearBridge and First Light
  - HCMK invested $50M, including $31.4M from HC PEF and $18.6M from Korean co-investors; HCMK does not have any economics in capital from the co-investors
  - Series C Preferred shares have senior liquidation preference and are redeemable upon fifth anniversary of the initial closing date; automatically convert into common shares upon Qualified IPO; conversion price adjustment to provide minimum 10% discount to IPO price; full-ratchet anti-dilution protection for potential future financings
  - Nate Burns (HCMK) elected by investors to serve as Series C Director on Caris Board of Directors

- In May 2021, Caris completed an $830M Series D Preferred Equity financing at a $7B pre-money valuation
  - Sixth Street served as lead investor with participation by all existing Series C investors plus new investors including Fidelity, Silver Lake, CPPIB, Columbia Threadneedle, Rock Springs, Tudor, Eaton Vance and Pura Vida
  - HCMK invested $17M, including $11M from HC PEF and $6M from Caris PEF, a deal-specific fund raised for the purpose of investing in the Caris Series D financing; HCMK is sole GP of Caris PEF and is entitled to a 2% management fee and carried interest equal to 20% of net profits above an 8% hurdle rate
  - Series D Preferred shares are pari passu with Series C Preferred shares and have similar rights/provisions

# E-SPORTS PEF OVERVIEW

# E-Sports Investment Overview

[DRAFT]

## Company & Situation Overview

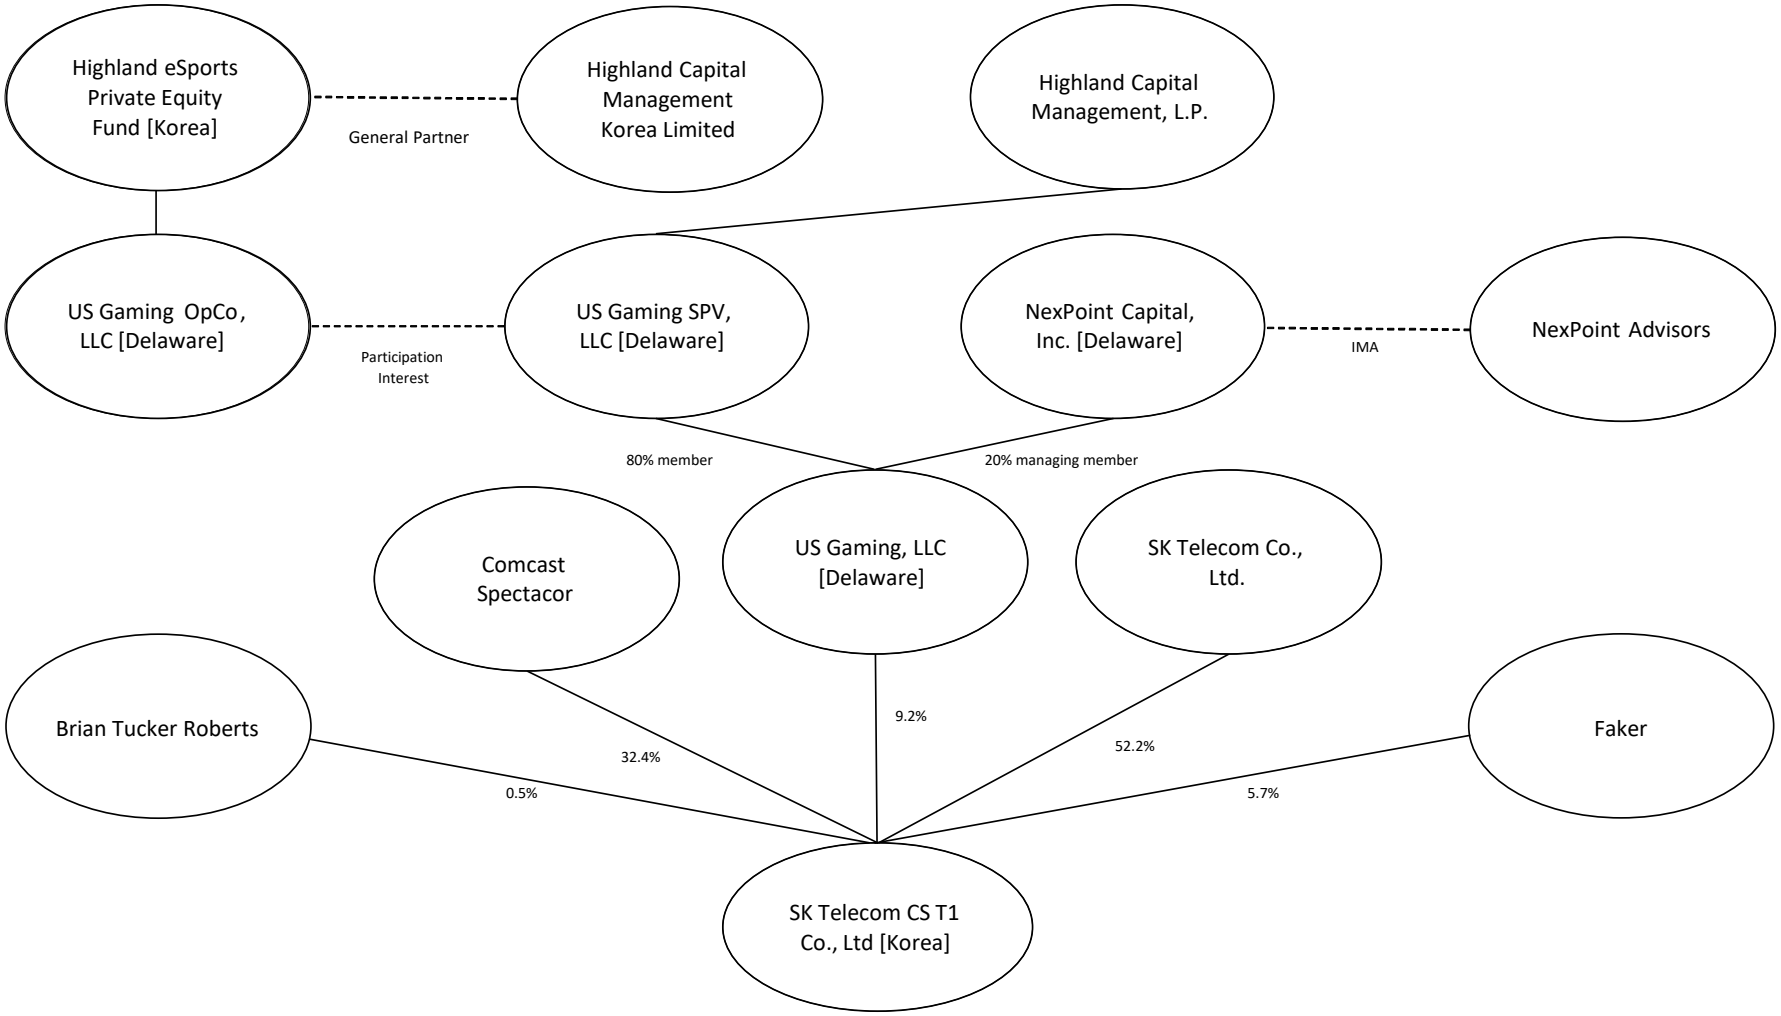
- T1 is a JV formed in 2019 between SK Telecom (SKT) and Comcast to enter the e-sports market; JV was formed through in-kind contribution of SKT's existing e-sports business unit alongside $35M cash contribution from Comcast; HCMK was invited to make $10M minority investment in the new JV entity
- Opportunity to invest in high-growth e-sports industry through Korea's strongest existing team platform, alongside two partners with leading content and media distribution positions in Korea and the US
- SKT is the largest wireless communication carrier in Korea, and is part of SK Group (#2 largest conglomerate in Korea); JV with #1 media company in US, Comcast Corp (NBC, Universal Studio, Infinity); project led by Tucker Roberts (son of Comcast CEO Brian Roberts)
- T1 was originally founded in 2004 as a Starcraft team under the SKT banner; now sponsors teams across various game titles including Smash Bros. Ultimate, PuBG, League of Legends (LoL), and Overwatch
- Only LoL team with 3 Official World Championship victories, and hosts various partnerships within content markets; sponsors Faker, the most famous player in the history of LoL competitive play
- JV targeting to generate revenue from sponsorships and tournament prizes; will also create synergy between SK Group and Comcast that can be monetized through telecommunication streaming services and entertainment content development and distribution
- JV has a "Jump Ball" structure between partners in which each party has the opportunity to commence an exit process beginning on the 4th anniversary of closing, upon which the highest bidder will acquire control of the entity; HCMK investment structured to participate in exit at same valuation as all other parties

SK telecom COMCAST T1

## HCMK Investment Structure

- HCMK initially invested $10M for 11% equity ownership in the JV; funded through $2M investment from NexPoint Capital and $8M raised by HCMK through an e-sports private equity fund with leading Korean institutional investors
- E-Sports PEF $8M investment structured through participation agreement with US Gaming SPV, an entity wholly-owned by HCMLP; distributes 20% of net profits to HCMLP with no hurdle rate
- HCMK $10M investment structured through US Gaming LLC, an entity jointly owned by US Gaming SPV (80%) and Nexpoint Capital (20%) and managed by Nexpoint Capital

## T1 Follow-On Capital Raises



- In June 2021, T1 raised $8M additional financing at $141M pre-money valuation ($1,550/share), representing 55% step-up from initial investment ($1,000/share); participants in follow-on round included SKT ($4.4M), Comcast ($2.7M) and Tucker Roberts ($0.9M)
- In November 2022, T1 raised $10M additional financing from SKT and Comcast at $149M pre-money valuation; $1,550/share issuance price was flat vs. June 2021 valuation

## T1 Summary Financials

# DISCLAIMER

[DRAFT]

Highland Capital Management Korea Limited ("Highland Korea") is a Korean subsidiary of Highland Capital Management, L.P. ("HCMLP") and is expected to be operationally independent of HCMLP prior to any future fund launch by Highland Korea. HCMLP does not anticipate engaging in any business activities other than in furtherance of the liquidation and monetization of its business and advised accounts and will not have a role in any subsequent Highland Korea fund. Accordingly, no subscriptions will be accepted for any new fund until Highland Korea's operational independence is complete. Potential investors should carefully review all subsequent updated disclosures of Highland Korea and of any such fund made available prior to any investment. These materials are intended solely for distribution outside the United States to non-United States persons. Past performance does not guarantee future results, and private equity investment in particular involves material risk of loss. Accordingly, any investment in a future fund would only be available to sophisticated qualified investors capable of understanding and bearing such risks. Investments made within the Stonebridge-Highland Healthcare Private Equity Fund have involved both former Highland personnel as well as a co-general partner whose consent was required prior to making any investment decisions. Accordingly, the absence of the involvement of any such persons poses additional risks and uncertainties as to the operation and potential performance of any fund managed by Highland Korea in the future. Potential investors should carefully review all applicable risk disclosures prior to making an investment.

Preliminary Prospectus dated June 9, 2025

The information in this preliminary prospectus is not complete and may be changed. These securities may not be sold until the registration statement filed with the Securities and Exchange Commission is effective. This preliminary prospectus is not an offer to sell, nor does it seek an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

PROSPECTUS

# 23,529,412 Shares

# Caris Life Sciences, Inc.

## Common Stock

This is Caris Life Sciences, Inc.'s initial public offering. We are selling 23,529,412 shares of our common stock.

We expect the public offering price to be between $16.00 and $18.00 per share. Currently, no public market exists for shares of our common stock. We have applied to list our common stock on the Nasdaq Global Select Market ("Nasdaq") under the symbol "CAI."

Immediately following the completion of this offering, David D. Halbert, our Founder, Chairman, and Chief Executive Officer, will beneficially own approximately 41.7% of our outstanding shares of common stock, and our existing executive officers (including Mr. Halbert), directors, holders of more than 5% of our outstanding capital stock, and their respective affiliates will collectively beneficially own approximately 63.6% of our outstanding shares of common stock, in each case, based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on this cover page, and assuming no exercise by the underwriters of their option to purchase additional shares of our common stock. As a result, Mr. Halbert as well as our other existing executive officers, directors, and principal shareholders, if acting together, will be able to control all matters submitted to our shareholders for approval, including the election of directors, amendments to our certificate of formation and bylaws, and the approval of significant corporate transactions. See "Principal Shareholders" for additional information.

At our request, the underwriters have reserved up to 5% of the shares of common stock offered by this prospectus, excluding the additional shares that the underwriters have a 30-day option to purchase, for sale, at the initial public offering price, to certain individuals identified by management, including certain of our directors, officers, employees, and certain other parties related to us. See "Underwriting—Reserved Share Program."

**We are an "emerging growth company" as defined under the federal securities laws and, as such, have elected to comply with certain reduced reporting requirements for this prospectus and may elect to do so in future filings. See "Prospectus Summary—Implications of Being an Emerging Growth Company."**

**Investing in our common stock involves risks that are described in the "Risk Factors" section beginning on page 21 of this prospectus.**

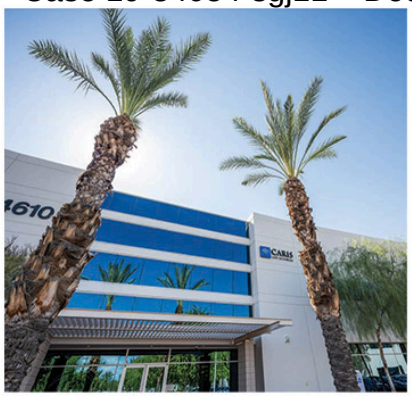
| | Per Share | Total |
|---|---|---|
| Public offering price | $ | $ |
| Underwriting discount[(1)] | $ | $ |
| Proceeds, before expenses, to us | $ | $ |

(1) We refer you to "Underwriting" for additional information regarding underwriting compensation.

The underwriters may also exercise their option to purchase up to an additional 3,529,411 shares of common stock from us, at the public offering price, less the underwriting discount, for 30 days after the date of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Certain entities affiliated with Neuberger Berman Investment Advisers LLC (collectively, "Neuberger Berman") have indicated an interest in purchasing up to $75.0 million of shares of our common stock being offered in this offering at the initial public offering price and on the same terms as the other purchasers in this offering. However, because indications of interest are not binding agreements or commitments to purchase, the underwriters could determine to sell more, fewer, or no shares to Neuberger Berman, and Neuberger Berman could determine to purchase more, fewer, or no shares in this offering. The underwriters will receive the same underwriting discounts and commissions on any of our shares of common stock purchased by Neuberger Berman as they will from any other shares of common stock sold to the public in this offering.



The shares will be ready for delivery on or about , 2025.

## ROUNDING ADJUSTMENTS

Certain monetary amounts, percentages, and other figures included elsewhere in this prospectus have been subject to rounding adjustments. Accordingly, figures shown as totals in certain tables or charts may not be the arithmetic aggregation of the figures that precede them, and figures expressed as percentages in the text may not total 100% or, as applicable, when aggregated may not be the arithmetic aggregation of the figures that precede them.

**LETTER FROM DAVID DEAN HALBERT, FOUNDER, CHAIRMAN, AND CEO**

Hello, my name is David Dean Halbert, and I am the Founder, Chairman, and CEO of Caris Life Sciences. Caris is the first and only company that I've founded without a business model. Our only purpose is to help patients live longer and have a better quality of life by applying personalized medicine to disease. We believe that precise, data-driven, and personalized molecular information is crucial to eradicating chronic health conditions.

As a science-focused company, Caris has been at the forefront of precision medicine from the beginning and has driven the industry forward through our focus on science and investments into technology, instrumentation, facilities, and people. When I started Caris, next-generation sequencing, and other technologies needed to realize the benefits of personalized medicine, did not exist. However, we have benefited from tremendous advances in sequencing technology, cloud computing, and AI technologies to power our expertise and insights in molecular biology. We believe that these advances provide an unmatched resource to develop the next generation of precision medicine solutions.

Our platform is built on the premise that more data enables us to answer questions about biology that could not be answered until now due to limited or narrow information. In the course of completing over 6.5 million tests on over 849,000 cases, we have generated over 13 quadrillion molecular datapoints and measured over 38 billion molecular markers. We measure billions of data points per clinical case using Caris Assure, our universal blood-based whole exome/whole transcriptome sequencing solution, that we have created based on our vast experience in tissue sequencing. We are utilizing this tremendous amount of molecular information to pioneer the transition from intuitive medicine, where decisions for cancer patients are made based on prior experience or intuition, to empirical medicine, where decisions are based on the genetic make-up of each person's disease.

Driven by over 17 years of innovation to help build a better world, we have gained vast expertise in sequencing and data interpretation. We believe we were the first to offer comprehensive molecular profiling as standard practice when we launched whole transcriptome sequencing in 2019, the first to offer whole exome sequencing as standard practice when we introduced our whole exome sequencing solution in 2020, and the first to offer whole exome and whole transcriptome sequencing in blood when we broadly launched Caris Assure in the first quarter of 2024.

We have utilized AI and machine learning algorithms across our dataset to identify approximately 915,000 unique pathogenic mutations, of which only approximately 17,000 were previously identified, with approximately 130 novel pathogenic mutations found on average in each person. We can now identify a person's circulating pathogenic mutations and enable the design of a customized individualized therapy to that specific set of mutations. So, it becomes an individualized, customized immunotherapy. We believe this is going to create the opportunity for physicians to use our solutions to effectively prevent various chronic diseases before they ever get started at the earliest of stages.

It is a very exciting time because technology has finally advanced to the point where it enables this big idea. This is not something that could have been thought of in 2008 or even 2018 because the technologies were not available. Such as large sequencing capacity, AI, and the cloud, all of which have to be utilized to look at all of the different aberrations that are occurring at the molecular level with the outcomes. So over time, it's just going to get better and better and better. We run the same assay in both blood and tissue on every eligible patient sample every day, so the only changes to the assay will be at the bioinformatic level utilizing specially-designed algorithms to provide new insights.

While we specialize in oncology today, we also believe that since we have designed the Caris Assure platform as a universal assay that runs on every coding gene in the blood, it can be utilized to identify alterations that drive other chronic disease states such as cardiovascular disease, neurological conditions, metabolic disorders, and many others.

We exist in a very exciting time of unprecedented technological disruption to benefit mankind and "go where no man has gone before"—something I have described as the molecular revolution—leading me to be bullish on humanity. Never before have we seen a convergence of molecular sequencing power, sophisticated AI technologies, and massive computer processing capabilities. We will continue to harness these and other advanced technologies, pushing the boundaries of what is possible and leading the precision medicine revolution in healthcare.

We feel honored to have served hundreds of thousands of patients in their battle against cancer. I would like to thank our Caris Life Sciences family for their tireless work to help our patients and to build a company that is actively changing the practice of medicine. We are excited about our future and welcome new shareholders that share our vision and passion to improve the human condition.

David Dean Halbert, D.Sc. (h.c.)
Founder, Chairman, and CEO

## PROSPECTUS SUMMARY

*This summary highlights selected information contained elsewhere in this prospectus and is qualified in its entirety by the more detailed information and financial statements included elsewhere in this prospectus. It does not contain all of the information that may be important to you and your investment decision. You should carefully read this entire prospectus, including the sections titled "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations," and "Special Note Regarding Forward-Looking Statements" and our financial statements and related notes included elsewhere in this prospectus before making an investment decision. In this prospectus, unless context requires otherwise, references to "we," "us," "our," "Caris," or "the Company" refer to Caris Life Sciences, Inc. and its wholly owned subsidiaries.*

### Overview

We are a leading, patient-centric, next-generation AI TechBio company and precision medicine pioneer. We develop and commercialize innovative solutions to transform healthcare through the use of comprehensive molecular information and artificial intelligence/machine learning algorithms at scale. Our entire portfolio of precision medicine solutions is designed to benefit patients, with an initial focus on oncology, and serves the clinical, academic, and biopharma markets.

We founded Caris in 2008 with the belief and vision that combining a vast set of consistently generated molecular information with robust data-driven insights could realize the potential of precision medicine for patients. We have spent the last 17 years developing and building our portfolio of comprehensive, proprietary molecular profiling solutions and generating what we believe to be one of the largest and most comprehensive multi-modal clinico-genomic datasets in oncology based on the more than 6.5 million tests we have run on over 849,000 cases, which have generated measurements of over 38 billion molecular markers. Our platform is purpose-built to leverage the convergence of next-generation sequencing ("NGS"), artificial intelligence ("AI") and machine learning ("ML") technologies, and high-performance computing. The power of our differentiated Caris platform has enabled us to develop the latest generation of advanced precision medicine diagnostic solutions designed to address the entire cancer care continuum, including early detection, minimal residual disease ("MRD") tracking, therapy selection, and treatment monitoring, as well as to create molecular signatures and discover and develop novel precision medicine therapeutics. Our current commercial product portfolio is focused on oncology and consists of MI Profile, our tissue-based molecular profiling solution that has generated the majority of our revenue to date, and Caris Assure, our novel, universal blood-based molecular profiling solution that was broadly launched in the first quarter of 2024 for therapy selection.

Dysfunctionality at the molecular level underlies every chronic disease, and this dysfunction is now measurable using techniques such as NGS. Cells are embedded within highly complex biological networks that govern all aspects of life, including how these cells grow, divide, interact, and die. These biological networks and their inherent functions, as well as dysfunctions, are controlled and directed at the molecular level. The precise molecular origins or contributors to a given biological dysfunction, however, are often unknown, and a comprehensive molecular profile is necessary to determine these origins. The central dogma of molecular biology states that genetic information flows in one direction, from DNA, to RNA, to proteins. Our approach is designed to accurately capture the full breadth of the DNA and RNA coding information in cells as well as protein expression through immunohistochemical ("IHC") tests, constructing a fulsome mosaic of disease, and ultimately unlocking the potential for precision medicine therapeutics to guide individualized patient diagnoses and treatment.

We believe we are well-positioned to realize the full potential of our vision and optimally leverage our vast datasets due to the recent convergence of several advancements in biology, medicine, and technology: (1) the medical community's understanding and appreciation of the molecular nature of cancer has accelerated in recent years, resulting in a continued increase in molecular profiling of different cancer types and stages; (2) NGS costs have declined, making NGS more accessible to the healthcare ecosystem; (3) cloud-computing architecture has enabled massive scalability, distributed real-time collaboration, and greater cost efficiency for the analysis of previously unmanageable amounts of data; and (4) AI and ML computational capabilities have advanced to allow more effective interrogation of large biological datasets. We believe that our early foresight to generate comprehensive data at scale over the past many years and build a robust, foundational infrastructure have uniquely positioned Caris to leverage the benefits of these

biological and technological advances to deliver transformative and advanced innovations in precision medicine and patient care into the future.

Our purpose-built, proprietary multi-omic profiling solutions capture and analyze molecular information from tissue and blood in a comprehensive manner. We provide whole exome sequencing (“WES”) (all 23,000 encoding DNA genes) and whole transcriptome sequencing (“WTS”) (all 61,000 RNA transcripts that encode proteins) on every eligible patient sample (a sample provided by ordering physicians that contains sufficient genetic material for profiling). Since launching our WTS solution in 2019 and WES solution in 2020, we have performed over 500,000 WES and WTS cases through May 2025, which we believe is more than any other company. We sequence at a sector-leading depth of coverage, which directly correlates with increased accuracy and detection of low frequency molecular markers of relevance. MI Cancer Seek, our U.S. Food and Drug Administration (‘‘FDA’’)-approved companion diagnostic assay to identify cancer patients who may benefit from treatment with targeted therapies (a component of MI Profile), consistently reaches 1,500 times depth of coverage for clinically relevant DNA genes, which is a higher sequencing depth than other assays available in the marketplace based on reported depths of coverage, and 300 times depth of coverage for the whole exome. Caris Assure features a raw average sequencing depth of 8,000 times for clinically relevant genes, similarly a higher sequencing depth than other assays available in the marketplace based on reported depths of coverage. We generate tens of billions of datapoints per clinical case to reveal an individualized molecular blueprint of the patient’s disease. We believe this approach best positions us to provide actionable treatment pathways from targeted therapies to drive superior clinical outcomes for patients while also generating a rich dataset to power insights and innovation. To our knowledge, we remain the only genomic profiling company to consistently utilize WES and WTS as standard practice on every eligible patient sample. We also evaluate protein molecular markers through an extensive menu of IHC tests performed in a tumor-type specific manner, which in combination with WES and WTS, provide a comprehensive view of a patient’s disease.

Our in-depth profiling of patient samples has led to the creation of what we believe to be one of the largest and most comprehensive multi-modal clinico-genomic datasets in oncology, including genomic data, clinical data, digitized slide images, and remnant tissue. As of March 31, 2025, we have run more than 6.5 million tests on over 849,000 cases, which have generated measurements of over 38 billion molecular markers. Leveraging high-powered computing and AI/ML algorithms, we, and our biopharma and research partners who use our data and bioinformatics services, analyze our datasets to determine the key molecular characteristics of a particular disease or dysfunction that drives disease, enabling signature identification and drug target discovery. As a leader in the transition to WES/WTS sequencing through our launch of a WTS solution in 2019 and a WES solution the following year, we believe we have more molecular data and information than any other company and are well-positioned to make precision medicine widely accessible.

Our molecular profiling solutions and the data generated by our multi-omic technology platform provide value to our more than 100 biopharma partners, such as Moderna, AbbVie, Xencor, and Merck KGaA, through partnerships that aim to increase the probability of technical and regulatory success of their therapeutic pipelines. In addition to biopharma, we leverage our datasets to partner with outside academic centers and researchers to further advance precision oncology research. The Caris Precision Oncology Alliance (“Caris POA”), which we established in 2015, is a growing network of leading cancer centers and research consortia across the globe that collaborate to advance precision oncology and biomarker-driven research, with its members working together to establish and optimize standards of care for molecular testing through innovative research to improve clinical outcomes for cancer patients. As of March 31, 2025, the Caris POA was comprised of 96 members, including 45 National Cancer Institute (“NCI”)-designated comprehensive cancer centers. This academic-industry collaborative network has been exceptionally productive with over 145 peer-reviewed manuscripts published since the beginning of 2022. Close connectivity with this vast network of key opinion leaders (“KOLs”) in oncology clinical care, research, and drug development has enabled us to remain at the forefront of precision oncology and closely attuned to the key needs of the most sophisticated researchers.

Our Caris platform is designed to create a virtuous cycle that can enable continued innovation and improved impact for patients and physicians. We believe our comprehensive approach to profiling will continue to drive demand for our genomic profiling capabilities, leading to further expansion of our clinico-genomic datasets, which provide additional valuable inputs to develop and enhance our solutions, with the

ultimate goal of contributing to improved patient results. This continuous feedback loop enabled us to develop Caris Assure, which utilized genomic data generated by MI Profile to inform our blood-based bioinformatics algorithms, allowing us to detect previously unknown features and signals in the blood that provide advanced insights into disease development. We believe we will be able to further leverage this process to continue meaningful innovation in precision oncology as well as other chronic disease states, including cardiology, neurology, and metabolic conditions.

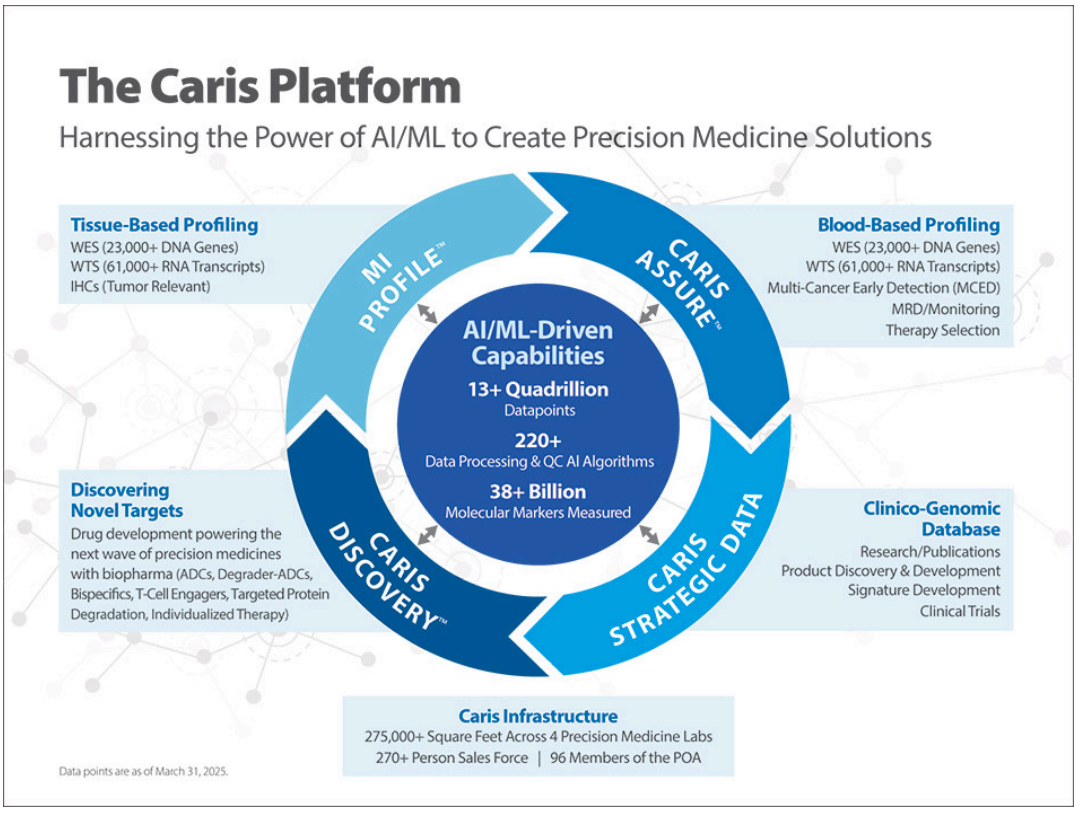
Our global annual clinical case volume has been growing rapidly, with year-over-year growth of 29% in 2022, 32% in 2023, 26% in 2024, and 31% in the first quarter of 2025, primarily driven by MI Profile. With our broad commercial launch of Caris Assure for therapy selection in the first quarter of 2024 and the FDA approval of MI Cancer Seek as a companion diagnostic in the fourth quarter of 2024 followed by the broad commercial launch of MI Cancer Seek in the first quarter of 2025 as the NGS component of MI Profile, we believe that increased profiling volumes will meaningfully contribute to our growth in 2025 and beyond. For the years ended December 31, 2024 and 2023, we generated total revenue of $412.3 million and $306.1 million, respectively. For the three months ended March 31, 2025 and 2024, we generated total revenue of $120.9 million and $80.7 million, respectively. We have incurred net losses and negative cash flows from operations since inception. For the years ended December 31, 2024 and 2023, we incurred net losses of $257.1 million and $341.4 million, respectively. For the three months ended March 31, 2025 and 2024, we incurred net losses of $102.6 million and $111.0 million, respectively. Our Adjusted EBITDA was $(189.6) million and $(255.3) million for the years ended December 31, 2024 and 2023, respectively. Our Adjusted EBITDA was $(36.2) million and $(70.1) million for the three months ended March 31, 2025 and 2024, respectively. For additional information regarding Adjusted EBITDA, a non-GAAP financial measure, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures.” We expect to incur additional net losses in the near future, and our expenses will increase as we continue to invest in developing new solutions, expand our organization, and increase our marketing efforts to continue to drive market adoption of our solutions. These investments, together with general and administrative expenses, have resulted in negative cash flows from operations of $245.2 million, $276.1 million, $31.3 million, and $73.9 million for the years ended December 31, 2024 and 2023 and the three months ended March 31, 2025 and 2024, respectively. Our free cash flow was $(253.6) million and $(298.4) million for the years ended December 31, 2024 and 2023, respectively, and, $(34.0 ) million and $(75.7) million for the three months ended March 31, 2025 and 2024, respectively. For additional information regarding free cash flow, a non-GAAP financial measure, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures.” Additionally, as of March 31, 2025, we had cash, cash equivalents, and short-term marketable securities of $33.4 million, and the aggregate principal amount of debt outstanding under our existing term loan was $400.0 million. For additional information regarding our liquidity and capital resources, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources.”

**Industry Overview**

Addressing the complexity of cancer remains a major challenge in healthcare and a critical area of unmet medical need, despite enormous investments in research and development (“R&D”), and the introduction of new oncology therapeutics and treatments. The molecular revolution is upending the traditional paradigm of complex workflows of diagnosis, treatment, and monitoring of diseases, which largely uses a symptomatic, reactive approach to medicine. Over the last several decades, significant advances in genomics, proteomics, molecular technology, and computing power have enabled a comprehensive, multi-omic approach to the molecular profiling of diseases, both efficiently and at scale. The information provided by comprehensive molecular profiling is driving a revolution in medicine, where molecular information is used to guide individualized patient diagnoses and treatment.

Comprehensive molecular profiling entails evaluating thousands of potential biomarkers, including DNA, RNA, proteins, and other molecular and clinical information for characteristics unique to a particular patient’s disease. Given the complexity of a cancer’s origin and drivers, comprehensive molecular information incorporating DNA, RNA, and protein profiles can help provide the most robust picture of a patient’s disease and potential treatment pathways. WES/WTS streamlines the patient experience and clinical decision-making and offers increased value to patients, physicians, and payers. We believe WES/WTS

provides the most efficient and cost-effective way to obtain the maximum information on a patient's cancer at the start of the patient journey. It enables accurate identification of a greater number of actionable genomic alterations that can be leveraged to match patients to the most effective treatments, yielding a higher probability of response and providing comprehensive predictive and prognostic information.



While the molecular revolution has already changed the way cancer is being diagnosed and treated, we believe that molecular testing faces several major challenges in its current form, which have hindered broader adoption of precision oncology. These challenges include: (1) targeted panels are subject to missing information and significant variability; (2) lack of consistent RNA profiling; (3) lack of clonal hematopoiesis ("CH") derived variant subtraction technology in current blood assays, contributing to the inability to identify false positive mutations that are not tumor-derived; (4) disparate data sets collected across testing modalities; (5) logistical drawbacks and sensitivity limitations of current MRD assays; and (6) false positives and a lack of early-stage sensitivity with current multi-cancer early detection ("MCED") assays.

As a result of these challenges, clinicians may make critical treatment decisions based on incomplete and/or inaccurate information and analytics, potentially resulting in suboptimal outcomes. We believe that our comprehensive molecular profiling solutions and the data generated by our multi-omic technology platform is well-suited to address the limitations and challenges of today's molecular testing alternatives.

**The Caris Platform**

We are leading a molecular revolution and developing the latest generation of advanced precision medicine information solutions that we believe have applicability across the care continuum for a broad range of conditions. The fundamental differentiation of the Caris platform and our business model is the depth, breadth, and scale of data, including how that data is integrated vertically and horizontally across our business, as well as the resulting innovation which it fuels.

Our multi-omic technology platform is built on the following pillars: (1) Caris Assure; (2) MI Profile; (3) Caris Discovery; (4) Caris Strategic Data; and (5) Caris Infrastructure. These five pillars are designed to work together to create a virtuous cycle that can enable continued innovation and improved impact for patients and physicians. We believe our comprehensive approach to profiling will continue to drive demand for our genomic profiling capabilities, leading to further expansion of our clinico-genomic datasets, which provide additional valuable inputs to develop and enhance our solutions, with the ultimate goal of contributing to improved patient results. We believe this continuing cycle will deepen our competitive advantage and allow us to achieve meaningful innovation and business success in precision oncology, while illuminating a path to precision medicine for other chronic disease states, including cardiology, neurology, and metabolic conditions.

We believe our growth and competitive differentiation are driven by the five pillars of our platform, each of which are both a product of the upstream data and a foundation to further innovation and data generation across the platform:

- ***Caris Assure.*** Our universal blood-based WES/WTS profiling solution is designed to deploy a single assay across the entire continuum of cancer care, including early detection, MRD tracking, therapy selection, and treatment monitoring, and generates over 42 billion datapoints, spanning 168,000 molecular markers, per clinical case. We leveraged our experience and data from MI Profile to create Caris Assure, which enables us to understand how a patient's disease started, what therapies the tumor may be sensitive to, how the tumor is transforming to resist therapies, and how best to control or cure the disease.
- ***MI Profile.*** Our tissue-based profiling solution for therapy selection includes MI Cancer Seek, our FDA-approved companion diagnostic WES/WTS profiling assay, and IHC protein expression testing. Our WES/WTS profiling solution generates over 28.8 billion datapoints, spanning 84,000 molecular markers, per clinical case.
- ***Caris Discovery.*** The combination of our data and our AI enables us to discover previously unknown drug targets for antibody-directed therapies (such as antibody drug conjugates, degrader-antibody conjugates, and T-cell engagers), small molecules, targeted protein degradation, synthetic lethal interactions, and cell therapy. In addition, we believe Caris Discovery is well-positioned for neoantigen discovery for personalized therapy development given our ability to detect variants, insertions, and deletions by WES and to assess gene expression and detect fusions by WTS on every patient's tumor.
- ***Caris Strategic Data.*** As of March 31, 2025, we have run more than 6.5 million tests that have measured over 38 billion molecular markers from over 13 quadrillion datapoints. To assist us with analyzing the data we generate, we utilize over 220 AI and AI/ML tools across our

clinical testing, R&D, and biopharma business. These tools include over 50 clinical sequencing automation and variant calling AIs, over 100 RNA expression AI signatures, approximately 20 multi-omic AI/ML therapy response predictors, two ADAPT target discovery AI/ML algorithms, 37 digital image AI/ML classifiers, and 12 AI/ML support tools. The breadth and depth of our data assets, along with our ability to create algorithms and discover signatures, represent a deep competitive moat for us.

- ***Caris Infrastructure.*** We have a well-developed laboratory, R&D, and sales infrastructure that we believe is foundational to our business. Our infrastructure includes substantial testing capacity and a dedicated workforce to support our R&D efforts, sales activity, and expansion.

**Our Market Opportunity and Vision for Leveraging Molecular Information**

We believe we are well-positioned to initially pursue a total addressable market in U.S. oncology of approximately $150 billion through the provision of precision medicine solutions across the entire cancer care continuum, as well as offerings to support biopharma drug discovery and development. While our tissue-based molecular profiling solution for cancer therapy has generated the majority of our revenue to date, we believe the launch of our blood-based profiling offering for therapy selection, our expansion of our blood-based profiling offering beyond therapy selection in particular, and further leveraging our platform to provide solutions to biopharma companies will enable us to benefit significantly from this large market opportunity. Our estimated total addressable U.S. oncology market, which is based on a market study by Nephron Research LLC that we commissioned, is comprised of opportunities in the following areas:

- ***Early detection:*** approximately $100 billion.
- ***Therapy selection:*** approximately $8 billion.
- ***MRD tracking and treatment monitoring:*** approximately $28 billion.
- ***Core biopharma services:*** approximately $4 billion.
- ***Data services for biopharma:*** approximately $10 billion.

We also believe there is a large market opportunity for our platform in other chronic disease states beyond oncology, including cardiology, neurology, and metabolic conditions, based on the fundamental premise that approaching blood-based disease detection with a comprehensive WES/WTS approach enables examination of biomarkers that go beyond oncology. For additional information, see “Business—Our Market Opportunity and Vision for Leveraging Molecular Information.”

**The Caris Advantage**

We believe our approach is differentiated and we have a competitive advantage because:

- ***We purpose-built our Caris platform to put the patient first and make comprehensive precision medicine a reality.***
- ***We are a leading provider of tissue-based molecular profiling, including through our FDA-approved companion diagnostic tissue-based profiling solution, MI Cancer Seek.***
- ***Our novel, universal blood-based profiling solution, Caris Assure, is unique in the market and poised for rapid adoption.***
- ***We have built what we believe to be one of the largest and most comprehensive multi-modal clinico-genomic datasets in oncology.***
- ***Our first mover advantage, specialized commercial channel, robust infrastructure, and deep research collaborations enable our leadership and provide us with the ability to scale for future growth.***
- ***We are led by a founder with significant experience building and scaling businesses in the healthcare industry and a management team with scientific expertise.***

**Our Strategies**

To achieve our goal of leading a molecular revolution and developing the next generation of precision medicine information solutions for a broad range of conditions across the care continuum, we plan to:

- ***Drive the continued adoption and use of our tissue-based profiling and expand blood-based profiling offering into early detection, MRD, and monitoring.***
- ***Utilize the data generated by our existing solutions to develop new solutions with additional revenue using our existing sales channel.***
- ***Leverage our platform to provide solutions to biopharma companies to drive advances in personalized medicine and accelerate the development of novel therapeutics.***
- ***Continue to expand and enrich our clinico-genomic datasets to drive breakthrough science and develop new solutions.***
- ***Maximize market reach through our regulatory approval and reimbursement strategy.***
- ***Capitalize on the ultimate potential of our novel, universal blood-based profiling solution, Caris Assure, and broader innovation platform in other chronic disease states beyond oncology, including in cardiology, neurology, and metabolic conditions.***

**Caris Assure—Our Universal Blood-Based Profiling Solution**

Caris Assure is our novel, universal blood-based solution that is purpose-built to extend across the entire continuum of cancer treatment, including early detection, monitoring of MRD and recurrent cancers, and precision selection of molecularly targeted therapies. Caris Assure also has applications in therapeutic discovery and development. We believe Caris Assure represents the most comprehensive blood-based solution on the market, featuring over 23,000 gene coverage at a raw average sequencing depth of coverage of 8,000 times for clinically relevant genes, as compared to other blood-based offerings in the market that only assess 500 to 1,000 genes from DNA. Caris Assure performs WES and WTS for every eligible patient blood sample. We integrate WES and WTS with sophisticated AI and ML technologies to offer diagnostic, prognostic, and predictive utility in a single test.

For therapy selection, in addition to sequencing cell-free DNA and cell-free RNA isolated from the plasma to identify somatic tumor variants, Caris Assure also sequences genomic nucleic acid (gDNA and gRNA) isolated from the white blood cells, or buffy coat, from each sample. Sequencing the buffy coat in addition to the plasma allows Caris Assure to identify incidental germline mutations as well as CH mutations. CH mutations are age-related non-malignant mutations that occur in a substantial portion of the population, are not cancer-derived and are present in both the plasma and buffy coat and cannot be identified from sequencing plasma alone. Caris Assure “subtracts” CH mutations in the reporting of somatic tumor variants. This lessens the risk of incorrectly interpreting CH or germline mutations as tumor-derived and results in fewer false positive diagnoses and more accurate and effective treatment recommendations. We believe that CH subtraction is of critical importance to ensure optimal cancer care because of the prevalence of CH mutations. By identifying and distinguishing variants that are not from the tumor itself and, therefore not relevant to therapeutic decision-making, the CH subtraction feature of Caris Assure further separates our solution from other liquid biopsy tests currently on the market that do not sequence the white blood cells and therefore cannot definitively distinguish CH mutations from tumor-derived mutations. To our knowledge, Caris Assure is the only commercially available tissue-naive blood-based profiling assay that directly accounts for CH mutations instead of using algorithmic approximations, which we believe gives Caris Assure a differentiated ability to drive improved therapy selection.

Customers for Caris Assure include treating physicians as well as researchers and biopharma companies. The same benefits that blood-based WES, WTS, and CH subtraction bring to patients in the clinical setting also offer significant and previously unavailable advantages to biopharma companies.

We initiated a broad commercial launch of Caris Assure for therapy selection in the first quarter of 2024 and currently offer the solution as a laboratory developed test (“LDT”), which the FDA has historically considered a form of medical device, as an *in vitro* diagnostic (“IVD”) test intended for clinical use and

designed, manufactured, and used within a single laboratory. The FDA has historically exercised enforcement discretion and not required marketing authorization for certain kinds of LDTs. Accordingly, we have not obtained FDA marketing authorization for Caris Assure. We may decide to seek FDA marketing authorization for certain of our solutions in the future, including Caris Assure for therapy selection, depending in part on the ultimate outcome of litigation over the FDA's authority over LDTs. For additional information, see "Business—Government Regulation—U.S. Food and Drug Administration" and "Risk Factors—We have current solutions marketed as LDTs and plan to launch future solutions as LDTs. The regulation of LDT products in the United States remains subject to significant uncertainty, and if we fail to comply with any new or existing legal requirements governing our LDT solutions, our business, financial condition, and results of operations could be adversely affected." We have Medicare reimbursement and various levels of commercial payer adoption and/or reimbursement coverage for Caris Assure for therapy selection across the United States. The current pricing of Caris Assure for therapy selection under Medicare's Molecular Diagnostic Services Program ("MolDX") is $3,649.

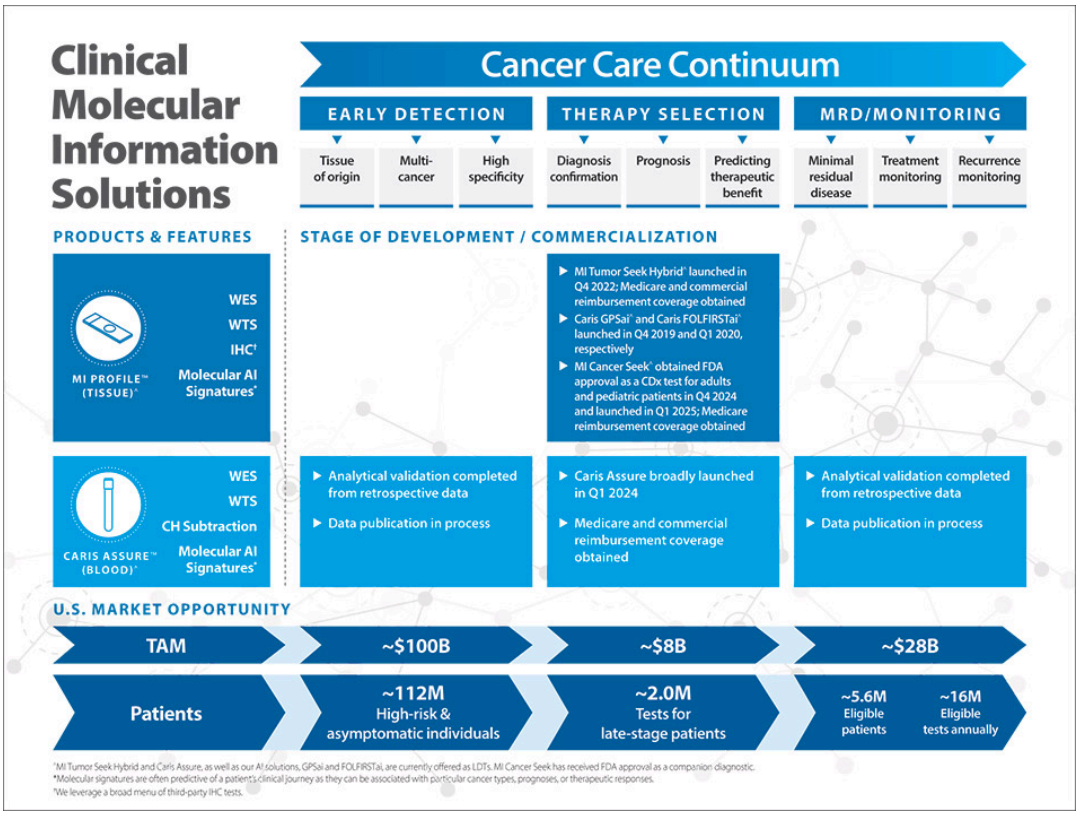
Caris Assure for therapy selection is available in all U.S. states (other than New York, where we intend to apply in 2025 for approval from New York State's Clinical Laboratory Evaluation Program ("NY CLEP")) and in Puerto Rico. We also offer Caris Assure for therapy selection internationally through distributors and direct contracts with hospital systems, where permitted by applicable regulations.

***Our Differentiated Approach to Address the Entire Cancer Care Continuum Through a Single Blood Test***

Our universal approach to blood-based profiling is unique. Liquid biopsies can be used across the care continuum, including for: therapy selection in the advanced/metastatic setting; MRD and monitoring in the curative/adjuvant setting; and early detection in the diagnosis setting. Because many of our competitors' liquid biopsy assays are designed to address only a single portion of this care continuum, in order to develop products for other portions of the care continuum, our competitors must invest in the development of new wet lab assays and generate disparate datasets across the patient journey for patients, oncologists, and researchers. In contrast, Caris Assure is designed as a single test applicable across the entire patient journey. To our knowledge, there is no other assay on the market that can be applied as broadly as Caris Assure. We believe that our approach will enable us to scale our R&D infrastructure to analyze increasingly larger testing volumes, process expanding datasets, and reach economies of scale in liquid biopsy across the entire cancer care continuum.

We believe that one of the most promising uses for Caris Assure is for detection of cancer at very early stages, such as stage 1 or stage 2. Our detection of cancer at very early stages would enable clinicians to treat disease sooner, which could significantly improve patient outcomes. We believe that Caris Assure for early detection of cancers will initially be available for early detection of certain types of cancers, such as breast cancer and colon cancer, and then we intend to expand Caris Assure for full MCED indications. In an internal validation study conducted by us, the performance of our Assure Blood-based Cancer Detection ai ("ABCDai") for MCED ("ABCDai-MCED") demonstrated a high level of sensitivity at a specificity that reduces the burden of false positives. For additional information on the validation study, see "Business—Our Solutions—Caris Assure—Our Universal Blood-Based Profiling Solution—Caris Assure for Early Detection."

For MRD, our detection methodology based on ABCDai takes a tumor naïve approach, and therefore does not require a bespoke panel to be created to track the recurrence of a patient's tumor. This approach means that our MRD assay can be used without the need for a tissue sample and enables faster turn-around-time, enabling patients to be informed of additional therapy sooner to combat their disease.



**MI Profile—Our Tissue-Based Profiling Solution**

MI Profile is our tissue-based molecular profiling solution for cancer therapy selection, with over one million tests performed on approximately 146,500 clinical cases in 2024 and an additional approximately 40,000 clinical cases in the three months ended March 31, 2025. As of March 31, 2025, we have performed over 6.5 million tissue-based tests on over 790,000 clinical cases since inception. MI Profile includes MI Cancer Seek, our FDA-approved companion diagnostic WES/WTS NGS assay, and IHC protein expression testing.

Customers for MI Profile include treating physicians as well as researchers and biopharma companies. The information generated from profiling the patient's tissue is used to create an interpretative report based on our bioinformatics pipeline and recommend individualized therapies for cancer patients. Our goal is to maximize the information generated and corresponding clinical utility for patients from the limited available tumor tissue. Molecular profiling also has broad applications for our biopharma partners, including prospective screening, retrospective testing and deep translational analyses, stratification of patients for existing or future trials, and treatment monitoring.

We have obtained Medicare and commercial reimbursement for MI Profile. We have also obtained a premarket approval ("PMA") from the FDA for a companion diagnostic and tumor profiling designation for MI Cancer Seek, a WES/WTS NGS assay that uses the whole exome for tumor mutational burden ("TMB") calling, and for which we have obtained a Proprietary Laboratory Analyses ("PLA") code, Current Procedural Terminology (''CPT'') code 0211U, at a reimbursement rate of $8,455. In the first quarter of 2025, we began to market MI Cancer Seek as the WES/WTS NGS component of MI Profile. We have obtained Medicare coverage for MI Cancer Seek for CPT code 0211U under the NGS NCD. We currently offer MI Tumor Seek Hybrid, which is a WES/WTS NGS LDT assay, as an alternative assay if a specimen does not meet the eligibility requirements for MI Cancer Seek.

MI Profile, including our MI Cancer Seek assay and proprietary clinical molecular signatures GPSai and FOLFIRSTai, is available in all U.S. states and in Puerto Rico. We also offer MI Profile internationally in over 40 countries through distributors and direct contracts with hospital systems, where permitted by applicable regulations.

**Caris Discovery**

Caris Discovery is our drug target and therapeutic discovery business. Caris Discovery leverages our profiling solutions, multi-modal clinico-genomic datasets, wet lab facilities, proprietary Adaptive

Dynamic Artificial Polyligand Targeting (“ADAPT”) platform, and AI/ML-enabled *in silico* analyses to identify potential drug targets and develop therapeutics. We launched Caris Discovery in 2022 to partner with biopharma partners to address the lack of novel cancer-specific targets and the herding of biopharma pipelines around a discrete number of lower-risk targets. Caris Discovery is disease- and modality-agnostic and can be applied to any therapeutic modality, including antibody-directed therapies (such as antibody drug conjugates, degrader-antibody conjugates, and T-cell engagers), small molecules, targeted protein degradation, synthetic lethal interactions, and cell therapy. We have achieved external validation of our Caris Discovery approach through strategic partnerships with established biopharma companies, such as Merck KGaA and Xencor, to develop therapeutics against novel targets that emanate from our molecular insights and proprietary technology. In addition, we believe Caris Discovery is well-positioned for neoantigen discovery for personalized therapy development given our ability to detect variants, insertions, and deletions by WES and to assess gene expression and detect fusions by WTS on every patient’s tumor.

Our proprietary repositories of tissue and data, each of which we believe to be at an unmatched scale, are a resource that could not have been amassed without our underlying commercial profiling business, and as such are a significant differentiator and enabler of our discovery efforts.

**Caris Strategic Data**

Data and molecular information are at the core of every aspect of our business. Our team of more than 60 data scientists deploy our proprietary advanced AI/ML algorithms to decipher unique features from our resulting clinico-genomic datasets, helping us decode and further unravel the molecular complexity of disease. Our 17-year history of utilizing AI and ML algorithms, together with the breadth and depth of our clinico-genomic datasets, provide us a significant advantage in sophisticated analysis of cancer, and a foundation that we believe will have applications in additional disease states.

The tremendous amount of data generated through our profiling solutions, which we have deidentified for research use, provides us a differentiated capability to advance precision oncology research through many business models. For example, we launched our data licensing business in late 2022, through which we license deidentified data that we have generated from our clinical profiling business to biopharma companies with the aim of generating insights directly responsible for superior clinical outcomes for patients. We have a rich pipeline of data opportunities that we believe will deliver new partnerships, as we continue to introduce biopharma companies to this unique data offering. Additionally, through the Caris POA, which is a growing network of leading cancer centers and research consortia across the globe, we support research partner engagement, collaboration opportunities, and the advancement of precision oncology research. Since its establishment in 2015, the Caris POA has grown to comprise 96 members as of March 31, 2025, including 45 NCI-designated comprehensive cancer centers that work collaboratively toward a common goal: to advance tumor profiling and establish and optimize standards of care for molecular testing through innovative research to improve clinical outcomes for cancer patients. We estimate that the members of the Caris POA have over 3,000 oncologists in over 650 locations that treat more than 650,000 new cancer patients annually.

**Future Assays**

Caris aims to develop the next generation of precision medicine tools that will allow us to transition from intuitive medicine to empirical medicine. As a leader in the transition to WES/WTS sequencing through our launch of a WTS solution in 2019 and a WES solution the following year, we believe we have more molecular data and information than any other company and are well-positioned to make precision medicine widely accessible. For example, we are developing Caris ChromoSeq, an assay to detect and analyze hematological (blood) cancers using whole genome sequencing (“WGS”) and WTS. We are internally validating this assay and developing it for commercial launch. We are also working to develop and validate the plasma portion of our Caris Assure assay for full germline testing. Additionally, we are using our molecular data to develop ESPai, an AI/ML algorithm to predict the risk of recurrence of early-stage breast cancer. We have obtained the samples and clinical data from the National Surgical Adjuvant Breast and Bowel Project and the ECOG-ACRIN Cancer Research Group. We are currently in the process of creating two AI/ML models for ESPai using these samples and are working to obtain additional samples for external

validation studies. We are initially creating a model for late recurrence (five to 15 years following diagnosis), but we are also in the beginning stages of creating a model for early recurrence (zero to five years following diagnosis).

**Caris Infrastructure**

We believe our well-developed laboratory, R&D, and sales infrastructure is foundational to our business. We have substantial testing capacity, including over 275,000 square feet of space across four precision medicine laboratories with throughput capabilities of over one trillion reads per day generated by 50 NovaSeq sequencing systems. We believe this capacity provides us with ample capability to manage our current operations and future growth. We also have a dedicated R&D infrastructure, including a specialized laboratory and over 200 employees dedicated to R&D efforts. In addition to our internal research, we regularly partner with outside academic centers and researchers, including through the Caris POA. Additionally, to support our sales activity and expansion, as of March 31, 2025, we have assembled a targeted sales organization in the United States of over 270 sales team members and nearly 50 highly trained Ph.D. or M.D. molecular science liaisons (“MSLs”) who focus on physician and provider education. We believe that our robust, foundational infrastructure, together with our expansive multi-modal clinico-genomic datasets, has uniquely positioned Caris to deliver transformative and advanced innovations in precision medicine and patient care into the future.

**Summary Risk Factors**

Participating in this offering involves substantial risk. Our ability to execute our strategy is also subject to certain risks. The risks described under the heading “Risk Factors” included elsewhere in this prospectus may cause us not to realize the full benefits of our strengths or may cause us to be unable to successfully execute all or part of our strategy. Some of the most significant challenges and risks we face include the following:

- The precision medicine industry is highly competitive and subject to rapid change.
- We have incurred significant losses since inception, expect to incur losses in the future, and may not be able to generate sufficient revenue to achieve and maintain profitability.
- Our current or future solutions may not achieve or maintain sufficient commercial market acceptance.
- Our solutions may not perform as expected, and the results of our validation studies or our clinical trials may not support the launch or use of our solutions and may not comply with the requirements, or be replicated in later trials required, for any necessary or desirable marketing authorizations. This could adversely affect our business, financial condition, results of operations, and growth prospects.
- Our current revenue is primarily generated from the continued adoption and use of our tissue-based profiling solution.
- Our future success and growth will depend in part on market acceptance and commercial success of our MI Cancer Seek and Caris Assure solutions. We may be unsuccessful in continuing the commercialization of MI Cancer Seek or Caris Assure, which would adversely affect our business, financial condition, results of operations, and growth prospects.
- If we are unable to support demand for MI Profile, Caris Assure, and any other solutions we develop, including ensuring that we have adequate capacity to meet increased demand, or if we are unable to successfully manage our anticipated growth, our business could suffer.
- Our results of operations may fluctuate significantly, which makes our future results of operations difficult to predict and could cause our results of operations to fall below expectations or any guidance we may provide.
- If our solutions, or solutions we develop in the future, do not receive adequate coverage and reimbursement from third-party payers, including government and commercial payers, our

ability to expand access to our solutions beyond our existing sales channels, and thus our overall commercial success, will be limited.

- Our billing, collections, and claims processing activities are complex and time-consuming, and any delay in transmitting and collecting claims or failure to comply with applicable billing requirements could have an adverse effect on our future revenue.
- We rely on a limited number of third-party suppliers or, in many cases, sole suppliers, for some of our next-generation sequencers, lab materials, reagents, and supplies, and we may not be able to find replacements or immediately transition to alternative suppliers if necessary.
- If we or our partners fail to comply with healthcare and other applicable laws and regulations, we could face substantial penalties and sanctions and our business, reputation, financial condition, and results of operations could be adversely affected.
- If we are unable to obtain and maintain intellectual property protection for our technology, or if the scope of the intellectual property protection we obtain is not sufficiently broad, our competitors could develop and commercialize technology and products similar or identical to our solutions, and our ability to successfully commercialize our solutions may be impaired.
- We have incurred substantial indebtedness, and we may not generate sufficient cash flow from operations to meet our debt service requirements, continue our operations, and pursue our growth strategy, and we may be unable to raise capital when needed or on acceptable terms.
- After this offering, our executive officers, directors, and principal shareholders, including, in particular, David D. Halbert, our Founder, Chairman, and Chief Executive Officer, will continue to have the ability to control or significantly influence matters submitted to shareholders for approval, which could limit the ability of our other shareholders to affect the outcome of key corporate decisions and transactions, including a change of control.

Before you invest in our common stock, you should carefully consider all the information in this prospectus, including matters set forth in the section titled “Risk Factors.”

**Corporate Information**

We were founded in 2008 when we entered the field of precision oncology through our acquisition of Molecular Profiling Institute, a Delaware-incorporated molecular life sciences company. We were incorporated under the laws of the Cayman Islands in October 2011 as Caris Life Sciences, Ltd. and in July 2020, we changed our name to Caris Life Sciences, Inc. and re-domiciled to be incorporated in Texas.

Our principal executive offices are located at 750 West John Carpenter Freeway, Suite 800, Irving, Texas 75039, and our telephone number is (866) 771-8946. Our website address is *www.carislifesciences.com*. The information on, or that can be accessed through, our website is not incorporated into this prospectus. You should not consider information contained on our website to be part of this prospectus in deciding whether to purchase shares of our common stock.

**Implications of Being an Emerging Growth Company**

We qualify as an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012, as amended (the “JOBS Act”). We will remain an emerging growth company until the earliest to occur of: (i) the last day of the fiscal year in which we have at least $1.235 billion in total annual gross revenue; (ii) the last day of the fiscal year in which we are deemed to be a “large accelerated filer” as defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which would occur if the market value of our common stock held by non-affiliates exceeded $700 million as of the last business day of the second fiscal quarter of such year; (iii) the date on which we have issued more than $1.0 billion in non-convertible debt securities during the prior three-year period; and (iv) the last day of the fiscal year ending after the fifth anniversary of the date of the completion of this offering. An emerging growth company may take advantage of specified reduced reporting requirements and is relieved of certain other significant requirements that are otherwise generally applicable to public companies. As an emerging growth company:

- we will present in this prospectus only two years of audited financial statements, plus any required unaudited financial statements, and related management's discussion and analysis of financial condition and results of operations;
- we will avail ourselves of the exemption from the requirement to obtain an attestation and report from our auditors on the assessment of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 ("SOX Section 404");
- we will provide less extensive disclosure about our executive compensation arrangements; and
- we will not be required to hold shareholder non-binding advisory votes on executive compensation or golden parachute arrangements.

Accordingly, the information contained herein may be different than the information you receive from our competitors that are public companies or other public companies in which you hold stock.

In addition, the JOBS Act provides that an emerging growth company can delay the adoption of new or revised accounting standards until those standards would otherwise apply to private companies. We have elected to avail ourselves of this extended transition period for complying with new or revised accounting standards and, as a result, our results of operations and financial statements may not be comparable to those of companies that have adopted the new or revised accounting standards.

**THE OFFERING**

| | |
|---|---|
| Common stock offered by us | 23,529,412 shares. |
| Option to purchase additional shares of common stock | We have granted the underwriters an option for a period of 30 days to purchase up to 3,529,411 additional shares of our common stock. |
| Common stock to be outstanding immediately after this offering | 297,109,837 shares (or 300,639,248 shares if the underwriters exercise their option to purchase additional shares of common stock in full). |
| Reserved share program | At our request, the underwriters have reserved up to 5% of the shares of common stock offered by this prospectus, excluding the additional shares that the underwriters have a 30-day option to purchase, for sale, at the initial public offering price, to certain individuals identified by management, including certain of our directors, officers, employees and certain other parties related to us. If these persons purchase reserved shares it will reduce the number of shares of common stock available for sale to the general public. Any reserved shares of common stock that are not so purchased will be offered by the underwriters to the general public on the same terms as the other shares of common stock offered by this prospectus. For more information, see “Underwriting—Reserved Share Program.” |
| Use of proceeds | We estimate that the net proceeds from this offering will be approximately $364.6 million (or $420.4 million if the underwriters exercise their option to purchase additional shares of common stock in full), based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.<br><br>We intend to use the net proceeds from this offering for general corporate purposes, including working capital, operating expenses, and capital expenditures. We also intend to use approximately $5.0 million of the net proceeds to satisfy our anticipated tax withholding and remittance obligations related to the RSU Net Settlement (as defined below). We will have broad discretion in the way that we use the net proceeds from this offering. See the section titled “Use of Proceeds” for additional information. |
| Indication of interest | Neuberger Berman has indicated an interest in purchasing up to $75.0 million of shares of our common stock being offered in this offering at the initial public offering price and on the same terms as the other purchasers in this offering. However, because indications of interest are not binding agreements or commitments to purchase, the underwriters could determine to sell more, fewer, or no shares to Neuberger Berman, and Neuberger Berman could determine to purchase more, fewer, or no shares in this offering. The underwriters will receive the same underwriting discounts and commissions on |

| | |
|---|---|
| | any of our shares of common stock purchased by Neuberger Berman as they will from any other shares of common stock sold to the public in this offering. |
| Risk factors | See the section titled “Risk Factors” beginning on page 21 and the other information included in this prospectus for a discussion of factors you should consider carefully before deciding to invest in our common stock. |
| Proposed Nasdaq trading symbol | “CAI” |

The number of shares of our common stock to be outstanding after this offering is based on 273,580,425 shares of our common stock outstanding as of March 31, 2025, after giving effect to (i) the Warrant Net Exercises, (ii) the Series E and F Issuance, (iii) the Preferred Stock Conversion, (iv) the issuance of the 2025 Convertible Notes and the related Notes Conversion, and (v) the RSU Net Settlement (each as defined below), and excludes:

- 24,113,482 shares of our common stock issuable upon the exercise of options outstanding under our 2020 Incentive Plan, as amended and restated (the “2020 Plan”), as of March 31, 2025, at a weighted-average exercise price of $10.18 per share;
- 249,999 shares of our common stock issuable upon the exercise of options granted under our 2020 Plan subsequent to March 31, 2025, at an exercise price per share equal to the initial public offering price;
- 236,290 shares of our common stock issuable upon the vesting and settlement of restricted stock units (“RSUs”) outstanding under our 2020 Plan as of March 31, 2025 that are subject to vesting conditions that are not satisfied in connection with this offering;
- 16,085,145 shares of our common stock reserved for future issuance under our 2025 Incentive Award Plan (the “2025 Plan”), based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, which 2025 Plan will become effective in connection with this offering, as well as shares of our common stock that may be issued pursuant to provisions of our 2025 Plan that automatically increase the share reserve under our 2025 Plan (see the section titled “Executive Compensation” for additional information); and
- 2,734,474 shares of our common stock reserved for future issuance under our 2025 Employee Stock Purchase Plan (the “ESPP”), based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, which ESPP will become effective in connection with this offering, as well as shares of our common stock that may be issued pursuant to provisions in our ESPP that automatically increase the share reserve under our ESPP.

Unless otherwise indicated, all information in this prospectus assumes:

- a one-for-four reverse stock split of our common stock effected as of June 1, 2025;
- the net issuance of 14,724,370 shares of our Series C preferred stock upon the cashless exercise, based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, of warrants outstanding as of March 31, 2025 at a weighted-average exercise price of $1.76 per share, which warrants are exercisable to purchase, at the holder’s election, shares of either our common stock or our Series C preferred stock and would have expired upon the completion of this offering unless earlier exercised (the “Series C Warrant Net Exercise”);
- the net issuance of 968,316 shares of our common stock issuable upon the cashless exercise of warrants issued in April 2025 at an exercise price of $0.04 per share (the “2025 Warrants”), based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus (the “2025 Warrant Net Exercise” and together with the Series C Warrant Net Exercise, the “Warrant Net Exercises”);

- the conversion of (i) all shares of our convertible preferred stock outstanding as of March 31, 2025 (including the 14,724,370 shares of Series C preferred stock issued upon the Series C Warrant Net Exercise) and (ii) all shares of our Series E and Series F convertible preferred stock issued and sold in April 2025 (such issuance and sale, the "Series E and F Issuance"), into an aggregate of 234,102,110 shares of our common stock, based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, which conversion will occur immediately prior to and in connection with the completion of this offering (the "Preferred Stock Conversion");
- the issuance of 2,521,004 shares of our common stock upon the conversion of senior convertible notes issued by us in April 2025 (the "2025 Convertible Notes"), based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, which conversion will occur immediately prior to and in connection with the completion of this offering (the "Notes Conversion");
- the net issuance of 751,464 shares of our common stock underlying RSUs outstanding under our 2020 Plan that will vest in connection with this offering, after giving effect to the withholding of 296,786 shares of our common stock to satisfy the estimated tax withholding and remittance obligations (based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, and an assumed tax withholding rate of 28.3%) (the "RSU Net Settlement");
- the effectiveness of our amended and restated certificate of formation and the adoption of our amended and restated bylaws, each of which will occur immediately prior to the completion of this offering;
- no exercise by the underwriters of their option to purchase additional shares of common stock; and
- no exercise of outstanding options or settlement of outstanding RSUs except as described above.

The number of shares of our common stock to be issued upon (i) the Preferred Stock Conversion, (ii) the 2025 Warrant Net Exercise, and (iii) the Notes Conversion, in each case, will vary based on the actual initial public offering price per share. In addition, the assumed 28.3% tax withholding rate applicable to the RSU Net Settlement used in this prospectus is an estimated blended withholding rate for all of the RSUs that will vest in connection with this offering. The estimates in this prospectus relating to the RSU Net Settlement and related share withholding may differ from actual results due to, among other things, the actual initial public offering price and other terms of this offering, actual forfeitures through the date of this prospectus, and actual tax withholding rates.

For illustrative purposes, the table below shows the number of shares of our common stock to be issued upon the occurrence of the foregoing transactions, based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, and certain other prices as set forth in the table, and, in each case, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same. We will not know the actual initial public offering price and, as a result, the final number of shares of common stock to be issued in these transactions or the total number of shares of common stock to be outstanding immediately after this offering, until the determination of the initial public offering price and other terms of this offering at pricing.

| Initial Public Offering Price | Number of Shares of Common Stock to be Issued Upon the Preferred Stock Conversion, the 2025 Warrant Net Exercise, and the Notes Conversion | Common Stock to be Outstanding Immediately After this Offering |
|---|---|---|
| $16.00 | 244,181,083 | 303,699,490 |
| $17.00 | 237,591,430 | 297,109,837 |
| $18.00 | 231,713,573 | 291,231,980 |
| $19.00 | 226,438,213 | 285,956,620 |
| $20.00 | 221,677,246 | 281,195,653 |

## SUMMARY CONSOLIDATED FINANCIAL AND OTHER DATA

The following tables set forth a summary of our historical consolidated financial and other data as of, and for the periods ended on, the dates indicated. The summary consolidated statements of operations data for the years ended December 31, 2024 and 2023 and the summary consolidated balance sheet data as of December 31, 2024 are derived from our audited consolidated financial statements and related notes included elsewhere in this prospectus. The summary consolidated statements of operations data for the three months ended March 31, 2025 and 2024 and the summary consolidated balance sheet data as of March 31, 2025 are derived from our unaudited condensed consolidated financial statements and related notes included elsewhere in this prospectus. In our opinion, the unaudited interim financial statements have been prepared on a basis consistent with our audited financial statements and contain all adjustments, consisting only of normal and recurring adjustments, necessary for a fair presentation of such interim financial statements.

Our historical results are not necessarily indicative of results that may be expected in the future. You should read these data together with our financial statements and related notes appearing elsewhere in this prospectus and the information in the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

| | Three Months Ended March 31, | | Years Ended December 31, | |
|---|---|---|---|---|
| | 2025 | 2024 | 2024 | 2023 |
| | (in thousands, except share and per share data) | | | |
| Weighted-average shares used to compute net loss per share attributable to common shareholders, basic and diluted[1] | 35,623,042 | 35,313,037 | 35,496,832 | 34,942,691 |
| Pro forma net loss per share attributable to common shareholders, basic and diluted (unaudited)[1][2] | $ (0.37) | | $ (3.20) | |
| Weighted-average shares used to compute pro forma net loss per share attributable to common shareholders, basic and diluted (unaudited)[1][2] | 273,965,936 | | 273,839,726 | |

(1) See Note 12 to our consolidated financial statements included elsewhere in this prospectus for an explanation of the method used to calculate our historical basic and diluted net loss per share attributable to common shareholders and the weighted-average number of shares of common stock used in the computation of these per share amounts.

(2) Gives effect to (i) the Warrant Net Exercises, (ii) the Series E and F Issuance, (iii) the Preferred Stock Conversion, (iv) the issuance of the 2025 Convertible Notes and the related Notes Conversion, (v) the RSU Net Settlement, and (vi) the reduction of the compound derivative liability bifurcated from the 2023 Term Loan. The following table sets forth the computation of our unaudited pro forma basic and diluted net loss per share, which does not include shares being offered in this offering:

| | Three Months Ended March 31, 2025 | Year Ended December 31, 2024 |
|---|---|---|
| | (in thousands, except share and per share data) | |
| **Numerator:** | | |
| Net loss attributable to common shareholders | $ (127,043) | $ (378,257) |
| Pro forma adjustment related to deemed dividend from Series C and D redeemable convertible preferred stock from the triggering of down rounding[a] | — | (573,734) |
| Pro forma adjustment to record stock-based compensation expense related to RSUs for which the performance-based vesting conditions will be satisfied in connection with this offering | — | (19,689) |
| Other miscellaneous pro forma adjustments[b] | — | (1,295) |
| Pro forma adjustment to record the reduction of fair value of derivative liability associated with the 2023 Term Loan[c] | — | 17,451 |
| Pro forma adjustment to reverse the adjustments of Series C and D redeemable convertible preferred stock to redemption value | 24,462 | 96,367 |
| Pro forma adjustment related to the reversal of the change in fair value of derivative liabilities | — | (11,393) |
| Pro forma adjustment related to the reversal of the change in fair value of warrant liabilities | — | (7,091) |
| Pro forma net loss | $ (102,581) | $ (877,640) |
| **Denominator:** | | |
| Weighted-average shares used in computing net loss per share attributable to common shareholders, basic and diluted | 35,623,042 | 35,496,832 |
| Pro forma adjustment to reflect the Preferred Stock Conversion | 229,694,421 | 229,694,421 |
| Pro forma adjustment to reflect the Series C Warrant Net Exercise | 4,407,689 | 4,407,689 |
| Pro forma adjustment to reflect the 2025 Warrant Net Exercise | 968,316 | 968,316 |

| | Three Months Ended March 31, 2025 | Year Ended December 31, 2024 |
|---|---|---|
| | (in thousands, except share and per share data) | |
| Pro forma adjustment to reflect the Notes Conversion | 2,521,004 | 2,521,004 |
| Pro forma adjustment to reflect the RSU Net Settlement | 751,464 | 751,464 |
| Weighted-average shares used in computing pro forma net loss per share, basic and diluted | 273,965,936 | 273,839,726 |
| Pro forma net loss per share, basic and diluted[(d)] | $ (0.37) | $ (3.20) |

(a) Gives effect to conversion price adjustments for the Series C preferred stock and Series D preferred stock, in each case based on an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus. The change in the fair value of the shares of preferred stock triggered by such conversion price adjustments is considered a deemed dividend and thus excluded from the computation of pro forma net loss per share attributable to common shareholders.

(b) Gives effect to (i) the cash bonus payable upon a successful initial public offering, as further described in the section titled “Executive Compensation,” and (ii) expenses associated with the issuance of the 2025 Warrants.

(c) Gives effect to the reduction of the fair value of the compound derivative liability bifurcated from the 2023 Term Loan. The fair value is mainly driven by the prepayment amortization feature of the 2023 Term Loan, which, upon consummation of this offering, has a de minimis value.

(d) Each $1.00 increase in the assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would decrease the pro forma net loss per share for the three months ended March 31, 2025 and the year ended December 31, 2024, by approximately $0.01 and $0.14, respectively. Each $1.00 decrease in the assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase the pro forma net loss per share for the three months ended March 31, 2025 and the year ended December 31, 2024, by approximately $0.01 and $0.13, respectively. Pro forma adjustments in this footnote are illustrative only and will be adjusted based on the actual initial public offering price and other terms of this offering determined at pricing.

| | As of March 31, 2025 | | |
|---|---|---|---|
| | Actual | Pro Forma[(1)] | Pro Forma As Adjusted[(2)(3)] |
| | (in thousands) | | |
| **Consolidated Balance Sheet Data**: | | | |
| Cash, cash equivalents, and restricted cash | $ 32,704 | $ 185,531 | $ 546,292 |
| Working capital[(4)] | 8,679 | 157,516 | 517,696 |
| Total assets | 291,583 | 444,410 | 799,349 |
| Total liabilities | 645,335 | 519,292 | 509,631 |
| Redeemable convertible preferred stock | 2,246,113 | — | — |
| Total shareholders’ (deficit) equity | (2,599,865) | (74,882) | 289,718 |

(1) Gives effect to (i) the Warrant Net Exercises, (ii) the Series E and F Issuance, (iii) the Preferred Stock Conversion, (iv) the issuance of the 2025 Convertible Notes and the related Notes Conversion, (v) the RSU Net Settlement, and (vi) the reduction of the compound derivative liability bifurcated from the 2023 Term Loan.

(2) Gives effect to (i) the pro forma adjustments described in footnote (1) above, (ii) the sale by us of 23,529,412 shares of common stock in this offering at an assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us, net of $1.4 million of

offering expenses paid as of March 31, 2025 and (iii) the use of approximately $5.0 million of the net proceeds from this offering to satisfy our anticipated tax withholding and remittance obligations related to the RSU Net Settlement.

(3) Each $1.00 increase (decrease) in the assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) the pro forma as adjusted amount of each of cash, cash equivalents, and restricted cash, working capital, total assets, and total shareholders' (deficit) equity by approximately $21.9 million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. Similarly, each increase (decrease) of 1,000,000 in the number of shares of common stock we are offering would increase (decrease) the pro forma as adjusted amount of each of cash, cash equivalents, and restricted cash, working capital, total assets, and total shareholders' (deficit) equity by approximately $15.8 million, assuming the assumed initial public offering price per share remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. Pro forma adjustments in this footnote and the footnotes above, as well as the related information in the balance sheet data, are illustrative only and will be adjusted based on the actual initial public offering price and other terms of this offering determined at pricing. The pro forma as adjusted cash, cash equivalents, and restricted cash amount includes the employer portion of the withholding tax obligation of approximately $0.2 million related to the RSU Net Settlement at the assumed initial public offering price of $17.00 per share, which is the midpoint of the price range set forth on the cover page of this prospectus.

(4) We define working capital as current assets, less current liabilities. See our consolidated financial statements and related notes included elsewhere in this prospectus for further details regarding our current assets and current liabilities.

**Non-GAAP Financial Measures**

| | Three Months Ended March 31, | | Years Ended December 31, | |
|---|---|---|---|---|
| | 2025 | 2024 | 2024 | 2023 |
| | (in thousands) | | | |
| Adjusted EBITDA | $ (36,216) | $ (70,062) | $ (189,566) | $ (255,309) |
| Free cash flow | $ (34,027) | $ (75,663) | $ (253,643) | $ (298,419) |

We use Adjusted EBITDA and free cash flow, financial measures not calculated in accordance with generally accepted accounting principles in the United States ("GAAP") to supplement our consolidated financial statements, which are presented in accordance with GAAP. We believe the non-GAAP financial measures we use, Adjusted EBITDA and free cash flow, are useful in evaluating our performance and liquidity. Our non-GAAP financial measures have limitations as analytical tools, however, and you should not consider them in isolation or as substitutes for analysis of our results as reported under GAAP.

We define Adjusted EBITDA as net loss, adjusted to exclude interest income, interest expense, changes in fair value of financial instruments, other expense, net, the provision for (benefit from) income taxes, depreciation and amortization, and stock-based compensation expense. We use Adjusted EBITDA in conjunction with GAAP measures as part of our overall assessment of our performance, including the preparation of our annual operating budget and quarterly forecasts, to evaluate the effectiveness of our business strategies, and to communicate with our board of directors concerning our financial performance. We believe Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management team and board of directors. Adjusted EBITDA provides a useful measure for period-to-period comparisons of our business, as it removes the effect of certain non-cash expenses and certain variable charges. We define free cash flow as net cash used in operating activities less purchases of property and equipment. We believe free cash flow is a useful measure of liquidity that provides an additional basis for assessing our ability to generate cash. For additional information regarding Adjusted EBITDA and free cash flow, including a reconciliation of these measures to the most directly comparable financial measure calculated in accordance with GAAP, see the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures."

## RISK FACTORS

*Investing in our common stock involves risk. You should carefully consider the risks described below, as well as the other information in this prospectus, including our financial statements and the related notes and the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this prospectus, before deciding whether to invest in our common stock. This prospectus also contains forward-looking statements that involve risks and uncertainties. See the section titled "Special Note Regarding Forward-Looking Statements." The occurrence of any of the events or developments described below could harm our business, financial condition, results of operations, and growth prospects. In such an event, the market price of our common stock could decline, and you may lose all or part of your investment. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations.*

### Risks Related to Our Business and Industry

***The precision medicine industry is highly competitive and subject to rapid change.***

Our industry is highly competitive and characterized by rapid changes, including technological and scientific breakthroughs, frequent new product introductions and enhancements, and evolving industry standards. Our future success will depend on our ability to compete successfully and keep pace with the evolving needs of physicians, patients, and our biopharma partners on a timely and cost-effective basis and to pursue new market opportunities that develop as a result of technological and scientific advances. In recent years, there have been numerous advances in technologies relating to the diagnosis and treatment of cancer and advances in methods used to analyze large amounts of genomic information. We must continuously enhance our proprietary profiling and signature offerings and develop new solutions in a cost-effective way to achieve meaningful innovation in precision oncology and other chronic disease states. If we do not update our suite of solutions to reflect new scientific knowledge or technological advancements, including as they relate to precision medicine, therapeutic developments, or relevant validation studies or clinical trials, adoption and use of our current solutions and any new solutions we may develop could decline, which would adversely affect our business, financial condition, and results of operations.

Moreover, as an AI TechBio company that has experienced significant recent growth in the rapidly evolving field of precision medicine, our current business, our future success, and the risks and challenges we may encounter can be difficult to evaluate or accurately predict. If we fail to address the risks and difficulties that we face, including those described elsewhere in this "Risk Factors" section, our business, financial condition, and results of operations could be adversely affected. We have encountered in the past, and expect to encounter in the future, risks and difficulties frequently experienced by companies operating in rapidly evolving fields. If our assumptions regarding these risks and difficulties, which we use to plan and operate our business, are incorrect or change, or if we do not address these risks and difficulties, our results of operations could differ materially from our or your expectations, and our business, financial condition, and results of operations could be adversely affected.

***We have incurred significant losses since inception, expect to incur losses in the future, and may not be able to generate sufficient revenue to achieve and maintain profitability.***

We have incurred significant losses since our inception. For the years ended December 31, 2024 and 2023, we incurred net losses of $281.9 million and $341.4 million, respectively. For the three months ended March 31, 2025 and 2024, we incurred net losses of $102.6 million and $111.0 million, respectively. As of March 31, 2025, we had an accumulated deficit of $2.6 billion. To date, we have financed our operations principally from the sale of convertible preferred stock, the incurrence of indebtedness, and revenue from molecular profiling and pharma R&D services. Over the last 17 years, we have devoted significant resources towards developing our current portfolio that consists of tissue- and blood-based profiling solutions, building our multi-modal clinico-genomic datasets, expanding our operational capacity, and strengthening our AI/ML-driven data analysis capabilities. We also devote significant resources to clinical and regulatory initiatives to obtain marketing authorization, sales and marketing activities, and R&D activities. We anticipate incurring significant costs to continue developing and commercializing our solutions.

In addition, because of the various risks and uncertainties associated with developing and commercializing our solutions, we are unable to predict the extent of future costs that may impact our prospects for profitability. Our future expenses will depend, in part, on the level of our expenditures and our ability to generate revenue at scale. We expect to continue to incur significant expenses and operating losses for the foreseeable future if and as we, among other things:

- attract, hire, and retain qualified personnel;
- continue our R&D activities and scale our R&D infrastructure;
- expand our laboratory capacity and operating capabilities, including completing the build-out of our laboratory facility in Irving, Texas;
- further build our sales, marketing, and distribution infrastructure;
- continue to invest in the expansion and enrichment of our clinico-genomic datasets and related analysis capabilities;
- seek marketing authorization that may be necessary or desired for our solutions;
- obtain, maintain, protect, and enforce our intellectual property portfolio, including intellectual property obtained through license agreements;
- meet the requirements and demands of being a public company; and
- defend against any claims or other lawsuits related to our solutions or otherwise.

Our expenses could increase beyond expectations if we are required by the FDA or other regulatory agencies to delay the launch of any new solutions, narrow or change our intended use or product claims, modify or expand our clinical trials or to perform additional clinical trials, either pre- or post-approval, in addition to those that we currently anticipate.

We will also need to generate significant additional revenue to achieve and then sustain profitability, and even if we achieve profitability, we cannot be sure that we will remain profitable for any substantial period of time. While we have commercially launched MI Cancer Seek, a new WES/WTS NGS assay, in the United States and seek to drive its increased adoption, and also plan to capitalize on the potential of Caris Assure applications for early detection, MRD tracking, and treatment monitoring and in chronic disease states beyond oncology, we cannot assure you that we will successfully be able to do so as planned, if at all, and our failure to do so may prevent us from generating increased revenue. Our failure to achieve or maintain profitability could negatively impact the value of our common stock.

***Our current or future solutions may not achieve or maintain sufficient commercial market acceptance.***

The commercial success of any of our solutions, including MI Profile and Caris Assure, or solutions that are marketed in the future, will depend upon the degree of commercial market acceptance, including by government payers, insurance companies, integrated health systems, healthcare providers, patients, biopharma companies and other third-party payers. The degree of market acceptance of our solutions will depend on a number of factors, including:

- the performance and clinical utility of such solutions as demonstrated in clinical trials and published in peer-reviewed journals;
- the rate of adoption and/or endorsement of our solutions by clinicians, KOLs, advocacy groups, and biopharma companies;
- the ability of our newer solutions, such as Caris Assure, and solutions that may be marketed in the future, to demonstrate the same performance in real-world intended use populations as in clinical trials or analytical or clinical validation studies;
- the willingness of medical providers to utilize our solutions as they are commercially released;
- the willingness of commercial third-party payers and government payers to cover and reimburse for our solutions;

- the development or introduction of competing products, including the expansion of the capabilities of existing products;
- the market acceptance of existing competitive products, including tests that are currently reimbursed;
- publicity concerning our solutions or competing products; and
- the strength of our marketing and sales support.

We cannot assure you that we will be successful in addressing each of these factors or other factors that might affect the market acceptance of our solutions. Failure to achieve broad market acceptance of our solutions, would harm our business, financial condition, and results of operations. For additional information, see "—Our current revenue is primarily generated from the continued adoption and use of our tissue-based profiling solution, and we are highly dependent on it for our success" and "—Our future success and growth will depend in part on market acceptance and commercial success of our MI Cancer Seek and Caris Assure solutions. We may be unsuccessful in continuing the commercialization of MI Cancer Seek or Caris Assure, which would adversely affect our business, financial condition, results of operations, and growth prospects."

***Our solutions may not perform as expected, and the results of our validation studies or our clinical trials may not support the launch or use of our solutions and may not comply with the requirements, or be replicated in later trials required, for any necessary or desirable marketing authorizations. This could adversely affect our business, financial condition, results of operations, and growth prospects.***

Our success depends on the market and the medical community's confidence that we can provide reliable, high-quality solutions, as well as our ability to complete validation studies and clinical trials and comply with applicable regulatory requirements that would allow us to commercialize our solutions. Our solutions, including MI Cancer Seek, for which we have obtained PMA approval from the FDA, MI Tumor Seek Hybrid, and Caris Assure, may not perform as expected, and the results obtained from our ongoing or future studies and trials may be inconsistent with certain results obtained from our previous studies or trials. In addition, the application of Caris Assure in early detection, MRD tracking, and treatment monitoring, for which we are still collecting preliminary data to support, may not be as effective as we anticipate. If Caris Assure or our other solutions are ineffective or do not consistently perform as expected, either before or after launch, our business, financial condition, results of operations, and growth prospects would suffer.

Our solutions require a number of complex and sophisticated biochemical and bioinformatics processes, many of which are highly sensitive to external factors. An operational or technological failure in one of these complex processes or fluctuations in external variables may result in sensitivity and specificity rates that are lower than we anticipate or that vary between test runs or in a higher than anticipated number of tests that fail to produce consistent results. In addition, we regularly evaluate and refine our AI/ML algorithms and other processes under development. These refinements may inadvertently result in unanticipated issues that may reduce our sensitivity and specificity rates or otherwise adversely affect the performance of our solutions and their results, such that supplemental submissions to the FDA may be required.

We have obtained a PMA approval from the FDA for MI Cancer Seek and may decide to seek FDA approval for Caris Assure and additional solutions, though whether we will do so and the timing thereof is uncertain. The FDA and other regulators may request additional information or require that we generate additional clinical data to support such future approval applications, which could result in delays, increased costs, or other limitations on our ability to receive such approval. Additionally, the FDA included certain conditions of approval and limitations in the PMA approval letter for MI Cancer Seek, namely that we submit data evaluating the effects of interfering substances such as necrotic tissue, melanin, and fatty acids and also conduct a study and submit data regarding formalin-fixed paraffin-embedded block and slide stability duration claims. Our failure to comply with these limitations and conditions could result in the withdrawal of the PMA approval for MI Cancer Seek.

Further, we plan to enhance, iterate, and improve our solutions, scalability, and/or reduce our cost of goods. However, we may not be successful in transitioning our solutions to new or enhanced versions or iterations, or reducing our cost of goods. The improvement of our solutions involves a lengthy and complex process, may require regulatory approval, and we may be unable to commercialize, validate, or improve performance of any of our solutions on a timely basis, or at all. Our failure to successfully develop new and/or improved solutions (including new versions of existing solutions) on a timely basis could adversely affect our business, financial conditions, and results of operation.

Finally, generating the clinical data necessary to validate and support the launch of our solutions and new versions of solutions and subsequently obtain marketing authorization or third-party reimbursement, is time-consuming and carries with it the risk of not yielding the desired results. The performance achieved in our analytical validation studies, clinical trials, or published studies may not be replicated in later studies that may be required to obtain or maintain marketing authorization. For example, limited results from earlier-stage analytical validation studies, such as our analytical validation studies on the use of Caris Assure for early detection, MRD tracking, and treatment monitoring, may not predict results from studies in larger numbers of participants drawn from more diverse populations over a longer period of time. Unfavorable results from ongoing analytical validation studies or clinical trials, or delays in publication of such results, could lead to delays, modifications, or abandonment of ongoing or future studies and trials, or abandonment of a solution development program, or may delay, limit, or prevent marketing authorizations or commercialization of our solutions. In addition, results from such studies and trials may not be consistent with the results from real-world application of our solutions, if commercialized, for a particular care setting.

***Our current revenue is primarily generated from the continued adoption and use of our tissue-based profiling solution.***

Our ability to execute our growth strategy and become profitable is highly dependent on the continued adoption and use of MI Profile, our tissue-based profiling solution, which accounted for 78.2% and 91.0% of our revenue in the years ended December 31, 2024 and 2023, respectively, and 83.9% and 87.9% of our revenue for the three months ended March 31, 2025 and 2024, respectively. Continued adoption and use of MI Profile will depend on several factors, including the prices we charge for our solution, the scope of coverage and amount of reimbursement available from government and third-party payers for our solution, the availability of clinical data that supports the value of MI Profile and the inclusion of MI Profile solutions in industry treatment guidelines. The commercial success of our tissue-based profiling solution depends significantly on its broad adoption and use by oncologists and other physicians. Many physicians and biopharma companies have existing relationships with companies that develop molecular diagnostic tests, including our competitors, and may continue to use their tests instead of MI Profile. Despite our business development efforts, it could be difficult, expensive, and/or time-consuming for physicians and/or biopharma companies to switch diagnostic tests for their products, and MI Profile may not be widely accepted, if at all, which could in turn hinder the rate of adoption and continued use of our solutions. We cannot assure you that MI Profile will continue to maintain or gain market acceptance, and any failure to do so would harm our business, financial condition, and results of operations. Moreover, as we have leveraged the data we have generated to date with MI Profile to develop Caris Assure and other solutions, if the adoption and use of MI Profile wanes or if reliability or other issues with the data we generate with MI Profile are discovered, the further development and future success and growth of Caris Assure and other solutions would be adversely impacted.

***Our future success and growth will depend in part on market acceptance and commercial success of our MI Cancer Seek and Caris Assure solutions. We may be unsuccessful in continuing the commercialization of MI Cancer Seek or Caris Assure, which would adversely affect our business, financial condition, results of operations, and growth prospects.***

MI Cancer Seek, for which we obtained a PMA approval from the FDA in November 2024 and commercially launched in January 2025, is the new WES/WTS NGS assay component of MI Profile, our tissue-based molecular profiling solution for cancer therapy that has generated the majority of our revenue to date. Driving increased adoption among physicians of, and obtaining reimbursement for, MI Cancer Seek are key expected drivers of our growth, particular in the near and medium term. The success of MI

Cancer Seek will depend upon, among other things, the extent to which our recent FDA approval drives increased adoption and use of the solution by physicians as a companion diagnostic tool.

Caris Assure, for which we initiated the broad commercial launch for therapy selection in the first quarter of 2024, ultimately aims to address the entire continuum of cancer treatment. Realizing the potential of Caris Assure across disease states is a key component of our long-term business strategy. The commercial success of Caris Assure for therapy selection and in other applications across the cancer treatment continuum will depend upon, among other things, additional analytical validation studies and clinical trials that demonstrate the effectiveness of Caris Assure, particularly for early detection, MRD tracking, and treatment monitoring, the continued adoption of Caris Assure by physicians, the medical community, patients, and third-party payers, and our ability to successfully run and market Caris Assure in substantial quantities or to manage and expand the required infrastructure to do so, including large-scale laboratory and information technology systems. Maintaining and expanding market acceptance of our solutions, marketing, and laboratory capabilities are expensive and time-consuming. If MI Cancer Seek or Caris Assure is not successfully commercialized, we will not be able to recover the significant investment we have made in developing these solutions, and our business, prospects, financial condition, and results of operations would be harmed.

***If we are unable to support demand for MI Profile, Caris Assure, and any other solutions we develop, including ensuring that we have adequate capacity to meet increased demand, or if we are unable to successfully manage our anticipated growth, our business could suffer.***

As and to the extent the volumes of our current and new solutions continue to grow, we will need to simultaneously increase our capacity for sample intake, storage, and processing enhance our customer service, improve our billing and general processes, expand our internal quality assurance programs, incorporate new equipment, implement new technology systems and processes, expand laboratory capacity, and otherwise extend our operational capabilities to support comprehensive genomic analyses at a larger scale while retaining expected turnaround times. We will also need additional equipment and certified and licensed laboratory personnel to process higher volumes of solutions. We may face difficulties increasing the scale of our operations, including implementing changes in infrastructure or programs or acquiring additional equipment or personnel. As we refine our solutions and develop additional solutions, we may need to bring new equipment on-line, implement new systems, technology, controls and procedures, and hire personnel with different qualifications, licenses, or certifications.

We are also in the process of constructing additional facilities in order to increase capacity, including our laboratory facility in Irving, Texas. We may not be able to complete construction of such facilities and obtain necessary certifications, permits, licenses, and accreditations in a timely or cost-effective manner, or at all. Therefore, we may be unable to support our development and commercial activities in a timely manner, if at all. There is no assurance that any of these increases in scale, expansion of personnel, equipment, software and computing capacities or process enhancements will be successfully implemented, or that we will have adequate resources and facilities to accommodate such required expansion.

The value of MI Profile, Caris Assure, and related solutions will depend, in part, on our ability to perform tests and return test results to providers on a timely basis and at an appropriate quality standard, and on our reputation for such timeliness and quality. If our business grows too quickly, our ability to meet demand for our solutions in a timely and efficient manner could be challenged, and our quality standards or turnaround time may be compromised. Failure to implement necessary procedures, to transition to new equipment or processes, or to hire the appropriate, qualified personnel could result in higher costs of processing, longer turnaround times, declining product quality, deteriorating customer service, an inability to meet market demand, or slower responses to competitive challenges, all of which could make it difficult for us to meet market expectations for our solutions and could damage our reputation and the prospects for our business. There can be no assurance that we will be able to perform tests on a timely basis at a level consistent with demand, that we will be able to maintain the quality of our test results as we scale our commercial operations, or that we will be successful in responding to the growing complexity of our laboratory operations, including the related data analysis requirements.

We expect to add new associates in our Phoenix and Tempe, Arizona and Irving, Texas facilities. We will need additional laboratory scientists, technicians, and other scientific and technical personnel with

different qualifications, licenses, or certifications. As our development plans and strategies develop, and as we transition into operating as a public company, we must add a significant number of additional managerial, operational, financial, and other personnel. Future growth will impose significant added responsibilities on members of management, including:

- identifying, recruiting, integrating, retaining, and motivating employees;
- managing our internal development and commercialization efforts effectively, including creating and maintaining compliant programs and processes, such as a laboratory and manufacturing quality system, and managing the regulatory requirements for our solutions, while adhering with our contractual obligations to contractors and other third parties;
- expanding our operational, human resources, financial and management controls, reporting systems, and procedures; and
- managing the increasing complexity associated with a larger organization and expanded operations.

Our growth may place a significant strain on our management, operating and financial systems, R&D, and our sales, marketing, and administrative resources. As a result of our growth, our operating costs may escalate even faster than planned, and some of our internal systems may need to be enhanced or replaced. If we cannot effectively manage our expanding operations and our costs, we may not be able to successfully commercialize future solutions and grow successfully, and our business could be adversely affected.

***Our results of operations may fluctuate significantly, which makes our future results of operations difficult to predict and could cause our results of operations to fall below expectations or any guidance we may provide.***

Our quarterly and annual results of operations may fluctuate significantly, which makes it difficult for us to predict our future results of operations. These fluctuations may occur due to a variety of factors, many of which are outside of our control, including, but not limited to:

- the level of demand for our solutions, which may vary significantly;
- the timing and cost of, and level of investment in, research, development, regulatory approval, or certification and commercialization activities relating to our solutions, which may change from time to time;
- the volume and customer mix of our solutions;
- the introduction of new solutions or solution enhancements by us or others in our industry;
- coverage and reimbursement policies with respect to our solutions and products that compete with our solutions;
- expenditures that we may incur to acquire, develop, or commercialize additional solutions and technologies;
- changes in governmental regulations or in the status of our regulatory approvals or certifications or applications;
- future accounting pronouncements or changes in our accounting policies;
- developments or disruptions in the business and operations of physicians and our biopharma partners;
- the impact of natural disasters, political instability, including wars, terrorism, and political unrest, epidemics or pandemics, boycotts, and curtailment of trade and other business restrictions; and
- the effects of high inflation or other general market and economic conditions and other factors, including factors unrelated to our operating performance or the operating performance of our competitors.

Additionally, due to the inherent variability and unpredictability of the reimbursement landscape, including related to the amount that payers reimburse us for any of our solutions, when we recognize revenue we estimate the transaction price based on our historical collection experience and on the historical selling price of similar transactions, where applicable, and subsequent changes to the estimate of the transaction price are generally recorded as adjustments to revenue in the period where such changes occur. Both the estimate and any subsequent revision are uncertain and require the use of management's judgment in the estimation of the variable consideration and application of the constraint for such variable consideration. Due to this variability and unpredictability, previously recorded revenue adjustments are not indicative of future revenue adjustments from actual cash collections, which may fluctuate significantly. Moreover, we receive a substantial portion of our revenue from a limited number of third-party commercial payers. If one or more of these payers were to significantly reduce or cease to pay the amount such payer reimburses us for our solutions, or if such payer does not reach or maintain favorable coverage and reimbursement decisions for our solutions, it could have an adverse effect on our business, financial condition, and results of operations. We have experienced situations where commercial payers proactively reduced the amounts they were willing to reimburse for our solutions, and in other situations, payers have determined that the amounts they previously paid were too high and have sought to recover those perceived excess payments by deducting such amounts from payments otherwise being made. For additional information regarding risks associated with the reimbursement landscape, see "—If our solutions, or solutions we develop in the future, do not receive adequate coverage and reimbursement from third-party payers, including government and commercial payers, our ability to expand access to our solutions beyond our existing sales channels, and thus our overall commercial success, will be limited."

The cumulative effects of factors discussed above could result in large fluctuations and unpredictability in our quarterly and annual results of operations. As a result, comparing our results of operations on a period-to-period basis may not be meaningful. Investors should not rely on our past results as an indication of our future performance.

This variability and unpredictability could also result in our failing to meet the expectations of industry or financial analysts or investors for any period. If our results of operations fall below the expectations of analysts or investors or below any guidance we may provide, or if the guidance we provide is below the expectations of analysts or investors, the price of our common stock could decline substantially. Such a stock price decline could occur even when we have met any previously publicly stated guidance we may provide, and which could harm our business, financial condition, and results of operations.

***If we do not have the support of KOLs or if clinical data using our solutions is not published in peer-reviewed journals or is otherwise not well received, it may be difficult to drive adoption and use of our solutions and establish them as a component of the standard of care for patients with cancer.***

As of March 31, 2025, the Caris POA was comprised of 96 members, including 45 NCI-designated comprehensive cancer centers. If these KOLs or others within the broader precision oncology industry determine that our platform, our existing solutions, or other solutions that we develop are not clinically effective, that alternative technologies are more effective, or if they elect to use internally developed products or services, we may see lower demand for our solutions and face difficulty establishing our solutions as an integral component of the applicable standard of care, which would limit our revenue growth and our ability to achieve profitability.

The publication of clinical data using our solutions in peer-reviewed journals is also crucial to our success. We are unable to control when, if ever, results are published, which may delay or limit broad adoption and use of our solutions. Our ability to publish clinical data relating to our solutions in peer-reviewed publications may be limited by many factors, including increased difficulty in obtaining acceptance for publication from journals, conflicts of interest, lack of qualified experts willing to participate in the peer review process, delays in the completion of, poor design of, or lack of compelling data from, validation studies or clinical trials, as well as delays in the review, acceptance, and publication process. If our solutions do not receive sufficient favorable exposure in peer-reviewed publications or are not well received by clinicians, the rate of clinician adoption and use of our solutions and positive reimbursement coverage determinations for our solutions, even if approved with guideline inclusion, could be adversely affected.

***If our solutions, or solutions we develop in the future, do not receive adequate coverage and reimbursement from third-party payers, including government and commercial payers, our ability to expand access to our solutions beyond our existing sales channels, and thus our overall commercial success, will be limited.***

Our revenue and commercial success depend on achieving coverage and reimbursement for assays that comprise MI Profile, Caris Assure, and any solutions we may offer in the future, from third-party payers, including both government and commercial payers. Obtaining approvals from third-party payers to cover our solutions and establishing adequate coding recognition and reimbursement levels is an unpredictable, challenging, time-consuming, and costly process, and we may not always be successful. Coverage determinations from third-party payers may depend on a number of factors, including a payer's determination that a solution is appropriate, medically necessary, and cost-effective. Each payer will make its own decision as to whether to establish a policy or enter into a contract to cover our solutions and the amount it will reimburse for such solutions. In addition, determinations by a payer whether to cover and the amount it will reimburse for our solutions are often made on an indication-by-indication basis. If we are unable to provide payers with sufficient evidence of the clinical utility and validity of our solutions, they may not provide coverage, may provide limited coverage, or may terminate coverage for our solutions, which will adversely affect our revenues and our financial condition. In addition, the fact that one of our solutions has been approved for reimbursement in the past does not guarantee that such solution will remain approved for reimbursement, that the approved reimbursement amount will not be reduced in the future, or that similar or additional solutions will be approved in the future. Moreover, there can be no assurance that any new solutions we launch will be reimbursed at rates that are comparable to the rates that we historically obtained for our existing portfolio or rates that other industry participants receive. Third-party payers may not cover or provide adequate payment for our current or future molecular and other solutions to enable us to maintain past levels of revenue or profitability with respect to such solutions. Further, third-party reimbursement may not be available to enable us to maintain price levels sufficient to realize an appropriate return on investment in the development of our solutions.

Healthcare providers may not order our solutions unless third-party payers cover and provide reimbursement rates for a substantial portion of the price of our solutions. If we are unable to obtain adequate coverage and an acceptable level of reimbursement for our solutions from third-party payers, patients could incur a greater co-insurance, co-payment, and/or deductible obligation. Uninsured patients or patients whose insurance does not cover our solutions may also be forced to pay for our solutions out-of-pocket. Such scenarios could dissuade physicians from ordering our solutions or, if ordered, could result in delay in or decreased likelihood of our collection of payment. We thus believe our revenue and revenue growth will depend on our success in achieving broad coverage and adequate reimbursement for our solutions from third-party payers.

In addition, the coding process used by third-party payers to identify various medical procedures during the billing process is complex, may not adapt well to the types of solutions we offer, and may not enable coverage and adequate reimbursement rates. Current Procedural Terminology ("CPT") coding plays a significant role in how our solutions are reimbursed both from commercial and governmental payers. The CPT code set is maintained by the American Medical Association ("AMA") and includes the Proprietary Laboratory Analyses ("PLA") codes that are used to describe many molecular diagnostic tests. In cases where there is not a specific CPT code to describe a test, or when required by a commercial payer, we bill under an unlisted molecular pathology procedure code or through the use of a combination of single gene CPT codes, depending on the payer. In addition, the Centers for Medicare and Medicaid Services ("CMS") maintains the Healthcare Common Procedure Coding System ("HCPCS") and may assign unique Level II HCPCS code to tests that are not already described by a unique CPT code. New CPT codes are issued annually and new HCPCS codes are issued as frequently as quarterly. In addition to CPT and HCPCS codes, Z-Code Identifiers are used by certain payers, including under MolDX, to supplement CPT codes for our solutions. Our MI Tumor Seek Hybrid solution is reported to Medicare and to some commercial payers using unlisted molecular pathology CPT code 81479 and unique test-specific identifier ("a DEX Z-Code"). Our MI Cancer Seek solution is reported to Medicare and to commercial payers using the 0211U CPT code and a unique DEX Z-Code identifier. Our Caris Assure solution is reported to Medicare and to non-contracted, commercial payers using the 0485U CPT code and a unique DEX Z-Code identifier. Commercial payers sometimes require other codes to be reported for our solutions, and we will bill in accordance with

the respective contract terms. Changes to the codes used to report our solutions to payers may result in significant changes in reimbursement.

Third-party payers are increasingly attempting to contain healthcare costs by limiting both coverage of certain diagnostic tests and the amounts that they will pay for such tests. Payers may also create conditions for coverage or may contract with third-party vendors to manage laboratory benefits, in both cases creating administrative hurdles for ordering physicians and patients that may make our services more difficult to sell. U.S. and foreign governments continue to propose and pass legislation designed to reduce the cost of healthcare. In some foreign markets, the government controls the pricing of many healthcare products. In the United States, we expect that there will continue to be federal and state proposals to implement governmental controls or impose healthcare requirements, which may increase the pressure to reduce spending on genetic testing and comprehensive molecular profiling. In addition, the Medicare program and increasing emphasis on managed care in the United States will continue to put pressure on product pricing. Cost control initiatives could decrease the price that we would receive for any solutions in the future, which would limit our revenue and profitability.

Obtaining approvals from third-party payers to cover our existing and new solutions and establishing adequate coding recognition and reimbursement levels is an unpredictable, challenging, time-consuming, and costly process, and we may not always be successful. If third-party payers do not provide adequate coverage and reimbursement for our solutions, our ability to succeed commercially will be limited.

*Medicare*

Medicare is the single largest U.S. payer and a particularly important payer for many cancer-related laboratory services given the demographics of the Medicare population. Medicare coverage is limited to items and services that are within the scope of a Medicare benefit category that are reasonable and necessary for the diagnosis or treatment of an illness or injury. Medicare coverage criteria that define when items and services are reasonable and necessary are defined in National Coverage Determinations (“NCDs”) made by CMS through an evidence-based process, with opportunities for public participation, and Local Coverage Determinations (“LCDs”) made by Medicare Administrative Contractors (“MACs”) that apply within the specific jurisdictions. Medicare’s NCD for NGS (NCD 90.2), first established in 2018 and subsequently updated in 2020, provides national Medicare coverage for certain molecular diagnostic tests (1) performed in a laboratory certified by the Clinical Laboratory Improvement Amendments of 1988 (“CLIA”), (2) ordered by a treating physician, (3) the patient meets certain clinical and treatment criteria, including having recurrent, relapsed, refractory, metastatic, or advanced stages III or IV cancer, (4) the test is approved or cleared by the FDA as a companion IVD for an FDA-approved or -cleared therapeutic for use in that patient’s cancer, and (5) results are provided to the treating physician for management of the patient using a report template to specify treatment options. The NGS NCD also provides discretion to the MACs to provide local coverage of other NGS tests for cancer patients only when the test is performed by a CLIA-certified laboratory, ordered by a treating physician and the patient meets the same clinical and treatment criteria required of nationally covered NGS tests under the NGS NCD. Palmetto GBA is the MAC responsible for administering MolDX, which issues coverage determinations applicable to molecular diagnostic tests within the scope of the program, including for molecular assays that are LDTs. Our MAC for the Phoenix laboratory locations is Noridian, and Noridian relies on MolDX to make local coverage and pricing determinations relating to molecular testing. To achieve coverage under MolDX, laboratories must apply for and obtain a DEX Z-Code that is unique to the laboratory’s specific test and must also submit a technical assessment to demonstrate analytical and clinical validity, and clinical utility at a level that meets the Medicare reasonable and necessary requirement. Analytical validity relates to technical performance, such as that an assay accurately and reliably measures a specific feature. Clinical validity means whether a test can accurately identify, measure, or predict a clinical condition or characteristic in patients.

*Molecular Diagnostic Tests: Tissue- and Blood-Based Solutions*

We have received DEX Z-Codes and MolDX technical assessments for our MI Cancer Seek, Caris Assure, and MI Tumor Seek Hybrid solutions.

We received a PMA approval for MI Cancer Seek from the FDA in November 2024 and commercially launched the solution in January 2025. We have obtained Medicare coverage under the NGS NCD for MI Cancer Seek for CPT code 0211U at $8,455 under the CLFS.

Our MI Tumor Seek Hybrid solution is covered for solid tumor testing as allowable under the NGS NCD and related LCD and are reported to Medicare with unlisted molecular pathology CPT code 81479 and the unique DEX Z-Code identifier issued by MolDX. MI Tumor Seek Hybrid is covered by Medicare as of August 3, 2022, with current MolDX pricing of $3,500.

Our Caris Assure solution is currently reported to Medicare using a PLA code, CPT code 0485U, and a unique DEX Z-Code identifier issued by MolDX. Caris Assure is covered for therapy selection by Medicare as of December 8, 2023 for Comprehensive Genomic Profiling from ctDNA of patients with recurrent, relapsed, refractory, metastatic, or advanced solid tumors who are seeking treatment, and for whom tissue-based, comprehensive genomic profiling (“CGP”) is infeasible (for example, quantity not sufficient for tissue-based CGP or invasive biopsy is medically contraindicated), with current MolDX pricing of $3,649. In November 2024, CMS determined to price Caris Assure for therapy selection using the “Gapfill” method. There is no certainty regarding the pricing that we will obtain for Caris Assure during the Gapfill process. For additional information, see “Business—Government Regulation—Coverage and Reimbursement—Coverage and Reimbursement in the United States.”

*Immunohistochemical Tests*

As part of our MI Profile solution, we perform certain third-party IHC tests. Medicare coverage and payment for these tests is under the Molecular Pathology Procedures Billing and Coding Article, with payment amounts assigned to specific HCPCS and CPT codes.

*Protecting Access to Medicare Act*

Medicare payment for clinical diagnostic laboratory tests (“CDLTs”) is generally made under the CLFS based on payment rates that are assigned to specific HCPCS or CPT codes. Under the Protecting Access to Medicare Act of 2014 (“PAMA”), laboratories that meet certain requirements related to volume and type of Medicare revenues are required to report to CMS, beginning in 2017 and every three years thereafter (or annually for “advanced diagnostic laboratory tests” (“ADLTs”)), their private payer payment rates and volume for each test they perform that is reported with a specific HCPCS code (defined by PAMA to exclude miscellaneous or unlisted codes). ADLTs are subject to separate reporting and payment requirements under PAMA. New ADLTs are paid at a rate equal to their actual list charge during an initial period of three calendar quarters, after which CLFS payment is based on the weighted median of private payer rates, which must be reported annually for ADLTs. We are subject to these reporting requirements under PAMA for any solution we perform that is not reported with a miscellaneous HCPCS or CPT code, including the third-party IHC tests we perform, and for any profiling solutions that commercial payers currently require us to report using a HCPCS code that has been identified by CMS as subject to PAMA reporting requirements. In addition, MI Cancer Seek, which is reported with PLA code 0211U, Caris Assure, which is reported using PLA Code 0485U, and any other solution for which we obtain a specific HCPCS or CPT code, will be subject to these reporting requirements in future PAMA reporting cycles, and that the Medicare CLFS payment rates for such solutions will be calculated in the future based on our private payer rates. While we do not currently have ADLT status for any of our solutions, we may seek ADLT status for one or more of our solutions in the future. If we are successful in obtaining such ADLT status, any solution for which we obtain ADLT status will be subject to the PAMA reporting requirements and pricing methodology as an ADLT.

Congress passed legislation that delayed data reporting requirements for CDLTs that are not ADLTs and further delayed the phase-in of payment reductions under the CLFS from private payer rate implementation. Any reductions to reimbursement rates resulting from the new methodology are limited to 0% in 2025 and 15% per test per year in each of 2026 through 2028. The subsequent data reporting periods for CDLTs that are not ADLTs will occur in three-year cycles, with the next cycle beginning in 2026. CLFS rates for CDLTs will be updated every three years, and for ADLTs will be updated annually. For many tests and/or laboratories, the result of the PAMA pricing methodology has been lower pricing and reimbursement. As a result, our Medicare CLFS pricing for any solutions that may be subject to PAMA reporting requirements in the future could be negatively impacted by PAMA. In addition, private payer payment levels have more significance in setting Medicare reimbursement and, therefore, future Medicare payments may fluctuate more often and become subject to the willingness of private payers to recognize

the value of diagnostic tests generally and any given test individually. Given the many uncertainties built into PAMA's price-setting process, we cannot predict how payments we receive under the CLFS, and thus our revenue, may change from year to year.

In addition to the reporting requirements and pricing methodology described above, PAMA codified Medicare coverage rules for laboratory tests by requiring any local coverage determination to be made following the local coverage determination process. PAMA also authorizes CMS to consolidate coverage policies for clinical laboratory tests among one to four laboratory specific MACs. These same contractors may also be designated to process claims if CMS determines that such a model is appropriate. It is unclear whether CMS will proceed with contractor consolidation under this authorization.

*Molecular Signature Tests, and Screening and Early Detection Intended Uses for Our Solutions*

Our proprietary molecular signature tests, GPSai and FOLFIRSTai, as well as early detection indications for our blood and tissue-based profiling solutions, are not currently covered by Medicare. Obtaining Medicare coverage for these molecular signatures would require significant investments and may ultimately be unsuccessful or may take several years to achieve.

In addition, we are developing screening capabilities for Caris Assure for MRD tracking and treatment monitoring in colorectal cancer ("CRC"), breast cancer, lung cancer, and other indications. On January 19, 2021, CMS released an NCD that covers future tests for CRC screening if and when such screening tests have FDA approval and meet pre-specified CMS criteria. In addition, MolDX LCDs provide coverage for MRD for CRC, breast cancer, lung cancer, and other indications when applicable coverage criteria are satisfied. While this NCD and applicable LCDs may provide a pathway to coverage of Caris Assure in CRC and other indications under Medicare if applicable coverage criteria are satisfied, there is no assurance that we will be successful in completing the required studies, trials, or publications or obtaining FDA approval, or obtaining Medicare coverage even if we are successful in obtaining FDA approval, and if we are not successful, our business, financial condition, and results of operations would be harmed.

*Commercial Payers and Other Payers*

Our commercial success also depends on achieving acceptable coverage and reimbursement for our solutions from commercial payers. When we contract with a payer as a participating provider, reimbursements by the payer are generally made pursuant to a negotiated fee schedule and are limited to only covered indications, and in many cases require prior authorization. Becoming a participating provider can result in higher reimbursement amounts for covered uses of our solutions and, potentially, no reimbursement for non-covered uses identified under the payer's medical policies or the contract. Although we are a participating provider with many commercial payers, certain payers may not cover based on existing medical policy and may treat our solutions or solutions that we develop in the future as experimental and investigational or import restrictive coverage criteria. If we are not successful in obtaining coverage from such payers, or if other payers issue non-coverage policies, our business, financial condition, and results of operations could be adversely affected.

Because current codes applicable to our solutions are not always test-specific, each insurance claim will have different submission criteria, including appending our DEX Z-Code, and typically must be examined to determine what test was provided, whether the test was appropriate and medically necessary, and whether payment should be rendered, which may require progress notes, medical records, or a letter of medical necessity from the ordering physician. This process can result in a delay in processing the claim, a lower reimbursement amount or denial of the claim. As a result, obtaining approvals from third-party payers to cover our solutions and establishing adequate reimbursement levels is an unpredictable, challenging, time-consuming, and costly process, and we may never be successful in obtaining such approvals.

Some payers have implemented, or are in the process of implementing, laboratory benefit management programs, often using third-party benefit managers to manage these programs. The stated goals of these programs are to help improve the quality of outpatient laboratory services, support evidence-based guidelines for patient care and lower costs. The impact on laboratories, such as ours, of active laboratory benefit management by third parties is unclear, and we expect that it would have a negative impact on our revenue in the short term. Payers may resist reimbursement for our solutions in favor of less

expensive tests, require pre-authorization for our solutions, or impose additional pricing pressure on and substantial administrative burden for reimbursement for our solutions. We expect to continue to focus substantial resources on increasing adoption of, and coverage and reimbursement for, our current solutions and any future solutions we may develop. We believe it may take several years to achieve broad coverage and adequate contracted reimbursement with a majority of payers for our solutions. However, we cannot predict whether, under what circumstances, or at what price levels payers will cover and reimburse our solutions. If we fail to establish and maintain broad adoption of, and coverage and reimbursement for, our solutions, our ability to generate revenue could be harmed and our business, financial condition, and results of operations could be adversely affected.

Even if we establish relationships with commercial payers to provide our future solutions at negotiated rates, such agreements would not obligate any healthcare providers to order our solutions or guarantee that we would receive reimbursement for our solutions from these or any other payers at adequate levels. Thus, these payer relationships, or any similar relationships, may not result in acceptable levels of coverage and reimbursement for our solutions, or meaningful increases in the number of billable tests we perform. We believe it may take several years to achieve coverage and adequate reimbursement for our solutions with a majority of third-party payers, including with those payers offering negotiated rates. In addition, we cannot predict whether, under what circumstances, or at what payment levels payers will cover and reimburse for our solutions. In addition to the available Medicare coverage, we plan to market Caris Assure for early detection, MRD tracking, and treatment monitoring, as well as other solutions that we are developing or may develop in the future, to large self-insured employers, commercial insurance plans, certain physician directed channels, concierge medicine and executive health programs, and innovative health systems. Additionally, a third-party payer’s decision to provide coverage for a product does not imply that an adequate reimbursement rate will be approved. Further, coverage policies and third-party reimbursement rates may change at any time. Even if favorable coverage and reimbursement status is attained, less favorable coverage policies and reimbursement rates may be implemented in the future. If we fail to establish and maintain broad-based coverage and reimbursement for certain solutions, our ability to expand access to our solutions, generate increased revenue, and grow our clinical case volume and customer base for such solutions will be limited and our overall commercial success may be limited.

***Our billing, collections, and claims processing activities are complex and time-consuming, and any delay in transmitting and collecting claims or failure to comply with applicable billing requirements could have an adverse effect on our future revenue.***

Depending on the billing arrangement and applicable law, we bill and expect to bill various payers, such as governmental payers, insurance companies, hospitals, and patients, which may each have different billing requirements. We may face increased risk in our collection efforts, including long collection cycles and the risk that we never collect at all, either of which could adversely affect our business, financial condition, and results of operations.

Our failure to timely submit claims for our solutions to payers or failure to comply with applicable billing requirements could have an adverse effect on our revenue and our business, and could result in our inability to receive payment for our services or in attempts by private payers and state and federal healthcare programs, such as Medicare and Medicaid, to recover payments already made. Submission of claims in violation of billing requirements and applicable laws and regulations can result in recoupment of payments already received, substantial civil monetary penalties, and exclusion from state and federal health care programs, and can subject us to liability under the federal False Claims Act (the “FCA”) and similar laws. For example, in March 2025, we received a Civil Investigative Demand (“CID”) from the DOJ in connection with an investigation under the False Claims Act regarding our compliance with Medicare's date of service rule (also referred to as the 14-day rule). For additional information, see “ —We have been, are currently, and in the future may be the subject of government investigations, claims, audits, whistleblower and payer audits, overpayment and recoupment efforts and other litigation in the course of our business that could adversely affect our business and financial statements” and “Business—Legal Proceedings.” The failure to report and return an overpayment to the Medicare or Medicaid program within 60 days of identifying its existence can also give rise to liability under the FCA. Further, a government agency could attempt to hold us liable for causing the improper submission of claims by another entity for services that we performed if we were found to have knowingly participated in the arrangement at issue.

In addition, our claims for reimbursement may be denied and we may have to appeal such denials in order to get paid. Such appeals may not result in payment and can be time-consuming and costly. Moreover, payers often perform audits of historically paid claims and regularly attempt to recoup funds years after the funds were initially distributed if the payers believe the funds were paid in error or determine that our solutions were medically unnecessary. If a payer's audit of our claims results in a negative finding, and we are unable to reverse the finding through appeal or subsequent litigation, any subsequent recoupment could have an adverse effect on our revenue. Additionally, in some cases commercial payers for whom we are not a participating provider may elect at any time to review claims previously paid and determine the amount they paid was excessive. In these situations, the payer typically notifies us of its decision and then offsets the amount it determines to be overpaid against amounts it owes us on current claims. We may not have a mechanism to dispute these retroactive adjustments, and we cannot predict when, or how often, a payer might engage in these reviews. We have been, are currently, and may in the future be, subject to overpayment demands, recoupment efforts, and related disputes from or with payers, managed care plans, and government healthcare programs relating to the billing and coding of our solutions.

Furthermore, we maintain financial assistance programs under which we assess patient financial need and offer to provide solutions at a discount, or at no cost, to certain eligible patients. These practices may result in scrutiny of our financial assistance programs by governmental and commercial payers and could result in recoupment actions or termination of coverage of our solutions, as well as scrutiny under health care fraud and abuse laws. For additional information, see "—We have been, are currently, and in the future may be the subject of government investigations, claims, audits, whistleblower and payer audits, overpayment and recoupment efforts and other litigation in the course of our business that could adversely affect our business and financial statements" and "Business—Legal Proceedings."

We currently handle our own billing and coding for our solutions but have initiated the process of transitioning certain of our billing and coding software and other operations to a vendor for revenue cycle management services. Our business, financial condition, and results of operations may be affected by our ability to successfully transition these functions and the ability of our vendor to timely, accurately, and appropriately code and bill claims and collect payments in compliance with the stringent billing, coding and documentation requirements imposed by government healthcare programs and other payers. Terminating or transitioning arrangements with revenue cycle management vendors could result in additional costs and a risk of operational problems, delays in collections from payers, potential errors and possible control issues during the termination and transition processes, any of which could adversely affect our business, financial condition, and results of operations.

***We rely on a limited number of third-party suppliers or, in many cases, sole suppliers, for some of our next-generation sequencers, lab materials, reagents, and supplies, and we may not be able to find replacements or immediately transition to alternative suppliers if necessary.***

We rely on Illumina, Inc. ("Illumina") as the sole supplier of NGS instruments and the associated sequencing reagent kits for our solutions. Illumina is also the sole provider of maintenance and repair services for these sequencing instruments. Without access to these sequencers, we may be unable to run our solutions and commercialize our solutions. Additionally, we rely on several sole suppliers, including, among others, Roche Diagnostics Corporation ("Roche"), Matsunami Glass USA ("Matsunami Glass"), and Agilent Technologies, Inc. ("Agilent"), for certain lab materials, reagents, and supplies. If we do not have timely access or access to sufficient quantities of these lab materials, reagents, and supplies, we may be unable to run our solutions and commercialize our solutions. We also rely on several sole suppliers, or manufacturers, for blood collection tubes, including the cfDNA PAXgene tubes for use with liquid biopsy profiling, for total nucleic acid extraction kits, and for the NGS panels and library preparation kits we use. Given the specialized function of certain instruments and reagents, suitable replacements may not be available if a product is discontinued or the product specification undergoes substantial changes due to their own external competition or otherwise. This may significantly delay our ability to continue to develop and commercialize any other future commercial products. All changes to instruments, associated software and reagents will undergo a risk evaluation to determine the level of validation required per the product regulatory status and may require supplementary submissions to, and approval of, regulatory agencies such as the FDA. Whether transitioning to a new supplier, instrument or reagent, the process is likely to be time-consuming, expensive and could affect test performance metrics.

We have obtained a PMA approval from the FDA for MI Cancer Seek and may decide to seek FDA approval for Caris Assure and additional solutions. We do not manufacture the instruments or reagents used with our solutions, nor do we control such process, and we rely on external suppliers to maintain development and commercialization activities. The molecular testing performed by us is highly complex and requires specialized instruments and reagents, some of which are considered critical and could not be substituted without significant impact to our operations. Any failures or delays in negotiating appropriate agreements with our suppliers on reasonable terms, or their inability to obtain any required marketing authorizations, may increase our costs or delay or prevent us from obtaining or maintaining FDA marketing authorization of the related solutions.

Our current suppliers may also discontinue or substantially change the specification of products that we use or intend to use in our solutions. We believe there are few other manufacturers that are currently capable of supplying and servicing the equipment and materials necessary for our laboratory operations, including certain instruments, components, consumables, and reagents. Transitioning to a new supplier for this equipment or these materials would be time-consuming and expensive, could result in interruptions in or otherwise affect the performance specifications of our laboratory operations and sample processing or could require that we revalidate our solutions and could require a new submission to the FDA and other regulatory bodies to authorize such changes for any of our solutions that have received FDA approval. We also cannot guarantee that we will appropriately prioritize or select alternative suppliers, where necessary. In addition, we do not have written supply agreements with certain of our suppliers, including Agilent, Matsunami Glass, and PAXgene, and instead purchase certain products on a purchase order basis, which exposes us to potential price increases and termination of supply without notice or recourse. We cannot guarantee a consistent source of supply and cannot assure you that any efforts to enter into written agreements with our suppliers will be successful. The use of equipment or materials provided by a replacement supplier could require us to alter our laboratory operations and sample collection and processing and related procedures. Moreover, replacement instruments and associated reagents, tubes, and panels that meet our quality control and performance requirements may not be available at all, or may not be available on reasonable terms or in a timely manner. If we encounter delays or difficulties in securing, reconfiguring, or revalidating the equipment, reagents, and other materials that we require for our solutions, laboratory operations and same collection and processing, in particular for those products that are sole sourced, we would likely face significant disruptions or delays in commercializing our solutions and our business, financial condition, results of operations, and growth prospects would be adversely affected.

***If we fail to obtain additional financing, we may be unable to execute on our business strategies and our growth prospects could be harmed.***

Our operations have required substantial amounts of cash since our inception. The development of our solutions are expensive, and we expect to continue to spend substantial amounts as we continue to enhance our solutions, broaden the applications of our existing solutions, and develop new solutions. In addition, obtaining any necessary or desirable marketing authorizations for our solutions will require substantial additional funding.

We may consider raising additional capital in the future to expand our business, meet existing obligations, pursue acquisitions or strategic investments, take advantage of financing opportunities, or for other reasons, including to:

- increase our sales and marketing efforts to drive market adoption of our current solutions and address competitive developments;
- fund development and marketing efforts of new solutions or any other future solutions;
- expand our technologies into other types of cancer management and detection solutions for other chronic disease states;
- acquire, license, or invest in our existing and future technologies;
- acquire or invest in complementary businesses or assets; and
- finance capital expenditures and general and administrative expenses.

As of March 31, 2025, we had $31.2 million of cash and cash equivalents and $2.2 million of short-term marketable securities. We could use our available capital resources sooner than we expect, including due to changing circumstances or those beyond our control that may cause us to increase our spending significantly faster than we anticipate, requiring us to raise additional funds sooner than we anticipate.

We will require additional capital for the development and commercialization of MI Cancer Seek, Caris Assure, Caris ChromoSeq, and the development of additional solutions. Our future capital requirements depend on many additional factors, including:

- the cost of development and commercialization activities, including marketing and sales, for our solutions;
- our ability to achieve revenue growth;
- the cost related to scaling operating capabilities to support demand for our solutions, including the cost of completing the build-out of our laboratory in Irving, Texas;
- the timing of, and the costs involved in, obtaining any required or desired marketing authorizations for our solutions;
- the timing, scope, progress, results and costs of developing additional solutions, and of conducting validation studies, clinical trials, and other studies that may be required in order to market our solutions;
- the costs involved in obtaining, maintaining, protecting, and enforcing patent and other intellectual property rights and claims, including litigation costs and the outcome of such litigation;
- the timing and amount of sales of our solutions, if any, and collection of related receivables;
- the extent to which our solutions are eligible for coverage and reimbursement from third-party payers and government payers;
- the emergence of new technologies, scientific breakthroughs, or any competing tests, products, or services, and other adverse market developments; and
- other potential adverse developments.

Additional capital may not be available when we need it, on terms acceptable to us or at all. We have no committed source of additional capital, having borrowed the remaining principal amount of $200.0 million under the delayed draw loan of the 2023 Term Loan (as defined below) in March 2024. Furthermore, any additional capital raised through the sale of equity or equity-linked securities will dilute shareholders' ownership interests in us, may require shareholder approval, may have an adverse effect on the price of our common stock, and holders of these securities may have rights, preferences, or privileges senior to those of our then-existing shareholders. Debt financing, if available, may include restrictive covenants that could limit how we conduct our business. Our ability to incur additional indebtedness also is currently restricted by the terms of our 2023 Term Loan Agreement (as defined below). If adequate capital is not available to us on a timely basis, we may be required to significantly delay, scale back, or discontinue the commercialization of our solutions or R&D programs, or be unable to continue or expand our operations or otherwise capitalize on our business opportunities, as desired, which could adversely impact our business, financial condition, and results of operations and cause the price of our common stock to decline.

***If our facilities or those of our third-party collaborators are insufficient or become inoperable, our ability to provide our solutions will be significantly impaired and our business will be harmed.***

We currently perform all R&D and commercial profiling in our multiple laboratories in Phoenix and Tempe, Arizona and are building out our newest facility in Irving, Texas. Any disruption to the operations of these facilities could compromise the integrity of our samples and impede our ability to accurately perform our profiling and ultimately adversely impact our reputation, business, financial condition, and results of operations. In addition, we may maintain samples for several years. It is possible that some,

if not all, of these samples may degrade over time, which could negatively impact our ability to use such samples to validate future solutions and which could adversely impact our business, financial condition, and results of operations.

One or more of our facilities may be harmed, rendered inoperable by physical damage or otherwise become partially or completely unusable due to fire, floods, earthquakes, power loss, telecommunications failures, break-ins, accidents, water shortages, floods, tornadoes, hurricanes, fires, extreme weather conditions, health epidemics, pandemics, and similar events, which may render it difficult or impossible for us to provide our solutions for some period of time. Our laboratories and the equipment we use to perform our R&D or commercialization work could be unavailable or costly and time-consuming to repair or replace. It would be difficult, time-consuming, and expensive to rebuild one of our facilities, particularly in light of the licensure, permits, and accreditation requirements for clinical laboratories like ours. Although we carry insurance for damage to our properties and the disruption of our business, this insurance may not be sufficient to cover all of our potential losses and may not continue to be available to us on acceptable terms, or at all.

We have started the process of constructing a new laboratory facility in Irving, Texas to increase product development and operational capacity. Such construction requires significant resources, and we may encounter difficulties and delays in construction, procuring laboratory equipment, obtaining necessary validation, permits, licenses, and certifications (including CLIA certification and College of American Pathologists (“CAP”) accreditation, or completing the technology implementation) for this new facility. If we are unable to complete construction and go-live in a timely and satisfactory manner, obtain the necessary permits, licenses, certificates, and accreditations within our currently anticipated timelines, or meet demand for our solutions at our Arizona facilities, on a timely basis or at all, our reputation and commercial activities would be negatively impacted. We may be unable to regain customers or repair our reputation in the future, which would negatively impact our business, financial condition, and results of operations.

We also rely on our third-party collaborators, consultants, contractors, vendors, suppliers, and service providers. The facilities of these partners could be subject to fire, floods, earthquakes, power loss, telecommunications failures, break-ins, accidents, water shortages, floods, tornadoes, hurricanes, fires, extreme weather conditions, health epidemics, pandemics and other natural or man-made disasters or business interruptions. In addition, they may be affected by government shutdowns, changes to applicable laws, regulations, and policies, or withdrawn funding. The occurrence of any of these business disruptions could seriously harm their ability to complete their contracted services to us, which may adversely impact our business, financial condition, and results of operations.

***If our solutions result in direct or indirect patient harm or injury, we could be subject to significant reputational and liability risks, and our business, financial condition, and results of operations could suffer.***

Our success depends on the market’s confidence that our solutions, including MI Profile, MI Cancer Seek, Caris Assure, MI Tumor Seek Hybrid, and GPSai and other solutions that we may develop in the future, can provide reliable and high-quality results. We believe that patients, physicians, and regulators are likely to be particularly sensitive to errors in the use of our solutions or failure of our solutions to perform as described, and there can be no guarantee that our solutions will meet their expectations. Performance failures could establish a negative perception of our solutions among physicians, patients, and regulators, jeopardize our ability to successfully commercialize our solutions, impair our ability to obtain marketing authorizations or secure favorable coverage and reimbursement, or otherwise result in reputational harm. The costs incurred in correcting any defects or errors may be substantial and could adversely affect our operating margins. Identifying the root cause of quality issues, particularly those affecting reagents and third-party components, may be difficult, which increases the time needed to address quality issues as they arise, and increases the risk that similar problems could recur. In addition, we may be subject to legal claims arising from any errors in the use, manufacture, design, labeling or performance of our solutions, including any false-positive or false-negative results.

Our anticipated application of Caris Assure for early detection, MRD tracking, and treatment monitoring poses additional risks. Caris Assure is currently intended to be used to detect cancers in patients. A detection of cancer by Caris Assure would need to be followed up with a cancer diagnosis by a physician. Because Caris Assure is not currently able to detect all forms of cancer, a negative test would not rule out the presence of cancer. Additionally, an individual undergoing further diagnostic procedures on

the basis of a false-positive result or an erroneous cancer lineage could expose us to significant liability and reputational risks, notwithstanding the emotional and mental health effects to which the patient may be exposed. Similarly, an individual who receives a cancer diagnosis shortly following an inaccurate result, such as a negative test or false negative result, may create adverse publicity about our solutions, which could damage our reputation and have a negative impact on our business, financial condition, and results of operations. Failure to accurately detect cancer and other performance failures could establish a negative perception of our solutions among physicians, patients, customers, and regulators, jeopardize our ability to successfully commercialize our solutions, impair our ability to obtain marketing authorizations or secure favorable coverage and reimbursement, or otherwise result in reputational harm or enforcement action or inquiry by a regulatory body. These risks may be more pronounced and could expose us to claims of injury or other adverse events under medical liability, product liability, or other liability laws if a provider uses our tests inaccurately or inappropriately for diagnosis purposes, as our solutions would be directly involved with the choice to use certain treatments. In addition, we may be subject to legal claims arising from any errors in the use, manufacture, design, labeling, marketing, or performance of our products, including from inaccurate results. If our solutions result in direct or indirect participant or patient harm or injury, we could be subject to significant reputational and liability risks, may be required to initiate corrective actions, recalls or suspend sales of our products, which may adversely impact our reputation, business, financial condition, and results of operations.

***If we were to be sued for product liability or professional liability, we could face substantial liabilities that exceed our resources, including any insurance coverage.***

The marketing, adoption, and use of our solutions could lead to the filing of product liability claims if someone alleges that our solutions identified inaccurate or incomplete information regarding the genomic alterations of the tumor or malignancy analyzed, reported inaccurate or incomplete information concerning the available therapies for a certain type of cancer, or otherwise failed to perform as designed. We may also be subject to professional liability for errors in, a misunderstanding of, or inappropriate reliance upon, the information we provide in the ordinary course of our business activities. A product liability or professional liability claim could result in substantial damages and be costly and time-consuming for us to defend.

We maintain product and professional liability insurance, but this insurance may not fully protect us from the financial impact of defending against product liability or professional liability claims. Any product liability or professional liability claim brought against us, with or without merit, could increase our insurance rates or prevent us from securing insurance coverage in the future. Additionally, any product liability or professional liability lawsuit could damage our reputation or cause current clinical customers to terminate existing agreements with us and potential clinical customers to seek other partners, any of which could adversely impact our business, financial condition, and results of operations.

***Our business and results of operations will suffer if we fail to compete effectively.***

The precision oncology industry, which is the focus of our current commercial portfolio, is intensely competitive. Our competitors include numerous companies offering or seeking to offer tissue-based molecular profiling, blood-based early detection, blood-based molecular profiling for therapy selection, MRD tracking, and/or treatment monitoring, core biopharma services, and genomic data and AI services to biopharma companies. For additional information, see “Business—Competition.” Our competitors have or may have substantially greater financial, technical, and other resources, such as larger R&D staff and more well-established marketing and sales forces. Our competitors may succeed in developing, acquiring, or licensing, on an exclusive basis or otherwise, tests or services that are more effective or less costly than our solutions. In addition, established medical technology, biotechnology, or biopharma companies, some of whom may be our customers, may invest heavily to accelerate discovery and development of tests that could make our solutions less competitive than we anticipate.

Our ability to compete successfully will depend largely on our ability to:

- successfully commercialize and expand the features of our solutions and develop new solutions to achieve meaningful innovation in precision oncology and other chronic disease states;

- demonstrate compelling advantages in the performance and convenience of our solutions, including on a cost competitive basis;
- achieve market acceptance of our solutions by patients and healthcare providers;
- the rate of adoption and/or endorsement of our solutions by clinicians, KOLs, advocacy groups, and biopharma companies;
- achieve adequate coverage and reimbursement recognition from governmental payers, health insurance organizations, and other third-party payers for our solutions;
- address any technological, scientific, and market developments to differentiate our solutions from products and services offered by current and potential competitors;
- attract qualified scientific, data science, clinical development, solution development, and commercial personnel;
- obtain, maintain, defend, and enforce patent and other proprietary protection as necessary for our solutions and platform;
- obtain and maintain any necessary or desirable marketing authorizations from regulators in the United States and other jurisdictions for any versions of our current solutions and any future solutions that we may develop;
- successfully collaborate with institutions in the discovery, development, and commercialization of our solutions;
- establish and maintain supply and manufacturing relationships with third parties that can timely and consistently provide adequate, in both amount and quality, products and services to support clinical development and the market demand for our solutions; and
- successfully expand our operations infrastructure and implement a successful sales and marketing strategy to support increased commercialization.

We may not be able to compete effectively or keep pace with the rapid rate of change in our industry if we are unable to accomplish one or more of these or similar objectives. This could render our solutions obsolete or less attractive, result in significant price reductions, or substantially limit the volume of products that we offer.

***Failure of, or defects in, our AI/ML models and on-premise, co-located, and cloud-based computing infrastructure, including interruption of services through Amazon Web Services, or increased regulation in the AI/ML space, could impair our ability to process our data, develop solutions, or provide test results, and harm our business and results of operations.***

The design, development, maintenance, and operation of our technology over time is expensive and complex, and may involve unforeseen difficulties including material performance problems, undetected defects, or errors. Overcoming technical obstacles and correcting defects or errors could prove to be impossible or impracticable, and the costs incurred may be substantial and adversely affect our business, financial condition, and results of operations. Additionally, regulation in the AI/ML space is constantly evolving. See "—Regulatory, social and ethical issues relating to our use of new and evolving technologies, such as AI and ML, may result in reputational harm and liability." If our technology does not function reliably, fails to meet expectations in terms of performance, or cannot be fully utilized due to increasing regulation, including regulation by the FDA of AI or medical device software, we may be unable to provide, or our customers may stop using, our solutions.

We currently host our data on, and conduct certain data analysis through, Amazon Web Services ("AWS") cloud-based hosting facilities as well as on our own co-located or on-premise computing infrastructure. Any technical problems or outages that may arise in connection with AWS's or our data center hosting facilities could result in operational disruption, loss of our data or delayed or ineffective data processing. A variety of factors, including infrastructure changes, human or software errors, viruses, malware, security attacks, fraud, denial of service or technical support issues could cause interruptions in our service. Such service interruptions may reduce or inhibit our ability to provide our solutions, delay our

clinical trials, and damage our relationships with our customers. We could also be exposed to potential lawsuits, customer reputational impact, liability claims or regulatory actions, for example, if AWS or we experienced a privacy or data security breach. If we were required to transfer our data to an alternative hosting provider, the transfer and acclimation to the new provider could result in significant business delays and subject us to technological risks and require additional resources.

***Regulatory, social, and ethical issues relating to our use of new and evolving technologies, such as AI and ML, may result in reputational harm, additional costs, and liability.***

We utilize AI/ML algorithms for data analysis of patient information and other data. As with many cutting-edge innovations, AI and ML present new risks and challenges, including social and ethical issues and a quickly evolving legal and regulatory environment, which may cause us to incur increased compliance or R&D costs, or to divert resources from other development efforts. Regulation of AI/ML usage continues to evolve, and limitations placed on the use of data, including personal information, health data, or genetic/genomic data in such systems may make it difficult or more costly for us to continue using our ML algorithms. Existing laws and regulations may be interpreted to apply to us in new ways due to our use of AI and ML, the nature and extent of which are difficult to predict. The risks and challenges presented by AI and ML could undermine public confidence in AI and ML, which could slow its adoption, impact patients' and physicians' confidence in our solutions, and otherwise affect our business. Failure to adequately address ethical and social issues related to our use of AI/ML could adversely affect the adoption of our solutions and subject us to reputational harm, regulatory action, or legal liability, which may harm our financial condition and results of operations.

Potential government regulation related to AI ethics or usage may also increase the burden and cost of R&D in this area. Certain U.S. states have passed or are considering the passage of laws intended to regulate and/or require disclosures in connection with the usage of AI, including in interactions with customers or other market participants. For example, Colorado passed the Colorado Artificial Intelligence Act, which will require disclosures and compliance efforts associated with different uses of AI, and Utah passed the Utah Artificial Intelligence Policy Act, which requires certain disclosures to customers and confirms companies' responsibility for legal violations caused by their AI applications. It is possible that these or other states or the federal government could pass additional legislation or implement regulations impacting businesses' use of AI/ML, which could impact our operations and impose additional costs or liability on us. Additionally, employees or customers who are dissatisfied with our public statements, policies, practices, or solutions related to the development and use of AI and ML may express opinions that could introduce reputational or business harm, or legal liability.

We use AI/ML to assist us in making certain diagnostic and benefit prediction decisions, which AI/ML is regulated by certain privacy laws. Due to inaccuracies or flaws in the training, development, inputs, outputs, and logic of an AI/ML model, the model could be biased. Any bias in a model could result in limits on the applicability or accuracy of the model across patient populations or could lead us to make decisions that could disadvantage certain individuals (or classes of individuals) and adversely impact their rights, employment, and ability to obtain certain pricing, products, services, or benefits.

***We are highly dependent on our key personnel, and if we lose key members of our senior management, scientific or technical teams or are not successful in attracting, motivating, and retaining highly qualified personnel, we may not be successful.***

Our ability to compete in the competitive precision medicine industry depends upon our ability to attract, motivate, and retain highly qualified personnel. We are particularly dependent on key members of our senior management team, including David D. Halbert, our Founder, Chairman, and Chief Executive Officer. The loss or incapacity of existing members of our senior management team could adversely affect our operations if we experience difficulties in hiring qualified successors and could hamper or delay the development and commercialization of our solutions and harm our business, financial condition, and results of operations. We do not maintain "key person" insurance policies on the lives of these individuals or the lives of any of our other employees.

Our R&D programs and laboratory operations depend on our ability to attract and retain highly skilled scientists, technicians, and data scientists. We may not be able to attract or retain qualified scientists

and technicians in the future due to the competition for qualified personnel among life science businesses. We also face competition from universities and public and private research institutions in recruiting and retaining highly qualified scientific personnel. In addition, we may have difficulties locating, recruiting, or retaining qualified sales representatives and business development managers. Recruiting and retention difficulties can limit our ability to support our R&D and sales programs.

To induce valuable employees to remain at our company, in addition to salary and cash incentives, we provide stock option and RSU grants with vesting conditions. The value of these equity grants may be significantly affected by movements in our stock price that are beyond our control, and may at any time be insufficient to counteract more lucrative offers made to our employees from other companies. Although we have employment agreements with certain key employees, consistent with all of our employment arrangements, these employment agreements provide for at-will employment, which means that any of our employees could leave our employment at any time, with or without notice. If we are unable to attract and incentivize highly qualified personnel on acceptable terms, or at all, our business, financial condition, and results of operations may suffer.

***If our information technology systems or those of third parties with whom we work, or our data are or were compromised, we could experience adverse consequences resulting from such compromise, including but not limited to regulatory investigations or actions, litigation, fines and penalties, disruptions of our business operations, reputational harm, loss of revenue or profits, and other adverse consequences.***

In the ordinary course of our business, we and the third-parties with whom we work collect, store, receive, process, generate, use, transfer, disclose, make accessible, protect, secure, dispose of, transmit, and share (collectively, “Process”) personal information, including health-related information, individually identifiable health information and protected health information (“PHI”) as defined by the Health Insurance Portability and Accountability Act, as amended by the Health Information Technology for Economic and Clinical Health Act, and their implementing regulations (collectively, “HIPAA”), personally identifiable information, credit card and other financial information, and intellectual property and proprietary business information (collectively “Sensitive Information”).

As a result, we and the third parties with whom we work face numerous and evolving cybersecurity risks that threaten the confidentiality, integrity, and availability of our information technology and telecommunications systems and Sensitive Information. Such threats are prevalent and continue to rise, are increasingly difficult to detect, and come from a variety of sources, including telecommunications or network failures, malicious human acts, and natural disasters.

We and the third parties with whom we work are subject to threats from various threat actors, such as state-sponsored organizations, criminal threat actors, organized crime outfits, opportunistic hackers and “hacktivists,” as well as a variety of evolving threats, such as social engineering/phishing (including through deep fakes, which may be increasingly more difficult to identify as fake), malware (including ransomware and as a result of advanced persistent threat intrusions), network reconnaissance and intellectual property theft, use of illegitimate virtual private networks or anonymization tools, malfeasance by insiders (such as personnel misconduct or error), human or technological error, malicious code (such as viruses and worms), denial-of-service attacks, database compromises, business email compromises, credential stuffing, credential harvesting, credential theft, software “bugs,” misconfigurations, or other vulnerabilities in software that is integrated into our (or the third parties with whom we work) IT systems, misuse of company resources and software, lack of adherence to company policy, products or services, adware, attacks enhanced or facilitated by AI, physical or electronic break-ins, earthquakes, fires, floods, and similar disruptive threats.

Some actors now engage and are expected to continue to engage in cyber-attacks, including without limitation nation-state actors for geopolitical reasons and in conjunction with military conflicts and defense activities. During times of war and other major conflicts, we and the third parties with whom we work are vulnerable to a heightened risk of these attacks, including retaliatory cyber-attacks, that could materially disrupt our systems and operations, supply chain, and ability to produce, sell and distribute our services.

Remote work has become more common and has increased risks to our information technology systems and data, as more of our employees utilize network connections, computers, and devices outside our premises or network, including working at home, while in transit and in public locations. Additionally,

future or past business transactions (such as acquisitions or integrations) could expose us to additional cybersecurity risks and vulnerabilities, as our systems could be negatively affected by vulnerabilities present in acquired or integrated entities' systems and technologies. Furthermore, we may discover security issues that were not found during due diligence of such acquired or integrated entities, and it may be difficult to integrate companies into our information technology environment and security program.

We depend on information technology and telecommunications systems, including those provided by third parties and their vendors (some of which are legacy systems developed internally and may carry additional information security vulnerabilities), for significant elements of our operations, such as our laboratory information management systems, including test validation, specimen tracking, and quality control; personal information collection, storage, maintenance, and transmission; our profiling report production systems; and our billing and reimbursement, R&D, scientific and medical data analysis, and general administrative activities that collect, store and transmit large amounts of Sensitive Information, including intellectual property, proprietary business information, PHI, and other personal information of our customers, patients, business partners, employees, and contractors on such systems. In turn, the third parties and vendors with whom we work depend upon technology and telecommunications systems provided by outside vendors.

Our ability to monitor these third parties' information security practices is limited, and these third parties may not have adequate information security measures in place. If the third parties with whom we work experience a security incident or other interruption, we could experience adverse consequences. While we may be entitled to damages if the third parties with whom we work fail to satisfy their privacy or security-related obligations to us, any award may be insufficient to cover our damages, or we may be unable to recover such award. In addition, supply-chain attacks have increased in frequency and severity, and we cannot guarantee that third parties' infrastructure in our supply chain or that of the third parties with whom we work have not been compromised.

Cyber-attacks, malicious internet-based activity, online and offline fraud, insider threats and other similar activities are increasing in their frequency, levels of persistence, sophistication, and intensity, and are being conducted by sophisticated and organized groups and individuals with a wide range of motives and expertise. Furthermore, because the techniques used to obtain unauthorized access to, or to sabotage, systems change frequently and often are not recognized until launched against a target, we and the third parties with whom we work may be unable to anticipate these techniques or implement adequate preventative measures. We and the third parties with whom we work may also experience security incidents that may remain undetected for an extended period. There can also be no assurance that our cybersecurity risk management program and processes, including our policies, controls, or procedures, will be fully implemented, complied with or effective in protecting our information technology and telecommunications systems and Sensitive Information.

In addition, severe ransomware attacks are becoming increasingly prevalent and can lead to significant interruptions in our operations, ability to provide our products or services, loss of Sensitive Information and income, reputational harm, and diversion of funds. Extortion payments may alleviate the negative impact of a ransomware attack, but we may be unwilling or unable to make such payments due to, for example, applicable laws or regulations prohibiting such payments. Some of these attacks have also been coupled with attackers directly threatening executives with physical harm.

Applicable privacy and data security obligations may require us to notify relevant stakeholders, including affected individuals, customers, regulators, and investors, of security incidents, or to implement other requirements such as providing credit monitoring. Such disclosures and compliance with such requirements are costly, and the disclosure or the failure to comply with such requirements could lead to adverse consequences. For example, a growing number of legislative and regulatory bodies around the world have adopted breach notification and other requirements in the event that information subject to such laws is accessed by unauthorized persons and additional regulations regarding the use, access, accuracy, and security of such data are possible. In particular, we are a "Covered Entity" as defined under HIPAA, and, in the event of a breach as defined by HIPAA, we have specific reporting requirements under HIPAA regulations.

Under HIPAA, in the event of a significant breach, the reporting requirements could include notification to the general public, in addition to affected individuals and certain governmental agencies. In

addition, in the United States, we are subject to state and other laws that require notification. Complying with such numerous and complex regulations in the event of unauthorized access would be expensive and difficult, and failure to comply with these regulations could subject us to regulatory scrutiny and additional liability, could harm our reputation and our ability to compete, and could adversely affect our business, financial condition, and results of operations.

We take steps designed to detect, mitigate, and remediate vulnerabilities in our information systems (such as our hardware and/or software, including that of third parties with whom we work). We may not, however, detect or remediate all such vulnerabilities including on a timely basis. By way of example, in the spring of 2024, a security researcher informed us of a previously unknown vulnerability in one of our systems, which we have remediated. Further, we may experience delays in developing and deploying remedial measures and patches designed to address identified vulnerabilities. Vulnerabilities could be exploited and result in a security incident. If attackers are able to exploit vulnerabilities before patches are installed or mitigating measures are implemented, compromises could impact our information technology systems and Sensitive Information.

Any of the previously identified or similar threats could cause a security incident or other interruption that could result in unauthorized, unlawful, or accidental acquisition, modification, destruction, loss, alteration, encryption, disclosure of, or access to our Sensitive Information or our information technology systems, or those of the third parties with whom we work. A security incident or other interruption could disrupt our ability (and that of third parties with whom we work) to provide our services. If an attacker were to gain sufficient access to our systems, our data contained in those systems could be discovered by the attacker.

We, and the third parties with whom we work have been the target of cybersecurity attacks in the past and expect that such cybersecurity incidents will continue to occur in the future. For example, the February 2024 cybersecurity attack on Change Healthcare, who we used to process certain insurance claims, resulted in a delay in our ability to submit claims for payment and could require us to issue notifications to impacted individuals and various regulators if Change Healthcare determines that any PHI of our patients was impacted. While we may be entitled to damages as a result of this incident, any award may be insufficient to cover all such damages, or we may be unable to recover such award.

We may expend significant resources or modify our business activities to try to protect against security incidents. Additionally, certain privacy and data security obligations may require us to implement and maintain specific security measures or industry-standard or reasonable security measures to protect our information technology systems and Sensitive Information.

Despite the precautionary measures we and the third parties with whom we work have taken to detect and prevent or solve problems that could affect our information technology and telecommunications systems and Sensitive Information, there is a risk that our security measures will not be fully effective in the future. Failures or significant downtime of these systems or those used by the third parties with whom we work could prevent us from conducting tests, preparing and providing reports to future customers, billing payers, conducting R&D activities, maintaining our financial controls and other reporting functions, and managing the administrative aspects of our business. Any failure by us or the third parties with whom we work to prevent or mitigate security incidents, or other adverse impact to the availability, integrity, or confidentiality of our information technology systems or Sensitive Information, or improper access to, or use, acquisition, disclosure, alteration or destruction of, any such Sensitive Information, including loss of PHI or other data subject to privacy laws or proprietary business information, could result in operational or business delays, significant liability, regulatory action, a material loss of revenue resulting from the adverse impact on our reputation and brand, a diminished ability to retain or attract new customers, disruption to our business, and adversely affect our business, financial condition, and results of operations.

Our existing cyber liability insurance policies may not cover, or may cover only a portion of, any potential claims related to security breaches to which we are exposed or may not be adequate to indemnify us for all or any portion of liabilities that may be imposed. We also cannot be certain that our existing insurance coverage will continue to be available on acceptable terms or in amounts sufficient to cover the potentially significant losses that may result from a security incident or breach or that the insurer will not deny coverage of any future claim.

In addition to experiencing a security incident, third parties may gather, collect, or infer Sensitive Information about us from public sources, data brokers, or other means that reveals competitively sensitive details about our organization and could be used to undermine our competitive advantage or market position. Additionally, Sensitive Information of the Company or our customers could be leaked, disclosed, or revealed as a result of or in connection with our employees', personnel's, or vendors' use of AI/ML technologies.

***We may not be successful in developing and commercializing new solutions or new applications for our current solutions.***

We continue to expand our R&D efforts to use our solutions and our multi-modal clinico-genomic datasets to develop enhanced versions of our solutions and create new solutions. These initiatives include expanding the application of Caris Assure to early detection, MRD tracking, and treatment monitoring, developing Caris ChromoSeq for hematological (blood) cancers, developing additional AI signatures using NGS or image data, and additional solutions, including for chronic disease states beyond cancer. The commercialization of any new solutions or new applications for our current solutions will require the completion of certain clinical development activities, validation studies and/or clinical trials, having guidelines or recommendations for healthcare providers, administrators, payers, and patient communities relating to such solutions, and receiving favorable exposure in peer-reviewed publications and from KOLs. We cannot assure you that we can successfully complete the clinical development or applicable subsequent requirements of any such solutions in order to commercialize such solutions.

***We may fail to build a sustainable data licensing business, and our data licensing efforts may result in reputational harm that has an adverse effect on our business, financial condition, and results of operations.***

We and our biopharma and academic partners leverage high-powered computing and AI/ML algorithms to analyze our data to find the key molecular characteristics of a particular disease or dysfunction that drives disease. As part of these efforts, we license data to our partners, and certain of our partners license data to us. We are in the early stages of these data licensing efforts and may not be able to grow these efforts into a sustainable business.

The outbound licensing of data for research purposes is a novel business model without an established track record, which makes it difficult to evaluate our future prospects and the risks and challenges we may encounter in seeking to execute on this opportunity. Although we have negotiated data licensing agreements with several partners, these partners may have rights to terminate these agreements before the initial term has been completed, and these arrangements may not be renewed, or they may be renewed on less favorable terms. In addition, many of our data licensing agreements involve the use of third-party clinical data that is combined with our molecular data and then licensed to biopharma companies or other end users, and these third-party clinical data partners may not be willing to work with us in the future. We also depend on these third-party partners to provide access to data from their own data partners. We cannot guarantee that our third-party partners will enter into new data sharing arrangements with us, continue to provide their data, or that of their partners, to us, or include their data as part of combined data sets, and in the event that any of these arrangements terminate, we may not be able to find a replacement, or a replacement may not be available on reasonable terms or in a timely manner. Any of the foregoing could result in us losing access to real-world evidence, longitudinal patient data, and clinical outcomes that are key to maintaining, expanding, and enriching our datasets, which could have an adverse effect on our business, financial condition, and results of operations.

The commercial market for licensing this type of data may not develop or may be limited by regulation or other factors, which could diminish the value of licensing this data over time and make it challenging to secure arrangements with these partners on similar terms, or at all, with any additional licensees. While our data licensing arrangements include protections against abuse and misuse of patient data, we may be unable to adequately control how our partners, or the commercial customers that they license our data to as part of a combined data set, use the data, and any abuse or misuse could adversely impact our reputation, which could have an adverse effect on our business, financial condition, and results of operations.

***If we cannot maintain our current relationships, or enter into new relationships, with biopharma companies, our development of solutions could be delayed or our business, financial condition, and results of operations could be adversely affected.***

We deploy our proprietary profiling and signature offerings to analyze tissue and blood samples provided by biopharma partners.

Our success in the future depends in part on our ability to maintain and expand relationships with our biopharma partners. This can be difficult due to several factors, including internal and external constraints placed on these organizations that can limit the number and type of relationships with companies like us they can consider and consummate; that certain of our agreements governing our relationships are terminable at will by our biopharma partners; and that our biopharma partners may be dissatisfied with our services. Continued usage of our services by particular biopharma partners may also depend on whether the partner obtains positive data in its clinical trials, is able to successfully obtain regulatory approval and subsequently commercializes a therapy for which we have partnered with them to develop a companion diagnostic, or other administrative factors that are outside our control. Additionally, some of our biopharma partners have contracted with us to provide profiling for large numbers of samples, which could strain our testing capacity and restrict our ability to perform tests for other customers. If we fail to maintain these relationships or enter into new ones, our business could suffer.

From time to time, we expect to engage in discussions with biopharma companies regarding commercial opportunities. There is no assurance that any of these discussions will result in a commercial agreement, or if an agreement is reached, that the resulting engagement will be successful or that any clinical trials conducted as part of the engagement will produce successful outcomes. Speculation in the industry about our existing or potential engagements with biopharma companies can be a catalyst for adverse speculation about us, our services, and our technology, which can result in harm to our reputation and our business.

***We rely on third-party services to collect, process, transport, and store our samples in a secure and cost-efficient manner. If these services were disrupted, our business would be harmed.***

We rely on third-party providers to collect tissue and blood samples for our solutions. If third-party providers fail to adequately and properly obtain and collect viable blood and tissue samples from patients and to properly and timely package and ship the samples to us, our patients and their physicians may experience problems and delays in receiving test results, which could lead to dissatisfaction with our solutions, therefore harming our reputation and adversely affecting our business, financial condition, and results of operations. If our current third-party providers become unable to continue to collect samples for us or if our clients are unable to readily access a provider to collect a blood or tissue sample that we can analyze, we may be unable to compete effectively with other laboratories that have greater access to phlebotomy providers and our business, may be harmed.

In addition, we may maintain samples and extracted material for several years. It is possible that the long-term stability of these samples may not be maintained with the passage of time, which could negatively impact our ability to use such samples to validate our solutions. Further, interruptions in collection, processing, freezing, storing, or transportation of samples performed by third parties, whether due to labor disruptions, weather conditions, natural disaster, terrorist acts, threats, or for other reasons could adversely affect the samples and our ability to process the samples in a timely manner, which could negatively affect our ongoing research studies and harm our business.

***The clinical trial process is lengthy and expensive with uncertain outcomes. We have encountered delays, and may encounter future substantial delays, in our clinical trials, and may therefore be unable to complete our clinical trials on the timelines we expect, if at all, which could adversely impact our ability to market our solutions or receive adequate reimbursement.***

Clinical testing is expensive, time-consuming, and subject to uncertainty. Initiating and completing validation studies and clinical trials necessary to validate and market our solutions, and to support any submissions to CMS, MolDX, or other payers for reimbursement, or the FDA for marketing authorization for our solutions, will be time-consuming and expensive and the outcomes are inherently uncertain.

Validation studies and clinical trials must be conducted in accordance with the laws and regulations of the FDA and other applicable regulatory authorities' legal requirements and regulations, and are subject to oversight by these governmental agencies and institutional review boards ("IRBs").

The results of preclinical studies and clinical trials of our solutions conducted to date and ongoing or future studies and trials of our current, planned, or future solutions may not be predictive of the results of later clinical trials, and interim results of a clinical trial do not necessarily predict final results. Our interpretation of data and results from our validation studies and clinical trials do not ensure that we will achieve similar results in future validation studies or clinical trials. In addition, preclinical and clinical data are often susceptible to various interpretations and analyses, and many companies that have believed their products performed satisfactorily in validation studies, preclinical studies and earlier clinical trials have nonetheless failed to replicate results in later validation studies or clinical trials. Products in later stages of validation studies or clinical trials may fail to show the desired analytical validity and clinical validity despite having progressed through validation studies, nonclinical studies, and earlier clinical trials.

In addition, we cannot guarantee that any validation studies or clinical trials will be conducted as planned or completed on schedule, if at all. The timely completion of validation studies in accordance with their protocols depends, among other things, on our ability to locate and test a sufficient number of samples to demonstrate satisfaction of the validation study criteria. The timely completion of clinical trials in accordance with their protocols depends, among other things, on our ability to enroll a sufficient number of participants who remain in the trial until its conclusion. Many of our validation studies and clinical trials require enrolling a large number of participants without cancer who may not see value in enrollment. Additionally, we may encounter delays as a result of the administrative complexities in managing and recruiting for validation studies and trials of this scope and size. If we are unable to recruit and enroll sufficient participants for our validation studies or clinical trials, or maintain sufficient participation of enrolled participants, our product development, commercialization activities and our ability to seek marketing authorization for our solutions could be delayed, modified, or prevented.

The initiation and completion of validation studies and clinical trials may be prevented, delayed, or halted for numerous reasons, including related to the following:

- the inability to generate sufficient *in vitro* or *in vivo* data to support the initiation or continuation of clinical trials;
- the requirement to submit an IDE application to the FDA, which must become effective prior to commencing certain human clinical trials of significant risk medical devices, and which the FDA may disapprove;
- delays caused by participants withdrawing from clinical trials or failing to return for follow-up or by institutions failing to timely submit data, including follow-up data, if at all;
- delays or failure in reaching a consensus or agreement, if required, with regulatory agencies on trial design or feedback from regulatory agencies necessitating changes to ongoing or planned clinical trial design;
- delays or failure in reaching agreement on acceptable terms with prospective contract research organizations ("CROs"), service providers, and clinical trial sites, the terms of which can be subject to extensive negotiation and may vary significantly among different CROs and clinical trial sites;
- delays or failure in obtaining any required IRB approvals or ethics committee ("EC") approvals for our clinical trial sites;
- delays in amending, or the inability to amend, our IRB-approved protocols at clinical trial sites when necessary or desired;
- difficulty or delays in collaborating with sites, institutions, and investigators;
- failure by us, investigators, sites, or participants to comply with the applicable trial protocol or applicable regulatory requirements and standards for data collection, reporting, records maintenance, or data integrity;

- failure by us, investigators, sites or any CROs or other third parties to adhere to clinical trial requirements, including the applicable protocol;
- failure to perform in accordance with good clinical practice ("GCP") and good laboratory practice requirements, and/or other applicable regulations and requirements of the FDA or other applicable governmental authorities;
- failure to comply with applicable privacy and data security laws related to clinical trials;
- failure of our solutions to achieve acceptable performance, and safety endpoints;
- unacceptable safety findings, including findings related to the risk of the false positive tests (which could lead to unnecessary biopsy or anxiety) or false negative tests (which could lead to a delay in diagnosis or disease progression);
- termination or suspension of a trial or site by us or the data safety monitoring board, suspension or termination of a trial or site by an IRB, EC, or institution, or clinical hold or termination of a trial or site by a regulatory authority, including the FDA;
- disqualification, termination, or suspension of a clinical investigator;
- adverse inspections of our clinical trial sites or results by any applicable regulatory authority, including the FDA;
- changes in statutory or regulatory requirements or guidance, or clinical guidelines, that require amending existing or designing new clinical protocols, obtaining new IRB or EC approvals, modifying our clinical trials, modifying our consent process or obtaining additional consent from trial participants, or altering the pathway to marketing authorization of our solutions;
- changes in the standard of care on which a clinical development plan was based, which may require new or additional clinical trials;
- the cost of clinical trials of our solutions being greater than we anticipate;
- destruction or compromise of, or other inability to access or receive, clinical trial samples processed, stored, or managed at a third-party site or otherwise in the control of a third party;
- clinical trials of our solutions producing negative or inconclusive results, which may result in our deciding, or regulators requiring us, to conduct additional clinical trials or abandon development programs; and
- lack of adequate funding.

Any such delays could adversely affect the costs, timing, or successful completion of any future clinical trials. Moreover, we may depend on our collaborators and on medical institutions and CROs to conduct any future clinical trials in compliance with applicable GCP requirements, and while we may have agreements governing their committed activities, we may have limited influence over their actual performance. To the extent any future collaborators, the CROs, or clinical sites fail to enroll participants for our clinical trials, fail to conduct the trial to GCP requirements or are delayed for a significant time in the execution of trials, including achieving full enrollment, we may be affected by increased costs, program delays, and/or enforcement actions. In addition, any future clinical trials that are conducted in countries outside the United States may subject us to further delays and expenses.

Any inability to initiate or complete clinical trials successfully could result in additional costs to us, slow down or prevent our product development and receipt of positive reimbursement and coverage decisions, or impair our ability to generate revenue. Delays in initiating or completing our planned clinical trials could also allow our competitors to bring competing products to market before we do or sooner than expected, which could impair our ability to successfully commercialize our solutions, if launched, and may harm our business, financial condition, and results of operations. In addition, many of the factors that may cause, or lead to, a delay in initiation or completion of clinical trials may also ultimately lead to the delay or the narrowing or denial of any marketing authorization we may seek with respect to our solutions. Delays in the initiation or completion of any clinical trial of our solutions, such as Caris Assure for early detection, MRD tracking, or treatment monitoring, or seeking coverage and reimbursement, will increase

our costs, slow down, or jeopardize our product development and marketing authorization process, and delay or potentially jeopardize broad adoption of our solutions and their ability to generate revenue.

**Risks Related to Regulation and Legal Compliance**

***If we or our partners fail to comply with healthcare and other applicable laws and regulations, we could face substantial penalties and sanctions and our business, reputation, financial condition, and results of operations could be adversely affected.***

Our operations in the United States are subject to various U.S. federal and state laws and regulations that govern, among other things, the manner in which we provide and bill for tests and collect reimbursement from governmental programs, third-party payers and patients, our relationships with referral sources, and our marketing and advertising activities. In addition, the commercialization of our solutions outside the United States would also subject us to foreign equivalents of the healthcare laws described below, among other foreign laws. The laws that may impact our operations include:

- the federal Anti-Kickback Statute (the "AKS"), which prohibits, among other things, knowingly and willfully soliciting, receiving, offering, or paying any remuneration (including any kickback, bribe, rebate, a provision of free or discounted goods, services or items), directly or indirectly, overtly or covertly, in cash or in kind, to induce, or in return for, either the referral of an individual, or the purchase, lease, order, recommendation, or arrangement of any good, facility, item, or service for which payment may be made, in whole or in part, under a federal healthcare program, such as the Medicare and Medicaid programs. A person or entity does not need to have actual knowledge of the statute or specific intent to violate it in order to have committed a violation, and many courts have interpreted the AKS as being violated if merely one purpose of any arrangement is to induce referrals or purchases. The AKS includes statutory exceptions and regulatory safe harbors that protect certain arrangements. Failure to meet the requirements of an exception or safe harbor, however, does not render an arrangement illegal. Rather, the government may evaluate arrangements that do not fit into an exception or safe harbor on a case-by-case basis, taking into account all facts and circumstances, including the parties' intent and the arrangement's potential for abuse, and such arrangements may be subject to greater scrutiny by enforcement agencies;
- the Eliminating Kickbacks in Recovery Act of 2018 ("EKRA"), which establishes an all-payer anti-kickback prohibition for, among other things, knowingly and willfully paying or offering any remuneration directly or indirectly to induce a referral of an individual to or in exchange for an individual using the services of a clinical laboratory. EKRA applies to all payers including commercial payers and government payers. EKRA adopted safe harbors that are not directly analogous to the safe harbors under the AKS, and certain conduct that is permissible under the AKS may violate EKRA;
- the federal physician self-referral prohibition, commonly known as the Stark Law, which, in the absence of an applicable exception, prohibits a physician from making a referral for certain designated health services covered by the Medicare or Medicaid program if the physician or an immediate family member of the physician has a financial relationship (including an ownership interest or a compensation arrangement) with the entity providing the designated health services. The Stark Law also prohibits the entity furnishing the designated health services from billing, presenting, or causing to be presented a claim for the designated health services furnished pursuant to the prohibited referral. The term "designated health services" includes, among other things, clinical laboratory services. Unlike the AKS, the Stark Law is violated if the financial arrangement does not meet an applicable exception, regardless of any intent by the parties to induce or reward referrals or the reasons for the financial relationship and the referral;
- the FCA, which imposes civil and criminal liability on individuals or entities that knowingly submit false or fraudulent claims for payment to the government or knowingly make, or cause to be made, a false statement in order to have a false claim paid. Actions under the FCA may be brought by the government or by a private person under a qui tam, or "whistleblower," suit. There are many potential bases for liability under the FCA. For example, the government

has used the FCA to prosecute Medicare and other government healthcare program fraud such as coding errors, coding and billing for tests not compliant with coverage and reimbursement requirements, including MolDX reimbursement and coverage standards and requirements, waiver of patient copayments and deductibles, and performing tests that are not medically necessary or that are substandard in quality. In addition, a claim including items or services resulting from a violation of the AKS constitutes a false or fraudulent claim for purposes of the FCA, and courts have held that claims for services furnished pursuant to a referral prohibited by the Stark Law also are considered false for purposes of the FCA;

- the criminal healthcare fraud provisions of HIPAA and related rules that prohibit knowingly and willfully executing a scheme or artifice to defraud any healthcare benefit program or falsifying, concealing, or covering up a material fact or making any materially false, fictitious, or fraudulent statement in connection with the delivery of or payment for healthcare benefits, items, or services. These criminal healthcare fraud provisions are not limited to benefits, items, or services that may be paid for by federal or state healthcare programs, and similar to the AKS, a person or entity does not need to have actual knowledge of these statutes or specific intent to violate them in order to have committed a violation;
- the federal Civil Monetary Penalties Law, which provides civil penalties for a wide variety of conduct relating to federal and state healthcare programs, including, subject to certain exceptions, prohibiting, among other things, the offer or transfer of remuneration, including free services, discounts, or waivers of copayments and deductible amounts (or any part thereof), to a Medicare or state healthcare program beneficiary if the person knows or should know it is likely to influence the beneficiary's selection of a particular provider, practitioner or supplier of services reimbursable by Medicare or a state healthcare program;
- the federal Physician Payment Sunshine Act, created under the Affordable Care Act (the "ACA"), and its implementing regulations, which require manufacturers of drugs, devices, biologicals, and medical supplies for which payment is available under Medicare, Medicaid or the Children's Health Insurance Program to report annually to the U.S. Department of Health and Human Services ("HHS") under the Open Payments Program, information related to payments or other transfers of value made to physicians (as defined by statute), teaching hospitals and other healthcare practitioners such as physician assistants and nurse practitioners, as well as ownership and investment interests held by such physicians and their immediate family members and similar state laws with various reporting requirements;
- state self-referral, kickback, false claim, fraud, and abuse laws, some of which may apply to items or services reimbursed by any payer, including patients and commercial insurers, and include "whistleblower" provisions;
- federal and state "Anti-Markup" rules, which, among other things, typically prohibit a physician or supplier billing for clinical or diagnostic tests (with certain exceptions) from marking up the price of a purchased test performed by another physician or supplier that does not "share a practice" with the billing physician or supplier;
- federal and state laws applicable to test ordering, documentation of tests ordered, consent requirements, billing practices and claims payment and laws that prohibit other specified practices, such as providing tests at no or discounted cost to induce adoption, which may apply to laboratories; waiving co-insurance, deductibles or other amounts owed by patients; and billing a state healthcare program at a price that is higher than what is charged to other payers;
- the "No Surprises Act," which prohibits balance billing for certain non-emergency care, including for out-of-network clinical laboratory tests, and analogous state laws;
- state corporate practice prohibitions and professional fee-splitting laws that prohibit employing, exercising control over, or splitting fees with licensed medical professionals;
- federal and state consumer protection and unfair competition laws, which broadly regulate marketplace activities and activities that potentially harm consumers; and

- analogous state and foreign laws and regulations, such as state and foreign anti-kickback, self-referral, false claims, consumer protection, and unfair competition laws that may apply to our business practices, including but not limited to, research, distribution, sales and marketing arrangements as well as submitting claims involving healthcare items or services reimbursed by any third-party payer, including commercial insurers; state laws that require healthcare companies to comply with the medical device industry's voluntary compliance guidelines, the relevant compliance guidance promulgated by the federal government that otherwise restricts payments that may be made to healthcare providers, and other potential referral sources or state-specific standards on financial interactions with healthcare providers; state laws that require healthcare companies to file reports with states regarding pricing and marketing information, such as the tracking and reporting of gifts, compensation, and other remuneration and items of value provided to healthcare professionals and entities; and state and foreign laws governing the privacy and security of health information in certain circumstances, many of which differ from each other in significant ways and may not have the same effect, thus complicating compliance efforts.

These laws and regulations, among other things, constrain our business and limit the types of financial arrangements we have with providers, customers, patients, vendors and third-party payers, and our billing, coding, and collection practices, including our patient financial assistance programs and our practices relating to collection of co-payments and deductibles. Because of the breadth of these laws and the narrowness of the statutory exceptions and safe harbors available and lack of clear guidance, our business activities could be subject to challenge under one or more of such laws. To enforce compliance, the Office of the Inspector General ("OIG") and the DOJ recently have increased their scrutiny of interactions between healthcare companies, on the one hand, and healthcare providers and patients on the other, which has led to a number of investigations, prosecutions, convictions, and settlements in the healthcare industry. These investigations often are focused on billing and coding practices as well as financial arrangements with referral sources and patients. We expect that the federal government will continue to devote substantial resources to investigating healthcare providers' compliance with the FCA and other applicable fraud and abuse laws.

We also have been, are currently, and may be in the future, subject to actions or investigations relating to our arrangements and interactions with healthcare professionals and patients. For additional information, see "—We have been, are currently, and in the future may be the subject of government investigations, claims, audits, whistleblower and payer audits, overpayment and recoupment efforts and other litigation in the course of our business that could adversely affect our business and financial statements."

Efforts to ensure that our business arrangements will comply with applicable laws, including healthcare laws and regulations, may involve substantial costs. In addition, the healthcare and other laws applicable to our business may change or be amended, and, it is possible that governmental and enforcement authorities will conclude that our business practices do not comply with current or then-existing statutes, regulations, or case law interpreting applicable fraud and abuse or other healthcare or applicable laws and regulations. We may not properly interpret certain requirements or fail to timely report activities, when required. If any such actions are instituted against us, and we are not successful in defending ourselves, those actions could have a material impact on our business, including the imposition of significant civil, criminal, and administrative penalties, damages, disgorgement, monetary fines, possible exclusion from participation in Medicare, Medicaid and other federal healthcare programs, contractual damages, reputational harm, diminished profits and future earnings, imposition of forward-looking compliance obligations, and curtailment of our operations, any of which could adversely affect our business, financial condition, and our results of operations.

***We and the third parties with whom we work are subject to stringent and evolving U.S. and foreign privacy and data security laws, regulations, and rules, contractual obligations, industry standards, policies and other obligations related to privacy and data security. Our actual or perceived failure to comply with privacy and data security obligations (or such failure by the third parties with whom we work) could result in significant liability, administrative or governmental penalties, reputational harm and/or, other adverse business consequences.***

In the ordinary course of business, we process Sensitive Information, including personal information, genetic information, and data about trial participants in connection with clinical trials. These data processing

activities subject us to numerous federal, state, and foreign privacy and data security obligations, such as various laws, regulations, guidance, industry standards, external and internal privacy and security policies, contractual requirements, and other obligations, including AI/ML usage, relating to privacy and data security.

In the United States, numerous state and federal laws and regulations govern the privacy and security of personal information, including health-related information, such as data breach notification laws, personal information privacy laws, consumer protection laws (for example, Section 5 of the Federal Trade Commission Act), and other similar laws (e.g., wiretapping laws). HIPAA establishes a set of national privacy and security standards for the protection of individually identifiable health information, by health plans, healthcare clearinghouses and certain healthcare providers ("Covered Entities"), as well as for entities that perform certain services for or on behalf of such Covered Entities that involve creating, receiving, maintaining, or transmitting PHI ("Business Associates"), and their covered subcontractors. We are a Covered Entity when performing our healthcare services for customers, and also act as a Business Associate when performing certain services for or on behalf of Covered Entities.

When we act as a Covered Entity, for example, through services provided by Caris MPI, Inc., we are subject to certain obligations such as notice of privacy practices and secure handling of protected health information. In addition, when we act as a Business Associate of Covered Entities, for example, through services provided by our other entities, we are subject to certain provisions of HIPAA and the terms of any business associate agreements we enter into with such other Covered Entities. In addition, we may obtain health information from third parties that are subject to privacy and security requirements under HIPAA.

Under HIPAA, Covered Entities must report breaches of unsecured PHI to affected individuals without unreasonable delay, not to exceed 60 days following discovery of the breach by a Covered Entity or its agents. Notification also must be made to the HHS Office for Civil Rights and, in certain circumstances involving large breaches, to the media. Business associates must report breaches of unsecured PHI to Covered Entities during the timeframe outlined in the operative Business Associate Agreement, but in no even longer than 60 days of discovery of the breach by the Business Associate or its agents. A non-permitted use or disclosure of PHI is presumed to be a breach under HIPAA unless the Covered Entity or Business Associate establishes that there is a low probability the information has been compromised consistent with requirements enumerated in HIPAA.

Entities that are found to be in violation of HIPAA as the result of a breach of unsecured PHI, a complaint about privacy practices or an audit by HHS may be subject to significant civil, criminal, and administrative fines and penalties and/or additional reporting and oversight obligations if required to enter into a resolution agreement and corrective action plan with HHS to settle allegations of HIPAA non-compliance. HIPAA also authorizes state Attorneys General to file suit on behalf of their residents. Courts may award damages, costs and attorneys' fees related to violations of HIPAA in such cases. While HIPAA does not create a private right of action allowing individuals to sue us in civil court for violations of HIPAA, its standards have been used as the basis for duty of care in state civil suits such as those for negligence or recklessness in the misuse or breach of PHI.

Certain states have also implemented genetic testing and privacy laws imposing specific patient consent requirements and protecting test results by strictly limiting the disclosure of those results. In addition, in the past few years, more than a dozen U.S. states have enacted comprehensive privacy laws that impose certain obligations on covered businesses, including providing specific disclosures in privacy notices and affording residents with certain rights concerning their personal data; however, many of these laws have exceptions for entities subject to HIPAA or include exemptions for data subject to HIPAA, including clinical data protected under HIPAA and clinical trial data. For example, the California Consumer Privacy Act of 2018, as amended by the California Privacy Rights Act of 2020 ("CPRA") (collectively, "CCPA"), applies to personal information of consumers, business representatives, and employees who are California residents, and gives California residents expanded rights regarding their personal information, including the right to opt out of certain personal information sharing, and receive detailed information about how their personal information is used. The CCPA provides for fines of up to $7,500 per intentional violation, as well as a private right of action for certain data breaches. Although the CCPA exempts some data processed in the context of clinical trials and information subject to HIPAA, the CCPA increases compliance costs and potential liability with respect to other personal information we maintain about California residents.

We may also be subject to new laws governing the privacy of consumer health data, including genetic information. For example, Washington's My Health My Data Act broadly defines consumer health data, imposes obligations and restrictions on processing consumer health data (including imposing stringent requirements for consents), provides consumers certain rights with respect to their health data, and creates a private right of action to allow individuals to sue for violations of the law. More than a dozen states have also adopted laws regarding the processing, privacy, and security of genetic information or expanded their comprehensive privacy laws to include additional restriction on companies with respect to processing of sensitive personal information, including genetic information; however, many of these laws have exceptions for entities subject to HIPAA or include exemptions for data subject to HIPAA, including clinical data protected under HIPAA and clinical trial data.

Similar laws are being considered in several other states, as well as at the federal and local levels, and we expect more states to pass similar laws in the future. While several of these laws exempt some data processed in the context of clinical trials or deidentified information under HIPAA, such laws could have potentially conflicting requirements and may increase our compliance costs and potential liability. We could be adversely affected if such laws and other state or federal legislation or regulations applicable to us require changes in our business practices (including our ability to license deidentified information to biopharma companies) or privacy policies, or if governing jurisdictions interpret or implement their legislation or regulations in ways that adversely affect our business, financial condition, and results of operations.

Furthermore, violation of consumers' privacy rights or failure to take appropriate steps to keep consumers' personal information secure may constitute unfair and/or deceptive acts or practices in or affecting commerce in violation of Section 5(a) of the Federal Trade Commission Act, including entities subject to HIPAA. The Federal Trade Commission ("FTC") expects a company's data security measures to be reasonable and appropriate in light of the sensitivity and volume of consumer information it holds, the size and complexity of its business, and the cost of available tools to improve security and reduce vulnerabilities. Individually identifiable health information is considered sensitive data that merits particularly strong safeguards. We publish privacy policies, marketing materials, and other statements, such as compliance with certain certifications or self-regulatory principles, regarding privacy and data security. If these policies, materials, or statements are found to be deficient, lacking in transparency, deceptive, unfair, or misrepresentative of our practices, we may be subject to investigation, enforcement actions by regulators, or other adverse consequences.

In addition, we seek to utilize biological samples and data from participants in our clinical trials and validation studies in accordance with applicable law, IRB requirements, and participant permissions (through consent forms and HIPAA authorizations). If we are unable or significantly restricted in using participant samples and data for secondary research purposes, our ability to develop additional solutions and/or improve or refine existing solutions will be limited, which may impact our business and prospects.

Moreover, we are subject to laws, regulations, and standards governing certain marketing, advertising, and other communications conducted by telephone, fax, or text. In particular, sending short message service text messages to participants and prospective participants in our clinical trials is governed by the Telephone Consumer Protection Act ("TCPA") which imposes various consumer consent requirements and other restrictions on communications with consumers. Although we may be able to rely on certain exemptions for healthcare-related purposes, any actual or perceived violations of the TCPA can result in significant financial penalties, including penalties or criminal fines imposed by the Federal Communications Commission or fines of up to $1,500 per violation imposed through private litigation or by state authorities.

In addition, because we accept debit and credit cards payments, we are subject to the Payment Card Industry Security Standard ("PCI-DSS"), issued by the Payment Card Industry Security Standards Council; however, we rely on third-party payment processors to process such payments who are also separately subject to PCI-DSS. Noncompliance with PCI-DSS can result in penalties ranging from $5,000 to $100,000 per month by credit card companies, litigation, damage to our reputation, and revenue losses. If we or our third-party payment processors are unable to comply with the PCI-DSS, we may be subject to fines, restrictions, expulsion from card acceptance programs, or other consequences which could affect our business.

Moreover, it is not guaranteed that PCI-DSS compliance will prevent illegal or improper use of our third-party payment processors' payment systems or the theft, loss or misuse of payment card data or transaction information.

Our business also increasingly relies on AI to improve our services. However, the development and use of AI presents various privacy and data security risks that may impact our business and is subject to various laws. For example, several countries, states, and localities have proposed or enacted measures related to the use of AI in products and services, including the EU's AI Act, which may limit our ability to utilize AI or make utilization of such technology more expensive. The effects of these regulations are difficult to predict, and we expect other jurisdictions will adopt similar laws. Additionally, certain privacy laws extend rights to consumers (such as the right to delete certain personal information) and regulate automated decision making, which may be incompatible with our use of artificial intelligence. These obligations may make it harder for us to conduct our business using artificial intelligence, lead to regulatory fines or penalties, require us to change our business practices, retrain our artificial intelligence, or prevent or limit our use of artificial intelligence. For example, the FTC has required other companies to turn over (or disgorge) valuable insights or trainings generated through the use of AI where they allege the company has violated privacy and consumer protection laws. If we cannot use AI or that use is restricted, our business may be less efficient, or we may be at a competitive disadvantage.

Outside the United States, an increasing number of laws, regulations, and industry standards may govern privacy and data security. For example, the European Union General Data Protection Regulation (the "EU GDPR") and to the United Kingdom General Data Protection Regulation and Data Protection Act 2018 (collectively, the "UK GDPR") (the EU GDPR and UK GDPR together referred to as the "GDPR") impose strict requirements for processing personal data. The GDPR imposes stringent and comprehensive data protection requirements, and provides for greater penalties for noncompliance. The GDPR expands the rights that individuals have to request access, correction, and deletion of their personal data, although certain exceptions exist for scientific research, and makes notification of data breaches to supervisory authorities and data subjects mandatory in certain circumstances. In addition, the GDPR imposes additional compliance obligations and local law derogations in relation to the processing of special category or sensitive personal data under the GDPR (e.g., health data); we may be subject to diverging requirements under EU member state laws and the United Kingdom ("UK") laws, such as whether consent can be used as a legal basis for processing. Where we rely on consent as a legal basis for processing, the validity of informed consent from patients may be challenged, which could force us to stop offering our services, which could hinder our business and operations. In addition, as laws develop, we may need to make operational changes to adapt to diverging rules, which could increase our costs and adversely affect our business. The GDPR also regulates cross-border transfers of personal data outside of the EEA (in the case of the EU GDPR) and UK (in the case of the UK GDPR) and recent case law and regulatory guidance have increased legal complexity and uncertainty regarding international personal data transfers, which we expect to continue. In particular, we expect international transfers to the United States and to other jurisdictions more generally to continue to be subject to enhanced scrutiny by regulators. As the regulatory guidance and enforcement landscape in relation to data transfers continue to develop, we could suffer additional costs, complaints and/or regulatory investigations or fines; we may have to stop using certain tools and vendors and make other operational changes.

Penalties and fines for failure to comply with the GDPR include fines of up to 20 million euros under the EU GDPR, 17.5 million pounds sterling under the UK GDPR or, in each case, 4% of annual global revenue, whichever is greater, and since we are subject to the supervision of relevant data protection authorities under both the EU GDPR and UK GDPR, we could be fined under each of those regimes independently in respect of the same breach. In addition to fines, a breach of the EU GDPR and/or UK GDPR may result in regulatory investigations, reputational damage, orders to cease/ change our data processing activities, enforcement notices, assessment notices (for a compulsory audit) and/ or civil claims (including class actions).

In addition, we may be unable to transfer personal data from Europe and other jurisdictions to the United States or other countries due to data localization requirements or limitations on cross-border data flows. Europe and other jurisdictions have enacted laws requiring data to be localized or limiting the transfer of personal data to other countries. In particular, we expect the existing legal complexity and uncertainty

regarding international data transfers from the European Economic Area ("EEA") and the UK to continue. Other jurisdictions may adopt similarly stringent interpretations of their data localization and cross-border data transfer laws. Although there are currently various mechanisms that may be used to transfer personal data from the EEA and UK to the United States in compliance with law, such as the EEA's standard contractual clauses, the UK's International Data Transfer Agreement/Addendum, and the EU-U.S. Data Privacy Framework and the UK extension thereto (which allows for transfers to relevant U.S.-based organizations who self-certify compliance and participate in the Framework), these mechanisms are subject to legal challenges. As the regulatory guidance and enforcement landscape in relation to data transfers continues to develop, there is no assurance that we can continue to satisfy or rely on these measures to lawfully transfer personal data to the United States. If there is no lawful manner for us to transfer personal data from the EEA, the UK, or other jurisdictions to the United States, or if the requirements for a legally-compliant transfer are too onerous, we could face significant adverse consequences, including the interruption or degradation of our operations, the need to relocate part of or all of our business or data processing activities to other jurisdictions (such as Europe) at significant expense, increased exposure to regulatory actions, substantial fines and penalties, the inability to transfer data and work with partners, vendors and other third parties, and injunctions against our processing or transferring of personal data necessary to operate our business. Additionally, companies that transfer personal data out of the EEA and UK to other jurisdictions, particularly to the United States, are subject to increased scrutiny from regulators, individual litigants, and activist groups. Some European regulators have ordered certain companies to suspend or permanently cease certain transfers of personal data out of Europe for allegedly violating the GDPR's cross-border data transfer limitations.

We furnish to biopharma partners and academic researchers genomic information that has been de-identified in accordance with applicable laws, regulations, and the requirements governing the clinical trial. Any data transferred pursuant to international health information privacy regulations is transferred under relevant data protection agreements at the direction of the Data Controller. We may also furnish our biopharma partners and academic researchers with identifiable genomic information for research purposes, so long as such disclosure has been consented to by the patient and/or approved by an IRB or other ethical or privacy review board. The laws of certain states and countries may require specific consent from the individual either to retain or utilize certain genetic information for research or other purposes even if such information has been de-identified, or may require that we obtain a waiver of such consent from an ethical or privacy review board. Even where we furnish to biopharma partners and academic researchers genomic information that has been de-identified in accordance with applicable laws and regulations, biopharma partners or academic researchers may use technology or other methods to link that de-identified genomic information to the patient from whom it was obtained in contravention of one or more applicable laws and regulations. A finding that we have failed to comply with any such laws and any remedial activities required to ensure compliance with such laws could cause us to incur substantial costs, to be subject to unfavorable publicity or public opinion, to change our business practices, or to limit the retention or use of genetic information in a manner that, individually or collectively, could be adverse to our business.

Obligations related to privacy and data security (and consumers' data privacy expectations) are quickly changing, becoming increasingly stringent, and creating uncertainty. For example, HHS issued a notice of proposed rulemaking on January 6, 2025, clarifying existing requirements and imposing new security requirements for entities subject to HIPAA. The agency received thousands of proposed comments, and may adjust or clarify the rule as part of the rule making process. Under President Trump's Regulatory Freeze Pending Review executive order, HHS cannot issue a final rule until a President-appointed department head has reviewed and approved the rule. It is uncertain whether the proposed rule will move forward in its current state and what the timing of a final rule will be. If adopted in a form similar to the proposed rule, we anticipate our compliance costs could increase substantially. We would need to invest in additional cybersecurity technologies, hire specialized personnel, and potentially redesign certain aspects of our systems and processes. These investments were not contemplated in our current business plan and could impact our profitability. If we are unable to comply with new requirements by any prescribed deadlines, we could face penalties, enforcement actions, reputational damage, and potential loss of business from customers. While we have begun assessing our current security posture against the proposed requirements, the uncertainty regarding the final rule makes comprehensive preparation difficult.

Additionally, these obligations may be subject to differing applications and interpretations, which may be inconsistent or conflict among jurisdictions. We also expect that there will continue to be new laws, regulations, and industry standards concerning privacy and data security proposed and enacted in various jurisdictions in which we do business. In addition to privacy and data security laws, we are also bound by other contractual obligations related to privacy and data security. Preparing for and complying with these obligations requires us to devote significant resources and may necessitate changes to our services, information technologies, systems, and practices and to those of any third parties that process personal data on our behalf.

Compliance with privacy and data security obligations could cause us to incur substantial costs or require us to change our business practices and compliance procedures in a manner adverse to our business. We strive, and contractually obligate our vendors, to comply with applicable laws, regulations, policies, and other legal obligations relating to privacy and data security. However, the various regulatory frameworks for privacy and data protection are, and are likely to remain, uncertain, and it is possible that these or other actual or alleged obligations may be interpreted and applied in a manner that is inconsistent from one jurisdiction to another and may conflict with other rules and subject our business practices to uncertainty. In addition, it is not guaranteed that regulators or consumers will agree with our interpretation of our obligations or our steps to comply with them. Any actual or perceived failure by us to comply with privacy and data security laws, rules, regulations, industry standards and other obligations could result in proceedings or actions against us by individuals, consumer rights groups, government agencies, or others, or orders to cease/ change our data processing activities. We could incur significant costs in investigating and defending such claims and, if found liable, pay significant damages or fines or be required to make changes to our business practices. Further, these proceedings and requires to any subsequent adverse outcomes may subject us to significant negative publicity and an erosion of trust. If any of these events were to occur, our business, financial condition, and results of operations could be adversely affected.

***We have current solutions marketed as LDTs and plan to launch future solutions as LDTs. The regulation of LDT products in the United States remains subject to significant uncertainty, and if we fail to comply with any new or existing legal requirements with respect to our LDT solutions, our business, financial condition, and results of operations could be adversely affected.***

We have obtained PMA approval from the FDA for MI Cancer Seek as a companion diagnostic device. We have also contemplated seeking FDA approval for Caris Assure and additional solutions. Except for MI Cancer Seek, we currently offer our NGS solutions, MI Tumor Seek Hybrid and Caris Assure, and our AI solutions, such as GPSai and FOLFIRSTai, as LDTs. The FDA considers LDTs to be IVD tests that are intended for clinical use and are designed, manufactured, and used within a single laboratory, and the FDA has historically viewed LDTs as medical devices subject to FDA’s medical device authority. Notwithstanding this position, the FDA historically exercised enforcement discretion and did not enforce certain medical device requirements, including requirements for premarket review, with respect to LDTs, with certain exceptions.

Even under that enforcement discretion policy, the FDA has issued warning letters to, and published Medical Device Safety Communications about, manufacturers for commercializing laboratory tests that were purported to be LDTs but the FDA alleged failed to meet the definition of an LDT or that otherwise were not subject to the FDA’s enforcement discretion policy. If our current solutions fail to meet the definition of an LDT, our business, financial condition, and results of operations could be adversely affected.

However, the FDA had for a number of years stated its intention to modify its enforcement discretion policy with respect to LDTs and enforce applicable medical device requirements to LDTs more broadly, and on May 6, 2024, the FDA issued a final rule in effort to clarify the FDA’s historical view that LDTs are medical devices subject to the requirements applicable to IVDs (the “LDT Final Rule”), and to phase out the FDA’s enforcement discretion policy over a period of four years from issuance of the LDT Final Rule.

In connection with the LDT Final Rule, the FDA sought to establish certain new and targeted enforcement discretion policies. Specifically, if the LDT Final Rule were implemented, the FDA planned to exercise enforcement discretion and not enforce certain medical device requirements (including the

requirements for marketing authorization and compliance with certain elements of the Quality System Regulation ("QSR") with respect to LDTs that were marketed as of the date of the LDT Final Rule's publication, although such products would still be required to comply with certain other FDA requirements, such as registration and listing, relevant portions of the QSR, medical device reporting, labeling, and corrections and removals reporting. However, where these tests are modified in certain ways from the version of the test marketed as of the LDT Final Rule's publication date, this enforcement discretion policy, if implemented, would no longer apply and the FDA would enforce all applicable FDA requirements (including premarket review and marketing authorization requirements) consistent with the stated phase-in policy. In addition, for LDTs that receive approval from NY CLEP, FDA planned to not enforce the proposed marketing authorization requirements at either three and a half or four years following the date of publication of the LDT Final Rule. However, these tests would still be subject to the remaining medical device requirements, including registration and listing, medical device reporting, and QSR requirements, at the time that such requirements would be phased in more generally.

However, on March 31, 2025, the United States District Court for the Eastern District of Texas vacated the LDT Final Rule, reasoning that LDTs are not medical devices, and remanded the matter to the FDA for further consideration. The District Court's decision remains subject to a potential appeal until June 30, 2025, and it remains uncertain at this time whether such appeal will be sought and if such appeal would be successful, and even if an appeal is not sought, whether the District Court's decision has the effect of eliminating the FDA's authority over LDTs nationwide, as the holding in the case merely vacated the LDT Final Rule, which simply clarified FDA's longstanding position on LDTs being classified as medical devices. Accordingly, it is unclear whether or when the FDA may be able to implement the LDT Final Rule, or otherwise exercise its medical device authority with respect to LDTs. This uncertainty could adversely affect the FDA's ability to apply and enforce its medical device requirements with respect to diagnostic tests more broadly, including any LDTs for which we have obtained or plan to obtain PMAs. Such uncertainty, the final resolution of the litigation over the LDT Final Rule, and the FDA's actions in response could have a material adverse effect on our business and operations.

In light of the uncertainty regarding the future status and potential implementation of the LDT Final Rule, the associated planned new enforcement discretion policies, and the FDA's actions in response the District Court's decision as it relates to LDTs, we do not know if or when our offerings could become or will remain subject to FDA medical device requirements, including the need to seek and obtain marketing authorization (in the case of our LDTs, at the time that those medical device requirements are phased in more generally if they are phased in at all). If we were unable to comply with any medical device requirements applicable to LDTs if and when such requirements become applicable, we could be required to cease marketing any solutions that we market as LDTs. In addition, further efforts by the FDA or Congress to impose more regulation on LDTs could create a negative public perception about the validity, safety, effectiveness, or performance of LDTs, including our solutions, which could adversely affect patient, provider, and customer perception about, and confidence in, our solutions.

Moreover, the FDA may assert that we are improperly marketing our solutions as LDTs, or if FDA succeeds in maintaining asserted authority over LDTs as medical devices, the FDA may assert we do not comply with applicable requirements, and in such cases may take enforcement action against us and/or require premarket review and marketing authorization, which may require us to cease marketing any commercially marketed solutions that are marketed as LDTs until such marketing authorization is obtained or the applications are submitted. There can be no assurance that we will be able to obtain such marketing authorization or that any labeling claims would be consistent with the claims we have made or intend to make for such solutions when launched as LDTs, or that such claims will be adequate to support continued adoption of and reimbursement for our solutions. In the event we are required to seek FDA marketing authorization for any current or planned LDT solutions, the FDA may request that we provide additional analyses and information beyond that which we intend to produce based on the designs of our current and planned validation studies or clinical trials, or that we modify or narrow our intended use or product claims. It is possible that the FDA, among other things, could disagree with our interpretation of data we have relied on to support our LDT launches for our intended uses. If we are required to provide additional analyses or additional data or perform additional clinical trials beyond those we currently contemplate to support the intended uses of our solutions, our planned commercial launches may be delayed and we may be required to cease commercialization of any solutions we currently market as LDTs. Even if our solutions are allowed

to remain on the market prior to any required marketing authorization, demand or reimbursement for our solutions may decline if there is uncertainty about our solutions, if we are required by the FDA to label our solutions as RUO or IUO, or if the FDA limits the labeling claims we are permitted to make for our solutions. As a result, we could experience significantly increased development costs and a delay in generating additional revenue from our current or future solutions, which could reduce our revenues or increase our costs and adversely affect our business, financial condition, and results of operations. Additionally, an FDA enforcement action against us, a delay in the launch of our solutions, or significantly narrowing their intended uses, could negatively impact our business, financial condition, and results of operations.

In addition, Congress has, for over the past decade, considered a number of proposals, which if enacted, would subject LDTs to additional regulatory requirements. Any such legislation could substantially alter our marketing of LDTs and negatively impact our business, financial condition, and results of operations.

***Our early detection and MRD tracking assays are intended to introduce new approaches to cancer detection, which present a number of novel and complex issues for FDA review. Because the FDA has never provided marketing authorization for an early detection test and has only granted marketing authorization in limited instances for MRD tests, it is difficult to predict what information we will need to submit to obtain approval of a PMA from the FDA for a proposed intended use of early detection or MRD tracking, or if we will be able to obtain such approval on a timely basis or at all.***

The FDA has never granted marketing authorization for a early detection test and has only granted marketing authorization in limited instances for MRD tests. Therefore, obtaining FDA approval for Caris Assure for early detection and/or MRD tracking presents a number of novel issues. For example, in November 2023, the Molecular and Clinical Genetics Panel (the “Panel”) of the FDA’s Medical Devices Advisory Committee held a public meeting in which the Panel discussed and made recommendations on the design of MCED IVD devices as well as potential study designs and study outcomes of interest that could inform the assessment of the probable benefits and risks of MCED screening tests. The FDA may continue to modify its thinking on how to evaluate the performance of these types of tests, as well as its views around MRD tests. As such, we believe the FDA requirements that will govern any early detection or MRD tracking test we develop, as well as the breadth and nature of data we must provide the FDA, to support the proposed intended use, will remain subject to change.

Given the novel nature and complexity of our early detection and MRD tracking assays, we cannot be certain whether we will receive FDA marketing authorization for our screening tests and whether the trials we eventually conduct will be sufficient to provide the data that the FDA requires to support a proposed intended use. The FDA may require us to perform new analyses of future clinical data or perform additional clinical trials beyond any trials that we may conduct in the future. We may be required to undertake significant efforts to address the FDA requests, which could delay or prevent approval, lead to a more limited intended use statement than the broader intended use statement we plan to pursue, and/or lead to significant post-approval limitations or restrictions, if approval is obtained at all.

***Our business could be adversely affected by legal challenges to our business model or by actions restricting our ability to provide the full range of our solutions.***

Many states prohibit, by statute, regulation, guidance from professional licensing boards or state attorneys general or under common law, the unlicensed practice of medicine. Corporate practice restrictions are generally designed to prohibit a non-professional entity, such as us, from practicing medicine, employing physicians, or controlling or unduly influencing the professional practice and clinical decision making of physicians. The laws relating to corporate practice vary from state to state and are subject to change and to evolving interpretations by courts, state licensing boards and state attorneys general, among others. Further, changes to the membership or staff of state agencies, licensing boards or attorney general offices could lead to increased enforcement of these laws and regulations. In addition, many states also have laws that prohibit a non-professional entity or individual from sharing in or splitting profits or professional fees for patient care, often referred to as “fee-splitting.” Some states also prohibit entities from engaging in certain financial arrangements, such as fee-splitting, with physicians. The laws relating to fee-splitting also vary from state to state and are not fully developed or uniformly enforced. Generally, these laws restrict business

arrangements that involve a physician sharing professional fees with a non-professional source, but in some states, these laws have been interpreted to extend to other agreements between physicians and business entities under some circumstances.

Our test reports delivered to physicians provide information regarding solutions that oncologists and other physicians may use in making treatment decisions for their patients. We also employ pathologists and other medical professionals that interpret results of our solutions and sign our profiling results. These pathologists, physicians and other medical professionals are employed through our subsidiary non-profit corporation, Caris Molecular Pathology, which we believe complies with state corporate practice prohibitions and professional fee-splitting prohibitions. A governmental authority or other parties could allege that the business practices and services we provide constitute the practice of medicine or violate professional fee-splitting prohibitions and that our structure and arrangements are not compliant. A state may seek to have us discontinue the related services we provide, or subject us to fines, penalties, or other sanctions. Any determination that we are practicing medicine without a license may result in significant liability to us, and our business and reputation would be harmed.

***Obtaining and maintaining regulatory authorization of our solutions in one jurisdiction does not mean that we will be successful in obtaining regulatory authorization of our solutions in other jurisdictions.***

Obtaining and maintaining regulatory authorization of solutions in one jurisdiction does not guarantee that we will be able to obtain or maintain regulatory authorization in any other jurisdiction, but a failure or delay in obtaining regulatory authorization in one jurisdiction may have a negative effect on the regulatory authorization process in others. For example, even if the FDA or a comparable foreign regulatory authority grants marketing authorization for our solutions, comparable regulatory authorities in foreign jurisdictions may also need to authorize the solutions in those countries. Premarket authorization processes vary among jurisdictions and can involve requirements and administrative review periods different from those in the United States, including additional clinical trials, because clinical trials conducted in one jurisdiction may not be accepted by regulatory authorities in other jurisdictions or the data may not be considered applicable to the jurisdiction’s intended patient population. For example, while we have obtained a PMA approval from the FDA for MI Cancer Seek, we do not have any non-U.S. approvals for this solution, and there can be no assurance that we receive any such approvals in the future. In some cases, the price that we intend to charge for our solutions may also be subject to approval. In addition, NY CLEP approval is required in order to market LDTs in New York State. We have not received NY CLEP approval for Caris Assure.

Obtaining foreign regulatory authorization and maintaining compliance with foreign regulatory requirements could result in significant delays, difficulties, and costs for us and could delay or prevent the introduction of our solutions in certain countries. If we fail to comply with the regulatory requirements in other jurisdictions, or we fail to receive necessary or desirable marketing authorizations in other jurisdictions, our target market will be reduced and our ability to realize the full market potential of our solutions will be harmed.

***Our employees, independent contractors, consultants, commercial partners, customers, and vendors may engage in misconduct or other improper activities, including noncompliance with regulatory standards and requirements.***

We are exposed to the risk of fraud, misconduct, or other illegal activity by our employees, independent contractors, consultants, commercial partners, customers, and vendors. Misconduct by these parties could include intentional, reckless and negligent conduct that fails to: comply with the rules and regulations of the CMS, the FDA, and other comparable foreign regulatory authorities; provide true, complete and accurate information to such regulatory authorities; comply with manufacturing and clinical laboratory standards; comply with healthcare fraud and abuse laws in the United States and similar foreign fraudulent misconduct laws; or report financial information or data accurately or to disclose unauthorized activities to us. Since we began commercializing MI Profile, Caris Assure and our earlier solutions in the United States, our potential exposure under such laws has increased significantly, and our costs associated with compliance with such laws have, and will likely continue to, increase. In particular, research, sales, marketing, education, and other business arrangements in the healthcare industry are subject to extensive laws designed to prevent fraud, kickbacks, self-dealing, and other abusive practices, as well as off-label product

promotion. These laws and regulations may restrict or prohibit a wide range of pricing, discounting, educating, marketing and promotion, sales and commission, certain customer incentive programs, and other business arrangements generally. Activities subject to these laws also involve the improper use of information obtained in the course of participant recruitment for clinical trials, which could result in regulatory sanctions and cause serious harm to our reputation. We have adopted a Corporate Compliance Program, but it is not always possible to identify and deter misconduct by employees and third parties, and the precautions we take to detect and prevent this activity may not be effective in controlling unknown or unmanaged risks or losses or in protecting us from governmental investigations or other actions or lawsuits stemming from a failure to be in compliance with such laws. If any such actions are instituted against us, and we are not successful in defending ourselves or asserting our rights, those actions could have a significant impact on our business, including the imposition of significant fines or other sanctions. Even if it is later determined after an action is instituted against us that we were not in violation of these laws, we may be faced with negative publicity, incur significant expenses defending our actions, and have to divert significant management resources from other matters. We expect our exposure to and costs associated with compliance with healthcare fraud and abuse laws to increase significantly if we commercialize additional solutions in the future.

***We use medical and hazardous materials that require considerable expertise and expense for handling, storage, or disposal and may result in claims against us.***

We and our facilities are subject on an ongoing basis to federal, state, and local laws and regulations governing the use, storage, handling, and disposal of regulated medical waste, hazardous waste, and biohazardous waste, including chemicals, biological agents and compounds and blood and other tissue specimens. We cannot eliminate the risk of accidental contamination or injury to employees, consultants, or third parties from the use, storage, handling, or disposal of these materials. Typically, we use licensed or otherwise qualified outside vendors to dispose of this waste. However, many of these laws and regulations provide for strict liability, holding a party potentially liable without regard to fault or negligence. As a result, we could be held liable for damages and fines if our, or others', business operations or other actions result in contamination of the environment or personal injury due to exposure to hazardous materials. Our costs for complying with these laws and regulations cannot be estimated or predicted with accuracy and depends on a number of factors, including the amount and nature of waste we produce, which depends in part on the number of tests we perform, and the terms we negotiate with our waste disposal vendors.

***We have been, are currently, and in the future may be the subject of government investigations, claims, audits, whistleblower and payer audits, overpayment and recoupment efforts and other litigation in the course of our business that could adversely affect our business and financial statements.***

Healthcare companies are subject to various criminal, civil, and administrative investigations and audits by governmental authorities. Both federal and state government agencies have heightened civil and criminal enforcement efforts in recent years and expanded collaborative program integrity initiatives. These efforts have led to a number of investigations, prosecutions, convictions, and settlements in the healthcare industry involving federal civil and criminal false claims laws, other healthcare fraud and abuse laws, and civil monetary penalties laws, including the FCA. Further, under the FCA, private parties may bring *qui tam*, or "whistleblower," lawsuits on behalf of the government in connection with alleged false claims for payments submitted to the government or improper retention of overpayments, and these types of actions can be "under seal" for a long period of time while regulatory authorities investigate. The private parties who bring FCA lawsuits are entitled to share in any amounts recovered by the government. When an entity is determined to have violated the FCA and other criminal healthcare fraud laws, the government may impose substantial civil and criminal fines and penalties for each false claim, plus up to treble damages, and exclude the entity from participation in Medicare, Medicaid, and other federal healthcare programs. In addition, a number of states have adopted their own false claims and whistleblower provisions.

We have been, are currently, and may in the future be subject to lawsuits, qui tam actions, CIDs, subpoenas, investigations, audits, and other inquiries related to our operations. We have also been, are currently, and may be in the future, subject to subpoenas, CIDs, actions, or investigations relating to our arrangements and interactions with third parties such as healthcare professionals, healthcare institutions, market participants, or patients.

For example, in March 2025, we received a CID from the DOJ in connection with an investigation under the False Claims Act regarding our compliance with Medicare's date of service rule (also referred to as the 14-day rule), particularly focused on patients of certain health care providers, and our policies, procedures, and training related to compliance with the 14-day rule. The related investigation continues to evolve and is in too early a stage to assess potential outcomes. We are cooperating with the investigation. We have implemented compliance policies, procedures, and training designed to foster compliance with the 14-day rule, but there can be no certainties regarding the outcome of the CID. In June 2022, we entered into a settlement agreement with the United States in connection with a previous investigation into our compliance with the 14-day day rule. Pursuant to this settlement agreement, under which we admitted no fault or liability, we paid approximately $2.9 million in restitution and penalties and we obtained a nationwide release from all 14-day rule claims prior to January 1, 2018. For additional information see “Business—Legal Proceedings.” These interactions could result in the government or other parties pursuing legal claims against us that may result in liabilities, including damages penalties, the potential for exclusion from participation in federal healthcare programs, or the imposition of additional compliance and reporting requirements as part of a corporate integrity agreement, any of which could have an adverse effect on our business, financial condition, reputation, and results of operations.

We are subject to audits and investigations of the ordering, billing, and coding of our solutions, including whether these services were properly ordered, billed, and coded or otherwise compliant with requirements for coverage and payment. In particular, as a result of our participation in the Medicare and Medicaid programs, we face and are currently subject to various governmental reviews, audits, and investigations to verify our compliance with these program requirements and applicable laws and regulations. Government agencies and their agents, such as the MACs and Recovery Audit Contractors (“RACs”), as well as the OIG, CMS, and state Medicaid programs, conduct audits of post-payment reviews to detect and correct improper payments in the Medicare program. Private third-party payers conduct similar reviews, audits and pre-payment and post-payment audits. Government agencies and their contractors and other third-party payers regularly conduct audits and request documentation to support claims submitted for payment of services rendered and compliance with claim submission requirements. We are routinely subject to audits under various government programs and third-party payers, and any delays timely providing requested records, negative audit findings or allegations of fraud or abuse may subject us to liability, such as overpayment liability, refunds or recoupments of previously paid claims, payment suspension or the revocation of billing or payment privileges in governmental healthcare programs or other third-party payer programs. Such actions, if imposed on us or our subsidiaries, could adversely impact our business, financial condition, and results of operations. In addition, we perform internal audits and monitoring. Depending on the nature of the conduct uncovered in such audits, and whether the underlying conduct could be considered systemic, the resolution of these audits could have an adverse effect on our business, financial condition, and results of operations.

Responding to government investigations, qui tam lawsuits, payer audits, subpoenas, CIDs, or other legal and administrative proceedings can be time- and resource-consuming and can divert management’s attention from the business. Even an unsuccessful challenge or investigation into our practices could cause unfavorable publicity and require us to incur significant costs, resulting in an adverse effect to our reputation and business. If our operations are found to be in violation of applicable laws or regulations, we may be subject to civil and criminal penalties, including significant fines or damages or other sanctions, including exclusion from government healthcare programs. Settlements of lawsuits involving Medicare and Medicaid issues routinely require both monetary payments and corporate integrity agreements that require the imposition of substantial compliance and reporting requirements, any of which could have an adverse effect on our business, financial condition, and results of operations.

***Healthcare reform measures or changes in policy or government spending could cause significant harm to our business, financial condition, and results of operations.***

Healthcare systems are subject to ongoing reform in the United States and abroad. Federal and state governments have made, and continue to make, significant modifications to the Medicare and Medicaid programs through statutory and regulatory changes, administrative rulings and other interpretations and determinations. For example, in the United States, the ACA made a number of substantial changes to the way healthcare is financed both by government and private insurers. The ACA, among other things,

included provisions governing enrollment in federal and state healthcare programs, reimbursement matters, and fraud and abuse. We expect these and other provisions will influence our industry and our operations in ways that we cannot currently predict. Since its enactment, there have been judicial and congressional challenges to certain aspects of the ACA. For example, on June 17, 2021, the U.S. Supreme Court dismissed a challenge on procedural grounds that argued the ACA is unconstitutional in its entirety because the "individual mandate" was repealed by Congress. In addition, on August 16, 2022, President Biden signed the Inflation Reduction Act of 2022 (the "IRA") into law, which among other things, extends enhanced subsidies for individuals purchasing health insurance coverage in ACA marketplaces through plan year 2025. The IRA also eliminates the "donut hole" under the Medicare Part D program beginning in 2025 by significantly lowering the beneficiary maximum out-of-pocket cost and creating a new manufacturer discount program. It is possible that efforts to reform, modify, or repeal parts of the ACA may continue under the new presidential administration.

In recent years, legislative and regulatory changes have resulted in limitations and reductions in reimbursement levels and payments to healthcare providers for certain services under the Medicare program. For example, In April 2014, Congress passed PAMA, which included substantial changes to the way in which clinical laboratory services are paid under Medicare. In addition, Congress established automatic spending reductions under the Budget Control Act of 2011 (the "BCA"), resulting in a 2% reduction in Medicare payments that began in 2013, and due to subsequent legislative amendments, will remain in effect until 2032, unless additional Congressional action is taken. In addition, as a result of the American Rescue Plan Act of 2021 ("ARPA"), an additional Medicare payment reduction of up to 4% was required to take effect in January 2022; however, Congress has delayed implementation of this reduction until 2025. It is difficult to predict whether, when or what other deficit reduction initiatives may be proposed by Congress. We anticipate that the federal budget deficit will continue to place pressures on government healthcare programs and impose additional spending reductions.

In addition to changing federal policy and regulatory oversight, states and third-party payers may also introduce proposals and polices to reduce costs while expanding individual healthcare benefits. Certain of these proposals may limit the prices we will be able to charge for our solutions or limit coverage of or lower reimbursement for the procedures associated with the use of our solutions. Healthcare reform and pricing of prescription drugs and medical devices, including clinical laboratory tests, are and will remain a key bipartisan issue. Policies to be pursued in the future may be more aggressive, regardless of which party controls the White House or houses of Congress. Uncertainty surrounding future changes may adversely affect our operating environment and therefore our business, financial condition, results of operations, and growth prospects.

We cannot predict whether or when these or other recently enacted healthcare initiatives will be implemented at the federal or state level or in foreign jurisdictions, or the full impact of current or future healthcare reform measures on our business. For example, the payment reductions imposed by the ACA and the changes to the reimbursement amounts paid by Medicare for tests based on the procedures set forth in PAMA, could limit the prices we are able to charge or the amount, if any, of available reimbursement or coverage for our solutions, which would reduce our revenue. Additionally, these healthcare policy changes could be amended or additional healthcare initiatives could be implemented in the future.

Further, the impact on our business of the expansion of the federal and state governments' role in the U.S. healthcare industry generally, including the social, governmental, and other pressures to reduce healthcare costs while expanding individual benefits is uncertain.

Statutory, regulatory, and policy changes, or government budget and funding levels, may also impact the ability of the FDA, the Department of Health and Human Services (including CMS) and other regulatory authorities to perform their regulatory functions. Inadequate funding or staffing for such organizations and/or potentially shifting priorities, including under the new administration, could prevent or delay regulatory reviews and approval processes on which certain of our initiatives may rely, adversely affect agencies' ability to hire and retain key personnel, or otherwise prevent those agencies from timely performing normal business functions on which the operation of our business may rely, any of which could negatively impact our business.

The current Trump administration is pursuing policies to reduce regulations and expenditures across government including at HHS, the FDA, CMS, and related agencies. These actions, presently directed by executive orders or memoranda from the Office of Management and Budget, may propose policy changes that create additional uncertainty for our business. Further, in June 2024, the U.S. Supreme Court reversed its longstanding approach under the Chevron doctrine, which provided for judicial deference to regulatory agencies' interpretation of statutes that are silent or ambiguous, including the FDA and CMS. As a result of this decision, we cannot be sure whether there will be increased challenges to existing agency regulations or how lower courts will apply the decision in the context of other regulatory schemes without more specific guidance from the U.S. Supreme Court. For example, this decision may result in more companies bringing lawsuits against the regulatory agencies to challenge current regulations and longstanding decisions and policies of the FDA or CMS, which could lead to uncertainties in the industry. We cannot predict the full impact of this decision, future judicial challenges brought against the FDA, CMS, or other regulatory agencies, or the nature or extent of government regulation that may arise from future legislation or administrative action.

***The marketing authorization processes of the FDA and comparable foreign regulatory authorities are lengthy, time-consuming, and unpredictable. If we are ultimately unable to obtain any necessary or desirable marketing authorizations, or if such marketing authorizations are significantly delayed, our business will be substantially harmed.***

Except for MI Cancer Seek, for which we have obtained a PMA approval from the FDA, we currently offer our NGS solutions, MI Tumor Seek Hybrid and Caris Assure, and our AI solutions, such as GPSai and FOLFIRSTai, as LDTs. See "—We have current solutions marketed as LDTs and plan to launch future solutions as LDTs. The regulation of LDT products in the United States remains subject to significant uncertainty, and if we fail to comply with any new or existing legal requirements with respect to our LDT solutions, our business, financial condition, and results of operations could be adversely affected." We currently anticipate eventually seeking FDA approval for Caris Assure and additional solutions. The time required and ability to obtain marketing authorization from the FDA and comparable foreign regulatory authorities is unpredictable and typically takes several years following the commencement of clinical trials, and depends upon numerous factors, including the type, complexity, and novelty of our solutions. In addition, policies, laws, regulations, or the type and amount of clinical data necessary to gain marketing authorization may change during the course of a test's clinical development and may vary among jurisdictions, which may cause delays in the marketing authorization of, or the decision not to approve, an application. Regulatory authorities have substantial discretion in the premarket review process and may refuse to accept any application, decide that our data are insufficient for marketing authorization, require additional clinical or other data, or determine that our manufacturing and quality systems are insufficient or in violation of applicable requirements. Even if we believe our data are sufficient to support marketing authorization, regulatory authorities may disagree, or may require the generation and submission of additional data or analyses, which could significantly delay or preclude marketing authorization.

Before a new medical device can be marketed in the United States, a company must first submit a premarket notification to FDA and receive clearance by FDA under Section 510(k) of the FDCA, a PMA application and receive approval by FDA under Section 515 of the FDCA, or a *de novo* classification request and receive a grant of the request from the FDA under section 513(f)(2) of the FDCA, unless an exemption applies. In the 510(k) clearance process, before a device may be marketed, the FDA must determine that a proposed device is "substantially equivalent" to a legally-marketed "predicate" device, which includes a device that has been previously cleared through the 510(k) process, a device that was legally marketed prior to May 28, 1976 (pre-amendments device), a device that was originally on the U.S. market pursuant to an approved PMA and later down-classified, a device that was classified under the *de novo* classification pathway, or a 510(k)-exempt device. To be "substantially equivalent," the proposed device must have the same intended use as the predicate device, and either have the same technological characteristics as the predicate device or have different technological characteristics and not raise different questions of safety or effectiveness than the predicate device and performance data show that the proposed device is as safe and effective as the predicate device. Clinical data are sometimes required to support substantial equivalence. In the process of obtaining PMA approval, the FDA must determine that a proposed device is safe and effective (which means analytically valid and clinically valid in the case of tests) for its intended use based, in part, on extensive data, including, but not limited to, technical, pre-clinical, clinical trial, manufacturing and labeling data.

The PMA process is typically required for devices that are deemed to pose the greatest risk, such as life-sustaining, life-supporting or implantable devices. In the *de novo* classification process, a manufacturer whose novel device under the FDCA would otherwise be automatically classified as Class III and require the submission and approval of a PMA prior to marketing is able to request down-classification of the device to Class I or Class II on the basis that the device presents a low or moderate risk. If Class II, new special controls will be required to provide reasonable assurance of safety and effectiveness of the device. If the FDA grants the *de novo* classification request, the applicant will receive authorization to market the device. This device type may be used subsequently as a predicate device for future 510(k) submissions.

The PMA approval, 510(k) clearance and *de novo* classification processes can be expensive, lengthy, and uncertain. The FDA's 510(k) clearance process usually takes from three to 12 months, but can take longer. The process of obtaining a PMA approval or *de novo* classification is much more costly and uncertain than the 510(k) clearance process and the FDA has 180 days from the day of filing under the FDC Act to complete its review of the PMA and FDA endeavors to review *de novo* classification requests within 150 days, although, in practice, the FDA's review often takes significantly longer. In addition, a PMA generally requires the performance of one or more clinical trials. Despite the time, effort and cost, a device may not obtain marketing authorization by the FDA. Any delay or failure to obtain necessary marketing authorizations could harm our business. Furthermore, even if we are granted such marketing authorizations, they may include significant limitations on the indicated uses for the solution, which may limit the potential commercial market for the solution.

In the United States, any modification to a product for which we receive marketing authorization may require us to submit a new 510(k) notification and obtain clearance, to submit a supplemental PMA and obtain FDA approval, or to submit a *de novo* request prior to implementing the change. For example, any modification to a 510(k)-cleared device that could significantly affect its safety or effectiveness, or that would constitute a major change in its intended use, design, or manufacture, generally requires a new 510(k) clearance or other marketing authorization. The FDA requires every manufacturer to make such determinations in the first instance, but the FDA may review any manufacturer's decision. The FDA may not agree with a manufacturer's decisions regarding whether new marketing authorizations is necessary. If we obtain market authorizations from the FDA, we may make modifications or add additional features in the future that we believe do not require a new 510(k) clearance, *de novo* request or approval of a PMA or supplement. If the FDA disagrees with our determination and requires us to seek new marketing authorizations for the modifications for which we have concluded that new marketing authorizations are unnecessary, we may be required to cease marketing and/or to recall the modified product until we obtain such marketing authorization, and we may be subject to significant regulatory fines or penalties. If the FDA requires us to go through a lengthier, more rigorous examination for future solutions or modifications to existing solutions than we had expected, solution introductions or modifications could be delayed or canceled, which could adversely affect our business.

The FDA or other regulators can delay, limit, or deny marketing authorization of a product for many reasons, including but not limited to the following:

- the FDA or comparable foreign regulatory authorities may disagree with the design, implementation, or results of, or interpretation of the data from, our clinical trials;
- the FDA or comparable foreign regulatory authorities may determine that our solution has not been shown to be safe and effective or substantially equivalent to a predicate device, or has other characteristics that preclude us from obtaining marketing authorization or prevent or limit its commercial use (for example, a narrowed indication for use claim);
- the population studied in the clinical program may not be sufficiently broad, generalizable, or representative of the intended target population of our solution to assure effectiveness and safety in the population for which we seek approval or clearance;
- the FDA or comparable foreign regulatory authorities may disagree with our interpretation of data from clinical trials or may fail to accept data from clinical trials (or clinical sites), including if we fail to establish the integrity of our data;
- the FDA or comparable foreign regulatory authorities may determine that our clinical trials otherwise fail to comply with applicable regulations;

- serious or unexpected adverse effects or other performance issues are identified with our solutions;
- the FDA or comparable foreign regulatory authorities may determine that our manufacturing or quality system fails to comply with applicable regulations or otherwise fails to meet the standards necessary to support approval; and
- the approval policies or regulations of the FDA or comparable foreign regulatory authorities may significantly change in a manner rendering our clinical data insufficient for approval.

There can be no assurance that our solutions for which we may seek marketing authorization will receive such marketing authorization from by the FDA or a comparable foreign regulatory authority on a timely basis, if at all, nor can there be assurance that labeling claims will be consistent with our anticipated claims or adequate to support continued adoption of, and reimbursement for, our solutions. If our solutions receive marketing authorization but there is uncertainty about such solutions among providers or payers, or if the approved or cleared indication or other labeling claims the FDA or a comparable foreign regulatory authority has authorized us to make are more limited than we expect, reimbursement may be adversely affected and we may not be able to sell our solutions. Compliance with FDA or comparable foreign regulatory authority regulations will require substantial costs, and subject us to heightened scrutiny by regulators and substantial penalties for failure to comply with such requirements or the inability to market our solutions, if authorized. The lengthy and unpredictable marketing authorization processes, as well as the unpredictability of the results of our clinical trials, may result in our failing to obtain marketing authorization to market our solutions, which would significantly harm our business, results of operations, reputation, and prospects.

***Ethical, legal, and social concerns related to the use of genomic information could reduce demand for our solutions.***

Genomic testing, like that conducted using our solutions, has raised ethical, legal, and social issues regarding privacy and the appropriate uses of the resulting information. Governmental authorities could, for social or other purposes, limit or regulate the use of genomic information or genomic testing or prohibit testing for genetic predisposition to certain conditions, particularly for those that have no known cure. Similarly, these concerns may lead patients to refuse to use genomic and somatic profiling tests even if permissible.

Ethical and social concerns may also influence U.S. and foreign patent offices and courts with regard to patent protection for technology relevant to our business. These and other ethical, legal, and social concerns may limit market acceptance of our solutions or reduce the potential markets for services enabled by our platform, either of which could have an adverse effect on our business, financial condition, and results of operations.

***If the validity of an informed consent from patients regarding our solution was challenged and proven invalid, unlawful, or otherwise inadequate for our purposes, we could be forced to stop offering our solutions or using our resources, our business, financial condition, and results of operations will be adversely affected.***

We offer our solutions to physicians and to biopharma companies in connection with clinical trials. We generally rely on treating physicians to obtain required informed consent under applicable state laws, but we have also recently implemented measures to ensure that data and biological samples that we receive have been collected from subjects who have provided appropriate informed consent. We also conduct validation studies, or act as a sponsor of clinical trials in connection with the development and validation of our solutions, which are frequently conducted in collaboration with different parties. We submit for projects that meet the definition of “human subjects research,” to the IRB, or other reviewing body for review and approval of processes for subject informed consent and authorization for use of personal information or waivers thereof. We and our biopharma partners could conduct clinical trials in a number of different countries. When we are acting as a vendor in connection with a clinical trial sponsored by our biopharma partners, we rely upon them to comply with the requirements to obtain the subject’s informed consent and to comply with applicable laws and regulations. The collection of data and samples in many different countries results in complex legal questions regarding the adequacy of informed consent and the status of genetic material under a large number of different legal systems. Those informed consents could be challenged and

proven invalid, unlawful, or otherwise inadequate for our purposes. Any such findings against us, or our biopharma partners, could force us to stop accessing or using data and samples or servicing or conducting clinical trials, which would hinder our product offerings or development. We could also become involved in legal actions, which could consume our management and financial resources.

***If we fail to comply with applicable data interoperability and information blocking rules, our business, financial condition, and results of operations could be adversely affected.***

The 21st Century Cures Act (the "Cures Act"), which was passed and signed into law in December 2016, includes provisions related to data interoperability, information blocking and patient access. In March 2020, the HHS Office of the National Coordinator for Health Information Technology ("ONC") finalized and issued complementary rules that are intended to clarify provisions of the Cures Act regarding interoperability and information blocking, and include, among other things, requirements surrounding information blocking and changes to ONC's health IT certification program. The companion rules will transform the way in which healthcare providers, health IT developers, health information exchanges/health information networks and health plans share patient information, and create significant new requirements for healthcare industry participants. For example, the ONC rule, which went into effect on April 5, 2021, prohibits healthcare providers from engaging in practices that are likely to interfere with, prevent, materially discourage, or otherwise inhibit the access, exchange, or use of electronic health information ("EHI"), also known as "information blocking." To further support access and exchange of EHI, the ONC rule identifies eight "reasonable and necessary activities" as exceptions to information blocking activities, as long as specific conditions are met. On July 3, 2023, the HHS Office of the Inspector General ("HHS-OIG") published its final rule implementing information blocking penalties for "actors," which is supplemented by ONC's January 9, 2024 final rule enhancing certain information blocking requirements, under which HHS-OIG may impose penalties for information blocking that has occurred after September 1, 2023. In addition, ONC and HHS proposed a rule on November 1, 2023, listing "appropriate disincentives" for noncompliance by healthcare providers. If we fail to comply with the requirements, it may negatively impact our business operations. The goals of increased use of electronic health data and interoperability are improved quality of care and lower healthcare costs generally. However, increased use of electronic health data and interoperability inherently magnifies the risk of security breaches involving that data and information systems used to share it. For additional information, see "—Risks Related to Our Business and Industry —If our information technology systems or those of third parties with whom we work, or our data are or were compromised, we could experience adverse consequences resulting from such compromise, including but not limited to regulatory investigations or actions; litigation; fines and penalties; disruptions of our business operations; reputational harm; loss of revenue or profits; and other adverse consequences." Any failure to comply with these rules could adversely affect our business, financial condition, and results of operations.

***If we or our partners fail to comply with federal, state, and foreign laboratory and other applicable licensing and registration requirements, we could be prevented from performing our solutions or experience disruptions to our business.***

CLIA is a federal law that regulates clinical laboratories that perform testing on specimens derived from humans for the purpose of providing information for the diagnosis, prevention, or treatment of disease, or impairment of, or the assessment of the health of, human beings. CLIA regulations require, among other things, clinical laboratories to obtain a certificate and mandate specific standards in the areas of personnel qualifications, administration, participation in proficiency testing, test management, and quality assurance. CLIA certification is also required for us to be eligible to bill state and federal healthcare programs, if such reimbursement is otherwise available, as well as many private third-party payers, for our solutions. Certain product additions to our solution menu require notification to regulatory and accrediting bodies that regulate our laboratories. To renew these certifications, we are subject to routine surveys and inspections. Moreover, CLIA inspectors may make random or "for cause" inspections of our clinical laboratories.

We currently have two commercial clinical laboratory facilities in Phoenix, Arizona, and we are in the process of building out our newest clinical laboratory in Irving, Texas. Both of the Phoenix laboratory facilities hold independent CLIA Certificates of Accreditation. A CLIA Certificate of Accreditation is issued

to a laboratory facility that performs moderate and/or high complexity testing after an accreditation organization conducts a survey and determines that the laboratory is in compliance with the CLIA regulations. Our laboratory facility in Irving, Texas will seek a CLIA Certificate of Registration from CMS, and upon required inspection, anticipate receiving a CLIA Certificate of Accreditation. The CLIA Certificate of Registration allows the laboratory facility to begin conducting moderate and/or high complexity testing, subject to a survey to determine compliance with the CLIA regulations. After a laboratory obtains a Certificate of Registration, CLIA begins scheduling regular, routine inspections. Once the inspection process for the laboratory facility is successfully completed, the facility qualifies for a CLIA Certificate of Accreditation and thereafter is inspected every two years.

Both of our Phoenix laboratories hold CAP accreditations upon which our CLIA Certificate of Accreditation are based. CAP typically conducts biannual surveys of each facility. Any failure to pass inspections, maintain our CAP accreditation, CLIA Certificate of Registration, CLIA Certificate of Accreditation, or state licenses, or add new validated solutions to our laboratory offerings could significantly harm our business, results of operations, and prospects.

In addition to obtaining federal certification for a laboratory under CLIA, we are also required to obtain and maintain state licenses to conduct profiling in our laboratories. Neither Arizona (where we currently operate two clinical laboratories) nor Texas (where we are completing the build-out of our newest clinical laboratory) requires us to obtain and maintain state licenses to conduct profiling in our laboratories. However, some states require out-of-state licensure if we test specimens originating from those states and return patient-specific results. Our tissue-based Arizona facility has obtained licenses from California, Rhode Island, Maryland, New York, and Pennsylvania, and our blood-based Arizona facility has obtained licenses from California, Maryland, Pennsylvania, and Rhode Island. If we have a blood-based profiling solution approved by New York state, we will also obtain a New York license for our blood-based facility.

For example, to be able to receive specimens originating from New York, we must obtain and maintain a New York State Department of Health clinical laboratory permit. We have a New York State Department of Health clinical laboratory permit for our tissue-based Arizona facility, and we intend to apply for such a permit for our other commercial facilities. Research testing (which we conduct at our R&D laboratory in Tempe, Arizona), however, does not require licensure if patient-specific results are not generated and/or returned for diagnostic purposes. As our blood-based Arizona facility does not currently operate in New York, we have not sought a New York laboratory permit. We cannot guarantee that the New York State Department of Health will issue a clinical laboratory permit for our Texas facility or our blood-based Arizona facility, and if we do not receive this permit, our business may be adversely impacted. In addition, New York laws and regulations establish rigorous standards for day-to-day operation of a clinical laboratory, including training and skill levels required of laboratory personnel, physical requirements of a facility, equipment, and validation and quality control, and we are required to abide by these laws and regulations as a permit holder. Failure to comply with these laws and regulations could result in various significant penalties, including loss of our New York permit, fines and other penalties, or limitations on our potential profiling population, which could adversely impact our business. New York also requires specific reporting for companies in the oncology space. Failure to comply with any established reporting requires could negatively impact our license.

The states that require us to hold an out-of-state license may change, and we are uncertain whether states will continue to grant or may require us to hold these licenses in the future. Any failure or inability on our part to obtain required state licensure may result in substantial penalties, including prohibition form billing certain payers and thus adversely affect our business.

In connection with CLIA certification and state laboratory licensing and permitting, we remain subject to a number of risks in the event of noncompliance. Any sanction imposed under CLIA, its implementing regulations, or state or foreign laws or regulations governing licensure or permitting, or our failure to renew or maintain a CLIA certificate, a state license or permit, or accreditation (including CAP), could adversely affect our business and reputation. CMS also has the authority to impose a wide range of sanctions, including suspension, limitation, or revocation of the CLIA certification, termination of Medicare and Medicaid participation, civil money penalties, and a bar on the ownership or operation of a CLIA-certified laboratory by any owners or operators of the deficient laboratory. If we fail to obtain any required state licensure, or lose CLIA certification, CAP accreditation, or licensure once obtained, we

would not be able to operate our clinical laboratories and offer our solutions in full or in particular states, which would adversely impact our business, financial condition, and results of operations. Even if we were able to bring our laboratory back into compliance, we could incur significant expenses and potentially lose revenue in doing so.

In addition to state laboratory licensing laws, we may also be subject to foreign state registration and/or licensing requirements that apply to companies that manufacture medical devices. Certain states may require such registrations or licenses before the solutions are commercialized, including while manufacturers are evaluating the devices in clinical trials. Violations of these laws may result in a range of potential sanctions or penalties which could include the denial, suspension, limitation or revocation of the registration or license, as well as other fines and penalties, including imprisonment.

In addition, our pathologists are subject to individual medical licensure requirements and our pathologists, physicians, and geneticists could also be subject to in the future additional licensure requirements under state law. If the physicians and geneticists are not able to timely maintain, obtain or otherwise satisfy any new licensure requirements, this could have a negative impact on our operations.

***Data from our clinical trials that we announce or publish from time to time before our trials are complete may change as more patient data become available and are subject to audit and verification procedures that could result in material changes in the final data.***

From time to time, we may publicly disclose preliminary or topline data from our validation studies and clinical trials that we conduct ourselves or in partnership with other organizations, including on the application of Caris Assure in early detection, MRD tracking, and treatment monitoring, and Caris ChromoSeq, which is based on a preliminary analysis of then-available data, and the results and related findings and conclusions are subject to change following a more comprehensive review of the data related to the particular trial. We also make assumptions, estimations, calculations, and conclusions as part of our analyses of data, and we may not have received or had the opportunity to fully and carefully evaluate all data. As a result, the topline or preliminary results that we report may differ from future results of the same studies, or different conclusions or considerations may qualify such results once additional data have been received and fully evaluated. Topline and preliminary data also remain subject to audit and verification procedures that may result in the final data being materially different from the topline or preliminary data we previously published. As a result, topline and preliminary data should be viewed with caution until the final data are available.

From time to time, we may also disclose interim data from our validation studies that we conduct or from our clinical trials. Interim data from these studies or trials that we may complete are subject to the risk that one or more of the clinical outcomes may materially change as subject enrollment continues and more data become available. Adverse differences between interim data and top-line, preliminary, or final data could significantly harm our business prospects. Further, disclosure of interim data by us or by our competitors could result in volatility in the price of our common stock.

Further, others, including regulatory agencies, may not accept or agree with our assumptions, estimates, calculations, conclusions, or analyses or may interpret or weigh the importance of data differently, which could impact the value of the particular program, and our ability to receive coverage, marketing authorization or commercialize a particular solution and our company in general. In addition, the information we choose to publicly disclose regarding a particular study or clinical trial is based on what is typically extensive information, and you or others may not agree with what we determine is the material or otherwise appropriate information to include in our disclosure, and any information we determine not to disclose may ultimately be deemed significant with respect to future decisions, conclusions, views, activities or otherwise regarding our business. If the data that we report differ from final results, or if others, including regulatory authorities, disagree with the conclusions reached, our ability to commercialize or obtain marketing authorization for, our solutions may be harmed, which could harm our reputation, business, financial condition, results of operations, and prospects.

***Any solution for which we obtain marketing authorization will be subject to extensive ongoing regulatory requirements, and we may be subject to penalties if we or our partners fail to comply with regulatory requirements or if we experience unanticipated problems with our solutions.***

Medical devices, along with the manufacturing processes, post-market surveillance, labeling, packaging, advertising, and promotion, distribution, storage, import, export, reporting, and recordkeeping

for such solutions, are subject to continued regulatory review, oversight, requirements, and periodic inspections by the FDA and comparable foreign regulatory authorities. These requirements include submissions of safety and other post-marketing information and reports; registration and listing requirements; requirements relating to quality control, quality assurance, cyber security, and corresponding maintenance of records and documents; requirements relating to recalls, removals, and corrections; and requirements relating to product labeling, advertising and promotion, and recordkeeping. It is uncertain whether our currently-marketed LDTs will become subject to these or any other requirements. See "Risk Factors—We have current solutions marketed as LDTs and plan to launch future solutions as LDTs. The regulation of LDT products in the United States remains subject to significant uncertainty, and if we fail to comply with any new or existing legal requirements with respect to our LDT solutions, our business, financial condition, and results of operations could be adversely affected." Regardless, the regulations to which we are subject are complex and have tended to become more stringent over time. Regulatory changes could result in restrictions on our ability to carry on or expand our operations, higher than anticipated costs or lower than anticipated sales. The FDA enforces these regulatory requirements through, among other means, periodic unannounced inspections. We do not know whether we will be found compliant in connection with any future regulatory inspections.

Marketing authorization of a test or device may be subject to limitations by the regulatory body as to the indicated uses for which the product may be marketed or to other conditions of marketing authorization. In addition, marketing authorization may contain requirements for costly post-marketing testing and surveillance to monitor the safety or effectiveness of the test or device. Discovery of problems with our solutions, suppliers, vendors, contract manufacturers, manufacturing processes (including software validation), and/or failure to comply with regulatory requirements, may result in actions such as:

- restrictions on operations of our laboratories;
- restrictions on manufacturing processes;
- restrictions on marketing of a product;
- Untitled or Warning letters;
- withdrawal or recall of the product from the market or seizure of the product;
- refusal to approve applications or supplements to approved applications that we may submit;
- fines, restitution or disgorgement of profits or revenue;
- suspension, limitation, or withdrawal of marketing authorization;
- exclusion from participation in U.S. federal or state healthcare programs, such as Medicare and Medicaid;
- safety communications;
- refusal to permit the import or export of our solution;
- injunctions; or
- imposition of civil or criminal penalties.

Any of these sanctions could result in higher than anticipated costs or lower than anticipated sales and adversely affect our reputation, business, financial condition, and results of operations.

In addition, the FDA may change its marketing authorization policies, adopt additional regulations or revise existing regulations, or take other actions. For example, in addition to the FDA's LDT Final Rule, a few months earlier in February 2024, the FDA issued a final rule to amend and replace the QSR, which sets forth the FDA's current good manufacturing practice requirements for medical devices, to align more closely with the International Organization for Standardization standards. Specifically, this final rule, which the FDA expects to go into effect on February 2, 2026, establishes the Quality Management System Regulation ("QMSR"), which among other things, incorporates by reference the quality management system requirements of ISO 13485:2016. Although the FDA has stated that the standards contained in ISO 13485:2016 are substantially similar to those set forth in the QSR, it is unclear the extent to which this

final rule, once effective, could impose additional or different regulatory requirements on us that could increase the costs of compliance or otherwise adversely affect our business. If we are unable to comply with the QMSR, once effective, or with any other changes in the laws or regulations enforced by the FDA or comparable regulatory authorities, we may be subject to enforcement action, which could have an adverse effect on our business, financial condition, and results of operations.

***For any solution we market that is or becomes subject to the FDA's medical device authority, we are or may become subject to the FDA's requirements to report to the FDA certain information about adverse medical events or malfunctions for any of our solutions, and if we fail to do so, we would be subject to sanctions that could harm our reputation, business, financial condition, and results of operations. The discovery of serious safety issues with our solutions, or a recall of our solutions either voluntarily or at the direction of the FDA or another governmental authority, could have a negative impact on us.***

Any solution we market that is or becomes subject to the FDA's medical device authority and any solution for which we obtain FDA marketing authorization, including MI Cancer Seek, is or will become subject to the FDA's medical device reporting regulations and similar foreign regulations, which require us to report to the FDA when we receive or become aware of information that reasonably suggests that one or more of these solutions may have caused or contributed to a death or serious injury or malfunctioned in a way that, if the malfunction were to recur, it could cause or contribute to a death or serious injury. Under the FDA's LDT Final Rule issued on May 6, 2024, and which was vacated by a federal District Court on March 31, 2025, any LDT that receives marketing authorization would be subject to these medical device reporting regulations, as applicable, if the rule is ultimately implemented. See "Risk Factors—"We have current solutions marketed as LDTs and plan to launch future solutions as LDTs. The regulation of LDT products in the United States remains subject to significant uncertainty, and if we fail to comply with any new or existing legal requirements with respect to our LDT solutions, our business, financial condition, and results of operations could be adversely affected." The timing of our obligation to report is triggered by the date we become aware of the adverse event as well as the nature of the event. We may fail to report adverse events of which we become aware within the prescribed timeframe. We may also fail to recognize that we have become aware of a reportable adverse event, especially if it is not reported to us as an adverse event or if it is an adverse event that is unexpected or removed in time from the use of the product. If we fail to comply with our reporting obligations, the FDA could take action, including warning letters, untitled letters, administrative actions, criminal prosecution, imposition of civil monetary penalties, revocation of our device marketing authorization, withdrawal of our solutions from the market, seizure of our solutions, or delay in marketing authorization of future solutions.

The FDA and foreign regulatory bodies have the authority to require the recall of commercialized products in the event of material deficiencies or defects in design or manufacture of a product or in the event that a product poses an unacceptable risk to health. The FDA's authority to require a recall must be based on a finding that there is reasonable probability that the device could cause serious injury or death. We may also choose to voluntarily recall a product if any material deficiency is found. A government-mandated or voluntary recall by us could occur as a result of an unacceptable risk to health, component failures, malfunctions, manufacturing defects, labeling or design deficiencies, packaging defects or other deficiencies, or failures to comply with applicable regulations. Product defects or other errors may occur in the future.

Depending on the corrective action we take to redress a product's deficiencies or defects, the FDA may require, or we may decide, that we will need to obtain new marketing authorizations for the device before we may market or distribute the corrected device. Seeking such marketing authorizations may delay our ability to replace the recalled devices in a timely manner. Moreover, if we do not adequately address problems associated with our devices, we may face additional regulatory enforcement action, including FDA warning letters, product seizure, injunctions, administrative penalties or civil or criminal fines.

Companies are required to maintain certain records of recalls and corrections, even if they are not reportable to the FDA. We may initiate voluntary withdrawals or corrections for our solutions in the future that we determine do not require notification of the FDA. If the FDA disagrees with our determinations, it could require us to report those actions as recalls and we may be subject to enforcement action. A future recall announcement could harm our reputation with customers, potentially lead to product

liability claims against us and negatively affect the adoption and use of our solutions. Any corrective action, whether voluntary or involuntary, as well as defending ourselves in a lawsuit, will require the dedication of our time and capital, distract management from operating our business and may harm our reputation and financial results.

***Our solutions will need to be manufactured and offered in accordance with federal and state regulations, and we could be forced to recall our devices or terminate production or offering our LDTs if we or our partners fail to comply with these regulations.***

The methods used in, and the facilities used for, the manufacture of medical devices must comply with the FDA's QSR requirements, which is a complex regulatory scheme that covers the procedures and documentation of the design, testing, production, process controls, quality assurance, labeling, packaging, handling, storage, distribution, installation, servicing, and shipping of medical devices. Furthermore, we are required to verify that our suppliers maintain facilities, procedures and operations that comply with our quality standards and applicable regulatory requirements. The FDA enforces the QSR requirements through periodic announced or unannounced inspections of medical device manufacturing facilities, which may include the facilities of subcontractors. Our solutions are also subject to similar state regulations and various laws and regulations of foreign countries governing manufacturing.

Our third-party manufacturers may not take the necessary steps to comply with applicable regulations, which could cause delays in the delivery of our solutions. In addition, in February 2024, the FDA issued a final rule to amend and replace the QSR, which sets forth the FDA's current good manufacturing practice requirements for medical devices, to align more closely with the International Organization for Standardization standards. Specifically, this final rule, which the FDA expects to go into effect on February 2, 2026, establishes the QMSR, which among other things, incorporates by reference the quality management system requirements of ISO 13485:2016. Although the FDA has stated that the standards contained in ISO 13485:2106 are substantially similar to those set forth in the QSR, it is unclear the extent to which this final rule, once effective, could impose additional or different regulatory requirements on us that could increase the costs of compliance or otherwise negatively affect our business. Failure to comply with applicable FDA requirements or later discovery of previously unknown problems with our solutions or manufacturing processes could result in, among other things: warning letters or untitled letters; fines, injunctions or civil penalties; suspension or withdrawal of approvals; seizures or recalls of our solutions; total or partial suspension of production or distribution; administrative or judicially imposed sanctions; FDA's refusal to grant pending or future marketing authorizations for our solutions; clinical holds; refusal to permit the import or export of our solutions; and criminal prosecution of us, our suppliers, or our employees.

Any of these actions could significantly and negatively affect supply of our solutions. If any of these events occurs, our reputation could be harmed, we could be exposed to product liability claims and we could lose customers, experience reduced sales, and increased costs.

***The misuse or off-label use of our solutions may harm our reputation in the marketplace, lead to product liability suits or result in costly investigations, fines, or sanctions by regulatory bodies if we are deemed to have engaged in the promotion of these uses, any of which could be costly to our business.***

Any marketing authorization we may receive for our solutions will be limited to specified indications for use. We train our marketing personnel and direct sales force to not promote our solutions for uses outside of FDA cleared or approved indications for use, known as "off-label uses." We cannot, however, prevent a physician from using our solutions off-label, when in the physician's independent professional medical judgment, he or she deems it appropriate.

If the FDA or any foreign regulatory body determines that our promotional materials or training constitute promotion of an off-label use, it could request that we modify our training or promotional materials or subject us to regulatory or enforcement actions, including the issuance or imposition of an untitled letter, which is used for violators that do not necessitate a warning letter, injunction, seizure, civil fine or criminal penalties. It is also possible that other federal, state or foreign enforcement authorities might take action under other regulatory authority, such as false claims laws, if they consider our business activities to constitute promotion of an off-label use, which could result in significant penalties, including,

but not limited to, criminal, civil and administrative penalties, damages, fines, disgorgement, exclusion from participation in government healthcare programs and the curtailment of our operations.

In addition, physicians may misuse our solutions if they are not adequately trained, potentially leading to injury and an increased risk of product liability. If our solutions are misused, we may become subject to costly litigation by our customers or their patients. As described above, product liability claims could divert management's attention from our core business, be expensive to defend and result in sizeable damage awards against us that may not be covered by insurance.

Misleading, untruthful, or unsubstantiated labeling, advertising, marketing, or promotional practices could adversely impact our business, financial condition, and results of operations. The FTC has instituted enforcement actions against certain healthcare testing companies for making false or misleading advertising claims and for failing to adequately substantiate claims made in advertising. These enforcement actions may result in warning letters, consent decrees, and the payment of civil penalties and/or restitution by the companies involved. Should the FTC determine that our claims are false or misleading or unsubstantiated, we could be subject to FTC enforcement action and may face significant penalties which may adversely impact our business, financial condition, and results of operations.

The labeling, advertising, marketing, and promotional practices related to our solutions is governed by numerous state and federal regulators, including the FDA and the FTC, as well as subject to third-party claims. Any statements related to our solutions that could be construed as misleading, untruthful, or unsubstantiated, could subject us to regulatory enforcement action, third-party lawsuits, or plaintiffs' complaints. Any of these actions could significantly and negatively affect our reputation, expose us to liability claims, and we could lose customers and experience reduced sales and increased costs.

***Our "research use only" and any potential "investigational use only" products could become subject to more onerous regulation by the FDA or other regulatory authorities in the future, which could increase our costs and delay our commercialization efforts, thereby materially and adversely affecting our business, financial condition, and results of operations.***

In the United States, some of our products are currently available, or may become available, for research use only ("RUO"), or for investigational use only ("IUO"), depending on the proposed application. We make our RUO and IUO products available to a variety of parties, including pharmaceutical and biotechnology companies and research institutes. Because RUO and IUO products are not intended for use in clinical practice and cannot be advertised or promoted for clinical or diagnostic claims, they are exempt from many regulatory requirements otherwise applicable to medical devices. In particular, FDA regulations require that RUO products be labeled "For Research Use Only. Not for use in diagnostic procedures," and IUO products be labeled "For Investigational Use Only. The performance characteristics of this product have not been established," and such products are not subject to the FDA's pre- and post-market controls for medical devices.

A significant change in the laws governing RUO or IUO products or how they are enforced may require us to change our business model in order to maintain compliance. In addition, even under the current law and governmental policies, there is a risk that the FDA may disagree with our characterization of whether a product is appropriately considered an "RUO" product that is not subject to FDA's premarket review or marketing authorization. For instance, in November 2013, the FDA issued a guidance document entitled "Distribution of In Vitro Diagnostic Products Labeled for Research Use Only or Investigational Use Only" (the "RUO/IUO Guidance"), which indicates that distribution of RUO or IUO products with written or verbal statements in any labeling, advertising or promotion suggesting that clinical laboratories can validate the test through their own procedures and subsequently offer it for clinical diagnostic use as an LDT would conflict with the RUO or IUO status. The RUO/IUO Guidance further indicates that any assistance offered in performing clinical validation or verification, or similar specialized technical support, to clinical laboratories, would conflict with the RUO or IUO status of the product. If we engage in any activities that the FDA deems to be in conflict with the RUO or IUO status held by any of our products so labeled, we may be subject to immediate, severe, and broad FDA enforcement action that would adversely affect our ability to continue operations. Accordingly, if the FDA finds that we are distributing our RUO or IUO products in a manner that is inconsistent with its RUO/IUO requirements and restrictions, we may

be forced to stop distribution of our RUO/IUO tests until we are in compliance, which would reduce our revenue, increase our costs, and adversely affect our business, financial condition, and results of operations.

***Changes in funding or disruptions at the FDA and other government agencies caused by funding shortages, staffing limitations, or global health concerns could hinder their ability to hire and retain key leadership and other personnel, or otherwise prevent new or modified products from being developed, approved or commercialized in a timely manner or at all, or otherwise prevent those agencies from performing normal business functions on which the operation of our business may rely, which could adversely impact our business.***

The ability of the FDA to review and provide marketing authorization of new products or changes to existing products can be affected by a variety of factors, including government budget and funding levels, statutory, regulatory, and policy changes, the FDA's ability to hire and retain key personnel and accept the payment of user fees, federal government shutdowns, and other events that may otherwise affect the FDA's ability to perform routine functions. Average review times at the agency have fluctuated in recent years as a result. In addition, government funding of other government agencies that fund R&D activities is subject to the political process, which is inherently fluid and unpredictable. Decreases in government funding of research and development, including termination of federal employees and any reductions in funding to the U.S. National Institutes of Health may impact our business, as could changes in government programs that provide funding to research institutions and companies, including changes in the amount of funds allocated to different areas of research or changes that have the effect of increasing the length of time of the funding process. Disruptions at the FDA and other government agencies may also slow the time necessary for new medical devices or modifications to FDA cleared or approved medical devices to be reviewed and/or approved by necessary government agencies, which could adversely affect our business. For example, in recent years, the U.S. government has shut down several times and certain regulatory agencies, such as the FDA, have had to furlough critical FDA employees and stop critical activities. In addition, the current U.S. Presidential administration has issued certain policies and Executive Orders directed towards reducing the employee headcount and costs associated with U.S. administrative agencies, including the FDA, and it remains unclear the degree to which these efforts may limit or otherwise adversely affect the FDA's ability to conduct routine activities.

In addition, during the COVID-19 pandemic, the FDA postponed most inspections of domestic and foreign manufacturing facilities at various points. If a prolonged government shutdown occurs, or if funding shortages, staffing limitations or renewed global health concerns prevent the FDA or other regulatory authorities from conducting their regular inspections, reviews, or other routine activities, it could significantly impact the ability of the FDA or other regulatory authorities to timely review and process our regulatory submissions, which could adversely affect our business.

***The Federal Policy for the Protection of Human Subjects or related state regulations may be revised or altered in a way that negatively impacts our business.***

The Federal Policy for the Protection of Human Subjects (typically referred to as the Common Rule) may be altered in a way that prevents or restricts us from using patient samples or clinical trial data to further develop or validate our solutions or future AI/ML algorithms which rely upon identifiable data. The revised Common Rule, effective as of July 19, 2018, allows the use of prospective consent to unspecified future research (i.e., "broad consent") from a human subject for the storage, maintenance, and secondary use of identifiable private information and identifiable biospecimens in research activities. We obtain both identifiable and de-identified data which we use to develop our solutions through biospecimen repositories and from our biopharma partners. If regulations allowing broad consent or the regulatory definition of "research" changes in a way that excludes our research activities, our business may be negatively impacted. State laws governing clinical research may complicate our compliance efforts and add costs and delay to our R&D activities.

***Our business activities are subject to the FCPA and similar anti-bribery and anti-corruption laws, as well as export and import controls and economic sanctions laws and regulations of the United States and other jurisdictions.***

Our business activities are subject to the Foreign Corrupt Practices Act of 1977, as amended (the "FCPA"), and similar anti-bribery or anti-corruption laws, regulations, or rules of other countries, such as

the U.K. Bribery Act. The FCPA generally prohibits offering, promising, giving, or authorizing others to give anything of value, either directly or indirectly, to a non-U.S. government official in order to influence official action, or otherwise obtain or retain business. The FCPA also requires public companies to make and keep books and records that accurately and fairly reflect the transactions of the corporation and to devise and maintain an adequate system of internal accounting controls. Our business is heavily regulated and therefore involves significant interaction with public officials, including officials of non-U.S. governments. Additionally, in many countries, the healthcare providers who administer diagnostic tests are employed by their government, and the purchasers of diagnostics tests are government entities; therefore, our dealings with these providers and purchasers are subject to regulation under the FCPA. The Securities and Exchange Commission ("SEC") and DOJ have increased their FCPA enforcement activities with respect to life sciences companies. There is no certainty that all of our employees, agents, contractors, or collaborators, or those of our affiliates, will comply with all applicable laws and regulations, particularly given the high level of complexity of these laws. Filing of FCPA enforcement actions have been temporarily paused. Once enforcement resumes, companies may incur additional damage due to delayed prosecution.

Our business is also subject to export control and import laws and regulations, including the U.S. Export Administration Regulations, U.S. customs regulations, and various economic and trade sanctions regulations administered by the U.S. Treasury Department's Office of Foreign Assets Control. Export controls and trade sanctions laws and regulations may restrict or prohibit altogether the provision, sale, or supply of our products to certain governments, persons, entities, countries, and territories, including those that are the target of comprehensive sanctions or an embargo. In particular, there is currently significant uncertainty about the future relationship between the United States and various other countries, including, without limitation, China, Mexico, and Canada, with respect to trade policies, treaties, tariffs, taxes, and other limitations on cross-border operations.

Violations of these laws and regulations could result in fines, criminal sanctions against us, our officers, or our employees, the closing down of our facilities, requirements to obtain export licenses, cessation of business activities in sanctioned countries, implementation of compliance programs, and prohibitions on the conduct of our business. Any such violations could include prohibitions on our ability to offer our solutions in one or more countries and could harm our reputation, brand, international expansion efforts, and ability to attract and retain employees, which could have an adverse effect on our business, financial condition, and results of operations.

**Risks Related to Intellectual Property**

***If we are unable to obtain and maintain intellectual property protection for our technology, or if the scope of the intellectual property protection we obtain is not sufficiently broad, our competitors could develop and commercialize technology and products similar or identical to our solutions, and our ability to successfully commercialize our solutions may be impaired.***

Our success and ability to compete successfully will depend in part on our ability to obtain, maintain, and enforce issued patents, trademarks, and other intellectual property rights and proprietary technology protection for our solutions, preserve our trade secrets, and operate without infringing the intellectual property rights of third parties. Filing, prosecuting, enforcing, and defending patents on our solutions and other technologies in all countries throughout the world would be prohibitively expensive and time-consuming, and the laws of some foreign countries may not protect our rights to the same extent as the laws of the United States. We may not, and our exclusive licensors may not, be able to file, prosecute, maintain, enforce, or license all necessary or desirable patents or patent applications at a reasonable cost or in a timely manner, or in all jurisdictions, or at all, or may choose not to do any of the foregoing. Furthermore, in some cases, we have only filed provisional patent applications on certain aspects of our products and technologies and each of these provisional patent applications, or any future provisional patent application on certain aspects of our products and technologies, is not eligible to become an issued patent until, among other things, we file a non-provisional patent application within 12 months of the filing date of the applicable provisional patent application. In cases where we have not obtained, or decided not to obtain, patent protection for certain of our inventions, we may not be able to prevent third parties from practicing our inventions or from selling or importing tests made using our inventions in and into the United States or other jurisdictions.

The patent positions of companies, including our patent position, may involve complex legal and factual questions that have been the subject of much litigation in recent years, and, therefore, the scope of any patent claims that we have or may obtain cannot be predicted with certainty. Accordingly, we cannot provide any assurances about which of our patent applications will issue, the breadth of any resulting patent, whether any of the issued patents will be found to be infringed, that any of our issued patents have, or that any of our currently pending or future patent applications that mature into issued patents will include, claims with a scope sufficient to protect our solutions and services. Our pending and future patent applications may not result in the issuance of patents or, if issued, may not issue in a form that will be advantageous to us. The coverage claimed in a patent application can be significantly reduced before the patent is issued, and its scope can be reinterpreted after issuance. We cannot offer any assurances that the breadth of our granted patents will be sufficient to prevent a competitor from developing, manufacturing, and commercializing a solution or technologies in a non-infringing manner that would be competitive with one or more of our solutions or technologies, or otherwise provide us with any competitive advantage.

Moreover, although we have applied for patents covering aspects of our technology in the United States and several other countries, we cannot be certain that our owned and exclusively licensed patents will not be challenged, or that all patents for which we have applied, or that are covered by our exclusive in-licenses, will be issued on a timely basis or at all, or that such patents will protect our technology, in whole or in part, or be issued in a form that will provide us with meaningful protection, prevent competitors from competing with us, or otherwise provide us with any competitive advantage. As further described below, the enforceability of issued patents may be challenged on a number of fronts, including inventorship, scope, or validity, and certain of our owned or exclusively in-licensed patents have been, and others in the future may be, challenged in the courts or patent offices in the United States and abroad. As a result of such challenges, our issued patents may be held invalid or unenforceable and the scope of existing or future patents may not provide us with sufficient rights to exclude others from commercializing products similar or identical to ours. For additional information, see “—Issued patents covering our solutions and other technologies could be found invalid or unenforceable if challenged in court or before administrative bodies in the United States and abroad.” We may fail to identify patentable technologies in a timely fashion, which could impair our ability to obtain patent protection on such technology at all. If we fail to timely file for patent protection in any jurisdiction, we may be precluded from doing so at a later date. Our competitors may be able to circumvent our owned or exclusively in-licensed patents by developing similar or alternative technologies or tests in a non-infringing manner. In addition, to the extent we have granted, or may grant in the future, licenses, or sublicenses of our intellectual property rights to third parties, we cannot be certain that such intellectual property rights will not be used by those third parties in a manner that could compete with our business or otherwise negatively impact any competitive advantage provided by such intellectual property rights.

Publications of discoveries in scientific literature often lag behind the actual discoveries, and patent applications in the United States and other jurisdictions are typically not published until 18 months after filing, or in some cases not at all. Therefore, we cannot know with certainty whether we were the first to make the inventions claimed in our owned or licensed patents or pending patent applications, or that we were the first to file for patent protection of such inventions. As a result, the issuance, scope, validity, enforceability, and commercial value of our patent rights are uncertain. Given the amount of time required for the development, testing, and regulatory review of biological tests, patents protecting or covering such tests might expire shortly after such solutions are commercialized. As a result, our owned or exclusively in-licensed patent portfolio may not provide us with sufficient rights to exclude others from commercializing products similar or identical to ours.

If a third party obtains an issued patent on a technology we use in our solutions, that party may be able to prevent us from using those inventions, and we may not be able to design around the third party’s patents or obtain a license on commercially reasonable terms, if at all. Third-party patents or other intellectual property may exist that our current technology, manufacturing methods, solutions, platform, or future methods or tests will be alleged to infringe, which could result in litigation, the imposition of injunctions preventing our use of the foregoing, or require us to obtain licenses or pay royalties and/or other forms of compensation to third parties, which could be significant and could harm our results of operations.

Some of our patents and patent applications may in the future be co-owned with third parties. If we are unable to obtain an exclusive license to any such third-party co-owners’ interest in such patents or

patent applications, such co-owners may be able to license their rights to other third parties, including our competitors, and our competitors could market competing products, services, and technology. In addition, we may need the cooperation of any such co-owners of our patents in order to enforce such patents against third parties, and such cooperation may not be provided to us.

The degree of future protection for our proprietary rights is uncertain, and we cannot ensure that:

- any of our patents, or any of our pending patent applications, if issued, will include claims having a scope sufficient to protect our solutions;
- any of our pending patent applications will issue as patents;
- we will be able to successfully manufacture and commercialize our solutions on a substantial scale, if approved, before relevant patents we may have expire;
- we were the first to make the inventions covered by each of our patents and pending patent applications;
- we were the first to file patent applications for these inventions;
- others will not independently develop, manufacture and/or commercialize similar or alternative or duplicative solutions of any of our technologies or products that do not infringe our patents;
- any of our challenged patents will be found to ultimately be valid and enforceable;
- any patents issued to us will provide a basis for an exclusive market for our commercially viable solutions or technologies, and will provide us with any competitive advantages or will not be challenged by third parties;
- we will develop additional proprietary technologies or solutions that are separately patentable;
- our pending patent applications or those that we may own in the future will lead to issued patents;
- our competitors will not conduct R&D activities in countries where we do not have patent rights and then use the information learned from such activities to develop, manufacture, and commercialize competitive products for sale in our major commercial markets;
- the patents of others will not harm our business;
- a third party does not subsequently file a patent covering trade secrets or know-how that we chose not to seek patent protection; or
- our commercial activities or solutions will not infringe upon the patents of others.

***Third parties may allege that we infringe, misappropriate, or violate their intellectual property rights, and if they prevail, could block sales of our solutions and force us to pay damages and/or royalties, which could adversely affect the success of our business.***

Our commercial success in part depends upon our ability, and the ability of our relevant commercial partners, to market, sell, and distribute our solutions and use our proprietary technologies and platform without infringing, misappropriating, or otherwise violating the intellectual property rights of third parties. There is considerable intellectual property litigation in the medical technology, biotechnology, diagnostic, and pharmaceutical industries, and companies in these industries have used intellectual property litigation to gain a competitive advantage. In addition, there is ongoing intellectual property litigation involving the analysis of circulating nucleic acid, the outcome of which could also impact future litigation involving our intellectual property or our ability to commercialize our solutions. We may become party to, or threatened with, future adversarial proceedings or litigation regarding intellectual property rights. Third parties may assert infringement claims against us based on existing patents or patents that issue in the future.

If we are found to infringe, misappropriate, or otherwise violate a third party’s intellectual property rights, we could be required to obtain a license from such third party to continue developing, marketing, selling, and distributing our solutions or platform, or to cease using the infringing technology. However, we

may not be able to obtain any required license on commercially reasonable terms, if at all. Even if we were able to obtain a license, it could be non-exclusive, thereby giving our competitors access to the same technologies licensed to us. In addition, we could be found liable for monetary damages, including treble damages if we are found to have willfully infringed a patent and attorneys' fees if the court finds the case to be exceptional. A finding of infringement, misappropriation, or other violation could prevent us from commercializing our solutions or force us to cease some of our operations or develop alternate technologies, which could materially harm our business, financial condition, results of operations, and prospects. Claims that we have misappropriated the confidential information or trade secrets of third parties could have a similar negative impact on our reputation and business.

Even if resolved in our favor, litigation or other legal proceedings relating to intellectual property claims may cause us to incur significant expenses and could distract our personnel from their normal responsibilities. Such litigation or proceedings could substantially increase our operating losses and reduce the resources available for development activities or any future sales, marketing, or distribution activities. Some of our competitors may be able to sustain the costs of such litigation or proceedings more effectively than we can if they have greater financial resources and/or more mature and developed intellectual property portfolios. Uncertainties resulting from the initiation and continuation of patent litigation or other proceedings could adversely affect our ability to compete in the marketplace.

***Issued patents covering our solutions and other technologies could be found invalid or unenforceable if challenged in court or before administrative bodies in the United States and abroad.***

In addition to allegations of infringement of a third party's intellectual property rights, a third party may also challenge the validity or enforceability of our owned or in-licensed patents in court or before administrative bodies in the United States or abroad. If we or one of our licensors were to initiate legal proceedings against a third party to enforce a patent covering a solution or a solution candidate, the defendant could counterclaim that the asserted patent is invalid and/or unenforceable. Though an issued patent is presumed valid and enforceable, defendant counterclaims alleging invalidity or unenforceability are commonplace in patent litigation in the United States. Grounds for a validity challenge could be an alleged failure to meet any of several statutory requirements for patentability, including lack of novelty, obviousness, lack of subject matter eligibility, lack of written description, and non-enablement. Non-statutory grounds for unenforceability include inequitable conduct in obtaining the patent, such as an allegation that someone connected with prosecution of the patent withheld relevant information from the United States Patent and Trademark Office (the "USPTO"), or made a material misleading statement. The outcome following legal assertions of invalidity and unenforceability is unpredictable. With respect to validity, for example, we cannot be certain that there is no invalidating prior art, of which we and the patent examiner were unaware during prosecution. In addition, the patent laws or interpretation thereof by the USPTO and courts could result in some of the claims of our patents to become invalidated. A court may decide that a patent or other intellectual property right of ours is invalid or unenforceable, in whole or in part, construe the patent's claims or other intellectual property narrowly or refuse to stop a third party from using the technology at issue on the grounds that our patents or other intellectual property do not cover the technology in question and is therefore not infringed upon, violated, or misappropriated. For example, certain claims of five of our U.S. patents have previously been invalidated in *inter partes* review ("IPR") proceedings, two of our European patents were challenged but ultimately upheld in their entirety in opposition proceedings, and one of our European patents was held unpatentable in an opposition that is currently under appeal. As a result of such challenges, our issued patents may be held invalid or unenforceable and the scope of existing or future patents may not provide us with sufficient rights to exclude others from commercializing products similar or identical to ours.

If a defendant were to prevail on its legal assertion of invalidity and/or unenforceability against our intellectual property related to a solution or a solution candidate, we could lose at least part, and perhaps all, of the patent protection on such solution or solution candidate. Such a loss of patent protection could adversely impact our business. Moreover, our competitors could counterclaim that we infringe their intellectual property, and some of our competitors have substantially greater intellectual property portfolios than we do. Even if our patents or other intellectual property rights are found to be valid and infringed, a court may refuse to grant injunctive relief against the infringer and instead grant us monetary damages and/or ongoing royalties. Such monetary compensation may be insufficient to adequately offset the damage to our

business caused by the infringer's competition in the market. An adverse result in any litigation or administrative proceeding could put one or more of our patents or other intellectual property rights at risk of being invalidated or interpreted narrowly, which could adversely affect our competitive business position, financial condition, and results of operations. Moreover, even if we are successful in any litigation, we may incur significant cost and expense in connection with such proceedings, and the amount of any monetary damages may be inadequate to compensate us for damage from the infringement and proceedings.

In addition to infringement claims against us, third parties have raised, and in the future may raise, claims challenging the validity or enforceability of our owned or in-licensed patents before administrative bodies in the United States or abroad, even outside the context of litigation. Such mechanisms before the USPTO include re-examination, post grant review, IPR, derivation proceedings, interference proceedings, and equivalent proceedings in foreign jurisdictions (such as opposition proceedings in Europe). Such administrative proceedings could result in the revocation of, cancellation of, or amendment to our patents in such a way that they no longer cover our technologies or solutions. With respect to the validity question, for example, we cannot be certain that there is no invalidating prior art, of which we, our patent counsel, and the patent examiner were unaware during prosecution. If a third party were to prevail on a legal assertion of invalidity and/or unenforceability, we may lose at least part, and perhaps all, of the patent protection on our solutions or technologies. Such a loss of patent protection could adversely impact our business, financial condition, and results of operations.

***If we fail to comply with our obligations in the agreements under which we license or may license intellectual property rights from third parties or we otherwise experience disruptions to our business relationships with our licensors, we could lose license rights that are important to our business.***

We have entered into, and may further need to enter into, certain licenses or other collaboration agreements pertaining to the in-license of intellectual property rights from others to advance our research or allow commercialization of our solutions and technologies. Some of these licenses are for a limited term and may include the right for the licensor to terminate upon notice. If any such arrangement is terminated by the licensor, or if we need to enter into any additional licensing arrangements, then we may be unable to obtain such licenses at a reasonable cost or on reasonable terms, if at all, and as a result, we may be required to expend significant time and resources to redesign our technology or to develop or license replacement technology, any of which may not be feasible on a technical or commercial basis. If we are unable to obtain or maintain applicable licenses, we may be unable to commercialize certain solutions or continue to use certain technology, which could harm our business, financial condition, and results of operations.

Our intellectual property in-licenses may impose various reporting, development, diligence, milestone payment, royalty, insurance, commercialization, and other obligations on us, and we expect that our future license or development agreements will contain similar types of obligations. If we fail to comply with any of these obligations, our licensor or collaboration partners may have the right to terminate the relevant license or collaboration agreement, in which event we would not be able to develop or market the solutions or technologies covered by such licensed intellectual property, or to pursue other reasonable or alternative arrangements. Despite our efforts, our licensors or collaborators might conclude that we have materially breached our obligations under such license agreements. If our licensors or collaborators were to terminate the license agreements or otherwise modify our rights under those agreements, our ability to develop and commercialize solutions and technology covered by these license agreements could be limited if not halted. This could adversely affect our competitive position, business, financial condition, results of operations, and prospects.

Agreements under which we license or otherwise obtain rights to intellectual property or technology from third parties may be complex, and certain provisions in such agreements may be susceptible to multiple interpretations, which could lead to disputes between us and our licensor, including:

- the scope of rights granted under the license agreement;
- the extent to which our solution and technology are alleged to infringe the licensor's intellectual property that is not subject to the license agreement;
- the right to sublicense patent and other rights under our collaborative development relationships;

- our diligence and other obligations under the license agreement;
- the priority of invention of patented technology; and
- the inventorship and ownership of inventions and know-how resulting from the collaboration with a licensor or joint invention of intellectual property by us and our licensors and our partners.

The resolution of any contract disagreement that may arise could narrow what we believe to be the scope of our rights to the relevant intellectual property or technology, or increase what we believe to be our financial or other obligations under the relevant agreement, either of which could adversely affect our business, financial condition, results of operations, and prospects. If we were required to engage in litigation to enforce or defend our rights under our license or development agreements, even if we were successful, such litigation could require significant financial resources, divert the attention of management, and harm our business. Moreover, if disputes over intellectual property rights that we have licensed or otherwise obtained rights to prevent or impair our ability to maintain our current arrangements on commercially acceptable terms, or at all, we may be unable to successfully commercialize the affected solution or technology, which could adversely affect our business, financial condition, results of operations, and prospects.

In addition, we may have limited control over the maintenance and prosecution of in-licensed patents and patent applications, or any other intellectual property that may be related to our in-licensed intellectual property. For example, we cannot be certain that such activities by any future licensors have been or will be conducted in compliance with applicable laws and regulations or will result in valid and enforceable patents and other intellectual property rights. If any of our current or future licensors fail to obtain and maintain patent or other protection for the proprietary intellectual property we license from them, we could lose our rights to the intellectual property, or these patents and applications may not be prosecuted and enforced in a manner consistent with the best interests of our business and our competitors could market competing products using the intellectual property. In the event we breach any of our obligations related to such maintenance or prosecution, we may incur significant liability to our licensing partners, including loss of our right to the licensed patent applications or early termination of the license by our licensor. We also may have limited control over the manner in which our licensors initiate an infringement proceeding against a third-party infringer of the intellectual property rights, or defend certain of the intellectual property that is licensed to us. It is possible that the licensor’s infringement proceeding or defense activities may be less vigorous than had we conducted such activities ourselves. Our ability to enforce in-licensed patents may be in question if our licensors refuse to join in such activities initiated by us.

***Our technology licensed from third parties may be subject to retained rights.***

Any license we may enter into could provide for the retention by the licensor of certain rights under their agreements with us, including for example, the right to use the underlying technology for noncommercial academic and research use, to publish general scientific findings from research related to the technology, and to make customary scientific and scholarly disclosures of information relating to the technology. It is difficult to monitor whether any future licensors will limit their use of the technology to these uses, and we may incur substantial expenses to enforce our rights to our licensed technology in the event of misuse.

In addition, the U.S. government retains certain rights in inventions produced with its financial assistance under the Patent and Trademark Law Amendments Act (the “Bayh-Dole Act”). The U.S. government retains a “nonexclusive, nontransferable, irrevocable, paid-up license” for its own benefit. The Bayh-Dole Act also provides federal agencies with “march-in rights.” March-in rights allow the government, in specified circumstances, to require the contractor or successors in title to the patent to grant a “nonexclusive, partially exclusive, or exclusive license” to a “responsible applicant or applicants.” If the patent owner refuses to do so, the government may grant the license itself. The Bayh-Dole Act also imposes other obligations, including the requirement that products covered by the government funded patents be manufactured in the United States. We sometimes collaborate with academic institutions to accelerate our R&D efforts. In the future, we may own or license technology which is critical to our business that is developed in whole or in part with federal funds subject to the Bayh-Dole Act. If the federal government exercises its rights under the Bayh-Dole Act, our ability to enforce or otherwise exploit patents covering such technology may be adversely affected.

***We may become involved in lawsuits to protect or enforce or defend our patents or other intellectual property rights, which could be expensive, time-consuming, and unsuccessful.***

Third parties, including our competitors, may currently, or in the future, infringe, misappropriate, or otherwise violate our issued patents or other intellectual property rights, and we may file lawsuits or initiate other proceedings to protect or enforce our patents or other intellectual property rights, which could be expensive, time-consuming, and unsuccessful. We monitor for unauthorized use of our intellectual property rights and, from time to time, analyze whether to seek enforce our rights against potential infringement, misappropriation, or violation of our intellectual property rights. However, the steps we have taken, and are taking, to protect our proprietary rights may not be adequate to enforce our rights as against such infringement, misappropriation, or violation of our intellectual property rights. In certain circumstances it may not be practicable or cost-effective for us to enforce our intellectual property rights fully, for example, in certain countries or where the initiation of a claim might harm our business relationships. We may also be hindered or prevented from enforcing our rights with respect to a government entity or instrumentality because of the doctrine of sovereign immunity. Our ability to enforce our patent or other intellectual property rights can depend on our ability to detect infringement. It may be difficult to detect infringers who do not advertise the components or methods that are used in connection with their products or technologies. Moreover, it may be difficult or impossible to obtain evidence of infringement in a competitor's or potential competitor's product or technologies. Thus, we may not be able to detect unauthorized use of, or take appropriate steps to enforce, our intellectual property rights. Any inability to meaningfully enforce our intellectual property rights could harm our ability to compete and reduce demand for our solutions.

In addition, these lawsuits or other proceedings could be costly and could affect our operations and divert the attention of our managerial, legal, and scientific personnel. There is a risk that a court or administrative body would decide that our owned or in-licensed patents are invalid or not infringed by a third party's activities, or that the scope of certain claims is more limited than we believe. An adverse outcome in a litigation or other proceeding involving our owned or in-licensed patents could limit our ability to enforce our patents against competitors, affect our ability to receive royalties or other licensing consideration, and may curtail or preclude our ability to exclude third parties from making, using, and selling similar or competitive products. We may become more susceptible to these types of lawsuits and proceedings given the proliferation of organizations pursuing intellectual property protections in the biomarker testing space, particularly as relates to cell free nucleic acids. Any of these occurrences could adversely affect our business, financial condition, results of operations, and prospects.

***Intellectual property litigation may lead to public disclosures and unfavorable publicity that harms our reputation and causes the market price of our common stock to decline.***

Because of the substantial amount of discovery required in connection with intellectual property litigation, there is a risk that some of our confidential information could be compromised by disclosure during litigation. Further, during the course of any intellectual property litigation, there could be public announcements of the initiation of the litigation as well as results of hearings, rulings on motions, and other interim proceedings in the litigation. If securities analysts or investors regard these announcements as negative, the perceived value of our existing solutions, programs or intellectual property could be diminished. Accordingly, the market price of shares of our common stock may decline. Such announcements could also harm our reputation or the market for our future solutions, which could adversely affect our business.

***Patent terms may be inadequate to protect our competitive position on our solutions for an adequate amount of time.***

Patents have a limited lifespan in all jurisdictions around the world. In the United States, if all maintenance fees are timely paid, the natural expiration of a patent is generally 20 years from its earliest U.S. non-provisional filing date. Various extensions may be available, but the protection offered by a patent remains time limited. Once a patent covering our solutions expires, we may be subject to additional competition. Given the amount of time required for the development, testing and regulatory review of new products, patents protecting such products might expire before or shortly after such products are commercialized or receive regulatory approval. As a result, our patent portfolio may not provide us with sufficient rights to exclude others from commercializing solutions similar or identical to ours for a meaningful

amount of time, or at all. Such an inability to exclude competitors from commercializing similar or identical products could have adversely impact our reputation, business, financial condition, results of operations, and prospects.

***If we do not obtain patent term extension and data or regulatory exclusivity for any solutions we may develop, our business may be materially harmed.***

Depending upon the timing, duration, and specifics of any FDA marketing approval of any therapeutic solutions we may develop, one or more of our U.S. patents may be eligible for limited patent term extension under the Drug Price Competition and Patent Term Restoration Action of 1984 (the "Hatch-Waxman Amendments"). The Hatch-Waxman Amendments permit a patent extension term of up to five years as compensation for patent term lost during the FDA regulatory review process. A patent term extension cannot extend the remaining term of a patent beyond a total of 14 years from the date of product approval, only one patent may be extended and only those claims covering the approved drug, a method for using it, or a method for manufacturing it may be extended. However, we may not be granted an extension because of, for example, failing to exercise due diligence during the testing phase or regulatory review process, failing to apply within applicable deadlines, failing to apply prior to expiration of relevant patents, or otherwise failing to satisfy applicable legal requirements. Moreover, the applicable time period or the scope of patent protection afforded could be less than we request. If we are unable to obtain patent term extension or the term of any such extension is less than we request, the period during which we will have the right to exclusively market our solution will be shortened and our competitors may obtain approval of competing products following our patent expiration and may take advantage of our investment in development and clinical trials by referencing our clinical and preclinical data to launch their product earlier than might otherwise be the case.

Additionally, depending upon the timing, duration, and specifics of any FDA approval of biological products we may develop as part of Caris Discovery or otherwise, such products may be eligible for a period of regulatory exclusivity under the Biologics Price Competition and Innovation Act of 2009 ("BPCIA"), a subtitle of the Patient Protection and Affordable Care Act. The BPCIA created an abbreviated approval pathway for biological products that are biosimilar to or interchangeable with an FDA-licensed reference biological product. Under the BPCIA, an application for a highly similar or "biosimilar" product may not be submitted to the FDA until four years following the date that the reference product was first approved by the FDA. In addition, the approval of a biosimilar product may not be made effective by the FDA until 12 years from the date on which the reference product was first approved. During this 12-year period of exclusivity, another company may still market a competing version of the reference product if the FDA approves a full biologics license application for the competing product containing the sponsor's own preclinical data and data from adequate and well-controlled clinical trials to demonstrate the safety, purity and potency of its product.

Biological products we may develop, if any and if approved, could be considered reference products entitled to 12-year exclusivity. However, there is a risk that this exclusivity could be shortened due to congressional action or otherwise, or that the FDA will not consider a product candidate to be reference products for competing products, potentially creating the opportunity for competition sooner than anticipated. Other aspects of the BPCIA, some of which may impact the BPCIA exclusivity provisions, have also been the subject of recent litigation. Moreover, the extent to which a biosimilar, once approved, will be substituted for any reference products in a way that is similar to traditional generic substitution for non-biological products is not yet clear, and will depend on a number of marketplace and regulatory factors that are still developing. The FDA only approved the first interchangeable biosimilar in July 2021, and the law is still being interpreted and implemented by the FDA. As a result, its ultimate impact, implementation, and meaning are subject to uncertainty. If competitors are able to obtain marketing approval for biosimilars referencing any biological products we may develop, our products may become subject to competition from such biosimilars, which could adversely impact our competitive position.

***Obtaining and maintaining our patent protection depends on compliance with various procedural, document submission, fee payment and other requirements imposed by governmental patent agencies, and our patent protection could be reduced or eliminated for non-compliance with these requirements.***

The USPTO and various foreign governmental patent agencies require compliance with a number of procedural, documentary, fee payment and other provisions during the patent application process to

maintain patent applications and issued patents. In addition, periodic maintenance fees, renewal fees, annuity fees, and various other government fees on patents and applications must be paid to the USPTO and similar patent agencies outside of the United States over the lifetime of our owned and in-licensed patents and applications. In some cases, we rely on our licensing partners to pay such fees and to take the necessary actions to comply with other requirements to maintain such in-licensed patents during their term. While an unintentional lapse of a patent or patent application can in many cases be cured by payment of a late fee or by other means in accordance with the applicable rules, in some cases non-compliance can result in abandonment or lapse of the patent or patent application, resulting in a partial or complete loss of patent rights in the relevant jurisdiction. Non-compliance events that could result in abandonment or lapse of a patent or patent application include, but are not limited to, failure to respond to official actions within prescribed time limits, non-payment of fees and failure to properly legalize and submit formal documents. In such an event, potential competitors might be able to enter the market with similar or identical tests or technology, which could adversely affect our competitive position.

***Developments in patent law could have a negative impact on our business.***

From time to time, the U.S. Supreme Court or other federal courts, the U.S. Congress, the USPTO, or similar governmental authorities in other jurisdictions may change the standards of patentability and any such changes could have a negative impact on our business.

Several decisions from the U.S. Supreme Court regarding patentable subject matter are of particular relevance in the medical diagnostics and computer-implemented applications space. The 2012 decision in *Mayo Collaborative v. Prometheus Laboratories* ("*Mayo*") concerns patent claims directed to optimizing the amount of drug administered to a specific patient based on certain metabolite levels in blood. The Supreme Court held that the applicable patent's claims were directed to a law of nature (i.e., a natural correlation between metabolite levels and efficacy or toxicity) and failed to incorporate a sufficiently inventive concept above and beyond routine and conventional method steps to allow the claimed methods of treatment to qualify as patent eligible. The 2014 decision in *Alice Corporation Pty. Ltd. v. CLS Bank International* ("*Alice*") concerns a computer-implemented, electronic escrow service for facilitating financial transactions. The Supreme Court held that an abstract idea could not be patented just because it is implemented on a computer. It is generally believed that *Mayo* and *Alice*, and subsequent cases interpreting these decisions, have made it more difficult to patent medical diagnostic and computer-implemented inventions. Our efforts to seek patent protection for such technologies and solutions may be negatively impacted by this jurisprudence, or guidance or procedures issued by the USPTO or authorities in other jurisdictions.

We cannot predict the impact of the changing landscape of patent eligible subject matter on our ability, or that of our competitors, to obtain or enforce patents relating to products and services involving genomic or biomarker related discoveries, or computer-implemented technologies, such as molecular tests that implement ML. Indeed, many believe that the contours of whether claims are patent eligible, or recite laws of nature, natural phenomena, natural products, or abstract ideas remain unclear despite a decade of interpretation at the USPTO and in the courts. Third parties holding patents issued prior to *Mayo*, *Myriad* and *Alice* could allege that we infringe these patents, even if these patents are not likely enforceable under current U.S. laws. We could be forced to defend against claims of patent infringement or obtain license rights, if available on commercially reasonable terms or at all, under these patents. In jurisdictions other than the United States, gene- and computer-related patent claims may remain valid and may be enforceable against us.

The U.S. Congress has periodically sought to pass laws concerning subject matter eligibility for patent protection, aimed in large part at abrogating the holdings of *Mayo* and *Alice*. To date, these efforts have been unsuccessful, but are ongoing. We cannot fully predict the impact that such new laws may have on our ability to obtain patent protection on our solutions and technologies, and our ability to operate in view of the patents controlled by third parties.

***We may not be able to enforce our intellectual property rights throughout the world.***

The laws of foreign countries may not protect intellectual property rights to the same extent as the laws of the United States. In some cases, companies have encountered significant problems in protecting and defending intellectual property rights in certain foreign jurisdictions. The legal systems of some countries,

particularly developing countries, do not favor the enforcement of patents and other intellectual property protection, especially those relating to life sciences. This could make it difficult for us to stop the infringement of our patents or the misappropriation of our other intellectual property rights. For example, some foreign countries have compulsory licensing laws under which a patent owner must grant licenses to third parties.

On June 1, 2023, the European Union implemented a unitary patent system with the goal of providing a single pan-European Unitary Patent and a new European Unified Patent Court ("UPC") for litigation involving European patents. As a result, all European patents, including those issued prior to ratification of the unitary patent system, now by default automatically fall under the jurisdiction of the UPC, although patent applicants and patent holders may elect to opt-out of the new system for a transitional period of at least seven years. It is uncertain how the UPC will impact European patents, including those in the biotechnology and pharmaceutical industries. If we do not opt-out, our European patents could be challenged in the UPC. Thus far, like many others, we have elected to opt-out of the UPC as it matures. We may continue to opt-out our future European patents, but doing so may preclude us from realizing its benefits. Moreover, if we do not meet all of the formalities and requirements for opt-out under the UPC, our future European patents could remain under the jurisdiction of the UPC. The UPC will provide our competitors with a new forum to centrally revoke our European patents, and allow for the possibility of a competitor to obtain a pan-European injunction. Such a loss of patent protection or injunction obtained by a competitor could adversely impact our business and our ability to commercialize our technology and solutions and, as a result, on our business, financial condition, prospects, and results of operations.

Proceedings to enforce our patent rights in foreign jurisdictions, whether or not successful, could result in substantial costs and divert our efforts and attention from other aspects of our business. Furthermore, while we intend to protect our intellectual property rights in our expected significant markets, we cannot ensure that we will be able to initiate or maintain similar efforts in all jurisdictions in which we may wish to market our solutions. Accordingly, our efforts to protect our intellectual property rights in such countries may be inadequate. In addition, changes in the law and legal decisions by courts in the United States and foreign countries may affect our ability to obtain and enforce adequate intellectual property protection for our solutions and technology.

***If we are unable to protect the confidentiality of our trade secrets, our business and competitive position could be harmed.***

In addition to seeking patents for certain of our solutions and other technologies, we rely on trade secrets and confidentiality agreements to protect our unpatented know-how, technology, data, and other proprietary information and to maintain our competitive position. Trade secrets and know-how can be difficult to protect. Our trade secrets and know-how may over time become known to others through various means such as independent development, personnel movement, collaborative efforts or other intentional or unintentional disclosure.

We seek to protect our trade secrets and other proprietary technology, in part, by entering into non-disclosure and confidentiality agreements with relevant parties, such as our employees, directors, corporate and scientific collaborators, contract research organizations, contract manufacturers, suppliers, service providers, consultants, advisors, and other third parties. We generally enter into confidentiality and invention assignment agreements with our employees and consultants upon their commencement of a relationship with us, and remind departing employees of their continuing confidentiality obligations. However, we may not be successful in entering into such agreements with all employees and consultants. Although we generally require all of our employees, consultants, advisors and any third parties who have access to our proprietary know-how, information, processes, or technology to enter into confidentiality agreements, we cannot provide any assurances that we have entered into confidentiality agreements with each person or party that had or may have had access to our proprietary know-how, information, processes, or technology. In addition, monitoring unauthorized use and disclosure of our proprietary know-how, information, processes or technology by employees, consultants and other third parties who have access can be difficult, and we cannot be certain whether the steps we have taken to protect our proprietary know-how, information, processes, or technology will be adequate. Therefore, we may not be able to prevent the unauthorized disclosure or use of our technical knowledge or other trade secrets by such employees, consultants, advisors or third parties, despite the existence of confidentiality restrictions. These agreements may also not provide meaningful

protection against the unauthorized use or disclosure of our trade secrets, know-how or other proprietary information in the event the unwanted use is outside the scope of the provisions of the contracts or in the event of any unauthorized use, misappropriation, or disclosure of such trade secrets, know-how, or other proprietary information.

Despite our efforts, any of these persons or parties may breach the agreements and disclose our proprietary information, including our trade secrets, and we may not be able to obtain adequate remedies for such breaches. Enforcing a claim that a person or party illegally disclosed or misappropriated a trade secret can be difficult, expensive, and time-consuming, and the outcome is unpredictable. In addition, some courts outside the United States may be less willing or unwilling to protect trade secrets. Further, agreement terms that address non-competition are difficult to enforce in many jurisdictions and might not be enforceable in certain cases. If any of our trade secrets were to be lawfully obtained or independently developed by a competitor or other third party, we would have no right to prevent them from using that technology or information to compete with us. We may enter into collaboration, license, contract research and/or manufacturing relationships with contract organizations that operate in certain countries that are at heightened risk of theft of technology, data, and intellectual property through direct intrusion by private parties or foreign actors, including those affiliated with or controlled by state actors. If any of our trade secrets were to be misappropriated by, disclosed to, or independently developed by a competitor or other third party, our competitive position could be adversely harmed.

In addition to contractual measures, we try to protect the confidential nature of our proprietary information by maintaining physical security of our premises and electronic security of our information technology systems. Such security measures may not be adequate for all scenarios, for example, in the case of misappropriation of a trade secret by an employee, consultant, or other third party with authorized access. An employee, consultant or other third party who misappropriates our trade secrets may provide such information to a competitor, and any recourse we take against such misconduct may not provide an adequate remedy to protect our interests fully. Unauthorized parties may also attempt to copy or reverse engineer certain aspects of our solutions, platform, or services that we consider proprietary. Although we use commonly accepted security measures, trade secret violations are a matter of both federal and state law in the United States, and the criteria for protection of trade secrets can vary among different jurisdictions. If the steps we have taken to maintain our trade secrets are deemed inadequate, we may have insufficient recourse against third parties for misappropriating the trade secret. In addition, trade secrets may be independently developed by others in a manner that could prevent legal recourse by us. If any of our intellectual property rights or confidential or proprietary information, such as our trade secrets, were to be disclosed or misappropriated, or if any such information was independently developed by a competitor, it could adversely affect our competitive position, business, financial condition, results of operations, and prospects.

Accordingly, our efforts to protect and enforce our trade secrets, know-how and intellectual property rights around the world may be inadequate to obtain a significant commercial advantage, and we may be at heightened risk of losing our trade secrets, proprietary know-how and intellectual property rights around the world, to the extent such theft or intrusion destroys their secrecy or other proprietary nature.

***We may be subject to claims by third parties asserting that we or our employees have infringed or misappropriated intellectual property rights, or to assertions by third parties or employees claiming ownership of what we regard as our own intellectual property.***

Many of our former, current, and future employees, consultants and contractors have been previously employed at universities or other biotechnology or pharmaceutical companies, including our competitors or potential competitors and strategic partners. Some of these employees, consultants and contractors may have executed proprietary rights, non-disclosure and non-competition agreements in connection with such previous employment or engagement. We train our employees, consultants, and contractors not to bring, or use in their work proprietary information or technology from former employers. Although we intend for such training and other measures to ensure that our employees do not use the proprietary information or know-how of others in their work for us, to the extent that our employees, consultants or contractors use intellectual property rights or proprietary information owned by others in their work for us, we may be subject to claims that an employee has used or disclosed intellectual property, including trade secrets or other proprietary information, of such employee’s former employer. Litigation,

which would be expensive, time-consuming, a distraction to management, and uncertain of outcome, may be necessary to defend against these claims.

In addition, we may be subject to claims from third parties challenging ownership interest in or inventorship of intellectual property rights we regard as our own, based on claims that our agreements with employees or consultants obligating them to assign their intellectual property rights to us are ineffective or in conflict with prior or competing contractual obligations to assign inventions and intellectual property rights to another employer, to a former employer, or to another person or entity. We are not aware of any threatened or pending claims related to these matters, but, in the future, litigation may be necessary to defend against such claims should they arise, and it may be necessary or we may desire to obtain a license to such third party's intellectual property rights to settle any such claim. However, there can be no assurance that we would be able to obtain such license on commercially reasonable terms, if at all. If we fail in defending any such claims, in addition to paying monetary damages or a settlement payment, we may lose valuable intellectual property rights or personnel, or access to consultants and contractors. A court could prohibit us from using technologies, features or other intellectual property rights that are essential to our solutions or technologies, if such technologies or features are found to incorporate or be derived from the trade secrets or other proprietary information of another person or entity, including another or former employers. An inability to incorporate technologies, features or other intellectual property rights that are important or essential to our solutions or technologies could adversely affect our business, financial condition, results of operations, and competitive position, and may prevent us from developing, manufacturing and/or commercializing our solutions or technologies. In addition, we may lose valuable intellectual property rights or personnel. Even if we are successful in defending against such claims, litigation could result in substantial costs and be a distraction to management and our employees. Any litigation or the threat of litigation may adversely affect our ability to hire employees or contract with independent sales representatives. A loss of key personnel or their work product could hamper or prevent our ability to develop, manufacture and/or commercialize our solutions or services, which could adversely affect our business, financial condition, and results of operations.

In addition, we may be subject to claims that our former employees, contractors or collaborators, or other third parties have an ownership interest in our current or future patents, patent applications, or other intellectual property rights, including as an inventor or co-inventor. We may be subject to ownership or inventorship disputes in the future arising, for example, from conflicting obligations of employees, consultants or others who were or are involved in developing our solutions.

If we fail to prevail on any such claims, in addition to paying monetary damages, we may lose valuable intellectual property rights or personnel, or be required to obtain a license, which may not be available to us on commercially reasonable terms or at all. Even if we are successful in prosecuting or defending against such claims, litigation could result in substantial costs and be a distraction to management, which could harm our business.

***If our trademarks and trade names are not adequately protected, we may not be able to build name recognition in our markets of interest and our business may be adversely affected.***

We currently hold and/or have applied for a number of trademarks, covering Caris, MI Profile, MI Tumor Seek Hybrid, MI Cancer Seek, Caris Assure, and other solutions and services in certain jurisdictions. However, our pending or future trademark applications may not be approved or our registered or unregistered trademarks or trade names may be challenged, invalidated, infringed, or declared generic or determined to be infringing on other marks. If any of the foregoing occurs, we could be forced to re-brand our solutions or technologies, and we may not be able to protect our rights to these trademarks and trade names, which we view as valuable to building name recognition among partners and customers in our markets of interest. At times, competitors or other third parties have adopted or may adopt trade names or trademarks similar to ours, thereby impeding our ability to build brand identity and possibly leading to market confusion and/or litigation. In addition, there have been and could be trade name or trademark infringement claims brought by owners of other registered trademarks or trademarks that incorporate variations of our registered or unregistered trademarks or trade names. There can be no assurance that competitors will not infringe our trademarks or that we will have adequate resources to enforce our trademarks. Over the long term, if we are unable to establish name recognition based on our trademarks

and trade names, we may be unable to compete effectively and our business may be adversely affected. Our efforts to enforce, protect, or defend our trademarks may be ineffective and could result in substantial costs and diversion of resources and could adversely affect our competitive position, business, financial condition, results of operations, and prospects.

***Our use of open-source software could subject our proprietary technology to unwanted open-source license conditions that could negatively impact our business.***

We use open-source software in some of our technologies and solutions, and we may incorporate open-source software into future technologies and solutions. From time to time, companies that use third-party open source software have faced claims challenging the use of such open source software and requesting compliance with the open source software license terms. Accordingly, we may be subject to suits by parties claiming ownership of what we believe to be open source software or claiming non-compliance with the applicable open source licensing terms. Some open source software licenses require end users, who use, distribute, or make available across a network software and services that include open source software, to make publicly available or to license all or part of such software (which in some circumstances could include valuable proprietary code, such as derivative works of the open source software) under the terms of the particular open source license. If a third party were to allege that we had not complied with the conditions of one or more of these licenses, we could be required to invest substantial time and resources to re-engineer some of our software or release certain portions of our proprietary source code, which could substantially help our competitors develop products that are similar to or improve upon ours and harm our business. We could also be required to incur significant legal expenses defending against such allegations. Further, the outcome of such litigation may be particularly uncertain because there are numerous open source software licenses which have not been tested in courts of law, and thus lack guidance regarding their proper legal interpretation. Any of the foregoing could disrupt and harm our business.

In addition, the use of third-party open source software typically exposes us to greater risks than the use of third-party commercial software because open source licensors generally do not provide warranties or controls on the functionality or origin of the software. Use of open source software may also present additional security risks because the public availability of such software may make it easier for hackers and other third parties to determine how to compromise platforms using such source code. Any of the foregoing could harm our business and could help our competitors develop products and services that are similar to or that improve upon ours.

The occurrence of any of these events could adversely affect our business, financial condition, results of operations, and prospects.

**Risks Related to Our Indebtedness**

***We have incurred substantial indebtedness, and we may not generate sufficient cash flow from operations to meet our debt service requirements, continue our operations, and pursue our growth strategy, and we may be unable to raise capital when needed or on acceptable terms.***

As of March 31, 2025, we and our subsidiaries had approximately $400.0 million aggregate principal amount of debt outstanding under the 2023 Term Loan. Subsequent to March 31, 2025, we issued $30.0 million aggregate principal amount of our 2025 Convertible Notes in April 2025, which will convert into shares of our common stock in connection with this offering, in accordance with their terms. Our substantial level of indebtedness increases the risk that we may be unable to generate cash sufficient to pay amounts due in respect of our indebtedness, pay dividends and to fund our general corporate and capital requirements. The substantial indebtedness of us and our subsidiaries could have important consequences to our shareholders, including:

- a portion of our cash flow from operations must be dedicated to the payment of principal and interest on our debt, thereby reducing the funds available to us for other purposes;
- our ability to satisfy our obligations under the 2023 Term Loan Agreement may be adversely affected;

- our ability to make loans and investments or engage in acquisitions without issuing additional equity or obtaining additional debt financing may be impaired in the future;
- our ability to obtain additional financing for working capital, capital expenditures, acquisitions, debt service requirements or general corporate purposes may be impaired in the future;
- our ability to pay dividends or engage in share repurchases may continue to be restricted;
- our flexibility may be limited in planning for, or reacting to, changes or challenges relating to the business we conduct;
- we may be more vulnerable to general adverse economic and industry conditions;
- we may be at a competitive disadvantage compared to our competitors who have less debt or comparable debt at more favorable interest rates or terms and who, as a result, may be better positioned to withstand economic downturns or to finance capital expenditures or acquisitions; our costs of borrowing may increase; and
- we may be unable to refinance our debt on terms as favorable as our existing debt or at all.

The occurrence of any one of these events could have an adverse effect on our business, financial condition, results of operations, and ability to satisfy our obligations under the 2023 Term Loan Agreement. We may not be able to access capital on acceptable terms, raise additional capital in the future, or make effective capital allocation decisions, which could result in our inability to achieve operational objectives. Any disruption in access to capital could require us to take measures to conserve cash until alternative credit arrangements or other funding for business needs can be arranged. Such measures could include deferring capital expenditures, acquisitions or other discretionary uses of cash, or revising capital allocation decisions. Any of these risks could adversely affect our business, financial condition, and results of operations.

***The agreements and instruments governing our debt contain restrictions and limitations that could significantly impact our management's flexibility and our financial and operational flexibility to operate our business.***

Restrictive covenants in the 2023 Term Loan Agreement place limits on our ability to conduct our business. Covenants in the 2023 Term Loan Agreement include those that, subject to certain exceptions, restrict our ability to:

- materially alter the business we conduct;
- incur certain additional indebtedness and guarantee indebtedness;
- create or incur liens;
- purchase, make, incur, assume, or permit to exist certain investments;
- make any dividends, distributions, and certain other payments to our shareholders;
- sell, transfer, or otherwise dispose of assets, including capital stock of our subsidiaries;
- modify certain agreements that have an impact on our indebtedness;
- engage in certain transactions with our affiliates;
- enter into any restrictive agreements prohibiting (i) the creation of liens to secure our obligations under the 2023 Term Loan Agreement, (ii) our or our subsidiaries' modification of the 2023 Term Loan Agreement, or (iii) our or our subsidiaries' ability to pay dividends or make any other distributions on any capital securities;
- enter into sale and leaseback transactions;
- make changes to name, location, executive office, executive management, or fiscal years without prior notice; and
- incur any actual or potential liability on benefit plans or allow any employee benefit plans to cease to be tax qualified.

The 2023 Term Loan Agreement also imposes maintenance requirements on our liquidity and revenue base and restricts our ability to engage in certain mergers or consolidations. For additional

information, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Indebtedness” and “—Risks Related to Our Business and Industry—Our business and results of operations will suffer if we fail to compete effectively.” These restrictions may prevent us from taking actions that we believe would be in the best interest of our business and may make it difficult for us to execute our business strategy successfully or compete effectively with companies that are not similarly restricted. We may also incur future debt obligations that might subject us to additional restrictive covenants that could affect our financial and operational flexibility. Our ability to comply with the covenants and restrictions contained in the 2023 Term Loan Agreement may be affected by economic, financial and industry conditions beyond our control. The breach of any of these covenants or restrictions could result in a default under the 2023 Term Loan Agreement that would permit the applicable lenders or noteholders, as the case may be, to declare all amounts outstanding thereunder to be due and payable, together with accrued and unpaid interest. In addition, such a default or acceleration may result in the acceleration of any other debt to which a cross-acceleration or cross-default provision applies. Our obligations under the 2023 Term Loan Agreement are secured by our intellectual property. If we are unable to repay debt, lenders having secured obligations under the 2023 Term Loan Agreement could proceed against the collateral securing the debt. This could have serious consequences to our business, financial condition, and results of operations and could cause us to become bankrupt or insolvent.

We rely on cash generated from our financing and operating activities as our primary source of liquidity. To support our operations, execute our growth strategy as planned and pay dividends, if declared, we will need to continue generating significant amounts of cash from operations, including funds required to pay our employees, related benefits and other operating expenses, finance future acquisitions, invest in the growth of our business and pay for the increased direct and indirect costs associated with operating as a public company. If our business does not generate sufficient cash flow from operations to fund these activities, we may need to seek additional capital, including by incurring additional debt or equity capital. Additional capital may not be available to us on acceptable terms or at all. In addition, incurring indebtedness requires that a portion of cash flow from operating activities be dedicated to interest and principal payments. Debt service requirements could reduce our ability to use our cash flow to fund operations and capital expenditures, to capitalize on future business opportunities, including additional acquisitions, or to pay dividends. Any of these risks could adversely affect our business, financial condition, and results of operations.

***Our variable rate debt subjects us to interest rate risk, which could cause our debt service obligations to increase significantly and affect our operating results.***

The indebtedness under the 2023 Term Loan is at variable rates of interest, which exposes us to interest rate risk. In addition, our 2023 Term Loan references the Secured Overnight Financing Rate (“SOFR”) as the primary benchmark rate for our variable rate indebtedness. If benchmark interest rates, including SOFR, were to increase, our debt service obligations on our variable rate indebtedness would increase even if the amount borrowed remains the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. In addition, while our 2023 Term Loan will continue to be subject to SOFR, other factors may impact SOFR, including factors causing SOFR to cease to exist, new methods of calculating SOFR to be established, or the use of an alternative reference rate. Such circumstances are not entirely predictable, but could have an adverse impact on our financing costs and results of operations. As of March 31, 2025, we had $400.0 million outstanding principal amount of variable rate debt subject to interest rate exposure. While we currently hedge the interest rate risk on $200.0 million principal amount of this outstanding variable rate debt with a purchased interest rate cap derivative with a strike rate of 6.0% and a February 2026 maturity, the remainder of the outstanding amount is not similarly hedged. Accordingly, a 1% increase in interest rates would increase annual interest expense by $4 million.

***Despite our indebtedness level, we and our subsidiaries may incur substantially more debt, including secured debt. This could further exacerbate the risks associated with our substantial indebtedness.***

We and our subsidiaries may incur substantial additional indebtedness in the future. Although the terms of the 2023 Term Loan Agreement contain restrictions on the incurrence of additional indebtedness, such restrictions are subject to a number of significant exceptions and qualifications and any additional indebtedness incurred in compliance with such restrictions could be substantial. These restrictions also will

not prevent us from incurring obligations that do not constitute indebtedness. If we and our subsidiaries incur significant additional indebtedness or other obligations, the related risks that we face could increase, and we may not be able to meet all our debt obligations.

**Risks Related to This Offering and Ownership of Our Common Stock**

***An active, liquid, and orderly market for our common stock may not develop or be sustained. As a result, it may be difficult to sell shares of our common stock.***

We currently expect our common stock to be listed and traded on Nasdaq. Prior to listing on Nasdaq there has been no public trading market for our common stock. If an active, liquid, and orderly trading market for our common stock does not develop or is not sustained after this offering, it may be difficult to sell shares of our common stock at an attractive price, if at all. We cannot predict the prices at which our common stock will trade. It is possible that in one or more future periods our results of operations, regulatory approval process, and/or development of our platform and solutions may not meet the expectations of securities research analysts and investors. These and other factors could also significantly depress the market price of our common stock.

***The market price of our common stock may be volatile, which could result in substantial losses for investors purchasing shares in this offering.***

The initial public offering price for our common stock will be determined by agreement among us and the representatives of the underwriters. This initial public offering price may differ from the market price of our common stock after this offering. As a result, if you purchase shares of our common stock in this offering, it may not be possible for you to sell those shares at or above the initial public offering price. Securities markets worldwide experience significant price and volume fluctuations. This market volatility, as well as general economic, market, or political conditions, could reduce the market price of our common stock regardless of our operating performance. Some of the factors that may cause the market price of our common stock to fluctuate include:

- the timing or success of launch of our solutions, such as Caris Assure for early detection, MRD tracking, and treatment monitoring, as well as MI Cancer Seek or other solutions;
- the degree to which the launch and commercialization of our solutions meet the expectations of securities analysts and investors;
- changes in the structure of healthcare payment systems, including changes that would affect coverage and reimbursement by third-party or government payers;
- the success of, or perception of success of, our research and development efforts and our ability to develop new solutions and enhance our existing solutions, as well as our solutions' effectiveness or perceived effectiveness compared to those of our competitors;
- the timing and results of validation studies and clinical trials for our solutions and solutions from our competitors;
- commencement or termination of collaborations for our solution development and research programs;
- failure or discontinuation of any of our solution development and research programs;
- the success of existing or new competitive tests, services, or technologies;
- results of validation studies, clinical trials, or regulatory approvals of diagnostic or other cancer-related screening tests of our competitors, or announcements about new research programs or diagnostic or other cancer-related tests of our competitors;
- regulatory or legal developments in the United States and other countries affecting our solutions or competing products;
- developments or disputes concerning patent applications, issued patents, or other proprietary rights;

- the impact of public health crises on our business and on global economic conditions;
- the recruitment or departure of key personnel;
- the level of expenses related to any of our research programs, clinical development programs or commercialization activities;
- actual or anticipated changes in our estimates as to our financial results or development timelines;
- whether our quarterly and annual financial results, forecasts, and development timelines meet the expectations of securities analysts or investors;
- announcement or expectation of additional financing efforts;
- sales of our common stock by us, our insiders, or other shareholders;
- expiration of lock-up agreements and market stand-off provisions;
- variations in our quarterly and annual financial results or those of companies that are perceived to be similar to us;
- changes in estimates or recommendations by securities analysts, if any, that cover our stock;
- changes in accounting standards, policies, guidelines, interpretations, or principles;
- market conditions in the healthcare sector;
- general economic, industry, and market conditions; and
- the other factors described in this “Risk Factors” section.

Stock markets in general, and the market for healthcare companies in particular (including companies in the precision oncology industry and broader precision medicine industry), experience significant price and volume fluctuations that are often unrelated or disproportionate to changes in the operating performance of the companies whose stock is experiencing those price and volume fluctuations. Broad market and industry factors may significantly affect the market price of our common stock, regardless of our actual operating performance. Following periods of such volatility in the market price of a company’s securities, securities class action litigation has often been brought against that company. Because of the potential volatility of our stock price, we may become the target of securities litigation in the future. Securities litigation could result in substantial costs and divert management’s attention and resources from our business.

***If securities analysts do not publish research or reports about our business or if they publish negative evaluations of our stock, the price of our stock could decline.***

The trading market for our common stock will rely in part on the research and reports that industry or securities analysts publish about us or our business. We do not currently have, and may never obtain, research coverage by industry or securities analysts. If no or few analysts commence coverage of us, the trading price of our common stock could decrease. Even if we do obtain analyst coverage, if one or more of the analysts covering our business downgrade their evaluations of our stock, the price of our common stock could decline. If one or more of these analysts cease to cover our stock, we could lose visibility in the market for our common stock, which in turn could cause the price of our common stock to decline.

***Sales of a substantial number of shares of our common stock following the completion of this offering could cause the price of our common stock to decline.***

Sales of a substantial number of shares of our common stock in the public market following the completion of this offering, or the perception that these sales might occur, could depress the market price of our common stock, and could impair our ability to raise capital through the sale of additional equity securities. Many of our existing equity holders have substantial unrecognized gains on the value of the equity they hold based upon the price of this offering, and therefore, may take steps to sell their shares or otherwise secure the unrecognized gains on those shares. We are unable to predict the timing of or the effect that such sales may have on the prevailing market price of our common stock.
