Class 4: Convenience Claims Estimated Recovery: 5%	$907,000 to $1 million	Impaired	On or as soon as reasonably practicable after the later of (i) the Initial Distribution Date or (ii) the date on which a Class 4 Convenience Claim becomes an Allowed Claim, each Holder of an Allowed Convenience Claim will receive Cash in the amount of 5% of the amount of its Allowed Convenience Class Claim.
Class 5: Intercompany Claims Estimated Recovery: 0%	$57 million	Impaired	On the Effective Date, all Intercompany Claims will be eliminated and the Holders of Intercompany Claims will not be entitled to, and will not receive or retain, any property or interest in property on account of such Claims.

Class Description	Estimated Amount of Allowed Claims (Approximate Amounts)	Status	Proposed Treatment
Class 6: Interests Estimated Recovery: 0%	N/A	Impaired	On the Effective Date, all Interests will be cancelled and each Holder thereof will not be entitled to, and will not receive or retain, any property or interest in property under the Plan on account of such Interests.

For certain Classes of Claims, the actual amounts of Allowed Claims could materially exceed or could be materially less than the estimated amount set forth in the table above. The Debtors are continuing to analyze the Claims in the Chapter 11 Cases and all objections to Claims have not yet been filed or fully litigated. Estimated Claim amounts for each Class are based upon the Debtors' review of their books and records and certain Proofs of Claim, and include estimates of a number of Claims that are contingent, disputed and/or unliquidated. Accordingly, there can be no assurances of the exact amount of the Allowed Claims at this time. Estimated percentage recoveries have been calculated based upon a number of assumptions, including the estimated amount of Allowed Claims in each Class.

E. Voting Procedures and Voting Deadline

If you are entitled to vote to accept or reject the Plan, a Ballot is enclosed for the purpose of voting on the Plan. To ensure your vote is counted, you must (i) complete the Ballot, (ii) indicate your decision either to accept or reject the Plan in the boxes provided, and (iii) sign and return the Ballot(s) in the envelope provided.

TO BE COUNTED, EXCEPT AS SET FORTH BELOW, YOUR BALLOT WITH YOUR ORIGINAL SIGNATURE INDICATING YOUR ACCEPTANCE OR REJECTION OF THE PLAN MUST BE RECEIVED NO LATER THAN **4:00 P.M. (EASTERN TIME) ON JANUARY 4, 2016** (THE "VOTING DEADLINE").

The following Ballots will not be counted or considered for any purpose in determining whether the Plan has been accepted or rejected:

(i) any Ballot or Master Ballot received after the Voting Deadline (unless extended by the Debtors);

(ii) any Ballot or Master Ballot that is illegible or contains insufficient information to permit the identification of the claimant;

(iii) any Ballot cast by a person or entity that does not hold a Claim in a Class that is entitled to vote to accept or reject the Plan;

(iv) any Ballot cast for a Claim scheduled as contingent, unliquidated or disputed or as zero;

(v) any Ballot cast for a filed Claim to which the Debtors have objected to, and for which no Rule 3018(a) Motion has been filed by the Rule 3018(a) Motion Deadline (as such terms are defined in the Solicitation Procedures Order);

(vi) any Ballot that indicates neither an acceptance nor a rejection, or indicates both an acceptance and a rejection, of the Plan;

(vii) any Ballot (other than a Master Ballot) that casts part of its vote in the same Class to accept the Plan and part to reject the Plan;

(viii) any form of Ballot or Master Ballot other than the official form sent by the Voting Agent, or a copy thereof;

(ix) any Ballot received that the Voting Agent cannot match to an existing database record;

(x) any Ballot or Master Ballot that does not contain an original signature; or

(xi) any Ballot or Master Ballot that is submitted by facsimile, email or by other electronic means, unless otherwise authorized by the Debtors, in their discretion, upon consultation with the Committee.

In order for the Plan to be accepted by an Impaired Class of Claims, a majority in number and two-thirds in dollar amount of the Claims voting in such Class must vote to accept the Plan. At least one Voting Class, excluding the votes of insiders, must actually vote to accept the Plan.

YOU ARE URGED TO COMPLETE, DATE, SIGN AND PROMPTLY MAIL THE BALLOT ENCLOSED WITH THE NOTICE. PLEASE BE SURE TO COMPLETE THE BALLOT PROPERLY AND LEGIBLY, AND IDENTIFY THE EXACT AMOUNT OF YOUR CLAIM AND THE NAME OF THE CREDITOR. IF YOU ARE A HOLDER OF A CLAIM ENTITLED TO VOTE ON THE PLAN AND YOU DID NOT RECEIVE A BALLOT, YOU RECEIVED A DAMAGED BALLOT OR YOU LOST YOUR BALLOT, OR IF YOU HAVE ANY QUESTIONS CONCERNING THE DISCLOSURE STATEMENT, THE PLAN OR PROCEDURES FOR VOTING ON THE PLAN, PLEASE CONTACT THE VOTING AGENT LOGAN & COMPANY, INC. AT RI@LOGANANDCO.COM OR 973-509-3190. THE VOTING AGENT IS NOT AUTHORIZED TO AND WILL NOT PROVIDE LEGAL ADVICE.

F. Confirmation Hearing

The Court has scheduled a hearing to consider confirmation of the Plan for January 13, 2016 at 2:00 p.m. (Eastern time) in the United States Bankruptcy Court for the District of Delaware, 824 North Market Street, 5th Floor, Courtroom No. 4, Wilmington, Delaware 19801 (the "Confirmation Hearing"). The Court has directed that objections, if any, to confirmation of the Plan be filed and served on or before January 6, 2016 at 4:00 p.m. (Eastern time) in the manner described in the Notice accompanying this Disclosure Statement. The Confirmation hearing may be adjourned from time to time by way of announcement of such continuance in open Court or otherwise, without further notice to parties in interest.

THE DEBTORS AND COMMITTEE URGE ALL HOLDERS OF CLAIMS ENTITLED TO VOTE ON THE PLAN TO VOTE TO ACCEPT THE PLAN.

THE COMMITTEE HAS ALSO PREPARED A LETTER IN SUPPORT OF CONFIRMATION OF THE PLAN, WHICH LETTER IS INCLUDED IN THE SOLICITATION PACKAGES. CREDITORS SHOULD REVIEW THE COMMITTEE'S LETTER IN CONNECTION WITH EVALUATING THE PLAN.

ARTICLE II

GENERAL INFORMATION REGARDING THE DEBTORS

A. The Debtors' Formation

The Debtors include the following four entities: (a) Reichhold Holdings US, Inc. ("Holdings"), a Delaware corporation; (b) Reichhold Liquidation, Inc. (f/k/a Reichhold, Inc.) ("Reichhold" or "Reichhold, Inc."), a Delaware corporation, which is wholly owned by Holdings;[1] (c) Canadyne Corporation ("Canadyne"), a Delaware corporation, which is wholly owned by Reichhold Liquidation, Inc. (f/k/a Reichhold, Inc.); and (d) Canadyne-Georgia Corporation ("CGC"), a Georgia corporation, which is wholly owned by Canadyne. Reichhold, Inc. is the only entity among the four Debtors that had active operations. Holdings is strictly a holding company. Canadyne and CGC are inactive entities.

As of the Petition Date, the Debtors were part of the privately-held international "Reichhold" family of companies (the "Reichhold Companies") owned, directly or indirectly, by non-Debtor Reichhold Industries, Inc. ("Reichhold Industries"). The Reichhold Companies include operations in North America, Europe, Latin America, South America, the Middle East and Asia. The Debtors-Reichhold conducted the Reichhold Companies' United States operations.

Holdings is a wholly owned subsidiary of Reichhold Corporate Holdings II B.V., a Dutch entity, which is in turn a wholly owned subsidiary of Reichhold Industries. Reichhold Industries is wholly owned by Kestrel I Acquisition Corp. ("Kestrel"), a Delaware corporation. Kestrel is privately held. None of the foregoing entities are debtors in these cases.

B. The Debtors' Business and Employees

As of the Petition Date, the Reichhold Companies were leading global suppliers of intermediate products for the composites and coatings industry with operations in North America, South America, Europe, the Middle East and Asia. They served a diversified range of end users and market segments through two main business segments – composites and coatings. The Reichhold Companies had 19 manufacturing sites in 13 countries and served more than 2,000 customers in over 85 countries through their world-wide network of production facilities. The Reichhold Companies owned significant technology and know-how which was shared among the Reichhold Companies for use in their worldwide operations. As of June 30, 2014, the Reichhold Companies had consolidated assets of $538 million and consolidated liabilities of $631 million. In 2013, the Reichhold Companies generated $1,084 million in net revenues. The Reichhold Companies generated $1,081 million in net revenues for the year 2014.

[1] Reichhold, Inc. has changed its name to Reichhold Liquidation, Inc.

As of the Petition Date, the Debtors were the premier supplier of unsaturated polyester resins ("UPR") used to fabricate composites and advanced composite products. The composites business marketed four broad product groups: UPR, vinyl ester resin, gelcoats and bonding paste. These products are used in such applications as marine manufacturing, tub and shower components, energy windmill blades, solid surface applications, large diameter water pipe manufacturing, automotive manufacturing and advanced composites/prepregs. The Debtors (and a Canadian non-debtor affiliate) produced 219 million pounds of composites in 2013 and held a 17% market share. In 2013, the composites segment generated $772 million of revenue, 71% percent of the companies' total revenue. Consolidated UPR represented 62% of the Reichhold Companies' total revenue.

The Debtors' coatings business manufactured a comprehensive range of products. A pioneer in the coatings industry since 1927, the Debtors' expertise was in waterborne chemistries such as acrylics, alkyds, epoxies, polyesters and polyurethanes and in powder coatings and printing resins. The Debtors' more than 3,000 products were typically sold to a broad base of customers primarily for industrial purposes, used in thousands of applications such as consumer goods, architectural products, industrial maintenance, printing, marine applications, automotive coatings and construction. The Debtors (and a Canadian non-debtor affiliate) produced 203 million pounds of coatings in 2013 and held a 30% market share in alkyds. In 2013, the Debtors' coatings segment generated $312 million and was responsible for 29% of the Reichhold Companies' total revenue.

C. The Debtors' Corporate Headquarters

As of the Petition Date, the Debtors conducted their business from the world headquarters of the Reichhold Companies located in Durham, North Carolina, in office space leased by Debtor Reichhold, Inc. That office space also housed the Debtors' North American technology center and laboratory. In addition, the Debtors had operations in owned manufacturing facilities located in Azusa, California (composites); Houston, Texas (composites and coatings); Jacksonville, Florida (composites); Morris, Illinois (composites and coatings); Pensacola, Florida (coatings and composites); and Valley Park, Missouri (coatings).

D. The Debtors' Employees

As of the Petition Date, the Debtors employed approximately 379 employees in their business operations. Of those employees, approximately 47% (176) were hourly employees and approximately 53% (203) were salaried employees. Approximately 23% (89) of the Debtors' hourly employees are covered by collective bargaining agreements. The Debtors' workforce of employees was augmented by services received from approximately ten (10) independent contractors who devoted all or the substantial portion of their working time to providing services to the Debtors. As of the date of this Disclosure Statement, the Debtors do not have any employees as a result of the sale of substantially all of their assets as more fully described in Section III.2.

E. The Debtors' Corporate and Capital Structure

The Debtors were borrowers, guarantors and/or obligors under various credit agreements, notes and financial arrangements. As of the Petition Date, the Debtors' secured and unsecured debt obligations totaled approximately $287.3 million (exclusive of the guarantee obligations under the Senior Secured Notes described below).

1. Secured Debt

As of the Petition Date, the Debtors had aggregate outstanding secured debt totaling approximately $64.3 million (exclusive of the Senior Secured Notes) in connection with various loans, notes and equipment financings, as described in more detail below.

a. Senior Credit Facility With Oaktree

Debtor Reichhold, Inc. and non-debtor affiliate Reichhold Industries Limited ("RIL"), an Ontario, Canada corporation continued into British Colombia, were borrowers (the "Borrowers") under a Credit Agreement dated October 7, 2005, as subsequently amended, (the "Credit Agreement") among various lenders thereunder (the "Prior Lenders") and Bank of America, N.A. ("BofA") as administrative agent and a Prior Lender and Wells Fargo Bank, National Association ("Wells Fargo") as Documentation Agent and a Prior Lender. Pursuant to the Credit Agreement, the Prior Lenders made available to the Borrowers a maximum amount of $85 million on a revolving basis (the "Revolving Loan").

In the early months of 2014, it became apparent that availability under the Revolving Loan was becoming insufficient to supply the Borrowers with the liquidity necessary to continue financing their operations. As a result, the Borrowers entered into discussions with OCM Reichhold Holdings, Ltd., an affiliate of Oaktree Capital Management, L.P. ("Oaktree"), to provide a new credit facility. On or about May 20, 2014, BofA and Wells Fargo in their respective capacities as Prior Lenders under the Credit Agreement assigned the Credit Agreement and all rights and interests thereunder to Oaktree, as the new sole lender under that agreement (the "Assignment"). BofA, however, agreed to continue as administrative agent.

In connection with the Assignment, the Borrowers and BofA entered into a Fifteenth Amendment to Credit Agreement dated May 20, 2014 (the "Amendment"). Pursuant to the Amendment, the Revolving Loan was replaced with term loans and a delayed draw term loan in the aggregate amount of $70 million as follows (collectively, the "Term Loans"): (a) a term loan in the aggregate principal amount of $8,345,353.79 to RIL, the proceeds of which were used to repay RIL's outstanding balance on the Revolving Loan; (b) a term loan in the aggregate principal amount of $29,265,221.07 to Debtor Reichhold, Inc., the proceeds of which were used to repay Reichhold, Inc.'s outstanding balance on the Revolving Loan; (c) a delayed draw term loan commitment to Debtor Reichhold, Inc. in the original principal amount of $5,000,000; and (d) additional term loans to Debtor Reichhold, Inc. in the aggregate principal amount of $27,389,425.14, of which $13,743,950.76 was used to cash collateralize outstanding letters of credit. The Term Loans were scheduled to mature on October 31, 2014.

The Borrowers' obligations under the Credit Agreement, as amended by the Amendment, were secured by a security interest in substantially all of the Borrowers' assets other than the

equity interests held by Holdings. Additionally, in consideration for the Term Loans and subject to the terms set forth in the Amendment, non-Debtor Reichhold Industries, the parent of the Borrowers, agreed not to sell any of its assets, including equity in its subsidiaries.

As of the Petition Date, the amount outstanding to Oaktree under the Credit Agreement was approximately $73 million, of which $64.3 million was owed by Debtor Reichhold, Inc. and $8.7 million was owed by non-Debtor RIL. As set forth herein, Oaktree was repaid by the DIP Loans (defined herein).

b. **Senior Secured Notes**

On May 8, 2012, non-debtor Reichhold Industries issued $206,578,066 of 9%/11% Senior Secured Notes (the "Senior Secured Notes") due 2017 pursuant to an indenture (the "Senior Secured Indenture") under which Wells Fargo served as trustee and collateral agent.[2] Reichhold Industries' obligations under the Senior Secured Notes and Senior Secured Indenture were guaranteed by Holdings and Reichhold, Inc. (together with Reichhold Industries, the "Issuers"). The Senior Secured Notes were secured by a pledge of, among other things, Reichhold Corporate Holdings II B.V.'s interest in Holdings and Holdings' interest in Reichhold, Inc.[3] To secure its obligations under the Senior Secured Notes, Reichhold Industries also pledged 65% of the voting shares (and 100% of the non-voting shares) its holds in its wholly-owned direct, non-Debtor subsidiary, Reichhold Holdings Luxembourg, S.a.r.l. ("RHL"). Because RHL is the ultimate holding company of all of the non-Debtor affiliates that operate outside of North America, and given the fact that the non-voting shares that had been pledged carried with them a significant portion of the economic value of RHL, the Debtors believed the holders of the Senior Secured Notes were the primary beneficiary of the Reichhold Companies' non-U.S. operations.

The Senior Secured Notes were issued following an exchange offer whereby the Senior Secured Notes were exchanged for the Senior Unsecured Notes.[4] The Senior Secured Notes accrued cash interest at 9% and payment-in-kind interest ("PIK Interest") at 11%, with payments due annually on November 1 and May 1. Under the Senior Secured Indenture, the Issuers were permitted to add interest payments to the principal amount outstanding at the PIK Interest rate through May 1, 2014.

---

[2] Third Avenue Management ("Third Avenue"), JP Morgan ("JPM") and Black Diamond were the largest holders of the Senior Secured Notes.

[3] Reichhold, Inc. is a guarantor of the Senior Secured Notes. Reichhold, Inc., however, did not pledge any assets to secure that guarantee.

[4] On August 15, 2006, Reichhold Industries issued $195 million of 9% Senior Notes (the "Senior Unsecured Notes") due in August of 2014 pursuant to a first amended indenture. As a result of an exchange offer undertaken by Reichhold Industries in May of 2012, approximately 99% of the Senior Unsecured Notes were replaced with the Senior Secured Notes. Holders of approximately 1% of the Senior Unsecured Notes did not agree to exchange their Senior Unsecured Notes for the Senior Secured Notes. As of the Petition Date, however, there were no amounts due and owing to the holders of the Senior Unsecured Notes.

As of the Petition Date, principal in the amount of approximately $255 million was outstanding under the Senior Secured Notes. As of the date this Disclosure Statement, approximately $159 million remained outstanding under the Senior Secured Notes as a result of the Exchange (described below in Section 111.D.1).

c. **Equipment Financing**

The Debtors were also party to several equipment leases and purchase agreements for equipment that they financed. The total secured obligations related to that equipment was only $3,000 as of the Petition Date. Based upon the Debtors' books and records and the assumption and assignment of equipment leases during the cases, the Debtors do not believe there are any valid outstanding equipment financing claims.

d. **Other Secured Debt**

The Debtors had various mechanics' lien claims filed against them. As of the date of this disclosure statement, the Debtors estimate there is approximately $276,000 of such other secured debt outstanding.

2. **Unsecured Debt**

As of the date of this Disclosure Statement, the Debtors estimate there is approximately $384,972,000 to $459,972,000 of aggregate outstanding unsecured debt including, among others, environmental obligations, unfunded pension and other postretirement obligations and the outstanding obligations under the guarantee of the Senior Secured Notes.

a. **Intercompany Debt with Non-Debtor Affiliates**

Reichhold, Inc. had received inter-company transfers in the form of loans evidenced by notes from its foreign affiliates in order to address the Debtors' liquidity shortfall (discussed below). Those inter-company loans were recorded by intercompany notes that were issued monthly and payable the next month. As of the Petition Date, Reichhold, Inc. had borrowed approximately $103.7 million from foreign affiliates through inter-company loans. Of this amount, $93.9 million was owed to an affiliate in the Netherlands and $9.8 million was owed to RIL. As of the date of this Disclosure Statement, there is no remaining intercompany debt with the non-debtor affiliates as a result of the Intercompany Release (as defined and explained more fully in Section 111.D.2).

F. Summary of Events Leading to the Chapter 11 Filings

1. Declining Revenue, Operating Losses the Tightening of Trade Terms with Key Vendors and Shortage of Cash

In recent years, prior to the Petition Date, the Debtors generated large net losses and experienced negative cash flows. In addition to the Debtors' significant debt service levels, the Debtors spent substantial amounts to fund pension and other postretirement obligations and to pay for environmental remediation matters. During 2012 and 2013, respectively, the Debtors contributed $12.7 million and $10.0 million to their pension and other postretirement benefit

plans. The Debtors also spent $8.6 million in 2013 for environmental matters. The Debtors incurred significant costs for legal and financial advisors to assist with their financial restructuring efforts.

Since 2010, the Debtors' significant cash needs had been satisfied primarily from intercompany loans received from their foreign affiliates. During 2011, the cash generated by the Debtors' foreign affiliates was reduced due to their investment in a plant in China and economic conditions in Europe and the Middle East. The use of PIK interest after the 2012 bond exchange (described above) reduced the cash requirements for the Reichhold Companies and improved operating results, supporting additional intercompany loans from the Debtors' foreign affiliates. That trend, however, did not continue into 2013, as a result of both a negative impact from the US coatings operations and a significant decline in the profitability of the Debtors' foreign affiliates, especially Brazil. In December of 2013, in order to provide additional funding for the Debtors and additional liquidity for the foreign affiliates, certain of the Debtors' European, Asian and South American affiliates (the "GAC Credit Parties") and GA Capital LLC ("GAC") entered into a new credit facility (the "GAC Facility"). The Reichhold Companies' affiliates in the United States (including the Debtors), Canada, India, China and Turkey ("Non-GAC Credit Parties") were not participants in the GAC Facility. The GAC Facility allowed up to $18 million, plus a portion of excess cash flow generated by the GAC Credit Parties to be calculated semi-annually, of intercompany loans or investments made by the GAC Credit Parties to any Non-GAC Credit Parties. Of the initial $18 million allowance for intercompany loans and investments, $11 million had been loaned to the Debtors and $6.1 million had been loaned to or invested in other Non-GAC Credit Parties as of the Petition Date. On September 26, 2014, the allowance for such intercompany loans and investments was increased by $5.8 million due to the semi-annual excess cash flow calculation. As of the Petition Date, the unused allowance for intercompany loans or investments by the GAC Credit Parties was $6.7 million.

On April 17, 2014, the credit rating agency Standard and Poor's ("S&P") downgraded Reichhold Industries' credit rating from B- to CCC, and thereafter issued a further downgrade on July 28, 2014 to CCC-. The credit downgrades had a significant impact on the Debtors' liquidity as they lost a total of approximately $10 million of liquidity due to reduced credit limits and the tightening of trade terms from many of their vendors.

By September 2014, the Debtors were fully drawn under the Oaktree facility and facing severe liquidity problems.

2. **Unsustainable Legacy Liabilities**

The Debtors were heirs to an 85+ year history of involvement in the specialty chemicals industry and carry with them exceedingly burdensome liabilities related to that legacy. As of June 30, 2014, the Debtors' unfunded pension and retirement liability exceeded $71 million, and reserves on account of environmental liabilities were approximately $32 million. These obligations persisted, notwithstanding the fact that the Debtors' revenues had declined precipitously while their profits have evaporated and cash has become scarce.

3. **Efforts to Address Financial Constraints**

In response to the financial challenges discussed above, the Reichhold Companies' management team initiated a number of actions to improve the performance of the company. In particular, the Debtors addressed numerous operational changes including, but not limited to, reducing facilities such as the permanent closure of the Newark, New Jersey facility as well as restructuring of contracts. Additionally, the Reichhold Companies took steps to improve the performance of the non-Debtor affiliates which, in turn, enabled them to loan more money to the Debtors. Lastly, the Debtors took steps to improve their cash position by, among other things, exchanging the Senior Unsecured Notes for the Senior Secured Notes which had a PIK interest feature. Unfortunately, those efforts proved insufficient to overcome the financial obstacles facing the Debtors.

4. **Exploration of Strategic Alternatives**

After completing the exchange offer in May 2012, the Reichhold Companies devoted significant time and resources to exploring strategic alternatives to maximize value for the benefit of all stakeholders. Those alternatives included, but were not limited to, a potential sale of the entire company and a transaction with one of the industry players that would consolidate the composite industry. Neither of those options, however, materialized.

As of the Petition Date, the Debtors did not have sufficient liquidity to operate their businesses and could not fund the administration of these Chapter 11 Cases without the need for debtor-in-possession financing. Toward that end, before the Petition Date, the Debtors retained CDG Group to, among other things, critically examine the Debtors' business operations and funding requirements. In or about April 2014, given the Debtors' operating losses and reduced liquidity, the Debtors and their advisors contacted 4 potential lenders and received one financing proposal from a prospective lender in anticipation of a potential Chapter 11 filing. As set forth above, in May 2014, however, the Debtors secured the Oaktree Term Loans, alleviating the need for a DIP loan at that time.

Subsequently, however, due to further liquidity constraints and limited available cash, the Debtors and their advisors renewed their efforts to secure a DIP loan. They contacted and solicited DIP financing proposals from seven prospective lenders including their existing lenders and bondholders, traditional lenders and non-traditional lenders. The Debtors and their advisors explored two types of financing structures with the prospective lenders – funding for the Reichhold Companies' United States operations only and a global financing solution for the Reichhold Companies' United States and rest of world businesses. The Debtors ultimately received four proposals for DIP financing. None of the prospective lenders were willing to provide a DIP facility secured only by the Debtors' collateral. Instead, all four of the proposals required security from the Reichhold Companies rest of world businesses to fund the cash needs of the Debtors.

After careful review and extensive negotiation of the DIP financing proposals, the Debtors' Board of Directors determined in its business judgment that the proposal from Third Avenue, JP Morgan and Black Diamond represented the best option for the Debtors and their businesses (the "DIP Loan"). As described below, the DIP Loan provided for a comprehensive

52719/0001-11921553v11

transaction that allowed the Reichhold Companies' to emerge with continuing business operations, a delevered balance sheet and significantly enhanced financial conditions, across the Debtors' worldwide operations. Additionally, the DIP Loan provided for a stalking horse bid for the Reichhold Companies' U.S. operations (as further discussed below) thereby ensuring a clear path towards emergence while providing the liquidity needed to run a marketing process and encourage overbidding to increase value for the Debtors' estates.

5. **Appointment of Independent Board Members**

Before the Petition Date, three (3) independent directors were appointed to the Debtors' board. In view of management's (some of who are also directors) informal agreement with the Stalking Horse Purchaser, CDG and counsel reported directly to the independent directors regarding negotiations and approval of the Stalking Horse Agreement and in connection with the overall sale process.

6. **Use of Chapter 11 Process**

Given the Debtors' severe liquidity constraints, these Chapter 11 Cases were commenced to maximize value for the benefit of all stakeholders. The Debtors believed that the comprehensive transaction that underlies the commencement of these Chapter 11 Cases (including, perhaps most notably, the access to necessary debtor-in-possession financing and the willingness of the holders of the Senior Secured Notes to serve as a stalking horse bidder and establish a floor price for the U.S. operations, which led to a robust auction with participation by other bidders) was a transaction that would benefit all stakeholders. The Debtors, thus, believed these Chapter 11 filings and the pursuit of a sale process involving substantially all of the Debtors' assets under section 363 was in the best interest of the Debtors' creditors and other stakeholders. As the holders of the Senior Secured Notes were the winning bidder in the 363 sale, as described below, the Reichhold Companies will be kept together, which the Debtors believed would maximize recoveries for all creditors as well as saving the jobs of many employees.

ARTICLE III

THE CHAPTER 11 CASES

A. Commencement of the Chapter 11 Cases

As set forth above, on the Petition Date the Debtors filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in the Court. By order dated October 2, 2014 [Docket No. 44], the Debtors' cases are being jointly administered for procedural purposes only. No trustee or examiner has been appointed in the Chapter 11 Cases.

After the Petition Date and through the sale of substantially all of their assets, the Debtors continued to operate their businesses and manage their properties as debtors and debtors-in-possession.

B. "First Day" Motions and Related Applications

On the Petition Date, the Debtors filed a number of "first-day" motions and applications designed to ease the Debtors' transition into Chapter 11, maximize their assets and minimize the effects of the commencement of the Chapter 11 Cases.[5] On October 2, 2014, the Court entered orders providing various "first-day" relief, including:

(a) authorizing the Debtors to pay certain prepetition taxes and related obligations [Docket No. 46];

(b) authorizing the Debtors to pay prepetition insurance obligations and maintain postpetition insurance coverage [Docket No. 47];

(c) authorizing the Debtors to honor certain prepetition obligations to customers and continue customer programs [Docket No. 48];

(d) authorizing the Debtors to pay certain prepetition shipping, warehousing and related claims [Docket No. 50];

(e) authorizing the Debtors to pay prepetition employee compensation, benefits, expense reimbursements and related obligations; and continue certain employee benefit programs in the ordinary course [Docket No. 51];

(f) authorizing the Debtors to continue use of their existing cash management system and bank accounts, checks and business forms and deposit practices; continue intercompany transactions; and accord superpriority status to postpetition intercompany claims between Debtors and administrative expense status to postpetition intercompany claims between Debtors and non-Debtor affiliates [Docket No. 53];

(g) establishing procedures for resolving objections by utility companies and prohibiting utility companies from altering, refusing or discontinuing service (final order entered October 28, 2014) [Docket No. 189]; and

(h) authorizing the Debtors to obtain debtor-in-possession financing, use cash collateral and grant superpriority claims (final order entered December 4, 2014) [Docket No. 310].

C. Retention of Professionals and Appointment of the Committee

1. Retention of Debtors' Professionals

By Orders entered October 23, 2014, the Debtors were authorized to retain (i) Cole Schotz P.C. as their bankruptcy counsel [Docket No. 169], (ii) Dickstein Shapiro LLP as their special insurance counsel [Docket No. 166], and (iii) Hunton & Williams LLP as their special

[5] In addition to the "first-day" motions, the Debtors filed certain other motions that are described more fully herein.

environmental counsel [Docket No. 168]. By Order entered November 19, 2014, the Debtors were authorized to retain CDG Group, LLC as their financial advisor and investment banker [Docket No. 238].

The Debtors also were authorized to retain certain professionals utilized by the Debtors in the ordinary course of business prior to the Petition Date (amended order entered December 23, 2014) [Docket No. 368].

2. **Retention of Claims and Noticing Agent and Administrative Agent**

By order entered on October 2, 2014 [Docket No. 45], the Court authorized the Debtors to retain Logan & Company, Inc. ("Logan" or the "Voting Agent") as their claims and noticing agent in the Chapter 11 Cases. By order entered October 23, 2014 [Docket No. 167], the Court also authorized the Debtors to retain Logan as their administrative agent in the Chapter 11 Cases.

3. **Appointment of Committee and Retention of Committee Professionals**

On October 14, 2014, the Office of the United States Trustee for the District of Delaware (the "U.S. Trustee") appointed an Official Committee of Unsecured Creditors in the Chapter 11 Cases (the "Committee") pursuant to section 1102(a) of the Bankruptcy Code [Docket No. 81]. The members of the Committee are: (i) Pension Benefit Guaranty Corporation, (ii) Stepan Company, (iii) Americas Styrenics, (iv) Evonik Corporation, (v) United Steelworkers, (vi) Alnor Oil Company, Inc. and (vii) Estate of Anna R. Hartgrave. By letter dated August 12, 2015, Americas Styrenics resigned from the Committee [Docket No. 976]. By Orders entered November 13, 2014, the Committee was authorized to retain (i) Hahn & Hessen LLP as its counsel [Docket No. 233], and (ii) Blank Rome LLP ("Blank Rome") as its co-counsel [Docket No. 234]. By Order entered on November 21, 2014, the Committee was authorized to retain Capstone Advisory Group, LLC as its financial advisor [Docket No. 261]. By Order entered on August 3, 2015, Berkeley Research Group, LLC replaced Capstone Advisory Group, LLC as the Committee's financial advisor [Docket No. 949].

4. **Appointment of Retiree Committee**

The Debtors historically offered their employees the ability to participate in a self-funded retiree medical program (the "Retiree Medical Program") pursuant to which the Debtors would pay a portion of the cost of the employee's medical care during the entirety of the employee's retirement, and a retiree life insurance program (the "Retiree Life Insurance Program" and, together with the Retiree Medical Program, the "Retiree Welfare Programs") pursuant to which the Debtors would pay the premiums associated with the employee's life insurance following the employee's retirement from the Debtors. On January 30, 2015, the Debtors filed a motion for an order directing the U.S. Trustee to appoint a retiree committee consisting of non-union retirees who are currently receiving benefits under the Retiree Welfare Programs (the "Retiree Committee Motion") [Docket No. 537]. On February 23, 2015, the Court approved the Retiree Committee Motion [Docket No. 588]. On April 1, 2015, the Office of the United States Trustee appointed the Official Committee of Non-Union Retired Employees (the "Retiree Committee") [Docket No. 665]. The Retiree Committee's three members are as follows: (i) Ian L. Potter, (ii) John R. Young and (iii) Andrew A. Katai. By Order entered May 28, 2015, the Retiree

Committee was authorized to retain Stahl Cowen Crowley Addis LLC as counsel [Docket No. 755].

D. Significant Events During the Chapter 11 Cases

In addition to the "first-day" relief sought and received in the Chapter 11 Cases, the Debtors have sought and received authority with respect to various matters designed to assist in the administration of the Chapter 11 Cases and to maximize the value of the Debtors' estates. Material events since the commencement of the Chapter 11 Cases are summarized below and include:

1. DIP Financing

On the Petition Date, the Debtors filed a Motion for Interim and Final Orders (I) Authorizing Debtors to Obtain Post-Petition Secured Financing Pursuant to 11 U.S.C. §§ 105, 362, 363 and 364; (II) Granting Liens and Super-Priority Claims; and (III) Scheduling a Final Hearing Pursuant to Bankruptcy Rule 4001 (the "DIP Motion").

As set forth above, faced with significant liquidity constraints, the Debtors recognized that to achieve their Chapter 11 objectives – including, most notably, the effectuation of the sale of the Debtors' assets pursuant to Section 363 of the Bankruptcy Code – it was necessary to obtain post-petition financing. The nature of the Debtors' prepetition capital structure (described above) made procuring such financing extremely challenging, especially since there was insufficient collateral value among the Debtor entities to enable them to attract traditional lenders willing to provide the funding the Debtors needed. As set forth above, the Debtors undertook a rigorous marketing process and exploration of strategic alternatives, in which the Debtors received formal proposals from several potential financing sources.

Ultimately, the Debtors determined that the best financing option was presented (as a component of a larger, comprehensive transaction discussed below), collectively, by funds managed by Third Avenue Management, JP Morgan and Black Diamond (collectively, but solely in their capacity as the source of postpetition financing, the "Senior DIP Lenders"), the largest holders of the Senior Secured Notes. Significantly, the Senior DIP Lenders' proposal represented the most reasonable and viable option for obtaining the additional liquidity necessary to sustain the Debtors' operations in Chapter 11 for the benefit of their estates and creditors.

Discussions with the Senior DIP Lenders accelerated and ultimately culminated with a comprehensive, multi-staged transaction (the "DIP Transaction") a key component of which was a financing structure pursuant to which the Senior DIP Lenders agreed to provide secured financing in the aggregate net principal amount of $130,000,000 (after original issue discount) both directly to the Debtors and to one of the non-Debtor affiliates that operates outside of North America ("ROW") (which affiliate would, under the terms of the DIP Transaction, in turn, loan a portion of such funds to the Debtors). The structure's ultimate funding goal was to provide the Debtors with access to new liquidity, after the repayment of (i) approximately $73 million owed to Oaktree and (ii) approximately $28.9 million owed to the ROW affiliates' secured lender GAC under the GAC Facility.

The agreed financing structure allowed funds to flow to the Debtors from two separate sources. The first funding source was a direct loan in the amount up to $53.19 million on an interim and final basis (the "Senior DIP Loan") from the Senior DIP Lenders to Debtor Reichhold, Inc., guaranteed by the other Debtors. The second funding source ultimately derived from a secured loan of $85.1 million made by the Senior DIP Lenders to Reichhold Holdings International B.V. ("Reichhold BV") a holding company for all of the ROW entities, guaranteed by many of the ROW entities (the "ROW Loan"). The proceeds from the ROW Loan were used to repay certain secured indebtedness at Reichhold BV and to fund the Junior DIP Loan (as defined below). Reichhold BV (in its capacity as a postpetition lender, the "Junior DIP Lender") then made an intercompany loan of $50.0 million (the "Junior DIP Loan" and, together with the Senior DIP Loan, the "DIP Loans") to Debtor Reichhold, Inc.

The Debtors believed that the credit support from ROW to the Debtors was necessary to maximize the overall value of the Debtors' assets. Both DIP Loans were secured by liens upon substantially all of the Debtors' assets. The liens under the Senior DIP Loan were, however, first priority liens on such assets which are senior in priority to the liens under the Junior DIP Loan. Among other conditions precedent to initial funding under the DIP Loans, reciprocal license agreements for the use of intellectual property were executed and delivered. The Debtors intended to use the proceeds of the DIP Loans to (a) pay off all outstanding obligations under the Debtors' existing Oaktree prepetition secured facility in the principal amount of approximately $73 million, (b) support the ongoing operations of the Debtors' business during these Chapter 11 cases, and (c) enable the Debtors to fund the 363 sale process.

As noted above, the furnishing of the funds underlying the DIP Loans was only the first step in the overall DIP Transaction. The second step was the commitment by Reichhold Industries to negotiate documents for (a) a consensual foreclosure by Wells Fargo, National Association as indenture of the ROW equity collateral pledged under the Senior Secured Indenture and (b) an asset purchase agreement (the "APA") under which Reichhold BV or another of the ROW entities as successor to the Junior DIP Lender would become the stalking horse to purchase substantially all of the Debtors' material assets in the 363 sale process, initially by credit- bidding the Junior DIP Loan in full.

On October 2, 2014, the Court entered an Interim Order (I) Authorizing Debtors to Obtain Post-Petition Secured Financing Pursuant to 11 U.S.C. §§ 105, 362, 363 and 364; (II) Granting Liens and Superpriority Claims; and (III) Scheduling a Final Hearing Pursuant to Bankruptcy Rule 4001 (the Interim DIP Order"). Pursuant to the Interim DIP Order, the Debtors were authorized to borrow, on an interim basis, $53,190,000 under the Senior DIP Loan and $40,430,000 under the Junior DIP Loan. The Court scheduled a final hearing on the DIP Motion for October 20, 2014.

The Committee, among others, filed an Objection to the final approval of the DIP Motion alleging that the DIP Loans would chill bidding and make it impossible for a third-party to effectively bid for the Debtors' assets. After extensive negotiations, the Debtors, the Committee and DIP Lenders resolved the Committee's objections as memorialized in the Final Order (I) Authorizing Debtors to Obtain Post-Petition Secured Financing Pursuant to 11 U.S.C. §§ 105, 362, 363 and 364 and (II) Granting Liens and Superiority Claims [Docket No. 310] (the "Final DIP Order") and Order Amending Final Order (I) Authorizing Debtors to Obtain Post-Petition

Secured Financing Pursuant to 11 U.S.C. §§ 105, 362, 363 and 364 and (II) Granting Liens and Superiority Claims [Docket No. 477]. The terms of the settlement with the Committee is discussed herein.

As a result of entry of the Final DIP Order, the Debtors were authorized to draw the full amount of the DIP Loans. The Debtors ultimately drew $53,192,000 on the Senior DIP Loan and $46,000,000 on the Junior DIP Loan. As set forth below, the Junior DIP was credit bid in connection with the Sale and the Senior DIP Loan in the amount of $53 million was assumed by the Stalking Horse Purchaser. As of the date of this Disclosure Statement, the Debtors have no amounts due and owing in connection with the DIP Loans.

Instead of a consensual foreclosure of the ROW equity pledged under the Senior Secured Indenture as originally contemplated, there was an exchange of debt for equity (the "Exchange"). On April 1, 2015, holders of the Senior Secured Notes representing 99.1% of the total outstanding notes exchanged their Senior Secured Notes with a face value of approximately $104 million, representing approximately 41% of the their Senior Secured Notes held, for 99.1% of the equity of Reichhold BV, RIL and Reichhold, LLC, (f.k.a. Reichhold Acquisitions Holdings, LLC). As Reichhold BV owns all of the Reichhold Companies' operating subsidiaries that are located outside of North America, this exchange effectively gave the Senior Secured Note holders ownership of 99.1% of the entire family of Reichhold Companies, excluding certain non-operating entities, upon the closing of the U.S. asset sale described below. Holders of the remaining 0.9% of the Senior Secured Notes have not been identified and have a participation right under the same terms for a period of one year.

2. **Sale of Assets**

On November 12, 2014, the Debtors filed a motion [Docket No. 221] (the "Sale and Bidding Procedures Motion") seeking entry of an order (the "Bidding Procedures Order") (i) approving the proposed auction and bidding procedures (the "Bidding Procedures") for the potential sale of substantially all of the Debtors' assets (the "Purchased Assets") pursuant to the Asset Purchase Agreement (the "Stalking Horse APA") with Reichhold Acquisitions Holdings LLC (the "Stalking Horse Purchaser"); (ii) scheduling an auction and hearing to consider approval of the sale; and approving notice of respective date, time and place for auction and for hearing on approval of the sale and the assumption and assignment of certain executory contracts and unexpired leases; and for an order (the "Sale Order") authorizing (i) the sale of substantially all of the Debtors' assets free and clear of liens, claims and encumbrances; and (ii) assumption and assignment of certain executory contracts and unexpired leases.

On December 3, 2014, the Court entered the Bidding Procedures Order [Docket No. 309]. The Bidding Procedures Order fixed January 6, 2015 at 5:00 p.m. as the deadline for the submission of higher or better bids for the Purchased Assets and January 8, 2015 at 10:00 a.m. for an auction to the extent higher or better bids were submitted. The Debtors served the Bidding Procedures Order and applicable notice in accordance with the Bidding Procedures Order. Additionally, the Debtors published notice of the sale in the Wall Street Journal National Edition as well as issued an international press release announcing the approval of the Bidding Procedures Order and the proposed sale of the Purchased Assets.

Commencing immediately on the Petition Date and even before the Stalking Horse APA was executed, CDG initiated an extensive marketing of the Debtors' assets for sale as a going concern and began soliciting suitable buyers. CDG contacted 173 interested parties including 79 strategic parties and 94 financial parties. Fifty-four (54) of those parties ultimately executed non-disclosure agreements and were provided access to the Debtors' electronic data room. The Debtors' management gave presentations to nine (9) interested parties.

Ultimately, the Debtors received five (5) bids for some or all of the Purchased Assets. In consultation with the Committee, the Debtors determined that only the bid from Reichhold Resources LLC ("RR"), an entity formed by Prophet Equity Fund II, was a qualified bid (the "RR Bid"). The RR Bid was in the amount of $98,249,000 and was determined to be the highest and best bid before opening the auction.

On January 8, 2015, the Debtors conducted an auction between the Stalking Horse Purchaser and RR. The bidding at the auction was spirited. Over the ten (10) hour auction period, there were approximately 71 bids. After the final round of bids, the Debtors, in consultation with their advisors and the Committee, designated the Stalking Horse's bid in the amount of $146,749,000 as the successful bidder and RR's bid in the amount of $146,249,000 as the back-up bidder.

Pursuant to the Final DIP Order, the Junior DIP Lender was a secured creditor of the Debtors holding a valid allowed claims against the Debtors in the aggregate amount of $46,000,000 plus additional amounts to the extent allowed under the Final DIP Order and was authorized to credit bid any or all of such allowed claim. The Junior DIP Lender assigned its DIP loan claim to the Stalking Horse Purchaser. Therefore, the Stalking Horse Purchaser's bid of $146,749,000 included a credit bid of $46,000,000.

On January 9, 2015, the Debtors filed a notice of auction results the [Docket No. 459], listing the Stalking Horse Purchaser, Reichhold Acquisitions Holdings LLC, as the successful bidder and RR as the backup bidder.

On January 12, 2015, the Court held a hearing on the Sale. By orders dated January 12, 2015 and January 14, 2015 [Docket Nos. 479, 483], the Court approved the sale to the Stalking Horse Purchaser. On April 1, 2015, the sale to the Stalking Horse Purchaser closed.

In connection with the sale, the Stalking Horse Purchaser assumed approximately $80 million of liabilities. In particular, the Stalking Horse Purchaser assumed (i) $73 million of liabilities pursuant to the Stalking Horse APA (independent of the wind down budget discussed below) including, among others, liabilities under the Senior DIP Loan and 503(b)(9) claims of vendors that agree to provide the Stalking Horse Purchaser with normal trade terms subject to a $14 million cap and (ii) $7 million of estimated post-petition accounts payable. At the closing of the sale, the Debtors retained approximately $7.2 million for wind-down and closing costs and received approximately $16 million of cash from the Stalking Horse Purchaser.

Additionally, in connection with the sale and as a condition to closing, the non-Debtor affiliates executed an Intercompany Release dated as of April 1, 2015 (the "Intercompany Release"). Pursuant to the Intercompany Release, the non-Debtor affiliates released and

discharged, among others, the Debtors from any and all actions, causes of action, claims, demands, damages, judgments, payments, losses, debts, dues and suits of every kind. Similarly, the Debtors released the non-Debtor affiliates. As a result of the Intercompany Release, all intercompany liabilities due by the Debtors to the non-Debtor affiliates were released.

3. **Wind Down Budget**

An integral component of the Purchase Price was ensuring that the Debtors had sufficient funds to wind down their estates. Accordingly, the Stalking Horse Purchaser agreed to fund the Sellers' Closing and Wind Down Expenses as follows: (X) an amount estimated in good faith by the Debtors and as set forth in Section 1.1(f) of the Sellers' Disclosure Schedule to the Stalking Horse APA, but in no event in excess, in the aggregate, of $6,770,000 for (i) the wind down of the Debtors' bankruptcy estates with respect to (A) the costs of preparation of financial reports and tax returns in connection with the wind down of the bankruptcy estates, and (B) all professional fees to be incurred in connection with the preparation of those reports, (ii) amounts necessary for the Debtors to pay taxes allocated to, or retained by the Debtors to the extent they are entitled to priority as administrative expenses and are not otherwise an assumed liability under the Stalking Horse APA; (iii) fees payable to the United States Trustee; (iv) accrued and unpaid professional, consulting and investment banking fees and commissions that have been allowed by the Bankruptcy Court, (v) insurance premiums, and (vi) other post-petition and unpaid operating expenses that (A) are not an assumed liability under the Stalking Horse APA or (B) not included in the DIP budget; and (Y) the amount which shall in no event exceed $1,636,000 to be spent for environmental-related liabilities. The Sellers' Closing and Wind Down Expenses totaling $8,406,000 were paid by the Purchaser.

4. **Operation of Asuza Plant pursuant to the Tolling Agreement with the Stalking Horse Purchaser**

Since 1949, the Debtors owned and operated a facility at 237 S. Motor Avenue in Azusa, California, manufacturing resins and other products (the "Azusa Property"). The Azusa Property was integral to the Debtors' operations and the Stalking Horse Purchaser intended to purchase the Azusa Property as part of the Stalking Horse APA. However, the Azusa Property is located within the Baldwin Park Operable Unit ("BPOU"), a seven mile long area of groundwater which is part of the San Gabriel Valley Superfund Site, which in 1984, the Environmental Protection Agency ("EPA") added to the National Priorities List and designated for cleanup of groundwater contamination. At the time of the Chapter 11 filings, the Debtors were one of several potentially responsible parties ("PRPs") at the BPOU of the San Gabriel Valley Super Fund Site who are contributing to the clean-up of such BPOU. The Stalking Horse Purchaser was only willing to purchase the Azusa Property if it could obtain a prospective purchaser agreement with the United States pursuant to a settlement agreement and covenant not to sue limiting its obligations to fund the water treatment facility and responsibility for groundwater contamination ("PPA"). The Debtors, Stalking Horse Purchaser, the U.S. Department of Justice and the EPA engaged in settlement negotiations which resulted in the PPA on June 3, 2015.

Without the PPA, the Stalking Horse Purchaser was not prepared to purchase the Azusa Property. The Stalking Horse APA was amended to allow for a delay of the closing of the sale

of the Azusa Property pending entry of the PPA. Because the product manufactured at the Azusa Property was integral to the Debtors' overall operations, and these products were also important to the Stalking Horse Purchaser, the Debtors and the Stalking Horse Purchaser entered into an Interim Product Tolling Manufacturing Agreement ("Tolling Agreement") as of April 1, 2015, the closing of the sale of the remaining assets. Under the Tolling Agreement, the Debtors manufactured product at the Azusa Property for the Stalking Horse Purchaser who purchased the product and then sold it along with other products to its customers. The Tolling Agreement provided for a pass through of all costs associated with the manufacture of the product including overhead and administration. With the approval of the PPA, the Stalking Horse Purchaser was prepared to purchase the Azusa Property and the closing on the sale of the Azusa Property occurred on June 30, 2015.

5. **Settlement With Committee**

In connection with the Final DIP Order and the sale of the Purchased Assets to the Stalking Horse Purchaser, the DIP Agents and DIP Lenders agreed to resolve the Committee's objections to both the DIP Motion and approval of the sale. In connection with that settlement, the parties agreed as follows:

a. The Junior DIP Lender would pay to Hahn & Hessen LLP, to be held in escrow, from their collateral, the sum of $1.50 million in cash (the "Payoff Amount"), which amount, absent the consent of the Committee, is earmarked for and will be used solely to fund a distribution to general unsecured creditors of the Debtors under a confirmed plan of liquidation or as otherwise pursuant to further order of the Bankruptcy Court.

b. None of the claims held by the Junior DIP Agent, the Junior DIP Lender, the Prepetition Secured Notes Agent and/or the Prepetition Secured Notes Parties (or any of the foregoing creditors' affiliates) (as defined in the Final DIP Order) or any intercompany claims held by any affiliate of a Debtor (other than another Debtor) shall be payable from the Payoff Amount.

c. Upon closing of the sale, the Junior DIP Lender would waive and release all obligations under the Junior DIP Loan to the extent not included in any credit bid.

d. The fees and expenses payable to the Committee's professionals from the Junior DIP Lenders' collateral shall be limited to the amount set forth in the line item for the Committee in the Budget.

e. Upon closing of the sale, the Committee's right to challenge the right of the Junior DIP Agent and Junior DIP Lender to include in the Junior DIP Obligations any and all advances made to pay off the Prepetition Obligations owed by RIL, the Debtors' Canadian affiliate, in the approximate amount of $8.7 million (the "Canadian Debt") or pursue any claims with respect to the Canadian Debt would be extinguished and any claims associated therewith would be extinguished.

f. Upon closing of the sale, the Committee's right to seek, in connection with the sale, a modification of the license agreement between the Debtors' and their non-debtor affiliates, expired.

6. **Executory Contracts and Leases**

Prior to the Petition Date, the Debtors entered into hundreds of contracts and leases in connection with the operation of their business, including service, purchase, distribution and other miscellaneous contracts and non-residential real property leases. The Debtors, with the assistance of their advisors, are continuing to review, evaluate and identify those contracts and leases that were excluded from the Sale, no longer benefit the Debtors' business operations and are burdensome to the Debtors' estates.

On January 1, 2015, the Debtors filed a motion [Docket No. 430] (the "Rejection Procedures Motion") seeking entry of an order authorizing and approving expedited procedures for the rejection of executory contracts and unexpired leases. On January 30, 2015, the Court entered an order [Docket No. 535] approving the rejection procedures set forth in the Rejection Procedures Motion (the "Rejection Procedures Order").

In connection with the Rejection Procedures Order, on March 31, 2015, the Debtors filed a Notice of Rejection of Executory Contract of Unexpired Lease [Docket No. 664] seeking to reject six (6) executory contracts effective as of March 31, 2015. On April 17, 2015, the Court entered an Order Authorizing and Approving Rejection of Executory Contracts and Unexpired Leases [Docket No. 690].

Additionally, on June 10, 2015, the Debtors filed a Notice of Rejection of Executory Contracts Related to Environmental Obligations [Docket No. 802]. On July 8, 2015, the Court entered an Order Authorizing and Approving Rejection of Executory Contracts Related to Environmental Obligations [Docket No. 880].

7. **Nonresidential Real Property Leases**

On March 26, 2015, the Debtors filed a Motion for Order Under Bankruptcy Code Section 365(d)(4) to Extend Deadline, with Consent, to Assume or Reject Unexpired Leases of Nonresidential Real Property [Docket No. 655] (the "Lease Extension Motion"). Ultimately, there was only one lease that was subject to the Lease Extension Motion relating to real property in Pensacola, Florida that was intended to be assumed and assigned to the Stalking Horse Purchaser in connection with the sale. On April 15, 2015, the Debtors obtained the consent of The Alabama & Gulf Coast Railway, LLC ("AGRR") to extend the time to assume or reject the nonresidential real property lease with the Debtors through and including July 27, 2015. On April 16, 2015, the Court entered an Order approving the Lease Extension Motion [Docket No. 685].

The Debtors, Stalking Horse Purchaser and AGRR negotiated an assumption and assignment of executory contracts that were not previously assumed and assigned under the Stalking Horse APA. On July 2, 2015, the Court entered an Order Authorizing Assumption and Assignment of Executory Contracts [Docket No. 867].

8. **Claims Process**

a. **Schedules and Statements**

On November December 15, 2014, the Debtors filed their Schedules of Assets and Liabilities [Docket Nos. 333, 335,337, and 339] (the "Schedules") and Statements of Financial Affairs [Docket Nos. 334, 336, 338, and 340] (the "Statements" and, together with the Schedules, the "Schedules and Statements"). Among other things, the Schedules and Statements set forth the claims of known creditors against the Debtors as of the Petition Date, based upon the Debtors' books and records. The Debtors retain the right to amend the Schedules and Statements during the pendency of the Chapter 11 Cases.

b. **Bar Date Order**

On January 30, 2015, the Court entered an order [Docket No. 536] (the "Bar Date Order") establishing the following deadlines for filing claims against the Debtors (the "Bar Dates"):

General Bar Date. All persons and entities, except any governmental unit, that hold or wish to assert against the Debtors a claim arising (or deemed to arise) before the Petition Date, including any claim arising under section 503(b)(9) of the Bankruptcy Code, were required to file with the Debtors' claims and noticing agent, Logan & Company, Inc. (the "Claims Agent"), on or before March 9, 2015 at 5:00 p.m. (Eastern Time) (the "General Bar Date"), a completed and executed Proof of Claim Form. Approximately 4600 claims against the Debtors had been timely filed as of the General Bar Date.

Governmental Bar Date. All governmental units that hold or wish to assert a claim arising (or deemed to arise) before the Petition Date against the Debtors were required to file with the Claims Agent on or before March 30, 2015 at 5:00 p.m. (Eastern Time) (the "Governmental Bar Date"), a completed and executed Proof of Claim Form.

Administrative Claims Bar Date. All persons or entities that hold or wish to assert a claim arising under sections 503(b)(1) through (8) and 507(a)(2) of the Bankruptcy Code (each, an "Administrative Claim") against the Debtors that may have arisen, accrued or otherwise become due and payable at any time on and subsequent to the Petition Date but on or before December 31, 2014 (the "Initial Administrative Claims Period") were required to file with the Claims Agent on or before March 9, 2015 at 5:00 p.m. (Eastern Time) (the "Initial Administrative Claims Bar Date") a completed and executed Administrative Claim Form. Approximately [161] Administrative Claims have been timely filed.

On May 29, 2015, the Court entered an order [Docket No. 771] establishing a second bar date for the filing of Administrative Claims that were not subject to the Initial Administrative Claims Bar Date. Specifically, the Court established July 10, 2015 at 5:00 p.m. (Eastern Time) (the "Second Administrative Claims Bar Date"), as the deadline to file Administrative Claims in the Chapter 11 cases for all persons and entities that hold Administrative Claims against the Debtors that may have arisen, accrued or otherwise became due and payable at any time on and subsequent to January 1, 2015, but on or before April 1, 2015.

Approximately 160 Administrative Claims have been timely filed prior to the Initial Administrative Claims Bar Date and Second Administrative Claims Bar Date.

Rejection Bar Date. If the Debtors reject pursuant to section 365 of the Bankruptcy Code any executory contract or unexpired lease, all persons or entities that hold or wish to assert a claim arising from such rejection (a "Rejection Damage Claim") shall file with the Claims Agent a completed and executed Proof of Claim Form on or before the later of (i) the General Bar Date or (ii) thirty (30) days after entry of any order authorizing the rejection of such executory contract or unexpired lease; provided, however, that persons or entities asserting claims with respect to contracts or leases that are not Rejection Damage Claims must file Proof of Claim Forms on account of such claims by the General Bar Date.

c. **Claims Objections**

The Debtors and their professionals are investigating claims filed against the Debtors to determine the validity of such claims and anticipate filing objections to claims that are filed in improper amounts or classifications, or are otherwise subject to objection under the Bankruptcy Code or other applicable law. As of the filing of this Disclosure Statement, the Debtors have filed 14 omnibus objections to claims.

9. **Extension of Exclusive Periods**

Section 1121(b) of the Bankruptcy Code provides for an initial 120-day period after the Petition Date within which a debtor has the exclusive right to file a Chapter 11 plan (the "Plan Period"). Section 1121(c) of the Bankruptcy Code further provides for an initial 180-day period after the Petition Date within which a debtor has the exclusive right to solicit and obtain acceptances of a plan filed by the debtor during the Plan Period (the "Solicitation Period" and, together with the Plan Period, the "Exclusive Periods"). In accordance with section 1121, the Debtors' Plan Period was initially set to expire on January 28, 2015, and the Solicitation Period was set to expire on March 30, 2015. On January 6, 2015, the Debtors filed a motion [Docket No. 432] (the "Exclusivity Extension Motion") seeking to extend the Exclusive Periods by approximately 90 days. On January 26, 2015, the Court approved the Exclusivity Extension Motion [Docket No. 513]. On March 26, 2015, the Debtors filed a motion [Docket No. 654] (the "Second Exclusivity Extension Motion") seeking to further extend the Exclusive Periods by approximately 60 days. On April 15, 2015 the Court approved the Second Exclusivity Extension Motion [Docket No. 684]. On June 22, 2015, the Court approved a further extension of the exclusivity period to file a plan through and including September 28, 2015 and to solicit acceptances thereto to November 26, 2015 [Docket No. 831]. On October 27, 2015, the Debtors filed their fourth motion [Docket No. 1169] (the "Fourth Exclusivity Extension Motion") seeking to extend their exclusive right to file a plan and solicit acceptances thereto for 60 days to January 26, 2016 and March 25, 2016, respectively. On November 13, 2015, the Court approved the Fourth Exclusivity Extension Motion [Docket No. 1223].

10. **Turnover of Pension Plan**

Prior to the Petition Date, Reichhold, Inc. sponsored a tax-qualified, single employer, defined benefit pension plan which was covered by Title IV of ERISA (the "Pension Plan").

Through a notice of determination dated October 15, 2014, the PBGC notified the Pension Plan administrator of its intent to, *inter alia*, proceed under 29 U.S.C. § 1342 to have the Pension Plan terminated. On October 17, 2014, the Pension Benefit Guaranty Corporation (the "PBGC") filed a complaint seeking (i) the involuntary termination of the Pension Plan, (ii) the appointment of the PBGC as statutory trustee of the Pension Plan, and (iii) the establishment of October 17, 2014 as the termination date for the Pension Plan. The Debtors agreed with the PBGC that the Pension Plan is underfunded, and did not believe that there was a reasonable basis to challenge the PBGC's determination to terminate the Pension Plan. However, the Debtors did and do not concede the validity, amount of underfunding or amount of any claim the PBGC may assert as a creditor including any lien claims. Nevertheless, on January 30, 2015, the Debtors filed a motion to authorize the Debtors to enter into an agreement with the PBGC for appointment of the PBGC as statutory trustee and termination of the Pension Plan (the "PBGC Motion") [Docket No. 539]. On February 23, 2015, the Court approved the PBGC Motion [Docket No. 592].

The PBGC has asserted twelve (12) claims against the Debtors for unfunded benefit liabilities, minimum required contributions and unpaid premiums including termination premiums (the "PBGC Claims"). The Debtors and PBGC are negotiating a resolution of the PBGC Claims. To facilitate further discussion after approval of this Disclosure Statement and before confirmation of the Plan, the Debtors and PBGC entered into a Stipulation regarding the PBGC Claims. That Stipulation, which was approved by the Court on October 16, 2015 [Docket No. 1135], provides for, among other things, a cap of $3.25 million on the administrative or priority status of the PBGC's unfunded benefit liability claim. The Debtors, however, reserved all rights to object to the PBGC Claims on any grounds and the PBGC reserved all rights to oppose any objection. The Debtors do not believe that the PBGC has any valid administrative claims. Additionally, pursuant to the stipulation, the PBGC agreed to vote in favor of the Plan so long as it (i) provides for substantive consolidation of the Debtors' cases, (ii) treats the unsecured portion of the PBGC Claims the same as other unsecured claims, (iii) provides for payment of administrative expense claims upon confirmation of the Plan and (iv) incorporates certain language proposed by the PBGC.

11. **De Minimis Asset Sale Procedures**

To facilitate the sale of assets and to minimize unnecessary administrative expenses, the Debtors filed a motion on January 6, 2015 [Docket No. 429] seeking to establish procedures to streamline the sale of any assets for aggregate consideration under a certain dollar threshold (the "De Minimis Assets") and to permit such sales to be consummated without the need for the filing of additional motions with the Court. The Court entered an Order on January 30, 2015 [Docket No. 534] (the "De Minimis Asset Sale Order") establishing procedures (the "De Minimis Asset Sale Procedures") permitting the sale of the De Minimis Assets in any individual transaction or series of related transactions to a single buyer or group of related buyers with an aggregate selling price of $100,000 or less. Absent written objection in accordance with the requirements of the De Minimis Asset Sale Procedures, the applicable Debtor was authorized to consummate the proposed sale in accordance with the terms of the underlying contract(s) or other document(s), after entry of an order approving such sale, which proposed order could be submitted by the Debtors to the Court under certification of counsel upon expiration of the applicable objection deadline. The De Minimis Asset Sale Order provided that any such transaction would be free and clear of all liens, claims, interests and encumbrances (collectively,

the "Liens"), with such liens attaching only to the sale proceeds with the same validity, extent and priority as had attached to the De Minimis Assets immediately prior to such sale.

On March 27, 2015, the Debtors filed a notice [Docket No. 659] pursuant to the De Minimis Asset Sale Procedures of their intent to sell certain equipment located in Newark, New Jersey for $25,000. There were no objections to the proposed sale and the Court entered an order [Docket No. 675] approving the sale transaction on April 9, 2015.

12. **Sale of Surplus Properties**

As of the closing of the sale of substantially all of the Debtors assets to the Stalking Horse Purchaser, the Debtors owned eleven (11) parcels of real estate which they no longer utilize in the operations of their business. The following are those properties: ("Surplus Properties").

- 400 Doremus Avenue, Newark, NJ
- 46 Albert Avenue, Newark, NJ
- 45-5 Cornelia Street, Newark, NJ
- 3101 South California Avenue, Chicago, IL
- 144 Fork Branch Road, Cheswold, DE
- 300 Hadgraft Industrial Boulevard, Chickamauga, GA
- Reichhold Road, Tuscaloosa, AL
- 11015 Reichhold Drive, Gulfport, MS
- 601 Woodward Heights Boulevard and related parcels, Ferndale, MI
- River Dam Road, Oakdale, LA
- Fort Valley GA

The Surplus Properties were excluded from the assets purchased by the Stalking Horse Purchaser. Certain of the Surplus Properties had or have environmental contamination, and in some cases, have or continue to be in the process of remediation. The Debtors retained Hilco Real Estate, LLC ("HRE") as real estate consultants to market the Surplus Properties for sale. The Debtors have entered into firm contracts to sell five of the Surplus Properties and on July 13, 2015 an order was entered by the Bankruptcy Court approving four of these sales:

(a) Doremus Avenue, Newark, NJ to Valley Industry, Inc. for $3,500,000;

(b) Albert Avenue and Cornelia Street to Albert and Cornelia, LLC for $435,000 and $700,000 respectively; and

(c) 3101 South California Avenue, Chicago to Pioneer Environmental Services, LLC for $500,000.

As of August 31, 2015, the Debtors have closed those sales.

The Debtors have entered into a contract to sell 144 Fork Branch Road, Cheswold, Delaware to Michael Steiner for $1,200,000. On August 6, 2015 the Debtors file a motion

seeking approval of this sale. On August 27, 2015, the Bankruptcy Court approved that sale. This sale closed on November 2, 2015.

The Debtors have entered into a contract to sell the property located at Reichhold Road in Tuscaloosa, Alabama to Southern Ionics, Incorporated for $250,000. On October 27, 2015, the Debtors filed motion seeking approval of that sale. The court approved that sale by Order dated November 13, 2015.

The Debtors are still in negotiations for the sale of the remaining Surplus Properties. The properties not sold may be abandoned.

One of the Surplus Properties is a former resin manufacturing facility located at 11015 Reichhold Road ,Gulfport , Mississippi ("Gulfport Property "). The Gulfport property consists of approximately 59 acres. Reichhold holds a Resource Conservation and Recovery Act ("RCRA") Permit ("Permit") for a portion of the Gulfport Property (The" RCRA Portion"). The Permit governs corrective actions being taken on the RECRA Portion of the Gulfport Property . A letter of credit in the amount of $3,550,000 (The " Letter of Credit ") was issued in favor of the State of Mississippi as adequate assurance of ongoing compliance with the Permit. The letter of Credit was issued by Bank of America and Reichhold deposited cash collateral with Bank of America to secure the Letter of Credit. Bank of America advised Mississippi that it would not renew the Letter of Credit when it expired and Mississippi has now drawn down the Letter of Credit . The proceeds are to be deposited in a stand by trust established for that purpose.

The balance of the Gulfport Property is not subject to any environmental restrictions. The Gulfport Property was subdivided so that the non RCRA Portion could be sold separately . The Debtors are finalizing a contract for the sale of the non RCRA portion and expect to file a motion to approve a sale of this portion of the property be heard at the December 16, 2015 Omnibus hearing. It does not appear that there is a purchaser for the RCRA Portion of the Gulfport Property.

Reichhold has been and continues to engage in discussions with the United States Department of Justice and Environmental Protection Agency (EPA) as well as the Mississippi Department of Environmental Quality (MDEQ) regarding ultimate disposition of the Gulfport property in the event all or part of the RCRA Portion could not been sold. Those discussions are now centered on potential conveyance of the RCRA Portion of the Gulfport Property to an environmental trust ("Environmental Trust") to be funded with the proceeds of the now drawn down Letter of Credit. The EPA, MDEQ, and the Debtors are in the process of interviewing potential trustees and EPA and MDEQ are confirming the availability of the Letter of Credit proceeds for use by the trustee of the Environmental Trust . It is not clear if the proceeds of the Letter of Credit will be sufficient to fund the costs of the Environmental Trust and ongoing compliance with the RCRA Permit. There is no agreement on possible alternative funding sources should the proceeds of the Letter of Credit not be sufficient . The United States and MDEQ Contend the Debtors should fund any additional amounts necessary to ensure future compliance with the RCRA permit by the environmental trust as well as to fund administrative expenses associated with operating the environmental trust. The Debtors contend that the future costs of continued compliance and administration of the trust are not entitled to priority payment

over the claims of general unsecured creditors. The discussions between the United States and MDEQ and the Debtors are ongoing. If Reichhold and the EPA and MDEQ cannot agree on the terms and conditions and potential funding of the Environmental Trust, Reichhold will likely seek to abandon the RCRA Portion of the Gulfport Property. Reichhold believes it can abandon the property under applicable law. The United States and MDEQ disagree and would oppose abandonment.

13. **Environmental Settlements**

Since the commencement of the Chapter 11 proceedings, the Debtors have entered into the following settlement regarding their environmental liabilities:

a. **Settlement Agreement with Glacier Northwest Inc. ("Glacier"):** The Debtors and Glacier were parties to an agreement regarding the environmental cleanup of property owned by Glacier located in Seattle, Washington (the "Site"). Glacier and the Debtors were also parties to an agreement with others concerning the cleanup of the Lower Duwamish Waterway ("LDW Site") which abutted the Site. Glacier filed a limited objection to the Debtors' November 12, 2014 Motion for authority to sell substantially all of its assets free and clear of liens, claims and encumbrances asserting the question of whether the Stalking Horse Purchaser could be deemed a "successor" and thereby have responsibility for Reichhold's cleanup obligations at the Site and the LDW Site, should not be addressed by the bankruptcy court. The objection was overruled and the sale order was entered. Glacier filed an appeal from that portion of the sale order which held that the Stalking Horse Purchaser was not a "successor". Thereafter, Glacier and the Debtors entered into a settlement pursuant to which Glacier dismissed its appeal, and agreed not to file any claim in this case. The Debtors assigned cost recovery rights and contribution claims that Reichhold had against third parties related to the Site or the LDW Site, and the Debtors agreed to provide Glacier with information pertaining to those claims. The bankruptcy court entered an order approving the Glacier settlement on May 28, 2015. The appeal was dismissed by stipulation was entered in the Federal District Court on June 12, 2015.

b. **Authorization for the Debtors to Enter Into Environmental Covenant Regarding Gulfport Mississippi Site ("Gulfport Site"):** The Debtors own surplus property located in Gulfport Mississippi. The Debtors ceased manufacturing activities at the Gulfport Site. The Debtors acquired the Gulfport Site, constructed a chemical manufacturing facility and began operations there in the 1960's. Thereafter, the Gulfport Site was sold to Arizona Chemical Company in 1989. Manufacturing operations at the Gulfport Site ceased in 1996 and Reichhold resumed ownership. Contamination was discovered in the 1980's. The Gulfport Site is subject to a Post-Closure and Corrective Action Permit (the "Permit") with the EPA and the Mississippi Environmental Quality ("MDEQ") dated August 13, 2012. After discussions with the EPA and MDEQ the Debtors agreed to enter into and record a covenant which would restrict future development on the Gulfport Site consistent with the Permit under requirements of the Resource Conservation and Recovery Act of 1976 ("RCRA"). On February 2, 2015, the Debtors filed a motion seeking authorization to enter into the

covenant. On February 23, 2015 the approval order was entered and thereafter the covenant was recorded.

c. **The Fairchild / Chubb Settlement:** As set forth above, the Debtors produced resins at the Azusa Property. The Azusa Property is located within the BPOU of the San Gabriel Valley Superfund Site. On June 30, 2000 the EPA issued an order ("EPA Order") directing Reichhold and eighteen other potentially responsible parties (the "PRPs") including Fairchild Holding Corporation ("FHC") to design and implement a remedy for the contamination of groundwater. On March 29, 2002, the Debtors and seven other PRPs (the "Cooperating PRPs") made the BPOU project agreement in which they agreed to fund the construction and operation of four water treatment plants. On March 18, 2009, FHC and its affiliates filed petitions for relief under Chapter 11 of the Bankruptcy Code. The Cooperating PRPs and their successors, including FHC settled claims against Chubb Insurance for $2 million to cover a portion of the costs associates with compliance with the EPA Order. The remaining Cooperating PRPs, excluding FHC, settled their claims against FHC in the FHC bankruptcy. Under that settlement, FHC will receive $299,999 of the $2 million Chubb settlement and the remaining PRPs would receive their allocable share of the $1,700,000 balance of the settlement which had been deposited into escrow. Of this $1,700,000 Reichhold would be entitled to receive 5.8714 % or $99,725.79 in exchange for the Debtors' agreement to the overall settlement agreements. On June 2, 2015, the Debtors filed a motion to approve the settlements. On June 22, 2015, an order was entered approving the settlements. Thereafter, the Debtors received its share of the settlement proceeds in the amount of $99,725.79.

d. **Ohio Fiber Settlement**

On October 9, 2014 the State of Ohio ("Ohio") commenced suit against Reichhold and others in the U.S. District Court for the Southern District of Ohio alleging that Reichhold , as a former owner of property located in Bremen Ohio is responsible for contamination at and migrating from the property (the "Ohio District Court Action"). On October 15, 2014 Ohio filed a motion for preliminary injunctive relief to compel Reichhold and others to implement a plan to address the contamination that Ohio alleges is migrating toward the public water supply of Bremen, Ohio. Ohio asserted that they were acting to enforce their police powers and, thus, the automatic stay did not apply. Reichhold denied the allegations. Nevertheless, in order to avoid potentially protracted and expensive litigation and to avoid potential injunctive relief which would have compelled Reichhold to engage in costly ameliorative measures, Reichhold engaged in settlement discussions with Ohio. Those discussions resulted in a settlement whereby Reichhold will pay $75,000 in satisfaction of Ohio's claims for injunctive relief and agree to entry of a consent decree in the U.S. District Court action. The protective administrative claim filed by Ohio would be withdrawn and Reichhold reserved all rights to challenge an unsecured claim filed by Ohio. On September 1, 2015, the Debtors filed a motion seeking approval of the settlement. On September 21, 2015, the Court entered an Order approving the settlement. Thereafter, on September 30, 2015, Reichhold and the State of Ohio filed a Joint Motion for approval and entry of the Consent Decree with the U.S. District Court in the Ohio District Court Action. An objection was filed by a co-defendant in the Ohio District Court Action. Reichhold and the State of Ohio have filed a reply to the objection. Reichhold has also sought to vacate the

injunction which was entered. Reichhold has been advised by the U.S. Magistrate that the injunction would not be vacated pending application to approve the settlement. No hearing on the matter has of yet been scheduled in the Ohio District Court Action and the U.S. District Court may rule without a hearing.

E. Termination of Retiree Plans

As set forth above, in anticipation of the Debtors seeking to terminate the Retiree Welfare Programs under Section 1114 of the Bankruptcy Code, on April 1, 2015, the Office of the United States Trustee appointed the Retiree Committee. After its appointment, the Debtors provided information to the Retiree Committee as well as counsel for the United Steelworkers regarding the Retiree Welfare Programs and the status of the Debtors' Chapter 11 cases.

On October 20, 2015, the Debtors entered into separate settlement agreements with the Retiree Committee and Steelworkers to terminate their retiree welfare plans and resolve all claims related thereto. Pursuant to those settlement agreements and subject to Court approval, the Debtors will terminate the retiree life and medical insurance programs at 11:59 p.m. on November 30, 2015. In connection with those settlements, the Debtors agreed to make settlement payments to the retirees in satisfaction of all claims against the Debtors. Specifically, with respect to the Steelworkers, the Debtors will make a settlement payment as follows: (a) eligible recipients shall receive eight (8%) percent of the face amount of their individual life insurance coverage, and (b) eligible recipients of the Debtors' retiree medical program who do not contribute to the medical program or contribute less than $70 per month to the program shall receive a one-time payment of $1,200. The aggregate amount to be paid under the Steelworkers Settlement is approximately $54,000. With respect to the constituents represented by the Retiree Committee, the Debtors will make payments totaling $267,276.39[6] to the affected eligible participants as directed by the Retiree Committee.

The Debtors have also made proposals to terminate retiree benefits consistent with the terms of the Retiree Committee and Steelworkers' settlements to the following unions representing retirees: (a) International Brotherhood of Teamsters (the "Teamsters"); (b) International Union of Painters and Allied Trades ("IUPA"); and (c) International Chemical Workers Union ("ICWU"). Despite the Debtors' repeated attempts to negotiate with those unions, the Teamsters, IUPA and ICWU failed to respond to the Debtors' proposal.

On October 27, 2015, the Debtors filed a motion pursuant to sections 105(a), 363 and 1114(e)(1)(B) of the Bankruptcy Code and Rule 9019 of the Bankruptcy Rules (i) authorizing the Debtors' entry into and approving the settlement agreements with the Steelworkers and Retiree Committee and (ii) approving termination of retiree benefits for the retired members of the Teamsters, IUPA and ICWU. A hearing on that motion is currently scheduled for November 17, 2015.

[6] This amount is the sum of the following: (a) eight (8%) percent of the face amount of the non-union retiree's life insurance coverage and (b) $1,200 for each non-union retiree participant in the retiree medical program that does not contribute or contributes less than $70 per month.

F. Asbestos Litigation and Insurance

1. Asbestos Personal Injury Claims Against Reichhold, Inc.

The only personal injury claims pending against Reichhold, Inc. as of the Petition Date or submitted in proofs of claim filed before the General Bar Date are asbestos personal injury claims (the "Asbestos Claims"). As of the Petition Date, Reichhold, Inc. was a defendant in approximately 125 Asbestos Claims. After the Petition Date, 92 proofs of claim were submitted by certain claimants in these lawsuits. An additional 4,088 asbestos-related proofs of claim were submitted by the Bar Date by individuals who are not connected to the 125 Asbestos Claims pending as of the Petition Date. At the time of this Disclosure Statement, 1,930 of those additional proofs of claim have been withdrawn. Of the remaining 2,158 additional proofs of claim, 1,930 were filed by a single law firm, Edward O. Moody, P.A., with no prior claim history against Reichhold, Inc. The Debtors objected to these 1,930 proofs of claim and the Bankruptcy Court entered an Order Sustaining the Debtors' Sixth Omnibus Objection (Substantive) to the Proofs of Claim Filed by Edward O. Moody, P.A. Of the other 228 proofs of claim not associated with a pending pre-Petition Date lawsuit, Reichhold, Inc. calculates that 121 were submitted by claimants who have previously named and dismissed Reichhold, Inc. without prejudice in a prior Asbestos Claim. Therefore, only 107 proofs of claim alleging asbestos-related bodily injuries were filed before the Bar Date by individuals who have not previously asserted an Asbestos Claim against Reichhold, Inc.

2. Insurance Coverage

Comprehensive general liability insurance policies were purchased by Reichhold, Inc. from the time it began manufacturing asbestos in 1964 until the introduction of policy exclusions barring coverage for asbestos-related injuries and damages these policies are potentially implicated and available to pay for a share of Reichhold, Inc.'s Asbestos Claims. The primary, umbrella, and excess general liability policies Reichhold, Inc. purchased from 1965 until at least until 1993, are "occurrence-based" policies, which, subject to other policy terms, generally insure against "occurrences" that result in bodily injury or property damage that trigger the applicable policy period, even if the injury or damage does not manifest itself until after the policy period. Reichhold, Inc.'s pre-1986 "occurrence" policies provide insurance coverage for asbestos and other "long-tail" claims, which are commonly asserted years or decades after the underlying injuries are alleged to have occurred. In addition, Reichhold, Inc. purchased one primary insurance policy covering four years after 1985 that has been determined to provide coverage for Reichhold, Inc.'s Asbestos Claims.

In total, these policies provide at least $17.4 million in current available limits (net of prior exhaustion by asbestos and other claims). All of the available primary policies include a duty on the part of the insurers to defend claims that are potentially covered under their policies. Such defense costs are paid by the insurers in addition to their policies' respective limits of liability.

During this period, Reichhold, Inc. also purchased multiple layers of excess coverage providing additional insurance coverage should the primary policies exhaust their coverage from the payment of coverage claims. From 1965 to 1985, Reichhold, Inc. purchased primary,

umbrella, and/or excess comprehensive general liability policies with combined policy limits of more than $843 million

3. **Defense and Indemnity Agreement and Proposed Cooperation Agreement**

To date, defense and indemnity costs for Asbestos Claims against Reichhold, Inc. have been substantially covered by the Reichold, Inc.'s primary insurance carriers under a defense and indemnity agreement ("Defense and Indemnity Agreement"). However, pursuant to the insurance policies and the Defense and Indemnity Agreement, as well as prior insurance settlement agreements that released the premises/operations coverage available from certain of its insurance policies, certain asbestos-related defense and indemnity costs have been paid by Reichhold, Inc. The Defense and Indemnity Agreement had no expiration but could be unilaterally terminated prospectively by any party as to that party upon notice. Reichhold, Inc. and primary insurance carriers who were parties to the Defense and Indemnity Agreement therefore entered discussions concerning the replacement of the Defense and Indemnity Agreement with a cooperation agreement ("Products Insurance Cooperation Agreement") to take its place following confirmation of the Plan. Reichhold, Inc. and its primary insurance carriers have now reached agreement in principle on a Products Insurance Cooperation Agreement, in substantially the form included in the solicitation package provided to Holders of Claims in Class 3 (General Unsecured Claims). The Products Insurance Cooperation Agreement will ensure that defense costs and liability for Insured Asbestos Claims, including the asbestos-related proofs of claim filed in the bankruptcy proceeding, will be paid by insurance pursuant to its terms and without contribution by Reichhold. Upon execution of the Products Insurance Cooperation Agreement, the Defense and Indemnity Agreement will be terminated pursuant to the terms of both agreements.

4. **Factors that May Reduce Available Insurance Coverage**

There are several factors that may reduce the amount of insurance coverage potentially available to Reichhold, Inc. on account of Asbestos Claims asserted against it.

a. **Insurance Coverage Litigation**

Although no insurance coverage litigation is pending at this time between Reichhold, Inc. and its insurers and Reichhold, Inc. has no reason to believe that litigation will be necessary, such litigation could arise in the future, particularly, if Reichhold, Inc.'s Asbestos Claims implicate one or more of its excess insurers' policies and the excess insurers contest or otherwise fail to honor their coverage obligations. In light of its modest claim history, Reichhold, Inc. has not engaged with its excess insurers regarding their coverage obligations for Asbestos Claims. Accordingly, estimating the amount of insurance recovery from those policies is inherently uncertain at this time and depends on a number of factors, including the potential for disputes over coverage and the timing and amount of Asbestos Claims. Therefore, to the extent that any excess carriers are called on to pay a share of future Asbestos Claims against Reichhold, Inc. and thereafter assert coverage defenses, the cost of recovering under and/or the availability of the excess insurance could be affected.

b. **Unavailable Insurance in the 1985 to 1986 Policy Year**

Certain excess insurance policies in the 1985 to 1986 policy year contain asbestos-related exclusions. Based on current records, Reichhold, Inc. currently understands that policies providing approximately $24.5 million of the $100 million in excess policy limits purchased for that policy period include such exclusions.

Some of Reichhold, Inc.'s excess insurance coverage totaling $11 million was issued by insurers that have been declared insolvent. As a result, Reichhold, Inc. does not expect to be able to recover under these excess liability policies. Although Reichhold, Inc. has no reason to believe that such an event is presently foreseeable, recovery may also be limited or delayed if other Reichhold, Inc. insurers later become insolvent.

It is also possible that certain excess insurers in the 1985 to 1986 policy year who issued $51.74 million of otherwise available additional policy limits may dispute coverage because their policies provide coverage in excess of policies that are insolvent or contain asbestos-related exclusions.

c. **Insurance Commutation Agreements**

Several years ago, Reichhold, Inc. entered into policy commutation agreements with three of its excess insurers to resolve past disputes as to insurance coverage for Reichhold, Inc.'s environmental liabilities. Pursuant to those agreements, Reichhold, Inc. commuted $130.75 million in coverage. As a result of these policy commutation agreements, Reichhold, Inc. will be unable to recover from these insurers. Reichhold, Inc. also released the premises/operations coverage available from certain of its insurance policies, including certain of the primary policies pursuant to prior settlement agreements concerning Reichhold, Inc.'s historic environmental liabilities. As a result, only products liability coverage and limits are still available under certain of Reichhold, Inc.'s primary policies and its settled but non-commuted excess policies.

It is also possible that certain excess insurers who issued $69 million in otherwise available additional policy limits may dispute coverage because their policies provide coverage in excess of the commuted policies.

ARTICLE IV

SUMMARY OF PLAN

THIS SECTION PROVIDES A SUMMARY OF THE STRUCTURE AND MEANS FOR IMPLEMENTATION OF THE PLAN AND THE CLASSIFICATION AND TREATMENT OF CLAIMS AND INTERESTS UNDER THE PLAN. THIS SECTION IS QUALIFIED IN ITS ENTIRETY BY AND IS SUBJECT TO THE PLAN AS WELL AS THE EXHIBITS THERETO AND DEFINITIONS THEREIN. THE PLAN IS ATTACHED TO THIS DISCLOSURE STATEMENT AS EXHIBIT A.

THE STATEMENTS CONTAINED IN THIS DISCLOSURE STATEMENT INCLUDE SUMMARIES OF THE PROVISIONS CONTAINED IN THE PLAN AND IN DOCUMENTS REFERRED TO THEREIN. THE STATEMENTS CONTAINED IN THIS DISCLOSURE

STATEMENT DO NOT PURPORT TO BE PRECISE OR COMPLETE STATEMENTS OF ALL THE TERMS AND PROVISIONS OF THE PLAN OR DOCUMENTS REFERRED TO THEREIN. REFERENCE IS MADE TO THE PLAN AND TO SUCH DOCUMENTS FOR THE FULL AND COMPLETE STATEMENTS OF SUCH TERMS AND PROVISIONS.

THE PLAN ITSELF AND THE DOCUMENTS REFERRED TO THEREIN CONTROL THE ACTUAL TREATMENT OF CLAIMS AGAINST AND INTERESTS IN THE DEBTORS UNDER THE PLAN. UPON OCCURRENCE OF THE EFFECTIVE DATE, THE PLAN AND ALL SUCH DOCUMENTS SHALL BE BINDING UPON ALL HOLDERS OF CLAIMS AGAINST AND INTERESTS IN THE DEBTORS AND THEIR ESTATES AND ALL OTHER PARTIES IN INTEREST. IN THE EVENT OF ANY CONFLICT BETWEEN THIS DISCLOSURE STATEMENT, ON THE ONE HAND, AND THE PLAN, THE LIQUIDATING TRUST AGREEMENT OR ANY OTHER OPERATIVE DOCUMENT, ON THE OTHER HAND, THE TERMS OF THE PLAN, THE LIQUIDATING TRUST AGREEMENT AND SUCH OTHER OPERATIVE DOCUMENT WILL CONTROL.

I. Classification and Treatment of Claims and Interests

Section 1123 of the Bankruptcy Code provides that a plan must classify the claims and interests of a debtor's creditors and equity interest holders. In accordance with section 1123 of the Bankruptcy Code, the Plan divides Claims and Interests into Classes and sets forth the treatment for each Class (other than Administrative Claims and Priority Tax Claims, which pursuant to section 1123(a)(1) of the Bankruptcy Code need not be and have not been classified). The Debtors also are required, under section 1122 of the Bankruptcy Code, to classify Claims against and Interests in, the Debtors (except for certain claims classified for administrative convenience) into Classes that contain Claims and Interests that are substantially similar to the other Claims and Interests in such Class.

The Bankruptcy Code also requires that a plan provide the same treatment for each claim or interest of a particular class unless the claim holder or interest holder agrees to a less favorable treatment of its claim or interest. The Debtors believe that they have complied with such standard. If the Court finds otherwise, however, it could deny confirmation of the Plan if the Claimholders and Interest Holders affected do not consent to the treatment afforded them under the Plan.

A Claim or Interest is placed in a particular Class only to the extent that the Claim or Interest falls within the description of that Class, and is classified in other Classes to the extent that any portion of the Claim or Interest falls within the description of such other Classes. A Claim also is placed in a particular Class for the purpose of receiving Distributions pursuant to the Plan only to the extent that such Claim is an Allowed Claim in that Class and such Claim has not been paid, released or otherwise settled prior to the Effective Date.

The Debtors believe that the Plan has classified all Claims and Interests in compliance with the provisions of section 1122 of the Bankruptcy Code and applicable case law. It is possible that a holder of a Claim or Interest may challenge the Debtors' classification of Claims and Interests and that the Court may find that a different classification is required for the Plan to be confirmed. If such a situation develops, the Debtors intend, in accordance with the terms of

the Plan, to make such permissible modifications to the Plan as may be necessary to permit its confirmation. Any such reclassification could adversely affect holders of Claims by changing the composition of one or more Classes and the vote required of such Class or Classes for approval of the Plan. UNLESS SUCH MODIFICATION OF CLASSIFICATION MATERIALLY ADVERSELY AFFECTS THE TREATMENT OF A HOLDER OF A CLAIM AND REQUIRES RESOLICITATION, ACCEPTANCE OF THE PLAN BY ANY HOLDER OF A CLAIM OR INTEREST PURSUANT TO THIS SOLICITATION WILL BE DEEMED TO BE A CONSENT TO THE PLAN'S TREATMENT OF SUCH HOLDER OF A CLAIM REGARDLESS OF THE CLASS AS TO WHICH SUCH HOLDER ULTIMATELY IS DEEMED TO BE A MEMBER.

The amount of any Impaired Claim that ultimately is Allowed by the Court may vary from any estimated Allowed amount of such Claim and, accordingly, the total Claims that are ultimately Allowed by the Court with respect to each Impaired Class of Claims may also vary from any estimates contained herein with respect to the aggregate Claims in any Impaired Class. Thus, the value of property that ultimately will be received by a particular Holder of an Allowed Claim may be adversely or favorably affected by the aggregate amount of Claims Allowed in the applicable Class.

The classification of Claims and Interests and the nature of Distributions to members of each Class are summarized below. The Debtors believe that the consideration, if any, provided under the Plan to holders of Claims and Interests reflects an appropriate resolution of their Claims and Interests, taking into account the differing nature and priority (including applicable contractual subordination) of such Claims and Interests. The Court must find, however, that a number of statutory tests are met before it may confirm the Plan. Many of these tests are designed to protect the interests of holders of Claims or Interests who are not entitled to vote on the Plan, or do not vote to accept the Plan, but who will be bound by the provisions of the Plan if it is confirmed by the Court.

A. Unclassified Claims

1. Administrative Claims

On or as soon as reasonably practicable after the later of (i) the Initial Distribution Date or (ii) the date such Administrative Claim becomes an Allowed Administrative Claim, a Holder of an Allowed Administrative Claim (other than a Professional) will receive, in full satisfaction, settlement, release and discharge of, and in exchange for, such Allowed Administrative Claim, (a) Cash equal to the unpaid portion of the Face Amount of such Allowed Administrative Claim or (b) such other treatment as to which such Holder and the Debtors or the Liquidating Trustee, as applicable, have agreed upon in writing; provided, however, that Allowed Administrative Claims with respect to liabilities incurred by a Debtor in the ordinary course of business during the Chapter 11 Cases may be paid in the ordinary course of business in accordance with the terms and conditions of any agreements relating thereto (x) on or prior to the Effective Date, by the Debtors, and (y) after the Effective Date, by the Disbursing Agent. Allowed Professional Fee Claims will be paid from the Professional Fee Reserve pursuant to Article V.G.1 of the Plan. For the avoidance of doubt, any payments made by the Liquidating Trust on account of Allowed Administrative Claims will be paid solely from the Administrative Claims Reserve.

2. Priority Tax Claims

On or as soon as reasonably practicable after the later of (i) the Initial Distribution Date or (ii) the date such Priority Tax Claim becomes an Allowed Priority Tax Claim, a Holder of an Allowed Priority Tax Claim will receive, in full satisfaction, settlement, release and discharge of, and in exchange for, such Allowed Priority Tax Claim, (a) Cash equal to the unpaid portion of the Face Amount of such Allowed Priority Tax Claim or (b) such other treatment as to which such Holder and the Debtors or the Liquidating Trustee, as applicable, have agreed upon in writing. For the avoidance of doubt, any payments made by the Liquidating Trust on account of Allowed Priority Tax Claims will be paid solely from the Administrative Claims Reserve.

B. Unimpaired Claims

1. Class 1: Secured Claims

On or as soon as reasonably practicable after the later of (i) the Initial Distribution Date or (ii) the date such Secured Claim becomes an Allowed Secured Claim, a Holder of an Allowed Secured Claim will receive, in full satisfaction, settlement, release and discharge of, and in exchange for, such Allowed Secured Claim, (a) Cash from the Debtors equal to the value of such Allowed Secured Claim, (b) a return of the Holder's Collateral securing the Secured Claim, (c) such treatment required under section 1124(2) of the Bankruptcy Code for such Claim to be rendered Unimpaired or (d) such other treatment as to which such Holder and the Debtors or the Liquidating Trustee, as applicable, have agreed upon in writing.

Any Holder of a Secured Claim will retain its Lien in the Collateral or the proceeds of the Collateral (to the extent that such Collateral is sold by the Debtors or the Liquidating Trustee free and clear of such Lien) to the same extent and with the same priority as such Lien held as of Petition Date until such time as (A) the Holder of such Secured Claim (i) has been paid Cash equal to the value of its Allowed Secured Claim, (ii) has received a return of the Collateral securing the Secured Claim or (iii) has been afforded such other treatment as to which such Holder and the Debtors or the Liquidating Trustee, as applicable, have agreed upon in writing; or (B) such purported Lien has been determined by an order of the Court to be invalid or otherwise avoidable.

2. Class 2: Priority Non-Tax Claims

On or as soon as reasonably practicable after the later of (i) the Initial Distribution Date or (ii) the date such Priority Non-Tax Claim becomes an Allowed Priority Non-Tax Claim, a Holder of an Allowed Priority Non-Tax Claim will receive, in full satisfaction, settlement, release and discharge of, and in exchange for, such Allowed Priority Non-Tax Claim, (a) Cash equal to the unpaid portion of the Face Amount of such Allowed Priority Non-Tax Claim or (b) such other treatment as to which such Holder and the Debtors or the Liquidating Trustee, as applicable, have agreed upon in writing. For the avoidance of doubt, any payments made by the Liquidating Trust on account of Allowed Priority Non-Tax Claims will be paid solely from the Administrative Claims Reserve.

C. Impaired Claims

1. Class 3: General Unsecured Claims

On the Effective Date, each Holder of an Allowed General Unsecured Claim that is not an Insured Claim will receive, in full satisfaction, settlement, release and discharge of, and in exchange for, such Allowed General Unsecured Claim, its Pro Rata share of the Liquidating Trust Interests.

As set forth in the Liquidating Trust Agreement, Distributions from the Liquidating Trust on account of Liquidating Trust Interests will be made from the Liquidating Trust Assets after paying, reserving against or satisfying, among other things, the operating and administrative expenses of the Liquidating Trust, including but not limited to all costs, expenses and obligations incurred by the Liquidating Trustee (or professionals who may be employed by the Liquidating Trustee in administering the Liquidating Trust) in carrying out their responsibilities under the Liquidating Trust Agreement, or in any manner connected, incidental or related thereto.

Special Provisions regarding distributions to Holders of Allowed Insured Claims and Allowed Insured Asbestos Claims are set forth in Section III.G of the Plan.

2. Class 4: Convenience Claims

On or as soon as reasonably practicable after the later of (i) the Initial Distribution Date or (ii) the date on which a Class 4 Convenience Claim becomes an Allowed Claim, each Holder of an Allowed Convenience Claim will receive Cash in the amount of 5% of the amount of its Allowed Convenience Class Claim. For the avoidance of doubt, any payments made by the Liquidating Trust on account of Allowed Convenience Claims will be paid solely from the Convenience Claims Reserve.

3. Class 5: Intercompany Claims

In connection with, and as a result of, the substantive consolidation of the Debtors' Estates and the Chapter 11 Cases, on the Effective Date, all Intercompany Claims will be eliminated and the Holders of Intercompany Claims will not be entitled to, and will not receive or retain, any property or interest in property on account of such Claims.

D. Interests

1. Class 6: Interests

On the Effective Date, all Interests will be cancelled and each Holder thereof will not be entitled to, and will not receive or retain, any property or interest in property under the Plan on account of such Interests.

E. Special Provision Regarding Unimpaired Claims

Except as otherwise provided in the Plan, the Confirmation Order, any other order of the Court or any document or agreement enforceable pursuant to the terms of the Plan, nothing will

affect the rights and defenses, both legal and equitable, of the Debtors and/or the Liquidating Trust with respect to any Unimpaired Claims, including, but not limited to, all rights with respect to legal and equitable defenses to setoffs or recoupments against Unimpaired Claims.

F. Allowed Claims

Notwithstanding any provision in the Plan to the contrary, the Disbursing Agent will only make Distributions to Holders of Allowed Claims. No Holder of a Disputed Claim will receive any Distribution on account thereof until (and then only to the extent that) its Disputed Claim becomes an Allowed Claim. The Debtors and/or the Liquidating Trustee may, in their discretion, withhold Distributions otherwise due thereunder to any Claimholder until the Claims Objection Deadline, to enable a timely objection thereto to be filed. Any Holder of a Claim that becomes an Allowed Claim after the Effective Date will receive its Distribution in accordance with the terms and provisions of the Plan and/or the Liquidating Trust Agreement, as applicable.

G. Special Provisions Regarding Insured Claims

1. Limitation on Amounts to Be Distributed to Holders of Allowed Insured Claims (other than Insured Asbestos Claims)

Distributions under the Plan to each Holder of an Insured Claim will be limited to Distributions as the Holder of an Allowed General Unsecured Claim for the following amounts: (a) the applicable self-insured retention ("SIR") under the relevant Policy and (b) the amount by which a Claimholder's Claim exceeds the total coverage available from the relevant insurance policies of the Debtors for such Claim. Nothing in the Plan, the Plan Supplement, the Confirmation Order, or any other order of the Bankruptcy Court (including, without limitation, any other provision that purports to be preemptory or supervening or grants an injunction or release) alters or amends the terms and conditions of insurance policies issued to or providing coverage to any of the Debtors and/or any agreements related thereto including, but not limited to, (i) any obligation of an insurer (or third party administrator) to pay the holder of an Insured Claim amounts within a deductible (as opposed to an SIR) in whole dollars; (ii) any obligation of an insured to reimburse insurer for under-deductible amounts paid; and (iii) any right of an insurer and/or third party administrator to draw upon, hold and/or apply collateral and/or security to the insureds' obligations (including, but not limited to, deductible reimbursement obligations) thereunder regardless of whether such obligations arise before or after the Effective Date.. Nothing in Section III.G.1. of the Plan will constitute a waiver of any Cause of Action the Debtors may hold against any Person, including the Debtors' Insurers, or is intended to, will or will be deemed to preclude any Holder of an Allowed Insured Claim from recovering Insurance Proceeds from any Insurer of the Debtors subject to applicable non-bankruptcy law, in addition to any Distribution such Holder may receive under the Plan; provided, however, that nothing herein, shall create or permit a direct right of action by the Holder of an Insured Claim against an insurer; and provided further, however, that the Debtors do not waive, and expressly reserve their rights to assert that any insurance coverage is property of the Estates to which they are entitled.

2. **Resolution of Asbestos Claims by the Liquidating Trust**

Asbestos Claims will be liquidated, determined, or otherwise resolved in the appropriate non-bankruptcy forum, except the Bankruptcy Court will retain jurisdiction to resolve bankruptcy-related issues, including concurrent jurisdiction with the appropriate non-bankruptcy forums to determine if an Asbestos Claim is barred by the Bar Date Order.

Pursuant to the Products Insurance Cooperation Agreement, Disputed Asbestos Claims will be defended against and liquidated, determined, or otherwise resolved by the Liquidating Trust in cooperation with the Products Insurance Carriers participating in that agreement, at the cost of such carriers and pursuant to and in accordance with the terms of the Products Insurance Cooperation Agreement.

Distributions under the Plan to each Holder of an Asbestos Claim settled or resolved by final judgment will be in accordance with the treatment provided under the Plan for General Unsecured Claims, but solely to the extent that such Asbestos Claim is not satisfied from proceeds payable to the holder thereof under any Products Insurance Policies and applicable law. To the extent an Asbestos Claim is an Insured Asbestos Claim, that Claim or the Insured portion of that Claim will first be satisfied by the Products Insurance Carriers participating in the Products Insurance Cooperation Agreement, pursuant to and in accordance with the terms of the Products Insurance Cooperation Agreement. To the extent that a Holder has a resolved Asbestos Claim, the amount of which exceeds the total coverage available from the Products Insurance Policies, such Holder will have an Allowed General Unsecured Claim in the amount by which such Asbestos Claim exceeds the coverage available under the Products Insurance Policies. Pursuant to the Liquidating Trust Agreement, the Liquidating Trustee will expressly allow a resolved Asbestos Claim in the amount by which such Claim exceeds the coverage available from the Products Insurance Policies, upon settlement or, if resolved by final judgment, after any period to appeal from a judgment has run without the appeal being taken.

3. **Limitations on Effect of Bankruptcy**

Except as otherwise provided in Section III.G.3 of the Plan, nothing in this Disclosure Statement, the Plan, the Confirmation Order or any other order of the Court to the contrary (including, without limitation, any other provision that purports to be preemptory or supervening or grants a release): (i) will affect, impair or prejudice the rights and defenses of the Insurers or the Debtors, or other insureds under the Insurance Policies in any manner; and such Insurers, Debtors, and other insureds will retain all rights, obligations and defenses under the Insurance Policies, and the Insurance Policies will apply to, and be enforceable by and against, the applicable Debtor(s) or insured(s) and the applicable Insurer(s) as if the Chapter 11 Cases had not occurred; (ii) will in any way operate to, or have the effect of, impairing or having any res judicata, collateral estoppel or other preclusive effect on any party's legal, equitable or contractual rights or obligations under any Insurance Policy, if any, in any respect; or (iii) shall otherwise determine the applicability or non-applicability of any provision of any Insurance Policy and any such rights and obligations will be determined under the Insurance Policies and applicable non-bankruptcy law.

II. Means For Implementation Of The Plan

A. Substantive Consolidation

1. Consolidation of the Chapter 11 Estates

The Plan contemplates and is predicated upon entry of an order substantively consolidating the Debtors' Estates and Chapter 11 Cases for all purposes, including voting, Distribution and Confirmation. On the Effective Date, (i) all Intercompany Claims between the Debtors will be eliminated, (ii) all assets and liabilities of the Affiliate Debtor will be merged or treated as if they were merged with the assets and liabilities of Reichhold, (iii) any obligation of a Debtor and any guarantee thereof by the other Debtor will be deemed to be one obligation of Reichhold, and any such guarantee will be eliminated, (iv) the issued and outstanding shares of stock of the Affiliate Debtor will be cancelled, (v) each Claim Filed or to be Filed against any Debtor will be deemed Filed only against Reichhold and will be deemed a single Claim against and a single obligation of Reichhold, and (vi) any joint or several liability of the Debtors will be deemed one obligation of Reichhold. On the Effective Date, and in accordance with the terms of the Plan and the consolidation of the assets and liabilities of the Debtors, all Claims based upon guarantees of collection, payment or performance made by one Debtor as to the obligations of another Debtor will be released and of no further force and effect.

The substantive consolidation effected pursuant to Article V.A.1 of the Plan (x) will not affect the rights of any Holder of a Secured Claim with respect to the Collateral securing such Claims and (y) will not, and will not be deemed to, prejudice the Causes of Action and the Avoidance Actions (subject to the releases set forth in Article X.D of the Plan), which will survive entry of the Substantive Consolidation Order, as if there had been no substantive consolidation.

In the event the Bankruptcy Court authorizes the Debtors to substantively consolidate less than all of the Debtors' Estates: (a) the Plan will be treated as a separate plan of liquidating for each Debtor not substantively consolidated and (b) the Debtors will not be required to resolicit votes with respect to the Plan.

2. The Effect of Substantive Consolidation

Pursuant to Article V of the Plan, the Debtors will be deemed consolidated solely for the purposes of voting, confirmation and making distributions to the holders of Allowed Claims under the Plan. Substantive consolidation is an equitable remedy that a bankruptcy court may apply in the chapter 11 cases of affiliated debtors, among other instances. Substantive consolidation of the estates of multiple debtors in a bankruptcy case effectively combines the assets and liabilities of multiple debtors for certain purposes under a plan. The effect of substantive consolidation is the pooling of the assets of, and claims against, consolidated debtors, satisfying liabilities from a common fund and combining the creditors of consolidated debtors for purposes of voting on a plan. In the absence of substantive consolidation, the creditors of an individual debtor could only look to the assets of that debtor to fully or partially satisfy such creditor's claim.

3. The Basis for Substantive Consolidation

Substantive consolidation of the Debtors is an important element of the Debtors' successful implementation of the Plan. The Debtors submit that the proposed substantive consolidation structure is supported by the applicable legal standards, practical considerations and the Debtors' prepetition operations and financial affairs. The recoveries for unsecured creditors in these Chapter 11 Cases will ultimately derive from a single source: the Liquidating Trust Interests. Furthermore, the substantive consolidation of the Debtors will expedite the conclusion of the Chapter 11 Cases.

In the Debtors' view, it is extremely unlikely that separate plans for each of the Debtors would produce an entitlement to a recovery for any creditor that is more than what is available under the Plan. The Debtors are not seeking to substantively consolidate offensively (i.e., with a primary purpose of disadvantaging tactically a group of creditors in the plan process or altering creditors' rights).

4. Substantive Consolidation Order

The Plan will serve as, and will be deemed to be, a motion for entry of an order substantively consolidating the Debtors' Chapter 11 Cases. If no objection to substantive consolidation is timely Filed and served by any Holder of an Impaired Claim affected by the Plan as provided therein on or before the deadline to object to Confirmation of the Plan, or such other date as may be fixed by the Court, the Substantive Consolidation Order (which may be the Confirmation Order) may be approved by the Court. If any such objections are timely Filed and served, a hearing with respect to the substantive consolidation of the Chapter 11 Cases and the objections thereto will be scheduled by the Court, which hearing may, but is not required to, coincide with the Confirmation Hearing.

B. Corporate Action

1. Deemed Merger of Debtors

On the Effective Date, (a) Canadyne-Georgia Corporation will be deemed merged with and into Canadyne Corporation, which will then be deemed merged with and into Reichhold without the necessity of action being taken by or on behalf of the Debtors; provided, however, that the Debtors shall be required to file all documents necessary to effectuate such mergers; (b) Reichhold Holdings US, Inc. will be deemed merged with and into Reichhold without the necessity of any action being taken by or on behalf of the Debtors; provided, however, that the Debtors will be required to file all documents necessary to effectuate such merger; (c) the members of the boards of directors of the Debtors will be deemed to have resigned; (d) the Chapter 11 Cases of the Affiliate Debtors will be closed upon the Effective Date without the need for further Court order, following which any and all proceedings that could have been brought or otherwise commenced in the Chapter 11 Case of an Affiliate Debtor will be brought or otherwise commenced in Reichhold's Chapter 11 Case..

Upon the resignation of the board of directors of Reichhold, the Liquidating Trust will serve as the sole shareholder of Liquidating Reichhold, and the Liquidating Trustee will serve as the sole officer and sole director of Liquidating Reichhold. The Liquidating Trust Committee, as

set forth more fully in the Plan, will be responsible for, among other things, instructing and supervising the Liquidating Trustee with respect to its responsibilities under the Plan and the Liquidating Trust Agreement.

2. **Continued Corporate Existence**

Reichhold will continue to exist as Liquidating Reichhold after the Effective Date in accordance with the laws of the State of Delaware and pursuant to the certificate of incorporation and by-laws in effect prior to the Effective Date, as amended by the Amended and Restated Certificate of Incorporation of Reichhold Liquidating, Inc. and the Amended and Restated By-laws of Reichhold Liquidating, Inc., attached to the Plan as Exhibits B and C, respectively. The certificate of incorporation and by-laws of Reichhold will be amended as necessary, as permitted by section 303 of Title 8 of the Annotated Code of Delaware (as amended, the "Delaware General Corporation Law"), to satisfy the provisions of the Plan and the Bankruptcy Code and will include, among other things, pursuant to section 1123(a)(6) of the Bankruptcy Code, a provision prohibiting the issuance of non-voting equity Securities, but only to the extent required by section 1123(a)(6) of the Bankruptcy Code. On the Effective Date, Liquidating Reichhold will issue one share of common stock (the "New Common Stock") to the Liquidating Trust. The Liquidating Trust will not sell, transfer or otherwise dispose of the New Common Stock absent the prior written consent of the Liquidating Trust Committee and approval by the Court. The Liquidating Trust will sell, transfer or otherwise dispose of the New Common Stock and will vote the New Common Stock on any matter requiring a vote of shareholders of Liquidating Reichhold under the Delaware Corporation Law, in accordance with the written directions of the Liquidating Trust Committee or order of the Court. The Liquidating Trustee, acting pursuant to the terms and conditions of the Liquidating Trust Agreement, will be authorized to execute, deliver, file or record such documents, instruments, releases and other agreements and to take such actions as may be necessary or appropriate to effectuate and further evidence the terms and conditions of the Plan.

The Professionals employed by the Debtors and the Committee, as applicable, will be entitled to reasonable compensation and reimbursement of actual, necessary expenses for post-Effective Date activities, including the preparation, filing and prosecution of final fee applications, upon the submission of invoices to the Liquidating Trustee for payment from the Professional Fee Reserve. Any time or expenses incurred in the preparation, filing and prosecution of final fee applications will be disclosed by each Professional in its final fee application and will be subject to approval of the Court.

3. **Cancellation of Existing Securities and Agreements**

Except as otherwise provided in the Plan, and in any contract, instrument or other agreement or document created in connection with the Plan, on the Effective Date, any promissory notes, share certificates, whether for preferred or common stock (including treasury stock), other instruments evidencing any Claims or Interests, other than a Claim that is being Reinstated and rendered unimpaired, and all options, warrants, calls, rights, puts, awards, commitments or any other agreements of any character to acquire such Interests will be deemed canceled and of no further force and effect, without any further act or action under any applicable agreement, law, regulation, order or rule, and the obligations under the notes, share

certificates and other agreements and instruments governing such Claims and Interests will be discharged; provided, however, that certain instruments, documents and credit agreements related to Claims will continue in effect solely for the purposes of allowing the agents to make Distributions to the beneficial holders and lenders thereunder; and provided, further, however, that the cancellation of the Senior Secured Notes Indenture hereunder will not in any way affect or diminish either (x) the rights and duties of the Senior Secured Notes Trustee to make Distributions pursuant to the Plan to the Holders of the Senior Secured Noteholder Claims in accordance with the Senior Secured Notes Indenture, or (y) the right of the Senior Secured Notes Trustee to assert the Senior Secured Notes Trustee Charging Lien with respect to such Distributions. Notwithstanding the foregoing, the Senior Secured Notes and the Senior Secured Notes Indenture will remain in effect for a period of one year following the Exchange Effective Date for the purpose of permitting any Senior Secured Noteholders that have not participated in the Exchange to exercise their right to participate in the Exchange through the one year anniversary of the Exchange Effective Date, and at 12:01 a.m. prevailing Eastern Time on the day following the one year anniversary of the Exchange Effective Date, the Senior Secured Notes and the Senior Secured Notes Indenture will be deemed canceled and of no further force and effect, without any further act or action under any applicable agreement, law, regulation, order or rule, except as set forth in the preceding sentence. The Holders of or parties to any such canceled notes, share certificates and other agreements and instruments will have no rights against the Debtors, or any of them, arising from or relating to such notes, share certificates and other agreements and instruments or the cancellation thereof, except the rights provided pursuant to the Plan.

4. **No Further Action**

Each of the matters provided for under the Plan involving the corporate structure of the Debtors or corporate action to be taken by or required of the Debtors will, as of the Effective Date, be deemed to have occurred and be effective as provided therein, and will be authorized and approved in all respects without any requirement of further action by any Person, including but not limited to, the Liquidating Trustee, Holders of Claims or Interests against or in the Debtors, or directors or officers of the Debtors, as permitted by section 303 of the Delaware General Corporation Law.

5. **Effectuating Documents; Further Transactions**

Any appropriate officer of Reichhold or the Affiliate Debtor, as the case may be, will be authorized to execute, deliver, file or record such contracts, instruments, releases, indentures and other agreements or documents, and take such actions as may be necessary or appropriate to effectuate and further evidence the terms and conditions of the Plan. The secretary of Reichhold or the Affiliate Debtor, as the case may be, will be authorized to certify or attest to any of the foregoing actions.

C. **Retiree Committee**

The Retiree Committee will continue in existence until the Effective Date to exercise those powers and perform those duties specified in section 1103 of the Bankruptcy Code and shall perform such other duties as it may have been assigned by the Court prior to the Effective

Date. On the Effective Date, the Retiree Committee will be dissolved and its members will be deemed released of all their duties, responsibilities and obligations in connection with the Chapter 11 Cases or the Plan and its implementation, and the retention or employment of the Committee's attorneys, financial advisors and other agents shall terminate, except with respect to (i) all Professional Fee Claims and (ii) any appeals of the Confirmation Order. All expenses of Retiree Committee members and the reasonable fees and expenses of their Professionals through the Effective Date willl be paid in accordance with the terms and conditions of the Professional Fee Order.

D. Creditors' Committee and Liquidating Trust Committee

1. Dissolution of the Committee

The Committee will continue in existence until the Effective Date to exercise those powers and perform those duties specified in section 1103 of the Bankruptcy Code and will perform such other duties as it may have been assigned by the Court prior to the Effective Date. On the Effective Date, the Committee will be dissolved and its members will be deemed released of all their duties, responsibilities and obligations in connection with the Chapter 11 Cases or the Plan and its implementation, and the retention or employment of the Committee's attorneys, financial advisors and other agents will terminate, except with respect to (i) all Professional Fee Claims and (ii) any appeals of the Confirmation Order. All expenses of Committee members and the reasonable fees and expenses of their Professionals through the Effective Date will be paid in accordance with the terms and conditions of the Professional Fee Order.

2. Creation of Liquidating Trust Committee and Procedures Related Thereto

On or prior to the Plan Supplement Filing Date, the Committee, subject to the Debtors' approval, will appoint the Liquidating Trust Committee members. Each member of the Liquidating Trust Committee will be entitled to vote on all matters in accordance with the Liquidating Trust Agreement. Members of the Liquidating Trust Committee will serve without compensation, but will be entitled to reimbursement of reasonable expenses.

3. Standing of the Liquidating Trust Committee

The Liquidating Trust Committee will have independent standing to appear and be heard in the Court as to any matter relating to the Plan, the Liquidating Trust Agreement, the Estates or Liquidating Reichhold, including any matter as to which the Court has retained jurisdiction pursuant to Article XI of the Plan.

4. Function and Duration of the Liquidating Trust Committee

The Liquidating Trust Committee will have the rights and responsibilities set forth in the Plan and the Liquidating Trust Agreement, including (a) instructing and supervising the Liquidating Trustee with respect to its responsibilities under the Plan and the Liquidating Trust Agreement. The Liquidating Trust Committee will remain in existence until such time as the final Distributions under the Liquidating Trust Agreement have been made and Liquidating Reichhold has been dissolved in accordance with the terms of the Plan.

5. Indemnification of Liquidating Trustee and Liquidating Trust Committee

The Indemnified Persons will be held harmless and will not be liable for actions taken or omitted in their capacity as, or on behalf of, the Liquidating Trust, Liquidating Trust Committee or Liquidating Trustee (as applicable), except those acts that are determined by Final Order of the Court to have arisen out of their own intentional fraud, willful misconduct or gross negligence. Each Indemnified Person will be entitled to be indemnified, held harmless and reimbursed for fees and expenses including, without limitation, reasonable attorney's fees, which such Persons and Entities may incur or may become subject to or in connection with any action, suit, proceeding or investigation that is brought or threatened against such Persons or Entities in respect of that Person's or Entity's actions or inactions regarding the implementation or administration of the Plan, or the discharge of their duties under the Plan or Liquidating Trust Agreement, except for any actions or inactions that are determined by Final Order of the Court to have arisen from intentional fraud, willful misconduct or gross negligence. Any Claim of the Indemnified Persons to be indemnified, held harmless or reimbursed will be satisfied solely from the Liquidating Trust Assets or any applicable insurance coverage.

6. Recusal of Liquidating Trust Committee Members

A Liquidating Trust Committee member will recuse itself from any decisions or deliberations regarding actions taken or proposed to be taken by the Liquidating Trustee with respect to the Claims, Causes of Action or rights of such Liquidating Trust Committee member, the entity appointing such Liquidating Trust Committee member, or any affiliate of the foregoing.

E. The Liquidating Trust

1. Establishment and Administration of the Liquidating Trust

(a) On the Effective Date, the Liquidating Trust will be established pursuant to the Liquidating Trust Agreement for the purpose of, among other things, (i) investigating and, if appropriate, pursuing Liquidating Trust Causes of Action, (ii) administering and pursuing the Liquidating Trust Assets, (iii) resolving Disputed Claims and any Claim objections pending as of the Effective Date and (iv) making Distributions from the Liquidating Trust to Holders of Allowed Claims as provided for in the Plan and/or the Liquidating Trust Agreement.

(b) Upon execution of the Liquidating Trust Agreement, the Liquidating Trustee will be authorized to take all steps necessary to complete the formation of the Liquidating Trust. The Liquidating Trust will be administered by the Liquidating Trustee in accordance with the Liquidating Trust Agreement. From and after the Effective Date, the Liquidating Trustee will be vested with the powers of the sole shareholder, officer and director of Liquidating Reichhold.

(c) It is intended that the Liquidating Trust be classified for federal income tax purposes as a "liquidating trust" within the meaning of Treasury Regulations Section 301.7701-4(d) and as a "grantor trust" within the meaning of Sections 671 through 679 of the Internal Revenue Code. In furtherance of this objective, the Liquidating Trustee will, in its

business judgment, make continuing best efforts to dispose of the trust assets, make timely distributions, and not unduly prolong the duration of the Liquidating Trust. All Liquidating Trust Assets held by the Liquidating Trust on the Effective Date will be deemed for all federal income tax purposes to have been distributed by the Debtors on a Pro Rata basis to Holders of Allowed General Unsecured Claims and then contributed by such Holders to the Liquidating Trust in exchange for the Liquidating Trust Interests, and all parties (including the Liquidating Trustee and the Holders of beneficial interests in the Liquidating Trust) will be required to treat the transfer of assets to the Liquidating Trust accordingly. All Holders of General Unsecured Claims have agreed to use consistently the valuation of the Liquidating Trust Assets transferred to the Liquidating Trust as established by the Liquidating Trustee for all federal income tax purposes and all applicable reporting requirements. The beneficiaries under the Liquidating Trust will be treated as the grantors and deemed owners of the Liquidating Trust. All earnings of the Liquidating Trust, including those retained in a Disputed Claims Reserve, will be treated as taxable income on a current basis for federal income tax purposes. The Liquidating Trustee will be responsible for filing information, including tax returns, on behalf of the Liquidating Trust as grantor trust pursuant to Treasury Regulation Section 1.671-4(a).

2. Assets of the Liquidating Trust

On the Effective Date, or as soon as reasonably practicable thereafter, the Debtors will transfer and assign to the Liquidating Trust all of their right, title and interest in and to all of the Liquidating Trust Assets, and in accordance with section 1141 of the Bankruptcy Code, all such assets will automatically vest in the Liquidating Trust free and clear of all Claims and liens, subject only to the Allowed Claims of the Holders of Liquidating Trust Interests as set forth in the Plan and the expenses of the Liquidating Trust as set forth herein and in the Liquidating Trust Agreement. Thereupon, the Debtors will not have any interest in or with respect to the Liquidating Trust Assets.

Also on the Effective Date, or as soon as reasonably practicable thereafter, Hahn and Hessen will transfer and assign to the Liquidating Trust all of the right, title and interest in and to all of the GUC Cash, which Cash, upon transfer, will be subject only to the Allowed Claims of the Holders of Liquidating Trust Interests as set forth in the Plan and the expenses of the Liquidating Trust as set forth therein and in the Liquidating Trust Agreement.

3. Other Funds to be Transferred to the Liquidating Trust

(a) On or before the Effective Date, the Debtors will transfer (i) Cash in the Amount of the Administrative and Priority Claims Estimate to the Liquidating Trust, which Cash will be used by the Liquidating Trustee to fund the Administrative Claims Reserve; (ii) Cash in the Amount of the Convenience Claims Estimate to the Liquidating Trust, which Cash will be used by the Liquidating Trustee to fund the Convenience Class Reserve; and (iii) Cash in the amount of the Professional Fee Estimate to fund the Professional Fee Reserve.

(b) After the Effective Date, Liquidating Reichhold will be authorized to transfer Cash generated from the liquidating of its Remaining Assets to the Liquidating Trust without further Court approval.

4. **Rights and Powers of the Liquidating Trust and the Liquidating Trustee**

(a) The Liquidating Trustee will be deemed the Estates' representative in accordance with section 1123 of the Bankruptcy Code and will have all the rights and powers set forth in the Liquidating Trust Agreement, including, without limitation, the powers of a trustee under sections 704 and 1106 of the Bankruptcy Code and Rule 2004 of the Bankruptcy Rules, including without limitation, the right to (i) effect all actions and execute all agreements, instruments and other documents necessary to implement the provisions of the Plan, the Liquidating Trust Agreement and the Products Insurance Cooperation Agreement; (ii) prosecute, settle, abandon or compromise any Liquidating Trust Causes of Action; (iii) make Distributions contemplated by the Plan and the Liquidating Trust Agreement; (iv) establish and administer any necessary reserves that may be required, including the Disputed Claims Reserve and the Administrative Claims Reserve; (v) object to Disputed Claims and prosecute, settle, compromise, withdraw or resolve in any manner approved by the Court such objections; (vi) employ and compensate professionals (including professionals previously retained by the Debtors and/or the Committee), provided, however, that any such compensation will be made only out of the Liquidating Trust Assets; and (vii) file all federal, state and local tax returns if necessary; (viii) cooperate with Products Insurance Carriers participating in the Products Insurance Cooperation Agreement in defense and resolution of Asbestos Claims pursuant to and in accordance with the terms of the Products Insurance Cooperation Agreement; and (ix) seek recovery from Products Insurance Carriers for Asbestos Claims.

(b) The Liquidating Trust will assume as of the Effective Date the Debtors' responsibility under the Plan to pay Allowed Administrative Claims, Allowed Priority Tax Claims, Allowed Priority Non-Tax Claims, Allowed Secured Claims, Allowed Convenience Claims and Allowed Professional Fee Claims, and in accordance thereof, will be authorized to increase the amount of Cash held in the Administrative Claims Reserve, the Professional Fee Reserve, the Convenience Claims Reserve, and any other reserve set up to pay the Allowed Secured Claims, as needed.

(c) The Liquidating Trustee will have full authority to take any steps necessary to administer the Liquidating Trust Agreement, including without limitation, the duty and obligation to liquidate Liquidating Trust Assets, to make Distributions therefrom in accordance with the provisions of the Plan and to pursue, settle or abandon any Liquidating Trust Causes of Action, all in accordance with the Liquidating Trust Agreement.

5. **Liquidating Trust Interests**

(a) On the Effective Date, each Holder of an Allowed General Unsecured Claim will, by operation of the Plan, receive its Pro Rata share of the Liquidating Trust Interests. Liquidating Trust Interests will be reserved for Holders of Disputed General Unsecured Claims and issued by the Liquidating Trust to, and held by the Liquidating Trustee in, the Disputed Claims Reserve pending allowance or disallowance of such Claims. No other entity will have any interest, legal, beneficial or otherwise, in the Liquidating Trust Assets upon the assignment and transfer of such assets to the Liquidating Trust. The Senior Secured Notes Trustee will be listed as the sole creditor on the records of the Liquidating Trust with respect to Liquidating

Trust Interests distributed on account of Senior Secured Noteholder Claims, and all Distributions to holders of such Liquidating Trust Interests shall be made to the Senior Secured Notes Trustee.

As set forth in the Liquidating Trust Agreement, Distributions from the Liquidating Trust on account of Liquidating Trust Interests will be made from the Liquidating Trust Assets after paying, reserving against or satisfying, among other things, the operating and administrative expenses of the Liquidating Trust, including but not limited to all costs, expenses and obligations incurred by the Liquidating Trustee (or professionals who may be employed by the Liquidating Trustee in administering the Liquidating Trust) in carrying out their responsibilities under the Liquidating Trust Agreement, or in any manner connected, incidental or related thereto.

(b) The Liquidating Trust Interests will be uncertificated and will be nontransferable except upon death of the Holder or by operation of law. Holders of Liquidating Trust Interests, in such capacity, will have no voting rights with respect to such interests. The Liquidating Trust will have a term of five (5) years from the Effective Date, without prejudice to the rights of the Liquidating Trust Committee to extend such term conditioned upon the Liquidating Trust not becoming subject to the Securities Exchange Act of 1934 (as now in effect or hereafter amended).

6. Appointment of a Liquidating Trustee

(a) The Liquidating Trustee will be designated by the Committee, subject to the Debtors' approval. The Debtors will file a notice on a date that is not less than ten (10) days prior to the hearing to consider confirmation of the Plan designating the Person selected as Liquidating Trustee. The appointment of the Liquidating Trustee will be approved in the Confirmation Order, and such appointment will be as of the Effective Date. The Liquidating Trustee will have and perform all of the duties, responsibilities, rights and obligations set forth in the Plan and Liquidating Trust Agreement.

(b) The Liquidating Trustee will not be obligated to obtain a bond but may do so, in the Liquidating Trust Committee's discretion, in which case the expense incurred by such bonding will be paid by the Liquidating Trust.

(c) The Liquidating Trustee, the members of the Liquidating Trust Committee and their professionals will be exculpated and indemnified pursuant to and in accordance with the terms of the Plan and Liquidating Trust Agreement.

7. Distributions to Holders of General Unsecured Claims

(a) Initial Distributions. On the Initial Distribution Date, the Liquidating Trustee, subject to Article VI.B. of the Plan, will make, or will make adequate reserves in the Disputed Claims Reserve for, the Distributions required to be made under the Plan to Holders of Allowed General Unsecured Claims. The Trustee will not make any Distributions of Liquidating Trust Assets to the beneficiaries under the Liquidating Trust unless the Trustee retains and reserves in the Disputed Claims Reserve such amounts as are required under Article VI.I.3 of the Plan.

(c) Interim Distributions. The Liquidating Trustee, subject to Article VI.B. of the Plan, will make interim Distributions of Cash in accordance with the Plan and Article IV of the Liquidating Trust Agreement (i) to Holders of Liquidating Trust Interests as soon as reasonably practicable and (ii) from the Disputed Claims Reserve as soon as reasonably practical after Disputed General Unsecured Claims become Allowed Claims.

(d) Final Distributions. The Liquidating Trust will be dissolved and its affairs wound up and the Liquidating Trustee, subject to Article VI.B. of the Plan, will make the final Distributions, upon the earlier of (i) the date which is five (5) years after the Effective Date, and (ii) that date when, (A) in the reasonable judgment of the Liquidating Trustee, substantially all of the assets of the Liquidating Trust have been liquidated and there are no substantial potential sources of additional Cash for Distribution; and (B) there remain no substantial Disputed Claims. Notwithstanding the foregoing, on or prior to a date not less than six (6) months prior to such termination, the Court, upon motion by a party in interest, may extend the term of the Liquidating Trust for one or more finite terms based upon the particular facts and circumstances present at that time, if an extension is necessary to the liquidating purpose of the Liquidating Trust. The date on which the Liquidating Trustee determines that all obligations under the Plan and Liquidating Trust Agreement have been satisfied is referred to as the "Liquidating Trust Termination Date." On the Liquidating Trust Termination Date, the Liquidating Trustee will, to the extent not already done:

(i) file the necessary documents to effectuate the dissolution of Liquidating Reichhold in accordance with the laws of the State of Delaware;

(ii) resign as the sole officer and sole director of Liquidating Reichhold; and

(iii) request that the Court enter an order closing the Bankruptcy Cases.

Upon the Liquidating Trust Termination Date, Liquidating Reichhold will be deemed dissolved for all purposes (if not previously dissolved) without the necessity for any other or further actions to be taken by or on behalf of Liquidating Reichhold or payments to be made in connection therewith.

Upon dissolution of the Liquidating Trust, if the Liquidating Trustee reasonably determines that any remaining Liquidating Trust Assets are insufficient to render a further distribution practicable, or exceed the amounts required to be paid under the Plan, the Liquidating Trustee will transfer such remaining funds to a charitable institution selected by the Liquidating Trustee, which charitable institution will be qualified as a not-for-profit corporation under applicable federal and state laws.

8. Distributions to Holders of Administrative and Priority Claims

On or as soon as reasonably practicable after the later of (i) the Initial Distribution Date or (ii) the date an Administrative Claim, Priority Tax Claim or Priority Non-Tax Claim becomes an Allowed Claim, the Liquidating Trustee will make the Distributions required to be made under the Plan to Holders of Allowed Administrative Claims, Priority Tax Claims, Priority Non-

Tax Claims and Convenience Claims, subject to the limitations set forth in the Liquidating Trust Agreement.

9. Reporting Requirement of Liquidating Trust

The Liquidating Trust's formation documents will require that financial statements or similar reports of the Liquidating Trust be sent to all Holders of Liquidating Trust Interests on an annual basis.

F. Limited Revesting of Remaining Assets

Notwithstanding anything herein to the contrary, any Remaining Assets will be vested in the Debtors on or following the Effective Date.

G. Limited Release of Liens

On the Effective Date, all mortgages, deeds of trust, liens or other security interests against property of the Estates, will be released; provided, however, on the Effective Date, and to the extent not released prior to the Effective Date pursuant to Court order or otherwise, all mortgages, deeds of trust, liens or other security interests against the Liquidating Trust Assets will be released.

H. Accounts and Reserves

1. Professional Fee Reserve

On or before the Effective Date, the Debtors will transfer Cash in the Amount of the Professional Fee Estimate to the Liquidating Trust which Cash will be used by the Liquidating Trustee to fund the Professional Fee Reserve. The Cash so transferred will not be used for any purpose other than to pay Allowed Professional Fee Claims and will be placed in a segregated escrow account. The Liquidating Trustee, subject to the terms and conditions of the Plan and the Liquidating Trust Agreement, will pay each Professional Fee Claim of a Professional employed by the Debtors or the Committee, on or as soon as reasonably practicable after the date such Claim becomes an Allowed Claim, upon entry of a Final Order allowing such Claim. After all Professional Fee Claims are Allowed or Disallowed and the Allowed amounts of such Claims are paid by the Liquidating Trustee, any remaining Cash in the Professional Fee Reserve will be distributed by the Liquidating Trustee to the Liquidating Trust, provided that all Allowed Administrative Claims, Convenience Claims, Priority Tax Claims and Priority Non-Tax Claims are paid. Only Professionals employed in the Chapter 11 Cases by the Debtors or the Committee will be entitled to payment from the Professional Fee Reserve.

2. Administrative Claims Reserve

On or before the Effective Date, the Debtors will transfer Cash in the Amount of the Administrative and Priority Claims Estimate to the Liquidating Trust, which Cash will be used by the Liquidating Trustee to fund the Administrative Claims Reserve. The Cash so transferred will not be used for any purpose other than to pay Allowed Administrative Claims (except Professional Fee Claims, which will be paid from the Professional Fee Reserve), Priority Tax

Claims and Priority Non-Tax Claims. The Liquidating Trustee (i) will segregate in an escrow account and will not commingle the Cash held in the Administrative Claims Reserve and (ii) subject to the terms and conditions of the Plan and the Liquidating Trust Agreement, will pay each Administrative Claim (except Professional Fee Claims, which will be paid from the Professional Fee Reserve), Priority Tax Claim and Priority Non-Tax Claim, on or as soon as reasonably practicable after the date such Claim becomes an Allowed Claim. After all Administrative Claims (except Professional Fee Claims), Priority Tax Claims and Priority Non-Tax Claims are Allowed or Disallowed and the Allowed amounts of such Claims are paid by the Liquidating Trust, any remaining Cash in the Administrative Claims Reserve will be distributed by the Liquidating Trustee to the Liquidating Trust provided that all Allowed Professional Fee Claims have been paid.

3. Other Reserves

The Liquidating Trust will establish and administer any other necessary reserves that may be required under the Plan or Liquidating Trust Agreement, including the Disputed Claims Reserve and the Convenience Class Reserve.

I. Exemption from Certain Transfer Taxes

Pursuant to section 1146(a) of the Bankruptcy Code, any transfers of property pursuant to the Plan will not be subject to any document recording tax, stamp tax, conveyance fee, intangibles or similar tax, mortgage tax, real estate transfer tax, mortgage recording tax or other similar tax or governmental assessment, and the Confirmation Order will direct the appropriate state or local governmental officials or agents to forego the collection of any such tax or governmental assessment and to accept for filing and recordation instruments or other documents without the payment of any such tax or governmental assessment.

J. Applicability of Sections 1145 and 1125(e) of the Bankruptcy Code

1. Issuance of New Common Stock

Pursuant to the provisions of section 1145 of the Bankruptcy Code with respect to the New Common Stock, the distribution of New Common Stock under the terms of the Plan will constitute the offer or sale under a plan of the Debtors of a security of a successor to the Debtors under such plan in exchange for a claim against, an interest in, or a claim for an administrative expense in the Chapter 11 Cases, such that pursuant to section 1145(a)(1) of the Bankruptcy Code, the issuance of the New Common Stock, to the extent the New Common Stock constitutes "securities" under applicable law, will be exempt from requirements of section 5 of the Securities Act of 1933, as amended, and any other federal, state or local laws requiring registration for offer or sale of securities.

Solely for the limited purpose of the provisions of section 1125(e) of the Bankruptcy Code, Liquidating Reichhold will be deemed to have participated, in good faith and in compliance with the applicable provisions of the Bankruptcy Code, in the offer, issuance, sale or purchase of a security, offered or sold under the Plan, of a newly organized successor to the Debtors under the Plan, and therefore, pursuant to section 1125(e) of the Bankruptcy Code, will

not be liable for violation of any applicable law, rule or regulation governing the offer, issuance, sale or purchase of securities.

2. Issuance of Liquidating Trust Interests

Under section 1145 of the Bankruptcy Code, the issuance of the Liquidating Trust Interests under the Plan will be exempt from registration under the Securities Act of 1933, as amended, and all applicable state and local laws requiring registration of securities. If the Liquidating Trustee determines, with the advice of counsel, that the Liquidating Trust is required to comply with the registration and reporting requirements of the Securities and Exchange Act of 1934, as amended, or the Investment Company Act of 1940, as amended, then the Liquidating Trustee will take any and all actions to comply with such reporting requirements and file necessary periodic reports with the Securities and Exchange Commission.

K. Preservation of Causes of Action

1. Liquidating Trust Causes of Action

In accordance with section 1123(b) of the Bankruptcy Code, the Liquidating Trust will retain and may enforce all rights to commence and pursue, as appropriate, the Liquidating Trust Causes of Action, and the Liquidating Trust's rights to commence, prosecute or settle such Liquidating Trust Causes of Action will be preserved notwithstanding the occurrence of the Effective Date. The Liquidating Trust may pursue such Liquidating Trust Causes of Action, as appropriate, in accordance with the best interests of the Liquidating Trust beneficiaries. No Entity may rely on the absence of a specific reference in the Plan or this Disclosure Statement to any Liquidating Trust Claims against them as any indication that Liquidating Reichhold or the Liquidating Trust, as applicable, will not pursue any and all available Liquidating Trust Causes of Action against them. The Debtors or the Liquidating Trust, as applicable, expressly reserve all rights to prosecute any and all Liquidating Trust Causes of Action against any Entity, except as otherwise expressly provided in the Plan. Unless any Liquidating Trust Causes of Action against an Entity are expressly waived, relinquished, exculpated, released, compromised or settled in the Plan or a Court order, the Liquidating Trust expressly reserves all Liquidating Trust Claims for later adjudication, and, therefore, no preclusion doctrine, including the doctrines of *res judicata*, collateral estoppel, issue preclusion, claim preclusion, estoppels (judicial, equitable or otherwise) or laches, will apply to such Liquidating Trust Causes of Action upon, after or as a consequence of the Confirmation or Consummation.

The substantive consolidation of the Debtors and their Estates pursuant to the Confirmation Order and Article V.A of the Plan will not, and will not be deemed to, prejudice any of the Liquidating Trust Causes of Action, which will survive entry of the Confirmation Order for the benefit of the Debtors and their Estates, and, upon the Effective Date, for the benefit of the Liquidating Trust.

A nonexclusive schedule of Causes of Action is attached to the Plan as Exhibit E. In accordance with and subject to any applicable law, the Debtors' inclusion or failure to include any Causes of Action on Exhibit E will not be deemed an admission, denial or waiver of any Cause of Action that any Debtor or any Estate may hold against any Entity.

2. Products Insurance Causes of Action

In accordance with section 1123(b) of the Bankruptcy Code, Liquidating Reichhold will retain and may enforce all rights to commence and pursue, as appropriate, the Products Insurance Causes of Action, and Liquidating Reichhold's rights to commence, prosecute or settle such Products Insurance Causes of Action will be preserved notwithstanding the occurrence of the Effective Date. Liquidating Reichhold may pursue such Products Insurance Causes of Action, as appropriate, in accordance with the best interests of Liquidating Reichhold. No Entity may rely on the absence of a specific reference in the Plan or the Disclosure Statement to any Products Insurance Claims against them as any indication that Liquidating Reichhold will not pursue any and all available Products Insurance Causes of Action against them. Liquidating Reichhold expressly reserves all rights to prosecute any and all Products Insurance Causes of Action against any Entity, except as otherwise expressly provided in the Plan. Unless any Products Insurance Causes of Action against an Entity are expressly waived, relinquished, exculpated, released, compromised or settled in the Plan or a Court order, Liquidating Reichhold expressly reserves all Products Insurance Claims for later adjudication, and, therefore, no preclusion doctrine, including the doctrines of *res judicata*, collateral estoppel, issue preclusion, claim preclusion, estoppels (judicial, equitable or otherwise) or laches, shall apply to such Products Insurance Causes of Action upon, after or as a consequence of the Confirmation or Consummation.

The substantive consolidation of the Debtors and their Estates pursuant to the Confirmation Order and Article V.A of the Plan will not, and will not be deemed to, prejudice any of the Products Insurance Causes of Action, which shall survive entry of the Confirmation Order for the benefit of the Debtors and their Estates, and, upon the Effective Date, for the benefit of Liquidating Reichhold.

L. Effectuating Documents; Further Transactions

Liquidating Reichhold and the Liquidating Trustee, subject to the terms and conditions of the Plan and the Liquidating Trust Agreement, will be authorized to execute, deliver, file or record such contracts, instruments, releases, indentures and other agreements or documents, and take such actions as may be necessary or appropriate to effectuate and further evidence the terms and conditions of the Plan.

III. Provisions Regarding Distributions

A. Distributions for Claims Allowed as of the Effective Date

Except as otherwise provided in the Plan or as ordered by the Court, all Distributions to be made on account of Claims that are Allowed Claims as of the Effective Date will be made on the Initial Distribution Date by the Disbursing Agent. Distributions on account of Claims that first become Allowed Claims after the Effective Date will be made pursuant to the terms and conditions of the Plan and the Liquidating Trust Agreement. Notwithstanding any other provision of the Plan to the contrary, no Distribution will be made on account of any Allowed Claim or portion thereof that (i) has been satisfied after the Petition Date; (ii) is listed in the schedules as contingent, unliquidated, disputed or in a zero amount, and for which a Proof of

Claim has not been timely filed; or (iii) is evidenced by a Proof of Claim that has been amended by a subsequently filed Proof of Claim.

B. Disbursing Agent

The Disbursing Agent will make all Distributions required under the Plan, subject to the terms and provisions of the Plan and the Liquidating Trust Agreement. If the Disbursing Agent is an independent third party designated to serve in such capacity, such Disbursing Agent will receive, without further Court approval, reasonable compensation from the Liquidating Trust for distribution services rendered pursuant to the Plan and reimbursement of reasonable out-of-pocket expenses. No Disbursing Agent will be required to give any bond or surety or other security for the performance of its duties. The Disbursing Agent will be authorized and directed to rely upon the Debtors' books and records and the Liquidating Trust's, or Liquidating Reichhold's (as applicable) representatives and professionals in determining Allowed Claims not entitled to Distributions under the Plan in accordance with the terms and conditions of the Plan.

All Class 3 Distributions for the Holders of Senior Secured Noteholder Claims will be made to the Senior Secured Notes Trustee who shall act as the Disbursing Agent with respect to the Distributions to Holders of Senior Secured Noteholder Claims, and will be subject in all respects to the right of the Senior Secured Notes Trustee to assert the Senior Secured Notes Trustee Charging Lien against such Distributions. The Senior Secured Notes Trustee may transfer such Distributions through the facilities of DTC and will be entitled to recognize and deal for all purposes under the Plan with Holders of Senior Secured Noteholder Claims to the extent consistent with customary practices of DTC.

C. Delivery of Distributions and Undeliverable or Unclaimed Distributions

1. Delivery of Distributions in General

Distributions to Holders of Allowed Claims will be made by the Disbursing Agent (a) at the addresses set forth on the Proofs of Claim filed by such Holders (or at the last known addresses of such Holders if no Proof of Claim is filed or if the Debtors or the Liquidating Trustee have been notified of a change of address), (b) at the addresses set forth in any written notices of address changes delivered to the Disbursing Agent after the date of any related Proof of Claim, after sufficient evidence of such addresses as may be requested by the Disbursing Agent is provided, (c) at the addresses reflected in the Schedules if no Proof of Claim has been filed and the Disbursing Agent has not received a written notice of a change of address, (d) at the addresses set forth in the other records of the Debtors or the Disbursing Agent at the time of the Distribution or (e) in the case of the Holder of a Claim that is governed by an agreement and is administered by an agent or servicer, at the addresses contained in the official records of such agent or servicer.

In making Distributions under the Plan, the Disbursing Agent may rely upon the accuracy of the Claims register maintained by the Claims Agent in the Chapter 11 Cases, as modified by any Final Order of the Court disallowing Claims in whole or in part.

2. Undeliverable and Unclaimed Distributions

If the Distribution to any Holder of an Allowed Claim is returned to the Disbursing Agent as undeliverable or is otherwise unclaimed, no further Distributions will be made to such Holder unless and until the Disbursing Agent is notified in writing of such Holder's then-current address and such Holder provides sufficient evidence of such address as may be requested by the Disbursing Agent, at which time all missed Distributions will be made to such Holder without interest, subject to the time limitations set forth below. Amounts in respect of undeliverable Distributions made by the Disbursing Agent will be returned to the Disbursing Agent until such Distributions are claimed. The Disbursing Agent will segregate and, with respect to Cash, deposit in a segregated account designated as an unclaimed Distribution reserve undeliverable and unclaimed Distributions for the benefit of all such similarly-situated Persons until such time as a Distribution becomes deliverable or is claimed, subject to the time limitations set forth in the Plan.

Any Holder of an Allowed Claim that does not assert a claim pursuant to the Plan for an undeliverable or unclaimed Distribution within three (3) months after the date such Distribution was issued will be deemed to have forfeited its Claim for such undeliverable or unclaimed Distribution and will be forever barred and enjoined from asserting any such claim for an undeliverable or unclaimed Distribution against the Debtors and their Estates, Liquidating Reichhold, the Liquidating Trustee, the Liquidating Trust, the Liquidating Trust Committee and their respective agents, attorneys, representatives, employees or independent contractors, and/or any of its or their property. In the case of undeliverable or unclaimed Distributions on account of Administrative Claims, Priority Tax Claims or Priority Non-Tax Claims, any Cash otherwise reserved for undeliverable or unclaimed Distributions will revert to the Administrative Claims Reserve. In the case of undeliverable or unclaimed Distributions on account of Liquidating Trust Interests, any Cash otherwise reserved for undeliverable or unclaimed Distributions will revert to the Liquidating Trust, and all title to and all beneficial interests in the Liquidating Trust Assets represented by any such undeliverable Distributions will revert to and/or remain in the Liquidating Trust and will be distributed in accordance with Article IV of the Liquidating Trust Agreement and the Plan, including by donation of remaining funds to one or more charitable institutions qualified as a not-for-profit corporation, under applicable federal and state laws, as may be selected by the Liquidating Trustee. The reversion of such Cash to the Administrative Claims Reserve or the Liquidating Trust, as applicable, will be free of any restrictions thereon and notwithstanding any federal or state escheat laws to the contrary and will be treated in accordance with the terms of the Plan and the Liquidating Trust Agreement. Nothing contained in the Plan or the Liquidating Trust Agreement will require the Debtors, Liquidating Reichhold, the Liquidating Trust, the Liquidating Trustee or any Disbursing Agent to attempt to locate any Holder of an Allowed Claim.

D. Means of Cash Payment

Cash payments made pursuant to the Plan will e in U.S. dollars and will be made at the option and in the sole discretion of the Disbursing Agent by (i) checks drawn on or (ii) wire transfers from a domestic bank selected by the Disbursing Agent. In the case of foreign creditors, Cash payments may be made, at the option of the Disbursing Agent, in such funds and by such means as are necessary or customary in a particular jurisdiction.

E. **Interest on Claims**

Unless otherwise specifically provided for in the Plan or the Confirmation Order, or required by applicable bankruptcy law, postpetition interest will not accrue or be paid on any Claims, and no Claimholder will be entitled to interest accruing on or after the Petition Date on any Claim. Interest will not accrue or be paid upon any Disputed Claim in respect of the period from the Petition Date to the date a final Distribution is made thereon if and after such Disputed Claim becomes an Allowed Claim.

F. **Withholding and Reporting Requirements**

In accordance with section 346 of the Bankruptcy Code and in connection with the Plan and all Distributions thereunder, the Disbursing Agent will, to the extent applicable, comply with all withholding and reporting requirements imposed by any federal, state, provincial, local or foreign taxing authority. The Disbursing Agent will be authorized to take any and all actions necessary and appropriate to comply with such requirements. All Distributions under the Plan will be subject to withholding and reporting requirements.

G. **Setoffs**

Subject to the terms and conditions of the Liquidating Trust Agreement, the Debtors, Liquidating Reichhold and/or the Liquidating Trust may, but will not be required to, set off against any Claim and the payments or other Distributions to be made under the Plan on account of the Claim, claims of any nature whatsoever that the Debtors and/or Liquidating Reichhold may have against the Holder thereof, provided that any such right of setoff that is exercised will be allocated, first, to the principal amount of the related Claim, and thereafter to any interest portion thereof, but neither the failure to do so nor the allowance of any Claim under the Plan will constitute a waiver or release by the Debtors, Liquidating Reichhold and/or the Liquidating Trust of any such claim that the Debtors and/or Liquidating Reichhold may have against such Holder.

H. **Procedure for Treating and Resolving Disputed, Contingent and/or Unliquidated Claims**

1. **Objection Deadline; Prosecution of Objections**

Except as set forth in the Plan with respect to Professional Fee Claims and Administrative Claims, all objections to Claims must be filed and served on the Holders of such Claims by the Claims Objection Deadline, as the same may be extended by the Court. If an objection has not been filed to a Proof of Claim or the Schedules have not been amended with respect to a Claim that (i) was Scheduled by the Debtors but (ii) was not Scheduled as contingent, unliquidated and/or disputed, by the Claims Objection Deadline, as the same may be extended by order of the Court, the Claim to which the Proof of Claim or Scheduled Claim relates will be treated as an Allowed Claim if such Claim has not been Allowed earlier. Notice of any motion for an order extending the Claims Objection Deadline will be required to be given only to those persons or entities that have requested notice in the Chapter 11 Cases in accordance with Bankruptcy Rule 2002.

Subject to any reporting to the Liquidating Trust Committee that may be required under the Liquidating Trust Agreement, and notwithstanding any requirements that may be imposed pursuant to Bankruptcy Rule 9019, on and after the Effective Date, the Liquidation Trust will have the authority to: (1) file, withdraw or litigate to judgment objections to and requests for estimation of Claims (expect for Asbestos Claims); (2) settle or compromise any Disputed Claim (except for Asbestos Claims) without any further notice to or action, order or approval by the Court; and (3) administer and adjust the Claims register to reflect any such settlements or compromises without any further notice to or action, order or approval by the Court. In the event that any objection filed by the Debtors or the Committee remains pending as of the Effective Date, the Liquidating Trustee will be deemed substituted for the Debtors or the Committee, as applicable, as the objecting party (except for Asbestos Claims).

The Liquidating Trust will be entitled to assert all of the Debtors' rights, claims, defenses, offsets, rights of recoupment, setoffs, rights of disallowance, subrogation, recharacterization and/or equitable subordination and counter-claims with respect to Claims (except for Asbestos Claims).

Liquidating Reichhold will have the authority to: 1) file, withdraw or litigate to judgment objections to and requests for estimation of Asbestos Claims; (2) settle or compromise any Disputed Claim that is an Asbestos Claim without any further notice to or action, order or approval by the Court; and (3) administer and adjust the Claims register to reflect any such settlements or compromises without any further notice to or action, order or approval by the Court.

2. <u>No Distributions Pending Allowance</u>

Notwithstanding any other provision of the Plan or the Liquidating Trust Agreement, no payments or Distributions will be made with respect to all or any portion of a Disputed Claim unless and until all objections to such Disputed Claim have been settled or withdrawn or have been determined by Final Order, and the Disputed Claim, or some portion thereof, has become an Allowed Claim. To the extent that a Claim is not a Disputed Claim but is held by a Holder that is or may be liable to Liquidating Reichhold or the Liquidating Trust on account of a Cause of Action, no payments or Distributions will be made with respect to all or any portion of such Claim unless and until such Claim and liability have been settled or withdrawn or have been determined by Final Order of the Court or such other court having jurisdiction over the matter.

3. <u>Disputed Claims Reserves</u>

On the Initial Distribution Date and on each subsequent Periodic Distribution Date, the Liquidating Trust will withhold on a Pro Rata basis from property that would otherwise be distributed to Holders of General Unsecured Claims entitled to Distributions under the Plan on such date, in a separate Disputed Claims Reserve, such amounts or property as may be necessary to equal one hundred percent (100%) of Distributions to which Holders of such Disputed General Unsecured Claims would be entitled under the Plan if such Disputed General Unsecured Claims were allowed in their Disputed Claims Amount. The Liquidating Trust may request, if necessary, estimation for any Disputed General Unsecured Claim that is contingent or unliquidated, or for which the Liquidating Trust determines to reserve less than the face amount.

The Liquidating Trust will withhold the applicable Disputed Claims Reserve with respect to such Claims based upon the estimated amount of each such Claim as estimated by the Court. If the Liquidating Trust elects not to request such an estimation from the Court with respect to a Disputed General Unsecured Claim that is contingent or unliquidated, the Liquidating Trust will withhold the applicable Disputed Claims Reserve based upon the good faith estimate of the amount of such General Unsecured Claim by the Liquidating Trust. If practicable, the Liquidating Trust will invest any Cash that is withheld as the Disputed Claims Reserve in an appropriate manner to ensure the safety of the investment, in accordance with the Liquidating Trust Agreement. Nothing in the Plan, the Disclosure Statement or the Liquidating Trust Agreement will be deemed to entitle the Holder of a Disputed General Unsecured Claim to postpetition interest on such Claim, however. The Liquidating Trustee will not be required to reserve more than $100,000 in the Disputed Claims Reserve with respect to all Asbestos Claims.

4. **Distributions After Allowance**

Payments and Distributions to Holders of Disputed Claims that ultimately become Allowed Claims will be made in accordance with provisions of the Liquidating Trust Agreement that govern Distributions to Holders of Allowed General Unsecured Claims and Holders of Allowed Administrative Claims, Allowed Priority Tax Claims and Allowed Priority Non-Tax Claims.

5. **De Minimis Distributions**

The Liquidating Trust will not be required to make any distributions to Holders of Allowed Claims aggregating less than fifty dollars ($50.00). When the aggregate amount of distributions held by the Liquidating Trustee for the benefit of a holder of a Claim exceeds $50.00, the Liquidating Trustee will distribute such distribution to such holder. If, at the time that the final Distribution under the Plan is to be made, the distribution(s) held by the Liquidating Trustee for the benefit of a holder of a Claim total less than $50.00, such funds will not be distributed to such holder, but rather, such Claims will be deemed expunged and such Distribution will vest in the Liquidating Trust. Cash that otherwise would be payable under the Plan to Holders of Liquidating Trust Interests but for Article VI.I.5 of the Plan will remain Liquidating Trust Assets to be used in accordance with the Liquidating Trust Agreement. Cash that otherwise would be payable under the Plan to Holders of Administrative Claims, Priority Tax Claims and Priority Non-Tax Claims but for Article VI.I.5 of the Plan will remain in the Administrative Claims Reserve.

6. **Fractional Cents**

Any other provision of the Plan notwithstanding, the Disbursing Agent will not be required to make Distributions or payments of fractional cents. Whenever any payment of a fraction of a cent under the Plan would otherwise be called for, the actual payment will reflect a rounding of such fraction to the nearest whole cent(up or down), with half cents being rounded down.

7. **Allocation of Plan Distributions Between Principal and Interest**

To the extent that any Allowed Claim entitled to a Distribution under the Plan is composed of indebtedness and accrued but unpaid interest thereon, such Distribution will, for all income tax purposes, be allocated to the principal amount of the Claim first and then, to the extent the consideration exceeds the principal amount of the Claim, to the portion of such Claim representing accrued but unpaid interest.

8. **Distribution Record Date**

The Disbursing Agent will have no obligation to recognize the transfer of or sale of any participation in any Allowed Claim that occurs after the close of business on the Distribution Record Date. Instead, the Disbursing Agent will be entitled to recognize and deal for all purposes under the Plan with only those record Holders stated on the official Claims register or the Debtors' Books and Records, as applicable, as of the close of business on the Distribution Record Date. This Article shall not apply to the holders of Senior Secured Notes whose Distributions will be made through the Senior Secured Notes Trustee.

IV. Treatment Of Executory Contracts And Unexpired Leases

A. Rejected Contracts and Leases

Except as otherwise provided in the Plan or in any contract, instrument, release or other agreement or document entered into in connection with the Plan, each of the Executory Contracts and Unexpired Leases to which any Debtor is a party will be deemed automatically rejected by the applicable Debtor as of the Effective Date, unless such contract or lease (i) previously has been assumed or rejected by the Debtors, (ii) expired or terminated pursuant to its own terms, (iii) is the subject of a motion to assume or reject pending before the Court as of the Confirmation Date or (iv) is identified on Exhibit E to the Plan as a Contract to be assumed or assumed/assigned to the Liquidating Trust; provided, however, that nothing contained in the Plan will constitute an admission by any Debtor that any such contract or lease is an Executory Contract or Unexpired Lease or that any Debtor or its successors and assigns has any liability thereunder; and, provided further, that the Debtors reserve their right, at any time before the Confirmation Date, to assume any Executory Contract or Unexpired Lease that was not already rejected prior to the Confirmation Date. The Confirmation Order will constitute an order of the Court approving the rejections described in Article VII.A of the Plan, pursuant to section 365 of the Bankruptcy Code, as of the Effective Date.

B. Products Insurance Policies

Notwithstanding anything in the Disclosure Statement, the Plan, the Confirmation Order or any other order of this Court to the contrary (including, without limitation, any other provision that purports to be preemptory or supervening or grants a release), on the Effective Date, each of the Products Insurance Policies will, as applicable, either be (i) deemed assumed to the extent such Products Insurance Policies were executory contracts of Reichhold pursuant to section 365 of the Bankruptcy Code or (ii) continued in accordance with its terms.

C. Director and Officer Insurance Policies and Agreements

The Debtors do not believe that the director and officer liability policies issued to, or insurance agreements entered into by, any Debtor prior to or after the Petition Date constitute executory contracts. To the extent that such insurance policies or agreements are considered to be Executory Contracts, they will be deemed assumed as of the Effective Date.

D. Assumption and Assignment of Executory Contracts

On the Effective Date, pursuant to section 365 of the Bankruptcy Code, the Debtors will assume and assign to the Liquidating Trust the Executory Contracts identified on Exhibit F to the Plan that are marked "to be assumed and assigned to the Liquidating Trust".

E. Rejection Damages Bar Date

If the rejection of an Executory Contract or Unexpired Lease pursuant to Article VII.A of the Plan gives rise to a Claim by the other party or parties to such contract or lease, such Claim will be forever barred and will not be enforceable against the applicable Debtor or its Estate, Liquidating Reichhold, the Liquidating Trust or their respective successors or properties unless a Proof of Claim is filed with the Court and served on counsel for the Liquidating Trust within thirty (30) days after service of notice of entry of the Confirmation Order.

F. Indemnification Obligations

Any obligations of the Debtors pursuant to their corporate charters and bylaws or agreements, including amendments, entered into any time prior to the Effective Date, to indemnify, reimburse or limit the liability of any Person pursuant to the Debtors' certificates of incorporation, bylaws, policy of providing employee indemnification, applicable state law or specific agreement in respect of any claims, demands, suits, causes of action or proceedings against such Persons based upon any act or omission related to such Persons' service with, for or on behalf of the Debtors prior to the Effective Date with respect to all present and future actions, suits and proceedings relating to the Debtors will survive confirmation of the Plan and except as set forth in the Plan, remain unaffected thereby, irrespective of whether such defense, indemnification, reimbursement or limitation of liability accrued or is owed in connection with an occurrence before or after the Petition Date; provided, however, that all monetary obligations under Article VII.C of the Plan will be limited solely to available insurance coverage and neither Liquidating Reichhold, the Liquidating Trust, the Liquidating Trustee nor any of their asset will be liable for any such obligations. Any Claim based on the Debtors' obligations set forth in Article VII.C of the Plan will not be a Disputed Claim or subject to any objection in either case by reason of section 502(e)(1)(B) of the Bankruptcy Code. The provision in the Plan for indemnification obligations will not apply to or cover any Claims, suits or actions against a Person that result in a final order determining that such Covered Person is liable for fraud, willful misconduct, gross negligence, bad faith, self-dealing or breach of the duty of loyalty.

G. Retiree Benefits

On October 20, 2015, the Debtors entered into separate settlement agreements with the Retiree Committee and United Steelworkers to terminate their retiree welfare plans and resolve all claims related thereto. Pursuant to those settlement agreements and subject to Court approval, the Debtors will terminate the retiree life and medical insurance programs at 11:59 p.m. on November 30, 2015. In connection with those settlements, the Debtors agreed to make settlement payments to the retirees in satisfaction of all claims against the Debtors. The Debtors have also made proposals to terminate retiree benefits consistent with the terms of the Retiree Committee and Steelworkers' settlements to the following unions representing retirees: (a) International Brotherhood of Teamsters (the "Teamsters"); (b) International Union of Painters and Allied Trades ("IUPA"); and (c) International Chemical Workers Union ("ICWU"). Despite the Debtors' repeated attempts to negotiate with those unions, the Teamsters, IUPA and ICWU failed to respond to the Debtors' proposal.

On October 27, 2015, the Debtors filed a motion pursuant to sections 105(a), 363 and 1114(e)(1)(B) of the Bankruptcy Code and Rule 9019 of the Bankruptcy Rules (i) authorizing the Debtors' entry into and approving the settlement agreements with the Steelworkers and Retiree Committee and (ii) approving termination of retiree benefits for the retired members of the Teamsters, IUPA and ICWU. The Court approved the motion pursuant to an order dated November 13, 2015 [Docket No. 1222].

V. Allowance And Payment Of Certain Administrative Claims

A. Professional Fee Claims

1. Final Fee Applications

All final requests for payment of Professional Fee Claims (the "Final Fee Applications") must be filed no later than forty-five (45) days after the Effective Date. Objections, if any, to Final Fee Applications of such Professionals must be filed and served on the Liquidating Trust, the Liquidating Trust Committee, the requesting Professional and the Office of the United States Trustee no later than twenty (20) days from the date on which each such Final Fee Application is served and filed. After notice and a hearing in accordance with the procedures established by the Bankruptcy Code and prior orders of the Court, the Allowed amounts of such Professional Fee Claims will be determined by the Court.

2. Employment of Professionals after the Effective Date

From and after the Effective Date, any requirement that professionals comply with sections 327 through 331 of the Bankruptcy Code or any order previously entered by the Court in seeking retention or compensation for services rendered or expenses incurred after such date will terminate.

3. Senior Secured Notes Trustee Fees

Nothing in the Plan will in any way affect or diminish the right of the Senior Secured Notes Trustee to assert the Senior Secured Notes Trustee Charging Lien against Distributions to

Holders of Senior Secured Noteholder Claims with respect to any unpaid Senior Secured Notes Trustee Fees.

B. Other Administrative Claims

All requests for payment of an Administrative Claim arising from April 2, 2015 through the Effective Date, other than Professional Fee Claims, must be filed with the Claims Agent and served on the Debtors or the Liquidating Trust, as applicable, by the date that falls on the thirtieth day (30th) day following the Effective Date. Unless Liquidating Reichhold, the Liquidating Trust or any other party in interest objects to an Administrative Claim by the Administrative Claims Objection Deadline, such Administrative Claim will be deemed Allowed in the amount requested. In the event that Liquidating Reichhold, the Liquidating Trust or any other party in interest objects to an Administrative Claim, the Court will determine the Allowed amount of such Administrative Claim.

VI. Effects Of Confirmation

A. Compromise and Settlement of Claims and Controversies

Pursuant to section 1123 of the Bankruptcy Code and Bankruptcy Rule 9019 and in consideration for the classification, Distributions, releases and other benefits provided pursuant to the Plan, on the Effective Date, the provisions of the Plan will constitute a good faith compromise and settlement of all Claims, Interests and controversies resolved pursuant to the Plan or relating to the contractual, legal and subordination rights that a Holder of a Claim or Interest may have with respect to any Claim or Interest, or any Distribution to be made on account of such Claim or Interest. The entry of the Confirmation Order will constitute the Court's approval of the compromise or settlement of all such Claims, Interests and controversies, as well as a finding by the Court that such compromise or settlement is in the best interests of the Debtors, their Estates and Holders of Claims and Interests and is fair, equitable and reasonable.

B. Binding Effect

The Plan will be binding upon and inure to the benefit of the Debtors, all present and former Holders of Claims and Interests, whether or not such Holders will receive or retain any property or interest in property under the Plan, and their respective successors and assigns, including, but not limited to, Liquidating Reichhold, the Liquidating Trust and all other parties in interest in the Chapter 11 Cases.

C. Discharge of the Debtors

Pursuant to section 1141(d)(3) of the Bankruptcy Code, Confirmation will not discharge Claims against the Debtors; provided, however, that no Claimholder or Interest Holder may, on account of such Claim or Interest, seek or receive any payment or other Distribution from, or seek recourse against, any Debtor, Liquidating Reichhold and/or their respective successors, assigns and/or property, except as expressly provided in the Plan.

D. Releases

1. Releases by the Debtors

As of the Effective Date, for good and valuable consideration, the adequacy of which is confirmed in the Plan, the Debtors, and any Person seeking to exercise the rights of the Debtors' Estates, including, without limitation, any successor to the Debtors, any Estate representative appointed or selected pursuant to section 1123(b)(3) of the Bankruptcy Code or the Liquidating Trust, whether pursuing an action derivatively or otherwise, will be deemed to forever release, waive and discharge all claims, obligations, suits, judgments, damages, demands, debts, rights, causes of action and liabilities whatsoever (other than for fraud, willful misconduct or gross negligence) in connection with or related to the Debtors, the Chapter 11 Cases or the Plan (other than the rights of the Debtors and the Liquidating Trustee to enforce the Plan and the contracts, instruments, releases and other agreements or documents delivered thereunder), whether liquidated or unliquidated, fixed or contingent, matured or unmatured, known or unknown, foreseen or unforeseen, then existing or thereafter arising, in law, equity or otherwise, that are based in whole or part on any act, omission, transaction, event or other occurrence taking place on or prior to the Confirmation Date, against (a) the Debtors, their Professionals and Court-retained agents (b) the Debtors' directors, officers and employees employed by or serving the Debtors on or after the Petition Date, (c) the Committee and its Professionals and, solely in their respective capacities as members or representatives of the Committee, each member of the Committee; provided, however, that nothing in Article X.D.1 of the Plan will be a waiver of any defense, offset or objection to any Claim filed against the Debtors and their Estates by any Person.

E. Exculpation and Limitation of Liability

None of (a) the Debtors, (b) Liquidating Reichhold, (c) the directors, officers or employees of any of the Debtors serving at any time during the pendency of the Chapter 11 Cases, (d) the professionals or Court-retained agents of the Debtors, (e) the Committee and its professionals and, solely in their respective capacities as members or representatives of the Committee, each member of the Committee, or (f) any of the successors or assigns of any of the parties identified in the foregoing clauses (a) through (e), will have or incur any liability to any Holder of a Claim or an Interest, or any other party in interest, or any of their respective members, directors, officers, employees, advisors, attorneys, professionals, agents, partners, stockholders or affiliates, or any of their respective successors or assigns, for any act or omission in connection with, relating to or arising out of, the Chapter 11 Cases, the formulation, negotiation or implementation of the Plan, the solicitation of acceptances of the Plan, the pursuit of Confirmation of the Plan, the Confirmation of the Plan, the consummation of the Plan, or the administration of the Plan or the property to be distributed under the Plan, except for acts or omissions which are the result of fraud, gross negligence or willful misconduct, and such parties in all respects will be entitled to reasonably rely upon the advice of counsel with respect to their duties and responsibilities under the Plan.

Notwithstanding any other provision of the Plan, no Holder of a Claim or an Interest, no other party in interest, none of their respective members, directors, officers, employees, advisors, attorneys, professionals, agents, partners, stockholders or affiliates, and none of their respective

successors or assigns, will have any right of action against (a) any of the Debtors, (b) Liquidating Reichhold, (c) the directors, officers or employees of any of the Debtors serving at any time during the pendency of the Chapter 11 Cases, (d) the professionals or Court-retained agents of the Debtors, (e) the members and professionals of the Committee, but only in their capacities as such, or (f) any of the successors or assigns of any of the parties identified in the foregoing clauses (a) through (e), for any act or omission in connection with, relating to or arising out of, the Chapter 11 Cases, the formulation, negotiation or implementation of the Plan, solicitation of acceptances of the Plan, the pursuit of Confirmation of the Plan, the Confirmation of the Plan, the consummation of the Plan, or the administration of the Plan or the property to be distributed under the Plan, except for acts or omissions which are the result of fraud, gross negligence or willful misconduct.

F. Injunction

Confirmation of the Plan will have the effect of, among other things, permanently enjoining (a) all Entities or Persons that have held, hold or may hold or have asserted, assert or may assert Claims against or Interests in the Estates with respect to any such Claim or Interest, and (b) respecting (vi)(A), (vi)(B), and (vi)(C) of Article X.F of the Plan, the Estates and the Liquidating Trust, from and after the Effective Date, from taking any of the following actions (other than actions to enforce any rights or obligations under the Plan): (i) commencing, conducting or continuing in any manner, directly or indirectly, any suit, action or other proceeding of any kind (including, without limitation, any proceeding in a judicial, arbitral, administrative or other forum) against or affecting the Estates, Liquidating Reichhold or the Liquidating Trust or any of its or their property; (ii) enforcing, levying, attaching (including, without limitation, any pre-judgment attachment), collecting or otherwise recovering by any manner or means, whether directly or indirectly, any judgment, award, decree or order against the Estates, Liquidating Reichhold or the Liquidating Trust or any of its or their property; (iii) creating, perfecting or otherwise enforcing in any manner, directly or indirectly, any encumbrance of any kind against the Estates, Liquidating Reichhold or the Liquidating Trust or any of its or their property; (iv) asserting any right of setoff, directly or indirectly, against any obligation due the Estates, Liquidating Reichhold or the Liquidating Trust or any of its or their property, except with respect to any right of setoff asserted prior to the entry of the Confirmation Order, whether asserted in a Proof of Claim or otherwise, or as otherwise contemplated or allowed by the Plan; (v) acting or proceeding in any manner, in any place whatsoever, that does not conform to or comply with the provisions of the Plan; and (vi) prosecuting or otherwise asserting (A) any Claim or Interest, including any right, claim or Cause of Action, released pursuant to the Plan, (B) any form of objection to any Claim that is Allowed by the Plan, or (C) asserting Avoidance Actions against any Holder of a Claim that is Allowed by the Plan. Notwithstanding any contrary suggestion in the Plan, the injunction contemplated by this Section will apply to any Asbestos Claim to the same extent such Claim is barred by the Bar Date Order. Additionally, unless otherwise explicitly stated in the Plan, the injunction contemplated by this Section will prohibit the assertion against the Liquidating Trust, the Liquidating Trustee, the Liquidating Trust Committee, of all Claims or Interests, if any, related to the Debtors, including Environmental Claims.

G. The Automatic Stay

Solely with respect to Asbestos Claims, the automatic stay imposed by section 362 of the Bankruptcy Code will be terminated as of the date that is 60 days after the Effective Date and, pursuant to section 108(c) of the Bankruptcy Code, the applicable statute of limitations with respect to any such Claim that did not expire prior to the Petition Date will cease to be tolled as of that date.

The automatic stay of Bankruptcy Code section 362(a) and the injunction set forth in Article X.F of the Plan, if and to the extent applicable, will be deemed lifted without further order of the Court, to permit Insurers to (a) handle, administer, defend, settle and/or pay (i) workers' compensation claims, whether arising prior to or subsequent to the Effective Date, (ii) any claim where a claimant asserts a direct claim against an Insurer under applicable law, and (iii) any claim for which an order has been entered by the Bankruptcy Court granting the claimant relief from the automatic stay or the injunction set forth in Article X.F of the Plan to proceed with its claim, (b) pay any and all costs in relation to each of the foregoing and (c) to the extent the Debtors, Liquidating Reichhold or the Liquidating Trust fail to pay and/or reimburse Insurers, as required by the Plan or Bankruptcy Code, for any of the amounts in relation to the foregoing claims and costs for which the insureds are liable under the Insurance Policies (and which shall not be released or discharged under the Plan or the Confirmation Order), Insurers may draw upon, hold and/or apply any collateral and/or security, including, without limitation letter of credit proceeds and paid loss deposit funds, provided by or on behalf of the Debtors therefor pursuant to the terms of the Insurance Policies and any existing letters of credit (and the agreements and documents related thereto); provided, however, that the Insurers will provide, on a quarterly basis, Liquidating Reichhold and the Liquidating Trust with a summary of all claims settled and all draws of any collateral and/or security, including, without limitation letter of credit proceeds and paid loss deposit funds and any existing letters of credit.

H. Compromises and Settlements

Pursuant to Bankruptcy Rule 9019(a), the Debtors may compromise and settle Claims (a) against them and (b) that they have against other Persons. The Debtors expressly reserve the right (with Court approval, following appropriate notice and opportunity for a hearing) to compromise and settle Claims against them and claims that they may have against other Persons up to and including the Effective Date.

After the Effective Date, such right will pass to Liquidating Reichhold or the Liquidating Trust, as applicable, and will be governed by the terms of Article VI.I of the Plan, the Liquidating Trust Agreement and the Products Insurance Cooperation Agreement, as applicable.

I. Satisfaction of Subordination Rights

All Claims against the Debtors and all rights and claims between or among Claimholders relating in any manner whatsoever to Distributions on account of Claims against the Debtors based upon any subordination rights, whether asserted or unasserted, legal or equitable, will be deemed satisfied by the Distributions under the Plan to Claimholders having such subordination rights, and such subordination rights will be deemed waived, released, discharged and terminated

as of the Effective Date. Distributions to the various Classes of Claims under the Plan will not be subject to levy, garnishment, attachment or like legal process by any Claimholder by reason of any subordination rights or otherwise, so that each Claimholder will have and receive the benefit of the Distributions in the manner set forth in the Plan.

J. ERISA Claims

Notwithstanding anything to the contrary in the Plan, any claim arising under Title I of the Employee Retirement Income Security Act of 1974, or ERISA, for breach of fiduciary duty or relating to a prohibited transaction with respect to the Reichhold, Inc. Retirement Plan shall not be discharged, released, or enjoined; provided, however, that any such claim against the Debtors for breach of fiduciary duty or relating to a prohibited transaction with respect to the Reichhold, Inc. Retirement Plan will be treated solely as an unsecured claim.

VII. Miscellaneous Provisions

A. Modifications and Amendments

The Debtors may alter, amend or modify the Plan or any Exhibits thereto under section 1127(a) of the Bankruptcy Code at any time prior to the Confirmation Date provided that the Debtors have received the prior written consent of the Committee, which consent will not unreasonably be withheld. After the Confirmation Date and prior to substantial consummation of the Plan as defined in section 1101(2) of the Bankruptcy Code, the Debtors may, under section 1127(b) of the Bankruptcy Code, institute proceedings in the Court to remedy any defect or omission or reconcile any inconsistencies in the Plan, the Disclosure Statement or the Confirmation Order, and such matters as may be necessary to carry out the purpose and effect of the Plan so long as such proceedings do not adversely affect the treatment of Holders of Claims under the Plan; provided, however, that prior notice of such proceedings will be served in accordance with the Bankruptcy Rules or order of the Court.

B. Payment of Statutory Fees

All fees payable through the Effective Date pursuant to 28 U.S.C. § 1930 will be paid on or as soon as practicable after the Effective Date. The Debtors, prior to the Effective Date, and the Liquidating Trust, from and after the Effective Date, will pay statutory fees to the U.S. Trustee in accordance with 28 U.S.C. § 1930 until the Chapter 11 Cases are closed or converted and/or the entry of final decrees. In addition, the Liquidating Trust will file post-confirmation quarterly reports or any pre-confirmation monthly operating reports not filed as of the Confirmation Hearing in conformance with the U.S. Trustee Guidelines. The U.S. Trustee will not be required to file a request for payment of its quarterly fees, which will be deemed an Administrative Claim against the Debtors and their Estates.

C. Revocation, Withdrawal or Non-Consummation

The Debtors reserve the right to revoke or withdraw the Plan as to any or all of the Debtors prior to the Confirmation Date and to file subsequent plans. If the Debtors revoke or withdraw the Plan as to any or all of the Debtors, or if Confirmation or consummation of the

Plan as to any or all of the Debtors does not occur, then, with respect to such Debtors, (a) the Plan will be null and void in all respects, (b) any settlement or compromise embodied in the Plan (including the fixing or limiting to an amount certain any Claim or Class of Claims), assumption or rejection of executory contracts or leases effected by the Plan, and any document or agreement executed pursuant to the Plan, will be deemed null and void, and (c) nothing contained in the Plan, and no acts taken in preparation for consummation of the Plan, will (i) constitute or be deemed to constitute a waiver or release of any Claims by or against, or any Interests in, such Debtors or any other Person, (ii) prejudice in any manner the rights of such Debtors or any other Person or (iii) constitute an admission of any sort by such Debtors or any other Person.

D. Plan Supplement(s)

Exhibits to the Plan not attached thereto will be filed in one or more Plan Supplements by the Plan Supplement Filing Date. Any Plan Supplement (and amendments thereto) filed by the Debtors will be deemed an integral part of the Plan and will be incorporated by reference as if fully set forth therein. Copies of case pleadings, including the Plan Supplements, also may be examined by any party in interest: (i) between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, excluding federal holidays, at the Office of the Clerk of the Court, 824 N. Market St., 3rd Floor, Wilmington, Delaware 19801; (ii) at the Debtors' case website (http://www.loganandco.com); or (iii) for a fee, at the Bankruptcy Court's website (http://www.deb.uscourts.gov). The documents contained in any Plan Supplements will be approved by the Court pursuant to the Confirmation Order.

ARTICLE V

VOTING REQUIREMENTS; ACCEPTANCE AND CONFIRMATION OF THE PLAN

A. General

The Bankruptcy Code requires that, in order to confirm the Plan, the Court must make a series of findings concerning the Plan and the Debtors, including that (i) the Plan has classified Claims in a permissible manner; (ii) the Plan complies with applicable provisions of the Bankruptcy Code; (iii) the Plan has been proposed in good faith and not by any means forbidden by law; (iv) the disclosure required by section 1125 of the Bankruptcy Code has been made; (v) the Plan has been accepted by the requisite votes of Holders of Claims (except to the extent that cramdown is available under section 1129(b) of the Bankruptcy Code); (vi) the Plan is feasible and confirmation is not likely to be followed by the liquidation or the need for further financial reorganization of the Debtors unless such liquidation or reorganization is proposed in the Plan; (vii) the Plan is in the "best interests" of all Holders of Claims in an Impaired Class by providing to such Holders on account of their Claims property of a value, as of the effective date of the Plan (the "Effective Date"), that is not less than the amount that such Holders would receive or retain in a chapter 7 liquidation, unless each Holder of a Claim in such Class has accepted the Plan; and (viii) all fees and expenses payable under 28 U.S.C. § 1930, as determined by the Court at the hearing on confirmation, have been paid or the Plan provides for the payment of such fees on the Effective Date.

B. Parties in Interest Entitled to Vote

Pursuant to the Bankruptcy Code, only Classes of Claims that are "impaired" (as defined in section 1124 of the Bankruptcy Code) under the Plan are entitled to vote to accept or reject the Plan. A Class is impaired if the legal, equitable or contractual rights to which the Claims of that Class entitled the Holders of such Claims are modified, other than by curing defaults and reinstating the Claims. Classes that are not impaired are not entitled to vote on the Plan and are conclusively presumed to have accepted the Plan. In addition, Classes that receive no distributions under the Plan are not entitled to vote on the Plan and are deemed to have rejected the Plan.

C. Classes Impaired and Entitled to Vote under the Plan

The following Classes are Impaired under the Plan and entitled to vote on the Plan:

Class	Claim	Status	Voting Right
3	General Unsecured Claims	Impaired	Entitled to Vote
4	Convenience Class Claims	Impaired	Entitled to Vote

Acceptances of the Plan are being solicited only from Holders of Claims in Classes 3 and 4 that will or may receive consideration under the Plan. Holders of Claims and Interests in Classes 5 and 6 are deemed to reject the Plan. Holders of Claims in Classes 1 and 2 are deemed to accept the Plan and are not entitled to vote.

D. Voting Procedures and Requirements

1. **Ballots**

The Solicitation Procedures Order sets November 10, 2015, as the record date for voting on the Plan (the "Record Date"). Accordingly, only Holders of record as of the Record Date that are otherwise entitled to vote under the Plan will receive a Ballot and may vote on the Plan.

In voting for or against the Plan, please use only the Ballot sent to you with this Disclosure Statement. If you are a Holder of a Claim in Classes 3 and 4 and did not receive a Ballot, if your Ballot is damaged or lost or if you have any questions concerning voting procedures, please contact the Voting Agent at RI@loganandco.com.

2. **Returning Ballots**

If you are entitled to vote to accept or reject the Plan, you should read carefully, complete, sign and return your Ballot, with original signature, in the enclosed envelope.

TO BE COUNTED, YOUR BALLOT WITH YOUR ORIGINAL SIGNATURE INDICATING YOUR ACCEPTANCE OR REJECTION OF THE PLAN MUST BE RECEIVED NO LATER THAN **4:00 P.M. (EASTERN TIME) ON JANUARY 4, 2016** (THE "VOTING DEADLINE").

3. **Voting**

Pursuant to section 105(a) of the Bankruptcy Code, Bankruptcy Rules 2002(a)(7) and 3003(c)(2) and the Bar Date Order, any creditors whose claims (a) are scheduled in the Debtors' Schedules as disputed, contingent or unliquidated and which are not the subject of a timely-filed proof of claim, or a proof of claim deemed timely filed with the Bankruptcy Court pursuant to either the Bankruptcy Code or any order of the Court, or otherwise deemed timely filed under applicable law; or (b) are not scheduled and are not the subject of a timely-filed proof of claim, or a proof of claim deemed timely filed with the Bankruptcy Court pursuant to either the Bankruptcy Code or any order of the Court, or otherwise deemed timely filed under applicable law (the "Non-Voting Claims"), will be denied treatment as creditors with respect to such claims for purposes of (a) voting on the Plan, and (b) receiving notices, other than by publication, regarding the Plan.

For purposes of voting, the amount of a Claim used to calculate acceptance or rejection of the Plan under section 1126 of the Bankruptcy Code will be determined in accordance with the following hierarchy:

(a) if an order has been entered by the Court determining the amount of such Claim, whether pursuant to Bankruptcy Rule 3018 or otherwise, then in the amount prescribed by the order;

(b) if no such order has been entered, then in the liquidated amount contained in a timely-filed proof of claim that is not the subject of an objection as of the Record Date;

(c) if no such proof of claim has been timely filed, then in the liquidated, noncontingent and undisputed amount contained in the Debtors' Schedules; and

(d) if the claim is the subject of an objection by the Record Date, then in accordance with the relief requested in such objection.

For purposes of voting, the following conditions will apply to determine the amount and/or classification of a Claim:

(a) if a claim is partially liquidated and partially unliquidated, such claim shall be allowed for voting purposes only in the liquidated amount; provided, however, that such liquidated amount in whole or in part is neither contingent nor estimated (if the entire liquidated amount is either contingent or estimated then the claim shall be allowed for voting purposes in the amount of $1.00, subject to the right of such holder to file a Rule 3018(a) Motion (as such term is defined in the Solicitation Procedures Order)); provided further, however, that such holder of a prepetition timely filed proof of claim that is entitled to vote in the amount of $1.00 shall not be included in the Convenience Class; and

(b) the holder of a prepetition timely-filed proof of claim that is wholly unliquidated general unsecured amount, wholly contingent, disputed and/or unknown amount, and is not the subject of an objection as of the Record Date, is entitled to vote in the amount of $1.00, subject to the right of such holder to file a Rule 3018(a) Motion (as such term is defined in the Solicitation Procedures Order); provided, however, that such holder of a prepetition timely filed proof of claim that is entitled to vote in the amount of $1.00 shall not be included in the Convenience Class.

Pursuant to the Solicitation Procedures Order, the deadline for filing and serving motions pursuant to Bankruptcy Rule 3018(a) seeking temporary allowance of claims for the purpose of accepting or rejecting the Plan will be December 28, 2015 at 4:00 p.m. (Eastern Time) (the "Rule 3018(a) Motion Deadline").

E. Acceptance of Plan

As a condition to confirmation, the Bankruptcy Code requires that each class of impaired claims vote to accept the Plan, except under certain circumstances. See "Confirmation Without Necessary Acceptances; Cramdown" below. A plan is accepted by an impaired class of claims if holders of at least two-thirds in dollar amount and more than one-half in number of claims of those that vote in such class vote to accept the plan. Only those holders of claims who actually vote on the Plan count in these tabulations. Holders of claims who fail to vote are not counted as either accepting or rejecting a plan.

In addition to this voting requirement, section 1129 of the Bankruptcy Code requires that a plan be accepted by each holder of a claim or interest in an impaired class or that the plan otherwise be found by a court to be in the best interests of each holder of a claim or interest in such class. See "Best Interests Test" below. Moreover, each impaired class must accept the plan for the plan to be confirmed without application of the "fair and equitable" and "unfair discrimination" tests set forth in section 1129(b) of the Bankruptcy Code discussed below. See "Confirmation Without Necessary Acceptances; Cramdown" below.

F. Confirmation Without Necessary Acceptances; Cramdown

In the event that any impaired class of claims or interests does not accept a plan, a debtor nevertheless may move for confirmation of the plan. A plan may be confirmed, even if it is not accepted by all impaired classes, if the plan has been accepted by at least one impaired class of claims, and the plan meets the "cramdown" requirements set forth in section 1129(b) of the Bankruptcy Code. Section 1129(b) of the Bankruptcy Code requires that a court find that a plan (i) "does not discriminate unfairly" and (ii) is "fair and equitable," with respect to each non-accepting impaired class of claims or interests.

Here, because Classes 5 and 6 are deemed to reject the Plan, the Debtors will seek confirmation of the Plan from the Court by satisfying the "cramdown" requirements set forth in section 1129(b) of the Bankruptcy Code. The Debtors believe that such requirements are satisfied as no Claim or Interest Holder junior to those in Classes 5 and 6 will receive any property under the Plan.

1. **No Unfair Discrimination**

A plan "does not discriminate unfairly" if (a) the legal rights of a nonaccepting class are treated in a manner that is consistent with the treatment of other classes whose legal rights are similar to those of the nonaccepting class, and (b) no class receives payments in excess of that which it is legally entitled to receive for its claims or interests. The Debtors believe that under the Plan all impaired Classes of Claims and Interests are treated in a manner that is consistent with the treatment of other Classes of Claims and Interests that are similarly situated, if any, and no class of Claims or Interests will receive payments or property with an aggregate value greater than the aggregate value of the Allowed Claims or Allowed Interests in such Class. Accordingly, the Debtors believe the Plan does not discriminate unfairly as to any Impaired Class of Claims or Interests.

2. **Fair and Equitable Test**

With respect to a dissenting class of claims or interests, the "fair and equitable" standard requires that a plan provide that either the claims or interests in each class received everything to which they are legally entitled or that classes junior in priority to the class receive nothing. The strict requirement of the allocation of full value to dissenting classes before any junior class can receive distribution is known as the "absolute priority rule."

The Bankruptcy Code establishes different "fair and equitable" tests for holders of secured claims, unsecured claims and interests, which may be summarized as follows:

a. Secured Claims. Either (i) each holder of a claim in an impaired class of secured claims retains its liens securing its secured claim and it receives on account of its secured claim deferred cash payments having a present value equal to the amount of its allowed secured claim, (ii) each holder of a claim in an impaired class of secured claims realizes the indubitable equivalent of its allowed secured claim or (iii) the property securing the claim is sold free and clear of liens, with such liens to attach to the proceeds and the treatment of such liens on proceeds as provided in clause (i) or (ii) of this subparagraph.

b. Unsecured Claims. Either (i) each holder of a claim in an impaired class of unsecured claims receives or retains under the plan property of a value equal to the amount of its allowed claim or (ii) the holders of claims and interests that are junior to the claims of the dissenting class will not receive any property under the Chapter 11 plan, subject to the applicability of the judicial doctrine of contributing new value.

c. Equity Interests. Either (i) each holder of an equity interest in an impaired class of interests will receive or retain under the Chapter 11 plan property of a value equal to the greater of (a) the fixed liquidation preference or redemption price, if any, of such stock or (b) the value of the stock or (ii) the holders of interests that are junior to the stock will not receive any property under the Chapter 11 plan, subject to the applicability of the judicial doctrine of contributing new value.

As discussed above, the Debtors believe that the distributions provided under the Plan satisfy the absolute priority rule.

ARTICLE VI

FEASIBILITY AND BEST INTERESTS OF CREDITORS

A. Best Interests Test

Before the Plan may be confirmed, the Court must find the Plan provides, with respect to each Impaired Class, that each Holder of a Claim in such Class either (i) has accepted the Plan or (ii) will receive or retain under the Plan property of a value, as of the Effective Date, that is not less than the amount such Holder would receive or retain if the Debtors liquidated under chapter 7 of the Bankruptcy Code.

In chapter 7 liquidation cases, unsecured creditors and equity interest holders of a debtor are paid from available assets generally in the following order, with no lower class receiving any payments until all amounts due to senior classes have been paid fully or payment has been provided for:

- Secured creditors (to the extent of the value of their collateral).
- Priority creditors.
- Unsecured creditors.
- Debts expressly subordinated by its terms or by order of the Bankruptcy Court.
- Equity interest holders.

This is a liquidating plan. In any event, whether by the Liquidating Trust, or a chapter 7 trustee, the Debtors' Estates' assets will be liquidated. Accordingly, there is no reorganization value to be calculated, or distribution scenarios related thereto. In addition, the activities of the Liquidating Trustee after the Effective Date are the very same ones that would be pursued by a chapter 7 trustee. However, in a chapter 7 liquidation case, a chapter 7 trustee may seek to charge statutory fees of up to 3% of disbursements. Additionally, it is likely that a chapter 7 trustee will retain counsel who would likely be required to spend a significant amount of time and expense becoming familiar with the case – time and expense that would not be required if the Plan is confirmed. Moreover, the value of any of sales of the Surplus Properties would likely be less in a chapter 7 proceeding because purchasers would be more inclined to request a discount.

After careful review of the estimated recoveries in a chapter 11 liquidation scenario and a chapter 7 liquidation scenario, the Debtors have concluded that recoveries to Creditors will be maximized by completing the liquidation of any remaining assets of the Debtors under chapter 11 of the Bankruptcy Code and making distributions pursuant to the Plan. A copy of an analysis of creditor recoveries in a chapter 7 proceeding is attached as Exhibit B. The Debtors believe that the Debtors' Estates have value that would not be fully realized by Creditors in a chapter 7 liquidation primarily because, among other things, (i) additional administrative expenses would

be incurred in a chapter 7 liquidation, specifically those of a chapter 7 trustee charging statutory fees of up to 3% of disbursements and any costs of counsel to the chapter 7 trustee to become familiar with the facts and circumstances of these cases, and (ii) the additional delay in distributions that would occur if the Debtors' chapter 11 cases were converted to a case under chapter 7.

B. Feasibility

Section 1129(a)(11) of the Bankruptcy Code requires that confirmation of the Plan is not likely to be followed by the liquidation, or the need for further financial reorganization, of the Debtors or any successors to the Debtors under the Plan, unless such liquidation or reorganization is proposed in the Plan. The Plan provides for the distribution of all of the Debtors' assets to either the Collateral Agent or the Liquidating Trust, and for distributions of Cash from the Liquidating Trust to Creditors in accordance with the terms of the Liquidating Trust Agreement. The Debtors will not be conducting any business operations after the Effective Date.

As such, provided that the Plan is confirmed and consummated, the Estates will no longer exist to be subject to future reorganization or liquidation. Accordingly, the Debtors believe that the Plan is feasible and meets the requirements of section 1129(a)(11) of the Bankruptcy Code.

ARTICLE VII

EFFECT OF CONFIRMATION

A. Binding Effect of Confirmation

Confirmation will bind the Debtors and all Holders of Claims and Interests to the provisions of the Plan, whether or not the Claim or Interest of any such Holder is Impaired under the Plan and whether or not any such Holder of a Claim or Interest has accepted the Plan.

B. Good Faith

Confirmation of the Plan will constitute a finding that: (i) the Plan has been proposed in good faith and in compliance with applicable provisions of the Bankruptcy Code; and (ii) all solicitations of acceptances or rejections of the Plan have been in good faith and in compliance with applicable provisions of the Bankruptcy Code.

ARTICLE VIII

CERTAIN RISK FACTORS TO BE CONSIDERED

THE PLAN AND ITS IMPLEMENTATION ARE SUBJECT TO CERTAIN RISKS, INCLUDING, BUT NOT LIMITED TO, THE RISK FACTORS SET FORTH BELOW. HOLDERS OF CLAIMS WHO ARE ENTITLED TO VOTE ON THE PLAN SHOULD READ AND CAREFULLY CONSIDER THE RISK FACTORS, AS WELL AS THE OTHER INFORMATION SET FORTH IN THIS DISCLOSURE STATEMENT AND THE PLAN, BEFORE DECIDING WHETHER TO VOTE TO ACCEPT OR REJECT THE PLAN.

These risk factors should not, however, be regarded as constituting the only risks involved in connection with the Plan and its implementation. No representations concerning or related to the Debtors, the Chapter 11 Cases or the Plan are authorized by the Court or the Bankruptcy Code, other than as set forth in this Disclosure Statement. Any representations or inducements made to secure your acceptance or rejection of the Plan that are other than as contained in, or included with, this Disclosure Statement should not be relied upon by you in arriving at your decision.

A. Plan May Not Be Accepted

There can be no assurance that the requisite acceptances to confirm the Plan will be obtained. Thus, while the Debtors believe the Plan is confirmable under the standards set forth in section 1129 of the Bankruptcy Code, there is no guarantee that the Plan will be accepted by the requisite Classes entitled to vote on the Plan.

B. Certain Bankruptcy Law Considerations

Even if the Holders of Claims who are entitled to vote accept the Plan, the Court, which may exercise substantial discretion as a court of equity, may choose not to confirm the Plan. Section 1129 of the Bankruptcy Code requires, among other things, that the value of distributions to dissenting Holders of Claims or Interests may not be less than the value such Holders would receive if the Debtors were liquidated under chapter 7 of the Bankruptcy Code. Although the Debtors believe the Plan meets such requirement, there can be no assurance the Court will reach the same conclusion.

C. Distributions to Holders of Allowed Claims Under The Plan

Projected distributions are based upon good faith estimates of the total amount of Claims ultimately Allowed and the funds available for distribution. Both the actual amount of Allowed Claims in a particular Class and the funds available for distribution to such Class may differ from the Debtors' estimates. If the total amount of Allowed Claims in a Class is higher than the Debtors' estimates, or the funds available for distribution to such Class are lower than the Debtors' estimates, the percentage recovery to Holders of Allowed Claims in such Class will be less than projected.

Further, although the Avoidance Actions are being transferred to the Liquidating Trust, there is no guarantee that the Liquidating Trust will be able to obtain any recoveries on account of such actions. Litigation is inherently speculative and uncertain in nature and no creditor should rely upon the potential for recovery by these actions as a basis for recovery on account of their Allowed General Unsecured Claim.

Moreover, a substantial amount of time may elapse between the Effective Date and the receipt of distributions because of the time required to achieve recovery of certain assets and final resolution of Disputed Claims.

D. Conditions Precedent to Consummation of the Plan

The Plan provides for certain conditions that must be satisfied (or waived) prior to confirmation of the Plan and for certain other conditions that must be satisfied (or waived) prior to the Effective Date. As of the date of this Disclosure Statement, there can be no assurance that any or all of the conditions in the Plan will be satisfied (or waived). Accordingly, there can be no assurance that the Plan will be confirmed by the Court. Further, if the Plan is confirmed, there can be no assurance that the Plan will be consummated.

E. Certain Tax Considerations

There are a number of material income tax considerations, risks and uncertainties associated with consummation of the Plan. Holders of Claims and other interested parties should read carefully the discussion of certain federal income tax consequences of the Plan set forth below.

ARTICLE IX

CERTAIN FEDERAL INCOME TAX CONSEQUENCES OF THE PLAN

The following discussion is a summary of certain U.S. federal income tax consequences of the Plan to the Debtors and to Holders of Claims and Interests. This discussion is based on the Internal Revenue Code of 1986, as amended (the "Tax Code"), Treasury Regulations promulgated and proposed thereunder, judicial decisions and published administrative rules and pronouncements of the Internal Revenue Service ("IRS"), all as in effect on the date hereof.

Due to the complexity of certain aspects of the Plan, the lack of applicable legal precedent, the possibility of changes in the law, the differences in the nature of the Claims, each Holder's status and method of accounting and the potential for disputes as to legal and factual matters with the IRS, the tax consequences described herein are uncertain. No legal opinions have been requested from counsel with respect to any of the tax aspects of the Plan and no rulings have been or will be requested from the IRS with respect to the any of the issues discussed below. Further, legislative, judicial or administrative changes may occur, perhaps with retroactive effect, which could affect the accuracy of the statements and conclusions set forth below as well as the tax consequences to the Debtors and the Holders of Claims and Interests.

This discussion does not purport to address all aspects of U.S. federal income taxation that may be relevant to the Debtors or the Holders of Claims or Interests in light of their personal circumstances, nor does the discussion deal with tax issues with respect to taxpayers subject to special treatment under the U.S. federal income tax laws (including, for example, insurance companies, financial institutions, real estate investment trusts, tax-exempt organizations, small business investment companies, regulated investment companies, foreign taxpayers, persons whose functional currency is not the U.S. dollar, persons subject to the alternative minimum tax, and persons holding Claims or Interests as part of a "straddle," "hedge," "constructive sale" or "conversion transaction" with other investments). This discussion does not address the tax consequences to Holders of Claims who did not acquire such Claims at the issue price on original issue. No aspect of foreign, state, local or estate and gift taxation is addressed.

EACH HOLDER OF A CLAIM OR INTEREST IS URGED TO CONSULT WITH SUCH HOLDER'S TAX ADVISORS CONCERNING THE U.S. FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX CONSEQUENCES OF THE PLAN.

A. <u>Tax Consequences to the Debtors</u>

This Article will be supplemented prior to the Disclosure Statement Hearing.

Pursuant to the Tax Code and subject to certain exceptions, a taxpayer generally must recognize income from the cancellation of indebtedness ("COD Income") to the extent that such taxpayer's indebtedness is discharged for an amount less than the indebtedness' adjusted issue price determined in the manner described below. Generally, the amount of COD Income, subject to certain statutory and judicial exceptions, is the excess of (i) the adjusted issue price of the discharged indebtedness less (ii) the sum of the fair market value (determined at the date of the exchange) of the consideration, if any, given in exchange for such discharged indebtedness.

Section 108(a)(l)(A) of the Tax Code provides an exception to the recognition of COD Income where a taxpayer discharging indebtedness is under the jurisdiction of a court in a case under title 11 of the Bankruptcy Code and where the discharge is granted, or is effected pursuant to a plan approved, by a U.S. Bankruptcy Court (the "Bankruptcy Exception"). Under the Bankruptcy Exception, instead of recognizing COD Income, the taxpayer is required, pursuant to Section 108(b) to reduce certain of that taxpayer's tax attributes to the extent of the amount of COD Income. The attributes of the taxpayer generally are reduced in the following order: net operating losses, general business and minimum tax credit carryforwards, capital loss carryforwards, the basis of the taxpayer's assets and, finally, foreign tax credit carryforwards (collectively, "Tax Attributes"). If the amount of COD Income exceeds the amount of Tax Attributes available to be reduced, the excess still is excluded from income. Pursuant to Section 108(b)(4)(A), the reduction of Tax Attributes does not occur until the end of the taxable year after such Tax Attributes have been applied to determine the tax in the year of discharge or, in the case of asset basis reduction, the first day of the taxable year following the taxable year in which the COD Income is realized. Section 108(e)(2) provides a further exception to the recognition of COD Income upon the discharge of debt, providing that a taxpayer will not recognize COD Income to the extent that the taxpayer's satisfaction of the debt would have given rise to a deduction for United States federal income tax purposes.

Pursuant to Treas Regs section 1.1502-19(a)(2) and related authority for taxpayers who file consolidated returns, it is possible that the deemed mergers described herein potentially could trigger a recapture of any excess loss account held by a parent entity with respect to a subsidiary entity. The possibility exists given the substantial losses incurred by the Debtors. There do not appear, however, to be excess loss accounts with respect to the Debtors after taking into account amounts contributed to the various subsidiaries which for tax purposes appear to be more appropriately classified as capital rather than debt. Moreover, (1) the deemed merger steps described herein may have the effect of eliminating excess loss accounts, if any, and (2) it appears that the Debtors have sufficient net operating losses for regular federal tax purposes to absorb any gain recognition due to excess loss accounts, if any.

B. Tax Consequences to Creditors

1. Holders of Claims

Generally, a Holder of a Claim should in most, but not all circumstances, recognize gain or loss equal to the difference between the "amount realized" by such Holder in exchange for its Claim and such Holder's adjusted tax basis in the Claim. The "amount realized" is equal to the sum of the cash and the fair market value of any other consideration received under a plan of reorganization in respect of a Holder's Claim. The tax basis of a Holder in a Claim will generally be equal to the Holder's cost. To the extent applicable, the character of any recognized gain or loss (*e.g.*, ordinary income, or short-term or long-term capital gain or loss) will depend upon the status of the Holder, the nature of the Claim in the Holder's hands, the purpose and circumstances of its acquisition, the Holder's holding period of the Claim, and the extent to which the Holder previously claimed a deduction for the worthlessness of all or a portion of the Claim. Generally, if the Claim is a capital asset in the Holder's hands, any gain or loss realized generally will be characterized as capital gain or loss, and will constitute long-term capital gain or loss if the Holder has held such Claim for more than one year.

A Holder who received Cash (or potentially other consideration) in satisfaction of its Claims may recognize ordinary income or loss to the extent that any portion of such consideration is characterized as accrued interest. A Holder who did not previously include in income accrued but unpaid interest attributable to its Claim, and who receives a distribution on account of its Claim pursuant to the Plan, will be treated as having received interest income to the extent that any consideration received is characterized for United States federal income tax purposes as interest, regardless of whether such Holder realizes an overall gain or loss as a result of surrendering its Claim. A Holder who previously included in its income accrued but unpaid interest attributable to its Claim should recognize an ordinary loss to the extent that such accrued but unpaid interest is not satisfied, regardless of whether such Holder realizes an overall gain or loss as a result of the distribution it may receive under the Plan on account of its Claim.

2. Non-United States Persons

A Holder of a Claim that is a non-United States Person generally will not be subject to United States federal income tax with respect to property (including money) received in exchange for such Claim pursuant to the Plan, unless (i) such Holder is engaged in a trade or business in the United States to which income, gain or loss from the exchange is "effectively connected" for United States federal income tax purposes, or (ii) if such Holder is an individual, such Holder is present in the United States for 183 days or more during the taxable year of the exchange and certain other requirements are met.

C. Tax Treatment of the Liquidating Trust

Upon the Effective Date, the Liquidating Trust will be established for the benefit of Holders of Allowed General Unsecured Claims, whether Allowed on or after the Effective Date.

1. **Classification of the Liquidating Trust**

The Liquidating Trust is intended to qualify as a liquidating trust for federal income tax purposes. In general, a liquidating trust is not a separate taxable entity but rather is treated for federal income tax purposes as a "grantor" trust (*i.e.*, a pass-through entity). The IRS, in Revenue Procedure 94-45, 1994-2 C.B. 684, set forth the general criteria for obtaining an IRS ruling as to the grantor trust status of a liquidating trust under a Chapter 11 plan. The Liquidating Trust has been structured with the intention of complying with such general criteria. Pursuant to the Plan, and in conformity with Revenue Procedure 94-45, all parties (including the Liquidating Trustee and the Holders of beneficial interests in the Liquidating Trust) are required to treat for federal income tax purposes the Liquidating Trust as a grantor trust of which the Holders of Allowed Claims are the owners and grantors. While the following discussion assumes that the Liquidating Trust would be so treated for federal income tax purposes, no ruling has been requested from the IRS concerning the tax status of the Liquidating Trust as a grantor trust. Accordingly, there can be no assurance that the IRS would not take a contrary position to the classification of the Liquidating Trust as a grantor trust. If the IRS were to challenge successfully such classification, the federal income tax consequences to the Liquidating Trust and the Holders of Claims could vary from those discussed herein.

2. **General Tax Reporting by the Trust and Beneficiary**

For all federal income tax purposes, all parties (including the Liquidating Trustee and the Holders of beneficial interests in the Liquidating Trust) will be required to treat the transfer of assets to the Liquidating Trust, in accordance with the terms of the Plan, as a transfer of those assets directly to the Holders of Allowed General Unsecured Claims followed by the transfer of such assets by such Holders to the Liquidating Trust. Consistent therewith, all parties are required to treat the Liquidating Trust as a grantor trust of which such Holders are to be owners and grantors. Thus, such Holders (and any subsequent Holders of interests in the Liquidating Trust) will be treated as the direct owners of an undivided beneficial interest in the assets of the Liquidating Trust for all federal income tax purposes. Accordingly, each Holder of a beneficial interest in the Liquidating Trust will be required to report on its federal income tax return(s) the Holder's allocable share of all income, gain, loss, deduction or credit recognized or incurred by the Liquidating Trust.

The federal income tax reporting obligation of a Holder of a beneficial interest in the Liquidating Trust is not dependent upon the Liquidating Trust distributing any cash or other proceeds. Therefore, a Holder of a beneficial interest in the Liquidating Trust may incur a federal income tax liability regardless of the fact that the Liquidating Trust has not made, or will not make, any concurrent or subsequent distributions to the Holder. If a Holder incurs a federal tax liability but does not receive distributions commensurate with the taxable income allocated to it in respect of its beneficial interests in the Liquidating Trust it holds, the Holder may be allowed a subsequent or offsetting loss.

The Liquidating Trustee will file tax returns with the IRS for the Liquidating Trust as a grantor trust pursuant to Treasury Regulations section 1.671-4(a). The Liquidating Trustee will also send to each Holder of a beneficial interest in the Liquidating Trust a separate statement

setting forth the Holder's share of items of income, gain, loss, deduction or credit and will instruct the Holder to report such items on its federal income tax return.

All payments to Creditors and Interest Holders are subject to any applicable withholding (including employment tax withholding). Under the Internal Revenue Code, interest, dividends and other reportable payments may, under certain circumstances, be subject to "backup withholding" then in effect. Backup withholding generally applies if the Holder (a) fails to furnish his or her social security number or other taxpayer identification number ("TIN"), (b) furnishes an incorrect TIN, (c) fails properly to report interest or dividends, or (d) under certain circumstances, fails to provide a certified statement, signed under penalty of perjury, that the TIN provided is his correct number and that he is not subject to backup withholding. Backup withholding is not an additional tax but merely an advance payment, which may be refunded to the extent it results in an overpayment of tax if an appropriate refund claim is filed with the IRS. Certain persons are exempt from backup withholding, including, in certain circumstances, corporations and financial institutions.

3. **Allocations of Taxable Income and Loss**

Allocations of taxable income of the Liquidating Trust among Holders of Claims will be determined by reference to the manner in which an amount of cash equal to such taxable income would be distributed (were such cash permitted to be distributed at such time) if, immediately prior to such deemed distribution, the Liquidating Trust had distributed all of its respective assets to the Holders of the beneficial interests in the Liquidating Trust, adjusted for prior taxable income and loss and taking into account all prior and concurrent distributions from the Liquidating Trust. Similarly, taxable loss of the Liquidating Trust will be allocated by reference to the manner in which an economic loss would be borne immediately after a liquidating distribution of the remaining Liquidating Trust assets.

After the Effective Date, any amount a Holder receives as a distribution from the Liquidating Trust in respect of its beneficial interest in the Liquidating Trust should not be included, for federal income tax purposes, in the Holder's amount realized in respect of its Allowed Claim but should be separately treated as a distribution received in respect of such Holder's beneficial interest in the Liquidating Trust.

In general, a Holder's aggregate tax basis in its undivided beneficial interest in the assets transferred to the Liquidating Trust will equal the fair market value of such undivided beneficial interest as of the Effective Date and the Holder's holding period in such assets will begin the day following the Effective Date. Distributions to any Holder of an Allowed Claim will be allocated first to the original principal portion of such Claim as determined for federal tax purposes, and then, to the extent the consideration exceeds such amount, to the remainder of such Claim. However, there is no assurance that the IRS will respect such allocation for federal income tax purposes.

The tax book value of the Liquidating Trust assets for this purpose will equal their fair market value on the Effective Date, adjusted in accordance with tax accounting principles prescribed by the Tax Code, applicable Treasury Regulations, and other applicable administrative and judicial authorities and pronouncements. Uncertainties with regard to federal

income tax consequences of the Plan may arise due to the inherent nature of estimates of value that will impact tax liability determinations.

As soon as practicable after the Effective Date, the Liquidating Trustee (to the extent that it deems it necessary or appropriate in the reasonable exercise of its discretion) will, in good faith, value the Liquidating Trust Assets, and will apprise the Holders of beneficial interests in the Liquidating Trust of such valuation. The valuation is required to be used consistently by all parties (including the Debtors, the Trustee and the Holders) for all federal income tax purposes. The Court will resolve any dispute regarding the valuation of the Assets.

The Liquidating Trust's taxable income will be allocated to the Holders of beneficial interests in the Liquidating Trust in accordance with each such Holder's Pro Rata share of the Liquidating Trust's interests. The character of items of income, deduction and credit to any Holder and the ability of such Holder to benefit from any deductions or losses may depend on the particular situation of such Holder.

Events subsequent to the date of this Disclosure Statement, such as the enactment of additional tax legislation, could also change the federal income tax consequences of the Plan and the transactions contemplated thereunder.

D. Importance of Obtaining Professional Tax Assistance

THE FOREGOING DISCUSSION IS INTENDED ONLY AS A SUMMARY OF CERTAIN INCOME TAX CONSEQUENCES OF THE PLAN. THE ABOVE DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. THE TAX CONSEQUENCES ARE IN MANY CASES UNCERTAIN AND MAY VARY DEPENDING ON A CLAIM HOLDER'S PARTICULAR CIRCUMSTANCES. ACCORDINGLY, CLAIM HOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS ABOUT THE UNITED STATES FEDERAL, STATE AND LOCAL, AND APPLICABLE FOREIGN INCOME AND OTHER TAX CONSEQUENCES OF THE PLAN.

ARTICLE X

RECOMMENDATION AND CONCLUSION

This Disclosure Statement was approved by the Court after notice and a hearing. The Court has determined that this Disclosure Statement contains information adequate to permit holders of Claims to make an informed judgment about the Plan. Such approval, however, does not mean that the Court recommends either acceptance or rejection of the Plan.

The Debtors believe that confirmation and consummation of the Plan is in the best interests of the Debtors, their estates and their creditors. The Plan provides for an equitable distribution to creditors. The Debtors believe that any alternative to confirmation of the Plan, such as liquidation under chapter 7 of the Bankruptcy Code, could result in significant delay, litigation and additional costs, as well as a reduction in the distributions to Holders of Claims in certain Classes. Consequently, the Debtors urge all eligible Holders of Impaired Claims to vote to ACCEPT the Plan, and to complete and return their Ballots so that they will be RECEIVED by the Voting Agent on or before the Voting Deadline.

THIS DISCLOSURE STATEMENT HAS NOT BEEN APPROVED BY THE BANKRUPTCY COURT AS CONTAINING ADEQUATE INFORMATION WITHIN THE MEANING OF SECTION 1125(a) OF THE BANKRUPTCY CODE. THE INFORMATION CONTAINED HEREIN IS SUBJECT TO COMPLETION OR AMENDMENT.

I. INTRODUCTION

This First Amended Disclosure Statement (the "Disclosure Statement") has been prepared by Thorpe Insulation Company, a California corporation ("Thorpe"), and Pacific Insulation Company ("Pacific"), a California corporation (together, the "Debtors"). The purpose of this Disclosure Statement is to provide the holders of Claims against and Equity Interests in the Debtors with adequate information to make an informed judgment about the *First Amended Joint Plan of Reorganization of Thorpe Insulation Company and Pacific Insulation Company Under Chapter 11 of the Bankruptcy Code*, dated July 24, 2008 (the "Plan"), before determining whether to object to the Plan and before exercising their right to vote for acceptance or rejection of the Plan. The Debtors, the Official Committees of Unsecured Creditors of the Debtors, and the Future Claims Representative of each of the Debtors are the Proponents of the Plan.

An acceptance or rejection of the Plan must be in writing and may only be made by completing the Ballot that accompanies the Plan and mailing it to:

Beth Dassa
Pachulski Stang Ziehl & Jones LLP
10100 Santa Monica Blvd., Ste. 1100
Los Angeles, California 90067-4100

In order for your vote to be counted, it must be ***received*** no later than 5:00 p.m. on October 14, 2008, unless extended by the Debtors (the "Voting Deadline").

This Disclosure Statement includes (among other things) a brief history of the Debtors, a summary of their Chapter 11 cases, a description of the Claims against and Equity Interests in the Debtors, a summary of the Plan, a discussion of the Plan's feasibility and a liquidation analysis setting forth what the holders of a Claim against or Equity Interest in the Debtors would recover if the Debtors were liquidated immediately under Chapter 7 of the Bankruptcy Code. The Disclosure Statement also describes the treatment of the Debtors' principal outstanding liabilities – potential damages for alleged injuries caused by exposure to asbestos or asbestos-containing products – and the anticipated sources, amounts and timing of compensation on account of such liabilities. As

explained in greater detail below, all asbestos personal injury liabilities will be shifted to a Trust and will be paid solely from the assets of such Trust, at the times and in the amounts specified by the Trust.

Upon Bankruptcy Court approval of the Plan, the Plan will be binding upon all holders of Claims against, and holders of Equity Interests in, the Debtors (including, without limitation, those holders of Claims or Equity Interests who do not submit ballots to accept or reject the Plan or who are not entitled to vote on the Plan). Therefore, it is important that creditors and shareholders read and carefully consider this Disclosure Statement, the Plan and the transactions contemplated thereby. The confirmation and effectiveness of the Plan are subject to material conditions precedent. There is no assurance that these conditions will be satisfied or waived.

The Proponents request that you vote promptly for the Plan upon reviewing the accompanying materials. The Proponents believe that the restructuring contemplated by the Plan will yield a recovery to Creditors greater than the return that could be achieved through other restructuring alternatives or a liquidation under Chapter 7 of the Bankruptcy Code.

If you have any questions concerning the procedures for voting, or any questions concerning your treatment under the Plan, please contact:

The Proponents reserve the right to amend, modify, or supplement the Plan at any time

before the confirmation of the Plan, provided that, such amendments or modifications do not materially alter the treatment of, or distributions to, Creditors and holders of Equity Interests under the Plan.

THE PLAN IS THE GOVERNING DOCUMENT. IF ANY INCONSISTENCY EXISTS BETWEEN THE PLAN AND THE DISCLOSURE STATEMENT, THE TERMS OF THE PLAN CONTROL.

THE FINANCIAL PROJECTIONS CONTAINED IN THIS DISCLOSURE STATEMENT REPRESENT THE PROPONENTS' ESTIMATES OF FUTURE EVENTS BASED ON CERTAIN ASSUMPTIONS MORE FULLY DESCRIBED BELOW, SOME OR ALL OF WHICH MAY NOT BE REALIZED. NONE OF THE FINANCIAL ANALYSES CONTAINED IN THIS DISCLOSURE STATEMENT IS CONSIDERED TO BE A "FORECAST" OR "PROJECTION" AS TECHNICALLY DEFINED BY THE AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS. THE USE OF THE WORDS "FORECAST," "PROJECT," OR "PROJECTION" WITHIN THIS DISCLOSURE STATEMENT RELATES TO THE BROAD EXPECTATIONS OF FUTURE EVENTS OR MARKET CONDITIONS AND QUANTIFICATIONS OF THE POTENTIAL RESULTS OF OPERATIONS UNDER THOSE CONDITIONS.

ALL FINANCIAL INFORMATION PRESENTED IN THIS DISCLOSURE STATEMENT WAS PREPARED BY THE PROPONENTS WITH THE ASSISTANCE OF THEIR PROFESSIONAL ADVISORS. EACH CREDITOR AND EQUITY INTEREST HOLDER IS URGED TO REVIEW THE PLAN IN FULL BEFORE VOTING ON THE PLAN TO ENSURE A COMPLETE UNDERSTANDING OF THE PLAN AND THIS DISCLOSURE STATEMENT.

THIS DISCLOSURE STATEMENT IS INTENDED FOR THE SOLE USE OF CREDITORS AND OTHER PARTIES IN INTEREST AND FOR THE SOLE PURPOSE OF ASSISTING THEM IN MAKING AN INFORMED DECISION ABOUT THE PLAN. NO PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR MAKE ANY REPRESENTATIONS IN CONJUNCTION WITH THE SOLICITATION OF VOTES TO

ACCEPT OR REJECT THE PLAN OTHER THAN THE INFORMATION AND REPRESENTATIONS CONTAINED IN THIS DISCLOSURE STATEMENT OR IN THE BALLOTS. IF GIVEN OR MADE, ANY SUCH INFORMATION OR REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY DEBTOR.

THIS DISCLOSURE STATEMENT HAS BEEN APPROVED BY THE BANKRUPTCY COURT AS CONTAINING ADEQUATE INFORMATION TO PERMIT A CREDITOR TO VOTE ON THE PLAN. APPROVAL OF THE LEGAL ADEQUACY OF THIS DISCLOSURE STATEMENT BY THE BANKRUPTCY COURT IS NOT A CERTIFICATION BY THE BANKRUPTCY COURT AS TO THE TRUTH OR ACCURACY OF THE FACTUAL MATTERS THAT ARE CONTAINED IN THIS DISCLOSURE STATEMENT.

IMPORTANT NOTICE:

The Plan provides, among other matters, for the issuance of injunctions under Section 524(g) of the Bankruptcy Code that will result in the channeling of certain asbestos-related liabilities of the Debtors and other protected parties (except, among other exclusions, any liabilities for workers' compensation claims) to a Trust, as more fully described herein. Pursuant to Section 524(g), all distributions under the Plan to the holders of asbestos-related personal injury claims will be the sole responsibility of the Trust, and the Debtors and the Reorganized Debtor shall have no further liability therefor. All other claims against the Debtors will be satisfied by the Reorganized Debtor pursuant to the Plan.

II. DEFINITIONS

All capitalized terms used but not defined herein, but defined in the Plan, have the meaning given in the Plan. If a term is not defined herein or in the Plan, but is defined in the Bankruptcy Code, such term has the meaning given to that term in the Bankruptcy Code unless the context of the Disclosure Statement clearly requires otherwise. References to a code section are references to the Bankruptcy Code, except as otherwise stated.

III. SUMMARY OF DISTRIBUTIONS UNDER THE PLAN

This Disclosure Statement is being transmitted by the Debtors, pursuant to Section 1126(b) of the Bankruptcy Code, for the purpose of soliciting votes to accept the Plan. The Plan divides all Claims and Equity Interests into seven (7) different Classes. Each holder of a Claim within a

particular Class will receive the same treatment as all other members of the Class (unless the holder of such Claim has agreed to different treatment). Asbestos Related Claims (Class 5 under the Plan) will be channeled to the Trust, and will no longer constitute liabilities of the Debtors. Holders of Asbestos Related Claims are impaired and are entitled to vote to accept or reject the Plan. This Disclosure Statement sets forth information regarding the formation and operation of the Trust to enable the holders of Asbestos Related Claims to make an informed judgment to accept or reject the Plan under Section 524(g) of the Bankruptcy Code.

As described in more detail below, under the Plan:

- Administrative Claims Allowed under Section 503(b) of the Bankruptcy Code are to be paid in full;
- Priority Claims and Priority Tax Claims Allowed under Section 507(a) of the Bankruptcy Code are to be paid in full;
- Secured Claims and General Unsecured Claims (not including Asbestos Related Claims) are to be paid in full; and
- Asbestos Related Claims will be channeled to, and thereafter handled and paid by, the Trust that is formed pursuant to Article 5.1 of the Plan, as summarized in Article VII of this Disclosure Statement.

The Plan is the product of extensive discussions and negotiations among the Debtors, the Committees, the Future Claims Representative and other constituencies. The Proponents believe that recoveries under the Plan will exceed recoveries in a possible Chapter 7 case, and urge all Creditors entitled to vote to accept the Plan.

IV. BACKGROUND AND EVENTS PRECIPITATING THE CHAPTER 11 FILINGS

A. History of the Debtors

1. Thorpe

Thorpe, formerly known as Plant Insulation Company, was incorporated in California on April 10, 1948. Robert W. Fults and Linda Fults own, respectively, 50.1% and 49.9% of the capital stock of Thorpe. Robert Fults is the President of Thorpe and Robert Fults and Linda Fults serve as its only directors. There are no other current officers or employees of Thorpe.

Thorpe was a union subcontractor whose primary business was to install and repair insulation on mechanical systems at commercial and industrial sites throughout the western United States. These sites included petrochemical plants, commercial office buildings, hotels, prisons, major public works projects, power generation plants, cryogenic and refrigeration plants and marine installations. At one time, Thorpe was the largest independent mechanical insulation contractor in the western United States. In addition to construction services, Thorpe provided insulation design and engineering assistance, budget estimating, proposal preparation and value engineering and scheduling services to its customers.

Between 1948 and 2000, Thorpe also was a distributor for insulation products. Between 1957 and 2000 Thorpe was the distributor for Johns-Manville products in Southern California. Before approximately 1972, some insulation material distributed and installed by Thorpe contained asbestos. After Thorpe ceased distributing and installing asbestos insulation products in 1972, some of Thorpe's operations also involved asbestos and lead abatement, including "ripping out" or repairing insulation that contained asbestos at commercial and industrial sites.

On or about June 30, 1998, Thorpe established a revolving line of credit with Mellon First Business Bank ("Mellon Bank") and granted Mellon Bank a security interest in substantially all of its assets as collateral for the line of credit. In order to pay off its indebtedness to Mellon Bank, on or about November 4, 2004, Thorpe obtained a loan from Pacific Funding Group, LLC ("PFG"), a Seattle financial institution, in the sum of $2,026,693.99. Concurrently therewith, Thorpe executed a promissory note (the "PFG Note") and a security agreement in favor of PFG, granting a security interest to PFG in substantially all of Thorpe's assets.

On December 4, 2004, Thorpe failed to make a required payment on the PFG Note. On or about December 14, 2004, PFG commenced foreclosure proceedings against Thorpe's assets. At or about the same time, PFG and Thorpe entered into an "Agreement To Surrender Designated Collateral Between Thorpe Insulation Company And Pacific Funding Group, LLC," pursuant to which Thorpe agreed to surrender to PFG the collateral pledged as security for the PFG Note.

On or about December 17, 2004, PFG sold its collateral at a foreclosure sale under the Uniform Commercial Code to Farwest Insulation, Inc. ("Farwest"). (Farwest is a party to many

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

of the asbestos personal injury lawsuits as well as to the insurance coverage litigation, both as discussed below.) Farwest is owned by Eric Fults and David Fults (sons of Robert and Linda Fults) and various minority shareholders who are employees of Farwest. Following the foreclosure sale, Thorpe ceased its insulation contracting business.

At present, Thorpe has no ongoing operations (aside from managing the ongoing asbestos litigation asserted against it) and no material liabilities except for liabilities to parties seeking damages for exposure to asbestos. Thorpe's assets consist principally of cash derived from settlements with certain insurers whose policies cover Asbestos Related Claims and claims against insurers.

2. Pacific

Pacific was incorporated in California by Thorpe on May 23, 2000, to be a wholly owned subsidiary of Thorpe. On October 1, 2000, Thorpe transferred to Pacific the assets associated with its materials division (the "Materials Division") and Pacific agreed to assume Thorpe's accounts payable in relation to the Materials Division in exchange for Pacific transferring to Thorpe 100% of its issued and outstanding shares of stock. Subsequently, Thorpe distributed the Pacific shares of stock to Thorpe's sole shareholders, Robert W. Fults and Linda Fults in proportion to their interests in Thorpe. As a result, Robert W. Fults owns 50.1% of the shares of Pacific and Linda Fults owns the remaining 49.9%.

Pacific is the southwest's leading commercial and industrial insulation distributor/fabricator with locations in Southern California, Northern California, Arizona and Nevada. It provides quality pipe, air handling, fire barrier, board and blanket insulation as well as insulation adhesives, mastics and sealants. Pacific has never installed or sold any materials containing asbestos. It is headquartered in Los Angeles, California and has approximately fifty-five full time employees. Apart from any liability that Pacific may have to parties claiming injuries related to asbestos exposure (discussed below), Pacific's business operations have always been, and continue to be, profitable.

3. Unrelated Thorpe Entities

Thorpe was formed in 1948 and was formerly known as Plant Insulation Company.

There are several other companies and entities that also used the name "Thorpe" which are wholly unrelated to Thorpe.

In particular, Thorpe is not related to the family of companies known as J.T. Thorpe, Inc. (formerly known as Thorpe Constructors, Inc.), J.T. Thorpe, Inc., a dissolved California corporation ("Dissolved Thorpe"), Thorpe Technologies, Inc. (formerly known as Thermal Process, Inc.), and Thorpe Holding Company, Inc. At the turn of the century, the Debtors are informed that an individual named J.T. Thorpe had a business installing brick and other furnace linings in San Francisco. His business, J.T. Thorpe & Sons, was sold in the early 1920's to other individuals who the Debtors believe continue to operate the business. In 1932, Dissolved Thorpe was formed to acquire part of the business of J.T. Thorpe & Sons in the Southern California and Pacific Southwest area, although Dissolved Thorpe also performed services in other states. It had some of the same shareholders as J.T. Thorpe & Sons, but was not a subsidiary. Dissolved Thorpe subsequently sold its assets to J.T. Thorpe, Inc. (formerly known as Thorpe Constructors, Inc.) and was dissolved on December 30, 1986. J.T. Thorpe, Inc., Thorpe Technologies, Inc., Thorpe Holding Co., Inc, and Dissolved Thorpe are referred to collectively as the "J.T. Thorpe Entities."

The J.T. Thorpe Entities were principally engaged in the business of refractory contracting from the 1930s until 1992 throughout the western United States. Refractory contracting generally involves the installation and maintenance of refractory linings to contain heat, abrasion and corrosion. Common projects undertaken by the J.T. Thorpe Entities involved the design and installation of linings for furnaces, boilers and kilns used by the chemical, cement and glass industries. The J.T. Thorpe Entities were also subjected to numerous asbestos claims and, as a result, also filed cases under chapter 11 of the Bankruptcy Code in 2002 and 2004. These cases were administered by the same Bankruptcy Court that is now exercising jurisdiction over Thorpe's and Pacific's bankruptcy cases. In 2005, a joint plan of reorganization was confirmed for the four J.T. Thorpe Entities under which a trust was created to handle all asbestos-related claims against the J.T. Thorpe Entities.

In the 1950s, some of the shareholders of Dissolved Thorpe formed a company in Texas that was also named J.T. Thorpe Corporation ("Thorpe Corp."). Thorpe Corp. has also filed a

Chapter 11 bankruptcy case in Texas.

The Debtors are also informed and believe that there is a company known as Thorpe Insulation operating in Texas ("Thorpe Insulation Texas") and a Thorpe USA, Inc. operating in San Francisco, California.

The J.T. Thorpe Entities, Thorpe Corp., Thorpe Insulation Texas and Thorpe USA, Inc. are **completely unrelated** to the Debtors, and persons with claims against such entities should not file claims against the Debtors premised upon their claims against these unrelated entities.

B. Asbestos Claims

For the past thirty years, Thorpe has been embroiled in asbestos related litigation. To date it has been subjected to approximately 12,000 claims and lawsuits for personal injuries or wrongful death alleged to have been caused in whole or in part by exposure to asbestos-containing materials installed or supplied by Thorpe (collectively, the "Asbestos Cases"). Approximately 2,000 Asbestos Cases were pending against Thorpe on the date that it commenced its chapter 11 case. Thorpe anticipates that numerous additional Asbestos Related Claims will be asserted against it for many years to come. The potential liabilities represented by present and anticipated future Asbestos Related Claims against Thorpe far exceed the value of Thorpe's undisputed assets, which include distributions it receives from an asbestos trust that was established by Johns-Manville. Thorpe, however, believes that its historical comprehensive general insurance assets provide coverage for many of these present and future liabilities (although, as discussed in further detail below, Thorpe's insurers dispute that such coverage exists).

Although Pacific has never distributed, installed, repaired or removed any asbestos products, it has also been named as a defendant in many of the Asbestos Cases on the theory that it is a successor in interest to Thorpe. Pacific also anticipates that it will continue to be named as a defendant in lawsuits filed against Thorpe. Pacific denies it is responsible for any liabilities asserted in the lawsuits and has previously made written demand to Thorpe and its insurers that they indemnify it for all claims asserted against it arising from the Asbestos Related Claims. In order to control the costs of defending the numerous lawsuits filed against it, Pacific negotiated a "Stand Still" Agreement with several law firms representing plaintiffs in the asbestos lawsuits that provides

that those lawsuits would be stayed pending the determination of the scope of Thorpe's existing insurance coverage and that any applicable statutes of limitation with respect to claims that had not been filed be tolled.

C. Insurance Coverage Litigation

1. Insurance Policies

Thorpe purchased comprehensive general liability insurance from various insurers for the period May 1948 to October 1984. The policies provide "occurrence" based coverage that is triggered when injury happens during the policy period, regardless of when a claim is made. In California, these policies covered asbestos bodily injury lawsuits on a "continuous trigger" basis – *i.e.,* each policy in effect from first exposure to asbestos through manifestation of disease or death are responsive to a particular claim.

These standard policies provide two basic forms of coverage for the asbestos personal injury lawsuits: (i) bodily injury claims caused by asbestos exposure after a product is relinquished or an operation is completed ("Product Claims") and (ii) bodily injury claims caused by asbestos exposure before a product is relinquished or an operation is completed ("Operations Claims"). Product Claims are subject to aggregate limits. Operations Claims are not subject to aggregate limits.

In tendering the asbestos suits to its insurers, Thorpe requested that its insurers provide defense and indemnity coverage, as provided in the applicable insurance policies. From 1978, Thorpe's insurers have handled the asbestos suits through their appointed counsel and controlled the defense and settlement of the asbestos suits.

2. Coverage Disputes

Following its receipt of a notice from certain of its insurers that, in their view, coverage for the ongoing asbestos litigation was exhausted or approaching exhaustion, Thorpe filed an action in November 2005 seeking to determine its coverage rights and obligations for present and future asbestos claims in the California Superior Court for the County of San Francisco, captioned *Thorpe Insulation Company v. Allstate Insurance Company, et al.* (No. CGC-05-446 682) ("Thorpe Suit").

At the same time, certain insurers commenced similar actions in the Los Angeles Superior Court to seek an adjudication of their rights and duties under their policies with Thorpe (and their obligations, if any, to defend and indemnify Pacific and Farwest under such policies based upon Thorpe's distribution and installation of asbestos insulation materials). The first such action, filed in November 2005, is entitled *Chicago Insurance Company, et al. v. Allstate Insurance Company, et al.* (No. BC343014) ("First Chicago Suit"). The second action, filed in January 2006, is entitled *Chicago Insurance Company v. Pacific Insulation Company, et al.* (No. BC346667) ("Second Chicago Suit").

On March 6, 2006, pursuant to court order, the Thorpe Suit, the First Chicago Suit and the Second Chicago Suit (including all related cross-actions) were transferred to, and coordinated before, the Superior Court of the State of California for the County of Los Angeles in the coordinated proceeding entitled *In re: Thorpe Insulation Asbestos Coverage Cases*, Judicial Counsel Coordination Proceeding No. 4458 (the "Coordinated Proceeding").

The currently operative pleading seeking relief on behalf of Thorpe in the Coordinated Proceeding is Thorpe's *First Amended Complaint*, filed on February 16, 2007 in the Thorpe Suit. The Thorpe Suit states eight causes of action, for: (a) declaratory relief as to Thorpe's rights under the insurance policies issued to it by Defendants, (b) damages as a result of certain of the Defendants having breached their obligations under the insurance policies that those Defendants issued to Thorpe, (c) damages as a result of the tortious breach of the implied covenant of good faith and fair dealing by certain of the Defendants and (d) unjust enrichment. The Thorpe Suit also asserts that certain of the Defendants have acted inequitably toward Thorpe in certain respects, thereby affecting Thorpe's rights under the policies issued to it by such Defendants.

On October 16, 2007, immediately after the commencement of Thorpe's chapter 11 case, Thorpe removed each of the Thorpe Suit, the First Chicago Suit, the Second Chicago Suit and the Coordinated Proceeding (collectively hereinafter, the "Coverage Litigation") to the Bankruptcy Court. Shortly thereafter, on October 23, 2007, certain insurer defendants sought to remand the Coverage Litigation to state court. Thorpe opposed remand and filed an adversary complaint requesting a Preliminary Injunction against prosecution of the Coverage Litigation. At the same

time, certain of Thorpe's insurers sought relief from the automatic stay to pursue their claims against Thorpe in the Coverage Litigation. At a hearing on November 7, 2007, the Bankruptcy Court declined to immediately remand the Coverage Litigation but indicated that it would consider remand following further proceedings. As described below, the Bankruptcy Court subsequently remanded the actions comprising the Coverage Litigation, but denied the insurers' request to modify the automatic stay to allow the Coverage Litigation to proceed and issued a Preliminary Injunction staying their prosecution except for limited purposes.

Certain of the insurers disagree with the foregoing disclosures and have supplied alternative and/or additional disclosures that are contained in Appendix A. The information in Appendix A has not been approved or disapproved by any of the Proponents, does not necessarily reflect the views of any of the Proponents, and shall not constitute or be construed as an admission of any fact or liability, stipulation or waiver on behalf of any of the Proponents, but rather as a statement of position made by certain insurers.

3. Wellington Settlement Breach Claims

Among the insurance policies obtained by Thorpe were seventeen (17) primary comprehensive general liability (CGL) policies issued by Fireman's Fund Insurance Company ("Fireman's Fund") covering the years 1952-1971, and four similar policies issued by Harbor Insurance Company covering the years 1971-1979. (Continental Insurance Company has since succeeded to the rights and obligations of Harbor Insurance Company under the foregoing policies, and is referred to hereinafter as "Continental.") During the period from approximately 1978 through 1998, Thorpe tendered various asbestos personal injury claims to Fireman's Fund and Continental for defense and indemnity. According to Fireman's Fund and Continental, these claims were tendered by Thorpe and treated by the insurers as Product Claims subject to the applicable aggregate limits of liability under the policies. As noted above, Product Claims are based on claims for injuries arising ***after*** work has been completed or a product has been sent to market (unlike Operations Claims which are based upon injuries arising while operations are in progress). These limits of liability were apparently exhausted in April 1998 for the Continental policies and in September 1998 for the Fireman's Fund policies.

Previously, in June 1985, Thorpe, Fireman's Fund and Continental had entered into the so-called *Wellington Agreement,* an insurance coverage and claims handling protocol among approximately 35 asbestos product manufacturers and distributors and certain of their respective insurers. Among other provisions, the *Wellington Agreement* provides that any disputes arising under the agreement shall be resolved by binding arbitration.

Following the exhaustion of the Product Claims coverage under the Fireman's Fund and Continental CGL policies, Thorpe tendered additional asbestos injury claims for defense and indemnity under the Operations Claims coverage afforded by such policies, which is not subject to aggregate limits of liability. Fireman's Fund and Continental disputed Thorpe's right to such additional coverage and, in 1999, commenced arbitration proceedings under the *Wellington Agreement* to obtain a declaration that Thorpe's insurance coverage under their policies had been fully exhausted. In 2002, the arbitrator determined that, under the terms of the *Wellington Agreement*, Thorpe was not entitled to assert additional Operations Claims coverage for asbestos injury claims and that Thorpe had no remaining coverage rights under the Fireman's Fund and Continental policies. The arbitrator also awarded attorneys' fees to Fireman's Fund and Continental. Thorpe appealed the arbitrator's ruling.

In April 2003, while Thorpe's appeal was pending, Thorpe, Fireman's Fund and Continental entered into a *Settlement Agreement and Release* (the "Wellington Settlement"), under which, among other provisions, (a) Thorpe released any further rights to "coverage of any kind under or related to" the Fireman's Fund and Continental policies,[2] and (b) Fireman's Fund and Continental paid Thorpe approximately $500,000 and released their claims for attorneys' fees incurred in the arbitration proceeding. Pursuant to the Wellington Settlement, Thorpe warranted that it had not, and would not (i) assign any of the claims released in the Wellington Settlement to any third party, or (ii) "voluntarily assist any other person or entity in the establishment of any claim" against Fireman's Fund or Continental "arising out of, resulting from or in any way relating to the

[2] The Coverage Litigation referred to, *supra*, seeks a determination regarding, among other things, the ongoing availability of coverage for Operations Claims from insurers **other than** Fireman's Fund and Continental. Fireman's Fund and Continental are not parties to the Coverage Litigation.

matters released" in the Wellington Settlement. The Wellington Settlement also provides for the payment of attorneys' fees arising from the breach of any warranty made under the agreement. Last, the Wellington Settlement reserves the continuing jurisdiction of the arbitrator appointed under the *Wellington Agreement* to enforce the Wellington Settlement (but does not require mandatory arbitration of disputes under the Wellington Settlement).[3]

In February 2008, following the commencement of the Chapter 11 cases, Fireman's Fund and Continental each filed a contingent proof of claim for damages based on an alleged breach by Thorpe of its warranties under the Wellington Settlement (together, the "Wellington Settlement Claims"). At present, the liquidated amount of each claim is approximately $35,000, on account of attorneys' fees allegedly incurred by each insurer as a result of Thorpe's alleged breach of the Wellington Settlement (and the renewal by Fireman's Fund and Continental of arbitration proceedings related to such alleged breach). Fireman's Fund and Continental assert, however, that the full amount of their claims may potentially total "many millions of dollars."

The basis for the Wellington Settlement Claims is the assertion by the insurers that Thorpe, in violation of its warranties, (a) allegedly colluded with, encouraged and assisted asbestos claimants to bring direct suits against Fireman's Fund and Continental under the Thorpe CGL policies and (b) obtained the assignment of contribution rights held by certain Settling Asbestos Insurers against Fireman's Fund and Continental.

Thorpe disputes any breach of its obligations under the Wellington Settlement and contends that there is no basis to allow any portion of the Wellington Settlement Claims. Thorpe asserts that its warranties under the Wellington Settlement apply solely to claims that it held and released and could not, by definition, apply to (a) a third party insurer's rights of contribution against Fireman's Fund and Continental that Thorpe might acquire under settlement agreements, or (b) a third party asbestos claimant's direct action rights against Fireman's Fund and Continental. Such

---

[3] Fireman's Fund and Continental did, in fact, initiate further arbitration proceedings in September 2007 to address the matters asserted in the Wellington Settlement Claims, discussed *infra*, and an initial hearing had been scheduled for October 16, 2007. Thorpe commenced its Chapter 11 Case on October 15, 2007, and the hearing was consequently stayed. Fireman's Fund and Continental have since requested relief from the automatic stay in order to resume the arbitration and to liquidate the matters raised in the Wellington Settlement Claims. The Bankruptcy Court has denied the motion for stay relief without prejudice to renewal of the motion at a later date.

rights were not held by Thorpe and, as a result, were wholly beyond Thorpe's capacity to release.

Thorpe anticipates filing prompt objections to the allowance of the Wellington Settlement Claims. In order to develop a thorough evidentiary basis for such objections, Thorpe sought an order of the Bankruptcy Court authorizing an examination under Bankruptcy Rule 2004 of each of Fireman's Fund and Continental. Fireman's Fund and Continental opposed the request for a Rule 2004 examination and sought a protective order to limit the duration and scope of any such examination. In April 2008, the Bankruptcy Court authorized the Rule 2004 examinations and overruled the objections of Fireman's Fund and Continental.

The Plan provides, at Section 4.4, for the payment in full by the Reorganized Debtor of all Allowed Unsecured Claims against Thorpe. If Allowed, the Wellington Settlement Claims would be classified and treated under Section 4.4 of the Plan. As noted above, however, Thorpe disputes the allowance of the Wellington Settlement Claims and intends to file an objection to the claims shortly.

One condition to confirmation of the Plan is the determination of the Bankruptcy Court, by a Final Order, to deny in full the allowance of the Wellington Settlement Claims. This determination is referred to in the Plan as the "Wellington Settlement Claims Favorable Determination." As noted above, the Debtors are taking active steps now to obtain such a determination and anticipate that it will be rendered before the Confirmation Hearing. Nevertheless, in order to avoid any possible delays in the Confirmation of the Plan, the Debtors have agreed that the Committee and the Futures Representative may override the pre-Confirmation requirement of a Wellington Settlement Claims Favorable Determination by providing an indemnity from the Trust to the Reorganized Debtor for any amounts that might, if any portion of either of the Wellington Settlement Claims is Allowed, be payable by the Reorganized Debtor under the Plan on account of such claims. The terms and conditions of this indemnification are set forth in Section 7.4 and Exhibit H of the Plan.

Certain of the insurers disagree with the foregoing disclosures and have supplied alternative and/or additional disclosures that are contained in Appendix B. The information in Appendix B has not been approved or disapproved by any of the Proponents, does not necessarily reflect the views of

any of the Proponents, and shall not constitute or be construed as an admission of any fact or liability, stipulation or waiver on behalf of any of the Proponents, but rather as a statement of position made by certain insurers.

D. Need for Chapter 11 Relief

Thorpe filed its chapter 11 case to ensure that the proceeds of its insurance were distributed equitably to all of its asbestos creditors, including those whose asbestos disease had not yet manifested itself, and to maximize the settlements that it could achieve with its insurers that elected to settle their disputes with Thorpe by affording those insurers with the protections provided for in Bankruptcy Code section 524(g). Pacific filed its Chapter 11 case shortly thereafter due to its alleged asbestos liability and the failure of Thorpe's insurers to pay asbestos claims asserted against Pacific.

The goal of Thorpe and Pacific in these chapter 11 cases is to obtain confirmation of the Plan, which provides for a channeling injunction pursuant to which all current and future asbestos-related personal injury and wrongful death claims will be channeled to a trust for liquidation and payment pursuant to section 524(g) of the Bankruptcy Code. The Plan also offers protection under Bankruptcy Code section 524(g) to various non-debtor parties, including insurers who elect to resolve the coverage litigation prior to the confirmation of that plan. **The Proponents support the Plan and urge those creditors entitled to vote to accept the Plan.**

V. SIGNIFICANT EVENTS DURING THE CHAPTER 11 CASES

A. Commencement of Chapter 11 Cases

On October 15, 2007, Thorpe filed a voluntary petition for relief under Chapter 11 of the Bankruptcy Code. On October 31, 2007, Pacific also filed a voluntary petition for relief under Chapter 11 of the Bankruptcy Code. The Chapter 11 Cases were assigned to the Honorable Sheri Bluebond, United States Bankruptcy Judge for the Central District of California (Los Angeles Division). Pursuant to an order of the Bankruptcy Court entered on November 6, 2007, the Chapter 11 cases are being jointly administered under Federal Rule of Bankruptcy Procedure 1015(b). Since their respective petition dates, the Debtors have continued to operate their businesses and manage their properties as debtors-in-possession under Sections 1107(a) and 1108 of the Bankruptcy Code.

No trustee or examiner has been appointed in either of Thorpe's or Pacific's chapter 11 cases.

B. Retention of Debtors' Professionals

On January 15, 2008, the Bankruptcy Court entered an order authorizing Thorpe to retain Pachulski Stang Ziehl & Jones LLP as general bankruptcy and reorganization counsel. On December 20, 2007, the Bankruptcy Court authorized Pacific to retain Clark & Trevithick as general bankruptcy and reorganization counsel. Certain insurers objected to the retention of both law firms, and have filed appeals from both of these orders. The appeal to the first order (authorizing retention of Pachulski Stang Ziehl & Jones LLP) has been dismissed by the appellants; the appeal of the second order (authorizing retention of Clark & Trevithick) has been dismissed by the District Court on the basis that the employment order is interlocutory and not yet subject to appeal.

The Debtors have also retained Snyder Miller & Orton LLP ("SMO"), as special litigation counsel, and Morgan Lewis & Bockius LLP ("MLB"), as special insurance counsel. Orders authorizing the employment of both law firms were entered by the Bankruptcy Court on January 9, 2007. Certain insurers objected to the retention of both law firms, and have filed appeals from both of these orders, which appeals are pending.

On January 31, 2008, the Debtors filed an application to employ Klee, Tuchin, Bogdanoff & Stern LLP as special counsel to represent the Debtors in the appeals from various Bankruptcy Court orders including, without limitation, the foregoing employment orders, that have been filed by various insurers. The application was approved by order entered February 20, 2008.

On March 28, 2008, the Debtors filed an application to employ Moore Stephens Wurth Frazer and Torbet, LLP as tax accountants.

Other than MLB and SMO all of the Debtors' professionals have been retained on an hourly basis. Each of SMO and MLB have been retained on a contingency fee basis, with the compensation to be received by those firms contingent upon net recoveries from the Debtors' insurers. In the aggregate, SMO and MLB are entitled to compensation as follows: (a) 25% of the first $25 million in net recoveries, (b) 20% of net recoveries between $25 million and $50 million, (c) 15% of net recoveries between $50 million and $150 million, (d) 9.5% of net recoveries between $150 million and $500 million and (e) 7% of net recoveries in excess of $500 million. In addition MLB and SMO

are entitled to be reimbursed for any expenses that they incur in connection with their representation of Thorpe. The foregoing is intended to be a summary of the terms and conditions of SMO's and MLB's engagement and is qualified in its entirety by the terms and conditions of the Bankruptcy Court's orders approving their employment, which include, as exhibits, the detailed fee agreements between Thorpe and the firms. Creditors desiring a more detailed description of the terms and conditions of SMO's and MLB's employment are encouraged to review that order, a copy of which may be obtained, upon request, from the Proponents or from Bankruptcy Court.

C. Official Unsecured Creditors' Committees

An official committee of unsecured creditors was appointed on October 26, 2007, in the Chapter 11 case of Thorpe (the "Thorpe Committee"). An identical official committee of unsecured creditors was appointed on November 16, 2007, in the chapter 11 case of Pacific (the "Pacific Committee"). Collectively, the Thorpe Committee and the Pacific Committee are referred to hereinafter as the "Committee." The Committee filed applications to retain Heller Ehrman LLP and Caplin & Drysdale, Chartered, as co-counsel to the Committee in both chapter 11 cases. These applications were approved on December 13, 2007 in the Thorpe case, and on January 15, 2008 in the Pacific case. On January 25, 2008, the Committee filed an application to employ Legal Analysis Systems Inc. as Asbestos Injury Consultants.

D. Appointment of Representative for Future Claimants

On October 31, 2007, Thorpe filed an application, pursuant to Section 524(g)(4)(B)(i) of the Bankruptcy Code, for the appointment of the Honorable Charles B. Renfrew (Ret.), as the legal representative on behalf of persons holding potential future claims on account of damages allegedly caused by exposure to asbestos (the "Futures Representative"). Pacific also filed an application, on November 12, 2007, to appoint Mr. Renfrew as the Futures Representative in its chapter 11 case. The qualifications and experience of Mr. Renfrew to serve as the Futures Representative are set forth more fully in Thorpe and Pacific's respective applications filed with the Bankruptcy Court. Orders approving the appointment of Mr. Renfrew were entered by the Bankruptcy Court in both cases on December 20, 2007. Certain insurers objected to the appointment of the Futures Representative and filed appeals from those orders on December 26, 2007. The Futures Representative filed an

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

application to employ Fergus, A Law Firm, as his counsel in the chapter 11 cases, which was granted on December 12, 2007. The Futures Representative also filed an application to retain Hamilton Rabinovitz & Associates as an expert consultant, which was granted on December 12, 2007.

E. Routine Matters in Chapter 11 Cases

Thorpe has filed various motions seeking miscellaneous relief in its chapter 11 case, such as an order limiting the scope and manner of notice of proceedings in its case, and an order directing the joint administration of the Thorpe and Pacific chapter 11 cases. On November 6, 2007, the Bankruptcy Court ordered that the chapter 11 cases be jointly administered. On November 16, 2007, Thorpe and Pacific filed a motion to implement an interim compensation procedure for professionals employed in the chapter 11 cases, which was granted on December 13, 2007.

On November 30, 2007, the Debtors filed a motion to establish a bar date for the filing of proofs of claim. On January 10, 2008, the Bankruptcy Court entered its order establishing March 7, 2008 as the general bar date, for filing claims other than asbestos-related personal injury claims and inter-company claims.

Unlike Thorpe, which has ceased ongoing operations, Pacific continues to operate its insulation distribution business. Hence, Pacific has sought administrative relief in the Bankruptcy Court that is routine and customary for operating debtors. In particular, Pacific has filed, among other motions, (i) a motion for an order determining that it has supplied adequate assurance of payment for post-petition utility services, which was granted on December 11, 2007, (ii) a motion for an order authorizing it to honor and pay costs associated with its pre-petition employee benefit programs, which was granted on December 13, 2007, (iii) a motion to approve a settlement of Johns Manville's reclamation claim, which was granted on December 26, 2007, (iv) a motion to assume certain executory contracts and unexpired leases, which was granted on March 12, 2008, (v) a motion for authority to assume executory contracts re: (1) Johns Manville and (2) Employees' Profit Sharing Plan, which was filed on April 29, 2008 and granted, and (vi) a motion for a final order authorizing post-petition financing from California Bank & Trust in the amount of two million dollars, authorizing post-petition financing, granting senior security interests and superpriority

administrative expense status, and authorizing use of cash collateral and modifying the automatic stay, which is scheduled for hearing on June 18, 2008.

F. Intra-District Transfer

In November 2007, certain insurers filed a motion with the Bankruptcy Court to transfer the chapter 11 cases from the Los Angeles division of the Bankruptcy Court to its Santa Ana division (*i.e.*, the cases would remain venued in the Central District of California, albeit in a different division of the district). Thorpe opposed the transfer of its case on various grounds, principally because its offices, officers and assets were all located within the territory of the court's Los Angeles division. Moreover, inasmuch as Thorpe's chapter 11 case is closely related to Pacific's case (and there is no dispute regarding the venue of its case), the continued venue of the Thorpe case in the court's Los Angeles division would be appropriate. The Bankruptcy Court considered the motion to transfer venue at a hearing conducted on December 4, 2007, and denied the motion by order entered on December 11, 2007.

G. Remand of Coverage Litigation

As noted above, shortly after the commencement of Thorpe's Chapter 11 case, Thorpe filed notices to remove each of the four actions subsumed within the Coverage Litigation from the State courts to the Bankruptcy Court. Subsequently, certain of the defendant insurers filed motions seeking to remand the Coverage Litigation back to the State court.

The Bankruptcy Court initially considered the remand motion at a hearing on November 7, 2007 and issued a tentative ruling in favor of the remand of the Coverage Litigation. The court, however, continued a final decision on remand pending the filing of, and the Court's consideration of: (a) a proceeding by the Debtors seeking to stay the Coverage Litigation and (b) a motion by certain of the insurers seeking relief from the automatic stay to prosecute their claims in the Coverage Litigation.

On December 4, 2007, the Bankruptcy Court conducted a further hearing and determined to remand the four actions to state court. Remand orders were entered in one action on December 5, 2007 and in the remaining three actions on December 28, 2007. As set forth below, although the Bankruptcy Court remanded these actions to the State court, it did not grant relief from the automatic

stay to prosecute them, and enjoined the prosecution of the Coverage Litigation, except in limited respects.

H. Resumption of Coverage Litigation – Complaint for Injunction & Relief from Automatic Stay

In anticipation of the possible remand of the Coverage Litigation to the state court, the Debtors and the Committee commenced an adversary proceeding in the Bankruptcy Court by filing their *Complaint for Injunctive Relief* (the "Complaint"), on November 16, 2007 (Adversary Proceeding No. AD 07-01850-BB). The Complaint seeks an injunction that, in effect, stays the Coverage Litigation pending the formulation and confirmation of the Plan. Concurrently with the Debtors' filing of the Complaint, certain of the Debtors' insurers filed motions seeking orders modifying the automatic stay so as to allow those insurers to proceed to litigate their claims against the Debtors in the event that the Bankruptcy Court determined to remand the Coverage Litigation to the State Court.

On December 28, 2007, the Bankruptcy Court entered an order granting a Preliminary Injunction and staying prosecution of the Coverage Litigation in the state court until March 18, 2008, except as to two matters then pending California Court of Appeal. Various insurers filed an appeal from this ruling on December 31, 2007. On April 15, 2008, the District Court having jurisdiction of the insurers' appeal dismissed that appeal as moot, the injunction appealed from having expired by its terms on March 18, 2008.

On March 18, 2008, the Bankruptcy Court conducted a further hearing, and ordered that the Preliminary Injunction be extended until June 18, 2008. Certain insurers filed a notice of appeal from the Bankruptcy Court's oral ruling extending the injunction. On April 4, 2008, the Bankruptcy Court implemented its oral ruling and entered a preliminary injunction staying the Coverage Litigation until June 18, 2008 and scheduling a hearing on that date to consider whether or not the injunction should be further extended. At the June 18 hearing, the Bankruptcy Court extended the preliminary injunction staying the Coverage Litigation until October 2, 2008.

I. Motion to Appoint Chapter 11 Trustee

On November 16, 2007, certain insurers filed a motion to appoint a Chapter 11 trustee for

Thorpe. The motion was based on allegations that Thorpe's management and professionals held interests adverse to the Estate in Thorpe's Chapter 11 case and were also acting contrary to Thorpe's alleged duty to cooperate with its insurers under its insurance policies. The Bankruptcy Court initially considered the motion to appoint a Chapter 11 trustee at a hearing conducted on December 12, 2007, and limited discovery requested by the moving insurers pending a further hearing on January 14, 2008. After the January 14, 2008 hearing, the Bankruptcy Court denied the motion to appoint a Chapter 11 trustee, and entered an order on January 16, 2008. Certain insurers filed an appeal from the Bankruptcy Court's order denying their motion on the same date, January 16, 2008. By order entered June 16, 2008, the District Court affirmed the Bankruptcy Court's order denying the motion to appoint a chapter 11 trustee.

J. Selected Insurer Settlements

To date, the Debtors have successfully negotiated settlements with five of Thorpe's insurers, Pacific Indemnity Company, Great American Insurance Company, Republic Indemnity Company of North America, Associated International Insurance Company and American Centennial Insurance Company. Under these settlements, the Debtor has received, or will receive, in the aggregate, a minimum of $47.5 million. In addition, should Thorpe successfully confirm a plan of reorganization in its bankruptcy case providing protection to two of the settling insurers pursuant to Bankruptcy Code section 524(g), Thorpe will receive additional payments from those insurers of at least $20 million and, depending upon the amounts, if any, recovered from Thorpe's other insurers, potentially as much as an additional $45 million, which would result in total recoveries from the foregoing insurers of as much as $92.5 million.

Certain of the insurer settlements referred to above were conditioned upon the entry of orders of the Bankruptcy Court approving and implementing those agreements. On January 24, 2008, the Bankruptcy Court entered an order approving notice procedures, including notice by publication, of the settlement with Great American and Republic. On February 1, 2008, the Debtors filed motions seeking Bankruptcy Court approval of each of the settlements, and asking the Bankruptcy Court to assume jurisdiction over a Qualified Settlement Fund that had been established prior to the petition date with funds from the settlement with Pacific Indemnity Company. The Debtors later withdrew

the motion to approve the prepetition settlement with Associated International, for which immediate approval was not required. On March 12, 2008, the Bankruptcy Court conducted a hearing and approved each of the other settlements. Orders approving the settlements were entered on May 20, 2008. Certain insurers have appealed entry of these orders to the District Court and said appeals are currently pending. The Bankruptcy Court also assumed jurisdiction over the Qualified Settlement Fund, by order entered on March 14, 2008.

The foregoing discussion of the terms and conditions of the settlements with the above named insurers is qualified in its entirety by the terms and conditions of the settlement agreements with those insurers. Copies of those settlement agreements may be obtained from the Proponents upon request, and were filed with the Bankruptcy Court as exhibits to the motions seeking Bankruptcy Court approval of the settlements.

The Debtors continue to have settlement discussion with certain of Thorpe's insurers. In the event that the Debtors are successful in compromising their claims against other insurers prior to the conclusion of the confirmation hearing on the Plan, the Debtors will provide notice of such settlements to all parties in interest.

VI. THE PLAN

A copy of the Plan accompanies this Disclosure Statement as Exhibit A. The following summary of the material provisions of the Plan is qualified in its entirety by the specific provisions of the Plan, including the Plan's definitions of certain terms used below. The following is intended only to provide a general description of the Plan. For more specific information concerning the Plan, the Plan should be referenced. **In the event of any inconsistency between the terms of the Plan and the description of those terms in this Disclosure Statement, the terms and conditions of the Plan are controlling.**

A. Overview of the Plan

The Plan is the product of extensive, post-petition negotiations among the Debtors, the Committee, the Futures Representative and their respective bankruptcy counsel and advisors. The Plan is based primarily upon a compromise and agreement reached among these parties concerning: (a) the establishment and terms of the Trust, (b) the funding of the Trust, (c) the terms of discharges

and releases, (d) the issuance of injunctions under Section 524(g) of the Bankruptcy Code that will result in the channeling into the Trust of **all** present and future Asbestos Related Claims against the Debtors and certain other parties, and the conditions upon which such other parties may become entitled to the benefit of such injunctive relief and (e) the resolution of inter-company claims among Thorpe, Pacific and Farwest. These agreements are discussed below.

The Debtors have thoroughly evaluated, and discussed with the Committee and Futures Representative, the complexity, expense, inconvenience and delay involved in any alternative plan, and the interests of creditors. For the reasons set forth below, the Proponents believe that the terms and conditions of the Plan are fair, reasonable, in the best interests of creditors and otherwise meet the applicable requirements under the Bankruptcy Code for confirmation.

If the Debtors' current estimates regarding the amount of allowed Claims are accurate, the Proponents believe that, if the Plan is confirmed, all of the Debtors' creditors (other than creditors holding Asbestos Related Claims, will receive payment in full. Given the uncertainties inherent in predicting the quantity and amount of Asbestos Related Claims that may be filed and the outcome of the Coverage Litigation, it is difficult to predict the dividend that might be received by the holders of Asbestos Related Claims. Nevertheless, the Proponents believe that the holders of Asbestos Related Claims will receive treatment under the Plan that is significantly better than the distributions Creditors would achieve in a chapter 7 case

1. Establishment of Trust

Confirmation of the Plan will result in the establishment and (initial) funding of the Trust. The Trust will qualify as a "qualified settlement fund" under applicable regulations promulgated pursuant to Section 468B of the Internal Revenue Code (*e.g.*, 26 C.F.R. §1.486B-1(c)). The Trust will assume the liabilities, obligations, costs and expenses associated with the verification, liquidation, allowance and payment of all Asbestos-Related Claims.

The procedures for the determination and payment of Asbestos-Related Claims are set forth in that certain *Asbestos Personal Injury Settlement Trust Distribution Procedures* appended to the Plan as Exhibit I (the "TDP"). The TDP to be established and adopted by the Trust pursuant to the Trust Agreement will be used to assign a value to all Asbestos Related Claims that are timely

filed with the Trust and not rejected or denied and to determine the timing and amount of payments to be made in satisfaction of Asbestos Related Claims. In addition to resolving promptly Asbestos Related Claims, the TDP will significantly reduce operating expenses, which expenses would otherwise reduce Trust Assets available for distribution to holders of Asbestos Related Claims. All holders of Allowed Asbestos Related Claims will benefit from such cost savings, by maximizing the assets that are to be used for the payment of Asbestos Related Claims

The Trust will be funded with the Trust Assets, which include, among other things, the following assets to be delivered to the Trust pursuant to the Plan or otherwise: (a) the Asbestos Insurance Rights, (b) cash as of the Effective Date (including qualified settlement funds) constituting the proceeds of Asbestos Insurance Settlements, less amounts deposited in the Professional Fee Reserve, (c) the Reorganized Debtor Notes, (d) the Farwest Contribution, (e) the Debtors' rights of contribution, reimbursement, indemnity or subrogation on account of the payment by or on behalf of the Debtors prior to the Petition Dates of all or any part of any Asbestos Related Claim, other than rights against the Protected Parties, (f) all Business Losses, subject to the Business Loss Allocation payable to the Reorganized Debtor, and any income, profits and proceeds derived from the foregoing, and (g) all rights to future payments from the Manville Personal Injury Settlement Trust.

The Trust will be administered by the Trustees pursuant to the TDP, in consultation with, and with the consent as to certain matters of, the Futures Representative and the Trust Advisory Committee ("TAC"). The mechanisms of the Trust have been designed, as a result of extensive discussion, to provide reasonable assurance that the Trust will value, and will be in a financial position to pay, similar present and future Asbestos Related Claims in substantially the same manner.

2. Discharge and Injunctions

Upon confirmation of the Plan, the Debtors will each receive a discharge of all Claims. In addition, as noted, the Plan contemplates the issuance of Injunctions under Section 524(g) of the Bankruptcy Code that will result in the channeling into the Trust of **all** present and future Asbestos Related Claims against the Protected Parties who include, among others, the Debtors, Farwest, the principals of the Debtors and Farwest, Bayshore Partners, LLC and the

Settling Insurers. These Injunctions are the Channeling Injunction (Exhibit A to the Plan), the Settling Asbestos Insurer Injunction (Exhibit B to the Plan) and the Asbestos Insurer Injunction (Exhibit C to the Plan).

a. Channeling Injunction

The Channeling Injunction provides that pursuant to Bankruptcy Code Sections 524(g) and 105(a), certain Asbestos Related Claims shall be channeled to, and paid solely from, the Trust. Upon the Effective Date, all entities (except as expressly allowed below) which have held or asserted, which hold or assert, or which may in the future hold or assert any Asbestos Related Claim shall be permanently stayed, restrained and enjoined from taking any legal action for the purpose of directly or indirectly collecting, recovering or receiving payment or recovery with respect to any such claim from or against any Protected Party, including, but not limited to:

(i) commencing, conducting or continuing in any manner any action or other proceeding of any kind (including a judicial arbitration or other proceeding) against any Protected Party, or against the property of any Protected Party, with respect to any Asbestos Related Claim;

(ii) enforcing, attaching, levying, collecting or recovering, by any manner or means, any judgment, award, decree, or other order against any Protected Party, or against the property of any Protected Party, with respect to any Asbestos Related Claim;

(iii) creating, perfecting, or enforcing in any manner any Lien of any kind against any Protected Party, or against the property of any Protected Party, with respect to any Asbestos Related Claim;

(iv) asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind, directly or indirectly, against any obligation due any Protected Party, or against the property of any Protected Party, with respect to any Asbestos Related Claim; and

(v) taking any act, in any manner, in any place whatsoever, that does not conform to, or comply with, the provisions of the Plan relating to any Asbestos Related Claim.

The provisions of the Channeling Injunction shall not shall bar (i) any action pursuant to

Case 2:20-bk-13921 ... Doc 19-1 ... Filed 04/23/20 ... Entered 04/23/20 ... 28:55:24 Desc
Exhibit 16 Page 32 of 44

Section 5.1.6 of the Plan against the Reorganized Debtor that strictly conforms to the pleading requirements of Section 5.1.6 of the Plan, and/or (ii) any action against any Asbestos Insurer that is neither a Settling Asbestos Insurer nor an Asbestos Insurer protected, at the time such action is brought, by the Asbestos Insurance Injunction.

b. Settling Asbestos Insurer Injunction

The Settling Asbestos Insurer Injunction provides that pursuant to Sections 524(g) and 105(a) of the Bankruptcy Code, upon the Effective Date, all entities which have held or asserted, which hold or assert, or which may in the future hold or assert any Asbestos Insurance Policy Claim shall be permanently stayed, restrained and enjoined from taking any legal action for the purpose of directly or indirectly collecting, recovering or receiving payment or recovery with respect to any such claim from or against any Settling Asbestos Insurer, only to the extent that such Settling Asbestos Insurer has been released from any claim under one or more Asbestos Insurance Policies pursuant to one or more Asbestos Insurance Settlements, including, but not limited to:

(i) commencing, conducting or continuing in any manner any action or other proceeding of any kind (including a judicial arbitration or other proceeding) against any Settling Asbestos Insurer, or against the property of any Settling Asbestos Insurer, with respect to any Asbestos Insurance Policy Claim;

(ii) enforcing, attaching, levying, collecting or recovering, by any manner or means, any judgment, award, decree, or other order against any Settling Asbestos Insurer, or against the property of any Settling Asbestos Insurer, with respect to any Asbestos Insurance Policy Claim;

(iii) creating, perfecting, or enforcing in any manner any Lien of any kind against any Settling Insurer, or against the property of any Settling Asbestos Insurer, with respect to any Asbestos Insurance Policy Claim;

(iv) asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind, directly or indirectly. against any obligation due any Settling Asbestos Insurer, or against the property of any Settling Asbestos Insurer, with respect to any Asbestos Insurance Policy Claim; and

(v) taking any act, in any manner, in any place whatsoever, that does not conform to, or comply with, the provisions of the Plan relating to any Asbestos Insurance Policy Claim.

c. Asbestos Insurer Injunction

The Asbestos Insurer Injunction provides that pursuant to Section 105(a) of the Bankruptcy Code, to carry out the provisions of Section 524(g) of the Bankruptcy Code, upon the Effective Date, all entities (except as expressly allowed below), which have held or asserted, which hold or assert, or which may in the future hold or assert any Asbestos Related Claim shall be permanently stayed, restrained and enjoined from taking any legal action for the purpose of directly or indirectly collecting, recovering or receiving payment or recovery with respect to any such claim from or against any Asbestos Insurer (except Fireman's Fund or Continental), including, but not limited to:

(i) commencing, conducting or continuing in any manner any action or other proceeding of any kind (including a judicial arbitration or other proceeding) against any Asbestos Insurer, or against the property of any Asbestos Insurer (except Fireman's Fund or Continental), with respect to any Asbestos Related Claim;

(ii) enforcing, attaching, levying, collecting or recovering, by any manner or means, any judgment, award, decree, or other order against any Asbestos Insurer (except Fireman's Fund or Continental), or against the property of any Asbestos Insurer (except Fireman's Fund or Continental), with respect to any Asbestos Related Claim;

(iii) creating, perfecting, or enforcing in any manner any Lien of any kind against any Asbestos Insurer (except Fireman's Fund or Continental), or against the property of any Asbestos Insurer (except Fireman's Fund or Continental), with respect to any Asbestos Related Claim;

(iv) asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind, directly or indirectly. against any obligation due any Asbestos Insurer (except Fireman's Fund or Continental), or against the property of any Asbestos Insurer (except Fireman's Fund or Continental), with respect to any Asbestos Related Claim; and

(v) taking any act, in any manner, in any place whatsoever, that does not conform to, or comply with, the provisions of the Plan relating to any Asbestos Related Claim.

The provisions of the Asbestos Insurer Injunction shall not preclude the Trust from pursuing any claim that may exist under any Asbestos Insurance Policy against any Asbestos Insurer. The provisions of the Asbestos Insurer Injunction shall not apply to protect either of Fireman's Fund or Continental. The provisions of the Asbestos Insurer Injunction shall not impair or affect (i) any Asbestos Insurance Litigation brought by the Trust or the Reorganized Debtor against any Asbestos Insurer, or (ii) any Asbestos Insurance Rights held by the Trust or on behalf of the Reorganized Debtor. The provisions of the Asbestos Insurer Injunction are not issued for the benefit of any Asbestos Insurer and no such insurer is a third-party beneficiary of the Asbestos Insurer Injunction. The Trust shall have the sole and exclusive authority at any time, upon written notice to any affected Asbestos Insurer, to terminate, or reduce or limit the scope of the Asbestos Insurer Injunction with respect to any Asbestos Insurer.

3. Reorganized Debtor

Following the Effective Date of the Plan, other than with respect to those assets to be contributed to the Trust, each of Thorpe and Pacific will be revested with all of the assets of their respective bankruptcy estates, free and clear of any interests, and Pacific shall be merged into Thorpe, which will continue to operate the business theretofore operated by Pacific and use, acquire, and dispose of its property free of any restrictions of the Bankruptcy Code. As a result of the Merger Agreement, all of the equity interests in Pacific will be exchanged for equity interests in Thorpe and Pacific shall cease to exist as an independent entity.

4. Agreements and Settlements with Debtors and Related Parties

As noted, the Plan is the product of numerous compromises and agreements negotiated among and between the Debtors, the Committee, the Futures Representative and related parties concerning the establishment and terms of the Trust, the funding of the Trust, the terms of discharges and releases, and the contributions and/or other conditions upon which parties may become entitled to the benefit of injunctive relief under Section 524(g) of the Bankruptcy Code.

The settlements embodied in the Plan relate to two major subjects. The first concerns the

Trust, its structure and funding, and the amount and form of the "substantial contribution" to be made by the Debtors, and by or on behalf of affiliated entities and individuals, to meet the requirements and entitle them to the benefits and protections of §524(g). The second involves the resolution of a number of rights, claims, and purported entitlements asserted between Thorpe and its estate, on the one hand (including rights that Thorpe, as debtor in possession, is authorized to assert under the Bankruptcy Code), and Pacific, Farwest, their respective equity holders, and various other related entities and individuals, on the other hand. Although individual elements of the settlements are logically related to one or another of these two major subjects, it is important to recognize that the settlements reflected in the Plan between and among the Debtors, their affiliates, the Committee and the Futures Representative comprise a single "global" integrated compromise, and that no individual element is independent of or severable from the other elements or from the compromise agreement taken as a whole.

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

Section 524(g) Requirements: As described above in Article VI.A.2, Section 524(g) of the Bankruptcy Code authorizes the issuance of an injunction that "channels" all asbestos personal injury claims – including future claims that arise after the bankruptcy case – to a trust (thus expanding the protection of the bankruptcy discharge given to the debtor, which otherwise would not affect future claims), and that protects non-debtor parties against liability on asbestos personal injury claims – both present and future – asserted against the debtor (protection that otherwise would not be available at all since a bankruptcy discharge otherwise protects only the debtor and not third parties). There are complex requirements established by the statute for a debtor and for non-debtor third parties to obtain this protection against present and future asbestos personal injury claims. One of those requirements, applicable to both debtors and non-debtor third parties, is the requirement to make a substantial contribution to the trust to which the present and future claims are channeled.

Disputed Rights, Claims and Entitlements: The disputes resolved by the plan settlements include primarily the following:

- Avoidance claims against or involving Pacific and Farwest. The Committee and the Futures Representative have asserted that the transactions in which Pacific was organized and spun off to the shareholders of Thorpe in 2000, and Farwest acquired the remaining operating assets and

business of Thorpe in 2004, may have constituted transfers that are avoidable (*i.e.*, could be reversed) by creditors of Thorpe and on behalf of Thorpe's bankruptcy estate, principally on the basis that they were "fraudulent transfers" under applicable state and bankruptcy law. Pacific and Farwest and their respective shareholders dispute this assertion on a variety of grounds, including that the transactions at issue were undertaken for legitimate business reasons, that any asset transfers were made for fair value, and (in the case of Pacific) that the statute of limitations bars any action to challenge the transaction.

- Pre-petition loan from Thorpe to Pacific. In October 2007, Thorpe loaned Pacific $1,850,000. The Thorpe estate therefore asserts a claim against Pacific for repayment of that amount.

- Claims asserted by Pacific, Farwest and their respective shareholders against Thorpe for indemnification, reimbursement and/or damages arising from the assertion against Pacific and Farwest of asbestos personal injury claims based on the asbestos-related activities of Thorpe.

- Assertion by Pacific, Farwest, and their respective shareholders of an entitlement to or interest in claims against Thorpe's insurers for extra-contractual damages, based principally on the theory that some of the insurers tortiously breached obligations owed to their policyholders, and that, because of the relationship of these other entities to Thorpe, and the nature of the injuries incurred by these affiliated entities, the affiliated entities also have claims against the insurers or a right to share in recoveries on Thorpe's claims.

To address and resolve the foregoing matters, the parties have agreed on the following plan provisions:

Reorganized Debtor Promissory Note. The Reorganized Debtor will deliver a promissory note to the Trust (to be filed as Exhibit K to the Plan, at least ten days prior to the hearing to consider approval of the disclosure statement) (the "Promissory Note"), with the following economic terms: (i) principal amount of $750,000, (ii) interest fixed at a rate per annum equal to the "discount rate" established by the Federal Reserve Bank of San Francisco in effect on the Confirmation Date plus 3%, (iii) term of five years, (iv) mandatory annual payments of principal of not less than $150,000, but subject to voluntary prepayment without penalty in whole or in part, and (v) secured by 51% of

the stock in the Reorganized Debtor. Any entitlement of the Reorganized Debtor to payments from the Trust may be offset against any sums due under the Promissory Note.

Reorganized Debtor Earnout Note. The Reorganized Debtor shall also deliver a promissory note to the Trust (to be filed as Exhibit L to the Plan) (the "Earnout Note"), with the following economic terms: (i) principal amount of $500,000, (ii) interest fixed at a rate per annum equal to the "discount rate" established by the Federal Reserve Bank of San Francisco in effect on the Confirmation Date plus 3%, payable annually in arrears, and (iii) all principal and interest due in 10 years, with mandatory annual payments of principal equal to 50% of the annual profits of the Reorganized Debtor for the year just ended, not to exceed $50,000 per year, subject to the right to prepay, in whole or in part, without penalty, at any time.

Farwest Contribution and Settlement. On the Effective Date, Farwest shall pay the Trust $500,000 in cash, for itself and on behalf of the Identified Parties (identified in the Plan as Bayshore Partners, LLC, formerly known as Bayshore Group, which was formerly known as Fults Development Co.; Robert W. Fults; Debra Fults; Linda E. Fults; Eric W. Fults; Vicky Fults; David A. Fults; and Stacie Fults) as, inter alia, their contribution pursuant to Section 524(g) and in consideration for the Farwest Settlement. Under the Farwest Settlement (Exhibit G to the Plan) all Intercompany Claims among the Debtors, on the one hand, and Farwest, on the other hand, shall be deemed fully and finally settled and the parties shall exchange mutual general releases. In particular, but without limitation, Farwest shall be deemed to have waived and released any and all claims it has, or may have, to some or all of the Business Loss Allocation which is otherwise being fully allocated to the Reorganized Debtor pursuant to the Plan. Farwest reserves the right to file a request for payment of an Administrative Claim for a substantial contribution pursuant to Sections 503(b)(3)(D) and (4) of the Bankruptcy Code for the fees and expenses incurred by its counsel in connection with these Chapter 11 Cases in an amount to be determined by the Bankruptcy Court.

Business Loss Allocation. The claims against insurers to be transferred to the Trust under the Plan include claims for damages for lost business opportunities, business interruption or other cost, loss or damage to the Debtors' businesses, or impairment of Asbestos Insurance Coverage, based on, arising under or related to any Asbestos Insurance Litigation ("Business Losses"). As noted above,

Pacific and Farwest and their owners contend that such claims are valuable and that they are entitled to a portion of any net recoveries from insurers on account of such claims. In resolution of this dispute, the parties have agreed that: (a) the Reorganized Debtor shall not receive certain insurance settlement monies already received (although some of such funds are being and will continue to be used to pay the administrative expenses of the Thorpe bankruptcy case, including the professional fees of counsel to Thorpe, the Committee and the Futures Representative); and (b) with respect to other funds received by the Trust from settlements with, or judgments against, insurers (including future amounts received under the settlements with Great American and American Centennial) ("Net Recoveries"), the Reorganized Debtor would receive a specified percentage of such recoveries up to the maximum aggregate amount of $5,250,000.

The portion of the aggregate Business Losses sustained by the Debtors that shall be paid by the Trust to the Reorganized Debtor will be determined as follows: The sum of (i) 2% of all Net Recoveries up to $200 million, plus (ii) .75% of all Net Recoveries between $200 million and $300 million, plus (iii) .25% of all Net Recoveries between $300 million and $500 million. The Trust shall not pay the Reorganized Debtor any amounts for Business Losses on account of any Net Recoveries in excess of $500 million. The Business Loss Allocation shall not exceed, under any circumstances, $5.25 million.

Pacific Merged Into Thorpe. The effect of this merger is to reverse the transaction in 2000 by which Pacific was spun off from Thorpe, *i.e.*, the transaction which the Committee and the Futures Representative assert may be avoidable as a fraudulent transfer.

The Committee and the Futures Representative have agreed to these terms based upon an assessment of the legal and factual bases of the claims that could be asserted by or on behalf of the Thorpe Estate, and the claims, rights and entitlements asserted by Pacific, Farwest, and their affiliated entities and individuals against or with respect to the Thorpe Estate and its assets, including rights to recover under insurance policies, and defenses to such claims or asserted rights or entitlements. In addition, the Committee and the Futures Representative have taken into account a range of practical and pragmatic considerations, including the cost to the estate of litigating over these matters, the likely net recovery if the matters were to be litigated to conclusion, the desirability

of reaching a prompt resolution on these matters to enable the parties to proceed as expeditiously as possible with confirmation of the Plan, the relative financial significance of these matters in relation to the other assets currently available or anticipated to be available to the estate and the Trust (primarily from recoveries from Thorpe's insurers), and the desirability of providing an economic incentive to the owners of the Debtor to assist in the efforts to recover on the Business Loss claims against Thorpe's insurers. In light of all of these considerations, the Committee and the Futures Representative believe that the terms to which they have agreed, as reflected in the Plan and as described in substantial part above, are fair and reasonable from the standpoint of, and hence are in the best interest of, Thorpe's creditors and future claimants.

B. Summary of Classification and Treatment of Claims under the Plan

The following describes the Plan's classification of Claims against and Equity Interests in Thorpe and Pacific and the treatment the holders of Allowed Claims and Allowed Equity Interests would receive under the Plan. The treatment of Claims set forth below is consistent with the requirements of Section 1129(a) of the Bankruptcy Code.

Class 1	Priority Employee Claims	Class 1 Claims are to be paid in full. The Debtors are not currently aware of any Class 1 claims. Class 1 is unimpaired and holders of Class 1 Claims are deemed to have accepted the Plan.
Class 2	Miscellaneous Secured Claims (each secured creditor in a separate class identified as class 2a, Class 2b, etc.)	Class 2 Claims are to be paid in full, or the collateral securing such claims will be surrendered. The Debtors are not currently aware of any Class 2 Claims. Class 2 is unimpaired and holders of Class 2 Claims are deemed to have accepted the Plan.
Class 3	Pacific Unsecured Claims	Class 3 Claims shall be paid in full, with interest at the Plan Interest Rate from the Petition Date through the date of Distribution. Class 3 is unimpaired and holders of Class 3 Claims are deemed to have accepted the Plan.
Class 4	Thorpe Unsecured Claims	Class 4 claims shall be paid in full, with interest at the plan interest rate from the petition date through the date of distribution. Holders of Class 4 claims are deemed to have accepted the Plan.

Class 5	Asbestos Injury Claims	Upon the Effective Date, the Trust shall assume responsibility for all Asbestos Injury Claims and Asbestos Indirect Claims. The amount that each holder of such a Claim shall be entitled to receive from the Trust shall be determined in accordance with the TDP, shall remain subject to the Asbestos Related Defenses and shall be paid at the times and in the manner set forth in the TDP. In no event shall the Trust's obligation to pay the holder of an Asbestos Injury Claim or Asbestos Indirect Claim the amount of such claim as determined in accordance with the TDP be satisfied other than by the payment in full of such amount.
Class 6	Pacific Interests	On the Effective Date, the Merger shall be consummated and all Pacific Equity Securities shall automatically be terminated and extinguished and Pacific shall be merged into Thorpe with Thorpe to be the Surviving Corporation. Pursuant to the Merger Agreement, each holder of a Pacific Interest shall receive, in exchange for such interest, the Reorganized Debtor New Common Stock identified in the Merger Agreement. Upon and following the occurrence of the Effective Date, the Reorganized Debtor New Common Stock shall be subject to the Reorganized Debtor Stock Pledge Agreement, which shall encumber 51% of the Reorganized Debtor New Common Stock held by each holder of such stock. Class 5 is impaired and holders of Class 5 Pacific Interests are entitled to vote.

Class 7	Thorpe Interests	On the Effective Date, the Merger shall be consummated and all Thorpe Equity Securities shall automatically be terminated and extinguished and Pacific shall be merged into Thorpe with Thorpe to be the Surviving Corporation. Pursuant to the Merger Agreement, each holder of a Thorpe Interest shall receive, in exchange for such interest, the Reorganized Debtor New Common Stock identified in the Merger Agreement. Upon and following the occurrence of the Effective Date, the Reorganized Debtor New Common Stock shall be subject to the Reorganized Debtor Stock Pledge Agreement, which shall encumber 51% of the Reorganized Debtor New Common Stock held by each holder of such stock. Class 6 is impaired and holders of Class 6 Thorpe Interests are entitled to vote.

LOS ANGELES, CALIFORNIA

C. Means of Implementation of the Plan

The following shall constitute the principal means for the implementation of the Plan, as set forth in Article 5 of the Plan.

1. Establishment of the Trust

On the Effective Date, the Trust shall be established in accordance with the Trust Documents, and all Trust Assets shall be paid, transferred to, vested in, and assumed by the Trust. On the Effective Date, (i) all Asbestos Related Claims shall be assumed by the Trust, subject in all respects to any Asbestos Related Defenses, (ii) except as provided in the Plan, Asbestos Related Claims shall thereafter automatically and perpetually be transferred and channeled to the Trust, and (iii) the Trust shall be solely responsible for any and all obligations of the Trust under the terms of the Asbestos Insurance Settlements and the Trust Agreement.

THE FORMATION, FUNDING, MANAGEMENT, CLAIMS LIQUIDATION PROCEDURES, DISTRIBUTION PROCEDURES AND OTHER OPERATIONS AND PROVISIONS OF THE TRUST ARE SUMMARIZED IN ARTICLE VII OF THIS DISCLOSURE STATEMENT BELOW.

2. Approval and Implementation of Reorganized Debtor and Farwest Contributions to Trust.

The Confirmation Order shall constitute the determination by the Bankruptcy Court that the

Farwest Settlement contained in Exhibit G to the Plan is approved. On the Effective Date, (a) the Farwest Contribution shall be paid to the Trust, and (b) the Reorganized Debtor Notes and the Reorganized Debtor Stock Pledge Agreement shall be delivered to the Trust. Any amounts due and outstanding by the Trust to the Reorganized Debtor on account of the Business Loss Allocation shall, as long as the Reorganized Debtor Promissory Note remains unpaid and outstanding, be retained by the Trust and offset against amounts due to the Trust by the Reorganized Debtor under the Reorganized Debtor Promissory Note (as such offset may be effectuated pursuant to the terms specified in the Reorganized Debtor Promissory Note).

3. Issuance of Injunctions.

On the Effective Date, the Injunctions described in Article VI.A.2 above shall be deemed issued, entered, valid and enforceable according to their terms. Except as permitted by their terms, the Injunctions shall be permanent and irrevocable and may only be modified by the District Court to the extent permitted under Section 524(g)(2)(A) of the Bankruptcy Code.

4. Vesting of Asbestos Insurance Rights.

Transfer of Asbestos Insurance Rights to Trust. Upon the Effective Date, pursuant to Sections 1123(a)(5)(B) and 1123(b)(3)(B) of the Bankruptcy Code and without any further action of the Bankruptcy Court or further act or agreement of any entity, the Debtors shall automatically and irrevocably transfer to the Trust all of their Asbestos Insurance Rights, subject to any Asbestos Insurance Defenses. The foregoing transfer is made, and shall be effective, to the maximum extent permissible under applicable law and the terms of the Asbestos Insurance Policies, and shall not be construed (a) as an assignment of any Asbestos Insurance Policy, Asbestos Insurance Settlement, or other settlement agreement itself, or (b) to entitle any other person or entity to any Asbestos Insurance Coverage. The Trust shall assume responsibility for, and be bound by, all obligations of the Debtors under any Asbestos Insurance Settlement, any other settlement agreement with an Asbestos Insurer, and any Asbestos Insurance Policy, provided however, that the Trust's assumption of such responsibility shall not relieve the Debtors or the Reorganized Debtor from any obligation that the Debtors or the Reorganized Debtor may have under such agreements. In the event that the Reorganized Debtor incurs any out of pocket cost or expense in performing any obligation that the

Debtors or Reorganized Debtor may have under any Asbestos Insurance Settlement, any other settlement agreement with an Asbestos Insurer, or any Asbestos Insurance Policy, the Trust shall reimburse the Reorganized Debtor for such cost or expense.

Plan Is Insurance Neutral. All Asbestos Insurance Defenses shall be adjudicated in the Asbestos Insurance Litigation. No provision of the Plan shall diminish or impair the right of any Asbestos Insurer, in any Asbestos Insurance Litigation or otherwise, to assert any Asbestos Insurance Defense, and all of such defenses shall be preserved in all respects. Any evidence adduced as part of the Confirmation Hearing with respect to the Asbestos Related Claims, and any findings of the court related to that evidence, shall be solely for the purpose of establishing the requirements of Sections 524(g) and 1129 of the Bankruptcy Code in connection with Confirmation and shall not (a) bind any Asbestos Insurer in any Asbestos Insurance Litigation, or (b) limit the right of any Asbestos Insurer to assert any Asbestos Insurance Defense. Neither the assumption by the Trust of the Asbestos Related Claims, nor the ensuing obligations of the Trust to liquidate, resolve, pay and satisfy all Asbestos Related Claims in accordance with the TDP, shall be construed in any way to diminish any obligation of any Asbestos Insurer under any Asbestos Insurance Policy to any of the Debtors or the Trust, subject to any applicable Asbestos Insurance Settlement or Asbestos Insurance Defense. The duties and obligations of each Asbestos Insurer under such insurer's Asbestos Insurance Policies shall not be impaired, altered, reduced or diminished by the: (1) discharge of all obligations and liabilities of the Debtors under the Plan, (2) assumption of responsibility and liability for all Asbestos Related Claims by the Trust, or (3) protections granted to Protected Parties under the Plan. Notwithstanding the foregoing, this Section 5.4.2 shall not affect or limit, or be construed as affecting or limiting, (i) the binding effect of the Plan and Confirmation Order and the Injunctions on the Debtors, the Reorganized Debtor, the Trust or the beneficiaries of the Trust; (ii) the protections afforded to entities addressed by the Injunctions, or (iii) the binding effect of any finding in the Confirmation Order that the vesting of the Asbestos Insurance Rights in and for the benefit of the Trust pursuant to Section 5.4.1 of the Plan is valid and enforceable and otherwise does not breach the terms of any Asbestos Insurance Policy, Asbestos Insurance Settlement, or any other agreement with any Asbestos Insurer.

5. Merger of Thorpe and Pacific.

Upon the Effective Date, Pacific shall be merged into Thorpe, the separate existence of Pacific shall thereupon cease (i.e., Pacific shall be the "disappearing corporation" under the Merger), and Thorpe, as the Surviving Corporation in the Merger, shall continue its corporate existence under the laws of the State of California. Upon the completion of the Merger, Thorpe shall be the Reorganized Debtor for purposes of consummating the transactions required in connection with the Plan. The name of the Surviving Corporation shall be "Pacific Insulation Company."

Intercompany Claims Extinguished. Upon the Effective Date, pursuant to the Merger, all Intercompany Claims between Thorpe and Pacific shall be deemed extinguished.

Pacific Officers and Pacific Directors. Upon the Effective Date, and without any further action by the shareholders or directors of Pacific, the Pacific Officers and the Pacific Directors shall be deemed to have fulfilled their respective duties and shall be released and discharged from all further responsibilities with respect to the management, business and affairs of Pacific, as the "disappearing corporation" under the Merger, provided that, all outstanding amounts that may be due the Pacific Officers and the Pacific Directors shall remain payable according to the terms, and subject to the conditions of, such service.

No Liability. The Reorganized Debtor shall, pursuant to Section 524(g)(3)(A)(ii) of the Bankruptcy Code, have no liability for any Asbestos Related Claims against Pacific.

6. Resumption of Coverage Litigation.

Continuation in State Court. Upon the Effective Date, (a) any injunction that stays the prosecution of the Coverage Litigation shall be deemed dissolved, without any further action of the Bankruptcy Court, (b) the Injunction Action shall be dismissed without prejudice, and Proponents shall lodge an order of dismissal without prejudice, which the Court shall sign, and (c) the parties to the Coverage Litigation shall resume the prosecution and defense of such litigation in the State Court, at such times and according to the procedures that may be established by such court.

Trust As Representative of Debtors. The Trust is appointed as the representative of the Debtors under Section 1123(b)(3)(B) of the Bankruptcy Code to enforce, manage, settle, transfer or otherwise dispose of all Asbestos Insurance Litigation including, without limitation, the Coverage

Litigation, at its sole direction and expense. The Trust shall be permitted, if necessary or appropriate, to substitute as the real party in interest for the Debtors in the Coverage Litigation. All Proceeds of any Asbestos Insurance Litigation shall be paid to the Trust or to the Reorganized Debtor for remittance to the Trust consistent with the Plan. The Reorganized Debtor shall assist and cooperate with the Trust in the prosecution of the Asbestos Insurance Litigation.

7. Transfer and Retention of Property of the Estates.

Revesting of Pacific Assets. Upon the Effective Date, with the exception of all Trust Assets that are transferred to the Trust pursuant to Section 5.4.1 of the Plan, Pacific shall be vested with all right, title and interest in the Pacific Assets (and all such property shall be deemed to vest concurrently with the Merger), and all such property shall become the property of the Reorganized Debtor pursuant to the Merger.

Revesting of Thorpe Assets. Upon the Effective Date, with the exception of all Trust Assets that are transferred to the Trust pursuant to Section 5.4.1 of the Plan, Thorpe shall be vested with all right, title and interest in the Thorpe Assets subject to the obligations to make (a) the Reorganized Debtor Contribution to the Trust, and (b) Distributions to the Creditors of the Debtors at the times, in the amounts and according to the treatment provisions of the Plan.

8. Postconfirmation Operations.

Continued Business of Reorganized Debtor. Following the Merger, the Reorganized Debtor shall continue to maintain its separate corporate existence for all purposes under the Plan with all the powers of a corporation under applicable law in the jurisdiction in which it is incorporated. The Reorganized Debtor shall continue to engage in business and may use, acquire and dispose of the Thorpe Assets (and all Pacific Assets acquired pursuant to the Merger), to the extent revested in the Reorganized Debtor pursuant to Section 5.7 of the Plan, without supervision by the Bankruptcy Court, free of any restrictions under the Bankruptcy Code or the Bankruptcy Rules.

Payment of Reorganized Debtor Expenses. All Reorganized Debtor Expenses shall be paid directly by the Trust (or, to the extent previously paid by the Reorganized Debtor, shall be reimbursed in full by the Trust from the Trust Assets, provided that, if such payments were made from funds contributed, or to be contributed, to the Trust as Trust Assets, no reimbursement shall be

made), in the ordinary course of business without further notice to Creditors or approval of the Bankruptcy Court. The fees and expenses incurred after the Effective Date by any Professionals that remain employed as a professional, following the Effective Date, by any of the Reorganized Debtor, the Disbursing Agent, the Committee or the Futures Representative shall constitute Reorganized Debtor Expenses payable according to Section 5.8.3 of the Plan.

Creditors' Committee. On the Effective Date, the Committee shall be dissolved and the members of the Committee shall be released and discharged from any further authority, duties, responsibilities, liabilities and obligations related to, or arising from, the Chapter 11 Cases, except that the Committee shall continue in existence and have standing and capacity to: (i) prosecute its pre-Effective Date intervention in any adversary proceedings; (ii) object to any proposed modification of the Plan; (iii) participate in any appeals of the Confirmation Order; (iv) participate as a party in interest in any proceeding involving Section 524(g) of the Bankruptcy Code; (v) participate as a party in interest in any applications for interim or final award of compensation and reimbursement of expenses to the members of the Committee and any Professional for services rendered prior to the Effective Date, and prepare and prosecute applications for the payment of fees and reimbursement of expenses; and (vi) participate as a party in interest in any proceeding relating to the Trust.

Management of Reorganized Debtor.

(a) New Board of Directors. Upon the Effective Date, the Thorpe Directors shall be deemed to have fulfilled their respective duties and shall be released and discharged from all further responsibilities with respect to the management, business and affairs of Thorpe, as the Surviving Corporation. Immediately thereafter, the management, control and operation of the Reorganized Debtor shall become the general responsibility of the board of directors of the Reorganized Debtor. The initial board of directors of the Reorganized Debtor shall be composed of the Reorganized Debtor Directors. Each of the members of such initial board of directors shall serve in accordance with applicable nonbankruptcy law and the Reorganized Debtor's Charter, as the same may be amended from time to time. From and after the Effective Date, the members of the board of directors of the Reorganized Debtor shall be selected and determined in accordance with the

provisions of applicable law and the Reorganized Debtor's Charter. Entry of the Confirmation Order shall ratify and approve all actions taken by the board of directors of Pacific and Thorpe from the Petition Date through and until the conclusion of the Confirmation Hearing.

(b) New Officers. Upon the Effective Date, the Thorpe Officer shall be deemed to have fulfilled his duties and shall be released and discharged from all further responsibilities with respect to the management, business and affairs of Thorpe, as the Surviving Corporation. Immediately thereafter, the Reorganized Debtor Officers shall be deemed appointed to serve as officers of the Reorganized Debtor without further action under applicable law, regulation, order or rule including, without limitation, any action by the stockholders or directors of the Reorganized Debtor. The Reorganized Debtor Officers shall serve in accordance with applicable nonbankruptcy law, any employment agreement with the Reorganized Debtor, and the Reorganized Debtor's Charter, as the same may be amended from time to time.

9. Certain Claims and Defenses.

a. No Preclusive Effect.

None of the Retained Claims or Defenses, the Asbestos Insurance Litigation or any Asbestos Related Defense shall be precluded, barred or subject to principles of res judicata or collateral estoppel because the Plan or the Disclosure Statement does not specifically identify any such claims or defenses or the Person against whom such claims or defenses may be asserted. Parties in interest, including Creditors, may not rely on the absence of a reference to a particular claim or defense in the Disclosure Statement or the Plan as any indication that the Debtors will not pursue any available claims and defenses against such parties.

b. Retained Claims and Defenses.

Following the Effective Date, the Reorganized Debtor may assert, compromise or dispose of the Retained Claims and Defenses without further notice to Creditors or authorization of the Bankruptcy Court.

c. Avoidance Actions Deemed Waived.

Upon the Effective Date, all Avoidance Actions of the Debtors shall be deemed waived and released, provided that, the waiver and releases of Avoidance Actions against Farwest shall be

subject to the Farwest Settlement.

d. Appointment of Estate Representative for Pacific.

The Reorganized Debtor is appointed as the representative of Pacific under Section 1123(b)(3) of the Bankruptcy Code to carry out the Plan. The Reorganized Debtor shall be authorized to: (i) make all Distributions required to be made on or after the Effective Date to the holders of Allowed Claims against Pacific in the amounts, at the times and according to the treatment provisions of the Plan; (ii) settle, resolve and object to Disputed Claims against Pacific; (iii) pay all fees payable by Pacific under 28 U.S.C. § 1930; (iv) file any post-confirmation reports on behalf of Pacific required by the Bankruptcy Code or the Bankruptcy Court; and (vii) close Pacific's Chapter 11 Case.

10. No Substantive Consolidation.

Nothing in the Plan is intended to substantively consolidate the Estates of Thorpe and Pacific, and each such entity shall maintain its separate corporate existence and Assets (except that, upon the Merger, all right, title and interest in the Pacific Assets--with the exception of the Trust Assets transferred to the Trust--shall become the property of Thorpe by operation of law).

11. Distributions.

a. Disputed Claims.

The Reorganized Debtor shall file all objections to Disputed Claims on or before the 120th day following the Effective Date, unless the Bankruptcy Court, for cause shown, extends such deadline. The Reorganized Debtor shall be authorized to settle, or withdraw any objections to, any Disputed Claims following the Confirmation Date without further notice to Creditors or authorization of the Bankruptcy Court, in which event such Claim shall be deemed to be an Allowed Claim in the amount compromised for purposes of the Plan. No Distributions shall be made by the Disbursing Agent on account of (i) Disputed Claims, unless and to the extent such Claims become Allowed Claims, or (ii) Claims that may be or become Disputed by the Reorganized Debtor, unless and to the extent the deadline to object to such claims under Section 5.12.3 of the Plan has expired without an objection being filed and such Claims are otherwise Allowed Claims.

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

b. Unclaimed Distributions.

Any entity which fails to claim any Cash within ninety (90) days from the date upon which a Distribution is first made to such entity shall forfeit all rights to any Distribution under the Plan and the Disbursing Agent shall be authorized to cancel any Distribution that is not timely claimed, provided that, prior to and as a condition to such forfeiture, the Disbursing Agent shall file with the Bankruptcy Court and serve (by first-class mail, using addresses or forwarding instructions that are reasonably available to the Disbursing Agent), a notice of forfeiture specifying the amount and payee of each Distribution that is subject to forfeiture if it is not claimed within thirty (30) days of the date of service of the notice. Pursuant to Section 347(b) of the Bankruptcy Code, upon forfeiture, such Cash (including interest thereon, if any) shall revert to the Reorganized Debtor free of any restrictions under the Plan, the Bankruptcy Code or the Bankruptcy Rules. Upon forfeiture, the claim of any Creditor with respect to such funds shall be discharged and forever barred notwithstanding any federal or state escheat laws to the contrary, and such Creditors shall have no claim whatsoever against the Reorganized Debtor or any holder of an Allowed Claim to whom distributions are made by the Disbursing Agent.

c. Setoff.

Nothing contained in the Plan shall constitute a waiver or release by the Debtors of any right of setoff or recoupment the Debtors may have against any Creditor. The Reorganized Debtor may, but is not required to, set off or recoup against any Claim or Interest and the payments or other distributions to be made under the Plan in respect of such Claim, claims of any nature whatsoever that arose before the Petition Date that the Debtors may have against the holder of such Claim or Interest.

d. Taxes.

Pursuant to Section 346(f) of the Bankruptcy Code, the Disbursing Agent shall be entitled to deduct any federal, state or local withholding taxes from any Cash payments made with respect to Allowed Claims, as appropriate. The Reorganized Debtor shall be authorized to take all actions necessary to comply with applicable withholding and recording requirements. Notwithstanding any other provision of the Plan, each holder of an Allowed Claim that has received a distribution of Cash

shall have sole and exclusive responsibility for the satisfaction or payment of any tax obligation imposed by any governmental unit, including income, withholding and other tax obligation, on account of such distribution. For tax purposes, distributions received in respect of Allowed Claims will be allocated first to the principal amount of such Claims, with any excess allocated to unpaid accrued interest.

D. Assumption and Rejection of Executory Contracts and Unexpired Leases

1. Assumption.

On the Effective Date, pursuant to Section 1123(b)(2) of the Bankruptcy Code, Thorpe and Pacific will assume the executory contracts and unexpired leases of Thorpe and Pacific that (i) have been expressly identified for assumption on Exhibit E to the Plan (together with any additions, deletions, modifications or other revisions to such exhibit as may be made by the Proponents prior to the Confirmation Date) and (ii) are specified in Section 6.8 of the Plan. Each executory contract and unexpired lease listed in Exhibit E shall include any modifications, amendments and supplements to such agreement, whether or not listed in Exhibit E. Any agreement found by the Bankruptcy Court to be an executory contract of Thorpe which has not been expressly assumed by Thorpe shall be deemed rejected; any agreement which is found by the Bankruptcy Court to be an executory contract of Pacific which has not been expressly rejected by Pacific shall be deemed assumed. Notwithstanding the foregoing, although the Proponents contend that prepetition insurance contracts or agreements to which Thorpe is a party are not executory contracts subject to assumption, to the extent the Bankruptcy Court determines otherwise, said prepetition insurance contracts and agreements shall be deemed assumed by the Reorganized Debtor pursuant to the Plan.

In the case of Thorpe, Exhibit E to the Plan identifies for assumption (to the extent necessary, if not otherwise assumed by order of the Bankruptcy Court), the Asbestos Insurance Settlements with the Asbestos Insurers listed in Exhibit D to the Plan. In the case of Pacific, Exhibit E does not identify for assumption any executory contracts or unexpired leases. For the avoidance of doubt, Exhibit E to the Plan clarifies that certain pre-petition agreements have been previously assumed by

orders of the Bankruptcy Court.[4] Under Section 6.4 of the Plan, the Plan does not affect any executory contracts or unexpired leases that have been assumed prior to the Confirmation Date.

In addition, Exhibit E to the Plan clarifies that certain pre-petition tort litigation settlement agreements between Thorpe and various Asbestos Claimants are not considered executory contracts (notwithstanding their prior inclusion in Schedule G to the Schedules filed by Thorpe), and, accordingly, are not listed for either assumption or rejection by Thorpe under the Plan. Nevertheless, any Asbestos Injury Claims against Thorpe arising under such agreements will be assumed by the Trust pursuant to the Plan.

Thorpe, Fireman's Fund and Continental are parties to a Wellington Agreement dated June 1985. The Wellington Agreement is an omnibus insurance coverage and claims handling protocol among approximately 35 asbestos product manufacturers and distributors and certain of their respective insurers. The Wellington Agreement and the Wellington Settlement Agreement are not executory contracts and, accordingly, are not listed for either assumption or rejection by Thorpe under the Plan.

2. Rejection.

On the Effective Date, pursuant to Section 1123(b)(2) of the Bankruptcy Code, Thorpe and Pacific will reject the executory contracts and unexpired leases of Thorpe and Pacific that have been expressly identified for rejection on Exhibit F to the Plan (together with any additions, deletions, modifications or other revisions to such exhibit as may be made by the Proponents prior to the Confirmation Date). Each executory contract and unexpired lease listed in Exhibit F shall include any modifications, amendments and supplements to such agreement, whether or not listed in Exhibit F. Any Person asserting any Claim for damages arising from the rejection of an executory contract or unexpired lease of Thorpe or Pacific under the Plan shall file such Claim on or before the Rejection Claim Bar Date, or be forever barred from (i) asserting such Claim against the Reorganized Debtor, Thorpe, Pacific or any property of Thorpe or Pacific, and (ii) sharing in any

[4] See, for example, the (a) *Amended Order Approving the Motion of Pacific Insulation Company for Authority to Assume Certain Executory Contracts and Unexpired Leases*, entered by the Bankruptcy Court on April 9, 2008, and (b) *Order Granting Pacific Insulation Authority to Assume Certain Executory Contracts re (1) Johns Manville and (2) Employees' Profit Sharing Plan*, entered by the Bankruptcy Court on May 22, 2008.

distribution under the Plan.

Exhibit F to the Plan does not identify any executory contracts or unexpired leases of either Thorpe or Pacific to be rejected under the Plan.

3. Assumption Obligations.

The Reorganized Debtor shall satisfy all Assumption Obligations, if any, by making a Cash payment in the manner provided in Section 2.2 of the Plan, equal to the amount specified in Exhibit E to the Plan, unless an objection to such proposed amount is filed with the Bankruptcy Court and served on counsel to the Debtors on or prior to the date set by the Bankruptcy Court for filing objections to Confirmation of the Plan and the Bankruptcy Court, after notice and hearing, determines that the applicable Debtor is obligated to pay a different amount under Section 365 of the Bankruptcy Code, in which case, the applicable Debtor shall have the right within ten (10) days after such determination to seek an order of the Bankruptcy Court rejecting such executory contract or unexpired lease. Any Person that fails to object to the Assumption Obligation specified in Exhibit E to the Plan on or prior to the date set by the Bankruptcy Court for filing objections to Confirmation of the Plan shall be forever barred from (i) asserting any other, additional or different amount on account of such obligation against the Reorganized Debtor, Thorpe, Pacific or any property of Thorpe or Pacific, and (ii) sharing in any other, additional or different distribution under the Plan on account of such obligation.

4. Effect of Confirmation Order.

The Confirmation Order shall constitute an order of the Bankruptcy Court approving, as of the Effective Date, the assumption or rejection by Thorpe and Pacific, as the case may be, pursuant to Sections 365(a) and 1123(b)(2) of the Bankruptcy Code, of all executory contracts and unexpired leases identified under Article VI of the Plan.

5. Post-Petition Agreements.

Unless inconsistent with the provisions of the Plan, all contracts, leases and other agreements entered into or restated by either of the Debtors on or after their respective Petition Dates, or previously assumed by either of the Debtors prior to the Confirmation Date (or the subject of a pending motion to assume by either of the Debtors as of the Confirmation Date that is granted by the

Bankruptcy Court), which have not expired or been terminated in accordance with their terms, shall be performed by the Reorganized Debtor in the ordinary course of business and shall survive and remain in full force and effect following the Effective Date.

6. Insurance of Debtors.

Any insurance policy acquired for the benefit of the Debtors (or any officers and directors of any of the Debtors) before or after the Petition Date, including any Asbestos Insurance Policy, shall remain in full force and effect after the Effective Date according to its terms, except as otherwise provided in any Asbestos Insurance Settlement.

7. Employee Benefit Programs.

All Employee Benefit Programs shall be treated as "executory contracts" and shall be assumed pursuant to Sections 365 and 1123(b)(2) of the Bankruptcy Code by operation of the Plan. The Debtors do not provide "retiree benefits" as that term is defined in Section 1114(a) of the Bankruptcy Code. Therefore, on and after the Effective Date the Debtors will not pay retiree benefits.

8. Survival of Indemnification Obligations.

Any and all obligations of Thorpe or Pacific to indemnify, reimburse or limit the liability of its past and present Agents pursuant to the applicable Charter, applicable law or specific agreements, or any combination of the foregoing, against any actions, suits and proceedings based upon any act or omission related to service with or for Thorpe or Pacific shall not be discharged or impaired by Confirmation.

E. Conditions to Confirmation and Effectiveness

1. Conditions to Confirmation.

The following are conditions precedent to confirmation of the Plan:

(a) The Bankruptcy Court shall have entered a Final Order approving a Disclosure Statement with respect to this Plan in form and substance satisfactory to the Proponents;

(b) The Confirmation Order shall be in a form and substance reasonably acceptable to the Proponents; and

(c) The Wellington Settlement Claims Favorable Determination shall have occurred.

2. Conditions to Effectiveness.

The following are conditions precedent to the occurrence of the Effective Date:

(a) The Confirmation Date shall have occurred;

(b) The Confirmation Order shall be a Final Order;

(c) No request for revocation of the Confirmation Order under Section 1144 of the Bankruptcy Code has been made, or, if made, remains pending;

(d) The Trust Agreement shall have been executed and delivered;

(e) The Professional Fee Reserve shall have been established and funded in an amount sufficient (as determined by the Debtors, in their reasonable discretion) to pay all anticipated Allowed Professional Fees accrued through the Effective Date and to reimburse Pacific for all Allowed Professional Fees previously paid by it during the course of its Chapter 11 Case, provided that, such reimbursement shall be reduced by $250,000 on account of amounts previously funded by Pacific for retainers to Professionals; and

(f) The Proponents shall have obtained a QSF Opinion in a form and substance reasonably acceptable to the Proponents.

3. Waiver of Conditions.

Conditions to Confirmation and the Effective Date may be waived, in whole or in part, by agreement of the Proponents at any time without notice, an order of the Bankruptcy Court, or any further action other than proceeding to Confirmation and consummation of the Plan, provided that, (i) the condition to Confirmation set forth in Section 7.1(c) of the Plan may only be waived pursuant to Section 7.4 of the Plan, and (ii) the condition to the occurrence of the Effective Date set forth in Section 7.2(e) of the Plan may be waived by the Committee and the Futures Representative (notwithstanding the disagreement of any other Proponent), by the delivery to the Debtors of a written, irrevocable election to cause the Trust to satisfy, or reimburse the Reorganized Debtor for, the sum of (x) all Allowed Professional Fees accrued through the Effective Date, plus (y) the amount necessary to reimburse Pacific for all Allowed Professional Fees previously paid by it during the course of its Chapter 11 Case, provided that, such amount shall be reduced by $250,000 on account of amounts previously funded by Pacific for retainers to Professionals. Upon the Effective Date, the

election set forth in Section 7.3(ii) of the Plan shall be immediately and automatically valid and enforceable, and the Trust shall be irrevocably bound to perform in accordance with such election, without any further action of the Bankruptcy Court or further act or agreement of any Person.

4. Waiver of Wellington Settlement Claims Favorable Determination.

In the event that, following the commencement of the Confirmation Hearing, the only condition to Confirmation that has not been satisfied is the condition to Confirmation set forth in Section 7.1(c) of the Plan, the Committee and the Futures Representative may elect to waive such condition (notwithstanding the disagreement of any other Proponent), by making the Indemnity Election in writing delivered to the Debtors prior to the conclusion of the Confirmation Hearing. Upon the Effective Date, the Indemnity Election set forth in Section 7.4 of the Plan shall be immediately and automatically valid and enforceable, and the Trust shall be irrevocably bound to perform in accordance with such election, without any further action of the Bankruptcy Court or further act or agreement of any Person.

5. Filing of Merger Agreement.

The Debtors shall file the Merger Agreement with the Secretary of State of the State of California on, or as soon thereafter as practicable, the later, but subject to the occurrence, of: (a) the first Business Day that is at least thirty one (31) days after the Confirmation Date and on which no stay of the Confirmation Order is in effect; and (b) the Business Day, on which all of the conditions set forth in Section 7.2 of the Plan have been satisfied or waived as provided in Section 7.3 of the Plan.

F. Effects of Confirmation

1. Binding Effect.

The rights afforded under the Plan and the treatment of all Claims and Interests under the Plan shall be the sole and exclusive remedy on account of such Claims against, and Interests in the Debtors, the Reorganized Debtor, the Thorpe Assets and the Pacific Assets, including any interest accrued on such Claims from and after the pertinent Petition Date or interest which would have accrued but for the commencement of the Chapter 11 Cases. Confirmation of the Plan shall bind and govern the acts of the Reorganized Debtor and all holders of all Claims against, and Interests in the

Debtors, whether or not: (i) a proof of Claim or proof of Interest is filed or deemed filed pursuant to Section 501 of the Bankruptcy Code; (ii) a Claim or Interest is allowed pursuant to Section 502 of the Bankruptcy Code, or (iii) the holder of a Claim or Interest has accepted the Plan.

2. Revesting of Assets.

Upon the Effective Date, with the exception of all Trust Assets that are transferred to the Trust pursuant to Section 5.4.1 of the Plan, title to all remaining Pacific Assets and Thorpe Assets shall vest in Pacific and Thorpe, respectively (and all such property shall be deemed to vest in the Reorganized Debtor concurrently with the Merger), for the purposes contemplated under the Plan. Except as otherwise provided in the Plan, upon the Effective Date all Pacific Assets and Thorpe Assets shall be free and clear of all Claims and Interests, including Liens, charges or other encumbrances of Creditors of Pacific and Thorpe.

3. Discharge.

Confirmation of the Plan shall discharge Thorpe, Pacific and the Reorganized Debtor from all Claims or other debts that arose at any time before the Effective Date, and all debts of the kind specified in Sections 502(g), 502(h) or 502(i) of the Bankruptcy Code, whether or not: (i) a proof of claim based on such debt is filed or deemed filed under Section 501 of the Bankruptcy Code; (ii) a Claim based on such debt is Allowed under Section 502 of the Bankruptcy Code; or (iii) the holder of a Claim has accepted the Plan. As of the Effective Date, all entities that have held, currently hold or may hold a Claim or other debt or liability that is discharged or any other right that is terminated under the Bankruptcy Code or the Plan are permanently enjoined, to the full extent provided under Section 524(a) of the Bankruptcy Code, from "the commencement or continuation of an action, the employment of process, or an act, to collect, recover or offset any such debt as a personal liability" of Thorpe, Pacific or the Reorganized Debtor. Nothing contained in the foregoing discharge shall, to the full extent provided under Section 524(e) of the Bankruptcy Code, affect the liability of any other entity on, or the property of any other entity for, any debt of the Debtors that is discharged under the Plan.

4. Injunctions.

Upon the occurrence of the Effective Date, the Injunctions shall be deemed issued, entered

and enforceable by the District Court and shall supplement the discharge of the Debtors and the Reorganized Debtor according to their terms to the fullest extent permissible by Sections 524(g) and 105(a) of the Bankruptcy Code.

5. Limitation of Liability.

The Debtors, the Reorganized Debtor, the Committee and the Futures Representative, and each of their respective Agents, shall have all of the benefits and protections afforded under 11 U.S.C. § 1125(e) and applicable law.

6. Exoneration and Reliance.

The Debtors, the Reorganized Debtor, Farwest, the Identified Parties, the Committee, the Futures Representative and the Settling Asbestos Insurers, and each of their respective Agents, shall not be liable, other than for gross negligence or willful misconduct, to any holder of a Claim or Interest or any other entity with respect to any action, omission, forbearance from action, decision, or exercise of discretion taken at any time after the Petition Date and prior to the Effective Date in connection with: (a) the management or operation of the Debtors or the discharge of their duties under the Bankruptcy Code, (b) the implementation of any of the transactions provided for, or contemplated in, this Plan, (c) any action or inaction taken in connection with either the enforcement of the Debtors' rights against any entities or the defense of Claims asserted against the Debtors with regard to the Chapter 11 Cases, (d) any action taken in the negotiation, formulation, development, proposal, disclosure, Confirmation or implementation of the Plan, or (e) the administration of this Plan or the Trust or the assets and property to be distributed pursuant to this Plan. The Debtors, the Reorganized Debtor, Farwest, the Identified Parties, the Committee, the Futures Representative and the Settling Asbestos Insurers, and each of their respective Agents may reasonably rely upon the opinions of their respective counsel, accountants, and other experts and professionals and such reliance, if reasonable, shall conclusively establish good faith and the absence of gross negligence or willful misconduct; provided however, that a determination that such reliance is unreasonable shall not, by itself, constitute a determination or finding of bad faith, gross negligence or willful misconduct; further provided, however, that nothing in Section 8.7 of the Plan shall prevent the enforcement by any party to an Asbestos Insurance Settlement of the terms of such settlement

against any other party to such settlement. In any action, suit or proceeding by any holder of a Claim or Interest or any other entity contesting any action, omission, forbearance from action, decision or exercise of discretion in connection with the matters in subsections (a) through (e) above, by the Debtors, the Reorganized Debtor, Farwest, the Identified Parties, the Committee, the Futures Representative and the Settling Asbestos Insurers, and each of their respective Agents, the reasonable attorneys' fees and costs of the prevailing party shall be paid by the losing party. Any action, suit or proceeding by any holder of a Claim or Interest or any other entity contesting any action, omission, forbearance from action, decision or exercise of discretion by the Debtors, the Reorganized Debtor, Farwest, the Identified Parties, the Committee the Futures Representative, and the Settling Asbestos Insurers and each of their respective Agents, whether before or after the Effective Date, shall be commenced only in the Bankruptcy Court.

7. Asbestos Insurance Policy with Pacific Indemnity Company.

Upon the Effective Date, in accordance with the terms and conditions of the Asbestos Insurance Settlement with Pacific Indemnity Company (and subject to receipt of the final payment from Pacific Indemnity Company under such settlement), the Asbestos Insurance Policies with Pacific Indemnity Company that are referenced in such settlement, and all interests of the Debtors under such policies, shall be deemed transferred to Pacific Indemnity Company free and clear of all Claims and Interests, including Liens, charges or other encumbrances of Creditors of the Debtors.

G. Retention of Jurisdiction

Pursuant to the Plan, notwithstanding the entry of the Confirmation Order and the occurrence of the Effective Date, the Bankruptcy Court shall retain jurisdiction over the Chapter 11 Cases after the Effective Date to the extent legally permissible, including, without limitation, jurisdiction to:

(a) Allow, disallow, determine, liquidate, classify, estimate, or establish the priority or secured or unsecured status of any Claim, including the resolution of any request for payment of any Administrative Claim and the resolution of any objections to the allowance or priority of Claims;

(b) Grant or deny any applications for allowance of compensation or reimbursement of expenses authorized under the Bankruptcy Code or the Plan;

(c) Resolve any matters related to the assumption, assumption and assignment, or

rejection of any executory contract or unexpired lease to which any Debtor is a party and to hear, determine and, if necessary, liquidate, any Claims arising from, or cure amounts related to, such assumption or rejection;

(d) Ensure that Distributions to holders of Allowed Claims are accomplished in accordance with the Plan;

(e) Decide or resolve any motions, adversary proceedings, contested or litigated matters, and any other matters and grant or deny any applications or motions involving any Debtor that may be pending on the Effective Date;

(f) Enter such orders as may be necessary or appropriate to implement or consummate the provisions of the Plan and all contracts, instruments, releases, and other agreements or documents created in connection with the Plan or the Disclosure Statement;

(g) Resolve any cases, controversies, suits or disputes that may arise in connection with the consummation, interpretation or enforcement of the Plan or any Person's obligations incurred in connection with the Plan;

(h) Modify the Plan before or after the Effective Date under Section 1127 of the Bankruptcy Code or modify the Disclosure Statement or any contract, instrument, release, or other agreement or document created in connection with the Plan or the Disclosure Statement; or remedy any defect or omission or reconcile any inconsistency in any Bankruptcy Court order, the Plan, the Disclosure Statement, or any contract, instrument, release, or other agreement or document created in connection with the Plan and the Disclosure Statement, in such manner as may be necessary or appropriate to consummate the Plan, to the extent authorized by the Bankruptcy Code;

(i) Enter and implement such orders as are necessary or appropriate if the Confirmation Order is for any reason modified, stayed, reversed, revoked, or vacated;

(j) Determine any other matters that may arise in connection with or related to the Plan, the Disclosure Statement, the Confirmation Order or any contract, instrument, release, or other agreement or document created in connection with the Plan, the Disclosure Statement or the Confirmation Order, except as otherwise provided in the Plan;

(k) Hear and determine any applications by the Trust to amend, modify, alter or repeal

any provision of the Trust Agreement or the TDP pursuant to applicable provisions of such instruments;

(l) Hear and determine Retained Claims and Defenses commenced by the Debtors or the Reorganized Debtor;

(m) Enter and implement other orders, or take such other actions as may be necessary or appropriate to restrain interference by any entity with consummation or enforcement of the Injunctions or the Plan, except as otherwise provided in the Plan; and

(n) Enter an order closing the Chapter 11 Cases which provides for the retention of jurisdiction by the Bankruptcy Court for purposes of Article 9 of the Plan.

H. Amendment and Withdrawal of the Plan

At any time before the Confirmation Date, the Proponents may alter, amend, or modify the Plan under Section 1127(a) of the Bankruptcy Code including, without limitation, the right to add additional Settling Asbestos Insurers to Exhibit D to the Plan, provided that, such alteration, amendment, or modification does not materially and adversely affect the treatment and rights of the holders of Claims under the Plan. After the Confirmation Date and before substantial consummation of the Plan as defined in Section 1101(2) of the Bankruptcy Code, the Proponents may, under Section 1127(b) of the Bankruptcy Code, institute proceedings in the Bankruptcy Court to remedy any defect or omission or reconcile any inconsistencies in the Plan, the Disclosure Statement, or the Confirmation Order, or as otherwise may be necessary to carry out the purposes and effects of the Plan so long as such proceedings do not materially and adversely affect the treatment of holders of Claims under the Plan; provided, however, that prior notice of such proceedings shall be served in accordance with the Bankruptcy Rules or applicable order of the Bankruptcy Court.

The Proponents reserve the right to revoke or withdraw the Plan in the event that the Proponents determine in good faith that any condition to Confirmation or the effectiveness of this Plan is unlikely to be satisfied as required herein. If the Plan is withdrawn or revoked, then the Plan shall be deemed null and void, and nothing contained in the Plan shall be deemed a waiver of any Claims by or against the Debtors or any other Person in any further proceedings involving the Debtors or an admission of any sort, and this Plan and any transaction contemplated by this Plan

shall not be admitted into evidence in any proceeding.

VII. FORMATION OF TRUST, RESOLUTION OF ASBESTOS-RELATED CLAIMS AND ESTIMATE OF ASBESTOS LIABILITIES

The following is a summary of certain significant features of the Trust. This summary is qualified in its entirety by reference to the complete text of the Trust Documents and the Plan.

A. Establishment and Purpose of the Trust.

On the Effective Date, the Trust shall be established pursuant to Section 524(g) of the Bankruptcy Code in accordance with the Trust Documents. The Trustees shall decide on the principal office and the jurisdiction of organization for the Trust. The Trust shall be a "qualified settlement fund" within the meaning of Treasury Regulations issued pursuant to sections 468B of the IRC. The purpose of the Trust shall be, among other things, to (a) liquidate, resolve, pay and satisfy all Asbestos Related Claims in accordance with the Plan, the TDP and the Confirmation Order; (b) preserve, hold, manage and maximize the Trust Assets for use in paying and satisfying Asbestos Related Claims; and (d) prosecute, settle and manage the Asbestos Insurance Litigation. The TDP shall provide for the liquidation and payment or the outright rejection or denial of Asbestos Related Claims in accordance with the terms of the Plan..

1. Receipt of Trust Assets.

On the Effective Date, all Trust Assets shall be transferred to, vested in and assumed by the Trust: (a) the Asbestos Insurance Rights, (b) cash as of the Effective Date (including qualified settlement funds) constituting the proceeds of Asbestos Insurance Settlements, less amounts deposited in the Professional Fee Reserve, (c) the Reorganized Debtor Notes, (d) the Farwest Contribution, (e) the Debtors' rights of contribution, reimbursement, indemnity or subrogation on account of the payment by or on behalf of the Debtors prior to the Petition Dates of all or any part of any Asbestos Related Claim, other than rights against the Protected Parties, (f) all Business Losses, subject to the Business Loss Allocation payable to the Reorganized Debtor, (g) all rights to future payments from the 2002 Manville Personal Injury Settlement Trust (described in the next paragraph), and any income, profits and proceeds derived from the foregoing. To the extent that certain Trust Assets, because of their nature or because they will accrue subsequent to the Effective

Date, cannot be transferred to, vested in and assumed by the Trust on the Effective Date, such Trust Assets shall be transferred to, vested in and assumed by the Trust as soon as practicable after the Effective Date.

Thorpe was a distributor of Johns-Manville asbestos containing products. Under Section 1.7 of the 2002 Manville Personal Injury Settlement Trust, Trust Distribution Procedures ("Manville TDP") (a copy of which is attached to the Disclosure Statement as Exhibit "B"). Thorpe has the right to submit certain claims for payment. Proponents believe that the claim percentage assigned to Thorpe by the Manville Personal Injury Settlement Trust is 47.77%. Any future payments by the Manville Personal Injury Settlement Trust to Thorpe are hard to predict and will depend upon the total amount of payments that would qualify for payment under the Manville TDP as well as the funds available to the Manville Personal Injury Settlement Trust to pay claimants.

2. Discharge of Liabilities to Holders of Asbestos Related Claims.

Except as provided in the Plan and Confirmation Order, the transfer to, vesting in, and assumption by the Trust of the Trust Assets as contemplated by the Plan, among other things, shall discharge the Reorganized Debtor, enjoin further proceedings against the Reorganized Debtor and release the Protected Parties other than the Reorganized Debtor from and in respect of all Asbestos Related Claims. Except as provided in the Plan, the Trust shall assume the Debtors' liabilities for all Asbestos Related Claims.

3. Excess Trust Assets.

To the extent there are any Trust Assets remaining after the payment, in full, of all Asbestos Related Claims and the payment, in full, of all Trust Expenses, such excess Trust Assets shall be used to adjust the Funds Received Ratio and distributed to claimants who are still entitled to receive distributions from the Trust pursuant to Section 2.3 of the TDP.

4. Trust Expenses.

The Trust shall pay all Trust Expenses from the Trust Assets. None of the Protected Parties shall have any obligation to pay any Trust Expenses. Professional Fees shall be paid pursuant to the Professional Fees Reserve set forth in Section 1.92 of the Plan unless the Committee and the Futures Representative exercise their waiver rights under Section 7.3 of the Plan in which case the Trust

Case 2:07-bk-19271-BB Doc 1244-1 Filed 07/30/08 Entered 07/30/08 16:50:46 Desc Exhibit 6 Page 41 of 129

shall reimburse the Reorganized Debtor for all paid Allowed Professional Fees through the Effective Date.

5. Selection of the Initial Trustees.

The three initial Trustees of the Trust shall be selected by the Committee and the Futures Representative on or before the Effective Date. If the Committee and the Futures Representative cannot agree on the three initial Trustees of the Trust, the Bankruptcy Court shall resolve any dispute. All successor Trustees shall be appointed in accordance with the terms of the Trust Agreement.

6. The Futures Representative.

The Futures Representative shall serve as the Futures Representative pursuant to Article 5 of the Trust Agreement, on and after the Effective Date, and shall have the functions and rights provided in the Trust Documents. Prior to the Effective Date, the Futures Representative shall have the functions, rights and obligations asset forth in the Bankruptcy Code.

7. Trust Advisory Committee.

The Trust Advisory Committee ("TAC") has the functions and rights provided in the Trust Documents. On or before the Confirmation Date, the TAC shall be selected by the Committee and appointed to serve from and after the Effective Date pursuant to the terms of the Plan and the Confirmation Order.

8. Trust Obligations to Assist Defense of the Injunctions.

The Trust and, to the extent necessary for the Trust to act, the Trustees, shall cooperate as set forth in the Plan with and assist any Protected Party, at the request of any such Protected Party, to resist and oppose any Entity claiming a right against any Protected Party in violation of any of the Injunctions.

9. Assumption of Liabilities by the Trust.

Except as set forth in the Plan, pursuant to Section 1.4 of the Trust Agreement, on the Effective Date, the Trustees on behalf of the Trust will expressly assume all liability arising from or based on Asbestos Related Claims, remaining obligations, if any, for bankruptcy court appointed insurance coverage counsel according to the terms of the order of appointment and Trust Expenses.

In addition, the Trust may assume liability arising from contingent obligations set forth in Section 7.3 (certain Allowed Professional Expenses) and Section 7.4 (certain Wellington Settlement Claims).

10. Indemnification of the Indemnified Parties by the Trust.

Pursuant to Sections 1.4 and 4.7 of the Plan, each Indemnified Party shall be entitled to indemnification from the Trust for any expenses, costs and fees (including attorneys' fees and costs but excluding any such expenses, costs and fees incurred prior to that Debtor's respective Petition Date), judgments, settlements or other liabilities arising from or incurred in connection with any action based on an Asbestos Related Claim, including, but not limited to, indemnification or contribution for Asbestos Related Claims prosecuted against the Reorganized Debtor.

B. Distributions pursuant to the TDP.

1. Trust Goals.

The goal of the Trust is to pay all claimants the entire liquidated value of their claims. However, the amount of the total liquidated value that the Trust will be able to pay will depend upon the amount of assets available to date. Until the Trust has collected all of the assets available, the interim goal of the Trust is to pay claimants the same percentage of their liquidated Asbestos Related Claims, whether the Asbestos Related Claims were liquidated before the Effective Date or will be liquidated after the Effective Date. The TDP, attached to the Plan as Exhibit I, furthers that goal by setting forth procedures for processing and paying claims generally on an impartial, first-in-first-out ("FIFO") basis, with the intention of paying all claimants over time as equivalent a share as possible of the value of their claims based on historical values for substantially similar claims in the tort system. To this end, the TDP establishes for unliquidated claims in the Case Valuation Matrix (the "Matrix"), attached to the Plan as Exhibit I, a schedule of five asbestos-related diseases (the "Compensable Diseases"), which have presumptive medical and exposure requirements (the "Medical/Exposure Criteria"), criteria for establishing liquidated values (the "Matrix Values"), the anticipated average values (the "Average Values"), the indicated base case values ("Base Case"), and caps on liquidated values ("Maximum Values"). The Compensable Diseases, Medical/Exposure Criteria, Matrix Values, which are set forth in the Matrix, have all been selected and derived by the Futures Representative and Committee with the intention of achieving a fair

allocation of the Trust funds as among claimants suffering from different disease processes in light of the best available information, considering the settlement history of the Debtors and the rights claimants would have in the tort system absent the bankruptcy.

These disease criteria have been used in substantially the same form in two other confirmed and court approved asbestos related bankruptcy. *In re Western Asbestos*, 2004 WL 1944792 (N.D.Cal.) ("Western Asbestos"); *In re J.T. Thorpe*, Case No. LA02-14216- BB, United States Bankruptcy Court for the Central District of California. An adjustment has been made here because by definition the claimant population has aged. They generally reflect the disease categories and criteria that exist in the tort system as asbestos cases that have been settled and tried in California. Because the asbestos victims have direct claims against some of the debtors and derivative claims against other debtors arising from the same exposure, using the same disease criteria and values for all claimants assures more evenhanded treatment among claimants past and future. The tort system results do not reflect material differences between direct and derivative claims for the same exposures.

Insurers of the Debtors have refused to make historical settlement data available to the Futures Representative or the Committee in a form to enable evaluation of that data in relation to the Matrix, and the Debtors have declined to provide this information based on the Insurers' objections. However, given the passage of time and the changing settlement values in the tort system for asbestos related claims, if that data is made available, the Futures Representative and the Committee believe it is quite likely that adjustments will be necessary to reflect tort system values as of the petition date. There are significant similarities between the Debtors here and the former debtors in the Western Asbestos case: both were Mansville Distributors of asbestos containing products during similar time periods in California (Thorpe in the South and Western in the North); both were relatively similar in size; and both installed and removed asbestos containing pipe insulation in commercial, industrial and some shipyard settings. Because of the similarity between these two companies and their profile the same Matrix Values and Base Case Values are being used as were approved in Western Asbestos. But because those values were calculated a number of years ago, those values have been adjusted by the United States Department of Labor Statistics Urban Wage

Earners and Clerical Workers index (CPI-W)("Inflation Adjustment"). The Average Values for the five disease categories contained in the Matrix are as follows:

Disease	**Average Value for Thorpe Insulation Several Share**
Mesothelioma	$597,913
Lung Cancer	$227,282
Other Cancer	$85,575
Grade I Non-Malignancy	$58,827
Grade II Non-Malignancy	$24,892

The Proponents reserve the right to change the terms of the TDP and the Matrix at anytime prior to the conclusion of the Confirmation Hearing. Once additional data is available, these settlement values may be adjusted as appropriate to current settlement values using settlement data from Thorpe and derived from other defendants who remained active in the tort system. In connection with the Confirmation Hearing, to the extent there are any modifications, the Proponents will file with the Court the modified TDP and/or modified Matrix and will request that the Court approve such documents as part of the plan confirmation process. A copy of the current versions of the TDP, the Trust Agreement and the Matrix are attached as Exhibit I to the Plan. To date, the Debtors have not participated in the development of the TDP or the Matrix.

All claims must be liquidated before they can be paid. The Plan contemplates payments to holders of Pre-Confirmation Liquidated Claims shortly after the Effective Date. Unliquidated Claims cannot be paid until after the Trust established by the Plan has determined a liquidated value for those claims. Some of the Insurers assert that the TDP may violate the insurers' contractual right to investigate claims and participate in or control the defense of claims, and, as a result, these insurers assert that the Insurers may have no obligation to pay claims that are liquidated pursuant to the TDP.

2. Trust Claim Liquidation Procedures.

Claims not liquidated prior to the Effective Date cannot be paid until after the Trust established by the Plan has determined a liquidated value for those claims. A Trust claim form will be created with the consent of the TAC and Futures Representative. Section VI of the TDP outlines the process by which the Trust claim form materials will be created and establishes minimum requirements for the claim form. The Trust claim form will require certain information including: the information contained in standard interrogatory answers to establish personal data, smoking history and occupational history; medical reports and/or death certificates to establish diagnosis of the asbestos related disease; economic reports to establish the level of wage and pension loss; medical bills; the face page of the complaint or equivalent proof of commencement of litigation; and social security records to verify work history. All claimants the Trust is aware of as of the Effective Date who allege that they have an Asbestos Related Claim against the Debtors will be sent such a

claim form by the Trust and will be invited to complete the claim form and submit it to the Trust.

The Trust will order all submitted unliquidated Trust claims for processing purposes on a first-in-first-out (i.e., FIFO) basis except as otherwise provided in the TDP (the "FIFO Processing Queue"). For all claims filed on or before the date six months after the Effective Date (the "Initial Claims Filing Date"), a claimant's position in the FIFO Processing Queue shall be determined as of the earlier of: (i) the date prior to the Petition Dates that the specific claim was either served or filed against Debtors in a court in which the Debtors could properly have been sued; (ii) the date prior to the Petition Dates that a claim was filed or served against another defendant in the tort system if at the time the claim was subject to a tolling agreement with the Debtors; (iii) the date after the Petition Dates but before the Effective Date that the claim was filed or served against another defendant in a court in which the Debtors could properly have been sued; or (iv) the date after the Effective Date but on or before the Initial Claims Filing Date that the claim was filed with the Trust. Following the Initial Claims Filing Date, the claimant's position in the FIFO Processing Queue shall be determined by the date the claim was served or filed with the Trust. For all claims filed on the same date, the claimant's position in the FIFO Processing Queue shall be determined by the date of the diagnosis of the asbestos-related disease.

The information and documentation required to be provided in the Trust claim form will permit the Trust to determine whether a submitted claim meets the presumptive Medical/Exposure Criteria required under the Matrix. The Trust shall liquidate all claims submitted to the Trust that meet the presumptive Medical/Exposure Criteria in accordance with the Matrix, and shall reject all claims that do not meet such requirements, subject to the Trust's Individual Review Process described in the Matrix.

Claimants who do not meet the presumptive Medical/Exposure Criteria for the relevant Compensable Disease can pursue the Trust's Individual Review Process described in the Matrix. If the Trust is satisfied that the claimant has presented a claim that would be cognizable, valid and compensable in the tort system, the Trust can offer the claimant an amount up to the Average Value as defined in the Matrix of that Compensable Disease, notwithstanding that the claim does not meet the presumptive Medical/Exposure Criteria for the relevant Compensable Disease.

All unresolved disputes over a claimant's medical condition, exposure history and/or the liquidated value of the claim shall be subject to binding or non-binding arbitration, at the election of the claimant, under the Arbitration Rules. Disputes with the Trust that cannot be resolved by non-binding arbitration may enter the tort system as provided in Section 5.10 and 7.3 of the TDP. However, if and when such a claimant obtains a judgment in the tort system, to the extent the judgment will be payable by the Trust (subject to the Funds Received Ratio, Maximum Annual Payment and Claims Payment Ratio provisions set forth below) it will be paid as provided in Section 7.4 of the TDP.

3. Trust Application of the Funds Received Ratio.

After the liquidated value of a Trust Claim is determined, the claimant will ultimately receive a pro-rata share of that value based on a Funds Received Ratio calculated as described in Section 4.2 of the TDP. Because assets received to date (after taking into account the expenses of administration of the Chapter 11 case, the costs of administering the Trust, anticipated contingencies as well as interest rates and rates of inflation) are small relative to the Debtors total asbestos liability, the Initial Funds Received Ratio will be set by the Trustees subject to the consent of the TAC and the Futures Representative. The Funds Received Ratio shall be adjusted upwards or downwards from time to time by the Trust with the consent of the TAC and the Futures Representative to reflect then current estimates of the Trust's assets and its liabilities, as well as the estimated value of then pending and future claims. The Funds Received Ratio will be reviewed no less frequently than every three years, or sooner if requested by the TAC or the Futures Representative, the then current Funds Received Ratio will be reviewed to ascertain whether in light of current information any adjustment should be made. However, any adjustment to the Funds Received Ratio shall be made only pursuant to Section 4.2 of the TDP. If the Funds Received Ratio is increased over time, claimants who have previously been paid by the Trust will receive a proportional additional payment unless the Trust with consent of the TAC and the Futures Representative concludes that the amount is so modest and the administrative costs and burdens are so great in comparison to the benefits to claimants that such additional payments shall be omitted or deferred. A claimant may only participate in such additional payments which have been approved pursuant to Section 4.2 of the TDP on or before the later of the

following dates: (i) the fifteenth anniversary of the Trust's first payment to the claimant; or (ii) the tenth anniversary of the resolution of the Asbestos Insurance Litigation. If it becomes relevant, the date of resolution of the Asbestos Insurance Litigation will be determined by the Trust with the consent of the Futures Representative.

An estimate at this time of the actual Initial Funds Received Ratio is difficult as it is not possible to know now the exact amount of assets available for distribution on the Effective Date of the Plan. Accordingly the Trustees, with the consent of the TAC and the FCR, will compute the Initial Funds Received Ratio when the Trust has sufficient assets and information to make payments worth the expense and burden on claimants to do so.

At this time it is known that there are assets from settlements. However, from these assets must be deducted further costs of administration as well as from some of these settlement assets certain amounts needed to pay to the Debtors as part of the Net Recoveries. As discussed in Article IV.C.2 in this Disclosure Statement, various other insurers have been sued. It is impossible to determine if further settlements will be entered prior to the Confirmation Hearing or the Effective Date of the Plan, which would increase amounts available for distribution.

The actual liability of the Debtors for Asbestos Related Claims is unknown at this time because of the objections of Debtors' insurers to (a) production of relevant claims information for the expert of the Futures Representative; and (b) the employment by the Committee of an expert. As a result, this calculation will be done at a later time by the Trust with the consent of the TAC and the Futures Representative.

4. Trust's Determination of the Maximum Annual Payment.

The Trust shall estimate or model the amount of cash flow anticipated to be necessary over its entire life to ensure that funds will be available to treat all present and future claimants as similarly as possible. In each year, the Trust will be empowered to pay out all of the interest earned during the year, together with a portion of its principal, calculated so that the application of Trust Assets over its life shall correspond with the needs created by the anticipated flow of claims (the "Maximum Annual Payment"). The Trust's distributions to claimants for that year shall not exceed the Maximum Annual Payment determined for that year; provided, however, that the Maximum

Annual Payment limitation shall not apply to any Pre-confirmation Liquidated Claims. (*See* Section VII.B.6 below.)

If the Maximum Annual Payment is not reached in a given year, the Trustees, with the consent of the Futures Representative and the TAC, may increase the amount paid to past, present and future claimants as described in Section 4.2 of the TDP.

The Maximum Annual Payment limitation provides a process to control the Trust's payments to claimants should the Trust be faced with unexpectedly high volumes of claim filings not consistent with the Debtors' claims history or the projection of future claims, so that the Trust can reexamine its claims forecast in an orderly fashion, avoiding a run on Trust assets. This limitation may impose a short term delay on some claims filed during any period of unanticipated increases in claims filings in order to assure that the Trust can adjust to such increases in an informed and orderly manner.

5. Trust Claims Payment Ratio.

Because certain of the Debtors' insurers have objected to providing the Futures Representative and the Committees Debtors' historical claims history data, it has not been possible to analyze that history independently and determine the appropriate ratio between the category of disease claim against the Debtors (the "Disease Categories").

The Disease Category Claim Payment Ratio will be set by the Trustees with the consent of the TAC and the Futures Representative at a certain percentage (the "Category A Percentage") for "Category A" claims, which consist of Trust Claims involving malignant claims that were unliquidated as of the Confirmation Date, and a certain percentage for "Category B" claims (the "Category B Percentage"), which are Trust Claims involving non-malignant claims that were similarly unliquidated as of the Confirmation Date. In each year, after the determination of the Maximum Annual Payment, the Category A Percentage of that amount will be available to pay liquidated Category A claims and the Category B Percentage will be available to pay liquidated Category B claims that have been liquidated since the Confirmation Date.

In the event there are insufficient funds in any year to pay the liquidated claims against the Debtors within either or both of the Disease Categories, the available funds within the particular

Disease Category shall be paid to the maximum extent to claimants in the particular Disease Category based on their place in the FIFO Payment Queue. Claims for which there are insufficient funds will be carried to the next year where they will be placed at the head of the FIFO Payment Queue. If there are excess funds in either or both Disease Categories, because there was an insufficient amount of liquidated claims to exhaust the respective Maximum Annual Payment amount for that Disease Category, then the excess funds for either or both Disease Categories will be rolled over and remain dedicated to the respective Disease Category to which they were originally allocated.

The Disease Category Claims Payment Ratio and its rollover provision shall be continued absent circumstances, such as a significant change in law or medicine, necessitating amendment to avoid a manifest injustice. The accumulation, rollover and subsequent delay of claims resulting from the application of the Claims Payment Ratios, shall not, in and of itself, constitute such circumstances. Nor may an increase in the numbers of Disease Category B claims beyond those predicted or expected be considered as a factor in deciding whether to reduce the percentage allocated to Disease Category A. In considering whether to make any amendments to the Disease Category Claims Payment Ratio and/or its rollover provisions, the Trustees are directed by the TDP also to consider the reasons for which the Disease Category Claims Payment Ratio and its rollover provisions were adopted, the settlement history that gave rise to its calculation, and the foreseeability or lack of foreseeability of the reasons why there would be any need to make an amendment. In that regard, the Trustees are directed by the TDP also to keep in mind the interplay between the Funds Received Ratio and the Disease Category Claims Payment Ratios as it affects the net cash actually paid to claimants. In any event, no amendment to the Disease Category Claims Payment Ratio may be made without the consent of the TAC and the Futures Representative pursuant to the consent process set forth in Section 2.2(f) of the Trust Agreement. However, the Trustees may offer the option of a reduced Funds Received Ratio to either Disease Category in return for prompter payment (the "Reduced Payment Option"), after first obtaining the consent of the TAC and Futures Representative.

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

6. Payment of Pre-Confirmation Liquidated Claims.

As soon as practicable after the Effective Date, the Trust shall make an initial distribution on all Trust Claims that were liquidated by (i) a settlement agreement entered into prior to the Petition Date for the particular claim or (ii) pursuant to the Pre-Confirmation Claims Liquidation Process (collectively, the "Pre-Confirmation Liquidated Claims"). The liquidated value of a Pre-Confirmation Liquidated Claim shall be the amount agreed to in the binding settlement agreement, or the amount at which the claim is liquidated pursuant to the Pre-Confirmation Claims Liquidation Process, as applicable. Moreover, to the extent that a claim is the subject of a written settlement agreement executed prior to the Petition Date, the holder of that claim shall have the option of (i) having the liquidated value be the amount agreed to in the binding settlement agreement, or (ii) having his or her claim re-liquidated pursuant to the Pre-Confirmation Liquidated Process and having the liquidated value be the amount at which the claim is liquidated pursuant to the Pre-Confirmation Liquidated Process. Pursuant to Section 7.2 of the TDP, the liquidation value of a Pre-Confirmation Liquidated Claim shall not include any punitive or exemplary damages. Whether pre-petition interest has accrued on Pre-Petition Liquidated Claims will depend on state law or the specific contract agreements entered into by the Debtor pre-petition.

Pre-Confirmation Liquidated Claims shall be processed and paid within 90 days of the Effective Date, if feasible, or as soon thereafter as possible. The amounts payable with respect to such claims shall not be subject to or taken into account in consideration of the Maximum Annual Payment or Disease Category Claims, but shall be subject to the Funds Received Ratio provisions set forth in Section 4.2 of the TDP.

7. Payment of Claims That Are Liquidated Post-Effective Date.

The Plan's proposed claims procedures are intended to pay all anticipated Asbestos Related Claims in a timely manner-as such claims are filed with the Trust and thereafter liquidated.

The claims procedures proposed for the Trust are designed to provide equivalent treatment of all Asbestos Related Claims both with regard to the percent of their claims that can be paid and the timing of their payments.

The claims procedures apply the same pro rata payment process for all Asbestos Related

Claims. Whether a claim was liquidated by application of the Matrix either before or after the Effective Date, the Trust's payment for every claimant will be determined by multiplying the allowed value of the claim times the then current Funds Received Ratio.

In establishing the Initial Funds Received Ratio the Proponents assume that all present and future claimants will be paid solely from the presently available cash or cash equivalents. When the Trust receive additional settlements, then the Funds Received Ratio would be recalculated as set forth in Section 4.2 of the TDP.

The claims procedures are designed to permit pending and forecasted future claims to be liquidated and paid within a year after their submission. Pre-Confirmation Liquidated Claims will receive the first payment, within 90 days of the Effective Date if at all possible. It has become standard in bankruptcies of asbestos defendants to place such earlier liquidated claims at the head of the queue for payment of asbestos bodily injury claims, both because those claims typically have already had the longest wait for payment and also because those claims do not have to wait for the trust's liquidation processes. For these reasons, the Plan places Pre-Confirmation Liquidated Claims at the head of the queue.

The proposed claims procedures include provisions that would allow the Trust to continue to allow and pay claims even if it were overwhelmed with an unexpectedly large number of future claims. In such circumstances, the Trustees are required to reconsider and, if necessary, adjust the Funds Received Ratio to provide equivalent treatment of then pending and future claimants.

The claims procedures provide a process to control the Trust's payments to claimants should the Trust be faced with unexpectedly high volumes of claims filings, so that the Trust can reexamine its claims forecast in an orderly fashion, avoiding unanticipated increases in total claims payment. The claims procedures require that the Trust pay claims in numbers that are no greater than those forecasted by the claims projections that are used in the Trust's then current calculations of its Funds Received Ratios. This means that the volume of payments will always be consistent with the assumptions underlying the Funds Received Ratio calculation. Should actual claim filings materially exceed the forecast, then the Trust must reconsider and adjust its Funds Received Ratio using new and larger forecasts based on this increased volume of claims. Upon such

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

reconsideration, the Trust will then increase the volume of its claim payments to reflect this increased volume of filings. This process may impose a short term delay on some claims filed during any period of unanticipated increases in claims filings in order to assure that the Trust can adjust to such increases in an informed and orderly manner.

8. Inflation Adjustments

The TDP provides that claims paid in the future will be adjusted for inflation. *See* Section 5.3(d) of the TDP.

9. Interest

No interest will accrue or be paid on any post-petition Trust Claim. See Section 5.3(e). Whether pre-petition interest has accrued on Pre-Petition Liquidated Claims will depend on state law or the specific contract agreements entered into by the Debtor pre-petition. *See* Section 5.4 of the TDP.

10. Trust Indemnity and Contribution Claims.

As set forth in Section 5.6 of the TDP, Trust Claims for indemnity and contribution will be subject to the same categorization, evaluation and payment provisions of the TDP as all other Trust Claims.

C. Statute of Limitations

All claims barred by a statute of limitations or repose on the Petition Dates shall remain barred. All claims not so barred shall be tolled for a period of one year after the date the Trust begins accepting new claims. *See* Section 5.3a(2) of the TDP.

D. Extraordinary Claims

For those claimants who can demonstrate that more than 80% of their exposure to asbestos containing products as a result of Debtors' activities, Trust payments can exceed the cap for maximum claim payments. *See* Section IX of the Matrix.

E. Hardship or Exigent Claims

If the Trust determines in its sole discretion that a claimant is in dire financial need and requires financial assistance on an immediate basis as a result of that claimant's asbestos related disease, such claims may be processed at the head of the FIFO claim queue. *See* Section 5.5 of the

TDP

F. **Secondary Exposure Claims**

Claimants who assert that they have an asbestos related disease as a result of derivative exposure from a family member may be compensated under the TDP if they meet specific criteria set forth in Section VII(a)(2) of the Matrix.

G. **Evidentiary Requirements**

Trust Claimants will need to meet the medical evidence criteria for the disease alleged as set forth in the Matrix and in the TDP with respect to claims materials. *See* Section 6 of the TDP. All claims materials are subject to audit in the discretion of the Trustees. Generally speaking Trust claimants must have a diagnosis from a qualified medical professional who has actually examined the claimant or the claimant's pathology and provided a written diagnosis of an asbestos related disease. Medical reports based upon a finding that a claimant's medical condition is "consistent with" an asbestos related disease are not sufficient.

H. **Exposure Evidence**

The evidence required to prove exposure to asbestos as a result of Debtors' activities are set forth in Section 6 of the TDP and Section VII of the Matrix. Generally speaking there requirements include deposition testimony, invoices, affidavits, business records, deck logs, military service records or other credible evidence acceptable to the Trust, that establishes the Injured Person's presence at a particular ship, facility, job site, building or buildings, or location during a time period in which the asbestos-containing material for which Thorpe is responsible was present.

I. **Second Disease (Malignancy Claims)**

Those claimants who are first diagnosed with a non-malignant asbestos related disease may file a new claim for a malignant disease that is subsequently diagnosed. *See* Section 5.8 of the TDP.

VIII. TAX CONSEQUENCES OF THE PLAN

The following discussion is a summary of certain federal income tax aspects of the Plan. This discussion is provided for general information only and should not be relied upon for purposes of determining the specific tax consequences of the Plan to a particular holder of a Claim. This

discussion does not purport to be a complete analysis or listing of all potential tax considerations. The Plan may have significant tax consequences for all Creditors and Equity Holders of the Debtors. Accordingly, each holder of a Claim or Equity Interest is strongly urged to consult with his or her tax advisor regarding the federal, state, local and foreign tax consequences of the Plan.

This discussion is based upon existing provisions of the IRC, existing and proposed regulations thereunder, and current administrative rulings and court decisions. No assurance can be given that legislative or administrative changes or court decisions may not be forthcoming which would require significant modification to the statements expressed in Article VIII of the Plan. Moreover, the tax consequences to holders of Claims may vary based upon the individual tax circumstances of each such holder.

NO RULING HAS OR WILL BE REQUESTED OR OBTAINED FROM THE INTERNAL REVENUE SERVICE WITH RESPECT TO ANY OF THE TAX ASPECTS OF THE PLAN AND NO OPINION OF COUNSEL HAS BEEN OR WILL BE OBTAINED BY EITHER OF THE DEBTORS IN RESPECT THEREOF. ACCORDINGLY, NO REPRESENTATIONS OR ASSURANCES ARE BEING MADE WITH RESPECT TO THE FEDERAL INCOME TAX CONSEQUENCES AS DESCRIBED HEREIN. CERTAIN HOLDERS OF CLAIMS MAY BE SUBJECT TO SPECIAL RULES NOT ADDRESSED IN THIS SUMMARY OF FEDERAL INCOME TAX CONSEQUENCES. THERE ALSO MAY BE STATE, LOCAL OR FOREIGN INCOME TAX CONSIDERATIONS APPLICABLE TO EACH HOLDER OF A CLAIM OR INTEREST WHICH ARE NOT ADDRESSED HEREIN. THE DEBTORS AND THE REORGANIZED DEBTOR MAY WITHHOLD ALL AMOUNTS REQUIRED BY LAW TO BE WITHHELD FROM PAYMENTS TO HOLDERS OF ALLOWED CLAIMS. ADDITIONALLY, SUCH HOLDERS MAY BE REQUIRED TO PROVIDE CERTAIN TAX INFORMATION TO THE DEBTORS AND THE REORGANIZED DEBTOR AS A CONDITION TO RECEIVING DISTRIBUTIONS UNDER THE PLAN.

A. Tax Consequences to the Debtors

1. Discharge of Indebtedness

Under the IRC, a taxpayer will generally be deemed to realize and recognize gross income to the extent its indebtedness is discharged during the taxable year. Section 108(a)(1)(A) of the IRC provides an exception to this rule when a taxpayer is subject to the jurisdiction of a bankruptcy court and where the discharge of indebtedness is granted by that court or is effected pursuant to a plan approved thereby, subject to the condition, imposed by section 108(b) of the IRC, that the income realized from the indebtedness discharge be applied to reduce certain tax attributes of the taxpayer in the following order: net operating losses, tax credit carryforwards, capital loss carryforwards, the basis of the taxpayer's assets and foreign tax credit carryforwards (the "Tax Attributes"). Section 108(b)(5) of the IRC provides that a taxpayer may elect to first apply the reduction to the basis of the taxpayer's assets, with any remaining balance applied to the other Tax Attributes. Section 108(e)(2) of the IRC provides a further exception, to the effect that the taxpayer will be deemed not to have realized income from the discharge of indebtedness to the extent that the taxpayer's satisfaction of the debt would have given rise to an income tax deduction. The effect of section 108(e)(2) of the IRC, where applicable, is to allow the taxpayer to discharge indebtedness without recognizing income and avoid any reduction of its Tax Attributes.

With respect to payment of holders of Claims, the satisfaction and discharge of such Claims should not result in discharge of indebtedness income pursuant to section 108(e)(2) because payment of the Claims would have given rise to income tax deductions to the Debtor. Therefore, any discharge relating to these Claims will not result in income to the Debtor or a reduction of the Debtor's Tax Attributes.

2. Transfers to the Trust

Assuming that the Trust receives certain approvals from the Bankruptcy Court, the Trust should qualify as a "qualified settlement fund" ("QSF") within the meaning of section 468B of the IRC and the regulations thereunder, and the Debtors should be treated as qualified transferors thereto.

A qualified transferor must treat a transfer of property to a QSF as a sale or exchange of that

property. In computing gain or loss, the amount realized by the transferor is the fair market value of the property on the date the transfer is made to the QSF. A transferor must obtain a so-called "qualified appraisal" to support a loss or deduction claimed with respect to a transfer to a QSF with respect to certain types of property.

If an accrual-method transferor makes a transfer to a QSF to resolve or satisfy a liability, so-called "economic performance" occurs at the time and to the extent of the transfer (subject to limitations for transfers of debt instruments of the transferor, and amounts that are subject to a right of current reversion or refund to the transferor (or refunds certain to occur at a future time)) and the transferor is generally entitled to an income tax deduction at such time.

A transferor must include in gross income the fair market value of any distribution (or deemed distribution) received by it from a QSF.

B. Tax Consequences to the Holders of Claims

To the extent that payments from the Trust to holders of Claims constitute damages received by holders of such Claims on account of personal physical injuries, such payments should not constitute gross income to such recipients under section 104 of the IRC, except to the extent that such payments are attributable to medical expense deductions allowed under section 213 of the IRC for a prior taxable year. To the extent that payments from the Trust to holders of Claims constitute damages received by holders of such Claims on account of claims other than personal injuries (such as lost wages), such payments will be includible in gross income to such holders.

The tax consequences of payments received by holders of Claims will depend upon the individual nature of each Claim and the particular circumstances and facts applicable to the holder of the Claim at the time each such payment is made. If required by the IRS, the Trust will issue Form 1099s to holders of Claims. Neither the Trust, the Debtors nor the Reorganized Debtor will attempt to allocate amounts paid with respect to Claims between physical and non-physical injuries.

C. Tax Consequences to the Trust

The Trust should qualify as a QSF within the meaning of section 468B of the IRC and the regulations thereunder at the time it receives certain approvals from the Bankruptcy Court (or earlier to the extent a relation-back election" is made) and the Debtors and the Reorganized Debtor should

be treated as qualified transferors to the Trust. The Trust will be required to pay taxes on modified gross income as defined within the Treasury regulations (generally at the highest rate applicable to estates and trusts). For certain federal income tax purposes, the Trust will be treated as a corporation. The Trust will generally not be required to include in income amounts transferred to it by or on behalf of the Debtors and the Reorganized Debtor to satisfy their asbestos liabilities. The Trust will not be entitled to deduct for federal income tax purposes amounts paid out to holders of Claims, provided that, the Trust will be entitled to deduct amounts paid for administrative costs and other incidental costs of the Trust. The Trust's basis in the assets received by it under the Plan will be the fair market value of such assets at the time of receipt.

THE FOREGOING IS INTENDED TO BE A SUMMARY ONLY AND NOT A SUBSTITUTE FOR CAREFUL TAX PLANNING WITH A TAX ADVISOR. THE FEDERAL, STATE, LOCAL AND FOREIGN INCOME TAX CONSEQUENCES OF THE PLAN ARE COMPLEX AND, IN SOME CASES, UNCERTAIN. SUCH CONSEQUENCES ALSO MAY VARY BASED UPON THE INDIVIDUAL CIRCUMSTANCES OF EACH HOLDER OF A CLAIM OR INTEREST. ACCORDINGLY, EACH HOLDER OF A CLAIM OR INTEREST IS URGED STRONGLY TO CONSULT WITH HIS, HER OR ITS OWN TAX ADVISOR REGARDING THE FEDERAL, STATE, LOCAL AND FOREIGN INCOME TAX CONSEQUENCES OF THE PLAN

IX. RISK FACTORS

As with any plan of reorganization or other financial transaction, there are certain risk factors that must be considered. This Disclosure Statement contains forward-looking statements that involve risks and uncertainty. All risk factors cannot be anticipated, some events will develop in ways that were not foreseen, and actual results could differ materially from those anticipated in such forward-looking statements. **HOLDERS OF CLAIMS AND EQUITY INTERESTS SHOULD CONSIDER CAREFULLY THE FOLLOWING FACTORS, IN ADDITION TO THE OTHER INFORMATION CONTAINED IN THIS DISCLOSURE STATEMENT, BEFORE SUBMITTING A VOTE TO ACCEPT OR REJECT THE PLAN.**

A. Appointment of Professionals and Fiduciaries

The Bankruptcy Court has appointed the Honorable Charles B. Renfrew (Ret.) as the legal representative for the purpose of protecting the rights of persons that might subsequently assert Asbestos Related Claims. The Debtors' insurers objected to the appointment of the Futures Representative and appealed the order authorizing his retention to the District Court. The District Court has dismissed the appeal, on the grounds that the order appointing the Futures Representative is interlocutory (and not subject to immediate appeal) and that the appellants lack standing to pursue the appeal.

In addition, the Debtors' insurers have objected to the employment by the Debtors of numerous professionals. The Debtors' insurers have appealed the Bankruptcy Court's orders overruling their objections. For example, in April 2008, the District Court remanded to the Bankruptcy Court for further evidentiary hearings concerning aspects of the Bankruptcy Court's approval of the employment of the Debtors' insurance coverage counsel. If the Debtors' insurance coverage counsel are not employed, there is the possibility of resulting delay.

Fireman's Fund and Continental, and possibly other Asbestos Insurers, may continue to dispute the Debtors' employment of its special insurance coverage counsel, or the terms of such employment, and may seek to appeal any further determinations made by the Bankruptcy Court relating to such employment. Such efforts may delay or impede Confirmation of the Plan.

B. Appointment of Trustee

The Debtors' insurers filed a motion seeking appointment of a trustee to manage Thorpe's estate. The Bankruptcy Court denied the motion and the insurers appealed. There is a risk that the District Court could reverse the bankruptcy court's decision. If a Trustee is appointed, there could be a delay and there is the possibility that the proposed plan of reorganization would not be acceptable to a court-appointed Trustee.

C. Insurance Coverage Litigation

The Debtors' insurers assert that there is no remaining insurance coverage for Asbestos Related Claims. The Debtors believe that there is substantial insurance coverage for certain Asbestos Related Claims and that it has meritorious extra-contractual or punitive damage

claims against various insurers based upon their conduct. If the Debtors' insurers are correct and there is no remaining insurance coverage, then it is unlikely that the Trust will have sufficient assets to cover the costs of administration of the bankruptcy and the Trust, and still make a meaningful distribution on Asbestos Related Claims.

D. Investment Risks

While the Trust Agreement provides prudent rules for guiding Trustees in making Trust investments with Trust assets, there is still the risk that the Trust will not earn as much money as expected or that its investments will decrease in value such that future asbestos claimants may be paid less for substantially the same claim.

E. Legislation Risks

In the past there have been proposals for the United States government to acquire or seize the assets of trusts established by Section 524(g) trusts to fund a national asbestos compensation system. Those legislative efforts were not successful in the past. There is a risk that that those efforts could begin again.

F. Claims Risk

The Plan calls for the Trust to set the Matrix Average Values, Base Case Values as well as the Funds Received Ratio. There is the possibility that despite the best efforts of the Trustees, the TAC and the Futures Representative, more legitimate claims will be presented to the Trust than anticipated. If that happens, there is the possibility that the Funds Received Ratio would have to be lowered, resulting in some asbestos claimants being paid less for substantially the same claim.

G. Inflation Risk

The Plan calls for inflation adjustments for future claim payments. There is a risk that the level of inflation will outstrip the after tax return on Trust investments. If that happens, there is a risk that future asbestos claimants will be paid less for substantially the same claim.

H. Wellington Settlement Claims

As described, *supra*, at Section IV(C)(3) of this Disclosure Statement, one condition to Confirmation of the Plan is the issuance of the Wellington Settlement Claims Favorable

Determination. Although this condition may be waived by the Committee and the Futures Representative by making the Indemnity Election, there can be no assurance that such election will be made, or that it will be made before the conclusion of the currently scheduled date for the Confirmation Hearing. As a result, depending on the nature and status of the Debtors' objections to the Wellington Settlement Claims, the Confirmation of the Plan may be delayed. In addition, if the Debtors are not able to obtain the Wellington Settlement Claims Favorable Determination (and the Indemnity Election is not made), the Plan may need to be withdrawn or modified.

I. Risk of Non-Confirmation of the Plan

Although the Proponents believe that the Plan will satisfy all requirements necessary for Confirmation by the Bankruptcy Court, there can be no assurance that the Bankruptcy Court will reach the same conclusion. There can also be no assurance that modifications of the Plan will not be required for Confirmation, that such negotiations would not adversely affect the holders of Allowed Claims and Equity Interests, or that such modifications would not necessitate the re-solicitation of votes.

As discussed below, if any impaired class of Claims or Equity Interests does not accept a plan of reorganization, the Bankruptcy Court may nevertheless confirm such a plan of reorganization at a proponent's request if at least one impaired class has accepted the plan of reorganization (without including the acceptance of any "insider" in such class) and, as to each impaired class that has not accepted the plan of reorganization, the Bankruptcy Court determines that the plan of reorganization "does not discriminate unfairly" and is "fair and equitable" with respect to rejecting impaired classes.

J. Disputes Regarding "Insurance Neutrality" of Plan

Fireman's Fund and Continental, and possibly other Asbestos Insurers, may contend that the Plan is not truly "insurance neutral" and that selected provisions of the Plan or the Trust Documents may undermine, or interfere with, their respective Asbestos Insurance Defenses. They may also contend that the Asbestos Insurance Defenses that are preserved under the Plan (as defined in Section 1.12 of the Plan), impermissibly exclude certain defenses that should nonetheless be retained by the insurers. The insurers may therefore object to Confirmation of the Plan on the grounds that

the Plan impairs their rights, claims or defenses in the Coverage Litigation, under their Asbestos Insurance Policies or otherwise. The Proponents believe that the Plan has been carefully structured to preserve in all respects all Asbestos Insurance Defenses and that any exclusions from such retained defenses are authorized under well-established precedent. Nevertheless, there can be no assurance that the Bankruptcy Court will not require modifications to "insurance neutrality" provisions of the Plan that may or may not be acceptable to the Proponents.

K. Other Confirmation Risks Articulated by Certain Insurers

Fireman's Fund and Continental, and possibly other Asbestos Insurers, may contend that the Plan is objectionable on a number of other grounds and that Confirmation of the Plan may be denied or delayed as a result. In particular, certain insurers may contend that the provisions of Section 5.4.1 of the Plan, relating to the transfer of Asbestos Insurance Rights to the Trust, is unlawful, impermissible, inappropriate or otherwise objectionable. The Proponents believe that the provisions of Section 5.4.1 of the Plan are authorized under the Bankruptcy Code and well-established precedent. Certain insurers may also dispute the scope of the Channeling Injunction under the Bankruptcy Code, or may contend that the inclusion of certain Protected Parties within the reach of the Channeling Injunction is not fair and equitable. The Proponents believe that the Protected Parties under the Channeling Injunction are permissible beneficiaries of an injunction issued under Section 524(g) of the Bankruptcy Code and that the pertinent requirements of the Bankruptcy Code will be established at the Confirmation Hearing. Certain insurers believe that the Debtors cannot be merged pursuant to the Plan without the Plan proposing to "substantively consolidate" the assets and liabilities of the Debtors (i.e., treat the assets and liabilities of the entities as if they belong to a consolidated, single entity), which the Plan does not do. The Proponents believe that it is unnecessary for the Plan to treat the Debtors' assets and liabilities on a substantively consolidated basis in order for the Plan to be implemented by a merger of the Debtors. Nevertheless, as with all litigation, the outcome of such disputes is uncertain and there can be no assurance that the Proponents will prevail. There will be other objections to the Plan that will be raised and strenuously prosecuted by numerous insurers, any one of which may constitute a risk factor affecting Confirmation.

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

X. CHAPTER 7 LIQUIDATION AS AN ALTERNATIVE TO THE PLAN

If the Plan is not timely confirmed the most likely alternative is a chapter 7 liquidation proceeding. The Debtors assume that, under chapter 7, two separate trustees would be appointed for each of the Debtors. Presumably, the trustees would hire new counsel and consultants to pursue and defend litigation. The delays and uncertainty caused by the failure to confirm the Plan would increase the liquidation costs and reduce recoveries to Creditors. Moreover, absent confirmation of the Plan under chapter 11 of the Bankruptcy Code, the Debtors would not be able to obtain the benefits of the provisions of Section 524(g) of the Bankruptcy Code which would materially reduce recoveries under existing settlements with certain insurers, and would likely reduce the recoveries from future settlements with insurers by eliminating the ability to grant settling insurers protection under the provisions of Section 524(g). Under the circumstances, the Debtors believe that confirmation of the Plan is preferable to liquidation under chapter 7.

XI. LIQUIDATION ANALYSIS

Section 1129(a)(7) of the Bankruptcy Code requires that a holder of a Claim in an impaired Class receive or retain under the Plan not less than the holder would receive or retain on account of the Claim if the debtor were liquidated under chapter 7 of the Bankruptcy Code. This test is often referred to as the "best interest of creditors" test. Under the Plan, all Claims other than Asbestos Injury Claims are paid in full, and thus the best interest of creditors test is inapplicable to holders of Claims other than Asbestos Injury Claims.

To apply the "best interests" test, the Bankruptcy Court must first calculate the aggregate dollar amount that would be generated from a liquidation of each Debtor's assets in hypothetical liquidations on the Effective Date of the Plan under chapter 7, including the amount of cash and other tangible assets held by such Debtor and the value of any projected recoveries on actions against third parties and other intangible assets held by such Debtor (the "Liquidation Value"). The Liquidation Value must then be reduced by the costs of liquidation, including administrative costs of the chapter 7 estates and compensation to the chapter 7 trustees and other professionals retained by the trustees (the "Liquidation Costs"). After estimating the Liquidation Value and the Liquidation Costs, the Bankruptcy Court must ascertain the potential chapter 7 recoveries by Creditors and then

compare those recoveries with the distributions offered under the Plan to determine if the Plan is in the "best interests" of Creditors in each Class.

In a hypothetical chapter 7 case, the Debtors' rights in the Coverage Litigation would be preserved. It cannot be assumed, however, that the settlement value of the Debtors' claims in the Coverage Litigation would be as great in chapter 7 as in chapter 11. The benefits of the provisions of Section 524(g) of the Bankruptcy Code can be obtained only through confirmation of a chapter 11 plan of reorganization. If such a plan is not confirmed, Thorpe will be unable to satisfy the conditions for receiving additional sums of at least $20 million from its settlements with Pacific Indemnity Company, Great American Insurance Company and Republic Indemnity Company of North America. In addition, conversion to chapter 7 could reduce the value of future settlements with insurers by eliminating the ability to grant settling insurers protection under the provisions of Section 524(g).

Accordingly, the Debtors believe that the Liquidation Value is no greater than, and likely is less than, the value of the assets to be distributed under the Plan. In addition, the Debtors believe that the Liquidation Costs in chapter 7 would exceed the costs of administering the Plan. The fees of possibly two chapter 7 trustees (one in each case) can be avoided by confirming the Plan. Moreover, the new, outside professionals retained by a trustee would have to expend substantial time in familiarizing themselves with the intricacies of these cases that would not be necessary in chapter 11. A trustee might choose to explore further legal actions and increase his or her legal expenses even more than has been projected. In addition, the creation of a new bar date for claims would allow previously late-filed claims to be filed in a timely fashion and permit claims that are presently time-barred to be timely filed. This would increase the claims pool and further dilute the recoveries to creditors.

Accordingly, the Debtors believe that Creditors will receive distributions under the Plan that are **at least** equal in value to the distributions they would receive in a chapter 7 liquidation and, therefore, the Plan is in their best interests.

XII. ACCEPTANCE AND CONFIRMATION OF THE PLAN

The following is a brief summary of the provisions of the Bankruptcy Code relevant to

acceptance and confirmation of a plan of reorganization. Holders of Claims and Equity Interests are encouraged to review the relevant provisions of the Bankruptcy Code with their own attorneys.

A. Acceptance of the Plan

This Disclosure Statement is provided in connection with the solicitation of acceptances of the Plan. The Bankruptcy Code defines acceptance of a plan of reorganization by a Class of Claims as acceptance by holders of at least two-thirds in dollar amount, and more than one-half in number, of the Allowed Claims of that Class that have actually voted or are deemed to have voted to accept or reject a plan. The Bankruptcy Code defines acceptance of a plan of reorganization by a Class of interests as acceptance by at least two-thirds in amount of the allowed interests of that Class that have actually voted or are deemed to have voted to accept or reject a plan.

If one or more impaired Classes reject the Plan, the Debtor may, in their discretion, nevertheless seek confirmation of the Plan if the Debtors believe that the requirements of Section 1129(b) of the Bankruptcy Code for Confirmation of the Plan (which are summarized below) will be met, despite the lack of acceptance by all Impaired Classes.

B. Confirmation

Section 1128(a) of the Bankruptcy Code requires the Bankruptcy Court, after notice, to hold a hearing on confirmation of a plan. Notice of the Confirmation Hearing regarding the Plan has been provided to all known holders of Claims and Equity Interests or their respective representatives along with this Disclosure Statement. The Confirmation Hearing may be adjourned from time to time by the Bankruptcy Court without further notice except for an announcement of the adjourned date made at the Confirmation Hearing or any subsequent adjourned Confirmation Hearing.

Section 1128(b) of the Bankruptcy Code provides that any party in interest may object to confirmation of a plan. Any objection to Confirmation of the Plan must be in writing, must conform with the Bankruptcy Rules and the Local Rules of the Bankruptcy Court, must set forth the name of the objecting party, the nature and amount of Claims or Equity Interests held or asserted by that party against the Debtors' Estates or property, and the specific basis for the objection. Such objection must be filed with the Bankruptcy Court, together with a proof of service, and served on all parties and by the date set forth on the notice of the Confirmation Hearing.

At the Confirmation Hearing, the Proponents will request that the Bankruptcy Court determine that the Plan satisfies the requirements of Section 1129 of the Bankruptcy Code. If the Bankruptcy Court so determines, the Bankruptcy Court will enter an order confirming the Plan. The applicable requirements of Section 1129 of the Bankruptcy Code are as follows:

- The Plan must comply with the applicable provisions of the Bankruptcy Code;
- The Debtors must have complied with the applicable provisions of the Bankruptcy Code;
- The Plan must have been proposed in good faith and not by any means forbidden by law;
- Any payment made or promised to be made by the Debtors under the Plan for professional services or for costs and expenses in, or in connection with, the chapter 11 Cases, or in connection with the Plan, must have been disclosed to the Bankruptcy Court, and any such payment made before Confirmation of the Plan must be reasonable, or if such payment is to be fixed after Confirmation of the Plan, such payment must be subject to the approval of the Bankruptcy Court as reasonable;
- The Debtors must have disclosed the identity and affiliates of any individual proposed to serve, after Confirmation of the Plan, as a director, officer, or voting trustee of the Debtors under the Plan. Moreover, the appointment to, or continuance in, such office of such individual, must be consistent with the interests of holders of Claims and Equity Interests and with public policy, and the Debtors must have disclosed the identity of any insider that the Reorganized Debtor will employ or retain, and the nature of any compensation for such insider. The Proponents will disclose the identity of the officers and directors of the Reorganized Debtor in the Plan Supplement;
- With respect to each Class of Impaired Claims or Equity Interests, either each holder of a Claim or Equity Interest of such Class must have accepted the Plan, or must receive or retain under the Plan on account of such Claim or Equity Interest, property of a value, as of the Effective Date of the Plan, that is not less than the amount that such holder would receive or retain if the Debtors were liquidated on such date under chapter 7 of the Bankruptcy Code;
- Each Class of Claims or Equity Interests must have either accepted the Plan or not be Impaired under the Plan;
- In order to issue the injunctions contemplated by the Plan and authorized under Section 524(g) of the Bankruptcy Code, at least 75% of those voting in Class 5 must vote to accept the Plan;
- Except to the extent that the holder of a particular Claim has agreed to a different treatment of such Claim, the Plan provides that Allowed Administrative and Priority and Priority Tax Claims will be paid in full on the Effective Date;
- At least one impaired Class of Claim must have accepted the Plan, determined without including any acceptance of the Plan by any insider holding a Claim of such Class; and

- Confirmation of the Plan must not be followed by the liquidation, or the need for further financial reorganization of the Debtors or any other successor.

C. Confirmation Without Acceptance by All Impaired Classes.

Section 1129(b) of the Bankruptcy Code allows a Bankruptcy Court to confirm a plan, even if such plan has not been accepted by all of the impaired Classes entitled to vote, provided that such plan has been accepted by at least one impaired Class, and the plan does not "discriminate unfairly" and is "fair and equitable" with respect to each Class of impaired Claims or Interests that has not accepted the plan. This procedure is commonly known as "cramdown."

If any impaired Classes reject or are deemed to have rejected the Plan, the Debtors reserve their right to seek the application of the requirements set forth in Section 1129(b) of the Bankruptcy Code for Confirmation of the Plan despite the lack of acceptance by all impaired Classes.

XIII. MISCELLANEOUS PROVISIONS

1. Objections to Claims

After the Effective Date, objections to Administrative Claims and all other Claims may be made and objections to Administrative Claims and Claims made before the Effective Date may be pursued by the Reorganized Debtor or any other Person properly entitled to do so after notice to the Reorganized Debtor and approval by the Bankruptcy Court. Any objections to Administrative Claims and Claims made after the Effective Date shall be filed and served on the holders of such Administrative Claims and Claims not later than one hundred-twenty (120) days after the Effective Date or such later date as may be approved by the Bankruptcy Court.

2. Settlement of Objections after the Effective Date

From and after the Effective Date, the Reorganized Debtor may litigate to Final Order, propose and consummate settlements of, or withdraw objections to, all pending or filed Disputed Claims and may settle or compromise any Disputed Claim without notice and a hearing and without approval of the Bankruptcy Court.

3. Holding of, and Failure to Claim, Undeliverable Distributions

All Distributions are to be made by the Reorganized Debtor to the holder of each Allowed Claim at the address of such holder as listed on the Schedules at the time of such Distribution. If any

holder's distribution is returned as undeliverable, no further Distributions to such holder shall be made unless and until the Reorganized Debtor are notified of such holder's then current address, at which time all required Distributions shall be made to such holder. Undeliverable distributions shall be held by the Reorganized Debtor until such Distributions are claimed. All claims for undeliverable Distributions shall be made on or before the first anniversary of the Effective Date. After such date, all unclaimed distributions shall revert to Reorganized Debtor and the Claim of any holder or successor to such holder with respect to such distribution shall be discharged and forever barred notwithstanding any federal or state escheat laws to the contrary.

4. Transfer Taxes

In accordance with Section 1146(c) of the Bankruptcy Code: (a) the transfer of the Equity Interests; (b) the making, assignment, modification, or recording of any lease or sublease; or (c) the making, delivery, or recording of a deed or other instrument of transfer under, in furtherance of, or in connection with, the Plan, the Confirmation Order, or any transaction contemplated above, or any transactions arising out of, contemplated by, or in any way related to, the foregoing shall not be subject to any document recording tax, stamp tax, conveyance fee, intangibles or similar tax, mortgage tax, stamp act or real estate transfer tax, mortgage recording tax or other similar tax or governmental assessment and the appropriate state or local government officials or agents shall be directed to forego the collection of any such tax or assessment and to accept for filing or recordation any of the foregoing instruments or other documents without the payment of any such tax or assessment.

5. United States Trustees' Fees

The Reorganized Debtor shall pay all quarterly fees payable to the Office of the United States Trustee for the Debtors after Confirmation, consistent with applicable provisions of the Bankruptcy Code, Bankruptcy Rules, and 28 U.S.C. § 1930(a)(6).

6. Method of Payment

Payments of Cash required to be made under the Plan shall be made by check drawn on a domestic bank or by wire transfer from a domestic bank at the election of the Person making such payment. Whenever any payment or distribution to be made under the Plan is due on a day other

than a Business Day, such payment or distribution may instead be made, without interest, on the immediately following Business Day.

XIV. RECOMMENDATION AND CONCLUSION

The Proponents have analyzed different scenarios and believe that the Plan will provide for a larger distribution to holders of Claims and Equity Interests than would otherwise result if an alternative restructuring plan were proposed or if the Debtors were liquidated under chapter 7. In addition, any alternative other than Confirmation of the Plan could result in extensive delays and increased administrative expenses resulting in potentially smaller distributions to the holders of Claims and Equity Interests. Accordingly, the Proponents recommend confirmation of the Plan and urge all holders of Impaired Claims and Equity Interests to vote to accept the Plan and to indicate acceptance by returning their Ballots so as to be received by no later than the voting deadline.

APPENDIX A

DISCLAIMER: *The information set forth below in this Appendix A has been supplied by Fireman's Fund and Continental, and certain other insurers, to provide alternative and/or additional disclosures regarding the Debtors' Asbestos Insurance Policies, the Coverage Litigation and the Wellington Settlement Claims. The information provided below has not been approved or disapproved by any of the Proponents, does not necessarily reflect the views of any of the Proponents, and shall not constitute or be construed as an admission of any fact or liability, stipulation or waiver on behalf of any of the Proponents, but rather as a statement of position made by certain insurers.*

Certain of Thorpe's insurers ("Insurers") strongly disagree with the adequacy of the Plan Proponents' description in Section IV.C of the Disclosure Statement as to, *inter alia,* Thorpe's insurance coverage and pending coverage disputes. The Insurers submit the summary below to supplement the Plan Proponents' description recognizing that the Plan Proponents do not agree with it:

A principal issue to be decided in the Coverage Litigation[5] is whether, as Thorpe contends, certain of its asbestos-related bodily injury claims are "non-products" or "operations" claims for which Thorpe contends it is entitled to additional insurance coverage. The Insurers, conversely, contend that Thorpe's asbestos claims fall within the products and/or completed operations hazards of Thorpe's policies, and are therefore subject to those policies' aggregate limits of liability. The Insurers' interpretation was the holding of the United States Court of Appeals for the Fourth Circuit in *In re Wallace & Gale Co.,* 385 F.3d 820 (4th Cir. 2004), the only federal appellate court decision that has addressed this issue. The Insurers' aggregate limits of liability were exhausted by payment to Thorpe of more than $180 million in coverage over a 28-year period. Accordingly, it is the Insurers' position that Thorpe's insurance policies are fully exhausted, the Insurers' coverage obligations under those policies are fully satisfied, and Thorpe is entitled to no additional coverage for asbestos-related claims.

Because Thorpe waited almost three decades before asserting an alleged right to "nonproducts" coverage, the Insurers contend that even assuming *arguendo* certain of Thorpe's claims are "operations" claims, Thorpe waived, is time-barred and/or estopped from asserting an alleged right to such coverage. The factual basis for these and related defenses is outlined in the recent California Court of Appeal opinion establishing that course of performance pursuant to the applicable policies is admissible to interpret the policy language. *See Employers Reinsurance Co.* v. *Superior Court,* 161 Cal. App. 4th 906, 918-25 (2d Dist. 2008).

Moreover, Thorpe executed a: settlement agreement with its primary insurers in 1984, which certain of Thorpe's primary insurers contend released them from any further liability for Thorpe claims upon exhaustion of their policies' aggregate limits. *Id.* at 925 (outlining factual basis of release defense). As a result, certain of Thorpe's excess carriers contend that such a release of Thorpe's underlying primary coverage constituted a breach of the excess policies, obviating some or all of Thorpe's excess coverage as well. *See Qualcomm, Inc.* v. *Certain Underwriters at Lloyd's, London,* 73 Cal. Rptr. 3d 770 (Cal. App. 4th Dist. 2008). These and other defenses set forth in the Insurers' pleadings in the Coverage Litigation, in the Insurers' view, make any further Thorpe recovery from them highly unlikely.

---

[5] As Wellington Agreement signatories, Fireman's Fund and Harbor are not parties to the pending Coverage Litigation.

APPENDIX B

DISCLAIMER: *The information set forth below in this Appendix B has been supplied by Fireman's Fund and Continental, and certain other insurers, to provide alternative and/or additional disclosures regarding the Debtors' Asbestos Insurance Policies, the Coverage Litigation and the Wellington Settlement Claims. The information provided below has not been approved or disapproved by any of the Proponents, does not necessarily reflect the views of any of the Proponents, and shall not constitute or be construed as an admission of any fact or liability, stipulation or waiver on behalf of any of the Proponents, but rather as a statement of position made by certain insurers.*

Continental and Fireman's Fund strongly disagree with the Plan Proponents' description provided in Section IV.C of the Disclosure Statement as to, *inter alia*, (a) Thorpe's insurance coverage, (b) the coverage disputes, and (c) Continental's and Fireman's Fund's claims against Thorpe. Consequently, Continental and Fireman's Fund submit the factual summary below to supplement the Plan Proponents' narrative. Continental and Fireman's Fund expressly recognize that the Plan Proponents do not agree with the factual summary set forth below.

The Wellington Agreement, The Wellington Settlement, and the Wellington Arbitration

Before the Petition Date, Harbor Insurance Company ("Harbor"), issued four primary liability policies to Thorpe (collectively, the "Harbor Policies") covering the years 1971-1979. Fireman's Fund also issued or allegedly issued 17 primary policies to Thorpe covering the years 1952-1970. Each of Continental (as the successor-in-interest to Harbor with respect to the Harbor Policies), Thorpe, and Fireman's Fund are signatories to the Wellington Agreement, an omnibus insurance coverage and claims handling agreement executed in 1985 by approximately 35 asbestos producers and certain of their insurers. The Wellington Agreement provided for binding arbitration as the exclusive procedure for resolving disputes between the signatories.

Between 1978 and 1998, Thorpe sought, and both Continental (as the successor-in-interest to Harbor with respect to the Harbor Policies) and Fireman's Fund paid, a combined $23.5 million in coverage. Continental and Fireman's Fund paid such amounts with the agreement and understanding that the asbestos claims against Thorpe were "products" and/or "completed operations" claims subject to their policies' aggregate limits of liability. The aggregate limits of the policies exhausted in April, 1998 for Continental and in September, 1998 for Fireman's Fund.

Upon exhaustion of its primary coverage, Thorpe began tendering claims to, and accepting coverage from, its excess carriers. These excess carriers were obligated to pay such claims only if the underlying primary policies were in fact exhausted. At approximately the same time, however, Thorpe tendered claims to Continental (as the successor-in-interest to Harbor with respect to the Harbor Policies) and Fireman's Fund as so-called "non-products" or "operations" claims. Thorpe argued that such claims were not subject to aggregate limits under their insurance policies. Continental and Fireman's Fund responded to Thorpe's claim by initiating arbitration under the Wellington Agreement to obtain a declaration that their primary policies were exhausted and that Thorpe was not entitled to additional "non-products" coverage thereunder.

The Honorable Abraham Sofaer, a former United States District Judge for the Southern District of New York, conducted the arbitration. Judge Sofaer rejected Thorpe's claim for additional coverage, and ruled that Thorpe was not entitled to "non-products" coverage from Continental or

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

Fireman's Fund for its asbestos bodily injury claims. Judge Sofaer further ordered Thorpe, as the losing party, to pay Fireman's Fund's and Continental's attorneys' fees.

The Wellington Agreement provides for appeals from the decisions of Wellington arbitrators to a panel of Wellington arbitrators. Thorpe appealed Judge Sofaer's decision within the appeal structure established by the Wellington Agreement. On April 17, 2003, Fireman's Fund, Continental (as the successor-in-interest to Harbor with respect to the Harbor Policies), and Thorpe entered into that certain Wellington Settlement and Release (the "Wellington Settlement"), pursuant to which Thorpe released all claims of any kind, no matter how constituted, that it had or ever could have against Fireman's Fund and Continental. Among other things, Thorpe, defined to include any successor-in-interest, such as the Trust, released Continental, Harbor, and Fireman's Fund "from any claims for coverage of any kind under or related to the Policies," including "known and unknown" claims, "future" claims, claims "which do not yet exist and which could not be foreseen," and "unanticipated claims of any kind." Further, the Wellington Settlement was a "full and complete accord and satisfaction of any and all obligations that [Fireman's Fund and/or Continental (as the successor-in-interest to Harbor with respect to the Harbor Policies)] have or may ever have for any claim of any kind under the policies, whether described above or otherwise." In addition, the parties made the following warranties:

> The parties to this Agreement each represent and warrant that they have not and will not in any manner assign, transfer, conveyor sell, or purport to assign, transfer, conveyor sell to any entity or person any cause of action, chose in action, or part thereof, arising out of or connected with the matters released herein, and that they are the only person or entities. entitled to recover for damages under such claims, causes of action, actions, and rights. The parties to this Agreement each further represent and warrant that they will not in any way voluntarily assist any other person or entity in the establishment of any claim, cause of action, action, or right against the other party to this Agreement arising out of, resulting from or in any way relating to the matters released.

The Wellington Settlement provided the following remedies for breach of these warranties:

> Each party to this Agreement expressly agrees to indemnify the other for all expenses, reasonable fees, including reasonable attorneys' fees, and other consequences, of any breach by the indemnifying Party of a warranty expressly stated in this Agreement, provided that neither this provision nor any provision other than paragraph 27 limits the rights, obligations or duties of the parties hereto under the Wellington Agreement.

Finally, adhering to the Wellington Agreement's arbitration mandate, the parties agreed "to the continuing jurisdiction of Trial Judge Abraham D. Sofaer to enforce this Agreement and its terms."

The Coverage Litigation.

Following the Wellington Settlement, Fireman's Fund and Continental have contended that Thorpe continued to submit and accept payment from its excess carriers for claims as products claims subject to its excess limits. Fireman's Fund and Continental have contended that, in late 2005, as the remainder of these limits were approaching exhaustion, Thorpe asserted for the first time that it was entitled to "non-products" coverage from its non-Wellington carriers. To resolve this and other issues, Thorpe and two of its excess insurers filed competing declaratory judgment actions in California Superior Court. The actions were consolidated as coordinated proceedings before Judge Carolyn Kuhl in the Superior Court of California, County of Los Angeles (the "Coverage Litigation"). None of Continental, Harbor, or Fireman's Fund are parties to the Coverage Litigation. The parties litigated the Coverage Litigation for almost two years before the Petition Date.

Thorpe Cooperates With The Asbestos Claimants in Filing Direct Actions Against Fireman's Fund and Continental.

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

Fireman's Fund and Continental have contended that Thorpe has aligned itself with the very asbestos claimants who are suing it, and has taken the position that it has a "common interest" with the asbestos claimants against its insurers. To this end, and despite (a) Thorpe's contractual duty to cooperate with the insurers to minimize its potential liability and (b) Thorpe's express warranty in the Wellington Settlement that it would not assist any party in the establishment of a claim against Fireman's Fund or Continental, Fireman's Fund and Continental believe that Thorpe has worked with asbestos claimants' counsel to develop and coordinate a strategy designed to coerce settlements from the insurers, including Fireman's Fund and Continental. Among other things, Fireman's Fund and Continental have contended that Thorpe has been colluding with counsel for the asbestos claimants to try and coerce settlements from Continental and Fireman's Fund by, inter alia, encouraging the claimants to bring "direct actions" against Continental and Fireman's Fund.

In particular, in late 2006, Brayton Purcell LLP (an asbestos plaintiffs' firm), on behalf of certain of its clients, filed several "direct actions" seeking coverage from the insurers who are parties to the Coverage Litigation. None of these actions named Continental, Harbor, or Fireman's Fund as parties. But after meeting with counsel for Thorpe in mid-September 2007, Brayton Purcell LLP filed several additional direct action lawsuits against Thorpe's insurers, this time naming as defendants Harbor and Fireman's Fund. Accordingly, Fireman's Fund and Continental have contended that Thorpe cooperated with and provided assistance to the asbestos claimants in bringing direct actions against Harbor and Fireman's Fund, which cooperation and assistance plainly violates the terms of the Wellington Settlement. Fireman's Fund and Continental contend that the Plan, as proposed, continues and extends this pre-petition breach. Fireman's Fund and Continental contend that in the Plan, Thorpe, as a Plan Proponent, has agreed with the claimants to a scheme by which Fireman's Fund and Continental alone are excepted from the Asbestos Insurer Injunction (see Exhibit C to the Plan) and thus subject to direct actions. As such, Fireman's Fund and Continental believe that Thorpe's apparent participation in this scheme to establish claims against Fireman's Fund and Continental should subject Thorpe and the Trust to substantial liability under the Wellington Settlement.

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

Thorpe Obtains and Assigns Contribution Rights From Settled Carriers.

Under certain circumstances, Fireman's Fund and Continental have contended that California courts have held that settlements between an insurer and its policyholder may not extinguish the contribution rights of other insurers against the settling insurer. As discussed in Section V.1. hereof, Thorpe has settled its coverage claims with at least five of its insurers. These settlement agreements include an assignment to Thorpe and the Trust of the various carriers' alleged contribution rights against, inter alia, Continental and Fireman's Fund. Fireman's Fund and Continental have contended that this attempt by Thorpe to acquire and assign to the claimants and the Trust claims against Continental and Fireman's Fund plainly violates the Wellington Settlement terms set forth above.

On September 28, 2007, both Fireman's Fund and Continental requested that Thorpe confirm that it was not: (a) taking any action to assist any party in asserting claims against Fireman's Fund, Continental, or Harbor; (b) acquiring, assigning or asserting any alleged rights against Fireman's Fund, Continental, or Harbor; or (c) taking any action to pursue or assist with . an insurance recovery from Fireman's Fund, Continental, or Harbor. Thorpe did not respond to these inquiries. As a result, Continental and Fireman's Fund initiated arbitration proceedings in September, 2007 with Judge Sofaer to enforce the terms of the Wellington Settlement. Thorpe responded by disputing Judge Sofaer's jurisdiction and opposing Continental's and Fireman's Fund's claim. Judge Sofaer agreed to exercise his exclusive jurisdiction over the dispute, and scheduled a hearing for October 16,2007.

Before the scheduled hearing, counsel for Continental and Fireman's Fund again asked Thorpe's counsel if Thorpe was acquiring contribution rights from settling carriers or in any way assisting with the filing of direct actions against Harbor and Fireman's Fund. Thorpe's counsel Fireman's Fund and Continental submit that the Debtors cannot seek resolution of the Wellington Settlement Claims before the Bankruptcy Court including through a proof of claim objection or the

estimation of claims for voting purposes. As such, Fireman's Fund and Continental contend that the filing of proofs of claim did not and does not constitute consent by Fireman's Fund and Continental to the jurisdiction of the Bankruptcy Court with respect to the resolution of the Wellington Settlement Claims.

EXHIBIT A

FIRST AMENDED JOINT PLAN OF REORGANIZATION

EXHIBIT B

SECTION I.7 OF MANVILLE TDP

7. **Distributor Indemnity Claims.** Any Trust Beneficiary that is a Distributor may present Distributor Indemnity Claims to the Trust for processing and payment pursuant to the provisions of this subsection 7.

(a) **Definitions.** A Distributor is any entity that: (i) was engaged in the business of distributing Manville asbestos or asbestos-containing products; (ii) was not engaged in the business of mining asbestos or manufacturing asbestos-containing products; and (iii) is not a member of the MacArthur Subclass. A Distributor Indemnity Claim means any Indemnity Claim by a Distributor which constitutes a valid claim for indemnification under applicable law. Distribution means the purchase, shipment, storage, sale and delivery of asbestos or asbestos-containing products which were not remanufactured, altered, re-labelled or installed by the Distributor.

(b) **Distributor Indemnity Claims Not Waived.** No Distributor shall be deemed to have waived Distributor Indemnity Claims by any of the following: (i) failing to comply with the provisions of Sections II and III.D.1 of the Co-Defendants' Procedures, including not filing a timely proof of claim for Indemnity in the Cases; (ii) the making of the Contribution Claim Election; or (iii) the expungement of any Proof of Claim for Indemnity by the Bankruptcy Court.

(c) **Distributor Indemnity Claim Percentage.** The Distributor Indemnity Claim percentage is the proportion of a Distributor's asbestos-related loss in any particular case which shall be treated by the Trust as constituting a Distributor Indemnity Claim. Distributors who meet the following two requirements shall have the right to process Indemnity Claims against the Trust using the Distributor Indemnity Claim percentage described below: (i) 35% or more of the asbestos or asbestos-containing products purchased by the Distributor were distributed by it; and (ii) 35% or more of the asbestos or asbestos-containing products distributed by the Distributor were purchased from Manville.

Except as specifically provided otherwise in the Stipulation of Settlement, the Distributor Indemnity Claim percentage shall be equal to the product of: (i) the percentage of asbestos or asbestos-containing products distributed by the Distributor that it purchased from Manville; (ii) the percentage of asbestos or asbestos-containing products purchased by the Distributor which were distributed by it; and (iii) 95% if the Distributor filed a proof of claim for indemnity in Manville's bankruptcy which was not expunged and 86% otherwise. Thus, by way of example only, a Distributor that purchased 50% of the asbestos it dealt in from Manville, and which distributed 50% of the asbestos it purchased, and that filed a timely proof of claim would be assigned a Distributor Indemnity Claim percentage of 23.75% (50% x 50% x 95%).

(d) **Setting a Distributor Indemnity Claim Percentage.** The Distributor Indemnity Claim percentage applicable to a particular Distributor shall be determined by the following procedures. First, a Distributor must make a written submission to the Trust setting forth its position concerning the proper Distributor Indemnity Claim percentage for that Distributor and each component of that percentage. The Trust shall promptly notify the SCB of the Distributor's submission, the proposed Distributor Indemnity Claim percentage and each component thereof. The SCB may share such information only with those persons necessary to enable the SCB to respond to the Distributor's submission. The SCB shall have 45 days from receipt of such notice to make its own written submission to the Trust concerning the proper Distributor Indemnity Claim percentage for the Distributor, together with such supporting documents as the SCB deems appropriate.

By the same date the SCB's submission is due, the Distributor shall submit to the Trust all documents in support of its position it wishes the Trust to consider. Such information provided by the Distributor shall be kept confidential by the Trust and shall not be shared with any other Beneficiary. Within 10 days following the date the SCB's submission is due, the Trust shall determine the Distributor Indemnity Claim percentage, and shall notify the Distributor and the SCB of its determination. If either is dissatisfied, they may present the issue to the Special Advisor for mediation.

PACHULSKI STANG ZIEHL & JONES LLP
ATTORNEYS AT LAW
LOS ANGELES, CALIFORNIA

Case 2:07-bk-19271-BB Doc 194-7 Filed 12/13/07 Entered 12/13/07 08:28:37 Desc Exhibit A (Part 2) Page 27 of 31

These three factors are hereinafter referred to as the components of the Distributor Indemnity Claim percentage.

The Special Advisor shall receive copies of all submissions presented to the Trust. If the Special Advisor is unable to resolve the issue through mediation, it shall be resolved by binding arbitration. The Special Advisor shall nominate three potential arbitrators (none of whom shall be counsel representing any Trust Beneficiary), each party shall strike one and the remaining nominee shall be the arbitrator. If both parties strike the same nominee, the Special Advisor shall select the arbitrator from the remaining two nominees. The arbitrator shall determine the procedures for the arbitration. The arbitrator's determination of the appropriate Distributor Indemnity Claim percentage shall be final and binding on the Distributor, the Trust and the SCB. If this process results in a determination that less than 35% of the asbestos purchased by a Distributor was distributed by it or less than 35% of the asbestos or asbestos-containing products it purchased was from Manville, the Distributor shall not have the right to process its claims using a Distributor Indemnity Claim percentage (unless special circumstances are presented to and accepted by the Trust, as described below) and shall instead process its claims on a case-by-case basis as provided by subsection 7(f), below. Upon demonstration of special circumstances warranting such treatment, the Trust may in its discretion permit a Distributor to process its claims using a Distributor Indemnity Claim percentage even if the Distributor fails to meet the requirement set forth in the preceding sentence.

(e) <u>Processing Distributor Indemnity Claims with a Percentage</u>. Once a Distributor Indemnity Claim percentage has been established for a Distributor, the Distributor shall make any Distributor Indemnity Claims by submitting proof to the Trust that it has sustained an asbestos-related loss in a case which has been finally resolved by settlement, judgment or otherwise. Upon proof of such a loss, the Trust shall process and pay, in accordance with the procedures set forth in Section G, an amount equal to the Distributor Indemnity Claim percentage of such loss times the same <u>pro rata</u> share applicable to all Trust Claims, as described in Section H. Distributor Indemnity Claims shall be processed and paid by the Trust in FIFO order in a queue separate from the queues for other Trust Claims. The Trust, in consultation with counsel for the Manville Distributors Subclass, shall establish appropriate forms and procedures for processing Distributor Indemnity Claims.

(f) <u>Processing Distributor Indemnity Claims With No Percentage</u>. Distributors who do not have the right to process claims using a Distributor Indemnity Claim percentage shall present any Indemnity Claims to the Trust on a case-by-case basis. The Distributor must establish that the particular loss it suffered gives rise to a right of indemnity against the Trust under applicable law. The Trust shall value such claims as provided by applicable law. They shall be processed and paid their <u>pro rata</u> share in FIFO order, in accordance with the procedures set forth in Sections G and H. The Trust, in consultation with counsel for the Manville Distributors Subclass, shall establish appropriate forms and procedures for processing such Distributor Indemnity Claims.

(g) <u>Distributor Information Confidential</u>. Any information submitted by a Distributor to the Trust pursuant to this subsection 7 (other than a proposed Distributor Indemnity Claim percentage and the components thereof) shall be kept confidential by the Trust and shall not be disclosed to any other Beneficiary.

PROOF OF SERVICE

STATE OF CALIFORNIA)
)
COUNTY OF LOS ANGELES)

I, Sophia L. Lee, am employed in the city and county of Los Angeles, State of California. I am over the age of 18 and not a party to the within action; my business address is 10100 Santa Monica Blvd., 11th Floor, Los Angeles, California 90067-4100.

On July 30, 2008, I caused to be served the **FIRST AMENDED DISCLOSURE STATEMENT CONCERNING THE FIRST AMENDED JOINT PLAN OF REORGANIZATION OF THORPE INSULATION COMPANY AND PACIFIC INSULATION COMPANY UNDER CHAPTER 11 OF THE BANKRUPTCY CODE** in this action by placing a true and correct copy of said document(s) in sealed envelopes addressed as follows:

Please see attached Service List

☑ (BY MAIL) I am readily familiar with the firm's practice of collection and processing correspondence for mailing. Under that practice it would be deposited with the U.S. Postal Service on that same day with postage thereon fully prepaid at Los Angeles, California, in the ordinary course of business. I am aware that on motion of the party served, service is presumed invalid if postal cancellation date or postage meter date is more than one day after date of deposit for mailing in affidavit.

☐ (BY EMAIL) I caused to be served the above-described document by email to the parties indicated on the attached service list at the indicated email address.

☐ (BY FAX) I caused to be transmitted the above-described document by facsimile machine to the fax number(s) as shown. The transmission was reported as complete and without error. (Service by Facsimile Transmission to those parties on the attached List with fax numbers indicated.)

☐ (BY OVERNIGHT DELIVERY) By sending by   to the addressee(s) as indicated on the attached list.

I declare that I am employed in the office of a member of the bar of this Court at whose direction was made.

Executed on July 30, 2008, at Los Angeles, California.

TABLE OF CONTENTS

SECTION 1.

INTRODUCTION

1.1 Introductory Statement.

J.T. Thorpe, Inc., a California corporation ("Thorpe"), J.T. Thorpe, Inc. a dissolved California corporation ("Dissolved Thorpe"), Thorpe Technologies, Inc. a California corporation ("Technologies"), Thorpe Holding Company, Inc., a California corporation ("Holdings"), the debtors and debtors in possession in the above-captioned cases (each, a "Debtor" and, collectively, the "Debtors"), together with the Official Committee of Creditors Holding Unsecured Claims of Thorpe, Dissolved Thorpe, Technologies and Holdings, the Futures Representative of Thorpe and the Proposed Futures Representative of Dissolved Thorpe, Technologies and Holdings (collectively, the "Plan Proponents"), are soliciting votes to accept the Plan. **ALL CAPITALIZED TERMS USED HEREIN SHALL HAVE THE MEANINGS DEFINED HEREIN OR ASSIGNED TO SUCH TERMS IN THE GLOSSARY OF TERMS FOR THE PLAN DOCUMENTS, ATTACHED TO THE PLAN AS EXHIBIT 1.** Those definitions and the rules of construction contained in them are incorporated herein by this reference. The Plan is the product of extensive negotiations among the Debtors, the Committee and the Futures Representative.

A. Relationship of the Debtors

Holdings is a California holding company and is the sole shareholder of Thorpe and Technologies. As is more fully explained below, Dissolved Thorpe was a California corporation whose assets were purchased by Thorpe.

B. Dissolved Thorpe.

Dissolved Thorpe is a California corporation that was formed in October 1932 to acquire the firebrick, high temperature insulation and acid proof masonry repair and construction work in the Southern California and Pacific Southwest that had previously been the business of JT Thorpe & Son, Inc.

Dissolved Thorpe dissolved as a California corporation pursuant to its certificate of dissolution dated December 30, 1986. As set forth in Section 2.2 below, prior to its bankruptcy

filing, Dissolved Thorpe was sued for asbestos related injuries individuals had suffered in connection with its business operations.

C. Thorpe.

Thorpe, initially named Thorpe Constructors, Inc., acquired substantially all of the business assets, including Dissolved Thorpe's name, combined the operations of Dissolved Thorpe and assumed substantially all the liabilities of Dissolved Thorpe pursuant to an Asset Purchase Agreement dated December 26, 1986 among Thorpe, Dissolved Thorpe and the shareholders of Dissolved Thorpe (referred to herein as the "Purchase Agreement"). After the dissolution of Dissolved Thorpe, Thorpe changed its name from Thorpe Constructors, Inc. to "J.T. Thorpe, Inc." In 1992, certain real estate assets were purchased from Thorpe by J.T. Thorpe & Sons, Inc., a corporation to which Thorpe is not related as described more completely below.

After completing the acquisition of Dissolved Thorpe's refractory contracting assets and being renamed "J.T. Thorpe, Inc.," Thorpe completed all ongoing projects of Dissolved Thorpe and continued in its refractory contracting business. Thorpe ceased performing refractory contracting on or about February 29, 1992 by completing all of its contracts, paying all of its suppliers and trade creditors and laying off all of its employees. Its refractory contracting assets, including the refractory materials, tools equipment inventories, trucks and a construction yard were sold.

Asbestos litigation was one of the significant reasons for cessation of refractory contracting operations. The first asbestos claim (non workers compensation) was filed against Thorpe in 1987. By 1991 a significant number of claims had been filed against Thorpe. By early 2002, four of the known primary insurance companies of Thorpe asserted that all of the coverage available under their primary policies were exhausted, while another primary insurer refused to defend or indemnify Thorpe against the asbestos suits based on a "lost" policy dispute. Given that approximately 1,000 separate asbestos suits were pending against Thorpe in early 2002, in order to avoid a race to the courthouse to seize the remaining admitted insurance coverage, Thorpe determined that the best course of action was to file a bankruptcy case to allow for an orderly administration of its property for the benefit of all claimants and stakeholders and a systematic

marshalling of insurance assets. Thorpe filed its Chapter 11 petition on February 12, 2002 and remains a debtor-in-possession in the United States Bankruptcy Court, Central District of California, Los Angeles Division, Case No. LA 02-14216 BB.

D. Technologies

Technologies originally incorporated in 1988 as "Thermal Process, Inc.", and is a wholly-owned subsidiary of Holdings. "Thermal Process, Inc." was inactive until February 1992, when it was renamed Thorpe Technologies, Inc. On or about March 2, 1992, Technologies purchased the engineering assets of Thorpe and began its operations as an industrial furnace builder (including the design, engineering, assembly and installation of industrial furnaces and related equipment) primarily for the aluminum industry. Technologies provides turnkey industrial furnaces and related equipment to industrial users at competitive prices. The components of its products are manufactured by third parties and the assembly and installation is managed by Technologies.

Technologies' business differs from that of Thorpe in that Thorpe primarily performed refractory contacting and maintenance services, but designed and installed a few industrial furnaces. Thorpe's refractory contracting business involved the installation and maintenance of refractory linings, which allegedly contain asbestos. Thorpe was therefore the target of asbestos personal injury actions for its work as a refractory contractor. By the time Technologies was formed, asbestos had been removed from all refractory products used in industrial furnaces, and as a result Technologies contends that it has no asbestos liability resulting from its operations. As discussed more fully in Section 2.2 below, Technologies was sued for Asbestos Related Claims, as Thorpe's alter ego, prior to Technologies' bankruptcy filing.

E. Holdings

Holdings is a California corporation formed in 1986. It is the sole shareholder of Thorpe and Technologies. Holdings also owns 99.9% of Thorpe do Brasil Ltda, a Brazilian Corporation ("Thorpe Brazil") and Thorpe Mexico SA de CV, a Mexican corporation ("Thorpe Mexico"). Neither Thorpe Brazil nor Thorpe Mexico have filed bankruptcy petitions.

Occasionally Technologies is requested to design and install furnaces in South America. In order to facilitate these requests, Technologies operates through its sister-companies, Thorpe

Brazil, which was created in order to allow Technologies to design and install furnaces in Brazil, and Thorpe Mexico, which was created to allow Technologies to design and install furnaces in Mexico. As set forth in Section 2.2 below, prior to its bankruptcy filing, Holdings was named as a defendant in actions alleging personal injury claims caused by asbestos based upon contentions that it was liable for such claims as Thorpe's alter ego.

F. Bankruptcy Filing By Dissolved Thorpe, Holdings and Technologies

On or about December 15, 2004, Dissolved Thorpe, Holdings and Technologies filed voluntary Chapter 11 bankruptcy petitions assigned case nos. LA04-35876-BB, LA04-35877-BB and LA04-35847-BB, respectively, after being served with complaints alleging liability for asbestos injuries. The cases of Dissolved Thorpe, Holdings, Technologies and Thorpe are being jointly administered.

The Plan Proponents solicit sufficient acceptances to enable the Plan to be confirmed by the Bankruptcy Court pursuant to the provisions of the Bankruptcy Code. Because all Asbestos Related Claims will be channeled to and addressed by the Trust following the Effective Date of the Plan, this Disclosure Statement is distributed to provide adequate information to enable holders of Claims, including Asbestos Related Claims, to make an informed judgment in exercising their right to vote to accept or reject the Plan under section 1126 of the Bankruptcy Code.

The Plan Proponents unequivocally support the Plan and strongly urge you to vote to accept it.

The Plan complies with settlement agreements entered into with Nationwide Mutual Insurance Company ("Nationwide") and Federal Insurance Company ("Federal"), as discussed in Section 3.6 below, which provides the overwhelming majority of liquidated funding presently available to meet Claims. The Plan Proponents are unaware of any viable alternative plan. In the event that the Plan is not accepted by holders of the Asbestos Related Claims, the $45 million settlement payment under the Federal Settlement would no longer be available, and recoveries from Federal would depend entirely on the outcome of the highly complex litigation conditionally compromised by the Federal Settlement. Similarly, a $500,000 payment required under the Nationwide Settlement would no longer be available. In light of the difficulty of reaching the

settlement, no assurance can be given that any further settlement with Federal would be reached if the Plan were not accepted and approved. The alternatives to the Plan are further described in Section 9 below.

While the Debtors believe that they will prevail in the Coverage Litigation (see Sections 2.3 and 3.7 below), no assurance can be given that there will be any insurance recoveries other than that provided for in the Nationwide Settlement and the Federal Settlement, and in casting a ballot in respect of the Plan, each voter should be aware that these settlement proceeds may represent all that will be distributed on Class 4 claims.

1.2 Summary of Voting Procedures.

The Debtors have sent a court-approved ballot to each known holder of a Class 4 Claim (i.e., to each known holder of an Asbestos Related Claim) with voting instructions and a copy of this Disclosure Statement. Holders of Class 4 Claims should read the ballot carefully and follow the voting instructions. Holders of Class 4 Claims should use only the ballot that accompanies this Disclosure Statement. A ballot was also sent to each known holder of Interests in Class 5-D (i.e., to each known holder of an Interest in Holdings).

In order to be counted for voting purposes, ballots must be received by the Debtors' voting agent, Nora Boghossian (the "Voting Agent"), by 5:00 p.m. prevailing **PACIFIC TIME** on May 12, 2005 (the "Voting Deadline"), at the following address:

Nora Boghossian.
Rutter Hobbs & Davidoff Incorporated
1901 Avenue of the Stars, Suite 1700
Los Angeles, CA 90067

Ballots must be submitted to the Voting Agent by the Voting Deadline by either hand-delivery, U.S. Mail or other delivery service. Ballots may not be submitted to the Voting Agent by facsimile or email, and any ballots submitted by facsimile or email will not be considered.

A ballot must be by or on behalf of one claimant. Neither master ballots nor class ballots will be counted.

Either a claimant or his or her attorney or may sign a ballot. If an attorney signs a ballot for a client, that signature shall constitute a declaration under penalty of perjury that, as to any fact

that is not within the attorney's personal knowledge, the attorney's file concerning the client contains reliable information that the facts stated are true and correct and that the attorney is authorized to sign the ballot on the client's behalf.

If you are a holder of a Class 4 Claim (i.e., an Asbestos Related Claim) entitled to vote on the Plan and did not receive a ballot, received a damaged ballot or lost your ballot, you should contact the Voting Agent. If you have any questions about the Plan, this Disclosure Statement or the procedures for voting on the Plan, you should contact your attorney or the Debtors' bankruptcy counsel.

For detailed voting instructions, see Section 5 below and the instructions accompanying your ballot.

1.3 Overview of the Plan.

The following is a brief summary of certain information contained elsewhere in this Disclosure Statement and the Plan. This summary is necessarily incomplete and is qualified in its entirety by reference to the more detailed information contained elsewhere in this Disclosure Statement, the exhibits hereto and the other Plan Documents. The terms of the Plan are controlling.

The Plan is the product of extensive efforts by the Plan Proponents to negotiate a plan of reorganization for the Debtors that is fair and equitable to all parties in interest. The Plan will discharge certain of the Debtors and enjoin prosecution of actions against all of the Debtors, from all Claims. The Plan contemplates the issuance of injunctions under Sections 524(g) and 105(a) of the Bankruptcy Code that will result in channeling of the Asbestos Related Claims of the Debtors into the Trust.

The essential elements of the reorganization contemplated by the Plan include, among other things:

(a) As to Administrative Claims that are subject to approval by the Bankruptcy Court, that each holder thereof will be paid as soon as practicable after there is a Final Order granting such approval. As to all other Claims against the Debtors, other than Asbestos Related Claims, including but not limited to Priority Tax Claims, Priority Claims, Secured Claims and Unsecured

Claims other than Asbestos Related Claims, the Plan does not impair them but rather leaves unaltered the legal, equitable and contractual rights to which such Claims entitle the holder thereof. Upon confirmation of the Plan, Technologies and Holdings will receive a discharge from all Claims, and all the Debtors will receive an injunction precluding further Asbestos Related Claims against them.

(b) The Trust, which will enjoy the status of a "qualified settlement fund" for purposes of the Treasury Regulations issued under section 468B of the IRC, will assume all the liabilities and obligations of the Debtors, among other parties, with respect to Asbestos Related Claims, and will provide for the equitable distribution of the Trust Assets in partial payment of all Asbestos Related Claims.

(c) The Trust will be funded by the Trust Assets.

(d) The Bankruptcy Court, as affirmed by the District Court, will issue pursuant to sections 524(g) and/or 105(a) of the Bankruptcy Code, certain injunctions as to Asbestos Related Claims, including but not limited to the Discharge Injunction, the Channeling Injunction, the Supplemental Injunction and the Asbestos Insurance Company Injunction, all as described below, for the benefit the Debtors and certain third parties, including the Nationwide Parties and the Federal Parties, as appropriate.

To address Asbestos Related Claims fairly and efficiently, the Plan provides for the establishment of the Trust for the payment of Allowed Asbestos Related Claims. Asbestos Related Claims will be assumed by and transferred to the Trust, and will be liquidated and allowed or disallowed in accordance with the J.T. Thorpe, Inc., a California corporation/J.T. Thorpe, Inc., a dissolved California corporation/Thorpe Technologies, Inc., a California corporation/Thorpe Holdings Company, Inc., a California corporation, Asbestos Personal Injury Settlement Trust Distribution Procedures ("TDP") established pursuant to the Trust Agreement.

The Trust will be funded with the Trust Assets, which include, among other things, the following assets to be delivered to the Trust pursuant to the Plan Documents or otherwise : (a) all shares of the common stock of Dissolved Thorpe, (b) the Holdings Note, (c) rights under the Holdings Pledge Agreement, (d) the Thorpe Business Loss Insurance Security , (e) the Thorpe

General Insurance Security, (f) all Asbestos Insurance Action Recoveries, and any income, profits and proceeds derived from the foregoing. The Trust Assets shall additionally include the Debtors' rights for contribution and reimbursement against parties other than Released Parties, as provided in Section 8.10 of the Plan.

The Trust will be administered by the Trustees pursuant to the TDP, in consultation with, and with the consent as to certain matters of, the Futures Representative and the TAC. The mechanisms of the Trust have been designed, over months of intense negotiations, to provide reasonable assurance that the Trust will value, and will be in a financial position to pay, similar present and future Asbestos Related Claims in substantially the same manner. See Section 6 below for further information regarding the Trust and the TDP.

After the Effective Date, Technologies and Holdings will continue their business operations. Thorpe will continue to assist the Trust, as requested, in the Trust's implementation of its duties, Dissolved Thorpe will continue to wind up its affairs pursuant to the provisions of the Plan, the California Corporations Code and orders of the Superior Court of California for the County of Sacramento. The management, control and operation of Thorpe, Technologies and Holdings will remain the responsibility of their respective boards of directors. Dissolved Thorpe will continue to be managed by John Allen, the director appointed by the Superior Court. The Plan permits the business of Thorpe, Technologies and Holdings to operate free of Claims. The operating businesses will be protected from Claims by virtue of certain of the Debtors' discharge and the Injunctions. In addition, the Plan provides for the issuance of the Supplemental Injunction to protect the Nationwide Parties, the Federal Parties and all other Settling Asbestos Insurance Companies that provide funding to the Debtors or the Trust for the payment of holders of Asbestos Related Claims. Though the Injunctions are not conditions precedent to the Plan, as the Plan can be confirmed without the issuance of the Injunctions pursuant to Bankruptcy Code section 524(g), the Debtors believe that they will be able to satisfy the requirements of section 524(g) of the Bankruptcy Code, so long as the requisite number of Asbestos Related Claimants vote in favor of the Plan.

The Plan divides all Claims and Interests into five different Classes. The Class of Unsecured Claims (non-asbestos) is further divided into two separate sub-Classes, and the Class of Interests is further divided into four separate sub-Classes. Each Claim will receive the same percentage payment amount on its liquidated Claim as all other Claims within the same class or sub-class under the Plan. Each Interest will receive the same treatment as all other Interests within the same sub-class under the Plan. Section 5.4 below contains a description of the treatment of each Class under the Plan, including whether the Class is impaired or unimpaired by the Plan and whether the Class is channeled into and addressed by the Trust. The Class for Asbestos Related Claims is the only Class of Claims that is entitled to vote to accept or reject the Plan under section 1126 of the Bankruptcy Code. Claims in that class are all channeled to, addressed, processed and paid, if allowed, by the Trust. The payment of present and future Asbestos Related Claims by the Trust as provided for in the Plan is consistent with the Bankruptcy Code and the terms of all settlements between or among the Debtors and the other parties in interest. The Class of Interests in Holdings is also entitled to vote to accept or reject the Plan.

The TDP to be established and adopted by the Trust pursuant to the Trust Agreement will be used to assign a value to all Asbestos Related Claims that are timely filed with the Trust and not rejected or denied and to determine the timing and amount of payments to be made in respect of Asbestos Related Claims. In addition to resolving promptly Asbestos Related Claims, the TDP will significantly reduce operating expenses, which expenses would otherwise reduce Trust Assets available for distribution to holders of Asbestos Related Claims. All holders of Allowed Asbestos Related Claims will benefit from such cost savings, by maximizing the assets that are to be used for the payment of Asbestos Related Claims.

//

SECTION 2.

GENERAL INFORMATION

2.1 History and Business of the Debtors.

(a) Dissolved Thorpe.

Dissolved Thorpe was formed on October 11, 1932 to acquire the firebrick, high temperature insulation and acid proof masonry repair and construction work in the Southern California area and Pacific Southwest which had previously been the business of J.T. Thorpe & Sons, Inc. Dissolved Thorpe was in the business of refractory contracting. In particular, Dissolved Thorpe was engaged in the installation and maintenance of refractory linings in certain industries in the Southwestern United States, most particularly in California. This work included the design, construction and repair of refractory lined and acid resistant structures for the containment and control of heat, abrasion and corrosion. Dissolved Thorpe designed and constructed linings for furnaces, kilns, vessels, tanks and stacks for oil, chemical, cement, glass ceramic, metallurgical power and incinerator industries. Depending on the customer and/or application requirements, the linings could be made out of one or several different materials including, but not limited to, brick, tile, castable, gunning mixes, plastics or block insulation or ceramic fiber.

Dissolved Thorpe's work included the installation and repair of refractory linings in boilers, kilns and furnaces and the design of duct and heater systems. The bulk of its work was performed within the State of California, particularly the Los Angeles area. Outside of California, Dissolved Thorpe worked in 36 states performing a variety of services over the fifty-four years of its existence. A limited number of jobs were performed in Alabama, Alaska, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Indiana, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Montana, New Jersey, Ohio, Oregon, Pennsylvania, Tennessee, Virginia, West Virginia and Wyoming. Dissolved Thorpe performed a great number of jobs in Arizona, Illinois, Louisiana, Mississippi, Nevada, New Mexico, Oklahoma, Texas, Utah and Washington.

Dissolved Thorpe was liquidated on December 30, 1986 after selling all of its assets and liabilities, (except its shares in a Texas company known as J.T. Thorpe Corporation ("Thorpe Corp.") and its ownership interest in certain real property), to Thorpe, then known as Thorpe Constructors, Inc. The sale of Dissolved Thorpe's business to Thorpe was consummated pursuant to the Asset Purchase Agreement dated December 26, 1986 among Dissolved Thorpe, as seller, Thorpe, as buyer, and Dissolved Thorpe's shareholders for a purchase price of $5,051,021.74 of which $4,589,271.74 was paid in cash at closing. The balance of $461,750 was evidenced by a promissory note in this amount. Excluded from the assets were (i) Thorpe Corp. stock and (ii) Dissolved Thorpe's interest in real property, located in Monterey Park, California (both of which were sold to another company) as well as (iii) shareholder notes payable to Dissolved Thorpe in the approximate amount of $196,000 and (iv) Dissolved Thorpe's rights and responsibilities under the 1986-1989 Inside Wireman's Agreement between IBEW Local 11 and the Los Angeles County Chapter of the National Electrical Contractor Association. At the closing of the acquisition pursuant to the Purchase Agreement, Thorpe assumed certain liabilities of Dissolved Thorpe, including scheduled liabilities totaling approximately $4.1 million.

By Certificate of Dissolution filed in the Office of Secretary of State of California on December 30, 1986, Dissolved Thorpe dissolved. Thorpe then filed a Certificate of Amendment of Articles of Incorporation in the Office of the Secretary of State on December 31, 1986 changing its name from "Thorpe Constructors, Inc." to "J.T. Thorpe Inc.," which name was among the assets acquired by it from Dissolved Thorpe in connection with the Purchase Agreement.

Dissolved Thorpe continues to exist for the purposes of winding up its assets and liabilities. A dissolved corporation continues to exist for the purpose of winding up its affairs, prosecuting actions by it, defending actions against it and enabling it to collect and discharge obligations, dispose of and convey its property and collect and divide its assets. Accordingly, a corporation's dissolution is best understood not as its death, but merely as its retirement from active business, other than activities for the purpose of winding up its affairs, including the activities described immediately above. The California Supreme Court has held that California's

Corporations Code permits the corporate existence of dissolved corporations to continue indefinitely for the purpose of post-dissolution claims against them.

The California Corporations Code further provides that any assets inadvertently or otherwise omitted from winding up continue in the dissolved corporation for the benefit of the persons entitled to them upon dissolution of the corporation and on realization shall be distributed accordingly. Thus, insurance policies, if any, not effectively transferred to Thorpe, remain with Dissolved Thorpe for the benefit of the persons entitled to them.

Dissolved Thorpe's directors had either passed away or were no longer interested in acting as directors. Any interested person may petition the superior court of the proper county to appoint directors to wind up the affairs of the corporation, after hearing upon such notice to such persons as the Court may direct. Cal. Corp. Code § 2003. In July 2004, Thorpe, as such an interested person, therefore petitioned the Superior Court of California, County of Sacramento to appoint a director for Dissolved Thorpe. The Superior Court granted Thorpe's petition and appointed John E. Allen as Dissolved Thorpe's director for the purposes of winding up its affairs and distributing its assets.

Dissolved Thorpe has therefore filed a bankruptcy case in order to wind up its affairs and distribute its assets pursuant to the priorities set forth in the Bankruptcy Code.

(b) Thorpe.

Thorpe was incorporated in California on November 3, 1986 as Thorpe Constructors, Inc. As discussed above, on December 31, 1986, following the liquidation of Dissolved Thorpe, it was renamed J.T. Thorpe, Inc. Thorpe continued the same refractory contracting operations of Dissolved Thorpe until February 29, 1992. This refractory contracting work included refractory maintenance, repair and construction work in many industries in the Southwestern United States, most particularly in California. This work also included the design, construction and repair of refractory lined and acid resistant structures for the containment and control of heat, abrasion and corrosion. Thorpe designed and constructed linings for furnaces, kilns, vessels, tanks and stacks for oil, chemical, cement, glass ceramic, metallurgical power and incinerator industries. Depending on the customer and/or application requirements, the linings could be made out of one

or several materials, including but not limited to, brick, tile, castable, gunning mixes, plastics, block insulation or ceramic fiber.

Thorpe continued in all respects the business operations of Dissolved Thorpe, including completing the contracts that were in place; using the same equipment; employing the same personnel; conducting the same operations for the same customers at the same locations; using the same customer lists; and operating from the same locations. Additionally, three of the five shareholders of Dissolved Thorpe became shareholders of Thorpe. Thorpe has always acknowledged that it is responsible for the asbestos liabilities arising from operations of Dissolved Thorpe and exposures to asbestos that occurred during the period Dissolved Thorpe was in business, as a matter of law. The 1986 transaction was not intended to relieve Thorpe of responsibility for the asbestos liabilities of Dissolved Thorpe. Accordingly, Debtors contend that for purposes of liability arising from the Asbestos Related Claims, and rights to insurance, Dissolved Thorpe and Thorpe are indistinguishable under applicable law. Certain defendant insurance companies in the Coverage Litigation dispute this contention.

Thorpe ceased performing refractory contracting on or about February 29, 1992. By that time, Thorpe ceased its refractory contracting business by completing all of its contracts, paying all of its suppliers and trade creditors and laying off all of its employees. Its engineering assets were sold to Technologies. Its refractory contracting assets, including the refractory materials, tools equipment inventories, trucks and a construction yard were sold to J.T. Thorpe & Sons, Inc.

The asbestos litigation was one of the most significant reasons for cessation of refractory contracting operations. The first asbestos claim (non workers compensation) was filed against Thorpe in 1987. By 1991 a significant number of claims had been filed against Thorpe, and the insurance carriers took the position that Thorpe was running out of coverage. During this time, certain key employees and shareholders left Thorpe and formed a competing company, which unlike Thorpe was not saddled with asbestos liabilities for which insurers disclaimed coverage. This competition took a significant portion of Thorpe's business.

After cessation of Thorpe's refractory operations, Thorpe turned its full-time business to the claims administration business. This business included review of each asbestos complaint,

forwarding each complaint to its insurance carriers, and tracking settlements. In approximately 1993, when the insurance companies took the position that there was no further coverage, Thorpe hired attorneys and participated in the negotiations with various carriers which provided continued coverage until immediately prior to the bankruptcy filing in 2002. Beginning in the late 1990's, it became clear that the settlement payments made by the insurance companies as well as the number of claims were greatly increasing. During this time Thorpe continued to search for a solution to its situation.

On March 2, 1992, Thorpe contracted with Technologies to provide the services of John Allen and Thomas Carpenter to perform the functions of the President and CEO and Secretary/Treasurer respectively on a contract basis. They were hired to manage the claims administration process. Thorpe also secured other administrative, accounting, and legal services required to administer its asbestos claims on a contract basis from Technologies. John Allen and Thomas Carpenter are the two directors of Thorpe.

Thorpe currently is in possession of its assets and continues its operations of administering several thousand asbestos bodily injury claims that have been asserted over the past decade or more and seeking to recover under its historical liability insurance policies.

(c) Technologies.

Technologies was originally incorporated in 1988 as "Thermal Process, Inc.," a wholly-owned subsidiary of Holdings. Although incorporated, Thermal Process for several years was an inactive corporation. In February 1992, Thermal Process, Inc. was renamed Thorpe Technologies, Inc. On or about March 2, 1992, Technologies purchased some of the engineering assets of Thorpe and began its operations as a designer, engineer, assembler and installer of industrial furnaces and related equipment for the aluminum industries. In 1992, the sale of certain of Thorpe's engineering assets to Technologies was consummated between Thorpe, as seller, and Technologies, as buyer for a purchase price of approximately $129,000. Technologies also hired certain employees that had previously been terminated by Thorpe. Technologies' operations solely consist of the business of designing and installing custom industrial furnaces primarily for the aluminum industry. Technologies designs, engineers, assembles and installs thermal

processing equipment, industrial furnaces, thermal oxidizers and combustion systems primarily in California but also throughout the United States. The equipment that Technologies designs and installs include sow driers, delacquering systems, charging machines, melting and holding furnaces (including stationary, tilting, sidewell, round, and top charged configurations) and homogenizing and process furnaces (including shuttle, car bottom, box and continuous walking beam furnaces). Components are manufactured by third parties and the assembly and installation is managed by Technologies. These systems designed and constructed by Technologies can be used for decoating and melding aluminum scrap, including used beverage cans, mixed low copper scraps, painted siding, litho sheets and crushed cast.

The current directors of Technologies are John Allen and Thomas Carpenter. Mr. Allen serves as its President, Gary D. Newby is its Vice President and Mr. Carpenter is its Secretary/Treasurer.

(d) Holdings.

Holdings was formed in 1986 as a holding company incorporated in the state of California. It currently owns 100% of Thorpe, 100% of Technologies, 99.9% of Thorpe Brazil and 99.9 % of Thorpe Mexico. The main office of Holdings is in Whittier, California. Holdings has no time or contract employees. Its shareholders are John Allen (28,205.1 shares), Thomas Carpenter (11,825 shares), Gary D. Newby (4,923.17 shares), R. P. Angarella (4,923.17 shares), Dean W. Barnes (2,029.49 shares), S. Trakhtenberg (800 shares) and Gary Hodge (800 shares). Its functions are carried out by its directors and officers, John E. Allen Thomas Carpenter and Gary D. Newby. Mr. Allen is the President of Holdings and Mr. Carpenter is its Secretary /Treasurer.

(e) Other Thorpe Unrelated Companies.

At the turn of the century, the Debtors are informed and believe that an individual named JT Thorpe had a business installing brick and other linings in San Francisco. His business became the company known as JT Thorpe & Sons. In the 1920s, the company called JT Thorpe & Sons was sold to certain other individuals, who the Debtors believe continue to operate the business. In 1932, Dissolved Thorpe was formed to do business in the Southern California area, although it also performed services in other states as discussed above. Dissolved Thorpe had some of the

same shareholders as JT Thorpe & Sons, but was not a subsidiary. In the 1950s, some of the shareholders of Dissolved Thorpe formed a company in Texas which was named J.T. Thorpe, Inc. ("Thorpe Corp."). Thorpe Corp. has also filed a Chapter 11 bankruptcy case in Texas. The Debtors are also aware of other companies in the refractory and furnace business bearing similar names to the Debtors. These companies include a company known as Thorpe Insulation Company. The Debtors are informed and believe that Thorpe Insulation Co. was formed by some of the same shareholders as Dissolved Thorpe, but do not have information in this regard. Likewise, the Debtors are informed and believe that there is a company known as Thorpe Insulation operating in Texas ("Thorpe Insulation Texas") and a Thorpe USA, Inc. operating in San Francisco, California. None of the Debtors owns any interest in J.T. Thorpe & Sons, Inc., Thorpe Corp., Thorpe Insulation Co., Thorpe Insulation Texas or Thorpe USA, Inc., and they have no common directors or officers with the Debtors. Each of these companies is unrelated to the Debtors, and persons holding claims against these other, unrelated companies should not file any such claims against these other, unrelated companies in the Debtors' Reorganization Cases.

2.2 Factors Leading to the Need for Bankruptcy Relief.

By early 2002, four of the Debtors' known primary insurance companies asserted that all of the coverage available under their primary policies was exhausted, while another primary insurer refused to defend or indemnify Thorpe against the asbestos suits based on a "lost" policy dispute. Nationwide defended and indemnified Thorpe under separate umbrella policies that it issued, but immediately prior to the bankruptcy filing of Thorpe, asserted that only approximately $950,000 remained available under its policies and that its obligation to defend and indemnify Thorpe was rapidly concluding.

Given that a large number of asbestos suits were pending against Thorpe in early 2002, Thorpe determined that the $950,000 of allegedly unexhausted remaining coverage was insufficient to pay for the existing asbestos suits, as well as the asbestos suits that Thorpe reasonably expected to receive in the future. In order to avoid a race to the courthouse to seize the remaining admitted insurance coverage, Thorpe determined that the best course of action was to

file a bankruptcy case to allow for an orderly administration of its property for the benefit of all claimants and stakeholders and a systematic marshalling of insurance assets.

Thorpe filed its Chapter 11 petition on February 12, 2002. Since that date, Thorpe has continued to manage its assets as a debtor-in-possession pursuant to Sections 1107 and 1108 of the Bankruptcy Code.

Thereafter, actions alleging personal injury and wrongful death claims seeking recovery for damages caused by the presence of or exposure to asbestos or asbestos containing products were filed against Dissolved Thorpe, Technologies and Holdings. Dissolved Thorpe was sued for injuries individuals had suffered in connection with Dissolved Thorpe's business operations. Holdings and Technologies were sued on claims that they were liable for Asbestos Related Claims as Thorpe's alter ego. The lawsuits contended that Holdings and Technologies were liable as Thorpe's alter ego based, in part, on allegations that Holdings and Technologies had diverted assets away from Thorpe to the detriment of Thorpe's asbestos creditors; that Holdings and Technologies manipulated assets and liabilities between the entities so as to concentrate the assets in Holdings and Technologies and the liabilities in Thorpe; identical equitable ownership between Thorpe and Technologies; that Thorpe, Holdings and Technologies used the same office or business location and the employed the same employees; and that Thorpe, Holdings and Technologies had disregarded corporate formalities and the failed to maintain arm's-length relationships among the related entities. Thorpe, Dissolved Thorpe, Holdings and Technologies all deny these allegations and assert that there is no basis for their liability for Asbestos Related Claims. Nevertheless, Thorpe, Dissolved Thorpe, Holdings and Technologies are subject to substantial future demands for payment of Asbestos Related Claims.

The Futures Representative and the Committee contend that based upon the state of the law as well as the experience of other related companies that have been unsuccessful in their attempts to insulate themselves from asbestos liability that all Debtors here face liability, for Thorpe and Dissolved Thorpe directly and for Holdings and Technologies derivatively, from those victims who have been injured as a result of exposure to asbestos as a result of Debtors' operations. The Futures Representative is responsible for protecting the interest of Asbestos

Related Claimants who will file claims in the future. The Committee is responsible for the interests of Asbestos Related Claimants who have or are filing claims. In order to resolve all of these issues, the Debtors, the Futures Representative and the Committee have agreed to jointly sponsor this Plan.

Because the liability for all of the Debtors is for the same potential group of future Asbestos Related Claimants, the Futures Representative participated in the negotiations with the Debtors and the Committee on behalf of the same future Asbestos Related Claimants who will assert claims in the future against all the Debtors. Since the Plan calls for a single Trust, discussed in more detail in sections 3.3 and 8.3 below, the negotiations by the Futures Representative was on behalf of all future Asbestos Related Claimants for all Debtors. The Futures Representative and his counsel have announced to the Court that they intend to seek employment retroactively on behalf of future Asbestos Related Claimants for all Debtors.

The Committee has already been appointed as the Official Committee for Unsecured Creditors in all of the Debtors' cases. Again, because the present Asbestos Related Claimants are the same for all Debtors, the Committee's negotiations on behalf of present Asbestos Related Claimants against the Debtors and the Futures Representative protected the interests of all present Asbestos Related Claimants. The single Trust structure similarly protects the present Asbestos Related Claimants with claims against all Debtors to assure similar treatment.

Similarly, because of the interrelationship between the Debtors, their ownership structure and the common liability for the same Asbestos Related Claimants, RHD represented all Debtors during negotiations with respect to the Plan under a written conflict waiver. The potential conflicts that were waived include arguments that some Debtors, such as Technologies and Holdings, might claim that the corporate transactions they engaged in would provide a defense to asbestos liabilities.

Dissolved Thorpe, Technologies and Holdings have each filed a voluntary Chapter 11 bankruptcy petition. Each of Dissolved Thorpe, Technologies and Holdings intends to continue to manage its assets as a debtor-in-possession pursuant to Sections 1107 and 1108 of the Bankruptcy Code.

2.3 **Insurance Issues.**

Thorpe instituted Adversary Proceeding No. AD-04-01438 (the "Coverage Litigation") in the Bankruptcy Court by complaint dated February 24, 2004 against the insurance company defendants named therein for declaratory relief, breach of contract and tortious breach of the implied covenant of good faith and fair dealing. Thorpe commenced the Coverage Litigation to marshal the insurance assets for the benefit of present and future asbestos claimants.

From 1987 until 2002, certain of the defendant insurance companies in the Coverage Litigation provided defense and indemnity insurance coverage to Thorpe for the Asbestos Related Claims arising from the operations of Dissolved Thorpe, without distinguishing between Dissolved Thorpe and Thorpe. These insurance companies (with the exception of Nationwide Insurance Company) ceased defending and indemnifying for Asbestos Related Claims in 2002, alleging that their policies contained aggregate limits for the Asbestos Related Claims and that such limits had been exhausted. It was always the intent of Dissolved Thorpe that Thorpe would have the benefit of any and all of its liability insurance as a result of Thorpe's continuation of the business of Dissolved Thorpe. Dissolved Thorpe hereby reaffirms that all such liability insurance is, and has been, vested in Thorpe for purposes of covering the asbestos liabilities. If necessary to effectuate the vesting of such insurance in Thorpe, Dissolved Thorpe will execute whatever documents, or seek whatever court orders, that may be appropriate to assure that its liability insurance is, has been, and remains available to Thorpe to cover the asbestos liabilities.

The defendant insurance companies in the Coverage Litigation have asserted, among other things, that the insurance policies were not transferred from Dissolved Thorpe to Thorpe. The insurance companies have resisted meeting their obligations under their policies. Thorpe believes the insurance policies were transferred to it in connection with Thorpe's acquisition of Dissolved Thorpe's business and provide coverage for the asbestos claims. Additionally, Thorpe believes that, for purposes of asbestos liabilities and insurance coverage, Dissolved Thorpe and Thorpe are the same entity as a continuing business under applicable law. Because Dissolved Thorpe and Thorpe are, and have been, treated as a single entity and a continuous business for purposes of Asbestos Related Claimants, the Asbestos Insurance Policies issued by the Asbestos Insurance

Companies are equally available to satisfy both their liabilities. There is no conflict of interest between Dissolved Thorpe and Thorpe with respect to Asbestos Action Insurance Recoveries inasmuch as they have been treated as a single entity and a continuous business for purposes of Asbestos Action Insurance Recoveries and are seeking a single recovery from the Asbestos Insurance Companies. Accordingly, there is no possibility that the Asbestos Action Insurance Companies in the Coverage Litigation will be required to pay more than once for the Asbestos Related Claimants of Dissolved Thorpe and Thorpe.

While Thorpe believes that the position of the insurance companies lacks merit, Thorpe obtained an order from the Superior Court of California to have the Superior Court appoint John Allen as the director of Dissolved Thorpe to wind up its affairs and collect on the insurance policies and discharge its obligations. The Debtors believe that the resolution of the asbestos claims and disputes involving the insurance companies will be most effectively resolved by the addition of Dissolved Thorpe as a party plaintiff in the Coverage Litigation.

2.4 The Debtors' Insurance Coverage

The Debtors have general liability insurance policies issued by numerous insurers stretching back decades. The insurers include: (a) Federal; (b) St. Paul Marine And Fire Insurance Company ("St. Paul"); (c) National Union Fire Insurance Company of Pittsburgh, PA ("National Union"); (d) American Motorists Insurance Company ("AMICO"); (e) First State Insurance Company ("First State"); (f) Nationwide; and (g) Mission Insurance Company ("Mission").[1]

The Debtors contend that many of the policies issued by the foregoing insurers contain no "aggregate" limits for claims alleging injurious exposure to asbestos during business operations. The Asbestos Action Insurance Company defendants in the Coverage Litigation dispute this contention. Additionally, certain of the Asbestos Insurance Policies issued by the Asbestos Insurance Company defendants, including all of the policies issued by defendant AMICO, have not yet been located. With respect to these missing or incomplete policies, there is substantial

[1] Mission is currently in liquidation.

secondary evidence reflecting their material terms and conditions. Under applicable law, it is not necessary that the policies be located in order for coverage to exist; coverage may be demonstrated through the use of secondary evidence. *Dart Industries, Inc. v. Commercial Union Ins. Co.*, 28 Cal. 4th 1059 (2002). Some of the insurers assert that these policies also require the insured to comply with certain conditions precedent to coverage, including without limitation, the duty to cooperate with the insurers in the defense and settlement of claims, and a prohibition against assigning the policies to any other person or entity without the insurer's consent. These insurers further assert to the extent the Debtor violates these conditions precedent to coverage, as these insurers assert is contemplated by the Plan as currently drafted, these insurers further assert there is a material risk that no coverage will be available to pay asbestos claims. These disputes will be resolved in the Coverage Litigation, absent settlement with the affected defendant Asbestos Insurance Companies.

Certain of the Debtors have other insurance coverage; however, this insurance has exclusions for Asbestos Related Claims. The Debtors continue to investigate whether any other insurance coverage may be available for Asbestos Related Claims.

SECTION 3.

EVENTS DURING THE REORGANIZATION CASES

3.1 Commencement of the Reorganization Cases.

The Debtors have retained Rutter Hobbs & Davidoff Incorporated ("RH&D") as their general bankruptcy counsel. Following Thorpe's bankruptcy filing, Thorpe filed an application to employ the law firm of Howrey Simon Arnold & White LLP ("HSAW") as special insurance litigation counsel. After negotiations with the Committee, Thorpe ultimately retained Zevnik Horton, LLP ("ZH") as its special insurance litigation counsel. In October 2003, the attorneys at ZH joined Morgan, Lewis & Bockius LLP ("ML&B"), and the Bankruptcy Court approved ML&B's substitution in as Thorpe's special insurance litigation counsel in the place and stead of ZH in an order entered on February 25, 2004. The Bankruptcy Court approved Thorpe's retention of G-Risk Strategies LLC ("G-Risk") as its insurance consultant.

ML&B, RH&D and G-Risk have each entered into contingency fee agreements with Thorpe with respect to the Coverage Litigation. The terms of the contingency fee agreements between Thorpe and ML&B, G-Risk and RH&D are set forth in engagement letters between the parties. Under the terms of the foregoing engagement agreements, which have been approved by the Bankruptcy Court, a percentage of the recovered amounts from the Debtors' Asbestos Insurance Companies are payable as contingency fees.

Under the engagement agreement with ML&B and RH&D, fees shall be payable to ML&B from qualifying insurance recoveries as follows:

- from the first $1.00 up to $30 million so received, 11.0% of each such dollar, with a cap on fees of $2,750,000;
- from recoveries over $30 million and up to $50 million, 3.85% of each such dollar;
- from recoveries over $50 million and up to $500 million, 3.30% of each such dollar;
- from amounts received in excess of $500 million, 1.65% of each such dollar.

From the foregoing contingency fees which ML&B may be entitled to receive, RH&D is will be paid 18.18% of the contingency fees payable to ML&B.

Under the engagement agreement with G-Risk, fees shall be payable to G-Risk from qualifying insurance recoveries as follows:

- from the first $1.00 up to $30 million so received, 9.0% of each such dollar, with a cap on fees of $2,250,000;
- from recoveries over $30 million and up to $50 million, 3.15% of each such dollar;
- from recoveries over $50 million and up to $500 million, 2.70% of each such dollar;
- from amounts received in excess of $500 million, 1.35% of each such dollar.

The aggregate contingency fee of both ML&B (including the portion which ML&B must pay to RH&D) and G-Risk is:

- from the first $1.00 up to $30 million so received, 20.0% of each such dollar, with a cap on fees of $5,000,000;
- from recoveries over $30 million and up to $50 million, 7% of each such dollar;
- from recoveries over $50 million and up to $500 million, 6% of each such dollar;
- from amounts received in excess of $500 million, 3% of each such dollar.

The "recoveries" referenced above include structured settlements, "coverage-in-place" transactions and court judgments. "Coverage-in-place" in this instance means a binding agreement between the Debtors and one or more of its Asbestos Insurance Companies that sets forth a mutually agreeable method for securing insurance coverage for the Asbestos Related Claims on an ongoing basis.

To date, on account of the contingency fee agreement, approximately $698,500 has been paid during the Reorganization Cases to the three aforementioned entities from funds thus far received under the Nationwide Settlement. ML&B and ZH have received approximately $314,332; RH&D has received approximately $60,843; and G Risk has received approximately $413,325.

Following their filings of bankruptcy petitions in December 2004, Dissolved Thorpe, Technologies and Holdings filed applications seeking to retain RH&D as their bankruptcy counsel and special litigation co-counsel, ML&B as their lead special insurance litigation counsel and G-Risk as their insurance consultant. Each of the Debtors has executed a written waiver, consenting to the joint representation of each of the Debtors by RH&D, ML&B and G-Risk.

3.2 <u>Administration of the Reorganization Cases.</u>

On or shortly after the Debtors' respective Petition Dates, the Debtors sought relief designed to minimize the disruption of the Debtors' business operations and to facilitate their reorganization. This included relief sought by the Debtors in the following motions and applications: (a) motion for joint administration of the Reorganization Cases, (b) application for an order approving the Debtors' employment of RH&D as their reorganization counsel, and (c) motion to authorize the sale of a portion of Thorpe's business loss to facilitate financing.

3.3 <u>The Asset Purchase Motion.</u>

Technologies is in the business of designing and installing custom industrial furnaces primarily for the aluminum industry. Technologies can only obtain some of the materials for its projects from certain limited vendors. Those vendors operate on tight repayment dates and, Technologies believes, were unlikely to extend credit to a company in bankruptcy. Even if they did extend credit, Technologies was concerned that with unpaid payments owing to them, many of

the vendors would file mechanics liens. If this occurred, it would set off a chain reaction on the pending jobs that Technologies currently had under construction and would more than likely result in the owners stopping the flow of progress payments to Technologies. This in turn would result in Technologies being unable to pay its vendors for services performed and materials delivered to the job sites.

Recognizing that it needed to file a bankruptcy, Technologies needed financing to pay its vendors before it filed bankruptcy so as to avoid the downward spiral described above. Technologies made several efforts to obtain financing from financial institutions. After suffering rejection from these sources, Technologies hired a broker to assist it. With the assistance of the broker, Technologies located and provided financial statements to at least two asset-based lenders. One evidenced interest in providing financing to Technologies. Technologies again provided further financial information and the parties negotiated the terms of the lending agreement. After several rounds of negotiations and revisions, the necessary documents were finalized. On the day of the closing, however, the lender decided to back out of the agreement and did not sign the financing agreement documents.

Therefore, prior to the filing of the bankruptcy cases by Dissolved Thorpe, Holdings and Technologies, Thorpe and Global Risk Trading LLC, a Delaware Limited Liability company ("Global") entered into an Asset Purchase Agreement ("APA") whereby Thorpe agreed to sell to Global the first $1.8 million of Business Loss which Thorpe is entitled to receive under the Plan assuming the Plan is confirmed ("Asset"). The purchase price for the Asset is $900,000. The funds from the sale allowed Technologies to pay its trade creditors in full pre-petition. Since the APA requires Bankruptcy Court approval, Thorpe and Global provided a means for unwinding the sale if the Bankruptcy Court approval is not obtained. Prior to the filing of the Technologies bankruptcy, Technologies and Global entered into a Secured Guaranty Agreement under which Technologies guaranteed repayment of the $900,000 to Global in the event that the Bankruptcy Court did not approve the APA. The guaranty of Technologies was secured by a security interest in the assets of Technologies. Under the APA, upon Bankruptcy Court approval of the APA, the obligations of Technologies are terminated. The APA provides that it may be approved by the

Bankruptcy Court either at a sale hearing to be held on or before March 8, 2005, or if not approved at such sale hearing, then it must be approved, if at all, at a hearing in conjunction with the Plan no later than June 6, 2005. At a hearing on February 26, 2005, the Bankruptcy Court delayed final ruling on the APA until a later hearing to be set at, or prior to, the hearing on confirmation of the Plan. The Debtors are also in the process of scheduling an overbid procedure and hearing with respect to the Asset to be sold under the APA.

The claims of Global, or that of the highest bidder of the Asset, are not impaired. If the Bankruptcy Court does not approve the APA, Thorpe will not sell the Asset, and Technologies will be responsible for paying Global or the highest bidder for the Asset, $900,000 over thirty six months together with interest at 5% per annum.

3.4 Appointment of the Committee.

Section 1102 of the Bankruptcy Code authorizes the appointment of a committee of holders of Unsecured Claims. On or about August 30, 2002, the Office of the United States Trustee (the "U.S. Trustee") appointed the Committee to serve in Thorpe bankruptcy case. The Committee is comprised of: (a) Various Asbestos-Related Disease Claimants represented by Steven Kazan, Esq., Kazan, McClain, Edises, et al.; (b) Sylvia Clinton represented by Philip Harley, Esq., Paul, Hanley & Harley LLP, successor to Harry F. Wartnick, Esq., the Wartnick Law Firm; (c) Various Asbestos-Related Disease Claimants represented by David Rosen, Esq., Rose, Klein & Marias, LLP; and (d) Various Asbestos-Related Disease Claimants represented by Alan R. Brayton, Esq., Brayton Purcell. As Asbestos Related Claims are the only claims to be impaired under the Plan, only holders of these claims sit on the Committee. The Official Committees of Holders of Unsecured Claims recently appointed for Dissolved Thorpe, Technologies and Holdings consist of the same members.

The Committee has retained the law firm of Sheppard Mullin Richter & Hampton LLP as its counsel. The Committee has also retained Legal Analysis Systems, Inc., and in particular Dr. Mark Peterson thereof, as its expert consultant.

The Committee will function until the Effective Date of the Plan as the sole official committee in these Reorganization Cases.

3.5 Appointment of the Futures Representative.

After reviewing the qualifications and potential conflicts of candidates to serve as the Futures Representative to represent the interests of those who have made Demands, and after careful deliberation, Thorpe and the Committee jointly asked the Honorable Charles B. Renfrew (Ret.) to serve as the Futures Representative in the Thorpe Reorganization Case.

Judge Renfrew served as a United States District Judge for the Northern District of California from 1972 to 1980, a position he left to serve as the Deputy Attorney General of the United States from 1980 to 1981. He was a partner in the firm of Pillsbury Madison & Sutro from 1981 to 1982. He was the Vice President of Legal Affairs and later on the Board of Directors of Chevron Corporation from 1983 to 1993. He was a partner in the firm of LeBoeuf, Lamb, Greene & McRae L.L.P. from 1993 to 1997. Judge Renfrew is now in private practice and is regularly selected as an arbitrator or private judge in national and international disputes. Judge Renfrew is the Futures Representative in the bankruptcy cases of In re Western Asbestos Company, Western MacArthur Co. and Mac Arthur Co., jointly administered under Case No. 02-46284T in the United States Bankruptcy Court for the Northern District of California, Oakland Division.

The Bankruptcy Court appointed Judge Renfrew as the Futures Representative in the Thorpe Reorganization Case on December 2, 2002.

The Futures Representative has engaged Fergus, a Law Firm as his legal counsel. The Futures Representative has also engaged the firm of Hamilton, Rabinovitz & Alschuler, and in particular Dr. Francine Rabinovitz thereof, as his expert consultant.

The Plan Proponents believe that in addition to serving as the Futures Representative in the Thorpe Reorganization Case, Judge Renfrew should be the Futures Representative in each of the other three Debtors' Reorganization Cases. Accordingly, the Plan Proponents will be seeking to have the Court appoint Judge Renfrew as the Futures Representative in the Dissolved Thorpe, Technologies and Holdings Reorganization Cases.

//

//

//

3.6 The Settlements.

(a) The Nationwide Settlement.

Nationwide issued a number of primary and umbrella policies between February 15, 1986 and February 15, 1992. The Nationwide policies are unique in the coverage program because they contain limitations, exclusions and restrictions that do not appear in the other earlier policies issued by other insurers and which also cover the asbestos bodily injury claims.

First, the Nationwide policies each contain "aggregate" limits for all claims seeking the recovery of money damages resulting from alleged bodily injury. By contrast, the coverage issued by the other insurance companies contains "aggregate" limits only for certain claims within the "products/completed operations" coverage afforded by the policies, and only "per occurrence" limits for operations claims. Thus, while the coverage issued by most of the insurance companies has no aggregate limits for the vast majority of the asbestos claims, and thus are of very substantial value, the coverage afforded by the Nationwide policies is highly restricted and capped by its aggregate limits. Second, unlike the earlier coverage, at least five of the Nationwide policies contain absolute asbestos exclusions, thus making these policies completely unavailable to defend or indemnify against the asbestos bodily injury lawsuits. Thorpe and Nationwide reached a settlement of all disputes which was approved by the Bankruptcy Court on April 27, 2004. In sum, the settlement ("Nationwide Settlement") provided that Nationwide would pay Thorpe's estate an aggregate amount of $3,992,499.43, payable as follows:

1. An initial payment by Nationwide of $952,899.43 – this has been paid.
2. A second payment by Nationwide of $1,269,800 – this has been paid.
3. A third payment by Nationwide in the amount of $1,269,800 – this has been paid.
4. A fourth payment of $500,000 by Nationwide – payable if Thorpe confirms a Chapter 11 plan that contains a channeling injunction pursuant to 11 U.S.C. Section 524(g), or a similar injunction in favor of Nationwide with substantially the same effect.

Nationwide has also assigned to Thorpe and the Trust all of its equitable contribution, subrogation and indemnity rights, or similar other common-law or statutory relief that it has with respect to any other Asbestos Insurance Company or any other third parties.

In return, Thorpe has released any known, or unknown, claims to coverage, including any extra-contractual recovery, under the Nationwide policies. Thorpe has agreed to defend and indemnify Nationwide, up to the settlement amount, for certain claims that may be brought against Nationwide that concern the subject matter of the Settlement Agreement. As part of this indemnification obligation, Thorpe obtained a preliminary injunction providing that any asbestos claims against Nationwide, including but not limited to claims for equitable contribution, subrogation, indemnity or any similar common-law or statutory relief related to asbestos claims, be stayed for 120 days. At a hearing held on January 26, 2005, the Bankruptcy Court extended the preliminary injunction through May 18, 2005, subject to further renewal of the preliminary injunction before it expires.

(b) The Federal Settlement.

Thorpe and Federal reached a settlement of all disputes, which was approved by the Bankruptcy Court by order entered on May 28, 2004. In sum, the settlement agreement ("Federal Settlement") provides that upon entry of the order, Federal would place $45,000,000 into a mutually agreed escrow account. Upon the Effective Date of Thorpe's Chapter 11 Plan, which under the Federal Settlement must contain either: (i) an injunction in favor of Thorpe under 11 U.S.C. § 524(g)(4)(A) or 11 U.S.C. § 105 or (ii) a waiver by Thorpe of all contractual, extracontractual and other claims that Thorpe may have against Federal, as more fully set forth in the Federal Settlement and a provision in the Plan that such waiver is binding upon the Trust, the Federal settlement payment will be transferred to Thorpe or a trust established under § 468(b) of the Internal Revenue Code, or to a segregated account, consistent with the terms of the Plan.

Federal is also assigning to Thorpe and the Trust all of its equitable contribution, subrogation and indemnity rights, or similar other common-law or statutory relief that it has with respect to any other Asbestos Insurance Company or any other third parties.

In return for the payments that Federal is committed to make under the Federal Settlement, Thorpe will on the Effective Date of the Plan release any known, or unknown, claims to coverage under the Federal policies, thus "selling back" the policies to Federal. Further, Thorpe will on the Effective Date of the Plan release any possible claims for extra-contractual recovery against

Federal, including any claims for breach of the implied covenant of good faith and fair dealing. Subject to the terms of the Plan, Thorpe will also on the Effective Date of the Plan hold Federal harmless from contribution claims by other insurers, if any, as set forth in the Federal Settlement.

If the Plan is confirmed by the Bankruptcy Court, but is appealed, Thorpe shall be entitled during the pendency of the appeal, to distribute up to $15,000,000 of the settlement payment to claimants or for other purposes. If the order confirming the Plan is not affirmed on appeal, Federal will be entitled to a return of the balance of the settlement payment, less such payments up to $15,000,000 made by Thorpe.

If Thorpe's Plan is not confirmed, the Federal Settlement Agreement will be voidable by either Thorpe or Federal. If voided, the litigation between the parties, commenced in the Coverage Litigation described in Section 3.7 below, shall resume.

(c) Settlement Accounts.

Pursuant to a Court order entered April 27, 2004, Thorpe established two Qualified Settlement Fund ("QSF") accounts. A fund, account or trust is a "qualified" settlement fund under 26 C.F.R. §1.468B-1(c), if it meets the following three requirements:

> (1) It is established pursuant to an order of, or is approved by, the United States,... or any agency or instrumentality (including a court of law) of any of the foregoing and is subject to the continuing jurisdiction of that governmental authority;
>
> (2) It is established to resolve or satisfy one or more contested or uncontested claims that have resulted or may result from an event (or related series of events) that has occurred and that has given rise to at least one claim asserting liability—
>
> (3)(i) Under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (hereinafter referred to as CERCLA), as amended, 42 U.S.C. 9601 et seq.; or
>
> (ii) Arising out of a tort, breach of contract, or violation of law; [and]
>
> ....
>
> (3) The fund, account, or trust...or its assets are otherwise segregated from other assets of the transferor (and related persons). 26 C.F.R. §1.468B-1(c).

The first QSF account maintained funds in the amount of $715,198.20 as ordered by the Court on February 25, 2004 ("QSF No.1"). The second QSF account holds all remaining funds from the Nationwide Settlement Agreement ("QSF No. 2"). QSF No. 2 was also segregated from

the other assets of Thorpe and reserved for the payment of asbestos claimants and other claim holders, including those of administrative claimants. QSF No. 2 was used to pay the approved fees and costs of Thorpe's bankruptcy professionals including ongoing administrative expenses, such as U.S. Trustee fees and insider compensation payments without the necessity of a court order. These are payments that Thorpe considered were in the ordinary course of its claims administration business. Thorpe has now also established a third QSF account held with U.S. Bank as escrow agent ("QSF No.3"). This account holds the $45,000,000 proceeds from the Federal Settlement.

John Allen, the president of Thorpe, is the Settlement Fund administrator. As such, he is the person charged with executing the tax reporting requirements. The signatures of both Mr. Allen and Mr. Thomas Carpenter, Thorpe's Chief Financial Officer, are required to draw funds from the QSF No. 1 and QSF No. 2 accounts. The QSF No. 3 account requires the instructions of all of Federal, Thorpe, the Committee and the Futures Representative to make disbursements.

Upon the Effective Date and after payments made as outlined elsewhere in the Plan, the funds in the QSF accounts will be transferred to the Trust, which itself will be qualified under 26 C.F.R. §1.468B.

3.7 The Coverage Litigation.

On February 24, 2004, Thorpe filed the Coverage Litigation as adversary proceeding no. AD-04-01438-BB in the Bankruptcy Court against several insurance carriers for declaratory relief to (i) determine the rights and obligations between and among one or more of the Debtors and the defendant insurance companies with respect to insurance coverage available for creditors asserting injury as a result of alleged exposure to asbestos, (ii) establish the criteria by which such insurance company would respond to asbestos claims pursuant to the Debtors' ultimate plan of reorganization, and (iii) assist in quantifying the amount of insurance available to creditors alleging asbestos-related injury. The defendants in the Coverage Litigation are Federal, St. Paul, National Union, AMICO and First State.

Defendant Federal issued at least the following liability insurance policies to one or more of the Debtors that cover the asbestos bodily injury claims and that Debtors contend contain no

"aggregate" limits for claims alleging injurious exposure to asbestos during one or more of the Debtors' business operations:

Policy No.	Period
7721-63-41	1/1/66 - 1/1/67
7740-09-00	1/1/67 - 1/1/68
7740-43-73	1/1/68 - 1/1/69
7744-56-66	1/1/69 - 1/1/70
7750-32-17	1/1/70 - 1/1/71
7761-04-25	1/1/71 - 1/1/72
7761-07-17	1/1/72 - 1/1/73
7772-89-23	1/1/73 - 1/1/74
7772-89-23	1/1/74 - 1/1/75
7772-89-23	1/1/75 - 1/1/76
7772-89-23	1/1/76 - 1/1/77
7772-89-23	1/1/77 - 1/1/78

Defendant St. Paul issued at least the following liability insurance policies to one or more of the Debtors that cover the asbestos bodily injury claims and that Debtors contend contain no "aggregate" limits for claims alleging injurious exposure to asbestos during one or more of the Debtors' business operations:

Policy No.	Period
661-NB-1940	1/1/78 - 1/1/79
661-NB-1940	1/1/79 - 1/1/80
661-NB-6062	1/1/80 - 1/1/81
661-NB-6062	1/1/81 - 1/1/82
661-NB-6062	1/1/82 - 1/1/83
661-NB-6062	1/1/83 - 1/1/84
659-NB-1238	1/1/84 - 1/1/85

Defendant National Union issued at least the following liability insurance policy to one or more of the Debtors that cover the asbestos bodily injury claims and that Debtors contend contains no "aggregate" limits for claims alleging injurious exposure to asbestos during one or more of the Debtors' business operations:

Policy No.	Period
GLA116-8146RA	1/1/85 - 1/1/86

Defendant AMICO issued at least the following liability insurance policies to one or more of the Debtors that cover the asbestos bodily injury claims and that Debtors contend contain no "aggregate" limits for claims alleging injurious exposure to asbestos during one or more of the Debtors' business operations:

Policy No.	Period
F3M70249	1/1/53 - 1/1/54
3M426192	1/1/53 - 1/1/54
4ZM-70-249	1/1/54 - 1/1/55
5ZM-70-249	1/1/55 - 1/1/56
6ZM-70-249	1/1/56 - 1/1/57
7ZM-432-163	1/1/57 - 1/1/58
8ZM-432-163	1/1/58 - 1/1/59
9ZM-432-163	1/1/59 - 1/1/60
0ZM-432-163	1/1/60 - 1/1/61
1ZM-432-163	1/1/61 - 1/1/62
2ZM-432-163	1/1/62 - 1/1/63
3ZM-432-163	1/1/63 - 1/1/64
4ZM-432-163	1/1/64 - 1/1/65
5ZM-432-163	1/1/65 - 1/1/66

Defendant First State issued at least the following liability insurance policy to one or more of the Debtors that cover the asbestos bodily injury claims and that Debtors contend contains no "aggregate" limits for claims alleging injurious exposure to asbestos during one or more of the Debtors' business operations:

Policy No.	Period
EU 002628	2/15/85 - 2/15/86

Thorpe alleged in the Coverage Litigation that consistent with the "continuous trigger" of coverage under applicable law, the asbestos bodily injury claims are covered under its insurance policies in effect during any portion of the asbestos disease process—i.e., from first exposure to asbestos through death. Similarly, under the "all sums" rule under applicable law, Thorpe alleged that its insurance carriers must pay for Thorpe's entire loss up to its "per occurrence" limit, even though asbestos bodily injury continues over multiple policy periods.

Thorpe further alleged that the vast majority of asbestos bodily injury claims are covered under the "premises-operations" coverage of the defendant insurers' policies. The "premises-operations" coverage in the insurers' policies have per occurrence limits with no aggregate limits. Thorpe contends the asbestos bodily injury claims have arisen from multiple occurrences and therefore Thorpe is entitled to multiple limits under the insurers' policies.

Prior to Thorpe's bankruptcy, the insurers handling Thorpe's claims previously classified all asbestos bodily injury claims against Thorpe as "products-completed operations" claims and applied an alleged "aggregate" to limit the payment for the asbestos bodily injury claims against Thorpe. Based on the alleged wrongful classification of the asbestos bodily injury claims filed against Thorpe, two of the remaining defendants—St. Paul and National Union—have claimed exhaustion. Federal, which recently settled for $45,000,000, made similar claims. Two defendants—AMICO and First State—have not made any payments to Thorpe for the asbestos bodily injury claims. Thorpe disputes the claims of exhaustion and seeks a ruling that the defendant insurers have continuing obligations under their insurance policies for the asbestos bodily injury claims against Thorpe.

Thorpe further alleges that to the extent that the insurance policies contain "aggregate" limits of coverage, such "aggregate" limits apply solely with respect to claims for bodily injury that fall within the limitations of the "products-completed operations" coverage as defined by the policies. Thorpe asserts that claims fall within the limitations of the "products-completed operations" provisions of the policies only when the asbestos-related injury results from (i) an actual defect in goods or products manufactured, handled, sold, distributed or disposed of by Thorpe, the injuries occurred away from Thorpe's premises, and the injuries occurred after Thorpe relinquished physical possession of its "goods" or "products," or (ii) Thorpe's completed work where the injury occurred away from premises owned, rented or controlled by Thorpe, and all of the injury occurred after the work was completed. The Asbestos Insurance Company defendants in the Coverage Litigation dispute these contentions.

//

//

St. Paul filed a motion to withdraw the reference from the Bankruptcy Court to the United States District court for the Central District of California. District Court Judge S. James Otero denied the motion. St. Paul filed a motion for reconsideration, which was also denied.

As set forth more fully above, Thorpe and Federal have reached a settlement agreement which could result in payment by Federal of $45,000,000.

Dissolved Thorpe intends to file a motion in the Coverage Litigation seeking to be added as a plaintiff in the Coverage Litigation.

3.8 The Pre-Confirmation Claims Liquidation Process.

The Court approved the Plan Proponents' "Motion For Order Approving Pre-Confirmation Asbestos Related Claims Liquidation Procedures." which seeks approval of a procedure permitting holders of Asbestos Related Claims against the Debtors to liquidate their claims prior to or in connection with Plan Confirmation (the "Pre-Confirmation Claims Liquidation Process"). Attorneys for all known plaintiffs with Asbestos Related Claims against the Debtors will be invited and encouraged to submit written information to a claims liquidator equivalent to the information which will be required by the Trust under the TDP. Notwithstanding the foregoing option to participate in the Pre-Confirmation Claims Liquidation Process, a holder of an Asbestos Related Claim does not need to submit a claim in connection with such process, but instead may elect to submit his or her claim to the Trust after the Plan Effective Date.

3.9 Setting of the Confirmation Hearing.

The Debtors have requested the Bankruptcy Court to schedule the Confirmation Hearing, and to set the Voting Deadline and the date by which objections to the Plan must be filed. The Debtors anticipate that notice of the Confirmation Hearing will be published in newspapers of general circulation in locations where the Debtors have or had substantial business operations, and will be mailed to all known holders of Asbestos Related Claims, at least twenty-five days before the date by which objections to the Plan must be filed, unless the Bankruptcy Court specifies otherwise. See Section 5.2 below. Section 524(g) of the Bankruptcy Code requires that any confirmation order containing a supplemental injunction must be issued or affirmed by the District

Court. The Debtors will therefore seek to have the Confirmation Order affirmed by the District Court. See Section 5.3(c) below.

SECTION 4.

SUMMARY OF THE PLAN

4.1 General.

The following is a summary intended as a brief overview of certain provisions of the Plan and is qualified in its entirety by reference to the full text of the Plan. Other provisions of the Plan not summarized in this Section 4 may be summarized elsewhere in this Disclosure Statement. Holders of Claims and Interests are encouraged to review the Plan and this Disclosure Statement with their attorneys or other advisors. The terms of the Plan are controlling over any summary or statement made in the Disclosure Statement.

4.2 Classification.

(a) Generally.

Section 2 of the Plan sets forth a designation of Classes of Claims and Interests and an explanation of Claims that are not classified under the Plan. Pursuant to section 1122 of the Bankruptcy Code, a Claim or Interest is classified in a particular Class only to the extent that the Claim or Interest qualifies within the description of the Class and is classified in a different Class to the extent that such Claim or Interest qualifies within the description of that different Class.

(b) Unclassified Claims.

In accordance with section 1123(a)(1) of the Bankruptcy Code, Administrative Claims are not classified and are excluded from the Classes established in Section 2 of the Plan. The treatment accorded Administrative Claims is set forth in Section 1 of the Plan, and is summarized below.

The Bankruptcy Court has entered various orders authorizing the professionals retained by Thorpe, the Committee and the Futures Representative to be paid from the Thorpe's bankruptcy estate, including from certain insurance proceeds, pursuant to orders of the Bankruptcy Court. The Bankruptcy Court has to date approved RH&D to be paid from the Thorpe bankruptcy estate

for all services to the Debtors, except for services rendered exclusively to a Debtor other than Thorpe. Payment from the Thorpe estate for these latter services, is subject to further Bankruptcy Court approval. The Plan Proponents intend to request similar orders for other professionals employed in the bankruptcy cases for the Debtors other than Thorpe. The Debtors believe that there are no material unpaid claims that were accrued after their respective Petition Dates, other than trade payables incurred by Technologies which are paid in the ordinary course of business.

(c) Classes.

For purposes of the Plan, the Claims against, and Interests in, the Debtors are grouped in the following Classes in accordance with section 1122(a) of the Bankruptcy Code. With respect to Classes 1, 2 and 3 only, Claims against each Debtor although classified in the same Class as Claims against each of the other Debtors, shall have resort only to the assets of such Debtor responsible for such Claim.

(1) Class 1 – Priority Claims.

Class 1 consists of all Priority Claims against any of the Debtors including tax claims. The Debtors are not aware of any priority claims.

(2) Class 2 – Secured Claims.

Class 2 consists of all Secured Claims against any of the Debtors.

As set forth in above in Section 3.3 hereof, Technologies and Global entered into a Secured Guaranty Agreement under which Technologies guaranteed repayment of $900,000 to Global in the event that the Bankruptcy Court does not approve the APA. The guaranty of Technologies was secured by a security interest in the assets of Technologies. Under the asset purchase agreement ("APA") documents, if Bankruptcy Court approval is obtained of the APA, the obligations of Technologies under the Secured Guaranty Agreement are terminated. If the APA is not approved, Technologies' assets will remain pledged as security for payment of the $900,000 promissory note to Global, or the assignee thereof in the event of a successful overbid, payable in 36 equal monthly installments together with simple interest at 5% per annum. The Debtors are unaware of any other secured claims against Thorpe, Dissolved Thorpe, Holdings or Technologies.

(3) Class 3 – Unsecured Claims.

Class 3 consists of all Unsecured Claims against the any of the Debtors, and is divided into two sub-classes: Class 3(a) consists of all Unsecured Claims other than Class 3(b) Unsecured Claims. At its Petition Date, Technologies had virtually no open trade payables as it had used the proceeds from the asset sale under the APA with Global, among other cash at hand, to pay such trade payables prior to its bankruptcy filing. No other Debtor had open trade payables as of their respective Petition Dates. Class 3(b) consists of Unsecured Claims against any of the Debtors which are personal injury tort claims, other than Asbestos Related Claims. Technologies is the defendant in a personal injury case filed in Kentucky in 1999 by an individual named Terry Gibbs. Mr. Gibbs was injured when moisture laden aluminum scrap was submerged in the furnace. Mr. Gibbs alleges that his injuries are due to a defect in Technologies' furnace design and installation. Technologies is being defended by AIG, its liability insurance carrier. There is approximately $5,000,000 of insurance coverage in the event that Mr. Gibbs is successful in his action which the Debtors believe substantially exceeds the most generous valuations of Mr. Gibbs' case. The Debtors are unaware of any such other claims.

(4) Class 4 – Asbestos Related Claims.

Class 4 consists of all Asbestos Related Claims against any of the Debtors The Plan Proponents' estimate of the amount of all Asbestos Related Claims is set forth in Section 7.2 below.

(5) Class 5 – Interests.

(A) Class 5-A.

Class 5-A consists of all Interests in Thorpe. Thorpe is wholly owned by Holdings.

(B) Class 5-B.

Class 5-B consists of all Interests in Dissolved Thorpe. Before Dissolved Thorpe dissolved, the shareholders were Horace Baker, Bill Solaini, Richard Neilson, Carl Stemon, Leo Purvis and John Allen. The Debtors are unaware whether after dissolution of Dissolved Thorpe the stock certificates in that entity were cancelled.

(C) Class 5-C.

Class 5-C consists of all Interests in Technologies. Technologies is wholly owned by Holdings.

(D) Class 5-D

Class 5-D consists of all Interests in Holdings. Holdings' shareholders are: John Allen (28,205.1 shares); Thomas Carpenter (11,825 shares); Gary D. Newby (4,923.17 shares); R.P. Angarella (4,923.17 shares); Dean W. Barnes (2,029.49 shares); S. Trakhtenberg (800 shares) and Gary Hodge (800 shares).

4.3 Treatment of Administrative Claims.

The Plan leaves unaltered the legal, equitable and contractual rights to which any Administrative Claim entitles the holder of such Claim. Each holder of an Administrative Claim that is subject to approval by the Bankruptcy Court before it can be paid by the Debtors will be paid as soon as practicable after such approval under a Final Order. All other Administrative Claims will be paid in full as they become due.

4.4 Treatment of the Classified Claims.

Claims and Interests, as classified in Section 2 of the Plan, shall be treated in the manner set forth in Section 3 of the Plan. The following constitutes a summary of such treatment:

(a) Class 1 – Priority Claims.

(1) Treatment.

The Plan leaves unaltered the legal, equitable and contractual rights to which any Priority Claim entitles the holder of such Claim. Each of these Claims will be paid in full (including the payment of simple interest at the rate of 5% per annum) on the later of the Effective Date or the date the Claim becomes due.

(2) Impairment and Voting.

This Class is unimpaired. Each holder of a Priority Claim is conclusively presumed to have accepted the Plan and is not entitled to vote to accept or reject the Plan, by operation of section 1126 of the Bankruptcy Code.

//

(b) Class 2 – Secured Claims.

(1) Treatment.

Each holder of a Secured Claim shall retain, unaltered, the legal, equitable and contractual rights (including, but not limited to, any Liens that secure such Secured Claim) to which such Secured Claim entitles such holder. Each of these Claims will be paid in full (including the payment of interest at the rate set forth in such claimant's agreement with the Debtor, on the later of the Effective Date or the date the Claim becomes due.

(2) Impairment and Voting.

This Class is unimpaired. Each holder of a Secured Claim is conclusively presumed to have accepted the Plan and is not entitled to vote to accept or reject the Plan, by operation of section 1126 of the Bankruptcy Code.

(c) Class 3 – Unsecured Claims.

(1) Treatment.

Class 3(a) Claims. The Plan leaves unaltered the legal, equitable and contractual rights to which any Unsecured Claim entitles the holder of such Claim. Each of these Claims will be paid in full (including the payment of simple interest at the rate of 5% per annum) on the later of the Effective Date or the date the Claim becomes due.

Class 3(b) Claims. Each Class 3(b) Claim holder shall have resort exclusively to the insurance policy/ies of the Debtor covering such claims and against which such Claim is made, and not to the other assets of the Debtor. Each of these Claims will be paid in full (including the payment of simple interest at the rate of 5% per annum) on the later of the Effective Date or the date the Claim becomes due from the insurance policies covering such claims.

Any holder of a non-asbestos related personal injury claim will be paid exclusively from the insurance proceeds of that particular Debtor upon settlement or final judgment.

(2) Impairment and Voting.

This Class is unimpaired by the Plan. Each holder of an Unsecured Claim is conclusively presumed to have accepted the Plan and is not entitled to vote to accept or reject the Plan, by operation of section 1126 of the Bankruptcy Code.

(d) Class 4 – Asbestos Related Claims.

(1) Treatment.

As of the Effective Date, the Trust shall assume the Debtors' liabilities for all Asbestos Related Claims against the Released Parties without further act or deed. Each Asbestos Related Claim against the Released Parties shall be addressed by the Trust pursuant to and in accordance with the TDP. The provisions of the TDP, unless the Confirmation Order provides otherwise and except as otherwise provided herein, shall apply to all Asbestos Related Claimants, including any Asbestos Related Claimant who elects to resort to the legal system and obtains a judgment for money damages. Each holder of an Asbestos Related Claim shall, under the conditions set forth in the Plan, be deemed to have assigned to the Trust, to the extent possible without diminishing or impairing any part of such Direct Actions, and the Trust shall be deemed such holder's sole attorney in fact, as may be appropriate, to prosecute, at the Trust's sole discretion, any Direct Action, other than against a Released Party.

(2) Impairment and Voting.

This Class is impaired by the Plan. Each holder of an Asbestos Related Claim is entitled to vote to accept or reject the Plan by operation of section 1126 of the Bankruptcy Code, which requires that the holders of least two-thirds in amount and more than one-half in number of the Claims of this Class actually voting on the Plan vote to accept the Plan.

The Plan also requests relief pursuant to Bankruptcy Code section 524(g), though the Plan may still be confirmed even if relief under section 524(g) is not granted. Bankruptcy Code Section 524(g) of the modifies the voting requirement of Bankruptcy Code section 1126 by increasing to 75 percent in number the proportion of Asbestos Related Claimants actually voting on the Plan who must vote to accept the Plan.

//

//

//

//

//

(e) Class 5 – Interests.

(1) Class 5-A. Thorpe Interests.

(A) Treatment.

Holdings, the holder of all of the common stock of Thorpe, shall continue to hold all stock of Thorpe.

(B) Impairment and Voting.

This subclass is unimpaired. Holdings is conclusively presumed to have accepted the Plan and is not entitled to vote to accept or reject the Plan, by operation of section 1126 of the Bankruptcy Code.

(2) Class 5-B. Dissolved Thorpe Interests.

(A) Treatment.

On the Effective Date, all of the voting stock or other equity ownership interest of Dissolved Thorpe shall be owned by the Trust.

(B) Impairment and Voting.

This subclass is impaired. Each holder, if any, of an Interest in Dissolved Thorpe is deemed to reject the Plan (but the Plan can be confirmed notwithstanding that rejection, as described in Section 5.3(b) below.)

(3) Class 5-C. Technologies Interests.

(A) Treatment.

Holdings, the holder of all of the common stock of Technologies, shall continue to hold all stock of Technologies.

(B) Impairment and Voting.

This subclass is unimpaired. Holdings is conclusively presumed to have accepted the Plan and is not entitled to vote to accept or reject the Plan, by operation of section 1126 of the Bankruptcy Code.

//

//

//

(4) Class 5-D. Holdings Interests.

(A) Treatment.

On the Effective Date, the Trust shall receive the original of the Holdings Note, payment of which will be secured by the Holdings Pledge Agreement which grants a first priority, perfected security interest in 51% of the common stock of Holdings, and which will contain a provision whereby a 51% interest in Holdings must be deposited into escrow to be held as a pledge for delivery to the Trust in satisfaction of the Holdings Note upon the failure by Technologies and Holdings to cure in a timely fashion any defaults under the Holdings Note. The current shareholders of Holdings shall continue to own their shares in Holdings unless and until there is a default under the Holdings Note and the Holdings Pledge Agreement. Upon full payment of the Holdings Note, the 51% of the common stock of Holdings deposited into escrow shall be released to the shareholders of Holdings who deposited such common stock.

(B) Impairment and Voting.

This subclass is impaired. The holders of Interests in Holdings are entitled to vote to accept or reject the Plan.

4.5 Means for Execution of the Plan.

(a) Establishment of the Trust.

On the Effective Date, the Trust shall be established in accordance with the Plan Documents. Before the Effective Date, the Trustees shall have decided on the place of operation and the jurisdiction of organization for the Trust.

(b) Trust Funding.

On the Effective Date, or as soon as practicable thereafter, the Trust Assets shall become owned by the Trust as part of the consideration to be paid by the Debtors to the Trust for the Trust's assumption of all of the Asbestos Related Claims and Demands.

(c) The Trust Assets.

The Trust Assets includes the assets to be delivered to the Trust pursuant to the Plan Documents, or otherwise, and include without limitation the following assets and any income, profits, and proceeds derived therefrom: (a) all shares of the common stock of Dissolved Thorpe,

(b) the Holdings Note, (c) rights under the Holdings Pledge Agreement, (d) the Thorpe Business Loss Insurance Security (except for the Debtors Portion of the Business Loss), (e) the Thorpe General Insurance Security, (f) all Asbestos Insurance Action Recoveries (except for the Debtors Portion of the Business Loss and fees due under the contingency fee arrangements). The Trust Assets shall additionally include the Debtors' rights for contribution and reimbursement against parties other than Released Parties.

(d) Vesting of Rights of Contribution and Indemnification.

On the Effective Date of the Plan, all of the Debtors' right, title and interest, if any, in and to claims of contribution and indemnification against parties other than the Released Parties in Respect To Asbestos Related Claims shall be vested in the Trust. The Plan Proponents shall execute and deliver any and all necessary documents to confirm such vesting in the Trust, however, such vesting shall occur automatically. The Trust shall investigate, prosecute, settle or abandon such rights as may be determined in the sole discretion of the Trustees.

(e) Preservation of Insurance Claims

None of the discharge of Technologies or Holdings, the injunctions issued to Debtors, nor the Released Non-Debtor Parties' release from all Asbestos Related Claims and Demands as provided herein shall diminish or impair the enforceability of any of the Asbestos Insurance Policies against a party that is not a Released Party. Each Allowed Asbestos Related Claim and Demand shall be, and be deemed to be, a judgment against the respective Debtor liable for such Claim and the Trust (as successor for all purposes to the liabilities of the Debtors in respect of Asbestos Related Claims and Demands) in the Allowed Amount of such Asbestos Related Claim or Demand, as the case may be, which Allowed Asbestos Related Claim and Demand as against the Debtor liable for such Claim shall be channeled to the Trust for payment and entitle the holder thereof solely to beneficiary status as against the Trust, and not to satisfaction of its Allowed Asbestos Related Claim or Demand against the properties or assets of the Debtors.

(f) Plan Distributions.

Distributions to holders of Asbestos Related Claims and Demands shall be made by the Trust in accordance with the TDP. Certain claims against the Debtors by their attorneys in the

Coverage Litigation, and claims for Professional Fees, are to be paid in the future by the Trust, as Trust Expenses as set forth in the Plan. All other Claims other than Asbestos Related Claims against the Debtors will be paid by the Debtor which is obligated on the Claim on the latest of the Effective Date or the date the obligation becomes due by its terms.

(g) Withholding of Taxes.

The Debtors or the Trust, as applicable, shall withhold from any assets or property distributed under the Plan or by the Trust any amounts, assets or property that must be withheld for foreign, federal, state and local tax purposes to the extent required by applicable law.

(h) Interest on Claims.

To the extent interest is required by applicable contract, post-petition interest shall accrue on Claims, except Class 4 Claims, as set forth above under the treatment of each claim. The TDP shall govern interest on Class 4 Claims.

(i) Disputed Claims.

After the Effective Date, only the Trust shall have authority to reject or deny any Asbestos Related Claim or Demand, to engage in binding or non-binding arbitration with Asbestos Related Claimants, and for Asbestos Related Claimants who reject the result of non-binding arbitration or proceed to the tort system without first going through nonbonding arbitration pursuant to Section 5.11 of the TDP, to litigate to judgment, settle or withdraw its rejection or denial. Asbestos Related Claims and Demands, whether or not a Proof of Claim is filed, shall be satisfied exclusively in accordance with the Trust Agreement and the TDP.

4.6 Executory Contracts, Unexpired Leases and Settlements.

(a) Assumption of Executory Contracts and Unexpired Leases.

Exhibit 9 to the Plan is a list of each unexpired lease and/or executory contract in existence as of the Petition Dates and as to which each of the Debtors is still a party. Each such contract shall, as of the Confirmation Date (subject to the occurrence of the Effective Date), be deemed to have been assumed by such Debtor which is the party to such lease or contract. Entry of the Confirmation Order by the Bankruptcy Court shall constitute approval of such assumptions pursuant to sections 365 and 1123 of the Bankruptcy Code. Each executory contract and

unexpired lease assumed pursuant to Section 5.1 of the Plan shall, on the Effective Date, vest in and be fully enforceable by each such Debtor in accordance with its terms. Executory contracts and leases entered into by the any of the Debtors after their Petition Dates, shall be performed by the Debtors in the ordinary course of their business.

(b) Cure of Defaults.

Any monetary amounts by which an executory contract or unexpired lease to be assumed pursuant to the Plan is in default shall be cured, to the extent required by section 365(b)(1) of the Bankruptcy Code, by the Debtor that is a party to the contract or lease, by cash payment to the non-Debtor party. If there is a dispute regarding (i) the nature or amount of any cure, (ii) the ability of any Debtor to provide "adequate assurance of future performance" (within the meaning of section 365 of the Bankruptcy Code) under the contract or lease to be assumed or (iii) any other matter pertaining to assumption, the Debtor shall cure that default following the entry of a Final Order resolving the dispute and approving the assumption or assumption and assignment, as the case may be. The Confirmation Order shall contain provisions providing for notices of proposed assumptions and proposed cure amounts to be sent to applicable third parties and procedures for objecting thereto and resolution of disputes by the Bankruptcy Court.

4.7 Injunctions, Releases and Discharge.

(a) Term of Certain Injunctions and the Automatic Stay.

All of the injunctions and the automatic stay provided for in or in connection with the Reorganization Cases, whether pursuant to section 105, section 362 or any other provision of the Bankruptcy Code or other applicable law, in existence immediately prior to Confirmation, shall remain in full force and effect until the Injunctions become effective, and thereafter if so provided by the Plan, the Confirmation Order or by their own terms. In addition, on and after Confirmation, the Debtors may seek such further orders as they may deem necessary to preserve the status quo during the time between Confirmation and the Effective Date. Notwithstanding any provision to the contrary contained in the Plan, all actions in the nature of those to be enjoined by the Injunctions shall be enjoined during the period between the Confirmation Date and the Effective Date.

(b) Discharge and Release.

(i) Effective on the Effective Date, except as provided in the Plan, Confirmation shall discharge Holdings and Technologies from any and all Claims, including Asbestos Related Claims, whether or not (A) a Proof of Claim based on such Claim was filed or deemed filed under section 501 of the Bankruptcy Code, or such Claim was listed on the Schedules of a Debtor, (B) such Claim is or was allowed under section 502 of the Bankruptcy Code, or (C) the holder of such Claim has voted on or accepted the Plan. All Asbestos Related Claims against the assets and properties of the Debtors shall be satisfied exclusively from the Trust.

(ii) Effective on the Effective Date, subject only to the terms of the respective settlement agreements with the Settling Asbestos Insurance Company, each Debtor (on its own behalf and on behalf of any person claiming by or through such Debtor) and the Confirmation Order shall and is deemed to release each Settling Asbestos Insurance Company in full from any and all claims, demands or obligations whatsoever (including, without limitation, any obligation for defense costs), past, present or future, known or unknown, arising out of, in connection with or relating to the Policies or any of the Settling Asbestos Insurance Companies' insuring relationship with any of the Debtors, whether for insurance coverage, bad faith or other extra-contractual liability or otherwise allegedly arising out of or relating to the Policies or any of the Settling Asbestos Insurance Companies' insuring relationship with any of the Debtors.

(c) Discharge Injunction.

Except as specifically provided in the Plan Documents to the contrary, the entry of the Confirmation Order shall also operate as to Holdings, Technologies and the Released Non-Debtor Parties as an injunction prohibiting and enjoining the commencement or continuation of any action, the employment of process or any act to collect, recover from, or offset from any of them (i) any Claim including an Asbestos Related Claim or Demand asserted by any Entity and (ii) any cause of action, whether known or unknown, arising out of or relating to any Asbestos Related Claim or Demand.

Subject to the applicable reservations contained in Section 9.4 of the Plan, all Entities that have held or asserted, that hold or assert, or that may in the future hold or assert any Claim,

Demand or cause of action (including, but not limited to, all Asbestos Related Claims and Demands in the nature of or sounding in tort, contract, warranty, bad faith, competition law, unfair or deceptive practices law, conspiracy, statute or any other body, theory or principle of law, equity or admiralty whatsoever or any Asbestos Related Claim or Demand or any claim or demand for or respecting any Trust Expense) against the Released Non-Debtor Parties, Holdings or Technologies (or any of them) arising out of or related to any Asbestos Related Claim or Demand, whenever and wherever arising or asserted shall be permanently stayed, restrained and enjoined from taking any action for the purpose of directly or indirectly collecting, recovering, or receiving payments, satisfaction, or recovery with respect to any such Asbestos Related Claim or Demand from or against Holdings, Technologies, any Released Non-Debtor Party or against the property of any of them, including, but not limited to:

(i) commencing or continuing in any manner any action or other proceeding of any kind with respect to any Asbestos Related Claim or Demand;

(ii) enforcing, attaching, collecting or recovering, by any manner or means, any judgment, award, decree or order with respect to any Asbestos Related Claim or Demand;

(iii) creating, perfecting or enforcing any Lien of any kind with respect to any Asbestos Related Claim or Demand;

(iv) asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind against any obligation due with respect to any Asbestos Related Claim or Demand; and

(v) taking any act, in any manner, in any place whatsoever, that does not conform to, or comply with, the provisions of the Plan Documents relating to any Asbestos Related Claim or Demand.

(d) The Channeling Injunction, the Supplemental Injunction and the Asbestos Insurance Company Injunction.

1. **Channeling Injunction**. To preserve and promote the property of the Estates of the Debtors and settlements contemplated by and provided for in the Plan and agreements approved by the Bankruptcy Court and in the exercise of the equitable jurisdiction and

power of the Bankruptcy Court, and under sections 524(g) and/or 105(a) of the Bankruptcy Code, Asbestos Related Claims and Demands shall be channeled to, and paid solely from, the Trust. Subject to the applicable reservations contained in Section 9.4 of the Plan, all Entities that have held or asserted, that hold or assert, or that may in the future hold or assert any Asbestos Related Claim or Demand shall be permanently stayed, restrained and enjoined from taking any action for the purpose of directly or indirectly collecting, recovering or receiving payment or recovery with respect to any such Asbestos Related Claim or Demand from or against any Released Party, including, but not limited to:

(a) commencing or continuing in any manner any action or other proceeding of any kind with respect to any Asbestos Related Claim or Demand against any Released Party, or against the property of any Released Party, with respect to any such Asbestos Related Claim or Demand;

(b) enforcing, attaching, collecting or recovering, by any manner or means, any judgment, award, decree, or order against any Released Party, or against the property of any Released Party, with respect to any Asbestos Related Claim or Demand;

(c) creating, perfecting, or enforcing any Lien of any kind against any Released Party, or the property of any Released Party, with respect to any Asbestos Related Claim or Demand;

(d) asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind against any obligation due any Released Party, or against the property of any Released Party, with respect to any Asbestos Related Claim or Demand; and

(e) taking any act, in any manner, in any place whatsoever, that does not conform to, or comply with, the provisions of the Plan Documents relating to any Asbestos Related Claim or Demand.

2. **The Supplemental Injunction**. To preserve and promote settlements contemplated by and provided by the Plan and agreements approved by the Bankruptcy Court and in the exercise of the equitable jurisdiction and power of the Bankruptcy Court under sections

524(g) and/or 105(a) of the Bankruptcy Code, subject to the applicable reservations contained in Section 9.4 of the Plan, all Entities shall be permanently stayed, restrained and enjoined from taking any action or making any demand against the Nationwide Parties, the Federal Parties and all other Settling Asbestos Insurance Companies (but in no circumstance any Other Insurer against whom the Debtors or the Trust have potential rights of recovery for Asbestos Related Claims and Demands, unless such other Insurer becomes a Settling Asbestos Insurance Company) and their present and future agents, for any claims, demands, Demands or obligations whatsoever (including, without limitation, any obligation for defense costs), past, present or future, known or unknown, arising out of, in connection with or relating to the Policies or any of the Settling Asbestos Insurance Companies' insuring relationship with any of the Debtors, including any claim for "bad faith" or extra-contractual liability, and further including but not limited to any claim under California Insurance Code Section 11580 or its subdivisions or related or similar statutes in any jurisdiction or any other claim by any person or entity for insurance coverage or damages, indemnity, contribution, defense, equitable relief or otherwise relating to the Policies, the Coverage Litigation, any Asbestos Related Claim or Demand, or any other matter or claim relating to the Policies by any party including any direct claim by a third-party against any Settling Asbestos Insurance Company arising out of or relating to the Policies or any Settling Asbestos Insurance Company's insuring relationship with any of the Debtors.

The actions so stayed, restrained and enjoined shall include, but are not limited to:

(a) commencing or continuing in any manner any action or other proceeding of any kind with respect to any such claim, demand or cause of action against any Settling Asbestos Insurance Company, or against the property of any Settling Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand;

(b) enforcing, attaching, collecting or recovering, by any manner or means, any judgment, award, decree or order against any Settling Asbestos Insurance Company, or against the property of any Settling Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand;

(c) creating, perfecting or enforcing any Lien of any kind against any Settling Asbestos Insurance Company, or the property of any Settling Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand;

(d) asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind against any obligation due any Settling Asbestos Insurance Company, or against the property of any Settling Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand; and

(e) taking any act, in any manner, in any place, that does not conform to, or comply with, the provisions of the Plan Documents relating to any Asbestos Related Claim or Demand.

3. **Asbestos Insurance Company Injunction**. To preserve and promote the property of the Estate and the settlements contemplated by and provided for in the Plan, and to supplement, where necessary, the injunctive effect of the discharge and releases detailed herein, and pursuant to the exercise of the equitable jurisdiction and power of the court under sections 524(g) and/or 105(a) of the Bankruptcy Code, subject to the applicable reservations contained in Section 9.4 of the Plan, all Entities that have held or asserted, that hold or assert, or that may in the future hold or assert any claim, demand, Demand or cause of action (including, but not limited to, any Asbestos Related Claim or Demand, or any claim or demand for or respecting any Trust Expense), against an Asbestos Insurance Company based on or relating to any Claim, Asbestos In-Place Insurance Coverage, or Asbestos Insurance Policy, whenever and wherever arisen or asserted (including, but not limited to, all Asbestos Related Claims and Demands in the nature of or sounding in tort, contract, warranty, or any other theory of law, equity or admiralty) shall, be permanently stayed, restrained and enjoined from taking any action for the purpose of directly or indirectly collecting, recovering or receiving payments, satisfaction or recovery with respect to any such claim, demand or cause of action, including, but not limited to:

(a) commencing or continuing in any manner any action or other proceeding of any kind with respect to any such claim, demand or cause of action against any

Asbestos Insurance Company, or against the property of any Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand;

(b) enforcing, attaching, collecting or recovering, by any manner or means, any judgment, award, decree or order against any Asbestos Insurance Company, or against the property of any Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand;

(c) creating, perfecting or enforcing any Lien of any kind against any Asbestos Insurance Company, or against the property of any Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand;

(d) asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind against any obligation due any Asbestos Insurance Company, or against the property of any Asbestos Insurance Company, with respect to any Asbestos Related Claim or Demand; and taking any act, in any manner, in any place whatsoever, that does not conform to, or comply with, the provisions of the Plan Documents relating to any Asbestos Related Claim or Demand.

The Debtors believe that the Bankruptcy Court and the District Court have the jurisdiction and power under sections 105(a) and 524(g) of the Bankruptcy Code to enter the Injunctions.

4. **Reservations**. Notwithstanding any provision to the contrary in the Plan, neither the Discharge Injunction, the Channeling Injunction, the Supplemental Injunction nor the Asbestos Insurance Company Injunction shall enjoin (unless such reservation is expressly qualified below to apply only to a particular Injunction):

(a) the rights of Entities to the treatment accorded them under Articles 1 and 3 of the Plan, as applicable;

(b) the rights of Entities to assert any Claim, debt, obligation or liability for payment of Trust Expenses against the Trust;

(c) the rights of the Trust and the Debtors, including the right of the Trust to prosecute a Direct Action as attorney in fact for a holder of an Asbestos Related Claim, and including the participation of such holder of an Asbestos Related Claim in such Direct Action

if and to the extent necessary to preserve rights against an insurer, to prosecute any Asbestos Insurance Action against an Asbestos Insurance Company that is not a Released Party;

(d) with respect to the Discharge Injunction, the Channeling Injunction and the Supplemental Injunction only, the rights of Entities to assert any Claim, debt, obligation or liability for payment against an Asbestos Insurance Company that is not a Released Party, unless otherwise enjoined by order of the Bankruptcy Court or estopped by provision of the Plan;

(e) with respect to the Asbestos Insurance Company Injunction only, the rights of the Trust, the Debtors and the Asbestos Related Claimants in accordance with the TDP to assert any Claim, debt, obligation or liability for payment against an Asbestos Insurance Company that is not a Released Party unless otherwise enjoined by order of the Bankruptcy Court or estopped by provision of the Plan; and

(f) with respect to the Asbestos Insurance Company Injunction only, the rights of the Trust and the Debtors to assign a cause of action against an Asbestos Insurance Company that is not a Released Party to a claimant and for such claimant to assert any claim, debt, obligation or liability for payment against such Asbestos Insurance Company.

Notwithstanding any other provision of the Plan to the contrary, the satisfaction, release and discharge, and the Injunctions set forth in the Plan, shall not serve to satisfy, discharge, release or enjoin claims by any Entity against (i) the Trust for payment of Asbestos Related Claims and Demands in accordance with the TDP or (ii) the Trust for the payment of Trust Expenses.

(e) Exoneration and Reliance.

Subject to the limitations set forth in the Plan, neither the Plan Proponents nor any of their respective Agents shall be liable other than for willful misconduct to any holder of a Claim or Interest or any other Entity with respect to any action, omission, forbearance from action, decision or exercise of discretion taken at any time prior to the Effective Date in connection with: (a) the management or operation of the Debtors, or the discharge of their duties under the Bankruptcy Code; (b) the implementation of any of the transactions provided for, or contemplated in, the Plan Documents; (c) any action taken in connection with either the enforcement of any of the Debtors' rights against any Entities or the defense of Claims asserted against the Debtors with regard to the

Reorganization Cases; (d) any action taken in the negotiation, formulation, development, proposal, disclosure, Confirmation or implementation of the Plan Documents filed in the Reorganization Cases; or (e) the administration of the Plan or the Trust or the assets and property to be distributed pursuant to the Plan. The Plan Proponents, as well as their respective Agents, may reasonably rely upon the opinions of their respective counsel, accountants and other experts or professionals and such reliance, if reasonable, shall conclusively establish good faith and the absence of willful misconduct; provided, however, that a determination that such reliance is unreasonable shall not, by itself, constitute a determination or finding of bad faith or willful misconduct. The foregoing, however, shall not apply to pre-Petition Date activities except insofar as they relate to the negotiation and documentation of the Plan, the Plan documents, and the Disclosure Statement. Further, nothing contained in this section 8.4 shall be deemed to limit or otherwise impair the scope of the discharge and discharge injunction set forth in the Plan.

4.8 Matters Incident to Plan Confirmation.

(a) No Successor Liability.

Except as otherwise expressly provided in the Plan, the Plan Proponents and the TAC do not, pursuant to the Plan or otherwise, assume, agree to perform, pay or indemnify creditors or otherwise have any responsibilities for any liabilities or obligations of the Debtors relating to or arising out of the operations of or assets of the Debtors, whether arising prior to, on or after the Confirmation Date. Neither the Debtors nor the Trust shall have any successor or transferee liability of any kind or character, except that the Debtors and the Trust shall assume the obligations specified in the Plan and the Confirmation Order.

(b) Asbestos Insurance Actions.

Subject to the terms of the Plan, the Asbestos Insurance Actions (excluding any such actions against a Released Party) shall be preserved by the Debtors for prosecution by the Trust, at the direction and at the expense of the Trust. On or after the Effective Date, any compromise or settlement of any Asbestos Insurance Action shall require the consent of the Trust or, as applicable, the consent of the Futures Representative, the Committee and/or the TAC, as the case may be.

(c) Institution and Maintenance of Legal and Other Proceedings.

As of the Effective Date, the Trust shall be empowered to initiate, prosecute, defend and resolve all legal actions and other proceedings related to any asset, liability or responsibility of the Trust, except to the extent that any Settling Asbestos Insurance Company has been released. The Trust shall be empowered to initiate, prosecute, defend and resolve all such actions in the name of the Debtors if deemed necessary or appropriate by the Trustees. The Trust shall be responsible for the payment of all damages, awards, judgments, settlements, expenses, costs, fees and other charges incurred subsequent to Confirmation arising from or associated with any legal action or other proceeding and shall pay or reimburse all deductibles, retrospective premium adjustments or other charges that may arise from the receipt of insurance proceeds by the Trust. On the Effective Date, and except as otherwise provided in the Plan, the Trust shall have the right to enforce against any Entity any and all of the Debtors' causes of action, with the proceeds of the recovery of any such actions related to insurance for Asbestos Related Claims or Demands pending in the Bankruptcy Court to be paid to the Debtors subject to their obligations to the Trust under the Thorpe Business Loss Insurance Security and the Thorpe General Insurance Security and any contingency fee arrangements.

(d) Revesting.

Except as otherwise expressly provided in the Plan, on the Effective Date, each of the Debtors shall be revested with all of the assets and property of its former Estate, free and clear of all Claims, Liens, charges and other interests of holders of Claims or Demands, and may operate its business free of any restrictions imposed by the Bankruptcy Code, the Bankruptcy Court, or the guidelines of the Office of the U.S. Trustee. The Debtors may, subject to complying with applicable non-bankruptcy law, distribute to their shareholders after the Effective Date portions of the amounts received on account of the Thorpe Business Loss Security attributable to the Debtors; however, they shall, to the extent required by the Plan, retain sufficient cash in Technologies and Thorpe to continue to conduct their regular business. No distributions of cash necessary for operations (as defined by the Plan) shall be made to the Debtors' shareholders without prior notice to the Trust, the Futures Representative, the Committee and the TAC, with an opportunity to be

heard by such parties. If such parties object to a distribution, such objection shall be resolved by the Bankruptcy Court.

(e) Preservation of Insurance Claims.

Nothing in the terms of the Plan and the Plan Documents, the discharge of Holdings and Technologies, the Injunctions, and the Released Non-Debtor Parties' release, from all Asbestos Related Claims and Demands as provided in the Plan shall either diminish or impair the enforceability of any of the Asbestos Insurance Policies against a party that is not a Released Party. The Trust is, and shall be deemed to be, for all purposes, including but not limited to for purposes of insurance and indemnity, the successor to the Debtors in respect of Asbestos Related Claims and Demands. Each Allowed Asbestos Related Claim and Demand shall be, and be deemed to be, a judgment against the respective Debtor liable for such Claim and the Trust in the Allowed Amount of such Asbestos Related Claim or Demand, as the case may be, which Allowed Asbestos Related Claim and Demand as against the Debtor liable for such Claim shall be channeled to the Trust for payment and entitle the holder thereof solely to beneficiary status as against the Trust, and not to satisfaction of its Allowed Asbestos Related Claim or Demand against the properties or assets of the Debtors.

(f) Assumption of Nationwide agreement.

As of the Effective Date the Trust shall assume the Debtors' obligations to the Nationwide Parties under the Nationwide Settlement.

4.9 Retention of Jurisdiction.

Until the Reorganization Cases are closed, the Bankruptcy Court shall retain the fullest and most extensive jurisdiction permissible, including that necessary to ensure that the purposes and intent of the Plan are carried out.

Following Confirmation, the administration of the Reorganization Cases will continue at least until the completion of the transfers contemplated to be accomplished on the Effective Date. Moreover, the Trust shall be subject to the continuing jurisdiction of the Bankruptcy Court in accordance with the requirements of the Treasury Regulations issued pursuant to section 468B of the IRC. The failure by the Debtors to object to, or examine, any Claim, for the purposes of

voting, shall not be deemed a waiver of the right of the Debtors or the Trust, as the case may be, to object to or re-examine such Claim in whole or part.

In addition to the foregoing, the Bankruptcy Court shall, where consistent with the Plan and as necessary, retain jurisdiction for the specific purposes after Confirmation as set forth in Section 12.3 of the Plan.

4.10 Miscellaneous Provisions.

(a) Corporate Existence on and after the Effective Date.

Each of Thorpe, Technologies and Holdings shall continue to exist as a separate and distinct corporation.

Each of Thorpe, Technologies and Holdings shall continue to have all of the powers of a corporation under applicable law in the jurisdiction in which it is incorporated and pursuant to its articles or certificate of incorporation and bylaws in effect immediately prior to the Effective Date, including any right to terminate its existence under applicable law after the Effective Date, except to the extent such articles, certificate or bylaws are amended by the Plan.

Dissolved Thorpe shall continue to prosecute litigation against its insurance carriers and then continue to be wound up in accordance with the provisions of the Plan, the California Corporations Code and orders of the Superior Court of California for the County of Sacramento.

The directors of each of the Debtors immediately prior to the Effective Date shall continue to serve on and after the Effective Date in accordance with the articles or certificate of incorporation and bylaws of such Debtor, or in the case of Dissolved Thorpe pursuant to orders of the Superior Court.

The officers of Thorpe, Technologies and Holdings immediately prior to the Effective Date shall continue to serve on and after the Effective Date in accordance with any applicable employment agreement, the bylaws of such Debtor and applicable non-bankruptcy law.

The articles or certificate of incorporation and bylaws of each of Thorpe, Technologies and Holdings shall be amended as necessary to satisfy the provisions of the Plan and the Bankruptcy Code, including, pursuant to section 1123(a)(6) of the Bankruptcy Code, adoption of a provision

prohibiting the issuance of nonvoting equity securities, but only to the extent required by section 1123(a)(6) of the Bankruptcy Code.

(b) Transfer Taxes.

Pursuant to section 1146(c) of the Bankruptcy Code, the issuance, transfer or exchange of any of the securities issued under, or the transfer of any other assets or property pursuant to or in connection with, the Plan or the making or delivery of an instrument of transfer under or in connection with the Plan shall not be taxed under any law imposing a stamp tax, transfer tax or other similar tax or governmental assessment. Confirmation of the Plan shall constitute a direction to state and local governmental officials and agents to forego collection of any such tax or assessment and to accept for filing and recordation any instruments or documents issued in connection with the Plan, without the payment of any tax or governmental assessment.

(c) Recordable Order.

Upon Confirmation of the Plan, the Confirmation Order shall be deemed to be in recordable form, and shall be accepted by any recording officer for filing and recording purposes without further or additional orders, certifications or other supporting documents.

(d) Effectuating Documents and Further Transactions.

The Chief Executive Officer, President or any Vice President of any of the Debtors or, in the case of Dissolved Thorpe, any of its directors, shall be authorized to execute such documents and take or direct such actions as may be necessary or appropriate to effectuate and further evidence the terms and conditions of the Plan.

(e) The Committee and the Futures Representative.

Except as otherwise provided in this Section, the Committee and the Futures Representative shall continue in existence until the Effective Date. The Committee and the Futures Representative shall continue to be paid the fees and expenses from the Debtors or their estates. After the Effective Date, the Futures Representative shall continue in existence, and the rights, duties and responsibilities of the Futures Representative shall be as set forth in the Trust Documents. After the Effective Date, the duties of the Committee shall be limited to the prosecution and defense of any adversary proceeding and appeals to which the Committee is a party on the Effective Date and

to present fee applications. For all other purposes, the Committee will, on the Effective Date, be dissolved and the members, attorneys, accountants and other professionals thereof shall be released and discharged of and from all further authority, duties, responsibilities, liabilities and obligations related to, or arising from, the Reorganization Cases.

(f) Modification of the Plan.

The Plan Proponents may, under section 1127 of the Bankruptcy Code, propose amendments to or modifications of the Plan at any time prior to the Confirmation Date. After Confirmation, the Plan Proponents may remedy any defects or omissions or reconcile any inconsistencies in the Plan or the Confirmation Order or any other order entered for the purpose of implementing the Plan in such manner as may be necessary to carry out the purposes and intent of the Plan, so long as the interests of the holders of Claims, without such holder's consent, are not adversely affected relative to such holder's treatment under the Plan, and consistent with the terms of any Asbestos Insurance Settlement Agreement. Anything in the Plan or in any Plan Document to the contrary notwithstanding, following Confirmation and before "substantial consummation" of the Plan, no Plan Document shall be modified, supplemented, changed or amended in any material respect except with the written consent of the Plan Proponents (to the extent their appointment remains in effect). In the event of a conflict between the terms or provisions of the Plan and the Trust Documents, the terms of the Plan shall control over the terms of the Trust Documents.

(g) Revocation of the Plan.

The Plan Proponents each reserve the right to revoke and withdraw the Plan before the entry of the Confirmation Order. If any of the Plan Proponents revokes or withdraws the Plan, or if Confirmation does not occur, then, with respect to all parties in interest, the Plan shall be deemed null and void and nothing contained herein shall be deemed to constitute a waiver or release of any Claims by or against the Debtors or any other Entity or to prejudice in any manner the rights of the Debtors or such Entity in any further proceedings involving the Debtors.

//

//

SECTION 5.

CONFIRMATION OF THE PLAN

5.1 Acceptance or Rejection of the Plan.

(a) Persons Entitled to Vote on the Plan.

Pursuant to the provisions of the Bankruptcy Code, only Classes of Claims and Interests that are impaired under the terms and provisions of the Plan are entitled to vote to accept or reject the Plan. Generally speaking, under section 1124 of the Bankruptcy Code, a class of claims or interests is "impaired" under a plan of reorganization unless, with respect to each claim or interest in such class, the plan in question (i) leaves unaltered the legal, equitable and contractual rights to which such claim or interest entitles the holder of such claim or interest; or (ii) notwithstanding any contractual provision or applicable law that entitles the holder of such claim or interest to demand or receive accelerated payment of such claim or interest after the occurrence of a default, (a) cures any such default that occurred before or after the commencement of the case under the Bankruptcy Code, other than a default of the kind specified in section 365(b)(2) thereof, (b) reinstates the maturity of such claim or interest as such maturity existed before such default, (c) compensates the holder of such claim or interest for any damages incurred as a result of any reasonable reliance by such holder on such contractual provision or applicable law and (d) does not otherwise alter the legal, equitable or contractual rights to which such claim or interest entitles the holder of such claim or interest.

Under the Plan, Classes 1, 2, 3, 5-A and 5-C are unimpaired; therefore, the holders of Claims in such Classes are conclusively presumed pursuant to section 1126(f) of the Bankruptcy Code to have accepted the Plan. The Debtors will not solicit acceptances of the Plan from the holders of Claims in these Classes.

Classes 4, 5-B and 5-D are impaired. The holders of Claims in Class 4 and Interests in Class 5-D are entitled to vote to accept or reject the Plan. The Debtors believe that there are no holders of Class 5-B Interests. Further, in light of the fact that the Plan does not distribute any value to any class junior to Classes 5-B, the Plan can be confirmed without acceptance by the holders of Interests in Classes 5-B, under section 1129(b)(2)(c)(ii) of the Bankruptcy Code.

Therefore, the Debtors will not solicit the votes from the Class 5-B Interest Holders. Section 524(g) of the Bankruptcy Code permits supplementary injunctions to be issued which channel all Asbestos Related Claims into a trust if, among other things, at least 75 percent of the holders of Asbestos Related Claims actually voting, vote in favor of the plan of reorganization. Because the Claims of Class 4 are to be channeled into and addressed by the Trust, the Debtors are soliciting acceptances of the Plan from holders of Claims in this Class of the magnitude required by section 524(g). The votes of all holders of Asbestos Related Claims who submit a timely, valid ballot shall be counted. The dollar amount for voting purposes of unliquidated Asbestos Related Claims shall be determined as set out on the ballot for voting.

The Plan Proponents are also soliciting acceptances of the Plan from Class 5-D Interest Holders.

(b) Voting Procedures.

Holders of Asbestos Related Claims are encouraged to vote on the Plan.

Anyone who believes he or she has an Asbestos Related Claim against any of the Debtors and wishes to vote that claim in respect of the Plan may request a copy of a ballot from the Voting Agent, Nora Boghossian, Rutter Hobbs & Davidoff Incorporated 1901 Avenue of the Stars, Suite 1700, Los Angeles, CA. 90067; Tel (310) 286-1700; Fax (310) 286-1728; email: nboghossian@rutterhobbs.com(the "Voting Agent").

No proof of claim need be filed with the Bankruptcy Court to entitle a Class 4 Claim Holder to vote and voting is not a prerequisite to receiving a distribution on a Class 4 Claim from the Trust.

If one's name appears in the Schedules the Debtors filed with the Bankruptcy Court, one will receive a ballot even if he or she does not contact Ms.Boghossian. Such ballots shall be tabulated in the manner set forth therein.

The Bankruptcy Court has set 5:00 p.m. prevailing Pacific Time on May 12, 2005 as the deadline for the Voting Agent to receive a ballot. All ballots received thereafter will not be tabulated in determining whether the Plan has been accepted or rejected.

Ballots must be submitted to the Voting Agent by the Voting Deadline by either hand-delivery, U.S. Mail or other delivery service. Ballots may not be submitted to the Voting Agent by facsimile or email, and any ballots submitted by facsimile or email will not be considered.

Either a claimant or his or her attorney or may sign a ballot. If an attorney signs a ballot for a client, that signature shall constitute a declaration under penalty of perjury that, as to any fact that is not within the attorney's personal knowledge, the attorney's file concerning the client contains reliable information that the fact stated is true and correct and that the attorney is authorized to sign the client's ballot.

A ballot must be by or on behalf of one claimant. Neither master ballots nor class ballots will be counted.

(c) Class Acceptance Requirement.

Chapter 11 of the Bankruptcy Code does not require that each holder of a Claim or Interest vote in favor of the Plan for it to be confirmed by the Bankruptcy Court. Instead, the Bankruptcy Code defines acceptance of the Plan by a Class of Claims as acceptance by holders of at least two-thirds in amount and more than one half in number of the Allowed Claims of that Class actually voting on the Plan, excluding any holders of Claims designated pursuant to section 1126(e) of the Bankruptcy Code. Acceptance by a Class of Interests is defined as acceptance by holders of at least two-thirds in amount of the Allowed Interests of that Class actually voting on the Plan, excluding any holders of Interests designated pursuant to section 1126(e) of the Bankruptcy Code. Section 1126(e) provides that a vote may be disregarded if the Bankruptcy Court determines, after notice and a hearing, that an entity's acceptance or rejection of the plan was not in good faith, or was not solicited or procured in good faith, or in accordance with the provisions of the Bankruptcy Code.

(d) Acceptance Pursuant to Section 524(g) of the Bankruptcy Code.

The Plan Proponents believe that the circumstances of these Reorganization Cases support the grant of relief under Bankruptcy Code section 524(g). However, the Plan may be confirmed even if relief pursuant to Bankruptcy Code section 524(g) is not granted.

In accordance with section 524(g)(2)(B)(ii)(IV)(bb) of the Bankruptcy Code, supplementary injunctions may be issued if, among other things, holders of at least 75 percent of Asbestos Related Claims actually voting on the Plan vote in favor of the Plan.

5.2 Confirmation Hearing.

Section 1128(a) of the Bankruptcy Code requires the Bankruptcy Court, after notice, to hold a hearing on confirmation of a plan of reorganization. The hearing on confirmation of the Plan is scheduled for July 14, 2005 at 10:00 a.m. before the Honorable Sheri Bluebond, United States Bankruptcy Judge for the Central District of California, at 255 E. Temple St., Courtroom 1475, Los Angeles, California 90012. The Confirmation Hearing may be adjourned from time to time by the Bankruptcy Court without further notice except for an announcement of the adjourned date made at the Confirmation Hearing or any subsequent adjourned Confirmation Hearing.

Section 1128(b) of the Bankruptcy Code provides that any party in interest may object to confirmation of a plan of reorganization. Any objection to confirmation of the Plan must be in writing, must conform to the Bankruptcy Rules, must set forth the name of the objecting party, the nature and amount of Claims or Interests held or asserted by the objecting party against a Debtor or property, the basis for the objection and the specific grounds therefor, and must be filed with the Bankruptcy Court, together with proof of service thereof, and served upon (i) Rutter Hobbs & Davidoff Incorporated, 1901 Avenue of the Stars, Suite 1700, Los Angeles, CA 90067; Attn: Jeanne C. Wanlass, Esq.; (ii) Morgan Lewis & Bockius LLP, 300 South Grand Avenue, Los Angeles, California 90071-3132, Attn. Michel Y. Horton, Esq.; (iii) Sheppard, Mullin, Richter & Hampton, 4 Embarcadero Center, Suite 1700, San Francisco, CA 94111-2519, Attention: Michael H. Ahrens, Esq.; (iv) Fergus, a law firm, 595 Market Street, Suite 2430, San Francisco, CA 94105, Attn: Gary S. Fergus, Esq.; and (v) Office of the United States Trustee, 725 South Figueroa Street, 26th Floor, Los Angeles, CA 90017; so as to be received no later than the date and time for service of objections, as designated in the notice of the Confirmation Hearing.

5.3 Requirements for Confirmation.

(a) Consensual Confirmation under Section 1129(a) of the Bankruptcy Code.

At the Confirmation Hearing, the Bankruptcy Court will determine whether the requirements of Section 1129(a) of the Bankruptcy Code have been satisfied, in which event the Bankruptcy Court will issue and the District Court will affirm the Confirmation Order. Such requirements include, among others, that:

(i) the Plan complies with applicable provisions of the Bankruptcy Code;

(ii) the Debtors have complied with applicable provisions of the Bankruptcy Code;

(iii) the Plan has been proposed in good faith and not by any means forbidden by law;

(iv) any payment made or promised by the Debtors to any Person for services, costs or expenses in or in connection with the Reorganization Cases or the Plan has been approved by or is subject to approval by the Bankruptcy Court as reasonable;

(v) the Debtors have disclosed the identity and affiliations of any individual proposed to serve as a director or an officer of the Debtors after Confirmation of the Plan, and the appointment to, or continuance in, such office by such individual is consistent with the interests of the holders of Claims and Interests and with public policy;

(vi) the Plan is in the best interests of the holders of Claims and Interests; that is, each holder of an Allowed Claim or Allowed Interest either has accepted the Plan or will receive or retain on account of its Claim or Interest property of a value, as of the Effective Date, that is not less than the amount that such holder would receive or retain if the Debtors were liquidated under Chapter 7 of the Bankruptcy Code on the Effective Date;

(vii) each Class of Claims or Interests either has accepted the Plan or is not impaired under the Plan;

(viii) except to the extent that the holder of a particular Claim has agreed to a different treatment of such Claim, the Plan provides that Administrative Expenses will be paid in full on the Effective Date and that Priority Tax Claims either will be paid in full on the Effective

Date or will receive on account of such Claims deferred cash payments, over a period not exceeding six years after the date of assessment of such Claims, of a value, as of the Effective Date, equal to the Allowed Amount of such Claims;

(ix) at least one impaired Class of Claims has accepted the Plan, without regard to the votes of any insiders;

(x) the Plan is feasible; that is, Confirmation is not likely to be followed by the need for liquidation or further reorganization of the Debtor;

(xi) all fees payable under Section 1930 of title 28 of the United States Code have been paid on or prior to the Effective Date; and

(xii) the Plan provides for the continuation after the Effective Date of payment of all retiree benefits, as that term is defined in section 1114 of the Bankruptcy Code, without modification by the Plan, thereby complying with section 1114 of the Bankruptcy Code.

The Plan is the product of extensive arms-length negotiations and has been proposed in good faith. The Plan Proponents believe that the Plan satisfies all applicable requirements of section 1129(a) of the Bankruptcy Code. A discussion of the reasons the Plan Proponents believe the Plan satisfies certain of such requirements is set forth below, and the satisfaction of the remaining requirements of section 1129(a) of the Bankruptcy Code is, in the Plan Proponents' belief, self-explanatory and will be set out in the Plan Proponents' memorandum of points and authorities filed in support of Confirmation of the Plan.

(1) Best Interests Test.

Under the best interests test, the Plan may be confirmed if, with respect to each impaired Class of Claims or Interests, each holder of an allowed Claim or allowed Interest in such Class either (A) has accepted the Plan or (B) will receive or retain under the Plan, on account of its Claim or Interest, property of a value, as of the Effective Date, that is not less than the amount such holder would receive or retain if the Debtors were liquidated under Chapter 7 of the Bankruptcy Code.

To determine what the holders in each Class of Claims or Interests would receive if the Debtors were to be liquidated, the Bankruptcy Court must estimate the dollar amount that would

be generated from the liquidation of the Debtors' assets and properties in the context of a Chapter 7 liquidation case. The cash amount that would be available for satisfaction of the allowed Claims and allowed Interests of the Debtors would consist of the proceeds resulting from the disposition of the assets of the Debtors (including recovery of any voidable transfers net of litigation costs), augmented by the cash held by the Debtors at the time of the commencement of the Chapter 7 case. Such cash amount would be reduced by the costs and expenses of the liquidation and by any additional Administrative Claims and Priority Claims that would result from the termination of the Debtors' business and the use of a Chapter 7 proceeding for the purposes of liquidation.

Since the holders of all Claims, other than Asbestos Related Claims, will be paid in full on Plan Confirmation or paid as required by their agreement, or after an order allowing such Claim, by definition, the holders of such Claims will not receive less under the Plan than they would receive in a Chapter 7 liquidation.

As to Asbestos Related Claims, the non-insurance assets of the Debtors are but a small fragment of the amount of funds under just the Nationwide Settlement and the Federal Settlement, let alone in comparison to their other likely insurance coverage.

The Debtors believe that the distributions that would be made in a Chapter 7 case would be substantially smaller than the distributions contemplated by the Plan for two reasons. The key factor is that, in a Chapter 7 case, the Nationwide Parties, the Federal Parties and any other Settling Asbestos Insurance Companies would not get the benefit of the section 524(g) and/or § 105 injunctions or a plan provision, binding on the Trust, waiving claims against Federal, which would, at this point, result in the forfeiture of a $500,000 payment from Nationwide and no settlement with Federal. Moreover, with the Trust funded as contemplated by the Plan, the Trustees will be in a position to pursue Asbestos Insurance Actions against carriers that have not settled.

The Plan Proponents therefore believe that the Plan is in the best interests of all holders of Claims and Interests.

(2) Feasibility of the Plan.

For the Plan to be confirmed, the Bankruptcy Court also must determine that the Plan is feasible – that is, that the need for further reorganization or a subsequent liquidation of the Debtors is not likely to result following Confirmation of the Plan.

Under the Plan, Holdings and Technologies will be discharged from Claims, and the Debtors will receive an injunction against further prosecution of Claims against them, including Asbestos Related Claims, and their operations will otherwise continue after Confirmation of the Plan undisturbed by the Reorganization Cases. The only operations of Dissolved Thorpe after the Effective Date shall be to continue to prosecute the Asbestos Insurance Actions, as requested by the Trust, and the expenses for which shall be paid for by the Trust. The operations of Thorpe after the Effective Date shall be to continue to prosecute the Asbestos Insurance Actions as requested by the Trust, and to assist the Trust as requested in carrying out its duties, the expenses for which shall be paid for by the Trust. The costs and expenses for post-Effective Date Operations of Holdings shall be paid for by Technologies. Technologies shall after the Effective Date continue in operation of its current business. Technologies' ongoing obligations under the Plan are: (i) to convey to the Trust any Insurance Action Recoveries for Asbestos Related Claims as set forth in the Plan; (ii) to permit the Class 3(b) Claimant to proceed against Technologies' insurance policies; (iii) the payment of trade claims incurred in the ordinary course of business, which are paid as they become due; (iv) payment of the $900,000 note to Global, or the assignee thereof, over thirty six months in the event that the Court does not approve the APA to Global as set forth in Section 3.3 hereof; and (v) the obligations of Technologies and Holdings to pay the Holdings Note of $500,000 promissory note to the Trust at the rate of $100,000 per annum together with interest at the prime rate from time to time. Attached hereto as Exhibit 10 are projections of Technologies establishing that in the event that the Court does not approve the APA, Technologies should be able to pay the Global note as well as the Holdings Note.

The Debtors therefore believe that the Plan is feasible.

//

//

(b) Nonconsensual Confirmation under Section 1129(b) of the Bankruptcy Code.

Although Section 1129(a)(8) of the Bankruptcy Code requires that a plan of reorganization be accepted by each class that is impaired by such plan, Section 1129(b) of the Bankruptcy Code provides that the Bankruptcy Court may still confirm the Plan at the request of the Debtors if all the requirements of Section 1129(a) other than Section 1129(a)(8) are met and if, with respect to each Class of Claims or Interests that is impaired under the Plan and has not voted to accept the Plan, the Plan "does not discriminate unfairly" and is "fair and equitable." A plan confirmed on the basis of this provision is commonly referred to as a "cramdown" plan. A cramdown plan is only available pursuant to Section 1129(a)(10) of the Bankruptcy Code if at least one impaired class of claims accepts the plan.

In this case, the Debtors will not attempt to "cramdown" the Plan if it is not accepted by Class 4. The Debtors believe that there are no holders of Class 5-B Interests, and therefore, the Debtors will not attempt to obtain acceptances of the Plan from this Class and will "cramdown" the Plan with regard to this Class. The Debtors are certain that the holders of Class 5-D Interests will accept the Plan. Thus, further discussion of the cramdown requirements are not necessary.

(c) Injunctions.

Section 524(g) of the Bankruptcy Code authorizes the Bankruptcy Court to enjoin Entities from taking action to collect, recover or receive payment or recovery with respect to any Claim or Demand that is to be paid in whole or in part by a trust created by a plan of reorganization that satisfies the requirements of the Code. The injunction may also bar any action based on such Claims or Demands against the Debtors that is directed at third parties.

To obtain the injunction, a trust must be established that (i) assumes the Debtors' Asbestos Related Claims, (ii) is funded in whole or in part by securities of one or more of the Debtors and with an obligation by such Debtors to make future payments, (iii) owns, or is entitled to own if specific contingencies occur, a majority of the voting shares of each Debtor or the parent corporation of each Debtor, and (iv) uses its assets or income to satisfy claims and demands.

As a requirement before issuing an injunction under section 524(g) of the Bankruptcy Code, the Bankruptcy Court must determine that (i) the Debtors are likely to be subject to

substantial Demands for payment arising out of the same or similar conduct or events that gave rise to the Asbestos Related Claims that are addressed by the injunction, (ii) the actual amounts, numbers and timing of such Demands cannot be determined, (iii) pursuit of such Demands outside the procedures prescribed by the Plan is likely to threaten the Plan's purpose to deal equitably with Claims and Demands, and (iv) the Trust will operate through mechanisms such as structural, periodic or supplemental payments, pro rata distributions, matrices or periodic reviews of estimates of the numbers and values of Claims and Demands, or other comparable mechanisms that provide reasonable assurance that the Trust will value, and be in a financial position to pay, Claims and Demands that involve similar Claims in substantially the same manner.

The Bankruptcy Court must also insure that the terms of any proposed section 524(g) injunction are set forth in the Plan and Disclosure Statement and that 75 percent of the Asbestos Related Claimants actually voting vote to approve the Plan. Moreover, the injunction will be valid and enforceable as to future claimants only if a legal representative is appointed to protect their rights in the proceedings and if the court determines that applying the injunction to future claimants in favor of the beneficiaries of the injunction would be fair and equitable with respect to the Persons that might subsequently assert such Demands, in light of the benefits provided, or to be provided, to the trust on behalf of the Debtors or a beneficiary of the third-party injunction.

The order confirming the Plan must be issued or affirmed by the United States District Court for the Central District of California, which has jurisdiction over the Reorganization Cases. After expiration of the time for appeal of the order, the injunction will become valid and enforceable.

The Debtors believe that they will be able to satisfy the requirements of section 524(g) of the Bankruptcy Code, so long as the requisite number of Asbestos Related Claimants vote in favor of the Plan.

Under the jurisdictional scheme applicable to bankruptcy courts, jurisdiction over bankruptcy cases and proceedings arising under the Bankruptcy Code or arising in or related to bankruptcy cases is vested in the United States District Courts. However, the District Courts may

refer them to the bankruptcy judges of the district. In most districts, the District Court has entered a standing order referring all such matters to the bankruptcy judges.

In the Central District of California, the District Court has a standing order referring all bankruptcy cases to the Bankruptcy Court. Because section 524(g) requires, however, that any confirmation order containing a supplemental injunction must be issued or affirmed by the District Court, the bankruptcy judge can conduct the Confirmation Hearing and enter the Confirmation Order, but the section 524(g) injunctions will not be enforceable until the Confirmation Order is affirmed by a district judge.

Section 105(a) of the Bankruptcy Code provides that the court may issue any order, process or judgment necessary or appropriate to carry out provisions of the Bankruptcy Code. The Injunctions will issue under section 105(a) as supplemental and additional to the court's power under section 524(g).

5.4 Conditions to Confirmation and Conditions for Effective Date.

(a) Conditions to Confirmation.

Subject to the fact that any of the following conditions may be waived, in writing, by all of the Plan Proponents, Confirmation of the Plan shall not occur unless:

(1) the Bankruptcy Court shall make such findings, determinations and orders, among others, in substantially the following form:

(i) the Channeling Injunction, the Supplemental Injunction and the Asbestos Insurance Company Injunction are to be implemented in connection with the Trust;

(ii) as of the Thorpe Petition Date, Thorpe had been named as a defendant in personal injury or wrongful death actions seeking recovery for damages allegedly caused by the presence of, or exposure to, asbestos or asbestos-containing products or operations and as of the Other Debtors Petition Date, each of Dissolved Thorpe, Technologies and Holdings had been named as a defendant in personal injury or wrongful death actions seeking recovery for damages allegedly caused by the presence of, or exposure to, asbestos or asbestos-containing products or operations;

(iii) the Trust shall be funded by whole or in part by the securities of one or more of the Debtors and the obligation of one or more of such Debtors to make future payments;

(iv) the Trust, upon the Effective Date, shall assume the liabilities of each of the Debtors with respect to Asbestos Related Claims;

(v) the Trust, on the Effective Date, will own all of the voting shares of Dissolved Thorpe and, upon the occurrence of specified contingencies, shall be entitled to own 51 percent of the shares of Holdings;

(vi) the Trust is to use its assets and income to pay Asbestos Related Claims and to perform any and all other Trust duties and obligations as set forth in the Plan and in the Trust Agreement;

(vii) each of the Debtors is likely to be subject to substantial future Demands for payment arising out of the same or similar conduct or events that gave rise to the Asbestos Related Claims, which are addressed by the Injunctions;

(viii) the actual amounts, numbers and timing of future Demands cannot be determined;

(ix) pursuit of Demands outside the procedures prescribed by the Plan is likely to threaten the Plan's purpose to deal equitably with Claims and future Demands;

(x) the terms of the Injunctions, including any provisions barring actions against third parties, are set out in the Plan and in the Disclosure Statement;

(xi) pursuant to court orders or otherwise, the Trust shall operate through mechanisms such as structured, periodic or supplemental payments, pro rata distributions, matrices or periodic review of estimates of the numbers and values of Asbestos Related Claims and Demands or other comparable mechanisms, that provide reasonable assurance that the Trust shall value, and be in a financial position to pay, Asbestos Related Claims and Demands that involve similar Asbestos Related Claims and Demands in substantially the same manner;

(xii) the Futures Representative was appointed by the Bankruptcy Court as part of the proceedings leading to the issuance of the Injunctions for the purpose of protecting

Case 02-10304-BDC Doc 1471 Filed 03/07/05 Entered 03/08/05 15:20:00 Desc Main Document Page 76 of 100

the rights of persons who might assert Demands of the kind described as Asbestos Related Claims, which are to be paid by the Trust subsequent to Confirmation of the Plan and which are addressed in the Injunctions;

(xiii) in light of the benefits provided, or to be provided, to the Trust on behalf of each Released Party, the Channeling Injunction is fair and equitable with respect to the persons who might subsequently assert Demands against any Released Party;

(xiv) in light of the benefits provided, or to be provided, to the Trust on behalf of each Settling Asbestos Insurance Company, the Supplemental Injunction is fair and equitable with respect to the persons who might subsequently assert Demands against any Settling Asbestos Insurance Company;

(xv) in relation to the grant of the Injunctions, there are appropriately unusual circumstances relevant to the Bankruptcy Court's exercise of power under Bankruptcy Code section 105(a), namely, (i) there is an identity of interests between the Debtors and the Settling Asbestos Insurance Companies, such that any suit against the latter is, in essence, a suit against the Debtors or could deplete the assets of the Estate; (ii) the Settling Asbestos Insurance Companies have contributed substantial assets to the reorganization; (iii) the release of, and injunction in respect of, the Settling Asbestos Insurance Companies are essential to reorganization, namely, the reorganization hinges on the Debtors being free from indirect suits against the Settling Asbestos Insurance Companies (who would not otherwise have made the contributions made to the Trust and, thus, the Estate); (iv) the impacted Asbestos Related Claimants have voted by a requisite majority to accept the Plan; and (v) the Plan provides an opportunity for those Asbestos Related Claimants who choose to submit to non-binding arbitration after rejecting the Trust's proposed liquidation of their Claims and then choose to resort to the tort system to liquidate their Claims after not being satisfied by the arbitrator's award, with the liquidated amount provided by the tort system to be paid to the extent, in the manner and subject to the caps and collars provided for in the TDP or, alternatively, choose to accept a reduced partial payment from the Trust and liquidate their Claims through the tort system to be paid to the extent, in the manner and subject to the caps and collars provided for in the TDP;

(xvi) The Confirmation Order shall contain a release of the Nationwide Parties and the Federal Parties as set forth in the Plan ; and

(xvii) the Plan otherwise complies with section 524(g) of the Bankruptcy Code; or

(2) the Bankruptcy Court shall issue a Confirmation Order which contains:

(i) a Channeling Injunction, a Supplemental Injunction and an Asbestos Insurance Company Injunction pursuant to Bankruptcy Code section 524(g) in favor of the Federal Parties substantially in the same terms as Section 9.3 of the Plan; or

(ii) a Channeling Injunction, a Supplemental Injunction and an Asbestos Insurance Company Injunction pursuant to Bankruptcy Code section 105 in favor of the Federal Parties substantially in the same terms as Section 9.3 of the Plan; or

(iii) a provision that the Debtors' waiver (which waiver shall be executed by the Debtors) of all contractual, extra contractual and other claims that they may have against the Federal Parties, which waiver shall include a waiver of all claims to be released in accordance with the Federal Settlement, is binding upon the Trust.

(b) Conditions to Effectiveness.

Notwithstanding any other provision of the Plan or the Confirmation Order, the Effective Date of the Plan shall not occur unless and until each of the following conditions has been satisfied or, with respect to subsections (1), (2) and (4) below, waived, in writing, by each of the Plan Proponents.

(1) Confirmation Order.

The Confirmation Order shall have been issued or affirmed by the District Court, and the Confirmation Order is not stayed pending appeal.

(2) Plan Documents.

The Plan Documents necessary or appropriate to implement the Plan shall have been executed, delivered and, where applicable, filed with the appropriate Governmental Unit.

//

//

(3) United States Trustee's Fees.

The fees of the United States Trustee then owing by the Debtors shall have been paid in full.

(4) Qualified Settlement Fund.

The Debtors shall have obtained an opinion of counsel that the Trust will be a "qualified settlement fund" within the meaning of the Treasury Regulations issued pursuant to section 468(B) of the IRC, deemed satisfactory to each of the Plan Proponents.

5.5 Effect of Confirmation.

Upon the Bankruptcy Court's entry of the Confirmation Order (and the affirmation thereof by the District Court as required by section 524(g) of the Bankruptcy Code, but, only to the extent that the Bankruptcy Court grants relief pursuant to section 524(g)), and assuming the Effective Date occurs, the Plan will be binding upon the Debtors, all holders of Claims and Interests and all other parties in interest, regardless of whether they have accepted the Plan.

5.6 Post-Confirmation Management

Following confirmation, John Allen and Thomas Carpenter will continue as the directors and officers of Thorpe, Technologies and Holdings. John Allen will continue as a director of Dissolved Thorpe.

John Allen received his AB, BE and MBA degrees from Dartmouth College. He is a Registered Professional Engineer and holds a California General Engineering Contracting License. He has been associated with the Debtors since 1970 and has worked as a Project Manager, Sales Engineer, and Vice President of Dissolved Thorpe as well as President of Technologies and Chief Executive Officer and Chairman of the Board of Holdings. Mr. Allen also owns a 51% interest in Holdings.

Thomas Carpenter received his BA from Brigham Young University. He is currently employed by Technologies as its Controller, Treasurer and serves as its Secretary/Treasurer. He previously was employed by the State of California Board of Equalization as a Sales Tax Auditor, by Diehl Evans as a Senior Auditor, by Cummins Diesel Engines as an Internal Auditor and by Trust Joist as Controller. Mr. Carpenter owns a 22% interest in Holdings.

5.7 Closing And Reopening Of Reorganization Cases.

The Reorganization Cases may be closed notwithstanding the continuing reservation of jurisdiction over certain issues arising under the Trust. Upon closure of the Reorganization Cases, all quarterly and annual reports that are to be filed with the Bankruptcy Court under the terms of the Trust Agreement shall instead be filed with the Office of the United States Trustee.

SECTION 6.

TRUST AND ASBESTOS RELATED CLAIMS RESOLUTION MATTERS

THE FOLLOWING IS A SUMMARY OF CERTAIN SIGNIFICANT FEATURES OF THE TRUST. THIS SUMMARY IS QUALIFIED IN ITS ENTIRETY BY REFERENCE TO THE COMPLETE TEXT OF THE TRUST DOCUMENTS AND THE PLAN.

6.1 Establishment and Purpose of the Trust.

On the Effective Date, the Trust shall be established in accordance with the Plan Documents. Prior to the Effective Date, the Trustees shall decide on the principal office and the jurisdiction of organization for the Trust. The Trust shall be a "qualified settlement fund" within the meaning of the Treasury Regulations issued pursuant to section 468B of the IRC. The purpose of the Trust shall be, among other things, to (a) liquidate, resolve, pay, and satisfy all Asbestos Related Claims in accordance with the Plan, the TDP and the Confirmation Order; (b) preserve, hold, manage and maximize the Trust Assets for use in paying and satisfying Allowed Asbestos Related Claims; (c) prosecute, settle and manage the disposition of the Asbestos In-Place Insurance Coverage; and (d) prosecute, settle and manage Asbestos Insurance Actions. The TDP shall provide for the liquidation and payment or the outright rejection or denial of Asbestos Related Claims in accordance with the terms of the Plan Documents.

Asbestos Insurance Claimants claim to have direct claims as to some of the Debtors or derivative claims as to others of the Debtors. A single Trust will minimize the expenses of Trust administration and make certain that similarly situated Asbestos Related Claimants will be treated in a substantially similar manner. The single Trust structure has been used in other confirmed and

court approved asbestos related bankruptcies. The Plan Proponents believe that a single Trust is in the best interests of present and future Asbestos Related Claimants.

6.2 Receipt of Trust Assets.

On the Effective Date, all Trust Assets shall be transferred to, vested in and assumed by the Trust; provided, however, that to the extent that certain Trust Assets, because of their nature or because they will accrue subsequent to the Effective Date, cannot be transferred to, vested in and assumed by the Trust on the Effective Date, such Trust Assets shall be transferred to, vested in and assumed by the Trust as soon as practicable after the Effective Date.

6.3 Discharge of Liabilities to Holders of Asbestos Related Claims.

Except as provided in the Plan Documents and Confirmation Order, the transfer to, vesting in, and assumption by the Trust of the Trust Assets as contemplated by the Plan, among other things, shall discharge Holdings and Technologies, enjoin further proceedings against the Debtors and release the Released Parties other than the Debtors from and in respect of all Asbestos Related Claims. The Trust shall assume the Debtors' liabilities for all Asbestos Related Claims.

6.4 Excess Trust Assets.

To the extent there are any Trust Assets remaining after the payment, in full, of all Allowed Asbestos Related Claims and the payment, in full, of all Trust Expenses, such excess Trust Assets shall be transferred, in accordance with Section 7.2(b) of the Trust Agreement, to such charitable purposes as the Trustees, in their reasonable discretion, shall determine; provided, however, that such charitable purposes, if practicable, shall be related to the treatment of, research regarding or contributions to another trust responsible for the payment of claims related to asbestos-caused disorders.

6.5 Trust Expenses.

The Trust shall pay all Trust Expenses and Professional Fees from the Trust Assets. None of the Released Parties shall have any obligation to pay any Trust Expenses or Professional Fees.

6.6 Selection of the Initial Trustees.

The three initial Trustees of the Trust shall be selected by the Committee and the Futures Representative (with the Futures Representative at all times having veto power with respect to any

proposed initial Trustee) on or before the Effective Date. If the Committee and the Futures Representative cannot agree on the three initial Trustees of the Trust, the Bankruptcy Court shall resolve any dispute. All successor Trustees shall be appointed in accordance with the terms of the Trust Agreement.

6.7 The Futures Representative.

The Futures Representative shall serve as the Futures Representative pursuant to Article 5 of the Trust Agreement, on and after the Effective Date, and shall have the functions and rights provided in the Trust Documents. Prior to the Effective Date, the Futures Representative shall have the functions, rights and obligations asset forth in the Bankruptcy Code.

6.8 Trust Advisory Committee.

The five-member TAC shall have the functions and rights provided in the Trust Documents. On or before the Confirmation Date, the TAC shall be selected by the Committee and appointed to serve from and after the Effective Date pursuant to the terms of the Plan Documents and the Confirmation Order.

6.9 Trust Obligations to Assist Defense of the Injunctions.

The Trust and, to the extent necessary for the Trust to act, the Trustees, shall cooperate as set forth in the Plan with and assist any Released Party, at the request of any such Released Party, to resist and oppose any Entity claiming a right against any Released Party in violation of any of the Injunctions.

6.10 Assumption of Liabilities by the Trust.

Pursuant to Section 1.4 of the Trust Agreement, on the Effective Date, the Trustees on behalf of the Trust will expressly assume all liability arising from or related to Asbestos Related Claims and all other obligations owed by the Debtors or their respective successors under applicable law or under any agreement related to any Asbestos Related Claim.

6.11 Indemnification of the Debtors by the Trust.

Each Debtor, its successors in interest and its Affiliates shall be entitled to indemnification from the Trust for any expenses, costs and fees (including attorneys' fees and costs but excluding any such expenses, costs and fees incurred prior to that Debtor's respective Petition Date),

judgments, settlements or other liabilities arising from or incurred in connection with any action related to an Asbestos Related Claim, including, but not limited to, indemnification or contribution for Asbestos Related Claims prosecuted against the Debtor.

6.12 Assignment of Direct Actions to the Trust.

Each holder of an Asbestos Related Claim shall be deemed to have assigned to the Trust, to the extent possible without diminishing or impairing any part of such Direct Actions, and the Trust shall be deemed such holder's sole attorney in fact, as may be appropriate, to prosecute, at the Trust's sole discretion, any Direct Action, other than against a Released Party. If any part of a Direct Action cannot be assigned to the Trust without diminishing or impairing rights against insurers, the holder of such a Direct Action will retain whatever rights are necessary to preserve Direct Actions against an insurer that is not a Settling Asbestos Insurance Company and agrees to cooperate with the Trust as such holder's sole attorney in fact to prosecute in the Trust's sole discretion, any Direct Action, other than against a Released Party. In the event that the Trust prosecutes a Direct Action as attorney in fact on behalf of a holder of an Asbestos Related Claim, any proceeds of such Direct Action will be assigned to the Trust. The Trust may reassign such Direct Action or the proceeds of such Direct Action, other than any Direct Action against a Released Party, to such holder at any time so long as (a) the Trustees, with the consent of the Futures Representative, determine in their reasonable discretion that reassignment of such Direct Action or proceeds provides a substantial benefit to the Trust as a whole, and not merely a benefit to the holder of the Asbestos Related Claim, (b) the retention of all or part of the benefit by the holder of the Asbestos Related Claim of any settlement or judgment arising from the Direct Action is subsequently approved by the Bankruptcy Court as reasonable and appropriate in light of all of the circumstances, including the benefit actually received by the Trust as a result of the activities of the holder of the Asbestos Related Claim in the Direct Action, and (c) the Trust retains any residual benefits from such Direct Action.

//

//

//

6.13 Distributions pursuant to the TDP.

(a) Trust Goals.

The goal of the Trust is to pay all claimants the same percentage of their liquidated Asbestos Related Claims, whether the Asbestos Related Claims were liquidated before the Effective Date or will be liquidated after the Effective Date. The TDP, attached to the Plan as Exhibit 4, furthers that goal by setting forth procedures for processing and paying claims generally on an impartial, first-in-first-out ("FIFO") basis, with the intention of paying all claimants over time as equivalent a share as possible of the value of their claims based on historical values for substantially similar claims in the tort system. To this end, the TDP establishes for unliquidated claims in the Case Valuation Matrix (the "Matrix"), attached to the Plan as Exhibit 5 a schedule of five asbestos-related diseases (the "Compensable Diseases"), which have presumptive medical and exposure requirements (the "Medical/Exposure Criteria"), criteria for establishing liquidated values (the "Matrix Values"), anticipated average values (the "Average Values"), and caps on liquidated values ("Maximum Values"). The Compensable Diseases, Medical/Exposure Criteria, Matrix Values, Average Values and Maximum Values, which are set forth in the Matrix, have all been selected and derived with the intention of achieving a fair allocation of the Trust funds as among claimants suffering from different disease processes in light of the best available information, considering the settlement history of the Debtors and the rights claimants would have in the tort system absent the bankruptcy.

These disease criteria have been used in another confirmed and court approved asbestos related bankruptcy. *In re Western Asbestos, 2004 WL 1944792 (N.D.Cal.).* They generally reflect the disease categories and criteria that exist in the tort system as asbestos cases that have been settled and tried in California. Because the asbestos victims have direct claims against some of the debtors and derivative claims against other debtors arising from the same exposure, using the same disease criteria and values for all claimants assures more evenhanded treatment among claimants past and future. The tort system results do not reflect material differences between direct and derivative claims for the same exposures. There is some historical data for settlements with Thorpe. Dr. Peterson has used that data in his estimation of aggregate liability. (See Section 7.2

below). Because the historical settlement data does not reflect current settlement values, these values had to be adjusted by Plan Proponents based upon current trends in settlements for refractory defendants. Thorpe filed for Bankruptcy in 2002 and the only settlements that exist pre-date the filing. The pre-filing settlements were adjusted by settlement values and trends for other defendants that occurred in 2002 and thereafter.

The Plan Proponents reserve the right to change the terms of the TDP and the Matrix at anytime prior to the conclusion of the Confirmation Hearing. In connection with the Confirmation Hearing, to the extent there are any modifications, the Plan Proponents will file with the Court the modified TDP and/or modified Matrix and will request that the Court approve such documents as part of the plan confirmation process. A copy of the current version of the TDP is attached as Exhibit 4 to the Plan. The Trust Agreement is attached as Exhibit 2 to the Plan. A copy of the current version of the Matrix is attached to the Plan as Exhibit 5. In addition to the TDP and Matrix, the Plan Proponents reserve a similar right with respect to each of the Plan Documents.

The Matrix was designed to yield average values for current and future cases that matched the historical averages for a given disease in the jurisdictions in which the Debtors historically had been sued. The TDP also provides mechanisms for the treatment and payment of Pre-Confirmation Liquidated Claims (defined in Section 4.7 above). Claims that have not been liquidated pursuant to the Pre-Confirmation Claims Process will be valued in accordance with the Matrix Values of the TDP. The Average Values contained in the matrices of the TDP range in value from $150,000 to $3,000. All claims must be liquidated before they can be paid. The Plan contemplates payments to holders of Pre-Confirmation Liquidated Claims shortly after the Effective Date. Unliquidated Claims cannot be paid until after the Trust established by the Plan has determined a liquidated value for those claims. Some of the Insurers assert that the TDP may violate the insurers' contractual right to investigate claims and participate in or control the defense of claims, and, as a result, these insurers assert that the Insurers may have no obligation to pay claims that are liquidated pursuant to the TDP.

//

//

(b) Trust Claim Liquidation Procedures.

Claims not liquidated prior to the Effective Date cannot be paid until after the Trust established by the Plan has determined a liquidated value for those claims. A Trust claim form will be created with the consent of the TAC and Futures Representative. Section VI of the TDP outlines the process by which the Trust claim form materials will be created and establishes minimum requirements for the claim form to ensure conformity with the manner and requirements used to liquidate Pre-Confirmation Liquidated Claims. The Trust claim form will require certain information including: the information contained in standard interrogatory answers to establish personal data, smoking history and occupational history; medical reports and/or death certificates to establish diagnosis of the asbestos related disease; economic reports to establish the level of wage and pension loss; medical bills; the face page of the complaint or equivalent proof of commencement of litigation; and social security records to verify work history. All claimants the Trust is aware of as of the Effective Date who allege that they have an Asbestos Related Claim or Demand against the Debtors will be sent such a claim form by the Trust and will be invited to complete the claim form and submit it to the Trust.

The Trust will order all submitted unliquidated Trust claims for processing purposes on a first-in-first-out (i.e., FIFO) basis except as otherwise provided in the TDP (the "FIFO Processing Queue"). For all claims filed on or before the date six months after the Effective Date (the "Initial Claims Filing Date"), a claimant's position in the FIFO Processing Queue shall be determined as of the earlier of: (i) the date prior to the Thorpe Petition Date that the specific claim was either served or filed against Thorpe in a court in which Thorpe could properly have been sued; (ii) the date prior to the Thorpe Petition Date that a claim was filed or served against another defendant in the tort system if at the time the claim was subject to a tolling agreement with Thorpe; (iii) the date after the Thorpe Petition Date but before the Effective Date that the claim was filed or served against another defendant in a court in which Thorpe could properly have been sued; or (iv) the date after the Effective Date but on or before the Initial Claims Filing Date that the claim was filed with the Trust. Following the Initial Claims Filing Date, the claimant's position in the FIFO Processing Queue shall be determined by the date the claim was served or filed with the Trust. For

all claims filed on the same date, the claimant's position in the FIFO Processing Queue shall be determined by the date of the diagnosis of the asbestos-related disease.

The information and documentation required to be provided in the Trust claim form will permit the Trust to determine whether a submitted claim meets the presumptive Medical/Exposure Criteria required under the Matrix. The Trust shall liquidate all claims submitted to the Trust that meet the presumptive Medical/Exposure Criteria in accordance with the Matrix, and shall reject all claims that do not meet such requirements, subject to the Trust's Individual Review Process described in the Matrix.

As set forth in the prior section of this Disclosure Statement, the Plan Proponents reserve the right to change the terms of the TDP and the Matrix at any time prior to the conclusion of the Confirmation Hearing. [See, Disclosure Statement, paragraph 6.13(a)] One of the changes that may be made to the Matrix by the Plan Proponents is to lessen the exposure criteria contained in the present draft of the Matrix attached to the Plan. Paragraph VII(d) of the Matrix sets forth the Minimum Exposure Criteria. The Plan Proponents may change the Exposure Criteria as follows: (a) an Injured Person filing a claim as a Mesothelioma case must establish that the Injured Person's asbestos exposure at approved Thorpe sites totals at least one month or at least 10% of the Injured Person's total asbestos exposure, as opposed to the three months requirement in the existing Matrix; and, (b) an Injured Person filing any other Compensable Disease category must establish that the Injured Person's asbestos exposure at approved Thorpe sites totals at least three months or at least 25% of the Injured Person's total asbestos exposure, as opposed to the one year requirement in the existing Matrix.

The Matrix is designed to produce an average allowed value for claims with each disease in each state that closely approximates the historic average values of claims against the Debtors of year 2002 (*i.e.*, the year Thorpe filed its bankruptcy petition), which Average Values are reported in the table below:

//

//

//

Settlement Average by Disease	
Mesothelioma	$150,000
Lung Cancer	$40,000
Other Cancer	$25,000
Pleural Disease	$10,000
Asbestosis	$3,000

These Average Values are derived from Thorpe's actual settlements, primarily among settlements reached prior to 2002. Because the values of asbestos settlements have increased markedly generally among asbestos defendants since 2002, Thorpe's pre-2002 settlements have been adjusted to reflect this increase. Thorpe's historic averages were increased by the rate at which settlements among other refractory contractors increased from the period prior to the 2002 period. The resulting Average Values, which are reported on the table above, are the expected amounts that Thorpe would have paid on average in 2002 to settle the various asbestos disease claims.

Claimants who do not meet the presumptive Medical/Exposure Criteria for the relevant Compensable Disease can pursue the Trust's Individual Review Process described in the Matrix. If the Trust is satisfied that the claimant has presented a claim that would be cognizable, valid and compensable in the tort system, the Trust can offer the claimant an amount up to the Average Value as defined in the Matrix of that Compensable Disease, notwithstanding that the claim does not meet the presumptive Medical/Exposure Criteria for the relevant Compensable Disease.

All unresolved disputes over a claimant's medical condition, exposure history and/or the liquidated value of the claim shall be subject to binding or non-binding arbitration, at the election of the claimant, under the Arbitration Rules. Disputes with the Trust that cannot be resolved by non-binding arbitration may enter the tort system as provided in Section 5.10 and 7.3 of the TDP. However, if and when such a claimant obtains a judgment in the tort system, the judgment will be payable (subject to the Payment Percentage, Maximum Annual Payment and Claims Payment

Ratio provisions set forth below) as provided in Section 7.4 of the TDP. Similarly, a holder of an Asbestos Related Claim may pursue such claim in the tort system pursuant to Section 5.11 of the TDP without first having pursued non-binding arbitration, with such holder to be paid to the extent, in the manner and subject to the caps and collars provided for in the TDP.

(c) Trust Application of the Payment Percentage.

After the liquidated value of a Trust Claim is determined, the claimant will ultimately receive a pro-rata share of that value based on a Payment Percentage calculated as described in Section 4.2 of the TDP. The estimated Initial Payment Percentage is calculated taking into account the assets available to the Trust as a result of the Nationwide Settlement and the Federal Settlement less estimates for the cost of Trust administration, claims administration and contingencies as well as assumptions about interest rates and the rate of inflation, such that similar claims are treated in substantially the same manner. The Initial Payment Percentage will be set prior to the Confirmation Date by agreement between the Committee and the Futures Representative, and if no agreement is reached, by the Bankruptcy Court. Any determination by the Bankruptcy Court will be on a motion by the Committee, the Futures Representative or the Debtors, to be heard either before or concurrent with the Confirmation Hearing. The Payment Percentage may be adjusted upwards or downwards from time to time by the Trust with the consent of the TAC and the Futures Representative to reflect then current estimates of the Trust's assets and its liabilities, as well as the estimated value of then pending and future claims. The Payment Percentage will be reviewed in the first year of the Trust to ascertain whether the Initial Payment Percentage is still accurate. Thereafter, no less frequently than every three years, or sooner if requested by the TAC or the Futures Representative, the then current Payment Percentage will be reviewed to ascertain whether in light of current information any adjustment should be made. However, any adjustment to the Payment Percentage shall be made only pursuant to Section 4.2 of the TDP. If the Payment Percentage is increased over time, claimants who have previously been paid by the Trust will receive a proportional additional payment unless the Trust with consent of the TAC and the Futures Representative concludes that the amount is so modest and the administrative costs and burdens are so great in comparison to the benefits to

claimants that such additional payments shall be omitted or deferred. A claimant may only participate in such additional payments which have been approved pursuant to Section 4.2 of the TDP on or before the later of the following dates: (i) the fifteenth anniversary of the Trust's first payment to the claimant; or (ii) the tenth anniversary of the resolution of the Coverage Litigation. If it becomes relevant, the date of resolution of the Coverage Litigation will be determined by the Trust with the consent of the Futures Representative.

As set forth above, the Initial Payment Percentage will be determined at the time of the Confirmation Hearing either by agreement of the Committee and the Futures Representative or by a Court order if those parties cannot agree. An estimate at this time of the actual Initial Payment Percentage is difficult as it is not possible to know now the exact amount of assets available for distribution on the Effective Date of the Plan. Also, it is not possible now to calculate the total amount of asbestos related liabilities, an amount that eventually will be determined by the court after expert testimony. [See Section 7.2 of this Disclosure Statement]

At this time it is known that the remaining assets from the Federal Settlement and the Nationwide Settlement will be available for distribution. However, from these assets must be deducted further costs of administration as well as certain amounts needed to pay to the Debtors as part of the distribution under the Thorpe Business Loss Security. As set forth elsewhere in this Disclosure Statement, various other insurers have been sued. [See Section 2.3 of this Disclosure Statement] It is impossible to determine if further settlements will be entered prior to the Confirmation Hearing or the Effective Date of the Plan, which would increase amounts available for distribution. As the amounts available for distribution increase the Initial Payment Percentage should increase as more assets will be available for distribution on the Effective Date of the Plan.

At this time it is also unknown what the Court will determine as the total amount of asbestos related liabilities of the Debtors. It is possible that this number could be as high as $500 million. [See Section 7.2] However, it is not yet known what final number the Committee's expert, Dr. Peterson, will determine as his opinion of the final amount of the asbestos liabilities of the Debtors. Furthermore, it is not known if there will be any objection to that final determination of Dr. Peterson, and what amount the Court will determine is the number of such liabilities. As

the finding of the amount of the total asbestos liabilities increases, the Initial Payment Percentage should decrease to take into consideration a reserve for all claims.

While it is impossible to determine at this time the Initial Payment Percentage, under certain analysis it is possible that the Initial Payment Percentage will be only 1%. But, if certain things occur, as discussed herein, the Initial Payment Percentage could be significantly higher.

(d) Trust's Determination of the Maximum Annual Payment.

The Trust shall estimate or model the amount of cash flow anticipated to be necessary over its entire life to ensure that funds will be available to treat all present and future claimants as similarly as possible. In each year, the Trust will be empowered to pay out all of the interest earned during the year, together with a portion of its principal, calculated so that the application of Trust Assets over its life shall correspond with the needs created by the anticipated flow of claims (the "Maximum Annual Payment"). The Trust's distributions to claimants for that year shall not exceed the Maximum Annual Payment determined for that year; provided, however, that the Maximum Annual Payment limitation shall not apply to any Pre-Confirmation Liquidated Claims.

If the Maximum Annual Payment is not reached in a given year, the Trustees, with the consent of the Futures Representative and the TAC, may increase the amount paid to past, present and future claimants as described in Section 4.2 of the TDP.

The Maximum Annual Payment limitation provides a process to control the Trust's payments to claimants should the Trust be faced with unexpectedly high volumes of claim filings not consistent with the Debtors' claims history or the projection of future claims, so that the Trust can reexamine its claims forecast in an orderly fashion, avoiding a run on Trust assets. This limitation may impose a short term delay on some claims filed during any period of unanticipated increases in claims filings in order to assure that the Trust can adjust to such increases in an informed and orderly manner.

(e) Trust Claims Payment Ratio.

Based upon the Debtors' claim settlement history and analysis of present and future claims, a Claims Payment Ratio has been determined, relating to the category of disease claim against the Debtors (the "Disease Categories").

The Disease Category Claim Payment Ratio will be set prior to the Confirmation Date by the Committee and the Futures Representative at a certain percentage (the "Category A Percentage") for "Category A" claims, which consist of Trust Claims involving malignant claims that were unliquidated as of the Confirmation Date, and a certain percentage for "Category B" claims (the "Category B Percentage"), which are Trust Claims involving non-malignant claims that were similarly unliquidated as of the Confirmation Date. If the Committee and the Futures Representative cannot agree on such ratios, the matter will be decided by the Bankruptcy Judge. In each year, after the determination of the Maximum Annual Payment, the Category A Percentage of that amount will be available to pay liquidated Category A claims and the Category B Percentage will be available to pay liquidated Category B claims that have been liquidated since the Confirmation Date.

In the event there are insufficient funds in any year to pay the liquidated claims against the Debtors within either or both of the Disease Categories, the available funds within the particular Disease Category shall be paid to the maximum extent to claimants in the particular Disease Category based on their place in the FIFO Payment Queue. Claims for which there are insufficient funds will be carried to the next year where they will be placed at the head of the FIFO Payment Queue. If there are excess funds in either or both Disease Categories, because there was an insufficient amount of liquidated claims to exhaust the respective Maximum Annual Payment amount for that Disease Category, then the excess funds for either or both Disease Categories will be rolled over and remain dedicated to the respective Disease Category to which they were originally allocated.

The Disease Category Claims Payment Ratio and its rollover provision shall be continued absent circumstances, such as a significant change in law or medicine, necessitating amendment to avoid a manifest injustice. The accumulation, rollover and subsequent delay of claims resulting from the application of the Claims Payment Ratios, shall not, in and of itself, constitute such circumstances. Nor may an increase in the numbers of Disease Category B claims beyond those predicted or expected be considered as a factor in deciding whether to reduce the percentage allocated to Disease Category A. In considering whether to make any amendments to the Disease

Category Claims Payment Ratio and/or its rollover provisions, the Trustees are directed by the TDP also to consider the reasons for which the Disease Category Claims Payment Ratio and its rollover provisions were adopted, the settlement history that gave rise to its calculation, and the foreseeability or lack of foreseeability of the reasons why there would be any need to make an amendment. In that regard, the Trustees are directed by the TDP also to keep in mind the interplay between the Payment Percentage and the Disease Category Claims Payment Ratios as it affects the net cash actually paid to claimants. In any event, no amendment to the Disease Category Claims Payment Ratio may be made without the consent of the TAC and the Futures Representative pursuant to the consent process set forth in Section 2.2(f) of the Trust Agreement. However, the Trustees may offer the option of a reduced payment percentage to either Disease Category in return for prompter payment (the "Reduced Payment Option"), after first obtaining the consent of the TAC and Futures Representative.

(f) Payment of Pre-Confirmation Liquidated Claims.

As soon as practicable after the Effective Date, the Trust shall make an initial distribution on all Trust Claims that were liquidated by (i) a settlement agreement entered into prior to the Petition Date for the particular claim or (ii) pursuant to the Pre-Confirmation Claims Liquidation Process (collectively, the "Pre-Confirmation Liquidated Claims"). The liquidated value of a Pre-Confirmation Liquidated Claim shall be the amount agreed to in the binding settlement agreement, without interest, or the amount at which the claim is liquidated pursuant to the Pre-Confirmation Claims Liquidation Process, as applicable. Moreover, to the extent that a claim is the subject of a written settlement agreement executed prior to the Petition Date, the holder of that claim shall have the option of (i) having the liquidated value be the amount agreed to in the binding settlement agreement, without interest, or (ii) having his or her claim re-liquidated pursuant to the Pre-Confirmation Liquidated Process and having the liquidated value be the amount at which the claim is liquidated pursuant to the Pre-Confirmation Liquidated Process. Notwithstanding anything to the contrary pursuant to Section 7.2 of the TDP, the liquidation value of a Pre-Confirmation Liquidated Claim shall not include any punitive or exemplary damages.

Pre-Confirmation Liquidated Claims shall be processed and paid within 90 days of the Effective Date, if feasible, or as soon thereafter as possible. The amounts payable with respect to such claims shall not be subject to or taken into account in consideration of the Maximum Annual Payment or Disease Category Claims, but shall be subject to the Payment Percentage provisions set forth in Section 4.2 of the TDP.

(g) Payment of Claims That Are Liquidated Post-Effective Date.

The Plan's proposed claims procedures are intended to pay all anticipated Asbestos Related Claims (forecasted based upon historical claims filing data and projections and available scientific data, as more fully discussed in Section 7 below) in a timely manner-as such claims are filed with the Trust and thereafter liquidated.

The claims procedures proposed for the Trust are designed to provide equivalent treatment of all Asbestos Related Claims and Demands both with regard to the percent of their claims that are paid and the timing of their payments. The parties expect that the claims procedures will provide such equivalent treatment even if the Trust receives an unexpectedly large number of future claims.

The claims procedures apply the same pro rata payment process for all Asbestos Related Claims and Demands. Whether a claim was liquidated by application of the Matrix either before or after the Effective Date, the Trust's payment for every claimant will be determined by multiplying the allowed value of the claim times the Payment Percentage.

The parties have not yet agreed on the amount of the Initial Payment Percentage under the Plan. The Initial Payment Percentage will be agreed upon by the Committee and the Futures Representative at a time on or prior to the Confirmation Date. If they cannot agree on the Initial Payment Percentage, then the Bankruptcy Court will decide the dispute between them as to the amount of the Initial Payment Percentage. The Initial Payment Percentage will be determined by determining the percent of liquidated values that can be paid after taking into account the costs of Trust administration using the Trust's assets and the highest reasonable forecast of liabilities provided by the expert consultant to the Committee as reviewed by the expert consultant to the

Futures Representative. The expert for the Committee is Dr. Mark Peterson and the expert for the Futures Representative is Dr. Francine Rabinovitz. [See Section 7 of this Disclosure Statement].

In establishing the Initial Payment Percentage the Plan Proponents assume that all present and future claimants will be paid solely from the presently available cash or cash equivalents. Because the Initial Payment Percentage does not assume any additional insurance settlements or receipt of any other asset by the Trust, no claimant bears a risk that the Initial Payment Percentage would be reduced due to the unavailability or reduced value of a future asset. Rather, should the Trust receive additional settlements, then the payment percentage would be recalculated and increased.

The claims procedures are designed to permit pending and forecasted future claims to be liquidated and paid within a year after their submission. Pre-Confirmation Liquidated Claims will receive the first payment, within 90 days of the Effective Date if at all possible. It has become standard in bankruptcies of asbestos defendants to place such earlier liquidated claims at the head of the queue for payment of asbestos bodily injury claims, both because those claims typically have already had the longest wait for payment and also because those claims do not have to wait for the trust's liquidation processes. For these reasons, the Plan places Pre-Confirmation Liquidated Claims at the head of the queue.

Due in part because the Debtors and many of the claimants' lawyers will have experience in using the claims liquidation Matrix from their experience in liquidating numerous claims under the Pre-Confirmation Claims Liquidation Process and/or under similar matrices in other cases or actions, the Plan Proponents expect that the Trust will be able to quickly establish its claims liquidation procedures and liquidate and pay existing unliquidated claims and newly arising claims within a year of filing.

The proposed claims procedures include provisions that would allow the Trust to continue to allow and pay claims even if it were overwhelmed with an unexpectedly large number of future claims. In such circumstances, the Trustees are required to reconsider and, if necessary, adjust the Payment Percentage to provide equivalent treatment of then pending and future claimants.

The claims procedures provide a process to control the Trust's payments to claimants should the Trust be faced with unexpectedly high volumes of claims filings, so that the Trust can reexamine its claims forecast in an orderly fashion, avoiding unanticipated increases in claims payment. The claims procedures require that the Trust pay claims in numbers that are no greater than those forecasted by the claims projections that are used in the Trust's then current calculations of its Payment Percentages. This means that the volume of payments will always be consistent with the assumptions underlying the Payment Percentage calculation. Should actual claim filings materially exceed the forecast, then the Trust must reconsider and adjust its Payment Percentage using new and larger forecasts based on this increased volume of claims. Upon such reconsideration, the Trust will then increase the volume of its claim payments to reflect this increased volume of filings. This process may impose a short term delay on some claims filed during any period of unanticipated increases in claims filings in order to assure that the Trust can adjust to such increases in an informed and orderly manner.

(h) Trust Indemnity and Contribution Claims.

As set forth in Section 5.6 of the TDP, Trust Claims for indemnity and contribution will be subject to the same categorization, evaluation and payment provisions of the TDP as all other Trust Claims.

SECTION 7.
ESTIMATED ASBESTOS RELATED CLAIMS

7.1 General.

The Committee retained Dr. Mark Peterson of Legal Analysis Systems as its expert consultant to estimate the total amount of the Debtors' liabilities for present and future Asbestos Related Claims. Dr. Peterson, an attorney and social scientist, is a nationally recognized expert in forecasting asbestos liabilities and has been a consultant and expert in asbestos and other mass tort litigation for over twenty years. Dr. Peterson was a founding member of the RAND Institute for Civil Justice, where he has conducted research and published a number of scholarly papers on issues of civil justice, particularly mass tort litigation.

7.2 Total Amount of the Debtors' Liability.

The total amount of the Debtors' liabilities for present and future Asbestos Related Claims cannot be determined with certainty, but reasonable, accepted methods have been used to forecast this amount. These methods draw upon: (a) scientific epidemiological forecasts of the incidence of asbestos-related diseases; (b) established social science research and methods that study and predict claiming behavior among potential tort litigants; and (c) substantial data about the Debtors' asbestos claims and resolutions provided by the Debtors and the Committee and substantial data about the claims and resolution experience of other similar asbestos defendants. These forecast methods have been the basis for estimations of asbestos liabilities in many bankruptcy cases and other litigation.

The Committee has hired a well known expert in determining the value of present and future asbestos claims, Dr. Mark Peterson. Dr. Peterson arrives at his estimates based on the history of Asbestos Related Claims asserted against the Debtors, historic average settlement values by disease type and other generally accepted epidemiological forecasts. Dr. Peterson's methodologies have been approved by the courts. *See In re Johns-Manville Corp.*, 830 F. Supp 686 (S.D.N.Y. 1993); *In re Eagle Picher*, 189 B.R. 681 (1995).

Dr. Peterson performed certain preliminary projections that indicated that the value of all present and future California based Asbestos Related Claims appeared to be $190 million. However, the Plan Proponents recognize that this is a preliminary number and will be larger due to a number of factors. The Committee has asked Dr. Peterson to review his numbers and calculate the currant amount of all of the Debtors' asbestos liabilities, both present and future, and both from California Asbestos Related Claimants and Asbestos Related Claimants outside of California. There is a possibility that the final amount of all Asbestos Related Claims could be as high as $500 million. The reason that the final determination of the amount of all present and future Asbestos Related Claims will exceed the former calculations of Dr. Peterson are as follows:

First, Dr. Peterson's original numbers only included California asbestos defendants. The Debtors' exposure was not limited to California cases and there will be a significant increase in Asbestos Related Claims due to out of state claims. For instance, there were significant asbestos-

related operations conducted on ships, and over five hundred jobs performed outside of the state of California.

Second, there has been an increase in the values attributed to Asbestos Related Claims since Dr. Peterson's original estimates. Dr. Peterson is gathering information concerning such values, and a final report will be rendered.

Third, the Debtors not only had significant land based exposure but also had exposure from installation of asbestos containing refractory products on numerous ships, and this will increase the claims.

Fourth, Southern California has traditionally been a sleepy backwater for asbestos litigation. Filings per capita in Southern California have traditionally been much lower than Northern California, and other areas of the country, but there is no evidence that the true Asbestos Related Claims are any smaller. Thousand of workers that could have sued in the tort system only resorted to workers compensation claims. Because of California statutes, most of these cases are not statute barred. Counsel in southern California now are expected to pursue these claims on behalf of Asbestos Related Claimants.

In summary, the Plan Proponents expect that the final estimates to be presented of total liability of the Debtors for asbestos injuries will be significantly higher than Dr. Peterson's earlier estimates.

SECTION 8.

RISKS OF THE PLAN

8.1 General.

The following is intended as a summary of certain risks associated with the Plan, but is not exhaustive and must be supplemented by analysis and evaluation of the Plan and this Disclosure Statement as a whole by each holder of a Claim or Interest with such holder's own counsel and other advisors.

//

//

8.2 Payment of the Holdings Note.

The Trust will be funded in part with the Holdings Note in the principal amount of $500,000. This amount is appropriate in light of the net worth of the Debtors, based on financial statements provided by Technologies, which is wholly owned by Holdings. It is possible that Technologies and Holdings will fail to pay the Holdings Note in full. However, the Holdings Note will be secured by a first-priority, perfected security interest in 51% of the common stock of Holdings, and the Debtors believe that the fair market value of this stock exceeds the principal amount of the note.

The Holdings Note and the Holdings Pledge Agreement will be in a form that is similar to the Note and Holdings Pledge Agreement used in the Western Asbestos case and approved by the Court in that case. The actual final form of such Holdings Note and Pledge Agreement need not be filed with the Court in this case until a period that is two weeks prior to the commencement of the Confirmation hearing; however, any party desiring a draft of such Holdings Note or Pledge Agreement may request such current draft from counsel for the Debtors and it will be provided.

8.3 Insurance Coverage for Asbestos Related Claims.

The Trust will also be funded substantially with the Thorpe Business Loss Insurance Security and the Thorpe General Insurance Security.

As described above in Section 3.3, Asbestos Related Claimants have claims either directly against some Debtors or derivatively against other Debtors. A single Trust will minimize the expenses of Trust Administration and make certain that similarly situated Asbestos Related Claimants will be treated substantially similar. The single Trust structure has been used in other confirmed and court approved asbestos related bankruptcies. The Plan Proponents believe that a single Trust is in the best interests of present and future Asbestos Related Claimants.

The Thorpe General Insurance Security is a security to be issued on the Effective Date by each of the Debtors. It will entitle the Trust to receive all of the Debtors' Asbestos Insurance Action Recoveries, except for the portion of the business loss claims that the Debtors may have that is retained under the Thorpe Business Loss Security.

The Thorpe Business Loss Insurance Security is a security to be issued on the Effective Date of the Plan by each of the Debtors. It will entitle the Trust to receive all of the Debtors' Asbestos Insurance Action Recoveries attributable to any lost business opportunities, interruption of their businesses, loss or damage to the Debtors' business and any punitive damages based on or related to such matters (a "Business Loss"); provided that the Debtors retain a certain defined portion of the Business Loss. The amount of the payments to the Trust or to the Debtors on account of the Thorpe Business Loss cannot be determined at this time as the claims for a Business Loss have not been finalized against all of the Asbestos Insurance Companies. The Plan Proponents have agreed, for instance, that the Business Loss allocable to the recovery of $45 million from Federal shall be $5 million, and of this amount $3.5 million is allocable to the portion to be paid to the Trust and $1.5 million is allocable to the Debtors. The final amount of the Business Loss is not capable of determination. In any event, the Debtors' Portion of the Business Loss shall not exceed $4.5 million. If the Debtors are paid $4.5 million on account of the Business Loss, all excess recovery is paid to the Trust.

The Proponents believe that the Business Loss claims against various Asbestos Insurance Companies are significant and substantial. Even after filing of these bankruptcy cases the Insurers have still denied coverage, forced the filing of this Plan, forced the Debtors and the Asbestos Related Claimants to hire counsel, and have delayed the recoveries by innocent victims. The non–contractual Business Loss claims are significant and substantial. The contribution by the Debtors of these claims under the Thorpe Business Loss Security to the Trust is a very substantial and significant contribution.

The Thorpe General Insurance Security and the Thorpe Business Loss Insurance Security will be in a form that is similar to the general insurance security and the business loss insurance security filed in the Western Asbestos case. In that case the Western Asbestos Court approved such securities as being a significant contribution and found that they met the requirements of the Bankruptcy Code. The final form of the Thorpe General Insurance Security and the Thorpe Business Loss Security need not be filed with the Court in this case until two weeks prior to the Confirmation Hearing; however, any party desiring a draft of such securities as they exist in their

current draft form may request such current draft from counsel for the Debtors and they will be provided.

As described in Section 2.3 and 3.7 above, certain of the Debtors have been in discussions with their insurers about insurance coverage for Asbestos Related Claims for some time. Certain of the Debtors have also been in litigation with certain insurers since the beginning of 2004. Because of the risks involved with respect to the effects of various potential rulings by the Bankruptcy Court or an appeal thereof, as well as the uncertainty in the resolution of any present or future Asbestos Insurance Actions, the ultimate value of the Asbestos Action Insurance Recoveries is uncertain. Moreover, the possibility that one or more of the Asbestos Insurance Companies may become insolvent in the future may impact the value of the Debtors' Asbestos Action Insurance Recoveries, and thus the value of the Trust Assets.

8.4 Aggregate Amount of Asbestos Related Claims.

Payments that will be made on Asbestos Related Claims shall be determined under the TDP and shall be based, on the one hand, on estimates of the number, types and amount of present and expected future Asbestos Related Claims and, on the other hand, on the value of the Trust Assets, the liquidity of the Trust Assets, the Trust's expected future expenses and income, as well as other material matters that are reasonable and likely to affect the sufficiency of funds to pay all holders of Asbestos Related Claims. There can be no certainty as to the precise amounts that will be distributed by the Trust in any particular time period or when Asbestos Related Claims will be paid by the Trust.

SECTION 9.

ALTERNATIVES TO CONFIRMATION AND CONSUMMATION OF THE PLAN

If the Plan is not confirmed and consummated, alternatives to the Plan include (i) dismissal of these Reorganization Cases; (ii) liquidation of the Debtors under Chapter 7 of the Bankruptcy Code; and (iii) an alternative plan of reorganization.

//

//

9.1 Dismissal of These Cases.

If a plan of reorganization on the agreed terms is not confirmable at this time, all parties would then need to resort to the tort system and attempt to reach a different solution. The Plan Proponents firmly believe that this result will not be necessary as the Plan is the result of extensive negotiations with, and has the support of, the Committee, whose representatives are counsel to the vast majority of currently known existing claimants, as well as the Futures Representative and meets all of the requirements of the Bankruptcy Code.

9.2 Liquidation under Chapter 7.

If no plan can be confirmed, the Reorganization Cases may be converted to cases under Chapter 7 of the Bankruptcy Code, pursuant to which a trustee would be appointed to liquidate the assets of the Debtors for distribution in accordance with the priorities established by the Bankruptcy Code.

Below is a demonstration, in balance sheet format, that all creditors and interest holders will receive at least as much under the Plan as such creditor or interest holder would receive under a Chapter 7 liquidation. All financial information is exclusive of Asbestos Action Insurance Recoveries. The following four liquidation analyses are prepared for each of the four Debtors by the Debtors themselves, and are done with the following understandings and footnotes: (a) the information is prepared by the Debtors and not the Committee or the Futures Representative; (b) the information is compiled from the Debtors' books and records; and (c) the information is prepared on a non consolidated basis and without consideration of contentions and arguments relating to alter ego or successor liability.

THORPE'S ASSET VALUE AT LIQUIDATION VALUES
(AS OF 12/31/04):

CURRENT ASSETS	
a. Cash on hand available to pay creditors	$2,013,190.43
b. Accounts receivable	$ 0
c. Inventories	$ 0
TOTAL CURRENT ASSETS	$2,013,190.43
TOTAL FIXED ASSETS	$ 0
TOTAL OTHER ASSETS	$ 0
TOTAL ASSETS AT LIQUIDATION VALUE	$2,013,190.43
Less: Secured creditor's recovery	$ 0
Less: Chapter 7 trustee fees and expenses	$ 83,645.71
Less: Estimated Chapter 11 administrative expenses	$ 200,000.00
Less: Priority claims, excluding administrative expense claims	$ 0
Less: Debtor's claimed exemptions	$ 0
Balance for unsecured claims*	$1,729,544.70

*Exclusive of any Asbestos Insurance Action Recoveries

DISSOLVED THORPE'S ASSET VALUE AT LIQUIDATION VALUES (AS OF 12/16/04):

TOTAL CURRENT ASSETS	$ 0
TOTAL FIXED ASSETS	$ 0
TOTAL OTHER ASSETS	$ 0
TOTAL ASSETS AT LIQUIDATION VALUE	$ 0
Less: Secured creditor's recovery	$ 0
Less: Chapter 7 trustee fees and expenses	$ 0
Less: Estimated Chapter 11 administrative expenses (paid by Thorpe)	$ 0
Balance for unsecured claims*	$ 0

*Exclusive of any Asbestos Insurance Action Recoveries

HOLDINGS' ASSET VALUE AT LIQUIDATION VALUES (AS OF 12/16/04):

CURRENT ASSETS		
a. Cash on hand available to pay creditors	$	1,045
b. Accounts receivable	$	0
c. Inventories	$	0
TOTAL CURRENT ASSETS	$	1,045
TOTAL FIXED ASSETS	$	0
TOTAL OTHER ASSETS	$	0
TOTAL ASSETS AT LIQUIDATION VALUE	$	1,045
Less: Secured creditor's recovery	$	0
Less: Chapter 7 trustee fees and expenses	$	261
Less: Estimated Chapter 11 administrative expenses (paid by Thorpe)	$	0
Balance for unsecured claims*	$	784

*Exclusive of any Asbestos Insurance Action Recoveries

TECHNOLOGIES' ASSET VALUE AT LIQUIDATION VALUES (AS OF 12/15/04):

CURRENT ASSETS		
a. Cash on hand available to pay creditors	$	581,344
b. Accounts receivable	$	1,927,406
c. Inventories	$	0
d. Security Deposit with Landlord	$	2,417
TOTAL CURRENT ASSETS	$	2,511,167
FIXED ASSETS		
a. Office furniture & equipment	$	17,623
TOTAL FIXED ASSETS	$	17,623
TOTAL OTHER ASSETS	$	0
TOTAL ASSETS AT LIQUIDATION VALUE	$	2,528,790
Less: Secured creditor's recovery [depending upon whether the Court approves the sale motion (see Section 3.3)]		
Less: Chapter 7 trustee fees and expenses	$	900,000
Less: Estimated Chapter 11 administrative expenses (paid by Thorpe)	$	99,114
	$	0
Balance for unsecured claims*	$	1,529,676

*Exclusive of any Asbestos Insurance Action Recoveries

TOTAL ASSET BALANCE FOR UNSECURED CLAIMS	$	3,260,004.70
TOTAL AMOUNT OF UNSECURED CLAIMS (estimated total claims may increase substantially)	$	200,000,000.00

% OF THEIR CLAIMS WHICH UNSECURED CREDITORS WOULD RECEIVE OR RETAIN IN A CH. 7 LIQUIDATION: = 0.016

% OF THEIR CLAIMS WHICH UNSECURED CREDITORS WILL RECEIVE OR RETAIN UNDER THIS PLAN: = A percentage of amounts recovered by the Trust as according to the Matrix

The Plan Proponents believe that the distributions that would be made in a Chapter 7 case would be substantially smaller than the distributions contemplated by the Plan. The Debtors' non-insurance assets are trivial in comparison with their insurance. The Nationwide Parties, the Federal Parties and any other Settling Asbestos Insurance Companies would not get the benefit of the Section 524(g) injunctions or a plan provision, binding on the Trust, which would likely result in far less favorable Asbestos Insurance Settlement Agreements or no settlements at all. Moreover, the Debtors would forfeit $500,000 payable under the Nationwide Settlement and jeopardize the $45 million payable under the Federal Settlement. Finally, there would be no funded Trust available to pursue Asbestos Insurance Actions against carriers that have not settled.

The Futures Representative believes that in a chapter 7 bankruptcy case, the holders of future Asbestos Related Claims against the Debtors will in all probability recover nothing.

9.3 Alternative to the Plan of Reorganization.

The Plan is the product of extensive negotiations among the Debtors, the Committee and the Futures Representative, and is a delicate balance of the competing and conflicting interests held by the parties. The parties are unaware of any alternative to the Plan other than to resume litigation that could lead to reduced or no recoveries from the Asbestos Insurance Companies and years of costly litigation for all parties.

The Nationwide Settlement and the Federal Settlement provide that if a plan of reorganization with the basic terms described in the Federal Settlement is not confirmed, there will be no further funding under those agreements. That outcome would not only potentially cause the loss of at least $45.5 million provided to the Trust under the Nationwide Settlement and the Federal Settlement, but would leave the Debtors without a ready source of funds to pursue other coverage disputes, which have the potential for producing substantial additional recoveries.

SECTION 10.

CERTAIN FEDERAL INCOME TAX CONSEQUENCES OF THE PLAN

The following discussion is a summary of certain federal income tax aspects of the Plan, for general information only, and therefore should not be relied on for purposes of determining the specific tax consequences of the Plan with respect to a particular holder of a Claim or Interest. This discussion does not purport to be a complete analysis or listing of all potential tax considerations.

The following discussion is based on existing provisions of the IRC, existing and proposed regulations thereunder, and current administrative rulings and court decisions. No assurances can be given that legislative or administrative changes or court decisions may not be forthcoming which would require significant modification of the statements expressed herein.

NO RULING HAS BEEN REQUESTED OR OBTAINED FROM THE INTERNAL REVENUE SERVICE WITH RESPECT TO ANY OF THE TAX ASPECTS OF THE PLAN AND, EXCEPT AS DISCUSSED IN SECTION 10.4 BELOW, NO OPINION OF COUNSEL HAS BEEN OBTAINED BY THE DEBTORS AS TO ANY OF SUCH TAX ASPECTS. NO REPRESENTATIONS OR ASSURANCES ARE BEING MADE WITH RESPECT TO THE FEDERAL INCOME TAX CONSEQUENCES AS DESCRIBED HEREIN.

CERTAIN HOLDERS OF CLAIMS AND INTERESTS MAY BE SUBJECT TO SPECIAL RULES NOT ADDRESSED IN THIS SUMMARY OF FEDERAL INCOME TAX CONSEQUENCES. THERE ALSO MAY BE STATE, LOCAL OR FOREIGN INCOME TAX CONSIDERATIONS APPLICABLE TO EACH HOLDER OF A CLAIM OR INTEREST THAT ARE NOT ADDRESSED HEREIN. EACH HOLDER OF A CLAIM OR INTEREST AFFECTED BY THE PLAN SHOULD CONSULT, AND RELY ON, HIS OR HER OWN TAX ADVISOR REGARDING THE SPECIFIC TAX CONSEQUENCES OF THE PLAN WITH RESPECT TO THAT HOLDER'S CLAIM OR INTEREST.

//

//

//

10.1 Tax Consequences to the Debtors.

(a) Discharge of Indebtedness.

Under the IRC, a taxpayer will generally be deemed to realize and recognize gross income to the extent to which its indebtedness is discharged during the taxable year. Section 108(a)(1)(A) of the IRC provides an exception to this rule when a taxpayer is subject to the jurisdiction of a bankruptcy court and where the discharge of indebtedness is granted by that court or is effected pursuant to a plan approved thereby. Section 108(b) of the IRC provides that the income realized from the indebtedness discharge is excluded from taxable income under the foregoing rule must be applied to reduce certain general and minimum tax attributes of the taxpayer in the following order: net operating losses, tax credit carry forwards, capital loss carry forwards, the basis of the taxpayer's assets and foreign tax credit carry forwards (the "Tax Attributes"). Section 108(b)(5) of the IRC provides that a taxpayer may elect to first apply the reduction to the basis of the taxpayer's assets, with any remaining balance applied to the other Tax Attributes. Section 108(e)(2) of the IRC provides a further exception, to the effect that the taxpayer will be deemed not to have realized income from the discharge of indebtedness to the extent that the taxpayer's satisfaction of the debt would have given rise to an income tax deduction. The effect of Section 108(e)(2) of the IRC, where applicable, is to allow the taxpayer to discharge indebtedness without recognizing income and avoid any reduction of its Tax Attributes.

The Debtors intend to take the tax reporting position that, by reason of section 108(e)(2) of the IRC, the satisfaction and discharge of Claims will not result in discharge-of-indebtedness income because payment of the Claims would have given rise to income tax deductions to the Debtors.

(b) Transfers to the Trust.

Assuming that the Trust receives certain approvals from the Bankruptcy Court and is subject to the continuing jurisdiction of the Bankruptcy Court, the Trust should qualify as a "qualified settlement fund" within the meaning of the Treasury Regulations issued pursuant to Section 468B of the IRC, and the Debtor should be treated as a transferor thereto.

A transferor of property to a qualified settlement fund must treat the transfer as a sale or exchange of that property for federal income tax purposes. In computing gain or loss, the amount realized by the transferor is the fair market value of the property on the date the transfer is made to the qualified settlement fund. A transferor must obtain a "qualified appraisal" to support a loss or deduction claimed with respect to a transfer to a qualified settlement fund with respect to certain types of property.

If an accrual-method transferor makes a transfer to a qualified settlement fund to resolve or satisfy a qualified liability, "economic performance" with respect to the liability occurs at the time and to the extent of the transfer (subject to limitations for transfers of debt instruments of the transferor and for amounts that are subject to a right of reversion or refund to the transferor) and the transferor is entitled to an income tax deduction equal to the fair market value of the property transferred. No deduction is allowed to a transferor for a transfer to a qualified settlement fund to the extent the transferred amounts represent amounts received from the settlement of an insurance claim and are excludable from gross income.

Pursuant to the Plan, including the Thorpe Business Loss Insurance Security and the Thorpe General Insurance Security, the Debtors will transfer to the Trust insurance coverage in place and insurance proceeds. The Debtors intend to take the tax reporting position that such transfers do not result in any net income or net deductions to the Debtors. Alternatively, if such transfers were to result in income to the Debtors, the Debtors intend to take the tax reporting positions that they are entitled to a corresponding deduction equal to the fair market value of such amounts transferred to the Trust.

10.2 Tax Consequences to Holders of Claims Other Than Asbestos Related Claims.

The tax consequences of payments received by holders of Claims other than Asbestos Related Claims will depend on the individual nature of each such Claim and the particular circumstances and facts applicable to such holder at the time each such payment is made. Certain holders of Claims other than Asbestos Related Claims may be subject to special rules not addressed in this summary. There also may be state, local or foreign income tax considerations applicable to each holder of a Claim other than an Asbestos Related Claim that are not addressed

herein. Each holder of a Claim other than an Asbestos Related Claim affected by the Plan should consult, and rely on, his or her own tax advisor regarding the specific tax consequences of the Plan with respect to his or her own situation.

10.3 Tax Consequences to Holders of Asbestos Related Claims.

To the extent that payments from the Trust to holders of Asbestos Related Claims constitute damages received by such holders on account of physical injuries or physical sickness, such payments should not constitute gross income to such recipients under Section 104 of the IRC, except to the extent that such payments are attributable to medical expense deductions allowed under Section 213 of the IRC for a prior taxable year. To the extent that any payments from the Trust to holders of Asbestos Related Claims constitute damages received by such holders on account of claims other than physical injuries (such as lost wages) or received as interest (or any other amounts not excludable from income under Section 104 of the IRC), such payments will be includible in gross income to such holders.

The tax consequences of payments received by holders of Asbestos Related Claims will depend on the individual nature of each such Claim and the particular circumstances and facts applicable to such holder at the time each such payment is made. No ruling from the Internal Revenue Service or opinion of counsel has been obtained as to the tax consequences to the holders of Asbestos Related Claims of payments from the Trust to such holders.

10.4 Tax Consequences to the Trust.

The Debtors will obtain an opinion of counsel that the Trust will be a "qualified settlement fund" within the meaning of the Treasury Regulations issued pursuant to section 468B of the IRC. As a qualified settlement fund, the Trust will be treated as a corporation for certain federal income tax purposes and will be required to pay taxes on "modified gross income" as defined in the Treasury regulations (generally at the highest rate applicable to estates and trusts). The Trust will generally not be required to include in income amounts transferred to it by the Debtors. The Trust will not be entitled to deduct for federal income tax purposes amounts paid out to holders of Asbestos Related Claims (however, the Trust will be entitled to deduct amounts paid for administrative costs and other incidental costs of the Trust).

SECTION 11.

INFORMATION PROVIDED

11.1 General.

Upon the commencement of each of the individual Reorganization Cases, the respective Debtors have been or will be required to file monthly operating reports with the Bankruptcy Court. Such financial information will be on file with the Bankruptcy Court and publicly available for review. Also attached as Exhibit 11 are Technologies' financial statements for 2002, 2003 and 2004.

11.2 Sources of Information.

The information set forth in this Disclosure Statement and the exhibits hereto was provided by the Plan Proponents and their professionals.

11.3 Accounting Method.

The Debtors maintain their books on an accrual basis, in accordance with generally accepted accounting principles.

RECOMMENDATION AND CONCLUSION

The Plan Proponents recommend that all holders of Claims and Interests who are entitled to vote, vote to accept the Plan and return their ballots so that they will be received on or before the Voting Deadline.

In the view of the Plan Proponents, the Plan provides the best available alternative for maximizing the distributions to holders of Asbestos Related Claims.

IN THE UNITED STATES BANKRUPTCY COURT
FOR THE DISTRICT OF DELAWARE

In re:	:	Chapter 11
PADDOCK ENTERPRISES, LLC	:	Case No. 20-_____ (_____)
Debtor.[1]	:	

DECLARATION OF DAVID J. GORDON, PRESIDENT AND CHIEF RESTRUCTURING OFFICER OF THE DEBTOR, IN SUPPORT OF CHAPTER 11 PETITION AND FIRST DAY PLEADINGS

I, David J. Gordon, pursuant to 28 U.S.C. § 1764, hereby declare that the following is true and correct to the best of my knowledge, information, and belief:

1. I am the President and Chief Restructuring Officer of Paddock Enterprises, LLC (the "**Debtor**"). The Debtor is organized under the laws of the state of Delaware. I own and operate a management services business, DJG Services, LLC ("**DJG**"), through which I began working with the Debtor and its affiliates (collectively, the "**Company**") as a real estate consultant in November 2019. Pursuant to a consulting contract between DJG and the Debtor's predecessor, I have served as President and Chief Restructuring Officer of the Debtor since December 18, 2019. I am also the President and own 50% of DJO Services, LLC ("**DJO**"). DJO owns the equity interest in a number of currently non-operating companies that face asbestos personal injury litigation and provides management services to each of them. In addition, I am the President of Fraser Boiler Service, Inc., which is the Debtor in a chapter 11 case involving asbestos mass tort and related insurance issues, which is currently pending in the Western District of Washington. In

[1] The last four digits of the Debtor's federal tax identification number are 0822. The Debtor's mailing address is One Michael Owens Way, Perrysburg, Ohio 43551.

my personal capacity, I serve as Liquidating Trustee to the Oakfabco Liquidating Trust, as an independent director for two other companies, and as Director of Insurance and Litigation for a regional contractor in the Northwest. Prior to starting DJO in 2015, I served as a vice president, and then President and Chief Executive Officer ("**CEO**") of The Flintkote Company ("**Flintkote**") from 2000-2017, including through its chapter 11 bankruptcy. In my capacity as CEO of Flintkote, I also served as the CEO of the Plant Insulation Company from 2007-2012, including through its chapter 11 bankruptcy. I also currently serve as the trustee for the Flintkote Trust. From 1997-2003, I served in various capacities for Flintkote's ultimate parent, Imasco Holdings Group, Inc., including as the President of Roy Rogers Restaurants and as President of MRO Mid-Atlantic Restaurants. Prior to that time, I served in senior counsel positions for Hardee's Food Systems, Inc. from 1987-1997 and Burger King Corporation from 1980-1987. I am authorized to submit this declaration (the "**First Day Declaration**") on behalf of the Debtor.

2. I am responsible for overseeing the day-to-day operations of the Debtor, as well as developing and managing the real estate business of its wholly owned, non-Debtor subsidiary, Meigs Investments, LLC ("**Meigs**"). As a result of my experience with the Debtor, my review of public and non-public documents (including the Debtor's books and records), and my discussions with members of the Company's management team, I am generally familiar with the Debtor's business, financial condition, policies and procedures, day-to-day operations, and books and records. Except as otherwise noted, I have personal knowledge of the matters set forth herein or have gained knowledge of such matters from Company employees, Company documents and/or the Debtor's professionals. If called upon to testify, I would testify competently to the facts set forth in this First Day Declaration.

3. On the date hereof (the "**Petition Date**"), the Debtor filed a voluntary petition for relief under chapter 11 of title 11 of the United States Code, 11 U.S.C. §§ 101-1330, as amended (the "**Bankruptcy Code**"), in the United States Bankruptcy Court for the District of Delaware (the "**Court**"). The Debtor will continue to operate its business and manage its property as debtor-in-possession.

4. I submit this First Day Declaration on behalf of the Debtor in support of the Debtor's (a) voluntary petition for relief and (b) "first-day" pleadings, which are being filed concurrently herewith (collectively, the "**First Day Pleadings**"). I have reviewed the Debtor's petition and the First Day Pleadings, or have otherwise had their contents explained to me, and it is my belief that the relief sought therein is essential to avoid immediate and irreparable harm to the Debtor and to successfully maximize the value of the Debtor's estate. References to the Bankruptcy Code, the chapter 11 process, and related legal matters are based on my understanding of such matters in reliance on explanations provided by, and the advice of, counsel.

5. The primary purpose of this case (the "**Chapter 11 Case**") is to address and comprehensively resolve the Debtor's legacy asbestos-related liabilities, which arise out of the production and distribution of certain asbestos-containing products by a former business unit of the Debtor's predecessor from 1948 to 1958, when that business unit was sold. The Debtor intends to achieve this goal by promptly negotiating—and ultimately confirming—a plan of reorganization pursuant to sections 524(g) and 1129 of the Bankruptcy Code. The Debtor believes that creation of a section 524(g) trust would be the fairest and most expeditious way for the Debtor to ensure that holders of current and future Asbestos Claims (as defined below) are treated in a fair and just manner. The Debtor is confident that the tools and protections available in chapter 11 will facilitate negotiations that will ultimately result in a court-approved plan.

6. Part I of this First Day Declaration describes the Debtor's historical asbestos-related liabilities and the events leading to the filing of this Chapter 11 Case. Part II provides an overview of the Debtor's relevant corporate history and attributes, including the corporate modernization that it consummated on December 26-27, 2019. Part III sets forth relevant facts in support of the First Day Pleadings.

I. THE DEBTOR'S ASBESTOS-RELATED LIABILITIES AND EVENTS LEADING TO THE FILING OF THE CHAPTER 11 CASE

A. The Debtor's Limited Asbestos Operations and Ongoing Claiming Activity

7. The Debtor is the successor-by-merger to Owens-Illinois, Inc., which previously served as the ultimate parent of the Company. The Debtor is annually subject to hundreds of claims and lawsuits alleging personal injuries and death from exposure to asbestos ("**Asbestos Claims**") contained in products manufactured under the "Kaylo" brand between 1948 and 1958, which were primarily pipe covering and block insulation products. These products contained either chrysotile or amosite asbestos fibers, depending on the year of manufacture, and had extremely limited applications, such as for high temperature piping in large industrial settings. As discussed further below, the Debtor's predecessor sold its entire Kaylo business to Owens Corning Fiberglass Corporation ("**Owens Corning**") in 1958 and has not manufactured or sold any Kaylo products since then. No other entities within the Company were ever involved in the production or sale of Kaylo products.

8. In April 1953, the Debtor's predecessor entered into a five-year sales agreement covering Kaylo products with Owens Corning, which then began distributing the product line. Owens Corning subsequently purchased the Kaylo business in its entirety in April 1958 and, upon information and belief, owned and exclusively operated it until 1972. Owens Corning filed for chapter 11 protection in October of 2000 and confirmed its plan of reorganization with a section

524(g) trust in September of 2006. The Owens Corning 524(g) trust has been making payments on account of Kaylo-related asbestos claims since then.

9. Despite having only produced Kaylo products for a fraction of the total production window, the Debtor continues to fund an outsized share of tort recoveries. This situation arises in part because the section 524(g) trust system operates independently of the tort system, which allows for plaintiffs to recover from defendants in the tort system, collect their full damages, and then collect significant damages from trusts based on evidence they subsequently submit, even when it alleges exposure to the same product. It also arises because the cost of defending asbestos claims in the tort system has risen. The Debtor currently has approximately 900 personal injury lawsuits pending against it throughout the country, many of which are currently dormant in status. These lawsuits typically allege various theories of liability, including negligence, gross negligence and strict liability, and seek compensatory and, in some cases, punitive damages. Each lawsuit requires the Debtor to incur a range of tens to hundreds of thousands of dollars or more in attorneys' fees and costs alone.

10. In contrast to many other companies' pure litigation approach, however, most Asbestos Claims are presented to the Debtor through a variety of administrative claims-handling agreements ("**Administrative Claims Agreements**"). The Company long believed that it and its various stakeholders were best served by proactively managing its asbestos-related liabilities outside of the tort system through such agreements. This strategy has historically allowed the Debtor more predictability in managing risk and its annual asbestos-related financial obligations. However, the Company's ability to reasonably estimate and reserve for the Debtor's asbestos-related tort expenditures has been significantly affected by, among other factors, changes in claiming patterns; changes in the law, procedure, and asbestos docket management; and pressure

on settlement values driven by co-defendant bankruptcies, adverse tort system developments, and the Debtor's status as one of the only remaining solvent "amosite" defendants. These factors have also made Administrative Claims Agreements—at least on existing payment terms—difficult to maintain, and therefore less reliable to the Debtor.

11. The Company has for many years conducted an annual comprehensive legal review of its asbestos-related tort expenditures in connection with finalizing its annual results of operations in its public filings. Beginning in 2003, the Company had been estimating its asbestos-related tort expenditures based on an analysis of how far in the future it could reasonably estimate the number of claims it would receive, which was several years. In April 2016, the Company adjusted its method for estimating its future asbestos-related tort expenditures in compliance with accounting standards codification ("**ASC**") 450, *Contingencies*. With the assistance of an external consultant, and utilizing a model with actuarial inputs, the Company developed a new method for reasonably estimating its total asbestos-related tort expenditures, which made several adjustments to consider the probable losses for Asbestos Claims not yet asserted, as well as related costs it could properly include in its estimate.

12. Although the Company did not record any additional asbestos-related charges at the end of 2016 or 2017, as of December 31, 2018, the revised methodology led the Company to (i) conclude that a charge of $125 million was necessary, which produced a year-end accrual of $602 million for reasonably probable asbestos-related tort expenditures and (ii) estimate that reasonably possible losses could result in asbestos-related tort expenditures up to $722 million (both stated in nominal dollars). The Debtor believes that, although the established reserves are appropriate under ASC 450, its ultimate asbestos-related tort expenditures cannot be known with certainty because, among other reasons, the litigation environment in the tort system has

deteriorated generally for mass tort defendants and Administrative Claims Agreements are becoming less reliable.

13. What is certain is the incredible disparity between what the Debtor has historically paid, and is now being asked to pay, for Asbestos Claims, given the extent of its historical asbestos-related operations. As of September 30, 2019, the Debtor had disposed of over 400,000 Asbestos Claims, and had incurred gross expense of approximately $5 billion for asbestos-related costs. In contrast, its total Kaylo sales for the 10-year period in which it sold the product were approximately $40 million. Asbestos-related cash payments for 2018, 2017, and 2016 alone were $105 million, $110 million, and $125 million, respectively. Although these cash payments show a modest decline, the overall volume and claimed value of Asbestos Claims asserted against the Debtor has not declined in proportion to the facts that (i) over 60 years have passed since the Debtor exited the Kaylo business, (ii) the average age of the vast majority of its claimants is now over 83 years old, (iii) these demographics produce increasingly limited opportunities to demonstrate legitimate occupational Kaylo exposures, and (iv) other recoveries are available from trusts established by other asbestos defendants. Rather, increasing settlement values have been demanded of the Debtor. And because the Debtor has settled or otherwise exhausted all insurance that might cover Asbestos Claims, it must satisfy all asbestos-related expenses out of Company cash flows.

14. For years, the Debtor has paid more for its Asbestos Claims than its industry peers whose liabilities are paid by section 524(g) trusts. This is principally due to the inherent differences between the tort system and section 524(g) trust distribution procedures. The procedural and legal differences even among different jurisdictions in the tort system—such as joint-and-several liability—allow these disparities to exist in the extreme, which usually results in

the Debtor paying different claim amounts to otherwise similarly-situated plaintiffs. This situation is neither fair to the Company and its stakeholders nor to asbestos claimants.

15. The Debtor remains committed—as it has since the first Asbestos Claim brought against it—to fairly and equitably compensating claimants who are ill and have legitimate exposure to Kaylo products that the Debtor's predecessor last manufactured more than 60 years ago. However, because the Company continues to face claims that increase in value, despite the fact that one would reasonably expect claims arising from the relevant manufacturing period to tail off and become more difficult to prove, the Debtor has concluded—consistent with the Company's overall strategy of rationalizing and streamlining expenses—that the best path for fairness, certainty, and finality is only available through this Chapter 11 Case.

B. Engagement of Professionals

16. In order to explore potential alternatives to the status quo, the Debtor engaged its outside counsel, Latham & Watkins LLP ("**Latham**"), to assist it in evaluating a number of strategic options. It also retained Bates White LLC ("**Bates White**") to provide estimation-related guidance with respect to its Asbestos Claims. The Debtor believes that guidance from both Latham and Bates White will assist it in reaching a consensual resolution in this Chapter 11 Case.

17. As part of this exploratory effort and to facilitate the implementation of a potential chapter 11 strategy if and when authorized to do so, the Debtor also entered into an engagement letter with James L. Patton, Jr. of Young, Conaway, Stargatt & Taylor, LLP ("**Young Conaway**") on October 30, 2019 to serve as a proposed future claims representative (the "**Proposed FCR**") to represent the interests of individuals who may assert Asbestos Claims in the future. The Debtor chose the Proposed FCR after interviewing and considering several qualified candidates, ultimately selecting James Patton based upon his qualifications and experience. The Proposed FCR retained Young Conaway as counsel and Ankura Consulting Group LLC as claims analyst to

provide advice in connection with such representation. Together with his advisors, the Proposed FCR initiated an extensive diligence process into the Debtor's Asbestos Claims, subject to a confidentiality agreement. The Debtor has worked constructively with the Proposed FCR and his advisors throughout this process by producing over 1,600 pages of documents and written responses to his information requests, as well as by attending in-person and telephonic diligence meetings, among other things.

18. The Debtor intends to seek the appointment of Mr. Patton as the future claimants' representative in connection with this Chapter 11 Case. Given the knowledge of the Debtor's business and Asbestos Claims that Mr. Patton has gained during the prepetition diligence process, the Debtor believes his appointment will result in efficiencies that benefit creditors and the estate.

C. Ultimate Decision to File for Chapter 11

19. Managing Asbestos Claims has always been a mix of legal art and science and something on which the Debtor has prided itself. The laws and the circumstances, however, have changed over time and the Debtor is no longer confident that it can appropriately and reliably manage these claims outside of a chapter 11 process. In contrast, the large number of asbestos defendants that have successfully navigated chapter 11 and confirmed section 524(g) plans (none of whom exited asbestos-related manufacturing over 60 years ago or have the Debtor's uniquely limited cohort of claimants) leads the Debtor to be confident that it too can reach a successful resolution as to its Asbestos Claims in chapter 11.

20. Thus, after extensive discussions with its advisors, the Debtor determined that commencement of this Chapter 11 Case would best position it to obtain certainty and finality in its funding obligations, in a manner that is fair and just to current and future asbestos claimants, and is in the best interests of the Debtor's estate and stakeholders. Accordingly, on January 5, 2020, the Debtor's board of managers authorized the filing of this Chapter 11 Case.

21. Based on my experience, I believe that chapter 11 provides the only avenue for all of the Asbestos Claims asserted, and to be asserted, against the Debtor to be comprehensively addressed in a single forum under a process that fosters integrity through application of the rules of evidence and the rule of law. It will avoid the unending process inherent in the state court system and, perhaps more importantly, avoid the risk that some claimants who are otherwise similarly-situated may fare better than others, based only on when their claim is asserted, where, and by which law firm. In short, chapter 11 will provide the Debtor with the statutory framework and tools necessary to finally and fairly resolve its liability for Asbestos Claims, while unlocking the growth potential for the Company and its businesses, and for the benefit of all stakeholders.

II. THE DEBTOR'S RELEVANT CORPORATE HISTORY AND ATTRIBUTES

A. The Debtor's Organizational Structure

22. There is one Debtor in this case. The Debtor was incorporated in Delaware in 2019 and maintains its headquarters in Perrysburg, Ohio. The Debtor has one operating subsidiary, Meigs. As shown in the simplified corporate organization chart attached as Exhibit A and as described in further detail below, the Debtor is a direct, wholly owned subsidiary of O-I Glass, Inc. ("**Current Parent**"). Current Parent is a public company with shares traded on the New York Stock Exchange. Current Parent holds 100% of the interests in Owens-Illinois Group, Inc. ("**O-I Group**"), which in turn directly or indirectly holds all of the Company's subsidiaries other than the Debtor and Meigs.

23. The Company is the largest manufacturer of glass container products in the world, with 78 glass manufacturing plants in 23 countries. The Company's principal product lines are glass containers for alcoholic beverages, including beer, flavored malt beverages, spirits and wine, a variety of food items, soft drinks, teas, juices and pharmaceuticals. The Company's segments include Europe, the Americas and Asia Pacific. It also provides engineering support for its glass

manufacturing operations through facilities located in the United States, Australia, France, Poland and Peru. As of December 31, 2019, the Company employed approximately 27,500 individuals worldwide.

B. Corporate Modernization Transaction

24. Recognizing that, within its corporate structure, the Company's asbestos-related liability was located at the level of the Debtor's predecessor, Owens-Illinois, Inc., the Company underwent a corporate restructuring pursuant to section 251(g) of the Delaware General Corporation Law (the "**Corporate Modernization Transaction**") in December 2019. The Company undertook the Corporate Modernization Transaction to structurally separate the legacy liabilities of the Debtor's predecessor, Owens-Illinois, Inc., from the active operations of Owens-Illinois, Inc.'s subsidiaries, while fully maintaining the Debtor's ability to access the value of those operations to support its legacy liabilities. I understand that, as a result of the Corporate Modernization Transaction, Owens-Illinois, Inc. ceased to exist for corporate purposes under Delaware law and two new entities were created: (i) the Debtor, into which Owens-Illinois, Inc. merged, and (ii) Current Parent, which became the Company's new publicly traded parent. I understand that, for all U.S. federal tax purposes, Current Parent is treated as a continuation of Owens-Illinois, Inc. In addition, (x) certain assets of Owens-Illinois, Inc., which became assets of the Debtor as a matter of law upon the Merger (as defined below), were distributed as a dividend to Current Parent, (y) certain obligations of Owens-Illinois, Inc., which became obligations of the Debtor by operation of Delaware law upon the Merger, were assumed by Current Parent, and (z) Debtor and Current Parent entered into a Support Agreement and a Services Agreement providing the Debtor with corporate and other shared services. These steps are further described below.

25. First, Owens-Illinois, Inc. undertook a holding company reorganization under the General Corporation Law of the State of Delaware, pursuant to which Owens-Illinois, Inc. formed

Current Parent as a direct, wholly owned subsidiary. Current Parent then formed the Debtor to serve as a merger subsidiary. Pursuant to an agreement and plan of merger (the "**Merger Agreement**"), Owens-Illinois, Inc. merged with and into the Debtor, with the assets and liabilities of Owens-Illinois, Inc. vesting in the Debtor as the surviving entity (the "**Merger**") by operation of Delaware law. Upon the effectiveness of the Merger, each share of Owens-Illinois, Inc. stock held immediately prior to the Merger automatically converted into a right to receive an equivalent corresponding share of Current Parent stock, having the same designations, rights, powers and preferences and the qualifications, limitations, and restrictions as the corresponding share of Owens-Illinois, Inc. stock being converted. After the Corporate Modernization Transaction, Owens-Illinois, Inc.'s stockholders became stockholders of Current Parent.

26. In connection with the modernization, the Debtor distributed all of the shares of capital stock of O-I Group to Current Parent, and entered into an Assumption and Assignment Agreement through which certain contracts of Owens-Illinois, Inc. (including employee benefits plans) that the Debtor succeeded to as a result of the Merger by operation of Delaware law, were assigned to Current Parent (the "**Distribution**"). In connection with and prior to the Distribution, Current Parent entered into the Support Agreement with the Debtor, which is designed to ensure that the Debtor remains solvent, and a Services Agreement, which maintains the Debtor's access to generalized corporate services and resources.

27. The Company undertook the Corporate Modernization Transaction to further its strategy of improving the Company's operating efficiency and cost structure, while ensuring the Debtor remains well-positioned to address its legacy liabilities. The Debtor believes that the corporate structure resulting from the Corporate Modernization Transaction aligns with the Debtor's goal of resolving its legacy liabilities fairly and finally, in a way that maximizes value

for all parties. The Corporate Modernization Transaction also helped ensure that the Debtor has the same ability to fund the costs of defending and resolving present and future Asbestos Claims as Owens-Illinois, Inc. did, through Debtor's retention of (i) its own assets to satisfy these claims and (ii) access to additional funds from the Company through the Support Agreement. In short, the Corporate Modernization Transaction made good sense on a standalone, operational basis, and was also consistent with any bankruptcy strategy the Debtor might undertake.

C. Support Agreement

28. As part of the Corporate Modernization Transaction, Current Parent entered into a support agreement with the Debtor (the "**Support Agreement**"), a true and correct copy of which is attached as Exhibit B. The Support Agreement is not a loan agreement. Instead, without any corresponding repayment obligation by the Debtor, it requires Current Parent to provide funding for all "Permitted Uses", subject to the terms of the Support Agreement. The key objective of the Support Agreement is to ensure that the Debtor has the same ability to fund the costs of managing and paying Asbestos Claims as Owens-Illinois, Inc., which funded asbestos-related liabilities out of cash funded from its subsidiaries.

D. Services Agreement

29. In connection with the Corporate Modernization Transaction and to ensure that the Debtor has access to the necessary resources and services to operate its business, the Debtor and Current Parent entered into a services agreement (the "**Services Agreement**"), pursuant to which Current Parent provides the Debtor with certain centralized corporate and administrative services, including, but not limited to, legal, accounting, tax, human resources, information technology, risk management and other support services (including information retention and records management) as are necessary to operate the Debtor's business and support its operations (including any needed

support of Meigs) (the "**Services**"). The Debtor is invoiced quarterly, on an allocated basis, for Services expenses based on a projected annual budget, which is trued-up at the end of each year based on actual costs. Amounts due under the Services Agreement are included as Permitted Uses under the Support Agreement.

E. The Debtor's Business Operations and Assets

30. The Debtor's business operations are exclusively focused on (1) owning and managing certain real property and (2) owning interests in, and managing the operations of, its non-Debtor subsidiary, Meigs, which is developing an active real estate business. In addition, the Debtor is responsible for managing its historical asbestos and environmental liabilities through resources available under the Services Agreement and outside advisors. In addition to amounts due under the Services Agreement, the Debtor also incurs certain direct costs related to independent director fees, consulting costs, legal fees, and other charges. The Debtor has no employees.

31. The Debtor owns one parcel of real property in Lapel, Indiana, on which an affiliate owns and operates a glass manufacturing plant (the "**Lapel Property**"). The Debtor acquired the Lapel Property from Owens-Brockway Glass Container Inc. ("**OBGC**") prior to the Petition Date and leased it back to OBGC under a 15-year triple net lease, subject to renewal (the "**Ground Lease**"). The Ground Lease is expected to generate net rents totaling approximately $110,000 in annual revenue. In connection with the sale and leaseback of the Lapel Property, the Debtor obtained an appraisal and capitalization rates from CBRE. The Debtor intends to manage and derive revenue from the Ground Lease business during the Chapter 11 Case and after emergence.

32. In addition to the Ground Lease, through Meigs, the Debtor holds one property and is under contract to purchase another property, both subject to triple-net leases of quick-service

restaurants with national, third-party quick-service restaurant brands (the "**Existing Properties**"). The Existing Properties are expected to generate net rents totaling approximately $216,000 in revenue in 2020, subject to increase in later years. In connection with owning and managing the Existing Properties, Meigs (as directed by the Debtor, as its sole member) performs the various tasks associated with its property management business, including periodic inspections of the properties for compliance with lease terms, management of tenants' lease obligations such as tax, common area charges and insurance, and resolving disputes, if any. The Debtor will continue to assess opportunities to expand Meigs' portfolio to provide income and asset value growth to its real estate business during the Chapter 11 Case.

33. In addition to these assets, the Debtor held approximately $40.6 million in cash in its bank account as of the Petition Date. These funds derived from a combination of (i) an initial payment under the Support Agreement and (ii) additional cash left behind at Owens-Illinois, Inc. in the Corporate Modernization Transaction, which became cash of the Debtor upon the Merger. The Debtor may also hold *de minimis* other assets to which it became entitled as a matter of Delaware law pursuant to the Merger.

F. Debtor's Capital Structure and Liabilities

34. As noted above, the Debtor is a wholly owned subsidiary of Current Parent. The Debtor has no funded debt as of the Petition Date. The Debtor's most significant liabilities relate to its Asbestos Claims (as discussed in greater detail in Part I.A above). The Debtor also has legacy environmental liabilities (which are dwarfed by asserted Asbestos Claims) and has *de minimis* other contested prepetition liabilities arising from pending non-asbestos-related litigation.

35. Environmental Liabilities. The Debtor has historical environmental liabilities related to, among other things, Owens-Illinois, Inc.'s prior operation of certain facilities, including,

but not limited to, in Ohio, Kentucky, Connecticut, New Jersey, and Georgia. The Debtor's liabilities with respect to these facilities relate to penalties for site closures, remediation expenses, exposure for cleanup of contamination, and alleged noncompliance with regulations. The Debtor also has liabilities associated with Owens-Illinois, Inc.'s involvement in a number of other administrative and legal proceedings regarding the responsibility for the cleanup of hazardous waste or damages claimed to be associated with it and with Owens-Illinois, Inc.'s involvement in some minor claims for environmental remediation of properties sold to third parties.

III. FIRST DAY PLEADINGS[2]

36. To preserve value for all stakeholders, the Debtor has sought approval of the First Day Pleadings and related orders (the "**Proposed Orders**"), and respectfully requests that the Court consider entering the Proposed Orders granting such First Day Pleadings. The Debtor seeks authority, but not direction, to pay amounts or satisfy obligations with respect to the relief requested in any of the First Day Pleadings.

37. I have reviewed each of the First Day Pleadings, Proposed Orders, and exhibits thereto (or have otherwise had their contents explained to me), and the facts set forth therein are true and correct to the best of my knowledge, information, and belief. Moreover, I believe that the relief sought in each of the First Day Pleadings (a) is vital to enabling the Debtor to make the transition to, and operate in, chapter 11 with minimum interruptions and disruptions to its business or loss of value and (b) constitutes a critical element in the Debtor's being able to successfully maximize value for the benefit of its estate.

[2] Unless otherwise defined herein, all capitalized terms in this Section shall have the meanings ascribed to them in the applicable First Day Pleadings.

A. Motion to Limit Notice and Approve Notice Procedures[3]

38. In the Motion to Limit Notice and Approve Notice Procedures, the Debtor seeks entry of interim and final orders (i) authorizing the Debtor to file a list of the top 24 law firms with the most significant Asbestos Claimant (as defined in the Motion to Limit Notice and Approve Notice Procedures) representations as determined by the volume and value of payments made on account of Asbestos Claims asserted against the Debtor in lieu of a list of the holders of the top 20 largest unsecured claims; (ii) approving the implementation of notice procedures by which the Debtor shall (a) list the addresses of known counsel of record for the Asbestos Claimants and known counsel under the Administrative Claims Agreements, in lieu of the addresses of the Asbestos Claimants themselves, on the Debtor's creditor matrix and (b) send required notices, mailings, and other communications related to the Chapter 11 Case to such known counsel of record for the Asbestos Claimants and known counsel under the Administrative Claims Agreements in lieu of sending such notices, mailings, and other communications directly to the Asbestos Claimants themselves (the "**Notice Procedures**"); and (iii) granting related relief.

1. *List of 24 Law Firms with the Most Significant Asbestos Claimant Representations*

39. As described herein, the Debtor is currently subject to Asbestos Claims presented to the Debtor through Administrative Claims Agreements and is also named as a defendant in pending Asbestos Claim litigation. The vast majority of the Debtor's known creditors are Asbestos Claimants. As a result, the Debtor anticipates that the Office of the United States Trustee for the District of Delaware (the "**U.S. Trustee**") will appoint an official committee of asbestos claimants to represent the interests of the Asbestos Claimants in the Chapter 11 Case. The Debtor does not

[3] "**Motion to Limit Notice and Approve Notice Procedures**" means the *Motion of Debtor for Entry of Interim and Final Orders (I) Authorizing the Filing of a List of the Top 24 Law Firms Representing Asbestos Claimants, (II) Approving Certain Notice Procedures for Asbestos Claimants, and (III) Granting Related Relief*.

expect that the U.S. Trustee will also seek to appoint a separate official committee comprised solely of holders of non-asbestos claims against the Debtor as the Debtor has relatively few unsecured creditors compared to the number of Asbestos Claimants.

40. I do not believe that listing individual Asbestos Claimants with the largest unsecured claims against the Debtor would facilitate the U.S. Trustee's appointment of an asbestos claimants creditors' committee. I believe attempting to designate certain individual Asbestos Claimants as holding the "largest" unsecured claims would be arbitrary. The vast majority of pending Asbestos Claims are disputed, contingent, and/or unliquidated and therefore would be incredibly difficult to value. I therefore believe that providing the U.S. Trustee with a list of the top 24 law firms with the most significant Asbestos Claimant representations as determined by the volume and value of payments made on account of Asbestos Claims asserted against the Debtor in lieu of a list of the 20 largest unsecured claims against the Debtor would better assist the U.S. Trustee in forming such a committee.

41. I understand that most Asbestos Claimants present Asbestos Claims to the Debtor through Administrative Claims Agreements. The Debtor usually resolves such Asbestos Claims promptly after receiving a qualifying submission from the applicable plaintiffs' law firm and therefore does not have many pending (i.e., submitted-but-unresolved) claims on its books and records. Accordingly, in order to identify the top plaintiffs' firms, the Debtor reviewed historical data of which firms have submitted the highest volume of Asbestos Claims and have resolved the highest value of Asbestos Claims in the past 10 years. In addition to listing the law firms with the most significant Asbestos Claimant representations as determined by volume and value of payments, I understand that the Debtor also included any law firms representing Asbestos

Claimants with any unpaid but liquidated Asbestos Claims in excess of $200,000 as of the Petition Date.

2. *The Asbestos Claimant Notice Procedures*

42. In the Motion to Limit Notice and Approve Notice Procedures, the Debtor also seeks to implement the Notice Procedures by which the Debtor will (i) list the addresses of known counsel of record for the Asbestos Claimants and known counsel under the Administrative Claims Agreements, in lieu of the addresses of the Asbestos Claimants themselves, on the Debtor's creditor matrix and (ii) send required notices, mailings, and other communications related to the Chapter 11 Case to such known counsel of record for the Asbestos Claimants and known counsel under the Administrative Claims Agreements in lieu of sending such communications directly to the Asbestos Claimants themselves.

43. I understand that the Debtor does not routinely receive individual address information for Asbestos Claimants in Asbestos Claim litigation or under Administrative Claims Agreements, and therefore does not track or retain such information. As described above, for claims submitted under the Administrative Claims Agreements, the Debtor usually resolves such Asbestos Claims promptly after receiving a qualifying submission from the applicable plaintiffs' law firm and therefore does not have many pending (i.e., submitted-but-unresolved) claims on its books and records. Further, the Debtor rarely receives contact information for such Asbestos Claimants pursuant to Administrative Claims Agreements.[4] For Asbestos Claims pending in the tort system, the Debtor tracks the Asbestos Claimant's name, but ordinarily the pleadings and

[4] I understand that the Debtor does have some identifying personal information about certain Asbestos Claimants for certain settled-but-unpaid claims existing as of the Petition Date, as well as some submitted Asbestos Claims that remain unresolved as of the Petition Date. However, the Debtor generally is not given and does not have contact information for such Asbestos Claimants.

publicly available discovery materials do not contain identifying contact information for such plaintiffs.

44. Instead, I understand that the Debtor typically tracks the address information of the counsel and/or law firm of record for the Asbestos Claimants in the tort system and named counsel party to the Administrative Claims Agreements, and conducts all communications regarding the related litigation and/or pending claims and Asbestos Claims through such counsel. Collecting the individual addresses of the Asbestos Claimants, I believe, would require a massive, expensive and time-consuming effort, including a search beyond the Debtor's existing books and records. Even if the Debtor did undergo this effort, I believe that it would likely be near impossible to locate and ensure the accuracy of such information for each Asbestos Claimant. As a result, the Debtor requests authority to list the addresses of the counsel of record for each Asbestos Claimant and named counsel under the Administrative Claims Agreements instead of the addresses of individual Asbestos Claimants on the Debtor's creditor matrix.

45. In addition, I understand that throughout the course of the Chapter 11 Case, various notices, mailings, and other communications will need to be sent to the Asbestos Claimants. In order to ensure that these claimants receive proper and timely notice of filings and critical events in the Chapter 11 Case, the Debtor requests authority to direct Prime Clerk, LLC, the Debtor's proposed claims and noticing agent (the "**Claims and Noticing Agent**"), to send required notices, mailings, and other communications to the counsel of record for the Asbestos Claimants and named counsel under the Administrative Claims Agreements, in the manner required pursuant to otherwise applicable noticing procedures in effect in the Chapter 11 Case, *provided* that the Debtor will (or will direct the Claims and Noticing Agent to) send required notices, mailings, and other communications directly to any Asbestos Claimants who so request such direct notice from the

Debtor in writing. As to those Asbestos Claimants, if any, whose personal addresses are known to the Debtor, the Debtor shall send required notices, mailings, and other communications related to the Chapter 11 Case to such Asbestos Claimants at their personal addresses, as well as to their known counsel. Additionally, for those law firms representing multiple Asbestos Claimants (including those law firms party to the Administrative Claims Agreements), the Debtor seeks authorization to serve each document only a single time on such law firms (at each relevant address) on behalf of all such counsel's clients, *provided* that any notice or other document relating specifically to one or more particular Asbestos Claimants (rather than all Asbestos Claimants represented by such law firm) shall clearly identify such parties.

46. I believe that by implementing the Notice Procedures, the actual notice that Asbestos Claimants will receive via their counsel will be superior to the notice that the Asbestos Claimants would receive if the Debtor were to attempt to deliver notices and other communications directly to such claimants. In addition, I understand that the address for counsel to the Asbestos Claimants is more likely to remain unchanged over time, and hence providing notice to the counsel of record will allow for more accurate notice to Asbestos Claimants. Moreover, I believe that the Notice Procedures will also significantly ease the Debtor's administrative burden of sending notices to thousands of Asbestos Claimants, resulting in a more cost-effective notice procedure that benefits the Debtor's estate and creditors.

B. Claims Agent Retention Application[5]

47. Pursuant to the Claims Agent Retention Application, the Debtor is seeking entry of an order appointing Prime Clerk, LLC ("**Prime Clerk**"), as claims and noticing agent in the

[5] "**Claims Agent Retention Application**" means the *Application of Debtor for Appointment of Prime Clerk LLC as Claims and Noticing Agent.*

Chapter 11 Case, effective as of the Petition Date, to assume full responsibility for the distribution of notices and the maintenance, processing, and docketing of proofs of claim filed in the Chapter 11 Case. It is my understanding that the Debtor's selection of Prime Clerk to act as the Claims and Noticing Agent has satisfied the Court's *Protocol for the Employment of Claims and Noticing Agents under 28 U.S.C. § 156(c)*, in that the Debtor has obtained and reviewed engagement proposals from at least two other Court-approved claims and noticing agents to ensure selection through a competitive process. Moreover, I understand that, based on all engagement proposals obtained and reviewed, Prime Clerk's rates are competitive and reasonable given Prime Clerk's quality of services and expertise.

48. Although the Debtor has not yet filed its schedules of assets and liabilities, it anticipates that there will be in excess of 200 entities to be noticed. In view of the number of anticipated claimants, I understand that the appointment of a claims and noticing agent is required by Local Rule 2002-1(f), and I believe that it is otherwise in the best interests of both the Debtor's estate and its creditors.

C. Cash Management and Services Agreement Motion[6]

1. *The Cash Management System*

49. I understand that the Debtor maintains a bank account (the "**Bank Account**") at Fifth Third Bank (the "**Bank**"), into which all rent payments received pursuant to the Ground Lease are deposited, and which serves as the Support Account into which the proceeds of all payments made pursuant to the Support Agreement are deposited. I have been informed that, as of the Petition Date, the Bank Account holds approximately $40.6 million in cash, derived from

[6] "**Cash Management and Services Agreement Motion**" means the *Motion of Debtor for Entry of Interim and Final Orders Authorizing Debtor to (I) Maintain Cash Management System, Bank Account, and Business Forms, (II) Perform Under Services Agreement, and (III) Granting Related Relief.*

(i) an initial payment under the Support Agreement and (ii) additional cash left behind at Owens-Illinois, Inc. in the Corporate Modernization Transaction, which became cash of the Debtor upon the Merger. Additionally, I understand that, pursuant to the Support Agreement, Current Parent is required to make available funding to maintain a balance of at least $5 million in the Bank Account. All proceeds from the Debtor's operations (and funding provided pursuant to the Support Agreement) are deposited into the Bank Account, and all disbursements, including checks, drafts, wires, and automated clearing house transfers, are issued from the Bank Account. The Bank Account was established in connection with the Corporate Modernization Transaction and it is my understanding that the Debtor has never held a bank account other than the Bank Account.

50. The Debtor may use a variety of preprinted business forms, including checks, letterhead, correspondence forms, invoices, and other business forms in the ordinary course of business (collectively, and as they may be modified from time to time, the "**Business Forms**"). To avoid a significant disruption to the Debtor's operations that would result from a disruption of the Debtor's cash management system (the "**Cash Management System**"), and to avoid unnecessary expense, the Debtor is requesting authority to continue using all Business Forms in use before the Petition Date, including with respect to the Debtor's ability to update authorized signatories and services, as needed—without reference to the Debtor's status as a chapter 11 debtor-in-possession—rather than requiring the Debtor to incur the expense and delay of ordering or printing new Business Forms. I understand that the Debtor will use reasonable efforts to have the designation "Debtor-in-Possession" and the corresponding bankruptcy case number printed on any Business Forms reordered after the Debtor exhausts its existing supply.

51. I have been informed that the Debtor incurs periodic service charges and other fees in connection with maintenance of the Cash Management System (the "**Bank Fees**"). The Bank

Fees are paid monthly and are automatically deducted from the Bank Account as they are assessed by the Bank. As of the Petition Date, I believe that any Bank Fees outstanding are *de minimis*.

2. *The Services Agreement*

52. I believe that the Services Agreement is of vital importance to the Debtor as without the Services Agreement, the Debtor (which does not have any of its own employees, much less the infrastructure to support its back-office requirements) would be unable to perform basic legal, finance, corporate, administrative, and other tasks necessary to support its business operations. The Services Agreement allows the Debtor to operate its treasury system, maintain its books and records, and comply with applicable tax requirements. Under the Services Agreement, the Debtor also has access to certain critical employees with historical knowledge relating to the defense and management of the Debtor's asbestos liabilities, and expertise relating to such matters. Accordingly, I believe that Current Parent's (and/or its affiliates') provision of services to the Debtor under the Services Agreement results in efficiencies and saved costs.

53. Pursuant to the Services Agreement, the Debtor (together with Meigs and any future subsidiaries that the Debtor may form, each a "**Service Recipient**") is eligible to receive one or more services (collectively, the "**Services**") from Current Parent (together with its subsidiaries other than the Debtor and its subsidiaries, each a "**Service Provider**") set forth in Exhibit A of the Service Agreement, which are incorporated by reference herein, on an as-needed basis.[7] The Services Agreement includes the following key financial terms:[8]

- Service Fees. Each Service will be provided to Service Recipient at Service Provider's Cost (as defined below), as determined by Current Parent in its

[7] Current Parent may also, in its sole discretion, engage or otherwise subcontract with third parties to assist with the performance of any Services under the Services Agreement.

[8] The summary contained herein is qualified in its entirety by the provisions of the Services Agreement. To the extent that anything in this Declaration is inconsistent with the terms of the Services Agreement, the Services Agreement will control.

reasonable discretion, in accordance with Exhibit B to the Services Agreement. The term "**Cost**" represents the direct cost to provide a Service. The intent is to assign to the Service all direct costs, including direct labor, direct supervision, benefits, travel and related costs, service-related training, and any direct third-party costs incurred to provide the Service. Average departmental labor rates are normally used to charge direct labor to a product or Service. Actual material purchase prices are used to charge direct materials to a product or Service.

- Billing. Current Parent will determine by line item in Exhibit A to the Services Agreement the projected cost of Services to be provided in the calendar year, and will deliver this projection to the Debtor on or before March 1 of such calendar year and every year thereafter. Once agreed, the sum total of these projected costs will be charged to the Debtor in advance in four equal quarterly installments. At the conclusion of each year, Current Parent will determine the actual cost of the Services provided during the year and provide a comparison to the projected costs to the Debtor by March 1 of the following year. Once agreed, any differences between the actual costs and the projected costs charged during the year will be credited or charged, as applicable, to the Debtor on the first quarterly invoice billed in the following year.

- Change Requests and Amendments. If Current Parent or the Debtor desires a change in the scope of the Services, the party requesting the change will submit a written request for change of Service (the "**Change Request**"). Within 30 days after receipt of the Change Request, Current Parent and the Debtor will negotiate in good faith regarding mutually acceptable changes in the scope of the Services. Current Parent and the Debtor may substitute one or more revised versions of Exhibit A to the Services Agreement as they mutually agree to from time to time.

54. I have been informed that the estimated cost of receiving the Services the Debtor currently receives under the Services Agreement will total approximately $300,000 to $450,000 per quarter in 2020. I understand that the Debtor's payments to Current Parent under the Services Agreement are a Permitted Use under the Support Agreement and thus, subject to the terms of the Support Agreement, Current Parent has funding obligations to the Debtor that correspond to the Debtor's obligations under the Services Agreement.

55. I believe that this cost is reasonable in light of the scope of the Services and the facts of the Chapter 11 Case, and that the Court should authorize the Debtor to continue to perform under the Services Agreement. In particular, I believe that the anticipated allocated cost is fair and

appropriate, and that the Debtor would be unable to receive the Services at a similarly competitive cost in the marketplace.

CONCLUSION

56. As discussed above, the Debtor's ultimate goal in this Chapter 11 Case is to confirm a plan of reorganization providing for a trust mechanism that will address all current and future Asbestos Claims against the Debtor while simultaneously preserving value and allowing the Debtor to emerge from chapter 11 free of asbestos-related liabilities. I believe that if the Court grants the relief requested in each of the First Day Pleadings, the prospect for achieving confirmation of a chapter 11 plan will be substantially enhanced.

57. I hereby certify that the foregoing statements are true and correct to the best of my knowledge, information and belief, and respectfully request that all of the relief requested in the First Day Pleadings be granted, together with such other and further relief as is just and proper.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 6th day of January, 2020.

Support Agreement

SUPPORT AGREEMENT

This SUPPORT AGREEMENT, dated as of December 27, 2019 (as it may be amended, restated, modified or supplemented from time to time, this "Agreement"), is between O-I Glass, Inc., a Delaware corporation ("Payor"), and Paddock Enterprises, LLC, a Delaware limited liability company ("Payee").

RECITALS

A. The predecessor of Payee (the "Predecessor") has received thousands of claims from individuals alleging bodily injury and death as a result of exposure to asbestos from a product manufactured by the Predecessor between 1948 and 1958. Payee is currently a defendant in approximately 900 lawsuits alleging such claims, and expects to continue to receive such claims, both informally and through additional lawsuits. As a result, Payee has considered seeking relief under the Bankruptcy Code (as defined below) for the purpose of confirming a Plan (as defined below).

B. Payor is the sole member of Payee and Payee is intended to be treated as an entity disregarded as separate from Payor solely for U.S. federal tax and applicable state and local tax purposes.

C. On December 25, 2019, the Board of Payor approved (1) execution and delivery of the Assignment and Assumption Agreement; and (2) execution and delivery of this Agreement.

D. On December 26, 2019, the Board of Payee approved (1) a dividend resulting in the distribution of all equity shares in Owens-Illinois Group, Inc. ("O-I Group"), a Delaware corporation and wholly-owned subsidiary of Payee, to Payor (the "Dividend"); (2) execution and delivery of the Assumption and Assignment Agreement (as defined below) (the "Assignment"); and (3) execution and delivery of this Agreement.

E. On December 26, 2019, effective immediately after the effective time of the Merger, the Assignment became effective.

F. On the date hereof, effective as of 7 a.m. prevailing Eastern Time (the "Dividend Effective Time"), all shares of O-I Group will be distributed to Payor, in its capacity as sole member of Payee, and Payee will retain all other assets it holds as of the Dividend Effective Time.

G. In connection with, and effective just prior to the Dividend Effective Time (the "Agreement Effective Time"), Payor has agreed, pursuant to the terms of this Agreement, to provide support to Payee sufficient to pay the costs of operating Payee's business, as well as to satisfy all other liabilities of Payee specified herein (the "Covered Liabilities") on the terms set forth herein, such that, at and following the Dividend Effective Time, Payee has and will have assets having a value greater than its liabilities and will have financial capacity sufficient to satisfy its obligations as they become due in the ordinary course of business, including any Asbestos Related Liabilities (as defined below) and Environmental Liabilities (as defined below).

AGREEMENT

In consideration of the foregoing, the parties hereto agree as follows:

1. **Definitions**. As used in this Agreement, the following terms have the meanings herein specified unless the context otherwise requires:

"524(g) Confirmation Order" has the meaning set forth in the definition of "Permitted Use".

"524(g) Plan" has the meaning set forth in the definition of "Permitted Use".

"Affiliate" of any specified Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For purposes of this definition, "control," as used with respect to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise. For purposes of this definition, the terms "controlling," "controlled by" and "under common control with" have correlative meanings.

"Agreement" has the meaning specified in the preamble of this Agreement.

"Asbestos Related Liabilities" has the meaning specified in Schedule 1 to this Agreement.

"Assignment" has the meaning specified in the recitals to this Agreement.

"Assumption and Assignment Agreement" means that certain Assumption and Assignment Agreement dated as of December 26, 2019 between Payor and Payee.

"Bankruptcy Case" means any voluntary case under chapter 11 of the Bankruptcy Code commenced by the Payee in the Bankruptcy Court.

"Bankruptcy Code" means Title 11 of the United States Code, as amended from time to time and any successor statute and all rules and regulations promulgated thereunder.

"Bankruptcy Court" means the United States Bankruptcy Court where the Bankruptcy Case is commenced.

"Base Rate" means, for any day, a fluctuating interest rate per annum as shall be in effect from time to time, which rate per annum shall at all times be equal to the greater of: (a) the rate of interest established by Bank of America, N.A from time to time, as its "prime rate," whether or not publicly announced, which interest rate may or may not be the lowest rate charged by it for commercial loans or other extensions of credit; and (b) the Federal Funds Effective Rate in effect from time to time, determined one Business Day in arrears, plus 1/2 of 1% per annum.

"Board" means: (a) with respect to a corporation, the board of directors of the corporation or any committee thereof; (b) with respect to a partnership, the board of directors of the general partner of the partnership; (c) with respect to a limited liability company, the managing member or members or the board of managers, as applicable, of the limited liability company; and (d) with respect to any other Person, the board or committee of such Person serving a similar function.

"Business Day" means each day other than a Saturday, a Sunday or a day on which banking institutions in Wilmington, Delaware or at a place of payment are authorized by law, regulation or executive order to remain closed.

"Capital Stock" means: (a) in the case of a corporation, corporate stock; (b) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock; (c) in the case of a partnership or limited liability company, partnership or membership interests (whether general or limited); and (d) any other interest or participation that confers on a Person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing Person, but excluding (in each case of (a) through (d) above) any debt securities convertible into such equity securities.

"Confirmation Order" means either a 524(g) Confirmation Order or a Non-524(g) Confirmation Order.

"Contractual Obligation" means, as to any Person, any obligation or similar provision of any security issued by such Person or any agreement, instrument or other undertaking (excluding this Agreement) to which such Person is a party or by which it or any of its property is bound.

"Covered Liabilities" has the meaning specified in the recitals to this Agreement.

"Default" means any event that is, or with the passage of time or the giving of notice or both would be, an Event of Default.

"District Court" means the United States District Court in the district of the Bankruptcy Court.

"Dividend" has the meaning specified in the recitals to this Agreement.

"Dividend Effective Time" has the meaning specified in the recitals to this Agreement.

"Environmental Liabilities" has the meaning set forth in Schedule 2 to this Agreement.

"Event of Default" has the meaning specified in Section 6.

"Federal Funds Effective Rate" means, for any period, a fluctuating interest rate equal for each day during such period to the weighted average of the rates on overnight Federal Funds transactions with members of the Federal Reserve System arranged by Federal Funds brokers, as published for such day (or, if such day is not a Business Day, for the next preceding Business Day) by the Federal Reserve Bank of New York.

"GAAP" means generally accepted accounting principles in the United States set forth in the opinions and pronouncements of the Accounting Principles Board and the American Institute of Certified Public Accountants and statements and pronouncements of the Financial Accounting Standards Board or such other principles as may be approved by a significant segment of the accounting profession in the United States, in effect from time to time, consistently applied. If at any time any change in GAAP (including any adoption of International Financial Reporting Standards) would materially affect the computation of any amount required to be computed under this Agreement, the Payor may give written notice to the Payee of its intent to preserve the original intent of this Agreement and upon delivery of such notice, such amounts shall be calculated in accordance with GAAP as in effect at the end of the fiscal period ended immediately prior to such change in GAAP.

"Governmental Authority" means the government of the United States or any other nation, or of any political subdivision thereof, whether state or local, and any agency, authority, instrumentality regulatory body, court, central bank or other entity exercising executive, legislative, judicial, taxing, regulatory or administrative powers or functions of or pertaining to government.

"Initial Payment" has the meaning specified in Section 2(a).

"Merger" means the merger of Owens-Illinois, Inc. with and into Payee pursuant to the terms of the Merger Agreement.

"Merger Agreement" means that certain Agreement and Plan of Merger dated as of December 26, 2019 by and among Owens-Illinois, Inc., a Delaware corporation, Payor, and Payee (as it may be amended, restated, modified or supplemented from time to time).

"Non 524(g) Confirmation Order" has the meaning set forth in the definition of "Permitted Use".

"Non 524(g) Plan" has the meaning set forth in the definition of "Permitted Use".

"O-I Group" has the meaning specified in the recitals to this Agreement.

"Organizational Documents" means, (a) with respect to any corporation, its certificate or articles of incorporation and bylaws, (b) with respect to any limited liability company, its certificate or articles of formation or organization and operating agreement, and (c) with respect to any partnership, joint venture, trust or other form of business entity, the partnership, joint venture or other applicable agreement of formation or organization and any agreement, instrument, filing or notice with respect thereto filed in connection with its formation or organization with the applicable Governmental Authority in the jurisdiction of its formation or organization and, if applicable, any certificate or articles of formation of such entity.

"Payee" has the meaning specified in the preamble of this Agreement.

"Payee Material Adverse Effect" means (a) a material impairment of the rights and remedies of the Payor under this Agreement, or of the ability of the Payee to perform its material obligations under this Agreement, or (b) a material adverse effect upon the legality, validity or enforceability of this Agreement against the Payee.

"Payee Subsidiary" means any wholly-owned Subsidiary of the Payee and for avoidance of doubt shall exclude the Payor and the Payor Affiliates.

"Payment" has the meaning specified in Section 2(a).

"Payment Cap" means the sum of (x) the fair market value of the equity shares in O-I Group subject to the Dividend and (y) the net value of assets, if any, subject to the Assignment.

"Payment Date" has the meaning specified in Section 2(b).

"Payor" has the meaning specified in the preamble of this Agreement.

"Payor Affiliate" means any Affiliate of the Payor other than the Payee and any Payee Subsidiary.

"Payor Material Adverse Effect" means (a) a material adverse change in, or a material adverse effect upon, the business, assets, liabilities (actual or contingent) or financial condition of the Payor and the Payor Subsidiaries, taken as a whole, (b) a material impairment of the rights and remedies of the Payee under this Agreement, or of the ability of the Payor to perform its material obligations under this Agreement, or (c) a material adverse effect upon the legality, validity or enforceability of this Agreement against the Payor.

"Payor Subsidiaries" means any Subsidiaries of Payor other than Payee and any Payee Subsidiary.

"Permitted Use" means each of the following: (i) the payment of any and all costs and expenses of the Payee incurred in the normal course of its business (including, without limitation, the payment of any

indemnification or other obligations of the Payee owing to any managers or officers of the Payee) at any time when there is no Bankruptcy Case pending; (ii) the payment of any and all (a) administrative expenses incurred during the pendency of any Bankruptcy Case that have been allowed by an order of the Bankruptcy Court and (b) other costs and expenses of the Payee incurred during the pendency of any Bankruptcy Case that are necessary or appropriate in the judgment of the Payee's Board, collectively including the costs of administering the Bankruptcy Case and any and all other costs and expenses of the Payee incurred in the normal course of its business during the pendency of the Bankruptcy Case (including, without limitation, the payment of any indemnification or other obligations of the Payee owing to any managers or officers of the Payee); (iii) the funding of any amounts necessary or appropriate in the judgment of Payee's Board to satisfy (a) Payee's Asbestos Related Liabilities and Environmental Liabilities established by one or more final and non-appealable judgments of a court of competent jurisdiction or final settlement thereof prior to the commencement of any Bankruptcy Case and any ancillary costs and expenses of the Payee associated with the pursuit of such Asbestos Related Claims or Environmental Claims; and (b) following the commencement of any Bankruptcy Case, (1) Payee's Asbestos Related Liabilities (A) in connection with the funding of a trust under section 524(g) of the Bankruptcy Code for the benefit of existing and future claimants that is included in a plan of reorganization for the Payee proposed or supported by the Payee (a "524(g) Plan") and confirmed by a final, nonappealable order of the Bankruptcy Court and the District Court, which order or orders determine the aggregate amount of such Asbestos Related Liabilities on the basis of evidence in the record of the Bankruptcy Case (a "524(g) Confirmation Order") or (B) in connection with consummation of a plan of reorganization for the Payee proposed or supported by the Payee that does not provide for a trust under section 524(g) of the Bankruptcy Code (a "Non-524(g) Plan") that is confirmed by a final, nonappealable order of the Bankruptcy Court (a "Non 524(g) Confirmation Order"), which Asbestos Related Liabilities have been allowed by one or more final, nonappealable orders of the Bankruptcy Court or District Court pursuant to a formal claims allowance process established in the Bankruptcy Case in respect of such Asbestos Related Liabilities; (2) any Environmental Liabilities in amounts that are allowed or are deemed allowed under a Plan; (3) any other claims allowed or deemed allowed under a Plan that are not in respect of Asbestos-Related Liabilities or Environmental Liabilities; (iv) the funding of any amounts necessary to cause the Support Account to contain at least $5,000,000 at all times prior to the effective date of a Plan; (v) the funding of any obligations of the Payee owed to the Payor or any Payor Affiliate, including, without limitation, any indemnification or other obligations of the Payee under the Services Agreement and Merger Agreement; and (vi) any and all taxes incurred by Payee as a result of the Merger, Dividend and/or Assignment; in the case of clauses (i) through (vi) above, solely to the extent that any cash distributions theretofore received by the Payee from any Payee Subsidiary are insufficient to pay such costs and expenses and fund such amounts and obligations in full and further, in the case of clause (iii)(b) above, solely to the extent that cash distributions from any Payee Subsidiary and Payee's other assets are collectively insufficient to fund amounts required by a Confirmation Order.

"Person" means any individual, corporation, partnership, limited liability company, joint venture, trust, unincorporated organization, or government or any agency or political subdivision thereof.

"Plan" means a 524(g) Plan or a Non-524(g) Plan.

"Predecessor" has the meaning specified in the recitals of this Agreement.

"SEC" means the Securities and Exchange Commission.

"Services Agreement" means that certain Services Agreement between Payor and Payee (as it may be amended, restated, modified or supplemented from time to time).

"Subsidiary" means any Person a majority of the outstanding Voting Stock of which is owned or controlled by another Person or by one or more other Subsidiaries of such Person.

"Support Account" means the account of the Payee listed on Schedule 3 to this Agreement, into which the proceeds of all Payments made under this Agreement shall be deposited, or such other account designated in writing by the Payee to the Payor from time to time.

"Support Request" has the meaning specified in Section 2(b).

"USD" means United States dollars.

"Voting Stock" of any Person as of any date means the Capital Stock of such Person that is at the time entitled to vote in the election of the Board of such Person.

2. **Support Obligations and Procedures**.

(a) Support Obligations. The Payor hereby agrees, on the terms and conditions set forth in this Agreement, (1) to fund into the Support Account an initial sum of twenty million USD ($20,000,000) in cash on or before January 3, 2020, subject to mutual extension thereof (the "Initial Payment"), in addition to any amounts funded into the Support Account pursuant to any other agreement and (2) upon the request of the Payee from time to time in accordance with the requirements of Section 2(b), to make payments to the Payee (each, a "Payment") in an amount, together with all prior Payments, not to exceed the Payment Cap, the proceeds of which shall be used by the Payee for any Permitted Use. Nothing in this Agreement shall obligate the Payor to make Payments under this Agreement that in the aggregate exceed the lesser of (i) the Payment Cap and (ii) the aggregate amount necessary for the Payee to fund all Permitted Uses, and nothing in this Agreement shall obligate the Payor to make any individual Payment under this Agreement that exceeds the amount necessary for the Payee to fund the Payee's projected Permitted Uses over the 30 days following the date of such Payment.

(b) Support Requests. To request a Payment, the Payee shall deliver to the Payor a written request (which written request may be a .pdf delivered via email) for such Payment substantially in the form attached as Exhibit A hereto and signed by the Payee (each, a "Support Request"). Each Support Request shall specify (i) the amount of the requested Payment, which shall be no less than $1,000,000, and (ii) the date requested for such Payment, which shall be no earlier than the date that is three Business Days following the delivery of such Support Request (each such date, a "Payment Date"). Each Support Request by the Payee shall constitute a representation and warranty by the Payee that the conditions set forth in Section 2(d) have been satisfied and that there shall have been no uncured violation by the Payee of the covenants set forth in Section 5.

(c) Payments. Subject only to the satisfaction of the conditions set forth in Section 2(d), on any Payment Date, the Payor shall pay or cause to be paid to the Payee an amount equal to the amount of the requested Payment specified in the applicable Support Request. All Payments shall be made by wire or other transfer of immediately available funds, in USD, to the Support Account. In the event that the Payor does not make any Payment within the time period required by this Section 2(c), the amount of the requested Payment shall bear interest at a rate per annum equal to the Base Rate *plus* 2% until such Payment is made, and the Payor shall include any interest accruing pursuant to this Section 2(c) in the next Payment made to the Payee.

(d) Conditions to Payments. The Payor's obligation to make any Payment is subject to the satisfaction of the following conditions as of the date of the Support Request relating to such Payment: (i) the representations and warranties of the Payee set forth in Section 3(b) shall be true and correct without regard to the impact of any Bankruptcy Case, including any notices or other actions that may be required therein; and (ii) there shall have been no uncured violation by the Payee of the covenants set forth in Section 5.

3. **Representations and Warranties**.

(a) Representations and Warranties of the Payor. The Payor represents and warrants to the Payee that:

(i) Existence, Qualification and Power. The Payor (A) is duly organized or formed, validly existing and, as applicable, in good standing under the laws of its jurisdiction of incorporation or organization, (B) has all requisite power and authority and all requisite governmental licenses, authorizations, consents and approvals to (I) own or lease its material assets and carry on its business and (II) execute, deliver and perform its obligations under this Agreement and (C) is duly qualified and is licensed and, as applicable, in good standing under the laws of each jurisdiction where its ownership, lease or operation of properties or the conduct of its business requires such qualification or license; except in each case referred to in clause (B)(I) or (C), to the extent that failure to do so could not reasonably be expected to have a Payor Material Adverse Effect.

(ii) Authorization; No Contravention. The execution, delivery and performance by the Payor of this Agreement has been duly authorized by all necessary corporate or other organizational action, and does not and will not (A) contravene the terms of its Organizational Documents, (B) conflict with or result in any breach or contravention of, or the creation of any lien under, or require any payment to be made under (I) any Contractual Obligation to which it is a party or affecting it or its properties or (II) any order, injunction, writ or decree of any Governmental Authority or any arbitral award to which it or its property is subject, or (C) violate any applicable law, except in each case referred to in clause (B) or (C), to the extent the failure to do so could not reasonably be expected to have a Payor Material Adverse Effect.

(iii) Governmental Authorization; Other Consents. No approval, consent, exemption, authorization, or other action by, or notice to, or filing with, any Governmental Authority or any other Person is necessary or required in connection with the execution, delivery, or performance of this Agreement by, or enforcement against, the Payor.

(iv) Binding Effect. This Agreement has been duly executed and delivered by the Payor. This Agreement constitutes a legal, valid and binding obligation of the Payor, enforceable against the Payor in accordance with its terms, except to the extent such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or limiting creditors' rights generally and by equitable principles.

(b) Representations and Warranties of the Payee. The Payee represents and warrants to the Payor that:

(i) Existence, Qualification and Power. The Payee (A) is duly organized or formed, validly existing and, as applicable, in good standing under the laws of its jurisdiction of incorporation or organization, (B) has all requisite power and authority and all requisite governmental licenses, authorizations, consents and approvals to (I) own or lease its material assets and carry on its business and (II) execute, deliver and perform its obligations under this Agreement and (C) is duly qualified and is licensed and, as applicable, in good standing under the laws of each jurisdiction where its ownership, lease or operation of properties or the conduct of its business requires such qualification or license; except in each case referred to in clause (B)(I) or (C), to the extent that failure to do so could not reasonably be expected to have a Payee Material Adverse Effect.

(ii) Authorization; No Contravention. The execution, delivery and performance by the Payee of this Agreement has been duly authorized by all necessary corporate or other organizational action, and does not and will not (A) contravene the terms of its Organizational Documents, (B) conflict with or result in any breach or contravention of, or the creation of any lien under, or require any payment to be made under (I) any Contractual Obligation to which it is a party or affecting it or its properties or (II) any order, injunction, writ or decree of any Governmental Authority or any arbitral award to which it or its property is subject, or (C) violate any applicable law, except in each case referred to in clause (B) or (C), to the extent the failure to do so could not reasonably be expected to have a Payee Material Adverse Effect.

(iii) Governmental Authorization; Other Consents. No approval, consent, exemption, authorization, or other action by, or notice to, or filing with, any Governmental Authority or any other Person is necessary or required in connection with the execution, delivery, or performance of this Agreement by, or enforcement against, the Payee.

(iv) Binding Effect. This Agreement has been duly executed and delivered by the Payee. This Agreement constitutes a legal, valid and binding obligation of the Payee, enforceable against the Payee in accordance with its terms, except to the extent such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or limiting creditors' rights generally and by equitable principles.

4. **Covenants of the Payor**.

(a) Provision of Financial Information.

(i) The Payor will have (i) its annual financial statements audited by the Payor's independent registered public accountants and will furnish to the Payee, no later than 90 days after the end of each fiscal year (in the case of annual financial statements) and (ii) unaudited quarterly financial statements (other than the last fiscal quarter of each fiscal year) provided to Payee no later than 45 days after the end of such fiscal quarter. The unaudited quarterly and audited annual consolidated financial statements shall be prepared in accordance with GAAP subject, with respect to quarterly financial statements, to the absence of footnote disclosure and normal year-end audit adjustments.

(ii) By accepting such financial information, the Payee will be deemed to have represented to and agreed with the Payor that: (A) it will not use the information in violation of applicable securities laws or regulations; and (B) it will not communicate any such information not publicly disclosed by the Payor to any Person, including, without limitation, in any aggregated or converted form, and will keep such information confidential, other than where disclosure of such information is required by law, regulation or legal process (in which case the Payee shall, to the extent permitted by law, notify the Payor promptly thereof).

(iii) Notwithstanding the foregoing, the Payor may fulfill the requirement to distribute the financial information required by Section 4(a)(i) by filing the information with the SEC within the applicable time periods specified in the SEC's rules and regulations, including any applicable grace period or extension. The Payor will be deemed to have satisfied the reporting requirements of Section 4(a)(i) if it has filed such reports containing such information with the SEC within the applicable time periods specified in the SEC's rules and regulations, including any applicable grace period or extension, and such reports are publicly available.

(b) Successor to the Payor upon Consolidation or Merger.

(i) Subject to the provisions of Sections 4(b)(ii) and 4(b)(iii), nothing contained in this Agreement shall prevent any consolidation or merger of the Payor with or into any Person, or successive consolidations or mergers in which the Payor or its successor or successors shall be a party or parties, or shall prevent any sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all the property of the Payor (for the avoidance of doubt, calculated by including the equity interests of the Payor), to any Person; *provided*, *however*, and the Payor hereby covenants and agrees, that, if the surviving Person, acquiring Person or lessee is a Person other than the Payor, upon any such consolidation, merger, sale, assignment, transfer, lease, conveyance or other disposition, all of the Payor's funding obligations under this Agreement and the observance of all other covenants and conditions of this Agreement to be performed by the Payor, shall be expressly assumed by an amendment to this Agreement or such other documentation in form reasonably satisfactory to the Payee, executed and delivered to the Payee by the Person formed by such consolidation, or into which the Payor shall have been merged, or by the Person which shall have acquired or leased such property. This covenant will not apply to: (A) a merger of the Payor with an Affiliate solely for the purpose of reincorporating the Payor in another jurisdiction within the United States; (B) any conversion of the Payor from an entity formed under the laws of one state to the same type of entity formed under the laws of another state; or (C) any conversion of the Payor from a limited liability company to a corporation, from a corporation to a limited liability company, from a limited liability company to a limited partnership or a similar conversion, whether the converting entity and the converted entity are formed under the laws of the same state or the converting entity is formed under the laws of one state and the converted entity is formed of the laws of a different state, so long as, in each case, the surviving entity by operation of law remains bound by the provisions of this Agreement.

(ii) Upon any consolidation or merger, or any sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the assets of the Payor (for the avoidance of doubt, calculated by including the equity interests of the Payor) in a transaction that is subject to, and that complies with, the provisions of the preceding clause (i), the successor Person formed by such consolidation into or with which the Payor is merged or to which such sale, assignment, transfer, lease, conveyance or other disposition is made shall succeed to, and be substituted for (so that from and after the date of such consolidation, merger, sale, lease, conveyance or other disposition, the provisions of this Agreement referring to the "Payor" shall refer instead to the successor Person and not to the Payor), and may exercise every right and power of the Payor under this Agreement with the same effect as if such successor Person had been named as the Payor herein. In the event of a succession in compliance with this Section 4(b)(ii), the predecessor Person shall be relieved from every obligation and covenant under this Agreement upon the consummation of such succession.

(iii) Any consolidation, merger, sale, conveyance or lease referred to in the preceding clause (i) shall not be permitted under this Agreement unless immediately after giving effect to such transaction, no Default or Event of Default arising from any action or inaction by Payor shall have occurred and be continuing.

5. **Covenants of the Payee**.

(a) The Payee shall not use the proceeds of any Payment made under this Agreement for any purpose other than a Permitted Use; and

(b) The Payee will perform its indemnification obligations under the Merger Agreement in all material respects.

6. **Events of Default**. Each of the following events constitutes an "Event of Default":

(a) The Payee defaults in the performance of, or breaches, any covenant or representation or warranty of the Payee in this Agreement and such default or breach continues for a period of five (5) Business Days after there has been given to the Payee by the Payor a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a "Notice of Default" hereunder;

(b) the Payor defaults in its funding obligations pursuant to Section 2 and such default continues for a period of five (5) Business Days;

(c) the Payor defaults in the performance of, or breaches, any covenant or representation or warranty of the Payor in this Agreement (other than a covenant or representation or warranty which is specifically dealt with elsewhere in this Section 6) and such default or breach continues for a period of 90 days, or, in the case of any failure to comply with Section 4(a) of this Agreement, 180 days, in each case after there has been given to the Payor by the Payee a written notice specifying such default or breach and requiring it to be remedied and stating that such notice is a "Notice of Default" hereunder;

(d) the Payor, pursuant to or within the meaning of the Bankruptcy Code or any similar federal or state law for the relief of debtors, (i) commences a voluntary case, (ii) consents to the entry of an order for relief against it in an involuntary case, (iii) consents to the appointment of a custodian of it or for all or substantially all of its property, (iv) makes a general assignment for the benefit of its creditors, or (v) generally is not paying its debts as they become due; and

(e) a court of competent jurisdiction enters an order or decree under the Bankruptcy Code or any similar federal or state law for the relief of debtors that (i) is for relief against the Payor in the nature of an exercise of jurisdiction over all or the majority of Payor's assets, (ii) appoints a custodian of the Payor for all or substantially all of the property of the Payor, or (iii) orders the liquidation of the Payor, and, in each case of (i) through (iii) above, such order or decree remains unstayed and in effect for 60 consecutive days.

Upon becoming aware of any Default or Event of Default, the Payor or the Payee, as applicable, shall promptly deliver to the Payee or Payor, as applicable, a written statement specifying such Default or Event of Default.

7. **Remedies**. Upon the occurrence of any Event of Default, and at any time thereafter during the continuance of any such Event of Default, the non-defaulting Party may continue to enforce the performance of any provision of this Agreement, as applicable, and the Payee, if a non-defaulting Party may pursue any available remedy to collect any unfunded Payments due and owing to the Payee.

8. **Notices**. All notices required under this Agreement, including each Support Request and any approval of or objection to a Support Request, shall be delivered to the applicable party to this Agreement at the address set forth below. Unless otherwise specified herein, delivery of any such notice by email, facsimile or other electronic transmission (including .pdf) shall be effective as delivery of a manually executed counterpart thereof.

9. **Governing Law; Jury Trial Waiver**. This Agreement shall be governed and construed in accordance with the laws of the State of Delaware without regard to principles of conflict of law that would defer to the laws of another jurisdiction. **PAYOR AND PAYEE AGREE TO WAIVE TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM BROUGHT BY OR ON BEHALF OF THE PARTIES HERETO WITH RESPECT TO ANY MATTER RELATING TO OR ARISING OUT OF THE ENGAGEMENT OR THE PERFORMANCE OR NON-PERFORMANCE OF THE PARTIES HEREUNDER.** Payor and Payee agree, to the extent permitted by applicable law, (a) that any federal court sitting within the District of Delaware shall have exclusive jurisdiction over any litigation arising out of this Agreement; (b) to submit to the personal jurisdiction of the Courts of the United States District Court for the District of Delaware; (c) to waive any and all personal rights under the law of any jurisdiction to object on any basis (including, without limitation, inconvenience of forum) to jurisdiction or venue within the State of Delaware for any litigation arising in connection with this Agreement; and (d) in the event that the Payee commences a Bankruptcy Case, that (1) the Bankruptcy Court shall have exclusive jurisdiction over any and all matters arising under or in connection with this Agreement and that each of the Parties hereby consents to entry by the Bankruptcy Court of a final order in any dispute arising out of or related to this Agreement and (2) Payor shall be entitled to participate and be heard in any matters implicating, in any way, the scope, extent, timing, or enforceability of, or obligations under, this Agreement.

10. **No Implied Waiver; Amendments**. No failure or delay on the part of the Payee or Payor to exercise any right, power or privilege under this Agreement, and no course of dealing between the Payor, on the one hand, and the Payee, on the other hand, shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power or privilege under this Agreement preclude any other or further exercise thereof or the exercise of any other right, power or privilege. No notice to or demand on the Payor or the Payee in any case shall entitle the other Party to any other or further notice or demand in similar or other circumstances, or constitute a waiver of the right of the holder of this Agreement to any other or further action in any circumstances without notice or demand. The remedies provided in this Agreement are cumulative and not exclusive of any remedies provided by law. No amendment or waiver of any provision of this Agreement, nor consent to any departure by the Payee or the Payor therefrom, shall in any event be effective unless the same shall be in writing, specifically refer to this Agreement, and be signed by the Payor and the Payee, and then such amendment or waiver shall be effective only in the specific instance and for the specific purpose for which given. A waiver on any such occasion shall not be construed as a bar to, or waiver of, any such right or remedy on any future occasion.

11. **Counterparts; Entire Agreement; Electronic Execution**. This Agreement may be executed in separate counterparts, each of which shall constitute an original, but all of which when taken together shall constitute a single contract. This Agreement constitutes the entire contract among the parties relating to the subject matter hereof and supersedes, in its entirety, any prior written or oral agreement between the Parties on the subject matter herein. This Agreement shall become effective when it shall have been executed by each party hereto and each party shall have received counterparts hereof which, when taken together, bear the signatures of each of party hereto, and thereafter shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Delivery of an executed

counterpart of a signature page of this Agreement by telecopy, .pdf or any other electronic means that reproduces an image of the actual executed signature page shall be effective as delivery of a manually executed counterpart of this Agreement.

12. **Severability**. If any one or more of the provisions contained in this Agreement are invalid, illegal or unenforceable in any respect, the validity, legality or enforceability of all the remaining provisions will not in any way be affected or impaired. If any one or more provisions contained in this Agreement are deemed invalid, illegal or unenforceable because of their scope or breadth, such provisions shall be reformed and replaced with provisions whose scope and breadth are valid under applicable law and are consistent with the Parties' intentions with respect to the applicable invalid, illegal or unenforceable provisions.

13. **Transfer; Assignment**. This Agreement shall be binding upon the Payor and its successors and assigns, and the terms and provisions of this Agreement shall inure to the benefit of the Payee and its successors and assigns. The Payor's rights and obligations under this Agreement may not be assigned without the prior written consent of the Payee, which may be withheld in its sole and absolute discretion; provided, however, that no such consent of the Payee shall be required in connection with any transfer effected in compliance with Section 4(b). The Payee's rights and obligations under this Agreement may not be assigned without the prior written consent of the Payor, which may be withheld in its sole and absolute discretion.

14. **Rights of Parties**. This Agreement shall not confer any rights or remedies upon any Person other than the parties and their respective successors and permitted assigns.

SCHEDULE 1

Definition of Asbestos Related Liabilities

For purposes of this Agreement, "Asbestos Related Liabilities" means all Liabilities (as defined below) of the Payee related in any way to asbestos or asbestos containing materials.

Capitalized terms that are used in this Schedule 1 have the following meanings:

(a) "Cause of Action" means any claim, judgment, cause of action, counterclaim, crossclaim, third party claim, defense, indemnity claim, reimbursement claim, contribution claim, subrogation claim, right of set off, right of recovery, recoupment, right under any settlement Contract and similar right, whether choate or inchoate, known or unknown, contingent or noncontingent.

(b) "Contract" means any contract, agreement, arrangement, lease, indenture, mortgage, deed of trust, evidence of indebtedness, License, Plan, guarantee, understanding, course of dealing or performance, instrument, bid, order, proposal, demand, offer or acceptance, whether written or oral.

(c) "Governmental Authority" means any national, central, federal, state, provincial, municipal, local or other domestic, foreign or supranational governmental, legislative, administrative, or regulatory authority, agency, court, arbitration tribunal, board, department, commission or other governmental, or regulatory entity, including any competent governmental authority responsible for the determination, assessment or collection of taxes.

(d) "Law" means any federal, state, local, municipal or foreign statute, law, ordinance, decree, order, injunction, rule, regulation, directive, constitution, code, edict, writ, judgment, opinion, decree, injunction, stipulation, award or other document or pronouncement having the effect of law (including common law), of any Governmental Authority, and includes rules and regulations of any regulatory or self-regulatory authority with which compliance is required by any of the foregoing.

(e) "Liability" shall mean any claim, demand, offer, acceptance, action, suit, liability or obligation of any kind, whether accrued or fixed, absolute or contingent, matured or unmatured, determined or determinable, choate or inchoate, asserted or unasserted, known or unknown, including those arising or that may arise under any past, present, or future Law or Contract or pursuant to any Cause of Action or Proceeding, including all claims for economic or noneconomic damages or injuries of any type or nature whatsoever including claims for physical, mental, and emotional pain and suffering, loss of enjoyment of life, loss of society or consortium, wrongful death as well as claims for damage to property and/or punitive damages.

(f) "License" means any license, sublicense, agreement, covenant not to sue or permission.

(g) "Person" means any individual, corporation (including any non-profit corporation), general or limited partnership, limited liability company, joint venture, estate, trust, benefit plan, unincorporated organization, business, syndicate, sole proprietorship, association, organization, labor union, or other entity, association or Governmental Authority.

(h) "Plan" means, with respect to any Person, (a) any "employee benefit plan" (as defined in Section 3(3) of ERISA), (b) all specified fringe benefit plans as defined in Section 6039(D) of the Internal Revenue Code and (c) any other plan, program, policy, agreement or arrangement, whether or not in writing, relating to compensation, employee benefits, severance, change in control, retention,

deferred compensation, equity, employment, consulting, vacation, sick leave, paid time off, salary continuation, disability, hospitalization, medical insurance, life insurance, scholarship programs, incentive compensation or bonus compensation, in each case that is sponsored, maintained or contributed to or required to be sponsored, maintained or contributed to by, or otherwise covering such Person.

(i) "Proceeding" means any action, appeal, arbitration, assessment, cancellation, charge, citation, claim, complaint, concurrent use, controversy, contested matter, demand, grievance, hearing, inquiry, interference, investigation, litigation (including class actions and multidistrict litigation), mediation, opposition, re-examination, summons, subpoena or suit or other case or proceeding, whether civil, criminal, administrative, judicial or investigative, whether formal or informal, whether public or private, commenced, brought, conducted or heard by or before, under the supervision or direction of, or otherwise involving, any Governmental Authority or arbitrator or other agreed-upon tribunal or dispute resolution mechanism.

SCHEDULE 2

Definition of Environmental Liabilities

For purposes of this Agreement, "Environmental Liabilities" means all Liabilities (as defined below) of the Payee arising under or related to any Environmental Laws (as defined below); provided, for the avoidance of doubt, that Environmental Liabilities shall exclude any Asbestos Related Liabilities (as defined in Schedule 1).

Capitalized terms that are used in this Schedule 2 have the following meanings:

(a) "Cause of Action" means any claim, judgment, cause of action, counterclaim, crossclaim, third party claim, defense, indemnity claim, reimbursement claim, contribution claim, subrogation claim, right of set off, right of recovery, recoupment, right under any settlement Contract and similar right, whether choate or inchoate, known or unknown, contingent or noncontingent.

(b) "Contract" means any contract, agreement, arrangement, lease, indenture, mortgage, deed of trust, evidence of indebtedness, License, guarantee, understanding, course of dealing or performance, instrument, bid, order, proposal, demand, offer or acceptance, whether written or oral.

(c) "Environmental Law" means (a) the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986, 42 U.S.C. §§ 9601, et seq., (b) the Resource Conservation and Recovery Act, as amended by the Hazardous and Solid Waste Amendment of 1984, 42 U.S.C. §§ 6901, et seq., (c) the Clean Air Act, 42 U.S.C. §§ 7401, et seq., (d) the Clean Water Act of 1977, 33 U.S.C. §§ 1251, et seq., (e) the Toxic Substances Control Act, 15 U.S.C. §§ 2601, et seq., (f) all statutes, laws, rules, permits or regulations issued or promulgated by any Governmental Authority or court (including the common law), as they may be amended from time to time, relating to the protection and/or prevention of harm, contamination or pollution of or to the environment (including ecological systems and living organisms including humans and the following media whether alone or in combination: air (including air within buildings), water (including water under or within land or in pipe or sewage systems), land, buildings and soil) and (g) ordinances, rules, regulations, orders, notices of violation, requests, demands, permits and requirements issued or promulgated by any Governmental Authority in connection with such statutes or laws.

(d) "Governmental Authority" means any national, central, federal, state, provincial, municipal, local or other domestic, foreign or supranational governmental, legislative, administrative, or regulatory authority, agency, court, arbitration tribunal, board, department, commission or other governmental, or regulatory entity, including any competent governmental authority responsible for the determination, assessment or collection of taxes.

(e) "Liability" shall mean any claim, demand, offer, acceptance, action, suit, liability or obligation of any kind, whether accrued or fixed, absolute or contingent, matured or unmatured, determined or determinable, choate or inchoate, asserted or unasserted, known or unknown, including those arising or that may arise under any past, present, or future Environmental Law or Contract or pursuant to any Cause of Action or Proceeding.

(f) "License" means any license, sublicense, agreement, covenant not to sue or permission.

(g) "Proceeding" means any action, appeal, arbitration, assessment, cancellation, charge, citation, claim, complaint, concurrent use, controversy, contested matter, demand, grievance, hearing,

inquiry, interference, investigation, litigation, mediation, opposition, re-examination, summons, subpoena or suit or other case or proceeding, whether civil, criminal, administrative, judicial or investigative, whether formal or informal, whether public or private, commenced, brought, conducted or heard by or before, under the supervision or direction of, or otherwise involving, any Governmental Authority or arbitrator or other agreed-upon tribunal or dispute resolution mechanism.

EXHIBIT A

FORM OF SUPPORT REQUEST

EXECUTION VERSION

Paddock Enterprises, LLC
One Michael Owens Way, Plaza 1
Perrysburg, OH 43551-2999

[Date]

O-I Glass, Inc.
One Michael Owens Way, Plaza 1
Perrysburg, OH 43551-2999

Re: Support Request for Paddock Enterprises, LLC (this "**Support Request Letter**")

Ladies and Gentlemen:

Reference is hereby made to the Support Agreement, dated as of December 27, 2019 (as it may be amended, restated, modified or supplemented from time to time, the "**Support Agreement**"), by and between O-I Glass, Inc., a Delaware corporation ("**Payor**"), and Paddock Enterprises, LLC, a Delaware limited liability company ("**Payee**"). Capitalized terms used but not defined herein shall have the meanings assigned to such terms in the Support Agreement.

This Support Request Letter is executed and delivered by Payee to Payor pursuant to Section 2(b) of the Support Agreement. Payee hereby requests a Payment from Payor pursuant to the Support Agreement in the amount of $[amount] to be made on [date]. Payee hereby instructs Payor to disburse on the date of the Payment requested herein, the proceeds of the Payment to the Support Account.

In connection with the Payment requested herein, Payee hereby represents, warrants and certifies to Payor that:

i. proceeds from the Payment shall be used to fund Payee's projected Permitted Uses over the 30 days following the date of the Payment;

ii. the representations and warranties of Payee set forth in Section 3(b) of the Support Agreement are true and correct without regard to the impact of any Bankruptcy Case, including any notices or other actions that may be required therein; and

iii. there are no uncured violations by Payee of the covenants set forth in Section 5 of the Support Agreement.

[*Signature page follows*]

The undersigned hereby certifies each and every matter contained herein to be true and correct.

PADDOCK ENTERPRISES, LLC, a Delaware limited liability company, as the Payee

Exhibit 20

FILED & JUDGMENT ENTERED
David E. Weich

Jun 21 2010

Clerk, U.S. Bankruptcy Court
Western District of North Carolina

George R. Hodges
United States Bankruptcy Judge

UNITED STATES BANKRUPTCY COURT
FOR THE WESTERN DISTRICT OF NORTH CAROLINA
Charlotte Division

IN RE: GARLOCK SEALING TECHNOLOGIES LLC, et al. Debtors.	Case No. 10-BK-31607 Chapter 11 Jointly Administered
GARLOCK SEALING TECHNOLOGIES LLC, GARRISON LITIGATION MANAGEMENT GROUP, LTD., and THE ANCHOR PACKING COMPANY, Plaintiffs v. THOSE PARTIES LISTED ON EXHIBIT B TO COMPLAINT, and UNKNOWN ASBESTOS CLAIMANTS, Defendants.	Adversary Proceeding No. 10-03145

ORDER GRANTING PRELIMINARY INJUNCTION

This matter having come before the Court on June 21, 2010, on motion of the Debtors, as debtors-in-possession in the above-captioned jointly administered Chapter 11 cases, and as plaintiffs in the above-captioned Adversary Proceeding, for preliminary injunction (the "Motion") having filed on June 7, 2010 a Complaint in this Adversary Proceeding.

The following terms are defined for the purposes of this Order:

1. "Affiliates" means those non-debtor affiliates or assignees of the Debtors more particularly set forth on Exhibit A, incorporated herein by reference, as well as the directors, officers, employees, and counsel to the Debtors or such non-debtor affiliates or assignees.

2. "Pending Asbestos Actions" means pending asbestos-related claims against the Debtors and Affiliates, and in which the Defendants in this Adversary Proceeding are plaintiffs.

3. "Future Asbestos Actions" means all new actions or proceedings asserting asbestos-related claims against the Affiliates.

4. "Available Shared Insurance" means approximately $192 million of uncollected insurance shared by the Debtors and Affiliates, more particularly described in the Complaint in this Adversary Proceeding.

In support of this Order, the Court finds and concludes that:

1. The Court has jurisdiction to hear this Adversary Proceeding, the Motion, and the relief requested under 28 U.S.C. §§ 157 and 1334. This is a core proceeding under 28 U.S.C. § 157(b)(2)(A), (G) and (O).

2. On June 7, 2010, the court entered a Temporary Restraining Order ("TRO") restraining the Defendants from prosecuting all Pending Asbestos Actions and Future Asbestos Actions pending resolution of the Motion (Docket No. 19). The Court scheduled a hearing on the Motion for June 21, 2010 at 9:30 a.m.

3. The Court ordered the Debtors to serve the TRO on Defendants as set forth therein, and required that in order for any Defendant opposing the Motion to be heard, such Defendant must file a response or opposition to the Motion three days before the hearing. The

TRO and notice of hearing was properly served, and no party has filed any response or objection to the Motion.

4. The Debtors are defendants in approximately 100,000 asbestos-related personal injury law suits pending in various civil courts across the country. The Affiliates are defendants in approximately 30,000 Pending Asbestos Actions, almost all of which are asserted in actions pending against debtor Garlock Sealing Technologies LLC ("Garlock"). The Defendants are the plaintiffs in the Pending Asbestos Actions. Some of the Defendants allege that the Affiliates have derivative liability for the asbestos torts of the Debtors based on piercing the corporate veil, alter ego, or successor liability. Some Defendants have also alleged that exposure to asbestos contained in or used in connection with equipment manufactured by the Affiliates contributed to their injuries.

5. No Affiliate has ever paid a personal injury asbestos claim based on any of the legal theories described in the previous paragraph.

6. Coltec Industries Inc ("Coltec") is the sole shareholder of Garlock. Coltec and its predecessors purchased products liability insurance policies to cover defense costs and liability payments associated with, among other things, product liability claims against Coltec and its subsidiaries, including Garlock (the "Coltec Insurance Policies"). As a Coltec subsidiary, Garlock is entitled under the Coltec Insurance Policies in effect on or after January 1, 1976 to coverage for defense costs and liability payments associated with asbestos claims that trigger such Coltec Insurance Policies. Prior to these Cases, proceeds from the Coltec Insurance Policies have been used to pay most of the defense costs incurred and indemnity payments made to resolve asbestos claims against Garlock. In addition to Garlock, however, Coltec and the

other Affiliates also have rights to coverage of defense costs and liability payments under the Coltec Insurance Policies protecting such Affiliates from any asbestos-related losses.

7. To the extent that any Affiliate is required to incur defense costs and pay settlements or judgments in any Future Asbestos Actions or Pending Asbestos Actions, including those arising from allegations of injury caused by Garlock's products, such Affiliate is entitled to coverage for all or a portion of defense costs and liability payments under the Coltec Insurance Policies for any such claim that triggers such Coltec Insurance Policies. Collections under the Coltec Insurance Policies may be utilized by Coltec or Garlock to satisfy settlements, judgments or defense costs related to asbestos-related personal injury claims against either of them on a first paid basis.

8. There are approximately $192 million of collections available under the Coltec Insurance Policies. The Debtors filed these Chapter 11 cases in part to protect the Coltec Insurance Policies. To the extent necessary to pay asbestos personal injury claims in full, the Debtors contemplate using the full remaining Coltec Insurance Policy proceeds.

9. Garlock's interest in the Coltec Insurance Policies constitutes property of Garlock's estate.

10. The Debtors have demonstrated that, absent a stay of Pending Asbestos Actions and Future Asbestos Actions:

a. the Defendants will continue to prosecute their asbestos claims against the Affiliates which will deplete collections under the Coltec Insurance Policies and such depletion of the Coltec Insurance Policies will cause immediate and irreparable injury to the Debtors' estates and impair the Debtor's ability to successfully reorganize under Chapter 11 of the Bankruptcy Code; and

b. the Debtors will be forced to participate in the defense of Pending Asbestos Actions and Future Asbestos Actions to protect their own interests, the same key personnel of the Debtors required to defend the Affiliates in Pending Asbestos Actions and Future Asbestos Actions will be central to the Debtors' reorganization and resolution of thousands of Asbestos Claims that may be filed against the Debtors, and the Pending Asbestos Actions and Future Asbestos Actions will therefore compromise and impair the Debtors' ability to successfully reorganize.

11. The Debtors have demonstrated that the injunctive relief requested herein is necessary to protect property of the estate and is in the best interests of the Debtor and their estates, creditors, and other parties' interest.

12. The Debtors properly served copies of all relevant papers (including all exhibits to such papers) on counsel for all known Defendants pursuant to the Order Authorizing Service Of The Summons And Complaint On Counsel For Defendants And By Publication, dated June 8, 2010, including the Summons; Adversary Proceeding Complaint; Adversary Proceeding Coversheet; Motion for Temporary Restraining Order/Preliminary Injunction; Affidavit of Paul Grant; Brief in Support of Motion for Temporary Restraining Order/Preliminary Injunction; the TRO; and Order Authorizing Service Of Summons And Complaint On Counsel For Defendants And By Publication.

13. The Debtors have demonstrated that they have a high likelihood of a successful reorganization, are likely to suffer irreparable harm in the absence of preliminary relief, and the balance of equities tips in their favor.

14. Notice of the Motion, the hearing on the Motion, and the Complaint has been effectively given to all known Defendants consistent with Fed. R. Civ. P. 65(a)(1) and section 102(1) of the Bankruptcy Code, and no security shall be required in connection with the relief granted herein.

After due deliberation and cause appearing therefore, accordingly:

IT IS HEREBY ORDERED that the automatic stay of section 362(a) of the Bankruptcy Code stays any Pending Asbestos Action or Future Asbestos Action against the Affiliates (1) based on fraudulent transfer theory, piercing the corporate veil, alter ego, or successor liability; or (2) that results in diminishment of the Available Shared Insurance;

IT IS FURTHER ORDERED that, pursuant to sections 105(a) and 362(a), all parties, including Defendants in this action, their agents, servants, employees and counsel, are restrained and enjoined from prosecuting any Pending Asbestos Action or commencing any Future Asbestos Action against any Affiliate other than (1) pursuant to a plan or plans of reorganization to be confirmed in the above-captioned jointly administered Chapter 11 cases or (2) if any such claim is not addressed by such a plan or plans of reorganization, as provided in any final, non-appealable judgments, orders, or decrees entered in the above captioned Adversary Proceeding (Adversary Proceeding No. 10-03145(GRH));

IT IS FURTHER ORDERED that any Defendant may, without leave of court and after appropriate notice to the Debtors and the Affiliates, take reasonable steps to perpetuate the testimony of any person who is not expected to survive until trial, and such notice may be effected by service upon counsel of record for the Debtors and the Affiliates in this Adversary Proceeding;

IT IS FURTHER ORDERED that, subject to subsequent order by this Court, from June 7, 2010 until the sixtieth day after this Adversary Proceeding has been disposed of by final, non-appealable judgment, order, or decree, all statutes of limitation applicable to any Pending Asbestos Action, Future Asbestos Action, or any claim derivative of any Pending Asbestos Action or Future Asbestos Action, including without limitation any claim for fraudulent conveyance, piercing the corporate veil, alter ego, or successor liability, shall be tolled;

IT IS FURTHER ORDERED that nothing in this Order shall prevent any Affiliate from providing notice to insurance carriers or other appropriate persons or entities or otherwise exercising their rights under the Available Shared Insurance, provided that no Affiliates shall seek reimbursement or payment under any of the Available Shared Insurance without further order of this Court;

IT IS FURTHER ORDERED that this Order does not constitute a determination of the extent to which the Debtors or any of the Affiliates are entitled to coverage under the Available Shared Insurance;

IT IS FURTHER ORDERED that the Official Committee of Asbestos Personal Injury Claimants (“Committee”), which was duly appointed on June 16, 2010, shall have until August 20, 2010, to file a motion to intervene in this Adversary Proceeding and, if such motion is granted, to make objections to the Motion on any basis that the Committee could have raised had it filed a timely objection prior to entry of this Order, without prejudice or preclusion from the findings of this Order;

IT IS FURTHER ORDERED that any unknown Defendant shall have until August 20, 2010, to object the Motion on any basis that such unknown Defendant could have raised as of June 18, 2010; and

IT IS FURTHER ORDERED that the Debtors shall, on or before July 7, 2010, publish in *USA Today*, notice of service of process to unknown Defendants of the pendency of this Adversary Proceeding, entry of this Order, and opportunity to be heard on the Debtors' request for preliminary injunction, without prejudice or preclusion from the findings of this Order.

.

This Order has been signed electronically. The judge's signature and court's seal appear at the top of the Order.

SPECIALTY PRODUCTS HOLDING CORP.

ASBESTOS PERSONAL INJURY TRUST DISTRIBUTION PROCEDURES

The Specialty Products Holding Corp. Asbestos Personal Injury Trust Distribution Procedures ("**TDP**") contained herein are established pursuant to the Joint Plan of Reorganization of Specialty Products Holding Corp., Bondex International, Inc., Republic Powdered Metals, Inc. and NMBFiL, Inc. ("**Plan**") and the Specialty Products Holding Corp., Bondex International, Inc., Republic Powdered Metals, Inc. and NMBFiL, Inc. Personal Injury Trust Agreement ("**Trust Agreement**" or "**Asbestos PI Trust Agreement**"), which establish the Asbestos Personal Injury Trust ("**Trust**" or "**Asbestos PI Trust**"). These TDP provide for the resolution of all SPHC Trust Claims, Bondex Trust Claims, and Republic Trust Claims for which the Trust has legal responsibility (hereinafter referred to collectively for all purposes of these TDP as "**SPHC Trust Claims**").[1]

The Asbestos PI Trustees ("**Trustees**") shall implement and administer these TDP in accordance with the Trust Agreement. Capitalized terms used herein and not otherwise defined shall have the meanings assigned to them in the Plan and the Trust Agreement. For purposes of these TDP, "SPHC Trust Claims" shall not include Asbestos Personal Injury Trust Expenses.

---

[1] These TDP are inapplicable to NMBFiL Asbestos Personal Injury Claims and NMBFiL Asbestos Personal Injury Indirect Claims which will be resolved pursuant to the NMBFiL Asbestos Personal Injury Trust Distribution Procedures. Furthermore, to the extent that a claim that was subject to documentation resolving any asbestos-related liability or purported asbestos-related liability of one or more of the SPHC Parties for an agreed amount which amount remained unpaid as of the applicable Petition Date (collectively, the "Settled SPHC Asbestos Personal Injury Claims") does not elect to be re-valued by the Trust, these TDP shall not apply to such Settled SPHC Asbestos Personal Injury Claim except for: the Payment Percentage described in Section 4.2, the Claims Payment Ratio as described in Section 2.5, the FIFO Processing Queue, and FIFO Payment Queue.

SECTION I

INTRODUCTION

1.1 **Purpose.** These TDP have been adopted pursuant to the Trust Agreement. They are designed to provide fair, equitable, and substantially similar treatment for all similarly situated SPHC Trust Claims that presently exist and may arise in the future.

1.2 **Interpretation.** Except as otherwise may be provided below, nothing in these TDP shall be deemed to create a substantive right for any claimant. The rights and benefits, if any, provided herein to holders of SPHC Trust Claims shall vest in such holders as of the Effective Date of the Plan.

SECTION II

OVERVIEW

2.1 **Trust Goals.** The goal of the Trust is to treat all those asserting SPHC Asbestos Personal Injury Claims similarly and equitably and in accordance with the requirements of Section 524(g) of the Bankruptcy Code. These TDP set forth procedures for processing and paying the SPHC Parties' several shares of the unpaid portion of the liquidated value of all SPHC Trust Claims generally on an impartial, first-in-first-out ("**FIFO**") basis, with the intention of paying all claimants over time as equivalent a share as possible of the value of their claims based on historical values for substantially similar claims in the tort system.[2] To that end, these TDP establish a schedule of eight asbestos-related diseases ("**Disease Levels I-VIII**"), all of which have presumptive medical and exposure requirements ("**Medical/Exposure Criteria**"), seven of which have specific liquidated values ("**Scheduled Values**"), four of which have

[2] As used in these TDP, the phrase "**in the tort system**" shall not include claims asserted against a trust established for the benefit of asbestos personal injury claimants pursuant to Section 524(g) and/or Section 105 of the Bankruptcy Code or any other applicable law.

anticipated average values ("**Average Values**"), and five of which have caps on their liquidated values ("**Maximum Values**").

The Disease Levels, Medical/Exposure Criteria, Scheduled Values, Average Values, and Maximum Values that are set forth in Section 5.3 below have been selected and derived with the intention of achieving a fair allocation of the Trust assets as among claimants suffering from different diseases in light of the best available information considering the domestic settlement history of the SPHC Parties and the rights that claimants would have in the tort system absent the Reorganization Cases.

2.2 Claims Liquidation Procedures. SPHC Trust Claims shall be processed based on their place in the FIFO Processing Queue to be established pursuant to Section 5.1(a) below. The Trust shall take all reasonable steps to resolve SPHC Trust Claims as efficiently and expeditiously as possible at each stage of claims processing, including mediation and arbitration. Those steps may include, in the Trust's sole discretion, conducting settlement discussions with claimants' representatives with respect to more than one claim at a time, provided that the claimants' respective positions in the FIFO Processing Queue are maintained and each claim is individually evaluated pursuant to the valuation factors set forth in Section 5.3(b)(2) below. The Trust shall also make every reasonable effort to resolve each year at least that number of SPHC Trust Claims required to exhaust the Maximum Annual Payment and the Maximum Available Payment for Category A and Category B claims, as those terms are defined below.

The Trust shall, except as otherwise provided below, liquidate all SPHC Trust Claims, including Settled SPHC Trust Claims as applicable, except Foreign Claims (as defined in Section 5.3(b)(1) below) that meet the presumptive Medical/Exposure Criteria of Disease Levels I-V, VII and VIII under the Expedited Review Process described in Section 5.3(a) below. SPHC Trust

Claims involving Disease Levels I-V, VII and VIII that do not meet the presumptive Medical/Exposure Criteria for the relevant Disease Level may undergo the Trust's Individual Review Process described in Section 5.3(b) below. In such a case, notwithstanding that the claim does not meet the presumptive Medical/Exposure Criteria for the relevant Disease Level, the Trust may offer the claimant an amount up to the Scheduled Value of that Disease Level if the Trust is satisfied that the claimant has presented a claim that would be cognizable and valid in the tort system.

In lieu of the Expedited Review Process, a claimant holding a Trust Claim involving Disease Levels IV-V, VII or VIII may seek to establish a liquidated value for the claim that is greater than its Scheduled Value by electing the Trust's Individual Review Process. However, the liquidated value of a Trust Claim that undergoes the Individual Review Process for valuation purposes may be determined to be less than its Scheduled Value, and in any event shall not exceed the Maximum Value for the Disease Level set forth in Section 5.3(b), unless the claim qualifies as an Extraordinary Claim under Section 5.4(a) below, in which case its liquidated value cannot exceed the extraordinary value specified in that provision for such claims. Disease Level VI (Lung Cancer 2) claims and all Foreign Claims may be liquidated only pursuant to the Trust's Individual Review Process.

Based upon the SPHC Parties' domestic claims settlement history in light of applicable law in the tort system, and current projections of present and future unliquidated claims, the Scheduled Values and Maximum Values set forth in Section 5.3(b)(3) have been established for each of the Disease Levels IV-V, VII and VIII that are eligible for Individual Review of their liquidated values with the expectation that over time the combination of domestic settlements at

the Scheduled Values and those resulting from the Individual Review Process should generally result in the Average Values set forth in Section 5.3(b)(3) for each such Disease Level.

All unresolved disputes over a claimant's medical condition, exposure history, and/or the validity or liquidated value of a claim shall be subject to mediation and/or binding or non-binding arbitration pursuant to Section 5.9 below, at the election of the claimant, under the Alternative Dispute Resolution Procedures (the "**ADR Procedures**") to be adopted by the Trust. SPHC Trust Claims that are the subject of a dispute with the Trust that cannot be resolved by non-binding arbitration may enter the tort system as provided in Sections 5.10 and 7.6 below. However, if and when a claimant obtains a judgment in the tort system, the judgment shall be payable (subject to the Payment Percentage, Maximum Available Payment, and Claims Payment Ratio provisions set forth below) as provided in Section 7.7 below.

2.3 Application of the Payment Percentage. After the liquidated value of a Trust Claim (other than a claim involving Other Asbestos Disease (Disease Level I – Cash Discount Payment) as defined in Section 5.3(a)(3) below) is determined pursuant to the procedures set forth herein for Expedited Review, Individual Review, mediation, arbitration, or litigation in the tort system, the claimant shall ultimately receive a pro-rata share of that value based on the Payment Percentage described in Section 4 below. The Payment Percentage shall also apply to all sequencing adjustments paid pursuant to Section 7.5 below.

The initial Payment Percentage (the "**Initial Payment Percentage**") shall be **[TBD]**. The Payment Percentage may thereafter be adjusted upwards or downwards from time to time by the Trust, with the consent of the TAC and the FCR, to reflect then-current estimates of the Trust 's assets and liabilities, as well as the then-estimated value of then-pending and future claims. Any adjustment to the Initial Payment Percentage shall be made only pursuant to Section 4.2

below. If the Payment Percentage is increased over time, claimants whose claims were liquidated and paid in prior periods under these TDP shall receive additional payments only as provided in Section 4.3 below. Because there is uncertainty in the prediction of both the number and severity of future SPHC Trust Claims, and the amount of the Trust's assets, no guarantee can be made of any Payment Percentage that will be applied to Trust Claim's liquidated value.

2.4 Determination of the Maximum Annual Payment and Maximum Available Payment. After calculating the Payment Percentage, the Trust shall estimate or model the amount of cash flow, principal, and income year-by-year so that they will be utilized over the entire life of the Trust in a manner that ensures that all present and future holders of SPHC Trust Claims are compensated in amounts reflecting the same Payment Percentage. In each year, based upon the model of cash flow, the Trust shall be empowered to pay out the portion of its funds payable for that year according to the model (the "**Maximum Annual Payment**"). Excluding Settled SPHC Trust Claims, to which the Maximum Annual Payment shall not apply, the Trust's distributions to all claimants for that year shall not exceed the Maximum Annual Payment.

The Payment Percentage and the Maximum Annual Payment figures are based on projections over the lifetime of the Trust. As noted in Section 2.3 above, if such long-term projections are revised, the Payment Percentage may be adjusted accordingly, which would result in a new model of the Trust's anticipated cash flow and a new calculation of the Maximum Annual Payment figures. However, year-to-year variations in the Trust's flow of claims or the value of its assets, including earnings thereon, will not mean necessarily that the long-term projections are inaccurate; they may simply reflect normal variations, both up and down, from the smooth curve created by the Trust's long-term projections. If however, in a given year, asset

values, including earnings thereon, are below projections, the Trust may need to distribute less in that year than would otherwise be permitted based on the applicable Maximum Annual Payment. Accordingly, the applicable Maximum Annual Payment for a given year may be temporarily decreased if the present value of the assets of the Trust as measured on a specified date during the year is less than the present value of the assets of the Trust projected for that date by the cash flow model described in the foregoing paragraph. The Trust shall make such a comparison whenever the Trustees become aware of any information that suggests that such a comparison should be made and, in any event, no less frequently than once every six months. If the Trust determines that as of the date in question, the present value of the Trust's assets is less than the projected present value of its assets for such date, then it will remodel the cash flow year-by-year to be paid over the life of the Trust based upon the reduced value of the total assets as so calculated and identify the reduced portion of its funds to be paid for that year, which will become the "**Temporary Maximum Annual Payment**" (additional reductions in the Maximum Annual Payment can occur during the course of that year based upon subsequent calculations). If in any year the Maximum Annual Payment was temporarily reduced as a result of an earlier calculation and, based upon a later calculation, the difference between the projected present value of the Trust's assets and the actual present value of its assets has decreased, the Temporary Maximum Annual Payment shall be increased to reflect the decrease in the differential. In no event, however, shall the Temporary Maximum Annual Payment exceed the original Maximum Annual Payment. As a further safeguard, the Trust's distribution to all claimants for the first nine (9) months of a year shall not exceed 85% of the Maximum Annual Payment determined for that year. If on December 31 of a given year, the original Maximum Annual Payment for such year

is not in effect, the original Maximum Annual Payment for the following year shall be reduced proportionately.

In distributing the Maximum Annual Payment, the Trust shall first allocate the amount in question to (a) any SPHC Trust Claims (i) based on a diagnosis dated prior to the Effective Date and (ii) subsequently filed with the Trust within one (1) year following the date the Trust first accepts for processing the proof-of-claims forms and other materials required to file a claim with the Trust[3], which are liquidated by the Trust ("**Existing Claims**"), (b) Exigent Hardship Claims, and (c) SPHC Trust Claims involving Other Asbestos Disease (Disease Level I – Cash Discount Payment) that have been liquidated by the Trust.

Should the Maximum Annual Payment be insufficient to pay all such claims in full, the available funds shall be paid in proportion to the aggregate value of each group of claims, and the available funds allocated to each group of claims shall be paid to the maximum extent to claimants in the particular group based on their place in the FIFO Payment Queue. Claims in any group for which there are insufficient funds shall maintain their place in the FIFO Payment Queue and shall be carried over to the next year. If there is a decrease in the Payment Percentage prior to the payment of such claims, any such claims shall nevertheless be entitled to be paid at the Payment Percentage that they would have been entitled to receive but for the application of the Maximum Annual Payment. The remaining portion of the Maximum Annual Payment ("**Maximum Available Payment**"), if any, shall then be allocated and used to satisfy all other liquidated SPHC Trust Claims, provided, however, that if the Maximum Annual Payment is reduced during a year pursuant to the provisions above, the Maximum Available Payment shall be adjusted accordingly. The Trustees, with the consent of the TAC and the FCR, may offer the

[3] Exceptions to the satisfaction of this one-year filing requirement will be made where a claimant can show an inability to file within the one-year period caused by extraneous factors beyond the claimant's control.

option of a reduced Payment Percentage to holders of claims in return for prompter payment ("**Reduced Payment Option**").

2.5 **<u>Claims Payment Ratio.</u>** Based upon the SPHC Parties' domestic claims settlement history and analysis of present and future claims, a Claims Payment Ratio has been set, as of the Effective Date, at 85% for Disease Level VIII (Category A Claims) that were unliquidated as of the applicable Petition Date, and 15% for claims in all other Disease Levels (Disease Levels II – VII) (Category B Claims) that were similarly unliquidated as of the applicable Petition Date. The Claims Payment Ratio shall not apply to any claims involving Other Asbestos Disease (Disease Level I – Cash Discount Payment).

In each year, after the determination of the Maximum Available Payment described in <u>Section 2.4</u> above, 85% of that amount will be available to pay claims in Disease Level VIII and 15% will be available to pay claims in all other Disease Levels (II – VII) placed in the FIFO Payment Queue described in <u>Section 5.l(c)</u> below. In the event there are insufficient funds in any year to pay the liquidated claims within either or both of the Categories, the available funds allocated to the particular Category shall be paid to the maximum extent to claimants in that Category based on their place in the FIFO Payment Queue. Claims for which there are insufficient funds allocated to the relevant Category shall be carried over to the next year where they shall be placed at the head of the FIFO Payment Queue. If there are excess funds in either or both Categories because there is an insufficient amount of liquidated claims to exhaust the respective Maximum Available Payment amount for that Category, then the excess funds for either or both Categories shall be rolled over and remain dedicated to the respective Category to which they were originally allocated.

The 85%/15% Claims Payment Ratio and the rollover provision shall apply to all SPHC Trust Claims (except claims that, pursuant to Section 2.5 above, are not subject to the Claims Payment Ratio). The Claims Payment Ratio may be amended by the Committee or TAC, as the case may be, and the FCR prior to the date the Trust first accepts for processing proof-of-claim forms and other materials required to file a claim with the Trust. Thereafter, both the Claims Payment Ratio and its rollover provision may be continued or recalibrated in order to reflect the actual number of SPHC Trust Claims that have been paid pursuant to these TDP.

Notwithstanding any other provision herein, if, at the end of a calendar year, there are excess funds in either Category A or Category B and insufficient funds in the other Category to pay such Category's claims, the Trustees may transfer up to a specified amount of excess funds (the "**Permitted Transfer Amount**" as defined below) to the Category with the shortfall; provided however that the Trustees shall never transfer more than the amount of the receiving Category's shortfall. The "**Permitted Transfer Amount**" shall be determined as follows: (a) the Trustees shall first determine the cumulative amount allocated to the Category with excess funds based on the Claims Payment Ratio since the date the Trust last calculated its Payment Percentage; (b) the Trustees shall then determine the cumulative amount that the Trust estimated would be paid to the Category with excess funds since the date the Trust last calculated its Payment Percentage; (c) the Trustees shall then subtract the amount determined in (b) from the amount determined in (a), and the difference between the two shall be referred to as the "Permitted Transfer Amount." When deciding whether to make a transfer, the Trust shall take into account any artificial failures of the processing queue that may have impacted the amount of funds expended from either Category. The Trustees shall provide the TAC and the FCR with the Permitted Transfer Amount calculation thirty (30) days prior to making a transfer.

In considering whether to make any amendments to the Claims Payment Ratio and/or its rollover provisions, the Trustees shall consider the reasons for which the Claims Payment Ratio and its rollover provisions were adopted, the domestic settlement history that gave rise to its calculation, and the foreseeability or lack of foreseeability of the reasons why there would be any need to make an amendment. In that regard, the Trustees should keep in mind the interplay between the Payment Percentage and the Claims Payment Ratio as it affects the net cash actually paid to claimants.

In any event, no amendment to the Claims Payment Ratio may be made without the consent of the TAC and the FCR. In the case of any amendments to the Claims Payment Ratio, the consent process set forth in Section 6.7 and Section 7.7 of the Trust Agreement shall apply. The Trustees, with the consent of the TAC and the FCR, may offer the option of a reduced Payment Percentage to holders of claims in either Category A or Category B in return for prompter payment.

2.6 Indirect SPHC Trust Claims. As set forth in Section 5.5 below, SPHC Asbestos Personal Injury Indirect Claims, if any, shall be subject to the same categorization, evaluation, and payment provisions of these TDP as all other SPHC Trust Claims.

SECTION III

TDP ADMINISTRATION

3.1 TAC and FCR. Pursuant to the Plan and the Trust Agreement, the Trustees shall administer the Trust Agreement and these TDP in consultation with the TAC, which represents the interests of holders of present SPHC Trust Claims, and the FCR, who represents the interests of holders of SPHC Trust Claims that will be asserted in the future. Except as set forth in these TDP, including with respect to processing and liquidation of Foreign Claims and the adjustments to section 5.3(b), the Trustees shall obtain the consent of the TAC and the FCR on any

amendments to these TDP pursuant to Section 9.1 below, and on such other matters as are otherwise required below and in Section 2.2(e) of the Trust Agreement. The Trustees shall also consult with the TAC and the FCR on such matters as are provided below and in Section 2.2(d) of the Trust Agreement. The initial Trustees, the initial members of the TAC, and the initial FCR are identified in the Trust Agreement.

3.2 Consent and Consultation Procedures. In those circumstances in which consultation or consent is required, the Trustees shall provide written notice to the TAC and the FCR of the specific amendment or other action that is proposed. The Trustees shall not implement such amendment or take such action unless and until the parties have engaged in the Consultation Process described in Section 6.7(a) and Section 7.7(a), or the Consent Process described in Section 6.7(b) and Section 7.7(b), of the Trust Agreement, respectively.

SECTION IV

PAYMENT PERCENTAGE; PERIODIC ESTIMATES

4.1 Uncertainty of the Total Personal Injury Asbestos Liabilities. As discussed above, there is inherent uncertainty regarding the SPHC Parties' total asbestos-related tort liabilities, as well as the total value of the assets available to the Trust to pay SPHC Trust Claims. Consequently, there is inherent uncertainty regarding the amounts that holders of SPHC Trust Claims shall receive. To ensure substantially equivalent treatment of all present and future SPHC Trust Claims, the Trustees must determine from time to time the percentage of full liquidated value that holders of present and future SPHC Trust Claims will be likely to receive, i.e., the "**Payment Percentage**" described in Section 2.3 above and Section 4.2 and Section 4.3 below.

4.2 Computation of Payment Percentage. As provided in Section 2.3 above, the Trustees, with the consent of the TAC and the FCR, shall establish the Initial Payment Percentage after the Plan's Effective Date. The Payment Percentage shall be subject to change pursuant to the terms of these TDP and the Trust Agreement if the Trustees, with the consent of the TAC and the FCR, determine that an adjustment is required. No less frequently than once every three (3) years, commencing with the first day of January occurring after the Effective Date, the Trustees shall reconsider the then-applicable Payment Percentage to assure that it is based on accurate, current information and may, if necessary after such reconsideration, change the Payment Percentage with the consent of the TAC and the FCR. The Trustees shall also reconsider the Payment Percentage at shorter intervals if they deem such reconsideration to be appropriate or if requested to do so by the TAC or the FCR.

The Trustees must base their determination of the Payment Percentage on current estimates of the number, types, and values of present and future SPHC Trust Claims, the value of the assets then available to the Trust for payment of SPHC Trust Claims, all anticipated administrative and legal expenses, and any other material matters that are reasonably likely to affect the sufficiency of funds to pay a comparable percentage of full value to all present and future holders of SPHC Trust Claims. When making these determinations, the Trustees shall exercise common sense and flexibly evaluate all relevant factors. The Payment Percentage applicable to Category A or Category B claims may not be reduced to alleviate delays in payments of claims in the other Category; both Categories of claims shall receive the same Payment Percentage, but the payment may be deferred as needed pursuant to Section 7.3 below, and a Reduced Payment Option may be instituted as described in Section 2.4 above.

4.3 Applicability of the Payment Percentage. Except as provided in this Section 4.3, no holder of a Trust Claim for Disease Levels II-VIII shall receive a payment that exceeds the liquidated value of the claim times the Payment Percentage in effect at the time of payment. Claims involving Other Asbestos Disease (Disease Level I – Cash Discount Payment) shall not be subject to the Payment Percentage, but shall instead be paid the full amount of their Scheduled Value as set forth in Section 5.3(a)(3) below. Except as otherwise provided in (a) Section 5.1(c) for SPHC Trust Claims involving deceased or incompetent claimants for which the Trust's offer must be approved by a court or through a probate process and (b) the paragraph below with respect to Released Claims, no holder of any Trust Claim shall receive a payment that exceeds the liquidated value of the claim times the Payment Percentage in effect at the time of payment; provided, however, that if there is a reduction in the Payment Percentage, the Trustees, in their discretion, may cause the Trust to pay a Trust Claim based on the Payment Percentage that was in effect prior to the reduction if such Trust Claim was filed and actionable with the Trust ninety (90) days or more prior to the date the Trustees proposed the new Payment Percentage in writing to the TAC and the FCR ("**Proposal Date**") and the processing of such claim was unreasonably delayed due to circumstances beyond the control of the claimant or the claimant's counsel, but only if such claim had no deficiencies for the ninety (90) days prior to the Proposal Date.

If a redetermination of the Payment Percentage has been proposed in writing by the Trustees to the TAC and the FCR, but has not yet been adopted, the claimant shall receive the lower of the current Payment Percentage or the proposed Payment Percentage. However, if the proposed Payment Percentage was the lower amount but was not subsequently adopted, the claimant shall thereafter receive the difference between the lower proposed amount and the

higher current amount. Conversely, if the proposed Payment Percentage was the higher amount and was subsequently adopted, the claimant shall thereafter receive the difference between the lower current amount and the higher adopted amount.

Notwithstanding anything contained herein, if the proposed Payment Percentage is lower than the current Payment Percentage, a claimant whose Trust Claim was liquidated prior to the Proposal Date and who either (a) transmitted[4] an executed release to the Trust prior to the Proposal Date or (b) with respect to those claimants who had received releases fewer than thirty (30) days prior to the Proposal Date, transmitted an executed release to the Trust within thirty (30) days of the claimant's receipt of the release (the claims described in (a) and (b) are collectively referred to herein as the "**Released Claims**") shall be paid based on the current Payment Percentage ("**Released Claims Payment Percentage**"). For purposes hereof, (a) a claimant represented by counsel shall be deemed to have received a release on the date that the claimant's counsel receives the release, (b) if the Trust transmits a release electronically, the release shall be deemed to have been received on the date the Trust transmits the offer notification, and (c) if the Trust places the release in the U.S. mail, postage pre-paid, the release shall be deemed to have been received three (3) business days after such mailing date. A delay in the payment of the Released Claims for any reason, including delays resulting from limitations on payment amounts in a given year pursuant to Sections 2.4 and 2.5 hereof, shall not affect the rights of the holders of the Released Claims to be paid based on the Released Claims Payment Percentage.

At least thirty (30) days prior to the Proposal Date, the Trust shall issue a written notice to claimants or claimants' counsel indicating the Trust is reconsidering the Payment Percentage.

---

[4] For purposes of this sentence, "transmitted" is defined as the date/time postmarked if submitted by mail or the date/time uploaded if submitted electronically.

There is uncertainty surrounding the amount of the Trust's future assets and liabilities. There is uncertainty surrounding the totality of the SPHC Trust Claims to be paid over time, as well as the extent to which changes in existing law could affect the Trust's liabilities under these TDP. If the value of the Trust's future assets increases significantly and/or if the value or volume of SPHC Trust Claims actually filed with the Trust is significantly lower than originally estimated, the Trust shall use those proceeds and/or claims savings, as the case may be, first to maintain the Payment Percentage, then in effect.

If the Trustees, with the consent of the TAC and the FCR, decide to increase the Payment Percentage due to a material change in the estimates of the Trust's future assets and/or liabilities, the Trustees shall also make supplemental payments to all claimants who previously liquidated their claims against the Trust and received payments based on a lower Payment Percentage. The amount of any such supplemental payment shall be the liquidated value of the claim in question times the newly adjusted Payment Percentage, less all amounts previously paid to the claimant with respect to the claim (excluding the portion of such previously paid amounts that was attributable to any sequencing adjustment paid pursuant to Section 7.5 below).

The Trustees' obligation to make a supplemental payment to a claimant shall be suspended in the event the payment in question would be less than $100.00. The amount of the suspended payment shall be added to the amount of any prior supplemental payment(s) that was (were) also suspended because it (they) would have been less than $100.00. The Trustees shall pay any aggregate supplemental payments owed to the claimant when the total exceeds $100.00.

SECTION V

RESOLUTION OF SPHC TRUST CLAIMS

5.1 Ordering, Processing and Payment of Claims.

(a) Ordering of Claims.

(1) Establishment of FIFO Processing Queues. The Trust shall order all claims that are sufficiently complete to be reviewed for processing purposes on a FIFO basis except as otherwise provided herein ("**FIFO Processing Queue**"). For all claims filed on or before the date six (6) months after the date that the Trust first makes available the proof-of-claim forms and other claims materials required to file a claim with the Trust ("**Initial Claims Filing Date**"), a claimant's position in the FIFO Processing Queue shall be determined as of the earliest of (i) the date prior to the applicable Petition Date that the specific claim was either filed against one or more of the SPHC Parties in the tort system or was actually submitted to one or more of the SPHC Parties pursuant to an administrative settlement agreement; (ii) the date before the applicable Petition Date that the asbestos claim was filed against another defendant in the tort system if at the time the claim was subject to a tolling agreement with a SPHC Party; (iii) the date after the Petition Date but before the date that the Trust first makes available the proof-of-claim forms and other claims materials required to file a claim with the Trust that the asbestos claim was filed against another defendant in the tort system; (iv) the date after the Petition Date but before the Effective Date that an SPHC/Bondex Mesothelioma Claim Information Form ("PIQ") was submitted to Logan & Company, Inc. in connection with the bankruptcy cases; or (v) the date a ballot was submitted on behalf of the claimant for purposes of voting to accept or reject the Plan pursuant to voting procedures approved by the Bankruptcy Court.

Following the Initial Claims Filing Date, the claimant's position in the FIFO Processing Queue shall be determined by the date the claim is filed with the Trust, provided such claim is sufficiently complete, as defined in the Trust's claim filing instructions. If any claims are filed on the same date, the claimant's position in the FIFO Processing Queue shall be determined by the date of the diagnosis of the claimant's asbestos-related disease. If any claims are filed and diagnosed on the same date, the claimant's position in the FIFO Processing Queue shall be determined by the claimant's date of birth, with older claimants given priority over younger claimants.

(2) **Effect of Statutes of Limitations and Repose.** All unliquidated SPHC Trust Claims must meet either: (i) for claims first filed in the tort system against a SPHC Debtor prior to the Petition Date, the statute of limitations and repose that was in effect at the time of the filing of the claim in the tort system; or (ii) for claims not filed against a SPHC Debtor in the tort system prior to the Petition Date, the statute of limitations that was in effect at the time of the filing with the Trust. However, the running of the statute of limitations shall be tolled as of the earliest of: (A) the actual filing of the claim against a SPHC Debtor prior to the Petition Date, whether in the tort system or by submission of the claim to a SPHC Debtor pursuant to an administrative settlement agreement; (B) the tolling of the claim against a SPHC Debtor prior to the applicable Petition Date by an agreement or otherwise, provided such tolling was still in effect on the applicable Petition Date; or (C) the applicable Petition Date.

If a Trust Claim meets any of the tolling provisions described in the preceding sentence and the claim was not barred by the statute of limitations at the time of the tolling event, it shall be treated as timely filed if it is actually filed with the Trust within three (3) years after the Initial Claims Filing Date. In addition, any claims that were first diagnosed after the applicable Petition

Date, irrespective of the application of any relevant federal, state, or foreign statute of limitations or repose, may be filed with the Trust within three (3) years after the date of diagnosis or within three (3) years after the Initial Claims Filing Date, whichever occurs later. However, the processing of any Trust Claim may be deferred at the election of the claimant pursuant to Section 6.3 below.

(b) **Processing of Claims.** As a general practice, the Trust shall review its claims files on a regular basis and notify all claimants whose claims are likely to come up in the FIFO Processing Queue in the near future.

(c) **Payment of Claims.** SPHC Trust Claims that have been liquidated under the provisions of these TDP by the Expedited Review Process as provided in Section 5.3(a) below, by the Individual Review Process as provided in Section 5.3(b) below, by mediation or arbitration as provided in Section 5.9 below, or by litigation in the tort system as provided in Section 5.10 below, shall be paid in FIFO order based on the date their liquidation became final (the "**FIFO Payment Queue**"), all such payments being subject to the applicable Payment Percentage, the Maximum Annual Payment, the Maximum Available Payment, the Claims Payment Ratio, and the sequencing adjustment provided for in Section 7.5 below, except as otherwise provided herein.

Where the claimant is deceased or incompetent and the settlement and payment of the claim must be approved by a court of competent jurisdiction or through a probate process prior to acceptance of the claim by the claimant's representative, an offer made by the Trust on the claim shall remain open so long as proceedings before that court or in that probate process remain pending, provided that the Trust has been furnished with evidence that the settlement offer has been submitted to such court or to the probate process for approval. If the offer is ultimately

approved by the court or through the probate process and accepted by the claimant's representative, the Trust shall pay the claim in the amount so offered, multiplied by the Payment Percentage in effect at the time the offer was first made.

If any claims are liquidated on the same date, the claimant's position in the FIFO Payment Queue shall be determined by the date of the diagnosis of the claimant's asbestos-related disease. If any claims are liquidated on the same date and the respective claimants' asbestos-related diseases were diagnosed on the same date, the position of those claimants in the FIFO Payment Queue shall be determined based on the dates of the claimants' births, with older claimants given priority over younger claimants.

5.2 Resolution of Liquidated SPHC Asbestos Personal Injury Claims. The holder of a SPHC Asbestos Personal Injury Claim that was liquidated but not paid prior to the commencement of the Reorganization Cases (each, a "Settled SPHC Asbestos Personal Injury Claim") may file a claim with the Trust for the liquidated value of the Settled SPHC Asbestos Personal Injury Claim or for a value to be determined under these TDP.

On or before the Effective Date, the SPHC Parties shall deliver to the Trust a schedule of the Settled SPHC Asbestos Personal Injury Claims with the supporting database. The Trust shall provide each claimant on the schedule of the notice of: (i) the liquidated amount of the claim; (ii) the right of the claimant to make the election provided in this Section 5.2; and (iii) instructions for making the election, and, if electing to retain the liquidated amount of the claim, instructions for executing and delivering the release provided under Section 7.8.

If the holder of the Settled SPHC Asbestos Personal Injury Claim elects to be paid pursuant to the terms of such settled claimant's pre-petition settlement, the Trust shall pay the Settled SPHC Asbestos Personal Injury Claim as soon as practical upon receipt by the Trust of a

release. Payment of the liquidated value of the Settled SPHC Asbestos Personal Injury Claim shall be subject to the Payment Percentage and sequencing adjustment, except as otherwise provided herein, but shall not be subject to the Maximum Available Payment described in Section 2.4, the Claims Payment Ratio described in Section 2.5, or the resolution provisions described in Section 5.3.

If the holder of the Settled SPHC Asbestos Personal Injury Claim elects to file a claim with the Trust to be liquidated under these TDP, the holder shall be deemed to have waived the liquidated value of the Settled SPHC Asbestos Personal Injury Claim, and the claim shall be processed under Section 5.3(b).

5.3 Resolution of Unliquidated SPHC Trust Claims. Within six (6) months after the establishment of the Trust, the Trustees, with the consent of the TAC and the FCR, shall adopt procedures for reviewing and liquidating all unliquidated SPHC Trust Claims (including Settled SPHC Asbestos Personal Injury Claims for which the holders waived the liquidated value of the claim), which shall include deadlines for processing such claims. Such procedures shall also require that claimants seeking resolution of unliquidated SPHC Trust Claims must first file a proof-of-claim form, together with the required supporting documentation, in accordance with the provisions of Section 6.1, Section 6.2, Section 6.4 and Section 6.5 below. It is anticipated that the Trust shall provide an initial response to the claimant within six (6) months of receiving the proof-of-claim form.

The proof-of-claim form shall require the claimant to assert his or her claim for the highest Disease Level for which the claim qualifies at the time of filing. Irrespective of the Disease Level alleged on the proof-of-claim form, all claims shall be deemed to be a claim for the highest Disease Level for which the claim qualifies at the time of filing, and all lower

Disease Levels for which the claim may also qualify at the time of filing or in the future shall be treated as merged into the higher Disease Level for both processing and payment purposes. The proof-of-claim form also shall require the claimant to elect the Expedited Review Process, as described in Section 5.3(a) below, or the Individual Review Process, as described in Section 5.3(b) below, if such election is available under these TDP for the Disease Level alleged by the claimant.

Upon filing of a valid proof-of-claim form with the required supporting documentation, the claim shall be placed in the FIFO Processing Queue in accordance with the ordering criteria described in Section 5.1(a) above.

(a) Expedited Review Process.

(1) In General. The Trust's Expedited Review Process is designed primarily to provide an expeditious, efficient, and inexpensive method for liquidating all SPHC Trust Claims (except those involving Lung Cancer 2 - Disease Level VI and all Foreign Claims (as defined below), which shall only be liquidated pursuant to the Trust's Individual Review Process), including secondary exposure claims, where the claim can easily be verified by the Trust as meeting the presumptive Medical/Exposure Criteria for the relevant Disease Level. Expedited Review thus provides claimants with a substantially less burdensome process for pursuing SPHC Trust Claims than does the Individual Review Process described in Section 5.3(b) below. Expedited Review is also intended to provide qualifying claimants a fixed and certain claim value.

Thus, claims that undergo Expedited Review and meet the presumptive Medical/Exposure Criteria for the relevant Disease Level shall be paid the Scheduled Value for such Disease Level set forth in Section 5.3(a)(3) below. However, except for claims involving

Other Asbestos Disease (Disease Level I), all claims liquidated by Expedited Review shall be subject to the applicable Payment Percentage, the Maximum Available Payment, and the Claims Payment Ratio limitations set forth herein. Claimants holding claims that cannot be liquidated by Expedited Review because they do not meet the presumptive Medical/Exposure Criteria for the relevant Disease Level may elect the Trust's Individual Review Process set forth in Section 5.3(b) below.

Subject to the provisions of Section 5.6, the claimant's eligibility to receive the Scheduled Value for his or her Trust Claim pursuant to the Expedited Review Process shall be determined solely by reference to the Medical/Exposure Criteria set forth below for each of the Disease Levels eligible for Expedited Review.

(2) Claims Processing Under Expedited Review. All claimants seeking liquidation of a Trust Claim pursuant to Expedited Review shall file the Trust's proof-of-claim form. If a claimant alleges an asbestos-related disease resulting solely from exposure to an occupationally exposed person, such as a family member, the claimant must establish that the occupationally exposed person would have met the exposure requirements under these TDP that would have been applicable had that person filed a direct claim against the Trust. In addition, the claimant with secondary exposure must establish (1) that he or she is suffering from one of the eight Disease Levels described in Section 5.3(a)(3) or an asbestos-related disease otherwise compensable under these TDP, (2)that his or her own exposure to the occupationally exposed person occurred within the same time frame as the occupationally exposed person was exposed to asbestos-containing products or conduct for which one or more of the SPHC Parties has legal responsibility, and (3) that such secondary exposure was a substantial contributing factor of the claimed disease.

As a proof-of-claim form is reached in the FIFO Processing Queue, the Trust shall determine whether the claim described therein meets the Medical/Exposure Criteria for one of the seven Disease Levels eligible for Expedited Review, and shall advise the claimant of its determination. If the Medical/Exposure Criteria for a Disease Level are determined to have been met, the Trust shall tender to the claimant an offer of payment of the Scheduled Value for the relevant Disease Level multiplied by the applicable Payment Percentage, together with a form of release approved by the Trust. If the claimant accepts the Scheduled Value and returns the release properly executed, the claim shall be placed in the FIFO Payment Queue, following which the Trust shall disburse payment subject to the limitations of the Maximum Available Payment and Claims Payment Ratio, if any.

(3) Disease Levels, Scheduled Values and Medical/Exposure Criteria. The eight Disease Levels covered by these TDP, together with the Medical/Exposure Criteria for each, and the Scheduled Values for the six Disease Levels eligible for Expedited Review, are set forth below. These Disease Levels, Scheduled Values, and Medical/Exposure Criteria shall apply to all SPHC Trust Claims filed with the Trust on or before the Initial Claims Filing Date provided in Section 5.1 above for which the claimant elects the Expedited Review Process. Thereafter, for purposes of administering the Expedited Review Process and, with the consent of the TAC and the FCR, the Trustees may: (1) add to, change or eliminate Disease Levels, Scheduled Values, or Medical/Exposure Criteria; (2) develop subcategories of Disease Levels, Scheduled Values, or Medical/Exposure Criteria; or (3) determine that a novel or exceptional Trust Claim is compensable even though it does not meet the Medical/Exposure Criteria for any of the then current Disease Levels. Because claimants seeking to recover from

the Trust who fall within Disease Level VI may not undergo Expedited Review and must undergo Individual Review, no Scheduled Value is provided.

Disease Level	Scheduled Values	Medical/Exposure Criteria
Mesothelioma (Level VIII)	$80,000.00	(1) Diagnosis[5] of mesothelioma; and (2) Debtor Exposure as defined in Section 5.5(b)(3) below
Lung Cancer 1 (Level VII)	$33,333.00	(1) Diagnosis of a primary lung cancer plus evidence of an underlying Bilateral Asbestos Related Nonmalignant Disease;[6] (2) six months Debtor Exposure prior to December 31, 1982; (3) Significant Occupational Exposure[7] to asbestos; and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the lung cancer in question.

[5] The requirements for a diagnosis of an asbestos-related disease that may be compensated under the provisions of these TDP are set forth in Section 5.5 below.

[6] Evidence of "Bilateral Asbestos-Related Nonmalignant Disease" for purposes of meeting the criteria for establishing Disease Levels I, II, III, V, and VII means either (i) a chest X-ray read by a qualified B reader of 1/0 or higher on the ILO scale or (ii)(x) a chest x-ray read by a qualified B reader or other Qualified Physician, (y) a CT scan read by a Qualified Physician, or (z) pathology, in each case showing either bilateral interstitial fibrosis, bilateral pleural plaques, bilateral pleural thickening, or bilateral pleural calcification. Evidence submitted to demonstrate (i) or (ii) above must be in the form of a written report stating the results (e.g., an ILO report, a written radiology report or a pathology report). Solely for asbestos claims filed against a Debtor or another defendant in the tort system prior to the applicable Petition Date, if an ILO reading is not available, either (i) a chest X-ray or a CT scan read by a Qualified Physician, or (ii) pathology, in each case showing bilateral interstitial fibrosis, bilateral pleural plaques, bilateral pleural thickening, or bilateral pleural calcification consistent with or compatible with a diagnosis of asbestos-related disease, shall be evidence of a Bilateral Asbestos-Related Nonmalignant Disease for purposes of meeting the presumptive medical requirements of Disease Levels I, II, III, V and VII. Pathological proof of asbestosis may be based on the pathological grading system for asbestosis described in the Special Issue of the Archives of Pathology and Laboratory Medicine, "Asbestos-associated Diseases," Vol. 106, No. 11, App. 3 (October 8, 1982). For all purposes of these TDP, a "Qualified Physician" is a physician who is board certified (or in the case of Canadian Claims or Foreign Claims, a physician who is certified or qualified under comparable medical standards or criteria of the jurisdiction in question) in one or more relevant specialized fields of medicine such as pulmonology, radiology, internal medicine or occupational medicine; provided, however, subject to the provisions of Section 5.6, that the requirement for board certification in this provision shall not apply to otherwise qualified physicians whose x-rays and/or CT scan readings are submitted for deceased holders of SPHC Trust Claims.

[7] "Significant Occupational Exposure" is defined in Section 5.6(b)(1)(A) below.

Disease Level	Scheduled Values	Medical/Exposure Criteria
Lung Cancer 2 (Level VI)	N/A	(1) Diagnosis of a primary lung cancer; (2) Debtor Exposure prior to December 31, 1982; and (3) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the lung cancer in question. Lung Cancer 2 (Level VI) claims are claims that do not meet the more stringent medical and/or exposure requirements of Lung Cancer (Level VII) claims. All claims in this Disease Level shall be individually evaluated. The estimated likely average of the individual evaluation awards for this category is $9,250, with such awards capped at $22,000, unless the claim qualifies for Extra-ordinary Claim treatment (discussed in Section 5.3 below). Level VI claims that show no evidence of either an underlying Bilateral Asbestos-Related Non-malignant Disease or Significant Occupational Exposure may be individually evaluated, although it is not expected that such claims shall be treated as having any significant value, especially if the claimant is also a Smoker.[8] In any event, no presumption of validity shall be available for any claims in this category.
Other Cancer (Level V)	$6,667.00	(1) Diagnosis of a primary colorectal, laryngeal, esophageal, pharyngeal, or stomach cancer, plus evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease; (2) six months Debtor Exposure prior to December 31, 1982; (3) Significant Occupational Exposure to asbestos; and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the other cancer in question.

[8] There is no distinction between Non-Smokers and Smokers for either Lung Cancer 1 (Level VII) or Lung Cancer 2 (Level VI), although a claimant who meets the more stringent requirements of Lung Cancer 1 (Level VII) (evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease plus Significant Occupational Exposure), and who is also a Non-Smoker, may wish to have his or her claim individually evaluated by the Trust. In such a case, absent circumstances that would otherwise reduce the value of the claim, it is anticipated that the liquidated value of the claim might well exceed the Scheduled Value for Lung Cancer 1 (Level VII), shown above. "Non-Smoker" means a claimant who either (a) never smoked or (b) has not smoked during any portion of the twelve (12) years immediately prior to the diagnosis of the lung cancer.

Disease Level	Scheduled Values	Medical/Exposure Criteria
Severe Asbestosis (Level IV)	$16,667.00	(1) Diagnosis of asbestosis with ILO[9] of 2/1 or greater, or asbestosis determined by pathological evidence of asbestosis, plus (a) TLC less than 65%, or (b) FVC less than 65% and FEV1/FVC ratio greater than 65%; (2) six months Debtor Exposure prior to December 31, 1982; (3) Significant Occupational Exposure to asbestos; and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary disease in question.
Asbestosis/Pleural Disease (Level III)	$2,500.00	(1) Diagnosis of Bilateral Asbestos-Related Nonmalignant Disease plus (a) TLC less than 80%, or (b) FVC less than 80% and FEV1/FVC ratio greater than or equal to 65%; (2) six months Debtor Exposure prior to December 31, 1982; (3) Significant Occupational Exposure to asbestos; and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary disease in question.
Asbestosis/Pleural Disease (Level II)	$800.00	(1) Diagnosis of a Bilateral Asbestos-Related Nonmalignant Disease; and (2) six months Debtor Exposure prior to December 31, 1982; and (3) five years cumulative occupational exposure to asbestos.
Other Asbestos Disease (Level I Cash Discount Payment)	$70.00	(1) Diagnosis of a Bilateral Asbestos-Related Nonmalignant Disease or an asbestos-related malignancy other than mesothelioma; and (2) Debtor Exposure prior to December 31, 1982.

(b) Individual Review Process.

(1) In General. Subject to the provisions set forth below, a claimant may elect to have his or her Trust Claim reviewed for purposes of determining whether the claim would be cognizable and valid in the tort system even though it does not meet the presumptive

[9] If the diagnostic images being interpreted in such regard are digital images, then a written report by a Qualified Physician confirming that the images reviewed are with reasonable medical certainty equivalent to those that would qualify for the required ILO grade shall be acceptable as well.

Medical/Exposure Criteria for any of the Disease Levels set forth in Section 5.3(a)(3) above.[10] In addition or alternatively, a claimant holding a Trust Claim involving Disease Levels II, III, IV, V, VII, or VIII may elect to have the claim undergo the Individual Review Process for purposes of determining whether the liquidated value of the claim exceeds the Scheduled Value for the relevant Disease Level. However, except for Disease Level VI and any Foreign Claims, until such time as the Trust has made an offer on a claim pursuant to Individual Review, the claimant may change his or her Individual Review election and have the claim liquidated pursuant to the Trust's Expedited Review Process. In the event of such a change in the processing election, the claimant shall nevertheless retain his or her place in the FIFO Processing Queue.

The liquidated value of all Foreign Claims payable under these TDP shall be established only under the Trust's Individual Review Process. SPHC Trust Claims of individuals exposed in Canada who were residents of Canada when such claims were filed ("**Canadian Claims**") shall not be considered Foreign Claims hereunder and shall be eligible for liquidation under the Expedited Review Process. Accordingly, a "**Foreign Claim**" is a Trust Claim or a Trust Claim with respect to which the claimant's exposure to an asbestos-containing product, or to conduct that exposed the claimant to an asbestos-containing product, for which one or more SPHC Parties has legal responsibility, including under theories of alter-ego or similar theories of derivative liability, occurred outside of the United States and its Territories and Possessions and outside of the Provinces and Territories of Canada.[11]

---

[10] Under this provision, a Trust Clam that does not include evidence of exposure prior to December 31, 1982 , as set forth in the Significant Occupational Exposure or Debtor Exposure provisions below, may still undergo the Individual Review Process for purposes of determining whether such claim would be cognizable and valid in the tort system.

[11] Prior to the Trust's processing of Foreign Claims, and notwithstanding anything in the TDP to the contrary, the Trustees shall implement separate claim valuation, claim form and arbitration criteria, and evidentiary requirements to govern the resolution of Foreign Claims.

A. Review of Medical/Exposure Criteria. The Trust's Individual Review Process provides a claimant with an opportunity for individual consideration and evaluation of a Trust Claim that fails to meet the presumptive Medical/Exposure Criteria for Disease Levels I-V, VII, or VIII. In such a case, the Trust shall either deny the claim, or, if the Trust is satisfied that the claimant has presented a claim that would be cognizable and valid in the tort system, the Trust can offer the claimant a liquidated value amount up to the Scheduled Value for that Disease Level.

B. Review of Liquidated Value. Claimants holding claims in Disease Levels IV-VIII shall also be eligible to seek Individual Review of the liquidated value of their SPHC Trust Claims, as well as of their medical/exposure evidence. The Individual Review Process is intended to result in payments equal to the full liquidated value for each claim multiplied by the Payment Percentage; however, the liquidated value of any Trust Claim that undergoes Individual Review may be determined to be less than the Scheduled Value the claimant would have received under Expedited Review. Moreover, the liquidated value for a claim involving Disease Levels IV-V, VII, and VIII shall not exceed the Maximum Value for the relevant Disease Level set forth in Section 5.3(b)(3) below, unless the claim meets the requirements of an Extraordinary Claim described in Section 5.4(a) below, in which case its liquidated value cannot exceed the maximum extraordinary value set forth in Section 5.3(b) for such claims. Because the detailed examination and valuation process pursuant to Individual Review requires substantial time and effort, claimants electing to undergo the Individual Review Process may be paid the liquidated value of their Trust Claim later than would have been the case had the claimant elected the Expedited Review Process. Subject to the provisions of

Section 5.6, the Trust shall devote reasonable resources to the review of all claims to ensure that there is a reasonable balance maintained in reviewing all classes of claims.

(2) Valuation Factors to Be Considered in Individual Review. The Trust shall liquidate the value of each Trust Claim that undergoes Individual Review based on the historic liquidated values of other similarly-situated claims in the same Disease Level. The Trust shall thus take into consideration all of the factors that affect the severity of damages and values, including, but not limited to, credible evidence of: (i) the degree to which the characteristics of a claim differ from the presumptive Medical/Exposure Criteria for the Disease Level in question; (ii) factors such as the claimant's age, disability, employment status, disruption of household, family or recreational activities, dependencies, special damages, and pain and suffering; (iii) whether the claimant's damages were (or were not) caused by asbestos exposure, including exposure to an asbestos-containing product or to conduct that exposed the claimant to an asbestos-containing product, for which one or more of the SPHC Parties has legal responsibility, prior to December 31, 1982, including under theories of alter-ego (for example, alternative causes, and the strength of documentation of injuries); (iv) the industry of exposure; (v) settlement and verdict history in the Claimant's Jurisdiction for similarly-situated claims; and (vi) settlements and verdicts of the Claimant's law firm for similarly-situated claims, on the basis of clear and convincing evidence provided to the Trust that the claimant's law firm played a substantial role in the prosecution and resolution of the cases, such as actively participating in court appearances, discovery, and/or trial of the cases, irrespective of whether a second law firm was also involved and would also be entitled to include the cases in its "settlement and verdict histories." For the avoidance of doubt, mere referral of a case, without further direct involvement, will not be viewed as having played a substantial role in the prosecution and

resolution of a case. In liquidating the value of a Trust Claim that undergoes Individual Review, the Trust shall treat a claimant as living if the claimant was alive at the time the initial pre-Petition Date complaint was filed or the proof-of-claim form was filed with the Trust even if the claimant has subsequently died.[12]

For these purposes, the "Claimant's Jurisdiction" is the jurisdiction in which the claim was filed (if at all) against either of the SPHC Parties in the tort system prior to the applicable Petition Date. If the claim was not filed against any of the SPHC Parties in the tort system prior to the applicable Petition Date, the Claimant's Jurisdiction may be either (i) the jurisdiction in which the claimant resides at the time of diagnosis or when the claim is filed with the Trust; (ii) a jurisdiction in which the claimant experienced exposure to an asbestos containing product, or to conduct that exposed the claimant to an asbestos containing product, for which one or more SPHC Parties has legal liability, including under theories of alter-ego or similar theories of derivative liability; or (iii) in a jurisdiction that describes the claim as one for "exemplary" or "punitive" damages, the Commonwealth of Pennsylvania, in which case the claimant's damages shall be determined pursuant to the statutory and common laws of the Commonwealth of Pennsylvania without regard to its choice of law principles.

(3) **Scheduled, Average, and Maximum Values.** The Scheduled, Average, and Maximum Values for domestic claims involving Disease Levels I-VIII are the following:

Scheduled Disease	Scheduled Value	Average Value	Maximum Value
Mesothelioma (Level VIII)	$80,000	$125,000	$300,000

[12] On the seven-year (7-year) anniversary of the date on which the Trust begins to pay claims, the Trustees may review and adjust the then-prevailing valuation factors to be considered in Individual Review in consultation with the TAC and the FCR.

Scheduled Disease	Scheduled Value	Average Value	Maximum Value
Lung Cancer 1 (Level VII)	$33,333	$50,000	$120,000
Lung Cancer 2 (Level VI)	N/A	$9,250	$22,000
Other Cancer (Level V)	$6,667	$10,000	$24,000
Severe Asbestosis (Level IV)	$16,667	$25,000	$60,000
Asbestosis/Pleural Disease (Level III)	$2,500	N/A	N/A
Asbestosis/Pleural Disease (Level II)	$800	N/A	N/A
Other Asbestos Disease Cash Discount Payment (Level I)	$70	N/A	N/A

These Scheduled Values, Average Values, and Maximum Values shall apply to all domestic SPHC Trust Claims filed with the Trust on or before the Initial Claims Filing Date as provided in Section 5.1 above. Thereafter, the Trust, with the consent of the TAC and the FCR pursuant to Section 6.7(b) and Section 7.7(b) of the Trust Agreement, may change these valuation amounts for good cause and consistent with other restrictions on the amendment power.

(4) Claims Processing under Individual Review. At the conclusion of the Individual Review Process, the Trust shall: (i) determine the liquidated value, if any, of the claim; and (ii) advise the claimant of its determination. If the Trust establishes a liquidated value, it shall tender to the claimant an offer of payment of the aforementioned determined value multiplied by the applicable Payment Percentage, together with a form of release approved by the Trust. If the claimant accepts the offer of payment and returns the release properly executed, the claim shall be placed in the FIFO Payment Queue, following which the Trust shall disburse payment subject to the limitations of the Maximum Available Payment and Claims Payment Ratio, if any.

5.4 <u>Categorizing Claims as Extraordinary and/or Exigent.</u>

(a) <u>Extraordinary Claims.</u> "**Extraordinary Claim**" means a Trust Claim that otherwise satisfies the Medical Criteria for Disease Level VIII, and that is held by a claimant whose exposure to asbestos contained in a product of one or more of the SPHC Parties or their predecessors in interest during a period in which a SPHC Party or its predecessor was selling, distributing, processing, manufacturing, or otherwise handling asbestos-containing product (i) was substantial in duration (constituting at least 66.67% of a claimant's Significant Occupation Exposure) or (ii) was substantial (constituting at least 66.67%) in proportion to such claimant's exposures to all other asbestos-containing products. All such Extraordinary Claims shall be presented for Individual Review and, if valid, shall be entitled to an award of up to a maximum extraordinary value of eight (8) times the Scheduled Value set forth in <u>Section 5.3(b)(3)</u> for claims qualifying for Disease Level VIII. In evaluating an Extraordinary Claim, the Trust may require the production of such additional information and documents as deemed necessary or appropriate. It is anticipated that the total number of Extraordinary Claims paid by the Trust in a calendar year shall not be greater than 20% of the number of claims that are paid by the Trust in that same calendar year following Individual Review ("**ER/IR Ratio**"). On an annual basis, the Trust shall review and may adjust the ER/IR Ratio based upon the Trust's actual experience and forecasted claims.

Any dispute as to Extraordinary Claim status shall be submitted to a special panel established by the Trust with the consent of the TAC and the FCR ("**Extraordinary Claims Panel**"). All decisions of the Extraordinary Claims Panel shall be final and not subject to any further administrative or judicial review. An Extraordinary Claim, following its liquidation, shall be placed in the FIFO Payment Queue ahead of all other SPHC Trust Claims, except

Exigent Claims (as defined in Section 5.4(b) below), based on its date of liquidation and shall be subject to the Payment Percentage, Maximum Available Payment, and Claims Payment Ratio described above.

(b) **Exigent Claims.** At any time the Trust may liquidate and pay SPHC Trust Claims that qualify as Exigent Health Claims or Exigent Hardship Claims (together, "**Exigent Claims**") as defined below. Exigent Claims may be considered separately under the Individual Review Process no matter what the order of processing otherwise would have been under these TDP. An Exigent Claim, following its liquidation, shall be placed first in the FIFO Payment Queue ahead of all other SPHC Trust Claims and shall be subject to the Maximum Available Payment and Claims Payment Ratio described above.

(1) **Exigent Health Claims.** A Trust Claim qualifies for payment as an Exigent Health Claim if the claim meets the Medical/Exposure Criteria for Mesothelioma (Disease Level VIII) and the claimant is living when the claim is filed. A claim in Disease Levels IV-VII qualifies as an Exigent Health Claim if the claim meets the Medical/Exposure Criteria for the disease level, and the claimant provides a declaration or affidavit made under penalty of perjury by a physician who has examined the claimant within one hundred twenty (120) days of the date of declaration or affidavit in which the physician states (a) that there is substantial medical doubt that the claimant will survive beyond six (6) months from the date of the declaration or affidavit, and (b) that the claimant's terminal condition is caused by the relevant asbestos-related disease.

(2) **Exigent Hardship Claims.** A Trust Claim qualifies for payment as an Exigent Hardship Claim if the claim meets the Medical/Exposure Criteria for Severe Asbestosis (Disease Level IV) or an asbestos-related malignancy (Disease Levels V-VIII), and

the Trust, in its sole discretion, determines (i) that the claimant needs financial assistance on an immediate basis based on the claimant's expenses and all sources of available income, and (ii) that there is a causal connection between the claimant's dire financial condition and the claimant's asbestos-related disease.

5.5 **<u>Indirect SPHC Trust Claims.</u>** SPHC Asbestos Personal Injury Indirect Claims asserted against the Trust shall be treated as presumptively valid and paid by the Trust subject to the applicable Payment Percentage if (a) such claim satisfied the requirements of the Bar Date for such claims established by the Bankruptcy Court, if applicable, and is not otherwise disallowed by Section 502(e) of the Bankruptcy Code or subordinated under Section 509(c) of the Bankruptcy Code, and (b) the holder of such claim ("**Indirect Claimant**") establishes to the satisfaction of the Trustees that (i) the Indirect Claimant has paid in full the liability and obligation of the Trust to the individual claimant to whom the Trust would otherwise have had a liability or obligation under these TDP ("**Direct Claimant**") (and which has not been paid by the Trust), (ii) the Direct Claimant and the Indirect Claimant have forever and fully released the Trust and the SPHC Protected Parties from all liability to the Direct Claimant and the Indirect Claimant, and (iii) the claim is not otherwise barred by a statute of limitations or repose or by other applicable law. In no event shall any Indirect Claimant have any rights against the Trust superior to the rights of the related Direct Claimant against the Trust, including any rights with respect to the timing, amount, or manner of payment. In addition, no SPHC Asbestos Personal Injury Indirect Claim may be liquidated and paid in an amount that exceeds what the Indirect Claimant has actually paid the related Direct Claimant in respect of such Direct Claimant's claim for which the Trust would have liability.

To establish a presumptively valid SPHC Asbestos Personal Injury Indirect Claims, the Indirect Claimant's aggregate liability for the Direct Claimant's claim must also have been fixed, liquidated and paid fully by the Indirect Claimant by settlement (with an appropriate full release in favor of the Trust and the SPHC Protected Parties) or a Final Order provided that such claim is valid under tort law. In any case where the Indirect Claimant has satisfied the claim of a Direct Claimant against the Trust under applicable law by way of a settlement, the Indirect Claimant shall obtain for the benefit of the Trust and the SPHC Protected Parties a release in form and substance satisfactory to the Trustees.

If an Indirect Claimant cannot meet the presumptive requirements set forth above, including the requirement that the Indirect Claimant provide the Trust and the SPHC Protected Parties with a full release of the Direct Claimant's claim, the Indirect Claimant may request that the Trust review the SPHC Asbestos Personal Injury Indirect Claim individually to determine whether the Indirect Claimant can establish under law that the Indirect Claimant has paid all or a portion of a liability or obligation that the Trust had to the Direct Claimant as of the Effective Date of these TDP. If the Indirect Claimant can show that it has paid all or a portion of such a liability or obligation, the Trust shall reimburse the Indirect Claimant the amount of the liability or obligation so paid, times the applicable Payment Percentage. However, in no event shall such reimbursement to the Indirect Claimant be greater than the amount to which the Direct Claimant would have otherwise been entitled under these TDP. Further, the liquidated value of any SPHC Asbestos Personal Injury Indirect Claim paid by the Trust to an Indirect Claimant shall be treated as an offset to or reduction of the full liquidated value of any SPHC Asbestos Personal Injury Claim that might be subsequently asserted by the Direct Claimant against the Trust.

Any dispute between the Trust and an Indirect Claimant over whether the Indirect Claimant has a right to reimbursement for any amount paid to a Direct Claimant shall be subject to the ADR Procedures. If such dispute is not resolved under the ADR Procedures, the Indirect Claimant may litigate the dispute in the tort system pursuant to Section 5.10 and Section 7.6 below.

The Trustees may develop and approve a separate proof-of-claim form for SPHC Asbestos Personal Injury Indirect Claims as provided in Section 6.1 below. SPHC Asbestos Personal Injury Indirect Claims that have not been disallowed, discharged, or otherwise resolved by prior order of the Bankruptcy Court shall be processed in accordance with procedures to be developed and implemented by the Trustees consistent with the provisions of this Section 5.5, which procedures (a) shall determine the validity, allowability and enforceability of such claims, and (b) shall otherwise provide the same liquidation and payment procedures and rights to the holders of such claims as the Trust would have afforded the holders of the underlying valid SPHC Trust Claims. Nothing in these TDP is intended to preclude a trust to which asbestos-related liabilities are channeled from asserting an SPHC Asbestos Personal Injury Indirect Claim against the Trust subject to the requirements set forth herein.

5.6 Evidentiary Requirements.

(a) Medical Evidence.

(1) In General. All diagnoses of a Disease Level shall be accompanied by either (i) a statement by the physician providing the diagnosis that at least 10 years have elapsed between the date of first exposure to asbestos or asbestos-containing products

and the diagnosis, or (ii) a history of the claimant's exposure sufficient to establish a 10-year latency period.[13]

A. <u>Disease Levels I-IV.</u> Except for asbestos claims filed against a Debtor or any other defendant in the tort system prior to the applicable Petition Date, all diagnoses of a non-malignant asbestos-related disease (Disease Levels I-IV) shall be based in the case of a claimant who was living at the time the claim was filed, upon a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease. All living claimants must also provide: (i) for Disease Levels I-III, evidence of Bilateral Asbestos-Related Nonmalignant Disease (as defined in footnote 6 above), (ii) for Disease Level IV, an ILO reading of 2/1 or greater or pathological evidence of asbestosis; and (iii) for Disease Levels III and IV, pulmonary function testing.[14] A finding by a physician after the Effective Date that a claimant's disease is "consistent with" or "compatible with" asbestosis will not alone be treated by the Trust as a diagnosis.

In the case of a claimant who was deceased at the time the claim was filed, all diagnoses of a non-malignant asbestos-related disease (Disease Levels I-IV) shall be based upon either (i) a

---

[13] All diagnoses of Asbestosis/Pleural Disease (Disease Levels II and III) not based on pathology shall be presumed to be based on findings of bilateral asbestosis or pleural disease, and all diagnoses of Mesothelioma (Disease Level VIII) shall be presumed to be based on findings that the disease involves a malignancy. However, the Trust may rebut such presumptions.

[14] "**Pulmonary function testing**" or "**PFT**" shall mean testing that is in material compliance with the quality criteria established by the American Thoracic Society ("ATS") and is performed on equipment that is in material compliance with ATS standards for technical quality and calibration. A PFT performed in a hospital accredited by the Joint Commission (as defined in <u>Section 5.5(a)(l)(B)</u>), or performed, reviewed or supervised by a board certified pulmonologist or other Qualified Physician shall be presumed to comply with ATS standards, and the claimant may submit a summary report of the testing. If the PFT was not performed in a Joint Commission-accredited hospital, or performed, reviewed or supervised by a board certified pulmonologist or other Qualified Physician, the claimant must submit the full report of the testing (as opposed to a summary report); provided, however, that if the PFT was conducted prior to the Effective Date of the Plan and the full PFT report is not available, the claimant must submit a declaration signed by a Qualified Physician or other party who is qualified to make a certification regarding the PFT, in the form provided by the Trust, certifying that the PFT was conducted in material compliance with ATS standards.

physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease; or (ii) pathological evidence of the non-malignant asbestos-related disease; or (iii) in the case of Disease Levels I-III, evidence of Bilateral Asbestos-Related Nonmalignant Disease (as defined in footnote 6 above), and for Disease Level IV, either an ILO reading of 2/1 or greater or pathological evidence of asbestosis; or (iv) for either Disease Level III or IV, pulmonary function testing.

B. Disease Levels V-VIII. All diagnoses of an asbestos-related malignancy (Disease Levels V-VIII) shall be based upon either (i) a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease, or (ii) a diagnosis of such a malignant Disease Level by a board-certified pathologist or by a pathology report prepared at or on behalf of a hospital accredited by the Joint Commission (formerly known as the Joint Commission on Accreditation of Healthcare Organizations).

C. Exception to the Exception for Certain Pre-Petition SPHC Trust Claims. If the holder of a Trust Claim that was filed against a SPHC Party or any other defendant in the tort system prior to the applicable Petition Date has available a report of a diagnosing physician engaged by the holder or his or her law firm who conducted a physical examination of the holder as described in Section 5.6(a)(1)(A), or if the holder has filed such medical evidence and/or a diagnosis of the asbestos-related disease by a physician not engaged by the holder or his or her law firm who conducted a physical examination of the holder with another asbestos-related personal injury settlement trust that requires such evidence, without regard to whether the claimant or the law firm engaged the diagnosing physician, the holder shall provide such medical evidence to the Trust notwithstanding the exception in Section 5.6(a)(1)(A).

D. Credibility of Medical Evidence. Before making any payment to a claimant, the Trust must have reasonable confidence that the medical evidence provided in support of the claim is credible and consistent with recognized medical standards. The Trust may require the submission of X-rays, CT scans, detailed results of pulmonary function tests, laboratory tests, tissue samples, results of medical examination, or reviews of other medical evidence, and may require that medical evidence submitted comply with recognized medical standards regarding equipment, testing methods, and procedures to assure that such evidence is reliable. Medical evidence (i) that is of a kind shown to have been received in evidence by a state or federal judge at trial, (ii) that is consistent with evidence submitted to one or more of the SPHC Parties to settle for payment similar disease cases prior to the applicable Petition Date, or (iii) that is a diagnosis by a physician shown to have previously qualified as a medical expert with respect to the asbestos-related disease in question before a state or federal judge using the same methodology and standard, is presumptively reliable, although the Trust may seek to rebut the presumption. Notwithstanding the foregoing or any other provision of these TDP, any medical evidence submitted by a physician or entity that the Trust has determined, after consulting with the TAC and the FCR, to be unreliable shall not be acceptable as medical evidence in support of any Trust Claim.

In addition, claimants who otherwise meet the requirements of these TDP for payment of a Trust Claim shall be paid irrespective of the results in any litigation at any time between the claimant and any other defendant in the tort system. However, any relevant evidence submitted in a proceeding in the tort system, other than any findings of fact, a verdict, or a judgment, involving another defendant may be introduced by either the claimant or the Trust in any

Individual Review proceeding conducted pursuant to Section 5.3(b) or any Extraordinary Claim proceeding conducted pursuant to Section 5.4(a).

(b) Exposure Evidence.

(1) In General. As set forth above in Section 5.3(a)(3), to qualify for any Disease Level, the claimant must demonstrate a minimum exposure to asbestos-containing products of or for which one or more SPHC Parties has liability, or to conduct that exposed the claimant to an asbestos-containing product, for which one or more SPHC Parties otherwise has legal responsibility. Claims based on conspiracy theories that involve no exposure to an asbestos-containing product sold, distributed, marketed, handled, processed, or manufactured by one or more SPHC Parties, their predecessors or successors are not compensable under these TDP. To meet the presumptive exposure requirements of Expedited Review set forth in Section 5.3(a)(2) above, the claimant must show (i) for all Disease Levels, Debtor Exposure as defined in Section 5.6(b)(1)(B) below prior to December 31, 1982; (ii) for Asbestos/Pleural Disease Level II, six (6) months Debtor Exposure prior to December 31, 1982, plus five (5) years cumulative occupational asbestos exposure; and (iii) for Asbestosis/Pleural Disease (Disease Level III), Severe Asbestosis (Disease Level IV), Other Cancer (Disease Level V) or Lung Cancer 1 (Disease Level VII), the claimant must show six (6) months of Debtor Exposure prior to December 31, 1982, plus Significant Occupational Exposure to asbestos as defined below. If the claimant cannot meet the relevant presumptive exposure requirements for a Disease Level eligible for Expedited Review, including exposure occurring prior to December 31, 1982, the claimant may seek Individual Review of his or her claim based on exposure to asbestos-containing products, or to conduct that exposed the claimant to an asbestos-containing product, for which one or more SPHC Parties has legal responsibility.

A. Significant Occupational Exposure. "**Significant Occupational Exposure**" means employment for a cumulative period of at least five (5) years, with a minimum of two (2) years prior to December 31, 1982, in an industry and an occupation in which the claimant (a) handled raw asbestos fibers on a regular basis; (b) fabricated asbestos-containing products such that the claimant in the fabrication process was exposed on a regular basis to raw asbestos fibers; (c) altered, repaired or otherwise worked with an asbestos-containing product such that the claimant was exposed on a regular basis to asbestos fibers; or (d) was employed in an industry and occupation such that the claimant worked on a regular basis in close proximity to workers engaged in the activities described in (a), (b) and/or (c).

B. Debtor Exposure. "**Debtor Exposure**" means the claimant must demonstrate meaningful and credible exposure, which occurred prior to December 31, 1982, (a) to an asbestos-containing product sold, distributed, marketed, handled, processed, or manufactured by one or more SPHC Parties or for which one or more SPHC Parties otherwise have legal responsibility or (b) to conduct for which one or more SPHC Parties have legal responsibility that exposed the claimant to an asbestos-containing product. That meaningful and credible exposure evidence may be established by an affidavit or sworn statement of the claimant (based on personal knowledge); an affidavit or sworn statement of a family member (based on personal knowledge); an affidavit or sworn statement of a co-worker (based on personal knowledge); by invoices, employment, construction or similar records; or by other credible evidence. The specific exposure information required by the Trust to process a claim under either Expedited or Individual Review shall be set forth on the proof-of-claim form to be used by the Trust. The Trust can also require submission of other or additional evidence of exposure when it deems such to be necessary. The Trust shall seek to refrain from applying new or

modified exposure criteria to claimants who die (or who have submitted an affidavit of exposure by an affiant who dies) during the pendency of such claimant's claim review.

Evidence submitted to establish proof of Debtor Exposure is for the sole benefit of the Trust, not third parties or defendants in the tort system. The Trust has no need for, and therefore claimants are not required to furnish the Trust, with evidence of exposure to specific asbestos products other than those for which one or more SPHC Parties have legal responsibility, except to the extent such evidence is required elsewhere in these TDP. Similarly, failure to identify a one or more SPHC Parties' products in the claimant's underlying tort action, or to other bankruptcy trusts, does not preclude the claimant from recovering from the Trust, provided the claimant satisfies the medical and exposure requirements of these TDP.

5.7 Claims Audit Program. The Trustees, with the consent of the TAC and the FCR, may develop methods for auditing the reliability of medical evidence, including additional reading of X-rays, CT scans and verification of pulmonary function tests, as well as the reliability of evidence of exposure to asbestos, including Debtor Exposure, prior to December 31, 1982. In the event that the Trust reasonably determines that any individual or entity has engaged in a pattern or practice of providing unreliable medical evidence, it may decline to accept additional evidence from such provider in the future.

Further, in the event that an audit reveals that fraudulent information has been provided to the Trust, the Trust may penalize any claimant or claimant's attorney by disallowing a Trust Claim and/or by other means including, but not limited to, requiring the source of the fraudulent information to pay the costs associated with the audit and any future audit or audits, reordering the priority of payment of all affected claimants' SPHC Trust Claims, raising the level of scrutiny of additional information submitted from the same source or sources, refusing to accept

additional evidence from the same source or sources, seeking the prosecution of the claimant or claimant's attorney for presenting a fraudulent claim in violation of 18 U.S.C. §152, and seeking sanctions from the Bankruptcy Court.

5.8 **Second Disease (Malignancy) Claims.** The holder of a Trust Claim involving a non-malignant asbestos-related disease (Disease Levels I through IV) may assert a new Trust Claim against the Trust for a malignant disease (Disease Levels V-VIII) that is subsequently diagnosed. Any additional payments to which such claimant may be entitled with respect to such malignant asbestos-related disease shall not be reduced by the amount paid for the non-malignant asbestos-related disease, provided that the malignant disease had not been diagnosed at the time the claimant was paid with respect to his or her original claim involving the non-malignant disease.

5.9 **Arbitration.**

(a) **Establishment of ADR Procedures.** The Trust, with the consent of the TAC and the FCR, shall develop and adopt ADR Procedures,[15] which shall provide for pro-bono evaluation, mediation, and binding or non-binding arbitration to resolve disputes concerning whether the Trust's outright rejection or denial of a claim was proper, or whether the claimant's medical condition or exposure history meets the requirements of these TDP for purposes of categorizing a claim involving Disease Levels I-VIII. Proceedings under the ADR Procedures shall also be available for resolving disputes over the liquidated value of a claim involving Disease Levels II-VIII, as well as disputes over the validity of an SPHC Asbestos Personal Injury Indirect Claim.

---

[15] To the extent there is any ambiguity or conflict between any provision of these TDP and the ADR Procedures, the provisions of these TDP shall control.

In all arbitrations, the arbitrator shall consider the same medical and exposure evidentiary requirements that are set forth in Section 5.6 above. In the case of an arbitration involving the liquidated value of a claim involving Disease Levels II-VIII, the arbitrator shall consider the same valuation factors that are set forth in Section 5.3(b)(2) above. In order to facilitate the Individual Review Process, the Trust may from time to time develop valuation methodologies and/or matrices that take into account the valuation factors set forth in Section 5.3(b)(2) above that enable the Trust to efficiently make initial liquidated value offers in the Individual Review Process.

With respect to domestic claims, these valuation methodologies and/or matrices are often referred to as the Individual Review model. The Trust shall neither offer into evidence or describe any such methodologies and/or matrices, nor assert that any information generated by the methodologies and/or matrices has any evidentiary relevance or should be used by the arbitrator in determining the presumed correct liquidated value in the arbitration. The underlying data that was used to create the methodologies and/or matrices may be relevant and may be made available to the arbitrator but only if provided to the claimant or the claimant's counsel at least ten (10) days prior to the arbitration proceeding.

With respect to all claims eligible for arbitration, the claimant, but not the Trust, may elect either non-binding or binding arbitration. The ADR Procedures may be modified by the Trust with the consent of the TAC and the FCR. Such amendments may include the establishment of an Extraordinary Claims Panel to review such claims pursuant to Section 5.4(a) above.

(b) Claims Eligible for Arbitration. In order to be eligible for arbitration, the claimant must first complete the Individual Review Process set forth in Section 5.3(b) above.

Individual Review shall be treated as completed for these purposes when the claim has been individually reviewed by the Trust, the Trust has made an offer on the claim, the claimant has rejected the liquidated value resulting from the Individual Review, and the claimant has notified the Trust of the rejection in writing. Individual Review will also be treated as completed if the Trust has rejected the claim.

(c) **Limitations on and Payment of Arbitration Awards.** In the case of claims involving Disease Level I, the arbitrator shall not return an award in excess of the Scheduled Value for such claims. In the case of a non-Extraordinary Claim involving Disease Levels IV-VIII, the arbitrator shall not return an award in excess of the Maximum Value for the appropriate Disease Level as set forth in Section 5.3(b)(3) above, and for an Extraordinary Claim involving one of those Disease Levels, the arbitrator shall not return an award greater than the maximum extraordinary value for such a claim as set forth in Section 5.4(a) above. A claimant who submits to arbitration and who accepts the arbitral award will receive payments in the same manner as one who accepts the Trust's original valuation of the claim.

5.10 **Litigation.** Claimants who elect non-binding arbitration and then reject their arbitral awards retain the right to institute a lawsuit in the tort system against the Trust pursuant to Section 7.6 below. However, a claimant shall be eligible for payment of a judgment for monetary damages obtained in the tort system from the Trust's available cash only as provided in Section 7.7 below.

SECTION VI

CLAIMS MATERIALS

6.1 **Claims Materials.** The Trust shall prepare suitable and efficient claims materials ("**Claims Materials**") for all SPHC Trust Claims, and shall provide such Claims Materials upon

a written request for such materials to the Trust. The Claims Materials shall include a copy of these TDP, such instructions as the Trustees shall approve, a detailed proof-of-claim form, and a release. A separate claim form for SPHC Asbestos Personal Injury Indirect Claims may be developed. If feasible, the forms used by the Trust to obtain claims information shall be substantially similar to those used by other asbestos-claims resolution organizations. In developing its claim-filing procedures, the Trust shall make every reasonable effort to provide claimants with the opportunity to utilize currently available technology at their discretion, including filing claims and supporting documentation over the internet and electronically by disk, CD, zip drive, or similar device. If requested by the claimant, the Trust shall accept information provided electronically.

6.2 Content of Claims Materials. The proof-of-claim form to be submitted to the Trust shall require the claimant to assert the highest Disease Level for which the claim qualifies at the time of filing. The proof-of-claim form shall also include a certification by the claimant or his or her attorney sufficient to meet the requirements of Rule 11(b) of the Federal Rules of Civil Procedure. The proof-of-claim form and release to be used by the Trust shall be developed by the Trust and submitted to the TAC and the FCR for approval; they may be changed by the Trust with the consent of the TAC and the FCR.

6.3 Withdrawal or Deferral of Claims. A claimant can withdraw a Trust Claim at any time upon written notice to the Trust and file another claim subsequently without affecting the status of the claim for statute of limitations purposes, but any such claim filed after withdrawal shall be given a place in the FIFO Processing Queue based on the date of such subsequent filing. A claimant can also request that the processing of his or her Trust Claim be deferred for a period not to exceed three (3) years without affecting the status of the claim for

statute of limitations purposes, in which case the claimant shall also retain his or her original place in the FIFO Processing Queue. During the period of such deferral, a sequencing adjustment on such claimant's Trust Claim as provided in Section 7.5 hereunder shall not accrue and payment thereof shall be deemed waived by the claimant. Except for SPHC Trust Claims held by representatives of deceased or incompetent claimants for which court or probate approval of the Trust's offer is required, or a Trust Claim for which deferral status has been granted, a claim shall be deemed to have been withdrawn if the claimant neither accepts, rejects, nor initiates arbitration within six (6) months of the Trust's written offer of payment or rejection of the claim. Upon written request and good cause, the Trust may extend the withdrawal or deferral period for an additional six (6) months.

6.4 Filing Requirements and Fees. The Trustees shall have the discretion to determine, with the consent of the TAC and the FCR, (a) whether a claimant must have previously filed an asbestos-related personal injury claim in the tort system to be eligible to file the claim with the Trust, and (b) whether a filing fee should be required for any SPHC Trust Claims.

6.5 English Language. All claims, claim forms, submissions, and evidence submitted to the Trust or in connection with any claim or its liquidation shall be in the English language.

6.6 Confidentiality of Claimants' Submissions. All submissions to the Trust by a holder of a Trust Claim, including the proof-of-claim form and materials related thereto, shall be treated as made in the course of settlement discussions between the holder and the Trust and intended by the parties to be confidential and to be protected by all applicable state and federal privileges, including, but not limited to, those directly applicable to settlement discussions. The

Trust shall preserve the confidentiality of such claimant submissions, and shall disclose the contents thereof only: (i) with the permission of the holder, to another trust established for the benefit of asbestos personal injury claimants pursuant to Section 524(g) and/or Section 105 of the Bankruptcy Code or other applicable law; (ii) to such other persons as authorized by the holder; or (iii) in response to a valid subpoena. Furthermore, the Trust shall provide counsel for the holder a copy of any such subpoena immediately upon being served. The Trust shall on its own initiative or upon request of the claimant in question take all necessary and appropriate steps to preserve any and all privileges.

SECTION VII

GENERAL GUIDELINES FOR LIQUIDATING AND PAYING CLAIMS

7.1 **Showing Required.** To establish a valid Trust Claim a claimant must meet the requirements set forth in these TDP. The Trust may require the submission of X-rays, CT scans, laboratory tests, medical examinations or reviews, other medical evidence, or any other evidence to support or verify a Trust Claim and may further require that medical evidence submitted comply with recognized medical standards regarding equipment, testing methods, and procedures to assure that such evidence is reliable. With respect to a Settled SPHC Asbestos Personal Injury Claims, a copy of the underlying settlement agreement and release will be required in addition to any other information the Trustees may reasonably request to verify the existence and amounts of the Settled SPHC Asbestos Personal Injury Claims. Nothing in these TDP shall prohibit the Trust from challenging at any time the validity of a claim and/or whether a claim has been paid, satisfied, settled, released, waived, or otherwise discharged.

7.2 **Costs Considered.** Notwithstanding any provisions of these TDP to the contrary, the Trustees shall always give appropriate consideration to the cost of investigating and

uncovering invalid SPHC Trust Claims so that the payment of valid SPHC Trust Claims is not further impaired by such processes with respect to issues related to the validity of the medical evidence supporting a Trust Claim. The Trustees shall also have the latitude to make judgments regarding the amount of transaction costs to be expended by the Trust so that valid Settled SPHC Asbestos Personal Injury Claims and SPHC Trust Claims are not unduly further impaired by the costs of additional investigation. Nothing herein shall prevent the Trustees, in appropriate circumstances, from contesting the validity of any claim against the Trust whatever the costs, or declining to accept medical evidence from sources that the Trustees have determined to be unreliable pursuant to the Claims Audit Program described in Section 5.7 above.

7.3 Discretion to Vary the Order and Amounts of Payments in Event of Limited Liquidity. Consistent with the provisions hereof and subject to the FIFO Processing Queue and the FIFO Payment Queue, the Maximum Annual Payment, the Maximum Available Payment and the Claims Payment Ratio requirements set forth above, the Trustees shall proceed as quickly as possible to liquidate valid SPHC Trust Claims, and shall make payments to holders of such claims in accordance with these TDP promptly as funds become available and as claims are liquidated, while maintaining sufficient resources to pay future valid claims in substantially the same manner.

Because the Trust's income over time remains uncertain, and decisions about payments must be based on estimates that cannot be done precisely, they may have to be revised in light of experiences over time, and there can be no guarantee of any specific level of payment to claimants. However, the Trustees shall use their best efforts to treat similar claims in substantially the same manner, consistent with their duties as Trustees, the purposes of the Trust, the established allocation of funds to claims in Categories A and B, and the practical limitations

imposed by the inability to predict the future with precision. In the event that the Trust faces temporary periods of limited liquidity, the Trustees may, with the consent of the TAC and the FCR, suspend the normal order of payment; temporarily limit or suspend payments altogether; and/or offer a Reduced Payment Option as described in Section 2.4 above.

7.4 Punitive Damages. Except as provided below for claims asserted by a claimant for compensatory damages that would otherwise satisfy the criteria for payment under these TDP but the claimant is foreclosed from payment because the governing law describes the claim as a claim for "exemplary" or "punitive" damages in determining the value of any liquidated or unliquidated Trust Claim, punitive or exemplary damages, i.e., damages other than compensatory damages, shall not be considered or allowed, notwithstanding their availability in the tort system. Similarly, no punitive or exemplary damages shall be payable with respect to any claim litigated against the Trust in the tort system pursuant to Section 5.10 above and Section 7.6 below.

The only damages that may be awarded pursuant to this TDP to Alabama Claimants who are deceased and whose personal representatives pursue their claims only under the Alabama Wrongful Death Statute shall be compensatory damages determined pursuant to the statutory and common law of the Commonwealth of Pennsylvania, without regard to its choice of law principles.

7.5 Sequencing Adjustments.

(a) In General. Except for SPHC Trust Claims involving Other Asbestos Disease (Disease Level I – Cash Discount Payment) and subject to the limitations set forth below, a sequencing adjustment shall be paid on all SPHC Trust Claims with respect to which the claimant has had to wait a year or more for payment, provided, however, that no claimant shall receive a sequencing adjustment for a period in excess of seven (7) years. The sequencing

adjustment factor shall be the one-year U.S. Treasury bill interest rate in effect on January 1 of the year in which the accrual of the sequencing adjustment commences. The rate of the sequencing adjustment shall be adjusted each January 1 to correspond to the one-year Treasury bill interest rate then in effect. The applicable sequencing adjustment shall be calculated based only on the value of the claims specified in Section 7.5(b) below, subject to the Payment Percentage; any accrued but unpaid sequencing adjustment shall not be included in such calculation.

(b) Unliquidated SPHC Trust Claims. A sequencing adjustment shall be payable on the Scheduled Value of any unliquidated Trust Claim that meets the requirements of Disease Levels II-V, VII, and VIII, whether the claim is liquidated under Expedited Review, Individual Review, or by arbitration. No sequencing adjustment shall be paid on any claim involving Disease Level I or on any claim liquidated in the tort system pursuant to Section 5.10 above and Section 7.6 below. The sequencing adjustment on an unliquidated Trust Claim that meets the requirements of Disease Level VI shall be based on the Average Value of such a claim. Sequencing adjustments on all unliquidated claims shall be measured from the date of payment back to the date that is one year after the date on which (a) the claim was filed against a Debtor prior to the applicable Petition Date; (b) the claim was filed against another defendant in the tort system on or after the applicable Petition Date but before the Initial Claims Filing Date; (c) a PIQ was submitted in connection with the bankruptcy cases; or (d) the claim was filed with the Trust after the Effective Date.

7.6 Suits in the Tort System. If the holder of a disputed claim disagrees with the Trust's determination regarding the Disease Level of the claim, the claimant's exposure or medical history, the validity of the claim, or the liquidated value of the claim, and if the holder

has first submitted the claim to non-binding arbitration as provided in Section 5.9 above, the holder may file a lawsuit in the Claimant's Jurisdiction as defined in Section 5.3(b)(2) above. Any such lawsuit must be filed by the claimant in his or her own right and name and not as a member or representative of a class, and no such lawsuit may be consolidated with any other lawsuit. All defenses (including, with respect to the Trust, all defenses that could have been asserted by a SPHC Party) shall be available to both sides at trial; however, the Trust may waive any defense and/or concede any issue of fact or law. If the claimant was alive at the time the initial pre-petition complaint was filed or the proof-of-claim form was filed with the Trust, the case shall be treated as a personal injury case with all personal injury damages to be considered even if the claimant has died during the pendency of the claim.

7.7 Payment of Judgments for Money Damages. If and when a claimant obtains a judgment in the tort system, the claim shall be placed in the FIFO Payment Queue based on the date on which the judgment became final. Thereafter, the claimant shall receive from the Trust an initial payment (subject to the applicable Payment Percentage, the Maximum Available Payment, and the Claims Payment Ratio provisions set forth above) of an amount equal to the greater of (i) the Trust's last offer to the claimant or (ii) the award that the claimant declined in non-binding arbitration; provided, however, that in no event shall such payment amount exceed the amount of the judgment obtained in the tort system. The claimant shall receive the balance of the judgment, if any, in five (5) equal installments in years six (6) through ten (10) following the year of the initial payment (also subject to the applicable Payment Percentage, the Maximum Available Payment, and the Claims Payment Ratio provisions above in effect on the date of the payment of the subject installment).

In the case of claims involving Disease Level I, the total amounts paid with respect to such claims shall not exceed the Scheduled Value for such claims. In the case of non-Extraordinary claims involving Disease Levels II-VIII, the total amounts paid with respect to such claims shall not exceed the Maximum Values for such Disease Levels set forth in Section 5.3(b)(3). In the case of Extraordinary Claims, the total amounts paid with respect to such claims shall not exceed the maximum extraordinary values for such claims set forth in Section 5.4 above. Under no circumstances shall the Trust pay (a) sequencing adjustments pursuant to Section 7.5 or (b) interest under any statute on any judgments obtained in the tort system.

7.8 Releases. The Trustees shall have the discretion to determine the form and substance of the releases to be provided to the Trust and the SPHC Protected Parties in order to maximize recovery for claimants against other tortfeasors without increasing the risk or amount of claims for indemnification or contribution from the Trust or the SPHC Protected Parties with respect to the Trust Claim. As a condition to making any payment to a claimant, the Trust shall obtain, for the benefit of the Trust and the SPHC Protected Parties, a general, partial, or limited release as appropriate. If allowed by applicable law, the endorsing of a check or draft for payment by or on behalf of a claimant may, in the discretion of the Trust, constitute such a release.

7.9 Third-Party Services. Nothing in these TDP shall preclude the Trust from contracting with another asbestos claims resolution organization to provide services to the Trust so long as decisions about the categorization and liquidated value of SPHC Trust Claims are based on the relevant provisions of these TDP, including the Disease Levels, Scheduled Values, Average Values, Maximum Values, and Medical/Exposure Criteria set forth above.

SECTION VIII

8.1 Medicare

(a) It is the position of the parties to this Trust Agreement that the SPHC Protected Parties will have no reporting obligations in respect of their contributions to the Trust, or in respect of any payments, settlements, resolutions, awards, or other claim liquidations by the Trust, under the reporting provisions of 42 U.S.C. §1395y et seq. or any other similar statute or regulation, and any related rules, regulations, or guidance issued in connection therewith or relating thereto ("MSPA"), including Section 111 of the Medicare, Medicaid, and SCHIP Extension Act of 2007 (P. L. 110-173), or any other similar statute or regulation, and any related rules, regulations, or guidance issued in connection therewith or relating thereto ("MMSEA"). Unless and until there is definitive regulatory, legislative, or judicial authority (as embodied in a final non-appealable decision from the United States Court of Appeals for the Third Circuit or the United States Supreme Court), or a letter from the Secretary of Health and Human Services confirming that the SPHC Protected Parties have no reporting obligations under MMSEA with respect to any settlements, payments, or other awards made by the Trust or with respect to contributions the SPHC Protected Parties have made or will make to the Trust, the Trust shall, at its sole expense, in connection with the implementation of the Plan, act as a reporting agent for the SPHC Protected Parties, and shall timely submit all reports that would be required to be made by any of the SPHC Protected Parties under MMSEA on account of any claims settled, resolved, paid, or otherwise liquidated by the Trust or with respect to contributions to the Trust. The Trust, in its role as reporting agent for the SPHC Protected Parties, shall follow all applicable guidance published by the Centers for Medicare & Medicaid Services of the United States Department of Health and Human Services and/or any other agent or successor entity

charged with responsibility for monitoring, assessing, or receiving reports made under MMSEA (collectively, "CMS") to determine whether or not, and, if so, how, to report to CMS pursuant to MMSEA.

(b) As long as the Trust is required to act as a reporting agent for any SPHC Protected Parties pursuant to the provisions of Section 8.1(a) above, the Trust shall within ten (10) business days following the end of each calendar quarter, provide a written certification to the party designated in writing by each Protected Party for which the Trust is required to act as reporting agent, confirming that all reports to CMS required by Section 8.1(a) above have been submitted in a timely fashion, and identifying (i) any reports that were rejected or otherwise identified as noncompliant by CMS, along with the basis for such rejection or noncompliance, and (ii) any payments to Medicare benefits recipients or Medicare-eligible beneficiaries that the Trust did not report to CMS.

(c) With respect to any reports rejected or otherwise identified as noncompliant by CMS, the Trust shall, upon request by a Protected Party for which the Trust is required to act as reporting agent, promptly provide copies of the original reports submitted to CMS, as well as any response received from CMS with respect to such reports; provided, however, that the Trust may redact from such copies the names, Social Security numbers other than the last four digits, health insurance claim numbers, taxpayer identification numbers, employer identification numbers, mailing addresses, telephone numbers, and dates of birth of the injured parties, claimants, guardians, conservators and/or other personal representatives, as applicable. With respect to any such reports, the Trust shall reasonably undertake to remedy any issues of noncompliance identified by CMS and resubmit such reports to CMS, and, upon request by a Protected Party, provide such Protected Party with copies of such resubmissions;

provided, however, that the Trust may redact from such copies the names, Social Security numbers other than the last four digits, health insurance claim numbers, taxpayer identification numbers, employer identification numbers, mailing addresses, telephone numbers, and dates of birth of the injured parties, claimants, guardians, conservators and/or other personal representatives, as applicable. In the event the Trust is unable to remedy any issues of noncompliance, the provisions of Section 8.1(g) below shall apply.

(d) As long as the Trust is required to act as a reporting agent for a Protected Party pursuant to Section 8.1(a) above, with respect to each claim of a Medicare benefits recipient or Medicare-eligible beneficiary that was paid by the Trust and not reported to CMS, the Trust shall, upon request by such Protected Party, promptly provide the claimant's name, last four digits of the claimant's Social Security number, the year of the claimant's birth, the claimants' asbestos-related disease, and any other information that may be necessary in the reasonable judgment of such Protected Party to satisfy its obligations, if any, under MMSEA, as well as the basis for the Trust's failure to report the payment. In the event the Protected Party informs the Trust that it disagrees with the Trust's decision not to report a claim paid by the Trust, the Trust shall promptly report the payment to CMS. All documentation relied upon by the Trust in making a determination that a payment did not have to be reported to CMS shall be maintained for a minimum of six years following such determination. The SPHC Protected Parties shall keep any information and documents received from the Trust pursuant to this Section 8.1(d) confidential and shall not use such information for any purpose other than meeting obligations under MSPA and/or MMSEA.

(e) As long as the Trust is required to act as a reporting agent for any Protected Party pursuant to Section 8.1(a) above, the Trust shall make the reports and provide the

certifications required by Section 8.1(a) and (b) above until such time as the Protected Party shall determine, in its reasonable judgment, that it has no further legal obligation under MMSEA or otherwise to report any settlements, resolutions, payments, or liquidation determinations made by the Trust or contributions to the Trust. Furthermore, following any permitted cessation of reporting, or if reporting has not previously commenced due to the satisfaction of one or more of the conditions set forth in Section 8.1(a) above, and if the Protected Party reasonably determines, based on subsequent legislative, administrative, regulatory, or judicial developments, that reporting is required, then the Trust shall promptly perform its obligations under Section 8.1(a) and (b) above.

(f) Section 8.1(a) above is intended to be purely prophylactic in nature, and does not imply, and shall not constitute an admission, that any Protected Party, is, in fact, an "applicable plan" within the meaning of MMSEA, or that any Protected Party has a legal obligation to report any actions undertaken by the Trust or contributions to the Trust under MMSEA or any other statute or regulation.

(g) In the event that CMS concludes that reporting done by the Trust in accordance with Section 8.1(a) above is or may be deficient in any way, and has not been corrected to the satisfaction of CMS in a timely manner, or if CMS communicates to the Trust or any of the SPHC Protected Parties a concern with respect to the sufficiency or timeliness of such reporting, or there appears to a Protected Party a reasonable basis for a concern with respect to the sufficiency or timeliness of such reporting or non-reporting based upon the information received pursuant to Section 8.1(b), (c) or (d) above, or other credible information, then each Protected Party shall have the right to submit its own reports to CMS under MMSEA, and the Trust shall provide in a timely manner to any Protected Party that elects to file its own reports

such information as the electing Protected Party may require in order to comply with MMSEA, including, without limitation, the full reports filed by the Trust pursuant to Section 8.1(a) above without any redactions. Such Protected Party shall keep any information it receives from the Trust pursuant to this Section 4.12(g) confidential and shall not use such information for any purpose other than meeting obligations under MSPA and/or MMSEA.

(h) Notwithstanding any other provision hereof, if the Trust is required to act as a reporting agent for any of the SPHC Protected Parties pursuant to the provisions contained herein, then such SPHC Protected Parties shall take all steps necessary and appropriate as required by CMS to permit any reports contemplated by this Section 8.1 to be filed. Furthermore, until a Protected Party provides the Trust with any necessary information regarding that Protected Party's identifying information that may be required by CMS's Coordination of Benefits Contractor to effectuate reporting, the Trust shall have no obligation to report under Section 8.12(a) above with respect to any such entity that has not provided such information and the Trust shall have no indemnification obligation under Subsection (j) of this Section 8.1 to such Protected Party for any penalty, interest, or sanction that may arise solely on account of the Protected Party's failure to timely provide such information to the Trust in response to a timely request by the Trust for such information.

(i) The Trustees shall obtain prior to remittance of funds to claimants' counsel or to the claimant, if pro se, in respect of any Asbestos Personal Injury Claim a certification from the claimant to be paid that said claimant has or will provide for the payment and/or resolution of any obligations owing or potentially owing under MSPA in connection with, or relating to, such Asbestos Personal Injury Claim and that the SPHC Protected Parties also are beneficiaries of such certification. The Trust shall provide a quarterly certification of its

compliance with the terms of the immediately preceding sentence to the party designated in writing by each Protected Party for which the Trust is required to act as reporting agent, and shall permit reasonable audits by such SPHC Protected Parties, no more often than quarterly, to confirm the Trust's compliance with this Section 8.1(i) during which SPHC Protected Parties may request copies of claimant certifications. For the avoidance of doubt, the Trust shall be obligated to comply with the requirements of this Section 8.1(i) regardless of whether a Protected Party elects to file its own reports under MMSEA pursuant to Section 8.1(g) above. The SPHC Protected Parties shall keep any information and documents received from the Trust pursuant to this Section 8.1(i)

SECTION IX

MISCELLANEOUS

9.1 **Amendments.** Except as otherwise provided herein, the Trustees may amend, modify, delete, or add to any provisions of these TDP (including, without limitation, amendments to conform these TDP to advances in scientific or medical knowledge or other changes in circumstances), provided they first obtain the consent of the TAC and the FCR pursuant to the consent process set forth in Section 6.7(b) and Section 7.7(b) of the Trust Agreement, except that the right to amend the Claims Payment Ratio is governed by the restrictions in Section 2.5 above, and the right to adjust the Payment Percentage is governed by Section 4.2 above. Nothing herein is intended to preclude the TAC or the FCR from proposing to the Trustees, in writing, amendments to these TDP. Any amendment proposed by the TAC or the FCR shall remain subject to Section 8.3 of the Trust Agreement; provided further, however, these TDP may be amended, as set forth above, including with respect to processing and liquidation of Foreign Claims and the adjustments to section 5.3(b).

9.2 **<u>Severability.</u>** Should any provision contained in these TDP be determined to be unenforceable, such determination shall in no way limit or affect the enforceability and operative effect of any and all other provisions of these TDP.

9.3 **<u>Governing Law.</u>** Except for purposes of determining the validity and/or liquidated value of any SPHC Asbestos Personal Injury Claim, administration of these TDP shall be governed by, and construed in accordance with, the laws of the State of Delaware. The law governing the determination of validity and/or liquidation of SPHC Trust Claims in the case of Individual Review, mediation, arbitration or litigation in the tort system shall be the law of the Claimant's Jurisdiction as described in <u>Section 5.3(b)(2)</u> above.

9.4 **<u>Merger of Trust Assets with Other Trusts.</u>** In order to efficiently administer the assets in the account for the Trust, the Trustees may determine, with the consent of the TAC and the FCR, to combine or merge the assets in the account for Trust with another trust or trusts established under Section 524(g) of the Bankruptcy Code. In such an event, the Trustees shall be permitted to obtain claims information maintained by such other 524(g) trusts.

COMPLAINT FOR DECLARATORY
AND INJUNCTIVE RELIEF

Leslie Controls, Inc. ("Leslie" or the "Debtor"), as plaintiff in this adversary proceeding, by its undersigned attorneys, alleges for its complaint as follows:

INTRODUCTION

1. This is an adversary proceeding commenced by the Debtor for relief, pursuant to sections 105(a) and 362(a) of title 11 of the United States Code (the "Bankruptcy Code") and Rule 65 of the Federal Rules of Civil Procedure (the "Federal Rules"), made applicable hereto by Rule 7065 of the Federal Rules of Bankruptcy Procedure (the "Bankruptcy Rules"), and Bankruptcy Rules 7001(7) and (9), in the form of—

(i) a preliminary injunction pending conclusion of this Chapter 11 proceeding, enjoining the commencement or continuation of all actions against (a) the Debtor's current parent company and sole shareholder, CIRCOR International, Inc., or any of its present or former affiliates

(collectively, "CIRCOR")[1] and/or (b) the Debtor's former parent company and sole shareholder, Watts Water Technologies, Inc. (formerly known as Watts Industries, Inc.), or any of its present or former affiliates (collectively, "Watts")[2] (collectively with CIRCOR, the "Protected Parties"), to the extent that those actions against the Protected Parties assert personal injury or wrongful death claims based on purported exposure to asbestos for which Leslie is allegedly liable ("Leslie Derivative Liability Claims");

(ii) a temporary restraining order enjoining any action against the Protected Parties based on Leslie Derivative Liability Claims pending a hearing and ruling on the Debtor's motion for such preliminary injunction; and

(iii) a declaratory judgment that the automatic stay of section 362(a) of the Bankruptcy Code stays the commencement or continuation of any and all actions or other proceedings that allege Leslie Derivative Liability Claims against the Protected Parties.

2. On this date (the "Commencement Date"), the Debtor filed a voluntary petition for relief under Chapter 11 of the Bankruptcy Code because of liabilities arising from asbestos-related personal injury and wrongful death claims ("Asbestos PI Claims") against Leslie.

3. Leslie Derivative Liability Claims have been brought against CIRCOR, Leslie's parent company since 1999, and Watts, Leslie's ultimate parent company from 1989 until 1999, based on their alleged derivative liability for claims against Leslie under alter ego, successor liability, or other theories of derivative liability. CIRCOR and Watts both take the position that they have no derivative liability for Asbestos PI Claims against Leslie.

4. Contemporaneously with the filing of the Petition, Leslie has filed a pre-negotiated Chapter 11 plan of reorganization (the "Plan"). The Plan is the product of pre-petition negotiations among (i) Leslie, (ii) CIRCOR, (iii) James L. Patton, Jr., who served as the pre-petition representative of future asbestos demand holders against Leslie and whom the Debtor will move to have appointed as the Future Claimants' Representative in this case (the "Pre-

---

1 CIRCOR's current and presently-known former affiliates are listed at Exhibit 1, attached hereto.

2 Watts' current and presently-known former affiliates are listed at Exhibit 2, attached hereto.

Petition Future Claimants' Representative"), and (iv) 14 law firms representing claimants holding current Asbestos PI Claims against Leslie (the "Pre-Petition Ad Hoc Asbestos Claimants Committee").

5. Under the terms of the pre-negotiated Plan, CIRCOR, on behalf of itself, Watts, and their affiliates, would make a very substantial contribution into a trust (the "Asbestos PI Trust") to be established under section 524(g) of the Bankruptcy Code, 11 U.S.C. § 524(g), in exchange for which CIRCOR, Watts, and their affiliates would receive the benefit of a permanent channeling injunction (the "Asbestos PI Channeling Injunction") protecting them from Leslie Derivative Liability Claims, as expressly authorized by section 524(g)(4) of the Bankruptcy Code.

6. While commencement of this Chapter 11 case has unquestionably resulted in the automatic stay of actions against the Debtor, and the Debtor is seeking a permanent Asbestos PI Channeling Injunction pursuant to Section 524(g) of the Bankruptcy Code in conjunction with the confirmation of the Plan, asbestos plaintiffs may try to prosecute Leslie Derivative Liability Claims against CIRCOR and/or Watts during the pendency of this case. By the Debtor's motion (the "Motion") to be filed immediately following commencement of this adversary proceeding, the Debtor seeks entry of (1) an order preliminarily enjoining all such claims against the Protected Parties; (2) a temporary restraining order enjoining all such claims pending a hearing on the request for a preliminary injunction; and (3) a declaratory judgment that the automatic stay of section 362(a) of the Bankruptcy Code already covers all Leslie Derivative Liability Claims because such claims belong to the Debtor's estate. The relief requested herein is critical to the Debtor's ability to successfully reorganize.

JURISDICTION

7. The Court has jurisdiction over this adversary proceeding pursuant to 28 U.S.C. §§ 1334(b) and (e), and 157(b)(1). This adversary proceeding is a core proceeding pursuant to 28 U.S.C. §§ 157(b)(2)(A), (B) and (O).

8. Venue in this District is proper pursuant to 28 U.S.C. § 1409.

9. This adversary proceeding has been brought in accordance with sections 105(a) and 362 of the Bankruptcy Code and Bankruptcy Rules 7001(7), 7001(9) and 7065.

THE PARTIES

10. Leslie is a Delaware limited liability company that maintains its principal place of business in Tampa, Florida. As the debtor in this Chapter 11 case, Leslie continues to operate its business and manage its property as a debtor in possession pursuant to sections 1107(a) and 1108 of the Bankruptcy Code.

11. The defendants in this adversary proceeding, listed on Exhibit 5 attached hereto, are asbestos plaintiffs who have asserted Leslie Derivative Liability Claims against CIRCOR and/or Watts; the lawsuits in which such claims have been asserted are listed on Exhibits 3 and 4 attached hereto.[3] Defendants John Does 1-1000 and Jane Does 1-1000 are putative plaintiffs for future Leslie Derivative Liability Claims against the Protected Parties.

[3] Pending cases asserting Leslie Derivative Liability claims against CIRCOR listed on Exhibit 3, and pending cases asserting Leslie Derivate Liability Claims against Watts are listed on Exhibit 4. Leslie reserves the right to supplement these lists if and when additional information becomes available.

OTHER RELEVANT ENTITIES

12. Watts, which is not a party to this adversary proceeding, is a Delaware corporation. Watts acquired the Debtor's stock in 1989, and was its ultimate corporate parent and sole shareholder from that time until 1999.

13. CIRCOR, which is not a party to this adversary proceeding, is a Delaware corporation. CIRCOR was formed in 1999, when Watts spun off a number of subsidiary companies formerly included in its industrial, oil, and gas division, including Leslie Controls, Inc., and transferred their stock to CIRCOR, a newly formed company. Since that time, Leslie has been a wholly-owned subsidiary of CIRCOR.

14. In connection with the spin-off, a Distribution Agreement between Watts and CIRCOR provided in part that "[o]n and after the Distribution Date, Circor shall indemnify ... each member of the Watts Group ... (the 'Watts Indemnitees') from and against any and all damage, loss, liability and expense ... incurred or suffered by any of the Watts Indemnitees and arising out of ... any of the Circor Liabilities, whether before or after the Distribution Date."

15. As of the Petition Date, Leslie was a named defendant in approximately 1,307 active Asbestos PI Claims. In addition, as of the Commencement Date, CIRCOR was named as a defendant in the 37 pending Leslie Derivative Liability Claims listed in Exhibit 3, and Watts was named as a defendant in the 11 pending Leslie Derivative Liability Claims listed in Exhibit 4. Watts has tendered the defense of Leslie Derivative Asbestos PI Claims against Watts to CIRCOR, purportedly under the provision of the Distribution Agreement cited above.

THE PRE-NEGOTIATED CHAPTER 11 PLAN

16. In the months prior to the Commencement Date, Leslie and CIRCOR engaged in negotiations on a consensual plan of reorganization with representatives of both current and future holders of Asbestos PI Claims. Specifically, 14 law firms that represent present asbestos

claimants organized a Pre-Petition Ad Hoc Asbestos Claimants Committee to act as the representative of such claimants,[4] and that Committee appointed a Steering Committee made up of Steven Kazan, John D. Cooney, and Mark H. Iola. The negotiations also included James L. Patton, Jr., Esq., a lawyer with extensive experience in asbestos litigation, who agreed to serve as the Future Claimants' Representative both in pre-petition negotiations and, if the Court approves, during the Chapter 11 case.

17. These negotiations resulted in the proposed Plan, which would establish the Asbestos PI Trust under section 524(g) of the Bankruptcy Code. Under the Plan, CIRCOR, on behalf of itself, Watts, and their affiliates, would contribute $74 million to the Asbestos PI Trust, and would also pledge the stock of Leslie to secure a promissory note to be issued by Leslie, in exchange for the benefit of the Asbestos PI Channeling Injunction protecting CIRCOR, Watts, and their affiliates from all pending and future Leslie Derivative Liability Claims.

COUNT I

INJUNCTIVE RELIEF UNDER SECTIONS 105(a) AND 362(a) OF THE BANKRUPTCY CODE AND BANKRUPTCY RULE 7065

18. Leslie repeats and realleges the allegations contained in paragraphs 1 through 17 as if fully set forth herein.

19. An injunction of Leslie Derivative Liability Claims against the Protected Parties is necessary to preserve and maximize Leslie's estate and to enable Leslie to successfully reorganize. The Debtor's effort to reorganize itself would be interfered with, and it would suffer

[4] The members of the Pre-Petition Ad Hoc Committee were: Joseph Belluck (Belluck & Fox, LLP); Alan R. Brayton (Brayton & Purcell LLP); Matthew Bergman (Bergman, Draper & Frockt); John D. Cooney (Cooney & Conway); James F. Early (Early, Ludwick, Sweeney & Strauss, LLC); Jordan Fox (Belluck & Fox, LLP); David C. Greenstone (Simon, Eddins & Greenstone, LLP); Dean Hanley (Paul Hanley, LLP); Mark H. Iola (Stanley Iola LLP); Steven Kazan (Kazan, McCain, Lyons, Greenwood & Harley, PLC); Peter Kraus (Walters & Kraus, LLP); William (Bill) Levin (Levin, Simes, Kaiser & Gornick, LLP); Jeffrey Simon (Simon, Eddins & Greenstone, LLP); and Perry Weitz (Weitz & Luxenberg, P.C.).

irreparable injury, without a preliminary injunction to enjoin the Leslie Derivative Liability Claims against CIRCOR and Watts.

A. The Debtor's Reorganization Would Be Interfered With and the Debtor Would be Irreparably Harmed in the Absence of an Injunction.

20. Absent an injunction, the Debtor will suffer irreparable harm, because, inter alia, the continued litigation of Leslie Derivative Liability Claims against the Protected Parties could substantially impair CIRCOR's willingness to fund the Trust, risks prejudicing Leslie, and could divert necessary resources and erode available assets, thereby undermining or destroying the Plan.

21. CIRCOR is willing to make a substantial contribution to the Asbestos PI Trust only because it will obtain a 524(g) injunction against the Leslie Derivative Liability Claims for itself, Watts, and their affiliates. Absent an injunction protecting it and Watts during the course of these proceedings, CIRCOR's willingness to participate in the reorganization and contribute to the trust could be compromised or negated.

22. Absent an order enjoining the Leslie Derivative Liability Claims against the Protected Parties, the Debtor faces the risk that potential adverse or inconsistent judgments in those cases could be used against the Debtor in future proceedings. Adverse rulings in any such case run the risk of binding the Debtor in future proceedings, or at a minimum being used as supporting authority against it.

23. Absent an injunction of Leslie Derivative Liability Claims against the Protected Parties, the Debtor faces the risk that statements, testimony and other evidence generated in litigation against CIRCOR or Watts could be used against the Debtor in any subsequent litigation between the Debtor and asbestos claimants. Likewise, document requests, interrogatories, and other discovery from CIRCOR or Watts will seek materials related to or controlled by the

Debtor. As a result, the Debtor and its officers will be required to participate and defend themselves in lawsuits rather than focusing on reorganization, thus negating the benefit of the automatic stay in bankruptcy.

24. Absent an injunction of Leslie Derivative Liability Claims against the Protected Parties, common law indemnity obligations would arise against the Debtor from any successful litigation of those claims. Thus, any continued litigation against CIRCOR or Watts, regardless of the result, would interfere with the Debtor's reorganization.

25. Given the derivative nature of the Leslie Derivative Liability Claims against CIRCOR and Watts, and the risks of adverse judgments, collateral estoppel, evidentiary prejudice, and indemnity obligations associated with those actions, Leslie and its officers and personnel would have no choice but to actively participate in any such actions in the absence of an injunction. These are the same persons who will play critical roles in the reorganization process. The additional burdens demanded by participation in any litigation against the Protected Parties would compromise the Debtor's ability to reorganize by diverting the time and attention of its key employees from tasks that are critical to the reorganization.

26. The aggravation and expense of litigating the Leslie Derivative Liability Claims would also undermine the willingness and ability of key CIRCOR personnel to participate in the Debtor's reorganization.

27. For the foregoing reasons, absent a preliminary injunction enjoining the continued litigation of Leslie Derivative Liability Claims against the Protected Parties, irreparable injury would be suffered by the Debtor.

B. The Debtor Is Likely to Reorganize Successfully With a Channeling Injunction Protecting CIRCOR and Watts.

28. The Debtor is likely to succeed on its claims. It is highly likely that the Debtor will be able to successfully reorganize. It is also highly likely that, under the Debtor's plan of reorganization, CIRCOR and Watts will receive protection from the Leslie Derivative Liability Claims through an Asbestos PI Channeling Injunction.

29. The Debtor has commenced this Chapter 11 case in good faith. The terms of the reorganization Plan have been negotiated and approved pre-petition and those terms include such a permanent channeling injunction against the Leslie Derivative Liability Claims. Accordingly, there is a high likelihood that the Debtor will be able to successfully reorganize and that CIRCOR and Watts will receive protection from the Leslie Derivative Liability Claims through a Channeling Injunction—provided that CIRCOR's contributions to the Asbestos PI Trust and its participation in the reorganization are not frustrated by unchecked litigation of such derivative claims during the pendency of the bankruptcy.

C. The Balance of Hardships Tips Decidedly in Favor of Issuing an Injunction.

30. The balance of hardships weighs decisively in favor of issuing a preliminary injunction. The absence of an injunction could destroy the agreed-upon Plan and thereby injure the Debtor's employees, as well as its present and future asbestos claimants and demand holders, who will benefit from the proposed section 524(g) contribution. By contrast, granting the requested injunction will not impose unfair prejudice on the enjoined plaintiffs, both because the Plan will provide funding for any meritorious Asbestos PI Claims advanced by such plaintiffs and because a preliminary injunction will ensure that the Debtor's assets are preserved in a way that will ensure fair and equitable treatment to all claimants to preserve its assets and treat all claimants fairly and equitably, including future demand holders.

D. An Injunction Will Serve the Public Interest.

31. Granting a preliminary injunction would serve the public interest by promoting the Debtor's ability to obtain confirmation of an otherwise feasible plan of reorganization. Furthermore, granting a preliminary injunction will prevent the prosecution of the Leslie Derivative Liability Claims against the Protected Parties from substantially diminishing the assets with which the Debtor could fund any plan or section 524(g) trust approved in this case, or interfering in material respects with its reorganization.

32. Given these factors, a preliminary injunction barring the continued litigation or prosecution of Leslie Derivative Liability Claims against the Protected Parties is appropriate and necessary to the orderly and affective administration of the Debtor's estate. Accordingly, good cause exists for injunctive relief under sections 105(a) and 362(a) of the Bankruptcy Code and Bankruptcy Rule 7065.

COUNT II

TEMPORARY RESTRAINING ORDER

33. Leslie repeats and realleges the allegations contained in paragraphs 1 through 32 as if fully set forth herein.

34. In order to preserve the status quo prior to the Court's hearing on Leslie's motion for a preliminary injunction, and to prevent the harm to Leslie described above, the Debtor requests that, without notice, the Court issue a temporary restraining order enjoining and restraining the defendants and their counsel, holders of future demands and their counsel, and any other person or party, from commencement or any further prosecution of Leslie Derivative Liability Claims against the Protected Parties, for a period of fourteen (14) days to enable the Court to issue a ruling on Leslie's motion for a preliminary injunction.

35. The Debtor has faced rising numbers of Asbestos Personal Injury Claims. Absent a restraining order, word of the filing of Leslie's bankruptcy will likely cause the number of Leslie Derivative Liability Claims against the Protected Parties to immediately increase. As a result, CIRCOR will continue to incur substantial defense, settlement, and indemnification costs and the risk of potential adverse judgments from an increased number of cases, and its willingness and ability to participate in the bankruptcy and contribute to the trust will be threatened. Likewise, as described above, the Debtor will continue to be involved in any such litigations, distracting its key personnel and resources from its own reorganization efforts. Thus, absent a temporary restraining order, the Debtor will suffer immediate and irreparable injury, loss, or damage.

36. For these reasons, it is appropriate to grant a temporary restraining order pending a hearing on the Debtor's motion for a preliminary injunction, staying, restraining and enjoining the commencement or continuation of any Leslie Derivative Liability Claims against the Protected Parties.

COUNT III

DECLARATORY RELIEF UNDER SECTION 362(a) OF THE BANKRUPTCY CODE

37. Leslie repeats and realleges the allegations contained in paragraphs 1 through 36 as if fully set forth herein.

38. Section 362(a)(3) of the Bankruptcy Code operates as a stay, "applicable to all entities," of "any act to obtain possession of property of the estate or of property from the estate or to exercise control over property of the estate."

39. The Leslie Derivative Liability Claims are based on the (unjustified) allegations that CIRCOR or Watts somehow abused the separate corporate status of Leslie in a fashion that supposedly injured Leslie and its creditors.

40. Courts have long recognized that a debtor-in-possession or the debtor's trustee has the exclusive right to pursue "alter ego" and comparable claims regarding the non-debtor parent's failure to honor the debtor's separate corporate status.

41. Under both Delaware and New Jersey law, Leslie has the authority to assert a veil-piercing action against CIRCOR or Watts, and it has the exclusive right in bankruptcy to assert any alter ego claim or comparable claim to pierce the corporate veil between itself and CIRCOR and/or Watts.

42. Pursuant to sections 362(a)(3) and 541(a)(1) of the Bankruptcy Code, the automatic stay extends to Asbestos PI Claims that have been or will be asserted against CIRCOR and/or Watts. Therefore, Leslie is entitled to a declaratory judgment that the automatic stay of section 362(a)(3) of the Bankruptcy Code extends to Asbestos PI Claims against the Protected Parties and that all parties are stayed from commencing or further prosecuting any such claims against the Protected Parties.

WHEREFORE, for all of the foregoing reasons, Leslie respectfully requests entry of:

1. A preliminary injunction enjoining the commencement or further prosecution of any personal injury, wrongful death, or other claims arising out of alleged exposure to asbestos against CIRCOR, Watts, or any present or former affiliate, employee, officer, director, or agent of CIRCOR or Watts, unless the complaint in the proceeding expressly alleges a basis for liability against those entitles or persons other than derivative liability for the acts or omissions of Leslie Controls, Inc. (or its predecessors, including but not limited to Leslie Co.);

2. A temporary restraining order enjoining and restraining the commencement or further prosecution of any personal injury, wrongful death, or other claims arising out of alleged exposure to asbestos against CIRCOR, Watts, or any present or former affiliate, employee, officer, director, or agent of CIRCOR or Watts, unless the complaint in the proceeding expressly alleges a basis for liability against those entitles or persons other than derivative liability for the acts or omissions of Leslie Controls, Inc. (or its predecessors, including but not limited to Leslie Co.), for a period of up to fourteen (14) days, pending the Court's ruling on the request for preliminary injunction; and

3. A judgment declaring that the automatic stay of Section 362(a)(3) extends to any and all Leslie Derivative Liability Claims against the Protected Parties; and

4. An order granting Leslie such other and further relief as is just.

Dated: July 12, 2010

ORDER GRANTING DEBTOR'S EMERGENCY MOTION FOR PRELIMINARY INJUNCTION AND DECLARATORY RELIEF

This matter comes before the Court on the emergency motion (the "Motion") of Leslie Controls, Inc. (the "Debtor" or "Leslie"), as debtor and debtor in possession in the above Chapter 11 case, pursuant to sections 105(a) and 362(a) of title 11 of the United States Code (the "Bankruptcy Code") and Rule 65 of the Federal Rules of Civil Procedure, made applicable hereto by Rule 7065 of the Federal Rules of Bankruptcy Procedure (the "Bankruptcy Rules"), for (1) a preliminary injunction pending final adjudication of this Chapter 11 proceeding, enjoining the commencement or continuation of all actions against (a) the Debtor's current parent company and sole shareholder, CIRCOR International, Inc., or any of its present or former affiliates as listed on Exhibit 1 hereto (collectively, "CIRCOR") and/or (b) the Debtor's former ultimate parent company and sole shareholder, Watts Water Technologies, Inc. (formerly known as Watts Industries, Inc.) or any of its present or former affiliates as listed on Exhibit 2 hereto

(collectively, "Watts") (collectively with CIRCOR, the "Protected Parties"), to the extent that those actions against the Protected Parties assert personal injury or wrongful death claims based on purported exposure to asbestos for which Leslie is allegedly liable ("Leslie Derivative Liability Claims"); or alternatively (2) a declaratory judgment that the automatic stay of section 362(a) of the Bankruptcy Code stays the commencement or continuation of any and all actions or other proceedings that allege Leslie Derivative Liability Claims against the Protected Parties.[1]

For purposes of this Order, "Leslie Derivative Liability Claims" are defined as any claim or action directed against a Protected Party asserting personal injury or wrongful death based on exposure or purported exposure to asbestos where such Protected Party is alleged to be directly or indirectly liable for the conduct of, claims against, or demands on Leslie to the extent such alleged liability of such third party arises by reason of (i) such Protected Party's ownership of a financial interest in Leslie, a past or present affiliate of Leslie, or a predecessor in interest of Leslie; (ii) such Protected Party's involvement in the management of Leslie or a predecessor in interest of Leslie, or service as an officer, director or employee of Leslie or a related party; (iii) such Protected Party's provision of insurance to Leslie or a related party; or (iv) such Protected Party's involvement in a transaction changing the corporate structure, or in a loan or other financial transaction affecting the financial condition, of Leslie or a related party, including but not limited to (aa) involvement in providing financing (debt or equity), or advice to an entity involved in such a transaction, or (bb) acquiring or selling a financial interest in an entity as part of such a transaction. As used in this paragraph, the term "related party" means (i) a past or present affiliate of Leslie; (ii) a predecessor in interest of Leslie; or (iii) any entity that owned a

[1] Debtor's Motion also included a request for temporary restraining order pending a hearing and ruling on the motion for a preliminary injunction and declaratory relief. This Court granted the requested temporary restraining order on July 14, 2010.

financial interest in (aa) Leslie, (bb) a past or present affiliate of Leslie, or (cc) a predecessor in interest of Leslie.

The Court having reviewed the Motion, the Debtor's memorandum of law in support of the Motion, and the declaration of Alan J. Glass in support of the Motion; and the Court having heard the statements in support of the relief requested and submissions in opposition to the Motion; at a hearing before the Court held and concluded on August 9, 2010 (the "Hearing"); and the Court having determined that the legal and factual bases set forth by the Debtor and at the Hearing establish just cause for the relief granted herein; and the relief sought in the Motion being necessary and in the best interests of the Debtor, its estate and all parties in interest; and upon all the proceedings held before the Court and after due deliberation and sufficient cause appearing therefor,

THE COURT FINDS AND CONCLUDES AS FOLLOWS:

1. The Court has jurisdiction over this adversary proceeding pursuant to 28 U.S.C. §§ 1334(b) and (e), and 157(b)(1). This adversary proceeding is a core proceeding pursuant to 28 U.S.C. §§ 157(b)(2)(A), (B) and (O).

2. Venue in this District is proper pursuant to 28 U.S.C. § 1409.

3. The plaintiff in this adversary proceeding is the Debtor Leslie Controls, Inc., a Delaware limited liability company that maintains its principal place of business in Tampa, Florida. The defendants in this adversary proceeding, listed on Exhibit 5 to the Debtor's Complaint, include asbestos plaintiffs who have asserted Leslie Derivative Liability Claims against CIRCOR and/or Watts. Defendants John Does 1-1000 and Jane Does 1-1000 are putative plaintiffs for future personal injury or wrongful death claims or demands against the Protected Parties.

4. The relief requested in the Debtor's Motion is critical to Leslie Controls' ability to successfully reorganize. Without the injunctive relief sought herein, the Debtor will suffer the following irreparable harm:

(a) Continued litigation of Leslie Derivative Liability Claims against the Protected Parties could substantially impair CIRCOR's willingness to contribute to the Trust, and CIRCOR's proposed contribution is essential to the success of the proposed reorganization plan.

(b) Continued litigation of Leslie Derivative Liability Claims against the Protected Parties will place the Debtor at risk that potential adverse or inconsistent judgments in those cases could be used against the Debtor in future proceedings. Adverse rulings in any such case run the risk of binding the Debtor in future proceedings, or, at a minimum, being used as supporting authority against it.

(c) Continued litigation of Leslie Derivative Liability Claims against the Protected Parties will put the Debtor at risk that statements, testimony and other evidence generated in litigation against CIRCOR or Watts could be used against the Debtor in any subsequent litigation between the Debtor and asbestos claimants. Likewise, document requests, interrogatories, and other discovery will seek materials related to or controlled by the Debtor. As a result, the Debtor and its officers will be required to participate and defend themselves in lawsuits rather than focusing on reorganization.

(d) Continued litigation of Leslie Derivative Liability Claims against the Protected Parties could result in common law indemnity obligations that would arise against the Debtor from any successful litigation of those claims. These obligations would interfere with the Debtor's reorganization.

(e) Given the derivative nature of the Leslie Derivative Liability Claims against CIRCOR and Watts, and the risks of adverse judgments, collateral estoppel, evidentiary prejudice, and indemnity obligations associated with those actions, Leslie and its officers and personnel would have no choice but to actively participate in the litigation of any Leslie Derivative Liability Claims in the absence of an injunction. The additional burdens demanded by participation in any litigation against the Protected Parties could compromise the Debtor's ability to reorganize.

(f) The burden and expense of litigating the Leslie Derivative Liability Claims could also undermine the willingness and ability of key CIRCOR personnel to participate in the Debtor's reorganization.

5. For these reasons, a failure to grant an injunction pending the Debtor's reorganization would irreparably injure the Debtor. In contrast, any harm to the Defendants from

an injunction would be minimal. Accordingly, the balance of the hardships favors the requested injunctive relief.

6. There is a reasonable likelihood that the Debtor will succeed on the merits by successfully reorganizing and establishing an 11 U.S.C. § 524(g) trust to resolve its asbestos liabilities, and that CIRCOR, Watts, and their affiliates will be protected by a section 524(g) channeling injunction.

7. An injunction will serve the public interest by promoting the Debtor's ability to confirm an otherwise feasible plan of reorganization.

8. Accordingly, sufficient cause has been shown for the injunctive relief granted herein.

9. The Court concludes that the Debtor has the exclusive right to pursue the Leslie Derivative Liability Claims during its bankruptcy, and that such claims are property of the Debtor's estate. Accordingly, the automatic stay of 11 U.S.C. § 362(a) extends to such claims during the pendency of the Debtor's bankruptcy.

Based on these findings of fact and conclusions of law, the Court now ORDERS that:

1. All persons and entities, including without limitation the plaintiffs to the actions listed on Exhibits 3 and 4 hereto, are enjoined from initiating or further prosecuting any Leslie Derivative Liability Claims against CIRCOR or its affiliates as listed on Exhibit 1 hereto as such exhibit may be modified from time to time prior to the confirmation of a plan of reorganization, Watts or its affiliates as listed on Exhibit 2 hereto as such exhibit may be modified from time to time prior to confirmation of a plan of reorganization, or any of their past, present, or future employees, officers, directors, or agents, unless and only to the extent that the complaint in the proceeding expressly alleges a basis for liability against those entities or persons other than

liability arising from or otherwise relating to the products, acts, or omissions of Leslie Controls, Inc.

2. The injunction set forth in paragraph 1 above includes, without limitation: (a) the pursuit of discovery from CIRCOR, Watts, any affiliates of CIRCOR or Watts as listed on Exhibits 1 and 2 hereto as such exhibits may be modified from time to time prior to the confirmation of a plan of reorganization, or any past, present, or future employees, officers, directors or agents of any of the foregoing; (b) the enforcement of any discovery order against CIRCOR, Watts, any affiliates of CIRCOR or Watts as listed on Exhibits 1 and 2 hereto as such exhibits may be modified from time to time prior to confirmation of a plan of reorganization, or any past, present, or future employees, officers, directors or agents of any of the foregoing; and (c) any further motions or litigation of pending motions.

3. The Court also finds and declares that while the bankruptcy case remains pending, the initiation or continued prosecution of any personal injury, wrongful death, or other claims arising out of alleged exposure to asbestos against CIRCOR, Watts, or any affiliate, employee, officer, director, or agent thereof, violates the automatic stay imposed by Section 362(a)(3) of the Bankruptcy Code, unless the complaint in the proceeding expressly alleges a basis for liability against those entitles or persons other than derivative liability for the acts or omissions of Leslie Controls, Inc.

4. Notwithstanding anything to the contrary in this Order, any party asserting a Leslie Derivative Liability Claim may, without leave of the Court, take reasonable steps to perpetuate the testimony of any person subject to this Order who is not expected to survive the duration of this Order or who is likely to become incapacitated during the duration of this Order. Notice shall be provided to the Leslie and the Protected Parties by notifying counsel for the

Debtor (Norman Pernick, Esq., Cole, Schotz, Meisel, Forman & Leonard, P.A., 500 Delaware Avenue, Suite 1410, Wilmington, Delaware, 19801, npernick@coleschotz.com) and any counsel of record for any Protected Party in the underlying proceeding of the perpetuation of such testimony. Counsel for the Debtor shall promptly forward any such notice to counsel for the Protected Parties who have appeared in this Chapter 11 bankruptcy case. Leslie and the Protected Parties shall have the right to object to the notice on any grounds they would have had if they were a party to the underlying proceeding and not subject to the terms of this preliminary injunction and may raise any such objection with this Court. The use of such testimony in any appropriate jurisdiction shall be subject to the applicable procedural and evidentiary rules of such jurisdiction. All parties reserve and do not waive any and all objections with respect to such testimony.

5. All further proceedings in this adversary proceeding are stayed pending further Order of the Court.

6. Any party subject to this Order may seek relief from any of the provisions of this Order, including from the stay of further proceedings in this adversary proceeding, for cause shown. This Order is without prejudice to the Debtor's or others' rights to seek relief pursuant to the automatic stay under 11 U.S.C. § 362.

7. Pursuant to Rule 7065 of the Federal Rules of Bankruptcy Procedure, the Debtor is relieved from posting any security payment pursuant to Rule 65(c) of the Federal Rules of Civil Procedure based upon the evidence in the record as to the solvency of the Debtor.

8. The Debtor shall serve a copy of this Order on counsel for the Defendants and the United States Trustee within 3 days from the entry of this Order.

9. This Order shall remain effective for the period through the earlier of (i) thirty days after the effective date of a confirmed plan or reorganization that is no longer subject to appeal or discretionary review or (ii) 120 days after entry of this Order, subject to the Debtor's right to request an extension.

10. The Court retains jurisdiction over this Order and the relief granted herein.

Dated: Wilmington, Delaware
August 9, 2010 (at 3:30 p.m.)

LESLIE CONTROLS, INC.

ASBESTOS PERSONAL INJURY TRUST DISTRIBUTION PROCEDURES

Capitalized terms not otherwise defined herein shall have the meaning ascribed to such terms in the Plan of Reorganization of Leslie Controls, Inc. under Chapter 11 of the Bankruptcy Code dated __________, 2010 (the "Plan"), or the Asbestos PI Trust Agreement executed pursuant to the Plan and referred to below, as applicable.

The Leslie Controls, Inc. Asbestos Personal Injury Trust Distribution Procedures ("Asbestos PI Trust Distribution Procedures") contained herein provide the means for resolving all Asbestos PI Claims under the Plan for which the Asbestos Protected Parties have or are alleged to have legal responsibility for or on account of Leslie Controls, Inc. ("Leslie Controls"), as provided in and required by the Plan and the Leslie Controls, Inc. Asbestos Personal Injury Trust Agreement (the "Asbestos PI Trust Agreement").

The Plan and the Asbestos PI Trust Agreement establish the Leslie Controls, Inc. Asbestos Personal Injury Trust (the "Asbestos PI Trust"). The Asbestos PI Trustee shall implement and administer these Asbestos PI Trust Distribution Procedures in accordance with the Asbestos PI Trust Agreement. For purposes of the Asbestos PI Trust Distribution Procedures, Asbestos PI Claims shall not include Asbestos PI Trust Expenses

SECTION I

Introduction

1.1 Purpose. These Asbestos PI Trust Distribution Procedures have been adopted pursuant to the Asbestos PI Trust Agreement. They are intended and designed to provide fair, equitable, and substantially similar treatment for all Asbestos PI Claims that may presently exist or may arise in the future in substantially the same manner.

1.2 Interpretation. These Asbestos PI Trust Distribution Procedures are not intended to, nor shall they be deemed to, create additional substantive rights for any claimant. The rights and benefits provided herein to holders of Asbestos PI Claims shall vest in such holders as of the Effective Date.

SECTION II

Overview

2.1 Asbestos PI Trust Goal. The goal of the Asbestos PI Trust is to treat all holders of Asbestos PI Claims similarly and equitably and in accordance with the requirements of Section 524(g) of the Bankruptcy Code. These Asbestos PI Trust Distribution Procedures are intended to further that goal by setting forth procedures for processing, resolving and paying Leslie Controls' several share of the unpaid portion of the liquidated value of Asbestos PI Claims from the Asbestos PI Trust on an impartial, first-in-first-out ("FIFO") basis, with the objective of paying all holders of such claims over time as equal a share as possible of the value of their claims based on historical values for substantially similar claims in the tort system.[1,2] To this end, these Asbestos PI Trust Distribution Procedures establish matrices relating to seven asbestos-related diseases ("Disease Levels"), six of which have medical and exposure requirements that create a presumption that the claimant is entitled to compensation hereunder ("Medical/Exposure Criteria"), and specific liquidated values attributable to claims of such type ("Scheduled Values"), five of which have expected average values ("Average Values"), and all of which have upper limits (caps) on their liquidated values ("Maximum Values"). The Disease Levels,

---

[1] As used in these Asbestos PI Trust Distribution Procedures, the phrase "in the tort system" shall not include claims asserted against a trust established for the benefit of asbestos personal injury claimants pursuant to Section 524(g) of the Bankruptcy Code or any other applicable law.

[2] Asbestos PI Claims have been classified, for purposes of these Asbestos PI Trust Distribution Procedures, as either Leslie Powerhouse or Below-Deck Naval Station Claims or Leslie Construction and Maintenance Claims (as such terms are defined in Section 5.2 below, because the liquidated value of such claims varies on such basis.

Medical/Exposure Criteria, Scheduled Values, Average Values and Maximum Values, which are set forth in Sections 5.2 and 5.3 below, have all been established with the intention of achieving a fair allocation of the Asbestos PI Trust funds among claimants suffering from different diseases in light of the best available information considering the settlement history of Leslie Controls and the rights claimants would have in the tort system absent Leslie Controls' bankruptcy proceeding.

2.2 Claims Liquidation Procedures.

(a) A claimant may assert an Asbestos PI Claim against the Asbestos PI Trust as herein contemplated. All Asbestos PI Claims shall be processed, liquidated, resolved and/or paid pursuant to these Asbestos PI Trust Distribution Procedures.

(b) All claimants holding an Asbestos PI Claim must file a claim with the Asbestos PI Trust using the proof of claim form provided by the Asbestos PI Trust. Asbestos PI Claims shall be processed based on their place in the FIFO Processing Queue to be established pursuant to Section 5.1(a) below. The Asbestos PI Trust shall take all reasonable steps to resolve Asbestos PI Claims as efficiently and expeditiously as possible at each stage of claims processing, including mediation and arbitration, which steps may include, in the Asbestos PI Trust's sole discretion, conducting settlement discussions with claimants' representatives with respect to more than one claim at a time, provided that the claimants' respective positions in the FIFO Processing Queue are maintained, and each claim is individually evaluated pursuant to the valuation factors set forth in Section 5.2(b)(2) below. The Asbestos PI Trust shall also make every effort to resolve each year at least that number of Asbestos PI Claims required to exhaust the Maximum Annual Payment, as such term is defined below.

The Asbestos PI Trust shall, except as otherwise provided below, liquidate all Asbestos PI Claims except Foreign Claims (as defined in Section 5.2 (b)(1) below) that meet the Medical/Exposure Criteria of Disease Levels I - IV, VI and VII under the Expedited Review Process described in Section 5.2 (a) below. Asbestos PI Claims involving Disease Levels III, IV, VI and VII that do not meet the Medical/Exposure Criteria for the relevant Disease Level may undergo the Asbestos PI Trust's Individual Review Process described in Section 5.2(b) below. In such a case, notwithstanding that the claim does not meet the Medical/Exposure Criteria for the relevant Disease Level, the Asbestos PI Trust may offer the claimant an amount up to the Scheduled Value of that Disease Level if the Asbestos PI Trust is satisfied that the claimant has presented a claim that would be cognizable and valid in the tort system.

In lieu of liquidating Asbestos PI Claims involving Disease Levels III, IV, VI and VII under the Expedited Review Process, a claimant holding an Asbestos PI Claim involving Disease Level III, IV, VI or VII may, in the alternative, seek to establish a liquidated value for the claim that is greater than its Scheduled Value by electing the Asbestos PI Trust's Individual Review Process pursuant to Section 5.2(b) below. However, the liquidated value of an Asbestos PI Claim that undergoes the Individual Review Process for valuation purposes may be determined to be less than the Scheduled Value for the applicable Disease Level, and, in any event, shall not exceed the Maximum Value for the relevant Disease Level set forth in Section 5.2(b)(3) below, unless the claim qualifies as an Extraordinary Claim as defined in Section 5.3(a) below, in which case its liquidated value shall not exceed the maximum extraordinary value specified in Section 5.3(a) for such claims. Claims involving Disease Level V (Lung Cancer 2) and all Foreign Claims may be liquidated only pursuant to the Asbestos PI Trust's Individual Review Process.

The Scheduled Values and Maximum Values for claims involving Disease Levels III, IV, V and VII and the Average Value and Maximum Value for claims involving Disease Level V set forth in Section 5.2(b)(3) which claims are eligible for Individual Review of their liquidated values (or, in the case of Level V, required to be so liquidated), have been established. The Trustee shall use his or her reasonable best efforts to insure that the Asbestos PI Trust processes claims such that over time the combination of settlements at the Scheduled Values and those resulting from the Individual Review Process should generally result in the Average Values set forth in Section 5.2(b)(3) for such Disease Levels.

All unresolved disputes regarding a claimant's medical condition, exposure history and/or the liquidated value of the claim shall be subject to mediation and then, at the election of the claimant, to binding or non-binding arbitration as set forth in Section 5.9 below under the alternative dispute resolution procedures (the "ADR Procedures") to be adopted by the Asbestos PI Trust as provided in Section 5.9 below. Asbestos PI Claims that are the subject of a dispute with the Asbestos PI Trust that are not resolved by arbitration may enter the tort system as provided in Sections 5.10 and 7.6 below. However, if and when a claimant obtains a judgment in the tort system, the judgment shall be payable (subject to the Payment Percentage, Maximum Annual Payment, and Claims Payment Ratio provisions set forth below) as provided in Section 7.7 below.

2.3 <u>Application of the Payment Percentage</u>. After the liquidated value of an Asbestos PI Claim is determined pursuant to the procedures set forth herein for Expedited Review, Individual Review, mediation, arbitration, or litigation in the tort system, the claimant shall ultimately receive a pro-rata portion of the applicable liquidated value based on the Payment Percentage described in Section 4.2 below.

The initial Payment Percentage (the "Initial Payment Percentage") has been set at forty percent (40%) and shall apply to all Asbestos PI Claims accepted as valid for payment by the Asbestos PI Trust, unless and until adjusted by the Asbestos PI Trust with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative pursuant to Section 4.2 below, and except as provided in Section 4.3 below with respect to supplemental payments in the event the Initial Payment Percentage is changed. The term "Asbestos PI Trust Voting Claims" means (i) Qualified Asbestos PI Claims; (ii) claims filed against Leslie Controls in the tort system or actually submitted to Leslie Controls; and (iii) all asbestos claims filed against another defendant in the tort system prior to the date the Plan was filed with the Bankruptcy Court (July 12, 2010 (the "Plan Filing Date")), provided, however, that (1) the holder of a claim described in subsection (i), (ii) or (iii) above, or his or her authorized agent, actually voted to accept or reject the Plan pursuant to the voting procedures approved by the Bankruptcy Court, unless such holder certifies to the satisfaction of the Asbestos PI Trustee that he or she was prevented from voting in this proceeding as a result of circumstances resulting in a state of emergency affecting, as the case may be, the holder's residence, principal place of business or legal representative's place of business at which the holder or his or her legal representative receives notice and/or maintains material records relating to the claim; and provided further that (2) the claim was subsequently filed with the Asbestos PI Trust pursuant to Section 6.1 below by the Initial Claims Filing Date defined in Section 5.1(a) below.

The Initial Payment Percentage has been established based upon (i) the Scheduled Values set forth in Section 5.2(b)(3) below with respect to existing and projected future claims involving Disease Levels I and II, and (ii) the assumption that generally the Average Values set forth in

Section 5.2(b)(3) below will be achieved with respect to existing and projected future claims involving Disease Levels III - VII.

The Payment Percentage may be adjusted upwards, but not in excess of 100%, or downwards from time to time by the Asbestos PI Trust with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative to reflect then-current estimates of the Asbestos PI Trust's assets and liabilities, as well as the then-estimated value of then-pending and projected future claims. Any adjustment to the Payment Percentage (including the Initial Payment Percentage) shall be made only pursuant to Section 4.2 below. If at any time the Payment Percentage is increased, claimants whose claims were liquidated and paid prior to the increase under these Asbestos PI Trust Distribution Procedures at a lower Payment Percentage shall receive additional payments only as provided in Section 4.3 below. Because there is uncertainty in the prediction of both the number and severity of future Asbestos PI Claims and the amount of the Asbestos PI Trust's assets, no guarantee or representation can be made regarding the Payment Percentage that will be applied to an Asbestos PI Claim's liquidated value.

2.4 Determination of the Maximum Annual Payment. The Asbestos PI Trust shall estimate or model the amount of cash flow anticipated to be necessary over its entire life to ensure that funds shall be available to treat all present and future holders of Asbestos PI Claims as similarly as possible. In each year, the Asbestos PI Trust shall be empowered to pay out all of the income earned during such year (net of taxes payable with respect thereto), together with a portion of its principal calculated so that the application of the Asbestos PI Trust's funds over the life of the trust shall correspond with the needs created by the estimated initial backlog of claims and the estimated anticipated future flow of claims (the "Maximum Annual Payment"), taking

into account the Payment Percentage provisions set forth in Section 2.3 above and Sections 4.2 and 4.3 below. The Maximum Annual Payment shall be determined annually by the Asbestos PI Trustee with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative. The Asbestos PI Trust's distributions to all claimants for a year shall not exceed the Maximum Annual Payment so determined for that year.

2.5 Claims Payment Ratio. Based upon Leslie Controls' claims settlement history and the analysis of present and future claims, a ratio (the "Claims Payment Ratio") as of the Effective Date, of Category A claims (which consist of Asbestos PI Claims involving malignancies and Severe Asbestosis (Disease Levels III - VII) that were unliquidated as of the Commencement Date), to Category B claims (which are Asbestos PI Claims involving non-malignant Asbestosis or Pleural Disease (Disease Levels I and II) that were unliquidated as of the Commencement Date) has been determined to be 80% Category A to 20% Category B.

In each year, after the determination of the Maximum Annual Payment described in Section 2.4 above and subject thereto, 80% of that amount will be available to pay liquidated Category A claims and 20% will be available to pay liquidated Category B claims, each in the order such claims come up for payment in the FIFO Payment Queue described in Section 5.1(c) below following the liquidation thereof. In the event there are insufficient funds in any year to pay the liquidated claims in a Category, the available funds allocated to that Category shall be paid to the claimants in that Category based on their place in the FIFO Payment Queue. Liquidated claims remaining unpaid in such year on account of an insufficiency of funds allocated to the Category in which such unpaid claims fall shall be carried over to the next succeeding year and shall be placed at the head of such succeeding year's FIFO Payment Queue.

In the event that there are insufficient liquidated claims in Category A to exhaust the Maximum Annual Payment amount allocated to Category A by the Claims Payment Ratio, then the excess amount for such Category A shall be rolled forward to the next succeeding year and shall remain available to pay liquidated claims in Category A. With respect to Category B, in the event there are insufficient liquidated claims in Category B to exhaust the Maximum Annual Payment amount allocated to Category B by the Claims Payment Ratio, then the excess amount for such Category B shall be rolled forward and shall remain available to pay liquidated claims in Category B, subject to the following: (a) at the end of the second year and thereafter at the end of each year the Asbestos PI Trustee shall make a determination of whether, in respect of the two years or year (as applicable) then ended, funds made available in Category B to pay Category B claims exceeded amounts payable in respect of liquidated Category B claims in accordance with these Asbestos PI Trust Distribution Procedures (any such excess amount being a "Category B Excess Amount"); and (b) any such Category B Excess Amount shall be (i) used to pay liquidated Category A claims entitled to payment in respect of which there are insufficient funds to pay such liquidated Category A claims or (ii) in the absence of such unpaid liquidated Category A claims at such time, such Category B Excess Amount shall be added back to and become part of the principal portion of the Asbestos PI Trust *res* and, accordingly, shall again be available in ensuing years (including the immediately next succeeding year) for application to liquidated Category A and Category B claims in proportion to the Claims Payment Ratio applicable in such ensuing years.

In addition, in the event that the available funds in either Category A or Category B exceed the amounts payable to liquidated claims in such Category for two consecutive years, then the Asbestos PI Trustee shall re-evaluate the Claims Payment Ratio in light of claims

liquidation and payment experience of the Asbestos PI Trust and propose (i) maintenance of the then-existing Claims Payment Ratio, or (ii) establishment of a different Claims Payment Ratio that more accurately reflects past and likely future claims liquidation and payment needs. Any change in the Claims Payment Ratio shall take effect only with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative as contemplated below.

The Claims Payment Ratio established as of the Effective Date shall apply to all Asbestos PI Trust Claims and shall not be changed or modified sooner than the second anniversary of the date on which the Asbestos PI Trust first accepts proofs of claim for processing. Thereafter, the Claims Payment Ratio shall be continued or recalibrated (on a prospective basis only and subject to the approval and consent requirements below) in order to approximately reflect the actual number of Asbestos PI Claims in each Category that have been liquidated and paid and are anticipated in subsequent years to be liquidated and paid pursuant to these Asbestos PI Trust Distribution Procedures.

In considering whether to make any changes or modifications to the Claims Payment Ratio, the Asbestos PI Trustee shall consider the reasons for which the Claims Payment Ratio was adopted, the settlement history that gave rise thereto (including the fact that, historically, 99% of Leslie Controls' settlement and judgment payment amounts were paid on account of claims that would qualify as Category A claims hereunder), and whether the reasons asserted to necessitate the change or modification were or were not foreseeable when the Claims Payment Ratio then in effect was established. In such regard, the Asbestos PI Trustee should keep in mind the interplay between the Payment Percentage and the Claims Payment Ratio as they affect the net cash actually paid to claimants.

Anything in these Asbestos PI Trust Distribution Procedures to the contrary notwithstanding, no change or modification to the Claims Payment Ratio (i) to reduce the percentage allocated to Category A claims shall be made except with the unanimous consent of the Asbestos PI Trust Advisory Committee members and the consent of the Future Claimants' Representative, or (ii) to increase the percentage allocated to Category A claims shall be made except with the consent of the Asbestos PI Trust Advisory Committee and the consent of the Future Claimants' Representative. In the case of any proposed change or modification to the Claims Payment Ratio, the consent process set forth in Sections 6.7(b) and 7.7(b) of the Asbestos PI Trust Agreement shall apply. The Asbestos PI Trustee, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, may offer the option of a reduced Payment Percentage to holders of claims in either Category A or Category B in return for more prompt payment (the "Reduced Payment Option").

2.6 Indirect Asbestos PI Claims. As set forth in Section 5.5 below, Indirect Asbestos PI Claims, if any, shall be subject to all the same limitations and other provisions (including, without limitation, all provisions relating to categorization, evaluation and payment) of these Asbestos PI Trust Distribution Procedures as all other Asbestos PI Claims.

SECTION III

Asbestos PI Trust Distribution Procedures Administration

3.1 Asbestos PI Trust Advisory Committee and Future Claimants' Representative. Pursuant to the Plan and the Asbestos PI Trust Agreement, the Asbestos PI Trust and these Asbestos PI Trust Distribution Procedures shall be administered by the Asbestos PI Trustee in consultation with the Asbestos PI Trust Advisory Committee, which committee represents the interests of holders of present Asbestos PI Claims, and the Future Claimants' Representative, who represents the interests of holders of Asbestos PI Claims that will be asserted in the future.

The Asbestos PI Trustee shall obtain the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative with respect to any amendment, change or modification to these Asbestos PI Trust Distribution Procedures pursuant to Section 8.1 below, and regarding such other matters requiring such consent or approval hereunder or under Section 2.2(e) of the Asbestos PI Trust Agreement. The Asbestos PI Trustee shall also consult with the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative on such matters requiring such consultation hereunder or under Section 2.2(d) of the Asbestos PI Trust Agreement. The initial Asbestos PI Trustee, the initial members of the Asbestos PI Trust Advisory Committee and the initial Future Claimants' Representative are identified in the Asbestos PI Trust Agreement.

3.2 Consent and Consultation Procedures. In those circumstances in which consultation or consent is required, the Asbestos PI Trustee shall provide written notice to the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative of the specific amendment, change or modification or other action that is proposed. The Asbestos PI Trustee shall not implement any amendment, change or modification nor take such proposed action unless and until the parties have engaged in the Consultation Process described in Sections 6.7(a) and 7.7(a) or the Consent Process described in Sections 6.7(b) and 7.7(b), respectively, of the Asbestos PI Trust Agreement.

SECTION IV

Payment Percentage; Periodic Estimates

4.1 Uncertainty of Leslie Controls' Personal Injury Asbestos Liabilities. As noted herein, there is inherent uncertainty regarding Leslie Controls' total asbestos-related tort liabilities, as well as the total value of the assets available to the Asbestos PI Trust to pay Asbestos PI Claims. Consequently, there is inherent uncertainty regarding the amounts that

holders of Asbestos PI Claims will receive. To seek to ensure substantially equivalent treatment of all present and future Asbestos PI Claims, the Asbestos PI Trustee must determine from time to time the pro rata portion or percentage of the liquidated value of claims that holders of present and future Asbestos PI Claims will likely receive pursuant to the Plan (including the provisions of the Asbestos PI Trust Agreement and these Asbestos PI Trust Distribution Procedures); i.e., the "Payment Percentage" referred to in Section 2.3 above and Section 4.2 below.

4.2 Computation of Payment Percentage. As provided in Section 2.3 above, the Initial Payment Percentage shall be 40% and shall be applied to all Asbestos PI Claims approved for payment by the Asbestos PI Trust, unless the Asbestos PI Trustee, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, determine that the Initial Payment Percentage should be changed to assure that the Asbestos PI Trust shall be in a financial position to pay present and future holders of Asbestos PI Claims in substantially the same manner.

In making any such change to the Initial Payment Percentage, the Asbestos PI Trustee, the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative shall take into account the fact that the holders of Asbestos PI Trust Claims who voted on the Plan relied on the findings of experts that the Initial Payment Percentage represented a reasonably reliable estimate of the Asbestos PI Trust's total assets and liabilities over the trust's life based on the best information available at the time, and shall therefore give due consideration to the expectations of such claim holders that the Initial Payment Percentage would be applied to their Asbestos PI Trust Claims.

The Payment Percentage shall be subject to change from time to time pursuant to the terms of these Asbestos PI Trust Distribution Procedures and the Asbestos PI Trust Agreement if

the Asbestos PI Trustee, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, determine that an adjustment is required. No less frequently than once every three (3) years, commencing January 2 of the year next succeeding the year in which the Effective Date occurs, the Asbestos PI Trustee shall reconsider the then-applicable Payment Percentage to assure that it is based on accurate, current information and may, after such reconsideration, change the Payment Percentage with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, if deemed necessary to assure that the Asbestos PI Trust remains in a financial position to pay present and future holders of Asbestos PI Claims in substantially the same manner. The Asbestos PI Trustee may also reconsider the then-applicable Payment Percentage at shorter intervals if the Asbestos PI Trustee deems such reconsideration to be appropriate or if requested to do so by the Asbestos PI Trust Advisory Committee or the Future Claimants' Representative.

The Asbestos PI Trustee shall base the determination of the Payment Percentage on current estimates of the number, types, and values of present and future Asbestos PI Claims, the value of the assets then available to the Asbestos PI Trust for their payment, all anticipated administrative and legal expenses, and any other material matters that are reasonably likely to affect the sufficiency of funds to pay a comparable percentage of liquidated value to all present and future holders of Asbestos PI Claims. When making these determinations, the Asbestos PI Trustee shall exercise common sense and flexibly evaluate all relevant factors. The Payment Percentage applicable to Category A or Category B claims may not be reduced to alleviate delays in payments of claims in the other Category; both Category A and Category B claims shall receive the same Payment Percentage, but the payment may be deferred as needed pursuant

to Section 7.3 below, and a Reduced Payment Option may be instituted as described in Section 2.5 above.

4.3 Applicability of the Payment Percentage. Except as otherwise provided in Section 5.1(c) below for Asbestos PI Claims involving deceased or incompetent claimants for which approval of the Asbestos PI Trust's offer by a court or through a probate process is required, no holder of any Asbestos PI Claim shall receive a payment that exceeds the liquidated value of the claim times the Payment Percentage in effect at the time of payment.

If a redetermination of the Payment Percentage has been proposed in writing by the Asbestos PI Trustee to the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, but has not yet been approved and implemented, a claimant shall receive the lower of the current Payment Percentage or the proposed Payment Percentage. However, if the proposed Payment Percentage was the lower of the two but is not so approved and implemented, the claimant shall thereafter receive an amount equal to the difference between the amounts determined with reference to the lower proposed percentage and the higher current percentage. If the proposed Payment Percentage was the higher of the two and is subsequently approved and implemented, the claimant shall thereafter receive an amount equal to the difference between the amounts determined with reference to the lower current percentage and the higher adopted percentage.

There is uncertainty surrounding the amount of the Asbestos PI Trust's future assets. There is also uncertainty surrounding the totality of the Asbestos PI Claims to be paid over time, as well as the extent to which changes in existing federal and state law could affect the Asbestos PI Trust's liabilities under these Asbestos PI Trust Distribution Procedures. If the value of the Asbestos PI Trust's future assets increases significantly and/or if the value or volume of

Asbestos PI Trust claims actually filed with the Asbestos PI Trust is significantly lower than originally estimated, the Asbestos PI Trust shall use the increase in assets and/or claims' savings, as the case may be, first to maintain the Payment Percentage then in effect.

If the Asbestos PI Trustee, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, increases the Payment Percentage, the Asbestos PI Trustee shall also make supplemental payments to all claimants who previously liquidated their claims and received payments from the Asbestos PI Trust based on a lower Payment Percentage. The amount of any such supplemental payment shall be the liquidated value of the claim in question times the newly adjusted Payment Percentage, less all amounts previously paid to the claimant with respect to the claim (but excluding any such amounts attributable to any sequencing adjustment paid pursuant to Section 7.5 below).

The Asbestos PI Trustee's obligation to make a supplemental payment to a claimant shall be suspended in the event the payment in question would be less than $100, and the amount of the suspended payment shall be added to the amount of any prior supplemental payment/payments that was/were also suspended because it/they would have been less than $100. However, the Asbestos PI Trustee's obligation shall resume and the Asbestos PI Trustee shall pay any such aggregate supplemental payments due the claimant at such time that the total exceeds $100.

SECTION V

Resolution Of Asbestos PI Claims

5.1 Ordering, Processing and Payment of Claims.

(a) Ordering of Claims.

(1) Establishment of FIFO Processing Queues. The Asbestos PI Trust shall order all claims that are sufficiently complete to be reviewed for processing purposes on a

FIFO basis except as otherwise provided herein (the "FIFO Processing Queue"). For all claims filed on or before the date six (6) months after the date that the Asbestos PI Trust first makes available the proof of claim forms and other claims materials required to file a claim with the Asbestos PI Trust (the "Initial Claims Filing Date"), a claimant's position in the FIFO Processing Queue shall be determined as of the earliest of (i) the date prior to the Commencement Date that the specific claim was filed against Leslie Controls in the tort system; (ii) the date prior to the Commencement Date that the asbestos claim was filed against another defendant in the tort system if at the time the claim was subject to a tolling agreement with Leslie Controls; (iii) the date subsequent to the Commencement Date but prior to the date that the Asbestos PI Trust first makes available the proof of claim forms and other claims materials required to file a claim with the Asbestos PI Trust that the asbestos claim was filed against another defendant in the tort system; (iv) the date subsequent to the Commencement Date but prior to the Effective Date that a proof of claim was filed by the claimant against Leslie Controls in Leslie Controls' Chapter 11 case; or (v) the date a ballot was submitted on behalf of the claimant for purposes of voting to accept or reject the Plan pursuant to voting procedures approved by the Bankruptcy Court.

For all claims filed subsequent to the Initial Claims Filing Date, a claimant's position in the FIFO Processing Queue shall be determined by the date the claim is filed with the Asbestos PI Trust, provided such claim is sufficiently complete, as defined in the Asbestos PI Trust's claim filing instructions or, if not so sufficiently complete, the later date on which it becomes so sufficiently complete. If any claims are filed on the same date, a claimant's position in the FIFO Processing Queue vis-à-vis such other same-day claims shall be determined by the date of the diagnosis of the asbestos-related disease with the earlier diagnosis having priority over the later diagnosis. If any claims are filed and diagnosed on the same date, a claimant's position in the

FIFO Processing Queue vis-à-vis such other same-day claims shall be determined by the claimant's date of birth, with older claimants given priority over younger claimants.

(2) Effect of Statutes of Limitations and Repose. All unliquidated Asbestos PI Claims must meet either: (i) in the case of claims first filed in the tort system against Leslie Controls prior to the Commencement Date, the applicable federal, state or foreign statute of limitations and repose that was in effect at the time of the filing of the claim in the tort system; or (ii) in the case of claims not filed against Leslie Controls in the tort system prior to the Commencement Date, the applicable federal, state or foreign statute of limitations that was in effect at the time of the filing with the Asbestos PI Trust. However, the running of the applicable statute of limitations shall be tolled as of the earliest of: (A) the actual filing of a claim against Leslie Controls prior to the Commencement Date in the tort system; (B) the date specified by agreement or otherwise between Leslie and/or the Asbestos PI Trust, on the one hand, and the applicable claimant, on the other hand, (or, if none, the date of the agreement) in the case of the tolling prior to the Commencement Date by an agreement or otherwise, provided such tolling was still in effect on the Commencement Date; or (C) the Commencement Date.

If an Asbestos PI Claim meets any of the tolling provisions described in the preceding paragraph and the claim was not barred by the applicable federal, state or foreign statute of limitations at the time of the relevant tolling event, it shall be treated as timely filed if it is actually filed with the Asbestos PI Trust within three (3) years after the Initial Claims Filing Date. In addition, any Asbestos PI Claim that is first diagnosed after the Commencement Date, irrespective of the application of any relevant federal, state or foreign statute of limitations or repose, may be filed with the Asbestos PI Trust within three (3) years after the date of diagnosis or within three (3) years after the Initial Claims Filing Date, whichever is later. However, the

processing of any Asbestos PI Claim by the Asbestos PI Trust may be deferred at the election of the claimant pursuant to Section 6.3 below.

(b) Notice of Impending Processing of Claims. The Asbestos PI Trust shall review its claims files on a regular basis and shall notify any claimant whose claim is likely to come up in the FIFO Processing Queue in the near future and, in any event.

(c) Payment of Claims. Asbestos PI Claims that have been liquidated by the Expedited Review Process as provided in Section 5.2(a) below, by the Individual Review Process as provided in Section 5.2(b) below, by mediation or arbitration as provided in Section 5.9 below, or by litigation in the tort system as provided in Section 5.10 below, shall be paid in FIFO order based on the date their liquidation became final (the "FIFO Payment Queue"), all such payments being subject to the applicable Payment Percentage at the time payment is made, the Maximum Annual Payment, the Claims Payment Ratio and any sequencing adjustment provided for in Section 7.5 below, except as otherwise provided herein.

Where a claimant is deceased or incompetent, and the settlement and payment of his or her claim must be approved by a court of competent jurisdiction or through a probate process prior to acceptance of the claim by the claimant's representative, an offer of settlement or liquidation of the claim made by the Asbestos PI Trust shall remain open so long as proceedings before that court or in that probate process remain pending, provided that the Asbestos PI Trust has been furnished with evidence that the settlement offer has been submitted to such court or in that probate process for approval. If the offer is ultimately approved by the court or through the probate process and accepted by the claimant's representative, the Asbestos PI Trust shall pay the claim in the amount so offered, multiplied by the Payment Percentage in effect at the time the offer was first made.

If any claims are liquidated on the same date, the claimant's position in the FIFO Payment Queue shall be determined by the date of the diagnosis of the claimant's asbestos-related disease with the earlier diagnosis having priority over the later diagnosis. If any claims are liquidated on the same date and the respective claimants' asbestos-related diseases were diagnosed on the same date, the position of those claimants' in the FIFO Payment Queue shall be determined by the Asbestos PI Trust based on the dates of the claimants' births, with older claimants given priority over younger claimants.

5.2 Resolution of Unliquidated Asbestos PI Claims. Within six (6) months after the establishment of the Asbestos PI Trust, the Asbestos PI Trustee, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, shall adopt procedures for reviewing and liquidating all unliquidated Asbestos PI Claims, which shall include deadlines for processing such claims. Such procedures shall also require that claimants seeking resolution of unliquidated Asbestos PI Claims must first file a proof of claim form, together with the required supporting documentation, in accordance with the provisions of Sections 6.1 and 6.2 below. It is anticipated that the Asbestos PI Trust shall provide an initial response to a claimant within six (6) months of receiving the proof of claim form.

The proof of claim form shall require a claimant to assert his or her claim for the highest Disease Level for which the claim qualifies at the time of filing. Without regard to the Disease Level alleged on the proof of claim form, a claim shall be deemed to be a claim for the highest Disease Level for which the claim qualifies at the time of filing, and all lower Disease Levels for which the claim may also qualify, whether at the time of filing or in the future, shall be treated as subsumed by and merged into the higher Disease Level for both processing and payment purposes. The proof of claim form also shall require a claimant to elect the Expedited Review

Process, as described in Section 5.2(a) below, or the Individual Review Process, as described in Section 5.2(b) below, if such election is available under these Asbestos PI Trust Distribution Procedures for the Disease Level alleged (or deemed applicable) by the claimant.

A claimant shall specify on his or her proof of claim (and the claim form shall require that a claimant so designate) whether the claim is asserted to be a "Leslie Powerhouse and Below-Deck Naval Station Claim" or a "Leslie Construction and Maintenance Claim." The Asbestos PI Trustee shall have the right (in addition to all other rights) to challenge any such assertion or designation. As used in these Asbestos PI Trust Distribution Procedures, the following terms shall have the following meanings:

(i) "Leslie Powerhouse and Below-Deck Naval Station Claims"[3] means Asbestos PI Claims alleging exposure to asbestos during installation, removal or maintenance of Leslie valves and other control equipment or exposure to asbestos in the immediate vicinity of a worker who is performing such hands-on installation, removal or maintenance of Leslie valves and other control equipment while regularly employed in a Leslie Powerhouse, in a United States shipyard while working on naval vessels, or while serving at an assigned Below-Deck Naval Station, respectively. Most such claims allege that Leslie manufactured, sold, and/or distributed valves and other control equipment that contained asbestos-containing materials used at powerhouse facilities and on Naval vessels. To the extent that any Asbestos PI Claim filed or otherwise asserted against the Asbestos PI Trust does not specifically allege asbestos exposure arising from such circumstances, such claim shall be presumed to be a Leslie Construction and

[3] Leslie Powerhouse and Below-Deck Naval Station Claims include claims arising at United States and Canadian Naval Shipyards, private shipyards in the United States and Canada, shipyards operated outside of the United States by the United States Navy, United States Coast Guard vessels, and commercial vessels for which there is independent corroborating documentary evidence of Leslie asbestos-containing products.

Maintenance Claim unless designed as a Leslie Powerhouse and Below-Deck Naval Station Claim in the applicable proof of claim form (subject to challenge by the Trustee).

(ii) "Leslie Construction and Maintenance Claims" means Asbestos PI Claims alleging asbestos exposure arising from the installation, maintenance, or removal of valves and/or other control equipment manufactured by Leslie installed other than described in (i) of this Section. To the extent that any Asbestos PI Claim filed or otherwise asserted against the Asbestos PI Trust does not specify the circumstances of alleged asbestos exposure, such claim shall be presumed to be a Leslie Construction and Maintenance Claim.

Upon filing of a valid proof of claim form with the required supporting documentation and designation, a claim shall be placed in the FIFO Processing Queue in accordance with the ordering criteria described in Section 5.1(a) above.

(a) Expedited Review Process.

(1) In General. The Asbestos PI Trust's Expedited Review Process is designed primarily to provide an expeditious, efficient and inexpensive method for liquidating all Asbestos PI Claims (except those involving Disease Level V and except Foreign Claims (as defined below), which shall only be liquidated pursuant to the Asbestos PI Trust's Individual Review Process) where the claim can easily be verified by the Asbestos PI Trust as meeting the Medical/Exposure Criteria for the relevant Disease Level. Expedited Review thus provides claimants with a substantially less burdensome process for pursuing Asbestos PI Claims than does the Individual Review Process described in Section 5.2(b) below. Expedited Review is also intended to provide qualifying claimants a fixed and certain claim value.

Thus, claims that undergo Expedited Review and meet the Medical/Exposure Criteria for the relevant Disease Level shall be paid on the basis of the Scheduled Value for such Disease

Level set forth in Section 5.2(a)(3) below. However, all claims liquidated by Expedited Review shall be subject to the applicable Payment Percentage at the time payment is made, the Maximum Annual Payment, and the Claims Payment Ratio limitations set forth herein.

Subject to the provisions of Section 5.7, a claimant's eligibility to receive the Scheduled Value for his or her Asbestos PI Claim pursuant to the Expedited Review Process shall be determined solely by reference to the Medical/Exposure Criteria set forth below for each of the Disease Levels eligible for Expedited Review.

(2) Claims Processing Under Expedited Review. All claimants seeking liquidation of an Asbestos PI Claim pursuant to Expedited Review shall file the Asbestos PI Trust's proof of claim form. As a proof of claim form is reached in the FIFO Processing Queue, the Asbestos PI Trust shall determine whether the claim described therein meets the Medical/Exposure Criteria for one of the six Disease Levels eligible for Expedited Review, and shall advise the claimant of its determination. If the Asbestos PI Trust determines that a claim meets the Medical/Exposure Criteria for a Disease Level, the Asbestos PI Trust shall tender to the claimant an offer of payment equal to payment of the Scheduled Value subject to the Payment Percentage in effect at the time of payment for the relevant Disease Level, together with a form of release approved by the Asbestos PI Trust. If the claimant accepts such offer, including the Scheduled Value, and returns the release properly executed, the claim shall be placed in the FIFO Payment Queue, following which the Asbestos PI Trust shall make payment on the claim subject to the limitations, if any, of the Maximum Annual Payment and Claims Payment Ratio.

(3) Disease Levels: Scheduled Values and Medical/Exposure Criteria. The seven Disease Levels covered by these Asbestos PI Trust Distribution Procedures, together

with the Medical/Exposure Criteria for each, and the Scheduled Values for the six Disease Levels eligible for Expedited Review, are set forth below. These Disease Levels, Scheduled Values, and Medical/Exposure Criteria shall apply to all Asbestos PI Trust Claims filed with the Asbestos PI Trust on or before the Initial Claims Filing Date for which the claimant elects the Expedited Review Process. Thereafter, for purposes of administering the Expedited Review Process and, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, the Asbestos PI Trustee may: add to, change or eliminate Disease Levels, Scheduled Values, and/or Medical/Exposure Criteria; develop subcategories of Disease Levels, Scheduled Values and/or Medical/Exposure Criteria; or determine that a novel or exceptional Asbestos PI Claim is compensable even though it does not meet the Medical/Exposure Criteria for any of the then current Disease Levels. Because claimants who fall within Disease Level V seeking to recover from the Asbestos PI Trust may not undergo Expedited Review and must undergo Individual Review, no Scheduled Value is provided.

Disease Level	**Scheduled Value**		**Medical/Exposure Criteria**
	Powerhouse and Below-Deck Naval Station Claims	**Construction and Maintenance Claims**	
Mesothelioma (Level VII)	$100,000	$25,000	(1) Diagnosis[4] of mesothelioma; and (2) Leslie Controls Exposure as defined in Section 5.6(b)(3) below
Lung Cancer 1 (Level VI)	$25,000	$7,500	(1) Diagnosis of a primary lung cancer plus evidence of an underlying Bilateral Asbestos Related Nonmalignant Disease,[5] (2) six months Leslie Controls

[4] The requirements for a diagnosis of an asbestos-related disease are set forth in Section 5.6 below.

[5] Evidence of "Bilateral Asbestos-Related Nonmalignant Disease" for purposes of meeting the criteria for establishing Disease Levels I, II, IV, and VI, means either (i) a chest X-ray read by a qualified B reader of 1/0 or

46392/0001-6934601v1

Disease Level	Scheduled Value		Medical/Exposure Criteria
	Powerhouse and Below-Deck Naval Station Claims	**Construction and Maintenance Claims**	
			Exposure prior to December 31, 1986, (3) Significant Occupational Exposure[6] to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the lung cancer in question.
Lung Cancer 2 (Level V)	None	None	(1) Diagnosis of a primary lung cancer; (2) Leslie Controls Exposure prior to December 31, 1986, and (3) supporting medical documentation establishing asbestos exposure as a substantial contributing factor in causing the lung cancer in question. Lung Cancer 2 (Level V) claims are claims that do not meet the more stringent medical and/or exposure requirements of Lung Cancer 1 (Level VI) claims. All claims in Disease

....Continued
higher on the ILO scale or (ii)(x) a chest x-ray read by a qualified B reader or other Qualified Physician, (y) a CT scan read by a Qualified Physician, in each case showing either bilateral interstitial fibrosis, bilateral pleural plaques, bilateral pleural thickening, or bilateral pleural calcification, or (z) pathology. Evidence submitted to demonstrate (i) or (ii) above must be in the form of a written report stating the results (e.g., an ILO report, a written radiology report or a pathology report). Solely for asbestos claims filed against Leslie Controls or another defendant in the tort system prior to the Commencement Date, if an ILO reading is not available, either (i) a chest X-ray or a CT scan read by a Qualified Physician, in each case showing bilateral interstitial fibrosis, bilateral pleural plaques, bilateral pleural thickening, or bilateral pleural calcification consistent with or compatible with a diagnosis of asbestos-related disease, shall be evidence of a Bilateral Asbestos-Related Nonmalignant Disease for purposes of meeting the medical requirements of Disease Levels I, II, IV and VI, or (z) pathology. Pathological proof of asbestosis may be based on the pathological grading system for asbestosis described in the Special Issue of the Archives of Pathology and Laboratory Medicine, "Asbestos-associated Diseases," Vol. 106, No. 11, App. 3 (October 8, 1982). For all purposes of these Asbestos PI Trust Distribution Procedures, a "Qualified Physician" is a physician who is board certified (or in the case of Canadian Claims or Foreign Claims, a physician who is certified or qualified under comparable medical standards or criteria of the jurisdiction in question) in one or more relevant specialized fields of medicine such as pulmonology, radiology, internal medicine or occupational medicine; provided, however, that, subject to the provisions of Section 5.7, the requirement for board certification in this provision shall not apply to otherwise qualified physicians whose x-rays and/or CT scan readings are submitted for deceased holders of Asbestos PI Claims.

[6] "Significant Occupational Exposure" is defined in Section 5.6(b)(2) below.

Disease Level	**Scheduled Value**		**Medical/Exposure Criteria**
	Powerhouse and Below-Deck Naval Station Claims	**Construction and Maintenance Claims**	
			Level V shall be individually evaluated. The estimated likely average of the individual evaluation awards for this category is $18,000 for Leslie Powerhouse and Below-Deck Naval Station Claims and $5,000 for Leslie Construction and Maintenance Claims, with such awards capped at $22,000 for Leslie Powerhouse and Below-Deck Naval Station Claims and $10,000 for Leslie Construction and Maintenance Claims, unless the claim qualifies for Extraordinary Claim treatment (discussed in Section 5.3 below). Level V claims that show no evidence of either an underlying Bilateral Asbestos-Related Nonmalignant Disease or Significant Occupational Exposure may be individually evaluated, although it is not expected that such claims shall be treated as having any significant value, especially if the claimant is also a Smoker.[7] In any event, no presumption of validity shall be available for claims in this category.

....Continued

[7] There is no distinction between Non-Smokers and Smokers for either Lung Cancer 1 (Level VI) or Lung Cancer 2 (Level V), although a claimant who meets the more stringent requirements of Lung Cancer 1 (Level VI) (evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease plus Significant Occupational Exposure), and who is also a Non-Smoker, may wish to have his or her claim individually evaluated by the Asbestos PI Trust. In such a case, absent circumstances that would otherwise reduce the value of the claim, it is anticipated that the liquidated value of the claim might well exceed the Scheduled Value for Lung Cancer 1 (Level VI), shown above. "Non-Smoker" means a claimant who either (a) never smoked or (b) has not smoked during any portion of the twelve (12) years immediately prior to the diagnosis of the lung cancer.

Disease Level	Scheduled Value		Medical/Exposure Criteria
	Powerhouse and Below-Deck Naval Station Claims	**Construction and Maintenance Claims**	
Other Cancer (Level IV)	$15,000	$5,000	(1) Diagnosis of a primary colorectal, laryngeal, esophageal, pharyngeal, or stomach cancer, plus evidence of an underlying Bilateral Asbestos-Related Nonmalignant Disease, (2) six months Leslie Controls Exposure prior to December 31, 1986, (3) Significant Occupational Exposure to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the other cancer in question.
Severe Asbestosis (Level III)	$17,500	$6,000	(1) Diagnosis of asbestosis with ILO[8] of 2/1 or greater, or asbestosis determined by pathological evidence of asbestosis, plus (a) TLC less than 65%, or (b) FVC less than 65% and FEV1/FVC ratio greater than 65%, (2) six months Leslie Controls Exposure prior to December 31, 1986, (3) Significant Occupational Exposure to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary impairment in question.

[8] If the diagnostic images being interpreted in such regard are digital images, then a written report by a Qualified Physician confirming that the images reviewed are with reasonable medical certainly equivalent to those that would qualify for the required ILO grade shall be provided as well.

Disease Level	Scheduled Value		Medical/Exposure Criteria
	Powerhouse and Below-Deck Naval Station Claims	**Construction and Maintenance Claims**	
Asbestosis/Pleural Disease (Level II)	$4,500	$1,250	(1) Diagnosis of Bilateral Asbestos-Related Nonmalignant Disease plus (a) TLC less than 80%, or (b) FVC less than 80% and FEV1/FVC ratio greater than or equal to 65%, and (2) six months Leslie Controls Exposure prior to December 31, 1986, (3) Significant Occupational Exposure to asbestos, and (4) supporting medical documentation establishing asbestos exposure as a contributing factor in causing the pulmonary impairment in question.
Asbestosis/Pleural Disease (Level I)	$1,500	$500	(1) Diagnosis of a Bilateral Asbestos-Related Nonmalignant Disease, and (2) six months Leslie Controls Exposure prior to December 31, 1986, and (3) five years cumulative occupational exposure to asbestos.

(b) Individual Review Process.

(1) In General. Subject to the provisions set forth below, a claimant may elect to have his or her Asbestos PI Claim reviewed for purposes of determining whether the claim would be compensable in the tort system even though it does not meet the Medical/Exposure Criteria for any of the Disease Levels III, IV, VI or VII set forth in Section 5.2(a)(3) above or because it is a Disease Level V claim. In addition or alternatively, a claimant holding an Asbestos PI Claim meeting the Medical/Exposure Criteria for Disease Levels III, IV, VI or VII may elect to have a claim undergo the Individual Review Process for purposes of determining whether the liquidated value of the claim exceeds the Scheduled Value for the

relevant Disease Level. However, until such time as the Asbestos PI Trust has made an offer on a claim pursuant to Individual Review, the claimant may change his or her Individual Review election and have the claim liquidated pursuant to the Asbestos PI Trust's Expedited Review Process. In the event of such a change in the processing election, the claimant shall nevertheless retain his or her place in the FIFO Processing Queue.

The liquidated value of all Foreign Claims asserted or payable under these Asbestos PI Trust Distribution Procedures shall be established only under the Asbestos PI Trust's Individual Review Process. Asbestos PI Claims of individuals exposed in Canada who were resident in Canada when such claims were filed ("Canadian Claims") shall not be considered Foreign Claims hereunder and shall be eligible for liquidation under the Expedited Review Process. Accordingly, a "Foreign Claim" is an Asbestos PI Claim with respect to which the claimant's exposure to an asbestos-containing product, or to conduct that exposed the claimant to an asbestos-containing product, for which Leslie Controls has legal responsibility occurred outside of the United States and its Territories and Possessions and outside of the Provinces and Territories of Canada.

In reviewing Foreign Claims, the Asbestos PI Trust shall take into account all relevant procedural and substantive legal rules to which the claims would be subject in the Claimant's Jurisdiction as defined in Section 5.2(b)(2) below. The Asbestos PI Trust shall determine the liquidated value of a Foreign Claim based on historical settlements and verdicts in the Claimant's Jurisdiction as well as the other valuation factors set forth in Section 5.2(b)(2) below.

For purposes of the Individual Review Process for Foreign Claims, the Asbestos PI Trustee, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, may develop separate Medical/Exposure Criteria and standards, as

well as separate requirements for physician and other professional qualifications, which shall be applicable to Foreign Claims channeled to the Asbestos PI Trust; provided, however, that such criteria, standards or requirements shall not effectuate substantive changes to the claims eligibility requirements under these Asbestos PI Trust Distribution Procedures, but rather shall be made only for the purpose of adapting those requirements to the particular licensing provisions and/or medical customs or practices of the foreign country in question.

At such time as the Asbestos PI Trust has sufficient historical settlement, verdict and other valuation data for claims from a particular foreign jurisdiction, the Asbestos PI Trustee, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, may also establish a separate valuation matrix for any such Foreign Claims based on that data.

(A) Review of Medical/Exposure Criteria. The Asbestos PI Trust's Individual Review Process provides a claimant with an opportunity for individual consideration and evaluation of an Asbestos PI Claim that fails to meet the Medical/Exposure Criteria for Disease Levels III, IV, VI or VII. In such a case, the Asbestos PI Trust shall either deny the claim, or, if the Asbestos PI Trust is satisfied that the claimant has presented a claim that would be cognizable and valid in the tort system, the Asbestos PI Trust may offer the claimant a liquidated value amount up to the Scheduled Value for that Disease Level.

(B) Review of Liquidated Value. Claimants holding claims in Disease Levels III - VII shall also be eligible to seek Individual Review of the liquidated value of their Asbestos PI Claims, as well as of their medical/exposure evidence. The Individual Review Process is intended to result in payments equal to the full liquidated

value for each claim multiplied by the Payment Percentage; however, the liquidated value of any Asbestos PI Claim that undergoes Individual Review may be determined to be less than the Scheduled Value the claimant would have received under Expedited Review. Moreover, the liquidated value for a claim involving Disease Levels III - VII shall not exceed the Maximum Value for the relevant Disease Level set forth in Section 5.2(b)(3) below, unless the claim meets the requirements of an Extraordinary Claim described in Section 5.3(a) below, in which case its liquidated value cannot exceed the maximum extraordinary value set forth in Section 5.3(a) for such claims. Because the detailed examination and valuation process pursuant to Individual Review requires substantial time and effort, claimants electing to undergo the Individual Review Process may be paid on the basis of the liquidated value of their Asbestos PI Claims later than would have been the case had the claimant elected the Expedited Review Process. Subject to the provisions of Section 5.7, the Asbestos PI Trust shall devote reasonable resources to the review of all claims to ensure that there is a reasonable balance maintained in reviewing all Categories of claims.

(2) Valuation Factors to Be Considered in Individual Review. The Asbestos PI Trust shall liquidate the value of each Asbestos PI Claim that undergoes Individual Review based on the historic liquidated values of other similarly-situated claims in the tort system for the same Disease Level. Accordingly, the Asbestos PI Trust shall take into consideration all of the factors that affect the amount of damages and values in the tort system, including, but not limited to, credible evidence of (i) the degree to which the characteristics of a claim differ from the Medical/Exposure Criteria for the Disease Level in question; (ii) factors such as the claimant's age, disability, employment status, disruption of household, family or

recreational activities, dependencies, special damages, and pain and suffering; (iii) whether the claimant's damages were (or were not) caused by asbestos exposure, including exposure to an asbestos-containing product, or to conduct that exposed the claimant to an asbestos-containing product, for which Leslie Controls has legal responsibility, prior to December 31, 1986 (for example, possible alternative causes and the strength of documentation of injuries); (iv) the industry of exposure; (v) settlement and verdict histories in the Claimant's Jurisdiction for similarly-situated claims; (vi) the extent of the claimant's exposure to asbestos working below-deck on Navy vessels; and (vii) the greater of (a) settlement and verdict histories for the claimant's law firm in the Claimant's Jurisdiction for similarly-situated claims, and (b) settlement and verdict histories for the claimant's law firm, including all cases where the claimant's law firm satisfies the Asbestos PI Trust on the basis of clear and convincing evidence provided to the Asbestos PI Trust that the claimant's law firm played a substantial role in the prosecution and resolution of the cases, such as actively participating in court appearances, discovery and/or trial of the cases, irrespective of whether a second law firm was also involved and would also be entitled to include the cases in its "settlement and verdict histories." For the avoidance of doubt, mere referral of a case, without further direct involvement, will not be viewed as having played a substantial role in the prosecution and resolution of a case. In liquidating the value of an Asbestos PI Claim that undergoes Individual Review, the Asbestos PI Trust shall treat a claimant as living if the claimant was alive at the time the initial pre-petition complaint was filed or the proof of claim form was filed with the Asbestos PI Trust even if the claimant has subsequently died.

For these purposes, the "Claimant's Jurisdiction" is the jurisdiction in which the claim was filed (if at all) against Leslie Controls in the tort system prior to the Commencement Date.

If the claim was not filed against Leslie Controls in the tort system prior to the Commencement Date, the claimant may elect as the Claimant's Jurisdiction (i) the jurisdiction in which the claimant resides or resided at the time of diagnosis or when the claim is filed with the Asbestos PI Trust; or (ii) a jurisdiction in which the claimant experienced exposure to an asbestos-containing product, or to conduct that exposed the claimant to an asbestos-containing product, for which Leslie Controls has legal responsibility.

With respect to the "Claimant's Jurisdiction" in the event a personal representative or authorized agent makes a claim under these Asbestos PI Trust Distribution Procedures for wrongful death with respect to which the governing law of the Claimant's Jurisdiction could only be the Alabama Wrongful Death Statute, the Claimant's Jurisdiction for such claim shall be the Commonwealth of Pennsylvania and such claimant's damages shall be determined pursuant to the statutory and common laws of the Commonwealth of Pennsylvania without regard to its choice of law principles. The choice of law provision in Section 7.4 below applicable to any claim with respect to which, but for this choice of law provision, the applicable law of the Claimant's Jurisdiction pursuant to Section 5.2(b)(2) is determined to be the Alabama Wrongful Death Statute, shall only govern the rights between the Asbestos PI Trust and the claimant, and, to the extent the Asbestos PI Trust seeks recovery from any entity that provided insurance coverage to Leslie Controls, the Alabama Wrongful Death Statute shall govern.

With respect to the "Claimant's Jurisdiction" in the event a claim is made under these Asbestos PI Trust Distribution Procedures for compensatory damages that would otherwise satisfy the criteria for payment under these Asbestos PI Trust Distribution Procedures, but the claimant is foreclosed from payment because the governing law of the Claimant's Jurisdiction (a "Foreclosed Jurisdiction") describes the claim as a claim for "exemplary" or "punitive" damages

and the claimant would have no other remedy for compensation under the law of the Foreclosed Jurisdiction, the claimant may elect the Commonwealth of Pennsylvania as the Claimant's Jurisdiction, and such claimant's damages shall be determined pursuant to the statutory and common laws of the Commonwealth of Pennsylvania without regard to its choice of law principles. The choice of law provision in Section 7.4 below applicable to any claim with respect to which, but for this choice of law provision, the applicable law of the Claimant's Jurisdiction pursuant to Section 5.2(b)(2) is determined to be the law of a Foreclosed Jurisdiction, shall govern only the rights between the Asbestos PI Trust and the claimant, and, to the extent the Asbestos PI Trust seeks recovery from any entity that provided insurance coverage to Leslie Controls, the law of the Foreclosed Jurisdiction shall govern.

(3) Scheduled, Average and Maximum Values. The Scheduled, Average and Maximum Values for claims involving Disease Levels I-VII shall be as follows:

Leslie Powerhouse and Below-Deck Naval Station Claims:			
Scheduled Disease	**Scheduled Value**	**Average Value**	**Maximum Value**
Mesothelioma (Level VII)	100,000	140,000	350,000
Lung Cancer 1 (Level VI)	25,000	35,000	125,000
Lung Cancer 2 (Level V)	N/A	18,000	22,000
Other Cancer (Level IV)	15,000	17,500	25,500
Severe Asbestosis (Level III)	17,500	20,000	30,000
Asbestosis/Pleural Disease (Level II)	4,500	4,500	4,500
Asbestosis/Pleural Disease (Level I)	1,500	1,500	1,500

Leslie Construction and Maintenance Claims:			
Scheduled Disease	**Scheduled Value**	**Average Value**	**Maximum Value**
Mesothelioma (Level VII)	25,000	30,000	125,000
Lung Cancer 1 (Level VI)	7,500	10,000	37,500
Lung Cancer 2 (Level V)	N/A	5,000	10,000

Other Cancer (Level IV)	5,000	7,500	15,000
Severe Asbestosis (Level III)	6,000	8,000	17,500
Asbestosis/Pleural Disease (Level II)	1,250	1,250	1,250
Asbestosis/Pleural Disease (Level I)	500	500	500

The foregoing Scheduled Values, Average Values and Maximum Values shall apply to all Asbestos PI Claims filed with the Asbestos PI Trust on or before the Initial Claims Filing Date as provided in Section 5.1 above. With respect to Asbestos PI Claims filed after such date, the Asbestos PI Trust, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative pursuant to Sections 6.7(b) and 7.7(b) of the Asbestos PI Trust Agreement may change these value amounts for good cause and consistent with any other restrictions on the power to amend or modify these Asbestos PI Trust Distribution Procedures.

(4) Claims Processing under Individual Review. At the conclusion of the Individual Review Process, the Asbestos PI Trust shall: (i) determine the liquidated value, if any, of the claim, and (ii) advise the claimant of its determination. If the Asbestos PI Trust establishes a liquidated value, it shall tender to the claimant an offer of payment of the determined value multiplied by the applicable Payment Percentage, together with a form of release approved by the Asbestos PI Trust. If the claimant accepts such offer, including such liquidated value, and returns the release properly executed, the claim shall be placed in the FIFO Payment Queue, following which the Asbestos PI Trust shall make payment on the claim subject to the limitations, if any, of the Maximum Annual Payment and Claims Payment Ratio.

5.3 Categorizing Claims as Extraordinary and/or Exigent.

(a) Extraordinary Claims. "Extraordinary Claim" means an Asbestos PI Claim that otherwise satisfies the Medical Criteria for Disease Levels III - VII, and that is held by a claimant whose exposure to asbestos was at least 75% the result of exposure to asbestos-

containing product, or to conduct that exposed the claimant to an asbestos-containing product, for which Leslie Controls has legal responsibility, and there is little likelihood of a substantial recovery elsewhere. All such Extraordinary Claims shall be presented for Individual Review and, if valid, shall be entitled to a liquidation value of up to a maximum extraordinary value of five (5) times the Scheduled Value set forth in Section 5.2(b)(3) for claims qualifying for Disease Levels III - IV, VI and VII, and five (5) times the Average Value set forth in Section 5.2(b)(3) for claims in Disease Level V, multiplied by the applicable Payment Percentage.

Any dispute as to Extraordinary Claim status shall be submitted to a special panel established by the Asbestos PI Trust with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative (the "Extraordinary Claims Panel"). All decisions of the Extraordinary Claims Panel shall be final and not subject to any further administrative or judicial review. An Extraordinary Claim, following its liquidation, shall be placed in the FIFO Payment Queue ahead of all other Asbestos PI Claims, except Exigent Claims (as defined in Section 5.3(b) below), based on its date of liquidation and shall be subject to the Maximum Annual Payment and Claims Payment Ratio described above.

(b) Exigent Claims. At any time the Asbestos PI Trust may liquidate and pay Asbestos PI Claims that qualify as Exigent Health Claims or Exigent Hardship Claims (together, "Exigent Claims") as defined below. Exigent Claims may be considered separately under the Individual Review Process no matter what the order of processing otherwise would have been under these Asbestos PI Trust Distribution Procedures. An Exigent Claim, following its liquidation, shall be placed first in the FIFO Payment Queue ahead of all other Asbestos PI Claims and shall be subject to the Maximum Annual Payment and Claims Payment Ratio described above.

(1) Exigent Health Claims. An Asbestos PI Claim qualifies for payment as an Exigent Health Claim if the claim meets the Medical/Exposure Criteria for Mesothelioma (Disease Level VII) and the claimant is living when the claim is filed. A claim in Disease Levels III-VI qualifies as an Exigent Health Claim if the claim meets the Medical/Exposure Criteria for the Disease Level, and the claimant provides a declaration or affidavit made under penalty of perjury by a physician who has examined the claimant within one hundred twenty (120) days of the date of declaration or affidavit in which the physician states (a) that there is substantial medical doubt that the claimant will survive beyond six (6) months from the date of the declaration or affidavit, and (b) that the claimant's terminal condition is caused by the relevant asbestos-related disease.

(2) Exigent Hardship Claims. An Asbestos PI Claim qualifies for payment as an Exigent Hardship Claim if the claim meets the Medical/Exposure Criteria for Severe Asbestosis (Disease Level III) or an asbestos-related malignancy (Disease Levels IV - VII), and the Asbestos PI Trust, in its sole discretion, determines (i) that the claimant needs immediate financial assistance based on the claimant's expenses and all sources of available income, and (ii) that there is a causal connection between the claimant's dire financial condition and the claimant's asbestos-related disease.

5.4 Secondary Exposure Claims. If a claimant alleges an asbestos-related disease resulting solely from exposure to an occupationally exposed person, such as a family member, the claimant must seek Individual Review of his or her claim pursuant to Section 5.2(b) above. In such a case, the claimant must establish that the occupationally exposed person would have met the exposure requirements under these Asbestos PI Trust Distribution Procedures that would have been applicable had that person filed a direct claim against the Asbestos PI Trust. In

addition, the claimant with secondary exposure must establish that he or she is suffering from one of the seven Disease Levels described in Section 5.2(a)(3) above or an asbestos-related disease otherwise compensable under these Asbestos PI Trust Distribution Procedures, that his or her own exposure to the occupationally exposed person occurred within the same time frame as the occupationally exposed person was exposed to asbestos-containing products or conduct for which Leslie Controls has legal responsibility, and that such secondary exposure was a cause of the claimed disease. All other liquidation and payment rights and limitations under these Asbestos PI Trust Distribution Procedures shall be applicable to such claims, including the right to elect Scheduled Value.

5.5 Indirect Asbestos PI Claims. Indirect Asbestos PI Claims asserted against the Asbestos PI Trust shall be treated as valid and paid by the Asbestos PI Trust subject to the applicable Payment Percentage (and all other limitations applicable to direct claims hereunder) if (a) such claim satisfied the requirements of the Bar Date for such claims established by the Bankruptcy Court, if applicable, and is not otherwise disallowed by Section 502(e) of the Code or subordinated under Section 509(c) of the Code, and (b) the holder of such claim (the "Indirect Claimant") establishes to the satisfaction of the Asbestos PI Trustee that (i) the Indirect Claimant has paid in full the liability and obligation of the Asbestos PI Trust to the individual claimant to whom the Asbestos PI Trust would otherwise have had a liability or obligation under these Asbestos PI Trust Distribution Procedures (the "Direct Claimant") (and which has not been paid by the Asbestos PI Trust), (ii) the Direct Claimant and the Indirect Claimant have forever and fully released the Asbestos PI Trust and the Asbestos Protected Parties from all liability to the Direct Claimant and the Indirect Claimant, and (iii) the claim is not otherwise barred by a statute of limitations or repose or by other applicable law. In no event shall any Indirect Claimant have

any rights against the Asbestos PI Trust superior to the rights of the related Direct Claimant against the Asbestos PI Trust, including any rights with respect to the timing, amount or manner of payment. In addition, no Indirect Asbestos PI Claim may be liquidated and paid in an amount that exceeds what the Indirect Claimant has actually paid the related Direct Claimant in respect of such Direct Claimant's claim for which the Asbestos PI Trust would have liability.

In addition, to establish a presumptively valid Indirect Asbestos PI Claim, the Indirect Claimant's aggregate liability for the Direct Claimant's claim must also have been fixed, liquidated and paid fully by the Indirect Claimant by settlement (with an appropriate full release in favor of the Asbestos PI Trust and the Asbestos Protected Parties) or a Final Order, provided that such claim is valid under the applicable state law. In any case where the Indirect Claimant has satisfied the claim of a Direct Claimant against the Asbestos PI Trust under applicable law by way of a settlement, the Indirect Claimant shall obtain for the benefit of the Asbestos PI Trust and the Asbestos Protected Parties a release in form and substance satisfactory to the Asbestos PI Trustee.

If an Indirect Claimant cannot meet the presumptive requirements set forth above, including the requirement that the Indirect Claimant provide the Asbestos PI Trust and the Asbestos Protected Parties with a full release of the Direct Claimant's claim, the Indirect Claimant may request that the Asbestos PI Trust review the Indirect Asbestos PI Claim individually to determine whether the Indirect Claimant can establish under applicable state law that the Indirect Claimant has paid all or a portion of a liability or obligation that the Asbestos PI Trust had to the Direct Claimant as of the date the indirect claim was filed with the Asbestos PI Trust. If the Indirect Claimant can show that it has paid all or a portion of such a liability or obligation, the Asbestos PI Trust shall reimburse the Indirect Claimant the amount of the liability

or obligation so paid, times the then applicable Payment Percentage. However, in no event shall such reimbursement to the Indirect Claimant be greater than the amount to which the Direct Claimant would have otherwise been entitled under these Asbestos PI Trust Distribution Procedures. Further, the liquidated value of any Indirect Asbestos PI Claim paid by the Asbestos PI Trust to an Indirect Claimant shall be treated as an offset to or reduction of the full liquidated value of any Asbestos PI Claim that might be subsequently asserted by the Direct Claimant against the Asbestos PI Trust.

Any dispute between the Asbestos PI Trust and an Indirect Claimant over whether the Indirect Claimant has a right to reimbursement for any amount paid to a Direct Claimant shall be subject to the ADR Procedures. If such dispute is not resolved under the ADR Procedures, the Indirect Claimant may litigate the dispute in the tort system pursuant to Sections 5.10 and 7.6 below.

Indirect Asbestos PI Claims that have not been disallowed, discharged, or otherwise resolved by prior order of the Bankruptcy Court shall be processed in accordance with procedures to be developed and implemented by the Asbestos PI Trustee consistent with the provisions of this Section 5.5, which procedures (a) shall determine the validity, allowability and enforceability of such claims, and (b) shall otherwise provide the same liquidation and payment procedures and rights to the holders of such claims as the Asbestos PI Trust would have afforded the holders of the underlying valid Asbestos PI Claims. Nothing in these Asbestos PI Trust Distribution Procedures is intended to preclude a trust to which asbestos-related liabilities are channeled from asserting an Indirect Asbestos PI Claim against the Asbestos PI Trust subject to the requirements set forth herein.

5.6 Evidentiary Requirements.

(a) Medical Evidence.

(1) In General. All diagnoses of a Disease Level shall be accompanied by either (i) a statement by the physician providing the diagnosis that at least 10 years have elapsed between the date of first exposure to asbestos or asbestos-containing products and the diagnosis, or (ii) a history of the claimant's exposure sufficient to establish a 10-year latency period.[9]

(A) Disease Levels I - III. Except for asbestos claims filed against Leslie Controls or any other defendant in the tort system prior to the Commencement Date, all diagnoses of a non-malignant asbestos-related disease (Disease Levels I - III) shall be based in the case of a claimant who was living at the time the claim was filed, upon a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease. All living claimants must also provide: (i) for Disease Levels I - II, evidence of Bilateral Asbestos-Related Nonmalignant Disease (as defined in Footnote 4 above), (ii) for Disease Level III, an ILO[10] reading of 2/1 or greater or pathological evidence of asbestosis, and (iii) for Disease Levels II and III, pulmonary function testing.[11] A finding by a physician after the Effective Date that a claimant's

---

[9] All diagnoses of Asbestosis/Pleural Disease (Disease Levels I, II and III) not based on pathology shall be presumed to be based on findings of bilateral asbestosis or pleural disease, and all diagnoses of Mesothelioma (Disease Level VII) shall be presumed to be based on findings that the disease involves a malignancy. However, the Asbestos PI Trust may rebut such presumptions.

[10] See note 7 above.

[11] "Pulmonary function testing" or "PFT" shall mean testing that is in material compliance with the quality criteria established by the American Thoracic Society ("ATS") and is performed on equipment which is in material compliance with ATS standards for technical quality and calibration. PFT performed in a hospital accredited by the JCAHO (as defined in Section 5.6(a)(1)(B) below), or performed, reviewed or supervised by a board certified pulmonologist or other Qualified Physician shall be presumed to comply with ATS standards, and the claimant may submit a summary report of the testing. If the PFT was not performed in a JCAHO-accredited hospital, or

Continued...

disease is "consistent with" or "compatible with" asbestosis will not alone be treated by the Asbestos PI Trust as a diagnosis.

In the case of a claimant who was deceased at the time the claim was filed, all diagnoses of a non-malignant asbestos-related disease (Disease Levels I - III) shall be based upon either (i) a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease, or (ii) pathological evidence of the non-malignant asbestos-related disease, or (iii) in the case of Disease Levels I and II, evidence of Bilateral Asbestos-Related Nonmalignant Disease (as defined in Footnote 4 above), and for Disease Level III, either an ILO[12] reading of 2/1 or greater or pathological evidence of asbestosis, or (iv) for either Disease Level II or III, pulmonary function testing.

(B) Disease Levels IV - VII. All diagnoses of an asbestos-related malignancy (Disease Levels IV - VII) shall be based upon either (i) a physical examination of the claimant by the physician providing the diagnosis of the asbestos-related disease, or (ii) a diagnosis of such a malignant Disease Level by a board-certified pathologist or by a pathology report prepared at or on behalf of a hospital accredited by the Joint Commission on Accreditation of Healthcare Organizations ("JCAHO").

(C) Exception to the Exception for Certain Pre-Petition Asbestos PI Claims. If the holder of an Asbestos PI Claim that was filed against Leslie

....Continued
performed, reviewed or supervised by a board certified pulmonologist or other Qualified Physician, the claimant must submit the full report of the testing (as opposed to a summary report); provided, however, that if the PFT was conducted prior to the Effective Date and the full PFT report is not available, the claimant must submit a declaration signed by a Qualified Physician or other party who is qualified to make a certification regarding the PFT, in the form provided by the Asbestos PI Trust, certifying that the PFT was conducted in material compliance with ATS standards.

[12] See note 6 above.

Controls or any other defendant in the tort system prior to the Commencement Date has available a report of a diagnosing physician engaged by the holder or his or her law firm who conducted a physical examination of the holder as described in Section 5.6(a)(1)(A), or if the holder has filed such medical evidence and/or a diagnosis of the asbestos-related disease by a physician not engaged by the holder or his or her law firm who conducted a physical examination of the holder with another asbestos-related personal injury settlement trust that requires such evidence, without regard to whether the claimant or the law firm engaged the diagnosing physician, the holder shall provide such medical evidence to the Asbestos PI Trust notwithstanding the exception in Section 5.6(a)(1)(A).

(2) Credibility of Medical Evidence. Before making any payment to a claimant, the Asbestos PI Trust must have reasonable confidence that the medical evidence provided in support of the claim is credible and consistent with recognized medical standards. The Asbestos PI Trust may require the submission of X-rays, CT scans, detailed results of pulmonary function tests, laboratory tests, tissue samples, results of medical examination or reviews of other medical evidence, and may require that medical evidence submitted comply with recognized medical standards regarding equipment, testing methods and procedures to assure that such evidence is reliable. Medical evidence (i) that is of a kind shown to have been received in evidence by a state or federal judge at trial, (ii) that is consistent with evidence submitted to Leslie Controls for settlement purposes for payment of similar disease cases prior to Leslie Controls' bankruptcy, or (iii) that is a diagnosis by a physician shown to have previously qualified as a medical expert with respect to the asbestos-related disease in question before a state or federal judge using the same methodology and standard, is presumptively reliable, although the Asbestos PI Trust may seek to rebut the presumption. Notwithstanding the

foregoing or any other provision of these Asbestos PI Trust Distribution Procedures, any medical evidence submitted by a physician or entity that the Asbestos PI Trust has determined, after consulting with the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, to be unreliable shall not be acceptable as medical evidence in support of any Asbestos PI Claim.

In addition, claimants who otherwise meet the requirements of these Asbestos PI Trust Distribution Procedures for payment of an Asbestos PI Claim shall be paid irrespective of the results in any litigation at any time between the claimant and any other defendant in the tort system. However, any relevant evidence submitted in a proceeding in the tort system, other than any findings of fact, a verdict, or a judgment, involving another defendant may be introduced by either the claimant or the Asbestos PI Trust in any Individual Review proceeding conducted pursuant to 5.2 (b) or any Extraordinary Claim proceeding conducted pursuant to 5.3(a).

(b) Exposure Evidence.

(1) In General. As set forth above in Section 5.2(a)(3), to qualify for any Disease Level, the claimant must demonstrate a minimum exposure to asbestos-containing products, or to conduct that exposed the claimant to an asbestos-containing product, for which Leslie Controls has legal responsibility. Claims based on conspiracy theories that involve no exposure to an asbestos-containing product sold, distributed, marketed, handled, processed or manufactured by Leslie Controls are not compensable under these Asbestos PI Trust Distribution Procedures. To meet the presumptive exposure requirements of Expedited Review set forth in Section 5.2 (a)(3) above, the claimant must show (i) for all Disease Levels, Leslie Controls Exposure as defined in Section 5.6(b)(3) below prior to December 31, 1986, (ii) for Asbestos/Pleural Disease Level I, six (6) months Leslie Controls Exposure prior to December 31,

1986 plus five (5) years cumulative occupational asbestos exposure, and (iii) for Asbestosis/Pleural Disease (Disease Level II), Severe Asbestosis (Disease Level III), Other Cancer (Disease Level IV) or Lung Cancer 1 (Disease Level VI), the claimant must show six (6) months of Leslie Controls Exposure prior to December 31, 1986, plus Significant Occupational Exposure to asbestos as defined below. If a claimant asserting a claim in Disease Level III, IV, V, VI or VII cannot meet the relevant presumptive exposure requirements for a Disease Level eligible for Expedited Review, such claimant may seek Individual Review of his or her claim based on exposure to asbestos-containing products, or to conduct that exposed the claimant to an asbestos-containing product, for which Leslie Controls has legal responsibility.

(2) Significant Occupational Exposure. "Significant Occupational Exposure" means employment for a cumulative period of at least five (5) years, with a minimum of two (2) years prior to December 31, 1986, in an industry and an occupation in which the claimant (a) handled raw asbestos fibers on a regular basis, (b) fabricated asbestos-containing products so that the claimant in the fabrication process was exposed on a regular basis to raw asbestos fibers, (c) altered, repaired or otherwise worked with an asbestos-containing product such that the claimant was exposed on a regular basis to asbestos fibers, or (d) was employed in an industry and occupation such that the claimant worked on a regular basis in close proximity to workers engaged in the activities described in (a), (b) and/or (c).

(3) Leslie Controls Exposure. The claimant must demonstrate meaningful and credible exposure, which occurred prior to December 31, 1986, (a) to an asbestos-containing product sold, distributed, marketed, handled, processed or manufactured by Leslie Controls or for which Leslie Controls otherwise has legal responsibility, or (b) to conduct for which Leslie Controls has legal responsibility that exposed the claimant to an asbestos-

containing product ("Leslie Controls Exposure"). That meaningful and credible exposure evidence may be established by an affidavit or sworn statement on personal knowledge of the claimant, by an affidavit or sworn statement on personal knowledge of a co-worker or the affidavit or sworn statement on personal knowledge of a family member in the case of a deceased claimant (provided that the Asbestos PI Trust finds such evidence reasonably reliable), by invoices, employment, construction or similar records, or by other credible evidence. The specific exposure information required by the Asbestos PI Trust to process a claim under either Expedited or Individual Review shall be set forth on the proof of claim form to be used by the Asbestos PI Trust. The Asbestos PI Trust can also require submission of other or additional evidence of exposure when it deems such to be necessary.

Evidence submitted to establish proof of Leslie Controls Exposure is for the sole benefit of the Asbestos PI Trust, not third parties or defendants in the tort system. The Asbestos PI Trust has no need for, and therefore claimants are not required to furnish the Asbestos PI Trust with, evidence of exposure to specific asbestos products other than those for which Leslie Controls has legal responsibility, except to the extent such evidence is required elsewhere in these Asbestos PI Trust Distribution Procedures. Similarly, failure to identify Leslie Controls Exposure in the claimant's underlying tort action, or to other bankruptcy trusts, does not preclude the claimant from recovering from the Asbestos PI Trust, provided that the claimant satisfies the medical and exposure requirements of these Asbestos PI Trust Distribution Procedures.

5.7 Claims Audit Program. The Asbestos PI Trust with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative may develop methods for auditing the reliability of medical evidence, including additional readings of X-rays and CT scans and verification of pulmonary function tests, as well as the reliability of evidence of

exposure to asbestos, including Leslie Controls Exposure, prior to December 31, 1986. In the event that the Asbestos PI Trust reasonably determines that any individual or entity has engaged in a pattern or practice of providing unreliable medical evidence, it may decline to accept additional evidence from such provider in the future.

Further, in the event that an audit reveals that fraudulent information has been provided to the Asbestos PI Trust, the Asbestos PI Trust may penalize any claimant or claimant's attorney by disallowing the Asbestos PI Claim and/or by other means including, but not limited to, requiring the source of the fraudulent information to pay the costs associated with the audit and any future audit or audits, reordering the priority of payment of all affected claimants' Asbestos PI Claims, raising the level of scrutiny of additional information submitted from the same source or sources, refusing to accept additional evidence from the same source or sources, seeking the prosecution of the claimant or claimant's attorney for presenting a fraudulent claim in violation of 18 U.S.C. §152, and/or seeking sanctions from the Bankruptcy Court.

5.8 Second Disease (Malignancy) Claims. The holder of an Asbestos PI Claim involving a non-malignant asbestos-related disease (Disease Levels I through III) may assert a new Asbestos PI Claim against the Asbestos PI Trust for a malignant disease (Disease Levels IV -VII) that is subsequently diagnosed. Any additional payments to which such claimant may be entitled with respect to such malignant asbestos-related disease shall not be reduced by the amount paid for the non-malignant asbestos-related disease, provided that the malignant disease had not been diagnosed at the time the claimant was paid with respect to his or her original claim involving the non-malignant disease.

5.9 Arbitration.

(a) Establishment of ADR Procedures. The Asbestos PI Trust, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, shall develop and adopt ADR Procedures, which shall provide for pro-bono evaluation, mediation and binding or non-binding arbitration to resolve disputes concerning whether the Asbestos PI Trust's outright rejection or denial of a claim was proper, or whether the claimant's medical condition or exposure history meets the requirements of these Asbestos PI Trust Distribution Procedures for purposes of categorizing a claim involving Disease Levels I - VII. Proceedings under the ADR Procedures shall also be available for resolving disputes over the liquidated value of a claim involving Disease Levels III - VII, as well as disputes over the validity of an Indirect Asbestos PI Claim.

In all arbitrations, the arbitrator shall consider the same medical and exposure evidentiary requirements that are set forth in Section 5.6 above. In the case of an arbitration involving the liquidated value of a claim involving Disease Levels III - VII, the arbitrator shall consider the same valuation factors that are set forth in Section 5.2(b)(2) above. To facilitate the Individual Review Process with respect to claims involving Disease Level III, IV, VI or VII, the Asbestos PI Trust may develop a valuation model that enables it to efficiently make initial settlement offers on such claims. In an arbitration involving any such claim, the Asbestos PI Trust shall not offer into evidence or describe any model or assert that any information generated by the model has any evidentiary relevance or should be used by the arbitrator in determining the presumed correct liquidated value in the arbitration. The underlying data that was used to create the model may be relevant and may be made available to the arbitrator but only if provide do the claimant or his or her counsel ten days prior to the arbitration proceeding. The claimant and his or her

counsel may use the data that is provided by the Asbestos PI Trust in the arbitration and shall agree to otherwise maintain the confidentiality of such information. Any disputes regarding confidentiality shall be resolved by the arbitrator.

With respect to all claims eligible for arbitration, the claimant, but not the Asbestos PI Trust, may elect either non-binding or binding arbitration. The ADR Procedures may be modified by the Asbestos PI Trust with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative.

(b) Claims Eligible for Arbitration. In order to be eligible for arbitration on the question of the appropriate liquidated value to be assigned a claim, the Claimant must first complete the Individual Review Process set forth in Section 5.2(b) above, as well as the pro bono evaluation or mediation process set forth in the ADR Procedures, with respect to the disputed issue. Individual Review shall be treated as completed for these purposes when the claim has been individually reviewed, where applicable, by the Asbestos PI Trust, the Asbestos PI Trust has made an offer on the claim, the claimant has rejected the liquidated value resulting from the Individual Review, and the claimant has notified the Asbestos PI Trust of claimant's rejection in writing. Individual Review will also be treated as completed if the Asbestos PI Trust has rejected the claim.

(c) Limitations on and Payment of Arbitration Awards. In the case of a non-Extraordinary Claim involving Disease Levels III - VII, the arbitrator shall not return an award in excess of the Maximum Value for the appropriate Disease Level as set forth in Section 5.2(b)(4) above, and for an Extraordinary Claim involving one of those Disease Levels, the arbitrator shall not return an award greater than the maximum extraordinary value for such a claim as set forth in Section 5.3(a) above. A claimant who submits to binding arbitration will receive payments in

the same manner as one who accepts the Asbestos PI Trust's original valuation of the claim. If a claimant elects non-binding arbitration and both the claimant and the Asbestos PI Trustee agree to be bound by the award therein, then the claimant will receive payments in the same manner as one who accepts the Asbestos PI Trust's original valuation of the claim.

5.10 Litigation. Claimants who elect non-binding arbitration and then reject their arbitral awards retain the right to institute a lawsuit in the tort system against the Asbestos PI Trust pursuant to Section 7.6 below. However, a claimant shall be eligible for payment of a judgment for monetary damages obtained in the tort system from the Asbestos PI Trust's available cash only as provided in Section 7.7 below.

SECTION VI
Claims Materials

6.1 Claims Materials. The Asbestos PI Trust shall prepare suitable and efficient claims materials ("Claims Materials") for all Asbestos PI Claims, and shall provide such Claims Materials upon a written request for such materials to the Asbestos PI Trust. In addition, a separate claim form for Indirect Asbestos PI Claims shall be developed. The proof of claim form to be submitted to the PI Trust shall require the claimant to assert the highest Disease Level for which the claim qualifies at the time of filing. The proof of claim form shall also include a certification by the claimant or his or her attorney sufficient to meet the requirements of Rule 11(b) of the Federal Rules of Civil Procedure. In developing its claim filing procedures, the Asbestos PI Trust shall make every effort to provide claimants with the opportunity to utilize currently available technology in their discretion, including filing claims and supporting documentation over the internet and electronically by disk or CD-rom. The proof of claim form to be used by the Asbestos PI Trust shall be developed by the Asbestos PI Trust and submitted to the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative for

approval; it may be changed by the Asbestos PI Trust with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative.

6.2 Content of Claims Materials. The Claims Materials shall include a copy of these Asbestos PI Trust Distribution Procedures, such instructions as the Asbestos PI Trustee shall approve, and a detailed proof of claim form. If feasible, the forms used by the Asbestos PI Trust to obtain claims information shall be the same or substantially similar to those used by other asbestos claims resolution organizations. If requested by the claimant, the Asbestos PI Trust shall accept information provided electronically. The claimant may, but shall not be required to, provide the Asbestos PI Trust with evidence of recovery from other asbestos defendants and claims resolution organizations.

6.3 Withdrawal or Deferral of Claims. A claimant may withdraw an Asbestos PI Claim at any time upon written notice to the Asbestos PI Trust and file another claim subsequently without affecting the status of the claim for statute of limitations purposes, but any such claim filed after withdrawal shall be given a place in the FIFO Processing Queue based on the date of such subsequent filing. Also, a claimant may request that the processing of his or her Asbestos PI Claim by the Asbestos PI Trust be deferred for a period not to exceed three (3) years without affecting the status of the claim for statute of limitations purposes, in which case the claimant shall also retain his or her original place in the FIFO Processing Queue. During the period of such deferral, a sequencing adjustment on such claimant's Asbestos PI Claim as provided in Section 7.5 hereunder shall not accrue and payment thereof shall be deemed waived by the claimant. Except for Asbestos PI Claims held by representatives of deceased or incompetent claimants for which court or probate approval of the Asbestos PI Trust's offer is required, or an Asbestos PI Claim for which deferral status has been granted, a claim shall be

deemed to have been withdrawn if the claimant neither accepts, rejects, nor initiates arbitration within six (6) months of the Asbestos PI Trust's written offer of payment or of rejection of the claim. Upon written request, for good cause, the Asbestos PI Trust may extend the withdrawal or deferral period for an additional six (6) months.

6.4 Filing Requirements and Fees. The Asbestos PI Trustee shall have the discretion to determine, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, whether a filing fee should be required for any Asbestos PI Claims. Any such requirement shall be applied, within any Category, on a non-discriminatory basis.

6.5 English Language. All claims, claims forms, submissions and evidence submitted to the Asbestos PI Trust or in connection with any claim or its liquidation shall be in the English language.

6.6 Confidentiality of Claimants' Submissions. All submissions to the Asbestos PI Trust by a holder of an Asbestos PI Claim, including the proof of claim form and materials related thereto, shall be treated as made in the course of settlement discussions between the holder and the Asbestos PI Trust and intended by the parties to be confidential and to be protected by all applicable state and federal privileges, including, but not limited to, those directly applicable to settlement discussions. The Asbestos PI Trust shall preserve the confidentiality of such claimant submissions, and shall disclose the contents thereof only with the permission of the holder to another trust established for the benefit of asbestos personal injury claimants pursuant to Section 524(g) and/or Section 105 of the Bankruptcy Code or other applicable law, or to such other persons as authorized by the holder, or in response to a valid subpoena. Furthermore, the Asbestos PI Trust shall provide counsel for the holder a copy of any such subpoena immediately upon being served. The Asbestos PI Trust shall on its own initiative

or upon request of the claimant in question take all necessary and appropriate steps to preserve any and all privileges. Notwithstanding anything in the foregoing to the contrary, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, the Asbestos PI Trust may, in specific limited instances, disclose information, documents, or other materials reasonably necessary in the Asbestos PI Trust's judgment to preserve, litigate, resolve or settle coverage, or to comply with an applicable obligation under an insurance policy or settlement agreement within the Asbestos Insurance Rights; provided, however, that the Asbestos PI Trust shall take any and all steps reasonably feasible in its judgment to preserve the further confidentiality of such information, documents and materials, and prior to the disclosure of such information, documents or materials to a third party, the Asbestos PI Trust shall receive from such third party a written agreement of confidentiality that (a) ensures that the information, documents and materials provided by the Asbestos PI Trust shall be used solely by the receiving party for the purpose stated in the agreement and (b) prohibits any other use or further dissemination of the information, documents and materials by the third party.

SECTION VII

General Guidelines For Liquidating And Paying Claims

7.1 Showing Required. To establish a valid Asbestos PI Claim, a claimant must meet the requirements set forth in these Asbestos PI Trust Distribution Procedures. The Asbestos PI Trust may require the submission of X-rays, CT scans, laboratory tests, medical examinations or reviews, other medical evidence, or any other evidence to support or verify an Asbestos PI Claim, and may further require that medical evidence submitted comply with recognized medical standards regarding equipment, testing methods, and procedures to assure that such evidence is reliable.

7.2 Costs Considered. Notwithstanding any provisions of these Asbestos PI Trust Distribution Procedures to the contrary, the Asbestos PI Trustee shall always give appropriate consideration to the cost of investigating and uncovering invalid Asbestos PI Claims so that the payment of valid Asbestos PI Claims is not further impaired by such processes with respect to issues related to the validity of the medical evidence supporting an Asbestos PI Claim. The Asbestos PI Trustee shall also have the latitude to make judgments regarding the amount of transaction costs to be expended by the Asbestos PI Trust so that valid Asbestos PI Claims are not unduly further impaired by the costs of additional investigation. Nothing herein shall prevent the Asbestos PI Trustee, in appropriate circumstances, from contesting the validity of any claim against the Asbestos PI Trust whatever the costs, or declining to accept medical evidence from sources that the Asbestos PI Trustee has determined to be unreliable pursuant to the Claims Audit Program described in Section 5.7 above.

7.3 Discretion to Vary the Order and Amounts of Payments in the Event of Limited Liquidity. Consistent with the provisions hereof and subject to the FIFO Processing Queue and the FIFO Payment Queue, the Maximum Annual Payment, and the Claims Payment Ratio requirements set forth above, the Asbestos PI Trustee shall proceed as quickly as possible to liquidate valid Asbestos PI Claims, and shall make payments to holders of such claims in accordance with these Asbestos PI Trust Distribution Procedures promptly as funds become available and as claims are liquidated, while maintaining sufficient resources to pay future valid claims in substantially the same manner.

Because the Asbestos PI Trust's income over time remains uncertain, and decisions about payments must be based on estimates that cannot be done precisely, they may have to be revised in light of experiences over time, and there can be no guarantee of any specific level of payment

to claimants. However, the Asbestos PI Trustee shall use his or her best efforts to treat similar claims in substantially the same manner, consistent with his or her duties as Asbestos PI Trustee, the purposes of the Asbestos PI Trust, the established allocation of funds to claims in Categories A and B, and the practical limitations imposed by the inability to predict the future with precision. In the event that the Asbestos PI Trust faces temporary periods of limited liquidity, the Asbestos PI Trustee may, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, suspend the normal order of payment and may temporarily limit or suspend payments altogether, and may offer a Reduced Payment Option as described in Section 2.5 above.

7.4 Punitive Damages. Except as provided below for claims asserted under the Alabama Wrongful Death Statute and for claims asserted by a claimant for compensatory damages that would otherwise satisfy the criteria for payment under these Asbestos PI Trust Distribution Procedures but in respect of which the claimant is foreclosed from payment because the governing law of a Foreclosed Jurisdiction (as defined in Section 5.2(b)(2) above) considers the claim to be a claim for "exemplary" or "punitive" damages and in respect of which the claimant would have no other remedy for compensation under the law of the Foreclosed Jurisdiction, in determining the value of any liquidated or unliquidated Asbestos PI Claim, punitive or exemplary damages, i.e., damages other than compensatory damages, shall not be considered or allowed, notwithstanding their availability in the tort system. Similarly, no punitive or exemplary damages shall be payable with respect to any claim litigated against the Asbestos PI Trust in the tort system pursuant to Sections 5.10 above and 7.6 below. The only damages that may be awarded pursuant to these Asbestos PI Trust Distribution Procedures to Alabama Claimants who are deceased and whose personal representatives pursue their claims

only under the Alabama Wrongful Death Statute shall be compensatory damages determined pursuant to the statutory and common law of the Commonwealth of Pennsylvania, without regard to its choice of law principles. The choice of law provision in this Section 7.4 applicable to any claim with respect to which, but for this choice of law provision, the applicable law of the Claimant's Jurisdiction pursuant to Section 5.2(b)(2) is determined to be the Alabama Wrongful Death Statute, shall only govern the rights between the Asbestos PI Trust and the claimant including, but not limited to, suits in the tort system pursuant to Section 7.6, and to the extent the Asbestos PI Trust seeks recovery from any entity that provided insurance to Leslie Controls, the Alabama Wrongful Death Statute shall govern.

The only damages that may be awarded pursuant to these Asbestos PI Trust Distribution Procedures for claims asserted by a claimant for compensatory damages that would otherwise satisfy the criteria for payment under these Asbestos PI Trust Distribution Procedures, but in respect of which the claimant is foreclosed from payment because the governing law of a Foreclosed Jurisdiction describes the claim as a claim for "exemplary" or "punitive" damages and the claimant would have no other remedy for compensation under the law of the Foreclosed Jurisdiction, shall be compensatory damages determined pursuant to the statutory and common law of the Commonwealth of Pennsylvania, without regard to its choice of law principles. The choice of law provision in this Section 7.4 applicable to any claim with respect to which, but for this choice of law provision, the applicable law of the Claimant's Jurisdiction pursuant to Section 5.2(b)(2) is determined to be the law of the Foreclosed Jurisdiction, shall govern only the rights between the Asbestos PI Trust and the claimant including, but not limited to, suits in the tort system pursuant to Section 7.6, and to the extent the Asbestos PI Trust seeks recovery from any

entity that provided insurance to Leslie Controls, the law of the Foreclosed Jurisdiction shall govern.

7.5 Sequencing Adjustments.

(a) In General. Subject to the limitations set forth below, a sequencing adjustment shall be paid on all Asbestos PI Claims with respect to which the claimant has had to wait a year or more for payment, provided, however, that no claimant shall receive a sequencing adjustment for a period in excess of seven (7) years on an unliquidated Asbestos PI Claim. The sequencing adjustment factor shall be 4.5% per annum for each of the first five (5) years after the Effective Date; thereafter, the Asbestos PI Trust shall have the discretion to change the annual sequencing adjustment factor with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative.

(b) Unliquidated Asbestos PI Claims. A sequencing adjustment shall be payable on the Scheduled Value of any unliquidated Asbestos PI Claim that meets the requirements of Disease Levels I - IV, VI and VII, whether the claim is liquidated under Expedited Review, Individual Review, or by arbitration. No sequencing adjustment shall be available to or paid on any claim liquidated in the tort system pursuant to Section 5.10 above and Section 7.6 below. The sequencing adjustment on an unliquidated Asbestos PI Claim that meets the requirements of Disease Level V shall be based on the liquidated value of such claim. Sequencing adjustments on all such unliquidated claims shall be measured from the date of payment back to the date that is one (1) year after the date on which the claim was placed in the FIFO Payment Queue, subject to the limitation that no claimant shall receive a sequencing adjustment for a period in excess of seven (7) years.

7.6 Suits in the Tort System. If the holder of a disputed claim disagrees with the Asbestos PI Trust's determination regarding the Disease Level of the claim, the claimant's exposure history or the liquidated value of the claim, and if the holder has first submitted the claim to non-binding arbitration as provided in Section 5.9 above, the holder may file a lawsuit in the Claimant's Jurisdiction as defined in Section 5.2 (b)(2) above. Any such lawsuit must be filed by the claimant in his or her own right and name and not as a member or representative of a class, and no such lawsuit may be consolidated with any other lawsuit. All defenses (including, with respect to the Asbestos PI Trust, all defenses which could have been asserted by Leslie Controls) shall be available to both sides at trial; however, the Asbestos PI Trust may waive any defense and/or concede any issue of fact or law. If the claimant was alive at the time the initial pre-petition complaint was filed or the proof of claim form was filed with the Asbestos PI Trust, the case shall be treated as a personal injury case with all personal injury damages to be considered even if the claimant has died during the pendency of the claim.

7.7 Payment of Judgments for Money Damages. If and when a claimant obtains a judgment in the tort system, the claim shall be placed in the FIFO Payment Queue based on the date on which the judgment became final. Thereafter, the claimant shall receive from the Asbestos PI Trust an initial payment (subject to the applicable Payment Percentage, the Maximum Annual Payment, and the Claims Payment Ratio provisions set forth above) of an amount equal to the greater of (i) the Asbestos PI Trust's last offer to the claimant, or (ii) the award that the claimant declined in non-binding arbitration; provided, however, that in no event shall such payment amount exceed the amount of the judgment obtained in the tort system. The claimant shall receive the balance of the judgment, if any, in five (5) equal installments in years six (6) through ten (10) following the year of the initial payment (also subject to the applicable

Payment Percentage, the Maximum Annual Payment and the Claims Payment Ratio provisions above in effect on the date of the payment of the subject installment).

In the case of non-Extraordinary claims involving Disease Levels III - VII, the total amounts paid with respect to such claims shall not exceed the Maximum Values for such Disease Levels set forth in Section 5.2(b)(3). In the case of Extraordinary Claims, the total amounts paid with respect to such claims shall not exceed the maximum extraordinary values for such claims set forth in Section 5.3 above. Under no circumstances shall (a) sequencing adjustments be paid pursuant to Section 7.5, or (b) interest be paid under any statute on any judgments obtained in the tort system.

7.8 Releases. The Asbestos PI Trustee shall have the discretion to determine the form and substance of the releases to be provided to the Asbestos PI Trust and the Asbestos Protected Parties in order to maximize recovery for claimants against other tortfeasors without increasing the risk or amount of claims for indemnification or contribution from the Asbestos PI Trust or the Asbestos Protected Parties with respect to the Asbestos PI Claim. As a condition to making any payment to a claimant, the Asbestos PI Trust shall obtain, for the benefit of the Asbestos PI Trust and the Asbestos Protected Parties, a general, partial, or limited release as appropriate in accordance with the applicable state or other law. If allowed by state law, the endorsing of a check or draft for payment by or on behalf of a claimant may, in the discretion of the Asbestos PI Trust, constitute such a release.

7.9 Third-Party Services. Nothing in these Asbestos PI Trust Distribution Procedures shall preclude the Asbestos PI Trust from contracting with another asbestos claims resolution organization to provide services to the Asbestos PI Trust so long as decisions about the categorization and liquidated value of Asbestos PI Claims are based on the relevant provisions of

these Asbestos PI Trust Distribution Procedures, including the Disease Levels, Scheduled Values, Average Values, Maximum Values, and Medical/Exposure Criteria set forth above.

7.10 Asbestos PI Trust Disclosure of Information. Periodically, but not less often than once a year, the Asbestos PI Trust shall make available to claimants and other interested parties, the number of claims by Disease Levels that have been resolved both by the Individual Review Process and by arbitration as well as by litigation in the tort system indicating the amounts of the awards and the averages of the awards by jurisdiction.

SECTION VIII
Miscellaneous

8.1 Amendments. Except as otherwise provided herein, the Asbestos PI Trustee may amend, modify, delete, or add to any provisions of these Asbestos PI Trust Distribution Procedures (including, without limitation, amendments to conform these Asbestos PI Trust Distribution Procedures to advances in scientific or medical knowledge or other changes in circumstances), provided he or she first obtains the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative pursuant to the Consent Process set forth in Sections 6.7(b) and 7.7(b) of the Asbestos PI Trust Agreement, except that the right to amend the Claims Payment Ratio is also governed by the restrictions in Section 2.5 above, and the right to adjust the Payment Percentage is also governed by Section 4.2 above. Nothing herein is intended to preclude the Asbestos PI Trust Advisory Committee or the Future Claimants' Representative from proposing to the Asbestos PI Trustee, in writing, amendments to these Asbestos PI Trust Distribution Procedures. Any amendment proposed by the Asbestos PI Trust Advisory Committee or the Future Claimants' Representative shall remain subject to Section 8.3 of the Asbestos PI Trust Agreement.

8.2 Severability. Should any provision contained in these Asbestos PI Trust Distribution Procedures be determined to be unenforceable, such determination shall in no way limit or affect the enforceability and operative effect of any and all other provisions of these Asbestos PI Trust Distribution Procedures. Should any provision contained in these Asbestos PI Trust Distribution Procedures be determined to be inconsistent with or contrary to Leslie Controls' obligations to any insurance company providing insurance coverage to Leslie Controls in respect of claims for personal injury based on exposure to an asbestos-containing product, or to conduct that exposed the claimant to an asbestos-containing product, for which Leslie Controls has legal responsibility or products containing asbestos for which Leslie Controls has legal responsibility, the Asbestos PI Trust, with the consent of the Asbestos PI Trust Advisory Committee and the Future Claimants' Representative, may amend these Asbestos PI Trust Distribution Procedures and/or the Asbestos PI Trust Agreement to make the provisions of either or both documents consistent with the duties and obligations of Leslie Controls to said insurance company.

8.3 Governing Law. Except for purposes of determining the liquidated value of any Asbestos PI Claim, administration of these Asbestos PI Trust Distribution Procedures shall be governed by, and construed in accordance with, the laws of the State of Delaware. The law governing the liquidation of Asbestos PI Claims in the case of Individual Review, mediation, arbitration or litigation in the tort system shall be the law of the Claimant's Jurisdiction as described in Section 5.2 (b)(2) above.

8.4 Administration of Asbestos PI Trust Assets with Other Comparable Trusts. In order to efficiently administer the Asbestos PI Trust Assets, the Asbestos PI Trustee may determine, with the consent of the Asbestos PI Trust Advisory Committee and the Future

Claimants' Representative, to provide for the administration of the Asbestos PI Trust Assets and/or these Asbestos PI Trust Distribution Procedures by or in conjunction with another trust or trusts established under Section 524(g) of the Bankruptcy Code, provided, however, that appropriate accounting, trust and other procedures shall be adopted and followed to ensure that the Asbestos PI Trust's *res* is maintained separate and segregated from any other trust's assets or *res* and the Asbestos PI Trust's value can be separately ascertained at all appropriate times.

IN THE UNITED STATES BANKRUPTCY COURT
FOR THE DISTRICT OF DELAWARE

In re: MALLINCKRODT PLC, *et al.*,[1] Debtors.	Chapter 11 Case No. 20-12522 (JTD) (Jointly Administered)
MALLINCKRODT PLC, *et al.*, Plaintiffs, v. State of Connecticut, *et al.*,[2] Defendants.	Adv. Pro. No. 20-50850 (JTD) **Re: Adv. D.I. 184**

MEMORANDUM ORDER

Debtors filed this Adversary Proceeding seeking a preliminary injunction extending the automatic stay to certain actions filed in various state and federal courts against the Debtors and certain third parties. [Adv. D.I. 1, 2, 16]. The actions included one brought by the Canadian Elevator Industry Pension Trust Fund (the "Trust") against the Debtors and certain current and former officers and directors of the Debtors. The Trust opposed the injunction. [Adv. D.I. 104]. Following a three-day hearing, I issued an oral ruling granting the preliminary injunction on November 23, 2020. [Adv. D.I. 168]. An order giving effect to the ruling was entered on December 4, 2020. [Adv. D.I. 180]. The Trust filed a Motion for Reconsideration (the

[1] A complete list of the Debtors in these chapter 11 cases may be obtained on the website of the Debtors' claims and noticing agent at http://restructuring.primeclerk.com/Mallinckrodt. The Debtors' mailing address is 675 McDonnell Blvd., Hazelwood, Missouri 63042.

[2] A complete list of the Defendants is set forth in the caption of the Debtors' *Amended Adversary Complaint for Injunctive Relief Pursuant to 11 U.S.C. § 105* [Adv. D.I. 15] ("Amended Complaint") and in Exhibits 1 and 2 thereto.

"Motion") on December 14, 2020 asserting that the Debtors had taken inconsistent positions regarding certain director and officer insurance policies (the "D&O Policies") and, therefore, the injunction was based upon a misapprehension of a material fact. [Adv. D.I. 184]. In the event the Motion is denied, the Trust seeks clarification that the preliminary injunction period began to run on November 23, 2020 rather than December 4, 2020 when the order was entered on the docket. [*Id*.]. For the reasons detailed below the Motion is denied. In addition, the injunction period began to run upon entry of the order, not the oral ruling.

JURISDICTION

The Court has subject matter jurisdiction over this adversary proceeding pursuant to 28 U.S.C. § 1334(b). This matter is a core proceeding pursuant to 28 U.S.C. § 157(b)(2). Venue is proper pursuant to 28 U.S.C. § 1409(a).

BACKGROUND

On October 12, 2020, the Debtors filed voluntary chapter 11 petitions in this Court. [D.I. 1]. Simultaneously, the Debtors commenced this adversary proceeding seeking a preliminary injunction extending the automatic stay to certain government lawsuits. [Adv. D.I. 2 at ¶1]. On October 22, 2020, the Debtors filed a Supplemental Motion also seeking a preliminary injunction extending the automatic stay to non-debtor entities and individuals who are co-defendants with the Debtors in certain actions. [Adv. D.I. 16 at ¶1]. The Supplement Motion included *Strougo v. Mallinckrodt plc, et al.*, No. 20-10100 (D.N.J.). The Trust opposed the injunction through a letter filed on the docket [Adv. D.I. 104] which I treated as an objection and addressed in my November 23, 2020 ruling. [Adv. D.I. 168 at 43:8-12].

A hearing on the motions for preliminary injunctions was held on November 16, 17, and 18, 2020. After taking the matter under advisement, I issued an oral ruling granting the

preliminary injunction on November 23, 2020, overruling all objections. [*Id*. at 43:8-12, 44:6-10]. The order giving effect to the ruling was entered on the docket on December 4, 2020. [Adv. D.I. 180]. The Trust filed this Motion on December 14, 2020. [Adv. D.I. 184]. The Debtors responded, opposing the Motion [Adv. D.I. 192] and the Trust filed a reply in further support. [Adv. D.I. 193].

STANDARD OF REVIEW

The Trust brings this Motion for Reconsideration pursuant to the Federal Rules of Bankruptcy Procedure 9023 and 9024 which incorporate the Federal Rules of Civil Procedure 59 and 60 by reference. Fed. R. Bankr. P. 9023, 9024. Since the Motion is styled as a motion for reconsideration, I will analyze the Motion as one under Rules 9023 and 59.

"A motion for reconsideration under Rule 9023 may be granted where (i) there has been an intervening change in controlling law; (ii) new evidence has become available; or (iii) there is a need to prevent manifest injustice or to correct a clear error of fact or law." *In re Energy Future Holdings Corp.*, 575 B.R. 616, 628 (Bankr. D. Del. 2017). To support an order for reconsideration there must be a "finding that the error is plain and indisputable...amount[ing] to a complete disregard of the controlling law or the credible evidence in the record." *Id*. at 629 (alteration in original) (citation omitted).

DISCUSSION

The Trust alleges that the Debtors presented facts that were "incomplete and confusing" and my reliance on such facts resulted in a clear error. [Adv. D.I. 185 at 7, 9]. They assert that the preliminary injunction was based solely on a finding that the D&O Policies are property of the estate and that continuation of the *Strougo* action would deplete those assets. [*Id*. at 7]. They argue that this determination is incorrect because the Debtors' officers and directors asserted in a

separate filing that the proceeds of the D&O Policies are not property of the estate and that inconsistent treatment of the D&O Policies is irreconcilable. [*Id*. at 8].

The Trust's argument fails on two fronts. First, the allegedly inconsistent treatment of the D&O Policies is reconcilable. I granted the limited motion of the directors and officers to access the D&O Policies "solely to the extend necessary to permit the underwriters to pay and/or to advance the *defense costs* up to the amount of $500,138.55 incurred by the directors and officers in connection with the *Strougo* Action before the date of this Order." [D.I. 895 at ¶2]. Nothing in the order states or implies that the D&O Policies or their proceeds are not property of the estate or that depletion of them would not cause irreparable harm. Rather, the order is offering limited relief while leaving the stay primarily in place. The Trust is merely attempting to rehash its argument that the proceeds of the D&O policy are not property of the estates and, therefore, cannot support the preliminary injunction. However, I considered and rejected this argument, and it is not proper grounds for a motion for reconsideration.

Second, even if I were to accept that my findings regarding the D&O Policies were erroneous, the Trust fails to allege that any of the other independent grounds upon which the preliminary injunction rests should likewise be set aside. The Trust asserts that I did not clearly state any grounds for granting the preliminary injunction as it applies to the *Strougo* action other than the depletion of the D&O Policies. [Adv. D.I. 193 at 6]. To the contrary, I explicitly ruled:

> "[As] to the Strougo securities action…the debtors argue that there would still be some distraction to management in dealing with the motion if it goes forward. Indeed, several senior members of management are the third parties to that litigation. But there are no guarantees when the District Court might decide the motion to dismiss, and once decided, the debtors would be forced to come back to this Court to seek a stay of the action if it was appealed or to stop discovery from going forward if it was not, causing further distraction and cost to the estate in seeking a second injunction. Moreover, if the case proceeded only against the non-debtor defendants, issues of collateral estoppel, record taint, indemnification, and depletion of insurance proceeds to which the debtor is a co-insured with the non-

> debtors would create further issues of irreparable harm to the estates. Therefore, I agree with the debtors and overrule the Strougo objection."

[Adv. D.I. 168 at 55:6; 56:6-22]. Since the preliminary injunction was based on multiple, independent grounds, the Trust failed to show that granting the Motion on a singular issue (the D&O Policies) would affect the ultimate outcome or prevent manifest injustice.

Turning to the question of when the period of the preliminary injunction began to run, I find that it began upon entry of the order, not the oral ruling. Federal Rules of Civil Procedure 58 and 65, made applicable to these proceedings through Federal Rules of Bankruptcy Procedure 7058 and 7065, govern the procedural entry of an order for a preliminary injunction. An order granting a preliminary injunction must be set out in writing and entered on the docket to take effect. Fed. R. Civ. Pro. 65(d), 58(c). For this reason, I reject the Trust's contention that the injunction period began before the entry of the order on December 4, 2020.[3]

CONCLUSION

The issue raised by the Trust in the Motion for Reconsideration does not support a finding of clear error of law or fact nor a finding of manifest injustice as is necessary to grant the Trust's Motion. Therefore, the Trust's Motion for Reconsideration is denied. In addition, the injunction period began to run upon entry of the order, not the oral ruling.

SO ORDERED.

Dated: January 27, 2021

JOHN T. DORSEY, U.S.B.J.

[3] Ironically, if I accepted the Trust's position about the effective date of the preliminary injunction, then this Motion would be untimely under Federal Rules of Bankruptcy Procedure 9023 as it was filed more than 14 days after the oral ruling.

Exhibit 30

NOTICE: 11 U.S.C. § 1125(b) PROHIBITS SOLICITATION OF AN ACCEPTANCE OR REJECTION OF A PLAN OF REORGANIZATION IN A PENDING BANKRUPTCY CASE UNLESS A COPY OF THE PLAN OF REORGANIZATION OR A SUMMARY THEREOF IS ACCOMPANIED OR PRECEDED BY A COPY OF A DISCLOSURE STATEMENT APPROVED BY THE BANKRUPTCY COURT. THIS PROPOSED DISCLOSURE STATEMENT HAS NOT YET BEEN APPROVED BY THE BANKRUPTCY COURT AND, THEREFORE, THE FILING AND DISSEMINATION OF THIS PROPOSED DISCLOSURE STATEMENT IS NOT INTENDED TO BE, NOR SHOULD IT BE CONSTRUED AS, AN AUTHORIZED SOLICITATION PURSUANT TO 11 U.S.C. § 1125 AND RULE 3017 OF THE FEDERAL RULES OF BANKRUPTCY PROCEDURE. NO SUCH SOLICITATION WILL BE MADE EXCEPT AS AUTHORIZED PURSUANT TO SUCH LAW AND RULES. THIS PROPOSED DISCLOSURE STATEMENT IS BEING SUBMITTED FOR APPROVAL ONLY.

THIS SOLICITATION IS BEING CONDUCTED NOT ONLY WITH RESPECT TO THE THREE DEBTORS IN THE BELOW-CAPTIONED BANKRUPTCY CASE, BUT ALSO BY COLTEC INDUSTRIES INC WITH RESPECT TO A NEW ENTITY NAMED OLDCO, LLC (WHICH WILL BE A SUCCESSOR BY MERGER TO COLTEC INDUSTRIES INC) PRIOR TO ITS FILING OF A VOLUNTARY PETITION UNDER CHAPTER 11 OF TITLE 11 OF THE UNITED STATES CODE. BECAUSE NO CHAPTER 11 CASE HAS YET BEEN COMMENCED FOR OLDCO, LLC, THIS DISCLOSURE STATEMENT HAS NOT BEEN APPROVED BY THE BANKRUPTCY COURT AS CONTAINING "ADEQUATE INFORMATION" WITHIN THE MEANING OF SECTION 1125(a) OF THE BANKRUPTCY CODE WITH RESPECT TO OLDCO, LLC. FOLLOWING COMMENCEMENT OF ITS CHAPTER 11 CASE, OLDCO, LLC EXPECTS TO PROMPTLY SEEK AN ORDER OF THE BANKRUPTCY COURT APPROVING THIS DISCLOSURE STATEMENT AND THE SOLICITATION OF VOTES WITH RESPECT TO OLDCO, LLC. THE ASSETS AND LIABILITIES OF OLDCO, LLC AND THE TRANSACTIONS THAT WILL CREATE OLDCO, LLC ARE DESCRIBED IN FULL IN THIS DISCLOSURE STATEMENT.

SUMMARY OF THE PLAN OF REORGANIZATION AND THE CLAIMS RESOLUTION PROCEDURES

A. What Is the Plan and How Did It Come to Be?

Garlock Sealing Technologies LLC, Coltec Industries Inc, the Official Committee of Asbestos Personal Injury Claimants, and the Future Asbestos Claimants' Representative, along with other Plan Proponents, have reached a comprehensive settlement permanently resolving present and future asbestos personal injury claims (the "**Comprehensive Settlement**"). The Comprehensive Settlement is incorporated into the Modified Joint Plan of Reorganization of Garlock Sealing Technologies LLC, et al. and OldCo, LLC, proposed successor by merger to Coltec Industries Inc (the "**Plan**"), attached as **Exhibit 1** to this Disclosure Statement. The Plan Proponents are soliciting votes for acceptance of the Plan. *Please refer to Article 1 of the Plan for definitions of terms used but not defined in this Disclosure Statement*. Please note that the description of the Plan in this Disclosure Statement is provided for summary purposes only. If there is any inconsistency between the Plan and the descriptions of the Plan in the Disclosure Statement, the terms of the Plan will govern. You should read the entire Plan and its exhibits in order to understand its terms.

The Plan Proponents are the following parties:

- Garlock Sealing Technologies LLC ("**GST**"), Garrison Litigation Management Group, Ltd. ("**Garrison**"), and The Anchor Packing Company ("**Anchor**"), who are debtors in the above-captioned bankruptcy case.

- OldCo, LLC ("**OldCo**"), a proposed successor by merger to Coltec Industries Inc, parent of GST and Garrison. OldCo will file (but has not yet filed) a Chapter 11 Case as an integral part of the Comprehensive Settlement. That filing is contingent upon acceptance of the Plan by Asbestos Claimants, as described more fully below. As a result, certain holders of Claims against Coltec Industries Inc are being solicited through this Disclosure Statement prior to OldCo's Chapter 11 filing. Also prior to such Chapter 11 filing, Coltec Industries Inc will undergo the "**Coltec Restructuring**," a corporate restructuring, described more fully below, which is an integral part of the settlement embodied in the Plan and is also contingent upon acceptance of the Plan by Asbestos Claimants. For the sake of convenience, the term "**Coltec**" in this Disclosure Statement and the Plan refers to Coltec Industries Inc prior to the Coltec Restructuring and refers to OldCo subsequent to the Coltec Restructuring. "**Debtors**" refers to GST, Garrison, Anchor, and OldCo and "**Existing Debtors**" refers to GST, Garrison, and Anchor (but not Coltec).

- The Official Committee of Asbestos Personal Injury Claimants ("**Committee**"), which is the official committee of creditors appointed to represent the interests of holders of current GST Asbestos Claims in the above-captioned bankruptcy case.

- The Ad Hoc Coltec Asbestos Claimants Committee ("**Ad Hoc Coltec Committee**"), which is the *ad hoc* committee for persons holding present Coltec Asbestos Claims, and which negotiated on behalf of Coltec Asbestos Claimants in the negotiations that led to the Plan. Following OldCo's Chapter 11 filing, one or more Coltec Asbestos Claimants whose

attorneys participated on the Ad Hoc Coltec Committee will be appointed to the Committee.

- The Future Asbestos Claimants' Representative ("**FCR**"), who is Joseph W. Grier, III, appointed in the above-captioned bankruptcy case as the legal representative to represent the interests of, appear on behalf of, and be a fiduciary to the holders of future GST Asbestos Claims.

- The Ad Hoc Coltec Future Claimants' Representative, also Mr. Grier, who served as the representative of holders of future Coltec Asbestos Claims during the negotiations that led to the Plan. The Plan Proponents will support Mr. Grier's official appointment as representative for holders of future Coltec Asbestos Claims in OldCo's Chapter 11 Case, and "FCR" in this Disclosure Statement refers to Mr. Grier in both capacities.

The Plan will result in a permanent resolution of all asbestos personal injury claims against GST, Garrison, and Coltec (defined in the Plan as "**GST Asbestos Claims**" and "**Coltec Asbestos Claims**," and together, "**Asbestos Claims**") other than certain Foreign Asbestos Claims as described below. The resolved Asbestos Claims are referred to as "**Channeled Asbestos Claims**" in this Disclosure Statement. The Plan will establish a trust under Section 524(g) of the Bankruptcy Code (as defined in the Plan, the "**Asbestos Trust**," also referred to as the "**Settlement Facility**") to process and pay Channeled Asbestos Claims pursuant to Claims Resolution Procedures ("**CRP**") attached as Exhibit B to the Plan. In exchange for funding the Asbestos Trust, GST, Coltec, Garrison, and certain additional parties (defined as "**Asbestos Protected Parties**") will be protected by an injunction (defined in the Plan as the "**Asbestos Channeling Injunction**") that will prohibit assertion of Channeled Asbestos Claims against those parties. The Asbestos Protected Parties are described more fully below.

The effect of "channeling" Asbestos Claims to the Trust through the Asbestos Channeling Injunction is that they may only be pursued through, and paid from, the Asbestos Trust. Channeled Asbestos Claims may not be asserted against the Reorganized Debtors (*i.e.*, Reorganized GST, Reorganized Garrison, and Reorganized Coltec) or any of the other Asbestos Protected Parties.

The Asbestos Trust will be funded with cash and securities totaling $480 million, consisting principally of (a) $400 million in cash delivered on the day immediately preceding the Effective Date, (b) an option to acquire EnPro Industries, Inc. stock having a value of $20 million, exercisable one year after the Effective Date; and (c) $60 million in cash delivered to the Trust within one year of the Effective Date. The Asbestos Trust will be administered by a Trustee, Mr. Lewis R. Sifford. The Asbestos Trust will be solely responsible for paying Channeled Asbestos Claims, as well as the expenses of the Asbestos Trust.

Holders of Asbestos Claims in Class 5 are the only claimants whose rights are impaired by the Plan. Accordingly, Class 5 is the only Class of Claims that will vote on the Plan. The rights of

all other Classes of Claims are not impaired by the Plan, and holders of such Claims will not vote on the Plan.[2]

As described in detail below, the Plan follows almost six years of vigorously contested litigation and is the result of months of negotiations among the Plan Proponents, which resulted in a Term Sheet for Permanent Resolution of All Present and Future GST Asbestos Claims and Coltec Asbestos Claims on March 17, 2016 (the "**Term Sheet**," attached as **Exhibit 2** to this Disclosure Statement, without its exhibits). In addition to the Plan Proponents, the ultimate parent of the Debtors, EnPro Industries, Inc. ("**EnPro**") is a party to the Term Sheet. The Plan supersedes the Second Amended Plan of Reorganization (the "**Second Amended Plan**"), which was proposed by GST, Garrison, and Anchor and supported by the FCR, but was opposed by the Committee and rejected by the class of holders of current GST Asbestos Claims. A hearing previously scheduled for June 2016 to consider confirmation of the Second Amended Plan over the rejection by the class of current holders of GST Asbestos Claims will not take place since the Second Amended Plan has been superseded by the Plan described in this Disclosure Statement.

From the perspective of holders of Asbestos Claims, the Plan improves upon the Second Amended Plan in numerous respects. The Plan provides $480 million in guaranteed funding for Asbestos Claims, whereas the Second Amended Plan provided only $327.5 million in guaranteed funding for Asbestos Claims. The Second Amended Plan also provided $30 million for resolving Asbestos Claims by litigation, as well as $132 million (nominal) in contingent contributions for such litigation. But claimants who chose to litigate would only be paid if they obtained a judgment, litigation costs would also have been paid from the litigation fund, and the $132 million would only have become available as necessary over a 40-year period according to a fixed schedule. The $480 million in the Asbestos Trust under the Plan will also pay Coltec Asbestos Claims, which would not have been paid under the Second Amended Plan. In addition, more claimants are eligible for payments under the Plan than under the Second Amended Plan because, for example, the Plan provides for settlement offers and payments to claimants alleging certain cancers other than mesothelioma, lung cancer, and laryngeal cancer, and also pays claimants alleging any one of three degrees of asbestosis (severe asbestosis, disabling asbestosis, and non-disabling asbestosis). Debtors also support the Plan, which will bring certainty and finality to their responsibility for Asbestos Claims, and will avoid further protracted and costly litigation in the Garlock bankruptcy case.

If the Plan is not confirmed, all parties have reserved all of their rights to pursue alternative courses of action in the Chapter 11 Cases. Accordingly, if the Plan is not confirmed, Debtors might seek confirmation of the Second Amended Plan over the objection of current Asbestos Claimants. Alternatively, it may not be possible to confirm a plan of reorganization, in which case GST might be liquidated (as explained in detail below). The Plan Proponents believe that the Plan is better for Asbestos Claimants than any of these options.

[2] In addition, Class 9 GST/Garrison Equity Interests are impaired and will vote on the Plan. They are held by Coltec and will accept the Plan.

For all of these reasons, **the Plan Proponents, including the Committee and the FCR as representatives of Asbestos Claimant constituencies, strongly recommend that Asbestos Claimants in Class 5 vote to accept the Plan.**

B. How Will the Asbestos Trust Be Funded?

The Asbestos Trust will be mostly funded on the Plan's Effective Date and fully funded within one year after that date, with assets worth $480 million as a result of the following contributions:

- On the day immediately preceding the Effective Date:
    - GST or Garrison will transfer $370 million in Cash to the Asbestos Trust;
    - Coltec will transfer $30 million in Cash to the Asbestos Trust; and
    - Coltec, EnPro, and the Asbestos Trust will enter into an Option and Registration Rights Agreement granting an Option that will entitle the Asbestos Trust to purchase for one dollar, on or after the first anniversary of the Effective Date, the number of shares of EnPro common stock having a trading value equal to $20 million. The Option will give Debtors the right to call the Option for $20 million in cash on any date prior to the first anniversary of the Effective Date and will give the Asbestos Trust the right to put the Option for $20 million in cash on the day prior to the first anniversary of the Effective Date. Other details of this Option are described below.
- On or before the first anniversary of the Effective Date, Coltec will transfer $60 million in Cash to the Asbestos Trust (the "**Deferred Contribution**").

The Deferred Contribution will be guaranteed by EnPro and will be secured by a first-priority lien on or security interest in 50.1% of the GST/Garrison Equity Interests, which will be released once the Deferred Contribution has been paid in full.

In addition to these contributions, as described in more detail below, the Asbestos Trust may become entitled to additional consideration if Coltec's insurance recoveries exceed a certain level.

C. How Will Asbestos Claimants Receive Distributions from the Asbestos Trust?

The Asbestos Trust will process and pay Channeled Asbestos Claims (if they are entitled to payment) under procedures and criteria contained in the CRP referenced above. The purpose of the CRP is to generate settlement offers that are fair, expeditious and properly reflective of the injuries allegedly caused by exposure to asbestos fibers or dust from Coltec Products or GST Products, and to ensure that over the life of the Asbestos Trust, present and future Asbestos Claims are treated fairly and equitably in all matters, including the payment of settlement amounts that are as equal as possible to other payments for similarly situated claimants in the same disease category. Pursuant

to the Asbestos Channeling Injunction and related Plan provisions, the Asbestos Trust will assume responsibility for Channeled Asbestos Claims, and the Debtors, Reorganized Debtors, and other Asbestos Protected Parties will have no further responsibility for Channeled Asbestos Claims and will be protected from such claims.

The CRP were the subject of extensive negotiation by the Plan Proponents during the period that led to execution of the Term Sheet. The CRP contain a full description of the criteria and procedures the Asbestos Trust will use to pay claims. You should read the entire CRP in order to understand all of these requirements. Below is a summary of the key provisions of the CRP that will be of greatest relevance to most Asbestos Claimants and the settlement offers they will receive from the Asbestos Trust.

Asbestos Claimants may submit a Claim for Expedited Claim Review or, if the Claim is an Extraordinary Claim, Extraordinary Claim Review. A Claim will be eligible for Extraordinary Claim Review only under special circumstances described below, and will also be subject to additional verification and documentation requirements.

1. Coltec/GST Product Contact

As an initial matter, to be eligible for any settlement offer, the Asbestos Claimant must demonstrate Coltec/GST Product Contact, defined as some combination of Direct GST Product Contact, Direct Coltec Product Contact, Bystander Coltec/GST Product Contact, or Secondary Coltec/GST Product Contact. These definitions require specific kinds of contact with Coltec products or GST products that contained asbestos or asbestos-containing components. The activities that qualify as Coltec/GST Product Contact are defined in the CRP. For example, Direct GST Product Contact means the hands-on performance of one of the following workplace activities on a regular basis: (a) grinding, scraping, or wire-brushing of GST asbestos gaskets in the removal process; (b) cutting individual gaskets from GST asbestos sheet material; or (c) cutting or removal of GST asbestos packing. A claimant may present only one claim on account of Coltec/GST Product Contact, regardless of whether the claimant had contact with Coltec products, GST products, or both.

Claimants alleging diseases other than mesothelioma will have to demonstrate at least six months of Coltec/GST Product Contact. Mesothelioma claimants are not required to demonstrate six months of Coltec/GST Product Contact, but claimants who do not will receive lower offers than claimants who do, as described below. For purposes of the six-month duration requirement, Coltec/GST Product Contact while confined to a ship at sea for fifty (50) days will be deemed equivalent to six months of total Coltec/GST Product Contact. Claimants who only experienced Secondary Coltec/GST Product Contact will receive a settlement offer only if diagnosed with malignant mesothelioma. Claimants who experienced no Coltec/GST Product Contact, as defined in the CRP, will not receive a settlement offer.

2. Expedited Claim Review

Settlement offers in Expedited Claim Review will be calculated objectively, based on facts about the Asbestos Claimant and the injured party upon whose alleged injury the Claim is based (the "**Injured Party**").

The calculation of an Asbestos Claimant's Expedited Claim Review settlement offer will begin with Maximum Settlement Values that are based on the Asbestos Claimant's occupation and industry at the time he or she experienced GST Product Contact. These occupations and industries are divided into five Contact Groups, Groups 1-5, defined based on the assumed potential frequency and intensity of contact with Coltec Products and/or GST Products in the occupation and industry. The classification of occupation and industry combinations into Contact Groups is contained in Appendix IV to the CRP.

Each Contact Group is assigned a Maximum Settlement Value. As described in more detail below, subject to the requirements of the Term Sheet and the CRP, the Plan Proponents have agreed on preliminary Maximum Settlement Values for Disclosure Statement purposes, but the Trustee will have ultimate authority to set Maximum Settlement Values, and moreover, will have authority to change them over time pursuant to the CRP.

An Asbestos Claimant's Expedited Claim Review offer will be some percentage of the Maximum Settlement Value, as determined by the Claimant's disease and medical information, demographic characteristics, jurisdiction (in the case of Present Claims), economic loss, law firm (in the case of Present Claims), and duration of activity or activities in which Coltec/GST Product Contact occurred.

a. Medical Information Factor

The following diseases are compensated under the CRP: malignant mesothelioma, asbestos-related lung cancer, severe asbestosis, asbestos-related other cancer (colo-rectal, laryngeal, esophageal, pharyngeal, or stomach cancer), disabling asbestosis, and non-disabling asbestosis. Each of the diseases will be assigned a Medical Information Factor, with malignant mesothelioma assigned a factor of 1 and the other diseases assigned lower factors. The higher the Medical Information Factor, the higher the percentage of the Maximum Settlement Value the Claimant will receive. As described in more detail below, subject to the requirements of the Term Sheet and the CRP, the Plan Proponents have agreed on preliminary Medical Information Factors for Disclosure Statement purposes, but the Trustee will have ultimate authority over these factors and the ability to change them over time.

Appendix I to the CRP contains the detailed requirements for each disease, and Claimants who do not meet those criteria will not receive a settlement offer. Section 6.6 of the CRP also contains general requirements concerning the reliability and credibility of medical evidence.

Claimants alleging a non-malignant condition will not be required to release subsequent malignant claims against the Asbestos Trust, and may assert those subsequent Claims against the Asbestos Trust in accordance with the CRP.

b. Age Factor

Claims based on younger Injured Parties will receive higher settlement offers than Claims based on older Injured Parties. The Age Factor will range between 0.7 and 1.4, as described in the CRP, with higher Age Factors receiving higher percentages of the Maximum Settlement Value for the Contact Group.

c. Life Status Factor

A Claim based on an Injured Party who is alive at the time the Claim is filed will receive a Life Status Factor of 1.3, and otherwise, a Life Status Factor of 1.

d. Dependents Factor

If the Injured Party does not have a spouse or other dependents at the time the Claim is filed, the Claim will be assigned a Dependents Factor of 0.8. If the Injured Party has a spouse but no other dependents, the Dependents Factor will be 1, and if the Injured Party has dependents other than a spouse who derive at least one-half of their financial support from the Injured Party, the Dependents Factor will be 1.4.

e. Economic Loss Factor

The Claimant may, but need not, document the Injured Party's economic loss related to loss of earnings, pension, social security, home services, medical expenses, and funerary expenses. The Economic Loss Factor will range between 1 and 1.4, and the calculation is described in the CRP.

f. Duration of Coltec/GST Product Contact Factor

The Duration Factor will be based on the Injured Party's time performing the activity or activities in which the Injured Party experienced Coltec/GST Product Contact, and will range between 0.8 and 1.2, with maximum credit coming at eight years or more of the activity or activities. For purposes of this factor, time while confined to a ship at sea for 100 days will be treated as the equivalent of one year.

g. Jurisdiction Factor and Law Firm Factor

Present Claimants (*i.e.*, those whose Claims are based on diagnoses dated on or before the Effective Date) who believe that their Jurisdiction (as defined in the CRP) justifies a higher settlement offer from the Asbestos Trust because of the values of historical settlements and verdicts in such Jurisdiction against the Debtors will have an opportunity to provide evidence to that effect to the Asbestos Trust. In addition, Present Claimants who believe that the identity of the law firm representing them justifies a higher settlement offer from the Asbestos Trust because the law firm obtained above-average pre-bankruptcy settlements and verdicts for similarly situated claims against the Debtors will have the opportunity to provide evidence to that effect to the Asbestos Trust. In computing the amount of a settlement offer, the Jurisdiction Factor and the Law Firm Factor will each range between 1 and 1.2, depending on whether the Asbestos Trustee is convinced that data concerning the Jurisdiction or law firm warrants an upward adjustment. For Future Claimants (*i.e.*, those whose Claims are based on diagnoses dated after the Effective Date), the Jurisdiction Factor and Law Firm Factor will be deemed to be 1.

h. Calculation of Expedited Claim Review offer

The Asbestos Trust will calculate the Expedited Claim Review offer by multiplying the Medical Information Factor, Age Factor, Life Status Factor, Dependents Factor, Economic Loss

Factor, Duration of Coltec/GST Product Contact Factor, Jurisdiction Factor, and Law Firm Factor; calculating the resulting total as a percentage of what the maximum product of those factors would be; and then multiplying that percentage by the appropriate Maximum Settlement Value. If the Injured Party had Coltec/GST Product Contact in more than one Contact Group, the Asbestos Trust will calculate a separate settlement offer based on the Injured Party's time in each Contact Group, and will offer the Claimant the highest settlement offer yielded by the calculation. A Claimant alleging mesothelioma who has less than six months of Coltec/GST Product Contact will receive a proportionately reduced settlement offer.

3. Extraordinary Claim Review

A Claim is eligible for Extraordinary Claim Review only if it meets all other requirements in the CRP and pertains to an Injured Party alleging a malignant disease (*i.e.*, malignant mesothelioma, asbestos-related lung cancer, or other asbestos-related cancer) who credibly documents (a) that the Injured Party had a history of extraordinary Coltec/GST Product Contact with little or no exposure to asbestos from other entities' products, and (b) that no substantial recovery has been obtained, or is likely to be obtained, from any source other than the Asbestos Trust. Few, if any, Asbestos Claimants are expected to meet these requirements. The Trustee will decide whether a Claim is an Extraordinary Claim in the first instance, and any appeal will be to a special Extraordinary Claims Panel, whose decision will not be reviewable.

The maximum potential settlement offer for an Extraordinary Claim will be five times the Expedited Claim Review settlement offer. The Trustee will have complete and unreviewable discretion to determine what percentage of this maximum value the Asbestos Trust will offer for a given Extraordinary Claim, taking into consideration the number of companies that contributed to the Injured Party's exposure to asbestos-containing products.

Claimants electing Extraordinary Claim Review will have to submit additional information and documentation beyond what is required for Expedited Review. With respect to all claims asserted against other entities (including other trusts), the Claimant will be required to identify the entity, the date the claim was made, and the amounts of all payments received or to be received from the entity, and must submit copies of any documents submitted to or served upon the entity containing information regarding the Injured Party's contact with asbestos or asbestos-containing products. The Claimant will also have to deliver a continuing authorization to the Asbestos Trust authorizing all Trusts to release the Claimant's submissions and disclose the status of any claim. These requirements are to ensure that the Claimant is in fact an Extraordinary Claimant entitled to a higher recovery. Finally, the Claimant's attorney (or the Claimant, if *pro se*) must certify that he or she has fully investigated the injuries upon which the Claim is based and that no good-faith basis exists to bring a claim against any entity not identified by the Claimant.

4. Maximum Settlement Values and Medical Information Factors

As described above, the settlement offers Asbestos Claimants will get under both Expedited Claim Review and Extraordinary Claim Review depend on the Maximum Settlement Values and Medical Information Factors. Subject to the requirements of the Term Sheet and the CRP, the parties have agreed on preliminary Maximum Settlement Values and Medical Information Factors for Disclosure Statement purposes:

Contact Group	Maximum Settlement Values
Group 1	$148,000
Group 2	$44,400
Group 3	$18,500
Group 4	$9,250
Group 5	$740

Disease	Medical Information Factor
Mesothelioma	1.0
Asbestos-Related Lung Cancer	0.25
Severe Asbestosis	0.25
Asbestos-Related Other Cancer	0.1
Disabling Asbestosis	0.03
Non-Disabling Asbestosis	0.02

As noted above, the Trustee will ultimately determine the Maximum Settlement Values and Medical Information Factors. Section 2.3 describes the factors the Trustee is to consider, including all the anticipated Claim payments and expenses of the Asbestos Trust. The Trustee will also determine each year the Maximum Annual Payment, considering many of the same factors, and the Trust's total payments to Claimants cannot exceed the Maximum Annual Payment in that year.

The Trustee is permitted to lower the Maximum Annual Payment and Maximum Settlement Values if in the course of the year it appears there is a risk of Future Claimants not receiving settlement offers equal to those of similarly situated Present Claimants. The Trustee more generally will have the authority to increase or decrease Maximum Settlement Values proportionately over time to ensure equal treatment of similarly situated Claimants (though any increase will require consent by the FCR and Claimants Advisory Committee, described below). Finally, the Trustee will adjust Maximum Settlement Values upward each year to account for inflation.

5. Trust Claims Payment Ratio

The calculation of Maximum Settlement Values and Medical Information Factors will also depend on the Trust Claims Payment Ratio, which governs the allocation of the Asbestos Trust's assets among the diseases compensated. The Trust Claims Payment Ratio is 85% for Claims based on malignant mesothelioma, 10% for Claims based on lung cancer, and 5% for Claims based on other cancer, severe asbestosis, disabling asbestosis, and non-disabling asbestosis. The Trustee will apply the Trust Claims Payment Ratio to the Maximum Annual Payment for each year to determine the funds available to compensate Claims in each disease category. Funds not used in each category in each year will roll over to that category for subsequent years, and if there are insufficient funds in any category in any year, the claims will be rolled over to the following year.

The Trustee may not amend the Claims Payment Ratio for five years. After that time, the Trustee may amend the Claims Payment Ratio (or roll funds from one category to another) only to prevent manifest injustice, but a larger-than-predicted number of Claims in Categories B or C will not constitute manifest injustice.

6. Foreign Asbestos Claims

Foreign Asbestos Claims—defined as Claims based on alleged exposure to asbestos fibers or dust from Coltec Products and/or GST Products that occurred outside the United States and its territories and possessions with respect to Injured Parties who are not United States citizens or permanent residents—generally are not compensable under the CRP. If, however, a Holder of a Foreign Asbestos Claim files a lawsuit in the United States, the Asbestos Trust will process the Claim and, if the Foreign Claimant meets the CRP criteria, will offer $100 if the disease alleged is mesothelioma, $50 if the disease alleged is asbestos-related lung cancer or severe asbestosis, $25 if the disease alleged is asbestos-related other cancer or disabling asbestosis, and $10 if the disease alleged is non-disabling asbestosis. Foreign Asbestos Claims will be in the same category as non-severe asbestosis for purposes of the Claims Payment Ratio. The rights of Holders of Foreign Asbestos Claims to recourse and remedies under applicable foreign law outside the United States (to the extent such rights exist) will be unaffected by the Plan, without prejudice to the Reorganized Debtors' defenses against any such claims. Debtors have never paid, or even received, a Foreign Asbestos Claim from an individual in a court or other tribunal outside of the United States.

As described in more detail in Section 5.3.6 below, the Plan also contemplates a settlement between the Debtors, EnPro, and Garlock of Canada Ltd and the Canadian provincial workers' compensation boards resolving all remedies the Provincial Boards may possess under Canadian law or in the United States under U.S. law against these entities or their Affiliates. Approval of this settlement is a condition to confirmation of the Plan, which is unilaterally waivable by the Debtors.

7. Settled GST Asbestos Claims and Pre-Petition Judgment GST Asbestos Claims

The CRP also contain procedures governing the payment of GST Asbestos Claims that are settled and unpaid ("**Settled GST Asbestos Claims**"), or the subject of judgments ("**Pre-Petition Judgment GST Asbestos Claims**"). Pre-Petition Judgment GST Asbestos Claims must have filed a proof of claim on or before the Asbestos Claims Bar Date (or else obtain relief from the Bankruptcy Court); the Debtors believe there are only two such Claims (listed on Appendix VII to the CRP), both based on the same Injured Party. Moreover, the Asbestos Trust will have the right to appeal those judgments, which will only be paid as judgments if the Asbestos Trust decides not to appeal or the appeal is unsuccessful. The holders of these Claims may, however, pursue the Claims as non-judgment Claims under the CRP.

The Asbestos Trust will pay Settled GST Asbestos Claims that were filed on or before the Settled Claims Bar Date (or that obtain relief from the Bankruptcy Court) and are either not disputed by Debtors or otherwise determined by the Trustee to be subject to enforceable settlement agreements. A list of Claims that the Debtors have identified as potentially eligible for payment as Settled GST Asbestos Claims is attached as Appendix VI to the CRP. Holders of alleged Settled GST Asbestos Claims are also free to submit their Claims as non-settled Claims under the CRP.

Settled GST Asbestos Claims and Pre-Petition Judgment GST Asbestos Claims that are entitled to payment will also be subject to a payment percentage, calculated as described in Section 3.5. In addition, total payments on Settled GST Asbestos Claims are limited to $10 million.

There are no Coltec Asbestos Claims that are settled and unpaid or are the subject of judgments.

8. Indirect Claims

The CRP also provide for payment of Indirect Claims, *i.e.*, claims asserted as third-party indemnification, contribution, subrogation, or similar Claims. The criteria for payment of these Claims are contained in Section 10 of the CRP. Valid Indirect Claims will be subject to the same criteria and payment provisions as other Asbestos Claims, including, where applicable, compliance with (or relief from) the Asbestos Claims Bar Date. It appears that no Indirect Claims were submitted by the Asbestos Claims Bar Date.

9. Claims Processing

In general, the Asbestos Trust will process Claims on a first-in, first-out ("**FIFO**") basis. The CRP contain deadlines by which Asbestos Claims must be filed to be eligible for settlement offers. The Trustee will be responsible for developing claim forms that satisfy the requirements of the CRP. In the event a Claimant accepts a settlement offer made by the Asbestos Trust, the Claimant will be required to execute releases of the Asbestos Trust and other parties, and payment will occur in the order releases are received.

To have Claims processed, Claimants must submit filing fees: (a) $100 for Claims based on malignant mesothelioma, (b) $75 for Claims based on lung cancer, and (c) $50 for Claims based on severe asbestosis, other cancer, disabling asbestosis, or non-disabling asbestosis. The fees will be refunded in full to Claimants who receive settlement offers.

Claimants who do not receive settlement offers under Expedited Claim Review, or who disagree with their settlement offers, will have the opportunity to pursue binding or non-binding arbitration, and if that does not resolve the dispute, to file suit against the Asbestos Trust in the tort system. As noted above, the Trustee's decisions regarding Extraordinary Claim offers will not be reviewable by any court; an Extraordinary Claim Review Panel will be created to hear appeals from any decision by the Trustee that an Asbestos Claim is not an Extraordinary Claim, but the decisions of that panel will be final and unreviewable.

Arbitration awards will be limited to the Maximum Settlement Value for the appropriate Contact Group. Judgments in the tort system will also be limited to the Maximum Settlement Value for the appropriate Contact Group, and punitive damages will not be paid. Any judgment will be paid in installments, with the first installment equal to the Asbestos Trust's final settlement offer or the award in arbitration (whichever is greater) paid according to the FIFO payment queue, and any balance paid in years six (6) through ten (10) following the year of the initial payment, without interest.

Finally, the CRP provide the Trustee with extensive powers to audit Claims and take action in the event of fraudulent filings.

D. How Will the Asbestos Trust Be Administered?

The Asbestos Trust will be administered according to the Trust and Settlement Facility Agreement attached as Exhibit A to the Plan (the "**Trust Agreement**"). The Trust Agreement was also extensively negotiated by the Plan Proponents, and you should review the Trust Agreement itself for a full understanding of all its provisions.

The Trustee will administer the Asbestos Trust, and will be responsible for holding and investing the Asbestos Trust's assets; paying the Asbestos Trust's liabilities and expenses; hiring employees, agents, and experts; and administering the CRP, among other duties.[3] The Trust Agreement contains provisions governing succession and compensation of the Trustee. The Trustee will be entitled to employ attorneys and other professionals.

The Trustee will be advised by a Claimants Advisory Committee ("**CAC**") and the FCR. The CAC will consist of nine members, identified on the signature page of the Trust Agreement attached to the Plan, who are attorneys representing asbestos personal injury claimants, including Asbestos Claimants. The CAC will be responsible for representing the interests of current Asbestos Claimants. The FCR will be Mr. Grier (or any duly appointed successor) and will represent the interests of future Asbestos Claimants. The Trustee is required to consult with the CAC and FCR regarding certain matters and must obtain the consent of the CAC and FCR with respect to other matters, including increasing the Maximum Annual Payment or Maximum Settlement Values, changing the Claims Payment Ratio, or increasing the Medical Information Factors. The Trust Agreement contains provisions governing succession of the CAC and FCR, and compensation of the FCR (the CAC members will not be compensated except for expenses). The CAC and FCR will be entitled to employ attorneys and other professionals, whose fees and expenses will be paid by the Asbestos Trust in accordance with the Asbestos Trust Agreement.

In addition, the Asbestos Trust and the Reorganized Debtors will enter into a Cooperation Agreement pursuant to which the Reorganized Debtors will share certain information relating to Asbestos Claims with the Asbestos Trust in the processing, resolution, and defense of Asbestos Claims. The form of Cooperation Agreement is attached as Exhibit C to the Plan, but the Trustee will have the opportunity to review and propose changes to the Cooperation Agreement before it is executed.

E. How Will Other Classes of Claims and Interests Be Treated?

No classes of Claims or Equity Interests are impaired other than Asbestos Claims (Class 5) and GST/Garrison Equity Interests (Class 9).[4] All other classes are unimpaired, and they will

[3] The Asbestos Trust will also have a separate "Delaware Trustee," a requirement of Delaware law, whose duties will be limited to accepting service of process on behalf of the Asbestos Trust and executing certificates required to be filed under Delaware law.

[4] Bankruptcy Code § 1124 explains the circumstances under which a plan's treatment of a class of claims or equity interests constitutes impairment of those claims or equity interests. Broadly stated, any alteration of a creditor's or equity interest holder's legal rights by a plan constitutes impairment.

not be solicited and will not vote on the Plan. The treatment of Claims other than Asbestos Claims is discussed in more detail below.

Anchor is a dormant company with no assets. Under the Plan, it will be liquidated and dissolved, and holders of Anchor Claims, including holders of asbestos personal injury claims against Anchor, are not expected to recover anything on these Claims.

F. How Will Asbestos Claimants Vote on the Plan?

With respect to Holders of Asbestos Claims in Class 5, the Bankruptcy Code provides that the Asbestos Channeling Injunction may be issued under Section 524(g) of the Bankruptcy Code only if (a) the Holders of the Asbestos Claims to be channeled under the injunction are classified separately under the Plan, and (b) seventy-five percent (75%) in number of the Holders of the Asbestos Claims in that class who actually vote on the Plan vote to accept the Plan.

As described in more detail below, Asbestos Claimants may vote by individual Ballot or Master Ballot, and will be temporarily allowed for voting purposes upon meeting certain criteria. **The *last day* to vote to accept or reject the Plan is December 9, 2016. To be counted, your Ballot must be *actually received* by the Balloting Agent by such date. The *record date* for determining which creditors may vote on the Plan is July 1, 2016.**

G. Disclaimers

This Disclosure Statement contains summaries of certain provisions of the Plan, certain statutory provisions, certain documents related to the Plan, certain events in the Chapter 11 Cases (or events anticipated to occur in Coltec's Chapter 11 Case), and certain financial information. Although the Plan Proponents believe that the Disclosure Statement and related document summaries are fair and accurate, they are qualified to the extent they do not set forth the entire text of the Plan, such documents, or any statutory provisions. The terms of the Plan govern in the event of any inconsistency with this Disclosure Statement. All exhibits to the Disclosure Statement are incorporated into and are a part of this Disclosure Statement as if set forth in full herein. The statements contained in this Disclosure Statement are made as of the date hereof, unless otherwise specified, and the Plan Proponents disclaim any obligation to update any such statements.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995: All forward-looking statements contained herein involve material risks and uncertainties and are subject to change based on numerous factors, including factors that are beyond the Debtors' control. Accordingly, the Debtors' future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. Such factors include, but are not limited to, those described in this Disclosure Statement. Debtors do not undertake to publicly update or revise their forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

Except as otherwise specifically noted, the financial information contained herein has not been audited by a certified public accountant and has not necessarily been prepared in accordance with Generally Accepted Accounting Principles. Although Debtors have

attempted to be accurate in all material respects, the Debtors are unable to warrant or represent that all of the information contained in this Disclosure Statement is without error. No representation concerning the Debtors or the value of the Debtors' assets has been authorized by the Bankruptcy Court other than as set forth in this Disclosure Statement or any other Disclosure Statement approved by the Bankruptcy Court. The Plan Proponents are not responsible for any information, representation, or inducement made to obtain your acceptance, which is other than, or inconsistent with, information contained herein and in the Plan.

For purposes of this Disclosure Statement, the following rules of interpretation shall apply: (i) whenever the words "include," "includes," or "including" are used they shall be deemed to be followed by the words "without limitation," (ii) the words "hereof," "herein," "hereby," and "hereunder" and words of similar import shall refer to this Disclosure Statement as a whole and not to any particular provision, (iii) section and exhibit references are to this Disclosure Statement unless otherwise specified, and (iv) with respect to any distribution under the Plan, "on" a date means on or as soon as reasonably practicable thereafter.

In connection with solicitation of acceptances of this Plan pursuant to Sections 1126(a) and 1126(b) of the Bankruptcy Code, the Plan Proponents are providing a Solicitation Package, consisting of the Disclosure Statement, the enclosures hereto, and a Ballot or Master Ballot, as applicable, to each record holder of Claims and Equity Interests eligible to vote as of the voting record date. This Disclosure Statement is to be used by each such eligible holder solely in connection with its evaluation of the Plan.

Coltec has not yet commenced a reorganization case under Chapter 11 of the Bankruptcy Code as of the date of the distribution of this Disclosure Statement. If, however, Class 5 accepts the Plan in requisite numbers, Coltec expects to undertake the out-of-court Coltec Restructuring described in this Disclosure Statement and then file a bankruptcy petition. If Class 5 does not accept the Plan in requisite numbers, Coltec reserves the right not to file a bankruptcy petition or engage in the out-of-court Coltec Restructuring as described in this Disclosure Statement.

This Disclosure Statement has been prepared in accordance with Section 1125 of the Bankruptcy Code and Rule 3016(c) of the Federal Rules of Bankruptcy Procedure, and not necessarily in accordance with federal or state securities laws or other non-bankruptcy law. This Disclosure Statement was prepared with the intent to provide "adequate information" (as defined in the Bankruptcy Code) to enable Holders of Claims and Equity Interests in the Debtors to make informed judgments about the Plan. By Order dated June __, 2016, the Disclosure Statement was approved by the Bankruptcy Court as containing "adequate information" under Bankruptcy Code § 1125 with respect to GST, Garrison, and Anchor. The Bankruptcy Court has not yet approved the Disclosure Statement with respect to Coltec. Coltec expects to promptly seek an order of the Bankruptcy Court approving this Disclosure Statement and the solicitation of votes with respect to Coltec following commencement of its Chapter 11 case.

1. INTRODUCTION

This Disclosure Statement sets forth certain information regarding the Debtors' prepetition history, their material liabilities, the reorganization, and the anticipated post-reorganization operations of the Reorganized Debtors. This Disclosure Statement describes the terms and provisions of the Plan, specifically including the creation of the Asbestos Trust pursuant to Section 524(g) of the Bankruptcy Code to which Channeled Asbestos Claims will be channeled, with the Reorganized Debtors and other Asbestos Protected Parties receiving permanent injunctive protection from Asbestos Claims. The Disclosure Statement also describes certain alternatives to the Plan, the effects of confirmation of the Plan, and certain risk factors associated with the Plan. In addition, the Disclosure Statement discusses the confirmation process and the voting procedures that holders of Claims eligible to vote must follow for their votes to be counted.

Although the Plan Proponents believe that the descriptions and summaries contained in this Disclosure Statement are fair and accurate in all material respects, they are qualified in their entirety to the extent that they do not set forth the entire text of the documents and statutory provisions discussed. Please consult the documents themselves, including the Plan and exhibits to the Plan, for a full understanding of their contents.

2. DESCRIPTION OF THE DEBTORS, THEIR PRIMARY ASSETS, AND EVENTS LEADING TO THE FILING OF THESE CASES

2.1 GENERAL OVERVIEW OF THE DEBTORS

GST, a North Carolina limited liability company, and Garrison, a North Carolina corporation, are wholly owned subsidiaries of Coltec, a Pennsylvania corporation. Coltec is wholly owned by EnPro, a North Carolina corporation headquartered in Charlotte, North Carolina. EnPro (NPO) shares are traded on the New York Stock Exchange.

Anchor, a North Carolina corporation, is a wholly-owned, non-operating subsidiary of Garrison. GST acquired Anchor as a wholly owned subsidiary in June 1987. For many years before GST acquired Anchor and for several years thereafter, Anchor distributed fluid sealing materials, including gaskets and packing. In 1994, Anchor ceased business operations and in 1996 GST transferred its Equity Interest in Anchor to Garrison.

Some of the gaskets and packing produced and/or sold by GST (prior to 2001) and Anchor (prior to 1988) contained asbestos. Since the 1970s, GST and Anchor have received hundreds of thousands of claims by individuals alleging personal injuries or wrongful death related to exposure to asbestos from such products. Prior to the Petition Date, Garlock paid approximately $1.37 billion in indemnity payments and hundreds of millions in defense costs to resolve these claims.

Anchor has no assets or insurance and has not paid to defend or settle an asbestos claim since 2005.

Coltec is not currently in bankruptcy but, pursuant to the Comprehensive Settlement, is soliciting acceptance of the Plan as a "prepackaged plan of reorganization" that would provide

for the permanent settlement of Coltec Asbestos Claims contemporaneously with GST Asbestos Claims. Some of the businesses operated by Coltec and its predecessors, apart from GST, manufactured equipment with asbestos-containing components, principally gaskets and packing, made by other companies. These Coltec businesses often, though not exclusively, used components manufactured by GST. As a result, since approximately 1992, these Coltec businesses have received tens of thousands of claims by individuals alleging personal injuries or wrongful death caused by exposure to asbestos-containing components in Coltec's products. The businesses operated by Coltec and its predecessors that received such claims are Fairbanks Morse Engine, Fairbanks Morse Pump, Quincy Compressor, Central Moloney, France Compressor, Delavan, and Farnam.

Claimants who sued Coltec businesses generally also sued GST. Although Coltec has paid approximately $7.9 million to defend claims relating to products manufactured or sold by its non-GST subsidiaries or divisions, Coltec has never paid any money to settle an asbestos personal injury claim. Claimants routinely agreed to dismiss Coltec asbestos claims without payment when they reached settlements with GST with respect to their GST asbestos claims.

2.2 THE DEBTORS' BUSINESSES

2.2.1 GST

GST's business was founded in 1887 in Palmyra, New York. GST produces and sells high performance fluid-sealing products, including gaskets and compression packing used in internal piping and valve assemblies in numerous industries. GST employs approximately nine hundred and thirty people and has a global sales presence serviced from manufacturing facilities in Palmyra, New York and Houston, Texas.

GST also owns three non-Debtor foreign subsidiaries that own manufacturing operations in Canada, Mexico, and Australia.

In 2015, GST and its subsidiaries had global sales of approximately $217 million. In 2014, 2013, and 2012, GST and its subsidiaries had global sales of approximately $240 million, $244 million, and $240 million, respectively. In 2015, GST and its subsidiaries had income before reorganization expenses and income taxes excluding asbestos-related expenses of approximately $68 million, and in 2014, 2013, and 2012, GST and its subsidiaries had income before reorganization expenses and income taxes excluding asbestos-related expenses of approximately $203 million,[5] $85 million, and $78 million, respectively. *See* Post-Petition Operating Results of GST and Management Forecast, attached to this Disclosure Statement as **Exhibit 3**.

GST continuously develops innovative products to meet the changing preferences of its customers. In 2005, GST began a multi-year, $40 million capital project to modernize and improve its Palmyra manufacturing facilities, which has been completed since the Petition Date.

[5] The Debtors adjusted 2014 income based on recording a reduction in asbestos liability resulting from the Estimation Opinion and the provisions of the Debtors' Second Amended Plan. Income net of this adjustment to booked asbestos liability was $75 million.

GST believes that its new, state-of-the-art facilities have enhanced the company's position as the high quality producer in its industry. During the period of 2010 through 2015, GST spent an average of approximately $4.6 million annually on capital expenses, continuously upgrading its facilities, new product development capabilities, and equipment in order to retain its position as a leading manufacturer in its field.

2.2.2 Garrison

Garrison, which is headquartered in East Rochester, New York, was formed in 1996 to manage the defense and resolution of asbestos claims against GST and Coltec. Pursuant to an Exchange Agreement dated September 13, 1996 (the "**Exchange Agreement**"), Garrison undertook all future responsibility for the resolution of asbestos claims against GST, agreeing to indemnify GST for any losses it might suffer related to asbestos claims and to assume the defense and settlement of such claims. The Exchange Agreement also provided for GST's transfer of assets to Garrison to fund the resolution of asbestos claims against GST, including GST's right to receive payments under any insurance policies that covered asbestos-related claims against GST. GST retained a security interest in such insurance assets to secure Garrison's obligations under the Exchange Agreement. *See* Section 2.3.4.2 below for certain financial arrangements between Garrison and GST and Section 2.3.4.3 for certain financial arrangements between Garrison and Anchor.

From its inception to the Petition Date, Garrison (a) supervised a nationwide network of law firms defending asbestos claims against GST and Coltec; (b) managed the defense and resolution of asbestos claims against GST and Coltec; (c) paid judgments, settlements, and defense costs; and (d) collected insurance that covered losses associated with asbestos claims against GST. Since the Petition Date, Garrison has continued to work on the resolution of asbestos claims against GST by, among other things, updating the Debtors' master claims database, responding to discovery, providing support services for the Debtors' professionals, continuing to collect insurance, and participating in plan formulation. Garrison currently employs five people, including paralegals, accountants, and data entry personnel.

In addition to managing litigation and resolution of asbestos claims against GST, Garrison was paid fees and reimbursed expenses for managing the defense and resolution of asbestos claims against Anchor and Coltec.

2.2.3 Coltec

Coltec is a longstanding, diversified manufacturer that was variously known in prior years as Penn-Texas Corporation (until 1959), Fairbanks Whitney Corporation (until 1964), and Colt Industries Inc (until 1990). Colt Industries Inc then changed its name to Coltec Industries Inc on May 3, 1990. Coltec merged with Runway Acquisition Corporation, a subsidiary of Goodrich Corporation ("**Goodrich**") on July 12, 1999 and survived as a wholly owned subsidiary of Goodrich. EnPro was incorporated on January 11, 2002 as a wholly owned subsidiary of Goodrich and is the sole parent entity of Coltec. On May 31, 2002, the shares of EnPro were distributed to the shareholders of Goodrich, and EnPro became a separate public company, with Coltec continuing as its direct, wholly-owned subsidiary through the date hereof. Coltec's headquarters are in Charlotte, North Carolina.

2.2.3.1 Coltec's Business Operations

Through its divisions and a number of direct and indirect foreign and domestic subsidiaries, Coltec operates a broad and diverse range of engineered industrial products manufacturers. These businesses include Garrison and the Garlock Group (described below) of which GST is a significant part. Coltec's material business operations include:

Fairbanks Morse (Fairbanks Morse). Fairbanks Morse is currently an unincorporated division of Coltec. Headquartered in Washington, DC, Fairbanks Morse designs, manufactures, sells, and services heavy-duty, medium-speed diesel engines and generator sets, and dual-fuel engines. Fairbanks Morse operates a manufacturing facility in Beloit, Wisconsin and operates service centers across the United States and one in Canada. As part of the pre-bankruptcy Coltec Restructuring, Fairbanks Morse will become a separately incorporated entity.

The Garlock Group. The Garlock family of companies, which is composed of a number of direct and indirect subsidiaries of Coltec, including GST, design, manufacture and sell sealing products, including: metallic, non-metallic and composite material gaskets; dynamic seals; compression packing; hydraulic components; expansion joints; flange sealing and isolation products; pipeline casing spacers/isolators; casing end seals; modular sealing systems for sealing pipeline penetrations; and safety-related signage for pipelines. These products are used in a variety of industries, including chemical and petrochemical processing, petroleum extraction and refining, pulp and paper processing, power generation, food and pharmaceutical processing, primary metal manufacturing, mining, and water and waste treatment. The Garlock Group is headquartered in Palmyra, New York, and operates production facilities in New York, as well as in Texas, Colorado, Australia, Canada, China, Dubai (UAE), Germany, India, Mexico, Singapore, and the United Kingdom.

The Stemco Group. The Stemco group, which is composed of a number of direct and indirect subsidiaries of Coltec, designs, manufactures and sells heavy-duty truck wheel-end components and systems including: seals; hubcaps; mileage counters; bearings; locking nuts; brake products, such as brake drums, automatic brake adjusters, brake friction and shoes, hardware and brake kits; suspension components, such as steering knuckle king-pins and bushings, spring pins and bushings, other polymer bushing components, and air springs for tractor, trailer and cab suspensions; tire pressure monitoring and inflation systems and automated mileage collection devices; as well as trailer-end aerodynamic devices designed to increase fuel efficiency. Along with group headquarters in Longview, Texas, the Stemco group operates manufacturing facilities in Texas, Georgia, Michigan, Tennessee, Kentucky, Ohio, Canada, Australia, Mexico, and China.

The Technetics Group. The Technetics group, composed of a number of direct and indirect subsidiaries of Coltec, designs, manufactures, and sells high performance metal seals; elastomeric seals; bellows and bellows assemblies; pedestals for semiconductor manufacturing; and a wide range of polytetrafluoroethylene (PTFE) products. These products are used in a variety of industries, including electronics and semiconductor, aerospace, land-based turbines, power generation, oil and gas, food and beverage, and other industries. Technetics' group headquarters is located in Columbia, South Carolina and Technetics operates production

facilities in California, Florida, Massachusetts, Pennsylvania, South Carolina, Texas, France, Germany, Singapore, and the United Kingdom.

The Compressor Products International (CPI) Group. The CPI group's business, which is operated by a number of direct and indirect subsidiaries of Coltec, designs, manufactures, sells and services components for reciprocating compressors and engines. These components, which include packing and wiper rings, piston and rider rings, compressor valve assemblies, divider block valves, compressor monitoring systems, lubrication systems, and related components are utilized primarily in the refining, petrochemical, natural gas gathering, storage and transmission, and general industrial markets. CPI maintains its headquarters in Stafford, Texas and has production facilities in California, Louisiana, Pennsylvania, Texas, Wyoming, Australia, Canada, China, France, Germany, Netherlands, Spain, and the United Kingdom.

The GGB Group. The GGB group's business, which is operated by a number of direct and indirect subsidiaries of Coltec, designs, manufactures and sells self-lubricating, non-rolling, metal polymer, engineered plastics, and fiber reinforced composite bearing products, as well as aluminum bushing blocks for hydraulic applications. These products are used in a wide variety of markets such as the automotive, pump and compressor, construction, power generation, and general industrial markets. The GGB group's headquarters are located in Annecy, France, and GGB operates production facilities in New Jersey, Brazil, France, Germany, Slovakia and China.

*EnPro Learning System, LLC ("**Learning System**").* Learning System, a direct wholly owned subsidiary of Coltec, offers safety consulting services, safety courses, and safety conferences throughout the year to assist companies in developing and implementing protocols to improve workplace safety. Learning System is headquartered in Charlotte, North Carolina and offers safety courses and conferences at various production facilities of EnPro and its subsidiaries and at other external locations.

The current business operations of Coltec will be substantially reorganized by the Coltec Restructuring before Coltec (renamed OldCo, LLC) files its Chapter 11 case. At the time OldCo files its Chapter 11 petition, only the Learning System business will be a part of OldCo's operations. For more information on the Coltec Restructuring, see Section 2.5.3 below.

2.2.3.2 Results of Coltec's Combined Business Operations

As the only direct, wholly-owned subsidiary of EnPro, Coltec either directly (through its divisions) or indirectly (through its direct and indirect foreign and domestic subsidiaries) operates all of the business operations of EnPro, other than certain general and administrative expenses incurred directly by the EnPro Industries, Inc. legal entity (on a stand-alone basis, the "**Parent**").

The following tables present condensed consolidating statements of operations of: (i) the Parent, (ii) Coltec and its direct and indirect subsidiaries (excluding the Existing Debtors and their subsidiaries) on a combined basis and (iii) the eliminations necessary to arrive at the consolidated results of EnPro on a consolidated basis, in each case for the following periods: (a) the three months ended March 31, 2016, (b) the twelve months ended December 31, 2015 and (c) the twelve months ended December 31, 2014.

The condensed consolidating statements of operations are not intended to present the results of operations for any purpose other than to set forth certain information regarding the combined operations of Coltec and its direct and indirect foreign and domestic subsidiaries (other than Existing Debtors and their subsidiaries) for purposes of this Disclosure Statement.

Income (loss) before equity in earnings of subsidiaries	(30.0)	26.3	25.7	—	22.0
Equity in earnings of subsidiaries, net of tax	52.0	25.7	—	(77.7)	—
Net income	$ 22.0	$ 52.0	$ 25.7	$ (77.7)	$ 22.0

*Excludes the Existing Debtors and their subsidiaries.

For additional information regarding the consolidated operations of EnPro, please see the EnPro Quarterly Report on Form 10-Q for the three months ended March 31, 2016 and the

EnPro Annual Report on Form 10-K for the year ended December 31, 2015. These documents are available online at http://www.enproindustries.com/sec-filings.

2.3 ASSETS OF GST, GARRISON, AND ANCHOR

2.3.1 Estimated Value of Reorganized GST's Core Business

GST's principal offices and largest manufacturing facility are located in Palmyra, New York. GST owns the Palmyra offices and plants subject to a "lease-leaseback" arrangement extending through February 2026 with the Wayne County Industrial Development Agency. GST has a second, leased manufacturing facility in Houston, Texas. GST owns substantial property and equipment at each of the two operating facilities used in connection with its business, as well as finished inventory and raw materials. A more detailed description of these assets is included in GST's Schedules of Assets and Liabilities, filed on July 20, 2010 (Docket No. 249). Since the Petition Date, GST has continued to operate in the ordinary course of business, and has acquired and divested assets in the ordinary course of business consistent with its pre-petition operations.

The Debtors have engaged FTI Consulting to advise them with respect to the enterprise value and reorganized value of GST's core business operations. FTI's analysis reflects a going concern value for GST's core business, including its non-debtor subsidiaries, in the range of $250 million to $286 million. The Debtors concur with FTI's conclusions regarding the value of the Debtors' core business operations.

2.3.2 Cash

As of March 31, 2016, GST (exclusive of its non-Debtor subsidiaries) held approximately $245.4 million in Cash ($4.6 million), Cash equivalents ($47.7 million), and United States Treasury Notes ($200.0 million). Inclusion of Cash held by non-debtor subsidiaries increases this figure by $29.5 million.

2.3.3 Garlock Insurance

Coltec purchased certain general liability insurance policies to cover losses associated with, among other things, product liability claims against Coltec and certain of its subsidiaries. A block of these insurance policies, in effect from 1976, the year after Coltec purchased GST, to 1984, when insurance policies began excluding asbestos-related losses from coverage, included GST as an insured (the "**Available Shared Insurance**"). Under the Available Shared Insurance policies, GST is entitled to be indemnified for losses associated with asbestos claims against GST that trigger coverage under such policies. Prior to these Chapter 11 Cases, proceeds from these policies have been used to pay a portion of the indemnity payments made to resolve asbestos claims against GST.

In addition to GST, Coltec and certain other Non-Debtor Affiliates also have indemnity rights against the carriers under the Available Shared Insurance policies, which also cover such Affiliates for asbestos-related losses. To the extent Coltec or any non-Debtor Affiliate is required to defend and pay any future asbestos litigation or pending asbestos litigation, Coltec or such non-Debtor Affiliate is entitled to be indemnified under those insurance policies for any such claim that triggers such policies.

As of the Petition Date, $194 million of available products hazard limits or insurance receivables arising from settlements with insurance carriers existed under the Available Shared Insurance policies. Since the Petition Date, the Debtors have collected approximately $116.6 million of the Available Shared Insurance (including insurance recoveries of approximately $6.1 million from insolvent insurance carriers); therefore, the amount of Available Shared Insurance from solvent insurance carriers with investment grade ratings, as of March 31, 2016, is approximately $80 million. A list of Asbestos Insurance Policies issued to the Debtors is attached as Exhibit E to the Plan.

A summary of the expected insurance receipts from various insurers is set forth below.

Insurance Carrier	**S&P Debt Rating**	**AM Best Rating**	**Remaining Amount** $ in 000
Aetna Casualty and Surety (Travelers)	AA	A++	4,213
AIG	A+	A	42,000
Employers Mutual Assurance Co.	n/a	A	10,000
Fireman's Fund	AA	A+	8,762
Republic Insurance Co.	A+	A	10,000
Safety Insurance Co.	A	A+	5,000
Total (Solvent Carriers)			**79,975**

2.3.4 Affiliate Notes

2.3.4.1 The Coltec and Stemco Notes and the 2005 Corporate Restructuring

GST holds two separate promissory notes in the aggregate face amount of approximately $227 million: one issued by Coltec in the face amount of $73,381,000 (the "**Coltec Note**") and the other issued by a wholly-owned indirect subsidiary of Coltec, Stemco LP, a Texas limited partnership ("**Stemco TX**") in the face amount of $153,865,000 (the "**Stemco Note**"). The Coltec Note and the Stemco Note each mature on January 1, 2017 and bear interest at 11.0% per annum. Cash payments are due in an amount equal to 6.5% per year, and deferred payment of interest in the amount of 4.5% (the "**PIK Amount**") are added to the principal amount outstanding under the Coltec Note and Stemco Note each year.

Each of the Coltec Note and the Stemco Note was delivered to GST on March 11, 2005, in connection with a corporate restructuring (the "**2005 Corporate Restructuring**"), and each was amended and restated on January 1, 2010.

First, pursuant to a Membership Interest Purchase Agreement dated March 11, 2005, GST sold to Coltec the following limited liability company membership interests: 100% of the membership interests in Coltec Industrial Products LLC and 96.3% of the membership interests in GGB LLC (representing all of GST's ownership interest in GGB LLC) (collectively, the "**Membership Interests**"). The purchase price for the Membership Interests was paid by Coltec

through the issuance and delivery of the Coltec Note. Pursuant to the terms of an Amended and Restated Pledge Agreement dated January 1, 2010, the repayment of the Coltec Note is secured by a pledge of the Membership Interests.

Second, pursuant to an Asset Purchase Agreement dated March 11, 2005, Stemco Delaware LP, a Delaware limited partnership ("**Stemco DE**") sold certain assets to Stemco TX, and Stemco TX agreed to assume certain liabilities of Stemco DE, all in exchange for the issuance and delivery of the Stemco Note by Stemco TX. On December 31, 2006, Stemco DE merged with and into GST, with GST surviving the merger and becoming the holder of the Stemco Note. The payment and performance of Stemco TX's obligations under the Stemco Note are guaranteed by Coltec pursuant to the terms of an Amended and Restated Guaranty Agreement dated January 1, 2010 (the "**Coltec Guaranty**"). Additionally, as collateral security for the full and timely payment, performance and observance of Coltec's obligations under the Coltec Guaranty, Coltec has granted GST a security interest in the general partner interest in Stemco TX held by Coltec and in the common stock of Stemco Holdings, Inc., a Delaware corporation (a wholly-owned subsidiary of Coltec and the direct owner of the limited partnership interests in Stemco TX) pursuant to the terms of an Amended and Restated Pledge Agreement dated January 1, 2010.

GST has agreed to subordinate its rights of payment under the Coltec Note, the Stemco Note, and the Coltec Guaranty to final payment of all principal, interest, or other obligations under Coltec's senior credit facility, pursuant to the terms of subordination agreements by and among Bank of America, N.A., in its capacity as collateral and administrative agent ("**BofA**"), GST, Coltec, and Stemco TX dated as of April 26, 2006 (as amended, modified, restated, and supplemented). As of March 31, 2016, the outstanding balance due under Coltec's senior credit facility was $170.4 million.

The Stemco Note and the Coltec Note each provide that Coltec may set off against any principal or interest due under the Stemco Note or Coltec Note losses, damages or settlements paid to any asbestos claimant based on Stemco TX's (in the case of the Stemco Note) or Coltec's (in the case of the Coltec Note) alleged liability for asbestos containing products manufactured or sold by GST.

Since the Petition Date, Coltec has provided certain services and advanced certain costs to both GST and Garrison pursuant to Intercompany Services Agreements dated as of June 1, 2010, between Coltec and each of GST and Garrison. Under the terms of the Intercompany Services Agreements, the charges payable to Coltec are paid first by offset against the cash portion of the interest payable under the Coltec Note and the Stemco Note. Since the Petition Date, all charges payable to Coltec under the Intercompany Services Agreement have been paid in this manner. As of March 31, 2016, the aggregate principal amount outstanding under the Stemco Note and the Coltec Note, together, was $295.9 million.

2.3.4.2 GST/Garrison Grid Notes

On September 13, 1996, GST and Garrison entered into a reciprocal credit arrangement (the "**Letter Agreement**") under which GST agreed to provide Garrison with a line of credit of up to $200 million for working capital purposes, and Garrison agreed to loan GST any available

Cash held by Garrison in excess of its working capital requirements. Advances by GST to Garrison for working capital requirements are evidenced by a $200 million Revolving Note (the "**Garrison Note**"). Garrison advances of available Cash to GST are evidenced by a separate $200 million Demand Grid Note (the "**Demand Grid Note**"). Under the terms of the Letter Agreement, any transfers of available Cash by Garrison to GST are first applied to repay indebtedness under the Garrison Note, if any, before any transfer is considered a borrowing by GST under the Demand Grid Note. Conversely, any advances by GST to Garrison are first applied to the Demand Grid Note before constituting an advance to Garrison under the Garrison Note. In accordance with the Letter Agreement, whenever a disbursement is presented for payment in a Garrison account, GST funds the disbursement from a GST disbursement account on behalf of Garrison and charges Garrison for such disbursement through the Garrison Note. Whenever Garrison receives Cash in its lockbox account, the Cash is transferred to the GST funding/concentration account as a repayment of the Garrison Note. As of March 31, 2016, Garrison owed GST $158,074,954 under the Garrison Note, and there was no outstanding indebtedness under the Demand Grid Note.

2.3.4.3 Garrison/Anchor Notes

Pursuant to the terms of a Promissory Note dated July 2, 1998 (the "**Anchor Grid Note**"), Garrison provided Anchor a line of credit up to $10 million for Anchor's working capital requirements. Anchor repaid interest and principal owed on such note as Anchor received proceeds from insurance covering asbestos-related claims against Anchor. Anchor has no remaining insurance coverage. Since December 2004, there have been no advances or repayments respecting the Anchor Grid Note. As of March 31, 2016, Anchor's indebtedness to Garrison under the Grid Note was approximately $1,704,000.

Anchor also owes Garlock approximately $2 million in net open intercompany account balances. This intercompany account is not evidenced by a promissory note or other writing. There has been no activity on this account since 1998.

2.3.5 Claims and Causes of Action

2.3.5.1 Avoidance Actions and Certain Related Claims Against Affiliates

During the pendency of these Bankruptcy Cases, the Committee and FCR have undertaken substantial document discovery of pre-petition transactions between the Existing Debtors, Coltec, and other Non-Debtor Affiliates. On April 30, 2012, the Committee and the FCR filed a Joint Motion of the Official Committee of Asbestos Personal Injury Claimants and the Future Claims Representative for Leave to Control and Prosecute Certain Claims as Estate Representatives (the "**Motion for Leave**" and the proposed complaint attached as Exhibit A thereto, the "**Proposed Complaint**") (Docket No. 2150) and a Joint Motion to Modify Preliminary Injunction in Order to Permit Certain Claims to Proceed[6] (the "**Motion for Modification**" and, together with the Motion for Leave, the "**ACC/FCR Motions**").

---

6 Adv. Proc. No. 10-03145 (Docket No. 33).

The allegations of the Proposed Complaint focus on the 2005 Corporate Restructuring, which gave rise to the Coltec and Stemco Notes, and the amendments to those notes that occurred shortly before the 2010 bankruptcy filings of the Existing Debtors. *See* Section 2.3.4.1, *The Coltec and Stemco Notes and 2005 Corporate Restructuring*, *supra*. The Proposed Complaint alleges that the transfer of the businesses under the 2005 Corporate Restructuring and subsequent amendments to the Coltec and Stemco Notes injured GST Asbestos Claimants by hindering their ability to recover damages for their alleged injuries from GST. The Proposed Complaint names as defendants EnPro, Coltec, and Stemco TX (the "**Corporate Defendants**") and three former managers of GST, Donald G. Pomeroy, John Mayo, and Paul Baldetti (the "**Former Managers**"), and includes causes of actions for (1) alleged fraudulent transfers against the Corporate Defendants under both state law and the Bankruptcy Code; (2) breach of fiduciary duty against the Former Managers and the Corporate Defendants; (3) aiding and abetting breach of fiduciary duty against the Corporate Defendants; (4) unjust enrichment against the Corporate Defendants; (5) conspiracy to defraud against the Corporate Defendants; (6) successor liability against the Corporate Defendants; and (7) piercing the corporate veil separating GST from the Corporate Defendants.

On May 11, 2012, the Existing Debtors filed their Motion for Order (A) Authorizing the Debtors to (I) Enter Into the Affiliate Tolling Agreement and (II) Enter Into the Proposed Managers Tolling Agreement Pursuant to 11 U.S.C §§ 105(a) and 363 and Bankruptcy Rule 6004 and (B) Authorizing the Debtors to Abandon Non-Affiliate Preference Claims Pursuant to 11 U.S.C. §§ 105(a) and 554(a) and Bankruptcy Rule 6007 (the "**Tolling Agreement Motion**") (Docket No. 2194).

The Bankruptcy Court granted the Tolling Agreement Motion by order entered on June 4, 2012 (Docket No. 2281), and denied without prejudice the ACC/FCR Motions by order entered on June 7, 2012 (Docket No. 2292).[7]

The Debtors, the Corporate Defendants, and the Former Managers have continued to toll the alleged causes of action in the Proposed Complaint (the "**Tolled Claims**"), by way of tolling agreements entered into after the Bankruptcy Court granted the Tolling Agreement Motion and a series of orders subsequently entered with the consent of the Corporate Defendants, the Former Managers, the Committee, and the FCR.

As part of the Comprehensive Settlement the Plan provides that the Tolled Claims will be settled, released and extinguished. Also to be released pursuant to the Comprehensive Settlement and the Plan (in addition to other claims) are (i) any Avoidance Actions the Existing Debtors or Coltec may have against any of their Affiliates, (ii) Avoidance Actions that the Existing Debtors, Coltec, or their Estates might otherwise be able to assert against personal injury claimants or their attorneys, and (iii) any claims that Coltec might otherwise be able to assert against any of the Existing Debtors for indemnity or contribution related to Asbestos Claims.

In addition, since the Petition Date the Existing Debtors have investigated potential causes of action against certain parties in interest who received payments prior to the Petition

[7] Adv. Proc. No. 10-03145 (Docket No. 51).

Date. As a partial result of those investigations, the Existing Debtors filed their Motion for Order (A) Authorizing the Debtors to (I) Enter Into the Affiliate Tolling Agreement and (II) Enter Into the Proposed Managers Tolling Agreement Pursuant to 11 U.S.C §§ 105(a) and 363 and Bankruptcy Rule 6004 and (B) Authorizing the Debtors to Abandon Non-Affiliate Preference Claims Pursuant to 11 U.S.C. §§ 105(a) and 554(a) and Bankruptcy Rule 6007 (Docket No. 2194) (the "**Motion to Abandon**"). In the Motion to Abandon, the Existing Debtors sought court authorization to abandon all potential causes of action arising under Section 547 of the Bankruptcy Code against trade vendors who are not Affiliates of the Existing Debtors, the Existing Debtors' asbestos litigation defense counsel, and personal injury claimants who received payments from the Existing Debtors within ninety days prior to the Petition Date. The Court approved the Motion to Abandon, entering the Order (A) Authorizing the Debtors to (I) Enter into the Affiliate Tolling Agreement and (II) Enter into the Proposed Managers Tolling Agreement Pursuant to 11 U.S.C. §§ 105(a) and 363 and Bankruptcy Rule 6004 and (B) Authorizing Debtors to Abandon Non-Affiliate Preference Claims Pursuant to 11 U.S.C. §§ 105(a) and 554(a) and Bankruptcy Rule 6007 (Docket No. 2281) (the "**Abandonment Order**").

The Debtors believe all Avoidance Actions not settled through the Plan have either been abandoned pursuant to the Abandonment Order or the limitations period for any such claims has expired. To the extent any such Avoidance Actions exist and have not been abandoned pursuant to the Abandonment Order or settled or released through the Plan, such Avoidance Actions shall be retained by the Reorganized Debtors. The Existing Debtors' Statement of Financial Affairs sets forth all transfers by the Existing Debtors within ninety (90) days of the Petition Date, as well as all transfers to Affiliates within one year prior to the Petition Date. The Reorganized Debtors shall have the exclusive right to prosecute, waive or settle any unresolved Avoidance Actions after the Effective Date without need for Court authorization or approval.

2.3.5.2 GST Recovery Actions

Additionally, as a result of the Existing Debtors' Post-Petition investigations, GST and Garrison have filed lawsuits against several law firms who represented personal injury claimants to whom GST and Garrison paid money prior to the Petition Date as a result of settlements that GST and Garrison contend were fraudulently obtained. Information regarding these lawsuits follows:

Case Caption	Case Number and Jurisdiction
Garlock Sealing Technologies LLC, et al. v. Chandler, et al.	12-03137, United States Bankruptcy Court for the Western District of North Carolina
Garlock Sealing Technologies LLC, et al. v. Shein Law Center Ltd, et al.	3:14-cv-00137, United States District Court for the Western District of North Carolina
Garlock Sealing Technologies LLC, et al. v. Belluck & Fox, LLP, et al.	3:14-cv-00118, United States District Court for the Western District of North Carolina

Case Caption	Case Number and Jurisdiction
Garlock Sealing Technologies LLC, et al. v. Simon Greenstone Panatier Bartlett, A Professional Corporation, et al.	3:14-cv-00116, United States District Court for the Western District of North Carolina
Garlock Sealing Technologies LLC, et al. v. Estate of Ronald C. Eddins, et al.	3:14-cv-00130, United States District Court for the Western District of North Carolina

The Plan refers to these pending suits as "GST Recovery Actions." The Plan also uses the term "GST Recovery Actions" to refer to any other cause of action, claim, demand, or suit that might otherwise be asserted or filed in the future by Coltec, GST, Garrison, or any of their respective Affiliates, predecessors, or assigns against asbestos personal injury claimants or the attorneys and law firms that represent or have represented such claimants, which action, claim, demand, or suit is based on acts, omissions, or conduct by claimants, their attorneys, or law firms in connection with an action or suit for asbestos-related injury or wrongful death before the Confirmation Date. The Plan excludes GST Recovery Actions from the definition of Retained Causes of Action. As required by the Comprehensive Settlement, the Plan constitutes a motion to approve the settlement of the pending GST Recovery Actions under Bankruptcy Rule 9019, pursuant to which such actions and any claims, counterclaims, or countersuits the respective parties actually asserted or could have asserted therein shall be dismissed with prejudice in exchange for mutual general releases and mutual waivers of costs and attorneys' fees. In addition, the Plan provides that the Debtors, Reorganized Debtors, and their Affiliates, predecessors, successors, and assigns shall be deemed to release, waive, and permanently extinguish their rights to file or assert in the future any GST Recovery Action.

As part of the Comprehensive Settlement, the Term Sheet calls for the resolution and dismissal of the pending GST Recovery Actions on the foregoing terms effective upon the exchange of settlement documents by the parties to those lawsuits, and those lawsuits have been stayed pending confirmation of the Plan. As they have acknowledged in the Term Sheet, the Debtors, the Committee, the Ad Hoc Coltec Committee, and EnPro agreed that the settlement of those lawsuits on such terms was necessary in order for the Plan to be confirmed and succeed and therefore is in the best interests of the Debtors, their Estates, and present and future Asbestos Claimants. They have also acknowledged in the Term Sheet that (1) the defendants in the pending GST Recovery Actions have been represented by their respective independent counsel in connection with the proposed resolution of the pending GST Recovery Actions, and (2) the Plan funding negotiated by EnPro and the Plan Proponents has not been, and shall not be, reduced in respect of those proposed resolutions.

The Reorganized Debtors retain their respective rights to continue, commence, and pursue any and all "Retained Causes of Action" but, as required by the Comprehensive Settlement, the Plan excludes GST Recovery Actions from the definition of Retained Causes of Action. To the extent the Debtors have not commenced litigation with respect to any Retained Cause of Action prior to the Effective Date, one or more of the Reorganized Debtors may pursue them after the Effective Date. The Debtors have listed material, known Retained Causes of

Action on **Exhibit F** to the Plan. Retained Causes of Action will not be limited in any way by failure to list any Retained Cause of Action on Exhibit F.

In addition, it is possible that there are numerous unknown causes of action. The failure to list any such unknown causes of action above is not intended to limit the rights of the Reorganized Debtors to pursue any of these actions to the extent the facts underlying such unknown causes of action become known to the Debtors or the Reorganized Debtors.

2.3.5.3 Maintenance of Causes of Action and Preservation of All Causes of Action Not Expressly Settled or Released

Except as settled or released under the Plan, or otherwise provided in the Plan, the Reorganized Debtors are retaining all of the Debtors' respective rights to commence and pursue, as appropriate, in any court or other tribunal including, without limitation, in an adversary proceeding filed in one or more of the Chapter 11 Cases, any and all causes of action, whether such causes of action accrued before or after the Petition Date.

Except as otherwise provided in the Plan, in accordance with Section 1123(b)(3) of the Bankruptcy Code, any Claims, rights, and causes of action, including the Retained Causes of Action, that GST, Garrison, and Coltec may hold against any Entity will vest in Reorganized GST, Reorganized Garrison, and Reorganized Coltec, respectively, and Reorganized GST, Reorganized Garrison, and Reorganized Coltec respectively, will retain and may exclusively enforce any and all such Claims, rights, or causes of action, including Retained Causes of Action, and commence, pursue, and settle the causes of action in accordance with the Plan. Reorganized GST, Reorganized Garrison, and Reorganized Coltec will have the exclusive right, authority, and discretion to institute, prosecute, abandon, settle, or compromise any and all such Claims, rights, and causes of action, including Retained Causes of Action, without the consent or approval of any third party and without any further order of the Court.

Unless a Claim or Retained Cause of Action against a Claimant or other Entity is expressly waived, relinquished, released, compromised, or settled in the Plan or any Final Order, the Debtors expressly reserve such Claim or Retained Cause of Action (including any Unknown Causes of Action) for later adjudication by the Reorganized Debtors. Therefore, no preclusion doctrine, including the doctrines of res judicata, collateral estoppel, issue preclusion, claim preclusion, waiver, estoppel (judicial, equitable, or other), or laches will apply to such Claims or Retained Causes of Action upon or after the Confirmation Date or Effective Date of the Plan based on this Disclosure Statement, the Plan, or the Confirmation Order, except where such Claims or Retained Causes of Action have been expressly released in the Plan or other Final Order. In addition, the Debtors, the Reorganized Debtors, and their successors expressly reserve the right to pursue or adopt any Claim alleged in any lawsuit in which the Debtors are defendants or an interested party, against any Entity, including the plaintiffs or co-defendants in such lawsuits.

Except with respect to (i) Claims expressly waived, relinquished, released, compromised, or settled under the Plan, (ii) any Avoidance Actions subject to the Abandonment Order, and (iii) GST Recovery Actions, any Entity that has incurred an obligation to the Debtors (whether on account of services, purchases or sales of goods, or otherwise), or who has received services

from the Debtors or a transfer of money or property of the Debtors, or who has transacted business with the Debtors, or leased equipment or property from the Debtors, should assume that such obligation, transfer, or transaction may be reviewed by the Debtors or Reorganized Debtors, and may, if appropriate, be the subject of an action after the Effective Date, whether or not (1) such Entity has filed a proof of Claim against the Debtors in the Chapter 11 Cases, (2) such Claimant's proof of Claim has been objected to, (3) such Claimant's Claim was included in the Debtors' Schedules, or (4) such Claimant's scheduled Claim has been objected to by the Debtors or has been identified by the Debtors as a Disputed Claim, a Contingent Claim, or an Unliquidated Claim.

2.4 LIABILITIES OF GST, GARRISON, AND ANCHOR

2.4.1 Non-Asbestos Related Liabilities of GST, Garrison, and Anchor

2.4.1.1 Administrative Claims

Coltec asserts a Claim in the approximate amount of $106.3 million for repayment of taxes paid on account of GST's income after the Petition Date. In addition, Bank of America holds a post-petition Administrative Claim for contingent obligations arising from the Existing Debtors' use of Bank of America banking products and certain letters of credit issued on the Existing Debtors' behalf, pursuant to the DIP Release/Cash Collateral Order (Docket No. 1557) (defined below). This Administrative Claim is secured by approximately $3,037,112.00 in Cash held in a BofA account, as of March 31, 2016.

Other Entities also hold various Claims entitled to administrative priority pursuant to Section 503 of the Bankruptcy Code, which the Debtors will continue to pay in the ordinary course of business, including trade debt arising from GST and Garrison's continued operations after the Petition Date, as well as Fee Claims. The Existing Debtors believe they have paid, pursuant to orders of the Bankruptcy Court, all Claims entitled to administrative expense priority pursuant to Section 503(b)(9) of the Bankruptcy Code.

Debtors do not currently believe there will be any Allowed Priority Tax Claims.

2.4.1.2 Secured Claims

Several creditors have asserted relatively small Secured Claims against the Debtors. The most significant is an asserted Secured Claim by Niagara Bank related to financing for a chiller located in GST's Palmyra, New York facility. The Existing Debtors have assumed the contract related to this chiller and therefore believe the Claim has been cured and has been or will be paid in full in the ordinary course of business.

2.4.1.3 Priority Claims

Several creditors have asserted relatively small Priority Claims against the Existing Debtors. Filed Priority Claims total approximately $70,000. The Existing Debtors anticipate they will file objections to many of these Claims on various grounds, including that some are duplicates, some have been paid pursuant to prior orders of the Bankruptcy Court, some are not entitled to priority, and others for other reasons.

2.4.1.4 GST General Unsecured Claims

Creditors have filed in the aggregate approximately $3.7 million in GST General Unsecured Claims (excluding claims the Existing Debtors believe to be duplicates). Debtors anticipate they will object to a number of these Claims for various reasons.

2.4.2 Estimated Liability of GST, Garrison, and Anchor for Asbestos-Related Claims

The validity and value of GST Asbestos Claims have been the most contentious and litigated issues in the Chapter 11 Cases. The Committee and the FCR contended that GST's aggregate liability for present and future GST Asbestos Claims based on mesothelioma alone exceeded $1 billion. GST contended that its liability for such mesothelioma claims was no more than $125 million and that any liability it had for non-mesothelioma claims was *de minimis*.

After a lengthy contested estimation hearing, on January 10, 2014, the Bankruptcy Court entered the Estimation Opinion adopting GST's position and determining that a reasonable and reliable estimate of the amount sufficient to satisfy GST's obligation for all current and future mesothelioma claims is $125 million. The mesothelioma trial and Estimation Opinion is described in greater detail in Section 3.1.7, *infra*. The Committee took the position that the Estimation Opinion was incorrect, interlocutory, and subject to appeal.

No estimate of claims against GST for diseases other than mesothelioma (including lung cancer, other cancers, asbestosis, or other non-malignant conditions) was litigated or has been made by the Bankruptcy Court. The Existing Debtors, Coltec, the Committee, and the FCR have all recognized and agreed that mesothelioma claims account for the bulk of GST's overall liability for GST Asbestos Claims.

Finally, at the Committee's request, with the concurrence of the Debtors, the FCR, and Coltec, the Bankruptcy Court excluded from the scope of the contested estimation proceeding, and thus declined to estimate, the aggregate value of present and future asbestos claims against Anchor and derivative claims, if any, against GST based on Anchor's liabilities. *See* Order Granting Motion of the Official Committee of Asbestos Personal Injury Claimants for Order Clarifying Scope of Estimation to Exclude Claims Against Anchor and Derivative Claims Against Garlock Based on Anchor's Liabilities, Oct. 30, 2012 (Docket No. 2587). GST has never paid a derivative claim based on Anchor's liabilities.[8]

[8] All derivative claims against GST, Garrison, and Coltec based on third parties' alleged asbestos liabilities, including such claims based on Anchor's liabilities, are included in the Comprehensive Settlement. Under the Plan, those derivative claims will be subject to the Asbestos Channeling Injunction, and GST, Garrison, and Coltec will be discharged of those claims to the fullest extent provided by law. *But cf.* Plan § 8.6 (providing that "notwithstanding any provision to the contrary, nothing contained in this Plan, any Plan Document, the Confirmation Order, the Bankruptcy Code (including Section 1141 of the Bankruptcy Code), or any other document Filed in the Chapter 11 Cases shall be construed to discharge, enjoin, release, or channel to the Asbestos Trust any liability or obligation of a non-Debtor Entity not derived from that of a Debtor, including, without limitation, any independent liability of a non-Debtor Entity that is not an Affiliate of, successor of, successor-in-interest to, merger partner of, or transferor of assets to a Debtor as of the Petition Date."). No EnPro Affiliate other than GST, Garrison, Coltec, and Anchor is known to have any alleged non-derivative liability for asbestos claims.

2.4.3 GST's Asbestos Litigation History

For decades prior to the Petition Date, GST received thousands of claims each year from individuals who alleged they suffered from asbestos-related disease caused in part by GST's products. Since 1975, plaintiffs have named GST in approximately 900,000 asbestos cases. GST has disputed its liability for all of these asbestos claims and has never admitted liability for any claim.

Throughout its history, GST has resolved the vast majority of asbestos claims filed against it by dismissal or settlement rather than by verdict. Out of the 900,000 cases, only approximately 250 cases have resulted in verdicts, the majority of those in GST's favor.

GST also acquired four companies that sold sealing products substantially equivalent to products made and sold by GST, all of which were eventually merged into GST (Belmont Rubber & Packing Co. ("**Belmont**"), Crandall Packing Company, Dealers' Steam Packing Company, and U.S. Gasket Company). Garrison received approximately 8,500 complaints naming Belmont, despite its merger into GST in 1968. Nearly all of these complaints were filed before 2004, and all but 62 also named GST. None of the Belmont claims were resolved by payment, but were resolved only by dismissal or in connection with payments on claims against GST itself.

2.4.3.1 GST's Asbestos-Containing Products

GST's asbestos litigation has principally involved two asbestos-containing sealing products: compressed asbestos sheet gaskets and asbestos packing.

A gasket is a thin piece of material (usually 1/32" to 1/8" thick) used to create a seal between metal surfaces that would otherwise leak, such as a flange where two metal pipes connect, or where a pipeline attaches to equipment like pumps and valves. Compressed asbestos gaskets were manufactured in sheets and reached the consumer in one of two forms: (1) sheet gasket material that often came in rolls out of which the purchaser cut gaskets to size and (2) pre-cut gaskets that the purchaser ordered to requested sizes and shapes either directly from GST or from a gasket supply company that engaged in custom gasket cutting. GST's asbestos gaskets were a mixture of asbestos fibers, curing agents, reinforcing fillers, and elastomers (natural rubber plastic having the elastic qualities of rubber). Although GST offered many styles of non-asbestos gaskets and packing, customers historically needed asbestos gaskets and packing for certain high-temperature or corrosive environments.

Packing is braided yarn that is wrapped around the shafts of valves and other equipment to prevent leaks. GST asbestos packing was made with asbestos yarn impregnated and coated with lubricants, such as Teflon or graphite.

2.4.4 Pending GST Asbestos Claims

As of the Petition Date, there were approximately 95,000 asbestos claims pending against GST in state and federal courts across the country. Approximately 82,000 of these claims alleged non-malignant conditions or did not indicate an alleged disease or condition. Approximately 13,000 claims alleged mesothelioma, lung cancer, or other cancer.

On April 10, 2015, the Bankruptcy Court entered a bar date order, establishing October 6, 2015 as the deadline for filing proofs of claim for GST Asbestos Claims based on an asbestos-related disease diagnosed on or before August 1, 2014 for which lawsuits against any defendant or claims against any trust were filed on or before August 1, 2014.[9] Proofs of claim for GST Asbestos Claims arising after August 1, 2014 were permitted but not required to be filed.

Proofs of claim for approximately 170,260 current GST Asbestos Claims were filed. 129,525 of these were cast as ballots on the Second Amended Plan (in which claimants specified their asbestos-related diseases) and 40,735 were filed on Official Form 10 (in which claimants were not required to provide disease information, but sometimes chose to provide it).

Of the ballot claims, 8,749 alleged mesothelioma; 15,869 alleged lung cancer; 855 alleged laryngeal cancer; 103,989 alleged asbestosis; and 63 did not specify an alleged disease.

Disease	Class 4 ballot	B-10 POC	Total
Mesothelioma	8,749	1,236	9,985
Lung cancer	15,869	3,235	19,104
Other cancer	855	1,886	2,741
Non-malignant	103,989	28,865	132,854
Unknown	63	5,513	5,576
Total	**129,525**	**40,735**	**170,260**

In addition, certain pending GST Asbestos Claims against GST are the subject of settlements or judgments. Prior to the Petition Date, GST entered into settlement agreements with certain GST Asbestos Claimants that were not paid prior to the Petition Date. Many assertedly settled GST Asbestos Claims were identified on Debtors' schedules of creditors that were filed in these cases. Additionally, as further detailed in Section 4.2 below, the Court entered an order requiring that settled GST Asbestos Claimants (unless scheduled and not disputed) file proofs of claim in these cases. Excluding duplicates and other administrative filing errors, and considering both scheduled settled GST Asbestos Claims and those asserted through filed proofs of claim, approximately 2,357 settled GST Asbestos Claims were asserted against GST asserting liability totaling $17,094,274.

The Debtors' review of asserted Settled GST Asbestos Claims to date has identified approximately 209 Settled GST Asbestos Claims claiming $4,830,900 in payments that are not disputed by Debtors. During the course of these cases, approximately 632 Settled GST Asbestos Claimants claiming $598,921 in payments withdrew their claims or their counsel indicated that the claims would be withdrawn or were not valid. Presently, approximately 1,516 claims asserting settlements totaling $11,664,464 are the subject of Debtors' objections and are disputed.

Finally, three judgments that were entered against GST prior to the Petition Date remain unsatisfied.

[9] *See* Order Approving Disclosure Statement and Establishing Asbestos Claims Bar Date and Procedures For Solicitation, dated April 10, 2015 (Docket No. 5134).

The first, *Garlock Sealing Technologies LLC v. Clephas* is a judgment from the Jefferson Circuit Court in the Commonwealth of Kentucky, dated November 27, 2007, in the amount of $150,125.00. GST noticed an appeal of the judgment, and the case was stayed when GST filed its Petition. The appeal remains unresolved, pending before the Kentucky Court of Appeals. GST posted a bond in the amount of $204,180 to stay execution of the judgment while the case was on appeal. Should the judgment be upheld, GST's liability on the judgment, including post-judgment interest and excluding costs, will total (as of June 1, 2016) approximately $394,556.13.

The second judgment, *Garlock Sealing Technologies LLC v. Torres*, is a judgment from the District Court of Cameron County, Texas in the amount of $1,300,000. GST noticed an appeal of the judgment, and the case was stayed when GST filed its Petition. GST's motion to lift the stay to prosecute its appeal was denied by the Bankruptcy Court. The appeal remains unresolved, pending before the Texas Court of Appeals, 13th District. GST did not post a bond in the matter. Should the judgment be upheld, GST's liability on the judgment, including post-judgment interest and excluding costs, as of June 1, 2016, was approximately $1,826,477.21.

The third judgment, *Garlock Sealing Technologies LLC v. Dexter*, is a judgment from the Marshall Circuit Court in the Commonwealth of Kentucky dated February 22, 2006 in the amount of $874,507.33. GST appealed the judgment, but the judgment was affirmed. Coltec purchased the judgment from the plaintiff and now has a claim against GST for the amount of the bond ($1.1 million) that is accruing interest at 11% per annum.

Of the claimants holding these judgment claims, only the *Torres* claimants appear to have filed proofs of claim under the October 6, 2015 bar date. As described above, to be paid by the Asbestos Trust, Pre-Petition Judgment GST Asbestos Claims must have filed a proof of claim on or before the Asbestos Claims Bar Date (or else obtain relief from the Bankruptcy Court). Moreover, the Asbestos Trust will have the right to appeal those judgments, which will only be paid as judgments if the Asbestos Trust decides not to appeal or the appeal is unsuccessful. The holders of these Claims may, however, pursue the Claims as non-judgment Claims subject to all applicable conditions prescribed by the CRP, including the requirement that they previously filed a proof of claim on or before the Asbestos Claims Bar Date (or else obtain relief from the Bankruptcy Court). Judgment claims will also be subject to a payment percentage, calculated as described in Section 3.5 of the CRP.

2.5 ASSETS AND LIABILITIES OF COLTEC

2.5.1 Assets and Liabilities of Coltec

As discussed in Section 2.2.3.2 *Results of Coltec's Combined Business Operations*, *supra*, Coltec either directly (through its divisions) or indirectly (through its direct and indirect foreign and domestic subsidiaries) owns all of the business operations of EnPro other than certain assets and liabilities held directly by the parent entity.

The following table presents condensed consolidating balance sheets (unaudited) as of March 31, 2016 (the "**Consolidating Balance Sheet**") for: (i) the Parent, (ii) Coltec and its direct and indirect subsidiaries (excluding the Existing Debtors and their subsidiaries) on a combined

basis and (iii) the eliminations necessary to arrive at the consolidated results of EnPro on a consolidated basis.

The Consolidating Balance Sheet is not intended to reflect a fair market value of Coltec and its subsidiaries or present the financial condition thereof for any purpose other than to set forth certain information regarding the combined material assets and liabilities of Coltec and its direct and indirect foreign and domestic subsidiaries (other than the Existing Debtors and their subsidiaries) for purposes of this Disclosure Statement.

*Excludes the Existing Debtors and their subsidiaries

2.5.1.1 Long-Term Debt

Senior Notes. In September 2014, EnPro completed an offering of $300 million aggregate principal amount of 5.875% Senior Notes due 2022 (the "**Senior Notes**"). The Senior Notes were issued net of an original issue discount of $2.4 million. The Senior Notes are unsecured, unsubordinated obligations of EnPro that mature on September 15, 2022.

While the Senior Notes are a direct obligation of EnPro (and reflected as "Long-Term Debt" of EnPro in the Consolidating Balance Sheet), the Senior Notes are fully and unconditionally guaranteed on an unsecured, unsubordinated, joint and several basis by Coltec and certain of its subsidiaries (which do not include the Existing Debtors or their subsidiaries).

Revolving Credit Facility. EnPro and Coltec have a $300 million senior secured revolving credit facility (the "**Revolving Credit Facility**"), as reflected in the "Long-Term Debt" of Coltec and certain of its subsidiaries in the Consolidating Balance Sheet. Borrowings under the Revolving Credit Facility bear interest at an annual rate of LIBOR plus 2% or base rate plus 1%, although the interest rates under the Revolving Credit Facility are subject to incremental increases or decreases based on a consolidated total leverage ratio. In addition, a commitment fee accrues with respect to the unused amount of the Revolving Credit Facility.

EnPro and Coltec are the permitted borrowers under the Revolving Credit Facility. Each of the domestic, consolidated subsidiaries of EnPro (other than the Existing Debtors and their respective subsidiaries, for so long as they remain unconsolidated for financial reporting purposes) are required to guarantee the obligations of EnPro and Coltec under the Revolving Credit Facility, and each of the existing domestic, consolidated subsidiaries (which does not include the domestic entities of the Existing Debtors) has provided such a guarantee.

Borrowings under the Revolving Credit Facility are secured by a first-priority lien on certain of the assets of Coltec and its subsidiaries.

2.5.1.2 Affiliate Notes

As described in detail in Section 2.3.3.1, supra, in 2005 Coltec issued the Coltec Note to GST and Stemco TX issued the Stemco Note to GST. The Coltec Note and the Stemco Note are reflected, on a combined basis, as "Notes Payable to GST" in the Consolidating Balance Sheet.

2.5.1.3 Investment in Subsidiaries

The Consolidating Balance Sheet reflects investments in subsidiaries of the respective combined group using the equity method of accounting. Coltec's investment in the membership interests of GST is reflected as "Investment in GST" on such basis.

2.5.1.4 Coltec Insurance

Coltec purchased a number of primary and excess general liability insurance policies that were in effect from December 31, 1950 and thereafter. The policies provide coverage for "occurrences" happening during the policy periods and cover losses associated with product liability claims against Coltec and certain of its subsidiaries. As previously described, the Available Shared Insurance is the remaining coverage in the portion of the block of these insurance policies that included GST as an insured. That block ran from January 1, 1976, the year after Coltec purchased GST, to July 1, 1984, when Coltec's insurance policies began excluding asbestos-related losses from coverage (the "**Garlock Coverage Block**"). *See* Section 2.3.3 Insurance, *supra*. For insurance policies purchased by Coltec prior to January 1, 1976 ("**Pre-Garlock Coverage Block**"), GST was not an insured because it was not a Coltec subsidiary then. The aggregate face amount of primary and excess coverage in the Pre-Garlock Coverage Block is $308,366,000.

The table below shows policy periods and total products hazard aggregate limits of each primary policy in the Pre-Garlock Coverage Block.

Primary Policies
1951-1974

Carrier	Policy Number	Begin Date	End Date	Total Limits

Total Excess Limits				**$208,166,000**	

Because Coltec has not made an indemnity payment for a Coltec Asbestos Claim, it has not made an indemnity claim against a policy in the Pre-Garlock Coverage Block. Coltec did obtain reimbursement from certain primary carriers within that block for approximately $7 million in defense costs Coltec incurred defending Coltec Asbestos Claims. The payment of those defense costs did not erode any policy limits.

Many of the Pre-Garlock Coverage Block insurance carriers also issued policies in the Garlock Coverage Block. Prior to these Chapter 11 Cases, proceeds from such carriers' Garlock Coverage Block policies were used to pay a significant portion of the indemnity and defense payments made to resolve GST Asbestos Claims. To obtain continued funding of losses related to GST Asbestos Claims, GST and Coltec periodically entered into settlement agreements with insurance carriers between 1981 and 2004. A 1993 settlement between Coltec, Garlock, and INA resolved claims by Garlock under its own excess liability policies with INA, which were in effect from 1962-65. In exchange for payment of those limits (and some defense costs), Coltec released INA from asbestos claims under all "INA policies," which were broadly defined to include policies INA had issued to Coltec in the Pre-Garlock Coverage Block. In addition, GST and Coltec settled with the London Market Insurers to resolve coverage under policies such carriers issued or subscribed in the Garlock Coverage Block, which also had the effect of releasing coverage in the Pre-Garlock Coverage Block. The settlement agreements with INA and the London Market Insurers include indemnity provisions that purport to require Coltec to defend and indemnify the settling carriers for specified post-settlement claims that might be asserted by third parties against such carriers relating to settled insurance policies. INA issued $82 million of approximately $100.2 million of total primary insurance in the Pre-Garlock Coverage Block but any rights to indemnity INA may have against Coltec are limited to $9.75 million. The London Market Insurers issued $40 million of approximately $208 million of the total excess coverage.

The Debtors contend that any indemnity right against Coltec claimed by a settling carrier is a Coltec Asbestos Claim.

By virtue of the following corporate history, SPX Corporation ("**SPX**") succeeded to the asbestos liabilities and insurance rights related to the Fairbanks Morse Pump business.

- Prior to 1985, Fairbank Morse Pump was a division of Colt Industries Operating Corp. ("**CIOC**"), which was a wholly-owned subsidiary of Colt Industries, Inc., which later changed its name to Coltec Industries Inc.

- In 1985, CIOC sold the assets of the Fairbanks Morse Pump Division to FMPD Purchasing Corporation, which was subsequently renamed Fairbanks Morse Pump Corporation. Under the asset purchase agreement, Fairbanks Morse Pump Corporation assumed Fairbank Morse Pump's product liabilities (including those resulting from the pre-closing sale of asbestos-containing pump products) and acquired the right to secure defense and indemnity coverage under Coltec's pre-closing insurance policies with respect to the acquired liabilities. After the asset sale, CIOC merged with and into Coltec, with Coltec surviving the merger.

- In 1995, Fairbanks Morse Pump Corporation merged with and into a subsidiary of General Signal Corporation ("**General Signal**"), thereby becoming a wholly-owned subsidiary of General Signal. The surviving subsidiary of General Signal continued to operate under the name Fairbanks Morse Pump and retained products liabilities arising from the sale of pre-closing products and the right to claim insurance coverage for such liabilities under general liability policies issued to Coltec.

- In 1997, Fairbanks Morse Pump Corporation, General Signal, and certain other affiliates sold substantially all the assets and liabilities of the Fairbanks Morse Pump business to Pentair Inc. ("**Pentair**"). General Signal retained Fairbanks Morse Pump's asbestos liabilities and insurance rights for products sold prior to 1997.

- In 1998, SPX acquired General Signal and in 2003 General Signal merged with SPX.

Because neither Fairbanks Morse Pump Corporation, General Signal, SPX, nor Pentair is party to any settlement agreement resolving rights against policies in the Pre-Garlock Coverage Block, any rights that SPX or Pentair may have against the limits remaining under such policies are not affected by any such agreements.

Prior to these Chapter 11 Cases, SPX received Coltec Asbestos Claims related to Fairbanks Morse Pump, either directly or through Pentair. In light of SPX's rights to the Shared Available Insurance, Garrison assumed the defense of Fairbanks Morse Pump cases in order to preserve coverage in the Garlock Coverage Block for GST Asbestos Claims. In doing so, Garrison obtained dismissals of Fairbanks Morse Pump claims without payment, often as part of a settlement of GST Asbestos Claims.

To continue protecting the Available Shared Insurance during these Chapter 11 Cases, the Existing Debtors filed an adversary proceeding complaint and a motion for preliminary

injunction seeking an order barring claimants from pursuing asbestos claims against, among other parties, Coltec, any Non-Debtor Affiliate, or any successor to the Fairbanks Morse Pump division. The Bankruptcy Court issued the requested injunction. *See* Section 3.1.3 Adversary Proceeding Obtaining Stay of Asbestos-Related Litigation Against Non-Debtor Affiliates, *infra*.

Under the Comprehensive Settlement, Coltec and the Existing Debtors retain ownership of all of their rights respecting insurance policies, including any rights they may have to seek reimbursement under the policies for the $480 million in aggregate contributions they make to the Trust under the Plan. Coltec and the Existing Debtors have the sole right to sue for and compromise claims against insurance carriers. Coltec and the Existing Debtors are entitled to collect, as reimbursement for their pre-petition asbestos claim payments or contributions to the Trust, 100% of (a) the full aggregate amount of any settlements and judgments related to insurance policies in the Garlock Coverage Block and (b) the first $25 million of any settlements and judgments related to insurance policies in the Pre-Garlock Coverage Block. Amounts Coltec may collect in excess of $25 million related to insurance policies in the Pre-Garlock Coverage Block will be shared equally by Coltec and the Trust. In addition, in connection with any compromise or settlement with an Asbestos Insurance Entity or successor Entity before entry of the Confirmation Order, the Debtors and Reorganized Debtors will, subject to the right of the Committee and FCR to object, add such Asbestos Insurance Entity to Exhibit E and/or successor Entity (including SPX and Pentair) to Exhibit D. The Committee and FCR will have the right to object to addition of an Asbestos Insurance Entity to Exhibit E or successor Entity to Exhibit D if they reasonably believe in good faith that (a) the terms of such compromise or settlement, (b) the addition of such Asbestos Insurance Entity to Exhibit E or successor Entity to Exhibit D, or (c) the extension of the Asbestos Channeling Injunction to such Asbestos Insurance Entity or successor Entity would (i) result in the channeling or transfer to, or assumption by, the Asbestos Trust of any Claims, Demands, duties, obligations, or liabilities (A) that are not Asbestos Claims or Asbestos Trust Expenses or (B) that are not otherwise contemplated to be the responsibility of the Asbestos Trust under this Plan; or (ii) result in or impose undue burden or expense on the administration of the Asbestos Trust or the Asbestos Trust Assets. Before making any such addition to Exhibit D or Exhibit E, the Debtors are required to disclose to the FCR and the Asbestos Claimants Committee the terms of the underlying compromise or settlement and sufficient information concerning the relevant Asbestos Insurance Entity or successor Entity to enable the FCR and the Asbestos Claimants Committee to evaluate the proposed addition under the criteria specified in the preceding sentence. The Bankruptcy Court will hear and determine any such objection.

2.5.1.5 Other Assets and Liabilities

For additional information regarding the consolidated assets and liabilities of EnPro, please see the EnPro Quarterly Report on Form 10-Q for the three months ended March 31, 2016 and the EnPro Annual Report on Form 10-K for the year ended December 31, 2015. These documents are available online at http://www.enproindustries.com/sec-filings.

2.5.2 Asbestos Claims Against Coltec Industries Inc

Claimants first began suing Coltec in approximately 1992. Plaintiffs named either Coltec or businesses for whose conduct Coltec or one of its predecessors was alleged to be responsible,

including “Fairbanks Morse,” “Fairbanks Morse Engine,” “Fairbanks Morse Pump,” “Quincy Compressor,” “Central Moloney,” “France Compressor,” “Delavan,” and “Farnam.” Though Coltec received tens of thousands of such claims, and has spent approximately $7.9 million in defense costs on claims naming Coltec or Coltec-related businesses, Coltec has never made an indemnity payment on an asbestos claim. Any Asbestos Claims against Coltec or any other Asbestos Protected Parties involving allegations about these businesses—or any other businesses or products for which Coltec is alleged to be responsible, including derivative GST Asbestos Claims—are in Class 5, will be channeled to the Asbestos Trust, and will be subject to the Asbestos Channeling Injunction.

Fairbanks Morse. Plaintiffs named “Fairbanks Morse” or “Fairbanks Morse Engine” (“**FME**”) in complaints, alleging exposure to asbestos from components, principally gaskets, in engines and locomotives. Some of these gaskets were likely manufactured by GST, although not all of them were.

The Fairbanks Morse business was founded in the nineteenth century. From the 1930s, the business manufactured engines at its Beloit, WI plant. For example, during World War II, Fairbanks Morse engines were used in submarines for the U.S. Navy, as well as in destroyers and landing ships. Fairbanks Morse engines were also used in power plants and locomotives.

Coltec’s predecessor acquired control over Fairbanks Morse & Co. in 1958, and Coltec owned it as a subsidiary until 1986, when the successor to Fairbanks Morse merged with Coltec (then known as Colt Industries Inc.). Fairbanks Morse is currently a Coltec division. As part of the Coltec Restructuring, Fairbanks Morse will become a separate legal entity and will not continue as a division of Coltec.

The following table summarizes the total number of asbestos claims naming FME for each disease category (where available); the number of those claims that were dismissed; and the number of those claims that are still open:

Alleged disease	Dismissed	Open	Total
Mesothelioma	202	122	324
Lung Cancer	139	42	181
Other Cancer	35	3	38
Non-malignant	5,023	1,346	6,369
No specified disease	6,932	381	7,313
Total	**12,331**	**1,894**	**14,225**

No indemnity was ever paid for an FME asbestos claim. The FME claims were resolved only by dismissal or in connection with payments on GST asbestos claims. About two-thirds of the FME claims also named GST.

Fairbanks Morse Pump. Plaintiffs named “Fairbanks Morse Pump” (“**FMP**”) alleging exposure to asbestos from components in pumps, principally gaskets and packing. Some of the gaskets and packing were likely manufactured by GST, although not all of them were. The Fairbanks Morse business described above also had a pump division, which manufactured water-based pump systems in Kansas City, KS. The Fairbanks Morse business was in a Coltec

subsidiary in 1985 when, as described in more detail above in Section 2.5.1.4, that subsidiary sold the assets of the FMP division to FMPD Purchasing Corporation (renamed Fairbanks Morse Pump Corporation (“**FMPC**”)). Fairbanks Morse Pump Corporation assumed FMP’s product liabilities (including any resulting from the pre-closing sale of asbestos-containing pump products), and obtained rights against Coltec’s insurance. The Coltec subsidiary merged with Coltec in 1986. FMPC was acquired by General Signal Corporation in 1995, which sold the FMP assets to Pentair Inc. in 1997, while retaining any liability for FMP asbestos claims. SPX acquired General Signal in 1998 and merged with General Signal in 2003, retaining any liabilities for FMP asbestos claims and corresponding rights against Coltec insurance. Garrison continued to receive and defend the FMP asbestos claims.

The following table summarizes the total number of claims naming FMP for each disease category (where available); the number of those claims that were dismissed; and the number of those claims that are still open:

Alleged disease	Dismissed	Open	Total
Mesothelioma	796	707	1,503
Lung Cancer	436	341	777
Other Cancer	198	93	291
Non-malignant	8,272	3,190	11,462
No specified disease	15,043	1,451	16,494
Total	**24,745**	**5,782**	**30,527**

No indemnity was ever paid for an FMP asbestos claim. The FMP claims were resolved only by dismissal or in connection with payments on GST asbestos claims. Over three-fourths of the FMP claims also named GST.

Quincy Compressor. Plaintiffs named “Quincy Compressor” (“**Quincy**”), alleging exposure to asbestos from components in compressors, principally gaskets. Some of those gaskets were likely manufactured by GST, although not all of them were.

Coltec’s predecessor acquired Quincy Inc in 1966, and the successor of that subsidiary eventually merged into Coltec, with Quincy thereafter operated as a division of Coltec. In December 2009, Coltec sold the assets of the Quincy division to Fulcrum Acquisition LLC, retaining any liability for asbestos claims.

The following table summarizes the total number of asbestos claims naming Quincy for each disease category (where available); the number of those claims that were dismissed; and the number of those claims that are still open:

Alleged disease	Dismissed	Open	Total
Mesothelioma	40	34	74
Lung Cancer	41	46	87
Other Cancer	16	6	22
Non-malignant	1,970	201	2,171
No specified disease	5,355	129	5,484

Total	**7,422**	**416**	**7,838**

No indemnity was ever paid for a Quincy asbestos claim. The Quincy claims were resolved only by dismissal or in connection with payments on GST asbestos claims. Over 40% of the Quincy claims also named GST.

Central Moloney. According to Garrison's database, plaintiffs named "Central Moloney" as a defendant in three cases. Garrison believes the suits alleged that transformers Central Moloney manufactured contained asbestos gaskets. At certain points in time, Coltec or its predecessors operated a division named Central Moloney Transformer or owned a subsidiary named Central Transformer Corporation, Central Transformer Inc, or Central Moloney Inc.

No indemnity was ever paid for a Central Moloney asbestos claim. The three claims remain open, according to Garrison's records. Two of the three claims also name GST.

France Compressor. Plaintiffs have named "France Compressor" as a defendant, alleging exposure to asbestos from components in compressors. Divisions named France Products and France Compressor Products were, at various times, operated by GST, and then after 1995, as a subsidiary of Coltec. In fact, the various entities or businesses known as France Compressor made parts for compressors, not compressors, and never marketed or manufactured any asbestos-containing products.

According to Garrison's database, plaintiffs named "France Compressor" 47 times in asbestos litigation, all in 1994, 1995, or 2000. Five of the suits alleged lung cancer, forty alleged non-malignant conditions, and two did not specify an alleged disease. According to the database, 25 of the claims remain open. No indemnity was ever paid for a France Compressor asbestos claim, and the claims were resolved only by dismissal or in connection with payments on asbestos claims against GST. All of the suits named GST as well.

Delavan. According to Garrison's database, plaintiffs named "Delavan" (or sometimes "Delevan" or "Delavan Instruments") collectively 3,711 times, all between 1999 and 2002. The allegations in these lawsuits appear to have involved equipment that allegedly had asbestos-containing components. At certain points in time, Coltec or its predecessors operated divisions named Delavan Gas Turbine Products, Delavan Spray, Delavan-Carroll, Delavan Steel Treating and Delavan Power Generation and owned subsidiaries named Delavan Inc, Delavan-Carroll Inc., Delavan-Delta, Inc., and Delavan Spray, LLC.

The following table summarizes the number of claims naming Delavan for each disease category (where available); the number of those claims that were dismissed; and the number of those claims that are still open:

Alleged disease	Dismissed	Open	Total
Mesothelioma	16	10	26
Lung Cancer	19	11	30
Other Cancer	11	1	12
Non-malignant	1,077	584	1,661
No specified disease	1,779	152	1,931

Total	**2,902**	**758**	**3,660**

No indemnity was ever paid for a Delavan asbestos claim, and the claims were resolved only by dismissal or in connection with payments on asbestos claims against GST. All but 70 of the suits named GST as well.

Farnam. According to Garrison's database, plaintiffs have named "Farnam" as a defendant 209 times, all in 1994, 2003, and 2004. Garrison believes the claims alleged Farnam was a regional distributor of asbestos-containing products, including gaskets, or manufactured asbestos-containing gaskets. At certain points in time, Coltec or its predecessors operated a division named Farnam Sealing Systems or owned a subsidiary named F. D. Farnam Co., F.D. Farnam Inc, or Farnam Sealing Systems Inc.

The following table summarizes the number of claims naming Farnam for each disease category (where available); the number of those claims that were dismissed; and the number of those claims that are still open:

Alleged disease	Dismissed	Open	Total
Mesothelioma	0	0	0
Lung Cancer	8	0	8
Other Cancer	5	1	6
Non-malignant	169	21	190
No specified disease	0	5	5
Total	**182**	**27**	**209**

No indemnity was ever paid for a Farnam asbestos claim, and the claims were resolved only by dismissal or in connection with payments on GST asbestos claims. All but one of the suits named GST as well.

Coltec or EnPro. Finally, plaintiffs from time to time named Coltec or EnPro in complaints directly, usually without any particular product allegations, but presumably on the basis of allegations involving either GST or one or more of the businesses listed above. EnPro itself has never manufactured or sold any asbestos-containing products. The following table summarizes the number of claims naming Coltec or EnPro rather than one of the businesses above for each disease category (where available), the number of those claims that were dismissed; and the number of those claims that are still open:

Alleged disease	Dismissed	Open	Total
Mesothelioma	428	314	742
Lung Cancer	864	639	1,503
Other Cancer	608	74	682
Non-malignant	10,822	11,377	22,199
No specified disease	44,288	4,729	49,017
Total	**57,010**	**17,133**	**74,143**

No indemnity was ever paid for an asbestos claim against Coltec or EnPro, and the claims were resolved only by dismissal or in connection with payments on GST asbestos claims. More than 85% of the suits named GST as well.

For purposes of the Plan, claimants who allege and can establish contact as required by the CRP with asbestos-containing components of any of the products of Fairbanks Morse Engine, Fairbanks Morse Pump, Quincy Compressor, Central Moloney, France Compressor, Delavan, Farnam, or any other Coltec business operation will be able to establish Coltec/GST Product Contact as defined by the CRP. Such claimants will be entitled to present only a single claim for payment, however, and not multiple claims (and will not receive any additional payment on account of any contact with GST asbestos-containing products), just as GST Asbestos Claimants will be entitled to present only a single claim for payment even if they also had contact with Coltec products.

2.5.3 Coltec Restructuring and Assets and Liabilities of Filing Entity OldCo, LLC

The Coltec Restructuring is an essential part of the Comprehensive Settlement that was carefully negotiated and vetted by the Plan Proponents prior to entering into the Comprehensive Settlement. The restructuring is necessary to an expeditious implementation of the Comprehensive Settlement and to avoid disruption and damage to EnPro's businesses. The Comprehensive Settlement would not have been reached and cannot be consummated without the Coltec Restructuring. If Coltec Industries Inc were to file for Chapter 11 reorganization without first consummating the Coltec Restructuring, it would not provide any additional compensation to pay Asbestos Claims under the Plan, and Coltec would not have agreed to the Comprehensive Settlement absent agreement that the Coltec Restructuring would occur.

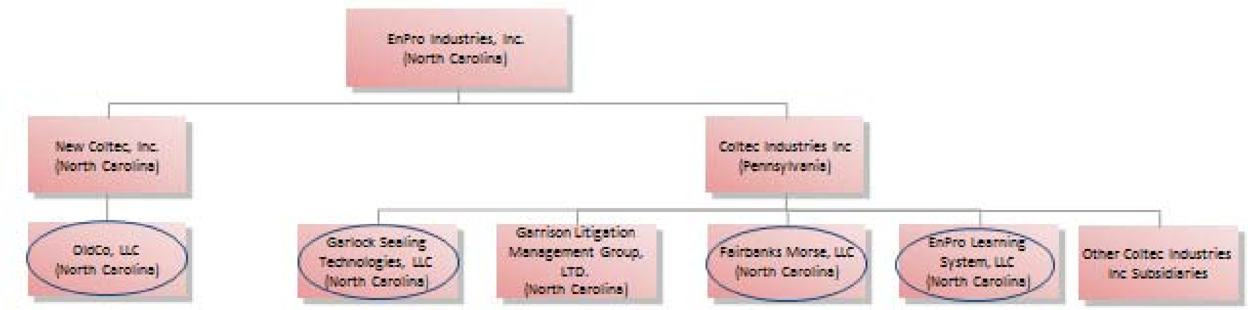
As explained in more detail following, the Coltec Restructuring involves (i) a contribution of an operating division of Coltec Industries Inc, *Fairbanks Morse*, to a new, wholly-owned subsidiary of Coltec Industries Inc and, subsequently, (ii) the merger of Coltec Industries Inc with and into a new wholly-owned indirect subsidiary of EnPro, OldCo, LLC, a North Carolina limited liability company and (iii) a distribution of certain assets and liabilities of the former Coltec Industries Inc (including all of the ownership interests in the former subsidiaries of Coltec Industries Inc as acquired in the merger but excluding the Learning System assets and operations and the Garrison Equity Interests) to a new, wholly-owned direct subsidiary of EnPro, New Coltec, Inc., a North Carolina corporation ("**New Coltec**"). OldCo (as successor to Coltec Industries Inc) will then file a Chapter 11 petition to implement the Comprehensive Settlement, together with GST and Garrison, through the Plan.

Accordingly, except for Learning System and Garrison, the businesses operated by Coltec Industries Inc and its direct and indirect subsidiaries owned prior to the Coltec Restructuring will not be subject to the bankruptcy case. However, New Coltec will commit to provide sufficient cash to OldCo (as successor to Coltec Industries Inc), to fund OldCo's post-petition operations and administrative expenses and meet its obligations under the Plan and will enter into a keepwell agreement (the "**Keepwell**") in favor of OldCo as more fully described later in this section.

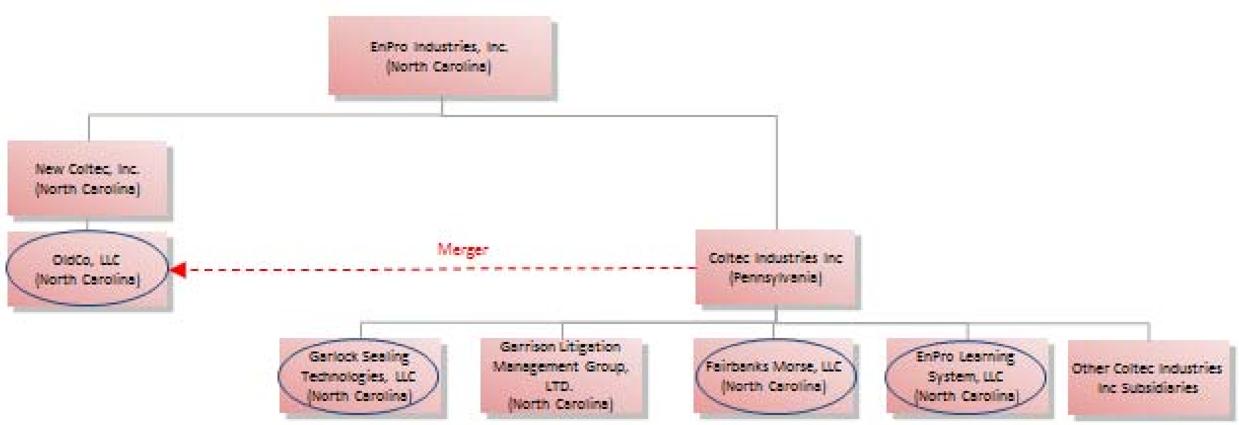
The Coltec Restructuring will take place in two stages:

The first stage commenced shortly after the execution and announcement of the Comprehensive Settlement and is projected to be completed prior to acceptance of the Plan by the Asbestos Claimants. Coltec Industries Inc has formed a direct, wholly-owned subsidiary, Fairbanks Morse, LLC, a North Carolina limited liability company ("**New Fairbanks Morse**"). Coltec Industries Inc will contribute all of the assets and liabilities related to the operation of its Fairbanks Morse division to New Fairbanks Morse during the fourth calendar quarter of 2016. New Fairbanks Morse will not be part of OldCo when that company's Chapter 11 petition is eventually filed.

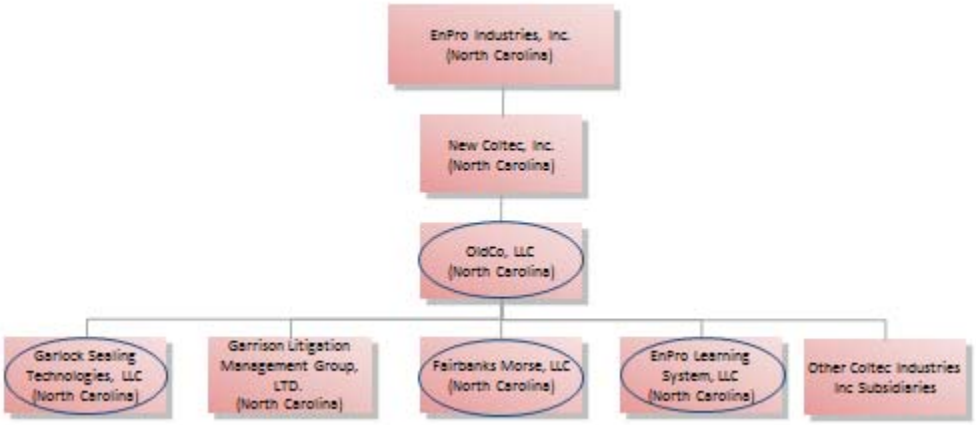
During this initial stage, in preparation for the second stage, EnPro will also form New Coltec, and certain administrative and general corporate functions will migrate from Coltec Industries Inc to New Coltec. After its formation, New Coltec will itself form OldCo. Upon completion of this first stage, the simplified organizational structure of EnPro will be as follows:



The second stage of the Coltec Restructuring will not occur unless and until the Balloting Agent files the Voting Certification confirming that Asbestos Claimants have accepted the Plan in requisite numbers and amounts. This stage will not be consummated unless at least 75% of the voting Asbestos Claimants holding at least two-thirds of the claim amounts vote to accept the Plan. If that condition is met, Coltec Industries Inc will then merge with and into OldCo, with OldCo being the surviving entity of the merger, as depicted below.



As a result of this merger, OldCo (as the successor to Coltec Industries Inc) will be a direct, wholly-owned subsidiary of New Coltec, with the ownership of all of the direct subsidiaries of Coltec Industries Inc transferring by merger to OldCo, as set forth in the following simplified organizational structure.

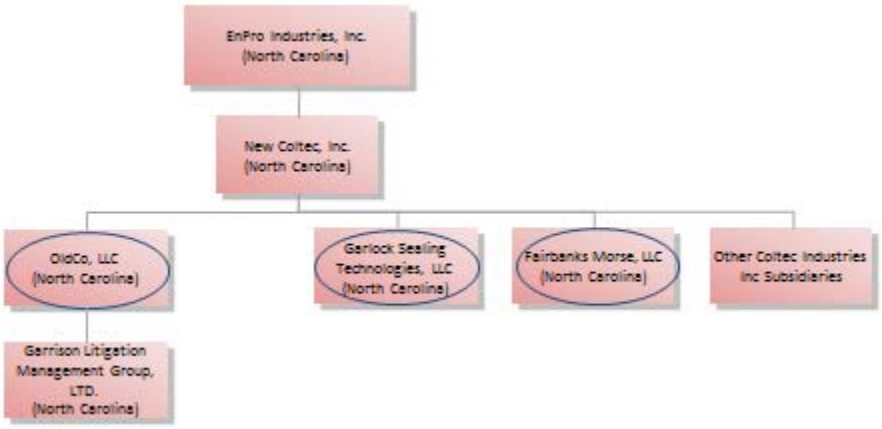


OldCo will then distribute and transfer all of its assets and ownership interests in its direct subsidiaries (including all of the ownership interests in the former subsidiaries of Coltec Industries Inc as acquired in the merger), except for Learning System, the Garrison Equity Interests, and certain insurance rights and assets, to its parent, New Coltec. As part of this distribution, New Coltec will assume all of OldCo's liabilities except for obligations related to Coltec Asbestos Claims and GST Asbestos Claims. The assumed liabilities will include OldCo's obligations (as successor to Coltec) under the Coltec Note, the Coltec Guaranty, and related documents, and GST will request the Bankruptcy Court to enter an order releasing OldCo from its obligations under the Coltec Note and Coltec Guaranty and permitting substitution of New Coltec as the obligor under those instruments.

In connection with the distribution, New Coltec will also commit to contribute cash to Coltec in an amount which will be sufficient to fund Coltec's $30 million cash contribution to the Asbestos Trust on the Effective Date and, as reasonably estimated by EnPro, OldCo's anticipated cash needs during the administration of its Chapter 11 case. In addition, New Coltec will enter into the Keepwell in favor of OldCo committing to make further contributions to OldCo as necessary to maintain its solvency and to provide for its financial stability. In consideration of the Keepwell, OldCo will agree not to incur indebtedness other than ordinary course business expenses of Learning System and the costs and expenses of administration of its Chapter 11 case.

Learning System will then be merged with and into OldCo, with OldCo being the surviving entity of the merger.

Upon completion of the distribution and the merger of Learning System, the simplified organizational structure of EnPro will be as follows:



OldCo (as successor to Coltec Industries Inc) will then file a Chapter 11 petition to implement the Comprehensive Settlement, together with GST and Garrison, through the Plan. As a result of the Coltec Restructuring and as of the Coltec Petition Date, the filing entity OldCo will hold or will have access to more than $30 million in cash, will own and operate the *Learning System* business as an operating division, will own the Garrison Equity Interests and will have certain access to capital from New Coltec under the Keepwell, which will provide for OldCo's solvency and financial stability during the pendency of the Chapter 11 proceedings following the Coltec Petition Date. OldCo (as successor to Coltec Industries Inc) will be responsible for any liability associated with Coltec Asbestos Claims, but will agree to incur no other liabilities except those incurred in the ordinary course of business of its Learning System division. OldCo (as successor to Coltec Industries Inc) may continue to have secondary liability for certain of its legacy non-asbestos liabilities assumed by New Coltec as part of the distribution described above, but New Coltec will have primary responsibility for all such liabilities and contractual obligations to OldCo with respect to such liabilities.

3. THE CHAPTER 11 FILINGS

3.1 SIGNIFICANT EVENTS DURING THE COURSE OF THE CHAPTER 11 CASES

There have been many pleadings filed with the Bankruptcy Court, and many hearings have been conducted in connection with such pleadings. A general description of significant events related to Asbestos Claims during the Chapter 11 Cases follows. Pleadings referenced below may be obtained from the Bankruptcy Court for review. The docket for each case should be consulted to obtain a complete list of pleadings filed and events scheduled.

3.1.1 Appointment of Official Creditors Committees and the Future Claimants' Representative

3.1.1.1 Official Committee of Unsecured Creditors

The Official Committee of Unsecured Creditors ("**Unsecured Creditors' Committee**") was formed by order of the Court entered June 17, 2010 (Docket No. 104).

3.1.1.2 Asbestos Claimants Committee

The Committee was formed by order of the Court entered on June 16, 2010 (Docket No. 101), and the makeup of the Committee was modified by order entered on July 20, 2010 (Docket No. 260). The current members of the Committee are the following (listed with the law firm representing each member):

Committee Member	Law Firm
Diane Allen	Kazan, McClain, Satterley & Greenwood, PLC
William Ames Warren	Simmons Hanly Conroy
Timothy Koeberle	Waters & Kraus, LLP
Madonna Guzzo	Lipsitz & Ponterio, LLC
Robert Wirwicz	Thornton & Naumes, LLP
Charles and Loretta Willis	Simon Greenstone Panatier Bartlett, PC
Gary Terry	Cooney & Conway
Deborah Papaneri	Paul, Reich & Myers, PC
Sheri Hoover	Motley Rice LLC
Ellen Fox	Weitz & Luxenberg
Denis Burns	Belluck & Fox, LLP
Joseph D. Boyer	The Jaques Admiralty Law Firm, PC

3.1.1.3 Representative for Future Asbestos Claimants

The Court entered an order appointing Joseph W. Grier, III as the FCR (Docket No. 512) on September 16, 2010.

3.1.2 Employment of Professionals

The Debtors, the Unsecured Creditors' Committee, the Committee and the FCR have employed the following professionals in the Chapter 11 Cases with the Bankruptcy Court's approval (except for the Debtors' Ordinary Course Professionals that were employed by separate orders and disclosures):

EMPLOYED PROFESSIONALS

Professional	Scope of Representation	Date Approved
Rayburn, Cooper & Durham, P.A.	Bankruptcy Counsel to the Debtors	07/12/10 (Docket No. 200)
Robinson Bradshaw & Hinson, P.A.	Special Corporate and Litigation Counsel to the Debtors	07/12/10 (Docket No. 201)
Covington & Burling, LLP	Special Insurance Counsel to the Debtors	07/12/10 (Docket No. 202)
Del Sole Cavanaugh	Special Asbestos Defense Counsel to the Debtors	07/12/10 (Docket No. 203)
Schachter Harris, LLP	Special Asbestos Defense Counsel to the Debtors	07/21/10 (Docket No 264)
Bates White, LLC	Asbestos Claim Valuation Consultant to the Debtors	07/21/10 (Docket No. 265)
Grant Thornton, LLP	Audit Accountants for the Debtors	10/01/10 (Docket No. 577) and 9/30/11 (Docket No. 1537)
Forman, Perry, Watkins, Krutz & Tardy, LLP	Special Asbestos Defense Counsel to the Debtors	12/23/11 (Docket No. 971)
Katten Muchin Rosenman, LLP	Counsel to the Unsecured Creditors' Committee	09/16/10 (Docket No. 514)
FSB FisherBroyles	Substituted Counsel to the Unsecured Creditors' Committee	05/12/11 (Docket No. 1332)
Caplin & Drysdale, Chartered	Counsel to the Committee	08/16/10 (Docket No. 392)
Hamilton Moon Stevens Steele & Martin, PLLC	Former Co-Counsel to the Committee	08/06/10 (Docket No. 314)
Moon Wright & Houston, PLLC	Substituted Co-Counsel to the Committee	04/21/11 (Docket No. 1287)
Charter Oak Financial Consultants, LLC	Financial Advisors to the Committee	08/25/10 (Docket No. 423)
Legal Analysis Systems, Inc.	Asbestos Claim Valuation Consultant to the Committee	08/25/10 (Docket No. 424)
Orrick, Herrington & Sutcliffe, LLP	Counsel to the FCR	10/06/10 (Docket No. 580)
Grier, Furr & Crisp, P.A.	Co-Counsel to the FCR	09/30/10 (Docket No. 569)
Hamilton Rabinovitz & Associates, Inc.	Asbestos Claim Valuation Consultant to the FCR	12/09/10 (Docket No. 850)
Lincoln Partners Advisors, LLC	Financial Advisor to the FCR	12/17/10 (Docket No. 896)
FTI Consulting, Inc.	Financial Advisors to the Debtors	12/02/11 (Docket No. 1679)
Motley Rice LLC	Special Litigation Counsel to the Committee	07/03/12 (Docket No. 2343)

EMPLOYED PROFESSIONALS		
Professional	**Scope of Representation**	**Date Approved**
Waters & Kraus LLP	Special Litigation Counsel to the Committee	07/03/12 (Docket No. 2343)
A. M. Saccullo Legal, LLC	Delaware Counsel to the Committee	08/22/12 (Docket No. 2467)
Grossman & Moore PLLC	Kentucky Counsel to the Committee	12/04/12 (Docket No. 2660)

3.1.3 Adversary Proceeding Obtaining Stay of Asbestos-Related Litigation Against Non-Debtor Affiliates

On June 7, 2010, the Existing Debtors filed an adversary proceeding complaint, *Garlock Sealing Technologies LLC, et al. v. Those Parties Listed on Exhibit B to Complaint and Unknown Asbestos Claimants* (Adversary Proceeding No. 10-03145, United States Bankruptcy Court for the Western District of North Carolina), and a motion for preliminary injunction seeking an order barring asbestos claimants from pursuing claims against Coltec or any Non-Debtor Affiliate. On June 7, 2010, the Bankruptcy Court issued a temporary restraining order (Docket No. 9) and on June 21, 2010, a preliminary injunction (Docket No. 14) granting the requested relief.

On April 30, 2012, the Committee and the FCR filed their Joint Motion to Modify Preliminary Injunction in Order to Permit Certain Claims to Proceed in conjunction with their Joint Motion of the Official Committee of Asbestos Personal Injury Claimants and the Future Claims Representative for Leave to Control and Prosecute Certain Claims as Estate Representatives. This motion sought leave to pursue claims against Coltec and certain Non-Debtor Affiliates as more specifically described in Section 2.3.5.1 above. The Court denied the Committee and FCR's motion for leave without prejudice in the Order Denying Leave (Adv. Proc. No. 10-03145, Docket No. 51).

3.1.4 Extensions of Exclusivity Period

The Court entered three orders extending the Existing Debtors' exclusive periods to file and solicit acceptances of a Chapter 11 plan. By order of the Court entered on May 20, 2011 (Docket No. 1349), the Court granted the Existing Debtors' final extension of (i) the exclusive period to file a reorganization plan (or plans) through November 28, 2011 and (ii) the exclusive period to solicit acceptances of a plan through and including January 26, 2012. The Existing Debtors filed a Plan of Reorganization (Docket No. 1664) on November 28, 2011 (the "**Initial Plan**"), prior to the termination of their exclusive period to file a reorganization plan, but did not solicit acceptances of the Initial Plan. Therefore, as of January 26, 2012, the Existing Debtors' exclusive periods to file and solicit acceptances to a Chapter 11 plan have expired, and any party in interest may file an alternative Chapter 11 plan and seek permission of the Bankruptcy Court to solicit acceptances for such a plan. As of the filing of this Disclosure Statement, no other party in interest has filed a plan. The Existing Debtors filed their First Amended Plan of

Reorganization on May 29, 2014 and their Second Amended Plan of Reorganization on January 14, 2015.

3.1.5 December 9, 2010 Discovery Order

On December 9, 2010, the Bankruptcy Court entered an order (Docket No. 853) (the "**December 9 Order**") establishing a six-month period for "conducting preliminary discovery related to estimation, for purposes of formulating a plan of reorganization, of the Debtors' liability for pending and future asbestos-related claims for personal injury and wrongful death." The December 9 Order also permitted the Committee and FCR to conduct a six-month period of discovery regarding pre-petition related party transfers and the 2005 Corporate Restructuring that produced the Coltec Note and the Stemco Note.

3.1.6 Order Granting the Existing Debtors' Motion for Estimation of Mesothelioma Claims

On December 2, 2011, the Existing Debtors moved the Bankruptcy Court to estimate the aggregate number and amount of allowed current and future mesothelioma claims against Debtors GST and Garrison pursuant to Bankruptcy Code Section 502(c) (Docket No. 1683) (the "**Estimation Motion**"). On April 13, 2012, the Bankruptcy Court entered the Order for Estimation of Mesothelioma Claims (Docket No. 2102) (the "**Estimation Order**") granting the Estimation Motion and setting the scope and purpose of the estimation proceeding. The Bankruptcy Court concluded that it would hold a trial to estimate allowed mesothelioma claims pursuant to Bankruptcy Code Section 502(c) for the purpose of determining the feasibility of any Chapter 11 plan of reorganization that might be proposed in the Cases. The Bankruptcy Court initially scheduled the estimation trial to commence on December 3, 2012 but eventually continued the trial to July 22, 2013.

In the Estimation Order, the Bankruptcy Court ruled that it would consider properly supported evidence based upon both the "settlement approach," which the Committee and FCR proposed to employ for the estimation of mesothelioma claims, and the "legal liability approach," which Debtors proposed to employ.

3.1.7 Estimation Trial and Order Estimating Aggregate Mesothelioma Liability

For more than two years before the estimation trial, the Existing Debtors, Coltec, the Committee, and the FCR engaged in contentious, time-consuming, and expensive litigation regarding the proper scope of discovery of evidence supporting their respective theories of estimation. Discovery permitted by the Bankruptcy Court, often over the objection of one or more of the parties, included:

- A questionnaire issued to Asbestos Claimants who asserted pending mesothelioma claims against GST, requiring such claimants to provide basic information about their claims, including: asbestos exposure information relating to GST's and third parties' products; facts about their lawsuits in the tort system; tort defendants against which they had asserted claims and the status of such

claims; and bankruptcy trusts against which they had asserted claims and the status of such claims.

- Two supplemental questionnaires issued to different samples of pending mesothelioma claimants, seeking information about known exposures to asbestos and aggregate data regarding claimants' settlement and other recoveries from tort defendants and from bankruptcy trusts.
- Subpoenas by the Existing Debtors for ballots from other bankruptcy cases, seeking copies of ballots cast by or on behalf of asbestos personal injury claimants in those cases.
- A subpoena by the Existing Debtors to the Delaware Claims Processing Facility, seeking data regarding claims filed by persons whose mesothelioma claims GST and Garrison settled between 1999 and 2010.
- Subpoenas by the Existing Debtors to six law firms who represented plaintiffs in fifteen resolved mesothelioma cases, seeking documents and testimony pertaining to those plaintiffs' asbestos exposures.
- Extensive discovery by the Committee and FCR issued to Debtors and certain third parties, pertaining to the history of asbestos litigation against the Debtors.
- Settlement approval and trial evaluation forms containing privileged communications between GST, Garrison, and their in-house lawyers and outside defense lawyers that contained evaluations of certain cases that GST settled, which were produced before and during the estimation hearing pursuant to the Court's finding of a limited waiver of privilege.
- Dozens of fact and expert witness depositions taken by Debtors, the Committee, the FCR, and Coltec.

From July 22 to August 22, 2013, over seventeen trial days, the Bankruptcy Court conducted an evidentiary hearing pursuant to the Estimation Order to determine a reliable aggregate estimate of GST's present and future mesothelioma claims. The Existing Debtors' experts projected Garlock's aggregate mesothelioma liability at not more than $125 million, and the Committee and FCR offered opinions from each of their experts estimating that GST's aggregate liability for mesothelioma claims exceeded $1 billion.

That trial culminated in entry on January 10, 2014 of the 65-page Estimation Opinion, in which the Bankruptcy Court estimated GST's aggregate liability for present and future mesothelioma claims at $125 million. *See In re Garlock Sealing Technologies LLC*, 504 B.R. 71, 97 (Bankr. W.D.N.C. 2014). The Committee took the position that the Estimation Opinion was interlocutory, and stated its intention to appeal from that decision once it became a final order or otherwise ripe for appellate review. The Debtors maintain that the Estimation Opinion is correct and is the law of the case.

Because of the great magnitude of mesothelioma claims in comparison to claims based on other allegedly asbestos-related diseases, the parties agreed and the Bankruptcy Court ordered that the estimation proceeding would not include any estimated liability for non-mesothelioma claims. *Id.* at 75. As noted above, the Bankruptcy Court also excluded asbestos-related claims against Anchor from its estimate.

3.1.8 Committee's Motion to Reopen Estimation Record

On June 4, 2014, the Committee moved the Bankruptcy Court to reopen the record of the estimation proceeding to permit the Committee to present supplemental evidence after taking additional discovery from the Existing Debtors and then to seek modification of the Estimation Opinion based on such additional evidence. (Docket Nos. 3725 and 3726). The Existing Debtors and Coltec objected. (Docket Nos. 3725 and 3726). On December 4, 2014, the Bankruptcy Court denied the Committee's motion. (Docket. Nos. 4260 and 4274; 12/4/2014 transcript).

3.1.9 Committee Discovery Regarding Pre-Petition Transactions

Pursuant to the December 9 Order authorizing discovery from the Existing Debtors, Coltec, and other affiliates relating to the 2005 Corporate Restructuring and other pre-petition insider transactions, the Committee and FCR propounded multiple interrogatories and requests for production of documents on the Existing Debtors, Coltec, other non-debtor affiliates, and certain third parties. The respondents produced voluminous documents. The discovery obtained eventually resulted in decisions by the Committee and the FCR to file their Joint Motion for Leave, Proposed Complaint, and Motion for Modification seeking to assert breach of fiduciary duty claims against the Former Managers and fraudulent transfer, unjust enrichment, conspiracy to defraud, successor liability, alter ego, and other claims against the Corporate Defendants. *See supra*, Section 2.3.5.1 (Avoidance Actions).

3.1.10 The Debtors' Initial Plan of Reorganization

On November 28, 2011, the Debtors filed their Initial Plan (Docket No. 1664), as well as the Disclosure Statement for Debtors' Joint Plan of Reorganization (Docket No. 1666) (the "**First Disclosure Statement**") and the exhibit book related to the Initial Plan (Docket No. 1665). The Debtors filed a supplemental exhibit book on December 16, 2011 (Docket No. 1722). The Committee and FCR each filed objections to approval of the First Disclosure Statement (Docket Nos. 1806 and 1808), to which the Debtors responded (Docket No. 1823). The Court did not hold a hearing on approval of the First Disclosure Statement.

3.1.11 The Debtors' First Amended Plan of Reorganization

On May 29, 2014, the Existing Debtors filed the Debtors' First Amended Plan of Reorganization (Docket No. 3708), as well as the Disclosure Statement for Debtors' First Amended Plan of Reorganization (Docket No. 3710) (the "**Second Disclosure Statement**") and the exhibit book related to the Debtors' First Amended Plan of Reorganization (Docket No. 3709). The Committee filed objections to approval of the Second Disclosure Statement (Docket Nos. 3961 and 4107), to which the Debtors responded (Docket No. 4094). The Court did not hold a hearing on approval of the Second Disclosure Statement.

3.1.12 The Settlement Agreement with the Future Claimants' Representative Regarding the Second Amended Plan

Following entry of the Estimation Opinion on January 10, 2014, the Existing Debtors met on numerous occasions with the FCR and the Committee to negotiate terms of a plan of

reorganization that would be agreeable to both the FCR and the Committee. The negotiations failed to result in a consensual plan.

The Debtors simultaneously and separately discussed with the FCR and Committee the terms of plans that would be agreeable to each. On January 9, 2015, Debtors and the FCR reached an agreement in principle on a plan that the FCR would support, resolving all GST Asbestos Claims. On January 13, 2015, the Debtors and the FCR reached substantial agreement on the Second Amended Plan, which incorporated the agreement with the FCR.

Although the Second Amended Plan retained the fundamental structure of the First Amended Plan, to support the Plan, the FCR requested, and the Debtors agreed to provide, increased funding for GST Asbestos Claimants (including increased funding for a Settlement Facility that would extend settlement offers to qualifying GST Asbestos Claimants, as well as increased contingent funding for the litigation of GST Asbestos Claims), as well as various changes to the CRP to benefit GST Asbestos Claimants.

Neither the Initial Plan, the First Amended Plan, nor the Second Amended Plan sought to resolve and treat Coltec Asbestos Claims in their entirety as a class.

3.1.13 Preliminary Confirmation Proceedings on the Now-Superseded Second Amended Plan

Confirmation proceedings on the now-superseded Second Amended Plan commenced and progressed through preliminary stages. On January 26, 2015, on motions made or supported by the Debtors and the FCR, and over the objections or limited objections of the Committee, the Bankruptcy Court granted the Asbestos Claims Bar Date, established certain solicitation and confirmation procedures, and approved a disclosure statement for the Second Amended Plan.

The voting deadline on the Second Amended Plan was October 6, 2015. On December 4, 2015, the Balloting Agent reported that the holders of current GST Asbestos Claims in Class 4 had rejected the Second Amended Plan by a large margin. As they had previously stated, however, the Existing Debtors announced that they would ask the Bankruptcy Court to confirm the Second Amended Plan, despite Class 4's rejection of it, in accordance with the "cramdown" provisions of the Bankruptcy Code. On October 6, 2015 and December 18, 2015, the Committee filed objections to the Second Amended Plan, contending that the plan was unconfirmable on various grounds, as did certain persons who described themselves as being at risk of malignancies and therefore as potential future GST Asbestos Claimants. (Docket Nos. 4883, 4885, 5160).

As of January 2016, discovery pertaining to the Second Amended Plan and the objections thereto was underway, and the parties were preparing for a contested confirmation hearing that was scheduled to commence on June 20, 2016. Additionally, the Bankruptcy Court was scheduled to hear argument, commencing on January 6, 2016, on certain cross-motions for summary judgment that the parties had filed and briefed. These cross-motions for summary judgment raised certain threshold issues going to whether or not the Second Amended Plan was confirmable under the Bankruptcy Code or could be "crammed down" over objections. *See* Committee's Motion For Summary Judgment Denying Confirmation Based on Plan's Failure to

Comply with Bankruptcy Code Section 524(g) (Docket No. 5071) and Motion for Partial Summary Judgment That Class 4 Claims Are Impaired and the FCR Has No Authority to Vote on the Plan (Docket No. 5069); Debtors' and FCR's Motion for Partial Summary Judgment That Section 524(g) Is Not Exclusive and the FCR Has Authority to Vote (Docket No. 5072); Opposition of the Official Committee of Asbestos Personal Injury Claimants to the Debtors and Future Claims Representative's Motion for Partial Summary Judgment (Docket No. 5159); Debtors' and FCR's Opposition to Committee Motion for Summary Judgment on 524(g) and FCR Authority To Vote (Docket No. 5161); Debtors' Opposition to Committee Motion for Partial Summary Judgment That Class 4 Is Impaired (Docket No. 5162).

3.1.14 Litigation Moratorium

On January 5, 2016, the Existing Debtors, the Committee and the FCR jointly requested the Bankruptcy Court to order a suspension of litigation on confirmation issues related to the Second Amended Plan in order to accommodate negotiations on a fully consensual plan of reorganization. This request for a litigation stay followed several months of negotiations between the Committee and the FCR on claims resolutions procedures that would be an integral part of any fully consensual settlement. Based on the progress made in the negotiations regarding the claims resolution procedures, the Committee proposed negotiations involving four parties—the Debtors, the Committee, the FCR, and Coltec—that would address all terms of a plan of reorganization and that would fully resolve asbestos claims against Coltec as well as those against GST.

The Bankruptcy Court continued the hearing on the parties' cross motions for summary judgment from January 6, 2016 to March 1, 2016 and the parties agreed to a 30-day moratorium on discovery in the confirmation proceedings. The Bankruptcy Court also continued the hearing on the proposed confirmation of the Second Amended Plan to August 15, 2016. As negotiations progressed, EnPro joined the discussions, and the parties agreed to extend the moratorium twice and to continue the summary judgment hearings, first until March 10, 2016, and then indefinitely.

3.1.15 Ad Hoc Coltec Asbestos Claimants Committee and Discussions Resulting In Comprehensive Settlement

In mid-February 2016, the parties reached an understanding that, for purposes of the negotiations, an *ad hoc* committee should be established for Coltec Asbestos Claimants and that an *ad hoc* legal representative for holders of future Coltec Asbestos Claims should also participate. The Ad Hoc Coltec Committee was formed consisting of attorneys from each of the following plaintiffs' law firms: Belluck & Fox; Cooney & Conway; The Jaques Admiralty Law Firm; Simon, Greenstone, Panatier & Bartlett; Thornton & Naumes; and The Lanier Law Firm. Each of these, other than The Lanier Law Firm, already represented and continues to represent an Asbestos Claimant against GST on the Committee. All of the aforementioned law firms, including The Lanier Law Firm, represent Coltec Asbestos Claimants and filed claims on behalf of those individuals before the litigation was stayed in 2010. The Committee and the Ad Hoc Coltec Committee thereafter functioned in unison in the negotiations and continue to do so with respect to the Plan, based on the overlapping claims histories and essential unity of interests as between GST Asbestos Claimants and Coltec Asbestos Claimants.

Also in mid-February 2016, Joseph W. Grier, III, the current FCR in the Chapter 11 Cases, agreed to serve as the *ad hoc* legal representative for future Coltec Asbestos Claimants. Mr. Grier thereafter participated in the negotiations in both capacities, and continues to act in both capacities with respect to the Plan, based on the overlapping claims histories and essential unity of interests as between GST Asbestos Claimants and Coltec Asbestos Claimants.

On March 17, 2016, EnPro and the Plan Proponents entered into the Comprehensive Settlement by signing the Term Sheet for Permanent Resolution of All Present and Future GST Asbestos Claims and Coltec Asbestos Claims. *See* Exhibit 2 hereto. Each of the parties agreed to recommend that Asbestos Claimants accept and vote in favor of the Plan, which incorporates the Comprehensive Settlement, and to use their best efforts to prepare and obtain the entry of orders of the Bankruptcy Court and the District Court confirming such a plan and issuing the injunctions described in the Plan and this Disclosure Statement.

4. IMPORTANT BAR DATES AND DEADLINES

4.1 NON-ASBESTOS CLAIMS BAR DATE

On September 7, 2011, the Bankruptcy Court entered the Bar Date Order (Docket No. 1478) (the "**Non-Asbestos Claims Bar Date Order**"), which established December 12, 2011 as the bar date for Non-Asbestos Claims against the Existing Debtors. Pursuant to the Non-Asbestos Bar Date Order, absent relief from the Bankruptcy Court, **any Holder of a Non-Asbestos Claim against GST, Garrison, or Anchor that failed to file such a timely proof of Claim to the extent required by such Order, applicable Bankruptcy Code sections or Bankruptcy Rules, or other orders of the Bankruptcy Court with the Bankruptcy Court on or before such time shall have their Claim be deemed a Disputed Claim against any of the Existing Debtors or alternatively, shall be deemed to have such Claim as was listed in the Schedules of Assets and Liabilities, as may be amended, filed by an Existing Debtor in the amount scheduled so long as the Claim was not scheduled as disputed, contingent or unliquidated. Pursuant to the terms of the Non-Asbestos Bar Date Order, the Plan, and the Confirmation Order, any such Claim and the Holder thereof will be enjoined from commencing or continuing any action, employment of process or act to collect, offset, recoup or recover such Claim other than to seek to have such Claim determined to be an Allowed Claim in the Bankruptcy Court.**

4.2 SETTLED GST ASBESTOS CLAIMS BAR DATE

On April 28, 2014, Debtors filed a Motion for an Order (A) Establishing a Bar Date for Filing Settled GST Asbestos Claims, (B) Approving the Proof of Claim Form and (C) Approving the Form of and Procedures for Notice to Settled GST Asbestos Claims (Docket No. 3590) (the "**Settled Claims Bar Date Motion**"). On July 9, 2014, over objections filed by the Committee, the Court entered its Order on Debtors' Motion to Establish Bar Date for Settled Asbestos Claims and Related Relief, setting September 30, 2014 as the Settled Claims Bar Date, by which holders of settled GST Asbestos Claims that were unscheduled or were scheduled as disputed were required to file their proofs of claim.

On October 20, 2014, the Debtors moved to disallow certain disputed settled GST Asbestos Claims because the Holders of such settled GST Asbestos Claims failed to file proofs of claim by the Settled Claims Bar Date. (Docket Nos. 4168-4171). On December 9, 2014, the Court entered orders disallowing such claims (Docket Nos. 4261-4264).

Under the terms of the Plan and CRP, settled GST Asbestos Claims that were not scheduled as undisputed and did not file their claims on or before the Settled Claims Bar Date will not be entitled to payment as settled GST Asbestos Claims unless they obtain relief from the Bankruptcy Court. Claimants who did not meet the Settled Claims Bar Date may pursue their claims against the Asbestos Trust as unsettled Asbestos Claims, subject to all other CRP criteria.

4.3 BAR DATE FOR CERTAIN GST ASBESTOS CLAIMS

On November 26, 2014, the FCR filed a Motion for an Asbestos Claims Bar Date and Related Relief (Docket No. 4247), seeking a bar date for manifested but unliquidated asbestos personal injury claims. Over the objections of the Committee, the Bankruptcy Court entered the Asbestos Claims Bar Date and Solicitation Order, which established a bar date of October 6, 2015 (the "**Asbestos Claims Bar Date**") for certain GST Asbestos Claims. GST Asbestos Claimants were subject to the Asbestos Claims Bar Date if their Claim is based on an asbestos-related disease that was diagnosed on or before August 1, 2014, for which a lawsuit against any defendant or a claim against any asbestos trust was filed on or before August 1, 2014, excluding any settled GST Asbestos Claim for which a proof of claim was filed on or before September 30, 2014, but including any GST Asbestos Claims based on pre-petition judgments or any Settled GST Asbestos Claim seeking treatment as an unliquidated GST Asbestos Claim because a proof of claim was not filed for such Settled GST Asbestos Claim on or before the Settled Claims Bar Date, September 30, 2014.

Under the Plan and CRP, Asbestos Claimants who were subject to the Asbestos Claims Bar Date but did not timely file a ballot or proof of claim will not be entitled to a payment from the Asbestos Trust unless they obtain relief from the Bankruptcy Court.

4.4 BAR DATE FOR CERTAIN COLTEC ASBESTOS CLAIMS

In connection with the Plan, and after Coltec commences its bankruptcy case, Coltec will request that the Court set a bar date for certain Coltec Asbestos Claims (the "**Coltec Asbestos Claims Bar Date**"). The bar date proposed will be March 2, 2017. If the Court grants Coltec's request, Coltec Asbestos Claimants will be required to file a proof of claim on or before the Coltec Asbestos Claims Bar Date if such claim is based on an asbestos-related disease that was diagnosed on or before August 1, 2014, and for which a lawsuit against any defendant or claim against any trust was filed on or before August 1, 2014, unless (i) such claimant filed a proof of claim on account of a GST Asbestos Claim, or (ii) such claimant submitted a Ballot in connection with the vote on the now-superseded Second Amended Plan, which will be treated as a proof of claim for purposes of the Coltec Asbestos Claims Bar Date. Such proofs of claim must be returned to the Balloting Agent by first-class mail or courier at the address in the Voting Procedures so as to be received on or before March 2, 2017.

Under the Plan and CRP Asbestos Claimants who are subject to the Coltec Asbestos Claims Bar Date but do not timely file a ballot on the Plan now proposed or proof of claim will not be entitled to a payment from the Asbestos Trust unless they obtain relief from the Bankruptcy Court.

4.5 ADMINISTRATIVE CLAIMS BAR DATE

All parties seeking payment of an Administrative Expense Claim that is not a Fee Claim must File with the Bankruptcy Court and serve upon the Debtors a request for payment of such Administrative Expense Claim prior to the applicable deadline set forth below. However, parties seeking payment of postpetition ordinary course trade obligations, postpetition payroll obligations incurred in the ordinary course of a Debtor's postpetition business, and amounts arising under agreements approved by the Bankruptcy Court or the Plan need not File such a request.

All Holders of Administrative Expense Claims that are not Fee Claims must File with the Bankruptcy Court and serve on the Debtors a request for payment of such Claim so as to be received on or before 4:00 p.m. (Eastern Time) on the date that is the first Business Day after the date that is thirty (30) days after the Effective Date, unless otherwise agreed to by the appropriate Debtor or Reorganized Debtor, without further approval by the Bankruptcy Court. Failure to comply with these deadlines shall forever bar the holder of an Administrative Expense Claim from seeking payment thereof.

Any Holder of an Administrative Expense Claim that is not a Fee Claim that does not assert such Claim in accordance with Section 5.3.1 of the Plan shall have its Claim deemed Disallowed under this Plan and be forever barred from asserting such Claim against any of the Reorganized Debtors, the Debtors, their Estates or their assets. Any such Claim and the Holder thereof shall be enjoined from commencing or continuing any action, employment of process, or act to collect, offset, recoup or recover such Claim.

4.6 FEE CLAIM BAR DATE

All parties seeking allowance or payment of a Fee Claim must File with the Bankruptcy Court and serve upon the Debtors a motion or application for allowance or payment of such Fee Claim in accordance with the Fee Order by the date that is the first Business Day after the date that is ninety (90) days after the Effective Date. The Plan Proponents may extend that deadline by agreement without further order of the Bankruptcy Court. Failure to comply with the applicable deadline set forth herein shall forever bar the Holder of a Fee Claim from seeking payment thereof.

Any Holder of a Fee Claim that does not assert such Claim in accordance with the Fee Order and the Plan shall have its Claim deemed Disallowed under this Plan and be forever barred from asserting such Claim against any of the Debtors, their Estates, or their assets. Any such Claim and the Holder thereof shall be enjoined from commencing or continuing any action, employment of process or act to collect, offset, recoup or recover such claim.

Any objection to a Fee Claim shall be Filed and served in accordance with a scheduling order to be entered by the Bankruptcy Court, at the request of the Plan Proponents. **Each of the Plan Proponents expressly reserves the right to object to any Fee Claim prior to, on, and after the Effective Date, subject to the provisions of this Plan and the aforementioned scheduling order.**

5. SUMMARY OF THE PLAN

5.1 OVERVIEW OF THE PLAN

The Plan's treatment of Asbestos Claims is described in detail in the preceding "Summary of the Plan of Reorganization and the Claims Resolution Procedures," and will not be repeated here. The following discussion instead summarizes other material terms of the Plan for the convenience of Holders of Claims and Interests.

THE SUMMARY OF THE PLAN SET FORTH BELOW IS NOT A COMPLETE RECITATION OF THE TERMS OF THE PLAN. THE DESCRIPTIONS OF THE PLAN CONTAINED IN THIS DISCLOSURE STATEMENT ARE PROVIDED FOR YOUR CONVENIENCE ONLY. IF THERE IS ANY VARIATION BETWEEN THIS SUMMARY AND THE PLAN ITSELF, THE TERMS OF THE PLAN CONTROL.

A TRUE AND CORRECT COPY OF THE PLAN IS ATTACHED AS EXHIBIT 1 IN THE EXHIBIT BOOK. YOU ARE URGED TO READ THE PLAN AND THE EXHIBIT BOOK IN THEIR ENTIRETY SO THAT YOU MAY MAKE AN INFORMED JUDGMENT CONCERNING THE PLAN.

5.2 CLASSIFICATION AND TREATMENT OF CLAIMS

5.2.1 Provisions for Payment of Administrative Expense Claims and Priority Tax Claims

Article 2 of the Plan deals with unclassified Claims. In accordance with Section 1123(a)(1) of the Bankruptcy Code, Administrative Expense Claims and Priority Tax Claims are not classified and are excluded from the Classes set forth in Article 3 of the Plan.

Administrative Expense Claims are treated as follows:

(a) Administrative Expense Claims for goods sold or services rendered representing liabilities incurred by the Debtors in the ordinary course of business during the Chapter 11 Cases involving customers, suppliers, or trade or vendor Claims shall be paid by the Debtors or the Reorganized Debtors in the ordinary course in accordance with the terms and conditions of any agreements relating thereto;

(b) Administrative Expense Claims for amounts necessary to cure executory contracts and unexpired leases assumed by the Debtors will be paid by the Debtors or Reorganized Debtors as soon as practicable after the Effective Date or as ordered by the Bankruptcy Court;

(c) Amounts due Holders of other Allowed Administrative Expense Claims, including, without limitation, Allowed Fee Claims or Claims arising pursuant to Section 503(b)(9) of the Bankruptcy Code, will be paid as soon as practicable after the Effective Date or as ordered by the Bankruptcy Court, unless otherwise agreed between the Debtors and such Holders; and

(d) Administrative Expense Claims of the Bankruptcy Administrator for fees pursuant to 28 U.S.C. § 1930(a)(6) and (7) will be paid in accordance with the applicable schedule for payment of such fees by Debtors.

The Debtors will be in a position to estimate the total of all Allowed Administrative Expense Claims on the Effective Date after the passage of the Administrative Claims Bar Date.

Allowed Priority Tax Claims will be paid 100% of the unpaid Allowed Amount of such Allowed Priority Tax Claim in Cash by the Reorganized Debtors on the Distribution Date, though any penalty relating to any Priority Tax Claim (other than a penalty of the type specified in Section 507(a)(8)(G) of the Bankruptcy Code) will be Disallowed and not paid. The Debtors estimate the total of all Allowed Priority Tax Claims on the Effective Date to be approximately one hundred fifty thousand dollars ($150,000).

5.2.2 Classified Claims

There are ten (10) Classes of Claims and Interests under the Plan, whose treatment is described in Article 3 of the Plan.

The unimpaired Classes of Claims and Interests are Priority Claims (Class 1), Secured Claims (Class 2), Workers' Compensation Claims (Class 3), Intercompany Claims (Class 4), GST General Unsecured Claims (Class 6), Coltec General Unsecured Claims (Class 7), Anchor Claims (Class 8), and Other Debtor Equity Interests (Class 10). The impaired Classes of Claims and Interests are Asbestos Claims (Class 5) and GST/Garrison Equity Interests (Class 9).

5.2.2.1 Class 1. Priority Claims

Class 1 consists of all Priority Claims against the Debtors, defined as any Claim against GST, Garrison, or Coltec other than an Administrative Expense Claim or Priority Tax Claim to the extent such Claim is entitled to priority in right of payment under Section 507 of the Bankruptcy Code (but excluding any Asbestos Claims). Each Holder of an Allowed Priority Claim shall be paid the Allowed Amount of its Allowed Priority Claim either (i) in full, in Cash, on the Distribution Date, or (ii) upon such other less favorable terms as may be mutually agreed upon between the Holder of an Allowed Priority Claim and the Reorganized Debtors. Class 1 is unimpaired. The Holders of the Allowed Priority Claims in Class 1 are deemed to have voted to accept the Plan and, accordingly, their separate vote will not be solicited.

5.2.2.2 Class 2. Secured Claims

Class 2 consists of all Secured Claims, defined as a Claim against GST, Garrison, or Coltec that is: (i) secured by a lien (as such term is defined in Section 101(37) of the Bankruptcy Code) on property in which the Debtors have an interest, which lien is valid, perfected, and

enforceable under applicable law or by reason of a Final Order, or (ii) entitled to setoff under Section 553 of the Bankruptcy Code, to the extent of (A) the value of the Claimant's interest in the Debtor's interest in such property or (B) the amount subject to setoff, as applicable, as determined pursuant to Section 506(a) of the Bankruptcy Code (but excluding any Asbestos Claims).

Secured Claims will be treated as follows:

(a) Non-Tax Secured Claim. Subject to the provisions of Sections 502(b) and 506(d) of the Bankruptcy Code and the terms herein, each Holder of an Allowed Secured Claim other than an Allowed Secured Tax Claim shall, at the option of the Reorganized Debtors, receive treatment according to the following alternatives: (i) the Plan will leave unaltered the legal, equitable and contractual rights to which the Holder of such Claim is entitled, (ii) the Reorganized Debtors shall pay the Allowed Claim in full on the Effective Date or as soon thereafter as reasonably practicable; or (iii) the Reorganized Debtors shall provide such other treatment as is agreed to in writing between the Debtors or the Reorganized Debtors and the Holders of such Allowed Secured Claim.

(b) Secured Tax Claim. Except to the extent that a Holder of an Allowed Secured Tax Claim agrees to a different treatment, each Holder of an Allowed Secured Tax Claim shall receive 100% of the unpaid amount of such Allowed Secured Tax Claim in Cash from the Debtors or Reorganized Debtors on the Distribution Date.

Class 2 is unimpaired. The Holders of the Allowed Secured Claims in Class 2 are deemed to have voted to accept the Plan and, accordingly, their separate vote will not be solicited.

5.2.2.3 Class 3. Workers' Compensation Claims

Class 3 consists of all Workers' Compensation Claims, defined as any Claim against GST, Garrison, or Coltec (a) for benefits under a state-mandated workers' compensation system, which a past, present, or future employee of GST, Garrison, Coltec, or their predecessors is receiving, or may in the future have a right to receive and/or (b) for reimbursement brought by any insurance company or state agency as a result of payments made by such insurance company or state agency for the statutory benefit owed (but not paid) by GST, Garrison, or Coltec to such employees under such a system and fees and expenses that are incurred and reimbursable under any insurance policies or laws or regulations covering such statutory employee benefit claims. Workers' Compensation Claims do not include any right of such employee or any other Entity that exists outside of such state workers' compensation system.

Each Workers' Compensation Claim shall be reinstated and shall have all legal, equitable, and contractual rights to which each such Workers' Compensation Claim entitles the Holder of such Workers' Compensation Claim.

Class 3 is unimpaired. The Holders of the Workers' Compensation Claims in Class 3 are deemed to have voted to accept the Plan and, accordingly, their separate vote will not be solicited.

5.2.2.4 Class 4. Intercompany Claims

Class 4 consists of all Intercompany Claims, defined as any Claim by any Debtor against any other Debtor, or a Non-Debtor Affiliate against any Debtor, but excluding any Asbestos Claims or Anchor Claims. Each Intercompany Claim shall be reinstated and shall have all legal, equitable, and contractual rights to which each such Intercompany Claim entitles the Holder of such Intercompany Claim, except to the extent any such Claims are released pursuant to Section 8.4 of the Plan.

Class 4 is unimpaired. The Holders of Intercompany Claims in Class 4 are deemed to have voted to accept this Plan and, accordingly, their separate vote will not be solicited.

5.2.2.5 Class 5. Asbestos Claims

Class 5 consists of all Asbestos Claims against GST, Coltec, or Garrison. As described in detail in the Summary of the Plan of Reorganization and the Claims Resolution Procedures above, Asbestos Claims will be resolved in accordance with the terms, provisions, and procedures of the Asbestos Trust Agreement and the CRP. All Asbestos Claims shall be paid by the Asbestos Trust solely from the Asbestos Trust Assets as and to the extent provided in the CRP. Asbestos Claims shall not be deemed Allowed or Disallowed, but rather shall be resolved by the Asbestos Trust pursuant to the terms of the CRP.

The sole recourse of the Holder of an Asbestos Claim on account of such Asbestos Claim shall be to the Asbestos Trust pursuant to the provisions of the Plan, the Asbestos Channeling Injunction, the Asbestos Trust Agreement, and the CRP.

Also as described in the Summary of the Plan of Reorganization and the Claims Resolution Procedures, Foreign Asbestos Claims will not be channeled to the Asbestos Trust for resolution or paid by the Asbestos Trust unless the Holder files a lawsuit in the United States, and the rights of Holders of Foreign Asbestos Claims to recourse and remedies under applicable foreign law outside the United States (to the extent such rights exist) will be unaffected by the Plan, without prejudice to the Reorganized Debtors' defenses against any such claims.

Class 5 is impaired. The Debtors are soliciting the votes of Holders of the Asbestos Claims in Class 5 to accept or reject this Plan in the manner and to the extent provided in the Confirmation Procedures Order.

5.2.2.6 Class 6. GST General Unsecured Claims

Class 6 consists of all GST General Unsecured Claims against the Debtors, defined as any Claim against GST or Garrison that is not an Administrative Expense Claim, Priority Tax Claim, Priority Claim, Secured Claim, Workers' Compensation Claim, Intercompany Claim, or Asbestos Claim.

Each Holder of an Allowed Class 6 Claim shall be paid the Allowed Amount of its GST General Unsecured Claim on the Distribution Date. Such payment shall be (i) in full, in Cash, plus post-petition interest at the federal judgment rate in effect on the Petition Date, or (ii) upon

such other less favorable terms as may be mutually agreed upon between the Holder of an Allowed GST General Unsecured Claim and the Reorganized Debtors.

Class 6 is unimpaired. Holders of the Allowed GST General Unsecured Claims in Class 6 are deemed to have voted to accept the Plan and, accordingly, their separate vote will not be solicited.

5.2.2.7 Class 7. Coltec General Unsecured Claims

Class 7 consists of all Coltec General Unsecured Claims against the Debtors, defined as any Claim against Coltec that is not an Administrative Expense Claim, Priority Tax Claim, Priority Claim, Secured Claim, Workers' Compensation Claim, Intercompany Claim, or Asbestos Claim.

Each Coltec General Unsecured Claim shall be reinstated and shall have all legal, equitable, and contractual rights to which each such Coltec General Unsecured Claim entitles the Holder of such Coltec General Unsecured Claim.

Class 7 is unimpaired. The Holders of Coltec General Unsecured Claims in Class 7 are deemed to have voted to accept this Plan and, accordingly, their separate vote will not be solicited.

5.2.2.8 Class 8. Anchor Claims

Class 8 consists of all Anchor Claims, defined as any Claim against Anchor. Each Holder of an Anchor Claim shall be entitled to assert such Claim against Anchor in accordance with the provisions of Article 14 of Chapter 55 of the North Carolina Business Corporation Act. However, Holders of Anchor Claims will receive nothing because Anchor, which has no material property, shall be liquidated and dissolved.

Class 8 is unimpaired. Holders of Anchor Claims in Class 8 are deemed to have voted to accept the Plan and, accordingly, their separate vote will not be solicited.

5.2.2.9 Class 9. GST/Garrison Equity Interests

Class 9 consists of the GST/Garrison Equity Interests. On the Effective Date, Class 9 GST/Garrison Equity Interests shall be retained, subject to the Lien described in Section 7.3.2 of the Plan.

Class 9 is impaired. The Debtors are soliciting the votes of Holders of the GST/Garrison Equity Interests in Class 9 to accept or reject the Plan in the manner and to the extent provided in the Confirmation Procedures Order.

5.2.2.10 Class 10. Other Debtor Equity Interests

Class 10 consists of Other Debtor Equity Interests. The Plan leaves unaltered the legal, equitable, and contractual rights to which each such Other Debtor Equity Interest entitles the Holder of such Other Debtor Equity Interest.

Class 10 is unimpaired. The Holders of the Other Debtor Equity Interests in Class 10 are deemed to have voted to accept the Plan and, accordingly, their separate vote will not be solicited.

5.2.3 Resolution of Disputed Claims

Article 5 of the Plan sets forth provisions for treatment of Disputed Claims other than Asbestos Claims. Subject to the treatment provisions of this Plan, the Debtors or Reorganized Debtors, as applicable, may object to the allowance of any Plan Claims (other than Asbestos Claims) Filed with the Bankruptcy Court or to be otherwise resolved pursuant to any provisions of this Plan with respect to which they dispute liability, in whole or in part. Any such objections will be transferred to the Reorganized Debtors on the Effective Date for final resolution, and the Reorganized Debtors will have full authority to compromise, settle, or litigate such objections. This Article also describes the procedures for any such objections.

After the Confirmation Date, no Plan Claim may be Filed or amended to increase the amount or add or increase a lien or priority demanded unless otherwise provided by order of the Bankruptcy Court. Unless otherwise provided herein, any such new or amended Claim Filed after the Confirmation Date shall be disregarded and deemed Disallowed in full and expunged without need for objection, unless the Holder of such Claim has obtained prior Bankruptcy Court authorization for the filing.

Asbestos Claims will be resolved in accordance with the Asbestos Trust Agreement and the CRP.

5.2.4 Distribution on Account of Disputed Claims

Section 5.2 of the Plan describes how and under what circumstances Distributions shall be made to Holders of Disputed Claims. Disputed Claims shall be resolved in the manner described in Section 5.1 of the Plan and paid only when and to the extent that such Claims become Allowed.

5.3 IMPLEMENTATION OF THE PLAN

5.3.1 Vesting of Assets

Section 7.1 of the Plan describes the vesting of the assets and property of the Debtors in the appropriate Reorganized Debtors, which assets and property shall be free and clear of all Claims, Encumbrances, liens, and interests except as otherwise specifically provided in the Plan, in any of the Plan Documents, or in the Confirmation Order.

From and after the Effective Date, the Reorganized Debtors may operate their businesses and use, acquire, sell and otherwise dispose of property without supervision or approval of the Bankruptcy Court, free of any restrictions of the Bankruptcy Code, the Bankruptcy Rules, and the guidelines and requirements of the Bankruptcy Administrator, other than those restrictions expressly imposed by the Plan, the Plan Documents, or the Confirmation Order. The Plan reserves the right of the Reorganized Debtors to seek Bankruptcy Court approval for the sale, assignment, transfer, or other disposal of certain of the Reorganized Debtors' assets after the

Confirmation Date in the event that such Court approval is deemed to be necessary or appropriate.

5.3.2 Post-Confirmation Management and Corporate Governance Issues

Section 7.2.1 of the Plan provides that the Certificates of Incorporation, By-Laws, or Articles of Organization of the Debtors shall be amended as of the Effective Date as needed to effectuate the terms of the Plan and the requirements of the Bankruptcy Code, including prohibiting the issuing of nonvoting equity securities as required by Section 1123(a)(6) of the Bankruptcy Code.

Section 7.2.2 of the Plan describes the requirement for the Reorganized Debtors to maintain D&O and fiduciary liability tail coverage.

Section 7.11 of the Plan describes the management of Reorganized GST and Reorganized Garrison on and after the Effective Date. Key members of current management are expected to continue to be employed by the Reorganized Debtors.

5.3.3 The Asbestos Trust

Section 7.3 of the Plan provides for the creation and funding of the Asbestos Trust.

5.3.3.1 Creation of the Asbestos Trust

Section 7.3.1 of the Plan describes the creation of the Asbestos Trust, which shall be a "qualified settlement fund" for federal income tax purposes within the meaning of the treasury regulations issued pursuant to Section 468B of the IRC. The purposes of the Asbestos Trust will be to, among other things, (i) assume the liabilities of the Debtors with respect to all Asbestos Claims except as provided in Sections 8.4.2 and 8.5 of the Plan (with the Reorganized Debtors and Asbestos Protected Parties having no responsibility whatsoever for such Asbestos Claims, apart from transferring the Asbestos Trust Assets to the Asbestos Trust in accordance with the Plan); (ii) process, liquidate, pay, and satisfy Asbestos Claims (other than Foreign Asbestos Claims asserted outside the judicial system of the United States) in accordance, as applicable, with the Plan, the Asbestos Trust Agreement and the CRP and in such a way that provides reasonable assurance that the Asbestos Trust will value, and be in a financial position to pay, present and future Asbestos Claims (including Demands that involve similar claims) in substantially the same manner and to otherwise comply with Section 524(g)(2)(B)(i) of the Bankruptcy Code; (iii) preserve, hold, manage, and maximize the assets of the Asbestos Trust for use in paying and satisfying Asbestos Claims entitled to payment; (iv) qualify at all times as a "qualified settlement fund" for federal income tax purposes within the meaning of the treasury regulations issued pursuant to Section 468B of the IRC; (v) pay Asbestos Trust Expenses from the Asbestos Trust Assets as incurred (with the Reorganized Debtors and Asbestos Protected Parties having no responsibility whatsoever for any Asbestos Trust Expenses, apart from transferring the Asbestos Trust Assets to the Asbestos Trust in accordance with this Plan), and (vi) otherwise carry out the provisions of the Asbestos Trust Agreement and any other agreements into which the Asbestos Trustee has entered or will enter in connection with this Plan.

5.3.3.2 Funding of the Asbestos Trust

Section 7.3.2 of the Plan describes the funding of the Asbestos Trust. On the day immediately preceding the Effective Date, (a) GST or Garrison shall transfer $370 million in Cash to the Asbestos Trust; (b) Coltec shall transfer $30 million in Cash to the Asbestos Trust, and (c) Coltec, EnPro, and the Asbestos Trust shall enter into the Option and Registration Rights Agreement substantially in the form attached as Exhibit H to the Plan. On or before the first anniversary of the Effective Date, Coltec shall transfer the full amount of the Deferred Contribution ($60 million) in Cash to the Asbestos Trust.

Effective on the Effective Date and immediately following the merger of Coltec with and into New Coltec as provided in Section 7.10 of the Plan, the Deferred Contribution will be guaranteed by EnPro, pursuant to a Guaranty substantially in the form attached to the Plan as Exhibit J, and secured by a possessory lien on or possessory security interest in 50.1% of the GST/Garrison Equity Interests, which Lien shall be granted by New Coltec (immediately after its merger with Coltec) on the Effective Date to, and held by, the Asbestos Trust pursuant to a Pledge Agreement substantially in the form attached as Exhibit I to the Plan. The Plan describes the details of this lien.

Coltec will be entitled to prepay all or part of the Deferred Contribution at any time without penalty. Once the Deferred Contribution has been paid in Cash and in full to the Asbestos Trust, or otherwise satisfied by agreement of the Reorganized Debtors and the Asbestos Trust, the Lien will be released in accordance with the terms of the Pledge Agreement and the Guaranty will be terminated in accordance with the terms of the Guaranty. The Reorganized Debtors and the Asbestos Trust will be free to negotiate or enter into an agreement that would permit payment of the Deferred Contribution before the first anniversary of the Effective Date at an agreed discount rate.

As described in Section 7.3.3, upon the transfer of the Asbestos Trust Assets to the Asbestos Trust, they will be indefeasibly and irrevocably vested in the Asbestos Trust free and clear of all claims, Equity Interests, Encumbrances, and other interests of any Entity, subject to the Asbestos Channeling Injunction and certain other provisions of the Plan.

5.3.3.3 Assumption of Claims and Demands by the Asbestos Trust

Section 7.3.4 of the Plan describes how, on the Effective Date, without any further action of any Entity, all liabilities, obligations, and responsibilities of any Asbestos Protected Party, financial or otherwise, with respect to all Asbestos Claims will be channeled to and assumed by the Asbestos Trust (except as provided in Sections 8.4.2 and 8.5 of the Plan), and the Reorganized Debtors and other Asbestos Protected Parties will have no liability or responsibility, financial or otherwise, for Asbestos Claims (except for Foreign Asbestos Claims asserted outside the judicial system of the United States), other than to transfer the Asbestos Trust Assets to the Asbestos Trust in accordance with the Plan.

Except as otherwise provided in the Plan, the Asbestos Trust Agreement, or the CRP, the Asbestos Trust shall have any and all of the actions, claims, rights, defenses, cross-claims, counterclaims, suits, and causes of action of the Debtors and the other Asbestos Protected

Parties, whether known or unknown, at law, in equity or otherwise, arising under the laws of any jurisdiction, that are based on or attributable to (a) all defenses to any Asbestos Claims; (b) with respect to any Asbestos Claims, all rights of setoff, recoupment, contribution, reimbursement, subrogation, or indemnity (as those terms are defined by the nonbankruptcy law of any relevant jurisdiction), and any other indirect claim of any kind whatsoever and whenever arising or asserted; and (c) any other claims or rights with respect to Asbestos Claims that any of the Debtors or other Asbestos Protected Parties would have had under applicable law if the Chapter 11 Cases had not occurred and the Holder of such Asbestos Claim had asserted it by initiating civil litigation against any such Debtor or other Asbestos Protected Party (together, the "**Asbestos Trust Causes of Action**"), and the Asbestos Trust shall thereby become the estate representative pursuant to Section 1123(b)(3)(B) of the Bankruptcy Code with the exclusive right to enforce each of the Asbestos Trust Causes of Action, and the proceeds of the recoveries on any of the Asbestos Trust Causes of Action shall be deposited in and become the property of the Asbestos Trust. The Plan provides, however, that (a) the Asbestos Trust shall have no rights against the Reorganized Debtors or Asbestos Protected Parties other than the right to enforce the Plan or any of the other Plan Documents according to their respective terms, including the right to receive the Asbestos Trust Assets as provided in the Plan; (b) the Asbestos Trust Causes of Action shall not include any of the Asbestos Insurance Rights; (c) the Asbestos Trust Causes of Action shall not include any claim, cause of action, or right of the Debtors or any of them, under the laws of any jurisdiction, against any party, including the Asbestos Insurance Entities, for reimbursement, indemnity, contribution, breach of contract, or otherwise arising from or based on any payments made by the Debtors on account of asbestos claims prior to the Effective Date, (d) the Asbestos Trust Causes of Action shall not include any claims released, compromised, or settled under Section 8.4 of the Plan, and (e) for the avoidance of doubt, Asbestos Trust Causes of Action do not include any rights of the Debtors, the Reorganized Debtors, or the other Asbestos Protected Parties arising under the Asbestos Channeling Injunction or any of the other injunctions, releases, or the discharge granted under the Plan and the Confirmation Order.

5.3.3.4 Asbestos Trust Governance

Section 7.3.5 describes how the initial Asbestos Trustee will be Lewis R. Sifford, with any successor Asbestos Trustee appointed in accordance with the terms of the Asbestos Trust Agreement. It also describes the circumstances under which the Asbestos Trustee's employment will be deemed terminated.

Section 7.3.6 describes creation of the CAC and how it will be dissolved upon termination of the Asbestos Trust. Section 7.3.8 describes how the FCR will continue in service after the Effective Date, with his or her duties terminated upon termination of the Asbestos Trust.

5.3.3.5 Cooperation Agreement

Section 7.3.7 of the Plan describes how, on the Effective Date, the Reorganized Debtors and the Asbestos Trust will enter into a cooperation agreement substantially in the form included as Exhibit C to the Plan. This agreement will govern the Reorganized Debtors' obligations to share certain documents and other information pertaining to Asbestos Claims with the Asbestos Trust.

5.3.3.6 Asbestos Insurance Rights

Section 7.3.10 describes how the Debtors and Reorganized Debtors shall retain ownership of all their Asbestos Insurance Rights, including their rights to seek reimbursement for their contributions to the Asbestos Trust under the Plan. Exhibit E to the Plan identifies the Asbestos Insurance Entities that are Asbestos Protected Parties. Subject to the terms set forth in Section 7.3.10, the Debtors and Reorganized Debtors shall have the sole right to assert, and the sole discretion to compromise and settle, Asbestos Insurance Actions or any other Asbestos Insurance Rights, as well as settle with any successor Entities who may have insurance rights related to any of Coltec's former business divisions. In connection with any such compromise or settlement with an Asbestos Insurance Entity or successor Entity before entry of the Confirmation Order, the Debtors and Reorganized Debtors will, subject to Section 7.3.10 of the Plan, add such Asbestos Insurance Entity to Exhibit E and/or successor Entity to Exhibit D and thereby designate such Asbestos Insurance Entity and/or successor Entity as an Asbestos Protected Party. The Committee and FCR shall each have the right to object to any addition of an Asbestos Insurance Entity to Exhibit E or successor Entity to Exhibit D if they reasonably believe in good faith that (a) the terms of such compromise or settlement, (b) the addition of such Asbestos Insurance Entity to Exhibit E or successor Entity to Exhibit D, or (c) the extension of the Asbestos Channeling Injunction to such Asbestos Insurance Entity or successor Entity would (i) result in the channeling or transfer to, or assumption by, the Asbestos Trust of any Claims, Demands, duties, obligations, or liabilities (A) that are not Asbestos Claims or Asbestos Trust Expenses or (B) that are not otherwise contemplated to be the responsibility of the Asbestos Trust under this Plan; or (ii) result in or impose undue burden or expense on the administration of the Asbestos Trust or the Asbestos Trust Assets. The Bankruptcy Court will hear and determine any such objection. Before making any such addition to Exhibit D or Exhibit E, the Debtors will disclose to the Committee and the FCR the terms of the underlying compromise or settlement and sufficient information concerning the relevant Asbestos Insurance Entity or successor Entity to enable the Committee and the FCR to evaluate the proposed addition under the criteria specified in the previous sentence. Upon being added to Exhibit E or Exhibit D, any such Asbestos Insurance Entity or successor Entity will receive the benefits and protections of an Asbestos Protected Party under the Asbestos Channeling Injunction.

Any recovery by the Debtors or Reorganized Debtors of settlements or judgments related to Asbestos Insurance Policies will generally be for their own account as reimbursement for their pre-petition asbestos claim payments or contributions to the Trust. The exception is that Coltec's recoveries from any Additional Coltec Insurer and/or from any successor on account of the Additional Coltec Insurance will be allocated between the Asbestos Trust and Coltec as follows: Coltec will retain all recoveries up to the first $25 million and fifty percent (50%) of recoveries in excess of the first $25 million and will contribute to the Asbestos Trust (or have contributed directly to the Asbestos Trust) fifty percent (50%) of recoveries in excess of the first $25 million.

Section 12.2 of the CRP sets forth requirements for the Asbestos Trust to provide the Debtors, Reorganized Debtors, or settling Asbestos Insurance Entities certain information reasonably relating to Asbestos Claims submitted to and accepted and paid by the Asbestos Trust.

5.3.4 Distributions Under the Plan and Delivery of Distributions

Sections 7.4, 7.5, and 7.6 of the Plan describe payments and distributions under the Plan and procedures for delivering distributions and handling undeliverable distributions. All payments of Asbestos Claims and Asbestos Trust Expenses will be handled by the Asbestos Trust.

5.3.5 Dissolution of Anchor

As of the Effective Date, Anchor shall be dissolved under North Carolina General Statues §§ 55-14-01 et seq. Such dissolution shall occur as soon as reasonably practicable following the Effective Date.

Upon the Effective Date, Anchor, through its directors and officers, shall commence winding down its businesses and affairs, including, without limitation, marshaling its assets for the benefit of all constituencies. All Holders of Class 8 Anchor Claims shall be permitted, after the Effective Date, to assert and pursue claims against Anchor, and such claims shall be fully reinstated to the *status quo ante* as of the Petition Date. Claims against Anchor shall not be assumed or paid by the Asbestos Trust.

5.3.6 Conditions to the Consummation of the Plan, Right to Withdraw or Amend Plan

Without limitation, each of the conditions to Confirmation of the Plan and to the Plan's Effective Date as set forth in Sections 7.8 and 7.9 of the Plan, respectively, is required to have occurred or have been waived by the Plan Proponents for the Effective Date of the Plan to occur and the Plan and treatment of Claims described therein to become operative.

Debtors and EnPro have the right to waive certain conditions acting alone. One of those unilaterally waivable conditions is the achievement of a settlement (the "**Canadian Settlement**") between the Debtors, EnPro, and Garlock of Canada Ltd and the Canadian provincial workers' compensation boards (the "**Provincial Boards**") resolving all remedies the Provincial Boards may possess under Canadian law or in the United States under U.S. law against Garlock of Canada Ltd, Debtors, or any Affiliate of Debtors. The Provincial Boards are represented by Motley Rice LLC. A condition of confirmation of the Plan is that the Canadian Settlement shall have been agreed to by those parties and Debtors and the Bankruptcy Court shall have entered an order either approving the Canadian Settlement or concluding that the Bankruptcy Court's approval is not necessary and such order shall have become a Final Order. The Debtors will move for such an order if the settlement is agreed to, providing notice and an opportunity to object to the motion, with all rights of all persons with respect to such motion being preserved.

Debtors and EnPro, acting alone, may also waive the conditions pertaining to the qualified settlement fund status of the Asbestos Trust, and the condition providing that EnPro and Debtors have obtained amendments, consents, and waivers necessary under agreements binding on them or any subsidiary to permit the transactions and actions contemplated by the Term Sheet.

5.3.7 Merger of Coltec with New Coltec

Section 7.10 of the Plan provides that upon the effectiveness of the Asbestos Channeling Injunction on the Effective Date, Coltec will merge with and into New Coltec, with New Coltec as the survivor of such merger, pursuant to articles of merger substantially in the form attached as Exhibit K to the Plan. In such merger, the outstanding Capital Stock of Coltec will be cancelled and each outstanding share of Capital Stock of New Coltec will be converted into a share of common stock of the survivor. New Coltec will succeed to Coltec's obligations under this Plan. The Articles of Merger will provide that the merger will become effective at 12:02 a.m. Charlotte, North Carolina time on the Effective Date. On and after the Effective Date, New Coltec will be free to operate its business and use, acquire, and dispose of property free of any restrictions of the Bankruptcy Code or Bankruptcy Rules in all respects as if there were no pending cases under any chapter or provision of the Bankruptcy Code, except for obligations under the Plan, the Plan Documents, and the Confirmation Order.

5.4 DISCHARGE, INJUNCTIONS, AND RELEASES

Article 8 of the Plan contains a discharge, certain injunctions, and releases and indemnifications.

5.4.1 Discharge

Section 8.1.1 of the Plan describes the discharge of GST, Garrison, and Coltec and the entry of the discharge injunction. It provides that except as otherwise provided in the Plan, on the Effective Date, all Claims against GST, Garrison, and Coltec, the Reorganized Debtors, or their Estates, assets, properties, or interests in property (the "**Discharged Debtors**") shall be discharged to the fullest extent permitted by law, regardless whether any such Claim is reduced to judgment, liquidated or unliquidated, contingent or non-contingent, asserted or unasserted, fixed or not, matured or unmatured, disputed or undisputed, legal or equitable, known or unknown, that arose from any agreement of the Discharged Debtor entered into or obligation of the Discharged Debtor incurred before the Confirmation Date, or from any acts or omissions of the Discharged Debtor prior to the Effective Date, or that otherwise arose before the Effective Date, whether or not (i) a proof of claim was filed with respect to such Claim, (ii) such Claim is allowed under Section 502 of the Bankruptcy Code, or (iii) the Holder of such Claim has accepted the Plan, and including, without limitation, all interest, if any, on any such Claims, whether such interest accrued before or after the Petition Date.

The Reorganized Debtors shall not be responsible for any obligations of the Debtors or the Debtors in Possession except those expressly assumed by the Reorganized Debtors pursuant to the Plan. All Entities shall be precluded and forever barred from asserting against the Discharged Debtors or their assets, properties, or interests in property any other or further Claims or Plan Claims based upon any act or omission, transaction, or other activity, event, or occurrence of any kind or nature that occurred prior to the Effective Date, whether or not the facts of or legal bases therefor were known or existed prior to the Effective Date, except as expressly provided in the Plan.

With respect to any debts and liabilities discharged by operation of law under Sections 524(a) and 1141(d) of the Bankruptcy Code, the discharge of the Discharged Debtors will operate as an injunction against the commencement or continuation of an action, the employment of process, or any act, to collect, recover, or offset any such debt as a personal liability of the Discharged Debtors, whether or not the discharge of such debt is waived; *provided, however*, that the obligations and duties of the Reorganized Debtors under the Plan or any Plan Document will not be discharged.

5.4.2 Asbestos Channeling Injunction

Section 8.2 of the Plan describes the Asbestos Channeling Injunction. It provides that in order to supplement, where necessary, the injunctive effect of the discharge provided by Sections 1141(d), 524(a), and 105(a) of the Bankruptcy Code and as described in Section 8.1 of the Plan, and pursuant to the exercise of the equitable jurisdiction and power of the Court under Section 524(g) of the Bankruptcy Code, as supplemented by Section 105(a) of the Bankruptcy Code, the Confirmation Order shall provide for issuance of the Asbestos Channeling Injunction to take effect on the Effective Date.

On and after the Effective Date, the sole recourse of the Holder of an Asbestos Claim shall be to the Asbestos Trust pursuant to the provisions of the Asbestos Channeling Injunction and the CRP, and such Holder shall have no right whatsoever at any time to assert its Asbestos Claim against the Debtors, the Reorganized Debtors, any other Asbestos Protected Party, or any property or interest (including any distributions made pursuant to the Plan) in property of the Debtors, the Reorganized Debtors, or any other Asbestos Protected Party. Without limiting the foregoing and except as provided in Section 8.5 of the Plan, from and after the Effective Date, the Asbestos Channeling Injunction shall apply to all present and future Holders of Asbestos Claims, and all such Holders shall be permanently and forever stayed, restrained, and enjoined from taking any and all legal or other actions or making any Claim or Demand against any Asbestos Protected Party, or any property or interest in property of any Asbestos Protected Party (including distributions made pursuant to the Plan), for the purpose of, directly or indirectly, claiming, collecting, recovering, or receiving any payment, recovery, satisfaction, or any other relief whatsoever on, of, or with respect to any Asbestos Claim, other than from the Asbestos Trust in accordance with the Asbestos Channeling Injunction and pursuant to the CRP, including:

a) commencing, conducting, or continuing in any manner, directly or indirectly, any suit, action, or other proceeding (including a judicial, arbitration, administrative, or other proceeding) in any forum against or affecting any Asbestos Protected Party, or any property or interest in property of any Asbestos Protected Party, on account of any Asbestos Claim;

b) enforcing, levying, attaching (including any prejudgment attachment), collecting, or otherwise recovering by any means or in any manner, whether directly or indirectly, any judgment, award, decree, or other order against any Asbestos Protected Party, or any property or interest in property of any Asbestos Protected Party, on account of any Asbestos Claim;

c) creating, perfecting, or otherwise enforcing in any manner, directly or indirectly, any Encumbrance against any Asbestos Protected Party, or any property or interest in property of any Asbestos Protected Party, on account of any Asbestos Claim;

d) setting off, seeking reimbursement of, indemnification or contribution from, or subrogation against, or otherwise recouping in any manner, directly or indirectly, any amount against any liability owed to any Asbestos Protected Party, or any property or interest in property of any Asbestos Protected Party, on account of any Asbestos Claim; and

e) proceeding in any other manner with regard to any matter that is subject to resolution by the Asbestos Trust in accordance with the Plan and related documents, except in conformity and compliance with the CRP.

Section 8.2.2 of the Plan describes certain reservations from the Asbestos Channeling Injunction, and Section 8.5 makes clear that Foreign Asbestos Claims asserted outside the judicial system of the United States are not subject to the Asbestos Channeling Injunction.

The identities of the Asbestos Protected Parties are given in the Plan. They are:

(a) GST, Garrison, and Coltec;

(b) the Reorganized Debtors;

(c) Anchor and Post-Bankruptcy Anchor (but only to the extent that the liability asserted against Anchor or Post-Bankruptcy Anchor derives from the conduct, operations, or products of GST or Coltec or is based on Anchor's relation to GST, Garrison, or Coltec as an Affiliate);

(d) any current or former Affiliate of each of the Debtors or Reorganized Debtors (including the Entities specified on Exhibit D to the Plan), to the extent that any liability is asserted to exist as a result of such Entity's being or having been such an Affiliate;

(e) Coltec's former divisions and their successor Entities specified on Exhibit D to the Plan, as well as any successor Entities added to Exhibit D as Asbestos Protected Parties pursuant to Section 7.3.10 of the Plan (but, in any case, the successor Entities only in their respective capacities as successors);

(f) the Asbestos Insurance Entities listed as Asbestos Protected Parties on Exhibit E to the Plan, as well as any Asbestos Insurance Entities added to Exhibit E as Asbestos Protected Parties pursuant to Section 7.3.10 of the Plan;

(g) any Entity that, pursuant to the Plan or otherwise on or after the Effective Date, becomes a direct or indirect transferee of, or successor to, any of the Debtors, the Reorganized Debtors, the Affiliates of the Debtors or Reorganized Debtors, or any of their respective assets, to the extent that any liability on account of GST Asbestos Claims or Coltec Asbestos Claims is asserted to exist as a result of its

becoming such a transferee or successor, including New Coltec (as described herein);

(h) any Entity that is alleged to be directly or indirectly liable for an Asbestos Claim by reason of such Entity's (i) ownership of a financial interest in a Debtor, a past or present Affiliate of a Debtor, or a predecessor in interest of a Debtor, (ii) involvement in the management of a Debtor or a predecessor in interest of a Debtor, or service as an officer, director or employee of a Debtor or a related party within the meaning of Section 524(g)(4)(A)(iii) of the Bankruptcy Code, or (iii) involvement in a transaction changing the corporate structure, or in a loan or other financial transaction affecting the financial condition, of a Debtor or a related party within the meaning of Section 524(g)(4)(A)(iii) of the Bankruptcy Code, including but not limited to involvement in the Coltec Restructuring;

(i) any Entity that makes a loan to any of the Reorganized Debtors, their Affiliates, the Trust, or to a successor to, or transferee of any of the respective assets of, the Debtors, the Reorganized Debtors, their Affiliates, or the Asbestos Trust, to the extent that any liability is asserted to exist as a result of its becoming such a lender or to the extent that any Encumbrance of assets made in connection with such a loan is sought to be invalidated, upset, or impaired, in whole or in part, as a result of its being such a lender;

(j) each future Affiliate of each of the Debtors, the Reorganized Debtors and the Affiliates of the Debtors or the Reorganized Debtors (but, in any case, only to the extent that any liability is asserted to exist as a result of its being or becoming such an Affiliate); and

(k) the Representatives of each of the Debtors, the Reorganized Debtors, and the Affiliates of the Debtors and Reorganized Debtors, respectively, but only to the extent that any liability is asserted to exist as a result of the Representative being, or acting in the capacity as, a Representative of one or more of the aforementioned Entities.

5.4.3 Releases and Indemnification

Section 8.4 of the Plan describes certain releases and indemnifications under the Plan.

5.4.3.1 Settlement and Release by Debtors and Reorganized Debtors of Avoidance Actions and Other Estate Claims

Section 8.4.1 provides for the release of certain claims by the Debtors and Reorganized Debtors on the Effective Date, including (a) each and every Avoidance Action against an Asbestos Protected Party or its Representatives, (b) each and every Avoidance Action against a Holder of an Asbestos Claim (resolved or pending) or such Holder's Representatives; (c) any and all claims against any Asbestos Protected Party, Holder of an Asbestos Claim (resolved or pending), or any Representative of such Holder that are or would have been property of any Debtor's Estate or which any Debtor is or would have been entitled to prosecute as a Debtor in Possession arising under non-bankruptcy law or based on or attributable to any allegedly

preferential or fraudulent transfers or based on or attributable to any allegedly unlawful payments or transfers or distributions of property made by or on behalf of any Debtor; (d) any and all claims that are or would have been property of any Debtor's Estate or which any Debtor is or would have been entitled to prosecute as a Debtor in Possession, regardless of the legal theory upon which such claims may be predicated, for which any Asbestos Protected Party is asserted to be or to have been derivatively liable for any Asbestos Claim, including, without limitation, any claims based upon a legal or equitable theory of liability in the nature of veil piercing, alter ego, successor liability, vicarious liability, fraudulent transfer, malpractice, breach of fiduciary duty, waste, fraud, or conspiracy; and (e) any and all claims in (a)-(d) above where, in the absence of the Debtors' Chapter 11 Cases, such claims might, under substantive law of any jurisdiction, have been treated as claims maintainable not only by the Debtors or the Debtors' Estates themselves, but by creditors of or Claimants against the Debtors. Such released claims shall in no event be asserted against or paid by the Asbestos Trust.

5.4.3.2 Specific Release of Intercompany Asbestos Claims

Section 8.4.2 provides that on the occurrence of the Effective Date, each Debtor, Reorganized Debtor, and Non-Debtor Affiliate shall be deemed to have unconditionally waived, released, and extinguished any and all Asbestos Claims against each other Debtor, Reorganized Debtor, or Non-Debtor Affiliate, including all Asbestos Claims set forth in any and all proofs of claim filed by or on behalf of Coltec in the Chapter 11 Cases, and the Plan constitutes a motion to approve the resolution and release of the foregoing claims pursuant to Bankruptcy Rule 9019(a); *provided, however*, that this release shall not be construed to release, impair, or affect the rights of indemnification contained in Section 8.4.7 of the Plan. Section 8.4.2 further provides that notwithstanding anything else in the Plan, the Plan Documents, the Confirmation Order, or the Asbestos Channeling Injunction, the Asbestos Trust shall have no obligation, responsibility, or liability for any of the Asbestos Claims waived, released, and extinguished in accordance with that Section.

5.4.3.3 Settlement and Release by Debtors and Estate Parties

Section 8.4.3 provides for additional releases by each Debtor, in its individual capacity and as a Debtor in Possession for and on behalf of its Estate and its Affiliates, and each Reorganized Debtor on its own behalf and on behalf of its Estate and its Affiliates, and the respective successors and assigns of each such Debtor, Debtor in Possession, Estate, and Affiliate, is thereby deemed to settle and release, absolutely, unconditionally, irrevocably, and forever each and all of the Debtors' Representatives, their Non-Debtor Affiliates' Representatives, and their respective properties ("**Released Parties**"), from any and all claims, obligations, rights, suits, damages, remedies, liabilities, or causes of action in any manner arising from, based on, or relating to, in whole or in part, the Debtors, the Debtors' property, the Chapter 11 Cases, the purchase, sale, or rescission of the purchase or sale of any security of the Debtors, the subject matter of, or the transactions or events giving rise to, any Claim or Equity Interest that is treated in the Plan, the restructuring of Claims and Equity Interests prior to or in the Chapter 11 Cases, and the negotiation, formulation, or preparation of the Plan and the Disclosure Statement, or related agreements, instruments, or other documents, involving any act, omission, transaction, agreement, occurrence, or event taking place on or before the Effective Date, other than any act or omission of a Released Party that constitutes willful misconduct or lack of good

faith; *provided, however*, that the obligations and duties of any Released Party under the Plan or any Plan Document are not so settled and released. Any act or omission taken with the approval of the Bankruptcy Court will be conclusively deemed not to constitute willful misconduct or lack of good faith.

5.4.3.4 Settlement and Release of Certain Claims

As discussed above in Section 2.3.5.2 of this Disclosure Statement, Section 8.4.4 of the Plan provides, on specified terms and conditions, for the settlement and release of pending GST Recovery Actions against certain defendants. The Existing Debtors will seek approval of such settlements by motion pursuant to Bankruptcy Rule 9019(a). The Plan also provides that the Debtors, Reorganized Debtors, their Affiliates, predecessors, and assigns shall be deemed to release, waive, and permanently extinguish their rights to file or assert any GST Recovery Actions in the future.

5.4.3.5 No Actions on Account of Released Claims

Section 8.4.5 provides for an injunction that will prohibit enforcement of or any action whatsoever with respect to any of the claims released in Section 8.4 of the Plan, protecting and preserving, however, the right of Asbestos Claimants to proceed against the Asbestos Trust pursuant to the CRP.

5.4.3.6 Indemnification

Sections 8.4.6 and 8.4.7 contain certain indemnifications. In Section 8.4.6, the Reorganized Debtors undertake to protect, defend, indemnify, and hold harmless to the fullest extent permitted by applicable law, all Representatives of the Debtors, and all Representatives of the Non-Debtor Affiliates, on and after the Effective Date for all claims, obligations, rights, suits, damages, causes of action, remedies, and liabilities whatsoever that are purported to be released pursuant to Section 8.4.3 of the Plan.

In Section 8.4.7, the Asbestos Trust undertakes to protect, defend, indemnify and hold harmless, to the fullest extent permitted by applicable law each of the Debtors, Reorganized Debtors, and other Asbestos Protected Parties from and against any and all losses (including, without limitation, attorney's fees and expenses) that occur after the Effective Date and are based on, arise from, or are attributable to any Asbestos Claim; *provided, however*, that the Asbestos Trust will have no duty to defend, indemnify, and hold harmless Debtors, Reorganized Debtors, and other Asbestos Protected Parties from any such losses that are based on, arise from, or are attributable to any Foreign Asbestos Claim, unless the Foreign Asbestos Claim is filed, asserted, or sought to be enforced in or before any court or tribunal within the judicial system of the United States.

In addition, on the Effective Date, the Asbestos Trust shall assume the Debtors' indemnification obligations to the "Indemnified Parties" identified in paragraph 5 of the Bankruptcy Court's Order Granting Debtors' Motion for Appointment of Joseph W. Grier, III as Future Asbestos Claimants' Representative (Docket No. 512), entered September 16, 2010, and upon such assumption the Debtors will be released from such obligations.

If there shall be pending any claim against the Asbestos Trust for indemnification under Section 8.4.7 of the Plan, the Asbestos Trust will maintain sufficient assets (as determined in good faith by the Asbestos Trustee) to fund any payments in respect of that claim for indemnification. The Reorganized Debtors will provide prompt notice to the Asbestos PI Trust upon becoming aware of the basis for any claim for indemnification under Section 8.4.7 of the Plan.

5.5 OTHER PLAN PROVISIONS

5.5.1 Modification or Withdrawal of the Plan

Article 4 of the Plan sets forth the Plan Proponents' right, acting unanimously, to modify, amend or withdraw the Plan or the Plan Documents prior to the Confirmation Date, and the effect of any such withdrawal, which is to deem the Plan null and void. After the Confirmation Date, the Plan Proponents, acting unanimously, may alter, amend, or modify the Plan in accordance with Section 1127(b) of the Bankruptcy Code but only before its substantial consummation.

5.5.2 General Reservation of Rights

Section 6.5.2 of the Plan contains a general reservation of rights, providing that should the Plan fail to be accepted by the requisite number and amount of the Holders of Plan Claims and Equity Interests required to satisfy Sections 524(g) and 1129 of the Bankruptcy Code, then, notwithstanding any other provision of the Plan to the contrary, the Plan Proponents reserve the right to amend the Plan.

5.5.3 Retention of Jurisdiction

Article 10 of the Plan describes the matters over which the Bankruptcy Court will retain jurisdiction after the Effective Date, including interpreting and enforcing the Plan Documents; hearing and determining objections to Claims (other than Asbestos Claims); and compensating Professionals. The District Court will retain exclusive jurisdiction, without regard to the amount in controversy, to hear and determine any proceeding that involves the validity, application, construction, or modification of the Asbestos Channeling Injunction, or of Section 524(g) of the Bankruptcy Code with respect to the Asbestos Channeling Injunction.

5.5.4 Exculpation

Section 11.7 contains an exculpation clause, exculpating the Reorganized Debtors, the Debtors, the Non-Debtor Affiliates, the FCR, the Committee (including each of its members and their respective counsel), the Unsecured Creditors Committee, the Ad Hoc Coltec Future Asbestos Claimants' Representative, the Ad Hoc Coltec Asbestos Claimants Committee (including each of its members and their respective counsel), or any of their respective Representatives from any liability to any Entity for any act or omission in connection with or arising out of the Chapter 11 Cases, including the administration of the Estates during the entirety of the Chapter 11 Cases, any work in connection with any plan of reorganization or proceedings in the Chapter 11 Cases, conduct during any contested matter in the Chapter 11 Cases, negotiation of the Plan or the settlements contained therein, the pursuit of confirmation of

this Plan, the consummation of the Plan or the settlements provided therein, or the administration of the Plan or the property to be distributed under the Plan so long as, in each case such action, or failure to act, did not constitute willful misconduct or lack of good faith. Excepted from the exculpation clause is any Fee Dispute Remedy, as defined in the Plan.

The exculpation clause further provides that in all respects, the Exculpated Parties will be entitled to rely upon the advice of counsel and financial and other experts or professionals employed by them with respect to their duties and responsibilities under the Plan, and such reliance shall conclusively establish good faith. Any act or omission taken with the approval of the Bankruptcy Court will be conclusively deemed not to constitute willful misconduct or lack of good faith. In any suit alleging willful misconduct or lack of good faith, the reasonable attorney's fees and costs of the prevailing party will be paid by the losing party, and, as a condition of going forward with such action, suit, or proceeding, at the onset thereof, all parties thereto shall be required to provide appropriate proof and assurances of their capacity to make such payments of reasonable attorney's fees and costs in the event they fail to prevail. Pursuant to its authority under Bankruptcy Code Section 105(a), in the Confirmation Order the Court will enter an injunction permanently enjoining commencement or continuation in any manner, any suit, action, or other proceeding, on account of or respecting any claim, obligation, debt, right, cause of action, remedy, or liability included within this exculpation clause.

6. VOTING AND CONFIRMATION PROCEDURES

6.1 VOTING PROCEDURES

All Classes of Claims other than Class 5 Asbestos Claims are unimpaired and therefore shall be deemed to have voted to accept the Plan, and will not be solicited. The voting procedures for Class 5 have been established in the Confirmation Procedures Order, and are also contained in the Voting Procedures enclosed in the Solicitation Package with this Disclosure Statement. Solicitation Packages with forms of Ballots for Holders of Class 5 Asbestos Claims will be distributed on August 1, 2016 in the manner described in the Voting Procedures, as well as thereafter in response to inquiries as a result of the publication notice that is part of the Notice Program attached to the Confirmation Procedures Order.

TO BE COUNTED, YOUR COMPLETED BALLOT OR MASTER BALLOT MUST BE RECEIVED BY THE BALLOTING AGENT AT THE ADDRESS CONTAINED IN THE BALLOTS AND VOTING PROCEDURES NO LATER THAN DECEMBER 9, 2016 (THE "**VOTING DEADLINE**").

Holders of Class 5 Asbestos Claims may vote using either an Individual Ballot or (through their attorneys) a Master Ballot. Asbestos Claims will be temporarily allowed, for voting purposes only, if the Claimant (or Claimant's attorney) submits a Ballot by the Voting Deadline and certifies, under penalty of perjury, that the following matters are true and correct to the best of the Claimant's (or such attorney's) knowledge, information, and reasonable belief:

i. the Claimant is the Holder of an Asbestos Claim (as defined in the Plan) that has not been dismissed with prejudice, has not been settled and paid, and is not known to be time-barred;

ii. the person upon whose injury the Asbestos Claim is based (the "**Injured Party**") was diagnosed with malignant mesothelioma, or lung cancer, colo-rectal cancer, laryngeal cancer, esophageal cancer, pharyngeal cancer, stomach cancer, severe asbestosis, disabling asbestosis, or non-disabling asbestosis (all such diseases other than malignant mesothelioma being hereafter referred to as "**Other Diseases**"), based on, or as evidenced in, medical records or similar documentation in the possession of the Claimant, his or her attorney, or the physician of the Claimant or Injured Party;

iii. the Injured Party was exposed to asbestos released from asbestos-containing gaskets or packing manufactured, produced, fabricated, distributed, supplied, marketed, included as a component part, or sold by Garlock or Coltec ("**Asbestos Exposure**"),[10] as indicated in the Individual Ballot or Master Ballot exhibit;

iv. if the Claimant asserts that his/her Claim has been liquidated by settlement or judgment, the Claimant (or his or her attorney) must certify that the Claim has been liquidated by settlement or judgment and provide the asserted liquidated amount; and

v. if these certifications are made by the Claimant's attorney, the attorney is authorized by such Claimant to vote on the Plan on his or her behalf, and to represent that the Injured Party has (or, if deceased, had) the disease noted on the Ballot and has Asbestos Exposure.

Unliquidated Asbestos Claims that meet the voting criteria and allege mesothelioma will be temporarily allowed for voting purposes in the amount of $10,000, while Asbestos Claims that meet the voting criteria and allege any of the Other Diseases will be temporarily allowed for voting purposes in the amount of $1. Asbestos Claims liquidated by settlement or judgment that meet the voting criteria will be temporarily allowed for voting purposes in the liquidated amounts of the Asbestos Claims. Asbestos Claims alleging more than one disease will be temporarily allowed for voting purposes based on the single disease that yields the higher voting amount. Asbestos Claimants who allege exposure to asbestos both from products for which Garlock is responsible and from products for which Coltec is responsible will receive a single vote in Class 5. The Voting Procedures contain additional rules regarding the tabulation of votes in Class 5.

[10] For purposes of this certification requirement, "Coltec" includes the following predecessors and former divisions that were named in Asbestos Claims before the litigation of such claims was stayed by order of the Bankruptcy Court: Fairbanks Morse Engine, Fairbanks Morse Pump, Quincy Compressor, Central Moloney, France Compressor, Delavan, and Farnam.

Asbestos Claimants who are unable to make the certifications above on or before the Voting Deadline will not be eligible to vote on the Plan unless they file a motion for temporary allowance for voting purposes that the Court grants. Any such motion for temporary allowance for voting purposes must be filed on or before December 9, 2016. In addition, no Entity named as a defendant in asbestos litigation shall be eligible to vote unless it files a proof of claim in the form of Official Bankruptcy Form No. 410 on or before any applicable bar date and files a motion for temporary allowance for voting purposes that the Court grants.

Class 5 will accept the Plan if two-thirds or more in amount and 75% or more in number of those who vote accept the Plan.

6.2 CONFIRMATION PROCEDURES

6.2.1 Confirmation Hearing

Bankruptcy Code § 1128(a) requires the Bankruptcy Court, after notice, to hold a hearing on confirmation of the Plan. Bankruptcy Code § 1128(b) provides that any party-in-interest may object to confirmation of the Plan.

The Bankruptcy Court has set the Confirmation Hearing for 10:00 a.m., Eastern Time on May 15, 2017, in the United States Bankruptcy Court, 401 West Trade Street, Charlotte, North Carolina 28202. The Confirmation Hearing may be adjourned, from time to time, without notice, other than an announcement of an adjourned date at such hearing or an adjourned hearing, or by posting such continuance on the Bankruptcy Court's docket.

6.2.2 Objections to Confirmation of the Plan

Responses and objections, if any, to the confirmation of the Plan or to any of the other relief sought by the Debtors in connection with confirmation of the Plan, must (a) state with particularity the legal and factual grounds therefor, (b) provide, where applicable, the specific text, if any, that the objecting party believes to be appropriate to insert into the Plan, and (c) describe the nature and amount of the objector's Claim or Equity Interest. Any objections to the adequacy of the FCR's representation of holders of future Asbestos Claims must also be raised at this time, in the same form as a Plan objection.

Holders of Claims against and Equity Interests in GST, Garrison, or Anchor must file any response or objection to the Plan with the Bankruptcy Court and serve such response or objection in a manner so as to be ***actually received*** by the Notice Parties (defined below) no later than December 9, 2016. Holders of Claims against and Equity Interests in Coltec must file any response or objection to the Plan with the Bankruptcy Court and serve such response or objection in a manner so as to be ***actually received*** by the Notice Parties no later than March 10, 2017.

The following parties are the "Notice Parties":

Debtors:	GARLOCK SEALING TECHNOLOGIES LLC c/o Elizabeth Barry, Chief Restructuring Officer 349 West Commercial St., Ste 3050 East Rochester, NY 14445
With a copy to:	RAYBURN COOPER & DURHAM, P.A. 1200 Carillion, 227 West Trade Street Charlotte, NC 28202 Telephone: (704) 334-0891 Attn: John R. Miller, Jr. and ROBINSON, BRADSHAW & HINSON, P.A. 101 North Tryon Street, Suite 1900 Charlotte, NC 28246 Telephone: (704) 377-2536 Attn: Garland S. Cassada and PARKER POE ADAMS & BERNSTEIN, LLP Three Wells Fargo Center 401 South Tryon Street, Suite 3000 Charlotte, NC 28202 Telephone: (704) 335-9054 Attn: Daniel G. Clodfelter
Committee:	CAPLIN & DRYSDALE, CHARTERED One Thomas Circle N.W., Suite 1100 Washington, DC 20005 Telephone: (202) 862-5000 Attn: Trevor W. Swett III
FCR:	GRIER FURR & CRISP, PA 101 North Tryon Street, Suite 1240 Charlotte, NC 28246 Telephone: (704) 375-3720 Attn: Joseph W. Grier, III
With a copy to:	ORRICK HERRINGTON & SUTCLIFFE, LLP Columbia Center 1152 15th Street, N.W. Washington, DC 20005 Telephone: (202) 339-8400 Attn: Jonathan P. Guy

Unsecured Creditors' Committee:	FSB FISHERBROYLES, LLP 6000 Fairview Road, Suite 1200 Charlotte, NC 28210 Telephone: (704) 464-6954 Attn: Deborah L. Fletcher

UNLESS AN OBJECTION TO CONFIRMATION IS TIMELY SERVED UPON THE PARTIES LISTED ABOVE AND PROPERLY FILED WITH THE BANKRUPTCY COURT, IT WILL NOT BE CONSIDERED BY THE BANKRUPTCY COURT.

7. REQUIREMENTS FOR CONFIRMATION OF THE PLAN

7.1 BANKRUPTCY CODE § 1129 GENERALLY

At the Confirmation Hearing, the Court will determine whether the confirmation requirements of Bankruptcy Code § 1129 have been satisfied. If so, the Court will enter the Confirmation Order. The Plan Proponents believe that the Plan satisfies or will satisfy the applicable requirements for confirmation, as follows:

- The Plan complies with the applicable provisions of the Bankruptcy Code. *See* 11 U.S.C. § 1129(a)(1).

- The Plan Proponents have complied with the applicable provisions of the Bankruptcy Code. *See* 11 U.S.C. § 1129(a)(2).

- The Plan has been proposed in good faith and not by any means forbidden by law. *See* 11 U.S.C. § 1129(a)(3).

- Any payment made or promised by the Debtors, or by an Entity acquiring property under the Plan, for services or for costs and expenses in or in connection with the Chapter 11 Cases, or in connection with the Plan and incident to the Chapter 11 Cases, has been disclosed to the Court, and any such payment made before the confirmation of the Plan is reasonable, or if such payment is to be fixed after confirmation of the Plan, such payment is subject to the approval of the Court as reasonable. *See* 11 U.S.C. § 1129(a)(4).

- The Debtors will have disclosed the identity and affiliations of any individual proposed to serve, after confirmation of the Plan, as a director, officer, or voting trustee of the Debtors, and the appointment to, or continuance in, such office of such individual, is consistent with the interests of Holders of Claims and Equity Holders and with public policy, and the Debtors will have disclosed the identity of any insider that will be employed or retained by any Reorganized Debtor, and the nature of any compensation for such insider. *See* 11 U.S.C. § 1129(a)(5).

- With respect to each Class of impaired Claims or Equity Interests, either each Holder of a Claim or Equity Interest of such Class has accepted the Plan, or will receive or retain under the Plan on account of such Claim or Equity Interest

property of a value, as of the Effective Date of the Plan, that is not less than the amount that such Holder would so receive or retain if the Debtors were liquidated on such date under Chapter 7 of the Bankruptcy Code; or if Bankruptcy Code § 1111(b)(2) applies to the Claims of such Class, each Holder of a Claim will receive or retain under the Plan on account of such Claim property of a value, as of the Effective Date of the Plan, that is not less than the value of such Holder's interest in the Debtors' Estates' interest in the property that secures such Claims. *See* 11 U.S.C. §1129(a)(7).

- Each Class of Claims or Equity Interests that is entitled to vote on the Plan has either accepted the Plan or is not impaired under the Plan, or the Plan can be confirmed without the approval of each voting Class pursuant to section 1129(b) of the Bankruptcy Code. *See* 11 U.S.C. § 1129(a)(8).

- Except to the extent that the Holder of a particular Claim has agreed to a different treatment of such Claim, the Plan provides that Allowed Administrative Expense Claims and Allowed Priority Claims will be paid in full on the Effective Date, or as reasonably practicable thereafter, and that Allowed Priority Tax Claims will receive, on account of such Allowed Claims, payment in full on the Effective Date or as reasonably practicable thereafter. *See* 11 U.S.C. § 1129(a)(9).

- Debtors believe that Class 5, the only Class of impaired Claims, will accept the Plan, determined without including any acceptance of the Plan by any insider holding a Claim of such Class. *See* 11 U.S.C. § 1129(a)(10).

- Confirmation of the Plan is not likely to be followed by the liquidation, or the need for further financial reorganization, of the Reorganized Debtors or any successor to the Debtors under the Plan, unless such liquidation or reorganization is proposed in the Plan. *See* 11 U.S.C. § 1129(a)(11).

- The Plan provides that the quarterly fees required under 28 U.S.C. § 1930 have been paid or that they will be paid on the Effective Date of the Plan. *See* 11 U.S.C. § 1129(a)(12).

- The Plan provides for the continuation after the Effective Date of payment of all retiree benefits (as that term is defined in Bankruptcy Code § 1114) at the level established pursuant to Bankruptcy Code § 1114(e)(1)(B) or § 1114(g), at any time prior to confirmation of the Plan, for the duration of the period the Debtor has obligated itself to provide such benefits. *See* 11 U.S.C. § 1129(a)(13).

The Plan Proponents believe that the Plan satisfies all of the statutory requirements of Bankruptcy Code Section 1129. In addition, the Plan Proponents believe that the Plan satisfies all of the statutory requirements of Bankruptcy Code Section 524(g).

7.2 VOTE REQUIRED FOR CLASS ACCEPTANCE

Class 5 will be considered to have accepted the Plan when 75% or more in number and at least two-thirds (2/3) in dollar amount of the Claims that actually voted have voted in favor of the Plan.

If the Plan is confirmed, then Holders of Claims against, or Equity Interests in, Debtors, whether voting or non-voting and, if voting, whether accepting or rejecting the Plan, are bound by the terms of the Plan, including any injunction(s) under Bankruptcy Code §§ 524(a), 524(g), and/or 105(a).

7.3 FEASIBILITY OF THE PLAN

Section 1129(a)(11) of the Bankruptcy Code requires that, in order for the Bankruptcy Court to confirm the Plan, the Bankruptcy Court must find that consummation of the Plan is not likely to be followed by the liquidation or the need for further financial reorganization of the Debtors, except to the extent such liquidation or reorganization is called for by the Plan's terms.

The Debtors have the financial wherewithal and business prospects to satisfy their obligations under the Plan. Debtors anticipate having on the Effective Date Cash sufficient to fund in full the Plan's treatment of all Allowed Administrative Claims, Secured Tax Claims, and Claims in Classes 1 (Priority Claims) and 6 (General Unsecured Claims), which Debtors believe will not exceed in the aggregate $4 million. Debtors will also have sufficient Cash on the Effective Date to fund the Initial Asbestos Trust Assets and to make the Deferred Contribution and fulfill the terms of the Option within one year after the Effective Date. The Proforma Projections set forth in **Exhibit 3** to the Disclosure Statement, which show continued net operating income in years shown, as well as other income streams as described in the projections set forth on **Exhibit 3**, support the ability of Debtors to make the payments described by the Plan. **HOLDERS OF CLAIMS AND INTERESTS ARE ADVISED TO REVIEW CAREFULLY THE DISCLAIMERS INCLUDED AT THE BEGINNING OF THIS DISCLOSURE STATEMENT AND THE ASSUMPTIONS INCLUDED IN THE PROJECTIONS IN CONNECTION WITH THEIR REVIEW OF THE SAME. AS NOTED THEREIN, ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE PROJECTED.**

7.4 "BEST INTERESTS" TEST

Another confirmation requirement is the "Best Interests Test" or "Hypothetical Liquidation Test" incorporated in Section 1129(a)(7) of the Bankruptcy Code. The test applies to individual Holders of unsecured Claims and Holders of Interests that are both (i) in impaired Classes under the Plan, and (ii) do not vote to accept the Plan. Section 1129(a)(7) of the Bankruptcy Code thus requires that Holders of Asbestos Claims in Class 5 who do not vote to accept the Plan will receive or retain an amount under the Plan as it relates to a particular Debtor not less than the amount that such Holders would receive or retain if such Debtor were to be liquidated under Chapter 7 of the Bankruptcy Code. (While Class 9 (GST/Garrison Equity Interests) is impaired under the Plan, the holder of those interests in Class 9, Coltec, will vote in favor of the Plan, thus rendering the Best Interests Test inapplicable to Class 9.)

The Debtors believe that the Plan meets the best interests test because the Bankruptcy Court estimated for plan confirmation purposes that the aggregate Allowed Amount of present and future Class 5 GST Asbestos Claims alleging mesothelioma is no more than $125 million, s*ee In re Garlock Sealing Technologies LLC*, 504 B.R. 71, 97 (Bankr. W.D.N.C. 2014), and the Plan would provide a multiple of that amount, $480 million, to resolve Asbestos Claims. Under the Plan, GST Asbestos Claimants would receive settlement amounts that exceed the estimated allowed amounts of their claims, which is all that claimants would be entitled to receive in a Chapter 7 case.

The Estimation Opinion did not include the Class 5 Allowed GST Asbestos Claims for diseases other than mesothelioma, but the Bankruptcy Court observed, and Debtors believe the evidence would prove, that the Allowed Amounts of any non-mesothelioma GST Asbestos Claims are relatively small compared to mesothelioma claims. These Asbestos Claimants also would receive under the Plan amounts that exceed the Allowed Amounts of their Asbestos Claims.

All Class 5 Asbestos Claims against Coltec are contingent and unliquidated, and the Allowed Amount of such Claims individually or in the aggregate also has not been estimated. Based on the nature of the products it manufactured, and its history of making no indemnity payments and suffering no adverse verdicts, Coltec believes the Allowed Amounts of Class 5 Asbestos Claims against Coltec are relatively small, both individually and in the aggregate. (See Section 2.5.2 above for a discussion of Coltec's claims history.) Under the Plan, Coltec Asbestos Claims will be channeled to the Asbestos Trust and paid according to the terms of the CRP. In consequence of these matters Coltec believes holders of Coltec Asbestos Claims would receive more under the Plan than they would likely receive in a liquidation of Coltec under Chapter 7.

The Committee and FCR disagree with Debtors' liquidation analyses and their reliance on the Estimation Opinion. The Committee and FCR believe the Estimation Opinion was incorrect. Further, the Committee and FCR do not believe the Estimation Opinion would apply to determine or limit the Debtors' liabilities to Asbestos Claimants in Chapter 7 liquidation proceedings; those liabilities would be determined, instead, under the rules, doctrines, and procedures of the tort system.

Nevertheless, the Committee and FCR agree with Debtors that the Plan serves the best interests of creditors because, measured as of the Effective Date of the Plan, meritorious Asbestos Claims will be paid no less under the Plan than if the Debtors were liquidated under Chapter 7. The Committee and FCR's conclusion rests on such considerations as (1) the number and nature of Asbestos Claims already pending against the Debtors and those predicted to arise against them over a period of several decades, (2) the high costs that would be sustained in attempting to resolve the Asbestos Claims in a Chapter 7 liquidation, (3) the inability of the trustee in a Chapter 7 proceeding to make any distributions to creditors until all assets of the Debtors' estates were reduced to cash and all of the estates' liabilities were liquidated, and the resulting time-value discounts that would apply, (4) the unavailability under Chapter 7 of a section 524(g) channeling injunction or other reliable and satisfactory means of making provision for future Asbestos Claimants, (5) the deep discounts that would be absorbed in

converting GST's assets to cash in a Chapter 7 liquidation (to the extent that those assets would be saleable at all under the cloud of potential successor liability), and (6) the unlikelihood that Coltec would contribute substantial funding to resolve GST Asbestos Claims or Anchor Claims in a Chapter 7 liquidation.

7.5 INFORMATION ABOUT CORPORATE GOVERNANCE, OFFICERS, AND DIRECTORS OF REORGANIZED DEBTORS

7.5.1 Management Compensation and Incentive Program

The Debtors' current officers and directors are disclosed on the attached **Exhibit 4** to the Disclosure Statement. The Debtors anticipate that the officers and directors of the Reorganized Debtors will be the same as the current officers and directors of the Debtors, but unanticipated changes may occur. Pursuant to Bankruptcy Code § 1129(a)(5), the Debtors will disclose, prior to the Confirmation Hearing, the identity of any individuals proposed to serve, after confirmation of the Plan, as a director or officer of any Reorganized Debtor to the extent they differ from those shown on **Exhibit 4**.

Currently, the total compensation package that the Debtors' officers and key employees receive includes base salary, annual bonus opportunities, long-term Cash incentives and other benefits. These packages and benefits are described in more detail in the Debtors' motion for authorization to continue certain employee benefit programs (Docket No. 42).

Debtors anticipate that the total compensation for the Reorganized Debtors' directors, officers and key employees after confirmation will continue to include base salary, annual bonus and long-term stock and Cash incentives and other benefits in accordance with the ordinary business policies of the Debtors.

7.5.2 Prospective Officer and Director Insurance

Pursuant to Section 7.2.2 of the Plan, the Reorganized Debtors shall continue in force, purchase and extend the coverage period of directors and officers liability insurance with regard to any liabilities, losses, damages, claims, costs and expenses they or any current or former officer or director of any of the Debtors may incur, including but not limited to attorneys' fees, arising out of or due to the actions or omissions of any of them or the consequences of such actions or omissions, including, without limitation, service as an officer or director or liquidating trustee of any subsidiary of a Debtor, other than as a result of their willful misconduct or lack of fraud. Each such policy shall cover each current and former officer or director of any of the Debtors. Further, pursuant to Section 7.2.2 of the Plan, the Reorganized Debtors have an obligation to indemnify these parties for certain payments covered by the tail insurance. Therefore, without such insurance, if the Reorganized Debtors' current and/or former directors, officers and/or employees were sued after the Effective Date, the Reorganized Debtors could be required to satisfy such indemnification claims.

8. IMPORTANT CONSIDERATIONS AND RISK FACTORS

Holders of Claims who are entitled to vote on the Plan should read and carefully consider the following factors, as well as the other information set forth in this Disclosure Statement,

before deciding whether to vote to accept or reject the Plan. The following disclosures are not intended to be inclusive and should be read in connection with the other disclosures contained in this Disclosure Statement and the Exhibits hereto. ***You should consult your legal, financial, and tax advisors regarding the risks associated with the Plan and the distributions you may receive thereunder***.

8.1 RISKS RELATED TO THE DEBTORS' BUSINESS AND THESE CHAPTER 11 CASES

8.1.1 Certain Risks Associated with the Chapter 11 Cases

Creditors may object to the classification of their Claims and/or oppose Confirmation of the Plan. There can be no assurance that the requisite acceptances for confirmation of a Chapter 11 plan will be received or that the Bankruptcy Court will confirm the Plan. If the Plan is not confirmed, it is unclear what Distributions the Holders of Allowed Claims will receive with respect to their Allowed Claims, or the timing of receipt of such Distributions, as it is unclear whether a confirmable alternative plan can be proposed by another party to these Chapter 11 Cases. If the Plan is not confirmed, Debtors may propose the Second Amended Plan or another plan that treats Asbestos Claims less favorably. Or, if the Plan is not confirmed and an alternate reorganization plan is not confirmed, it is possible that Debtors would have to liquidate, in which case it is possible that the Holders of Allowed Claims or Asbestos Claims could receive substantially less favorable treatment than they would receive under the Plan.

8.1.2 Risks Relating to the Projections

The Debtors have prepared projections set forth on **Exhibit 3** to the Disclosure Statement in connection with the development of the Plan and to present the projected effects of the Plan and the projected results of operations following the Effective Date of the Plan. These projections assume the Plan and transactions contemplated thereby will be implemented in accordance with their terms. Although Debtors believe the projections are reasonable, based upon independent, third-party economic forecasts of the regions in which they sell their products, the assumptions and estimates underlying such projections are inherently uncertain and are subject to, among other factors, business, economic, legislative, and competitive risks and uncertainties that could cause actual results to differ materially from those projected. Such uncertainties and other factors include approval by the Bankruptcy Court of the Plan and potential objections of third parties. Accordingly, the projections herein are not necessarily indicative of the future financial condition, results of operations, or equity value of the Debtors, which may vary materially from those projections. Although the Financial Projections represent management's view based upon current known facts and assumptions about the future operations of the Reorganized Debtors, there is no guarantee by the Debtors, their advisors, or any other person that the Financial Projections will be realized. However, Debtors believe they can make all payments required under the Plan even if Debtors do not achieve the projected results. Based on the financial disclosures of the Debtors, Coltec, and EnPro, the Committee and the FCR believe it is very likely all payments required under the Plan can be made, even if the projections turn out to be optimistic.

8.1.3 Risks Relating to the Value of the Reorganized Debtors

Because of the nature of Debtors' industries, and a variety of other factors, including without limitation, those set forth below, the Reorganized Debtors' operations could be adversely affected, and the ultimate recovery to the creditors is uncertain and cannot be predicted. Risks facing the Reorganized Debtors' operations include, without limitation:

- cyclical markets affected by general global economic conditions, particularly in North America and Europe;
- a prolonged and severe downward economic cycle;
- pricing and other competitive pressures;
- significant increases in expenses, including raw material, energy, product development, sales and marketing and labor costs, including pension and healthcare expenses;
- a material adverse change in relations with employees and/or labor unions;
- deteriorations in relationships with key independent agents or distributors;
- the inability to invest adequately in the business or to develop new products;
- the inability to gain customer acceptance, or slower than anticipated acceptance, of new products or product enhancements;
- technological breakthroughs rendering a product, a class of products, or a line of business obsolete;
- the inability to adapt to other improvements made by direct or indirect competitors;
- the acquisition (through theft or other unlawful means) or use by others of the Reorganized Debtors' proprietary technology and other know-how;
- changes in the replacement cycle for certain products resulting from improved product quality or improved maintenance;
- significant increases in product liability claims or costs;
- political and economic instability in non-US markets;
- material adverse changes in currency exchange rates (in particular, the U.S. dollar to Euro exchange rate);
- consolidation of major customers, which could increase customer purchasing power, thereby putting pressure on operating profits;
- loss of senior management and other key employees;

- greater than expected liabilities for environmental remediation;
- difficulties collecting insurance; and
- numerous other risks, including rising healthcare costs, adverse changes in tax rates, environmental laws, or other regulatory requirements, acts of hostility or war, work stoppages or other unforeseen business interruptions.

As noted in Section 8.1.2, above, the Debtors believe they have ample assets from which to pay all amounts required under the Plan, even if one or more of the above risk factors adversely affects the performance of the Reorganized Debtors' business operations after the Effective Date.

8.1.4 Leverage, Liquidity, and Capital Requirements

The Debtors' principal sources of liquidity following their emergence from bankruptcy will be net proceeds generated by business operations, payments on the Coltec Note and the Stemco Note (in the case of Reorganized GST), and collection of insurance. While the Debtors believe that they will have adequate liquidity to meet Plan funding and operational requirements following the Effective Date of the Plan, no assurances can be had in this regard.

8.1.5 Certain Risks of Non-Occurrence of the Effective Date

The consummation of the Plan is subject to certain conditions. There can be no assurance that all of the conditions necessary for the Plan to become "Effective" will be met. If the Plan were not to be consummated or become "Effective," it is unclear whether the transactions outlined in the Plan could be implemented and what distribution Holders of Claims or Interests ultimately would receive with respect to their Claims or Interests. If an alternative plan of reorganization could not be confirmed, it is possible that the Debtors could have to liquidate their assets.

8.1.6 Prolonged Continuation of the Chapter 11 Cases May Harm the Debtors' Business

The prolonged continuation of these Chapter 11 Cases may adversely affect the Debtors' business and operations. So long as the Chapter 11 Cases continue, senior management of the Debtors may be required to spend a significant amount of time and effort dealing with the Debtors' reorganization instead of focusing exclusively on business operations. In addition, the longer the Chapter 11 Cases continue without a confirmed plan, the more likely it is that the Debtors' employees, customers, and suppliers may lose confidence in the Debtors' ability to successfully reorganize their business and seek alternative commercial options. Further, so long as the Chapter 11 Cases continue without a confirmed plan, the Debtors will incur substantial costs for professional fees and expenses associated with the proceedings.

8.1.7 Risks Relating to Coltec's Chapter 11 Filing

In the event the requisite vote to accept the Plan is not received from the Class 5 Claimants, then the Coltec Restructuring will not be consummated, no Chapter 11 case will be

filed by OldCo, and the Plan's proposal for payment of Coltec Asbestos Claims will not be realized.

8.1.8 Risks of Non-Confirmation of the Plan

If the Plan is not confirmed, it is unclear what distributions, if any, the Holders of Allowed Claims would receive with respect to their Allowed Claims, or the timing of such distributions. If the Plan is not confirmed and an alternate reorganization plan could not be confirmed, it is possible that the Debtors would have to liquidate their Assets.

8.1.9 Risk of Post-Confirmation Default

At the Confirmation Hearing, the Court will be required to make a judicial determination that the Plan is feasible, but that determination does not serve as any guarantee that there will not be any post-confirmation defaults. The Debtors believe that the cash flow generated from operations, insurance proceeds, and Cash on hand will be sufficient to meet the Reorganized Debtors' operating requirements and other post-confirmation obligations under the Plan. The Reorganized Debtors' projected operating cash flow is set forth in the Debtors' prospective financial information that is included as **Exhibit 3** to the Disclosure Statement.

8.1.10 Objections to Claims

Except as otherwise provided in the Plan and the Final DIP Order (Docket No. 226), the Debtors reserve the right to object to the amount or classification of any Claim or Equity Interest deemed Allowed under the Plan, except for Asbestos Claims. Asbestos Claims will not be subject to such objections because they will not be "Allowed." Rather, they will be channeled to the Asbestos Trust for processing and, if eligible, payment under the CRP. The estimates set forth in this Disclosure Statement cannot be relied on by any Holder of a Claim or Equity Interest where such Claim or Equity Interest is subject to an objection.

8.1.11 Risk Regarding the Solvent Insurance Carriers

Debtors' ultimate recovery of insurance proceeds may be affected by the financial status of the remaining solvent insurance carriers. In addition, it is uncertain whether or how much Debtors will be able to recover from the Additional Coltec Insurance.

8.2 RISK FACTORS AFFECTING THE ASBESTOS TRUST

The Trust will be funded with assets worth, in the aggregate, $480 million within one year after the Effective Date. The Maximum Settlement Values and Medical Information Factors along with other factors determine the settlement offers given to Asbestos Claimants under the CRP. Subject to the requirements of the Term Sheet and the CRP, the parties have agreed on preliminary Maximum Settlement Values and Medical Information Factors for Disclosure Statement purposes. The Asbestos Trustee, however, will have full authority to set Maximum Settlement Values and Medical Information Factors, in consultation with his own experts, before the Trust begins paying claims. Furthermore, the CRP permit the Trustee to adjust the Maximum Settlement Values and Medical Information Factors over time to ensure equal treatment of present and future Asbestos Claimants. Thus, there can be no guarantee that Asbestos Claimants

will receive the settlement offers implied by the Maximum Settlement Values and Medical Information Factors currently contained in the CRP attached to this Disclosure Statement. Conversely, it is possible that the Trustee could increase Maximum Settlement Values and Medical Information Factors over time, in which case Asbestos Claimants could receive settlement offers greater than those implied by the CRP attached to this Disclosure Statement.

9. ALTERNATIVES TO CONFIRMATION AND CONSUMMATION OF THE PLAN

The Plan Proponents believe that the Plan affords the Holders of Claims and Equity Interests the potential for the greatest realization on their Claims and Equity Interests and, therefore, is in the best interest of such Holders. If the Plan is not confirmed, however, the theoretical alternatives include (1) continuation of the pending Chapter 11 Cases, (2) alternative plans of reorganization, or (3) liquidation of the Debtors under Chapter 7 of the Bankruptcy Code.

9.1 CONTINUATION OF THE CHAPTER 11 CASES

If the Debtors remain in Chapter 11 and the Plan, as currently proposed, is not confirmed within the time period projected, the Debtors could continue to operate their businesses and manage their properties as Debtors in Possession. However, the value of assets and cash flow could be affected by the expenses of operating under Chapter 11 of the Bankruptcy Code for a further extended period of time, and significant delay in recoveries for Claimants and Interest Holders could result under any future plan of reorganization.

9.2 ALTERNATIVE PLANS OF REORGANIZATION

If the Plan is not confirmed, it is possible that any other party in interest in the Chapter 11 Cases could attempt to formulate and propose a different plan or plans on such terms, as they may desire. Debtors might propose the Second Amended Plan or an alternative plan that treats Asbestos Claimants less favorably. Such alternative plan would still have to meet the requirements of confirmation. The Plan Proponents believe that the Plan provides the best and quickest potential return to both the Debtors' Claimants and Equity Interest Holders.

9.3 CHAPTER 7 LIQUIDATION

If the Plan is not confirmed, the Debtors may be forced to liquidate, either through conversion to a case under Chapter 7 of the Bankruptcy Code, or through a dissolution proceeding under state law, or both, since the Chapter 7 trustee may choose to liquidate the Debtors' assets through a proceeding under Chapter 7 of the Bankruptcy Code, and then commence a dissolution proceeding under North Carolina law.

10. FEDERAL INCOME TAX CONSEQUENCES OF THE PLAN

The following discussion summarizes certain federal income tax consequences of the Plan based upon the IRC, judicial authorities, and current administrative rulings and practices now in effect, all of which are subject to change at any time by legislative, judicial, or administrative action. Any such change could be retroactively applied in a manner that could

adversely affect the Debtors, Reorganized Debtors, the Asbestos Trust, Holders of Claims, and Holders of Equity Interests.

The tax consequences of certain aspects of the Plan are uncertain due to the lack of applicable legal authority and may be subject to administrative or judicial interpretations that differ from the discussion below. The Debtors have not requested a tax ruling from the IRS. The Debtors may obtain either (a) a private letter ruling establishing the Asbestos Trust is a "qualified settlement fund" pursuant to Section 468B of the IRC, or (b) an opinion of counsel regarding the tax consequences satisfactory to Debtors. However, there can be no assurance the treatment set forth in the following discussion will be accepted by the IRS. Further, the federal income tax consequences may be affected by matters not discussed below. For example, the following discussion does not address state, local or foreign tax considerations that may be applicable; further, it does not address the tax consequences of the Plan to certain types of Holders of Claims or Equity Interests, creditors, and stockholders (including foreign persons, financial institutions, life insurance companies, tax-exempt organizations, and taxpayers who may be subject to the alternative minimum tax) who may be subject to special rules not addressed herein.

The discussion set forth below is included for general information only. The Debtors and their counsel and financial advisors are not making any representations regarding the particular tax consequences of confirmation and consummation of the Plan, nor are they rendering any form of legal or tax advice on such tax consequences. The tax laws applicable to corporations in bankruptcy are extremely complex, and the following summary is not exhaustive.

Except where essential to the context, references to the "Debtors" in Article 10 herein refer to both the Debtors and Reorganized Debtors, collectively.

10.1 FEDERAL INCOME TAX CONSEQUENCES

10.1.1 General Discussion

In general, the Debtors do not expect to incur any substantial tax liability as a result of implementation of the Plan and do not expect to realize any significant amount of cancellation of indebtedness income. Upon consummation of the Plan, the Debtors expect the EnPro consolidated group, which will include the Debtors, to have net operating losses (NOLs) available to carry back to prior years and to offset future taxable income. The Debtors expect the EnPro consolidated group's NOLs to be enhanced by the contributions to the Asbestos Trust provided for under the Plan.

10.1.2 Deduction of Amounts Transferred to Satisfy Asbestos Claims

The tax treatment of transfers of property by Debtors to the Asbestos Trust will vary depending on the characterization of the trust, e.g., as a "grantor trust" as defined by Section 671 et seq. of the IRC, or as a "qualified settlement fund" ("**QSF**") as defined by Treasury Regulation Section 1.4681B-1 *et seq.* Debtors currently expect that the Asbestos Trust will be treated as a QSF for federal income tax purposes, meaning the Debtors should be entitled to an immediate deduction for cash and the fair market value of property contributed by the Debtors to the Asbestos Trust.

10.1.3 Cancellation of Debt Income

Under the IRC, a taxpayer generally recognizes gross income to the extent indebtedness of the taxpayer is cancelled for less than the amount owed by the taxpayer, subject to certain judicial or statutory exceptions. The most significant of these exceptions with respect to the Debtors is that taxpayers who are operating under the jurisdiction of a federal bankruptcy court are not required to recognize such income. In that case, however, the taxpayer must reduce its tax attributes, such as its NOLs, general business credits, capital-loss carryforwards, and tax basis in assets, by the amount of the cancellation of indebtedness income ("**CODI**") avoided. Debtors do not expect to realize any significant CODI upon consummation of the Plan because the Debtors expect that Claimants entitled to Distributions under the Plan will receive cash equal to the total amount of their Allowed Claims (including accrued but unpaid interest), or, if they are Asbestos Claimants, will receive cash equal to the amounts they are entitled to under the CRP.

10.1.4 Net Operating Losses

As a result of deductions that will be generated by contributions to the Asbestos Trust, Debtors expect the EnPro consolidated group, of which Debtors will remain members, to have NOLs. The extent to which a corporation is able to utilize its NOLs after emerging from bankruptcy often depends on Section 382 of the IRC, which generally imposes an annual limitation on a corporation's use of its NOLs (and may limit a corporation's use of certain built-in losses if such built-in losses are recognized within a five-year period following an "ownership change," as defined below) if a corporation undergoes an ownership change. In the instant case, however, there should be no such limit on the use of the EnPro group's NOLs because neither EnPro, GST, nor Garrison is expected to undergo an ownership change.

10.1.5 Alternative Minimum Tax

In general, a federal alternative minimum tax ("**AMT**") is imposed on a corporation's alternative minimum taxable income ("**AMTI**") at a 20% rate to the extent AMT exceeds the corporation's regular federal income tax for the year. AMTI is generally equal to regular taxable income with certain adjustments. For purposes of computing AMTI, certain tax deductions and other beneficial allowances are modified or eliminated. In particular, a corporation generally is entitled to offset no more than 90 percent of its AMTI with NOL carrybacks and carryforwards (as recomputed for AMT purposes). Accordingly, Debtors' use of their NOLs in both carryback and carryforward years may be subject to limitations for AMT purposes in addition to any other limitations that may apply. Any AMT the Debtors pay generally will be allowed as a nonrefundable credit against their regular federal income tax liability in future years when they are no longer subject to AMT.

10.1.6 Federal Income Tax Consequences to Holders of Claims and the Asbestos Trust

10.1.6.1 Holders of Asbestos Claims

To the extent payments from the Asbestos Trust to Claimants constitute damages on account of personal injuries, such payments should not constitute gross income to such

Claimants, except to the extent such payments are attributable to medical expense deductions allowed under Section 213 of the IRC for a prior taxable year.

10.1.6.2 Treatment of the Asbestos Trust

The Debtors expect the Asbestos Trust will be a QSF for federal income tax purposes. As a QSF, the Asbestos Trust will be subject to a separate entity level tax on its income at the maximum rate applicable to trusts and estates. In determining the taxable income of the Asbestos Trust, (a) any amounts contributed to the Asbestos Trust will not be taxable income, (b) any sale, exchange or distribution of property by the Asbestos Trust will result in the recognition of gain or loss equal to the difference between the fair market value of the property on the date of the sale, exchange or distribution and the adjusted tax basis of such property, (c) interest income and dividend income will be taxable income, and (d) administrative costs (including state and local taxes) will be deductible. In general, the adjusted tax basis of property received by the Asbestos Trust will be its fair market value at the time of receipt.

10.1.6.3 Consequences to Holders of GST General Unsecured Claims

Pursuant to the Plan, each Holder of a GST General Unsecured Claim will receive cash in full satisfaction and discharge of its Allowed Claim. The Holder of an Allowed GST General Unsecured Claim will recognize gain or loss equal to the difference between (i) the cash received that is not allocable to accrued interest, and (ii) the Holder's basis in the debt instrument constituting the surrendered Allowed GST General Unsecured Claim. Such gain or loss should be capital in nature (subject to the "market discount" rules described below) and should be long-term capital gain or loss if the debt constituting the surrendered Allowed GST General Unsecured Claim were held for more than one year. To the extent a portion of the cash received in the exchange is allocable to accrued interest, the Holder may recognize ordinary income. See Section 10.1.6.3.1 (Accrued Interest).

10.1.6.3.1 Accrued Interest

To the extent an amount received by a Holder of a surrendered Allowed Claim under the Plan is attributable to accrued interest that was not previously included in the Holder's gross income, such amount should be taxable to the Holder as interest income.

10.1.6.3.2 Market Discount

Under the "market discount" provisions of Sections 1276 through 1278 of the IRC, some or all of the gain realized by a Holder of a debt instrument constituting an Allowed Claim may be ordinary income (instead of capital gain) to the extent of market discount on the debt instrument. In general, a debt instrument is acquired with market discount if the Holder's adjusted tax basis in the debt instrument is less than (i) the sum of all remaining payments to be made on the debt instrument, excluding qualified stated interest or (ii) in the case of a debt instrument issued with original issue discount of at least a de minimis amount (equal to 0.25 percent of the sum of all remaining payments to be made on the debt instrument, excluding qualified stated interest, multiplied by the number of remaining whole years to maturity), its adjusted issue price. Any gain recognized by a Holder on the disposition of surrendered debts (determined as described above) that had been acquired with market discount should be ordinary income to the extent of

the market discount that accrued while such debts were held by the Holder (unless the Holder elected to include market discount in income as it accrued).

10.1.7 U.S. Federal Information Reporting and Backup Withholding

All distributions under the Plan will be subject to applicable federal income tax reporting and withholding. The IRC imposes "backup withholding" (currently at a rate of 28 percent) on certain reportable payments, including interest, to certain taxpayers. A Holder of a Claim may be subject to backup withholding on distributions or payments made pursuant to the Plan unless the Holder (a) comes within certain exempt categories (which generally include corporations) and, when required, so demonstrates, or (b) provides at the applicable disbursing agent's request a completed IRS Form W-9 (or substitute therefore) on which the Holder includes a correct taxpayer identification number and certifies under penalty of perjury the taxpayer identification number is correct and the taxpayer is not subject to backup withholding because of a failure to report all dividend and interest income. Backup withholding is not an additional federal income tax but merely an advance payment that may be refunded to the extent it results in an overpayment of income tax. A Holder of a Claim may be required to establish an exemption from backup withholding or to make arrangements with respect to the payment of backup withholding. Non-U.S. Holders may be required by the applicable disbursing agent to complete certain IRS forms to establish an exemption from, or a treaty-reduced rate of, withholding on interest distributed pursuant to the Plan.

11. CONCLUSION AND RECOMMENDATION

If you are the Holder of an Asbestos Claim in Class 5, your vote on and support of the Plan is important. The Plan Proponents strongly recommend that you vote in favor and support confirmation of the Plan. The Plan Proponents strongly recommend that all other Holders of Claims and Interests support confirmation of the Plan.

QUESTIONS AND ANSWERS ABOUT THE DEBTORS' CHAPTER 11 CASES

The following is a brief summary of certain basic questions and answers pertinent to the NARCO Debtors' and GIT Debtors' Chapter 11 Cases. This summary is not intended to be a complete discussion of the matters raised in this Disclosure Statement. You should refer to the remainder of the Disclosure Statement and the appropriate Plan of Reorganization for a detailed description of the NARCO Debtors' and GIT Debtors' respective reorganizations. Capitalized terms used herein and not otherwise defined shall have the respective meanings assigned to such terms in Exhibit 1 attached to this Disclosure Statement.

Q. Who is covered by the Plans?

A. The Plans cover North American Refractories Company and its subsidiaries, Global Industrial Technologies, Inc. and its subsidiaries (Harbison-Walker Refractories Company and its subsidiaries and A.P. Green Industries, Inc. and its subsidiaries) and other related companies.

Q. Why did the NARCO Debtors and GIT Debtors file their Chapter 11 Cases?

A. A number of business conditions lead to the NARCO Debtors' and GIT Debtors' bankruptcy filings. First, the costs of asbestos litigation for the NARCO Debtors and GIT Debtors (including Harbison-Walker Refractories Company and A.P. Green Industries, Inc.) rose dramatically from 2000 to early 2002. Second, a recession and deterioration of general business conditions (especially within the steel industry) culminated in decreased sales, the bankruptcy of large customers, and reduced cash flows. Additionally, commencing in the fall of 2001, the Debtors were unable to secure working capital financing.

Q. What is a Chapter 11 proceeding?

A. Chapter 11 is the corporate reorganization section of the United States Bankruptcy Code. The principal objective of a bankruptcy case under Chapter 11 is the development and approval by the Bankruptcy Court of a plan of reorganization which restructures the obligations of the debtors.

Q. How are parties that have a Claim against the Debtors treated in a Chapter 11 proceeding?

A. It depends on the type of Claim you have against a Debtor and how that Claim is classified under the applicable Plan. In general, the Plans divide Claims and Equity Interests that individuals and entities have against the Debtors into separate classes. The Plans specify the cash or securities of the Debtors that each class is to receive in full satisfaction of such Claims and Equity Interests and contain other provisions necessary to the reorganization of the Debtors. Depending on how your Claim is classified, you may receive present or future payments of cash and/or the preservation of your relationship with the Debtors. You should review this Disclosure Statement to more fully understand your rights under the Plans.

Q. What is the process for approving the Debtors' Plans of Reorganization?

A. As a general matter under the Bankruptcy Code, every class of Claims that is "impaired" under a Plan must vote in favor of such Plan in order for it to be confirmed by the Bankruptcy Court. A class of Claims is impaired if Claims in that class are paid under a Plan less than the full value of the Claims or the claimants' rights are otherwise modified. A class of impaired Claims is deemed to have accepted a Plan if the Plan is accepted by holders of Claims constituting at least two-thirds in dollar amount and more than one-half in number of Allowed Claims within such class that vote on a Plan. A class of impaired Equity Interests is deemed to have accepted a Plan if the Plan is accepted by holders of at least two-thirds in the amount of Equity Interests in such class of Equity Interests that vote on the Plan.

If the Claims in a class will be paid in full under a Plan, or reinstated, or their legal, equitable and contractual rights are to remain unchanged by the reorganization, such class will be deemed to be unimpaired and deemed to have accepted the Plan. Accordingly, holders of such Claims will not be entitled to vote on the Plans.

Q. Can a Plan be approved if one or more of the impaired classes do not vote to accept the Plan?

A. Yes. Chapter 11 of the Bankruptcy Code permits a plan of reorganization to be confirmed if at least one class of impaired claims votes in favor of the plan. However, if not all impaired classes vote in favor of a Plan, the Bankruptcy Court must find that the Plan meets a number of statutory tests before it may confirm the Plan. Many of these tests are designed to protect the interests of holders of Claims or Equity Interests who do not vote to accept the Plan but who will nonetheless be bound by their provisions if confirmed by the Bankruptcy Court.

Q. What must I do, as a holder of a Claim against a Debtor, to vote my Claim under a Plan?

A. You should read this Disclosure Statement carefully and ensure that you follow the instructions contained in it for your Claim and that you meet the appropriate deadlines. You also should ensure that you vote timely on each Plan under which you have a Claim by promptly returning your Ballot. You may wish to consult legal counsel with respect to your rights.

Q. I am a current holder of a General Unsecured Claim (other than an Asbestos Claim or Silica Claim) against a Debtor. What will I receive if the Plans are confirmed by the Bankruptcy Court?

A. If you satisfy the requirements to be treated as the holder of a General Unsecured Claim under the NARCO Plan (see table of NARCO Classified Claims and table of GIT Classified Claims found in Section II hereof and see Section V.A hereof), you will receive the payment of 90% of the Allowed General Unsecured Claims so long as the total amount of General Unsecured Claims do not exceed the amount estimated by the NARCO Debtors of $22 million. If you satisfy the requirements to be treated as the holder of a General Unsecured Claim under the GIT Plan (see above-described tables and Section V.B), you will receive the payment of 90% of the Allowed General Unsecured Claims so long as the total amount of General Unsecured Claims do not exceed the amount estimated by the Debtors of $57 million. In no case, however, will you receive more than 90% of your Claim.

Q. I am a current holder of an Asbestos Trust Claim or Silica Trust Claim against a Debtor. What will I receive if the Plans are confirmed by the Bankruptcy Court?

A. Holders of Asbestos Trust Claims against NARCO. If you hold Asbestos Trust Claims against a NARCO Debtor, your Claims will be treated in accordance with the terms and conditions of the NARCO Asbestos Trust Agreement. Under the Plan, a NARCO Asbestos Trust will be established for the purpose of liquidating unsettled asbestos claims submitted to the Trust in accordance with certain procedures described in the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP. The NARCO Asbestos TDP establishes a "scheduled value", "maximum value" and "average value" for claims, subject to amendment of those amounts and subject to annual funding caps. The Debtors expect that holders of NARCO Asbestos Trust Claims that qualify for payment under the NARCO Asbestos TDP will be paid 100% of the value assigned to such Claims under the NARCO Asbestos TDP.

Holders of Asbestos Trust Claims against APG. If you hold Asbestos Trust Claims against an APG Debtor, your Claims will be treated in accordance with the terms and conditions of the APG Asbestos Trust Agreement. It is expected that holders of APG Asbestos Trust Claims will be paid a percentage (such percentage to be established pursuant to the APG Asbestos TDP) of the amount established under the APG Asbestos TDP for the payment of APG Asbestos Trust Claims.

Holders of Silica Trust Claims against APG. If you hold Silica Trust Claims against an APG Debtor, your Claims will be treated in accordance with the terms and conditions of the APG Silica Trust Agreement. It is expected that holders of APG Silica Trust Claims will be paid a percentage (such percentage to be established pursuant to the APG Silica TDP) of the amount established under the APG Silica TDP for the payment of APG Silica Trust Claims.

Holders of Asbestos Trust Claims and/or Silica Trust Claims against H-W. If you hold Asbestos Trust Claims or Silica Trust Claims against a H-W Debtor, your Claims have been channeled to the Asbestos Trust or Silica Trust, as applicable, created in the DII Industries, LLC Chapter 11 bankruptcy case (a prepackaged plan of reorganization filed on December 16, 2003 by DII Industries, LLC and captioned as In re Mid-Valley Inc., et al., 03-35592 (Bankr. W.D. Pa.) which approved the treatment of your Asbestos Claims and/or Silica Claims in the DII Industries, LLC Chapter 11 case and defined in this Disclosure Statement as the "DII Chapter 11 Case"). H-W Asbestos Trust Claims and H-W Silica Trust Claims will be paid the amount established under the DII Asbestos TDP or DII Silica TDP, as applicable, under the DII Plan.

Q. What do I need to do now?

A. If you are the holder of a Claim in Classes 2 (DIP Financing Claim), 3-A (General Unsecured Claims), 3-C (RHI AG Entity Claims), 4-A (NARCO Asbestos Trust Claims) or 5 (NARCO Equity Interests) of the NARCO Plan or 3-A (General Unsecured Claims), 3-C (RHI AG Entity Claims), 4-A (APG Asbestos Trust Claims), 5-A (APG Silica Trust Claims), or 6 (GIT Equity Interests) of the GIT Plan, you should review this Disclosure Statement and the applicable Plan upon which you are entitled to vote, fill out a Ballot for each such Claim to accept or reject the applicable Plan and return it to the following persons:

If by mail:

Logan & Company, Inc.
546 Valley Road
Upper Montclair, NJ 07043

If by hand delivery or courier service:

Logan & Company, Inc.
546 Valley Road
Upper Montclair, NJ 07043

All Ballots must be actually received by 5:00 p.m. ET, on March 31, 2006, unless the Bankruptcy Court extends the deadline.

If you are the holder of a Claim in classes 1-A (Allowed Secured Claims secured by letters of credit or bonds posted by a NARCO Debtor or by another financial instrument or by Cash), 1-B (Allowed Secured Claims under Capitalized Leases and under Secured Financing Agreements other than Classes 1-A and 2), 3-B (GIT and NARCO Entity Claims), or 4-B (NARCO Silica Claims) of the NARCO Plan or 1-A (Allowed Secured Claims secured by letters of credit or bonds posted by a GIT Debtor or by another financial instrument or by Cash), 1-B (Allowed Secured Claims under Capitalized Leases and under Secured Financing Agreements other than Class 1-A), or 3-B (NARCO and GIT Entity Claims) of the GIT Plan your Claim is not impaired and therefore you are not entitled to vote with respect to such Claims.

Q. When are the Debtors expected to complete their reorganization?

A. A hearing before the Bankruptcy Court to consider confirmation of the Plans is currently scheduled for June 5, 2006 commencing at 9:00 a.m. If that hearing occurs as scheduled, and is completed as the Debtors intend and anticipate, the Plans will become effective and the Debtors' reorganization will be complete, by approximately the second quarter of 2006.

Q. Will proposed federal asbestos legislation have an impact on the Debtors' Plans?

A. Legislation currently is pending before the U.S. Congress that, if passed, could affect the rights and obligations of companies with asserted asbestos liabilities, including the Debtors in these Chapter 11 Cases. The exact terms of the proposed federal asbestos legislation are still the subject of negotiations, however, and it is uncertain how, if at all, such legislation could impact the Debtors and these Chapter 11 Cases.

Q. Whom should I contact if I have questions concerning the Plans?

A. If you have additional questions concerning the Plans, please contact the following:

Logan & Company, Inc.
546 Valley Road
Upper Montclair, NJ 07043
Phone: 973-509-3190

DISCLOSURE STATEMENT UNDER SECTION 1125 OF THE BANKRUPTCY CODE WITH RESPECT TO THE THIRD AMENDED PLAN OF REORGANIZATION OF NARCO AND THE NARCO-AFFILIATED DEBTORS AND THE THIRD AMENDED PLAN OF REORGANIZATION OF GIT AND THE GIT-AFFILIATED DEBTORS

This Disclosure Statement ("Disclosure Statement") under Section 1125 of the Bankruptcy Code is being filed with respect to the Third Amended Plan of Reorganization proposed by North American Refractories Company ("NARCO") and the NARCO-Affiliated Debtors (the "NARCO Plan") and the Third Amended Plan of Reorganization proposed by Global Industrial Technologies, Inc. ("GIT") and the GIT-Affiliated Debtors (the "GIT Plan," together with the NARCO Plan, the "Plans," and each individually, a "Plan"). This Disclosure Statement contains a summary of certain provisions of the Plans and certain financial information relating thereto. While the Debtors believe that the Disclosure Statement provides adequate information with respect to the Plans, it is a summary and does not set forth the entire text of the Plans. Each holder of an impaired Claim or Equity Interest should read each Plan (and the exhibits to this Disclosure Statement and each Plan) which relates to such impaired Claim or Equity Interest and should seek the advice of its own counsel before casting a Ballot. For your convenience, the NARCO Plan is attached to this Disclosure Statement as Exhibit 2 and the GIT Plan is attached to this Disclosure Statement as Exhibit 3. Capitalized terms used herein and not otherwise defined shall have the respective meanings assigned to such terms in Exhibit 1 attached to this Disclosure Statement.

The NARCO Plan provides for the treatment of Claims against and interests in the NARCO Debtors. NARCO's Affiliated Debtors are I-Tec Holding Corp. ("I-Tec"), InterTec Company ("InterTec") and Tri-Star Refractories, Inc. ("Tri-Star," together with I-Tec and InterTec the "NARCO-Affiliated Debtors").

The GIT Plan provides for the treatment of Claims against and interests in the GIT Debtors. GIT's Affiliated Debtors are Harbison-Walker Refractories Company ("H-W"), Indresco International, Ltd. ("Indresco International"), Harbison-Walker Refractories Europe, Ltd. ("H-W Europe"), Harbison-Walker International Refractories, Inc. ("H-W International"), GPX Corp. ("GPX"), Global Processing Systems, Inc. ("GPS"), GPX Forge, Inc. ("GPX Forge"), GPX Forge Acquisition, Inc. ("GPX Acquisition"), GPX Forge-U, Inc. ("GPX Forge-U"), TMPSC, Inc. ("TMPSC"), Global Industrial Technologies Services Company ("GIT Services"), GIX Foreign Sales Corp. ("GIX"), A.P. Green Industries, Inc. ("APG"), A.P. Green Services, Inc. ("APG Services"), APG Development Corp. ("APG Development"), Detrick Refractory Fibers, Inc. ("Detrick"), APG Refractories Corp. ("APG Refractories"), Intogreen Co. ("Intogreen"), A.P. Green International, Inc. ("APG International"), A.P. Green Refractories, Inc. ("AP Green Refractories"), Lanxide ThermoComposites, Inc. ("Lanxide"), Chiam Technologies, Inc. ("Chiam"), ANH Refractories Company, formally known as RHI Services, Inc ("ANH"), RHI America Receivables Corporation ("RHI Receivables"), and RHI Refractories America, Inc. ("RHI Refractories America") (each a "GIT-Affiliated Debtor" and collectively the "GIT-Affiliated Debtors").

I. IN GENERAL

The purpose of this Disclosure Statement is to enable you, as the holder of Claims against and Equity Interests in one or more of the Debtors, to make an informed decision with respect to voting on acceptance or rejection of each Plan upon which you are entitled to vote.

On January 30, 2006, after notice to holders of Claims and Equity Interests, and other parties in interest, the Bankruptcy Court approved this Disclosure Statement as containing information of a kind and in sufficient detail that would enable hypothetical, reasonable investors typical of holders of Claims against and Equity Interests in the Debtors, whose votes are being solicited, to make an informed judgment as to whether or not to vote to accept or reject the Plans. APPROVAL OF THE DISCLOSURE STATEMENT REFLECTS ONLY THE DETERMINATION THAT IT CONTAINS ADEQUATE INFORMATION, AND SUCH APPROVAL IS NOT A DETERMINATION BY THE BANKRUPTCY COURT WITH REGARD TO THE MERITS OF EACH PLAN.

You are urged to review fully the provisions of each Plan upon which you are entitled to vote and all other exhibits attached hereto and thereto, in addition to reviewing the text of this Disclosure Statement. This Disclosure Statement is not intended to replace a careful review and analysis of each applicable Plan. Every effort has been made to explain fully the various aspects of the Plans, as they affect holders of Claims and Equity Interests. However, to the extent any questions arise, the Debtors urge you to seek independent legal advice.

No solicitation of votes on the Plans may be made except pursuant to this Disclosure Statement and Section 1125 of the Bankruptcy Code, and no person has been authorized to use any information concerning the Debtors or their businesses other than the information contained herein or in other information approved by the Bankruptcy Court for dissemination to holders of Claims and Equity Interests. Except as specifically approved by the Bankruptcy Court, you should not rely on any information relating to the Debtors and their businesses, other than that contained in this Disclosure Statement, the Plans, and the exhibits attached hereto and thereto.

There has been no independent audit of the financial information contained in this Disclosure Statement and no fairness opinion has been obtained regarding the value of the assets and the amount of the liabilities stated herein and the exhibits and schedules hereto. A valuation will be done of consolidated Reorganized ANH if necessary for purposes of quantifying the tax deductions available for contribution of the common stock of Reorganized ANH to the NARCO Asbestos Trust and APG Asbestos Trust and for the application of fresh start accounting upon emergence from bankruptcy. The factual information regarding the Debtors' assets and liabilities have been derived from the Debtors' Schedules,[1] available public records, pleadings and reports on file with the Bankruptcy Court, and the Debtors' internal

---

1 The NARCO Debtors filed their Schedules of Assets and Liabilities and Statement of Financial Affairs with the Bankruptcy Court on March 29, 2002. The GIT Debtors filed their Schedules of Assets and Liabilities and Statement of Financial Affairs with the Bankruptcy Court on May 30, 2002, as amended on November 19, 2002. Copies of the Debtors' Schedules of Assets and Liabilities and the Amended Schedules are available from the Bankruptcy Court.

documents. While every effort has been made by the Debtors to provide accurate information, the Debtors and their legal advisors cannot and do not warrant or represent that the information contained in this Disclosure Statement is without any inaccuracy.

This Disclosure Statement has not been approved or disapproved by the Securities and Exchange Commission or the securities regulatory authority of any state, nor has the Securities and Exchange Commission or the securities regulatory authority of any state passed upon the accuracy or adequacy of the statements contained herein.

On January 30, 2006, after notice and a hearing, the Bankruptcy Court entered the Voting Procedures Order, which, among other things, designates which holders of Claims and Equity Interests are entitled to vote on each Plan, and establishes other procedures for the solicitation and tabulation of Ballots. A copy of the Voting Procedures Order is enclosed in the package with this Disclosure Statement.

With respect to each Plan, each holder of a Claim or Equity Interest should review the entire Plan related to such Claim or Equity Interest and should seek advice from his, her or its own counsel before casting a Ballot. Each holder of an impaired Claim entitled to vote may only cast one Ballot for each impaired Claim.

IN ORDER TO HAVE YOUR VOTE COUNTED, YOU MUST COMPLETE AND MAIL THE ENCLOSED BALLOT TO THE ADDRESS SET FORTH THEREON SO THAT IT IS RECEIVED BY 5:00 P.M ET ON MARCH 31, 2006 (THE "VOTING DEADLINE"). YOU MUST COMPLETE THE BALLOT BY INDICATING ON THE APPROPRIATE LINES EITHER YOUR ACCEPTANCE OR REJECTION OF EACH PLAN UPON WHICH YOU ARE ENTITLED TO VOTE. ANY COMPLETED BALLOTS THAT ARE RECEIVED BEFORE THE VOTING DEADLINE THAT DO NOT INDICATE EITHER AN ACCEPTANCE O REJECTION OF AN APPLICABLE PLAN WILL BE DEEMED TO CONSTITUTE AN ACCEPTANCE. PLEASE NOTE THAT BALLOTS RECEIVED AFTER 5:00 P.M. ET ON MARCH 31, 2006 WILL NOT BE COUNTED. FOR ADDITIONAL INFORMATION RELATED TO VOTING PROCEDURES PLEASE REFER TO SECTION VI.C. BELOW.

A hearing has been scheduled for June 5, 2006, ET before the Honorable Judith K. Fitzgerald, United States Bankruptcy Judge, United States Bankruptcy Court, Western District of Pennsylvania to determine whether the Plans should be confirmed. Objections, if any, to confirmation of each Plan shall be in writing, shall specifically set forth the law and facts supporting the objection, and shall be filed with the Bankruptcy Court and served on the NARCO Official Service List and/or the GIT Official Service List, as applicable, copies of which are attached hereto as Exhibits 14 and 15, respectively, on or before 5:00 p.m. ET on May 12, 2006. The Confirmation Hearing may be adjourned from time to time without further notice except for the announcement of the adjourned date made at the Confirmation Hearing or at any subsequent adjourned date. Following entry of an order confirming the Plans by the Bankruptcy Court, the respective Plan Proponents will immediately seek to have that order affirmed by the United States District Court for the Western District of Pennsylvania (the "District Court").

The confirmation and effectiveness of the Plans are subject to conditions precedent that could lead to delays in effectiveness of the Plans. Also, no assurance can be given that each of these conditions will be satisfied or waived, or that either of the Plans will be confirmed or become effective. In addition, even after the Effective Date, certain distributions under the Plans may be subject to substantial delays pending resolution of disputed or unliquidated Claims.

The Debtors believe that the Plans offer the best possible recovery to holders of Claims against the Debtors when compared to all reasonably available alternatives. The Debtors believe that acceptance of each Plan is in the best interests of each and every voting class, and strongly recommend that you vote to accept each Plan upon which you are entitled to vote.

II. A. OVERVIEW OF PLANS

The Plans provide a method for the equitable payment of Claims against the Debtors. Most significantly, the Plans provide for the establishment of three trusts (the "PI Trusts") for payment of PI Trust Claims: a NARCO Asbestos Trust, an APG Asbestos Trust and an APG Silica Trust.

The NARCO and GIT Debtors will be reorganized into one of two affiliate groups, each of which will be 100% owned by an entity known herein as Reorganized ANH. The first group will consist of Reorganized NARCO and each Reorganized NARCO-Affiliated Debtor. The second group will consist of Reorganized GIT and each Reorganized GIT-Affiliated Debtor (including, but not limited to, Reorganized GIT's Subsidiaries Reorganized Harbison-Walker Refractories Company (Harbison-Walker Refractories Company is called "H-W" herein) and Reorganized A.P. Green Industries, Inc. (A. P. Green Industries, Inc. is called "APG" herein)). As more fully described in Article VIII of this Disclosure Statement, through their ownership of 100% of the equity interest in Reorganized ANH (the NARCO Asbestos Trust will own 79% of Reorganized ANH and the APG Asbestos Trust will own 21% of Reorganized ANH), the NARCO Asbestos Trust and the APG Asbestos Trust will control Reorganized NARCO and Reorganized GIT.

Reorganized ANH will provide management services, including cash management and centralized treasury functions, to Reorganized NARCO and Reorganized GIT and their Subsidiaries. In addition, certain other Debtors may be liquidated and dissolved on or after the Effective Date of the respective Plans.

In order to understand this Disclosure Statement and the NARCO Plan, you should carefully review the glossary and the definitions contained therein. Many definitions refer to other defined terms and it will be necessary to also understand the defined terms used within definitions to understand such defined terms.

The NARCO Plan provides that the NARCO Asbestos Trust, which is being established for the payment of NARCO Asbestos Trust Claims and NARCO Asbestos Demands, will be funded with 79% of the outstanding common stock of Reorganized ANH, as noted above, and cash payments to be made by Honeywell in accordance with the payment schedule set forth in the NARCO Asbestos Trust Agreement. It is anticipated that NARCO Asbestos Trust Claims and NARCO Asbestos Demands will be paid 100% of the value of such Claims and Demands established pursuant to the NARCO Asbestos TDP for payment of such NARCO Asbestos Trust Claims and NARCO Asbestos Demands.

All claims of any NARCO Debtor against any other NARCO Debtor will be waived and cancelled. Reorganized NARCO will continue to operate after the Effective Date of the NARCO Plan as a manufacturer of refractory products focusing on serving the steel and glass industries. On or after the Effective Date, InterTec Company, I-Tec Holding Corp. and Tri-Star Refractories, Inc. may be dissolved under state law.

The GIT Plan provides for the establishment of an APG Asbestos Trust for the payment of APG Asbestos Trust Claims and APG Asbestos Demands. The GIT Plan provides that the APG Asbestos Trust will be funded with 21% of the shares of Reorganized ANH common stock. The APG Asbestos Trust also will be funded with cash and rights to receive insurance proceeds. It is anticipated that APG Asbestos Trust Claims and APG Asbestos Demands will be paid a percentage (such percentage to be established pursuant to the APG Asbestos TDP) of the amount established pursuant to the APG Asbestos TDP for payment of such APG Asbestos Trust Claims and APG Asbestos Demands.

Because of certain agreements reached with DII Industries, LLC ("DII"), a successor to Dresser Industries, Inc., all H-W Asbestos Trust Claims and H-W Silica Trust Claims have been channeled to certain trusts created in the DII Chapter 11 Case.

The GIT Plan provides for establishment of an APG Silica Trust for payment of APG Silica Trust Claims and APG Silica Demands. All APG Silica Trust Claims and APG Silica Demands will be channeled to the APG Silica Trust, which will be funded with cash and rights to receive insurance proceeds.

All claims of any GIT Debtor against any other GIT Debtor will be waived and cancelled. Reorganized GIT will continue to operate in its current capacity after the Effective Date of the GIT Plan. On or after the Effective Date, certain remaining assets of the GIT Entities may be liquidated and certain of the GIT Entities may be dissolved under state law.

The Debtors will seek to confirm the Plans pursuant to Sections 105 and 524(g), and other sections of the Bankruptcy Code, which authorize the Bankruptcy Court to enter "channeling injunctions" pursuant to which the PI Trust Claims are channeled to the NARCO Asbestos Trust, APG Asbestos Trust, or the APG Silica Trust (as applicable) for payment out of the assets of such trusts (the "Channeling Injunctions"). The Debtors and certain third parties (as more fully described in Section VII.D.1 of this Disclosure Statement) will receive the benefit of such Channeling Injunctions.

B. STATEMENT OF OBJECTORS

Several groups of asbestos claimants have objected to this disclosure statement and to provisions of the NARCO Plan. The objectors believe that this bankruptcy case is a bad faith and impermissible attempt to discharge Honeywell's direct liabilities on account of its asbestos-containing products.

The objectors are of the view that Honeywell, and not the NARCO Debtors which have filed for bankruptcy, is actually and legally responsible for all of the injuries and deaths caused by asbestos products manufactured under the "NARCO" trade name. The objectors believe that the law does not allow Honeywell to escape its direct liability for "NARCO"-brand asbestos products through the NARCO Plan described in the Disclosure Statement and that asbestos

creditors should vote against the NARCO Plan, which, if confirmed, would result in a lower payment to asbestos creditors than if Honeywell remains in the tort system.

Specifically, the objectors believe that all of the asbestos-containing products manufactured and sold under the "NARCO"-brand name were manufactured and sold by Honeywell's predecessors (by merger, now Honeywell) before the NARCO Debtors now in bankruptcy even existed. The objectors believe that when the NARCO Debtors in this bankruptcy purchased from Honeywell the right to manufacture and sell "NARCO"-brand name refractory products that did not contain asbestos, the parties expressly contracted for all asbestos liabilities arising from the products that had been produced or sold by Honeywell to stay with Honeywell.

Even if Honeywell's claim that the NARCO Debtors in bankruptcy assumed some of Honeywell's asbestos liability is true, however, it is the objectors' view that Honeywell, not NARCO, continues to be primarily and directly liable to the asbestos claimants.

Honeywell is a solvent, Fortune 100, multi-billion dollar multi-national company. The objectors believe that all holders of claims which are not "preferred claims" (see the discussion below) will recover more money from Honeywell for their "NARCO"-brand asbestos products injuries than they will receive if the NARCO Plan proposed in the case is confirmed.

Following the full and complete discovery that they will seek from Honeywell and the NARCO Debtors, the objectors intend to present evidence at the time of the confirmation hearing on the NARCO Plan which the objectors believe will show that Honeywell has direct, independent asbestos liabilities for all "NARCO"-brand products. If the Court determines that the objectors are correct and that Honeywell's asbestos liabilities are not based on, and derivative of, claims against the NARCO Debtors in bankruptcy based upon its conduct or operations, Honeywell will not be granted the benefits of the injunction proposed by the NARCO Plan.

The objectors also are of the view that Honeywell has improperly obtained votes in favor of the NARCO Plan by giving "preferred settlement" payments to many asbestos claimants in return for "YES" votes on the NARCO Plan.

After the bankruptcy petition was filed, the objectors believe that Honeywell paid settlements to many claimants and law firms that in return for a promise from those claimants and law firms to vote in favor of a bankruptcy plan which would eliminate Honeywell's legal responsibility for all the "NARCO"-brand asbestos product claims for which it would otherwise be liable. Based on information obtained to date, the objectors believe that Honeywell has paid or promised to pay hundreds of millions of dollars to preferred claimants and law firms to obtain their votes and has promised to pay these "preferred claims" even more money once the bankruptcy plan receives a favorable vote from the asbestos claimants. Honeywell refuses to disclose, absent court order, the amounts it has paid to settling claimants, the identity of the claimants or the identity of the settling law firms.

The objectors believe that the asbestos claimants who have received preferred settlements from Honeywell will receive more for the "NARCO"-brand product claims than will those asbestos claimants without post-

petition "preferred settlements" from Honeywell. The objectors believe it is improper for Honeywell to give "preferred settlement" payments to some "NARCO"-brand asbestos product claimants and not to others.

The objectors believe that those asbestos claimants with claims solely against the Debtor must be classified for voting and treatment separately from those claimants with claims against Honeywell. The objectors also contend that those asbestos claimants with settled claims must be classified for voting and treatment separately from those claimants with unsettled claims.

The objectors intend to present evidence and argument on these issues at the time of the confirmation hearing on the NARCO Plan. The objectors contend that if the Court finds that settling creditors had agreed to vote for the NARCO Plan as part of their settlements, the votes of those creditors will be disallowed and will not count.

The objectors believe that the Disclosure Statement is materially misleading, omits critical facts, is incomplete and is otherwise inadequate to enable asbestos creditors to make an informed judgment on the NARCO Plan. The objectors urge all creditors to read the defined terms used in the NARCO Plan and the Disclosure Statement carefully because most of the defined terms that use the term "NARCO" include reference to both the NARCO Debtors in bankruptcy and Honeywell. The objectors believe that these terms have been intentionally written to confuse creditors and conceal the protections that Honeywell is receiving under the NARCO Plan. The objectors also believe that half truths have been published in an effort to mislead asbestos victims and conceal that Honeywell, not the Debtor, is responsible and liable for their injuries.

For the reasons stated herein and many others that are set forth in the various objections filed by the objectors, the objectors also urge creditors, and particularly those asbestos claimants who were not offered "preferred settlements", to vote against the NARCO Plan.

In approving the Disclosure Statement for dissemination, please be advised that the Court has not made a determination as to the accuracy of any of the statements made in the Disclosure Statement. The objectors urge that you strongly consider this statement by the objectors as you read the Disclosure Statement and consider how to vote on the NARCO Plan. Objectors believe that if you are concerned with the issues raised by the Objectors, you should vote "NO" on the NARCO Plan. If you do not vote, those claimants with "preferred settlements" may control the vote and bind you to less favorable treatment.

C. DEBTORS' REPLY TO OBJECTORS' STATEMENT

The Debtors do not believe the objectors' positions are supported by the law or the facts in these cases. The Debtors believe that the Plans will be confirmed over the objections of the objectors.

The following charts provide a summary of the treatment of Claims against and Equity Interests in the NARCO Debtors under the NARCO Plan:

NARCO UNCLASSIFIED CLAIMS

Description of Claims	Treatment under the NARCO Plan
NARCO Administrative Expense Claims –Ordinary Course Liabilities. Claims arising from the operation of NARCO's and/or the NARCO-Affiliated Debtors' businesses after the commencement of the Chapter 11 Cases. The estimated Allowed Amount of these Claims is $23.1 million.	Each holder of an Allowed Administrative Expense Claim for ordinary course liabilities will receive Cash equal to the unpaid portion of such Allowed Administrative Expense Claim on the later of (a) the Effective Date, and (b) such other date as is mutually agreed upon by the NARCO Debtors (or Reorganized ANH) and the holder of such Claim; provided, however, that Administrative Expense Claims that represent liabilities incurred by the NARCO Debtors in the ordinary course of their business during the Chapter 11 Cases will, to the extent not paid on or before the Effective Date, be paid by Reorganized ANH in the ordinary course of its business and in accordance with any terms and conditions of any agreements related thereto. The estimated percentage recovery for these Claims is 100% of the Allowed Amount. Holders of these Claims will not vote on the NARCO Plan.
NARCO Administrative Expense Claims – Professional Fees. Claims of Bankruptcy Professionals for fees and expenses. The estimated Allowed Amount of these Claims is $0.8 million.	Allowed Administrative Expense Claims for fees and expenses of Bankruptcy Professionals will be paid in full in Cash in an amount equal to the unpaid portion of the Allowed Amount of such Claim (i) on the Effective Date or (ii) upon such other terms as may be agreed upon by the holder of such Claim. The estimated percentage recovery for these Claims is 100% of the Allowed Amount. Holders of these Claims will not vote on the NARCO Plan.

NARCO Priority Claims of Governmental Units. Allowed Priority Claims of governmental units under Bankruptcy Code Section 507(a)(8). The estimated Allowed Amount of these Claims is $0.8 million.	Each holder of a Priority Claim of governmental units under Bankruptcy Code Section 507(a)(8) not paid pursuant to an Order of the Bankruptcy Court will be paid the Allowed Amount of its Claim, at the option of Reorganized ANH either (a) in full, in Cash, on the Effective Date or as soon as practical thereafter, or (b) in deferred cash payments, over a period not exceeding six years after the date of assessment of such Claim, of a value, as of the Effective Date of the NARCO Plan, equal to the Allowed Amount of such Claim. Holders of these Claims will not vote and are deemed to have accepted the NARCO Plan.

NARCO CLASSIFIED CLAIMS

NARCO Class 1 – Secured Claims

NARCO Class 1-A - Allowed Secured Claims secured by financial instruments. This Class consists of Claims secured by a letter of credit, bond, other financial instrument, or Cash. The estimated amount of these Claims is $0.05 million.	**Not Impaired; Deemed to have accepted the NARCO Plan.** Unless otherwise agreed by the NARCO Debtors and the holder of each Claim, each Claim secured by a letter of credit, bond, other financial instrument or cash will retain its collateral subject to any rights of the NARCO Debtors under any applicable agreements to seek a reduction of such collateral. Such Claims will be satisfied from the collateral or the proceeds thereof as such Claims become fixed and liquidated and payable under applicable agreements. Any excess collateral, including the proceeds of any letters of credit, bond or other financial instrument shall be returned to Reorganized NARCO after the secured Claim has been paid in full.

NARCO Class 1-B - Allowed Secured Claims under Capitalized Leases and Secured Financing Agreements. This Class consists of Allowed Secured Claims under Capitalized Leases and under Secured Financing Agreements other than Class 1-A and Class 2. The estimated Allowed Amount of these Claims is $0.1 million.	**Not Impaired; Deemed to have accepted the NARCO Plan.** At Reorganized ANH's option, Reorganized ANH will take the following action with respect to each holder of an Allowed Secured Claim under Capitalized Leases and under Secured Financing Agreements: (a) reinstate the debt underlying such Secured Financing Agreement or Capitalized Lease and leave the collateral for such debt in place, (b) distribute the collateral securing such Allowed Secured Claim; (c) distribute Cash in an amount equal to the proceeds actually realized from the sale, pursuant to Section 363(b) of the Bankruptcy Code, of any collateral securing such Allowed Secured Claim, less the actual costs and expenses of disposing of such collateral, or (d) effect such other treatment of such Allowed Secured Claim as may be mutually agreed upon between the holder of such Allowed Secured Claim and Reorganized ANH, on the later of (i) the Effective Date and (ii) the tenth Business Day of the first month following the month in which such Claim becomes an Allowed Secured Claim, or as soon after such dates as is practicable. Each holder of an Allowed Secured Claim in NARCO Class 1-B will retain the Liens securing such Claim as of the Confirmation Date.

NARCO Class 2 – Debtor-in-Possession Financing Claim

NARCO Class 2 - Debtor-in-Possession Financing Claim. This Class consists of Claims of Honeywell against the NARCO Debtors related to the NARCO DIP Facility.	**Impaired; Entitled to vote on the NARCO Plan.** The NARCO DIP Facility will be fully drawn, not repaid, and deemed satisfied on the Effective Date of the NARCO Plan. Honeywell has agreed to accept this treatment pursuant to the NARCO/Honeywell Settlement Agreement attached hereto as Exhibit 4.

NARCO General Unsecured Claims (other than NARCO Asbestos Trust Claims)

NARCO Class 3-A – General Unsecured Claims. This Class consists of General Unsecured Claims. The estimated Allowed Amount of these Claims is between $20 million and $22 million.	**Impaired; Entitled to vote on the NARCO Plan.** Holders of Class 3-A Claims will be paid in cash on the Effective Date an amount equal to 90% of the Allowed amount of each General Unsecured Claim so long as the total amount of General Unsecured Claims does not exceed the amount estimated by the Debtors of $22 million. No holder of a Claim shall receive more or less than 90% of the Allowed Amount of its Claim.
NARCO Class 3-B – GIT and NARCO Entity Claims. This Class consists of Claims of the GIT Entities and NARCO Entities other than the NARCO Debtors against any of the NARCO Debtors. The estimated Allowed Amount of these Claims is $30.0 million.	**Not Impaired; Deemed to have accepted the NARCO Plan.** Claims of the GIT Entities and NARCO Entities other than the NARCO Debtors against any of the NARCO Debtors will not be modified by the NARCO Plan.
NARCO Class 3-C – RHI AG Entity Claims. This Class consists of Claims of the RHI AG Entities against any of the NARCO Debtors.	**Impaired; Entitled to vote on the NARCO Plan.** All Claims of the RHI AG Entities against any of the NARCO Debtors will be released, discharged and cancelled on the Effective Date of the NARCO Plan pursuant to the NARCO/RHI AG Settlement Agreement attached hereto as Exhibit 5. Pursuant to the NARCO/RHI AG Settlement Agreement, the holders of these Claims will receive no Cash Distributions under the NARCO Plan in respect of such Claims. However, the holders of these Claims are receiving a release under the NARCO Plan. Under the NARCO/RHI AG Settlement Agreement, the RHI AG Entities have agreed to not object to this treatment.

NARCO Class 4 - NARCO Asbestos Trust Claims and Silica Claims

NARCO Class 4-A - NARCO Asbestos Trust Claims. This Class consists of NARCO Asbestos Trust Claims.[2]	**Impaired; Entitled to vote on the NARCO Plan.** All NARCO Asbestos Trust Claims will be resolved pursuant to the terms, provisions and procedures set forth in the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP. Under the Plan, a NARCO Asbestos Trust will be established for the purpose of liquidating unsettled asbestos claims submitted to the Trust in accordance with certain procedures described in the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP. The NARCO Asbestos TDP establishes a "scheduled value", "maximum value" and "average value" for claims, subject to amendment of those amounts and subject to annual funding caps. The Debtors expect that holders of NARCO Asbestos Trust Claims that qualify for payment under the NARCO Asbestos TDP will be paid 100% of the value assigned to such Claims under the NARCO Asbestos TDP.
NARCO Class 4-B - NARCO Silica Claims. This Class consists of NARCO Silica Trust Claims.	**Not Impaired; Deemed to have accepted the NARCO Plan.** These Claims will pass through the NARCO Chapter 11 Cases unaffected.

2 Please refer to Section II.B. herein for an opposing view concerning the NARCO Plan and the statements made herein.

NARCO Class 5 - NARCO Equity Interests

NARCO Class 5 - NARCO Equity Interests. This Class consists of all Equity Interests in any NARCO Debtor held by any RHI AG Entity.	**Impaired; Entitled to vote on the NARCO Plan.** All Equity Interests of the RHI AG Entities in any NARCO Debtor will be cancelled and terminated on the Effective Date of the NARCO Plan pursuant to the NARCO/RHI AG Settlement Agreement attached hereto as Exhibit 5. Pursuant to the NARCO/RHI AG Settlement Agreement, the holders of these Equity Interests will receive no Cash Distributions under the NARCO Plan in respect of such Equity Interests. However, the holders of these Equity Interests are receiving a release under the NARCO Plan. Under the NARCO/RHI AG Settlement Agreement, the RHI AG Entities have agreed to not object to this treatment.

The following is a summary of the classification and treatment of the Claims and Equity Interests in the GIT Debtors under the GIT Plan:

GIT UNCLASSIFIED CLAIMS

Description of Claims	Treatment under the GIT Plan
GIT Administrative Expense Claims – Ordinary Course Liabilities. Claims arising from the operation of GIT's and/or the GIT-Affiliated Debtors' businesses after the commencement of the Chapter 11 Cases. The estimated Allowed Amount of these Claims is $43.7 million.	Each holder of an Allowed Administrative Expense Claim for ordinary course liabilities will receive Cash equal to the unpaid portion of such Allowed Administrative Expense Claim on the later of (a) the Effective Date, and (b) such other date as is mutually agreed upon by the GIT Debtors (or Reorganized ANH) and the holder of such Claim; provided, however, that Administrative Expense Claims that represent liabilities incurred by the GIT Debtors in the ordinary course of their business during the Chapter 11 Cases will, to the extent not paid on or before the Effective Date, be paid by Reorganized ANH in the ordinary course of its business and in accordance with any terms and conditions of any agreements related thereto. The estimated percentage recovery for these Claims is 100% of the Allowed Amount. Holders of these Claims will not vote on the GIT Plan.

GIT Administrative Expense Claims – Professional Fees. Claims of Bankruptcy Professionals for fees and expenses. The estimated Allowed Amount of these Claims is $1.3 million.	Allowed Administrative Expense Claims for fees and expenses of Bankruptcy Professionals will be paid in full in Cash in an amount equal to the unpaid portion of the Allowed Amount of such claim (i) on the Effective Date or (ii) upon such other terms as may be agreed upon by the holder of such Claim. The estimated percentage recovery for these Claims is 100% of the Allowed Amount. Holders of these Claims will not vote on the GIT Plan.
GIT Priority Claims of Governmental Units. Allowed Priority Claims of governmental units under Bankruptcy Code Section 507(a)(8). The estimated Allowed Amount of these Claims is $1.8 million.	Each holder of a Priority Claim of governmental units under Bankruptcy Code Section 507(a)(8) not paid pursuant to an Order of the Bankruptcy Court will be paid the Allowed Amount of its Claim, at the option of Reorganized ANH either (a) in full, in Cash, on the Effective Date or as soon as practical thereafter, or (b) in deferred cash payments, over a period not exceeding six years after the date of assessment of such Claim, of a value, as of the Effective Date of the GIT Plan, equal to the Allowed Amount of such Claim. Holders of these Claims will not vote and are deemed to have accepted the GIT Plan.

GIT CLASSIFIED CLAIMS

GIT Class 1 - Secured Claims

GIT Class 1-A – Allowed Secured Claims secured by financial instruments. This Class consists of Claims secured by a letter of credit, bond, other financial instrument, or Cash. The estimated amount of these Claims is $0.2 million.	**Not Impaired; Deemed to have accepted the GIT Plan.** Unless otherwise agreed by the GIT Debtors and the holder of each Claim, each Claim secured by a letter of credit, bond, other financial instrument or cash will retain its collateral subject to any rights of the GIT Debtors under any applicable agreements to seek a reduction of such collateral. Such Claims will be satisfied from the collateral or the proceeds thereof as such Claims become fixed and liquidated and payable under applicable agreements. Any excess collateral, including the proceeds of any letters of credit, bond or other financial instrument shall be returned to Reorganized GIT after the secured Claim has been paid in full.

GIT Class 1-B – Allowed Secured Claims under Capitalized Leases and Secured Financing Agreements. This Class consists of Allowed Secured Claims under Capitalized Leases and under Secured Financing Agreements other than Class 1-A. The estimated Allowed Amount of these claims is $1.0 million.	**Not Impaired; Deemed to have accepted the GIT Plan.** At Reorganized ANH's option, Reorganized ANH will take the following action with respect to each holder of an Allowed Secured Claim under Capitalized Leases and under Secured Financing Agreements: (a) reinstate the debt underlying such Secured Financing Agreement or Capitalized Lease and leave the collateral for such debt in place, (b) distribute the collateral securing such Allowed Secured Claim; (c) distribute Cash in an amount equal to the proceeds actually realized from the sale, pursuant to Section 363(b) of the Bankruptcy Code, of any collateral securing such Allowed Secured Claim, less the actual costs and expenses of disposing of such collateral, or (d) effect such other treatment of such Allowed Secured Claim as may be mutually agreed upon between the holder of such Allowed Secured Claim and Reorganized ANH, on the later of (i) the Effective Date and (ii) the tenth Business Day of the first month following the month in which such Claim becomes an Allowed Secured Claim, or as soon after such dates as is practicable. Each holder of an Allowed Secured Claim in GIT Class 1-B will retain the Liens securing such Claim as of the Confirmation Date.

GIT Class 2 – [Reserved.]

GIT General Unsecured Claims (other than Asbestos and Silica Claims)

GIT Class 3-A – General Unsecured Claims. This Class consists of General Unsecured Claims. The estimated Allowed Amount of these Claims is between $35 million and $57 million.	**Impaired; Entitled to vote on the GIT Plan.** Holders of Class 3-A Claims will be paid in cash on the Effective Date an amount equal to 90% of the Allowed amount of each General Unsecured Claim so long as the total amount of General Unsecured Claims does not exceed the amount estimated by the Debtors of $57 million. No holder of a Claim shall receive more or less than 90% of the Allowed Amount of its Claim.

GIT Class 3-B – NARCO and GIT Entity Claims. This Class consists of Claims of the NARCO Entities and GIT Entities other than the GIT Debtors against any of the GIT Debtors. The estimated Allowed Amount of these Claims is $13.3 million.	**Not Impaired; Deemed to have accepted the GIT Plan.** Claims of the NARCO Entities and GIT Entities other than the GIT Debtors against any of the GIT Debtors will not be modified by the GIT Plan.
GIT Class 3-C – RHI AG Entity Claims. This Class consists of Claims of the RHI AG Entities against any of the GIT Debtors.	**Impaired; Entitled to vote on the GIT Plan.** All Claims of the RHI AG Entities against any of the GIT Debtors will be released, discharged and cancelled on the Effective Date of the GIT Plan pursuant to the GIT/RHI AG Settlement Agreement attached hereto as Exhibit 7. Pursuant to the GIT/RHI AG Settlement Agreement, the holders of these Claims will receive no Cash Distributions under the GIT Plan in respect of such Claims. However, the holders of these Claims are receiving a release under the GIT Plan. Under the GIT/RHI AG Settlement Agreement, the RHI AG Entities have agreed to not object to this treatment.
APG and H-W Asbestos Trust Claims	
GIT Class 4-A – APG Asbestos Trust Claims. This Class consists of APG Asbestos Trust Claims.	**Impaired; Entitled to vote on the GIT Plan.** All APG Asbestos Trust Claims will be resolved pursuant to the terms, provisions and procedures set forth in the APG Asbestos Trust Agreement and the APG Asbestos TDP. The APG Asbestos Trust Claims will be paid a percentage (such percentage to be established pursuant to the APG Asbestos TDP) of the amount established pursuant to the APG Asbestos TDP.
GIT Class 4-B – H-W Asbestos Trust Claims. This Class consists of H-W Asbestos Trust Claims.	**Not Impaired; Deemed to have accepted the GIT Plan.** All H-W Asbestos Trust Claims have been channeled to the DII Asbestos Trust pursuant to the DII Plan and the GIT/DII Settlement Agreement. The GIT Plan does not change the treatment of H-W Asbestos Trust Claims under the DII Plan. The holders of H-W Asbestos Trust Claims are not entitled to vote to accept or reject the GIT Plan. For more information regarding the treatment of H-W Asbestos Trust Claims under the DII Plan please refer to the confirmation order for the DII Plan.

APG and H-W Silica Trust Claims

GIT Class 5-A – APG Silica Trust Claims. This Class consists of APG Silica Trust Claims.	**Impaired; Entitled to vote on the GIT Plan.** All APG Silica Trust Claims will be resolved pursuant to the terms, provisions and procedures set forth in the APG Silica Trust Agreement and the APG Silica TDP. It is estimated that APG Silica Trust Claims will be paid a percentage (such percentage to be established pursuant to the APG Silica TDP) of the amount established pursuant to the APG Silica TDP.
GIT Class 5-B – H-W Silica Trust Claims. This Class consists of H-W Silica Trust Claims.	**Not Impaired; Deemed to have accepted the GIT Plan.** All H-W Silica Trust Claims have been channeled to the DII Silica Trust pursuant to the DII Plan and the GIT/DII Settlement Agreement. The GIT Plan does not change the treatment of H-W Silica Trust Claims under the DII Plan. Holders of H-W Silica Trust Claims are not entitled to vote to accept or reject the GIT Plan. For more information regarding the treatment of H-W Silica Trust Claims under the DII Plan please refer to the confirmation order for the DII Plan.

GIT Class 6 – GIT Equity Interests

GIT Class 6 – GIT Equity Interests. This Class consists of all Equity Interests in any GIT Debtor held by any RHI AG Entity.	**Impaired; Entitled to vote on the GIT Plan.** All Equity Interests of the RHI AG Entities in any GIT Debtor will be cancelled and terminated on the Effective Date of the GIT Plan pursuant to the GIT/RHI AG Settlement Agreement attached hereto as Exhibit 7. Pursuant to the GIT/RHI AG Settlement Agreement, the holders of these Equity Interests will receive no Cash Distributions under the GIT Plan in respect of such Equity Interests. However, the holders of these Equity Interests are receiving a release under the GIT Plan. Under the GIT/RHI AG Settlement Agreement, the RHI AG Entities have agreed to not object to this treatment.

III. DESCRIPTION OF THE DEBTORS

A. HISTORICAL OVERVIEW OF NARCO AND GIT BUSINESSES

North American Refractories Company ("NARCO"), Harbison-Walker Refractories Company ("H-W") and A.P. Green Industries, Inc. ("APG") were historically competitors in the refractory industry. In 1997, RHI AG, an Austrian company and one of the largest refractory manufacturers in the world, began an effort to acquire and consolidate

the North American operations of refractory companies with the acquisition of NARCO. On December 31, 1999, a subsidiary of RHI AG acquired Global Industrial Technologies, Inc. ("GIT"), which owned H-W and APG along with other miscellaneous businesses and companies. RHI AG's initial business strategy was to merge and consolidate the NARCO and GIT business operations into one company in order to gain certain efficiencies and to compliment its international operations.

RHI AG's merger strategy was never fully implemented due to the rapidly increasing and overwhelming number of claims for personal injuries allegedly caused by exposure to certain asbestos-containing products that had previously been manufactured or marketed by a NARCO business, H-W business or APG business. Although these claims made it impractical for RHI AG to execute a merger of the businesses, certain changes were implemented in an attempt to streamline operations. Organizationally, NARCO and H-W were restructured so that NARCO and H-W could focus their sales efforts on core market segments. NARCO currently markets primarily in the steel and glass industries, and H-W markets in the environmental, energy and chemical industries (called EEC), non-ferrous metals (called IM) and cement/lime industries.

Product formulations and trade names of each of the three refractory businesses (NARCO, H-W and APG) were continued. Plants were managed as a single operation. Products were manufactured at plants as allowed by scheduling, logistics, production capabilities and plant efficiency criteria, irrespective of which Debtor owned the formulation, trade name or customer relationship. Inter-company licensing and purchase and supply agreements were formed to establish terms of inter-company purchases and sales of products. Accordingly, NARCO manufactured products for sales primarily to steel and glass customers and also purchased products from H-W and APG for sale primarily to these customers, and H-W manufactured products for sales primarily to EEC, IM and cement/lime customers and purchased products from NARCO and APG for sale primarily to these customers. APG focused on manufacturing activities and its products were sold by NARCO and H-W. Management, administrative and support services for NARCO, GIT and their respective Affiliates were provided by ANH Refractories Company ("ANH"), which was previously known as RHI Services, Inc. Pursuant to the Plans, these inter-company relationships (as modified by organizational and operational changes to increase efficiency) are expected to continue in the future. NARCO and GIT are mutually dependent upon each other for such things as production facilities, product formulations and trade names to continue to support their own sales efforts. A discontinuance of these relationships could have a negative impact on the future operations of each of these Debtors (see Risk Factors in Section IX hereof).

A number of business conditions led to the bankruptcy filing by NARCO and certain of its subsidiaries on January 4, 2002, followed by the bankruptcy filing by GIT and a number of GIT Affiliated-Debtors on or after February 14, 2002. All Debtors had filed for bankruptcy by March 19, 2002. Each of the NARCO and GIT bankruptcy cases were consolidated for administrative purposes only: North American Refractories Company, *et al.* at case no. 02-20198; and Global Industrial Technologies, Inc. *et al.* at case no. 02-21626. For a discussion of the significant factors which led to the Debtors' bankruptcy filings please refer to "Questions and Answers About The Debtors' Chapter 11 Cases" found on page viii of this Disclosure Statement.

B. DESCRIPTION OF ANH

ANH is a Delaware corporation that was formed in 2000 under the name RHI Services, Inc. to provide management services to the NARCO and GIT family of companies. Such services consisted of the management of human resources, legal, finance, accounting services, tax services and other support services. As part of the acquisition of GIT, administrative functions were consolidated from the former NARCO and GIT corporate offices to the Pittsburgh area headquarters to realize synergies and eliminate duplicative functions. RHI Services, Inc. changed its name in 2002 to ANH Refractories Company, and currently has its offices in Moon Township, Pennsylvania.

C. DESCRIPTION OF NARCO AND NARCO-AFFILIATED DEBTORS

1. North American Refractories Company

a. History and Business[3]

NARCO is an Ohio corporation that manufactures and sells refractory products, which are construction-type materials designed for high temperature applications, such as furnace linings or vessels for handling and controlling the flow of molten metals. NARCO's products consist of three categories: bricks, castables (such as dry concrete) and gunning mixes (such as high heat resistant coating or caulk). NARCO was incorporated in 1928 in Delaware. In 1968, NARCO merged with Eltra Corporation. Allied Chemical Corporation, a predecessor to Honeywell International Inc. ("Honeywell"), acquired Eltra Corporation in 1979. In early 1986, Allied Chemical sold the NARCO business to the then NARCO entity. In 1991, that NARCO entity merged with Didier-Taylor Refractories Corporation, and the merged entity changed its name to North American Refractories Company, the Debtor.

Through a series of subsequent transactions, NARCO became, and on the Filing Date was, an indirect wholly-owned Subsidiary of RHI AG. NARCO's current operations focus on servicing the steel and glass industries. NARCO owns two principal manufacturing facilities located in White Cloud, Michigan and South Shore, Kentucky. NARCO has smaller facilities located in Gary, Indiana and West Mifflin, Pennsylvania. NARCO historically had operated a number of additional plants. However, as part of the overall effort to consolidate business operations and to increase operating efficiencies, the company has recently closed a number of its facilities. Pursuant to certain contractual arrangements, some of NARCO's products are manufactured by H-W and APG and by manufacturers located in Canada and Mexico that are non-US Affiliates of RHI Refractories Holding Company ("Holdings").

NARCO is the parent of three Affiliated Debtors: Tri-Star, InterTec and I-Tec, which are described in more detail below. NARCO also currently is the parent of Zircoa, Inc. ("Zircoa"), which is engaged in the manufacture and sale of granular products, engineered ceramics and specialty refractories, such as nozzles for continuous casting. Zircoa did not file a petition for relief under Chapter 11 and continues to operate without Bankruptcy Court protection.

---

3 Please refer to Section II.B. herein for an opposing view concerning the NARCO Plan and the statements made herein.

NARCO currently markets refractory products. Customers are provided technological expertise regarding the application and installation of the refractory products sold by sales personnel. The products are used for maintenance at steel mills and glass plants, and to a lesser extent, new construction at steel and glass production facilities. Five customers each represent greater than 5% of NARCO sales and collectively represent 49% of NARCO sales. A smaller portion of sales are through distributors, distribution centers, H-W and RHI Canada. The viability of the NARCO business plan is dependent upon, among other things, the viability of its large steel and glass producer customers and the strength of the steel and glass manufacturing industries in the United States.

Approximately 36% of NARCO's costs of goods sold are from products that NARCO manufactures in its own manufacturing plants, 51% of its costs of good sold are from products that are manufactured at plants owned by H-W and APG and sold to NARCO and 13% of its costs of goods sold are from resale products primarily purchased from plants owned by RHI Canada or other subsidiaries of RHI AG and sold to NARCO pursuant to product purchase and sales agreements with RHI AG and its subsidiaries. Raw materials represent 79% of the total costs of products that NARCO manufactures in its own plants. Nearly 48% of these raw materials are purchased from five critical non-Affiliated vendors.

NARCO operates two significant plants and two smaller facilities. Recent capital expenditures for NARCO have been minimal ($8.3 million in 2001, 2002, 2003, 2004 and 2005 combined) as NARCO faced significant liquidity issues. NARCO plans to incur $2.8 million of capital expenditures in 2006 to catch up certain of the delays in spending for replacement for equipment. After these catch-up expenditures for equipment in 2006, the annual cost of capital improvements for the NARCO plants is expected to be approximately $2.7 million to $7.5 million.

b. History and Business of NARCO-Affiliated Debtors

Tri-Star, InterTec and I-Tec (whose full names are listed at page 1 hereof) are subsidiaries of NARCO and collectively served various functions in NARCO's business.

Tri-Star is a Delaware corporation that was initially formed to manufacture alumina graphite tubes. NARCO owns a 94.14% interest in Tri-Star. Krosaki Harima Corporation owns a 5.86% minority interest in Tri-Star. Tri-Star utilized one plant which it leased from NARCO. NARCO operated that plant under a management agreement utilizing NARCO's employees. Due to the decline in the steel industry in recent years and an inability to achieve sufficient sales volume, NARCO decided to exit the "flow control" business. NARCO was unable to sell the plant and decided to close the plant and liquidate the Tri-Star business. That process was ultimately completed in June of 2002.

InterTec is a Delaware general partnership that was formed to serve as the sales entity for slide-gate related technology and products. Like Tri-Star, InterTec failed to achieve profitability and its operations were terminated by May 31, 2001. I-Tec owns a 75% general partnership interest in InterTec and NARCO owns a 25% general partnership interest in InterTec.

I-Tec is an Ohio corporation and a wholly-owned Subsidiary of NARCO. I-Tec serves as a holding company for InterTec.

c. NARCO Business Assets

The business assets of NARCO include four active refractory products manufacturing facilities, and related accounts receivable, inventory, brand names and intellectual property used in the manufacture, distribution and sale of refractory products to the steel and glass industries and cash accounts at banks.

The primary active manufacturing facilities of NARCO are located in White Cloud, Michigan and South Shore, Kentucky. In addition, NARCO operates two other facilities in Gary, Indiana and West Mifflin, Pennsylvania. NARCO also owns one idled manufacturing facility located in Farber, Missouri. Most of the manufacturing equipment used in the operation of the idled facilities has been sold or transferred to NARCO's active facilities. NARCO also leases one United States sales office.

NARCO's intangible assets include intellectual property, patents, registered and unregistered trademarks and trade secrets related to the refractory products manufactured and/or licensed by NARCO.

NARCO also owns interests in two inactive non-debtor entities: NAR Export Sales, Ltd. and Brickyard Development Partners L.P., which have no significant assets or liabilities. Following the Effective Date of the NARCO Plan, these entities will be liquidated. Other assets of NARCO include its ownership of Zircoa, Inc. Zircoa's operations were described in Section III. C. 1. a. above.

d. NARCO Employees and Employee Benefits

NARCO has 402 employees, of which 121 are employed through two collective bargaining agreements with the USWA union. The collective bargaining agreements are negotiated plant-by-plant and generally have terms of three to five years. One of the collective bargaining agreements will expire in December 2006 and the other will expire in March 2007.

NARCO had ten separate defined benefit pension plans which were merged into two pension plans on December 31, 2001 – the NARCO Pension Plan for Hourly Employees and the NARCO Salaried Employees Pension Plan. As of December 31, 2004, the NARCO Pension Plan for Hourly Employees had 1,521 participants (277 of which are active employees) and the NARCO Salaried Employees Pension Plan had 923 participants (231 of which are active employees). All minimum periodic funding requirements of the NARCO pension plans have been made to date. However, due to declines in the values of the plan assets in 2000 through 2002 and increases in projected pension obligations as the number of plan participants entitled to benefits increased and decreases in discount rates used to compute the projected benefit obligation, the projected benefit obligations of the pension plans grew in excess of plan assets. Therefore, the pension plans became underfunded.

The NARCO Plan contemplates that NARCO and the NARCO-Affiliated Debtors will continue payments to the above-described pension plans in accordance with the minimum funding obligations established pursuant to ERISA. The underfunded liability (projected benefit obligations less fair value of assets) under the NARCO pension plans as of January 1, 2006 is projected to be $29.9 million. The projected minimum annual funding obligations for 2006 through 2011 is $4.3 million, $8.5 million, $5.9 million, $5.0 million, $3.3 million and $1.5 million, respectively. Should NARCO fail to make the minimum funding contributions described in the preceding sentence, or should GIT, H-W and

APG fail to make their minimum funding contributions (as described in sections relating to those entities), the Pension Benefit Guaranty Corporation ("PBGC"), which guarantees private pension plans pursuant to Title IV of ERISA, can move to terminate the pension plans. Should such a termination occur, NARCO, GIT, H-W, APG and others will be jointly and severally liable for the obligations to each of the underfunded, terminated pension plans.

e. NARCO Asbestos Matters

Before approximately 1958, no NARCO Product Line product contained asbestos. Beginning in 1958, certain products had comparatively small amounts of asbestos added to them. No NARCO Product Line product contained more than 9% by volume asbestos and most contained 3% by volume or less asbestos. Additionally, in the 1960's and early 1970's, the NARCO Product Line included two asbestos-containing products, Stazon and Unicote, which were relabeled Eagle-Picher products. No NARCO Product Line product contained asbestos as an intended ingredient after 1980. Attached hereto as Exhibit 16 is a complete list of all current NARCO Product Line products, and a list of all NARCO Product Line products that contained asbestos or vermiculite that may have been contaminated with asbestos.

The first asbestos personal injury suit arising out of the NARCO Product Line was filed in 1983. From 1983 through 1997, the number of asbestos claims against NARCO grew steadily, but in 1998, the number of asbestos claims asserted against NARCO began to explode. A consequent escalation in the litigation and settlement costs for these claims also began in 1998, primarily driven by large average cost increases in specific jurisdictions (e.g., Texas and Illinois). Total costs for defense and resolution of asbestos claims amounted to $15 million in 1998, $40 million on 1999, $100 million in 2000, and $175 million in 2001.

From 1983 through 2001, approximately 290,000 plaintiffs filed asbestos claims arising out of the NARCO Product Line. Of those claims, approximately 75,000 were dismissed, voluntarily or on the merits. Another approximately 100,000 claims were resolved through settlement. However, as of the Petition Date, more than 115,000 asbestos plaintiffs' claims were pending nationwide. Although the automatic stay and the Bankruptcy Court's January 4, 2002 injunctive order, as modified, have prevented the litigation of additional claims, NARCO believes that a significant number of additional claims have accrued or been discovered since that time. Based upon claims filed against other asbestos-related defendants, published reports, representations by plaintiffs' counsel and its own experience, NARCO believes that there may be as many as 250,000 or more existing Asbestos Claims.

NARCO has also been sued for common law and/or contractual indemnity, contribution and subrogation by persons who have been alleged to be liable for asbestos claims (hereinafter defined as "Indirect Asbestos Trust Claims") which may be disallowed pursuant to Section 502(e) of the Bankruptcy Code. NARCO intends to file objections to all such claims on this basis. All NARCO Asbestos Trust Claims and any allowed Indirect Asbestos Trust Claims will be channeled to the NARCO Asbestos Trust under the NARCO Plan.

f. Honeywell Relationship

i. NARCO/Honeywell Purchase Agreement[4]

The January 17, 1986 Purchase Agreement, through which the managers of the unincorporated NARCO division of Allied Chemical Corporation ("Allied Chemical") acquired the NARCO Product Line, contained mutual indemnity obligations running between NARCO and Allied Chemical (now Honeywell). Specifically, NARCO assumed (and agreed to indemnify Allied Chemical/Honeywell for) all of the NARCO Product Line's product liabilities, except those liabilities that arose from "Discontinued Products." Allied Chemical/Honeywell retained (and agreed to indemnify NARCO for) liability for defending and resolving claims arising from "Discontinued Products." The term "Discontinued Products" was defined in the January 17, 1986 Purchase Agreement as products not substantially similar to products manufactured, distributed or sold by NARCO after January 17, 1986. A list of products that the parties believed to be "Discontinued Products" was attached to the January 17, 1986 Purchase Agreement as Exhibit KKK, a copy of which is attached hereto as Exhibit 17.

Almost immediately after the 1986 NARCO-Allied Chemical transaction was consummated, the parties disagreed upon the scope of their respective indemnity obligations. More specifically, the parties disagreed on which products (including products that formerly contained asbestos), were "Discontinued Products" within the meaning of the Purchase Agreement, as well as over which of them was responsible for the costs associated with litigating and resolving cases in which it was not possible to determine the precise NARCO product to which the claimant alleged exposure. To avoid litigation and to address the growing asbestos litigation crisis, Honeywell and NARCO entered into a series of interim cost-sharing arrangements, lasting from 1991 through approximately 2000. The explosion in the number and costs of NARCO Asbestos Trust Claims in the late 1990s made these interim arrangements impossible to continue. NARCO's potential exposure to asbestos liabilities was one of the principal reasons for its Chapter 11 filing.

Both NARCO and Honeywell agree that it is impossible, as a practical matter, to determine which of them is responsible for the existing NARCO Asbestos Trust Claims and for any such future claims. To determine, as between them, who is responsible for a given claim requires answers to two questions: (1) What specific product (including the date and place of manufacture) does the claimant contend he or she was exposed to? (2) Is that product a "Discontinued Product"? Because asbestos claimants rarely, if ever, identify the NARCO product at issue with any specificity, the parties can almost never start the analysis. Moreover, determining which of the NARCO Product Line's 1,800 products is or is not a "Discontinued Product" would be a laborious, time-intensive and extremely contentious effort.

---

4 Please refer to Section II.B. herein for an opposing view concerning the NARCO Plan and the statements made herein.

ii. NARCO/Honeywell Pre-Filing Agreements

On January 3, 2002, NARCO entered into a letter agreement with Honeywell (the "NARCO DIP Letter Agreement") which provided, *inter alia*, that NARCO would file a petition for relief under Chapter 11 of the Bankruptcy Code, and seek an injunction under Sections 362 and 105 of the Bankruptcy Code to stay litigation against Honeywell arising out of the NARCO business. NARCO and Honeywell agreed to participate in the negotiation and funding of a plan of reorganization that provided Honeywell and its insurers with a channeling injunction under Section 524(g) of the Bankruptcy Code with respect to all asbestos-related NARCO Actions and Honeywell Actions, as defined in the NARCO DIP Letter Agreement. Subject to certain conditions, Honeywell agreed to provide $20 million of debtor-in-possession financing to NARCO. Upon confirmation and substantial consummation of a plan acceptable to Honeywell in its sole discretion, NARCO's obligations under the debtor-in-possession financing were to be cancelled and forgiven. Pursuant to such NARCO DIP Letter Agreement, a Debtor-In-Possession Credit Agreement dated as of January 4, 2002, was entered into among NARCO, as borrower, Jan 2002 Funding LLC (an affiliate of Honeywell), as lender, and JPMorgan Chase Bank, as Administrative Agent, to provide such debtor-in-possession financing.

On January 3, 2002, RHI Refractories Holding Company ("Holdings"), the parent corporation of GIT, NARCO and ANH, entered into a letter agreement with Honeywell (the "Holdings-Honeywell Letter Agreement") which provided that if NARCO would file a petition for relief under Chapter 11 of the Bankruptcy Code, Honeywell would pay to Holdings the sum of $40 million. In addition, if NARCO complied with its obligations under the NARCO DIP Letter Agreement and sought the injunctions discussed therein, and cooperated with Honeywell in removing certain litigation to the federal courts, then Honeywell agreed upon (1) NARCO's filing of a plan of reorganization that is acceptable to Honeywell in its sole discretion, to pay Holdings $20 million and (2) confirmation and consummation of a plan that is acceptable to Honeywell in its sole discretion, to pay Holdings the additional sum of $40 million.

iii. NARCO/Honeywell Settlement Agreement

As a result of NARCO's indemnity obligations under the 1986 Purchase Agreement, Honeywell has asserted a substantial unsecured claim against NARCO in an unspecified amount. This claim is dealt with in the NARCO/Honeywell Settlement Agreement, which requires it to be withdrawn on the Effective Date of the NARCO Plan. To resolve this claim, to settle Honeywell's future contractual indemnity claims against NARCO, as they arise from NARCO Asbestos Trust Claims, and to resolve all other outstanding issues among them, the NARCO Debtors and Honeywell have entered into the NARCO/Honeywell Settlement Agreement.

Pursuant to the NARCO/Honeywell Settlement Agreement, Honeywell has agreed to fund the NARCO Asbestos Trust, as reflected in the NARCO Asbestos Trust Agreement, in exchange for a § 524(g)(4) and/or § 105(a) injunction, channeling all asbestos personal injury and indirect asbestos claims arising in any way out of the NARCO Product Line to the NARCO Asbestos Trust. The NARCO Plan provides for a Section 524 (g) (4) injunction in Honeywell's favor. The NARCO/Honeywell Settlement Agreement also results in an amendment to the indemnity provisions contained in the 1986 Purchase Agreement by placing a cap on NARCO's future payments to Honeywell under such indemnity for claims for personal injury based upon the claimant's alleged exposure to silica from the NARCO Product Line products. Under the NARCO/Honeywell Settlement Agreement, NARCO and Honeywell have agreed that

the cap on the indemnity for such silica claims will be set at the higher of $3 million per year or 40% of Reorganized ANH's Free Cash Flow (as defined in the NARCO/Honeywell Settlement Agreement) for the preceding fiscal year. The cap includes all payments to Honeywell for costs and expenses related to the defense or indemnity of such silica claims. The NARCO/Honeywell Settlement Agreement provides that NARCO will draw down all amounts available under the NARCO DIP Facility and then for the forgiveness by Honeywell of all amounts outstanding under the NARCO DIP Facility. In the past, NARCO had asserted rights under certain primary and excess liability insurance policies that form a part of Honeywell's liability insurance program. Under the NARCO/Honeywell Settlement Agreement, NARCO has agreed to waive its rights to these insurance policies. A copy of the NARCO/Honeywell Settlement Agreement is attached as Exhibit 4 to this Disclosure Statement.

iv. Honeywell Post-Petition Settlement Agreements

After NARCO commenced its Chapter 11 case, Honeywell engaged in negotiations with various counsel for a significant number of existing and later identified holders of NARCO Asbestos Trust Claims. As a result of those negotiations, Honeywell entered into definitive agreements covering approximately 257,000 such claimants. In Honeywell's 2004 Annual Report, Honeywell estimated that it had entered into settlement agreements covering 90% of the NARCO Asbestos Trust Claims as of the date of that Report. The actual number of accrued Claims is unknown.

g. NARCO/RHI AG Settlement Agreement

The NARCO Debtors and RHI AG Parties (as defined in the NARCO/RHI AG Settlement Agreement) entered into the NARCO/RHI AG Settlement Agreement to resolve all outstanding issues among them. A copy of the NARCO/RHI AG Settlement Agreement, which is incorporated by reference in its entirety, is attached as Exhibit 5 to this Disclosure Statement. The NARCO/RHI AG Settlement Agreement provides, among other things, as follows:

(i) No Objection to NARCO Plan. The RHI AG Parties agree not to object to the NARCO Plan so long as the NARCO Plan is consistent with the NARCO/RHI AG Entity Settlement Agreement.

(ii) Waiver of Claims Against NARCO Debtors. The RHI AG Parties agree to waive approximately $53.8 million in claims currently scheduled as undisputed, liquidated and noncontingent claims by the NARCO Debtors.

(iii) Cancellation of Equity Interests. Holdings agrees not to object to the cancellation of the Equity Interests in the NARCO Debtors upon the Effective Date.

(iv) Letters of Credit. RHI AG agrees to waive any claims against the NARCO Debtors arising from the reimbursement to the issuers of certain letters of credit supporting insurance policies of the NARCO Debtors in the face amount of approximately $9.37 million.

(v) FTC Civil Penalty. RHI AG agrees to pay an aggregate amount of approximately $500,000 in connection with certain civil penalties imposed by the Federal Trade Commission on RHI AG, NARCO and certain affiliates of NARCO.

(vi) Channeling Injunctions in Favor of RHI AG Entities. The RHI AG Entities are to receive the benefit of the permanent channeling injunctions to be issued by the Bankruptcy Court in NARCO Plan under Section 524(g) and/or other sections of the Bankruptcy Code, to the extent such claims derive through any of the NARCO Debtors.

(vii) National Union Guaranty. Reorganized NARCO agrees to indemnify RHI AG in connection with a guaranty issued by RHI AG to National Union Fire Insurance Company of Pittsburgh, PA as set forth in Section 4.4 of the NARCO/RHI AG Entity Settlement Agreement.

(viii) Tax Sharing. RHI AG and its affiliates may use certain tax benefits of the NARCO Debtors prior to the Effective Date of the NARCO Plan.

(ix) Operating Agreements. The NARCO Debtors agree to assume and amend existing operating commercial agreements upon the Effective Date of the NARCO Plan.

(x) Mutual Releases. The Parties will release each other from any and all claims existing as of the date of the NARCO/RHI AG Entity Settlement Agreement and the later consequences thereof, including the release of claims of or behalf of the NARCO Debtors under Sections 502, 506, 544, 547, 548, 549, 550, and 553 of the Bankruptcy Code, except for (i) any claims arising after the Petition Date consisting of ordinary-course trade receivables, arising under ordinary-course contracts, or otherwise arising in the ordinary course of the business of the RHI AG Entities and the NARCO Debtors and (ii) any rights or obligations under the NARCO/RHI AG Entity Settlement Agreement and/or NARCO Plan.

The NARCO Debtors believe that the NARCO/RHI AG Entity Settlement Agreement resolves substantial impediments to the emergence of the NARCO Debtors from bankruptcy. In particular, among other things, the NARCO/RHI AG Entity Settlement Agreement, in conjunction with the GIT/RHI AG Entity Settlement Agreement, resolves significant disputes relating to hundreds of millions of dollars in scheduled claims against the Debtors, as well as claims against the Debtors relating to certain letters of credit and a civil penalty imposed by the Federal Trade Commission. In addition, the NARCO/RHI AG Entity Settlement Agreement provides for an ongoing business relationship between the RHI AG Parties and the NARCO Debtors, a necessary part of the NARCO Debtors' business plan and their emergence from bankruptcy.

Litigation over any one of these issues would be costly and protracted, would likely delay confirmation and distributions to creditors, and would pose risks to the estates in the event that unfavorable results are reached. In particular, an unfavorable result in any litigation concerning the validity and treatment of the RHI AG Entities' claims against the NARCO Debtors would cause a substantial reduction in funds available for distribution to other general unsecured creditors.

D. DESCRIPTION OF GIT AND GIT-AFFILIATED DEBTORS

1. Global Industrial Technologies, Inc.

a. History and Business

In 1992 DII Industries, LLC ("DII") spun-off to its shareholders several businesses and operations, including its Harbison-Walker Refractories Division. In order to accomplish that transaction, DII placed the business units to be spun-off into Dresser Finance Corporation, a wholly-owned Subsidiary of DII. DII later changed the name of Dresser Finance Corporation to Indresco, Inc. and spun-off Indresco, Inc. to the DII shareholders.

In November of 1995, GIT was formed as a publicly traded holding company for Indresco, Inc. and its subsidiaries. Between 1995 and 1998, through a series of acquisitions and divestitures, GIT pursued a strategy of growing and developing its perceived core refractory business while disposing of non-core businesses. GIT's most significant acquisition was of APG in 1998. GIT was acquired by a subsidiary of RHI AG, in 1999, as part of RHI AG's strategy of consolidating the North American refractory industry. GIT's principal business is acting as a holding company for Harbison-Walker Refractories Company ("H-W") and A.P. Green Industries, Inc. ("APG"). Because of its prior ownership of various entities, GIT has approximately 306 active employees and 2,600 retirees in a pension plan that is projected to be underfunded by approximately $16 million at January 1, 2006. Projected minimum annual funding obligations for 2006 through 2011 is $6.6 million, $9.6 million, $6.7 million, $5.7 million; $4.9 million and $1.7 million, respectively.

In contemplation of its Plan of Reorganization, the GIT Debtors entered into a Settlement Agreement with RHI AG, their ultimate parent, to resolve claims of RHI AG and its affiliates and to cancel Holding's Equity Interest in GIT. A description of the GIT/RHI AG Settlement Agreement can be found in Section III.D.3.h hereof.

Set forth below is a description of H-W and APG and their respective assets, liabilities and other business matters.

2. Harbison-Walker Refractories Company

a. History and Business of H-W

The refractory products business of H-W originated with the formation of the Star Fire Brick Company in 1865 in Pittsburgh, Pennsylvania. In 1967, the company was merged into DII and operated as a division of DII until 1992. On July 31, 1992, the assets of the H-W division of DII, along with assets of certain other DII businesses, were spun-off into Indresco, Inc. In October of 1995, Indresco, Inc. reorganized with the H-W business assets remaining in Indresco, Inc. The name was then changed to Harbison-Walker Refractories Company. H-W is a Delaware corporation and is a wholly-owned Subsidiary of GIT.

H-W manufactures and sells refractory products and construction-type materials designed to sustain various high heat processing applications. Core industrial uses of the refractory products include the lining of boilers and furnaces of all types, including reactors and kilns. During the 1990s, H-W's business strategy expanded into markets and geographic areas serving the steel, chemical, energy, environmental, glass, cement/lime and non-ferrous metals industries.

Following the acquisition of APG in 1998 by GIT (as described below), the operations of APG and H-W were reorganized to take advantage of brand names, selling capabilities and market penetration. As a result of this reorganization, APG became a manufacturer of refractory-related products that were marketed exclusively by H-W's sales force.

With the acquisition of GIT by RHI AG in December of 1999, the market focus for H-W was changed to avoid duplication of marketing efforts by NARCO and H-W. NARCO currently concentrates on servicing the steel and glass industries while H-W focuses on the environmental, energy and chemical industries (called EEC), non-ferrous metals industry (called IM), and the cement/lime markets. In addition, H-W continues to manufacture steel-related products for the benefit of NARCO as required under supply or manufacturing contracts between NARCO and H-W.

The manufacturing plants of NARCO, H-W and APG are not differentiated by markets served, but rather are managed as a single operation. Products are manufactured at plants as allowed by scheduling, logistics, and production capabilities, irrespective of which Debtor owns the formulation, trade name or customer relationship. H-W manufactures products for NARCO and RHI Canada, and to a lesser extent, NARCO, APG and RHI Canada manufacture products for H-W, all pursuant to inter-company licensing and purchase and supply agreements. NARCO, H-W and APG are dependent upon each other for such things as production facilities, product formulations and trade names to continue to support their own future sales and business plans. A discontinuance of these relationships could have a negative impact on the future operations of each of these Debtors (see Risk Factors in Section IX hereof).

As part of RHI AG's business strategy to consolidate operations, management and administrative services for NARCO, H-W and APG were transferred to RHI Services, Inc., now known as ANH Refractories Company, which provided such services under a management contract.

H-W is one of the largest refractory product suppliers in the particular markets that it serves. H-W competes with other large refractory product suppliers in the United States and small businesses that operate with very low overhead developing particular niche products. The customers of H-W include privately-owned contractor/installers that serve the EEC and IM industries. These customers are served both directly from the plants and through a network of approximately 25 distribution centers located throughout the United States. H-W also sells directly to several large cement/lime, aluminum, copper and other non-ferrous metal foundry producers.

The customers of H-W are more numerous than NARCO's consisting of large, mid-size and small accounts, consistent with the breadth and depth of the markets served by H-W.

Approximately 44% of H-W's costs of goods sold is from products that H-W manufactures in its own manufacturing plants and 38% is from products that are manufactured at plants owned by NARCO and APG. Approximately 18% of H-W's cost of goods sold is from resale products that are primarily purchased from plants owned by RHI Canada or RHI AG and its non-US Affiliates and sold to H-W pursuant to product purchase and sales agreements or arrangements with RHI AG and its subsidiaries. Raw materials represent approximately 67% of the total cost of products that H-W manufactures in its own manufacturing plants. Nearly 65% of the raw materials purchased is from five critical, non-Affiliated vendors.

H-W has 588 employees, of which 351 are employed through four collective bargaining agreements with the USWA union. The collective bargaining agreements are negotiated plant by plant and generally have terms of three to five years. One of the collective bargaining agreements will expire in 2005, and one will expire in 2007 and one in 2008.

H-W operates three significant plants and one raw materials production facility. Capital expenditures at the production facilities was $6.2 million from 2002 to 2005. H-W plans to incur $2.0 million of capital expenditures in 2005. The annual cost of capital improvements for the H-W plants in the future is expected to be approximately $0.5 million to $4.8 million.

As described more fully below, H-W has been named as a defendant in numerous asbestos cases. During 2000, the number of asbestos cases and related settlement amounts increased dramatically. Furthermore, as the asbestos litigation crisis heightened, H-W witnessed an increase in the number of its insurers that became insolvent, and H-W also became involved in a growing number of insurance coverage disputes regarding its asbestos cases. These trends, along with the time lag insurance companies generally employed in paying asbestos claims settled by H-W, placed tremendous cash flow pressure on H-W's operations. These pressures were further exacerbated by RHI AG's inability in late 2001 to continue to provide working capital financing to H-W. These events culminated in H-W, and certain of its affiliates, filing for bankruptcy protection on February 14, 2002.

b. H-W Business Assets

The business assets of H-W include three active primary refractory products manufacturing facilities and a refractory raw materials production facility. H-W also owns the related accounts receivable, inventory, brand names and intellectual property used in the manufacture, distribution and sales of refractory products to the chemical, energy, environmental, non-ferrous metals and cement/lime markets.

The active manufacturing facilities of H-W are located in Fairfield, Alabama; Windham, Ohio; and Vandalia, Missouri. The refractory raw materials production facility is located in Fulton, Missouri. It consists of excavating equipment and vehicles along with the related mining rights and rights of way.

H-W also owns idled manufacturing facilities located in Ludington, Michigan. Excess manufacturing equipment at the idled facilities have been sold or transferred to active facilities. H-W leases and operates approximately 25 distribution centers through-out the United States.

H-W's accounts receivable consist of amounts due from customers from the sale of refractory products in the ordinary course of business. From the Petition Date to August 2002, H-W paid the trade vendors of APG and established an inter-company receivable from APG. Starting in August 2002, APG maintained its own checking account and is currently paying its third-party vendors.

H-W owns Indresco Jeffrey Industria E Commercio Ltda. ("Jeffrey"), a Brazilian corporation that has no current operations and is of no significant value.

c. H-W Employees and Employee Benefits

Pension Plans. H-W had eight separate defined benefit pension plans, which were merged into a single pension plan with two other pension plans of TMPSC on December 31, 2001 – the Harbison Walker Pension Plan for Hourly Employees. At January 1, 2005, the H-W Pension Plan for Hourly Employees had 2,313 participants (453 of which are active employees). All minimum periodic funding requirements of the H-W pension plan have been made to date. However, due to declines in the values of plan assets in 2000 through 2004 and increases in projected pension obligations as the number of plan participants entitled to benefits increased and decreases in the discount rate used to compute projected benefit obligations, the projected benefit obligations of the pension plan grew in excess of plan assets. Therefore, the pension plans became underfunded.

The GIT Plan contemplates that H-W will continue payments to the above-described pension plan in accordance with the minimum funding obligations established pursuant to ERISA. The underfunded liability (projected benefit obligation in excess of the fair value of plan assets) under the H-W pension plan at January 1, 2006 is projected to be $20 million. The projected minimum funding obligations for 2006 through 2011 is $4.8 million, $5.4 million, $4.2 million, $3.4 million, $2.6 million and $0.8 million, respectively. Should H-W fail to make the minimum funding contributions described in the preceding sentence, or should NARCO, GIT and APG fail to make their minimum funding contributions (as described in sections relating to those entities), the PBGC, which guarantees private pension plans pursuant to Title IV of ERISA, can move to terminate the pension plans. Should such a termination occur, NARCO, GIT, H-W and APG will be jointly and severally liable for the obligations to each of the underfunded, terminated pension plans.

Welfare Benefit Plans Other Than Pension Plans. H-W and the H-W Affiliated Debtors are plan sponsors under a number of welfare and benefit plans for existing employees and retirees. Several of those plans provide for post-employment health and life insurance benefits. The GIT Plan contemplates that these obligations of H-W and the H-W Affiliated Debtors under the welfare and benefit plans will be continued. Reorganized GIT will retain the right to amend, modify or terminate the retiree health and life insurance plans, in accordance with law and the governing documents, following the confirmation of the GIT Plan.

d. H-W Asbestos and Silica Matters

Historically, H-W and its predecessors manufactured and sold refractory products used in lining boilers and furnaces of all types, as well as other construction materials designed to sustain high-heat processing applications. Before the 1980's, several of these refractory products contained asbestos. H-W also relabeled and sold two asbestos-containing products, H-W Mineral Fiber Coating and H-W Roll Board, both of which products were manufactured by others. As a result of its manufacture and sale of asbestos-containing products, H-W has been a named defendant in asbestos-related personal injury lawsuits by over 348,000 plaintiffs in the tort system.

As of December 31, 2001, approximately 160,000 asbestos plaintiffs' claims had been resolved at a cost of approximately $241 million; approximately 94,000 of these claims were settled and paid, and approximately 65,000 of these claims were dismissed without payment for lack of evidence of any actual exposure to an H-W product. An additional 54,000 cases are subject to unpaid settlement agreements. As of December 31, 2001, H-W still faced

approximately 190,000 pending asbestos claims (which include the 54,000 settled but unpaid claims). Approximately 72,000 of those claims were served on defendants in 2001.

In 1997, the total cost to address H-W related asbestos claims, including settlements, judgments and defense costs was less than $20 million. However, by 1999, the number of asbestos cases and the size of settlement demands in such cases had increased dramatically. The total cost incurred in calendar year 2001 to defend and resolve asbestos-related claims exceeded $200 million, including provisional settlements reached but not paid.

Based upon available information, H-W believes that the number of asbestos claims it would face in the future will at least equal, and possibly exceed, the number of asbestos claims that had been asserted against it prior to its Petition Date. As described further in Section III.D.2.f, however, all current and future asbestos-related personal injury claims against H-W shall be treated under the provisions of the DII Plan.

Several of H-W's co-defendants in asbestos personal injury suits have filed Claims against H-W in its Chapter 11 case. H-W has filed objections seeking to have such Claims disallowed pursuant to Section 502(e) of the Bankruptcy Code. To the extent such Claims are not disallowed, they have been channeled to the DII Asbestos Trust.

In addition to these asbestos matters, H-W has been involved in personal injury litigation related to plaintiffs' alleged exposure to silica from the use of H-W products for several years. Plaintiffs generally have raised silica claims in one of three contexts: first, in "silica-only" cases, in which the plaintiff's only claim is that he was exposed to a H-W silica-containing product and thereby developed a silica-related disease; second, in "mixed dust" cases, in which the plaintiff claims that while working with or near a H-W product, he was exposed to dust from that product that contained indistinguishable portions of silica and asbestos, and thereby developed a mixed-dust pneumoconiosis or malignancy; and third, in asbestos-related injury cases in which the plaintiff indicates (often during discovery, rather than in a pleading) that in addition to his exposure to asbestos from a H-W product, he also was exposed to, and injured by, silica contained in the H-W product.

Prior to its Petition Date, H-W was named as a defendant in at least 370 "silica-only" cases in various jurisdictions around the country, including New Jersey, West Virginia, Ohio, Pennsylvania, Michigan, and Texas, where the large majority of these cases were filed. Generally, settlements in these cases ranged from $500 to $10,000, depending in some part on the jurisdiction in which the case was filed; the highest single settlement entered into by H-W was $225,000, for a case filed in Texas that settled in August 2000. H-W's records indicate that it has incurred over $1.3 million in settlement costs related to these cases. In cases in which plaintiffs asserted asbestos-related injuries and subsequently suggested the possibility of separate silica-related injuries, H-W generally has settled the asbestos-related injury claims and obtained releases for all other PI Trust Claims—including silica-related injury claims—from the plaintiffs.

As of its Petition Date, approximately 75 "silica-only" claims were pending against H-W in various jurisdictions. Based upon available information, H-W believes that the number of "silica-only" claims it could face in the future may increase significantly. As described further in Section III.D.2.f, however, all current and future silica-related personal injury claims against H-W shall be treated under the provisions of the DII Plan.

e. H-W Insurance Assets

H-W was insured under certain primary, umbrella and excess liability insurance policies issued to H-W between 1963 and 1967, and issued to DII between 1967 and 1984, which provide coverage for, among other things, asbestos- and silica-related personal injury liabilities (referred to herein as the "H-W Shared Insurance Assets"). As part of the GIT/DII Settlement Agreement, H-W released its rights with respect to the H-W Shared Insurance Assets.

The collective unexhausted product limits of the H-W Shared Insurance Assets are approximately $2.1 billion. Of this pre-petition amount, about $1.2 billion is subject to coverage-in-place agreements entered into by H-W, DII and certain insurers, wherein the signatory insurers agreed not to contest coverage issues with H-W or DII. Nevertheless, various insurers have raised issues regarding the coverage of H-W under certain of the H-W Shared Insurance Assets, and DII also has made competing claims to the H-W Shared Insurance Assets.

Under the GIT/DII Settlement Agreement, H-W released and/or assigned to DII its interests under the H-W Shared Insurance Assets and the related coverage-in-place agreements upon the effective date of the DII Plan, and in consideration for (among other things) the satisfaction of the following conditions:

- Inclusion of HW and the H-W Protected Parties (as defined in the GIT/DII Settlement Agreement) as beneficiaries of the channeling injunctions, for asbestos- and silica-related personal injury claims issued in the DII Chapter 11 Case; and
- Indemnification by the DII Asbestos Trust and the DII Silica Trust, respectively, for any H-W Asbestos Trust Claim or H-W Silica Trust Claim asserted against any of the H-W Entities (as defined in the GIT/DII Settlement Agreement).

DII filed a prepackaged Plan of Reorganization on December 16, 2003, captioned as In re Mid-Valley Inc., et al., 03-35592 (Bankr. W.D. Pa.) which was confirmed by an Order of the Bankruptcy Court dated July 16, 2004. As confirmed, the DII Plan satisfied all of the conditions contained in the GIT/DII Settlement Agreement for H-W's release and/or assignment of its rights under the H-W Shared Insurance Assets and the related coverage-in-place agreements. H-W, consistent with the terms of the GIT/DII Settlement Agreement, relinquished its rights under the H-W Shared Insurance Assets and the related coverage-in-place agreements upon the effective date of the DII Plan. DII subsequently reached finalized settlement agreements with the insurance companies that issued the H-W Shared Insurance Assets, which resolved both DII's and H-W's claims for coverage for, among other things, H-W Asbestos Trust Claims and H-W Silica Trust Claims.

f. GIT/DII Settlement Agreement

On August 28, 2003, the GIT Debtors, Halliburton and DII entered into the GIT/DII Settlement Agreement, attached as Exhibit 6 to this Disclosure Statement, to resolve all of the outstanding issues among them. Under this settlement:

- H-W and the H-W Protected Parties (as defined in the GIT/DII Settlement Agreement) were made beneficiaries of the channeling injunctions to be issued in the DII Chapter 11 Case;
- The H-W Entities (as defined in the GIT/DII Settlement Agreement) have been indemnified by the DII Asbestos Trust and DII Silica Trust for any H-W Asbestos Trust Claim or H-W Silica Trust Claim brought against any of the H-W Entities;
- H-W and various of its Affiliates has relinquished and/or assigned to DII all rights to the H-W Shared Insurance Assets on the effective date of the DII Plan;
- On December 31, 2003, DII purchased H-W's outstanding insurance receivable for $50.1 million;
- DII fully funded and forgave all outstanding amounts due under the H-W DIP Facility on the effective date of the DII Plan; and
- DII and the H-W Entities have allocated among themselves the liability associated with various non-asbestos/non-silica product-liability claims.

The GIT/DII Settlement Agreement was implemented as of January 20, 2005, the effective date of the DII Plan.

3. A.P. Green Industries, Inc. and Certain Affiliates

a. History and Business of APG

APG (formerly known as A.P. Green Refractories Company) was initially incorporated in 1915 as a Missouri corporation operating under the name of A.P. Green Fire Brick Company. APG operated independently until its merger with U.S. Gypsum Corporation ("U.S. Gypsum") in 1967 when it became a wholly-owned Subsidiary of U.S. Gypsum. As part of a U.S. Gypsum plan of reorganization approved in 1987, the stock of APG was distributed to stockholders of U.S. Gypsum. APG operated as a publicly-owned company until it was acquired by GIT in 1998. APG is a wholly-owned Subsidiary of GIT and serves as a holding company for various subsidiaries, including the following Debtors: APG Services, APG Development, APG Refractories, Detrick, APG International and AP Green Refractories. In addition, APG owns 100% of the stock of H-W Refractories Limited (England) (the full name of each of these Debtors is listed on page 1 of this Disclosure Statement). U.S. Gypsum and its current Subsidiaries and Affiliates are not GIT Protected Parties in the GIT Plan.

Prior to the GIT Acquisition in 1998, APG was engaged in certain refractory manufacturing operations. APG transferred these refractory manufacturing operations to AP Green Refractories, and does not currently conduct any operations. However, certain plant assets are still held in the name of APG.

In 1985, APG sold the stock of Bigelow-Liptak of Canada, Ltd. ("BLC") to John Williams, and in 1989 APG and APG Services sold rights to the name "Bigelow-Liptak Corporation" to John Williams, who then incorporated a Michigan company under that name. Under the agreement by which rights to the name were sold, APG and APG Services agreed to indemnify the purchaser with respect to all claims asserted against the purchaser which related to the pre-sale

activities of APG and APG Services under the "Bigelow-Liptak" name. The Stebbins Engineering and Manufacturing Company ("Stebbins") is currently the direct or ultimate parent of Bigelow-Liptak Corporation ("Bigelow-Liptak") and BLC.

Numerous lawsuits have been filed against Stebbins asserting claims for personal injuries allegedly arising from the use of asbestos-containing products by APG Services. As a result of those claims, Stebbins and Bigelow-Liptak have asserted a proof of claim against APG Services arising out of their indemnity agreement in connection with the sale of the Bigelow-Liptak name. Further, in response to a motion by APG and APG Services for approval of settlements reached with certain of their insurers, Bigelow-Liptak requested that it receive the benefit of the injunctions to be issued by the Bankruptcy Court under Section 524(g) of the Bankruptcy Code.

On July 25, 2003, APG and APG Services, Stebbins, Bigelow-Liptak and BLC entered into an agreement titled The Agreement Between the A.P. Green Companies and Stebbins Engineering and Manufacturing Company (the "Stebbins Agreement") to address Bigelow-Liptak's request for Section 524(g) injunctive relief and Stebbin's proof of claim and to satisfy the need of APG and APG Services to secure the release of BLC's rights in certain insurance policies issued by Mission Insurance Company to APG (formerly known as A.P. Green Refractories Company) in which BLC was identified as an additional named insured (the "Mission Policies"). The release of BLC's rights facilitated payment of proceeds from the Mission Policies.

Under the Stebbins Agreement, in exchange for BLC's release and assignment to APG, APG Services and the other Debtors (as identified in the Stebbins Agreement) of all of BLC's rights in the Mission Policies, all Asbestos-Related Liability Claims (as defined in the Stebbins Agreement - which relate solely to the activities of APG, APG Services and such other Debtors under the "Bigelow-Liptak" name prior to February 1, 1989 involving asbestos or asbestos-related products) against Stebbins and Bigelow-Liptak will be channeled to the APG Asbestos Trust. In addition, Stebbins will withdraw its claim against APG Services.

Should the Confirmation Order(s) entered by the Bankruptcy Court not provide for the channeling of claims as described above, the Stebbins Agreement provides that in the alternative Stebbins will be paid, in consideration for the release of BLC's rights in the Mission Policies, an amount equal to BLC's proportionate share of any amount paid or to be paid to the APG Debtors under the Mission Policies, based on BLC's proportionate rights in the Mission Policies.

b. History and Business of APG Services

The predecessor of APG Services was incorporated in 1926 under the name Bigelow Arch Company. In 1985 the company changed its name from Bigelow-Liptak Corporation to APG Services. APG Services is a Michigan corporation and a wholly-owned subsidiary of APG. APG Services engaged primarily in the installation and engineering of refractory products, including those manufactured by APG. APG Services has not conducted any operations since June 1, 1991. APG Services is named as a defendant in numerous asbestos litigation claims as a result of certain products that it installed which contained asbestos. See the preceding Section a. for a history of the relationship of APG Services with Stebbins, Bigelow-Liptak and BLC.

c. History and Business of A.P Green Refractories, Inc. ("AP Green Refractories")

AP Green Refractories is a Delaware corporation and a wholly-owned Subsidiary of APG. AP Green Refractories was formed in 1994 and is a manufacturer of refractory products for H-W and NARCO, serving primarily the steel and non-ferrous metals markets. AP Green Refractories was formed for the purpose of acquiring the assets of General Refractories Company ("General Refractories"). The acquisition transaction closed on August 1, 1994. As a result of the transaction and the subsequent course of dealing between the parties, AP Green Refractories assumed an indemnification obligation to General Refractories for silica related claims asserted against it, net of any insurance proceeds recovered by General Refractories for such claims.

The company operates six plants nationwide and manufactures products using H-W, NARCO and AP Green Refractories brand names and proprietary formulas. Prior to its acquisition by GIT in 1998, AP Green Refractories was a manufacturer, seller and distributor of refractory products worldwide. As part of a business restructuring implemented subsequent to the GIT acquisition, the sales and marketing arm of AP Green Refractories was transferred to H-W to promote a unified sales structure and culture within the combined organization.

Raw materials represent approximately 72% of the costs of products that AP Green Refractories manufactures in its own production facilities. Nearly 62% of the raw materials purchased is from four critical, non-Affiliated vendors.

AP Green Refractories has 315 employees, of which 226 are employed through four collective bargaining agreements with the USWA union. The collective bargaining agreements are negotiated plant by plant and generally have terms of three to five years. All four of the collective bargaining agreements will expire in 2006.

Recent capital expenditures at the AP Green Refractories plants and facilities have been minimal ($9.4 million from 2002 to 2005) as APG faced significant liquidity issues. AP Green Refractories plans to incur $3.4 million of capital expenditures in 2006. The annual cost of capital improvements for the AP Green Refractories plants thereafter is expected to be approximately $2 million.

General Refractories has asserted a claim against APG and AP Green Refractories, alleging that APG and AP Green Refractories are fully responsible for any silica-related claims against General Refractories. The APG Debtors have objected to this claim on the basis that it is unliquidated and contingent. Should the Bankruptcy Court deny the objection, the indemnification claims of General Refractories will be channeled to the APG Silica Trust in the same manner as other APG Silica Trust Claims. Any Silica Personal Injury Claim brought against the APG Debtors on the basis of exposure to a product manufactured, sold or distributed by General Refractories will similarly be channeled to the APG Silica Trust.

d. Business Assets of APG, APG Services and AP Green Refractories

The business assets of APG consist of cash, its ownership interest in APG Services, AP Green Refractories and other subsidiaries and other miscellaneous assets.

The assets of APG Services consist of ownership of a parcel of land and a building in Lakeland, FL. In addition, APG Services has insurance coverage under the APG Policies (as described below).

The business assets of AP Green Refractories include three active refractory products manufacturing facilities and three ancillary refractory products manufacturing facilities. AP Green Refractories also owns the related inventory, brand names and intellectual property from the manufacture of AP Green Refractories labeled refractory products.

The three active manufacturing facilities of AP Green Refractories consist of plants in Oak Hill, Ohio and Sproul, Pennsylvania, and Fulton, Missouri. AP Green Refractories also has three ancillary manufacturing facilities consisting of a fiber refractory manufacturing facility in Pryor, Oklahoma, an insulating facility in Minerva, Ohio and a pre-cast shape facility in Thomasville, Georgia.

AP Green Refractories also owns idled manufacturing facilities located in Mexico, Missouri; Little Rock, Arkansas; and Middletown, Pennsylvania. Excess manufacturing equipment at the idled facilities has been sold or transferred to active facilities. The Debtor has filed a motion to sell the facility in Mexico, Missouri. The expected net proceeds from the sale is $1.0 million and the expected reduction of holding costs of idled facilities is $1.0 million per year. AP Green Refractories owns 3 distribution centers throughout the United States which it leases to H-W.

Accounts receivable of AP Green Refractories consist of amounts due from inter-company sales of refractory products.

AP Green Refractories has ownership interests in five Affiliates. Those ownership interests include a 4% ownership interest in P.T. AP Green, a refractory business in Indonesia; a 51% ownership interest in A.P. Green de Mexico S.A. de C.V., a refractory manufacturer and distributor in Mexico; a 49% ownership interest in Empresa de Refractories Colombianos, S.A., owner of a refractory plant located in Columbia; a 49% ownership interest in Materials Industrials, S.A., owner of a refractory plant located in Columbia; and a 72% ownership interest in Lanxide ThermoComposite, Inc., an inactive Delaware corporation that formerly manufactured slide-gate products for use in the steel industry. Of the companies listed above in which AP Green Refractories has an ownership interest, only Lanxide has filed for bankruptcy protection (see below).

Other assets of AP Green Refractories include prepaid expenses, various intangible assets, and cash accounts at banking institutions.

e. APG Employees and Employee Benefits

APG Pension Plans. APG had eight separate defined benefit pension plans, which were merged into a single pension plan on December 31, 2001 – the APG Pension Plan for Hourly Employees. At January 1, 2005, the APG Pension Plan for Hourly Employees had 2,263 participants 232 of which are active employees). All minimum periodic funding requirements of the APG pension plan have been made to date. However, due to declines in the values of plan assets in 2000 through 2003, increases in projected pension obligations as the number of plan participants entitled to benefits increased, and decreases in discount rates used to compute the projected benefit obligations, the projected benefit obligations of the pension plan grew in excess of plan assets. Therefore, the pension plans became underfunded.

The APG Plan contemplates that APG will continue payments to the above-described pension plan in accordance with the minimum funding obligations established pursuant to ERISA. The underfunded liability (projected benefit obligation in excess of the fair value of plan assets) under the APG pension plan at January 1, 2006 is projected to be $21.6 million. The projected minimum funding obligations for 2006 to 2011 is $7.0 million, $7.2 million, $5.3 million, $3.7 million, $2.6 million and $0.8 million, respectively. Should APG fail to make the minimum funding contributions described in the preceding sentence, or should NARCO, GIT and H-W fail to make their minimum funding contributions (as described in sections relating to those entities), the PBGC, which guarantees private pension plans pursuant to Title IV of ERISA, can move to terminate the pension plans. Should such a termination occur, NARCO, GIT, H-W and APG will be jointly and severally liable for the obligations to each of the underfunded, terminated pension plans.

Welfare Benefit Plans Other Than Pension Plans. APG and the APG Affiliated Debtors are plan sponsors under a number of welfare and benefit plans for existing employees and retirees. Several of those plans provide for post-employment health and life insurance benefits. The GIT Plan contemplates that these obligations of APG and the APG Affiliated Debtors under the welfare and benefit plans will be continued. Reorganized GIT will retain the right to amend, modify or terminate the retiree health and life insurance plans, in accordance with law and the governing documents, following the confirmation of the GIT Plan.

f. APG and APG Services Asbestos and Silica Matters

Historically, APG has manufactured and distributed refractory materials for industrial companies such as steel manufacturers, shipbuilders and refineries. Some of the products that were manufactured and/or supplied by APG formerly contained asbestos. APG Services, as a Subsidiary of APG, was involved in the installation of refractory products, including those manufactured by APG. Only 22 of approximately 1,200 APG products and mix variations contained asbestos. By 1973, asbestos was removed from all products manufactured or sold by APG with the exception of one relabeled product, Green PC, which was produced until 1976.

Since the 1980s, APG and APG Services have been named as defendants in thousands of asbestos-related personal injury lawsuits. Plaintiffs in these suits generally would assert that they developed diseases caused by exposures to asbestos and/or asbestos-containing products manufactured and/or sold by APG, or installed by APG Services. Over the years, APG and APG Services entered into thousands of settlements with asbestos-related personal injury plaintiffs in an attempt to minimize their losses arising from asbestos-related claims; APG and APG Services also have litigated some cases in which settlements could not be reached or which appeared vulnerable to defense.

Prior to the Petition Date, APG had resolved approximately 203,000 asbestos-related claims, and in doing so expended approximately $448 million in indemnity costs. APG also obtained dismissal without payment of more than 34,000 of asbestos-related claims. Additionally, APG settled or had judgment entered against it in approximately 49,500 asbestos-related claims, in the aggregate amount of $491 million, which amount was unpaid as of the Petition Date. APG Services had expended approximately $5.2 million in indemnity and defense costs in resolving approximately 8,015 asbestos-related claims, and had resolved approximately 10,112 additional asbestos-related claims through dismissals without payments to plaintiffs prior to its bankruptcy filing.

As of the Petition Date, 235,757 asbestos-related claims (including the 49,500 described in the preceding paragraph as having been reduced to a dollar amount owing but remained unpaid) remained pending against APG, and 58,899 asbestos-related claims remained pending against APG Services. APG believes that thousands of additional asbestos-related claims have accrued since the Petition Date, and based upon its knowledge and experience as well as currently available literature, APG estimates that several hundred thousand additional asbestos-related claims will be asserted against it and/or APG Services in the future.

Several of APG's co-defendants in asbestos personal injury suits have filed Claims against APG in its Chapter 11 case. APG has filed objections seeking to have such claims disallowed pursuant to Section 502(e) of the Bankruptcy Code. To the extent such Claims are not disallowed, they will be channeled to the APG Asbestos Trust.

As of the Petition Date, APG was a defendant in approximately 169 "silica-only" claims (claims alleging only silica-related personal injury caused by exposure to an APG product) in state trial court in Texas. None of these claims had been resolved or settled by APG prior to the Petition Date. APG believes that thousands of additional silica-related claims have accrued against it and APG Services since the Petition Date and, based on available information, APG estimates that a significant number of additional silica-related claims will be asserted against it and/or APG Services in the future.

In those cases where a plaintiff's only claim is that he was exposed either to an APG silica-containing product or to a silica-containing product installed by APG Services, the case will be channeled under the GIT Plan as a Silica Trust Claim to the APG Silica Trust. In a "mixed dust" case, in which the plaintiff claims that while working with or near an APG product, he was exposed to dust from that product that contained indistinguishable portions of silica and asbestos, and thereby developed a mixed-dust pneumoconiosis or malignancy, the case will be channeled under the GIT Plan as an Asbestos Trust Claim to the APG Asbestos Trust, and not as a Silica Trust Claim to the APG Silica Trust. A claimant may recover under both the APG Asbestos Trust and APG Silica Trust, provided that he can satisfy the applicable medical and exposure criteria for both an Asbestos Trust Claim and a Silica Trust Claim.

g. APG and APG Services Insurance Assets

APG and APG Services have insurance coverage under several primary comprehensive general liability insurance policies (the "APG Services Policies") that were issued from the 1960s until 1986. These policies were issued to APG Services while APG Services was a wholly-owned Subsidiary of APG. APG itself was named as an additional insured on several of these policies, including certain policies issued by Continental Insurance Company, Great American Insurance Company, Federal Insurance Company, and Royal Insurance Company of America.

The carriers who issued the APG Services Policies disputed their obligations toward APG and APG Services, and have raised questions regarding, among other things, APG's right to coverage under the policies against which APG has made claims. In light of these disputes, both APG and APG Services have filed declaratory judgment actions against their insurance carriers, seeking declarations of their coverage rights and the obligations of the carriers to provide coverage for the asbestos-related operations or products liabilities of APG and APG Services. The cases are entitled A.P. Green Industries, Inc. & A.P. Green Services, Inc. v. Great American Insurance Company, et al., Bankruptcy

Case No. 02-21639, Adversary Proceeding No. 02-2152, and A.P. Green Industries, Inc. & A.P. Green Services, Inc. v. Great American Insurance Company, et al., Bankruptcy Case No. 02-21640, Adversary Proceeding No. 02-2153. Both cases are currently pending in the Bankruptcy Court.

Following the filing of the aforementioned adversary proceedings, the Bankruptcy Court ordered the parties to the cases into mediation. As a result, APG and APG Services reached settlement agreements with each of the carriers for the APG Services Policies (Continental Insurance Company, Great American Insurance Company, Federal Insurance Company and Royal Indemnity Company, successor in interest to Royal Insurance Company of America ("Royal Indemnity"), and The American Insurance Company, a subsidiary of Fireman's Fund Insurance Company ("Fireman's Fund")), which would result in approximately $355 million in payments over time, to be made to the APG Asbestos Trust and/or the APG Silica Trust following the confirmation of the GIT Plan ($12.4 million of this total is pursuant to the settlement with Fireman's Fund which remains subject to approval by the Bankruptcy Court). The exact timing of such payments varies according to the settlement agreements reached with each insurer. For example, the settlement agreement with Great American Insurance Company provides for the payment of (i) $12.3 million in either cash or the stock of its parent company, American Financial Group, as of the Effective Date, and (ii) approximately $173 million over a period of twenty years (in the alternative to the stream of payments, Great American can at its option make a single payment for $110 million, the present value of the installment payments as of the Effective Date). The agreement with Continental Insurance Company provides for the payment of $120 million over a period of ten years, while the agreement with Federal Insurance Company provides for the payment of $26 million over two years and the agreement with Royal Indemnity provides for payment of $11.4 million immediately following the effective date of the GIT Plan. The agreement with Fireman's Fund provides for three annual payments, to be completed by December 15, 2008. In addition, APG reached a settlement agreement with KWELM Management Services Limited which will result in approximately $1 million being shared by the APG Asbestos Trust and the APG Silica Trust. With the exception of the Fireman's Fund settlement, each of these settlement agreements have been approved by the Bankruptcy Court. Pursuant to the settlements reached between APG, APG Services and the APG Services Settled Insurers (and provided that the settlement with Fireman's Fund is approved by the Bankruptcy Court), all claims, counterclaims, cross-claims and third-party claims asserted in the aforementioned adversary proceedings or in the related litigation between APG, APG Services and the APG Services Settled Insurers regarding the APG Services Settled Policies which is pending in the United States District Court for the Southern District of Ohio and is currently stayed, shall be dismissed.

Pursuant to the agreements between APG, APG Services and the APG Services Settled Insurers, those insurers received a full release with respect to all Claims under the APG Services Settled Policies, whether known or unknown, including for silica-related liability Claims, whether or not such claims constitute APG Silica Trust Claims and are subject to the APG Silica Channeling Injunction. Consistent with the releases granted the APG Services Settled Insurers the APG Debtors have agreed to indemnify and hold harmless each of the APG Services Settled Insurers for any "Silica-Related Liability Claim" (as defined in the Royal settlement agreement) asserted against them that is not subject to the APG Silica Channeling Injunction because such claim is allegedly caused by, related to or arising out of silica exposure beginning on or after July 1, 2000, and to further indemnify and hold harmless Royal with respect to any other

"Silica-Related Liability Claim" (as defined in the Royal settlement agreement) asserted against it that is not subject to the APG Silica Channeling Injunction.

Between 1949 and 1999, APG and/or certain of its Subsidiaries obtained insurance coverage under several primary, umbrella and excess liability insurance policies which provide general liability insurance coverage, including coverage for silica-related liabilities, to APG (formerly known as A.P. Green Refractories Company), and/or other APG Debtors. These policies, along with certain policies issued to GIT prior to June 30, 2000, are defined in Exhibit 1 hereto as the "APG Silica Trust Policies." The APG Silica Trust Policies either contain asbestos exclusions or have been exhausted with respect to coverage for asbestos-related liabilities.

The APG Silica Trust Policies can be separated into five general groups. First, for the period from 1949 to 1985, APG's primary insurance policies were issued by Travelers Indemnity Company ("Travelers") or United States Fidelity and Guarantee Insurance Company ("USF&G") while its umbrella coverage and excess coverage was issued by a variety of carriers. The rights associated with these policies include rights for coverage of silica-related liabilities. The stated limits for these APG Silica Trust Policies for a single occurrence based on operations liabilities (exclusive of any insolvent policies, policies where limits for operations claims have been exhausted, and policies which exclude coverage for APG Services) are in excess of $140 million. Second, for the period 1985 to 1993, APG's primary insurance policies were issued by Travelers, and its umbrella and excess coverage was issued by a variety of carriers. The stated limits for these APG Silica Trust Policies for a single occurrence based on products or completed operations liabilities (exclusive of any insolvent policies or policies providing coverage in excess of underlying insolvent policies) is approximately $111.75 million. Third, for the period 1993 to 1999, APG's primary insurance policies were issued by Lumberman's Mutual Casualty Company ("Lumberman's") and its umbrella and excess coverage was issued by a variety of carriers. The stated limits for these APG Silica Trust Policies for a single occurrence, based on products or completed operations liabilities (exclusive of any insolvent policies or policies providing coverage in excess of underlying insolvent policies), is approximately $121 million. Fourth, for the period 1997 to 2000, GIT's primary insurance policies were issued by National Union Fire Insurance Company of Pittsburgh, PA ("National Union") and the American Home Assurance Company. For the policy period beginning in 1999, GIT's umbrella coverage was issued by Lumberman's and its excess coverage was issued by National Union. The stated limits for these APG Silica Trust Policies for a single occurrence, based on products or completed operations liabilities, is approximately $109 million. Fifth, Investors Insurance of America issued primary policies to Lanxide ThermoComposites, Inc. in 1996 and 1997 and to Intogreen Co. in 1996, 1997 and 1998. The stated limits for these APG Silica Trust Policies for a single occurrence, based on products or completed operations liabilities, is approximately $5 million. Several of the APG Silica Trust Policies are subject to self-insured retentions, deductibles, and/or retrospective premiums, the aggregate of which, on a single occurrence basis, is not expected to exceed $7 million.

Since the Petition Date, APG has not collected or received any proceeds from any of the APG Silica Trust Policies for any silica-related liabilities. APG has, however, placed the insurers that issued many of these policies on notice of the silica-related litigation filed against APG prior to the Petition Date. Moreover, A.P. Green has reached a settlement with Fireman's Fund, which remains subject to approval by the Bankruptcy Court, with respect to an excess

liability policy issued by Fireman's Fund's subsidiary, National Surety Company, for the 1985-1986 policy period. This policy, which is defined in Exhibit 1 hereto as the "APG Settled Policy", would have been one of the APG Silica Trust Policies but for the settlement. If approved, the settlement with Fireman's Fund relating to this policy will result in $1.4 million in payments being made to the APG Silica Trust.

Additionally, APG and APG Services hold rights under certain liability insurance policies issued to A.P. Green Refractories Company (now known as APG) between 1977 and 1985 by domestic insurers that are currently insolvent. Prior to their bankruptcy filings, APG and APG Services assigned all of their claims against these insolvent insurance carriers to National Indemnity Company (a Berkshire-Hathaway Corp. company) in exchange for (in part) a share of any future collections received by National Indemnity Company from these insolvent carriers. Included within these policies are the Mission Policies described in Section III.D.3.a hereof. Since the Petition Date, APG has received approximately $8.1 million from National Indemnity Company as a result of its prosecution of the assigned claims.

h. GIT/RHI AG Settlement Agreement

The GIT Debtors and RHI AG Parties (as defined in the GIT/RHI AG Settlement Agreement) entered into the GIT/RHI AG Settlement Agreement to resolve all outstanding issues among them. A copy of the GIT/RHI AG Settlement Agreement, which is incorporated by reference in its entirety, is attached as Exhibit 7 to this Disclosure Statement. The GIT/RHI AG Settlement Agreement provides, among other things, as follows:

- No Objection to GIT Plan. The RHI AG Parties agree not to object to the GIT Plan so long as the GIT Plan is consistent with the GIT/RHI AG Entity Settlement Agreement.
- Waiver of Claims Against GIT Debtors. The RHI AG Parties agree to waive approximately $542.9 million in claims currently scheduled as undisputed claims by the GIT Debtors.
- Cancellation of Equity Interests. Holdings agrees not to object to the cancellation of the Equity Interests in the GIT Debtors upon the Effective Date.
- Letters of Credit. The proof of claim filed by ABN AMRO Bank N.V. ("ABN") in connection with GIT's insurance program will be allowed in full. To the extent a letter of credit issued by ABN is drawn as of the first distribution date, GIT will pay the claim at same recovery rate as paid to other unsecured creditors. To the extent an ABN letter of credit is not drawn as of the first distribution date, GIT will cash collateralize the obligation at the same recovery rate paid to other unsecured creditors. RHI AG will pay ABN the difference between the amount paid by GIT and the amount of its proof of claim.
- Channeling Injunctions in Favor of RHI AG Entities. The RHI AG Entities are to receive the benefit of the permanent channeling injunctions to be issued by the Bankruptcy Court in GIT Plan under Sections 524(g) and 105 and/or other sections of the Bankruptcy Code, to the extent such claims derive through any of the GIT Debtors.

- National Union Guaranty. Reorganized GIT agrees to indemnify RHI AG in connection with a guaranty issued by RHI AG to National Union Fire Insurance Company of Pittsburgh, PA as set forth in Section 4.4 of the GIT/RHI AG Settlement Agreement.

- Tax Sharing. RHI AG and its affiliates may use certain tax benefits of the GIT Debtors prior to the Effective Date of the GIT Plan.

- Operating Agreements. The GIT Debtors agree to assume and amend existing operating commercial agreements upon the Effective Date of the GIT Plan.

- Mutual Releases. The Parties will release each other from any and all claims existing as of the date of the GIT/RHI AG Entity Settlement Agreement and the later consequences thereof, including the release of claims of or behalf of the GIT Debtors under Sections 502, 506, 544, 547, 548, 549, 550, and 553 of the Bankruptcy Code, except for (i) any claims arising after the Petition Date consisting of ordinary-course trade receivables, arising under ordinary-course contracts, or otherwise arising in the ordinary course of the business of the RHI AG Entities and the GIT Debtors and (ii) any rights or obligations under the GIT/RHI AG Entity Settlement Agreement and/or GIT Plan.

The GIT Debtors believe that the GIT/RHI AG Entity Settlement Agreement resolves substantial impediments to the emergence of the GIT Debtors from bankruptcy. In particular, among other things, the GIT/RHI AG Entity Settlement Agreement, in conjunction with the NARCO/RHI AG Entity Settlement Agreement, resolves significant disputes relating to hundreds of millions of dollars in scheduled claims against the Debtors, as well as claims against the Debtors relating to certain letters of credit and a civil penalty imposed by the Federal Trade Commission. In addition, the GIT/RHI AG Entity Settlement Agreement provides for an ongoing business relationship between the RHI AG Parties and the GIT Debtors, a necessary part of the GIT Debtors' business plan and their emergence from bankruptcy.

Litigation over any one of these issues would be costly and protracted, would likely delay confirmation and distributions to creditors, and would pose risks to the estates in the event that unfavorable results are reached. In particular, an unfavorable result in any litigation concerning the validity and treatment of the RHI AG Entities' claims against the GIT Debtors would cause a substantial reduction in funds available for distribution to other general unsecured creditors.

E. COMMERCIAL AGREEMENTS WITH AFFILIATES OF RHI AG

NARCO, H-W, APG and ANH (collectively "ANH") have several commercial agreements with affiliates of RHI AG (collectively "RHI"). RHI manufactures and sells refractory products on a global basis.

These agreements primarily include:

- An agreement pursuant to which ANH produces and sells product to an affiliate of RHI for resale in the U.S.A. to Mittal Steel, the world's largest steel producer. On June 6, 2005, NARCO filed a motion seeking approval of the Mittal Agreement. The NARCO and GIT Creditors Committee

objected. Following notice, significant discovery and an evidentiary hearing, the Bankruptcy Court approved the Mittal Agreement in an Order dated July 7, 2005.

- An agreement whereby ANH produces and sells products to RHI for resale in Canada.
- An agreement whereby RHI toll manufactures products in Canada for ANH to sell in the U.S.A.
- Certain IP agreements.

IV. THE CHAPTER 11 CASES

The following is a general description of the most significant events that have transpired since the Chapter 11 Cases were filed by NARCO and GIT. The Bankruptcy Court docket sets forth a complete list of the pleadings filed in the NARCO and GIT cases. Copies of pleadings may be obtained from or reviewed at the Bankruptcy Court.

A. COMMITTEES AND PROFESSIONALS

1. Debtor Professionals

The Bankruptcy Court authorized the retention of Reed Smith LLP as counsel for the Debtors under a general retainer, and Kroll Zolfo Cooper LLC as bankruptcy consultants and special financial advisors for the Debtors. Since the inception of these bankruptcy cases, the Court has also authorized the retention of additional professionals for the Debtors, including the following: (a) Ernst & Young LLP (tax professionals and accounting advisors); (b) Marcus, Santoro, Kozak & Melvin, PC (special counsel); (c) Mark Kusner Co., LPA (special counsel); (d) Heintzman, Warren, Wise & Fornella (special counsel); (e) Lynn Luker & Associates (special counsel); (f) Dickstein, Shapiro, Morin & Oshinsky, LLP (special insurance coverage counsel); (g) Logan & Company, Inc. (claims, noticing & balloting agent); (h) Connecticut Valley Claims Service Company (special asbestos litigation consultant); (i) Commonwealth Claims Management Associates, Inc. (special asbestos litigation consultant); (j) Roland Berger (operational consultant); (k) Brooks Group (operational consultant); (l) Harry Davis & Company (auctioneer); (m) Supply Chain Alliance (supply chain consultant); (n) Towers, Perrin, Forster & Crosby, Inc. (actuarial consultants), (o) Property Assessment Advisors, Inc. (property tax consultants) and (p) John T. Boyd Company (consultant and expert witness).

2. NARCO Committees and Professionals

The United States Trustee appointed the NARCO Creditors Committee on January 28, 2002. Its members are the following creditors: Towns Brothers Construction Co., Inc.; C.E. Minerals, Inc.; Dynea USA Inc./Neste Resins Corp.; Alcoa, Inc.; Toshiba; Possehl, Inc.; United Steelworkers of America; Amerada Hess Corporation; and Continental Mineral Processing Corp. The Bankruptcy Court authorized the retention of McGuire Woods, LLP, as counsel to the NARCO Creditors Committee and KPMG, LLP, as its financial advisor.

The United States Trustee appointed the NARCO Asbestos Claimants Committee on January 28, 2002. Its members are: Lawson Bergeron, c/o Steven T. Baron, Esq., Silber Pearlman, LLP; Sandra Gay Harper, c/o Alan Rich, Esq., Baron & Budd; The Estate of David Barnett, c/o Thomas Wilson, Esq., Kelley & Ferraro, L.L.P.; James A. Price, Jr. c/o Guy G. Fisher, Esq., Provost Umphrey, L.L.P.; William Benford, c/o Glenn W. Morgan, Esq., Reaud, Morgan &

Quinn; William Weaver, c/o Alan Kellman, Esq., The Jaques Admiralty Law Firm, P.C.; Helen Wycoff, c/o Mark Meyer, Esq., Goldberg, Persky, Jennings & White, P.C.; Clarence Pruitt, c/o Joseph F. Rice, Esq., Motley Rice LLC; Vincent DePalma, c/o Anthony Marshall, Esq., Kaeske-Reeves LLP; Janet Plantin, c/o Lisa N. Busch, Esq., Weitz & Luxemberg, P.C.; and Diana Lynne Harden, c/o Steven Kazan, Esq., Kazan, McClain, Edises Abrams Fernandez Lyons & Farrise.

The Bankruptcy Court authorized the retention of the following professionals by the NARCO Asbestos Claimants Committee: (a) Caplin & Drysdale, Chartered (legal counsel); (b) Campbell & Levine, LLC (legal counsel); (c) L. Tersigni Consulting, PC (financial advisor); (d) Legal Analysis Systems, Inc. (asbestos-related bodily injury consultant); and (e) Professor Elizabeth Warren (consultant to Caplin & Drysdale).

3. NARCO Futures Claimants Representative

In order to confirm a plan of reorganization implementing a channeling injunction under Section 524(g) of the Bankruptcy Code, it is necessary to appoint a legal representative of persons who may have asbestos-related demands against the NARCO Debtors arising in the future. The Bankruptcy Court appointed Lawrence Fitzpatrick as the legal representative for the future holders of Asbestos Trust Claims against the NARCO Debtors. The Bankruptcy Court has further authorized Mr. Fitzpatrick to retain the following professionals: (a) Young Conaway Stargatt & Taylor LLP (legal counsel); (b) Meyer, Unkovic & Scott LLP (legal counsel); (c) Analysis Research Planning Corp. (claims evaluation consultant); and (d) Bederson & Company, LLP (special financial advisors).

4. GIT Committees and Professionals

The United States Trustee appointed the GIT Creditors Committee on March 27, 2002. Its members are Toyal America, Inc.; Elkem Materials, Inc.; DAMREC; CE Minerals, Inc.; John A. Castilano; Heidelberger Calcium Aluminates, Inc.; Winthrop Management LLC; JP Morgan Trust Company, National Association, Institutional Trust Services; and Anthony Baggetta. The Bankruptcy Court authorized the retention of McGuire Woods, LLP, as counsel to the GIT Creditors Committee and KPMG, LLP, as its financial advisor.

The United States Trustee appointed the GIT Asbestos Claimants Committee on March 15, 2002. Its members are: Lawson Bergeron, c/o Steven T. Baron Esq., Silber Pearlman, LLP; Elmer Hill, c/o Bergman, Senn, Pagaler & Frock; The Estate of David Barnett, c/o Thomas Wilson, Esq., Kelley & Ferraro, L.L.P.; Janet Plantin, c/o Lisa N. Busch, Esq., Weitz & Luxemberg, P.C.; Herbert Smith, c/o Williams Bailey Law Firm L.L.P.; Debbie Baar, Special Administrator of the Estate of Walter Baar, III, c/o Cooney and Conway; Helen Wycoff c/o Mark Meyer, Esq., Goldberg, Persky, Jennings & White, P.C.; Clarence Pruitt, c/o Joseph F. Rice, Esq., Motley Rice LLC; Charlie A. Bishop, c/o Law Offices of Robert Pritchard; Diana Lynne Harden, c/o Steven Kazan, Esq., Kazan McClain Edises Abrams Fernandez; and Antonio Colella, c/o Law Offices of Peter G. Angelos.

The Bankruptcy Court authorized the retention of the following professionals by the GIT Asbestos Claimants Committee: (a) Caplin & Drysdale, Chartered (legal counsel); (b) Campbell & Levine, LLC (local counsel); (c) L. Tersigni Consulting, PC (financial advisor); (d) Legal Analysis Systems, Inc. (asbestos-related bodily injury consultant); (e) Professor Elizabeth Warren (consultant to Caplin & Drysdale); and (f) Anderson Kill & Olick, P.C. (special insurance coverage counsel).

5. APG Asbestos and Silica Future Claimants Representatives

Asbestos. In order to confirm a plan of reorganization implementing a channeling injunction under Section 524(g) of the Bankruptcy Code, it is necessary to appoint a legal representative for the purpose of protecting the rights of persons who might in the future assert asbestos-related demands. The Bankruptcy Court appointed Lawrence Fitzpatrick as the legal representative of persons who may have asbestos-related demands against GIT and the APG Debtors. The Bankruptcy Court has further authorized Mr. Fitzpatrick to retain the following professionals: (a) Young Conaway Stargatt & Taylor LLP (legal counsel); (b) Meyer, Unkovic & Scott LLP (legal counsel); (c) Analysis Research & Planning Corp. (claims evaluation consultant); and (d) Bederson & Company, LLP (special financial advisors).

Silica. The Bankruptcy Court appointed Philip A. Pahigian as the legal representative of persons who may have silica-related demands against GIT and the APG Debtors. The Bankruptcy Court has further authorized Mr. Pahigian's retention of the following professionals to assist in this case: (a) Sherrard German & Kelly P.C. (legal counsel); (b) Kenneth E. Lehrer (statistical consultant); and (c) Meyer, Unkovic & Scott LLP (special insurance coverage counsel).

B. INJUNCTIONS PREVENTING ACTIONS AGAINST DII AND HONEYWELL

Simultaneous with the filing of their respective bankruptcy cases, the Debtors filed in both the NARCO and GIT cases a Complaint for Declaratory and Injunctive Relief and a Motion for Temporary Restraining Order and for Preliminary Injunction, wherein they sought a declaration by the Bankruptcy Court that pursuant to Sections 362(a)(1) and (a)(3) of the Bankruptcy Code, the automatic stay should be extended to prevent the initiation and continued prosecution of asbestos cases, related to products manufactured and sold by the Debtors, and their predecessors, against Honeywell and DII (the "Pending Actions") during the pendency of the Chapter 11 Cases. As an alternative theory, the Debtors sought to enjoin prosecution of the Pending Actions pursuant to Section 105 of the Bankruptcy Code.

The Bankruptcy Court entered a temporary restraining order enjoining the continuation or commencement of Pending Actions (specifically including asbestos) against Honeywell on January 4, 2002. A similar order was entered in favor of DII on February 14, 2002. The order has been extended by the Bankruptcy Court with the consent of the parties and remain in full force and effect. On the Effective Date, that injunction will be dismissed.

The Bankruptcy Court also entered a temporary restraining order enjoining the continuation or commencement of Pending Actions (specifically including asbestos) against DII on February 14, 2002. The order was extended by the Bankruptcy Court with the consent of the parties until September 30, 2003. In light of the confirmation of the DII Plan (and the issuance of Section 105(a) and 524(g) Channeling Injunctions in favor of DII), H-W filed a motion to dismiss the Complaint for Declaratory and Injunctive Relief as moot on March 9, 2005. The Bankruptcy Court entered an order granting that motion on April 7, 2005.

C. SIGNIFICANT ORDERS ENTERED DURING THE PENDENCY OF THE CASES

1. First Day Orders

On their respective Petition Dates, the Debtors filed several motions seeking relief from the Bankruptcy Court to ensure a seamless transition between the Debtors' prepetition and postpetition business operations. In essence,

these motions sought Bankruptcy Court approval for normal business conduct that may not be specifically authorized under the Bankruptcy Code, or as to which the Bankruptcy Code requires prior approval. After conducting a hearing, the Bankruptcy Court entered several "first-day" orders in the NARCO cases on January 9, 2002 and related orders were entered in the GIT cases on February 20 and March 22, 2002 (except as otherwise provided below). This included the following orders which authorized, among other things:

Joint Administration. To promote efficiency and eliminate confusion, the Bankruptcy Court entered an order to jointly administer the Debtors' bankruptcy cases. Because of these orders, the pleadings for each of the NARCO Debtors can be found under the docket for Case No. 02-20198, while Case No. 02-21626 contains the filings for all matters related to the GIT Debtors. The joint administration orders consolidated the cases for procedural purposes only, and do not constitute a substantive consolidation of the Debtors' estates.

DIP Financing. By interim order dated January 9, 2002 and a final order entered February 13, 2002, NARCO was authorized to execute a credit agreement for a revolving credit facility in the aggregate principal amount of $20 million facility with Jan 2002 Funding, LLC, an affiliate of Honeywell (i.e., the NARCO DIP Facility). Certain GIT Debtors were also authorized to enter into a revolving credit facility with DII in the aggregate principal amount of $35 million (i.e., the DII DIP Facility). The DII DIP Facility was approved by an interim order dated February 22, 2002 and a final order dated June 4, 2002. In both instances, the DIP lender was granted a superpriority claim pursuant to 11 U.S.C. §364(c)(1) and postpetition liens in, among other things, the Debtors' cash collateral, inventory, and accounts receivable pursuant to 11 U.S.C. §364(c)(2). As described in the NARCO/Honeywell Settlement Agreement and GIT/DII Settlement Agreements, such agreements provide for the forgiveness of repayment of principal, interest and fees if certain conditions are satisfied. The obligations of the GIT Debtors under the DII DIP Facility have been forgiven pursuant to the GIT/DII Settlement Agreement.

Cash Management. The Debtors were authorized to maintain their existing bank accounts and to operate their cash management system substantially as it existed prior to the Petition Date.

Employee Wages. The Debtors were authorized to pay prepetition employee wages, salaries, benefits and other obligations in the ordinary course of business. Pursuant to such authorization, the Debtors have paid all Priority Claims for wages, salaries, benefits and other obligations. Accordingly, there are currently no such Priority Claims outstanding.

Utility Order. The Court established procedures to ensure that utilities could not terminate service to the Debtors on account of unpaid prepetition invoices. The procedures also address requests for additional adequate assurance by utility companies during the pendency of the Chapter 11 Case.

2. General Operating Orders

Through the course of the Debtors' bankruptcy proceedings, additional authorization from the Bankruptcy Court was necessary to facilitate the operation of the Debtors' businesses. The relief provided in these orders has been wide ranging, and includes, among other things, the following:

Shutdown of Manufacturing Facilities. In the course of its reorganization analysis, the Debtors determined that certain production facilities were no longer profitable and therefore made the decision to close those facilities. Before operations could be terminated, however, it was necessary for the Debtors to engage in negotiations with certain labor unions to terminate their collective bargaining agreements for each closed facility. The Bankruptcy Court authorized the execution of Shutdown Agreements for the Tri-Star facility in Cincinnati, Ohio on April 26, 2002, the NARCO facilities in Ione/Indian Hill, California on June 4, 2002, and the APG facility in Mexico, Missouri on June 4, 2002.

Intercompany Transactions. Prior to the Petition Date, the Debtors frequently engaged in intercompany transactions with affiliates and related parties through the ordinary course of their businesses. Specifically, the management of the Debtors' three main operating companies was consolidated into one entity, RHI Services, Inc. (a/k/a ANH Refractories Company), which would provide administrative services in exchange for management fees. Through orders of the Bankruptcy Court dated March 5, 2002 and April 11, 2002, the NARCO debtors were authorized to continue ordinary course transactions with their affiliates provided that, among other things, the Debtors produce monthly reports of such transactions and a quarterly budget of all anticipated payments to ANH. A similar order was entered on behalf of the GIT debtors on June 4, 2002 and requires monthly consolidated operating reports for the NARCO and GIT cases, as well as a separate monthly operating report for ANH. Subsequent orders have extended the time by which the Debtors can engage in such intercompany transactions.

Name Change to ANH Refractories Company. As noted above, RHI Services, Inc. provided certain administrative and management support services for the Debtors' operating companies. In an effort to capitalize on the strength of the APG, NARCO, and H-W brand names, the Debtors filed a motion seeking authorization to change the name of RHI Services, Inc. to ANH Refractories Company. The Bankruptcy Court granted this request through an order dated August 20, 2002.

Rejection of Certain Unexpired Nonresidential Real Property Leases and Executory Contracts. Through several orders entered in these cases, the Debtors have occasionally obtained Bankruptcy Court authorization to reject certain unexpired leases of nonresidential real property and to reject certain executory contracts. In every instance, the Debtors determined that such leases and contracts were no longer beneficial to the bankruptcy estate.

3. Disposition of Assets

Since the Petition Date, the Debtors have generated $12.0 million to $13.3 million (depending on collection of future payments) from the sale of certain operations, real property and equipment and machinery which are no longer necessary in the operation of their businesses. Each sale of the following real property, and in certain instances, related assets, was separately authorized by the Court after a hearing in which prospective purchasers were given an opportunity to submit higher and better offers: (i) Calloway County, Missouri ($0.1 million for H-W); (ii) Mexico, Missouri – guest house only ($1.3 million for APG); (iii) Bessemer, Alabama ($0.1 million for APG); (iv) New Savage, Maryland ($1.0 million for H-W); (v) Calhoun, Georgia ($0.5 million for H-W); (vi) Sulphur Springs, Texas ($0.25 million for APG); (vii) Gary, Indiana ($0.23 million for APG Refractories); (viii) Ellisville, Mississippi ($0.212 million for Detrick); (ix) Mexico, Missouri ($0.08 million for APG Development); (x) Bartow, Florida ($0.4 million for APG

Services); (xi) Cincinnati, Ohio ($1.6 million for NARCO); (xii) Marion, Ohio ($0.023 million for TMPSC); Hile, Maryland ($1.9 million for H-W); and Womelsdorf, Pennsylvania ($225 thousand for NARCO).

By order dated April 26, 2002, the Court established procedures by which the Debtors could conduct sales of certain de minimis items and other assets. In a separate order, the Bankruptcy Court also authorized the retention of Harry Davis & Company LP ("Harry Davis") as auctioneer for the Debtors. In collaboration with Harry Davis, the Debtors conducted four separate auctions of personal property and equipment at their facilities in Middletown, Pennsylvania (net proceeds of $0.1 million after expenses and fees for APG); Ione/Indian Hill, California ($0.2 million for NARCO); Cincinnati, Ohio ($0.4 million for NARCO and Tri-Star); and Womelsdorf, Pennsylvania ($0.8 million for NARCO). The Debtors have also periodically sold equipment through private sale when warranted by the circumstances.

By order dated January 21, 2004 (the "CTI Order"), the Court established procedures by which the GIT Debtors could conduct an auction for the sale of the CTI Business (as defined in the CTI Order). After soliciting purchase offers from interested parties, two entities, CTI Acquisition LLC ("CTI Acquisition") and Ancor N.A., Inc. ("Ancor") were qualified to participate in the auction. The GIT Debtors conducted the auction at the offices of Reed Smith, LLP. After the auction process, CTI Acquisition was determined to have the successful bid, with cash to be paid at closing of $1.8 million, plus potential deferred payments of $1.95 million over a 5 year period (subject to various credits against certain deferred payments), and security for various payments $500,000 in letters of credit, $1.45 million personal guaranty of one of the principals of CTI Acquisition, and a pledge of the shares and interest of CTI Acquisition and the acquired shares). The closing occurred as of March 31, 2004 and a report of sale was made to the Bankruptcy Court.

4. Recovery of Insurance Assets

Prior to their bankruptcy filings, both NARCO and H-W counted proceeds from certain insurance policies as among their largest assets, especially with respect to their asbestos-related liabilities. Through its bankruptcy cases, however, NARCO has crafted a resolution of its asbestos-related liabilities with the cooperation of Honeywell, whereby Honeywell will principally fund NARCO's asbestos-related liabilities and NARCO will forgo any attempt to recover insurance proceeds for these liabilities. Similarly, H-W has agreed to release and/or assign its interests in insurance coverage for its historic asbestos- and silica-related liabilities to DII, in exchange for DII's agreement to channel H-W's asbestos- and silica-related liabilities into the asbestos and silica trusts created in the DII Plan.

Proceeds from certain insurance policies remain some of the largest assets available to APG's bankruptcy estate. APG has pursued these assets throughout its bankruptcy proceeding, and has engaged in mediation sessions with most of the insurance carriers that issued APG Services policies providing coverage for asbestos- and silica-related liabilities in an effort to resolve disputes and generate funding for the APG Asbestos Trust and APG Silica Trust. To date, APG and APG Services have been successful in reaching settlements with a number of insurers. In particular, the Bankruptcy Court approved a $26 million settlement agreement with Federal Insurance Company on December 2, 2002, and a $1 million settlement with KWELM Management Service Limited was authorized on February 12, 2003. Both settlements involved policies insuring APG and APG Services. On August 18, 2003, the Bankruptcy Court also approved settlement agreements between APG and APG Services and Continental Insurance Company and Great American Insurance Company, which agreements will result in payments of approximately $305 million over time to the APG

Asbestos Trust and the APG Silica Trust. On April 15, 2005, the Bankruptcy Court approved a settlement agreement with Royal Indemnity which will result in payment of an additional $11.4 million to the APG Asbestos Trust and the APG Silica Trust. A settlement has also been reached with Fireman's Fund relating to a policy issued to APG and a policy issued to APG Services. Pursuant to the settlement, which remains subject to approval by the Bankruptcy Court, $13.8 million will be paid to the APG Asbestos Trust and APG Silica Trust. Negotiations with various other insurance carriers are ongoing. It is possible that insurance carriers could dispute or deny coverage with respect to silica related claims.

Pacific Employers Insurance Company ("PEIC") provided workers compensation coverage to the Debtors under a policy in effect from June 2000 to June 2002. PEIC has contended that this policy is an executory contract that must be assumed in order to preserve coverage. The Debtors have disputed that contention. The issue will be submitted to the Bankruptcy Court, and if the Bankruptcy Court determines that the policy is an executory contract the Debtors will assume it. The estimated additional cost to the Debtors of assuming the policy would be about $40,000, which would not have a material effect on the Debtors or their estates.

5. Extensions of Exclusivity

Pursuant to Section 1121(b) of the Bankruptcy Code, only the debtor may file a plan during the first 120 days of a Chapter 11 case. This is sometimes referred to as the "exclusivity period." A bankruptcy court may extend the exclusivity period for cause. In a series of orders, the Bankruptcy Court has extended the Debtor's exclusivity period for both the NARCO Debtors and the GIT Debtors and the Debtors' exclusive right to solicit acceptance of each Plan.

6. Claims Bar Date

On October 11 and 18, 2002, the Bankruptcy Court entered Bar Date Orders establishing the general deadline for filing proofs of claim against the Debtors (the "Bar Date"). The deadline established by the Bankruptcy Court in both cases was February 28, 2003. The Bar Date does not apply to asbestos claims, silica claims, or certain claims related to the rejection of certain executory contracts. Notice of the Bar Date was served on all creditors listed on the Debtors' matrices and schedules, all persons requesting notice, and all known asbestos co-defendants. Notice of the Bar Date was also posted on the Debtors' website, www.rhireorg.com, and was published twice during the week of November 11, 2002 in the Wall Street Journal, the New York Times, and USA Today.

V. SUMMARY OF TREATMENT OF LIABILITIES AND CLAIMS AGAINST THE DEBTORS

A description of asbestos-related claims and silica-related claims against the Debtors is contained in Section III of this Disclosure Statement. A summary of certain other claims is set forth in this Section V.

A. LIABILITIES OF AND CLAIMS AGAINST THE NARCO DEBTORS

Administrative Expense Claims. The Administrative Expense Claims against the NARCO Debtors consist of trade payables and accrued expenses incurred after the Petition Date in the normal course of operations. Trade payable obligations and certain accrued expenses arise from raw material purchases, manufacturing facility operations and maintenance costs, employee compensation and benefits, etc. The NARCO Debtors will pay these obligations pursuant to their original terms, in the normal course of operations. Administrative Expense Claims against the NARCO Debtors also

include unpaid professional fees incurred in the reorganization and bankruptcy process after the Petition Date. Allowed NARCO Administrative Expense Claims for professional fees will be paid in full in Cash in an amount equal to the unpaid portion of the Allowed Amount of such claim (i) on the Effective Date or (ii) upon such other terms as may be agreed upon by the holder of such Allowed NARCO Administrative Expense Claim for professional fees.

Priority Claims. The NARCO Debtors believes that substantially all employee wage and benefit claims entitled to priority pursuant to Sections 507(a)(3) and (4) of the Bankruptcy Code have been paid pursuant to a first day order of the Bankruptcy Court. Any such Claims remaining will be paid in full on, or as soon as practical after, the Effective Date. The NARCO Debtors' Priority Claims consist primarily of unpaid property, sales, income and franchise taxes entitled to priority under Section 507(a) and (c) in the estimated amount of $0.8 million. All Allowed Priority Claims will be paid in full on the Effective Date or in defined payments as permitted by the Bankruptcy Code.

General Unsecured Claims. The NARCO Plan incorporates the substantive consolidation of NARCO and the NARCO-Affiliated Debtors' assets and liabilities with respect to the treatment of General Unsecured Claims. See Section VI.A. below. General Unsecured Claims against NARCO and the NARCO-Affiliated Debtors consist of all unsecured claims not included in any other described category or Class of claims, including but not limited to (i) trade payables and accrued expenses incurred prior to the Petition Date; (ii) damages from the rejection of prepetition executory contracts and leases; (iii) damages from non-mass tort litigation; and (iv) other prepetition obligations including customer warranties and deposits, outstanding checks and commissions. The NARCO General Unsecured Claims also include a claim that has been asserted by Honeywell. NARCO disputes such Claim. Honeywell's claim will be resolved pursuant to the NARCO/Honeywell Settlement Agreement, which requires it to be withdrawn on the Effective Date of the NARCO Plan. The Allowed General Unsecured Claims against NARCO and the NARCO-Affiliated Debtors is estimated by NARCO and the NARCO-Affiliated Debtors to be in the amount of $20-22 million and will be treated as provided in Part C of this Section V.

Secured Claims. Honeywell provided NARCO a $20 million debtor-in-possession credit facility secured by liens on the accounts receivable and inventory of NARCO at its Petition Date (the "NARCO DIP Facility"). Draws to date under the NARCO DIP Facility total $2.7 million. As part of the NARCO Plan, NARCO will draw the remaining $17.3 million available under the NARCO DIP Facility, and in partial consideration for the NARCO Channeling Injunction Honeywell will waive any rights to repayment of principal or interest evidenced by such facility. Other than the NARCO DIP facility, NARCO has no other significant Secured Claims or financing-type lease agreements.

B. LIABILITIES OF AND CLAIMS AGAINST THE GIT DEBTORS.

Administrative Expense Claims. The Administrative Expense Claims against the GIT Debtors consist of trade payables and accrued expenses incurred after the Petition Date in the normal course of operations. Trade payable obligations and certain accrued expenses arose from raw material purchases, manufacturing facility operating and maintenance costs, employee compensation and benefits, etc. The GIT Debtors will pay these obligations pursuant to their original terms, in the normal course of operations.

Administrative Expense Claims against the GIT Debtors also include unpaid professional fees incurred in the reorganization and bankruptcy process after the Petition Date. Allowed Administrative Expense Claims against the GIT Debtors for professional fees will be paid in full in Cash in an amount equal to the unpaid portion of the Allowed Amount of such claim (i) on the Effective Date or (ii) upon such other terms as may be agreed upon by the holder of such Allowed Administrative Expense Claim for professional fees. The estimated percentage recovery for these Claims is 100% of the Allowed Amount.

Priority Claims. The GIT Debtors believe that substantially all employee wage and benefit claims entitled to priority pursuant to Sections 507(a)(3) and (4) of the Bankruptcy Code have been paid pursuant to a first day order of the Bankruptcy Court. Priority Claims against the GIT Debtors consist primarily of unpaid taxes entitled to priority under Section 507(a) and (c) of the Bankruptcy Code. Such Claims, in the anticipated amount of $1.8 million, will be paid in full on the Effective Date or in deferred payments as permitted by the Bankruptcy Code.

General Unsecured Claims. The GIT Plan incorporates the substantive consolidation of GIT and the GIT-Affiliated Debtors' assets and liabilities with respect to the treatment of General Unsecured Claims. See Section VI.A. below. General Unsecured Claims against GIT and the GIT-Affiliated Debtors consist of all unsecured claims not included in any other described category or Class of Claims, including but not limited to (i) trade payables and accrued expenses incurred prior to the Petition Date; (ii) damages from the rejection of prepetition executory contracts and leases; (iii) damages from non-mass tort litigation; (iv) other prepetition obligations including customer warranties and deposits, outstanding checks and commissions, and (iv) unsecured claims under non-IRS qualified supplemental pension plans. The Allowed General Unsecured Claims against GIT and the GIT-Affiliated Debtors is estimated by GIT and the GIT-Affiliated Debtors to be in the amount of $35-57 million and will be treated as provided in Part C of this Section V.

C. SETTLEMENT REGARDING TREATMENT OF GENERAL UNSECURED CLAIMS AGAINST THE NARCO AND GIT DEBTORS.

NARCO and the NARCO-Affiliated Debtors and the Creditors Committees have agreed in the NARCO Plan: 1.) for the cash payment by NARCO and the NARCO-Affiliated Debtors on the Effective Date to each holder of a Class 3-A Claim of an amount equal to 90% of the Allowed Amount of such Class 3-A Claim against NARCO and/or the NARCO-Affiliated Debtors in consideration for 2.) the Creditors Committees' support of the NARCO Plan. GIT and the GIT-Affiliated Debtors and the Creditors Committees have agreed in the GIT Plan: 1.) for the cash payment by GIT and the GIT-Affiliated Debtors on the Effective Date to each holder of a Class 3-A Claim of an amount equal to 90% of the Allowed Amount of such Class 3-A Claim against GIT and/or the GIT-Affiliated Debtors in consideration for 2.) the Creditors Committees' support of the GIT Plan. In making such agreement NARCO and the NARCO-Affiliated Debtors have estimated that the total amount of Class 3-A Claims against the NARCO and the NARCO-Affiliated Debtors do not exceed $22 million and GIT and the GIT-Affiliated Debtors have estimated that the total amount of Class 3-A Claims against GIT and the GIT-Affiliated Debtors do not exceed $57 million. To the extent that the Allowed Amounts of Class 3-A Claims against NARCO and the NARCO-Affiliated Debtors and GIT and the GIT-Affiliated Debtors exceed such estimates, NARCO and the NARCO-Affiliated Debtors and GIT and the GIT-Affiliated Debtors will not be able to make cash payments equal to 90% of the Allowed Amounts of Class 3-A Claims under the NARCO Plan and/or the GIT Plan

and this could result in the NARCO Plan and the GIT Plan not being confirmed. Further, to the extent the Confirmation Order is not entered by May 30, 2006, this 90% treatment of Class 3-A Claims by NARCO and the NARCO-Affiliated Debtors and GIT and the GIT-Affiliated Debtors and the Creditors Committees' support of the NARCO Plan and the GIT Plan shall be deemed withdrawn. Further, this 90% treatment shall not be modified under Article 8 by NARCO and the NARCO-Affiliated Debtors and/or by GIT and the GIT-Affiliated Debtors prior to the entry of the Confirmation Order without the consent of the Creditors Committees which shall not be unreasonably withheld. In addition to other conditions set forth in Article 9 and other provisions of the NARCO Plan and the GIT Plan, including the consummation of the NARCO/Honeywell Settlement Agreement and the funding and forgiveness by Honeywell of, *inter alia*, the NARCO-DIP Facility, the 90% treatment of Class 3-A Claims by NARCO and the NARCO-Affiliated Debtors and by GIT and the GIT-Affiliated Debtors is further conditioned upon finalizing of a $75 million exit financing facility on or before the Confirmation Date.

VI. METHODS FOR TREATMENT UNDER BOTH PLANS

A. PARTIAL SUBSTANTIVE CONSOLIDATION

The NARCO Plan incorporates the substantive consolidation of the NARCO Debtors' assets and liabilities with respect to the treatment of General Unsecured Claims. Likewise, the GIT Plan incorporates the substantive consolidation of the GIT Debtors' assets and liabilities with respect to the treatment of General Unsecured Claims. Substantive consolidation means that the assets and liabilities of the NARCO Debtors under the NARCO Plan and the GIT Debtors under the GIT Plan will be pooled in the respective Plans and all of the holders of General Unsecured Claims against the NARCO Debtors or GIT Debtors, as the case may be, will share in the common pool created under the NARCO Plan or GIT Plan. If the respective Debtors' estates were not substantively consolidated, it would be necessary to have separate plans of reorganization for each NARCO Debtor and each GIT Debtor with respect to the treatment of General Unsecured Claims, with each holder of a General Unsecured Claim receiving a distribution from the Debtor with which the particular creditor did business. Substantive consolidation of the NARCO Debtors' estates is necessary with respect to the treatment of General Unsecured Claims because the NARCO Debtors have operated and continue to operate as a single business enterprise and have no reliable or reasonable means of separating their assets and liabilities by individual Debtor in order to formulate individual plans of reorganization to handle the treatment of General Unsecured Claims in their case. Similarly, the GIT Debtors have operated and continue to operate as a single business enterprise and have no reliable or reasonable means of separating their assets and liabilities by individual Debtor in order to formulate individual plans of reorganization to handle the treatment of General Unsecured Claims in their case. Moreover, a substantial majority of each Debtor's general unsecured creditors would similarly be unable to identify the particular Debtors with which they did business. Substantive consolidation is an equitable remedy that must be approved by the Bankruptcy Court. Accordingly, the Plans constitute each Debtor's motion for the substantive consolidation of their estates with respect to General Unsecured Claims.

The Debtors' Plans will not be substantively consolidated for any purpose other than the treatment of General Unsecured Claims in each Plan. For instance, the Debtors will not be substantively consolidated with respect to the treatment of Asbestos Claims or Silica Claims. Such claims are uniquely related to certain Debtors in time and place

and will be treated under the NARCO Asbestos Trust, APG Asbestos Trust, APG Silica Trust, DII Asbestos Trust or DII Silica Trust, as applicable, in accordance with the trust agreements and trust distribution procedures related to each trust. As such, the Debtors may be considered to be "partially substantively consolidated" under the Plans.

Substantive consolidation is an equitable remedy that courts will employ under certain circumstances to promote fairness to all creditors as a group. The substantive consolidation of two or more entities typically affects the rights of creditors as they relate to individual debtors and debtor groups. For instance, substantively consolidating a debtor having substantial assets with a debtor having little or no assets will substantially benefit creditors of the latter entity, but at the expense of the creditors of the former entity. Another potential impact on creditors from the substantive consolidation of affiliated entities is the likely elimination of any intercompany obligations or liabilities among the consolidated entities. Similarly, a creditor holding a guaranty claim against an entity that is substantively consolidated with the primary obligor on the guaranteed debt would likely lose the guaranty claim in favor of a single claim against the consolidated entity.

The Debtors believe that substantive consolidation of their assets and liabilities with respect to General Unsecured Claims is critical to the successful conclusion of these Bankruptcy Cases. The Debtors would have to spend considerable time and expense and employ innumerable speculative assumptions in order to attempt a complete separation of their business relationships and operations with each other and with individual creditors, unnecessarily consuming Debtors' employees' time and energies. Perhaps more importantly, substantive consolidation is also necessary to remain consistent with the expectations of Debtors' creditors, who largely dealt with Debtors as a single economic enterprise and not as a fractured affiliation of multiple separate companies. Substantive consolidation is necessary to treat fairly the creditors in a plan of reorganization by acknowledging the economic reality with which they did business.

Substantive consolidation of the Debtors' estates is critical to the Debtors' successful reorganization and effectiveness of the Plans. The NARCO Debtors have historically operated as a single economic enterprise and few creditors even dealt with the NARCO Debtors in any other way. Likewise, the GIT Debtors have historically operated as a single economic enterprise and few creditors even dealt with the GIT Debtors in any other way. The NARCO Debtors' and GIT Debtors' respective financial management, organizational structure, and corporate governance procedures described above fit easily within the multitude of criteria cited by courts for decades to justify substantive consolidation. No prejudice will result from substantively consolidating the NARCO Debtors' or GIT Debtors' estates, since few creditors relied on the individual assets of a particular Debtor in extending credit or doing regular business. Because the Debtors' creditors knowingly dealt with the unified business enterprise, creditors will receive exactly what they expect – payment from the consolidated NARCO Debtors or GIT Debtors under the applicable Plan. Even if prejudice were to result with regard to a particular creditor, the costs to all other creditors, the greater harm to the estates arising from the Debtors' inability to propose viable plans of reorganization, would clearly outweigh such prejudice.

As a result of the substantive consolidation of all NARCO Debtors under the NARCO Plan and GIT Debtors under the GIT Plan with respect to General Unsecured Claims, (a) each NARCO bankruptcy case will be deemed to be one consolidated case for purposes of the treatment of General Unsecured Claims in the NARCO Plan and each GIT bankruptcy case will be deemed to be one consolidated case for purposes of the treatment of General Unsecured Claims in

the GIT Plan; (b) all property of any of the NARCO Debtors will be deemed to be property of a consolidated entity consisting of all NARCO Debtors and all property of any of the GIT Debtors will be deemed to be property of a consolidated entity consisting of all GIT Debtors; (c) all General Unsecured Claims against any NARCO Debtor will be deemed to be a Claim against a consolidated entity consisting of all NARCO Debtors, and any proof of claim filed against one or more of the NARCO Debtors will be deemed to have been filed against the consolidated entity unless otherwise provided in the NARCO Plan and all General Unsecured Claims against any GIT Debtor will be deemed to be a Claim against a consolidated entity consisting of all GIT Debtors, and any proof of claim filed against one or more of the GIT Debtors will be deemed to have been filed against the consolidated entity unless otherwise provided in the GIT Plan; (d) all Equity Interests in any Debtor will be ignored, other than the equity interests in Reorganized GIT (which will be cancelled and issued to Reorganized ANH), the equity interests in Reorganized NARCO (which will be cancelled and issued to Reorganized ANH), the equity interests in Reorganized ANH (which will be cancelled and issued to the NARCO Asbestos Trust and APG Asbestos Trust) and all Equity Interests in any Debtor held by any RHI AG Entity (which will be cancelled under the Plans); (e) all intercompany Claims by and among Debtors will be ignored; (f) all guarantees, if any, by one Debtor in favor of any other Debtors will be eliminated; and (g) for purposes of determining the availability of the right of setoff under Section 553 of the Bankruptcy Code, the NARCO Debtors will be treated as one entity and the GIT Debtors will be treated as one entity so that, subject to the provisions of Section 553, debts due to any NARCO Debtor from any other NARCO Debtor may be set off against the debts of such NARCO Debtor due to any other NARCO Debtors and debts due to any GIT Debtor from any other GIT Debtor may be set off against the debts of such GIT Debtor due to any other GIT Debtor. Substantive consolidation will not merge or otherwise affect the separate legal existence of each Debtor for licensing, regulatory or other purposes, other than with respect to distribution rights under this Plan. Moreover, substantive consolidation will have no effect on valid, enforceable and unavoidable Liens, except for Liens that secure a Claim that is eliminated by virtue of substantive consolidation and Liens against collateral that ceases to exist by virtue of substantive consolidation. Furthermore, substantive consolidation will not create a Claim in a Class different from the Class in which a Claim would have been placed in the absence of substantive consolidation.

Accordingly, the Plan Proponents will ask that the Bankruptcy Court approve substantive consolidation as a condition to confirmation of each Plan.

B. RESTRUCTURING TRANSACTIONS

The Plans contemplate that all Equity Interests of any Debtor in any other Debtor will continue to exist and will not be modified on the Effective Date of the Plans, other than the equity interests in Reorganized GIT (which will be cancelled and issued to Reorganized ANH), the equity interests in Reorganized NARCO (which will be cancelled and issued to Reorganized ANH), the equity interests in Reorganized ANH (which will be cancelled and issued to the NARCO Asbestos Trust and APG Asbestos Trust) and all Equity Interests in any Debtor held by any RHI AG Entity (which will be cancelled under the Plans).

On or after the Effective Date and so long as Reorganized ANH owns 100% of the value of the resulting entity and following approval of the applicable boards of directors of the Reorganized Debtors, the applicable Reorganized Debtors may enter into such transactions and may take such actions as may be necessary or appropriate to effect a

corporate restructuring of their respective businesses, to otherwise simplify the overall corporate structure of the Reorganized Debtors, or to reincorporate certain Subsidiary Debtors under the laws of jurisdictions other than the laws of which the applicable Subsidiary Debtors are presently incorporated. Such restructuring may include one or more mergers, consolidations, restructures, dispositions, liquidations, or dissolutions, as may be determined by the Debtors or the Reorganized Debtors to be necessary or appropriate (collectively, the "Restructuring Transactions"). The actions to effect the Restructuring Transactions may include: (a) the execution and delivery of appropriate agreements or other documents of merger, consolidation, restructuring, disposition, liquidation, or dissolution containing terms that are consistent with the terms of this Plan and that satisfy the applicable requirements of applicable state law and such other terms to which the applicable entities may agree; (b) the execution and delivery of appropriate instruments of transfer, assignment, assumption, or delegation of any asset, property, right, liability, duty, or obligation on terms consistent with the terms of this Plan and having such other terms to which the applicable entities may agree; (c) the filing of appropriate certificates or articles of merger, consolidation, or dissolution pursuant to applicable state law; and (d) all other actions that the applicable entities determine to be necessary or appropriate, including making filings or recordings that may be required by applicable state law in connection with such transactions.

In order to begin to facilitate the Debtors' restructuring, the Plans provide that all Claims of any NARCO Debtor against any other NARCO Debtor and all Claims of any GIT Debtor against any other GIT Debtor will be cancelled on the Effective Date of the Plans.

C. VOTING PROCEDURES

TO BE COUNTED, YOUR BALLOT MUST BE RECEIVED AT THE FOLLOWING ADDRESS NO LATER THAN 5:00 P.M. ET, ON MARCH 31, 2006.

Logan & Company, Inc.
546 Valley Road
Upper Montclair, NJ 07043

BALLOTS RECEIVED AFTER THAT TIME WILL NOT BE COUNTED.

If you did not receive a Ballot, it may be because the Debtors believe that you are not entitled to vote on a Plan. Pursuant to an order of the Bankruptcy Court, in most cases, notice to holders of PI Trust Claims is being provided to counsel only.

The following are NOT entitled to vote on the NARCO Plan and, therefore, have not received Ballots with this Disclosure Statement:

- NARCO Administrative Expense Claims - ordinary course liabilities
- NARCO Administrative Expense Claims - professional fees
- NARCO Priority Claims of governmental units
- NARCO Class 1-A Allowed Secured Claims secured by a letter of credit, bond, other financial instrument or Cash

- NARCO Class 1-B Secured Claims under Capitalized Leases and Secured Financing Agreements other than those in NARCO Class 1-A and NARCO Class 2
- NARCO Class 3-B GIT and NARCO Entity Claims
- NARCO Class 4-B NARCO Silica Claims

The following are NOT entitled to vote on the GIT Plan and, therefore, have not received Ballots with this Disclosure Statement:

- GIT Administrative Expense Claims - ordinary course liabilities
- GIT Administrative Expense Claims - professional fees
- GIT Priority Claims of governmental units
- GIT Class 1-A Allowed Claims secured by a letter of credit, bond, other financial instrument or Cash
- GIT Class 1-B Allowed Secured Claims under Capitalized Leases and Secured Financing Agreements other than those in GIT Class 1-A
- GIT Class 3-B NARCO and GIT Entity Claims

In lieu of a ballot, holders of Claims in the above classes will receive a Notification of Non-Voting Status for each applicable Plan. If you are not listed above and you did not receive a Ballot, received a damaged Ballot, or lost your Ballot, please contact Logan & Company at www.loganandco.com or at 973-509-3190.

D. DEFINITION OF IMPAIRMENT

Under Section 1124 of the Bankruptcy Code, a class of claims or interests is impaired under a plan of reorganization unless, with respect to each claim or interest of such class, the plan:

1. leaves unaltered the legal, equitable, and contractual rights of the holder of such claim or interest; or

2. notwithstanding any contractual provision or applicable law that entitles the holder of a claim or interest to receive accelerated payment of such claim or interest after the occurrence of a default:

a. cures any such default that occurred before or after the commencement of the case under the Bankruptcy Code, other than a default of a kind specified in Section 365(b)(2) of the Bankruptcy Code;

b. reinstates the maturity of such claim or interest for damages incurred as a result of reasonable reliance on such contractual provision or applicable law;

c. compensates the holder of such claim or interest for damages incurred as a result of reasonable reliance on such contractual provision or applicable law; and

d. does not otherwise alter the legal, equitable, or contractual rights to which such claim or equity interest entitles the holder of such claims or interest.

E. VOTE REQUIRED FOR CLASS ACCEPTANCE

As a condition to confirmation, the Bankruptcy Code requires acceptance of a plan of reorganization by all impaired classes (except as discussed below). The Bankruptcy Code defines acceptance of a plan by a class of claims against a debtor as acceptance by holders of two-thirds in dollar amount and one-half in number of the claims against the debtor of that class that actually cast ballots for acceptance or rejection of the plan; i.e., acceptance takes place only if two-thirds in amount and a majority in number of the holders of claims in a given class of claims against the debtor actually voting cast their ballots in favor of acceptance. Notwithstanding the requirement of class acceptance, a plan may be confirmed even if one or more impaired classes do not accept the plan, if at least one impaired class of non-insider claims has accepted the plan and the court determines that the plan does not unfairly discriminate, and is fair and equitable, with respect to each class that is impaired and has not accepted the plan. This is sometimes referred to as "Cramdown". See Section VIII-C below.

Additionally, because the NARCO Asbestos Trust Claims and APG Asbestos Trust Claims will be addressed by a trust established in part pursuant to Section 524(g) of the Bankruptcy Code, acceptance of the NARCO Plan or GIT Plan by such a Class requires that 75% of those voting vote to accept the applicable Plan.

If a Plan is confirmed, all holders of Claims and Equity Interests, whether voting or non-voting, and if voting, whether accepting or rejecting such Plan, will be bound by the terms of the confirmed Plan.

On January 30, 2006 the Bankruptcy Court entered Orders approving for each of the Plans: (i) a confirmation hearing notice and the contents and manner of service of the solicitation package, (ii) the procedures for voting and tabulation of votes, (iii) the forms of Ballots, and (iv) the Voting Procedures Order. A copy of the Voting Procedures Order is enclosed in the package with this Disclosure Statement.

Temporary Allowance of Claims for Voting Purposes. Generally, only the holder of an Allowed Claim may vote to accept or reject a Plan. Holders of Claims that are listed on the Debtors' schedules of liabilities as contingent, unliquidated or disputed, or claims which are the subject of a pending objection are not eligible to vote. If you are the holder of a Claim in a Class that is entitled to vote to accept or reject the Plan and there is a pending objection to your Claim, and you wish to vote, you must file a motion with the Bankruptcy Court seeking temporary allowance of your Claim in an amount which the Court deems proper solely for the purpose of casting a vote to accept or reject the Plan ("Allowance Motion"). All Allowance Motions must be filed so as to be heard on or before the Confirmation Hearing.

Allowance of Individual Asbestos Trust Claims for Voting Purposes: NARCO and APG estimate that there are in excess of 485,000 individual Asbestos Trust Claims in these cases. For instance, NARCO estimates that it faces over 250,000 NARCO Asbestos Trust Claims, and APG estimates that it faces over 235,000 individual APG Asbestos Trust Claims. Most are unliquidated. In order to provide for participation of the claimants with NARCO and

APG Asbestos Trust Claims in the voting process, the Voting Procedures Order allows these Asbestos Trust Claims solely for voting purposes.

The Voting Procedures Order provides that each claimant with a NARCO Asbestos Trust Claim under the Plan shall receive one vote with respect to each such Claim, and that the ballot will require the claimant to designate one of seven specified disease categories, each of which will be assigned a dollar amount for purposes of voting only. The categories and amounts are as follows: Mesothelioma, $75,000; Lung Cancer 1, $18,000; Lung Cancer 2, $15,000 Other Cancer, $9,000; Severe Asbestosis, $18,000; Asbestosis/Pleural Disease, $7,500; Other Asbestos Disease, $1,200.

The Voting Procedures Order also provides that each claimant with an APG Asbestos Trust Claim under the Plan shall receive one vote with respect to each such Claim, and that the ballot will require the claimant to designate one of seven specified disease categories, each of which will be assigned a dollar amount for purposes of voting only. The categories and amounts are as follows: Mesothelioma, $130,000; Lung Cancer 1, $47,000; Lung Cancer 2, $15,000; Other Cancer, $22,000; Severe Asbestosis, $22,000; Asbestosis/Pleural Disease (Disease Level II), $8,300; Asbestosis/Pleural Disease (Disease Level I), $2,750.

The characterization of the disease applicable to an Asbestos Trust Claim for voting purposes shall not constitute either a determination of (a) the disease, if any, for which such Asbestos Trust Claim would qualify under the Claims Resolution Procedures or (b) the amount at which such Asbestos Trust Claim would be Allowed under the applicable trust distribution procedures. If an individual asbestos claimant fails to designate a disease category for a NARCO Asbestos Trust Claim, the Claim voted by such claimant will be deemed to be, for purposes of voting, one for Other Asbestos Disease. If an individual asbestos claimant fails to designate a disease category for an APG Asbestos Trust Claim, the Claim voted by such claimant will be deemed to be, for purposes of voting, one for Asbestosis/Pleural Disease (Disease Level I).

Allowance of Individual Silica Trust Claims for Voting Purposes. APG believes that there may be a significant number of individual APG Silica Trust Claims pending against it, based upon its knowledge and experience as well as currently available literature and statistics regarding the general state of silica bodily injury litigation. All of these claims are unliquidated at this time. In order to provide for participation of the claimants with APG Silica Trust Claims in the voting process, the Voting Procedures Order allows these APG Silica Trust Claims for voting purposes.

The Voting Procedures Order provides that each claimant with an APG Silica Trust Claim under the Plan shall receive one vote with respect to each such Claim, and that the ballot will require the claimant to designate one of five specified disease categories, each of which will be assigned a dollar amount for purposes of voting only. The categories and amounts are as follows: Complex Silicosis, $92,000; Lung Cancer, $45,000; Severe Silicosis, $10,550; Silicosis, $7,400; Simple Silicosis, $1,850; Convenience Class, $1,000.

The characterization of the disease applicable to an APG Silica Trust Claim for voting purposes shall not constitute either a determination of (a) the disease, if any, for which such APG Silica Trust Claim would qualify under the APG Silica TDP or (b) the amount at which such APG Silica Trust Claim would be Allowed under the APG Silica TDP.

If an individual silica claimant fails to designate a disease category, the APG Silica Trust Claim voted by such claimant will be deemed to be, for purposes of voting, a Simple Silicosis claim.

Master Ballots. Virtually all of the individual claimants with Asbestos Trust Claims are represented by counsel. If a law firm has been authorized to vote on behalf of a client, the Voting Procedures Order authorizes counsel to submit a master Ballot setting forth the acceptances and rejections of the various clients represented by that law firm. Where a client has not authorized the law firm to vote on his or her behalf, counsel must forward copies of such asbestos claimants solicitation package to the client, or provide the Debtors with the names and address of such clients and request that the Debtors forward solicitation packages directly to such clients. Counsel filing master Ballots may submit the master Ballots electronically using the Logan & Company web site, located at www.loganandco.com.

You may be contacted by representatives of the Debtors with regard to your vote on a Plan. If any Ballot received by the Debtors is not discernible as to the Class of the Claim or the name of the holder thereof, such Ballot will be disregarded and not counted. If you have any questions regarding the procedures for voting on the Plans, please contact your legal counsel for advice.

VII. CONFIRMATION AND EFFECTIVENESS OF THE PLANS

Under the Bankruptcy Code, the following steps must be taken to confirm the Plans:

A. CONFIRMATION HEARING

Section 1128(a) of the Bankruptcy Code requires the Bankruptcy Court, after notice, to hold a hearing to determine whether all requirements for confirmation of each Plan have been satisfied. Section 524(g)(3)(A) of the Bankruptcy Code provides that a plan containing an injunction issued under Section 524(g) must be confirmed or affirmed by the District Court. By order of the Bankruptcy Court dated January 30, 2006 a Confirmation Hearing has been scheduled for June 5, 2006 commencing at 9:00 a.m. Eastern Time at the United States Bankruptcy Court, Western District of Pennsylvania, 54th Floor USX Tower, 600 Grant Street, Pittsburgh, Pennsylvania 15219. The Confirmation Hearing may be adjourned from time to time by the Bankruptcy Court without further notice, except for an announcement made at the Confirmation Hearing or any adjournment thereof.

Section 1128(b) of the Bankruptcy Code provides that any party in interest may object to confirmation of a Plan. Any objection to confirmation must be made in writing and filed with the Bankruptcy Court, together with proof of service, and served upon the respective Debtors' counsel, counsel for the Creditors Committees, counsel for the Asbestos Creditors Committee, counsel for the Future Claimants Representatives, the United States Trustee, and those persons included on the Official Service List, on or before May 12, 2006 at 5:00 p.m., Eastern Time. The NARCO Official Service List and the GIT Official Service List are attached to this Disclosure Statement as Exhibits 14 and 15, respectively. Unless an objection to confirmation is timely served upon each of the above parties and filed with the Bankruptcy Court, the District Court and the Bankruptcy Court may not consider the objection.

Section 524(g)(3)(A) of the Bankruptcy Code provides that a plan containing an injunction issued under Section 524(g) must be confirmed or affirmed by the District Court. Following entry of an order confirming the plan by the Bankruptcy Court, the Plan Proponents will immediately seek to have that order affirmed by the District Court.

B. REQUIREMENTS FOR CONFIRMATION OF THE PLANS

At the Confirmation Hearing, the District Court and the Bankruptcy Court will determine whether the confirmation requirements of Section 1129 of the Bankruptcy Code have been satisfied with respect to each Plan, in which event they shall enter an order confirming each Plan. The applicable requirements for confirmation of each Plan are as follows:

- The Plans comply with the applicable provisions of the Bankruptcy Code.
- The Plan Proponents have complied with the applicable provisions of the Bankruptcy Code.
- The Plans have been proposed in good faith and not by any means forbidden by law.
- Any payment made or promised by a Debtor or by a person acquiring property under a Plan for services or for costs and expenses in or in connection with the Chapter 11 Cases, or in connection with the Plans, has been disclosed to the Bankruptcy Court, and any such payment made before the confirmation of such Plan is reasonable, or if such payment is to be fixed after confirmation of such Plan, such payment is subject to the approval of the Bankruptcy Court as reasonable.
- The Plan Proponents have disclosed the identity and affiliations of any individuals proposed to serve, after confirmation of the Plans, as a director, officer, or voting trustee of Reorganized ANH, an Affiliate of a Debtor participating in a Plan with Reorganized ANH, or a successor to Reorganized ANH under the Plans, and the appointment to, or continuance in, such office of such individual, is consistent with the interests of holders of Claims and Equity Interests, and with public policy, and each Debtor has disclosed the identity of any insider that will be employed or retained by Reorganized ANH, and the nature of any compensation for such insider.
- With respect to each Class of impaired Claims or Equity Interests, either each holder of a Claim or Equity Interest of such class has accepted the Plan, or will receive or retain under the Plan on account of such Claim or Equity Interest property of a value, as of the Effective Date of the Plan, that is not less than the amount that such holder would receive or retain if the applicable Debtor were liquidated on such date under Chapter 7 of the Bankruptcy Code. If Section 1111(b)(2) of the Bankruptcy Code applies to the Claims of such Class, each holder of a Claim will receive or retain under the applicable Plan on account of such Claim, property of a value, as of the Effective Date of such Plan, that is not less than the value of such holder's interest in the applicable Debtor's estate's interest in the property that secures such Claims.
- Each Class of Claims or Equity Interests in the Debtors have either accepted the Plan upon which they are entitled to vote or are not impaired under such Plan, except as set forth in the Plans.

- Except to the extent that the holder of a particular Claim has agreed to a different treatment of such Claim, the Plans provide that Allowed Administrative Expense Claims and Allowed Priority Claims will be paid in full on the Effective Date, or with respect to Allowed Priority Claims such Claims will be paid in full in deferred cash payments over a period not to exceed six years after the date of assessment of such Claims, of a value, as of the Effective Date, equal to the Allowed amount of such Priority Tax Claim.
- At least one Class of impaired Claims has accepted each Plan, determined without including any acceptance of such Plan by an insider holding a Claim of such Class.
- Confirmation of each Plan is not likely to be followed by the liquidation, or the need for further financial reorganization of a Debtor or any successor of such Debtor under a Plan, unless such liquidation or financial reorganization is proposed in such Plan.
- All fees payable pursuant to 28 U.S.C. § 1930 have been paid or will be paid on the Effective Date of the Plans.

The Plan Proponents believe that each Plan satisfies all of the statutory requirements of Chapter 11 of the Bankruptcy Code, that they have complied or will have complied with all of the requirements of Chapter 11, and that the proposed Plans are made in good faith.

C. CONFIRMATION WITHOUT ACCEPTANCE BY ALL IMPAIRED CLASSES

Pursuant to Section 1129(a), in order for a plan to be confirmed, it must be approved by all classes of impaired claims and equity interests. However, a bankruptcy court may confirm a plan that has not been accepted by all impaired classes, providing at least one impaired class accepts the plan, and the Bankruptcy Court finds that the plan "does not discriminate unfairly" and is "fair and equitable" with respect to each class that is impaired and has not accepted the plan. These so-called "cramdown" provisions are set forth in Section 1129(b) of the Bankruptcy Code. A plan of reorganization does not discriminate unfairly within the meaning of the Bankruptcy Code if each dissenting class is treated equally with other classes of equal rank.

With respect to an unsecured claim, "fair and equitable" means either (i) each impaired unsecured creditor receives or retains property of a value equal to the Allowed Amount of such unsecured claim or (ii) the holders of claims and interests that are junior to the claims of the dissenting class will not receive or retain on account of such junior claim or interest any property under the plan. With respect to equity interests, "fair and equitable" means each impaired equity interest receives or retains on account of such interest property of a value equal to the greater of the Allowed Amount of any fixed liquidation preference to which such holder is entitled, any fixed redemption price to which such holder is entitled, or the value of such interest.

Provided that at least one impaired Class under the NARCO Plan and GIT Plan, as applicable, accepts the Plan upon which it is entitled to vote, if votes to accept such Plan(s) are cast by 75% of holders of the respective NARCO Class 4 or GIT Class 4-A Claims who cast votes, the NARCO Plan Proponents and GIT Plan Proponents, as

applicable, reserve the right to request that the District Court and the Bankruptcy Court confirm such Plan(s) pursuant to the cramdown provisions of Section 1129(b) of the Bankruptcy Code.

D. CHANNELING INJUNCTIONS AS A CONDITION TO CONFIRMATION OF THE PLANS

1. Generally

In conjunction with the confirmation of each Plan, the Plan Proponents will seek an order in accordance with and pursuant to Sections 105 (for APG Silica Trust Claims or Demands) or 524(g) (for NARCO Asbestos Trust Claims and Demands and APG Asbestos Trust Claims or Demands) of the Bankruptcy Code pursuant to which all Entities which have held or asserted, which hold or assert, or which may in the future hold or assert any PI Trust Claim, Asbestos Demand or APG Silica Demand (or any claim or right to payment for any Trust Expense of the PI Trusts) against the Protected Parties in the NARCO and GIT Chapter 11 Cases, respectively, or any of them, whenever and wherever arising or asserted, shall be permanently stayed, restrained and enjoined from taking any action for the purpose of directly or indirectly collecting, recovering, or receiving payments, satisfaction, or recovery with respect to any such Claim, Demand, or Trust Expense, including, but not limited to:

- **commencing or continuing in any manner any action or other proceeding of any kind with respect to any such Claim, Demand, or Trust Expense, against any of the Protected Parties in the NARCO and GIT Chapter 11 Cases, respectively, or against the property of any Protected Party in the NARCO and GIT Chapter 11 Cases, respectively, with respect to any such Claim, Demand, or Trust Expense;**

- **enforcing, attaching, collecting or recovering, by any manner or means, any judgment, award, decree or order against any of the Protected Parties in the NARCO and GIT Chapter 11 Cases, respectively, or against the property of any Protected Party in the NARCO and GIT Chapter 11 Cases, respectively, with respect to any such Claim, Demand, or Trust Expense;**

- **creating, perfecting or enforcing any Lien of any kind against any Protected Party in the NARCO and GIT Chapter 11 Cases, respectively, or the property of any Protected Party in the NARCO and GIT Chapter 11 Cases, respectively, with respect to any such Claim, Demand, or Trust Expense;**

- **asserting or accomplishing any setoff, right of subrogation, indemnity, contribution or recoupment of any kind against any obligation due any Protected Party in the NARCO and GIT Chapter 11 Cases, respectively, or against the property of any Protected Party in the NARCO and GIT Chapter 11 Cases, respectively, with respect to any such Claim, Demand, or Trust Expense; and**

- **taking any action, in any manner, in any place whatsoever, that does not conform to, or comply with, the provisions of the Plan Documents, with respect to such Claim, Demand, or Trust Expense.**

In order to grant an injunction under Section 524(g), a bankruptcy court must find (1) that the injunction is being implemented in connection with a trust that assumes the liabilities of the debtor, (2) at the time of the entry of the order for relief the debtor had been named as a defendant in personal injury, wrongful death, or property damage actions seeking recovery for damage allegedly caused by the presence of or exposure to asbestos, or asbestos-containing products, (3) that the trust is to be funded in whole or in part by the securities of the debtor and by the obligation of the debtor to make future payments, including Dividends, and (4) that the trust owns, or by the rights granted under the plan would be entitled to own, if a specified contingency occurs, a majority of the voting shares of the debtor. The trust must also use its assets or income to pay asbestos-related claims and demands. Subject to certain restrictions, in entering such an injunctive order, the court must determine (a) that the debtor is likely to be subject to substantial demands for payment arising out of the same or similar asbestos-related conduct or events, (b) the actual amounts, numbers, and timing of such demands cannot be determined, and (c) pursuit of such demands outside of the procedures prescribed by the plan is likely to threaten the plan's purposes to deal equitably with claims and demands.

In order to grant the injunction with regard to Honeywell and the other NARCO Protected Parties, the Bankruptcy Court must find that the statutory conditions set forth in Section 524(g), including Section 524(g)(4)(A)(ii),[5] have been met. The Debtors believe that with respect to claims arising from exposure to the

---

5 A NARCO Protected Party will receive the protections of the NARCO Channeling Injunction only to the extent permitted by Section 524(g), including 524(g)(4)(A)(ii), which states as follows:

> (ii) Notwithstanding the provisions of section 524(e), such an injunction may bar any action directed against a third party who is identifiable from the terms of such injunction (by name or as part of an identifiable group) and is alleged to be directly or indirectly liable for the conduct of, claims against, or demands on the debtor to the extent such alleged liability of such third party arises by reason of –
>
> (I) the third party's ownership of a financial interest in the debtor, a past or present affiliate of the debtor, or a predecessor in interest of the debtor;
>
> (II) the third party's involvement in the management of the debtor or a predecessor in interest of the debtor, or service as an officer, director or employee of the debtor or a related party;
>
> (III) the third party's provision of insurance to the debtor or a related party; or
>
> (IV) the third party's involvement in a transaction changing the corporate structure, or in a loan or other financial transaction affecting the financial condition, of the debtor or a related party, including but not limited to –
>
> (aa) involvement in providing financing (debt or equity), or advice to an entity involved in such a transaction; or
>
> (bb) acquiring or selling a financial interest in an entity as part of such a transaction.
>
> (iii) As used in this subparagraph, the term "related party" means –

Continued on following page

NARCO Product Line, these statutory conditions are satisfied. The objectors disagree. See Section II.B. If the NARCO Channeling Injunction does not channel all NARCO Asbestos Trust Claims and NARCO Asbestos Trust Demands against Honeywell arising from exposure to NARCO Product Line products, Honeywell has the right to terminate its commitment to fund the NARCO Asbestos Trust.

In order to confirm a Plan in accordance with Section 524(g), the District Court and the Bankruptcy Court must determine (1) that a separate Class or Classes of Claims whose Claims are to be addressed by the NARCO Asbestos Trust and APG Asbestos Trust, respectively, have voted to accept a Plan by at least 75% of those voting, and (2) that the NARCO Asbestos Trust and APG Asbestos Trust, respectively, will operate through mechanisms such as structured, periodic or supplemental payments, *pro rata* distributions, matrices, or periodic review of estimates of the numbers and values of NARCO Asbestos Trust Claims and NARCO Asbestos Demands and APG Asbestos Trust Claims and APG Asbestos Trust Demands, or comparable mechanisms that provide reasonable assurance that the NARCO Asbestos Trust and APG Asbestos Trust will value and be in a financial position to pay NARCO Asbestos Trust Claims and NARCO Asbestos Demands in substantially the same manner, and to pay APG Asbestos Trust Claims and APG Asbestos Demands in substantially the same manner.

With respect to certain aspects of the GIT Channeling Injunction, as it applies to APG Silica Trust Claims and APG Silica Demands, the Debtors may rely on other sections of the Bankruptcy Code, including Section 105, and the Bankruptcy Court's and the District Court's inherent authority, which do not have express conditions similar to those set forth in Section 524(g).

2. Conditions Precedent to NARCO Plan Confirmation related to the NARCO Channeling Injunction

The Confirmation Order with respect to the NARCO Plan shall be entered or affirmed by the District Court, and shall be, in form and substance, reasonably acceptable to NARCO, the NARCO Asbestos Claimants Committee, the NARCO Asbestos Future Claimants Representative, and Honeywell. The NARCO Debtors have determined that, as a condition precedent to confirmation of the NARCO Plan, certain additional findings of fact or conclusions of law, principally related to the issuance of the NARCO Channeling Injunction, must be contained in the Confirmation Order to be signed or affirmed by the District Court. Such findings and conclusions are in Section 9.1 of the NARCO Plan.

Continued from previous page

(I) a past or present affiliate of the debtor;

(II) a predecessor in interest of the debtor; or

(III) any entity that owned a financial interest in –

(aa) the debtor;

(bb) a past or present affiliate of the debtor; or

(cc) a predecessor in interest of the debtor.

3. Conditions Precedent to GIT Plan Confirmation related to the GIT Channeling Injunction

The Confirmation Order with respect to the GIT Plan must be entered or affirmed by the District Court, and shall be, in form and substance, reasonably acceptable to the GIT Debtors, the GIT Asbestos Claimants Committee, the APG Asbestos Future Claimants Representative, and the APG Silica Future Claimants Representative. The Plan Proponents have determined that, as a condition precedent to confirmation of the GIT Plan, certain additional findings of fact or conclusions of law, principally related to the issuance of the APG Asbestos Channeling Injunction and the APG Silica Channeling Injunction, must be contained in the Confirmation Order to be signed or affirmed by the District Court. Such findings and conclusions are set forth in Section 9.1 of the GIT Plan.

E. CONDITIONS PRECEDENT TO THE EFFECTIVE DATE OF THE NARCO PLAN

1. Conditions Precedent to the Effective Date

With respect to the NARCO Plan, the "substantial consummation," as used in Section 1101 of the Bankruptcy Code, shall not occur, and the NARCO Plan shall be of no force and effect, until the Effective Date. The occurrence of the Effective Date is subject to satisfaction of the conditions precedent set forth in Section 9.2 of the NARCO Plan, which include conditions necessary to satisfy the requirements of the NARCO/Honeywell Settlement Agreement and the NARCO/RHI AG Settlement Agreement on the Effective Date.

2. Simultaneous Actions

Except as otherwise specified to occur in a specific order, all actions required to be taken on the Effective Date of the NARCO Plan, to the extent such actions have actually been taken, shall be deemed to have occurred simultaneously. In no event shall any action be deemed to have occurred unless the action in fact occurred.

3. Effect of Failure of Conditions

In the event that one or more of the conditions specified in Sections 9.1 or 9.2 of the NARCO Plan cannot be satisfied and the occurrence of such condition is not waived by the NARCO Debtors, then the NARCO Debtors shall file a notice of the failure of the Effective Date with the Bankruptcy Court and the District Court, at which time the NARCO Plan and the NARCO Confirmation Order, if the conditions precedent to the Confirmation of the NARCO Plan shall have been satisfied, shall be deemed null and void. If the Effective Date does not occur, then (a) the NARCO Confirmation Order, if the conditions precedent to Confirmation of the NARCO Plan shall have been satisfied, shall be vacated, (b) no Distributions under the NARCO Plan shall be made, (c) the NARCO Debtors and all holders of NARCO Claims and Equity Interests shall be restored to the *status quo ante*, including any injunction and automatic stays issued in these Chapter 11 Cases, as of the day immediately preceding the NARCO Confirmation Date, if the conditions precedent to Confirmation of the NARCO Plan shall have been satisfied, as though the NARCO Confirmation Order had never been entered and the NARCO Confirmation Date never occurred, and (d) the NARCO Debtors' obligations with respect to all of the Claims and Equity Interests shall remain unchanged, and nothing contained herein shall constitute or be deemed a waiver or release of any Claims or Equity Interests by or against the NARCO Debtors or any other Entity or to prejudice in any manner the rights of the NARCO Debtors or any Entity in any further proceedings involving the NARCO Debtors,

including, without limitation, the RHI AG Entities, Honeywell, the NARCO Asbestos Claimants Committee and the NARCO Asbestos Future Claimants Representative.

4. Waiver of Conditions Precedent to the Effective Date

The NARCO Debtors reserve the right to waive the occurrence of any of the conditions specified in Sections 9.1 or 9.2 of the NARCO Plan pursuant to Section 9.5 of the NARCO Plan or to modify any of such conditions precedent. Except as set forth in the NARCO Plan, any such waiver of a condition precedent may be effected at any time, without notice, without leave or order of the Bankruptcy Court, and without any formal action other than the filing of a stipulation and proceeding to consummate the NARCO Plan; provided, however, without the written consent of Honeywell, the NARCO Asbestos Claimants Committee or the NARCO Asbestos Future Claimants Representative, as applicable, which consent may not be unreasonably withheld (except with respect to Honeywell), the NARCO Debtors may not waive any of the conditions specified in Sections 9.1 or 9.2 of the NARCO Plan pursuant to Section 9.5 of the NARCO Plan if such waiver would materially adversely affect Honeywell, the NARCO Asbestos Claimants Committee's constituent parties or the NARCO Asbestos Future Claimants Representative's constituent parties, as applicable; provided, however, that nothing in the NARCO Plan shall permit the NARCO Debtors to waive any conditions set forth in Section 6 of the NARCO/RHI AG Settlement Agreement.

F. CONDITIONS PRECEDENT TO THE EFFECTIVE DATE OF THE GIT PLAN

1. Conditions Precedent to the Effective Date

With respect to the GIT Plan, the "substantial consummation" as used in Section 1101 of the Bankruptcy Code, shall not occur, and the GIT Plan shall be of no force and effect, until the Effective Date. The occurrence of the Effective Date is subject to satisfaction of the conditions precedent set forth in Section 9.2 of the GIT Plan, which include conditions necessary to satisfy the requirements of the GIT/DII Settlement Agreement and the GIT/RHI AG Settlement Agreement on the Effective Date.

2. Simultaneous Actions

Except as otherwise specified to occur in a specific order, all actions required to be taken on the Effective Date of the GIT Plan, to the extent such actions have actually been taken, shall be deemed to have occurred simultaneously. In no event shall any action be deemed to have occurred unless the action in fact occurred.

3. Effect of Failure of Conditions

In the event that one or more of the conditions specified in Sections 9.1 or 9.2 of the GIT Plan cannot be satisfied and the occurrence of such condition is not waived by the GIT Debtors, then the GIT Debtors shall file a notice of the failure of the Effective Date with the Bankruptcy Court and the District Court, at which time the GIT Plan and the Confirmation Order, if the conditions precedent to the Confirmation have been satisfied, shall be deemed null and void. If the Effective Date does not occur, then (a) the Confirmation Order, if the conditions precedent to Confirmation have been satisfied, shall be vacated, (b) no distributions under the GIT Plan shall be made, (c) the GIT Debtors and all holders of GIT Claims, and Equity Interests shall be restored to the *status quo ante*, including any injunctions and automatic stays

issued in these Chapter 11 Cases, as of the day immediately preceding the Confirmation Date, if the conditions precedent to Confirmation shall have been made, as though the Confirmation Order had never been entered and the Confirmation Date never occurred, and (d) the GIT Debtors' obligations with respect to all of the Claims and Equity Interests shall remain unchanged, and nothing contained herein shall constitute or be deemed a waiver or release of any Claims or Equity Interests by or against the GIT Debtors or any other Entity or to prejudice in any manner the rights of the GIT Debtors or any Entity in any further proceedings involving the GIT Debtors including, without limitation, the RHI AG Entities, the GIT Asbestos Claimants Committee, the APG Asbestos Future Claimants Representative and the APG Silica Future Claimants Representative.

4. Waiver of Conditions Precedent to the Effective Date

The GIT Debtors reserve the right to waive the occurrence of any of the conditions specified in Sections 9.1 or 9.2 of the GIT Plan pursuant to Section 9.5 of the GIT Plan or to modify any of such conditions precedent. Except as set forth in the GIT Plan, any such waiver of a condition precedent may be effected at any time, without notice, without leave or order of the Bankruptcy Court, and without any formal action other than the filing of a stipulation and proceeding to consummate the GIT Plan; provided, however, without the written consent of the GIT Asbestos Claimants Committee, APG Asbestos Future Claimants Representative or APG Silica Future Claimants Representative, as applicable, which consent may not be unreasonably withheld, the GIT Debtors may not waive any of the conditions specified in Sections 9.1 or 9.2 of the GIT Plan pursuant to Section 9.5 of the GIT Plan if such waiver would materially adversely affect such GIT Asbestos Claimants Committee's constituent parties or the APG Asbestos Future Claimants Representative's or APG Silica Future Claimants Representative's constituent parties; provided, however, that nothing in the GIT Plan shall permit the GIT Debtors to waive any conditions set forth in Section 6 of the GIT/RHI AG Settlement Agreement.

G. MODIFICATION, REVOCATION OR WITHDRAWAL OF PLANS

1. Modification of a Plan

The Debtors, unless otherwise provided in a Plan or the Plan Documents, may (i) amend, modify or supplement the NARCO Plan, the GIT Plan and the NARCO and GIT Plan Documents under Section 1127(a) of the Bankruptcy Code at any time prior to the Confirmation Date so long as the NARCO Plan, the GIT Plan and the NARCO and GIT Plan Documents, as modified, meet the requirements of Sections 1122 and 1123 of the Bankruptcy Code, (ii) after the Confirmation Date and prior to the Effective Date, alter, amend, or modify the NARCO Plan, the GIT Plan and the NARCO and GIT Plan Documents in accordance with Section 1127(b) of the Bankruptcy Code; and (iii) after the Effective Date, amend, modify or supplement the NARCO Plan, the GIT Plan and the NARCO and GIT Plan Documents in accordance with the terms of such Plan and related Plan Documents, provided, however, in any such case, without the written consent of the RHI AG Parties, the applicable Asbestos Claimants Committee(s) or the applicable Future Claimants Representative(s) (with respect to both the NARCO and GIT Plans) and Honeywell (with respect to the NARCO Plan only), which consent may not be unreasonably withheld (except with respect to Honeywell), there shall be no alteration, amendment, or modification of the NARCO Plan, the GIT Plan or the NARCO or GIT Plan Documents that

would materially adversely affect the RHI AG Entities, such Asbestos Claimants Committee(s) constituent parties, such Future Claimants Representative's constituent parties or Honeywell, as applicable.

2. Revocation or Withdrawal

The NARCO Debtors or GIT Debtors, as applicable, may revoke or withdraw the NARCO Plan or the GIT Plan prior to the Confirmation Date. The NARCO Debtors or GIT Debtors, as applicable, may revoke or withdraw the NARCO Plan or the GIT Plan at any time after the Confirmation Date, provided, however, that in the case of the GIT Plan, any such revocation or withdrawal shall not effect the terms and conditions of the GIT/DII Settlement Agreement, provided, further, that the NARCO Debtors or GIT Debtors, as applicable, may not revoke or withdraw their applicable Plan after the Confirmation Date without the written consent of the Asbestos Claimants Committee, the Future Claimants Representative(s) and, in the case of the NARCO Plan, Honeywell, which consent may not be unreasonably withheld (except with respect to Honeywell).

VIII. IMPLEMENTATION OF THE PLANS

A. THE PI TRUSTS AND THE CHANNELING INJUNCTIONS

1. The NARCO Asbestos Trust

a. Purpose and Structure

NARCO will seek to confirm the NARCO Plan pursuant to Section 524(g), which authorizes the Bankruptcy Court to enter a "channeling injunction" pursuant to which the NARCO Asbestos Trust Claims and NARCO Asbestos Demands and similar claims against NARCO Protected Parties are channeled to the NARCO Asbestos Trust for payment out of the NARCO Asbestos Trust. Following confirmation of the NARCO Plan, holders of NARCO Asbestos Trust Claims and NARCO Asbestos Demands (referred to collectively in this section as "NARCO Asbestos Trust Claims") will be permanently enjoined from seeking satisfaction of their Claims and Demands against the NARCO Debtors, Reorganized NARCO, the other Reorganized Debtors, Honeywell, any Participating Insurers, Reorganized ANH or any other NARCO Protected Party or their respective assets and their respective successors.

i. Creation of the NARCO Asbestos Trust

The NARCO Plan seeks to provide a method of payment of the NARCO Asbestos Trust Claims and NARCO Asbestos Demands. Most significantly, the NARCO Plan provides for the establishment and funding of the NARCO Asbestos Trust for this purpose. On the Effective date, the NARCO Asbestos Trust Agreement will become effective, and the NARCO Asbestos Trust will be created. The NARCO Plan Proponents estimate that the NARCO Plan will provide Cash and other assets sufficient to pay 100% of the value of NARCO Asbestos Trust Claims established pursuant to the NARCO Asbestos TDP for payment of all NARCO Asbestos Trust Claims. The NARCO Asbestos Trust will comply in all respects with the terms of section 524(g)(2)(B) of the Bankruptcy Code, the NARCO Plan, the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP. (Copies of the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP are attached as Exhibits NARCO A and NARCO B to the NARCO Plan, which is attached hereto as Exhibit 2.)

The NARCO Asbestos Trust will assume all liability and responsibility for all NARCO Asbestos Trust Claims and Trust Expenses of the NARCO Asbestos Trust. Except as otherwise provided in the NARCO Asbestos Trust Agreement, the NARCO Asbestos Trust will have all defenses, cross-claims, offsets and recoupments, as well as rights of indemnification, contribution, subrogation and similar rights, regarding NARCO Asbestos Trust Claims that NARCO, its affiliated debtors, Honeywell or any Honeywell Affiliate has under applicable law.

ii. Funding and Nature of the NARCO Asbestos Trust

The NARCO Asbestos Trust Agreement provides for the creation of two claims funds: first, a Pre-Established Claims Fund, which will provide payment for all NARCO Asbestos Trust Claims that are "Pre-Established Claims" (as defined in Section 4.2 of the NARCO Asbestos TDP), and second, the Annual Contribution Claims Fund, which will provide payment for all NARCO Asbestos Trust Claims and NARCO Asbestos Demands that are not Pre-Established Claims. The NARCO Plan provides that Honeywell will make contributions to these funds on an evergreen basis, subject (except in the case of NARCO Pre-Established Asbestos Claims) to certain annual funding caps described below. Additionally, on the Effective Date, 79% of the common stock of Reorganized ANH is being contributed to the NARCO Asbestos Trust, free and clear of any liens or other claims, to be held by the NARCO Asbestos Trust to pay NARCO Asbestos Claims liquidated pursuant to the NARCO Asbestos TDP. A Trust Expense Fund also will be established to pay all Trust Expenses of the NARCO Asbestos Trust, and will be funded with contributions by Honeywell as described in Section 2.3(b) of the NARCO Asbestos Trust Agreement.

There will be no caps or limitations on Honeywell's obligations to contribute on a quarterly basis to the Pre-Established Claims Fund all amounts necessary to pay for all Pre-Established Claims approved for payment during a given quarter. With respect to all other NARCO Asbestos Claims, on a quarterly basis Honeywell will transfer to the NARCO Asbestos Trust's Annual Contribution Claims Fund an amount of Cash equal to the amount of NARCO Asbestos Trust Claims approved for payment, minus any amounts received by the NARCO Asbestos Trust during that quarter from any of its holdings (including from its sale of any of its Reorganized ANH stock). However, in no event will the amount Honeywell contributes to the Annual Contribution Claims Fund to pay NARCO Asbestos Trust Claims other than Pre-Established Claims exceed the following caps or limitations for each year, beginning with the Effective Date:

2006	$100,000,000
2007	$125,000,000
2008	$150,000,000
2009	$150,000,000
2010	$150,000,000
2011	$150,000,000
2012	$150,000,000
2013	$150,000,000
2014	$140,000,000
2015	$140,000,000
2016	$140,000,000
2017	$140,000,000
2018	$140,000,000
2019	$145,000,000
2020	$145,000,000
2021	$145,000,000

In 2022 and thereafter, Honeywell's contribution to the Annual Contribution Claims Fund during the course of any single year will not exceed $145,000,000. In the event of the enactment of federal legislation that would require or permit Honeywell to contribute to a governmentally created or authorized fund for the compensation of asbestos personal injury claimants, including some or all holders of NARCO Asbestos Trust Claims and NARCO Asbestos Demands, then as of such enactment, Honeywell will have the right to terminate its obligations to make any future payments to the NARCO Asbestos Trust, subject to the provisions of Section 2.3(d) of the NARCO Asbestos Trust Agreement.

To the extent that Honeywell exercises its right to terminate, in their entirety, its obligations to make future payments to the NARCO Asbestos Trust due to the enactment of such federal legislation, Honeywell will provide written notice of its intent to exercise that right to the NARCO Asbestos Trustees. Upon the effective date of that notice of termination, the NARCO Channeling Injunction in favor of Honeywell will be vacated and will be of no further force and effect with respect to any claims other than NARCO Asbestos Trust Claims (a) that already have been paid by the NARCO Asbestos Trust, (b) that already have been approved for payment and moved into one of the NARCO Asbestos Trust's payment queues, or (c) that are eligible to be treated as though they had been placed into the Pre-Established Claims Fund Payment Queue.

The NARCO Asbestos Trust is intended to be treated for U.S. federal income tax purposes as a "qualified settlement fund" as described in section 1.468B-1 of the Treasury Regulations, as more specifically provided for under the NARCO Asbestos Trust Agreement. The NARCO Asbestos Trustees will be the "administrator" (as defined in section 1.468B-2(k) of the Treasury Regulations) of the NARCO Asbestos Trust, and will be required to satisfy all obligations in relation thereto as identified in the NARCO Asbestos Trust Agreement and the applicable provisions of the Internal Revenue Code and the Treasury Regulations.

iii. The NARCO Asbestos Trustees, the NARCO Asbestos TAC and the NARCO Asbestos Future Claimants Representative

The NARCO Asbestos Trustees (referred to in the NARCO Asbestos Trust Agreement and NARCO Asbestos TDP as the "Trustees") will be, and will act as, the fiduciaries to the NARCO Asbestos Trust, in accordance with the provisions of the NARCO Asbestos Trust Agreement, and will administer the NARCO Asbestos TDP in consultation with the NARCO Asbestos TAC, the NARCO Asbestos Future Claimants Representative, and Honeywell. Subject to the NARCO Asbestos Trust Agreement and the NARCO Plan, the NARCO Asbestos Trustees will have the power to take any and all actions that they may consider necessary, appropriate or desirable to fulfill the purpose of the NARCO Asbestos Trust, including receiving and holding the assets of the NARCO Asbestos Trust and exercising all rights and powers with respect thereto. The proposed initial NARCO Asbestos Trustees will be disclosed in advance of the Bankruptcy Court's confirmation hearings, and all NARCO Asbestos Trustees will serve according to the provisions set forth in the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP.

The members of the NARCO Asbestos TAC will serve in a fiduciary capacity, representing the holders of present NARCO Asbestos Trust Claims for the purpose of protecting the rights of such persons. The NARCO Asbestos Trustees may consult with the NARCO Asbestos TAC on the general implementation and administration of the NARCO Asbestos Trust and the NARCO Asbestos TDP. The NARCO Asbestos Trustees also will be required to obtain the consent of the

NARCO Asbestos TAC prior to taking certain actions as described more fully in the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP. The proposed initial members of the NARCO Asbestos TAC will be disclosed in advance of the Bankruptcy Court's confirmation hearings, and all members of the NARCO Asbestos TAC will serve according to the provisions set forth in the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP.

An individual will serve in a fiduciary capacity, representing the interests of the holders of NARCO Asbestos Trust Claims yet to accrue for the purpose of protecting the rights of such persons. The NARCO Asbestos Trustees will be required to consult with the NARCO Asbestos Future Claimants Representative on the matters described in the NARCO Asbestos Trust Agreement. Additionally, the NARCO Asbestos Trustees will be required to obtain the consent of the NARCO Asbestos Future Claimants Representative prior to taking certain actions, as described in the NARCO Asbestos Trust Agreement. The initial NARCO Asbestos Future Claimants Representative will be Lawrence Fitzpatrick. The NARCO Asbestos Future Claimants Representative will serve according to the provisions set forth in the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP.

iv. Termination of the NARCO Asbestos Trust

The NARCO Asbestos Trust is irrevocable, but generally will terminate on the date which is 90 days after the first to occur of the following events:

- The date on which the NARCO Asbestos Trustees determine to terminate the NARCO Asbestos Trust because (a) the NARCO Asbestos Trustees deem it unlikely that any new NARCO Asbestos Trust Claims will be filed against the NARCO Asbestos Trust, and (b) all NARCO Asbestos Trust Claims duly filed with the NARCO Asbestos Trust have been liquidated and satisfied and 12 consecutive months have elapsed during which no new valid NARCO Asbestos Trust Claims have been filed with the NARCO Asbestos Trust;
- If the NARCO Asbestos Trustees have procured and have in place irrevocable insurance policies and have established claims handling agreements and other necessary arrangements with suitable third parties adequate to discharge all expected remaining obligations and expenses of the NARCO Asbestos Trust in a manner consistent with the NARCO Asbestos Trust Agreement and the NARCO Asbestos TDP, the date on which the Bankruptcy Court enters and order approving such insurance and other arrangements, and such order becomes a Final Order; or
- If in the judgment of two-thirds of the NARCO Asbestos Trustees, with the consent of Honeywell and the NARCO Asbestos TAC (which consent in either case will not be unreasonably withheld), the continued administration of the NARCO Asbestos Trust is uneconomic or inimical to the best interests of the persons holding NARCO Asbestos Trust Claims, and the termination of the NARCO Asbestos Trust will not expose or subject Reorganized NARCO (or its reorganized affiliates), Honeywell or any Honeywell Affiliate or any of their successors in interest to any increased or undue risk of having any NARCO Asbestos Trust Claims asserted against it or them or in any way jeopardize the validity or enforceability of the NARCO Channeling Injunction.

b. The NARCO Asbestos TDP

i. NARCO Asbestos Trust and NARCO Asbestos TDP Goals

The NARCO Asbestos Trustees will implement and administer the NARCO Asbestos TDP, which is attached to the NARCO Plan as Exhibit NARCO B. The goal of the NARCO Asbestos Trust is to treat all claimants similarly and equitably, in accordance with the requirements of Section 524(g) of the Bankruptcy Code. The NARCO Asbestos TDP furthers that goal by setting forth procedures for processing and paying claims generally on an impartial, first-in, first-out ("FIFO") basis, with the intention of paying all claimants over time based on historical values for substantially similar claims in the tort system.

The NARCO Asbestos TDP establishes a schedule of seven asbestos-related diseases ("Disease Levels"), six of which have presumptive medical and exposure requirements ("Medical/Exposure Criteria") and specific values ("Schedule Values"). Claims involving Disease Levels III-VII have anticipated average values ("Average Values") and caps on their liquidated values ("Maximum Values"). The Disease Levels, Medical/Exposure Criteria, Scheduled Values, Average Values and Maximum Values which are set forth in Sections 4.3 of the NARCO Asbestos TDP, have been selected and derived with the intention of achieving a fair allocation of the NARCO Asbestos Trust funds among claimants suffering from different diseases that is congruent with the settlement history of claims against NARCO.

ii. Disease Levels Under the NARCO Asbestos TDP

The NARCO Asbestos TDP establishes seven initial Disease Levels, each of which has its own presumptive medical and exposure criteria. These Disease Levels are, in descending order of seriousness:

Level VII	Mesothelioma
Level VI	Lung Cancer 1
Level V	Lung Cancer 2
Level IV	Other Cancer
Level III	Severe Asbestosis
Level II	Asbestosis/Pleural Disease
Level I	Other Asbestos Disease

The presumptive Medical/Exposure Criteria for each Disease Level are set forth in the NARCO Asbestos TDP.

iii. Claims Liquidation Procedures

Upon filing of a valid proof of claim form with the required supporting documentation, all claims will be placed in one of two FIFO processing queues (the "FIFO Processing Queues") to be established pursuant to the NARCO Asbestos TDP: one such queue will be used for NARCO Asbestos Trust Claims that are Pre-Established Claims, while the other will be used for all other NARCO Asbestos Claims. For each claim submitted, the NARCO Asbestos Trust will determine whether the claim is or is not a Pre-Established Claim by reviewing the claims data required to be supplied by Honeywell and/or NARCO pursuant to Section 4.2 of the NARCO Asbestos TDP, as well as the information required to be supplied by the holder of the claim pursuant to Section 5.1 of the NARCO Asbestos TDP.

Thereafter, the claimant will be placed in the appropriate FIFO Processing Queue in accordance with the ordering criteria described in the NARCO Asbestos TDP. Except as otherwise provided in the NARCO Asbestos TDP, the

NARCO Asbestos Trust will liquidate all NARCO Asbestos Trust Claims (other than Pre-Established Claims) that meet the presumptive Medical/Exposure Criteria of Disease Levels I-IV, VI and VII under the Expedited Review Process described in Section 5.3(a) of the NARCO Asbestos TDP. Pre-Established Claims will be liquidated pursuant to Section 4.2(a) of the NARCO Asbestos TDP.

The NARCO Asbestos Trust's Expedited Review Process is designed primarily to provide an expeditious, efficient and inexpensive method for liquidating all NARCO Asbestos Trust Claims (except claims qualifying for treatment under Disease Level V, Foreign Claims, Extraordinary Claims, Exigent Claims and Secondary Exposure Claims). Claims that undergo the Expedited Review Process and meet the presumptive Medical/Exposure Criteria will be paid the following Scheduled Values for the relevant Disease Level, subject to the applicable Payment Percentage (if any), the Maximum Annual Payment, and the Claims Payment Ratio:

Disease Level	Disease Description	Scheduled Value
Level VII	Mesothelioma	$75,000
Level VI	Lung Cancer 1	$18,000
Level IV	Other Cancer	$9,000
Level III	Severe Asbestosis	$18,000
Level II	Asbestosis/Pleural Disease	$7,500
Level I	Other Asbestos Disease	$1,200

Claimants holding claims qualifying for treatment under Disease Level V, as well as Foreign Claims and Extraordinary Claims, are required to seek the Individual Review Process to obtain the value of their claims. The Individual Review Process also is required to determine whether an NARCO Asbestos Trust Claim is eligible to be treated as an Exigent Hardship Claim and/or a Secondary Exposure Claim. The Individual Review Process further provides a claimant with an opportunity for individual consideration and evaluation of (a) a NARCO Asbestos Trust Claim that fails to meet the presumptive Medical/Exposure Criteria for Disease Level I-IV, VI and VII claims, or (b) a NARCO Asbestos Trust Claim that meets the presumptive Medical/Criteria for Disease Levels II-IV and VI-VII where the claimant has extenuating circumstances that he or she believes warrant a value above the applicable scheduled value. Finally, claimants who seek to recover for a Secondary Exposure disease (as defined in Section 4.5 of the NARCO Asbestos TDP) must seek the Individual Review Process for their claims.

The Individual Review Process is intended to result in payments equal to the full value for each qualifying claim. However, the value of any NARCO Asbestos Trust Claim that undergoes the Individual Review Process may be determined to be less than the Scheduled Value the claimant would have received under the Expedited Review Process, to the extent applicable. Moreover, the value determined through the Individual Review Process for a claim involving

Disease Levels III-VII will not exceed the applicable Maximum Value for the relevant Disease Level (as shown below), and the NARCO Asbestos Trustees will use their best efforts such that the amounts offered through the Individual Review Process for each Disease Level will annually arithmetically average the following Average Values for each Disease Level.

Scheduled Disease	Scheduled Value	Average Value	Maximum Value
Mesothelioma (Level VI	$75,000	$200,000	$1,000,000
Lung Cancer 1 (Level V	$18,000	$50,000	$200,000
Lung Cancer 2 (Level V)	None	$15,000	$50,000
Other Cancer (Level IV)	$9,000	$25,000	$100,000
Severe Asbestosis (Level I	$18,000	$50,000	$100,000
Asbestosis/Pleural Diseas (Level II)	$7,500	None	None
Other Asbestos Disease (Le	$1,200	None	None

The procedures for the liquidation of claims through the Expedited Review Process and the Individual Review Process, including the evidentiary requirements to be used therein, are defined and described more fully in the NARCO Asbestos TDP.

The NARCO Asbestos Trust, with the consent of the NARCO Asbestos TAC, the NARCO Asbestos Future Claimants Representative and Honeywell, will institute binding and non-binding arbitration procedures in accordance with Section 4.10 of the NARCO Asbestos TDP, for resolving certain disputes regarding the liquidation of NARCO Asbestos Trust Claims, as well as certain additional disputes, as identified in Section 4.10(a) of the NARCO Asbestos TDP. Certain claimants who pursue non-binding arbitration and reject their arbitral award may have a right to pursue a recovery against the NARCO Asbestos Trust in the tort system, as more fully described in Sections 4.11, 6.6 and 6.7 of the NARCO Asbestos TDP. However, a claimant will be eligible for payment of a judgment for monetary damages obtained in the tort system from the NARCO Asbestos Trust's available cash only as provided in Section 6.7 of the NARCO Asbestos TDP.

iv. Payment of Claims by the NARCO Asbestos Trust

Upon final liquidation, all Pre-Established Claims will be placed in a Pre-Established Claims Fund Payment Queue, and all other NARCO Asbestos Trust Claims will be placed in a separate Annual Contribution Claims Fund Payment Queue; both such queues will be established pursuant to the terms of the NARCO Asbestos TDP. The claims in each such queue will then be paid solely from either the Pre-Established Claims Fund or the Annual Contribution Claims Fund, as provided in Section 2.3(c)(i) of the NARCO Asbestos Trust Agreement.

In each year, the NARCO Asbestos Trust will determine and pay out a total of no more than an amount equal to or less than the sum of (i) the proceeds from any sale of any asset held by the NARCO Asbestos Trust, and (ii) the contribution owed by Honeywell to the NARCO Asbestos Trust for this purpose in that year as established by the NARCO Plan and Section 2.3(c)(i) of the NARCO Asbestos Trust Agreement (i.e. the "Maximum Annual Payment). However, Pre-Established Claims will not be subject to the Maximum Annual Payment.

Based upon the NARCO Entities' claims settlement history and analysis of present and future claims, a Claims Payment Ratio has been determined which, as of the Effective Date, has been set at 60% for Disease Level III-VII claims ("Category A" claims), and 40% for Disease Level I-II claims ("Category B" claims). The Claims Payment Ratio will not apply to any Pre-Established Claims. In each year, based upon the Maximum Annual Payment, 60% of that amount will be available to pay Category A claims and 40% will be available to pay Category B claims. Provisions governing the application, determination and modification of the Claims Payment Ratio are listed in Section 2.4 of the NARCO Asbestos TDP.

The NARCO Asbestos Trust will periodically estimate or model the amount of cash flow anticipated to be necessary over its entire life to ensure that funds will be available to satisfy all NARCO Asbestos Trust Claims in a substantially similar manner. The NARCO Asbestos Trustees, with the consent of the NARCO Asbestos TAC, the NARCO Asbestos Future Claimants Representative and Honeywell, may develop and institute a process for reducing the payment of the value of NARCO Asbestos Trust Claims, whereby a claimant will receive a pro-rata share of the value of its NARCO Asbestos Trust Claim (the "Payment Percentage") after such claim is liquidated pursuant to the terms of the NARCO Asbestos TDP. To the extent the NARCO Asbestos Trust implements a Payment Percentage, no holder of a NARCO Asbestos Trust Claim will receive a payment for a NARCO Asbestos Trust Claim that exceeds the Payment Percentage multiplied by the value of the claim, except that in no event will the Payment Percentage apply to any Pre-Established Claims. Provisions governing the development and implementation of the Payment Percentage are listed in Section 2.5 of the NARCO Asbestos TDP.

2. Transfer of H-W Asbestos Trust Claims to DII Asbestos Trust

The H-W Asbestos Trust Claims were channeled to the DII Asbestos Trust on the effective date of the DII Plan in accordance with the GIT/DII Settlement Agreement and the DII Plan. H-W Asbestos Trust Claims will be paid in accordance with the terms of the DII Asbestos TDP. For more information regarding the treatment of H-W Asbestos Trust Claims under the DII Plan, please refer to the confirmation order for the DII Plan.

3. Transfer of H-W Silica Trust Claims to DII Silica Trust

The H-W Silica Trust Claims were channeled to the DII Silica Trust on the effective date of the DII Plan in accordance with the GIT/DII Settlement Agreement and the DII Plan. H-W Silica Trust Claims will be paid in accordance with the terms of the DII Silica TDP. For more information regarding the treatment of H-W Silica Trust Claims under the DII Plan, please refer to the confirmation order for the DII Plan.

4. The APG Asbestos Trust

a. Purpose and Structure

GIT will seek to confirm the GIT Plan pursuant to Section 105, Section 524(g), and/or other sections of the Bankruptcy Code, which authorize the Bankruptcy Court to enter a "channeling injunction" pursuant to which the APG Asbestos Trust Claims and APG Asbestos Demands and similar claims against GIT Protected Parties are channeled to the APG Asbestos Trust for payment out of the APG Asbestos Trust. Following confirmation of the GIT Plan, holders of APG Asbestos Trust Claims and APG Asbestos Demands (referred to collectively in this section and the following section as "APG Asbestos Trust Claims") will be permanently enjoined from seeking satisfaction of their Claims and Demands against the GIT Debtors, Reorganized GIT, the other Reorganized Debtors, the Participating Insurers, Reorganized ANH or any other GIT Protected Party or their respective assets, and their respective successors.

i. Creation of the APG Asbestos Trust

The GIT Plan seeks to provide a method of payment of the APG Asbestos Trust Claims. Most significantly, the GIT Plan provides for the establishment and funding of the APG Asbestos Trust for this purpose. On the Effective date, the APG Asbestos Trust Agreement will become effective, and the APG Asbestos Trust will be created. The GIT Plan Proponents estimate that the GIT Plan will provide Cash and other assets sufficient to pay a percentage (such percentage to be established pursuant to the APG Asbestos TDP) of the amount established pursuant to the APG Asbestos TDP for payment of all APG Asbestos Trust Claims. The APG Asbestos Trust shall operate comply in all respects with the terms of section 524(g)(2)(b) of the Bankruptcy Code, the GIT Plan, the APG Asbestos Trust Agreement and the APG Asbestos TDP. (Copies of the APG Asbestos Trust Agreement and the APG Asbestos TDP are attached as Exhibits GIT A and GIT B to the GIT Plan, which is attached hereto as Exhibit 3.)

The APG Asbestos Trust will assume all liability and responsibility for all APG Asbestos Trust Claims and Administrative Expenses of the APG Asbestos Trust. Except as otherwise provided in the APG Asbestos Trust Agreement, the APG Asbestos Trust shall have all defenses, cross-claims, offsets and recoupments, as well as rights of indemnification, contribution, subrogation and similar rights, regarding APG Asbestos Trust Claims that the APG Entities or any Reorganized Debtor has under applicable law.

ii. Funding and Nature of the APG Asbestos Trust

The APG Asbestos Trust will be funded primarily by cash contributions deriving from APG's settlement of comprehensive general liability insurance policies issued to APG Services from the 1960's to 1986 that provided coverage for, inter alia, asbestos-related liabilities. These policies were issued to APG Services while APG Services was a wholly-owned Subsidiary of APG; several of these policies, including policies issued by Continental Insurance Company ("Continental"), Great American Insurance Company ("Great American"), Federal Insurance Company ("Federal") and Royal Insurance Company of America("Royal"), also provide coverage to APG as an additional insured (Royal disputes that APG had additional insured status). To date, APG has reached settlement agreements on the policies issued by Continental, Great American, Federal and Royal. APG has also reached a settlement with Fireman's Fund, which remains subject to approval by the Bankruptcy Court. APG has also reached settlements with KWELM Management Services

Limited ("KWELM") and certain domestic insolvent insurers. The aggregate nominal value of these settlements is approximately $365.6 million; of this amount, approximately $31.5 million will be used to fund the APG Silica Trust.

Continental, Great American, Federal and Royal all have agreed to make contributions to the APG Asbestos Trust according to varying schedules. Under the settlement agreements reached with each insurer, Continental will make ten annual installment payments to the APG Asbestos Trust; Great American will make an initial contribution in the form of either stock or cash, and will then elect to make either twenty annual installment payments to the APG Asbestos Trust over a twenty year period or a lump-sum payment to the APG Asbestos Trust for the full amount of the present-value of the installment payments, no later than the Effective Date; and Federal will make two annual installment payments to the APG Asbestos Trust. Royal will make its entire contribution at the time of the Confirmation Date of the GIT Plan. Under each agreement, the payment periods begin to run from approximately the Confirmation Date of the GIT Plan and the entire amounts of all of these settlements will ultimately be paid to the APG Asbestos Trust. The settlements with Continental, Great American and Royal also contemplate funding for the APG Silica Trust. Under the settlement with Fireman's Fund, three annual installment payments will be made, with such payments being completed as of December 2008.

To the extent that proceeds are received, APG and APG Services also will contribute to the APG Asbestos Trust monies to which APG or APG Services, as the case may be, are entitled as a result of settlements of the APG Insolvent Policies. Prior to their bankruptcy filings, APG and APG Services assigned all of their claims against these policies to National Indemnity Company (a Berkshire-Hathaway Corp. company) in exchange for (in part) a share of any future collections received by National Indemnity Company from these insolvent carriers. Approximately $8.1 million already has been received pursuant to the terms of the National Indemnity Company agreement from payments made as a result of such claims, and that sum is included in the $365.5 million identified above. The rights to any additional payments under said agreement will be assigned to the APG Asbestos Trust and APG Silica Trust at a ratio of 94% and 6%.

Additionally, on the Effective Date, 21% of the common stock of Reorganized ANH is being contributed to the APG Asbestos Trust for the benefit of the APG Asbestos Trust, free and clear of any liens or other claims. The APG Asbestos Trust has the right to exchange its shares in Reorganized ANH for 100% of the equity interest of Reorganized APG. Any money held in separate accounts pursuant to a court order in respect of an insurance settlement will be transferred by APG to the APG Asbestos Trust.

The GIT Debtors make no representation or warranty as to the value or collectability of or the amount of proceeds that will be realized over time by the APG Asbestos Trust from any of the settlement agreements reached with the various insurers or representatives thereof, or from the rights to insurance policies or insurance proceeds to be assigned to the APG Asbestos Trust.

The APG Asbestos Trust is intended to be treated for U.S. federal income tax purposes as a "qualified settlement fund" as described in section 1.468B-1 of the Treasury Regulations, as more specifically provided for under the APG Asbestos Trust Agreement. The APG Asbestos Trustees will be the "administrator" (as defined in section 1.468B-2(k) of the Treasury Regulations) of the APG Asbestos Trust, and will be required to satisfy all obligations in relation thereto as

identified in the APG Asbestos Trust Agreement and the applicable provisions of the Internal Revenue Code and the Treasury Regulations.

iii. The APG Asbestos Trustees, the APG Asbestos TAC and the APG Asbestos Future Claimants Representative

The APG Asbestos Trustees will be, and will act as, the fiduciaries to the APG Asbestos Trust, in accordance with the provisions of the APG Asbestos Trust Agreement. Subject to the APG Asbestos Trust Agreement and the GIT Plan, the APG Asbestos Trustees will have the power to take any and all actions that they may consider necessary, appropriate or desirable to fulfill the purpose of the APG Asbestos Trust, including receiving and holding the assets of the APG Asbestos Trust and exercising all rights and powers with respect thereto. The initial APG Asbestos Trustees are identified in the APG Asbestos Trust Agreement, and all APG Asbestos Trustees will serve according to the provisions set forth in the APG Asbestos Trust Agreement and the APG Asbestos TDP.

The members of the APG Asbestos TAC will serve in a fiduciary capacity, representing the holders of present APG Asbestos Trust Claims for the purpose of protecting the rights of such persons. The APG Asbestos Trustees will be required to consult with the APG Asbestos TAC on the general implementation and administration of the APG Asbestos Trust and the APG Asbestos TDP. The APG Asbestos Trustees also will be required to obtain the consent of the APG Asbestos TAC prior to taking certain actions as described more fully in the APG Asbestos Trust Agreement and the APG Asbestos TDP. The initial members of the APG Asbestos TAC are identified in the APG Asbestos Trust Agreement, and all members of the APG Asbestos TAC will serve according to the provisions set forth in the APG Asbestos Trust Agreement and the APG Asbestos TDP.

An individual will serve in a fiduciary capacity, representing the interests of the holders of future APG Asbestos Trust Claims for the purpose of protecting the rights of such persons. The APG Asbestos Trustees will be required to consult with the APG Asbestos Future Claimants Representative on the general implementation and administration of the APG Asbestos Trust and the APG Asbestos TDP. Additionally, the APG Asbestos Trustees will be required to obtain the consent of the APG Asbestos Future Claimants Representative prior to taking certain actions, as described in the APG Asbestos Trust Agreement. The initial APG Asbestos Future Claimants Representative will be Lawrence Fitzpatrick. The APG Asbestos Future Claimants Representative will serve according to the provisions set forth in the APG Asbestos Trust Agreement and the APG Asbestos TDP.

iv. Termination of the APG Asbestos Trust

The APG Asbestos Trust is irrevocable, but generally will terminate on the date which is 90 days after the first to occur of:

- The date on which the APG Asbestos Trustees determine to terminate the APG Asbestos Trust because (a) the APG Asbestos Trustees deem it unlikely that any new APG Asbestos Trust Claims will be filed against the APG Asbestos Trust, (b) all APG Asbestos Trust Claims duly filed with the APG Asbestos Trust have been liquidated and paid to the extent provided in the APG Asbestos Trust Agreement and the APG Asbestos TDP or disallowed by a final, non-appealable order, and (c) 12 consecutive months

have elapsed during which no new APG Asbestos Trust Claims have been filed with the APG Asbestos Trust; or

- If the APG Asbestos Trustees have procured and have in place irrevocable insurance policies and have established claims handling agreements and other necessary arrangements with suitable third parties adequate to discharge all expected remaining obligations and expenses of the APG Asbestos Trust in a manner consistent with the APG Asbestos Trust Agreement and the APG Asbestos TDP, the date on which the Bankruptcy Court enters and order approving such insurance and other arrangements, and such order becomes a Final Order.

b. The APG Asbestos TDP

i. APG Asbestos Trust and APG Asbestos TDP Goals

The APG Asbestos Trustees will implement and administer the APG Asbestos TDP, which is attached to the GIT Plan as Exhibit GIT B. The goal of the APG Asbestos Trust is to treat all claimants similarly and equitably, in accordance with the requirements of Section 524(g) of the Bankruptcy Code. The APG Asbestos TDP furthers that goal by setting forth procedures for processing and paying the APG Entities' several shares of the unpaid portion of the value of APG Asbestos Trust Claims generally on an impartial, first-in, first-out ("FIFO") basis, with the intention of paying all claimants over time as equivalent a share as possible of the value of their claims, based on historical values for substantially similar claims in the tort system.

The APG Asbestos TDP establishes a schedule of seven asbestos-related diseases ("Disease Levels"), six of which have presumptive medical and exposure requirements ("Medical/Exposure Criteria") and specific values ("Schedule Values"). The Disease Levels, Medical/Exposure Criteria, and Scheduled Values, which are set forth in Sections 5.3 and 5.4 of the APG Asbestos TDP, have been selected and derived with the intention of achieving a fair allocation of the APG Asbestos Trust funds among claimants suffering from different disease processes in light of the best available information, considering the settlement history of the APG Entities and the rights claimants would have had in the tort system absent the bankruptcy.

ii. Disease Levels Under the APG Asbestos TDP

The APG Asbestos TDP establishes seven initial Disease Levels, each of which has its own presumptive medical and exposure criteria. These Disease Levels are, in descending order of seriousness:

Level VII	Mesothelioma
Level VI	Lung Cancer 1
Level V	Lung Cancer 2
Level IV	Other Cancer
Level III	Severe Asbestosis
Level II	Asbestosis/Pleural Disease
Level I	Asbestosis/Pleural Disease

The presumptive Medical/Exposure Criteria for each Disease Level are set forth in the APG Asbestos TDP.

iii. Claims Liquidation Procedures

APG Asbestos Trust Claims will be processed based on their place in a FIFO processing queue (the "FIFO Processing Queue") to be established pursuant to the APG Asbestos TDP. Upon filing of a valid proof of claim form with the required supporting documentation, the claimant will be placed in the FIFO Processing Queue in accordance with the ordering criteria described in the APG Asbestos TDP. Except as otherwise provided in the APG Asbestos TDP, the APG Asbestos Trust shall liquidate all APG Asbestos Trust Claims that meet the presumptive Medical/Exposure Criteria of Disease Levels I-IV, VI and VII under the Expedited Review Process described in Section 5.3(a) of the APG Asbestos TDP.

The APG Asbestos Trust's Expedited Review Process is designed primarily to provide an expeditious, efficient and inexpensive method for liquidating all APG Asbestos Trust Claims (except claims qualifying for treatment under Disease Level V, Foreign Claims, Extraordinary Claims, Exigent Hardship Claims and Secondary Exposure Claims). Claims that undergo the Expedited Review Process and meet the presumptive Medical/Exposure Criteria shall be paid the following Scheduled Values for the relevant Disease Level, subject to the applicable Payment Percentage, the Maximum Annual Payment, and the Claims Payment Ratio:

Disease Level	Disease Description	Scheduled Value
Level VII	Mesothelioma	$130,000
Level VI	Lung Cancer 1	$47,000
Level VI	Other Cancer	$22,000
Level III	Severe Asbestosis	$22,000
Level II	Asbestosis/Pleural Disease	$8,300
Level I	Asbestosis/Pleural Disease	$2,750

Claimants holding claims qualifying for treatment under Disease Level V, as well as Foreign Claims and Extraordinary Claims, are required to seek the Individual Review Process to obtain the value of their claims. The Individual Review Process also is required to determine whether an APG Asbestos Trust Claim is eligible to be treated as an Exigent Hardship Claim and/or a Secondary Exposure Claim. The Individual Review Process further provides a claimant with an opportunity for individual consideration and evaluation of an APG Asbestos Trust Claim that fails to meet the presumptive Medical/Exposure Criteria for Disease Level I-IV, VI and VII claims. Finally, claimants who seek to recover for a Secondary Exposure disease (as defined in Section 5.5 of the APG Asbestos TDP) may seek the Individual Review Process for their claims.

The Individual Review Process is intended to result in payments equal to the full value for each claim processed thereby, multiplied by the Payment Percentage. However, the value of any APG Asbestos Trust Claim that undergoes the Individual Review Process may be determined to be less than the Scheduled Value the claimant would have received

under the Expedited Review Process, to the extent applicable. The procedures for the liquidation of claims through the Expedited Review Process and the Individual Review Process, including the evidentiary requirements to be used therein, are defined and described more fully in the APG Asbestos TDP.

The APG Asbestos Trust, with the consent of the APG Asbestos TAC and the APG Asbestos Future Claimants Representative, shall institute binding and non-binding arbitration procedures in accordance with Section 5.10 of the APG Asbestos TDP, for resolving certain disputes regarding the liquidation of APG Asbestos Trust Claims, as well as certain additional disputes, as identified in Section 5.10(a) of the APG Asbestos TDP. Certain claimants who pursue non-binding arbitration and reject their arbitral award may have a right to pursue a recovery against the APG Asbestos Trust in the tort system, as more fully described in Sections 5.11, 7.6 and 7.7 of the APG Asbestos TDP. However, a claimant shall be eligible for payment of a judgment for monetary damages obtained in the tort system from the APG Asbestos Trust's available cash only as provided in Section 7.7 of the APG Asbestos TDP.

The value of Pre-Petition Liquidated APG Asbestos Trust Claims (as defined below) shall not be determined through the Expedited Review Process or the Individual Review Process, but rather through the provisions described in Section 5.2(a) of the APG Asbestos TDP.

iv. Payment of Claims by the APG Asbestos Trust

After the value of any APG Asbestos Trust Claim is determined pursuant to the terms of the APG Asbestos TDP, the claimant will ultimately receive a pro rata share of that value based on the Payment Percentage. The Payment Percentage will also apply to all Pre-Petition Liquidated APG Asbestos Trust Claims (as described more fully below). The initial Payment Percentage to be used by the APG Asbestos Trust will be set and adjusted according to the provisions of the APG Asbestos TDP. Because there is uncertainty in the prediction of both the number and severity of future APG Asbestos Trust Claims and the amount of the APG Asbestos Trust Assets, no guarantee can be made of any Payment Percentage of an APG Asbestos Trust Claim's value.

In each year the APG Asbestos Trust will be empowered to pay out all of the interest it earns during each year, together with a portion of its principal, calculated so that the application of APG Asbestos Trust funds over its life will correspond with the needs created by the anticipated flow of claims (i.e. the Maximum Annual Payment). In the event there are insufficient funds in any year to pay the total number of outstanding Pre-Petition Liquidated APG Asbestos Trust Claims and/or APG Asbestos Trust Claims liquidated under the terms of the APG Asbestos TDP, the available funds allocated to such claims shall be paid to the maximum extent to claimants in the group based on their place in their FIFO Payment Queue, with unpaid claims being carried over to the next year and placed at the head of their FIFO Payment Queue.

Based upon the APG Entities' claims settlement history and analysis of present and future claims, a Claims Payment Ratio has been determined which, as of the Effective Date, has been set at 60% for Disease Level III-VII claims ("Category A" claims), and 40% for Disease Level I-II claims ("Category B" claims). The Claims Payment Ratio shall not apply to any Pre-Petition Liquidated APG Asbestos Trust Claims. In each year, after determination of the Maximum Annual Payment, 60% of that amount shall be available to pay Category A claims and 40% shall be available to pay

Category B claims. Provisions governing the application, determination and modification of the Claims Payment Ratio are listed in Section 2.5 of the APG Asbestos TDP.

As soon as practicable after the Effective Date, the APG Asbestos Trust shall pay, upon submission of the relevant materials (described in Section 5.2 of the APG Asbestos TDP), all APG Asbestos Trust Claims that were liquidated by (a) a binding settlement agreement for the particular claim entered into prior to the Petition Date that is judicially enforceable by the claimant, (b) a jury verdict or non-final judgment in the tort system obtained prior to the Petition Date, or (c) by a judgment that became final and non-appealable prior to the Petition Date (collectively "Pre-Petition Liquidated APG Asbestos Trust Claims"). Provisions governing the processing and payment of such claims are listed in Section 5.2 of the APG Asbestos TDP.

5. The APG Silica Trust

a. Purpose and Structure

GIT will seek, pursuant to Section 105 of the Bankruptcy Code, to confirm the GIT Plan that includes a "channeling injunction" pursuant to which the APG Silica Trust Claims and Demands and similar claims against GIT Protected Parties are channeled to the APG Silica Trust for payment out of the APG Silica Trust. Following confirmation of the GIT Plan, holders of APG Silica Trust Claims and Demands (referred to collectively in this section and the following section as "APG Silica Trust Claims") will be permanently enjoined from seeking satisfaction of their Claims and Demands against the GIT Debtors, Reorganized GIT, the other Reorganized Debtors, any Participating Insurers, Reorganized ANH or any other GIT Protected Party or their respective assets, and their respective successors.

i. Creation of the APG Silica Trust

The GIT Plan seeks to provide a method of payment of the APG Silica Trust Claims. Most significantly, the GIT Plan provides for the establishment and funding of the APG Silica Trust for this purpose. On the Effective date, the APG Silica Trust Agreement will become effective, and the APG Silica Trust will be created. The GIT Plan Proponents estimate that the GIT Plan will provide Cash and other assets sufficient to pay a percentage (such percentage to be established pursuant to the APG Silica TDP) of the amount established pursuant to the APG Silica TDP for payment of all APG Silica Trust Claims. The APG Silica Trust shall operate comply in all respects with the terms the GIT Plan, the APG Silica Trust Agreement and the APG Silica TDP. (Copies of the APG Silica Trust Agreement and the APG Silica TDP are attached as Exhibits GIT C and GIT D to the GIT Plan, which is attached hereto as Exhibit 3.)

The APG Silica Trust will assume all liability and responsibility for all APG Silica Trust Claims and Trust Expenses of the APG Silica Trust. Except as otherwise provided in the APG Silica Trust Agreement, the APG Silica Trust shall have all defenses regarding APG Silica Trust Claims that the APG Entities or any Reorganized Debtor has under applicable law. The APG Silica Trust also shall indemnify the APG Entities pursuant to the APG Silica Trust Indemnification Agreement, attached as Annex 1 to the APG Silica Trust Agreement.

ii. Funding and Nature of the APG Silica Trust

The APG Silica Trust will be funded by approximately $31.5 million in payments over time (approximately $2.1 million of which is subject to court approval of the Fireman's Fund settlement) and by the assignment of APG's rights to receive proceeds from certain insurance policies. Certain of these policies are subject to self-insured retentions, deductibles, and/or retrospective premiums, the aggregate of which, on a single occurrence basis, is not expected to exceed $7 million. To the extent that payment of such self-insured retentions, deductibles, and/or retrospective premiums becomes necessary to access the policies' coverage for Silica Personal Injury Claims, the APG Silica Trust shall have no obligation to pay any amount in excess of an aggregate of $7.0 million in such costs in the event that all Silica Personal Injury Claims for which coverage is sought under any such policy are treated as a single occurrence for purposes of insurance coverage. In the event that Silica Personal Injury Claims for which coverage is sought under a particular APG Silica Trust Policy are treated as multiple occurrences, the APG Silica Trust shall have no obligation to pursue insurance coverage under that APG Silica Trust Policy. However, should the APG Silica Trust determine that it is in the best interest of the APG Silica Trust to pursue insurance coverage under such circumstances, the Reorganized Debtors shall have no obligation to pay any amount for deductibles, self-insured retentions, or retrospective premiums required under such APG Silica Trust Policy. The assignment of APG's rights to receive proceeds from certain insurance policies includes all APG Silica Trust Policy Rights for policies issued to APG and certain APG Subsidiaries from 1949 through 1998, and to GIT from 1997 through June 30, 2000.

Because the GIT policies from 1997 through June 30, 2000 provide coverage for claims other than silica-related personal injury claims and to insureds other than APG, with respect to these policies, the assignment of rights to proceeds to the APG Silica Trust will be on a first-come, first-served basis. To the extent that any of the insurers that issued APG's coverage, GIT's 1997-2000 coverage, Lanxide ThermoComposites, Inc.'s 1996 and 1997 coverage and/or Intogreen Co.'s 1996, 1997 and 1998 coverage agree to settle their respective policies and thereby participate in the GIT Plan, the full amount of the proceeds from those settlements will be contributed to the APG Silica Trust.

The GIT Debtors make no representation or warranty as to the value or collectability of or the amount of proceeds that will be realized over time by the APG Silica Trust from any settlement agreements reached with the various insurers or representatives thereof, or from the rights to insurance policies or insurance proceeds to be assigned to the APG Silica Trust.

The APG Silica Trust is intended to be treated for U.S. federal income tax purposes as a "qualified settlement fund" as described in section 1.468B-1 of the Treasury Regulations, as more specifically provided for under the APG Silica Trust Agreement. The APG Silica Trustee will be the "administrator" (as defined in section 1.468B-2(k) of the Treasury Regulations) of the APG Silica Trust, and will be required to satisfy all obligations in relation thereto as identified in the APG Silica Trust Agreement and the applicable provisions of the Internal Revenue Code and the Treasury Regulations.

iii. The APG Silica Trustee, the APG Silica TAC and the APG Silica Future Claimants Representative

The APG Silica Trustee will be, and will act as, the fiduciary to the APG Silica Trust, in accordance with the provisions of the APG Silica Trust Agreement. Subject to the APG Silica Trust Agreement and the GIT Plan, the APG

Silica Trustee will have the power to take any and all actions that he or she may consider necessary, appropriate or desirable to fulfill the purpose of the APG Silica Trust, including receiving and holding the assets of the APG Silica Trust and exercising all rights and powers with respect thereto. The initial APG Silica Trustee is identified in the APG Silica Trust Agreement, and all APG Silica Trustees will serve according to the provisions set forth in the APG Silica Trust Agreement and the APG Silica TDP.

The APG Silica TAC will serve in a fiduciary capacity, representing the holders of present APG Silica Trust Claims for the purpose of protecting the rights of such persons. The APG Silica Trustee will be required to consult with the APG Silica TAC on certain matters identified in the APG Silica Trust Agreement, and the APG Silica Trustee also will be required to obtain the consent of the APG Silica TAC prior to taking certain actions as described more fully in the APG Silica Trust Agreement and the APG Silica TDP. The initial member of the APG Silica TAC is identified in the APG Silica Trust Agreement, and all members of the APG Silica TAC will serve according to the provisions set forth in the APG Silica Trust Agreement and the APG Silica TDP.

An individual will serve in a fiduciary capacity, representing the interests of the future APG Asbestos Trust claimants, for the purpose of protecting the rights of persons that might subsequently assert future and unknown Demands. The APG Silica Trustee will be required to consult with the APG Silica Future Claimants Representative on certain matters identified in the APG Silica Trust Agreement. Additionally, the APG Silica Trustees will be required to obtain the consent of the APG Silica Future Claimants Representative prior to taking certain actions, as described in the APG Silica Trust Agreement and the APG Asbestos TDP. The initial APG Silica Future Claimants Representative will be Philip Pahigian. The APG Silica Future Claimants Representative will serve according to the provisions set forth in the APG Silica Trust Agreement and the APG Silica TDP. The APG Silica Trust shall be required, as its own cost and expense, to continue or maintain insurance indemnifying and holding harmless the APG Silica Future Claimants Representative from claims of injury alleged to be caused by his acts or omissions in the performance of his duties as APG Silica Future Claimants Representative from the date of his appointment.

iv. Termination of the APG Silica Trust

The APG Silica Trust is irrevocable, but generally will terminate on the date which is 90 days after the first to occur of:

- The date on which the APG Silica Trustee determines to terminate the APG Silica Trust because (a) the APG Silica Trustee deems it unlikely that any new APG Silica Trust Claims will be filed against the APG Silica Trust, (b) all APG Silica Trust Claims duly filed with the APG Silica Trust have been liquidated and paid to the extent provided in the APG Silica Trust Agreement and the APG Silica TDP or disallowed by a final, non-appealable order, to the extent possible based upon the funds available through the GIT Plan, and (c) 12 consecutive months have elapsed during which no new APG Silica Trust Claims have been filed with the APG Silica Trust; or
- If the APG Silica Trustee has procured and has in place sufficient assets and has established claims handling agreements and other necessary arrangements with suitable third parties adequate to discharge

all expected remaining obligations and expenses of the APG Silica Trust in a manner consistent with the APG Silica Trust Agreement and the APG Silica TDP, the date on which the Bankruptcy Court enters a Final Order approving the sufficiency of such assets and other arrangements.

b. The APG Silica TDP

i. APG Silica TDP Goals

The APG Silica Trustees will implement and administer the APG Silica TDP, which is attached to the GIT Plan as Exhibit GIT D. The goal of the APG Silica Trust is to treat all claimants similarly and equitably. The APG Silica TDP furthers that goal by setting forth procedures for processing and paying the APG Entities' several shares of the unpaid portion of the value of APG Silica Trust Claims generally on an impartial, first-in, first-out ("FIFO") basis, with the intention of paying all claimants over time as equivalent a share as possible of the value of their claims.

The APG Silica TDP establishes a schedule of five silica-related diseases ("Disease Levels"), each of which have presumptive medical and exposure requirements ("Medical/Exposure Criteria") and specific values ("Schedule Values"). The Disease Levels, Medical/Exposure Criteria, and Scheduled Values, which are set forth in Sections 5.3(a)(3) of the APG Silica TDP, have been selected and derived with the intention of achieving a fair allocation of the APG Silica Trust funds among claimants suffering from different disease processes.

Claimants asserting claims for mixed-dust pneumoconiosis cannot recover from the APG Silica Trust, but must submit their claims to the APG Asbestos Trust. The APG Silica Trust will not make payments to any claimant who previously has submitted claims to the APG Asbestos Trust; provided, however, that such claimant may seek Individual Review of such claim if the claimant believes that recovery from both trusts is appropriate. In that event, the APG Silica Trustee may determine on a case-by-case basis the appropriateness of permitting such claimant to submit an APG Silica Trust Claim, provided that the claimant meets the relevant Medical/Exposure Criteria under the APG Silica TDP.

ii. Disease Levels Under the APG Silica TDP

The APG Silica TDP establishes five initial Disease Levels, each of which has its own presumptive medical and exposure criteria. These Disease Levels are, in descending order of seriousness:

Level V	Complex Silicosis
Level IV	Lung Cancer
Level III	Severe Silicosis
Level II	Silicosis
Level I	Simple Silicosis

The APG Silica TDP provides for creation of a "Convenience Class" of individuals who presently have APG Silica Trust Claims against the APG Debtors providing such individuals the option of asserting a claim against the APG Silica Trust in the amount of $1,000 in exchange for a full release of the APG Debtors and the APG Silica Trust. In order for such individuals to elect this option, they must do so on the Ballot (whether or not they vote in favor of the GIT Plan). Thereafter, once the APG Silica Trust is established, such individuals will have to file a Proof of Claim form and satisfy the medical criteria for Level I, II, III, IV or V of the Disease Levels of the APG Silica TDP. Payment to Convenience

Class participants will not be made unless and until the applicable Payment Percentage for non-Convenience Class claims is equal to or greater than 50%.

The presumptive Medical/Exposure Criteria for each Disease Level identified above are set forth in the APG Silica TDP.

iii. Claims Liquidation Procedures

APG Silica Trust Claims will be processed based on their place in a FIFO processing queue (the "FIFO Processing Queue") to be established pursuant to the APG Silica TDP. Upon filing of a valid proof of claim form with the required supporting documentation, the claimant will be placed in the FIFO Processing Queue in accordance with the ordering criteria described in the APG Silica TDP. Except as otherwise provided in the APG Silica TDP, the APG Silica Trust shall liquidate all APG Silica Trust Claims (other than Convenience Class APG Silica Trust Claims) that meet the presumptive Medical/Exposure Criteria of Disease Levels I-V under the Expedited Review Process described in Section 5.3(a) of the APG Silica TDP.

The APG Silica Trust's Expedited Review Process is designed primarily to provide an expeditious, efficient and inexpensive method for liquidating all APG Silica Trust Claims. Claims that undergo the Expedited Review Process and meet the presumptive Medical/Exposure Criteria shall be paid the following Scheduled Values for the relevant Disease Level, subject to the applicable Payment Percentage and the Maximum Annual Payment:

Disease Level	Disease Description	Scheduled Value
Level V	Complex Silicosis	$92,000
Level IV	Lung Cancer	$45,000
Level III	Severe Silicosis	$10,550
Level II	Silicosis	$7,400
Level I	Simple Silicosis	$1,850

Claimants holding Disease Level I claims may seek Individual Review of their claims (i) if the claimant fails to meet the presumptive Medical/Exposure Criteria for that claim, or (ii) the claimant has previously submitted a claim with (and received payment for said claim from) the APG Asbestos Trust. Claimants holding claims in Disease Levels II-V may seek Individual Review of the value of their claims, as well as of their medical/exposure evidence. The Individual Review Process is also required to determine whether an APG Silica Trust Claim is eligible to be treated as an Extraordinary Claim Exigent Hardship Claim. Secondary Exposure Claims are reviewable only under Individual Review.

The Individual Review Process is intended to result in payments equal to the full value for each claim processed thereby, multiplied by the Payment Percentage. However, the value of any APG Silica Trust Claim that undergoes the Individual Review Process may be determined to be less than the Scheduled Value the claimant would have received

under the Expedited Review Process, to the extent applicable. The procedures for the liquidation of claims through the Expedited Review Process and the Individual Review Process, including the evidentiary requirements to be used therein, are defined and described more fully in the APG Silica TDP.

The APG Silica Trust, with the consent of the APG Silica TAC and the APG Silica Future Claimants Representative, shall institute binding and non-binding arbitration procedures in accordance with Section 5.10 of the APG Silica TDP, for resolving certain disputes regarding the liquidation of APG Silica Trust Claims, as well as certain additional disputes, as identified in Section 5.10(a) of the APG Silica TDP. Certain claimants who pursue non-binding arbitration and reject their arbitral award may have a right to pursue a recovery against the APG Silica Trust in the tort system, as more fully described in Sections 5.11, 7.6 and 7.7 of the APG Silica TDP. However, a claimant shall be eligible for payment of a judgment for monetary damages obtained in the tort system from the APG Silica Trust's available cash only as provided in Section 7.7 of the APG Silica TDP.

iv. Payment of Claims by the APG Silica Trust

After the value of any APG Silica Trust Claim is determined pursuant to the terms of the APG Silica TDP, the claimant will ultimately receive a pro rata share of that value based on the Payment Percentage. Because there is uncertainty in the prediction of both the number and severity of future APG Silica Trust Claims and the amount of the assets available to the APG Silica Trust to pay APG Silica Trust Claims, no guarantee can be made of any Payment Percentage that will be applied to any APG Silica Trust Claim.

There will be no distributions from the APG Silica Trust on account of liquidated APG Silica Trust Claims until after (a) the APG Silica Trust is established, and (b) sufficient information is available concerning the anticipated assets and liabilities of the APG Silica Trust over its lifetime such that the APG Silica Trustee can determine, based on the findings of experts, that the APG Silica Trust has sufficient assets to make a ten percent (10%) distribution. The Payment Percentage then will be set by the APG Silica Trustee, with the consent of the APG Silica TAC and APG Silica Future Claimants Representative, pursuant to the terms of the APG Silica TDP, and thereafter can be changed in accordance with the terms of the APG Silica TDP.

In each year the APG Silica Trust will be empowered to pay out all of the interest it earns during each year, together with a portion of its principal, calculated so that the application of APG Silica Trust funds over its life will correspond with the needs created by the anticipated flow of claims (i.e. the Maximum Annual Payment). In the event there are insufficient funds in any year to pay the total number of outstanding APG Silica Trust Claims liquidated under the terms of the APG Silica TDP, the available funds allocated to such claims shall be paid to the maximum extent to claimants in the group based on their place in their FIFO Payment Queue, with unpaid claims being carried over to the next year and placed at the head of their FIFO Payment Queue.

The APG Silica Trustee will make payments to holders of valid, liquidated APG Silica Trust Claims in accordance with the APG Silica TDP promptly as funds become available and as claims are liquidated, while maintaining sufficient resources to pay future valid claims in substantially the same manner. Because the APG Silica Trust's income and value over time remains uncertain, and because decisions about payments must be based on estimates that cannot be

done precisely, payments may have to be revised in light of experiences over time, and there can be no guarantee of any specific level of payment to claimants. In the event that the APG Silica Trust faces temporary periods of limited liquidity, the APG Silica Trustee may, with the consent of the APG Silica TAC and the APG Silica Future Claimants Representative, suspend the normal order of payment and may temporarily limit or suspend payments altogether.

6. Transfer of the PI Trust Claims and Defenses

On the Effective Date, the NARCO Debtors and the GIT Debtors will transfer and assign, or cause to be transferred and assigned, to the applicable PI Trusts, the applicable Claims and any defenses or other rights related thereto. In consideration of the property transferred to the PI Trusts and in furtherance of the purposes of the PI Trusts and the Plans, the PI Trusts will assume all liability and responsibility for all PI Trust Claims and Reorganized ANH, the Reorganized Debtors, and the NARCO and GIT Protected Parties will have no further financial or other responsibility or liability therefor.

Pursuant to the terms of the GIT/DII Settlement Agreement and the DII Plan, all H-W Asbestos Trust Claims and all H-W Silica Trust Claims were transferred and assigned to the DII Asbestos Trust and DII Silica Trust, respectively, on the effective date of the DII Plan, which occurred on January 20, 2005. As such, Reorganized ANH, the Reorganized GIT Debtors and the other parties identified in the DII Plan have no further financial or other responsibility for all such claims.

7. Trustees and Trust Advisory Committees of the PI Trusts

a. Trustees

The Trustees of the NARCO Asbestos Trust will be determined no later than thirty days prior to the Confirmation Date of the NARCO Plan].

The Trustees of the APG Asbestos Trust will be determined no later than thirty days prior to the Confirmation Date of the GIT Plan.

The Trustee of the APG Silica Trust will be determined no later than thirty days prior to the Confirmation Date of the GIT Plan.

b. Trust Advisory Committees

Each PI Trust will have a Trust Advisory Committee. The members of each Trust Advisory Committee will serve in a fiduciary capacity representing all holders of NARCO Asbestos Trust Claims, APG Asbestos Trust Claims or APG Silica Trust Claims, as applicable. The Trustee(s) of each PI Trust will be required to consult with its Trust Advisory Committee with respect to certain actions, and shall be required to obtain the consent of the Trust Advisory Committee with respect to certain matters, as provided in the applicable Trust Agreements that relate to each PI Trust.

The members of the Trust Advisory Committee of the NARCO Asbestos Trust will be determined no later than thirty days prior to the Confirmation Date of the NARCO Plan.

The members of the Trust Advisory Committee of the APG Asbestos Trust will be determined no later than thirty days prior to the Confirmation Date of the GIT Plan

The initial member of the Trust Advisory Committee of the APG Silica Trust is Bryan O. Blevins, Esq.

8. Transfer of Books and Records of the respective Debtors to the PI Trusts

On the Effective Date or as soon thereafter as is practical, Reorganized ANH, NARCO, and APG, and their respective Affiliates, as the case may be, will transfer and assign, or cause to be transferred and assigned to the applicable PI Trusts the books and records of Reorganized ANH, NARCO and APG, and their respective Affiliates, as the case may be, that (i) pertain directly to the defense of NARCO Asbestos Trust Claims, APG Asbestos Trust Claims and APG Silica Trust Claims (as applicable) or (ii) the assets transferred to the NARCO Asbestos Trust, the APG Asbestos Trust or the APG Silica Trust (as applicable).

With respect to all books and records of the GIT Debtors (as defined in the DII Plan) relating to the H-W Asbestos Trust Claims, the H-W Silica Trust Claims and the insurance assets assigned to DII in the GIT/DII Settlement Agreement, the GIT Debtors have satisfied (or have been deemed to have satisfied) all of the requirements set forth in Section 2.5(b) of the GIT/DII Settlement Agreement as of the effective date of the DII Plan (January 20, 2005). The GIT Debtors have further agreed to provide DII with additional information pursuant to Section 2.5(b) of the GIT/DII Settlement Agreement as may be requested from time to time by DII.

Reorganized ANH, NARCO and APG, and their respective Affiliates, as the case may be, will request that the Bankruptcy Court, in the Confirmation Orders, rule that the transfers described above do not result in the destruction or waiver of any applicable privileges pertaining to such books and records. If the Bankruptcy Court does not so rule, at the option of Reorganized ANH, NARCO and APG, and their respective Affiliates, as the case may be, Reorganized ANH, NARCO and APG, and their respective Affiliates, as the case may be, will retain the books and records and enter into arrangements to permit the Trustees to have access to such books and records in a manner to preserve applicable privileges and work product and other doctrines. The APG Silica Trust Agreement or other separate agreement will provide for the sharing of information related to silica claims between the APG Silica Trust and Reorganized GIT.

B. ASSUMPTION OF EXECUTORY CONTRACTS AND UNEXPIRED LEASES REGARDING OPERATIONS

Except for executory contracts and unexpired leases for which the Debtors have rejected or filed a motion to reject prior to the confirmation, all executory contracts and unexpired leases for goods, services or premises used in connection with NARCO Debtors' or GIT Debtors' respective business operations shall be deemed to have been assumed by the Reorganized NARCO Debtors or Reorganized GIT Debtors, as applicable, on the Effective Date, and the applicable Plan shall constitute a motion to assume such executory contracts and unexpired leases. Subject to the occurrence of the Effective Date, entry of the Clerk of the Bankruptcy Court shall constitute approval of such assumptions pursuant to Section 365(a) of the Bankruptcy Code and a finding by the Bankruptcy Court that each such assumption is in the best interests of the Debtors, their estates, and all parties in interest in the Chapter 11 Cases. With respect to each such

executory contract or unexpired lease assumed by the Reorganized Debtors, unless otherwise determined by the Bankruptcy Court pursuant to a Final Order or agreed to by the parties thereto prior to the Effective Date, the dollar amount required to cure any defaults of the Debtors existing as of the Confirmation Date shall be conclusively presumed to be zero. Subject to the occurrence of the Effective Date, any cure amount agreed to by the Debtors or determined by the Bankruptcy Court shall be treated as an Allowed Administrative Expense Claim. All non-monetary defaults of the Debtors existing as of the Confirmation Date with respect to such executory contract or unexpired lease shall be deemed cured.

C. CORPORATE MATTERS

Reorganized ANH. On the Effective Date of the Plans, the Debtors (other than ANH) will be reorganized into one of two affiliate groups: Reorganized NARCO or Reorganized GIT. Reorganized ANH will own these affiliate groups and Reorganized GIT will own Reorganized H-W and Reorganized APG. A copy of the financial projections for Reorganized ANH are attached hereto as Exhibit 12. Such projected financial statements provide an illustration of the financial effects of the consummation of the Plans. A copy of historical Combined ANH Summary Financial Statements is also attached hereto as Exhibit 11. Please also refer to Section IX of this Disclosure Statement for a discussion of certain financial risks associated with the Plans.

Management Agreement. Following the Effective Date, Reorganized ANH will provide management services to the Reorganized NARCO and Reorganized GIT affiliate groups. Such management services will include the performance of certain cash management and centralized treasury functions by Reorganized ANH.

Articles of Incorporation and Bylaws. Upon the Effective Date, Reorganized ANH will file an Amended and Restated Certificate of Incorporation and will approve Amended and Restated Bylaws. See Exhibits 8 and 9 attached to this Disclosure Statement. In addition, following the Effective Date, Reorganized ANH may amend the articles/certificates of incorporation and/or bylaws of other Debtors who emerge from the Chapter 11 proceedings.

Board of Directors and Officers of Reorganized ANH. Upon the Effective Date, Reorganized ANH will have five board members. The Board of Directors will consist of the following persons:

(i) Appointed by the NARCO Asbestos Trust: 3.

(ii) Appointed by the APG Asbestos Trust: 1.

(iii) Appointed by the board of Reorganized ANH (director will be a management employee): 1.

Shareholders Agreement. Reorganized ANH, the APG Asbestos Trust and the NARCO Asbestos Trust will enter into a shareholder agreement in the form of Exhibit 10 attached to this Disclosure Statement. Such Agreement provides for the election of directors of Reorganized ANH, establishes a right of first refusal and tag-along rights in any sale of Reorganized ANH stock, and provides for the transfer of the APG Asbestos Trust's 21% equity interest in Reorganized ANH to Honeywell, in exchange for a 100% equity interest in A.P Green.

D. POST-REORGANIZATION FINANCING

Funds generated by the Reorganized NARCO and Reorganized GIT affiliated groups will be received by or advanced to Reorganized ANH. Reorganized ANH will manage those funds. The funds will be used to make advances to members of the Reorganized NARCO and Reorganized GIT affiliated groups to meet their working capital needs and to meet the working capital needs of Reorganized ANH. In addition, the Debtors are seeking exit financing and expect such exit financing to be available on the Effective Date of the Plans. The proceeds of such financing will be used by Reorganized ANH for general working capital purposes.

E. DISTRIBUTIONS UNDER THE PLANS

Any Distribution to be made by Reorganized ANH pursuant to a Plan shall be deemed to have been timely made if made within ten (10) days of the time specified in the applicable Plan. Unless the Entity receiving a payment agrees otherwise, any payment in Cash to be made by Reorganized ANH shall be made, at the election of Reorganized ANH, by check drawn on a domestic bank, or by wire transfer from a domestic bank. Reorganized ANH, the Asbestos Trusts or the APG Silica Trust, as applicable, shall withhold from any assets or property distributed under a Plan any assets or property which must be withheld for foreign, federal, state and local taxes payable with respect thereto or payable by the Entity entitled to such assets to the extent required by applicable law. To the extent that any Allowed Claim entitled to a Distribution under a Plan is comprised of indebtedness and accrued but unpaid interest thereon, such Distribution shall, for tax purposes, be allocated to the principal amount of the Claim first and then, to the extent the consideration exceeds the principal amount of the Claim, to accrued but unpaid interest. Any Cash, assets, and other property to be distributed under the applicable Plan, but excluding any Distributions from the applicable Asbestos Trust or APG Silica Trust, that remain unclaimed (including by an Entity's failure to negotiate a check issued to such Entity) or otherwise not deliverable to the Entity entitled thereto before the later of (a) one year after the Effective Date, or (b) six months after an order allowing such Entity's Claim becomes a Final Order, shall become vested in, and shall be transferred to, Reorganized ANH notwithstanding state or other escheat or similar laws to the contrary. In such event, such Entity's Claim shall no longer be deemed to be Allowed and such Entity shall be deemed to have waived its rights to such payments or distributions under the applicable Plan pursuant to Section 1143 of the Bankruptcy Code, shall have no further Claim in respect of such Distribution and shall not participate in any further Distributions under the applicable Plan with respect to such Claim. In the event that the holder of any Claim shall transfer such Claim on and after the Effective Date, it shall immediately advise Reorganized ANH, the Asbestos Trusts or the APG Silica Trust, as the case may be, in writing of such transfer. Reorganized ANH, the Asbestos Trusts or the APG Silica Trust, as the case may be, shall be entitled to assume that no transfer of any Claim has been made by any holder unless and until written notice of a transfer has been received by Reorganized ANH, the Asbestos Trusts or the APG Silica Trust, as the case may be. Each transferee of any Claim shall take such Claim subject to the provisions of the applicable Plan, and, except as provided in a notice of transfer, Reorganized ANH, the Asbestos Trusts or the APG Silica Trust, as the case may be, shall be entitled to assume conclusively that the transferee named in any notice of transfer shall thereafter be vested with all rights and powers of the transferor of such Claim. Notwithstanding anything to the contrary contained in the applicable Plan, no Cash payments of fractions of cents will be made under either Plan. Fractional cents shall be rounded to the nearest whole cent (with .5 cent

or less to be rounded down). Distributions to holders of Allowed Claims shall be made to the address of the holder of such Claim as indicated on the records of the applicable Debtor, or if a proof of claim has been filed, to the address on the proof of claim. Notwithstanding anything to the contrary contained in the Plans, no Cash payments of $10 or less will be made.

F. PROVISIONS FOR TREATMENT OF CONTINGENT CLAIMS AND DISPUTED CLAIMS.

1. Contingent Claims. Holders of Contingent Claims shall be paid only after such Claims have become fixed and/or liquidated. No interest shall be paid on account of a Contingent Claim except as provided in Section 506(b) of the Bankruptcy Code. Any Contingent Claim, other than Claims in NARCO Class 1-A or GIT Class 1-A, that has not become fixed or liquidated on or before two years after the Effective Date shall be deemed waived, disallowed and expunged unless the holder of such Claim has, on or before two years following the Effective Date, filed a request with the Bankruptcy Court requesting estimation of such claim for purposes of allowance pursuant to § 502(c) of the Bankruptcy Code. After the later of two years following the Effective Date and the entry of Final Orders on any timely filed requests for estimation no cash reserves will be held for Contingent Claims and any funds previously held for such purposes may be distributed to the holders of Allowed Claims.

2. Disputed Claims. NARCO or GIT, as the case may be, or Reorganized ANH, shall object to the allowance of Claims (other than applicable PI Trust Claims) filed with the Bankruptcy Court with respect to which any Debtor or Reorganized ANH disputes liability in whole or in part. Reorganized ANH shall have the right to compromise and settle any General Unsecured Claim after the Effective Date without notice to Creditors or order of the Bankruptcy Court. Unless another date is established by order of the Bankruptcy Court, all objections to Claims (other than applicable PI Trust Claims) shall be filed and served on the holders of such Claims no later than 60 days following the Effective Date.

Reorganized ANH shall make a Distribution to the holder of a Disputed Claim when and to the extent that such Disputed Claim becomes Allowed. No interest shall be paid on account of a Disputed Claim that later becomes Allowed, except as provided in Section 506(b) of the Bankruptcy Code.

G. CASH RESERVE.

1. Creation of Cash Reserve

On the Effective Date, Reorganized ANH will deposit an amount of Cash equal to the Contingent Claims Reserve and Disputed Claims Cash Reserve. The Cash held in the Cash Reserve shall be held in trust for the benefit of holders of Contingent Claims and Disputed Claims pending determination of their entitlement thereto. Reorganized ANH will not make Distributions to the holders of Contingent Claims and Disputed Claims in an aggregate amount in excess of the Cash Reserve.

2. Distributions From the Cash Reserve

To the extent that, after the Effective Date, any Disputed Claim is disallowed and expunged, in whole or in part, or any Contingent Claim is eliminated, Reorganized ANH may reduce the amount of the Cash Reserve and any excess Cash shall be Distributed to the holders of Allowed Claims. In no case will the holder of any Claim receive more than 90% of the Allowed Amount of such Claim. Any such redistribution may be made at reasonable times and in any event a final redistribution shall be made after all Disputed Claims have been Allowed or expunged, in whole or in part and all Contingent Claims have been fixed, liquidated, expunged, or estimated for purposes of allowance by a Final Order of the Bankruptcy Court.

H. RETENTION OF JURISDICTION

Pursuant to Sections 105(a) and 1142 of the Bankruptcy Code, after the Confirmation Date the Bankruptcy Court or, if applicable, except as set forth in the NARCO Plan or the GIT Plan, the District Court will retain and will have exclusive jurisdiction over any matter (a) arising under the Bankruptcy Code, (b) arising in or related to the Chapter 11 Cases, either Plan or the PI Trusts and their assets, or (c) with respect to those matters specifically set forth in the Plans.

I. MISCELLANEOUS PROVISIONS OF THE PLANS

1. Authority of the Debtors

On the Confirmation Date, each Debtor will be empowered and authorized to take or cause to be taken, prior to the Effective Date, all actions necessary to enable it to implement effectively the provisions of the Plans and the NARCO Asbestos Trust Agreement, the APG Asbestos Trust Agreement and the APG Silica Trust Agreement.

2. Payment of Statutory Fees

The Debtors will pay all fees payable pursuant to Section 1930 of title 28 of the United States Code on or before the Effective Date.

3. Exculpation

The Plans provide that neither the Debtors and their Affiliates, the Reorganized Debtors, the Future Claimants Representatives, the NARCO Creditors Committee and GIT Creditors Committee, the NARCO Asbestos Claimants Committee and GIT Asbestos Claimants Committee, nor any of their respective present or former officers, directors, employees, attorneys, accountants, underwriters, investment bankers, financial advisors, advisors, Affiliates, members, professionals, representatives, or agents will have or incur any liability to any Entity or any holder of a Claim or Equity Interest for any act or omission with respect to or arising out of the Chapter 11 Cases, the pursuit of confirmation of a Plan, the consummation of a Plan, or the administration of a Plan or the property to be distributed under a Plan, except for gross negligence or willful misconduct, and in all respects will be entitled to rely upon the advice of counsel with respect to their duties and responsibilities under a Plan.

4. Title to Assets; Discharge of Liabilities

Except as otherwise provided in the Plans, on the Effective Date, title to all assets and properties and interests in property dealt with by the Plans will vest in the Reorganized Debtors free and clear of all Claims, Equity Interests, Liens, and other interests, and the Confirmation Order will be a judicial determination of discharge of the liabilities of the Debtors, except as provided in the Plans.

Except for the NARCO Assigned Rights, APG Assigned Asbestos Rights and APG Assigned Silica Rights, all rights of action accruing to the Debtors pursuant to the Bankruptcy Code or pursuant to any statute or legal theory, and any rights for recovery under any policies of insurance issued to or on behalf of the Debtors (which rights are not expressly assigned to the Asbestos Trusts or the APG Silica Trust) will remain assets of the Debtors' estates, and on the Effective Date, will be transferred to the Reorganized Debtors. The Reorganized Debtors may pursue, litigate, compromise, and settle any such rights, claims, or causes of action as they deem appropriate. The debtors may also implement the plans through the sale of some or all of the Debtor's assets free and clear of claims and interests under 11 U.S.C. Section 363.

5. Surrender and Cancellation of Instruments; Release of Judgments

Each holder of a promissory note or other instrument evidencing a Claim must surrender such promissory note or instrument to or judgment against the Debtors, and the Reorganized Debtors will distribute to the holder of the Claim evidenced by the promissory note, instrument, or judgment the appropriate Distribution. At the option of the Reorganized Debtors, no Distribution hereunder will be made to or on behalf of any holder of such Claim unless and until the promissory note or instrument, including without limitation, a release or certificate of satisfaction of judgment, is received or the unavailability of such note or instrument is reasonably established to the satisfaction of the Reorganized Debtors.

6. Dissolution of Committees

On the Effective Date, the respective NARCO Creditors Committee and GIT Creditors Committee and the respective NARCO and GIT Asbestos Claimants Committees will thereupon be released and discharged of and from all further authority, duties, responsibilities, and obligations relating to and arising from and in connection with the Chapter 11 Cases, and such Committees will be deemed dissolved; provided, however, that, (i) in the event that the Effective Date occurs prior to the Confirmation Order becoming a Final Order, the respective committees may, at their option, continue to serve and function for the purpose of participating in any appeal of the Confirmation Order until such time as the Confirmation Order becomes a Final Order and (ii) if the Effective Date occurs prior to the conclusion of any outstanding litigation or adversary proceedings in the Chapter 11 Cases or prior to the entry of a Final Order with respect to final fee applications of professionals retained by order of the Bankruptcy Court during the Chapter 11 Cases, the respective Committees may, at their option, continue to serve until a Final Order is entered with respect to such proceedings.

7. Future Claimants Representatives

The Future Claimants Representatives shall continue to serve through the termination of the Asbestos Trusts or APG Silica Trust (as applicable) in order to perform the functions required by the NARCO Asbestos Trust Agreement, APG Asbestos Trust Agreement and APG Silica Trust Agreement (as applicable). Upon termination of the Asbestos Trusts or APG Silica Trust (as applicable), the applicable Future Claimants Representatives shall thereupon be released and discharged of and from all further authority, duties, responsibilities, and obligations relating to and arising from and in connection with the Chapter 11 Cases, and such Future Claimants Representative's employ shall be deemed terminated. All reasonable and necessary post-Effective Date fees and expenses of the professionals retained by the Future Claimants Representatives shall be paid by the applicable trust in accordance with the terms of the applicable trust agreement. If there is any dispute regarding the payment of such fees and expenses, the parties will attempt to resolve such dispute in good faith and if they fail to resolve such dispute, they will submit the dispute to the Bankruptcy Court for resolution. The provisions of Sections 12.4 of the Plans shall continue to be applicable to any Future Claimants Representative following the termination of his acting as such Future Claimants Representative, including without limitation, any claims against a former Future Claimants Representative made or asserted following the termination of his acting as such Future Claimants Representative.

8. Governing Law

Unless a rule of law or procedure is governed by federal law (including the Bankruptcy Code and Bankruptcy Rules), the laws of the Commonwealth of Pennsylvania will govern the construction of the Plans and any instruments, agreements, and documents executed in connection with the Plans, except as otherwise expressly provided in such instruments, agreements, and documents.

9. Corporate Action

All matters provided for under a Plan involving the corporate structure of the Debtors, or any corporate action to be taken by, or required of the Debtors, shall be deemed to have occurred and be effective as provided in such Plan, and shall be authorized and approved in all respects without any requirement for further action or vote by the stockholders or directors of any of such entities.

10. Effectuating Documents and Further Transactions

The President, the Treasurer, or the Secretary of Reorganized ANH shall be authorized to execute, deliver, file or record such contracts, instruments, releases and other agreements or documents and take or direct such actions as may be necessary or appropriate to effectuate and further evidence the terms and conditions of either Plan.

11. Health and Life Insurance Benefit Plans

Retiree benefits, as defined in Section 1114 of the Bankruptcy Code, are not being modified by the Plans. On the Effective Date, the Reorganized Debtors will continue all retiree health and life insurance benefit plans. All benefits under such plans will be paid in the ordinary course of business. The Reorganized Debtors will retain the right to

amend, modify or terminate the retiree health and life insurance benefit plans, in accordance with law and the governing documents.

12. Defined Benefit Pension Plans

On the Effective Date, the Reorganized Debtors will remain the plan sponsor of the NARCO and GIT Pension Plans, as applicable, and will bear responsibility for and will fund the NARCO and GIT Pension Plans in accordance with the minimum funding standards pursuant to ERISA and the Internal Revenue Code and regulations thereunder, will pay all required PBGC insurance premiums, and will comply with all requirements of the NARCO and GIT Pension Plans and applicable law. Nothing in the Confirmation Order, either Plan, the Bankruptcy Code (and Section 1141 thereof), or any other document filed in the Chapter 11 Cases shall be construed to discharge, release or relieve the Debtors, or any other party, in any capacity, from any liability or responsibility with respect to the NARCO and GIT Pension Plans under any law. The Reorganized Debtors will retain the right to amend, modify or terminate the GIT Pension Plans in accordance with law and the governing documents, following the confirmation of a Plan.

13. Severance Plan

Following the Effective Date of the Plans, the Debtors intend to propose to the Board of Directors of Reorganized ANH the adoption of an employee severance plan. Such employee severance plan will be utilized by the Reorganized Debtors to induce employees to remain employed with the Reorganized Debtors.

IX. RISK FACTORS

In considering whether to vote for or against each of the Plans, holders of Claims in impaired Classes should consider several risk factors.

A. RISK THAT THE PLANS WILL NOT BE CONFIRMED OR CONSUMMATED

There can be no assurance that any of the Plans as proposed will be accepted by the requisite number of holders or amounts of Claims or approved by the Bankruptcy Court, and there can be no assurance that any of the Plans will not be modified up to and through the Confirmation Date. Notwithstanding Bankruptcy Court and/or District Court approval, it is possible that a Plan may not be consummated because of external factors that may adversely affect the funding of the Distributions. In addition, there can be no assurance that the conditions to confirmation of the Plans will be satisfied.

B. RISK THAT PI TRUSTS WILL NOT BE ABLE TO PAY PI TRUST CLAIMS

Even if the Plans are confirmed and consummated, holders of PI Trust Claims should be aware of certain risks associated with the confirmation and the ability of the Debtors to perform under the respective Plans. The PI Trusts will be funded on the Effective Date from the transfer by the Debtors of equity in Reorganized ANH, proceeds of insurance, assignment of certain rights with respect to insurance policies and insurers, cash and causes of action to the PI Trusts and by the Honeywell Trust Contribution.

Creditors and other holders of PI Trust Claims should also consider the possible effect of Asbestos Demands and APG Silica Demands. The NARCO and/or APG Asbestos and Silica Trust Agreements require, in certain circumstances, the Trustees make periodic estimates of the percentage payment that will be paid to the PI Trust Claims, based on the estimated assets of the respective PI Trusts and the estimated PI Trust Claims. To the extent that Asbestos Demands and APG Silica Demands are greater than anticipated, the percentage distribution to the holders of unpaid PI Trust Claims will be decreased, and vice versa.

In addition, there can be no assurance that the insurers will be able to make payments to the APG Asbestos Trust or APG Silica Trust or that the Honeywell payments will be made to the NARCO Asbestos Trust as required by the NARCO/Honeywell Settlement Agreement. There also can be no assurance that the APG Asbestos Trust or APG Silica Trust will succeed in pursuing any insurance coverage rights to payment being assigned to them in relation to APG Asbestos Trust Claims and APG Silica Trust Claims.

C. RISK THAT THE DEBTORS DO NOT ACHIEVE THE PROJECTED RESULTS

The projections are based on numerous assumptions with respect to the anticipated future performance of Reorganized ANH, Reorganized NARCO and Reorganized GIT, industry performance, general business and economic conditions, continuation of existing commercial relations, and other matters, most of which are beyond the control of Reorganized ANH, Reorganized NARCO and Reorganized GIT. In addition, unanticipated events and circumstances may affect the actual financial results of Reorganized ANH, Reorganized NARCO and Reorganized GIT. As a result, the actual results achieved throughout the projection period will vary from the projected results. These variations may be material.

D. POTENTIAL IMPACT OF PENDING ASBESTOS LEGISLATION

Legislation currently is pending before the U.S. Congress that, if passed, could affect the rights and obligations of companies with asserted asbestos liabilities. The exact terms are still the subject of negotiations, however, and it is uncertain how, if at all, such legislation could impact the Debtors. In addition, if federal asbestos legislation is passed prior to the Effective Date of the NARCO Plan, Honeywell's obligation to fund the NARCO Asbestos Trust will terminate. In such an event, there can be no assurance that the NARCO Debtors will obtain sufficient funds for the NARCO Asbestos Trust.

E. RISKS RELATED TO PENSION PLANS

There can be no assurance that the PBGC will not commence an action to terminate the Debtors' pension plans or file any objections to the NARCO and GIT Plans. In addition, the Debtors' pension plans would terminate if the Plans are converted into a case under Chapter 7 of the Bankruptcy Code. A termination of the Debtors' pension plans would result in substantial termination payments which could adversely affect the Debtors' ability to pay the holders of Claims.

F. RISKS RELATED TO SETTLEMENT AGREEMENTS WITH RHI AG

If the Debtors' settlement agreements with RHI AG are not approved by the Court, RHI AG might assert claims against the Debtors in excess of $600 million. The Debtors reserve the right to object to and pursue any other appropriate action against RHI AG to the extent that RHI AG asserts any claims against the Debtors.

In addition, a failure by the Court to approve the Debtors' settlement agreements with RHI AG would adversely impact the Debtors' ability to finalize settlements with other major parties in interest such as Honeywell, and this could reduce the likelihood of the Plans being consummated.

G. RISKS RELATED TO SETTLEMENT AGREEMENT WITH HONEYWELL

A failure by the Court to approve the NARCO Debtors' settlement agreement with Honeywell would adversely impact the Debtors ability to finalize settlements with other major parties in interest such as RHI AG, and this could reduce the likelihood of the Plans being consummated.

H. RISKS RELATED TO UNSECURED CLAIM CREDITORS

The NARCO and GIT Debtors may not be able to pay 90% of the Allowed General Unsecured Claims in their respective Plans.

X. FEDERAL INCOME TAX CONSEQUENCES OF THE PLANS

A. GENERALLY

The discussion below is based upon the description of transactions in the Plans and any material change in those transactions could result in different tax consequences to the Debtors, the Reorganized Debtors, Reorganized ANH, holders of Claims, and holders of Equity Interests. Further, while the estimated dollar tax effect of certain transactions described in the Plans is provided below, such tax effects are based upon actual results of the Debtors and certain affiliated entities for 2004. It is likely that the actual results of operations when finally determined will differ, and may differ substantially, from the estimated information currently available to the Debtors, which difference may adversely affect the tax results of the transaction described in the Plans.

THE DISCUSSION SET FORTH BELOW IS INCLUDED FOR GENERAL INFORMATION ONLY. THE DEBTORS AND THEIR COUNSEL ARE NOT MAKING ANY REPRESENTATIONS REGARDING THE PARTICULAR TAX CONSEQUENCES OF CONFIRMATION AND CONSUMMATION OF THE PLANS WITH RESPECT TO THE DEBTORS, REORGANIZED DEBTORS, HOLDERS OF CLAIMS OR EQUITY INTERESTS, OR REORGANIZED ANH, NOR ARE THEY RENDERING ANY FORM OF LEGAL OPINION OR TAX ADVICE ON SUCH TAX CONSEQUENCES. THE TAX LAWS APPLICABLE TO CORPORATIONS IN BANKRUPTCY ARE EXTREMELY COMPLEX, AND THE FOLLOWING SUMMARY IS NOT EXHAUSTIVE. HOLDERS OF CLAIMS AND EQUITY INTERESTS ARE STRONGLY URGED TO CONSULT THEIR TAX ADVISORS REGARDING TAX CONSEQUENCES OF THE PLANS, INCLUDING FEDERAL, FOREIGN, STATE AND LOCAL TAX CONSEQUENCES. THE DEBTORS DO NOT INTEND TO SEEK A RULING AS TO THE TAX CONSEQUENCES OF THE PLAN. ACCORDINGLY, IT IS POSSIBLE THAT THE IRS MIGHT CHALLENGE ONE OR MORE OF

THE TAX POSITIONS TAKEN BY THE DEBTORS AND THAT SUCH CHALLENGE MIGHT BE SUCCESSFUL, IN WHICH CASE, MANY OR ALL OF TAX BENEFITS DESCRIBED BELOW MAY NOT BE AVAILABLE TO THE REORGANIZED DEBTORS OR REORGANIZED ANH.

B. FEDERAL INCOME TAX CONSEQUENCES TO THE DEBTORS

In general, the Debtors do not expect to incur any substantial tax liability as a result of implementation of the Plans. Under the Internal Revenue Code (the "IRC"), a taxpayer generally recognizes gross income to the extent that indebtedness is cancelled for less than the amount due. An exception to this general rule applies when a taxpayer's satisfaction of the debt would have given rise to an income tax deduction. To the extent that a taxpayer's debt is discharged in a title 11 case, as would be the case under the Plans, no taxable income will result, but the taxpayer's attributes will be subject to reduction as described herein.

It is anticipated that property transferred to the PI Trusts by the Debtors, including the value of the Reorganized ANH common stock, will be deductible by the Debtors, provided the value is supported by a "qualified appraisal" as defined in the Regulations promulgated pursuant to Section 468B of the IRC and the Debtors furnish to the IRS the statement required under Treasury Reg. Section 1.468B-3(e) with the first filing of the consolidated tax return of Reorganized ANH. The amount of the deduction attributed to the contribution of Reorganized ANH common stock to the PI Trusts is expected to be approximately $50 million. It is anticipated that this deduction will be taken on the first tax period after emergence from bankruptcy on the Effective Date of the Plans and will provide a net operating loss available for Reorganized ANH after the reorganization. If the IRS were to successfully take the position that the deduction should be allowed prior to the first tax period after emergence, it is likely that Reorganized ANH would lose the benefit of the deduction. In addition, if the PI Trusts were to sell the Reorganized ANH stock and hold it for less than two years, the benefit of the deduction may be eliminated or reduced.

While it is not anticipated that Reorganized ANH will recognize any taxable income as a result of the cancellation of its debt, it is anticipated that all of the Debtors' net operating losses that exist at the time of the reorganization will be eliminated under the attribute reduction rule of Section 108(b) of the Code. In addition, after the elimination of the Debtors' net operating losses, other tax benefits of the Debtors, including some of their basis in assets will be reduced as a result of the debt cancellation attribute reduction rule.

In determining the total amount of debt cancellation of the Debtors, the Debtors have reviewed their capital structure and determined that $212 million of what has been carried as debt to RHI AG on the balance sheet of GIT is actually equity. The Debtors recharacterized such amount as capital at the time of the filing of their federal tax returns for the year 2003. This characterization, if accepted, will reduce the amount of total debt cancellation and, thus, the amount of attribute reduction. If such characterization is rejected, it is likely that additional tax attribution reduction will result and Reorganized ANH would have less tax attributes remaining after the cancellation of debt.

It is estimated that under the attribute reduction rules the basis in the Debtors' assets will be reduced by approximately $315 million, of which $104 million will be a reduction in the basis of the Debtors' current assets. In determining the basis of GIT in the stock of affiliated corporations, the Debtors have had to rely on information that is

incomplete. The Debtors and their accountants have attempted to properly ascertain, to the extent of available information, the basis in GIT and its affiliates, but it is possible that the Internal Revenue Service may challenge their determination of basis. In addition, if the Internal Revenue Service were to successfully challenge the position taken above, it is likely that the Debtors would have less tax attributes remaining after the Reorganization.

C. FEDERAL INCOME TAX CONSEQUENCES TO HOLDERS OF CLAIMS

A holder of a Claim who receives Cash or other consideration in satisfaction thereof may recognize ordinary income or loss to the extent that any portion of such consideration is characterized as accrued interest. A holder of a Claim who was not previously required to include as income accrued but unpaid interest attributable to its Claim, and who surrenders its Claim pursuant to a Plan, will be treated as having received interest income to the extent that any consideration received is characterized for federal income tax purposes as interest regardless of whether the holder of the Claim realizes an overall gain or loss as a result of surrendering its Claim. A holder of a Claim who previously included as income accrued but unpaid interest attributable to its Claim should recognize an ordinary loss to the extent that such accrued but unpaid interest is not satisfied in full. The manner in which consideration is to be allocated between accrued interest and principal for these purposes is unclear under present law.

As discussed more fully below, a holder of a Claim may recognize income, gain or loss by reason of receiving consideration attributable to the principal of any Claim surrendered equal to the difference between the holder's adjusted basis in its Claim and the amount of consideration which is not allocable to accrued but unpaid interest. The character of such income, gain, or loss as capital gain or loss, or ordinary income or loss, will be determined by whether the holder's Claim constitutes a capital asset to the holder.

A holder of any of these Claims will recognize gain or loss equal to the difference between (1) the amount of Cash and the fair market value of other property received (less the portion thereof attributable to accrued interest), and (2) the basis the holder has in such Claim. A holder of a PI Trust Claim related to property will recognize gain or loss equal to the difference between the amount of Cash and the fair market value of other property received (less the portion thereof attributable to accrued interest) and the basis the holder has in such Claim.

To the extent that payments to holders of PI Trust Claims constitute damages received by holders of such Claims on account of personal injuries, such payments should not constitute gross income to such recipients under Section 104 of the IRC, except to the extent that such payments are attributable to medical expense deductions allowed under Section 213 of the IRC for a prior taxable year.

D. TAX CONSEQUENCES TO THE ASBESTOS TRUSTS AND THE APG SILICA TRUST

The Asbestos Trusts and the APG Silica Trust should meet the requirements of a "qualified settlement fund" within the meaning of the IRC and the regulations issued pursuant thereto. Provided that the Asbestos Trusts and the APG Silica Trust qualify as a "qualified settlement fund," the receipt of the trust assets will be qualified payments and therefore not taxable income to the Asbestos Trusts and the APG Silica Trust. The Asbestos Trusts and the APG Silica Trust will be taxed on modified gross income as defined within the regulations (generally at the highest rate applicable to estates and trusts).

The Asbestos Trusts' and the APG Silica Trust's basis in the trust assets received will be equal to their fair market value at the time of receipt.

HOLDERS OF CLAIMS SHOULD CONSULT THEIR OWN TAX ADVISORS ABOUT THE PROPER ALLOCATION OF CONSIDERATION BETWEEN PRINCIPAL AND INTEREST. AS IS APPARENT FROM THE FOREGOING DISCUSSION, THE TAX CONSEQUENCES OF THE PLANS FOR THE DEBTORS, REORGANIZED ANH, HOLDERS OF CLAIMS, AND HOLDERS OF EQUITY INTERESTS INVOLVE A NUMBER OF ISSUES AS TO WHICH THE LAW IS HIGHLY UNCERTAIN. MOREOVER, THE FOREGOING DISCUSSION IS ONLY A BRIEF SUMMARY OF CERTAIN FEDERAL INCOME TAX CONSEQUENCES OF THE PLANS. WITH THESE CONSIDERATIONS IN MIND, HOLDERS OF CLAIMS AND HOLDERS OF EQUITY INTERESTS ARE AGAIN STRONGLY URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE SPECIFIC CONSEQUENCES TO THEM OF THE PLANS UNDER FEDERAL AND APPLICABLE STATE, LOCAL, AND FOREIGN TAX LAWS.

XI. BANKRUPTCY CAUSES OF ACTIONS

Each of the Debtors have analyzed various transfers made prior to the respective Petition Dates to determine whether there were any preferences, fraudulent conveyances, or other avoidable transfers that should be avoided for the benefit of its respective estate. After careful consideration, the Debtors have concluded that any attempt to avoid pre-Petition transfers would be costly, time-consuming, and not likely to result in a material improvement to the distributions to creditors proposed under the Plans. Furthermore, each of the Debtors have concluded that any attempt to avoid pre-Petition transfers would be divisive, and would substantially delay the distribution of any payments to creditors of the respective Debtors' estate. For all of these reasons, each of the Debtors have concluded that it is in the best interest of its creditors and its estate to waive all avoidance claims.

XII. ALTERNATIVES TO CONFIRMATION AND CONSUMMATION OF THE PLANS

The Plan Proponents of the NARCO Plan and GIT Plan, respectively, believe that the Plans afford the holders of the respective Claims the potential for the greatest realization on their Claims and, therefore, the Plans are in the best interest of all holders of the respective Claims. If the Plans are not confirmed, however, the theoretical alternatives include: (a) alternative plans of reorganization; or (b) liquidation of the Debtors under Chapter 7 of the Bankruptcy Code.

A. ALTERNATIVE PLANS OF REORGANIZATION

If the Plans are not confirmed, it is possible that another party in interest in the Chapter 11 Cases could attempt to formulate and propose a different plan. Any alternative plan must meet the requirements of confirmation.

The NARCO Plan contemplates that Honeywell will contribute substantial amounts to fund payments to the NARCO Asbestos Trust, which will assume or cause to be assumed NARCO Asbestos Trust Claims. Honeywell will waive substantial Claims against the Debtors in exchange for being included as a Protected Party under the Channeling Injunctions. The GIT/RHI AG Settlement Agreement provides for a waiver of substantial claims by RHI AG in exchange for, inter alia, being included as a Protected Party under the Channeling Injunctions. The Debtors believe that without

such contributions, waivers, and distributions, any plan would be significantly delayed by litigation. Considering the value provided by the settlement agreements with Honeywell and RHI AG, the Debtors believe the Plans are more likely to generate a greater and earlier recovery for the PI Trust Claims and the general unsecured claims than any Plan that might be proposed which does not include such provisions.

B. CHAPTER 7 LIQUIDATIONS

If no plan is confirmed, the Debtors' Chapter 11 Cases may be converted to cases under Chapter 7 of the Bankruptcy Code. In a Chapter 7 case, a trustee or trustees would be appointed to liquidate the assets of the Debtors. The proceeds of the liquidation would be distributed to the respective holders of claims against such Debtors' in accordance with the priorities established by the Bankruptcy Code.

The proceeds of the liquidation would consist of (1) proceeds from available insurance coverage, (2) the proceeds from a sale of the assets of the Debtors and (3) cash and cash equivalents. The amount of the proceeds from a sale of the Debtors' assets would be significantly reduced as a result of the uncertainty that exists as to whether a trustee in a Chapter 7 could sell the assets free and clear of claims, particularly future claims that could be asserted against the Debtors. In addition, a requirement of the establishment of a trust under Section 524(g) of the Bankruptcy Code for settlement of asbestos claims is that a majority interest of the securities of a reorganized debtor be contributed to the trust. If the Debtors were liquidated, the PI Trusts could not be established. The amount of funds available to the PI Trust Claims would be significantly reduced if the PI Trusts cannot be established and planned contributions to the NARCO Asbestos Trust from Honeywell is not made.

In a Chapter 7 case, the amount distributed to unsecured creditors depends upon the funds available after all of the assets have been converted to cash. The cash realized from the liquidation of the encumbered assets would be distributed first to pay Claims secured by the asset. If the value of the collateral is insufficient to pay a Secured Claim in full, the Creditor would be entitled to assert a General Unsecured Claim for its deficiency. Any remaining funds would be distributed in accordance with the priorities of the Bankruptcy Code. The amount of liquidation value available to general unsecured Creditors would be reduced by (1) costs and expenses of the Chapter 7 case, including compensation of the Chapter 7 trustee; (2) all Allowed Administrative Expenses Claims incurred by the Debtor in the Chapter 11 Case, and (3) payment of Priority Claims. The liquidation itself could trigger other claims, such as severance, loss of retiree benefits, pension, contract and lease rejection claims, and litigation costs.

The Debtors believe that creditors would lose value if the Debtors were forced to liquidate. Additionally, the Debtors believe that in liquidation under Chapter 7, before creditors received any distribution, additional administrative expenses involved in the appointment of a trustee or trustees and attorneys, accountants and other professionals to assist such trustees would cause a substantial diminution in the value of the Estates which Debtors plan to reorganize. The assets available for distribution to creditors would be reduced by such additional expenses and by Claims, some of which would be entitled to priority, which would arise by reason of the liquidation and from the rejection of executory contracts including collective bargaining agreements, leases, etc. in connection with the cessation of operations and the failure to realize the greater going concern value of the Debtors' assets.

Attached to this Disclosure Statement as Exhibit 13 is the liquidation analysis prepared by the Debtors. Reference is made to the liquidation analysis for valuation amounts and for a description of the procedures followed, the factors considered and the assumptions made in preparing the analysis. In the analysis, the Debtors have taken into account the nature, status, and underlying value of their assets, the ultimate realizable value of their assets, and the extent to which such assets are subject to security interests. Any such liquidation would take place in the future under circumstances that cannot be predicted. The amount of such proceeds is therefore highly speculative and the actual amounts of Claims against the estate could vary significantly from the Debtors' estimates. Therefore, the net proceeds available to unsecured Creditors could vary materially from the amounts in Exhibit 13. The likely form of any liquidation would be the sale of individual assets or plants. Based on this analysis, it is likely that a Chapter 7 liquidation of the Debtors' assets would produce less value for distribution to creditors than that recoverable in each instance under the Plans. In the opinion of the Debtors, the recoveries projected to be available in a Chapter 7 liquidation are not likely to afford holders of Claims as great a realization potential as do the Plans.

XIII. INFORMATION ABOUT OFFICERS AND MANAGEMENT OF THE REORGANIZED DEBTORS

A. CORPORATE GOVERNANCE

1. Directors and Key Management Personnel

The current officers of Reorganized ANH, which will provide the executive management services to the affiliate groups Reorganized NARCO and Reorganized GIT through the Effective Date of the Plans, are:

- Guenter Karhut, President and Chief Executive Officer
- Gabriel Faimann, Executive Vice-President, Chief Financial Officer and Treasurer
- Jon A. Allegretti, Executive Vice-President, Chief Legal and Administrative Officer and Secretary

The officers and directors will remain in place unless and until other officers or directors have been duly appointed or elected to take their place.

2. Key Management Compensation Program

On December 13, 2005 the Bankruptcy Court entered on Order ("Order") approving the Assumption of Employment Agreements with Guenter Karhut, Gabriel Faiman and Jon Allegretti pursuant to Section 365(d) of the Bankruptcy Code. The Employment Agreements contain customary terms and conditions and will expire upon confirmation of the Debtors' Plans of Reorganization at which time certain severance payment provisions will apply. In the event that the Debtors' Plans of Reorganization have not been confirmed by May 1, 2006, the Debtors may, consistent with the methods used to determine 2004 and 2005 compensation, set an appropriate ongoing total compensation and bonus structure beginning in calendar year 2006 as further provided in the Order. The Order further approves bonuses payable upon confirmation of the Debtors' Plans of Reorganization. The retention and compensation of

the current management will be determined by the board of directors of Reorganized ANH subsequent to the Confirmation Date.

XIV. CONCLUSION AND RECOMMENDATION

The Plan Proponents believe that confirmation and implementation of each Plan is preferable to any of the alternatives discussed above because it will provide the greatest recoveries to holders of Claims. In addition, other alternatives would involve significant delay, uncertainty and substantial additional administrative costs. The Plan Proponents urge holders of impaired Claims to vote in favor of each Plan.

INTRODUCTION

Quigley Company, Inc., debtor and debtor-in-possession ("Quigley" or the "Debtor"), proposes the following modified fifth amended and restated plan of reorganization under chapter 11 of the Bankruptcy Code for the resolution of Quigley's outstanding Claims, Demands, and Equity Interests (the "Plan"). The Plan amends and supersedes the "Fourth Amended Quigley Company, Inc. Plan of Reorganization Under Chapter 11 of the United States Bankruptcy Code (As Modified As Of August 6, 2009)," dated and filed with the Bankruptcy Court on August 6, 2009. Reference is made to the Disclosure Statement to which this Plan is annexed for a discussion of Quigley's history, business, properties, and assets, and for a summary of the Plan and certain related matters. All holders of Claims and Demands against, and Equity Interests in, Quigley are encouraged to read the Plan and Disclosure Statement in their entirety before voting to accept or reject the Plan.

NO SOLICITATION MATERIALS, OTHER THAN THE DISCLOSURE STATEMENT AND RELATED MATERIALS TRANSMITTED THEREWITH AND APPROVED BY THE BANKRUPTCY COURT, HAVE BEEN AUTHORIZED BY THE BANKRUPTCY COURT FOR USE IN SOLICITING ACCEPTANCES OR REJECTIONS OF THE PLAN.

Quigley is the proponent of this Plan within the meaning of section 1129 of the Bankruptcy Code (as that term is defined herein). Subject to certain restrictions and requirements set forth in section 1127 of the Bankruptcy Code and Rule 3019 of the Bankruptcy Rules and Section 13.2 of this Plan, Quigley reserves the right to alter, amend or modify this Plan, as Quigley deems necessary, prior to its substantial consummation.

ARTICLE I

DEFINITIONS AND RULES OF INTERPRETATION

Section 1.1 Capitalized Terms. The capitalized terms used herein have the respective meanings set forth below. Any term that is not otherwise defined herein, but that is defined or used in the Bankruptcy Code or Bankruptcy Rules, shall have the meaning given to that term in the Bankruptcy Code or Bankruptcy Rules, as applicable.

"Ad Hoc Committee" means (i) Weitz & Luxenberg, PC, (ii) Cooney & Conway, and (iii) the Law Offices of Peter G. Angelos, PC.

"Administrative Claim" means any right to payment constituting a cost or expense of administration of the Chapter 11 Case of a kind specified under section 503(b), 507(b) or 1114(e)(2) of the Bankruptcy Code and entitled to priority under section 507(a)(1) of the Bankruptcy Code, including, without limitation, (i) any actual and necessary costs and expenses of preserving the Estate, (ii) any actual and necessary costs and expenses of operating the businesses of Quigley, (iii) any indebtedness or obligations incurred or assumed by Quigley in the ordinary course of business in connection with the conduct of its businesses, (iv) any Fee Claims, (v) any fees or charges assessed against the Estate under 28 U.S.C. § 1930, including

post-Confirmation Date and post-Effective Date fees and charges, and (vi) all costs and expenses, including any recording fees, transfer taxes, or similar fees or taxes, but only to the extent not proscribed by section 1146(a) of the Bankruptcy Code, arising out of or related to the transfer of Quigley's assets pursuant to this Plan.

"Administrative Claims Bar Date" means the deadline for filing Administrative Claims, including Fee Claims, which date shall be set forth in the Confirmation Order.

"Affiliate" of a specified Entity is: (i) an Entity that directly or indirectly owns, controls or holds with power to vote, 20 percent or more of the outstanding voting securities of such specified Entity; (ii) an Entity 20 percent or more of whose outstanding voting securities are directly or indirectly owned, controlled, or held with power to vote by such specified Entity, or by an Entity described in subclause (i); or (iii) any other Entity that, directly or indirectly, through one or more intermediaries or otherwise, Controls or is Controlled by, or is under common Control with the specified Entity; provided, however, that without limiting the generality of the foregoing, with respect to an "Affiliate" of Quigley or an Entity "Affiliated" with Quigley, the term "Affiliate" shall include the meaning ascribed thereto in section 101(2) of the Bankruptcy Code.

"AIG Assignment Agreement" means the AIG Assignment Agreement referenced in Section 9.3(f) of the Plan, and substantially in the form annexed hereto as Exhibit G.

"AIG Companies" has the meaning assigned to such term in the AIG Insurance Settlement Agreement.

"AIG Insurance Settlement Agreement" means the Addendum to Settlement Agreement Among Pfizer Inc, Quigley Company, Inc. and certain AIG Companies, effective August 13, 2004.

"AIG Payments" means any and all payments made or to be paid by the AIG Companies under the AIG Insurance Settlement Agreement, as further described therein, including any interest earned on any and all such payments.

"Allowed" means, when used with respect to any Claim against Quigley (excluding Asbestos PI Claims), including an Administrative Claim: (i) such Claim to the extent it is not a Disputed Claim; (ii) such Claim to the extent it may be allowed pursuant to a Final Order of the Bankruptcy Court; (iii) a Disputed Claim, proof of which was filed on or prior to the Bar Date, and (A) as to which no objection was filed by the Claims Objection Bar Date, unless such Claim is to be determined in a forum other than the Bankruptcy Court, in which case such Claim will not become allowed until determined by a Final Order of such other forum and allowed by a Final Order of the Bankruptcy Court; or (B) as to which an objection was filed by the Objection Deadline, to the extent allowed by a Final Order of the Bankruptcy Court; (iv) if no Proof of Claim was so filed, any Claim against Quigley which has been listed by Quigley on its Schedules, as such Schedules may be amended from time to time in accordance with Rule 1009 of the Bankruptcy Rules, as liquidated in amount and not disputed or contingent (or as to which the applicable Proof of Claim has been withdrawn or such claim has been Disallowed); (v) any Claim arising from the recovery of property under section 550 or 553 of the Bankruptcy

Code and allowed in accordance with section 502(h) of the Bankruptcy Code; or (vi) any Claim expressly allowed under or pursuant to the terms of the Plan. The term "Allowed" shall not apply to Asbestos PI Claims.

Notwithstanding the foregoing, Claims against Quigley allowed solely for the purpose of voting to accept or reject the Plan pursuant to the Solicitation Procedures Order or other order of the Bankruptcy Court shall not be considered Allowed Claims hereunder.

"Allowed Amount" means, with respect to any Claim (excluding Asbestos PI Claims): the lesser of (i) the dollar amount of such Claim as Allowed; (ii) the estimated amount of such Claim (other than the estimated amount of any Claim for voting purposes only, pursuant to either the Solicitation Procedures Order or any other order of the Bankruptcy Court); and (iii) the dollar amount agreed to by Quigley. Unless otherwise provided in the Plan or a Final Order of the Bankruptcy Court or District Court, the Allowed Amount of an Allowed Claim, except for the Allowed Amount of the DIP Claim and the Pfizer Secured Claim shall not include interest or penalties accruing on such Allowed Claim from and after the Petition Date. In addition, unless an order of the Bankruptcy Court provides otherwise, the Allowed Amount of an Allowed Claim shall not, for any purpose under the Plan, include interest at any default rate of interest.

"Allowed Claim" means an Allowed Claim of the type described.

"Amended Bylaws" means the amended and restated bylaws of Reorganized Quigley, in substantially the form annexed hereto as Exhibit H.

"Amended Certificate of Incorporation" means the amended and restated certificate of incorporation of Reorganized Quigley, in substantially the form annexed hereto as Exhibit I.

"Amended Charter Documents" means, collectively, the Amended Bylaws and the Amended Certificate of Incorporation.

"Asbestos Insurance Action" means any and all Claims, Causes of Action, and/or rights of Quigley against any Asbestos Insurance Entity arising from, under or related to any Shared Asbestos Insurance Policy, any Insurance Settlement Agreement, any other settlement agreement with any Asbestos Insurance Entity, or any Quigley Insurer Receivable that are subject to the Quigley Insurance Transfer, including, but not limited to, Claims, Causes of Action, or rights arising from, under and/or related to: (a) any such Asbestos Insurance Entity's failure to provide coverage or pay amounts billed to it for Asbestos PI Claims, whether prior to or after the Petition Date, under an Insurance Settlement Agreement; (b) the refusal of any Asbestos Insurance Entity to pay any obligations on, or compromise and settle, any Asbestos PI Claim under or pursuant to any Shared Asbestos Insurance Policy; or (c) the interpretation or enforcement of the terms of any Shared Asbestos Insurance Policy with respect to any Asbestos PI Claim.

"Asbestos Insurance Dispute" means any and all formal or informal proceedings in any judicial, nonjudicial, arbitral or alternative dispute resolution forum of any kind, as well as all Claims asserted and defenses thereto, whether or not asserted in a proceeding, pending now or

commenced in the future, (1) involving an Asbestos Insurance Entity and (2) related to any Asbestos Insurance Policy, any Insurance Settlement Agreement, any other settlement agreement with any Asbestos Insurance Entity, the Pfizer Contribution, the Insurance Relinquishment Agreement, the Quigley Contribution, the Quigley Insurance Transfer, the Quigley Transferred Insurance Rights, and/or any Quigley Insurer Receivable. Without limiting the foregoing, "Asbestos Insurance Dispute" includes "Asbestos Insurance Action."

"Asbestos Insurance Entity" means any Entity, including any insurance company, broker, or guaranty association, that has issued, or that has any actual or potential liabilities, duties or obligations under or with respect to any Shared Asbestos Insurance Policy or any other insurance policy that provides coverage for Asbestos PI Claims.

"Asbestos Insurance Policy" means any insurance policy in effect at any time on or before the Effective Date naming Quigley or Pfizer (or any predecessor, subsidiary, or past or present Affiliate of Quigley or Pfizer) as an insured (whether as the primary or as an additional insured), or otherwise affording to Quigley or Pfizer indemnity or insurance coverage, upon which any Claim has been or may be made with respect to any Asbestos PI Claim. Without limiting the foregoing, "Asbestos Insurance Policy" includes "Shared Asbestos Insurance Policy."

"Asbestos PI Channeling Injunction" means the injunction described in Section 11.6 of the Plan.

"Asbestos PI Claim" means any Claim or Demand seeking recovery for damages for bodily injury allegedly caused by the presence of, or exposure to, asbestos or asbestos-containing products (1) against or on Quigley or Reorganized Quigley; and (2) against or on any other Entity that is alleged to be directly or indirectly liable for the conduct of, Claims against or Demands on Quigley to the extent such alleged liability arises by reason of—

(a) the other Entity's ownership of a financial interest in Quigley, a past or present Affiliate of Quigley, Reorganized Quigley or a predecessor in interest of Quigley or Reorganized Quigley;

(b) the other Entity's involvement in the management of Quigley, Reorganized Quigley or a predecessor in interest of Quigley or Reorganized Quigley, or service as an officer, director or employee of Quigley, Reorganized Quigley or a Related Party;

(c) the other Entity's provision of insurance to Quigley, Reorganized Quigley or a Related Party; or

(d) the other Entity's involvement in a transaction changing the corporate structure, or in a loan or other financial transaction affecting the financial condition, of Quigley, Reorganized Quigley or a Related Party, including but not limited to—

(i) involvement in providing financing (debt or equity), or advice to an Entity involved in such a transaction; or

(ii) acquiring or selling a financial interest in an Entity as part of such a transaction.

"Asbestos PI Claims" shall not include any Claim against a Quigley Person or any Pfizer Protected Party for benefits under any government-mandated workers' compensation system. "Asbestos PI Claims" shall include, without limitation, Indirect Asbestos PI Claims, Asbestos PI Deficiency Claims and Trust Expenses.

"Asbestos PI Deficiency Claim" means with respect to each Secured Bond Claim, the amount of any Final Judgment obtained by the holder of such Claim that exceeds the amounts received on account of the supersedeas bond securing the Secured Bond Claim at such time as the holder obtains such Final Judgment against Quigley or Reorganized Quigley, as the case may be, as described in Section 4.2(b), (c), (d), or (e), as applicable.

"Asbestos PI Insurer Coverage Defenses" means all rights, Claims, or defenses, at law or in equity, that any Asbestos Insurance Entity may have under applicable law, any Asbestos Insurance Policy, any Insurance Settlement Agreement, or any other settlement agreement to which any Asbestos Insurance Entity is a party, with respect to a Claim seeking insurance coverage; provided, however, that "Asbestos PI Insurer Coverage Defenses" shall not include any right of, or Claim or defense asserted by, any Asbestos Insurance Entity that (1) is based on the assertion that the Plan does not, or that any of the Plan Documents do not, comply with the Bankruptcy Code; (2) is based on the assertion that either the Quigley Insurance Transfer or the Insurance Relinquishment Agreement is invalid, ineffective and/or unenforceable or is otherwise prohibited, or otherwise serves to impair, limit or void any rights to insurance coverage; (3) the Asbestos Insurance Entity has released, limited (to the extent of such limitation) or waived in any Insurance Settlement Agreement or any other settlement agreement; or (4) has been resolved or limited (to the extent of such limitation) in a Final Order by binding adjudication in any proceeding, including in Continental Cas. Co., et al. v. Pfizer Inc, et al., Adv. No. 06-01299 (Bankr. S.D.N.Y.) (the "CNA Adversary Proceeding"), but otherwise excluding the Chapter 11 Case.

"Asbestos PI Trust" means the asbestos personal injury trust to be established pursuant to section 524(g) of the Bankruptcy Code and in accordance with the Plan, the Confirmation Order and the Asbestos PI Trust Agreement, which trust shall be treated as a "qualified settlement fund" under section 468B of the Internal Revenue Code.

"Asbestos PI Trust Agreement" means the agreement, to be dated as of the Effective Date, between and among Reorganized Quigley, the Trustees of the Asbestos PI Trust, the Future Demand Holders' Representative and the Trust Advisory Committee, governing the creation of the Asbestos PI Trust, in substantially the form annexed hereto as Exhibit A.

"Asbestos PI Trust Assets" means, collectively: (i) the Pfizer Contribution; (ii) the Quigley Contribution; and (iii) all proceeds of the foregoing.

"Asbestos PI Trust Distribution Procedures" means the trust distribution procedures for the Asbestos PI Trust, in substantially the form annexed hereto as Exhibit B, and

such additional procedures as subsequently may be adopted by the Asbestos PI Trust, which provide for the liquidation and satisfaction of Asbestos PI Claims.

"Asbestos PI Trust Documents" means the Asbestos PI Trust Agreement, the Trust Bylaws and the other agreements, instruments and documents governing the establishment and administration of the Asbestos PI Trust, as the same may be amended or modified from time to time, in accordance with the terms thereof.

"Asbestos Protected Party" means any of the following:

(a) any Quigley Person;

(b) Reorganized Quigley;

(c) any Pfizer Protected Party and any other Entity that is alleged to be directly or indirectly liable for the conduct of, Claims against or Demands on Quigley to the extent such alleged liability arises by reason of—

(i) the Pfizer Protected Party's or other Entity's ownership of a financial interest in Quigley, a past or present Affiliate of Quigley, Reorganized Quigley or a predecessor in interest of Quigley or Reorganized Quigley;

(ii) the Pfizer Protected Party's or other Entity's involvement in the management of Quigley, Reorganized Quigley or a predecessor in interest of Quigley or Reorganized Quigley, or service as an officer, director or employee of Quigley, Reorganized Quigley or a Related Party; or

(iii) the Pfizer Protected Party's or other Entity's involvement in a transaction changing the corporate structure, or in a loan or other financial transaction affecting the financial condition, of Quigley, Reorganized Quigley or a Related Party, including but not limited to—

a. involvement in providing financing (debt or equity), or advice to an Entity involved in such a transaction; or

b. acquiring or selling a financial interest in an Entity as part of such a transaction.

"Asbestos Records" means all of the books and records, or copies thereof, of Quigley, Reorganized Quigley, Pfizer and its Affiliates, wherever such books and records are located, to the extent that such books and records relate to any Asbestos PI Trust Asset or any Asbestos PI Claim, including, without limitation: (a) historical claims data relating to Asbestos PI Claims; (b) sales records of Quigley relating to asbestos or asbestos-containing products formerly made, used or sold by Quigley; and (c) insurance policies, agreements, claim forms and any other records relating to the Quigley Transferred Insurance Rights.

"Asbestos Record Party" means each Entity whose books and records, or any portion thereof, are Asbestos Records.

"Ballot" means each of the ballots and/or master ballots distributed with the Disclosure Statement to holders of Impaired Claims against or Equity Interests in Quigley (other than to holders of Impaired Claims or Equity Interests deemed to have rejected the Plan or otherwise not entitled to vote on the Plan) on which ballot such holder of a Claim or Equity Interest may, among other things, vote to accept or reject the Plan.

"Bankruptcy Code" means title 11 of the United States Code, 11 U.S.C.§ 101 et seq., as in effect on the Petition Date, together with all amendments, modifications and replacements of the foregoing, as the same may exist on any relevant date to the extent applicable to the Chapter 11 Case.

"Bankruptcy Court" means the United States Bankruptcy Court for the Southern District of New York or such other court as may have jurisdiction over the Chapter 11 Case.

"Bankruptcy Rules" means, collectively: (a) the Federal Rules of Bankruptcy Procedure as promulgated by the United States Supreme Court under section 2075, title 28, United States Code; (b) the Federal Rules of Civil Procedure, as applicable to the Chapter 11 Case or proceedings therein; and (c) the local rules of the Bankruptcy Court, all as amended from time to time and applicable in this Chapter 11 Case.

"Bar Date" means September 15, 2005, the date fixed by order of the Bankruptcy Court dated July 26, 2005, by which a holder of a Claim against Quigley (other than a holder of an "Excluded Claim," as defined in Quigley's Notice Of Deadline For Filing Proofs Of Claim For Non-Asbestos Claims) must have filed a Proof of Claim against Quigley.

"Board of Directors" means the board of directors of a corporation.

"Business Day" means any day except: (i) Saturday; (ii) Sunday; (iii) any other day on which banking institutions in New York, New York are required or authorized to close by law or executive order; and (iv) the Friday after Thanksgiving.

"Cash" means legal tender of the United States of America.

"Causes of Action" means any and all actions, causes of action, Liabilities, obligations, accounts, controversies, rights to legal remedies, rights to equitable remedies, rights to payment, suits, debts, sums of money, damages, judgments, Claims, and Demands, whatsoever, whether known or unknown, reduced to judgment, not reduced to judgment, liquidated, unliquidated, fixed, contingent, matured, unmatured, disputed, undisputed, secured, or unsecured, whether asserted or assertable directly or derivatively, in law, equity or otherwise which may be brought by or on behalf of Quigley and/or the Estate, arising under any provision of the Bankruptcy Code or other applicable law.

"Chapter 11 Case" means Quigley's case under chapter 11 of the Bankruptcy Code, captioned *In re Quigley Company, Inc.*, Case No. 04–15739 (SMB), pending in the United States Bankruptcy Court for the Southern District of New York.

"Claim" means a (a) right to payment, whether or not such right is reduced to judgment, liquidated, unliquidated, fixed, contingent, matured, unmatured, disputed, legal,

equitable, secured, or unsecured; or (b) right to an equitable remedy for breach of performance if such right gives rise to a right to payment, whether or not such right to an equitable remedy is reduced to judgment, fixed, contingent, matured, unmatured, disputed, undisputed, secured or unsecured.

"Claims Agent" means BMC Group, Inc.

"Claims Objection Bar Date" means, for all Claims against Quigley (other than Asbestos PI Claims), 270 days after the Effective Date, unless extended by order of the Bankruptcy Court prior to the expiration thereof.

"Class" means a category of holders of Claims or Equity Interests described in Article IV hereof.

"Class 3 Payment Percentage" means the portion of the Payment Percentage attributable to direct claims against Quigley. On the Effective Date, the "Class 3 Payment Percentage" initially shall be 7.5%.

"Class 4A Payment Percentage" means the percentage of full liquidated value that holders of Asbestos PI Claims in Class 4A will be entitled to receive on account of their Quigley claims from the Asbestos PI Trust pursuant to the Asbestos PI Trust Distribution Procedures. On the Effective Date, the Class 4A Payment Percentage initially shall be 7.5%.

"Class 4B Payment Percentage" means the percentage of full liquidated value that holders of Asbestos Claims in Class 4B will be entitled to receive on account of their Quigley claims and their Pfizer derivative claims from the Asbestos PI Trust pursuant to the Asbestos PI Trust Distribution Procedures. On the Effective Date, the Class 4B Payment Percentage initially shall be 30.5%, which shall reflect an initial 7.5% payment percentage on account of direct claims held against Quigley as well as 23% of the full liquidated value of any such Claim which holders of Other Asbestos PI Claims shall be entitled to receive from the Asbestos PI Trust as consideration for the release of Pfizer's derivative liability through the Asbestos PI Channeling Injunction.

"Common Stock" means the shares of common stock, par value $100 per share, of Quigley issued and outstanding as of the Petition Date.

"Confidentiality Injunction" means the injunction described in Section 11.11 of this Plan.

"Confirmation Date" means the date the Confirmation Order is entered on the docket maintained by the Clerk of the District Court or the Bankruptcy Court, as applicable, with respect to the Chapter 11 Case.

"Confirmation Hearing" means the hearing to be held by the Bankruptcy Court and/or District Court pursuant to section 1128 of the Bankruptcy Code to consider confirmation of the Plan, as such hearing may be adjourned or continued from time to time.

"Confirmation Order" means, as the context requires, the order or orders of the District Court confirming the Plan under section 1129 of the Bankruptcy Code or affirming an order of the Bankruptcy Court confirming the Plan under section 1129 of the Bankruptcy Code, which shall contain, among other things, the Asbestos PI Channeling Injunction, the Settling Asbestos Insurance Entity Injunction, the Non-Settling Asbestos Insurance Entity Injunction, and the Confidentiality Injunction.

"Coverage Case" means a litigation, arbitration or similar proceeding commenced against any insurer that is the issuer of a Shared Asbestos-Excluded Insurance Policy to recover payment from such insurer on account of an Allowed Silica Claim or a Silica Claim that has been rendered to Final Judgment against Quigley or Reorganized Quigley.

"Control" means the possession, directly or indirectly, of the power to direct or cause the direction of management, policies, or activities of an Entity, whether through ownership of voting securities, by contract or otherwise.

"Creditors' Committee" means the statutory committee of unsecured creditors appointed in the Chapter 11 Case by the United States Trustee on September 22, 2004, as thereafter modified or reconstituted.

"Cure" means the Distribution of Cash, or such other property as may be agreed upon by the parties and/or ordered by the Bankruptcy Court, with respect to the assumption of an Executory Contract pursuant to section 365(b) of the Bankruptcy Code, in an amount equal to all accrued, due, and unpaid monetary obligations, without interest, or such other amount as may be agreed upon by the parties or ordered by the Bankruptcy Court, under such Executory Contract, to the extent such obligations are enforceable under the Bankruptcy Code and applicable non-bankruptcy law.

"Debtor" means Quigley Company, Inc., debtor and debtor-in-possession in the Chapter 11 Case.

"Demand" means a demand for payment, present or future, within the meaning of section 524(g)(5) of the Bankruptcy Code that: (i) was not a Claim during the Chapter 11 Case; (ii) arises out of the same or similar conduct or events that gave rise to the Asbestos PI Claims; and (iii) pursuant to the Plan, is to be paid by the Asbestos PI Trust.

"DIP Claim" means Pfizer's Claim arising under the Senior Secured Loan Facility for all advances made on or after the Petition Date and for the use of Cash Collateral pursuant to: (a) the Interim Cash Collateral Order; and (b) the Final DIP/Cash Collateral Order.

"Disallowed" means, when used with respect to a Claim against Quigley, a Claim that: (a) is disallowed in whole or in part (but solely to the extent of such disallowance) by an order of the Bankruptcy Court or other court of competent jurisdiction; or (b) has been withdrawn, in whole or in part, by the holder thereof.

"Discharged Silica Claim" means a Silica Claim that is filed against Reorganized Quigley in a court of competent jurisdiction and which is determined to be subject to the Bar Date or Section 11.1 of the Plan and which determination is the subject of a Final Order.

"Disclosure Statement" means the written disclosure statement that relates to this Plan, including the exhibits and schedules thereto, as approved by the Bankruptcy Court as containing adequate information pursuant to section 1125 of the Bankruptcy Code and Rule 3017 of the Bankruptcy Rules, as such disclosure statement may be amended, modified, or supplemented from time to time.

"Disputed Claim" means a Claim, or any portion thereof, against Quigley that is neither Allowed nor Disallowed (other than Asbestos PI Claims) or is contingent, disputed or unliquidated (other than an Asbestos PI Claim), including Silica Claims.

"Disputed Claims Reserve" means the reserve to be created on or after the Effective Date by Reorganized Quigley in the initial amount of $7,500,000 to be funded from Pfizer's satisfaction of the Pfizer Tax Sharing Receivable, which reserve shall be for the exclusive purpose of satisfying any Allowed Class 3 Claims and any Silica Claim that has been rendered to Final Judgment against Quigley or Reorganized Quigley, subject to Sections 8.7 and 8.8 herein.

"Distribution Record Date" means the record date for determining an entitlement to receive Distributions under the Plan on account of Allowed Claims, which shall be the Confirmation Date.

"Distributions" means the properties or interests in property to be paid or distributed hereunder to the holders of Allowed Claims.

"District Court" means the United States District Court for the Southern District of New York.

"Effective Date" means the first Business Day on which all conditions precedent set forth in Section 12.2 of the Plan have been satisfied or waived as provided in Section 12.3 of the Plan.

"Encumbrance" means with respect to any property (whether real or personal, tangible or intangible), any mortgage, Lien, pledge, charge, security interest, assignment, or encumbrance of any kind or nature in respect of such property (including any conditional sale or other title retention agreement, any security agreement, and the filing of, or agreement to give, any financing statement under the Uniform Commercial Code or comparable law of any jurisdiction) to secure payment of a debt or performance of an obligation.

"Entity" means any person or entity, including, without limitation, any individual, company, corporation, limited liability company, partnership, association, joint stock company, joint venture, estate, trust, unincorporated organization, or government or any political subdivision thereof.

"Equity Interests" means all right, title and interest of Pfizer in the issued and outstanding shares of the Common Stock.

"Estate" means the estate created in Quigley's Chapter 11 Case under section 541 of the Bankruptcy Code.

"Excess Cash" means an amount equal to the greater of the following: (a) $0; and (b) the sum of (i) all Cash and short term Cash investments held by Quigley and (ii) the Pfizer Tax Sharing Receivable outstanding, as of the last day of the month immediately preceding the Effective Date, as adjusted for any tax consequences to Pfizer and Quigley as a result of the transactions contemplated by the Plan, *less* the sum of the following as of the Effective Date: (i) a working capital reserve in the amount of $1,000,000 (or such other amount as Quigley, after consultation with the Future Demand Holders' Representative and the Creditors' Committee, determines it requires for working capital purposes); (ii) the Allowed Amount of Allowed Administrative Claims; (iii) a reasonable estimate by Quigley of additional Administrative Claims (including, but not limited to, Fee Claims) that may become Allowed thereafter; (iv) the Allowed Amount of Allowed Priority Tax Claims; (v) a reasonable estimate by Quigley of additional Priority Tax Claims that may become Allowed Priority Tax Claims thereafter; (vi) the Allowed Amount of all Priority Claims; (vii) a reasonable estimate of all Priority Claims that may become Allowed Priority Claims thereafter; (viii) the Allowed Amount of all Unsecured Claims multiplied by the Class 3 Payment Percentage; (ix) any other Cash required to be paid or distributed by Quigley or Reorganized Quigley pursuant to the Plan, other than in respect of Cash to be contributed to the Asbestos PI Trust; and (x) the Disputed Claims Reserve

"Executory Contract" means any unexpired lease or executory contract that is subject to treatment under section 365 of the Bankruptcy Code.

"Fee Claim" means collectively, any Claim of a: (a) Professional for allowance of compensation and reimbursement of costs and expenses, and (b) member of the Creditors' Committee for reimbursement of costs and expenses, incurred in the Chapter 11 Case prior to and including the Effective Date.

"Final DIP/Cash Collateral Order" means the Final Order: (I) Authorizing Postpetition Financing; (II) Granting Security Interests and Superpriority Administrative Expense Status; (III) Authorizing the Use of Cash Collateral; (IV) Authorizing Quigley Company, Inc. to Enter into Financing Agreements; (V) Modifying the Automatic Stay; and (VI) Granting Replacement Liens and Rights to Adequate Protection, entered by the Bankruptcy Court on October 8, 2004, as supplemented by the Orders Under 11 U.S.C. § 105(a) and Fed. R. Bankr. P. 9006 and Local Rule 9074-1(b) Authorizing Extension of Term of Postpetition Financing Approved by Order of this Court Entered October 8, 2004, entered by the Bankruptcy Court on July 26, 2005, March 2, 2006, September 13, 2006, February 28, 2007, October 2, 2007, March 6, 2008, July 23, 2008, February 19, 2009, March 10, 2009, August 14, 2009, February 11, 2010, August 16, 2010, February 17, 2011, August 16, 2011, February 22, 2012 and subsequently to the date hereof.

"Final Judgment" or "Final Order" means a judgment or an order, as the case may be, as to which the time to appeal, petition for certiorari, or move for reargument or rehearing has expired and as to which no appeal, petition for certiorari or other proceedings for reargument or rehearing shall then be pending; provided, however, if an appeal, writ of certiorari, reargument or rehearing thereof has been filed or sought, (i)(a) such judgment or order shall have been affirmed by the highest court to which such judgment or order was appealed, or (b) certiorari shall have been denied or reargument or rehearing shall have been denied or resulted in no modification of such order, and the time to take any further appeal, petition for certiorari or move for reargument

or rehearing shall have expired, or (ii) such appeal, writ of certiorari, or request for reargument or rehearing shall have been dismissed with prejudice by the filing or seeking party.

"Future Demand Holders" means any and all holders of Demands, whether now known or hereafter discovered.

"Future Demand Holders' Representative" means Albert Togut (or any court-appointed successor), in his capacity as the court-appointed legal representative for all Future Demand Holders for the purpose of protecting the interests of persons that may subsequently assert Asbestos PI Claims channeled to the Asbestos PI Trust.

"Hatchett" means George L. Hatchett.

"Hatchett Bond" means the supersedeas bond in the amount of $174,624.87, dated March 31, 2004, and any other such bond, securing Hatchett's judgment against Quigley in the civil action styled George L. Hatchett, et al. v. Owens Corning, et al., to the extent of the value of the Hatchett Bond. The "Hatchett Bond" is not property of, or secured by property of, Quigley's estate.

"Hatchett Secured Claim" means the Claim of Hatchett based on the judgment obtained by Hatchett in the civil action styled George L. Hatchett, et al. v. Owens Corning, et al.

"Impaired" means, when used with respect to a Claim or an Equity Interest, a Claim or Equity Interest that is impaired within the meaning of section 1124 of the Bankruptcy Code.

"Indirect Asbestos PI Claim" means a Claim or Demand that is based upon a right of contribution, reimbursement, subrogation, indemnity (whether arising by contract or by operation of law) or virile share (as those terms are defined by the nonbankruptcy law of any relevant jurisdiction), or similar Claims or Demands, whether or not such Claim or Demand is reduced to judgment, liquidated, unliquidated, fixed, contingent, matured, unmatured, disputed, undisputed, legal, equitable, secured, or unsecured, whether or not the facts or legal bases therefore are known or unknown, and regardless of whether in the nature of, or sounding in, contract, tort, warranty, guarantee, contribution, joint and several liability, subrogation, reimbursement, indemnity, statutory right, conspiracy, conducting a fraudulent defense, or any other theory of law, equity, or admiralty, and arising out of or related to an Asbestos PI Claim; provided, however, that "Indirect Asbestos PI Claim" shall not include (a) Count I of the complaint in the pending action styled Certain Underwriters at Lloyd's, London, et al. v. Allstate Insurance Co., et al., Index No. 603900/001 (NY Supreme Court, County of New York), or (b) any claims of Allstate Insurance Company against Pfizer Inc for indemnification under Section VI of the Settlement Agreement Between and Among Pfizer Inc, Quigley Company, Inc. and Allstate Insurance Company Concerning Asbestos-Related Bodily Injury Claims effective June 1, 1999, as amended in or around April, 2004, pursuant to an Addendum to Settlement Agreement Between and Among Pfizer Inc, Quigley Company, Inc. and Allstate Insurance Company Concerning Asbestos-Related Bodily Injury Claims.

"Initial Distribution Date" means the date, not later than thirty (30) days after the Effective Date, on which Reorganized Quigley commences Distributions under the Plan.

"Insurance Relinquishment Agreement" means the agreement, to be dated as of the Effective Date, by and between Quigley and Pfizer, substantially in the form annexed hereto as Exhibit K.

"Insurance Settlement Agreements" means the agreements listed on the annexed Exhibit F, as such exhibit may be amended, supplemented, or otherwise modified by Quigley from time to time prior to the Confirmation Date; provided, however, that the defined term "Insurance Settlement Agreements" shall not include the AIG Insurance Settlement Agreement or any insurance settlement agreement related solely to the Shared Asbestos-Excluded Insurance Policies or the Shared Asbestos-Excluded Claims-Made Insurance Policies.

"Insurance Settlement Proceeds Trust" means the Pfizer/Quigley Joint Insurance Fund Trust established by Pfizer and Quigley pursuant to the Insurance Settlement Proceeds Trust Agreement.

"Insurance Settlement Proceeds Trust Agreement" means the Pfizer/Quigley Joint Insurance Fund Trust Agreement, dated as of August 27, 2004, by and among Pfizer, Quigley, and JPMorgan Chase Bank, as trustee.

"Interim Cash Collateral Order" means that Interim Order (I) Authorizing the Use of Cash Collateral; (II) Granting Replacement Liens and Rights to Adequate Protection; and (III) Scheduling a Final Hearing on the Debtor's Motion to Obtain Post-Petition Financing, entered by the Bankruptcy Court on September 7, 2004.

"Liabilities" means any and all costs, expenses, actions, causes of action, suits, controversies, damages, claims, demands, debts, liabilities or obligations of any nature, whether known or unknown, foreseen or unforeseen, existing or hereinafter arising, liquidated or unliquidated, matured or not matured, contingent or direct, whether arising at common law, in equity, or under any statute, based in whole or in part on any act or omission or other occurrence arising or taking place on or prior to the Effective Date.

"Lien" has the meaning ascribed to such term in section 101(37) of the Bankruptcy Code.

"Master Service List" means the master service list, as amended from time to time, established in the Chapter 11 Case pursuant to an order of the Bankruptcy Court dated September 7, 2004.

"Non-Settling Asbestos Insurance Entity" means an Asbestos Insurance Entity that is not a Settling Asbestos Insurance Entity.

"Non-Settling Asbestos Insurance Entity Injunction" means the injunction described in Section 11.8 of the Plan.

"Other Asbestos PI Claims" means, collectively, all Asbestos PI Claims other than the Pre-September 2010 Settled Asbestos PI Claims.

"Other Secured Bond Claims" means, collectively, all Secured Bond Claims against Quigley, other than the Secured Bond Claims included in Classes 2.02 through 2.05, that are based on a prepetition judgment obtained by a claimant against Quigley for an asbestos personal injury claim and are secured, in whole or in part, by a supersedeas bond.

"Payment Percentage" means the percentage of full liquidated value that holders of Asbestos PI Claims will be entitled to receive on account of their Quigley claims from the Asbestos PI Trust pursuant to the Asbestos PI Trust Distribution Procedures. The "Payment Percentage" on the Effective Date initially shall be (i) 7.5% for all Pre-September 2010 Settled Asbestos PI Claims (Class 4A) and (ii) 30.5% for all Other Asbestos PI Claims (Class 4B), which shall reflect an initial 7.5% payment percentage on account of claims held against Quigley as well as 23% of full liquidated value that such holders of Other Asbestos PI Claims shall be entitled to receive from the Asbestos PI Trust as consideration for the release of Pfizer's derivative liability through the Asbestos PI Channeling Injunction.

"Pending Appeal" means collectively, with respect to a Secured Bond Claim: (a) the pending appeal from the judgment underlying such Claim; (b) any further proceedings ordered, required or held on remand from such pending appeal; and (c) any appeal, petition for a writ of mandamus or certiorari, request for rehearing or reargument thereof, or further proceedings on remand from any proceeding described herein.

"Petition Date" means September 3, 2004, the date the Chapter 11 Case was commenced.

"Pfizer" means Pfizer Inc, a Delaware corporation.

"Pfizer's Cash Contribution" means Pfizer's cash contribution to the Asbestos PI Trust on the Effective Date in the amount of $260,061,797.

"Pfizer Claimant Settlement Agreement" means any settlement agreement entered into between Pfizer and certain holders of Asbestos PI Claims or their counsel prior to the issuance of the Bankruptcy Court's confirmation decision in September 2010, pursuant to which the holders of such Claims agreed to resolve all current and future asbestos personal injury claims against the Pfizer Protected Parties.

"Pfizer Contribution" means, collectively, the contributions of, and benefits provided by, Pfizer on behalf of itself and the other Pfizer Protected Parties, as follows:

(a) Pfizer's execution and delivery to Reorganized Quigley of the Insurance Relinquishment Agreement;

(b) Pfizer's execution and delivery to the Asbestos PI Trust of the AIG Assignment Agreement;

(c) Pfizer's agreement to forgive the Pfizer Secured Claim as of the Effective Date;

(d) Pfizer's agreement to forgive the Pfizer Unsecured Claim as of the Effective Date;

(e) Pfizer's agreement to forgive the DIP Claim as of the Effective Date;

(f) Pfizer's Cash Contribution;

(g) Pfizer's transfer of the Quigley Operations to Quigley or Reorganized Quigley, as applicable; and

(h) Pfizer's transfer of 100% of the common stock of Reorganized Quigley to the Asbestos PI Trust; provided that following the transfer of 100% of the common stock of Reorganized Quigley to the Asbestos PI Trust, any dividends that are declared on such common stock shall be used to fund the Asbestos PI Trust.

"Pfizer Protected Parties" means: (a) Pfizer; (b) Pfizer's Affiliates (other than Quigley) as of the date hereof, including, without limitation, those listed on Schedule 1 hereto; and (c) Mineral Technologies Inc.

"Pfizer Secured Claim" means Pfizer's Claim for all amounts outstanding as of the Petition Date under the Senior Secured Loan Facility, plus interest accruing from and after the Petition Date.

"Pfizer Tax Sharing Receivable" means any amount owed to Quigley or Reorganized Quigley, as the case may be, by Pfizer under the Tax Sharing Agreement.

"Pfizer Unsecured Claim" means, collectively, the Unsecured Claims held by Pfizer against Quigley totaling $33,370,920.38.

"Plan" means this plan of reorganization of Quigley under chapter 11 of the Bankruptcy Code, including any supplements, schedules and exhibits hereto, either in its present form or as the same may be amended, modified or supplemented from time to time in accordance with the terms hereof.

"Plan Contributors" means, collectively, Pfizer, on behalf of itself and the other Pfizer Protected Parties, and Quigley.

"Plan Documents" means the Plan, the Disclosure Statement, the Asbestos PI Trust Agreement, the Asbestos PI Trust Distribution Procedures, the AIG Assignment Agreement, the Insurance Relinquishment Agreement, any document contained in the Plan Supplement, all of the exhibits and schedules attached to any of the foregoing, and any other document necessary to implement the Plan.

"Plan Supplement" means the compilation of documents or forms of documents specified in the Plan, including, but not limited to, the documents specified in Section 14.4 of the

Plan and any exhibits to the Plan not included herewith, each in form and substance acceptable to Quigley and Pfizer, which Quigley shall file with the Bankruptcy Court on or before the date that is five (5) Business Days prior to the deadline for the filing and service of objections to the Plan, all of which are incorporated herein by reference.

"Preliminary Injunction Order" means the Injunction Pursuant to 11 U.S.C. §§ 105(a) and 362(a) and Federal Rule of Bankruptcy Procedure 7065, dated December 17, 2004 (as amended on December 6, 2007).

"Pre-September 2010 Settled Asbestos PI Claims" means, collectively, the Asbestos PI Claims held by parties to Pfizer Claimant Settlement Agreements.

"Priority Claim" means any Claim entitled to priority pursuant to section 507(a) of the Bankruptcy Code other than an Administrative Claim, DIP Claim, or a Priority Tax Claim.

"Priority Tax Claim" means any Claim entitled to priority pursuant to section 507(a)(8) of the Bankruptcy Code.

"Products/Completed Operations Coverage" means the coverage afforded under an insurance policy for claims within the scope of the "products hazard" and/or the "completed operations hazard" (or any other policy term providing coverage for claims arising from an insured's products or reliance on a representation or warranty made with respect to such products, provided that the alleged injury occurred away from the insured's premises and after the insured had relinquished physical possession of such products to others).

"Professional" means any person retained or to be compensated pursuant to section 327, 328, 330, 503(b), 506(b), 524(g) or 1103 of the Bankruptcy Code, including the Future Demand Holders' Representative and any person or entity retained thereby.

"Proof of Claim" means any proof of claim filed with the Bankruptcy Court or the Claims Agent pursuant to Bankruptcy Code section 501 and Rule 3001 or 3002 of the Bankruptcy Rules that asserts a Claim against Quigley.

"Provost Settlement Agreement" means that certain settlement agreement made and entered into as of May 6, 2013 by and between Pfizer, holders of Provost Silica Claims and Provost Umphrey.

"Provost Silica Claim" means any Silica Claim timely filed by the Bar Date against Quigley held by a Person listed on Schedule 1 to the Provost Settlement Agreement.

"Provost Umphrey" means Provost Umphrey Law Firm, L.L.P.

"Pro Rata Share" means, with respect to any Claim, a proportionate share, so that the ratio of the consideration distributed on account of an Allowed Claim in a Class to the amount of such Allowed Claim is the same as the ratio of the amount of the consideration distributed on account of all Allowed Claims in such Class to the amount of all Allowed Claims in such Class.

"Quigley" means Quigley Company, Inc., a New York corporation, debtor and debtor-in-possession.

"Quigley Contribution" means the consideration to be delivered pursuant to the terms of the Plan on or after the Effective Date, by and on behalf of Quigley or Reorganized Quigley, as the case may be, to the Asbestos PI Trust, on account of Asbestos PI Claims, consisting of: (a) the Quigley Insurance Transfer; (b) Excess Cash; and (c) Quigley's execution and delivery to the Asbestos PI Trust of the AIG Assignment Agreement.

"Quigley Insurance Transfer" means the transfer, grant, and assignment by Quigley of the Quigley Transferred Insurance Rights to the Asbestos PI Trust as part of the Quigley Contribution; provided, however, such transfer, grant and assignment is not, and shall not be deemed to be, a transfer, grant or assignment of the Shared Asbestos Insurance Policies, the Insurance Settlement Agreements or any other settlement agreements with any Asbestos Insurance Entity themselves.

"Quigley Insurer Receivable" means any unpaid amount Quigley billed to any insurer prior to the Petition Date pursuant to any Insurance Settlement Agreement and/or the Products/Completed Operations Coverage under any insurance policy to the extent that it gives rise to any such amount.

"Quigley Operations" means the commercial real property subject to the Standard Industrial Lease dated October 12, 2010 with Straub Distributing Company, Ltd., which will be owned and operated by Reorganized Quigley from and after the Effective Date.

"Quigley Person" means each of: (a) Quigley and (b) Quigley's former and present employees, directors, or officers, acting in such capacity.

"Quigley Transferred Insurance Rights" means, subject to the terms and conditions of the AIG Assignment Agreement and the Insurance Relinquishment Agreement, any and all of Quigley's rights, titles, privileges, interests, Claims, demands or entitlements to any proceeds, payments, initial or supplemental dividends, scheme payments, supplemental scheme payments, state guaranty fund payments, Causes of Action and choses in action in, under, for or related to the following: (a) the Shared Asbestos Insurance Policies, the Insurance Settlement Agreements, and any other settlement agreements with any Asbestos Insurance Entity; (b) the Quigley Insurer Receivables; (c) the Asbestos Insurance Actions; (d) all amounts held in the Insurance Settlement Proceeds Trust as of the Effective Date, including all AIG Payments, other insurance proceeds, and any interest earned thereon; and (e) all AIG Payments to be made after the Effective Date; provided, however, that the Quigley Transferred Insurance Rights shall not include (x) Quigley's rights, titles, privileges, interests, Claims, demands or entitlements to any proceeds, payments, initial or supplemental dividends, scheme payments, supplemental scheme payments, state guaranty fund payments, Causes of Action and choses in action in, under, for or related to a Shared Asbestos Insurance Policy, Insurance Settlement Agreement and/or any other settlement agreement with any Asbestos Insurance Entity in the event there is a final and binding determination (by settlement or adjudication) that such Shared Asbestos Insurance Policy, Insurance Settlement Agreement and/or any other settlement agreement with any Asbestos Insurance Entity does not provide Products/Completed Operations Coverage for Asbestos PI

Claims; (y) the Shared Asbestos Insurance Policies, the Insurance Settlement Agreements, the AIG Insurance Settlement Agreement, or any other settlement agreements with any Asbestos Insurance Entity themselves; and (z) any unpaid amount that Pfizer billed to any insurer prior to the Petition Date pursuant to any settlement agreement with any Asbestos Insurance Entity, as set forth in Schedule 5 to the Insurance Relinquishment Agreement, which shall remain the property of Pfizer.

"Rejection Claim" means a Claim for damages under section 502(g) of the Bankruptcy Code resulting from the rejection of an executory contract or unexpired lease by Quigley or Reorganized Quigley.

"Related Party" means—

(a) a past or present Affiliate of Quigley or Reorganized Quigley;

(b) a predecessor in interest of Quigley or Reorganized Quigley; or

(c) any Entity that owned a financial interest in—

(i) Quigley or Reorganized Quigley;

(ii) a past or present Affiliate of Quigley or Reorganized Quigley; or

(iii) a predecessor in interest of Quigley or Reorganized Quigley.

"Released Parties" shall have the meaning ascribed to such term in Section 11.3 of the Plan.

"Reorganized Quigley" means Quigley, or any successor thereto by merger, consolidation, or otherwise, on and after the Effective Date.

"Representatives" means, with respect to any specified Entity, the officers, directors, employees, agents, attorneys, accountants, financial advisors, other representatives, subsidiaries, affiliates, or any person who controls any of these within the meaning of the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

"Schedules" means the schedules of assets and liabilities and the statements of financial affairs of Quigley as filed with the Bankruptcy Court by Quigley in accordance with section 521 of the Bankruptcy Code, as such schedules and statements may have been or may be amended or supplemented from time to time.

"Secured Bond Claims" means, collectively: (a) the Hatchett Secured Claim, (b) the Sherry Secured Claim, and (c) the Other Secured Bond Claims.

"Secured Claims" means, collectively, the Pfizer Secured Claim and the Secured Bond Claims.

"Senior Secured Loan Facility" means the Credit and Security Agreement, dated as of March 6, 2003: (a) as amended on May 29, 2003 and October 29, 2003, between Quigley, as borrower, and Pfizer, as lender; (b) as further amended on October 8, 2004 pursuant to Amendment No. 3 to Credit and Security Agreement, between Quigley, as borrower, and Pfizer, as lender, and approved by the Bankruptcy Court pursuant to the Final DIP/Cash Collateral Order; (c) as further amended on February 18, 2005 pursuant to Amendment No. 4 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (d) as further amended on July 15, 2005 pursuant to Amendment No. 5 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (e) as further amended on January 31, 2006 pursuant to Amendment No. 6 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (f) as further amended on August 9, 2006 pursuant to Amendment No. 7 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (g) as further amended on January 18, 2007 pursuant to Amendment No. 8 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (h) as further amended on August 10, 2007 pursuant to Amendment No. 9 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (i) as further amended on February 14, 2008 pursuant to Amendment No. 10 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (j) as further amended on June 20, 2008 pursuant to Amendment No. 11 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (k) as further amended on February 17, 2009 pursuant to Amendment No. 12 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (l) as further amended on July 20, 2009 pursuant to Amendment No. 13 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (m) as further amended on January 21, 2010 pursuant to Amendment No. 14 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (n) as further amended on July 27, 2010 pursuant to Amendment No. 15 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (o) as further amended on January 28, 2011 pursuant to Amendment No. 16 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender; (p) as further amended on July 28, 2011 pursuant to Amendment No. 17 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender, and (q) as further amended on February 2, 2012 pursuant to Amendment No. 18 to Credit and Security Agreement between Quigley, as borrower, and Pfizer, as lender.

"Settling Asbestos Insurance Entity" means each Asbestos Insurance Entity (a) listed on Exhibit F to the Plan, including, without limitation, the AIG Companies, and (b) that Quigley adds to Exhibit F to the Plan prior to the Confirmation Date. Nothing herein, however, shall prevent any Asbestos Insurance Entity that enters into an Insurance Settlement Agreement prior to the Confirmation Date, after first seeking Quigley's recommendation prior to the Confirmation Date, from petitioning the Bankruptcy Court for treatment under section 524(g) of the Bankruptcy Code and this Plan as a "Settling Asbestos Insurance Entity."

"Settling Asbestos Insurance Entity Injunction" means the injunction described in Section 11.7 of the Plan.

"Shared Asbestos-Excluded Insurance Policies" means the occurrence-based policies listed on Exhibit D to the Plan, as such exhibit may be amended by Quigley from time to time prior to the Effective Date.

"Shared Asbestos Insurance Policies" means the occurrence-based policies listed on Exhibit C to the Plan, as such exhibit may be amended by Quigley from time to time prior to the Effective Date.

"Shared Asbestos-Excluded Claims-Made Insurance Policies" means the claims-made excess liability policies listed on Exhibit E to the Plan, as such exhibit may be amended by Quigley from time to time prior to the Effective Date.

"Sherry" means Edward J. Sherry.

"Sherry Bond" means the supersedeas bond in the amount of $258,444.80, dated March 31, 2004, and any other such bond, securing Sherry's judgment against Quigley in the civil action styled Edward J. Sherry, et al. v. Owens Corning, et al., to the extent of the value of the Sherry Bond. The "Sherry Bond" is not property of, or secured by property of, Quigley's estate.

"Sherry Secured Claim" means the Claim of Sherry based on the judgment obtained by Sherry in the civil action styled Edward J. Sherry, et al. v. Owens Corning, et al.

"Silica Claim" means any Claim against Quigley or Reorganized Quigley seeking recovery for damages for, arising out of or relating to bodily injury allegedly caused by the presence of, or exposure to, silica, alpha quartz or silica-containing products or materials allegedly made, used or sold by Quigley. "Silica Claim" shall not include any claim for benefits under any government-mandated workers' compensation system.

"Solicitation Procedures Order" means the order entered by the Bankruptcy Court on September 4, 2012, which, among other things, approves procedures for soliciting and tabulating the votes to accept or reject the Plan cast by holders of Claims against and Equity Interests in Quigley, including, without limitation, Asbestos PI Claims.

"Tax Sharing Agreement" means the Tax Sharing Agreement entered into by and among Pfizer and certain of its Affiliates, including Quigley, dated December 31, 2003, pursuant to which the parties to the agreement established a method for allocating their consolidated tax liability.

"Trust Advisory Committee" means the trust advisory committee established pursuant to the terms of the Plan and the Asbestos PI Trust Agreement.

"Trust Bylaws" means the Quigley Company, Inc. Asbestos PI Trust Agreement Bylaws, effective as of the Effective Date, substantially in the form as Exhibit B attached to the Asbestos PI Trust Agreement, as such bylaws may be amended or modified from time to time in accordance with the terms of the Asbestos PI Trust Agreement.

"Trustee" means an individual appointed by the Bankruptcy Court to serve as one of the trustees of the Asbestos PI Trust pursuant to the terms of the Plan and the Asbestos PI Trust Agreement or who subsequently may be appointed pursuant to the terms of the Asbestos PI Trust Agreement.

"Trust Expenses" means any of the liabilities, costs, or expenses of, or imposed upon, or assumed by the Asbestos PI Trust (other than liabilities to holders of Asbestos PI Claims in respect of such Asbestos PI Claims), as incurred in accordance with the provisions of the Asbestos PI Trust Agreement.

"Unimpaired" means a Claim or Equity Interest, or a Class of Claims or Equity Interests, that is not Impaired under this Plan.

"United States Trustee" means the United States Trustee appointed under section 591, title 28, United States Code to serve in the Southern District of New York.

"Unsecured Claim" means a Claim against Quigley that is not secured by a valid and enforceable Lien against property of Quigley and that is not an Administrative Claim, a Priority Claim, a Priority Tax Claim or an Asbestos PI Claim.

Section 1.2 Interpretation; Application of Definitions; Rules of Construction and Computation of Time. The headings in the Plan are for convenience of reference only and shall not limit or otherwise affect the provisions hereof. Wherever from the context it appears appropriate, each term stated in either the singular or the plural will include both the singular and the plural, and pronouns stated in the masculine, feminine, or neuter gender will include the masculine, feminine, and neuter. Unless otherwise specified, all Article, Section, Schedule or Exhibit references in the Plan are to the respective article or section of, or schedule or exhibit to, the Plan. For purposes of the Plan: (a) any reference in the Plan to a contract, instrument, release, or other agreement or document being in a particular form or on particular terms and conditions means that such document will be substantially in such form or substantially on such terms and conditions; and (b) any reference in the Plan to an existing document or exhibit filed or to be filed means such document or exhibit as it may have been or may be amended, modified, or supplemented. The words "herein," "hereof," "hereto," "hereunder," and other words of similar meaning refer to the Plan as a whole and not to any particular section, subsection or clause contained in the Plan. The rules of construction contained in section 102 of the Bankruptcy Code will apply to the construction of the Plan. Unless otherwise stated herein, all references to dollars mean United States dollars. In computing any period of time prescribed or allowed by the Plan, unless otherwise expressly provided, the provisions of Rule 9006(a) of the Bankruptcy Rules will apply.

Section 1.3 Exhibits. All exhibits and schedules to this Plan, to the extent not annexed hereto and any agreements referred to herein and therein will be available for review following their filing with the Bankruptcy Court (a) at http://www.bmcgroup.com/quigley, and (b) on Business Days from 9:00 a.m. through 5:00 p.m. (prevailing New York time), at the following address:

Schulte Roth & Zabel LLP
919 Third Avenue
New York, NY 10022
Attention: Aaron B. Wernick, Esq.

Section 1.4 Ancillary Documents. Each of the Schedules and Exhibits to the Plan (whether annexed hereto or included in the Plan Supplement), the Disclosure Statement, and the schedules and exhibits to the Disclosure Statement are an integral part of the Plan and are hereby incorporated by reference and made a part of the Plan, including, without limitation, the Asbestos PI Trust Agreement, the Asbestos PI Trust Distribution Procedures, the Amended Charter Documents, and the other Plan Documents.

Section 1.5 "*Contra Proferentem*" Rule Not Applicable. This Plan is the product of extensive discussions and negotiations between and among, *inter alia*, the Plan Contributors, the members of the Creditors' Committee, the Future Demand Holders' Representative and Representatives of certain other holders of Asbestos PI Claims, including the members of the Ad Hoc Committee. Each of the foregoing was represented by counsel who either participated in the formulation and documentation of, or was afforded the opportunity to review and provide comments on, this Plan, the Disclosure Statement, and the documents ancillary thereto. Accordingly, the rule of contract construction known as "*contra proferentem*" shall not apply to the interpretation of any provision of this Plan, the Disclosure Statement, the other Plan Documents or any agreement or document generated in connection herewith.

ARTICLE II

CLASSIFICATION OF CLAIMS AND EQUITY INTERESTS

Section 2.1 Claims and Equity Interests Classified. For purposes of organization, voting, and all Plan confirmation matters, and except as otherwise provided herein, all Claims against and Equity Interests in Quigley are classified as set forth in this Article II of the Plan. In accordance with section 1123(a)(1) of the Bankruptcy Code, Administrative Claims, the DIP Claim and Priority Tax Claims described in Article III of this Plan have not been classified and are excluded from the following Classes. A Claim or Equity Interest is classified in a particular Class only to the extent that the Claim or Equity Interest falls within the description of the Class, and is classified in another Class or Classes to the extent that any remainder of the Claim or Equity Interest falls within the description of such other Class or Classes. Notwithstanding anything to the contrary contained in this Plan, no Distribution shall be made by Reorganized Quigley on account of any Claim that is not an Allowed Claim for distribution purposes. The Bankruptcy Court at the Confirmation Hearing shall resolve any dispute with respect to Quigley's classification of Claims and Equity Interests.

Section 2.2 Summary of Classification of Claims and Equity Interests. A Claim or Equity Interest is placed in a particular Class only to the extent that the Claim or Equity Interest falls within the description of that Class, and is classified in other Classes to the extent that any portion of the Claim or Equity Interest falls within the description of such other Classes. A Claim is also placed in a particular Class for the purpose of receiving distributions pursuant to the Plan only to the extent that such Claim is an Allowed Claim in that Class and such Claim has not been paid, released, or otherwise settled prior to the Effective Date.

For purposes of all confirmation matters, including, without limitation, voting on, confirmation of, and Distributions under, the Plan, and except as otherwise provided herein, all

Claims (other than Administrative Claims (including Fee Claims), the DIP Claim, and Priority Tax Claims, which are not classified) against and Equity Interests in Quigley are classified as follows:

CLASS	CLASS NAME	STATUS
Class 1	Priority Claims	Unimpaired – not entitled to vote
Class 2	Secured Claims	
	Class 2.01: Pfizer Secured Claim	Impaired – not entitled to vote
	Class 2.02: RESERVED	RESERVED
	Class 2.03: Hatchett Secured Claim	Unimpaired – not entitled to vote
	Class 2.04: Sherry Secured Claim	Unimpaired – not entitled to vote
	Class 2.05: Other Secured Bond Claims	Unimpaired – not entitled to vote
Class 3	Unsecured Claims	Impaired – entitled to vote
Class 4A	Pre-September 2010 Settled Asbestos PI Claims	Impaired – entitled to vote
Class 4B	Other Asbestos PI Claims	Impaired – entitled to vote
Class 5	Equity Interests in Quigley	Impaired – not entitled to vote

Section 2.3 Classification.

(a) Class 1: Priority Claims. Class 1 consists of all Priority Claims.

(b) Class 2: Secured Claims. Class 2 consists of separate subclasses for each Secured Claim. Each subclass is deemed to be a separate class for all purposes under the Bankruptcy Code.

(i) Class 2.01: Pfizer Secured Claim

Class 2.01 consists of the Pfizer Secured Claim.

(ii) Class 2.02: RESERVED

(iii) Class 2.03: Hatchett Secured Claim

Class 2.03 consists of the Hatchett Secured Claim.

(iv) Class 2.04: Sherry Secured Claim

Class 2.04 consists of the Sherry Secured Claim.

(v) Class 2.05: Other Secured Bond Claims

Class 2.05 consists of all Other Secured Bond Claims.

(c) Class 3: Unsecured Claims. Class 3 consists of all Unsecured Claims.

(d) Class 4A: Pre-September 2010 Settled Asbestos PI Claims. Class 4A consists of all Pre-September 2010 Settled Asbestos PI Claims.

(e) Class 4B: Other Asbestos PI Claims. Class 4B consists of all Other Asbestos PI Claims.

(f) Class 5: Equity Interests in Quigley. Class 5 consists of all Equity Interests in Quigley.

ARTICLE III

TREATMENT OF UNCLASSIFIED CLAIMS

Section 3.1 Allowed Administrative Claims. Holders of Allowed Administrative Claims (other than Fee Claims, which are governed by Section 3.2 of this Plan) shall receive Cash in an amount equal to the unpaid portion of such Allowed Administrative Claims, in full satisfaction, settlement and discharge of and in exchange for such Claims on the Effective Date, or as soon as practicable after such Claims become Allowed Claims (if the date of allowance is later than the Effective Date), or such amounts and on such other terms as may be agreed on between the holders of such Claims and Quigley or Reorganized Quigley, as the case may be; provided, however, that Allowed Administrative Claims with respect to liabilities incurred by Quigley in the ordinary course of business during the Chapter 11 Case shall be paid in the ordinary course of business in accordance with the terms and conditions of any agreement or course of dealing relating thereto.

Section 3.2 Professional Compensation and Reimbursement Claims. All Entities seeking payment of a Fee Claim (including a request under section 503(b)(4) of the Bankruptcy Code by any Professional or other Entity for making a substantial contribution in the Chapter 11 Case) must file with the Bankruptcy Court and serve their respective final applications for allowance of such Fee Claim so as to be received by Reorganized Quigley and its counsel no later than forty-five (45) days after the Effective Date or such other date as may be fixed by the Bankruptcy Court; provided, however, that any Professional who is entitled to receive compensation or reimbursement of expenses pursuant to orders of the Bankruptcy Court, may continue to receive such compensation and reimbursement of expenses for services rendered before the Effective Date, without further review or approval of the Bankruptcy Court, pursuant to such orders. Objections to any Fee Claim must be filed and served on Reorganized Quigley and the requesting party within thirty (30) days of the date of service of the application for payment of the Fee Claim. If the application for payment of the Fee Claim is granted by the Bankruptcy Court, the Allowed Fee Claim shall be paid in Cash in such amounts as Allowed by the Bankruptcy Court within ten (10) days of the date of becoming an Allowed Fee Claim.

Section 3.3 Priority Tax Claims. Except to the extent that the holder of an Allowed Priority Tax Claim has been paid by Quigley prior to the Effective Date or agrees to a different treatment, each holder of an Allowed Priority Tax Claim, if any, shall, in accordance with section 1129(a)(9)(C) of the Bankruptcy Code, receive in full satisfaction, settlement and discharge of and in exchange for such Allowed Priority Tax Claim, Cash in an amount equal to the unpaid portion of such Allowed Priority Tax Claim on the Effective Date or as soon as

practicable after such Priority Tax Claim becomes an Allowed Priority Tax Claim (if the date of allowance is later than the Effective Date).

Section 3.4 DIP Claim. On and as of the Effective Date, Pfizer, the holder of the DIP Claim, shall forgive the DIP Claim as part of the Pfizer Contribution.

ARTICLE IV

TREATMENT OF CLASSIFIED CLAIMS AND EQUITY INTERESTS

Section 4.1 Class 1 – Priority Claims. Except to the extent a holder of an Allowed Priority Claim has been paid prior to the Effective Date or agrees to a different treatment, each holder of an Allowed Priority Claim shall receive in full satisfaction, settlement and discharge of and in exchange for such Claim, Cash in an amount equal to the unpaid portion of such Allowed Priority Claim on or before the later of: (a) the Initial Distribution Date; and (b) the date the Claim becomes an Allowed Priority Claim, or as soon thereafter as practicable. All Allowed Priority Claims not due and payable on or before the Effective Date shall be paid in the ordinary course of business in accordance with the terms thereof.

Class 1 is not Impaired under the Plan. Each holder of an Allowed Priority Claim is deemed to have accepted the Plan and is therefore not entitled to vote to accept or reject the Plan.

Section 4.2 Class 2 – Secured Claims. Each Class 2 Secured Claim shall be treated as a separate class for purposes of voting on, implementing, and consummating the Plan, and each holder of an Allowed Class 2 Secured Claim shall receive the treatment set forth below.

(a) Class 2.01: Pfizer Secured Claim

On and as of the Effective Date, Pfizer, as the holder of the Pfizer Secured Claim, shall forgive the Pfizer Secured Claim as part of the Pfizer Contribution.

Class 2.01 is Impaired under the Plan. Notwithstanding the fact that this claim is held exclusively by Pfizer, which is supporting the Plan through the Pfizer Contribution, the Code requires that such class be deemed to have rejected the Plan.

(b) Class 2.02: RESERVED

(c) Class 2.03: Hatchett Secured Claim

On the Effective Date, Hatchett, as the holder of the Hatchett Secured Claim, shall be entitled to proceed with the Pending Appeal of the judgment underlying the Hatchett Secured Claim to Final Judgment as provided for under the terms of the Hatchett Bond and in accordance with applicable law. If the Final Judgment is ultimately entered against Quigley or Reorganized Quigley, as the case may be, Hatchett shall be entitled to seek payment of the Final Judgment from the Hatchett Bond. If, after application of the amounts received on account of the Hatchett Bond to the Final Judgment, Hatchett holds an Asbestos PI Deficiency Claim, the sole recourse of Hatchett for such Asbestos PI Deficiency Claim shall be to proceed against the Asbestos PI

Trust in accordance with the Asbestos PI Trust Distribution Procedures, pursuant to which such Asbestos PI Deficiency Claim shall be treated as a Pre-Petition Liquidated Asbestos PI Claim, as that term is defined in the Asbestos PI Trust Distribution Procedures. If the Final Judgment ultimately reverses any extant judgment against Quigley, then any remaining Asbestos PI Claim that Hatchett may have shall automatically and without further act, deed or court order be channeled to and assumed by the Asbestos PI Trust in accordance with and to the extent set forth in Articles IX and XI of the Plan.

Class 2.03 is not Impaired under the Plan. Hatchett, as the holder of the Hatchett Secured Claim, is deemed to have accepted the Plan and is therefore not entitled to vote to accept or reject the Plan.

(d) Class 2.04: Sherry Secured Claim

On the Effective Date, Sherry, as the holder of the Sherry Secured Claim, shall be entitled to proceed with the Pending Appeal of the judgment underlying the Sherry Secured Claim to Final Judgment as provided for under the terms of the Sherry Bond and in accordance with applicable law. If the Final Judgment is ultimately entered against Quigley or Reorganized Quigley, as the case may be, Sherry shall be entitled to seek payment of the Final Judgment from the Sherry Bond. If, after application of the amounts received on account of the Sherry Bond to the Final Judgment, Sherry holds an Asbestos PI Deficiency Claim, the sole recourse of Sherry for such Asbestos PI Deficiency Claim shall be to proceed against the Asbestos PI Trust in accordance with the Asbestos PI Trust Distribution Procedures, pursuant to which such Asbestos PI Deficiency Claim shall be treated as a Pre-Petition Liquidated Asbestos PI Claim, as that term is defined in the Asbestos PI Trust Distribution Procedures. If the Final Judgment ultimately reverses any extant judgment against Quigley, then any remaining Asbestos PI Claim that Sherry may have shall automatically and without further act, deed or court order be channeled to and assumed by the Asbestos PI Trust in accordance with and to the extent set forth in Articles IX and XI of the Plan.

Class 2.04 is not Impaired under the Plan. Sherry, as the holder of the Sherry Secured Claim, is deemed to have accepted the Plan and is therefore not entitled to vote to accept or reject the Plan.

(e) Class 2.05: Other Secured Bond Claims

On the Effective Date, any holder of an Other Secured Bond Claim shall be entitled to the same treatment as the holders of the Secured Claims in Classes 2.02 through 2.04.

Class 2.05 is not Impaired under the Plan. The holders of any Other Secured Bond Claim are deemed to have accepted the Plan and are therefore not entitled to vote to accept or reject the Plan.

Section 4.3 Class 3 –Unsecured Claims. On or before the later of: (a) the Initial Distribution Date; and (b) the date the Unsecured Claim becomes an Allowed Unsecured Claim, or as soon thereafter as practicable, each holder of an Allowed Unsecured Claim shall receive in full satisfaction, settlement and discharge of and in exchange for such Claim, Cash in

an amount equal to the Allowed Amount of such Unsecured Claim multiplied by the Class 3 Payment Percentage; provided, however; that the Provost Silica Claims shall be satisfied solely from any proceeds recovered from the Shared Asbestos-Excluded Insurance Policies and in accordance with the Class 3 Payment Percentage.

Class 3 is Impaired under the Plan. Each holder of an Unsecured Claim shall be entitled to vote to accept or reject the Plan to the extent and in the manner provided in the Solicitation Procedures Order.

Nothing contained in this Plan or the Confirmation Order (including the findings of fact and conclusions of law contained therein) shall limit, abridge, or otherwise impair the right of any holder of a Silica Claim who timely filed a proof of claim on account of such Claim to seek to have his or her Claim allowed as a Class 3 Unsecured Claim. Without limiting the generality of the foregoing, there shall be no issue preclusion applicable to any holder of a Silica Claim as a result of the Court's determination that the Plan can be confirmed under section 1129(b) of the Bankruptcy Code despite the rejection of the Plan by Class 3.

Section 4.4 Class 4A – Pre-September 2010 Settled Asbestos PI Claims. As of the Effective Date, liability for all Class 4A Claims shall automatically and without further act, deed or court order be channeled to and assumed by the Asbestos PI Trust in accordance with, and to the extent set forth in, Articles IX and XI of the Plan and the Plan Documents. Each Pre-September 2010 Settled Asbestos PI Claim shall be determined and paid in accordance with the terms, provisions and procedures of the Asbestos PI Trust Agreement and the Asbestos PI Trust Distribution Procedures, including application of the Class 4A Payment Percentage. The Asbestos PI Trust shall be funded in accordance with the provisions of Section 9.3 of the Plan. Except as set forth in Section 11.6(b) of the Plan, the sole recourse of the holder of a Pre-September 2010 Settled Asbestos PI Claim on account of such Claim shall be to the Asbestos PI Trust and each holder shall have no right whatsoever at any time to assert its Pre-September 2010 Settled Asbestos PI Claim against any Asbestos Protected Party, or, subject to the terms of Section 11.7 below, a Settling Asbestos Insurance Entity, or, subject to the terms of Section 11.8 below, a Non-Settling Asbestos Insurance Entity.

Pfizer has waived and shall be deemed to have waived any and all obligations or requirements of holders of Pre-September 2010 Settled Asbestos PI Claims under the terms of the Pfizer Claimant Settlement Agreements to reduce the amount of distributions they are entitled to receive from the Asbestos PI Trust; provided, however, that such waiver shall be null and void and of no further force and effect in the event that the Effective Date does not occur.

Class 4A is Impaired under the Plan. Each holder of a Pre-September 2010 Settled Asbestos PI Claim shall be entitled to vote to accept or reject the Plan to the extent and in the manner provided in the Solicitation Procedures Order.

Section 4.5 Class 4B – Other Asbestos PI Claims. As of the Effective Date, liability for all Class 4B Claims shall automatically and without further act, deed or court order be channeled to and assumed by the Asbestos PI Trust in accordance with, and to the extent set forth in, Articles IX and XI of the Plan and the Plan Documents. Each Other Asbestos PI Claim shall be determined and paid in accordance with the terms, provisions and procedures of the

Asbestos PI Trust Agreement and the Asbestos PI Trust Distribution Procedures, including application of the Class 4B Payment Percentage. The Asbestos PI Trust shall be funded in accordance with the provisions of Section 9.3 of the Plan. Except as set forth in Section 11.6(b) of the Plan, the sole recourse of the holder of an Other Asbestos PI Claim on account of such Claim shall be to the Asbestos PI Trust and each holder shall have no right whatsoever at any time to assert its Other Asbestos PI Claim against any Asbestos Protected Party, or, subject to the terms of Sections 11.7 and 11.8 below, a Settling Asbestos Insurance Entity, or a Non-Settling Asbestos Insurance Entity, as applicable.

Class 4B is Impaired under the Plan. Each holder of an Other Asbestos PI Claim shall be entitled to vote to accept or reject the Plan to the extent and in the manner provided in the Solicitation Procedures Order.

<u>Section 4.6</u> <u>Class 5 – Equity Interests</u>. On the Effective Date, Pfizer, the sole holder of the Equity Interests, shall transfer the common stock of Reorganized Quigley to the Asbestos PI Trust.

Class 5 is Impaired under the Plan. Notwithstanding the fact that interests in this class are held exclusively by Pfizer, which is supporting the Plan through the Pfizer Contribution, the Code requires that such class be deemed to have rejected the Plan.

ARTICLE V

ACCEPTANCE OR REJECTION OF PLAN; EFFECT OF REJECTION BY ONE OR MORE CLASSES OF CLAIMS OR EQUITY INTERESTS

<u>Section 5.1</u> <u>Classes Entitled to Vote</u>. Except as set forth below, each holder of an Allowed Claim, and each holder of a Claim that has been temporarily allowed for voting purposes, including each holder of a Class 4A Pre-September 2010 Asbestos PI Claim or Class 4B Other Asbestos PI Claim, in each Impaired Class of Claims shall be entitled to vote separately to accept or reject the Plan to the extent and in the manner provided in the Solicitation Procedures Order. Any Unimpaired Class of Claims shall not be entitled to vote to accept or reject the Plan. Any Impaired Class of Claims or Equity Interests that shall not receive or retain any property on account of such Claims or Equity Interests under the Plan shall be deemed to have rejected the Plan.

<u>Section 5.2</u> <u>Class Acceptance Requirement</u>. Acceptance of the Plan by any Impaired Class of Claims or Equity Interests shall be determined in accordance with section 1126 of the Bankruptcy Code and the terms of the Solicitation Procedures Order.

<u>Section 5.3</u> <u>Issuance of Injunctions Pursuant to Section 524(g) of the Bankruptcy Code</u>. The Bankruptcy Court may issue the Asbestos PI Channeling Injunction and the Settling Asbestos Insurance Entity Injunction if, in accordance with section 524(g)(2)(B)(ii)(IV)(bb) of the Bankruptcy Code, the Plan has been accepted by at least

75% in number of those holders of Class 4A Claims and Class 4B Claims actually voting on the Plan.

Section 5.4 Cramdown. In the event that any impaired Class of Claims or Equity Interests fails to accept the Plan in accordance with section 1129(a) of the Bankruptcy Code, Quigley reserves its right to: (i) modify the Plan in accordance with Section 13.2 hereof; and/or (ii) request that the Bankruptcy Court confirm the Plan in accordance with section 1129(b) of the Bankruptcy Code by finding that the Plan does not discriminate unfairly and provides fair and equitable treatment to any impaired Class of Claims or Equity Interests voting to reject the Plan, in which case the Plan shall constitute a motion for such relief that shall be considered at the Confirmation Hearing.

Section 5.5 Acceptance by Unimpaired Class. Class 1 (Priority Claims), Class 2.03 (Hatchett Secured Claim), Class 2.04 (Sherry Secured Claim), and Class 2.05 (Other Secured Bond Claims) are Unimpaired under the Plan and are conclusively presumed to have accepted the Plan pursuant to section 1126(f) of the Bankruptcy Code.

Section 5.6 Elimination of Vacant Classes. Any Class of Claims that does not contain a holder of an Allowed Claim or a holder of a Claim temporarily allowed pursuant to the Solicitation Procedures Order, as of the date of the commencement of the Confirmation Hearing, shall be deemed deleted from the Plan for all purposes, including for purposes of determining acceptance of the Plan by such Class under section 1129(a)(8) of the Bankruptcy Code.

ARTICLE VI

DISTRIBUTIONS UNDER THE PLAN ON ACCOUNT OF CLAIMS OTHER THAN ASBESTOS PI CLAIMS

Section 6.1 Distributions. Reorganized Quigley shall make all Distributions required under the Plan as provided under this Article VI. Distributions on account of Allowed Claims other than Asbestos PI Claims shall be made on the related Distribution date or as soon thereafter as practicable (unless otherwise provided herein or ordered by the Bankruptcy Court). All distributions on account of Asbestos PI Claims shall be made in accordance with the terms of the Asbestos PI Trust Agreement and the Asbestos PI Trust Distribution Procedures.

Section 6.2 Pro Rata Share Distributions. The Pro Rata Share of any Cash or assets to be distributed to or for the benefit of the holder of an Allowed Claim in any Class of Claims under the Plan shall be distributed as provided in the Plan. An initial distribution shall be made on the Initial Distribution Date. If and when a Disputed Claim in any Class becomes a Disallowed Claim, then the Pro Rata Share to which each holder of an Allowed Claim in such Class is entitled shall increase proportionately and Reorganized Quigley shall have the right (but not the obligation) to make or direct the making of subsequent interim Distributions to the holders of Allowed Claims in such Class in order to reflect any increases in the Pro Rata Share. Reorganized Quigley shall distribute Pro Rata Shares to each holder of a Claim that was a Disputed Claim on the Effective Date within fifteen (15) Business Days of the date on which such Claim becomes an Allowed Claim, or as soon thereafter as is practicable. As soon as

practicable after all Disputed Claims in any Class receiving Pro Rata Shares have become either Allowed Claims or Disallowed Claims, a final Distribution shall be made to the holders of Allowed Claims in such Class.

Section 6.3 Means of Cash Payment. Cash payments made pursuant to the Plan shall be in United States dollars, by check drawn on a bank located in the United States or by wire transfer from such bank.

Section 6.4 Delivery of Distributions. Distributions and deliveries to holders of Allowed Claims shall be made at the addresses set forth on the Proofs of Claim filed by such holders (or at the last known addresses of such holders if no Proof of Claim is filed or if Reorganized Quigley has been notified of a change of address). If any holder's Distribution is returned as undeliverable, then no further Distributions to such holder shall be made unless and until Reorganized Quigley is notified of such holder's then-current address, at which time all missed Distributions shall be made to such holder without interest. Cash Distributions that are not claimed by the expiration of six (6) months from the date that such Distributions were made shall be deemed unclaimed property under section 347(b) of the Bankruptcy Code and shall revest in Reorganized Quigley, and the Claim of any holder to such Distributions shall be discharged and forever barred. Nothing contained in the Plan shall require Quigley or Reorganized Quigley to attempt to locate any holder of an Allowed Claim.

Section 6.5 Time Bar to Cash Payments. Checks issued by Reorganized Quigley in respect of Allowed Claims shall be null and void if not cashed within ninety (90) days of the date of issuance thereof. The holder of the Allowed Claim with respect to which such check originally was issued shall make requests for reissuance of any check directly to Reorganized Quigley. Any such request for reissuance of a check shall be made on or before the later of the six month anniversary of the Initial Distribution Date, and ninety (90) days after the date of issuance of such check. After such date, all Claims in respect of void checks shall be discharged and forever barred.

Section 6.6 Timing of Distributions. If any payment or act under the Plan is required to be made or performed on a date that is not a Business Day, then the making of such payment or the performance of such act may be completed on the next succeeding Business Day, but shall be deemed to have been completed as of the required date.

Section 6.7 Record Date for Holders of Claims. Except as otherwise provided in an order of the Bankruptcy Court that is not subject to any stay, the transferees of Claims that are transferred pursuant to Rule 3001 of the Bankruptcy Rules on or prior to the Distribution Record Date shall be treated as the holders of such Claims for all purposes, notwithstanding that any period provided by Rule 3001 of the Bankruptcy Rules for objecting to such transfer has not expired by the Distribution Record Date.

Section 6.8 Distributions After Effective Date. Distributions made after the Effective Date shall be deemed to have been made on the Effective Date.

Section 6.9 Fractional Cents. Notwithstanding any other provision of the Plan to the contrary, no payment of fractional cents shall be made pursuant to the Plan. Whenever

any payment of a fraction of a cent under the Plan would otherwise be required, the actual Distribution made shall reflect a rounding of such fraction to the nearest whole penny (up or down), with half pennies or more being rounded up and fractions less than a half of a penny being rounded down.

<u>Section 6.10</u> <u>Interest on Claims</u>. Except as specifically provided for in the Plan, the Confirmation Order, the Interim Cash Collateral Order or the Final DIP/Cash Collateral Order, interest shall not accrue on Claims, and no holder of a Claim shall be entitled to interest accruing on or after the Petition Date on any Claim. Interest shall not accrue or be paid on any Disputed Claim in respect of the period from the Petition Date to the date a final Distribution is made thereon if and after such Disputed Claim becomes an Allowed Claim. Except as expressly provided herein, no prepetition Claim shall be Allowed to the extent that it is for postpetition interest or other similar charges.

<u>Section 6.11</u> <u>*De Minimis* Distributions</u>. Notwithstanding anything to the contrary contained in the Plan or Confirmation Order, Quigley and Reorganized Quigley shall not be required to distribute, and shall not distribute, Cash to the holder of an Allowed Claim if the amount of Cash to be distributed on account of such Claim is less than $40. Any holder of an Allowed Claim on account of which the amount of Cash to be distributed is less than $40 shall have such Claim discharged and shall be forever barred from asserting any such Claim against Quigley, Reorganized Quigley, the Asbestos PI Trust or their respective property. Any Cash not distributed pursuant to this provision shall be the property of Reorganized Quigley, free of any restrictions thereon. For the avoidance of doubt, the *de minimis* distribution limitation described in this Section 6.11 shall not apply to distributions made by the Asbestos PI Trust.

<u>Section 6.12</u> <u>Setoffs</u>. Subject to the limitations provided in section 553 of the Bankruptcy Code, Reorganized Quigley may, but shall not be required to, setoff against any Claim and the payments or other Distributions to be made pursuant to the Plan in respect of such Claim, Claims of any nature whatsoever that Quigley may have against the holder of such Claim. However, neither the failure to set off nor the allowance of any Claim hereunder shall constitute a waiver or release by Quigley of any such Claim that Quigley may have against the holder.

ARTICLE VII

TREATMENT OF EXECUTORY CONTRACTS AND UNEXPIRED LEASES

<u>Section 7.1</u> <u>General Treatment</u>. On or prior to the Effective Date, Quigley shall make a motion pursuant to section 365 of the Bankruptcy Code to assume, assume and assign, or reject all Executory Contracts to which Quigley is a party.

<u>Section 7.2</u> <u>RESERVED</u>.

<u>Section 7.3</u> <u>Payments Related to Assumption of Executory Contracts</u>. Any monetary amounts by which each Executory Contract to be assumed or assumed and assigned may be in default shall be satisfied in full by the payment of Cure in accordance with section 365(b)(1) of the Bankruptcy Code. In the event of a dispute regarding: (a) the nature or

amount of any Cure; (b) the ability of Quigley, Reorganized Quigley or any proposed assignee to provide "adequate assurance of future performance" (within the meaning of section 365 of the Bankruptcy Code) under the contract or lease to be assumed or assumed and assigned; or (c) any other matter pertaining to assumption, the payment of Cure shall occur following the entry of a Final Order of the Bankruptcy Court resolving the dispute. No amount shall be due for Cure or other compensation to the parties to assumed or assumed and assigned Executory Contracts except as expressly provided in the Cure schedule to be included in the Plan Supplement or as otherwise ordered by the Bankruptcy Court pursuant to a Final Order. On the Initial Distribution Date or as soon thereafter as practicable, Reorganized Quigley shall pay all undisputed Cure amounts, if any, under the Executory Contracts being assumed or assumed and assigned pursuant to Section 7.2 of this Plan. Except for Claims for payment of Cure, the non-Debtor parties to the assumed or assumed and assigned contracts shall have no Claim against Quigley or Reorganized Quigley relating to those contracts.

Section 7.4 Bar to Rejection Damages. If the rejection of an Executory Contract by Quigley results in damages to the other party or parties to such contract, a Claim for such damages shall be forever barred and shall not be enforceable against any of Quigley, Reorganized Quigley or its properties, whether by way of setoff, recoupment, or otherwise unless a Proof of Claim is filed with the Bankruptcy Court and served upon counsel for Quigley or Reorganized Quigley by thirty (30) days after entry of an order rejecting a contract pursuant to a motion filed by Quigley to reject such contract.

Section 7.5 Indemnification and Reimbursement Obligations. For purposes of this Plan, the obligations of Quigley to indemnify and reimburse persons who are or were directors, officers, or employees of Quigley on the Petition Date or at any time thereafter against and for any obligations pursuant to articles of incorporation, codes of regulations, by-laws, applicable state law, or specific agreement, or any combination of the foregoing, shall survive confirmation of the Plan, remain unaffected thereby, and not be discharged in accordance with section 1141 of the Bankruptcy Code, irrespective of whether indemnification or reimbursement is owed in connection with an event occurring before, on, or after the Petition Date. In furtherance of the foregoing, Reorganized Quigley shall use its commercially reasonable efforts to maintain or procure insurance for the benefit of such directors, officers, or employees at levels no less favorable than those existing as of the date of entry of the Confirmation Order for a period of no less than four years following the Effective Date.

ARTICLE VIII

PROCEDURES FOR RESOLVING AND TREATING DISPUTED CLAIMS OTHER THAN ASBESTOS PI CLAIMS

Section 8.1 Disputed Claims. All Disputed Claims against Quigley shall be subject to the provisions of this Article VIII. All Asbestos PI Claims shall be determined and paid by the Asbestos PI Trust in accordance with the Asbestos PI Trust Agreement and the Asbestos PI Trust Distribution Procedures. Only the Asbestos PI Trust will have the right to resolve Asbestos PI Claims.

Section 8.2 Objection Deadline. Unless otherwise ordered by the Bankruptcy Court, objections to Claims other than Asbestos PI Claims shall be filed with the Bankruptcy Court or District Court, as applicable, and served upon the holders of each such Claim to which objections are made on or before the Claims Objection Bar Date. If an objection to a Claim is timely filed by any party in interest, a subsequent amendment to the objection shall also be deemed timely, even if filed subsequent to the deadline for filing the original Claim objection, and even if the amendment raises facts or legal theories not raised in the original Claim objection.

Section 8.3 Prosecution of Objections. After the Confirmation Date, Quigley or Reorganized Quigley, as the case may be, shall have authority to file, litigate to final judgment, settle, or withdraw objections to Disputed Claims. For each Class 3 Silica Claim with respect to which a proof of claim is pending as of the Confirmation Date, Quigley or Reorganized Quigley, and Pfizer on either of their behalf, shall have the authority to prosecute any objections that any of them have asserted on or before the Claims Objection Bar Date.

Section 8.4 No Distributions Pending Allowance. No payments or Distributions shall be made with respect to any Claim to the extent it is a Disputed Claim unless and until all objections to such Disputed Claim are resolved and such Disputed Claim becomes an Allowed Claim in whole or in part.

Section 8.5 Costs and Fees of Defending Silica Claims. Pfizer shall have complete control over the defense of Silica Claims, and may use counsel of its own choice in its sole discretion; provided, however, that Pfizer shall not discontinue or fail to pursue the defense of such Silica Claims without the consent of Reorganized Quigley, which consent shall not be unreasonably withheld. All fees and costs associated with the defense of Silica Claims shall be borne by Pfizer.

Section 8.6 Coverage Cases Related to Silica Claims. To the extent, if any, that any insurer that is an issuer of a Shared Asbestos-Excluded Insurance Policy is requested to and declines to pay any settlement of or Final Judgment with respect to any Silica Claim, Pfizer shall initiate a Coverage Case against such insurer, provided there are legal and factual grounds to do so. Pfizer shall not discontinue or fail to pursue or settle such Coverage Case without the consent of Reorganized Quigley, which consent shall not be unreasonably withheld. Pfizer shall have complete control over the prosecution of the Coverage Case with the counsel of Pfizer's choice in Pfizer's sole discretion. All fees and costs associated with Coverage Cases shall be borne by Pfizer.

Section 8.7 Satisfaction of Allowed Silica Claims. To the extent, if any, that a Silica Claim becomes Allowed or is liquidated pursuant to a Final Judgment against Quigley or Reorganized Quigley, such Claim shall be paid in accordance with the Class 3 Payment Percentage, which initially shall be 7.5%. Except as set forth in Section 4.3 of the Plan with respect to satisfaction of the Provost Silica Claims, Allowed Silica Claims shall be paid first from any proceeds recovered by Reorganized Quigley or Pfizer from the Shared Asbestos-Excluded Insurance Policies, consistent with the Insurance Relinquishment Agreement, and only thereafter from the Disputed Claims Reserve retained by Reorganized Quigley.

Section 8.8 Disputed Claims Reserve. On or after the Effective Date, and until such time as each Disputed Claim has been compromised and settled, estimated by the Bankruptcy Court in an amount constituting the Allowed amount, or allowed or disallowed by Final Order of the Bankruptcy Court, Reorganized Quigley shall retain, for the benefit of each holder of a Disputed Claim, the Disputed Claims Reserve in an amount it reasonably determines to be necessary to pay Reorganized Quigley's liability for the claim. Reorganized Quigley shall also retain, for the benefit of anticipated future claimants, a balance in the Disputed Claims Reserve it reasonably determines to be necessary to pay anticipated future claimants. Notwithstanding any other provision of this Plan, nothing herein shall preclude Quigley, Reorganized Quigley or Pfizer from asserting, in defense of a Silica Claim, that the Silica Claim is a Discharged Silica Claim.

ARTICLE IX

MEANS FOR IMPLEMENTATION OF THE PLAN

Section 9.1 General. On the Confirmation Date, Quigley shall be empowered and authorized to take or cause to be taken, prior to the Effective Date, all actions necessary to enable it to implement the provisions of this Plan, including, without limitation, the creation of the Asbestos PI Trust. From and after the Effective Date, Reorganized Quigley shall be governed pursuant to its Amended Charter Documents.

Section 9.2 Transactions on the Effective Date. On the Effective Date, the following shall be deemed for all purposes to have occurred simultaneously:

(a) any Distributions required to be made on the Effective Date;

(b) establishment of the Asbestos PI Trust, including the Pfizer Contribution and the Quigley Contribution;

(c) contribution by Pfizer to Reorganized Quigley of the Quigley Operations; and

(d) the effectiveness and binding effect of the Amended Charter Documents upon Reorganized Quigley.

Section 9.3 The Asbestos PI Trust.

(a) Creation of the Asbestos PI Trust. On the Effective Date, the Asbestos PI Trust shall be created in accordance with the Plan Documents. The Asbestos PI Trust shall be a "qualified settlement fund" within the meaning of section 468B of the United States Internal Revenue Code and the regulations issued thereunder. The purposes of the Asbestos PI Trust shall be to assume all Asbestos PI Claims (whether now existing or arising at any time hereafter) and to use the Asbestos PI Trust Assets to pay holders of Asbestos PI Claims in accordance with the Asbestos PI Trust Agreement and the Asbestos PI Trust Distribution Procedures, and in such a way that provides reasonable assurance that the Asbestos PI Trust shall value and be in a financial position to pay present and future Asbestos PI Claims that involve similar Claims in substantially the same manner, and to otherwise comply in all respects with the

requirements of section 524(g)(2)(B) of the Bankruptcy Code. On the Effective Date, subject to the terms of the Pfizer Contribution, all right, title and interest in and to the Asbestos PI Trust Assets and any proceeds thereof will be transferred to and vested in the Asbestos PI Trust, free and clear of all Claims, Demands, Equity Interests, Encumbrances and other interests of any Entity without any further action of any Entity.

(b) Appointment of Trustees. Prior to or at the Confirmation Hearing, the Creditors' Committee and the Future Demand Holders' Representative, in consultation with Quigley, shall nominate the three initial Trustees of the Asbestos PI Trust, one of which shall be a resident of the State of New York (if a natural person) or have a principal place of business in the State of New York (in all other cases). The Confirmation Order shall constitute an order of the Bankruptcy Court appointing the initial Trustees to serve as Trustees of the Asbestos PI Trust in accordance with the Asbestos PI Trust Agreement, effective as of the Effective Date.

(c) Appointment of Trust Advisory Committee Members. Prior to or at the Confirmation Hearing, the Creditors' Committee, in consultation with Quigley and the Future Demand Holders' Representative, shall nominate the seven initial members of the Trust Advisory Committee. The Confirmation Order shall constitute an order of the Bankruptcy Court appointing the initial members of the Trust Advisory Committee (and thereupon the Trust Advisory Committee shall be formed) to serve in accordance with the Asbestos PI Trust Agreement.

(d) Contributions to the Asbestos PI Trust or Reorganized Quigley. On or after the Effective Date, Reorganized Quigley and Pfizer shall make the Quigley Contribution and Pfizer Contribution, respectively, to the Asbestos PI Trust or Reorganized Quigley, as applicable. The Asbestos PI Trust shall perform all obligations of Quigley with respect to the Quigley Transferred Insurance Rights.

(e) Insurance Relinquishment Agreement. On or before the Effective Date, Quigley or Reorganized Quigley, as the case may be, shall execute and deliver to Pfizer and Pfizer shall execute and deliver to Quigley or Reorganized Quigley, as the case may be, the Insurance Relinquishment Agreement.

(f) AIG Assignment Agreement. On or before the Effective Date, Quigley or Reorganized Quigley, as the case may be, and Pfizer shall execute and deliver to the Asbestos PI Trust the AIG Assignment Agreement.

(g) Transfer of Claims and Demands to the Asbestos PI Trust. On the Effective Date, all liabilities, obligations, Demands and responsibilities relating to all Asbestos PI Claims shall be transferred and channeled to the Asbestos PI Trust.

(h) Discharge of Liabilities to Holders of Asbestos PI Claims. Except as may otherwise be provided in the Plan Documents and the Confirmation Order, the transfer to, vesting in, and assumption by the Asbestos PI Trust of the Asbestos PI Trust Assets on or after the Effective Date, as contemplated by the Plan, shall, among other things, discharge all obligations and Liabilities of Quigley and Reorganized Quigley for and in respect of all Asbestos PI Claims. On the Effective Date, the Asbestos PI Trust shall assume all Asbestos PI Claims and

shall pay the Asbestos PI Claims in accordance with the Asbestos PI Trust Distribution Procedures.

(i) RESERVED.

(j) Transfer of the Common Stock of Reorganized Quigley to the Asbestos PI Trust. On the Effective Date, Pfizer shall transfer 100% of the common stock of Reorganized Quigley to the Asbestos PI Trust.

(k) Books and Records. On the Effective Date, and in accordance with the provisions of the Asbestos Records Cooperation Agreement, attached hereto as Exhibit L, the Asbestos Record Parties shall transfer the Asbestos Records or cause the same to be transferred to the Asbestos PI Trust.

Section 9.4 Reorganized Quigley's Obligations under the Plan. From and after the Effective Date, Reorganized Quigley shall perform the obligations of Quigley under the Plan.

Section 9.5 Charter and Bylaws. The Amended Bylaws and the Amended Certificate of Incorporation shall contain such provisions as are necessary to satisfy the provisions of the Plan and, to the extent necessary, to prohibit the issuance of nonvoting equity securities as required by section 1123(a)(6) of the Bankruptcy Code, subject to further amendment of the Amended Bylaws and the Amended Certificate of Incorporation after the Effective Date, as permitted by applicable law. Except as otherwise provided herein, such Amended Bylaws and Amended Certificate of Incorporation shall contain such indemnification provisions applicable to the officers, directors and employees of Reorganized Quigley and such other Entities as may, in the discretion of the Board of Directors of Reorganized Quigley, be appropriate.

Section 9.6 The Board of Directors of Reorganized Quigley. Unless otherwise agreed to by Reorganized Quigley and Pfizer, the existing members of Quigley's Board of Directors shall continue to serve in their respective capacities until the Effective Date. On and after the Effective Date, the Asbestos PI Trust shall have the right, but not the obligation, to replace any or all of the members of Reorganized Quigley's Board of Directors with one or more individuals selected by the Trustees.

Section 9.7 Operations of Quigley Between Confirmation and the Effective Date. Quigley shall continue to operate as a debtor-in-possession during the period from the Confirmation Date through and until the Effective Date.

Section 9.8 Quigley Operations. On or before the Effective Date, Pfizer shall contribute or otherwise transfer the Quigley Operations to Reorganized Quigley. Pfizer and Reorganized Quigley shall execute, deliver, file and record all agreements, documents, certificates, and instruments necessary to transfer or effectuate the contribution or transfer of the Quigley Operations to Reorganized Quigley. The contribution or transfer of the Quigley Operations shall be deemed a transfer under the Plan subject to section 1146(a) of the Bankruptcy Code.

Section 9.9 Cancellation of Existing Securities. On the Effective Date, except for the Equity Interests and as otherwise provided for in the Plan or the Confirmation Order: (a) all notes, bonds, indentures, and other instruments or documents evidencing or creating any indebtedness or obligation of Quigley (except such notes or other instruments evidencing indebtedness or obligations of Quigley that are reinstated under the Plan) shall be extinguished and canceled; and (b) the obligations of Quigley under any agreements, indentures, or certificates of designation governing any notes, bonds, indentures, and other instruments or documents evidencing or creating any indebtedness or obligation of Quigley, as the case may be, shall be discharged. For the avoidance of doubt, common stock of Quigley shall not be canceled and shall instead be transferred by Pfizer to the Asbestos PI Trust on the Effective Date as set forth in section 9.3(j) hereof.

Section 9.10 Payment and Satisfaction of Pfizer Tax Sharing Receivable. On the Effective Date, Pfizer shall pay to Quigley and satisfy the Pfizer Tax Sharing Receivable outstanding as of the last day of the month immediately preceding the Effective Date, as adjusted for any tax consequences to Pfizer and Quigley as a result of the transactions contemplated by and taken in connection with the Plan.

Section 9.11 Effectuating Documents; Further Transactions. The Chairman of the Board of Directors, the President, the Chief Operating Officer, the Chief Executive Officer, the Chief Financial Officer, or any other appropriate officer of each of Quigley or Reorganized Quigley, as the case may be, shall be, and hereby are, authorized to execute, deliver, file, and record such contracts, instruments, releases, indentures, certificates, and other agreements or documents, and take such other actions as may be necessary or appropriate to effectuate and further evidence the terms and conditions of the Plan. The Secretary of Quigley will be authorized to certify or attest to any of the foregoing, if necessary.

ARTICLE X

EFFECT OF CONFIRMATION

Section 10.1 Revesting of Reorganized Quigley's Assets. Pursuant to section 1141(b) of the Bankruptcy Code, except as otherwise provided in the Plan or the Confirmation Order, the property of the Estate of Quigley (except for the Quigley Contribution) shall revest in Reorganized Quigley on the Effective Date. From and after the Effective Date, Reorganized Quigley may operate its businesses and may use, acquire, and dispose of property free of any restrictions imposed under the Bankruptcy Code, the Bankruptcy Rules, and the Bankruptcy Court. As of the Effective Date, all property of Quigley and Reorganized Quigley will be free and clear of all Claims, Liens and interests, except as specifically provided in the Plan, or the Confirmation Order. Without limiting the generality of the foregoing, Reorganized Quigley may, without application to or approval by the Bankruptcy Court, pay Professional fees and expenses that Reorganized Quigley may incur after the Effective Date.

Section 10.2 Preservation of Certain Causes of Action; Defenses.

(a) Except as otherwise provided in the Plan or the Confirmation Order, in accordance with section 1123(b) of the Bankruptcy Code, Reorganized Quigley, as

successor in interest to Quigley and its Estate, shall retain and may enforce such Claims, rights and Causes of Action that are property of Quigley and its Estate, and Reorganized Quigley shall retain and enforce all defenses and counterclaims to all Claims asserted against Quigley or its Estate, including, but not limited to, setoff, recoupment and any rights under section 502(d) of the Bankruptcy Code. Reorganized Quigley may pursue such Claims, rights, or Causes of Action, as appropriate, in accordance with its best interests, as determined by the Board of Directors of Reorganized Quigley.

(b) Notwithstanding Section 10.2(a) of the Plan, on the Effective Date, all defenses and Causes of Action of Quigley and Reorganized Quigley relating to Asbestos PI Claims, including any Asbestos Insurance Actions, shall be transferred and assigned to the Asbestos PI Trust. Except as otherwise provided in the Plan or the Confirmation Order, in accordance with section 1123(b) of the Bankruptcy Code, the Asbestos PI Trust shall retain and may enforce such defenses and Causes of Action and shall retain and may enforce all defenses and counterclaims to all Claims asserted against the Asbestos PI Trust with respect to such Asbestos PI Claims, including, but not limited to, setoff, recoupment and any rights under section 502(d) of the Bankruptcy Code; provided, however, that no such defenses, Causes of Action, or counterclaims may be asserted against any Pfizer Protected Party. The Asbestos PI Trust may pursue such defenses, rights, or Causes of Action, as appropriate, in accordance with its and its beneficiaries' best interests. Nothing in this Section 10.2(b), however, shall be deemed to be a transfer by Quigley or Reorganized Quigley of any Claims, Causes of Action, or defenses relating to assumed Executory Contracts or which otherwise are required by Reorganized Quigley to conduct its business in the ordinary course subsequent to the Effective Date.

Section 10.3 Quigley Insurance Transfer.

(a) Implementation of Quigley Insurance Transfer. To effectuate the Quigley Contribution, on the Effective Date and without any further action of the Bankruptcy Court or further act or agreement of any Entity, Quigley shall irrevocably transfer, grant and assign to the Asbestos PI Trust the Quigley Transferred Insurance Rights pursuant to the Quigley Insurance Transfer. The Asbestos PI Trust shall assume responsibility for all obligations of Quigley arising from, under or related to any of the Quigley Transferred Insurance Rights. The Quigley Transferred Insurance Rights shall be subject to any and all Asbestos PI Insurer Coverage Defenses. The Quigley Insurance Transfer shall be made and shall be effective. The Quigley Insurance Transfer shall not be, and shall not be deemed to be, an assignment of the Shared Asbestos Insurance Policies, the Insurance Settlement Agreements, the AIG Insurance Settlement Agreement, or any other settlement agreements with Asbestos Insurance Entities themselves.

(b) Institution and Maintenance of Legal and Other Proceedings. From and after the Effective Date, the Asbestos PI Trust shall be empowered and entitled, in its sole and absolute discretion, to pursue, compromise or settle its interests in any and all Quigley Transferred Insurance Rights, including, without limitation, its interests in any and all Asbestos Insurance Actions. The duties, obligations and liabilities of any Asbestos Insurance Entity under all insurance policies, all Shared Asbestos Insurance Policies, all Insurance Settlement Agreements, the AIG Insurance Settlement Agreement, and all other settlement agreements with

Asbestos Insurance Entities are not diminished, reduced or eliminated by: (i) the discharge of Quigley and Reorganized Quigley from all Asbestos PI Claims; (ii) the injunctive protection provided to Quigley, Reorganized Quigley, the Asbestos Protected Parties, and the Settling Asbestos Insurance Entities with respect to Asbestos PI Claims; or (iii) the assumption of responsibility and liability for all Asbestos PI Claims by the Asbestos PI Trust. For avoidance of doubt, any and all Asbestos PI Insurer Coverage Defenses are preserved by and under this Plan.

(c) License Back To Reorganized Quigley. From and after the Effective Date, Reorganized Quigley shall have a license to collect and use the proceeds of the Shared Asbestos Insurance Policies (the "License") only to the extent that (i) Reorganized Quigley's collection and use of the proceeds of the Shared Asbestos Insurance Policies does not reduce the Products/Completed Operations Coverage or any aggregate, per occurrence or other policy limit of any Shared Asbestos Insurance Policy that is or could potentially be applicable to Asbestos PI Claims, and (ii) Reorganized Quigley's collection and use of the proceeds of the Shared Asbestos Insurance Policies does not in any way interfere with the Asbestos PI Trust's exercise of any Quigley Transferred Insurance Rights. The Asbestos PI Trust may terminate this License at any time if the Asbestos PI Trust deems the termination of the License necessary for any reason, including, without limitation, to resolve any disputes with insurers concerning any of the Shared Asbestos Insurance Policies.

(d) Obligations of Reorganized Quigley. At the reasonable direction and request of the Asbestos PI Trust, and at the cost of the Asbestos PI Trust, Reorganized Quigley shall (i) use its commercially reasonable efforts to pursue any of the Quigley Transferred Insurance Rights for the benefit of Asbestos PI Trust; and (ii) immediately transfer any amounts recovered by Reorganized Quigley under or on account of any of the Quigley Transferred Insurance Rights to the Asbestos PI Trust; provided, however, that while any such amounts are held by or under the control of Reorganized Quigley, such amounts shall be held for the benefit of the Asbestos PI Trust. To the extent permitted by applicable law, Reorganized Quigley shall cooperate with the Asbestos PI Trust in its pursuit of the Quigley Transferred Insurance Rights as requested by the Asbestos PI Trust, including, but not limited to, by making its books, records, employees, agents, and professionals available to the Asbestos PI Trust solely as they relate to the Quigley Transferred Insurance Rights.

Section 10.4 Insurance Neutrality.

(a) Subject to Sections 10.4(e) and 10.4(f) below, nothing in the Plan, the Confirmation Order, or any other Plan Documents, or any finding of fact and/or conclusion of law with respect to the confirmation of the Plan, shall limit the right of any Asbestos Insurance Entity to assert any Asbestos PI Insurer Coverage Defense. Notwithstanding any provision in the Plan, the Confirmation Order, or any other Plan Documents, and subject to Sections 10.4(e) and 10.4(f) below, nothing contained in any such documents shall impose, or shall be deemed or construed to impose, any obligation on any Asbestos Insurance Entity to provide a defense for, settle, pay any judgment with respect to, or otherwise pay, any Claim, including any Asbestos PI Claim; rather, whether an Asbestos Insurance Entity is obligated to provide a defense for, settle, pay any judgment with respect to, or otherwise pay, any Claim, including any Asbestos PI Claim, shall be determined in accordance with the applicable Asbestos

Insurance Policy issued by that Asbestos Insurance Entity, any related Insurance Settlement Agreement, any other relevant settlement agreement, and/or applicable non-bankruptcy law.

(b) Subject to Sections 10.4(e) and 10.4(f) below, none of (i) the Plan and the Plan Documents, (ii) the Court's approval of the Plan or the Plan Documents, (iii) the Confirmation Order or any findings and conclusions entered with respect to Confirmation, (iv) any estimation or valuation of Asbestos PI Claims, either individually or in the aggregate (including without limitation any agreement as to the valuation of Asbestos PI Claims) in this Chapter 11 Case, or (v) any judgment, order, finding of fact, conclusion of law, determination or statement (written or verbal, on or off the record) made by the Bankruptcy Court or issued or affirmed by the District Court pursuant to 11 U.S.C. § 524(g)(3) or entered by any other court exercising jurisdiction over the Chapter 11 Case, including in any judgment, order, writ or opinion entered on appeal from any of the foregoing, shall, for purposes of any Asbestos Insurance Dispute, constitute an adjudication, judgment, trial, hearing on the merits, finding, conclusion, or other determination, or evidence or suggestion of any such determination, establishing:

A. that any Asbestos Insurance Entity has or does not have liability or coverage obligations for any Claim, including without limitation any Asbestos PI Claim, under any Asbestos Insurance Policy, any Insurance Settlement Agreement, or any other settlement agreement to which any Asbestos Insurance Entity is a party, on any basis;

B. that the amount of any Asbestos PI Claim (either individually or in the aggregate with other Claims) is or is not reasonable;

C. that any Entity is or is not covered for any Claim, including any Asbestos PI Claim, under any Asbestos Insurance Policy;

D. that any Asbestos Insurance Entity has or does not have any defense or indemnity obligation with respect to any Claim, including any Asbestos PI Claim;

E. that any Asbestos Insurance Entity is or is not liable for, or otherwise is or is not obligated to provide coverage with respect to, any individual Asbestos PI Claim (either individually or in the aggregate with other Claims);

F. that the procedures established by the Plan or any of the Plan Documents, including without limitation the Asbestos PI Trust Distribution Procedures, for evaluating and paying Asbestos PI Claims, are or are not reasonable, appropriate, established or agreed to in good faith, or consistent with the terms and conditions of any Asbestos Insurance Policy;

G. that the procedures established by the Plan or any of the Plan Documents, including without limitation the Asbestos PI Trust Distribution Procedures, for evaluating and paying Asbestos PI Claims, are or are not consistent with any procedures that were used to evaluate, settle or pay Asbestos PI Claims against Quigley or Pfizer before the Petition Date;

H. that the settlement of, or the value assigned to, any individual Asbestos PI Claim (either individually or in the aggregate with other Claims) pursuant to the Plan or any of the Plan Documents, including without limitation the Asbestos PI Trust Distribution Procedures, is, is not, was or was not reasonable and/or otherwise appropriate;

I. that any Asbestos Insurance Entity did or did not participate in, consult on, and/or consent to the negotiation, proposal or solicitation of the Plan or any of the Plan Documents, including without limitation the Asbestos PI Trust Distribution Procedures;

J. that Quigley, Pfizer or the Asbestos PI Trust has or has not suffered an insured loss or otherwise incurred a legal liability with respect to any Asbestos PI Claim;

K. that it was, is or will be (or was not, is not or will not be) reasonable, appropriate, in good faith, or consistent with the terms and conditions of any Asbestos Insurance Policy for Quigley, Reorganized Quigley, Pfizer or the Asbestos PI Trust to settle, allow, liquidate, assign any value to, and/or pay (or present to any Asbestos Insurance Entity for payment) any Asbestos PI Claim on any terms or conditions contemplated by the Plan or any Plan Document;

L. that the conduct of Quigley, Pfizer, Reorganized Quigley or the Asbestos PI Trust in connection with the negotiation, development, settlement, confirmation and/or implementation of the Plan or any Plan Document was, is or will be (or is not or will not be) reasonable, appropriate, in good faith, or consistent with the terms and conditions of any Asbestos Insurance Policy; or

M. that any Asbestos Insurance Entity had, has or will have (or did not have, does not have or will not have) a reasonable, good-faith basis to withhold consent to the settlement, allowance or liquidation of, assignment of any value to, and/or payment of (including any presentation to any Asbestos Insurance Entity for payment of) any Asbestos PI Claim, including under or in connection with the Plan or any Plan Document.

Notwithstanding the foregoing, in any Asbestos Insurance Dispute, any Entity may use evidence of any item listed in subparts (i) through (v) of this Section 10.4(b) for the purpose of proving the occurrence of an event in this Chapter 11 Case. Further, nothing in this Section 10.4(b) shall, or shall be deemed to, prohibit any Entity in such Asbestos Insurance Dispute from asserting any position with respect to insurance coverage that is not expressly limited, restricted or prohibited by subsections (A) through (M) of this Section 10.4(b).

(c) Subject to Sections 10.4(e) and 10.4(f) below, any judgment, order, finding of fact, conclusion of law, determination or statement (written or verbal, on or off the record) made by the Bankruptcy Court or issued or affirmed by the District Court pursuant to 11 U.S.C. § 524(g)(3) or entered by any other court exercising jurisdiction over the Chapter 11 Case, including in any judgment, order, writ or opinion entered on appeal from any of the foregoing, shall not, and shall not be construed to, constitute a finding, conclusion, or determination regarding insurance coverage. Subject to Sections 10.4(e) and 10.4(f) below, in

considering whether to confirm the Plan and to approve any Plan Document, the Bankruptcy Court, the District Court, or any other court exercising jurisdiction over the Chapter 11 Case, is not considering, and is not deciding, any matter with respect to any Asbestos PI Insurer Coverage Defense.

(d) Nothing in this Section 10.4 of the Plan shall be interpreted to affect or limit the protections afforded to any Settling Asbestos Insurance Entity or any Asbestos Protected Party by Sections 11.6 or 11.7 of this Plan.

(e) Nothing in this Section 10.4 precludes or shall be construed to preclude otherwise applicable principles of res judicata or collateral estoppel from being applied against any Entity with respect to any issue that is actually litigated by such Entity in connection with the Chapter 11 Case, as part of its objections, if any, to Confirmation of the Plan or as part of any contested matter or adversary proceeding. Plan objections filed by any Asbestos Insurance Entity on or before January 1, 2009, that are withdrawn by that Asbestos Insurance Entity pursuant to the Corrected Stipulation and Agreed Order Concerning Insurance Issues, entered by the Bankruptcy Court in the Bankruptcy Case, ECF Dkt. 1873, shall be deemed not to have been actually litigated.

(f) Notwithstanding any other provision of this Plan or any of the Plan Documents, in any Asbestos Insurance Dispute no Asbestos Insurance Entity shall have, or have the right to assert, any right, Claim or defense enumerated in subparts (1) through (4) of the proviso to the definition of Asbestos PI Insurer Coverage Defenses.

(g) Nothing in any provision of this Plan or any of the Plan Documents shall in any way operate to impair, or have the effect of impairing, in any respect, the legal, equitable, or contractual rights of the Parties under the Corrected Stipulation and Agreed Order Concerning Insurance Issues, entered by the Bankruptcy Court in the Bankruptcy Case, ECF Dkt. 1873. For purposes of the foregoing, "Parties" has the meaning set forth in such Stipulation and Agreed Order.

Section 10.5 Reduction of Insurance Judgments. Any right, Claim or cause of action that an insurer would have been entitled to assert under applicable non-bankruptcy law against any Settling Asbestos Insurance Entity but for the Settling Asbestos Insurance Entity Injunction shall be treated solely as a setoff claim against the Asbestos PI Trust. Any such right, Claim, or cause of action to which an insurer may be entitled shall be solely a setoff against any recovery of the Asbestos PI Trust from that insurer. Under no circumstances shall that insurer receive an affirmative recovery of funds from the Asbestos PI Trust or any Settling Asbestos Insurance Entity for such right, Claim, or cause of action. Any setoff in favor of an insurer shall not constitute a classified or unclassified Claim under this Plan and shall not be subject to or Impaired by this Plan. Instead, any setoff shall be determined, calculated and applied solely as a matter of applicable non-bankruptcy law without regard to any other provision of this Plan or any bankruptcy law or decision.

Section 10.6 Terms of Injunction and Automatic Stay.

(a) All of the injunctions and/or automatic stays provided for in or in connection with the Chapter 11 Case, whether pursuant to section 105, 362, or any other provision of the Bankruptcy Code, Bankruptcy Rules or other applicable law, including, but not limited to, the Preliminary Injunction Order, in existence immediately prior to the Confirmation Date shall remain in full force and effect until the injunctions set forth in this Plan become effective pursuant to a Final Order, and shall continue to remain in full force and effect thereafter as and to the extent provided by the Plan, the Confirmation Order, or by their own terms. In addition, on and after the Confirmation Date, Reorganized Quigley may seek such further orders as it may deem necessary or appropriate to preserve the status quo during the time between the Confirmation Date and the Effective Date.

(b) Each of the injunctions contained in this Plan or the Confirmation Order shall become effective on the Effective Date and shall continue in effect at all times thereafter unless otherwise provided by the Plan or the Confirmation Order. Notwithstanding anything to the contrary contained in the Plan or the Confirmation Order, all actions of the type or nature of those to be enjoined by such injunctions shall be enjoined during the period between the Confirmation Date and the Effective Date.

Section 10.7 No Successor Liability; No Liability for Certain Released Claims.

(a) Except as otherwise expressly provided in this Plan, neither Quigley, Reorganized Quigley, the other Asbestos Protected Parties, nor the Asbestos PI Trust does, or shall be deemed to, pursuant to this Plan, assume, agree to perform, pay, or indemnify creditors for any liabilities or obligations of Quigley relating to or arising out of the operations of or assets of Quigley whether arising prior to, or resulting from actions, events, or circumstances occurring or existing at any time prior to the Confirmation Date. Neither the Asbestos Protected Parties, Reorganized Quigley, nor the Asbestos PI Trust shall be liable by reason of any theory of successor liability, either in law or equity, and none shall have any successor or transferee liability of any kind or character, except that Reorganized Quigley and the Asbestos PI Trust shall assume the obligations specified in this Plan and the Confirmation Order.

(b) Except as otherwise expressly provided in this Plan, effective automatically on the Effective Date, the Pfizer Protected Parties and their respective Representatives shall unconditionally and irrevocably be fully released from any and all claims arising under federal, state or any other law or regulation, including, if applicable, claims in the nature of fraudulent transfer, successor liability, corporate veil piercing, or alter ego-type claims, as a consequence of transactions, events, or circumstances involving or affecting Quigley (or any of its predecessors) or any of Quigley or its predecessors' respective businesses or operations that occurred or existed prior to the Effective Date.

Section 10.8 Title to Asbestos PI Trust Assets. On the Effective Date, title to all of the Asbestos PI Trust Assets shall vest in the Asbestos PI Trust free and clear of all Claims, Equity Interests, Encumbrances and other interests of any Entity. The Asbestos PI Trust shall be empowered and entitled to initiate, prosecute, defend, settle, maintain, administer, preserve, pursue, and resolve all Quigley Transferred Insurance Rights (subject to the Asbestos PI Coverage Defenses), including without limitation, its interest in any and all Asbestos Insurance

Actions, in the name of the Asbestos PI Trust, the Trustees of the Asbestos PI Trust, and/or Reorganized Quigley.

Section 10.9 Dissolution of Creditors' Committee; Retention of Future Demand Holders' Representative; Creation of the Trust Advisory Committee. On the Effective Date, the members of the Creditors' Committee shall be released and discharged of and from all further authority, duties, responsibilities, and obligations relating to and arising from and in connection with the Chapter 11 Case, and the Creditors' Committee shall be deemed dissolved. Notwithstanding the foregoing, if the Effective Date occurs prior to the Confirmation Order becoming a Final Order, the Creditors' Committee, may, at its option, continue to serve and function for the purposes of participating in any: (a) appeal of the Confirmation Order, but only until such time as the Confirmation Order becomes a Final Order; (b) hearing on a Fee Claim; and (c) adversary proceeding pending on the Effective Date in which the Creditors' Committee was a party. The Future Demand Holders' Representative also may, at his option, participate in any: (a) appeal of the Confirmation Order, but only until such time as the Confirmation Order becomes a Final Order; (b) hearing on a Fee Claim; and (c) adversary proceeding pending on the Effective Date in which the Future Demand Holders' Representative was a party.

As provided in Section 9.3(c) of this Plan, the Trust Advisory Committee shall be appointed by the Bankruptcy Court effective as of the Effective Date. From and after the Effective Date, the Future Demand Holders' Representative shall continue to serve as provided in the Plan and in the Asbestos PI Trust Agreement, to perform the functions specified and required by that agreement. Upon termination of the Asbestos PI Trust: (a) the members of the Trust Advisory Committee and the Future Demand Holders' Representative shall be released and discharged of and from all further authority, duties, responsibilities, and obligations relating to and arising from and in connection with the Chapter 11 Case; and (b) the Trust Advisory Committee shall be deemed dissolved and the Future Demand Holders' Representative's employment shall be deemed terminated. All reasonable and necessary post-Effective Date fees and expenses of the professionals retained by the Trust Advisory Committee and the Future Demand Holders' Representative shall be paid exclusively by the Asbestos PI Trust in accordance with the terms of the Asbestos PI Trust Agreement, and Reorganized Quigley shall not be liable for any such fees and expenses. If there shall be any dispute regarding the payment of such fees and expenses, the parties shall attempt to resolve such dispute in good faith and if they shall fail to resolve such dispute, they shall submit the dispute to the Bankruptcy Court for resolution.

Section 10.10 Recovery Actions. Except to the extent released pursuant to the Plan, the Confirmation Order or any other Plan Document (including, without limitation, Section 10.7(b) of the Plan), any rights, Claims, or Causes of Action accruing to Quigley pursuant to the Bankruptcy Code or pursuant to any statute or legal theory, including any rights to, Claims, or Causes of Action for recovery under any policies of insurance issued to or on behalf of, or which provides indemnity or liability payments to or on behalf of Quigley, and any rights, Claims, and Causes of Action against third parties related to or arising out of Allowed Claims, except Claims that shall, pursuant to this Plan, be retained and resolved by Reorganized Quigley, shall be transferred to the Asbestos PI Trust on the Effective Date.

The Asbestos PI Trust shall be deemed to be the appointed representative to, and may, pursue, litigate, and compromise and settle any rights, Claims, or Causes of Action transferred to it, as appropriate, in accordance the best interests, and for the benefit, of the Asbestos PI Trust and the beneficiaries thereof.

ARTICLE XI

RELEASES, INJUNCTIONS AND WAIVERS OF CLAIMS

Section 11.1 Discharge of Quigley. Except as specifically provided in the Plan, the Plan Documents or in the Confirmation Order, pursuant to section 1141(d)(1)(A) of the Bankruptcy Code, confirmation of the Plan shall discharge Quigley and Reorganized Quigley from any and all Claims of any nature whatsoever and Demands, including, without limitation, any Claims, Demands and Liabilities that arose before the Confirmation Date, and all debts of the kind specified in section 502(g), 502(h) and 502(i) of the Bankruptcy Code, whether or not: (a) a Proof of Claim based on such Claim was filed or deemed filed under section 501 of the Bankruptcy Code, or such Claim was listed on the Schedules of Quigley; (b) such Claim is or was Allowed under section 502 of the Bankruptcy Code; or (c) the holder of such Claim has voted on or accepted the Plan. Except as specifically provided for in the Plan or other Plan Documents, as of the Effective Date, the rights provided for in the Plan shall be in exchange for and in complete satisfaction, settlement and discharge of, all Claims (including, without limitation, Asbestos PI Claims) or Demands against, Liens on, and interests (other than the Equity Interests) in Quigley or Reorganized Quigley or any of their assets or properties.

Section 11.2 **Injunction. Except as otherwise expressly provided in the Plan or in the Confirmation Order, all entities who, (i) on or prior to the Confirmation Date have held or hold Claims against Quigley, or (ii) may in the future hold Demands against Quigley, are permanently enjoined, on and after the Confirmation Date, from: (a) commencing or continuing in any manner any action or other proceeding of any kind against Quigley with respect to any such Claim or Demand; (b) the enforcement, attachment, collection or recovery by any manner or means of any judgment, award, decree or order against Quigley on account of any such Claim or Demand; (c) creating, perfecting or enforcing any Encumbrance of any kind against Quigley or against the property or interest in property of Quigley on account of any such Claim or Demand; and (d) asserting any right of setoff, subrogation or recoupment of any kind against any obligation due from Quigley or against the property or interests in property of Quigley on account of any such Claim or Demand. The foregoing injunction shall extend to the successors of Quigley (including, without limitation, Reorganized Quigley) and their respective properties and interests in property.**

Section 11.3 **Exculpation. To the fullest extent permitted under section 1125(e) of the Bankruptcy Code, none of the following parties (but solely in respect of their specific capacities as listed below): (a) the Creditors' Committee and the present and former members thereof (including *ex officio* members, if any); (b) Quigley; (c) Reorganized Quigley; (d) the Future Demand Holders' Representative; (e) the Asbestos Protected Parties; and (f) all present or former Representatives of the foregoing**

(collectively, but solely in respect of the capacities listed above, the "Released Parties") shall have or incur any liability to any holder of a Claim or Equity Interest for any act or omission in connection with, related to, or arising out of: (i) the Chapter 11 Case; (ii) pursuit of confirmation of the Plan; (iii) consummation of the Plan or the administration of the Plan or the property to be distributed under the Plan or the Asbestos PI Trust Distribution Procedures; (iv) the Plan; or (v) the negotiation, formulation and preparation of the Plan and the other Plan Documents and any of the terms and/or settlements and compromises reflected in the Plan and the other Plan Documents, except for gross negligence, willful misconduct, breach of fiduciary duty that resulted in personal profit at expense of the Estate, or, in the case of attorneys, breaches of professional responsibility, and, in all respects, Quigley, Reorganized Quigley, and each of the Released Parties shall be entitled to rely upon the advice of counsel with respect to their duties and responsibilities under the Plan and the other Plan Documents.

Section 11.4 **Release of Quigley's Officers and Directors. The acceptance of (a) any Distribution by any holder of a Claim and (b) the Quigley Contribution by the Asbestos PI Trust shall constitute a waiver and release of any and all causes of action that such holder, including any holder of an Asbestos PI Claim, could have commenced against any officer or director of Quigley serving in such capacity from and after the Petition Date, that is based upon, related to or arising from any actions or omissions of such officers or directors occurring prior to the Effective Date in connection with or related to their capacities as officers or directors of Quigley, to the fullest extent permitted under section 524(e) of the Bankruptcy Code and applicable law as now in effect or as subsequently extended; provided, however, that the forgoing shall not operate as a waiver or release from (a) any causes of action arising out of willful misconduct, gross negligence of any such person or entity, or breach of fiduciary duty by any such person or entity that resulted in personal profit at expense of the Estate; (b) any claim by any federal, state or local authority under the Internal Revenue Code or any applicable environmental or criminal laws; or (c) any contractual obligations arising from or out of a loan or advance from Quigley to any officer or director of Quigley.**

Section 11.5 **Limited Release of Released Parties by Entities Accepting Distributions Under the Plan. Except as otherwise specifically provided in the Plan or the Confirmation Order, any Entity who has accepted the Plan or who is entitled to receive any Distribution pursuant to the Plan shall be presumed conclusively to have released the Released Parties from any Claim or cause of action based on, arising from, or in any way connected with the same subject matter as the Claim for which a Distribution is received. The foregoing release shall be enforceable as a matter of contract law against any Entity who has accepted the Plan or who is entitled to receive any Distribution pursuant to the Plan.**

Section 11.6 **Asbestos PI Channeling Injunction.**

(a) **Terms. Subject to Section 11.6(b) below, pursuant to section 524(g) of the Bankruptcy Code, the sole recourse of any holder of an Asbestos PI Claim on account of such Asbestos PI Claim shall be to the Asbestos PI Trust pursuant to the provisions of the Asbestos PI Channeling Injunction as described in this Section 11.6 of the**

Plan, the Asbestos PI Trust Agreement, and the Asbestos PI Trust Distribution Procedures. Each such holder shall be enjoined from taking legal action directed against Quigley, Reorganized Quigley or any other Asbestos Protected Party or the property of any of them for the purpose of directly or indirectly collecting, recovering or receiving payment or recovery with respect to such Asbestos PI Claim, other than from the Asbestos PI Trust in accordance with this Asbestos PI Channeling Injunction and pursuant to the Asbestos PI Trust Agreement and the Asbestos PI Trust Distribution Procedures.

(b) **Reservations. Notwithstanding anything to the contrary above, this Asbestos PI Channeling Injunction shall not enjoin:**

(i) **the rights of Entities to the treatment accorded them under Articles III and IV of the Plan, as applicable, including the rights of Entities with Asbestos PI Claims to assert Asbestos PI Claims against the Asbestos PI Trust in accordance with the Asbestos PI Trust Distribution Procedures;**

(ii) **the rights of Entities to assert any Claim, debt, obligation, or liability for payment of Trust Expenses against the Asbestos PI Trust;**

(iii) **the rights of the Asbestos PI Trust and/or Reorganized Quigley to take any action with respect to any and all of the Quigley Transferred Insurance Rights, subject to any applicable Insurance Settlement Agreement, the AIG Insurance Settlement Agreement, the Insurance Relinquishment Agreement, the AIG Assignment Agreement, and any Asbestos PI Insurer Coverage Defense;**

(iv) **the rights of any Entity to which the Asbestos PI Trust, Reorganized Quigley and/or any Pfizer Protected Party has assigned any of the Quigley Transferred Insurance Rights to take any action with respect to any such Quigley Transferred Insurance Right, subject to any applicable Insurance Settlement Agreement, the AIG Insurance Settlement Agreement, the Insurance Relinquishment Agreement, the AIG Assignment Agreement, and any Asbestos PI Insurer Coverage Defense;**

(v) **the rights of the Asbestos PI Trust, Reorganized Quigley, any Pfizer Protected Party or any other Entity to assert any Claim, debt, obligation, or liability for payment against any Settling Asbestos Insurance Entity to the extent any insurance policies or insurance coverages were not resolved or released in the Insurance Settlement Agreement or the AIG Insurance Settlement Agreement, as applicable, with that Settling Asbestos Insurance Entity, subject to any applicable Insurance Settlement Agreement, the AIG Insurance Settlement Agreement, the Insurance Relinquishment Agreement, the AIG Assignment Agreement, and any Asbestos PI Insurer Coverage Defense;**

(vi) **the rights of any Entity to assert or prosecute any Claim, debt, obligation, or liability for payment against any Asbestos Insurance Entity, subject to the Quigley Insurance Transfer, any applicable Insurance Settlement Agreement, the Insurance Relinquishment Agreement and any Asbestos PI Insurer Coverage Defense;**

(vii) **the rights of holders of Secured Bond Claims to prosecute such Claims against Quigley or Reorganized Quigley in accordance with Section 4.2(b), (c), (d), or (e) of the Plan, as applicable; and**

(viii) **solely to the extent that such claim is permitted by the ruling of the Second Circuit Court of Appeals (the "Second Circuit") in *Quigley Co., Inc. v. Law Offices of Peter G. Angelos (In re Quigley, Co., Inc.)*, 676 F.3d 45 (2d Cir. 2012), the rights of a holder of an Asbestos PI Claim to assert or prosecute, on account of such Asbestos PI Claim, a claim against a Pfizer Protected Party alleging a theory of apparent manufacturer liability under Section 400 of the Restatement (Second) of Torts or other applicable non-bankruptcy law. Nothing contained herein shall preclude any party from seeking a determination in the Bankruptcy Court or any other court of competent jurisdiction that, consistent with the Second Circuit's ruling or other applicable law, such asserted claims are channeled under Section 524(g) of the Bankruptcy Code. For the avoidance of doubt, if at any time the Second Circuit's ruling is overruled, amended or modified in any fashion, this section 11.6(b)(viii) will automatically be deemed amended or modified consistent with such ruling as of the date such ruling is entered, without need for any further act or amendment to this Plan.**

Section 11.7 **Settling Asbestos Insurance Entity Injunction**.

(a) **Terms. Subject to Section 11.7(b) below, in order to preserve and promote the property of the Estate, as well as the settlements contemplated by and provided for in this Plan, and the agreements approved by the Bankruptcy Court, pursuant to section 524(g) of the Bankruptcy Code, the sole recourse of any holder of an Asbestos PI Claim on account of such Asbestos PI Claim shall be to the Asbestos PI Trust pursuant to the provisions of the Settling Asbestos Insurance Entity Injunction as described in this Section 11.7 of the Plan, the Asbestos PI Trust Agreement, and the Asbestos PI Trust Distribution Procedures. Each such holder shall be enjoined from taking legal action directed against any Settling Asbestos Insurance Entity or its property for the purpose of directly or indirectly collecting, recovering or receiving payment or recovery with respect to such Asbestos PI Claim, other than from the Asbestos PI Trust in accordance with this Asbestos PI Channeling Injunction and pursuant to the Asbestos PI Trust Agreement and the Asbestos PI Trust Distribution Procedures.**

(b) **Reservations. Notwithstanding anything to the contrary above, this Settling Asbestos Insurance Entity Injunction shall not enjoin:**

(i) **the rights of Entities to the treatment accorded them under Articles III and IV of the Plan, as applicable, including the rights of Entities with Asbestos PI Claims to assert Asbestos PI Claims against the Asbestos PI Trust in accordance with the Asbestos PI Trust Distribution Procedures;**

(ii) **the rights of Entities to assert any Claim, debt, obligation, or liability for payment of Trust Expenses against the Asbestos PI Trust;**

(iii) **the rights of the Asbestos PI Trust and/or Reorganized Quigley to take any action with respect to any and all of the Quigley Transferred Insurance Rights, subject to any applicable Insurance Settlement Agreement, the AIG Insurance Settlement Agreement, the Insurance Relinquishment Agreement, the AIG Assignment Agreement, and any Asbestos PI Insurer Coverage Defense;**

(iv) **the rights of any Entity to which the Asbestos PI Trust, Reorganized Quigley and/or any Pfizer Protected Party has assigned any of the Quigley Transferred Insurance Rights to take any action with respect any such Quigley Transferred Insurance Right, subject to any applicable Insurance Settlement Agreement, the AIG Insurance Settlement Agreement, the Insurance Relinquishment Agreement, the AIG Assignment Agreement, and any Asbestos PI Insurer Coverage Defense;**

(v) **the rights of the Asbestos PI Trust, Reorganized Quigley, any Pfizer Protected Party or any other Entity to assert any Claim, debt, obligation, or liability for payment against any Settling Asbestos Insurance Entity to the extent any insurance policies or insurance coverages were not resolved or released in the Insurance Settlement Agreement or the AIG Insurance Settlement Agreement, as applicable, with that Settling Asbestos Insurance Entity, subject to any applicable Insurance Settlement Agreement, the AIG Insurance Settlement Agreement, the Insurance Relinquishment Agreement, the AIG Assignment Agreement, and any Asbestos PI Insurer Coverage Defense; and**

(vi) **the rights of any Entity to assert or prosecute any Claim, debt, obligation, or liability for payment against any Asbestos Insurance Entity, subject to the Quigley Insurance Transfer, any applicable Insurance Settlement Agreement, the Insurance Relinquishment Agreement and any Asbestos PI Insurer Coverage Defense.**

Section 11.8 **Non-Settling Asbestos Insurance Entity Injunction**.
