<p style="text-align: right;">Page 466</p> <p>1 GLENN BOWEN</p> <p>2 there's still the concept here is that the DWSD is</p> <p>3 going to contribute to reach a hundred percent funded</p> <p>4 status on the DWSD share of unfunded liability over a</p> <p>5 nine-year period, so by 2023, correct?</p> <p>6 A. I mean, yes, but that's not the entire picture.</p> <p>7 Q. Okay. What's not the entire picture about it?</p> <p>8 A. In this April 25th letter there are additional benefit</p> <p>9 changes made that were not included in the April 14th</p> <p>10 letter.</p> <p>11 Q. Fair enough, and there -- each of these letters had</p> <p>12 some different analyses about benefit reductions or</p> <p>13 treatment of recoupment of the ASF funds, and things</p> <p>14 like that, other things that are going on on the</p> <p>15 liability side besides the DWSD's contribution. Is</p> <p>16 that fair?</p> <p>17 A. That is fair.</p> <p>18 Q. Okay. But the idea is still that the DWSD is going to</p> <p>19 contribute and going to pay a full amount of its</p> <p>20 allocated unfunded liability on a market-value basis</p> <p>21 over nine years, correct?</p> <p>22 A. That is correct.</p> <p>23 Q. And that in addition to that, it's going to pay</p> <p>24 another 2.5 in administrative, 2.5 million per year in</p> <p>25 administrative expenses, correct?</p>	<p style="text-align: right;">Page 468</p> <p>1 GLENN BOWEN</p> <p>2 A. To the best of my recollection, we were requested to</p> <p>3 do some fractional allocation, and upon looking at the</p> <p>4 fractional allocation, we said let's use a flat 2.5</p> <p>5 for simplicity instead of trying to use numbers that</p> <p>6 vary very little over the nine-year period.</p> <p>7 Q. Okay. Is there anything in this letter that reflects</p> <p>8 you're doing that calculation as opposed to being</p> <p>9 directed by the city to use that contribution schedule</p> <p>10 that specified a 2.5 million figure? And the reason</p> <p>11 I'm asking is, as I read the first sentence under DWSD</p> <p>12 contribution projection, it says the city's specified</p> <p>13 contribution schedule is based on a concept of, and</p> <p>14 then it says plus 2.5 million.</p> <p>15 So I'm just trying to figure out if that's</p> <p>16 something you derived or something you were told to</p> <p>17 do.</p> <p>18 A. Well, let me address what I believe may have been the</p> <p>19 scenario. As I probably mentioned over the course of</p> <p>20 the past two days, projects don't come in complete</p> <p>21 and/or clear. So we'll have a back and forth with the</p> <p>22 pension task force to define and/or ask for</p> <p>23 clarification as to what we propose to do, and the way</p> <p>24 this may have arisen was assign some percentage of the</p> <p>25 overall administrative expenses to DWSD, and in the</p>

58 (Pages 465 to 468)

<p style="text-align: right;">Page 469</p> <p>1 GLENN BOWEN</p> <p>2 process of developing the project scope, we noted</p> <p>3 you're going to have a large DWSD contribution on</p> <p>4 behalf of the unfunded liability and a relatively much</p> <p>5 smaller contribution on behalf of their administrative</p> <p>6 expense.</p> <p>7 And we can parse -- or we can try to</p> <p>8 fine-tune what might be 2.45 million, 2.47, 2.49,</p> <p>9 2.51, 2.53, something of that nature, or for</p> <p>10 simplicity, how about we just use 2.5. And if I had</p> <p>11 asked that and the city said yes, I don't know that we</p> <p>12 can specifically say it's a Milliman recommendation to</p> <p>13 assign 2.5 million in expenses, but in the</p> <p>14 back-and-forth of the defining the project</p> <p>15 description, we may have said we have a simpler way of</p> <p>16 accomplishing the same goal.</p> <p>17 Q. All right. My only question about that is, are you</p> <p>18 assuming that that's what may have happened, or do you</p> <p>19 recall that's what happened?</p> <p>20 A. I do recall that that, that type of conversation is</p> <p>21 something that I had. I cannot specifically say this</p> <p>22 particular letter, but when the numbers are for</p> <p>23 administrative expense small relative to the</p> <p>24 contributions and the liability, it didn't seem to</p> <p>25 make sense to say let's go to another decimal place.</p>	<p style="text-align: right;">Page 471</p> <p>1 GLENN BOWEN</p> <p>2 letter.</p> <p>3 Q. Okay. And that's the letter that analyzes the</p> <p>4 investment return?</p> <p>5 A. Yes, that's the one I'm thinking of.</p> <p>6 Q. All right, let me ask you to looking at what was</p> <p>7 marked as Exhibit 2, and look at page 3, in</p> <p>8 particular -- actually, page 5 of the letter.</p> <p>9 A. Okay.</p> <p>10 Q. All right. In this letter there is an assumption that</p> <p>11 administrative expenses would be added to the normal</p> <p>12 cost for the fiscal year. Do you see that?</p> <p>13 A. Yes.</p> <p>14 Q. Okay. And do you know whether administrative expenses</p> <p>15 were contemplated in subsequent analyses to be</p> <p>16 included in the normal cost for the year as opposed to</p> <p>17 payment for UAAL?</p> <p>18 A. We looked at -- in the progression of the last several</p> <p>19 letters you've shown me, at one point in time they</p> <p>20 weren't and then at one point in time they were.</p> <p>21 Q. Okay. There's been two letters, I think, the last,</p> <p>22 this one and the one before it --</p> <p>23 A. Okay.</p> <p>24 Q. -- that, that were -- where admin expense was -- the</p> <p>25 interest was not net of the admin expense. So the</p>
<p style="text-align: right;">Page 470</p> <p>1 GLENN BOWEN</p> <p>2 Q. Okay. Now, are these administrative expenses that are</p> <p>3 being covered here things that would have been</p> <p>4 embraced with the investment return assumption, when</p> <p>5 the investment return assumption that was being</p> <p>6 provided was net of investment and admin expense?</p> <p>7 A. Yes.</p> <p>8 Q. Okay, so -- and did you do any comparison of what --</p> <p>9 there was a specified level of assumed administrative</p> <p>10 expenses, a percentage of assumed investment return,</p> <p>11 do you recall that? In the November 4th letter, for</p> <p>12 example, you adjusted down from an expected rate based</p> <p>13 on a presumed level of administrative expense.</p> <p>14 A. Yeah, I'm mixed up --</p> <p>15 Q. It was a number of basis points that --</p> <p>16 A. For -- I'm sorry, please continue and then I'll</p> <p>17 respond.</p> <p>18 Q. I'm sorry. I didn't mean to interrupt you, and it's</p> <p>19 getting late in the day, so I apologize. But do you</p> <p>20 recall that in your November 4 letter, there was a</p> <p>21 specific basis point load for administrative expense</p> <p>22 that was deducted from a gross investment return to</p> <p>23 reach the net investment return, along with several</p> <p>24 other items that were deducted?</p> <p>25 A. I don't recall that being the case in the November 4th</p>	<p style="text-align: right;">Page 472</p> <p>1 GLENN BOWEN</p> <p>2 assumption at least until the last couple of letters</p> <p>3 that we've looked at was that admin expense would</p> <p>4 actually be included in the normal cost, is that</p> <p>5 right?</p> <p>6 A. I'm, I'm very sorry, that was -- I wasn't able to</p> <p>7 follow it. Between the November 4th letter -- could</p> <p>8 you just please repeat?</p> <p>9 Q. It's fine. I think we've got it, anyway. But at this</p> <p>10 point you are adding in as a part of UAAL an</p> <p>11 additional payment for admin expense that hadn't been</p> <p>12 reflected until the last -- until this letter, in</p> <p>13 fact. This is the first letter we've seen where you</p> <p>14 were adding in an additional payment for admin expense</p> <p>15 as part of UAAL, is that fair?</p> <p>16 A. It's not added in as part of UAAL, and it effectively</p> <p>17 is a re-characterization of what the numerical, the</p> <p>18 denominal numerical amount of the investment</p> <p>19 assumption means.</p> <p>20 Q. Fair enough. You are specifying an amount in this</p> <p>21 letter as an amount to be paid for UAAL amortized over</p> <p>22 nine years for the DWSD, is that fair? Among other</p> <p>23 things, you analyzed that, right?</p> <p>24 If you look at results on page 6, there's a</p> <p>25 42.9 million per year that you analyze being the</p>

59 (Pages 469 to 472)

<p style="text-align: right;">Page 473</p> <p>1 GLENN BOWEN</p> <p>2 annual contribution for DWSD using the nine-year</p> <p>3 amortization period, is that right?</p> <p>4 A. Yes.</p> <p>5 Q. Okay. And that's a payment on behalf of -- in respect</p> <p>6 of UAAL, is that fair?</p> <p>7 A. Yes.</p> <p>8 Q. Okay. And then the 2.5 million you add in here, but</p> <p>9 you're saying it's for admin expenses, not actually</p> <p>10 part of the UAAL, is that fair?</p> <p>11 A. That is.</p> <p>12 Q. Okay. And so the result is 45.4 million added to -- I</p> <p>13 mean per year, inclusive of the UAAL payment, and 2.5</p> <p>14 million of admin expense?</p> <p>15 A. Correct.</p> <p>16 Q. And the total payment that the DWSD winds up making</p> <p>17 under this analysis is 408.6 million for the nine-year</p> <p>18 period?</p> <p>19 A. That's what's stated, yes.</p> <p>20 Q. Okay. We have discussed the market value of assets</p> <p>21 previously, and there's a -- I just want to understand</p> <p>22 how you derive the market value of assets you used for</p> <p>23 the purposes of this analysis, and I believe that's</p> <p>24 set forth on page 7?</p> <p>25 A. I'm not sure if I can ask you questions, but I'll say</p>	<p style="text-align: right;">Page 475</p> <p>1 GLENN BOWEN</p> <p>2 assets, is that fair?</p> <p>3 A. That is correct.</p> <p>4 Q. Okay. Have you done -- since the time of this</p> <p>5 April 25th letter, have you done any further analyses</p> <p>6 of the amount that DWSD would be required to</p> <p>7 contribute over a nine-year period to reach a hundred</p> <p>8 percent funded status?</p> <p>9 A. I'm not sure.</p> <p>10 Q. Okay. These, as I understand it, are the numbers that</p> <p>11 actually appear in the plan, and so my question is</p> <p>12 whether you've revisited this analysis since.</p> <p>13 MR. MUTH: By "these," you're referring to</p> <p>14 Exhibit 52?</p> <p>15 MR. BALL: I'm referring to Exhibit 52,</p> <p>16 and, in particular, the numbers that are shown on</p> <p>17 page 6 under the results with respect to the DWSD</p> <p>18 contributions.</p> <p>19 A. I'm sorry, I mean, I don't know if I answered your</p> <p>20 question, if you want to ask it again.</p> <p>21 Q. I'm just trying to make sure, have you done any</p> <p>22 further analyses beyond those in this letter of the</p> <p>23 annual contributions that DWSD would be required to</p> <p>24 make to reach a hundred percent funded status in 2023?</p> <p>25 A. I cannot definitively state that we did not do any</p>
<p style="text-align: right;">Page 474</p> <p>1 GLENN BOWEN</p> <p>2 the 2014 assets?</p> <p>3 Q. Right. So you do an analysis that assumes the market</p> <p>4 value of the assets has increased by 11.3 percent in</p> <p>5 the 2013-14 fiscal year?</p> <p>6 A. Yes.</p> <p>7 Q. And then you apply 6.75 percent as an investment</p> <p>8 return rate thereafter?</p> <p>9 A. Yes.</p> <p>10 Q. Okay. And in terms of the allocation between DWSD and</p> <p>11 other components of the city, did you do the same sort</p> <p>12 of analysis here that we discussed you having done in</p> <p>13 prior letters?</p> <p>14 A. Yes, as on page 3.</p> <p>15 Q. Okay, and the difference -- in this case you used the</p> <p>16 June 30th, 2013, Gabriel Roeder report, is that fair?</p> <p>17 A. Yes, we did, the June 30, 2013, report.</p> <p>18 Q. And you got to the numbers for 2014, the roll forward</p> <p>19 that you did here, in the same way as in the letter we</p> <p>20 looked at earlier, is that fair?</p> <p>21 A. Yes.</p> <p>22 Q. And you again have not done any analysis of whether</p> <p>23 that methodology squares with the asset allocation</p> <p>24 methodology that was used by Gabriel Roeder or the</p> <p>25 retirement systems to develop their allocation of</p>	<p style="text-align: right;">Page 476</p> <p>1 GLENN BOWEN</p> <p>2 further analyses.</p> <p>3 Q. Okay. You don't know, one way or the other?</p> <p>4 A. I don't have a demarcation line in my mind as to when</p> <p>5 the last letter was.</p> <p>6 Q. I want to probe that just a little bit, just to make</p> <p>7 sure. Were you aware that numbers you were providing</p> <p>8 for contributions by DWSD were going to be</p> <p>9 incorporated in the plan?</p> <p>10 A. I'll say I was aware that there was a possibility that</p> <p>11 that could happen.</p> <p>12 Q. Okay. And did you at some point learn that it had</p> <p>13 happened?</p> <p>14 A. The plan adjustment was discussed with me last week.</p> <p>15 Q. Okay. And was there any discussion -- okay, is that</p> <p>16 the first time it was discussed with you?</p> <p>17 A. I'm sorry, the plan document was set in front of me,</p> <p>18 if you will, during that period of time. I have not</p> <p>19 read the entire plan document, or much of any of it.</p> <p>20 Q. Okay. Do you know whether you've done any analysis --</p> <p>21 here's all I'm trying to figure out, is whether you</p> <p>22 know whether you've done any analysis of the DWSD</p> <p>23 contribution subsequent to the analysis that is</p> <p>24 reflected in the plan.</p> <p>25 And maybe you don't know enough facts to</p>

60 (Pages 473 to 476)

<p style="text-align: right;">Page 477</p> <p>1 GLENN BOWEN</p> <p>2 know that. I'm just asking whether or not -- whether</p> <p>3 you have any understanding about that.</p> <p>4 A. Well, saying understanding is, I'll say, a word I</p> <p>5 would object to. You're asking me if I remember out</p> <p>6 of a series of a dozen letters or so that I wrote over</p> <p>7 the course of a short period of time which one was the</p> <p>8 final one. I cannot definitively say that this one</p> <p>9 was the final one, just because this one happened to</p> <p>10 appear in the plan.</p> <p>11 It is entirely possible that a subsequent</p> <p>12 analysis could have been done, and along with all</p> <p>13 prior analysis was discarded by the city, and this one</p> <p>14 was selected and reached in mediation. I cannot</p> <p>15 answer the particular question you're asking more</p> <p>16 specifically than that.</p> <p>17 Q. Okay, fair enough. I'm just trying to make sure</p> <p>18 there's not something there that if I help you with</p> <p>19 the knowledge that this is what -- these are the</p> <p>20 numbers that appear in the plan, whether that gives</p> <p>21 you anything further to go on whether you've done any</p> <p>22 later analysis. And I'm hearing the answer is no, so</p> <p>23 I'll move on to the next question.</p> <p>24 If you would --</p> <p>25 MARKED FOR IDENTIFICATION:</p>	<p style="text-align: right;">Page 479</p> <p>1 GLENN BOWEN</p> <p>2 DGRS liabilities, dated April 10th, 2014. Do you see</p> <p>3 that?</p> <p>4 A. I do.</p> <p>5 Q. Okay. And so those are all matters incorporated by</p> <p>6 reference from the 2014 letter, is that fair?</p> <p>7 A. Yes.</p> <p>8 Q. Okay. And this letter provides an estimate of the</p> <p>9 funded status for the system as a whole in 2033 and</p> <p>10 2043, right?</p> <p>11 A. It does.</p> <p>12 Q. And it assumes the DWSD contributions that were</p> <p>13 anticipated in the April 25th letter, is that fair?</p> <p>14 A. I can take a few minutes to compare, but I don't see</p> <p>15 anything here that says we have made a revision to</p> <p>16 DWSD from the prior attached letter.</p> <p>17 Q. And my understanding is that it incorporates that</p> <p>18 scenario, but I want you to be --</p> <p>19 A. Sure, okay. Bottom of page 2, please refer to</p> <p>20 attached letter, the DWSD contribution projection. So</p> <p>21 I'll believe that not seeing else regarding change in</p> <p>22 DWSD, this would directly follow on from the attached</p> <p>23 April 25th letter for that parameter.</p> <p>24 Q. All right. And so, first, as I understand it, this</p> <p>25 letter reflects that under the scenario that's being</p>
<p style="text-align: right;">Page 478</p> <p>1 GLENN BOWEN</p> <p>2 DEPOSITION EXHIBIT 53</p> <p>3 5:39 p.m.</p> <p>4 BY MR. BALL:</p> <p>5 Q. Mr. Bowen, you've been provided what's been marked as</p> <p>6 Exhibit 53, which is a letter dated May 7th, 2014,</p> <p>7 with Bates number POA00259896.</p> <p>8 My first question to you is whether this is</p> <p>9 a letter that you authored and signed?</p> <p>10 A. Yes, it is.</p> <p>11 Q. Okay. And you'll see that it attaches copies of both</p> <p>12 the April 25th letter that we were just reviewing and</p> <p>13 the April 10th letter that we looked at earlier. And</p> <p>14 if I ask you to look at page 2, is it fair to say that</p> <p>15 this letter incorporates by reference the scenario</p> <p>16 analyzed in the April 25th, 2014, letter?</p> <p>17 A. Given the phrase as a follow-up to our April 25th,</p> <p>18 2014, letter, it would appear to be a follow-on</p> <p>19 letter.</p> <p>20 Q. All right. And if you look on the next page, on</p> <p>21 page 3, you see that it says that the investment</p> <p>22 return assumption -- except for the investment return</p> <p>23 assumption mentioned above, plan provisions, actuarial</p> <p>24 assumptions and methods, and census data used in this</p> <p>25 analysis are all as set forth in our letter regarding</p>	<p style="text-align: right;">Page 480</p> <p>1 GLENN BOWEN</p> <p>2 analyzed, that as of June 2033, the plan as a whole</p> <p>3 still will not be fully funded, is that fair?</p> <p>4 A. That is.</p> <p>5 Q. And as of 2043, it still will not be fully funded?</p> <p>6 A. Correct.</p> <p>7 Q. Okay, and so -- and as of 2053, is it fully funded?</p> <p>8 A. Yes.</p> <p>9 Q. Okay. So it is -- and in what year does it become</p> <p>10 fully funded?</p> <p>11 A. Best of my recollection, slightly before 2053.</p> <p>12 Q. All right. So that would be a period of amortization</p> <p>13 of almost 40 years for the city as a -- for the DGRS</p> <p>14 as a whole, is that right?</p> <p>15 A. Yes, it would be a period -- yes.</p> <p>16 Q. Okay. And, in fact, the funding level reaches 70</p> <p>17 percent in June 2023, right? That's at the bottom of</p> <p>18 page 3.</p> <p>19 A. Excuse me one moment. Can you continue with the</p> <p>20 question, please?</p> <p>21 Q. My question was the -- I was going to ask about the</p> <p>22 funding levels at various points under the scenario,</p> <p>23 but in 2023 it would be 70 percent, which was the</p> <p>24 target of the original analysis, correct?</p> <p>25 A. At 2023, it will be 70 percent under this scenario.</p>

61 (Pages 477 to 480)

<p style="text-align: right;">Page 481</p> <p>1 GLENN BOWEN</p> <p>2 Q. All right. And then the funding level actually</p> <p>3 declines after that, right?</p> <p>4 A. Just as it had declined prior to that, yes.</p> <p>5 Q. Okay. And so it declines to 64 percent as of June</p> <p>6 2040, is that right? I'm looking, in particular, at</p> <p>7 the bottom of page 3.</p> <p>8 A. Yes.</p> <p>9 Q. And it remains 64 percent for several years after</p> <p>10 that?</p> <p>11 A. It bottoms out at 64 percent.</p> <p>12 Q. And so during the period where the city is making</p> <p>13 contributions and after DWSD has reached a hundred</p> <p>14 percent analysis, under the scenario provided here,</p> <p>15 it's not going to be maintained, the funding is not</p> <p>16 going to be maintained at a 70 percent level, is that</p> <p>17 right?</p> <p>18 A. It will go below 70 percent.</p> <p>19 Q. Okay. In the paragraph, second paragraph at the top</p> <p>20 on page 3, the last sentence says: Beginning with the</p> <p>21 2023 fiscal year, administrative expenses were limited</p> <p>22 to no more than five percent of the estimated benefit</p> <p>23 payments for the respective fiscal year.</p> <p>24 So that is an assumption about admin</p> <p>25 expenses that is imposed for the year, first year when</p>	<p style="text-align: right;">Page 483</p> <p>1 GLENN BOWEN</p> <p>2 to by the city, but not because it was a</p> <p>3 recommendation by Milliman. Is that fair?</p> <p>4 A. Again, I'll say this falls into the gray area that I</p> <p>5 had discussed earlier where there was a limit on</p> <p>6 administrative expenses that was desired because of</p> <p>7 the knowledge that the plan would be winding down and</p> <p>8 administrative expenses would not continue, or not be</p> <p>9 expected to continue to grow on the current basis for</p> <p>10 a frozen, winding-down plan.</p> <p>11 I believe the way that this arose was we</p> <p>12 said, currently, administrative expenses are a certain</p> <p>13 percentage of benefit payments, and it may have been</p> <p>14 two-and-a-half or three or four, some number less than</p> <p>15 five, and in the context of setting the project scope,</p> <p>16 there was an agreement upon five percent.</p> <p>17 Q. Okay. And the timing of the five percent?</p> <p>18 A. Well, the timing of the five percent is twofold, as we</p> <p>19 just discussed. There was a, a period of when the</p> <p>20 test would first be implemented whether or not it</p> <p>21 applies in a given year is then -- depends upon the</p> <p>22 results of the particular test as described here.</p> <p>23 Q. Okay. Back to the questions about the funding level</p> <p>24 and the funding level declines from 70 percent after</p> <p>25 2023, is there a reason, a principal reason that</p>
<p style="text-align: right;">Page 482</p> <p>1 GLENN BOWEN</p> <p>2 the city becomes -- when the DWSD has completed its</p> <p>3 contributions and the city begins to make</p> <p>4 contributions. Is that right?</p> <p>5 A. It is imposed but not -- does not necessarily apply.</p> <p>6 Q. Okay, explain what you mean by that.</p> <p>7 A. The administrative expenses, as noted in the middle of</p> <p>8 that paragraph, are assumed to increase 2.5 percent</p> <p>9 per year beginning with the current dollar amount, and</p> <p>10 ultimately there is an annual test. When the prior</p> <p>11 year administrative expenses are increased 2.5 percent</p> <p>12 per year, that dollar amount is compared to five</p> <p>13 percent of the estimated benefit payments for that</p> <p>14 year, and if that dollar amount exceeds five percent,</p> <p>15 the five percent of the estimated benefit payments is</p> <p>16 used as the administrative expense assumption that</p> <p>17 year.</p> <p>18 Q. Okay. And is there a reason why you imposed that cap</p> <p>19 as of 2023 as opposed to some earlier or later period?</p> <p>20 A. Beyond the request to limit the growth in</p> <p>21 administrative expenses at the far-out year, when the</p> <p>22 system is shrinking, there was no particular specific</p> <p>23 reason that said 2023, 2024, is the best year to begin</p> <p>24 applying that test.</p> <p>25 Q. Okay. And so you did that because you were directed</p>	<p style="text-align: right;">Page 484</p> <p>1 GLENN BOWEN</p> <p>2 you're aware of for setting a funding level at 70</p> <p>3 percent as opposed to 65 percent or 62 percent or 78</p> <p>4 percent in 2023?</p> <p>5 A. My understanding of the 70 percent was that it arose</p> <p>6 out of mediation. I believe that's the same question</p> <p>7 as previously.</p> <p>8 Q. Okay.</p> <p>9 MR. BALL: All right, I may be done. Give</p> <p>10 me a few minutes.</p> <p>11 VIDEO TECHNICIAN: The time is 5:50 p.m.</p> <p>12 we are off the record.</p> <p>13 (Off the record at 5:50 p.m.)</p> <p>14 (Back on the record at 5:51 p.m.)</p> <p>15 VIDEO TECHNICIAN: The time is 5:51. We</p> <p>16 are back on the record.</p> <p>17 BY MR. BALL:</p> <p>18 Q. Mr. Bowen, do you know whether you have undertaken any</p> <p>19 further analyses with respect to the DWSD since</p> <p>20 May 7th, 2014? And again, I understand you may not.</p> <p>21 I just want to make sure that having seen this</p> <p>22 document, whether that jars your recollection one way</p> <p>23 or the other.</p> <p>24 A. Let me say this, just out of some way to hopefully</p> <p>25 give you a better answer than I have previously. I</p>

62 (Pages 481 to 484)

<p style="text-align: right;">Page 485</p> <p>1 GLENN BOWEN</p> <p>2 don't have my computer here with access to all of my</p> <p>3 letters arranged in numerical order, so -- and any</p> <p>4 question of that variety as to is this the last or</p> <p>5 first or middle letter is not something that I have</p> <p>6 sufficient recollection to provide you an absolute</p> <p>7 answer to.</p> <p>8 So I apologize for not being able to do so,</p> <p>9 but I cannot say definitively whether there were</p> <p>10 letters of this variety subsequent to May 7th, and</p> <p>11 that's not meant to imply that there were and I'm</p> <p>12 forgetting them or that there weren't. I just simply</p> <p>13 do not remember that level of chronological detail.</p> <p>14 Q. And I asked the question only because this looks to us</p> <p>15 to be essentially the last letter from you that has</p> <p>16 analysis with respect to these issues, at least.</p> <p>17 If there were such a letter, would it have</p> <p>18 been produced to us as a result of the document</p> <p>19 searches that have been undertaken by Milliman?</p> <p>20 A. Yes, our IT department just went on to our network and</p> <p>21 lifted all the letters.</p> <p>22 Q. Okay. And since that happened, since the IT</p> <p>23 department went on the network and lifted all the</p> <p>24 letters, have you generated any additional letters</p> <p>25 reflecting your work on behalf of the city? In other</p>	<p style="text-align: right;">Page 487</p> <p>1 GLENN BOWEN</p> <p>2 In re) Chapter 9</p> <p>3 CITY OF DETROIT, MICHIGAN,) Case No. 13-53846</p> <p>4 Debtor.) Hon. Steven W. Rhodes</p> <p>5</p> <p>6 _____</p> <p>7</p> <p>8</p> <p>9 VERIFICATION OF DEPONENT</p> <p>10</p> <p>11 I, having read the foregoing deposition</p> <p>12 consisting of my testimony at the aforementioned time</p> <p>13 and place, do hereby attest to the correctness and</p> <p>14 truthfulness of the transcript.</p> <p>15</p> <p>16</p> <p>17 _____</p> <p>18 GLENN BOWEN</p> <p>19 Dated:</p> <p>20</p> <p>21</p> <p>22</p> <p>23</p> <p>24</p> <p>25</p>
<p style="text-align: right;">Page 486</p> <p>1 GLENN BOWEN</p> <p>2 words, they did it at some point in time. Since that</p> <p>3 point in time, have you done anything else?</p> <p>4 A. Again, I mean, it's possible. That happened two,</p> <p>5 three weeks ago. We could have issued another letter</p> <p>6 or two.</p> <p>7 Q. All right. Can I ask that you look to see whether you</p> <p>8 have issued any further letters to the city or in</p> <p>9 connection with your work for the city since that</p> <p>10 search was performed, and that those be provided to</p> <p>11 us?</p> <p>12 MR. MILLER: Yes, we will provide them.</p> <p>13 MR. BALL: Okay, I don't have further</p> <p>14 questions. Anyone else?</p> <p>15 MR. WEISBERG: I know you're disappointed.</p> <p>16 MR. BALL: Thank you very much, Mr. Bowen.</p> <p>17 THE WITNESS: You're welcome.</p> <p>18 VIDEO TECHNICIAN: The time is 5:53 p.m.</p> <p>19 We are off the record.</p> <p>20 (Deposition concluded at 5:53 p.m.</p> <p>21 Signature of the witness was requested.)</p> <p>22</p> <p>23</p> <p>24</p> <p>25</p>	<p style="text-align: right;">Page 488</p> <p>1 GLENN BOWEN</p> <p>2 ERRATA SHEET</p> <p>3 PAGE LINE READS PAGE LINE SHOULD READ</p> <p>4</p> <p>5</p> <p>6</p> <p>7</p> <p>8</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p> <p>13</p> <p>14</p> <p>15</p> <p>16</p> <p>17</p> <p>18</p> <p>19</p> <p>20</p> <p>21</p> <p>22</p> <p>23</p> <p>24</p> <p>25</p> <p>_____</p> <p>GLENN BOWEN</p> <p>Dated:</p>

<p style="text-align: right;">Page 9</p> <p>1 JUDITH KERMANS</p> <p>2 Detroit, Michigan</p> <p>3 Friday, August 8, 2014</p> <p>4 9:06 a.m.</p> <p>5</p> <p>6</p> <p>7 VIDEO TECHNICIAN: We are now on the</p> <p>8 record. This is the videotaped deposition of Judith</p> <p>9 Kermans, being taken on Friday, August 8th, 2014. The</p> <p>10 time is now 9:06 a.m.</p> <p>11 We are located at 500 Woodward Avenue,</p> <p>12 Detroit, Michigan.</p> <p>13 We are here in the matter of the City of</p> <p>14 Detroit bankruptcy case. This is Case Number</p> <p>15 13-53846. This matter is being held in the United</p> <p>16 States Bankruptcy Court for the Eastern District of</p> <p>17 Michigan.</p> <p>18 My name is Ben Solorzano, video technician.</p> <p>19 Will the court reporter swear in the</p> <p>20 witness and the attorneys briefly identify themselves,</p> <p>21 for the record, please.</p> <p>22 JUDITH KERMANS,</p> <p>23 was thereupon called as a witness herein, and after</p> <p>24 having first been duly sworn to testify to the truth,</p> <p>25 the whole truth and nothing but the truth, was</p>	<p style="text-align: right;">Page 11</p> <p>1 JUDITH KERMANS</p> <p>2 the phone. So if the people on the phone could please</p> <p>3 put in their appearance, for the record.</p> <p>4 MR. ALBERTS: Sam Alberts, from Dentons, on</p> <p>5 behalf of the Official Committee of Retirees.</p> <p>6 MR. PLOTKO: Gregory Plotko, Kramer Levin,</p> <p>7 on behalf of COPs holders.</p> <p>8 MR. CROWDER: Elliot Crowder, from the law</p> <p>9 firm of Stevenson & Bullock, PLC, also appearing on</p> <p>10 behalf of Gabriel Roder Smith & Company.</p> <p>11 MR. GALLAGHER: Sean Gallagher, from Clark</p> <p>12 Hill, on behalf of the Detroit Retirement Systems.</p> <p>13 MR. HOWELL: Evan, I think that was perfect</p> <p>14 timing. We were in the middle of having people put</p> <p>15 appearances on. Would you mind putting your</p> <p>16 appearance on, for the record?</p> <p>17 MR. MILLER: Thanks so much, yes, Evan</p> <p>18 Miller, Jones Day, on behalf of the City of Detroit.</p> <p>19 EXAMINATION</p> <p>20 BY MR. HOWELL:</p> <p>21 Q. Good morning, Ms. Kermans.</p> <p>22 A. Good morning.</p> <p>23 Q. Could you please state your full name, for the record?</p> <p>24 A. Judith Ann Kermans.</p> <p>25 Q. My name is Rush Howell. We met very briefly before we</p>
<p style="text-align: right;">Page 10</p> <p>1 JUDITH KERMANS</p> <p>2 examined and testified as follows:</p> <p>3 MR. BULLOCK: My name is Charles Bullock,</p> <p>4 of the firm Stevenson & Bullock, PLC, on behalf of</p> <p>5 Gabriel Roeder Smith & Company.</p> <p>6 MS. GREEN: Jennifer Green, Clark Hill, on</p> <p>7 behalf of the General Retirement System for the City</p> <p>8 of Detroit and the Police and Fire Retirement System</p> <p>9 for the City of Detroit.</p> <p>10 MR. KING: Ron King, with Clark Hill, on</p> <p>11 behalf of the Detroit Retirement Systems.</p> <p>12 MR. GORDON: Robert Gordon, Clark Hill, on</p> <p>13 behalf of the Detroit Retirement Systems.</p> <p>14 MR. BHARGAVA: Mark Bhargava, Chadbourne &</p> <p>15 Parke, on behalf of Assured Guaranty Municipal</p> <p>16 Corporation.</p> <p>17 MR. EATON: Miguel Eaton, from Jones Day,</p> <p>18 on behalf of the City of Detroit.</p> <p>19 MR. JAMES: Mark James, Williams, Williams,</p> <p>20 Rattner & Plunkett, on behalf of Financial Guaranty</p> <p>21 Insurance Company.</p> <p>22 MR. HOWELL: Rush Howell, with Kirkland &</p> <p>23 Ellis, on behalf of Syncora Guarantee, Inc., and</p> <p>24 Syncora Capital Assurance, Inc.</p> <p>25 I believe there are also several people on</p>	<p style="text-align: right;">Page 12</p> <p>1 JUDITH KERMANS</p> <p>2 went on the record, but I represent Syncora Guarantee</p> <p>3 and Syncora Capital Assurance, and I may refer to them</p> <p>4 collectively as Syncora, okay?</p> <p>5 A. Yes.</p> <p>6 Q. Have you ever been deposed before?</p> <p>7 A. Yes.</p> <p>8 Q. So I know that you know kind of the ground rules, but</p> <p>9 I'm still going to go over a few, just to make sure</p> <p>10 for the ease of our conversation that we're on the</p> <p>11 same page, okay?</p> <p>12 A. Okay.</p> <p>13 Q. First, I want to talk about a couple of acronyms that</p> <p>14 can get confusing. Specifically, when I use the term</p> <p>15 GRS today, I'm referring to the General Retirement</p> <p>16 System of Detroit, okay?</p> <p>17 A. Yes.</p> <p>18 Q. And I'll try to say Gabriel Roeder or Gabriel Roeder</p> <p>19 Smith rather than GRS for Gabriel Roeder, okay?</p> <p>20 A. Yes.</p> <p>21 Q. If I use the term PFRS, I'm referring to the Police</p> <p>22 and Fire Retirement Systems of the City of Detroit,</p> <p>23 okay?</p> <p>24 A. Okay.</p> <p>25 Q. If I use the term OPEB, I'm referring to other post</p>

3 (Pages 9 to 12)

Elisa Dreier Reporting Corp. (212) 557-5558
950 Third Avenue, New York, NY 10022

<p style="text-align: right;">Page 13</p> <p>1 JUDITH KERMANS</p> <p>2 employment benefits, okay?</p> <p>3 A. Okay.</p> <p>4 Q. Now, Ms. Kermans, a couple of other things that I</p> <p>5 think will help us out. The first is, both for the</p> <p>6 ease of our conversation and because we have a court</p> <p>7 reporter taking down the record, I would ask that you</p> <p>8 let me finish my question before you begin your answer</p> <p>9 even if you think you know where I'm going with the</p> <p>10 question, okay?</p> <p>11 A. Okay.</p> <p>12 Q. And I'll try to do you the same courtesy and not</p> <p>13 interrupt your answer with my next question, and if I</p> <p>14 do, you know, please let me know and I'll make sure</p> <p>15 that you're able to give a complete answer, okay?</p> <p>16 A. Okay.</p> <p>17 MR. ALBERTS: Just as an FYI for the folks</p> <p>18 there, the witness's statements are not really</p> <p>19 audible, so you may want to, you know, hop on the</p> <p>20 mikes for people on the phone.</p> <p>21 MR. BULLOCK: She is miked, but let's do</p> <p>22 this, let's move that over.</p> <p>23 THE WITNESS: I can speak more loudly if</p> <p>24 that's helpful.</p> <p>25 MS. GREEN: Well, and I think to your</p>	<p style="text-align: right;">Page 15</p> <p>1 JUDITH KERMANS</p> <p>2 going to assume that you did understand the question.</p> <p>3 Fair enough?</p> <p>4 A. Yes.</p> <p>5 Q. I understand that you are testifying here today in</p> <p>6 your capacity as a 30(b)(6) representative for Gabriel</p> <p>7 Roeder Smith, is that correct?</p> <p>8 A. Yes.</p> <p>9 Q. Ms. Kermans, are you on any medication this morning</p> <p>10 that would prevent you from being able to testify</p> <p>11 truthfully and accurately today?</p> <p>12 A. No.</p> <p>13 Q. Any other reason that you can think of that you would</p> <p>14 be unable to testify truthfully and accurately today?</p> <p>15 A. No.</p> <p>16 Q. If you want to take a break at any time, just let me</p> <p>17 know. The only thing that I would ask is that if</p> <p>18 there's a question pending, you answer that question</p> <p>19 before taking a break, okay?</p> <p>20 A. Okay.</p> <p>21 Q. Okay. I'm going to hand you what I've premarked as</p> <p>22 Kermans Exhibit 1.</p> <p>23 MARKED FOR IDENTIFICATION:</p> <p>24 DEPOSITION EXHIBIT 1</p> <p>25 9:16 a.m.</p>
<p style="text-align: right;">Page 14</p> <p>1 JUDITH KERMANS</p> <p>2 questions she was just kind of saying yes and nodding</p> <p>3 in agreement with you, so ...</p> <p>4 MR. BULLOCK: Just speak up. If there's</p> <p>5 still a problem, anyone on the phone, obviously, can</p> <p>6 interject and we'll try to take some remedial or</p> <p>7 corrective measures.</p> <p>8 BY MR. HOWELL:</p> <p>9 Q. In fact, you anticipated the next point I was going</p> <p>10 to, which is, you need to make sure that you give a</p> <p>11 verbal answer to any question. If you nod or shake</p> <p>12 your head or give kind of an uh-huh or nuh-uh, that</p> <p>13 can be hard for the court reporter and for everyone to</p> <p>14 pick up, okay?</p> <p>15 A. Okay.</p> <p>16 Q. And I'm naturally pretty loud, but I'll ask you, as</p> <p>17 was just requested on the phone, to try to keep your</p> <p>18 voice up, just because we do have several people</p> <p>19 listening on the phone, as well, okay?</p> <p>20 A. Okay.</p> <p>21 Q. If you don't understand the question that I've asked,</p> <p>22 I would ask you to let me know that and ask me to</p> <p>23 restate or rephrase the question, okay?</p> <p>24 A. Okay.</p> <p>25 Q. And if you do go ahead and answer a question, I'm</p>	<p style="text-align: right;">Page 16</p> <p>1 JUDITH KERMANS</p> <p>2 MR. HOWELL: For identification purposes,</p> <p>3 Kermans Exhibit 1 is the notice of 30(b)(6) deposition</p> <p>4 of Gabriel Roder Smith & Company, Docket Number 5786,</p> <p>5 filed July 7, 2014.</p> <p>6 BY MR. HOWELL:</p> <p>7 Q. Ms. Kermans, do you recognize this document?</p> <p>8 A. Yes.</p> <p>9 Q. And did you review this document in advance of your</p> <p>10 deposition?</p> <p>11 A. Yes.</p> <p>12 Q. And did you understand that pursuant to this 30(b)(6)</p> <p>13 request, Gabriel Roeder Smith was to designate someone</p> <p>14 who had knowledge of and was adequately prepared to</p> <p>15 testify concerning the topics listed in the deposition</p> <p>16 topic section of this 30(b)(6) notice?</p> <p>17 A. Yes.</p> <p>18 Q. And I just want to briefly go through the topics,</p> <p>19 which we'll cover in more detail later, just to make</p> <p>20 sure that you either have knowledge or are adequately</p> <p>21 prepared to testify on those topics.</p> <p>22 So beginning with topic one, actuarial</p> <p>23 valuations performed by Gabriel Roeder of the DGRS and</p> <p>24 DPFRS, first of all, you were involved in the</p> <p>25 actuarial valuations performed by Gabriel Roeder for</p>

4 (Pages 13 to 16)

<p style="text-align: right;">Page 17</p> <p>1 JUDITH KERMANS</p> <p>2 GRS and PFRS for the period ending June 30, 2013,</p> <p>3 correct?</p> <p>4 A. Yes.</p> <p>5 Q. Okay. And you have knowledge regarding the actuarial</p> <p>6 valuations performed by Gabriel Roeder of the GRS and</p> <p>7 PFRS over the last several years, correct?</p> <p>8 A. Yes.</p> <p>9 Q. And turning to topic three: Analysis performed by</p> <p>10 Gabriel Roeder relating to projections of investment</p> <p>11 rates of return of the GRS and PFRS.</p> <p>12 Have you had an opportunity to prepare on</p> <p>13 that topic, as well?</p> <p>14 A. I don't know of any particular such assignments.</p> <p>15 Q. You don't know of any analysis done by Gabriel Roeder</p> <p>16 relating to projections of investment rates of return</p> <p>17 for the GRS or PFRS?</p> <p>18 A. No.</p> <p>19 Q. And did you take the opportunity to inquire of others</p> <p>20 at Gabriel Roeder as to whether anyone at Gabriel</p> <p>21 Roeder had performed an analysis relating to</p> <p>22 projection of investment rates of return for the GRS</p> <p>23 or PFRS?</p> <p>24 A. I don't understand what this topic is asking for.</p> <p>25 Q. Okay. Let me ask you, did you, did you review the</p>	<p style="text-align: right;">Page 19</p> <p>1 JUDITH KERMANS</p> <p>2 been used by GRS or -- excuse me, that have been used</p> <p>3 by Gabriel Roeder Smith in connection with actuarial</p> <p>4 valuations of GRS or PFRS?</p> <p>5 A. No.</p> <p>6 Q. The fourth topic is analyses and reviews performed by</p> <p>7 Milliman with respect to GRS and PFRS, as well as any</p> <p>8 review by Gabriel Roeder of such analyses or reviews</p> <p>9 and any communications concerning such analyses or</p> <p>10 reviews.</p> <p>11 So let me start by asking, have you</p> <p>12 yourself prior to preparation for this deposition</p> <p>13 analyzed -- or reviewed -- excuse me, reviewed any</p> <p>14 analyses or reviews performed by Milliman of the work</p> <p>15 that Gabriel Roeder Smith has done for either the GRS</p> <p>16 or the PFRS?</p> <p>17 MR. BULLOCK: Rush, objection, to the</p> <p>18 extent that it violates the mediation confidentiality</p> <p>19 order.</p> <p>20 MR. HOWELL: Okay.</p> <p>21 BY MR. HOWELL:</p> <p>22 Q. I think it may be helpful, your counsel can tell me if</p> <p>23 he disagrees, but I think it may be helpful to just</p> <p>24 put on the record early on, for the ease of our</p> <p>25 conversation for the rest of the day, that I'm not</p>
<p style="text-align: right;">Page 18</p> <p>1 JUDITH KERMANS</p> <p>2 target investment rates used by Gabriel Roeder to</p> <p>3 discount actuarial liability for the GRS and PFRS in</p> <p>4 the most recent actuarial valuation?</p> <p>5 A. I don't understand the question.</p> <p>6 Q. You understand that as part of the actuarial</p> <p>7 valuations performed by Gabriel Roeder Smith for the</p> <p>8 GRS and PFRS, there's an investment return assumption</p> <p>9 included?</p> <p>10 A. Yes.</p> <p>11 Q. And did you review the particular investment return</p> <p>12 assumptions included in the recent actuarial</p> <p>13 valuations for GRS and PFRS?</p> <p>14 A. Yes.</p> <p>15 Q. And are you aware of the fact that Gabriel Roeder</p> <p>16 Smith has on occasion conducted experience studies</p> <p>17 that relate to assumptions used in the actuarial</p> <p>18 valuations for GRS and PFRS?</p> <p>19 A. Yes.</p> <p>20 Q. And did you have occasion in preparation for this</p> <p>21 deposition to review any of those experience studies?</p> <p>22 A. Yes.</p> <p>23 Q. And is there anything else that you can think of that</p> <p>24 you did in preparation for this deposition that</p> <p>25 related to investment return assumptions that have</p>	<p style="text-align: right;">Page 20</p> <p>1 JUDITH KERMANS</p> <p>2 going to be asking you to divulge material that is</p> <p>3 subject to any mediation privilege in this case.</p> <p>4 If there are questions that you cannot</p> <p>5 answer due to mediation privilege, I would like you to</p> <p>6 make that clear. However, it should be understood</p> <p>7 that I'm not asking you to provide any information</p> <p>8 that you believe to be subject to the mediation</p> <p>9 privilege. I'm sure your counsel will step in</p> <p>10 throughout the day when he believes that may be a</p> <p>11 concern, but I think we should make that clear.</p> <p>12 Is that fair enough?</p> <p>13 A. Yes.</p> <p>14 Q. So let me go back and subject to your counsel's</p> <p>15 instruction ask, prior to your preparation for this</p> <p>16 deposition, had you ever reviewed any analysis or</p> <p>17 reviews performed by Milliman that related to work</p> <p>18 that Gabriel Roeder Smith had done for the GRS or</p> <p>19 PFRS?</p> <p>20 A. We did not, outside of mediation, do any of that type</p> <p>21 of work.</p> <p>22 Q. And in preparation for this deposition, did you review</p> <p>23 any analysis or review of Gabriel Roeder Smith's work</p> <p>24 for the GRS or PFRS that had been performed by</p> <p>25 Milliman?</p>

Elisa Dreier Reporting Corp. (212) 557-5558

950 Third Avenue, New York, NY 10022

<p style="text-align: right;">Page 21</p> <p>1 JUDITH KERMANS</p> <p>2 A. I don't understand the question.</p> <p>3 Q. Did you look at any Milliman documents in which anyone</p> <p>4 at Milliman reviewed work done by Gabriel Roeder Smith</p> <p>5 in its capacity as system actuary for the PFRS or GRS?</p> <p>6 A. Could you repeat the question, please?</p> <p>7 Q. Sure.</p> <p>8 MR. HOWELL: Would you mind reading that</p> <p>9 back?</p> <p>10 (The following portion of the record was</p> <p>11 read by the reporter at 9:24 a.m.:</p> <p>12 Q. "Did you look at any Milliman documents</p> <p>13 in which anyone at Milliman reviewed work</p> <p>14 done by Gabriel Roeder Smith in its</p> <p>15 capacity as system actuary for the PFRS or</p> <p>16 GRS?"</p> <p>17 MR. BULLOCK: Mr. Howell, I think it's</p> <p>18 simply the form of the question, and rather than</p> <p>19 lodging a formal objection, I think she's struggling</p> <p>20 with analysis and review, because you said looked at</p> <p>21 anything, and I think that there's a distinction</p> <p>22 between the two, and I'm happy to work our way through</p> <p>23 the question.</p> <p>24 MR. HOWELL: Okay. Well, let me try to</p> <p>25 address the form objection.</p>	<p style="text-align: right;">Page 23</p> <p>1 JUDITH KERMANS</p> <p>2 Milliman documents without performing any sort of</p> <p>3 formal analysis or review, correct?</p> <p>4 A. Yes.</p> <p>5 Q. With respect to topic number five, assumptions</p> <p>6 underlying Gabriel Roeder's actuarial valuations,</p> <p>7 including information provided to Gabriel Roeder by</p> <p>8 the DGRS, DPFRS, or the City, is that a topic that you</p> <p>9 have knowledge of?</p> <p>10 A. Yes.</p> <p>11 Q. With respect to topic number six, information provided</p> <p>12 to Gabriel Roeder regarding the DGRS and DPFRS</p> <p>13 investment policies, is that a topic which you have</p> <p>14 knowledge of?</p> <p>15 A. I have knowledge of the DGRS policy.</p> <p>16 Q. So I take it from your answer, you do not have, you do</p> <p>17 not have -- well, let me strike and go back.</p> <p>18 So I take it from your answer that you do</p> <p>19 not have knowledge of the PFRS investment policy?</p> <p>20 A. Correct.</p> <p>21 Q. And were you able to speak with others at Gabriel</p> <p>22 Roeder Smith to confirm that Gabriel Roeder Smith does</p> <p>23 not have access to the PFRS investment policy?</p> <p>24 A. No.</p> <p>25 Q. In topic number seven, any work done by Gabriel Roeder</p>
<p style="text-align: right;">Page 22</p> <p>1 JUDITH KERMANS</p> <p>2 BY MR. HOWELL:</p> <p>3 Q. All I'm trying to figure out is, are you aware that</p> <p>4 there came a time where Milliman began to do work for</p> <p>5 the City of Detroit in which Milliman provided</p> <p>6 opinions/comments on the work that Gabriel Roeder</p> <p>7 Smith had done as system actuary?</p> <p>8 A. Yes.</p> <p>9 Q. And have you had occasion to review any documents from</p> <p>10 Milliman reflecting that work that Milliman did</p> <p>11 regarding the work that Gabriel Roeder Smith had done?</p> <p>12 A. We have not been asked to perform any professional</p> <p>13 reviews or analysis of the Milliman work outside of</p> <p>14 mediation.</p> <p>15 Q. And I am not -- so here's maybe where we're talking</p> <p>16 past each other. I'm not asking whether Gabriel</p> <p>17 Roeder Smith has done any kind of formal review or</p> <p>18 formal analysis. I'm asking whether you have had the</p> <p>19 opportunity to review analysis or review done by</p> <p>20 Milliman that related to work that Gabriel Roeder</p> <p>21 Smith had done.</p> <p>22 A. We have not done any professional reviews or analysis</p> <p>23 of any of the Milliman work.</p> <p>24 Q. Okay. But you have in preparation for this deposition</p> <p>25 at least been able to review -- to look at those</p>	<p style="text-align: right;">Page 24</p> <p>1 JUDITH KERMANS</p> <p>2 relating to health care benefits provided to retiree</p> <p>3 participants of GRS and PFRS, do you have knowledge</p> <p>4 regarding that topic?</p> <p>5 A. Yes.</p> <p>6 Q. And, finally, any analysis performed by Gabriel Roeder</p> <p>7 relating to the City's plan of adjustment, do you have</p> <p>8 knowledge regarding that topic?</p> <p>9 A. We've not been asked to do a formal evaluation or</p> <p>10 review of the plan of adjustment.</p> <p>11 Q. Okay, thanks. So you kind of anticipated my next</p> <p>12 question there, but in addition to not having reviewed</p> <p>13 the City's plan of adjustment, is it also fair to say</p> <p>14 that Gabriel Roeder Smith was not involved in the</p> <p>15 drafting or creation of the City's plan of adjustment?</p> <p>16 A. We have not done any work on the plan of adjustment</p> <p>17 outside of mediation.</p> <p>18 Q. Have you ever been asked by the City -- and when I say</p> <p>19 you, I mean Gabriel Roeder Smith -- has Gabriel Roeder</p> <p>20 Smith ever been asked by the City to assist with the</p> <p>21 drafting or creation of any of the various amended</p> <p>22 plans of adjustment in this case?</p> <p>23 A. We have not done any analysis or drafting, or</p> <p>24 otherwise, outside of the mediation process.</p> <p>25 Q. I understand that you haven't done any analysis or</p>

6 (Pages 21 to 24)

Elisa Dreier Reporting Corp. (212) 557-5558

950 Third Avenue, New York, NY 10022

<p style="text-align: right;">Page 25</p> <p>1 JUDITH KERMANS</p> <p>2 done any drafting outside of the mediation process,</p> <p>3 but outside of the mediation process, have you been</p> <p>4 asked by the City to do any analysis or any drafting</p> <p>5 or any assistance with the creation of any of the</p> <p>6 plans of adjustment?</p> <p>7 A. No.</p> <p>8 Q. And is that something that Gabriel Roeder Smith would</p> <p>9 have been able to do if, if requested, specifically,</p> <p>10 to assist with work regarding the claim for the GRS or</p> <p>11 PFRS retirement systems as listed under the plan of</p> <p>12 adjustment?</p> <p>13 MR. BULLOCK: I'm going to object to the</p> <p>14 form of the question. There's an awful lot, I</p> <p>15 believe, in the plan of adjustment. So for purposes</p> <p>16 of Gabriel Roder Smith & Company, I don't believe my</p> <p>17 witness is able to respond to that question unless</p> <p>18 it's asked more specifically.</p> <p>19 MR. HOWELL: Well, let me --</p> <p>20 BY MR. HOWELL:</p> <p>21 Q. Did you understand the question?</p> <p>22 A. No.</p> <p>23 Q. Okay. Gabriel Roeder Smith has conducted multiple</p> <p>24 actuarial -- Gabriel Roeder Smith has conducted</p> <p>25 multiple actuarial valuations for the GRS and PFRS,</p>	<p style="text-align: right;">Page 27</p> <p>1 JUDITH KERMANS</p> <p>2 A. No.</p> <p>3 Q. But it was not Gabriel Roeder Smith, correct?</p> <p>4 A. It was not.</p> <p>5 Q. How long has Gabriel Roeder Smith worked with the</p> <p>6 PFRS?</p> <p>7 A. For over 70 years.</p> <p>8 Q. How long has Gabriel Roeder Smith worked with the GRS?</p> <p>9 A. For over 70 years.</p> <p>10 Q. And it's fair to say that Gabriel Roeder Smith has a</p> <p>11 long history of a working relationship with both PFRS</p> <p>12 and GRS, correct?</p> <p>13 A. Yes.</p> <p>14 Q. And, to your knowledge, have there been any complaints</p> <p>15 from the PFRS or GRS related to the actuarial</p> <p>16 valuation performed by Gabriel Roeder Smith for the</p> <p>17 PFRS and for the GRS as of June 30, 2013?</p> <p>18 A. Could you repeat the question?</p> <p>19 Q. Sure. So -- let me ask it a little bit better.</p> <p>20 So Gabriel Roeder Smith performed an</p> <p>21 actuarial valuation for the PFRS as of June 30, 2013,</p> <p>22 correct?</p> <p>23 A. Yes.</p> <p>24 Q. And that was completed in around April of 2014, is</p> <p>25 that correct?</p>
<p style="text-align: right;">Page 26</p> <p>1 JUDITH KERMANS</p> <p>2 correct?</p> <p>3 A. Yes.</p> <p>4 Q. And as part of those actuarial valuations, GRS -- or</p> <p>5 excuse me, Gabriel Roeder Smith has calculated a UAAL</p> <p>6 for the GRS and PFRS for many years, correct?</p> <p>7 A. Yes.</p> <p>8 Q. And are you aware that as part of the plan of</p> <p>9 adjustment, a UAAL was calculated for both the PFRS</p> <p>10 and GRS?</p> <p>11 A. We've not been asked to do a formal analysis or review</p> <p>12 of the plan of adjustment.</p> <p>13 Q. I think my question was a little bit different, which</p> <p>14 is, are you aware that in the plan of adjustment,</p> <p>15 there has been a calculation done for the UAAL for the</p> <p>16 PFRS and GRS as of June 30, 2013?</p> <p>17 A. I can't tell you whether it's a UAAL that's in the</p> <p>18 plan of adjustment.</p> <p>19 Q. But you understand that there has been a calculation</p> <p>20 of a claim amount for the PFRS and GRS retirement</p> <p>21 systems that's included in the various versions of the</p> <p>22 plan of adjustment, correct?</p> <p>23 A. Yes.</p> <p>24 Q. And do you have an understanding as to which actuarial</p> <p>25 firm provided those calculations?</p>	<p style="text-align: right;">Page 28</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. And since submitting that actuarial valuation of the</p> <p>4 PFRS, has Gabriel Roeder Smith received any complaints</p> <p>5 from the PFRS regarding the accuracy of the work done</p> <p>6 by Gabriel Roeder Smith in its annual actuarial</p> <p>7 valuation for the PFRS as of June 30, 2013?</p> <p>8 A. No.</p> <p>9 Q. Gabriel Roeder Smith also conducted a June 30, 2013,</p> <p>10 actuarial valuation for the GRS, correct?</p> <p>11 A. Yes.</p> <p>12 Q. Gabriel Roeder Smith also submitted that actuarial</p> <p>13 valuation for the GRS around April of 2014, correct?</p> <p>14 A. Yes.</p> <p>15 Q. Have there been any complaints from the GRS regarding</p> <p>16 the accuracy of the actuarial valuation for the GRS</p> <p>17 performed as of June 30, 2013?</p> <p>18 A. No.</p> <p>19 Q. Any other complaints that you are aware of that the</p> <p>20 GRS has made regarding the annual actuarial valuation</p> <p>21 as of June 30, 2013, for the GRS?</p> <p>22 A. No.</p> <p>23 Q. Any other complaints that you're aware of -- or any</p> <p>24 complaints that you're aware of from the PFRS</p> <p>25 regarding Gabriel Roeder Smith's June 30, 2013, annual</p>

7 (Pages 25 to 28)

<p style="text-align: right;">Page 29</p> <p>1 JUDITH KERMANS</p> <p>2 actuarial valuation for the PFRS?</p> <p>3 A. No.</p> <p>4 Q. Would you say that Gabriel Roeder Smith or Milliman</p> <p>5 has more knowledge of the history of the PFRS and GRS</p> <p>6 systems?</p> <p>7 A. Gabriel Roeder Smith.</p> <p>8 Q. Would you say that Gabriel Roeder Smith or Milliman</p> <p>9 has more extensive history of work with the PFRS?</p> <p>10 A. Gabriel Roeder Smith.</p> <p>11 Q. The same for the GRS?</p> <p>12 A. Yes.</p> <p>13 MR. BULLOCK: Right, I'd like to make sure</p> <p>14 our record is accurate. If you're moving off the</p> <p>15 notice now, I suspect, where you've referenced the</p> <p>16 notice of the 30(b)(6) deposition of Gabriel Roder</p> <p>17 Smith & Company, found at Docket 5786, filed on 7-7 of</p> <p>18 2014, we're actually here on the second amended</p> <p>19 notice, found at Docket 6439.</p> <p>20 And although Ms. Kermans has, I think,</p> <p>21 adequately and accurately recited the breadth of her</p> <p>22 knowledge and will continue to testify, the second</p> <p>23 amended notice, which provided at exhibit, or</p> <p>24 schedule A the subject matter --</p> <p>25 MR. HOWELL: Yes.</p>	<p style="text-align: right;">Page 31</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Now, if you turn to page 2 of an April 4 -- well, I</p> <p>3 guess if you turn to the third page of this document,</p> <p>4 do you see a letter from April 4, 2014, to the board</p> <p>5 of trustees of the Police and Fire Retirement Systems</p> <p>6 that's from Gabriel Roeder Smith?</p> <p>7 A. Yes.</p> <p>8 Q. And if you turn to the second page of this letter, you</p> <p>9 were one of the signatories to this letter, correct?</p> <p>10 A. Yes.</p> <p>11 Q. Now, kind of in general terms, can you tell me what</p> <p>12 the purpose of performing an annual actuarial</p> <p>13 valuation for a pension system is?</p> <p>14 A. The purpose is to determine the contribution rate for</p> <p>15 the fiscal year that is lined up with the valuation.</p> <p>16 Q. Could you also walk me through the process that</p> <p>17 generally would go into the creation of an annual</p> <p>18 actuarial valuation for a pension system?</p> <p>19 A. The general process would be that we would request</p> <p>20 information from the retirement system, and then we</p> <p>21 would receive that information, including census data,</p> <p>22 financial information, and plan provisions.</p> <p>23 Then we would review that information, ask</p> <p>24 any questions, receive responses to the questions,</p> <p>25 process the data, and calculate the contribution rate,</p>
<p style="text-align: right;">Page 30</p> <p>1 JUDITH KERMANS</p> <p>2 MR. BULLOCK: -- there is no schedule A and</p> <p>3 no subject matter on the second amended notice.</p> <p>4 You may continue.</p> <p>5 MARKED FOR IDENTIFICATION:</p> <p>6 DEPOSITION EXHIBIT 2</p> <p>7 9:38 a.m.</p> <p>8 BY MR. HOWELL:</p> <p>9 Q. I'm going to hand you what I've marked as Kermans</p> <p>10 Exhibit 2.</p> <p>11 MR. HOWELL: For identification purposes,</p> <p>12 Kermans Exhibit 2 does not have a Bates range, however</p> <p>13 is labeled Gabriel Roder Smith & Company, a document</p> <p>14 entitled the Police and Fire Retirement System of the</p> <p>15 City of Detroit, 72nd Annual Actuarial Valuation,</p> <p>16 June 30, 2013, and was produced in this case.</p> <p>17 I'm not sure of the entity due to the lack</p> <p>18 of a Bates number.</p> <p>19 BY MR. HOWELL:</p> <p>20 Q. Ms. Kermans, do you recognize this document?</p> <p>21 A. Yes.</p> <p>22 Q. And is this document the annual actuarial valuation as</p> <p>23 of June 30, 2013, for the PFRS that we've referenced a</p> <p>24 couple of times?</p> <p>25 A. Yes.</p>	<p style="text-align: right;">Page 32</p> <p>1 JUDITH KERMANS</p> <p>2 draft a report, meet with the retirement system</p> <p>3 trustees. That would be it.</p> <p>4 Q. Would you typically meet with the retirement system</p> <p>5 trustees before or after issuing a draft report?</p> <p>6 A. I don't understand the question.</p> <p>7 Q. Well, two of the steps that you laid out, one was</p> <p>8 Gabriel Roeder Smith will typically draft a report,</p> <p>9 correct?</p> <p>10 A. Yes.</p> <p>11 Q. And another step you said was that Gabriel Roeder</p> <p>12 Smith will typically meet with retirement system</p> <p>13 trustees, correct?</p> <p>14 A. Yes.</p> <p>15 Q. Is the meeting -- in kind of a general sense, is the</p> <p>16 meeting with retirement system trustees typically</p> <p>17 before or after Gabriel Roeder Smith has issued a --</p> <p>18 its report to the retirement systems?</p> <p>19 A. We issue a draft report to the retirement systems.</p> <p>20 Then we meet with the retirement systems to review the</p> <p>21 report with them, and then afterwards we issue a final</p> <p>22 report.</p> <p>23 Q. And what is the purpose of the meeting with the</p> <p>24 retirement system trustees after you've submitted a</p> <p>25 draft report but before you have submitted the final</p>

8 (Pages 29 to 32)

<p style="text-align: right;">Page 33</p> <p>1 JUDITH KERMANS</p> <p>2 report?</p> <p>3 A. To go through the results of the valuation.</p> <p>4 Q. And if the retirement system trustees have issues that</p> <p>5 they see with the draft report, is that an opportunity</p> <p>6 for them to raise those issues with Gabriel Roeder</p> <p>7 Smith?</p> <p>8 A. Yes.</p> <p>9 Q. And from time to time will Gabriel Roeder Smith make</p> <p>10 adjustments to its draft report that will be reflected</p> <p>11 in the final report based on the conversation, the</p> <p>12 meeting with a pension plan's board of trustees?</p> <p>13 A. Rarely, but yes.</p> <p>14 Q. Can you recall whether there was a meeting with the</p> <p>15 PFRS retirement system trustees between issuing a</p> <p>16 draft report and the final report of this 72nd annual</p> <p>17 actuarial valuation for the period ending June 30,</p> <p>18 2013?</p> <p>19 A. I believe there was a meeting.</p> <p>20 Q. And do you recall whether as a result of that meeting</p> <p>21 there were any changes between the draft report</p> <p>22 submitted to the PFRS and the final report submitted</p> <p>23 to the PFRS?</p> <p>24 A. Well, the draft report is actually only a portion of</p> <p>25 the final report.</p>	<p style="text-align: right;">Page 35</p> <p>1 JUDITH KERMANS</p> <p>2 pages that would include the -- that would be included</p> <p>3 in the draft report?</p> <p>4 A. Pages 13 and 14.</p> <p>5 Q. Pages 13 and 14 are the comments and conclusion pages?</p> <p>6 A. Yes.</p> <p>7 Q. And, typically, would the comments and conclusion</p> <p>8 pages undergo any changes between draft and final</p> <p>9 absent any comments from the trustees during a review?</p> <p>10 A. No.</p> <p>11 Q. So you've help me out by pointing out pages 3, pages</p> <p>12 13 and 14 and 20 as key pages. Any others that you've</p> <p>13 noted?</p> <p>14 A. I can't recall.</p> <p>15 Q. Now, turning back to the April 4, 2014, letter that is</p> <p>16 pages, the pages marked 1 and 2 in this Kermans</p> <p>17 Exhibit 2, what is the purpose of this letter that is</p> <p>18 at the front of the annual actuarial valuation?</p> <p>19 A. The purpose of the letter is to indicate what the</p> <p>20 purpose of the report is for.</p> <p>21 Q. And that purpose of the report is the same that you've</p> <p>22 described to me a few minutes ago regarding why</p> <p>23 Gabriel Roeder Smith typically issues annual actuarial</p> <p>24 valuations?</p> <p>25 A. Yes.</p>
<p style="text-align: right;">Page 34</p> <p>1 JUDITH KERMANS</p> <p>2 Q. What, typically, would be added between the draft</p> <p>3 stage and the final stage to this sort of annual</p> <p>4 actuarial valuation?</p> <p>5 A. The draft report only has three or four key pages from</p> <p>6 the full report.</p> <p>7 Q. And which are the key pages from a draft -- or from</p> <p>8 what will become a final report that are usually</p> <p>9 included in the draft report?</p> <p>10 A. I don't recall all of the pages, but the -- page 3</p> <p>11 would have been included in the draft.</p> <p>12 Q. And when you say page 3, you're referring to the page</p> <p>13 marked 3 of Kermans Exhibit 2 that says Employer</p> <p>14 Contribution Rates Computed Payable Last Day of Fiscal</p> <p>15 Year at the top?</p> <p>16 A. Yes.</p> <p>17 Q. Other than that page 3, are there any other pages here</p> <p>18 that you would recognize as being part of the key</p> <p>19 pages that would be included in a draft?</p> <p>20 A. Page 20.</p> <p>21 Q. And page 20 is the one with funding value of assets at</p> <p>22 the top, correct?</p> <p>23 A. Yes.</p> <p>24 Q. Okay. Other than page 3 and page 20, do you recognize</p> <p>25 any additional pages that would be part of the key</p>	<p style="text-align: right;">Page 36</p> <p>1 JUDITH KERMANS</p> <p>2 Q. And this particular annual actuarial valuation, I take</p> <p>3 it, is the final, not a draft report, correct?</p> <p>4 A. Yes.</p> <p>5 Q. And it was issued in April of 2014, correct?</p> <p>6 A. Yes.</p> <p>7 Q. And the PFRS was already in -- or, excuse me, the --</p> <p>8 as of April 4, 2014, the City of Detroit was already</p> <p>9 in bankruptcy, correct?</p> <p>10 A. Yes.</p> <p>11 Q. Now, the date of the valuation was June 30, 2013. Is</p> <p>12 the time period between June 30, 2013, and the</p> <p>13 issuance of this annual actuarial valuation on</p> <p>14 April 4, 2014, typical for around the amount of time</p> <p>15 that usually takes place between a valuation date and</p> <p>16 the issuance of a valuation report?</p> <p>17 A. It varies.</p> <p>18 Q. And if you had to kind of ballpark the general range,</p> <p>19 around how long would you say that variance is, from</p> <p>20 how long to how long?</p> <p>21 A. Could you repeat the question?</p> <p>22 Q. Sure. In your typical experience, what would you say</p> <p>23 is the range of time between the measurement date for</p> <p>24 a valuation report and the date of issuance of that</p> <p>25 valuation report?</p>

9 (Pages 33 to 36)

<p style="text-align: right;">Page 37</p> <p>JUDITH KERMANS</p> <p>A. Six months to a year.</p> <p>Q. So the time between the valuation date here and the issuance of this final report would fit, you know, well within that kind of typical range, fair to say?</p> <p>A. Yes.</p> <p>Q. There's an appendix to, to the annual actuarial valuation that lists the actuarial assumptions used in the valuation, correct?</p> <p>A. I would not call it an appendix.</p> <p>Q. Okay. Well, I'm specifically referring to the section -- well, first of all, let's look at page 1 of the April 4 letter. About two-thirds of the way down the page there's a paragraph beginning the actuarial assumptions. Do you see that?</p> <p>A. Yes, it's called an appendix.</p> <p>Q. Okay. Well, just to be clear for the record, so the actuarial assumptions used in the valuation are, are what I'll find in the section that's marked appendix in this report, correct?</p> <p>A. Yes.</p> <p>Q. And are these assumptions that are included in the appendix in whole or in part provided to the, the retirement system in advance of issuance of the final report?</p>	<p style="text-align: right;">Page 39</p> <p>JUDITH KERMANS</p> <p>conclusion section?</p> <p>A. Yes.</p> <p>Q. And you see that kind of the first section on that page is experience during the past year?</p> <p>A. Yes.</p> <p>Q. And you see that it says: Investment experience for the year ended June 30, 2013, was favorable, with a market rate of return of 14.4 percent, which is 6.4 percent above the assumed 8 percent investment rate of return. Do you see that?</p> <p>A. Yes.</p> <p>Q. So that would be an example of one of the actuarial assumptions that was included, the eight percent investment rate of return assumption that was included in the draft report, correct?</p> <p>A. Yes.</p> <p>Q. Now, I'll turn your attention to page 2 of the April 4 letter that's at the, kind of the front of Kermans Exhibit 2, and let me know when you're with me there.</p> <p>A. I'm there.</p> <p>Q. Okay, and the second -- well, actually, let me start with -- at the bottom there are three different people who have signed this letter, correct?</p> <p>A. Yes.</p>
<p style="text-align: right;">Page 38</p> <p>JUDITH KERMANS</p> <p>A. I don't recall whether they are part of the draft report.</p> <p>Q. And you don't recall whether they typically are or whether they specifically were in this case, is that fair?</p> <p>A. Either.</p> <p>Q. Now, some of the assumptions would be included in the comments and conclusion section that you said was included in the draft report that's on pages 13 and 14, correct?</p> <p>A. Yes.</p> <p>Q. For instance, under experience during the past year on page 13, we can see that there is an assumed eight percent --</p> <p>MR. BULLOCK: Just hold on a minute.</p> <p>MR. HOWELL: Certainly, sorry.</p> <p>MR. BULLOCK: Thank you. Okay, go ahead.</p> <p>MR. HOWELL: I'm sorry about that.</p> <p>MR. BULLOCK: And I apologize for interrupting you. I just think it's important --</p> <p>MR. HOWELL: No problem.</p> <p>MR. BULLOCK: -- that she sees that, so ...</p> <p>BY MR. HOWELL:</p> <p>Q. So are you with me on page 13, the comments and</p>	<p style="text-align: right;">Page 40</p> <p>JUDITH KERMANS</p> <p>Q. Can you describe what your role -- you were one of the three signatories, correct?</p> <p>A. Yes.</p> <p>Q. Can you describe what your role was in putting together the 72nd annual actuarial valuation, dated June -- for the period ending June 30, 2013, for the PFRS?</p> <p>A. I'm one of the signing actuaries.</p> <p>Q. And as a signing actuary, what are your kind of roles and responsibilities with respect to an actuarial valuation?</p> <p>A. A signing actuary has responsibility for the report and the contents of it.</p> <p>Q. Now, earlier you described several steps that go into the creation of one of these annual actuarial valuation reports, including requesting information from the system, review of that information, requesting the data, et cetera, et cetera.</p> <p>As a signing actuary, kind of what steps are you involved in in the process, other than kind of ultimate signoff on the material that's contained within the report?</p> <p>A. I would review the analysis that was done by one of the team members of the data that was received, I</p>

10 (Pages 37 to 40)

<p style="text-align: right;">Page 41</p> <p>JUDITH KERMANS</p> <p>would review any calculations, and I would compare our four-person peer review and analysis procedures with what was done, and I would perhaps draft some of the comments or review comments that were drafted by others, and I would be responsible for the presentation to the board of trustees.</p> <p>Q. One of the things that you said you would be involved with was to review the analysis done by team members for the project, is that correct?</p> <p>A. Yes.</p> <p>Q. Do you recall how many people were on the team for putting together the June 30, 2013, annual actuarial valuation for the PFRS?</p> <p>A. Yes.</p> <p>Q. How many people were on the team?</p> <p>A. The three folks listed here; plus, there would be one or two analysts involved, as well.</p> <p>Q. Is it the same team for the PFRS and the GRS actuarial valuation reports?</p> <p>A. These three folks are involved in both. The analysts might not be the same.</p> <p>Q. And can you recall how many analysts you used for the June 30, 2013, actuarial valuation for the GRS?</p> <p>A. Two.</p>	<p style="text-align: right;">Page 43</p> <p>JUDITH KERMANS</p> <p>Q. Now, what was the role of Kenneth Alberts with respect to putting together this valuation?</p> <p>A. Kenneth is the project coordinator.</p> <p>Q. And, in general, what are the roles and responsibilities of a project coordinator at Gabriel Roeder Smith working on a valuation report?</p> <p>A. Kenneth would supervise the analysts that are doing the initial work and make sure that information is received and analyzed from the client. Kenneth also would be one of the individuals that would go to the meeting with the board of trustees.</p> <p>Q. Would you have the role as sort of the lead presenter of -- to the board of trustees of the report?</p> <p>A. It would be a shared responsibility with either David or Kenneth --</p> <p>Q. Okay.</p> <p>A. -- and myself.</p> <p>Q. So let's speak about David. How do you pronounce this is last name?</p> <p>A. Kausch.</p> <p>Q. Okay. So what were David Kausch's responsibilities with respect to this PFRS valuation report that's Exhibit 2?</p> <p>A. Similar to my responsibilities, he's the other signing</p>
<p style="text-align: right;">Page 42</p> <p>JUDITH KERMANS</p> <p>Q. And I think you said it was one or two for the PFRS. Do you remember, specifically?</p> <p>A. It's two for the PFRS, as well.</p> <p>Q. And I take it that you work as signing actuary for multiple projects, not just for the PFRS and GRS, correct?</p> <p>A. Correct.</p> <p>Q. And you work with different analysts when you work on different projects, is that correct?</p> <p>A. Yes.</p> <p>Q. And have you had an opportunity to work with the analysts who you worked with on the PFRS valuation for June 30, 2013, on other projects, as well?</p> <p>A. Yes.</p> <p>Q. And are you -- do you have a favorable opinion of the work done by those analysts?</p> <p>A. Yes.</p> <p>Q. Do you also have experience outside of the GRS valuation in working with the analysts who assisted with the GRS valuation?</p> <p>A. Yes.</p> <p>Q. And do you have a favorable opinion of the work done by those analysts?</p> <p>A. Yes.</p>	<p style="text-align: right;">Page 44</p> <p>JUDITH KERMANS</p> <p>actuary.</p> <p>Q. Does Gabriel Roeder Smith typically have two signing actuaries for valuation reports they provide?</p> <p>A. Yes.</p> <p>Q. Have you had an opportunity to work with Mr. Kausch on other assignments during your time at Gabriel Roeder Smith?</p> <p>A. Yes.</p> <p>Q. And what's your opinion of the work done by Mr. Kausch?</p> <p>A. It's excellent.</p> <p>Q. And the same question for the work generally done by Mr. Alberts?</p> <p>A. Same opinion.</p> <p>Q. So it's fair to say that you feel that the team that worked on this, these June 30, 2013, actuarial valuations for both PFRS and GRS is a competent valuation report team?</p> <p>A. Yes.</p> <p>Q. And you would consider your co-workers to be a team that you're excited and happy to work with, correct?</p> <p>A. Yes.</p> <p>Q. To the extent that any of us can be excited and happy to work with on any project.</p>

11 (Pages 41 to 44)

<p style="text-align: right;">Page 45</p> <p>1 JUDITH KERMANS</p> <p>2 Now, in, in the list of kind of roles and</p> <p>3 responsibilities that you provided for the signing</p> <p>4 actuary on a valuation report, one thing that you said</p> <p>5 was prepare for peer review. Can you describe what</p> <p>6 the process is for having an actuarial valuation peer</p> <p>7 review at Gabriel Roeder Smith?</p> <p>8 A. We have a four-person process at Gabriel Roder Smith &</p> <p>9 Company that involves a doer, a checker, a reviewer,</p> <p>10 and a peer reviewer.</p> <p>11 Q. Okay. What does the doer do?</p> <p>12 A. The doer is the individual that takes the data and</p> <p>13 pushes it through the Gabriel Roder Smith & Company</p> <p>14 proprietary software, does the initial calculations</p> <p>15 and spreadsheet work.</p> <p>16 Q. So here that would have been one of the two analysts</p> <p>17 on the team for either PFRS or GRS?</p> <p>18 A. Yes.</p> <p>19 Q. What does the checker do?</p> <p>20 A. The checker reviews all of the calculations and</p> <p>21 decisions of the doer.</p> <p>22 Q. I'm going to guess, I could be wrong here, but would</p> <p>23 Mr. Alberts be in the role of the checker here or is</p> <p>24 it someone else that's one of the analysts?</p> <p>25 A. The analysts.</p>	<p style="text-align: right;">Page 47</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Would anyone else besides the three people listed here</p> <p>3 be involved in the peer review process in looking over</p> <p>4 this valuation report?</p> <p>5 A. Not officially.</p> <p>6 Q. How about unofficially?</p> <p>7 A. Any number of people may have looked at this report.</p> <p>8 Q. So from time to time when working on a report at</p> <p>9 Gabriel Roeder Smith you may ask some of your other</p> <p>10 certified colleagues to take a look at a report and</p> <p>11 give their thoughts or comments?</p> <p>12 A. Correct.</p> <p>13 Q. And do you remember whether that was specifically done</p> <p>14 with respect to this report or not?</p> <p>15 A. I don't.</p> <p>16 Q. Okay. In the second paragraph on page 2, it begins:</p> <p>17 This report has been prepared by actuaries. Do you</p> <p>18 see that --</p> <p>19 A. Yes.</p> <p>20 Q. -- paragraph? Okay. So that sentence says: This</p> <p>21 report has been prepared by actuaries who have</p> <p>22 substantial experience valuing public sector</p> <p>23 retirement systems.</p> <p>24 You stand behind that statement, right?</p> <p>25 A. Yes.</p>
<p style="text-align: right;">Page 46</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Okay. Who, then, serves as the reviewer for this</p> <p>3 project?</p> <p>4 A. It depends. We do occasionally switch those roles. I</p> <p>5 believe that Mr. Alberts was the reviewer on this</p> <p>6 particular report.</p> <p>7 Q. And the role of a reviewer, then, I take it is just</p> <p>8 what you laid out earlier when you spoke about</p> <p>9 Mr. Alberts' kind of roles and responsibilities on</p> <p>10 this project, is that accurate?</p> <p>11 A. Yes.</p> <p>12 Q. And then the peer reviewer, what does the peer</p> <p>13 reviewer do?</p> <p>14 A. The two peer reviewers in this case look everything</p> <p>15 over, check for reasonableness, compare the decisions</p> <p>16 made with actuarial standards of practice, and see if</p> <p>17 the results seem reasonable, make sure all of the work</p> <p>18 was done in a proper fashion.</p> <p>19 Q. Are the peer reviewers typically other signing</p> <p>20 actuaries that work on other projects, or is there</p> <p>21 another group of people who typically do peer review?</p> <p>22 A. We all do peer review if we are credentialed.</p> <p>23 Q. And do you recall who did the peer review for the</p> <p>24 June 30, 2013, valuations for PFRS and GRS?</p> <p>25 A. Both David Kausch and myself.</p>	<p style="text-align: right;">Page 48</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Do you personally have substantial experience valuing</p> <p>3 public sector retirement systems?</p> <p>4 A. Yes.</p> <p>5 Q. Around how many different public sector retirement</p> <p>6 systems have you had the opportunity to work in</p> <p>7 valuing?</p> <p>8 MR. BULLOCK: Counsel, are you looking for</p> <p>9 simply an estimate?</p> <p>10 MR. HOWELL: Yes, just an estimate.</p> <p>11 A. Fifty.</p> <p>12 BY MR. HOWELL:</p> <p>13 Q. Do you have an understanding as to around the number</p> <p>14 of public sector retirement systems that Mr. Kausch</p> <p>15 would have valued in the past, just -- again, just an</p> <p>16 estimate?</p> <p>17 A. Twenty-five.</p> <p>18 Q. Same question for Mr. Alberts.</p> <p>19 A. Fifty.</p> <p>20 Q. The next sentence says: To the best of our knowledge,</p> <p>21 this report is complete and accurate and was made in</p> <p>22 accordance with standards of practice promulgated by</p> <p>23 the Actuarial Standards Board of the American Academy</p> <p>24 of Actuaries.</p> <p>25 You stand behind that statement, correct?</p>

12 (Pages 45 to 48)

<p style="text-align: right;">Page 49</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. Since issuing this report, have you become aware of</p> <p>4 any inaccuracies within this report?</p> <p>5 A. No.</p> <p>6 Q. Since issuing the report dated -- well, issued in</p> <p>7 April of 2014 but that was for the period ending</p> <p>8 June 30, 2013, for the GRS, are you aware of any</p> <p>9 inaccuracies in that report?</p> <p>10 A. No.</p> <p>11 Q. Do you still today believe this report to be complete</p> <p>12 as it was at the time that you issued it?</p> <p>13 A. Yes.</p> <p>14 Q. The next sentence says: The actuarial assumptions</p> <p>15 used for the valuation produce reports which,</p> <p>16 individually and in the aggregate, are reasonable.</p> <p>17 Do you see that?</p> <p>18 A. Yes.</p> <p>19 Q. And you stand by that statement, correct?</p> <p>20 A. Yes.</p> <p>21 Q. And so if I understand that statement correctly, it</p> <p>22 means that the, the individual actuarial assumptions,</p> <p>23 they are each, in the view of Gabriel Roeder Smith,</p> <p>24 reasonable actuarial assumptions, correct?</p> <p>25 A. For this purpose of this report, yes.</p>	<p style="text-align: right;">Page 51</p> <p>1 JUDITH KERMANS</p> <p>2 on how to do our work.</p> <p>3 Q. Do you have any other -- are you a member of any other</p> <p>4 actuarial associations besides the American Academy of</p> <p>5 Actuaries?</p> <p>6 A. I am a member of the Conference of Consulting</p> <p>7 Actuaries. I'm a fellow of the Conference of</p> <p>8 Consulting Actuaries.</p> <p>9 Q. Are you aware of whether or not Mr. Kausch is a member</p> <p>10 of any other actuarial associations besides the</p> <p>11 American Academy of Actuaries?</p> <p>12 A. He's a fellow of the Society of Actuaries. I also</p> <p>13 believe that he is a fellow of the Conference of</p> <p>14 Actuaries.</p> <p>15 MR. GALLAGHER: Mr. Howell, Sean Gallagher</p> <p>16 here. It sounds to me like we've had someone else</p> <p>17 join the conference on the telephone, but we didn't</p> <p>18 get a name of that person.</p> <p>19 Could that person please announce their</p> <p>20 presence on the phone?</p> <p>21 MR. GROSMAN: Yes, it's Chris Grosman, from</p> <p>22 the Carson Fischer firm, on behalf of Oakland County.</p> <p>23 MR. GALLAGHER: Thank you, Mr. Grosman.</p> <p>24 Sorry, Rush.</p> <p>25 MR. HOWELL: No, thanks for pointing that</p>
<p style="text-align: right;">Page 50</p> <p>1 JUDITH KERMANS</p> <p>2 Q. And apologies if I've asked this already, but could</p> <p>3 you elaborate what you mean by for the purpose of this</p> <p>4 report?</p> <p>5 A. This report is a specific measurement, the calculation</p> <p>6 of a contribution rate for a fiscal year. For that</p> <p>7 purpose, the assumptions are, individually and in the</p> <p>8 aggregate, reasonable.</p> <p>9 Q. Now, in order to get to that contribution rate,</p> <p>10 another calculation that goes into this report is the</p> <p>11 calculation of the UAAL as of June 30, 2013, for the</p> <p>12 PFRS, correct?</p> <p>13 A. Yes.</p> <p>14 Q. And in order for the calculation for the contribution</p> <p>15 rate to be complete and accurate, the calculation for</p> <p>16 the UAAL as of June 30, 2013, also needs to be</p> <p>17 complete and accurate, correct?</p> <p>18 A. Yes.</p> <p>19 Q. In the fourth paragraph it says: David Kausch and</p> <p>20 Judith Kermans are members of the American Academy of</p> <p>21 Actuaries (MAAA).</p> <p>22 Could you just briefly describe for me what</p> <p>23 the American Academy of Actuaries is?</p> <p>24 A. It's one of the professional organizations that</p> <p>25 actuaries typically belong to. It provides guidance</p>	<p style="text-align: right;">Page 52</p> <p>1 JUDITH KERMANS</p> <p>2 out.</p> <p>3 BY MR. HOWELL:</p> <p>4 Q. What are the qualification standards of the American</p> <p>5 Academy of Actuaries to render actuarial opinions?</p> <p>6 A. We have actuarial standards of practice that we have</p> <p>7 to follow when we do our work, and the American</p> <p>8 Academy of Actuaries provides those standards for us.</p> <p>9 There are 48 of them.</p> <p>10 Q. Do you have to take any sort of test or is it -- or is</p> <p>11 there a different process by which you meet the</p> <p>12 qualification standards?</p> <p>13 A. You meet the qualifications through exam, examinations</p> <p>14 and also through experience.</p> <p>15 Q. In the bottom full paragraph on this page it says:</p> <p>16 The plan sponsor (City of Detroit) is currently in</p> <p>17 Chapter 9 bankruptcy. Due to this situation, there is</p> <p>18 a great deal of uncertainty regarding the structure of</p> <p>19 the plan. If the plan structure changes as a result</p> <p>20 of the bankruptcy, the board should consider having</p> <p>21 this report reissued to account for those changes.</p> <p>22 Do you see that?</p> <p>23 A. Yes.</p> <p>24 Q. And you believe that was a prudent recommendation at</p> <p>25 the time?</p>

13 (Pages 49 to 52)

<p style="text-align: right;">Page 53</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. Has the board for the PFRS reached out to Gabriel</p> <p>4 Roeder Smith regarding having this report reissued?</p> <p>5 A. No.</p> <p>6 Q. Has the board of the GRS reached out to Gabriel Roeder</p> <p>7 Smith about having the GRS June 30, 2013, valuation</p> <p>8 report reissued?</p> <p>9 A. No.</p> <p>10 Q. If you'll turn with me to page 4 of Kermans Exhibit 2,</p> <p>11 at the top it says Actuarial Accrued Liabilities as of</p> <p>12 June 30, 2013. Are you -- tell me when you're with me</p> <p>13 there.</p> <p>14 A. I'm there.</p> <p>15 MR. BULLOCK: Counsel, we've been at this</p> <p>16 for about an hour. When you find a reasonable place</p> <p>17 to break, can we take a minute or two break?</p> <p>18 MR. HOWELL: I'm perfectly happy to break</p> <p>19 now if we'd like to take a five or ten-minute break.</p> <p>20 MR. BULLOCK: This would be a good point.</p> <p>21 MR. HOWELL: Okay, great.</p> <p>22 MR. BULLOCK: Thank you.</p> <p>23 VIDEO TECHNICIAN: The time is 10:09 a.m.</p> <p>24 We are now off the record.</p> <p>25 (Off the record at 10:09 a.m.)</p>	<p style="text-align: right;">Page 55</p> <p>1 JUDITH KERMANS</p> <p>2 page 3, you can match it.</p> <p>3 Q. And where on page 3 will I match that \$71 million in</p> <p>4 prior-year contributions that were not made?</p> <p>5 A. Under the row titled past-due payments for fiscal year</p> <p>6 2013.</p> <p>7 Q. And do you have an understanding as to whether those</p> <p>8 past-due payments of fiscal year 2013 were entirely</p> <p>9 past-due payments during that year or whether that</p> <p>10 included the roll forward of other past-due payments</p> <p>11 from prior years besides fiscal year 2013?</p> <p>12 A. I don't understand the question.</p> <p>13 Q. Well, I guess my question is, do you have an</p> <p>14 understanding as to whether there were past-due</p> <p>15 payments for fiscal year 2012 at the time of the</p> <p>16 June 30, 2012, valuation report?</p> <p>17 A. I don't have an understanding.</p> <p>18 Q. And so you don't know whether that \$71 million of</p> <p>19 past-due payments from fiscal year 2013 all related to</p> <p>20 payments that originated in fiscal year 2013?</p> <p>21 A. The 71 million is entirely related to past-due</p> <p>22 payments from fiscal year 2013. I don't know if there</p> <p>23 were additional payments that were outstanding at the</p> <p>24 time from '12.</p> <p>25 Q. If you turn with me to page 5, with Valuation Results</p>
<p style="text-align: right;">Page 54</p> <p>1 JUDITH KERMANS</p> <p>2 (Back on the record at 10:22 a.m.)</p> <p>3 VIDEO TECHNICIAN: The time is 10:22 a.m.</p> <p>4 We are now on the record.</p> <p>5 BY MR. HOWELL:</p> <p>6 Q. Ms. Kermans, before we went off the record, we were</p> <p>7 looking at page 4, or the page marked 4 in Kermans</p> <p>8 Exhibit 2, the June 20 -- June 30, 2013, valuation for</p> <p>9 PFRS. Are you with me on page 4 there?</p> <p>10 A. Yes.</p> <p>11 Q. And this page is entitled Actuarial Accrued</p> <p>12 Liabilities as of June 30, 2013, correct?</p> <p>13 A. Correct.</p> <p>14 Q. And the unfunded actuarial accrued liability,</p> <p>15 otherwise known as UAAL, at the bottom of the page is</p> <p>16 listed at a little over \$415,600,000 right?</p> <p>17 A. Correct.</p> <p>18 Q. Now, there's a pound signal that, if we follow to the</p> <p>19 bottom of the page shows that that number assumes that</p> <p>20 past-due contributions of \$71 million are not made.</p> <p>21 Do you see that?</p> <p>22 A. Yes.</p> <p>23 Q. Do you have an understanding as to what those \$71</p> <p>24 million of past-due contributions refer to?</p> <p>25 A. Contributions for prior fiscal years. If you look at</p>	<p style="text-align: right;">Page 56</p> <p>1 JUDITH KERMANS</p> <p>2 Comparative Statement at the top?</p> <p>3 A. Yes.</p> <p>4 Q. We see that the computed total in the second-to-bottom</p> <p>5 row, the 2013(c) for the actuarial accrued liability,</p> <p>6 or the AAL, is \$3,890,000 and change, correct?</p> <p>7 A. Yes.</p> <p>8 Q. And then the unfunded amount in 2013(c) is that 415</p> <p>9 million amount that we just saw, correct?</p> <p>10 A. Yes.</p> <p>11 Q. And if you subtract out the 71 million in past</p> <p>12 contributions or you assume that those contributions</p> <p>13 will be made, that's what would take you to row</p> <p>14 2013(d), correct?</p> <p>15 A. Yes.</p> <p>16 Q. Now, if I want to get an unfunded percentage, I could</p> <p>17 just take the unfunded number there of 415 million and</p> <p>18 change and divide that by the AAL computed total of</p> <p>19 3.89 million and change, correct -- 3.89 billion and</p> <p>20 change, correct?</p> <p>21 A. I don't understand the purpose of that calculation.</p> <p>22 Q. Well, that's okay, I'm just asking -- I mean, you do</p> <p>23 calculate -- in fact, in this report you list a funded</p> <p>24 percentage, correct?</p> <p>25 A. Correct.</p>

14 (Pages 53 to 56)

JUDITH KERMANS

Q. And it may take me a couple questions that don't make sense to get to that, but if I wanted to know the unfunded percentage, it would be one minus the funded percentage, correct?

A. Correct.

Q. Okay. So if you have a 90 percent funded percentage, you have a 10 percent unfunded percentage, fair enough?

A. Yes.

Q. So if I wanted to know what the unfunded percentage was here, I could take the 415 million and divide that by the AAL number of 3.89 billion, correct?

A. Yes.

Q. And so if I wanted the funded percentage, it would be one minus the result of 415 million and change divided by 3.89 billion and change, right?

A. Yes.

Q. And now that funded percentage, if you turn with me to page 13, the comments and conclusion section, under the section that's employer contribution rate, are you with me in that section?

A. Yes.

Q. About halfway down the paragraph there's a sentence that says: As of June 30, 2013, the system is 89.3

JUDITH KERMANS

That 89.3 funded percentage is not done on a market value basis, correct?

A. Correct.

Q. Now, could you describe for me the difference between that funded percentage calculation and a funded percentage calculation done on a market value basis?

A. In this plan, if that calculation were done on a market value basis, the number would be 78 percent rather than 89.3 percent.

Q. Okay, and I may not have asked the question very clearly. I understand that that's the result. I'm asking, in kind of a more general sense, what's the difference between a market value funding percentage calculation and the calculation that led to the 89.3 percent, not the actual numerical difference but kind of the methodological difference?

A. The numerator is a different number.

Q. And why is that?

A. One uses the funding value as the numerator and the other uses the market value as the numerator.

Q. And that's the funding value of unfunded assets?

A. It's the funding value of assets.

Q. Okay. So would the assets, in performing that calculation, be in the numerator or the denominator?

JUDITH KERMANS

percent funded, so the computed employer contribution is above the employer normal cost.

Do you see that?

A. Yes.

Q. And that 89.3 funded percentage is, subject to, you know, rounding, is the same amount that we would get if we did that calculation I just talked about a moment ago, where we take 415 million, divided by 3.89 billion, and then subtract that result from one, correct?

A. Yes.

Q. Now, that 89.3 percent funded percentage is a calculation that you reviewed, right, as the signing actuary?

A. Yes.

Q. And it's a calculation that you believe was correct at the time the report was issued, correct?

A. Yes.

Q. And you have no reason between the time the report was issued on April 4, 2014, and today to think that number's incorrect, right?

A. I don't think the number is incorrect.

Q. Now, that number is not done with the unfunded -- or, excuse me, let me strike that.

JUDITH KERMANS

A. In the numerator.

Q. And how does the -- how does Gabriel Roeder Smith arrive at a funding value of assets as opposed to a market value of assets, in particular for the PFRS?

MR. BULLOCK: Counsel, while she's flipping pages, there was a request a few minutes ago that we move some microphones around and she speak up. Does anyone know if we're having some success here in terms of reception?

Can everyone hear us on line?

MR. CROWDER: Yes.

MR. BULLOCK: Can you hear the witness?

MR. CROWDER: Yes, we can.

MR. BULLOCK: Good. Thank you, counsel.

BY MR. HOWELL:

Q. So my question was, how does Gabriel Roeder Smith, specifically for the PFRS, arrive at a funding value of assets versus a market value of assets?

A. That calculation is illustrated on page 20 of this report.

Q. And can you just walk me through on page 20 how Gabriel Roeder Smith does a calculation that leads to a funding value of assets?

A. The funding value of assets and the parameters used

<p style="text-align: right;">Page 61</p> <p>JUDITH KERMANS</p> <p>here are adopted by the board of trustees. They involve a seven-year smoothing period for gains and losses above and below market rates of return, and the smoothing process is illustrated in this section here that goes to the right.</p> <p>Q. So section G of the -- on page 20?</p> <p>A. Yes.</p> <p>Q. And the impact of a smoothing process is that the particular -- or one impact of a smoothing process is that the particular gains or losses for a particular year will be spread out over a number of years rather than being entirely allocated to the year when they actually occurred, correct?</p> <p>A. Correct.</p> <p>Q. So, for instance, the year 2008, which we all know to be a very poor year for investment returns worldwide, really, if you have a smoothing process, then those -- that poor year will be reflected, kind of divided out over a period of seven years rather than the entire impact being felt in one year, correct?</p> <p>A. Correct.</p> <p>Q. Now, you said that the board of trustees for the PFRS was the one that had adopted the seven-year smoothing method, correct?</p>	<p style="text-align: right;">Page 63</p> <p>JUDITH KERMANS</p> <p>reasonable actuarial method to use in putting together the June 30, 2013, actuarial valuation, correct?</p> <p>A. Yes. This method has something called a corridor, and we feel that it is reasonable.</p> <p>Q. When you refer to a corridor, the corridor specifically is designed to make sure that the difference between the funding value of assets and the market value of assets does not go outside of a predetermined range, correct?</p> <p>A. Correct.</p> <p>Q. And the corridor here was that the funding value of assets should not be less than 80 percent of the market value of assets, nor more than 120 percent of the market value of assets, is that correct?</p> <p>A. No.</p> <p>Q. Okay, I'm sorry, what is the range here?</p> <p>A. 30 percent.</p> <p>Q. Okay, my mistake. So the corridor here is that the funding value of assets shall not be less than 70 percent of the market value of assets, nor more than 130 percent of the market value of assets, correct?</p> <p>A. Correct.</p> <p>Q. And that must be the case for each year in the analysis?</p>
<p style="text-align: right;">Page 62</p> <p>JUDITH KERMANS</p> <p>A. Yes.</p> <p>Q. Was Gabriel Roeder Smith involved in conversations relating to the decision to apply a seven-year smoothing period?</p> <p>A. Yes.</p> <p>Q. And do you know whether that was a recommendation from Gabriel Roeder Smith or a recommendation from somewhere else, or a collaborative effort to reach that assumption?</p> <p>A. It was not a recommendation from Gabriel Roeder Smith.</p> <p>Q. Do you know where the recommendation came from?</p> <p>A. One of the trustees.</p> <p>Q. Now, adopting a seven-year smoothing period would be considered an actuarial assumption that went into this calculation, correct?</p> <p>A. I would call this an actuarial method.</p> <p>Q. And when Gabriel Roeder Smith performs analysis using actuarial methods, Gabriel Roeder Smith has to be comfortable that those methods are reasonable, correct?</p> <p>A. Yes.</p> <p>Q. So even though it wasn't a recommendation from Gabriel Roeder Smith, you nonetheless were able to gain comfort that a seven-year smoothing period was a</p>	<p style="text-align: right;">Page 64</p> <p>JUDITH KERMANS</p> <p>A. Yes.</p> <p>Q. Do you know whether Gabriel Roeder Smith will be performing an annual actuarial valuation for the PFRS for the period ending June 30, 2014?</p> <p>A. I do not.</p> <p>Q. Have there been any discussions between the PFRS and Gabriel Roeder Smith regarding an annual actuarial valuation for the period ending June 30, 2014?</p> <p>A. No.</p> <p>Q. Typically, when would the process begin for working on an annual actuarial valuation for the prior fiscal year?</p> <p>A. Once the census data was received.</p> <p>Q. Do you know when the census data was received for the period ending June 30, 2013, for the PFRS?</p> <p>A. No.</p> <p>Q. Do you have an estimate as to when work began on this 72nd annual actuarial valuation for the PFRS?</p> <p>A. My estimate would be at the beginning of the year.</p> <p>Q. And beginning of the year meaning beginning of --</p> <p>A. Calendar year.</p> <p>Q. -- calendar year 2014?</p> <p>A. Correct.</p> <p>Q. Do you have any reason to believe that Gabriel Roeder</p>

16 (Pages 61 to 64)

<p style="text-align: right;">Page 65</p> <p>1 JUDITH KERMANS</p> <p>2 Smith will not be the system actuary performing the</p> <p>3 73rd annual actuarial valuation for the PFRS?</p> <p>4 A. No.</p> <p>5 Q. And you would expect, then, to begin that process</p> <p>6 sometime maybe early calendar year 2015, correct?</p> <p>7 A. Yes.</p> <p>8 Q. And so you haven't -- fair to say Gabriel Roeder Smith</p> <p>9 hasn't arrived at any actuarial assumptions that it</p> <p>10 will use for the 73rd annual actuarial valuation for</p> <p>11 the PFRS for the period ending June 30, 2014?</p> <p>12 A. That's correct.</p> <p>13 Q. Now, earlier you testified, you pointed me to the fact</p> <p>14 that on a market value basis -- and this was on page</p> <p>15 13 in the employer contribution rate section. Let me</p> <p>16 know when you're there.</p> <p>17 A. Okay.</p> <p>18 Q. And so you testified that on a market value basis, the</p> <p>19 fund is approximately 78 percent funded, correct?</p> <p>20 A. Yes.</p> <p>21 Q. So that would mean it was around 22 percent unfunded,</p> <p>22 correct?</p> <p>23 A. Correct.</p> <p>24 Q. So on a market value basis, the UAAL calculation would</p> <p>25 be a little more than -- well, right around double</p>	<p style="text-align: right;">Page 67</p> <p>1 JUDITH KERMANS</p> <p>2 78 percent.</p> <p>3 Q. Right. So my question, though, and I apologize, I got</p> <p>4 myself turned around, how would you do the calculation</p> <p>5 to determine what the unfunded actuarial accrued</p> <p>6 liability would be on a market value basis?</p> <p>7 A. As mentioned, I would take the accrued liability, and</p> <p>8 I would subtract the market value of assets.</p> <p>9 Q. And how would you calculate the market value of assets</p> <p>10 for purposes of that calculation?</p> <p>11 A. The market value of assets is a reported number. It's</p> <p>12 not a calculated number. It's also contained on</p> <p>13 page 20 and other places in the report.</p> <p>14 Q. Okay. So where would we find the market value of</p> <p>15 assets on page 20 of the report?</p> <p>16 A. Row B.</p> <p>17 Q. And, specifically, we would take the 2013 number in</p> <p>18 row B, the \$3.034 billion?</p> <p>19 A. That is the market value of assets at the end of the</p> <p>20 year.</p> <p>21 Q. And so to calculate the unfunded actuarial accrued</p> <p>22 liability on a market value basis, you would take the</p> <p>23 computed total of actuarial accrued liabilities of</p> <p>24 3.89 billion and subtract the market value of assets</p> <p>25 of, roughly, 3.034 billion, correct?</p>
<p style="text-align: right;">Page 66</p> <p>1 JUDITH KERMANS</p> <p>2 what it was on page 4 of this report, correct?</p> <p>3 A. I would have to -- I would have to do that</p> <p>4 calculation.</p> <p>5 Q. Okay. Well, let me just ask you, if you were going to</p> <p>6 do that calculation -- so we know it to be 78 percent</p> <p>7 funded on a market value basis, correct?</p> <p>8 A. Yes.</p> <p>9 Q. So if you were going to do the funding calculation,</p> <p>10 you would take the computed total of actuarial accrued</p> <p>11 liabilities that we looked at earlier is about \$3.89</p> <p>12 billion and take 70 -- take 78 percent of that,</p> <p>13 correct?</p> <p>14 A. That's not the way I would do the calculation.</p> <p>15 Q. Okay. Why don't you tell me how you would do the</p> <p>16 calculation.</p> <p>17 A. I would take the accrued liability and I would</p> <p>18 subtract the market value of assets.</p> <p>19 Q. And then the resulting number would be the unfunded</p> <p>20 liability on a market value basis, correct?</p> <p>21 A. Yes.</p> <p>22 Q. And then if you wanted the funding percentage, it</p> <p>23 would be one minus that divided by the actuarial</p> <p>24 liability, correct?</p> <p>25 A. The funded percent is actually shown on this page, the</p>	<p style="text-align: right;">Page 68</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. So that number would be somewhere, roughly, in the</p> <p>4 \$850 million range, correct?</p> <p>5 A. Correct.</p> <p>6 Q. If you could turn with me to page 7, the assets and</p> <p>7 accrued liabilities graph, and let me know when you're</p> <p>8 there?</p> <p>9 A. Okay.</p> <p>10 Q. I had a little difficulty -- the asset section is</p> <p>11 quite clear and is marked with the darker shade of</p> <p>12 gray and has the black line showing the top -- showing</p> <p>13 the assets amount, correct?</p> <p>14 A. Correct.</p> <p>15 Q. I had a little difficulty distinguishing between the</p> <p>16 UAAL shading and the assets over accrued liability</p> <p>17 shading. First of all, can you describe for me what</p> <p>18 the assets over accrued liabilities represents?</p> <p>19 A. This graph is supposed to be in color. That would be</p> <p>20 very helpful to you.</p> <p>21 Q. Okay. Well, since I don't have it in color, can you</p> <p>22 tell me what the assets over accrued liabilities</p> <p>23 refers to?</p> <p>24 A. This graph is intended to indicate how much of the</p> <p>25 accrued liability is covered by the assets in a</p>

17 (Pages 65 to 68)

<p style="text-align: right;">Page 69</p> <p>JUDITH KERMANS</p> <p>graphical presentation. So the largest part of the graph is the actuarial accrued liability, as indicated by the arrow here, and then the assets are also indicated by the arrow which portion covers the actuarial accrued liability.</p> <p>Q. And so if I'm following this correctly, from 1972 up through, you know, roughly 1996, there was an AAL that was in excess of the amount of assets in the PFRS system?</p> <p>A. Yes.</p> <p>Q. And then what I can't tell on the shading is going forward from 1996 until around 2002, there is a, what appears to me to be a different color shading, and I'm trying to figure out whether the AAL was above or not above assets during that time.</p> <p>A. As I said, this chart should be in color.</p> <p>Q. So are you unable to tell, then, as well, by looking at the chart?</p> <p>A. I cannot tell for sure, but I suspect that is the area when the plan was fully funded.</p> <p>Q. And so then we also see that the plan was fully funded as recently as, say, around 2010-2011, and then I think there's a little bit of additional shading that represents AAL going back above assets at the end of</p>	<p style="text-align: right;">Page 71</p> <p>JUDITH KERMANS</p> <p>Q. What is -- what period is that for?</p> <p>A. It's for the period ending June, the one-year period ending June 30, 2013.</p> <p>Q. I'm sorry, I asked the wrong question. That 4.1 percent reflects the seven, seven prior years of smoothed assets in order to arrive at the one-year investment return ending on June 30, 2013, correct?</p> <p>A. Correct.</p> <p>Q. So it would include one-seventh of each of the seven prior years' investment return in order to -- and then that's aggregated to determine an average to determine the one-year investment return, correct?</p> <p>A. Close enough, correct.</p> <p>Q. So it will include, for instance, the, you know, negative 20 percent return, or in excess of negative 20 percent return of 2008, one-seventh of that, right?</p> <p>A. No.</p> <p>Q. And so can you explain to me why that is not the case?</p> <p>A. That period is so far in the past that that gain or loss, likely loss, has been fully recognized by 2013.</p> <p>Q. The 2008 loss has?</p> <p>A. I believe so. It doesn't show on this page, anyway, on page 20.</p> <p>On page 20, what happened was, there was a</p>
<p style="text-align: right;">Page 70</p> <p>JUDITH KERMANS</p> <p>this graph. I'm just making sure that I'm reading that correctly. Is that right?</p> <p>A. I think that's correct. The graph is -- I'm not able to tell without the color.</p> <p>Q. Turning to page 13, the comments and conclusion section that we've talked about a little bit, investment -- this is an experience during the past year. It says: Investment experience for the year ended June 30, 2013, was favorable, with a market rate of return of 14.4 percent.</p> <p>Do you see that?</p> <p>A. Yes.</p> <p>Q. Now, due to the asset smoothing, the entirety of that 14.4 percent would not be allocated to the fiscal year 2013, correct?</p> <p>A. Correct.</p> <p>Q. And so, in fact, the recognized rate of return over the seven-year funding period was only 4.1 percent, correct?</p> <p>A. The recognized rate of return as of June 30, 2013, was 4.1 percent.</p> <p>Q. And that's for the seven-year period ending June 30, 2013, correct?</p> <p>A. No.</p>	<p style="text-align: right;">Page 72</p> <p>JUDITH KERMANS</p> <p>restatement of assets at some point in the past, and that was rolled all together. So you cannot determine whether or not a 2008 loss is in here. There are three bases in 2013.</p> <p>Q. Okay. And can you point me to where I'd find that on page 20?</p> <p>A. It is in section G.</p> <p>Q. And you said there's three bases for the year 2013?</p> <p>A. Three bases are being recognized in 2013, and there are portions of loss and a gain from prior years, but if you go down to G4, you see a larger number. The assets were restated at some point in the past.</p> <p>Q. Okay, thanks. I think I'm with you now.</p> <p>So when we look at that number, the negative 139 million number that's in the 2013 column, in row G4, that's the number that's a restatement of some prior years, and it's impossible just by looking at this to ascertain which years are included or not included in that number?</p> <p>A. Correct.</p> <p>Q. So you don't know one way or another whether 2008 is still showing up in this number, correct?</p> <p>A. That's correct.</p> <p>Q. Now, there's a section entitled data furnished for</p>

18 (Pages 69 to 72)

JUDITH KERMANS

valuation, and you testified earlier that one of the early parts of the process is receiving data from a system that you will then use in performing the calculations that go into a valuation report, correct?

A. Correct.

Q. Are you aware of any problems or inconsistencies in any of the data provided by PFRS that was used in the June 30, 2013, valuation?

A. The data that was used in the June 30, 2013, data valuation report was reasonable by the time the report was completed.

Q. Subsequent to this report being completed, are you aware of anything that would make the data that was included in this report unreasonable?

A. No.

Q. And that's also true for the GRS, correct; you're not aware of anything that would, subsequent to the issuance of the June 30, 2013, GRS report that makes you believe that the data used therein was unreasonable, correct?

A. Correct.

Q. Turn your attention to the appendix at page 30, and then we'll move to the first page of the appendix, at 31. Are you with me there? We're still on Kermans

JUDITH KERMANS

valuation report?

A. Annually.

Q. And, in fact, every time you issue a report, you have to make sure that you're comfortable with the assumptions that -- the actuarial assumptions used therein, correct?

A. Correct.

Q. And you do in fact do that; you make sure that you believe that the actuarial assumptions contained in a valuation report that you issue and that you're the signing actuary for are reasonable, correct?

A. Correct.

Q. And you did that for all valuation reports you've provided for the PFRS, correct?

A. Correct.

Q. And you've also made sure that all of the assumptions used in valuation reports for the GRS are, in your opinion, reasonable, correct?

A. Correct.

Q. One of the -- I guess there's two economic assumption paragraphs, and I'll turn your attention to the first economic assumption paragraph. Are you with me there?

A. Yes.

Q. There it says: The investment return rate used in the

JUDITH KERMANS

Exhibit 2.

A. Yes.

Q. Under assumption review at the top of the page, it says: As required by City ordinance, assumptions are formally reviewed every five years and changes are recommended as experience emerges.

Do you see that?

A. Yes.

Q. Gabriel Roeder Smith will do a formal review every five years of the assumption, is that correct?

A. That is what the City ordinances states.

Q. And do you know whether Gabriel Roeder Smith in fact does a formal review every five years or more frequently of the assumptions used for the valuation reports?

A. I know that we've done such studies in the past.

Q. Now, is a formal review of that sort sometimes referred to as an experience study?

A. Yes.

Q. Does Gabriel Roeder Smith also do informal reviews of the assumptions used in its valuation reports?

A. Yes.

Q. How often would you say the informal reviews are done of the assumptions used in a Gabriel Roeder Smith

JUDITH KERMANS

valuation was eight percent per year compounded annually (net after investment expenses).

Do you know what the process was for selecting an eight percent investment return rate assumption for use in the 72nd annual actuarial valuation report for the PFRS?

A. Yes.

Q. What was that process?

A. Well, that board -- that particular assumption is adopted by the board of trustees, and that assumption was changed in between the last experience study and what we would call the next experience study, which is underway now.

Q. So there's an experience study underway now for the PFRS?

A. Yes.

Q. There's an experience study underway now for the GRS?

A. Yes.

Q. Do you know whether those experience studies began before or after the City of Detroit declared bankruptcy?

A. No.

Q. Do you have a general understanding for roughly when those experience studies began?

<p style="text-align: right;">Page 77</p> <p>1 JUDITH KERMANS</p> <p>2 A. Around the same time as the bankruptcy.</p> <p>3 Q. So sometime in kind of mid-2013?</p> <p>4 A. The summer of 2013, yeah.</p> <p>5 Q. Now, the PFRS had an investment assumption -- well,</p> <p>6 let me ask you, first of all, just you personally, how</p> <p>7 long have you worked on the valuation reports for the</p> <p>8 PFRS and GRS?</p> <p>9 A. Approximately fifteen years.</p> <p>10 Q. So you're aware that in 2011 the PFRS changed its</p> <p>11 investment return assumption from 7.5 percent to 8</p> <p>12 percent, correct?</p> <p>13 A. Correct.</p> <p>14 Q. And you're also aware that -- let me get the exact</p> <p>15 date.</p> <p>16 You're also aware that the -- that Gabriel</p> <p>17 Roeder Smith issued an experience study for the PFRS</p> <p>18 and GRS in kind of early 2009, correct?</p> <p>19 A. Correct.</p> <p>20 Q. And at that time, in 2009, GRS had an investment</p> <p>21 return assumption of 7.9 percent, correct?</p> <p>22 A. I think that's correct.</p> <p>23 Q. And in early 2009, when Gabriel Roeder Smith issued</p> <p>24 its experience study, the PFRS had an investment</p> <p>25 return assumption of 7.8 percent, correct?</p>	<p style="text-align: right;">Page 79</p> <p>1 JUDITH KERMANS</p> <p>2 Q. And is that sometimes also called an</p> <p>3 actuarially-assumed rate of return?</p> <p>4 A. Yes.</p> <p>5 Q. Okay. So my apologies that I may sometimes use those</p> <p>6 terms, you know -- I may not use the same term every</p> <p>7 time, but you'll understand if I use any of those</p> <p>8 three terms, I'm talking about the same thing, okay?</p> <p>9 A. Okay.</p> <p>10 Q. So for each report, for each actuarial valuation</p> <p>11 report that Gabriel Roeder Smith issues to the PFRS,</p> <p>12 there is an investment return rate assumption,</p> <p>13 correct?</p> <p>14 A. Correct.</p> <p>15 Q. And for each such report, Gabriel Roeder Smith,</p> <p>16 regardless of who initially chooses or arrives at the</p> <p>17 investment rate assumption, Gabriel Roeder Smith has</p> <p>18 to become comfortable that that is a reasonable</p> <p>19 assumption, correct?</p> <p>20 A. Correct.</p> <p>21 Q. And for every year that Gabriel Roeder Smith has</p> <p>22 issued a valuation report for the actuarial valuation,</p> <p>23 actuarial liability valuation for PFRS, Gabriel Roeder</p> <p>24 Smith has deemed the investment return assumption to</p> <p>25 be reasonable, correct?</p>
<p style="text-align: right;">Page 78</p> <p>1 JUDITH KERMANS</p> <p>2 A. I think that's correct, as well.</p> <p>3 Q. And subsequent to the issuance of the experience study</p> <p>4 in 2009, the PFRS changed its investment return</p> <p>5 assumption for 2009 and 2010 to 7.5 percent, correct?</p> <p>6 A. Correct.</p> <p>7 Q. And then there was a change made that we just</p> <p>8 discussed in 2011 for the PFRS from 7.5 percent to 8</p> <p>9 percent, correct?</p> <p>10 A. Correct.</p> <p>11 Q. Now, when -- for each of these assumed actuarial rates</p> <p>12 of return or target investment rate -- you understand</p> <p>13 those are synonymous, basically, right?</p> <p>14 MS. GREEN: Object to the form of the</p> <p>15 question.</p> <p>16 MR. HOWELL: Fair enough.</p> <p>17 BY MR. HOWELL:</p> <p>18 Q. So let me try to fix that question. I am going to</p> <p>19 refer to, as I already have, to the concept of an</p> <p>20 investment return rate. You understand what that</p> <p>21 means, right?</p> <p>22 A. Yes.</p> <p>23 Q. All right. And then sometimes that's also called an</p> <p>24 investment return assumption, right?</p> <p>25 A. Correct.</p>	<p style="text-align: right;">Page 80</p> <p>1 JUDITH KERMANS</p> <p>2 A. Correct.</p> <p>3 Q. And if Gabriel Roeder Smith believed the investment</p> <p>4 rate assumption to be unreasonable, that's something</p> <p>5 that you would raise with the plans, correct?</p> <p>6 A. Yes, and we would disclose that in the valuation</p> <p>7 report.</p> <p>8 Q. And there's no disclosure that -- in any valuation</p> <p>9 report from Gabriel Roeder Smith for the PFRS that the</p> <p>10 investment return assumption was deemed unreasonable</p> <p>11 by Gabriel Roeder Smith, correct?</p> <p>12 A. Correct.</p> <p>13 Q. Now, do you recall having any conversations in</p> <p>14 association with the 2013 fiscal year actuarial</p> <p>15 valuation report for PFRS in which you discussed</p> <p>16 whether or not eight percent was a reasonable</p> <p>17 investment return rate?</p> <p>18 A. I don't recall one way or the other.</p> <p>19 Q. Can you recall any time where the PFRS, in association</p> <p>20 with the preparation of this Exhibit 2, the 2013</p> <p>21 fiscal year valuation report, where the PFRS came to</p> <p>22 Gabriel Roeder Smith and said, "I think the investment</p> <p>23 return assumption is too high"?</p> <p>24 A. I don't recall that.</p> <p>25 Q. Now, you said that the eight percent investment return</p>

20 (Pages 77 to 80)

<p style="text-align: right;">Page 81</p> <p>1 JUDITH KERMANS</p> <p>2 assumption was something initially provided by the</p> <p>3 board of trustees for the PFRS to Gabriel Roeder</p> <p>4 Smith, is that a fair characterization?</p> <p>5 A. No.</p> <p>6 Q. So how, then, was the 8.0 percent investment return</p> <p>7 assumption arrived at for use as the investment return</p> <p>8 rate in this report?</p> <p>9 A. The board of trustees adopted an eight percent assumed</p> <p>10 rate of return.</p> <p>11 Q. So then what does Gabriel Roeder Smith do to make sure</p> <p>12 it's comfortable with that assumption?</p> <p>13 A. We, we, we look at the assumption, we consider</p> <p>14 something called a best estimate range, and we</p> <p>15 determine whether or not this falls within that, and</p> <p>16 whether we feel this is likely to occur at least 50</p> <p>17 percent of the time.</p> <p>18 Q. And if you feel that it's likely to occur at least 50</p> <p>19 percent of the time, you deem it to be within the best</p> <p>20 estimate range and a reasonable assumption, correct?</p> <p>21 A. Correct.</p> <p>22 Q. And if you feel that it's not likely to occur 50</p> <p>23 percent of the time, then you may have to raise that</p> <p>24 issue with the plan, correct?</p> <p>25 A. Correct.</p>	<p style="text-align: right;">Page 83</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. That's another thing that could be a helpful data</p> <p>4 point in getting comfortable with an investment rate</p> <p>5 assumption, correct?</p> <p>6 A. Correct.</p> <p>7 Q. So you look at kind of a variety of data points, and</p> <p>8 then based on all of that, you determine whether or</p> <p>9 not you think it fits within your best estimate range,</p> <p>10 right?</p> <p>11 A. Yes. A couple of other things that would be</p> <p>12 considered is the purpose of the measurement that</p> <p>13 you're taking, the materiality of the assumption that</p> <p>14 you're making, relevant data, as you mentioned.</p> <p>15 Q. When you say the materiality of the assumption, you</p> <p>16 would agree that the investment return rate is always</p> <p>17 a material assumption, correct?</p> <p>18 A. Yes.</p> <p>19 Q. Now, with respect to the pay increase assumptions that</p> <p>20 are the second paragraph of the economic assumptions</p> <p>21 on page 31 of Kermans Exhibit 2, those pay increase</p> <p>22 assumptions assume that the PFRS plan would be an</p> <p>23 ongoing plan, correct?</p> <p>24 A. Yes.</p> <p>25 Q. And they include both increases in salary and</p>
<p style="text-align: right;">Page 82</p> <p>1 JUDITH KERMANS</p> <p>2 Q. And you didn't raise that issue with the plan in this</p> <p>3 case, correct?</p> <p>4 A. Correct.</p> <p>5 Q. When looking at the investment return assumption, do</p> <p>6 you ever also consider the investment return</p> <p>7 assumption of other large public pension plans?</p> <p>8 A. That can be one of the decision points, but not, not a</p> <p>9 major one.</p> <p>10 Q. So that could be a data point. It wouldn't be, it</p> <p>11 wouldn't be a sole data point that you would rely on?</p> <p>12 A. No.</p> <p>13 Q. Do you ever look at the investment policy of a</p> <p>14 retirement system when kind of testing the investment</p> <p>15 return assumption of that system?</p> <p>16 A. Yes.</p> <p>17 Q. So that's another thing that could be a helpful data</p> <p>18 point?</p> <p>19 A. Correct.</p> <p>20 Q. But not necessarily the only thing you would rely on,</p> <p>21 correct?</p> <p>22 A. Correct.</p> <p>23 Q. Do you ever look at the historical returns for a</p> <p>24 particular system when testing an assumption regarding</p> <p>25 the investment return rate for that system?</p>	<p style="text-align: right;">Page 84</p> <p>1 JUDITH KERMANS</p> <p>2 increases in salary that are tied to service-related</p> <p>3 benefits, correct?</p> <p>4 A. They do, although for the very next year we have a</p> <p>5 zero percent assumption for wage increase.</p> <p>6 Q. Thank you for that clarification. So with respect to</p> <p>7 salary increase -- first of all, you incorporate</p> <p>8 tables where you make assumptions regarding salary</p> <p>9 increases for different ages and different years of</p> <p>10 service with the PFRS, correct?</p> <p>11 A. Yes.</p> <p>12 Q. Now, moving back up to the previous paragraph, about</p> <p>13 halfway through the paragraph you say: Considering</p> <p>14 other financial assumptions, the eight percent total</p> <p>15 investment return rate translates to an assumed real</p> <p>16 rate of return of four percent over wage inflation.</p> <p>17 Do you see that?</p> <p>18 A. Yes.</p> <p>19 Q. And you still agree with that statement today,</p> <p>20 correct?</p> <p>21 A. I agree with -- that that statement is appropriate for</p> <p>22 this report and the calculations done in the report.</p> <p>23 Q. And wage inflation is typically about a half percent</p> <p>24 to a percent higher than price inflation, is that</p> <p>25 correct?</p>

21 (Pages 81 to 84)

<p style="text-align: right;">Page 85</p> <p>1 JUDITH KERMANS</p> <p>2 A. According to the Social Security Administration, yes.</p> <p>3 Q. So you say considering other financial assumptions.</p> <p>4 Do you have an understanding as to what those other</p> <p>5 financial assumptions are?</p> <p>6 A. I think that is referring to the Consumer Price Index</p> <p>7 and the wage inflation.</p> <p>8 Q. How does Gabriel Roeder Smith go about deriving its</p> <p>9 inflation assumption, inflation rate assumption for</p> <p>10 use in an actuarial valuation?</p> <p>11 A. The wage inflation assumption is part of the</p> <p>12 experience study process. We have numerous things</p> <p>13 that we look at, involving starting with the Consumer</p> <p>14 Price Index and then looking at, as you mentioned, the</p> <p>15 differential between that and potential wage</p> <p>16 inflation.</p> <p>17 Q. Now, when Gabriel Roeder Smith performs the informal</p> <p>18 review, the annual informal review when preparing a</p> <p>19 valuation report for a system, if you believe that</p> <p>20 there is an unreasonable assumption in the most recent</p> <p>21 experience study, you would adjust that assumption to</p> <p>22 make it reasonable going forward, correct?</p> <p>23 A. Yes.</p> <p>24 Q. You also have several noneconomic assumptions listed</p> <p>25 on page 31, continuing through page 33. One relates</p>	<p style="text-align: right;">Page 87</p> <p>1 JUDITH KERMANS</p> <p>2 MS. GREEN: I'll object to form and</p> <p>3 foundation.</p> <p>4 Rush, I think you're assuming that there</p> <p>5 are certain assumptions that she has the ability to</p> <p>6 change, and I think she already testified there are</p> <p>7 certain assumptions the board has to authorize</p> <p>8 previously. So if we could just clarify which</p> <p>9 assumptions you're -- I don't know if that makes sense</p> <p>10 to you or not, but ...</p> <p>11 MR. HOWELL: Well, for one thing, and I</p> <p>12 don't mean to -- I mean, I appreciate the</p> <p>13 clarification, but I would prefer that we not have</p> <p>14 speaking objections, if possible, and object to the</p> <p>15 form, and then I'll ask her if she understands the</p> <p>16 question and do my best to clarify it.</p> <p>17 But, you know, I'll take this form</p> <p>18 objection and just -- I'll strike that question.</p> <p>19 BY MR. HOWELL:</p> <p>20 Q. On page 32 there's something called miscellaneous</p> <p>21 loads, and I want to focus on the second sentence</p> <p>22 there that says: Active accrued liability (excluding</p> <p>23 DROP members) was increased by one percent to</p> <p>24 approximate the effect of missing or incomplete data.</p> <p>25 Do you see that?</p>
<p style="text-align: right;">Page 86</p> <p>1 JUDITH KERMANS</p> <p>2 to a mortality table.</p> <p>3 Where does Gabriel Roeder Smith obtain the</p> <p>4 mortality information that it uses in coming up with a</p> <p>5 mortality assumption for a valuation report?</p> <p>6 A. That analysis is part of the five-year experience</p> <p>7 study.</p> <p>8 Q. So do you know whether there were any changes to the</p> <p>9 mortality assumptions used in this 2013 valuation</p> <p>10 report versus the mortality assumptions listed in the</p> <p>11 most recent experience study?</p> <p>12 A. I believe this is the same table. I would have to</p> <p>13 confirm that, though.</p> <p>14 Q. And while I understand you said you're not a hundred</p> <p>15 percent sure on that, if you felt that the mortality</p> <p>16 table included in the prior experience study was no</p> <p>17 longer reasonable, you wouldn't continue to use it,</p> <p>18 waiting until the next experience study came out,</p> <p>19 right?</p> <p>20 A. Correct.</p> <p>21 Q. And that's true for any assumption that would be no</p> <p>22 longer valid in the experience study. You would, you</p> <p>23 would change that during your review of the valuation</p> <p>24 report rather than wait for the next experience study</p> <p>25 to come out, right?</p>	<p style="text-align: right;">Page 88</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. And can you explain for me -- well, if I'm</p> <p>4 understanding this correctly, this is just kind of a</p> <p>5 one percent that's added to the AAL to deal with the</p> <p>6 fact that there might be some problems with the data?</p> <p>7 A. Correct.</p> <p>8 Q. And how does Gabriel Roeder Smith determine that one</p> <p>9 percent is the, is the best number to use for this</p> <p>10 miscellaneous load?</p> <p>11 A. Each year we analyze the data and we try to determine</p> <p>12 whether or not we think it's a reasonable data set to</p> <p>13 use in the valuation, and one of the things that we</p> <p>14 can do, if we think it is reasonable to use in the</p> <p>15 valuation but we think that it may be missing certain</p> <p>16 data elements, is we can make what we view in our</p> <p>17 judgment to be an appropriate load to the liabilities</p> <p>18 to reflect that.</p> <p>19 Q. So Gabriel Roeder Smith will from time to time apply a</p> <p>20 miscellaneous load to -- in this same circumstance for</p> <p>21 other retirement systems, as well?</p> <p>22 A. Yes.</p> <p>23 Q. Do you know whether it's typical to include a</p> <p>24 miscellaneous load or typical not to include a</p> <p>25 miscellaneous load?</p>

22 (Pages 85 to 88)

<p style="text-align: right;">Page 89</p> <p>1 JUDITH KERMANS</p> <p>2 A. I think it is typical to include a miscellaneous load</p> <p>3 for data.</p> <p>4 Q. And is one percent the typical number used by Gabriel</p> <p>5 Roeder Smith, or does that vary?</p> <p>6 A. It varies.</p> <p>7 Q. And what would you say, in your experience, is the</p> <p>8 range that you would use for a miscellaneous load for</p> <p>9 purposes of approximating the effect of missing or</p> <p>10 incomplete data?</p> <p>11 A. One to three percent.</p> <p>12 Q. There's also in -- the first sentence says: Normal</p> <p>13 retirement accrued liability (excluding DROP members)</p> <p>14 was increased by three percent for service purchases.</p> <p>15 Can you just explain to me what that is</p> <p>16 referring to?</p> <p>17 A. Individuals, active individuals when they're working</p> <p>18 will sometimes purchase service that they've earned in</p> <p>19 other municipalities or military service, and this is</p> <p>20 a load to reflect that there may be a cost to that</p> <p>21 that is not already reflected in the accrued liability</p> <p>22 numbers.</p> <p>23 Q. Can you describe for me what the DROP program is for</p> <p>24 PFRS?</p> <p>25 A. The DROP program is detailed in this report on</p>	<p style="text-align: right;">Page 91</p> <p>1 JUDITH KERMANS</p> <p>2 correct?</p> <p>3 A. Yes.</p> <p>4 Q. Do you know how long the -- how long Gabriel Roeder</p> <p>5 Smith has been using the entry age normal cost method</p> <p>6 in performing valuations of the actuarial liability</p> <p>7 for PFRS?</p> <p>8 A. No.</p> <p>9 Q. Has that been the case for as long as you can</p> <p>10 remember?</p> <p>11 A. Yes.</p> <p>12 Q. Would you agree that entry age normal is an</p> <p>13 appropriate cost funding methodology for an ongoing</p> <p>14 plan?</p> <p>15 MS. GREEN: Object to form, foundation.</p> <p>16 BY MR. HOWELL:</p> <p>17 Q. You can answer if you understood the question.</p> <p>18 A. No, I don't.</p> <p>19 Q. You do not. And why is that?</p> <p>20 A. I think your question was too broad for me to answer</p> <p>21 it.</p> <p>22 Q. Oh, I'm sorry. So you did not understand the</p> <p>23 question?</p> <p>24 A. Correct.</p> <p>25 Q. Okay. I think we just need to make sure the record's</p>
<p style="text-align: right;">Page 90</p> <p>1 JUDITH KERMANS</p> <p>2 page 17.</p> <p>3 Q. And do you know whether Gabriel Roeder Smith has ever</p> <p>4 undertaken an effort to analyze the effect on the UAAL</p> <p>5 for the PFRS as a result of the implementation of the</p> <p>6 DROP plan?</p> <p>7 A. Michigan State law, I believe, requires that an</p> <p>8 analysis be done for every single change in benefit</p> <p>9 provisions, and I would assume that it was done for</p> <p>10 this one, as well.</p> <p>11 Q. And do you, as you sit here, do you have any</p> <p>12 understanding of the impact on the UAAL for the PFRS</p> <p>13 as a result of the implementation of the DROP plan?</p> <p>14 A. No.</p> <p>15 Q. On page 34 of Exhibit 2 to the Kermans deposition is a</p> <p>16 page entitled Funding Methods. Do you see that?</p> <p>17 A. Yes.</p> <p>18 Q. And the first sentence there says: The entry age</p> <p>19 actuarial cost method was used in determining age and</p> <p>20 service liabilities and normal cost, vesting</p> <p>21 liabilities and normal cost, and casual liabilities</p> <p>22 and normal cost.</p> <p>23 Do you see that?</p> <p>24 A. Yes.</p> <p>25 Q. And that's the entry age normal actuarial cost method,</p>	<p style="text-align: right;">Page 92</p> <p>1 JUDITH KERMANS</p> <p>2 clear there so it doesn't sound like --</p> <p>3 MS. GREEN: I was confused, too, so let's</p> <p>4 maybe re-ask that or restate it.</p> <p>5 MR. HOWELL: I mean, I think the record's</p> <p>6 clear, but I just -- I want to make sure we don't have</p> <p>7 something that's on there that looks goofy.</p> <p>8 BY MR. HOWELL:</p> <p>9 Q. So I asked you, would you agree that entry age normal</p> <p>10 is an appropriate cost funding methodology for an</p> <p>11 ongoing plan, and your answer to that question was you</p> <p>12 don't understand the question, right?</p> <p>13 A. Correct.</p> <p>14 Q. For purposes of the work Gabriel Roeder Smith did</p> <p>15 here, it assumed that the PFRS plan was an ongoing</p> <p>16 plan, correct?</p> <p>17 A. Yes.</p> <p>18 Q. And it assumed that there would be future salary and</p> <p>19 service benefits, correct?</p> <p>20 A. Yes.</p> <p>21 Q. Now, you're aware that there can be circumstances in</p> <p>22 which a plan is frozen, correct?</p> <p>23 A. Correct.</p> <p>24 Q. And in some frozen plans there will be no future</p> <p>25 increases in salary or service increases, correct?</p>

23 (Pages 89 to 92)

<p style="text-align: right;">Page 93</p> <p>1 JUDITH KERMANS</p> <p>2 A. Correct.</p> <p>3 Q. In that situation, a frozen plan in which there's no</p> <p>4 future salary increases nor will there be future</p> <p>5 service-based increases, do you think using the entry</p> <p>6 age normal funding method can overstate the UAAL of</p> <p>7 that plan?</p> <p>8 A. I would have to do an analysis for that.</p> <p>9 MS. GREEN: I wanted to place an objection</p> <p>10 on the record before you answer.</p> <p>11 Rush, to the extent these are outside of</p> <p>12 the scope of the 30(b)(6) topics and seem to be</p> <p>13 hypotheticals may be more appropriate for an expert</p> <p>14 witness. I'll place the objection, but obviously her</p> <p>15 answer is already on the record.</p> <p>16 BY MR. HOWELL:</p> <p>17 Q. And I think your answer was that you'd have to do an</p> <p>18 analysis of that, is that correct?</p> <p>19 A. My answer is that it would depend.</p> <p>20 Q. What would it depend on?</p> <p>21 A. The purpose of the measurement, the plan involved, and</p> <p>22 other factors.</p> <p>23 Q. Could you give me an example of a set of factors in</p> <p>24 which using the entry age normal cost funding</p> <p>25 methodology for a frozen -- plan that's frozen for</p>	<p style="text-align: right;">Page 95</p> <p>1 JUDITH KERMANS</p> <p>2 somewhat outside the scope of the 30(b)(6) topics, and</p> <p>3 I do think you're sort of getting close to the line of</p> <p>4 an expert witness hypothetical sort of question.</p> <p>5 But if we can just make that agreement, I</p> <p>6 won't re-lodge the objection every time.</p> <p>7 MR. HOWELL: Sure, we can stipulate to a</p> <p>8 standing objection on this line of question.</p> <p>9 MR. BULLOCK: With that being said, are you</p> <p>10 planning on asking the same question again?</p> <p>11 MR. HOWELL: Yes. I think the question's</p> <p>12 still pending, but I can ask it again.</p> <p>13 BY MR. HOWELL:</p> <p>14 Q. So my question is, can you provide for me any of the</p> <p>15 factors that you referenced that might indicate that</p> <p>16 the use of an entry age normal cost funding</p> <p>17 methodology for a frozen plan would lead to an</p> <p>18 overstated UAAL?</p> <p>19 A. Not without a lot more consideration.</p> <p>20 Q. Have you ever worked on a plan that was frozen before?</p> <p>21 A. Yes.</p> <p>22 Q. Have you ever changed your cost funding methodology</p> <p>23 for a frozen plan?</p> <p>24 A. That's a complex question. Can you please restate it?</p> <p>25 Q. Well, so you use a particular cost funding methodology</p>
<p style="text-align: right;">Page 94</p> <p>1 JUDITH KERMANS</p> <p>2 salary and service increases could lead to an</p> <p>3 overstated UAAL?</p> <p>4 MR. BULLOCK: I'm going to object to the</p> <p>5 form of the question. You're asking for her to render</p> <p>6 some form of an expert opinion. She's here as a lay</p> <p>7 witness.</p> <p>8 BY MR. HOWELL:</p> <p>9 Q. You can, you can answer the question if you understood</p> <p>10 it.</p> <p>11 A. I don't understand it.</p> <p>12 Q. Well, you told me that in order to determine whether</p> <p>13 or not the entry age normal cost method, cost funding</p> <p>14 method would -- in a frozen plan, with frozen salary</p> <p>15 and frozen service, would lead to an overstated UAAL</p> <p>16 would depend on an analysis of a variety of factors,</p> <p>17 correct?</p> <p>18 A. Yes.</p> <p>19 Q. And I am trying to figure out what factors you were</p> <p>20 referring to that could result in the -- use of entry</p> <p>21 age normal cost funding methodology in a frozen plan</p> <p>22 lead to an overstated UAAL.</p> <p>23 MS. GREEN: I'm going to lodge the same</p> <p>24 objection. Maybe we can just do a standing objection.</p> <p>25 I don't want to slow you down, but I do think it's</p>	<p style="text-align: right;">Page 96</p> <p>1 JUDITH KERMANS</p> <p>2 when you're performing actuarial -- performing any</p> <p>3 actuarial valuation, right?</p> <p>4 A. Yes.</p> <p>5 Q. And you testified that you have worked on plans before</p> <p>6 that were ongoing at one point and then became frozen,</p> <p>7 is that correct?</p> <p>8 A. Yes.</p> <p>9 Q. And I'm just asking, on those, with respect to those</p> <p>10 specific plans, at the time the plan was frozen, did</p> <p>11 you change the cost funding methodology that you used</p> <p>12 in performing actuarial valuations for that plan?</p> <p>13 A. Typically, if a plan becomes frozen, although "frozen"</p> <p>14 is not a technical term, you would consider cash flow</p> <p>15 needs and other such things that would lead you to</p> <p>16 possibly changing a method or two in the process; not</p> <p>17 necessarily the cost method, though.</p> <p>18 Q. So it might lead to an adjustment of the, of the cost</p> <p>19 funding methodology, though not necessarily a complete</p> <p>20 change to which cost funding methodology is used?</p> <p>21 A. Correct.</p> <p>22 Q. The entry age normal cost funding method for an</p> <p>23 ongoing plan assumes future salary and service</p> <p>24 increases, correct?</p> <p>25 A. Yes.</p>

24 (Pages 93 to 96)

<p style="text-align: right;">Page 97</p> <p>JUDITH KERMANS</p> <p>Q. If a plan was frozen and wasn't going to have future salary and service increases, would you agree that you should not include accruals for future salary and service increases in the cost funding methodology you use to value that plan?</p> <p>A. It depends on the measurement that you're taking.</p> <p>Q. What if you're -- the measurement that you're taking is a valuation of the UAAL?</p> <p>A. I don't understand the question.</p> <p>Q. So it's your testimony that there would be certain purposes, certain measurements that you would be taking, where even though a plan had been frozen as to future salary and service increases, that you would still want to accrue for future salary and service increases as part of the cost funding methodology?</p> <p>A. I don't understand that question.</p> <p>Q. Well, let me try to make it more simple. If you have a situation in which there aren't going to be future service and future salary increases, should you include future service and future salary increases when calculating a UAAL for that plan?</p> <p>MS. GREEN: I'm going to object. I still want to be clear for the record that we have a standing objection to all of these hypothetical</p>	<p style="text-align: right;">Page 99</p> <p>JUDITH KERMANS</p> <p>A. Yes.</p> <p>Q. My question to you is, in a situation in which a plan is frozen and there is no future salary increase contemplated and no future service increase contemplated, in your experience as an actuary, do you believe that those -- the cost funding methodology can still include accruals for future salary and future service increases?</p> <p>A. If you are working on an actuarial valuation for the purpose of measuring the employer contribution rate, then you would want your funding method to line up with what's actually going to happen.</p> <p>Q. On page 35 of sample salary adjustment rates, is this an example of a table, the top table on page 35 that was derived from the prior experience study?</p> <p>A. Yes.</p> <p>Q. And the base (economic) there is -- that, that refers to wage inflation, correct?</p> <p>A. Correct.</p> <p>Q. Do you have an understanding as to what Gabriel Roeder Smith viewed to be price inflation in putting together this valuation report? I know the range is between a half and one percent lower. Do you know whether one-half or one percent lower was applied?</p>
<p style="text-align: right;">Page 98</p> <p>JUDITH KERMANS</p> <p>questions to a 30(b)(6) witness who's not here in an expert capacity, and I don't want there to be a misunderstanding that you had a certain line of questions and now you're in a different line of questions.</p> <p>Throughout the record there have been several hypothetical questions lodged to this witness. I just want to restate and clarify for the record that it's well beyond the scope of the eight topics listed on the 30(b)(6) notice. But you may proceed.</p> <p>MR. HOWELL: Okay, and I will state for the record that I disagree. Part of the topics here were the actuarial valuations performed by Gabriel Roeder that includes the actuarial cost method used, and I believe that I've established foundation with this witness that she's worked on multiple plans and used different cost funding methodologies, but I understand the objection, and if you want -- I think we're close to the end of this line of questions, but if you want to just object each time to make sure that it's clear, I don't have a problem with that.</p> <p>BY MR. HOWELL:</p> <p>Q. So, all right, we were talking about cost funding methodologies, right?</p>	<p style="text-align: right;">Page 100</p> <p>JUDITH KERMANS</p> <p>A. I do not.</p> <p>MR. HOWELL: I don't know how long we're going. I'm getting ready to go to a new exhibit, if we want to take a break.</p> <p>MS. GREEN: I think lunch is going to be here at 11:45 or noon. Do you want me to see if it's here and we can break, or do you want to just muddle along for another fifteen minutes and then we'll do lunch?</p> <p>MR. HOWELL: If it's okay -- whatever you guys want to do.</p> <p>THE WITNESS: I'm okay with fifteen more minutes, yeah.</p> <p>MR. BULLOCK: Are we within that time frame?</p> <p>MR. HOWELL: Sure.</p> <p>MARKED FOR IDENTIFICATION: DEPOSITION EXHIBIT 3 11:37 a.m.</p> <p>BY MR. HOWELL:</p> <p>Q. Ms. Kermans, I'm going to hand you what I am marking as Kermans Exhibit 3.</p> <p>MR. HOWELL: And for identification purposes, Kermans Exhibit 3 also doesn't have a Bates</p>

25 (Pages 97 to 100)

<p style="text-align: right;">Page 101</p> <p>1 JUDITH KERMANS</p> <p>2 number but is the Gabriel Roeder Smith & Company 75th</p> <p>3 Annual Actuarial Valuation for the General Retirement</p> <p>4 System of the City of Detroit.</p> <p>5 BY MR. HOWELL:</p> <p>6 Q. And, Ms. Kermans, do you recognize this document?</p> <p>7 A. Yes.</p> <p>8 Q. And this is a document we've referred to several</p> <p>9 times, but this is the final actuarial valuation as of</p> <p>10 June 30, 2013, for the GRS, correct?</p> <p>11 A. Yes.</p> <p>12 Q. And if you turn to the third page within here,</p> <p>13 which -- it's another letter on April 4, 2014, do you</p> <p>14 see that?</p> <p>15 A. Yes.</p> <p>16 Q. So this is a similar letter from Mr. Kausch, yourself,</p> <p>17 and Mr. Alberts that kind of lays out the purpose of</p> <p>18 the actuarial valuation, correct?</p> <p>19 A. Yes.</p> <p>20 Q. And in the second sentence on the first paragraph of</p> <p>21 the letter it says: This report was prepared at the</p> <p>22 request of the board and is intended for use by the</p> <p>23 retirement system and those designated or approved by</p> <p>24 the board.</p> <p>25 Is it the board of trustees of the GRS that</p>	<p style="text-align: right;">Page 103</p> <p>1 JUDITH KERMANS</p> <p>2 Q. In the past have you, have you ever attended a board</p> <p>3 meeting of the GRS?</p> <p>4 A. Yes.</p> <p>5 Q. And I know you can't say specifically on this one, but</p> <p>6 from time to time you will be involved in the</p> <p>7 presentation of the report to the board of trustees of</p> <p>8 the GRS and PFRS, correct?</p> <p>9 A. Correct.</p> <p>10 Q. And these board meetings are open to members of the</p> <p>11 GRS and PFRS, as well, correct?</p> <p>12 A. I don't understand the question.</p> <p>13 Q. Okay. Who -- in your experience, who has been at</p> <p>14 these board meetings when you present this report?</p> <p>15 A. The board of trustees, not necessarily all of the</p> <p>16 members, but some of them. Retirement system staff.</p> <p>17 Occasionally reporters. Attorneys.</p> <p>18 Q. And how does the process go? Do you kind of walk</p> <p>19 through the report and then open it up for questions,</p> <p>20 or is there a different process?</p> <p>21 A. We go through the report. We have questions</p> <p>22 throughout the report and sometimes at the end.</p> <p>23 Q. And can you recall making any significant changes</p> <p>24 between the presentation of the draft valuation report</p> <p>25 in March and the submission of the final version in</p>
<p style="text-align: right;">Page 102</p> <p>1 JUDITH KERMANS</p> <p>2 typically comes to Gabriel Roeder Smith and says, "We</p> <p>3 want to go ahead and do the actuarial valuation for</p> <p>4 the next year"?</p> <p>5 A. The typical process starts with us requesting the</p> <p>6 data, assuming that we have an ongoing relationship</p> <p>7 with them.</p> <p>8 Q. Do you know who your engagement is with? Is it with</p> <p>9 the plan system itself or the board of trustees?</p> <p>10 A. It's with the system, represented by the board of</p> <p>11 trustees.</p> <p>12 Q. In the bottom paragraph, the one that's bolded, the</p> <p>13 first line is: We presented preliminary valuation</p> <p>14 reports at the March 9, 2014, board meeting.</p> <p>15 Do you see that?</p> <p>16 A. March 19th.</p> <p>17 Q. Oh, I'm sorry.</p> <p>18 A. Yes.</p> <p>19 Q. Thanks for that clarification. So it says: We</p> <p>20 presented preliminary valuation results at the</p> <p>21 March 19, 2014, board meeting. Correct?</p> <p>22 A. Correct.</p> <p>23 Q. And you attended that board meeting, correct?</p> <p>24 A. I don't recall whether I attended or David Kausch,</p> <p>25 along with Kenneth Alberts.</p>	<p style="text-align: right;">Page 104</p> <p>1 JUDITH KERMANS</p> <p>2 April for this GRS 75th annual actuarial valuation?</p> <p>3 A. No.</p> <p>4 Q. And this bolded paragraph explains that after that</p> <p>5 meeting, you received some additional information or</p> <p>6 additional data, but based on your analysis, the</p> <p>7 addition of that data wasn't material enough to make</p> <p>8 any changes, basically, right?</p> <p>9 A. The addition of that data, with the result of</p> <p>10 incorporating that data, ended up being less than our</p> <p>11 one percent load that we have in the valuation process</p> <p>12 already, and so we did not suggest a redo of the</p> <p>13 valuation.</p> <p>14 Q. Okay. You anticipated my next question, which was</p> <p>15 whether that adjustment was the load, so thank you.</p> <p>16 Turning to the second page, second</p> <p>17 paragraph, second sentence, it says: To the best of</p> <p>18 our knowledge, this report is complete and accurate</p> <p>19 and was made in accordance with actuarial standards of</p> <p>20 practice promulgated by the Actuarial Standards Board.</p> <p>21 You stand by that statement, correct?</p> <p>22 A. Yes.</p> <p>23 Q. Then you say: The actuarial assumptions used for the</p> <p>24 valuation are set by the board. Different assumptions</p> <p>25 would produce different results. The actuarial</p>

26 (Pages 101 to 104)

<p style="text-align: right;">Page 105</p> <p>1 JUDITH KERMANS</p> <p>2 assumptions are reasonable.</p> <p>3 You stand by that statement, correct?</p> <p>4 A. Yes.</p> <p>5 Q. Turning to page A4, which is the actuarial accrued</p> <p>6 liabilities as of June 30, 2013, retirement system</p> <p>7 totals, are you with me on that page?</p> <p>8 A. Yes.</p> <p>9 Q. There is an unfunded accrued pension liability of</p> <p>10 \$1,084,210,716, correct?</p> <p>11 A. Yes.</p> <p>12 Q. And that includes \$36 million of past-due</p> <p>13 contributions, an assumption that those would not be</p> <p>14 made, correct?</p> <p>15 A. Correct.</p> <p>16 Q. And like the past-due contributions we looked at for</p> <p>17 PFRS, were those entirely fiscal year 2013 past-due</p> <p>18 contributions?</p> <p>19 A. Correct.</p> <p>20 Q. Turning to page A8, the conclusion section of the</p> <p>21 comments, it says: The retirement system is 70</p> <p>22 percent funded as of June 30, 2013, based on the</p> <p>23 funding value of assets.</p> <p>24 Do you see that?</p> <p>25 A. Yes.</p>	<p style="text-align: right;">Page 107</p> <p>1 JUDITH KERMANS</p> <p>2 VIDEO TECHNICIAN: The time is 11:44 a.m.</p> <p>3 We are now off the record.</p> <p>4 (Off the record at 11:44 a.m.)</p> <p>5 (Back on the record at 12:37 a.m.)</p> <p>6 VIDEO TECHNICIAN: The time is 12:37 p.m.</p> <p>7 We are now on the record.</p> <p>8 BY MR. HOWELL:</p> <p>9 Q. Ms. Kermans, this morning we spent a great deal of</p> <p>10 time going through the actuarial valuations for both</p> <p>11 the PFRS and GRS, and I was hoping you could have both</p> <p>12 Exhibit 2 and Exhibit 3, which are those two</p> <p>13 valuations, for your reference. I just want to ask a</p> <p>14 few final questions on these documents.</p> <p>15 Now, the unfunded actuarial accrued</p> <p>16 liability, or the UAAL, that you had listed for the</p> <p>17 PFRS was about \$415 million, correct, and that's as of</p> <p>18 June 30, 2013?</p> <p>19 A. Correct.</p> <p>20 Q. And the UAAL as of June 30, 2013, that you had for the</p> <p>21 GRS was about \$1.084 billion, correct?</p> <p>22 A. Correct.</p> <p>23 Q. And so if we add those two together, the 415 million,</p> <p>24 roughly, and the 1.084 billion, roughly, we get a</p> <p>25 combined UAAL for the two retirement systems of almost</p>
<p style="text-align: right;">Page 106</p> <p>1 JUDITH KERMANS</p> <p>2 Q. And again, it's a 58 percent on market value of</p> <p>3 assets, is that right?</p> <p>4 A. Correct.</p> <p>5 Q. So if I wanted to determine the UAAL on a market value</p> <p>6 basis, I would take the actuarial accrued liabilities</p> <p>7 of 3.6 billion and change -- as listed, for instance,</p> <p>8 on page A4, and subtract from that the market value</p> <p>9 end of year on page A13 for 2013 of just about \$2.1</p> <p>10 billion, correct?</p> <p>11 A. Correct.</p> <p>12 Q. So that would lead to a UAAL on a market value basis</p> <p>13 of just a little bit over \$1.5 billion, correct?</p> <p>14 A. Correct.</p> <p>15 MS. GREEN: Rush, I got an email from my</p> <p>16 assistant that lunch is here and ready, so whenever</p> <p>17 you are ready to take a break.</p> <p>18 MR. HOWELL: This is a decent spot, if you</p> <p>19 want to take a break now.</p> <p>20 MS. GREEN: How much time do we think we</p> <p>21 need? It's just across the hall, but ...</p> <p>22 MR. HOWELL: Well, I'm sure everyone --</p> <p>23 MS. GREEN: 12:30?</p> <p>24 MR. HOWELL: However long you guys would</p> <p>25 like to take.</p>	<p style="text-align: right;">Page 108</p> <p>1 JUDITH KERMANS</p> <p>2 exactly \$1.5 billion, correct?</p> <p>3 A. Well, those are not two numbers that I would add</p> <p>4 together, because they're created on different bases,</p> <p>5 but, yes, mathematically, that's the answer.</p> <p>6 Q. And what do you mean when you say they're created on</p> <p>7 different bases?</p> <p>8 A. They have two different assumed rates of return, for</p> <p>9 example.</p> <p>10 Q. So, for example, the GRS has a 7.9 percent assumed</p> <p>11 rate of return, whereas the PFRS has an 8 percent rate</p> <p>12 of return?</p> <p>13 A. Correct.</p> <p>14 Q. But if I simply wanted to say what is the combined</p> <p>15 UAAL of the PFRS and GRS pursuant to the Gabriel</p> <p>16 Roeder June 30, 2013, valuations, it would be about</p> <p>17 \$1.5 billion between the two just added together,</p> <p>18 right?</p> <p>19 A. Yes.</p> <p>20 Q. And we went through the calculations, and do you</p> <p>21 recall that if you were to do the UAAL on a market</p> <p>22 value basis for the GRS, it was a little, just a</p> <p>23 little above \$1.5 billion?</p> <p>24 A. Yes.</p> <p>25 Q. And do you recall that when we looked at the UAAL for</p>

27 (Pages 105 to 108)

<p style="text-align: right;">Page 109</p> <p>1 JUDITH KERMANS</p> <p>2 the PFRS on a market value basis that -- going through</p> <p>3 the calculation you explained, we got about \$850</p> <p>4 million, or right around there, for the UAAL for the</p> <p>5 PFRS on a market value basis?</p> <p>6 A. Correct.</p> <p>7 Q. And again, understanding that there are differences in</p> <p>8 how those two calculations occurred, but if you were</p> <p>9 to add the UAAL of the PFRS and the UAAL of the GRS on</p> <p>10 a market value basis, you would add the roughly 1.5</p> <p>11 billion to the roughly 850 million, for something</p> <p>12 around 2.35 billion or so, is that about right?</p> <p>13 A. Correct.</p> <p>14 Q. And those numbers, the UAAL, first on a funding value</p> <p>15 basis, the 415 million for PFRS and the 1.084 for the</p> <p>16 GRS, you believe those to be accurate at the time you</p> <p>17 issued this report, correct?</p> <p>18 A. Yes.</p> <p>19 Q. And subsequent to issuing the report, you have not</p> <p>20 determined that those were inaccurate at the time they</p> <p>21 were issued, right?</p> <p>22 A. Correct.</p> <p>23 Q. And with respect to the calculations that we did for</p> <p>24 the UAAL on a market value basis for PFRS, you believe</p> <p>25 those are also correct at the time the report was</p>	<p style="text-align: right;">Page 111</p> <p>1 JUDITH KERMANS</p> <p>2 Retirement System for the City of Detroit Five-Year</p> <p>3 Experience Study, July 1, 2002, through June 30, 2007.</p> <p>4 And I will note and apologize that we have</p> <p>5 this large kind of water mark on the top of each page.</p> <p>6 The reason for that is that this exhibit was listed in</p> <p>7 the expert report of William Fornia. We then</p> <p>8 requested a copy of it from Mr. Fornia after reviewing</p> <p>9 his expert report, and he provided it, unfortunately,</p> <p>10 with this stamp across the top.</p> <p>11 BY MR. HOWELL:</p> <p>12 Q. So that's why it's there, and I'll ask you to try your</p> <p>13 best to ignore it as we flip through the pages.</p> <p>14 A. I will try my best.</p> <p>15 Q. Yeah. Ms. Kermans, do you recognize this document?</p> <p>16 A. Yes.</p> <p>17 Q. And this is, in fact, the 2009 five-year experience</p> <p>18 study for the PFRS that we've discussed a few times,</p> <p>19 right?</p> <p>20 A. Yes.</p> <p>21 Q. And so I'm going to refer to this to try to save a</p> <p>22 little time going forward as the PFRS experience</p> <p>23 study, okay?</p> <p>24 A. Okay.</p> <p>25 Q. What is the purpose of an experience study as done by</p>
<p style="text-align: right;">Page 110</p> <p>1 JUDITH KERMANS</p> <p>2 issued, correct?</p> <p>3 A. I didn't do those calculations at the time the report</p> <p>4 was done, but I see no reason to -- why they wouldn't</p> <p>5 be still correct.</p> <p>6 Q. And the same is true for the GRS market value</p> <p>7 calculations; you didn't do them at the time, but you</p> <p>8 see no reason why they wouldn't be correct, right?</p> <p>9 A. Remain correct.</p> <p>10 Q. Did you review the report of the Court's feasibility</p> <p>11 expert, Martha Kopacz, as part of your preparation?</p> <p>12 A. I did not review the report. I was not asked to</p> <p>13 review the report.</p> <p>14 Q. Now, we've talked a bit about the experience studies</p> <p>15 that were done and completed in early 2009 for GRS and</p> <p>16 PFRS. Do you recall discussing those?</p> <p>17 A. Yes.</p> <p>18 Q. I'm going to hand you what I will mark as Kermans</p> <p>19 Exhibit 4.</p> <p>20 MARKED FOR IDENTIFICATION:</p> <p>21 DEPOSITION EXHIBIT 4</p> <p>22 12:46 p.m.</p> <p>23 MR. HOWELL: And for identification</p> <p>24 purposes, Kermans Exhibit 4 does not have a Bates</p> <p>25 stamp but is the Gabriel Roeder Smith Police and Fire</p>	<p style="text-align: right;">Page 112</p> <p>1 JUDITH KERMANS</p> <p>2 Gabriel Roeder Smith for a system?</p> <p>3 A. That information is outlined on page A2 of the report.</p> <p>4 Q. And where, specifically, is the purpose of the report</p> <p>5 laid out?</p> <p>6 A. Underneath the flick@trusteepensionadvisers.com,</p> <p>7 primarily, some information indicating that the</p> <p>8 purpose of the study is to review experience related</p> <p>9 to withdrawal of active members, rates of disability,</p> <p>10 et cetera.</p> <p>11 Q. So you're referring to those six or so bullet points</p> <p>12 kind of near the top of page A2?</p> <p>13 A. Yes.</p> <p>14 Q. And is it fair to say that one of the purposes of an</p> <p>15 experience study is to look at past experience to</p> <p>16 evaluate assumptions that have been used in actuarial</p> <p>17 calculations for a particular system?</p> <p>18 A. Could you repeat that?</p> <p>19 Q. Yes. Is one of the purposes of an experience study to</p> <p>20 go back and look at past history to assess the quality</p> <p>21 of actuarial assumptions that are used in performing</p> <p>22 actuarial calculations for the system in question?</p> <p>23 A. I can't really answer yes or no to that question.</p> <p>24 Q. Part of the reason that you do an experience study is</p> <p>25 to gain additional comfort with actuarial assumptions,</p>

28 (Pages 109 to 112)

JUDITH KERMANS

right?

A. Okay, yes.

Q. And one reason you do an experience study is to determine whether or not you need to update actuarial assumptions that are used in valuing the actuarial liabilities, right?

A. Yes.

Q. Now, you also have an informal review that takes place, as well, and this experience study is a formal review that supplements that process, correct?

A. Yes.

Q. This experience study for the PFRS related to the five-year period from 2000 -- July 1, 2002, to June 30, 2007, correct?

A. Can I ask what you're looking at?

Q. Sure, I'm happy to refer you to page 1, and it's a January 29, 2009, letter from you and from Norman Jones to the board of trustees for the PFRS --

A. Okay.

Q. -- and about halfway down it says the investigation covered the five-year period from July 1, 2002, to June 30, 2007.

And is that consistent with your understanding of when the -- this experience study

JUDITH KERMANS

Q. That study, the signing actuaries were Mr. Jones and Mr. Alberts, correct?

A. Mr. Alberts and Mr. Jones were the individuals that signed that study, yes.

Q. But you had some involvement in working on the GRS experience study, as well?

A. Yes.

Q. Do you recall what that involvement was?

A. It would be in a peer review role and really not much different than my role here, to be honest, so ...

Q. So in a general sense, reviewing analyses done by the team of analysts, and looking at probabilities, and just generally the same things you laid out regarding the PFRS?

A. Correct.

Q. Okay. In the first paragraph -- I'm sorry, strike that.

In the fourth paragraph, the bolded paragraph, it says: We believe that the actuarial assumptions recommended in this experience study report represent, individually and in the aggregate, reasonable estimates of future experience of the Police and Fire Retirement System of the City of Detroit.

JUDITH KERMANS

covers?

A. Yes.

Q. What is your role in performing this -- or what was your role in performing this experience study?

A. The role would typically be that I would review analyses done by analysts regarding experience that happened during the five-year period and to work with the other signing actuary in developing probabilities of events going forward for the next five-year period.

Q. Norman Jones was the other signing actuary here?

A. Yes.

Q. Have you worked with Mr. Jones on other experience studies besides this one?

A. Yes.

Q. And in your experience with Mr. Jones, have you found him to be competent in his role as a signing actuary?

A. Yes.

Q. How would you characterize the work that Mr. Jones does?

A. It's excellent.

Q. Did Mr. Jones work with you on the GRS experience study, as well?

A. I worked on the GRS experience study, but I was not one of the signing actuaries on that study.

JUDITH KERMANS

You stand by that statement, correct?

A. I stand by that statement when -- in 2009, yes.

Q. Subsequent to 2009, have you come to believe that certain actuarial assumptions in this experience study needed to be changed?

A. We have not completed our analysis of the subsequent experience study.

Q. I understand that the next experience study is ongoing. However, I also understand that you do an informal review with each valuation in which you look at the actuarial assumptions used for that valuation, correct?

A. Correct.

Q. And you have not found, since issuing this report January 29 of 2009, that any of the actuarial assumptions in this experience study that are used in the valuation reports that you do for PFRS or GRS need to be changed, correct?

MS. GREEN: Asked and answered.

A. We are still in the midst of the next experience study. It's a different process than what's done annually.

BY MR. HOWELL:

Q. I understand that, and apologies if this is asked and

<p style="text-align: right;">Page 117</p> <p>1 JUDITH KERMANS</p> <p>2 answered. I just want to make clear, you have not in</p> <p>3 the year-over-year actuarial valuations that you've</p> <p>4 done since January 29, 2009, including, for instance,</p> <p>5 the June 30, 2013, valuation, you've not seen</p> <p>6 actuarial assumptions that are included in this</p> <p>7 experience study that needed to be changed for use in</p> <p>8 one of the valuation reports, correct?</p> <p>9 A. Correct.</p> <p>10 Q. Now, on page A1 of this report, in the first bullet it</p> <p>11 says: A spread for funding purposes between three and</p> <p>12 four percent, with the wage inflation assumption</p> <p>13 between 4.8 percent and 3.5 percent, resulting in</p> <p>14 overall investment return assumption of between 7.5</p> <p>15 percent and 7.8 percent.</p> <p>16 Do you see that?</p> <p>17 A. Yes.</p> <p>18 Q. And that is the recommended actuarial assumption</p> <p>19 regarding the investment return assumption that</p> <p>20 resulted from this experience study, correct?</p> <p>21 A. There are two numbers there that are investment return</p> <p>22 assumptions. So I can't answer the question that</p> <p>23 you're asking.</p> <p>24 Q. Fair enough. There's a 7.5 percent investment return</p> <p>25 assumption and a 7.8 investment return assumption</p>	<p style="text-align: right;">Page 119</p> <p>1 JUDITH KERMANS</p> <p>2 the following pages.</p> <p>3 And, in fact, this experience study</p> <p>4 reflects certain recommendations by Gabriel Roeder for</p> <p>5 changes of actuarial assumptions for the PFRS,</p> <p>6 correct?</p> <p>7 A. Correct.</p> <p>8 Q. And can you describe the process for me of how -- not</p> <p>9 specifically, but generally a recommendation from GRS</p> <p>10 would go to a system and then how a determination</p> <p>11 would be made whether to adopt or not adopt that</p> <p>12 recommendation?</p> <p>13 A. It would depend on the recommendation.</p> <p>14 Q. So let's talk about an investment return assumption</p> <p>15 recommendation.</p> <p>16 A. As part of this process, we would provide an analysis</p> <p>17 that included a range of results that we felt were</p> <p>18 reasonable, and then the board of trustees would</p> <p>19 select from those, from those alternates.</p> <p>20 Q. So you would only put forward investment return</p> <p>21 assumptions that you believed to be reasonable, and</p> <p>22 then after discussion with the board, they could</p> <p>23 choose from that menu of reasonable assumptions, and</p> <p>24 you would know that that was okay with you because</p> <p>25 you'd already said these are a reasonable set of</p>
<p style="text-align: right;">Page 118</p> <p>1 JUDITH KERMANS</p> <p>2 there, correct?</p> <p>3 A. Correct.</p> <p>4 Q. And there's a statement that the investment return</p> <p>5 assumption is between 7.5 percent and 7.8 percent. Do</p> <p>6 you see that?</p> <p>7 A. Yes.</p> <p>8 Q. So would it be fair to say that the 7.5 percent to 7.8</p> <p>9 percent reflected the recommended actuarial</p> <p>10 assumption -- that the recommended actuarial</p> <p>11 assumption should be between those two numbers</p> <p>12 following this experience study?</p> <p>13 MS. GREEN: Object to form.</p> <p>14 MR. BULLOCK: Object to form.</p> <p>15 BY MR. HOWELL:</p> <p>16 Q. You can answer if you understood the question.</p> <p>17 A. No.</p> <p>18 Q. Well, maybe I can ask it in an easier way. If we look</p> <p>19 at page A2, go towards the bottom, the short paragraph</p> <p>20 about three from the bottom, it starts, "We are</p> <p>21 recommending." Are you there with me?</p> <p>22 A. Yes.</p> <p>23 Q. It says: We are recommending certain changes and</p> <p>24 assumptions. The various assumption changes and their</p> <p>25 impact on the required contribution are described on</p>	<p style="text-align: right;">Page 120</p> <p>1 JUDITH KERMANS</p> <p>2 assumptions?</p> <p>3 A. Correct.</p> <p>4 Q. So looking at page A9, this is -- at the top of this</p> <p>5 page it says Economic Assumptions. Do you see that?</p> <p>6 A. Yes.</p> <p>7 Q. And then below it says: In summary, our recommended</p> <p>8 range of economic assumptions for the system -- system</p> <p>9 are as follows.</p> <p>10 And the current investment return and wage</p> <p>11 inflation assumptions are listed, and then several</p> <p>12 alternates are also included, correct?</p> <p>13 A. Correct.</p> <p>14 Q. And that's just an example of what you just described,</p> <p>15 which is you may provide a few different reasonable</p> <p>16 options to the system and then they can choose?</p> <p>17 A. Correct.</p> <p>18 Q. So in January of 2009, you provided three</p> <p>19 alternatives, and of those three alternatives, there</p> <p>20 were two investment return assumptions recommended by</p> <p>21 Gabriel Roeder Smith to the PFRS, correct?</p> <p>22 A. I see three alternates.</p> <p>23 Q. I agree that there are three alternates, but of the</p> <p>24 three alternates, there are only two different</p> <p>25 investment return assumptions, correct?</p>

30 (Pages 117 to 120)

<p style="text-align: right;">Page 121</p> <p>1 JUDITH KERMANS</p> <p>2 A. Correct.</p> <p>3 Q. So Gabriel Roeder Smith recommended in January of 2009</p> <p>4 that the PFRS could use an investment return</p> <p>5 assumption of 7.5 percent or of 7.8 percent, correct?</p> <p>6 A. If you read the last paragraph from the bottom, it</p> <p>7 says: We would recommend considering a three basis</p> <p>8 point reduction in the assumed rate of return to 7.5</p> <p>9 percent.</p> <p>10 Q. So one of the recommendations was to consider going</p> <p>11 from 7.8 percent, which had been the investment return</p> <p>12 rate, to 7.5 percent, correct?</p> <p>13 A. Correct.</p> <p>14 Q. Now, you also say that continuation of a 7.8 percent</p> <p>15 investment return assumption would be reasonable in</p> <p>16 your view at that time, correct?</p> <p>17 A. Correct.</p> <p>18 Q. However, you also provide a recommendation that it</p> <p>19 would be worth considering going down to 7.5 percent?</p> <p>20 A. Correct.</p> <p>21 Q. Now, ultimately, after providing this menu of options</p> <p>22 to the PFRS board, PFRS did in fact adjust their</p> <p>23 return assumption from 7.8 percent to 7.5 percent in</p> <p>24 2009, correct?</p> <p>25 A. Correct.</p>	<p style="text-align: right;">Page 123</p> <p>1 JUDITH KERMANS</p> <p>2 seniority portion.</p> <p>3 Part of the analysis is on page A11, and</p> <p>4 then the remaining part is on page C1.</p> <p>5 Q. And can you describe for me -- let's start with page</p> <p>6 A11. Can you describe for me the methodology that</p> <p>7 Gabriel Roeder Smith used, including page A11, to</p> <p>8 arrive at a recommended inflation assumption?</p> <p>9 A. What typically happens is we start with an inflation</p> <p>10 rate, and we use a building-block method to determine</p> <p>11 all of the other assumptions, including the wage</p> <p>12 inflation and the assumed rate of return.</p> <p>13 This page just outlines some of the</p> <p>14 historical data that was used as part of the</p> <p>15 decision-making process and shows what types of yields</p> <p>16 and national average earnings have indicated over the</p> <p>17 last 50-some years.</p> <p>18 Q. So, in your view, one of the helpful data points in</p> <p>19 arriving at an inflation rate assumption would be</p> <p>20 historical rates of inflation, right?</p> <p>21 A. Correct.</p> <p>22 Q. And here you look at 58 years of history of price</p> <p>23 inflation and other data points to help arrive at an</p> <p>24 inflation assumption recommendation, correct?</p> <p>25 A. Correct.</p>
<p style="text-align: right;">Page 122</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Now, later in 2011 the PFRS again adjusted its</p> <p>3 investment return assumption from 8 -- from 7.5</p> <p>4 percent to 8 percent, correct?</p> <p>5 A. Correct.</p> <p>6 Q. Do you recall whether Gabriel Roeder Smith was</p> <p>7 involved in discussions around that adjustment from</p> <p>8 7.5 percent to 8 percent?</p> <p>9 A. I don't recall.</p> <p>10 Q. And -- strike that.</p> <p>11 On page A9 there's also a couple of</p> <p>12 different wage inflation recommendations, depending on</p> <p>13 which alternate to use, either 3.5 percent or 4</p> <p>14 percent for wage inflation, correct?</p> <p>15 A. Or 4.8.</p> <p>16 Q. The current is 4.8, and then the suggested alternates</p> <p>17 are 4 percent or 3.5 percent, correct?</p> <p>18 A. Correct.</p> <p>19 Q. Do you know what Gabriel Roeder Smith did to arrive at</p> <p>20 the wage inflation numbers that were presented as</p> <p>21 alternates to the PFRS?</p> <p>22 A. I believe that's detailed in the report, as well. If</p> <p>23 you'll give me a moment, I'll try to find it.</p> <p>24 Q. Sure.</p> <p>25 A. It's on page C1 -- actually, that's a merit and</p>	<p style="text-align: right;">Page 124</p> <p>1 JUDITH KERMANS</p> <p>2 Q. If we turn back to page A7, there's some description</p> <p>3 of the process used to arrive at the inflation</p> <p>4 assumption, is that correct?</p> <p>5 A. Yes.</p> <p>6 Q. And subsequent to the issuance of this experience</p> <p>7 study, setting aside the fact that I know you have not</p> <p>8 completed the next experience study, have you ever</p> <p>9 made any adjustments to the inflation rate assumption</p> <p>10 when performing an annual actuarial valuation for PFRS</p> <p>11 and GRS, different than what's in this experience</p> <p>12 study?</p> <p>13 MS. GREEN: Object to form.</p> <p>14 A. Could you repeat the question?</p> <p>15 BY MR. HOWELL:</p> <p>16 Q. Sure. So again, I'll just preface this by saying I</p> <p>17 know that the next experience study is not completed.</p> <p>18 A. Okay.</p> <p>19 Q. Subsequent to the issuance of this experience study,</p> <p>20 in preparing any of the annual actuarial valuations</p> <p>21 that you've done for PFRS and GRS, have you used any</p> <p>22 inflation assumptions that are different than what is</p> <p>23 laid out in the experience study?</p> <p>24 A. In the 2013 valuation and at least one or two before,</p> <p>25 we had a zero percent wage inflation assumption for</p>

31 (Pages 121 to 124)

<p style="text-align: right;">Page 125</p> <p>1 JUDITH KERMANS</p> <p>2 one or two years, which was not discussed in this</p> <p>3 valuation -- in this experience study.</p> <p>4 Q. Other than the use of a zero percent wage inflation</p> <p>5 for a period of one or two years in some of the annual</p> <p>6 actuarial valuations, are there any other changes that</p> <p>7 you have made in issuing an annual actuarial valuation</p> <p>8 for the PFRS or GRS to the inflation assumptions</p> <p>9 listed in this experience study?</p> <p>10 A. Not that I'm aware.</p> <p>11 Q. Okay. Do you recall why zero percent wage inflation</p> <p>12 was used for a period of one or two years in certain</p> <p>13 of the annual actuarial valuations?</p> <p>14 A. Our understanding was that there was a pay freeze for</p> <p>15 those individuals.</p> <p>16 Q. So that assumption changed due to a particular set of</p> <p>17 circumstances in which there was a, a specific reason</p> <p>18 not to include the inflation assumption in the</p> <p>19 experience study?</p> <p>20 A. Could you rephrase the question, please?</p> <p>21 Q. I think I've asked and answered it. We'll move on.</p> <p>22 A. Okay.</p> <p>23 Q. I'll ask you to keep that Kermans Exhibit 4 in front</p> <p>24 of you, but I'm going to hand you what we'll mark as</p> <p>25 Kermans Exhibit 5.</p>	<p style="text-align: right;">Page 127</p> <p>1 JUDITH KERMANS</p> <p>2 assumption of 7.9 percent, correct?</p> <p>3 A. Correct.</p> <p>4 Q. And it's your understanding that the GRS has used a</p> <p>5 7.9 percent investment return assumption for more than</p> <p>6 a decade, correct?</p> <p>7 A. Correct.</p> <p>8 Q. Now, the alternates that you provide here both have a</p> <p>9 7.5 percent investment return assumption, correct?</p> <p>10 A. Yes.</p> <p>11 Q. And in the text below the menu of options, the first</p> <p>12 sentence says: Funding value rates of return for the</p> <p>13 ten-year period ending June 30, 2007, averaged 7.8</p> <p>14 percent for the plan in total, close to the currently</p> <p>15 assumed 7.9 percent.</p> <p>16 Do you see that?</p> <p>17 A. Yes.</p> <p>18 Q. And you understood that that was accurate at least at</p> <p>19 the time that you reviewed this document, correct?</p> <p>20 A. Yes.</p> <p>21 Q. You go on to say -- or Gabriel Roeder goes on to say:</p> <p>22 However, due to the board's gainsharing program, the</p> <p>23 funding value rates of return credited to the pension</p> <p>24 funds have averaged only 5.9 percent.</p> <p>25 Do you see that?</p>
<p style="text-align: right;">Page 126</p> <p>1 JUDITH KERMANS</p> <p>2 MARKED FOR IDENTIFICATION:</p> <p>3 DEPOSITION EXHIBIT 5</p> <p>4 1:10 p.m.</p> <p>5 MR. HOWELL: For identification purposes,</p> <p>6 Kermans Exhibit 5 doesn't have a Bates range but is</p> <p>7 the City of Detroit General Retirement System</p> <p>8 Five-Year Experience Study for the period July 1,</p> <p>9 2002, through June 30, 2007, issued February 17, 2009.</p> <p>10 BY MR. HOWELL:</p> <p>11 Q. Ms. Kermans, do you recognize this document?</p> <p>12 A. Yes.</p> <p>13 Q. And this is just the five-year experience study for</p> <p>14 the GRS that's analogous to the one we were just</p> <p>15 looking at for the PFRS, right?</p> <p>16 A. Correct.</p> <p>17 Q. Now here if you'll turn with me to page A10, again,</p> <p>18 the title of the page is Economic Assumptions, and</p> <p>19 again, there are certain recommended ranges of</p> <p>20 economic assumptions for the GRS, where you provide</p> <p>21 the current and two alternates at the top of the page.</p> <p>22 Do you see that?</p> <p>23 A. Yes.</p> <p>24 Q. And at the time that this report was issued in</p> <p>25 February of 2009, the GRS had an investment return of,</p>	<p style="text-align: right;">Page 128</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. Do you have an understanding of what is meant by the</p> <p>4 board's gainsharing program?</p> <p>5 A. Yes.</p> <p>6 Q. What is the board's gainsharing program?</p> <p>7 A. One of the benefit provisions that the plan has is an</p> <p>8 annuity savings fund, and interest is credited to the</p> <p>9 annuity savings fund, and that is a type of</p> <p>10 gainsharing program.</p> <p>11 Q. You go on to say: A continuation of a 7.9 percent</p> <p>12 investment return assumption would be reasonable if,</p> <p>13 going forward, investment returns are credited</p> <p>14 proportionately to all reserve funds.</p> <p>15 Do you see that?</p> <p>16 A. Yes.</p> <p>17 Q. Can you explain to me the difference between what is</p> <p>18 described in that sentence and what was done under the</p> <p>19 gainsharing or ASF program?</p> <p>20 A. I believe that's illustrated in the funding value</p> <p>21 rates of return shown below.</p> <p>22 Q. And can you explain to me how I would see from the</p> <p>23 funding value rates of return chart the difference</p> <p>24 between a proportional credit of investment returns to</p> <p>25 all reserve funds versus the gainsharing program?</p>

32 (Pages 125 to 128)

<p style="text-align: right;">Page 129</p> <p>1 JUDITH KERMANS</p> <p>2 A. The pension funds have averaged a 5.9 percent rate of</p> <p>3 return, but the funds in total have averaged 7.8</p> <p>4 percent.</p> <p>5 Q. And what is represented in addition to pension funds</p> <p>6 in the fund total?</p> <p>7 A. The annuity savings fund.</p> <p>8 Q. And so without the gainsharing but instead a</p> <p>9 proportional credit, the fund total would be the</p> <p>10 column to look at rather than the pension fund column?</p> <p>11 A. Correct.</p> <p>12 Q. Gabriel Roeder goes on to say: If the current</p> <p>13 gainsharing practice is to be continued, we would then</p> <p>14 recommend a reduction in the investment return</p> <p>15 assumption to -- excuse me, at least to 7.5 percent</p> <p>16 and eventually to an even lower rate.</p> <p>17 Do you see that?</p> <p>18 A. Yes.</p> <p>19 Q. Do you have an understanding as to whether the</p> <p>20 gainsharing practice continued subsequent to this</p> <p>21 report, and if so for how long?</p> <p>22 A. My understanding is that it continued until 2011.</p> <p>23 Q. It is also your understanding that the GRS did not</p> <p>24 adopt a change from 7.9 percent for a target</p> <p>25 investment return to 7.5 percent, correct?</p>	<p style="text-align: right;">Page 131</p> <p>1 JUDITH KERMANS</p> <p>2 Q. And nor have you, whether, you know -- from an</p> <p>3 experience study or otherwise, you haven't provided</p> <p>4 any additional recommendation for a change to the</p> <p>5 investment return assumption for the GRS, correct?</p> <p>6 A. We would not provide an official recommendation until</p> <p>7 such time as we completed the experience study.</p> <p>8 Q. So you haven't done it, right?</p> <p>9 A. We would not do it until we completed the experience</p> <p>10 study.</p> <p>11 Q. I understand your point. I just want to make sure</p> <p>12 that you're not going to tell me that you have done</p> <p>13 it. So the answer is that you haven't provided an</p> <p>14 official recommendation to the GRS to change their</p> <p>15 investment return assumptions since 2009's experience</p> <p>16 study, correct?</p> <p>17 A. I don't recall having done that.</p> <p>18 Q. Do you recall making any informal recommendations, not</p> <p>19 official, but unofficial recommendations to change the</p> <p>20 investment return assumption for GRS subsequent to</p> <p>21 February of 2009?</p> <p>22 A. I don't recall. It is possible.</p> <p>23 Q. In preparation for your deposition, did you ask anyone</p> <p>24 else at Gabriel Roeder Smith whether there had been</p> <p>25 any informal or unofficial recommendations to the GRS</p>
<p style="text-align: right;">Page 130</p> <p>1 JUDITH KERMANS</p> <p>2 A. Correct.</p> <p>3 Q. Did you nonetheless still view the 7.9 percent target</p> <p>4 investment return as a reasonable target -- as a</p> <p>5 reasonable investment return assumption while</p> <p>6 performing the actuarial valuations for GRS in 2009</p> <p>7 and 2010?</p> <p>8 A. Yes.</p> <p>9 Q. And you did that because you still believed that it</p> <p>10 was more likely than not that the GRS would return</p> <p>11 investment returns of 7.9 percent or higher, correct?</p> <p>12 A. Correct.</p> <p>13 Q. Since February of 2009, has Gabriel Roeder issued any</p> <p>14 recommendations to the GRS for the GRS to change its</p> <p>15 investment return assumption?</p> <p>16 A. There would be no official recommendations until such</p> <p>17 time as the experience study's completed.</p> <p>18 Q. Well, if you while performing an actuarial valuation</p> <p>19 believed the investment return assumption to be</p> <p>20 unreasonable, you would have to disclose that, right?</p> <p>21 A. Yes.</p> <p>22 Q. And you haven't done that between 2009 and today,</p> <p>23 correct?</p> <p>24 A. We have not declared the investment return assumption</p> <p>25 used in the valuation as being unreasonable.</p>	<p style="text-align: right;">Page 132</p> <p>1 JUDITH KERMANS</p> <p>2 to change the investment return assumption since 2009?</p> <p>3 A. I did not ask that question.</p> <p>4 Q. And, to your knowledge, as you're sitting here now,</p> <p>5 you can't refer me to any informal or unofficial</p> <p>6 recommendation by Gabriel Roeder to GRS to change its</p> <p>7 investment return assumption since 2009, correct?</p> <p>8 A. Correct.</p> <p>9 Q. Sitting here today, you cannot point me to any</p> <p>10 official or unofficial recommendation from Gabriel</p> <p>11 Roeder Smith to the PFRS to change its investment</p> <p>12 policy assumption, return assumption since 2009,</p> <p>13 correct?</p> <p>14 A. Correct.</p> <p>15 Q. Turning back to, I believe it was Kermans Exhibit 4,</p> <p>16 the PFRS experience study, if we look at A2 and those</p> <p>17 six bullets that you talked about, which were the</p> <p>18 different areas of assumptions that were kind of</p> <p>19 analyzed in this experience study?</p> <p>20 A. Correct.</p> <p>21 Q. I don't want to belabor the point by walking through</p> <p>22 each of them, although I'm happy to do so if we need</p> <p>23 to, but just the same question for these different</p> <p>24 assumptions, the retirement assumptions, the salary</p> <p>25 increase assumptions, mortality assumptions.</p>

33 (Pages 129 to 132)

<p style="text-align: right;">Page 133</p> <p>1 JUDITH KERMANS</p> <p>2 In looking at these, are there any changes</p> <p>3 to any of these assumptions, any of these categories</p> <p>4 of assumptions, that you can recall making for any of</p> <p>5 the annual actuarial valuations for PFRS or GRS</p> <p>6 between the time of this experience study and today,</p> <p>7 other than the change for the first two years of</p> <p>8 inflation that you already, that you already</p> <p>9 mentioned?</p> <p>10 A. I cannot recall any other changes.</p> <p>11 Q. I don't want to misstate your prior testimony, but I</p> <p>12 believe that you said subject to a privilege around</p> <p>13 mediation discussions, that prior to preparing for</p> <p>14 this deposition you had not reviewed any documents</p> <p>15 prepared by Milliman in which Milliman provided</p> <p>16 comments related to the actuarial work done by Gabriel</p> <p>17 Roeder Smith for the GRS and PFRS, correct?</p> <p>18 A. I believe that we were not asked to do any formal</p> <p>19 reviews of any Milliman work.</p> <p>20 Q. When did you first become aware that Milliman was</p> <p>21 working with the City of Detroit with regard to</p> <p>22 actuarial work associated with review of the actuarial</p> <p>23 work for the PFRS and GRS?</p> <p>24 A. I believe that would be about a year ago.</p> <p>25 Q. Have you ever had any conversations, you know,</p>	<p style="text-align: right;">Page 135</p> <p>1 JUDITH KERMANS</p> <p>2 A. Same answer.</p> <p>3 Q. What about Allen Perry?</p> <p>4 A. I've never met Allen Perry.</p> <p>5 Q. What about Suzanne Taranto?</p> <p>6 A. I've never met Suzanne Taranto.</p> <p>7 Q. I'm going hand you what I will mark as Kermans</p> <p>8 Exhibit 6.</p> <p>9 MARKED FOR IDENTIFICATION:</p> <p>10 DEPOSITION EXHIBIT 6</p> <p>11 1:26 p.m.</p> <p>12 MR. HOWELL: For identification purposes,</p> <p>13 Kermans Exhibit 6 has the Bates range POA00260505</p> <p>14 through 522.</p> <p>15 BY MR. HOWELL:</p> <p>16 Q. Ms. Kermans, do you recognize this document?</p> <p>17 A. I don't believe that I do.</p> <p>18 Q. At the -- this document is a July 6th, 2012, letter</p> <p>19 from Glenn Bowen and Suzanne Taranto of Milliman to</p> <p>20 the chief operating officer of the City of Detroit,</p> <p>21 and in the first paragraph it says: As you have</p> <p>22 requested, Milliman has begun an analysis of the City</p> <p>23 of Detroit's actuarial liabilities in support of the</p> <p>24 City and Financial Advisory Board ("FAB"). This</p> <p>25 letter summarizes Milliman's assessment of the current</p>
<p style="text-align: right;">Page 134</p> <p>1 JUDITH KERMANS</p> <p>2 separate and apart from any mediation privilege here,</p> <p>3 any conversations with Milliman about the work that</p> <p>4 Gabriel Roeder Smith has done for the PFRS or GRS?</p> <p>5 A. I have not.</p> <p>6 Q. Anyone from Milliman ever reach out to anyone at</p> <p>7 Gabriel Roeder Smith to discuss any of the actuarial</p> <p>8 assumptions or actuarial valuations done by Gabriel</p> <p>9 Roeder Smith for PFRS or GRS?</p> <p>10 A. I believe that there was some discussion</p> <p>11 pre-bankruptcy with someone at our office and the</p> <p>12 Milliman company.</p> <p>13 Q. And do you have any understanding of the subject of</p> <p>14 those discussions?</p> <p>15 A. I believe they were trying to either do a retiree</p> <p>16 health valuation or do some kind of an analysis for</p> <p>17 the City.</p> <p>18 Q. Do you know what kind of analysis?</p> <p>19 A. As I mentioned, it's either a health valuation or some</p> <p>20 other kind of pension analysis.</p> <p>21 Q. You don't know the specific type of pension analysis?</p> <p>22 A. No.</p> <p>23 Q. Do you know Glenn Bowen at Milliman?</p> <p>24 A. Outside of mediation, no.</p> <p>25 Q. What about Kathryn Warren?</p>	<p style="text-align: right;">Page 136</p> <p>1 JUDITH KERMANS</p> <p>2 actuarial and financial status of the pension and</p> <p>3 post-retirement health programs.</p> <p>4 Do you see that?</p> <p>5 A. Yes.</p> <p>6 Q. Now, in July of 2012, Gabriel Roeder Smith had</p> <p>7 conducted assessments annually for years of the</p> <p>8 current actuarial and financial status of the GRS and</p> <p>9 PFRS pension programs, correct?</p> <p>10 A. Could you repeat the question?</p> <p>11 Q. Certainly. In July of 2012, Gabriel Roeder Smith had</p> <p>12 at that point in time been assessing the current</p> <p>13 actuarial and financial status of the GRS and PFRS</p> <p>14 pension systems in yearly valuations for decades,</p> <p>15 right?</p> <p>16 A. Correct.</p> <p>17 Q. Do you know whether the City reached out to Gabriel</p> <p>18 Roeder Smith in 2012 to perform assessments of the</p> <p>19 current actuarial and financial status of the PFRS and</p> <p>20 GRS pension systems?</p> <p>21 A. Please repeat the question?</p> <p>22 Q. Do you know if the City reached out to Gabriel Roeder</p> <p>23 Smith in 2012 to assess the current actuarial and</p> <p>24 financial status of the PFRS and GRS pension systems?</p> <p>25 A. I don't recall that happening.</p>

34 (Pages 133 to 136)

<p style="text-align: right;">Page 137</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Do you believe that Gabriel Roeder Smith would have</p> <p>3 been in a better position than Milliman in July of</p> <p>4 2012 to provide an assessment of the current actuarial</p> <p>5 and financial status of the GRS and PFRS pension</p> <p>6 systems?</p> <p>7 MS. GREEN: Object to form.</p> <p>8 A. I believe we did assess the financial position of both</p> <p>9 pension plans in our actuarial valuation.</p> <p>10 BY MR. HOWELL:</p> <p>11 Q. I understand that. My question is a little different.</p> <p>12 It's do you believe that Gabriel Roeder Smith was in a</p> <p>13 better position in July of 2012 to assess the current</p> <p>14 actuarial and financial status of the GRS and PFRS</p> <p>15 pensions than was Milliman?</p> <p>16 A. You're asking me if the analysis done by Milliman was</p> <p>17 better done by Milliman than by Gabriel Roeder Smith,</p> <p>18 and I cannot answer that question because I don't know</p> <p>19 what this analysis was about.</p> <p>20 Q. Apologies. That is not the question I was trying to</p> <p>21 ask. What I'm trying to ask is whether you believe</p> <p>22 that in July of 2012, Milliman or Gabriel Roeder Smith</p> <p>23 would have been better situated to assess the current</p> <p>24 actuarial and financial status of the PFRS and GRS</p> <p>25 pension systems.</p>	<p style="text-align: right;">Page 139</p> <p>1 JUDITH KERMANS</p> <p>2 to remeasure assets and liabilities using unbiased</p> <p>3 assumptions.</p> <p>4 Do you have an opinion as to whether</p> <p>5 Gabriel Roeder Smith had used biased assumptions in</p> <p>6 its June 30, 2010, actuarial valuation reports --</p> <p>7 A. Yes.</p> <p>8 Q. -- for the GRS and PFRS?</p> <p>9 A. Yes, I have an opinion.</p> <p>10 Q. What is your opinion?</p> <p>11 A. Our assumptions were unbiased.</p> <p>12 Q. Now, if you look on the second page, ending in Bates</p> <p>13 number 506, it says: The following table provides our</p> <p>14 very rough preliminary guesstimates ("VRPG") of the</p> <p>15 potential actual state of the systems.</p> <p>16 Do you see that?</p> <p>17 A. Yes.</p> <p>18 Q. And you wouldn't use, just generally, very rough</p> <p>19 preliminary guesstimates in putting together an annual</p> <p>20 actuarial valuation, correct?</p> <p>21 A. It is not an actuarially-defined term.</p> <p>22 Q. Safe to say that the material that is in your annual</p> <p>23 actuarial valuations are not very rough preliminary</p> <p>24 guesstimates, in your opinion, right?</p> <p>25 A. You are correct.</p>
<p style="text-align: right;">Page 138</p> <p>1 JUDITH KERMANS</p> <p>2 A. It is common for other actuaries to audit the work of</p> <p>3 each other, and Gabriel Roeder Smith would not have</p> <p>4 been in a position to audit their own work. So the</p> <p>5 question that you asked cannot really be answered the</p> <p>6 way you're expecting.</p> <p>7 Q. So it's your testimony that it can't be answered as to</p> <p>8 whether Milliman or Gabriel Roeder Smith was in a</p> <p>9 better position to assess the current actuarial and</p> <p>10 financial status of the GRS and PFRS pension systems</p> <p>11 in July of 2012?</p> <p>12 A. I'm saying it depends on the project.</p> <p>13 Q. The next paragraph says: Based on a preliminary</p> <p>14 review of the June 30, 2010, actuarial valuation</p> <p>15 reports for the General Retirement System for the City</p> <p>16 of Detroit and the Police and Fire Retirement System</p> <p>17 of the City of Detroit, we have the following high</p> <p>18 level recommendations.</p> <p>19 Do you see that?</p> <p>20 A. Yes.</p> <p>21 Q. Are you aware of any June 30, 2010, actuarial</p> <p>22 valuations performed for the GRS and PFRS other than</p> <p>23 those done by Gabriel Roeder Smith?</p> <p>24 A. No.</p> <p>25 Q. They go on to say that one of the recommendations is</p>	<p style="text-align: right;">Page 140</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Okay. Now, if you see, there's a chart right below</p> <p>3 that and there are a series of items listed. Do you</p> <p>4 see that?</p> <p>5 A. Yes.</p> <p>6 Q. And below is a, there's kind of a section over the</p> <p>7 next couple of pages that relate to several of these</p> <p>8 items in the chart, and I just want to walk through a</p> <p>9 few of those with you, but I want to make sure I give</p> <p>10 you an opportunity to review these sections before I</p> <p>11 do, but we're going to hop around a little bit in this</p> <p>12 document so that we don't have to go through the whole</p> <p>13 thing, okay?</p> <p>14 MS. GREEN: Rush, if I could interject, she</p> <p>15 has not seen this document, and you want her to read</p> <p>16 it? Can we take a ten-minute break, anyway, because</p> <p>17 we've been going a little over an hour, just to take a</p> <p>18 restroom break?</p> <p>19 MR. HOWELL: Yeah, absolutely, we can take</p> <p>20 a break.</p> <p>21 VIDEO TECHNICIAN: The time is 1:32 p.m.</p> <p>22 We are now off the record.</p> <p>23 (Off the record at 1:32 p.m.)</p> <p>24 (Back on the record at 1:51 p.m.)</p> <p>25 VIDEO TECHNICIAN: The time is 1:51 p.m.</p>

35 (Pages 137 to 140)

<p style="text-align: right;">Page 141</p> <p>1 JUDITH KERMANS</p> <p>2 We are now on the record.</p> <p>3 BY MR. HOWELL:</p> <p>4 Q. Ms. Kermans, we were discussing Kermans Exhibit 6,</p> <p>5 which is the July 6, 2012, Milliman letter to the</p> <p>6 chief operating officer of Detroit, and we were</p> <p>7 looking at a chart that's labeled the VRPG of</p> <p>8 Potential Actual State of Systems as of June 30, 2010.</p> <p>9 Do you see that?</p> <p>10 A. Yes.</p> <p>11 Q. And I don't want to take too much time going through</p> <p>12 this, I understand you haven't reviewed the document,</p> <p>13 but I just want to ask you to look at a couple</p> <p>14 sections that relate to two of these items that are</p> <p>15 listed in the chart, because you can see in the chart</p> <p>16 that with each item, either assets go down or</p> <p>17 liability goes up, leading to a reduction in</p> <p>18 Milliman's VRPG of the funded status of the GRS and</p> <p>19 PFRS. Do you see that?</p> <p>20 A. Yes.</p> <p>21 Q. So directly below the chart there's something that</p> <p>22 says optimism of demographic assumptions, and it was</p> <p>23 your testimony earlier that demographic assumptions</p> <p>24 that you use in performing your actuarial valuations</p> <p>25 are in the view of Gabriel Roeder Smith neither</p>	<p style="text-align: right;">Page 143</p> <p>1 JUDITH KERMANS</p> <p>2 for future mortality improvements.</p> <p>3 When we do the experience study, chances</p> <p>4 are we will update the assumptions to include a margin</p> <p>5 for future improvements.</p> <p>6 Q. So you can't say for sure, one way or another, what</p> <p>7 you're going to have in the updated experience study,</p> <p>8 correct?</p> <p>9 A. Correct.</p> <p>10 Q. And in 2013 you wouldn't have used a set of</p> <p>11 assumptions, mortality assumptions that you didn't</p> <p>12 think were reasonable, correct?</p> <p>13 A. Correct.</p> <p>14 Q. So you believe that the 2013 assumptions that you used</p> <p>15 did not explicitly provide for -- projection of</p> <p>16 mortality improvements were reasonable at the time you</p> <p>17 used them, correct?</p> <p>18 A. They were reasonable for the purpose of that</p> <p>19 measurement.</p> <p>20 Q. And the purpose of that measurement was to determine</p> <p>21 contribution rate necessary for those -- PFRS and GRS,</p> <p>22 correct?</p> <p>23 A. Correct.</p> <p>24 Q. Do you see in item E it says adjust out pension</p> <p>25 obligation certificates in the VRPG chart in the</p>
<p style="text-align: right;">Page 142</p> <p>1 JUDITH KERMANS</p> <p>2 optimistic nor pessimistic, but are best estimate</p> <p>3 assumptions, correct?</p> <p>4 A. They are the best estimate assumptions until the</p> <p>5 experience study is completed.</p> <p>6 Q. And it says: For both DGRS and PFRS, the valuation</p> <p>7 reports indicate the use of a mortality assumption</p> <p>8 that does not explicitly provide for the projection of</p> <p>9 mortality improvements.</p> <p>10 Do you see that?</p> <p>11 A. Yes.</p> <p>12 Q. Do you know whether the valuation reports and the</p> <p>13 mortality assumptions in the Gabriel Roeder Smith</p> <p>14 valuation reports provide for projection of mortality</p> <p>15 improvements?</p> <p>16 A. The 2013 reports for both police and fire and the DGRS</p> <p>17 do not provide for expected mortality improvements.</p> <p>18 Q. That's also true for the 2010 report, to your</p> <p>19 knowledge?</p> <p>20 A. I don't recall.</p> <p>21 Q. Why not include explicit provisions for projection of</p> <p>22 mortality improvements in the 2013 reports?</p> <p>23 A. It's the same mortality table that we were using from</p> <p>24 the 2009 study. It's just that we've now determined</p> <p>25 that we can no longer say that it provides a margin</p>	<p style="text-align: right;">Page 144</p> <p>1 JUDITH KERMANS</p> <p>2 center of page 2 of this July 6th letter?</p> <p>3 A. Yes.</p> <p>4 Q. And I can turn your attention to page 4, which lists</p> <p>5 the bottom section as impact on the City of past</p> <p>6 pension obligation certificates -- and you're familiar</p> <p>7 with what the pension obligation certificates are,</p> <p>8 correct?</p> <p>9 A. Yes.</p> <p>10 Q. And you'll see in the middle of that section it says:</p> <p>11 In item E of the table above, we have adjusted out the</p> <p>12 pension obligation certificate value to present the</p> <p>13 big picture view.</p> <p>14 Do you see that?</p> <p>15 A. Yes.</p> <p>16 Q. Now, in the actuarial valuations performed by Gabriel</p> <p>17 Roeder Smith, you do not remove the pension obligation</p> <p>18 certificates from the assets of the DGRS and -- or the</p> <p>19 GRS and PFRS, correct?</p> <p>20 A. The assets as reported include the pension obligation</p> <p>21 certificate money.</p> <p>22 Q. And why do you include them rather than adjust them</p> <p>23 out when you are performing the valuations for the GRS</p> <p>24 and PFRS?</p> <p>25 A. It is our understanding that they are included in the</p>

36 (Pages 141 to 144)

<p style="text-align: right;">Page 145</p> <p>1 JUDITH KERMANS</p> <p>2 trust fund money.</p> <p>3 Q. And so in the opinion of Gabriel Roeder Smith, it's</p> <p>4 correct to assume that those are included in the</p> <p>5 assets?</p> <p>6 A. They're included in the assets when they're reported</p> <p>7 to us.</p> <p>8 Q. And you have no reason to doubt that that's correct,</p> <p>9 right?</p> <p>10 MR. BULLOCK: Object to form.</p> <p>11 MS. GREEN: Same objection.</p> <p>12 BY MR. HOWELL:</p> <p>13 Q. You can answer if you understood the question.</p> <p>14 A. Sounds like a legal issue rather than an actuarial</p> <p>15 one.</p> <p>16 Q. Well, I'm not asking you a legal issue, I'm asking</p> <p>17 you -- you have to make a determination as an actuary</p> <p>18 whether or not to accept data that's provided to you,</p> <p>19 correct?</p> <p>20 A. We are not -- under no obligation to audit data or to</p> <p>21 assume that it's deceitful in any way.</p> <p>22 Q. If you thought that there was over a billion dollars</p> <p>23 incorrectly included in assets, based on your review,</p> <p>24 is that the sort of thing you would maybe bring up to</p> <p>25 a system?</p>	<p style="text-align: right;">Page 147</p> <p>1 JUDITH KERMANS</p> <p>2 liabilities and costs, causing current taxpayers to be</p> <p>3 overcharged and future taxpayers to be undercharged?</p> <p>4 MS. GREEN: Object to form and foundation.</p> <p>5 A. Could you repeat the question, please?</p> <p>6 BY MR. HOWELL:</p> <p>7 Q. Do you agree with the statement that an investment</p> <p>8 return assumption that is set too low will overstate</p> <p>9 liabilities and costs, causing current taxpayers to be</p> <p>10 overcharged and future taxpayers to be undercharged?</p> <p>11 MS. GREEN: Same objection, but go ahead</p> <p>12 and answer.</p> <p>13 A. Can you tell me what you're looking at, please?</p> <p>14 BY MR. HOWELL:</p> <p>15 Q. I'm just asking you --</p> <p>16 A. Questions?</p> <p>17 Q. -- if you agree with that statement.</p> <p>18 A. I think it's more complicated than that.</p> <p>19 Q. And how so?</p> <p>20 A. I think there are other parties that would be affected</p> <p>21 by that decision than just the taxpayers, but ...</p> <p>22 Q. Setting aside other parties for a moment, just</p> <p>23 focusing on the taxpayers, the current and future</p> <p>24 taxpayers, would you agree that if you set an</p> <p>25 investment return assumption too low, you could</p>
<p style="text-align: right;">Page 146</p> <p>1 JUDITH KERMANS</p> <p>2 A. Yes.</p> <p>3 Q. And you didn't, you didn't think that was the case</p> <p>4 here, right?</p> <p>5 MR. BULLOCK: Object to form.</p> <p>6 BY MR. HOWELL:</p> <p>7 Q. You can answer.</p> <p>8 A. We had no reason to bring it up.</p> <p>9 Q. Ms. Kermans, you would agree that it's important to</p> <p>10 choose a reasonable investment return assumption when</p> <p>11 preparing an actuarial valuation of a crude actuarial</p> <p>12 liability, correct?</p> <p>13 A. We don't choose the valuation assumption. I would</p> <p>14 agree that it's important to use a reasonable assumed</p> <p>15 rate of return when completing the actuarial</p> <p>16 valuation.</p> <p>17 Q. Thanks for that clarification. And, in fact, if you</p> <p>18 believed that the investment return assumption that</p> <p>19 you were using was not reasonable, you would have to</p> <p>20 either not go forward with the analysis or disclose</p> <p>21 that you believed that investment return assumption</p> <p>22 was unreasonable, correct?</p> <p>23 A. Correct.</p> <p>24 Q. Would you agree with the statement that an investment</p> <p>25 return assumption that is set too low will overstate</p>	<p style="text-align: right;">Page 148</p> <p>1 JUDITH KERMANS</p> <p>2 overstate liabilities and costs, hurting the current</p> <p>3 taxpayers and benefitting the future taxpayers,</p> <p>4 whereas if you set it, an investment return assumption</p> <p>5 too high, you could hurt the future taxpayers at</p> <p>6 the -- to the benefit of current taxpayers?</p> <p>7 MS. GREEN: I'm going to object again or</p> <p>8 reiterate my prior objection. That just seems to be</p> <p>9 sort of an expert witness type of question, a</p> <p>10 hypothetical, and outside of the scope of the 30(b)(6)</p> <p>11 notice under which Ms. Kermans is being presented as a</p> <p>12 witness.</p> <p>13 BY MR. HOWELL:</p> <p>14 Q. You can answer.</p> <p>15 A. I will say that if you set your assumed rate of return</p> <p>16 too low, you can increase liabilities and create a</p> <p>17 contribution rate that is too high for the intended</p> <p>18 measurement.</p> <p>19 Q. And your belief is that could, that could affect</p> <p>20 multiple parties, one of which could be taxpayers?</p> <p>21 MR. BULLOCK: Object to form, Counsel. I</p> <p>22 think, in fairness, because you've moved outside of</p> <p>23 her role as a lay witness, she needs some context for</p> <p>24 your question.</p> <p>25 BY MR. HOWELL:</p>

37 (Pages 145 to 148)

<p style="text-align: right;">Page 149</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Well, did you understand the question?</p> <p>3 A. I heard the question.</p> <p>4 Q. Okay. I mean, I'm not asking you for an expert</p> <p>5 opinion here. You perform actuarial valuations,</p> <p>6 right? We've discussed that at length.</p> <p>7 A. Yeah.</p> <p>8 Q. And one of the things you have to do is get</p> <p>9 comfortable with investment return assumptions,</p> <p>10 because if they're not reasonable, you can't use them,</p> <p>11 right?</p> <p>12 A. Correct.</p> <p>13 Q. So do you in that position, including the work that</p> <p>14 you've done for PFRS and GRS, do you have an</p> <p>15 understanding as to why an investment return</p> <p>16 assumption needs to be reasonable?</p> <p>17 A. Yes.</p> <p>18 Q. And explain for me why it is that you view it</p> <p>19 important that an investment return assumption be</p> <p>20 reasonable.</p> <p>21 A. A number of reasons, but it depends on the measurement</p> <p>22 and for the actuarial valuation so that the</p> <p>23 contribution rate is calculated properly.</p> <p>24 Q. What would some other reasons be, in addition to the</p> <p>25 one that you just listed?</p>	<p style="text-align: right;">Page 151</p> <p>1 JUDITH KERMANS</p> <p>2 systems?</p> <p>3 A. No, not a review.</p> <p>4 Q. Do you look at the asset allocations for those</p> <p>5 systems? And I'm not asking if you, you know, provide</p> <p>6 recommendations or do an analysis of them, but do you</p> <p>7 at least observe what they are?</p> <p>8 A. We use the asset allocations provided to us as part of</p> <p>9 the valuation process for the DGRS. There is no</p> <p>10 allocation in the PFRS.</p> <p>11 Q. So you're not aware of the asset allocation of the</p> <p>12 PFRS?</p> <p>13 A. PFRS has one contribution rate and one group</p> <p>14 contribution rate calculated.</p> <p>15 Q. I may be asking -- I should be more clear. I'm</p> <p>16 talking about the allocation of investments across</p> <p>17 different asset classes for the GRS and PFRS.</p> <p>18 A. Okay.</p> <p>19 Q. That information is provided to Gabriel Roeder Smith,</p> <p>20 as well, correct?</p> <p>21 A. We receive assets by class, yes.</p> <p>22 Q. And is that something that you look at, as well, as</p> <p>23 part of your actuarial analysis?</p> <p>24 A. We would look at that as part of the experience study</p> <p>25 process.</p>
<p style="text-align: right;">Page 150</p> <p>1 JUDITH KERMANS</p> <p>2 A. So the generations of citizens are treated fairly.</p> <p>3 Q. What do you mean by that?</p> <p>4 A. Taxpayers.</p> <p>5 Q. And what do you mean when you say so the generations</p> <p>6 of taxpayers would be treated fairly?</p> <p>7 MS. GREEN: Object to form and foundation</p> <p>8 again.</p> <p>9 A. I think some of that information is listed in our</p> <p>10 report.</p> <p>11 BY MR. HOWELL:</p> <p>12 Q. Fair enough. You're welcome to point me to where in</p> <p>13 your report you think that that's listed, but it would</p> <p>14 be helpful for me if you could explain why it is that</p> <p>15 you think it's important to set a reasonable</p> <p>16 investment return assumption so that generations of</p> <p>17 citizens would be treated fairly.</p> <p>18 A. So that, in line with the goals and objectives of the</p> <p>19 retirement system, that generations of citizens would</p> <p>20 have equitable contribution rates, and, as you</p> <p>21 mentioned, that we wouldn't charge too much to this</p> <p>22 generation and less to the other.</p> <p>23 Q. As part of the work that you do in putting together</p> <p>24 annual actuarial valuations for GRS and PFRS, do you</p> <p>25 undertake a review of the asset allocations for those</p>	<p style="text-align: right;">Page 152</p> <p>1 JUDITH KERMANS</p> <p>2 Q. And that could be helpful in determining the</p> <p>3 appropriate investment return assumption, correct?</p> <p>4 A. Correct.</p> <p>5 Q. In fact, an investment return assumption is largely</p> <p>6 tied to a particular asset allocation, correct?</p> <p>7 MS. GREEN: Object to foundation.</p> <p>8 A. Could you repeat the question?</p> <p>9 BY MR. HOWELL:</p> <p>10 Q. An investment return assumption is largely a function</p> <p>11 of the asset allocation for the system in question,</p> <p>12 correct?</p> <p>13 A. I would say that the asset allocation of a system's</p> <p>14 money is one of the decision-making points in</p> <p>15 selecting the assumed rate of return.</p> <p>16 Q. In general, if you have a more aggressive asset</p> <p>17 allocation, you would generally expect higher returns</p> <p>18 but also more risk, correct?</p> <p>19 MS. GREEN: Object to foundation again.</p> <p>20 A. I'm not an investment adviser. What you're saying</p> <p>21 makes common sense.</p> <p>22 BY MR. HOWELL:</p> <p>23 Q. Well, if a, if a system wants to adjust -- make a</p> <p>24 significant adjustment to its investment return</p> <p>25 assumption, that new return assumption has to be tied</p>

38 (Pages 149 to 152)

<p style="text-align: right;">Page 153</p> <p>1 JUDITH KERMANS</p> <p>2 to some sort of asset allocation, correct?</p> <p>3 MS. GREEN: Object to form.</p> <p>4 A. I would say that the asset allocation would help you</p> <p>5 decide what the assumed rate of return should be.</p> <p>6 BY MR. HOWELL:</p> <p>7 Q. And other things being equal, if I have the same asset</p> <p>8 allocation, I can't just say I'm going to have a</p> <p>9 significantly different investment return assumption,</p> <p>10 correct?</p> <p>11 MS. GREEN: Objection.</p> <p>12 A. I can't answer that question in the form that you've</p> <p>13 asked it.</p> <p>14 BY MR. HOWELL:</p> <p>15 Q. Well, you review investment return assumptions as part</p> <p>16 of your job, correct?</p> <p>17 A. As part of the experience study process, we will</p> <p>18 evaluate and make recommendations for a reasonable</p> <p>19 range of investment return assumptions for the</p> <p>20 five-year period going forward.</p> <p>21 Q. And a plan -- a system, rather, can't just come to you</p> <p>22 and say, "We're going to set our investment return</p> <p>23 assumption five hundred basis points higher and we're</p> <p>24 not going to make any changes to our asset</p> <p>25 allocation," right? That wouldn't make any sense,</p>	<p style="text-align: right;">Page 155</p> <p>1 JUDITH KERMANS</p> <p>2 discount rate that you use in calculating a UAAL is</p> <p>3 typically the same as the investment return assumption</p> <p>4 for that plan, correct?</p> <p>5 A. The discount rate used to calculate the present value</p> <p>6 of future benefits is generally the same in public</p> <p>7 sector plans as the assumed rate of return on assets.</p> <p>8 Q. And when you say "generally the same," have you ever</p> <p>9 seen an example where it wasn't?</p> <p>10 A. I have not.</p> <p>11 Q. Is there anything in either of the 2013 annual</p> <p>12 actuarial valuations, either the one for the PFRS or</p> <p>13 the GRS, that you would like to change as you sit here</p> <p>14 today?</p> <p>15 A. Could you be more specific?</p> <p>16 Q. Just anything that comes to mind that you think you</p> <p>17 would want to change.</p> <p>18 A. No.</p> <p>19 Q. I don't think I have anything further. Thanks for</p> <p>20 your patience today. I believe we may have --</p> <p>21 MR. HOWELL: Does anyone on the phone,</p> <p>22 before we move on, have any questions they're going to</p> <p>23 ask today?</p> <p>24 MR. PLOTKO: I don't. This is Greg Plotko.</p> <p>25 MR. HOWELL: Okay. I think we just have</p>
<p style="text-align: right;">Page 154</p> <p>1 JUDITH KERMANS</p> <p>2 would it?</p> <p>3 A. We have plans that we work with that have prescribed</p> <p>4 assumptions that are set by the State. So there is a</p> <p>5 situation where they would tell us what the assumed</p> <p>6 rate of return would be.</p> <p>7 Q. And in that circumstance, you would still have to</p> <p>8 justify the reasonableness of that assumption by</p> <p>9 making sure that it's something you believe would</p> <p>10 occur more often than not, correct?</p> <p>11 A. Not exactly.</p> <p>12 Q. In a situation where you have a prescribed return</p> <p>13 assumption, in order for that return assumption to be</p> <p>14 reasonable, you would still need it to -- you would</p> <p>15 still need to believe that it would be reached more</p> <p>16 often than not, correct?</p> <p>17 MS. GREEN: Object to the form of the</p> <p>18 question.</p> <p>19 A. We would determine what a reasonable range of results</p> <p>20 would be, and what we would generally do is we would</p> <p>21 choose a number within that range, primarily</p> <p>22 recommending something that's in the 50th percentile</p> <p>23 of likely occurrences.</p> <p>24 BY MR. HOWELL:</p> <p>25 Q. When you're performing actuarial valuations, the</p>	<p style="text-align: right;">Page 156</p> <p>1 JUDITH KERMANS</p> <p>2 one other set, then.</p> <p>3 Would you like to take a break or ...</p> <p>4 MR. BHARGAVA: We can go off the record for</p> <p>5 a couple minutes while we transition.</p> <p>6 VIDEO TECHNICIAN: The time is 2:12 p.m.</p> <p>7 We are now off the record.</p> <p>8 (Off the record at 2:12 p.m.)</p> <p>9 (Back on the record at 2:21 p.m.)</p> <p>10 VIDEO TECHNICIAN: The time is 2:21 p.m.</p> <p>11 We are now on the record.</p> <p>12 EXAMINATION</p> <p>13 BY MR. BHARGAVA:</p> <p>14 Q. Good afternoon, Ms. Kermans.</p> <p>15 A. Hi.</p> <p>16 Q. As I said before, my name is Mike Bhargava, and I'm</p> <p>17 representing Assured Guaranty Municipal Corporation.</p> <p>18 A. Okay.</p> <p>19 Q. I just have a few hopefully very quick questions for</p> <p>20 you. Have you, have you had the opportunity to review</p> <p>21 any of the various iterations of the City's plan of</p> <p>22 adjustment?</p> <p>23 A. I have not done a formal review of the plan of</p> <p>24 adjustment.</p> <p>25 Q. Okay. Have you seen parts of the plan?</p>

39 (Pages 153 to 156)

<p style="text-align: right;">Page 157</p> <p>1 JUDITH KERMANS</p> <p>2 A. I have briefly read parts that would pertain to the</p> <p>3 pension system.</p> <p>4 Q. Okay. So are you generally familiar with what the</p> <p>5 plan proposes in terms of the pension systems?</p> <p>6 A. I am somewhat familiar with the cuts that are being</p> <p>7 proposed.</p> <p>8 Q. Are you, are you aware that the plan allocates a</p> <p>9 portion of the UAAL that it attributes specifically to</p> <p>10 DWSD?</p> <p>11 A. I have not been asked to perform an analysis --</p> <p>12 Gabriel Roeder has not been asked to perform an</p> <p>13 analysis of the numbers that appear in the plan of</p> <p>14 adjustment to even determine whether or not they're,</p> <p>15 in fact, an unfunded accrued liability.</p> <p>16 Q. Okay. So are you aware -- but you're aware that there</p> <p>17 is a portion of the UAAL that is attributed to DWSD,</p> <p>18 is that right?</p> <p>19 A. I am aware that a certain portion of the claim is</p> <p>20 attributed to the DWSD.</p> <p>21 Q. Okay. And are you aware that this amount is amortized</p> <p>22 over nine years?</p> <p>23 A. Yes.</p> <p>24 Q. Okay. Was the decision to amortize the UAAL over nine</p> <p>25 years, was that the result of any actuarial</p>	<p style="text-align: right;">Page 159</p> <p>1 JUDITH KERMANS</p> <p>2 A. Outside of the mediation process, we were not asked to</p> <p>3 perform any analysis of any of the assumptions or</p> <p>4 numbers in the plan of adjustment.</p> <p>5 Q. Okay. Was Gabriel Roeder asked to analyze in any way</p> <p>6 the -- well, let me back up.</p> <p>7 Are you aware that there -- the plan</p> <p>8 proposes that DWSD contribute money to the UAAL in a</p> <p>9 way that other divisions of the City are not asked to</p> <p>10 contribute?</p> <p>11 A. I'm aware that the DWSD is making some type of a</p> <p>12 contribution based on the nine-year amortization</p> <p>13 period -- actually, that's not right.</p> <p>14 I'm aware that DWSD is being asked to make</p> <p>15 contributions during the nine-year period between now</p> <p>16 and the 2023 year.</p> <p>17 Q. Okay. And are you aware that other City divisions are</p> <p>18 not being asked to make a similar contribution?</p> <p>19 A. That's my understanding.</p> <p>20 Q. Okay. Did Gabriel Roeder perform any actuarial</p> <p>21 analysis in support of the plan's deferential</p> <p>22 treatment of DWSD versus other City divisions?</p> <p>23 A. We did not perform any analysis of anything regarding</p> <p>24 the plan of adjustment outside of the mediation</p> <p>25 process.</p>
<p style="text-align: right;">Page 158</p> <p>1 JUDITH KERMANS</p> <p>2 recommendation by Gabriel Roeder?</p> <p>3 MR. BULLOCK: Objection to the extent that</p> <p>4 it calls for a violation of the mediation</p> <p>5 confidentiality provision.</p> <p>6 BY MR. BHARGAVA:</p> <p>7 Q. Okay, and let me -- again, as the previous counsel</p> <p>8 did, I want to make it clear that I'm not asking for</p> <p>9 anything that happened during mediation.</p> <p>10 A. We made no recommendations regarding the plan of</p> <p>11 adjustment outside of mediation.</p> <p>12 Q. Okay. And again, outside of mediation, did Gabriel</p> <p>13 Roeder perform any actuarial analysis in support of</p> <p>14 the nine-year amortization period?</p> <p>15 A. We did not.</p> <p>16 Q. Okay. Were you asked to review the nine-year</p> <p>17 amortization period before it was included in the plan</p> <p>18 of adjustment?</p> <p>19 A. Outside of mediation, we weren't asked to do any</p> <p>20 analysis regarding the plan of adjustment.</p> <p>21 Q. Okay, and is -- do these answers also hold in terms of</p> <p>22 the proposed 6.75 percent investment return</p> <p>23 assumption? In other words, were you -- was Gabriel</p> <p>24 Roeder asked to perform any analysis with regard to</p> <p>25 the 6.75 percent investment return assumption?</p>	<p style="text-align: right;">Page 160</p> <p>1 JUDITH KERMANS</p> <p>2 Q. Okay. And, similarly, you didn't provide any</p> <p>3 recommendations regarding the differential treatment</p> <p>4 of different City divisions, is that right?</p> <p>5 A. Outside of mediation, that is correct.</p> <p>6 Q. Okay, that's all I have.</p> <p>7 MR. BHARGAVA: Anyone else on the phone</p> <p>8 have any questions?</p> <p>9 All right, I think we are concluded.</p> <p>10 VIDEO TECHNICIAN: The time is 2:27 p.m.</p> <p>11 We are now off the record.</p> <p>12 (The deposition was concluded at 2:27 p.m.</p> <p>13 Signature of the witness was not requested by</p> <p>14 counsel for the respective parties hereto.)</p> <p>15</p> <p>16</p> <p>17</p> <p>18</p> <p>19</p> <p>20</p> <p>21</p> <p>22</p> <p>23</p> <p>24</p> <p>25</p>

JUDITH KERMANS
 CERTIFICATE OF NOTARY
 STATE OF MICHIGAN)
) SS
 COUNTY OF KENT)

I, REBECCA L. RUSSO, certify that this
 deposition was taken before me on the date
 hereinbefore set forth; that the foregoing questions
 and answers were recorded by me stenographically and
 reduced to computer transcription; that this is a
 true, full and correct transcript of my stenographic
 notes so taken; and that I am not related to, nor of
 counsel to, either party nor interested in the event
 of this cause.

REBECCA L. RUSSO, CSR-2759
 Notary Public,
 Kent County, Michigan.
 My Commission expires: 6-3-2017

4 * * * *

5 CYNTHIA THOMAS,

6 having first been duly sworn, was examined and

7 testified as follows:

8 MR. DeCHIARA: Good morning, Ms. Thomas.

9 THE WITNESS: Good morning.

10 MR. DeCHIARA: My name is Peter DeChiara
11 from the law firm of Cohen, Weiss & Simon, LLP.

12 We represent the UAW International Union in the
13 Chapter 9 bankruptcy of the City of Detroit.

14 Have you ever had your deposition taken?

15 THE WITNESS: Yes.

16 MR. DeCHIARA: Okay. So let me go over a
17 few ground rules, although you're probably familiar
18 with them.

19 We have a court reporter here who is
20 going to take down my questions and your answers to
21 my questions. So that the court reporter can get a
22 clear transcript, I would ask that you answer my
23 questions with words as opposed to gestures or
24 shrugs.

25 Also, please wait until I finish my

1 question and I'll also wait to finish -- wait until
2 you finish your answers. If I cut you off
3 inadvertently, let me know and I'll let you finish.

4 If you don't understand my questions or
5 you don't hear my questions, let me know and I'll
6 repeat them or try to clarify them. If you answer
7 a question, I'll assume you heard it and understood
8 it. Is that fair?

9 THE WITNESS: That's fair.

10 MR. DeCHIARA: If you need a break at any
11 time for any reason, just let me know and we can
12 take a break.

13 THE WITNESS: Okay.

14 EXAMINATION

15 BY MR. DeCHIARA:

16 Q. By whom are you employed?

17 A. The Retirement Systems of the City of Detroit.

18 Q. And what's your position there?

19 A. Executive director.

20 Q. And how long have you been the executive
21 director?

22 A. Since August of 2012.

23 Q. Were you employed at the GRS prior to August of
24 2012?

25 A. Yes.

1 Q. And what position did you hold prior to that?

2 A. I was assistant director of the Police & Fire
3 Retirement System of the City of Detroit.

4 Q. And how long did you hold that position?

5 A. Since 2004.

6 MR. GALLAGHER: Peter, just for the sake
7 of clarity, because we've learned of this because
8 of the GRS/Gabriel Roeder acronym, maybe we'll just
9 make sure that when you refer to GRS, you are
10 referring to the General Retirement Systems of the
11 City of Detroit as opposed to Gabriel Roder Smith,
12 right?

13 MR. DeCHIARA: I was unaware of that.
14 Okay.

15 MR. GALLAGHER: Based on the documents,
16 the actuarial reports --

17 MR. DeCHIARA: Yeah, I know.

18 MR. GALLAGHER: -- we may get there, and
19 I just want to make sure that's --

20 MR. DeCHIARA: Thank you for that
21 clarification.

22 So Ms. Thomas, when I refer to the
23 acronym "GRS," I'm referring to the General
24 Retirement Systems of the City of Detroit.

25 THE WITNESS: Okay.

1 BY MR. DeCHIARA:

2 Q. Did you prepare in any way for this deposition?

3 A. Yes.

4 Q. Other than speaking to counsel for the GRS, did
5 you -- well, let me ask you, did you prepare in any
6 way other than speaking to counsel for the GRS?

7 A. I did not.

8 Q. Did you review any documents?

9 A. I did.

10 Q. What documents did you review?

11 A. A few older actuarial statements and audited
12 financials.

13 Q. Anything else that you recall?

14 A. Yeah, maybe a spreadsheet or two, work-type
15 spreadsheet that was prepared in my office by the
16 accounting section.

17 Q. Who do you report to in your position?

18 A. Oh, boy. You ready for this? And then you guys
19 will all feel sorry for me. So I report to the
20 board of trustees on the General Retirement System,
21 I report to the board of trustees on the Police &
22 Fire Retirement System, and then I'm also
23 underneath the finance director and the mayor.
24 That's a lot of bosses.

25 MR. GALLAGHER: Peter, I'm sorry to

1 interrupt again. Forgive me. Maybe this is a good
2 point to clarify that Ms. Thomas is here in a
3 representative capacity based on the 30(b)(6)
4 deposition notice that you issued.

5 MR. DeCHIARA: Yes. Let me put in the
6 amended notice. Let me mark the amended notice.
7 So why don't we mark it as GRS 1.

8 (Marked for identification:
9 GRS Exhibit No. 1.)

10 BY MR. DeCHIARA:

11 Q. Ms. Thomas, I've marked as GRS 1 the amended notice
12 of deposition of the International Union, UAW, to
13 General Retirement System of the City of Detroit.

14 Is it your understanding that you're here
15 testifying today pursuant to this amended notice of
16 deposition?

17 A. It is.

18 Q. Did you review this document?

19 A. I did.

20 Q. Okay. Let me refer you to -- you see that there's
21 a list of -- starting in the middle of the first
22 page, there's a list of topics?

23 A. Yes.

24 Q. Okay. Let me begin with the first one. "The
25 status of the Detroit Library Commission as an

1 entity separate from the City of Detroit."

2 In preparing for today's deposition, did
3 you look into the question of whether -- look into
4 the question of whether the Detroit Library
5 Commission is an entity separate from the City of
6 Detroit? And before you answer, let me just say,
7 I'm not looking for any legal conclusions and I'm
8 also not looking for anything that you might have
9 discussed with counsel.

10 A. No.

11 Q. Okay. Do you have a view or an understanding of
12 whether or not the Detroit library Commission is a
13 separate entity from the City of Detroit?

14 A. I do.

15 Q. And what's your view?

16 A. And my view is, I guess, based on my 26 years
17 working at the Retirement System, just various
18 conversations working as an accountant prior to
19 being in management, but also on a managerial level
20 and working with the boards of trustees, it's -- it
21 was always our belief that the library was -- it
22 was separate, but still with the City.

23 And what I mean by that is they could --
24 they had their own little HR and payroll unit, they
25 could hire their own employees, but the employees

1 were still civil servants and members of the
2 system.

3 And there was a lot of discussion about
4 this because, at times, the Retirement Systems'
5 trustees looked to the library as wanting to have
6 that type of status, being separate, having more
7 authority as far as running the Retirement Systems
8 and having authority over the employees and
9 operations, but still -- still retain that civil
10 servant -- civil servancy for the staff and
11 membership into the system.

12 **Q. I probably should have asked this earlier. What is**
13 **your professional training? Are you an accountant?**

14 A. Yes. Well, that's -- my degree was in accounting.

15 **Q. Okay.**

16 A. I haven't been an accountant in a long time.

17 **Q. Do you have any professional training in any other**
18 **fields other than accounting?**

19 A. Other than training at -- an executive training at
20 Wharton's School of Business, I do not.

21 **Q. So you said that it's your understanding that the**
22 **library has its own human resources department; is**
23 **that correct?**

24 A. Not necessarily human resources department, but a
25 unit that was responsible for human resource

1 activities.

2 Q. So would that be, for example, hiring and firing
3 and promoting functions?

4 A. Yes, yes.

5 Q. So the library does that independently, according
6 to your understanding?

7 A. Yes.

8 Q. And is it your understanding that the library
9 maintains its own payroll function?

10 A. Yes.

11 Q. You testified when you answered my question that
12 there's been lots of discussion about the status of
13 the library over the years?

14 A. Yes.

15 Q. Can you remember any discussions in particular,
16 whether recent or in the past?

17 A. A little bit. I can remember a little bit of a
18 discussion with James Edwards, who works -- used to
19 work in the law department. I believe he's retired
20 now. And Mr. Edwards asked me to check our files
21 for any -- any correspondence or documents we had
22 pertaining to the library. And then also over
23 the -- I think probably in 2013, there was also
24 some up-to-date discussion of the library and the
25 Retirement Systems possibly becoming its own

1 department.

2 Q. Okay. Let me ask you about the discussion you had
3 with Mr. Edwards. He used to work with the law
4 department of the City of Detroit?

5 A. Correct.

6 Q. Okay. And he asked you to check for -- check your
7 files for correspondence pertaining to the library.
8 When was that conversation?

9 A. I believe it was this year, maybe February.

10 Q. Okay. And do you know why -- did he tell you why
11 he made that request of you?

12 A. He did not.

13 Q. Did you have an understanding of why he made that
14 request?

15 A. Ultimately, yes.

16 Q. And what was your understanding?

17 A. That the library -- that the City -- that the City
18 of Detroit and Jones Day team needed to understand
19 the structure of the library and how it became a
20 separate entity.

21 Q. Did you ever speak to Mr. Edwards subsequently
22 about that issue?

23 A. I did not.

24 Q. Did you ever speak to anyone from Jones Day about
25 that issue?

1 A. I didn't.

2 Q. Did you ever speak to anyone else who represented
3 the City or represents the City about that issue,
4 meaning the status of the library?

5 A. No, I didn't.

6 Q. Then you testified that in 2013, there have been
7 discussions about the status of the library.
8 Who -- did you participate in those discussions?

9 A. I did.

10 Q. Who did you have those discussions with?

11 A. Clark Hill attorneys.

12 Q. And Clark Hill is counsel for the GRS?

13 A. For the Police & Fire -- well, as it pertains to
14 bankruptcy, for both systems, but general counsel
15 to the Police & Fire System.

16 Q. Okay. So I'm not going to ask you about those
17 conversations you had with counsel for the GRS.

18 Now you testified to something earlier,
19 something about the -- I'm not quite sure I
20 followed what you were saying, but something about
21 someone was looking for more authority, maybe the
22 library was looking for more authority over the
23 years. Could you explain what that testimony was?

24 A. Actually, what I was referring to was the
25 Retirement Systems were looking for more authority

1 over their staff and operations.

2 **Q. What do you mean by looking for more authority?**

3 A. As I testified to a little earlier, all of the
4 bosses that I have, there's a conflict of interest
5 because the boards of trustees are equally my boss,
6 as the finance director and the mayor, yet they can
7 definitely have different goals and motivations and
8 directives, and that's -- it's a common problem.
9 And so the boards of trustees were looking for a
10 way to resolve that or lessen it, and in doing so,
11 the discussion was they felt that the Library
12 Commission had that authority over their staff and
13 operations.

14 **Q. So am I understanding this correctly, that the**
15 **board of trustees of the GRS was looking to the**
16 **library as a model of an organization that has**
17 **authority over its own workforce in a way that the**
18 **GRS did not?**

19 A. Absolutely.

20 **Q. Do you have any understanding or knowledge of what**
21 **entities select the governing board of the Detroit**
22 **Library Commission?**

23 MR. GALLAGHER: Objection to foundation.

24 THE WITNESS: I do not.

25 MR. DeCHIARA: Okay. I would like to

1 mark as GRS 2 a document that is entitled, "The
2 General Retirement System of the City of Detroit,
3 75th Annual Actuarial Valuation, June 30, 2013."

4 (Marked for identification:
5 GRS Exhibit No. 2.)

6 BY MR. DeCHIARA:

7 Q. Are you familiar with this document?

8 A. I am.

9 Q. Okay. And it says GRS in the upper right-hand
10 corner of the cover page. That's the other GRS in
11 this case, right? That's --

12 A. Correct. Gabriel Roeder Smith & Company.

13 Q. Who is that company?

14 A. That is the actuarial firm for the Retirement
15 Systems.

16 Q. Okay. And they prepared this document that's
17 marked as Exhibit 2?

18 A. They did.

19 Q. Let me ask you to turn to page B-3. Actually, B-4.
20 And this page is entitled, "Active and Retired
21 Members Included in Valuation, Historic
22 Comparisons."

23 And there are two charts on the page. And
24 the top chart has the heading, "Active Members by
25 Valuation Division."

1 What is a valuation division, do you
2 know?

3 A. Yes. Basically it is different departments or
4 divisions that are split that are shown separately
5 for the purposes of this valuation.

6 Q. So does the GRS, in general, keep separate records
7 or accounts for these different valuation
8 divisions?

9 A. When you say accounts, can you explain that?

10 Q. Well, let me ask you because you're more
11 knowledgeable about this than I am, so rather than
12 my trying to guess how it's done, let me ask you.

13 Is there any way in which the GRS
14 maintains separate -- maintains separate records
15 for these different divisions?

16 A. We don't necessarily maintain separate records, but
17 at -- upon request and for various reasons, we
18 may -- we may do some type of accounting to
19 separate by division or we may -- we may instruct
20 our IT section to prepare reports that are
21 separated by these divisions.

22 Q. So would the separation of the divisions just be
23 for purposes of a report or are records maintained
24 separately on an ongoing basis for these different
25 divisions?

1 A. As it pertains to contributions, then you will find
2 historically the information is maintained
3 separately.

4 Q. Okay. So is it correct that in the GRS files --
5 and by "files," I mean computer or paper files --
6 that when contributions come in, they are recorded
7 according to which division they came in for; is
8 that correct?

9 A. That -- that would be a correct statement, yes.

10 Q. Okay. And what about liabilities, does -- in the
11 same way that the GRS maintains records separately
12 for the divisions by -- of contributions, does it
13 also maintain records separately of the valuation
14 divisions for purposes of liability?

15 A. For reporting purposes -- and by that, I mean to
16 prepare reports that would be used by the actuary,
17 and I can't think at this moment if that's
18 something that our auditor looks at as well -- but
19 for contributions, it's we maintain the records
20 separately on an ongoing basis because we're
21 billing the different revenue groups here, the
22 different divisions, we're billing them and then
23 recording the contributions received, whereas with
24 the liabilities, there's really nothing that the
25 Retirement Systems does with that other than report

1 the information as requested.

2 Q. Okay. But the GRS has the capability, if it wants
3 to, to break out by division what liabilities are
4 allocable to the participants in which division?

5 A. We do.

6 Q. You testified a second ago that the GRS bills a
7 separate division, so does that mean, for example,
8 that the GRS sends out bills to the library for
9 contributions?

10 A. We do. We send -- yeah, I guess we call them
11 invoices.

12 Q. How often?

13 A. Generally monthly.

14 Q. So the GRS, on a monthly basis, sends invoices to
15 the library?

16 A. Correct.

17 Q. And do you know, is the invoice sent by hard copy,
18 is it a piece of paper that goes out?

19 A. Usually it's by email.

20 Q. Okay. And to whom is it emailed?

21 A. I don't know the person's name. I'm going to
22 assume it's their accountant, whoever the main
23 accountant is there, and it's the head accountant
24 of the Retirement Systems that notifies the
25 accountant at the library.

1 Q. So there's an email that goes from the accounting
2 department of the GRS directly to the accounting
3 department of the library?

4 A. Yes.

5 Q. I assume you're familiar with the fact that the
6 City of Detroit is in Chapter 9 bankruptcy?

7 A. Yes.

8 Q. Okay. And are you aware that the City has a
9 proposed plan of adjustment?

10 A. Yes.

11 Q. Do you have an understanding of whether the
12 proposed -- let me back up.

13 Do you have an understanding that the
14 City's plan of adjustment proposes certain cuts to
15 pension benefits of GRS participants?

16 A. Yes.

17 Q. Do you have an understanding of whether the
18 proposed cuts to pensions in the City's plan of
19 adjustment would apply to cuts in the pensions of
20 GRS participants who are employees or retirees of
21 the library?

22 MR. GALLAGHER: Objection. Foundation.

23 Peter, you know this is the case, but we
24 are straying a little bit from the four corners of
25 the notice and Nos. 1, 4 and 6, and I just want to

1 make sure we stay there.

2 MR. DeCHIARA: You know, I think it's not
3 expressly covered, but I think it goes to the
4 separateness of the two entities, so I would ask
5 the question.

6 (Whereupon the question was read
7 back by the court reporter.)

8 THE WITNESS: That's my understanding.

9 BY MR. DeCHIARA:

10 **Q. That it would?**

11 A. That they are included.

12 **Q. And what's the basis of your understanding?**

13 MR. GALLAGHER: I think, Ms. Thomas, you
14 don't need to answer to the extent that the basis
15 of your understanding is communications with
16 counsel.

17 MR. DeCHIARA: Correct.

18 THE WITNESS: I don't recall ever -- any
19 request for information to omit library.

20 BY MR. DeCHIARA:

21 **Q. Have you ever spoken to anyone from the City -- and**
22 **by that I mean any City official or any lawyer for**
23 **the City, including anyone at Jones Day -- about**
24 **this issue that I just asked you about, namely,**
25 **whether or not GRS participants who are retirees or**

1 employees of the library would be -- would have
2 their pensions cut under the proposed plan of
3 adjustment?

4 A. No.

5 Q. Have you ever spoken to anyone from the library
6 about that question?

7 A. No.

8 Q. Do you have any knowledge about who may have made
9 the decision that library employees and retirees'
10 pensions would be included in the proposed cuts?

11 MR. GALLAGHER: Objection. Foundation.

12 THE WITNESS: No, I do not.

16 BY MR. DeCHIARA:

17 Q. Ms. Thomas, are you aware of what ASF recoupment
18 is?

19 A. I am.

20 Q. Can you explain briefly, if you're able, what ASF
21 recoupment is?

22 A. I can. ASF is the annuity savings bond and the
23 recoupment is where the City/Jones Day team have
24 come to the conclusion that excess interest was
25 given on the Annuity Savings Fund without proper

1 authority, and as such, they are seeking to recoup
2 the excess interest from a particular timeframe
3 that's included in the POA.

4 Q. And by "POA," you are referring to the plan of
5 adjustment?

6 A. That's correct, the plan of adjustment.

7 Q. And do you have any understanding about whether the
8 ASF recoupment would seek also to include
9 recoupment from GRS participants who are employees
10 or retirees of the library?

11 A. That's my understanding.

19 MR. DeCHIARA: Let me now move on to
20 topic No. 2 in the amended notice, which concerns
21 the number of GRS participants who are library
22 employees or retired -- retirees. And let me begin
23 by showing you what I'll mark as GRS 4.

24 (Marked for identification:

25 GRS Exhibit No. 4.)

1 BY MR. DeCHIARA:

2 Q. And I will represent to you that GRS 4 are
3 interrogatory responses that the GRS provided to
4 the UAW in this case. Have you ever seen GRS 4
5 before?

6 A. I can't be sure.

7 Q. All right. Well, let me turn your attention to
8 response No. 2 -- I'm sorry, response No. 1, the
9 response to interrogatory No. 1, which is at the
10 bottom of page 5 and continues up to the top of
11 page 6. Do you see that?

12 A. I do.

13 Q. Okay. And you see it provides numbers for GRS
14 participants who are active DLC employees, deferred
15 vested former DLC employees and retired former DLC
16 employees. Do you have any knowledge about whether
17 those numbers are accurate or not?

18 A. I'm willing to say that they are pretty accurate.

19 Q. Okay. Do you have any reason to question the
20 accuracy of these numbers?

21 A. No.

22 Q. What's your understanding of deferred vested
23 employee? Do you have an understanding of what
24 that means?

25 A. Deferred vested employee is an employee who has a

1 vested interest in the system and they have --
2 deferred refers to the fact that they are eligible
3 to receive benefits at a point in the future.

4 Q. Okay. So how are they different from active DLC
5 employees?

6 A. Active DLC employees have not reached a point of
7 eligibility.

8 Q. Let me turn your attention back to GRS 2, which is
9 the June 30, 2013 valuation report, and in
10 particular, page B-2 -- I'm sorry, strike that.
11 B-1. Are you at that page?

12 A. I am.

13 Q. Okay. And it says, "Summary of Member Data,
14 June 30, 2013." What's your understanding of --
15 you see there's a chart that has the heading,
16 "Active Members," at the top, and then at the
17 bottom, a chart that says, "Inactive Vested
18 Members." What's your understanding of the
19 difference between those two categories?

20 A. So the inactive vested members are members who are
21 no longer active City employees, but they have a
22 vested interest. They are eligible to receive
23 benefits in a future point.

24 Q. Okay. And among the active members, does that
25 include both employees who have already accrued

1 benefits and those who have not yet accrued
2 benefits?
3 A. In the active members?
4 Q. Yes.
5 A. Those who have accrued and those who have not.
6 Q. And -- go ahead. Finish.
7 A. Those who have accrued benefits to make them
8 eligible and then those who have accrued benefits,
9 but not yet eligible. Is that the question?
10 Q. Right. Let me try to clarify.
11 A. Okay.
12 Q. Does the category, "Active Members," include active
13 employees who have a vested right to pension
14 benefits as well as active employees who do not
15 have a vested right to pension benefits?
16 A. Yes.
17 Q. So going back to the interrogatory response, GRS
18 No. 4, the figure that's -- there's a figure there
19 for active DLC employees. Would that category as
20 well include both active employees who have vested
21 right to pension benefits as well as those who do
22 not?
23 A. Yes.
24 Q. I'm -- if you compare the number for active
25 employees under the interrogatory response to

1 the number for active members for the library on
2 page B-1 of the valuation report, the number is
3 slightly different. The interrogatory response
4 gives the number 328 and the valuation report gives
5 a number as 332. Do you know why -- do you know
6 why there's a difference?

7 A. The 332 is as of June 30, 2013, and between that
8 time and May 1st of 2014, there are less active
9 employees.

10 Q. Let's move on now to topic No. 3, which concerns
11 contributions made to the GRS on -- for library
12 employees and retirees. Am I correct that the GRS
13 has a defined benefit plan as well as a defined
14 contribution plan?

15 A. That's correct.

16 Q. And are all the contributions to the defined
17 benefit plan made by employers as opposed to by
18 employees?

19 MR. GALLAGHER: Objection. Foundation.
20 Form.

21 THE WITNESS: I'm sorry, can you repeat
22 that, please?

23 BY MR. DeCHIARA:

24 Q. Are the contributions that are made to the DB plan
25 exclusively made by employers as opposed to by

1 employees?

2 MR. GALLAGHER: Objection to foundation.

3 THE WITNESS: It's my understanding it's
4 employer contributions.

5 BY MR. DeCHIARA:

6 Q. Let me now turn your attention to response -- the
7 interrogatory response to interrogatory No. 2 on
8 GRS 4, which is at the bottom of page 6 onto the
9 top of page 7. And let me focus your attention on
10 the chart that's at the bottom of page 6, going
11 onto the top of page 7. And do you see there's a
12 column to the chart that says, "Employer
13 Contributions to Defined Benefit"?

14 A. I do.

15 Q. Okay. And these are -- am I correct that these
16 dollar figures given in this chart under that
17 column refer to the employer contributions made on
18 behalf of the GRS participants who are library
19 employees or retirees for the years that are
20 indicated?

21 A. That's my understanding.

22 Q. And the employer that was making those
23 contributions was the library; is that correct?

24 A. Yes, that's my understanding.

25 Q. And these contributions that are referenced on this

1 chart under the column, "Employer Contributions to
2 Defined Benefit," those would be the monthly
3 contributions that the library makes in response to
4 the invoices that you testified about earlier?

5 A. That's correct.

6 Q. How does the GRS determine how much to charge the
7 library in those monthly invoices?

8 A. Every year the actuaries determine a factor that is
9 used and we take the factor for each division and
10 apply it to the last payroll of the fiscal year.

11 Q. What do you mean by a factor?

12 A. A percentage.

13 Q. So is it correct that each year the actuaries for
14 the GRS determine what percentage of payroll needs
15 to be paid as contributions to the defined benefit
16 plan?

17 A. That's a fair statement.

18 Q. Okay. Let me refer you to GRS Exhibit 2, the
19 valuation -- the June 2013 valuation report,
20 page A-1. Do you see that page?

21 A. I do.

22 Q. And the page heading says, "Summary of Computed
23 Employer Contribution Rates, 2014-2015 Fiscal
24 Year." And then it says, "Contributions Expressed
25 as a Percent of Payroll," and then it has separate

1 columns for the various valuation divisions,
2 including one for the library. I just want to try
3 to understand this chart. Are you -- do you have
4 an understanding of this chart?

5 A. I do.

6 Q. Okay. So does the factor that you -- or percentage
7 you were referring to a minute ago appear somewhere
8 in this chart?

9 A. The estimated employer contribution rates.

10 Q. Where --

11 A. Towards the bottom. The third column from the
12 bottom.

13 Q. Oh, estimated -- I see. So for the library, for
14 this period, the 2014-2015 fiscal year, the factor
15 or percentage that the actuaries came up with for
16 the library is 32.98 percent?

17 A. That's correct.

18 Q. Okay. And I notice that that percentage for the
19 library differs from the percentages for the other
20 valuation divisions; is that correct?

21 A. That is correct.

22 Q. Okay. And then under the 32.98 percent, there's a
23 dollar figure for FY 2015 for estimated employer
24 contributions for the library, it says 4.6 dollars.
25 I assume that's -- is that million?

1 A. Millions.

2 Q. Okay. Does the GRS have the payroll amount for the
3 library to be able to come up with the \$4.6 million
4 number?

5 A. Can you clarify, when you -- are you asking if the
6 General Retirement System has the payroll amount?

7 Q. Well, let me back up. So I assume you have a
8 percentage -- strike that.

9 You have a percentage and then you
10 multiply it by something and you get \$4.6 million.
11 So what is the something that you're multiplying it
12 by?

13 A. The final -- the total of the final payroll for the
14 fiscal year.

15 Q. Okay. And that's -- in the case of the library,
16 that's the library's payroll, correct?

17 A. No, it's the total payroll for the City of Detroit
18 for the end of the fiscal year.

19 Q. I see. So -- and where does the GRS get that
20 number from?

21 A. From the City.

22 Q. Okay. And then the GRS then multiplies that number
23 by the various factors for each division to get
24 each division's contribution, is that how it works?

25 A. That's correct.

1 Q. Going towards the top of the chart under -- you see
2 it says, "Normal Cost," in the upper left-hand
3 corner?

4 A. Yes.

5 Q. And then there are -- under that, there's a series
6 of categories such as the first one is, "Age &
7 Service Pensions," and if you look over to under
8 the library column, it says 8.35 percent. What
9 does that number mean, the 8. -- let me back up.

10 What is the Age & Service Pensions?

11 A. That's pensions -- pensions that were -- the
12 eligibility for those pensions were either service
13 or age.

14 Q. Okay. And then what does the 8.35 percent number
15 represent?

16 A. I'm hesitant to answer that question because it's
17 an actuarial question and I don't want to give --
18 if I'm mistaken with my assumptions, then I don't
19 want to give you the wrong answer.

20 Q. I'm not asking you -- you're not an actuary, are
21 you?

22 A. Not at all.

23 Q. Okay. I'm not either, so we're both working at a
24 disadvantage here.

25 I'm not asking you for your professional

1 view -- or professional actuarial view, I'm just
2 asking you in your capacity as the executive
3 director of the GRS whether you have a working
4 knowledge of what this percentage means.

5 A. My understanding is the 8.35 would represent those
6 pensions that were eligible for service and age as
7 a percentage of that total payroll that we
8 discussed earlier.

9 Q. Let me go back to what you testified about earlier.
10 When I asked you -- going back to that
11 32.98 percent, when I asked you earlier what number
12 that number was multiplied against to get to
13 \$4.6 million, you testified that it was the overall
14 payroll for the entire City, and I'm just
15 questioning the accuracy of that by looking at this
16 chart, which indicates for the library that when
17 you multiply that number by 32.98 percent, you get
18 4.6 million, but if, for example, you move to the
19 column to the left, water and sewage, the factor is
20 46.47 percent, which is somewhat higher, a somewhat
21 higher percentage, but if you look at the
22 contribution for FY 2015 for water and sewage, you
23 get 31.3 million, which is a multiple times the
24 library's contribution. So I'm wondering, in light
25 of that, whether it's correct that those

1 percentages are multiplied against the same
2 number.

3 MR. GALLAGHER: Objection to form.

4 THE WITNESS: And also -- so when you
5 first started the question or comment, you stated
6 that I said that multiplying the 32.98 times the
7 total payroll would come to the 4.6, but I don't
8 believe that I said that it would come to the 4.6.
9 I believe I said that this is what was used to
10 determine the contributions owed, and what you --
11 which is a little bit different. Because what they
12 did in this particular book, you see you've got the
13 4.6, and that's for fiscal year 2015, and 3.6 for
14 2014, and when you look on -- see, this is -- if
15 you look on this chart, this is as if every
16 division contributed the way they should have, but
17 if you look on A-2, this is showing the actual,
18 what actually occurred, the contributions actually
19 received. So you see it shows the past due for
20 2013 for a couple of those, but the chart is a
21 little different.

22 BY MR. DeCHIARA:

23 Q. Okay. So let me just focus on the chart on A-1,
24 which is the amounts -- the amounts that were
25 owing; is that correct?

1 A. Yes, but the more accurate chart is A-1 because A-2
2 is -- I mean, A-1 is making an assumption, but A-2
3 is what occurred, the actual, what actually
4 occurred in that year.

5 Q. Okay. That's fine.

6 A. Okay.

7 Q. I'm just trying to understand how the chart on A-1
8 works.

9 A. Okay.

10 Q. And in particular, I'm trying to focus on how
11 you get to the \$4.6 million for the library for FY
12 2015. And I believe you testified, and if I'm
13 getting this wrong, let me know, but I believe you
14 testified that the way you get to that number is
15 you take the 32.98 percent and you multiply it by
16 some number.

17 A. Yes.

18 Q. Okay. So my question is, is that number that you
19 multiply the 32.98 percent the same number -- and
20 let me back up.

21 And I believe you testified that the
22 number that you multiply the 32.98 percent against
23 is the total payroll of the City. Was that your
24 prior testimony?

25 A. Yes.

1 Q. Okay. And so would -- so let's now move to water
2 and sewage. To get to the 31.3 million for water
3 and sewage, estimated employer contribution for
4 FY 2015, do you multiply the 46.47 percent by some
5 number?

6 MR. GALLAGHER: Objection to form.
7 Foundation.

8 THE WITNESS: Okay. No, you -- so it's
9 incorrect. That's incorrect what I told you. If
10 you look at the UAAL above --

11 MR. DeCHIARA: Where is that?

12 THE WITNESS: It's not bolded. Unfunded
13 Actuary Accrued Liabilities.

14 MR. DeCHIARA: Okay.

15 THE WITNESS: Okay. That's what you
16 multiply times -- we use the UAAL for the last
17 payroll of the fiscal year and that gives you the
18 rate that's used for each division.

19 BY MR. DeCHIARA:

20 Q. Okay. But my question is, so you're telling me
21 that the factor, the percentage, is not the
22 32.98 percent?

23 A. No.

24 Q. It's the 8.09 [sic]?

25 A. It's the 18.09.

1 Q. Okay. That's fine, but that doesn't answer my
2 question. What I'm trying to get at is, what
3 number is that multiplied against to get, in the
4 case of the library, to the 4.6 million, or in the
5 case of water and sewage, to get to the
6 31.3 million, and is it your testimony that the
7 number that the factor is multiplied against in the
8 case of the library is the same number that it's
9 multiplied against -- that the water and sewage
10 factor is multiplied against to get the water and
11 sewage figure?

12 MR. GALLAGHER: Objection to foundation.

13 THE WITNESS: Okay. So at this point I'm
14 sitting here very confused. And I apologize. And
15 I don't -- because I don't actually bill the
16 agencies, I haven't done this calculation.

17 MR. DeCHIARA: Okay.

18 THE WITNESS: I am familiar with it and
19 we go through it on an annual basis, so I'm sitting
20 here very confused, but it's -- your question
21 sounds -- it sounds to me as if you're asking me if
22 the percentage that we use for library, if we use
23 the applicable percentage for water and sewage, if
24 we're multiplying it times the same data to reach
25 the rate, and that answer, if I'm understanding you

1 correctly, then the answer is yes.

2 MR. DeCHIARA: Okay. And I'm not trying
3 to confuse you.

4 THE WITNESS: I know you're not.

5 MR. DeCHIARA: I'm just trying to
6 understand the chart.

7 BY MR. DeCHIARA:

8 Q. And the water and sewage percentages under the UAAL
9 is about, you know, just eyeballing it, it's
10 slightly less than twice the library percentage,
11 but the estimated employer contribution for the
12 water and sewage is, again, eyeballing it, looks
13 like it's about six times. So it just seems as a
14 matter of math you can't use the same number to --
15 you can't multiply those percentages against the
16 same number and get those results. Do you see what
17 I'm saying?

18 A. I see absolutely what you're saying. Now I'm not
19 certain, once we do that, if there's some other
20 type of calculation that occurs; I'm not certain
21 about that.

22 Q. Well, could it be that the number is not the --
23 that's used -- that the percentage is multiplied
24 against is not the overall City number in the case
25 of each of these divisions, but rather that

1 **division's own payroll?**

2 A. I doubt it. I've seen the calculation and I also
3 know that by matter of procedure, we actually have
4 to wait until mid July to get the final figure from
5 payroll, and we are waiting for the total payroll,
6 the conclusive of the whole fiscal year, we're
7 waiting for that total payroll figure.

8 Q. **When you get -- when the GRS gets the total payroll**
9 **figure, is it broken out by division?**

10 A. It is not.

11 Q. **Do you know how the library pays the GRS its**
12 **contribution? Does it send a check, does it wire**
13 **the money, do you know how it comes in?**

14 A. It comes in by wire.

15 Q. **Has the library ever not paid the full amount it**
16 **was invoiced by the GRS?**

17 A. The full amount in the fiscal year?

18 Q. **Well, you invoice monthly. Does it pay monthly?**

19 A. Generally, yes.

20 Q. **Sometimes it doesn't?**

21 A. Correct.

22 Q. **When it doesn't, how often does it pay?**

23 A. Generally, we receive some type of payment every
24 month from library. There may be an occasion where
25 they have paid less and then maybe caught up on the

1 next month, or if there's some type of discrepancy
2 or some issue that causes a delay in the
3 communication for the invoicing.

4 Q. Has it ever been by the end of a fiscal year, the
5 library has not paid everything it was invoiced for
6 that fiscal year?

7 A. By July of the next -- in the next month, the
8 library generally has paid completely.

9 Q. The fiscal year ends -- the fiscal year of the GRS
10 ends in what month?

11 A. June.

12 Q. At the end of June?

13 A. Yes.

14 Q. Are you aware of the library ever having not paid
15 everything it was invoiced for the fiscal year by
16 the end of the fiscal year?

17 MR. GALLAGHER: Objection. Foundation.
18 Form.

19 THE WITNESS: Yes, by the end of the
20 fiscal year; however, by July, they will catch up.

21 BY MR. DeCHIARA:

22 Q. So there may have been occasions where, by
23 June 30th, the library had not paid everything it
24 had been invoiced for that fiscal year, but you're
25 not aware of any occasion on which the library, by

1 the following July, had not fully paid for that
2 fiscal year that had just ended; is that correct?

3 A. That is correct.

4 Q. Are you aware of the City ever having used its own
5 monies to pay employer contributions for the
6 library retirees or employees who were participants
7 in the GRS?

8 A. I wouldn't have knowledge of that.

9 Q. You're not aware of any occasion on which that's
10 occurred?

11 A. I wouldn't have knowledge of that. The wire we
12 receive is from the library and we don't know if
13 those are library funds or if they've received the
14 funds from the general fund, we just -- we receive
15 our wire from the library and that's generally all
16 we're concerned with.

17 Q. Have you ever received a wire from the City as
18 payment towards employer contributions for the
19 library employees or retirees?

20 A. No.

21 Q. Let me now refer you back to GRS 4, the
22 interrogatory responses, and in particular the
23 response to No. 2. In addition to the column that
24 says, "Employer Contributions to Defined Benefit,"
25 there's a column to the right of that that says,

1 "Employee Contributions to ASF," and that gives a
2 series of dollar figures for various fiscal years.

3 Is it your understanding that those dollar
4 figures represent the amounts that were contributed
5 to the annuity -- is it Annuity Security Fund, is
6 that what ASF stands for?

7 A. Savings fund.

8 Q. Savings fund. I'm sorry.

9 Is it your understanding that those dollar
10 figures represent contributions to the Annuity
11 Savings Fund for the GRS participants who are
12 library employees and retirees?

13 A. That's my understanding.

14 Q. And the contributions to the ASF are exclusively
15 employee contributions?

16 A. That's correct.

17 Q. And the ASF is a defined contribution plan?

18 A. It is.

19 Q. Okay. Let me now move on to topic No. 4, which
20 concerns the amount of accrued liabilities
21 attributable to the GRS participants who are
22 library employees and retirees.

23 And let me turn your attention to the
24 valuation report that's marked as GRS No. 2,
25 and actually, let me refer you to page B-2 in GRS

1 **No. 2.**

2 **And this page is entitled, "Allocation of**
3 **Assets Used for Valuation Reserve Accounts." And**
4 **there are five separate funds listed on this page.**
5 **Do you have an understanding of what these various**
6 **funds are?**

7 A. For the most part, yes, I do.

8 Q. **Okay. And you've explained to me what the Annuity**
9 **Savings Fund is so you don't need to do that again.**

10 **What's the Annuity Reserve Fund?**

11 A. The reserve fund is -- those are -- that's where
12 employees who have not -- who are not actively
13 participating in the Annuity Savings Fund; however,
14 the dollars are still with the system.

15 You want me to further?

16 Q. **Yeah, if you could. I'm not sure I understood**
17 **that.**

18 A. Okay. So we talked about deferred vested
19 employees --

20 Q. **Right.**

21 A. -- or members.

22 So if someone is vested, they can leave
23 and choose to leave their savings in the fund, and
24 if they're vested, it will continue to earn
25 interest, but because they aren't active, it's

1 placed in the reserve fund.

2 Q. So are the -- are there a separate pool of
3 participants, some of whom are in the ASF and some
4 of whom are in the ARF?

5 A. You can -- it would be acceptable to say it that
6 way, but generally, the Annuity Savings Fund is for
7 active participants, those are what you -- I guess
8 you can refer to as active accounts, active
9 employees contributing and it's earning interest.
10 We -- you know, for accounting purposes, we would
11 show the reserve fund as those annuity dollars for
12 non-active members for whatever reason they left
13 the money in the system.

14 Q. But they are participants in the plan who are no
15 longer contributing?

16 A. Correct.

17 Q. Is that the distinction, whether they're
18 contributing or not?

19 A. Active and contributing.

20 Q. So if you're active and contributing, your money
21 goes into the ASF, and if you're no longer
22 contributing --

23 A. Or active.

24 Q. When you say active, do you mean active employee or
25 active participant in the plan?

1 A. I mean an active employee. Because you can be in
2 the Annuity Savings Fund, you can be active and not
3 contributing; it's optional.

4 Q. I see. So is the distinction that the annuity
5 savings -- the people who have accounts in the
6 Annuity Savings Fund are active employees and those
7 who have accounts in the Annuity Reserve Fund are
8 not active employees?

9 A. That's a better description.

10 Q. So if I'm an active employee, let's say I'm an
11 active library employee and I have contributed to
12 the ASF, can I go somewhere and see the amount of
13 money in my ASF account?

14 A. Yes.

15 Q. How would I do that?

16 A. The Retirement Systems. You can request a summary
17 and we can produce a summary for you, we can
18 produce your -- you know, a history of your
19 contributions.

20 Q. So the GRS maintains individualized accounts for
21 every participant in the ASF?

22 A. The money is combined, it's commingled, but we have
23 the ability to give you an accounting individually.

24 Q. Okay. And is that individual accounting, is that
25 something that exists on an ongoing basis for each

1 participant in the ASF in the GRS files or computer
2 system?

3 A. Yes.

4 Q. When you say the money is combined, do you mean the
5 assets of the GRS?

6 A. Correct.

7 Q. And is -- are the assets of the DB and the DC plan
8 combined?

9 A. Correct.

10 Q. Okay. Well, what is the Pension Accumulation Fund?

11 A. That's the -- that's an accounting term, too.

12 That's the fund that's used to -- the accumulation
13 of pension earned, I guess you could say. Earned
14 pension benefits.

15 Q. Now those numbers appear for each division on
16 page B-2 in parentheses, which I understand to be
17 negative numbers. Are those negative numbers?

18 A. Yes.

19 Q. Can you explain why those are all negative?

20 A. It's -- it's a liability to the system. It's --
21 this is an accumulation of benefits that must be
22 paid.

23 Q. And what's the Pension Reserve Fund?

24 A. So the reserve is -- that's the reserve of funds
25 that will go towards the accumulation of what's

1 earned.

2 Q. So am I reading it correct, this chart correctly,
3 if I conclude that as of June 30, 2013, for the
4 library, for the DB plan, there was approximately
5 \$66 million in assets attributable to the library
6 and roughly \$23 million in liabilities?

7 A. That's a good understanding, yes.

8 Q. All right. And finally, what's the Accrued
9 Liability Fund?

10 A. So the liability fund is for this -- there are a
11 couple different types -- well, that was no longer
12 there -- but there are other liabilities of the
13 fund that the fund must pay out for the different
14 divisions here and that's in addition to -- that's
15 in addition to -- that's taking into consideration
16 in addition to the reserve fund.

17 So actually, for the 23 -- if you look at
18 library for -- there's an accumulation, you can
19 say, of benefits already earned of 23 -- 23, what
20 is it, million there? And so the 66 of the pension
21 reserve and 24 of accrued liability would go
22 towards that 23.

23 So -- and if you kind of go back through
24 and you look at that -- well, I'm getting mixed up
25 in my explanation, but if you look at it as an

1 overall fund, then it kind of lends to where you
2 get your funding status from, if that makes sense.
3 I can't explain it well, I'm sorry.

4 Q. Okay. Is the Accrued Liability Fund, are they
5 additional assets that the GRS has to pay out
6 pension liabilities?

7 A. Yes.

8 Q. Are they -- so they're in addition to the assets
9 that are in the Pension Reserve Fund?

10 A. Yes.

11 Q. All right. Let me turn your attention to the next
12 page, page B-3. And this page is entitled,
13 "Actuarial Accrued Liabilities as of June 30, 2013,
14 by Division."

15 Am I reading this chart correctly that
16 as of June 30, 2013, for the retirees and
17 beneficiaries of the library division, there was
18 approximately \$66 million of liability under the
19 defined benefit plan?

20 A. Repeat that question.

21 Q. Am I reading this chart correctly that for retirees
22 and beneficiaries, for the library division, there
23 was approximately \$66 million in liabilities?

24 A. Yes.

25 Q. And then if you add in the inactive members' future

1 deferred pensions and also active members, you get
2 to a total of approximately \$109 million in defined
3 benefit plan liabilities for the library division?

4 A. That's correct.

5 Q. Okay. And then I'm just a little confused. You
6 testified earlier when we're talking about chart
7 B-2 that when we talked about the Pension Reserve
8 Fund, I believe you testified that the 66,020,254
9 number was a liability -- I'm sorry, you testified
10 that it was assets.

11 A. The reserve fund to pay for the pension
12 accumulation.

13 Q. Right. So the Pension Reserve Fund is a statement
14 of assets available as opposed to liabilities?

15 A. Yes.

16 Q. And the reason -- I'm not trying to trip you up,
17 I'm trying to understand.

18 A. Right.

19 Q. Because I'm looking now at -- if the Pension
20 Reserve Fund, the 66,020,254, is a statement of
21 assets, then why does that number appear on page
22 B-3 at the very top under the library column as
23 part of the liabilities owed to retirees and
24 beneficiaries?

25 MR. GALLAGHER: Objection to form.

1 THE WITNESS: Okay. So with the --
2 with the actuarial statement, you're also looking
3 at a snapshot in time, so you have -- if you're
4 looking at B-3 and you look at retirees and
5 beneficiaries -- so as of this date, we have these
6 liabilities that are owed. We have a reserve that
7 was set up for those liabilities that were owed.
8 So the reserve -- we have these funds in a reserve
9 to pay for this liability. That's the way we --
10 that's the accounting methodology for it.

11 BY MR. DeCHIARA:

12 Q. Okay. So as -- looking on B-3, under the column,
13 "Library," where it says, "Pension Fund Balances,"
14 do you see that line?

15 A. I do.

16 Q. Okay. And then if you look at it across the page,
17 under the library column, the pension fund balance
18 is 66,173. Do you see that?

19 A. I do.

20 Q. Okay. And that's a statement of assets that are
21 available to pay the amount that's set forth on the
22 line above, the 109,192; is that correct?

23 A. Yes.

24 Q. Okay. And then the balance is the unfunded accrued
25 pension liabilities of 43,019, correct?

1 A. Yes.

2 Q. Okay. So does the pension fund balances, the
3 66,173, does that appear anywhere on page B-2?

4 A. Say that again. I'm sorry.

5 Q. Yeah. You see the pension fund balances, it says
6 66,173 on page B-3?

7 A. Uh-hum.

8 Q. Okay. Does that -- is that number, does it appear
9 or is it somehow represented or taken into account
10 on page B-2?

11 A. I'm not sure if it does.

12 Q. Okay. Let me now move to topic 6 on the deposition
13 notice.

14 Do you have any view or understanding
15 about whether or not there could be circumstances
16 where the City of Detroit would be liable for
17 contributions that the library owes to the GRS?

18 MR. GALLAGHER: Objection to foundation
19 to the extent it calls for a legal conclusion, to
20 the extent that it is not based in conversations
21 with counsel.

22 MR. DeCHIARA: Yeah, I'm not asking you
23 to testify about any knowledge you gained through
24 or about any conversations you had with counsel
25 for the GRS, but without limitation, I would ask

1 you that question.

2 Do you want me to repeat it?

3 THE WITNESS: Please.

4 MR. DeCHIARA: Actually, can you read it
5 back?

6 (Whereupon the question was read
7 back by the court reporter.)

8 THE WITNESS: I can't say I'm aware of
9 any.

10 BY MR. DeCHIARA:

11 Q. Well, my question is just, do you have any
12 knowledge or understanding about that issue at all?

13 A. That the City of Detroit would be liable for
14 contributions for library employees?

15 Q. Right. Do you have any knowledge or understanding
16 about that question?

17 A. No, I don't have any knowledge about that.

18 Q. Okay. Did you ever discuss -- apart from with
19 counsel for the GRS, did you ever discuss that
20 issue with anyone?

21 A. No.

22 Q. Did you ever read anything anywhere about that
23 issue?

24 A. I don't think so.

25 Q. Did you ever hear anyone say that the City could be

1 liable for contributions that the library owes
2 because the City is the plan sponsor?

3 MR. GALLAGHER: Objection. Form and
4 foundation.

5 THE WITNESS: I don't think I've heard it
6 referred to that way. If you want my assumption, I
7 don't know if you want that --

8 BY MR. DeCHIARA:

9 Q. Well, I'm not asking you for your assumption, I'm
10 just asking you, have you ever heard anyone say
11 that or anything like that?

12 A. Not specifically in regards to the library, no.

13 Q. Have you heard -- have you heard something like
14 that said not in regards specifically to the
15 library, but in regard to some other entity?

16 A. Yes.

17 MR. GALLAGHER: Objection to the extent
18 that it goes beyond this deposition notice.

19 BY MR. DeCHIARA:

20 Q. Did you ever read in any document anywhere that the
21 City could be liable for contributions of the
22 library because of it, meaning the City, being the
23 plan sponsor? Did you ever read that anywhere?

24 A. I don't think so, not specifying library.

25 Q. Are you aware of any discussions about whether the

1 library would get what's been referred to as a
2 contribution holiday; in other words, a period of
3 time where its obligation to contribute would be
4 suspended?

5 A. No, I'm not aware of that.

6 MR. DeCHIARA: Off the record.

7 (Whereupon a break was taken
8 from 11:39 a.m. to 11:52 a.m.)

9 MR. DeCHIARA: I have no further
10 questions. Thank you, Ms. Thomas.

11 THE WITNESS: Thank you.

12 (Discussion off the record.)

13 MR. DeCHIARA: In light of the objection
14 by counsel for the GRS to GRS Exhibit 3, which was
15 an email from counsel for the City concerning the
16 AFS recoupment, I have agreed that that document
17 should not become part of the record of this
18 deposition. I will ask that any physical copies of
19 that exhibit be returned to me.

20 And also, counsel for the GRS and I will
21 review the rough version of the transcript and
22 redact any testimony bearing on that exhibit. Is
23 that acceptable?

24 MR. GALLAGHER: I think that's consistent
25 with our agreement.

1 MR. DeCHIARA: Any other objections from
2 the attorneys?

3 MR. GALLAGHER: Comments, objections?

4 MR. DeCHIARA: Okay. I think that's --

5 MS. KOVSKY-APAP: Just that I would like
6 to also have an opportunity to review the rough
7 with you.

8 MR. DeCHIARA: Yeah, we can do all of
9 that together and counsel for the City can
10 participate in that process.

11 MS. KOVSKY-APAP: Okay.

12 (Whereupon a break was taken
13 from 11:53 a.m. to 12:13 p.m.)

14 MR. DeCHIARA: I have marked two areas
15 in the rough transcript where the redactions
16 should be to eliminate any testimony references to
17 GRS Exhibit 3, and both counsel for the City and
18 counsel for the GRS have had an opportunity to
19 review the redactions and have agreed that the
20 redacted areas are the appropriate redactions.

21 Is that in agreement?

22 MR. GALLAGHER: Yeah. So it was Exhibit
23 No. 3, GRS Exhibit 3 is stricken, redacted, clawed
24 back?

25 MR. DeCHIARA: Right. The hard copies of

1 GRS Exhibit 3 have now been physically clawed back.

2 And you've had an opportunity to review the
3 redacted portions of the transcript. And do you
4 agree those are the appropriate redactions.

5 MR. GALLAGHER: I do. They begin, at
6 least, with you asking to mark the new document as
7 GRS 3, and a couple of pages later, it stops with
8 me saying "Fair," F-A-I-R, and then they begin
9 again about a page later with you asking, "If you
10 turn GRS 3 over," et cetera, and then end with the
11 next answer, "I do not." Is that correct?

12 MR. DeCHIARA: Those are the correct
13 redactions.

14 MR. GALLAGHER: Great.

15 MR. DeCHIARA: And counsel for the City,
16 are you in concurrence that those are the
17 appropriate redactions?

18 MS. KOVSKY-APAP: I am.

1 THE CLERK: Calling the matter of 13-53846, City of
2 Detroit, Michigan.

3 THE COURT: Good morning. Looks like everyone is
4 here. Go ahead, sir.

5 MR. HEIMAN: Good morning, your Honor. David
6 Heiman, Jones Day, on behalf of the city, and I'm very
7 pleased this morning. Once again, I've said this, but to do
8 something -- to announce a development that we probably had
9 concluded would not happen has happened today. I'm pleased
10 and privileged to report that more than a year of litigation
11 between the city and Syncora has now come to an end, and we
12 have settled our dispute. I want to make it clear that the
13 settlement does not resolve the Class 9 treatment. FGIC will
14 continue to object, as far as we understand it. They can
15 speak for themselves today, but efforts to reach a settlement
16 with them at least thus far have not been successful.
17 However, the settlement, in our minds, a very favorable one
18 to the city, is a very significant step in the city's efforts
19 to move swiftly through this confirmation process and to exit
20 Chapter 9 as soon as possible and to return the city to its
21 citizens.

22 With that in mind and maybe a little bit out of
23 order, I'd like to thank some people here if I may because
24 this is the reflection, manifestation of a huge amount of
25 work by a lot of people, so I'd like to first thank the

1 Court, who has been encouraging of settlement and also
2 provided the time for the parties to actually work together
3 to settle. And as your Honor knows, the mediators have been
4 incredibly instrumental in helping the parties find common
5 ground, the mediators in this particular instance being
6 Judges Rosen and Perris and Eugene Driker. So I want to
7 thank them for just another example of persistence and
8 tireless efforts on their part, and I think, as your Honor
9 knows, I think it's hard to know where we'd be in this case
10 without the support of the mediators throughout this process.

11 I'd like to thank the parties themselves, both the
12 city and Syncora, who have laid down their swords after much
13 fighting. It takes a lot of emotional and, you know, mature
14 effort to do that. In particular, I'd like to thank the
15 advisors, professionals on both sides. Again, after being
16 passionate adversaries for more than a year in litigation,
17 today those professionals are now acting in concert in
18 support of the city.

19 Just a word or two about the plan -- I'm sorry --
20 the settlement, which will become part of the plan -- Ms.
21 Ball will be more specific in a moment, but I'd like to do
22 just a little bit of an overview. First, and of great value
23 to the city, is that Syncora will be withdrawing all
24 objections across the board in connection with the plan or
25 other aspects and appeals that may be outside of the plan,

1 and they will become a supporter of the plan as well as a
2 supporter of continuing litigation relating to the COPs
3 causes of action that are existing today in front of the
4 Court. The plan itself provides for a 13.7-percent recovery
5 on the Syncora-related claims both to be paid by virtue of a
6 portion of the B notes -- 60 percent of the reserve on the B
7 notes will go to Syncora -- and other consideration that Ms.
8 Ball will detail.

9 The other part of the settlement is to establish a
10 commercial relationship between Syncora and the city for the
11 long term regarding development of certain assets that the
12 city owns or will transfer to a Syncora subsidiary, and the
13 city and Syncora will work together in the development of
14 those properties. So that part of the settlement will be
15 reflected in the implementation section of the plan, and
16 Ms. Lennox can address more specifics on that if you want, so
17 we have two parts to the settlement. One part is claim
18 treatment, and the other is related to the new commercial
19 relationship.

20 What I'd like to do today is have various of our
21 lawyers plus Ryan Bennett speak to specifics of the
22 settlement or procedures, so -- and in this case, it does
23 take a village to get this done, so I would have Ms. Ball
24 address the specifics of the settlement, Mr. Bennett comment
25 to the extent he feels necessary, Ms. Lennox report to the

1 Court on where we stand on the documentation that reflects
2 the settlement and the filing of that, Mr. Miller on certain
3 commitments to the Retirees' Committee, and Mr. Cullen on
4 what the city sees as an appropriate procedure for continuing
5 the confirmation trial. I apologize for all of that, but
6 it's -- as I say, it was a complicated settlement and
7 requires a lot of thought and presentation to the Court.

8 As to the status of the agreement, I want to make it
9 clear we have an agreement. The last time we saw you, it was
10 an agreement in principle, and everybody went to work until
11 the wee hours this morning to come up with what is an
12 agreement. There are aspects of the agreement that we still
13 need to work on, but we're agreed on how to do that. So not
14 surprisingly, when there are transfers of properties and
15 diligence required and planning for development of those
16 properties, there is -- there are a little bit of moving
17 targets on which properties and so forth, so the one tag area
18 of the settlement that we need to continue to work on but is
19 not going to come back before the Court is with respect to
20 two properties, so late last night the city discovered
21 certain parcels previously included in the development
22 agreement that could not be conveyed to Syncora. As a
23 result, the city agrees that by the close of business on
24 Tuesday, September 16, 2014, the city will provide Syncora
25 with properties that represent reasonably equivalent value

1 consistent with that development scheme or their development
2 scheme that are reasonably accepted to Syncora. They may
3 actually conceivably be the same properties or replacement
4 properties. The parties have agreed that we can fix this one
5 tag issue hopefully with relative ease within the next 48
6 hours and probably sooner.

7 As to the documentation that is necessary for this,
8 Ms. Lennox will report to you on it, but as far as we're
9 concerned and I think as far as Kirkland & Ellis is
10 concerned, we're pretty much done with that, still, you know,
11 some wordsmithing, I suppose.

12 One last point. We have been working -- well, since
13 last Thursday with the Retirees' Committee and the holders of
14 the LTGOs to discuss how they view the impact of this
15 settlement on them, and we have made a lot of progress in
16 those discussions and expect to continue those discussions
17 this morning and are confident that we can conclude those
18 discussions, so we will need to do that before we file the
19 documents. Thank you, your Honor.

20 MS. BALL: Good morning, your Honor. Corinne Ball
21 of Jones Day for the city. Perhaps we should start with just
22 a review of the context that brings us here. As your Honor
23 is aware, there are many relationships between Syncora and
24 the city other than Syncora's role as COP -- an insurer of
25 the certificates of participation. Syncora is a swap

1 insurer. Syncora has insured the unlimited tax general
2 obligation bonds. Syncora is an insurer of the certificates
3 of participation. Syncora is a holder of the certificates of
4 participation. And in addition to that, Syncora, through its
5 subsidiary, American Roads and Pike Pointe, is a lessee of
6 the city on the Windsor Tunnel and, as a consequence of that,
7 is also present in surrounding buildings as a lessee at the
8 terminus of the tunnel on the Detroit side. In fact, it has
9 some hundred employees in Detroit in its headquarters in that
10 location.

11 Your Honor, with that, perhaps I'd like to walk you
12 through, with your permission, the elements of the
13 settlement, and we have -- if your Honor would like one, I
14 have a PowerPoint, if I may approach.

15 THE COURT: Yes.

16 MS. BALL: Perhaps we can walk through it. Your
17 Honor, this is a global settlement and a global resolution of
18 the multiple roles and relationships that Syncora has with
19 the city and has had over the past year in this courtroom.
20 If we could go through it, it is a -- we are entering into a
21 development agreement, which Mr. Heiman described, which
22 relates to properties, in essence, near the terminus of the
23 Windsor Tunnel. We are amending the lease for the Windsor
24 Tunnel and assuming it under the plan. Your Honor may or may
25 not be aware, but the lessee of that tunnel went through its

1 own bankruptcy in parallel with the city's bankruptcy, and
2 Syncora has, in fact, taken over that role as of September
3 2013, so they're new to the city, and we needed a new and
4 better relationship. We're also settling Syncora's COPs
5 situation, and we're resolving all litigation related to the
6 Chapter 9 whether in this court, your Honor, or on the
7 appellate levels. And that, of course, your Honor, will also
8 resolve their secured claims -- their asserted secured
9 claims, which your Honor may recall were one of the very
10 first disagreements that the city and Syncora had.

11 On the development agreement, the city and a
12 subsidiary of Syncora called Pike Pointe will enter into a
13 development agreement. Under the agreement, the developer is
14 granted an option to acquire certain specified properties
15 that will last five years from the effective date subject to
16 extension in certain instances. Prior to the exercise of the
17 option, the developer may undertake due diligence of the
18 properties. Once the option is exercised, the developer must
19 develop the applicable property into parking facilities,
20 residential housing, commercial retail space, and any other
21 use suitable for location consistent with the city's urban
22 planning policies and the city's comprehensive development
23 plan. The developer will have 15 months to begin developing
24 the property or else it will revert to the city. The
25 developer must also complete construction within three years

1 and three months of exercising its option. The city and the
2 Syncora subsidiary will also enter into an option to enter
3 into a 30-year concession with respect to the Grand Circus
4 garage including an obligation to invest 13.5 million in
5 capital expenditures during the first five years of that
6 long-term leasing arrangement for that parking garage.

7 With respect to the tunnel lease, the city will
8 extend and assume the lease as amended of the Detroit-Windsor
9 Tunnel and the related properties which I mentioned earlier,
10 your Honor, surrounding the terminus of the tunnel. The
11 amended lease will extend the term from November 2020 to
12 December 2040. The amended lease will contain additional
13 reporting requirements on the part of the tunnel company, and
14 the city will only be limited in its ability to disclose that
15 information in very certain specific circumstances, which
16 compares to today, which it is a fairly opaque relationship
17 from the city's point of view. The tunnel company will
18 maintain the city portion of the tunnel to the same standard
19 as the Windsor side. The amended lease will also allow the
20 tunnel company to offset certain capital expenditures made to
21 improve the tunnel against the tunnel's rent obligations.
22 During the initial term of the lease, your Honor, which is
23 the current lease, which runs through 2020, the tunnel may
24 credit capital expenditures against its rent up to the full
25 amount of the rent due during this period. During the

1 extension term, your Honor, they may credit capital
2 expenditures against 75 percent of the annual rent subject to
3 certain limitations. In all, the tunnel company may not
4 credit more than eight million of capital expenditures
5 against rent during the extension term, but in all, your
6 Honor, it represents a substantial commitment to improve the
7 condition and safety of the tunnel. The amendment
8 anticipates and does not preclude a new joint operating
9 agreement with respect to the Windsor portion of the tunnel
10 and a new -- potentially new intergovernmental authority
11 between Detroit and Windsor to allow the tunnel to be
12 operated in an integrated manner. Your Honor, that's
13 providing for the future.

14 With respect to the settlement of the COPs held and
15 insured by Syncora, your Honor, the plan provides for the
16 creation of a litigation trust, and the remaining interest in
17 that trust I may remind your Honor belongs to other creditors
18 of the city, does not revert to the city. The litigation
19 trust established under the plan will purchase Syncora's COPs
20 and COPs claims in exchange for new B notes. Your Honor,
21 that's the nomenclature that has been in the plan to describe
22 the notes issued to the various unsecured classes under the
23 plan, the OPEB class, Class 12, general unsecured class,
24 Class 14, and the COPs class, Class 19. It also provides for
25 an enhancement for Class 9 consisting of new C notes and

1 something that we call settlement credits. That, your Honor,
2 is what, in essence, leads us to describe the Class 9
3 treatment as being enhanced to provide 13.9 percent as
4 opposed to the original estimates of 10 percent on account of
5 Class 9. As a settling party, Syncora will be included as an
6 exculpated party under the plan of adjustment subject to
7 certain agreed carveouts. Importantly, your Honor, this
8 settlement offer with the enhanced portion of the C notes and
9 the settlement credits will be made available to any COP
10 claimant that opts into the settlement prior to the effective
11 date on the plan of adjustment. The COP claimants that do
12 not participate in the settlement will receive the treatment
13 previously set forth in the sixth amended plan. Notably,
14 your Honor, no enhancement with the C notes and the
15 settlement credits unless the COP claimants opt in.

16 Your Honor, if we move ahead, on the effective date,
17 Syncora will receive 23.5 million in new B notes. Your
18 Honor, that number refers to the face amount, and that number
19 represents 60.358 percent of the total COP claims asserted by
20 Syncora. If we move ahead, the enhancement on the settlement
21 of the COPs is on the effective date Syncora will receive
22 approximately 21.3 million in new unsecured five-percent C
23 notes due in 2026. These new 12-year C notes bear interest
24 at the rate of five percent. Through the operation of the
25 parking system in the city, the city will segregate certain

1 parking revenues each year until monies sufficient to meet
2 the annual debt service on these new C notes is set aside.
3 The notes are unsecured, and, though due in 2026, they must
4 be prepaid in the event of certain parking asset disposition
5 should the city decide to sell or outsource its parking, and
6 they may be prepaid at the city's option at any time without
7 premium or penalty.

8 I think, your Honor, if we move ahead to the
9 settlement credits, alternately called vouchers, and to some
10 others almost green stamps, I think was the phrase that we
11 used -- on the effective date, Syncora will receive 6.25
12 million in Class 9 settlement credits. What are they?
13 Settlement credits may be applied towards the purchase of
14 eligible city assets. Eligible city assets include the Joe
15 Louis Arena post-demolition in 2017 when it's available.
16 Should the city pursue a proposal for its parking assets,
17 that's an eligible asset. And real property located -- your
18 Honor, it's real property within three miles of the tunnel
19 terminus, again, back to their current presence. To apply
20 the credits, the owner must participate in the normal
21 procurement or auction process run by the city. It has to be
22 the final party selected in that procurement or auction
23 process and otherwise satisfy all the requirements.
24 Settlement credits can only be used for 50 percent of the
25 purchase price of an eligible asset. Importantly, your

1 Honor, these settlement credits can be freely assigned or
2 transferred. We thought that was an important feature
3 particularly for those COPs holders who may not have a
4 relationship with the City of Detroit on an ongoing basis.

5 Your Honor, if we move to the litigation front,
6 whether it's the swaps, the COPs, the UTGOs, or the appeals,
7 the many appeals, Syncora will now support the plan, and I
8 think it has already filed some withdrawal of its objections,
9 but it will promptly withdraw all objections to confirmation
10 of the city's plan of adjustment, which will be, your Honor,
11 at this time without prejudice but obviously will mature as
12 we move forward through confirmation. Subject to definitive
13 documentation on the confirmation date of the plan, Syncora
14 will withdraw all plan objections with prejudice. Syncora's
15 appeals will be held in abeyance, your Honor, as we plan to
16 file a joint motion to stay them until the process is
17 complete and the plan becomes effective at which point such
18 appeals will be withdrawn with prejudice. And, your Honor,
19 among others, it includes the public lighting authority
20 appeal, the post-petition financing appeal, the automatic
21 stay appeal, the swaps settlement appeal, the mediation
22 appeal, and I think there may be a few I've missed. In
23 satisfaction of its asserted secured claims relating to the
24 collateral account, your Honor may recall, that was
25 associated with the casino revenues and other litigation

1 claims, Syncora will receive \$5 million. I think Mr. Cullen
2 will assist the Court, but we anticipate there will be
3 further trial process motions and exhibits which will accord
4 and reinforce Syncora's agreement to support the plan. With
5 that, your Honor, I'm happy to answer any questions you may
6 have.

7 THE COURT: Can we go back to Slide 5, please?

8 MS. BALL: Yes, sir.

9 THE COURT: For other COP claimants who opt in, what
10 do they give up by opting in, and what does the city get?

11 MS. BALL: Your Honor, they will be selling their
12 COPs claims to the litigation trust, and the city would be
13 distributing not only the B notes, which were described in
14 the existing sixth amended plan, they will also be getting
15 their share of the enhancement, the new C notes and the
16 settlement credits.

17 THE COURT: Thank you.

18 MS. BALL: Anything else, your Honor?

19 THE COURT: No.

20 MS. BALL: Thank you. With that I would defer to
21 Ms. Lennox as to how we're working this through the plan.

22 MR. BENNETT: Good morning, your Honor. Ryan
23 Bennett of Kirkland & Ellis on behalf of Syncora. I'm very
24 glad to be standing here before you today, your Honor. This
25 is a big day for Syncora and a big day for the City of

1 Detroit. We'd like to thank the Court, the Court's staff for
2 the time and patience over the past many months and thank the
3 mediators for their assistance, particularly over the past
4 three weeks as we've worked through what has been a very
5 complicated and creative resolution to Syncora's unique
6 relationship with the City of Detroit. Ms. Ball and Mr.
7 Heiman captured the settlement accurately. Syncora will
8 shortly be withdrawing its objections to the plan, its
9 various motions that are pending before the Court without
10 prejudice to our ability to renew our litigation should the
11 definitive documentation not be reasonably acceptable to the
12 city and Syncora and the plan not be confirmed, but we
13 expect, as Mr. Heiman highlighted, that we are substantially
14 done. We know we are substantially done and that that will
15 be coming shortly. Our appeals, likewise, will be held in
16 abeyance, as Ms. Ball pointed out, and dismissed with
17 prejudice upon the effective date. Your Honor, that's all I
18 have, fortunately. Thank you very much.

19 THE COURT: Thank you.

20 MS. LENNOX: Good morning, your Honor. With respect
21 to the plan process, as these developments with respect to
22 the settlement that Ms. Ball outlined have progressed, the
23 draft of the seventh amended plan has kept pace, so that is
24 in fairly good shape. We have, I think, a couple of things
25 that we're hoping to iron out with some other parties today.

1 Our goal is to file that plan today, you know, subject to
2 ironing out the differences, but we are in good shape on
3 that, your Honor.

4 MR. HEIMAN: Your Honor, before we call on Mr.
5 Cullen, I did mention that we would be hearing from Evan
6 Miller today, and -- oh, he was hiding, and I don't blame him
7 because he's a target for a lot of people.

8 MR. MILLER: Thank you for those kind words. Good
9 morning, your Honor. Evan Miller, Jones Day, for the City of
10 Detroit. I wanted to briefly talk about an issue in
11 connection with the Class 12, the so-called OPEB settlement.
12 Certain issues have arisen in connection with the -- excuse
13 me -- implementation and start-up of the so-called VEBA
14 trusts. Those would be the trusts that pursuant to the
15 settlement would be providing and paying for retiree health
16 insurance. And I want to advise the Court that the City of
17 Detroit commits to negotiate in good faith a resolution of
18 all of those issues relating to the start-up of the VEBAs.
19 We will do so as soon as practicable with the mediators, and
20 I can personally advise the Court that I'm confident that it
21 will be done in relatively short order. Thank you.

22 THE COURT: Thank you.

23 MR. CULLEN: Good morning, your Honor. Thomas
24 Cullen of Jones Day on behalf of the city. In light of these
25 developments, the city does propose to move forward with its

1 order of witnesses this week. We have -- that order,
2 serendipitously enough, really addresses issues at the front
3 end which are unconnected with the Syncora settlement,
4 principally the actuarial issues, art, and we have attempted
5 to move certain DWSD witnesses in front of any dealings with
6 the implications of the Syncora settlement. The first
7 witness to deal with those issues will be Mr. Malhotra, who
8 we believe comes up at the end -- on Friday, if at all, this
9 week. He's covering a great deal of ground, of course, and
10 there will be -- if not this week, there will be time over
11 the weekend to prepare any additional cross with respect to
12 the settlement for Mr. Malhotra. We believe that the -- that
13 that will allow the parties the ability to address the well-
14 trodden issues of art, DWSD, and actuaries this week and then
15 address the settlement-related issues either at the very end
16 of the week or early next.

17 THE COURT: Before you go, let's review your witness
18 order.

19 MR. CULLEN: Yes.

20 THE COURT: And can you describe in a sentence or
21 two what each will cover?

22 MR. CULLEN: Yes. This is what we have, your Honor.
23 Mr. Bowen is an actuary for Milliman. He worked on the
24 derivation and the implementation of the 6.75 revenue
25 assessment. He is a percipient witness, not an expert in

1 this case. He's going to testify about what actually
2 happened. Mr. Perry is an expert witness who will testify as
3 to the reasonableness of the 6.5. Ms. Fusco is the
4 representative of --

5 THE COURT: When you say 6.5 --

6 MR. CULLEN: 6.75.

7 THE COURT: 75, yeah.

8 MR. CULLEN: 6.75. I apologize, your Honor.

9 THE COURT: Let's not confuse the world on this.

10 MR. CULLEN: Yeah. I'm sorry. Thank you, your
11 Honor. Ms. Fusco is the representative of Christie's who
12 will testify as to their work. Ms. Nichol is an expert
13 witness who's going to be --

14 THE COURT: Well, stop there because we also have a
15 hearing today regarding Ms. Kopacz.

16 MR. CULLEN: Yes, your Honor. I was only addressing
17 the order of witnesses.

18 THE COURT: Okay.

19 MR. CULLEN: And this is all subject to the movement
20 of the Court, subject to the length of the cross-examination.
21 Ms. Nichol is going to be dealing with the issues of what is
22 the appropriate baseline to measure discrimination in the
23 plan. It's a witness of the Retirement Committee and
24 presented by them. Ms. Taranto is another actuarial witness.
25 We're hoping to get Mr. Bloom, who is the investment banker

1 on behalf of the Retirement Committees, who will testify as
2 to the arm's length nature of the negotiations and the result
3 of those negotiations with respect to pension issues.
4 Erickson and Plummer are both art -- are art valuation and
5 sale of the art issues. Mr. Satter has to do with the value
6 of the DWSD assets. Mr. Penske is a local notable developer
7 and a citizen of the city who will testify as to grand
8 bargain issues and investment in the city. Mr. Buckfire's
9 issues have been made available to the Court in his report.
10 He is not expected to testify with respect to the Syncora
11 settlement. Ms. McCormick will deal with -- McCormick will
12 deal with the DWSD issues and the operation of DWSD and
13 concerns which have been raised in this proceeding about the
14 capital expenditure budget and its sufficiency. Mr. Malhotra
15 is the E&Y witness with whom the Court is familiar, who will
16 testify as to the projections which will underlie the plan
17 and the baseline projections for the city. Mr. Orr then
18 comes up to testify with respect to the broad range of issues
19 relating to the plan and the settlements and feasibility and
20 other issues. Mr. Kaunelis is another DWSD witness with
21 respect to certain assumptions with respect to investment
22 principally. And Mr. Gilbert is, again, a citizen of Detroit
23 who will testify with respect to the grand bargain impact on
24 Detroit, et cetera. That is how we see it as of now, your
25 Honor.

1 THE COURT: And this is your projection for this
2 week and next?

3 MR. CULLEN: Yes, yes.

4 THE COURT: All right. Thank you. Let's leave that
5 up for a bit, if you don't mind. Okay. Thank you. I want
6 to add one other point here in relation to Syncora, which is
7 related only because it deals with Syncora. It has nothing
8 to do with the settlement, per se. The Court had entered an
9 order to show cause directed to Syncora and its attorneys why
10 they should not be sanctioned for the scandalous and
11 defamatory aspects of their second supplemental objection to
12 the plan. In the meantime, Kirkland & Ellis, on behalf of
13 itself and Syncora, has apologized to Judge Rosen and to Mr.
14 and Mrs. Drinker for its conduct. The Court concludes that
15 those apologies, in the interest of justice, resolve any
16 issue of sanctions, and, accordingly, the Court here today
17 will be entering an order that vacates the order to show
18 cause and disposes of that issue. All right. Who wants to
19 be heard now?

20 MR. PEREZ: Good morning, your Honor. Alfredo Perez
21 on behalf of FGIC. Your Honor, we've listened to everything
22 that was said this morning, and I think I'm kind of standing
23 here in the same place I was a week ago or so last Tuesday.
24 We're going to need some time to prepare, and the issue is
25 when can we schedule that time. And so if the Court wants to

1 proceed with the actuaries and the art and then give us an
2 opportunity to prepare, I think that's perfectly appropriate,
3 but we're going to need a continuance for the two reasons
4 that we set forth in our papers. One, the additional time to
5 prepare, and, two, the additional time to prepare to the new
6 plan, which I'm glad we are going to get it today, and that
7 will give us -- but likely, your Honor, we're going to have
8 to have additional expert report. Likely, your Honor, we're
9 going to need to take one or two depositions, and we're going
10 to have to be able to be in a position to put on our case in
11 response to this new plan. So if the Court wants to proceed
12 with the actuaries and the, you know, several art witnesses
13 this week and then continue us until the 29th, I think we're
14 perfectly happy to do that, and I think that would allow
15 us -- although I really -- we really wanted to ask for two
16 weeks in our motion last night, but we decided that probably
17 wasn't doable and it wasn't as credible, but we are going to
18 need some time as set forth.

19 And we have this issue with the expert. There's no
20 reason why the city couldn't have agreed to let us use that
21 expert. They knew about it. They had the report. In the
22 interim, we're going to go and have to find our own expert.
23 So, your Honor, we're happy to proceed this week with those
24 sets of witnesses and then whenever Mr. Satter ends, take
25 that time off to prepare and come back on the -- and come

1 back on the 29th, and that's what we would propose.

2 MR. CULLEN: Thomas Cullen again, your Honor, for
3 the city. I would only say this, that distinctions must be
4 made here between the various interests we are working with
5 in dealing with the continuance of this proceeding. There is
6 the interest of the city itself in resolution of the
7 proceeding. There is the integrity of the proceeding. There
8 is the convenience of the witnesses to this proceeding, and,
9 finally, there is convenience of counsel. There's no doubt
10 about the interests of the city. The interests of the city
11 are to move forward as quickly as possible. The Court is
12 aware of the tremendous run rate of expense of this
13 proceeding. A week off from presenting evidence is not a
14 week off from the run rate of those expenses for the city.
15 The transition of the city to the post-emergency manager
16 world is proceeding apace as we speak. The sooner we get out
17 of this proceeding, the better it is for the city, the better
18 it is for that transition. The resolution of all of these
19 issues is critical to how the city moves forward.

20 With respect to the witnesses, it's no doubt that
21 they've rearranged their life to do this. You look at where
22 we are with Mr. Penske and Mr. Gilbert. As you might
23 imagine, they are very difficult people to schedule for
24 various good and sufficient reasons. I believe that the
25 sooner we get Mr. Malhotra on and all of his testimony in the

1 better that the opponents of the city will know how -- what
2 they need in terms of experts or not. The sooner we get
3 Mr. Orr in front of the Court, the better that they will know
4 going into those -- the gap between the 25th and the 26th in
5 the proceeding. So they've made significant adjustments in
6 their lives. Now, in these circumstances, the convenience of
7 the lawyers is only important to the extent that it threatens
8 or undermines the integrity of the proceeding, and I think
9 that that is a difficult case to make here. There are no
10 surprises certainly in the testimony of any of the witnesses
11 for this week. There are no surprises in the broader issues
12 that affect and surround the Syncora settlement in this. The
13 cone that Ms. Ball talked about has been there all along of
14 considerations and otherwise.

15 With respect to all of these witnesses, there has
16 been -- there have been depositions. There's been a very
17 thorough opening. The witnesses are no surprise, and it's
18 certainly no surprise that an ally in one of these
19 proceedings might follow its self-interest out of the case.
20 There's been something of an Agatha Christie mystery vibe
21 about this as parties disappear one by one all throughout
22 this case. And mediation is confidential, but the bodies of
23 Mr. Sprayregen and Mr. LeBlanc are not, and they've been
24 through this building continuously over the past few weeks.
25 So we have pulled this together. We pulled it together under

1 some time pressure, but in order for the city to move
2 forward, we think that people have and have -- have enough
3 preparation, have seen enough, can plead only attenuated
4 surprise with respect to the recent turns of events, and have
5 the materials in order to represent their client fairly as we
6 move forward. That's all I have, your Honor.

7 MR. PEREZ: May I respond, your Honor?

8 THE COURT: Yes, but let me just ask if anyone else
9 wants to be heard first.

10 MR. BRILLIANT: Your Honor, Allan Brilliant on
11 behalf of Macomb Interceptor Drain Drainage District, a Class
12 14 claimant, and I would have gotten up before Mr. Cullen,
13 but he beat me to the podium after Mr. Perez had spoken. We
14 join in Mr. Perez's argument with respect to requesting, you
15 know, a continuance. There's really two issues here, your
16 Honor. Mr. Cullen focuses really just solely on the Syncora
17 withdrawal aspect of the issue, which obviously makes things
18 a little bit more difficult for the various parties since
19 there had been an agreement and allocation of who was going
20 to deal with what witnesses, which all needs to be changed
21 now, but the more fundamental issue we have here, your Honor,
22 is there's a new very complicated deal that Syncora has
23 entered into, which needs to be analyzed by all the parties
24 to determine what additional objections they may have. And
25 as Mr. Perez said, it's likely, you know, to lead to

1 additional discovery, and obviously we're going to need to
2 put on additional testimony with respect to the issues. It's
3 not as if Syncora was just being given a certain amount of --

4 THE COURT: Assuming you object to it.

5 MR. BRILLIANT: Assuming we object to it, but we
6 need to have some opportunity to determine --

7 THE COURT: I just found it interesting your
8 presumption that you would object.

9 MR. BRILLIANT: Well, your Honor, at a minimum,
10 they're saying that Syncora is getting 13.9 --

11 THE COURT: On behalf of your \$25 million claim.

12 MR. BRILLIANT: Twenty-six, your Honor, but the --

13 THE COURT: Forgive me.

14 MR. BRILLIANT: But at a minimum, your Honor, it
15 would appear they're getting, you know, a 40-percent, you
16 know, larger distribution, you know, at face value if one
17 believes that all of these other issues that are here are
18 not, you know, on account of their COPs claims. But, your
19 Honor, the problem that we have, you know, in going forward
20 and doing the investigation as to the, you know -- you know,
21 the fairness and whether or not it unfairly -- the new
22 settlement unfairly discriminates against, you know, Class 14
23 is that we have to -- if you agree with the city, is we have
24 to file the objection, do that analysis, discovery, retain
25 witnesses, while we're reorganizing our workload, you know,

1 among all the objectors in light of Syncora's withdrawal from
2 the plan, and that just -- your Honor, is just, you know, too
3 much, you know, to expect from all the objectors at this
4 point in time. And really, your Honor, it's just in the
5 interest of justice at some point, you know -- doesn't
6 necessarily have to be today, although we would prefer that
7 it be sooner rather than later, but at some point the parties
8 have to be given an opportunity to do that analysis. And
9 given all the -- if all the resources are being used here in
10 preparing for the cross-examination of the witnesses, it's
11 just not going to be able to -- you know, to be accomplished
12 in a fair way.

13 THE COURT: Thank you. Would anyone else like to be
14 heard?

15 MR. HOWELL: Yes, your Honor. Steven G. Howell,
16 Dickinson Wright, special assistant attorney general,
17 appearing on behalf of the state. Your Honor, the State of
18 Michigan also opposes an adjournment in this matter and
19 supports the city's objection to it and believes that for all
20 the parties that are involved with the exception of a couple,
21 this has been a long process, and we would like to see this
22 continue. We believe that this is not that big a surprise
23 that this came along, and we would like to see the Court
24 continue to move forward with this on the schedule we have
25 set. Thank you, your Honor.

1 THE COURT: Thank you. Would anyone else like to be
2 heard? Mr. Perez.

3 MR. PEREZ: Your Honor, three points. What you
4 didn't hear from Mr. Cullen was due process, and that's,
5 frankly, the only issue that we have before the Court. Are
6 we receiving due process? Furthermore, your Honor, to some
7 extent this is a situation where if we're not granted a
8 continuance, no good deed goes unpunished because the
9 objectors collectively determined we had to allocate our
10 time. We had to allocate our resources. We didn't want to
11 be duplicative. And now as a result -- and we're not asking
12 for a long continuance, your Honor, and the fact that the
13 schedule is how it is really shortens the time that we would
14 be asking for a continuance. But, your Honor, to say that we
15 do not need additional time to prepare based on the record,
16 the fact that we were all sharing time, the fact that the
17 Court encouraged us to have a lead questioner for the
18 witnesses, just is -- just doesn't comport with due process.

19 Furthermore, your Honor, I would -- I only hearken
20 back to the time when the Court asked somebody whether, you
21 know, being here and supporting Detroit wasn't the most
22 important thing they were doing. I'm sure that the witnesses
23 are important people who need to be -- you know, need to be
24 doing important things, but this is actually more important.
25 Your Honor, I commit to you that we will work as diligently

1 as possible, but, for instance, this whole situation with the
2 one expert witness, it's a total self-inflicted wound by the
3 city. There's no reason for them to have done that other
4 than to be vindictive.

5 THE COURT: What witness are you talking about, sir?

6 MR. PEREZ: Murphy, your Honor. Thank you.

7 THE COURT: Anything further on this issue? All
8 right. The Court will take it under advisement.

9 MR. CULLEN: One moment.

10 THE COURT: Sir.

11 MR. CULLEN: Thank you.

12 THE COURT: Yes.

13 MR. CULLEN: I do think that we were addressing the
14 due process issue when I talked about the integrity of the
15 process versus the convenience of counsel. These are all
16 well-represented parties. They've had notice of these issues
17 for some time. And I'm sure that this is hard, and if this
18 were a mere game, we would grant this courtesy as a courtesy,
19 but it is not. It is a proceeding about the fate of Detroit.
20 Time is very important to us. The expense of it is very
21 important to us. The transition is very important to us.
22 And we think that there is sufficient opportunity for very
23 talented counsel to make a record on the issues about which
24 they care about. That's all, your Honor.

25 THE COURT: All right.

1 MR. PEREZ: May I respond, your Honor?

2 THE COURT: If you have anything new to add,
3 absolutely.

4 MR. PEREZ: Your Honor, the only question I have is
5 I wonder what they would be saying if the shoe was on the
6 other foot. Thank you.

7 THE COURT: Okay. I'm going to take this under
8 advisement and take a recess now, and we'll reconvene at
9 9:30, please.

10 THE CLERK: All rise. Court is in recess.

11 (Recess at 9:20 a.m., until 9:39 a.m.)

12 THE CLERK: All rise. Court is in session. You may
13 be seated.

14 THE COURT: It appears everyone is present.

15 MR. STEWART: Your Honor, Geoffrey Stewart, Jones
16 Day, for the city. The city calls its next witness, Glenn
17 Bowen.

18 THE COURT: Well, hang on. I've got to give a
19 ruling on --

20 MR. STEWART: Oh, I'm sorry.

21 THE COURT: -- the matter I took under advisement.

22 MR. STEWART: I better sit down.

23 THE COURT: Good idea. As the Court discerns the
24 motion for adjournment here, there are three relatively
25 distinct grounds for it, and the issue before the Court is

1 whether these grounds constitute extraordinary cause for the
2 delay or continuance that is sought here. The three are that
3 Syncora's withdrawal from the defense of the city's case
4 causes FGIC and the other objecting parties, which at this
5 point are mainly the Macomb Drainage District, to take over
6 those parts of the defense that FGIC had taken responsibility
7 for in their division of labor. The second is the strong
8 potential for FGIC to need to retain experts that Syncora had
9 retained or maybe it's only one -- excuse me -- so that it
10 can properly pursue its defense of the city's case in the
11 absence of Syncora and its experts. And the third is the
12 potential need to file supplemental objections to the -- what
13 will be, I guess, the seventh amended plan to be filed here
14 promptly along with any potential need for additional
15 discovery relating to those supplemental objections to the
16 amendments in the plan.

17 The Court must conclude that the first two of those
18 asserted grounds do not constitute extraordinary cause for
19 any adjournment, and to the extent the motion is based on
20 those two grounds, it is denied. There is merit in the
21 city's position that Syncora's negotiations with the city
22 over the past several weeks have been well-known, and in
23 those circumstances it seems to the Court that it was
24 incumbent upon all objecting parties, consistent with their
25 obligations to their clients, to prepare for the contingency

1 that, in fact, Syncora might settle at some point, and that
2 preparation would have included necessarily preparation to
3 take over for the examination of the witnesses that Syncora
4 was going to cover and, in the absence of an agreement
5 regarding experts, locating experts. In this regard, the
6 Court will also note parenthetically but importantly that
7 nothing in FGIC's motion or its presentation today identified
8 any steps that FGIC took in regard to cross-examination
9 preparation or locating and preparing an expert since the
10 agreement in principle was announced last Tuesday night or
11 addressed how those five days was insufficient to meet its
12 preparation needs.

13 On the other hand, the Court must conclude that the
14 city's filing of an amended plan incorporating its settlement
15 with Syncora does require the Court to accommodate the
16 interests of FGIC and the Macomb Drainage District and other
17 objecting parties to have an opportunity to examine that plan
18 or the amendments to it and to file supplemental objections
19 to that plan as they deem appropriate, to take discovery as
20 necessary in relation to that, and to prepare to address the
21 Syncora settlement as part of this confirmation hearing.

22 Having said that, however, it's less clear to the
23 Court how the details of that should play out, and so,
24 accordingly, I'm going to ask counsel for FGIC and Macomb and
25 any other objecting creditors to meet and confer with counsel

1 for the city to see if you can come to some agreed upon
2 schedule or plan that will -- excuse me -- accommodate the
3 interests of the city in the promptest possible resolution
4 here and in the objecting parties' interests in an adequate
5 opportunity to address the new plan, and perhaps you can do
6 that over the lunch hour and then let the Court know where
7 you stand at that time. I think that's as much as we can do
8 on this now, and I will ask the city to proceed with its
9 case.

10 MR. SOTO: Your Honor, one -- if I can just sit --

11 THE COURT: Yeah.

12 MR. SOTO: FGIC will be asking the Court for an
13 accommodation with respect to the adding or replacing of the
14 one expert witness. We've located another witness, had
15 initial conversations with him. I've had some initial
16 conversations with Mr. Cullen, and he will be replacing Dr.
17 Murphy. It's a fellow named Dr. Jonathan Guryan is who we
18 are working with, so --

19 THE COURT: What's the name, sir?

20 MR. SOTO: Dr. Jonathan Guryan, who's at
21 Northwestern.

22 THE COURT: Okay.

23 MR. SOTO: I guess the other guy was in Chicago. So
24 we'll be coming to the Court for that accommodation with
25 respect to this.

1 THE COURT: Well, I urge you to discuss that
2 accommodation, whatever it is you will be seeking, with the
3 city and see what you can work out.

4 MR. SOTO: Thank you, your Honor.

5 THE COURT: If I have to decide something, I will,
6 but I think it is appropriate to ask you all to try to figure
7 out how to deal with this in the meantime. Mr. Stewart.

8 MR. STEWART: And I apologize for jumping the gun
9 earlier.

10 THE COURT: Okay.

11 MR. STEWART: Geoffrey Stewart, Jones Day, for the
12 city. The city calls its next witness, Glenn Bowen. Your
13 Honor, if I may have leave to approach, I have five sets of
14 the exhibits we would use with Mr. Bowen.

15 THE COURT: Yes, sir. Step forward, please, sir,
16 and raise your right hand.

17 GLENN BOWEN, CITY'S WITNESS, SWORN

18 THE COURT: All right. You may sit down in the
19 witness box. Thank you.

20 MR. STEWART: May I proceed, your Honor?

21 THE COURT: One second. Seems like we're still
22 getting organized here. Okay. You may proceed.

23 MR. STEWART: Thank you, your Honor.

24 DIRECT EXAMINATION

25 BY MR. STEWART:

1 Q Good morning, Mr. Bowen.

2 A Good morning.

3 Q Could you please give us your full name and address?

4 A Glenn David Bowen, Wayne, Pennsylvania.

5 Q Okay. Are you employed?

6 A Yes.

7 Q And by whom are you employed?

8 A Milliman, Incorporated.

9 Q And what is Milliman, Incorporated?

10 A An actuarial consulting firm.

11 Q Okay. And where are the offices of Milliman in which you

12 work?

13 A I work in the Wayne, Pennsylvania, office.

14 Q And Wayne is a suburb of Philadelphia?

15 A Correct.

16 Q Okay. Tell us, if you could, of your college education?

17 A I have a bachelor's degree and a master's degree in civil

18 engineering from the University of Delaware.

19 Q And what year did you receive those -- what years did you

20 receive those degrees?

21 A The bachelor's degree in 1989, master's degree in 1994.

22 Q Did there come a time when you became an actuary?

23 A Yes.

24 Q When was that?

25 A I was hired in 1996 by Towers Perrin Company, now called

1 Towers Watson.

2 Q Okay. And you were hired by them as an actuary?

3 A An actuarial analyst, yes.

4 Q And how long did you remain at Towers Perrin?

5 A Roughly five years.

6 Q And what was your job after that?

7 A I was hired by Milliman in 2001.

8 Q Okay. And tell us, if you could, what -- in brief what
9 your career at Milliman has been.

10 A I am a pension actuary, so I consult to pension plan
11 sponsors and legislative bodies that have interests in the
12 pensions that are sponsored in their jurisdictions.

13 Q Okay. You just used a term "pension plan sponsors."
14 What is a pension plan sponsor?

15 A There can really be I'll say two broad kinds. In the
16 corporate sector, you would typically think of it as the
17 employer who sponsors the pension plan, and in the
18 governmental sector, it would be the local government or
19 other governmental authority.

20 Q Okay. And in your practice as an actuary, what
21 percentage of your time have you spent working with
22 government sponsored pension plans?

23 A I would say it's certainly morphed over my career from a
24 focus on corporate to a focus on public, and public is now 90
25 percent or more of what I do.

1 Q And how many different public pension plans have you
2 worked with over the course of your career?

3 A I'll say dozens, and I've also worked with retiree
4 healthcare plans in the public sector as well, about a
5 hundred of them.

6 Q Are you qualified as an actuary?

7 A I'm a fellow of the Society of Actuaries, also an
8 enrolled actuary under ERISA and a member of the American
9 Academy of Actuaries.

10 Q Are those the credentialing bodies for actuaries in the
11 U.S.?

12 A Yes.

13 Q Have you published any papers or other articles in the
14 field of being an actuary?

15 A About a half dozen.

16 Q Okay. Now, let's -- I'd like to just make sure we have
17 our definitions nailed down before we go further. The city,
18 of course, has two Retirement Systems, does it not?

19 A Yes.

20 Q Are they sometimes also called pension plans?

21 A Yes.

22 Q What are the city's two Retirement Systems?

23 A There's the General Retirement System and the Police and
24 Fire Retirement System.

25 Q And are they sometimes known by their initials, the GRS

1 and the PFRS respectively?

2 A Yes.

3 Q And just a minor point, is it the case that Milliman
4 refers to them as the DGRS and the DPFRS?

5 A That is correct.

6 Q But the terms are interchangeable. We don't need the D?

7 A We do not.

8 Q We all know we're talking about Detroit here?

9 A Yes.

10 Q Okay.

11 A I speak for myself only saying that.

12 Q And you're aware of something called a -- called the
13 DWSD?

14 A Yes, I am.

15 Q What is the DWSD?

16 A The Detroit Water and Sewer Department.

17 Q Do the employees of the DWSD -- are they members of
18 any -- either of the city's Retirement Systems?

19 A Yes, they are.

20 Q Which system?

21 A The General Retirement System.

22 Q And, by the way, am I correct that one refers to the
23 employees as members?

24 A In a public pension plan, yes.

25 Q Now, you're aware of something called a defined benefit

1 plan?

2 A Yes.

3 Q What is a defined benefit plan?

4 A A defined benefit plan is a retirement plan where, as
5 it's titled, the benefit is defined. There will be a formula
6 that will determine the amount of the pension that you
7 receive.

8 Q And who makes contributions to a defined benefit plan?

9 A The plan sponsor will make contributions. In some
10 instances, the employees will be required to make a
11 contribution as well.

12 Q Okay. So did there come a time when you began working on
13 matters relating to the City of Detroit's two pension plans?

14 A Yes.

15 Q When was that?

16 A It was in the middle of 2012.

17 Q And what were you asked to do in the middle of 2012?

18 A Our very first assignment was a request that we review
19 the annual actuarial valuation reports that had been prepared
20 by the Systems' retained actuary and provide us, as much as
21 possible, a description of the status of the plans in
22 laymen's terms.

23 Q Okay. And let me direct your attention to the exhibits
24 before you. They may be at the bottom of your pile, but
25 they're two.

1 MR. STEWART: And let's put them up in order, if we
2 could, Syncora Exhibit 4054 and Syncora Exhibit 4776. And,
3 your Honor, I believe these have been stipulated into
4 evidence.

5 MR. WAGNER: We have no objection, your Honor.

6 BY MR. STEWART:

7 Q Mr. Bowen, do you have these two exhibits before you?

8 A I do.

9 Q Tell me, if you --

10 THE COURT: Let me just say for the record that in
11 case they are not already in evidence, Exhibits 4054 and 4776
12 are admitted.

13 (Syncora Exhibits 4054 and 4776 received at 9:56 a.m.)

14 BY MR. STEWART:

15 Q Mr. Bowen, could you tell us what these two exhibits are?

16 A These exhibits are the annual actuarial valuation reports
17 prepared by the Systems' retained actuary. One report is for
18 the General Retirement System and one is for the Police and
19 Fire Retirement System.

20 Q Now, you just used the phrase "Systems actuary." What is
21 the Systems actuary?

22 A Excuse me. I use that phrase to define the actuary who
23 has the responsibility for conducting the annual valuation.

24 Q And that's the actuary hired by the Retirement System
25 itself?

1 A Yes.

2 Q Who is the actuary for these two Retirement Systems?

3 A Gabriel, Roeder, Smith & Company.

4 Q And their name appears in the upper right-hand corner of
5 each of these two exhibits?

6 A Yes.

7 Q Okay. And so I believe you were telling us that your
8 first assignment had to do with looking at these two, and, by
9 the way, these are, once again, called annual valuation
10 reports?

11 A Yes.

12 Q Do you sometimes call them AVR's?

13 A I do not, but I can if you would like.

14 Q I won't either then. I'll call them annual valuation
15 reports. So what was it you were asked to do in particular
16 with respect to these annual valuation reports?

17 A As I mentioned, we were asked to review them, and we were
18 asked to explain them to city personnel who did not have
19 extensive pension background.

20 Q Now, I think you testified this engagement came to you in
21 the middle of 2012?

22 A Yes.

23 Q These are the reports, however, for the year ended 2011,
24 are they not?

25 A That's correct.

1 Q Why was it you were dealing with 2011 reports when you
2 were doing your work in 2012?

3 A These were the most recently published reports that
4 existed at that time.

5 Q Okay. And so as a result of looking at these reports,
6 what did you do next?

7 A We documented our results in a letter and met with the
8 city personnel.

9 Q Now, you just used the term "letter." Does the term
10 "letter" in the way -- in your work for the city have any
11 particular meaning?

12 A Our relationship with the city over time has been ad hoc
13 consulting, you know, ad hoc requests, and in those cases we
14 will typically write a letter because a template does not
15 exist to respond to such a request.

16 Q Fair to say that the deliverable that Milliman has in its
17 work for the city has been letters?

18 A Yes.

19 Q How many letters over the course of Milliman's engagement
20 by the city has Milliman delivered to the city?

21 A Speaking for the pension side, it has been over a
22 hundred.

23 Q Okay. Now, was one of the things you were asked to do
24 here in 2012 to look at the city's contribution?

25 A Later in 2012, yes.

1 Q Okay. Let's move on then, but before I do that, let me
2 just ask you about something else.

3 MR. STEWART: Can we please put up on the screen
4 Exhibit 633, which is a demonstrative exhibit?

5 BY MR. STEWART:

6 Q Mr. Bowen, is Exhibit 633 in front of you?

7 A Yes.

8 Q Have you seen this before?

9 A I have.

10 Q What is Exhibit 633?

11 A It is -- it contains an equation and a pictorial diagram,
12 which is a very high-level description of how a pension plan
13 needs to stay in balance over time.

14 MR. STEWART: Your Honor, I would move into evidence
15 only for purposes of being a demonstrative Exhibit 633.

16 THE COURT: Any objections?

17 MR. WAGNER: No objection, your Honor. And just for
18 the record, Jonathan Wagner from Kramer Levin Naftalis &
19 Frankel on behalf of the COPs.

20 THE COURT: Thank you, sir.

21 MR. STEWART: And I think --

22 THE COURT: 633 is admitted.

23 (City Exhibit 633 received at 10:00 a.m.)

24 MR. STEWART: Sorry, your Honor.

25 MR. WAGNER: For demonstrative purposes.

1 BY MR. STEWART:

2 Q And Exhibit 633 sets forth an equation?

3 A Yes.

4 Q What is the purpose -- what is the explanatory purpose of
5 this equation?

6 A Over the long term, the inflows and the outflows of the
7 pension plan must be in balance in order for the plan to pay
8 the promised benefits.

9 Q Okay. Let's go through each of the letters here. What
10 does the letter "C" stand for?

11 A "C" stands for contributions.

12 Q And would that be the city contribution we talked about
13 earlier?

14 A Yes.

15 Q What does "I" stand for?

16 A "I" is investments.

17 Q And when you say "investments," what's being invested?

18 A There is a current pool of assets and an expectation of
19 future income over time.

20 Q Okay. Is the round blue figure -- is that -- does that
21 represent the current assets?

22 A That represents a tank, if you will, and if you think of
23 the assets as water, the tank is the trust. It holds the
24 assets.

25 Q Okay. And then what is "B"?

1 A "B" is benefits.

2 Q And when you say "benefits," what are you referring to?

3 A In this case, this is a -- we don't actually use this
4 equation, per se. It's not that simple. But that's a
5 measure of the liability for the benefits that have been
6 promised.

7 Q These are the benefits to be paid to retirees?

8 A Yes.

9 Q Okay. And how do you know what those benefits are?

10 A That's the -- one of the main purposes of conducting the
11 annual valuation.

12 Q Okay. And then "E" is our final letter. What is "E"?

13 A That is expenses.

14 Q Okay. And so tell us now that we've walked through this
15 how this model works.

16 A Okay. It's I'll say easy to conceptualize on a single
17 person. If there was one person in a pension plan, you would
18 effectively spend their career putting money in on the left
19 and earning a return on it, and then the pool would be
20 effectively full at the time of retirement, and during the
21 time of retirement the benefits would flow out.

22 Q And at various times in your work for the city, were you
23 asked to determine individual values for either "C" or "B" or
24 "I" or even "E"?

25 A We've worked with all of them over time.

1 Q Okay. And now let me ask you about the next assignment.
2 Later in 2012, were you asked to do something new by the
3 city?

4 A I believe the next assignment in late 2012 was to do a
5 simple forecast of employer contributions.

6 Q Of "C"?

7 A Correct.

8 Q And, once again, did you work with an actuarial valuation
9 report?

10 A Yes.

11 Q Do you know whether it was the ones we've already seen,
12 or was it a new report?

13 A I believe at the time our initial assignment, the 2011
14 was still the most recently published report.

15 Q So what did you do vis-a-vis the 2011 report?

16 A We looked at the report, and there are various I'll say
17 facts and figures in there of an actuarial nature. Using
18 those facts and figures and some extrapolation techniques, we
19 projected forward five years and used the methodology that
20 was in use to produce contributions in order to demonstrate
21 what the expected pattern of contributions was going to be.

22 Q Now, let me direct your attention now to 2013. Have you
23 heard of something called a pension task force?

24 A Yes.

25 Q What is or was the pension task force?

1 A The pension task force was a group of advisors that had
2 been retained by the city that was responsible for pension
3 matters.

4 Q Okay. And what sort of things, in a very general matter,
5 did the pension task force look at?

6 A The pension task force looked at a lot of things. On
7 this diagram, most of the focus was on -- most of the focus
8 of the tasks that came to Milliman was on benefits.

9 Q Okay. And I apologize if I've asked you already. Who
10 are the -- who are the members of the task force?

11 A The two members that interfaced with the most were Evan
12 Miller from Jones Day and Chuck Moore from Conway MacKenzie.

13 Q Was this before or was it after the city filed its
14 bankruptcy petition?

15 A The pension task force was formed in early 2013, so it
16 would have been before.

17 Q Okay. Now, let me ask you some definitions before we
18 move forward. Have you heard of something called an accrued
19 actuarial liability?

20 A Yes.

21 Q And that is sometimes called AAL, is it not?

22 A Yes, it is.

23 Q Okay. What is it?

24 A It is the measure that the actuary will determine in the
25 annual valuation report that represents the liability that is

1 categorized under "B" in this long-term equation.

2 Q Okay. So is it a present value or is it calculated in
3 some different way?

4 A It is a present value.

5 Q So the AAL is the present value of "B"?

6 A Correct.

7 Q Okay. Have you heard of something called an unfunded
8 accrued actuarial liability?

9 A Yes.

10 Q What is that?

11 A That is the difference between the present value of the
12 liability we were just discussing and the assets that are
13 currently on hand.

14 Q So if we look at our diagram here, that would have some
15 bearing on the level of the water in this blue tank we have?

16 A If there was a UAAL, unfunded actuarial liability, that
17 would be like saying the tank is not quite as full as we'd
18 like it to be today.

19 Q Okay. So just to summarize, the AAL is the "B" in our
20 diagram; correct?

21 A Correct.

22 Q And the UAAL would be if the tank wasn't as high up as it
23 ought to be?

24 A Correct.

25 Q Okay. Let me ask you about a couple of other terms.

1 Have you heard of something called an investment return
2 assumption?

3 A Yes.

4 Q What is that?

5 A That is the rate of return that, on average, you are
6 expected to earn on your invested assets in the future.

7 Q And how does it figure into the calculation we see in
8 Exhibit 633?

9 A In the first step and where the actuary spends most of
10 their time is in the determination of the "B," benefits, the
11 accrued liability. We calculate those on a nominal basis in
12 all future years, and to develop a present value, we will
13 discount them based on the expected investment return.

14 Q Okay. What is the relationship between the investment
15 return assumption and the level of the city's contributions?

16 A The higher the investment return assumption, you're
17 assuming that more of the ultimate benefits will be paid by
18 investment return, and in the short term, that depresses the
19 contribution level.

20 Q Okay. And the lower the investment return assumption,
21 what effect does that have?

22 A That's the opposite. That assumes that since you're
23 going to earn less on your investments, more contributions
24 would be needed over time, and it raises the short-term
25 contributions.

1 Q Okay. Have you heard of the term used "funding status"?

2 A Yes.

3 Q What is funding status as that term is used with respect
4 to public pension plans?

5 A Funding status is the assets divided by the liabilities.

6 Q Okay. And what does it -- what does it tell us?

7 A Higher funded status is better.

8 Q You have more funds?

9 A Yes.

10 Q Okay. Did there come a time in 2014 you were asked to do
11 something called a replication or a replication audit?

12 A Yes.

13 Q What is a replication?

14 A A replication is when an outside actuary, not the system
15 actuary, is asked to effectively take all of the inputs used
16 by the system actuary, program their own valuation system or
17 their own software, and attempt to reproduce similar results.

18 Q And when were you asked to do a replication audit?

19 A We were actually asked at some point in 2013.

20 Q Okay. And which systems were you asked to -- were you
21 asked to do one for both of the systems?

22 A Yes.

23 Q Okay. Now, I think you said that a purpose of this was
24 to check the work or duplicate the work of the system
25 actuary?

1 A That was part of it, yes.

2 Q Okay. And what role in that assignment did Gabriel,
3 Roeder's annual valuation reports play?

4 A That was really the fundamental document we looked to to
5 learn about the plan.

6 Q Okay. So look, if you could, at the following documents
7 which are before you.

8 MR. STEWART: And these, I believe, have been, once
9 again, stipulated into evidence, but let's put them up. It's
10 1001, 1004, 1023, and 1024. And, your Honor, as I said, I
11 think these came in under the operation of the pretrial
12 order, but for avoidance of data, I will move them into
13 evidence if there's no objection.

14 MR. WAGNER: That's fine. They were actually on our
15 exhibit list, so we -- no problem.

16 THE COURT: All right. All right. If they were not
17 previously admitted, they are now.

18 (COPs Exhibits 1001, 1004, 1023, and 1024 received at
19 10:09 a.m.)

20 BY MR. STEWART:

21 Q Okay. Now, in your replication audit, to spend a minute
22 on these, tell us, if you could, what these four exhibits
23 are.

24 A Well, I only see one on my screen, but I assume you have
25 two valuation reports or four valuation reports.

1 Q Yeah. You actually have them in your packet there.
2 There's a mound of paper. But let me ask you this. In your
3 replication that you did in 2014, which of these valuation
4 reports did you work with?

5 A Well, our task was to replicate the 2013 valuations.

6 Q And so would that be Exhibit 1023 and 1024?

7 A Yes. They are the 2013 valuations.

8 Q And which one is for the GRS?

9 A 1023 is GRS.

10 Q Okay. And the PFRS is 1024?

11 A Correct.

12 Q Okay.

13 A Yes.

14 Q Let's go through these reports so we have an
15 understanding of how they work, and let's do it with 1024, if
16 we could. Do you have that before you?

17 A You said 1024?

18 Q I did.

19 A Okay.

20 Q Yeah. And the cover, of course, is the cover, and the
21 second page is the table of contents; correct?

22 A Yes.

23 Q And the third and fourth page are the cover letter from
24 Gabriel, Roeder to the trustees of the system?

25 A Correct.

1 Q Okay. Let's now go, if we could, to page 4. And I
2 think -- is that 4? Yeah, there we go. Page 4. What is
3 page 4 of Exhibit 1024?

4 A Page 4 is a summary. You could best describe it as "B"
5 in our earlier equation, benefits, the present value of the
6 benefits payable by the system.

7 Q Okay. At the top it says "actuarial accrued liabilities
8 as of June 30th, 2013"?

9 A Correct.

10 Q And that's the term we talked about earlier?

11 A Yes.

12 Q And then we have a series of calculations here on the
13 table?

14 A Yes, yes.

15 Q Okay. Now, at the bottom -- at the very bottom of it, is
16 there a place where this report sets forth the actuarial
17 accrued liabilities for the System?

18 A Yes.

19 Q And where is that?

20 A That is the first line in the third box under "System
21 Totals."

22 Q Okay. And that number is \$3.89 billion?

23 A Correct.

24 Q Below that there's something called accrued assets.

25 A Yes.

1 Q What does "accrued assets" mean?

2 A In this case, I believe it is the smoothed value of
3 assets that is used in the contribution calculation.

4 Q Okay. And then at the bottom we have -- is that the
5 UAAL?

6 A Yes.

7 Q Okay. Let's keep going through the report. If we could,
8 let's turn to page 15. I think it's -- there we go. Do you
9 have page 15 before you?

10 A Yes.

11 Q What is page 15 and the pages following it?

12 A It's labeled "Summary of Benefit Provisions," and this is
13 where the actuary sets forth eligibility conditions and
14 resulting benefits that define what the members will receive.

15 Q Okay. And do you know where this information comes from?

16 A My understanding is that some of it may be set in
17 statute, and some of it is in collective bargaining
18 agreements.

19 Q Now, in your replication audit, your replication
20 procedure, what use did you make of this part of the exhibit
21 that summarized benefit provisions?

22 A One of the requirements of performing a valuation is that
23 we in our system code the benefits that members are eligible
24 for, so we started with this document.

25 Q Okay. Let's go, if we could, to page 21. What is page

1 21 and the pages after it? What do they set forth?

2 A These are summaries of what I call census data. It is
3 data regarding the members of the system.

4 Q Okay. And what does it say? What does it tell us about
5 the members of the system?

6 A These are summary tables that summarize the data which is
7 on each individual member's record of quantities that are
8 important for the pension valuation.

9 Q And what relevance does this have to your work in a
10 replication procedure?

11 A We need to know the membership of the system to be able
12 to value to perform the replication.

13 Q Let's go, if we could, now to page 31. 31 and the pages
14 after it, what do they set forth?

15 A These are assumptions, which is I'll say the third
16 component of running a valuation or doing a replication.

17 Q And what's the relevance of assumptions in this exercise?

18 A What we are trying to model in the determination of "B"
19 is the expected future cash flows that the system will
20 disgorge over time, and they are all contingent upon what the
21 members do, how long they work, how long they live, et
22 cetera.

23 Q Now, I've been asking you about Exhibit 1024, which is
24 the actuarial valuation report for the PFRS. Is the
25 structure of the report for the GRS similar?

1 A Yes.

2 Q Okay. So before I go further, let me ask you this. Does
3 Milliman have a calculation engine known as VAL 2000?

4 A Yes.

5 Q Who or what is VAL 2000?

6 A VAL 2000 is a software system developed and maintained by
7 Milliman for use in preparing valuations of pensions and
8 retiree healthcare systems.

9 Q Have you used VAL 2000 in your career at Milliman?

10 A Yes.

11 Q How often have you used it?

12 A Continuously.

13 Q How long since you joined Milliman have you worked with
14 VAL 2000?

15 A It was there when I joined, so continuously since 2001.

16 Q How well do you know the operation and features of this
17 software?

18 A Very well.

19 Q Okay. Now, what role did VAL -- did this software play
20 in the replication procedure you've described to us?

21 A I think you used the phrase "calculation engine."

22 Q I did.

23 A So VAL 2000 you can think of as a template that is
24 designed to accept inputs and then do the resulting
25 calculations.

1 Q Okay. And what inputs -- in this replication procedure
2 were inputs loaded into the software?

3 A That would be the three we just mentioned. The census
4 data is loaded into the software, the actuarial assumption
5 tables are loaded into the software, and we code the benefit
6 provisions.

7 Q Okay. From the report that we looked at?

8 A Correct.

9 Q Okay. And who did the loading of this information?

10 A Various members on staff.

11 Q And what was your role in terms of that part of the work?

12 A I guess the best way to characterize it is the analysts
13 on staff work under the direction of the consultants, so in
14 terms of some of the mechanical loading procedures, we set
15 forth what I call a job description.

16 Q Okay. And what role did you have in assuring that the
17 job description was adhered to?

18 A We have a series of peer review or checking that gets
19 done after those procedures are completed.

20 Q Okay. And once the data was loaded, it was then recited
21 in the software; correct?

22 A I'm not sure I understand the meaning of "recited."

23 Q The data was loaded into VAL 2000 --

24 A Yes.

25 Q -- is that right?

1 A Yes.

2 Q Was it at that point then saved and archived in the
3 system?

4 A Yes.

5 Q Is it still there?

6 A Yes.

7 Q Okay. Now, let's, if we could -- and did there come a
8 time when you, in fact, performed the replication procedure?

9 A Yes.

10 Q Okay. And what -- and did you report to the city what
11 you found?

12 A Yes.

13 Q What form was your report?

14 A That was a letter for each of the systems.

15 Q Okay. Let's, if we could, look at Exhibits 1008 and 491.
16 Mr. Bowen, do you have Exhibits 1008 and 491 before you?

17 A I'm working on it.

18 Q Okay.

19 MR. STEWART: Can you put up 491? Ah, there we go.

20 MR. WAGNER: I'm sorry. Can I get a copy of 491? I
21 don't see it in the book.

22 MR. STEWART: Is it not in the book?

23 THE WITNESS: Yes, I have them.

24 BY MR. STEWART:

25 Q Okay. All right. Before we go further, tell us what

1 these two exhibits are.

2 A 491 is our report on the replication of DGRS, and 1008 is
3 our report on the replication of DPFRS.

4 Q Who wrote these two letters?

5 A Myself and a colleague of mine.

6 Q And is your -- does your signature appear at the back of
7 each letter?

8 A Yes.

9 Q Okay. And before these letters went out, what did you do
10 to assure the accuracy of the contents of the letters?

11 A I was involved in the process all the way through,
12 drafting the letter, reviewing the results that are in the
13 letter.

14 MR. STEWART: Your Honor, I move admission of both
15 exhibits.

16 MR. WAGNER: No objection.

17 THE COURT: They are admitted.

18 (City Exhibit 491 and COPs Exhibit 1008 received at 10:19
19 a.m.)

20 BY MR. STEWART:

21 Q Okay. Let us, once again, deal with just the PFRS side
22 of this. That's Exhibit 1008. Do you have that before you?

23 A I do.

24 Q Okay. Let's go through it, if we could. We have a -- we
25 have the first page, and then on the second is something

1 called project description.

2 A Yes.

3 Q And just as a general matter, what is the project
4 description?

5 A The project description is to determine the June 30,
6 2013, actuarial liability for the PFRS.

7 Q Okay. And it refers, does it not, to the actuarial
8 valuation report we've been talking about?

9 A The 2012 report of DPFRS, yes.

10 Q And has the link to where it could be found on the
11 Internet?

12 A Correct.

13 Q Okay. Now, further down there's a paragraph entitled
14 "Investment Return."

15 A Yes.

16 Q Do you see that?

17 A I do.

18 Q Now, does this indicate that you ran this replication
19 using two different investment return assumptions?

20 A Yes.

21 Q One was eight percent, and one was 6.75 percent?

22 A Correct.

23 Q Where did the eight-percent assumption come from?

24 A That is the rate that is used in the valuation report.

25 Q And where did the 6.75-percent assumption come from?

1 A That was a request from the city.

2 Q Okay. As a result of this replication procedure, were
3 you able to determine the AAL for the system under these two
4 different investment return assumptions?

5 A Yes.

6 Q And let's look, if we could, at page 6 of the exhibit.
7 Do you see the table on page 6?

8 A Yes.

9 Q And what does the table on page 6 set forth for us?

10 A That is the results of our replication based on an eight-
11 percent investment return rate and a 6.75-percent investment
12 return rate.

13 Q Okay. Just for the record, what was the determination
14 you made when you applied the eight-percent investment return
15 assumption?

16 A 3.794 billion.

17 Q And when you applied the 6.75-percent investment return
18 assumption?

19 A 4.285 billion.

20 Q Okay. And I think earlier we talked about the actuarial
21 valuation report you were working with, and do I remember
22 correctly you were still working with the 2012 report or was
23 it the 2013?

24 A At this point in time, the 2012 was the most recent that
25 we had access to.

1 Q So let's look at Exhibit 1004 and, in particular, page 3
2 of our exhibit -- of that exhibit, I should say. What was
3 the AAL calculated by Gabriel, Roeder for this system for
4 that period of time?

5 A As of 2012, the AAL was 3.823 billion.

6 Q And how did it compare to what your replication procedure
7 determined?

8 A Well, actually that is a different date, so we did not
9 compare those two numbers.

10 Q I'm sorry. I had misunderstood. Let's look then at the
11 2013 actuarial valuation report. Do you have Exhibit 1024 in
12 front of you?

13 A I do.

14 Q Okay. Let's look, if we could, at the comparable table
15 in Exhibit 1024. That's on page 4 of the exhibit. Now, how
16 does the -- what did Gabriel, Roeder determine as of June
17 30th, 2013, was the AAL for the PFRS?

18 A 3.890 billion.

19 Q And how does that compare with the value you came up with
20 in your replication?

21 A It's in between two and three percent different.

22 Q Okay. Now let's go, if we could, to Exhibit 491. Do you
23 have Exhibit 491 before you?

24 A I do.

25 Q And Exhibit 491 is what?

1 A The report of our replication audit of DGRS.

2 Q Okay. And I think you described already the procedure.
3 Was anything done differently with GRS than you had done with
4 PFRS?

5 A No. The procedures were similar.

6 Q Let's look, if we could, at page 6 of Exhibit 491 and at
7 the table there.

8 MR. STEWART: If we could blow the table up, please.

9 BY MR. STEWART:

10 Q Now, the table has results under two different investment
11 return assumptions; correct?

12 A Yes.

13 Q One is 7.9 percent?

14 A Correct.

15 Q Where did that come from?

16 A That is the rate that is used in the annual actuarial
17 valuation.

18 Q Okay. And the other column has the investment return
19 assumption of 6.75 percent?

20 A Yes.

21 Q Where did that come from?

22 A That was requested by the city.

23 Q And so what did your procedure determine with respect to
24 the AAL for the GRS as of June 30th, 2013?

25 A Under the basis used in the valuation report, 3.601

1 billion and under the 6.75-percent return 3.978 billion.

2 Q Okay. Let's go, if we could, to Exhibit 1023, which is
3 in evidence, and let's go to page 4, please, A-4. It's the
4 one that in the lower right-hand corner has a control number
5 2982. There we go. This is the Gabriel, Roeder actuarial
6 valuation report for the GRS as of June 30th, 2013?

7 A Correct.

8 Q What had Gabriel, Roeder determined was the AAL for that
9 system on that date?

10 A 3.609 billion.

11 Q And how did that compare with the value you determined
12 using their investment return assumption?

13 A That was -- that differed by roughly \$8 million.

14 Q Out of a total of how much?

15 A 3.6 billion.

16 Q Okay. Now, after you had finished the replication audit,
17 did you -- did Milliman remain involved in the city's
18 matters?

19 A Yes.

20 Q And in the months following it, what -- without getting
21 into what you did, what generally was your role?

22 A We were asked to prepare various analyses using our
23 replication as a baseline in making adjustments.

24 Q Okay. And there was a mediation process going forward,
25 was there not?

1 A There was.

2 Q Okay. And without saying what you did, just tell us what
3 was your role in the mediation?

4 A We were --

5 MR. PEREZ: Your Honor, excuse me. I'm going to
6 object. If he's not going to say what his role is, then --

7 THE COURT: You can stay seated. You don't have
8 to --

9 MR. PEREZ: Yeah.

10 THE COURT: -- injure your back making objections to
11 evidence.

12 MR. PEREZ: Your Honor, to the extent that he's
13 going to go into the mediation, we're obviously not going to
14 be -- not going to be able to ask him any questions, so I'm
15 not sure what the intent of the question is.

16 MR. STEWART: I'm not sure what the intent of the
17 question was either actually, Judge. I'm going to ask the
18 witness this.

19 BY MR. STEWART:

20 Q After that, did you --

21 THE COURT: That is a withdrawal of the question,
22 yes.

23 MR. STEWART: Withdrawal.

24 BY MR. STEWART:

25 Q After that, did you remain involved in supporting the

1 mediation process?

2 A Yes.

3 Q Thank you. Now, by now, by the time we get to 2014,
4 you've been working with the city's two pension plans for how
5 long?

6 A We started in the middle of 2012.

7 Q About two years?

8 A With some gaps, but, yes, two years.

9 Q How well would you say you knew the plans by then?

10 A We had to know them very well to be able to perform the
11 replication.

12 Q Now, have you heard the term before a frozen plan?

13 A Yes.

14 Q What is a frozen plan?

15 A There's more than one variety of frozen plans, but the
16 most common definition would be where there is a freeze date.
17 Employees who were hired after the freeze date do not become
18 members of the plan, so they will not accrue benefits under
19 the plan. And employees who are working as of the freeze
20 date will cease accruing any benefits in the future.

21 Q Okay. Who makes the decision to freeze a plan?

22 A In my experience, in a corporate sector plan the plan
23 sponsor sometimes has the unilateral right to do so.
24 Sometimes it is subject to collective bargaining.

25 Q Let me direct your attention, if I could, to the date of

1 July 18, 2013. Do you understand that was the date --

2 THE COURT: Excuse me one second.

3 MR. STEWART: Yes.

4 THE COURT: The answer you just gave, you said that
5 was in the corporate setting?

6 THE WITNESS: Yes.

7 THE COURT: Is there another answer for the public
8 setting -- sector setting?

9 THE WITNESS: Well, the plan freezes are very common
10 in the corporate sector, very uncommon in the public sector,
11 and I think that's really a legal matter as to who gets to
12 freeze the plan that I can't answer to.

13 THE COURT: Thank you, sir.

14 BY MR. STEWART:

15 Q So let me direct your attention, if I could, to July 18,
16 2013. Do you understand that was the date upon which the
17 city filed its petition in bankruptcy?

18 A Yes.

19 Q As of that date, do you know whether or not the GRS plan
20 was frozen?

21 A It was not.

22 Q How do you know that?

23 A There was no piece of information that we provided, were
24 provided or found that said the plan was frozen.

25 Q And in your dealings with the city and with the plan, who

1 said anything to you about it being frozen?

2 A Nobody said anything to us about it being frozen.

3 Q And as of that date, can you tell us whether or not the
4 PFRS plan was frozen?

5 A It was not.

6 Q Subsequent to that time, have there been proposals that
7 the plan should be frozen?

8 A Yes.

9 Q Do you know whether that has happened yet?

10 A I do not.

11 Q Now, let me ask you a couple of --

12 MR. STEWART: Let's put up, if we could, Exhibit
13 632.

14 BY MR. STEWART:

15 Q Mr. Bowen, do you see Exhibit 632 on the screen in front
16 of you?

17 A Yes.

18 Q What is Exhibit 632?

19 A There is a formula at the top which is a -- I'll say the
20 generic template of how a final average pay pension plan
21 calculates a benefit, and there is a diagram below that which
22 is illustrative of a member moving through their working
23 career and their retirement years.

24 Q Okay. So the formula -- and who prepared this?

25 A Jones Day.

1 Q And have you looked at it?

2 A Yes, I have.

3 Q Is it accurate?

4 A It's a very high-level representation, so, yes, it's
5 accurate.

6 MR. STEWART: Your Honor, I would move 632 into
7 evidence as a demonstrative exhibit only.

8 MR. WAGNER: That's fine, your Honor.

9 THE COURT: All right. For that purpose, it is
10 admitted.

11 (City Exhibit 632 received at 10:31 a.m.)

12 BY MR. STEWART:

13 Q So, if we could, Mr. Bowen, let's look at the top.

14 There's a formula. Could you tell us, first of all, what the
15 formula says and, second, what it is?

16 A Okay. It says pension equals "X" percent times service
17 times final average pay, and this formula is used to
18 determine the pension that a member will receive based upon
19 the service they have rendered and their final average pay
20 and the "X" percent multiplier, which is part of the pension
21 plan design.

22 Q So where does the "X" percent come from?

23 A The "X" percent is -- I believe that's a statutory
24 figure, but it is set at the -- it is set as part of the
25 benefit design to determine the overall level of the benefit.

1 Q What does "service" mean?

2 A Service is basically the amount of time that the member
3 works for the city.

4 Q Okay. And what is final average pay?

5 A Final average pay is in most cases for the city's plans
6 three highest years of pay at the end of the period of
7 service.

8 Q Okay. So let's look at our chart. On the far left
9 corner we have DOH. What does that stand for?

10 A The date of hire.

11 Q Okay. Now, have you heard the term "accrual" as that
12 term is used in pension plans?

13 A Yes.

14 Q What does "accrual" mean?

15 A As a synonym, you could use the word "earned." You
16 accrue your benefits over your career. You're earning your
17 benefits as you're working.

18 Q So if I worked for the city, and after one year when do I
19 start accruing my benefits?

20 A You start accruing them upon hire.

21 Q The day I started?

22 A Yes.

23 Q Okay. Now, have you -- when do my benefits stop
24 accruing?

25 A When you separate from service.

1 Q Okay. Now, is there a term called "vesting"? And there
2 is vesting on our exhibit as well.

3 A Yes, there is.

4 Q What does "vesting" mean?

5 A If you discontinue your service with the plan sponsor
6 prior to reaching the vesting date, in this example, ten
7 years, you forfeit your right to receive a pension.

8 Q And what is the vesting period for the GRS and the PFRS?

9 A With some exceptions, it's ten years.

10 Q Okay. So back to me again. Let's assume I work for the
11 city and quit in year nine. What are my vested benefits?

12 A None.

13 Q Why?

14 A Because you have not rendered the requisite period of
15 service.

16 Q How many years have I accrued?

17 A Nine.

18 Q But I still get no benefits?

19 A Correct.

20 Q If I work to 11 years, then quit, how many years have I
21 accrued?

22 A Eleven.

23 Q And how many have I vested?

24 A Eleven.

25 Q So what benefits do I get under the formula here, and

1 what's the service -- the value of the service variable in
2 our equation?

3 A At that -- in that example, it would be 11.

4 Q Okay. Now, up here we have something called final
5 average pay. Let me ask this. What do the words "final pay"
6 mean in the phrase "final average pay"?

7 A They're meant to denote the pay near the end of your
8 period of service, end of your career.

9 Q And average is the three years you told us about?

10 A Yes, for these systems.

11 Q Now, in calculating the AAL for a system, is one of the
12 benefits a system takes into account the future cost it's
13 going to have for people who have not retired yet?

14 A Yes.

15 Q How does the system know what their final average pay is?

16 A One of the actuarial assumptions used in the valuation is
17 a projection of salaries over time.

18 Q So the system projects the final average pay of people
19 who have not yet reached that segment of their career where
20 they measure the final average pay; is that correct?

21 A Everything is projected, so, yes.

22 Q Okay. Now, what assumptions does -- do these two plans
23 use to project that final average pay?

24 A Well, there -- I mean there is a salary assumption that's
25 the baseline for projecting what the salary would be, and

1 there are additional assumptions that determine the
2 probability of separating from service in each future year,
3 termination if you're not retirement eligible and then
4 ultimately retirement.

5 Q And then are there assumptions about wage increases and
6 inflation?

7 A I kind of consider them all baked into the salary
8 assumption scale, yes.

9 Q But they're part of the salary assumption?

10 A Yes.

11 Q Where do we find that?

12 A They can be listed in the valuation report.

13 Q So the actuarial valuation reports that are already in
14 evidence set those forth?

15 A Yes.

16 Q And by the way, are both GRS and PFRS final average pay
17 plans?

18 A Yes.

19 Q Now, let's move on. Did there come a time more recently
20 in April when you were asked to perform other calculations
21 from the information stored in the VAL 2000 system?

22 A Yes.

23 MR. STEWART: And let's put up, if we could --
24 pardon me -- Exhibits 473 -- pardon me -- and 474. And, your
25 Honor, both of these are also exhibits that the COPs parties

1 have put on their list as 1011 and 1012 respectively.

2 BY MR. STEWART:

3 Q Before we go further, Mr. Bowen, could you just tell us
4 what these two letters are?

5 A Okay. Exhibit 1011 is regarding DPFERS, and we were asked
6 to calculate the funded status in 2023 under a variety of a
7 specified scenarios.

8 Q And what is the other letter?

9 A That concerns DGRS, and we were asked -- we were given a
10 desired target to be hit in terms of funded status in 2023
11 and were asked to calculate the employer contributions that
12 would be required to do so.

13 Q And who prepared these two letters?

14 A They were both prepared by Milliman.

15 Q Okay. And did you -- pardon me. What was your role in
16 the letters?

17 A I was involved in the process from beginning to end.

18 Q And did you sign both?

19 A Yes.

20 Q And what did you do before signing to assure yourself of
21 the accuracy of the matters set forth in the two letters?

22 A As I mentioned before, we have a series of peer review
23 checks, and they apply to the various portions of the overall
24 procedure.

25 MR. STEWART: Your Honor, I'd move into evidence

1 both exhibits.

2 MR. WAGNER: No objection.

3 THE COURT: Thank you. They are admitted.

4 (City Exhibits 473 and 474 received at 10:37 a.m.)

5 BY MR. STEWART:

6 Q Let's start, if we could, with Exhibit 473, and I notice
7 I'm using the city's exhibit number, and you used the COPs
8 exhibit number. Why don't we use the city's exhibit number
9 for sake of simplicity, and that is 473?

10 A Okay.

11 Q And if we could, let's spend a minute on the structure of
12 the letter here. Once again, the first page sets forth some
13 background of the scope and intent of the exercise; is that
14 correct?

15 A Yes.

16 Q And then on page 2 we have the paragraph entitled
17 "Project Description"?

18 A Correct.

19 Q What is the project description of this project?

20 A There are several bullet points of inputs that were
21 provided to us, and we were asked to use all of those and
22 project the funded status -- excuse me -- and also the
23 unfunded liability of DPFERS in 2023.

24 Q Okay. So at the very first lines -- pardon me -- speaks
25 of estimating the funded status and unfunded liability for

1 that Retirement System; correct?

2 A Yes.

3 Q And then what are the bullet points again?

4 A These are the series of inputs that were provided to us
5 by the city to be used in this exercise.

6 Q And what role did you have in choosing those inputs?

7 A We did not choose them. They were provided to us.

8 Q In other words, they were givens in this work?

9 A Correct.

10 Q All right. What did you do then with these assumptions?

11 A I'll take the second bullet point to start with, a 55-
12 percent reduction to future COLAs moving from two and a
13 quarter percent to one percent. That is a change to "B," so
14 we took our baseline valuation and made that adjustment as
15 we're going to be determining a different value of "B."

16 Q Okay. Once again, were you using the VAL 2000 software
17 that you've described to us?

18 A Yes.

19 Q And that had the other values in it from your previous
20 work. Am I right?

21 A Yes.

22 Q Okay. Now, after putting these assumptions into the
23 calculation engine, did you get results? Did the results
24 come out?

25 A Yes.

1 Q And let's look at the next page, the table in the next
2 page. What does that table set forth?

3 A We were asked to value two separate employer contribution
4 streams and two separate market value rates of return for
5 2013-14, which led us to four scenarios, and the results are
6 in the two right-hand columns. The third column is the
7 projected funded status under each scenario, and the final
8 column is the estimated dollar amount of the unfunded
9 liability in 2023.

10 Q So if we take the first row, that has an assumption of
11 employer contributions of \$260.7 million and a market rate of
12 return of 11.9 -- 59 percent; correct?

13 A Yes.

14 Q And those are the assumptions you were given?

15 A Yes.

16 Q And then the next two columns show us what?

17 A The projected results in 2023 under those assumptions.

18 Q Okay. And you were being asked to forecast what the
19 situation would be in 2023; correct?

20 A Yes.

21 Q Okay. Now, if we go to the very end, just a few pages
22 back there are a series of tables. Just generally can you
23 tell us what these are?

24 A Yes. We were asked -- in addition to providing the
25 results on page 3, we were asked to provide year-by-year

1 information on various items, assets, liabilities, cash
2 flows, from the period 2014-15 up through 2023.

3 Q I see an abbreviation BOY here. What does BOY stand for?

4 A Beginning of year.

5 Q Okay. And if we look at this particular page -- I guess
6 it's Exhibit 1 -- and the table, we have the actuarial
7 accrued liability at BOY. Do you see that?

8 A I do.

9 Q Okay. And then below that unfunded liability at BOY;
10 correct?

11 A Yes.

12 Q Okay. And if you go all the way over to the right, does
13 that -- do those numbers sum up the year-by-year values in
14 those rows?

15 A Yes. Those are the year-by-year values.

16 Q Okay. Let's now, if we could, look at Exhibit 474. And
17 this is the letter you wrote with respect to the GRS. Am I
18 right?

19 A Correct.

20 Q So let's start again with page 2 in the project
21 description.

22 MR. STEWART: And let's blow up that first
23 paragraph.

24 BY MR. STEWART:

25 Q And what was the project that you were asked to do that

1 is recounted here in Exhibit 474?

2 A In this situation, the target was set as having a 70-
3 percent funded ratio, and that's the funded status we
4 referred to earlier, in 2023. We were given a variety of
5 input parameters and asked to solve for the amount of
6 employer contributions that would be needed based on those
7 parameters to hit the goal.

8 Q Okay. What assumption were you given by the city in
9 terms of the investment return assumption?

10 A This was 6.75 percent.

11 Q Okay. And then am I correct that in addition to that,
12 there were city-specified annual contributions to the DWSD?

13 A The city specified the methodology, yes.

14 Q Okay. And then there was going to be a recoupment from
15 the annuity savings fund?

16 A Yes.

17 Q Did both of those require you to have the system do some
18 calculations before you could come up with a final answer?

19 A Yes.

20 Q Okay. So let's, if we could, go to the next page. And
21 by the way, let's just frame this a little bit. One of the
22 things you had to do was to determine the DWSD contribution
23 projection?

24 A Yes.

25 Q And the other was the ASF recoupment?

1 A Yes.

2 Q So let's go through those in that order. The top of the
3 next page, page 3, is that the section where you deal with
4 the contribution projection?

5 A That's the beginning of the section, yes.

6 Q Okay. And, once again, we have bullet points. What are
7 those bullet points?

8 A Those are the parameters that were used in the DWSD
9 contribution projection.

10 Q Okay. Now, if we look at the main body of that
11 paragraph, it -- oops -- refers to a city-specified
12 contribution schedule. Do you see that?

13 A Yes.

14 Q And what was that contribution schedule that the city
15 specified?

16 A I'll say to be maybe more precise, the city specified
17 that we should do a valuation of DWSD effectively only, a
18 mini valuation, their portion of the overall system, and once
19 that unfunded liability is known to develop a nine-year
20 contribution.

21 Q Okay. And did you do that?

22 A Yes.

23 Q Let's look, if we could, at page 6 of our exhibit. And
24 do you see the header that says "results"? Okay.

25 A Yes.

1 Q Does that first paragraph set forth what you determined
2 when it came to the DWSD contribution?

3 A Yes.

4 Q And what did you -- what did you determine?

5 A It's in the last sentence, annual contribution of 45.4
6 million per year.

7 Q Okay. And as part of this, did the system also determine
8 the unfunded liability for DWSD as of July 1, 2014?

9 A Yes.

10 Q And what was that number?

11 A That is the 292.1 million in the second line.

12 Q Okay. Now, I think we were talking about the recoupment
13 from the annuity savings funds, and let's go, if we could,
14 now to page 3, to the very bottom of page 3.

15 MR. STEWART: Let's blow that up, if we could.

16 BY MR. STEWART:

17 Q Under ASF recoupment, it talks about the city providing
18 census data file. Do you see that?

19 A Yes.

20 Q Who provided the census data file to you?

21 A It was actually provided to us by Conway MacKenzie.

22 Q And who from Conway MacKenzie?

23 A Chuck Moore.

24 Q Okay. And what was this data file?

25 A This was a data file, as it mentions here, 13,650

1 members, so that's not everybody, but that is the subset of
2 members that the city deemed to have received excess interest
3 credits in their accounts.

4 Q Okay. Let's go to the next page, please. Let's look at
5 the top carryover paragraph. That's all we need to see.
6 Just reading, it says the interest credits were 387.4 million
7 as of June 30th, 2013; is that correct?

8 A Yes.

9 Q Now, then you did procedures against that data file;
10 correct?

11 A Yes.

12 Q Fair to say you were not able to match all the census
13 data?

14 A Yes.

15 Q Let's look at the table, the line that says "total."
16 What does that represent?

17 A Well, we received this census data file separate from the
18 census data that we already had in VAL 2000 in our
19 replication, so the first task was to match these excess
20 interest credit amounts by individual member into our
21 valuation system, and they did not all match.

22 Q So in your table you have numbers of people. You also
23 have dollar numbers.

24 A Yes.

25 Q What do those two numbers add up to?

1 A The count of people adds up to the 13,000-some-odd that
2 was on the last page, and the excess interest amounts add up
3 to the 387.4 million at the top of this page.

4 Q Okay.

5 MR. STEWART: Now, let's, if we could, scroll down
6 to the next table. Blow that up.

7 BY MR. STEWART:

8 Q And at the top the language says, "For this analysis, the
9 maximum recoupment amount for an individual member was capped
10 at 20 percent of the highest ASF balance during the excess
11 interest determination period." Who capped it at 20 percent?

12 A That was a decision made by the city.

13 Q Not you?

14 A No.

15 Q Okay. So what does this table show us?

16 A This table shows that once the -- I'll say the original
17 excess interest amount that was calculated was subjected to
18 the cap, the total possible recoupment amount, which is in
19 the third column, was reduced.

20 Q To what number?

21 A 226.5 million.

22 Q Okay. And was that the number you took into account when
23 you went back to the beginning to determine the contribution
24 level the city would have in the coming years?

25 A Yes. This was worked into this valuation pass.

1 Q Now, before I --

2 MR. STEWART: Let's go to the next page, if we
3 could, and before we leave this subject, could you blow up
4 the top three bullet points?

5 BY MR. STEWART:

6 Q Was there a methodology that the city was going to use to
7 recoup these excess payments from the ASF?

8 A Yes.

9 Q And fair to say there were three categories of people
10 that had to be recouped from?

11 A Yes.

12 Q And tell us, if you could, generally what the recoupment
13 method was.

14 A Okay. What's highlighted on the screen now is for active
15 members and deferred vesteds, deferred vesteds being members
16 who have ceased working for the city but are not yet in pace;
17 that is, receiving a benefit. So, quite simply, the approach
18 in our valuation procedure was that if a member's excess
19 interest amount was lower than the current value of their
20 account, it would be subtracted, and that was it.

21 Q Just offset?

22 A Just offset directly, yes.

23 Q Second category?

24 A There are members who have a larger excess interest
25 amount than their current account because there is the

1 ability to withdraw some funds while in service, so for those
2 members it was a two-part test subtracting the ASF account to
3 the extent possible and then for the remainder of the amount
4 to be recouped projecting an offsetting against the ultimate
5 expected pension.

6 Q Okay. And how did you determine how to -- what the
7 amount of the offset should be?

8 A The amount of the offset was -- as summarized in the
9 chart on the preceding page, it was the excess interest
10 amount provided by the city ultimately subjected to the 20-
11 percent cap.

12 Q Okay. And was this done in a sense with a reverse
13 annuity; in other words, a certain amount would be deducted
14 from the benefit check?

15 A Yes.

16 Q And how was that calculated?

17 A To convert a lump sum to an annuity, we have an interest
18 and a mortality assumption.

19 Q Okay. Is that something you came up with?

20 A It was provided to us by the city.

21 Q Okay. And the last category? Who were they?

22 A The third bullet point here is really a subset of the
23 second, and these are -- this is the specific class of
24 members who have no account, so there is no subtraction
25 possible, and the entire recoupment amount is then projected

1 and offset against the pension.

2 Q Okay. Now, lets go, if we could, to page 6 and to the
3 last paragraph on the page. Now, by the time -- this is the
4 results paragraph for your letter; is that correct?

5 A Yes.

6 Q Okay. Now, by the time you've gotten here, you've done
7 the DWSD calculation; correct?

8 A Correct.

9 Q The ASF calculation; correct?

10 A Correct.

11 Q And you're now able to finish the calculation you were
12 asked to do?

13 A Yes.

14 Q What did you determine?

15 A Well, we were provided with certain specified inputs, so
16 we used those, and that's the 150.8 million from non-DWSD
17 sources. We calculated the DWSD based upon the methodology,
18 and that became an input. In total what we did is we
19 calculated the total amount of employer contributions needed
20 during this time period, and since there were certain -- you
21 know, those two streams of specified employer -- two streams
22 of specified contributions, we then determined the residual
23 employer contribution that would be needed to hit the 70-
24 percent funded target.

25 Q Okay. So the bullet points, once again, are either

1 assumptions given to you or the results of your previous
2 calculations you just told us about; correct?

3 A Yes.

4 Q So let's look at the main paragraph. What is it you
5 estimated would be the additional contribution per year from
6 the employer from 2015-16 to 2022-23 to have a 70-percent
7 funded status as of the end of fiscal year 2023?

8 A \$19.9 million per year.

9 Q Okay. Based on all the assumptions that you see here?

10 A Yes.

11 Q And based on the other calculations in your work;
12 correct?

13 A Yes.

14 MR. STEWART: Okay. Thank you, Mr. Bowen. That's
15 all I have.

16 THE COURT: All right. Let's take a brief recess
17 now, reconvene at 11:10, please, for cross-examination.

18 THE CLERK: All rise. Court is in recess.

19 (Recess at 10:54 a.m., until 11:12 a.m.)

20 THE CLERK: All rise. Court is back in session.

21 You may be seated.

22 MR. WAGNER: Your Honor, again, Jonathan Wagner on
23 behalf of the COPs. I have binders -- may I pass them out --
24 that have the exhibits?

25 THE COURT: Yes, please.

1 MR. WAGNER: May I proceed?

2 THE COURT: Yes, sir.

3 CROSS-EXAMINATION

4 BY MR. WAGNER:

5 Q Mr. Bowen, nice to see you again. You're dressed a
6 little bit better than last time I saw you last night in the
7 elevator.

8 A Thank you.

9 Q Mr. Stewart took you through some of the work that you
10 did or Milliman did in connection with this matter; correct?

11 A Yes, he did.

12 Q But he didn't take you through all the work, did he?

13 A He did not.

14 Q And you gave some testimony about the 6.75 rate of
15 return. Do you recall that?

16 A Yes.

17 Q And Mr. Stewart showed you several letters that Milliman
18 prepared in connection with this matter?

19 A Yes.

20 Q But he didn't show you your November 4, 2013, letters,
21 did he?

22 A He did not.

23 Q And in those letters Milliman concluded that a return
24 assumption of 7.2 percent would better reflect the expected
25 investment returns for both plans net of expenses without any

1 bias; correct?

2 A You used the phrase "better reflect." I would say that
3 was the calculation of median expected return.

4 THE COURT: Is the letter you're referring to in
5 evidence?

6 MR. WAGNER: Yes, it is, but we'll put them up on
7 the screen. Can you put up COPs Exhibit 1028, which is City
8 Exhibit 495? There's been no objection.

9 BY MR. WAGNER:

10 Q Can you turn to page 4 of the letter in your book or you
11 can look at it on the screen?

12 A It's rather tight up here for the book.

13 Q Okay. If you look at it on the screen, the paragraph
14 beginning "Based on the above results," do you see that?

15 A I do.

16 Q Can you read that, sir?

17 A "Based on the above results, we believe that an
18 assumption of 7.2 percent would better reflect expected
19 investment returns net of plan investment expenses and
20 provide an unbiased expectation of future results."

21 Q And that's with respect to GRS; correct?

22 A I can't tell from looking at this page.

23 Q Well, if you look at the first page of the document,
24 you'll see that it pertains to GRS. Can you turn to page 1?
25 Do you see that?

1 A Yes. This says DGRS.

2 MR. WAGNER: And can you put up Exhibit 1029, City
3 Exhibit 496?

4 BY MR. WAGNER:

5 Q That's your letter with respect to PFRS; correct?

6 A Yes, it is.

7 Q And can you turn to page 4? Same paragraph, "Based on,"
8 can you read that, sir?

9 A "Based on the above results, we believe that an
10 assumption of 7.2 percent would better reflect expected
11 investment returns net of plan investment expenses and
12 provide an unbiased expectation of future results."

13 Q And that's important information, isn't it?

14 A I believe that it is.

15 Q And at the time you wrote these letters, you believe the
16 recommended investment rate assumptions you presented were
17 the best recommendations based on the data available to you;
18 correct?

19 A At the time, yes.

20 Q And you don't have any concerns or issues with respect to
21 the investment returns that you recommended in those letters;
22 correct?

23 A No, I do not.

24 Q And Milliman did the best job it could coming up with the
25 7.2 percent; correct?

1 A Yes, we did.

2 Q And you did the best job you could; right?

3 A Yes, I did.

4 Q And there are no mistakes in those letters, are there?

5 A They've been through our peer review process. I will
6 assume there are no mistakes.

7 Q Very heavily vetted; correct?

8 A Correct.

9 Q The letters were cc'd to people from the city; right?

10 A They were.

11 Q The letters went to Evan Miller of Jones Day. You know
12 who he is?

13 A They were addressed to him, yes.

14 Q And you have confidence in those numbers, don't you?

15 A Yes.

16 Q And you stand by those letters?

17 A Yes.

18 Q And, by the way, the period in those letters, if I'm
19 right, is you did a 30-year analysis and a 75-year analysis;
20 correct?

21 A I would need to see the chart put in front of me, but we
22 look at several different time durations in our capital
23 market assumptions model.

24 Q Well, can you look at page 4, sir, and confirm to me on
25 either of those documents that you did a 30-year analysis and

1 75-year analysis?

2 A Yes. The table shows one year, thirty years and seventy-
3 five years.

4 Q And of those, you believe the 75-year was the best
5 analysis to use; correct?

6 A Yes, for an ongoing pension plan, absolutely.

7 Q Now, Mr. Stewart also showed you numbers concerning
8 actuarial accrued liability; right? Do you recall that?

9 A Yes, he did.

10 Q He didn't show you the unfunded actuarial accrued
11 liability numbers, did he?

12 A For DWSD, I believe we discussed that, not for the
13 systems in total.

14 Q But he didn't put that up on the screen. He just went
15 through the liabilities; right?

16 A Yes.

17 Q And you have to subtract the assets from the liabilities
18 to determine the unfunded portion; correct?

19 A That is true.

20 Q Okay. Now, let's go back to the beginning. Would you
21 believe -- would you agree with me, sir, that it's important
22 for an actuary to get -- to use the right input?

23 A It's very difficult to answer that question the way it's
24 asked because I'm not aware of a definition of the right
25 inputs.

1 Q Let me rephrase it. It's important for an actuary to use
2 accurate inputs?

3 A I would give you the same response.

4 Q You have your deposition transcript at the front of the
5 binder. Can you look at it, sir?

6 MR. STEWART: Page and line?

7 MR. WAGNER: 157, line 10.

8 BY MR. WAGNER:

9 Q Do you have it there, sir?

10 A I do.

11 Q Were you asked the following question, and did you give
12 the following response at your deposition?

13 "Question: Well, with respect to the inputs you
14 just mentioned, am I right that it's important to
15 use accurate inputs?

16 Answer: Generally speaking, it's important to
17 use accurate inputs."

18 Did you give that answer?

19 A That is reflected in the transcript.

20 Q And would you agree with me that it's important for an
21 actuary to use reasonable assumptions?

22 A I would agree with that.

23 Q And that's something you strive to do; correct?

24 A Yes.

25 Q And would you agree with me that Detroit is a very

1 important assignment?

2 A Yes, I would.

3 Q That's why we're all sitting here; right?

4 A Yes, it is.

5 Q Okay. Let me switch gears for a second and ask you about
6 Mr. Fornia, who's been retained as an expert for the COPs.

7 You know Mr. Fornia; right?

8 A I do.

9 Q And you've worked with him?

10 A Yes, I have.

11 Q And you've invited him to speak at at least one Milliman
12 event?

13 A Yes.

14 Q Presentation was well-received by Milliman?

15 MR. STEWART: Objection, your Honor. What's the
16 relevance of this? And I don't think vouching or reverse
17 vouching for experts is appropriate.

18 MR. WAGNER: It's a point that Mr. Hackney raised.
19 I could call him as part of our direct case, but --

20 THE COURT: I'm not sure you could actually.

21 MR. WAGNER: Okay.

22 THE COURT: The objection is sustained.

23 BY MR. WAGNER:

24 Q Now, I'm right that Milliman performed an actuarial
25 exercise to calculate the size of the pension claims; right?

1 A No.

2 Q I'm sorry?

3 A No. I would not say that's correct.

4 Q Okay. Well, can you look at your April 17 letter?
5 That's Exhibit 1033.

6 A I have a May 5th letter, 1033.

7 Q Okay. And if you look at page 2, this is a letter
8 concerning GRS; correct?

9 A Yes. I apologize. I thought you were talking about did
10 Milliman determine the claim. Milliman did allocate the
11 claim for --

12 MR. STEWART: Object. This could be fixed, but the
13 letter is not properly redacted to eliminate mediation
14 privileged material.

15 MR. WAGNER: I'm not -- I don't know what they're
16 referencing, but I'm obviously not going to go into any
17 material that may be in here that should be redacted.

18 MR. STEWART: Well, I'm not suggesting you are.

19 THE COURT: Well, hold on one second. What exhibit
20 number are we on here?

21 MR. WAGNER: This is Exhibit 1033 for which there
22 was no objection posed by the city in the pretrial order.

23 THE COURT: Is it in evidence?

24 MR. STEWART: I don't believe it is, Judge.

25 MR. WAGNER: Well, it's technically in evidence

1 based on your Honor's ruling that unobjected to documents are
2 in evidence, but we can -- we will fix whatever needs to be
3 fixed if there is something that needs to be fixed.

4 MR. STEWART: I have no objection to fixing it. I
5 just wanted to make sure before it goes into a public record
6 that it is -- that the redaction issue is fixed.

7 THE COURT: Okay. Let me ask the two of you to just
8 work that out and --

9 MR. WAGNER: That's fine.

10 THE COURT: -- let me know.

11 MR. WAGNER: That's fine. And let me just go back
12 and make clear that I move Exhibits 495, which is our Exhibit
13 1028, and 496, which is 1029, into evidence.

14 MR. STEWART: No objection.

15 MR. WAGNER: Okay.

16 THE COURT: All right. They are admitted.

17 (City Exhibits 495 and 496, COPS Exhibits 1028 and 1029
18 received at 11:23 a.m.)

19 BY MR. WAGNER:

20 Q Okay. Now, sir, do you see under aggregate claim the
21 paragraph lists assets for GRS as about 2.099 billion;
22 correct?

23 A I see that.

24 Q Okay. And if you turn a few pages -- it's actually a
25 page that Mr. Stewart showed you. If you turn to the April

1 17 letter, which is attached to this letter, and that's how
2 it was produced to us, if you turn to page 6 of the April 17
3 letter, do you see that there are assets -- I'm sorry -- that
4 there are liabilities of 3978 with a 6.75 return rate? Do
5 you see that?

6 A Yes.

7 Q So 3978 in liabilities minus 2.099 in assets is about
8 1.879 billion; correct?

9 A I didn't follow the math that fast, but that's in the
10 right neighborhood.

11 Q Okay. And can we agree that that's the number in the
12 disclosure statement that sets out the size of the GRS claim,
13 or should I -- do I have to show you the disclosure
14 statement?

15 A No. I can agree that that's the number.

16 Q Okay.

17 MR. WAGNER: That's, your Honor, page 38 of the
18 disclosure statement.

19 BY MR. WAGNER:

20 Q Now, let's go through the exercise with respect to PFRS.
21 Can you turn to Exhibit 1034 in the book, page 2 of that
22 document?

23 MR. STEWART: Objection. Your Honor, we have the
24 same redaction issue with this exhibit, although I assume we
25 can work it out.

1 MR. WAGNER: That's fine.

2 THE COURT: Thank you.

3 BY MR. WAGNER:

4 Q Do you see under aggregate claim you list overall
5 liabilities of 4.825 billion? Do you see that?

6 A Yes.

7 Q And you see assets of 3.035 billion? Do you see that?

8 A Yes.

9 Q And that's a net of about 1285 -- 1.25 billion?

10 A Yes, it is.

11 Q And would you take my word for it that that's the amount
12 in the disclosure statement for the PFRS claim?

13 A I will.

14 Q So if I'm right, it's fair to say that the figures for
15 the amount of the claim came from these letters; correct?

16 A That's fair.

17 Q Okay. And, again, you use a 6.75 rate here; right?

18 A Yes.

19 Q Didn't use the risk-free rate?

20 A We did not use a risk-free rate.

21 Q Okay. Now, let's get into what's part of the claim. For
22 both GRS and PFRS in these letters, you use something called
23 the entry age normal method; right?

24 A Yes.

25 Q Okay. And the assumption underlying those letters was

1 that the plans would be ongoing; correct?

2 A This was a replication of the valuation of an ongoing
3 plan.

4 Q Okay. And when one uses the entry age normal method for
5 an ongoing plan, one is going to include liabilities that
6 haven't vested yet; correct?

7 A That is true.

8 Q And as Mr. Stewart elicited from you, when you do that
9 calculation, you're also going to include benefits with
10 future salary increases included; right?

11 A That is correct.

12 Q And you're going to include calculation that includes
13 future wage benefits; right?

14 A That's a function of the future salary, yes.

15 Q And it's going to include an element of inflation; right?

16 A That underlies salary increases, yes.

17 Q Now, sir, a frozen plan is a different ball game with
18 respect to treatment of future salary increases and future
19 services, is it not?

20 A It can be.

21 Q And when you do the calculation for a plan freeze, you
22 eliminate future service and future salary; right?

23 A To the extent it has been seized for the participants in
24 the plan, the members in the plan.

25 Q So one would see no future salary increases once a plan

1 is frozen; right?

2 A Under a hard freeze scenario, that's correct.

3 Q And the liability would drop; correct?

4 A That is correct.

5 Q And if a plan were frozen, you wouldn't include future
6 wage inflation; right?

7 A Since that is a subset of the salary increase, that's
8 correct.

9 Q Okay. And just to finish up this --

10 THE COURT: I'm a little confused about your
11 questions here.

12 MR. WAGNER: Okay.

13 THE COURT: Are you asking about some hypothetical
14 freeze or the Detroit freeze?

15 MR. WAGNER: I'm asking about -- well, my questions
16 are general questions. I believe -- we believe that --

17 THE COURT: Okay. Then they're irrelevant to me.

18 MR. WAGNER: Well, they -- we believe they apply to
19 the Detroit freeze, and I'm laying the groundwork for future
20 testimony on this issue.

21 THE COURT: Ask the witness about the Detroit
22 freeze.

23 BY MR. WAGNER:

24 Q Does the Detroit freeze include -- the Detroit plan is
25 frozen; correct?

1 A To my knowledge. I'm not sure of the legal status today.

2 Q Okay. And do you know whether if you -- when you freeze
3 those plans, whether future inflation should be included? Do
4 you know one way or the other?

5 A The proposal is a hard freeze.

6 Q Okay. And would you give the same answer with respect to
7 vested benefits?

8 A I'm not sure.

9 THE COURT: What's the question as to vested
10 benefits?

11 BY MR. WAGNER:

12 Q The question is with the hard freeze, you wouldn't
13 include benefits -- when you did your calculation of the
14 liability, you wouldn't include benefits that haven't vested;
15 right?

16 A In my experience, I've seen that done in the corporate
17 sector. I'm not sure of the legal status of vested benefits
18 in the governmental sector.

19 Q Okay. And with a frozen plan like Detroit's, you would
20 not include in calculating the size of the claim, the amount
21 of unfunded liability, you wouldn't include the calculation
22 that takes into account wage inflation, would you?

23 A For a frozen plan, there would be no future wage
24 inflation in the calculation.

25 Q And let me just finish up this --

1 THE COURT: I'm sorry. Does that answer apply to
2 the Detroit plan or just some generalized frozen plan?

3 THE WITNESS: The proposal for the Detroit plan is
4 that the plan would be frozen and future wages past the
5 freeze date would not ultimately impact the member's
6 calculations.

7 THE COURT: Thank you.

8 BY MR. WAGNER:

9 Q Okay. By the way, just to finish up this topic, do you
10 know what the unit cost method is? Ever hear of that term?

11 A If you mean the unit credit cost method, yes.

12 Q Yes. And that's a method that looks at past service and
13 past salary; right?

14 A That is correct.

15 Q Okay. Now, let's talk about investment rates. Am I
16 right that the discount rate assumption is arguably the most
17 critical assumption in determining pension obligation?

18 A Arguably, yes.

19 Q And the investment return assumption forms the basis for
20 the assumed asset returns of investments within a pension
21 system; correct?

22 A As far as it goes, yes.

23 Q And the investment rate -- the investment return
24 assumption for public -- for a public plan is also used to
25 measure the liabilities by discounting future payment

1 benefits at the assumed rate of return?

2 A That is the common practice.

3 Q And that's the way you've always seen it done; right?

4 A For purposes of funding, yes.

5 Q I'm also right that the funded status of a plan would
6 decrease if you used a lower investment rate?

7 A That is correct.

8 Q And the higher the investment rate assumption, the better
9 the funding status of the plan; correct?

10 A In both cases, the current measure of the funded status,
11 yes.

12 Q Okay. And now just a couple more questions about risk-
13 free rate. You're not aware of any public pension funds that
14 have measured liabilities discounting future benefit at any
15 rate other than the assumed investment return; correct?

16 A No. I am.

17 Q Well, you weren't aware at your deposition; correct?

18 A I don't -- I can say I am. I was deposed for three days.
19 If we have a question which is slightly different that I
20 answered, that's possible.

21 Q Okay. But Milliman doesn't use the risk-free rate in
22 calculating a valuation rate or return rate; correct?

23 A That's a very broad question, so I would have to say it's
24 not correct in all cases.

25 Q Can you turn to your deposition, page 237, line 25?

1 MR. STEWART: I don't have --

2 MR. WAGNER: I'm sorry. We'll come back to that,
3 your Honor.

4 THE COURT: Okay.

5 BY MR. WAGNER:

6 Q Now, let's get back to your November letters. There came
7 a time when you were asked to present an analysis for
8 recommended return on investment for PFRS and GRS; correct?

9 A True, yes.

10 Q And those are the -- your work is set out in the November
11 4 letters; correct?

12 A Yes.

13 Q And the assumptions in your analysis were based on the
14 asset allocations for GRS and PFRS at the time; correct?

15 A The most recent asset allocations that were made
16 available to us; correct.

17 Q And you've not seen any different asset allocations for
18 those two funds since then; correct?

19 A I have not been involved in the --

20 Q You've not seen any change in the asset allocation
21 between November 4 and today; correct?

22 A I have not looked at new allocations or have not, yeah.

23 Q Now, there is -- the plan doesn't use your 7.2-percent
24 rate, does it?

25 A Neither rate does now. Neither plan uses that rate.

1 Q It uses 6.75; right?

2 A Oh, the plan of adjustment. The system actuary does not
3 use it nor does the plan of adjustment.

4 Q Okay. I'm sorry. I should identify which plan, but,
5 yes, the plan of adjustment uses 6.75 percent; right?

6 A That is correct.

7 Q Okay. And that 6.75 did not result -- was not anything
8 that resulted from Milliman's work, was it?

9 A It was not.

10 Q And it didn't reflect any asset allocation of which you
11 were aware; correct?

12 A That is correct.

13 Q And you've not been provided with any asset allocation
14 that produces a 6.75-percent investment return; right?

15 A The 6.75 percent was -- we call it a prescribed
16 assumption.

17 Q And you've not been asked to revisit your analysis;
18 correct?

19 A I have not been asked to revisit that November 2013
20 analysis.

21 Q And you have not revisited that analysis, have you?

22 A I have not.

23 Q Now, I'm right that you don't know the asset allocation
24 that pertains to the 6.75 percent; right?

25 A The 6.75 was not based on a particular asset allocation.

1 Q Okay.

2 A It was --

3 Q I'm right that one of the things an actuary does is look
4 at an asset allocation and come up with an investment rate;
5 right?

6 A That's the usual practice.

7 Q And here what's going on is you've been given 6.75, and
8 now someone is trying to come up with an investment rate.
9 Isn't that what's going on here?

10 A That was the nature of this assignment, yes.

11 Q Okay. Now, I think you testified that you've been the --
12 you've served as an actuary for dozens of plans; right?

13 A Yes.

14 Q Okay. And am I right that industry surveys could be a
15 useful data point when determining a projected rate of return
16 for a pension system investment?

17 A I don't hold that view.

18 Q Can you turn to your deposition, page 83, line 7? 83,
19 line 7. "Fair enough."

20 "Question: Fair enough. In your view then,
21 could industry surveys be a useful data point when
22 determining projected rate of return for a pension
23 system's investment?

24 Answer: If you're using the phrase 'industry
25 surveys' in terms of surveys of prospective returns,

1 yes."

2 Do you see -- did you give -- were you asked that
3 question, and did you give that answer?

4 A That response is different than the question that I
5 understood that you just asked.

6 Q My only question is did the court reporter transcribe the
7 question correctly?

8 MR. STEWART: Objection, your Honor. I think he
9 said this is not proper impeachment because the questions do
10 not match. Makes no difference what the court reporter did.

11 THE COURT: Okay.

12 MR. STEWART: The question is Mr. Wagner's question
13 that he claims is inconsistent. That, I believe, is the
14 issue here.

15 THE COURT: Okay. Well, it's not for the witness to
16 claim improper impeachment. That's for you to claim. The
17 only issue -- or question before him was whether he gave that
18 question -- whether he heard that question and gave that
19 answer. Is that right?

20 THE WITNESS: I have no reason to believe that this
21 is improperly typed if that is your question.

22 THE COURT: All right. To the extent the city is
23 objecting on the grounds of improper impeachment, the Court
24 will overrule the objection.

25 BY MR. WAGNER:

1 Q Now, sir, can you turn to Exhibit 1036 in the book? This
2 is the public fund survey; right?

3 A It's labeled "Public Fund Survey."

4 Q And this is put out by NASRA?

5 A I'm not sure if this is the NASRA survey or --

6 THE COURT: Have you seen this before, sir?

7 THE WITNESS: I believe I saw this in deposition.

8 MR. WAGNER: Your Honor, there's been no objection
9 to this exhibit. I move it into evidence. There's been no
10 objection by the city.

11 MR. STEWART: That's fine.

12 THE COURT: Is it in evidence?

13 MR. STEWART: No objection, your Honor.

14 MR. WAGNER: Okay.

15 BY MR. WAGNER:

16 Q Sir, you've heard of the term NASRA; correct?

17 A Yes, I have.

18 Q And what is NASRA?

19 A National Association of State Retirement Administrators.

20 Q And are you aware that Ms. Kopacz cited NASRA report in
21 her report?

22 A I reviewed her report briefly. I can't say whether she
23 did or not.

24 Q Are you aware that Ms. Nichol cited it?

25 A Same answer.

1 Q Okay. If you look at the first page, have you -- you've
2 seen the public fund survey before; right?

3 A As I mentioned, I believe I saw this document in
4 deposition.

5 Q Okay. And do you see at the top it says "Median" --
6 first of all, look at the top left, the date of 6-25, 2014.

7 A I see that.

8 Q Okay. And do you see it says "Median for the 126 plans
9 shown here, investment return 7.9 percent." Do you see that?

10 A I see that.

11 Q And you see it has an inflation assumption of three
12 percent. Do you see that?

13 A Yes, I do.

14 Q Okay.

15 MR. WAGNER: And, your Honor, we have another
16 version of this exhibit, again, not objected to by the city,
17 1040. I move both of them into evidence.

18 MR. STEWART: No objection, your Honor.

19 BY MR. WAGNER:

20 Q Now --

21 THE COURT: All right. It's admitted.

22 (COPs Exhibits 1036 and 1040 received at 11:38 a.m.)

23 BY MR. WAGNER:

24 Q Can you turn to Exhibit 10164 in the book? Now, NASRA is
25 a well-known organization in the field, is it not?

1 A In the state pension plan field, yes.

2 MR. WAGNER: Your Honor, I move this document --

3 BY MR. WAGNER:

4 Q And generally the information from NASRA is considered
5 reliable?

6 A I have no reason to doubt its reliableness.

7 MR. WAGNER: Your Honor, I move this exhibit into
8 evidence.

9 MR. STEWART: Let me check our objections.

10 MR. WAGNER: I believe it's admissible whether they
11 object or not. It's admissible under 803 --

12 THE COURT: Well, I have to give them a chance --

13 MR. WAGNER: Sorry.

14 THE COURT: -- regardless.

15 MR. WAGNER: Sorry. Just trying to speed it up.

16 MR. STEWART: Whose exhibit is it? Whose exhibit?
17 Whose exhibit is this? I mean --

18 THE COURT: What's the number again, sir?

19 MR. WAGNER: It's 101 -- 10164 happens to have
20 been -- again, it was cited in --

21 THE COURT: I just asked the number.

22 MR. WAGNER: Okay.

23 THE COURT: Hang on.

24 MR. WAGNER: Sorry.

25 MR. STEWART: We can't -- your Honor, are you sure

1 that's the right exhibit number?

2 MR. WAGNER: That's what I'm told, yeah.

3 THE COURT: It is -- it's not in evidence by our
4 final pretrial order.

5 MR. WAGNER: Right. I think that's right.

6 THE COURT: It's a Retiree Committee exhibit.

7 MR. WAGNER: I would ask that it be admitted, and I
8 think I've established the foundation under 803(17). It's
9 also been -- it's been cited by Ms. Kopacz in her report, and
10 it's been cited by Ms. Nichol in her report.

11 THE COURT: Have you seen this before?

12 THE WITNESS: Yes, I have seen this.

13 THE COURT: Is it anything that you relied on when
14 you were preparing your work for the city?

15 THE WITNESS: No, it is not.

16 MR. STEWART: And, your Honor, I object for any
17 number of reasons, but I would also point out we did not
18 offer Mr. Bowen as an expert. The questions are getting into
19 expert testimony. We will consider the door now open, and if
20 what Mr. Wagner is doing is to -- going into this having
21 conceded this is an expert witness, we will withdraw our
22 objection, but the redirect will be using him as an expert.

23 MR. WAGNER: Your Honor, I don't think I've opened
24 the door. I asked him a question, whether industry
25 surveys --

1 THE COURT: Well, let's deal with whether the door
2 is open when and if you actually decide to do that.

3 MR. WAGNER: Okay.

4 THE COURT: Right now we're just going to deal with
5 the admissibility of this document. My question for you is
6 if the witness didn't rely upon it for any purpose here, how
7 is it admissible?

8 MR. WAGNER: Because the issue isn't whether he
9 relied on it. The issue is whether I can use it to cross-
10 examine him with respect to the 6.75 rate and the 7.2 rate.
11 That's what this is about. These are rates used by public
12 pension funds that are much higher than what's being used
13 here, and Mr. Bowen has already testified -- though he tried
14 to walk away from it, he's already testified that surveys of
15 this type are useful data. And I'd also note that Ms. Kopacz
16 relies on it, and Ms. Nichol relies on it.

17 MR. STEWART: Then perhaps when those witnesses take
18 the stand, it could be used. This is the sort of cross-
19 examination one uses with an expert witness. The witness did
20 not see -- did not rely upon this. I don't see it is
21 admissible in his examination. And I object as well to the
22 use of evidentiary --

23 THE COURT: Mr. Stewart, I'm sorry. I need to cut
24 you off and ask you to speak right into the microphone,
25 please.

1 MR. STEWART: I'm sorry, your Honor.

2 THE COURT: And you can have a seat while you do
3 that.

4 MR. STEWART: Okay. I apologize. Sorry. I don't
5 see the relevance that Ms. Kopacz and Ms. Nichol relied on
6 it. That means nothing. This witness, unless he is deemed
7 an expert, should not be examined on matters he did not rely
8 on. This would be for an expert something he could be asked,
9 but I thought Mr. Wagner said he's not treating the witness
10 as an expert.

11 MR. WAGNER: I'm just posing him questions on
12 something that he believed is -- he said himself is relevant.

13 THE COURT: The objection is sustained.

14 BY MR. WAGNER:

15 Q Now, sir, in your November 2013 letters, you used a rate
16 of inflation of two and a half percent; correct?

17 A That is correct.

18 Q And using a two and a half-percent rate of inflation, you
19 came up with a 7.2 percent return; correct?

20 A Yes.

21 Q And if the rate of inflation were three percent, the rate
22 of return would have been closer to 7.7 percent; correct?

23 A Yes.

24 Q And I'm right that there are lots of Milliman plans that
25 use rates of inflation higher than two and a half percent;

1 isn't that true?

2 A There are.

3 Q I'm right L.A. County uses an inflation rate of 3.45
4 percent?

5 A I imagine you have it in a survey somewhere. I don't
6 know that off the top of my head.

7 MR. WAGNER: Your Honor, may I show him Exhibit
8 103 -- 1040, which has been admitted into evidence and the
9 city hasn't objected to?

10 BY MR. WAGNER:

11 Q Can you turn to Exhibit 1040? Actually, why don't we use
12 1036? I think it's a little bit easier. Sir, L.A. County,
13 that's -- you look -- it's supposed to be alphabetical, but I
14 guess it's alphabetical by state, so L.A. comes under --
15 comes after Arizona on the first page. Do you see that?
16 L.A. County, you see that?

17 A Yes, I do.

18 Q That's a Milliman -- Milliman is the actuary for that
19 plan; right?

20 A Yes, we are.

21 Q And there the rate of return is 7.7 percent; right?

22 A Correct.

23 Q Inflation rate is 3.45 percent; right?

24 A Both as of June 30, 2011; correct.

25 Q Okay. California Teachers, is that another Milliman --

1 is that another plan for which Milliman is the actuary?

2 A Yes.

3 Q Okay. And there the rate of inflation used is 3.5 --
4 is -- I'm sorry -- three percent?

5 A Correct.

6 Q And the rate of return is seven and a half percent?

7 A Yes.

8 Q By the way, do you happen to know the funded status of
9 that plan?

10 A Of California Teachers?

11 Q California.

12 A I do not.

13 Q Would it surprise you if it was about 67 percent?

14 MR. STEWART: Objection, your Honor.

15 THE COURT: What is the objection?

16 MR. STEWART: "Would it surprise you if."

17 THE COURT: Yeah. His surprise is of no relevance.

18 The objection is sustained.

19 MR. STEWART: Okay.

20 BY MR. WAGNER:

21 Q Can you turn to Florida RS? Is that another Milliman
22 plan?

23 A Yes, it is.

24 Q And there the rate of inflation used is three percent?

25 A As of 7-1, 2012, yes.

1 Q Idaho, is that another Milliman plan?

2 A Yes.

3 Q Rate of inflation there uses 3.25 percent?

4 A As of 7-1-12, yes.

5 Q Okay. New Jersey Teachers, that's a Milliman plan, is it
6 not?

7 A Yes, it is.

8 Q And the other -- the inflation rate used is 2.75 percent,
9 is it not?

10 A As of 2011, yes.

11 Q Okay. By the way, that's a pension plan that's serviced
12 from your office, is it not?

13 A Yes, it is.

14 Q And by my math, five plans out of the 126 listed here use
15 an inflation rate of about two and a half percent. Is
16 that -- is your math the same as mine?

17 A I have not looked through the survey exhaustively, so I
18 don't know the answer to that.

19 Q Well, can you turn to Exhibit 1040, which arranges the
20 plans based on the rate of inflation? Can you count how many
21 use an inflation rate of two and a half or less?

22 MR. MONTGOMERY: If I may --

23 THE COURT: No, you may not. If you want to, you
24 can step forward and approach a microphone.

25 MR. MONTGOMERY: Your Honor, this is not an

1 unobjected to exhibit, and I just wanted to make the record
2 clear that the Retiree Committee had objected to the
3 admission of 1040.

4 THE COURT: Oh, well --

5 MR. WAGNER: Well, it's a little bit late for that.
6 I mentioned that the city didn't object to it, and I never
7 heard anything from the back.

8 THE COURT: Was it admitted?

9 MR. WAGNER: I think you admitted it.

10 MR. STEWART: Yes, your Honor. You admitted it.

11 THE COURT: 1040 was admitted. All right.

12 MR. WAGNER: Okay.

13 BY MR. WAGNER:

14 Q Do you see that there are five plans out of the 126
15 listed here that use a rate of inflation of two and a half or
16 less?

17 A On Exhibit 1040, I see seven back in the time frame 2010
18 to 2012.

19 Q Okay. So seven out of 126; right?

20 A If there's 126 here, then yes.

21 Q Okay. That's about -- well, you're the actuary, but
22 that's about six percent or so; right?

23 A You're in the ballpark, I'm sure.

24 THE COURT: I think we've got enough percentages to
25 deal --

1 MR. WAGNER: Okay.

2 THE COURT: -- with without having to worry about
3 that one.

4 MR. WAGNER: That's fine.

5 BY MR. WAGNER:

6 Q Let me move to another subject, sir, ASF. Now, you were
7 asked some questions on direct about ASF. Do you recall
8 that?

9 A Yes.

10 Q And I'm right that in calculating from an actuarial point
11 of view the amount of actuarial liability for a pension fund,
12 you would include the amounts that are due under the relevant
13 plan?

14 A Yes.

15 Q And you would not include benefits that are not included
16 under the plan?

17 A Correct.

18 Q Now, Milliman has done some work on ASF; right?

19 A We have.

20 Q And we saw before that the unfunded liability calculated
21 by Milliman for GRS was about 1.879 billion; correct?

22 A I believe that's the figure.

23 Q Okay. And that figure includes an amount of ASF; right?

24 A The system has liability for both the pensions and the
25 ASF.

1 Q And you understand that there's an issue with respect to
2 ASF; correct?

3 A I do.

4 Q You understand that there were benefits presented to you
5 that were labeled as excess credits, right --

6 A We were provided --

7 Q -- excess interest credits; right?

8 A We were provided with that information.

9 Q And you understand the city is looking to recoup a
10 portion of those benefits; correct?

11 A Yes.

12 MR. WAGNER: Nothing further, your Honor.

13 THE COURT: Thank you. Any other cross-examination
14 of the witness? Redirect.

15 MR. STEWART: Just very briefly.

16 REDIRECT EXAMINATION

17 BY MR. STEWART:

18 Q First of all, here's your glass of water. You were just
19 shown Exhibit -- gosh, looks like 1036 -- and various
20 inflation numbers. Do you remember those questions a few
21 moments ago?

22 A Yes.

23 Q And you, in your answer, mentioned the dates of some of
24 those entries went back to 2011 or times a couple of years
25 ago. What change has there been in recent years in terms of

1 assumptions actuaries use about inflation?

2 A Well, I can speak specifically for Milliman. Our return
3 was 2.75 percent in our capital market assumptions model
4 prior to being reduced to 2.5. I don't recall the exact date
5 that our committee made that determination, but to address
6 your specific question more broadly, there has been a
7 decrease. The trend -- the general trend in recent years has
8 been a decrease.

9 Q Why?

10 A Again, I can't speak for the entirety of the industry,
11 but market interest rates have been low. Inflation has been
12 low. And to the extent that those recent experiences get
13 factored into forward-looking expectations, they're -- the
14 market is putting a lower price on inflation now than they
15 were several years ago is the best way to sum it up.

16 Q Let me ask you just briefly about this investment return
17 assumption that you were questioned about. The investment
18 return assumption represents what exactly?

19 A In these surveys that we've been looking at, these are
20 the --

21 Q No. Just in terms of the --

22 A Okay.

23 Q -- city's plans, not the surveys.

24 A In terms of the city's plans, the investment return
25 assumption is used to discount the expected future cash flows

1 to be paid from the plan to determine a present value.

2 Q And in terms of the city's agreement with the plans, the
3 investment return assumption also represents a certain
4 commitment by the city, does it not?

5 A I'm not sure I fully understand that.

6 Q Well, let me ask it better in that case. These are
7 defined benefit plans?

8 A Correct.

9 Q If the rate of -- if the investment return falls below
10 what the investment return assumption is, what is the
11 exposure of the city?

12 A Thinking back to the analysis we did earlier where we
13 were asked to determine specific targets, if the interim
14 period between now and the target date -- if experience is
15 not -- if experience is less positive than expected, the city
16 will have a larger exposure 2023 forward.

17 Q Fair to say that the investment return assumption from
18 the city's point of view represents the city's agreement on
19 the level of risk it is prepared to take on this obligation?

20 MR. PEREZ: Objection, your Honor. Leading.

21 MR. WAGNER: Objection. Yeah, leading --

22 MR. STEWART: I'll reask it.

23 MR. WAGNER: -- and argumentative.

24 THE COURT: The objection is sustained twice.

25 MR. STEWART: And it was only one question.

1 BY MR. STEWART:

2 Q From the city's point of view, what does the investment
3 return assumption reflect in terms of the city's risk?

4 A The way it was communicated to me originally was the
5 city --

6 MR. BRILLIANT: Objection, your Honor. Hearsay.

7 MR. WAGNER: Yes, yeah. It's hearsay.

8 MR. STEWART: Oh, I think by now that door, your
9 Honor, is off the hinges much less wide open.

10 MR. WAGNER: No, your --

11 THE COURT: The objection is sustained.

12 BY MR. STEWART:

13 Q Okay. From the standpoint -- put to one side what the
14 city communicated to you, simply as somebody who works with
15 these numbers. From the standpoint of the sponsor of the
16 system, what does the investment return assumption reflect in
17 terms of the sponsor's risk?

18 MR. WAGNER: Objection. Foundation.

19 THE COURT: Overruled. Go ahead, sir.

20 THE WITNESS: Let me try to phrase it this way. The
21 investment return is the hurdle rate that you have to hit in
22 practice year over year. To the extent you do better, the
23 plan sponsor is the recipient of that positive experience.
24 To the extent you do worse, the plan sponsor has to continue
25 to fund the plan and actually increase the contributions to

1 the plan to make up for that shortfall.

2 BY MR. STEWART:

3 Q And in this calculation, what is the lower rate of risk,
4 a lower investment return assumption or a higher investment
5 return assumption?

6 A Yes. A lower investment return assumption gives you a
7 lower hurdle to hit in investing your assets.

8 Q And a lower risk in terms of future contributions from
9 the city?

10 A Lower risk of volatility in contributions, yes.

11 MR. STEWART: Thank you. That's all I have, your
12 Honor.

13 MR. WAGNER: Your Honor, just a short --

14 THE COURT: Yeah. Go ahead.

15 MR. WAGNER: -- recross.

16 RECROSS-EXAMINATION

17 BY MR. WAGNER:

18 Q Do you understand that under the plan if the rate of --
19 if the returns exceed 6.75 percent, that money goes to the
20 retirees? Are you aware of that?

21 A I understand there's a provision for that.

22 Q And you understand that an investment return assumption
23 that is too low will overstate liabilities?

24 A Oh, I thought you said lower state. You said overstate?

25 Q Yes, overstate.

1 A Okay.

2 Q You want me to read it again? You want me to pose it to
3 you again?

4 A If you would, please.

5 Q Am I right that an investment return assumption that is
6 too low will overstate liabilities and costs?

7 A If you have a definition of "too low" and are asking that
8 in a general sense, I could agree to that's the way the math
9 works.

10 Q And in preparing the November 4 letters, am I right that
11 you didn't do an analysis of the historical rate of return
12 for GRS and PFRS, did you?

13 A We did not.

14 Q And you didn't take into account that in most years GRS
15 and PFRS actually exceeded their rate of -- their expected
16 rate of returns, did you?

17 A That was not taken into account in our specific November
18 analysis.

19 MR. WAGNER: Thank you.

20 THE COURT: Nothing further, sir?

21 MR. STEWART: Nothing further.

22 THE COURT: All right. I have some questions for
23 you. Addressing the investment return assumption, is there
24 one correct assumption that should be applied like
25 everywhere, or is it fair to say that there is an acceptable

1 range of such interest rate assumptions?

2 THE WITNESS: Well, to specifically answer the first
3 part of the question, I would say there is definitely not one
4 assumption, and I would say to the second part of your
5 question we believe there is a range of reasonable
6 assumptions, but that is not an absolute range. It's a range
7 which varies by plan.

8 THE COURT: What are the factors that impact where
9 within a range -- one second -- where within a range a
10 pension plan would choose its investment return assumption?

11 THE WITNESS: Certainly. In Actuarial Standard of
12 Practice 27, which deals with selection of investment
13 returns, the concept is that when the actuary gets done or
14 the investment consultant gets done with doing their
15 mechanics, which I can describe further if you would like, we
16 should recommend a range in which the expected rate of return
17 is more likely than not to fall, so the results of our
18 capital market assumptions model where we can take a specific
19 systems asset allocation and use it as an input to develop a
20 range of outputs will develop percentiles, and so we'll look
21 from the 25th percentile where three out of four times we
22 think we'll hit that hurdle and we'll go up to the 75th
23 percentile, which one out of four times we'll hit that. In
24 between those two end points is a 50-percent range centered
25 around the median expected return, and from the perspective

1 of the standard, when we recommend it in just that fashion,
2 we recommend to the sponsor that is our expected range based
3 upon your particular asset allocation. Where the plan
4 sponsor decides to fall within that range would be dependent
5 upon their tolerance for risk.

6 THE COURT: And that issue, the issue of the
7 sponsor's tolerance for risk, is that something that the
8 actuary makes a recommendation or even gets involved in
9 helping the client to assess?

10 THE WITNESS: That's not something that the actuary
11 recommends, and from the perspective of assessing, I would
12 not say it's typical for an actuary to assess a plan
13 sponsor's budgetary ability to handle volatility, but what --
14 I mean the way that I would approach this is if you think
15 back to the tank that we had on the earlier demonstrative,
16 lowering an investment return assumption would cause a higher
17 measure of liability currently, which would increase current
18 contributions, the "C" that was going into the tank, with a
19 lower hurdle of "I" in the future, so we could explain to
20 plan sponsors, as we did for the city -- we ran several
21 different investment return assumptions to illustrate how
22 sensitive the results were, and the lower -- to oversimplify,
23 but the lower "I" that you choose, the lower investment
24 return you assume you're going to have over time, the more
25 cash you may put in up front, but the much more likely you

1 are to hit your targets over time, and vice versa all of that
2 would be true as well.

3 THE COURT: So is it the role of an actuary for a
4 plan sponsor ever to say to the sponsor under the guidelines
5 that we, as actuaries, use, you should not use the investment
6 return assumption that you have chosen to use?

7 THE WITNESS: I would say it's close to that, not
8 exact. The plan sponsor -- the trustees for the system are
9 free to choose their rate of return. To the extent that we
10 feel it's outside our reasonable range, we have a
11 responsibility to disclose that.

12 THE COURT: Did you ever say to the city here that
13 the city and this pension plan should not choose 6.75
14 percent?

15 THE WITNESS: We did not.

16 THE COURT: In the beginning of your testimony, you
17 mentioned what your credentials were.

18 THE WITNESS: Yes.

19 THE COURT: Can you state for the Court what you had
20 to do or what you had to demonstrate to get those
21 credentials?

22 THE WITNESS: Sure. The first one I would have
23 mentioned is fellowship in the Society of Actuaries, and that
24 is the -- one of their significant roles is examinations and
25 continuing education, so a credentialing organization. The

1 examination process is several years in length. It took me
2 five or six years to get through the process. Having a
3 master's degree, I would characterize the fellowship process
4 as PhD level. It was significantly more intense.

5 The other examination credential I mentioned is
6 the -- I'm an enrolled actuary under ERISA, and that's what's
7 known as the joint board of the Department of Labor and
8 Treasury administers examinations for actuaries who want to
9 practice in private pensions and assist the plan sponsors in
10 filing their various governmental forms.

11 THE COURT: Um-hmm. You mentioned that you had, I
12 think you said, half a dozen publications.

13 THE WITNESS: Yes.

14 THE COURT: What was the name of what you consider
15 to be your most important publication, and where was it
16 published?

17 THE WITNESS: I'm not sure I could really say which
18 one was the most important from a personal perspective.
19 Well --

20 THE COURT: Well, then pick one.

21 THE WITNESS: From a personal perspective, I wrote
22 an article on GASB 45, which is an accounting standard that
23 came into place about ten years ago for governmental retiree
24 healthcare plans, and I practice significantly in that area
25 as well as pensions, so that one was very important to me

1 personally.

2 THE COURT: And where was that published, sir?

3 THE WITNESS: That was a Milliman publication for
4 our clients and general consumption.

5 THE COURT: Okay. All right. Anything further
6 questions for the witness?

7 MR. WAGNER: Nothing further.

8 THE COURT: No? All right. Sir, you may step down,
9 and you are excused.

10 THE WITNESS: Thank you.

11 (Witness excused at 12:04 p.m.)

12 THE COURT: We'll break for lunch now until 1:30.
13 Mr. Cullen.

14 MR. CULLEN: Over the smaller break we got a start
15 on our homework with respect to the Court's concern over the
16 objections and the schedule with respect to those objections,
17 and I think that I can say that we are in agreement that if,
18 first, they would agree to file their objections on Friday
19 and we would file our objections on the following Friday --

20 THE COURT: File your responses?

21 MR. CULLEN: File our responses -- sorry -- on the
22 following Friday. During that period in between those
23 Fridays we would do any factual depositions or discovery that
24 we agreed on during that period. They would file their
25 expert -- an expert report responsive to any changes affected

1 by the Syncora agreement at that next Friday.

2 MR. PEREZ: No.

3 MR. CULLEN: No?

4 MR. PEREZ: The following Monday. Next Friday is
5 Rosh Hashanah.

6 MR. CULLEN: Oh, the following Monday. And then
7 that expert -- the expert depositions with respect to that
8 would go on while the trial was going on. In order to get
9 that objection work done, what the objectors would like to
10 have happen is that they would like to do as much as we could
11 do through Thursday night this week, not have trial hearing
12 days next week, and start full bore on the next Monday, and
13 specifically with respect to doing as much as we could do,
14 that would absolve us of any break in the testimony, for
15 instance, of Mr. Malhotra or Mr. Orr while the objection
16 process was going on, so that seemed all sensible to us.

17 The thing that we remain somewhat at odds upon is
18 the issue of the additional expert to replace Mr. Murphy, the
19 expert on the subject of employee motivation. I had
20 interpreted the Court's rulings with respect to the first and
21 second aspect of the procedural concern to subsume the idea
22 of Mr. Murphy on the following reasoning, that on other
23 instances, for instance, on the art, when FGIC wanted their
24 own expert, they hired their own expert or provided for an
25 expert on that subject. That has not been done with respect

1 to Mr. Murphy, so we would retain -- we disagree with respect
2 to the need to schedule or to do things with respect to an
3 additional expert to replace Mr. Murphy, but, as we told
4 them, if the Court feels otherwise and there is an additional
5 expert, we will agree to a schedule for that.

6 THE COURT: I do. I think FGIC should have the
7 opportunity at this point to retain its own expert.

8 MR. PEREZ: And, your Honor, we've already talked
9 to -- Mr. Soto has already talked to him this -- I'll sit
10 down -- over the weekend, and the reason we picked the
11 Monday, 29th, date for an expert report is because I think
12 that's what they indicated they would need for an expert
13 report.

14 MR. CULLEN: If that is the Court's clarification,
15 then I think the city would agree to let them use Mr. Murphy,
16 and we will depose Mr. Murphy in the course of either next
17 week or the week thereafter.

18 MR. PEREZ: That's even better.

19 MR. CULLEN: Is that --

20 MR. SOTO: In other words, just if I'm understanding
21 that, we'll stay with Murphy. We just have him deposed.
22 That's fine, your Honor.

23 THE COURT: Okay. So let me ask the parties here to
24 memorialize --

25 MR. CULLEN: Yes.

1 THE COURT: -- this agreement into a stipulation. I
2 didn't quite understand from your presentation when we would
3 actually be resuming testimony in this scenario.

4 MR. CULLEN: End of the day Thursday we stop.
5 The -- a week -- the succeeding Monday we start, which I
6 believe is the 29th.

7 THE COURT: It is.

8 MR. PEREZ: And, your Honor, this is all on the
9 assumption that we actually get the plan tonight. I mean,
10 that -- if --

11 THE COURT: Yeah. I was going to -- I was going to
12 clarify that, too. Is there any issue about that as to --

13 MR. CULLEN: Not to the best of my knowledge, your
14 Honor, but I'm pledging others' labor on that, so -- there's
15 one other --

16 THE COURT: He wants to say something to you.

17 MR. CULLEN: Yes. There are a couple of things that
18 may happen as a result of this with respect to the order of
19 witnesses. In particular, we've talked about taking some of
20 the witnesses out of order with sufficient notice if we --

21 THE COURT: Right.

22 MR. CULLEN: -- allowing us to accommodate this
23 schedule. There's one other caveat for the Court. I
24 received a note from Mr. Chiara, who is listening over the
25 phone, who said that he wanted to be included in our meet and

1 confer on this. On the idea that it wasn't actually a meet
2 and confer and he wasn't on the motion and time runs, I
3 thought we would present this to the Court, but I don't mean
4 to prejudice Mr. Chiara.

5 MR. PEREZ: Your Honor --

6 MR. CULLEN: DeChiara. Sorry.

7 MR. PEREZ: -- he does raise a good point because I
8 forgot what date we were supposed to set aside for Mr.
9 DeChiara, and we don't want to disturb that. And it may have
10 been the 29th or the 30th. I'm not sure.

11 MR. CULLEN: I think it's the 30th.

12 THE COURT: Well, let me ask you to --

13 MR. CULLEN: Sorry.

14 MR. PEREZ: We can work --

15 THE COURT: -- dive into that over lunch, and we can
16 clarify it.

17 MR. CULLEN: Okay.

18 MR. WAGNER: More short term, at 1:30 are we
19 addressing anything left first with respect to Ms. Kopacz?

20 THE COURT: Yes.

21 MR. WAGNER: Is that still on for 1:30?

22 THE COURT: The Court intends to first examine
23 Ms. Kopacz herself regarding issues affecting her
24 qualifications and methodology, and we still have the Retiree
25 Committee's motion that's outstanding, and so I want to give

1 them an opportunity to question her as well. And we still
2 have to clarify what's happening with the Macomb County
3 objections as well, so, anyway, we've used up enough time
4 that we're going to push our start till 1:40.

5 MR. PEREZ: Thank you, your Honor.

6 MR. CULLEN: Thank you, your Honor.

7 MR. STEWART: Thank you, your Honor.

8 THE CLERK: All rise. Court is in recess.

9 (Recess at 12:11 p.m., until 1:40 p.m.)

10 THE CLERK: All rise. Court is back in session.
11 You may be seated. Recalling Case Number 13-53846, City of
12 Detroit, Michigan.

13 THE COURT: Looks like everyone is here. Please
14 stand by one moment, please. Okay. So on the matter of the
15 Macomb County objections, do we need to argue the issue that
16 the Court set for hearing today, or can we just say that
17 we're done with that?

18 MR. BRILLIANT: Your Honor, Allan Brilliant on
19 behalf of Macomb County by and through its public works
20 commissioner, Anthony Marrocco. We believe, your Honor, that
21 the issue is now, you know, moot and that there's no reason
22 to have argument on it.

23 THE COURT: What's the city's position on this?

24 MS. LENNOX: Good afternoon, your Honor. Heather
25 Lennox of Jones Day on behalf of the city. We believe, in

1 light of the withdrawal of the objection, even though it was
2 not withdrawn with prejudice, as long as it remains
3 withdrawn, we can avoid arguing the matter before your Honor
4 today. Should it be refiled, however, we would have to take
5 it up.

6 THE COURT: Okay. All right. The Court will
7 consider that matter resolved then and won't conduct any
8 further argument on it.

9 MR. BRILLIANT: Thank you, your Honor.

10 THE COURT: Okay. Let's turn our attention to the
11 matter relating to the Daubert motions for Ms. Kopacz. I may
12 have misspoken before the lunch break and suggested that the
13 Retiree Committee had filed a motion. It was not the Retiree
14 Committee. It was the Retirement Systems. My apologies for
15 that mixup. Ms. Kopacz, are you here? Step forward, please.
16 Slide all the way through, if you can, and we'll get you on
17 the witness stand. Please raise your right hand before you
18 sit down.

19 MARTHA E.M. KOPACZ, COURT'S WITNESS, SWORN

20 THE COURT: All right. Please sit down. All right.
21 Is there any objection if the Court proceeds with its
22 examination and then opens it up to others for their
23 examinations of the witness?

24 MR. STEWART: No objection.

25 MS. GREEN: No objection other than we are not going

1 to argue the motion first. We're going to do that after the
2 testimony or in the middle or --

3 THE COURT: Well, I -- well, we're going to have --
4 we would have argument after the testimony in any event, so I
5 would just prefer to defer until then.

6 MS. GREEN: Okay.

7 THE COURT: Okay.

8 DIRECT EXAMINATION

9 BY THE COURT:

10 Q What is your name?

11 A Martha Ellen Middleton Kopacz.

12 Q And what city do you live in?

13 A I live in Norwell, Massachusetts.

14 Q And where are you currently employed?

15 A I am employed with Phoenix Management Services in Boston.

16 Q And what kinds of work is Phoenix typically retained to
17 perform?

18 A Phoenix Management Services and its affiliated companies
19 are advisors to operationally and financially troubled
20 organizations. We also do investment banking and transaction
21 advisory work.

22 Q And what is your title at Phoenix?

23 A Senior managing director.

24 Q And what are your responsibilities in that position?

25 A I am a member of the senior partnership group of the

1 firm, and I service clients and promote our services to
2 nonclients. I write and speak and supervise staff.

3 Q What is your understanding of your assignment in this
4 case?

5 A My understanding of my assignment is to serve as your
6 independent expert and to fulfill the order you signed
7 appointing me to render an opinion on the feasibility of the
8 plan of adjustment for the City of Detroit and to render an
9 opinion on the reasonableness of the assumptions that
10 underlie the revenues, expenses, and the plan payments.

11 Q And did you fulfill that assignment?

12 A I did.

13 Q Before we get into the issues here --

14 A Um-hmm.

15 Q -- I want to make a complete record of our
16 communications.

17 A Okay.

18 Q First, did I ever state or suggest or imply what I
19 thought your opinions should be on the issues that I
20 presented or assigned to you?

21 A No, never.

22 Q Did I ever state, suggest, or imply the principles or
23 methods that you should use in this assignment?

24 A Not at all.

25 Q In fact, have we ever discussed your conclusions and

1 opinions in this case?

2 A No, never.

3 Q Have we ever discussed the substance of your work in any
4 way?

5 A Not at all.

6 Q Did we have a conversation about what your testimony will
7 be at this hearing?

8 A We had a conversation about this hearing, not what my
9 testimony would be.

10 Q What did we discuss?

11 A We discussed the logistics for today and that you would
12 be asking me questions, and that was really it. Oh, and
13 whether or not my attorneys could be here.

14 Q Did I e-mail to you the questions that I'm going to ask
15 you today?

16 A You e-mailed me a list, yes.

17 Q What is your understanding of why I did that?

18 A I'm not really sure other than to maybe help me focus my
19 preparation.

20 Q And did I request that you provide me comments or
21 feedback or suggestions regarding my questions?

22 A You said I could if I wanted to.

23 Q Did you do that?

24 A I did not.

25 Q Did we have any discussion about what your answers to

1 these questions would be or should be?

2 A No.

3 Q Did you keep a contemporaneous log of all of your
4 communications with me and my office?

5 A I did.

6 Q What is your understanding of why we are here today and
7 what this hearing is about?

8 A We're here today because the Retirement Systems have an
9 objection, and I don't mean that in a legal sense, but there
10 are a couple paragraphs in my report that they really don't
11 like.

12 Q Okay. You understand that other parties, FGIC and
13 Syncora, had also filed motions challenging your
14 qualifications or methods --

15 A Yes.

16 Q -- and that those have since been withdrawn?

17 A They have been, yes.

18 Q Okay. Only because those questions were raised, I intend
19 to address those issues here today even though no one is
20 pursuing those issues.

21 A Okay. That's fine.

22 Q Do you understand that today is not the day for you to
23 testify about your opinions and the grounds for them? It is
24 just to determine whether your opinions are admissible under
25 the criteria for the admission of expert testimony in Rule

1 702 of the Federal Rules of Evidence?

2 A I understand the first part of that. This is not my --
3 this is not my testimony as to my opinion. In terms of what
4 I did or didn't do, I know that there were objections raised
5 to not doing enough or doing too much or something like that.

6 Q Okay. So let me review Rule 702 with you. It says, "A
7 witness who is qualified as an expert by knowledge, skill,
8 experience, training, or education may testify in the form of
9 an opinion if: (a) the expert's scientific, technical, or
10 specialized knowledge will help the trier of fact to
11 understand the evidence or to determine an issue; (b) the
12 testimony is based on sufficient facts or data; the testimony
13 is the product of reliable principles and methods; and the
14 expert has reliably applied the principles and methods to the
15 facts of the case." So I want to review each of these
16 criteria with you carefully and then the specific issues
17 raised in the motions that challenge your qualifications or
18 methods --

19 A Um-hmm.

20 Q -- so that I can determine whether your opinions are
21 admissible. So let's begin with your knowledge, skill,
22 experience, training, or education. What is your education?

23 A I have a bachelor's of science in business from the
24 Kelley School of Business at Indiana University with a
25 concentration in marketing, and I have a master's of business

1 administration also from the Kelley School with a
2 concentration in finance and investments.

3 Q Um-hmm. And what continuing professional education have
4 you participated in since then?

5 A Since then most of my career I have been a consultant in
6 a public accounting firm, and I've also been certified
7 professionally since shortly after I got out of graduate
8 school, so I have had a 120-hour requirement every three
9 years, so on average 40 hours a year, so I've probably done
10 somewhere between 1,200 and 1,500 hours of continuing ed in
11 my career.

12 Q And what is your employment history?

13 A After graduate school, I joined a firm called Peterson &
14 Company in Chicago. It was a spinoff from Arthur Andersen.
15 I was there for nine years in Chicago, New York, and Boston.
16 I left Peterson in 1990 and joined Price Waterhouse, and I
17 was at Price Waterhouse through the merger with Coopers,
18 through the sale to FTI Consulting, and I left FTI in 2003.
19 I joined Alvarez & Marsal. I was recruited by them to start
20 their public sector not for profit practice, and I was there
21 until March of '06 when I was recruited by Grant Thornton to
22 start their United States corporate restructuring practice,
23 and I stayed at Grant through just about the end of 2011. I
24 intended to take a sabbatical, but I ended up with some
25 clients hiring me individually when I left, so I formed Brant

1 Point Advisors and continued to serve clients on a much
2 smaller scale and on a part-time basis until I joined Phoenix
3 about a year ago.

4 Q Do you have any licenses or certifications?

5 A I do. I'm a certified management accountant, and I'm a
6 certified insolvency and restructuring advisor.

7 Q And how did you achieve those certifications?

8 A Certified management accountant is very similar to a CPA
9 except most of the people that hold it are inside corporate
10 accounting and finance as opposed to public accounting. I
11 sat for the exam shortly after I finished graduate school,
12 and then I think there were some experience requirements, and
13 then I was licensed after that.

14 Q And who grants that certification?

15 A It is the association of certified management
16 accountants. It's like -- again, it's a trade -- I would say
17 it's a trade organization like the AICPA or something like
18 that, and so that's -- I immediately got into continuing
19 education requirements as a result of that. And then the
20 CIRA, I don't recall exactly when that certification was
21 promulgated, but it was a group of industry professionals
22 sometime back in -- I'm guessing the late '80s, the early
23 '90s, who wanted to add some rigor to our restructuring
24 advisory practice, and I was part of that group with Grant
25 Newton that was part of the first group certified in that.

1 Q Do you have any publications?

2 A I don't have any publications, but I've written some
3 articles, so most recently for the ABI Journal a couple
4 months ago.

5 Q What was that on?

6 A That was -- and they changed the title, but it was along
7 the lines of the missing link in successful restructurings,
8 and it was really a piece about how important the management
9 skill set and the talent is. It's not just the liabilities
10 and the assets and how the numbers all work together, but
11 it's really about the people that are going to be in charge
12 once all of the professionals leave.

13 Q Do you have any professional affiliations or memberships?

14 A I do. I'm a fellow of the American College of Bankruptcy
15 in the twelfth class, so a long time ago. I am a charter
16 member of the Turnaround Management Association. I'm a
17 charter member of the -- of IWIRC, which is the International
18 Women's Insolvency and Restructuring Confederation. I
19 started that chapter in Boston many years ago. I'm a member
20 of the ABI, 25-plus years with that. INSOL, and then the
21 rest of it is all more civic and whatever, but those are the
22 main professional associations.

23 Q Have you held any positions of leadership within those
24 organizations other than what you've already described?

25 A Yeah, I have, and the only one right now is I'm on the

1 admissions committee for Circuit American College.

2 Q Other than the American College of Bankruptcy, any other
3 professional honors or recognitions?

4 A I've received some service awards from the Legal Aid
5 Society in New York and from Judge Kaye in the State of New
6 York. I received some recognition from the National Women's
7 Conference, but, yeah.

8 Q Okay. Focusing now on your work in private sector
9 business cases --

10 A Okay.

11 Q -- please describe for us your experience in serving as
12 an expert either in bankruptcy cases or in out-of-court
13 business workout situations and identify some of the relevant
14 and significant cases and your assignments in them.

15 A Okay. The very first expert testimony I gave was back in
16 the mid-'80s in Louisville, Kentucky, in front of Judge
17 Roberts in a case called Belknap. It was a hardware chain
18 distributor and retailer, and that was testimony around
19 insolvency preferences, fraudulent conveyances. And there
20 were a lot of cases filed -- individual adversary
21 proceedings, so I probably testified before Judge Roberts I
22 would say 15 times, something like that, really early in my
23 career. And then sometime again I'm thinking more into the
24 '90s I was retained in a matter called Healthco. Originally,
25 the bankruptcy was in front of Judge Queenan, but the case

1 was tried in District Court in Massachusetts. It was about a
2 fraudulent conveyance, whether a leveraged buyout would be a
3 fraudulent conveyance. And I testified about the projections
4 and the assumptions that the company, its investment bankers,
5 and its accountants had made at that time. Also about the
6 same time I testified in Tennessee in a case called Tennessee
7 Hotel Associates, and I don't -- it was in Chattanooga, but I
8 know the judge has retired since then, and I don't recall his
9 name. That was a valuation case and some discussion around
10 reasonable value of use and occupancy and the like. And then
11 the last expert testimony prior to this occurred in late '95
12 or early '96 in front of Judge Cristol in Tampa in a case
13 called Lykes Brothers Steamship, and it was about the
14 condition of the debtor and its prospects for reorganization.
15 So those are the only cases that I've actually testified in
16 as an expert as opposed to a fact witness in Bankruptcy
17 Court, and while I have been retained to be an expert in some
18 other matters, I've never testified in court.

19 Q Um-hmm. In approximately how many of these kinds of
20 matters have you worked where you didn't actually testify,
21 where you were just a consultant or another kind of witness?

22 A I have -- I've participated in over a hundred
23 restructurings in my career, and I've really stopped counting
24 even though I keep a list of them to this day, and the --
25 and, again, my very first consulting engagement was the

1 bankruptcy of a public accounting firm in Chicago in April of
2 1982. And I just got involved in the business at that point
3 and have continued to this day, so I've done -- I would say
4 probably half have been in court and about half have been
5 out, and about half of them are debtor company organization
6 side, and about half are another -- you know, a creditor
7 constituency, a bank, a bondholder.

8 Q Approximately how many of them involved evaluation on
9 your part of the debtor's plan?

10 A I counted them last night, and there are 29 that are --
11 in which I evaluated the company's plan in a formal context
12 either in court or out of court but in a formal restructuring
13 context and about 22 that I prepared.

14 Q Do you have experience -- or what experience do you have
15 in evaluating executive leadership in the context of
16 evaluating the feasibility of a business or a municipal
17 restructuring?

18 A In every case, whether I've been involved in preparing
19 the projections in the plan or evaluating the projections in
20 the plan, I evaluated management and their ability to carry
21 out that plan.

22 Q Um-hmm. And why did you do that in each and every case?

23 A Because I believe that the plans, no matter what the
24 numbers say, they're predicated on having people in place who
25 can deliver.

1 Q Okay. You did work for the Nassau County Interim Finance
2 Authority?

3 A I did.

4 Q What was that work?

5 A I was retained by the Interim Finance Authority. We
6 called it NIFA. It is a state control board that was put in
7 place now probably 12 or 13 years ago when Nassau County got
8 into financial difficulty. I was retained in -- I'm
9 thinking -- I'm thinking back -- maybe 2010, early '10 or '11
10 when it was clear that the deficit in Nassau County was at a
11 point where it was challenging the viability of the county,
12 and the control board had the power under the state statute
13 to take control and to freeze wages and to, in essence, take
14 the checkbook. That required a finding by the control board
15 that the county was insolvent or likely to become insolvent.
16 There was a significant difference of opinion between the
17 county executives and the NIFA staff and the NIFA board as to
18 whether or not the county was structurally in a deficit
19 position, and I was retained at that time to advise NIFA on
20 whether or not a control period could be instituted. So the
21 first part of that work was really to look at not only the
22 annual budget through -- which was June, and I think I got
23 involved in July after the budget had been issued, and they
24 do three-year budgets there, but to look at those three years
25 as well as to look at some of the prior budgets in terms of

1 how the county had accounted for certain revenues. And then
2 I provided a written statement to the control board with my
3 findings as to what I believed the deficit was and whether or
4 not the county had the ability to do anything to get out from
5 under that deficit. That was the first part of it.

6 And then the second part of NIFA was during that
7 control period, we undertook a really kind of top to bottom
8 operational and business review of the county to identify
9 opportunities to reduce costs, improve services, make things
10 more efficient, and we did that through the lens of looking
11 at it on a time frame, what could be done in 90 days, what
12 would take a year or more, what would take three to five
13 years, so that there was a time frame, and we also looked at
14 with all of those initiatives, which ones impacted collective
15 bargaining agreements, which ones could be executed without
16 collective bargaining negotiations, and we did the same thing
17 and looked at those relative to legislation charter issues
18 and whether or not you would need enabling legislation to do
19 some of these things, so --

20 Q Did that work involve any evaluation on your part of any
21 pension-related issues?

22 A Yes, although pension is not as big of an issue in New
23 York because the pensions are funded, in essence, by the
24 state, so if you don't make your pension contribution, the
25 state simply withholds aid so that they get paid, so they

1 were not in as unfunded position as many other states and
2 municipalities.

3 Q What was your work in that case as it related to pensions
4 then?

5 A We looked at the -- what we expected to be the future
6 funding requirements over the next few years relative to were
7 they going up, were they going down, and -- because the state
8 had given -- had made some accommodations over the last few
9 years, which reduced the amount of contributions that Nassau
10 County had to make and when did we have to make those catch-
11 up payments.

12 Q Did that work involve evaluating on your part the
13 accuracy of the county's revenue forecasts?

14 A Very much so, yes.

15 Q What was the county's annual budget, if you can recall?

16 A Just about \$3 billion. If it were a state, it would be
17 the tenth largest state in the country, tenth -- I mean
18 tenth -- there would be ten states in this country that are
19 smaller than Nassau County. Sorry. I said that backwards.

20 Q And have you done work for the Legal Aid Society in New
21 York City?

22 A I did.

23 Q What was that work?

24 A In 2004 and 2005 I served as the interim president and
25 the chief restructuring officer of the Legal Aid Society in

1 New York.

2 Q And what were your responsibilities in that role?

3 A In that role Legal Aid was about 150 years old at the
4 time, \$150 million budget of which about 130 million are
5 funded by the State of New York and the City of New York.
6 The society was operating at a deficit although didn't really
7 know how much because there had been some embezzlement and
8 some intentional falsifying of records by the former CFO, so
9 while I was serving in those capacities -- and there was an
10 attorney in chief who handled the legal work obviously
11 because I couldn't do that, but in terms of restructuring, we
12 did a complicated out-of-court restructuring in which we had
13 to renegotiate both of our union contracts. The first one
14 was with the SEIU, who had the collective bargaining
15 agreement with our paralegals, our social workers, our
16 clerical people, and then with the UAW, who was the
17 collective bargaining agreement with our lawyers, so we had
18 to do -- we had to renegotiate those. We did a top to bottom
19 strategic plan, did a lot of cost cutting, did some fund-
20 raising, renegotiated leases, consolidated real estate. We
21 froze the existing pension plans and renegotiated with the
22 unions new pension programs going forward moving from a
23 defined benefit into more of a defined contribution mode.
24 What else did I -- oh, my gosh. We ended up taking about \$65
25 million of liability off the balance sheet and getting the

1 society from losing arguably a million plus a month to better
2 than break even.

3 Q Are there any other nonprofit or municipal assignments
4 that you've had that you think may have assisted you in
5 preparing for the work in this case?

6 A Yeah. There's one other, and it was a private out-of-
7 court restructuring in which I represented seven transit
8 authorities, including MTA in New York, MBTA in Boston, CTA
9 in Chicago, Minneapolis, Dallas, San Francisco. I'm
10 forgetting somebody. I'm forgetting a couple. Anyhow, had
11 an opportunity to work with the finance and budgeting teams
12 from each of those transit authorities in terms of working
13 with their annual development of revenue, so --

14 Q How would you say that that work helped you in this case?

15 A It really helped me when I was looking at the DDOT
16 deficit in this case, right, because DDOT -- DDOT is unique
17 in that it's an enterprise fund operation, but because it
18 operates at a deficit, it has to be funded by the general
19 fund, and that's really helpful. It also -- I think
20 anytime -- in all of those cases, we're looking at the
21 projection of revenues. Similarly, with Legal Aid, we're
22 very involved with the city and the state in terms of how
23 they were budgeting for our work and how we were getting
24 authorizations through the council and the legislature, so --

25 Q Focusing again on your work for the Legal Aid Society in

1 New York, you mentioned that you did some work on their
2 pension issues and that when you went in, there was a defined
3 benefit pension plan; is that right?

4 A Yes.

5 Q What was your work specifically in evaluating that, that
6 situation?

7 A Yeah. The first thing that I realized was that
8 because -- the Legal Aid Society is a not for profit, but
9 because it's not a public entity, it is subject to ERISA
10 laws, so there were going to be cash funding requirements
11 that -- some of which hadn't been made as timely as they
12 should have been in the past, but it was going to be a
13 significant crunch for the society to make those, so I
14 reached out to the society's actuaries. And one of the
15 unique things about Legal Aid is I had 17 law firms on
16 retainer on a pro bono basis, and we had 1 firm who was
17 really, really good in pensions, so I asked them to get
18 involved and to look at our options for how to do -- to
19 figure out how we were going to be able to do this. We also
20 got involved -- I also got involved immediately with the
21 unions because there was a union plan. There was also a plan
22 for our nonunionized workforce which had to be modified as
23 well. And it took probably I would say three or four months
24 of work between the society's pension advisory group, their
25 investment group, the subcommittee of the board that looked

1 at that, the outside lawyers, and we looked at a lot of
2 options as to how to handle that, and then ultimately we had
3 to negotiate what was the freezing of the plan and putting
4 together a new plan, so --

5 Q So what was it about your expertise or the scope of your
6 expertise that you felt allows you to work on pensions?

7 A Well, I mean I have -- I do have an MBA in finance and
8 investments. Okay. So I had educational training in higher
9 order finance concepts. I've been in the restructuring world
10 for, at that point, probably, you know, 20-plus years, having
11 come across pension issues and OPEB issues in the private
12 sector from time to time, having clients who've had to turn
13 their pensions over to PBGC, et cetera. And, quite frankly,
14 pension is the kind of topic that I will never say that I
15 like it, but you can put your head in it, and you can
16 understand it when you have to. It's not -- there's some
17 nuances to it. There's some things that are very complicated
18 about it. But at the end of the day, it's about obligations.
19 It's about investments. It's about finance, and that can be
20 understood by most people as long as somebody is willing to
21 teach you about that.

22 Q I take it this is the first time you've served as a
23 court-appointed expert?

24 A Yes.

25 Q Is there something you need to retrieve?

1 A Yes. I just dropped my glasses. I don't know why I have
2 them, but I dropped them.

3 Q What would you say has been different about your service
4 as a court-appointed expert in this case compared to your
5 service as experts for parties in prior cases?

6 A That's the main -- that's the main difference is I don't
7 really have a client that has a point of view. Every other
8 engagement I've had, whether it involved expert testimony or
9 just advisory work, I've always had a client that had some
10 point of view about something, and so the independent nature
11 of this role has been really very liberating and at some
12 points in time a little unsettling.

13 Q Did other professionals in the Phoenix firm participate
14 with you in meeting your responsibilities as the Court's
15 expert?

16 A Yes.

17 Q Can you please identify them and the specific roles that
18 each played?

19 A Yes. Let me go through that. First and foremost is
20 Brian Gleason, who is my partner at Phoenix. Brian has 20-
21 plus years' experience in this business and has done
22 extensive work in the public sector in southeast
23 Pennsylvania, in Philadelphia, in Delaware, in New Jersey,
24 both on an interim management in public sector as well as
25 advisory assessing sorts of things. Brian -- I made Brian be

1 my client during this engagement, and I made him challenge
2 what we were doing as a team and helping me really think
3 through to make sure that we were following a good approach
4 and being mindful. Brian also helped manage the rest of the
5 Phoenix team because I spent a significant portion of my
6 time, particularly early on, in reaching out to parties of
7 interest in the constituencies here, people that I felt that
8 could help me get up to speed quickly. And so while I was
9 focused on external sources of information, Brian was working
10 with our team making sure that we were getting what we needed
11 from the city, so -- and Brian was probably, along with me,
12 the chief architect of the feasibility definition.

13 Q Who else?

14 A Okay. Next would have been Bob Childree. Bob worked
15 with us as a subcontractor, but Bob and I had done the NIFA
16 engagement together and Jefferson County at Grant Thornton.
17 He had been involved in that, although I hadn't been involved
18 in it. He was the former comptroller of the State of Alabama
19 for 20-some years, and, you know, he's a government
20 accounting guy. He's an expert in all of those accounting,
21 finance, financing, budgeting, pensions, operations, ERP
22 systems. Anything that you would put under the
23 responsibility of a CFO for a state, Bob did that, and he did
24 it for 20-some years, plus he's very, very active in the
25 professional government accounting and finance groups. He's

1 just a very wise guy, and he was really helpful. He was the
2 one who helped in the very early part on NIFA in terms of
3 defining what revenue is and how GAAP applies in a government
4 context, so Bob did -- I asked Bob to work on finance,
5 accounting, and IT, clearly areas of his expertise. I asked
6 him to work on pensions, and at various points in time I
7 asked him to help on things like state revenue sharing, so
8 things that were within his domain.

9 The third member of the team was Al Mink. Al is
10 kind of one our resident geeky CPA, CFA, you know, those
11 kinds of guys, prior experience in the private sector as a
12 CFO. He was the CFO of the Philadelphia Gas Works on an
13 interim basis. Strong accountant, strong budgeter. And he
14 and Bob -- he really worked on all of the areas of finance
15 and accounting and the IT area. Next was Mike Gaul. Okay.
16 Right away I looked at that. And I was going to say Al
17 has -- I forget where his undergraduate degree is. His MBA
18 is from Seton Hall, and he's got a whole bunch of letters
19 behind his name.

20 And then the next would have been Mike Gaul. Mike
21 has a business degree from Georgetown, done a lot of interim
22 management on the finance and operations side. Mike handled
23 most of the revenue. He handled the revenue that -- most of
24 those revenue items. He worked on pension, did some
25 drafting, some first drafts on those sections, worked with me

1 on blight, and then -- okay. That was Mike. And then -- I'm
2 forgetting some of Mike's areas.

3 And then there was Kevin Barr. Kevin is analyst --
4 phenomenal analyst. He's a Wharton grad. He's a CFA. Oh, I
5 know. Mike Gaul is a licensed investment banker, not that he
6 does a lot of that, but he is. Anyhow, Kevin was the person
7 that really understood the ins and outs of all of the plans
8 and the models, so Kevin -- and he worked with Mike on a lot
9 of the other revenue issues and those sorts of things.

10 And then at the end we added a junior person by the
11 name of Jack Murdoch as we were getting into the report
12 writing, and he basically did anything that Mike or Kevin
13 told him to do. So that was my team.

14 Q Does your report include any analysis or conclusions that
15 are beyond your expertise or the expertise of your team?

16 A I don't think so.

17 Q Are there any other facts that you think the Court should
18 consider in determining whether you are qualified as an
19 expert by your knowledge, skill, experience, training, or
20 education to testify to the opinions that the Court has
21 requested of you?

22 A I don't think so.

23 Q Let's turn our attention to the next issue under Rule
24 702, whether your testimony is based on sufficient facts or
25 data.

1 A Okay.

2 Q Do you believe that your opinions are based on sufficient
3 facts or data?

4 A I do.

5 Q Take your time and identify as specifically as you can
6 the sources of facts and data that your opinions are based
7 on.

8 A Okay. They fall into two broad categories, and that -- I
9 guess three broad categories. One would be information that
10 I and my team gathered from interviews and working sessions
11 with people. The second category would be information that
12 we gathered and analyzed from the city or constituencies in
13 this proceeding, and the third would be information that came
14 from parties outside this proceeding. So we -- between when
15 I was appointed and when we issued the report, we
16 participated and conducted over 200 meetings in that time
17 frame. I have met -- we'll just go through this -- the
18 mayor, the emergency manager, their respective staffs. I've
19 met with almost all of the department heads in the city, with
20 their financial people. Most of the department heads also
21 have a finance person. We've met with all of them.
22 Extensive work with E&Y, Conway. I've met with the
23 creditors' lawyers and financial advisors. I've worked with
24 AlixPartners, with FTI, with Alvarez, with Goldin, with
25 Houlihan, had dialogue back and forth with most of the

1 lawyers that are involved in this case. I've met with the
2 land bank. I've met with the Art Institute people. I've met
3 with benefactors to the city. I've met with the foundation
4 people. I've met with the city council and the chief of
5 staff of the city council. I've met with former city council
6 people. And then my team, some people have been involved in
7 those meetings. A lot of those I've done -- I did on my own,
8 but they have met and worked with almost everybody on the E&Y
9 team, almost everybody on the Conway team. They've also
10 worked with all of the department heads in accounting and
11 finance, so risk management, purchasing, treasury,
12 accounting. They've met with the auditor general. They've
13 met with the assessor, all of the IT people, police, fire, so
14 it's -- it is -- those people provided an enormous amount of
15 information not only as to what the city is doing from
16 rendering services but how those services are delivered and
17 how the costs flow from that, you know. Similarly, on the
18 revenue side, you talk to people in treasury about how monies
19 are collected and the interplay with the county, but they
20 also lead you to documents, and I would say -- I can't even
21 count how many documents we've probably collectively looked
22 at. There is a seven-page list of the tiny -- like five-
23 point font of documents that came to us from the city that
24 came because we asked, not because they were already in the
25 data room. So the city has the data room, and then when we

1 started requesting more information, they kept a separate
2 list of that and put all that stuff in the data room so that
3 anybody -- so that whatever I had everybody else could have
4 if they wanted. Now, you know, there are parties here that
5 probably don't care about the resumes of all of the
6 department heads, the subdepartment heads in finance, but I
7 care about that, so those are things like -- it's tens of
8 thousands of pages of information. And then the outside
9 information came from the blight task force, Future City's
10 reports, consulting reports, people just voluntarily sending
11 me things. Some of the other experts that you had
12 interviewed sent me information that they had used that they
13 thought would be helpful, so an enormous amount of
14 information. And then sometimes we would go -- it wouldn't
15 be -- we would then go to the city itself to the people in
16 either the departments or the finance and accounting and get
17 really granular data, so --

18 Q Okay. So who did you or your team talk to relating to
19 the pension issues?

20 A I had the first meeting on pension with -- it was at
21 Clark Hill, the lawyers for the Systems, and it was Bob
22 Gordon, then two gentlemen who were the general counsels of
23 each system. There was another lawyer that was in and out
24 that I don't recall his name. And those were my first
25 meetings on the pension system. Once I had a good overall

1 view of kind of what the pension issues were going to be, I
2 then delegated that to Brian Gleason and Mike Gaul and to Bob
3 Childree, and they had subsequent meetings with that same
4 group and then with other people at the city. I reinserted
5 myself in the pension discussions when I met and got to know
6 Dick Ravitch because Dick has some interesting views. We had
7 all -- we had known about Dick through his work before at the
8 Rockefeller Institute and some of those publications, and
9 obviously I relied heavily on Bob Childree's view on pensions
10 and appropriate funding, but, yeah, that was how we did that.

11 Q Were there any meetings with any of the pension funds' or
12 pensions plans' professionals or their advisors?

13 A I didn't have -- other than lawyers, I did not have. My
14 staff did with some telephone calls. I don't believe there
15 were any in-person meetings.

16 Q Okay.

17 A And there were -- I'm sorry. There were also pension
18 meetings with the city and Jones Day. There were a lot of
19 those.

20 Q Did you keep a contemporaneous log of all of the people
21 with whom you and the members of your staff communicated in
22 this assignment?

23 A I would say I did a 95-percent job on my own behalf, and
24 I know that once we decided -- it was a couple of days into
25 it that we decided the team needed to do the same thing, I

1 think they made a similarly diligent effort to keep that --
2 to keep those records, and I think between our detailed time
3 records and the contemporaneous log, I think between those
4 two documents, we've got it.

5 Q And so those logs or that time record have been made
6 available to the parties in the case?

7 A Yes.

8 Q Did you keep a list of the documents that you reviewed?

9 A My team did, and I kept a drawer in my office at the
10 CAYMAC of anything that I looked at that wasn't in the data
11 room or that came from the city, so like my copy of the
12 blight report, my copy of the triennial budget that came from
13 the city, those sorts of things I kept in a big file drawer,
14 and then when we were preparing our exhibit of documents for
15 the report, one of my team members came in and inventoried
16 that.

17 Q What was the condition of the city's financial
18 information during the time when you were doing your work?

19 A Again, I think of it in a couple of different ways. When
20 we got involved, the city had financial -- had completed its
21 audits through June of '12, okay, and were working on fiscal
22 '13. However, Ernst & Young had control of cash, so as has
23 oftentimes been my experience with troubled businesses, when
24 the bookkeeping gets out of sync in a time frame or
25 completeness, you go to cash. And the good news with the

1 city is that E&Y has been controlling cash for probably three
2 years now so that you can actually get answers to questions,
3 you know. You can get how many people are on payroll, what
4 does this cost, those sorts of things. The historical
5 records are not timely. It's a concern of mine. I've talked
6 about it. I complain about it all the time. And that's
7 because the information systems are so bad, so it is -- you
8 can get the answer -- you can get an answer that I believe is
9 truthful and accurate from the city. It'll just take you
10 awhile, and you have to go find someone who knows how to pull
11 it out of the awful bookkeeping and information technology
12 systems, so I mean it's -- they're bad, but they're no worse
13 than what I'm -- what I see in other places.

14 Q Well, that's my next question. Is it common for an
15 entity in need of financial restructuring or experience
16 problems -- to experience problems in providing adequate data
17 to an expert who is asked to evaluate its projections?

18 A Almost never -- and I have one client that I've had
19 recently that this is not true -- almost never does a client
20 or a party, you know, a debtor or a debtor in waiting have
21 adequate information that they can give to you on a real time
22 basis; right? It's just --

23 Q DIW.

24 A DIW, debtors in waiting. And they just -- it's never --
25 it's not timely. It's where they cut staff. It's where they

1 don't pay attention. It's always a mess.

2 Q Did anyone from whom you requested information withhold
3 that data from you?

4 A Ultimately, no.

5 Q Okay. Okay.

6 A I had to get you involved. No. I had to --

7 Q What do you mean by "ultimately"?

8 A Recall that I never got the working models of the
9 projections until Memorial Day.

10 Q And then you did?

11 A And then I did.

12 Q Were there other sources of data that, in your
13 professional judgment, you should have accessed in forming
14 your opinions?

15 A I don't think so.

16 Q Is there anything else you want to tell the Court about
17 the sufficiency of the facts or data that you used?

18 A Again, I think that at the end of the day I got
19 sufficient information. I was confident in the information
20 that I received or was able to get, right, because had I not,
21 I wouldn't have been able to come to my opinion, so while I
22 would still like to have more information about certain
23 things because I'm curious and I'd like to know more, at the
24 end of the day, I got what I needed or I couldn't have
25 rendered an opinion.

1 Q Let's turn to the next criteria under Rule 702, which is
2 whether your opinions are the product of reliable principles
3 and methods. Do you believe that your opinions are the
4 product of reliable principles and methods?

5 A I do.

6 Q Let's first review what principles and methods you used
7 were, and then we will discuss why you believe they are
8 reliable --

9 A Okay.

10 Q -- so please note that this criteria is not about whether
11 you reliably applied the principles and methods -- we'll
12 discuss that later -- this is just about the principles and
13 methods themselves and whether they are reliable, so take
14 your time and tell us about the principles and methods or
15 steps that you used in carrying out your assignment.

16 A Okay. I think the -- I go back to my proposal, which
17 laid out an approach that I envisioned using if I was
18 appointed in this case, and now after the fact I can look
19 back at that approach and say that's exactly what we did.
20 And it is -- is it a little bit different because of this
21 situation, sure, because everyone is, but it is the approach
22 that I have used my entire career and that other people in
23 the restructuring advisory community use, so in -- with the
24 City of Detroit, we collected about six years' worth of
25 historical data, sometimes a little bit more, sometimes a

1 little bit less, for all of the revenue and the expense
2 assumptions both in the ten-year plan, the ten-year, forty-
3 year plan and the RRI's, so we looked at historical
4 information. We looked at current spending levels or receipt
5 levels, depending on where it was because, again, didn't have
6 financial statements that were completed at that time.
7 Obviously looked at all of the reports that had been
8 developed by the various state agencies, the treasurer,
9 reports the emergency manager had done, gathered information
10 from all the outside consultants. I mean Detroit was a -- is
11 a -- was a city that was consulted to death, so used all of
12 that and then factored that in with all of the information we
13 gathered from all of the interviews and the analysis. And
14 what was going on from in late April and May until we got the
15 working models is Kevin Barr was, in essence, building a
16 bridge between the projections and the RRI's, so by the time I
17 actually got the working models and could say, ah, that's the
18 assumption for this revenue projection or, oh, I really see
19 that now for the expense, Kevin had reverse engineered most
20 of this model so that we actually could look at the
21 underlying assumptions, look at the baseline, what the
22 starting numbers were, and see if those projections made
23 sense going forward, so it is -- in restructuring history,
24 it's important for certain kinds of revenues and expenses if
25 they're going to continue, but the other thing that happens

1 with restructuring, thank goodness, is activities in the past
2 can be radically changed as a result of the restructuring, so
3 sometimes you can -- you know, perfect example here is with
4 lighting; right? You wouldn't project lighting revenues to
5 go forward when you've transferred the lighting authority
6 over to a different entity, so you just make an individual
7 assessment on each assumption. And after you do that, then
8 you do the sensitivity analysis on your critical assumptions
9 to see if you're going to be wrong and you know you will be
10 wrong with projections, right, which are the assumptions that
11 a small change in the assumption will create a big impact in
12 the projections.

13 Q So to what extent did the fact that this is a municipal
14 case rather than a business case impact the principles or
15 methods that you used?

16 A It didn't impact the principles or the methods or the
17 approach. The difference in it is that there is not an
18 option to stop doing things because the city has to deliver
19 some sort of basic service. You can't -- just because it
20 costs too much to run that bus route doesn't mean you get to
21 stop it.

22 Q To what extent did the time deadline that the Court
23 imposed upon you impact the principles and methods that you
24 used?

25 A It did not impact -- I mean it did impact; right? It

1 impacted the level of effort. It impacted the size of my
2 team; right? For the kinds of work we do at Phoenix, you
3 know, six people in one place full time is a huge team of
4 resources.

5 Q Right, but my question is the impact on the methods and
6 principles.

7 A It didn't -- it really didn't impact the method and the
8 principles. I think there are points where when I got
9 satisfied with an issue or something, I said stop doing that;
10 right? So, you know, at the end of the day when I knew what
11 my perspective was going to be on IT, right, it's like stop
12 going deeper onto that; right? Just stop. So I think there
13 were points in time where I probably pulled my team back from
14 continuing to go deeper into issues that I felt we had
15 adequately covered.

16 Q So did the time limit result in any compromise of your
17 professional judgment or conclusions or methods in the case?

18 A No, because I asked you twice for extensions; right? I
19 mean I knew that first time that there was no way that I
20 could get done what I needed to get done given when I had got
21 in the working models, and then at the end I needed those
22 last few days because we had gotten a new set of projections,
23 so --

24 Q Um-hmm. Apart from what you've already mentioned, are
25 there any other factors in the case that impacted the

1 principles and methods that you used?

2 A No, not really. I was asked in my deposition about
3 methods, and I actually went back and looked at those because
4 I hadn't heard those words since I was in grad school. So
5 there's a big method and a little method. I think the little
6 method, the approach that I used in this engagement, is the
7 approach that restructuring advisors, whether they're working
8 for a debtor, a company, a municipality, or advising a
9 creditor, that's what you do. You look at history. You
10 sensitize it. You judgmentize it. You talk to people about
11 it. You get down to source documents. And then you make a
12 projection with -- that you feel is reasonable, and I think
13 that's what we do. Do we do things like time series
14 analysis? We do. Do we do regression analysis? We do. But
15 we don't sit down and say, "Oh, my God, I'm going to use the
16 delphi method to estimate this," or, "I'm going to use the
17 naive" -- those are just -- those are like Wikipedia words,
18 and I recall them now that -- from a long, long time ago, but
19 we did do some of that.

20 Q Was it part of the methods that you used in this case to
21 reconstruct from scratch the -- or a set of financial
22 projections for the city's general fund?

23 A No. That was not -- that was not my scope, and that's
24 not what I would do in the role of evaluating any plan.

25 Q Do experts in your field when evaluating feasibility

1 normally reconstruct financial projections like that?

2 A No.

3 Q Are there any circumstances when this is done within the
4 scope of this kind of an assignment?

5 A I thought about that. I did it once in 1991 in a case
6 called Lang Laboratories, and I represented the creditors.
7 And about 30 days into that case, the CEO resigned. We
8 agreed with the company to do a complete exchange of debt for
9 equity, and at that point in time the creditors' committee
10 advisors took over all the rest of the work on the
11 reorganization plan, and, yes, so we really -- we started all
12 over, but that was -- it was like 1991 that I did that.

13 Q Just so our record is complete, why did you not do that
14 in this case?

15 A Because it doesn't make sense to do that. My job was to
16 evaluate the plan -- or my job still is to evaluate the plan
17 and the projections that underlie that.

18 Q Okay. Let's turn our attention to the reliability of the
19 principles and methods that you used. Do you believe that
20 your education, training, and experience has given you an
21 understanding of the principles and methods that others use
22 in your field and that are generally accepted when assessing
23 the feasibility of municipal restructuring plans or a debt
24 adjustment plan in a Chapter 9 case?

25 A I do.

1 Q Are any of the principles and methods that you used in
2 this case materially different from the principles and
3 materials -- principles and methods that are generally
4 accepted in your field when the assignment is like it was in
5 this case?

6 A I don't think so.

7 Q Are there reliable principles and methods for evaluating
8 a 40-year projection for either a business or a municipality?

9 A I don't think so.

10 Q Why not?

11 A Because 40 years is so far into the future that it is
12 very, very, very, very hypothetical, and as I was thinking
13 about what 40 years ago was from today back, it's -- we were
14 all children, and I can't imagine what the city's budget
15 would have looked like 40 years ago because we had just had
16 the first oil embargo and, you know, how that would have
17 affected automobiles and the development of the city, so
18 it's -- 40 years is such a long time horizon that while I
19 think it is instructive to think about it, right, there's no
20 reliable method for projecting 40 years in the future.

21 Q Is that a view that you would say is generally held
22 within your field?

23 A It is.

24 Q What was the definition of feasibility that you decided
25 to apply in determining whether the city's plan of adjustment

1 is feasible?

2 A It was a definition that I developed.

3 Q What was it?

4 A We spent a lot of time getting the words right on this,
5 and it would be better if I had it to read. I know it's on
6 page 13, which was kind of an easy to remember page; right?
7 The feasibility definition -- and I'll do it as best I can
8 from memory -- is is it likely that the City of Detroit,
9 after confirmation of the plan of adjustment, will be able to
10 sustainably provide basic municipal services to the citizens
11 of Detroit and make the -- and meet the obligations in the
12 plan without the probability of a significant default.
13 That's close.

14 Q Um-hmm.

15 A But it has three concepts. It has provide services, meet
16 plan obligations, and not likely default.

17 Q Um-hmm. And how did you decide that that was the
18 appropriate definition?

19 A It evolved out of my view that feasibility is both a
20 quantitative and a qualitative measure, that, yes, there
21 are -- there's the numbers side. Can you generate the
22 revenue? Can you deliver the services at a price point such
23 that you've got enough cash to make plan payments? But it's
24 also about the skill and the will, and this goes to the
25 management, the human capital side. Do you have people who

1 are left behind who can execute on the plan?

2 Q Is that definition or one similar to it generally
3 accepted in your field as an appropriate definition of
4 feasibility?

5 A Well, I think time will tell. I think this is the first
6 time that anybody in my profession has tried to define
7 feasibility in a Chapter 9, so I think it makes sense, but I
8 think time will tell. Ultimately you'll decide.

9 Q Is that definition of feasibility or one like it
10 generally accepted in the business context?

11 A I think it is, and I think the -- again, we don't get any
12 help from the Code in terms of what feasibility is. On the
13 commercial side we've got a lot more case history, so, like I
14 said, it makes intuitive sense to me that it's both
15 qualitative and quantitative. There's clearly a time horizon
16 concept with feasibility, which I think is more challenging
17 in the Chapter 9 environment, and I also think the
18 feasibility is a range. It is a -- values can have -- can be
19 reasonable and feasible within a range. They're not just a
20 point estimate.

21 Q So do you see any reason to use a different definition in
22 a municipal case compared to a business case?

23 A Only to the extent that I think it is important that the
24 municipality be able to sustainably deliver basic municipal
25 services. They don't have to be best in class. I've said

1 that, but they've got to be able to deliver basic services.

2 Q Is there anything further that you'd like to tell the
3 Court about the principles and methods that you used or their
4 reliability?

5 A I don't think so.

6 Q So, finally, let's turn our attention to the last
7 criteria under Rule 702, whether you reliably applied to the
8 facts of this case the principles and methods that you chose
9 to use. Do you believe that you reliably applied to the
10 facts of the case the principles and methods that you chose
11 to use?

12 A I do.

13 Q One of your two tasks, as you've pointed out, was to
14 investigate and reach a conclusion on whether the assumptions
15 that underlie the city's cash flow projections and forecasts
16 regarding its revenues, expenses, and plan payments are
17 reasonable. Did you carry out that task?

18 A I did.

19 Q Could you define for the Court what is an assumption?

20 A An assumption is -- I'm thinking of synonyms. It's a
21 hypothesis. It's an axiom. It's a presumption. It is
22 something that you believe is going to happen. You take it
23 for granted that it's going to happen.

24 Q Is that the generally accepted definition of assumption
25 in the field?

1 A I think so, yes.

2 Q Can you estimate how many such assumptions underlie the
3 city's cash flow projections and forecasts regarding its
4 revenues, expenses, and plan payments?

5 A It's many hundreds and arguably probably thousands. The
6 projections are contained in over 300 spreadsheets that are
7 assimilated into the various projections in the RRI's, and
8 each of those have many columns and many lines. And you
9 would logically expect an assumption to be associated with
10 each line item over time, so, you know, it's clearly,
11 clearly, clearly, clearly into over the hundreds into the
12 thousands.

13 Q Did you investigate each and every one of those
14 assumptions?

15 A Kevin Barr has looked at every cell in every sheet and
16 can tell you where it comes from and how it's calculated.

17 Q Earlier you used the phrase "critical assumption."

18 A Yes.

19 Q What does that phrase denote or mean?

20 A Again, it's a word that I chose when we were putting our
21 proposal together in recognition of the complexity of what
22 these projections were going to look like. And I knew once
23 we got underneath them that they were going to be complex,
24 and I knew that the fact that there were multiple parts of it
25 that piece together was going to make it -- was going to make

1 it complicated, but -- and given the time frame, there are
2 critical assumptions that either lay the foundation for many
3 of the other assumptions or they're critical because they're
4 so sensitive to small changes having big impacts that you
5 really had to look at them, so --

6 Q Okay. So that's my next question.

7 A Yeah.

8 Q What is the purpose of identifying some of the
9 assumptions as critical assumptions?

10 A Because there are -- there is some subset of those
11 thousands of assumptions that are really, really important,
12 so, for example, right, one of the most critical assumptions
13 in the city's projections are the head count assumptions, so
14 at a foundational level, we've got to get comfortable that
15 the projected head count by department of people doing what
16 they're doing, right, makes sense.

17 Q You're talking about employment head count?

18 A Employment head count because, you know, again, you've
19 got 60-plus percent of your costs that are derived either
20 from salaries, wages, or benefits that are paid, so you
21 better have the head count projections. You better be
22 comfortable with that before you move on to say that, you
23 know, the budget for this department or that department is
24 okay, so that's an example.

25 Q Is it generally accepted within your field to separate

1 assumptions by how critical they are in --

2 A It is.

3 Q -- determining whether and to what extent to investigate
4 them?

5 A It is because it's the -- it's a cost-benefit analysis so
6 that you can -- you know, you want to make sure that you get
7 all of the important assumptions analyzed, critiqued,
8 evaluated, and the lesser assumptions either will have very
9 little impact or you may run out of time or you may run out
10 of budget to do them, so --

11 Q Was there ever an instance in the case when someone asked
12 you to investigate an assumption because they thought it was
13 a critical assumption but you decided not to?

14 A Not that I recall.

15 Q Were there any assumptions that, in your judgment, should
16 have been investigated as critical assumptions but for
17 whatever reason you did not investigate?

18 A No.

19 Q Well, what challenges or obstacles did you face in
20 reliably applying to the facts of the case the principles and
21 methods that you chose to use?

22 A Other than initially getting access to data that we felt
23 was important that maybe the city either hadn't already
24 collected or didn't think was important, once we kind of got
25 over that hump, then there really weren't any other

1 impediments.

2 Q Okay. So you're satisfied that you worked through those
3 challenges or obstacles?

4 A Yeah. I couldn't have rendered an opinion.

5 Q So there were no challenges in this regard that you did
6 not successfully meet or overcome?

7 A That's correct.

8 Q Is there anything further that you want to tell us about
9 the reliability of your application of the principles and
10 methods that you used?

11 A Not that I can think of.

12 Q Let's address some of the more specific objections or
13 issues regarding your testimony that the parties asserted in
14 their motions even though some of them have been withdrawn.

15 A Okay.

16 Q Are you generally familiar with those issues that the
17 parties have raised?

18 A I am.

19 Q How have you become familiar with them?

20 A I read the pleadings, and then I discussed them with my
21 attorneys.

22 Q Do you believe that any of those objections have merit?

23 A I don't.

24 Q All right. So what I'm going to do now is summarize each
25 objection and simply ask you how you respond to it.

1 A Okay.

2 Q One objection, for example, is that you did not actually
3 test the reasonableness of a majority of the city's
4 assumptions in its forecasts and that instead you opined that
5 the city's assumptions are reasonable when considered in the
6 aggregate.

7 A Okay.

8 Q What is your response to that objection?

9 A My response is that we did look at individual
10 assumptions. We did analyze them. We did critique them
11 individually. We looked at the assumptions in total
12 obviously in the result. My challenge is with the word
13 "test." Okay. This is not a blood test. You can't put a
14 dipstick in it and get something to turn blue or pink. Okay.
15 You have to look at the information about the assumptions and
16 the data, so when you look at my report, much of -- and let's
17 go back to the head count example; right? The head count
18 analysis that we did in looking at the individual assumptions
19 around head count by department over time, right, that
20 information is information that we pulled together so that we
21 could analyze it. That isn't something that somebody gave
22 us. That is something that Kevin developed. So did you test
23 it? I got a problem with the "testing" word. Did we analyze
24 it? Did we verify it? Did we make sure that the head count
25 that we looked at in different places made sense? Absolutely

1 we did. Did we do that for every single assumption? No,
2 because some of them are minor. Again, some of them are
3 minor, but I do believe that for all of the assumptions
4 individually, collectively we did it. I only -- in my report
5 I only called out certain of the assumptions that I either
6 thought were important to make a statement that I agreed with
7 or certain of the assumptions that I felt it was important
8 that I make a statement that I don't agree with. So I think
9 silence on some of the assumptions has maybe been
10 misconstrued as I didn't look at them, but that's not the
11 case.

12 Q Another objection that was made is that there is no way
13 to test some of your opinions on some specific assumptions.
14 How do you respond to that?

15 A Again, I don't know how to respond to that because it
16 doesn't make sense to me. This is not -- this is not a
17 laboratory experiment; right? We're not putting two
18 chemicals together to see if we get smoke; right? It is you
19 look at information, you analyze it, and you assess its
20 veracity and validity.

21 Q It is also asserted that you did not make any
22 determination about the quality of E&Y's work.

23 A I read that, and I remember at some point being asked
24 about that, and I didn't -- I relied on what E&Y did. I
25 trust their professionalism. I believe they were honest with

1 me. We checked all the math; right? So I didn't have to --
2 I didn't have to just accept it; right? We went and checked
3 all the math, and we verified the assumptions, so I just
4 didn't feel a necessity to make a statement about the quality
5 of their work or similarly about Conway's work, but I mean
6 they've done an amazing job; right? Do I agree with
7 everything they've done? Absolutely not; right? Would they
8 agree with everything I did? Absolutely not. But it's not
9 like anything is inferior or substandard or unprofessional.

10 Q Well, was your assessment, evaluation, review, reliance
11 on E&Y's work, consistent with what is generally accepted in
12 the industry in these kinds of circumstances?

13 A Absolutely. When you're the evaluator of the plan and
14 the projections as opposed to the developer, I think most
15 evaluators, based on reputation, prior experience, whatever,
16 would tend to rely on the preparer to some level based on
17 their own ability to review and analyze.

18 Q It is asserted that you did not understand the city's
19 methodology and, therefore, could not have evaluated it. How
20 do you respond to that?

21 A I got a little bit tripped up with this big M, little M
22 thing. I got asked about methodologies from an academic and
23 a textbook perspective, and I wasn't very facile with those
24 words. I knew what we did. We did trend analysis. We did
25 time series. We looked at regressions. We looked at

1 sensitivities. I didn't -- I don't think about that. That's
2 not the words that people in my business use even though when
3 I look in retrospect we absolutely did use some of those
4 methods.

5 Q It is asserted that you were forced to rely on the city's
6 unreliable and insufficient data and only when the city was
7 willing to provide it to you because you did not have
8 sufficient time to independently verify it.

9 A I don't believe that -- I mean there was -- there's never
10 been a context in my career where you go in and you reaudit
11 something. That doesn't make any sense. Okay. It's
12 historical. You rely on the information that's there that's
13 been audited by other folks that's been put into the city's
14 annual report, so there wasn't -- even if I'd had all the
15 time in the world, it's not something I would have done
16 because it wouldn't have provided much value.

17 Q It is asserted that you lack experience with municipal
18 finance and budgeting.

19 A I disagree with that.

20 Q Based on your work in Nassau County and with the Legal
21 Aid Society and --

22 A Yes.

23 Q -- with your staff's work with Jefferson County and
24 Philadelphia and the other experiences?

25 A We have a -- we have a lot of experience with municipal

1 budgeting and finance both from a preparer and an evaluator's
2 perspective.

3 Q We'll hear more about this in a moment, but it is
4 asserted that you lack the qualifications to give opinions
5 and conclusions relating to pension issues.

6 A I disagree with that. I agree that I am not an actuary,
7 that I could not do an actuarial calculation. Quite frankly,
8 I don't know how anybody did those things before computers
9 because they're just -- they're mind-numbing; right? But,
10 again, pension issues are not magical. They're not a super
11 science that we can't understand. Everybody in this room can
12 understand basic concepts around pensions, how benefits are
13 calculated, how liabilities are calculated, how investments
14 are made, how monies are discounted, so I just disagree with
15 that.

16 Q A theme that came through the objections was that you
17 were on the city's side in this case. Were you biased in
18 favor of the city?

19 A No. I don't think the city would say that at all.

20 Q Did you come into this assignment with any preconceived
21 notion regarding the feasibility of the city's plan of
22 adjustment or the reasonableness of its assumptions?

23 A I didn't. I would not have put myself forward if I had
24 had some perspective.

25 Q Is there anything else in the objections that you read

1 that you want to address?

2 A I don't remember them all, but I don't think so.

3 Q Okay. Just some final questions and conclusions here --
4 in conclusion here. Have you reviewed the transcript of your
5 deposition?

6 A I have.

7 Q Is there any testimony in your deposition that you want
8 to correct or clarify?

9 A No. There's nothing in my testimony that needs to be
10 corrected or clarified. There are typographical and phonetic
11 spelling errors which we've not undertaken to do an errata
12 sheet, but, you know, in reading it, are there things I'd
13 like to explain better, but realizing that that's not the
14 opportunity for me to have a say -- I'm just answering
15 questions -- I don't think that there's anything that's
16 technically wrong with my testimony.

17 Q In these circumstances, the Supreme Court made the
18 following statement, and for the lawyers in the room it's
19 Kumho Tire versus Carmichael, 526 U.S. 137, 1998 -- quote,
20 "The objective of that requirement is to ensure the
21 reliability and relevancy of expert testimony. It is to make
22 certain that an expert, whether basing testimony upon
23 professional studies or personal experience, employs in the
24 courtroom the same level of intellectual rigor that
25 characterizes the practice of an expert in the relevant

1 field." Did your work in this case meet that standard of
2 intellectual rigor that the Supreme Court described?

3 A Absolutely.

4 Q Finally, do you plan to update your report?

5 A I have heard that we're getting a new plan maybe later
6 today or tomorrow with new projections, so probably.

7 Q I take it that until you see that, you're probably not in
8 a position to see how much work that would involve or what
9 the timing of that would be?

10 A I don't. I don't have any idea.

11 Q Okay.

12 THE COURT: All right. That's all the questions I
13 have. Let's take a break now for 15 minutes until 3:30, and
14 then we'll see if others have questions, so I will see you
15 then.

16 THE CLERK: All rise. Court is in recess.

17 (Recess at 3:13 p.m., until 3:29 p.m.)

18 THE CLERK: All rise. Court is back in session.
19 You may be seated.

20 THE COURT: Okay. Ms. Green, do you have questions?

21 MS. GREEN: Yes, I do.

22 MR. STEWART: I have no questions.

23 CROSS-EXAMINATION

24 BY MS. GREEN:

25 Q Good afternoon. It's Kopacz as in rhymes with topaz;

1 correct?

2 THE COURT: Could you --

3 MS. GREEN: Thank you.

4 THE COURT: -- pull the mike --

5 MS. GREEN: Yes.

6 THE COURT: -- right in front of you and talk
7 right --

8 MS. GREEN: Just wanted to make sure --

9 THE WITNESS: Yes, yes.

10 MS. GREEN: -- I had the pronunciation right.

11 BY MS. GREEN:

12 Q I wanted to go over a little bit of your prior experience
13 at Nassau County. You identified your engagement there as
14 involving some pension-related work; correct?

15 A I'm sorry. My involvement where?

16 Q At Nassau County.

17 A Oh, in Nassau County, yes.

18 Q And you identified your involvement there as having some
19 pension-related work; correct?

20 A Pension was a significant budgetary item for Nassau
21 County, so, yes, we did look at it.

22 Q But there the state provided a backstop, and so you did
23 not have to opine as to the cause of the underfunding;
24 correct?

25 A The state actually funded and took a deduction from the

1 county.

2 Q And I believe you stated that you only looked at the
3 future funding requirements for Nassau County as part of that
4 engagement; correct?

5 A That's correct.

6 Q And at the Legal Aid Society you testified that your
7 involvement with respect to pensions was to change a defined
8 benefit plan to a defined contribution plan?

9 A We froze one and changed one.

10 Q Okay. But your role in this case has nothing to do with
11 changing the Retirement Systems in Detroit from a defined
12 benefit plan to a defined contribution plan; correct?

13 A That's correct.

14 Q And the scope of your engagement here is on two items,
15 correct, feasibility and the reasonableness of the city's
16 projections?

17 A Yes.

18 Q And you were not retained to opine on past investment or
19 actuarial practices of the Detroit Retirement Systems;
20 correct?

21 A Correct.

22 Q And you were not retained to opine about the
23 appropriateness of the former assumed rate of return for the
24 pension systems; correct?

25 A I don't believe I have. That's correct.

1 Q And you were not retained to opine on the appropriateness
2 of any smoothing method or amortization period used by the
3 Detroit Retirement Systems; correct?

4 A Correct.

5 Q And you were not retained to recommend proper pension
6 plan reporting requirements for the Detroit Retirement
7 Systems; correct?

8 A I said during my interview with the judge that to the
9 extent that my involvement -- out of my involvement I would
10 hope that it would improve aspects of the plan or aspects of
11 the communication around the plan that I intended to include
12 that in my report.

13 Q But that's not laid out in the order appointing you as an
14 expert witness; correct?

15 A It is not in my order.

16 Q Okay.

17 A Correct.

18 Q Thank you. And you were not retained to opine on the
19 causes of the pension plan's underfunding; correct?

20 A Correct.

21 Q And I believe you just testified earlier that you admit
22 that you are not an expert in the realm of public pensions.

23 A I am not. I said I am not an expert. I am not an
24 actuary. I do not consider myself to be a pension expert.

25 Q And you're also not experienced as an investment manager

1 of a public pension fund; correct?

2 A No. That's correct.

3 Q And you've never opined or given any conclusions as to
4 the proper rate of return for a public pension fund; correct?

5 A Correct.

6 Q And you're unfamiliar with smoothing mechanisms and
7 amortization periods used by public pension funds; correct?

8 A I don't think that's correct. I mean I'm familiar with
9 them.

10 Q If I asked you if you could opine on the appropriateness
11 of, for instance, a seven-year smoothing period, you would
12 agree with me that you would not be able to answer that
13 question; correct?

14 A I would have to study that question.

15 Q And similarly with respect to an appropriate amortization
16 period, you would have no basis to know whether a five- or a
17 ten- or a twenty- or thirty-year amortization period would be
18 an appropriate period for a public pension plan such as
19 Detroit's; correct?

20 A I would have to study that, yes.

21 Q And you're not published in the area of public pensions
22 or actuarial science; correct?

23 A Correct.

24 Q And when asked when any of the pension risks that you
25 cite in your report give you any pause with respect to the

1 city's plan of adjustment, you would agree that the long-term
2 risks associated with the pension plans do not negatively
3 impact your assessment of feasibility; correct?

4 A I'm sorry. Could you either repeat it or break it down?

5 Q I can. I can.

6 A Thanks.

7 Q The pension risks that are cited in your report, you
8 would agree with me that your conclusions do not impact
9 feasibility or your assessment of feasibility of the city's
10 plan of adjustment; correct?

11 A I think we need to talk about what pension risks we're
12 talking about.

13 Q Well, you didn't identify any particular pension risk
14 that caused you to conclude that the city's plan was not
15 feasible; correct?

16 A That's correct.

17 Q I believe you just stated that pensions are not magical.
18 They're not a super science. But you agree that you are here
19 being offered solely as an expert witness; correct?

20 THE COURT: I would agree with that.

21 THE WITNESS: Okay. Then I'll agree with that.

22 BY MS. GREEN:

23 Q Okay. So you did not personally interact with the
24 Detroit pension systems prior to your engagement in 2014;
25 correct?

1 A Correct.

2 Q Okay.

3 A Correct.

4 Q So you have no first-hand knowledge before your
5 engagement by the Court into the Detroit Retirement Systems?

6 A That's correct.

7 Q With respect to investment rates of return used
8 previously by the Retirement Systems, you did not do a
9 detailed comparison of the Detroit Retirement Systems assumed
10 rate of return compared to other public pension plans in your
11 work --

12 A Correct.

13 Q -- correct? And you did not make any efforts to quantify
14 what portion of any funding shortfall was attributable to any
15 allegedly aggressive rates of return; correct?

16 A I did not analyze the causes of the shortfall.

17 Q Let's discuss your conclusions relating to the Retirement
18 Systems investment practices.

19 A Um-hmm.

20 Q You had no quarrel with the Systems' investment
21 distributions or asset allocation; correct?

22 A I don't recall having any quarrel with that.

23 Q And you never looked at the written investment policies
24 for either of the Detroit Retirement Systems?

25 A I did not, but someone on my team did.

1 Q And if asked about which specific investments you believe
2 to be risky, you cannot identify any particular investment by
3 name; correct?

4 A I have -- other than the supposed investments that the
5 former mayor directed to his business associates and friends.

6 Q But you did not quantify whether that particular
7 investment actually contributed to any funding shortfalls;
8 correct?

9 A Correct.

10 Q And you did not actually analyze the asset mix in the
11 Retirement Systems' investment portfolio; right?

12 A Like I said, I didn't do it. I know someone on my team
13 looked at that asset mix and gave me their perspective, yes.

14 Q And after looking at it, then there was no quarrel with
15 the particular asset mix used by the Systems?

16 A It was not something that we went further into; correct.

17 Q And at the time you prepared your report, you had no
18 information reflecting negatively on the current pension
19 advisors to the city; correct?

20 A No. That's correct.

21 Q And at the time you prepared your report, you had not met
22 with any of the Retirement Systems professional investment
23 consultants; correct?

24 A Correct. I did not. I don't know -- like I said, I
25 think people on my team had conversations with them but

1 didn't -- I don't think that they met with them.

2 Q Well, let's identify who those professional consultants
3 were. If your communications log did not list meetings with
4 NEPC or Wilshire, would that change your testimony as to
5 whether people on your team met with the --

6 A Those are the current consultants; correct?

7 Q Correct.

8 A Correct. Yes. Like I said, I don't -- I can't tell you
9 anything more than I've told you. I don't know that they
10 have not met. I believe they met with somebody at least
11 telephonically at some point.

12 Q And, similarly, you did not meet with or consult with the
13 Retirement Systems chief investment officer, Ryan Bigelow;
14 correct?

15 A That's correct.

16 Q And you never met with the Systems' actuaries -- the
17 current actuaries either; correct?

18 A I did not; correct.

19 Q Or any of the trustees for either System?

20 A I think that maybe one of the people that I met with at
21 Clark Hill was on the board.

22 Q Would you be able to identify that person? Let's do it
23 this way. If they were not listed on your communications log
24 as being present at the meeting --

25 A A trustee? Okay.

1 Q -- would that reflect that they were not present?

2 A That would reflect my -- that would be correct.

3 Q Okay. And you did not investigate when the Systems were
4 fully funded versus when they became underfunded; correct?

5 A Correct.

6 Q And you agree that in terms of feasibility, knowing the
7 timeline of events relating to the underfunding is not
8 something that you cared about in your analysis; correct?

9 A Correct.

10 Q And you admit that there are no allegations of misconduct
11 against current trustees in relation to either Retirement
12 System?

13 A I have no knowledge of that one way or another.

14 Q And you're aware that there are certain governance
15 changes being imposed under the plan within each Retirement
16 System; correct?

17 A Like I said, I don't know that one way or another.

18 Q You would agree with me that past misconduct, whether
19 true or not, did not impact your feasibility analysis?

20 A That's correct.

21 Q And you never attempted to quantify the actual economic
22 impact that you would have attributed to any alleged
23 misconduct within the Retirement Systems; correct?

24 A That's correct.

25 Q And you admit that certain portions of your report

1 consisted of words that you took from a declaration of
2 Charles Moore; right?

3 A Yes.

4 Q And you never independently verified the factual points
5 that you took from the Charles Moore declaration; correct?

6 A I did not personally. That's correct.

7 Q And your instructions to your team were to cite
8 information that already existed in the record; correct?

9 A That is correct.

10 Q Let's talk about the due diligence relating to the cause
11 of the Systems' underfunding. You did not look at what
12 typical losses were to other public pension systems during
13 the great recession; correct?

14 A I did not.

15 Q And you did not consult any publications or studies to
16 compare how the Detroit Retirement Systems fared compared to
17 other public systems as a result of the great recession;
18 correct?

19 A Generally, I'm aware of what happened both in the public
20 and the private sector during that time frame, so I didn't
21 really feel a need to look historically in terms of that.

22 Q And you did not review any data from the U.S. Census
23 Bureau related to public pensions during that time period?

24 A Not that I recall, no.

25 Q And you did not review the NASRA public funding survey

1 for that time period; correct?

2 A I think we did review NASRA.

3 Q And do you agree that the NASRA report concluded that the
4 market decline in 2008 resulted in a median investment return
5 for public pension funds of a negative 25.3 percent for the
6 year 2008?

7 A I would have to look at the publication again, but the
8 losses were in the 20-plus percent category.

9 Q And you would agree that the losses to the Detroit
10 Retirement Systems were actually in line with the figures
11 that were published by NASRA; correct?

12 A As I said, I don't remember the two data points. I know
13 that they were both in the minus 20's.

14 THE COURT: Let me caution you to restrict your
15 questions to those that relate to Daubert issues. This
16 sounds like it's wandering into more substantive --

17 MS. GREEN: It does relate --

18 THE COURT: -- opinion testimony.

19 MS. GREEN: -- your Honor, to the -- whether she
20 looked at particular data points and whether her methodology
21 would have been reliable based on what she looked at, but I
22 only have a few more questions and I'm done.

23 THE COURT: Well, but you're asking her what her
24 opinions were having done that.

25 MS. GREEN: Okay.

1 THE COURT: That's where the --

2 MS. GREEN: I will restrict them.

3 THE COURT: -- line gets crossed.

4 BY MS. GREEN:

5 Q Regardless of the cause of the underfunding, you agree
6 that in terms of your feasibility analysis, what was
7 important to you when you wrote your report is how the
8 Retirement Systems are being dealt with in the future under
9 the city's plan; correct?

10 A That's correct.

11 MS. GREEN: Thank you, your Honor.

12 THE COURT: Okay. Does anyone else have any
13 questions for the witness? I have nothing further. You are
14 excused. Thank you very much for coming today. We will let
15 you know when we need you back. And let me know when you
16 come to a conclusion about when you'll do your supplemental.

17 (Witness excused at 3:44 p.m.)

18 THE COURT: Ms. Green, did you want to make an
19 argument?

20 MS. GREEN: I have to admit that objecting to the
21 testimony offered by the Court-appointed expert is a little
22 awkward. I feel like Mr. Hackney must have last week when he
23 objected to your questions of Chuck Moore. But as you
24 commented then, every once in awhile the Court sustains its
25 own objection, and --

1 THE COURT: That's true.

2 MS. GREEN: -- so I will proceed. Our motion is
3 limited, and it is not intended in any way to --

4 THE COURT: Hang on. Hang on. I always sustain my
5 own objections. What I only sometimes do is sustain other
6 parties' objections to my questions.

7 MS. GREEN: Either way, our motion is limited. It's
8 not intended to stifle in any way Ms. Kopacz's feasibility or
9 her opinions regarding the reasonableness of the city's
10 projections, and we're not disputing her qualifications in
11 that aspect. Her municipal finance and restructuring
12 expertise were well-established during your direct
13 examination of her. But as she admitted, she's not a
14 pensions expert and not an actuary. She's not an investment
15 manager. And to the extent that certain of her opinions
16 relate to pension systems and the cause of the underfunding
17 and all those sorts of things, we feel that it's
18 inappropriate to have her testify.

19 She also stated that pensions are not magical,
20 they're not a super science and that they don't even require
21 expert testimony under 702. If that's the case and she's
22 only being offered as an expert witness, then I don't think
23 it's appropriate to have her testify at all because she's not
24 a percipient witness. And under Rule 601, as a lay witness,
25 she would be unable to have any firsthand knowledge about our

1 underfunding, mismanagement, actuarial practices, things of
2 that nature, so for that reason, had I known that before we
3 submitted our motion to the Court, I would have added the
4 argument that if she's not an expert, then -- I'm sorry -- if
5 it doesn't require expert testimony, then there would be no
6 need for her to opine on those either way.

7 Furthermore, the scope of her testimony was limited
8 by your order to two discrete subjects, and all of the
9 pension-related opinions that she lists in her report go well
10 outside the bounds of that. She affirmed today that her
11 feasibility analysis is not impacted by any of her
12 conclusions relating to past investment practices or past
13 actuarial practices of the systems, and, therefore, under
14 your order, it's not relevant to these proceedings or to plan
15 confirmation. And I believe that the reason that you had
16 appointed a feasibility expert was because you were concerned
17 that there would be no adversarial process relating to
18 feasibility, but, as you've seen, that's not the problem with
19 the pension issues. There are experts on both sides, and
20 it's hotly contested outside of Ms. Kopacz's testimony.
21 Therefore, I think, again, it's almost duplicative or
22 cumulative of the other testimony that you'll hear in the
23 proceedings.

24 Finally, if she is not an expert, as we stated in
25 our other motion, which has not yet been decided, regardless

1 of whether she's an expert, the report itself should not come
2 in. It's inadmissible hearsay. The protocol we've been
3 using throughout these proceedings is not to admit an expert
4 witness' report because it is hearsay, and so the Retirement
5 Systems also object to the admissibility of her report into
6 the record as evidence. Thank you.

7 THE COURT: Thank you. Would anyone else like to
8 say anything about the Daubert issues? I want to hold on the
9 issue of admissibility for right after this.

10 MR. STEWART: Your Honor, Geoffrey Stewart of Jones
11 Day for the city, and I'll be very brief. First of all, as
12 to the scope of the assignment, feasibility is a very broad
13 charge, and nothing is more key to feasibility than whether
14 the city in the years that are yet to come is going to be
15 able to service the pension obligations it will see, which
16 could well be crushing. It is for that reason issues such as
17 the investment return assumption, pension, all the other
18 things we heard from Bowen, we'll hear from others, are, in
19 fact, key to that just as they're key to other things, too,
20 so I don't think it's beyond the scope of the assignment, per
21 se.

22 As to expertise, Ms. Kopacz testified that although
23 she may not be an expert in this, she is able to understand
24 it, and she dealt with at least three, if not four, people
25 who were experts, first of all, Mr. Gaul, then Mr. Childree,

1 then Mr. Gleason, and finally Mr. Ravitch, who needs no
2 introduction because of his enormous expertise, and she dealt
3 with all of those, and, therefore, her opinion is informed by
4 those. It is not fair to claim that either she or her effort
5 lacked expertise.

6 As to, though, the relevance of these issues about
7 past behavior and conduct of the Systems, I think actually
8 she dealt with that in a telling answer that she gave, and
9 I'm going to have to read from my notes for obvious reasons,
10 but let me grab them. In response to one of your Honor's
11 questions, she testified that -- about executive leadership.
12 She said in every case she evaluated management and their
13 ability to carry out the plan because every plan depends on
14 the debtor's ability to carry it out and execute it
15 faithfully. It may well be that there's new management in
16 these Retirement Systems, and that's a good thing; however,
17 it's not possible to wholly ignore the history, and it's not
18 possible in confirming a plan or looking at feasibility to
19 turn a blind eye at things that went before that to many of
20 us are shocking. So I don't believe this disqualifies
21 Ms. Kopacz in any way nor do I think it renders unreliable or
22 irrelevant the observations she made or the materials she
23 relied upon in reaching her conclusions. And a good portion
24 of her report going beyond pensions deals with the question
25 of post-confirmation governance and who's going to run the

1 city and how they're going to do this difficult job. And I
2 don't think pensions or Retirement Systems should be excluded
3 from that because she has spoken about other parts of the
4 city as well. That's all I have, your Honor.

5 THE COURT: Okay. I'm going to take this under
6 advisement and issue a written opinion. Let's focus our
7 attention on the admissibility of Ms. Kopacz's report, per
8 se. Ms. Green, was there anything further you wanted to say
9 about that?

10 MS. GREEN: Only to reiterate that the clear
11 standard in the Sixth Circuit is that expert reports are, in
12 fact, hearsay. And in addition to that, Ms. Kopacz stated
13 again today on the record that several of the statements
14 contained in the pension-related conclusions of her report
15 were, in fact, taken from a declaration of Chuck Moore and
16 were not her own words. We cited case law in our brief that
17 stated it's inappropriate for an expert to simply rely on
18 someone else's hearsay, plop that into their report, and then
19 use that as sort of a subterfuge to get around hearsay rules.
20 And she stated several times during her deposition rather
21 than write our own language, we chose to use someone else's
22 declaration, and she stated that she was just reciting
23 someone else's kind of version of the facts. So, in addition
24 to the entire report being hearsay, we have specific
25 objections to portions of her report since they are merely

1 words taken from another person's document and basically word
2 for word placed into her own expert report.

3 MR. STEWART: Your Honor, I wonder if to some degree
4 a lot of this is moot anyway since other expert reports have
5 been marked and admitted as demonstrative exhibits, which
6 might pretermitt a lot of the issues that are discussed by all
7 sides here. However, I would make a couple of very brief
8 observations. Part of the Court's task here is to determine
9 whether or not Ms. Kopacz's opinions are well-considered and
10 are well-founded, and the statements contained in the report
11 are probative of that because it shows what she considered,
12 what her sources were, and in many cases what weight she gave
13 them. This is not hearsay if it is used to demonstrate the
14 basis of the expert's opinion because it's not offered for
15 the truth of the underlying statement. It's offered instead
16 to corroborate the rigor of the expert's work.

17 Finally, I would say that as to forecasting, which
18 is not something we've talked about today, a lot of the
19 content of the report that comes from others is relevant
20 because it is necessary to demonstrate that the forecasts and
21 other assumptions Ms. Kopacz is opining about are, indeed,
22 the same ones that we're seeing in the plan that will be
23 before the Court. That's all I have, your Honor.

24 MR. SOTO: Your Honor --

25 THE COURT: Sir.

1 MR. SOTO: -- Ed Soto on behalf of FGIC. Our
2 position has consistently been that -- actually two
3 positions. One is that as a demonstrative piece of evidence
4 that it could be admitted without admitting the truth of it,
5 and I think Mr. Stewart alluded to that. Our second position
6 has also been experienced here, and that is to the degree
7 that a subsequent witness -- expert witness, indeed,
8 testifies throughout about the substance of the report, it is
9 no longer hearsay and may be admitted in another way, so we
10 would like to adhere to those positions. And until
11 Ms. Kopacz is able to do -- well, we have no problem with it
12 coming in as a demonstrative, and if she's able --

13 THE COURT: Okay.

14 MR. SOTO: -- to do the latter, we would address it
15 then.

16 THE COURT: Thank you. Does anyone else want to be
17 heard regarding the admissibility of Ms. Kopacz's report?
18 All right. The Court will take that under advisement as
19 well. Can we return to our trial sequence?

20 MR. MILLER: Your Honor, may I approach with some
21 documents?

22 THE COURT: Sir?

23 MR. MILLER: May I approach with some documents?

24 THE COURT: Yes.

25 MR. MILLER: Good afternoon, your Honor. Evan

1 Miller, Jones Day, for the City of Detroit. And the city
2 would like to call as a witness Mr. Alan Perry.

3 THE COURT: Please raise your right hand.

4 ALAN H. PERRY, CITY'S WITNESS, SWORN

5 THE COURT: Please sit down.

6 DIRECT EXAMINATION

7 BY MR. MILLER:

8 Q Good afternoon, Mr. Perry.

9 A Good afternoon.

10 Q Please state your full name for the record.

11 A Alan Hopkins Perry.

12 Q And where do you live, Mr. Perry?

13 A Wynnewood, Pennsylvania.

14 Q And could you please describe your educational
15 background, specifically any college and graduate school?

16 A I have a bachelor's in business administration from the
17 Wharton School at the University of Pennsylvania and a
18 master's in science and actuarial science from the Temple
19 University Graduate School of Business in Philadelphia.

20 THE COURT: Excuse me one second. Can you pull that
21 microphone slightly closer to you? I think the base may
22 slide. There you go. See if that works better. Go ahead.

23 BY MR. MILLER:

24 Q And what years did you receive those degrees?

25 A Undergraduate degree was 1988, and my master's degree was

1 1990.

2 Q And what is your profession, sir?

3 A I'm an actuary.

4 Q And how long have you been doing actuarial work?

5 A The last 24 years.

6 Q So that would be since 1990. What kind of work did you
7 do before you began doing actuarial work?

8 A I worked as an equity and equity derivatives trader for
9 an investment firm.

10 Q And what firm was that?

11 A It was called the Chicago Corporation.

12 Q And where was that based?

13 A Chicago and Philadelphia.

14 Q And do you have any designations in the actuarial field?

15 A I'm a fellow of the Society of Actuaries and a member of
16 the American Academy of Actuaries.

17 Q And how does one become a fellow in the Society of
18 Actuaries?

19 A It takes a long series of actuarial examinations.

20 Q And what do those examinations cover?

21 A Mathematics, economics, finance, principles of insurance,
22 principles of employee benefits, so on.

23 Q Are there subspecialties in the actuarial profession?

24 A Right. During the fellowship, you have to have in-depth
25 knowledge in a particular actuarial practice area such as

1 insurance or life insurance or investments.

2 Q And do you yourself have a subspecialty in the field?

3 A Yes. My practice field is investments.

4 Q And in addition to your being a fellow in the Society of
5 Actuaries, what other professional designations do you hold?

6 A I have my CFA charter, Chartered Financial Analyst.

7 Q And what entity issues a CFA or Chartered Financial
8 Analyst designation?

9 A The CFA Institute.

10 Q And how does one become a Chartered Financial Analyst?

11 A I know there's the professional examinations, and there
12 are also experience requirements.

13 Q When you began in the actuarial field in 1990, where were
14 you employed?

15 A Milliman in Philadelphia.

16 Q And is that where you work today?

17 A Yes.

18 Q And do you work in the same office as Mr. Bowen?

19 A I do.

20 Q And is that office in Philadelphia proper or a suburb of
21 Philadelphia?

22 A In the suburbs, Wayne, Pennsylvania.

23 Q Okay. And where else does Milliman have offices?

24 A We have 31 offices throughout the United States and I
25 believe another 27 outside of the United States.

1 Q What type of services does Milliman provide to its
2 clients?

3 A Actuarial and other general business consulting to life
4 insurance companies, property casualty insurance, healthcare
5 providers, and employee benefits plans and investment
6 consulting.

7 Q I'm sorry. You said and investment consulting?

8 A And investment consulting.

9 Q In brief, can you summarize the work that you did in your
10 first several years at Milliman?

11 A Primarily investment analysis of pension portfolios,
12 developing capital market assumptions for our pension
13 clients.

14 Q Okay. And what is your current title at Milliman?

15 A I'm a principal consulting actuary and a senior
16 investment consultant.

17 Q And what are your current roles at Milliman?

18 A I have many roles. My primary role is to manage
19 Milliman's pension asset liability modeling services.

20 Q And what is that?

21 A We provide -- we team up with pension actuaries and
22 provide asset liability studies periodically for our pension
23 clients.

24 Q And who are the clients that would use these asset
25 liability studies?

1 A Generally, they'd be intermediate to large size public
2 and corporate and multi-employer pension funds.

3 Q And how would they use and apply these studies that you
4 would provide to them?

5 A Asset liability studies are a very in-depth look at the
6 long-term funding and risks to pension plans typically
7 focusing on asset allocation, risk management, long-term
8 costs.

9 Q And approximately how many asset liability studies does
10 the pension asset liability modeling group perform in a given
11 year?

12 A Typically ten to fifteen per year.

13 Q And I think you previously indicated that this work has
14 been provided to public sector pension plans; is that right?

15 A Public and corporate and multi-employer.

16 Q And can you name some of the public plan clients who've
17 received these pension asset liability modeling studies?

18 A Sure. City of Hartford, Connecticut; Iowa Public
19 Employees Retirement System; Kansas Public Employees
20 Retirement System. I've also done a lot of the same kind of
21 modeling more recently for the State of New York, State of
22 New Jersey, State of Minnesota, Oregon Public Employees
23 Retirement System, City of Portland.

24 Q Thank you. Do you have any other roles at Milliman?

25 A I also sit on Milliman's investment oversight committee.

1 Q And can you describe for us what the investment oversight
2 committee does?

3 A The investment oversight committee provides oversight to
4 Milliman's investment consultants in situations where the
5 investment consultants have some discretionary authority over
6 the asset management for their pension clients.

7 Q So if a Milliman investment consultant has the
8 discretionary authority with respect to a Retirement System
9 to terminate an investment manager, say a large cap
10 investment manager, how would he or she interact with your
11 committee?

12 A He or she would have to take that decision to the
13 investment oversight committee, explain the rationale for
14 that, and then the committee would approve it or not.

15 Q And you would evaluate the decision and opine whether the
16 investment consultant on behalf of Milliman could execute his
17 recommendation?

18 MR. WAGNER: Objection.

19 THE WITNESS: Yes.

20 MR. WAGNER: Leading.

21 THE WITNESS: Yes.

22 THE COURT: The objection is sustained.

23 BY MR. MILLER:

24 Q Mr. Perry, do you speak on actuarial matters or financial
25 advisory matters?

1 A From time to time I do.

2 Q And at what organizations would you typically speak?

3 A National Association of State Treasurers, International
4 Foundation of Employee Benefit Plans, public pension fund
5 conferences like the Pension Fund Summit, the Enrolled
6 Actuaries meeting.

7 Q And what would typically be the topics that you might
8 speak on at these meetings?

9 A Typically it would be asset allocation or pension risk
10 management.

11 Q Have you authored any publications in the field of
12 investment advisory services?

13 A Just a few.

14 Q And can you give us some examples of those?

15 A Published an article in Contingencies, which is a
16 publication by the American Academy of Actuaries, an article
17 in Benefits Quarterly, and I'm co-author of Milliman's
18 corporate pension funding study.

19 Q And tell us -- tell the Court about that study.

20 A That study -- there's a full study that goes out once a
21 year reporting on the funded status of the 100 largest
22 corporate pension -- defined benefit pension plans in the
23 U.S., and then the data -- the funding ratio index is updated
24 every single month.

25 Q And is that study widely used in the actuarial field?

1 A It's widely quoted.

2 Q Do you have any leadership positions at Milliman?

3 A I am chair of Milliman's capital markets committee.

4 Q How long have you served on that committee?

5 A About 19 years.

6 Q And how long have you served as chair of that committee?

7 A The last two or three.

8 Q And what does Milliman's capital markets committee do?

9 A Develops capital market assumptions to be used by both
10 Milliman's investment consultants and Milliman's pension
11 actuaries in their work providing guidance to their pension
12 clients.

13 Q And these capital market assumptions would be related to
14 what sort of projections?

15 A Typically it's expected returns and risk measures for all
16 the asset classes that our pension clients invest in.

17 Q And how is this -- how is the work product, the capital
18 market assumptions that are developed by the capital markets
19 committee, used by Milliman clients?

20 A Our investment consultants use them to help their clients
21 make asset allocation decisions, and Milliman's pension
22 actuaries use them to provide guidance to their clients on
23 setting the expected return assumption for their valuations.

24 Q And approximately how many pension plans throughout the
25 United States use the capital market assumptions that are

1 developed by the committee that you chair?

2 A Hundreds.

3 Q How many of them are governmental pension plans or public
4 pensions plans?

5 A I'd say about 50.

6 Q And approximately how many retiree health plans in the
7 U.S. use the capital market assumptions that are developed by
8 the capital markets committee that you chair?

9 A I'd say more than a thousand.

10 MR. MILLER: Your Honor, the city moves to have Mr.
11 Perry qualified as an expert witness on the subject of
12 actuarial science and pension investment analysis.

13 MR. WAGNER: No objection.

14 THE COURT: You may proceed.

15 MR. MILLER: Thank you.

16 BY MR. MILLER:

17 Q I'd like to begin the more substantive part of the exam
18 by talking about core principles of pension plan investing.
19 In the field of pension plan investing, what is the most
20 important decision that a governmental pension plan must
21 make?

22 A I would consider the asset allocation decision to be the
23 most important.

24 Q And what do you mean by asset allocation decision?

25 A The way the pension plan divides up their investments

1 into the -- among the different asset classes such as stocks
2 and bonds and real estate.

3 Q And can you offer the Court a hypothetical example of a
4 pension plan asset allocation portfolio?

5 A Sure. A plan might have, you know, 30 percent in U.S.
6 stocks, 30 percent in non-U.S. stocks, 30 percent in fixed
7 income, and 10 percent in real estate. That would be their
8 asset allocation.

9 Q Why is the asset allocation decision the most important
10 investment decision that a governmental pension plan can
11 make?

12 A Many studies have shown, studies by companies such as
13 Morningstar Associates, that, you know, asset allocation is
14 the dominant factor in the level of long-term returns that
15 pension funds earn.

16 Q And who's Morningstar?

17 A Morningstar is a Chicago-based investment research mutual
18 fund rating organization widely followed.

19 Q And do investments in certain asset classes tend to
20 produce higher returns than investments in other asset
21 classes?

22 A Yes.

23 Q And which asset classes have historically provided higher
24 returns than the others?

25 A Equity, equity-like asset classes have typically provided

1 the highest returns.

2 Q What type of equity classes?

3 A Public equity common stocks and also private equity.

4 Q In that case, why don't all retirement systems --
5 governmental pension plans, that is -- invest entirely in
6 equities?

7 A That would be too risky. If the equity markets suffered
8 a major correction, the entire portfolio would suffer that
9 correction, too. There would be no other assets to diversify
10 away some of that risk from the equity markets.

11 MR. MILLER: Can you put up City Demonstrative
12 Exhibit 633?

13 BY MR. MILLER:

14 Q Mr. Perry, have you seen this demonstrative before?

15 A Yes, I have.

16 Q And the equation that is at the top of the demonstrative,
17 contributions plus investments equal benefits plus expenses,
18 have you seen that formula before?

19 A Yes, I have.

20 Q And is this a widely recognized formula in the actuarial
21 field?

22 A Yes, indeed.

23 Q Can you explain to the Court the mathematical role that
24 investment risk plays in this C plus I equals B plus E
25 equation?

1 A Investment risk, volatility of investment returns
2 generally would need to be balanced out by similarly volatile
3 contributions to keep the fund in balance, so if investment
4 returns aren't as high as anticipated, then contributions
5 would need to be increased to make up for the difference.

6 Q So volatility of "I" or investments affects volatility of
7 contributions?

8 A Yes.

9 Q Who typically makes the asset allocation decision for
10 retirement systems?

11 A Pension trustees, pension committee.

12 Q Do actuaries often make the asset allocation decision?

13 A Not that I'm aware of.

14 Q So how do governmental pension plans, retirement system
15 trustees make their asset allocation decisions? How do they
16 go about doing that?

17 A Ideally they conduct an asset liability study, and what
18 they're trying to do there is explore and discover the
19 intersection with their investment return objectives and
20 their risk tolerance.

21 Q What determines a retirement system's investment risk
22 tolerance?

23 A Generally the financial strength of the plan sponsor.
24 That governs the plan's ability and willingness to take risk.

25 Q If the sponsor of a retirement system -- that is, a city

1 or county, a governmental entity that makes the pension
2 promise -- does not have the ability to take on significant
3 risk, how should the retirement system trustees then go about
4 making their asset allocation decision?

5 MR. WAGNER: Objection, your Honor. This is not in
6 his expert report. None of this is in his expert report. He
7 opined on one thing in his expert report, the proper return
8 rate, not on how trustees make decisions.

9 THE COURT: The objection is overruled. You may
10 proceed, sir.

11 THE WITNESS: If the plan sponsor is not strong
12 enough to step in and increase contributions if investments
13 are too volatile, then they should have a less aggressive
14 investment policy such that they can handle the kind of
15 losses that would be occurred -- incurred under a lower risk
16 portfolio.

17 BY MR. MILLER:

18 Q Now I want to move away briefly from asset allocations
19 and discuss another concept in the field of pension plan
20 investing, the investment return assumption. In pension plan
21 investing, what is your understanding of the concept of
22 investment return assumption?

23 A Generally, the investment return assumption is related to
24 the expected long-term rate of return on the pension
25 portfolio.

1 Q In your experience, who typically decides the investment
2 return assumption?

3 A It's also the plan, the plan trustees.

4 Q Okay. Are you aware of certain instances involving
5 governmental plans where the decision is not made by the
6 trustees, by another party?

7 A There are a few public plans such as New York, the State
8 of New Jersey, I believe Minnesota, where that assumption is
9 set by the legislature.

10 Q What is the mathematical relationship between the asset
11 allocation decision and the investment return assumption?

12 A They're generally positively correlated. The higher the
13 expected return --

14 THE COURT: Excuse me one second.

15 THE WITNESS: Pardon me.

16 THE COURT: We're having a technical issue we need
17 to address. Caroline, what's being done here? Can we
18 proceed?

19 THE CLERK: Believe so.

20 THE COURT: Good.

21 MR. MILLER: Thank you, your Honor. I do want to
22 make a request of the witness.

23 BY MR. MILLER:

24 Q If you could speak a little bit louder and a little bit
25 closer to the microphone and a little bit more slowly -- I

1 apologize. I was having a little trouble hearing you.

2 A I'll try.

3 Q Thank you.

4 THE COURT: What did you say? No, seriously.

5 THE WITNESS: I will try.

6 BY MR. MILLER:

7 Q Yeah, please. Just closer to the microphone and a little
8 louder. Thank you.

9 MR. MILLER: Your Honor, can I repeat the question
10 that was pending?

11 THE COURT: Yes. Good idea.

12 MR. MILLER: Thank you so much.

13 BY MR. MILLER:

14 Q Again, what is the mathematical relationship between the
15 asset allocation decision and the investment return
16 assumption?

17 A They're generally highly positively correlated, meaning
18 the higher the expected return on the portfolio, the higher
19 the expected return assumption.

20 Q And the converse is also true?

21 A Yes.

22 Q Are you familiar with the terms of the pension settlement
23 that the city reached with the Retiree Committee and the two
24 Retirement Systems?

25 A At a general level, yes.

1 Q And are you familiar with the terms governing the use of
2 a 6.75-percent investment return assumption?

3 A Yes.

4 MR. MILLER: Can you put up City Exhibit 1, page 44?
5 And can you blow up capital B in the middle of the page
6 there? Little lower. There we go. Thank you. Thank you.

7 BY MR. MILLER:

8 Q Mr. Perry, can you read and review that sentence? And
9 please read it into the record.

10 A During the period that ends on June 30th, 2023, the
11 trustees of the PFRS or the trustees of any successor trust
12 or pension plan shall adopt and maintain an investment return
13 assumption and discount rate for purposes of determining the
14 assets and liabilities of the PFRS that shall be 6.75
15 percent.

16 Q And what is your understanding of that requirement that
17 is a part of the pension settlement?

18 A I interpret this sentence as the plan addressing the idea
19 of a risk budget that the trustees should be targeting a
20 portfolio with an expected return of 6.75 percent and
21 maintain a portfolio that will be expected to deliver 6.75
22 percent with no more risk.

23 Q And this phrase that you just used, "risk budget," is
24 that a concept or phrase that investment consultants --
25 pension investment consultants use?

1 A Yes.

2 Q And what does "risk budget" mean?

3 A It means developing a strategy that has some sort of a
4 cap on the amount of risk that the plan can take.

5 Q So it -- I'm sorry. Go ahead. So is it fair to say and
6 is it your view that the requirement of a 6.75-percent
7 investment return assumption through the period ending June
8 30, 2023, essentially acts as a cap on risk?

9 A Yes, it is.

10 Q In your judgment, how does the 6.75-percent investment
11 return assumption that's required by the pension settlement
12 through 2023 compare to the investment return assumptions
13 that are selected by other governmental pension plans?

14 A It's low. It's at or near the bottom of the assumption
15 that we would see for the largest public plans.

16 Q Do you know of any governmental pension plans with lower
17 investment return assumptions?

18 A Just one or two that I'm aware of.

19 Q And what are those plans?

20 A I believe the District of Columbia is at 6-1/2, and I
21 believe the State of Indiana is at 6.75.

22 Q Any other plans -- governmental pension plans that you're
23 aware of that use either a 6.75-percent investment return
24 assumption or something lower?

25 A Not that I'm aware of based on, you know, the surveys and

1 things that we've been looking at, which have a lag to them.

2 Q And, again, if you could speak a little bit more slowly.

3 I'm sorry. I'm having trouble hearing. I now want to talk

4 about Milliman's capital markets model and how that capital

5 markets model is constructed and operated. You testified

6 earlier that you're the current chair of Milliman's capital

7 markets committee. What does the capital markets model

8 develop and make assumptions for?

9 A The capital markets model develops expected average

10 returns, expected standard deviation of returns, and expected

11 correlations between the returns of different assets for a

12 large set of asset classes that our pension clients invest

13 in.

14 Q Does it attempt to predict returns for all of the asset

15 classes that pension plans, corporate and governmental, tend

16 to invest in?

17 A Most of them. They keep finding new ones.

18 Q Okay. And what kind of software program do you use for

19 this capital markets model?

20 A When the model is put together, it's an Excel program.

21 Q And who determines the various assumptions that go into

22 and are yielded by application of the model?

23 A Milliman's capital markets committee.

24 Q The committee you chair?

25 A Yes.

1 Q And how many members does that committee have?

2 A It varies. In a typical year it's -- it could be as low
3 as five, as high as eight or nine.

4 Q And what's the expertise of the men and women who serve
5 on that committee?

6 A Generally, they are senior investment consultants.

7 Q Are there also actuaries on that committee?

8 A Right now there are two actuaries, me -- you know, myself
9 and one other, and we're both actuaries who are investment
10 consultants.

11 Q Okay. And, again, just to repeat for the record, what
12 are the three categories of assumptions that your committee
13 develops as part of this capital markets model?

14 A Right. Expected average returns, expected standard
15 deviations as a measure of the volatility of the annual
16 returns, and the expected correlations between the returns of
17 different asset classes.

18 Q And, again, just for the record, what do you mean by
19 correlations between asset classes?

20 A Correlation is the statistical measure that shows how
21 closely related the returns of two different asset classes
22 are. If they tend to move in lockstep together, if they're
23 both high at the same time or they're both low at the same
24 time, those have a high positive correlation. Two asset
25 classes that move in the opposite direction, when one has a

1 high return, the other one tends to have a low return, those
2 have a negative correlation. And asset classes that appear
3 to be not related to one another in terms of their returns,
4 they're independent, they generally have a zero correlation.

5 Q And why is it important to measure correlations between
6 asset classes in developing capital market assumptions?

7 A Correlations allow us to reflect the diversification
8 that's in a particular portfolio. If the assets in the
9 portfolio are not perfectly correlated, that'll reduce the
10 expected volatility or the standard deviation at the total
11 portfolio level, and that's -- you know, that's the holy
12 grail of investing is to be -- is to be very diversified.

13 Q And that can affect return?

14 A Absolutely.

15 Q Okay. Let's focus on the first category of assumptions
16 that you identified, expected future average returns on asset
17 classes. How does the capital markets committee go about
18 forecasting expected future average returns on asset classes?

19 A We use a lot of data and capital markets theory, the idea
20 being that capital market theory, sometimes known as modern
21 portfolio theory, suggests that expected returns are driven
22 by risk, and it's not just the volatility of one asset class.
23 It's not just that asset class of standard deviation. It's
24 really the amount of risk that that asset class adds to a
25 portfolio or a portfolio of all assets. That risk is called

1 covariance. So the portfolio theory says that expected
2 return on an asset class is directly related to its
3 covariance. The data that we use, historical returns, that
4 allows us to estimate those covariances over historical
5 periods, you know, how have each asset class' returns varied
6 with the portfolio of all assets, and if we can establish
7 what that relationship is, you know, what is the expected
8 return per unit of that covariance risk, we can develop a set
9 of capital market assumptions for all these asset classes.

10 Q And is there a particular asset class or two that you
11 focus on first in developing these expected returns among a
12 spectrum of asset classes?

13 A Right. To estimate what the expected return per unit of
14 risk is, we independently develop expected returns for
15 probably the two key assets classes that particular U.S.
16 pension funds hold. That would be U.S. large cap stocks such
17 as the S&P 500 and U.S. investment grade bonds, perhaps
18 Barclays Aggregate Bond Index.

19 Q And how do you go about projecting future average returns
20 on large cap U.S. domestic equity?

21 A Right. We primarily rely on the widely used dividend
22 discount model, which is kind of a building block model, but
23 it basically says that the price of the stock market is equal
24 to the present value of all the expected cash flows to be
25 received from holding those stocks. We have the price --

1 Q Let me stop you right there. Those cash flows being
2 what?

3 A Dividends, you know -- you know, perpetuity of dividends.

4 Q Okay.

5 A Right. Growing dividends hopefully. And if we know the
6 price today and we have the projected cash flows in the
7 security, we can estimate what the discount rate is that
8 equates those projected cash flows with the price. That's
9 the expected return on -- on this case, on stocks. And
10 taking that apart, the answer is it's the sum of three
11 components. The first component is today's dividend yield.
12 The next component is a forecast of the expected growth rate
13 in corporate earnings, thus the growth rate in dividends they
14 can pay out, and that's a real number. It's based on real
15 growth in earnings. And the third number is expected
16 inflation over the measurement period that we're forecasting.

17 Q And what is the inflation assumption that the capital
18 markets committee is currently using in its capital market
19 assumptions for purposes of developing expected future
20 average returns?

21 A It is currently two and a half percent per year.

22 Q And what are the sources that your committee used and
23 referred to in determining an inflation assumption of 2.5
24 percent?

25 A Right. We rely on what's called break even inflation,

1 which is the difference between the yields on conventional
2 U.S. treasury bonds and the yields on inflation indexed U.S.
3 treasury bonds. And break even inflation is the rate of
4 inflation that would need to -- that we would need to
5 experience such that returns on, for example, a 30-year
6 conventional treasury bond and a 30-year inflation index
7 treasury bond would be the same, so that's regarded as the
8 bond market's forecast for expected inflation over -- you can
9 look at a ten-year, twenty-, thirty-year horizon. We also
10 look at forecasts of inflation from economists, which are
11 published in survey form. We also look at --

12 Q Well, let me stop you there and ask what surveys in
13 particular do you refer to to obtain economists' view of
14 future inflation?

15 A Right. We use the survey called the Blue Chip Financial
16 Forecasts published monthly by Aspen Publishers. It's widely
17 followed.

18 Q Okay. And in addition to looking at economists'
19 forecasts and the break even inflation rate, anything else
20 that you refer to in developing that inflation assumption?

21 A Right. Another source is the U.S. Congressional budget
22 office. They put out the longest forecast of anybody that
23 I'm aware of, which runs out to 100 years, so they have their
24 forecast for inflation for each of the next 100 years.

25 Q Anything else or --

1 A We look at history, but, you know, more just to, you
2 know, get an idea of, you know, volatility measures of
3 inflation and correlations between inflation and real
4 returns.

5 Q And how long has the capital markets committee been
6 employing a 2.5-percent inflation assumption in connection
7 with its development of expected future average returns on
8 asset classes?

9 A It's been about the last two, possibly three years. It
10 was 2.75 percent two or three years ago.

11 Q Was it higher or lower more than two years ago?

12 A A couple years ago for maybe a year or two it was 2.75.
13 Before that it was 2.5. Again, it's been down there for
14 awhile.

15 Q So you indicated that there were essentially three
16 building block tools that you used to forecast expected
17 future average returns as it relates to this large cap
18 domestic equity class --

19 A Yes.

20 Q -- dividend yield, real growth in earnings, and
21 inflation. Do I have that right?

22 A Yes.

23 Q Great. And the expected future average returns on that
24 large cap equity class is the sum of those three data points
25 over a period of time?

1 A Essentially, yes.

2 Q And after developing the expected future average return
3 on large cap equities, what is the next asset class that you
4 focus on in order to develop these returns across an asset
5 class spectrum?

6 A Right. Our other anchor, so to speak, is U.S. investment
7 grade fixed income, you know, the broad investment grade U.S.
8 bond market.

9 Q I'm sorry. Can you repeat that? I couldn't hear.

10 A The broad U.S. investment grade fixed income market
11 sometimes referred to as the aggregate fixed income market.

12 Q Thank you. And how do you go about developing the
13 expected future average returns on that investment grade bond
14 portfolio?

15 A Right. Well, the nice feature of bonds is they have a
16 stated yield. They are referred to as fixed income, so we
17 don't have to forecast what the cash flows will be. They're
18 built into the bonds, so you can get a quote on the yield to
19 maturity of the entire bond market. And generally with bonds
20 what you see is what you get. The future return is going to
21 be very close to the yield when you buy it. However, we are
22 in an environment right now where, due to the actions of the
23 U.S. Federal Reserve and other central banks, they are
24 influencing the interest rate markets significantly. Short-
25 term interest rates are near zero, and long-term interest

1 rates are still just a little above historical lows. Those
2 Blue Chip Financial Forecasts and other forecasts that we
3 look at, the consensus is that interest rates will be moving
4 up over the next five years and even a little bit beyond five
5 years out ten years, so I feel it's important to reflect that
6 expectation of rising interest rates when we develop the
7 assumption for fixed income. Fixed income -- you know, bonds
8 have a fixed maturity. It's not in perpetuity like equities,
9 so bonds are going to mature. You're going to roll over and
10 you're going to buy new bonds. We expect them to have a
11 higher interest rate, a higher yield as we go forward. So we
12 reflect where we think interest rates are going based on
13 these economists' forecasts, and based on the interest rate
14 sensitivity of this bond market, we can calculate total
15 returns, which would be, you know, coupon yield and also a
16 price impact, generally bad as interest rates go up, and we
17 can get the average return over the time period you're
18 interested in by following and playing that out.

19 Q Got it.

20 A Right.

21 Q So once you have what I think you referred to as the two
22 anchors, your projected returns on large cap domestic U.S.
23 equities and investment grade bonds, how do you go about
24 filling in the expected returns for the rest of the asset
25 classes that pension plans would ordinarily invest in?

1 A Right. With those two anchors -- as I say, two points
2 determine a line -- we can determine what we think is the
3 market's expected return per unit of risk where, again, risk
4 is that covariance measure. So we have it for the two
5 points. We can figure out what it is because we're assuming
6 that it's constant. It's a constant function of what the
7 covariance is, so historically we can measure the covariance
8 of all of the asset classes and then we can determine sort of
9 by interpolation where the expected return is for each of the
10 other asset classes based on that measure of covariance and
11 how it compares to those two anchors.

12 Q So it's essentially an interpolation exercise?

13 A Right. It starts out that way.

14 Q You had mentioned a second category of inputs, which are
15 expected standard deviation. How does the capital markets
16 committee go about forecasting expected standard deviation of
17 annual returns for asset classes that pension plans may
18 invest in?

19 A Generally for standard deviations we use the historical
20 standard deviation measured over a long time period. There
21 are a couple of asset classes that are assets that don't
22 trade in regular markets, things like private equity and
23 private real estate. They suffer from some appraisal-based
24 pricing and so, based on some research, we make some
25 adjustments to those standard deviations, but for most of the

1 other asset classes, it's based on actual historical standard
2 deviations.

3 Q Okay. And how does the capital markets committee go
4 about forecasting that third category and last category of
5 inputs, correlation between asset classes?

6 A Same way as the standard deviation. We base that on
7 historical returns over that same time period that we use for
8 the standard deviation.

9 Q Okay. And is there a deliberative process that the
10 capital markets committee undertakes before it approves the
11 assumptions in each of these categories?

12 A Yes. After the data is collected and the model is put
13 together and we've set the returns for the two anchors and we
14 have the set for all the capital asset classes, we go through
15 them one by one, you know. Essentially the committee
16 discusses them, if needed, and we approve them.
17 Particularly, we approve any changes over what the
18 assumptions were, you know, at the previous calibration of
19 the model.

20 Q Okay. And, indeed, how often do you recalibrate and
21 update the model?

22 A Generally every six months, December 31st and June 30th.

23 Q And as part of each six-month update, do you undertake
24 any checks on your capital market model result?

25 A Yeah. Because of the size of Milliman, we benefit from

1 seeing the capital market assumptions of a lot of other
2 consulting firms and actuarial firms. We are joint
3 consultants often for the same client. And, you know, we
4 keep track of how our assumptions compare to other investment
5 consulting firms and actuarial firms' assumptions. There are
6 also some forecasts of particularly U.S. large cap equity and
7 investment grade fixed income that we can look at to see, you
8 know, how we compare with those.

9 Q And generally how do Milliman's capital market assumption
10 results compare to those of peer groups?

11 A Very close. We're kind of in the middle of the pack more
12 often than not.

13 Q And what are some of the other firms that, in your
14 judgment, are part of this peer group that you compare your
15 results to?

16 A Right. Certainly the other large actuarial consulting
17 firms such as Mercer, Towers Watson, Aon Hewitt, and then
18 some of the larger widely used investment consulting firms
19 such as Wilshire and NEPC and Callan and Frank Russell and
20 others.

21 Q You mentioned Wilshire. Does Wilshire Associates have
22 any current relationship to any of the two Retirement Systems
23 that the City of Detroit sponsors?

24 A My understanding, they are the investment consultant for
25 PFRS.

1 Q And NEPC, that's New England Pension Consultants; is that
2 right?

3 A Yes.

4 Q Yeah. Do they have a current relationship with any of
5 the Retirement Systems that the City of Detroit sponsors?

6 A It's my understanding they are the investment consultant
7 for GRS.

8 Q And you said that generally Milliman's capital markets
9 assumptions fare -- compare closely to the assumptions that
10 are generated by these sorts of investment consultants?

11 A Generally, yes.

12 Q Let me ask this question. In forecasting expected future
13 average returns on asset classes, do you look at what
14 governmental pension plans have historically been returning
15 on these asset classes?

16 A Not as a matter of setting our assumptions, you know.
17 Obviously as an investment consultant I see those returns all
18 the time, but they do not go into our model. They're not one
19 of the inputs.

20 Q And why is that?

21 A The returns are forward looking. As I said, they're
22 based on prices today and forecasts of future cash flows
23 received from investments, and, you know, what they've been
24 in the past doesn't influence, you know, that math at all.

25 Q And it's the -- is it your judgment that in forecasting

1 expected future average returns on asset classes, it is not
2 important to look at what institutional investors such as
3 pension plans have returned on those asset classes --

4 MR. WAGNER: Objection.

5 BY MR. MILLER:

6 Q -- in the past?

7 MR. WAGNER: Objection. Leading.

8 MR. MILLER: I'll withdraw it.

9 BY MR. MILLER:

10 Q I now want to turn to the work that you did for the City
11 of Detroit. Did there come a time when the city retained you
12 to project investment returns for its two Retirement Systems,
13 GRS and PFRS?

14 A Yes.

15 Q And when was that assignment given to you?

16 A June of 2014.

17 Q And over what time horizons did the city ask you to
18 project investment returns?

19 A Investment returns for the next ten years and for the
20 next thirty years.

21 Q And how would you compare the two requested time horizon
22 periods, a ten-year time horizon and a thirty-year time
23 horizon? How would you compare them to the investment
24 horizon periods that are typically requested by your clients
25 that seek investment projection work?

1 A Those are typically the two standard time horizons.
2 Certainly for investment consultant -- investment consulting,
3 ten years is the common time period. Occasionally you'll see
4 seven years, something like that. And on the actuarial side,
5 30 years is also a very common projection. Sometimes you'll
6 see 20, but 30 is very common. We've been using it for 20
7 years.

8 Q And did you, in fact, undertake the assignment?

9 A Yes.

10 Q Yeah. And did you complete the assignment?

11 A Yes.

12 Q And did you prepare and submit an expert report in
13 connection with the assignment?

14 A Yes.

15 Q And does that expert report contain a summary of your
16 results of the assignment?

17 A Yes.

18 MR. MILLER: Could you put up City Exhibit 465? And
19 why don't you turn to page 11, which is called Exhibit 1
20 within that document? Blow that up.

21 BY MR. MILLER:

22 Q And this document -- or this page relates to the work
23 that you did in connection with which of the two Retirement
24 Systems?

25 A Exhibit 1 is PFRS.

1 Q Okay. Before we get into the particulars of this page,
2 Mr. Perry, you mentioned before that your capital markets
3 committee updates its capital markets model every six months.
4 What was the date for the capital market assumptions that
5 were used in undertaking this project for the city?

6 A December 31, 2013.

7 Q And had there been any changes made to the capital market
8 assumptions between July 1, 2013, and December 31, 2013?

9 A Yes, there were changes.

10 Q And what were the most important of those changes?

11 A Generally, the expected return on equities and most of
12 the alternative asset classes were decreased by 25 basis
13 points, a quarter of a percent, and the -- due to higher
14 yields by the end of the year, the expected returns on fixed
15 income were increased very slightly, just a few basis points.

16 Q Okay. So what would have been the impact on the
17 projected investment returns that would have been yielded by
18 application of the December 31, 2013, capital market
19 assumptions relative to the ones that you had for July 1,
20 2013?

21 A For a pension plan with a lot of equities and
22 alternatives in it, they would have decreased.

23 Q Thank you. Okay. What was the first step that you
24 employed in the process to complete this investment
25 projection assignment you had received several weeks ago?

1 A The first step was to obtain information about the
2 investment policy targets for the two systems.

3 Q And how did you obtain that information?

4 A We requested it from the city, and we received an exhibit
5 from the city, and we also received reports from the two
6 investment consultants, Wilshire and NEPC.

7 Q Okay. And why did you request policy target allocations
8 rather than the actual asset class percentages based on the
9 actual value of investments at the time of the measurement?

10 A We think it's more appropriate to use the investment
11 policy. That's their home base. That's what's supposed to
12 be guiding their long-term asset allocation. The actual
13 allocation on any one day generally deviates from that just
14 due to market movements, so we prefer to use the targets
15 because that's what we think is going to be the long-term
16 average asset allocation over the measurement period.

17 MR. MILLER: And can you highlight the vertical
18 column that's denominated 12 -- December 31, 2013, policy
19 target allocation?

20 BY MR. MILLER:

21 Q And are those the policy target percentages that you
22 recall working with?

23 A Yes.

24 Q Okay. Okay. After receiving the policy target
25 allocations for PFRS, what was the next step?

1 A Well, we study those targets so we can map the asset
2 classes that are represented in those targets as accurately
3 as possible into our model, make sure that we have the best
4 match on each of the asset classes that the system is
5 invested in.

6 Q Okay. And then once you've reached a judgment that you
7 have properly mapped the policy targets to asset classes in
8 your model, what is the next step?

9 A The next step is to enter them into the model and examine
10 the results.

11 Q Got it. And I want to focus your attention right now to
12 the three vertical columns under the heading "Milliman Ten-
13 Year Assumptions as of December 31, 2013."

14 MR. MILLER: And can you highlight those three
15 columns in the box right under there?

16 BY MR. MILLER:

17 Q And, Mr. Perry, what are those percentages?

18 A The first column labeled "Geometric Mean," that's another
19 word for the annualized rate of return. The middle column is
20 the arithmetic mean. That's the expected average return in
21 any one year. And the third column is the expected standard
22 deviation for that asset class.

23 Q And these three columns of numbers, are these the actual
24 ten-year capital market assumptions for the model for these
25 particular asset classes?

1 A Yeah. These are the general -- the results for the
2 general model that would apply for any plan -- any plan
3 invested in these asset classes.

4 Q So these capital market assumptions that you see on this
5 table, they weren't developed exclusively for the city's
6 assignment?

7 A No.

8 Q Okay. They would apply to any pension plan or other
9 entity seeking a capital market projection of returns?

10 A Yes.

11 MR. WAGNER: Objection. Leading.

12 THE COURT: Sustained.

13 MR. MILLER: Okay. I now want to highlight the
14 numbers right under that table under the heading "Milliman
15 Ten-Year Assumptions." Okay.

16 BY MR. MILLER:

17 Q Mr. Perry, can you walk the Court through the process by
18 which you developed those numbers that are shown in the
19 highlighted yellow?

20 A Sure. The first step is relatively easy. We start with
21 the middle column, the arithmetic mean, because the
22 arithmetic mean return on a portfolio of assets is the simple
23 weighted average mean of the individual asset classes
24 weighted by that asset class' allocation, so we can just
25 multiply those together, 12 percent times 8.25, 7 percent

1 times 9.20 and so forth, and when we add those up, we'll get
2 the number at the bottom under the arithmetic mean column,
3 the 7.43 percent. And that's essentially an intermediate
4 step. Unfortunately, for the risk of the portfolio, the
5 standard deviation at the portfolio level, it's a more
6 complicated weighted average because we have to reflect also
7 those correlation coefficients that we discussed. They're
8 not shown here, but they have to be reflected. The weighted
9 average on the portfolio is not a simple weighted average of
10 the standard deviations. We reflect correlations, and that
11 leads to the standard deviation for the total portfolio,
12 which is the 12.75-percent number you see under the standard
13 deviation column.

14 Q Yes.

15 A Now, armed with those two numbers, the arithmetic mean
16 for the portfolio and the standard deviation of the annual
17 return for the portfolio, we can calculate the expected
18 geometric mean, the annualized rate of return, over the ten-
19 year period.

20 Q And what is that number?

21 A And that's the 6.75-percent number.

22 Q And that's the number that your capital markets model
23 showed for this portfolio of target allocations?

24 A Right.

25 MR. WAGNER: Same objection. There's just way too

1 much leading here.

2 MR. MILLER: Go ahead.

3 THE COURT: The objection is sustained.

4 THE WITNESS: Okay.

5 THE COURT: No. The objection is sustained.

6 MR. MILLER: Oh, I'm sorry. Withdraw the question.

7 BY MR. MILLER:

8 Q Continue going through the process.

9 A All right. So the 6.75 is the expected mean annualized
10 rate of return over ten years, but due to the way investment
11 returns compound over time, that number has a little positive
12 skew to it, so as actuaries we don't like to use that.
13 That's not the most likely outcome. The most likely outcome
14 is the median or the 50th percentile of this possible return
15 distribution, so we make one final adjustment down to that
16 6.68-percent number. That is the median or 50th percentile
17 expected return and most likely return over the next ten
18 years.

19 Q And then can you explain to the Court the impact of the
20 horizontal line that says net of .10 percent investment
21 management fees?

22 A Right. Actuarial Standards of Practice 27 generally
23 discourages assuming that actively managed investments will
24 outperform sort of index funds or benchmarks, and you pay a
25 lot of extra fees for that, so we're developing expected

1 returns for essentially index funds or passive investments,
2 and they have very small fees, so we're estimating the fees
3 on that kind of a portfolio at only .1 percent or ten basis
4 points. So after we take those fees off, we're down at 6.58
5 percent as the expected net of fees median most likely return
6 over the next ten years.

7 Q So what figure does represent your best estimate of the
8 PFRS projected returns for the next ten years?

9 A 6.58 percent.

10 Q Now let's move to the table on the far right under the
11 column "Milliman 30-Year Assumptions." And did you
12 essentially undertake the same process in determining your
13 best estimate of the return for the PFRS portfolio over the
14 next 30 years?

15 A Yes. We followed the exact same process. We're just
16 using different individual asset class expected returns.

17 Q And what is your best estimate of PFRS returns for the
18 next 30 years under your capital markets model?

19 A 7.12 percent.

20 Q Why is the 30-year best estimate higher than the 10-year
21 best estimate for the PFRS portfolio?

22 A It's because, as I mentioned earlier, built into our
23 capital market assumptions is the expectation of rising
24 interest rates in general over the next ten years, so the 30-
25 year assumptions have the same first ten years as the 10-year

1 assumptions, but then when we get out, for example, to year
2 11, we're anticipating higher interest rates plus higher
3 returns on the fixed income asset classes that will then --
4 the portfolio would then benefit from those for the remaining
5 20 years of the 30-year horizon, so that's going to push
6 those 30-year numbers up within the fixed income asset
7 classes.

8 Q Okay. Mr. Perry, did you yourself prepare these tables?

9 A Yes, I did.

10 Q Okay. And do these tables and the results on those
11 tables, in fact, show the projected returns that your
12 analysis concluded?

13 A Yes.

14 MR. WAGNER: Objection. Leading.

15 THE COURT: Overruled. What's your answer?

16 THE WITNESS: Yes.

17 MR. MILLER: Steve, can you put on the screen the
18 next page of City Exhibit 465? It's called Exhibit 2. And
19 let's highlight, right, on the top left. And can you yellow
20 the top left corner? Right.

21 BY MR. MILLER:

22 Q And what does this exhibit represent, Mr. Perry?

23 A This is the same analysis but for GRS.

24 Q Okay. And did you follow the same process to develop the
25 projected investment returns for GRS that --

1 A Yes.

2 Q -- you had for PFRS?

3 A Yes.

4 Q And what is the best estimate of the projected GRS
5 returns for the next ten years?

6 A 6.52 percent.

7 Q And for the next 30 years?

8 A 7.04 percent.

9 Q And, again, the 30-year projection is higher than the 10-
10 year projection, and why is that so?

11 A Same reason. We have higher expected average returns in
12 fixed income over 30 years than we do over the next 10.

13 Q Now, when Milliman runs a capital markets projection,
14 does that projection provide, in addition to a single best
15 estimate that you've testified to, a range of best estimates?

16 A Yes, it does.

17 Q And why is that, sir?

18 A Because Actuarial Standard of Practice 27, which is the
19 standard covering the development of economic assumptions for
20 measuring pension obligations, it calls for the actuary to
21 develop a best estimate range, and the pension industry
22 generally has interpreted that to mean the 25th to 75th
23 percentile of this median long-term return distribution.

24 MR. MILLER: Steve, can I ask you to stick with City
25 Exhibit 465 and now move to page 2 of that exhibit? And can

1 you highlight the two charts near the top of that page?

2 Thank you.

3 BY MR. MILLER:

4 Q And, Mr. Perry, the top chart, what does that represent?

5 A Those are the expected returns and the best estimate
6 range for the two systems for the ten-year horizon.

7 Q And the bottom chart?

8 A The same for the 30-year horizon.

9 Q Okay. And can you explain how the capital markets
10 committee determined the best estimate range percentages that
11 are shown on the top chart for DGRS and DPFRS?

12 A So based on the same data, the same results we just
13 developed on the previous exhibits, with the expected average
14 return and the standard deviation for the portfolio, we can
15 use that information to estimate the 25th and the 75th
16 percentile just as we did for the 50th percentile.

17 MR. WAGNER: Your Honor, can -- I'm sorry. Can I
18 ask whether the -- what's being offered -- is this being
19 offered into evidence, and what part of the document is being
20 offered into evidence, whether it's the charts?

21 THE COURT: Good question.

22 MR. MILLER: Yeah. Your Honor, the city moves to
23 offer into evidence as demonstratives the Exhibit 1 chart
24 respecting PFRS, the Exhibit 2 charts respecting GRS, and
25 these charts on this page.

1 MR. WAGNER: No objection as demonstratives.

2 THE COURT: All right. For that limited purpose,
3 these -- those identified parts of this exhibit are admitted.
4 And it is closing time, so we will take our --

5 MR. MILLER: Your Honor, I'm sorry.

6 THE COURT: We will not take our break now.

7 MR. MILLER: We will not. I beg your indulgence.
8 The city would like to extract these materials from the
9 expert report and move to have them entered into and admitted
10 as evidence and not merely demonstratives.

11 THE COURT: Okay. So just for the record, what
12 would your next exhibit number be? Anybody know?

13 MR. STEWART: 706.

14 MR. MILLER: 706.

15 THE COURT: Is there any objection to that?

16 MR. MILLER: No.

17 THE COURT: All right. Then for all purposes, the
18 Court will admit Exhibit 706.

19 (City Exhibit 706 received at 5:00 p.m.)

20 THE COURT: Now can I call a recess for the day?

21 (Proceedings concluded at 5:00 p.m.)

EXHIBIT F

**UNITED STATES BANKRUPTCY COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION**

In re:
City of Detroit, Michigan,
Debtor,

Chapter 9
Case No. 13-53846
Hon. Steven W. Rhodes

**SUPPLEMENTAL REPORT OF MARTHA E.M. KOPACZ
REGARDING THE FEASIBILITY OF THE CITY OF DETROIT PLAN OF
ADJUSTMENT**

On April 22, 2014, Judge Rhodes entered an Order¹ appointing me as the Court's expert witness. Pursuant to that Order, "(t)he Court's expert shall investigate and reach a conclusion on:

- (a) Whether the City's plan is feasible as required by 11 U.S.C. § 943(b)(7);
- and
- (b) Whether the assumptions that underlie the City's cash flow projections and forecasts regarding its revenues, expenses and plan payments are reasonable."

I am providing this Report under Fed. R. Evid. 706(a). On July 18, 2014, I served my initial Expert Report (the "Initial Report") on parties in interest.² Except as noted below, I incorporate the Initial Report by reference in its entirety.

¹ Docket #4215 - Order Appointing Expert Witness

² Docket #6156 - Certificate of Service regarding Expert Report of Martha E. M. Kopacz.

I submit this supplemental Expert Report for three purposes:

- To reaffirm my expert opinions after a review of the 5th and 6th Amended Plans of Adjustment filed after the submission of my initial Expert Report;
- To provide certain additional analyses based on information received from the City after the issuance of my Initial Report; and
- To correct typographical errors in the Initial Report.

Section I – Reaffirmation of Expert Opinion

Subsequent to July 18, 2014, the City filed two amendments to its Plan of Adjustment (“POA” or “Plan”).³ My team and I have reviewed the amended Plans in order to determine what impact, if any, the changes might have on my Opinions. Of particular note, the financial projections supporting the amended POAs have not changed from the financial projections I analyzed in connection with my Initial Report. Thus, there are no new or additional forecasts, or *quantitative* information, to be evaluated or critiqued.

However, some of the changes reflected in the amended Plans, as well as the more recent approved tender offer for DWSD bonds, do impact my *qualitative* assessment of the current POA. The settlements reached with creditors after the date of the Initial Report and the DWSD bond tender approved by the Court on August 25, 2014 help to reduce uncertainties for the City post-confirmation and, in some cases, reduce the amount of long term cash outflows from the City. The DWSD bond refinancing increases the likelihood that DWSD will be able to make its contribution to the pension obligations, as contemplated in the most recently

³Docket #6257 - July 25, 2014 Fifth Amended Plan; Docket #6379 - July 29, 2014 Corrected Fifth Amended Plan; Docket #6908 - August 20, 2014 Sixth Amended Plan

amended POA, and also provides some encouraging data that may benefit the City in its future efforts to tap the capital markets.

Based on the foregoing, I reaffirm my opinions in the Initial Report that:

(a) The City's plan is feasible as required by 11 U.S. C. § 943(b)(7); and

(b) The assumptions that underlie the City's plan of adjustment projections regarding its revenues, expenses and plan payments are reasonable.

Section II – Supplemental Analysis Regarding Unfunded Pension Liabilities

Section J in my Expert Report addresses Pension Issues. I conclude that section of the Report with future reporting recommendations⁴. These recommendations stem from my concern that the City may have continuing unfunded pension obligations far into the future and that these obligations may increase beyond the assumptions presented in the July 2, 2014 financial projections.

Prior to issuing my Initial Report, the City provided me and my team with information regarding a sensitivity analysis of the future unfunded pension obligations. At that time, the information was limited to the obligations of the

⁴ Initial Expert Report of Martha E. M. Kopacz, beginning on page 154.

Police & Fire Retirement System (“PFRS”) under several scenarios. This sensitivity analysis was prepared at my request by the City’s actuarial firm, Milliman, Inc., and is discussed on pages 152 through 154 of the Initial Report.

Subsequent to the conclusion of my deposition, the City provided me with a similar analysis, prepared by Milliman, Inc., regarding future unfunded obligations of the General Retirement System (“GRS”). For the sake of clarity and simplicity, I am incorporating below the identical PFRS sensitivity analysis from my Initial Report, to which I have added a new sensitivity analysis for GRS. Adding the potential unfunded obligation related to GRS to that of the PFRS, which was identified in the Initial Report, provides a more complete picture and bolsters the recommendations for systematic and robust reporting contained in the Initial Report.

Sensitivity Analysis

The Society of Actuaries issued a *Report of the Blue Ribbon Panel on Public Pension Funding* in February 2014. The Blue Ribbon Panel recommended stress tests measuring the effect of investment returns over a 20-year period that are three percentage points above and below those used in calculating standardized plan

contributions⁵. The panel believes that +/- 3% points represents “plausible stresses” based on its review of prior market returns⁶.

In response to my request for an appropriate sensitivity analysis for the pension plans, Milliman has analyzed the PFRS and GRS plans assuming various average rates of return for the FY2014-2023 period and the aforementioned scenarios of 1) a bear market 5-year period followed by a bull market 5-year period and 2) a bull market 5-year period followed by a bear market 5-year period.

PFRS Sensitivity Analysis

As illustrated below, if the PFRS plan averages a 6% rate of return (75 basis points lower than the assumed rate of return) over the nine years ending June 2023, the Plan is forecasted to be only 70% funded in June 2023, resulting in an additional \$236 million of unfunded liability versus the POA projections. That unfunded variance expands to \$527 million if the PFRS plan averages a 5% rate of return during this time period. Finally, if PFRS is negatively impacted by a bear market/bull market cycle (as opposed to the inverse) with five years averaging 0%

⁵ The Society of Actuaries “Report of the Blue Ribbon Panel on Public Pension Plan Funding”; February 2014

⁶ The Society of Actuaries “Report of the Blue Ribbon Panel on Public Pension Plan Funding”; February 2014

followed by five years averaging 10%, the pension plan would have \$342 million more in unfunded liabilities during the 10-year period in question.

PFRS Average Rate of Return Scenario Analysis⁷

Average Rates of Return July 2014 - June 2023	Estimated Funding Status June 2023	Estimated Projected Unfunded Liability June 2023	Estimated Projected Unfunded Liability Variance
3.00%	43%	\$ 1,717	\$ 1,036
5.00%	60%	\$ 1,208	\$ 527
6.00%	70%	\$ 917	\$ 236
6.75%	78%	\$ 681	\$ -
8.00%	92%	\$ 252	\$ (429)
0% - 1st 5 years; 10% - 2nd five years	53%	\$ 1,439	\$ 758
10% - 1st 5 years; 0% - 2nd five years	64%	\$ 1,097	\$ 416

GRS Sensitivity Analysis

Similar to the PFRS analysis above, if the GRS plan averages a 6% rate of return (75 basis points lower than the assumed rate of return) over the nine years ending June 2023, the plan is forecasted to be only 69% funded in June 2023, resulting in an additional \$163 million of unfunded liability versus the POA projections. At an average 5% rate of return during this time period, the unfunded variance expands to \$359 million. Lastly, if GRS is negatively impacted by a bear market/bull market cycle (as opposed to the inverse) with five years averaging 0%

⁷ Milliman, Inc. letter; dated July 9, 2014

followed by five years averaging 10%, the pension plan would have \$165 million more in unfunded liabilities during the 10-year period in question.

GRS Average Rate of Return Scenario Analysis⁸

Average Rates of Return July 2014 - June 2023	Estimated Funding Status June 2023	Estimated Projected Unfunded Liability June 2023	Estimated Projected Unfunded Liability Variance
3.00%	47%	\$ 1,209	\$ 665
5.00%	61%	\$ 903	\$ 359
6.00%	69%	\$ 707	\$ 163
6.75%	76%	\$ 544	\$ -
8.00%	89%	\$ 247	\$ (297)
0% - 1st 5 years; 10% - 2nd five years	57%	\$ 964	\$ 420
10% - 1st 5 years; 0% - 2nd five years	65%	\$ 799	\$ 255

Section III – Errata Items

Set forth below are certain non-substantive “errata” changes to the Initial Report.

Date Change

On page 59 of my Initial Report, there is an error in paragraph 2, line six. The second reference to “FY 2015” in the statement “....property assessments in FY2015 and a 3-4% drop in FY2015.” should instead be “FY 2016.”

⁸ Milliman, Inc. letter; dated July 22, 2014

Footnote 47

During my deposition, it was brought to my attention that Footnote 47 of my Initial Report was in error. Following the deposition, I determined that Footnote 47 applied to a different sentence in the Initial Report. As explained below, I am incorporating in full the relevant section of the Initial Report and correcting the misapplied footnote to the proper text.

Pension

Within the Pension Issues section of my Report (Section J) is a subsection dealing with “Pension Funding Level”, beginning on page 126 and concluding in the middle of page 129. The Detroit Retirement Systems have sought to exclude this portion of my Initial Report based on the mistaken belief that my statements and conclusions are erroneous. Although I will leave to the Court the decision whether to exclude these passages, the record should be clear as to the relevant sources on which I relied. As I noted in my Initial Report, I relied on information and data supplied by the parties in this case. To clarify, set forth below are the same pages from my Initial Report to which I have added footnotes which reference the relevant source.

Pension Funding Level

The accounting for defined benefit plans can be very complex. The calculations used to determine the appropriate funding levels required each year are dependent upon macro-economic factors, actuarial assumptions, and other variables that can be difficult to understand and can be manipulated to bias the required funding levels.

Historically, a number of different practices have contributed to a significant funding shortfall in the two pension plans. The Retirement Systems utilized unrealistic rate of return assumptions and managed the pension plans in accordance with questionable investment strategies that resulted in considerable underfunding of the respective Plans. The Retirement Systems assumed aggressive annual rates of return on investment (PFRS: 8.0%; GRS: 7.9%), allocated asset gains and losses over a seven-year period which masked potential funding shortfalls, and utilized renewing 29- (PFRS) and 30- (GRS) year amortization periods for funding the unfunded pension obligations.⁹

The calculation of this funding shortfall, or the Unfunded Actuarial Accrued Liability (“UAAL”), is dependent upon the use of assumptions as noted above.

⁹ Docket #4391 – Fourth Amended Disclosure Statement; page 120, ¶ (b)(ii)

Based on the assumption methodologies used by the retirement systems previously, the UAAL was projected, at the end of FY2012, to have been approximately \$977 million.¹⁰ At June 30, 2013, that UAAL estimate was \$1.5 billion as PFRS reported it was 89% funded with a UAAL of \$415 million. At that same time, GRS reported it was 70% funded with a UAAL of \$1.1 billion.¹¹ Using what the City now believes are more accurate assumptions, the City's actuary - Milliman, Inc. - has estimated that the combined systems' UAAL, at June 30, 2013, was approximately \$3.5 billion.¹²

In addition to issues involving the aggressiveness of the rate of return assumption used to determine funding levels, also contributing to the increase of the UAAL were a number of questionable activities engaged in by the retirement systems, which included:

- Utilizing GRS fund assets to pay the promised returns on the Annuity Savings Program which, upon members of GRS allocating 3%, 5% or 7% of their after-tax salaries into a discreet defined contribution plan, effectively guaranteed a minimum 7.9% annual investment return

¹⁰ Docket #13 - Declaration of Charles M. Moore; ¶11

¹¹ Docket #4391 - Fourth Amended Disclosure Statement; page 120, ¶ (b)(i)

¹² Docket #13 - Declaration of Charles M. Moore; ¶13

regardless of the actual investment performance of the pension plans' assets¹³

- Using actual market returns for crediting purposes rather than the guarantee, the City believes that over \$387 million of excess investment earnings were credited to Annuity Savings Funds from 2003-2013¹⁴
- GRS trustees, when the plan's actual returns were higher than the assumed rate of return, paid a portion of the positive variance between the actual investment return and the assumed rate of return in an additional pension check to already retired pensioners in what is commonly referred to as the "13th check" program¹⁵
- The City periodically deferred its required year-end PFRS contributions, and then borrowed to pay those deferrals with debt priced at a rate of 8%¹⁶
- Retirement System officials have been accused and/or indicted of material fiduciary misconduct, allegedly draining the pension of necessary liquidity and contributing to the underfunding of the Retirement Systems.¹⁷

The foregoing represents my Supplemental Report. Except as expressly set forth herein, my Initial Report remains valid without modification. Should additional

1 THE COURT: Let's turn our attention to the
2 emergency motion for relief from stay, please.

3 MR. PATERSON: Andrew Paterson on behalf of the
4 petitioners.

5 MS. NORRIS: Megan Norris of Miller Canfield --

6 THE COURT: All right. Stand by one second while
7 those who would like to leave the courtroom get an
8 opportunity to do that.

9 MR. THORNBLADH: Thank you, your Honor.

10 MS. JENNINGS: Thank you, your Honor.

11 THE COURT: You're welcome. Let's give folks one
12 more minute. And I think we are ready to proceed, sir.

13 MR. PATERSON: Your Honor, this is petitioner's --
14 movant's motion for relief from the stay for purposes of
15 filing in the Wayne County Circuit Court an open meetings
16 case against the Detroit City Council. And I would first
17 indicate that the ideal of a democratic government is too
18 often thwarted by bureaucratic secrecy and unresponsive
19 officials. Citizens frequently find it difficult to discover
20 what decisions are being made and what facts lie behind those
21 decisions. The Open Meetings Act protects citizens' right to
22 know what's going on in government by opening to full public
23 view the process by which elected and nonelected officials
24 make decisions on citizens' behalf. Those are not my words.
25 Those are the words of the Michigan legislature upon the

1 introduction of the Open Meetings Act and the Freedom of
2 Information Act in 1976 in the post-Watergate era. The
3 Section 3 of the Open Meetings Act states in its very first
4 sentence, "All meetings of a public body shall be open," and
5 the law as it is developed construes exemptions from that
6 narrowly and broadly protects the right of citizens to know
7 what's going on in their government.

8 The response from the debtor on behalf of the city
9 council indicated, and I think correctly, that the violation
10 of the Open Meetings Act is not really the issue before this
11 Court, and I think that's correct, although the bulk of the
12 response did try to repeat over and over and over again that
13 it was a permitted meeting under various exemptions,
14 particularly the legal matters. The evidence that the
15 movants intend to introduce would be the extensive public
16 statements about the meetings from the participants in the
17 meetings indicating that there were negotiations and
18 discussions for three full days. I think it was a patent
19 violation of the Open Meetings Act, and the plaintiffs intend
20 to seek as well as a declaration of that an injunction
21 against further violations by the Detroit City Council with
22 respect to the Open Meetings Act.

23 THE COURT: Well, how do you deal with the city's
24 argument that your claim is moot?

25 MR. PATERSON: It's not. I mean they've

1 indicated --

2 THE COURT: How do you deal with it? What's your
3 response?

4 MR. PATERSON: They've indicated repeatedly that
5 these were meetings and discussions addressing the facts
6 behind the decisions, and those are clearly covered by the
7 Open Meetings Act. The city's response or the debtor's
8 response is the response that it may want to make to a
9 circuit judge, but for purposes of this Court's relief, the
10 merits of the case aren't really before it, although I'm
11 confident this is a lay-down open meetings violation. The
12 city has failed in its response to point to any specific harm
13 that would happen to this proceeding or in this court.
14 They've made --

15 THE COURT: Well, but I need an answer to my
16 question because if the matter is moot, there's no sense in
17 granting relief from the stay.

18 MR. PATERSON: I'm seeking an injunction.

19 THE COURT: What's not moot about it?

20 MR. PATERSON: I'm seeking --

21 THE COURT: What relief can a court provide to your
22 clients?

23 MR. PATERSON: The Circuit Court can and probably
24 will enjoin them from further violations of the Open Meetings
25 Act. Citizen's right to know. It's a fundamental right of

1 every citizen of this state to see that public bodies --

2 THE COURT: But there's no more --

3 MR. PATERSON: I did in our motion --

4 THE COURT: Let me just -- let me just finish my
5 question.

6 MR. PATERSON: Yeah. Go ahead.

7 THE COURT: There's no more imminent or threatened
8 violation of the Open Meeting Act at this point.

9 MR. PATERSON: The circuit judge may determine that
10 and may not issue an injunction, but I am going to seek an
11 injunction against further violations. I must say I have in
12 the past sued the city's city council for past violations.
13 This is not a new thing to disregard the public's right to
14 know. I don't understand it as a philosophy of governance.
15 I would think that you would want to educate your
16 constituents as to all of the issues behind all of your
17 decisions so that they better understand it and don't suspect
18 that there's some secret deal, I think particularly in this
19 case. There's not been any decision made by this city
20 council other than the initial one back 18 months ago that's
21 been more important. The citizens are wondering.

22 THE COURT: What happened 18 months ago?

23 MR. PATERSON: Mr. Orr was accepted and appointed to
24 the emergency manager position under Act 43 --

25 THE COURT: Did the city council do that?

1 MR. PATERSON: City council did not oppose it. I
2 think it was a five to four vote, as I recall, or four -- it
3 was a one vote majority. That's that last decision that the
4 council made that had the importance to this decision, and I
5 don't think that there's any particular dispute with the
6 merits of the decision. It's probably a good thing. I don't
7 think that's the issue. I think the way they have gone about
8 it in hiding it from their constituents is the issue. That
9 doesn't serve the public interest well. It doesn't --

10 THE COURT: Does the law require a public body to
11 open up its meetings when it's seeking legal advice from its
12 attorneys?

13 MR. PATERSON: I think it's pretextual that they
14 said that. How do you negotiate --

15 THE COURT: Please answer my question.

16 MR. PATERSON: Oh, the law permits certain matters
17 that are legal matters that are involved in litigation but
18 also in the public body's obligations under contract or the
19 law to be discussed, and they do allow them to be discussed
20 in private.

21 THE COURT: And so why -- where is the evidence that
22 something other than that happened here?

23 MR. PATERSON: The evidence is in the public
24 statements of the participants in the meeting.

25 THE COURT: Like what?

1 MR. PATERSON: Pardon?

2 THE COURT: Like what? Name one.

3 MR. PATERSON: Three days of negotiations. Even in
4 their own brief, they talked about reaching a consensus. All
5 of the facts that underlie the decision that was made and the
6 agreements that were reached have been excluded from the
7 public view.

8 THE COURT: Now, you said there were public
9 statements that suggest that something at these meetings
10 happened other than council deliberating with its attorneys
11 on legal matters.

12 MR. PATERSON: I do say that. I do say that, and I
13 think the defendants --

14 THE COURT: I'd ask you to identify one.

15 MR. PATERSON: The defendants indicate that in their
16 response. They indicate that the closed sessions were
17 conducted for the purposes of obtaining legal advice.
18 They've said that repeatedly, repeatedly, repeatedly, but
19 they also indicate --

20 THE COURT: The fact that they state it repeatedly
21 doesn't make it wrong.

22 MR. PATERSON: No, but if I call a dog's tail a leg,
23 he still only has four legs, as Lincoln observed.

24 THE COURT: Okay.

25 MR. PATERSON: The statement in the defendant's

1 response indicates that they reached a consensus and that the
2 consensus was reflected in the agreements that were signed
3 and authorized by the city council. Those agreements --

4 THE COURT: Well, but they were -- it was a -- it
5 was a consensus concerning this litigation.

6 MR. PATERSON: It's a consensus as to how to proceed
7 with respect to the future --

8 THE COURT: This litigation.

9 MR. PATERSON: I don't see that as an exemption
10 under the Open Meetings Act.

11 THE COURT: Well, but --

12 MR. PATERSON: All public meetings -- all
13 meetings --

14 THE COURT: I thought you had already admitted that
15 there was an exemption for legal advice relating to
16 litigation.

17 MR. PATERSON: Yes, and I think the public
18 statements by the participants in the meeting indicate that
19 was pretextual, very simply pretextual.

20 THE COURT: Okay. But I'm asking you --

21 MR. PATERSON: In fact, you don't need to see the
22 smirk of the mayor when he was asked that question to know
23 that it was pretextual. Other members that attended the
24 meeting saw that they had a lot of negotiations to do over
25 the timing and all of those issues that were involved that

1 are substantive.

2 THE COURT: But I'm asking you why isn't all of that
3 covered by the exemption?

4 MR. PATERSON: It's not. It's not legal matters.

5 THE COURT: But to tell me it's not doesn't answer
6 my question. Why isn't it? What's the --

7 MR. PATERSON: Participating --

8 THE COURT: What's the legal analysis that
9 establishes that it's not?

10 MR. PATERSON: Participating in a negotiation with
11 parties is not legal analysis. That's not discerning legal
12 analysis. That's my right to participate in a negotiation,
13 and the city council is told that in their legal opinion, and
14 then they proceed to negotiate. Those are public
15 discussions.

16 THE COURT: But it's negotiation over a legal matter
17 in litigation.

18 MR. PATERSON: It does not exempt the facts that
19 underlie the decision and the consensus and the discussions
20 that were reached with respect to this. Not all legal --

21 THE COURT: What's the best case you've got in
22 support of your position?

23 MR. PATERSON: I think I cited them in my brief, and
24 they do address the scope of the legal exemption. It's
25 certainly in the context of litigation it can arise. It is

1 also, though, important to know what were the bases reached
2 for some compromise within those litigations or the facts
3 underlying -- the discussion of the facts underlying and the
4 truth of those facts. The substance of that decision is the
5 kind of decision that a Circuit Court would make.

6 THE COURT: Well, let me propose -- let me propose
7 to you a hypothetical. Counsel for the city wants to give --
8 all right. The term "counsel" obviously has two distinct
9 meaning here. The attorney for the city wants to give the
10 council -- the city council legal advice on how to settle a
11 personal injury suit and explain why he's recommending a
12 settlement at X dollars. Okay. They go into closed session
13 because it's in litigation, and one of the members says, "I
14 don't want to -- I don't think we should settle this for X.
15 I think we should settle it for Y," and they continue to have
16 a discussion with the attorney about the legal merits of the
17 case, the strengths and weaknesses on each side, and they
18 come to a resolution to offer a settlement at Z. How much,
19 if any, of that needs to be in public under the Open Meetings
20 Act?

21 MR. PATERSON: The legal obligations or the
22 recommendation of the attorney if it's in writing is
23 certainly something that can be discussed. Why did you reach
24 that number, why do you propose settling it, and here's what
25 I propose settling it for because of and gives them the

1 merits, objections to it, discussion of it, starts to
2 borderline whether or not that is exempt. That's the circuit
3 judge's obligation to determine in the proceeding, and the
4 minutes --

5 THE COURT: So your position is that even the
6 attorney's statement of reasons why the case should not be
7 settled at Y, it should be settled at X, is something that
8 might be subject to the Open Meetings Act?

9 MR. PATERSON: Might be; might be. Not likely, but
10 might be. More than often -- more often than not there will
11 be a consensus reached, but the discussions here travel
12 beyond the settlement of a lawsuit. This is the active
13 participation of the city in its future of the most
14 fundamental aspects of it and the regaining of the power to
15 do that. That was what was on the table according to Mr. Orr
16 and his orders that were entered in respect to that. Those
17 are matters that reach well beyond the legal obligations of
18 the city and involve widespread negotiation over the
19 regaining of the power of the elected members of the city
20 council.

21 THE COURT: Well, but all in relation to the
22 administration of this bankruptcy from the city's
23 perspective.

24 MR. PATERSON: The city is also obligated and the
25 emergency manager is also obligated to administer the city

1 and administer under the law all of the obligations of the
2 city and the business of the city. They can't blanket the
3 business of the city with a, well, it's in Bankruptcy Court;
4 therefore, the stay is a shield against violations of the
5 Open Meetings Act and other violations of law.

6 THE COURT: Anything further, sir?

7 MR. PATERSON: No, other than I did in my motion
8 indicate to the Court that I'm not seeking to undo, as I'd
9 have the right to do under the Open Meetings Act, the actions
10 taken. The relief that we're seeking in the Circuit Court
11 would be prospective only, and it would be prospective with
12 respect to further violations of the Open Meetings Act by the
13 Detroit City Council.

14 THE COURT: And of course you'd want attorney fees.

15 MR. PATERSON: And of course I would want attorney's
16 fees.

17 THE COURT: Thank you.

18 MR. PATERSON: Thank you.

19 MS. NORRIS: Good morning, your Honor. Megan Norris
20 on behalf of the city. I'll be brief. It's clear that
21 you've reviewed everything. First of all, the timing of the
22 motion and the substance of plaintiff's motion makes it clear
23 that the events at issue are over. Plaintiffs filed their
24 motion mid-day on Thursday. By the end of the day Thursday,
25 the city and state had filed with this Court a joint notice

1 of transition plan, which outlines a proposed transition from
2 the emergency manager to the city elected officials.
3 Plaintiff in their motion does not -- petitioners don't argue
4 that there have been any other violations of the Closed
5 Meetings Act by city council. City council has been in and
6 out of closed session for a number of reasons on a number of
7 occasions since this bankruptcy trial began. The only issue
8 are the meetings that have just taken place. One of the
9 Garzoni factors is the creditor's claim -- whether the
10 creditor's claim is likely to succeed on the merits, and as
11 the Court has noted, there is no evidence of any violation.
12 The meeting was properly closed. The statute was cited. The
13 transition -- the subject being the transition, specifically
14 PA 436 transition matters, was cited in city council's
15 closure resolution. This was not a blanket business of the
16 city closure. This was not even a blanket attorney-client
17 privilege closure. This was specifically to discuss the
18 memoranda of counsel and the advice of counsel and discussion
19 of the memoranda relating to the transition. Clearly there
20 can be harm to the city if this is allowed to go forward at
21 this time, and that really is the question. It's not whether
22 it can go forward. It's whether it can go forward at this
23 time, whether the stay should be lifted. As this Court has
24 noted repeatedly in the trial in front of it as we speak, the
25 issue on the plan of adjustment is not simply whether debts

1 can be resolved. The issue is also whether the city has a
2 viable plan to go forward, and a big part of that plan is how
3 the city moves from the emergency manager that has
4 effectively guided the city through this bankruptcy back to
5 the elected officials as the city goes forward to allow a
6 lawsuit against exactly those players, city council, but
7 obviously the mayor would be involved. Obviously the
8 emergency manager would be involved. To allow a lawsuit
9 involving those folks to go forward at this time would be
10 detrimental to exactly what this Court is trying to
11 accomplish in smoothing the transition of the city out of
12 bankruptcy. If you have any questions, I'm happy to answer
13 them.

14 THE COURT: What's the connection given that Mr.
15 Paterson says all he wants is an injunction against future
16 violations of the Open Meetings Act?

17 MS. NORRIS: Right. So the connection is it's a
18 law -- first, he has to prove a violation, so there's a
19 lawsuit, and in that lawsuit there will be arguments about
20 what happened or didn't happen. That will require at minimum
21 an in camera review of what happened in closed session. In
22 many cases Mr. Paterson has sought to take depositions of
23 people involved to determine whether the mayor's smirk -- I
24 use Mr. Paterson's term -- means anything, to determine
25 whether, as in the Wyoming case, there were winks or nods or

1 slips of paper across the table, so there's discovery in that
2 case. So before there's any finding of a violation, before
3 any injunction is issued, before any attorney's fees are
4 awarded, there has to be a finding, and that is exactly the
5 kind of action that the city does not need to be going
6 through right now. It is a very sensitive area. The orders
7 have been issued. You've seen the transition, the joint
8 notice of transition. As Mr. Paterson noted, there was a
9 city council meeting at the beginning not to oppose the
10 appointment of Kevyn Orr, and there has been a meeting at the
11 end. The parties have agreed that there is a date certain --
12 i.e., the effective date of the plan of adjustment -- and
13 Mr. Orr has begun the transition, so there's no evidence that
14 there would be meetings on this topic going forward. If
15 there were, they would be noticed in the same way, but to say
16 that the notice was pretextual in some way when the results
17 of the meeting are exactly the topic identified in the legal
18 memoranda, it's not like the results of the meeting are
19 something unrelated to exactly what was identified. The
20 transition plan is absolutely without any support.

21 THE COURT: Thank you.

22 MS. NORRIS: Thank you.

23 MR. PATERSON: If the Court is concerned, I'm fairly
24 satisfied that there's ample evidence that won't require the
25 deposition of the mayor or the emergency manager in this

1 case. Statements made by city council members and others are
2 public and ample, and I, frankly, expect that they will have
3 to admit those statements once the proceeding has begun.

4 THE COURT: The city questions why this can't wait,
5 if it needs to be pursued at all, until after the bankruptcy
6 is over.

7 MR. PATERSON: The injunction relief would prevent
8 further violations of the Open Meetings Act and allow the
9 citizens to see what decisions are being made in public and
10 what the facts are that lie behind those decisions.

11 THE COURT: Well, fair enough, but you don't have
12 any evidence of any imminent or threatened violation of the
13 Open Meetings Act other than, well, they did it once, so they
14 might do it again.

15 MR. PATERSON: I think that question flips the
16 burden. I think the proceeding, if the stay were lifted, is
17 not going to affect this Court's actions or anything in this
18 Court whatsoever. It's going to carry on independent of
19 that, and there's absolutely no burden on this Court by
20 removing and lifting the stay with respect to this
21 litigation, and, in fact, I think that --

22 THE COURT: Well, the argument isn't based on burden
23 on this Court. The argument is based on burden to the city
24 in having to address your lawsuit while it's trying to wrap
25 up this --

1 MR. PATERSON: The city --

2 THE COURT: -- critical litigation here.

3 MR. PATERSON: The city law department has had
4 little to do during this proceeding because many of the cases
5 that were stayed did not proceed. I know for --

6 THE COURT: You're concerned about full employment
7 for the city law department?

8 MR. PATERSON: I think they're more than able and
9 capable of defending this action.

10 THE COURT: Well, but it's not just the law
11 department. It's the city.

12 MR. PATERSON: I don't see how potentially, I guess,
13 a deposition -- if there's a failure to admit public
14 statements that were made and a request for that admission is
15 denied, I suppose at that point I need to take the deposition
16 of the person that made the statement, and in most cases it's
17 members of the city council that were explaining their vote
18 and why they carried out for three days the discussions on
19 this matter. That doesn't seem to impose any burden on this
20 Court.

21 THE COURT: All right. Thank you. Anything
22 further?

23 MR. PATERSON: Thank you.

24 MS. NORRIS: No, your Honor.

25 THE COURT: All right. I'll take this under

1 advisement for 15 minutes, and we'll reconvene at 9:45,
2 please.

3 THE CLERK: All rise. Court is in recess.

4 (Recess at 9:30 a.m., until 9:50 a.m.)

5 THE CLERK: All rise. Court is back in session.
6 You may be seated.

7 THE COURT: It appears everyone is present. The
8 standard by which the Court determines this and other motions
9 for relief from the stay is whether the moving party has
10 established cause. The matter is, of course, addressed to
11 the Court's discretion. In evaluating whether there is cause
12 for relief from the stay, the Court considers the harm to the
13 moving party if the stay is maintained and the harm to the
14 debtor if this motion is granted and relief from stay is
15 granted. In this case, if relief from the stay is denied and
16 the stay is maintained in effect, the plaintiffs will be
17 forced to wait to pursue their claim against the city until
18 the stay terminates, which would happen either upon
19 confirmation or dismissal of the case. If the motion is
20 granted, the city will be, of course, required to defend the
21 lawsuit that would be filed.

22 The city maintains that the lawsuit is moot and that
23 it otherwise lacks merit under the Open Meetings Act and that
24 it should not be forced to defend a lawsuit that is either
25 moot or lacks merit or both. There are certainly aspects of

1 the claimed violation of the Open Meetings Act that are moot,
2 but it appears that there are aspects that are not moot. For
3 example, the motion states that if the Circuit Court were to
4 find a violation of the Open Meetings Act, the plaintiffs
5 would seek disclosure of certain materials relating to the
6 closed meeting such as minutes or transcripts, et cetera.

7 The Court also must find in the circumstances that
8 the claimed violation of the Open Meetings Act is not a
9 frivolous claim. If it were, the Court, of course, would not
10 grant relief from the stay since no party should be required
11 to defend a frivolous action. The claim is not frivolous.
12 The city has a defense to it, perhaps even a strong defense,
13 but the claim itself is not a frivolous claim.

14 On the city's contention that the requirement to
15 defend the lawsuit may somehow impact its ability to
16 efficiently pursue this bankruptcy, the Court must find that
17 there is really nothing to support or suggest that.

18 Accordingly, in the circumstances, the Court
19 concludes that its discretion should be exercised in favor of
20 granting the motion, and the motion is granted. Mr.
21 Paterson, please prepare an order, have it approved as to
22 form by city counsel -- the city's attorneys and have it --
23 and then submit it to the Court.

24 MR. PATERSON: Will do, your Honor. Thank you.

25 THE COURT: All right. Let's turn our attention

1 back to the trial then. And let's stand by one second while
2 the courtroom settles down again. Sir.

3 MR. HEIMAN: Good morning, your Honor. David Heiman
4 of Jones Day for the city. I would like to just take a
5 minute, with your indulgence, to mark the moment of the
6 transition that was just the subject of your prior hearing,
7 and we did not want to let this moment pass. At a time like
8 this, many thoughts race through one's mind, and I'm sure in
9 Mr. Orr's case hundreds or thousands of thoughts race through
10 his mind based on the last 18 months. But as your Honor
11 knows, his term, if I can call it that, essentially expired
12 yesterday at the conclusion of the 18 months, and that term
13 was dealt with by the four legal authorities, government
14 entities, including Mr. Orr, that have some participation in
15 this matter. That would be the state, the mayor, Mayor
16 Duggan, city council, and Mr. Orr himself. And at least in
17 my view, this should be looked upon as somewhat of a right of
18 passage for the City of Detroit, a very momentous occasion
19 even though we are, indeed, in the middle of a trial seeking
20 confirmation of the plan of adjustment. So I would like to
21 address both perhaps gratuitously all the benefits that have
22 been derived from the implementation of 436 and explain to
23 the Court, as I assume you've read in the newspapers as well
24 as the papers that were filed, the joint notice that was
25 filed, but an event that is perhaps new and different for

1 those who have lived in Detroit the last few decades where
2 four legal authorities that impact the City of Detroit have
3 come together in a unified fashion in the best interest of
4 Detroit.

5 So in doing that and explaining what we see is
6 happening now, I would also like to make it clear to the
7 Court that we -- that I rise without presumption. We are
8 fully cognizant that it is and will continue to be the city's
9 burden to demonstrate that it has earned the right to emerge
10 from Chapter 9. We are in the process of doing that. We
11 have every hope and expectation we will be able to do that,
12 but we also totally recognize that the gavel remains in the
13 hands of your Honor and that we submit ourselves to that
14 process with the hope that we will swiftly emerge from
15 Chapter 9.

16 As I said, Mr. Orr's statutory reign, if you will,
17 has expired, but not without a lot of consideration on how to
18 transition from Mr. Orr's supervision back to the city
19 council and the mayor, and so what you've seen through the
20 joint notice is a 9-0 resolution of the city -- city council,
21 that is -- which is confirmed by the mayor, and as
22 acknowledged and confirmed by Mr. Orr, that the city itself
23 is ready to take back the reins through the mayor's office
24 and city council. And the good news for the bankruptcy is
25 that the city council, the mayor, and the state have

1 recognized that we are here today this far in the progress --
2 in the process as a result of Mr. Orr's supervision, and it
3 only makes good sense to provide that Mr. Orr shall see it to
4 its conclusion hopefully and that his ability to continue to
5 supervise the bankruptcy, the pursuit of the confirmation of
6 the plan of adjustment as well as implementation of a plan of
7 adjustment should it be confirmed should remain intact, and,
8 therefore, the authorities have determined that he should
9 stay in place for that limited purpose until the effective
10 date of the plan.

11 With that, I would like to refer you to the
12 specifics of the city council resolution. There is a recital
13 on the first page that confirms that the city council is
14 supportive of the plan of adjustment and seeks a smooth
15 completion and that it has agreed to retain with Mr. Orr
16 those powers necessary to see that occur. And Mr. Orr
17 himself has issued Order #42, Emergency Manager Order Number
18 42, which delineates the allocation of responsibilities among
19 himself, the city council, and the mayor, and, of course, his
20 role will continue to be, as I said, the management of the
21 bankruptcy proceeding and the implementation of the plan of
22 adjustment, so with that -- and if the Court has any
23 questions, I'd be happy to try to address them.

24 THE COURT: No. Thank you, sir.

25 MR. HEIMAN: Thank you.

1 MR. HERTZBERG: Good morning, your Honor. Robert
2 Hertzberg, Pepper Hamilton, on behalf of the city. Tomorrow
3 is a date that the Court set aside to handle the objection
4 filed by the UAW. We've been in discussions with the UAW.
5 We have a mediation now set up for tomorrow in a hope to try
6 and resolve the dispute with the UAW. Based upon that, we
7 would ask that the Court allow us to go to mediation
8 tomorrow, adjourn the hearing on the UAW's objection, and
9 allow them to come back if we're not able to resolve our
10 differences in the future and have a full hearing.

11 THE COURT: Who is your mediation with?

12 MR. HERTZBERG: Mr. Driker.

13 THE COURT: Does the UAW support this request?

14 MR. HERTZBERG: I believe they do, your Honor.

15 THE COURT: Is there anyone here from the UAW?

16 MR. MACK: Richard Mack, your Honor, with AFSCME.
17 We've actually filed objections as well over a similar issue,
18 and we do, in fact, support the request.

19 THE COURT: Are you involved or is your client
20 involved in the mediation also?

21 MR. MACK: Yes.

22 THE COURT: What time is the mediation set for?

23 MR. MACK: 9:30. I just got the e-mail a little bit
24 ago.

25 THE COURT: All right. Well, it's been the Court's

1 practice and policy when these kinds of situations arise to
2 consult with the mediator and to follow the mediator's advice
3 regarding my processes, and so that's what I'll do here, and
4 I'll get back to you.

5 MR. HERTZBERG: Thank you, your Honor.

6 MR. MACK: Thank you, your Honor.

7 THE COURT: One more thing before we get underway.
8 My apologies to you for not printing out the compilation of
9 your remaining time for today. I'm showing for the city a
10 balance of 46 hours and 53 minutes and for the objectors 67
11 hours and 9 minutes. And while we're on the subject, I want
12 to have a discussion with you all tomorrow about the extent
13 to which it is appropriate to reduce these times in light of
14 the Syncora settlement.

15 MR. SHUMAKER: Certainly, your Honor. Greg
16 Shumaker, Jones Day, for the city, your Honor. Just a couple
17 of housekeeping matters that we wanted to raise with you.

18 THE COURT: Go ahead.

19 MR. SHUMAKER: First of all, your Honor, as you
20 know, we broke last week, and the city and the objectors had
21 multiple discussions about discovery in light of the Syncora
22 settlement. I wanted to advise you -- your Honor probably
23 noticed -- that FGIC issued two 30(b)(6) deposition notices,
24 one to the city and one to Syncora. Those depositions are to
25 take place tomorrow and -- tomorrow is going be Mr. Doak's

1 deposition. He's going to be the gentleman from Miller
2 Buckfire who is the 30(b)(6) witness for the city. And --
3 I'm sorry -- M.J. is the name of the woman who was being
4 designated for Syncora. I don't know her last name. She is
5 being deposed on Wednesday, so that's proceeding apace.

6 The city also, as we informed your Honor last
7 probably Tuesday or two Tuesdays ago, put forth a
8 supplemental expert report for Mr. Buckfire, and so that went
9 out in the middle of last week, and the objectors agreed that
10 they did not want to depose Mr. Buckfire, so that took place
11 as well.

12 Another matter -- just a couple of other things. We
13 understand that the objectors, FGIC in particular, will be
14 submitting a supplemental expert report from Mr. Spencer, and
15 I believe that's going to come on Friday of this week, if I'm
16 not mistaken, and so that's also moving forward. And then
17 also the parties got together about stipulating to two
18 declarations from two witnesses at KCC, the voting tally --
19 voting tallier, and so we're putting together those
20 declarations, and we'll be able to submit those to the Court
21 later today or tomorrow.

22 The impact of UAW day on witness scheduling and
23 order I wanted to raise with your Honor. What we were hoping
24 to do is Mr. Malhotra will go today. We'll see how long he
25 takes. He will have a significant amount of testimony.

1 Obviously don't know how long cross will last. But then
2 Mr. Buckfire is scheduled to go after Mr. Malhotra. What the
3 city plans on doing is trying to move up Mr. Kaunelis, who is
4 a DWSD witness on the capital expenditures, going to move him
5 up in front because the Doak deposition is going forward
6 tomorrow. We're trying to work this so that then Mr. Doak
7 can testify after Mr. Kaunelis, and then Mr. Orr would
8 testify, so that's a slight modification to the order that
9 was currently -- that's currently in place or that the city
10 has filed. One issue, though, your Honor, because of UAW day
11 perhaps moving to keep in mind is notice to the pro se
12 objectors about Mr. Orr's appearance. Depending on how fast
13 this moves, Mr. Orr could come up sometime tomorrow, and I
14 just wanted to raise that with your Honor because I know
15 that's something your Honor has been concerned about in the
16 past.

17 THE COURT: So are you representing that if we
18 adjourn the UAW testimony or portion of the trial off of
19 tomorrow, that Mr. Doak would testify after Mr. Orr or still
20 before?

21 MR. SHUMAKER: Well, we're hoping Mr. Doak could
22 testify before Mr. Orr about the Syncora settlement so that
23 your Honor has the benefit of his before Mr. Orr gets on and
24 starts, you know, talking about why the Syncora settlement
25 was a good thing. That's why we had ordered it the way we

1 had.

2 THE COURT: It still feels a little aggressive to
3 suggest that Mr. Orr might testify tomorrow, but I do want to
4 thank you for alerting the Court to the possibility because
5 we do want to try to notify people. It will either be
6 tomorrow or Wednesday might be --

7 MR. SHUMAKER: That's fine, your Honor. Wonderful.

8 THE COURT: -- might be the message we should send.

9 MR. SHUMAKER: And then one final matter, your
10 Honor, was during the break the city took the opportunity to
11 review its exhibit list and to take a look at those exhibits
12 that with the withdrawal of the objections by the DWSD
13 parties, the counties, and Syncora, there are no longer any
14 outstanding objections to those exhibits, and -- in other
15 words, neither FGIC nor the COPs holders nor MIDDD has
16 objected to them, so we would ask that those exhibits be
17 admitted into the record pursuant to the Court's protocol
18 previously. We have a list of those. There are about 144.
19 I could read them into the record, but I also have copies
20 that I could hand up to you and proceed in that way.

21 THE COURT: Let me suggest a slightly different
22 procedure. Please share that list with the remaining
23 objecting parties, and then perhaps after lunch I can hear
24 from them on any issues arising from your request.

25 MR. SHUMAKER: Will do, your Honor.

1 THE COURT: Is that all right with you, sir?

2 MR. SOTO: Yes, your Honor.

3 MR. SHUMAKER: I think that's all I had, your Honor.
4 Thank you.

5 THE COURT: All right.

6 MR. SOTO: Your Honor, with respect to those
7 logistics -- by the way, Ed Soto, FGIC. With respect to
8 those logistics, we have --

9 THE COURT: Pull the microphone closer to in front
10 of you.

11 MR. SOTO: -- we have only an issue with the timing
12 of Doak, which we thought we had discussed with the city.
13 Mr. Doak can only be made available to be deposed tomorrow.
14 We are going to, in fact, depose him tomorrow. We did get
15 access to M.J. prior to that through the people at Syncora,
16 but we had hoped to be able to take his deposition, as we've
17 now read his 30-page expert report, prepare for his testimony
18 and then do his testimony, and we hope to be able to do that
19 on Friday, your Honor, because of the sequence of the
20 difficulty of just trying to get it all together. From a
21 timing standpoint, that's where we are.

22 One other thing, your Honor, the -- we're now -- and
23 we've informed the city of this -- working on trying to
24 obtain our fifth labor expert. We've gone through four of
25 them who were unable to appear either because of timing or

1 because of some other conflicts. We know the Court has given
2 us an opportunity to do that. We know the time is getting
3 short. We just wanted to let the Court know we're --

4 THE COURT: Right.

5 MR. SOTO: -- frantically deciding whether we need
6 that expert or if we can obtain that expert.

7 THE COURT: Mr. Shumaker, it does feel appropriate
8 to have Mr. Doak's testimony after his deposition, doesn't
9 it?

10 MR. SHUMAKER: I would agree that would be fair,
11 your Honor.

12 THE COURT: All right. Well, let's work that out
13 then.

14 MR. SHUMAKER: Yes. And part of this complication
15 is there are some witnesses can -- only can testify on
16 Friday, so we're trying to --

17 THE COURT: And Friday is a half a day --

18 MR. SHUMAKER: That's right, your Honor. That's
19 right.

20 THE COURT: -- or at least part -- we're going to
21 stop at one.

22 MR. SHUMAKER: Correct; correct. So we will
23 continue to work on that.

24 THE COURT: All right. All right.

25 MR. SHUMAKER: But the Mr. Orr issue is still out

1 there because --

2 THE COURT: Right.

3 MR. WAGNER: Your Honor, Jonathan Wagner on behalf
4 of the COPS. You may remember that if the -- when the UAW
5 hearing was scheduled, Ms. Thomas, the executive director of
6 the pension plans, was going to testify, and then we were
7 going to do our cross, so if that's -- if we're going forward
8 tomorrow, we'll do the cross tomorrow. If not, we'll do it
9 probably at the beginning of our case.

10 THE COURT: Okay.

11 MR. WAGNER: The second point is there are, I think,
12 six witnesses on the city's may call list. It would be good
13 to have a date by which we know whether those witnesses are
14 going to be called.

15 THE COURT: Any thoughts on that, Mr. Shumaker?

16 MR. SHUMAKER: I would think, your Honor, that we
17 would be in a position to tell the objectors that by the end
18 of the week. I think that's right.

19 THE COURT: Okay.

20 MR. SHUMAKER: Thank you.

21 THE COURT: Can we get underway now?

22 MR. STEWART: Your Honor, Geoffrey Stewart of Jones
23 Day for the city. The city would call its next witness,
24 Mr. Gaurav Malhotra.

25 THE COURT: Raise your right hand.

1 GAURAV MALHOTRA, CITY'S WITNESS, SWORN

2 THE COURT: Please sit down.

3 MR. STEWART: Your Honor, if I may approach, I have
4 binders and USB drives for the exhibits. Just for the
5 record, the binders are full of paper. We have five exhibits
6 which are, in fact, the EY model of the city's finances,
7 which are only in electronic form, so we've reduced them to
8 USB drives, which --

9 THE COURT: Okay.

10 MR. STEWART: -- I would bring forward.

11 THE COURT: Thank you for that, sir. You may
12 proceed.

13 MR. STEWART: Thank you, your Honor.

14 DIRECT EXAMINATION

15 BY MR. STEWART:

16 Q Mr. Malhotra, could you please give for us your name and
17 address?

18 A Gaurav Malhotra. I live in Chicago, Illinois.

19 Q Okay. And tell us if you could -- you, by the way, have
20 testified before in the court, have you not?

21 A Yes, I have.

22 Q Okay. Tell us briefly, if you could, about your
23 education.

24 A I went to -- for my undergrad to the University of Delhi
25 where I graduated with a bachelor's in commerce, and then I

1 went for my grad school to Case Western Reserve University
2 where I got an MBA in finance and business policy.

3 Q What year did you receive your MBA from Case?

4 A In 2001.

5 Q Okay. What was your first job after you received your
6 MBA?

7 A I joined Ernst & Young in the corporate finance practice.

8 Q In Chicago?

9 A In Cleveland.

10 Q In Cleveland. And how long were you with them in
11 Cleveland?

12 A I was with Ernst & Young in Cleveland for, I think,
13 approximately five years.

14 Q Okay. And then what happened?

15 A And then I moved to Michigan. I stayed here for five
16 years, again, with Ernst & Young, doing restructuring and
17 distressed M&A transactions following which the restructuring
18 practice of Ernst & Young was sold to Giuliani Capital, and I
19 continued to do restructuring advisory work there.

20 Q Okay. Let me stop you right there. You just used the
21 phrase "restructuring and distressed asset analysis." Just
22 for the record, tell us what that is.

23 A So restructuring advisory is where we help distressed
24 clients evaluate their business plans, their operations, and
25 long-term projections in order to -- how to recover as a part

1 of an overall restructuring strategy.

2 Q Okay. And then you said there came a time when that part
3 of EY's practice was sold.

4 A That is correct.

5 Q And when was it sold, and who was it sold to?

6 A In 2004 the U.S. restructuring practice was sold to
7 Giuliani Capital Advisors.

8 Q You better slow down. I'm having trouble following you.
9 It just may be the acoustics of the room. So it was sold to
10 who again?

11 A To Giuliani Capital Advisors.

12 Q Okay. All right. And did you still remain in the office
13 you'd occupied before?

14 A Yes.

15 Q And did your practice change at all after Giuliani
16 Capital Advisors purchased the practice?

17 A No. It was essentially a different name but continued to
18 do restructuring.

19 Q Okay. Did there come a time when the name changed again?

20 A Yes. The Giuliani Capital Advisors restructuring and M&A
21 practice was sold to Macquarie Capital Advisors.

22 Q Okay. And then how long did Macquarie control the
23 practice?

24 A For about three years.

25 Q What year are we up to by now?

1 A 2009.

2 Q Okay. And after that what came of the practice?

3 A Well, I was offered an opportunity to come back to Ernst
4 & Young --

5 Q Okay.

6 A -- and join the restructuring practice at EY, so I left
7 Macquarie and came to Ernst & Young.

8 Q What year did you return to EY?

9 A It was 2009.

10 Q '09. And you've been at Ernst & Young ever since?

11 A That is correct.

12 Q Been five years?

13 A Yes.

14 Q What is your title at Ernst & Young?

15 A I am a principal and a senior managing director in our
16 restructuring practice --

17 Q Okay.

18 A -- as well as I lead our central region restructuring
19 practice.

20 Q All right. And so tell the Court, if you could, the sort
21 of work your restructuring practice has involved since you
22 returned to Ernst & Young in 2009.

23 A It has involved helping distressed companies and -- in
24 terms of developing their business plans, taking some through
25 bankruptcy, involving asset sales as well as developing long-

1 term business plans for either a city or a public school
2 district.

3 Q Let me ask you just the names of some of the
4 representative private sector clients that you've worked with
5 since you returned to Ernst & Young.

6 A Schutt Sports, which we took through Chapter 11 process,
7 ongoing with Liberty Medical that we are helping with right
8 now are two that come to mind straightaway.

9 Q Now, in addition to the private sector clients, what work
10 have you done for public sector clients?

11 A On the public sector side, we have been involved with the
12 Detroit Public Schools.

13 Q And when did you start your involvement with the public
14 schools?

15 A Sometime in late 2011.

16 Q Is that ongoing?

17 A It is still ongoing in some fashion, yes.

18 Q Okay. Any other public sector clients?

19 A Yes. We've also helped two other cities in terms of
20 helping evaluate their cash flows and long-term projections.

21 Q And what cities are those, if you can disclose them?

22 A They're confidential in terms of our involvement with
23 them.

24 Q Okay. When did you begin your work for the City of
25 Detroit?

1 A Approximately just over three years ago.

2 Q And when you began your work, what was Ernst & Young
3 hired to do?

4 A Our role initially was to help the city assess its short-
5 term cash flow projections.

6 Q Okay. And what did that entail?

7 A It entailed first trying to just get a clear
8 understanding of what the city's cash position truly was for
9 the general fund and trying to break out the cash that was
10 restricted or that was related to enterprise funds, so we had
11 to sort of manually create reports based on the information
12 that was given that, to the best our ability, we could
13 ascertain what the general fund's starting cash position was
14 and from there on based on discussions with departments,
15 going through budgets, going through bank balance -- bank
16 statements, developing short-term projections to really
17 highlight what the city's cash and liquidity position would
18 be in the coming 12 months or so.

19 Q Now, you used a term a moment ago "general fund."

20 A Yes.

21 Q What is the general fund?

22 A The general fund is what essentially is the core
23 operating fund that is not related to any enterprise fund, so
24 it's where the majority of the taxes are collected and
25 services such as police and fire and budget are paid for.

1 Q And then you used the term "enterprise fund." What is an
2 enterprise fund? What's an example of an enterprise fund?

3 A Until now Detroit Water and Sewer Department has been an
4 enterprise fund in which their operations are essentially
5 break-even and not -- should not be impacting the operations
6 of the general fund.

7 Q Now, let me direct your attention to spring of last year.
8 Did there come a time in the spring of 2013 when the scope of
9 EY's work changed?

10 A Yes.

11 Q How did it change?

12 A It began to evolve in terms of expanding the outlook of
13 what the cash and revenue and expense projections were going
14 to be over a longer time frame versus looking at it on a much
15 shorter time frame.

16 Q What had been the time frame you were using?

17 A I would say all through 2011 and majority of the year
18 2012 we were looking at 12, 18, or 24 months of cash flows.
19 That was the context of what we were working within.

20 Q Okay. And how did things change?

21 A Well, they changed in which we started to go over to ten-
22 year projections and to look at what the city's financial
23 profile would look like over a ten-year time frame under a
24 couple of different scenarios, and then from there it just
25 evolved into looking at 40-year estimates in terms of what

1 the city's revenues and expenses could be over a much longer
2 time frame.

3 Q And what was the purpose of forecasting the city's
4 financial position out so long as ten years or even forty
5 years?

6 A Well, on the ten-year projections, we used that to really
7 highlight what the city's cash and deficit position would be
8 over the next ten years really to illustrate the cost and the
9 weight of the legacy liabilities the city was carrying and
10 what revenues it would have or not have in order to service
11 those liabilities, and over forty years we had wanted to
12 expand it to really ascertain the commitments that the city
13 was making to its creditors that are long-term commitments as
14 to what the potential was and how the city would make up for
15 those commitments.

16 Q Now, the city filed for Chapter 9 protection on July 18,
17 2013?

18 A That is correct.

19 Q At that time, just describe for us what was the work EY
20 was doing for the city? Just enumerate what projects EY had
21 going on.

22 A We were developing the cash flow projections in detail.
23 We were continuing to work on the ten-year plan on a
24 department-by-department basis. We were also looking at the
25 different claims information that was coming through. We

1 were assisting with the -- assisting the city's management
2 team with vendor management because of all the vendor issues
3 that were taking place, and we were really trying to develop
4 the -- at least at that point of time right around the filing
5 is what sort of funds the city would have available for its
6 unsecured obligations.

7 Q Okay. Now, in the 18 -- well, 14 months since the
8 bankruptcy filing, has E&Y added additional tasks to its
9 scope of work?

10 A We have been assisting with all those. In addition, our
11 technology teams are helping the city evaluate its HR
12 technology and ERP technology footprint, but the majority of
13 these services have been related to what I mentioned earlier.

14 Q What is the total amount of fees Ernst & Young has
15 charged or billed the city for since it began its work three
16 years ago?

17 A Over the last three-plus years, I believe we've been paid
18 roughly \$20 million in total over the -- and majority of that
19 I believe are during the bankruptcy process.

20 Q Now, do I understand correctly that the city negotiated
21 something called a holdback arrangement with Ernst & Young?

22 A Yes.

23 Q What's being held back and why?

24 A Ten percent of all of our invoices post-bankruptcy
25 separate and apart from the fee examiner holdback are being

1 held back over and above, which was an additional
2 accommodation we provided to -- provided we could wrap up the
3 bankruptcy case prior to the end of December of this year.

4 Q So if the bankruptcy case is wrapped up before December
5 31, what happens to the money that's being held back?

6 A If the case is wrapped up by December 31st, the ten-
7 percent holdbacks would be payable to EY.

8 Q And if it's not wrapped up, what happens?

9 A Those amounts are in no way payable to EY.

10 Q Now, you served as an expert witness before.

11 THE COURT: Excuse me one second. What does
12 "wrapped up" mean?

13 THE WITNESS: Your Honor, I believe our engagement
14 letter says that a plan -- it's tied to the plan of
15 confirmation date is -- has to be prior to December 31st.

16 BY MR. STEWART:

17 Q Now, Mr. Malhotra, you've testified before in this
18 proceeding and, in fact, have testified as an expert witness
19 before, have you not?

20 A Yes, I have.

21 Q Before this case, you had never served as an expert
22 witness before?

23 A No, I have not.

24 Q And fair to say that when you took on the engagement for
25 the city, no one told you it would involve being an expert

1 witness; is that right?

2 A That is correct.

3 Q But you understand that the city has designated you as an
4 expert witness for purposes of this hearing?

5 A Yes.

6 Q And you've submitted an expert report?

7 A Yes.

8 Q Now, you testified earlier that you work in the field of
9 restructuring, and tell us, since you received your graduate
10 degree, what percentage of your time has been spent in that
11 field?

12 A I would say pretty much a hundred percent.

13 Q Okay. Now, in order to be a specialist in the field of
14 financial restructuring, what sort of things does a
15 professional need to know?

16 A Have a robust knowledge of the interplay of financial
17 statements, be able to understand Excel working models to
18 take large amounts of data and to be able to analyze trends
19 as well as what are short-term events versus long-term
20 trends, is to interview management teams and to understand at
21 a very detail level, to break down large components of data
22 into smaller pieces and then once you deconstruct the data to
23 build back up with some robust assumptions.

24 Q Now, when you're dealing with a client that is a
25 municipality, what else do you need to know?

1 A I think you have to know the interplay between the
2 general fund versus enterprise funds and also how different
3 departments come together in terms of the buildup of each
4 department and the services that are being provided by
5 certain departments, and so -- as well as to really
6 understand clearly what the legacy liabilities are versus
7 core operating cash flows are, but really to understand the
8 different departments and how they come together is something
9 that's important.

10 Q What knowledge do you need to have of the manner in which
11 municipalities account for their funds?

12 A I think you have to have a pretty decent understanding of
13 the overall impact of a general fund and its transfers and
14 revenues and expenses and compared to how they break out from
15 enterprise funds overall.

16 Q And do I understand correctly that municipalities use a
17 principle called fund accounting and do not follow what is
18 often known as generally accepted accounting principles?

19 A That is correct.

20 Q What do you need to know in order to apply what you've
21 learned in the private sector to assignments in the public
22 sector when it comes to understanding their accounting?

23 A It's actually pretty straightforward in terms of the
24 principles that are applied with respect to financial reviews
25 and analyses. I would say they are very identical in terms

1 of how the auditors who deal with municipalities may deal
2 with versus situations in the corporate side may differ
3 slightly, but from a financial review standpoint, the
4 principles are pretty much similar of going through the
5 financial analytics.

6 Q Now, and since the time of the bankruptcy -- actually,
7 let me start earlier than that. In the past two years, what
8 sort of analyses -- in other words, work product -- has Ernst
9 & Young generated for the city?

10 A We have helped the city in developing ten-year
11 projections on a department-by-department basis with detailed
12 revenue and expense assumptions. We have then developed 40-
13 year projections that show on a line item basis what the
14 revenues and expenses could be predominantly for the general
15 fund, and as a part of that, we have also overlaid the
16 construct of the city's restructuring plan and its overall --
17 in terms of the settlements that have been reached with
18 various creditors, how those payments are going to be funded
19 over the next 10 and 40 years.

20 Q Okay. Now, in preparing these analyses, where do you get
21 the information that you need in order to do your work?

22 A It's a combination of places. It starts with the city's
23 management team and their core data and reports that are
24 available in the system.

25 Q And just by name, who would some of those individuals be

1 or by position? Excuse me.

2 A People like Rick Drumb from the finance department, folks
3 that we dealt with extensively, people in the treasury
4 department that we dealt with, John Hill, the CFO; Pam
5 Scales, the budget director. So I would say there are a
6 number of people that we have gone through to try and pull
7 the data together in terms of the raw data. And then in the
8 course of building up these projections, we have also relied
9 on other subject matter experts where their expertise on
10 particular topics has been taken into consideration. And
11 then we sort of build it up piece by piece to ascertain how
12 all of the information comes together before -- as we build
13 up the projections.

14 Q You used the phrase "raw data." What's an example of
15 some of the raw data you would have compiled or worked with
16 in preparing your analyses?

17 A So we have this in our financial models, but it was raw
18 data that we got from the city for 2008, 2009, '10, '11, and
19 '12 historically that was the files that they used to develop
20 their audited financial statements.

21 Q Okay. The audited financial statements were sometimes
22 called a CAFR?

23 A That is correct.

24 Q Okay. And who audits them?

25 A KPMG.

1 Q That's another large auditing firm?

2 A Yes.

3 Q Okay. Now, you'd mentioned earlier that you relied upon
4 the work of other advisors to the city.

5 A Yes.

6 Q Who are those entities or people?

7 A For pieces when it came to the quality of life, all the
8 exit financing assumptions, we had and relied upon the
9 discussions with Miller Buckfire.

10 Q Okay.

11 A When it came to developing specific revenue assumptions
12 that required our economist to be involved, I relied on Bob
13 Cline and Caroline Sallee. When it came to some of the
14 reinvestment initiatives, I relied on the information given
15 by Chuck Moore.

16 Q At Conway MacKenzie?

17 A That is correct.

18 Q Okay.

19 A When it came to understanding all of the other revenues
20 and all of the expenditure line items, it was myself and my
21 team that I was working with, and also we relied upon the
22 plan of adjustment in terms of certain other revenues that
23 were coming through as a part of the overall plan so I could
24 sit back and see how these pieces were coming together and
25 what impact they were having on the city's financial profile.

1 Q Now, you mentioned your team, and I apologize for not
2 having asked you before. How large was your team at EY?

3 A The team that I have working here is roughly about ten or
4 fifteen people at any given point of time.

5 Q Now, is there a standard methodology in your field that
6 is used to create financial models?

7 A Yes. It's generally in Excel.

8 Q Okay. Walk us through how professionals in your field
9 create financial models.

10 A So we start with the raw data that -- to the best of the
11 information that we have available from the client, and then
12 we really deconstruct it to understand what the different
13 components are of that particular buildup versus just taking
14 the high level information. We kind of understand the data
15 at a very detailed level. We look at it on a line-by-line
16 basis to understand what of that information is one-off
17 events versus ongoing trends. We have discussions with the
18 management team to understand our understanding of their data
19 to make sure that we corroborate what we think we are seeing.
20 We also then use either run rates as assumptions for short-
21 term and long-term projections as well as we overlay specific
22 changes that we know are going to happen based on discussions
23 with the management team of the client to then at a very
24 detailed level forecast changes, and then on a longer-term
25 basis also rely upon information that we have from public

1 agencies for inflation-type assumptions to overlay those
2 items that may not be specifically highlighted over the long
3 term but may grow because of an inflationary component.

4 Q What do you do to test the accuracy of this information
5 that you rely upon?

6 A We compare the raw data to the information in the audited
7 financial statements. For some of the items where we can, we
8 actually compare it to the cash receipts and disbursements
9 activity of the client to ensure that we can understand the
10 linkage between the financial statements and the cash
11 activity, and so we scrub through the data to make sure we
12 understand what the components are, and the process of the
13 interviews with the management team is in large part a
14 validation process also.

15 Q Now, a couple of times you've mentioned the computer
16 application called Excel. Just for the record, what is
17 Excel?

18 A It's a Microsoft application that helps on addition,
19 subtraction, and just basic financial analyses.

20 Q And your model is actually put into a Microsoft Excel
21 workbook?

22 A That is correct.

23 Q Okay. So tell us then how you went about preparing the
24 financial analyses that you did prepare from the information
25 that the city gave you in this case as opposed to as you do

1 it, you know, theoretically.

2 A We started with getting the raw information by department
3 for the last five years. By "raw information," I mean
4 detailed sales and expense categories that were not only
5 broken down by department but by fund because a particular
6 department could have operations that impact different funds,
7 and we started the process of first analyzing all of that
8 information on a department-by-department basis. Then we
9 actually took that department information and broke it down
10 by fund so that we could focus our efforts on all of that
11 activity across every department that was impacting the
12 general fund. Once we did that, we were then at a much lower
13 level of detail able to come up with for all of the revenue
14 and expense line items after discussions with the management
15 team what specifically items would change in a baseline
16 scenario if nothing had changed, so went through and looked
17 at the 2012-2013 information as well as the previous four
18 years to ascertain what were ongoing trends where we saw big
19 changes in either the revenue line items or the expense line
20 items, what was driving that change, and so that's where we
21 started to develop the forecast at a much more granular level
22 to understand what each department and each department's fund
23 position would be from a forecast standpoint.

24 Q Thank you.

25 MR. STEWART: Your Honor, I would proffer

1 Mr. Malhotra as an expert witness based upon his testimony
2 about his qualifications and background.

3 THE COURT: Expert witness on --

4 MR. STEWART: Issues of restructuring and financial
5 analysis, your Honor.

6 THE COURT: Any objections?

7 MR. SOTO: No objection, your Honor.

8 MR. WAGNER: No objection.

9 THE COURT: All right. You may proceed.

10 MR. STEWART: Thank you.

11 BY MR. STEWART:

12 Q If we could, Mr. Malhotra, let's now turn to the details
13 of your work. Let's begin, if we could, with Exhibit 738.
14 Do you have 738 before you, Mr. Malhotra?

15 A Yes, I do.

16 Q 738 is -- I think you've already testified about the
17 sources you relied upon in your work, but I wanted to ask you
18 in a little bit more detail about the organization of the
19 effort that led to the construction of your financial models.
20 Have you seen 738 before?

21 A Yes, I have.

22 Q And who prepared it?

23 A It was the Jones Day team along with our input.

24 Q Does this reflect in a schematic way the organization of
25 the effort that was put together in order to prepare the

1 financial analyses for the city?

2 A Yes, it does.

3 MR. STEWART: Your Honor, I would move admission of
4 738 as a demonstrative exhibit.

5 THE COURT: Any objections?

6 MR. SOTO: Well, your Honor, I see that it is a
7 chart, and I see the names. I don't see how it is a
8 schematic of what he did. I assume he will testify about
9 that at some point, so I'm wondering if he shouldn't give
10 some meat to these bones, and then I have no problem with it
11 as a demonstrative. And I certainly don't mind him using it
12 while he testifies about it.

13 THE COURT: Well, all right. Subject to that
14 connection, the Court will admit it into evidence.

15 (City Exhibit 738 received at 10:44 a.m.)

16 BY MR. STEWART:

17 Q Mr. Malhotra, so let's look at Exhibit 738. Your name is
18 in the upper left-hand corner?

19 A That's correct.

20 Q In the upper right-hand corner who appears?

21 A Kevyn Orr, Mayor Duggan, and John Hill.

22 Q And why are they in the upper right-hand corner in this
23 structure?

24 A Because they're essentially the client at the end of the
25 day that has to review and approve what we're seeing in

1 aggregate.

2 Q Okay. Now, on the left-hand side of Exhibit 738 is a
3 column entitled "revenues."

4 A Yes.

5 Q On the right-hand side a column entitled "expenditures"?

6 A That is correct.

7 Q Do I understand correctly the left-hand side lists the
8 sources of information you relied upon for revenues?

9 A That is correct.

10 Q Could you tell us then quickly what each of the persons
11 or groups on the left-hand side contributed to your analysis?

12 A Sure. So from Bob Cline from EY, the detailed
13 information that he provided us was with respect to the
14 forecasts over ten and forty years for the income, wagering,
15 and utility users' taxes under two different scenarios, and I
16 was able to take the information that Bob had provided, have
17 a number of discussions with him in terms of the assumptions
18 and look at the output that was being provided by Bob as well
19 as make sure that it was consistent with the numbers we're
20 using and overall also look at some of the public sources of
21 information that he had used with respect to the assumption,
22 so that built up the -- once we had the final information
23 from Bob, the input for the income, wagering, and utility
24 taxes.

25 Q And then below Mr. Cline is Caroline Sallee?

1 A Yes. With Ms. Sallee we did the similar process for
2 property taxes and state revenue sharing in which I went
3 through the files that they had sent over. We had
4 discussions about it and also made sure that I understood the
5 broad assumptions that were being used in addition to some of
6 the public sources of data that were being relied upon.

7 Q Okay. And the next, it's the EY restructuring team?

8 A Yes. That's essentially my day-to-day team where I
9 looked at the other revenue items and sales and charges for
10 services, some other transfers that were coming into the
11 general fund in addition to UTGO-type property tax
12 collection, so -- that were related to debt service as well
13 as the overall assumption of the DWSD revenue stream that has
14 been incorporated into the plan of adjustment.

15 Q And then city management is the next line.

16 A Yes. And this is similar to the line item up above on
17 other revenue items because there are a number of line items
18 that make up the other revenue category, and we went through
19 department by department to make sure we understood what were
20 certain run rates and what changes were being made or should
21 have been made to those line items going forward.

22 Q Now, the next two boxes are for the advisors you've
23 spoken of, Conway MacKenzie and Miller Buckfire. In a
24 nutshell, what did they -- what input did they have to your
25 work?

1 A So Mr. Moore provided us the information with respect to
2 the department revenue initiatives on a department-by-
3 department basis where I actually wanted to make sure that
4 there was no double count between the other revenue line
5 items or any of the information that Mr. Cline or Ms. Sallee
6 used compared to the information that Mr. Moore was using, so
7 that was a process to make sure that there was no double
8 counting. And from Mr. Buckfire it was the assumptions in
9 terms of the quality of life loan proceeds as well as the
10 assumptions related to the exit financing.

11 Q And, finally, what inputs were there from the plan of
12 adjustment itself?

13 A It was predominantly the proceeds from the grand bargain.

14 Q Okay. On the right-hand side under expenditures, the EY
15 team, again, what did they give you in terms of information
16 there?

17 A So I worked with my team there on looking at all of the
18 salaries and benefit costs for the active employees as well
19 as the expenditures related to the legacy liabilities of the
20 city in terms of the assumptions we used for the contingency
21 reserve, and those would be -- and the other expense
22 categories with respect to the main operating costs of the
23 city.

24 Q And actually all of the remaining boxes are people or
25 entities that you dealt with on the revenue side as well.

1 Just quickly run down what their input was to you on the
2 expenditure side.

3 A So in city management it was the input on the operating
4 expenditures as well as the information we received on debt
5 schedules to highlight the nonrestructured debt service.
6 From Mr. Moore it was the information with respect to
7 incremental costs required on a department-by-department
8 basis and the blight budget. For Mr. Buckfire it was the
9 costs and structure of the quality of life and exit
10 financing. And then in terms of the plan of adjustment is
11 where we have incorporated the settlements or the
12 potential -- the settlements that were reached with the
13 various classes in terms of what the financial implications
14 of those would be.

15 Q Thank you. And we can take that down if you'd like.
16 Now, did there come a time when you began the construction of
17 the financial model?

18 A Yes.

19 Q When? When did that start?

20 A I would say it was early part of 2013 is where we really
21 started to build out the projections over ten years.

22 Q And who was it on your team if there was only one
23 person -- or who on your team constructed the model?

24 A It was several people, but I would say two or three of
25 our analysts did the heavy lifting with respect to the actual

1 construction of the model, but we had different people build
2 up specific modules for different work streams, and that's
3 how the models came together.

4 Q How well do you know the model personally?

5 A I know it very well.

6 Q What did EY do to test the model for its completeness?

7 A For its completeness, we made sure that, "A," the model
8 was accurate, and we go through internal quality check
9 processes. I spot-checked a significant number of places in
10 the model to make sure that the accuracy was valid as well as
11 from a completeness standpoint is the sources of information
12 that we were relying upon for the input that I was able to
13 tie back to the sources of data that were used for some of
14 the assumptions.

15 MR. STEWART: Let's put up, if we could, Exhibit
16 112, and I believe that's an electronic document.

17 BY MR. STEWART:

18 Q Mr. Malhotra, we've put up on the screen here Exhibit
19 112. Can you tell us what Exhibit 112 is?

20 A Exhibit 112 is the ten-year financial projections model,
21 which I think this would be the baseline scenario.

22 Q Now, at the bottom I see a number of tabs. What do those
23 represent?

24 A Those are individual worksheets that contain information
25 either on a summary or department-by-department basis.

1 Q How many worksheets are there?

2 A I think there's over 300-plus worksheets in this model.

3 Q Okay.

4 MR. STEWART: Your Honor, I'd move the admission of
5 Exhibit 112.

6 THE COURT: Any objections?

7 MR. SOTO: No, your Honor.

8 BY MR. STEWART:

9 Q Now --

10 THE COURT: It is admitted.

11 MR. STEWART: I'm sorry, your Honor.

12 (City Exhibit 112 received at 10:52 a.m.)

13 BY MR. STEWART:

14 Q Mr. Malhotra, this is an Excel spreadsheet?

15 A Yes, it is.

16 Q And the spreadsheet itself sometimes is known as a
17 workbook?

18 A Yes.

19 Q And the pages sometimes are called worksheets; correct?

20 A Correct.

21 Q Let's go to any worksheet you'd like. Just choose one,
22 if you could.

23 A We can go to ESUM or --

24 Q Right there. Okay. Okay. Let's scroll to the center.

25 Okay. Now, the construction of worksheets is such that

1 vertically you have something called columns?

2 A Yes.

3 Q Okay. And this column is entitled "Column A"; correct?

4 A That's correct.

5 Q What's in Column A?

6 A Those are -- highlight the revenue titles and the expense
7 titles on this page.

8 Q Okay. And then across, those are called rows; correct?

9 A Yes.

10 Q What is Row 17, for example? What is that? What is
11 that?

12 A That shows general fund reimbursements.

13 Q Okay. Now, when rows and columns intersect, you have
14 something called a cell?

15 A Yes.

16 Q Let's highlight cell G-17. Now, up at the top there's a
17 box. Do you see that? There's a -- I don't know what you
18 call -- you tell me what you call it. Do you see at the top
19 there's something that says "sum," and then there's a bunch
20 of words after it or figures after it?

21 A Yes.

22 Q What is that?

23 A It's a formula.

24 Q It's a formula, and the formulas or the values of cells
25 appear in that box?

1 A That's correct.

2 Q What does that formula represent, if you can tell?

3 A It's summing up from the EDET tab, which would be the
4 detail tab, rows 21 through 23 of Column G, so this tab, for
5 instance, would be a more summary view of the detail tab on
6 the EDET tab.

7 Q Okay. So, in other words, these worksheets borrow from
8 each other?

9 A Yes.

10 Q How complex is the borrowing of one worksheet to another?

11 A In my view, it's not overly complex. I mean it's --
12 they're formulas, and once you understand the logic, it's not
13 overly complex.

14 Q Okay.

15 MR. STEWART: Let's, if we could, scroll to the
16 right just to show the number -- no -- just of the workbook
17 just to show the number of -- not the sheet, the workbook
18 itself -- just to show the number of tabs we're talking about
19 here.

20 BY MR. STEWART:

21 Q Each of those tabs, Mr. Malhotra, represents a set of
22 calculations?

23 A I would say the information on the raw data that would be
24 in the model would not be calculations, but a lot of these
25 tabs would have some calculations on them unless they're raw

1 data files.

2 Q And so the tabs we see scrolling by would be where the
3 raw data was captured or compiled?

4 A The tabs that we are looking at right now would be
5 where -- would be the output of the information that would
6 have been after the raw data had been analyzed.

7 Q Okay. And we're still scrolling. I should have asked
8 you something earlier. You're aware that the Court has
9 appointed an expert, Marti Kopacz of Phoenix, as the Court's
10 expert?

11 A Yes, I am.

12 Q What access has Phoenix had to this model?

13 A Full access of working Excel models.

14 Q In this -- in the native format as we see it here on the
15 screen?

16 A That is correct.

17 Q Okay. Now, what is done on your model to take all of
18 this raw data and put it in one place?

19 A Well, it's sort of like that summary tab that we were
20 looking at is you take all of the raw data that is developed
21 that is provided by fund by department, and you take that
22 information and then deconstruct it to basically highlight
23 for every single department how that information is then
24 broken out between each fund, so we take all of the
25 information that is given to us by every department, break it

1 down by every individual department for every single tab, and
2 then that department is further broken down into a general
3 fund component or the enterprise fund component. And then we
4 sum up all of the general fund only tabs for every single
5 department.

6 Q Now, let's turn in your book, if we could, to Exhibit
7 109.

8 MR. STEWART: And please put, Tom, if you could --
9 BY MR. STEWART:

10 Q Mr. Malhotra, could you tell us what is Exhibit 109?

11 A This is a sample of the ten-year projections of the city.

12 Q Okay. Is this the hard copy version of the model we were
13 just looking at?

14 A Yes. I believe this is the July 2nd version, so it -- I
15 think it is.

16 MR. STEWART: Your Honor, I'd move the admission of
17 Exhibit 109.

18 THE COURT: Any objections?

19 MR. WAGNER: No, your Honor.

20 BY MR. STEWART:

21 Q Could you show us --

22 (City Exhibit 109 received at 10:58 a.m.)

23 THE COURT: It is admitted.

24 MR. STEWART: Sorry, your Honor.

25 BY MR. STEWART:

1 Q Mr. Malhotra, could you show us on Exhibit 109 where
2 you'd see the summary page you described to us just a minute
3 ago?

4 A It would be on page 6 of 82.

5 Q Okay. And so that is a page where all of the data we saw
6 in the model ultimately bubbles up to to become a one-page
7 analysis?

8 A Yes. For the baseline information, that would be the
9 page that it would all sum up to.

10 Q Okay.

11 MR. STEWART: Let's now put up on the screen Exhibit
12 113.

13 BY MR. STEWART:

14 Q Mr. Malhotra, we've now placed on the screen Exhibit 113.
15 Could you tell us what is Exhibit -- what is Exhibit 113?

16 A Exhibit 113 looks like the tab from the 40-year
17 projections as the tab from what I can tell.

18 Q What's the relationship between the 40 -- is this the 40-
19 year model?

20 A This should be the 40-year model, yes.

21 Q What is the relationship between the ten-year model --
22 and what's the date, by the way, of this version of the
23 forty-year model?

24 A I believe this one is the July 2nd version.

25 Q What's the relationship between the 40-year model and the

1 10-year model?

2 A Well, the ten-year model is 300 plus tabs, so we have to
3 bring in the summary information off the ten-year into the
4 forty-year and then on a line-by-line item basis project over
5 the forty years what the revenues and expenses would be using
6 primarily the same sources I had talked about earlier, and
7 then the forty-year model was used to really illustrate
8 what -- how the city was going to pay for the overall
9 settlements it has reached with various classes, so the
10 forty-year was more of an expansion of the ten-year but
11 looking at it purely from the lens more so of how the
12 restructuring plan comes together.

13 Q Okay.

14 MR. STEWART: Now, let's put up Exhibit 111, please.

15 BY MR. STEWART:

16 Q Could you tell us, Mr. Malhotra, what is Exhibit 111?

17 A Exhibit 111 is the 40-year projections of the city.

18 Q Is this the hard copy version of the model we just looked
19 at?

20 A Yes.

21 MR. STEWART: Your Honor, I'd move the admission of
22 Exhibit 111.

23 THE COURT: Any objections?

24 MR. SOTO: No.

25 MR. WAGNER: No, your Honor.

1 MR. SOTO: No. Sorry.

2 THE COURT: It is admitted.

3 (City Exhibit 111 received at 11:02 a.m.)

4 BY MR. STEWART:

5 Q Now, during the period of time --

6 MR. STEWART: And you can take down 111 if you'd
7 like.

8 BY MR. STEWART:

9 Q During the period of time you've been preparing the
10 model, is it fair to say there have been a succession of
11 models?

12 A Yes.

13 Q And some have had different forecast periods; correct?

14 A That is correct.

15 Q And some have had different assumptions in them?

16 A Yes.

17 Q Has EY archived each version of each model?

18 A We do the best we can. There's hundreds of versions, but
19 I think most of them are saved somewhere.

20 Q Okay. Let me ask you just about a few of the models
21 leading up to where we are today, and let's start with
22 Exhibit 33. Mr. Malhotra, do you have Exhibit 33 in front of
23 you?

24 A I do.

25 Q And could you tell us what is Exhibit 33?

1 A Exhibit 33 is the original June 14th proposal for
2 creditors.

3 Q Did you prepare any part of Exhibit 33?

4 A I did.

5 Q Let's go, if we could --

6 MR. STEWART: And, your Honor, I am going -- I'm not
7 going to move the admission of the entire exhibit because the
8 witness did not prepare the entire exhibit. I would move to
9 pages he did prepare and move those into evidence and leave
10 it to another witness to get the larger document in.

11 BY MR. STEWART:

12 Q Mr. Malhotra, let's go, if we could, to page 90, nine
13 zero, of our document here.

14 MR. STEWART: It would be nine zero in the -- Tom,
15 it would be -- apparently, your Honor, I'm advised it's
16 already been admitted into evidence.

17 MR. SOTO: Your Honor, it's one of those that was --
18 the only objecting party was Syncora, and they're no longer
19 here, so we have no objection to this.

20 THE COURT: All right. The Court will admit Exhibit
21 33.

22 (City Exhibit 33 received at 11:04 a.m.)

23 BY MR. STEWART:

24 Q Okay. All right. But I'm still going to confine my
25 questions to page 90 and 91. You have page 90 of the exhibit

1 before you, Mr. Malhotra. Could you tell me, first of all,
2 what is Exhibit 190 -- I mean -- I'm sorry -- what is page
3 90? Confused myself.

4 A Page 90 shows the operating revenues and operating
5 expenditures of the general fund for the next ten years as
6 was presented in the June 13th proposal absent any
7 restructuring.

8 Q And let's just go down briefly the revenues. First of
9 all, we have various taxes and revenue sharing; correct?

10 A That is correct.

11 Q And from whom did you get those numbers?

12 A The municipal income taxes and state revenue sharing
13 would have been provided by -- the income tax would have been
14 provided by Bob Cline. State revenue sharing would have come
15 from Caroline Sallee. And the wagering taxes would have come
16 from Bob Cline, and the property taxes would have come from
17 Caroline Sallee. And the utility users would have come from
18 Bob Cline as well. I'm positive about the income taxes and
19 property taxes. I don't know about the other two if Bob and
20 Caroline were doing it for us at that point in time or not,
21 but they were for income taxes and property taxes for sure.

22 Q All right. And these were projected out for the coming
23 ten years; correct?

24 A That is correct.

25 Q And tell us how you went about being able to project

1 these numbers out for ten years.

2 A Well, we would have started by looking at each one of
3 those categories on a historical basis, so for the income
4 taxes it would have been what the city's historical
5 performance was but also, more importantly, as to where the
6 city was headed in terms of projected population and wage
7 assumptions to ascertain what the income levels were assuming
8 there were no changes in the property tax or in the income
9 tax rates. State revenue sharing, we get input even from the
10 state budget department. Wagering taxes was again based on
11 what some of the historical casino revenues were and sort of
12 using a small reduction based on the introduction of the new
13 Ohio casinos and then a one-percent growth rate over the
14 forecast period. For the sales and charges for services, it
15 would have been looking at each one of the departments in
16 detail to understand what the charges were for the services
17 being offered. Property taxes would have been developed on a
18 commercial and residential standpoint. The other revenue
19 would have also been broken down in terms of what was the
20 overall other taxes or other revenues that were not included
21 in the services above, whether it was court fines or parking
22 tickets, and then general fund reimbursements for the
23 reimbursements that come from some of the historical -- on a
24 by fund basis and even on a projected basis, and then what
25 the UTGO millage was in certain non-general fund POCs, so --

1 Q Sure.

2 A -- it was the historical information combined with the
3 forecast on a line-by-line basis.

4 Q While we're at it, could you tell us what is meant when
5 you have a line that says "general fund reimbursements"?

6 A Those are items such as reimbursements from the
7 Department of Transportation for their share of the insurance
8 costs or risk management costs, come in as a general fund
9 reimbursement, but there's a corresponding expense in the
10 operating expenditures, so there's at times a net effect for
11 some of these revenues and expenses based on how the city
12 accounts for them.

13 Q Okay. And then you have transfers in for UTGO millage
14 and non-general fund POCs. Tell us what that represents.

15 A The transfers in from the UTGO millage represents the --
16 would have represented the portion that comes in as UTGO tax
17 collections. There would be a corresponding transfer out to
18 reflect the transfer that would be made to the debt service
19 fund, so this was basically reflected to show what the
20 activity was. And also on non-general fund POCs there were a
21 certain portion of the COPs that were allocated to the
22 different enterprise funds, and we wanted to make sure that
23 those reimbursements under a base case scenario or a no
24 restructuring scenario were shown up above.

25 Q Okay. Now, the expenditures, without going into a lot of

1 detail, also done generally the same way?

2 A Yes.

3 Q At the bottom you have something called net operating
4 surplus. Just, first of all, what is it?

5 A It is the difference between the operating revenues and
6 the operating expenditures.

7 Q Okay. Let's go, if we could -- and, by the way, this was
8 presented at the June 2013 meeting with the creditors;
9 correct?

10 A That's correct.

11 Q Did you speak at that meeting?

12 A I did.

13 Q And what did you speak about at that meeting?

14 A Well, in addition to the city's precarious cash position,
15 this was one of the -- a couple of the pages that I talked
16 about that showed that on an operating basis the city was
17 actually generating potentially a \$3 billion surplus over the
18 next ten years or roughly 300 million a year without
19 accounting for any of the costs related to the city's legacy
20 liabilities.

21 Q So let's go to the next page of Exhibit 33. Is this a
22 continuation of the calculations we just looked at?

23 A Yes.

24 Q And what does this page reveal?

25 A So on this page, as we continue from the previous page

1 where we had three -- the city was projecting almost \$3
2 billion of surplus over ten years, this page showed the
3 nonrestructured costs of debt service, the POCs, the swaps as
4 they stood, the pension contributions under the assumption
5 the city was using at that point of time, under changed
6 assumptions that the city wanted to use at that point of
7 time, the ongoing costs of health benefits for retirees,
8 which in aggregate from the line items up above, it showed
9 that the city would have almost \$7 billion potentially in
10 forthcoming legacy liability expenditures over the next ten
11 years.

12 Q And you called these in this page legacy expenditures;
13 correct?

14 A Yes.

15 Q What do you mean by "legacy"?

16 A Our way of looking at the legacy expenditures was what
17 the -- the costs that were not associated with providing
18 service or operations today, so it was -- we were trying to
19 exclude the majority of the share of costs related to the
20 active employees and supplies as well as exclude the costs
21 associated with debt that the city had taken on in prior
22 periods.

23 Q Now, we have a line that says "total surplus" and then in
24 parentheses the word "deficit." What does that line
25 represent?

1 A That line represents that the -- the delta between the
2 operating surplus that we saw on the prior page, and if you
3 reduce that operating surplus by the full impact of the cost
4 of the legacy expenditures, what the delta is.

5 Q Okay. So so far in our analysis, on an operating basis,
6 the city actually had a surplus, but once the legacy
7 expenditures were taken into account, that turned into the
8 deficit we see in the middle of the page?

9 A That's correct.

10 Q Okay. And the deficit is how much projected over ten
11 years back in June of 2013?

12 A For the ten years, the projection showed in excess -- or
13 just shy of \$4 billion or roughly 390 to \$400 million a year.

14 Q Below that is a series of lines under the heading
15 "reinvestment in the city." What is that section of this
16 page about?

17 A In that section, we were showing the information that we
18 had gotten from Conway MacKenzie that was provided with
19 respect to revenue and operating expenditure assumptions on a
20 by department basis as well as capital investments and blight
21 that were at that point in time estimated for the city, which
22 in aggregate added up to about a billion dollars net.

23 Q But how could the city be spending money on reinvestment
24 when it had a deficit at the levels we see in the middle of
25 the -- of page 91?

1 A It was probably unlikely that the city would have been
2 able to.

3 Q So why did we have -- why do you have here a section
4 about reinvestment at all?

5 A Well, the reason we wanted to show it is because based on
6 the discussions we had with the city that the reinvestment
7 was a necessity. It was in order to get the city back and
8 avoid a spiral, but that was the assumption as of then.

9 Q Okay. Is this analysis, page 90 and 91, sometimes called
10 a baseline analysis?

11 A Yes.

12 Q Why is it called a baseline analysis?

13 A Because on 90 and 91 we have not incorporated any
14 bankruptcy-type provisions, so it's sort of outside of a
15 bankruptcy what the projections could look like, but it does
16 not take into impact any of the restructuring activities that
17 the city has undertaken as a part of the bankruptcy.

18 Q Okay. Thank you.

19 MR. STEWART: And we can take down that exhibit.
20 Your Honor, I'm reminded I failed to move Exhibit 113 into
21 evidence. That was the native -- in other words, the
22 electronic version -- of the 40-year forecast, and I'd move
23 it into evidence now.

24 THE COURT: Any objections?

25 MR. WAGNER: No, your Honor.

1 THE COURT: All right. It is admitted.

2 (City Exhibit 113 received at 11:15 a.m.)

3 MR. STEWART: Let's, if we could, put up Exhibit 3.

4 BY MR. STEWART:

5 Q Mr. Malhotra, Exhibit 3 is in front of you. Can you tell
6 us what is Exhibit 3?

7 A That's the fourth amended disclosure statement.

8 Q Okay.

9 MR. STEWART: And, your Honor, I believe this has
10 been admitted into evidence, although I'm susceptible of
11 correction if I have that wrong.

12 BY MR. STEWART:

13 Q Mr. Malhotra, did this disclosure statement also set
14 forth forecasts that Ernst & Young had prepared?

15 A Yes.

16 MR. STEWART: Let's go, if we could, to page 89 of
17 212, so we have to go to the appendix, Appendix A, page 89.
18 No, that's not it.

19 BY MR. STEWART:

20 Q While they're doing that, let me just ask you some
21 questions about the disclosure statement, Mr. Malhotra.

22 THE COURT: Excuse me. Excuse me just one second,
23 please.

24 MR. STEWART: Yes.

25 THE COURT: So what I'm showing is -- I'm sorry.

1 One more second. What I'm showing is that on September 9th
2 the document was admitted during the testimony of Terri
3 Renshaw but only to show what she relied upon --

4 MR. STEWART: Okay.

5 THE COURT: -- for what she did, and then I'm also
6 showing that, although Exhibit 3 was initially admitted as
7 part of the final pretrial order, that was vacated and only
8 Exhibit M to Exhibit 3 was subsequently admitted on September
9 8th.

10 MR. SOTO: Your Honor, we have no objection to the
11 admission of Exhibit 3. I think the only party that had
12 objected on the exhibit list, again, was Syncora. There's
13 some of their objections which we would adopt, but this is
14 not one of them.

15 THE COURT: All right. Would you like to offer
16 Exhibit 3 then?

17 MR. STEWART: Yes, your Honor.

18 THE COURT: All right. Exhibit 3 is admitted for
19 all purposes.

20 (City Exhibit 3 received at 11:17 a.m.)

21 BY MR. STEWART:

22 Q Now, Mr. Malhotra, I'm now going to direct you to one of
23 the appendices of Exhibit 3, page 89 of 200 and -- I think of
24 212.

25 MR. STEWART: Let's go back, if we could. Just go

1 one more page. Do you have -- sorry. It's page 99. Oops.
2 Where were we? Just next page, please, and keep going. One
3 more. Keep going. Keep going. There you go. Page 94.

4 BY MR. STEWART:

5 Q Tell us, if you could, what page 94 of 212 is on Exhibit
6 3.

7 A This would have been the same slightly updated baseline
8 scenario that was used for the disclosure statement, so I
9 believe this would be the May 5th version of the projections.

10 Q Okay. And did the disclosure statement also have a
11 comparable summary of the 40-year model that E&Y had
12 produced?

13 A I believe so, yes.

14 Q Okay. Let's move on. Let's go back, if we could, now to
15 Exhibit 109 and use the hard copy form of 109, and this has
16 been admitted into evidence. So a couple of months after the
17 disclosure statement, you had a new edition of your model?

18 A Yes.

19 Q Okay. And that's what you have before you is Exhibit
20 109?

21 A That is correct.

22 Q Now, it appears to be 82 pages long?

23 A That is correct.

24 Q Now, the cover has this red language there. Can you tell
25 me what that's doing on the cover of your model?

1 A It's our standard disclaimer.

2 Q Okay. What are you disclaiming?

3 A That the assumptions and the data are at the end of the
4 day the product of the client.

5 Q Are you disclaiming the accuracy of the model?

6 A No.

7 Q Are you disclaiming that you believe it to be an accurate
8 forecast?

9 A Yeah. Based on the assumptions, we believe this is --
10 it's accurate.

11 Q Okay. So now let's go to page 3.

12 MR. SOTO: You know, Judge, on that one -- forgive
13 me for interrupting, but I couldn't read a thing of what he
14 was -- what he had there, so I have no idea what he was
15 disclaiming, so -- and I would point that out, your Honor.

16 MR. STEWART: Well, we could go back, and can we
17 make it any bigger?

18 MR. SOTO: Could you? Thanks.

19 MR. STEWART: There we go. Probably going to have
20 to read it in halves.

21 MR. SOTO: Thank you, Geoff. Thank you, your Honor.

22 BY MR. STEWART:

23 Q If we could, let's go to page 5. And what is page 5 of
24 the model?

25 A It's a continuation of the assumptions --

1 Q Okay.

2 A -- that are being used, the primary assumptions that are
3 being used in the model.

4 Q So the beginning of the model, we set forth what your
5 assumptions are?

6 A Yes.

7 Q Okay. Now let's go to page 6. And just for the
8 record -- I think we've seen this before -- what is page 6?

9 A Page 6 is the slightly updated baseline scenario that was
10 used for the disclosure statement projections. I think it
11 was around May 5th.

12 Q Okay. So this is an updated version of the forecast we
13 saw that had also been in the June 2013 documentation;
14 correct?

15 MR. WAGNER: Objection. Leading. I think in
16 general there's been too much leading.

17 THE COURT: I agree, and that objection is
18 sustained.

19 MR. STEWART: Okay.

20 BY MR. STEWART:

21 Q How does this relate to the pages we looked at, page 91
22 of Exhibit 33?

23 A 109 is the July 2nd update of the projections, and so we
24 would have updated it since May 5th for the items that we
25 knew we had changed because it was during this time frame

1 that there were a couple of settlements that were reached,
2 but on the baseline scenario, other than some changes that we
3 would have made for new information that we would have
4 received, majority of this would have essentially remained
5 the same or close to it.

6 Q What is the next page of the exhibit?

7 A Well, on this page of the exhibit we have tried to show
8 the restructuring scenario specifically before distributions
9 are made or could be made to unsecured creditors because what
10 we have done on this page is taken the operating revenues and
11 expenditures from the prior page, eliminated majority of
12 the -- eliminated the majority of the unsecured creditor
13 payments, included in here the reinvestment expenditures to
14 show what funds the city would have available for the next
15 ten years to make payments for its unsecured creditors.

16 Q Okay. Let's look at the next page. What is this page?

17 A Page 8 of 82 on Exhibit 4. I think it is a detailed
18 version of the pages we saw two pages prior, which was the
19 summary view of the baseline. This is a detailed view of the
20 baseline.

21 Q Okay. Let's now go to page 10. This says it's a general
22 fund department detail. What is a department detail?

23 A This is how we have built up the ten-year projections, so
24 it shows the detail of the summary view and the summary
25 detail view but now being broken down by department.

1 Q Let's go to the next page then. What is page 11?

2 A This is the summary of the budget department.

3 Q That's a department of the city?

4 A Yes.

5 Q And why is this page organized the way that it is
6 organized?

7 A Because all the pages after this on every single
8 department is organized the same way.

9 Q And how many such pages are there that go through the
10 department detail?

11 A Probably 50-plus.

12 Q Let's go to one in particular just so I can ask you about
13 it, which will be page 17 of 82. This is the detail for the
14 fire department.

15 MR. STEWART: And can we blow that up so it's easier
16 to see? Just blow up the left-hand half of it. Maybe
17 that'll be easier.

18 BY MR. STEWART:

19 Q So, Mr. Malhotra, I want you to walk us through how this
20 detail was done for, in this case, the fire department.

21 A So the information that is here on the left would have
22 been the information that we would have gotten first in the
23 raw data from the city by line item, and this would have
24 probably been only for the general fund because fire just has
25 the general fund essentially, and then we would have gone

1 through actually the details that broke up the licenses,
2 permits, and charges, and the same things for sales and
3 charges for services and then looked at each one of the
4 expense categories in terms of the salaries, the overtime,
5 what the pension allocation was, the basis for the fringe
6 benefits that were allocated to the fire department, so there
7 would be another layer down in terms of the detail. And
8 based on that, we would have actually developed the
9 projections on a headcount basis for the fire department.

10 Q What part of this sheet is purely historical information?

11 A The left part, 2008 through 2012.

12 Q Okay. So let's now expand the right side so we can see
13 some of the projected information. Now, Mr. Malhotra, how
14 did you go about projecting revenue and expense items as they
15 related to the fire department?

16 A Well, when it came to the revenues, the fire department
17 does not have a lot of revenues, so we would have looked at
18 the assumptions with respect to like the first line here
19 would have been the -- I believe it would be the inspection
20 charges, but they had generally been following a consistent
21 trend, and then based on discussions with management for any
22 specific initiative that was being undertaken to increase the
23 overall fees or the inspection charges, we would have
24 increased it and then left it flat over the forecast period
25 because there was not necessarily a plan in terms of how

1 those inspection charges would continue to go up.

2 Q Now -- go ahead. Have you finished?

3 A The second line, I think, is the sales and charges for
4 services, and those, again, would be EMS fees or charges that
5 could be generated by the fire department. And, again,
6 between 12.6 and the 14.9, we would have been specifically
7 highlighting any specific initiative based on discussions
8 with the management team that were being used or looking at
9 even what those charges were historically to come up with
10 what the 2014 number would be and also for keeping that flat
11 depending on the kind of revenue initiative it was. The
12 grant revenue was essentially the SAFER grant in which we
13 knew that the city has gotten the SAFER grant extended
14 through fiscal year '15 and '16, so we left that in but
15 dropped it '17, '18, and '19 in the baseline, but when you
16 will look below in the revenue initiatives that are not shown
17 on this page, we assumed that the grant would actually get
18 renewed for two more years, but we did not want to
19 incorporate that in the baseline that's shown down below in
20 terms of the reinvestment initiatives.

21 Q Then under "expenditures," just in a nutshell, tell us
22 how you went about coming up with the numbers that we see.

23 A So the biggest line item again, which is salaries and
24 wages, that would have been developed based on -- again, we
25 have schedules in the back -- based on the assumptions of the

1 actual headcount by department. We had that historically as
2 well as the most current state, and we would have used the
3 current assumptions of the headcount at the average salary
4 level that we had been provided for that particular
5 department and forecast that over the course of the time
6 frame. And, again, we would have based headcount assumptions
7 compared to what the headcount assumptions were a few months
8 ago because there had been an ongoing attrition, and so we
9 assumed in the baseline that the attrition would be replaced
10 in the projections.

11 Q Okay. Now, at the bottom of this page -- let's go to the
12 whole page once again. What do we have in the bottom couple
13 of lines?

14 A So those are the operational restructuring and
15 reinvestment initiatives, which was the information that was
16 given to us by Conway MacKenzie on a department-by-department
17 basis, but we ensured that there was -- that these
18 expenditures were reviewed, so there was not a double
19 counting of either a revenue or an expense between what was
20 in the baseline versus not.

21 Q Okay. And this was done for how many of the city's
22 departments?

23 A All the departments that impacted the general fund.

24 Q And if we could just flip to the next page and the page
25 after that, what sort of departments do we have here? That's

1 fire. What's the next one?

2 A Health and wellness.

3 Q Do you see it on your screen, Mr. Malhotra? It may be
4 easier to see it on the screen.

5 A Yes. The health and wellness department.

6 Q And after that? And let's do the next page after that.

7 A The human resources department.

8 Q Okay. And could we go on until we've gone through every
9 department in the city?

10 A Yes.

11 Q And where were these all compiled in this forecast?

12 A All of the information for the general fund came together
13 in the summary tab, which we had looked at earlier.

14 Q That's what? Page 6 and 7?

15 A Yes. Page 6 was the baseline view, which is where all of
16 the individual departments would add up to, and then page 7
17 was more for restructured view.

18 Q Now, let's look at Exhibit -- we can put that down.

19 Let's look at Exhibit 111, and if we can go back to page 4 of
20 11. What does page 4 do?

21 A Page 4 is -- shows the projected ten-year and forty-year
22 view of the city under the restructuring view scenario, which
23 shows what funds are available to pay unsecured claims over
24 the next ten, twenty, thirty, or forty years.

25 Q Okay. All right.

1 MR. STEWART: So now let's go back to Exhibit 111
2 and, in particular, to pages 5 and 6. Sorry. Let's make it
3 page 6 actually. Is that 6? I'm losing my eyesight. I'm
4 sorry. Make it 109, page -- that's the wrong page -- make it
5 page 109 -- sorry -- Exhibit 109, page 6, please, and let's
6 highlight, if we could, the left-hand column that has the --
7 all the way down, please. There we go. Thank you. Okay.

8 BY MR. STEWART:

9 Q So I think I've already asked you, Mr. Malhotra, about
10 the sources of some of the information you have here, and I
11 believe we talked about other revenues.

12 MR. STEWART: Could we put up, if we could --

13 BY MR. STEWART:

14 Q We have sales and charges for services. Do you see that?

15 A Yes, I do.

16 Q And also other revenues?

17 A Yes, I do.

18 Q Okay.

19 MR. STEWART: Let's put up --

20 BY MR. STEWART:

21 Q I'm going to ask you about the details of sales and
22 charges for services.

23 MR. STEWART: Let's put up demonstrative Exhibit
24 716. Okay.

25 BY MR. STEWART:

1 Q And, Mr. Malhotra, what I would like to do is ask you
2 what the detail is that is behind the line that says "sales
3 and charges for services." First of all, what is Exhibit
4 716?

5 A It shows the build-up of the sales and charges for
6 services by department.

7 Q Who prepared Exhibit 716?

8 A We did.

9 Q Okay.

10 MR. STEWART: Your Honor, I'd move the admission of
11 716 solely for purposes of being a demonstrative exhibit.

12 MR. SOTO: No objection, your Honor.

13 MR. STEWART: Could we --

14 THE COURT: It is admitted.

15 (City Exhibit 716 received at 11:35 a.m.)

16 MR. STEWART: Sorry. I'm never going to get this
17 right, your Honor.

18 BY MR. STEWART:

19 Q Mr. Malhotra, could you walk us through and tell us what
20 items of revenue there are that underlie the line that's
21 entitled "Sales and Charges for Services"?

22 A Yes. The main categories are by department. The first
23 one is nondepartmental in which you have probably three or
24 four main items that are captured in there, the first one
25 being the municipal service fee. The second main item that

1 is also captured in there is the overall reimbursements that
2 come from other departments for services that are provided by
3 the general fund, so it's almost a netting out of an expense
4 with a revenue. The PLD Department also has all of -- has
5 the costs or the revenues related to its customers, which are
6 continuing to show -- go down, which is as the grid is
7 transitioned to a third party provider, the PLD Department is
8 no longer going to be collecting revenues from those
9 particular customers. The fire department is, again -- this
10 specifically relates to predominantly the fees that are being
11 charged also by EMS. That is sort of built up in the fire
12 department. The 36th District Court as well, this is related
13 to the fees that are historically charged, so -- and we can
14 go down, but those are sort of the main components of the
15 sales and charges for services.

16 Q Okay. And then if we went back to Exhibit 109, there's
17 also this category entitled -- pardon me -- "Other Revenue."

18 MR. STEWART: Let's put up, if we could, Exhibit
19 717.

20 BY MR. STEWART:

21 Q Do you have Exhibit 717 before you, Mr. Malhotra?

22 A Yes, I do.

23 Q What is Exhibit 717?

24 A Exhibit 717 breaks down the other revenues into more
25 detail in terms of how we -- the items that we had included

1 in other revenues in the summary.

2 Q Who prepared Exhibit 717?

3 A We did.

4 MR. STEWART: Your Honor, I'd move its admission as
5 a demonstrative exhibit.

6 MR. SOTO: No objection, your Honor.

7 THE COURT: It is admitted.

8 (City Exhibit 717 received at 11:37 a.m.)

9 BY MR. STEWART:

10 Q Mr. Malhotra, could you walk us through what items
11 comprise the line entry that has been entitled "Other
12 Revenues"?

13 A The items there would be other taxes, which I believe is
14 an industrial facility tax; the parking and court fines,
15 which is predominantly parking tickets; grant revenue, which
16 would be related to the grant revenues in specific
17 departments such as the SAFER grant or the COPs grant. The
18 licenses and permits would be fees charged by the building
19 department and building permits and the inspections by even
20 the fire department. The revenue from use of assets would be
21 some rental income, some one-time asset sales. The general
22 fund reimbursements would be, again, predominantly
23 reimbursements coming from the Department of Transportation
24 for paying the self-insurance funds. The transfers in from
25 UTGO would be the component of property -- of tax collections

1 that were related to the UTGO millage. The department
2 revenue initiatives would be the operating initiatives by
3 department that would be shown on a department-by-department
4 basis that would be flowing into other revenue.

5 Q Let me ask you about the transfers in for the UTGOs. Why
6 is that treated as revenue?

7 A Because there is an incoming source that is coming in in
8 terms of the taxes that are collected and then a
9 corresponding transfer, though, to the debt service fund
10 under a baseline scenario initially, yes.

11 Q And then the department revenue initiatives, I believe
12 we've talked about those before. Are those existing revenues
13 or projected revenues?

14 A Those are projected revenues coming through the
15 reinvestment initiatives. We got that line from Conway
16 MacKenzie.

17 MR. STEWART: So let's go back to Exhibit 109 and to
18 the general fund summary that we were looking at there, and
19 let's expand the lower left-hand corner. Now, we're going to
20 want to go higher up to the expense part. See the -- yeah,
21 there we are.

22 BY MR. STEWART:

23 Q What was the source of your information for the items,
24 first of all, that are salaries, health benefits, and other
25 operating expenses?

1 A On a historical basis, it would be the city's information
2 that we got on a department-by-department basis of what
3 salaries and wages were allocated by fund by department.

4 Q Okay. Let me direct your attention. The top line says
5 "salaries over time and fringe"; correct?

6 A Yes.

7 Q And that's projected out for a number of years?

8 A That is correct.

9 Q What inflation assumption did you make with respect to
10 wage inflation over that term of years?

11 A With respect to wage inflation in the first few years, we
12 used the information that was at the time being discussed
13 with the different unions with respect to five percent up
14 front in terms of the wage increase, zero following, and then
15 it was about 2-1/2, 2-1/2, 2-1/2 after that. Beyond the
16 first five years, we used a two-percent wage inflation
17 assumption.

18 Q Do you know how that compared with the wage rate of
19 inflation Dr. Cline used in his projections of income taxes?

20 A The two percent should be similar.

21 Q Okay.

22 MR. STEWART: Now, if we go further down, under net
23 operating surplus, we have -- oops -- let's see. Go, if you
24 could, back to what we -- just stay with what we had
25 originally, if you could. Thank you. You got to go to the

1 next page. Let's go to the next page, if we could. And you
2 see the upper left-hand corner? Go further down. Oops.
3 There you go. Thank you.

4 BY MR. STEWART:

5 Q Under expenses we have a variety of expenses I wanted to
6 ask you about. Let's talk about the reinvestment. You have
7 OPEB payments for current and future retirees?

8 A That is correct.

9 Q Where did those -- where did those numbers come from?

10 A For the current retirees, we had the information based on
11 what the historical performance of the city was with respect
12 to payments for its existing plans as well as some of the
13 information we would have received from Milliman on the cost
14 of the plans on a per head basis.

15 Q Okay.

16 A And for future retirees, it was based on two percent of
17 healthcare -- two percent of wages for the nonuniform
18 employees, and for the uniform employees it was a million
19 dollar fixed payment for the forecast period.

20 Q Now, let's go, if we could, to the overall sheet, to the
21 overall page that we had, and as a result of your modeling
22 exercise that you've described to us, Mr. Malhotra, have you
23 reached an opinion looking at these pages of Exhibit 109 as
24 to the reasonableness of the city's projections of its
25 revenues and expenditures for the next ten years?

1 A Yes.

2 Q What is your opinion?

3 A My opinion is based on the assumptions here, the revenues
4 and expenditures appear to be reasonable as shown here until
5 the funds available for unsecured claims that the revenues
6 and expenses seem reasonable.

7 Q Let's now go -- pardon me -- if we could, to Exhibit 111
8 and, in particular, to page 4 of 9. I believe you looked at
9 this sheet before, Mr. Malhotra. As a result of the work you
10 did that you described to us, have you reached an opinion
11 about the reasonableness of the city's forecast of revenues
12 and expenditures for the 40-year period that's set forth on
13 page 4 of 9 of Exhibit 111?

14 A Yes.

15 Q What is your opinion?

16 A My opinion is that based on the assumptions we have here,
17 these revenues and expenses appear reasonable for 40 years in
18 terms of the line item up to the funds available for
19 unsecured claims.

20 Q Thank you. Now, more recently you updated your July
21 forecast just last week, did you not?

22 A That is correct.

23 Q Let's put up -- and tell us why you updated the July
24 forecast.

25 A The primary change for that was the Syncora settlement.

1 It is why we updated the projections recently, and there were
2 some other small changes as well.

3 MR. STEWART: Let's put up Exhibit 733, please.

4 BY MR. STEWART:

5 Q What is Exhibit 733?

6 A 733 is the ten-year projections that were prepared last
7 week.

8 Q And who prepared Exhibit 733?

9 A We did in conjunction with the other advisors and the
10 city.

11 Q What was Exhibit 733 based upon?

12 A It was the same information that we had in the prior
13 versions other than an update for the Syncora settlement as
14 well as some of the timing changes based on the updated
15 information we have.

16 MR. STEWART: Your Honor, I'd move the admission of
17 Exhibit 733.

18 MR. SOTO: No objections, your Honor.

19 MR. STEWART: Let's put up 734 if we could. Your
20 Honor, I'm never going to get this right. I mean I just give
21 up. I think you should imprison me or something. I've now
22 messed this up, I think, seven times.

23 THE COURT: It is admitted.

24 (City Exhibit 733 received at 11:45 a.m.)

25 MR. STEWART: I apologize. Let's put up --

1 BY MR. STEWART:

2 Q Exhibit 734, Mr. Malhotra, is front of you. Can you tell
3 us what is Exhibit 734?

4 A 734 is the 40-year projections that were prepared last
5 week.

6 Q And why was there an update as of last week of the 40-
7 year projections?

8 A It was to reflect the -- primarily the Syncora
9 settlement, and there were other -- some small changes from a
10 timing standpoint.

11 Q What's the relationship between the recent update for the
12 40-year projections and what we saw back in July?

13 A It's the -- essentially the same data. It's just been
14 updated for the settlement and the timing of the changes.

15 Q Do these documents also exist in native format?

16 A Yes.

17 MR. STEWART: Do we have those loaded? If not, we
18 can do it after the break.

19 BY MR. STEWART:

20 Q While we're waiting for that to happen, let me ask you
21 this. Are you familiar with something in analytics called a
22 bridge?

23 A Yes.

24 Q What is a bridge?

25 A It helps compare, in my view, the previous set of

1 projections to the current set of projections.

2 Q Did you prepare a bridge to span the change from the July
3 projections to the September projections?

4 A Yes.

5 MR. STEWART: Let's put up Exhibit -- I'm sorry.
6 Let's go to page 11 of this exhibit.

7 BY MR. STEWART:

8 Q What is page 11 of our exhibit?

9 A Page 11 shows the annual changes over the next ten years
10 and forty years of the changes that were made to the July 2nd
11 projections to the most recent projections.

12 MR. STEWART: Your Honor, I'm wondering if I
13 remembered to move into evidence Exhibit 734. I'm not sure
14 that I did.

15 MR. SOTO: Your Honor, our only point on Exhibit
16 734, the witness said there were some minor -- I think he
17 called them changes. Could he describe what it is so we can
18 find them or see them? I don't have a problem with it,
19 but --

20 MR. STEWART: I'm doing it right now.

21 MR. SOTO: Is that what you're doing? Okay. Then
22 no objection, your Honor.

23 THE COURT: All right. It is admitted.

24 (City Exhibit 734 received at 11:48 a.m.)

25 BY MR. STEWART:

1 Q All right. So let's focus, if we could, on page 11 of
2 14. Please tell us how this page connects the July forecast
3 to the September forecast.

4 A So each one of these sections are highlighting the
5 changes that have been made since the July projections, so
6 the first section is the financing changes.

7 MR. STEWART: Let's blow up that left side of this
8 so we can see those all the way down. There you go. Thank
9 you.

10 BY MR. STEWART:

11 Q So please tell us what the changes were.

12 A The first section shows the financing changes in terms of
13 the assumptions on the quality of life borrowings and amount
14 of exit financing. The next section shows the changes in
15 terms of the Syncora settlement as well as other items that
16 were related to Syncora. The next section showed the 36th
17 District Court settlement, and the fourth section showed the
18 changes in terms of the timing of when the quality of life
19 proceeds were being drawn and when the expenditures were
20 made. And there's also a slight change in the contingency
21 amount based on the new borrowing. The blight timing was
22 updated. There was amount included for a draw from the
23 state-controlled escrow as well as the professional fees were
24 updated based on the latest information we had, and the
25 overall reinvestment deferrals were also updated.

1 Q Okay.

2 MR. STEWART: Let's go back to the full view, if we
3 could, again, Tom.

4 BY MR. STEWART:

5 Q And so what do these numbers mean as they're scheduled
6 across the columns of this page?

7 A The first line shows a negative number in '15 and '16
8 which essentially represents that the city is borrowing less
9 cash. The initial assumption in July was that the city would
10 borrow \$300 million in exit financing whereas the latest
11 assumption that the -- that we are using is the city will
12 only borrow \$275 million of exit financing. The line below
13 just shows the changes in the assumptions with respect to the
14 principal and interest payments for the exit financing based
15 on the latest information we had from Miller Buckfire. The
16 POC settlements show for note C the Syncora portion of note
17 C, which is a payment of roughly \$2.4 million a year for 12
18 years. There were some nonbankruptcy settlement items, which
19 was about a \$5 million cash payment, as well as the extension
20 of a tunnel lease or foregone rent from the tunnel until a
21 period of time in which it capped out at about \$8 million.
22 We also updated for increased other fund reimbursements and
23 increased DWSD revenue stream to allocate the increased cost
24 of the Syncora settlement to DWSD and the other funds because
25 they typically have about 11-1/2 percent allocation of the

1 POCs. The 36th District Court settlement was based on what's
2 in the plan with respect to the settlement of claims. It's
3 about \$2 million over the next five years. The contingency
4 was just changed to reflect the one-percent amount based on
5 updated revenues. Quality of life proceeds, in July we had
6 still assumed that we would have borrowed 52-1/2 million in
7 2014, which we did not, so we pushed it forward to 2015.
8 Also, the timing of certain expenditures that were
9 incorporated through fiscal year '14 of 131.2 million were
10 forecasted to be made in the following year in terms of when
11 the cash is really going to go out. Blight timing in terms
12 of where the city was, instead of \$100 million expense in
13 2015, it was taken down to 80, so this reflected the \$20
14 million variance for 2015 that would subsequently get caught
15 up over the following four years. We also had now shown the
16 full draw of the available escrow proceeds. While the city
17 has to continue to reserve for some self-insurance reasons,
18 there is -- the remaining balance in the escrow proceeds was
19 assumed to be drawn. We also did on an advisor-by-advisor
20 basis analysis of the invoices that the city has been
21 receiving and updated the estimate of the professional fees
22 through the end of December 2015 based on the information we
23 had from the various professionals. And then we had -- we
24 changed some of the reinvestment deferrals so increased a
25 portion of the deferrals in '16 and '17 cumulatively between

1 2017 of about 25-plus million dollars and then caught those
2 up in the subsequent years in the forecast period, so there
3 was a timing change in terms of how the reinvestments were
4 being spread.

5 Q Let me ask about the professional fees. Those increased
6 between your July forecast and your September forecast by \$52
7 million?

8 A That is correct.

9 Q How did that happen?

10 A We asked for all the professionals to give us their
11 estimates, and we wanted to -- we included them in the
12 forecast.

13 Q And who are the professionals we're talking about whose
14 projections or invoices are combined in that line,
15 "additional professional fees"?

16 A It is a combination of the city's advisors, which
17 includes the financial and the legal advisors, as well as the
18 Retiree Committee's advisors and the other advisors the city
19 has been using in this process. It included some estimates
20 through December.

21 Q Is there a detail on this document or another document
22 that sets -- that breaks that down by advisor?

23 A Yes. We have the information by advisor. It's not -- I
24 don't think it's in this document, but we have the supporting
25 schedules that break down all of the variances.

1 Q Okay. All right. So now you've told us about --

2 THE COURT: Excuse me. Do you have that here?

3 THE WITNESS: I don't have it here, but I can get it
4 over the break, but I do have it, yes, your Honor.

5 THE COURT: Please.

6 BY MR. STEWART:

7 Q Now, you've described for us, Mr. Malhotra, this bridge,
8 and so if you take all these numbers, how do they connect the
9 two forecasts?

10 A If you take the July forecast, you incorporate these
11 changes, you will get to the September forecast.

12 Q Okay. Now, we've looked at the general fund summary
13 before. It has all sorts of lines. Why are there so few
14 lines, relatively speaking, on the bridge compared on the --
15 to the general fund summary?

16 A Because these are the only line items that changed.

17 Q Okay. Now, let's go, if we could, to page 10 of this
18 exhibit. What is page 10 of the exhibit?

19 A Page 10 of this exhibit is the 40-year bridge, which is a
20 summary view of the bridge that we were just looking at in
21 detail, and it just breaks down the financing charges
22 changes, the impact of the Syncora settlement plus some of
23 the other impacts from the nonbankruptcy changes with
24 Syncora, but it's just a summary view of what we were just
25 looking at, the detail view over 40 years.

1 Q And how does it connect the July 40-year forecast to the
2 September 40-year forecast?

3 A The detail line items would be the only changes that
4 would have been made since the July forecast.

5 Q Okay. Let's, if we could, now go to Exhibit 733. Okay.
6 And this is the ten-year; correct?

7 A That is correct.

8 Q Exhibit 109 was the ten-year forecast for the -- in July,
9 and, of course, this the one in September. What differences
10 are there in the format of these two forecasts?

11 A The September forecast on Exhibit 733 is about 113 pages.
12 The July projections for the ten-year were about 82 pages.
13 The first -- the format of the first 82 pages is essentially
14 identical, but in these projections we have included just a
15 different way of looking at the numbers, so none of the
16 numbers have essentially changed, but we recut the ten-year
17 projections as well based on input that we were receiving as
18 to a more -- a simpler view of looking at the department
19 budgets post-restructuring.

20 Q Okay. And where does that simpler view begin?

21 A It should be on page 83 of this.

22 MR. STEWART: Let's go, if we could, to page 83.

23 Back up to page 82 actually first.

24 BY MR. STEWART:

25 Q So these are Appendices E to F?

1 A Yes.

2 Q Okay. So what is it that begins on page 83?

3 A So what page 83 does is it's, again, a summary view of
4 the general fund, revenues and expenditures, in which all of
5 the restructuring revenue initiatives, restructuring expenses
6 have been flown -- have been followed through by department,
7 so this is a sum of a department view again, but unlike the
8 restructuring initiatives or expenditures or revenues being
9 broken out separately or just using the historical
10 nonrestructured legacy liabilities, what we have tried to do
11 here is to show a more simplistic view of the general fund,
12 probably a more realistic view as to how the financial
13 information will come about post-restructure.

14 Q Does this analysis have a name?

15 A It's a post-restructuring view.

16 Q Have you heard the phrase used "the mayor's view"?

17 A Yes. At times we have referred to this format and
18 another format as the mayor's view because it is a better
19 format to kind of look at the overall picture.

20 Q Did the mayor ask for it to be done this way?

21 A No, not directly. We did it.

22 Q What conversations did you have with the Court's expert,
23 Ms. Kopacz, about preparing a different view to set forth the
24 data in the way you've just described to us?

25 A I mentioned to the Court's expert that this is another

1 way that we are looking at it, you know, based on some of the
2 comments that we had also read through in the report as to
3 how to make this more user friendly since we've been looking
4 at it over the evolution for the last couple of years as to
5 how to sort of make this a much more effective document going
6 forward. I'm sure there will be some more changes to the
7 format, but this is along the lines of making it more user
8 friendly going forward.

9 Q Does this view also have department-by-department
10 breakdowns?

11 A It does.

12 Q Let's go to the one for the fire department, if we could.

13 THE COURT: Actually, before we do that, let's stop
14 now for lunch.

15 MR. STEWART: Your Honor, in three minutes I can
16 wrap up this whole section --

17 THE COURT: Oh, all right. Go for it.

18 MR. STEWART: -- because it's just one page and then
19 two questions, and then we --

20 THE COURT: Okay.

21 MR. STEWART: -- move on to something perhaps more
22 interesting.

23 MR. SOTO: I don't believe it.

24 BY MR. STEWART:

25 Q Do you have the fire department before you, Mr. Malhotra?

1 A Yes, I do.

2 Q How does this compare to the sheet we looked at earlier
3 in the other view for the fire department?

4 A It should be very similar in terms of the line items, but
5 the sales and charges for services, like, for instance, in
6 2015 would be a summation of what was in the baseline plus
7 the revenue initiatives below the line that were highlighted
8 would now be captured together.

9 Q Okay. You've heard of the -- pardon me -- the phrase
10 "harmonization"?

11 A Yes.

12 Q What is harmonization?

13 A It's syncing up essentially of two different files'
14 formats.

15 Q Okay. What role does this part of the exhibit play in
16 the process of harmonization between the forecast of Ernst &
17 Young and the budgeting process of the city?

18 A I think it's the first couple of steps because 2015 is
19 going to be a transition year for the budget department as
20 well as as we continue to look at the projections, but this
21 is along the road of trying to harmonize the budget
22 department, but like I said, there will still continue to be
23 some changes the way the budget department creates the
24 budget, but this will definitely go -- be sort of the first
25 step of that harmonization process.

1 MR. STEWART: Thank you. Your Honor, if this is a
2 good time to break, this would be an appropriate time for me,
3 too.

4 THE COURT: Okay. We'll be in recess until 1:30,
5 please.

6 THE CLERK: All rise. Court is in recess.

7 (Recess at 12:03 p.m., until 1:30 p.m.)

8 THE CLERK: All rise. Court is back in session.
9 You may be seated. Recalling Case Number 13-53846, City of
10 Detroit, Michigan.

11 THE COURT: You may proceed.

12 MR. STEWART: Thank you, your Honor. Your Honor,
13 may I approach the bench, please?

14 THE COURT: Yes.

15 MR. STEWART: And may I also approach the witness?

16 THE COURT: Yes.

17 BY MR. STEWART:

18 Q Mr. Malhotra -- for the record, Geoffrey Stewart, Jones
19 Day, for the city. Mr. Malhotra, I placed before you a
20 document marked as Exhibit 767. Could you tell the Court
21 what Exhibit 767 is?

22 A This exhibit shows the breakdown of professional fees by
23 advisor for fiscal year '14 and the estimates through fiscal
24 year '15 and then the total column for professional fees by
25 advisor and also the breakdown of the variance that we had

1 spoken about earlier.

2 Q Is this a detail of fees that you testified to before the
3 lunch break?

4 A Yes, the variance of the professional fees by advisor.
5 That is correct.

6 Q Okay. And the detail that Judge Rhodes asked you to
7 prepare and bring to Court this afternoon?

8 A That is correct.

9 MR. STEWART: Your Honor, I'd move the admission of
10 Exhibit 767.

11 THE COURT: Any objections?

12 MR. WAGNER: No objection, your Honor.

13 MR. SOTO: No objection.

14 THE COURT: It is admitted.

15 (City Exhibit 767 received at 1:32 p.m.)

16 MR. STEWART: I also wanted to go back to some other
17 exhibits we spoke of this morning and move their admission.
18 Could we first put up Exhibit 757?

19 BY MR. STEWART:

20 Q Mr. Malhotra, do you see exhibit 757 on your screen?

21 A I do.

22 Q Could you tell us what Exhibit 757 is?

23 A 757 looks like the ten-year projections. I'm just trying
24 to see which version they would be.

25 Q I'm sorry.

1 A I'm just trying to figure out which version they would
2 be.

3 Q Perhaps at the bottom there would be a time or a date
4 shown on the first page.

5 A I would be able to tell if you could please go to the e-
6 summary tab. If you scroll to the bottom right, please.
7 These appear to be the September projections of the ten
8 years.

9 Q In native format?

10 A That is correct.

11 MR. STEWART: Your Honor, I'd move the admission of
12 Exhibit 757.

13 THE COURT: Any objections?

14 MR. SOTO: No objection, your Honor. I would note
15 for the record that he couldn't tell what it was from just
16 the front page.

17 THE COURT: I noticed. Okay. 757 is admitted.

18 (City Exhibit 757 received at 1:33 p.m.)

19 MR. STEWART: Let's put up 758.

20 BY MR. STEWART:

21 Q Could you tell -- if you'd like, go to the second or
22 third page of 758. Can you tell us, Mr. Malhotra, what is
23 Exhibit 758?

24 A 758 is the post-restructuring scenario which we spoke
25 about earlier from pages 83 onwards, which is a recut of the

1 ten-year financials under a different format.

2 Q Did you prepare 758?

3 A Yes.

4 MR. STEWART: Your Honor, I'd move the admission of
5 758.

6 MR. SOTO: No objection, your Honor.

7 THE COURT: It is admitted.

8 (City Exhibit 758 received at 1:34 p.m.)

9 MR. STEWART: Let's look up 759, please, 759.

10 BY MR. STEWART:

11 Q Mr. Malhotra, do you have Exhibit 759 before you?

12 A I do.

13 Q What is Exhibit 759?

14 A 759 should be the 40-year projections and should be the
15 September version, but I can just confirm if you go to the
16 40-year tab. Yeah. I believe these are the September
17 projections.

18 MR. STEWART: Your Honor, I'd move the admission of
19 Exhibit 759.

20 MR. SOTO: No objection, your Honor.

21 THE COURT: It is admitted.

22 (City Exhibit 759 received at 1:35 p.m.)

23 THE COURT: I meant to announce at the beginning of
24 court here after lunch that the mediator did recommend
25 adjourning tomorrow's proceedings relating to the UAW claim,

1 so the Court will agree to do that. Do you have a new date
2 in mind for that?

3 MR. HERTZBERG: We hadn't discussed a date, and what
4 I suggest is let's see how it goes tomorrow, and then I can
5 talk to the other side about slotting in a date and come back
6 to you.

7 THE COURT: I do want a date.

8 MR. HERTZBERG: Okay.

9 THE COURT: I don't want to leave it open.

10 MR. HERTZBERG: I'll take good care of it, your
11 Honor.

12 THE COURT: Before you leave the lectern, Mr.
13 Hertzberg -- and I don't know if you're the right person to
14 talk to about this, but we had an inquiry this morning from
15 Mr. Flynn on behalf of the Detroit Fire Fighters Association.
16 They were also scheduled for their issues tomorrow, and he
17 was asking about whether and how that was going to proceed.
18 Is that your issue or someone else's?

19 MR. HERTZBERG: I'm not aware of that issue, your
20 Honor. Let me check over here. Your Honor, could I suggest
21 that Mr. Flynn check with Heather Lennox? And we can track
22 it down, and then we can come back and report to you.

23 THE COURT: Okay. I will do that, but I will ask
24 you to try to communicate to Ms. Lennox to reach out to Mr.
25 Flynn also.

1 MR. HERTZBERG: I will, your Honor.

2 THE COURT: All right.

3 MR. STEWART: Your Honor, I'm sorry if I jumped the
4 gun even after the lunch break, but I have a note to myself
5 now stuck on the lectern which says "wait."

6 THE COURT: Always good advice.

7 BY MR. STEWART:

8 Q So, Mr. Malhotra, let me -- let's move on to a new area.
9 You understand that the city has settled with the claims of
10 some of its creditors?

11 A Yes.

12 Q What is the extent of your knowledge of those
13 settlements?

14 A It's pretty extensive.

15 Q And do you understand the city proposes to issue
16 securities as part of some of those settlements?

17 A Yes.

18 MR. STEWART: Let's put up Exhibit 728.

19 BY MR. STEWART:

20 Q Do you see Exhibit 728 before you, Mr. Malhotra?

21 A I do.

22 Q What is Exhibit 728?

23 A Exhibit 728 highlights the new notes that are going to be
24 issued as a part of the overall restructuring in order to
25 settle the claims of various classes.

1 Q Who prepared Exhibit 728?

2 A It was our team along with the Jones Day team.

3 MR. STEWART: Your Honor, I'd move the admission of
4 728 as a demonstrative exhibit.

5 THE COURT: Any objections?

6 MR. SOTO: No objection as a demonstrative.

7 THE COURT: It is admitted.

8 (City Exhibit 728 received at 1:38 p.m.)

9 BY MR. STEWART:

10 Q Mr. Malhotra, let's go, if we could, through the exhibit,
11 and at the top there's something called restructured UTGO
12 notes. Please tell us what those are.

13 A Those are the restructured unlimited tax general
14 obligation notes that will be issued in \$288 million in face
15 value and would be paid off over 14 years at various interest
16 rates by tranche, but essentially these notes are going to be
17 paid off over the same time frame and at the same interest
18 rate as the original UTGO notes.

19 Q So what about them has been restructured?

20 A The face value and the claim amount compared to the claim
21 amount.

22 Q And do you know what the original face value of the UTGO
23 claims was?

24 A The claim amount is about 388 million.

25 Q What's the next line?

1 A New LTGO bonds.

2 Q And what are those for?

3 A Those are new limited tax general obligation bonds that
4 are being issued by the city in order to settle the LTGO --
5 settle with the LTGO class, but the city does have the option
6 to pay off the entire amount in cash at emergence.

7 Q And please tell us about the face value and other terms
8 of the new LTGO bonds.

9 A The bonds would be \$55 million in face value payable over
10 23 years at an interest rate of 5.65 percent if the city does
11 not pay the -- those notes off earlier in its entirety in
12 cash.

13 Q And who will be the holders of these new notes?

14 A They would be the LTGO bondholders.

15 Q Okay. Now, below that is something called the new B
16 notes. What are the new B notes?

17 A The new B notes are new notes that are being issued as a
18 part of the plan for reaching settlement with the classes of
19 the LTGOs, the OPEBs, as well as a portion of the COPs and
20 other unsecured creditors. They would be \$632 million of
21 notes payable over 30 years at an interest rate of four
22 percent for the first 20 years and six percent for the last
23 decade, and they're going to be interest only for the first
24 ten years.

25 Q And you told us who the holders would be of the B notes?

1 A Yes. It would be a combination of the classes for OPEB,
2 LTGOs, the COPs, notes, and the other unsecured creditors.

3 Q Now, have you heard of something called a COPs reserve?

4 A Yes.

5 Q What is the COPs reserve?

6 A The COPs reserve is the -- it's a portion of the B notes
7 that was set aside in connection with the COPs litigation.

8 MR. STEWART: Let's put up demonstrative Exhibit
9 751, please.

10 BY MR. STEWART:

11 Q Do you see Exhibit 751 before you, Mr. Malhotra?

12 A I do.

13 Q Who prepared 751?

14 A We did along with the Jones Day team.

15 Q And what does 751 purport to depict?

16 A It breaks down the overall B notes of \$632 million into
17 as to how they get allocated between the different classes.

18 MR. STEWART: I'd move the admission of
19 demonstrative Exhibit 751, your Honor, but only as a
20 demonstrative.

21 MR. SOTO: No objection, your Honor.

22 THE COURT: It is admitted.

23 (City Exhibit 751 received at 1:42 p.m.)

24 BY MR. STEWART:

25 Q Mr. Malhotra, on the left-hand side we see a pie chart;

1 correct?

2 A That is correct.

3 Q What part of the pie chart represents the COPs reserve?

4 A The \$162 million.

5 Q And then there is a segment to the right, a bar chart, I
6 guess. Why is that there?

7 A That was there to illustrate as to depending on how the
8 COPs litigation plays out, how the COPs reserve would get
9 allocated between the OPEB class, the LTGOs, and the other
10 unsecured creditors.

11 Q Now, you mentioned the COPs litigation. What are you
12 referring to?

13 A There's ongoing litigation in terms of the validity of
14 the COPs.

15 Q And does that litigation affect the -- or how, if at all,
16 does that litigation affect the COPs reserve?

17 A Well, if the litigation -- from my understanding, if the
18 litigation goes in favor of the city, the \$162 million of
19 COPs reserve would be broken out pretty much between the
20 OPEB, the LTGOs, and the other unsecured creditors for the
21 most part.

22 Q And if it goes against the city, how does it get broken
23 up?

24 A If it goes against the city, the city would be reserving
25 that \$162 million of the B notes for the COPs holders.

1 Q Okay. Let's go back to Exhibit 728 now.

2 MR. SOTO: Excuse me, your Honor. Just to clarify
3 something in that last one, is that -- if you'd go back to
4 the last one --

5 MR. STEWART: Yeah.

6 MR. SOTO: It says sixth amended plan. Is that
7 what's intended there?

8 MR. STEWART: Let me ask.

9 BY MR. STEWART:

10 Q Mr. Malhotra, this says sixth amended plan, does it not?

11 A Yes, it does.

12 Q Do you know why it says sixth amended plan?

13 A This chart did not reflect on this particular page the
14 component of the COPs reserve that gets crystallized for
15 Syncora as a part of the seventh amended plan, so that
16 portion would change to reflect the Syncora settlement.

17 Q This is how things stood before there was a Syncora
18 settlement?

19 A That is correct.

20 Q Now, if we could go back to 728. Right. We're back to
21 728, and there's a category called new C notes. What are the
22 new C notes?

23 A The new C notes are new notes that are being issued for
24 Syncora in a face value of \$21 million that would be payable
25 over 12 years at an interest rate of five percent, so it's

1 approximately \$2.4 million a year.

2 Q Is there a particular stream of revenue that is pledged
3 to service the new C notes?

4 A I don't know if there's a revenue item that's
5 particularly pledged, but it is tied into some parking, but I
6 don't know if the parking revenue is pledged.

7 Q So let's look at the balance of 728. In the lower left-
8 hand corner we have a pie chart that says face value. What
9 is that intended to reflect?

10 A That reflects all the new notes that are going to be
11 issued under the plan.

12 Q And to the right there is a bar chart that says "debt
13 service." What is debt service intended to depict here?

14 A It shows the cost of servicing the new notes that are
15 being issued over the next approximately 40 years.

16 Q Okay. So could you walk us through the bar chart and
17 show us -- the bars are segmented by color, are they not?

18 A Yes.

19 Q If you could please walk us through the chart to show us
20 how the debt service depiction works here.

21 A So the first column or the first decade really from 2014
22 to 2023, lion's share of that debt service is the UTGO bonds
23 because, as I mentioned earlier, they're getting -- going to
24 get repaid over 14 years consistent with their original
25 repayment schedule, so the yellow gets -- UTGO bonds get paid

1 off in the first decade, and then there's a sliver in the
2 second decade. The second component is the LTGO bonds, which
3 is in purple, and in the assumptions that we have in the
4 projections, the city is assuming that the \$55 million will
5 be paid off in cash at emergence versus being paid off over
6 23 years, which is why that is only in the first stack chart.
7 The third section, which is the section in orange, represents
8 the servicing of the B notes, and the reason that is smaller
9 in the first ten years compared to the next two columns is
10 because that -- the new B notes are interest only for the
11 first ten years, and the last sliver is the new C notes,
12 which are getting paid off over 12 years, which is why we
13 have the stack in the first column and a small amount in the
14 second decade.

15 Q And then starting in year 2034 and thereafter, what
16 notes, if any, are still being serviced?

17 A At '34 and onwards it's only the new B notes that are
18 being serviced.

19 Q Okay. All right.

20 MR. STEWART: Thank you. You can take that down.

21 BY MR. STEWART:

22 Q Now, I think I've asked you about settlements the city
23 has reached with creditors, and let me go through them now.

24 MR. STEWART: Let's put up Exhibit 718.

25 BY MR. STEWART:

1 Q Do you see demonstrative Exhibit 718, Mr. Malhotra?

2 A Yes, I do.

3 Q Who prepared this exhibit?

4 A We did along with the Jones Day team.

5 Q And very briefly, what is it? What does it purport to
6 depict?

7 A It shows a summary of the settlement of the Class 7
8 claims and also shows what the claims actually were.

9 Q And do I understand correctly Class 7 claims are the LTGO
10 claims, the LTGO claims?

11 A Yes.

12 Q Please walk us through this, the terms of the settlement.

13 A So as a part of the settlement, the LTGO class is going
14 to get new LTGO bonds.

15 Q Actually, stop.

16 MR. STEWART: Your Honor, I move into evidence as a
17 demonstrative exhibit Exhibit 718.

18 MR. SOTO: No objection, your Honor.

19 BY MR. STEWART:

20 Q Sorry I interrupted you, Mr. Malhotra.

21 THE COURT: It is admitted.

22 (City Exhibit 718 received at 1:49 p.m.)

23 BY MR. STEWART:

24 Q Now, could you walk us through Exhibit 718?

25 A Yes. The settlement on -- with Class 7 is essentially to

1 settle the claims of the LTGO bondholders on the series that
2 are listed here. As a part of the settlement, the class is
3 going to get new LTGO bonds in the amount of \$55 million. In
4 addition, as a part of the settlement with Syncora, there is
5 a portion of the COPs reserve that now -- that was initially
6 being attributable to the LTGO notes that gets crystallized
7 and is given, and the LTGO class is given new B notes. So
8 essentially it's \$55 million of new LTGO bonds and \$4.2
9 million of B notes assuming a Syncora settlement in exchange
10 for \$164 million of claims. The interest is 5.65 percent on
11 the new LTGO bonds, and it is four to six percent on the B
12 notes, as I mentioned earlier, with a maturity of 23 years
13 for the new LTGO bonds and 30 years on the B notes. However,
14 the city is going to in its current assumptions pay the \$55
15 million with the exit financing in settlement of the new --
16 with the LTGO class.

17 Q Now, in the lower right-hand corner is a circle that says
18 "recovery illustrative." Could you tell me what that is?

19 A That shows under a five-percent discount rate what sort
20 of recovery is generated in the -- as a part of the
21 settlement against the claims of Class 7.

22 MR. STEWART: Let's put up Exhibit 719, please.

23 BY MR. STEWART:

24 Q Mr. Malhotra, do you see Exhibit 719 before you?

25 A Yes, I do.

1 Q Who prepared Exhibit 719?

2 A We did with the Jones Day team.

3 Q What does this represent?

4 A This represents the settlement with Class 8, the
5 unlimited tax GO bonds claims in which the existing claim is
6 being restructured as new -- as restructured UTGO bonds.

7 Q Let me stop you there so I can move the admission of our
8 exhibit.

9 MR. STEWART: Your Honor, I'd move the admission of
10 Exhibit 719 as a demonstrative exhibit.

11 MR. SOTO: No objection, your Honor, as a
12 demonstrative.

13 MR. WAGNER: No objection.

14 THE COURT: It is admitted.

15 (City Exhibit 719 received at 1:52 p.m.)

16 BY MR. STEWART:

17 Q Please continue, Mr. Malhotra.

18 A The face value of the new notes is -- of the new
19 restructured UTGO bonds is going to be \$288 million, and the
20 interest rate and the maturity of the these bonds will be the
21 same as it was as the original UTGO bonds. They will be paid
22 over the course of approximately 14 years consistent with the
23 way they were being scheduled to be paid off earlier, and
24 there is a portion of stub UTGO bonds that is reinstated, but
25 that's not a part of the settlement, but the overall

1 settlement of the UTGO bonds is the \$288 million.

2 Q What happens to the stub UTGO bonds that have been
3 reinstated?

4 A The stub UTGO bonds that are reinstated are broken down
5 into two components. They, too, will be being paid
6 consistent with the collections from the UTGO tax millage.
7 The 20 million of those bonds will be paid into the income
8 stabilization fund, and approximately \$23 million will be
9 paid into the General Retirement System.

10 Q What is the income stabilization fund?

11 A It's a fund that has been established to assist those
12 retirees whose pension does get cut and who are below certain
13 income threshold levels in order to provide assistance to get
14 their income back to either the level it was pre-cut or back
15 to a threshold level.

16 Q Now, once again, in the lower right-hand corner we have a
17 circle speaking of recoveries. What is that?

18 A That shows the illustrative recovery using a five-percent
19 discount rate.

20 Q And what is the recovery?

21 A Seventy-four percent.

22 Q Seventy-four percent of what?

23 A Of their claim.

24 MR. STEWART: Let's put up 737 now.

25 BY MR. STEWART:

1 Q Mr. Malhotra, you have Exhibit 737 before you. Who
2 prepared this exhibit?

3 A We did along with the input from the Jones Day team.

4 Q And what does it represent?

5 A It represents the settlement with Syncora of Class -- of
6 part of Class 9.

7 MR. STEWART: Your Honor, I would move the admission
8 of Exhibit 737 as a demonstrative exhibit.

9 MR. SOTO: No objection, your Honor.

10 THE COURT: It is admitted.

11 (City Exhibit 737 received at 1:55 p.m.)

12 BY MR. STEWART:

13 Q If you could, Mr. Malhotra, please walk us through
14 Exhibit 737 and what it depicts.

15 A It shows that the settlement with Syncora is -- in
16 exchange for their claim is going to be -- take the form of
17 new B notes in the amount of \$23-1/2 million, which would
18 essentially be coming out of the COPs reserve and at an
19 interest rate of four to six percent and payable over 30
20 years consistent with the overall B notes. In addition,
21 Syncora will be getting new C notes in the face value of
22 \$21.3 million at a five-percent interest rate payable over 12
23 years. In addition, Syncora will also receive as a part of
24 the bankruptcy settlement credits in the nominal amount of
25 \$6.3 million.

1 Q Credits to do what?

2 A My understanding is it's credits that can be used in
3 terms of purchases of real estate down the road.

4 Q Okay. And then what's the illustrative recovery for
5 Syncora?

6 A The illustrative recovery including the \$6.3 million of
7 credits, assuming those are at par, was 13 percent.

8 Q Okay. Now, you had mentioned that when it came to the B
9 notes, the 23.5 million came from the COPs reserve.

10 A That is correct.

11 MR. STEWART: Let's put up, if we could, Exhibit
12 727.

13 BY MR. STEWART:

14 Q Could you tell me, first of all, what is Exhibit 727?

15 A 727 shows the breakdown of the new B note -- of the B
16 notes of \$632 million and who the holders of those B notes
17 will be.

18 Q Okay. Now, in the pie chart on the left a segment has
19 been pulled out. What does that segment represent?

20 A On the left that segment represents the original COPs
21 reserve is the one that is in brackets.

22 Q Okay. And then the -- that's the COPs reserve, but it's
23 been subdivided now. Can you tell me why it has been
24 subdivided?

25 A It's been subdivided because there's a portion of the

1 COPS -- original COPS reserve in the amount of \$24 million
2 that's going to now become B notes for Syncora. That
3 remainder of the COPS reserve that was initially reserved for
4 Syncora in the amount of \$15 million is now split between the
5 OPEB and LTGO classes, so the \$15 million is broken down
6 between OPEB and LTGOs. Syncora gets its \$24 million, and
7 \$123 million remains in the COPS reserve.

8 Q How does this splitting of the \$15 million differ from
9 the original allocation of the COPS reserve among OPEB, LTGO
10 and the other unsecured creditors?

11 A I believe it is higher. The split of the \$15 million is
12 higher in favor of the OPEB and the LTGOs compared to the
13 previous split.

14 Q Now, the purple segment of our chart says 123 million.
15 What does that represent?

16 A That represents the remaining COPS reserve.

17 Q And who are the claimants, to your understanding, on the
18 remaining part of the COPS reserve?

19 A My understanding is it's in litigation, and it's with
20 FGIC.

21 Q So FGIC seeks it, but if FGIC doesn't get it, it goes to
22 these other people?

23 A That is my understanding.

24 Q Now, before we move from Class 9, let's go back, by the
25 way, to -- let's just leave it here. You understand, do you

1 not, that under the plan FGIC is also put into Class 9?

2 A That is correct.

3 Q What is the status, if any, to your knowledge, to the
4 extent you're free to disclose it, of FGIC's possible
5 settlement with the city?

6 A My understanding from reading the seventh plan is that
7 FGIC has an option to opt into a similar settlement as or the
8 same settlement as Syncora, but I don't know all the details.

9 Q If FGIC did opt in, what would the effect be on the COPs
10 reserve?

11 A If they were to opt in under the same structure, a
12 portion of that \$123 million would get allocated to FGIC, and
13 the remaining portion at a certain percentage would -- my
14 guess is get allocated between the unsecureds, the LTGOs --

15 MR. SOTO: Objection, your Honor. I don't think
16 he's here to guess.

17 MR. STEWART: Okay. We can move on. That's fine.
18 Let's put up Exhibit 720.

19 BY MR. STEWART:

20 Q Do you see Exhibit 720?

21 A I do.

22 Q What is Exhibit 720?

23 A 720 shows the settlement with the -- with Class 12, the
24 OPEB claims.

25 Q And who prepared 720?

1 A We did with the Jones Day team.

2 MR. STEWART: Your Honor, I'd move the admission of
3 Exhibit 720 as a demonstrative exhibit.

4 MR. SOTO: No objection.

5 THE COURT: It is admitted.

6 (City Exhibit 720 received at 2:01 p.m.)

7 BY MR. STEWART:

8 Q Please describe for us, Mr. Malhotra, what is set forth
9 in Exhibit 720.

10 A On Exhibit 720 shows the settlement with the -- with
11 Class 12, and it shows that the original claim of four
12 point -- in exchange for the original claim of \$4.303
13 billion, which represented the OPEB claim pursuant to the
14 settlement, the settlement is going to be \$450 million of B
15 notes contributed to GRS and PFRS VEBAs in total and also as
16 a -- pursuant to the Syncora settlement, \$11 million of
17 additional B notes that would be coming out of the COPs
18 reserve.

19 Q So let me stop you there. What is a VEBA?

20 A It's a voluntary employee beneficiary association trust.

21 Q And what does a VEBA do?

22 A It's supposed to go forward, manage the benefit plans for
23 the retirees or the employees that it is set up for.

24 Q And do I understand correctly all of the value going to
25 Class 12 is in B notes?

1 A That is correct. There are some other start-up costs,
2 but the value that is going to the VEBA trust is in the form
3 of B notes.

4 Q Now, on the amount line, we have on the right-hand side
5 the 11.0 million. Tell us where those B notes come from.

6 A They come from the original COPs reserve -- from the
7 original COPs reserve, from the portion that was left behind
8 after the Syncora settlement.

9 Q And is that consistent with the exhibit we looked at a
10 minute ago that showed how it was broken up?

11 A Yes. That's the breakdown of the \$15 million.

12 Q Please let's go to the line about interest. Tell us,
13 please, what is the interest relating to the B notes?

14 A It is four percent for the first two decades and six
15 percent for the last decade.

16 Q And maturity?

17 A It's 30 years.

18 Q And under "other" you have a few items. Please tell us
19 what those are.

20 A That shows certain start-up costs that are also going --
21 are benefitting the VEBA, which is \$8 million from the rate
22 stabilization fund and approximately \$3-1/2 million from
23 charitable contributions as well as advance of the October
24 2015 interest on the excess B notes to be advanced earlier.

25 Q Why were these start-up costs added as part of the

1 settlement with Class 12?

2 A It's a part of the settlement to essentially get the
3 VEBAs going.

4 Q Okay. And what's the recovery of Class 12 as you
5 calculated it?

6 A Ten percent.

7 MR. STEWART: And we can take that down. Actually,
8 no. Before you take it down -- sorry about that -- put up
9 721 or take that down and put up 721.

10 BY MR. STEWART:

11 Q What is Exhibit 721, Mr. Malhotra?

12 A 721 shows the nominal dollars and as a percentage of
13 general fund revenue, the comparison of both costs and
14 percentage both post-restructuring and before restructuring
15 in terms of what the trends were over the next 20 years.

16 Q Who prepared Exhibit 721?

17 A We did.

18 MR. STEWART: Your Honor, I'd move the admission of
19 Exhibit 721 as a demonstrative exhibit.

20 MR. SOTO: No objection as a demonstrative.

21 THE COURT: It is admitted.

22 (City Exhibit 721 received at 2:05 p.m.)

23 BY MR. STEWART:

24 Q Mr. Malhotra, let's focus on 721. There are two
25 different sets of bars and two different sets of lines.

1 First of all, if you could tell us what the bars represent in
2 the exhibit.

3 A The pink or orange bars that are on that chart represent
4 the projected payments on retiree healthcare obligations for
5 the existing retirees and forthcoming retirees over a 20-year
6 period.

7 Q Where did these projections come from?

8 A We got the inflation assumptions with respect to retiree
9 healthcare from Milliman, and we used the count of retirees
10 that we had.

11 Q All right. So the top bars, they show what for each
12 year?

13 A Show what the retiree healthcare payments would have been
14 absent a restructuring.

15 Q Okay. And then below that we have a line. What does
16 that line represent?

17 A The line represents what those payments for retiree
18 healthcare are as a percentage of general fund revenue as to
19 how it was going to continue to increase over the next 20
20 years.

21 Q So, for example, what would the number be for 2026 as a
22 percentage of general fund revenue absent restructuring?

23 A It would show that absent the restructuring the retiree
24 healthcare as a percentage of general fund revenue would
25 approximately be 23 percent, so 23 cents of every dollar

1 would be used to fund retiree healthcare.

2 Q So now let's look at the lower part of the chart. First
3 of all, explain to us what the bars mean. I guess they're
4 light blue.

5 A The light blue represents the portion of the B note that
6 is the city's obligation going forward in terms of this class
7 is going to be -- is shown in the blue chart. In addition,
8 we have added the ongoing potential cost of retiree
9 healthcare for active employees that will be retiring in the
10 future to ensure we can do an apples to apples comparison.

11 Q Why is the number higher in 2015 than it is in 2016?

12 A Because the existing run rate that the city is on for
13 fiscal year '15 was slightly higher than January 1, 2015,
14 when the city transitions to the new VEBA plans.

15 Q Why does it rise as it does in 2026?

16 A That's because that's when the city starts servicing the
17 principal on the B note, and we wanted to make sure that we
18 can show that it's not just the first ten years where it was
19 more of an interest only comparison but going forward 2026
20 onwards once we -- once the city is servicing the principal
21 on the B notes, what that delta still is.

22 Q Explain for us, if you would, the -- looks like a green
23 line across the bottom of the chart.

24 A It shows the retiree healthcare costs as a percentage of
25 revenue, general fund revenue.

1 Q So as a result of the settlement with the OPEB class, how
2 have the city -- how has the city's exposure to OPEB cost
3 changed?

4 A The city, as a part of the settlement, is not exposed to
5 OPEB costs any longer other than for the commitments that the
6 city is making to provide an amount -- a nominal amount for
7 its active employees and what their retiree healthcare plans
8 would be or their healthcare contribution would be, but in
9 terms of the city's obligations for its existing retirees,
10 the city's obligations are limited to it servicing the B
11 notes.

12 MR. STEWART: Let's put up Exhibit 722.

13 BY MR. STEWART:

14 Q Could you please tell us what is Exhibit 722?

15 A It is a settlement with Class 17 claims for the 36th
16 District Court.

17 Q And who prepared Exhibit 722?

18 A It was the Jones Day team primarily with some input from
19 us as well.

20 MR. STEWART: Your Honor, I would move the admission
21 of 722 as a demonstrative exhibit.

22 MR. SOTO: No objection.

23 MR. WAGNER: No objection.

24 THE COURT: It is admitted.

25 (City Exhibit 722 received at 2:10 p.m.)

1 BY MR. STEWART:

2 Q Please describe to us, if you could, Mr. Malhotra, the
3 settlement with Class 17 as set forth in our exhibit.

4 A It shows that as a part of the settlement in the claims
5 that were approximately \$6 million for those claims that are
6 less than \$100,000, 33 percent of the claim would be paid in
7 cash at emergence, and for those individual claims that
8 are -- or those claims that are greater than \$100,000 each,
9 33 percent of the claims would be payable in five equal
10 annual installments at -- and there's a simple interest rate
11 of five percent.

12 Q And what's the illustrative recovery of Class 17?

13 A Thirty-three percent.

14 Q I don't know if I remembered to ask you what the
15 illustrative recovery was of Class 12.

16 A Ten percent.

17 Q Do you remember what that was? How much?

18 A Ten percent.

19 Q Ten percent. Okay

20 MR. STEWART: We can take that down.

21 BY MR. STEWART:

22 Q Let me move to ask you about something else. Among other
23 things, what occasion did you have to look at the city's
24 pension liabilities?

25 A We've looked at the city's pension liabilities,

1 especially over the course of the last year, last 18 months.
2 Q Let's go back to Exhibit 33 and, in particular, to page
3 91. I believe we looked at this page before today. This is,
4 Mr. Malhotra, a page from the proposal to creditors of June
5 of last year that you talked about earlier. What analysis
6 had you done as of that time of the city's exposure to
7 pension liabilities?

8 A At that point in time, the main work that was done with
9 respect to the pension liabilities was under a variety of
10 assumptions like the changes in the rate of investment return
11 or the amortization period of the unfunded liability, what
12 the city's required contributions would be over the next ten
13 years.

14 Q And what had you found that those contributions would be
15 in 2023 as matters stood back in June of 2013?

16 A Based on the assumptions that were being used for the
17 preparation of this report, the pension contributions were
18 going to be close to \$3 billion under the assumptions that
19 were being used for this report.

20 Q So has the city reached a settlement with the Retirement
21 Systems?

22 A Yes.

23 MR. STEWART: And just for the record, let's put up
24 Exhibit 723. Maybe that will be simpler.

25 BY MR. STEWART:

1 Q Do you see Exhibit 723, Mr. Malhotra?

2 A I do.

3 Q What is this?

4 A It shows the key items of the settlement with GRS and
5 PFRS as a part of the plan of adjustment.

6 Q Okay. And just for the record, could you tell us what
7 are GRS and PFRS?

8 A The General Retirement System and the Police and Fire
9 Retirement System.

10 Q Do you know off the top of your head what class each is
11 in?

12 A Class 10 and 11.

13 Q Now, tell us --

14 MR. STEWART: Your Honor, if I could, I would move
15 the admission of Exhibit 723 as a demonstrative exhibit.

16 MR. SOTO: No objection, your Honor.

17 MR. WAGNER: Yeah. No objection as a demonstrative.

18 THE COURT: It is admitted.

19 (City Exhibit 723 received at 2:14 p.m.)

20 BY MR. STEWART:

21 Q Mr. Malhotra, could you explain to us what is set forth
22 on Exhibit 723?

23 A Yes. It shows the components of some of the changes
24 between what the assumptions were and what the funding status
25 was of the -- each of the pension plans compared to where

1 they are as a part of the plan of adjustment.

2 Q Okay. Let's start at the top. There's something called
3 an assumed rate of return. Please tell us how that has
4 changed.

5 A That has changed from 7.9 percent for GRS and eight
6 percent for PFRS to 6.75 percent for GRS and PFRS, which is
7 fixed for the next -- through 2023.

8 Q And do you know how the rate of 6.75 percent was derived?

9 A It was a part of the settlement.

10 Q Below that is UAAL?

11 A That's right.

12 Q First of all, what is UAAL?

13 A That's the unfunded actuarial accrued liability.

14 Q And please describe to us what this part of the
15 demonstrative shows.

16 A It shows that the pre-petition UAAL for GRS and PFRS was
17 about 1.879 billion and 1.25 billion respectively, so
18 collectively roughly about \$3.1 billion, and as of June 2013
19 and as a part of the plan of adjustment, the June 2014 UAAL
20 is 894 million for GRS and 553 million for PFRS.

21 Q And then underneath that it says "Target." How did those
22 targets come to be calculated?

23 A Those were calculated overall as the UAAL that would be
24 remaining based on the targeted funding percentage status, so
25 70 percent for GRS and 78 percent for PFRS.

1 Q And that takes us to the next line, which is funding
2 status. What does the term "funding status" mean?

3 A Funding status means the overall comparison of the assets
4 in the plan to the liabilities in the plan.

5 Q And what -- tell us -- walk us through what the funding
6 status percentages were and what they are projected to
7 become.

8 A They were 53 and 71 percent, and the target is by 2053 to
9 have these plans fully funded.

10 Q Do you know what the funding percentage is today?

11 A I believe it's pretty close to the target as of 2023, but
12 that's what I believe it is.

13 Q Do you know why today's funding status is so close to the
14 target in 2023?

15 A Well, the assets have returned better, so the assets have
16 done better than what -- so the funding status has improved
17 since June of 2013.

18 Q Do you know of a term called "defunding" as it applies to
19 retirement systems?

20 A I have a general understanding.

21 Q What, if anything, is going on with these retirement
22 systems in terms of defunding in the coming years?

23 A In the coming years, from the information that I have
24 seen, there's going to be ongoing defunding of these plans
25 based on the contributions that are going in relative to the

1 assets that are coming out of the pension systems.

2 Q And do you know why that is?

3 A It's the nature of the demographics and the profiles of
4 the plan.

5 Q Our next line says "POA liability reduction." Could you
6 tell us what that's -- what that describes?

7 A That describes some of the changes that have taken place
8 as a part of the overall plan of adjustment in each one of
9 the plans.

10 Q Okay. So what does "plan freeze" mean?

11 A It means that there's no more accrual of benefits under
12 these plans, so they are frozen, which has an impact of
13 reducing the liability of the plans.

14 Q And then there's a reference to monthly pension
15 reduction.

16 A Yes.

17 Q Can you tell us what that is?

18 A In GRS that's a 4-1/2 percent cut in the actual pension
19 checks that are going out, and there's no change in that
20 under PFRS, which also has an impact from a liability
21 reduction standpoint as a part of the plan of adjustment.

22 Q Okay. And then there is a reference to COLA. Is that
23 cost of living allowance?

24 A Yes.

25 Q What has happened to the cost of living allowance?

1 A It has been eliminated for GRS, and it has been reduced
2 by 55 percent for PFRS.

3 Q And then finally it's -- there's something called an ASF
4 recoupment. What is that?

5 A That is basically some of the excess interest that was
6 earned that is being transferred back into the General
7 Retirement System in the neighborhood of \$200 million.

8 Q Then at the bottom we have the segment entitled "Future
9 Contributions." Please tell us what those are and, more
10 importantly, how you calculated them.

11 A Those contributions through 2023 are 719 million and 261
12 million, and the majority of that funding is coming through
13 either the contributions through the grand bargain or from
14 the DWSD contributions, and beyond 2024 to 2053, that shows
15 the contributions required to amortize the UAAL at the end of
16 2023 as to what the cost would be assuming a 6.75-percent
17 interest rate. And majority of those contributions, though,
18 would be paid by the general fund, although there will still
19 be some portion through 2024 in that decade from external
20 funding.

21 Q And so the total of future contributions turns out to be
22 what?

23 A Through 2023 it is just shy of a billion dollars, and
24 then from 2024 to 2053, the nominal dollars over that time
25 frame are roughly \$2-1/2 billion, \$2.8 billion.

1 Q And so the total at the very bottom of the contributions
2 the city is facing turns out to be what?

3 A Just about \$3.8 billion.

4 MR. STEWART: So let's put up Exhibit 732.

5 THE COURT: Excuse me. Before we leave this one --

6 MR. STEWART: Sorry.

7 THE COURT: Thank you. What does the phrase we see
8 here, "equivalent to 8.8-percent reduction in liability,"
9 mean?

10 THE WITNESS: Your Honor, it means that as a part of
11 the overall changes from the ASF recoupment, the actual GRS
12 liability has been reduced by approximately \$200 million.

13 THE COURT: What is 8.8 percent? What is that a
14 percent of?

15 THE WITNESS: It would be a percentage of the actual
16 total accrued liability, your Honor, versus just the UAAL.
17 It would be the accrued liability in its entirety.

18 THE COURT: Does the plan commit the city to make
19 the payments in your section of the chart here called "Future
20 Contributions"?

21 THE WITNESS: Those contributions are assumed in the
22 plan, your Honor, and the city --

23 THE COURT: They are what?

24 THE WITNESS: They are assumed to be made in the
25 plan, your Honor, so the city is in the projections making

1 those payments beyond 2024 into the pension systems in the
2 plan.

3 THE COURT: My question was a slightly different
4 one. Does the plan commit the city, legally commit the city
5 to make those payments?

6 THE WITNESS: My understanding is the city is
7 committed to fund the unfunded liability. I just don't
8 know -- the city and the Retirement Systems have to decide
9 what the amortization methodology is of the UAAL at the
10 end -- at the end of year ten, and the city is committed to
11 fund that underfunded liability. Depending on what
12 amortization schedule gets picked, the payments can change
13 slightly because of the interest rate, but my understanding
14 is the city is committed to make the payments beyond 2024
15 into those pension systems.

16 THE COURT: Do you know the answer to my question?

17 MR. STEWART: Your Honor, I confess that I do not.

18 THE COURT: Anybody know the answer to my question?

19 MR. CULLEN: The answer is yes, your Honor.

20 THE COURT: All right. Thank you.

21 BY MR. STEWART:

22 Q Let me ask this. How would the change in amortization
23 after 2024 affect the contribution level?

24 A It depends on the amortization methodology. What we have
25 used in the projections is a straight line principle in which

1 the city is making higher payments in the first decade, and
2 over the course of the 30 years it makes lower payments going
3 forward. You can change the amortization methodology to make
4 it like a level payment over 30 years in which the city will
5 have lower payments in the first, say, ten years, but over
6 the course of the 30 years the city will end up paying more
7 because it has to pay more interest, so it's more on the
8 methodology aspect as to how that liability gets serviced.

9 MR. STEWART: Can we now put up Exhibit 732?

10 BY MR. STEWART:

11 Q Mr. Malhotra, what is Exhibit 732?

12 A 732 shows the pension contributions for the General
13 Retirement System and the Police and Fire Retirement System
14 over the first ten years and the sources of the funding.

15 Q And who prepared Exhibit 732?

16 A We did.

17 MR. STEWART: Your Honor, I would move the admission
18 of Exhibit 732 as a demonstrative exhibit.

19 MR. SOTO: No objection.

20 MR. WAGNER: Same.

21 THE COURT: It is admitted.

22 (City Exhibit 732 received at 2:25 p.m.)

23 BY MR. STEWART:

24 Q Mr. Malhotra, please explain to us what is depicted in
25 Exhibit 732.

1 A 732 for the General Retirement System shows that the
2 total contributions going into the retirement -- General
3 Retirement System are 719 million through 2023. \$428.5
4 million of that is coming through DWSD. \$31.7 million in
5 nominal dollars is coming through UTGOs, which are really the
6 stub UTGOs. \$98.8 million is coming from the state
7 settlement. \$45 million is coming from DIA, and the
8 remaining 114.6 million is coming from the general/other
9 funds, which is reimbursement from other funds. Of that
10 114.6 approximately \$90 million is general fund dollars.

11 Q Nine zero?

12 A That's right, about 90 million. That's right.

13 Q Why is such a large segment of the GRS side of this
14 coming from the DWSD?

15 A It's a part of the overall pension settlement in terms of
16 the required dollars for the -- for GRS.

17 Q Okay. Now, to the right we have another pie chart;
18 correct?

19 A Yes.

20 Q Why is it smaller than the one on the left?

21 A It's smaller because the overall contributions to the
22 police and fire system are 261 million compared to the 719
23 million on the left side. And one thing I would just
24 clarify, the DWSD contributions -- sorry -- are coming in
25 over nine years because they're fully repaying their unfunded

1 liability over a much shorter time frame, so I just wanted to
2 clarify that as well.

3 Q Let's go back and deal with it before we go to the PFRS.
4 You're saying that the 428.5 million is from the DWSD;
5 correct?

6 A That is correct.

7 Q What does that represent with respect to the DWSD?

8 A It represents DWSD paying its UAAL that exists today but
9 paying it over the course of the next nine years in its
10 entirety in addition to some professional fees and admin
11 expenses that are being allocated for to DWSD, but they're
12 essentially paying their UAAL at a much faster rate compared
13 to the rest of the General Retirement System.

14 Q How does one know how much of the UAAL for the GRS is
15 attributable to the DWSD as opposed to attributable to
16 everybody else?

17 Q It's given to us by Milliman.

18 Q By the actuaries?

19 A That is correct.

20 Q Then you mentioned the nine years. Tell me, once again,
21 why they're paying it in nine years instead of some other
22 period of time.

23 A They're paying it over nine years as a part of an overall
24 settlement because in aggregate the total dollars that are
25 coming from DWSD are still significantly lower than what DWSD

1 would have been responsible for outside of a restructuring.

2 Q Now let's go back to the PFRS, and I believe there are
3 two sources of payment there. Please describe those to us.

4 A The blue chart represents the -- the blue part of the pie
5 chart represents the money that is going to come in from the
6 foundations into PFRS over the first ten years and -- through
7 2023, and \$96 million is coming in from the state.

8 Q All right. Now, the contributions you've talked about,
9 are any of those the result of something known as the grand
10 bargain?

11 A Yes.

12 Q What is the grand bargain?

13 A The grand bargain in terms of the financial elements that
14 are -- the contributions that are coming into the city,
15 there's approximately \$366 million of contributions that are
16 supposed to come in from the foundations over a 20-year time
17 frame and nominal dollars -- excuse me -- approximately \$100
18 million from DIA in nominal dollars over 20 years and from
19 the state approximately \$194.8 million that are coming in up
20 front, which is their share of \$350 million at a present
21 value.

22 MR. STEWART: Let me ask to put up Exhibit 724.

23 BY MR. STEWART:

24 Q Do you have Exhibit 724 before you?

25 A I do.

1 Q Is that a summary of the terms of the grand bargain?

2 A Yes.

3 Q Who prepared this?

4 A Jones Day team along with our input.

5 MR. STEWART: Your Honor, I'd move the admission for
6 demonstrative purposes alone of Exhibit 724.

7 MR. SOTO: No objection, your Honor.

8 MR. WAGNER: No objection.

9 THE COURT: It is admitted.

10 (City Exhibit 724 received at 2:31 p.m.)

11 BY MR. STEWART:

12 Q Mr. Malhotra, I probably should have put this up before I
13 asked you the question I asked a minute ago, but could you
14 walk us through what the economic terms are for the grand
15 bargain?

16 A Yes. The state contribution agreement is -- provides for
17 \$194.8 million in cash, which is equal to the PV of \$350
18 million over 20 years at a 6.75-percent discount rate.

19 Q What does PV mean?

20 A Present value.

21 Q And why is there -- and that's at a discount rate of 6.75
22 percent?

23 A That's correct.

24 Q Where did that discount rate come from?

25 A The state was using the same discount rate that the

1 pension systems are using.

2 Q Okay. And why was the period of 20 years chosen?

3 A The general parameters of the contributions coming in for
4 the grand bargain was over 20 years.

5 Q So the state contribution, how much in dollars is it
6 going to end up being?

7 A I'm sorry.

8 Q How much will the state contribution end up being in
9 actual dollars?

10 A The present value dollars are \$194.8 million, which would
11 be dollars much earlier, versus \$350 million over 20 years.

12 Q Do you know when it is the state is going to make that
13 payment?

14 A I do not know the exact date. It's, of course, tied to
15 the effective date of the plan. I do not know the exact
16 date.

17 Q Let me ask a different way. Do you know what the state
18 will do versus making a single payment versus spreading the
19 payment out over a period of time?

20 A The state is planning to make a single payment.

21 Q And then going further we have the income stabilization
22 payments. Can you tell me what those are?

23 A Those are the payments that are going into the income
24 stabilization fund that are being paid through the stub
25 UTGOs, so this would be no less than \$20 million over 14

1 years in which the city continues to collect its UTGO taxes
2 per the millage, and a portion of that money is going to be
3 paid into the income stabilization fund.

4 Q Why is that not shown on your table here?

5 A That is basically money that's coming -- it's not new
6 money that's coming from the state. This is UTGO collections
7 that are going to be set aside, and it's just a part of the
8 overall state settlement in terms of the state also
9 contributing the 194.8 million is to ensure that this 20
10 million will be available for the income stabilization fund
11 that will be funded through the collection of UTGO taxes.

12 Q Please describe to us then the economic elements of the
13 DIA settlement.

14 A The foundations are required to contribute \$366 million
15 of nominal amount over 20 years, and the DIA is required to
16 contribute \$100 million in nominal dollars over 20 years.

17 Q And how does the grand bargain then affect the city's
18 unfunded actuarial accrued liabilities?

19 A It definitely will help reduce it or at least reduces the
20 city's requirement of funding those contributions.

21 Q Now, let me ask you --

22 MR. STEWART: Set's put up Exhibit 732, please.

23 BY MR. STEWART:

24 Q What is -- I believe we looked at 732 a minute ago, and
25 I'd ask you about the portion of this that's coming from the

1 DWSD, and that's the \$428.5 million; correct?

2 A That is correct.

3 Q Have you performed a calculation of the overall economic
4 effect on the DWSD of the city's plan of adjustment?

5 A Yes.

6 MR. STEWART: Let's put up Exhibit 201.

7 THE COURT: Excuse me. Before we do that, can we go
8 back to the screen that was up and now the one before this
9 one and back to the next one, please? Am I missing
10 something, or is the pie chart on the left for the General
11 Retirement System not showing the foundations' contribution?

12 THE WITNESS: Your Honor, this chart represents the
13 first ten years only, so the foundations' money that's coming
14 into the General Retirement Systems is coming in the second
15 decade, and so it's --

16 THE COURT: Okay.

17 THE WITNESS: -- a timing issue.

18 THE COURT: Okay. Thank you.

19 BY MR. STEWART:

20 Q Mr. Malhotra, I have Exhibit 201 on the screen, and we've
21 been able to blow it up. I realize this can be hard to read.
22 That's why it's in the binders, and it may be easier for
23 some --

24 THE COURT: I can read it. Thank you.

25 MR. STEWART: -- to look at in hard copy.

1 BY MR. STEWART:

2 Q Please tell us, if you could, Mr. Malhotra, first of all,
3 who prepared Exhibit 201.

4 A This was a schedule we had prepared some time ago.

5 Q And what is it a schedule of?

6 A It was -- it's a schedule that shows the pension payments
7 under the plan of adjustment and the OPEB payments under the
8 plan of adjustment for DWSD as compared to those under no
9 restructuring scenario.

10 Q Okay. So let me, if I could, ask you about it. At the
11 top -- and this was based on an Excel spreadsheet, I assume?

12 A That is correct.

13 Q Let's look at the top. The top segment says POA, and
14 what does that part of our exhibit discuss?

15 A The pension payments and the professional fees and the
16 pension administration costs that are assumed to come in from
17 DWSD as a part of the plan of adjustment.

18 Q And what period of time is covered by the POA segment of
19 Exhibit 201?

20 A It went through 40 years.

21 Q Okay. Now, we, first of all, have pension payments at
22 the top. What are those?

23 A Those are the payments that are coming in from DWSD over
24 the next nine years in terms of DWSD fully funding its UAAL
25 over the next nine years.

1 Q And then professional fees, what is that for?

2 A Professional fees is the allocation to DWSD of the total
3 professional fees that were projected at that point of time
4 for DWSD to get its pro rata share.

5 Q Would that be higher today?

6 A Yes.

7 Q Do you know how much higher it would be today?

8 A It would probably be seven or eight -- could be seven or
9 \$8 million higher.

10 Q What's the next line?

11 A Pension administration, administrative costs.

12 Q Okay. And what are those?

13 A Those are admin costs related to the General Retirement
14 System and DWSD's allocation.

15 Q Below that?

16 A That represents the OPEB for current retirees, so the
17 allocation of the B note to DWSD for its pro rata -- on the
18 basis of its pro rata share.

19 Q And that would be going forward as long as there are B
20 notes out there?

21 A Yes.

22 Q What's POC a reference to?

23 A Similar in terms of an allocation to DWSD of the B notes
24 or the reserve in some fashion to what would be allocated to
25 DWSD.

1 Q Has that changed recently?

2 A We have -- well, this schedule does not reflect the
3 Syncora settlement.

4 Q What would the effect of the Syncora settlement be on
5 this line?

6 A It would go up slightly.

7 Q How much?

8 A Probably a hundred or \$200,000 per year.

9 Q What does the reference to swaps mean?

10 A That's a part of the overall swaps settlement and a
11 portion that could be allocated to DWSD.

12 Q Okay. So let's go back so we can see the full view. As
13 a result of this, you have something called total DWSD legacy
14 payments. What does that represent?

15 A The total DWSD legacy payments represents the summation
16 of the subtotal up above -- that's the subtotal DWSD legacy
17 payments -- plus what DWSD could theoretically be paying --
18 or could be paying for its pension and OPEB obligations for
19 its current active employees.

20 Q And what is the assumption this part of the exhibit is
21 based on?

22 A The assumption is that DWSD, similar to the rest of the
23 general nonuniform employees, will be contributing
24 approximately 5.75 percent with respect to the pension for
25 active employees and on the future retirees would be paying

1 two percent of payroll.

2 Q So this segment shows what the effect would be on DWSD
3 under the plan. Do I understand that correctly?

4 A That is correct.

5 Q So let's go down to no restructuring. And before getting
6 into any numbers, what do you mean by "no restructuring"?

7 A No restructuring -- when we developed the schedule, it
8 was meant to reflect what DWSD's obligations were going to be
9 had none of the OPEB or POC obligations or swap obligations
10 been settled or restructured, and with respect to the pension
11 payment, given the fact that there are multiple scenarios,
12 all we did is we took the Gabriel, Roeder report and saw what
13 the 2015 pension payment was attributable to DWSD and kept
14 that flat.

15 Q So let's go look at the full view. You have a line,
16 "Total DWSD Legacy Payments," and so what does that
17 represent?

18 A That represents what the DWSD legacy payments would be
19 absent a restructuring and assuming these very conservative
20 pension payments.

21 Q And at the bottom we have "Savings/Additional Cost."
22 What are those calculations intended to depict?

23 A What they were intended to do was to show how much
24 savings are being generated as a part of the restructuring
25 that benefit DWSD.

1 Q And let's go back to the full view, and what did you
2 determine in terms of the overall economic effect on DWSD of
3 the plan as it exists -- proposed, I should say, today? Go
4 ahead.

5 A We saw that the total additional -- the total savings for
6 2015 to 2023 just on a conservative basis would be
7 approximately \$172.8 million -- could be higher than that --
8 just for those nine years, and then DWSD continued to benefit
9 from these savings going into the next two decades partly
10 because, of course, they have assumed to pay their pension
11 faster, but, more importantly, there's significant savings in
12 the OPEB costs for DWSD as a part of this plan of adjustment.

13 MR. STEWART: Your Honor, I would like to move
14 Exhibit 201 into evidence.

15 MR. SOTO: No objection, your Honor.

16 MR. WAGNER: Same.

17 THE COURT: It is admitted.

18 (City Exhibit 201 received at 2:44 p.m.)

19 BY MR. STEWART:

20 Q Let me ask you -- let's go, if we could, now to Exhibit
21 734 again and to page 3 of 14. Could you tell us,
22 Mr. Malhotra, what page 3 of 14 of Exhibit 734 sets forth?

23 A It sets forth per the September projections under the
24 assumptions in there -- the first section on top is -- first
25 section over the next ten years by different creditor

1 classes, what distributions are going to be in nominal
2 dollars for those classes and the source of that funding over
3 the next ten years, and that same has been repeated down
4 below for 40 years along with recovery calculations using a
5 five-percent discount rate.

6 Q So this is a table; correct?

7 A That's correct.

8 MR. STEWART: If we can, let's blow up the top part
9 and the left side of the top part so we can all see it more
10 legibly. That's fine. Good. All right.

11 BY MR. STEWART:

12 Q And so we have for the ten-year the various settlements
13 that we've talked about; correct?

14 A That's correct.

15 Q All right. Then walk us through this table and show how
16 you've scheduled out these various settlements.

17 A So for Class 7, which is the limited tax general
18 obligation bonds, those are assumed to get paid \$55 million
19 in full upon the effective date, so -- or right around the
20 effective date, so there is no interest that is being paid on
21 that. In addition, they're getting a portion of the B notes
22 as well.

23 Q Without going through each of these, tell us how this
24 table correlates to the settlements you described to us
25 earlier when we went through the various demonstratives.

1 A They're the same.

2 Q Okay. And it shows the amount of the claim and then what
3 the claimant is getting; correct?

4 A That's right. And this table reflects the cash over the
5 first ten years, and the table below it showed over forty.

6 Q So let's go to the 40-year now. Why, by the way, has it
7 been necessary to extend this table out to 40 years instead
8 of just stopping at 10?

9 A Because the commitments that the city is making in terms
10 of its B notes as well as its pension obligation commitments
11 at the end of ten years go nearly forty years, and that's the
12 reason we've developed a forty-year forecast.

13 Q So let's now focus on the right side of the part that we
14 have -- we've expanded here, and tell us, if you could, what
15 that depicts.

16 A The right side shows the nominal dollars that are getting
17 paid in the first column over the 40-year time frame and the
18 present value calculation assuming a five-percent discount
19 rate for all of these classes.

20 Q And then you have percentages there. Well, first of all,
21 let me ask this. Why do we -- the middle column is PV for
22 present value; correct?

23 A That is correct.

24 Q Why have you reduced these to present value?

25 A Because these are getting paid over a period of time to

1 reflect what the value today is assuming a five-percent
2 discount rate.

3 Q Okay. And then you have a percentage column. Tell us
4 again what that stands for.

5 A It stands for the percentage of the present value divided
6 by the claim.

7 Q And if we just look from the creditor line over to the
8 percentage line, that will tell us what each class is getting
9 as a percentage is. Have I read that correctly?

10 A That is correct.

11 Q So let's go now on the same exhibit to page 7. You can
12 just leave it like that for now. So I want to recap with you
13 where we've been in your testimony, Mr. Malhotra. As we look
14 at our page, have we now gone over all the elements of
15 revenues and expenditures for the city?

16 A On this page 7, we have gone through all of the revenues
17 and operating expenditures, but the settlements or the
18 payments are shown on the following page.

19 Q You're getting ahead of me. I wanted to go to the very
20 bottom line on this page and have you describe for me what
21 that represents.

22 A That represents the funds available for unsecured claims.

23 Q When you say "funds available for unsecured claims," what
24 are you referring to?

25 A It refers to the amount of cash the city will have

1 available to meet its unsecured -- to meet its obligations as
2 proposed under the plan of adjustment under these assumptions
3 going forward.

4 Q So let's now go to the next page, which would be eight of
5 fourteen. Now, eight of fourteen has a line called
6 "Sources." Do you see that?

7 A Yes.

8 Q And what do you mean when you use the word or you refer
9 to sources?

10 A An inflow of cash.

11 Q And what's the relation between what we just looked at,
12 which is funds available for unsecured claims, and where we
13 begin on page 8 with sources?

14 A It should be the same amount. It's carrying forward from
15 the previous page.

16 Q So that's the first line?

17 A That is correct.

18 Q Okay. Show us the additional sources then that we have
19 in the coming years as set forth on this page of our exhibit.

20 A Those are shown below in terms of the amounts that are
21 coming from DWSD for its pension obligations, its OPEB
22 obligations and POC, which both are essentially their pro
23 rata share of B note payments, some of the reimbursements
24 from other funds that include library and parking, the
25 funding from the grand bargain, which includes the

1 foundations, the DIA, and the state settlement, to come up
2 with the total sources that are going to be available for
3 making distributions.

4 Q And my eyes aren't as good as they once were, but it
5 appears to be 1664.5 as the total sources for the ten-year
6 period or the period that will end in 2023?

7 A That's correct.

8 Q So now let's go to uses, if we could. What do you mean,
9 first of all, by the phrase "uses"?

10 A An outflow of cash.

11 Q Okay. So let's go through them. Tell us what the top
12 part of uses is.

13 A The top part is the PFRS and GRS pension contributions
14 that are going to be made over the next ten years in
15 aggregate, some PFRS and GRS OPEB payments for current
16 retirees.

17 Q So we have a subtotal for retiree distributions; correct?

18 A That's correct.

19 MR. STEWART: Let's go back to the full view so we
20 can see what that adds up to if we can just expand that on
21 the right-hand side.

22 BY MR. STEWART:

23 Q That comes up to how much?

24 A Just shy of a billion dollars.

25 Q And below that we have "note and cash payments." Are we

1 on the same part of the document?

2 MR. STEWART: Actually, what you just had. Put that
3 back up. Thanks. There we go.

4 BY MR. STEWART:

5 Q What notes are we talking about here?

6 A The same notes we went through earlier, UTGOs, LTGOs, the
7 B notes, and the C notes.

8 Q And what do they add up to as uses during this period?

9 A \$620 million.

10 Q Okay. And then so we add up the uses, and what do they
11 aggregate to?

12 A Just north of a billion six, 1.61 billion.

13 Q Okay.

14 MR. STEWART: So let's now go back to the full view
15 again. I'm sorry to go back and forth this way.

16 BY MR. STEWART:

17 Q So we then have a line that says surplus or deficit. Do
18 you see that?

19 A Yes.

20 Q And where does that number come from?

21 A It's just the delta between the total sources and the
22 total uses.

23 Q Okay. And below that we have ending cash balance.

24 A That's correct.

25 MR. STEWART: Let's go back to the full view again.

1 BY MR. STEWART:

2 Q And the ending cash balance is going -- is projected to
3 be how much as of the end of 2015?

4 A The end of 2015 the ending cash balance is projected to
5 be 75.6 million.

6 Q Now, in the years after 2015, how much does that number
7 change?

8 A Not much. It only goes up to \$80 million.

9 Q Do you know why it is the ending cash balance remains the
10 way it is over the period of these years?

11 A That's because under these assumptions, the city is
12 distributing what it is collecting from an overall
13 perspective.

14 Q Has the city -- what policy decision, if any, has the
15 city made with respect to the cash balance it intends to keep
16 on hand in the coming ten years?

17 A Well, the assumption that's used in here is a two month
18 of payroll and benefits minimum cash balance or at the same
19 time to at least hold five percent of -- excuse me -- five
20 percent of the following year's budgeted expenditures to --
21 for the city to have that in cash at the end of the previous
22 fiscal year.

23 Q And although we didn't focus on it, fair to say that if
24 we looked at the previous page, we'd see an entry for
25 contingency there?

1 A Yes.

2 Q And why don't we go to the previous page and look at it
3 briefly at the bottom left? What is that a reference to?

4 A That is a contingency for unforeseen items of either a
5 revenue reduction or an increase in an expense, and we've
6 assumed a one percent of revenue contingency throughout this
7 forecast period.

8 Q Let's go then to the following page one more time and
9 look at the cash. Are you aware of recent legislation in
10 Michigan that would require the city to maintain reserves of
11 five percent of expenses?

12 A Yes.

13 Q And where is that reflected in your analysis?

14 A Our assumption is that in the ending cash balance of the
15 75 or \$80 million at the end of any fiscal year the city
16 should still have -- will still have at least five percent of
17 its following year's budgeted expenditures reserved in that
18 cash number, so it's basically at least a minimum cash
19 threshold over the forecast period.

20 Q Now, you've reviewed with us for some period of time
21 today the model that you prepared and the settlements and so
22 on. What does this analysis tell us in terms of the city's
23 ability in the coming years to satisfy its operating
24 expenses?

25 A Based on these assumptions, the city should be able to

1 satisfy its operating expenses.

2 Q What does this analysis say in the coming years about the
3 city's ability to pay its obligations under the plan?

4 A Based on the assumptions in this forecast, the city
5 should have the ability to pay its obligations as scheduled
6 in these distributions.

7 Q And, finally, what does this analysis say in terms of the
8 city's ability to maintain a cash reserve in the coming
9 years?

10 A Based on these assumptions, the city should be able to
11 maintain a cash balance consistent with these assumptions.

12 Q Let's go now to page 4 of this --

13 THE COURT: Excuse me. Before we leave this page,
14 is the five-percent contingency that the law requires
15 reflected here in the line called "Ending Cash Balance"? Is
16 that your testimony?

17 THE WITNESS: Yes, your Honor. That's the way we
18 are anticipating it, that these are June 30th, so these are
19 fiscal year-end cash balances, and so the city should at
20 least have five percent of the following year's expenditures,
21 which are roughly approximately a billion dollars. So the
22 city should at least have at any given point of time five
23 percent of those budgeted expenditures in its cash balance.

24 BY MR. STEWART:

25 Q Let me ask one thing about timing. Is it the case that

1 the city's revenue receipts are not steady month to month
2 over the course of the year?

3 A That is correct.

4 Q What is the time during the year when the cash on hand
5 typically is at its lowest?

6 A Typically it is at the end of the fiscal year before the
7 summer taxes start flowing in.

8 Q Sorry. Summer taxes?

9 A Sorry. Summer property taxes start coming into the city
10 in the July, August time frame, so end of the fiscal year
11 generally is a low point in terms of the city's cash balance.

12 Q Let's, if we could, then go to page --

13 THE COURT: All right. Before we move on, let's go
14 ahead and take our afternoon recess at this time, and we'll
15 reconvene at 3:15, please.

16 THE CLERK: All rise. Court is in recess.

17 (Recess at 3:00 p.m., until 3:17 p.m.)

18 THE CLERK: All rise. Court is back in session.
19 You may be seated.

20 MR. HERTZBERG: Your Honor, Robert Hertzberg. We
21 are trying to track down who Mr. Flynn is, and we're not
22 aware of what it is. We're going to check with Mr. Legghio
23 and Ms. Patek, but unless the Court has any other
24 information, we're struggling right now on it.

25 THE COURT: The only additional information I can

1 share with you is that he called my office today asking what
2 the consequences would be for tomorrow's hearing if he
3 withdrew his joinder in the DPOA objections, and, of course,
4 we were not able to answer that question, so --

5 MR. HERTZBERG: So it sounds like he --

6 THE COURT: -- we suggested that he reach out, you
7 know, to you all to try to work it out, whatever you could do
8 in terms of answering that question.

9 MR. HERTZBERG: It sounds like maybe he filed an
10 objection, he wants withdrawal, because we looked on the pro
11 se list also in the -- a scheduling order, and his name was
12 not in there.

13 THE COURT: No.

14 MR. HERTZBERG: Okay.

15 THE COURT: I mean --

16 MR. HERTZBERG: We'll keep trying to track it down,
17 though.

18 THE COURT: Let me ask you -- maybe the most
19 efficient way to get your question answered is for you to
20 talk to my assistant, Chris, directly --

21 MR. HERTZBERG: Okay.

22 THE COURT: -- you know, here in the next few
23 minutes, and she might be able to fill you in a little bit
24 better.

25 MR. HERTZBERG: Okay. Thank you, your Honor.

1 THE COURT: Okay.

2 MR. STEWART: Your Honor, one -- I think I neglected
3 to move into evidence demonstrative Exhibit 727, which I
4 would move into evidence now. Maybe we should put it up so
5 that others can see the document we're talking about. And I
6 would move it into evidence as a demonstrative exhibit.

7 THE COURT: Any objections?

8 MR. WAGNER: No.

9 MR. SOTO: No, your Honor.

10 THE COURT: All right. It is admitted.

11 (City Exhibit 727 received at 3:19 p.m.)

12 BY MR. STEWART:

13 Q So if we could, let's now go to page 4 of Exhibit 734.
14 Mr. Malhotra, do you have page 4 of Exhibit 734 in front of
15 you?

16 A I do.

17 Q And is this a sources and uses for the 40-year period?

18 A Yes.

19 Q And what does it have -- and the first column is for the
20 first ten years; correct?

21 A That is correct.

22 Q But then there are three more columns. Tell us, if you
23 could, what those three columns are intended to represent.

24 A They represent the revenue and expenditures over the next
25 three decades.

1 Q Now, where, if at all, here do the city's obligations
2 under the plan appear under the 30 years that begin in 2024?

3 A They are not included in here on this particular page.

4 Q Okay. Is there a page -- let's go to the next page then.
5 We've been looking at the sources page; correct?

6 A That is correct.

7 Q Let's go to the next page, page 5. And, first of all,
8 the top line, is that the carry-over from the previous page?

9 A That is correct.

10 Q And then further down, where does it appear what the
11 city's ongoing obligations will be under the plan if the plan
12 were confirmed?

13 A Under the uses.

14 Q Okay. Where in particular should we be looking?

15 A Under the uses you would see under the retiree payments
16 the PFRS and GRS payments extending all the way into 40 years
17 to reflect the amortization of the UAAL over the time frame,
18 and it shows that the second decade payments are higher, of
19 course, compared to the following two decades, and then
20 further down below it shows the obligations of the city under
21 the new notes, so it's the UTGOs, the LTGOs, the B notes, and
22 the payments on the C notes as well over the forecast period.

23 Q What is your analysis -- so this is the analysis for the
24 40-year period; correct?

25 A Yes. Under these assumptions, yes.

1 Q What does your analysis indicate in terms of the city's
2 ability in the coming 40 years to pay its operating expenses?

3 A Based on the assumptions that are included here, I
4 believe the city should be able to have the resources to make
5 its obligations.

6 Q And what does it indicate in terms of the city's ability
7 in that time frame to pay its obligations under the plan?

8 A Based on the assumptions that are included in these set
9 of projections, it shows that the city should be able to meet
10 its obligations.

11 Q And, finally, what does it indicate in terms of the
12 city's ability to retain a sufficient cash balance over those
13 40 years after having met its other obligations?

14 A So it shows under these obligations the city will have
15 \$80 million of cash and up to 160 -- \$160 million of cash at
16 the end of 2053, so the city is always maintaining a minimum
17 cash balance.

18 Q Now, under these two forecasts, you have included C
19 notes; correct?

20 A That is correct.

21 Q Now, have you -- what C notes have you included in these
22 two forecasts?

23 A The C notes related to Syncora.

24 Q Now, how would this change, if at all, if FGIC chose to
25 opt into a settlement like the Syncora settlement?

1 A Using the same assumptions as the Syncora settlement, the
2 cost of FGIC opting in is somewhere between 85 and \$90
3 million over a 12-year time frame, so we would have to look
4 at the assumptions with respect to the costs, the
5 reinvestment expenses to ascertain -- and certain policy
6 decisions that will have to be made by the leadership team of
7 the city to ascertain the appropriate way of handling a FGIC
8 settlement -- potential FGIC opt-in.

9 Q If they opted in. Okay. Let's go, if we could, to
10 Exhibit 614. Let me ask a background question or two. Who
11 prepared Exhibit 614?

12 A We did.

13 Q And what does it purport to set forth?

14 A It shows the COPs balances under the three components,
15 those COPs that had a fixed rate interest rate, those COPs
16 that had a variable interest rate through -- due 2029, and
17 those portion of the COPs that had a variable interest rate
18 and they were due in 2034.

19 MR. STEWART: Your Honor, I would move the admission
20 of Exhibit 614 as a set of calculations.

21 THE COURT: Any objections?

22 MR. SOTO: No, your Honor.

23 THE COURT: It is admitted.

24 (City Exhibit 614 received at 3:25 p.m.)

25 BY MR. STEWART:

1 Q Can you tell me why you prepared Exhibit 614?

2 A It was at the request of counsel.

3 Q Counsel being who?

4 A Mr. Bruce Bennett.

5 Q And let's go through the calculations, if we could. Tell
6 us, first of all, at the highest level what these
7 calculations purport to be calculating?

8 A The first three sections just calculate the total
9 principal and interest payments that would be due under these
10 three sets of COPs that were outstanding and with the LIBOR
11 assumptions over the forecast period that were provided to us
12 based on the spread that exists under the existing
13 agreements.

14 Q Let me stop you there. The upper left-hand corner it
15 says "fixed rate." Is that referring to any particular part
16 of the COPs?

17 A The fixed interest rate, yes.

18 Q Okay. What part of the COPs does variable rate 2029
19 refer to?

20 A The ones with the outstanding balance of 299.2 million.

21 Q Okay.

22 A Those ones had a variable interest rate.

23 Q And what part of the COPs does the entry "variable rate
24 2034" refer to?

25 A The COPs had about \$500.8 million of principal that was

1 outstanding that had a variable interest rate component.

2 Q And then there's a reference here to LIBOR in different
3 ways. First of all, what is LIBOR?

4 A It's the London Interbank Offered Rate.

5 Q Why is it relevant here?

6 A It's a forward looking interest rate curve or more like
7 an index that is used often.

8 Q Okay. And as a result of doing the analysis that you did
9 on these three issues of COPs, what did you calculate?

10 A We calculated what the payments would be. We got the
11 LIBOR forward forecast from Miller Buckfire, and we did the
12 calculation as to what the payments of interest and principal
13 would be on these COPs in the three different tranches that
14 we were looking at.

15 Q And where does that -- where does the sum of that appear
16 on Exhibit 614?

17 A Under the total payment section.

18 Q I see. And is that the bold number we see as the sum
19 there that starts with 39.7?

20 A Yes.

21 Q And were those added up to some overall amount at some
22 point?

23 A Yes.

24 Q Where is the sum of all those?

25 A In the total payments.

1 Q Okay. If we looked at the lower right, would there be a
2 number that sums up all the total payments?

3 A It doesn't appear to be the case.

4 Q Okay. So once you had calculated the total payments,
5 what did you next do?

6 A We were asked to discount those payments at a 6.75-
7 percent discount rate.

8 Q Why a 6.75 discount rate?

9 A That was what was given to us by counsel.

10 Q And did you do that?

11 A Yes.

12 Q And what was the result of your calculation?

13 A It showed that based on that payment stream, if you were
14 to discount it at 6.75 percent, it would equate to a sum of
15 about a billion one.

16 Q And is that what is shown in the lower left-hand
17 corner --

18 A Yes.

19 Q -- of the exhibit?

20 MR. WAGNER: Your Honor, just --

21 BY MR. STEWART:

22 Q Right now --

23 MR. WAGNER: I'm sorry. Just before we leave the
24 document, it does have a notation, which is very hard to
25 read, and you can't see it on the screen, "Privileged and

1 confidential settlement communication in court-ordered
2 mediation, not to be presented to or admitted into evidence
3 in any action or proceeding." I mean it's just numbers, so
4 maybe we don't have an objection to it, but that shouldn't be
5 taken as any sort of waiver that the mediation -- that
6 documents covered by the mediation order can be selectively
7 produced and shown to witnesses.

8 THE COURT: Okay. Thank you.

9 BY MR. STEWART:

10 Q If we could now go to Exhibit 742, what is Exhibit 742?

11 A 742 shows the present value at 6.75 percent of the
12 payments to the Retirement Systems for a 40-year period.

13 Q And who calculated the numbers we see on Exhibit 742?

14 A We calculated the payments based on the 6.75-percent
15 discount rate.

16 Q And why did you do that?

17 A At the request of counsel.

18 Q And who was the counsel who requested that of you?

19 A Bruce Bennett.

20 Q Let's put up --

21 MR. STEWART: Your Honor, I would move into evidence
22 Exhibit 742 as a demonstrative exhibit.

23 MR. SOTO: No objection, your Honor.

24 MR. WAGNER: Same.

25 THE COURT: It is admitted.

1 (City Exhibit 742 received at 3:30 p.m.)

2 MR. STEWART: Let's put up briefly Exhibit 749, and
3 we'll come back to this.

4 BY MR. STEWART:

5 Q What is Exhibit 749?

6 A 749 shows --

7 Q First of all, who prepared Exhibit 749?

8 A We did.

9 Q Okay. And why did you prepare it?

10 A The top part of 749, which shows the GRS and PFRS, was
11 the backup for the contributions by source that are going
12 into GRS and PFRS respectively. The section at the bottom
13 starting at Row 42 we added at the request of counsel to
14 present value those contributions at a 6.75-percent discount
15 rate.

16 MR. STEWART: Your Honor, I'd move into evidence
17 Exhibit 749.

18 MR. SOTO: No objection, your Honor.

19 MR. WAGNER: Same.

20 THE COURT: It is admitted.

21 (City Exhibit 749 received at 3:31 p.m.)

22 BY MR. STEWART:

23 Q Let's now go back to 742. Tell me, if you could,
24 Mr. Malhotra, what Exhibit 742 discloses to us. What does it
25 describe?

1 A It describes the total payments that are going into the
2 pension systems by various source over the course of the next
3 40 years,, what the present value of those contributions
4 would be at 6.75-percent discount rate.

5 Q And what did you determine that that present value would
6 be?

7 A As this chart shows, it would be about \$976 million for
8 GRS and about 608 million for PFRS.

9 Q Thank you.

10 MR. STEWART: We can take that down.

11 BY MR. STEWART:

12 Q Let's, if we could, go to Exhibit 733 and, in particular,
13 to page 6 of our document, of this exhibit. Can you tell me,
14 Mr. Malhotra, what is page 6 of Exhibit 733?

15 A Page 6 is the ten-year projections under a pre-
16 restructuring or sort of a no bankruptcy scenario.

17 Q Is this the baseline scenario you disclosed to us
18 earlier?

19 A Yes.

20 Q And what was the date on which you prepared page 6 of
21 Exhibit 733?

22 MR. SOTO: What exhibit is that?

23 MR. STEWART: 733.

24 MR. SOTO: Thank you.

25 THE WITNESS: It was slightly updated in September,

1 but most of the schedule has generally remained intact other
2 than some changes, but I would have updated it in September
3 consistent with the rest of the projections.

4 BY MR. STEWART:

5 Q All right. And the page we have before us, tell us just
6 in very general terms what it sets forth.

7 A It shows that under a no restructuring scenario, the
8 city's revenues over the next ten years were forecasted to be
9 approximately 10.4 billion, operating expenditures in total
10 of about 7.4 billion, so an operating surplus of roughly
11 three billion and legacy liabilities of the original debt and
12 UTGO debt service, POC principal and interest, the POC swaps
13 had the settlement not been made, the pension contributions
14 based on the assumptions that were being used from the June
15 13th proposal and the health benefits for the retirees, the
16 legacy expenditures were roughly seven billion, so resulting
17 in a deficit of approximately four billion over the next ten
18 years.

19 Q And then this below that talks about reinvestment in the
20 city?

21 A That's correct.

22 Q What's that a reference to?

23 A That refers to the latest reinvestment forecast, which
24 was a net 876 million.

25 Q Okay. So let's go to the next page, please. What does

1 the next page cover?

2 A It just covers the restructuring scenario and what the
3 funds available for unsecured claims were.

4 Q Now, so page 6 is the baseline, and page 7 is the
5 restructuring; is that right?

6 A Yes. Page 7 lays out a restructuring of the amounts
7 available for unsecured claims.

8 Q Okay. And in terms of the plan of adjustment, what does
9 page 7 describe? Let me ask a different question. Fair to
10 say page 7 is the representation of what would happen if the
11 plan were confirmed?

12 A That is correct. Under these assumptions, these would be
13 the funds that would then get allocated to the various
14 creditors if the plan were confirmed.

15 Q And what does page 6 represent today?

16 A Page 6 would represent what would happen if there was no
17 bankruptcy or if the city was just continuing as though
18 nothing had happened.

19 Q Have you heard of something called a dismissal analysis?

20 MR. SOTO: Objection, your Honor.

21 MR. STEWART: I think I'm allowed to ask him if he's
22 heard of it.

23 MR. SOTO: Well, I don't want to have another one of
24 these where we waived it.

25 THE COURT: What is the objection, sir?

1 MR. SOTO: In his expert report and during his
2 deposition Mr. Malhotra did not offer us -- he offered no
3 opinions regarding a dismissal analysis, exactly none. He
4 was specifically asked, as the city's Rule 30(b)(6) witness,
5 if he had prepared a dismissal analysis, and his answer was a
6 very clear, no, I had not, because he had not been asked to.
7 And what the city is about to try to do is to try to backfill
8 on the fact that this witness did not prepare a dismissal
9 analysis by asking him if he can prepare one or if the
10 baseline could be arguably one. When he answered his
11 questions at deposition and when he gave his expert report,
12 the baseline already existed, and yet he knew and he
13 testified and he admitted on behalf of the city that he had
14 not prepared a dismissal analysis. And it would be highly
15 prejudicial at this point to allow the city to try to turn
16 Mr. Malhotra into something that he already admitted he was
17 not.

18 MR. STEWART: The question was, "Have you heard" --

19 THE COURT: Excuse me one second.

20 MR. WAGNER: We join the objection, very eloquently
21 stated.

22 THE COURT: You, too?

23 MS. O'GORMAN: Yes.

24 MR. STEWART: The question was has he heard of
25 something called a dismissal analysis.

1 THE COURT: True enough, and normally I would deal
2 with objections on a question-by-question basis, but where
3 are you going with this?

4 MR. STEWART: I'm going to ask him how this is
5 different from a dismissal analysis.

6 THE COURT: How what is different?

7 MR. STEWART: This document is different.

8 THE COURT: What's the purpose of asking that?

9 MR. STEWART: It would be a foundation to something
10 else, but it would also be useful so that we could see what
11 we do have versus what we do not have.

12 MR. SOTO: Your Honor, this --

13 THE COURT: Is that just another way of saying you
14 want to use this as your dismissal analysis?

15 MR. STEWART: No. It's what it is. I, frankly,
16 don't think it's very far from one, but I'm not saying it is
17 a dismissal analysis. On the other hand, I think it's very
18 probative of other issues in the case.

19 THE COURT: What other issues?

20 MR. STEWART: Well, it's probative of what the
21 legacy liabilities look like if the case is dismissed. It's
22 probative of what the city's cash flows look like if the case
23 is dismissed. It's probative of all those things. The
24 question he was asked is did he do a dismissal analysis, and
25 he said he did not. Fair point. They didn't ask further

1 questions than that, but I don't think that should handcuff
2 him to talk about the things that he did do.

3 THE COURT: Well, but wasn't the city asked to
4 provide whatever -- well, wasn't the city asked to provide
5 whatever testimony it was going to provide about a dismissal
6 analysis, and isn't this that testimony?

7 MR. STEWART: It is not that testimony. He was
8 asked about dismissal analysis. He was not asked to prepare
9 one and so on. This, though, as Mr. Soto correctly says, has
10 been in the record one way or the other for over a year. He
11 was questioned about this at no small length, and he did
12 testify about this, so there's no surprise as to this
13 document. In fact, as we remember, this is something we
14 first saw in June of 2013, so I don't believe that. If the
15 objection instead is, well, this isn't called a dismissal
16 analysis, and you're not offering it as such, I'll say that's
17 certainly true, but on the other hand, I don't think it is an
18 absolutely irrelevant exercise that he went through, and I
19 think certain of the things that are shown here as a result
20 of the meticulous modeling we have been through all too much
21 today are improbative or not probative of anything. And I
22 would add, finally, much of this would even go to weight and
23 could be dealt with on cross-examination.

24 MR. SOTO: Your Honor, if I can respond when you
25 feel it's necessary.

1 THE COURT: It feels to me like the relevance that
2 you offer for this is a dismissal analysis, although you deny
3 that, so I'm going to sustain the objection.

4 MR. STEWART: Okay. Let me then ask a few
5 questions, and I will wrap up.

6 BY MR. STEWART:

7 Q What does -- what do these two pages of Exhibit 733 set
8 forth?

9 A Page 6 shows the baseline scenario or pre-restructuring
10 scenario, and page 7 -- which basically shows the deficit,
11 and page 7 shows the post-restructuring scenario and the
12 funds available for unsecured claims.

13 Q Did you discuss this with any of the other advisors to
14 the city?

15 A Yes. These pages have been in our -- in the ten-year
16 projections, and so they've been discussed with all the other
17 advisors.

18 Q What did you say, if anything, to Mr. Buckfire about it?

19 A Page 6 and 7 have been a package, so what we've talked
20 about at length is the cost of the legacy liabilities and the
21 projection of the legacy liabilities of the city.

22 Q What discussions, if any, have you had with Mr. Orr about
23 your baseline analysis?

24 A It was similar in terms of the assumptions behind the
25 projections and the cost of the legacy liabilities for the

1 city.

2 Q Thank you.

3 MR. STEWART: Your Honor, one last thing. I'm not
4 sure I moved Exhibit 742 into evidence, so if I failed to do
5 so, I would move it in now. If you could put that up --

6 THE COURT: Any objections?

7 MR. SOTO: No objection, your Honor.

8 MR. WAGER: As a demonstrative, that's fine.

9 MR. STEWART: As a demonstrative. That's right.

10 THE COURT: All right. It is admitted.

11 (City Exhibit 742 received at 3:42 p.m.)

12 MR. STEWART: Thank you. Your Honor, that is all I
13 have with Mr. Malhotra.

14 MR. SOTO: Your Honor, not to impose on the Court,
15 but if the Court wouldn't mind if I could turn the podium a
16 little.

17 THE COURT: Fine.

18 MR. SOTO: Okay. Thanks.

19 THE COURT: Yep.

20 CROSS-EXAMINATION

21 BY MR. SOTO:

22 Q Mr. Malhotra, I had a neck operation, and I'm not
23 supposed to turn to the right. That's why I'm --
24 Mr. Malhotra, we haven't met, and my name is Ed Soto. I have
25 a few questions on some of the exhibits that you just went

1 over. And I think I'll hit those first, and then we'll go to
2 some questions I have about your expert opinions and your
3 prior testimony. All right. So, first of all, if I could
4 ask you to take a look at Exhibit 728. I just had a question
5 about your testimony on that.

6 MR. SOTO: And if we could put up Exhibit 728 --

7 BY MR. SOTO:

8 Q So looking at Exhibit 728, under the column of interest
9 where it says -- so on the first line where it says
10 "restructured UTG notes," and it goes to interest, various,
11 3.7 to 5.375, you see that?

12 A Yes.

13 Q Okay. So as to that interest rate, in calculating it,
14 did you take into account whether or not the UTG notes were
15 taxable or nontaxable?

16 A No, because those interest rates are the same as they
17 were on the original UTGO bonds.

18 Q Okay. And going down to the --

19 THE COURT: Excuse me one second. I want to nip
20 this issue in the bud. I want you just to answer the
21 question. Do you see how you didn't just answer the last
22 question? It was, "Did you take into account the tax,"
23 whatever. You said, "No, because." Please just answer the
24 question. We'll be here, I think, much less time.

25 BY MR. SOTO:

1 Q And then again with respect to the new LTGO bonds where
2 you have a 5.65 percent, do you know whether the underlying
3 obligations of those LTGO bonds are taxable or nontaxable?

4 A No.

5 Q You don't know?

6 A I don't know.

7 Q And then again with respect to the new B notes where it's
8 four percent and four percent and six percent, do you know if
9 the obligations reflected under those notes are taxable or
10 untaxable?

11 A I do not.

12 Q And then again with respect to the new C notes where it
13 was five percent, do you know if the obligations reflected by
14 the new C notes are taxable or untaxable?

15 A No, I do not.

16 Q And with respect to the restructured UTGO notes, do you
17 know if those obligations are taxable or untaxable?

18 A I do not.

19 Q All right.

20 MR. SOTO: If you could put up 737. That's my next
21 slide I had a question on.

22 BY MR. SOTO:

23 Q So looking at -- I think it's -- yeah, 737, what discount
24 rate did you use to determine the value of the B notes?

25 A We used five percent.

1 Q Five percent? Okay. And what discount rate did you use
2 to determine the value of the C notes?

3 A We used a five-percent discount rate to calculate the
4 present value.

5 Q And how did you value the settlement credits of -- I
6 think it's 6.3 million?

7 A In the 13 percent, they were included at the value of 6.3
8 million.

9 Q That's it?

10 A Yes.

11 Q Did you value the extension of the tunnel lease in
12 connection with this exhibit?

13 A No.

14 Q Did you value what Syncora got under the development
15 agreement in connection with this exhibit?

16 A No.

17 Q Did you value any other consideration received by Syncora
18 like the \$5 million in cash in arriving at this exhibit?

19 A No.

20 Q So if I could -- this is so hard to read, but Exhibit
21 614 -- on Exhibit 614, if the city intends to reject the
22 service contracts, did you calculate the rejection damages in
23 connection with your preparation of this exhibit?

24 A There were no rejection damages that were a part of this
25 exhibit.

1 Q All right. Let's change gears just a second. It's true,
2 isn't it, that in your view the biggest source of untapped
3 revenue for the City of Detroit is asset sales; correct?

4 A Yes. That is a primary -- that was a primary
5 opportunity, yes.

6 Q And it's also true that other cities all over the country
7 have privatized assets, and by that I mean they've taken
8 public assets and sold them and, therefore, made them
9 private; correct?

10 A They've entered P3 partnerships, yes.

11 Q But in all of your projections that we just went through,
12 you didn't consider the impact of the sale of even a single
13 piece of the art from the DIA collection, the impact that
14 would have on the city's revenues, did you?

15 A That is correct.

16 Q And so the record is clear, you also didn't consider the
17 impact that the sale of the entire collection of the DIA
18 would have on the city's revenue either, did you?

19 A That is correct.

20 Q And you also didn't consider the impact that any
21 alternative form of monetization of that art -- for example,
22 a loan against that art or a lease against that art, you
23 didn't consider what impact that would have on the city's
24 revenues; right?

25 A We included the proceeds from the grand bargain, so I

1 don't know if that's what you mean by "alternate" or not, but
2 that's --

3 Q Other than the grand bargain, you didn't include any
4 other potential monetization of the art?

5 A That is correct.

6 Q And you haven't run any alternative ten-year or forty-
7 year forecast that provided for a different treatment of the
8 art than what is currently contemplated by what is referred
9 to as the grand bargain; correct?

10 A Not that I recall. That is correct.

11 Q And you didn't perform that alternative analysis because
12 you weren't asked to; correct?

13 A That's correct.

14 Q Switching gears again, Mr. Malhotra, you talked briefly
15 about the new B notes that are included in the plan of
16 adjustment, and in the 40-year projection you summarize
17 hypothetical distributions to creditors; right?

18 A That is correct.

19 Q And you've included a present value calculation of the
20 new B notes using a five-percent discount rate; right?

21 A We have used a five-percent discount rate to calculate
22 the present value of recoveries, yes.

23 Q And you base this discount rate in part on what the
24 average interest rate on the outstanding limited tax general
25 obligation debt is of the city or I think you called it the

1 LTGO debt rate; right?

2 A That's one of the factors.

3 Q And so when you considered the appropriateness of a five-
4 percent discount rate for the present valuing of, you know,
5 creditor distributions, you looked at the LTGO interest rates
6 but not at their yields; correct?

7 A That is correct.

8 Q And just to clarify for the Court, the interest rate is a
9 static rate; right? It's set at the time of the issuance of
10 the bonds; correct?

11 A That is correct unless it's a floating rate, yes.

12 Q And a bond's yield reflects not only the interest rate
13 but also the price the bond is trading at on the open market;
14 right?

15 A Sure.

16 Q So the bond's yields tells us how the market values that
17 bond, right, which would include not only the interest rate
18 but also other factors that might impact the price of the
19 bond on the open market; correct?

20 A Potentially, yes.

21 Q But you didn't know at the time that you did your
22 analysis whether or not the new B notes were going to be LTGO
23 bonds or some other type of obligation; right?

24 A That is correct.

25 Q And you don't know if the market will value the new B

1 notes in the same way the market values the city's LTGO debt,
2 do you?

3 A The market will value what the market will value. I do
4 not know what the market will value.

5 Q Thank you. I agree. Now, you also based the five-
6 percent discount rate for present valuing the new B notes in
7 part on the long-term interest rates of AA-rated municipal
8 bonds; right?

9 A That is correct.

10 Q But you don't know whether the city will be a AA-rated
11 municipality for purposes of bond financing upon emergence of
12 Chapter 9, do you?

13 A I do not.

14 Q Switching gears again, Mr. Malhotra, you've been working
15 with the city now on various projects, if I understood your
16 testimony, since May of 2011; correct?

17 A That is correct.

18 Q And before the city filed its Chapter 9 petition, the
19 city was already engaged in restructuring efforts to improve
20 its fiscal condition; correct?

21 A That is correct.

22 Q And prior to that Chapter 9 filing, the emergency manager
23 put together an operating plan; correct?

24 A I would have to think back. I believe that's the case,
25 but I would have to see it just to get the exact date.

1 Q Let me hone in on then something you did testify. And on
2 June 14th, 2013, prior to the commencement of this Chapter 9
3 case, the city provided creditors with a proposal that you
4 referred to earlier, the proposal to creditors; right?

5 A That is correct.

6 Q You had some input on the creation of that proposal;
7 correct?

8 A I did.

9 Q And that proposal to creditors included restructuring and
10 reinvestment initiatives, didn't it?

11 A That is correct.

12 Q And so you understand as you worked on that proposal that
13 the city didn't need to file a Chapter 9 filing in order to
14 identify and propose a plan of action with respect to those
15 operational restructuring reinvestment initiatives that it
16 had proposed in the proposal to creditors in June of 2013;
17 correct?

18 A You would have to repeat that question. It was way too
19 long.

20 Q So you understood as you worked on that proposal that the
21 city didn't need to file a Chapter 9 filing in order to
22 identify and propose reinvestment initiatives like they did
23 in the proposal to creditors; correct?

24 A I want to make sure I answer this in -- the way I
25 understand your question is --

1 Q Oh, please do. If I can help you, let me know.

2 A Yeah. If you could just break that down into two
3 components because all I'm -- this sounds like there's two
4 questions in there. The city identified at that point --

5 Q You knew -- so, for example, in June of 2013, you knew
6 you were working on a proposal that included reinvestment
7 initiatives; correct?

8 A Yes.

9 Q And you knew there was no Chapter 9 filing; right?

10 A At that point in time, there wasn't.

11 Q And yet you knew you were proposing a proposal to
12 creditors that included reinvestment initiatives; correct?

13 A Yes. It was meant to -- yes.

14 Q Okay. Now, the city was proposing to do those
15 initiatives outside of Chapter 9; right?

16 A The city was highlighting the need that it had for the
17 different departments, and I'm highlighting the funding
18 required for those costs, but --

19 Q And, in fact, it was proposing those initiatives, wasn't
20 it, in a proposal to creditors?

21 A It was proposing what the city wanted to do in terms of
22 right-sizing the city's operations.

23 Q And you were doing that outside of Chapter 9; correct?

24 A That is correct.

25 Q Now, Mr. Malhotra, you had done work for the Detroit

1 Public Schools before your engagement by the City of Detroit
2 here; right?

3 A That is correct.

4 Q But you hadn't done a forecast of an actual city or
5 municipality before you performed the forecasts for the City
6 of Detroit in this Chapter 9; correct?

7 A That is correct.

8 Q Before you worked for the City of Detroit in this Chapter
9 proceeding, you had never done forecasting specifically for
10 any city; correct?

11 A Yes. That's correct.

12 Q And you haven't published any publications on
13 forecasting; right?

14 A Not on -- no, I have not.

15 Q And you don't hold yourself out as an expert in Chapter 9
16 bankruptcy, do you?

17 A No, I don't.

18 Q In fact, this is the first Chapter 9 bankruptcy that
19 you've worked on; correct?

20 A It is.

21 Q Now, the model that you used for the forecasting was
22 created by you and the folks at E&Y for the City of Detroit;
23 correct?

24 A Yes.

25 Q It didn't exist before E&Y created it in this engagement;

1 correct?

2 A That's correct.

3 Q And in connection with your work for the city when you
4 were pulling together that model, you didn't look at any
5 other Chapter 9 financial models; correct?

6 A We did not look at other Chapter 9 financial models.

7 Q And, in fact, when you were putting together your model,
8 you didn't know the components of financial models used in
9 other Chapter 9 cases, did you?

10 A The components of -- no. I think the components of
11 financial models are revenues and expenses, so I don't know
12 about if there's a Chapter 9 model somewhere. I did not look
13 at other Chapter 9 models.

14 Q One second. Let me hand you your deposition, see if --

15 A Okay.

16 Q It's a copy of your July 15th, 2014, deposition, and I'll
17 ask you to look at page 38 starting at line 5 to line 9. Did
18 I ask you this question --

19 MR. STEWART: Could we wait till I can get to it in
20 my --

21 MR. SOTO: Sure.

22 MR. STEWART: Go ahead.

23 BY MR. SOTO:

24 Q "Question: That wasn't my question. You
25 haven't looked at any other Chapter 9 financial

1 models; correct?

2 Answer: I did not go and look at other Chapter
3 9 financial models. That is correct."

4 Is that your -- is that your answer to that
5 question?

6 A Yes.

7 Q And you were telling the truth then?

8 A Yes.

9 Q And, in fact, when you were putting together your
10 financial model, you didn't know the components is the next
11 question I asked you. Do you recall -- looking again at line
12 16 through 20 of page 39, did I ask you this question, and
13 did you give this answer?

14 MR. SOTO: Geoff, you ready?

15 MR. STEWART: Oh, yeah. I would object. I don't
16 think it's proper impeachment, your Honor, because I don't
17 think there was an inconsistent answer, but -- so I don't
18 think it's appropriate, but I'll leave that up to Court.

19 THE COURT: You may proceed.

20 BY MR. SOTO:

21 Q "Question: You don't know what financial models
22 have been used in Chapter 9's; correct?" is the
23 question.

24 "Answer: I do not know the components of the
25 financial models of other Chapter 9 cases. That is

1 correct."

2 Did I ask that question? Did you give that answer?

3 A Yeah. That was a question that was asked, and that was
4 the answer that I gave at that time, yes.

5 Q And you were telling the truth then; correct?

6 A Yes.

7 Q And you can't identify any Chapter 9 bankruptcy where an
8 expert has done forecasting similar to what you've done in
9 this case; right?

10 A That is correct.

11 Q In fact, before you put together your expert report in
12 this case, you didn't attempt to investigate what had been
13 done in other Chapter 9 bankruptcies; right?

14 A What had done with financial models in bankruptcies?

15 Q Right.

16 A That is -- could you ask me that question once again,
17 please?

18 Q Sure. The question I asked before was can you identify
19 any Chapter 9 bankruptcy where an expert has done forecasting
20 similar to what you've done in this case?

21 A I do not -- yes, I cannot.

22 Q Okay. Switching gears again so you get in the context,
23 it's correct, isn't it, that as of the time of your analysis
24 and, in fact, even when you were deposed, the city had made
25 no arrangement with Ernst & Young to continue updating your

1 forecast after this bankruptcy is done; right?

2 A Yeah. We had not reached a formal arrangement. That is
3 correct --

4 Q And the scope --

5 A -- at that point in time.

6 Q I'm sorry. Go ahead. I didn't mean to interrupt.

7 A At that point in time.

8 Q And the scope of Ernst & Young's role in the event that
9 the plan of adjustment is confirmed has not been agreed upon
10 yet, has it?

11 A It has.

12 Q Okay. Fair enough. Can you tell the Court what it is?

13 A EY's restructuring team is going to continue to assist
14 the city through December of 2015 in monitoring cash flows
15 and helping with actual versus forecast performance.

16 Separately, EY is engaged to help the city on its HR
17 implementation technology and its ERP program.

18 Q And, again, through December of 2015 on both of those?

19 A I'm not sure of the exact date of -- the outside date of
20 both of those. I'm confident of the date for the
21 restructuring services.

22 Q But it's a fact, isn't it, that you've produced many
23 versions of your -- I think I saw many today -- of your ten-
24 year projection and your forty-year projection; correct?

25 A Yes.

1 Q And that's because you've had to continuously update the
2 forecasts as assumptions change and other inputs change;
3 correct?

4 A That is correct.

5 Q And you agree that any of the assumptions in your model
6 can change over a ten-year and forty-year period; correct?

7 A Some assumptions can change over a ten-year and forty-
8 year period.

9 Q And you agree that the timing of the reinvestment
10 expenditures, for example, as they're paced could change,
11 which, again, would affect the assumptions in your model;
12 right?

13 A If you change the timing assumptions from what they are
14 today, the numbers will change.

15 Q And you agree that unforeseen changes can have an impact
16 on your forecast; right?

17 A Yes.

18 Q And, again, you haven't included a line item in your
19 forecasts -- I went back to look -- in which you've provided
20 for ongoing professional fees of Ernst & Young for a ten-year
21 period or a forty-year period consistent with your
22 projections; right?

23 A The fees for Ernst & Young for the forthcoming year after
24 the current fiscal year will be funded through specific
25 projects, but there are no additional fees over ten and forty

1 years.

2 Q Because you might not be there over ten or forty years;
3 correct?

4 A That is correct.

5 Q And it would also be fair to say that the assumptions in
6 your forecast depend on certain policy choices by Detroit
7 officials; correct?

8 A Yes.

9 Q And in the future during the ten-year period addressed by
10 your ten-year forecast, there might be different decision-
11 makers who are responsible for determining Detroit's
12 policies; right?

13 A Yes. People -- yes.

14 Q You would agree that the projections that you testified
15 about this morning and actually through the afternoon are
16 dependent on the successful implementation of the city's
17 budget and the reliability of other estimates and assumptions
18 that are the basis of your projections; correct?

19 A I'd request you to break that question down, please.

20 Q Sure. Would you agree that the projections that you
21 testified about today are dependent on the successful
22 implementation of the city's budget, that they stick to the
23 budget that's part of your projections?

24 A The city generally does a one-year budget or two --
25 they're going to go to a triennial budget. The 2015 budget

1 is going to be a transitional year, so the city is going to
2 use these projections to form the basis of a budget, so I'm
3 just not sure that I completely understand your question
4 because there isn't -- the budget is going to continue to
5 evolve and is an iterative process that continues to get
6 amended, so 15 and 16 and 17 will be essentially based on the
7 projections that are existing today.

8 Q So it's your view that, for example, the projections that
9 you created have both form of budgets in it. They presume
10 certain things are going to be done and certain items are
11 going to be in the city's budget; correct? That's part of
12 your projection for ten years. That's also part of your
13 projection for forty years; correct?

14 A Yes.

15 Q And if those presumptions are not carried on by the city,
16 if they're not included, for example, in the one-year budgets
17 that you just discussed, they would have an impact on your
18 projections; correct?

19 A I'm trying to just think of specifics. If you change the
20 assumptions, the numbers do change.

21 MR. SOTO: Thank you, Mr. Malhotra. Your Honor, we
22 have to proffer two clips of Mr. Malhotra's testimony as a
23 30(b)(6) witness for the city. We would proffer them at this
24 time and play them at this time.

25 THE COURT: Any objections?

1 MR. STEWART: I need to know what clips they are and
2 what page and lines they are.

3 MR. SOTO: Sure. They are the -- they're both from
4 the July 15th, 2014, deposition. They are page 144, lines 9
5 through 12, and page 115, line 25, through page 116, line 6.
6 They have actually both been played before in this courtroom.

7 MR. STEWART: I have no objection, but we'll have to
8 on redirect, your Honor, deal with a completeness issue as to
9 the second clip.

10 THE COURT: Okay. Mr. Stewart, can you pull that
11 microphone closer to you, please?

12 MR. STEWART: Very good.

13 THE COURT: All right. You may proceed, sir.

14 MR. SOTO: And actually I'm only playing the first
15 clip, so you won't have to worry about it. I don't know why
16 I said that. The first clip, which is page 144, nine through
17 twelve, is the only one we're proffering. If you could play
18 it --

19 (Deposition clip of Mr. Malhotra's deposition played as
20 follows:)

21 "Question: You haven't been asked to look at
22 what would happen if the petition is dismissed by
23 the city or the state; correct?

24 Answer: That is correct."

25 (Deposition clip concluded)

1 MR. SOTO: No further questions, your Honor.

2 THE COURT: Okay.

3 MR. WAGNER: Your Honor, Jonathan Wagner on behalf
4 of the COPs. May I proceed?

5 THE COURT: Yes, please.

6 CROSS-EXAMINATION

7 BY MR. WAGNER:

8 Q Good afternoon, Mr. Malhotra. You and I have never met,
9 have we?

10 A I don't believe so, no.

11 Q I also have some questions -- a few questions about the
12 exhibits that we're seeing for the first time today.

13 MR. WAGNER: Can you put up Exhibit 742?

14 BY MR. WAGNER:

15 Q Now, this is one of the calculations that you were
16 instructed to perform at the direction of counsel; is that
17 correct?

18 A That is correct.

19 Q Now, the totals there by my math equal about 1.6 billion;
20 is that fair?

21 A Yes.

22 Q And if the UAAL was 3.1 billion, then the -- or if the
23 liability -- if the amount of the claim was 3.1 billion, then
24 the return rate for the pension classes would be about 51, 52
25 percent, 1.6 over 3.1?

1 A Could you ask me that question again? I apologize.

2 Q If you add those two together and you divide by 3.1
3 billion, which is the size of the pension claim you testified
4 to earlier today, that's a recovery rate of about 52, 53
5 percent; right?

6 A That math sounds right.

7 Q Okay. But that's not anywhere in the plan, is it?

8 THE COURT: Excuse me one second. We've had a
9 disconnect here. The question was not or not entirely about
10 the math. The question was whether the recovery rate is 50
11 or 51 percent.

12 THE WITNESS: Your Honor, under -- using \$1.6
13 billion of a present value over a \$3.2 billion claim and
14 where the \$1.6 billion has been calculated at a 6.75-percent
15 discount rate, that recovery percentage equates as long as
16 the claim is also valued at \$3.2 billion.

17 THE COURT: Okay.

18 BY MR. WAGNER:

19 Q But the percentages in the plan are 59 and 60 percent,
20 are they not?

21 A Are we using a five-percent discount rate?

22 Q That's what you used in the plan; correct?

23 A That is the same -- that is the five percent discount
24 rate we have used, yes.

25 Q And the plan has been amended several times since you

1 first laid out -- since the city first laid out the 59- and
2 60-percent return rates?

3 A Yes. The plan has been amended.

4 Q The plan was amended as late as two weeks ago; correct?

5 A That is correct.

6 Q And it still uses 59 and 60 percent; right?

7 A Yes. We use the same discount rate.

8 Q And your projections that you prepared originally showed
9 a recovery rate of 59 and 60 percent, did they not?

10 A Yes. They showed a 59- or 60-percent on that claim
11 amount and the distributions assuming a five-percent discount
12 rate.

13 Q Okay. And the projections that you prepared just a week
14 ago also show 59- and 60-percent recovery, do they not?

15 A Based on the same assumptions that I just answered
16 earlier, yes.

17 Q And, again, the only reason you prepared -- used 6.75 is
18 because your counsel told you to; right?

19 A That is correct.

20 MR. WAGNER: Now, can you put up Exhibit 723? No.
21 The city has to put it up, 723.

22 BY MR. WAGNER:

23 Q Now, here you showed UAAL pre-petition of a billion eight
24 for GRS and a billion 250 for PFRS; correct?

25 A That's correct.

1 Q And now -- this is as of 2014 -- you've had a substantial
2 reduction in the UAAL; correct?

3 A Yes.

4 Q I think you testified that the unfunded liability has
5 gone from 53 percent -- about 53 percent and 71 percent to in
6 the 70s for both of them; is that correct?

7 A I think I said it was pretty close to the target. PFRS
8 may be slightly higher. I do not remember the exact funded
9 percentage status today. I think GRS may be close to 70, and
10 PFRS may be a little higher, but I do not remember the exact
11 numbers.

12 Q I'm right for PFRS you've already hit the target; right?

13 A Yes.

14 Q And by the way, the billion 879 and a billion 250, that
15 was calculated and used -- that was calculated using a 6.75
16 discount rate; correct?

17 A That is correct.

18 Q And if you used a higher discount rate, the UAAL would be
19 smaller, correct, or the unfunded portion would be smaller?

20 A If that is the only assumption that you changed, the
21 numbers would be different.

22 Q And you also testified that the 6.75 was a negotiated
23 rate; right?

24 A It was a part of the settlement, yes.

25 Q And are you aware that the retiree has said that the 6.75

1 is not based on pension practice?

2 A I'm not aware of that.

3 Q Okay. And are you aware that the expert for the Retiree
4 Committee --

5 MR. STEWART: Objection, your Honor. I'd like to
6 know why he's asking one witness about the testimony of
7 another.

8 THE COURT: Well, let me hear the whole question,
9 and then I'll hear your objection. Go ahead, sir.

10 BY MR. WAGNER:

11 Q Are you aware that the Retiree Committee expert has
12 testified that the 6.75 is an outlier?

13 MR. STEWART: I'd repeat my objection, your Honor.

14 MR. WAGNER: Well, he's testified to why he used
15 particular numbers. I think I'm entitled to show because he
16 has given testimony about the UAAL that the numbers he's used
17 misstate the UAAL.

18 THE COURT: The objection is sustained.

19 BY MR. WAGNER:

20 Q Now, this past year I'm right that the returns have
21 exceeded 6.75 percent?

22 A Yes.

23 Q And that's why the unfunded liability has gone down;
24 correct?

25 A That's only one of the reasons.

1 Q We'll get to that in a minute. You testified concerning
2 the fees that have been incurred. This is Exhibit 767. I
3 think the total fees are 182 million for 2014 and 2015;
4 correct?

5 A That is correct. It includes an estimate as well for
6 fiscal year '15, but that is what the schedule shows. That
7 is correct.

8 Q Now, does this figure also include the fees prior to
9 2014?

10 A No.

11 Q Do you know what the fees have been from the time -- all
12 the professional fees from the time you were retained in 2011
13 until this chart?

14 A I do not.

15 Q Was it \$10 million? Was it more than \$10 million?

16 A My recollection is it would be less than \$10 million.

17 Q Okay. But just the 182 million, that exceeds the amount
18 of the COP reserve, does it not?

19 A The \$182 million is larger than the \$162 million COPs
20 reserve.

21 Q You also gave some testimony about the return to COPs.
22 The total amount of COPs are a billion four; right?

23 A That's the COPs claim.

24 Q And the interest rate on those COPs under the B notes at
25 the beginning is four percent; right?

1 A Yes. The B notes the interest rate is four percent for
2 the first decade.

3 Q So am I right that the debt service on another ten
4 percent of the COPs, 140 million, would be \$5-1/2 million?
5 Putting aside amortization, just the interest cost would be
6 5-1/2 -- about 5.6 million, 140 times .04?

7 A Yeah. I mean that -- overall in terms of the actual
8 incremental interest, if you're just looking at interest, I
9 think that would be the rough math.

10 Q Now, you also gave some testimony about a plan freeze.
11 Do you recall that?

12 A Yes.

13 Q And I think you said there'd be no more accrual of
14 benefits under the plan on account of a plan freeze. Do you
15 recall that?

16 A Yes, under the old plan.

17 Q And do you recall that you said that that would reduce
18 the pension liability?

19 A Yes.

20 Q And there's no dispute about that, is there?

21 A I do not know there's a dispute or not.

22 Q Okay.

23 MR. WAGNER: Can you put up Exhibit 1009? Your
24 Honor, this is a letter from Milliman. It's already in
25 evidence based on your Honor's September 2nd order.

1 BY MR. WAGNER:

2 Q Can you turn to page 3 of the document?

3 MR. STEWART: Do you have a hard copy version of
4 that?

5 MR. WAGNER: I don't with me. I didn't realize he'd
6 be testifying about these issues, so I didn't know.

7 MR. STEWART: Excuse me a moment.

8 MR. WAGNER: Now, can you blow up the portion that
9 says "estimated plan freeze impact"?

10 BY MR. WAGNER:

11 Q Do you see it says, "Our preliminary result as of June
12 30, 2013, based on an investment return assumption of 6.75 is
13 that the impact of the plan freeze represents a decrease of
14 roughly 95 billion -- 95 million or roughly 12 percent of the
15 active liability"? Do you see that?

16 A Yes.

17 MR. WAGNER: And can you just go to page one of the
18 document, and can you highlight the "re." line?

19 BY MR. WAGNER:

20 Q So this is for -- this is for GRS; right?

21 A Yes.

22 Q So the impact of a plan freeze with respect to GRS is a
23 reduction of liability of 95 million; right?

24 MR. STEWART: Objection.

25 THE COURT: What is your objection?

1 MR. STEWART: That's what the document says. A
2 question is -- I don't know if he's saying that that's what
3 the document says or whether he's asking the witness his
4 independent view.

5 THE COURT: Which is it?

6 MR. WAGNER: I'm asking if he knows. He testified
7 he got input from Milliman. I'm asking whether he -- if
8 that's his understanding.

9 THE WITNESS: That's what the document says.

10 MR. WAGNER: Can you turn to Exhibit 1010? Can you
11 put up Exhibit 1010?

12 THE COURT: Well, let me say, counsel, that we don't
13 need you to have this witness read into the record documents
14 that are already in evidence. If there's some other purpose,
15 go for it, but --

16 MR. WAGNER: That's fine.

17 BY MR. WAGNER:

18 Q Now, you discounted the state contribution at a rate of
19 6.75 percent?

20 A That is correct.

21 Q And why did you do that? Is that also at the instruction
22 of counsel?

23 A That was part of the discussion with the state.

24 Q And was the 6.75 supposed to represent any risk that
25 payment would not be made?

1 A That's a question I guess to ask the state, but the 6.75-
2 percent discount rate used to calculate the present value of
3 the \$350 million the state is contributing was based on an
4 overall agreement with the state.

5 Q So that was simply another agreement that was negotiated;
6 correct?

7 A Yes.

8 MR. WAGNER: Nothing further, your Honor.

9 CROSS-EXAMINATION

10 BY MS. O'GORMAN:

11 Q Good afternoon, Mr. Malhotra. My name is Debra O'Gorman.
12 I represent MIDDD. Now, you're not an expert in tax policy,
13 are you?

14 A I am not.

15 Q And you're not an expert in tax forecasting, are you?

16 A I am not.

17 Q You're not an economist, are you?

18 A I am not.

19 Q You have no expertise in pensions; correct?

20 A I'm not an actuary.

21 Q You don't have any expertise in urban policy or planning,
22 do you?

23 A No, I do not.

24 Q You don't have any expertise in blight reduction, do you?

25 A No, I do not.

1 Q Are you an expert in art valuation?

2 A No.

3 Q Are you a CPA?

4 A I am not.

5 Q And you've never before been qualified as an expert in
6 accounting; correct?

7 A That is correct.

8 Q Now, in preparing your forecast, you relied on many
9 others to provide assumptions for you; is that correct?

10 A Input, yes.

11 Q And these were other experts as well as various people
12 from the city; correct?

13 A Yes.

14 Q And as to the anticipated tax revenues that are built
15 into your forecasts, you didn't perform your own work in that
16 regard; correct?

17 A We had experts for that, but I did look through the
18 assumptions.

19 Q Thank you. You answered my question. So you relied on
20 Mr. Cline and Ms. Sallee for that information?

21 A I relied on Ms. Sallee and Bob Cline.

22 Q And you're not offering any opinions on tax policy;
23 correct?

24 A That's correct.

25 Q And you're not offering any opinions on whether the city

1 could seek to increase taxes, are you?

2 A I'm not making any comment on policy, tax policy.

3 Q And you're not offering any opinion on whether the city
4 could ask the state to collect taxes on their behalf, are
5 you?

6 A That is correct.

7 Q Would you agree that Mr. Cline and Ms. Sallee are the
8 most knowledgeable about the analysis they performed with
9 respect to tax revenues?

10 A Yes, for each of the purposes that they -- for each of
11 the tax lines that they forecasted, yes.

12 Q And would you agree that taxes are the biggest driver of
13 city revenues?

14 A Yes.

15 Q And they're the primary source of revenue for any
16 municipality; correct?

17 A They are. They are. Taxes are a primary source of
18 revenues and -- yes.

19 Q Okay. And you relied on others for that work; right?

20 A I relied on experts for that work.

21 Q Okay. And you also relied on Conway MacKenzie; correct?

22 A Yes, for specific revenue and expense items.

23 Q And those were the reinvestment initiative items that you
24 relied on Conway MacKenzie for?

25 A Yes, and, as I said, in conjunction with the work that we

1 had already done to make sure there was no double counting.

2 Q And you didn't do any independent analysis or testing of
3 those numbers, did you?

4 A I did.

5 Q You did?

6 A Yes. I just said I made sure that none of the operating
7 revenue initiatives or any of the operating expenditures were
8 double counted in any fashion in the baseline.

9 Q So you just avoided the double counting, but you did no
10 other analysis of the accuracy of any of the numbers
11 themselves?

12 A In terms of the analysis, I mean we also went through the
13 headcount assumptions in a lot of detail in terms of what
14 were the average revenue -- average salary assumptions that
15 were being used in terms of all the headcount that was coming
16 in and regardless of any double counting to make sure that
17 the fringe rates and the average salary levels and the
18 headcount assumptions were vetted by department.

19 Q Okay. But you would agree that Conway MacKenzie would be
20 the most knowledgeable about their work; correct?

21 A Yes. People who only do specific work, yes, are more
22 knowledgeable about their work.

23 Q Okay. And you also relied on Miller Buckfire for your
24 assumptions?

25 A For the quality of life loan and the exit financing

1 assumptions, yes.

2 Q Did you verify the accuracy of Miller Buckfire's work?

3 A I had supporting information that was provided by the
4 financing sources, and we had discussions about the structure
5 based on what input they got from the financing sources, so
6 we did spend a lot of time discussing those versus just
7 plugging them into a model.

8 Q Okay. Did you also rely on Milliman in forming your
9 assumptions?

10 A Yes. We used Milliman's input on the assumptions in some
11 of the legacy liabilities.

12 Q And Milliman would be most knowledgeable about the work
13 that they performed; correct?

14 A Yes.

15 Q And you were asked by Mr. Soto about policy choices by
16 future decision-makers. Would you be required to speculate
17 in order to determine what policy choices Detroit's future
18 leaders would make over the next ten years?

19 A Could you ask me that question again, please?

20 Q Would it be speculation on your part for you to determine
21 now today what Detroit's future leaders -- what decisions
22 they would make?

23 A Yeah. I cannot decide or comment on all the policy
24 decisions the future governments make.

25 Q So you'd be speculating; right?

1 A Yes. I mean they -- yes. If any --

2 Q Okay. Thank you.

3 A I can't comment on all the policy decisions or policy
4 decisions that government leaders will make in the future.

5 Q Because you'd have no way of knowing what will happen;
6 right?

7 A Well, I would not know of anything about tax policies
8 that -- yes. I would not know what some administration does
9 down the road in the future.

10 Q You wouldn't know what decisions would be made in the
11 future; correct?

12 A That is correct, in the future.

13 Q Okay. Now, you didn't use any kind of mathematical
14 formula in identifying the historical trends that went into
15 your forecast; correct?

16 A No, that's not.

17 Q In what way is that incorrect?

18 A Well, I just want to make sure I'm -- there are lots of
19 line items if you've gone through individual line items, and
20 in terms of looking at the trends, we've looked at some of
21 the line items that needed either an average or we used some
22 of the last 2013 numbers in terms of the forecast, so --

23 Q So you used averages, but you didn't use a regression
24 analysis or any kind of sophisticated mathematical modeling;
25 correct?

1 A I don't know if regression analysis is sophisticated
2 mathematical modeling, but in terms of the actual costs that
3 were in specific departments or revenues, we did use
4 mathematical formulas in our forecasting.

5 Q But I'm asking you a different question about historical
6 trends. Didn't you just take a couple of years of data and
7 do an average and make some adjustments and carry those
8 numbers forward? Isn't that what you did?

9 A No. I think we went through a very robust process of
10 looking through and understanding what the changes were, what
11 the assumptions were. We spoke to the management team. We
12 reviewed those numbers with the management team and then
13 started to come up with forecasts versus just look at a
14 couple of years and put a number in there.

15 Q Right. So you had historical data, and you made some
16 adjustments based on your conversations with city department
17 heads; right?

18 A And analyses of each of those line items to understand
19 what was in there, what were one-time trends, what was
20 repeating numbers and going -- that would impact the forecast
21 going forward.

22 Q Now, would you agree that increased taxes would be a
23 potential source of revenue for the city? I'm just asking if
24 it could be a potential source of revenue.

25 A Leaving everything else aside and leaving everything else

1 the same, if taxes go up, the revenues -- the overall picture
2 will look better.

3 Q Right. And you were instructed by the emergency manager
4 to assume that tax rates would remain constant; correct?

5 A That's right.

6 Q And you were also asked to assume by the emergency
7 manager that there would be no new taxes, you know,
8 additional taxes that don't exist today?

9 A That is correct.

10 Q And you've done no analysis of the collection of
11 delinquent taxes in your model?

12 A We have not.

13 Q And I wanted to ask you about the B and C notes that we
14 talked about earlier. Now, the new B notes are interest only
15 for ten years; correct?

16 A That is correct.

17 Q And those are unsecured obligations of the city; correct?

18 A Yes.

19 Q And you don't know whether they're taxable or not?

20 A I do not.

21 Q Now, would you agree that as a general proposition that a
22 higher rate of return would typically be demanded by the
23 market for a taxable bond versus a nontaxable bond?

24 A I don't want to -- I can't comment on that.

25 Q Now, under the plan the city is issuing new C notes;

1 correct?

2 A That is correct.

3 Q And those have a 12-year maturity as opposed to 30 years
4 with B notes; correct?

5 A That is correct.

6 Q And would you agree that notes with shorter maturities
7 would typically have less payment risk than those with longer
8 maturities?

9 A I would not want to comment on that.

10 Q And the new C notes amortize principal with the first
11 annual payment; correct?

12 A That is correct.

13 Q And the B notes are interest only; correct?

14 A They are interest only for the first ten years.

15 Q And the C notes pay what interest rate?

16 A Five percent.

17 Q And the B notes pay four percent for the first 20 years;
18 correct?

19 A That is correct.

20 Q Would you agree that the amortizations -- that under the
21 new C notes there's less of a risk of nonpayment than the B
22 notes?

23 A The money is coming from the city. The risk profile is
24 the risk profile.

25 Q But the new C notes, there is a payment of principal from

1 the start; correct?

2 A That is correct. I'm saying the source of the funding is
3 the same. It's the city, its cash flows.

4 Q Well, that's not really true, is it, because the C notes
5 are paid from parking revenues; correct?

6 A At the end of the day, the C notes are paid through
7 improvement in parking revenues, but it's going to come out
8 of the general fund at the end of the day.

9 Q Okay. Well, is there any segregation of funds for
10 payment of the new B notes?

11 A No.

12 Q They come from the general obligations of the city;
13 correct?

14 A Yes.

15 Q Have you taken into account improvements in the economy
16 in the last four or five years in your forecast?

17 A In terms of the tax forecasts?

18 Q Generally, the economy in general.

19 A I would think that the pieces that impact Detroit, for
20 instance, for what we have seen in the trends and the sales
21 and charges for services -- I don't know if it's anything
22 related to the improvement in economy versus not, but I've
23 looked at in detail all the revenue items that are impacting
24 Detroit, so I don't know if -- what you would ascertain to an
25 improvement in economy versus not.

1 Q But you do agree that the economy of Detroit has been
2 improving since 2008, 2009; correct?

3 A I would say that overall since 2008, 2009 I think the
4 economy overall has improved.

5 Q And you didn't make any specific effort to include those
6 improvements in your forecast; correct?

7 A Well, we have looked at the trends from 2008, 2009 in all
8 of the department financials, so my point is they would be
9 imbedded in there if there was any direct improvement.

10 MS. O'GORMAN: Okay. Thank you. That's all I have.

11 THE COURT: Any other cross-examination of the
12 witness?

13 MR. SOTO: No, your Honor.

14 THE COURT: Redirect?

15 MR. STEWART: No redirect, your Honor.

16 THE COURT: Stand by one second, please. So to what
17 extent, sir, did you make independent judgment about the
18 reasonableness of the assumptions in the city's ten-year
19 forecast or projections?

20 THE WITNESS: It was quite extensive, your Honor.

21 THE COURT: It was. Are you familiar with the
22 concept of critical assumption?

23 THE WITNESS: Yes.

24 THE COURT: Okay. I want to ask you what are the
25 two or three most critical assumptions in the city's ten-year

1 forecast or projections that concern you the most?

2 THE WITNESS: The first one, your Honor, one would
3 be the unfunded pension liability of the city at the end of
4 the ten years because -- and a lot of this in terms of the
5 settlements of the creditors we have boxed in what the city's
6 liability will be. On the side of the pensions, we are still
7 using calculations to estimate what that ten-year unfunded
8 liability will be. So that would be my first one as a
9 concern because it's an unknown. It's an estimate, but it's
10 still not boxed in in terms of how we have boxed in our best
11 ability of the other claims.

12 The second assumption in terms of what would give me
13 concern is we are trying to get five-year labor agreements,
14 and we just want to make sure that even after those five
15 years there are various assumptions in the plan with respect
16 to retiree healthcare for our current active employees that
17 have been taken down significantly, so just so that the city
18 has gone through a painful process of dealing with the
19 retiree healthcare of its current retirees so that it does
20 not happen again could be a five-year contract, so I just
21 don't know what happens after those five years.

22 Those would be the top two, and then the last one,
23 which is more general, is just the implementation of the plan
24 now because the roadwork has been created in some fashion.
25 Our blueprint is existing, but I think the same amount of

1 rigor has to now go into the implementation or probably even
2 more rigor than in sort of developing the blueprint, and I
3 would say those, in my view --

4 THE COURT: What concerns you about the
5 implementation of the plan? Can you be more specific about
6 what your concerns are?

7 THE WITNESS: There's a lot of change, your Honor --
8 I mean that has to happen over the next four to five years
9 with respect to the -- all of the department revenue
10 initiatives as well as the process improvements, and so I
11 am -- from all the time I've spent with the mayor and the
12 CFO, I'm very comfortable there in terms of the
13 implementation ability, but it's just the speed of the
14 implementation. We have significant uptick in revenues in
15 the plan that are based on reinvestments. Yes, they come
16 five years down the road, but -- so I think we will just have
17 to make sure that we have the rigor to implement the plan.

18 THE COURT: Make sure we have the what?

19 THE WITNESS: A rigorous focus on implementing the
20 plan. I'm less concerned about line items moving up and down
21 in terms of costs, but I would not want to have a change in
22 terms of taking one-time CAPEX items and converting that into
23 long-term increased cost of the -- increasing the fixed cost
24 structure of the city long term.

25 THE COURT: Well, do you have any concern about

1 willingness or the ability of the city to implement the plan?

2 THE WITNESS: From all the conversations I have had
3 with the leadership team, I have -- I do not have concern
4 about the willingness to implement the plan. The ability of
5 the collective team to implement the plan is a function of
6 time and focus on these particular efforts once the city
7 exits from bankruptcy. And I've been involved with the city
8 for over three and a half years and understand the practical
9 limitations that the city will be faced with of implementing
10 the plan post-bankruptcy, and it's that constant focus of
11 making sure that the city is going to implement this plan is
12 critical.

13 THE COURT: Did you testify earlier that E&Y's
14 contract with the city has been extended through 2015?

15 THE WITNESS: That is correct, your Honor.

16 THE COURT: Calendar year or fiscal year?

17 THE WITNESS: December 31st, 2015.

18 THE COURT: December 31st. And will part of that
19 work continue the work that E&Y has done with respect to cash
20 management?

21 THE WITNESS: Yes, your Honor.

22 THE COURT: What is your judgment on whether the
23 city will be able to take over those cash management
24 functions that E&Y does now and will do through December of
25 2015 at that time?

1 THE WITNESS: It will -- it depends, your Honor, on
2 the people that are hired over the course of the next few
3 months, and so it's hard for me to comment today. Today I
4 wouldn't be comfortable saying that I could just hand it
5 over, but I think as the existing team at the city continues
6 to get some more resources around them, there is a potential
7 that these cash management services can be transitioned,
8 especially once we have a little more stability through this
9 transitional year that the city is going to be going through.

10 THE COURT: What would the consequences be if the
11 city did not renew the contract after December of 2015 or
12 find a substitute contractor to do the work and it were not
13 ready to assume proper cash management functions?

14 THE WITNESS: The risk in that scenario, your Honor,
15 is exactly twofold, one, because of the state law and having
16 a clear amount -- a handle on cash before you're going into
17 the next budget year because you have to maintain that five
18 percent, so it's a controls issue in terms of that may get
19 impacted, and really so -- and I would say what would get
20 impacted is the long-term forecast ability of the city will
21 get impacted because a lot of -- a lot of the issues have
22 come up because the city did these one-year budgets or one-
23 year outlooks whereas looking at cash flows over a longer
24 time frame and managing cash over the long term, so that is
25 the risk that we run into in which we can again focus back

1 into the very short term and make decisions based on the
2 outlook of a very short term.

3 THE COURT: So is it fair to say that it is your
4 judgment that maintaining adequate cash flow competency
5 either by an outside contractor or adequate inside resources
6 is critical to the implementation and feasibility of the
7 plan?

8 THE WITNESS: I do, your Honor.

9 THE COURT: All right. That's all I have. Any
10 follow-up questions? All right. Before we break for the
11 day -- you're excused, sir.

12 (Witness excused at 4:45 p.m.)

13 THE COURT: I think that rather than start on
14 another witness, we will recess here in a moment, but,
15 Ms. Lennox, I want to talk to you, please.

16 MS. LENNOX: Yes, sir.

17 THE COURT: First, I have a news flash for you.

18 MS. LENNOX: Okay.

19 THE COURT: You have a message from my assistant,
20 Chris. Please call her.

21 MS. LENNOX: Okay. I will do that, your Honor.

22 THE COURT: Have you had any conversation with Mr.
23 Flynn about the plans to deal with the Detroit Fire Fighters'
24 issues tomorrow?

25 MS. LENNOX: I have, your Honor, and --

1 THE COURT: Where are we with that?

2 MS. LENNOX: So I guess we were confused where this
3 came from, and apparently it came from an entry that your
4 Honor put on the docket on September 3rd stating that the
5 issues for the UAW and the DFFA will be presented on
6 September 30th.

7 THE COURT: Right.

8 MS. LENNOX: Well, the DFFA had never designated any
9 witnesses. They were not -- they did not indicate to us that
10 they were planning to put on a fact case, and so we were a
11 little confused by what DFFA issues because they hadn't
12 designated witnesses. After I spoke with Mr. Flynn, he
13 indicated that they do not intend to present factual issues.
14 In fact, they will be withdrawing the objections to
15 confirmation as to certain factual matters. They are
16 preserving their objections with respect to the legal issues,
17 which, as your Honor may recall, Mr. Legghio and I argued
18 back in July. So I believe it is their view -- and we would
19 concur since they don't plan to present witnesses -- that
20 they would have no need to come into court tomorrow unless
21 your Honor has questions for them that you'd like them to
22 answer.

23 THE COURT: Okay. Thank you for that report. Has
24 the mediation with the Detroit Fire Fighters Association
25 concluded yet?

1 MS. LENNOX: It has not concluded. I can report
2 that we've made --

3 THE COURT: It has not concluded?

4 MS. LENNOX: No. And I believe they're planning to
5 meet again this Wednesday. I can report that we have made
6 significant progress actually since last time we were before
7 your Honor. Certainly it's our view that we'd like to
8 conclude this as soon as we can.

9 THE COURT: All right. So it sounds like we will be
10 proceeding with our regular trial schedule tomorrow
11 uninterrupted by any previously slotted in issues. Does that
12 sound right? Wednesday we do have to carve out some time for
13 objections to claims; right?

14 MS. LENNOX: Correct, your Honor.

15 THE COURT: That's what --

16 MS. LENNOX: I believe the MIDD trial is on
17 Wednesday as well.

18 THE COURT: You believe what?

19 MS. LENNOX: The MIDD objection is up Wednesday.

20 THE COURT: I think that's what Ms. Sikula wants to
21 talk to you about.

22 MS. LENNOX: Okay.

23 THE COURT: All right. Anything further for today?
24 Sir?

25 MR. STEWART: Nothing further from me, your Honor.

1 THE COURT: Thank you.

2 MS. LENNOX: Thank you, your Honor.

3 MR. SHUMAKER: Your Honor, one thing on Mr. Orr. I
4 just wanted to let you know that I've been talking with Mr.
5 Soto about when Mr. Doak will testify, and I don't think that
6 that's going to happen until Thursday or Friday, which would
7 mean tomorrow's lineup would be Mr. Buckfire, Mr. Kaunelis
8 from the DWSD, and then Mr. Orr. And I just wanted to advise
9 your Honor of that for notice purposes.

10 THE COURT: All right.

11 MR. SHUMAKER: Thank you, your Honor.

12 THE COURT: Anything else for today? All right.

13 We're in recess until tomorrow morning then.

14 THE CLERK: All rise. Court is adjourned.

15 (Proceedings concluded at 4:49 p.m.)

I'd like to show you what's in Tab 2 of our</p> <p>24 binder set. Mr. Moore, I'm going to hand you a</p> <p>25 document previously marked as Malhotra Number 4. For</p>
<p style="text-align: right;">Page 245</p> <p>1 CHARLES MOORE</p> <p>2 Q. Mr. Moore, you have been designated in response to a</p> <p>3 couple 30(b)(6) deposition notices, and I'm going to</p> <p>4 show you those designations to you and ask you to</p> <p>5 confirm that you are so designated on these topics.</p> <p>6 So I'm going to show you what's in the binder set as</p> <p>7 Tab 1. It's a document that has previously been</p> <p>8 marked as Malhotra Exhibit Number 2. And, Mr. Moore,</p> <p>9 I would turn your attention to Topic Number 3-F.</p> <p>10 A. Yes.</p> <p>11 Q. There is a deposition topic Number 3-f reads, "Any</p> <p>12 planned or projected collection issues." And on the</p> <p>13 next page you are designated as the City's designee</p> <p>14 for Subtopic f. Do you see that?</p> <p>15 A. I do, yes.</p> <p>16 Q. And you are prepared to testify on that issue today?</p> <p>17 A. Yes.</p> <p>18 Q. Turning to Topic Number 9. There are three subtopics</p> <p>19 in Deposition Topic Number 9. That would be 9-a, "The</p> <p>20 methodology used for the City's determination of the</p> <p>21 amount of the DWSD's full allocable share of the past,</p> <p>22 present and future GRS UAAL." Do you see that, sir?</p> <p>23 A. I do, yes.</p> <p>24 Q. The next topic is Topic 9-e, "Any pro forma impact on</p> <p>25 rates and the potential impact of higher rates on</p>	<p style="text-align: right;">Page 247</p> <p>1 CHARLES MOORE</p> <p>2 the record, Malhotra Number 4 is the City of Detroit's</p> <p>3 Identification of 30(b)(6) Witnesses in response to</p> <p>4 Oakland County's Notice of Rule 30(b)(6) Deposition to</p> <p>5 the City of Detroit. Direct your attention to Topic</p> <p>6 Number 1, "All financial projections for DWSD</p> <p>7 operations through June 30th, 2023." Do you see that,</p> <p>8 sir?</p> <p>9 A. Yes.</p> <p>10 Q. And you're prepared to testify today on that topic?</p> <p>11 A. Yes.</p> <p>12 Q. Deposition Topic Number 5, "The factual and legal</p> <p>13 basis for and the assumptions underlying Exhibits L</p> <p>14 and M to the Plan." Do you see that, sir?</p> <p>15 A. I see that.</p> <p>16 Q. And you are prepared to testify today on that topic?</p> <p>17 A. If you look at the response, I'm prepared to testify</p> <p>18 to the factual basis but not the legal basis for the</p> <p>19 assumptions.</p> <p>20 Q. Deposition Topic Number 6, "The factual and legal</p> <p>21 basis for the Plan proposal for DWSD to pre-fund</p> <p>22 pension liabilities, including the means by which such</p> <p>23 pre-funding will be made and the effect on DWSD's</p> <p>24 operations of such pre-funding."</p> <p>25 Sir, you've been designated to testify as</p>

3 (Pages 244 to 247)

Elisa Dreier Reporting Corp. (212) 557-5558
950 Third Avenue, New York, NY 10022

CHARLES MOORE

to the factual basis with respect to this topic?

A. Yes.

Q. And just two more, sir. Deposition Topic Number 7, "The factual and legal basis to require the DWSD to fund 100 percent of the GRS for fiscal years 2014 to 2023." Do you see that, sir?

A. Yes.

Q. And it appears that this topic has been reworded as follows: "The factual basis to require the DWSD to fund the UAAL of the GRS for fiscal years 2014 to 2023." And with that rewording, you are designated to testify on this topic?

A. Yes.

Q. Lastly, sir, the very last topic in Malhotra 4, Deposition Topic Number 21, "The City's determination of the size of the PFRS and GRS Pension Claims, and its decision to utilize a 6.75 percent discount rate to value liabilities and a 6.75 percent investment return rate."

And you have been designated to testify on the City's behalf with respect to the size of the PFRS and GRS pension claims; is that correct?

A. Yes.

Q. And you're prepared to do so today?

CHARLES MOORE

topic.

Q. Can we make the same assumption with respect to Topic 4-f, Page 5 of the document? 4-f, "Restructuring and reinvestment initiatives help the City provide adequate levels of municipal services."

A. There are three sub bullets below that. Do you want me to just focus on f right now?

Q. Why don't you just read to yourself f-i, Romanette i, Romanette ii, and Romanette iii where your name appears under each. Excuse me. I misstated that. It's early in the morning. F-ii and f-iii. That's where your name appears.

A. I think it's reasonable to assume that I might be asked to testify to those two items at the confirmation hearing, yes.

Q. Turning to Page 7. Topic Number 6-c and 6-c Romanette i. Is it reasonable to assume that you may provide testimony at the confirmation hearing on those topics?

A. It is reasonable to assume that I may provide testimony at the confirmation hearing on 6-c Romanette i.

Q. And moving up, so I don't forget this one, 6-b Romanette iii, "The Plan's distribution percentages

CHARLES MOORE

A. Yes.

Q. I'm going to show you what is Tab 3 in our binder set, a document previously marked as Orr Exhibit Number 19. Orr Exhibit Number 19 is Plan Confirmation Factual Propositions. I believe this was filed on the docket as Docket Number 5704-1. First, sir, have you seen this document before?

A. I have not.

Q. I'm going to point you to several of these topics. The first one where your name appears is 1-b Romanette iii, "Restructuring and reinvestment initiatives are reasonably expected to lead to a slightly increased" -- let me start again. "Restructuring and reinvestment initiatives are reasonably expected to lead to slightly increased revenues and decreased expenses over the next ten years."

Do you see your name there?

A. I do.

Q. Do you anticipate providing testimony on this issue?

A. Today or at the confirmation hearing?

Q. At the confirmation hearing.

A. I have not been told on which topics that I would be testifying to, but I think it's reasonable to assume that I would be testifying to those topics or to that

CHARLES MOORE

should be regarded as lower than calculated based on settlement assumption of 6.75 percent."

Is it reasonable to assume that you may provide testimony on this topic?

A. It is reasonable to assume that.

Q. Okay, sir. I'm going to show you Tab 4 of the binder set, but it was a document that was marked yesterday, and that's your expert report. Sir, I'm going to hand you what is Moore Exhibit Number 1 from yesterday's deposition. Ask you to turn to Pages 8 and 9.

First, let me ask you what was your understanding of the scope of your engagement related to your expert report?

A. When I was initially engaged, and when I say I, I'm referring to Conway MacKenzie, in January of 2013, there was not a specific scope item that related to preparation of an expert report. However, as the City filed for Chapter 9 and the Chapter 9 proceeding continued, it became clear to me that the City would like for me to prepare an expert report related to the reinvestment initiatives.

Q. Is that a shorthand way of calling it or do you also call it restructuring and reinvestment initiatives? How do you refer to it?

<p style="text-align: right;">Page 252</p> <p>1 CHARLES MOORE</p> <p>2 A. Sure. In this document, that is essentially a</p> <p>3 shorthand way of referring to it. The reinvestment</p> <p>4 initiatives are a defined term in my expert report.</p> <p>5 The -- in the Disclosure Statement, the 70-page</p> <p>6 document is titled "Restructuring and Reinvestment</p> <p>7 Initiatives," which contain all of the financial</p> <p>8 information tying into what are referred to here as</p> <p>9 the reinvestment initiatives.</p> <p>10 Q. Do Pages 8 and 9, do they provide a summary of all the</p> <p>11 opinions that you provide in this expert report?</p> <p>12 A. Yes.</p> <p>13 Q. Do they provide a summary of all the opinions that you</p> <p>14 intend to provide as an expert in this case?</p> <p>15 A. It is unclear to me if I may be asked to provide</p> <p>16 additional opinions, but at least as it relates to</p> <p>17 this report, these are my opinions.</p> <p>18 Q. For clarification, sir, are you providing an expert</p> <p>19 opinion on the City's ten-year projections?</p> <p>20 A. Could you define what you mean by ten-year</p> <p>21 projections?</p> <p>22 Q. Well, I will show you later, but I'm making specific</p> <p>23 reference to Exhibit M that contains the DWSD ten-year</p> <p>24 projections.</p> <p>25 A. I am not making an expert opinion at this point in</p>	<p style="text-align: right;">Page 254</p> <p>1 CHARLES MOORE</p> <p>2 A. This is a document that was prepared by Ernst & Young.</p> <p>3 Q. And what involvement did Conway MacKenzie have in the</p> <p>4 preparation of this document?</p> <p>5 A. There are certain line items within the 40-year</p> <p>6 projections for which Conway MacKenzie provided input</p> <p>7 in values.</p> <p>8 Q. Can you identify those line items?</p> <p>9 A. Yes. The -- Conway MacKenzie had involvement in the</p> <p>10 PFRS and GRS pension contributions as well as if you</p> <p>11 look at Page, I believe it's 4 of 9, the print is on</p> <p>12 top of it, but Exhibit 3-A under the "Revenue" section</p> <p>13 where it says "Restructuring" near the bottom,</p> <p>14 "Department Revenue Initiatives," and then down below</p> <p>15 under "Expenditures," under the "Restructuring"</p> <p>16 section, "Additional Operating Expenditures," the</p> <p>17 reorganization and then in parenthetical "Capital</p> <p>18 Investments, Blight, and Reinvestment Deferrals."</p> <p>19 Q. Are you providing any expert opinion with respect to</p> <p>20 either Exhibit K or any of the numbers contained</p> <p>21 therein?</p> <p>22 MR. HAMILTON: I'm going to object to form.</p> <p>23 But you can go ahead and answer if you</p> <p>24 understand the question.</p> <p>25 A. As I just went through, the -- there are line items</p>
<p style="text-align: right;">Page 253</p> <p>1 CHARLES MOORE</p> <p>2 this expert report on Exhibit M to the Disclosure</p> <p>3 Statement, and when I say Disclosure Statement, I'm</p> <p>4 referring to the Fourth-Amended Disclosure Statement</p> <p>5 filed May 5th.</p> <p>6 Q. Are you providing an expert opinion on the City's</p> <p>7 40-year projections?</p> <p>8 A. Can you clarify what you mean by the 40-year</p> <p>9 projections?</p> <p>10 Q. Certainly. It may take me a minute to find it. Sir,</p> <p>11 rather than hold up the deposition -- oh. No. Very</p> <p>12 good. Exhibit K to the Disclosure Statement, and I'll</p> <p>13 just show it to you for purposes of completeness here.</p> <p>14 Tab F in the binder set. Sir, I'm going to hand you</p> <p>15 what has previously been marked as McCormick Exhibit</p> <p>16 Number 13.</p> <p>17 MR. ULLMAN: What tab is that?</p> <p>18 MR. NEAL: It's Tab F in the binder set.</p> <p>19 It's Exhibit K to the Disclosure Statement, Forty-Year</p> <p>20 Financial Projections.</p> <p>21 BY MR. NEAL:</p> <p>22 Q. And, sir, can you identify this document?</p> <p>23 A. This is a document referred to as Plan of Adjustment,</p> <p>24 40-year projections.</p> <p>25 Q. And who prepared this document?</p>	<p style="text-align: right;">Page 255</p> <p>1 CHARLES MOORE</p> <p>2 within Exhibit K that tie directly to my expert</p> <p>3 report. Within my expert report, I don't have</p> <p>4 opinions specifically related to the 40-year</p> <p>5 projections, so at this point I have not been asked to</p> <p>6 render an expert opinion on the 40-year projections</p> <p>7 other than what is contained within my expert report.</p> <p>8 BY MR. NEAL:</p> <p>9 Q. Mr. Moore, I'm going to go back to the -- the ten-year</p> <p>10 projections for DWSD. Are you providing any opinion</p> <p>11 testimony with respect to the forecasted revenues and</p> <p>12 expenses that the DWSD may expect in future years?</p> <p>13 MR. HAMILTON: Object to form.</p> <p>14 You can answer.</p> <p>15 A. It's unclear if I will be asked to provide opinion</p> <p>16 testimony on Exhibit M.</p> <p>17 BY MR. NEAL:</p> <p>18 Q. Are you providing any opinion testimony at all with</p> <p>19 respect to the DWSD?</p> <p>20 MR. HAMILTON: Object to form.</p> <p>21 You can answer.</p> <p>22 A. Again, it's unclear if I will be asked to provide any</p> <p>23 opinion testimony to Exhibit M.</p> <p>24 BY MR. NEAL:</p> <p>25 Q. Is there anything in Moore Exhibit Number 1, your</p>

5 (Pages 252 to 255)

Elisa Dreier Reporting Corp. (212) 557-5558
950 Third Avenue, New York, NY 10022

<p style="text-align: right;">Page 256</p> <p>1 CHARLES MOORE</p> <p>2 expert report, that provides an opinion with respect</p> <p>3 to any matters related to the DWSD?</p> <p>4 A. No, sir.</p> <p>5 Q. My understanding is that Conway MacKenzie was engaged</p> <p>6 around the January 2013 time period; is that correct?</p> <p>7 A. That's correct.</p> <p>8 Q. And what was Conway MacKenzie hired to do with respect</p> <p>9 to the DWSD?</p> <p>10 A. First of all, to clarify, Conway MacKenzie was engaged</p> <p>11 by the City of Detroit, I think it was implied in what</p> <p>12 you said but just to be clear, and Conway MacKenzie</p> <p>13 was engaged to be the operational restructuring</p> <p>14 advisor to the City. The initial activity that Conway</p> <p>15 MacKenzie was asked to perform related to DWSD began</p> <p>16 in about July of 2013, and that was to assist in the</p> <p>17 development of ten-year projections for the water and</p> <p>18 sewer funds.</p> <p>19 Q. Okay. So between the time period of January 2013 and</p> <p>20 the end of June of 2013, what -- what was Conway</p> <p>21 MacKenzie asked to do or what did -- let me rephrase</p> <p>22 it. What did Conway MacKenzie do with respect to the</p> <p>23 DWSD?</p> <p>24 A. Again, just to clarify, from January of 2013 until</p> <p>25 July of 2013?</p>	<p style="text-align: right;">Page 258</p> <p>1 CHARLES MOORE</p> <p>2 Q. At this time was the City -- is it your understanding</p> <p>3 that the City was looking for ways to monetize the</p> <p>4 DWSD?</p> <p>5 A. I have heard that word used a number of times</p> <p>6 throughout the 18 months that I've been engaged by the</p> <p>7 City. I can't recall specifically when I would have</p> <p>8 heard that the first time, if that was before July of</p> <p>9 2013 or after.</p> <p>10 Q. Do you recall the context in which the word "monetize"</p> <p>11 or "monetization" was used?</p> <p>12 A. Generally I recall it being used in the context of</p> <p>13 figuring out ways to potentially create value or</p> <p>14 realize value on an asset of the City.</p> <p>15 Q. And that value would be created or realized for whom?</p> <p>16 A. Well, in the context of a transaction, that value</p> <p>17 could potentially, and I underscore the word</p> <p>18 "potentially," benefit the general fund of the City of</p> <p>19 Detroit.</p> <p>20 Q. And a transaction could include a regional authority</p> <p>21 or a third party sale or Operating Agreement?</p> <p>22 A. Yes. Possibly. There are other benefits that could</p> <p>23 be realized from a transaction as well. The general</p> <p>24 fund of the City is one example. The DWSD itself</p> <p>25 could also benefit. And then there could be other</p>
<p style="text-align: right;">Page 257</p> <p>1 CHARLES MOORE</p> <p>2 Q. Yes.</p> <p>3 A. Very little, if any, activity related to DWSD.</p> <p>4 Q. So starting in the July 2013 time frame, you said that</p> <p>5 you were asked to assist in the development of</p> <p>6 ten-year projections for the water and sewer funds; is</p> <p>7 that right?</p> <p>8 A. Yes.</p> <p>9 Q. And who asked you to provide that assistance?</p> <p>10 A. The Emergency Manager.</p> <p>11 Q. Do you recall specifically what he asked you to do?</p> <p>12 A. This was in conjunction with activities being</p> <p>13 undertaken by Miller Buckfire, and there were thoughts</p> <p>14 about potential alternatives for DWSD, and to</p> <p>15 facilitate pursuing those alternatives, there was a</p> <p>16 need -- it was identified that there was a need for</p> <p>17 ten-year financial projections for the water and sewer</p> <p>18 funds, and so Conway MacKenzie was specifically to</p> <p>19 assist in the development of those financial</p> <p>20 projections for use in pursuing various alternatives.</p> <p>21 Q. What were those alternatives?</p> <p>22 A. As I understood it at that time, the alternatives</p> <p>23 could include formation of a regional authority, a</p> <p>24 transaction with a third party or a separate private</p> <p>25 party, or no transaction or no changes at all.</p>	<p style="text-align: right;">Page 259</p> <p>1 CHARLES MOORE</p> <p>2 beneficiaries as well from different types of</p> <p>3 transactions.</p> <p>4 Q. So that we're speaking the same language, when you say</p> <p>5 a transaction, a transaction could include an</p> <p>6 authority, a sale, or an Operating Agreement?</p> <p>7 A. Yes. That's what I'm referring to when I say</p> <p>8 transaction.</p> <p>9 Q. Not just an authority?</p> <p>10 A. Correct.</p> <p>11 Q. Okay. When you started this process in July of 2013,</p> <p>12 was there a particular dollar amount you were looking</p> <p>13 for out of the DWSD?</p> <p>14 MR. HAMILTON: Object to form.</p> <p>15 You can answer.</p> <p>16 A. When you say a dollar amount that we were looking for</p> <p>17 out of DWSD, can you clarify that?</p> <p>18 BY MR. NEAL:</p> <p>19 Q. Sure. Were you looking for a certain dollar amount in</p> <p>20 the form of a -- of a lease payment, transaction</p> <p>21 payment, a PILOT payment?</p> <p>22 A. No.</p> <p>23 Q. So there was no dollar amount in mind?</p> <p>24 A. Correct.</p> <p>25 Q. But going back over different ways to -- what are the</p>

6 (Pages 256 to 259)

Elisa Dreier Reporting Corp. (212) 557-5558
950 Third Avenue, New York, NY 10022

CHARLES MOORE

different ways in which to realize value? Would it be -- a lease payment would be one of them?

A. Certainly. And since I'm not the investment banker on the engagement, I can list out some areas that I have been made aware of, but I'm sure that my listing is not going to be complete or all-inclusive. The lease payment that you just referred to to the extent that that lease payment benefits DWSD or -- and/or the general fund of the City, that could certainly be a benefit. And if you could repeat the question just so I make sure that I answer any other --

Q. Sure. I appreciate that. I will move on. Sticking with the lease payment for now, how does that provide any benefit to the DWSD?

A. Well, to the extent that there is a lease payment made and a portion of those lease payments or lease proceeds go to DWSD, presumably that would be a benefit for DWSD, but it would all have to depend on what the other terms and conditions surrounding the lease payment are.

Q. The lease payment would go from -- would not go to DWSD, would it?

A. We're talking about a hypothetical here. A lease payment -- and I have no idea what different types of

CHARLES MOORE

surrounding specific lease payments, and at that point I was involved in discussions that constituted amounts of a lease payment, but not at this time that we're referring to in the July 2013 time period.

Q. Okay. Sticking with the July 2013 time period, what exactly were you doing with respect to DWSD?

A. As I mentioned before, specifically developing a ten-year or assisting in the development of a 10-Year Business Plan, ten-year set of financial projections for the water and sewer funds, so that -- those activities were being undertaken without regard to what transaction alternatives would be pursued or considered.

Q. Who were you working with at the DWSD in connection with this effort to put together and develop a ten-year business plan and a ten-year set of financials?

A. There were four primary individuals. However, there were a significant number of other people that were interacted with, but the four primary individuals were Sue McCormick, Nickie Bateson, Bill Wolfson, and then Bart Foster. I include Bart Foster even though he's not an employee of DWSD.

Q. And who were your primary team members on the Conway

CHARLES MOORE

transactions there could be.

Q. Okay.

A. So I'm -- my point is is that I can't exclude a scenario whereby some portion of a lease payment could either be retained with DWSD or somehow otherwise benefit DWSD.

Q. At any time did Conway MacKenzie explore or evaluate a PILOT payment?

A. Could you explain what you mean by explore or evaluate?

Q. Are you familiar with what a PILOT payment is?

A. Yes.

Q. And that would be a payment in lieu of taxes; correct?

A. Yes.

Q. And the purpose of a -- of structuring a PILOT payment is to make up for lost tax revenue; correct?

A. Yes.

Q. Did you look into structuring any type of transaction that would result in a PILOT payment?

A. Subsequent to the activities that we're talking about here, I had some involvement in discussions with the counties, as they're commonly referred to, the surrounding county -- counties, and in those discussions, certainly there were discussions

CHARLES MOORE

MacKenzie side?

A. Sure. I had two colleagues of mine that were very actively involved in this process. Mike Hausman, Hausman, and Wade Johnston, J-o-h-n-s-t-o-n.

Q. Mr. Moore, can you describe generally the process by which you put together these financials? In other words, how long did it take? How many meetings were held? Just big picture, what was the process in putting together the ten-year business plan and financials?

A. Sure. It followed the process that we would normally undertake for pretty much any organization in terms of developing longer term financial projections, and in no particular order and certainly not listing every activity that would have been undertaken, first seeking to understand historical financial information, a significant number of meetings and interviews with management itself, understanding how the operation is being handled or -- or how it's being operated today as well as various factors that may impact its operation in the future, understanding in this case previous activities that had been explored, as an example, operational studies that were conducted as to potential operational savings that could be

CHARLES MOORE

realized, management's own plans, their financial projections that existed at that time, the changes from the standpoint of the litigation that had been dismissed, however, focal points of that that were being implemented by the management team. And all of that took place from approximately mid July until the end of September, so I believe that we completed the ten-year financial projection on or around September 30th of 2013.

Just one further point. We certainly interacted with other advisors as well. Other advisors include, number one, there was an engineering group specifically tasked with developing the capital improvement plan during that ten-year period, OHM Advisors. And then we also interacted with Miller Buckfire and the Emergency Manager and his staff.

Q. How is Miller Buckfire's role distinct from the role of Conway MacKenzie?

A. Miller Buckfire as the investment banker for the City was specifically looking at transaction alternatives or ways to harness value, those are my words, not their words, out of DWSD, and in order to do that, Miller Buckfire needs good financial information. The -- DWSD had some amount of financial projections

CHARLES MOORE

that time period from July through September. The conversations would have revolved around number -- early on in the process the information and the approach that they were using, followed by the observations of the information that they had reviewed, the cooperation that they were receiving. We had been instructed to complete the projections by the end of September, and so I certainly was focused in on making sure that we were on track to deliver what we were asked to do. I had a pretty significant amount of involvement as it relates to how some of the legacy costs would be handled in the projections, and then I queried Mr. Hausman and Mr. Johnston on several of the assumptions that underlie various line items in the projections.

Q. Had you ever prepared a business plan for a water or sewer district before?

A. Over the last 20 years, I have worked on well over a hundred financial projections, so I can't say if I've worked on specifically water or sewer operations or not. I have been involved with developing projections for municipalities. I just can't recall if they would have included water or sewer operations or not.

Q. Do you know if either Mr. Hausman or Mr. Johnston had

CHARLES MOORE

when we were asked to take on the task, but they only went out a few years, and they were not developed in the type of format that an investment banker typically would be looking for. That was one of the reasons why we were tasked with that activity. So getting into the details of developing these ten-year projections is something that is more our forte than say a -- an investment banker.

Q. To your knowledge, had DWSD ever prepared a set of ten-year business plan and -- let me restart.

To your knowledge, had DWSD ever prepared a ten-year business plan or set of projections?

A. I don't know.

Q. Did they have a five-year set of projections when you started this project?

A. I believe that's the duration of the projections that existed at the time that we began our process.

Q. And can you describe your personal level of involvement between this July, August, and September time frame?

A. Yes. Mike Hausman, a managing director with Conway MacKenzie, was the point person with Wade Johnston assisting him, and I probably had at least ten conversations with Mr. Hausman and Mr. Johnston during

CHARLES MOORE

ever prepared a business plan before for a water or a sewer district?

A. I don't know.

Q. I'm going to show you what is Tab Number 6 in our binder set. Mr. Moore, this has previously been marked as Orr Exhibit Number 10. Orr Exhibit Number 10 is Detroit Water and Sewer Department 10-Year Business Plan dated October 2nd, 2013. Sir, have you seen this document before?

A. Yes.

Q. And is this the --

MR. NEAL: Whoever's on the phone, if you could go on mute, that would be great.

BY MR. NEAL:

Q. Is this the final version of the Detroit Water and Sewer Department 10-Year Business Plan that you and your team prepared?

A. When you say final version, I just want to clarify. This was final as of this point. Exhibit M to the Disclosure Statement has certain updates to the 10-Year Business Plan. But yes, this is the -- the final that was presented to a number of parties on October 2nd.

Q. And who was it presented to?

CHARLES MOORE

A. There were probably 40 or more people in the room where this was presented, but that would have included representatives of at least Wayne, Oakland, and Macomb Counties and various advisors of theirs. There may have been other people involved as well, other external parties to whom this was presented.

Q. Were you involved in negotiations with the counties prior to October 2nd, 2013?

A. No.

Q. Do you know if the City had been involved in negotiations with the counties between the time of its Chapter 9 bankruptcy filing July 18th and August 2nd of 2013?

A. When you say the City, are you including its advisors?

Q. Yes, sir.

A. It is unclear to me what conversations, if any, may have taken place with the counties prior to this time.

Q. And what was the purpose of the meeting?

A. To present two documents. One was the business plan. I think actually we may have used a shortened version of it for the actual presentation, but we would have distributed this full document. And the other document was a -- a document prepared by Miller Buckfire which utilized quite a bit of the information

CHARLES MOORE

associated with the line items that you see there would be addressed.

Q. And they may appear elsewhere, sir, but at least I can spot those assumptions on Pages 6 and 7 of the document. Is that where some of them at least reside?

A. Yes. It does appear multiple places throughout the document, and specifically on Page 7 the assumption -- the individual assumption that I'm referring to is the second bullet under "Lease Payment," "Anticipated savings that have been factored into the lease payment include legacy liabilities retained by the City of Detroit . . ." And so what this is specifically getting at or what I was referring to in my comment earlier is the assumption about how certain costs would be handled as part of a -- assumed to be handled as part of a transaction.

Q. So going back to Page 40.

A. Yes.

Q. The table here based on bullet point one represents a summary of the estimated payment and expense reductions including legacy and debt service savings?

A. Yes.

Q. Do they include any operational savings?

A. Yes.

CHARLES MOORE

in the business plan but talked a little bit more about the basis for a proposed lease payment.

Q. Mr. Moore, I'm going to show you what is Tab 7 of the binder set previously marked, twice. One is Orr Exhibit 9 and McCormick Exhibit 30. Sir, can you identify the document I just handed you?

A. This appears to be that second document that I was referring to that was prepared by Miller Buckfire that was also discussed at the October 2nd meeting.

Q. If we could go back to Orr Number 10, your firm's 10-Year Business Plan. If I could ask you to turn to Page 40 of that document.

A. This is Bates stamp 70 -- ending 7084?

Q. Yes, sir.

A. Yes. I'm there.

Q. Actually going back one page to Page 39. It's Section VII, "Estimated Cost Savings"; is that correct?

A. Yes.

Q. So you and your team prepared a section in this report on the estimated cost savings that would be realized in the event of a transaction?

A. Yes. This section was prepared based on certain assumptions as it relates to how these costs

CHARLES MOORE

Q. Where are they?

A. The line item that is entitled "Optimization" are operational -- projected operational savings.

Q. And how are those numbers determined? In other words, what did you look at? Who did you talk to?

A. Sure. We spent a significant amount of time with the management team. We also reviewed the report that had been prepared by an outfit within perhaps the two years or so before we performed our work, and if I recall correctly, I think that was EMA --

Q. Yes.

A. -- was the name of the firm. And that contained a number of operational savings. So between discussing with management what was possible, looking at various trends in the expenses, understanding how the system was anticipated to be operated in the future, as well as benchmarking that against, at a minimum, the EMA information, there were a number of cost savings primarily related to labor that were built into the business plan. What you see here are actually only 50 percent of those. So there were certain labor -- or I'll call it optimization savings identified in total, and then as it relates to this specific table, only 50 percent of those are included here.

<p style="text-align: right;">Page 272</p> <p>1 CHARLES MOORE</p> <p>2 Q. And why only 50 percent?</p> <p>3 A. If I recall correctly, this is based on -- this --</p> <p>4 this was based on a specific lease scenario, and the</p> <p>5 underlying thinking was you would want the management</p> <p>6 team to be incentivized to deliver on these savings,</p> <p>7 and having the system retain some portion of the</p> <p>8 benefit, which here 50 percent is used, is a way of</p> <p>9 providing management that incentive.</p> <p>10 Q. There is a line item here on Page 40 for debt service</p> <p>11 savings. Do you see that?</p> <p>12 A. Yes.</p> <p>13 Q. And there's also a section in your report, that's</p> <p>14 Section 10 starting on Page 51, that concerns debt</p> <p>15 service.</p> <p>16 A. Yes.</p> <p>17 Q. So how did you arrive at the debt service savings?</p> <p>18 A. This actually is all based on information that was</p> <p>19 provided by Miller Buckfire, so Conway MacKenzie did</p> <p>20 not do anything as it relates to calculation of the</p> <p>21 potential savings that you're referring to for debt</p> <p>22 service.</p> <p>23 Q. So going back to Page 40, the bottom line in the chart</p> <p>24 is for the -- says "Lease Payment"; right?</p> <p>25 A. Yes.</p>	<p style="text-align: right;">Page 274</p> <p>1 CHARLES MOORE</p> <p>2 A. -- but if you were to add -- if you were to add up the</p> <p>3 water and the sewer system amounts, that same amount</p> <p>4 in total is being retained by the system.</p> <p>5 Q. Any other savings being retained by the system?</p> <p>6 A. Well, what's not contemplated in here is additional</p> <p>7 savings that could result as a result of a different</p> <p>8 management approach. So perhaps if there was a</p> <p>9 regional authority or perhaps as a result of a private</p> <p>10 operator, there could be additional savings that could</p> <p>11 be realized that would be retained by the system.</p> <p>12 Q. Was any analysis undertaken to determine the amount of</p> <p>13 those additional savings if there were a change in</p> <p>14 management?</p> <p>15 A. No. We typically would stay away from something like</p> <p>16 that because those aren't our assumptions to make.</p> <p>17 Obviously it would depend on who that other party is</p> <p>18 and the approach that they would take.</p> <p>19 Q. Was there ever a time when the lease payment that was</p> <p>20 being proposed was not tied to anticipated cost</p> <p>21 savings?</p> <p>22 MR. HAMILTON: I'm going to object because</p> <p>23 of the way you've worded that question. I have to</p> <p>24 instruct the witness not to answer to the extent his</p> <p>25 answer would disclose anything that was discussed or</p>
<p style="text-align: right;">Page 273</p> <p>1 CHARLES MOORE</p> <p>2 Q. So at this time on October 2nd, 2013, it was</p> <p>3 contemplated that the lease payment would be</p> <p>4 determined by the total cost savings that DWSD would</p> <p>5 experience if there were a transaction?</p> <p>6 A. I would characterize it a little bit differently.</p> <p>7 This is really providing a basis for how this level of</p> <p>8 lease payment could be supported, but the lease</p> <p>9 payment itself would be a payment for a number of</p> <p>10 factors, including a transfer of control.</p> <p>11 Q. At this time was there any consideration by the City</p> <p>12 and its professional advisors to keep the savings</p> <p>13 within the systems?</p> <p>14 A. Well, I just went through right now under this -- this</p> <p>15 page here --</p> <p>16 Q. Yes.</p> <p>17 A. -- 50 percent of the optimization of what is referred</p> <p>18 to as the operational savings are being retained in</p> <p>19 the system.</p> <p>20 Q. And what would that total be? Is it reflected in the</p> <p>21 chart?</p> <p>22 A. It is not reflected in this chart here. But if you --</p> <p>23 if -- if you add up all of those rows, we don't have a</p> <p>24 total here on the far right, --</p> <p>25 Q. Sure.</p>	<p style="text-align: right;">Page 275</p> <p>1 CHARLES MOORE</p> <p>2 done in connection with court-ordered mediation.</p> <p>3 But putting -- if you can answer the</p> <p>4 question with respect to anything that was considered</p> <p>5 outside of the mediation, you should do so.</p> <p>6 THE WITNESS: Understood.</p> <p>7 A. I want to -- Mr. Neal, if I can clarify.</p> <p>8 BY MR. NEAL:</p> <p>9 Q. Sure.</p> <p>10 A. Because I think your question is different than what I</p> <p>11 had responded to before. I think your question was is</p> <p>12 there a time that the lease payment was not tied to</p> <p>13 cost savings. As I indicated before, what is really</p> <p>14 shown here is how a lease payment could be supported</p> <p>15 because of these cost savings, but the lease payment</p> <p>16 itself has not been specifically tied to the actual</p> <p>17 cost savings. So there have been times that the lease</p> <p>18 payment that has been discussed has varied, but in</p> <p>19 each of those instances the cost savings are more to</p> <p>20 show how a lease payment could be supported rather</p> <p>21 than the basis for the lease payment.</p> <p>22 Q. Thank you. At this time was the City asking for a</p> <p>23 lease payment in the amount reflected here on Page 40,</p> <p>24 that is, 94.2 million in 2015 going all the way up to</p> <p>25 228.5, I believe, million in 2023?</p>

10 (Pages 272 to 275)

<p style="text-align: right;">Page 276</p> <p>1 CHARLES MOORE</p> <p>2 A. I believe that's what was being requested. This --</p> <p>3 this is sort of the transition point from the work</p> <p>4 that Conway MacKenzie was doing to then getting into</p> <p>5 the investment banker approach that Miller Buckfire</p> <p>6 used.</p> <p>7 Q. What was the county's reaction to the -- can I call</p> <p>8 this a proposal, sir? Would you characterize this as</p> <p>9 a proposal?</p> <p>10 A. When you say this, can you clarify what this is?</p> <p>11 Q. Yes. Or Exhibit 10, your 10-Year Business Plan and</p> <p>12 the lease payment reflected on Page 40.</p> <p>13 A. The document itself is just the business plan. It</p> <p>14 contains information about a potential lease payment.</p> <p>15 I don't know if the word "proposal" is used in here.</p> <p>16 From Conway MacKenzie's standpoint, we were not</p> <p>17 developing a business plan for a specific proposal.</p> <p>18 The output of our work, I believe, was generally used</p> <p>19 to make various proposals. But I don't -- I would not</p> <p>20 consider this a proposal. I don't know if that word</p> <p>21 is used anywhere in this document.</p> <p>22 Q. What was the county's reaction to the 10-Year Business</p> <p>23 Plan as reflected in Orr Exhibit 10?</p> <p>24 A. Can you clarify what you mean by their reaction?</p> <p>25 Q. Sure. I will be a little more focused. What was</p>	<p style="text-align: right;">Page 278</p> <p>1 CHARLES MOORE</p> <p>2 they agree with your estimated cost savings for each</p> <p>3 of the years from 2015 to 2023?</p> <p>4 A. I don't know if they agreed with them or not. I know</p> <p>5 that a transaction at least at this point hasn't</p> <p>6 gotten done.</p> <p>7 Q. But you don't know if the counties or their</p> <p>8 representatives had a view or opinion with respect to</p> <p>9 your calculation of the estimated cost savings at this</p> <p>10 time?</p> <p>11 A. Well, when you say at this time, are you referring to</p> <p>12 just October 2nd or following October 2nd?</p> <p>13 Q. Well, I know there was a tremendous amount of</p> <p>14 activity. If it -- if you can answer the question in</p> <p>15 the October, November, December time frame.</p> <p>16 A. Yes. So what I do recall is a fair amount of</p> <p>17 correspondence from one county in particular, Oakland</p> <p>18 County, from Mr. Daddow indicating various questions</p> <p>19 and views on these two documents, the two documents</p> <p>20 that we previously discussed that were presented on</p> <p>21 October 2nd, 2013.</p> <p>22 Q. And do you recall whether Oakland agreed or disagreed</p> <p>23 with the cost savings estimates as reflected on Page</p> <p>24 40 of Orr 10?</p> <p>25 A. Well, rather than speculate on whether they agree or</p>
<p style="text-align: right;">Page 277</p> <p>1 CHARLES MOORE</p> <p>2 their reaction to the estimated cost savings that are</p> <p>3 reflected in Orr Exhibit 10?</p> <p>4 A. Well, I don't know specifically what the reaction is,</p> <p>5 but what I can tell you is that as a result of this</p> <p>6 meeting, actually the -- I don't know if it was a</p> <p>7 consortium of the counties or one county in</p> <p>8 particular, but an accounting firm by the name of UHY</p> <p>9 was engaged. They -- by the county or counties. They</p> <p>10 attended this meeting and then subsequent to this</p> <p>11 meeting undertook a variety of due diligence efforts</p> <p>12 through which we provided them additional information.</p> <p>13 And that transpired over the period of, if I recall</p> <p>14 correctly, the month of October, maybe into early</p> <p>15 November.</p> <p>16 Q. And did you have any direct interaction with this</p> <p>17 accounting firm during this time period?</p> <p>18 A. I personally did not. I have interacted with an</p> <p>19 individual that I believe oversaw the team for UHY,</p> <p>20 but not in detail, more just acknowledging that they</p> <p>21 were undertaking efforts, due diligence efforts, but</p> <p>22 Mr. Hausman and Mr. Johnston interacted with them</p> <p>23 quite a bit.</p> <p>24 Q. Let me state it a different way. Did the counties</p> <p>25 agree with the calculations reflected on Page 40? Did</p>	<p style="text-align: right;">Page 279</p> <p>1 CHARLES MOORE</p> <p>2 disagree, I would let the communications from the</p> <p>3 county or counties speak for themselves.</p> <p>4 Q. Is it fair to say there was a -- that Oakland County</p> <p>5 disagreed with the cost savings summary that you</p> <p>6 prepared?</p> <p>7 MR. HAMILTON: Can you put a time period on</p> <p>8 that question or do I have to object again?</p> <p>9 MR. NEAL: I'm happy to put a time frame on</p> <p>10 it.</p> <p>11 BY MR. NEAL:</p> <p>12 Q. And that's in the October, November, December time</p> <p>13 frame.</p> <p>14 A. What I seem to recall is that there were -- there was</p> <p>15 not necessarily a good understanding of a number of</p> <p>16 the calculations. I think that lack of understanding</p> <p>17 perhaps caused them to not agree, but at the same</p> <p>18 time -- and -- and there are a variety of -- obviously</p> <p>19 there's a lot of information here, so I'm using a very</p> <p>20 general statement. I think that a significant amount</p> <p>21 of information was provided on areas where there may</p> <p>22 not have been a good understanding and -- and the</p> <p>23 perception as a result that they didn't agree. I am</p> <p>24 aware also of, and this is information that was very</p> <p>25 commonly reported on in the -- in the press, their</p>

11 (Pages 276 to 279)

<p style="text-align: right;">Page 280</p> <p>1 CHARLES MOORE</p> <p>2 differing views on the amount of capital improvement</p> <p>3 that was required. So I -- that's the information</p> <p>4 that was coming my way.</p> <p>5 Q. During this time period did you ever receive emails</p> <p>6 directly or copies of emails from Robert Daddow of</p> <p>7 Oakland County?</p> <p>8 A. Yes.</p> <p>9 Q. And did you ever respond to emails that -- that he</p> <p>10 sent to your team about your estimate of the cost</p> <p>11 savings?</p> <p>12 A. Specifically between October and December, I recall</p> <p>13 one response in particular that we, we being Conway</p> <p>14 MacKenzie, had significant involvement in terms of</p> <p>15 providing information for the response, help --</p> <p>16 helping to draft the response. I don't recall how</p> <p>17 many communications there were from Mr. Daddow during</p> <p>18 that October through December time period beyond I</p> <p>19 think it was the initial communication from</p> <p>20 Mr. Daddow, the reply to which I was just referring to</p> <p>21 where we had pretty significant involvement. I don't</p> <p>22 know if we provided significant input on any other</p> <p>23 responses. We were not, when I say we again, Conway</p> <p>24 MacKenzie, was not the primary point for</p> <p>25 communications with the counties. That was Miller</p>	<p style="text-align: right;">Page 282</p> <p>1 CHARLES MOORE</p> <p>2 undertaken. That may have been before the end of</p> <p>3 December. I don't recall.</p> <p>4 Q. What was your understanding of the City's motivation</p> <p>5 for pursuing a proposed authority?</p> <p>6 A. There could have been multiple reasons for it.</p> <p>7 Certainly one that was -- or I should say two primary</p> <p>8 items that I believe that I heard mentioned multiple</p> <p>9 times was positioning DWSD as a stronger entity and</p> <p>10 realizing value from DWSD.</p> <p>11 Q. Are those two motivations or one?</p> <p>12 A. Two.</p> <p>13 Q. Okay. So the first would be positioning DWSD as a</p> <p>14 stronger entity, and the second would be -- if you</p> <p>15 could say it again.</p> <p>16 A. Sure. Realizing value. I think that's what I said.</p> <p>17 Q. Okay. And how would an authority position DWSD as a</p> <p>18 stronger entity?</p> <p>19 A. Well, to the extent that you have stronger management,</p> <p>20 that could potentially strengthen it. To the extent</p> <p>21 that the cost structure is different, that could</p> <p>22 position it as a stronger entity. There are a variety</p> <p>23 of -- of ways that the -- the management and operation</p> <p>24 of the entity could potentially be improved through</p> <p>25 some sort of transaction.</p>
<p style="text-align: right;">Page 281</p> <p>1 CHARLES MOORE</p> <p>2 Buckfire.</p> <p>3 Q. Last question along these lines and I'll move on. In</p> <p>4 the October through December time period, did you have</p> <p>5 meetings with Oakland County? You being you,</p> <p>6 Mr. Moore, not the broader group. But, I mean, did</p> <p>7 you have any meetings with Oakland County in this time</p> <p>8 period?</p> <p>9 A. I've -- we've covered the October 2nd meeting.</p> <p>10 Q. Yes.</p> <p>11 A. Following the October 2nd meeting, the following week</p> <p>12 was a comprehensive mediation day, and counsel will</p> <p>13 stop me if I'm going too far on this, I don't think</p> <p>14 this is, but at the beginning of the mediation day</p> <p>15 Conway MacKenzie presented information that we have</p> <p>16 here, again, these documents, to all of the parties</p> <p>17 involved in the mediation, and I believe the counties</p> <p>18 were there then. I'm not positive about that, but I</p> <p>19 think the counties were there then. After that time,</p> <p>20 through the end of December, I don't -- I don't</p> <p>21 believe that I met with anyone else from the counties.</p> <p>22 There was a time that I had a sit-down discussion with</p> <p>23 Brooks Patterson, the Oakland County Executive. I</p> <p>24 can't recall when exactly that was. But we did -- we</p> <p>25 did discuss the -- the process that was being</p>	<p style="text-align: right;">Page 283</p> <p>1 CHARLES MOORE</p> <p>2 Q. Was one of the reasons to pursue an authority to</p> <p>3 obtain a better credit rating for the systems?</p> <p>4 A. Certainly I heard that numerous times. The general</p> <p>5 belief that DWSD was tainted to a certain extent by</p> <p>6 its association with the City of Detroit and on a</p> <p>7 standalone basis may be a stronger rated credit.</p> <p>8 Q. And was it the belief that if the authority would be a</p> <p>9 stronger rated credit, that it would be able to obtain</p> <p>10 lower financing costs?</p> <p>11 MR. HAMILTON: Object to form.</p> <p>12 You can answer.</p> <p>13 A. That was the assumption, yes.</p> <p>14 BY MR. NEAL:</p> <p>15 Q. And that would lead to debt service savings?</p> <p>16 A. Presumably, yes.</p> <p>17 Q. And that was the assumption of the Emergency Manager</p> <p>18 and his professional advisors?</p> <p>19 A. Yes. And that is what is essentially contained,</p> <p>20 although Conway MacKenzie did not develop that when we</p> <p>21 were discussing before on Page 40 of this October 2nd</p> <p>22 document the debt savings or debt service savings.</p> <p>23 That was the underlying principle there.</p> <p>24 Q. Did Conway MacKenzie perform any analysis with respect</p> <p>25 to debt service savings as they related to the -- the</p>

12 (Pages 280 to 283)

<p style="text-align: right;">Page 284</p> <p>1 CHARLES MOORE</p> <p>2 DWSD at any time?</p> <p>3 A. No.</p> <p>4 Q. Conway MacKenzie relied upon the work of Miller</p> <p>5 Buckfire and others?</p> <p>6 A. Yes.</p> <p>7 Q. Okay. Was the proposed lease payment to the City</p> <p>8 presented as something that would be user rate neutral</p> <p>9 to the counties?</p> <p>10 A. I don't know about the word "user," but certainly we</p> <p>11 used multiple times the words "rate neutral."</p> <p>12 Management views rate increases of four percent per</p> <p>13 year to be what is referred to as rate neutral, and</p> <p>14 that is -- other than two years for the water fund,</p> <p>15 within this ten-year projection, those are the implied</p> <p>16 rate increases every year.</p> <p>17 Q. So if the lease payment did not require rates to be</p> <p>18 raised higher than four percent a year, it would be</p> <p>19 considered rate neutral?</p> <p>20 A. I think that's a fair statement.</p> <p>21 Q. Okay. Was there a general agreement among the</p> <p>22 Emergency Manager and his professional advisors that</p> <p>23 in the absence of the regional authority that DWSD's</p> <p>24 financing costs would be higher?</p> <p>25 A. Higher than what?</p>	<p style="text-align: right;">Page 286</p> <p>1 CHARLES MOORE</p> <p>2 projections they were working on for DWSD, and I don't</p> <p>3 think you intend to do that in your question, do you?</p> <p>4 MR. NEAL: No. I can be more specific.</p> <p>5 BY MR. NEAL:</p> <p>6 Q. Let me ask the question more broadly. Were you</p> <p>7 looking to fill a hole at all with this lease payment</p> <p>8 with respect to any of the operations of the City's</p> <p>9 general fund or any proposed Plan of Adjustment that</p> <p>10 was being contemplated at the time?</p> <p>11 A. As it relates to what's referred to as the</p> <p>12 restructuring and reinvestments, this -- in the</p> <p>13 Disclosure Statement, the 70-page document, it's</p> <p>14 Exhibit 5 in my expert report, --</p> <p>15 Q. Yes.</p> <p>16 A. -- there never has been and there still is not any</p> <p>17 cash from DWSD that plays a role in that. As it</p> <p>18 relates to the City's overall projections, as an</p> <p>19 example, what you referred to before, the 40-year</p> <p>20 projections or the ten-year projections, certainly</p> <p>21 from time to time throughout this entire process there</p> <p>22 have been funds that come from DWSD. In the ordinary</p> <p>23 course, there are funds that come from DWSD as an</p> <p>24 allocation of costs for services that are provided by</p> <p>25 the City. Scenarios that involve changes to cost</p>
<p style="text-align: right;">Page 285</p> <p>1 CHARLES MOORE</p> <p>2 Q. Higher than what they would be if an authority were</p> <p>3 created.</p> <p>4 A. I'm not sure that I understood your question. It</p> <p>5 seems like what we just talked about, which is --</p> <p>6 Q. It's the inverse of that.</p> <p>7 A. Yes. Yes. If it's the inverse of it, then yes. If</p> <p>8 there are savings with an authority, then as compared</p> <p>9 to the authority, it would be higher.</p> <p>10 Q. Going back to Page 40 of Orr Exhibit 10. The lease</p> <p>11 payment that's reflected there. How would these funds</p> <p>12 be used by the City as proposed?</p> <p>13 A. There's -- there's no proposal as to how these funds</p> <p>14 would be used, and I know Conway MacKenzie never took</p> <p>15 a position as it relates to this document as to how</p> <p>16 those proceeds would be used.</p> <p>17 Q. Let me ask it a little differently. The answer may</p> <p>18 very well be the same. At -- during this time period,</p> <p>19 were you plugging in any revenue stream from DWSD into</p> <p>20 any of your models that Conway MacKenzie was</p> <p>21 preparing, for instance, the restructuring or</p> <p>22 reinvestment initiatives?</p> <p>23 MR. HAMILTON: I'm going to object to the</p> <p>24 form of that question. He's already testified they --</p> <p>25 if you say the models, that includes the ten-year</p>	<p style="text-align: right;">Page 287</p> <p>1 CHARLES MOORE</p> <p>2 reimbursement certainly have been looked at throughout</p> <p>3 this entire process.</p> <p>4 Q. Other than legacy liability costs, at any time did you</p> <p>5 consider a dollar amount that the City would or should</p> <p>6 obtain from the DWSD?</p> <p>7 A. The only reason I'm hesitating here is I want to make</p> <p>8 sure that I don't run into any issues with the</p> <p>9 mediation. I think I can -- I think I can answer the</p> <p>10 question yes. I'm not sure if I can go further than</p> <p>11 that.</p> <p>12 Q. Well, let me see if you can answer the question if I</p> <p>13 restrict the time period. Leading up to the filing of</p> <p>14 the Fourth-Amended Plan of Adjustment on May 5th,</p> <p>15 2014, was the City at any time looking to obtain a</p> <p>16 certain dollar amount from DWSD aside from the legacy</p> <p>17 obligations to help fund its plan?</p> <p>18 MR. HAMILTON: Again, I'm going to have to</p> <p>19 object and instruct the witness not to disclose</p> <p>20 anything that was considered in connection with</p> <p>21 court-ordered mediation.</p> <p>22 A. So we've already discussed the October 2nd document,</p> <p>23 and this contains a lease payment, specific amounts.</p> <p>24 BY MR. NEAL:</p> <p>25 Q. Yes.</p>

13 (Pages 284 to 287)

CHARLES MOORE

A. Subsequent to that, there were discussions around a specific lease payment.

Q. Yes.

A. And I'm referring to in the January time period, January and February time period. After that, I really did not have any discussions with DWSD -- or I'm sorry, with -- with the counties, that is, from about early March on. I think mediation was ordered in April. So I can speak to what was discussed in the January and February time period, but that's probably it.

Q. Mr. Moore, that's very fair, and I'll show you a couple of the presentations that you prepared in that time period, and we'll deal with them in due course.

A. Okay.

MR. HAMILTON: Before we do that, can we take a break?

MR. NEAL: Yes. Now would be a good time.

VIDEO TECHNICIAN: The time is 10:14 a.m.

We are now off the record.

(Recess taken at 10:14 a.m.)

(Back on the record at 10:26 a.m.)

BY MR. NEAL:

Q. Mr. Moore, I'm going to show you what is Tab 22 in our

CHARLES MOORE

from Mr. Haggard on which I'm copied. Obviously you can imagine I have thousands of emails related to the City. But certainly the document that's attached here, Conway/Miller Buckfire Response, that's what I was referring to either -- earlier as it relates to something that my team and I provided a significant amount of input to.

Q. Do you recall seeing, independently of any email chain, the email from Robert Daddow to Ken Buckfire that's at the bottom of Page 1 and continues on to Pages 2, 3, and 4?

A. Actually that's the one that I don't recall specifically. I know that I'm not on that email. But it is part of Kevin's email. So I just don't -- I don't recall reviewing that one from Bob Daddow to Ken Buckfire.

Q. Do you ever recall Mr. Daddow or anyone from Oakland claiming that all the purported savings of the proposed new authority are going to the City and no benefits are going to the DWSD or words to that effect?

A. I generally -- I generally recall him saying something like that, yes. Or reading something where he had put that in.

CHARLES MOORE

binder set.

MR. NEAL: If I could have this marked. I don't know where we are in terms of exhibit numbers. Are we continuing with the numbering scheme from yesterday? Do we know which number we left off on yesterday? Can anyone provide assistance? I think we went through Number 7 yesterday I'm told. So if we could mark this as Number 8. This will be Moore Number 8.

MARKED BY THE REPORTER:

DEPOSITION EXHIBIT 8

10:27 a.m.

MS. QUADROZZI: And I'm sorry. What tab is this?

MR. NEAL: Tab 22.

BY MR. NEAL:

Q. Mr. Moore, if you could take a moment and familiarize yourself with this document. It purports to be an email from Kevin Haggard dated Monday, October 21, 2013, to Bob Daddow and you are cc'd it appears.

A. Yes.

Q. Mr. Moore, have you seen this -- these email exchanges before?

A. I don't specifically recall the email at the top here

CHARLES MOORE

Q. And do you agree or disagree with that position?

A. I disagree with that.

Q. On what basis?

A. Well, I specifically pointed out before the optimization savings, 50 percent of those were staying with the system, not to mention what I indicated before. What we did not do is we did not incorporate in with the projections any other potential savings that could be realized as a result of a different management team, a different approach to the operation.

Q. So focusing on the attachment, the caption is "City of Detroit: DWSD, Oakland County Business Issues Memo, Conway/Miller Buckfire Response, October 18th, 2013." Do you see that?

A. Yes.

Q. And this is a document you recall working on?

A. Yes.

Q. I see that it's broken down between the Miller Buckfire response and the Conway MacKenzie comments. Do you see that?

A. Yes.

Q. Did you provide any input with respect to the Miller Buckfire response?

<p style="text-align: right;">Page 292</p> <p>1 CHARLES MOORE</p> <p>2 A. I don't recall. It's very possible, yes. We -- we</p> <p>3 both would have prepared responses and then reviewed</p> <p>4 each other's work, if I recall correctly, to provide</p> <p>5 any comments for additional clarifications.</p> <p>6 Q. Thank you. I'm going to show you what is in Tab 24 of</p> <p>7 our binder set. This is a document previously marked</p> <p>8 as Orr Number 13. My first question, sir, is, have</p> <p>9 you seen this document before?</p> <p>10 A. Yes.</p> <p>11 Q. Did Conway MacKenzie provide any input with respect to</p> <p>12 this document?</p> <p>13 A. No.</p> <p>14 Q. And for the record, it purports to be an analysis of</p> <p>15 DWSD's savings dated December 2013. So when I asked</p> <p>16 you if you'd seen it before, had you seen it at or</p> <p>17 about the time this document was prepared?</p> <p>18 A. I saw it after it was prepared.</p> <p>19 Q. In what context? At a meeting?</p> <p>20 A. I believe that I received it directly from Miller</p> <p>21 Buckfire, I can't recall who from Miller Buckfire,</p> <p>22 after it had been presented to, at a minimum, Oakland</p> <p>23 County. I'm not sure if any other counties received</p> <p>24 it.</p> <p>25 Q. If you'd turn to Page 3. I'm not sure if you can</p>	<p style="text-align: right;">Page 294</p> <p>1 CHARLES MOORE</p> <p>2 Q. And you don't know how the number was arrived at?</p> <p>3 A. I do not.</p> <p>4 Q. On the next slide, Slide 4, there's a chart here, and</p> <p>5 one of the -- one of the shades in this bar chart is</p> <p>6 "DWSD Business Plan." Ask you, sir, do you know what</p> <p>7 that is in reference to?</p> <p>8 A. No. I did not prepare this document.</p> <p>9 Q. So in terms of the proposed breakdowns reflected in</p> <p>10 this chart, you're not in a position to provide any</p> <p>11 testimony on it?</p> <p>12 A. Correct. It's not my document.</p> <p>13 Q. Is it your document?</p> <p>14 A. It is not my document.</p> <p>15 Q. Very good. Show you what is marked as Tab -- what's</p> <p>16 in our binder set as Tab 25, previously marked as Orr</p> <p>17 Exhibit Number 14. Orr Exhibit Number 14 is</p> <p>18 Comparison of DWSD Frameworks, January 2nd, 2014, a</p> <p>19 document that appears to have been prepared by Miller</p> <p>20 Buckfire.</p> <p>21 A. Yes.</p> <p>22 Q. Have you seen this document before?</p> <p>23 A. I have.</p> <p>24 Q. When did you first see it?</p> <p>25 A. I believe that I saw it on or around January 2nd.</p>
<p style="text-align: right;">Page 293</p> <p>1 CHARLES MOORE</p> <p>2 provide an answer to my questions, but let me take a</p> <p>3 stab at it. You see the chart -- well, I don't know</p> <p>4 what you would call it. On Page 3. You're on Page 3,</p> <p>5 sir?</p> <p>6 A. Yes, I am.</p> <p>7 Q. And Page 3 is captioned "Use of Savings"; correct?</p> <p>8 And it's broken down between the City and the</p> <p>9 counties; correct?</p> <p>10 A. Yes.</p> <p>11 Q. So let me just ask you, did you prepare or provide any</p> <p>12 input with respect to the estimated NPV numbers that</p> <p>13 are reflected on this page?</p> <p>14 A. No.</p> <p>15 Q. Do you know what is meant by City of Detroit Retail</p> <p>16 Capital Improvements that's in one of the boxes on</p> <p>17 this chart?</p> <p>18 A. Again, I did not prepare this document. I can only</p> <p>19 speculate in terms of the City of Detroit has -- DWSD</p> <p>20 is comprised of a lot of infrastructure around</p> <p>21 southeastern Michigan, and there is a retail part</p> <p>22 servicing the City of Detroit that I would assume</p> <p>23 that's what that's referring to.</p> <p>24 Q. But you don't know for certain?</p> <p>25 A. I don't know for certain.</p>	<p style="text-align: right;">Page 295</p> <p>1 CHARLES MOORE</p> <p>2 Q. And what input did you and your team have with respect</p> <p>3 to Orr Exhibit 14?</p> <p>4 A. I don't recall if we provided input to this document</p> <p>5 or not.</p> <p>6 Q. And who was the intended audience for this document;</p> <p>7 do you know?</p> <p>8 A. I don't recall. There was -- I don't recall if it was</p> <p>9 intended for internal purposes, at least initially,</p> <p>10 which I'm inclined to recall that's -- I seem to</p> <p>11 recall that may be the case. But right around that</p> <p>12 same time is when significant mediation activities</p> <p>13 were occurring, so it could have been prepared for use</p> <p>14 in mediation.</p> <p>15 Q. If you turn to Slide 10 of this document. Did you or</p> <p>16 your team have any input in the -- in the construction</p> <p>17 of this slide, which is "Change in Transaction</p> <p>18 Savings"?</p> <p>19 A. I don't recall if we had any input on this document at</p> <p>20 all.</p> <p>21 Q. This document aside, did you prepare any different</p> <p>22 calculations of any proposed savings that could be</p> <p>23 achieved between the October 2nd time frame and the</p> <p>24 January 2nd time frame?</p> <p>25 A. Not that I recall.</p>

15 (Pages 292 to 295)

CHARLES MOORE

Q. There came a time when the Emergency Manager and his advisors were proposing a \$47 million annual lease payment; is that right?

A. Yes.

Q. And when was that time period?

A. I believe that was in January of 2014.

Q. And what supported the -- what was the basis for the \$47 million lease payment that was being proposed?

A. That was something that Mr. Buckfire came up with.

I -- again, going back to what I indicated earlier, any of the lease payments, there are a whole host of items that go into a lease payment, including transfer of control. There were -- as part of just the \$47 million, there were specific costs that were identified that were anticipated to be dealt with as part of the Chapter 9 process which supported payment of that \$47 million.

Q. And what were those specific costs that were identified?

A. The OPEB costs. By OPEB, other post-employment benefits. And also, if I recall correctly, savings that related to the Certificates of Participation.

Q. And how would those savings be achieved at that time period?

CHARLES MOORE

January, Stacy Fox, the Deputy Emergency Manager, became involved -- I think she had been involved before, but she took much more of a leadership role in interacting with the counties on behalf of the City. It had -- it seemed at that point that the discussions had hit some significant roadblocks, and so Ms. Fox asked me to get involved in the process, so I participated in multiple meetings with county representatives, and that would have been, as I recall, beginning in January, continuing through February and into early March, I believe, and that would have included face-to-face meetings as well as conference calls.

Q. And generally, broadly speaking, what was the purpose of those meetings?

A. To provide information that the counties were looking for, to understand other issues that the counties had, and essentially get to a conclusion in the most expeditious manner as to whether there was the possibility of a transaction to form a regional authority or not.

Q. And you were unable to get to such a conclusion during this time period, is that correct, between January and April of 2014?

CHARLES MOORE

A. It was based on what the anticipated treatment of those claims was going to be.

Q. Under a Plan of Adjustment?

A. Yes.

Q. So the operating assumption by the Emergency Manager and his advisors at that time is that to the extent the plan achieves savings on the part of OPEB and COPs in particular that DWSD should pay for its share?

A. I can't tell you what the thinking was, but what I'm referring to, again, going back to there were a variety of times that specific items were pointed to that would support the payment of a lease payment, and in that regard, to the extent that as a result of the treatment of certain claims costs that DWSD would otherwise be paying free up room to make a lease payment, that's what I was referring to.

Q. Such that the lease payment would be cost neutral to the DWSD?

A. Yes.

Q. During the period of January 2nd through early April of 2014, can you describe the level of Conway MacKenzie's involvement with negotiations over the creation of a new authority?

A. Somewhere in, I believe it may have been later

CHARLES MOORE

A. When you say such a conclusion, you're referring to the response that I just gave?

Q. Exactly.

A. Okay. We did not embark upon the process that I was advocating to get to that answer.

Q. Why not?

A. I think that there were a variety of reasons, some that were cited. The counties wanted support for payment of professionals. That was one factor. Another factor is the counties were looking for, I'll use the word a backstop from the State of Michigan as it relates to bad debts of DWSD, and the State was not able to provide the type of response that the counties were looking for, and, probably my words, not their words, but I think that that was deemed sort of a non-starter if that didn't exist. And there may have been -- oh. Another item. I think it's fair to say that the City, and when I say the City, the EM team and the advisors, didn't see eye to eye with the counties, in particular Oakland County, as it relates to the information that was critical to getting to the next point. The counties were looking for information that just did not exist but which the City did not feel was critical at that point to get to where we

CHARLES MOORE

were trying to go.

Q. Can you give me a couple of examples?

A. The 2013 audited financials, fiscal year 2013 audited financials.

Q. Did you view that as an unreasonable request by the counties?

A. What I indicated quite specifically is that I can understand how that information would be important, but really what we were -- the whole focus was to conduct diligence around the future business plan, and the 2013 audit report is certainly something that could be reviewed when it becomes available as part of confirmatory due diligence, but the critical element that we were -- that we should all be focused on was the future, not what happened in the past, because it would be the future operations of DWSD that would be critical.

Q. But isn't it fair to say you can only project future operations by looking at past performance?

A. Oh, there was plenty of past or historical information. So we had plenty of historical information. The -- I think the point of contention is -- I'm involved in a lot of transactions all the time, and people seem to be able to conduct diligence

CHARLES MOORE

appropriate funds -- appropriate funds for the counties' professionals, and the City was looking at potentially providing interim funds for those fees between now and when the State would be able to go through its process.

Q. Did the counties take particular issue with the \$47 million proposed lease payment?

A. What do you mean by particular issue?

Q. The number's too high, the number's not supported. Any issue with respect to the 47 million.

A. I think I probably heard both of those items.

Q. I assume you attempted to respond to those concerns; right?

A. Yes, sir.

Q. Were -- did you view it as your role to try to justify the \$47 million payment?

A. Certainly I -- I felt that it was important to provide information to the counties that supported what we had indicated, which is specific cost savings alone would cover this proposed \$47 million lease payment, and in that regard information was provided to the counties specifically as it relates to OPEB costs, both without any sort of restructuring in what was being contemplated as well as the potential treatment of the

CHARLES MOORE

without having the most recent audit report because they look at historical information and they look at, most importantly, the future information, which is what they're really buying into. So while that may be a condition or part of confirmatory due diligence, in my mind I did not think that that was a reasonable -- that item I'm referring to in particular, the 2013 audit report, as a reasonable basis to say without that that they would not be able to conduct due diligence.

Q. Going back to the issue of professional fees, what was the City requesting at that time?

A. Not the City. The counties were requesting payment for professionals.

Q. And what was the City's response?

A. I think the City actually indicated, Mr. Orr and Ms. Fox, indicated that that is something that we could talk about. I don't know if the City ever gave a concrete response, especially because of the -- the issue as it relates to the proposed backstop from the state. The City had conversations with the State about assisting with payment of professionals. There was going to be potentially a timing issue by when the State would be able to go through its process to

CHARLES MOORE

Certificates of Participation.

Q. What explains the shift from the City in proposing a lease payment that's 90 plus million a year in the early years to 200 plus million in the outer years to the \$47 million fixed lease payment?

A. I was not actively involved in those discussions from the time period of October through say early January.

Q. When did these -- well, let me ask the question differently. At a certain point in time in the spring of 2014 these negotiations over the formation of a new authority broke off; correct?

A. I don't -- I don't know if I could characterize it that way. Simply stated, we had proposed a process, a specific process with the counties, as I indicated, and that was late February time period. There were a number of roadblocks to embark upon that process and so as a result that process did not occur. And then there were a series of letters that went back and forth between the counties and the City. So there weren't many activities going on during that period, which would include March into April, and then mediation was ordered, and I had not been a part of that mediation. So it would seem to me that discussions continue but in the context of mediation.

CHARLES MOORE

- Q. I believe in the March 2014 time frame Brooks Patterson made a statement that no deal is better than a bad deal. Do you recall that statement being made?
- A. I recall that statement being made, at least reported in the press many times over about a six-month period, from September to -- or maybe October until that time period.
- Q. Do you recall Mr. Patterson making a statement that the City is -- has a take it or leave it approach?
- A. I don't recall Mr. Patterson saying that.
- Q. Do you know how much money the City spent in terms of professional fees on the effort to create an authority up through the filing of the May 5th Plan of Adjustment?
- A. I don't.
- Q. As part of your engagement, do you have to record your time?
- A. Yes, sir.
- Q. And do you provide a short description of the -- of the work and tasks performed?
- A. Yes.
- Q. And all of your fees go through the fee examiner process; is that right?
- A. Yes.

CHARLES MOORE

- Q. And how much has your firm been paid to date for its engagement by the City of Detroit from 20 -- excuse me, January 2013 to the present?
- A. Just for a clarification, there are two elements to our engagement. When we were engaged in January of 2013 -- or after we were engaged in January of 2013, there were a number of instances departments where there were critical positions that were not filled. The City was having a very difficult time finding qualified resources to fill those positions. They -- the City asked -- the CFO at that time asked Conway MacKenzie to provide interim management resources, which we do quite often, for a number of positions, and so beginning around July of 2013, we have utilized subcontractors for various interim management positions. It's obviously -- I shouldn't say obviously. But the reason why we've used subcontractors is it's a very cost-effective way of doing it. Rather than using Conway MacKenzie professionals at their billing rates, we utilize qualified candidates at lower billing rates for those positions. So with that said, through the end of May, which is the last invoice that we have submitted, we have billed approximately eleven and a half million

CHARLES MOORE

- dollars and then an additional \$1.6 million for all of these interim management roles. So that's about \$13.1 million in total.
- Q. I'm going to show you what is Tab I in the binder set, a document previously marked Porter Number 11. I suspect after three weeks of asking witnesses about this document we have the right person. Tab I in the binder set, Porter Number 11, Exhibit L to the Disclosure Statement, DWSD Current and Historical Financial Information. Have you seen this before?
- A. Yes, sir.
- Q. Did Conway MacKenzie prepare this exhibit?
- A. Yes.
- Q. And can you describe generally the process by which Conway MacKenzie prepared it?
- A. We, we being Conway MacKenzie, compiled this information from previous annual financial statements.
- Q. And these would be previous audited financial statements for the water and sewer funds?
- A. Yes. And the item that I -- I think June 30th of 2013 are preliminary at the time that we compiled this. I don't think that the audit was finalized.
- Q. For your benefit, sir, I think there's a footnote that may direct you on that point.

CHARLES MOORE

- A. Yeah. Exactly. Thank you.
- Q. And where -- where do audited results stand for fiscal year ended June 30th, 2013? Where do they stand today?
- A. I have actually lost touch of that over the last couple of weeks. There was communication in late June that I was reviewing on some of the final items that were necessary in order to finalize the June -- June 30th, 2013, audited financials. I don't know if they have been finalized at this point or not, but at least as of, if I recall correctly, late June that was not the case.
- Q. Let me ask you, sir -- this was filed, as you know, on May 5, 2014. Between now -- between that period of time and today, was there any comparison made between the preliminary results and any subsequent refinement of those results or final results for fiscal year June 30th, 2013?
- A. The information that I reviewed, again, I believe it was in late June, contained financial information, and I reviewed that, but one of my colleagues reviewed it in more detail, Mr. Johnston, and I don't believe that we put together a comparison on that, but if I recall correctly, I don't believe that there were any

CHARLES MOORE

significant changes to this information.

Q. You're not aware of any material changes?

A. Correct. At least not that I recall.

Q. Does Exhibit L reflect how both the Water and Sewer Fund have historically reported their operating results?

A. There are -- when you look at the line items that are listed here, there are two different ways that we look at the information, and DWSD presents information in these different ways. The line -- as an example, the -- what's labeled as Page 182 of 212, the line items that you see there, "Source of Supply," "Low-lift Pumping," "High-lift Pumping, those are almost what you could consider cost centers rather than the types of cost elements that a lot of people look at. And so we prepare and certainly DWSD prepares and presents information in a different format oftentimes which is based on more traditional line items, such as salaries and benefits and a variety of those types of costs that would be underlying these various cost centers.

Q. Do you know the difference between low-lift pumping and high-lift pumping?

A. I don't know specifically, no. I could guess, but I'm

CHARLES MOORE

a 10-Year Business Plan and ten-year set of projections that were dated October 2nd, 2013; right?

A. Yes.

Q. And then you brought those projections forward with respect to what is now Exhibit M in the May 5th Disclosure Statement?

A. Yes.

Q. And this Exhibit M would be the product of the Conway MacKenzie team?

A. Yes. We would have also interacted with the DWSD management team to have them review this product as well.

Q. Did the DWSD management team sign off on these projections?

A. Yes.

Q. The assumptions that are contained within Exhibit M, --

A. Yes.

Q. -- whose assumptions are those? If you understand where I'm going with that.

A. Well, these are the assumptions that underlie these numbers. These numbers were prepared by Conway MacKenzie. There are projections that -- as an example, DWSD is in the process of seeking financing

CHARLES MOORE

not going to speculate.

Q. Did you work with anyone at the DWSD or any of the DWSD consultants in preparing Exhibit L?

A. Yes. Both Exhibits L and M, we worked closely with the management team to ensure that they were in agreement with this information.

Q. And were they in agreement?

A. Yes.

Q. Do you recall any areas of disagreement with respect to Exhibit L?

A. No.

Q. Okay. Show you what is in the plan binder as Tab J. If you give me a moment, sir. This may have been an exhibit yesterday, in which case we should use it again. I'm told it was not used yesterday. Sir, I just handed you what is previously marked as Porter 12, Exhibit M, DWSD Financial Projections. We talked briefly about this document earlier today. Sir, can you identify it?

A. Yes. This is Exhibit M to the Fourth-Amended Disclosure Statement filed around May 5th of 2014, and it contains the updated ten-year financial projections for the water and sewer funds.

Q. We went over this briefly this morning. You prepared

CHARLES MOORE

for the Sewer Fund right now, and as part of that, it has prepared financials -- financial projections, and from time to time what we will do is actually make sure that our numbers reconcile to those, so there are instances where the assumptions that you see here are assumptions that we have included. DWSD may have used different assumptions. But typically they are -- there are offsetting items to bring us back down to the same net point.

Q. I'm not sure I understand your prior answer. Let's try to unpack it a little bit. DWSD historically used perhaps in some instances a different set of assumptions?

A. The -- DWSD prepares its own projections from time to time for different purposes. It has recently prepared a set of projections that don't go out ten years but projections that are being used for financing for the Sewer Fund, and if you were to compare those projections to these, they would not match in every instance. There are different assumptions that underlie those projections versus these. However, to get to the second point, whereas they may have higher revenue, there would be a higher cost associated with that. So from a net standpoint, we are within a

CHARLES MOORE

million dollars of their projections, so they're incredibly close compared to anything that DWSD has prepared on its own.

Q. Was there a reason you chose not to use the DW -- the DWSD set of projections?

A. They did not exist at the time that these were prepared.

Q. They were subsequently prepared by DWSD management and consultants?

A. Yes. And when you say consultants, specifically Mr. Bart Foster, who, although he's been working with the department for many, many, many years, officially is not an employee.

Q. Understood. So your primary contacts with DWSD I believe you testified earlier, Ms. McCormick, Ms. Bateson, Mr. Foster, and Mr. Wolfson; correct?

A. Yes.

Q. Any changes in assumption between what the DWSD projections contain and what these projections in Exhibit M contain?

A. Yes. As I indicated, there are a variety of line items where there are different assumptions that are used, so some lines may be higher, but they would have corresponding offsets as well. Most importantly, the

CHARLES MOORE

A. Not necessarily. As -- first of all, this area in particular was provided by Miller Buckfire. So similar to in the October 2nd business plan, this is not something that Conway MacKenzie develops at all. The -- if I recall correctly, the proposed treatment of DWSD bonds in the plan have an option whereby the existing terms are continued to be paid, and that -- but there are other things that would not show up in these projections that happen in that instance. And so that is essentially the path that's been modeled here.

Q. So the -- the interest rate -- excuse me. The interest expense for both water and sewer reflected in years 2014 to 2023 is the same interest expense that is due and owing under the existing DWSD bonds; correct?

A. Yes.

Q. Same with respect to the amortization of bond issuance cost?

A. I believe so, yes.

Q. Looking at the base year -- is that an appropriate terminology, sir, base year being 2014?

A. That's not a term that I would use, but I understand what you're getting at.

CHARLES MOORE

projections are incredibly close from a bottom line perspective. Also, there are differences in allocations between water and sewer that are very easily reconcilable, how DWSD and its projections allocated amounts differently between water and sewer, and that's -- that's one other change.

Q. So the total for water and sewer may be the same, but the allocation between the two for a revenue or expense item may be slightly different?

A. That's right. Even with those differences in allocations, to put it in perspective, we're talking about maybe \$2 million, and so once you -- once you reconcile those allocations, you're incredibly close from a net basis.

Q. Turning to Page 3 of Porter 12. I want to ask you about the assumptions relating to financing. So as part of the assumptions for this Exhibit M for existing debt is that it represents existing debt amortization on currently outstanding DWSD debt; correct?

A. Yes.

Q. So this -- this set of projections does not include any -- does not assume that the DWSD bonds will be restructured; is that correct?

CHARLES MOORE

Q. What would you use?

A. I would say the initial year.

Q. Very good. Let's stick with that.

A. Okay.

Q. The initial year numbers for 2014, how have they tracked to the year-end numbers that were achieved as of June 30th, 2014?

A. I review the packet of information that DWSD produces for its Finance Committee, and through April, I believe that's the last month that I have reviewed, through April of 2014, revenues are down, and that is primarily due to a weather-related item. Usage last year -- the fiscal year begins July 1st obviously. There was not the water usage in the first fiscal year quarter that was anticipated, and so that sort of set DWSD behind from the get-go. I think things have tracked pretty close to budget from a revenue standpoint since that time. If I recall correctly, water may be down seven or eight percent below budget through April of 2014.

Q. What about with respect to sewer?

A. Sewer I think is less so. One of the reasons, and this -- this will certainly be the case going forward, is a transition to billing more just a fixed flat

<p style="text-align: right;">Page 316</p> <p>1 CHARLES MOORE</p> <p>2 amount. So I believe sewer is down, I'm thinking</p> <p>3 maybe five percent. I just -- I can't recall exactly.</p> <p>4 That will not be the case going forward, though, with</p> <p>5 how sewer billing is handled.</p> <p>6 Q. So if we were to focus just on the consolidated</p> <p>7 systems, Slide Number 4, Page Number 4, total</p> <p>8 operating revenues, 894.4 million; correct?</p> <p>9 A. Yes.</p> <p>10 Q. So as of July 24th, can you tell me whether that</p> <p>11 number is -- is right?</p> <p>12 A. I can't. The last -- as I indicated, I think the last</p> <p>13 financials that I've reviewed would have been through</p> <p>14 April 30th of 2014. What -- in addition, I should</p> <p>15 just point out a few other items. While revenue is</p> <p>16 below budget, expenses are below budget by even more.</p> <p>17 Q. That's where I was going next.</p> <p>18 A. Yes.</p> <p>19 Q. So that's helpful. Thank you. Do you know of any</p> <p>20 changes that you would consider material with respect</p> <p>21 to the initial year results?</p> <p>22 A. No.</p> <p>23 Q. And the projections for the subsequent years all are</p> <p>24 based off of initial year projections; correct?</p> <p>25 MR. HAMILTON: Object to form.</p>	<p style="text-align: right;">Page 318</p> <p>1 CHARLES MOORE</p> <p>2 Q. And how do those -- how does that budget compare with</p> <p>3 the Disclosure Statement, Exhibit M?</p> <p>4 A. I can't recall offhand the comparison.</p> <p>5 Q. Do you know if they sync up?</p> <p>6 A. Well, as I indicated before, from a sewer fund</p> <p>7 standpoint, and that's where we focused primarily</p> <p>8 because DWSD has prepared five-year projections for</p> <p>9 the sewer fund in anticipation of financing, and those</p> <p>10 sync up very well. I have not done a comparison</p> <p>11 between the sewer fund for fiscal year '15 and the</p> <p>12 fiscal year '15 budget, but I'm going to make the</p> <p>13 assumption that those are close, so based on those</p> <p>14 couple of assumptions, I'm -- I'm pretty sure that</p> <p>15 2015, especially on a net basis, would sync up very</p> <p>16 closely.</p> <p>17 Q. What about with respect to the water fund?</p> <p>18 A. The DWSD -- two responses there. First, I, again,</p> <p>19 have not done a comparison of the 2015 budget to this.</p> <p>20 My colleagues may have. I just -- I can't recall</p> <p>21 looking at that comparison. Secondly, DWSD has not</p> <p>22 prepared an updated projection for the water fund like</p> <p>23 it did for the sewer fund for the sewer fund</p> <p>24 financing.</p> <p>25 Q. Show you what is Tab 15 in the binder set and Tab 16.</p>
<p style="text-align: right;">Page 317</p> <p>1 CHARLES MOORE</p> <p>2 You can answer.</p> <p>3 A. Generally, yes, because it's all about growth or</p> <p>4 reduction based on the initial year. I'd have to walk</p> <p>5 through each line item. There may be some that are</p> <p>6 not based on growth or decline from that initial year.</p> <p>7 BY MR. NEAL:</p> <p>8 Q. So let me ask the question this way. Do you believe</p> <p>9 that there are any differences between DWSD's actual</p> <p>10 performance in fiscal year 2014 and the projections</p> <p>11 for fiscal year 2014 that weren't revision of any of</p> <p>12 these projections for the years beyond 2014?</p> <p>13 A. No, I don't.</p> <p>14 Q. Was DWSD able to pay all of its bond debt in full</p> <p>15 during fiscal year 2014?</p> <p>16 A. Yes. I understand that's the case.</p> <p>17 Q. Looking at it another way, did DWSD default on any of</p> <p>18 its bonds during fiscal year 2014?</p> <p>19 A. Not that I'm aware of.</p> <p>20 Q. Have you seen the fiscal year 2015 budget for DWSD?</p> <p>21 A. Yes, I have. It's been a little while. When we --</p> <p>22 when Conway MacKenzie developed this, we looked at the</p> <p>23 fiscal year '15 budget as well. So it's -- it's been</p> <p>24 a little while, but yes, I've generally viewed that</p> <p>25 before.</p>	<p style="text-align: right;">Page 319</p> <p>1 CHARLES MOORE</p> <p>2 I'm going to walk you through these documents in a</p> <p>3 second, sir. You've been provided what has previously</p> <p>4 been marked as Malhotra Exhibit Number 12. I'm now</p> <p>5 going to provide you a similar looking document that</p> <p>6 was marked as Malhotra 13. I have a representation to</p> <p>7 make on the record. We took the Malhotra Exhibit 12</p> <p>8 and 13 off of the court reporter website. The clarity</p> <p>9 of these two documents is less than ideal, so what we</p> <p>10 did is stapled to it a clean copy on Page 2, so Pages</p> <p>11 1 and 2 of each exhibit are -- should be identical.</p> <p>12 A. Okay.</p> <p>13 Q. You may want to operate off of the clean page unless</p> <p>14 your eyesight is better than mine.</p> <p>15 A. I'll do so based on your representation that they're</p> <p>16 the same.</p> <p>17 Q. Okay. And it's the same with respect to Malhotra 13.</p> <p>18 Have you seen these two documents before?</p> <p>19 A. Yes.</p> <p>20 Q. What involvement did you -- well, please identify</p> <p>21 these documents if you can.</p> <p>22 A. These documents represent savings that DWSD is</p> <p>23 anticipated to realize as a result of the proposed</p> <p>24 terms in the Plan of Adjustment for certain creditors,</p> <p>25 and there are two different scenarios represented</p>

21 (Pages 316 to 319)

<p style="text-align: right;">Page 320</p> <p>1 CHARLES MOORE</p> <p>2 here.</p> <p>3 Q. And one scenario is presented in Malhotra 12 and the</p> <p>4 other scenario in Malhotra 13; correct?</p> <p>5 A. Yes.</p> <p>6 Q. How would you describe the scenario in Malhotra 12?</p> <p>7 A. The scenario in Malhotra 12, the primary difference</p> <p>8 between 12 and 13 is the pension payments under the no</p> <p>9 restructuring comparative set are set at 31.3 million</p> <p>10 per year going all the way out through 2043, whereas</p> <p>11 in Exhibit 13 the pension payments are listed as the</p> <p>12 amounts under what are referred to as the June 4th</p> <p>13 Milliman letters assuming a continued pension plan</p> <p>14 with the contributions necessary based on the</p> <p>15 actuarial assumptions used in those letters.</p> <p>16 Q. Can you describe generally the prospe -- process by</p> <p>17 which these -- these two documents were created? And</p> <p>18 I'm talking just the basic mechanics. Did -- did you</p> <p>19 prepare this chart or did you simply provide data</p> <p>20 inputs to the E & Y team?</p> <p>21 A. Neither actually. E & Y prepared these. I did not</p> <p>22 provide any inputs to this.</p> <p>23 Q. I may have missed your earlier answer. When did you</p> <p>24 first see these charts?</p> <p>25 A. Sometime last week. A colleague of mine that has been</p>	<p style="text-align: right;">Page 322</p> <p>1 CHARLES MOORE</p> <p>2 a total budgeted amount of professional fees of 130</p> <p>3 million and four different potential allocation bases,</p> <p>4 head count, pension, OPEB, and Certificates of</p> <p>5 Participation, and the portion of -- that DWSD</p> <p>6 represents compared to the total for each of those</p> <p>7 four items to then come up with four different</p> <p>8 potential amounts for allocation to DWSD of that</p> <p>9 \$130 million total budgeted professional fee amount,</p> <p>10 and then an average of those four was taken, which, if</p> <p>11 I recall correctly, resulted in \$20.7 million and</p> <p>12 \$20 million as used here.</p> <p>13 Q. And did you do that work?</p> <p>14 A. No.</p> <p>15 Q. Did your team members do that work?</p> <p>16 A. No.</p> <p>17 Q. What about with respect to the pension administrative</p> <p>18 costs? I recognize there's a -- there's a lengthy</p> <p>19 footnote, and I'm not going to ask you to repeat</p> <p>20 what's in that footnote. So the same question. What</p> <p>21 role did you play personally or Conway MacKenzie team</p> <p>22 members in determining the number that's reflected</p> <p>23 here for pension admin costs?</p> <p>24 A. Prior to the time of the Fourth-Amended Disclosure</p> <p>25 Statement being filed, the actuary for the City,</p>
<p style="text-align: right;">Page 321</p> <p>1 CHARLES MOORE</p> <p>2 involved in DWSD, Mr. Johnston, was involved, not from</p> <p>3 the standpoint of providing input I don't believe, but</p> <p>4 just the distribution of these as they were being</p> <p>5 developed, and he provided them to me.</p> <p>6 Q. I'm going to go about it a different way based on your</p> <p>7 answer, Mr. Moore. Recognizing that you didn't</p> <p>8 prepare these charts, there are purported savings that</p> <p>9 are reflected in them, and I'm going to just go</p> <p>10 through some of the line items to see what your</p> <p>11 involvement or your team's involvement was in</p> <p>12 determining those savings. Okay?</p> <p>13 A. Okay.</p> <p>14 Q. We'll come back to the pension payment, but if we</p> <p>15 could start with -- and it's the same on both exhibits</p> <p>16 for Malhotra 12. Let's start with the professional</p> <p>17 fees. On Malhotra 12 it's \$20 million for fiscal year</p> <p>18 2015. Do you see that?</p> <p>19 A. Yes.</p> <p>20 Q. Do you know what comprises those fees?</p> <p>21 A. Yes.</p> <p>22 Q. And what are -- what's the composition of the</p> <p>23 \$20 million number? How does it break down?</p> <p>24 A. While I did not prepare that calculation, I've</p> <p>25 reviewed that and so I understand that it is based on</p>	<p style="text-align: right;">Page 323</p> <p>1 CHARLES MOORE</p> <p>2 Milliman, was conducting various analyses, and those</p> <p>3 analyses were utilized in the projections that were</p> <p>4 included in the Disclosure Statement, Fourth-Amended</p> <p>5 Disclosure Statement, and I would have weighed in on</p> <p>6 various assumptions that Milliman was using as well as</p> <p>7 reviewed the actual analyses.</p> <p>8 Q. The next line, "OPEB current retirees." What role did</p> <p>9 you and Conway MacKenzie have in arriving at the</p> <p>10 numbers reflected here?</p> <p>11 A. None.</p> <p>12 Q. Same question with respect to the POC.</p> <p>13 A. None.</p> <p>14 Q. Same question with respect to the swaps.</p> <p>15 A. None.</p> <p>16 Q. Are these numbers that are reflected in the POA</p> <p>17 scenario for fiscal years 2015 through 2023</p> <p>18 incorporated into your ten-year financial projections?</p> <p>19 A. Yes.</p> <p>20 Q. Turning to the difference between Malhotra 12 and</p> <p>21 Malhotra 13 as it relates to the -- the investment</p> <p>22 return for the pensions. Give me a moment, sir. I</p> <p>23 lost track. So for clarity of the record, Malhotra</p> <p>24 12, Footnote 8, what is being utilized here is the</p> <p>25 7.9 percent investment rate -- investment return</p>

22 (Pages 320 to 323)

CHARLES MOORE

assumption; correct?

A. Yes.

Q. And a 30-year UAAL amortization; correct?

A. Yes.

Q. And in Malhotra 13, same footnote. What is being utilized here, however, is a seven percent investment return assumption and an 18-year UAAL amortization; is that correct?

A. Yes. I would just point out one item. The Footnote 8 in Exhibit 13 is based on contributions that cover this time period. Footnote 8 in Malhotra 12 is based on taking the amount for fiscal year '15, the contribution -- projected contribution amount from the Gabriel Roeder June 30th, 2013, actuarial valuation report and running that forward every year. There's not a -- a ten-year projection that existed as it relates to that. The last time that I saw projected information from Gabriel Roeder using these assumptions was after the June 30th of 2011 actuarial valuation wherein actually the unfunded position was lower than it is now, and that projected contribution requirement's growing to the point where I think the last year in that scenario was 2021 and the pension contributions were just north of \$40 million per year.

CHARLES MOORE

in the past has been a combination of the anticipated normal cost for future benefits to be earned that year as well as the -- the amortization of the UAAL, unfunded actuarial accrued liability, that is specifically associated with DWSD for that year.

Q. So, in essence, the DWSD would be charged both the normal cost and the -- and its share of its UAAL for its DWSD employees?

A. Yes.

Q. And do you know whether those payments were made as part of operations and maintenance expenses historically?

A. Yes. My understanding is that they were part of O&M, operations and maintenance.

Q. And how did you obtain that understanding?

A. When I looked at the financial statements, I -- again, the financial statements sometimes were in the form of more cost centers, sometimes the underlying cost elements. When you look at the cost elements that support the cost centers, they are part of operations and maintenance, and that includes fringe payments in addition to wages.

Q. Show you what is in the plan binder as Tab E, McCormick Exhibit 10. Mr. Moore, I handed you what

CHARLES MOORE

And so my point here is that I think that the numbers on Malhotra 12 under the no restructuring scenario for pension payments could be low.

Q. Could potentially understate the pension liabilities in the outer years?

A. Could potentially understate the pension payments that would be required at least in the initial years based on what I had seen from Gabriel Roeder in the past through 2021.

Q. How have the pension costs of DWSD been allocated historically by the DWSD?

A. First of all, DWSD participates in the general retirement system, and, Mr. Neal, I apologize if -- if I go through information that you already know, but it would be important as sort of a logical argument here as I go through each step. So DWSD is a division within the general retirement system. Individuals that participate in the general retirement system may be flagged as belonging to the DWSD division. And so those individuals will have a liability associated with them for accrued benefits. In addition to that, those individuals may accrue benefits in the future, which is commonly referred to as normal cost. The DWSD calculation for what it should contribute to GRS

CHARLES MOORE

has previously been marked as McCormick 10. This is a section of the Disclosure Statement dated May 5, 2014, Section IV, "Means of Implementation of the Plan." And my questions are going to be restricted to B-2 on this very first page.

A. Okay.

Q. What role did you have in determining the DWSD pension funding contribution as set forth here on McCormick 10?

A. I worked with the City's actuary, its attorneys, and Ernst & Young in the calculation of that amount. And by the City's actuary, I'm referring to Milliman.

Q. And when you say that amount, you mean the 428.5 million?

A. Yes. That was the amount that you were asking about.

Q. And how is that amount calculated?

A. Could you clarify what you mean by that question?

Q. Yes. How did you determine ultimately that 428.5 million represents the UAAL for the DWSD?

A. There are three components that make up the 428.5 million. The first component we discussed earlier, which is \$20 million related to professional fees. The second component relates to DWSD's share, allocable share of administrative costs for the

CHARLES MOORE

pension, and that's approximately two and a half -- it is two and a half million dollars per year for nine years. And then the third element, which is the largest component of it, is the amount of contributions necessary to pay the calculated unfunded liability as of June 30th, 2014, in full by June 30th of 2023.

Q. And did you -- for that third component, did you rely upon Milliman to provide you with that number?

A. Yes.

Q. Did you do any independent calculations?

A. Yes.

Q. Describe your -- the work you did independent of Milliman.

A. Just simple present value type calculations. The underlying assumption within the Plan of Adjustment is that benefits under the defined benefit plans that exist today, GRS and PFRS, will be frozen, and in that regard the unfunded -- unfunded liability related to the accrued benefits which has been calculated for DWSD as of June 30th of 2014 at approximately \$292 million is essentially paid off over that nine-year period. So when you look at just simple payments using an equal payment in the middle of each

CHARLES MOORE

employed now or where they retired from, and the liability associated with that employee follows -- or -- or is then assigned to whatever department they're -- or whatever division they're flagged with.

Q. Was any analysis undertaken to determine whether the DWSD is a net beneficiary of the bumping or whether it's a -- comes out on the short end with respect to the bumping?

A. Well, bumping is just one way that someone could move from one department to another. There are a whole host of other reasons besides --

Q. They could move independent from bumping?

A. Yes. The answer to your question is no, no analysis has taken place that I'm aware of that would quantify the impact.

Q. Do you know what percentage of DWSD's payroll works on non-DWSD projects?

A. I don't.

Q. Do you know what are the average years of service for each W -- DWSD employee?

A. I don't know if I've ever seen that just for DWSD. I certainly have seen that information for GRS as a whole.

Q. Has the Conway MacKenzie team reached a conclusion

CHARLES MOORE

year using a 6.75 percent interest rate, you can get to this specific amount, this amount being the approximately \$42 million per year.

Q. Have you heard the term "bumping" before?

A. I've heard that term many times.

Q. Have you heard it in the context of your -- in the context of the City of Detroit and in specific the DWSD?

A. I have heard that term in the context of my engagement with the City of Detroit in a variety of departments.

Q. And what does it mean to you?

A. It's commonly -- at least when I have heard that term, it's commonly used in the context of a term within Collective Bargaining Agreements that allow for an individual that may be -- whose job may be impacted to bump into or move into a different area.

Q. Could there be a scenario where someone spends 15 years at the Department of Transportation, spends his last five years at DWSD, and that DWSD has to assume the entire UAAL for that individual?

A. My understanding based on conversations directly with the GRS pension system is that employees have one flag, and that is the department to which they're associated, whether that's where they are actively

CHARLES MOORE

that the DWSD head count is currently excessive?

A. The business plan itself contemplates head count going down to approximately 1,000 by the year -- fiscal year 2020, and right now the last head count that I saw for DWSD is just south of 1600, but you would not be able to, and this is the view both of Conway MacKenzie and DWSD management, you would not be able to eliminate 600 positions right now. So there are a number of things that have to happen to facilitate getting to that 1,000, but we certainly believe that that is possible.

Q. Do you know what the peak head count was for DWSD in the past ten years?

A. I have seen historical reports that have labor well into the 2,000s and I believe even north of 2500.

Q. Did you ever look to determine whether the head count of DWSD grew as the City's financial problems increased over the past decade?

A. I can't recall.

Q. Going back to McCormick 10 en and the provision here B-2 on DWSD pension funding contribution. It states here that this amount should be paid over a nine-year period ending June 30th, 2023; is that correct?

A. Yes.

CHARLES MOORE

Q. Why nine years?

A. There are a couple of factors here. As you can see, the interest rate that's being used is 6.75 percent, so that's why, as I referenced earlier, the calculated amount of the unfunded liability for DWSD as of June 30th of 2014 is approximately 292 million. The total payments over the nine-year period is approximately 380 million. I think it's maybe 383. I can't recall the exact number. Because of the interest cost there. The longer the period of time that is used to repay that liability which already exists, the greater the total payments would be. So as an example, if you were to take that \$292 million and pay it off over 40 years, DWSD would be paying approximately \$21 million per year instead of \$42 million per year, but it would end up paying well over \$800 million for that liability as compared to approximately 380 million, and when you look at the rate here, this is quite simple finance, which is to say if you have the cash, it would be better to pay off higher priced debt than to let that go on if you are -- if your cost of capital -- or you can otherwise raise capital for a lower cost.

Q. But these considerations are not unique to the DWSD,

CHARLES MOORE

than what we have here, which is an unfunded liability associated with a closed frozen plan.

Q. What's the basis for your statement that most plans are moving towards a shorter period?

A. I have reviewed many municipal plans and that is a trend that I have seen.

Q. There's no other city department that is paying off its UAAL over a nine-year period; correct?

A. In the context of this plan, and, again, I'm going to use the word "unfunded liability" versus UAAL, and I understand it's probably even used in our own documents, but to be technically correct, the unfunded liability, there are no other divisions within GRS that contemplate paying their unfunded amount as of June 30th of 2014 over nine years.

Q. So why should the DWSD have to do so?

A. Therein we go back to a couple of reasons. But first and foremost, if you have the cash to pay it, that's a wise thing to do based on the interest rate associated with that liability versus the anticipated costs for other debt that DWSD is expected to raise.

Q. Has the DWSD management or its consultants requested that this amount be paid over nine years as opposed to a longer period of time?

CHARLES MOORE

are they?

A. Well, the principle that I just indicated is a general finance concept.

Q. And, generally speaking, UAAL is amortized over a 30-year period; correct?

A. No. That's incorrect. We're talking about two different things here. First of all, I've been -- I've attempted to be very careful to say that \$292 million is an unfunded amount. UAAL stands for unfunded actuarial accrued liability. It's using an actuarial value of the assets which may or may not be the actual value of the assets, market value of the assets. In addition to that, this is a closed and frozen plan. There's no new accrual of benefits. So what you were referring to with an amortization of a UAAL, that's the amortization of an unfunded actuarial amount and in the context of a plan that is still accruing benefits. The last point is there's no set standard in terms of 30 years. As a matter of fact, most plans are moving towards a shorter period of amortization, plus you have to get into whether it's an open 30-year or closed 30-year period. So there are a variety of factors that go into amortizing UAAL, but regardless, that's a completely separate topic

CHARLES MOORE

A. Not that I'm aware of.

Q. Who made this determination that it's in the best interest of the DWSD?

A. This is just one factor that I was pointing to.

Q. Okay.

A. In terms of the decision that DWSD would fund this unfunded liability over nine years, that was a decision ultimately made by the Emergency Manager in conjunction with -- or based on the advice and input from his advisors in the context of this plan.

Q. Did Conway MacKenzie provide any advice or input?

A. Yes.

Q. And what was your advice and input? That it's a good thing to do?

A. Yes.

Q. For the reasons you've already said?

A. Yes.

Q. Did anyone disagree or express a different view in these meetings, excluding meetings that involved counsel of course?

A. I don't think that I had any meetings that did not include counsel.

Q. Okay. I mean, was nine years chosen because there would be no other pension contributions being made by

<p style="text-align: right;">Page 336</p> <p>1 CHARLES MOORE</p> <p>2 the City into the GRS during that nine-year period?</p> <p>3 A. There is certainly a factor that comes into play here.</p> <p>4 First of all, nine years takes us to June 30th of</p> <p>5 2023. That's when the first segment of the</p> <p>6 projections ends. As -- as you probably have seen,</p> <p>7 beyond the ten years, the information is less detail.</p> <p>8 It's based on a decade-by-decade basis. So through</p> <p>9 June 30th of 2023 is the -- the time period that we're</p> <p>10 talking about here. There are actually contributions</p> <p>11 coming from the general fund now. Initially the City</p> <p>12 did not contemplate that it would be making any other</p> <p>13 contributions itself to GRS during that time period.</p> <p>14 That has changed. And the amount that goes towards</p> <p>15 blight has been reduced from \$500 million down to</p> <p>16 \$420 million, and as a result of that, the amount</p> <p>17 going into the general retirement system during this</p> <p>18 time period includes money from the general fund.</p> <p>19 Q. How much money?</p> <p>20 A. There is 2.5 million a year coming from library.</p> <p>21 There's, I believe it's 92 million coming from the</p> <p>22 general fund, just the general City operations. So if</p> <p>23 you add those two amounts together, which would be 22</p> <p>24 million or thereabouts -- this is an exhibit to the</p> <p>25 Disclosure Statement, so I'm going off the top of my</p>	<p style="text-align: right;">Page 338</p> <p>1 CHARLES MOORE</p> <p>2 media -- mediation communications?</p> <p>3 MR. HAMILTON: Can we -- I think we're</p> <p>4 probably -- what is the pending question? Can you</p> <p>5 read back the pending question for me, please? Not</p> <p>6 his -- not what he just said but the previous</p> <p>7 question.</p> <p>8 (The requested portion of the record was</p> <p>9 read by the reporter at 11:54 a.m.)</p> <p>10 COURT REPORTER: Any other factor that goes</p> <p>11 to the determination of nine years versus any other</p> <p>12 period of time?</p> <p>13 MR. HAMILTON: What I'd like to do, I'd</p> <p>14 like to confer with the witness for a second to make</p> <p>15 sure we don't -- that we address the concern about</p> <p>16 mediation, but I do believe he can answer this</p> <p>17 question, but I'd like to confer with the witness for</p> <p>18 a second.</p> <p>19 MR. NEAL: Please do.</p> <p>20 VIDEO TECHNICIAN: The time is 11:54 a.m.</p> <p>21 We are now off the record.</p> <p>22 (Recess taken at 11:54 a.m.)</p> <p>23 (Back on the record at 11:56 a.m.)</p> <p>24 MR. HAMILTON: So what I would like to do</p> <p>25 is just have the court reporter read back the question</p>
<p style="text-align: right;">Page 337</p> <p>1 CHARLES MOORE</p> <p>2 head, but if you were to provide that exhibit to me, I</p> <p>3 could tell you exactly. The -- so if you were to take</p> <p>4 22 and a half million I believe from the -- from the</p> <p>5 library and add I believe it's \$92 million to that</p> <p>6 from the general fund, that would be the total amount</p> <p>7 coming from the City to GRS during this time period.</p> <p>8 There are other sources of funds, though, as well.</p> <p>9 Q. Any other factor that goes to the determination of</p> <p>10 nine years versus any other period of time?</p> <p>11 A. Well, the negotiations that have taken place as it</p> <p>12 relates to the pension systems and the Retiree</p> <p>13 Committee and the unions, especially as it relates to</p> <p>14 the treatment of accrued benefits under the defined</p> <p>15 benefit plans, have had elements associated with</p> <p>16 June 30th of 2023 as important inputs to those</p> <p>17 negotiations, one of which is funding level, and so</p> <p>18 the funding level related to the --</p> <p>19 MR. ULLMAN: I'll just interrupt. To the</p> <p>20 extent you're getting into things that were the</p> <p>21 subject of mediation, I just want to caution you not</p> <p>22 to disclose that.</p> <p>23 THE WITNESS: Thank you.</p> <p>24 BY MR. NEAL:</p> <p>25 Q. Can you answer the question without disclosing</p>	<p style="text-align: right;">Page 339</p> <p>1 CHARLES MOORE</p> <p>2 again that's pending and have the witness answer the</p> <p>3 question. Is that okay with you?</p> <p>4 MR. NEAL: Yes.</p> <p>5 MR. HAMILTON: All right.</p> <p>6 MR. ULLMAN: Are we striking what's already</p> <p>7 on the record or . . . ?</p> <p>8 MR. HAMILTON: No. Just starting over.</p> <p>9 MR. ULLMAN: So just for confirmation, what</p> <p>10 you've said so far does not reveal any confidential</p> <p>11 mediation --</p> <p>12 MR. HAMILTON: We don't believe it does.</p> <p>13 We believe it's appropriate to say how the number --</p> <p>14 what the number is designed to do in the plan, and</p> <p>15 that's appropriate. We're not going to disclose what</p> <p>16 happened in mediation that may have led to that. But</p> <p>17 what the number is in the plan and why it's there I</p> <p>18 don't think is -- requires us to disclose what was in</p> <p>19 mediation, and the witness is going to answer the</p> <p>20 question to that -- to that extent.</p> <p>21 MR. ULLMAN: Okay. I think we'll just</p> <p>22 reserve our rights to what's on the transcript and to</p> <p>23 the extent we think it improperly discloses anything</p> <p>24 from the mediation, we'll make an appropriate motion</p> <p>25 or consult with you as to how to deal with it.</p>

26 (Pages 336 to 339)

CHARLES MOORE

MR. HAMILTON: We're not making any representations as to what happened in mediation and his answer isn't going to do that.

MR. ULLMAN: Let's proceed.

MR. GREEN: Retirement Systems will join Mr. Ullman's reservation because the answer did state that negotiations took place between the pension system and the Retiree Committee, so just to be clear.

MR. HAMILTON: I'm not talking about his reference to the mediation earlier in his earlier answer. I'm talking about the answer he's going to give now.

MR. GREEN: Right. So we're just reserving the right to the prior answer that was already on the record.

MR. HAMILTON: I don't think he disclosed too much in that one, but go ahead.

(The requested portion of the record was read by the reporter at 11:58 a.m.)

COURT REPORTER: Any other factor that goes to the determination of nine years versus any other period of time?

A. As I indicated previously, June 30th of 2023 is the end of this first time period, so there are a number

CHARLES MOORE

A. Perhaps greater cuts to pension benefits, accrued pension benefits.

Q. Did Milliman recommend this nine-year amortization period?

A. No. Milliman just ran the analyses based on inputs from the City and its advisors.

Q. So the nine-year amortization period is not an actuarially determined period of time within which to amortize the unfunded liabilities?

A. I'm not sure I understand that question.

Q. So there -- I'll rephrase it. So there is no actuary, Milliman or otherwise, that said nine years is the state-of-the-art and the actuarial practice for amortizing unfunded liabilities?

A. Correct. I did not hear them make that statement.

Q. Nor did you hear them give an opinion one way or the other as to whether you should choose nine years, 15 years, or 30 years?

A. Correct.

Q. You gave Milliman a set of assumptions and they came back to you with what the funding levels would have to be; correct?

A. The -- just so we're clear, when you say the funding levels, what the project -- or what the contributions

CHARLES MOORE

of factors that we look at as of that date to say we want the City to be positioned a certain way financially at that point, and so having contributions during that time period provides a basis for getting the City to a certain point versus contributions outside of that ten-year period, and, again, that -- those -- if contributions occur during this nine-year period, that allows the City to understand what it's going to have in the way of liabilities beyond that ten-year period.

BY MR. NEAL:

Q. So one of the factors is trying to reach a certain funding level for the GRS at the end of this period, that being June 30th, 2023; correct?

A. Yes.

Q. And the desire was to reach a funding level at or about 70 percent?

A. Yes.

Q. And in the absence of this pension contribution from the DWSD, you would not be able to achieve the 70 percent funding level; correct?

A. Well, we could, but we would have to go about it in different ways.

Q. And what would those different ways be generally?

CHARLES MOORE

would need to be.

Q. Yes. Thank you. That was helpful. Cleaned up a messy question.

Did anyone at the City, including its professional advisors, determine what the impact would be if this amount, this unfunded liability was amortized over 30 years as opposed to nine?

MR. ULLMAN: Objection. Form.

A. I know that I've looked at what that contribution would be, but in terms of what the impact would be, it could impact a lot of things and there are a lot of moving parts, so it's a question of whether those other parts would move. So from that standpoint, it's -- it's really not just one other scenario, if you will. There are a variety of things that could come into play if the proje -- or if the contributions took place over a period longer than nine years.

BY MR. NEAL:

Q. And what are those variety of things, those moving pieces?

A. Well, as I just indicated, what the level of benefit reduction is plays into that. What contributions would be taking place in the sources to make those contributions after 2023 also comes into play.

<p style="text-align: right;">Page 344</p> <p>1 CHARLES MOORE</p> <p>2 Q. So there is the potential that benefit reductions to</p> <p>3 all retirees would be lower if the DWSD funded over a</p> <p>4 longer period of time?</p> <p>5 A. The reductions would be higher. You would need</p> <p>6 greater reductions or -- or more reductions</p> <p>7 potentially, but it all depends on the various</p> <p>8 parameters that you use.</p> <p>9 Q. Thank you. I'm 0 for two in my last questions. Let</p> <p>10 me try to wrap this section up and I think we should</p> <p>11 take a lunch break so I can get some sugar in my</p> <p>12 system.</p> <p>13 Is the Grand Bargain -- you've heard of the</p> <p>14 term "Grand Bargain"; correct?</p> <p>15 A. Yes.</p> <p>16 Q. Is that dependent on approval of the 428.5 million</p> <p>17 pension allocation?</p> <p>18 A. No. Those are completely separate items.</p> <p>19 Q. Is any part of the plan dependent upon the approval of</p> <p>20 this 428.5 pension allocation?</p> <p>21 MR. HAMILTON: Object to form.</p> <p>22 A. Not that I'm aware of.</p> <p>23 MR. NEAL: I think now would be a good time</p> <p>24 for -- for a lunch break.</p> <p>25 VIDEO TECHNICIAN: The time is 12:03 p.m.</p>	<p style="text-align: right;">Page 346</p> <p>1 CHARLES MOORE</p> <p>2 obligation?</p> <p>3 MR. ULLMAN: I'm going to object to the</p> <p>4 form.</p> <p>5 A. I just want to make sure that I understand the</p> <p>6 question.</p> <p>7 BY MR. NEAL:</p> <p>8 Q. Yes.</p> <p>9 A. You're asking what happens if the actual return on</p> <p>10 plan assets associated with DWSD is worse than the</p> <p>11 6.75 percent?</p> <p>12 Q. As always, you do a better job than I do in framing</p> <p>13 the question. That is my question.</p> <p>14 A. Okay. The payments that are contemplated in this</p> <p>15 nine-year period are not in any way a full settlement</p> <p>16 on that unfunded liability. It is -- they are the</p> <p>17 payments that are necessary in order to fund the</p> <p>18 unfunded liability amount as of June 30th of 2014. So</p> <p>19 to the extent that actual performance or return on</p> <p>20 plan assets is lower and therefore the contributions</p> <p>21 that are made do not fully pay for or fund the</p> <p>22 unfunded amount, then DWSD would have an additional</p> <p>23 amount to be funded.</p> <p>24 Q. Now, what if investment returns are greater than</p> <p>25 projected?</p>
<p style="text-align: right;">Page 345</p> <p>1 CHARLES MOORE</p> <p>2 We are now off the record.</p> <p>3 (Recess taken at 12:03 p.m.)</p> <p>4 (Back on the record at 12:50 p.m.)</p> <p>5 BY MR. NEAL:</p> <p>6 Q. Good afternoon, Mr. Moore.</p> <p>7 A. Good afternoon.</p> <p>8 Q. The 6.75 percent investment return that is used to</p> <p>9 calculate the DWSD pension contribution, how is that</p> <p>10 percentage selected?</p> <p>11 A. That was the product of negotiation.</p> <p>12 Q. In essence, a settlement between the City and the</p> <p>13 retirees?</p> <p>14 A. Yes.</p> <p>15 Q. What happens if projections are worse than projected?</p> <p>16 That is, what happens during that nine-year period if</p> <p>17 the projections come in at six percent? Does that</p> <p>18 mean --</p> <p>19 MR. HAMILTON: You mean the returns?</p> <p>20 MR. ULLMAN: Objection. Form.</p> <p>21 BY MR. NEAL:</p> <p>22 Q. Returns.</p> <p>23 MR. HAMILTON: Yeah.</p> <p>24 BY MR. NEAL:</p> <p>25 Q. What does that mean with respect to DWSD's payment</p>	<p style="text-align: right;">Page 347</p> <p>1 CHARLES MOORE</p> <p>2 A. Then we would have a situation where, all else being</p> <p>3 equal, potentially at the end of this period that</p> <p>4 we're talking about, June 30th of 2023, that the</p> <p>5 amount related to DWSD for GRS for the previously</p> <p>6 accrued benefits could be greater than 100 percent</p> <p>7 funded at that time.</p> <p>8 Q. Does that mean the DWSD gets a refund or rebate of</p> <p>9 sorts?</p> <p>10 A. That wouldn't be likely, but there are a variety of</p> <p>11 factors that could happen over time, so my guess, and</p> <p>12 this is purely a guess because there's nothing set in</p> <p>13 this regard, is that if, for instance, it's funded at</p> <p>14 105 percent at June 30th of 2023, it would be funded</p> <p>15 at that level to allow for or to absorb any future</p> <p>16 negative variances, negative variances not just</p> <p>17 related to return on plan assets but also actuarial</p> <p>18 variances.</p> <p>19 Q. All right. Let me explore that a little further.</p> <p>20 What if -- different scenario. What if the City,</p> <p>21 unfortunately and regrettably, has to file for</p> <p>22 bankruptcy again in 2024? Will the DWSD employees</p> <p>23 have their share of the -- of their pension</p> <p>24 contributions a hundred percent funded by virtue of</p> <p>25 this 428.5 payment over nine years?</p>

28 (Pages 344 to 347)

CHARLES MOORE

A. That's a hypothetical that I can't speculate on.

Q. Well, let's -- let's talk about the actual, and, that is, under the plan, as projected by 2023, the GRS will be 70 percent funded; correct?

A. Yes.

Q. Such that that 70 percent funding ratio applies to all employees and retirees that are subject to the GRS; correct?

A. Yes. GRS does maintain separate reporting for the four different divisions within GRS.

Q. So would it be fair to say at that point or not that if you're a DWSD employee you'd be a hundred percent funded but if you're a DOT employee you're only 70 percent funded?

A. Well, I'm going to continue on with the hypothetical as far as I can.

Q. Yes.

A. Just based on what we have in the plan, and if everything goes exactly as we anticipate, plan assets, return, 6.75 percent year, there are no unanticipated actuarial variances, positive or negative, and we get to June 30th of 2023, I would anticipate that the actuarial valuation report for GRS at that time, assuming that there are still four divisions of GRS,

CHARLES MOORE

A. I have not received all of the guidance that I think should be obtained before making a conclusion on that. Certainly as we sit here today, I'm not expressing an opinion on that. I'm just conveying how we have presented it.

Q. What other guidance are you awaiting?

A. We have sought questions of the City's accountants in terms of treatment, and I'm sure that there will also be legal input to that as well.

Q. And who are the City's accountants?

A. I believe the questions have been posed to Plante Moran at this point in time. The auditors for the City are KPMG.

Q. And when do you expect to hear back from Plante Moran?

A. I would expect fairly shortly, fairly shortly being within the next month I would assume.

Q. Do you have a view or an opinion as to whether DWSD's payment of its 428.5 million over nine years is something that is feasible for DWSD to do?

A. The projections -- the projections, specifically Exhibit L to the Disclosure Statement, would indicate that there is adequate cash to be able to do that.

Q. You testified in December 2013 in this case; is that right?

CHARLES MOORE

would show DWSD funded at 100 percent and the other three divisions at something less than 100 percent.

Q. At the time of the bankruptcy last year, July 18th, 2013, was there such a breakdown within each department?

A. Each division.

Q. Each division.

A. Yes.

Q. But you can't say one way or another whether in that hypothetical, a bankruptcy filing in 2024, whether the DWSD employees would get a hundred percent of their pension whereas a DOT employee would get 70 percent?

A. That seems to me like a legal issue that I'm not in a position to respond to.

Q. Are you expressing a view or an opinion as to whether or not this DWSD pension allocation should be treated as a current expense under the water or sewer indentures?

A. That's how it's been treated in the projections, so based on the information that I have, that and how it has been handled previously, that is how we've included it.

Q. But are you, Charles Moore, saying that's how it should be treated?

CHARLES MOORE

A. I believe that's when my deposition related to the post petition financing occurred, yes.

Q. And I'm going to read you part of that transcript and then show it to you. It's just a couple sentences. You testified that "DWSD does not operate at a deficit. The surplus, however, cannot flow to the general fund, so the proposal to creditors was based on a general fund projection, and as a result, the subsequent activities occurred related to the enterprise fund operations of the water and sewer funds."

Do you recall that testimony?

A. Not really. And I don't know what the question was that I was responding to. May I look at the question?

Q. Let me see if there is -- is a question. Okay. Let me hand you -- yes. The question starts at the bottom of Page 68 of this mini transcript and continues on to Page 69.

A. Okay. I see -- I've read the preceding question and what you pointed me to.

Q. And that was your understanding then and that is your understanding today; correct?

A. Just to clarify, the information that you read, which was my response, seemed to be getting at the fact that

<p style="text-align: right;">Page 352</p> <p>1 CHARLES MOORE</p> <p>2 we did not look at DWSD during the January to</p> <p>3 June 2013 time period, and I was responding that DWSD</p> <p>4 is a separate enterprise fund and therefore it's not</p> <p>5 included in the general fund, only enterprise funds</p> <p>6 that operate on a deficit or at a deficit were, and</p> <p>7 that DWSD does not operate at a deficit.</p> <p>8 Q. Well, let me just ask you. The second sentence that I</p> <p>9 read earlier, I'll read it again, "The surplus,</p> <p>10 however, cannot flow to the general fund," and the</p> <p>11 sentence continues from there. Do you see where I'm</p> <p>12 reading?</p> <p>13 A. Yes.</p> <p>14 Q. And that was your understanding then and that's your</p> <p>15 understanding today, correct, that there's no surplus</p> <p>16 that can flow from the general fund -- excuse me, can</p> <p>17 flow from the DWSD to the general fund; correct?</p> <p>18 A. I would just expand on that a little bit. Certainly</p> <p>19 my understanding then is the same as it is now, which</p> <p>20 is that funds to reimburse for the cost of services</p> <p>21 can flow from an enterprise fund to the general fund,</p> <p>22 but just in general, if an enterprise fund makes a</p> <p>23 profit, those profits can't flow over to the general</p> <p>24 fund.</p> <p>25 Q. Are you familiar with the concept of closed loop?</p>	<p style="text-align: right;">Page 354</p> <p>1 CHARLES MOORE</p> <p>2 Q. Let me expand the question a little bit. What are</p> <p>3 some of your larger debtor side engagements in your</p> <p>4 career, Chapter 11 cases?</p> <p>5 A. Certainly. Again, off the top of my head, it's --</p> <p>6 it's going to be fairly difficult because there are so</p> <p>7 many, but certainly Greektown Casino and Hotel was a</p> <p>8 very large debtor side case. The Budd Company is a</p> <p>9 very large debtor side case. And these are only</p> <p>10 Chapter 11 filings? Okay. One thing to just make</p> <p>11 clear, probably -- it would depend on any given year,</p> <p>12 but less than half of my work is done within</p> <p>13 bankruptcy court versus out-of-court work, even though</p> <p>14 the vast majority of my work is done on the debtor</p> <p>15 side. Hastings Manufacturing, Willard Corporation.</p> <p>16 I'd have to go back and look at my records for other</p> <p>17 large Chapter 11 cases.</p> <p>18 Q. In any of those engagements, had you been asked to</p> <p>19 prepare a liquidation analysis?</p> <p>20 A. Yes.</p> <p>21 Q. And what is your understanding of a liquidation</p> <p>22 analysis in the context of a Chapter 11 case?</p> <p>23 A. A liquidation analysis is oftentimes used in what's</p> <p>24 referred to as best interest to creditors to determine</p> <p>25 whether what is being proposed will be at least what</p>
<p style="text-align: right;">Page 353</p> <p>1 CHARLES MOORE</p> <p>2 Have you heard that term used before?</p> <p>3 A. I have, yes.</p> <p>4 Q. And what -- what's your understanding of that term as</p> <p>5 it relates to DWSD?</p> <p>6 A. Essentially that the profits, if there are any, stay</p> <p>7 within the system.</p> <p>8 Q. I want to spend five -- five minutes or so on -- on</p> <p>9 your background unrelated to the City of Detroit.</p> <p>10 Now, have you provided professional services to</p> <p>11 Chapter 11 debtors?</p> <p>12 A. Yes, I have.</p> <p>13 Q. Can you identify the Chapter 11 debtors that you've</p> <p>14 provided services to over the past five years?</p> <p>15 A. Sure. Let's see here. I'm involved in a case right</p> <p>16 now, The Budd Company which filed in Chicago. I was</p> <p>17 involved in the Greektown Casino and Hotel bankruptcy.</p> <p>18 These are debtor side cases.</p> <p>19 Q. That's all I'm asking for. Thank you.</p> <p>20 A. Within the last five years, just on the debtor side</p> <p>21 alone, that may be it. But I typically will work on</p> <p>22 25 cases a year, so I'd have to go back and review my</p> <p>23 files for any other debtor side cases that I've worked</p> <p>24 on in the five-year period besides City of Detroit</p> <p>25 obviously.</p>	<p style="text-align: right;">Page 355</p> <p>1 CHARLES MOORE</p> <p>2 creditors could get if the entity or the assets were</p> <p>3 liquidated.</p> <p>4 Q. Recognizing that municipalities cannot nor should</p> <p>5 liquidate. You and I would agree on that; correct?</p> <p>6 A. Yes.</p> <p>7 Q. And understanding that you had a brief exchange</p> <p>8 yesterday with Mr. Soto about a dismissal analysis,</p> <p>9 have you or your team at Conway MacKenzie prepared a,</p> <p>10 for lack of a better term, a dismissal analysis for</p> <p>11 the DWSD?</p> <p>12 A. No. The business plan that we put together</p> <p>13 essentially contemplates the operation of DWSD outside</p> <p>14 of Chapter 9. However, there are certain line items,</p> <p>15 which we've covered here today, that have been</p> <p>16 adjusted based on the proposed treatment of those</p> <p>17 liabilities, but when it comes to the operations of</p> <p>18 the DWSD projections, those would not differ whether</p> <p>19 DWSD was operating as part of the Chapter 9 process or</p> <p>20 not.</p> <p>21 Q. Do you know if anyone outside of Conway MacKenzie</p> <p>22 prepared a dismissal analysis for the DWSD?</p> <p>23 A. I don't know.</p> <p>24 Q. The adjustments that were made in Exhibit M, which is</p> <p>25 your -- Exhibit M to the Disclosure Statement, which</p>

30 (Pages 352 to 355)

<p style="text-align: right;">Page 356</p> <p>1 CHARLES MOORE</p> <p>2 is Porter Exhibit Number 12, the adjustments that were</p> <p>3 made to account for a post restructuring environment</p> <p>4 include adjustments for pension; is that right?</p> <p>5 A. Yes. Both accrued and prospectively earned benefits.</p> <p>6 Q. It also includes adjustments for OPEB; correct?</p> <p>7 A. Yes.</p> <p>8 Q. It includes adjustments for the DWSD's allocated share</p> <p>9 of the COPs; correct?</p> <p>10 A. Yes.</p> <p>11 Q. It includes the pension admin fee; correct?</p> <p>12 A. I would say that in -- in a sense it does because it</p> <p>13 calls out separately administrative charges. Those</p> <p>14 have always been paid by DWSD, but they have been just</p> <p>15 taken out of the contributions that DWSD makes. So I</p> <p>16 would not say that there is really a change. It's</p> <p>17 more of a change in approach or presentation.</p> <p>18 Q. It also includes payment of professional fees for the</p> <p>19 City's Chapter 9 professionals; correct?</p> <p>20 A. Yes.</p> <p>21 Q. Before I go on, and I know we covered this briefly</p> <p>22 before lunch, the professional fee number is not based</p> <p>23 on time actually devoted to DWSD matters; correct?</p> <p>24 A. The professional fee number that you're referring to</p> <p>25 is the \$20 million?</p>	<p style="text-align: right;">Page 358</p> <p>1 CHARLES MOORE</p> <p>2 is included in the plan for DWSD bondholders.</p> <p>3 Q. And that is the option to elect to receive existing</p> <p>4 rate DWSD bonds; correct?</p> <p>5 A. That's correct.</p> <p>6 Q. Anything else?</p> <p>7 A. No. I believe that's it.</p> <p>8 Q. So I have listed here seven items. I just want to go</p> <p>9 over it with you again. Pension, number one; OPEB,</p> <p>10 number two; COPs, number three; pension admin, number</p> <p>11 four; professional fees, number five; swaps, number</p> <p>12 six; and the option to elect existing rate DWSD bonds</p> <p>13 is number seven?</p> <p>14 MR. HAMILTON: If that's a question, I'm</p> <p>15 going to object to form because I don't think that's</p> <p>16 fair to characterize pension admin as a change given</p> <p>17 what his testimony was, but . . .</p> <p>18 MR. NEAL: And I'll accept what his</p> <p>19 testimony was.</p> <p>20 BY MR. NEAL:</p> <p>21 Q. I'm not trying to put words in your mouth. But do</p> <p>22 you -- other than those seven items, can you think of</p> <p>23 any other items or obligations that are being</p> <p>24 restructured in the Chapter 9 plan that are reflected</p> <p>25 in the ten-year business projections for DWSD?</p>
<p style="text-align: right;">Page 357</p> <p>1 CHARLES MOORE</p> <p>2 Q. Yes, sir.</p> <p>3 A. It -- it is -- that's correct. The calculation is</p> <p>4 based off of, as I indicated before, the \$130 million</p> <p>5 allocated under four different methods and then using</p> <p>6 an average of those four methods.</p> <p>7 Q. Do you know if the professional fees devoted to DWSD</p> <p>8 matters is more or less than the \$20 million that is</p> <p>9 reflected in the ten-year projections?</p> <p>10 A. I don't know. Obviously the City has not actually</p> <p>11 incurred or paid, at least to the best of my</p> <p>12 knowledge, \$130 million yet, so that \$130 million</p> <p>13 takes into account fees to be earned and/or paid in</p> <p>14 the future, which certainly could get to \$20 million</p> <p>15 or more related to DWSD if it's not already there.</p> <p>16 Q. So going back to the restructured obligations under</p> <p>17 the ten-year projections that you and your team</p> <p>18 prepared, pension, OPEB, COPs, the pension admin fee</p> <p>19 subject to your qualification -- or clarification,</p> <p>20 excuse me, and professional fees; correct?</p> <p>21 A. Yes. The swaps as well.</p> <p>22 Q. Thank you. Anything else?</p> <p>23 A. Well, it doesn't have a -- an impact on the numbers,</p> <p>24 again, as I indicated, which we received from Miller</p> <p>25 Buckfire. It does take into account the option that</p>	<p style="text-align: right;">Page 359</p> <p>1 CHARLES MOORE</p> <p>2 A. No others that I can think of.</p> <p>3 Q. If the Chapter 9 case were dismissed, the DWSD would</p> <p>4 have to pay its unstructured obligations with</p> <p>5 respect to let's just assume all of the items, items</p> <p>6 one through seven that we went through; is that right?</p> <p>7 A. I haven't done that specific analysis, and I'm sure</p> <p>8 that there are legal considerations involved in what</p> <p>9 DWSD would have to do if the Chapter 9 case was</p> <p>10 dismissed.</p> <p>11 Q. Do you have any basis to believe that the DWSD would</p> <p>12 not be able to charge rates sufficient to pay these</p> <p>13 obligations as well as its -- all of these obligations</p> <p>14 under the ten-year forecast if the Chapter 9 case were</p> <p>15 dismissed?</p> <p>16 A. Certainly it would be a concern.</p> <p>17 Q. What do you mean by a concern?</p> <p>18 A. Well, there are multiple aspects of what DWSD or any</p> <p>19 utility, for that matter, charges. It's one thing to</p> <p>20 say we're going to increase rates as necessary to</p> <p>21 cover costs, but an important consideration is</p> <p>22 affordability, and to the extent that you have to --</p> <p>23 or to the extent that you increase rates beyond what</p> <p>24 would be considered affordable, then what you would</p> <p>25 see is that it really doesn't matter what rates you</p>

31 (Pages 356 to 359)

<p style="text-align: right;">Page 360</p> <p>1 CHARLES MOORE</p> <p>2 charge if you're not actually collecting. And so</p> <p>3 based on how you asked the question, while DWSD may be</p> <p>4 able to increase the rates to whatever, and I'm not --</p> <p>5 and I'm not fully aware of the various legal framework</p> <p>6 within the State of Michigan for caps or other</p> <p>7 constraints on increasing those rates, assuming that</p> <p>8 there aren't any, even if DWSD was able to raise its</p> <p>9 rates as necessary to cover these costs, you would</p> <p>10 still have to at a minimum consider the affordability</p> <p>11 aspect.</p> <p>12 Q. Well, recognizing that you view it as a concern and</p> <p>13 taking into consideration your prior answer, have you</p> <p>14 prepared any analysis that would demonstrate whether</p> <p>15 or not the DWSD would be able to charge rates</p> <p>16 sufficient to meet all of these obligations outside of</p> <p>17 a Chapter 9 case?</p> <p>18 A. I have not been asked to prepare that analysis.</p> <p>19 Q. Have you seen an analysis prepared by anyone?</p> <p>20 A. Not that I recall.</p> <p>21 MR. NEAL: Can I have what's in Tab 35 of</p> <p>22 the binder set?</p> <p>23 BY MR. NEAL:</p> <p>24 Q. Mr. Moore, I've handed you what has previously been</p> <p>25 marked as Orr Exhibit Number 18. And as an aside, I</p>	<p style="text-align: right;">Page 362</p> <p>1 CHARLES MOORE</p> <p>2 Q. You were a consultant for a preeminent bond insurance</p> <p>3 company; is that correct?</p> <p>4 A. I was.</p> <p>5 Q. If I could have you turn to the last page, A-25. What</p> <p>6 I ask you to do here, sir, is to read Points 1 through</p> <p>7 6, and my question is going to be the same with</p> <p>8 respect to each point, and that is, do you have any</p> <p>9 information that would lead you to disagree with any</p> <p>10 of the factual propositions in 1 through 6?</p> <p>11 A. Would you like me to read those out loud or to myself?</p> <p>12 Q. Read them to yourself.</p> <p>13 A. Okay. Thank you.</p> <p>14 Q. Take as much time as you need.</p> <p>15 MR. HAMILTON: While he's reading them,</p> <p>16 counsel, I don't want to get into a philosophical</p> <p>17 dispute as to the difference between a factual</p> <p>18 proposition and an opinion, but given the first</p> <p>19 sentence on that -- of those, it's -- I'm not sure if</p> <p>20 your question is asking the witness to distinguish</p> <p>21 between facts and opinions or if he's disagreeing with</p> <p>22 anything, whether it's a fact or an opinion, on this</p> <p>23 page. Because your question was just about facts.</p> <p>24 MR. NEAL: Then I will broaden my question</p> <p>25 to include anything.</p>
<p style="text-align: right;">Page 361</p> <p>1 CHARLES MOORE</p> <p>2 can't stress to you how difficult it is to take Orr</p> <p>3 and Moore depositions in the same week. You can</p> <p>4 ignore that comment. I'm going to represent on the</p> <p>5 record this is an appendix. I think it's Appendix</p> <p>6 1-A, Feasibility Report. Well --</p> <p>7 MR. HAMILTON: II-A.</p> <p>8 MR. NEAL: II-A. Thank you.</p> <p>9 BY MR. NEAL:</p> <p>10 Q. That has a cover letter dated July 17th, 2014, Foster</p> <p>11 Group letterhead, letter to Ms. Sue McCormick. The</p> <p>12 first question is, have you seen this document before?</p> <p>13 A. I have not.</p> <p>14 Q. Have you ever prepared a feasibility report for a bond</p> <p>15 issuance?</p> <p>16 A. I don't believe that I have.</p> <p>17 Q. Have you ever prepared any rate analysis or rate</p> <p>18 studies for a water or sewer department?</p> <p>19 A. That has come into play with previous work that I've</p> <p>20 done, yes.</p> <p>21 Q. What previous work are you referring to?</p> <p>22 A. In the Jefferson County, Alabama, case, that was an</p> <p>23 important topic, and while certainly I was not serving</p> <p>24 as a rate consultant, I looked at analyses associated</p> <p>25 with their issues.</p>	<p style="text-align: right;">Page 363</p> <p>1 CHARLES MOORE</p> <p>2 BY MR. NEAL:</p> <p>3 Q. Do you disagree with either the fact or the opinions?</p> <p>4 A. Can you restate your question one more time?</p> <p>5 Q. Certainly. I will reframe it. You've had an</p> <p>6 opportunity in the past few minutes to review what you</p> <p>7 said is for the first time what is on Page A-25 of</p> <p>8 Exhibit -- of Orr Exhibit 18; correct?</p> <p>9 A. Yes.</p> <p>10 Q. And you've read through all the items on Page A-25;</p> <p>11 correct?</p> <p>12 A. Items 1 through 6, yes.</p> <p>13 Q. Do you have any disagreement with any of the facts or</p> <p>14 opinions that are set forth in Items 1 through 6 on</p> <p>15 Page A-25?</p> <p>16 A. None of the underlying data that I would assume --</p> <p>17 which would support these items has been provided to</p> <p>18 me, so I'm not in a position to have an opinion either</p> <p>19 way, to agree or to disagree or even to take a</p> <p>20 position as it relates to these.</p> <p>21 Q. Thank you. You can put the document aside.</p> <p>22 What is the subject of litigation, and</p> <p>23 there are several subjects of litigation for the DWSD</p> <p>24 parties in this case, is the Interest Rate Reset Chart</p> <p>25 in the Plan of Adjustment. Have you seen that chart</p>

32 (Pages 360 to 363)

<p style="text-align: right;">Page 364</p> <p>1 CHARLES MOORE</p> <p>2 before?</p> <p>3 A. I've scanned it.</p> <p>4 Q. What involvement did you have in the determination of</p> <p>5 whether or not to impair or leave unimpaired certain</p> <p>6 series of bonds?</p> <p>7 A. I had no involvement.</p> <p>8 Q. What involvement did you have, if any, with respect to</p> <p>9 whether or not to strip or modify the call protection</p> <p>10 features of certain of the DWSD bonds?</p> <p>11 A. I had no involvement.</p> <p>12 Q. Do you have any view or opinion as to whether or not</p> <p>13 the proposed new interest rates under the plan are</p> <p>14 market?</p> <p>15 A. No, I don't.</p> <p>16 Q. As you may know, the DWSD is pursuing a new sewer bond</p> <p>17 issuance in the rough approximate amount of 150</p> <p>18 million. What involvement do you have in that</p> <p>19 process?</p> <p>20 A. I made mention of that a few times earlier today in my</p> <p>21 testimony, and my involvement has been, first of all,</p> <p>22 to understand the projections, the draft projections</p> <p>23 that have been put together by DWSD in support of that</p> <p>24 financing and differences that exist between Exhibit M</p> <p>25 and those projections for the sewer fund. In addition</p>	<p style="text-align: right;">Page 366</p> <p>1 CHARLES MOORE</p> <p>2 court-ordered mediation.</p> <p>3 A. I'm not aware if any of that analysis has been</p> <p>4 developed outside of use with counsel or as part of</p> <p>5 the mediation process.</p> <p>6 BY MR. NEAL:</p> <p>7 Q. As part of the ten-year projections that you put</p> <p>8 together as Exhibit M, are you projecting that the</p> <p>9 DWSD will have to access the capital markets beyond</p> <p>10 the 150 million new sewer bond issuance proposed for</p> <p>11 this year?</p> <p>12 A. Yes.</p> <p>13 Q. And you have an assumption in Exhibit M as to the cost</p> <p>14 of financing; correct?</p> <p>15 A. Yes.</p> <p>16 Q. I just want to make sure I'm reading the right line.</p> <p>17 You could certainly pull it up. It's Porter Exhibit</p> <p>18 12. I believe it's Page 3.</p> <p>19 A. Yes.</p> <p>20 Q. And so you have an assumption as to the cost of</p> <p>21 financing that the interest rate will be approximately</p> <p>22 4.63 percent?</p> <p>23 A. Yes.</p> <p>24 Q. And that's based on a Miller Buckfire analysis?</p> <p>25 A. Correct.</p>
<p style="text-align: right;">Page 365</p> <p>1 CHARLES MOORE</p> <p>2 to that, I participated in a meeting with DWSD</p> <p>3 management and several others, including DWSD's bond</p> <p>4 counsel, to address a number of questions as it</p> <p>5 relates to the Plan of Adjustment and Exhibit M, and</p> <p>6 through my colleagues, Mr. Hausman and Mr. Johnston, I</p> <p>7 have essentially kept tabs on the status of the</p> <p>8 financing process.</p> <p>9 Q. Have you done any analysis to determine whether the</p> <p>10 DWSD will experience higher financing costs as a</p> <p>11 result of the proposed impairment of certain of the</p> <p>12 DWSD bonds?</p> <p>13 A. No.</p> <p>14 Q. Do you know if that matter has been discussed amongst</p> <p>15 the Emergency Manager and his professionals outside of</p> <p>16 counsel and outside of mediation?</p> <p>17 A. I'm not sure if it's been discussed outside of counsel</p> <p>18 or mediation.</p> <p>19 Q. Do you know if any sensitivity analysis has been</p> <p>20 conducted to determine what if scenarios, that is, if</p> <p>21 the D -- the new DWSD bonds are rated below investment</p> <p>22 grade or above investment grade?</p> <p>23 MR. HAMILTON: Object and instruct the</p> <p>24 witness not to disclose any information in response to</p> <p>25 that question that was developed in connection with</p>	<p style="text-align: right;">Page 367</p> <p>1 CHARLES MOORE</p> <p>2 Q. And you did not perform any such analysis yourself or</p> <p>3 as a group within Conway MacKenzie?</p> <p>4 A. Correct.</p> <p>5 Q. And excuse me. I should have -- maybe I could be able</p> <p>6 to find this myself, but since I have the author here,</p> <p>7 where is the cost of -- where are the future</p> <p>8 financings reflected in your projections?</p> <p>9 A. Okay. So let me point you to a couple of things here.</p> <p>10 If you look at Page 6, this is on a consolidated</p> <p>11 basis, which is probably the easiest way to show this</p> <p>12 to you. What you have here at the top is the</p> <p>13 projected capital spending and then down below you</p> <p>14 have the sources and uses. The improvement and</p> <p>15 extension fund refers to revenue-financed capital</p> <p>16 improvements, and then you have down below that this</p> <p>17 relates to the new debt that is anticipated to be</p> <p>18 obtained. And so the bond issuance row is that new</p> <p>19 debt, and I believe that that totals approximately</p> <p>20 \$1.6 billion.</p> <p>21 Q. Sorry. What totals? Where would I -- what would I</p> <p>22 total to reach that total?</p> <p>23 A. Sure. Do you see the section called "Construction</p> <p>24 Bond Fund"?</p> <p>25 Q. Yes.</p>

33 (Pages 364 to 367)

CHARLES MOORE

A. The second row, "Plus: Bond issuance."

Q. Um-hmm.

A. And beginning in 2015, 123.8, 253.6, 208.5. Those across I believe will total to approximately 1.6 billion.

Q. Thank you. And this is for the consolidated systems; correct?

A. Correct.

Q. Okay. Just a few more questions, sir, and then I'm going to yield to others in the room. I want to go just all the way back to your expert report, so Moore Exhibit Number 1. And I suspect this may be self-evident, but I'm good at belaboring the obvious. If you could look at Pages 6 through 8. And this would include a section that provides an overview of the reinvestment initiatives that are the subject of your expert report; is that correct?

A. Yes.

Q. And, generally speaking, that's about \$1.7 billion that the City proposes to invest through fiscal year ending June 30th, 2023; correct?

A. Just to clarify, I use three words here: Investment, which is 1.7 billion, revenue initiatives, which are 482 million, and then cost reductions or cost savings

CHARLES MOORE

MR. NEAL: Let the record note Jones Day is proud of Exhibit 3.

BY MR. NEAL:

Q. The total of the investment -- none of these investment initiatives go toward or benefit the DWSD; correct?

A. Not directly.

Q. Any benefits would be indirect based on improving life within the City of Detroit?

A. That certainly could be one of them. The -- the strength of the City in general I would assume could have indirect benefits to DWSD as well.

Q. But a decision was made not to direct -- not to invest directly within the DWSD; right?

A. I'm not sure I understand your question.

Q. Let me go back. There's no direct investment of any of these proceeds within the DWSD; correct?

A. No. But separately within Exhibit M there's approximately \$2.9 billion in capital improvements that are being invested in DWSD. Part of that actually relates to its operations, including enhanced information systems and other operational efficiencies. So that is included within Exhibit M. This relates to the general fund as well as any

CHARLES MOORE

of 358 million. The three of those together are a net approximately \$877 million, and that's what -- the three together is what we refer to as reinvestment initiatives. So investment is 1.7 billion. You had used the word "reinvestment," I believe.

Q. I take it would this jump out at me on Slide -- Page 8, that you have your subtotal for investment is 1.7; correct?

A. Yes. If you -- actually if you look at Page 7.

Q. Um-hmm.

A. The second paragraph which begins "As set more fully."

Q. Okay.

A. You see \$1.7 billion there, and the rest of that paragraph just breaks out the 1.7 into six categories, and then below that it indicates cost, this is in the paragraph after that, cost savings of 358 million and then revenue initiatives of 482 million, and on Page 8, then, you see the total net reinvestment initiatives of approximately 877 million.

MR. HAMILTON: If you'll look at Exhibit 3, there's a really cool graphic representation of that if you want to see it. The second page of Exhibit 3 of his report. We worked hard on that.

MS. NELSON: We did.

CHARLES MOORE

enterprise funds that are operating at a -- with a subsidy from the general fund.

Q. What about with respect to the department cost savings initiatives?

A. Same thing. That is included in Exhibit M, not included here.

Q. And, lastly, the revenue initiatives?

A. Same response.

MR. NEAL: If we can go off the record. I need five minutes to see if I have just a few more questions.

VIDEO TECHNICIAN: The time is 1:34 p.m.

We are now off the record.

(Recess taken at 1:34 p.m.)

(Back on the record at 1:39 p.m.)

EXAMINATION

BY MS. QUADROZZI:

Q. Good afternoon.

A. Good afternoon.

Q. I have a few questions for you. Just a few.

Can you take a look at Exhibit M? I think it was identified as Porter 12 in front of you.

MR. HAMILTON: That's correct.

MR. ULLMAN: Do you remember what tab

<p style="text-align: right;">Page 372</p> <p>1 CHARLES MOORE</p> <p>2 number that was?</p> <p>3 MR. NEAL: J.</p> <p>4 A. Yes. I have it.</p> <p>5 BY MS. QUADROZZI:</p> <p>6 Q. The capital improvement line -- lines in Exhibit M are</p> <p>7 based on the OHM report; correct?</p> <p>8 A. For the most part.</p> <p>9 Q. Okay.</p> <p>10 A. They're --</p> <p>11 Q. I want to talk to you about the not most part, in</p> <p>12 particular those. So if you take a look at what is,</p> <p>13 and I'm using the numbers that you previously looked</p> <p>14 at, so Page 193 out of 212 --</p> <p>15 A. Yes.</p> <p>16 Q. -- at the bottom. There is a line underneath "Capital</p> <p>17 spending." It describes OHM Advisors, CIP estimates,</p> <p>18 and then there is a line item "Unidentified capital</p> <p>19 projects." And those are for the years 2020 through</p> <p>20 2023.</p> <p>21 A. Yes.</p> <p>22 Q. From where did you derive those numbers?</p> <p>23 A. These numbers are a placeholder based on the City --</p> <p>24 I'm sorry, DWSD and its operating metrics by that time</p> <p>25 in terms of how much cash that it would have. There</p>	<p style="text-align: right;">Page 374</p> <p>1 CHARLES MOORE</p> <p>2 change based on what the actuals in those years</p> <p>3 yielded?</p> <p>4 A. Not necessarily.</p> <p>5 Q. Okay. Explain to me how that is not correct.</p> <p>6 A. To the extent that actual results for, as you say,</p> <p>7 2014 and 2015 differ than what's in here, favorably or</p> <p>8 un -- or unfavorably, what would be more likely to</p> <p>9 happen is that in the future years, '16, '17, '18, as</p> <p>10 an example, rates would likely be adjusted to make up</p> <p>11 for that one way or another, and so you would have</p> <p>12 quite a bit of operating experience that would take</p> <p>13 place between '14 and '15, as you mentioned before,</p> <p>14 you would get out to 2020, and as the process occurs</p> <p>15 every year, rates are set taking into account not only</p> <p>16 what the costs are anticipated to be but also what has</p> <p>17 happened in the past.</p> <p>18 Q. Okay. Let's -- let's stay with that for a minute.</p> <p>19 Let's assume that the results of '14 and '15 are</p> <p>20 unfavorable. Let's assume that the revenue is not as</p> <p>21 you had projected. Let's then assume that you keep</p> <p>22 everything else constant, that rates don't go up.</p> <p>23 Fair to say that the amounts for the capital projects,</p> <p>24 unidentified capital projects in those outlying years</p> <p>25 would have to be adjusted?</p>
<p style="text-align: right;">Page 373</p> <p>1 CHARLES MOORE</p> <p>2 was capacity to take on additional capital</p> <p>3 improvements. So while there were not specific</p> <p>4 projects that were identified outside of the OHM work,</p> <p>5 we put this in as a placeholder to provide for even</p> <p>6 more capital improvements if those were necessary to</p> <p>7 show that they would be able to -- that DWSD would be</p> <p>8 able to fund those.</p> <p>9 Q. Let me just make sure that I understand that. The</p> <p>10 placeholder that you're describing, was that a</p> <p>11 function just of a roll forward of dollars based on</p> <p>12 your forecasts that would be in the system?</p> <p>13 A. I'm not sure I understand your question.</p> <p>14 Q. Okay. Well, let me see if I can make it clearer for</p> <p>15 you. What I'm trying to understand is whether or not</p> <p>16 there were any factors other than the forecasts, the</p> <p>17 financial forecasts, that you used that allowed you to</p> <p>18 decide what the size of those placeholders would be.</p> <p>19 A. No. The amounts that you see, those four years, are</p> <p>20 based purely on capacity, if you will, to fund</p> <p>21 additional projects to the extent that those projects</p> <p>22 would be identified and validated.</p> <p>23 Q. So, for example, if your assumptions that led to the</p> <p>24 2014 and 2015 revenue numbers proved to be incorrect,</p> <p>25 those placeholder amounts could -- would be subject to</p>	<p style="text-align: right;">Page 375</p> <p>1 CHARLES MOORE</p> <p>2 A. No.</p> <p>3 Q. Okay. Other than raising rates, would the -- would</p> <p>4 the other option be to increase financing?</p> <p>5 A. No.</p> <p>6 Q. What would be the third option?</p> <p>7 A. Most likely cost would be adjusted so that to the</p> <p>8 extent that there's a variance in revenue, cost would</p> <p>9 also be adjusted, and, as I indicated earlier, right</p> <p>10 now revenues for fiscal year '14 at least to date as</p> <p>11 far as I saw them, which I believe was through April</p> <p>12 of 2014, revenue was below plan, but expenses are also</p> <p>13 below plan, and they're even more favorable in terms</p> <p>14 of a variance than the revenue variance. So we would</p> <p>15 have a situation where the net for 2014 would</p> <p>16 potentially come in better than the net, and it's</p> <p>17 really all about the net cash flow in the end.</p> <p>18 Revenue can be higher or lower, expenses can be higher</p> <p>19 or lower, but it's about the net amount of cash flow</p> <p>20 that the operation generates.</p> <p>21 Q. Would you agree that it has been historically the</p> <p>22 case, based on your expert review of the DWSD</p> <p>23 financials, that the manner in which DWSD has operated</p> <p>24 is to provide a decrease in capital expenditures in</p> <p>25 order to make up in the bottom line a loss in revenue</p>

35 (Pages 372 to 375)

CHARLES MOORE

over the past say seven of the last ten years?

A. No. I would not agree with that. If you look at the OHM study, their ten-year capital improvement plan, you can actually see, and I'd have to have the study in front of me, but there are years within the ten-year period that you're referencing, several years, where you see a pretty significant spike in capital improvements that were undertaken. So this has not been a situation where capital improvement dollars have actually been shrinking. There was a lot spent on capital within the last ten years.

Q. To your knowledge, based on the DWSD, so I'm not talking the OHM, I'm talking the typical five-year DWSD Capital Improvement Plans that they perform within that department. You're familiar with those?

A. Yes.

Q. Okay. So based on just those, is -- is it fair to say that DWSD has underspent its Capital Improvement Plans in each of the last seven of ten years?

A. I don't recall looking at that specific analysis, meaning going back and looking at five-year plans and comparing that to what was actually spent, so I don't think I can answer that question.

Q. I think when you were speaking this morning with

CHARLES MOORE

understand the specific question and I'd like to see the answer. She may not have seen a cover page that says Exhibit M on it. But that would definitely surprise me if there was an indication that she had not seen these projections.

BY MS. QUADROZZI:

Q. Okay. When you were talking this morning, this might have been this afternoon, with Mr. Neal, you were talking about the -- your involvement in connection with the discussions about a regional authority. Do you remember that testimony generally?

A. Yes.

Q. You talked in specific with Mr. Neal about your involvement in connection with a proposal, you can correct me if you don't like that word, that included a \$47 million a year lease payment. Do you remember that?

A. Yes.

Q. And you also remember that there -- prior to that 47 million number there was an analysis that Conway MacKenzie and you were involved in that had a larger lease payment; correct?

A. Yes. We discussed two things this morning.

Q. Right.

CHARLES MOORE

Mr. Neal, you indicated that DWSD, you might have called it executive staff, I might have the wording wrong, approved your -- the work that you had done in connection with Exhibit M, and my question to you is, who specifically at DWSD did you review Exhibit M with who said yes, we sign off on this?

A. My colleague, Wade Johnston, who I referenced earlier, before Exhibit M was included with the Disclosure Statement, I made sure that the DWS -- DWSD management team, that was for sure Ms. Bateson, it may have been Mr. Wolfson and it may have been Mr. Foster as well, did not have any remaining concerns on this information before it went into the Disclosure Statement.

Q. Would it surprise you that Ms. McCormick testified that she did not see Exhibit M prior to the time that it was included in the Plan of Adjustment?

A. No. That doesn't surprise me, especially based on the answer that I just gave.

Q. Does it surprise you that that was also Ms. Bateson's testimony?

MR. HAMILTON: I'm not sure it was, but let's assume it was. Would it surprise you?

A. If -- if Ms. Bateson -- I guess I would like to

CHARLES MOORE

A. The business plan that had a higher lease payment in it, and then when I was brought in by Ms. Fox around the end of January, the discussions were around a \$47 million constant lease payment over 40 years.

Q. Okay. And I wasn't trying to reget your testimony. I was just kind of trying to bring you back to where I'm now going to leap off with with some questions. Were you involved at all in a analysis that had a \$44 million a year constant payment?

A. I don't recall a \$44 million. It certainly could be. I just don't recall right now.

Q. Okay. Let me -- let me see if we can -- if we can -- if I can refresh your recollection at all, understanding it's not a memory test. In January -- in December '13, January '14, during the discussions with the counties, were you involved in any meetings at which there was a proposal outlined by Miller Buckfire with a constant \$44 million lease payment?

A. Not that I can recall. My first involvement with the counties after the initial time period in October was in January.

Q. Do you recall in January any discussions with anyone at Miller Buckfire or anyone else within Conway MacKenzie, including Mr. Hausman, about whether or not

<p style="text-align: right;">Page 380</p> <p>1 CHARLES MOORE</p> <p>2 there had been a refinement of the -- of a constant</p> <p>3 lease payment that made a jump from 44 to 47?</p> <p>4 A. Not that I can recall. The \$47 million number is the</p> <p>5 one that always sticks out in my head, and I just</p> <p>6 don't recall discussions around \$44 million. It</p> <p>7 certainly could be the case. Again, I -- I just don't</p> <p>8 recall offhand discussions around 44 million.</p> <p>9 Q. Okay. One more area, sir. If you can take a look</p> <p>10 at -- this was Orr Exhibit 10. The tab is Tab 6.</p> <p>11 A. What did this relate to?</p> <p>12 Q. I don't believe that we --</p> <p>13 MR. HAMILTON: It's the October 2nd 10-Year</p> <p>14 Business Plan.</p> <p>15 BY MS. QUADROZZI:</p> <p>16 Q. Yeah. I don't believe it was separately marked, but</p> <p>17 if you recall, there was a bit of discussion this</p> <p>18 morning about in particular Page 40 of that.</p> <p>19 A. Yes. I have it.</p> <p>20 Q. Okay. Now, you -- and you can take a look at Page 40</p> <p>21 if you want, but I just have a few questions on this.</p> <p>22 You talked with Mr. Neal this morning about</p> <p>23 optimization savings and how that was the line item</p> <p>24 where only 50 percent was included in the business</p> <p>25 plan number and the other amount was to be a benefit</p>	<p style="text-align: right;">Page 382</p> <p>1 CHARLES MOORE</p> <p>2 A. The EMA report largely related to head count, and</p> <p>3 there were a variety of reasons why the EMA number was</p> <p>4 not used. This is the plan that management is</p> <p>5 pursuing right now as it relates to head count in</p> <p>6 particular.</p> <p>7 Q. Well, you're aware, sir, that the EMA report was done</p> <p>8 in 2012?</p> <p>9 A. Yeah. I had indicated within the last two years, yes.</p> <p>10 Q. Okay. And you are aware that the -- the EMA report,</p> <p>11 just for clarification, was not improved -- approved</p> <p>12 in its entirety by the City Council; correct?</p> <p>13 A. I actually don't know that.</p> <p>14 Q. Okay. The activities that were recommended in the EMA</p> <p>15 report had begun to be put into place at DWSD within</p> <p>16 calendar year 2013; correct?</p> <p>17 A. Yes.</p> <p>18 Q. So they were working along those lines, the head count</p> <p>19 reductions, at least the portion that they were doing</p> <p>20 of the EMA report, that was happening in 2013?</p> <p>21 A. Yes.</p> <p>22 Q. And continuing to this day?</p> <p>23 A. Yes.</p> <p>24 Q. What of this optimization savings is attributable to</p> <p>25 the bankruptcy, sir?</p>
<p style="text-align: right;">Page 381</p> <p>1 CHARLES MOORE</p> <p>2 that DWSD achieved. Do you remember that testimony?</p> <p>3 A. A benefit that DWSD would retain.</p> <p>4 Q. Correct.</p> <p>5 A. Yes.</p> <p>6 Q. My question to you, sir, is, and correct me if I'm</p> <p>7 wrong, your testimony also was that you -- that</p> <p>8 optimization savings was something that you analyzed</p> <p>9 in connection with the EMA report?</p> <p>10 A. The --</p> <p>11 MR. HAMILTON: Go ahead.</p> <p>12 A. The EMA report, as I testified earlier today, that was</p> <p>13 something that was looked at. The optimization</p> <p>14 savings is more based on the discussions with</p> <p>15 management on the initiatives that they're</p> <p>16 undertaking, and one of the -- one of the activities</p> <p>17 that we looked at or that we undertook specifically</p> <p>18 was to sit down with management and understand the</p> <p>19 items in the EMA report versus -- and get management's</p> <p>20 thoughts on the achievability of those as well as why</p> <p>21 certain items could not be undertaken.</p> <p>22 BY MS. QUADROZZI:</p> <p>23 Q. And those items in the EMA report were a portion or</p> <p>24 were considered and rolled into the optimization</p> <p>25 savings that you have on that -- on that table?</p>	<p style="text-align: right;">Page 383</p> <p>1 CHARLES MOORE</p> <p>2 A. Well, as we've talked about here, the -- I think</p> <p>3 Mr. Neal essentially asked this question already. As</p> <p>4 it relates to adjustments to the projections,</p> <p>5 specifically for the Chapter 9 process, we covered</p> <p>6 what he referred to as seven categories, Mr. Hamilton</p> <p>7 objected about pension administrative costs, but as</p> <p>8 you can tell, I didn't respond and we didn't cover</p> <p>9 anything related to optimization as part of the</p> <p>10 Chapter 9 process. So these activities are activities</p> <p>11 that can and are being effectuated regardless of</p> <p>12 whether the City is in bankruptcy or not.</p> <p>13 MS. QUADROZZI: Okay. I don't have any</p> <p>14 other questions.</p> <p>15 MR. HAMILTON: Anybody else?</p> <p>16 VIDEO TECHNICIAN: This concludes today's</p> <p>17 deposition. The time is 1:57 p.m. We are now off the</p> <p>18 record.</p> <p>19 (The deposition was concluded at 1:57 p.m.</p> <p>20 Signature of the witness was not requested by</p> <p>21 counsel for the respective parties hereto.)</p> <p>22</p> <p>23</p> <p>24</p> <p>25</p>

Re: FY 2021 – 2030 Long-Term Forecast Report for Legacy Pension Plans and Debt Obligations

Dear Honorable City Council Members:

The Office of the Chief Financial Officer (OCFO) respectfully submits its annual Long-Term Forecast Report for Legacy Pension Plans and Debt Obligations. The OCFO also publishes this report on the City's website.

This report is provided in accordance with the requirements included in Detroit Financial Review Commission (FRC) Resolution 2020-03, which granted the City its waiver of active FRC oversight through June 30, 2021. It includes long-term forecasts for the City's legacy pension plans, debt obligations, revenues and expenditures, and the assumptions used for the analysis.

Best regards,

Jay B. Rising
Acting CFO

Att: FY 2021 – 2030 Long-Term Forecast Report for Legacy Pension Plans and Debt Obligations

Executive Summary	3
Legacy Pension Obligations	4
Debt Obligations	10
Long-Term Forecast	14

Executive Summary

- Detroit continues to face long-term financial challenges following the COVID-19 pandemic's impact on the economy and City's finances
- In response, we have proactively maintained balanced budgets through the pandemic and have not wavered in our commitment to our retirees and meeting our long-term obligations
- The proposed FY 2022 - FY 2025 Four-Year Financial Plan includes all of the originally scheduled Retiree Protection Fund ("RPF") deposits, plus an additional \$30M in FY22
- To achieve fiscal sustainability, we will need to identify additional RPF funding, reduce recurring spending through new efficiencies and innovations, and continue to grow and diversify our revenues
- Targeted one-time investments that achieve these goals will be crucial to the City's future

Legacy Pension Obligations

Legacy Pensions Background

- The Bankruptcy Plan of Adjustment gave the City a 10-year “pension holiday” for the legacy plans to rebuild the tax base by investing in operations, capital, and blight removal
- It assumed only the fixed “Grand Bargain” pension contributions prior to FY 2024 followed by a 30-year amortization
- Instead of waiting for this “pension cliff” in FY 2024, the City began setting aside surplus funds in 2016
- The City established the Retiree Protection Fund (“RPF”) in FY 2018 to conservatively invest the funds in a new irrevocable trust that can only be used for future pension funding and to help the City build room within its recurring budget over time
- The FY 2022 Budget includes the scheduled \$55M deposit, plus another \$30M supplemental deposit, for a total of \$85M
- The RPF is critical to the City’s pension funding strategy, and

13-53846-tjt Doc 13634-20 Filed 02/09/23 Entered 02/09/23 18:52:03 Page 734

of 254 contributions

Plan of Adjustment (“POA”) Requirement (with October 2014 POA Projections)

General Fund Legacy Pension Contributions
(\$ in millions)

* Excludes “Grand Bargain” contributions from State of Michigan, Foundation for Detroit’s Future (FDF), and Detroit Institute of Arts (DIA). DWSD and Library liabilities and contributions are separate.

13-53846-tjt Doc 13634-20 Filed 02/09/23 Entered 02/09/23 18:52:03 Page 8 of

Plan of Adjustment (“POA”) Requirement (with City’s March 2021 Projections)

* Excludes “Grand Bargain” contributions from State of Michigan, Foundation for Detroit’s Future (FDF), and Detroit Institute of Arts (DIA). DWSD and Library liabilities and contributions are separate.

Retiree Protection Fund Plan

(with City's March 2021 Projections)

General Fund Legacy Pension Contributions
(\$ in millions)

* Excludes "Grand Bargain" contributions from State of Michigan, Foundation for Detroit's Future (FDF), and Detroit Institute of Arts (DIA). DWSD and Library liabilities and contributions are separate.

FY 2022 Pension Plan and RPF Review

- Prior to developing the FY 2022 Budget recommendation, the OCFO reviewed the latest actuarial valuations, pension plan returns, and RPF returns
- No change to funding policy assumptions
- Projected FY 2024 net contribution from General Fund increased \$36M vs. last year's review
 - Projected increases last year and this year are driven by investment performance below 6.75% assumed rate of return

Pension Model Updates and Assumptions	
Actuarial Valuation ⁽¹⁾	FY 2019 valuation
Latest Pension Plan Returns	-0.96% GRS, 1.6% PFRS FY 2020 actual return
Future Pension Plan Returns	6.75% projected
Amortization / Funding Policy ⁽²⁾	30-year level dollar
FY 2024 Projected Contribution	\$233.2M gross (\$31.2M) FDF/DIA/DWSD/DPL ⁽³⁾ \$202M net from General Fund
Latest RPF Returns	5.8% FY 2020 actual return
Future RPF Returns	1.56% for FY 2021 and declining to 1% post-FY 2023

(1) Actuarial valuations for FY 2020 may be completed by spring 2021.

(2) The Retirement Systems have not yet established funding policies

(3) Foundation for Detroit's Future and Detroit Institute of Arts are the "Grand Bargain" outside sources through FY 2034. Detroit Water and Sewerage Department and Detroit Public Library are pension liabilities that do not impact the General Fund.

Debt Obligations

Unlimited Tax General Obligation Debt Service

Debt Service Fund
(\$ in millions)

- UTGO bonds are authorized by voters and repaid from the City's debt millage
- They support capital improvement projects throughout Detroit

* Does not include projected debt service for remaining authorizations for unissued \$40M in Capital Improvement UTGO bonds and \$75M in Neighborhood Improvement Plan UTGO bonds.

Source: OCFO – Office of the Treasurer

Limited Tax General Obligation Debt Service

General Fund and Enterprise Funds*
(\$ in millions)

- LTGO bonds are primarily repaid from the City's General Fund revenues
- They supported settlements with creditors and reinvestment projects after the City's bankruptcy

* 2014 B-Notes are split approximately 80% General Fund and 20% Enterprise Funds.

Source: OCFO – Office of the Treasurer

Baseline Forecast Assumptions

Revenues

- Based on the approved February 2021 Revenue Estimating Conference results for FY 2022 – FY 2025
- Revenue growth generally continues along revenue conference trends after FY 2025
- Forecast does not include one-time federal American Rescue Plan Act funding
- Forecast does not include potential significant negative effects of the proposed charter revisions presented to the Governor

Expenditures

- Generally forecasted from FY 2020 actuals and known adjustments
- Annual wage growth based on current labor agreements and inflationary increases thereafter
- Healthcare, dental, and vision benefits include inflationary growth
- Legacy Pension cost based on proposed FY 2022 budget and 30-year level dollar amortization
 - An additional graph is provided to show the impact of a 20-year level dollar amortization
- Debt service based on existing debt service schedules
- Other operating expenditures include 2% inflationary growth
- Includes turnover, overtime, and other savings based on proposed FY 2022-2025 four-year financial plan
- Forecast does not include one-time spending from fund balance (e.g., blight, capital); it only includes recurring revenues and expenses
- Projections do not assume any corrective action beyond the four-year financial plan that would be taken to balance the budget

FY 2021-2030 Long-Term Forecast Baseline

FY 2021-2030 Long-Term Forecast Baseline with 20-Year Pension Amortization

* The Retirement Systems are considering a 20-year level dollar amortization as the funding policies for the legacy pension plans.

13-53846-lt Doc 13634-10 Filed 02/09/23 Entered 02/09/23 18:52:03 Page 19 of

Potential Upside and Downside Risks

Potential Upside (added to forecast)

- Income and property taxes from economic development projects underway
- Internet gaming and sports betting taxes (launched Jan 2021)
- State-shared excise tax from adult-use marijuana (City authorized in Nov 2020, implementation underway)
- Departmental revenue gains from Emergency Medical Services and Municipal Parking improvements
- Potential income tax gains by reducing the resident poverty rate by 10% during the forecast period

Downside Risk (not included in forecast)

- Slower on-site casino recovery than expected
- Slower than anticipated recovery from recession
- Larger income tax losses from nonresidents who continue to work remotely (reduces taxable income)
 - Baseline assumes an ongoing 10% remote work loss, and a 30% loss is shown to illustrate risk
- Longer lasting changes in local economic activity due to workplace and behavior changes
- Future state and federal budget pressures causing reductions in local funding

FY 2021-2030 Long-Term Forecast with Potential Upside

* Baseline forecast assumes an ongoing 10% nonresident income tax loss from commuters who continue to work remotely. The dotted line shows the impact if the ongoing loss is 30% instead.

FY 2021-2030 Long-Term Forecast with Potential Upside and 20-Year Amortization

* The Retirement Systems are considering a 20-year level dollar amortization as the funding policies for the legacy pension plans.

* Baseline forecast assumes an ongoing 10% nonresident income tax loss from commuters who continue to work remotely. The dotted line shows the impact if the ongoing loss is 30% instead.

Re: City Funding Presentations

Dear Trustees:

We have been asked to provide comments on the City's recent presentation regarding the development of a funding policy for 2024 and beyond. Please note that we have not received numerical details of the City's proposal and have not been asked or attempted to verify the numerical accuracy of the presentations. Therefore, our comments are limited to the general information contained in the presentations and the City's verbal comments made at the meetings.

We appreciate this opportunity to comment and we commend the City for the initiative they have taken regarding the development of a funding policy for 2024 and beyond. However, as the actuary for the Retirement Systems, we have some concerns about the funding policy that is being proposed by the City. They are outlined below.

The City stated that its budget is not sustainable with a 30-year level dollar amortization.

The City has established a Retiree Protection Fund (RPF) and included projections using those funds to partially offset contributions based on a 30-year level dollar amortization, referred to in the presentation as the RPF Plan. A 30-year amortization is the longest allowable under Michigan law. The City then states "But City Budget not sustainable with current RPF Plan" on a slide that shows a City budget shortfall each year from FY 2020 to FY 2029. This is of critical importance to the Retirement Systems.

As part of the verbal presentation, the City representatives indicated that the City's financial situation had worsened during the pandemic. They indicated that not only has there been significant lost tax revenue due to the shutdowns, but that they believe tax revenue may be permanently reduced. They also indicated that they successfully closed near term budget gaps only by taking advantage of funds available through the CARES act.

As actuaries for the Retirement Systems, we do not have the data (nor the technical expertise) to assess the City's financial situation. However, assuming those comments to be accurate, ***the Retirement Systems face significant risk that the City will default on any funding policy, even the absolute minimum 30-year amortization.***

The City's argument relative to their financial position seems to favor accelerating contributions rather than delaying or reducing them and supports our continued recommendation of getting as much money as possible into the retirement system trust as soon as possible, preferably now.

The City is proposing a benefit payment plan that allows for the Retirement Systems to run out of money.

The City's proposal discusses a fixed initial 30-year rolling amortization (of unfunded liability) method that is intended to transition to pay-as-you go funding in 2045 (when benefit payments are projected to be lower than the fixed contributions). As we understand it, the proposed annual contribution amount would increase by 1% every year. ***There is a risk with a fixed contribution schedule that assets in the trust could deplete before the City is able to afford paying benefits directly. In other words, there is a risk that promised benefits will not be paid under this approach.*** The City indicated that from its perspective a fixed contribution schedule is more important than the risk that plan assets will deplete or that benefits may not be paid. We are not in favor of a policy that increases the risks of depletion of trust assets.

Our specific comments on the mechanics of this method are:

- *A fixed contribution schedule does not reflect gains and losses that will occur.* Presumably, the 1% annual increase in contributions is intended to mitigate the risk that the fixed contributions will fall below the minimum required by Michigan law. There was some discussion related to potential future adjustments if Plan experience results in an insolvency before the City believes it can afford the annual pay-as-you-go benefits. However, exactly how and when the initial contribution is determined and how and when future contribution adjustments are made are not detailed in the presentation. We would suggest that these details are critical and should be completely known before any decision is made regarding the viability of the proposed funding policy.
- *The initial period being used is too long.* In order to reduce the risk of Plan insolvency or the need to make future adjustments to any fixed contribution schedule, we recommend a higher initial contribution such as one determined with a shorter initial amortization period. In mature plans like the Legacy plans, the risk of plan insolvency is increased when amortization periods are longer than 10 or 15 years.
- *The City's proposal is a non-traditional funding method.* There may be standard methods that could be used to meet the same objectives and we would suggest they should be used instead. Again, we recommend use of a traditional funding method that funds 100% of the liabilities in the plan and that pays all plan benefits from the system trust.

It seems to be implicit in the City's proposal that the fixed contributions will be compared with a 30-year rolling amortization of the unfunded actuarial accrued liability with each valuation, arguably the minimum required by Michigan Law. In our opinion, a 30-year rolling amortization is an inappropriate actuarially determined contribution for the annual valuations for closed plans of this maturity and is a significant departure from all of our previous discussions about funding policy with the Boards and Investment Committees. As the actuary for the Retirement Systems, we reiterate the need for a funding policy that stipulates an appropriate actuarially determined contribution – even if its sole purpose is to be used in comparison to a fixed contribution schedule. Again, we reiterate our recommendation for closed amortization periods (dropping one year each year) of 20 years or less.

We expect that our projection tool can easily model a fixed contribution schedule as described in the City's presentation. However, the full technical details of the City's exact proposal for funding have not yet been provided to us. Once they are, we can then perform scenario/sensitivity tests of the proposal using our projection tool. We suggest that this should be done before any decisions are made regarding the viability of the policy. Please see one of our several supplemental reports for a more complete discussion of funding policies in general (for example, the Police and Fire report, dated January 11, 2019 or the General Employees report, dated September 18, 2019).

Other Comments

The presentation referred to the use of "outdated" mortality assumptions. In an effort to clear up any confusion, we would remind everyone of the following:

- The actuarial assumptions to be used in bankruptcy modeling were agreed upon by all parties (as required by the Court) and were different than those used in the actuarial valuations preceding the Bankruptcy;
- The City, the Retirement System and the Retiree Group, and their representative actuaries were the parties involved in the selection; and
- The mortality tables currently used in the subsequent actuarial valuations of the Retirement Systems were based on a study of mortality experience performed after the bankruptcy discussions had ended.

The City compared unfunded liabilities from the POA projections with unfunded liabilities from the June 30, 2014 actuarial valuations and attributed all of the difference in those numbers to the change in mortality which they verbally referred to as "the mortality mistake". Please note that POA unfunded liability amounts were:

- Developed by the City's actuaries (not the Retirement System's actuaries);
- Based on different census data (the June 30, 2014 census data was not available during the bankruptcy mediation – there has been significant data auditing/cleanup by the Retirement Systems and the City since Bankruptcy); and

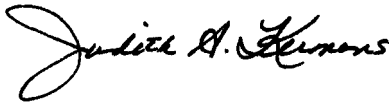

- Possibly based on different assets. While we did not perform the POA projections and cannot definitively state what was used, we can state that we did not have final asset information available to use until after we had completed our participation in the mediation – final asset information was used for the June 30, 2014 valuation which was published in 2015.

We would appreciate the opportunity to meet with you to go over these comments in detail.

Sincerely,

Kenneth G. Alberts

Duggan vows to go back to bankruptcy court or Legislature over cuts to pension payment timeline

ANNALISE FRANK

City of Detroit via Flickr

Detroit Mayor Mike Duggan (center) presents his administration's budget proposal to Detroit City Council on Monday at the Coleman A. Young Municipal Center. The city wants to put \$90 million in its Retiree Protection Fund that was created to prepare for the year 2023 when Detroit will need to start paying down its pension debt.

Detroit Mayor Mike Duggan plans to go to court over what he called an irresponsible decision by a pension board to shorten the time the city has to pay off legacy pension debt.

The city will take action in bankruptcy court to attempt to get a judge to reverse the Police & Fire Retirement System board's adoption of a 20-year amortization period, or payment schedule, Duggan said Monday during a [budget presentation before City Council](#).

The city has been planning for a 30-year period when those post-bankruptcy payments resume in 2023 — a time that's nearing quickly and has been dubbed the "[pension cliff](#)" because it's a massive financial lift for the city. The city got a nine-year break from paying on that debt as part of renegotiated debts during its historic 2013-14 bankruptcy.

The Police & Fire Retirement System says it's obligated to make choices that are best for the funds' health, and thus its retirees. But Detroit officials disagree, seeing the shorter timeline as less tenable because it will make the city's costs even higher on the front end.

"We definitely will go back to bankruptcy court, and I think I may go to the state Legislature (if that doesn't work)," Duggan said, adding later that he's "pretty angry about this."

The mayor said that if the city can't get the payment schedule changed, "we're going to be looking at budget cuts here for no reason."

Duggan said his overall frustration lies in the fact that his administration lacks control over the decision. The payment schedule is determined by the boards and investment committees of Detroit's Police & Fire and General retirement systems.

"My bigger question is, why does the city of Detroit have no role in picking the investment committee that's making the decision on our retirees' pensions? And they're clearly not behaving in a responsible manner, and so if we don't get help in the bankruptcy court we may go to the Legislature and say, 'This just isn't right.'"

The disagreement between the city and retirement system board is complex, but important because of the major impacts it could have on the city's bottom line, its ability to spend on services for businesses and residents in the future and the pension systems that serve retirees.

Many of those retirees, who are watching this process with interest, are worried about more cuts — they already saw their benefits slashed as the city renegotiated debts during its bankruptcy.

20-year vs. 30-year schedule

The Police & Fire pension board moved to adopt a 20-year payment schedule because it found it was the best move to ensure the solvency of the pension funds — stated simply, to assure retired civil servants' benefits are safe. They approved it over objections from city-aligned members including city Finance Director John Naglick and Deputy Mayor Conrad Mallett.

A rolling 30-year amortization is like "having a huge credit card bill and making the minimum payment every month," Joe Bogdahn, chair of the investment committee for the Police & Fire Retirement System, or PFRS, told Crain's last year.

"The (Police & Fire Retirement System) has a fiduciary obligation is to ensure that benefits are paid to retired police, firefighters and their beneficiaries," Chairman Ron Thomas said in a Tuesday news release. "Further it is our job as a Board to ensure the system's funds are properly invested and managed to provide for future funding. Trustees have heard from our actuarial and other financial advisors that have run numerous what-if scenarios based on multiple funding models including 30-year, 20-year and others with respect to paying down the unfunded portion of future pension obligations. The 20-year model is clearly in the best interest of retirees."

But much like shaving 10 years off a 30-year mortgage, the chosen plan will drastically increase the city's costs on the front end.

The city agreed during its bankruptcy to a 30-year amortization with the pension systems "in the room," Duggan said Monday.

"They agreed to that," he said. "Now we've got an investment committee that was essentially appointed by (former Gov. Rick Snyder) that doesn't report to anybody, that has voted to shorten the amortization to 20 years."

Detroit financial officials estimate pension contributions will total \$130 million-\$200 million a year, depending on the schedule, equivalent to up to 20 percent of the annual budget.

While the police and fire pension board has decided on a 20-year amortization, the General Retirement System for other city employees, separate from police and fire, is still assumed at 30 years in the city's documents.

A request for comment from the general retirement system was not returned Tuesday.

In a June 2020 report, actuaries at Gabriel Roeder Smith & Co. warned that a 30-year level dollar amortization would cause the General Retirement System's funding level to drop dramatically to just 12 percent by 2045 as benefits paid to retirees outpace deposits from the city and investment gains. That's not good because if asset levels get low enough in later years, to the point of insolvency, benefits get paid out of the already stressed city budget year to year, David Draine, a principal public sector retirement system investigator for The Pew Charitable Trusts, told Crain's last year.

Saving up

Duggan also on Monday praised his administration and City Council for preparing for the pension cliff. They created [a Retiree Protection Fund](#) starting in 2018 where the city is socking away cash to help cushion the blow those payments will present to the budget.

There's about \$370 million in the fund now and on [Monday Duggan proposed](#) putting an additional \$90 million in it this coming fiscal year, an increase from the previously proposed annual infusion of \$60 million.

"We have planned from the beginning to fund that 2024 cliff, so our retirees are not back in bankruptcy court and having their pension benefits cut again," Duggan said. "... To have somebody say to us, 'We're going to shorten the amortization for 20 years,' after we behaved

in such a responsible manner, I think is flat-out wrong. So as you can probably tell, I'm pretty angry about this and we're working on strategies to deal with it."

The Police & Fire Retirement System's Tuesday news release also applauded the \$90 million addition.

"We appreciate the Mayor and City Administration's stewardship of the City and ability to manage its budget amid the pandemic," Thomas said in the release. "While we may not agree with all aspects of future proposed city funding, there is a good spirit of cooperation with the administration of Mayor Duggan and we are encouraged by the city's funding of the Retiree Protection Fund to help bolster payments to the pension system in 2024 and beyond."

Rules

Fed. R. Bankr. P. 7001(7)	22
---------------------------------	----

Attached for the Court's convenience are particularly relevant excerpts of the Confirmation Opinion and Order. Exhibits 15 and 16; (exhibits 1-14 were appended to the City's opening brief). They address all relevant issues and expressly hold the POA requires 30-year amortization of PFRS' UAAL as of June 30, 2023. E.g., "The City will then [beginning FY 23] amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%. *Id.*" Ex. 15, p. 231.

PFRS completely ignores this Court's rulings. PFRS erroneously argues that because the POA allegedly is "silent" on the amortization term, PFRS has "unfettered discretion" over the term. PFRS brief, pp. 10, 31 (subheading A). The opening sentence of PFRS' brief dramatically proclaims that the POA's alleged silence on amortization is the "supreme irony" of the City's motion.

The POA is not "silent." This Court has ruled that the POA requires 30-year amortization. And the Confirmation Order states: "*** * *** the terms of the Plan **and this Order** shall be binding upon, and inure to the benefit of: (a) the City; (b) any and all holders of Claims [which includes, of course, PFRS] *** * ***." Ex. 16, p. 86, ¶E(28), emphasis added. That one sentence destroys PFRS' entire theory of this case.

PFRS' other theory is that language in the State Contribution Agreement gives PFRS "unfettered discretion" over the amortization term after FY 2023. So, while PFRS has purported to accelerate amortization from 30 to 20 years, under PFRS'

“unfettered discretion” argument both PFRS and GRS could demand that the UAAL be amortized in 10 years, 5 years, or even 1 year.

The State Contribution Agreement language upon which PFRS relies does not even mention the amortization term and does not remotely support PFRS’ position. At no time during the bankruptcy proceedings or thereafter did PFRS ever make the claim of “unfettered discretion.” That claim is rejected by the Court’s 30-year amortization rulings and would have been laughed out of this bankruptcy court had it been asserted. PFRS’ position would have given two of the many unsecured creditors – PFRS and GRS – the sole right to accelerate hundreds of millions of dollars of payments as they saw fit - and thereby unilaterally destroy the POA’s feasibility and the City’s finances. Such a “plan” would have been unconfirmable.

I. This Court’s rulings requiring 30-year amortization were integral to the Court’s determination of feasibility and confirmation of the POA.

A. The Ernst & Young financial projections formed the foundation of the POA and expressly require 30-year amortization.

The Court incorporated 40-year projections prepared by Ernst & Young (E&Y) as the foundation of the POA. The Confirmation Opinion’s discussion of the POA and its feasibility cites to and incorporates City trial exhibit 793 (E&Y’s final 40-year projection, ex. 17 here) more than 30 times. See ex. 15, pages 224-233.

In analyzing E&Y’s projections the Court relied on and incorporated the reports and testimony of its independent feasibility expert (Martha Kopacz) and

E&Y's financial and restructuring expert Gaurav Malhotra. *Id.* Malhotra's most relevant testimony from his initial trial appearance is discussed below.¹

Malhotra testified that City trial exhibit 723 (ex. 18) "shows the key items of the settlement with GRS and PFRS as a part of the plan of adjustment." PFRS ex. G, p. 133. The City's contributions to PFRS and GRS are to run until 2053, i.e., 30-year amortization, at which time the plans would be fully funded. Ex. 18.

E&Y ultimately prepared four versions of its 40-year projections which are appended here as exhibits 17, 19, 20 and 21 (City trial exhibits 793, 111, 734, 779). The second page of each 40-year projection sets forth the POA's key assumptions for each of the unsecured claims including the following for PFRS:

- Contributions (years 1-10) – Estimated to be \$261m from foundations/State Settlement
- Contributions (years 11-40)- UAAL as of June 30, 2023 estimated to be ~681m **amortized over 30yr**, including contributions in second decade from DIA and foundations (Emphasis added)

GRS' UAAL likewise was to amortized over 30 years. Ex. 17, p. 2.

¹Malhotra testified first on September 29, 2014. On October 21, 2014 he addressed supplemental projections that had been created after the important settlements with Syncora and FIGC.

PFRS' brief attached as its exhibit G Malhotra's trial testimony from September 29, 2014. To avoid adding several hundred additional pages to this filing, the City cites to PFRS exhibit G. The referenced page numbers are those in the top right-hand corner of the pages of that exhibit.

Malhotra explained the 40-year projections as follows: “[O]n a line-by-line basis [they] project over the forty years what the revenues and expenses would be using primarily the same sources I had talked about earlier, and the forty-year model was used to really illustrate how the City was going to pay for the overall settlements it has reached with various classes * * *.” PFRS ex. G, p. 63.

The 40-year projections set forth (by decade) the City’s anticipated operational expenses not considering unsecured POA claims. E.g., City trial ex. 734 (ex. 20), p. 4. The bottom line, “funds available for unsecured claims,” is carried over to page 5. The top half of page 5 identifies additional sources of funds (e.g., Grand Bargain) to assist the City in paying its unsecured claims.

The bottom half of page 5 is critical. It identifies the City’s many unsecured claims and when, **by decade**, the City will pay those claims. Ex. 20, p. 5. The City’s pension contributions to PFRS alone were estimated to be (in millions) \$261M for 2014-2023, \$618M for 2023-2033, \$464M for 2034-2043, and \$311M for 2044-2053. *Id.* The City is also liable over those four decades for payment of hundreds of millions of dollars for other unsecured claims. *Id.* For example, after 2023, payments on B notes will be \$470M for 2023-2033, \$451M for 2034-2043, and \$69M for 2044-2053. *Id.* The B notes include \$450 million owed under the OPEB (retiree health care) settlement, which also inures exclusively to the benefit of PFRS and GRS members. Ex. 15, pp. 185-186.

Malhotra testified “the city should be able to satisfy its operating expenses” and “the city should have the ability to pay its obligations **as scheduled in these distributions.**” PFRS ex. G, pp. 152-162 and specifically pp. 160-161, referring to City exhibit 734, emphasis added. Malhotra returned to Court on October 21, 2014 and testified that the City would be able to meet its operating expenses and pay its obligations under the POA as scheduled in E&Y’s final 40 year projection which incorporated the Syncora and FGIC settlements. City exhibit 793 (ex. 17 here).

B. Kopacz opines the POA is feasible expressly based on 30-year amortization.

Kopacz’ expert report was admitted into evidence as Court exhibit 12000, and excerpts are appended as exhibit 22. Section J discusses pensions and observes: “Critical decisions made today will have a substantial impact on the City’s liquidity in future years. The magnitude and importance of these decisions will be critical to Detroit’s viability in the decades to come.” Ex. 22, pp. 124-125.

The report specifically addresses how the estimated UAAL existing as of FY 2023 will be amortized under the POA and states: “**The POA proposes that the City will amortize the remaining UAAL for each Retirement System – as of June 30, 2023 – over the following thirty-year timeframe.**” Id, p. 133. Emphasis added.

The report incorporates and relies upon E&Y’s 40-year projections which provide for 30-year amortization. Id, pp. 135- 136. Kopacz ultimately opined that

“The assumptions that underlie the City’s [E&Y’s] plan of adjustment projections regarding its revenues, expenses and plan payments are reasonable;” and “The City’s plan is feasible as required by 11 U.S.C. § 943(b)(7).” Ex. 22, p. 10. Kopacz thereafter filed supplemental reports which addressed updated versions of the POA. Those reports found the updated plans feasible but expressed grave concern about the additional debt being imposed on the City by the FGIC and Syncora settlements.²

C. This Court has ruled that the POA required the legacy plans’ UAAL as of June 30, 2023 to be amortized over thirty-years, which was integral both to the Court’s finding of feasibility and confirmation of the POA.

Feasibility is a legal requirement for confirmation and “the Court has an independent duty to determine the issue and to make specific findings of fact.” Ex. 15 at p. 220. The Court adopted the following feasibility test:

“Is it likely that the City of Detroit, after the confirmation of the Plan of Adjustment, will be able to sustainably provide basic municipal services to the citizens of Detroit and to meet the obligations contemplated in the Plan without the significant probability of a default?” Ex. 15, p. 222.

²PFRS ignores Kopacz’ reports and testimony with one exception, namely, Kopacz’ testimony that she was “not retained to opine on the appropriateness of any smoothing method or amortization period used by the Detroit Retirement Systems.” PFRS’ brief, pp. 21-22, footnote 12. That testimony was elicited by PFRS’ counsel during Kopacz’ Daubert examination. The Court rejected PFRS’ objections and held that Kopacz was qualified as an expert on feasibility and whether E&Y’s projections of revenue and expense were reasonable. Order, Doc7511.

Kopacz is not an actuary and obviously was not retained to opine on actuarial issues. Kopacz was specifically asked to opine on the feasibility of the POA which expressly required 30-year amortization.

The Court found the POA was feasible. The Court repeatedly cites to the final E&Y 40-year projection (trial ex. 793, ex. 17) which requires 30-year amortization. Ex. 15, pp. 223-229. The Opinion finds reasonable the exhibit's decade-by-decade revenue and expenditure projections based on 30-year amortization. Ex. 15, pp. 225-226.

The Court adopted and incorporated into the Court's Opinion Kopacz's entire report which, as quoted above, confirms the 30-year amortization period. Ex. 15 at p. 221, ex 22 at p. 133. The Court likewise adopted Kopacz' conclusion that the final plan – which included significant additional debt due to the FGIC and Syncora settlements - remained feasible. Ex. 15, pp. 228-230. But the Court reiterated Kopacz' concern, namely, “It is not realistic or prudent to believe that the City could take on additional Plan obligations and remain within the continuum of reasonableness necessary to establish feasibility.” Ex. 15, p. 228. The Court reviewed the City's projected 40-year revenues and expenditures on a decade-by-decade basis and noted the severe financial stress the City will be under beginning July 1, 2023:

“For the period FY2024-FY2033, the City will be required to spend \$541 million servicing the B Notes, C Notes, and Restructured UTGO Notes. The City projects that it will be required to spend \$1.241 billion to service its obligations to the GRS and PFRS UAAL, [fn23] for a total of \$1.7891 billion. The City projects that it will also have \$1.7891 billion for plan-related expenses during that time period.

Therefore, the City projects that it will break even at the end of this time.” Ex. 15, p. 230.

Footnote 23 states:

“As discussed in part III.F. above, the City's obligations to the GRS and the PFRS are fixed under the plan from FY2014–FY2023. During this time, as the City works to stabilize its finances and implement the RRI, the majority of the City's contributions to the GRS and the PFRS will come from the DWSD, the State Contribution Agreement, and the Grand Bargain funding. See **Ex. 793** at 3. However, after 2023, the City projects the retirement systems will remain somewhat underfunded. See Ex. 12000 at 133. **The balance of the underfunding in 2023 will be amortized over a thirty year period of time.** Id.” Ex. 15, footnote 23, emphasis added.

The footnote cites City trial exhibit 793 (ex.17), and Kopacz’ report, trial exhibit 120000 (ex. 22), both of which confirm the 30-year amortization period.

The next section (8) of the Court’s feasibility discussion addressed “the feasibility of the City’s plan to address its pension obligations.” Ex. 15, pp. 231-233. The Court held, with respect to the remaining UAAL for GRS and PFRS as of June 30, 2023, the POA provided as follows: **“The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%.”** Id, p. 231, emphasis added.

The POA, which requires 30-year amortization, was held to be in the best interest of the creditors. Ex. 15, pp. 219-220. The Court found “the City has effectively done all that it can do for its creditors in its plan.” Id, and:

“There is no more money available for creditors in the City's already tight budget projections. Every dollar is accounted for in

providing necessary services, in implementing the necessary RRI's, and in meeting plan obligations. All of those cash uses are essential to the City's future. In this plan, the floor of the best interest test and the ceiling of the feasibility test have, for all practical purposes, converged.

“Accordingly, the Court finds that the plan will provide creditors all that they can reasonably expect under the circumstances and that it is therefore in their best interests, as required by § 943(b)(7).” *Id.*

The Confirmation Opinion was incorporated in its entirety into the Confirmation Order. Ex. 16, p. 6, ¶(F). The Order, like the Opinion, relies on Kopacz’ reports and E&Y’s 40-year projections in concluding the POA was feasible and, therefore, should be confirmed. Ex. 16, pp. 36-38. The Order observes: “It is more likely than not that the Plan is sustainable over the long term. **Based on the Projections**, the City will have sufficient liquidity to sustain normal municipal operations, issue and perform under the New Securities, satisfy the Settlements and otherwise meet its financial obligations after the Effective Date.” Ex. 16, p. 41, ¶17.

II. This Court’s multiple rulings requiring 30-year amortization bind PFRS; the retirees never once suggested otherwise.

The Confirmation Order provides “* * * the terms of the Plan **and this Order** shall be binding upon, and inure to the benefit of: (a) the City; (b) any and all holders of Claims [which includes PFRS] * * *.” Ex. 16, p. 86, ¶E(28), emphasis added. Even if the Confirmation Order/Opinion did not expressly so provide, the Court’s 30-year amortization rulings would bind PFRS under the law of the case doctrine and res judicata. *In re Moye*, 437 Fed.Appx. 338, 341 (6th Cir. 2011), (“Under the

law-of-the case doctrine, a court follows its prior final decisions in the case as the law of the case, except for a few narrow exceptions [not applicable here]”); *Winget v. JP Morgan Chase Bank, N.A.*, 537 F.3d 565, 578 (6th Cir, 2008), (“res judicata principles bar relitigation of any issues raised or that could have been raised in the confirmation proceeding”).

The Court’s thirty-year amortization rulings were final and binding. PFRS did not challenge them at any time during the confirmation hearing, on reconsideration or on appeal. And for good reason – the retirees did very well under the POA.

Ron Bloom was the retiree committee’s highly sophisticated, Harvard Business School educated, financial advisor. Bloom testified the retiree committee’s primary objective was to “maximize the value of the claims.” Ex. 26, p. 19. That goal was achieved beyond anyone’s wildest dreams. Despite this Court’s holding that the pension claims had no special protection in bankruptcy court, PFRS members sustained only a 55% reduction in COLA. Bloom testified the committee supported the POA, despite the “long period of time” over which payments would be made by the City, because the committee recognized the City’s sincere commitment to revitalization. Ex. 15, pp. 249-250. Bloom never once suggested that the legacy plans would have “unfettered discretion” to accelerate City funding as it saw fit after 2023. To the contrary, Bloom explained: “we cared about revitalization [because] we were relying on the City of Detroit to be there to honor

these promises on into the future.” Ex. 26, p. 20. Indeed, the very first time PFRS even raised the arguments upon which it now relies was when it filed its response brief in this case.

III. PFRS’ arguments are devoid of merit.

A. The City does not rely on extrinsic evidence, it relies on this Court’s rulings and the entire trial record.

PFRS completely ignores this Court’s rulings and offers no explanation why PFRS is not bound by them. PFRS instead argues the City “resorts to extrinsic evidence * * *.” Brief, p.1. PFRS cites as “extrinsic evidence” exhibit 14 appended to the City’s brief. The City provided that as one example of E&Y’s 40-year projections that formed the basis of the POA and required 30-year amortization.³

The City relies on this Court’s Confirmation Opinion and Order which are not “extrinsic evidence,” and which incorporate E&Y’s 40-year projections. PFRS only discussion of the 40-year projections appears at page one of its brief. There, PFRS ridicules the City’s reliance on exhibit 14 on the following four grounds, each of which is dead wrong or, at best, seriously misleading:

- 1. The exhibit “states on its face that it was merely a ‘hypothetical scenario’ for payment of the PFRS claim that was ‘subject to change.’”**

³Ex. 14 was an excerpt of City trial ex. 111, the full document is appended here as ex. 19. E&Y’s later 40-year projections are appended here as exhibits 17, 20 and 21.

E&Y's 40-year projections each has a disclaimer on its face. Ex. 19. The disclaimer points out that the exhibit is providing financial projections and "[T]here will usually be differences between forecasted information and actual results because events and circumstances frequently do not occur as expected and those differences may be material."

It is too obvious for words that future events cannot be predicted with certainty. But the provisions of the exhibit relevant to this dispute are not the precise numbers which everyone knew would change. Rather, they are (i) page 2, setting forth the key POA provisions for the legacy plans settlement including 30-year amortization, and (ii) pages 4-5 which project revenue and expenses by decade, and show how 30-year amortization is key to spreading out the City's POA liabilities. Malhotra explained the disclaimer:

"A. Its our standard disclaimer.

"Q. Okay. What are you disclaiming?

"A. That the assumptions and the data are at the end of the day the product of the client.

"Q. Are you disclaiming the accuracy of the model?

"A. No." Malhotra testimony, PFRS ex. G, pp. 75-76.

E&Y's 40-year projections confirmed that the POA incorporated a settlement between Kevyn Orr and GRS/PFRS that required 30-year amortization. Ex. 723 and Malhotra testimony, PFRS ex. G at p. 133. PFRS' new claim – that it was given "unfettered discretion" to decide when the City would have to pay the UAAL after

June 30, 2023 - would have blown up the POA had PFRS or any retiree representative ever articulated such a claim – which they did not.

2. The exhibit “was one of 2,300 exhibits introduced at trial and was never incorporated into the Plan.”

E&Y’s 40-year forecasts were among a very few trial exhibits that were incorporated in the Confirmation Opinion and Order. Ex. 15, 224-233; ex. 16, pp. 36-38. Their requirement of 30-year amortization was the foundation of the POA.

3. The exhibit “was cited by the Court in its Confirmation Opinion only in passing.”

The exhibit cited by PFRS (excerpt of ex. 17, City trial exhibit 111) addressed an early version of the POA. The Confirmation Opinion cited E&Y’s final 40-year forecast (ex. 793) more than 30 times. Ex. 15, pp. 223-228.

4. The exhibit’s “author admitted at trial that the parties would have to ‘decide what the amortization methodology is of the UAAL at the year 10.’”

PFRS cites the following exchange between the Court and Malhotra to support the alleged “admission” cited above. (PFRS brief, pp. 1, 19-20, emphasis added):

“THE COURT: My question was a slightly different one. Does the plan commit the city, legally commit the city to make those payments?

“THE WITNESS: My understanding is the city is committed to fund the unfunded liability. I just don’t know - - the city and the Retirement Systems have to decide what the amortization **methodology** is of the UAAL at the end - - at the end of year ten, and the city is committed to fund that underfunded liability. Depending on what amortization schedule gets picked, the payments can change slightly because of the

interest rate, but my understanding is the city is committed to make the payments beyond 2024 into those pension systems. * * *

“Q Let me ask this. How would the change in amortization after 2024 affect the contribution level?

“A It depends on the amortization **methodology**. What we have used in the projections is a **straight-line principle** in which the city is making higher payments in the first decade, and over the course of the **30 years** it makes lower payments going forward. You can change the amortization **methodology** to make it like a **level payment over 30 years** in which the city will have lower payments in the first, say, ten years, but over the course of the **30 years** the city will end up paying more because it has to pay more interest, so it’s more on the **methodology** aspect as to how that liability gets serviced.”

Malhotra’s testimony addressed only the amortization **methodology**, while confirming that the amortization **term** was **30-years**. PFRS argues that Malhotra “outright admitted that the amortization **period** was not yet determined * * *.” Brief, p. 10, emphasis added. The testimony and this Court’s rulings prove the opposite.

B. The State Contribution Agreement provides no support to PFRS.

PFRS’ brief (pp. 9-16) quotes three times the following language emanating from the State Contribution Agreement which, according to PFRS, is the source of its “unfettered discretion” over the amortization term:

“For purposes of this Combined Plan, “investment management decisions” and “investment management matters” shall include: * * *

“(d) review and affirmation or rejection of the correctness of any an all calculations, actuarial assumptions and/or assessments used by the Actuary including, but not limited to (i) those underlying the restoration of the pension benefits, funding levels and amortization thereof, all in accordance with the pension restoration program

attached to the Plan of Adjustment (as more fully described in Article K of Component II of this Combined Plan Document), (ii) those underlying the determination of **annual funding levels and amortization thereof**, and (iii) on or after Fiscal Year 2024, the recommended annual contributions to the Retirement System in accordance with applicable law; * * *

“Interpretation of Retirement System governing documents, existing law, **the Plan of Adjustment or other financial determination that could affect funding or benefit levels[.]**”

PFRS’ brief, double emphasis (bold and underline) added by PFRS.

PFRS offers no explanation of how any of that language purports to give PFRS unfettered discretion over the **amortization term** for the UAAL as of 2023 or any other time. The first part of section (d), which defines the provision’s scope, simply gives the Investment Committee (IC) authority to review the “correctness” of “calculations, actuarial assumptions and/or assessments.”

The provision goes on to give the IC authority to determine the “correctness” of “annual funding levels and amortization thereof.” “Correctness” means checking the calculations. Nothing in the language even purports to give PFRS authority over the amortization term. Indeed, the phrase “amortization thereof” makes no sense because an “annual funding level” does not get “amortized.” It is the amount that must be paid in the given year. PFRS’ brief simply quotes the language – with dramatic double emphasis - but offers no analysis of its meaning.

The City can only presume that the quoted language was intended to address actuarial considerations that underlie the calculation of annual funding payments

during the thirty-year amortization. Those are, for example, whether the amount will be determined using straight-line principle calculations or level-payments over the 30-year amortization term. See Malhotra's testimony quoted earlier where he discusses these "methodology" issues while confirming that the amortization term was 30-years. Presumably, the IC was given authority to determine the "correctness" of those calculations.

If there were any possible doubt on this subject it is dispelled by another provision in the PFRS plan that addresses the same subject, annual funding levels, but uses entirely different language. The PFRS plan document addresses both the Component I (hybrid) plan and the Component II (frozen legacy plan). Ex. 23 (plan excerpts). Component II uses the language quoted above drawn from the State Contribution Agreement. Ex. 23, p. 62, sec 16.2(1)(d). In direct contrast, Component I (hybrid plan) states in relevant part as follows:

"For plan years commencing July 1, 2023 and later, the accrued pension liabilities for Members shall be determined by the Actuary using reasonable and appropriate actuarial assumptions approved by the Board and the Investment Committee. The City's annual contributions to finance the normal costs of benefits and any such unfunded accrued pension liabilities shall be determined by the Actuary amortizing such unfunded accrued pension liabilities over a period or period of future years as established by the Board and approved by the Investment Committee." Emphasis added.

The fact that PFRS was given authority over the amortization term for the hybrid plan, but not the legacy plan, makes perfect sense. The hybrid plan was

created by the POA. It had no UAAL. The required annual funding was expected to avoid accrual of anything more than nominal UAAL. Amortization of UAAL for the hybrid plan was and is a moot point.

“Where the same word or phrase might have been used...in different portions of a [contract] but a different word or phrase having different meaning is used instead, the construction employing that different meaning is to be favored.” *Toder v. Progressive Mi. Ins. Co.*, 2017 WL 3316939 (Mich. Ct. Apps. 2017) at *7, quoting *Mason v. Telefunken Semiconductors America, LLC*, 797 F.3d 33, 42 (1st Cir. 2015). See also *Andrusz v. Andrusz*, 320 Mich App 445, 454 (2017), (construing consent judgment); *In re A.P. Liquidating Co.*, 421 Fed. Appx. 583, 589 (6th Cir. 2011), (“Having used different words he must have had different meanings.”)

Here, when the authors wanted to empower PFRS with the authority to determine the amortization term for the **hybrid plan** they knew exactly how to do so. No such authority was granted for the Component II (legacy) plans because both the settlement with GRS/PFRS, and the POA, require thirty-year amortization. For further proof, the state of Michigan and its counsel have received notice of the City’s motion to enforce 30-year amortization and have submitted no opposition.

Finally, PFRS, in misplaced reliance on the State Contribution Agreement, argues that as between the City and PFRS, PFRS “gets to decide” the amortization term. Brief, p. 2. In fact, this Court “gets to decide” and has already decided on 30-

year amortization. Because the POA requires 30-year amortization, PFRS has no authority under law or the PFRS plan document to “alter or depart from” that requirement. See the City’s initial brief, p. 26, discussion of PFRS plan ¶16.6.

C. PFRS’ reliance on out-of-context snippets of discovery deposition testimony is disingenuous and completely misplaced.

PFRS argues that the City’s “own experts did not support [30-year amortization].” Brief, subheading 3, p. 21. PFRS’s argument is specious.

Glen Bowen. PFRS’ brief (pp. 22-24) devotes three full pages to discovery deposition testimony of actuary Glen Bowen. But PFRS does not bother to tell the Court that the entire quoted exchange related to a letter written by Bowen to the City of Detroit on **January 28, 2013** – before the bankruptcy was even filed. Bowen dep., PFRS ex. B, pp. 295-296. The opening question in the exchange (PFRS brief p. 22) states “Scenario three, if you look at it, changes to a closed 30-year amortization. Do you see that?” “Scenario three” was one of a myriad of hypotheticals appearing in a series of letters sent by Bowen to the City in 2012 and early 2013. PFRS ex. B, pp. 263-290. In the quoted testimony Bowen was asked his opinion on the various hypotheticals – all of which had absolutely nothing to do with the POA.

Bowen’s opinion, and those of other actuaries, were completely irrelevant because none of them had any authority to decide the amortization term. Their job was to provide actuarial calculations. The City and the legacy plans settlement

expressly incorporated 30-year amortization. The Court was the ultimate decision-maker and its rulings confirm 30-year amortization.

Charles Moore. PFRS (pp. 24-25) quotes Moore’s discovery deposition testimony stating: “I have reviewed many municipal plans and that is a trend that I have seen [shorter than 30-year amortization].” The exchange related to the Plan’s requirement that the City’s water and sewer department (DWSD) pay its share of GRS’ unfunded liability during the period 2014-2023, as part of the City’s 10-year pension holiday. Moore dep, PFRS ex. H, pp. 331-334. The creditor attorney was attempting to show that 10-years was too short – on the theory that a longer period would allow DWSD to use its funds to increase the creditor’s payout. That morphed into an esoteric and hypothetical discussion of other plan amortization periods generally, completely unrelated to the POA. Like Bowen’s opinion, Moore’s opinion about amortization period “trends” for other plans is completely irrelevant.

D. PFRS’ reliance on the City’s pre-bankruptcy defaults is shameful.

Not only is PFRS’ position legally unsound, but PFRS’ actuary and the City’s expert actuary agree that there is no need for acceleration to protect pension beneficiaries. City’s initial brief, pp. 12-13, 23-24. Rather, PFRS argues it has “unfettered discretion” to do so and such action is justified by the City’s pre-bankruptcy defaults.

PFRS' characterizes the City's opposition to 20-year amortization as follows: "Unfortunately, as was all too common pre-petition, the City wants to ignore its pension obligations and divert cash to meet other needs – which was a recipe for disaster pre-bankruptcy." Brief, pp. 4-5. That argument is repeated throughout PFRS' brief, e.g., PFRS is entitled to consider "the long history of payment defaults that nearly bankrupted the Retirement Systems;" and "the City once again wants to avoid its pension obligations and spend the money elsewhere * * *." Brief, pp. 27, 28-29.

PFRS believes it is entitled to inflict severe financial distress on the City – contrary to the POA and this Court's Orders- based on the City's prebankruptcy sins. That position is directly contrary to the entire purpose of the POA and Chapter 9 of the Bankruptcy Code:

"The purpose of the Plan is to adjust the City's debts to enable the City to reverse its decades-long financial decline, eliminate its service delivery insolvency, restore adequate municipal services to its residents and meet its future financial obligations, consistent with the overarching remedial purpose of chapter 9 and the objectives and purposes of the Bankruptcy Code." Ex. 16, p. 20.

"In every case [chapter 9 or other], a debtor needs help, made mistakes, took unwarranted risks, accepted bad advice, exercised bad judgment, was too long in denial, or had just plain bad luck.

"But no matter, our society holds dear the values of a fresh start and of second chances. That value is manifested with brilliant clarity in our bankruptcy laws. * * * The current leadership of the City is now

getting the City back from the emergency manager and from us in the bankruptcy world. The City will have the fresh start that it needs and deserves under our federal bankruptcy laws. It is now the responsibility of City leadership to implement this plan. The City's true and full fresh start depends on it.” Ex. 15, p. 277.

Equally shameful is PFRS’ discussion of feasibility. PFRS completely ignores the overwhelming trial evidence, Kopacz’ report and this Court’s rulings requiring 30-year amortization as a key component of the POA’s feasibility. Instead, PFRS states (brief, p. 4):

“Moreover, raising the specter of “feasibility” now gets the City nowhere. It is undisputed that the City *has* the money. To its credit, the City has set aside hundreds of millions of dollars in trust **to fund the 2023 Payment**. The issue is not whether the City can afford a shorter 20-year amortization – it admits it can – the issue is that the City would rather spend the money on other things.” Emphasis added.

Of all PFRS’ unsound and cynical arguments that is the worst. PFRS is fully aware that the \$355 million in the Retiree Protection Trust Fund is **not**, as PFRS claims, “to fund the 2023 payment.” The Trust Fund was created because, in reliance on Gabriel Roeder’s use of outdated mortality tables, the actuaries in this case underestimated the legacy plans’ UAAL by some \$500 million. The Trust Fund was created specifically to address that mammoth error and “ensure proper funding of legacy pensions * * *.” Duggan dec’l, City ex. 1, ¶¶16-19. Under the POA, “proper funding” is determined by 30-year amortization.

30-year amortization was ordered so the City’s POA creditor claims would be spread out, to ensure the City could make those payments and deal with its many

difficult operational issues. The City's funding of the Retiree Protection Trust Fund has come at the expense of other priorities including public safety. A recent Detroit News article explained that the City had lost 223 police officers since January 2022. They were leaving for suburban jobs with higher pay, better benefits and safer working conditions. Ex. 24. In response, the City has negotiated a new agreement providing officers with very significant pay raises. Ex. 25. This is exactly why the POA requires 30-year amortization.⁴

CONCLUSION AND RELIEF

The City asks the Court to grant its motion and order PFRS to use 30-year amortization.

October 31, 2022

⁴PFRS' final argument is that the City should have filed an adversary proceeding rather than a motion. However, there is no need to file an adversary proceeding when a chapter 9 plan provides for injunctive or other equitable relief. Fed. R. Bankr. P. 7001(7). The POA here provides for such relief, POA pp. 50, 70, and that is the relief the City seeks. This Court has routinely dealt with such issues under the POA by motion.

524 B.R. 147
United States Bankruptcy Court,
E.D. Michigan,
Southern Division.

In re CITY OF DETROIT, Michigan, Debtor.

No. 13-53846.

Signed Dec. 31, 2014.

Synopsis

Background: Chapter 9 debtor-city sought confirmation of eighth amended plan of adjustment, and approval of settlements with creditors.

Holdings: The Bankruptcy Court, Steven Rhodes, J., held that:

- [1] proposed settlement was fair and equitable, warranting its approval;
- [2] plan was in the best interests of creditors, as required for confirmation;
- [3] plan was feasible, as required for confirmation;
- [4] plan was proposed in good faith, as required for confirmation;
- [5] plan did not discriminate unfairly in favor of pension classes, as required for confirmation;
- [6] impairing and discharging § 1983 claims against city would not violate Fourteenth Amendment; and
- [7] Takings Clause claims against city would be excepted from discharge.

Plan confirmed.

West Headnotes (65)

- [1] Bankruptcy ⇐ Judicial authority or approval

Bankruptcy ⇐ Adjustment of Debts of a Municipality

Proposed state contribution agreement, whereby state of Michigan agreed to contribute \$194.8 million to general retirement system and police and fire retirement system for Chapter 9 debtor-city in settlement of city's pension underfunding claim, which city and state contended was equal to net present value of \$350 million payable over 20-year period, was fair and equitable, warranting its approval, given that obligation not to impair municipal pensions established in Michigan constitution was absolute, if city's claim against state were successful, state would be responsible for potentially \$3 billion, and many skilled and capable representatives of pension creditors concluded that agreement was fair. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.; M.C.L.A. Const. Art. 9, § 24.

- [2] Bankruptcy ⇐ Judicial authority or approval
- Bankruptcy ⇐ Adjustment of Debts of a Municipality

Release of liabilities against state and its related entities in debtor-city's state contribution agreement, whereby state agreed to contribute \$194.8 million to general retirement system and police and fire retirement system for city in settlement of city's pension underfunding claim, was necessary and appropriate to implementation of proposed Chapter 9 plan, warranting approval; agreement was part of a "grand bargain" settlement that was the cornerstone of city's plan, and without that settlement, several other settlements would also collapse, impacted classes had overwhelmingly voted to accept the plan, and both city and state needed finality regarding city's pension liabilities. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.; 11 U.S.C.A. § 524(e).

- [3] Bankruptcy ⇐ Judicial authority or approval
- Bankruptcy ⇐ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable and in best interests of creditors, proposed settlement whereby Chapter 9 debtor-city, in exchange for payment commitments from municipally owned art museum and various funders, would transfer all of its right, title, and interest in pieces of art to the museum to be held in perpetual charitable trust for benefit of people of city and state, free and clear of all liens, encumbrances, claims, and interests of city or its creditors; museum asserted that the donors of many of the pieces of art imposed specific transfer restrictions on them and that museum and many of its individual donors would vigorously challenge any attempt by city to sell any of the art, any such litigation would take years to conclude and would be costly to pursue, nationally accepted standards for museums prohibited the de-acquisition of art to pay debt, and de-accessing many highly valuable pieces at the same time would flood the art market and could cause prices to fall significantly. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.; 11 U.S.C.A. § 943(b)(7).

- [4] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable, proposed pension global settlement, whereby Chapter 9 debtor-city agreed to allowed claim amount of unfunded accrued actuarial liability (UAAL) of \$1.25 billion for police and fire retirement system and \$1.879 billion for general retirement system; pension reductions for retirees on account of the UAAL were significantly less than city had originally concluded would be necessary, and a substantial majority of pension classes voted in favor of city's plan and accepted the necessity of shared sacrifice for the common good of the city. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.

- [5] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable, proposed annuity savings fund (ASF) recoupment settlement, whereby Chapter 9 debtor-city would recoup excess interest from ASF participants, which had resulted from general retirement system (GRS) for city crediting interest in each participant's ASF account at the assumed rate of return even when the actual rate of return was less, to offset unfunded accrued actuarial liability (UAAL) and reduce pension cuts to GRS retirees; class of claims affected by the settlement accepted it by a vote of 73%, and caps and other limitations on the recoupment amount that the parties negotiated would reduce the hardship of it. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.

- [6] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable, proposed settlement whereby Chapter 9 debtor-city agreed to allowed claim amounts of \$2.208 billion for police and fire retirement system retirees and \$2.095 billion for general retirement system retirees for loss of certain post-employment benefits, including health, vision, dental, and life and death benefits, and city would establish voluntary employee benefit association boards to provide health benefits, including life insurance, to retirees and certain of their beneficiaries and dependents; the settlement avoided protracted and expensive litigation to resolve intense factual and legal disputes and settled one of city's largest liabilities, allowing city to bring its bankruptcy closer to conclusion. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.

- [7] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Proposed settlement of claims filed by creditors of state district court located in city, which Chapter 9 debtor-city was required to fund the operations of, for an allowed claim of \$6 million

with an ultimate distribution of \$2 million was reasonable, warranting its approval; claims against the court were obviously not frivolous, as they had been reduced to substantial awards in arbitration, and if city had chosen instead to continue to contest those claims, the number of claims would have made the expense of the litigation significant. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.; M.C.L.A. §§ 600.8103, 600.8104.

- [8] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable, proposed settlement whereby Chapter 9 debtor-city and bond insurers agreed to allowed claim in the amount of \$388 million relating to variable rate unlimited tax general obligation bonds (UTGO bonds), with just under \$288 million of the bonds to be restructured and reallocated among the holders of the bonds; the restructured bonds represented a 74% recovery for holders of the bonds, and issues relating to the bonds had already been vigorously litigated before the settlement was reached and any further litigation would have been lengthy, complex, and time consuming. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.

- [9] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable, proposed settlement between Chapter 9 debtor-city, bond insurer, and investment management company relating to limited tax obligation bonds (LTGO bonds), whereby city agreed to make a \$55 million cash payment and LTGO bond creditors would receive \$17.3 million in excess "New B Notes"; total estimated recovery for holders of LTGO bond claims was 41% and the class accepted the plan by a vote of 63%. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.

- [10] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable, proposed settlement whereby Chapter 9 debtor-city agreed to make \$5 million cash payment to creditor, a holder and insurer of pension related certificates of participation (COPs), and creditor would receive \$23.5 million in "New B Notes," \$21.3 million in "New C Notes," and \$6.25 million in certain settlement credits, as well as a five-year option to acquire and develop certain properties owned by city; value of the monetary portion of the settlement was estimated to be 13% of creditor's claims, and even if city were successful in litigation with creditor, it would have spent years and millions of dollars defending the results, and confirmation and the effectiveness of the plan may have been held in limbo as the issues made their way through the appellate process. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.

- [11] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve, as being fair and equitable, proposed settlement whereby Chapter 9 debtor-city and creditor, a holder and insurer of pension related certificates of participation (COPs), agreed to allowed claim for \$6.11 million, and creditor would receive approximately \$4.5 million in "New B Notes"; creditor held one of the largest claims against city and zealously litigated its objections, the COPs litigation involved highly complex and novel issues that would have taken significant time and expense to resolve, and creditor's estimated monetary recovery was 13% of its claims, which was comparable to what the general unsecured creditors were receiving. Fed.Rules Bankr.Proc.Rule 9019(a), 11 U.S.C.A.

- [12] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Chapter 9 debtor-city bears the burden of establishing each of the required elements for confirmation of its plan by a preponderance of the evidence. 11 U.S.C.A. §§ 943(b), ¹¹²⁹.

subject to impairment in bankruptcy; provision of Bankruptcy Code requiring that "the debtor is not prohibited by law from taking any action necessary to carry out the plan" did not prohibit that. M.C.L.A. Const. Art. 9, § 24; 11 U.S.C.A. §§ 943(b)(4), ^{1123(b)(1)}.

[13] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy court has an independent obligation to determine that a proposed Chapter 9 plan meets confirmation requirements, notwithstanding creditor approval. 11 U.S.C.A. § 943(b).

[18] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Eighth amended plan of adjustment proposed by Chapter 9 debtor-city was in the best interests of creditors, as required for confirmation; if the case were dismissed, state law remedies would not provide creditors with a better result than the plan, whether in bankruptcy or outside of bankruptcy, no provision of law allowed creditors to access city assets to satisfy their claims, and there was no more money available for creditors in the city's already tight budget projections. 11 U.S.C.A. § 943(b)(7).

[14] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy statute governing confirmation of Chapter 9 plan requires that all of debtor's professional fees in connection with the case be reasonable. 11 U.S.C.A. § 943(b)(3).

2 Cases that cite this headnote

[15] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy court could not accept, without further judicial review, fee examiner's findings that professional fees incurred by Chapter 9 debtor-city, whether paid or unpaid at the point of confirmation, were reasonable. 11 U.S.C.A. § 943(b)(3).

[19] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

"Best interests of creditors" requirement of Chapter 9 differs significantly from the best interests requirement in Chapter 11, which involves considering a liquidation analysis. 11 U.S.C.A. §§ 943(b)(7), ^{1129(a)(7)}.

2 Cases that cite this headnote

[16] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy statute governing confirmation of Chapter 9 plan only requires that the court determine that professional fees are reasonable and does not require the court to make this determination before it enters an order confirming the plan. 11 U.S.C.A. § 943(b)(3).

[20] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

"Best interests of creditors" requirement of Chapter 9 requires that a proposed plan provide a better alternative for creditors than what they already have. 11 U.S.C.A. § 943(b)(7).

1 Cases that cite this headnote

[17] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Pension claims were unsecured contract claims under the Michigan constitution and therefore

[21] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Under "best interests of creditors" requirement of Chapter 9, the question is whether the plan

is in the best interests of creditors as a whole; confirmation may not be denied simply because some creditors may do better upon dismissal. 11 U.S.C.A. § 943(b)(7).

2 Cases that cite this headnote

[22] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Eighth amended plan of adjustment proposed by Chapter 9 debtor-city was feasible, as required for confirmation; city's revenue and expense projections extended 40 years into the future and were reasonable, the plan reduced city's debt by over \$7 billion, and it was likely that city would be able to sustainably provide services to citizens of the city and meet obligations contemplated in the plan without significant probability of default. 11 U.S.C.A. § 943(b)(7).

1 Cases that cite this headnote

[23] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

As with cases in Chapter 11, a Chapter 9 feasibility finding should prevent confirmation of visionary schemes which promise creditors more under a proposed plan than the debtor can possibly attain after confirmation. 11 U.S.C.A. § 943(b)(7).

[24] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Under feasibility requirement of Chapter 9, a proposed plan should offer a reasonable prospect of success and be workable. 11 U.S.C.A. § 943(b)(7).

[25] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Feasibility requirement of Chapter 9 requires a practical analysis of whether the debtor can accomplish what the plan proposes and provide governmental services; although success need not be certain or guaranteed, more is required

than mere hopes, desires, and speculation. 11 U.S.C.A. § 943(b)(7).

[26] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

In determining feasibility of a Chapter 9 plan, probability of future success will depend upon reasonable income and expense projections. 11 U.S.C.A. § 943(b)(7).

[27] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

As with plans proposed under Chapter 11, if performance of a Chapter 9 plan is based upon deferred payments, projections of future income and expenses must be based upon reasonable assumptions and must not be speculative or conjectural. 11 U.S.C.A. § 943(b)(7).

[28] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy ⇌ Classification of claims

To be "substantially similar," for purposes of Bankruptcy Code provision requiring that claims in given class be substantially similar to each other in Chapter 11 plan, which provision is also applicable in Chapter 9 cases, claims need not be identical and there is certainly no requirement that claims be classified according to their values. 11 U.S.C.A. § 1122(a).

[29] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy ⇌ Classification of claims

Under Bankruptcy Code provision requiring that claims in given class be substantially similar to each other in Chapter 11 plan, which provision is also applicable in Chapter 9 cases, claims will be substantially similar if they are similar in legal nature or character. 11 U.S.C.A. § 1122(a).

- [30] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy ⇌ Classification of claims

Bankruptcy Code provision requiring that claims in given class be substantially similar to each other in Chapter 11 plan, which provision is also applicable in Chapter 9 cases, does not require that all similar claims be placed in one class. 11 U.S.C.A. § 1122(a).

- [31] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy ⇌ Classification of claims

Classification scheme satisfies Bankruptcy Code provision requiring that claims in given class be substantially similar to each other in Chapter 11 plan, which provision is also applicable in Chapter 9 cases, when a reasonable basis exists for the classification scheme, and the claims or interests within each particular class are substantially similar. 11 U.S.C.A. § 1122(a).

- [32] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy ⇌ Classification of claims

Under Bankruptcy Code provision requiring that claims in given class be substantially similar to each other in Chapter 11 plan, which provision is also applicable in Chapter 9 cases, plan proponent must not separately classify substantially similar claims solely to gerrymander favorable votes. 11 U.S.C.A. § 1122(a).

- [33] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Classification scheme of Chapter 9 debtor-city's proposed plan did not improperly gerrymander pension claims by including both impaired and unimpaired claims in the class; under the plan, all holders of pension claims were in the class and all such holders had similar claims, and each had a right to receive cost-of-living adjustment

(COLA) benefits and the plan reduced that benefit by 55%. 11 U.S.C.A. § 1122(a).

1 Cases that cite this headnote

- [34] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Eighth amended plan of adjustment was proposed by Chapter 9 debtor-city in good faith, as required for confirmation; city filed its plan with honest, good intentions and reasonable expectation that the plan was feasible, process the city undertook to seek confirmation of plan was fundamentally fair to city's creditors, and plan was designed to achieve the objectives and purposes of Chapter 9. 11 U.S.C.A. § 1129(a)(3).

3 Cases that cite this headnote

- [35] **Bankruptcy** ⇌ Good faith and legality

"Good faith," as required for confirmation of Chapter 11 plan, is generally interpreted to mean that there exists a reasonable likelihood that the plan will achieve a result consistent with the objectives and purposes of the Bankruptcy Code. 11 U.S.C.A. § 1129(a)(3).

2 Cases that cite this headnote

- [36] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Purpose of reorganization under Chapter 9 is to allow municipalities created by state law to adjust their debts through a plan voted on by creditors and approved by the bankruptcy court.

- [37] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Primary purpose of debt restructure for a municipality is not future profit, but rather continued provision of public services; another is to provide a municipality a breathing space and an opportunity to address its long term solvency through an organized process.

[38] **Bankruptcy** ⇌ Good faith and legality

“Good faith” requirement for confirmation of Chapter 11 plan generally requires that the plan be proposed with honesty and good intentions, and with a basis for expecting that a reorganization can be effected, and that the plan proponent deal with its creditors in a manner that is fundamentally fair.  11 U.S.C.A. § 1129(a) (3).

2 Cases that cite this headnote

[39] **Bankruptcy** ⇌ Good faith and legality

In deciding whether Chapter 11 plan has been proposed in “good faith,” pre-petition behavior is largely irrelevant; however, when considering the plan, courts consider the totality of the circumstances, and the court's own common sense and judgment.  11 U.S.C.A. § 1129(a) (3).

1 Cases that cite this headnote

[40] **Bankruptcy** ⇌ Good faith and legality

Deciding whether Chapter 11 plan has been proposed in “good faith” is an intensely fact-specific inquiry.  11 U.S.C.A. § 1129(a)(3).

1 Cases that cite this headnote

[41] **Bankruptcy** ⇌ Disclosure and Solicitation

Purpose of section of Bankruptcy Code requiring that proponent of Chapter 11 plan comply with applicable provisions of the Code is to assure that plan proponent has complied with disclosure requirements in connection with the solicitation of acceptances of the plan.  11 U.S.C.A. § 1129(a)(2).

[42] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Chapter 9 debtor-city adequately disclosed terms of annuity savings fund (ASF) recoupment

settlement, even though city did not disclose that amortization of the ASF recoupment amount over each creditor's life expectancy would include interest at 6.75%; although city did not separately identify the interest rate or the dollar amount of the interest when it disclosed individualized calculation of the monthly ASF recoupment amount for each affected creditor in the class, city's disclosure nevertheless would enable an employee or retiree in the class to make an informed judgment about the plan, and diverse group of attorneys had reviewed city's proposed disclosures on the ASF recoupment before the court approved them and apparently none of those attorneys considered that disclosing the interest rate or amount was necessary. 11 U.S.C.A. § 1125.

[43] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Although Chapter 9 debtor-city modified plan several times after court approved disclosure statement and city served it on creditors, and after the deadlines to vote had passed, city was not required to re-solicit ballots after the initial solicitation; none of the modifications in any of the successive amended plans adversely changed the treatment of any claims, but, rather, city had modified its plan to incorporate creditor settlements that maintained or improved the treatment of claims or otherwise clarified various plan provisions. 11 U.S.C.A. § 942; Fed.Rules Bankr.Proc.Rule 3019(a), 11 U.S.C.A.

[44] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Chapter 9 debtor-city's eighth amended plan of adjustment did not discriminate unfairly in favor of pension classes, as would prevent plan confirmation, given that state constitution singled out municipal pension claims for special protection, and city had a strong interest in preserving its relationships with its employees, in enhancing their motivation, and in attracting skilled new employees, consistent with its

financial resources. ¹¹ U.S.C.A. § 1129(b) (1); M.C.L.A. Const. Art. 9, § 24.

[45] **Bankruptcy** ⇌ Classification of claims
Bankruptcy ⇌ Fairness and Equity; “Cram Down.”
 Bankruptcy Code permits discrimination in the treatment of classes of claims; it only prohibits unfair discrimination. ¹¹ U.S.C.A. § 1129(b) (1).

[46] **Bankruptcy** ⇌ Fairness and Equity; “Cram Down.”
 Determining fairness, for purposes of Bankruptcy Code provision forbidding classifications that discriminate unfairly against creditors of debtor, is a matter of relying upon the judgment of conscience. ¹¹ U.S.C.A. § 1129(b).

1 Cases that cite this headnote

[47] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality
 Chapter 9 debtor-city's eighth amended plan of adjustment did not discriminate unfairly in favor of creditors of state district court located in city, given that city had a strong interest in maintaining efficiency of court operations and in maintaining the employees' morale, and city had a continuing legal and funding relationship with the court. ¹¹ U.S.C.A. § 1129(b)(1); M.C.L.A. §§ 600.8103, 600.8104.

[48] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality
 Chapter 9 debtor-city's eighth amended plan of adjustment did not discriminate unfairly against certain classes of unsecured creditors, even though some creditors in those classes might be involuntary creditors. ¹¹ U.S.C.A. § 1129(b) (1).

[49] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Chapter 9 debtor-city's eighth amended plan of adjustment was fair and equitable with respect to two dissenting classes of creditors, as required for confirmation, given that there was no misconduct that would require the court's remedy as a condition of confirmation, and very few of the creditors in the two classes filed objections to the plans. ¹¹ U.S.C.A. § 1129(b) (1).

[50] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Constitutional Law ⇌ Fourteenth Amendment in general

Impairing and discharging § 1983 claims against Chapter 9 debtor-city would not violate Fourteenth Amendment; the Fourteenth Amendment did not provide a substantive constitutional right to compensation for damages. U.S.C.A. Const.Amend. 14; ⁴² U.S.C.A. § 1983.

1 Cases that cite this headnote

[51] **Civil Rights** ⇌ Rights Protected

Congress enacted ¹ § 1983 for the express purpose of enforcing provisions of the Fourteenth Amendment; it provides a cause of action for the deprivation of any rights, privileges, or immunities secured by the Constitution and laws of the United States. U.S.C.A. Const.Amend. 14; ⁴² U.S.C.A. § 1983.

[52] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy Code did not provide for discharge of ¹ § 1983 claims against Chapter 9 debtor-city's officers in their individual capacity; a claim

against a city employee in his or her individual capacity was not a claim against the city for bankruptcy purposes. ¹42 U.S.C.A. § 1983.

[53] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Chapter 9 debtor-city's plan's proposed third-party release of ¹§ 1983 claims against officers of the city in their individual capacity was not essential to the plan, and therefore bankruptcy court would sustain creditors' objections to provisions of city's plan that would have the effect of discharging and releasing those claims; city had a strong interest in efficient and effective functioning of its police department, and protecting its officers from personal liability for ¹§ 1983 claims was necessary to that mission, and that protection appeared to be fully accomplished by contractual indemnity obligations that city assumed in the plan, specifically indemnity obligations in city's collective bargaining agreements with its public safety unions. ¹42 U.S.C.A. § 1983.

2 Cases that cite this headnote

[54] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Eminent Domain ⇌ Necessity of making compensation in general

Discharging Takings Clause claims against Chapter 9 debtor-city would violate the Fifth Amendment, warranting excepting the claims from discharge; if confirmed, the plan would deny creditors just compensation for private property that city took or allegedly took. U.S.C.A. Const.Amend. 5; 11 U.S.C.A. § 944(c) (1).

4 Cases that cite this headnote

[55] **Eminent Domain** ⇌ Necessity of making compensation in general

Eminent Domain ⇌ Recovery of compensation

Takings Clause violation is defined by two elements: (1) the public taking of private property, and (2) the subsequent denial of just compensation for that taking. U.S.C.A. Const.Amend. 5.

2 Cases that cite this headnote

[56] **Constitutional Law** ⇌ Avoidance of constitutional questions

Constitutional Law ⇌ Clearly, positively, or unmistakably unconstitutional

Courts should avoid interpreting a statute in a manner that would render it clearly unconstitutional if there is another reasonable interpretation available.

[57] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Municipal Corporations ⇌ Pensions and benefits

Public Employment ⇌ Funds and Contributions

Chapter 9 debtor-city's eighth amended plan of adjustment did not violate funding clause of Michigan constitution, even though objectors asserted the plan impermissibly provided city with a 10-year holiday on making pension contributions; municipal pension obligations were contractual obligations subject to impairment in confirmed plan in Chapter 9 bankruptcy case, and because city's only pension funding obligation was fixed in the plan, the city would fully comply with the funding clause when it fulfilled those obligations. M.C.L.A. Const. Art. 9, § 24.

[58] **Public Employment** ⇌ Funds and Contributions

Purpose of the funding clause of Michigan constitution is to check legislative bodies, requiring them to fund pension obligations annually, and thereby preventing back door spending. M.C.L.A. Const. Art. 9, § 24.

[59] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Municipal Corporations ⇌ Pensions and benefits

Public Employment ⇌ Pensions and Benefits

Chapter 9 debtor-city's plan's impairment of pension claims did not constitute improper impairment of claims against city's retirement systems under Michigan constitution, as city was the sole entity liable to participants of the retirement systems on account of their pension claims, and therefore their claims were not claims against the retirement systems, but, rather, were claims against the city. M.C.L.A. Const. Art. 9, § 24.

[60] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Pension claims of employees of Chapter 9 debtor-city's public library were properly included in city's eighth amended plan of adjustment, even though library might have, pursuant to collective bargaining agreements, contractual obligations to employees and retirees that were independent of city's obligations; the plan did not purport to affect library's independent obligations, and library and its unions were free to address, enforce, resolve, or renegotiate any such contractual obligations.

[61] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Municipal Corporations ⇌ Nature and purposes of improvements in general

Chapter 9 debtor-city's eighth amended plan of adjustment did not violate Michigan's Blighted Area Rehabilitation Act, even although objecting parties asserted that the plan did not provide for the involvement of residents and interested parties in blight remediation and rehabilitation; as part of its restructuring, city intended to spend \$440.3 million on blight remediation projects to stabilize and revitalize its neighborhoods. M.C.L.A. §§ 125.71–125.84.

[62] **Bankruptcy** ⇌ Judicial authority or approval
Bankruptcy ⇌ Adjustment of Debts of a Municipality

Proposed settlement, whereby state of Michigan agreed to, inter alia, contribute \$194.8 million to retirement systems for Chapter 9 debtor-city, was not improper, despite objector's argument that the settlement allocated funds from state's tobacco settlement that belonged "equitably and morally" to cities around the state; source of funds identified by state to fund its contribution to the proposed settlement was irrelevant to whether the plan met the requirements for confirmation under the Bankruptcy Code, and the objection cited no legal limitation on state's authority to distribute tobacco settlement money within its discretion or any legal basis for the argument that cities were "equitably and morally" entitled to the money.

[63] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Municipal Corporations ⇌ Pensions and benefits

Public Employment ⇌ Pensions and Benefits

Chapter 9 debtor-city's eighth amended plan of adjustment did not violate the Federal Transit Act as a result of impairment of pension claims of city department of transportation (DOT) retirees; with respect to active employees, city bargained with and ultimately entered into agreements with each of the six unions representing DOT employees, and city was not required to collectively bargain with retirees to satisfy the Federal Transit Act. 49 U.S.C.A. § 5333(b).

[64] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy court would approve exit financing of up to \$325 million proposed in Chapter 9 debtor-city's eighth amended plan of adjustment;

the proposed exit financing and city's proposed uses of the proceeds of the exit financing were necessary and appropriate to implement the plan, the financing was not inconsistent with any other provisions of the Bankruptcy Code, fees associated with the financing were reasonable, and terms of the exit financing were fair and reasonable. 11 U.S.C.A. §§ 943(b)(3), 1123(a)(5), 1123(b)(6).

[65] **Bankruptcy** ⇌ Adjustment of Debts of a Municipality

Bankruptcy ⇌ Construction, execution, and performance

Bankruptcy Code provision governing obtaining credit does not apply to post-confirmation exit financing. 11 U.S.C.A. § 364.

***159 I. INTRODUCTION ¹**

In chapter 9 of the bankruptcy code, the federal government offers help to the ^{*160} states in solving a problem that, under our constitutional structure, the states cannot solve by themselves. That problem is the adjustment of the debts of an insolvent municipality. In this case, this Court grants that help to the State of Michigan (the “State”) and the City of Detroit (the “City”).

On December 5, 2013, the Court entered an order for relief finding that the City was eligible to file a chapter 9 bankruptcy case under § 109(c).² (Dkt. # 1946) Both before and after that, nearly every creditor group filed litigation against the City seeking the full protection of its claims.

The City filed its first plan and disclosure statement on February 21, 2014. At that time, the City had no approved settlements with any of its creditors. After that, every creditor group filed objections to the City's plan.

Since then, however, through court-ordered mediation, the City has achieved settlements with every creditor group

that was represented by counsel, with one exception—creditors with claims that the City or its officers had violated their constitutional rights. Successive settlements resulted in successive plans. The settlements also resulted in the settling creditors' support of the plan and their withdrawal of their litigation against the City and their objections to the plan.

The City now seeks confirmation of its eighth amended plan of adjustment, filed on October 22, 2014. (Dkt. # 8045)

In the context of seeking confirmation of its plan, the City also seeks approval of its several settlements with creditors under bankruptcy rule 9019:

- The Grand Bargain settlement, which includes the State Contribution Agreement, the DIA settlement and the global pension settlement;
- The OPEB settlement;
- The 36th District Court settlement;
- The UTGO settlement;
- The LTGO settlement;
- The COPs settlement, including the Syncora settlement and the FGIC settlement.

As more fully described in parts III and IV below, the Court has reviewed each settlement included in the plan and determines that each is fair and equitable, and within the range of reasonableness. Accordingly, the Court approves those settlements.

Based upon its findings in part VIII below, the Court concludes that the City's eighth amended plan of adjustment meets the legal requirements for confirmation. Most significantly, the Court finds that:

- The plan was proposed in good faith.
- The plan is feasible. ✓
- The plan is in the best interests of creditors.
- The Court will determine the reasonableness and disclosure of the professional fees for which the City is responsible in connection with this case.
- The City's proposed exit financing meets the requirements of the bankruptcy code.

- The plan was accepted by all creditor classes but two—the classes of other unsecured claims and convenience claims.

- As to the two dissenting creditor classes, the plan is fair and equitable.

- *161 • As to the two dissenting creditor classes, the plan does not unfairly discriminate against them.

Accordingly, the Court confirms the plan.

It does so, however, with conditions. First, for the reasons stated in part X.J.2. below, creditors' claims against City employees in their individual capacity are neither discharged nor released. Second, for the reasons stated in part X.J.3. below, creditors' claims against the City that are based in the Takings Clause of the Fifth Amendment of the United States Constitution are excepted from the discharge.

The Court's confirmation of the City's plan also comes with recommendations in parts X.D.8.c. and X.D.11. below to take specific actions to assure that what happened in Detroit never happens again.

II. THE PLAN CONFIRMATION PROCESS

A. The City's Plans of Adjustment

The City filed ten plans of adjustment. Most of the amended plans were the result of successive creditor settlements and agreements.

The City filed its first plan and disclosure statement on February 21, 2014 (Dkt. 2708 and 2709), ahead of the March 1, 2014, deadline that this Court first set.

On March 31, 2014, the City filed an amended plan and disclosure statement. (Dkt. 3380 and 3382) This plan incorporated the Court-approved swap settlement agreement and the initial stages of the Grand Bargain, discussed in parts IV.A. and III.D., respectively.

On April 16, 2014, the City filed its second amended plan and disclosure statement. (Dkt. 4140 and 4141) It clarified and expanded on aspects of the Grand Bargain and added the settlements relating to the restoration of

benefits, the ASF recoupment and the income stabilization program, discussed in parts III.G.1.b., III.H and III.E.2, respectively. It also clarified and expanded on aspects of the OPEB settlement, discussed in part III.I. below, incorporated the UTGO settlement, discussed in part III.K. below, and introduced the concept of post-effective date oversight for the City.

On April 25, 2014, the City filed its third amended plan and disclosure statement. (Dkt. 4271 and 4272) This plan incorporated the parties' agreements that clarified and expanded upon the provisions for restoration of PFRS pension benefits and other aspects of the Grand Bargain and the OPEB settlement. It also clarified the treatment of claims relating to the operation of City vehicles, tax refund claims, utility deposits and pass-through claims.

On May 5, 2014, the City filed its fourth amended plan and disclosure statement. (Dkt. 4391 and 4392) The Court approved that disclosure statement. (Dkt. # 4401) The City served solicitation packages, including this plan and disclosure statement, and plan ballots. (Dkt. 4421 and 6179) It also published notice of the plan and the disclosure statement in the *Detroit News*, the *Detroit Free Press*, *USA Today* and the *Wall Street Journal*. (Dkt. 6209, 6211 and 6253) This amended plan incorporated the final aspects of the Grand Bargain, including final agreements relating to restoration of pension benefits and pension plan governance, as well as the OPEB settlement.³

^{*162} On July 25, 2014, the City filed a fifth amended plan. (Dkt. # 6257) This plan incorporated the LTGO settlement, discussed in part III.L. below, and the 36th District Court settlement, discussed in part III.J. below. It also added the cash payment option for the ASF recoupment settlement, and specified the composition of the two Voluntary Employee Benefit Association ("VEBA") boards created as part of the OPEB settlement. Clarifications and changes were also made to the Grand Bargain and the UTGO settlement.

On July 29, 2014, the City filed a corrected fifth amended plan. (Dkt. # 6379) This plan removed the provisions for post-confirmation reporting to the bankruptcy court that were apparently included in the fifth amended plan by mistake.

On August 20, 2014, the City filed its sixth amended plan. (Dkt. # 6908) This plan incorporated the DWSD bondholders settlement, discussed in part IV.B below.

On September 16, 2014, the City filed its seventh amended plan. (Dkt. # 7502) This plan incorporated the Syncora global settlement and set forth the treatment of COPs claims in class 9, discussed in part III.M. below. It also incorporated agreements with the retiree committee and the LTGO parties regarding the residual interests in the COP claims reserve. It also reflected the closing and completion of the DWSD bond tender offer and further specified how the two VEBA boards would be comprised. It also provided for the prepayment to creditors in classes 7, 12 and 14 of the October 2015 interest payment on the Excess New B Notes.

On October 22, 2014, the City filed its eighth and last amended plan. (Dkt. # 8045) This final plan reflects the City's settlement with FGIC, its last objecting financial creditor, discussed in part III.M. below. It also reflects the settlement with the UAW and AFSCME regarding the treatment of retirees of the *Detroit Public Library* and the *Detroit Regional Convention Facility Authority*.

For the reasons discussed in part X.G.2. below, the Court concluded that the plans that the City filed after the fourth amended plan did not require new balloting and therefore did not require a new disclosure statement.

B. An Overview of the City's Eighth Amended Plan of Adjustment

The plan that the City ultimately requested this Court to confirm contemplates a complete restructuring of the City's debt. The City has settled with every major creditor group. Because of the plan, the City has eliminated approximately \$7 billion in liabilities. Trial Tr. 70:4-7, Sept. 30, 2014. (Dkt. # 7821) Upon exiting bankruptcy, the City will issue "New B Notes" in the aggregate face amount of \$632 million and "New C Notes" in the aggregate face amount of \$88 million. These new notes will be used to ^{*163} restructure the City's obligations for post-retirement health benefits, debt service on several types of bonds and other unsecured liabilities. Ex. 791. The City has also restructured its unlimited tax general obligation bonds at a significant savings and will use exit financing to retire many of its limited tax general obligation bonds. Ex. 791. In addition, the settlements with FGIC, the City's largest creditor, and Syncora include real estate development agreements that give these creditors vested stakes in the City's recovery.

The plan also contemplates post-bankruptcy financial oversight of the City to ensure that the fiscal exigencies that resulted in the City's chapter 9 bankruptcy never happen again. The state legislation that implemented the Grand Bargain created a financial review commission to review the City's finances and budgets to ensure that the City adheres to the plan and continues to implement needed financial and operational reforms. ²⁷ Mich. Comp. Laws § 141.1631 *et seq.* The GRS and PFRS are also required to create investment committees whose role will be to make recommendations to, and approve certain actions by, the respective system's board of trustees. Mich. Comp. Laws § 38.1133g; Eighth Am. Plan of Adjustment (hereafter cited as "Plan"), Ex. I.A.332 at 2. (Dkt. # 8045)

Finally, because of the financial reforms contained in the plan, the City is able to invest approximately \$1.7 billion in several reinvestment and restructuring initiatives ("RRIs") over ten years to help improve the City government's infrastructure and its provision of services. Ex. 579. These RRIs are designed to "substantially improve and provide adequate levels of services, as well as enhance revenue and reduce costs." Trial Tr. 42:11–12, Sept. 5, 2014. (Dkt. # 7434) The City believes these RRIs will also result in approximately \$841 million in revenue savings and that they are critical to the City's recovery after bankruptcy. Ex. 592; *see also* Fourth Am. Disclosure Statement (hereafter cited as "Disc. Stmt.") at 160. (Dkt. # 4391) The RRIs will, among other things:

- (a) Provide basic, essential services to City residents; (b) attract new residents and businesses to foster growth and redevelopment; (c) reduce crime; (d) demolish blighted and dangerous properties; (e) provide functional streetlights that are aligned with the current population footprint; (f) improve information technology systems, thereby increasing efficiency and decreasing costs; and (g) otherwise set the City on a path toward a better future.

Disc. Stmt. at 10. (Dkt. # 4391)

C. Objections Filed by Represented Parties

The following represented parties objected to the plan and subsequently withdrew their objections due to settlements with the City:

- Oakland County (Dkt. 4627 and 6648);
- The United States (Dkt. # 4629);
- Macomb County (Dkt. 4636, 6666 and 7039);
- U.S. Bank National Association (Dkt. 4647 and 6679);
- BlackRock Financial Management, Inc., Eaton Vance Management, Fidelity Management & Research Company, Franklin Advisers, Inc. and Nuveen Asset Management (the "DWSD Bondholders") (Dkt. 4650, 4671 and 6681);
- Hypothekbank Frankfurt AG, Hypothekbank Frankfurt International S.A., Erste Europäische Pfandbrief- und Kommunalkreditbank Aktiengesellschaft in Luxemburg S.A., *164 Deutsche Bank AG, London; Dexia Crédit Local, Dexia Holdings, Inc., and FMS Wertmanagement AöR (Dkt. 4653 and 5979);
- Wilmington Trust, N.A. (Dkt. 4656, 6678, 7050 and 7603);
- Berkshire Hathaway Assurance Corporation (Dkt. 4657 and 6680);
- Financial Guaranty Insurance Company ("FGIC") (Dkt. 4660, 6674 and 7611);
- Wayne County (Dkt. # 4663);
- National Public Finance Guarantee Corporation ("NPFGE") (Dkt. 4665 and 6687);
- Merrill Lynch Capital Services, Inc. and UBS AG ("the Swap Counterparties") (Dkt. # 4668);
- Assured Guaranty Municipal Corp. (Dkt. 4674 and 6677);
- Ambac Assurance Corp. (Dkt. # 4677);
- Syncora Capital Assurance Inc. and Syncora Guarantee Inc. ("Syncora") (Dkt. 4679, 6651, 7041 and 7213);

Any sale could result in the cancellation of the tri-county millage taxes that support almost 70% of the DIA's operating budget. Trial Tr. 113:6–19, Sept. 18, 2014. (Dkt. # 7634)

The DIA also presented credible historical documentary evidence in support of its position that the City holds the art in trust. Public Act 67 of 1919, which provided for the transfer of the DIA real property and its art from the **Detroit Museum of Art** (the predecessor to the DIA) to the City, required that the “property so conveyed shall in the hands of said city be faithfully used for the purposes for which the [**Detroit Museum of Art**] was organized.” Ex. 286. In January 1920, after the 1919 transfer of the art, the trustees of the **Detroit Museum of Art** held a special meeting to determine its future. The minutes of that meeting reflect that the trustees believed the restrictions in PA 67 of 1919 “give assurance that the property cannot be used excepting for the same purposes as were provided for in the incorporation of the **Detroit Museum of Art**.” Ex. 269 at 4. At that same meeting, the trustees resolved to continue in existence to “encourage and receive in trust and to administer future gifts and legacies.” *Id.* at 5; *see also* Ex. 268 at 11 (minutes of meeting of City Arts Commission in 1961 *178 noting that the purpose of the Founders Society, the successor to the **Detroit Museum of Art**, was to “assist the City of **Detroit** in the operation of the DIA and ... to promote the people's interest in and knowledge of art matters”).

Further, the recitals in the Operating Agreement between the City and the Founders Society dated May 15, 1984, first state that the City “has maintained and operated the DIA for over 60 years for the benefit of the citizens of the City and the State of Michigan.” It later states that the City would use state-allocated funds solely for the DIA, which was consistent with “the goal of continuing to benefit the citizens of the City and the State by preserving for their enjoyment the treasures of the DIA[.]” Ex. 281 at 1, 3.

Finally, the DIA's current Collection Management Policy states that “the [DIA] must be ever aware of its role as trustee of the collection for the benefit of the public.” Ex. 267 at 11. Even the façade of the DIA itself, built by the City in 1927, states that it is “Dedicated by the People of **Detroit** to the Knowledge and Enjoyment of Art.” *See* Trial Tr. 101:4–13, Sept. 18, 2014. (Dkt. # 7634)

This is strong evidence that the DIA was founded for the benefit of the residents of the City and the State, that the City believed that this was the case when the City received title

to the art in 1919, and that the City has treated the DIA as a public trust for over one hundred years.

The evidence further establishes that nationally accepted standards for museums prohibit the de-acquisition of art to pay debt. Annmarie Erickson, the executive vice president and chief operating officer of the DIA, testified that the DIA is a member of the Association of Art Museum Directors (the “AAMD”), which represents over one hundred sixty art museums throughout the United States, Canada and Mexico. The AAMD standards provide that “proceeds from the sale of accessioned works of art by an art museum be used only to replenish the collection through the acquisition of other works of art.” Ex. 273 at 2. A violation of this standard “will be considered a serious breach of professional responsibility and sanctions may be recommended by a vote of the members of [AAMD]. The imposition of sanctions or penalties may mean suspension of all professional interchange, including loans and shared exhibitions.” *Id.* at 3. This standard refers to the prohibition of the sale of art to pay operating expenses of a museum. However, Ms. Erickson testified that the standard would also apply to the sale of art for the purpose of paying City debt. Trial Tr. 114:16–115:19, Sept. 18, 2014. (Dkt. # 7634) Accordingly, it is likely that if the City sold any of its art to pay its debts, the national and international art community would refuse to do business with the DIA. Trial Tr. 29:17–23, Oct. 7, 2014 (Dkt. # 7878); Trial Tr. 115:2–19, Sept. 18, 2014. (Dkt. # 7634)

Further, the City presented credible evidence that de-accessing many highly valuable pieces at the same time would flood the art market and could cause prices to fall significantly. Trial Tr. 112:5–9, Sept. 16, 2014 (Dkt. # 7618); Trial Tr. 14:19–15:18, Sept. 18, 2014. (Dkt. # 7634) Consequently, there is no guaranty that the City would achieve the high returns that many creditors asserted.

On the other hand, the creditors did submit substantial evidence and legal grounds to support the contrary view that the City can legally sell or monetize the DIA art. For example, the current DIA Operating Agreement states that “[t]he City shall retain title to and ownership of the (a) *City art collection* and (b) the *DIA properties*.” Ex. 254 at 15 (italics in original).

*179 On balance, the Court concludes that in any potential litigation concerning the City's right to sell the DIA art, or concerning the creditors' right to access the art to satisfy their claims, the position of the Attorney General and the DIA would almost certainly prevail.

However, the evidence also establishes that any such litigation would take years to conclude and would be costly to pursue. It also would be difficult for the City to endure that delay and expense while at the same time attempting to revitalize itself.

In addition, because of the DIA settlement and the Grand Bargain, the GRS and the PFRS will receive \$816 million in outside funding that would not be available to them otherwise.

The Court therefore concludes that the DIA settlement was a most reasonable and favorable settlement for the City and its pension creditors. The Court overrules any remaining objections and approves the settlement under bankruptcy rule 9019.

G. The Pension Global Settlement

The final component of the Grand Bargain is the global settlement of pension-related issues, including the treatment of claims relating to the UAAL of the GRS and the PFRS.

1. The Terms of the Pension Global Settlement

The GRS, the PFRS and the retiree committee, on one hand, and the City, on the other hand, aggressively disputed the pension plans' UAAL. The GRS and PFRS reported that as of June 30, 2013, the GRS was 70% funded and the PFRS was 89.3% funded with a combined total UAAL for both retirement systems of only \$1.5 billion. Disc. Stmt. at 105. (Dkt. # 4391) The City claimed that the UAAL is actually \$2 billion for the GRS and \$1.4 billion for the PFRS, for a total of \$3.4 billion. *Id.* at 107.

a. The Treatment of Pension Claims

As part of the settlement, the parties agreed to an allowed aggregate UAAL claim of \$1.25 billion for the PFRS and \$1.879 billion for the GRS.

Because of the Grand Bargain, the GRS and the PFRS will receive \$816 million in outside funding that would not have been available to them otherwise. Consequently, the pension reductions for retirees on account of the UAAL are now significantly less than the City had originally concluded would be necessary.

For PFRS pension claims, the accrued pension amount will not be reduced. However, the annual cost of living adjustment ("COLA") will be reduced to 45% of the amount provided in pre-petition collective bargaining agreements.

For GRS pension claims, the accrued pension amount will be reduced by 4.5% and COLAs will be eliminated. Some GRS retirees will also be subject to the terms of an annuity savings fund ("ASF") recoupment. Some of those GRS retirees have objected to this ASF recoupment. The Court addresses this issue separately in part III.H. below.

Because of the outside money committed as part of the Grand Bargain, the City will have little responsibility for funding the GRS and the PFRS through June 2023. During that time period, the PFRS will be funded exclusively from contributions from the DIA, the DIA Funders, the Foundation Funders and the State under the Grand Bargain, as described previously.

Through 2023, GRS funding will come from: (a) the DWSD; (b) a portion of the contributions from the State, the DIA, the DIA Funders, and the Foundation Funders as part of the Grand Bargain, (c) the proceeds from the Stub UTGO Bonds as part of the UTGO settlement, described in part III.K. below, and (d) certain revenues *180 from City departments, (e) the Detroit Public Library and (f) the Detroit Regional Convention Facility Authority.

In addition, the parties agree that the pension plans in effect on the petition date will be frozen as of July 1, 2014. Active employees continuing to work for the City after July 1, 2014, will have benefits accrue under new hybrid pension plans. The pension formulas contained in the new hybrid plans are less generous than those in the prior plans.

b. Restoration of Pension Benefits

As part of the settlement, the parties agree upon certain provisions for the restoration of pension benefit payments if funding levels for the retirement systems exceed certain targets. Through 2023, the funding targets for purposes of benefit restoration are 75% for GRS and 78% for PFRS. *See* Disc. Stmt. at 19–23 (Dkt. # 4391); Plan, Exs. II.B.3.q.ii.C. and II.B.3.r.ii.C. (Dkt. # 8045) If at any time these targets are exceeded, the amount by which the targets are exceeded will be credited to a restoration reserve account. When the

assets credited to the restoration reserve account can fully fund certain percentages of the reduced benefits (for example, when the GRS reserve account can fund 0.5% of the 4.5% benefit reduction), restoration payments will begin. As more money becomes available in the restoration reserve accounts, more benefits will be restored. If funding levels for the retirement systems drop, money in the restoration reserve accounts may no longer be available and restoration payments will be suspended.

c. Governance and Oversight

As described previously, the parties have agreed to establish investment committees for the PFRS and the GRS as required by the State Contribution Agreement. The retiree committee has also agreed to defer to the retirement systems, the City and the State regarding post-effective date governance of the prior pension plans and restoration mechanics.

The parties have further agreed that until June 30, 2023, the boards of trustees of each system will adopt and maintain an investment return assumption and discount rate of 6.75% for purposes of determining the assets and liabilities of the pension systems.

The plan also includes a provision that all parties are enjoined until June 30, 2023 from making any amendment to the terms, conditions and rules of operation of the GRS and the PFRS relating to the calculation of pension benefits, the selection of investment return assumptions, or the contributions to the pension systems.

The City has also set certain targets at which the UAAL for the GRS and the PFRS must be funded. For 2023, the funding targets are 70% for the GRS and 78% for the PFRS. For 2053, in 40 years, the targets are 100% for each. Ex. 723.

Finally, the retiree committee has agreed that it will support the plan and advise retirees to vote in favor of the plan. The committee further agreed to suspend its appeal of the Court's eligibility order and to dismiss the appeal upon the effective date of the plan.

The pension classes voted to accept the plan by 82% in class 10 (PFRS) and 73% in class 11 (GRS).

2. The Pension Global Settlement Is Fair and Equitable

[4] Despite these strong votes in favor of the plan, the treatment of pension claims in the City's plan has been a significant issue in this case. In the Court's eligibility opinion, it held that because of the Bankruptcy Clause of the U.S. Constitution, the federal bankruptcy power could be used to impair pension rights in this *181 case, even if the Michigan constitution protects them. *In re City of Detroit, Mich.*, 504 B.R. 97, 150–54 (Bankr.E.D.Mich.2013). The Court stands by that decision.

Here at the confirmation stage, the Court must determine whether the plan's treatment of pension claims meets the legal requirements for plan confirmation and settlement approval. The plan confirmation issues include good faith, best interests of creditors, feasibility and others. The Court addresses these questions separately in other parts of this opinion. The Court will now address whether the pension settlement is a reasonable settlement under bankruptcy rule 9019.

Despite the acceptance of the plan by the pension classes, a significant number of pension creditors still strongly oppose the impairment of their pension rights. They believe and assert in their many objections that under the Michigan constitution, their pension rights are not subject to impairment. They credibly state that they worked hard for the City, that they did nothing wrong, and that these pension impairments will cause them real hardship. Some also argue that the pension impairments in the plan are unnecessary because the pension plans are in fact fully funded. They further argue that if the pension plans are underfunded, as the City asserts, the City should sell the art at the DIA or other City assets. As discussed in part II.D. above, many of these objecting parties took the time to come to court to give a strong, sincere and personal voice to their objections.

The Court, however, finds that the pension settlement is a reasonable settlement and overrules those objections to the plan and to the pension settlement.

Several representatives of the pension classes appealed this Court's eligibility decision. The City, of course, takes the position that the eligibility decision was correct and should be affirmed. To determine the reasonableness of the settlement, it is incumbent upon this Court to estimate the parties' likelihood of success of the appeal. That is challenging here. The issue of whether pensions can be impaired in

bankruptcy despite state constitutional protection is a novel one. However, this Court believes that its reasoning in the eligibility decision is sound. The Court therefore estimates that the pension creditors' chances of success on appeal would be in the range of 25%.

The next step is to determine each side's best-case scenario. For the City, that would plainly be to prevail on appeal and to continue in this chapter 9 case. For the pension creditors, however, the best-case scenario is much less clear. The City presented convincing evidence at the confirmation hearing that it would have no ability to pay the UAAL even if the pension creditors were to prevail on appeal. Gaurav Malhotra, an expert on restructuring and financial analysis at Ernst & Young, LLP, testified that without restructuring, the City would have a \$4 billion deficit over the next ten years, or \$390 to \$400 million per year, due largely to the City's unsustainable legacy costs. Trial Tr. 71:10–13, Sept. 29, 2014 (Dkt. # 7819); Ex. 109 at 6.

It is therefore a vast understatement to say that the pension settlement is reasonable. It borders on the miraculous. No one could have foreseen this result for the pension creditors when the City filed this case. Without the outside funding from the Grand Bargain, the City anticipated having to reduce pensions by as much as 27%. Disc. Stmt. at 17. (Dkt. # 4391) The pension reductions in the pension settlement are minor compared to any reasonably foreseeable outcome for these creditors without the pension settlement and the Grand Bargain.

***182** At the same time, the Court recognizes that even these relatively minor pension reductions will cause real and, in some cases, severe hardship. However, this bankruptcy, like most, requires shared sacrifice because the City is insolvent and desperately needs confirmation of this plan to fix its future.

As noted, a substantial majority of both classes 10 and 11 voted in favor of the City's plan and accepted the necessity of shared sacrifice for the common good of the City. That collective judgment is entitled to substantial consideration here.

Accordingly, the Court finds that the pension settlement is reasonable and approves it.

H. The Annuity Savings Fund Recoupment Settlement

In the City's long-standing Annuity Savings Fund program, GRS employees could voluntarily contribute a percentage of their gross pay to a separate pension account. The GRS then invested these ASF contributions with the other GRS assets that the City contributed or that the GRS earned on its investments. Each participant's ASF account increased in value based on the participant's contributions and the interest that the GRS credited to that account.

1. The Dispute Over the Excess ASF Credits

For many years, the GRS credited interest in each participant's ASF account at the assumed rate of return even when the actual rate of return was less.

The City claims that this diversion of assets increased the GRS UAAL. It therefore contends that recoupment of the excess interest from the ASF participants is necessary and appropriate to offset the increased UAAL. That recoupment in turn reduces the pension cuts to the GRS retirees. The City calculates that the total of this claim is approximately \$387 million.

The ASF participants assert that there is no basis for recoupment.

2. The Terms of the ASF Settlement

The parties have settled this issue as part of the global pension settlement. The City and the retiree committee have agreed that the ASF recoupment amount for each retiree will be limited to the total amount of excess interest that was credited between July 1, 2003, and June 20, 2013. The GRS will amortize each ASF participant's recoupment amount over the participant's life expectancy with interest at 6.75%, to be deducted from the participant's monthly pension check or ASF account. In no event will the total ASF recoupment from any participant exceed the amount necessary to amortize the ASF excess amount calculated for the participant at 6.75% interest. Each ASF participant will have the option to pay the ASF recoupment amount in a single lump sum cash payment.

The parties also agreed upon limitations on the ASF recoupment. The ASF recoupment will be capped at 20% of

the highest value of each participant's ASF account between July 1, 2003, and June 30, 2013. An additional cap limits the combined pension reduction and ASF recoupment for each participant to 20% of such participant's annual pension.

The City anticipates that this settlement will result in an additional \$190 million for the GRS. City's Consol. Resp. to Certain *Pro Se* Objections, ¶ 8 at 9. (Dkt. # 7303) This is approximately 49% of the City's ASF claim.

3. Objections to the ASF Settlement

Several GRS participants object to the ASF recoupment in the plan. These include: Hassan Aleem (Dkt. # 5057); George Cannon (Dkt. # 5126); Roger N. *183 Check (Dkt. # 5947); Jamie S. Fields (Dkt. # 4404); Michael J. Karwoski (Dkt. 5089 and 5923); Mattie D. Pritchett (Dkt. # 5887); John P. Quinn (Dkt. # 5723); Dennis Taubitz (Dkt. # 5971); Gerald G. Thompson (Dkt. # 3352); Jean Vorkamp (Dkt. # 4578); Mary Jo Vorkamp (Dkt. # 4579); Steven Wojtowicz (Dkt. # 6870); and Demetria Wright (Dkt. # 5795). They argue:

1. The ASF recoupment violates the applicable statute of limitations.
2. Under state law, the City's recoupment claim has no merit.
3. They did nothing that justifies imposing this liability on them.
4. The GRS board of trustees did nothing wrong and was acting within its complete discretion under Sections 47–2–17 and 47–2–18 of the Detroit City Code by allocating the excess interest payments to ASF participants.
5. The City has no standing to assert the recoupment claim.
6. They do not consent to the lesser treatment of their pension claim in class 11 that results from the recoupment.
7. The treatment of the City's recoupment claim in the plan violates their right to be heard on the merits.
8. The City did not properly disclose the 6.75% interest rate.
9. The 6.75% interest rate is illegal, usurious and unfair.
10. The Court should carve the ASF settlement out of the plan and then approve the plan.

11. The ASF recoupment proposes a seizure of the assets of creditors holding class 11 claims without due process of law because the City has not brought any action under bankruptcy or non-bankruptcy law that would provide a legal basis for ASF recoupment.
12. The ASF recoupment settlement in the plan constitutes an improperly asserted preference or fraudulent transfer action.
13. The City is precluded from recouping the ASF excess interest amounts because the City had knowledge of, or participated in, the allocation of these amounts to the ASF participants.
14. As a result of the imposition of the 6.75% interest rate to annuitize the ASF excess amounts, amounts recovered from ASF distribution recipients will “greatly exceed” the ASF recoupment cap, which is 20% of the highest value of the ASF distribution recipient's annuity savings account during the ASF recoupment period.

4. The ASF Settlement Is Fair and Equitable, and Does Not Violate the Bankruptcy Code

[5] The ASF recoupment settlement is a part of the global pension settlement and therefore a part of the Grand Bargain. It is also a part of the City's plan. The bankruptcy code provides that a class of claims accepts a plan “if such plan has been accepted by creditors ... that hold at least two-thirds in amount and more than one-half in number of the allowed claims of such class held by creditors ... that have accepted or rejected such plan.” 11 U.S.C. § 1126(c). Although there are dissenting creditors in class 11, “[i]n a Chapter 9 [case], dissenting creditors in an accepting class are bound by the accepting vote of the other members.” *In re City of Colorado Springs Spring Creek Gen'l Improvement Dist.*, 187 B.R. 683, 690 (Bankr.D.Colo.1995).

*184 The Court, therefore, has only two issues to consider. The first is whether the settlement is fair and equitable. The second is whether the plan provisions that incorporate the ASF settlement violate the bankruptcy code.

It is not for the Court to rule on the merits of the City's ASF recoupment claim. Nor is it for the Court to rule on the merits of the participants' defenses to that claim. The Court only

reviews the parties' respective positions to determine whether the settlement is fair and equitable.

The Court finds that the City's recoupment claim would quite likely succeed. As noted, the practice was to credit interest in each participant's ASF account at the assumed rate of return even when the actual rate of return was less. The legal authority of the GRS board to do that is doubtful. The prudence of the practice is even more doubtful. The practice ignored the practical reality that over the long term, the GRS needs to retain its earnings that exceed the assumed rate of return to offset the earnings shortfalls that result when the actual rate of return is less than the assumed rate of return. The City's claims of breach of fiduciary duties and diversion of assets are therefore quite strong. Its claim that recoupment against ASF participants is the proper equitable remedy is also quite strong.

On the other hand, the Court considers that the asserted defenses have less merit.

On balance, it appears that the City's recoupment claim would have a reasonable likelihood of success, in the range of 60–70%.

However, the length, complexity and expense of litigation would be substantial. If the City prevails, issues of collectability against ASF participants could also be substantial, depending upon the structure of the final judgment.

The Court also considers that this settlement is part of the much larger settlement of all pension-related issues. The class of claims affected by the settlement, class 11, accepted the settlement by a vote of 73%. Finally, the Court notes that the caps and other limitations on the recoupment amount that the parties negotiated should reduce the hardship of it.

Fairly weighing these factors suggests that the ASF recoupment settlement is well within the range of possible reasonable settlements. The Court, therefore, overrules the objections and finds the ASF recoupment portion of the pension settlement is fair and equitable. The Court further concludes that nothing about the ASF settlement violates the bankruptcy code.

I. The OPEB Settlement

In addition to their pension claims, retirees also have claims against the City for loss of other post-employment benefits ("OPEB claims") including post-employment health, vision, dental, life and death benefits. These OPEB claims constitute class 12 in the plan.

1. The Disputes Over the OPEB Claims

The amount of the City's outstanding obligation related to OPEB claims has been the subject of intense dispute, described more fully below. However, all estimates put the liability in the multi-billion dollar range. OPEB claims represent the single largest portion of the City's unsecured debt obligation. Trial Tr. 11:5–9, Oct. 2, 2014. (Dkt. # 7878)

In early 2014, the City notified its retirees that it would drastically change the healthcare plans that it offered to them, resulting in significantly lower benefit payments. In response, the retiree committee *185 filed an adversary proceeding against the City seeking an injunction to prohibit it from unilaterally changing the healthcare benefits that it provided to retirees. The committee asserted largely equitable grounds relating to the hardship that terminating these benefits would naturally cause retirees. There did not appear to be any substantial legal grounds for the requested relief. *See, Complaint, Official Comm. of Retirees v. City of Detroit (In re City of Detroit)*, No. 13–05244 (Bankr.E.D.Mich. Oct. 22, 2013). (Dkt. # 1)

The City and the retiree committee disputed the present value of the OPEB claims. The City estimated the amount of the claim to be roughly \$3.77 billion. The retiree committee estimated it to be approximately \$5 billion. City's Consol. Reply to Certain Objections to Confirmation of Fourth Am. Plan at 13. (Dkt. # 5034) The difference in the estimated values of the claim is the result of differing actuarial assumptions and discount rates that the parties used. *Id.*

The City and the retiree committee also disagreed on the characterization of payments that the City made on OPEB benefits after the City filed this case. The City's position was that these payments were a partial satisfaction of the OPEB claim and should reduce the amount of New B Notes that, under the plan, would be distributed on account of the allowed OPEB claim on a dollar-for-dollar basis. The retiree committee argued that the payments should be ignored for purposes of calculating the OPEB claim amount. *Id.* at 14.

2. The Terms of the OPEB Settlement

The City and the retiree committee reached a settlement of their disputes related to the OPEB claim as part of the pension global settlement.

Pursuant to the settlement, the total allowed amount of the OPEB claim is fixed at \$4.303 billion—\$2.208 billion for PFRS retirees and \$2.095 billion for GRS retirees.

In addition, the City and retiree committee have settled on the treatment of the OPEB claim. The City will establish VEBAs for the PFRS and the GRS. On the effective date, the City will distribute \$232 million in New B Notes to the PFRS VEBA and \$218 million in New B Notes to the GRS VEBA. The retiree committee also negotiated an improved interest rate for the New B Notes—4.0% for the first twenty years and 6.0% for the last ten years. The New B Notes have a thirty-year maturity.

The City will also distribute \$42.7 million in New B Notes to the VEBAs from the Excess New B Notes. As described in part III.M. below, the Excess New B Notes are a result of the settlement agreements with holders of class 9 claims.

The start-up costs for the VEBAs will be funded by: (1) \$8 million from a reserve fund held in the currently existing benefits plans; (2) approximately \$3.5 million from charitable contributions; (3) an advance of the interest payment on the Excess New B Notes due in October of 2015; and (4) \$18 million in grants from various local foundations and the Detroit Benefits Board. Ex. 720; *see also* Letter Agreement with Retiree Committee at 2–3, Nov. 4, 2014. (Dkt. # 8183)

The VEBAs will provide health benefits, including life insurance, to retirees and certain of their beneficiaries and dependents. Each VEBAs will be governed by boards of trustees that will be responsible for the management of its assets, for its administration, and for determining the beneficiaries' benefits.

As a result of this settlement and the creation of the VEBAs, the City will have no further responsibility to provide retiree *186 healthcare or other benefits for retirees. Further, the City will have no responsibility to provide life insurance or death benefits to current or former employees. The current death benefit plan will be frozen and will be self-liquidating. Any existing retirees who participate in the death benefit plan

will be given a one-time opportunity to receive a lump sum distribution of the present value of the actuarially determined death benefit.

The plan treats the OPEB claim in class 12. The estimated recovery for the class 12 OPEB claim is 10%. Class 12 accepted the plan by over 88%.

3. The OPEB Settlement Is Fair and Equitable

[6] The City contends that the OPEB settlement is fair and reasonable for several reasons. First, the City believes that the settlement avoids protracted and expensive litigation to resolve intense factual and legal disputes. Second, the City asserts that, given the range of estimated OPEB claim values between \$3.771 billion and \$5 billion, the settled allowed claim amount of \$4.303 billion is reasonable. Lastly, the City argues that the settlement is in the best interests of the City and its creditors because it settles one of the City's largest liabilities and at the time, allowed the City to bring the bankruptcy closer to its conclusion.

The Court agrees that litigation to resolve the amount of the City's OPEB liability would be complex, lengthy and very expensive. Resolution of the litigation would turn largely on actuarial opinion testimony with extensive discovery regarding multiple competing experts. Disc. Stmt. at 15. (Dkt. # 4391) The evidence would be intensely fact-specific. Trial Tr. 18:1–5, Oct. 2, 2014. (Dkt. # 7878) As the City points out, any litigation could also involve resolution of other fact-intensive issues, such as retiree census data and the proper discount rate to be applied to liabilities. Disc. Stmt. at 152. (Dkt. # 4391)

The outcome of any potential litigation to resolve the claim would be uncertain. The City's view that the retiree committee would zealously oppose the City's position is justified. Trial Tr. 17:12–15, Oct. 2, 2014. (Dkt. # 7878) It is also significant that the City would be responsible for the committee's professional fees in any such litigation. A settled claim amount that falls almost exactly midway between the disputed values is therefore reasonable.

The Court also finds that creation of the VEBAs to address the OPEB claim is reasonable. The City presented evidence that, without restructuring, OPEB liabilities would account for as much as 26% of expenditures from the City's general fund by the year 2023. Trial Tr. 177:10–13, Oct. 1, 2014 (Dkt. # 7850);

Ex. 721. Such a large liability would destroy the City's ability to make the financial and operational changes necessary to provide adequate municipal services.

The City's evidence also shows that transferring the OPEB legacy costs to the VEBAs will reduce the City's obligation to a much more manageable 3% of general fund expenditures over the next 30 years. Trial Tr. 173:21–174:15, Oct. 1, 2014 (Dkt. # 7850); Ex. 721.

Accordingly, the Court finds that the OPEB settlement is reasonable and approves it.

J. The 36th District Court Settlement

[7] Although the 36th District Court is a separate legal entity from the City, under state law, the City is required to fund the operations of the court. Mich. Comp. Laws §§ 600.8103 and 600.8104. When the City filed this bankruptcy case, the 36th District Court was defending various employment-related claims. Because the City is required to fund the 36th District *187 Court, it would ultimately be liable for the payment of any judgments against the 36th District Court on those claims.

During the bankruptcy proceeding, the creditors with claims against the 36th District Court participated in arbitration and obtained awards in the aggregate amount of approximately \$14 million. Trial Tr. 58:14–17, 59:24–25, Oct. 2, 2014. (Dkt. # 7878)

AFSCME is the bargaining agent for employees of the 36th District Court. AFSCME, the individual creditors and the 36th District Court itself filed proofs of claim related to the obligations arising from those arbitration awards.

The parties have settled. Under this settlement, the 36th District Court creditors are classified into class 17 and the aggregate liquidated allowed amount of their claims is fixed at \$6 million. The parties have agreed to settle the claims for a recovery of \$2 million (33%) and the 36th District Court will withdraw its proof of claim entirely with prejudice.

The 36th District Court creditors whose claims are less than \$100,000 will receive 33% of their allowed claim in cash. Creditors whose claims are more than \$100,000 will receive 33% of their allowed claims payable in five equal annual installments plus simple interest at a rate of 5% per year.

The parties have also agreed to release all of the claims that they may have against each other, except that AFSCME and some of the individual creditors do not release claims that they have against the 36th District Court related to certain identified pending proceedings. The City has also agreed to carve out an exception to the broad third-party releases in the plan to allow the 36th District Court creditors to pursue actions against the State and its related entities with respect to the liabilities that the 36th District Court creditors assert to the extent that the plan does not satisfy those liabilities.

AFSCME and the individual creditors are deemed to have voted their respective claims in favor of the plan in the amounts established by the Order Regarding the Voting of Claims Relating to the 36th District Court. (Dkt. # 5905)

The Court finds that this settlement is reasonable. The claims against the 36th District Court were obviously not frivolous, as they have been reduced to substantial awards in arbitration. Outside of bankruptcy, the City would be liable to pay those claims on behalf of the court. If the City had chosen instead to continue to contest those claims, the number of claims would have made the expense of the litigation significant. Trial Tr. 62:2–10, Oct. 2, 2014. (Dkt. # 7878)

Settling the dispute for an allowed claim of \$6 million with an ultimate distribution of \$2 million is reasonable. Consequently, the Court approves the 36th District Court settlement.

K. The UTGO Settlement

Under Michigan law, the City is authorized to issue variable rate unlimited tax general obligation bonds (“UTGO Bonds”) with approval from voters. Each year, the City is required to levy sufficient *ad valorem* property taxes to pay the debt service on those bonds without limitation as to rate or amount. Mich. Comp. Laws § 141.2701(1).

When the City filed this case, it had as much as \$480 million in outstanding UTGO Bonds, including principal and accrued interest (“Prior UTGO Bonds”). The claims related to Prior UTGO Bonds are in class 8.

*188 1. The Dispute Regarding the UTGO Bonds

confidence that the borrowings ... by the city will get repaid in the ordinary course.”).

Most importantly, the City and its creditors would lose the benefits of the RRIIs, *218 one of which is the creation of a sufficient operating budget surplus for the City to pay its obligations under the plan. *See* Trial Tr. 71–72, Sept. 29, 2014. (Dkt. # 7819) (Mr. Malhotra testifying that “it was probably unlikely that the city would have been able to” implement the RRIIs without the plan); Trial Tr. 228–29, Sept. 5, 2014. (Dkt. # 7434) (Mr. Moore testifying that “clearly” the RRIIs “would not have been able to get undertaken without some sort of restructuring based on the structural deficit that existed within the city in June of 2013”).

The evidence establishes, therefore, that the plan is a much better alternative for creditors than dismissal.

3. The Creditors Can Access No Other Assets in This Bankruptcy Case

Whether in bankruptcy or outside of bankruptcy, no provision of law allows the creditors to access City assets, most importantly including the DIA art, to satisfy their claims. The market value of the City's assets, including its art is, therefore, irrelevant in this case. As observed above, a judgment creditor's sole remedy is a court-ordered property tax assessment process under Michigan's Revised Judicature Act. Michigan law prohibits execution on municipal property.

Some creditors argue that even if the assets would not be accessible to unsecured creditors outside of bankruptcy, the best interests test in chapter 9 requires this Court's full consideration of all of the City's assets, including the art.

The Court rejects this argument. The legal limitations on the collection of judgments that apply outside of bankruptcy also constrain the best interests of creditors test in bankruptcy. Neither the bankruptcy code nor the case law suggests otherwise.

As noted, the City determined not to sell or monetize the DIA art in the art market. Under § 904, that decision is off-limits to the Court.

However, even if the law did give the Court some authority here, the Court would not have interfered with the City's decision. The City made the only appropriate decision.

Maintaining the art at the DIA is critical to the feasibility of the City's plan and to the City's future. The Court toured parts of the DIA and saw the art there, as well as how its many visitors were experiencing the art. It also accepts the testimony of Ms. Erickson on the priceless value that the DIA and the art create for the City, the region and the state. Trial Tr. 157–64, Sept. 18, 2014. (Dkt. # 7634)

The evidence unequivocally establishes that the DIA stands at the center of the City as an invaluable beacon of culture, education for both children and adults, personal journey, creative outlet, family experience, worldwide visitor attraction, civic pride and energy, neighborhood and community cohesion, regional cooperation, social service, and economic development. Every great city in the world actively pursues these values. They are the values that **Detroit** must pursue to uplift, inspire and enrich its residents and its visitors. They are also the values that **Detroit** must pursue to compete in the national and global economy to attract new residents, visitors and businesses. To sell the DIA art would only deepen **Detroit's** fiscal, economic and social problems. To sell the DIA art would be to forfeit **Detroit's** future. The City made the right decision.

Some creditors proposed using the art as collateral for a loan to pay creditors' claims. The City also rejected that concept. That decision was sound for at least two good reasons. First, that proposal would just substitute debt for debt and *219 would not help the City. Second, if the City defaulted, it might lose the art. The City made the right decision here too.

Beyond that, the record reflects that the City has made reasonable efforts to monetize other assets, including the **Detroit Windsor Tunnel**, certain real estate properties, certain parking properties, the Joe Louis arena property and certain other property that it no longer needs. It also entered into the Great Lakes Water Authority memorandum of understanding with Wayne, Oakland and Macomb Counties, which benefits all creditors. The Court finds that the City has made reasonable efforts to monetize its assets to satisfy the best interests of creditors test.

4. The Best Interests of Creditors and Feasibility

Finally, the Court finds that the “best interests of creditors” in chapter 9 is necessarily constrained by the second confirmation requirement found in § 943(b)(7)—that the plan is feasible. *See* 11 U.S.C. § 943(b)(7). In *In re Mount Carbon*,

the court observed that the “ ‘best interests’ test acts as a floor requiring a reasonable effort at payment of creditors by the municipal debtor and that the ‘feasibility’ requirement sets a corresponding ceiling which prevents the Chapter 9 debtor from promising more than it can deliver.” ²⁴² B.R. at 34. See also *In re Pierre Cnty. Hous. Auth.*, 414 B.R. at 718.

As a result, the City “may obtain confirmation of a plan, over objection, which does not utilize all of the assets of the estate to retire its obligations.” *In re Sanitary & Improvement Dist.*, No. 7, 98 B.R. at 974. This is a straightforward observation that if a city “gives away” too much under a plan, its future ability to fund its plan obligations and daily operations is lessened.

As the Court's expert witness on feasibility, Ms. Martha Kopacz, stated in her second supplemental report:

I want to emphasize, however, that there is little space remaining on the continuum of [feasibility]. The recent settlements and corresponding amendments to the Plan of Adjustment have served the laudable goals of efficiently resolving disputes and garnering additional support for the Plan of Adjustment. Conversely, they have imposed additional financial obligations on the City. I have already expressed concerns regarding the level of contingency provided for in the Plan of Adjustment. The financial obligations associated with the recent settlements only intensify this concern.

Ex. 12002 at 6.

The Court addresses Ms. Kopacz's conclusions as they impact feasibility in part X.D. below. However, the Court finds that Ms. Kopacz's observation supports a finding that the City has effectively done all that it can do for its creditors in its plan.

There is no more money available for creditors in the City's already tight budget projections. Every dollar is accounted for in providing necessary services, in implementing the necessary RRI's, and in meeting plan obligations. All of those

cash uses are essential to the City's future. In this plan, the floor of the best interest test and the ceiling of the feasibility test have, for all practical purposes, converged.

Accordingly, the Court finds that the plan will provide creditors all that they can reasonably expect under the circumstances and that it is therefore in their best interests, as required by § 943(b)(7).

D. The Plan Is Feasible, As Required by § 943(b)(7)

1. Applicable Law

[22] [23] [24] [25] [26] [27] Section 943(b)(7) provides, “The court shall confirm the plan if—... *220 (7) the plan is ... feasible.” Few creditors substantively challenge the feasibility of the City's plan. Regardless, the Court has an independent duty to determine the issue and to make specific findings of fact. See ²⁴² *In re Mount Carbon*, 242 B.R. at 36 (“Not only is feasibility an express requirement set out in § 943(b)(7), but the long history of Chapter 9 requires an objective evaluation of the [chapter 9 debtor's] proposed reorganization.”) (citing *Everglades Drainage Dist.*, 319 U.S. at 418–19, 63 S.Ct. 1141)

As with cases in chapter 11, a chapter 9 feasibility finding should “ ‘prevent confirmation of visionary schemes which promise creditors ... more under a proposed plan than the debtor can possibly attain after confirmation.’ ” A plan should offer a reasonable prospect of success and be workable. In Chapter 9, this requires a practical analysis of whether the debtor can accomplish what the plan proposes and provide governmental services. Although success need not be certain or guaranteed, more is required than mere hopes, desires and speculation. The probability of future success will depend upon reasonable income and expense projections. As with plans proposed under Chapter 11, if performance of a Chapter 9 plan is based upon deferred payments, projections of future income and expenses must be based upon reasonable assumptions and must “ ‘not be speculative or conjectural.’ ” Plan terms which provide for negative amortization, or for deferred payments over an extensive period of time, may make the showing of feasibility difficult. *Indeed a feasibility showing premised upon long-term repayment or negative amortization may be particularly difficult for the Chapter 9 debtor, which must not only demonstrate a probability that it will be able to*

pay on pre-petition debt in accordance with the plan, but most also demonstrate the probability that it can continue to provide public services while it repays debt.

In re Mount Carbon, 242 B.R. at 35 (citations omitted) (emphasis added).

2. An Overview of Feasibility

In this case, examining the feasibility of the plan is difficult for a number of reasons. The City's debt is enormous and the City proposes to pay most of its creditors over a long period of time. As the Court discusses below, the City's revenue and expense projections extend forty years into the future.

Second, the feasibility of the plan depends upon the City's ability to fix and maintain its broken governmental operations. This is significant because the chapter 9 feasibility inquiry requires an analysis of whether the City can reasonably provide sustainable municipal services, as the court found in *In re Mount Carbon*. It is also significant because the City's ability to repay its creditors pursuant to the plan depends upon the City's ability to increase its revenues from taxes and fees by improving the efficiency of City operations and by identifying and accessing untapped sources of revenue.

The feasibility analysis is yet more complex because several key parts of the plan depend upon performance by parties who are completely beyond the City's control. For example, because the City's contributions to the retirement systems are fixed through FY2023, a risk remains that the pension plans will be significantly more underfunded than anticipated if one of the many organizations participating in the Grand Bargain fails to perform in the time or manner promised.

As the City itself succinctly states in its pretrial brief in support of plan confirmation, "[T]he City was—and remains today *221 —enmeshed in a financial crisis of unsurpassed proportions and complexity." City's Pretrial Br. ¶ 1 at 17–18. (Dkt. # 7143) Despite efforts from both the City and the State of Michigan, "the City is trapped in a vicious circle of cash crises, general fund deficits, crushing long-term liabilities and tumbling credit ratings exacerbated by the City's bureaucratic structure and frequent deviations from established budgets." *Id.* ¶ 2 at 18.

Finally, overlaying these concerns is that throughout these proceedings, the City's creditors have focused much more heavily on whether the plan provides them with a sufficient recovery, rather than on whether the City is "promising more than it can deliver." See *In re Mount Carbon*, 242 B.R. at 34. Thus their litigation focus was on whether the plan is in the best interests of creditors, unfairly discriminates, and is fair and equitable, rather than on whether it is feasible.

For these reasons, the Court found that the adversarial system would not function to clarify the issues and elucidate the facts relating to feasibility. Accordingly, it decided to seek out an independent expert witness on the feasibility of the City's plan. After interviewing several candidates from diverse backgrounds, on April 22, 2014, the Court appointed Martha Kopacz as its expert witness on feasibility. See generally Order Appointing Expert Witness. (Dkt. # 4215) Ms. Kopacz is an experienced restructuring professional from the Boston-based firm, Phoenix Management Services. The Court instructed Ms. Kopacz to "investigate and reach a conclusion on: (a) Whether the City's plan is feasible as required by 11 U.S.C. § 943(b)(7); and (b) Whether the assumptions that underlie the City's cash flow projections and forecasts regarding its revenues, expenses and plan payments are reasonable." *Id.* ¶ 2 at 1.

After an evidentiary *Daubert* hearing on September 15, 2014, the Court determined Ms. Kopacz was qualified under Federal Rule of Evidence 702 to give expert testimony concerning these two questions, and that her opinion was the product of the application of reliable methods to sufficient facts and data. See Order Re: Expert Test. at 2–3. (Dkt. # 7511)

Ms. Kopacz fulfilled her assignment, as set forth in three expert reports, Ex. 12000, 12001, 12002, and in her testimony on October 22, 2014. See generally Trial Tr. 1–89, Oct. 22, 2014. (Dkt. # 8082) She provided the Court with a critical analysis of the City's financial projections and its qualitative assumptions, as well as invaluable guidance for interpreting and understanding the mountain of data that the City's financial professionals produced. Thus, although the City admirably shouldered the burden of producing the necessary raw financial data and projections, the efforts of Ms. Kopacz and her team were essential for the Court to discharge its duty under § 943(b)(7).

The Court finds Ms. Kopacz testified credibly. Therefore, the Court adopts Ms. Kopacz's findings and conclusions as expressed in her testimony and in her three expert reports

almost in their entirety, and incorporates them into the Court's feasibility analysis. The only conclusion that the Court cannot quite accept relates to her concerns about the expedited pace of this proceeding. The Court addresses this question in part X.F.4. below.

Before turning to the substance of Ms. Kopacz's findings and conclusions and the supporting evidence that the City's financial professionals compiled and testified to, the Court must address two evidentiary issues concerning Ms. Kopacz's testimony and expert reports.

*222 3. Evidentiary Issues Regarding the Report and Testimony of the Court's Feasibility Expert

Although the GRS and the PFRS do not object generally to Ms. Kopacz's expertise, they did file a joint motion to exclude certain portions of Ms. Kopacz's testimony relating to the systems' historical performance and management, and their future governance and reporting requirements. In their motion, the GRS and the PFRS assert that Ms. Kopacz lacks the necessary qualifications to give pension-related opinions and further that her investigation of these issues exceeded the scope of her assignment from the Court. Retirement Systems' Mot. to Exclude at 1–2. (Dkt. # 7061)

The GRS and the PFRS also moved to exclude these same portions of Ms. Kopacz's opinion and findings from admission into the evidentiary record as part of her expert reports. They argued that not only does Ms. Kopacz lack the expertise to give these opinions, but that any mention of them in her reports constitutes inadmissible hearsay. Retirement Systems' Br. in Opp'n to Admis. of Expert Report at 1–2.

(Dkt. # 6847) Relying on *Engbrechtsen v. Fairchild Aircraft Corp.*, 21 F.3d 721, 728–29 (6th Cir.1994), the GRS and the PFRS argue that expert reports in general may only be admitted into evidence to show the basis for the expert's opinion, “but not as general proof of the underlying matter.” Br. in Opp'n at 9. (Dkt. # 6847)

The Court concludes that the motion to exclude the expert's testimony is moot because the expert's testimony is now concluded and the testimony did not address the challenged matter. Accordingly, the Court denies that motion.

The Court further concludes that the motion to exclude the challenged matter from the expert's report should be denied. All of the challenged matter is within Ms. Kopacz's

expertise to investigate and pertinent to her opinion on the feasibility of the plan. Her supplemental report of August 27, 2014, clarifies that she derived her statements regarding these matters from either the disclosure statement (Dkt. # 4391) or the July 18, 2013 declaration of Charles M. Moore. (Dkt. # 13) These are hearsay sources, but under Fed. R. Evid 703, an expert may rely on hearsay. “If experts in the particular field would reasonably rely on those kinds of facts or data in forming an opinion on the subject, they need not be admissible for the opinion to be admitted.” Fed. R. Evid. 703.

While the challenged matter may be of marginal relevance to the greater issues before the Court, its prejudice to the GRS and the PFRS is equally marginal. The Court concludes that there is no cause to exclude it and denies this motion as well.

4. The Expert's Standard for Feasibility

Ms. Kopacz began her work by developing and articulating a standard for measuring the feasibility of the City's plan. The Court finds that Ms. Kopacz's articulation is appropriate and adopts it here:

Is it likely that the City of Detroit, after the confirmation of the Plan of Adjustment, will be able to sustainably provide basic municipal services to the citizens of Detroit and to meet the obligations contemplated in the Plan without the significant probability of a default?

Ex. 12000 at 13. It closely tracks the standard articulated by the *Mount Carbon* court, set forth above. See *Mount Carbon Metro. Dist.*, 242 B.R. at 35.

Intertwined here are also the questions of whether the City is committed to implement the plan and whether it has sufficient resources to monitor its performance under the plan. The first question requires a review of the testimony of City leaders. *223 The second question requires an examination of the Financial Review Commission and the other controls under Public Acts 181 and 182 of 2014 (hereafter, “Grand Bargain Legislation”), Mich. Comp.

Laws §§ 141.1631–141.1643, 117.4s–t, as well as the internal systems created by the Mayor and the City's chief financial officer.

5. The City's Plan Is Feasible

The Court finds that the plan is feasible. As detailed below, this finding is based on the testimony and documentary evidence presented by Ms. Kopacz, Trial Tr. Oct. 22, 2014 (Dkt. # 8082), Kevyn Orr, Trial Tr. Oct. 1–3, 2014 (Dkt. 7850, 7878, 7894), and by the following independent professionals that the City retained:

- ✓ • Gaurav Malhotra of Ernst & Young, Trial Tr. Sept. 29 & Oct. 21, 2014 (Dkt. 7819 and 8098);
- Dr. Robert Cline, formerly of Ernst & Young, Trial Tr. Aug. 18, 2014 (Dkt. # 7015);
- Caroline Sallee of Ernst & Young, Trial Tr. Sept. 8–9, 2014 (Dkt. 7472 and 7473);
- Charles Moore of Conway MacKenzie, Inc., Trial Tr. Sept. 5 & 8, 2014 (Dkt. 7434 and 7462);
- Kenneth Buckfire of Miller Buckfire and Co., Trial Tr. Sept. 30, 2014 (Dkt. # 7821);
- James Doak of Miller Buckfire and Co., Trial Tr. Oct. 3, 2014 (Dkt. # 7894);
- Alan Perry of Milliman, Inc., Trial Tr. Sept. 15–16, 2014 (Dkt. 7617 and 7618);
- Glenn Bowen of Milliman, Inc., Trial Tr. Sept. 15, 2014 (Dkt. # 7617); and
- Gerald Salzman of Desman Associates, Trial Tr. Oct. 21, 2014 (Dkt. # 8098).

This finding is also based on the testimony and documentary evidence presented by the following elected and appointed leadership of the City and the State:

- ✓ • Michael Duggan, Mayor of the City of Detroit, Trial Tr. Oct. 6, 2014 (Dkt. # 7917);
- Brenda Jones, Detroit City Council President, Trial Tr. Oct. 6, 2014 (Dkt. # 7917);

- John Hill, the City's Chief Financial Officer, Trial Tr. Sept. 4–5, 2014 (Dkt. 7411 and 7434);
- Beth Niblock, the City's Chief Information Officer, Trial Tr. Sept. 8, 2014 (Dkt. # 7462);
- James Craig, Detroit Police Chief, Trial Tr. Sept. 9, 2014 (Dkt. # 7473);
- Edsel Jenkins, Detroit Executive Fire Commissioner, Trial Tr. Sept. 9, 2014 (Dkt. # 7473);
- Sue McCormick, Director of the Detroit Water and Sewerage Department, Trial Tr. Sept. 17, 2014 (Dkt. # 7638); and
- Brom Stibbitz, Senior Policy Advisor for the Michigan Department of Treasury, Trial Tr. Oct. 1, 2014 (Dkt. # 7850).

It is also based on the testimony and documentary evidence presented by:

- Annmarie Erickson, Executive Vice President and Chief Operating Officer of the DIA, Trial Tr. Sept. 18, 2014 (Dkt. # 7634);
- Rip Rapson, President of the Kresge Foundation, Trial Tr. Oct. 2, 2014 (Dkt. # 7878);
- Dan Gilbert, Chairman of Rock Holdings, Trial Tr. Oct. 1, 2014 (Dkt. # 7850); and
- Roger Penske, Chairman of the Penske Corporation, Trial Tr. Oct. 3, 2014 (Dkt. # 7894).

*224 6. The City's Revenue and Expense Projections

It is my opinion that, except where otherwise noted in my Report, the projections are generally mathematically correct and materially reasonable and therefore fall within the Feasibility Standard I have defined.

It is my opinion that, except where otherwise noted in my Report, the individual assumptions used to build the projections fall into a reasonable range and, that when taken as a group, these assumptions are also reasonable and fall within the Feasibility Standard.

Martha Kopacz, Ex. 12000 at 200.

✓ Exhibit 793, to which Mr. Malhotra testified on October 21, 2014, sets forth the City's income and expense projections over ten and forty-year periods of time. *See generally* Trial Tr. 45:16–86:8, Oct. 21, 2014. (Dkt. # 8098)

a. The City's Ten-Year Revenue Projections

✓ The City projects that it will receive approximately \$11.6903 billion in revenue under the plan¹⁹ from FY2014–FY2023. Ex. 793 at 7–8. This total amount includes \$11.1815 billion in general fund revenue from the City's eight primary sources:

1. Municipal income tax;
2. State revenue sharing payments;
3. Wagering taxes;
4. Property taxes;
5. Utility users' taxes;
6. Sales and charges for services;
7. Other revenue, such as permits and parking tickets; and
8. Normal general fund reimbursements and receipts from enterprise funds.

It also includes \$482.9 million in new revenue initiatives to be implemented under the plan and \$241.1 million in proceeds from cash loans. Id. at 7. The City will also receive \$508.8 million in plan-related reimbursements to the general fund from City enterprise funds, including \$464.4 million in reimbursements from the DWSD and \$44.4 million from other enterprise funds, including the library and parking systems. Id. at 7–8.

In addition, the City will receive approximately \$404.5 million from the Grand Bargain and the State Contribution Agreement over this ten-year period (and \$256.3 million over the next ten-year period from FY2024–FY2033) to be paid to the City's pension plans. Id. at 5.

b. The City's Ten-Year Expense Projections

On the operating expenditures side, the City projects that it will spend a total of \$10.3609 billion from FY2014–

FY2023. Id. at 7. This amount includes payroll and active employee healthcare and pension contributions (but not the pension underfunding claims), as well as repayment of the cash loans, an annual contingency,²⁰ several one-time costs of restructuring, and additional operating expenditures associated with the implementation of the *225 RRI's. This leaves approximately \$1.3294 billion for the City's plan obligations to its creditors from FY2014–FY2023, plus approximately \$404.5 million in Grand Bargain and State Contribution Agreement funds for the pension claims, for a total of \$1.7339 billion. Id. at 7–8.

c. The City's Forty-Year Revenue Projections

The forty-year revenue projections are grouped by decade and are largely an extension of the ten-year projections. *See, e.g.,* Trial Tr. 62–63, 83, 154, Sept. 29, 2014 (describing previous version of the forty-year projections). (Dkt. # 7819) For the most part, after FY2023 (the end of the first ten-year period) the City's experts applied a flat, positive growth rate for each component of the City's general fund revenue streams and the new general fund revenue initiatives. Ex. 793 at 4 (“Growth after FY23”). Other income components drop off. For example, most of the plan-related DWSD reimbursements to the general fund will end after the first decade. This is because most of the DWSD plan-related reimbursements will be used to satisfy DWSD's portion of the current pension underfunding, which the plan requires DWSD to pay over a ten-year period in annual payments of \$45.4 million. Ex. 793 at 8. Also, the City will receive all of the proceeds from the cash loans in the first two decades following the effective date of the plan. Id. at 5.

d. The City's Forty-Year Expense Projections

On the operating expenditures side, the City similarly assumes a flat growth rate in expenditures for employee salary, overtime, and other fringe benefits, as well as for active employee pensions and the additional operating costs arising from the Restructuring and Reinvestment Initiatives. Id. at 4. Other operating expenditures have growth assumptions built into the plan. For example, the City projects that it will be required to contribute \$2.2 million to the Income Stabilization Fund from FY2024–FY2033. *Id.*; *see also* Plan, § IV.D.2 at 55–56. (Dkt. # 8045)

e. The Resulting Forty-Year Projections

The resulting forty-year projections provide as follows:

1) From FY2024–FY2033, the City projects that it will collect \$12.2321 billion in revenue and have \$10.6993 billion in operating expenditures, leaving \$1.5328 billion to satisfy its plan obligations to creditors, plus \$256.3 million in Grand Bargain funds for satisfaction of the pension claims, for a total of \$1.7891 billion.

2) From FY2034–FY2043, the City projects that it will collect \$14.4455 billion and have \$13.0563 billion in operating expenditures, leaving \$1.3892 billion to satisfy its last remaining plan obligations to creditors.

3) From FY2044–FY2053, the City projects that it will receive \$17.3359 billion and have \$16.5230 billion in operating expenses, leaving \$812.9 million to satisfy its plan obligations to creditors. Ex. 793 at 4–5. ✓

The City began building these projections by constructing a baseline scenario that projects the City's finances in the absence of "the quantitative impacts of the restructuring initiatives, the cancellation of debt, the cash flow ramifications from the alterations in the City's pension plans and OPEB, and other impacts of the bankruptcy proceedings." Ex. 12000 at 32; Trial Tr. 72:13–17, Sept. 29, 2014. (Dkt. # 7819) Building from this baseline projection, the City constructed the projections in Exhibit 793 by taking into account all of these costs and benefits of the plan and the RRI's (hereafter, "Plan Projections"). Ex. *226 12000 at 25–26; Trial Tr. 78:7–15, Sept. 29, 2014. (Dkt. # 7819)

f. The Expert's Review of the Plan Projections

Ms. Kopacz and her team reviewed the Plan Projections in great detail. They interviewed the City's elected and appointed officials, the emergency manager, many City employees, advisors, creditors, leaders and members of labor unions, as well as representatives of the GRS and the PFRS, the DIA, the Land Bank Authority, and many charitable organizations. *Id.* at 4. They also reviewed thousands of pages of documents that the City and third parties produced. They then "critiqued the methodology used to develop the financial projections, as well as the data and information used as the foundation for the assumptions." *Id.* at 5.

Ms. Kopacz concluded that the projections are "mathematically correct and materially reasonable." *Id.* at 200. She further concluded that "the individual assumptions used to build the projections fall into a reasonable range and, that when taken as a group, these assumptions are also reasonable and fall within the Feasibility Standard." *Id.*

g. The Revenue in the Plan Projections

On the revenue side, Ms. Kopacz examined Dr. Cline's expert opinion with regard to the City's corporate and individual income taxes and wagering taxes, which are two of the City's largest sources of revenue. Trial Tr. 58–68, Aug. 18, 2014. (Dkt. # 7015) Dr. Cline explained that for income taxes, the Plan Projections are higher than the baseline projections due to "stronger growth in the underlying tax bases." *Id.* at 67. This is a function of more optimistic assumptions about wage and employment growth as the plan is implemented and the economic conditions of the City improve. *Id.* Ms. Kopacz reported that when compared to state and national estimates for wage and employment growth, the City's assumptions are "more conservative." Ex. 12000 at 47. She testified there is a reasonable chance that employment and wages will be higher than projected. Trial Tr. 37:8–11, Oct. 22, 2014. (Dkt. # 8082)

For wagering taxes, Dr. Cline testified that the key factor is the impact of new casinos in Toledo, Ohio, on the gross revenues of the City's casinos. Trial Tr. 75:2–77:25, Aug. 18, 2014. (Dkt. # 7015) As a result, he assumed a negative growth rate for the early years of the projections, but eventually returned to a 1% annual increase. *Id.* at 75:18–76:16; *see also* Ex. 112–C. Ms. Kopacz agreed with Dr. Cline's assessment of the risks, adding that it was completely outside the City's control and that the assumptions adequately took the Toledo casinos into account. Trial Tr. 40, Oct. 22, 2014. (Dkt. # 8082)

Ms. Sallee gave expert testimony with regard to the City's property taxes and state revenue sharing payments. In creating her projections for property tax revenues, Ms. Sallee testified that she assumed the revenue would decrease in the short term as a result of a citywide property reassessment, but that eventually revenues would increase due to improved collections and long-term rebounding property values. Trial Tr. 234, Sept. 8, 2014 (Dkt. # 7472) Ms. Sallee explained that increased collections will result from residents' improved "ability to pay," based on the lower amount of taxes and the

improvements in wage and employment growth that Dr. Cline projected. *Id.*

Ms. Kopacz agreed that it is reasonable to assume that “reduced assessments will result in improved property tax collection rates and, in the longer term, increased property values as Detroit becomes a more *227 desirable location.” Ex. 12000 at 59. Ms. Kopacz also testified that she found the City’s property tax revenue projections and assumptions to be “conservative,” particularly in the later years of the Plan Projections as the City begins to experience the full benefits of the implementation of the RRIs. Trial Tr. 44, Oct. 22, 2014. (Dkt. # 8082)

As for the state revenue sharing payments, Ms. Sallee testified that the City receives two types: 1) constitutional payments, which are calculated as a percentage of the statewide sales tax (15% of the first 4% of sales tax revenues), divided among Michigan municipalities based upon population, and 2) Economic Vitality Incentive Program (“EVIP”) payments, which are set forth in the state’s annual appropriation legislation and are thus at the discretion of the state legislature. Trial Tr. 241:10–21, 247:3–15, Sept. 8, 2014. (Dkt. # 7472) The legislature distributes the EVIP payments based on a municipality’s financial “accountability and transparency,” “consolidation of services,” and whether it has established a plan to deal with any existing pension underfunding. Ex. 12000 at 51. Ms. Sallee testified that she assumed the constitutional payments would decrease after the next census, in line with Dr. Cline’s population decline projections, and that the EVIP payments would remain constant throughout the forecast period. Trial Tr. 250:1–9, 252:14–255:10, Sept. 8, 2014. (Dkt. # 7472)

Ms. Kopacz agreed that these projections were reasonable. In particular, she testified that she finds it “hard to fathom” that the City would not receive the full EVIP payments going forward, “given the capability of the current Mayor and the CFO.” Trial Tr. 39:16–18, Oct. 22, 2014. (Dkt. # 8082)

As explained above, although the DWSD operates as an enterprise fund, it is another major source of revenue for plan payments. Exhibit M to the City’s Fourth Amended Disclosure Statement (Dkt. # 4391) and Exhibit 178 set forth the City’s projections of the DWSD’s revenues, operating and legacy expenditures, and capital improvement plan for FY2014–FY2023. Ms. Kopacz expressed skepticism in her original report regarding the feasibility of the DWSD payments under the plan. Ex. 12000 at 196 (“While DWSD’s

debt is impacted by the POA, the DWSD operations are not included in the Plan. DWSD does play a significant role in funding the City’s pension obligations during the forecast period.”).

However, following the Court’s approval of the DWSD Bondholders settlement on August 25, 2014 (Dkt. # 7028), Ms. Kopacz testified, “Based on the DWSD settlement [], the risk that I had identified with the DWSD contribution to the pension funding is now removed.” Trial Tr. 75, Oct. 22, 2014. (Dkt. # 8082) Ms. McCormick also testified that the DWSD will have sufficient resources to make all the necessary capital improvements to infrastructure so that it can continue providing adequate water and sewer services to its customers. Trial Tr. 99:4–100:6, Sept. 17, 2014. (Dkt. # 7638)

The City’s parking department is another important source for revenues needed in the plan.²¹ James Doak and Gerald Salzman testified about the City’s projected parking revenues. *See* Trial Tr. 123–126, Oct. 3, 2014 (Dkt. # 7894); Trial Tr. 9–45, Oct. 21, 2014. (Dkt. # 8098) Mr. Salzman works for Desman, a firm that *228 designs parking garages and optimizes parking system revenue. City Exhibit 783 reflects Mr. Salzman’s projections of the City’s parking revenues under four different scenarios—a “status quo” scenario; an “optimized,” but still City-run scenario; a “private” investment and development scenario; and a “private upside” scenario, which is identical to the private scenario except that parking rates increase every three years. Ex. 783 at 47, 52.

Mr. Doak testified that the Plan Projections include an assumption that the City’s parking revenues will exceed \$10 million per year, and that the status quo scenario would not be sufficient. Trial Tr. 130:2–9, Oct. 3, 2014. (Dkt. # 7894) However, he also testified that the City has “the prospective capacity to either run the parking operations more efficiently and more economically generating more cash flow, or seek a private partner” in order to achieve the projected parking revenues in the plan. *Id.* at 130.

Ms. Kopacz further confirmed that the assumptions underlying the plan’s parking revenue projections are “by and large ... not significantly different than the historical trend,” thus, while there is “some rate increase,” and “some increased usage,” she explained that “it’s not a hockey stick” projection, and she concluded, “from the revenue side, I think they’re reasonable.” Trial Tr. 20–21, Oct. 22, 2014. (Dkt. # 8082)

h. The Expenditures, Revenue and Cost Savings Associated with the RRI's

Mr. Moore provided expert testimony regarding the projected expenditures, revenue, and cost savings associated with the implementation of the RRI's. He testified that the projected expenses and gains associated with the RRI's are "reasonable and achievable." *See, e.g.*, Trial Tr. 75, 80–82, 152, Sept. 5, 2014. (Dkt. # 7434) To reduce risk, Mr. Moore and his team at Conway MacKenzie specifically targeted areas with historically high costs and within the City's immediate control. These include labor inefficiencies, high levels of employee downtime and overtime, inefficient processes, ineffective or non-existent management metrics and tools, and improper deployment and use of assets. Ex. 464 at 10–11. In determining which initiatives should be included in the RRI's, the Conway team omitted any initiative that had a high degree of risk in implementation or that was outside the reasonable influence of the City's leadership (for example, an initiative requiring state legislative action). Trial Tr. 74, Sept. 5, 2014. (Dkt. # 7434)

Mr. Orr also testified that the increased revenues and cost savings projections associated with the RRI's are reasonable "and achievable." Trial Tr. 124–25, Oct. 2, 2014. (Dkt. # 7878)

7. The City's Obligations to Creditors Under the Plan

While my opinion is the Plan of Adjustment remains feasible and there is not yet a 'significant probability of default' as described in the Standard, there is no denying the possibility of default has increased. It is not realistic or prudent to believe that the City could take on any additional Plan obligations and remain within the continuum of reasonableness necessary to establish feasibility.

Martha Kopacz, Ex. 12002 at 6.

The plan reduces the City's debt burden by over \$7 billion. *See, e.g.*, Trial Tr. 70:4–7, Sept. 30, 2014. (Dkt. # 7821) This is a truly remarkable achievement for the City, unprecedented in the history of municipal bankruptcy. However, the Court begins with the statement from Ms. Kopacz above to emphasize the magnitude of debt that *229 the City is undertaking and retaining under the plan, particularly in light of the ambitious revitalization plan that the City intends to implement over the next ten years.

a. The City's Post-Bankruptcy Debt

As Mr. Malhotra testified, and as reflected in Exhibit 791, the City will issue \$1.063 billion in new notes under the plan. This amount includes:

1. \$55 million in New LTGO Bonds, to be paid on the effective date from a part of the proceeds of the exit financing;
2. \$88 million in New C Notes, payable over twelve years at 5%;
3. \$288 million in Restructured UTGO Notes, payable over fourteen years, at the various pre-bankruptcy interest rates of between 3.7% and 5.375%; and
4. \$632 million in New B Notes, payable over thirty years at 4% for the first twenty years and 6% over the last ten years and interest-only for the first ten years.

See Ex. 791; Trial Tr. 63, Oct. 21, 2014. (Dkt. # 8098) In addition, the City is obligated under the plan to pay \$2.2 million in cash to class 17, the 36th District Court creditors, and \$20 million in cash to cover the VEBA start-up costs. *Ex. 793 at 2.* These obligations total \$1.0852 billion. This is in addition to other debts that the City retains, including debts associated with the DWSD and secured GO bonds. *See* Plan, § II.B.3.a–k at 33–35. (Dkt. # 8145)

The plan also obligates the City to pay \$3.795 billion to the GRS and the PFRS on account of the class 10 and 11 pension claims. *Id.* at 3. Of this amount, \$661 million will be paid through contributions from the Grand Bargain and the State Contribution Agreement. *Id.*

Finally, the City is required by the Grand Bargain Legislation to maintain a minimum cash balance equal to 5% of annual projected expenditures. *Mich. Comp. Laws* § 117.4t(1)(c) (vi). Although this is not a debt-service obligation, the Court must nevertheless determine whether it is feasible that this amount will be available after all other plan obligations are satisfied. Because the City's forecasted annual expenditures hover around \$1 billion, the minimum cash balance amount is approximately \$50 million. *City Ex. 793 at 7.*

b. The Cost of Servicing the Post-Bankruptcy Debt

✓ The cost of servicing these obligations and maintaining the minimum cash balance over the same ten and forty-year periods for which the City projected its income and operating expenditures is also reflected in City Exhibit 793, and was testified to by Mr. Malhotra. *See generally* Ex. 793; Trial Tr. Oct. 21, 2014. (Dkt. # 8098)

✓ For the time period FY2014–FY2023, the City will be required to spend \$709.5 million to service the notes and satisfy its cash obligations. This amount includes \$20 million in cash to the VEBAs, \$2.2 million in cash to the 36th District Court creditors in class 17, and \$687.3 million payable to service the B Notes. The City will also expend \$979.2 million to service its obligations to the GRS and PFRS on account of the UAAL. This totals \$1.6887 billion. Ex. 793 at 5.

As discussed above, the City projects that it will have \$1.7339 billion available to pay plan-related expenses.

Therefore, after paying its operating expenditures and satisfying its obligations to creditors, the City projects a surplus of \$45.2 million. *Id.* When added to the City's then-existing cash balance, the City projects that it will have a cash balance of *230 \$81.2 million at the end of FY2023, which is sufficient to meet the requirements of the Grand Bargain Legislation.²² *Id.* at 8.

Amest
30 years
For the period FY2024–FY2033, the City will be required to spend \$541 million servicing the B Notes, C Notes, and Restructured UTGO Notes. The City projects that it will be required to spend \$1.2481 billion to service its obligations to the GRS and PFRS UAAL⁽²³⁾ for a total of \$1.7891 billion. *Id.* at 5. The City projects that it will also have \$1.7891 billion for plan-related expenses during that time period. Therefore, the City projects that it will break even at the end of this time period, after paying its operating expenses and satisfying its plan obligations. *Id.* at 4–5. The City also projects that it will be able to maintain the \$81.2 million cash balance carried over from the first decade of projections through the end of FY2033. *Id.* at 5. The New C Notes, the New LTGO Bonds, the New UTGO Bonds, and the City's cash obligations to the 36th District Court creditors and the VEBAs are projected to all be satisfied by the end of FY2033. (Ex. 791; Ex. 793 at 5)

For the time period FY2034–FY2043, the City will be required to spend \$450.6 million servicing the New B Notes. Ex. 793 at 5. The City projects that it will also be required to contribute \$938.5 to the GRS and PFRS UAAL, for a total of \$1.3892 billion. *Id.* As detailed above, the City projects that it

will have \$1.3892 billion in funds left over after its operating expenses are paid, thus breaking even again for this ten-year period. *Id.* at 4–5. However, again, the City projects that it will be able to maintain the \$81.2 million cash balance through the end of FY2043. *Id.* at 5.

Finally, for the time period FY2044–FY2053, the City will be required to spend only \$68.9 million to fully satisfy the B Notes. *Id.* The City also projects that it will be required to contribute \$628.9 million to complete payment on the pension underfunding, for a total of \$697.8 million in plan obligations. *Id.* During this time period, the City projects that it will have \$813.0 million in revenue funds after paying its operating expenses, leaving a surplus of \$115.2 million. When this surplus is added to the City's projected then-existing cash balance, the City projects it will have an overall cash balance of \$196.4 million by the end of FY2053. *Id.*

c. The City Will Be Able to Service Its Post-Bankruptcy Debt

As Ms. Kopacz's opening cautionary note suggests, and the Court's review of *231 the projections demonstrates, the Plan Projections do not leave much room for error. In two of the four ten-year periods, the City projects that it will only "break even" after paying its operating expenses and its obligations to creditors. *Id.* at 4–5. For the first thirty years of the plan, the City maintains its mandated cash balance only by deferring certain RRI's and selling assets. *Id.* at 10–14.

Nevertheless, as the Court concludes above, the City's projections are reasonable. Ms. Kopacz reported that a number of the assumptions underlying the projections are even "conservative." Ex. 12000 at 200. In addition, as counsel for the City pointed out in closing arguments, a narrow margin of error is to be expected in a broadly consensual plan:

[T]he fact that the deals that were reached with creditors had the result of leaving the City with just about enough to accomplish its principal objectives through reinvestment and service improvement but did not create an overwhelming margin is the result you should exactly expect from a largely consensual plan. That's how they come out. Every side tries for as

much as they can get and leaves for the other side only what is perceived they need. No one gets extra.

Trial Tr. 130–131, Oct. 27, 2014. (Dkt. # 8156)

Accordingly, the Court concludes that the City is reasonably likely to have a balanced annual operating budget and to satisfy its plan obligations to creditors, while maintaining a cash balance that is sufficient to meet the requirements of the Grand Bargain legislation for the life of the plan.

8. The Feasibility of the City's Plan to Address Its Pension Obligations

The City must be continually mindful that a root cause of the financial troubles it now experiences is the failure to properly address future pension obligations.

Martha Kopacz, Ex. 12000 at 147.

a. The City's Plan Regarding Its Pension Obligations

The plan provides the City with fixed payments toward the pension underfunding for FY2014–FY2023. For the PFRS, 100% of the payments are covered by the funds from the State Contribution Agreement and the Grand Bargain. Ex. 732. For the GRS, which has a larger underfunding claim, the State Contribution Agreement and the Grand Bargain funds cover only 20%. *Id.* The City is obligated to contribute \$575 million in cash. However, approximately \$428.5 million of that will come from DWSD revenues to cover DWSD's portion of the GRS underfunding liability, and another \$31.7 million will come from the UTGO millage, as described in III.K. above. This leaves a balance of \$114.6 million. *Id.* Mr. Malhotra testified that \$80 million of this \$114.6 million will come from the City's general fund and that it is included in the Plan Projections. Trial Tr. 84, Oct. 21, 2014. (Dkt. # 8098) The balance will come from the City's parking and library revenues. *Id.* at 81.

However, at the end of FY2023, the GRS and PFRS will remain significantly underfunded. Using the assumptions from the global pension settlement, including the 6.75% discount rate, the City projects that the PFRS will only achieve 78% funding, leaving a UAAL of \$681 million. Ex. 793 at 2. For the GRS, the City projects a 70% funded status by the end of FY2023, leaving a UAAL of \$695 million. *Id.*

The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%. *Id.* Between FY2024 and FY2033, the City *232 will receive an additional \$68 million in Grand Bargain proceeds to pay toward the UAAL amortization for PFRS, and \$188 million for GRS. The balance of the amortized UAAL will come from the City. *Id.* at 5.

The plan greatly reduces the City's pension obligations, thanks to the State Contribution Agreement, the Grand Bargain funding, and the modification of the City's obligations to its current retirees. The Grand Bargain legislation reflects the State's ability and commitment to make its contribution. See Mich. Comp. Laws § 141.1602. Ms. Erickson credibly testified that the DIA has already raised \$85 million of the \$100 million that it committed, and that she is “completely confident” the DIA will be able to raise the balance. Trial Tr. 117, Sept. 18, 2014. (Dkt. # 7634) Mr. Rapson testified that the Kresge Foundation is fully committed to making its promised \$100 million contribution to the Grand Bargain, and furthermore that it “should not eat into the normal investments we would normally make in the City of Detroit.” Trial Tr. 202, Oct. 2, 2014. (Dkt. # 7878)

Mr. Orr testified that he has received letters also expressing commitment from representatives of the Ford Foundation, the Kellogg Foundation, the Davidson Foundation, the Erb Family Foundation, the Mott Foundation, the McGregor Fund, the Hudson–Webber Foundation, the Community Foundation for Southeast Michigan, and the Knight Foundation. See Ex. 352; Trial Tr. 54, Oct. 2, 2014. (Dkt. # 7878)

b. Evaluating the Risks in the City's Plan to Address Its Pension Obligations

However, the risk remains that at the end of FY2023, the UAAL could be much larger than currently projected. Ms. Kopacz testified that the fixed nature of the City's obligations for the next ten years supports the plan's feasibility. Trial Tr. 62, Oct. 22, 2014. (Dkt. # 8082) The primary risk that Ms. Kopacz cites is the City's decision to discount the pension underfunding (and thus reduce all pension contributions) by 6.75%, which is based on the City's assumption that its pension investments will grow at that rate if properly managed. Ex. 12000 at 144–51. Her report stated:

The City's assumption of a 6.75% rate of return implicitly requires the City to accept risk and volatility. Volatility is, of course, a positive and a negative force. At times, the City should be expected to achieve returns above 6.75% and, at times, the City should expect returns below this level. Over the past 10 years, the Retirement Systems have seen significant variations in their investment returns both above and below the average return. Because the City's defined benefit plans [as opposed to the new hybrid pension plans] are essentially in runoff, they will inevitably experience declining asset levels. In this environment of declining assets and volatility, returns over time are not equally weighted.

.... In an environment in which expected returns are low in the short term—as the current low-interest-rate, low-inflation environment may be—funds cannot simply balance low returns in the short term with high returns later; they will need much higher returns later because investible assets will be lower than they otherwise would have been.

Id. at 149–50 (footnote omitted).

She echoed this concern in her testimony:

The concern that I have is that if the City does not monitor the [pension] obligation that is going to be there in 2023 and beyond, ... is that they could wake *233 up with a bad nightmare, not unlike what they've been through with the pension systems to get to this point.

Trial Tr. 60, Oct. 22, 2014. (Dkt. # 8082)

The GRS and the PFRS have historically used significantly higher assumed investment rates of return, and thus discount rates, of 7.9 and 8.0%. Ex. 12000 at 127. Nevertheless, Ms. Kopacz stated, “Highlighting that the City's assumptions are low relative to history, a history that got them to this place, ... is not much consolation.” *Id.* at 147

The City presented testimony from actuaries to support the assumption that the City's investments will achieve the projected 6.75% growth rate. Glenn Bowen of Milliman testified that the 6.75% rate assumes a lower inflation

rate than the vast majority of large public pension plans. Trial Tr. 121, Sept. 15, 2014. (Dkt. # 7617) The City also presented testimony from Alan Perry, another actuary from Milliman, who testified that the 6.75% rate is “at or near the bottom of the assumption that we would see for the largest public [pension] plans.” *Id.* at 222:10–15. These two points support a conclusion that the City's assumptions regarding the investment return rate are conservative.

Mr. Bowen also testified that in November 2013, Milliman performed a series of calculations based on the City's asset allocations, and determined that the City could reasonably expect an investment return assumption of at least 7.2%. *Id.* at 91; Ex. 496.

Based on this evidence, the Court concludes that the City's projection of the UAAL for both retirement systems at the end of FY2023, including the 6.75% investment return assumption, is reasonable and supports a finding that the plan is feasible.

c. Recommendations for Enhanced Disclosures to Reduce the Risk of Unmanageable Pension Obligations

To improve the feasibility of the plan, Ms. Kopacz makes several recommendations to enhance the disclosures in the annual reports of the status of the pension UAAL. In her report, Ms. Kopacz recommends that on an annual basis, the City disclose three funding benchmarks:

The expected standard deviation of investment returns of the asset portfolio on the report date;

The plan liability and normal cost calculated at the risk-free rate, which estimates the investment risk being taken in the investment earnings assumption; and

A standardized plan contribution for assessing the aggregate risks to the adequacy of the recommended contribution.

Ex. 12000 at 155–56 (citing the Society of Actuaries “Report of the Blue Ribbon Panel on Public Pension Plan Funding,” February 2014).

Ms. Kopacz further recommended “that the City disclose the gross liability and the UAAL by year on an undiscounted basis.” *Id.* at 156. She explained, “This will allow third parties

a better understanding of the changes in the liabilities from year to year.” *Id.*

The Court strongly recommends that the City, the GRS and the PFRS give serious consideration to these additional disclosures. Based on the record, the Court agrees that “[t]imely, accurate financial reporting relating to the City’s pension plans will be an essential tool as the retirement systems manage the plans’ assets and liabilities and make critical decisions regarding future estimated rates of returns and annual funding requirements.” *Id.* at 155.

***234 9. The City Will Be Able to Sustainably Provide Adequate Services**

The RRI’s are one of the positive outcomes of the bankruptcy process. The RRI’s provide the backbone of improved services to the citizens of Detroit.

Martha Kopacz, Ex. 12000 at 207.

The Court has determined the City’s financial projections and the assumptions that underlie them are reasonable, including the projected expenditures and increased revenues associated with the RRI’s. Therefore, the only remaining feasibility questions are 1) whether the RRI’s, if implemented, are reasonably likely to enable the City to sustainably provide adequate services, and 2) whether the City is reasonably likely to be able to implement the RRI’s.

Charles Moore is the chief architect of the RRI’s. He was qualified as an expert in “advising municipal and corporate entities on organizational turnarounds and restructuring, including operational and financial revitalization.” Trial Tr. 75–76, Sept. 5, 2014. (Dkt. # 7434) During his testimony, he explained that the RRI’s can be broken down into seven categories:

1. Blight initiatives, which focus on the remediation of primarily residential blight;
2. Public safety initiatives, which focus on police and fire services to improve overall public safety;
3. Resident service initiatives, which focus on departments that primarily interact with residents (such as the Department of Transportation);
4. Business service initiatives, which focus on departments that interact with businesses (such as Buildings, Safety Engineering and Environmental Department);

5. Organizational initiatives, which focus on the departments that serve primarily to support City operations (such as the Finance Department and General Services);
6. Management initiatives, which relate to the mayor’s office, city council and the city clerk; and
7. Non-departmental initiatives, which relate to the 36th District Court.

Id. at 40–41.

In developing the RRI’s, Mr. Moore and his team at Conway MacKenzie reviewed each of the general fund departments and the enterprise funds that impact the general fund. This was done to understand the nature of each department, the services that each provides, and the way in which those services are provided. That information was reviewed against benchmark data to determine the level of deficiency in each department. From there, initiatives for improving the level of services were developed and compiled into the reinvestment plan. *Id.* at 66–67.

This process was conducted from the bottom up, meaning that Conway MacKenzie worked department by department with employees and department heads to develop individual projects and initiatives to address specific service deficiencies. *Id.* at 66. For example, with regard to labor requirements for a given department, it looked at how many employees would be required to complete all necessary tasks, the appropriate pay levels, and the amount of training required. It looked at departmental information technology requirements, the associated costs, and the necessity of outside contractors and consultants. *Id.* at 68–69. Where necessary, it relied on outside experts for additional input. For example, the Tridata Group was consulted as to the fire department, and both the Manhattan Institute and the Bratton Group were consulted as to the *235 police department. Trial Tr. at 69–72, 263–64, Sept. 5, 2014. (Dkt. # 7434)

Mr. Moore testified that in his expert opinion, each specific RRI is necessary and that if successfully implemented, the RRI’s will improve City services to an adequate level. *Id.* at 8283. The specific facts supporting these conclusions for the most significant RRI’s are summarized below.

a. The Blight Initiatives

In assessing the scope of the blight problem, Mr. Moore relied, in part, on a report issued by the Detroit Blight Removal Task Force in May 2014. *Id.* at 88:7–10. The Task Force was created in September 2013 to focus on reducing or eliminating blight in the City. *See* Ex. 73. The Task Force surveyed over 99% of the City's 380,000 lots and compiled the results in a comprehensive database known as the Motor City Mapping Project. Trial Tr. at 90:5–91:7, Sept. 5, 2014. (Dkt. # 7434) The Task Force identified an estimated 80,000 properties in the City that were either blighted or showing signs of blight. Approximately 30% of residential structures and 30% of commercial structures were blighted. Ex. 464 at 13–14, tables 1a and 1b.

In addition to relying on the Task Force report, Mr. Moore visited multiple blight removal sights, spoke with residents living in areas where blight removal activities were undertaken, met with members of the blight removal task force, and spoke with City personnel involved in blight removal from the planning and development department and the building department. Trial Tr. at 89–90, Sept. 5, 2014. (Dkt. # 7434)

The proposed blight initiatives contemplate \$440.3 million in total investment and \$72.3 million in revenue initiatives, resulting in net reinvestment of \$368 million. *Id.* at 92–93; Ex. 464 at 15, tables 1c and 1d.

This level of investment will not completely eradicate blight in the City. Eliminating all 80,000 properties that are “blighted or showing signs of blight” would cost approximately \$850 million. Ex. 464 at 17, table 1e. The initiative is focused primarily on structural blight (buildings) as opposed to non-structural blight (brush and other debris).

There is no direct financial revenue projected from these initiatives. There are, however, indirect benefits from blight removal. These include:

- The improved appearance of the City;
- The stabilization of neighborhoods;
- Reduced migration from the City;
- Increased demand for property;

- Decreased crime;
- Reduction in the number of fires;
- Improved fire rating (which ties to insurance rates);
- Reduced maintenance burden on the City;
- Efficient land utilization;
- More efficient delivery of City services; and
- Enhanced development opportunities.

Ex. 464 at 14–15; Trial Tr. 95–96, Sept. 5, 2014. (Dkt. # 7434)

The City's disclosure statement further states, “In developing its blight removal initiative, the City has taken into account the proposals set forth in the Detroit Future City Strategic Framework ... and the City believes that its strategies for blight removal are consistent with the goals set forth in the Strategic Framework.” Disc. Stmt. § IX.B.1, at 162. (Dkt. # 4391)

Mr. Rapson testified about the Detroit Future City Plan, which was developed primarily by the Kresge Foundation. Trial Tr. 182, Oct. 2, 2014. (Dkt. # 7878) He *236 explained that the Blight Task Force is “nested within” the Detroit Future City project. *Id.* at 183. More importantly, he testified that incorporating City's blight removal initiative into the highly-developed Detroit Future City plan the increases its feasibility. *Id.* at 182 (“[T]he Detroit Future City plan is really in many ways the way by which the City will operationalize its approach to blight.”).

Finally, the Court finds Mr. Rapson credibly testified that the blight removal initiatives “will help the City return to providing adequate services.” *Id.* at 203. He elaborated:

[T]hese investments in City services represent a return to the kind of investments that are going to be necessary for us to make progress on blight remediation and to improve the kind of public services and emergency services that any city depends on for its long-term health.

....

I think they will [] help stabilize the environment [so that the City can] build these other investments on top of an environment that is safe and that is not characterized by massive swaths of blighted land, but I think it will also

serve as an accelerant. My sense is that what the plan of adjustment ... does is to really accelerate the kind of progress that we need to make as a community if we're going to return to health....

Id. at 203–04.

b. The Public Safety Initiatives

The public safety initiatives are intended to improve the overall performance of the police and fire departments and to increase safety in the City.

In assessing how well the police department is currently functioning, Mr. Moore relied on numerous reports that have been written about the City, as well as nationwide data sources regarding the effectiveness of police departments (for example, the FBI's uniformed crime reporting statistics). The benchmarking data measures crime rates, case closures and response times. Trial Tr. 97–99, Sept. 5, 2014. (Dkt. # 7434)

The initiatives for the police department contemplate an investment of \$339.8 million, cost savings of \$87.6 million and revenue initiatives of \$32.6 million, for a net reinvestment of about \$220 million. *Id.* at 96–98; Ex. 464 at 20, table 2a. The specific investments required for the police department were determined by working closely with Police Chief James Craig as well as the finance and IT departments. Trial Tr. 105–06, Sept. 5, 2014. (Dkt. # 7434)

The \$339.8 million in proposed expenditures for the police department include:

- 1) \$175 million in operating expenses. This is primarily to address staffing issues such as shifting 250 uniformed officers who currently perform duties that civilians could perform back to patrol duty and hiring civilians to fill the open positions. This represents about 12% of the police force.
- 2) \$91.3 million in fleet expenditures. More than half of the department's vehicles are over ten years old; this investment will put the fleet replacement cycle at 3 ½ to 4 years, which is not ideal, but is a significant improvement.
- 3) \$38.4 million in technology related expenses. This includes replacing handheld and vehicle radios as well as implementing an integrated police information system. That system allows for sharing information

between precincts, accessing background information on individuals, automating paperwork and improving data access for management.

*237 4) \$34.2 million in capital expenditures. This includes funds for improving existing facilities (\$24 million for substantial repairs that have been delayed) as well as opening three new precincts (\$7 million) and a new training facility (\$3 million).

Id. at 100–06.

Chief Craig confirmed that these investments will enable the police department to adequately serve the residents of **Detroit**. He described a “plan of action,” prepared under his supervision and direction, that is designed to transform the department into a “premier law enforcement agency.” See Ex. 66; Trial Tr. 108–09, Sept. 9, 2014. (Dkt. # 7473) Chief Craig testified that the plan of action was his way of incorporating the public safety initiatives described in the disclosure statement into the actual day-to-day functioning of the police department. Trial Tr. 109–10, Sept. 9, 2014. (Dkt. # 7473) He testified that the police department's implementation of the plan of action is “roughly 65 percent complete,” citing, *inter alia*, an overall crime reduction of 19 percent from 2013, a murder clearance rate of 67% (up from 11% previously), and the successful transition out of an eleven year Department of Justice consent decree. *Id.* at 109–12. He also testified that “in-service training” has increased, and the department has successfully implemented its own “neighborhood police officer initiative,” designed to establish relationships between officers and the neighborhoods they protect. *Id.* at 115–16.

Chief Craig also testified that they had recently hired 133 new officers, but that they were only keeping up with attrition. *Id.* at 113. Part of the problem, he explained, is that officers in neighboring cities offer higher pay.

However, several weeks later Mayor Duggan testified that he has made efforts to address this problem. Trial Tr. 82, Oct. 6, 2014. (Dkt. # 7917) He testified that he was able to renegotiate contracts with the police unions in order to give all officers an 8% increase in base pay by reducing annual sick days and by moving 150 uniformed officers out of “non-core” roles, such as traffic enforcement, crime statistics, and prisoner transport, and into patrol positions. *Id.* He testified that the department plans to hire retired officers to fill the non-core positions at a lower hourly wage with no benefits, explaining, “It'll save us a huge amount of money, and when we bring the retired

officers back, we can move the 150 cops back to the street. And with the money we save, we can give [the] officers a base pay increase of eight percent.” *Id.* Mayor Duggan testified that these changes will allow the police department “to effectuate the plan ... much more quickly,” particularly by “putting officers on the street.” *Id.* at 82–83.

In assessing the Fire Department, Mr. Moore looked to the National Fire Protection Association's published standards and concluded that the City is not meeting those standards. The NFPA standard response time for firefighting and EMS is six minutes. The City department's response times were 9 minutes for firefighting and 18 minutes, 20 seconds for EMS. This is due to a lack of resources, both people and equipment. Trial Tr. 107–08, Sept. 5, 2014. (Dkt. # 7434)

The initiatives for the Fire Department contemplate a total investment of \$218.9 million, with cost savings of \$60.6 million and revenue initiatives of \$87 million, for a net reinvestment of \$71.3 million. Ex. 464 at 20, table 2a. This includes:

1. \$85.3 million in additional operating expenses. This is primarily for hiring additional firefighters. This will be offset by some attrition, as well *238 as increased efficiency as the department moves towards cross-training and cross-utilization of its fire and EMS resources.
2. \$58.6 million in fleet expenditures. This anticipates the purchase of about 17 vehicles per year. About 30% of the fleet will be replaced in 2015 and about 12% each year thereafter.
3. \$71.3 million in capital expenditures. This addresses repairing or replacing facilities. Many of the older facilities were not built to accommodate modern equipment and must be replaced or upgraded. \$30 million is allocated for that. In order to meet NFPA standards regarding response times, some firehouses need to be relocated. \$20 million is allocated for equipment replacement.
4. \$300,000 to combine firefighting and EMS. Most of this money has already been spent implementing Tridata's recommendations

Trial Tr. 107–11, Sept. 4, 2014. (Dkt. # 7434) *See also* Ex. 464 at 20, 26–28.

Executive Fire Commissioner Edsel Jenkins confirmed Mr. Moore's testimony that the proposed initiatives dedicated to the fire department will enable the department to come into compliance with—or close to compliance with—the NFPA standards. Trial Tr. 53, Sept. 9, 2014. (Dkt. # 7473) He explained that certain kinds of complex, large fires will likely continue to impact the Department's compliance with the NFPA standards. He explained, “[I]f we have all [of] our resources tied up at one or two fires, that's going to leave us really hard-pressed to meet the response times for EMS and fire for regular runs.” *Id.* at 88. However, he further explained that the RRI's provide a “great cash injection that the department needs,” and that while he could not say the department would be “perfect,” he testified, “we'll be very close.” *Id.* at 89.

The Court finds that Chief Craig and Commissioner Jenkins are fully committed to and capable of implementing the RRI's in their departments. The Court further finds that if these RRI's are implemented, they will enable the City to provide an adequate level of public safety service that will be sustainable over the long term.

c. The Organizational Efficiency Initiatives

These initiatives relate to departments that provide support for the City's operations, specifically: the finance department, the general services department, the human resources department, the law department, the office of the auditor general, the department of elections, and the human rights department. Implementation of the RRI's associated with these departments is essential to the City's improvement in its operations and ultimately the services it provides.

The RRI's for organizational efficiency contemplate a total investment of \$479.9 million, offset by cost savings of \$109 million, and revenue initiatives of \$98.2 million, for a net reinvestment of \$272.7 million. Ex. 464, at 57–58, tables 5a and 5b. The Court addresses the main components of the organizational efficiency initiatives below.

The income tax division of the finance department is marked for a \$12.2 million investment, primarily for the implementation of a tax software program known as “City Tax,” which is expected to create cost savings of \$10.4 million. Trial Tr. 142, Sept. 5, 2014. (Dkt. # 7434) The City also hopes to increase its income tax revenue by working with the IRS to obtain information on individuals whose federal tax

returns suggest that they should be filing a tax return with the City but who *239 have not done so. *Id.* at 143. Mr. Stibbitz testified that the State is similarly hoping to assist the City in collecting income taxes. He stated, “[W]e’ve been working on an agreement and building a system, ... through which we could actually collect city income taxes on behalf of the City.” Trial Tr. 91, Oct. 1, 2014. (Dkt. # 7850)

Mr. Orr testified that the investments in the income tax division will address another serious problem in the City—people who are trying to pay their municipal income taxes frequently have to wait in line for several hours to make their payments. Trial Tr. 122–23, Oct. 2, 2014. (Dkt. # 7878)

The grants division of the finance department is new and budgeted for a \$19 million investment. Trial Tr. 143, Sept. 5, 2014. (Dkt. # 7434) It is responsible for establishing a grants management system. The City gets a fair amount of grant revenue each year, but the money is not properly tracked. HUD and other granting authorities have indicated that without changes, the City is at risk of losing future grants and also possibly having to reimburse grants already received. *Id.* at 143–44. The new initiatives are designed to prevent this from happening. Mr. Hill testified that the City will continue to use an interim grants management program until the City completes all of its planned information technology upgrades. Trial Tr. 87–88, Sept. 4, 2014. (Dkt. # 7411) The expectation is to use the grant management module in the new financial control system once it is fully implemented. *Id.* at 88.

One major area that needs improvement is the human resources department, in which the City plans to invest \$40 million. Trial Tr. 152, Sept. 5, 2014. (Dkt. # 7434) Mr. Moore described reinvestment in this department as “another one of those critical elements that underlies all of the reinvestment initiatives.” *Id.* The department is understaffed and under-resourced. As a result, it can take the City six months to fill open positions. The plan calls for the City to eventually add over 800 employees. To free that process from the current constraints imposed by the condition of the HR department, the City plans to spend \$25 million in additional labor and training, including adding eleven employees dedicated to monitoring the City’s compliance with union contracts. *Id.* at 152–56. In addition, the City has hired a new director of human resources, who will start in January 2015. Trial Tr. 71, Oct. 22, 2014. (Dkt. # 8082)

The City plans to direct the bulk of the remaining organizational efficiency investment in the finance

department. The plan calls for a \$221.4 million reinvestment in the finance department, \$101 million of which will be dedicated toward information technology upgrades, including the implementation of a new enterprise resource planning system (“ERP”), as well as support staff, hardware and software. Trial Tr. 140, Sept. 5, 2014. (Dkt. # 7434) The City also intends to spend \$24.9 million on labor, including hiring new employees and budgeting for future training. The City plans to hire nine new people to track, monitor and maintain the implementation of the RRI’s citywide. These employees’ responsibilities will include “making sure that the City is able to close its books on a monthly basis, perform bank reconciliations, activities that you would expect any accounting and finance area to be able to accomplish.” *Id.* at 140–41.

Because these RRI’s are fundamental to the success of the plan, the City built flexibility into other RRI’s to ensure that the organizational efficiency initiatives would not be deferred. *See* Trial Tr. 71–72, Oct. 21, 2014. (Dkt. # 8098)

*240 Ms. Niblock testified that the IT reinvestment initiatives are reasonable and, when implemented, will address the City’s IT deficiencies. Trial Tr. 129, Sept. 8, 2014. (Dkt. # 7472) Mr. Hill will work with Ms. Niblock on the implementation of the finance department’s IT upgrades. *Id.* at 130. He testified that they have been working toward implementing best practices over the past several months, so that the finance department will be fully prepared when the new ERP system is implemented. Trial Tr. 172, Sept. 4, 2014. (Dkt. # 7411) To further reduce implementation risk, Mr. Hill explained that the City decided to use one of two cloud-based ERP systems. He testified that the benefit of a cloud-based system is that the responsibility for storage of information is not with the City, so it does not need to allocate assets and resources to data storage and organization. This is done by the cloud servicing company. *Id.* at 171–73.

Mr. Hill testified that the finance department will use the IT upgrades to improve the state of its financial controls systems, its ability to issue periodic accounting statements, and its cash management functions. *Id.* at 84–86.

d. The Resident Services Initiatives

The resident services initiatives focus on non-public-safety departments “that have the front facing impact on residents,” specifically transportation, ombudsperson, public works

(solid waste), recreation and vital records (health and wellness). Trial Tr. 114, Sept. 5, 2014. (Dkt. # 7434)

The RRI's for resident services contemplate total investment of \$170.9 million, with cost savings of \$64.7 million and revenue initiatives of \$52 million, for a net reinvestment of \$54.2 million. The largest expenditures are for transportation and recreation. Ex. 464 at 33, tables 3a and 3b.

First, the City contemplates spending \$111 million for the department of transportation ("DDOT"). The number of miles serviced by DDOT has declined significantly over the past five years, from sixteen million miles annually in 2009 to twelve million miles today. Trial Tr. 115, Sept. 5, 2014. (Dkt. # 7434) Mayor Duggan intends to restore service back to 2009 levels by the end of fiscal year 2023. This means DDOT will need between 225 and 230 buses for peak afternoon times. Presently, DDOT only has about 190 functioning buses. *Id.* at 115-16.

To address these problems, the \$111 million in proposed expenditures includes \$101 million in additional operating expenses (fuel, maintenance, parts, supplies, additional drivers, cameras and security personnel) and \$10.3 million in capital expenditures for facility improvements. *Id.* at 117-18.

Mayor Duggan's testimony supports the feasibility of the City's plan to improve its transportation services. He testified that the City is set to receive fifty new buses in early 2015. Trial Tr. 89, Oct. 6, 2014. (Dkt. # 7917)

The bulk of the remaining resident services investments relate to the reopening of the City's parks. Under the plan, the City will invest \$37.8 million to reopen 180 of the City's closed parks. Trial Tr. 122, Sept. 5, 2014. (Dkt. # 7434) Mayor Duggan testified that churches and business people have come together to sponsor parks that were not covered by the reinvestments in the plan. As a result, the City plans to reopen all 275 of its parks. Trial Tr. 89, Oct. 6, 2014. (Dkt. # 7917)

e. The Business Services Initiatives

The business services initiatives relate to the City departments that primarily interact with businesses, including the department of planning and development, and the buildings, safety engineering and *241 environmental department (BSEED). These initiatives also cover reinvestment in

the Coleman A. Young Municipal Airport, the parking department, the board of zoning appeals and the department of administrative hearings. These departments address overall planning for the City, licensing and permits for businesses, and monitoring how businesses operate within the City. Trial Tr. 124-25, Sept. 5, 2014. (Dkt. # 7434)

The RRI's for business services contemplate \$51.4 million in investment offset by cost savings of \$24.3 million and revenue initiatives of \$61.9 million. Thus, these initiatives are a net gain for the City. Ex. 464 at 43, tables 4a and 4b.

First, to reduce redundancies, the City planning commission will be combined with the City's department of planning and development. The City plans to spend \$22.5 million on this department, offset by \$1.9 million in cost savings. The most important component of the City planning commission initiatives is \$11 million directed toward the creation of a new master plan for development in the City, which will include provisions for tracking blight removal efforts and facility location planning for the fire and police departments. Trial Tr. 125-26, Sept. 5, 2014. (Dkt. # 7434)

The City also plans to invest \$20 million in the airport so that it can remain in compliance with federal guidelines and maintain its operating certificate. A portion of this amount will go toward developing a long-term plan for the airport and the remaining \$15.7 million will be dedicated to facility updates. *Id.* at 127-28.

For the municipal parking department, in addition to the Desman improvements addressed above, the City plans to spend \$8.2 million to improve the condition of City-owned impound lots, parking meters, and the department's vehicles. *Id.* at 128.

The Court concludes that the overall effect of these RRI's, and others not discussed here but detailed in the disclosure statement, will enable the City to sustainably provide adequate public services.

10. The City's Commitment to Implement the Plan

I can say, unequivocally, that without the positive and capable leadership of Mayor Duggan and the constructive relationship between the City Council and the Mayor, I would be unable to opine that the plan, as currently proposed, is feasible. The near term future will require

course adjustments as undoubtedly revenues and expenses will vary from projections and unforeseen events will demand changes in plan. The democratic system has put in plan individuals who, at least for the next three years, can choose to continue the positive course for the City. I believe they will do so.

Martha Kopacz, Ex. 12000 at 29.

Having concluded that the RRI's are likely to restore services, the Court will now address whether the City is likely to implement the RRI's. Mr. Orr testified that as his tenure as Emergency Manager draws to a close, he is confident the City will be able to implement the RRI's and sustain them over the long term:

First, the mayor and the city council have shown me since the time I've been here in the last nine months that they are working hard. We started out a little rough, and there was some concern, but we've managed to work together and push some of these reforms through. And they're working together ... to move the City forward.

Secondly, there's going to be a level of oversight in place with the Financial Review Commission, which is modeled on other commissions, the MAC, the DC Control Board, others. That commission *242 is designed to be a robust commission to make sure after all this effort and work that the City keeps fidelity with the plan going forward.

Third, my sense is at city hall there's a very high degree of sensitivity and concern that the eyes of the county, if not ... the world, are on them; that they have an obligation to this Court; that they recognize we're in a federal process, and this is going to be ordered. I certainly have emphasized that to them. And ... my impression is they feel very sincerely that they have an obligation to make this work.

Trial Tr. 123–24, Oct. 2, 2014. (Dkt. # 7878)

Mayor Duggan testified credibly that the City is committed to implementing the RRI's, and that he has already developed effective methods of tracking progress on the improvement of city services. Trial Tr. 84–88, Oct. 6, 2014. (Dkt. # 7917) He testified that the City is “probably about ten percent of where we need to be” in terms of providing adequate city services, but that under the plan and the RRI's, “we're building in the right order,” meaning the RRI's are properly prioritized to enable the City to maintain financial stability as it works to improve services. *Id.* at 96–97. He testified, “[I]t's going to be a multi-year process before the people of the city get the kind of services that people in a major city deserve, but it's getting

a little bit closer every month.” *Id.* at 97. For example, he testified that the City has seen 20,000 new LED street lights installed since January. *Id.* at 88.

Mayor Duggan further testified that he believes the City will be able to attract and train a sufficient number of qualified employees to fill the positions needed for implementation of the RRI's. He described a job fair in March of 2014, at which the City recruited bus drivers, bus mechanics, police officers and firefighters. *Id.* at 135. He testified that the City received hundreds of applications for every open position. *Id.* at 135.

He also enthusiastically testified that the City plans to invest \$15 million in training City employees to use “lean processes,” or methods designed to achieve maximum efficiency. Mayor Duggan first began using this type of training while working as the Director of the Detroit Medical Center, and testified that it was “very successful.” *Id.* at 69, 95–96. He testified that he identified eighteen of the “most screwed up processes in the City of Detroit,” and used a combination of outside “lean process” experts and City employees to develop ways to improve them. *Id.* at 95–96. He continued:

I went to the meetings [related to lean process implementation] ... and it's great to hear our employees reporting out on what they've done.... And we're going to continue to do this over and over until we get 400, 500 employees lean certified so that any employee can participate in a process to make their department more efficient.

Id. at 96.

City Council President Brenda Jones reiterated that the City is committed to implementing the plan. Trial Tr. 58, Oct. 6, 2014. (Dkt. # 7917) She characterized the RRI's as “help[ing] the City restructure so that the citizens can receive adequate services,” and testified that the level of service the City is currently providing its citizens is “improving.” *Id.* at 17, 2122. To make sure the RRI's are fully carried out, she testified:

[The City Council] will work as a team with the mayor collaboratively and the

departments collaboratively to make sure that the services are improving and are adequate for the citizens in the City of Detroit. We will do our part with *243 contracts and with the budget to ensure that the dollars that are being reinvested into the City will be spend where they should be spent.

Id. at 26.

Ms. Kopacz testified that the Mayor's decision to hire Mr. Hill as the CFO also supports feasibility, as does his decision to hire Ms. Niblock as the new CIO. Trial Tr. 53–54, Oct. 22, 2012. (Dkt. # 8082) She also testified that the Mayor has hired a “top notch” head of HR, who will start in January, as well as a new deputy mayor for economic policy. *Id.* at 83. The new deputy mayor for economic policy will focus on ensuring the City is achieving the plan's revenue projections. *Id.* Regarding the City's middle management, Ms. Kopacz testified, “I think there is a genuine desire to right the ship, to help the City prosper.” *Id.* at 70.

One of Ms. Kopacz's early concerns about the feasibility of the plan was that the City had not made sufficient efforts to harmonize the Plan Projections with the City's budgets and its finances more generally. Ex. 12000 at 25–29. Mayor Duggan testified that the City began addressing this concern on April 17, 2014, when he became aware that the Court required his input on whether the plan is feasible. Trial Tr. 99, Oct. 6, 2014. (Dkt. # 7917) He testified:

After the Court indicated that it expected me to testify as to whether I thought [the plan] was feasible, the relationship between the emergency manager and me changed dramatically. The inclusion in analysis in the operations changed. But what I did immediately was this went from some theoretical document the emergency manager was preparing to the blueprint that we were going to have to operate on.... And I wanted to validate every number in here and every risk so that I could be comfortable in my own mind either saying to the Court I

believe it was feasible or I did not. And so I put out a directive to each department head to first give me a preliminary analysis of how feasible they thought [the RRI]s were, and then over a six-week period from late May to early July I spent hours with the different departments—most of them came back two and three times until I was satisfied.

Id. at 100–01.

Another one of Ms. Kopacz's early concerns was the City's ability to monitor plan compliance.

The record establishes that the City will have adequate resources to monitor compliance with the plan. In addition to the initiatives in the finance department, Mr. Orr testified that the investments in the human resources department will allow the City to continue to monitor its progress and compliance with the plan throughout all of the City's departments:

So a particular component is that the City be able to [] assess, train, and gauge the efficacy of a particular job or function so that we can measure whether we're meeting the RRI, and [the HR-related RRI]s are designed to put those types of systems in place throughout the City's roughly ... 28 departments.

Trial Tr. 122, Oct. 2, 2014. (Dkt. # 7878)

The City also plans to invest \$15 million to implement a “311 system” to allow residents to report issues to the City and for the City to track resolution of those issues. *See* Trial Tr. 112, Sept. 8, 2014. (Dkt. # 7472)

Most importantly, Mr. Hill testified that the City now has “budget strings” to prevent City employees from spending money without a specific provision covering the expense in the budget. He testified, “[T]he City cannot spent money and pay *244 for things unless they have a budget string.” Trial Tr. 103, Sept. 4, 2014. (Dkt. # 7411)

Finally, in addition to these systems of internal control, the Court finds that the Grand Bargain Legislation enhances the feasibility of the plan. As Ms. Kopacz testified, “The existence of the Financial Review Commission, the oversight commission, I think is a very positive qualitative factor in ensuring that the City conducts itself in a way that—that ensures or helps to ensure that the—commitments of the plan are going to be met.” Trial Tr. 69, Oct. 22, 2014. (Dkt. # 8082)

The Grand Bargain Legislation establishes a nine-member Financial Review Commission, comprised of the state treasurer, the director of the department of technology, management, and budgeting, three members appointed by the governor, the mayor (or a designee of the mayor), two members chosen by the governor from nominations by the Speaker of the House and the Senate Majority Leader, and the president of the city council (or a designee). *See* Mich. Comp. Laws § 141.1635.

The statute provides for wide-ranging oversight of the City's finances and, more specifically, of the City's compliance with the plan. *See* Mich. Comp. Laws §§ 141.1636 and 141.1637. One significant responsibility of the commission is to review the City's 4-year financial plans required by § 117.4t of the Home Rule City Act. The commission may require modifications to the plan where necessary. Mich. Comp. Laws § 141.1636(4). The commission is also empowered to review and approve the City's collective bargaining agreements and to “review, modify, and approve proposed and amended operational budgets.” *Id.* at §§ 141.1636(9) and 141.1637(c).

11. Final Thoughts and Recommendations on Feasibility

For the foregoing reasons, the Court concludes that the plan is feasible, as required by § 943(b)(7). Specifically, the Court finds it is likely that the City will be able to sustainably provide basic municipal services to the citizens of Detroit and to meet the obligations contemplated in the plan without the significant probability of default.

Nevertheless, significant risks remain. Most are beyond the City's control, but the Court recommends certain actions to the City and other stakeholders to improve the feasibility of the plan—from both a qualitative and quantitative perspective.

While remaining cautious due to the limitations on the Court's authority imposed by §§ 903 and 904, and the Tenth Amendment of the United States Constitution, the Court feels a duty to make these recommendations because of the unique position that the Court has held in this case over the past eighteen months.

The Court first appeals to the City's labor unions and retiree associations. In his closing argument, counsel for the City perceptively asserted that the goal of protecting municipal pensions in this City and in this country requires these parties to enhance their vigilance of municipal pension funding. Trial Tr. 32–33, 134, Oct. 27, 2014. (Dkt. # 8156) The Court agrees. The Court would only additionally ask these parties to consider whether this goal of protecting municipal pensions in the City and indeed the broader goal of revitalizing the City suggests that they should take a longer-term and broader view of the best interests of their members and retirees.

The second recommendation is to the State. The Revised Municipal Finance Act unequivocally states that the Michigan *245 department of treasury is “directed to protect the credit of this state and its municipalities.” Mich. Comp. Laws § 141.2201. The argument is powerful that this provision of State law, together with the constitutional protections of pensions, requires the State to take full responsibility to vigorously supervise and regulate its municipalities to assure adequate pension funding. The municipal employees and retirees of this City and State need and deserve the State's robust commitment to that obligation.

The Court has found that the State Contribution of \$194.8 million in exchange for a release of liability on the pensioners' constitutional claims is a reasonable settlement. *See* part III.E.3. History will judge the correctness of this finding. It will judge that this finding was correct only if what happened here in Detroit never happens again. The State can sustain that finding in history only by fulfilling its constitutional, legal, and moral obligations to assure that the municipalities in this state adequately fund their pension obligations. If the State fails, history will judge that this Court's approval of that settlement was a massive mistake.

However, the City's labor and retiree associations and the State can effectively carry out their responsibilities only if the City provides them with adequate accurate financial information. It is unrealistic and wasteful for these entities to replicate all of the City's accounting functions. Rather, the

City must provide the State, labor unions, and the public with the information they need.

Therefore, in addition to the requirements imposed by the Grand Bargain Legislation, the Court recommends that the City adopt the annual reporting requirements that Ms. Kopacz advocates in her expert report, discussed in part X.D.8.

**E. Each of the Claims in Each Class Is
Substantially Similar to the Other Claims
in the Class, As Required by § 1122(a)**

1. The Applicable Law

[28] [29] Section 1122 sets forth the basic rule governing the classification of claims and interests. With the exception of “convenience classes” of unsecured claims, the claims or interests within a given class must be “substantially similar” to the other claims or interests in that class. 11 U.S.C. § 1122(a). To be “substantially similar” for purposes of § 1122, “claims need not be identical ... [a]nd there is certainly no requirement that claims be classified according to their values.” *In re Dow Corning Corp.*, 244 B.R. 634, 655 (Bankr.E.D.Mich.1999) (citations omitted), *aff’d*, 255 B.R. 445 (E.D.Mich.2000), *aff’d in relevant part sub nom. Class Five Nev. Claimants v. Dow Corning Corp.* (In re Dow Corning Corp.), 280 F.3d 648 (6th Cir.2002). Under that section, “claims will be substantially similar if they are similar in legal nature or character.” 244 B.R. at 655.

[30] The bankruptcy code does not require the converse, that all similar claims be placed in one class. (In re Dow Corning Corp., 280 F.3d at 661 (“Section 1122(a) does not demand that all similar claims be in the same class.”).

The Sixth Circuit has stated, “the bankruptcy court has substantial discretion to place similar claims in different classes.... Congress incorporated into section 1122 ... broad discretion to determine proper classification according to the factual circumstances of each individual case.” *Id.* (citations and quotation marks omitted).

[31] “A classification scheme satisfies section 1122(a) of the Bankruptcy Code when a reasonable basis exists for the *246 classification scheme, and the claims or interests within each particular class are substantially similar.” (In

re Eagle-Picher Indus., Inc., 203 B.R. 256, 270 (S.D.Ohio 1996).

[32] A plan proponent must not separately classify substantially similar claims solely to gerrymander favorable votes. As explained by the Sixth Circuit:

[T]here must be some limit on a debtor's power to classify creditors in such a manner.... Unless there is some requirement of keeping similar claims together, nothing would stand in the way of a debtor seeking out a few impaired creditors (or even one such creditor) who will vote for the plan and placing them in their own class.

(Teamsters Nat'l Freight Indus. Negotiating Comm. v. U.S. Truck Co. (In re U.S. Truck Co.), 800 F.2d 581, 586 (6th Cir.1986) (footnote omitted). (See also *Phoenix Mut. Life Ins. Co. v. Greystone III Joint Venture* (In re Greystone III Joint Venture), 995 F.2d 1274, 1279 (5th Cir.1991) (Under § 1122 of the bankruptcy code, “thou shalt not classify similar claims differently in order to gerrymander an affirmative vote on a reorganization plan.”).

Upon a review of the classes in the plan, the Court finds that all of the claims in each class are similar and that therefore the plan complies with § 1122(a).

2. Creditors' Objections to Classification Are Overruled

[33] Certain individual objectors argue that the plan's classification scheme improperly gerrymanders class 10 (PFRS pension claims) by including both impaired and unimpaired claims in the class. They assert that certain retirees holding PFRS pension claims are essentially unimpaired under the plan because: (a) the impairment of class 10 claims arises solely from the elimination of future, not existing, claims to COLA adjustments, and (b) some retirees with claims in class 10 have no imminent likelihood of receiving COLA benefits regardless of whether the plan is confirmed. *See* Obj. of William Ochadleus, et. al. (Dkt. # 5788); Obj. of Jamie S. Fields (Dkt. # 4404).

demonstrates that the City has treated its creditors fairly in seeking confirmation of its plan. It is also strong evidence that the City's detailed financial projections support its reasonable expectation that the plan is feasible in the long term.

The City has proven through witness after witness that upon confirmation, it intends to implement its plan. The City has also proven its commitment and ability to begin the challenging process of revitalization.

The Court is compelled, however, to expand upon its conclusion that the plan is designed to achieve the objectives and purposes of chapter 9.

3. The City's Long-Term Solvency

Over the course of this case, many creditors, including retirees, have challenged the City's good faith in allocating as much as \$1.7 billion toward its RRIs while not satisfying all of its financial obligations to its creditors.

The Court rejects this challenge. The vast majority of the \$1.7 billion for the RRIs comes from improved efficiency of City operations, new revenue initiatives and the exit financing. More importantly, however, the plan is designed so that the City's creditors will share in any potential financial upside realized from the RRIs. This upside is in the form of reduced risk that the City will default on its financial obligations in the future. In turn, this should result in enhanced market values for the notes that the City is distributing in satisfaction of many of the creditors' claims.

Charles Moore, the chief architect of the RRIs, testified that the "ultimate goal" of the RRIs is "really stability within the City, stability of the population base and providing a platform so that both resident population as well as business growth can occur." Trial Tr. 42, Sept. 5, 2014. (Dkt. # 7434)

Particularly significant here is the testimony of Ron Bloom, the head of the financial advisory team for the retiree committee. Regarding the City's good faith, he testified:

What I'm trying to convey is that we saw the City taking a fresh start to how it dealt with long-seated problems, to be honest about them, and some of that came back on us in a bad way

because we had substantial reductions in benefits that we'd been promised, and we didn't like that.... *But I think one of the things the City persuaded us over the course of the case was [that] they were sincere ... we didn't like what they had to say often, but we felt that their commitment to revitalization was sincere. And when we saw evidence of that ... for instance how they were treating the active workers, that was to us a positive sign that our long-term interest was going to be served and the revised promises we got would eventually be honored.*

Trial Tr. 26, Sept. 17, 2014 (emphasis added). (Dkt. # 7638)

Mr. Bloom testified that the retiree committee realized early on that because a one-time "payout" for the retirement plans was simply not feasible, the City would have to pay the retirees' claims over a long period of time. Mr. Bloom added that without some major (and potentially very expensive) improvements in City operations to slow the long-term decline in the City, the committee's constituents would face a huge risk that the City would not be able to honor even its revised, reduced promises in the long term. *Id.* at 20–21.

The Court notes that the same observation holds true for virtually all of the City's creditors.

*250 The Court finds that the City's plan, particularly the RRIs and the settlements, demonstrates a good faith effort to achieve the purposes of chapter 9.

4. Federalism Considerations in the Court's Good Faith Analysis

The Court here addresses some findings that Ms. Kopacz made and clarifies the Court's own role in the City's bankruptcy case. Ms. Kopacz wrote in her first report, "This bankruptcy has been largely focused on deleveraging the City, often to the exclusion of fixing the City's broken operations." Ex. 12000 at 23. She further testified:

The speed of this proceeding has been a two-edged sword. And the good side of that is that ... in a little bit over a year

the City will have gone through a massive restructuring process.

And [the City] will have significantly de-levered its balance sheet. So going from in excess of \$10 [billion] down to ... less than \$4 [billion] is a huge de-levering of the City and that's a really good thing.

But because the focus has been on that de-levering and the speed [of] getting that done, there has not been until recently as much energy put into restructuring the operations of the City.... So fundamentally the City operationally was broken. And that's evident.... I believe you said it's service delivery insolvent, right?

... I believe the Emergency Manager had to pick one of two options. And, the focus was on de-levering, not fixing the operations. So ... the speed cut against what are necessary long term things that will now have to be accomplished outside of the bankruptcy which could be more difficult to accomplish ... than in the bankruptcy under the power of the Emergency Manager.

Trial Tr. 25–26, Oct. 22, 2014. (Dkt. # 8082)

The Court agrees with Ms. Kopacz that the City's focus on debt has created challenges, as has the expedited pace that this Court imposed on this bankruptcy. However, the Court finds this path is entirely consistent with the limitations of federalism that the Tenth Amendment of the United States Constitution imposes and that §§ 903 and 904 manifest.

The Tenth Amendment provides, “The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.” U.S. Const. amend. X.

Consistent with (or perhaps required by) that amendment, § 903 provides that chapter 9 “does not limit or impair the power of a State to control, by legislation or otherwise, a municipality ... in the exercise of the political or governmental powers of such municipality[.]” 11 U.S.C. § 903. Whether for clarity or emphasis, § 904 underscores that restriction on this Court's authority by providing, “Notwithstanding any power of the court, ... the court may not ... interfere with” a chapter 9 debtor's property, revenue, or use thereof, or with any of its “political or governmental powers.” 11 U.S.C. § 904.

Unlike chapter 11, chapter 9 requires that the debtor municipality establish that it is “insolvent” before it can

receive the protection of the bankruptcy court. 11 U.S.C. § 109(c)(3). The court in *In re Mount Carbon* astutely observed the significance of this distinction in identifying the purpose of chapter 9:

Consistent with the concept of limited federal jurisdiction over governmental entities created by state law, the insolvency requirement limits eligibility under Chapter 9. It also suggests that Chapter 9 is a means to remedy insolvency, *251 unlike Chapter 11 which can be used by a solvent entity to restructure its affairs for business purposes.

242 B.R. at 33.

The Court finds that the City's plan, the manner in which the City has prosecuted this bankruptcy case and assembled the plan, and the speed that the Court has imposed on the case have been entirely consistent with the constitutional and statutory limitations on this Court's authority and the policy underlying chapter 9. Properly, the focus has been on de-leveraging the City to the extent negotiated and allowed by law, and restructuring the City's remaining debt so that the City's remaining obligations are more predictable and manageable. The focus has also been on setting the City on a path to recovery. Under the Tenth Amendment, however, it is for the City, not this Court, to supervise the execution of that recovery. Accordingly, the City's plan represents a good faith acknowledgement of the demands of the United States Constitution and of the needs of democracy.

As Ms. Kopacz also testified, “[T]he debt that the City is taking on as part of the restructuring [has] enabled it to resolve its bad borrowing practices and bad financial decisions of the past.... It is a debt level that the City can manage.” Trial Tr. 24, Oct. 22, 2014. (Dkt. # 8082) She also testified, “[T]he good news is that some of the [City's expenses] as a result of the restructuring have been fixed at reasonable levels going forward, i.e., pension [s].” *Id.* at 48

Ms. Kopacz's report and testimony are irrefutable proof that the City's plan was filed to achieve a result consistent with the objectives and purposes of chapter 9—to adjust the City's

debts so that it can reinvest in itself, address its operational problems, recover its ability to provide adequate municipal services, and maintain long-term solvency.

For these reasons, the Court finds that the City proposed its plan in good faith, as required by § 1129(a)(3).

**G. The City Has Complied with the
Applicable Provisions of the Bankruptcy
Code, As Required by § 1129(a)(2)**

[41] Section 1129(a)(2) requires, “The proponent of the plan complies with the applicable provisions of this title.” 11 U.S.C. § 1129(a)(2). “The principal purpose of section 1129(a)(2) of the Bankruptcy Code is to assure that the plan proponents have complied with the disclosure requirements of section 1125 of the Bankruptcy Code in connection with the solicitation of acceptances of the plan.” *In re Trans World Airlines, Inc.*, 185 B.R. 302, 313 (Bankr.E.D.Mo.1995); *see also* *In re PWS Holding Corp.*, 228 F.3d 224, 248 (3d Cir.2000); *In re G-I Holdings Inc.*, 420 B.R. 216, 262 (D.N.J.2009); *In re Texaco Inc.*, 84 B.R. 893, 906–7 (Bankr.S.D.N.Y.1988); *In re Butler*, 42 B.R. 777, 782 (Bankr.E.D.Ark.1984); *In re Toy & Sports Warehouse, Inc.*, 37 B.R. 141, 149 (Bankr.S.D.N.Y.1984).

The City has complied with the requirements of § 1125 in the solicitation of acceptances to the plan. That section requires:

(b) An acceptance or rejection of a plan may not be solicited after the commencement of the case under this title from a holder of a claim or interest with respect to such claim or interest, unless, at the time of or before such solicitation, there is transmitted to such holder the plan or a summary of the plan, and a written disclosure statement approved, after notice and a hearing, by the court as containing adequate information[.]

11 U.S.C. § 1125(b).

On May 5, 2014, the Court entered an order approving the City's fourth amended *252 disclosure statement. (Dkt. # 4401) Nothing in the record suggests, and no party argues, that the City solicited acceptances before that approval. That is all that § 1125(b) and § 1129(a)(2) require. *In re Connector 2000 Ass'n, Inc.*, 447 B.R. 752, 763 (Bankr.D.S.C.2011).

Two issues, however, do require further discussion. The first is whether the ASF interest rate was properly disclosed. The second is whether a new disclosure statement and new balloting was required for any of the amended plans that the City filed after the balloting was underway or completed.

1. The ASF Interest Rate Disclosure Issue

[42] Several objecting parties have argued that the City did not adequately disclose the terms of the ASF recoupment because it failed to disclose that the amortization of the ASF recoupment amount over each creditor's life expectancy would include interest at 6.75%.

Under § 1125(a)(1), the issue is whether the disclosure statement and the accompanying materials were “in sufficient detail” that would enable a creditor in class 11 “to make an informed judgment about the plan.”

The detail that the City did disclose on this point was an individualized calculation of the monthly ASF recoupment amount for each affected creditor in class 11. This amount included the interest but the disclosure did not separately identify the interest rate or the dollar amount of the interest.

Nevertheless, the Court finds that the City's disclosure would enable an employee or retiree in class 11 to make an informed judgment about the plan. The disclosure statement would have been more complete if it had included the dollar amount of the interest and the rate of interest, but that is not the test. Every disclosure statement can always include more information. The only issue is whether the information that was disclosed was sufficient for creditors in class 11 to make an informed judgment about the plan.

In the Court's experience, two facts were most important to these creditors in making an informed judgment about whether to accept the amount of the ASF recoupment that

the plan proposes and therefore whether to accept the plan. The first fact is the actual dollar impact of ASF recoupment that the creditor would repay. The second fact is how long the ASF recoupment payments would last. As noted, the City did disclose to each class 11 creditor the full dollar amount of the ASF recoupment, including interest, and the time period of the recoupment.

Another factor fully persuades the Court that disclosure of the interest rate and amount was not necessary under § 1125(a)(1). A diverse group of attorneys reviewed the City's proposed disclosures on the ASF recoupment before the Court approved them. This group included attorneys for the City, the retiree committee, the two pension plans, and the several retiree associations. Apparently, none of those attorneys considered that disclosing the interest rate or amount was necessary to comply with § 1125. That is important here because those representatives, especially those on the creditor side, were the closest to the creditors in class 11 and therefore were in the best position to judge whether the City's disclosure statement was adequate under § 1125. Significantly, none of those representative groups or their representatives opposed confirmation on this ground.

Accordingly, the Court concludes that the City's disclosures of the ASF recoupment settlement did meet the disclosure requirements of § 1125. The Court overrules ²⁵³ this objection and finds that the City complied with § 1125, as required by ¹ § 1129(a)(2).

2. Successive Plan Modifications Did Not Require Re-Solicitation of Ballots

[43] The City modified the plan several times after the Court approved the disclosure statement and the City served it on creditors, and even after the deadlines to vote had passed. Section 942 permits this, stating, "The debtor may modify the plan at any time before confirmation, but may not modify the plan so that the plan as modified fails to meet the requirements of this chapter. After the debtor files a modification, the plan as modified becomes the plan." 11 U.S.C. § 942.

Bankruptcy rule 3019(a) identifies the circumstances in which a plan modification requires a new solicitation of ballots:

In a chapter 9 or chapter 11 case, after a plan has been accepted and before its confirmation, the proponent may file a modification of the plan. If the court finds after hearing on notice to the trustee, any committee appointed under the Code, and any other entity designated by the court that the proposed modification does not adversely change the treatment of the claim of any creditor or the interest of any equity security holder who has not accepted in writing the modification, it shall be deemed accepted by all creditors and equity security holders who have previously accepted the plan.

Fed. R. Bankr. P. 3019(a).

The Court finds that none of the modifications in any of the successive amended plans adversely changed the treatment of any claims. As noted in part II.A. above, the City modified its plan to incorporate creditor settlements that in each case, maintained or improved the treatment of claims or otherwise clarified various plan provisions. Accordingly, the Court concludes that the City was not required to re-solicit ballots after the initial solicitation.

H. The Plan Does Not Discriminate Unfairly Against Dissenting Classes 14 and 15, As Required by ¹ § 1129(b)(1)

[44] As noted, two classes of claims voted to reject the plan. These are class 14, consisting of the other unsecured claims, and class 15, consisting of the convenience claims under \$25,000. ¹ Section 1129(b) allows the Court to confirm the City's plan despite those dissenting class votes if, with respect to those dissenting classes, "the plan does not discriminate unfairly, and is fair and equitable."

The Court will first address the unfair discrimination test. In doing so, the Court will first identify the discrimination against the classes of other unsecured claims and convenience

- The transaction should not be affected by the reversal or modification of any of this Court's orders, including the order confirming the plan.

For these reasons, the Court approves the proposed exit financing.

XII. CONCLUSION

There has been much discussion throughout this case about how a chapter 9 case is different from the other types of bankruptcy cases. It is, but only around the edges. In fundamental ways, the **Detroit** bankruptcy case is just like every one of the other 30,609 bankruptcy cases that were filed in our court in 2013. In every case, a debtor needs help, made mistakes, took unwarranted risks, accepted bad advice, exercised bad judgment, was too long in denial, or had just plain bad luck.

*277 But no matter, our society holds dear the values of a fresh start and of second chances. That value is manifested with brilliant clarity in our bankruptcy laws. And that value is manifested the same in this \$18 billion case as it was in the no asset chapter 7 cases that were filed just before and just after this case was filed on July 18, 2013.

The current leadership of the City is now getting the City back from the emergency manager and from us in the bankruptcy world. The City will have the fresh start that it needs and deserves under our federal bankruptcy laws. It is now the responsibility of City leadership to implement this plan. The City's true and full fresh start depends on it.

The people of the City of **Detroit** have a passion for this City that is remarkable in its breadth, in its expression, and in its unwavering endurance. They are about to get their City back. It is their City.

A large number of them told the Court that they were angry that their City was taken from them and put into bankruptcy. They said that in their court papers. They said that in their statements in court. They said that in their blogs, letters, and protests. The Court heard them.

The Court urges the people of the City of **Detroit** not to forget that anger. Their enduring and collective memory of what happened here, and their memory of their anger about it, will be exactly what will prevent this from ever happening again. It must never happen again.

When Fredia Butler testified during the confirmation hearing, she quoted the great wisdom of Marian Wright Edelman, who said, "Democracy is not a spectator sport." Trial Tr. 44:3-4, Oct. 15, 2014. (Dkt. # 8033) And so the Court asks the people of the City, for the good of the City's fresh start, to move past their anger, to join in the work that is necessary to fix this City, and to help your City leaders do that. It is your City.

We have used the fitting phrase, the Grand Bargain, to describe the group of agreements that will fix the City's pension problem. In our nation, we join together in the promise and in the ideal of a much grander bargain. It is the bargain by which we interact with each other and with our government, all for the common good. That grander bargain, enshrined in our Constitution, is democracy. It is now time to restore democracy to the people of the City of **Detroit**. The Court urges the people of the City of **Detroit** to participate in that democracy, and hopes that they will soon realize its full, vibrant and everlasting potential.

- 3 To fill out this chronology, it is important to note that on June 3, 2014, the Michigan Legislature enacted, and on June 19 and 20, 2014, the governor signed into law, the package of bills necessary to implement the Grand Bargain and for other purposes related to the City's plan of adjustment. These bills became effective on June 20, 2014. They include:

PA 181 (2014), "Michigan Financial Review Commission Act"

PA 182 (2014), "An Act to amend 1909 PA 279"

PA 183 (2014), "An Act to amend 1909 PA 279"

PA 184 (2014), "An Act to amend 2011 PA 152"

PA 185 (2014), "An Act to amend 1965 PA 314"

PA 186 (2014), "An Act to amend 2000 PA 489"

PA 187 (2014), "Michigan Settlement Administration Authority Act"

PA 188 (2014), "An Act to amend 1984 PA 431"

PA 189 (2014), "An Act to amend 1969 PA 312"

PA 190 (2014), "An Act to amend 1978 PA 566"

A summary of this package of bills prepared by the Michigan House Fiscal Agency is available at: www.legislature.mi.gov/documents/2013-2014/billanalysis/House/pdf/2013-HLA-5566-7780ED85.pdf.

- 6 The City's plan to address its blight and to modernize its police, fire and EMS services is addressed in the Court's discussion of the feasibility of the plan of adjustment in part X.D.9. below.
- 7 Another release in the plan is also the subject of objections. Specifically, the  § 1983 creditors object to the provision in the plan that would release officers of the City from claims against them in their individual capacity under  42 U.S.C. § 1983. Relying on the discussion of *Dow Corning* here, the Court sustains that objection in part X.J.2.c. below.
- 8 In  *In re Valley Health System*, 429 B.R. 692, 714 n. 57 (Bankr.C.D.Cal.2010), the court suggested in dicta,  Section 105(a) is not applicable to chapter 9 cases." This is mistaken. Section 103(f) states, "Except as provided in section 901 of this title, only chapters 1 and 9 of this title apply in a case under such chapter 9." Because  § 105 is in chapter 1, it does apply in a chapter 9 case. As a result, the statutory premise on which *Dow Corning* authorized third party releases in chapter 11 case also applies in chapter 9.
- 9 As discussed in part III.E., under the DIA settlement, the DIA and certain donors and foundations will pay \$466 million to the GRS and the PFRS over 20 years. The State Contribution of \$194.8 million is payable immediately, but is considered to be the net present value of \$350 million paid over 20 years at a 6.75% discount rate. The amount payable over 20 years, therefore, would be \$816 million: \$466 million from the DIA settlement and \$350 million from the State Contribution. Although confusing, this is the amount that the parties commonly identify as the funding that the Grand Bargain makes available to the pension plans.
- 10 This settlement was actually the third settlement that these parties had reached. The first was for approximately \$230 million, which the parties had reached before the City filed this case. The City deemed that this settlement was an executory contract, so it filed a motion and a corrected motion to assume this contract under § 365. (Dkt. 17 and 157) When the parties determined that the Court was not likely to approve that settlement, they engaged in mediation and negotiated a second settlement for \$165 million. (Dkt. # 2341) On January 17, 2014, the Court denied approval of that settlement, concluding that it was too high under the *Bard* standards. (Dkt. # 2511) The parties then negotiated the settlement for \$85 million, which the Court did approve.
- 11 See *In re City of Stockton, Cal.*, 486 B.R. 194, 199 (Bankr.E.D.Cal.2013) ("Hence, § 904 means that the City can expend its property and revenues during the chapter 9 case as it wishes.... When a chapter 9 debtor files a Rule 9019 motion to have the court approve a compromise or settlement, the municipality 'consents' for purposes of § 904 to judicial interference with the property or revenues of the debtor needed to accomplish the proposed transaction.").

In *Stockton*, the court suggested that an unapproved settlement in a chapter 9 case might still be the basis for a confirmation objection under  § 1129(b)(1) that the plan unfairly discriminates or is not fair and equitable, or an objection under  § 1129(a)(2) that the plan is not proposed in good faith or by a means

forbidden by law. *Id.* at 199–200 No such objections are raised in this case as to the Great Lakes Water Authority.

Moreover, although in a chapter 11 case, § 363(b) requires court approval of a non-ordinary course transfer like this, § 901 does not make that section applicable in a chapter 9 case. *See In re Richmond Unified Sch. Dist.*, 133 B.R. 221, 225 (Bankr.N.D.Cal.1991) (“[T]he debtor is free to use, sell or lease property without regard to the restrictions in section 363.”).

- 12 The reference in § 943(b)(1) to § 103(e) appears to be a mistake. Section 103(e) states:

Scope of Application—Subchapter V of chapter 7 of this title shall apply only in a case under such chapter concerning the liquidation of an uninsured State member bank, or a corporation organized under section 25A of the Federal Reserve Act, which operates, or operates as, a multilateral clearing organization pursuant to section 409 of the Federal Deposit Insurance Corporation Improvement Act of 1991.

11 U.S.C. § 103(e). The reference probably should be to § 103(f), which provides, “Except as provided in section 901 of this title, only chapters 1 and 9 of this title apply in a case under such chapter 9.”

- 13 Section 901 also identifies other sections of chapter 11 that apply in chapter 9 cases. These include §§ 1122, § 1123(a)(1), § 1123(a)(2), § 1123(a)(3), § 1123(a)(4), § 1123(a)(5), § 1123(b), § 1123(d), 1124, 1125, 1126(a), 1126(b), 1126(c), 1126(e), 1126(f), 1126(g), 1127(d), and 1128. These sections will be reviewed as necessary to address the parties’ objections to confirmation.

- 14 Subsequently, as part of the DWSD settlement, the parties agreed that the fees and expenses of the U.S. Bank National Association in its capacity as trustee would be subject to a separate arbitration process to determine their reasonableness. (Dkt. # 7028)

- 15 It is worth observing that almost all of the secondary sources seem to agree with the majority of the courts that review all of the fees. This observation, however, must be tempered by the further observation that, like the cases, the secondary authorities have also not rigorously analyzed the question. *See, e.g.*, 5 Norton Bankr.L. & Prac.3d § 90:20 (2014) (“Third, the municipality must disclose all amounts paid for services in the case incident to the plan, and the amounts must be reasonable. This includes attorney’s fees.”) (footnotes omitted); Francis J. Lawall & J. Gregg Miller, *Debt Adjustments for Municipalities under Chapter 9 of the Bankruptcy Code: A Collier Monograph*, § 8[ix] (2012) (“Section 943(b)(3) requires that the plan fully disclose all amounts paid for services or expenses in the chapter 9 case or incident to the plan. Section 943(b)(3) further requires that all such services or expenses be reasonable.”) (footnotes omitted); 1981 Norton Ann. Survey of Bankr.Law 5 (“[T]he municipality must disclose all amounts paid for services in the case as incident to the plan and such amounts must be reasonable.”); Elizabeth M. Watkins, *In Defense of the Chapter 9 Option: Exploring the Promise of a Municipal Bankruptcy as a Mechanism for Structural Political Reform*, 39 J. Legis. 89, 95 (2012–2013) (“A municipality must pay legal and financial professionals to administer the case and to subsequently monitor compliance with the reporting requirements of the readjustment plan. These costs can easily range in the seven figures. Of course, this carries the risk that the bankruptcy court might reject the readjustment plan entirely”) (footnotes omitted); Eric S. Pommer & Mark M. Friedman, *Municipal Bankruptcy and Its Effects on Governmental Contractors*, 25 Pub. Cont. L.J. 249, 259 (1996) (“all amounts paid by the debtor-municipality or by any person for services or expenses in the case or incident to the plan have been fully disclosed and are reasonable”); and David S. Kupetz, *Municipal Debt Adjustment Under the Bankruptcy Code*, 27 Urb. Law. 531, 568 (1995) (“The only court approval required is the retroactive approval necessary in order to satisfy the condition for confirmation of a plan of adjustment set forth in § 943(b)(3).”).

One secondary source specifically acknowledges the issue but concludes without discussion that § 943(b)(3) applies only to fees to be paid. *See Stanley H. McGuffin*, *Chapter 9 As a Remedy for Financially Stressed*

Municipalities, 2011 WL 5053634, at *9 ("It should be noted that the statute appears to have prospective application by virtue of the phrase 'to be paid.' Consequently, it is unclear whether the debtor must disclose fees previously paid or if the court must make a reasonableness determination as to such fees.").

Collier on Bankruptcy adopts both positions. Compare 6 Collier on Bankruptcy ¶ 943.03[3] at 943–19 ("Section 943(b)(3) requires that the plan must disclose all amounts paid for services or expenses in the case or incident to the plan, and that the amounts paid be reasonable.") with 6 Collier on Bankruptcy, ¶ 901.04[13][c] at 901–26.2 ("Indeed, section 943(b)(3) requires that professional fees to be paid under a plan must be disclosed and must be reasonable.").

- 16 The Court notes that in another significant respect, the plain language of the statute leads to a bizarre and demonstrably unintended result. To repeat, the language of § 943(b)(3) is "all amounts to be paid by the debtor or by any person for services or expenses in the case or incident to the plan have been fully disclosed and are reasonable." Applying this language literally would require a determination of the reasonableness of any fees paid by "any person for services in the case." This would include determining the reasonableness of the fees of all of the professionals in the case, including the professionals retained by all of the creditors.

In re Colorado Centre Metro. Dist., 139 B.R. 534 (Bankr.D.Colo.1992), pointed out exactly how bizarre this can become. It observed, "[I]f the Court determines that the fees paid by a creditor to its attorney are unreasonable, the debtor's plan cannot be confirmed. Such an interpretation would enable an antagonistic creditor to purposefully overpay his attorney in order to defeat the debtors plan—a truly absurd result." *Id.* at 535.

The legislative history readily solves this problem by explaining what the phrase "by any person" was intended to accomplish. It states:

The inclusion of the phrase "by any person" is intended solely to prevent the petitioner from circumventing the requirement of this paragraph by making payments indirectly through some third person for the benefit of the petitioner. It is not intended that the court examine all payments made to all attorneys and agents that are in any way connected with the case.

H.R. REP. No. 94–686, 33–34(1975), reprinted in 1976 U.S.C.C.A.N. 539, 571–72.

The point is that this legislative history explicitly admits that Congress did not intend for the language of § 943(b)(3) to be applied literally, at least in this respect. It also casts doubt on how carefully § 943(b)(3) was drafted.

- 17 The City did not offer expert testimony on whether an increase in tax rates might yield greater revenue for property taxes, arguing that expert testimony is generally not required on the subject of "tax saturation." Trial Tr. 49–53, Oct. 27, 2014. (Dkt. # 8156) The Court finds that the City's proof is sufficient on this issue even though the City did not proffer expert testimony. This finding does not suggest, however, that an expert is never required on this issue. It may be that in some cases, expert testimony is necessary to meet the requirements of *Everglades Drainage District*, 319 U.S. at 419–420, 63 S.Ct. 1141 discussed above.
- 18 Mr. Malhotra explained that "legacy costs" include debt service on the LTGO and UTGO bonds, principal and interest payments on the COPs, payments owed to the COP Swap Counterparties, pension contributions, and retiree health benefits. See Ex. 33, City of Detroit Proposal for Creditors dated June 14, 2013 at 90–91; see also Trial Tr. 70, Sept. 29, 2014. (Dkt. # 7819) (further describing legacy costs as, "the costs that were not associated with providing service or operations today, so ... exclude[ing] the majority of the share of the costs related to the active employees and supplies as well as ... the costs associated with debt that the city had taken on in prior periods.").

19 The Court uses the phrase “under the plan” here to refer to the City’s financial projections that take into account all of the benefits of the plan, including the RRI’s.

20 Here, the Court is not referring to the cash balance required by the Grand Bargain Legislation. See Mich. Comp. Laws § 117.4(1)(c)(vi) (“A financial plan ... shall ... (c) Include a general fund reserve for each fiscal year to cover potential reductions in projected revenues or increases in projected expenditures equal to not less than 5% of the projected expenditures for the fiscal year.”). The Court is referring to the contingency that is built into the City’s annual budget as an operating expense. See Ex. 793 at 7; Trial Tr. 160, Sept. 29, 2014. (Dkt. # 7819)

21 As explained in part III.L.3. above, the primary use of the parking revenues will be to satisfy the New C Notes that the City will issue under the plan. However, for the sake of clarity, the Court discusses them here as simply a source of City revenue.

22 Page 8 of City Exhibit 793 shows the cash balance on a year-by-year basis. The City’s actual cash balance at the end of FY2014 was \$154.4 million, due to a surplus of \$118.4 million for FY2014. *Id.* at 8.

Because of a projected deficit in FY2015 of \$78.8 million related to the implementation of certain RRI’s, the City’s projected cash balance drops to \$75.6 million at the end of FY2015. *Id.* at 8. The City then projects that it will be able to maintain that cash balance of \$75.6 million through FY2019 by deferring implementation of other Reinvestment and Restructuring Initiatives and selling certain assets, such as older city-owned vehicles and copper wire from the decommissioning of the Public Lighting Authority. *Id.* at 10–12. At that point, the City projects that its cash balance will begin to slightly improve each year, such that by the end of FY2023, the City will have this \$81.2 million cash balance. *Id.* at 8.

23 As discussed in part III.F. above, the City’s obligations to the GRS and the PFRS are fixed under the plan from FY2014–FY2023. During this time, as the City works to stabilize its finances and implement the RRI’s, the majority of the City’s contributions to the GRS and the PFRS will come from the DWSD, the State Contribution Agreement, and the Grand Bargain funding. See Ex. 793 at 3. However, after 2023, the City projects the retirement systems will remain somewhat underfunded. See Ex. 12000 at 133. The balance of the underfunding in 2023 will be amortized over a thirty year period of time. *Id.*

24 As a matter of dicta, the Court finds merit in the City’s argument that the discount rate for valuing a long-term liability should reflect the nature of that liability rather than the market rate of return on assets. It does appear to the Court that the conventional linking of the assumed rate of return and the discount rate for municipal pensions in this country is a substantial contributing factor in their UAAL and that it is time to reconsider that convention.

The Court finds less merit in excluding the third party contributions from the calculation of the pension plans’ recovery percentage in this case. It is at least arguable that those contributions were on account of City assets, specifically, the DIA assets and the claim by the City’s pension plans against the State for relief from their unfunded liability based on article IX, § 24 of the Michigan constitution and the State’s failure to act to prevent the underfunding. If the connection between those assets and the third party contributions is found to exist, then the cases that the City cites in support of excluding the third party contributions are distinguishable and in fairness, those contributions arguably should be included in the recovery calculations.

Moreover, *City of Avon Park* seems to require that result. There, the City’s fiscal agent, Crummer, could have potentially recovered on three financial stakes in the City’s plan. The district court found one reasonable but did not evaluate the other two. 311 U.S. at 143, 61 S.Ct. 157. The Supreme Court stated, “Clearly, however, no finding could be made ... that the compensation to be received by the fiscal agent was

reasonable without passing on the worth of the aggregate of all the emoluments accruing to the Crummer interests as a result of consummation of the plan[.]” *Id.* at 144, 61 S.Ct. 157 (citation omitted).

As a final matter of dicta, the Court finds that whether to consider the 10% recovery on pension creditors' OPEB claims when deciding whether the treatment of their pension claims discriminates against unsecured creditors is a closer question. Normally, it would not seem appropriate to consider the recovery that creditors will realize on their claims in one class when determining whether the treatment of their claims in another class unfairly discriminates. The equities arguably tip, however, when the creditors are employees and retirees, and are or were mission-critical, contributing their time, labor and skill to advance the interests of not only the City, but also its other creditors, as discussed in part X.H.3.A. below.

- 25 See **Detroit City Code** § 47–2–18(c) (providing that the Pension Accumulation Fund of the GRS, from which pensions are paid, shall consist of the “accumulated reserves for the pensions and other benefits payable from the contributions made by the City ...”); **Detroit City Code** § 47–2–19 (specifying how the City's annual contribution to GRS shall be calculated and providing for no funding source other than the City); 1964 **Detroit City Code** § 54–2–1 (Ord. No. 77–H) (“ ‘Pension’ means the portion of a retirement allowance which is paid for by appropriations made by the city.”) (Chapter 54 of the 1964 **Detroit City Code** (as amended and supplemented from time to time by City Ordinance) was saved from repeal by Section 11–102 of the 1974, 1997 and 2012 **Detroit City Charters** and is incorporated by reference in Chapter 47 of the 1984 **Detroit City Code**.); 1964 **Detroit City Code** §§ 54–43–4 (Ord. No. 76–H), 54–43–5 (Ord. No. 04–05) (providing that the City shall fund the Pension Accumulation Fund of the PFRS), §§ 54–2–3 (Ord. No. 77–H), 54–2–4 (Ord. No. 77–H), 54–2–6 (Ord. No. 77–H), 54–2–7 (Ord. No. 77–H), 54–43–3 (Ord. No. 39–05) (specifying how the City's annual contribution to the PFRS shall be calculated and providing for no funding source other than the City).

Appendix I	Plan of Adjustment
Appendix II	Confirmation Notice

holders of Claims against the City be afforded an opportunity to change previously cast acceptances or rejections of the Fourth Amended Plan as filed with the Court. The filing of the Plan, and the disclosure of certain modifications and amendments to the Fourth Amended Plan contained therein on the record at the Confirmation Hearing, constitute due and sufficient notice thereof under the circumstances of the Chapter 9 Case. Accordingly, the Plan is properly before the Court, and, except as set forth in the Plan or later orders of the Court, all votes cast with respect to the Fourth Amended Plan prior to the filing of the Plan shall be binding and shall apply with respect to the Plan.

**STANDARDS FOR CONFIRMATION
UNDER SECTION 943 OF THE BANKRUPTCY CODE**

F. The evidentiary record of the Confirmation Hearing and the Confirmation Standards Exhibit support the findings of fact and conclusions of law set forth in the following paragraphs.

G. The Court's supplemental opinion regarding confirmation of the Plan (the "Confirmation Opinion"), to be issued, is incorporated fully herein.

no distributions under the Plan.²³ Therefore, Class 16 is conclusively presumed to reject the Plan in accordance with section 1126(g) of the Bankruptcy Code, and no votes were solicited from holders of Class 16 Claims.²⁴

- r) The Plan was voted on by each Class of impaired Claims that was entitled to vote pursuant to the Bankruptcy Code, the Bankruptcy Rules and the Solicitation Orders.
- s) Each of Classes 5, 7, 8, 9, 10, 11, 12, 13 and 17 have accepted the Plan by at least two-thirds in amount and a majority in number of the Claims in such Classes actually voting.²⁵
- t) The voting declarations admitted into evidence as City Exhibits 764 and 765, and the Second Supplemental Voting Declaration, set forth the tabulation of votes, as required by the Bankruptcy Code, the Bankruptcy Rules and the Disclosure Statement Order.²⁶

16. *Section 1129(a)(3)*. The Plan has been proposed (a) in good faith; (b) with honesty, sincerity and good intentions; (c) with a basis for expecting that an adjustment of the City's debts and an operational restructuring of the City can be effected in accordance with the purpose of chapter 9, and that the Plan is feasible; and (d) not by any means forbidden by law. The Plan and the treatment of Claims thereunder are, and the process pursuant to which the City has sought Confirmation thereof has been, fundamentally fair to the City's creditors.

²³ See Plan, at § II.B.3.w.i.

²⁴ See *id.*.

²⁵ See Second Supplemental Voting Declaration, at ¶¶ 8-9.

²⁶ See *id.* at Exhibits A-C.

The purpose of the Plan is to adjust the City's debts to enable the City to reverse its decades-long financial decline, eliminate its service delivery insolvency, restore adequate municipal services to its residents and meet its future financial obligations, consistent with the overarching remedial purpose of chapter 9 and the objectives and purposes of the Bankruptcy Code. The City's good faith in proposing the Plan and its prior versions, and fundamental fairness in dealing with its creditors, is further evidenced by the fact that the Plan (a) incorporates multiple key settlements that are the result of extensive arm's length negotiations (often conducted within the context of Court-ordered mediation) between the City and representatives of a large proportion of its creditors, (b) has been proposed with the support of the City's largest creditor constituencies and (c) is feasible (see ¶¶ N.10-18 below). In so finding, the Court has considered the totality of the circumstances in this Chapter 9 Case.

17. *Section 1129(a)(6)*. Section III.A.7 of the Plan provides that the obtaining of any authorizations, consents and regulatory approvals necessary under applicable nonbankruptcy law is a specific condition to the effectiveness of the Plan, consistent with the language of section 1129(a)(6) of the Bankruptcy Code.²⁷ The Board of Water Commissioners will continue to have all authority to set and approve the water and sewerage rates charged by the DWSD,

²⁷ See Plan, at § III.A.7.

25. Moreover, the Plan's treatment of Pension Claims is the result of a collection of interconnected settlements. The factors that inform the reasonableness of each individual settlement are the same factors that inform the Court's judgment regarding the fairness of discrimination under the Plan. Because each such settlement is fair and reasonable, the discrimination in claim treatment resulting from such settlements also is fair.

26. The treatment of Limited Tax General Obligation Bond Claims, Unlimited Tax General Obligation Bond Claims and Indirect 36th District Court Claims also is fair because, in each instance, such treatment is the result of arm's-length, intensely negotiated and reasonable settlements between the City and the respective creditors and their representatives and is based on the asserted differing legal rights of, and litigation brought by, such parties. Specifically, a reasonable basis exists for the differential treatment of Limited Tax General Obligation Bond Claims and Unlimited Tax General Obligation Bond Claims, because the treatment of such Claims reflects (a) the results of protracted and comprehensively negotiated settlements between the City and the holders of such Claims and (b) the claimants' arguments to relative priority and security under State law. In addition, the Plan's treatment of Indirect 36th District Court Claims is related to the City's mission, and therefore is fair, because of the City's continuing legal and funding relationship with the 36th District Court.

would lack the resources and ability to satisfy such judgment levies. In such a scenario, the City's pension obligations alone likely would quickly eradicate any meaningful recoveries for other unsecured creditors outside of chapter 9.

9. Dismissal of the Chapter 9 Case would deprive the City of the benefit of the Reinvestment Initiatives. Without such reinvestment, the City's ability to provide basic services would continue to decline below even today's inadequate levels. Without the ability to provide adequate levels of basic services, the City would be unable to reverse the exodus of residents and businesses from the City that has depleted the City's tax base, reduced land values and led to widespread abandonment and blight. In addition, the Plan offers financial benefits that would be unavailable to the City in the event of dismissal, including the \$816 million that will be contributed to the Retirement Systems in connection with the Grand Bargain, the Exit Facility and the cost savings to be realized by the Reinvestment Initiatives and the Settlements under the Plan.

10. *Feasibility.* The Plan is feasible, within the meaning of section 943(b)(7) of the Bankruptcy Code. On and after the Effective Date, it is more likely than not that the City will be able to (a) make all payments contemplated by the Plan without a significant probability of default and

(b) sustainably provide adequate municipal services to its residents.⁴¹ The City has demonstrated a reasonable prospect that the City will successfully implement the Plan and the Reinvestment Initiatives.⁴²

11. The City's revenue and expense projections contained in (a) the ten-year summary of the Reinvestment Initiatives (the "10-Year Reinvestment Initiative Summary") introduced into evidence as City Exhibit 108 (July 2014); (b) the ten-year statement of projected cash flows (the "10-Year Forecast") introduced into evidence as City Exhibits 109 (July 2014), 733 (September 2014), 780 (October 2014), 781 (October 2014) and 782 (October 2014); (c) the forty-year statement of projected cash flows (the "40-Year Forecast") introduced into evidence as City Exhibits 111 (July 2014), 734 (September 2014), 779 (October 2014) and 793 (October 2014); and (d) the ten-year statement of projected cash flows of the City's water and sewage disposal funds introduced into evidence as part of City Exhibit 3 (collectively with the 10-Year Reinvestment Initiative Summary, the 10-Year Forecast and the 40-Year Forecast, the "Projections"), are reasonable, made in good faith, accurate,

⁴¹ See Court's Exhibit 12000 (Expert Report of Martha E.M. Kopacz), at 202-03; Court's Exhibit 12002 (Second Supplemental Expert Report of Martha E.M. Kopacz), at 5-6.

⁴² See Court's Exhibit 12000 (Expert Report of Martha E.M. Kopacz), at 29, 164-65, 202-03; Court's Exhibit 12002 (Second Supplemental Expert Report of Martha E.M. Kopacz), at 5-6.

consistent with other financial projections made by the City and based upon assumptions that are reasonable when considered individually or collectively.⁴³

12. The City will have employees that have the necessary skill and commitment to implement, and perform according to the terms of, the Plan. The City will also have adequate systems, controls and procedures (as modified, modernized and developed by the Reinvestment Initiatives) to (a) monitor the City's financial and operational performance and (b) minimize and eliminate fraud, abuse and waste (both in the City's day-to-day operations and in the implementation of the Reinvestment Initiatives).⁴⁴

13. The City is beginning to implement appropriate controls to reasonably ensure the City's ongoing compliance with the terms of the Plan.⁴⁵ These controls include, but are not limited to: (a) the Michigan Financial Review Commission (the "Financial Review Commission") established pursuant to Public Act 181 of 2014, M.C.L. §§ 141.1631, *et seq.* ("PA 181" or the "Financial Review Commission Act"); (b) the requirements imposed by Public Act 182 of 2014,

⁴³ See Court's Exhibit 12000 (Expert Report of Martha E.M. Kopacz), at 10, 200-01; Court's Exhibit 12001 (Supplemental Expert Report of Martha E.M. Kopacz), at 3-4; Court's Exhibit 12002 (Second Supplemental Expert Report of Martha E.M. Kopacz), at 5-6.

⁴⁴ See Court's Exhibit 12002 (Second Supplemental Expert Report of Martha E.M. Kopacz), at 29-30.

⁴⁵ See Court's Exhibit 12000 (Expert Report of Martha E.M. Kopacz), at 175, 202.

M.C.L. § 117.4s-t ("PA 182" and, together with PA 181, the "Grand Bargain Legislation"), that the City (i) adopt a sound, multi-year financial plan, (ii) appoint a Chief Financial Officer and (iii) post its financial forecasts and contracts to the City's official website; and (c) the adoption of governance and financial oversight mechanisms for the Retirement Systems in connection with the State Contribution Agreement. The Financial Review Commission will have broad authority, under the Grand Bargain Legislation, to obtain and review the City's financial records on an ongoing basis, and to conduct financial audits of the City.⁴⁶

14. The Reinvestment Initiatives provide for the reinvestment of approximately \$1.7 billion in the City between the Effective Date and June 30, 2023. The Reinvestment Initiatives will allow the City to achieve approximately \$483 million in additional revenue and \$358 million in cost savings during that same period, resulting in net reinvestment in the City of approximately \$877 million. The Reinvestment Initiatives are reasonably designed to, and more likely than not will, ensure that the City will be able to (a) remedy its service delivery insolvency and provide adequate municipal services to its residents, (b) meet its financial obligations on a prospective basis, (c) promote the stability of

⁴⁶ See M.C.L. § 141.1636.

adequate and significantly improved municipal and public safety services to City residents and businesses.⁴⁹ The Mayor's office and the City Council have been consulted in connection with the City's restructuring and are committed to working in concert to implement the Plan and the Reinvestment Initiatives.⁵⁰

17. It is more likely than not that the Plan is sustainable over the long term.⁵¹ Based on the Projections, the City will have sufficient liquidity to sustain normal municipal operations, issue and perform under the New Securities, satisfy the Settlements and otherwise meet its financial obligations after the Effective Date. The amount and terms of the Exit Facility are reasonable. The City will have sufficient resources to service the Exit Facility. The Plan and the Exit Facility will enable the City to resolve onerous debts related to the City's excessive prepetition borrowing. The City's commitment, under the Plan, to use its best efforts to prepay the New LTGO Bonds on the Effective Date, or as soon as reasonably practicable thereafter, is both reasonable and feasible. Credit markets

⁴⁹ See Court's Exhibit 12000 (Expert Report of Martha E.M. Kopacz), at 201-02.

⁵⁰ See Joint Notice of Transition Plan (Docket No. 7681), Exhibit A (Detroit City Council Resolution adopted Sept. 25, 2014), at 2-3 ("The City Council supports the confirmation and implementation of a Plan of Adjustment.... After, and assuming, confirmation of the Plan of Adjustment, the City Council will support the City's implementation of the confirmed Plan of Adjustment.").

⁵¹ See Court's Exhibit 12001 (Supplemental Expert Report of Martha E.M. Kopacz), at 3-4.

(a) any of the COP Swap Exculpated Parties to the Syncora Exculpated Parties or FGIC or (b) the Syncora Exculpated Parties or the FGIC/COP Exculpated Parties to any of the COP Swap Exculpated Parties. For the avoidance of doubt, notwithstanding anything in the Plan or this paragraph to the contrary, officers or employees of the City acting in their individual capacity shall not be exculpated from liability for claims asserted pursuant to 42 U.S.C. § 1983.

E. Order Binding on All Parties

28. Subject to the provisions of Section III.A of the Plan, in accordance with section 944(a) of the Bankruptcy Code and notwithstanding any otherwise applicable law, upon the occurrence of the Effective Date, the terms of the Plan and this Order shall be binding upon, and inure to the benefit of: (a) the City; (b) any and all holders of Claims (irrespective of whether (i) any such Claim is impaired under the Plan, (ii) proof of any such Claim has been filed or deemed filed under section 501 of the Bankruptcy Code, (iii) any such Claim is allowed under section 502 of the Bankruptcy Code or (iv) whether the holders of such Claims accepted, rejected or are deemed to have accepted or rejected the Plan); (c) the registered and beneficial holders of COPs; (d) any other person giving, acquiring or receiving property under the Plan; (e) any and all non-Debtor parties to Executory Contracts or Unexpired Leases with the City; (f) any party to any Settlement; and (g) the respective heirs, executors, administrators, trustees,

affiliates, officers, directors, agents, representatives, attorneys, beneficiaries, guardians, successors or assigns, if any, of any of the foregoing. All settlements (including, without limitation, the Settlements), compromises, releases (including, without limitation, the Plan Releases), waivers, discharges, exculpations and injunctions set forth in the Plan shall be, and hereby are, operative, effective and binding on all Persons who may have had standing to assert any settled, released, discharged, exculpated or enjoined causes of action, and no other Person or entity shall possess such standing to assert such causes of action after the Effective Date. The compromises and settlements (including, without limitation, the Settlements) embodied in the Plan, along with the treatment of any associated Allowed Claims, shall not be subject to any collateral attack or other challenge by any Entity in any court or other forum.

F. Discharge of Claims

29. The Plan discharge provisions set forth in Section III.D.4 of the Plan are approved in all respects, are incorporated herein in their entirety, are so ordered and shall be immediately effective on the Effective Date of the Plan without further order or action on the part of the Court or any other party.

30. In accordance with Section III.D.4 of the Plan, except as specifically provided otherwise in the Plan or this Order, as of the Effective Date, pursuant to sections 524(a)(1), 524(a)(2) and 944(b) of the Bankruptcy Code, all

Plan of Adjustment - 40 year projections

Assumptions

(\$ in millions)

Plan of Adjustment - 40 year projections

General Fund Cash Flows	GF 40yr cash flows	\$4.3b funds available for unsecured claims
	Minimum cash requirement	Based on 2 months of payroll through FY23 and the 5% cash reserve thereafter
	DIP financing	Quality of Life (\$120m @ 3.5% assumed to be refinanced as part of exit facility)
	Exit financing	\$160.0m tax-exempt note @ 5.75% maturing in FY30
Revenue stream from DWSD		\$115.0m taxable note @ 5.75% maturing in FY23
	Swap treatment	Allocation and amortization are subject to tax counsel review
	Contingency	\$85m settlement
		Reflects 1.0% of total revenues
Reimbursement from other funds	Pension	\$429m for pension in the first 10 years
	OPEB	12.1% of OPEB - current retirees payments
	POC	11.5% of total POC payments
	Reimbursements from Parking (non-GF) and Library	
DIA settlement	Foundations	\$366m over 20 years
	DIA	\$100m over 20 years
State settlement	Contributions to pension	\$195m in FY15
Unsecured Claims treatment	Note A2 and Note B reserves	\$55m settlement note and \$17.3m Note B reserves
	Note A1	\$288m note funded with pass-through UTGO millage
	Notes C and B	\$21m of Note C and \$23.5m of Note B
	Notes C and B	\$67m of Note C and \$74.2m of Note B
	State and DIA Settlements	
	Contributions (years 1-10)	Estimated to be \$261m from foundations / State settlement
	Contributions (years 11-40)	UAAI as of June 30, 2023 estimated to be ~\$681m amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	78%
	State and DIA Settlements	
GRS Pension (Class 11)	Contributions (years 1-10)	Estimated to be \$99m from State settlement; \$429m from DWSD; \$45m from DIA; \$146m from GF & other funds
	Contributions (years 11-40)	UAAI as of June 30, 2023 estimated to be ~\$695m amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	70%
OPEB (Class 12)	Note B, Note B reserves, and cash	\$450m of Note B, \$42.7m Note B reserves, and \$20m cash
DDA (Class 13)	Note B	\$4m of Note B
Other unsecured (Class 14)	Note B and Note B reserves	\$16m of Note B and \$4.1m Note B reserves
36DC (Class 17)	Cash payment	\$22m cash (~\$500k upfront payment, and 4 equal annual payments thereafter of ~\$400k)

City of Detroit
Plan of Adjustment - 40 year projections

(trial ex. 111)

The attached Plan of Adjustment preliminary forecast (the "POA Financial Projections"), its assumptions and underlying data are the product of the Client and its management ("Management") and consist of information obtained solely from the Client. With respect to prospective financial information relative to the Client, Ernst & Young LLP ("EY") did not examine, compile or apply agreed upon procedures to such information in accordance with attestation standards established by the AICPA and EY expresses no assurance of any kind on the information presented. It is the Client's responsibility to make its own decision based on the information available to it. Management has the knowledge, experience and ability to form its own conclusions related to the Client's POA Financial Projections. There will usually be differences between forecasted and actual results because events and circumstances frequently do not occur as expected and those differences may be material. EY takes no responsibility for the achievement of forecasted results. Accordingly, reliance on this report is prohibited by any third party as the projected financial information contained herein is subject to material change and may not reflect actual results.

Plan of Adjustment - 40 year projections

Assumptions

(\$ in millions)

Plan of Adjustment - 40 year projections

General Fund Cash Flows	GF 40yr cash flows	\$4.3b funds available for unsecured claims
	DIP financing	Quality of Life (\$120m @ 3.5% assumed to be refinanced as part of exit facility)
	Exit financing	\$300m note @ 6.0% maturing in FY26
	Swap treatment	\$85m settlement
	Contingency	Reflects 1.0% of total revenues
Revenue stream from DWSD	Pension	\$429m for pension in the first 10 years
	OPEB	12.1% of OPEB - current retirees payments
	POC	11.5% of total POC payments
Reimbursement from other funds	Reimbursements from Parking (non-GF) and Library	
Hypothetical art proceeds (a)	Foundations	\$366m over 20 years
	DIA	\$100m over 20 years
Hypothetical State settlement (a)	Contributions to pension	\$195m in FY15
Hypothetical claims treatment		
PFRS		
Pension	Contributions (years 1-10)	Estimated to be \$261m from foundations / State settlement
	Contributions (years 11-40)	UAAAL as of June 30, 2023 estimated to be ~\$681m (b) amortized over 30yr, including contributions in second decade from DIA and foundations ✓
	Discount rate	6.75%
	Targeted funded status as of 2023	78%
GRS		
Pension	Contributions (years 1-10)	Estimated to be \$99m from State settlement; \$429m from DWSD; \$45m from DIA; \$146m from GF & other funds
	Contributions (years 11-40)	UAAAL as of June 30, 2023 estimated to be ~\$695m (b) amortized over 30yr, including contributions in second decade from DIA and foundations ✓
	Discount rate	6.75%
	Targeted funded status as of 2023	70%
UTGO	Hypothetical Note A1	\$287.5m note funded with pass-through UTGO millage
LTGO	Hypothetical Note A2	\$55m settlement note
Other unsecured	Hypothetical Notes B	\$632m note paid over 30 years - \$450m OPEB, \$162m POC, \$4m notes/loans and \$16m other

Footnotes:

- (a) Hypothetical art and State settlement proceeds are subject to a consensual agreement with respect to the treatment of pension-related claims.
 (b) Estimated pension contributions to retirement systems and unfunded pension liabilities as of June 30, 2023 are subject to change.

Footnotes

(a) Assumes DPOA & DFFA deals are consistent with that of DPLSA.

(b) Health benefits include \$142.8m of OPEB payments for current retirees in FY 2014 (\$123.8m) and FY 2015 (\$19m).

(c) The impact of the first decade increase in DDOT subsidy is assumed to be offset by operational savings beyond 2023.

(d) Any incremental professional fees are assumed to be funded by escrow account subject to State approval.

City of Detroit Plan of Adjustment - 40 year projections

The attached Plan of Adjustment preliminary forecast (the "POA Financial Projections"), its assumptions and underlying data are the product of the Client and its management ("Management") and consist of information obtained solely from the Client. With respect to prospective financial information relative to the Client, Ernst & Young LLP ("EY") did not examine, compile or apply agreed upon procedures to such information in accordance with attestation standards established by the AICPA and EY expresses no assurance of any kind on the information presented. It is the Client's responsibility to make its own decision based on the information available to it. Management has the knowledge, experience and ability to form its own conclusions related to the Client's POA Financial Projections. There will usually be differences between forecasted and actual results because events and circumstances frequently do not occur as expected and those differences may be material. EY takes no responsibility for the achievement of forecasted results. Accordingly, reliance on this report is prohibited by any third party as the projected financial information contained herein is subject to material change and may not reflect actual results.

Plan of Adjustment - 40 year projections

Assumptions

(\$ in millions)

Plan of Adjustment - 40 year projections

General Fund Cash Flows	GF 40yr cash flows	\$4.3b funds available for unsecured claims
	Minimum cash requirement	Based on 2 months of payroll through FY23 and the 5% cash reserve thereafter
	DIP financing	Quality of Life (\$120m @ 3.5% assumed to be refinanced as part of exit facility)
	Exit financing	\$160.0m tax exempt note @ 5.75% maturing in FY30
		\$115.0m taxable note @ 5.75% maturing in FY24
	Swap treatment	\$85m settlement
	Contingency	Reflects 1.0% of total revenues
Revenue stream from DWSD	Pension	\$429m for pension in the first 10 years
	OPEB	12.1% of OPEB - current retirees payments
	POC	11.5% of total POC payments
Reimbursement from other funds	Reimbursements from Parking (non-GF) and Library	
DIA settlement	Foundations	\$366m over 20 years
	DIA	\$100m over 20 years
State settlement	Contributions to pension	\$195m in FY15
Unsecured Claims treatment		
LTGO (Class 7)	Note A2 and Note B reserves	\$55m settlement note and \$4.2m Note B reserves
UTGO (Class 8)	Note A1	\$288m note funded with pass-through UTGO millage
POC (Class 9) - Syncora	Notes C and B	\$21m of Note C and \$23.5m of Note B
POC (Class 9) - FGIC	Notes B reserves	\$122.9m of Note B reserves
PFRS Pension (Class 10)	State and DIA Settlements	
	Contributions (years 1-10)	Estimated to be \$261m from foundations / State settlement
	Contributions (years 11-40)	UAAL as of June 30, 2023 estimated to be ~\$681m amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	78%
GRS Pension (Class 11)	State and DIA Settlements	
	Contributions (years 1-10)	Estimated to be \$99m from State settlement; \$429m from DWSD; \$45m from DIA; \$146m from GF & other funds
	Contributions (years 11-40)	UAAL as of June 30, 2023 estimated to be ~\$695m amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	70%
OPEB (Class 12)	Note B, Note B reserves, and cash	\$450m of Note B, \$11m Note B reserves, and \$20m cash
DDA (Class 13)	Note B	\$4m of Note B
Other unsecured (Class 14)	Note B and Note B reserves	\$16m of Note B and \$0.2m Note B reserves
36DC (Class 17)	Cash payment	\$2.2m cash (~\$500k upfront payment, and 4 equal annual payments thereafter of ~\$400k)

Working capital	(49.5)	-	-	-	(49.5)
Restructuring professional fees (c)	(182.0)	-	-	-	(182.0)
Total bankruptcy cashflows	\$ (457.8)	\$ (126.0)	\$ -	\$ -	(583.9)
Surplus / (deficit)	\$ 45.2	\$ 0.0	\$ (0.0)	\$ 80.3	\$ 125.5
Ending cash balance (a)	\$ 81.2	\$ 81.2	\$ 81.2	\$ 161.5	\$ 161.5

Footnotes

(a) Assumptions pending DPOA & DFFA deals are cash flow neutral.

(b) The impact of the first decade increase in CDOT subsidy is assumed to be offset by operational savings beyond 2023.

(c) Any incremental professional fees are assumed to be funded by escrow account subject to State approval.

Plan of Adjustment - 40 year projections

The attached Plan of Adjustment preliminary forecast (the "POA Financial Projections"), its assumptions and underlying data are the product of the Client and its management ("Management") and consist of information obtained solely from the Client. With respect to prospective financial information relative to the Client, Ernst & Young LLP ("EY") did not examine, compile or apply agreed upon procedures to such information in accordance with attestation standards established by the AICPA and EY expresses no assurance of any kind on the information presented. It is the Client's responsibility to make its own decision based on the information available to it. Management has the knowledge, experience and ability to form its own conclusions related to the Client's POA Financial Projections. There will usually be differences between forecasted and actual results because events and circumstances frequently do not occur as expected and those differences may be material. EY takes no responsibility for the achievement of forecasted results. Accordingly, reliance on this report is prohibited by any third party as the projected financial information contained herein is subject to material change and may not reflect actual results.

(trial ex. 779)

①

Plan of Adjustment - 40 year projections

Assumptions

(\$ in millions)

General Fund Cash Flows	GF 40yr cash flows	\$4.3b funds available for unsecured claims
	Minimum cash requirement	Based on 2 months of payroll through F-Y23 and the 5% cash reserve thereafter
	DIP financing	Quality of Life (\$120m @ 3.5% assumed to be refinanced as part of exit facility)
	Exit financing	\$160.0m tax-exempt note @ 5.75% maturing in F-Y31
		\$115.0m taxable note @ 5.75% maturing in F-Y24
	Swap treatment	\$85m settlement
	Contingency	Reflects 1.0% of total revenues
Revenue stream from DWSD	Pension	\$429m for pension in the first 10 years
	OPEB	12.1% of OPEB - current retirees payments
	POC	11.5% of total POC payments
Reimbursement from other funds	Reimbursements from Parking (non-GF) and Library	
DIA settlement	Foundations	\$366m over 20 years
	DIA	\$100m over 20 years
State settlement	Contributions to pension	\$195m in F-Y15
Unsecured Claims treatment		
LTGO (Class 7)	Note A2 and Note B reserves	\$55m settlement note and \$17.4m Note B reserves
UTGO (Class 8)	Note A1	\$288m note funded with pass-through UTGO millage
POC (Class 9) - Syncora	Notes C and B	\$21m of Note C and \$23.5m of Note B
POC (Class 9) - FGIC	Notes C and B	\$67m of Note C and \$74.2m of Note B
PFRS Pension (Class 10)	State and DIA Settlements	
	Contributions (years 1-10)	Estimated to be \$261m from foundations / State settlement
	Contributions (years 11-40)	UAAI as of June 30, 2023 estimated to be ~\$681m amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	78%
GRS Pension (Class 11)	State and DIA Settlements	
	Contributions (years 1-10)	Estimated to be \$99m from State settlement; \$429m from DWSD; \$45m from DIA; \$146m from GF & other funds
	Contributions (years 11-40)	UAAI as of June 30, 2023 estimated to be ~\$695m amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	70%
OPEB (Class 12)	Note B, Note B reserves, and cash	\$450m of Note B, \$42.7m Note B reserves, and \$20m cash
DDA (Class 13)	Note B	\$4m of Note B
Other unsecured (Class 14)	Note B and Note B reserves	\$16m of Note B and \$4m Note B reserves
36DC (Class 17)	Cash payment	\$2.2m cash (~\$500k upfront payment, and 4 equal annual payments thereafter of ~\$400k)

UNITED STATES BANKRUPTCY COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION

In re:
City of Detroit, Michigan,
Debtor,

Chapter 9
Case No. 13-53846
Hon. Steven W. Rhodes

**EXPERT REPORT OF MARTHA E.M. KOPACZ
REGARDING THE FEASIBILITY OF THE CITY OF DETROIT PLAN OF
ADJUSTMENT**

On April 22, 2014, Judge Rhodes entered an Order¹ appointing me as the Court's expert witness. Pursuant to that Order, "(t)he Court's expert shall investigate and a reach a conclusion on:

(a) Whether the City's plan is feasible as required by 11 U.S.C. § 943(b)(7);

and

(b) Whether the assumptions that underlie the City's cash flow projections and forecasts regarding its revenues, expenses and plan payments are reasonable."

I am providing this Report under Fed. R. Evid. 706(a). Should additional information become available, I reserve the right to amend or supplement this Report.

¹ Docket #4215, Order Appointing Expert Witness

Section A – Introduction, Scope and Approach

Introduction

I am a Senior Managing Director with Phoenix Management Services, LLC (“Phoenix”), Boston, MA and my *curriculum vitae* is attached as Exhibit 1. I have been assisted throughout this engagement by my colleagues from Phoenix. My billing rate is \$595 per hour and the billing rates of my colleagues range from \$100 per hour to \$550 per hour. As a courtesy, we are reducing our rates by 10% in this case. I have testified previously as noted in my proposal.²

Scope and Approach

The scope of my engagement is limited to providing an opinion *only* as to feasibility of the Plan of Adjustment (“POA” or “Plan”) of the City of Detroit (“Detroit” or the “City”). My engagement does not include providing an opinion regarding the best interest of creditors. There is little applicable case law related to what constitutes feasibility in a chapter 9 proceeding and even less guidance on my

² Docket #4068, Notice Regarding Interviews of Expert Witness Applicants, pages 266-267

role as the Court's independent expert. As such, I developed an approach for this assignment based upon my professional experience and taking into account the facts and circumstances of this matter that I believed to be most relevant. In large measure, I and my team, ("we") have followed the outline contained in my proposal, which is included below.³

- Understand the framework and methodology used to prepare the Ten-Year Plan including reliance on historical information
 - Conduct interviews of key personnel and financial advisors
 - Review documentation used to develop the forecasts
 - Review other third party information to independently verify assumptions
- Perform a detailed analysis of the Plan's financial and cash flow forecasts to determine baseline and critical assumptions
- Critique and analyze critical assumptions - those that have significant dollar and/or timing impact and, if not achieved, could decrease cash flow significantly
 - Revenue and/or cash receipts
 - Cost cutting initiatives
 - Reinvestment initiatives and capital spending
 - Interest rate variations
 - Provisions for contingencies
- Evaluate the execution risks associated with the Ten-Year Plan
 - Availability of financial and human capital
 - Reasonableness of timing assumptions
 - Reasonableness of dollar impact (cost or benefit)
 - Adequacy of contingencies
- Perform sensitivity analysis related to the forecast and critical assumptions, as appropriate, to better assess the achievability of the projections
- Form an opinion as to the feasibility of the Ten-Year Plan, as presented

³Docket #4068, Notice Regarding Interviews of Expert Witness Applicants, pages 256-257

- Prepare a written report supporting the opinion including additional information that facilitates communication and understanding by stakeholders of the likelihood of Plan success and the potential risks associated with Plan execution

We began with stakeholder interviews amongst the groups listed below. The “Contact Log” as directed in Judge Rhodes’ Order, is included as Exhibit 3. This fact- and perception-gathering phase was important to understanding the current situation with the City, the status of bankruptcy case and how the City was approaching its restructuring.

- City of Detroit elected and appointed officials (including the Mayor, City Council President, Chief Financial Officer, Chief of Police and department heads)
- Emergency Manager
- City employees
- City of Detroit retained advisors
 - Jones Day
 - Ernst & Young
 - Conway MacKenzie
 - Miller Buckfire & Co.
- City’s retirement systems (PFRS and GRS) and their advisors
- City’s public safety labor unions and their advisors
- Creditor constituencies and their advisors
- Detroit Land Bank Authority
- Detroit Institute of Art and their advisors
- Charitable foundations and City benefactors

We then approached the analytical phase, which was iterative. We reviewed and analyzed documents relevant to the City’s Plan and the financial projections. We reviewed other City data and third party information to provide background and

perspective on the Ten Year (“10 Yr”) and Forty Year (“40 Yr”) projections and the Restructuring and Reinvestment Initiatives (“RRIs”). We asked more questions of the City, its advisors and other stakeholders, requested more information, and analyzed that information. This process was repeated as necessary until our questions were answered. Some general categories of data, documents and information we reviewed and analyzed are identified below. A more complete listing is included in Exhibit 2.

- Court Documents – POA, Disclosure Statement, City Motions and Creditors’ Objections, Eligibility Opinion, Court Orders, Court Docket
- May 5, 2014 and July 2, 2014 10 Yr projections, 40 Yr projections and RRIs, including working models
- Third Party Reports
 - Detroit Blight Removal Task Force Plan
 - Detroit Future City Strategic Framework Plan
 - Consulting reports – McKinsey
 - State and various task force reports on Detroit’s financial condition
 - Various federal, state and regional government reports

We critiqued the methodology used to develop the financial projections, as well as the data and information used as the foundation for the assumptions. An explanation of these models is contained in Part II, Section E. We identified the assumptions used to create the June 2013 Baseline Projections and the assumptions that formed the 40 Yr projections. We identified and analyzed the assumptions contained in the RRIs and tested both projections (May 5th and July 2nd) for mathematical integrity.

My assessment focused primarily on operations that are accounted for in the City's General Fund. In addition to the City's General Fund activities, the City has numerous operations that are accounted for in Enterprise Funds. Only Enterprise Funds that have an impact on the City's General Fund were evaluated to determine their impact on the feasibility.⁴

The Report

This Report is comprised of four parts. Part I includes my opinion and the building blocks I used to formulate that opinion. This includes background and contextual information that underpin my assessment as well as the definition I and my team formulated for "feasibility" which establishes the framework for my opinion. Part I includes Sections A through D.

Part II is comprised of Sections E through H and provides insight into the quantitative factors that impact my feasibility assessment. Part III consists of

⁴For example the Detroit Department of Transportation (DDOT) operates primarily as an Enterprise Fund but receives a significant subsidy from the General Fund to fund negative cash flow in the Enterprise Fund; therefore, the failure of DDOT to achieve its plans directly impacts the City General Fund.

Sections I through O and include those issues that affect feasibility in a qualitative manner. Part IV contains the Conclusion. A Table of Contents follows.

Table of Contents

PART I		<u>Page</u>
Section A	Introduction, Scope and Approach	2
Section B	Statement of Expert's Opinion	9
Section C	Feasibility Definition	12
Section D	Context	22
PART II		
Section E	City of Detroit Financial Forecast Summary	31
Section F	Revenue and Macro Assumptions	39
Section G	Operating Expenditures	64

Section M	Post Confirmation Oversight	175
Section N	Unresolved Issues	180
Section O	Other Risks and Opportunities	192
Part IV		
Section P	Conclusion	199

Section B – Statement of Expert’s Opinion

On April 22, 2014, Judge Rhodes entered an Order⁵ appointing me as the Court’s expert witness. Pursuant to that order, “(t)he Court’s expert shall investigate and a reach a conclusion on:

(c) Whether the City’s plan is feasible as required by 11 U.S.C. § 943(b)(7);
and

(d) Whether the assumptions that underlie the City’s cash flow projections and forecasts regarding its revenues, expenses and plan payments are reasonable.”

This Report contains my expert opinion and the basis for that opinion. I was assisted by my colleagues at Phoenix Management Services LLC. My work has been guided by the approach that was outlined in my proposal⁶ and discussed during

⁵ Docket # 4215, Order Appointing Expert Witness

⁶ Docket # 4068, Notice Regarding Interviews of Expert Witness Applicants, pages 256 and 257

my interview on April 18, 2014⁷. I, and members of my team, have conducted more than two hundred interviews and fact gathering meetings with persons involved in this matter or with persons I believed to be helpful to me in forming my opinion.

Based on this work, I conclude that:

- (a) The City's plan is feasible as required by 11 U.S. C. § 943(b)(7); and
- (b) The assumptions that underlie the City's plan of adjustment projections regarding its revenues, expenses and plan payments are reasonable.

It should be noted that this opinion is rendered in an environment where there are many factors that will have influence on the City's conditions post confirmation that are unknown and unknowable. Throughout this Report, I have noted some of these factors, while other factors may not even be recognized today as potentially having an impact. My opinion is necessarily limited by these unknown factors. It should be recognized, that these factors, when known, could have a material impact on my view of feasibility.

The above statement should only be viewed in the context of this entire Report. No reliance should be made on these statements outside of the context of this Report.

⁷ Transcript of Hearing, April 18, 2014

The remainder of this Report will provide my definition of feasibility, the context in which I am rendering my opinion and my assessment of the key factors affecting my feasibility assessment. While my opinion is arguably very narrowly limited to “feasibility”, the assessment I and my team did to arrive at my opinion is multifaceted. This Report attempts to clearly and succinctly lay out the foundation, framework and details supporting my opinion.

The following section, Section C, addresses my definition of feasibility and relies upon numerous resources – legal and otherwise – and my own experience to establish the benchmarks against which I assessed feasibility. Section D discusses the context in which I am rendering my opinion. While there are common experiences among every restructuring and even among municipalities, the unique mix that is Detroit and this chapter 9 proceeding, necessarily impact my perspective and opinion. My intent is not to rehash every issue or pleading that has occurred in this case or even Detroit’s recent history, but rather, to highlight a few aspects of the facts and circumstances of this case which have had an important impact on the formulation of my opinion. The last sections of the Report provide a more in depth review of the issues, quantitative and qualitative, I found particularly relevant to my assessment of feasibility. By no means does this Report include every factor I reviewed or considered but does include those issues that shaped my opinion to the greatest extent.

Section C – Feasibility Definition

Defining a Feasibility Standard

Section 943(b)(7) of the Bankruptcy Code requires that before a plan of adjustment may be confirmed the Court must determine that the plan is feasible. However, the Bankruptcy Code does not define “feasible.” Few chapter 9 cases address the feasibility requirement⁸ and there is little in the way of authoritative writing published regarding feasibility.⁹

In assessing feasibility, I have examined available legal authority and consulted with counsel and other experienced professionals to assist in the formation of an appropriate approach to determining feasibility of the City’s POA. Every

⁸ In re *Mount Carbon Metropolitan District*, 242 B.R. 18, 31 (Bankr. D. Colo. 1999) (“The Code does not define feasibility in Chapter 9 nor does it specify what factors the Court should consider in determining whether the Plan is feasible. Due to the relative rarity of Chapter 9 cases, neither the parties nor the Court have found case law specifically addressing the issue.”)

⁹ Pryor, Scott C., Who Bears the Cost? The Necessity of Taxpayer Participation in Chapter 9, (June 11, 2014) Available at SSRN, <http://ssrn.com/abstract=2448997>. The author referring to feasibility: “(w)hat is merely unclear in chapter 11 is an impenetrable fog in chapter 9.”

restructuring professional, with some degree of experience, probably believes they understand what feasibility is and what it is not. However, in my early discussions with professionals in this case, my own research, and consultations with professionals not involved in the Detroit matter, I found a variety of nuanced points of view regarding a definition of feasibility. Therefore, while it will ultimately be up to the Court to articulate the precise legal parameters of feasibility in this Case, I, along with the Phoenix team, have developed the following feasibility definition (the “Standard”), which I believe is crucial to serving the Court’s purpose for my appointment:

‘Is it likely that the City of Detroit, after the confirmation of the Plan of Adjustment, will be able to sustainably provide basic municipal services to the citizens of Detroit and to meet the obligations contemplated in the Plan without the significant probability of a default?’

Two Dimensions of the Standard

While I believe that there are certain imposed limitations on feasibility within this Standard, I have taken a relatively structured approach to my view of what is included in feasibility. The Standard includes both quantitative and qualitative components:

Quantitative

- Are the projections contained in the POA mathematically correct and materially reasonable?
- Are the assumptions that the City has used to develop its projections individually, and when taken as a group, reasonable?
- Is there an adequate contingency included in the projections?

Qualitative

- Does the City have the human resources, or can it likely recruit the human resources, required to meet its obligations under the POA?
- Does the City have the appropriate systems and procedures to monitor its financial performance and to provide early warning signs of variances in performance that might cause the City to fall short of the projections and be unable to meet its obligations under the POA?
- Are there appropriate structures to ensure the City's compliance with the POA and with reasonable government standards of operation?
- Will the City be able to reasonably deliver a minimum level of municipal services?
- Is the City's trajectory sustainable?

The quantitative assessment of feasibility is straightforward but exacting. As will be more fully discussed in Part II, the projections¹⁰ in the POA are (correctly

¹⁰ For purposes of this Report, "projections in the Plan" are inclusive of the 10 Yr plan, the 40 Yr plan and the RRI's. If only one of these is discussed, it will be noted. The term "forecast" is often used as a synonym for "projections". While this is not technically correct within accounting literature, the terms will be used interchangeably in this Report to provide variety. The term "model" is used in this Report to describe the one or more excel spreadsheets that together form a financial projection. A "values only model" or "flat model" is essentially a printout of the excel spreadsheets, although it may be provided in electronic format rather than in hard copy. A "working model" contains all the cell references, formulas and

so) quite detailed in many areas. Financial modeling is a highly subjective undertaking that is affected by the assumptions made and the professional biases of the analyst developing the model. Financial modeling is both a science and an art. When the analyst forecasts growing revenue, declining costs, or a change in headcount, he or she has a number of ways to write the mathematical formulas which arrive at the intended numbers. In this case, the POA projections are comprised of multiple forecasts, inclusive of hundreds of individual spreadsheets, prepared by many different individuals and then concatenated into what we all simply call the “projections”¹¹. Simple questions, such as “are the salaries used to determine the cost of newly hired employees reasonable?” become detailed. For example, the salary estimates are multifaceted depending on which model and which analyst did the modeling and appear in many of the RRI projections. Because of this, the

“macro” commands that are within the spreadsheets and allows a reviewer of the model to understand what the inputs and assumptions are that create the projections. It is in the working model that a reviewer can understand the “art” of the analyst’s modeling.

¹¹ Expert Report of Charles M. Moore, CPA, CTP, CFF in re City of Detroit, Michigan. In footnote 2, Mr. Moore provides a similar explanation of modeling methodology: “Given the number and diversity of the departments my team and I examined, the specific methodology utilized was not exactly the same for each department. Notwithstanding any particular deviations that were necessary, this core methodology and approach was generally utilized across our analysis and development of the Reinvestment Initiatives.” This is an example of differences that can occur within a model built by the same firm. There were also differences in modeling approach used by Conway MacKenzie, Mr. Moore’s firm, and Ernst & Young, the City’s other financial advisor.

quantitative assessment of “reasonableness” surrounding the individual assumptions, and assumptions taken as a group, of the POA projections was more involved than I would have expected.

The qualitative aspects of the Standard include what I have come to refer to, as “skill and will” and are as important as the quantitative assessment. Qualitative aspects also include external influences that can affect the implementation of the Plan. Part III, Section K – Leadership and Human Capital, discusses the City’s need for more highly skilled employees. Another qualitative issue is the upcoming transition from the leadership of the Emergency Manager to the leadership of Mayor Duggan and his administration. When that transition occurs, there will be little more than three years remaining within which the current elected officials will have the responsibility to operate the City consistent with the POA – therefore political ‘will’ must be passed to future elected officials. This is not a problem limited to Detroit, but to all municipal proceedings. Section M – Post-Confirmation Oversight discusses ways to mitigate this variable.

The Aspect of Time on the Standard

A municipal government is an entity designed to exist in perpetuity. Therefore, as we considered feasibility there is a requirement to determine the timeframe for the feasibility assessment. As we developed the feasibility Standard, we considered the following questions:

- Given the electoral system and the requirement for strong leadership, do we limit the timeframe to the next election cycle?
- Is there some other timeframe at which feasibility stops? For example, if after 5 years, visibility into the operations of the City becomes more opaque, do we only consider the first 5 years?
- Do we consider the timeframe over which financial commitments are made in the POA? That is, do we look at the restructured pension obligations of the retirees and current employees and attempt to determine whether the POA is feasible during their entire lifetimes?

Ultimately, we based our Standard on an indeterminate time period. However, I believe that the issues of feasibility must be viewed both in terms of their quantitative or qualitative impact and the time horizon over which the impacts may occur. That is, as the time horizon expands, so too does the magnitude required for an issue to impact feasibility. For example, a potential \$50 million shortfall in year 1 will have a much more significant impact on the assessment of feasibility than the same shortfall in year 20.

The Standard Allows for a Range of Values

An additional aspect to my definition of feasibility is the concept that the reasonableness of the quantitative and qualitative components of the Standard can be a range of values. When looking at the reasonableness of assumptions and projections, most people understand that “reasonable” can exist along a continuum. Projections can be reasonable and favor the views of the debtor and projections can be reasonable and favor the views of creditors. Of course, at the outer edges of “reasonable”, values become unreasonable, either because they are exceptionally conservative or wildly aggressive. We have evaluated the assumptions imbedded with the financial forecasts within this continuum of reasonableness.

Detroit differs from a company emerging from chapter 11 in that the City does not have to be service delivery solvent to emerge from bankruptcy. It will be on a

trajectory towards service delivery solvency¹² and in some areas, the current level of service is adequate. I do not need to envision that Detroit will become a best in class municipality to determine that the POA is feasible. For Detroit, emerging from essential services failure to adequate and reasonable service delivery will be a success.¹³

What Feasibility is Not

When we developed the feasibility definition, we also considered what feasibility does not include. First, and foremost, feasibility is not a guarantee. If the City were to propose a plan under which, based on reasonable assumptions, the City could not help but meet its obligations – effectively a guaranteed outcome – it is likely that while feasible, such plan would not satisfy the best interests of creditors test under section 943(b)(7) of the Bankruptcy Code.¹⁴

¹² Eligibility Opinion of Judge Rhodes

¹³ Anderson, Michelle Wild “The New Minimal Cities” <http://yalelawjournal.org/article/the-new-minimal-cities>; March 2014

¹⁴ The “best interest test of creditors” is specifically outside the scope of my appointment and as such, is not part of the opinion I have formed. See Docket #4215, Order Appointing Expert Witness, ¶2 and 3.

Similarly, but at the other end of the spectrum, a feasible plan should avoid visionary schemes primarily based on “mere hopes, desires and speculation”¹⁵. Further, the Court must determine whether there is a reasonable prospect of successful completion of the proposed plan.¹⁶ As a point of reference, a frequently cited legal standard for feasibility in Chapter 11 is whether the factual showing at the plan confirmation hearing establishes a “reasonable assurance of success,” though “success need not be guaranteed.”¹⁷

Lastly, I do not believe the Standard entails: (1) whether the projections in the POA may generate more cash to distribute and therefore provide greater recoveries for creditors or (2) whether there may be alternative plans that could produce a better outcome for the City or its creditors. During my team’s evaluation of feasibility, we have been exposed to numerous views on these subjects. Because this is outside my scope and not included in our Standard, I have not attempted to form, nor have I formed, any opinion on these matters.

In summary, the Standard we have defined includes both quantitative and qualitative assessments of feasibility, including a risk assessment measured against a time horizon and allows for a reasonable range of values within the projections. This Standard is the backdrop against which the remainder of this Report should be read.

Section D - Context

This section of the Report attempts to identify some of the contextual parameters for my expert opinion. The role as the Court's expert on feasibility is both vast and specific, and subsumed within a unique set of facts and circumstances surrounding the City of Detroit, its history and plethora of challenges. Included amongst these topics are:

- The impact of the bankruptcy process on the feasibility assessment
- An "as is" perspective of Detroit which anchors my opinion
- An explanation of what the Plan of Adjustment is and is not
- Identification of factors that affect my opinion separate and apart from the proposed POA

Bankruptcy Process Impact

I am humbled and honored to have been selected as the Court's expert in this matter. The speed with which this restructuring and bankruptcy case has progressed is nothing short of extraordinary. The speed has been both an advantage and a disadvantage to the feasibility of the POA.

The restructuring profession generally views quick trips through the bankruptcy process to be advantageous for a variety of reasons: less distraction of the management team, lower professional costs, more negotiated (vs. litigated) solutions, quicker payments to creditors, and less uncertainty for employees and vendors. This could all be true with the Detroit case.

However, I believe the speed of this proceeding has negatively impacted the level of feasibility of the POA. This bankruptcy has been largely focused on deleveraging the City, often to the exclusion of fixing the City's broken operations. The bilateral mediations between the City and the creditor groups worked well to quickly deliver settlements of key disputes. However, the lack of time available for multiparty negotiation has resulted in settlements that, taken in total, greatly reduce the contingency available in the Plan. Pain sharing is an important component of the restructuring process that helps ensure that all the stakeholders appreciate the "size of the pie" as opposed to creating the proverbial "win-lose" tug of war between the debtor and the creditor.

Detroit “As Is”

Detroit is at a tipping point. While some may consider the chapter 9 filing as the low point in this great City’s history, I believe that it was the beginning of creating what can become a virtuous cycle of revitalization, improving economics and quality of life betterments for those who choose to live and work within the City. It is hard to imagine that people with such diverse political and socio-economic perspectives would have come together as they have in this process without the bankruptcy filing. Traditional political maneuverings are working to Detroit’s advantage and residents have the prospect of once again living in a community that is more safe and supportive. Black, white, Republican, Democrat, poor, wealthy, educated, illiterate and everyone in between have an opportunity to contribute to the virtuous cycle of revitalization, or not.

The City of Detroit’s chapter 9 filing has justifiably received extensive attention across international media and within legal and financial circles. The outcomes will be referenced extensively for years, for what was accomplished and arguably, what could have been accomplished during the proceedings. As the largest chapter 9 to date, if any municipality ever needed the protection and tools of the bankruptcy process, it is Detroit. At every level, Detroit was failing as a city – as measured by the shrinking of its population, useful infrastructure and purposeful

enterprises - and as a government – as measured by its inability to deliver essential services. Having spent a large amount of time in Detroit since my appointment, my interaction with citizens, City employees and stakeholders in the bankruptcy have influenced my view of both the in-court restructuring and the out-of-court work that is equally important to Detroit’s ability to effectuate its POA.

The Plan of Adjustment

Even after many years of practice with dysfunctional, insolvent, operationally troubled enterprises, I was confused by the City’s projections in POA. Section E of this Report provides detail on how the projections and RRI’s are structured. Suffice it to say that the “10 Yr projections”, the “10 Yr/40 Yr projections,” and the “Restructuring and Reinvestments Initiatives” form an unusual construct for a financial plan for an enterprise attempting to emerge from bankruptcy. The baseline projections (“10 Yr projection, Exhibit J to the Disclosure Statement) were prepared in June 2013 to show what would happen to the City without a restructuring, which they did very well. The “10 Yr/40 Yr projection” (Exhibit K in the Disclosure Statement) expands the baseline, steady state projection for the 40 Yr time horizon of the POA. Then, in order to begin to understand how the restructured Detroit might operate – delivering services and paying creditors – one must factor in the RRI’s

contained in Exhibit J to the Disclosure Statement. This is convoluted and contributes to the feelings amongst many creditors in this case that the financial projections in the POA are a “black box” and that it was the City’s intent to obfuscate important information. I choose to believe that it was simply an unfortunate result of two advisory firms sharing responsibilities¹⁸ rather than one firm “owning” the financial projections start to finish, as is, and should be, the norm.

The City’s Plan of Adjustment is primarily limited to a “balance sheet” restructuring, as chapter 11 veterans would characterize it, and it includes only some of the City’s operations. This is loosely analogous to a company that files a bankruptcy for the parent company and some, but not all, of the subsidiaries. The chapter 9 proceeding has been overwhelmingly focused on deleveraging the City for the long term, reducing future obligations. That is good. However, the operational restructuring that often occurs with commercial reorganizations will be left largely to Mayor Duggan and his managers for the post confirmation period. That is

¹⁸Ernst & Young, originally retained by the City of Detroit in May 2011, and Conway MacKenzie, originally retained by the City of Detroit in January 2013, have served the City post-petition in a collaborative arrangement. Each firm has taken responsibility for certain aspects of typical debtor “financial advisory” services and the firms work well together. No comments herein should be construed as criticism of this collaboration; rather, I believe it would have been preferable for a single firm to have prepared a single, integrated financial projection for the POA.

unfortunate but is understandable given the speed with which this bankruptcy has occurred and the Emergency Manager's priorities during his similarly short tenure.

Readers of the POA should view the Plan projections as a "sources and uses" statement which describes cash available to fund delivery of some of the services the City provides and certain payments to creditors. As such, these projections are useful only for purposes of confirming the POA (or not, as the case may be) and directionally providing guidance for the City to plan its finances going forward for those operations that are addressed in the POA. It is important to understand that the POA projections are not a business plan for the City. They are not the City's budget. They are not the "financial plan" referenced in Public Acts 181 and 182 of 2014, also referred to as the "Grand Bargain" legislation.

The confusion about the projections in the POA and these other financial plans is evident within the City including its employees, amongst the media and the stakeholders. The projections in the POA have not been harmonized with the City's budget that was passed by the City Council on June 5, 2014. As such, any funding of the RRI's will require first identification of a funding source, and then approval by the CFO and Mayor, and finally, approval by the City Council of a budget amendment to support the appropriations. Although the City has many financial reporting priorities, it is highly advisable that the budget department amend the

approved June budget for the numerous anticipated changes post confirmation, harmonizing the current headcounts and spending levels with the RRI's that the City intends to execute in the coming year, and submit a new budget to the City Council for approval.

The sooner the City can divorce itself from the confusion created by the POA projections, the better. The City needs a multi-year Business Plan which can act as a single financial and operational plan, including all departments and enterprise activities (of which an amended budget would be a part) as well as capital plans that can be publicly communicated and compared to actual performance. A "bridge" should be prepared which identifies the components of the POA projections that are included in the City's Business Plan and then the POA projections can be archived.

Another confusion I believe exists in the POA is the investment plan for infrastructure and service delivery improvements that are required to revitalize the City. Those funds will necessarily come from reducing costs of existing service delivery either through efficiency improvements or elimination of activities. The media has created the impression that the City's investment of more than \$1 billion over the course of the coming years is a "given". This is incorrect. There is no funding source for these investments, including blight removal, other than the Exit

Financing¹⁹ and the projected structural surplus in the POA projections; that is: the projected revenues must exceed the projected expenses of the City for the foreseeable future. It is important that readers of the POA understand there is no cash in a bank account to fund the RRI's. The cash for the investments will come from the Mayor and the departmental leaders delivering services as economically and efficiently as the POA forecasts.

Outside Factors of Influence

I can say, unequivocally, that without the positive and capable leadership of Mayor Duggan and the constructive relationship between the City Council and the Mayor, I would be unable to opine that the plan, as currently proposed, is feasible. The near term future will require course adjustments as undoubtedly revenues and expenses will vary from projections and unforeseen events will demand changes in plans. The democratic system has put in place individuals who, at least for the next three years, can choose to continue the positive course for the City. I believe they will do so.

¹⁹ The City's investment banker, Miller Buckfire & Co. has prepared solicitation materials as is the process of sourcing this financing.

Southeast Michiganders and Detroiters are extensively engaged in civic and charitable pursuits that benefit the revitalization of Detroit. While detractors cite crime rates and nonfunctioning public works, there are a similar group of enthusiastic, impassioned supporters of Detroit's bright future. Two tangible examples are the Detroit Future City plan and the Blight Task Force report. Each of these privately funded efforts resulted in professionally stellar frameworks that current and future elected officials should consider as components of Detroit's master plan. I find it encouraging that there are the underpinnings of business plans for the City which can be blended with financial plans to improve the prospects of success.

In addition, the level of private funds invested in Detroit annually is significant. During my interviews, one executive estimated that private foundations, collectively, spend between \$150-\$200 million annually on "public" works to support investments in the safety, health and welfare and economic development within the City of Detroit. This level of funding is significant to the overall revitalization efforts outlined in the POA.

Section E - City of Detroit Financial Forecast Summary

Introduction

The City's Plan of Adjustment incorporates multiple, interrelated financial forecasts that must be individually and collectively evaluated in order to fully understand how the City intends to operate after a confirmation of the Plan of Adjustment. These forecasts, which vary in both duration and intended scope, emanated from the various City professional advisors and their original responsibilities. To fully appreciate the operating plan for the City, Phoenix has reviewed each of the financial forecasts and has worked with the City and its professionals to understand how each of these documents bridge to one another.

The Plan of Adjustment's financial forecasts are as follows:

1. Plan of Adjustment – Ten Year Financial Projections (the “10 Yr Plan”),
2. Plan of Adjustment – Forty Year Financial Projections (the “40 Yr Plan”)
3. Plan of Adjustment – Restructuring and Reinvestment Initiatives (the “RRIs”)
4. City of Detroit – Triennial Executive Budget (“City Budget”)

Plan of Adjustment – Ten Year Financial Projections

The 10 Yr Plan, built and modified by Ernst & Young (“E&Y”), is the City’s financial forecast for the fiscal years 2014-2023. This plan was originally developed to show how Detroit would operate exclusive of the chapter 9 bankruptcy proceeding. That is, it is effectively the baseline plan. This forecast was built on a department level basis and does not include the quantitative impacts of the restructuring initiatives, the cancellation of debt, the cash flow ramifications from the alterations in the City’s pension plans and OPEB²⁰, and other impacts of the bankruptcy proceedings.

The City and its advisors produced, as part of the Fourth Amended Plan for the Adjustment of Debts of the City of Detroit and the corresponding Fourth Amended Disclosure Statement (dated May 5, 2014), an updated version of the 10 Yr Plan which reflected the then most current forecast assumptions and terms of negotiated agreements. In light of the incremental negotiations, modified forecast assumptions and other changes, a newer 10 Yr Plan (in concert with an updated 40 Yr Plan and modified RRI’s) has been produced by the City advisors and is dated July 2, 2014. For the purpose of this Report, Phoenix used the July 2, 2014 version

²⁰ Other Post Employment Benefits

Section J - Pensions

Introduction

Detroit's legacy retirement obligations, combining both pensions and OPEB, are the City's largest liability when combining the funded and unfunded liabilities. Additionally, these liabilities are arguably the most visible to the City's retirees, current employees, and to its citizens, generally. Despite the relative importance, the magnitude of the City's retirement obligations and the methods for calculating them are largely unknown. Assessing the City's future pension and OPEB responsibilities involves, among other factors, forecasted health care costs, complex actuarial models⁴³, and assumptions for the anticipated rate of returns on the pensions' assets and the rate used to discount the plans' future liabilities. Critical decisions made today will have a substantial impact on the City's liquidity in future

⁴³ Traditional actuarial forecasts imbed assumptions related to pensioners' mortality, rates of retirement, salary increases, overtime, disability rates, interest earned on assets, and pension plan administrative expenses.

years. The magnitude and importance of these decisions will be critical to Detroit's viability in the decades to come.

Background

The City of Detroit has historically maintained two separate defined benefit plans, one for uniformed personnel and one for all other City employees. The City's existing pension plans are administered by the respective Retirement Systems, the Police & Fire Retirement System of the City of Detroit ("PFRS") and the General Retirement System of the City of Detroit ("GRS"). The bankruptcy claims related to PFRS claims are classified as Class 10, while the GRS claims are designated as Class 11 in the POA. These plans provided for a calculated amount of retirement income based on earnings and longevity of each individual employee. As typical with defined benefit plans, the benefits are fixed and are not dependent on investment returns or other outside factors.

Detroit's Plan, in an effort to mitigate the City's expanding legacy pension issues, proposes to fundamentally restructure the City's pension obligations for both its current retirees and its active employees, effective June 30, 2014. The Plan provides that, on the Effective Date, the City will assume the obligations related to already accrued benefits under the GRS and the PFRS pension plans *as those benefits will have been modified in the POA*. The POA pension proposal modifies

each plan under revised structures that impose reduced monthly pension amounts and/or reduced or eliminated COLA adjustments. The POA also proposes to restructure the accrual of pension benefits of active employees beginning on July 1, 2014, the parameters of which are detailed below.

City of Detroit Retirees Demographics

As of June 30, 2013, the Retirement Systems for the City of Detroit had approximately 32,247 members. The demographics of the each Retirement System are detailed below:

	PFRS		GRS		RS Total	
Active	3,272	26%	5,658	28%	8,930	28%
Retirees	9,054	73%	12,118	61%	21,172	65%
Other	111	1%	2,214	11%	2,325	7%
	<u>12,437</u>		<u>19,990</u>		<u>32,427</u>	

Of the City's estimated 21,172 retirees, roughly 7,200 (or 34%) are over the age of 75, with another 35% between the ages of 65 and 75. The average PFRS pension in FY2013 was \$30,607 as compared to the average FY2013 GRS pension of \$19,213.

Pension Funding Level

The accounting for defined benefit plans can be very complex. The calculations used to determine the appropriate funding levels required each year are dependent upon macro-economic factors, actuarial assumptions, and other variables that can be difficult to understand and can be manipulated to bias the required funding levels.⁴⁴

Historically, a number of different practices have contributed to a significant funding shortfall in the two pension plans. The Retirement Systems utilized unrealistic rate of return assumptions and managed the pension plans in accordance with questionable investment strategies that resulted in considerable underfunding of the respective Plans. The Retirement Systems assumed aggressive annual rates of return on investment (PFRS: 8.0%; GRS: 7.9%), allocated asset gains and losses over a seven-year period which masked potential funding shortfalls, and utilized renewing 29- (PFRS) and 30- (GRS) year amortization periods for funding the unfunded pension obligations.

The calculation of this funding shortfall, or the Unfunded Actuarial Accrued Liability ("UAAL"), is dependent upon the use of assumptions as noted above.

⁴⁴ Declaration of Charles M. Moore in Support of Detroit, Michigan's Statement of Qualifications Pursuant to Section 109(c) of the Bankruptcy Code; Docket No. 13; Page 5

Based on the assumption methodologies used by the retirement systems previously, the UAAL was projected, at the end of FY2012, to have been approximately \$977 million.⁴⁵ At June 30, 2013, that UAAL estimate was \$1.5 billion as PFRS reported it was 89% funded with a UAAL of \$415 million. At that same time, GRS reported it was 70% funded with a UAAL of \$1.1 billion. Using what the City now believes are more accurate assumptions, the City's actuary - Milliman, Inc. - has estimated that the combined systems' UAAL, at June 30, 2013, was approximately \$3.5 billion.⁴⁶

In addition to issues involving the aggressiveness of the rate of return assumption used to determine funding levels, also contributing to the increase of the UAAL were a number of questionable activities engaged in by the retirement systems, which included:

- Utilizing GRS fund assets to pay the promised returns on the Annuity Savings Program which, upon members of GRS allocating 3%, 5% or 7% of their after-tax salaries into a discreet defined contribution plan, effectively guaranteed a minimum 7.9% annual investment return

⁴⁵ Declaration of Charles M. Moore in Support of Detroit, Michigan's Statement of Qualifications Pursuant to Section 109(c) of the Bankruptcy Code; Docket No. 13; Page 5

⁴⁶ Declaration of Charles M. Moore in Support of Detroit, Michigan's Statement of Qualifications Pursuant to Section 109(c) of the Bankruptcy Code; Docket No. 13; Page 7

regardless of the actual investment performance of the pension plans' assets;

- Using actual market returns for crediting purposes rather than the guarantee, the City believes that over \$387 million of excess investment earnings were credited to Annuity Savings Funds from 2003-2013
- GRS trustees, when the plan's actual returns were higher than the assumed rate of return, paid a portion of the positive variance between the actual investment return and the assumed rate of return in an additional pension check to already retired pensioners in what is commonly referred to as the "13th check" program
- The City periodically deferred its required year-end PFRS contributions, and then borrowed to pay those deferrals with debt priced at a rate of 8%;
- Retirement System officials have been accused and/or indicted of material fiduciary misconduct, allegedly draining the pension of necessary liquidity and contributing to the underfunding of the Retirement Systems.⁴⁷

Pension Treatment

The City's Plan of Adjustment proposes to "freeze" the accruing of pension benefits under the terms of the City's legacy pension plans and, effective June 30, 2014, institute restructured, distinct pension plans for the City's active employees. For the current employees, their future pensions will be a combination of that which was accrued under the legacy plan through June 30, 2014, and after that date, what will be accrued under the new revised plan as detailed below. For the City's retirees,

⁴⁷ Declaration of Charles M. Moore in Support of Detroit, Michigan's Statement of Qualifications Pursuant to Section 109(c) of the Bankruptcy Code; Docket No. 13; Page 10

depending on whether they are members of PFRS or GRS, the POA proposes to modify their accrued benefits under the legacy pension plans via reductions in gross pensions, cost of living adjustments, or reductions in investment earnings in the Annuity Savings Program.

Active City Employees

The Plan of Adjustment proposes a “hybrid” pension plan for the City’s active employees for their accrued employment time after June 30, 2014. The adjusted pension plan – for both PFRS and GRS – endeavors to combine the features of a fixed contribution plan with the estimated investment performance of a fixed benefit plan. The City and its actuaries constructed this hybrid plan to generate accrued pension payments to its active employees upon retirement commensurate with a 6.75% estimated annual investment return.

For active PFRS employees, the updated pension formula will be equivalent to their Final Average Compensation (“FAC”) – defined as the average base compensation (excluding overtime, sick leave, longevity, etc. over the last ten consecutive years) times years of service times 2.0%. For example, a theoretical PFRS employee whose FAC was \$40,000 with 25 years of experience would accrue an annual pension of \$20,000 ($\$40,000 \times 25 \times 2.0\%$). This calculation represents

the defined benefit portion of the new hybrid plan. The defined contribution portion of the new plan incorporates an annual 12.25% contribution from the City of employees' base compensation and requires an employee contribution of 6%, if the employee was hired before July 1, 2014, or 8% if hired after that date. In addition, PFRS employees will be eligible for retirement at ages 50-52, depending on their rank, with twenty-five years of service.

The revised GRS pension plan for active employees is similar to the PFRS plan, albeit adjusted for Social Security (GRS pensioners are eligible for Social Security in contrast to PFRS pensioners). The updated pension formula will be equivalent to FAC over the last ten consecutive years times years of service times 1.5%. For example, a theoretical GRS employee whose FAC was \$40,000 with 30 years of experience would accrue an annual pension of \$18,000 ($\$40,000 \times 30 \times 1.5\%$). The City will contribute 5.75% of the employee's base compensation annually, while the employee will contribute 4%. In addition, GRS employees will be eligible for retirement at age 55 with thirty years of service.

Proposed POA Restructured Terms

	PFRS	GRS
Pension Formula	FAC x # of years x 2.0%	FAC x # of years x 1.5%
Investment Return	6.75%	6.75%
ER Contribution	11-12% of base compensation	5% of base compensation
EE Contribution	Hired before 7/1/14: 6%; after 7/1/14: 8%	4% of base compensation
Retirement Age	Age 50-52 with 25 years experience	Age 55 with 30 years experience
COLA Eligibility	0-1% compounded, variable	Variable after 4 years and 100% funded
Annuity Savings Fund	n/a	Interested credit at actual return (0-5%)
Theoretical Annual Pension (\$40k FAC with 25/30 years experience)	\$20,000 = \$40,000 x 25 x 2.0%	\$18,000 = \$40,000 x 30 x 1.5%

The fundamental amendments to the future pension plans lend themselves favorably to the POA's feasibility. Redefining base compensation as an average of the last ten years' pay as opposed to last three, eliminating non-base compensation such as overtime and sick leave from the calculation, reducing the estimated rate of return, and incorporating a defined employee contribution all contribute to the increased likelihood that the City can meet the requirements of the new pension plan. A concern remains, though, that embedded within the "hybrid" nature of this pension plan, is the concept that a fixed contribution will, *over time*, produce the required, fixed benefit. Pension plans with fixed contributions are generally just that -- defined contribution plans, not defined benefit plans. To the degree that the actual investment return underperforms the targeted levels or the employee population exhibits life expectancies in excess of the actuarial assumptions, the City has the potential to again be saddled with an underfunded pension plan.

Current Retirees

The combined UAAL for both Retirement Systems was approximately \$3.5 billion as of June 30, 2013. The City's Plan of Adjustment, for the current retirees' pension plan, establishes targeted funding rates by the end of fiscal year 2023 for each Retirement System, specifically 75% for PFRS and 70% for GRS, based upon a heavily-negotiated 6.75% assumed investment rate of return. While I assume this investment rate of return as a "given" in all pension analyses to follow, further discussion with regards to the appropriateness of this assumed investment rate of return, and more particularly, its use as the assumed liability discount rate, is detailed below. These targeted funding levels, combined with the proposed benefit reductions for each pension plan, dictate the required cash contributions to the Retirement Systems during the period ending June 30, 2023. The POA proposes that the City will amortize the remaining UAAL for each Retirement System – as of June 30, 2023 – over the following thirty-year timeframe.

The following graph illustrates, per the City's actuary – Milliman, Inc. – the estimated funding levels for PFRS and GRS at ten-year intervals during the period FY2014-2053⁴⁸. Based on the City's actuarial tables, the POA projections assume

⁴⁸ Both PFRS and GRS plans are forecasted to initially have decreasing funding levels; PFRS is forecasted to decrease from 87% in FY2015 to 78% in 2023; GRS is estimated to decrease from 74% in FY2015 to 65% in FY2043

that the pension plans' funding levels significantly improve in the last ten years of this forty year period in question⁴⁹.

The POA assumed investment rate of return of 6.75% was a heavily negotiated component of the POA amongst the City, its retirees, the Retirement Systems, the Retiree Committee, and the labor unions. The POA stipulates that the board of trustees of the PFRS and GRS “must” maintain a 6.75% investment return assumption through the period ending June 30, 2023; thereafter, that rate is at the discretion of the Retirement Systems. While the new, proposed rate is more conservative than the historically-used 7.9% and 8.0% rates, current debate abounds as to whether a municipal pension plan, that is not 100% funded, should use any rate for its liability discount rate other than the government risk-free rate.

⁴⁹ Milliman, Inc. letter, dated May 7, 2014

The following table illustrates where the City's proposed 6.75% investment rate compares to other comparable municipal pension plan assumptions⁵⁰:

<u>Public Pensions - Assumed Investment Returns - Dec 2013</u>	
City of Detroit	6.75%
Connecticut Teachers	8.50%
Houston Firefighters	8.50%
Ohio Police & Fire	8.25%
Ohio PERS	8.00%
Michigan Municipal/SERS/Public Schools	8.00%
U.S. National Average	7.72%
CALPERS	7.50%
Indiana PERF/Teachers	6.75%
DC Police & Fire/Teachers	6.50%

Pension Funding

In an effort to partially alleviate the City of Detroit's liquidity concerns and to fund some portion of the proposed RRI's in the first ten years, the Plan of Adjustment incorporates dedicated external funding for the Retirement Systems aimed at reducing the respective UAALs, portions of which the receipt is predicated upon Classes 10 (PFRS) and 11 (GRS) voting to accept the Plan. The following analyses illustrate the POA's proposed funding sources for the respective Retirement Systems over the 2014-2053 timeframe encompassed in the POA's 40 Yr Plan.

Plan of Adjustment – Proposed PFRS Contributions – FY2014-2053

⁵⁰ NASRA Issue Brief: "Public Pension Plan Investment Return Assumptions"; April 2014

(\$ Millions)	2014 - 2023	2024 - 2033	2034 - 2043	2044 - 2053
City-specified Contributions				
State of Michigan	\$ 96	\$ -	\$ -	\$ -
Foundations (DIA Settlement)	\$ 165	\$ 201	\$ -	\$ -
Other/City GF	\$ -	\$ 416	\$ 465	\$ 311
Total	\$ 261	\$ 618	\$ 465	\$ 311

Plan of Adjustment – Proposed GRS Contributions – FY2014-2053

(\$ Millions)	2014 - 2023	2024 - 2033	2034 - 2043	2044 - 2053
City-specified Contributions				
DWSD	\$ 429	\$ -	\$ -	\$ -
UTGO	\$ 32	\$ -	\$ -	\$ -
State of Michigan	\$ 99	\$ -	\$ -	\$ -
DIA (DIA Settlement)	\$ 45	\$ 55	\$ -	\$ -
Other/City GF	\$ 115	\$ 575	\$ 474	\$ 318
Total	\$ 719	\$ 630	\$ 474	\$ 318

In order of magnitude, the City-specified contributions in the 2nd, 3rd, and 4th decades reflect the estimated 30-year amortization payments on the respective plans' UAALs at June 2023. The DWSD is expected to contribute to GRS roughly \$428 million from FY2015-2023, constituting DWSD's allocable share of the remaining GRS UAAL, after considering the pension modifications proposed in the POA. The State of Michigan has committed to contribute the present value of \$350 million, approximately \$194 million⁵¹, for the benefit of pensioners. The State's contribution, signed into law by Governor Snyder on June 20, 2014, requires the approval of Classes 10 and 11, requires support from the Retirement Systems,

⁵¹ The \$350 million contribution is discounted at the 6.75% rate.

cessation of all bankruptcy-related litigation, and the full commitment of other external financing sources dedicated to the pension plans.

In addition to the identified pension funding sources highlighted above, the POA assumes implementation of the DIA Settlement, in which the City, DIA, and certain charitable foundations agree to irrevocably transfer the DIA art collection to the DIA Corporation. The art will be held in perpetual charitable trust within Detroit's city limits, in exchange for future payments of \$366 million, pledged by the charitable foundations, and a commitment from the DIA Corporation to raise \$100 million. Both DIA Settlement commitments are designated to be paid into the pension plans over the next twenty years.

The following tables illustrate the proposed funding contributions into PFRS and GRS for the fiscal years 2014-2023:

Plan of Adjustment – Proposed PFRS Contributions – FY2014-2023

Fiscal Year	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	10 Year Total

Plan of Adjustment – PFRS (Class 10)

The POA proposes two alternative restructuring scenarios of the PFRS pension, with the respective depth of the assumed pension cuts being dependent on whether *both* Classes 10 and 11 approve the Plan of Adjustment.

PFRS – Scenario A

In the event that both Classes 10 and 11 vote for the POA, with an assumed investment return of 6.75% and a targeted funding rate of 75% in 2023, the POA proposes that PFRS pensioners will receive 100% of their current/accrued pension, but will have their lifetime Cost of Living Adjustments (“COLAs”) reduced by 55%. With COLAs estimated to represent approximately 18% of the total PFRS liabilities, the proposed 55% COLA elimination translates into a 9.9% reduction in estimated PFRS liabilities.

PFRS – Scenario B

If either Classes 10 or 11 vote against the POA, and maintaining the assumed investment return of 6.75% and a targeted funding rate of 75% in 2023, PFRS pensioners will still receive 100% of their current/accrued pension, but their lifetime COLAs will be completely eliminated.

Plan of Adjustment – GRS (Class 11)

Similar to Class 10, the POA proposes two alternative restructuring scenarios of the GRS pension, with the respective depth of the assumed pension cuts being dependent on whether *both* Classes 10 and 11 approve the Plan of Adjustment.

GRS – Scenario A

In the event that both Classes 10 and 11 vote for the POA, with an assumed investment return of 6.75% and a targeted funding rate of 70% in 2023, GRS pensioners will receive 95.5% of their current/accrued pension, will have their lifetime COLAs eliminated, and pensions will be subjected to a maximum of a 15.5% recoupment of their Annuity Savings Fund excess return⁵³. The combined impact of these proposed changes represents an approximate 27% reduction in

⁵³ Not all GRS retirees will be subject to ASF recoupment; only those retirees who ASF annual return, for FY2004-2013, was greater than the plan assets' actual return up to a maximum recoupment of 15.5% of the pensioner's peak ASF balance

GRS's estimated liabilities comprised of 4.5% from reduced pensions, roughly 9% from the Annuity Savings Fund recoupment, and 14% from the eliminated COLAs.

GRS – Scenario B

If either Classes 10 or 11 vote against the POA, and maintaining the assumed investment return of 6.75% and a targeted funding rate of 70% in 2023, GRS pensioners will receive 73% of their current/accrued pension, will have their lifetime COLAs eliminated, and the ASF recoupment will vary from 0.01% to 100% of a retiree's pension, based upon the excess amount of the pension. The combined impact of these proposed changes represents an approximate 50% in GRS's estimated liabilities comprised of 27% from reduced pensions, roughly 9% from the Annuity Savings Fund recoupment, and 14% from the eliminated COLAs.

General Retirement Systems of the City of Detroit Projection of Liabilities and Assets Scenario A

Assuming 4.5% Benefit Reduction, 100% COLA Reduction, 70% Funded Status, Annuity Savings Fund Recoupment, and 6.75% Investment Return⁵⁴

Pension Restoration

The Plan of Adjustment incorporates, for both PFRS and GRS, the potential for previously-reduced pension benefits to be restored if the funding levels of the respective Retirement Systems improve to agreed-upon restoration levels at designated timeframes, the fiscal years ending 2023, 2033, and 2043. These pension restoration payments are designed to be variable, in that, they are only distributed to

the pensioners if the investment performance of the pension plans is at least three percentage points above the targeted funding levels.

The pension restoration thresholds, for both PFRS and GRS, are perpetually three percentage points above each pension plan's targeted funding level throughout the FY2014-2053 time period. If the funding levels exceeds the plan's restoration targeted funding level, i.e. are more than 3 percentage points above the targeted funding level, monies will be allocated to a "restoration reserve account". Once the restoration reserve account equals at least 10% of the lifetime value of the previously-reduced COLA payments, restoration payments will commence in the following year. According to the POA, restoration payments for PFRS will be conditional until 2023, and until 2028 for GRS. If, as a result of the funds' assets subsequently underperforming the targeted investment levels, which would mean that the returns fall below the 3 percentage point threshold for restoration payments, COLA restoration payments are immediately suspended. Beginning in FY2023 for PFRS and FY2028 for GRS, to the degree the plans' funding levels are in excess of the restoration targeted levels, those specific restoration payments become fixed, or "guaranteed", going forward.

It should be clearly understood, in FY2023 (FY2028 for GRS), FY2033 and FY2043, the *maximum* funded level of the GRS and PFRS is the amount shown in the table below. As a result of the negotiations with the parties, the provisions of the

POA relative to the pension settlements ensure that the pension plans at these benchmark dates will never be funded above the restoration funding rate for either the PFRS or GRS plans. If the funding level is above this targeted amount at the benchmark dates, the excess will be swept to a permanent restoration fund such that the funding level will be reduced to the amount shown. In the event that the funding levels at these benchmark dates are below these levels, the City is responsible for this unfunded amount and must fund it in the future. Therefore, as the City considers the average rate of return, it must keep in mind it is “giving away” some of the upside, yet retaining all of the downside.

The following table summarizes both PFRS and GRS’s targeted and pension restoration funding levels for the 2014-2043 timeframe (pension restoration payments cease in 2043)⁵⁵.

	PFRS		GRS	
	Funding Target	Restoration Target	Funding Target	Restoration Target
2014-2023	75%	78%	70%	73%
2024-2033	81%	84%	70%	73%
2034-2043	84%	87%	70%	73%

Impact on Feasibility

⁵⁵ Multiple Milliman, Inc. Pension reports; multiple Phoenix discussions with Jones Day attorneys re: Pension plans

There is considerable debate regarding the selection of the discount rate for calculating liabilities in government sponsored defined benefit (DB) plans. At one end of the debate is the thought that the discount rate of liabilities should equal the expected return on pension assets; at the other end is the thought the liabilities have a very strong contractual and legal requirement and therefore represent a certainty of payment and therefore should be discounted at, or near, the risk free rate. This seemingly academic question has real world consequences when viewing Detroit's POA and its perceived feasibility.

The Nelson A. Rockefeller Institute of Government's recent analysis on this issues - The Blinken Report - dated January 2014, notes⁵⁶:

The problem begins with mismeasurement of liabilities and the cost of funding them securely, for financial reporting purposes. The proper way to value future cash flows such as pension benefit payments is with discount rates that reflect the risk of the payments. This is separate from the question of the rate pension funds will earn on their investments.

This bears repeating: The proper rate for valuing pension liabilities on financial statements is separate from the question of what pension funds will earn on their investments. Different rates may be appropriate for valuing liabilities than for assumed investment returns — and we recommend, later, that different rates be used. The major

⁵⁶ The Blinken Report- Strengthening the Security of Public Sector Defined Benefit Plans, dated January 2014. Donald J Boyd and Peter J Kiernan. *Expert's Note: In the preface of this Report special note is made of the contribution to the analysis and work by Dick Ravitch. Mr. Ravitch is Judge Rhodes' non-testifying consultant in this chapter 9.*

significance of valuing liabilities incorrectly is that it leads to inadequate funding policies, and encourages the mistaken belief that benefits can be greater, services can be greater, or taxes lower while still funding benefits securely. (Blinken Report Emphasis)

Because pensions are promises that should be kept, and have strong legal protections, they should be valued using discount rates that reflect the riskiness of expected benefit payments. Unfortunately, the longstanding practice for public pension plans in the United States, developed before modern financial theory, is to use the expected return on pension fund assets to value liabilities, even though there is no logical connection between how much is owed to workers and what assets will earn. This practice is not used by public pension plans in other countries, or by private plans in the United States, or by economists or financial analysts valuing other cash flows. Our nation's public pension plans stand virtually alone, and recent accounting rule changes by the Governmental Accounting Standards Board (GASB) have not addressed this properly. Rates that reflect the expected risk of benefit payments ordinarily are much lower than the rates public pension funds use to value liabilities, and as a result, public pension liabilities are underestimated by at least \$1-2 trillion, and the annual costs of funding them securely are underestimated by at least \$100-200 billion.

The City of Detroit, in its POA, has used a rate of 6.75% to discount the liabilities of the pension plans. This rate is lower than the historical rates that PFRS and GRS have previously used and lower than recent investment returns, although recent market returns are heavily impacted by the recovery from the Great Recession. It is also low relative to peers (see previous chart on comparison of Assumed Investment Returns of comparable public plans). In fact, there are few other major government sponsored plans that use a lower rate to discount the liabilities in their pension plans. On the surface, this appears to be a conservative

assumption. However, I am not convinced that the City appreciates the opportunity it has to provide stewardship in this area. Highlighting that the City's assumptions are low relative to history, a history that got them to this place, and low relative to their peers - peers who collectively may be underfunded by \$2 trillion or more, is not much consolation.⁵⁷

We believe that the selection of a discount rate has relevance as to the feasibility of the Detroit POA, in that, in the future without the benefit to change pension obligations, pension funding requirements become a de facto first priority on cash flows. This results in crowding out other cash flow priorities. The City must be continually be mindful that a root cause of the financial troubles it now experiences is the failure to properly address future pension obligations. Below we address two main concerns regarding the selection of the discount rate for valuing future liabilities in the Plan.

The investment return at 6.75% appears to be based on future investment returns. This rate clearly reflects a rate above the current risk free rate of return and therefore indicates a level of assumed volatility and risk. The argument for using a discount rate that is related to investment returns typically states that using a rate

⁵⁷ Blinken Executive Summary pg. vii.

that is higher than the risk free rate is acceptable due to the long “runway” of a municipal pension. The argument goes: a municipal entity differs from an individual in that, as an individual ages, they typically must moderate their investment behavior towards lower risk investments due to shortening time horizons and, therefore, often lock in losses in down markets. The argument continues: the long time horizon of a municipal pension plan allows it to avoid this phenomenon. Of course, pension plans are not able to defer plan payments during down markets, and therefore, in significant down markets, the loss of principal as a result of making payments to pensioners, without offsetting investment returns, can result in a plan that “locks in” losses. These “locked in” losses create underfunding.

Further, the current POA contemplates Pension Restoration provisions. These provisions essentially allow pension plan beneficiaries to have some opportunity for restoration of lost pension benefits. Post confirmation, until June 2023 for PFRS and June 2028 for GRS, if the pension plans exceed 78% for PFRS or 73% for GRS, despite still being underfunded nearly 22% and 27%, respectively, additional funds can be set aside into a pension restoration fund. The funding levels and the ability of beneficiaries to receive restoration benefits are limited to actuarial and investment return adjustments and not to additional city contributions. However, under this plan, the City can be underfunded in FY2043 and still be in the mode of restoring pension benefits to then existing retirees. Based on the settlement terms and the

assumptions made, there does not appear to be recognition that a pension plan, someday, will need to be 100% funded. The City appears to adopt an institutional philosophy of underfunding.

On top of the conceptual argument that funding targets should be set at no less than 100%, before additional commitments are made to increase benefits, a larger concern exists. The City's assumption of a 6.75% rate of return implicitly requires the City to accept risk and volatility. Volatility is, of course, a positive and a negative force. At times, the City should be expected to achieve returns above 6.75% and, at times, the City should expect returns below this level. Over the past 10 years, the Retirement Systems have seen significant variations in their investment returns both above and below the average return. Again, this is the argument for municipal pensions to use investment returns because over the long term, there should be smoothing. Because the City's defined benefit plans are essentially in runoff, they will inevitably experience declining asset levels. In this environment of declining assets and volatility, returns over time are not equally weighted.

Thus, order matters when returns are volatile. It is much better to receive high returns early and low returns later, even though both streams provide the same simple average growth rate. Examples of the impact of timing on returns in a given 10-year period are detailed in the Sensitivity section below. This is not a trivial

issue, even though it is quite technical. As pension funds mature and net outflows increase, asset values will be more volatile and more susceptible to the order in which returns occur. In an environment in which expected returns are low in the short term — as the current low-interest-rate, low-inflation environment may be — funds cannot simply balance low returns in the short term with high returns later; they will need much higher returns later because investible assets will be lower than they otherwise would have been.⁵⁸

As example from the Blinken report: *Blinken Report Footnote #96*

Consider a pension fund that has net outflows equal to 4.5 percent of assets, with benefits and contributions both growing 7 percent annually (roughly consistent with recent experience). If it earns 4 percent on investments for five years, followed by 12 percent for five years, its assets at the end of ten years will be nearly 13 percent lower than if the returns come in the opposite order, even though annual average return is 7.9 percent either way. $[(1.04^{10} \times 1.12^{10}) - 1 = (1.12^{10} \times 1.04^{10}) - 1 = 7.93\%$.] If the fund earns 4 percent for ten years followed by ten years of 12 percent, its assets after twenty years would be 90 percent less than if returns had come in the opposite order. These calculations assume no change in contributions to amortize asset shortfalls in the early years. Amortization would narrow the difference between the two sequences of returns.

⁵⁸ Blinken pg 25.

Further exacerbating this issue, the City is agreeing to give up part, or maybe all, of its upside investment returns by virtue of the pension restoration benefits, but it is retaining all of the downside risk. If the funds' assets participate in a bull market in the first ten years of the POA, and the pension plans move to a funded level of 88%, the City would provide significant restoration benefits. If this bull market was then followed by a five year bear market, all of the restoration benefits paid during the bull market would serve to exacerbate the unfunded level of the pension plans and the City could be responsible for considerable funding risk.

It appears that the combination of a need to continue to invest in assets with risk and volatility in order to achieve investment returns and the restoration benefit to the pensioners, even at a level of low plan funding, acts as a one sided collar. That is, the City gives away much of the upside in investment earnings, while retaining all of the downside investment risk.

Legality of POA's Proposed Pension Cuts

Numerous parties in this bankruptcy, namely employees, retirees, Retirement Systems, and certain labor unions, have argued that the City is not legally able to

impair accrued pension benefits as they are protected under Article IX, Section 24 of the Michigan State Constitution of 1963. These same groups were granted permission to appeal the Bankruptcy Court's eligibility ruling to the U.S. Court of Appeals for the Sixth Circuit. To the degree that these parties are successful in their appeal of the Bankruptcy Court's eligibility ruling, the City's chapter 9 could be dismissed or may be unable to effectuate reductions in accrued vested pension benefits.

Sensitivity Analysis

The Society of Actuaries issued a *Report of the Blue Ribbon Panel on Public Pension Funding* in February 2014. The Blue Ribbon Panel recommended stress tests measuring the effect of investment returns over a 20-year period that are three percentage points above and below those used in calculating standardized plan contributions⁵⁹. The panel believes that +/- 3% points represents "plausible stresses" based on its review of prior market returns⁶⁰.

⁵⁹ The Society of Actuaries "Report of the Blue Ribbon Panel on Public Pension Plan Funding"; February 2014

⁶⁰ The Society of Actuaries "Report of the Blue Ribbon Panel on Public Pension Plan Funding"; February 2014

In response to my request for a sensitivity analysis for the pension plans assuming various average rates of return for the FY2014-2023 period and the aforementioned scenarios of 1) a bear market 5-year period followed by a bull market 5-year period and 2) a bull market 5-year period followed by a bear market 5-year period, the City's actuary has analyzed the PFRS plan.

As illustrated below, if the PFRS plan averages a 6% rate of return (75 basis points lower than the assumed rate of return) over the nine years ending June 2023, the plan is forecasted to be only 70% funded in June 2023, resulting in an additional \$236 million of unfunded liability versus the POA projections. That unfunded variance expands to \$527 million if the PFRS plan averages a 5% rate of return during this time period. Finally, if PFRS is negatively impacted by a bear market/bull market cycle (as opposed to the inverse) with five years averaging 0% followed by five years averaging 10%, the pension plan would have \$342 million more in unfunded liabilities during the 10-year period in question.

PFRS Average Rate of Return Scenario Analysis⁶¹

Average Rates of Return July 2014 - June 2023	Estimated Funding Status June 2023	Estimated Projected Unfunded Liability June 2023	Estimated Projected Unfunded Liability Variance
3.00%	43%	\$ 1,717	\$ 1,036
5.00%	60%	\$ 1,208	\$ 527
6.00%	70%	\$ 917	\$ 236
6.75%	78%	\$ 681	\$ -
8.00%	92%	\$ 252	\$ (429)
0% - 1st 5 years; 10% - 2nd five years	53%	\$ 1,439	\$ 758
10% - 1st 5 years; 0% - 2nd five years	64%	\$ 1,097	\$ 416

We have requested sensitivity analysis for GRS consistent with the PFRS sensitivity analysis highlighted above. At the time of this Report's release, we have not been provided the GRS sensitivity analysis.

Recommendations on Reporting Requirements

The City of Detroit will be bound by numerous reporting requirements and financial oversight when it emerges from bankruptcy. Going forward, these intended protocols are designed to assist the City in managing its cash flow and liquidity relative to its POA commitments and its future budgets. In addition, it will be important for the City to report its financial condition to various constituencies on a regular basis.

⁶¹ Milliman, Inc. letter; dated July 9, 2014

Timely, accurate financial reporting relating to the City's pension plans will be an essential tool as the retirement systems manage the plans' assets and liabilities and make critical decisions regarding future estimated rates of returns and annual funding requirements. At the end of June 2012, the Governmental Accounting Standards Board ("GASB") issued standards intended to reform how state and local governments report the financial status of their pension funds and how they finance them. GASB 67 defines how government pension funds must report finances related to pension activities. GASB 68 pertains to state and local government reporting of activities associated with pension finances.⁶² Both GASB standards are effective in FY2015 and will enhance the City's financial disclosures relating to its pension plans.

As the asset features and credit quality of the pension plans' investments evolve over time, so, too, will the reporting corresponding to those investments. The City's pension plans should establish a baseline level of financial reporting that will be accurate and illustrative of the condition of the pension plans at any point in time. The Society of Actuaries' report recommended that actuarial funding reports should contain, for at least the previous ten years, information presenting the relationship of benefit payments, funding liabilities, and assets to payroll; the relationship

⁶² Governmental Accounting Standards Board

between the recommended contribution to payroll and to the sponsor's budget or revenue source; and the ratio of contributions made to the total recommended contribution.⁶³

Additionally, to understand current risk levels, three benchmarks should be disclosed:

- 1) The expected standard deviation of investment returns of the asset portfolio on the report date;
- 2) The plan liability and normal cost calculated at the risk-free rate, which estimates the investment risk being taken in the investment earnings assumption; and
- 3) A standardized plan contribution for assessing the aggregate risks to the adequacy of the recommended contribution.⁶⁴

Further, we recommend that the City disclose the gross liability and the UAAL by year on an undiscounted basis. This will allow third parties a better understanding of the changes in the liabilities from year to year.

Section K - Human Capital and Leadership

Detroit's fifty year decline was caused by changing demographics, economics and the failure of elected officials to respond effectively. The downward spiral finally resulted in the City filing for Bankruptcy. Beyond the financial crises, the City has suffered from a deterioration of the efficiency and effectiveness of its City's workforce, as measured by the cost of service delivery versus the benefit the citizens received from those services.⁶⁵ Inadequate investment in human capital and poor leadership during the decline served to exacerbate the situation.

At its core, this chapter 9 is a fundamental change project. The City, through the guidance of its bankruptcy advisors, has fundamentally changed the City's balance sheet and reduced its long term obligations. The Emergency Manager has begun the even harder task of reshaping the operations of the City for the benefit of the taxpayers. The Mayor, and other elected and appointed officials, will need to continue this part of the change project. Human capital and leadership are two of

COLLECTIVE BARGAINING AGREEMENTS	155

thereon, provided that the DROP Accounts are held and invested within the Retirement System.

- (6) The Medical Benefits Account Fund shall be the fund in which shall be accumulated the amounts contributed to the Retirement System for the purposes of funding Medical Benefits, together with earnings thereon.
- (7) The Expense Fund shall be the fund to which shall be credited funds, if any, provided to the Retirement System by the City to pay the administrative expenses of the Retirement System, and from which shall be paid certain expenses incurred in connection with the administration and operation of the Retirement System.
- (8) The Income Fund shall be the Fund to which shall be credited all interest, dividends, and other income derived from the investments of the assets of Component I of the Retirement System and earnings thereon, all gifts and bequests received by Component I of the Retirement System, and all other moneys credited to Component I of the Retirement System, the disposition of which is not specifically provided for in this Article 9. There shall be paid or transferred from the Income Fund, all amounts required to credit earnings and losses to the various Funds of the Retirement System in accordance with the provisions of Component I of this Combined Plan Document. Amounts credited to the Income Fund in excess of amounts needed to credit earnings and losses of the Retirement System as provided in this Component I for any Plan Year shall be used in the following manner in the following order: (i) to pay administrative expenses of Component I (to the extent there are insufficient funds for this purpose credited to the Expense Fund), and/or (ii) transferred to the Pension Accumulation Fund and used to pay Retirement Allowances and other benefits on account of Members.

Sec 9.3. Method of Financing Retirement System Benefits

- (1) The pension liabilities for Members under this Component I shall be determined by the Plan's Actuary using the Entry Age Actuarial Cost Method of actuarial valuation.
- (2) The City's annual contribution to finance the prospective pension liabilities during the nine Plan Year period commencing July 1, 2014 and ending June 30, 2023 shall be (a) eleven and two-tenths percent (11.2%) of the Compensation of active employees who are members of the DFFA (for pay periods ending on or before November 6, 2014) and members of DPOA (for pay periods ending on or before October 3, 2014) and (b) twelve and one-quarter percent (12.25%) of the Compensation of active employees who are members of the DPCOA, the DPLSA, the DPOA (for pay periods beginning on or after October 3, 2014) and the DFFA (for pay periods beginning on or after November 6, 2014). A portion of the City's annual contribution for each Plan Year shall be credited to the Pension Accumulation Fund and a portion shall be credited to the Rate Stabilization Fund, each amount as determined by the City in its sole discretion. For plan years commencing July 1, 2023 and later, the accrued pension liabilities for Members shall be determined by the Actuary using reasonable and appropriate actuarial assumptions approved by the Board and the Investment Committee. The City's annual contributions to finance the normal cost of benefits and any such unfunded accrued pension liabilities

shall be determined by the Actuary amortizing such unfunded accrued pension liabilities over a period or periods of future years as established by the Board and approved by the Investment Committee.

- (3) Except as provided in Section 9.5, for each Plan Year, a Member who was an active employee as of June 30, 2014 ("current active") shall contribute to the Retirement System an amount equal to six percent (6%) of his or her Compensation for such Plan Year and a Member who is hired or rehired by the City on or after July 1, 2014 ("new employee") shall contribute to the Retirement System an amount equal to eight percent (8%) of his or her Compensation for such Plan Year. A Member's Mandatory Employee Contributions for the Plan Year beginning July 1, 2014 and ending June 30, 2015 shall commence as of the Member's first payroll date occurring in August 2014. The officer or officers responsible for processing the payroll shall cause a Member's Mandatory Employee Contributions to be deducted from the Member's Compensation on each and every payroll, for each and every payroll period, from the later of (i) the Member's first payroll date occurring in August 2014 and (ii) the Member's date of hire, to the date he or she ceases to be an active Member. The contribution shall be deducted from a Member's Compensation, notwithstanding that the minimum compensation provided by law for any Member shall be reduced thereby. Payment of compensation, less said Mandatory Employee Contributions, shall be a complete discharge of all claims and demands whatsoever for the services rendered by the said Member during the period covered by such payment. Member Mandatory Employee Contributions will be used for the purpose of funding the normal cost of the Retirement System.

Sec 9.4. Member Contributions Picked-Up

- (1) The City shall pick up Member Mandatory Employee Contributions required pursuant to Sections 9.3(3) and 9.5 in accordance with Code Section 414(h).
- (2) The picked-up contributions, although designated as employee contributions shall be treated as City contributions for the purpose of determining a Member's tax treatment under the Internal Revenue Code. The City shall pay the contributions picked-up on behalf of a Member from the same source of funds that are used for paying compensation to the Member.
- (3) The City shall pick up Member Mandatory Employee Contributions by a reduction in the Member's cash salary or an offset against a future salary increase, or both. The City shall designate the Mandatory Employee Contributions that are picked-up and paid to the Retirement System as employer contributions and not as employee contributions. No Member who participates in the Retirement System shall have the option of choosing to receive the contributed amounts directly instead of having those amounts paid by the City to the Retirement System.

Sec 9.5. Fiscal Responsibility: Benefit Reductions and Increased Funding Obligations

- (1) To safeguard the long-term actuarial and financial integrity of the Retirement System, in the event the funding level of Component I of the Retirement System projected over a

granted the express right to seek to preliminarily enjoin such action without the need to show irreparable harm.

Sec 16.2. Investment Management

- (1) For purposes of this Combined Plan, "investment management decisions" and "investment management matters" shall include:
 - (a) development of an investment policy statement with sound and consistent investment goals, objectives, and performance measurement standards which are consistent with the needs of the Retirement System;
 - (b) within 120 days after the effective date of the Plan of Adjustment, placement of all of the assets of the Retirement System not already under qualified management with qualified investment managers selected by the Investment Committee;
 - (c) evaluation, retention, termination and selection of qualified managers to invest and manage the Retirement System's assets;
 - (d) review and affirmation or rejection of the correctness of any and all calculations, actuarial assumptions and/or assessments used by the Actuary including, but not limited to (i) those underlying the restoration of pension benefits, funding levels and amortization thereof, all in accordance with the pension restoration program attached to the Plan of Adjustment (as more fully described in Article K of Component II of this Combined Plan Document), (ii) those underlying the determination of annual funding levels and amortization thereof, and (iii) on or after Fiscal Year 2024, the recommended annual contributions to the Retirement System in accordance with applicable law;
 - (e) in accordance with approved actuarial work as provided in paragraph (d) above and based on the annual actuarial valuation reports and any other projections or reports as applicable from the Actuary or other professional advisors, the determination of the extent of restoration of pension benefits, including but not limited to the payment of all or a portion of the lost COLA payments, all in conformance with the pension restoration program attached to the Plan of Adjustment;
 - (f) communication of the Retirement System's investment goals, objectives, and standards to the investment managers, including any material changes that may subsequently occur;
 - (g) determination and approval of the Retirement System's investment and asset allocation guidelines, taking into account the appropriate liquidity needs of the Retirement System;
 - (h) the taking of corrective action deemed prudent and appropriate when an investment manager fails to perform as expected;

- (i) interpretation of Retirement System governing documents, existing law, the Plan of Adjustment or other financial determination that could affect funding or benefit levels;
- (j) review and approval, prior to final issuance, of the annual audit and all financial reports prepared on behalf of the Retirement System and meet and confer with the Auditor or other professional advisors as necessary prior to approval of the annual audit or other financial reports;
- (k) determination of the funding status of the Retirement System and any remedial action to be taken pursuant to Section 9.5; and
- (l) performance of an asset/liability valuation study for the Retirement System every three years, or more often as requested by the Investment Committee or the Board.

All actions of the Investment Committee shall comply with the provisions of pertinent federal, state, and local laws and regulations, specifically *Public Act 314* and *Plan Investment Guidelines*.

Sec 16.3. Best Practices

Prior to adopting investment guidelines and asset allocation policies, selecting investment managers or adopting investment return assumptions, the Investment Committee shall have an understanding of and shall give appropriate consideration to the following:

- (a) the fiduciary best practices and institutional standards for the investment of public employee retirement system plan assets;
- (b) the objective to obtain investment returns above the established actuarial investment return assumption to support the restoration of benefits under the pension restoration program described in the Plan of Adjustment and Component II of this Combined Plan Document, to the extent that it is prudent and consistent with the overall funding, liquidity needs and actuarial assumptions governing the Retirement System; and
- (c) the liquidity needs of the Retirement System.

Sec 16.4. Chief Investment Officer

The Investment Committee shall have the exclusive power to select, retain and terminate the services of a chief investment officer for the Retirement System. The Investment Committee shall determine any and all compensation and other terms of employment of any chief investment officer hired by it. The chief investment officer shall report directly to the Investment Committee and the Executive Director of the Board. The chief investment officer shall be responsible for assisting the Investment Committee and the Board with respect to oversight of the Retirement System's investment portfolio. The chief investment officer shall

Detroit — During a summer of multiple mass shootings, an explosion in carjackings and random gun violence, dozens of Detroit cops are leaving the police force for neighboring agencies, despite the city's efforts to stem the blue flight to the suburbs.

The Detroit Police Department has lost 223 sworn officers since January, an average of about 28 per month. With four months remaining in the year, the number of outgoing officers has already more than doubled the 103 cops who turned in their DPD badges in 2021.

About half the officers who have left this year joined suburban law enforcement agencies that are struggling to fill their own vacant positions amid a nationwide labor shortage, Detroit police officials said. Other officers went to police departments outside Metro Detroit, officials said.

The departure of Detroit cops to the suburbs for more money, better benefits and safer working conditions has been an issue for years, despite repeated attempts by the city and police department to halt the exodus. In the most recent effort, the Detroit City Council in March approved a proposal by Mayor Mike Duggan to pay each officer a \$2,000 "retention incentive bonus."

When the bonuses were announced March 8, 19 officers had left the department in 2022. Since then, another 204 have departed as of Wednesday.

"One of the big issues we have is, we're losing officers to the suburbs at a good rate," Detroit Police Assistant Chief David LeValley said. "We get them, train them in the academy and then the suburban agencies are not shy about recruiting and taking our officers."

But one factor driving Detroit police to other departments is the "lack of respect" officers in the city often encounter, said Steve Dolunt, a former Detroit Police assistant chief who retired in 2017.

"You arrest someone, and they get right back out because judges are giving low or no bonds," Dolunt said. "You've got people spitting on you, antagonizing you, egging you on, while someone else

13-55846-tjc Doc 1356324 Filed 10/9/22 Entered 10/21/22 16:52:49 Page 36 of 100

is filming you with their cell phone. People are getting in the officers' faces and saying, 'If you arrest me, I'll be back out tomorrow.'

"A lot of officers are saying, 'Screw it, I'll go to work in the suburbs, where I can make more money and I don't have to deal with all that crap,'" Dolunt said. "Can you really blame them?"

Detroit isn't the only city losing cops in recent years. A June 2021 nationwide survey by the Police Executive Research Forum of 194 police departments showed a nearly 20% increase in resignations in 2020-21 compared with the previous year.

But the emigration of Detroit officers has been especially significant, with the 326 cops who have left since 2021 representing 14% of the current police force. Longtime current and ex-DPD officials say they've never seen so many officers resigning in such a short period.

LeValley said ramped-up recruitment efforts have resulted in 138 new officers being hired this year, bringing the force up to 2,250 sworn officers, still 200 short of the 2,450 budgeted positions. Another 61 recruits are expected to graduate by the end of the year, LeValley said.

But replacing experienced officers with rookies comes at a cost, Dolunt said.

"It takes years to learn the city's culture," said Dolunt, who led various street units during his 31-year career, including the Violent Crimes Task Force. "A lot of these kids are from the suburbs, and they don't know how to deal with the different situations that come up on the job.

"There are things you can only learn by being out in the street; you can't learn them in the academy, and you need people with experience to patrol a city like Detroit. You've got kids out there with no experience, and the people training them only have a few years on the job themselves. That's not good."

Spike in violence

There were 30 DPD resignations in August, a violent month in Detroit that included 33 homicides, 112 non-fatal shootings, 56 sexual assaults and 116 robberies and 26 carjackings, according to police statistics.

Aside from a 38% increase in carjackings, there has been a decrease in most violent crimes in Detroit this year. Homicides were up 2%, but nonfatal shootings are down 13%, sex assaults down 11% and overall violent crime down 12% year-to-date from the same Aug. 1-30 period in 2021.

But there has been a recent spike in violence, including 24 nonfatal shootings and nine homicides last weekend. There have been three mass shootings in the city since July 31.

And then there was the tragic death this summer of Officer Loren Courts, who was killed when he and his partner were ambushed while responding to a 911 call reporting shots fired on the city's west side.

"Our officers are dealing with all sorts of dangerous situations every day," said Mark Young, president of the Detroit Lieutenants and Sergeants Association. "Our manpower numbers are down, but look at the way the officers handled that shooter (19-year-old Dontae Smith, who was charged Wednesday with initiating a shooting spree that left three people dead).

"DPD is out there performing with valor, but if we don't start paying our officers a competitive wage, with competitive benefits, this hemorrhaging is going to continue," said Young, whose union is in contract negotiations with the city, along with the Detroit Police Officers Association and the Detroit Command Officers Association.

The three unions' contracts expired July 1, but the parties agreed to extend the pact to continue negotiating.

'Not nearly enough'

Starting annual salary for Detroit police officers is about \$42,000, LeValley said. That compares with starting yearly salaries of \$51,861 in Warren, \$44,160-\$54,355 in Southfield and \$49,346 in Sterling Heights.

"The mayor and the chief are committed to getting a new contract, and there's no question we need to get our pay competitive with other agencies," LeValley said. "The starting pay was \$28,000 in 2014, so there has been progress, although it's not nearly enough."

Detroit is one of the few municipalities in Michigan that pays for officer training. Other departments require candidates to foot the bill for Michigan Coalition on Law Enforcement Standards training, which state officials estimate can run from about \$6,000 to \$10,000.

Candidates often take the free training and then bolt for higher-paying jobs in the suburbs. For years, Detroit officials have complained about representatives from other police agencies showing up at the Detroit Police Academy to recruit officers as soon as they graduate.

"A lot of these officers are leaving for other departments as soon as they walk across the stage (during their Detroit Police graduation ceremonies)," Dolunt said. "Although there are a few suburban departments that won't take officers right out of the academy."

Ronald Haddad, who spent 34 years on the Detroit police force, said he hired several ex-Detroit cops while serving as Dearborn chief from 2008-20 — "but when they'd apply right out of the police academy, I wouldn't take them," he said.

"I wouldn't hire them until at least they'd gone through their (one-year) probationary period," Haddad said. "I think they should have to give back something in return for the training that Detroit paid for. Plus, there was the matter of them not having any experience. I just didn't think they were good hires."

Taylor Police Chief John Blair said he also rejects applicants fresh out of the Detroit Police Academy but said he's "hired a bunch" of officers from Detroit in recent years, including four who are scheduled to start in September.

"We don't hire officers out of the academy, but what we are doing is offering lateral transfers, and that's made a huge difference," said Blair, whose department pays a starting annual salary of "just over \$50,000."

"We were struggling tremendously to fill open positions, but then the City Council and the mayor backed us offering lateral transfers, and where we had three to four people on the hiring list, now we have 18," Blair said.

"With lateral transfers, you're paid at a higher rate, depending on your level of experience, similar to what happens in the corporate world," Blair said. "A lot of departments are starting to go to lateral transfers to attract officers."

Blair said Taylor allows officers to transfer up to five years of their experience, and that five-year police veterans start at about \$75,000 annually.

More money, benefits

Detroit Police Capt. Aric Tosqui, vice president of the Detroit Police Command Officers Association union, said when he talks to outgoing police officers, "they tell me they're leaving for more money, better benefits and a better pension system."

"Those are things that are out of our hands as supervisors, so we try to do what we can, such as making for a good work environment, and stress things like health and wellness, making time for family, and explaining that there's a lot of room for advancement here," Tosqui said. "If you go to a department that has 20 people, it may be 10 years before you're promoted. Here, you can advance fast."

"But it's a different conversation when it's a young officer who's thinking about leaving, as opposed to someone who's older," Tosqui said. "We just had a sergeant in the 10th Precinct who had 33 years of DPD service, who retired and is now working for the (Oakland County Sheriff's Office). It's harder to talk those officers into staying."

LeValley said Duggan recently approved paying officers double-time instead of time-and-a-half for overtime shifts.

"Offering double-time was like the (retention) bonuses — it's a show of good faith that we believe the officers should be making more money, and while we're going through contract negotiations, it's a way for us to incentivize the worker," he said.

Paid to leave

During the early discussions of the plan to give \$2,000 bonuses to Detroit officers and \$1,000 to part-time police assistants, Council President Mary Sheffield suggested spreading out the bonus payments over the course of a year, said her spokesman, Brian White.

"There were concerns about paying the entire amount up front because we were afraid officers would just take the money and leave, which is what happened," White said of the bonuses that were paid for by using \$5 million in federal American Rescue Act funds, some of the city's General Fund and money that was allotted for overtime.

"But, it was a short conversation; the administration didn't want that," White said. "They didn't give a reason."

Duggan spokesman John Roach said the ongoing negotiations with the three police unions played a role in how the bonuses were paid.

"It was clear last year that the contract negotiations with the three police unions were going to be so complicated that they were going to run well past the June 30 expiration," Roach said in an email.

"Chief White was very concerned about officer morale during this period and felt that the city needed to deliver a concrete show of good faith, letting the officers know the city was genuinely committed to raising their compensation for the long run.

"No one at DPD believed a one-time of \$2,000 was enough of an incentive to change the mind of an officer leaving for higher compensation in another department. DPD leadership felt strongly that it would be ineffective if structured as a retention bonus with a specific time requirement, but would be much more effective as a show of good faith to help get through a difficult negotiation process."

White, Sheffield's spokesman, said despite the councilwoman's misgivings about paying officers in one lump sum, she voted to pass the measure anyway.

"Nobody wanted to be seen as not supporting police officers," he said.

Detroit police officers to get pay raises under new agreement

'I was extremely pleased when we got the notice in September that we had \$35 million to \$45 million more than we expected'

Megan Woods, Reporter

Published: **September 30, 2022 at 8:30 PM**

Tags: **Detroit, Detroit Police Department, Mayor Mike Duggan, Chief James White, Local, Detroit Police Officers Association, DPOA, Mark Young**

It's been a significant problem plaguing Detroit police for years, but now a new deal with the city's police unions is raising pay for officers and helping keep them on the force.

DETROIT – The **Detroit Police Department** is trying to fill 300 vacancies while keeping the officers they do have, and they plan to do it by increasing pay. **Mayor Mike Duggan**, Detroit police **Chief James White**, and union leaders made the announcement Friday morning.

Rumors about pay bumps had leaked within the department before the announcement, and White says because of that, they are already getting feedback.

"Already, as of yesterday, I had five officers hand walk to my office a request to return to the police department," said White. "That's the impact; five officers from suburban agencies."

It says a lot given that the Detroit Police Department lost 72 officers in August and September alone, and two-thirds of those went to other police departments.

The agreement with the lieutenants and sergeants union would raise the pay of detectives by \$11,000, sergeants by an average of \$10,000, and lieutenants by an average of \$11,000.

Duggan says the money is coming from the city's income tax revenue after having a revenue estimating conference in February and again in September.

"I was extremely pleased when we got the notice in September that we had \$35 million to \$45 million more than we expected as far as I was concerned the number one priority was public safety," Duggan said.

White said he knows the change in pay will make a difference.

"You can't have the number of officers that we're going to hire without having a robust training program, and there's money here to pay our trainers separate and apart from patrol, something we didn't have in the past," White said.

Mark Young, president of DPOA, said, "All we want is this to be a better place for people to live, work, play, and to socialize. I'm already receiving calls from people trying to come back to our department, which is a good sign."

To move forward, unions must approve the agreement within a week. Duggan says they will also need to submit a budget amendment for \$25 million for the contract to go into effect.

17

1 promised people pension and it had promised people
2 healthcare. Those were two promises that, in our view, were
3 important promises, and so we always viewed our job as trying
4 to represent and advocate on behalf of both of those
5 promises.

6 Q Okay. And how did that play out in terms of -- I don't
7 want you to talk about discussions with the city or
8 mediation, but in terms of the negotiations, was the
9 committee willing to give a little on one side in order to
10 get more on the other, or --

11 A Early in the case -- early in the case, the committee
12 determined that pensions would be a priority, and I think
13 there were a number of different reasons for that, but, in
14 any event, the committee concluded that there were other
15 options, at least to a degree, on the healthcare. And while
16 changes in retiree healthcare would be very painful for
17 people, the committee determined perhaps because we believed
18 we had a better legal argument on the pension, perhaps
19 because of people's emotional connection to their pension,
20 for a constellation of reasons, the committee strongly
21 believed that the priority should be on pensions. And so as
22 we approached the situation, that's what we did on behalf of
23 the committee, and the committee, as it advocated for itself,
24 determined that its highest priority was protecting the
25 pension. And, again, our initial position was the pension

1 should remain untouched in its entirety, but pretty early on
2 we signaled that we could see a compromise in the OPEB, in
3 the retiree insurance arena.

4 MR. WAGNER: Your Honor, just note my objection. To
5 the extent the testimony is being offered as the witness'
6 subjective views concerning OPEB and pension, I believe
7 that's not relevant with respect to the reasonableness of any
8 settlement, and also to the extent that OPEB and pension are
9 being combined we have an objection.

10 MR. SOTO: A separate objection, your Honor, would
11 also be that to the extent the witness is talking about
12 anything that has to do with the mediation, I think the
13 mediation order is still in place, and it's hard for me to
14 figure that out yet.

15 THE COURT: Well, I think it's a little bit broad to
16 prohibit the witness from talking about anything that has to
17 do with mediation. What the Court's order prohibits is
18 disclosure of anything that took place during mediation, and
19 the Court will abide that order, of course. Beyond that, the
20 objections are overruled. You may proceed.

21 BY MR. BARNOWSKI:

22 Q Did the committee have any other goals going into the
23 negotiations with the city? And, again, don't talk about
24 what was talked about with the city or the actual
25 negotiations.

1 A No. I would talk about how we approached it.

2 Q Right.

3 A The committee's objective, at least as I perceived it and
4 as one of their advisors what I believe the direction they
5 were giving to me was to do as best as we could -- and I
6 described the relative weighting of the claims, but to do as
7 best as we could to maximize the value of the claims. But we
8 viewed it in a -- within what I would call constraints or
9 context. The committee early on established or believed that
10 the city's objective, which had been stated early on in the
11 June presentation and the city had been very public and vocal
12 about, was a key priority of the proceeding -- and this was
13 before the filing, but even after the filing -- was that
14 Detroit be able to revitalize itself. Detroit had been --
15 and this was well-documented and discussed, you know, quite
16 broadly -- self-evident I think would be fair, at least from
17 my perspective, self-evident, that Detroit had been in
18 decline for a long time. And, you know, I'd been observing
19 that from a distance. And when you work with GM and
20 Chrysler, you can't help observe what's going on in Detroit,
21 so to me those -- that was self-evident that Detroit was in a
22 long-term decline and that part of the test of whether a
23 reorganization would be successful was whether or not Detroit
24 was given a reasonable chance to revitalize itself. So for
25 us we determined for some different reasons which I can talk

1 about, but we determined that anything we put forward we had
2 to in good faith feel was consistent with revitalizing the
3 City of Detroit. We felt that, number one, because we had no
4 expectation -- again, from the beginning, we had no
5 expectation that we were going to get a one-time lump sum
6 cash payout. We had these big claims. They are reducible to
7 present value. In theory, they could be resolved simply by
8 the city, you know, writing a check as it were for the whole
9 amount, and we would go away. We had no expectation that
10 that was feasible. It didn't take, again, long looking at
11 the public documents that the city -- were available to
12 anybody that the city would not be capable of writing
13 enormous checks. So for one -- so one reason we cared about
14 revitalization was at the end of the day we were relying on
15 the City of Detroit to be there to honor these promises out
16 on into the future. And while we felt like we had strong
17 legal arguments that no matter what the city agreed to on
18 pension in this case it should be protected by the
19 Constitution, the reality is, as we observed, when you get
20 yourself in bankruptcy, bad things happen. And so for us to
21 bet -- so we were, whether we liked it or not, betting on the
22 city because our promises, the promise -- the revised
23 promises that the city would make, whatever they would be,
24 would be promises that would pay out over time, and so we had
25 to have belief that revitalization could occur because if the

1 city continued in this long-term decline, the revised
2 promises it made would likely be challenged, not as a legal
3 matter but as a financial matter, so for that reason we were
4 concerned about revitalization. Second -- I'm sorry. Go
5 ahead.

6 Q No. I was going to say were there any other reasons why
7 you were interested in revitalization?

8 THE COURT: Excuse me. Before you answer that
9 question --

10 THE WITNESS: Yes, sir.

11 THE COURT: -- was the "we" that you referred to
12 many times in that answer you, Lazard, the committee, you and
13 Lazard, or some other answer?

14 THE WITNESS: Okay. Well, I was the leader of the
15 Lazard team, so I think I can speak for Lazard on this
16 matter. And I think I am reflecting the views of the
17 committee, yes. It is also Lazard's view, but I think in
18 this case it's coincident with the view of the committee --

19 THE COURT: Okay.

20 THE WITNESS: -- yes.

21 THE COURT: It would help me if you could -- if you
22 could explicitly state who your answers refer to.

23 THE WITNESS: Yes, sir. Okay.

24 BY MR. BARNOWSKI:

25 Q So the question was --

1 THE COURT: We're waiting for -- we're waiting for a
2 question. What was your question?

3 MR. BARNOWSKI: Right.

4 BY MR. BARNOWSKI:

5 Q The question was were there any other reasons why the
6 committee was interested in the city's ability to revitalize
7 itself through this bankruptcy?

8 A Yeah. I think the -- I think the committee also believed
9 that the political overlay -- this is a political
10 environment. The city is a political entity. There are many
11 stakeholders who are political entities who are involved in
12 this case whether it be the -- whether it be the other
13 counties or whether it be the State of Michigan itself, and
14 our perception -- the committee's perception was they had a
15 keen interest in revitalization as well, and so, again, we
16 felt like to put ourselves adverse to that view that
17 revitalization was key, we thought to put ourselves adverse
18 to that would make it very unlikely that we would be
19 successful in our advocacy to bring other stakeholders into
20 support of our overall view. So irrespective of whether we
21 were getting a long-term payout, which we were, but separate
22 and apart from that, we believed that the resolution of this
23 case would involve the -- would include the involvement of
24 other stakeholders, and, again, reading the newspapers,
25 watching -- and, again, everyone on the committee, you know,

1 lived in and around Detroit. They had views of what the
2 politics were, and so, again, the committee felt like being
3 on the wrong side of revitalization was just not a place that
4 would get us where we needed to go.

5 Q Okay. Now, you talked a little bit about the committee's
6 goals or purposes going into the negotiations. I want to
7 fast forward a little bit and just ask you did the committee
8 achieve all it hoped to do through the negotiations?

9 A No, I don't think we achieved all that we hoped to
10 achieve. Certainly in the beginning, again, we had been very
11 public and vocal about the fact that we thought the pensions
12 should be left untouched. I believe what the committee
13 thought and the reason they determined to support the plan
14 was we believe that we received enough, that it was enough to
15 get -- again, in the context of the situation, given the
16 constraints I've prior talked about, given the reality of the
17 various other stakeholders and the other contending matters
18 in the case, and given the alternative in the city's
19 solicitation, we felt like support of the plan was
20 appropriate and in the best interest of the people we were
21 representing. But there was -- you know, there was enormous
22 disappointment by the members of the committee that they were
23 going to be recommending to their fellow retirees that they
24 vote in favor of having their pensions reduced. That's a --
25 you know, in my experience, that's a challenging thing to ask

1 an elected or appointed representative to do.

2 Q Did the committee believe that the settlement proposal
3 would further the city's ability to revitalize itself in the
4 ways that you've described?

5 A I think the committee felt that the -- our settlement and
6 the POA generally would help to facilitate the revitalization
7 of the city. There are no guarantees. We did not view there
8 is guarantees, but we believed that it was a reasonable
9 amount that could be done in the context of a court
10 proceeding to set the stage for possible revitalization.

11 Q Okay. And putting aside the financial means of
12 revitalization, were there other purposes of the
13 revitalization or ways that the plan would further
14 revitalization in the committee's mind?

15 A Well, one thing we observed, some of it in the plan and
16 some of it simply in the city's behavior as we watched them
17 negotiate with us and with other entities, was we saw the
18 city taking a different view toward its workforce, and,
19 again, our view was that a workforce that is motivated and
20 excited about the opportunity to participate in the
21 revitalization of Detroit is an important element of that
22 revitalization. You know, we believed that the city needed
23 money, just, you know, money to remove blighted houses, to
24 buy new police cars, et cetera, and that was critical, and
25 that had to be provided for in the plan, but at the end of

Judge Thomas J. Tucker

Chapter 9

***EX PARTE* MOTION FOR OR LEAVE TO FILE SUR-REPLY**

The Police and Fire Retirement System of the City of Detroit, by its undersigned counsel, Clark Hill PLC, files this *ex parte* motion for leave to file a sur-reply in support of its response to the City's *Motion to Enforce Plan of Adjustment and Require 30-Year Amortization of the UAAL in the Police and Fire Retirement System Pension Plan* (the "Motion") [Dkt. No. 13602], as follows:

1. The City initially filed the Motion on August 4, 2022. The Motion was thirty pages in length and had fourteen exhibits.
2. PFRS filed a response to the Motion on September 9, 2022. [Dkt. No. 13634]
3. The City filed a Reply in support of the Motion which was twenty-two pages in length, contained eleven additional exhibits, and presented a total of 259 pages of additional information to the Court. [Dkt. No. 13663].
4. The Court recently set the Motion for a hearing on February 8, 2022.
5. In its Reply, the City raised several new legal and factual issues that the PFRS would like to respond to in writing before the hearing in order to give the

Court the opportunity to fully review the PFRS's response and consider its argument prior to the hearing on February 8, 2022. The hearing is set to be conducted by Zoom and as a result, it will presumably be more convenient for both the City and the Court to have a copy of the PFRS's response in writing prior to the hearing.¹

6. The PFRS has prepared a sur-reply in the same page length that the City submitted for its Reply, although the length of the sur-reply exceeds the typical page limit requirements. Given the complexity and importance of the issues addressed in the Motion, however, the PFRS requests the length of the response brief be extended to 22 pages, which is the same length of supplemental briefing submitted by the City.

7. The PFRS sought concurrence from the City to file a sur-reply and the City did not object to the PFRS filing a sur-reply; however, the City objected to the length of the sur-reply prepared by the PFRS.

WHEREFORE, the PFRS respectfully requests that the Court enter an order, substantially in the form attached as **Exhibit 1**, granting the PFRS leave to file a sur-reply in support of its response to the Motion.

¹ The hearing is currently set to be conducted by Zoom. To the extent the Court believes it may be more effective to conduct the hearing in person due to the volume of the papers and exhibits submitted, the PFRS will certainly appear for the hearing in person.

Respectfully submitted,

I. INTRODUCTION

Once again proving the PFRS’s entire point, the City has attached twenty-six separate documents to its papers in an effort to convince this Court what *another* document says. The City points to these twenty-six other exhibits—over 300 pages in total—in an attempt to show what *the Plan* allegedly says. Remarkably absent from the City’s Reply, though, are citations to salient pages or excerpts from *the Plan*. The Plan is not the testimony of the City’s witnesses. The Plan is not the Financial Projections. The Plan is not the Confirmation Opinion.

Under the Plan itself, as set forth in the PFRS’s Response, funding policy decisions (which is what an amortization period is) fall squarely within the ambit of the PFRS Board and Investment Committee. Further, the amended PFRS Pension Plan (the “PFRS Pension Plan”) sets forth the payment procedures for Component II (the legacy/frozen plan) and it clearly states that “after July 1, 2023... the City shall pay such contributions to the Retirement System *during the ensuing Fiscal Year*.” It does *not* say “after July 1, 2023... the City may pay such contributions over thirty years.” And unlike the Financial Projections that the City hangs its hat on, this Court has already held that the amended PFRS Pension Plan is part of the Plan of Adjustment and supersedes any settlement terms that were not expressly included in the Plan. As a result, this quoted language from the PFRS Pension Plan clearly trumps a mere “assumption” used by the City in formulating its Financial Projections—projections which were used to demonstrate the *feasibility* of the Plan but which were not, in and of themselves, “the Plan.”

But because the Plan is not favorable to the City, it instead seeks to build a record of circumstantial evidence to argue that the Plan *must* include a 30-year amortization period; otherwise, the Plan would not have been feasible. While the “record” from plan confirmation is largely irrelevant, as the Plan itself is controlling, the record is clear that ten years ago, at the time of confirmation—even with (i) the amount of the pension underfunding that would exist in 2023 being a complete unknown, and (ii) no amortization period set in stone—the City’s financial expert, the Court’s independent feasibility expert, and this Court all agreed the Plan was still feasible. Plus, feasibility is a red herring because the City *has* the money to pay using the shorter 20-year amortization period selected by the PFRS (it just does not want to).

In the end, after canvassing the entirety of the confirmation trial record in an effort to drum up evidence that a 30-year amortization is required under the Plan, the *only* place the City could find an explicit reference to an amortization period was in the Financial Projections, which were only briefly summarized by the Court—and in a footnote, no less—in the Confirmation Opinion. In the face of express language in the State Contribution Agreement giving the PFRS discretion to set its own funding policies and express language in the PFRS Pension Plan requiring payment by the City “during the ensuing Fiscal Year”, however, the City’s reliance on the Financial Projections falls flat and its Motion should be denied.

II. LEGAL ANALYSIS

A. Under The Terms Of The Plan, The PFRS Does Not Need To Allow The City To Amortize *Any* Of The Post-2023 Pension Payments—Let Alone For 30 Years

Treatment of the PFRS Claim is laid out in the Plan as follows—and notably, the only express term in the Plan itself is that the City will pay the amounts owed after 2023, but there is nothing about an amortization period for these payments:

During the Fiscal Years from the Effective date through Fiscal Year 2023, annual contributions shall be made to fund benefits accrued under the Prior PFRS Pension Plan only in the amounts identified on Exhibit II.B.3.1.ii.A. The exclusive source for such contributions shall be certain DIA proceeds and a portion of the State Contribution. **After June 30, 2023 . . . the City will contribute sufficient funds required to pay each Holder of a PFRS Pension Claim his or her PFRS Adjusted Pension Amount in accordance with and as modified by the terms and conditions contained in the Plan and the Prior PFRS Pension Plan, in accordance with the State Contribution Agreement and exhibits thereto[.]”**

(Plan of Adj., Dkt. No. 8045-1, pg. 315 of 809, filed 10/22/2014) (emphasis added).

The Plan says nothing of the 40-year Financial Projections when it describes the treatment of the PFRS claim—it does not cite them, reference them, quote them, or incorporate them as an exhibit. It does, however, expressly incorporate the State Contribution Agreement, which as set forth in the PFRS’s Response, bestows the PFRS Board and Investment Committee with the authority to set the appropriate funding policy for the PFRS. In addition, as will be set forth below, the baseline funding policy for Component II (*i.e.*, the legacy/frozen plan) is laid out in the PFRS Pension Plan, which (unlike the Financial Projections) *is* part of the Plan of

Adjustment, as it was expressly incorporated into the Plan. See *In re City of Detroit*, 614 B.R. 255, 266-67 (E.D. Mich. Bkr. Ct. 2020).

(1) The PFRS Pension Plan Documents Contemplate Full Payment By The City After 2023 With No Amortization Period.

The PFRS would be fully within its rights to insist on a one-time lump sum payment for the contributions owed by the City with *no* amortization period given the discretion it was given in the State Contribution Agreement and the PFRS Pension Plan. Article G to Component II (the Legacy/Frozen Plan)—entitled “Method of Financing”—governs the City’s payments for funding Component II after the ten-year pension hiatus and this section expressly states that payment is due from the City “during the Fiscal Year” the contribution obligation arises:

Sec. G-5. Contributions to and payments from the Pension Accumulation Fund.

Contributions to and payments from the Pension Accumulation Fund shall be made as follows:

(b) Subject to the Plan of Adjustment, for Fiscal Years commencing prior to July 1, 2014, **and on or after July 1, 2023**, the Board of Trustees annually ascertained and reported to the Mayor and the Council **the amount of contributions due the Retirement System by the City**, and the Council shall appropriate and **the City shall pay such contributions to the Retirement System during the ensuing Fiscal Year.** When paid, such contributions shall be credited to the Pension Accumulation Fund.

(c) For Fiscal Years commencing after June 30, 2014 and prior to July 1, 2023, the City shall make contributions to the Pension Accumulation Fund only as provided in the Plan of Adjustment.

(Ex. D to PFRS Response, Article G-5) (emphasis added). Thus, the payment due

“after July 1, 2023” has no amortization period associated with it. Instead, the amended PFRS Pension Plan—which was revised specifically to address the changes under the Plan of Adjustment—explicitly states that the City “shall pay such contributions to the Retirement System *during the ensuing Fiscal Year.*” It does not say that after July 1, 2023, the City “may amortize such payment over thirty years.”

The ten-year hiatus followed by a resumption of normal, unfettered payment obligations is echoed in the next section, too, which addresses appropriations by the City:

Sec. G-9. Appropriations prior to July 1, 2014 and after June 30, 2023.

- (a) The Board of Trustees shall certify to the City Council **the amount of the appropriation necessary to pay to the various funds of the Component II** of the Retirement System the amounts payable by the City as enumerated in this Component II, according to legal budget procedure.
- (b) **To cover the requirements of Component II** prior to July 1, 2014 **and after June 30, 2023**, such amounts **as shall be necessary to cover the needs of Component II shall be paid into the Pension Accumulation Fund¹ and the Expense Fund by special appropriations or transfers to the Retirement System**; provided, however that no transfers can be made from the Accrued Liability Fund other than the annual transfer of the scheduled amortizing amount, or transfers under special circumstances pursuant to Section G-4 (as in effect prior to July 1, 2014).²

¹ The “Pension Accumulation Fund” or “PAF” is one of several funds that comprise Component II. (Ex. D to PFRS Response, Article G-1) (“The funds of Component II... shall be the Annuity Savings Fund, Annuity Reserve Fund, Pension Accumulation Fund, Pension Reserve Fund, Deferred Retirement Option Plan Fund, Expense Fund and the Survivors Benefit Fund.”) All payments from the City are paid to the PAF first before being allocated to the other funds.

² The reference to the Accrued Liability Fund and Section G-4 relates to a special account that was set up in 2005 to receive the proceeds from the Certificates of Participation (“COPs”) transaction and that account was dissolved after the City’s bankruptcy. (See Article G-5(b), stating “[a]s soon as practicable following the effective date of the Plan of Adjustment, any amounts remaining credited to the Accrued Liability Fund shall be transferred to the Pension Accumulation Fund and

(Ex. D to PFRS Response, Article G-9) (emphasis added). The PFRS Pension Plan documents state only that the “amount of the appropriation necessary to pay the various funds of the Component II” will be made and that after June 30, 2023, “such amounts as shall be necessary to cover the needs of Component II shall be paid into the Pension Accumulation Fund”—but again, nowhere do these documents state that these payments “shall be paid over thirty years.” Such language simply does not exist.

As the PFRS has repeatedly stated, it has no obligation to allow the City to amortize the payment *at all* (let alone for 30 years). The PFRS has every right to enforce the Plan as written and demand a more aggressive payment schedule for the amounts owed for Component II. However, the PFRS *is* mindful of the City’s desire to fund its reinvestment initiatives. Accordingly, after consultation with its actuaries, the PFRS has set a funding policy that allows the City to pay using a 20-year amortization period—a result which fairly balances the City’s desire to fund its reinvestment initiatives, while still ensuring that the PFRS has faithfully discharged its fiduciary duties to its members. Forcing an amortization period of thirty years as though it is actually written in the Plan of Adjustment is not merited—and the order the City has requested from this Court violates the Plan by stripping the PFRS Board and Investment Committee of their right to make these critical funding policy

the Accrued Liability Fund shall cease to exist.”). Thus, any reference to a “scheduled amortizing amount” in Article G-9(b) relates to the COPs transaction and an account that no longer exists, so this section does not aid the City’s argument that amortization is permitted.

decisions as contemplated by the State Contribution Agreement. The combination of these three inter-related documents (the Plan, the amended PFRS Pension Plan, and the State Contribution Agreement) control over the Financial Projections—which were not referenced or incorporated into the Plan, nor attached as an exhibit.

(2) If The City Had Wanted To Include An Amortization Period For The PFRS, It Knew How To.

The lack of any express term for amortization for the PFRS payment is particularly glaring because in other contexts within the Plan, where amortization periods were expressly negotiated and agreed upon as a material financial term, those amortization periods are explicitly set forth in the Plan itself. For example, for the new LTGO Bonds, the City expressly spelled out the specific amortization terms:

Schedule 1	
Financial Terms of New LTGO Bonds	
Principal:	\$55 million
Interest Rate:	5.65% per annum (first 10 years, 5.00% payable in cash and 0.65% capital appreciation added to principal)
Final Maturity:	23 years
Amortization:	Interest payable semi-annually
	On each anniversary from the sixth through tenth anniversary—\$2 million principal due per year
	On each anniversary from the eleventh through twenty-third anniversary—principal payment equal to one-thirteenth (1/13) of the principal outstanding immediately prior to the eleventh anniversary (approximately \$3,735,115 per year)

(Plan of Adj., Dkt. No. 8045, pg. 282 of 809). Similarly, with respect to the New B Notes, the amortization terms were expressly written out in the Plan itself:

NEW B NOTES
SUMMARY OF PRINCIPAL TERMS¹

On the Effective Date, the City shall issue the New B Notes and distribute them as set forth in the Plan. The definitive documentation governing the New B Notes shall provide generally for the following terms:

Obligation	The City's obligations with respect to the New B Notes shall be a general and unsecured obligation of the City.
Initial Principal Amount	\$632.0 million.
Interest Rate	4.0% for the first 20 years; 6.0% for years 21 through 30.
Maturity	30 years.
Amortization	Interest only for 10 years; amortization in 20 equal annual installments beginning on the interest payment date nearest to the 11th anniversary from issuance.
Disclosure	The City will provide a continuing disclosure undertaking under 17 C.F.R. § 240.15c2-12 in connection with the delivery of the New B Notes.

Id. at pg. 315. No similar language was used for the PFRS claim.

B. The Financial Projections, Maholtra's Summary Chart, And Maholtra's Testimony Are Not "The Plan" And Cannot Be Enforced As The Plan

The City claims in its Reply: "E&Y's 40-year projections confirmed that the POA incorporated a settlement between Kevyn Orr and GRS/PFRS that required 30-year amortizations." (Reply at pg. 12) In support of this statement that the POA "incorporated" a settlement with a 30-year amortization, the City cites two items: (i) Maholtra's testimony, and (ii) Exhibit 723 from the confirmation trial. However, neither of these is "the Plan." Witness testimony is not "the Plan." Exhibits admitted at the confirmation trial are not "the Plan." The "Plan" is a defined term:

273. "Plan" means this plan of adjustment and all Exhibits attached hereto or referenced herein, as the same may be amended, restated, supplemented or otherwise modified.

(Plan of Adj., pg. 23). Unless the exhibit is attached to or referenced in the Plan itself (like the State Contribution Agreement and the PFRS Pension Plan), it is not the Plan.

Moreover, Exhibit 723 from the confirmation trial (attached to the City's Reply as Exhibit 18) is merely a summary chart that according to Maholtra, showed the "key

items of the settlement with GRS and PFRS.” Even this summary chart, though, does not include the word “amortization.” Further, this document was not an excerpt from the Plan. As such, Exhibit 723 was admitted as merely a “demonstrative aide” and was never intended to be substantive evidence of the Plan:

MR. STEWART [from Jones Day]: And just for the record, let’s put up Exhibit 723. . . Do you see Exhibit 723, Mr. Maholtra?

A. I do.

Q. What is this?

A. It shows the key items of the settlement with GRS and PFRS as a part of the plan of adjustment.

Q. Okay. . . could you tell us what are GRS and PFRS?

A. The General Retirement System and the Police and Fire Retirement System.

Q. Do you know off the top of your head what class each is in?

A. Class 10 and 11.

Q. Now, tell us . . . Your honor, if I could, I would move the admission of Exhibit 723 *as a demonstrative exhibit*.

MR. SOTO: No objection, your Honor.

MR. WAGNER: Yeah. No objection as a demonstrative.

THE COURT: It is admitted.

(Ex. G to PFRS Response Brief, Maholtra Tran. at pg. 132-33) (emphasis added). A “demonstrative exhibit” is not substantive evidence and should not be relied upon by a finder of fact. “[D]emonstrative exhibits ‘ha[ve] no probative value in [themselves],’” but “they may be admissible for the purpose of ‘illustrat[ing] oral testimony.’” *Rodriguez v. Village of Port Chester*, 535 F.Supp.3d 202, 218 (S.D.N.Y., 2021) (citation omitted). Courts caution against demonstrative exhibits for precisely the reason presented here—the risk that a demonstrative will improperly relied upon for its “truth.” *Id.* at 219 (noting that when “determining the admissibility of

demonstrative exhibits... courts must carefully weigh whether the exhibits are unduly prejudicial” because the factfinder could “interpret them as real-life recreations of substantive evidence that they must accept as true.”) Unless a summary is being admitted as a summary of a voluminous writing under Fed. R. Evid. 1006 (which Exhibit 723 was not), a summary introduced as a demonstrative aide is “more akin to argument than evidence[.]” *Gomez v. Great Lakes Steel Div.*, 803 F.2d 250, 257 (6th Cir. 1986); *United States v. Milkiewicz*, 470 F.3d 390, 396-98 (1st Cir. 2006) (citations omitted) (noting demonstratives are by definition “less neutral in [their] presentation” and thus not properly considered evidence). Hence, Exhibit 723 should be ignored altogether in favor of the actual Plan language.

Similarly, witness testimony is undisputedly *not* part of the Plan. And even if it was, Maholtra’s testimony actually supports the PFRS’s position:

THE COURT: Excuse me. Before we leave this one [Exhibit 723] . . . Does the plan commit the city to make the payments in your section of the change here called “Future Contributions”?

THE WITNESS: Those contributions are assumed in the plan, your Honor, and the city—

THE COURT: They are what?

THE WITNESS: They are assumed to be made in the plan, your Honor, so the city is in the projections making those payments beyond 2024 into the pension systems in the plan.

THE COURT: My question was a slightly different one. Does the plan commit the city, legally commit the city to make those payments?

THE WITNESS: My understanding is the city is committed to the fund the unfunded liability. I just don’t know—the city and the Retirement Systems have to decide what the amortization methodology is of the UAAL at the end—at the end of year ten, and the city is committed to

fund that underfunded liability. Depending on what amortization schedule gets picked, the payments can change slightly because of the interest rate, but my understanding is the city is committed to make the payments beyond 2024 into those pension systems.

(Ex. G to PFRS Response, Maholtra, 9/29/2014 Hrg. Tran., pg. 139-140). Maholtra's testimony is actually 100% aligned with the PFRS's position: the City is legally obligated to make the payment under the Plan (period) and the amortization (if any) gets decided after year ten.

Lastly, the City's argument that Kevyn Orr and the PFRS reached "a settlement" containing a 30-year amortization period is entirely unavailing. The City blasted this exact argument when the RDPFFA made a similar attempt to claim that it had "reached a settlement" during mediation but the particulars of that settlement did not make their way into the Plan and instead were only on the term sheet from mediation. In the face of that argument, this Court has already held—as it should—that unwritten settlement terms not expressly incorporated in the Plan of Adjustment are not enforceable. *In re City of Detroit*, 538 B.R. 314, 320 (E.D. Mich. Bkr. 2015) (holding that the RDPFFA term sheet was not "incorporated into or made part of the Plan" and thus the term sheet "did not survive confirmation of the Plan"). Although at least in the RDPFFA case, the disputed term was part of a written term sheet signed by the parties, which is not true with respect to the amortization issue. Here, there is even less basis to find the Financial Projections part of the Plan, as they were created unilaterally by the City (without input or approval by the PFRS or any of the other 27

constituents involved in the pension settlement), they were ever-evolving (indeed, they were changed at least ten times by the City's own admission), and the 30-year amortization period was merely an "assumption" baked into the projections by the City's financial expert (presumably because that's what period the City used before the bankruptcy). But perhaps most importantly, financial projections used to show that a plan of adjustment is "feasible" are not *the Plan*. They are merely a piece of evidence used at confirmation trials to demonstrate feasibility but they do not set forth "the Plan."

C. Financial Projections Designed To Demonstrate Feasibility Of A Plan Are Not "The Plan"

The City attempts to convince the Court that its Financial Projections are "part of the Plan" and not extrinsic evidence because they "were among a very few trial exhibits that were incorporated in the Confirmation Opinion and Order." (Reply, pg. 13). But the "Plan" is a defined term and exhibits referenced in the Court's Confirmation Opinion are not part of the Plan:

273. "Plan" means this plan of adjustment and all Exhibits attached hereto or referenced herein, as the same may be amended, restated, supplemented or otherwise modified.

(Plan of Adj., pg. 23). *Of course* the City's Financial Projections were discussed at length in the Confirmation Opinion. They had to be, since demonstrating that the Plan was financially feasible was an element of the City's case. But that is a far cry from one line item in the Financial Projections—which were a guess 40 *years* into the future—being transformed into a "contract" or a promise to perform. The purpose of these Financial Projections were merely to show the Court, hypothetically, how the

City's finances could progress in the future. The City is now treating them as gospel. If the opposite was true (and in some cases it is)—that the City fared worse under its projected financial condition—the City would not be here arguing that it should be held to the projections. If the City's revenues faltered one year and it could not perform as it thought it could a decade ago, the Plan would not retroactively fail the feasibility test and be unwound.

D. Even With The Uncertainty As To Both The Pension Payment Amount And The Amortization Period, The Plan Was Found Feasible

Perhaps the best evidence that the Plan was feasible even without an amortization period set in stone in the Plan is the fact that the City undisputedly *has* the money to pay the unfunded liability for Component II. Under the Plan, the City had ten full years to plan for this part of its financial reorganization, and to its credit, the City planned accordingly and set aside the money. Thus, the Plan as it is actually spelled out in the documents (with no certainty as to the amount of the pension payment after 2023 and with no amortization schedule agreed upon beforehand) *was* feasible as presented to this Court at plan confirmation—in part, because the Plan gave the City *an entire decade* to plan and budget accordingly.

But because the Plan language is not favorable to the City, it instead seeks to build a record of extrinsic evidence to argue that the Plan *must* include a 30-year amortization period; otherwise, the Plan would not have been feasible. The City attempts to backfill this argument by speculating that any other “plan” would not have

been approved by the Court. The record is clear, though. Ten years ago, at the time of confirmation—even with (i) the amount of the pension underfunding after the ten years an unknown, and (ii) no concrete amortization schedule set in stone—the experts and the Court agreed the Plan was still feasible. Kopacz cited the potential wild swing of *over \$1 billion dollars* that could be owed at the end of the ten-year hiatus depending on how the markets fared yet she still concluded it was feasible:

PFRS Average Rate of Return Scenario Analysis⁷

Average Rates of Return July 2014 - June 2023	Estimated Funding Status June 2023	Estimated Projected Unfunded Liability June 2023	Estimated Projected Unfunded Liability Variance
3.00%	43%	\$ 1,717	\$ 1,036
5.00%	60%	\$ 1,208	\$ 527
6.00%	70%	\$ 917	\$ 236
6.75%	78%	\$ 681	\$ -
8.00%	92%	\$ 252	\$ (429)
0% - 1st 5 years; 10% - 2nd five years	53%	\$ 1,439	\$ 758
10% - 1st 5 years; 0% - 2nd five years	64%	\$ 1,097	\$ 416

Kopacz also acknowledged in her Supplemental Report that “the City may have continuing unfunded pension obligations far into the future” and “*these obligations may increase beyond the assumptions presented in the July 2, 2014 financial projections.*” (Ex. F to PFRS Response, Kopacz Supp. Report) (emphasis added).

The City’s financial expert, Maholtra, echoed this exact concern and cited the uncertainty as to the amount of the pension payments due after 2023 as the biggest risk to feasibility. He explained to the Court that unlike the other creditor settlements—which were locked in, both in terms of amount and other economic terms—the pension liability at the end of the ten-year hiatus was not:

THE COURT: Okay. I want to ask you, what are the two or three most critical assumptions in the City's 10-year forecast or projections that concern you the most?

A. The first one, Your Honor, would be the unfunded pension liability of the City at the end of the 10 years because in a lot of this in terms of the settlement to the creditors, we have boxed in what the City's liability will be. On the side of the pensions, we are still using calculations to estimate what that 10-year unfunded liability will be. So that will be my first one as a concern because it's an unknown, it's an estimate, but it's still not boxed in in terms of how we have boxed in our best ability of the other claims.

(Ex. G, Maholtra Hrg. Tr. 9/29/2014, pg. 272). The City pretends as though the uncertainty as to how much would be owed to cover the pension shortfall after the ten-year pension holiday would have prevented the City from being able to prove the Plan was feasible. Not so. “Just as speculative prospects of success cannot sustain feasibility, the mere prospect of financial uncertainty cannot defeat feasibility.” *In re Young Broadcasting Inc.*, 430 B.R. 99, 129 (Bkrtcy.S.D.N.Y.,2010) (citing *In re U.S. Truck Co.*, 47 B.R. 932, 944 (E.D.Mich.1985). “Success need not be guaranteed, so long as the plan has a ‘reasonable likelihood of success.’” *In re Adelphia Bus. Solutions, Inc.*, 341 B.R. 415, 421–22 (Bankr.S.D.N.Y.2003).

The pension-related uncertainties were risks but every plan has some level of risk. The Court even acknowledged this risk but still ultimately found the Plan feasible. *In re City of Detroit*, 524 F.R. 147 at 232 (noting “the risk remains that at the end of FY2023, the UAAL could be much larger than currently projected”).

The City lastly claims the Court’s Confirmation Opinion “adopted and incorporated” the entirety of Kopacz’s report—a report that the City claims “confirms

the 30-year amortization period.” (Reply, pg. 7). This is entirely circular, as Kopacz was just summarizing the same portion of the Maholtra Financial Projection. Neither expert’s report—not the Maholtra Financial Projections and not the Kopacz feasibility report—are part of the Plan of Adjustment. The City pretends that the Financial Projections and the Kopacz feasibility report somehow magically transform into “the Plan.” Feasibility, though, was established by more than just a set of Financial Projections and the Kopacz report—it was established (as the Court expressly listed in its Conformation Opinion) by the testimony of twenty-two witnesses, ranging from Kevyn Orr, Maholtra, Charles Moore, Glenn Bowen of Milliman, Michael Duggan, Brenda Jones (City Council President), Dan Gilbert, and Roger Penske. And exactly none of those witnesses testified that the Plan would only be feasible if the PFRS pension payment in 2023 was paid over a thirty-year period. In fact, to the contrary: both Kopacz and Moore went on record outright *criticizing* the City and the Retirement Systems’ prior use of lengthy amortization periods and cited it as one of a handful of “practices” that led to chronic underfunding and “contributed to a significant shortfall in the two pension plans” (Ex. F to PFRS Response, Kopacz Supp. Report, Dkt. No. 13634-7, pg. 127) (criticizing the use of “renewing 29- (PFRS) and 30-(GRS) year amortization periods for funding the unfunded pension obligations”) (citing Dkt. No. 13).

The City attempts to undermine the PFRS’s assertion in its Response that the City’s own experts did not support a 30-year amortization period by claiming that (i) the

Glenn Bowen deposition testimony cited by the PFRS related to his work early in the bankruptcy case, not at the confirmation phase of the case; and (ii) Chuck Moore’s deposition testimony was an “esoteric and hypothetical discussion of other plan amortization periods[.]” (Reply, pg. 18-19). But the absence of any testimony during plan confirmation from either Bowen or Moore—the two key pension task force experts—in favor of a 30-year amortization period is telling. The reason the record is bereft of any such testimony is because those experts were decidedly *against* long amortization periods and those experts would have been promptly impeached with the testimony cited by the PFRS in its Response if they had shown up at plan confirmation and abandoned their prior unequivocal testimony that lengthy amortization periods were inappropriate for the City. In fact, in addition to his later deposition testimony, Moore’s first-day declaration has an entire section dedicated to his criticism of the 29-year and 30-year amortization periods previously used by the City. In a section literally entitled **“GRS’ Amortization Method Is Unreasonable,”** Moore chastised the use of a 30-year open amortization because “[t]his causes the UAAL to grow rapidly (due to compounding), and essentially ‘kicks the can’ of responsible pension funding ‘down the road.’” (Dkt. No. 13, Moore Declaration at page 8-9) (emphasis in original). He further noted that while “many governmental plans use long amortization periods to fund liabilities—in part to justify lower current contributions to their pension systems—use of a 30-year amortization period on an open-ended basis simply defers indefinitely the

cost to the City of the Systems’ liabilities” which he explained “is especially problematic in mature pension funds like GRS and PFRS[.]” Moore also explained in his declaration that the City asked Milliman to “determine the City’s future contribution obligations using more reasonable amortization periods” and Moore specifically identified more “reasonable” amortization periods as “shorter, closed amortization periods—15 years for PFRS (to account for the fact that the PFRS is already closed for new hires) and 18 years for the GRS.” *Id.* This is *precisely* the position urged by the PFRS’s actuaries (Gabriel Roeder) as set forth in the PFRS Response. Gabriel Roeder advised the PFRS to reject the City’s request for a 30-year amortization period because “[i]n mature legacy plans, the risk of plan insolvency is increased when amortization periods are longer than 10 or 15 years.” (See Ex. J to PFRS Response, Gabriel Roeder Report). This advice is in line with the City’s *own* pension experts’ dim view of lengthy amortization periods.

In short, after fly-specking the entire confirmation record, the City’s whole case hangs on a self-admitted “assumption” used by a financial expert. That “assumption” was then blindly regurgitated by Kopacz in her report without questioning whether it was actually part of the Plan—yet incredibly, the City stretches this to claim that Kopacz “confirmed” in her report that a 30-year amortization was part of the Plan. The PFRS does not dispute that the City may have used a 30-year amortization period a placeholder in its Financial Projections—what it does dispute is that this term was ever formally incorporated into the Plan itself. It was not.

E. The Plan Controls Over The Confirmation Opinion And Order

Contrary to the City's argument, the Plan controls over the conflicting Confirmation Opinion and Order. See e.g., *In Re Davis Offshore, L.P. v. Nancy Sue Davis Trust*, 644 F.3d 259 (5th Cir. 2011). In *Davis Offshore*, an adversary proceeding was filed six months after the plan was finalized and the confirmation order was entered, at which time it was discovered that the release and exculpation provisions contained in the plan were different than the ones set forth in the confirmation order. The scope of the release and exculpation provisions were critical to determining whether the adversary proceeding could move forward because under the plan, claims against the buyer of the debtor's assets in the bankruptcy proceeding were discharged. Under the release in the confirmation order, however, they were not. The bankruptcy court, in analyzing the conflicting interpretations of the plan versus the confirmation order, ruled that as a matter of law, the confirmation order took precedence over the plan. *Id.* at 268. The Fifth Circuit reversed, reasoning:

[A]llowing an order of confirmation always to trump the plan, if the two documents are in conflict, encourages error and abuse. In the flurry of activity that normally precedes plan confirmation, the parties have more likely negotiated and studied the terms of the plan itself than the often boilerplate language embodied in the court's order of confirmation. . . . An error in the confirmation order should not overcome the parties' negotiated deal.

Id. at 268. Moreover, the court continued, "allowing the order of confirmation to stand alone, separate and apart from the plan, in the interpretive process would tempt parties

to insert other provisions in the confirmation order that might not coincide with a plan...[.]” *Id.*

The same is true here. As pointed out in the PFRS’s Response Brief, no less than *twenty-seven* separate parties here heavily negotiated the pension portion of the Plan. The various inter-related documents that form the Grand Bargain (*i.e.*, the State Contribution Agreement and the PFRS Pension Plan) were negotiated by and between numerous parties—the City, State, the Foundations, the two Retirement Systems, and the Retiree Committee. The Plan was voted on by tens of thousands of retirees. A confirmation opinion—and a mere footnote in that opinion, no less—should not “overcome the parties’ negotiated deal.”

The absurdity of the City’s stance is perhaps best illustrated by the fact that the City has now put forth not one, not two, but *ten* iterations of its financial projections, and under the City’s reasoning, each one of these ever-evolving financial projections was binding and could be unilaterally updated and amended by the City until the close of confirmation trial—even if that financial projection altered the specifically negotiated terms by the parties. “At its simplest, a plan is an offer of promises made by a debtor and accepted by the creditors following serious and frequently protracted negotiations. In many of its most vital aspects, a plan is a kind of contract involving, as it does, matters of offer, acceptance, performance and the like[.]” *In re Doty*, 129 B.R. 571, 590–91 (Bkrtcy.N.D.Ind.,1991) (citations omitted). A plan is *not* a unilaterally

crafted financial projection.

F. Neither Law of the Case Nor Res Judicata Apply Here

The City attempts to raise two preclusion doctrines to argue that the PFRS is bound by this Court’s Confirmation Opinion and Order but neither apply.³ Res judicata bars relitigation of a legal “claim” or “cause of action” but it does not apply to a factual issue or a party’s legal position on a discrete issue. “[A] claim is barred by the res judicata effect of prior litigation if all of the following elements are present: “(1) a final decision on the merits by a court of competent jurisdiction; (2) a subsequent action between the same parties or their ‘privies’; (3) an issue in the subsequent action which was litigated or which should have been litigated in the prior action; and (4) an identity of the causes of action.” *Winget v. JP Morgan Chase Bank, N.A.*, 537 F.3d 565, 577–78 (6th Cir. 2008). The parties’ current dispute was not litigated at the confirmation trial, as the City’s recent objection to the PFRS’s decision to utilize a 20-year amortization period was the first time it became apparent that the parties even *had* a disagreement relating to the amortization issue. Moreover, as even Maholtra admitted, the amortization issue was always contemplated to be an issue decided in 2023—at the end of the ten-year pension hiatus—so by definition, it could not have been raised and litigated back in 2013.

³ As an aside, this Court’s ruling that the PFRS Pension Plan is part of the Plan of Adjustment is entitled to both res judicata and law of the case deference. See *In re City of Detroit*, 538 B.R. 314, 320 (E.D. Mich. Bkr. 2015).

Similarly, the law of the case doctrine does not aid the City. “Issues decided at an early stage of the litigation, either explicitly or by necessary inference from the disposition, constitute the law of the case.” *EEOC v. United Ass'n of Journeymen and Apprentices of the Plumbing & Pipefitting Indus. of the United States and Canada, Local No. 120*, 235 F.3d 244, 249 (6th Cir.2000) (quotation omitted). As set forth above, this issue has not been litigated previously in this case. Moreover, while the “‘law of the case’ ... expresses the practice of courts generally to refuse to reopen what has been decided[,]” courts will diverge from a prior ruling if there is a “cogent reason to show the prior ruling is no longer applicable, such as if our prior opinion was a clearly erroneous decision which would work a manifest injustice.” *Brady–Morris v. Schilling (In re Knight Trust)*, 303 F.3d 671, 677-78 (6th Cir. 2002) (quotations omitted). Here, to the extent the Court previously relied on a document that was not the Plan and was inconsistent with the express terms of the Plan, a “cogent reason” certainly exists to depart from (or at least clarify) the footnote in the Confirmation Opinion which summarized the Financial Projection as though it represented the Plan of Adjustment itself.

G. An Adversary Proceeding Is Necessary

The City takes the position that an adversary proceeding is unnecessary. Fed. R. Bank. P. 7001(7) states “[a]n adversary proceeding is governed by the rules of this Part VII. The following are adversary proceedings: . . . (7) a proceeding to obtain an injunction or other equitable relief, except when a chapter 9, chapter 11, chapter 12 or

chapter 13 plan provides for the relief.” (emphasis added). The City’s position is that a mere motion is permissible because the Court has authority under the Plan to issue injunctions to “restrain interference by any Entity with consummation, implementation, or enforcement of the Plan or Confirmation Order.” The City’s stance is that the 30-year amortization is part of the consummation/implementation of the Plan, and therefore, the Court has the authority to issue an injunction to enforce it. Thus, the key issue is whether the 30-year amortization period is, in fact, provided for in the Plan and/or Confirmation Order. If the Court finds that the Plan is silent on the amortization period and finds it necessary to inspect the external record (including the exhibits and testimony from trial) or if the Court finds that the City otherwise needs the funds to implement its “revitalization efforts,” then under FRBP 7001(7), the City needs to invoke an adversary proceeding in order to properly adjudicate this issue.

**UNITED STATES BANKRUPTCY COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION**

In re:

City of Detroit, Michigan,
Debtor.

Case No. 13-53846

Judge Thomas J. Tucker

Chapter 9

**ORDER ADDRESSING TWO RECENT *EX PARTE* MOTIONS, AND
ADJOURNING THE FEBRUARY 8, 2023 TELEPHONIC HEARING ON
THE CITY OF DETROIT’S MOTION TO ENFORCE PLAN OF
ADJUSTMENT, ETC. (DOCKET # 13602)**

The Court is currently scheduled to hold a telephonic hearing on Wednesday, February 8, 2023 at 2:00 p.m., on the City of Detroit’s motion entitled “City of Detroit’s Motion to Enforce Plan of Adjustment and Require 30-Year Amortization of the UAAL in the Police and Fire Retirement System Pension Plan” (Docket # 13602, the “Primary Motion”). Recently, two *ex parte* motions have been filed that are related to the Primary Motion.

First, on January 26, 2023, the Police and Fire Retirement System of the City of Detroit (the “PFRS”) filed an *ex parte* motion entitled “*Ex Parte* Motion for . . . Leave to File Sur-Reply” (Docket # 13675, the “PFRS Motion”). The PFRS should have submitted a proposed order when it filed that motion, but it has not done so, so the Court has not yet acted on it.

Second, earlier today (February 3, 2023), the City of Detroit filed an *ex parte* motion entitled “*Ex Parte* Motion of the City of Detroit for Entry of an Order

Authorizing Filing of a Short Supplement” (Docket # 13676, the “City Motion”).

The Court will now rule on the two pending *ex parte* motions, and finds good cause to enter this Order.

IT IS ORDERED that:

1. The City Motion (Docket # 13676) is granted.
2. The City must file its proposed supplement no later than Monday, February 6, 2023.
3. The PFRS Motion (Docket # 13675) is granted.
4. The PFRS may file its proposed Sur-Reply, which may be modified to also respond to the City’s supplement referred to in paragraph 2 of this Order. The Sur-Reply must be filed, if at all, no later than Monday, February 13, 2023.
5. The telephonic hearing on the Primary Motion (Docket # 13602),¹ currently scheduled for February 8, 2023 at 2:00 p.m., is adjourned to **February 22, 2023 at 2:00 p.m.**

Signed on February 3, 2023

/s/ Thomas J. Tucker

Thomas J. Tucker
United States Bankruptcy Judge

¹ In its *ex parte* motion, the PFRS referred to the hearing as being held by Zoom. That is not correct. The hearing is not being held by Zoom. It is to be held by telephone only. The telephone number and access code to use for the hearing are stated in the January 6, 2023 notice of hearing (Docket # 13674).

**UNITED STATES BANKRUPTCY COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION**

Debtor.

Bankruptcy Case No. 13-53846

Judge Thomas J. Tucker

Chapter 9

**CITY OF DETROIT’S SUPPLEMENT FILED IN CONNECTION WITH
THE CITY OF DETROIT’S MOTION TO ENFORCE
PLAN OF ADJUSTMENT AND REQUIRE
30-YEAR AMORTIZATION OF THE UAAL IN THE
POLICE AND FIRE RETIREMENT SYSTEM PENSION PLAN**

The City of Detroit (“City”), by its undersigned counsel, Miller, Canfield, Paddock and Stone, P.L.C., files this supplement in connection with its *City of Detroit’s Motion to Enforce Plan of Adjustment and Require 30-Year Amortization of the UAAL in the Police and Fire Retirement System Pension Plan* [Doc. No. 13602].

RELEVANT DOCUMENT EXCERPTS

Exhibit 1 – Forty-Year Financial Projections and Explanation of Projected Financial Information from the Disclosure Statement

The Fourth Amended Disclosure Statement with Respect to Fourth Amended Plan for the Adjustment of Debts of the City of Detroit (Doc. No. 4391) was filed and circulated in May 2014. This was the first and only Disclosure Statement served on voters in connection with the solicitation of the plan of adjustment.

Attached as Exhibit 1 to this Supplement is the Forty-Year Financial Projections from the Disclosure Statement¹ and Section XI of the Disclosure Statement which is titled “Projected Financial Information.” Section XI was included to “provide details regarding the City’s projected operations under the Plan, subject to the assumptions set forth below.” Disclosure Statement, p. 170 (Doc. No. 4391, p. 185 of 197). Those assumptions were described in a set of exhibits including “Exhibit K.” *Id.*

Page 173 of 212 of Exhibit K states that the amortization period for the pensions’ unfunded actuarial accrued liability (UAAL) was to be 30 years using a 6.75% discount rate. As discussed in the City’s previous filings, the Opinion and Order approving the final Plan expressly requires 30-year amortization and cites and incorporates the referenced financial projections.

Exhibits 2 and 3 – The version of the State Contribution Agreement attached to the Disclosure Statement and the revised version of the State Contribution Agreement attached to the Plan

Attached as Exhibit 2 to this Supplement is the State Contribution Agreement that was attached to the Disclosure Statement and served on all voting parties for their consideration in deciding whether to vote for or against the City’s proposed plan of adjustment as proposed at that time. Exhibit B to the State Contribution Agreement is a document entitled “PFRS Governance Terms.”

¹ The Forty-Year Financial Projections were Exhibit K to the Disclosure Statement.

Attached as Exhibit 3 to this Supplement is the version of the State Contribution Agreement that was included with the final filed version of the Plan.² Exhibit B to that version of the State Contribution Agreement is a document entitled “PFRS Governance Terms.”

The PFRS Governance Terms circulated to voters did not mention amortization at all. *See* Exhibit 2. The revised version of the PFRS Governance Terms does include two instances of the word. *See* Exhibit 3. They appear in the revised definition of “Investment Management,”³ which includes a “reviewer” role for the Investment Committee concerning calculations made by the Plan Actuary. *See* Investment Management definition, point 4, Exhibit 3, p. 5.

As discussed in the City’s reply brief, nothing in the Governance Agreement purported to give the Investment Committee any authority, let alone “unfettered discretion,” to change the Plan’s express requirement of 30-year amortization. If it had, such a change would have been extraordinarily material. It would have allowed PFRS and GRS to accelerate several **billion** dollars of payments from the Plan specified amortization term of 30 years to whatever shorter term they wanted - based on, in PFRS’ words, their “unfettered discretion.” Such a change would have

² *Eighth Amended Plan for the Adjustment of Debts of the City of Detroit (October 22, 2014)* (Doc. No. 8045).

³ *See* page 737 of 809.

required an explanation to all creditors, as well as notice to the feasibility expert (Ms. Kopacz) and other interested parties, and a new round of balloting. In truth, had PFRS' current position ever been articulated it would have blown up the Plan.

The attached documents, which are part of the record in this case, fully support the City's position that the State Contribution Agreement cannot be read, and was never intended, to give the PFRS and GRS Investment Committees authority to change the Plan's express requirement of 30-year amortization.

ATTORNEYS FOR THE CITY OF DETROIT

SUMMARY OF ATTACHMENTS

The following documents are attached.

- Exhibit 1 Forty-Year Financial Projections and Explanation of Projected Financial Information
- Exhibit 2 Version of State Contribution Agreement Attached to Disclosure Statement
- Exhibit 3 Revised Version of State Contribution Agreement Attached to Plan
- Exhibit 4 Certificate of Service

EXHIBIT 1

Forty-Year Financial Projections and Explanation of Projected Financial Information

XI.

PROJECTED FINANCIAL INFORMATION

A. Projections

Attached to this Disclosure Statement as Exhibit I, Exhibit J and Exhibit K are certain financial documents (together, the "Projections"), which provide details regarding the City's projected operations under the Plan, subject to the assumptions set forth below. In particular, the Projections consist of:

- A ten-year summary of restructuring initiatives, attached hereto as Exhibit I
- A ten-year statement of projected cash flows, attached hereto as Exhibit J
- A forty-year statement of projected cash flows, attached hereto as Exhibit K

THE PROJECTIONS WERE NOT PREPARED TO COMPLY WITH THE GUIDELINES FOR PROSPECTIVE FINANCIAL STATEMENTS PUBLISHED BY THE AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS, THE FINANCIAL ACCOUNTING STANDARDS BOARD, THE GOVERNMENTAL ACCOUNTING STANDARDS BOARD OR THE RULES AND REGULATIONS OF THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION. THE CITY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM HAS NEITHER COMPILED NOR EXAMINED THE ACCOMPANYING PROJECTIONS AND, ACCORDINGLY, DOES NOT EXPRESS AN OPINION OR ANY OTHER FORM OF ASSURANCE WITH RESPECT TO THE PROJECTIONS, ASSUMES NO RESPONSIBILITY FOR THE PROJECTIONS AND DISCLAIMS ANY ASSOCIATION WITH THE PROJECTIONS. EXCEPT FOR PURPOSES OF THIS DISCLOSURE STATEMENT, THE CITY DOES NOT PUBLISH PROJECTIONS OF ITS ANTICIPATED FINANCIAL POSITION. THE CITY DOES NOT INTEND TO UPDATE OR OTHERWISE REVISE THESE PROJECTIONS TO REFLECT EVENTS OR CIRCUMSTANCES EXISTING OR ARISING AFTER THE DATE OF THIS DISCLOSURE STATEMENT OR TO REFLECT THE OCCURRENCE OF UNANTICIPATED EVENTS.

WHILE PRESENTED WITH NUMERICAL SPECIFICITY, THE PROJECTIONS ARE BASED UPON A VARIETY OF ESTIMATES AND ASSUMPTIONS THAT THE CITY BELIEVES ARE REASONABLE (WHICH ASSUMPTIONS ARE DESCRIBED IN FURTHER DETAIL IMMEDIATELY BELOW). THE ESTIMATES AND ASSUMPTIONS MAY NOT BE REALIZED, HOWEVER, AND ARE INHERENTLY SUBJECT TO SIGNIFICANT ECONOMIC UNCERTAINTIES AND CONTINGENCIES, MANY OF WHICH ARE BEYOND THE CITY'S CONTROL. NO REPRESENTATIONS CAN BE OR ARE MADE AS TO WHETHER THE ACTUAL RESULTS WILL BE WITHIN THE RANGE SET FORTH IN THE PROJECTIONS. SOME ASSUMPTIONS INEVITABLY WILL NOT MATERIALIZE, AND EVENTS AND CIRCUMSTANCES OCCURRING SUBSEQUENT TO THE DATE ON WHICH THE PROJECTIONS WERE PREPARED MAY BE DIFFERENT FROM THOSE ASSUMED, OR MAY BE UNANTICIPATED, AND THEREFORE MAY AFFECT FINANCIAL RESULTS IN A MATERIAL AND POSSIBLY ADVERSE MANNER. THE PROJECTIONS, THEREFORE, MAY NOT BE RELIED UPON AS A GUARANTEE OR OTHER ASSURANCE OF THE ACTUAL RESULTS THAT WILL OCCUR.

1. Assumptions

The Projections were prepared by the City with the assistance of its professionals to present the anticipated impact of the Plan. The Projections all assume that the Plan will be confirmed before and implemented on the Effective Date in accordance with its stated terms. In addition, the Projections and the Plan are premised upon other assumptions, including the anticipated future performance of the City, general economic and business conditions, no material changes in the laws and regulations applicable to the operation of municipalities such as the City, and other matters largely or completely outside of the City's control. Each of the Projections should be read in conjunction with the significant assumptions, qualifications, and notes set forth in the Disclosure Statement, the Plan, the Plan Supplement, the Projections themselves, the historical financial information for the County contained or referenced herein, and other information submitted to the Bankruptcy Court during the course of the City's chapter 9 case.

(a) Revenue Assumptions

- Municipal Income Tax. Municipal income tax revenues increase over the period of the Projections due to (i) a general improved employment outlook and (ii) anticipated wage inflation. Projected revenues for Fiscal Year 2013 reflect the impact of certain one-time items, including a tax amnesty program and a one-time benefit from an increase in the capital gains tax rate.
- State Revenue Sharing. Projected revenues for state revenue sharing were developed in consultation with the Treasury. These revenues increase due to anticipated higher tax revenue collections and distribution by the State.
- Wagering Tax. The Projections assume that wagering tax revenues will decrease through Fiscal Year 2015 due to competition from other casinos, primarily those in Ohio, before recovering as a result of an improved general economic outlook.
- Sales and Charges for Services. Revenues from sales and charges for services are projected to decline primarily as a result of the transfer of: (i) vital records operations from the City's Department of Health and Wellness Promotion (the "Health & Wellness Department") to Wayne County effective December 2013; and (ii) electricity distribution services from the Public Lighting Department to third party provider.
- Property Tax. The City projects that property tax revenues will continue to decline through Fiscal Year 2020 as a result of ongoing reductions in assessed property values with modest increases beginning in Fiscal Year 2021.
- Utility Users Tax. The Projections assume that utility users tax revenues will decrease from Fiscal Year 2013 as a result of the transfer of lighting operation, service and repair to the PLA and the related allocation of \$12.5 million of utility users tax revenues to the PLA. Inflationary revenue increases have been assumed beginning in Fiscal Year 2017.
- Other Taxes. Inflationary revenue increases have been assumed for all other taxes, beginning in Fiscal Year 2017.
- Parking/Court Fines and Other Revenue. The amounts provided in the Projections for parking and court fines and other revenue are derived from recent trends.
- Grant Revenue. The City projects that grant revenues will decrease as a result of the (i) transition of the Health & Wellness Department to the Institute for Population Health ("IPH") and (ii) expiration of certain public safety grants.
- Licenses, Permits and Inspection Charges. The amount provided in the Projections for licenses, permits and inspection charges is derived primarily from recent trends. The City's projection for Fiscal Year 2013 includes one-time permit and inspection revenues from utility providers.
- Revenue from Use of Assets. The City's projected revenue for Fiscal Year 2014 includes proceeds from sale of Veteran's Memorial Building.
- Street Fund Reimbursement. Street Fund reimbursement from solid waste revenues are projected to decline beginning in Fiscal Year 2015. The solid waste portion of the Street Fund, therefore, would no longer reimburse the General Services Department (a department accounted for in the General Fund) for maintenance costs.
- DDOT Risk Management Reimbursement. The projected revenues for DDOT risk management reimbursement are based on recent trends. No reimbursement is reflected in Fiscal Year 2013 because, as set forth in subsection (b) below, in Fiscal Year 2013, the General Fund made risk management payments from refunding proceeds.

included for Fiscal Year 2012. The costs for Fiscal Year 2013 exclude a risk management payment, made from refunding proceeds.

- Grant Related Expenses. Projected grant expenses have been captured within the specific expense line items.

(c) Legacy Expenditure Assumptions

- Debt Service. The Projections assume treatment consistent with the Plan.
- COP and Swap Service. The Projections assume treatment consistent with the Plan.
- Pension Contributions. The Projections assume treatment consistent with the Plan.
- Health Benefits (Retirees). The Projections assume treatment consistent with the Plan.

EXHIBIT K

FORTY-YEAR FINANCIAL PROJECTIONS

City of Detroit
Plan of Adjustment - 40 year projections

The attached Plan of Adjustment preliminary forecast (the “POA Financial Projections”), its assumptions and underlying data are the product of the Client and its management (“Management”) and consist of information obtained solely from the Client. With respect to prospective financial information relative to the Client, Ernst & Young LLP (“EY”) did not examine, compile or apply agreed upon procedures to such information in accordance with attestation standards established by the AICPA and EY expresses no assurance of any kind on the information presented. It is the Client’s responsibility to make its own decision based on the information available to it. Management has the knowledge, experience and ability to form its own conclusions related to the Client’s POA Financial Projections. There will usually be differences between forecasted and actual results because events and circumstances frequently do not occur as expected and those differences may be material. EY takes no responsibility for the achievement of forecasted results. Accordingly, reliance on this report is prohibited by any third party as the projected financial information contained herein is subject to material change and may not reflect actual results.

Plan of Adjustment - 40 year projections
Assumptions
(\$ in millions)

Plan of Adjustment - 40 year projections		
General Fund Cash Flows	GF 40yr cash flows	\$4.2b funds available for unsecured claims
	DIP financing	Quality of Life (\$120m @ 6.5% assumed to be refinanced as part of exit facility)
	Exit financing	\$300m note @ 6.0% maturing in FY23
	Swap treatment	\$85m settlement
	Contingency	Reflects 1.0% of total revenues
Revenue stream from DWSD	Pension	\$429m for pension in the first 10 years
	OPEB	12.1% of OPEB - current retirees payments
	POC	11.5% of total POC payments
Reimbursement from other funds	Reimbursements from Parking (non-GF) and Library	
Hypothetical art proceeds (a)	Foundations	\$366m over 20 years
	DIA	\$100m over 20 years
Hypothetical State settlement (a)	Contributions to pension	\$195m in FY15
Hypothetical claims treatment		
PFRS		
Pension	Contributions (years 1-10)	Estimated to be \$261m from foundations / State settlement
	Contributions (years 11-40)	UAAL as of June 30, 2023 estimated to be ~\$681m (b) amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	78%
GRS		
Pension	Contributions (years 1-10)	Estimated to be \$99m from State settlement; \$429m from DWSD; \$45m from DIA; \$146m from GF & other funds
	Contributions (years 11-40)	UAAL as of June 30, 2023 estimated to be ~\$695m (b) amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	70%
UTGO	Hypothetical Note A	\$287.5m note funded with pass-through UTGO millage
Other unsecured	Hypothetical Notes B	\$650m note paid over 30 years - \$450m OPEB, \$18m LTGO, \$162m POC, \$4m notes/loans and \$16m other

Footnotes:

- (a) Hypothetical art and State settlement proceeds are subject to a consensual agreement with respect to the treatment of pension-related claims.
- (b) Estimated pension contributions to retirement systems and unfunded pension liabilities as of June 30, 2023 are subject to change.

EXHIBIT 2

Version of State Contribution Agreement Attached to Disclosure Statement

EXHIBIT I.A.268

FORM OF STATE CONTRIBUTION AGREEMENT

CONTRIBUTION AGREEMENT

This Contribution Agreement (“Agreement”), dated as of _____, 2014, is made by and among the Michigan Settlement Administration Authority, a Michigan body public corporate (the “Authority”), the General Retirement System for the City of Detroit, the Police and Fire Retirement System for the City of Detroit and the City of Detroit (the “City”).

RECITALS

A. The City filed a voluntary petition for relief under chapter 9 of the Bankruptcy Code on July 18, 2013 (the “Chapter 9 Case”) in the United States Bankruptcy Court for the Eastern District of Michigan (the “Court”).

B. During the course of the Chapter 9 Case, the City has asserted that the City’s Police and Fire Retirement System (the “PFRS” or a “System”) and the General Retirement System (the “GRS” or a “System”) are underfunded.

C. During the course of the Chapter 9 Case, there have been suggestions that the State of Michigan (the “State”) may be obligated to pay a portion of the underfunding of pension benefits payable to retirees, a suggestion the State vigorously disputes.

D. As part of the mediation process in the Chapter 9 Case, the mediators asked the State and other parties to consider contributing funds to assist in reducing the amount of underfunding in the PFRS and GRS pension funds by providing additional settlement funds for the benefit of pensioners that would not be otherwise available.

E. As part of its determination that the City was eligible to file the Chapter 9 Case, the Court determined that pension obligations of the City can be impaired or diminished in the Chapter 9 Case and are not protected from such impairment or diminution by the State Constitution.

F. In support of confirmation of the City’s Fourth Amended Plan of Adjustment dated May 2, 2014 (as may be further amended from time to time, the “Plan”), the State has agreed, subject to satisfaction of specific conditions, to make a contribution to the GRS and PFRS in return for releases from, among other things, any claims against the State and the State Related Entities described in this Agreement.

G. On _____, 2014, the Authority was established as the disbursement agent for the State with respect to the State Contribution (as defined below).

H. Capitalized terms used in this Agreement but not defined have the same meaning as set forth in the Plan.

NOW THEREFORE, THE PARTIES HERETO AGREE AS FOLLOWS:

1. State Contribution. On the later of (a) the date on which the Conditions Precedent have been satisfied, and (b) 60 days after the Effective Date of the Plan, the Authority shall disburse \$[_____] to GRS and \$[_____] to PFRS (collectively, the “State Contribution”)

for the purpose of increasing the assets of the PFRS and GRS. The total aggregate State Contribution is equal to the net present value of \$350,000,000 payable over 20 years determined using a discount rate of 6.75%, which results in a total contribution by the State of \$194,800,000. The State Contribution shall only be used to fund payments to holders of GRS Pension Claims and PFRS Pension Claims, each as defined in the Plan.

2. Governance Requirements of the GRS and PFRS. At all times during the 20 year period following the disbursement of the State Contribution to the GRS and PFRS, the GRS and PFRS each must establish an investment committee (the “Investment Committee”) for the purpose of making recommendations to, and approving certain actions by, the respective System's board of trustees and/or making determinations and taking action under and with respect to Investment Management, as set forth in the terms and conditions enumerated on **Exhibit A** and **Exhibit B**, respectively, each attached to and incorporated by reference into this Agreement.

3. Income Stabilization Funds and Income Stabilization Payments. The City, GRS and PFRS shall establish an income stabilization program and amend the governing documents for GRS and the governing documents for PFRS to include the following:

- a. A supplemental pension income stabilization payment (the “Income Stabilization Payment”) payable on an annual basis beginning not later than 120 days after the Effective Date, to each Eligible Pensioner equal to the lesser of (a) the amount needed to restore the Eligible Pensioner's reduced pension benefit to the amount of the pension benefit that the Eligible Pensioner received from GRS or PFRS in 2013, or (b) the amount needed to bring the total annual household income of the Eligible Pensioner up to 130% of the Federal Poverty Level in 2013.
- b. In addition, to the extent an Eligible Pensioner's Estimated Adjusted Annual Household Income in any calendar year is less than 105% of the Federal Poverty Level in that year, the Eligible Pensioner will receive an additional benefit (“Income Stabilization Benefit Plus”). The Income Stabilization Benefit Plus shall be equal to the lesser of either (a) the amount needed to restore 100% of the Eligible Pensioner's pension benefits, including escalators and cost of living adjustments; or (b) the amount needed to bring the Eligible Pensioner's Estimated Adjusted Annual Household Income in that calendar year up to 105% of the Federal Poverty Level in that year.
- c. An Eligible Pensioner's “Estimated Adjusted Annual Household Income” shall be calculated as follows: (i) the annual pension benefit amount paid in 2013 shall be subtracted from the Eligible Pensioner's 2013 total household income (per their (or in the case of minor children, their legal guardian's) 2013 income tax returns or equivalent documentation), as adjusted for inflation or Social Security COLA increases, to create a base additional income amount, plus (ii) the following three items as applicable, (x) the reduced pension benefit that GRS or PFRS will pay the

Eligible Pensioner for that year, (y) any GRS or PFRS pension restoration due to an improved GRS or PFRS funding level, and (z) the Eligible Pensioner's Income Stabilization Benefit. Notwithstanding the foregoing, Income Stabilization Payments, including the Income Stabilization Benefit Plus, under both GRS and PFRS shall not exceed \$20 million in aggregate.

- d. A separate recordkeeping sub-account called the "Income Stabilization Fund" will be set up under each of GRS and PFRS for the sole purpose of paying the Income Stabilization Payments, including Income Stabilization Benefit Plus payments, to Eligible Pensioners. The assets credited to the sub-accounts will be invested on a commingled basis with the applicable System's assets and will be credited with a pro-rata portion of the System's earnings and losses.
- e. Amounts credited to the Income Stabilization Fund, including the Assigned UTGO Bond Tax Proceeds, may not be used for any purpose other than the payment of Income Stabilization Payments, including Income Stabilization Benefit Plus payments, to Eligible Pensioners, except as expressly provided in subparagraph (f) below.
- f. In 2022, provided that the State has not issued a certificate of default with respect to a System at any time prior to 2022, the Investment Committee for that System shall conduct a valuation to determine the Income Stabilization Payments, including Income Stabilization Benefit Plus payments, anticipated to be made from the System in the future, in order for the System to fulfill the obligation to make such payments (the "Estimated Future Liability"). In the event that 75% of the independent members of the Investment Committee determine that the GRS or PFRS Income Stabilization Fund is credited with assets in excess of its Estimated Future Liability (the "Excess Assets"), the Investment Committee may, in its sole discretion, recommend to the Board of Trustees that the Excess Assets, but not more than \$35 million, be used to fund that System's Adjusted Pension Benefits. The Investment Committee shall have the right to engage professionals to assist in this task as necessary, and such expenses shall be paid by the Systems. If any funds remain in the GRS or PFRS Income Stabilization Fund on the date upon which no Eligible Pensioners under their respective System are living, the remainder of that System's Income Stabilization Fund shall be used to fund that System's Adjusted Pension Benefits.
- g. "Eligible Pensioners" are those retirees or surviving spouses who are at least 60 years of age or those minor children receiving survivor benefits from GRS or PFRS, each as of the Effective Date, whose pension benefit from GRS or PFRS will be reduced by the confirmed Plan, and who have a total household income equal to or less than 140% of the Federal Poverty Line in 2013 (per their (or in the case of minor children, their legal guardian's) 2013 income tax returns or equivalent documentation).

No new persons will be eligible to receive an Income Stabilization Payment at any time in the future, and any minor child receiving survivor benefits shall cease to be an Eligible Pensioner after he or she turns 18 years of age.

- h. The initial determination of Eligible Pensioners, and the amounts of Income Stabilization Payments payable to Eligible Pensioners shall be made by the State in its sole discretion. The State shall transmit the list of Eligible Pensioners to the Investment Committee and the Board of Trustees of GRS and PFRS, as applicable. The Board of Trustees, with the assistance of the Investment Committee of GRS and PFRS, shall be responsible for properly administering the respective Income Stabilization Fund and annually certifying to the Treasurer that it has properly administered the requirements for eligibility and payment of benefits with respect to Eligible Pensioners.

4. Conditions Precedent. The Authority's obligations under this Agreement are not effective or enforceable until each of the following conditions (the "Conditions Precedent") have been met to the satisfaction of the Authority and the Treasurer, unless any one or more of such conditions are waived in a writing executed by the Authority and the Treasurer:

- a. The Authority receives the State Contribution from the State.
- b. An endorsement of the Plan by the Official Retiree Committee which will include a letter from the Official Retiree Committee as part of the Plan solicitation package recommending to Classes 10 and 11 a vote in favor of the Plan, or equivalent assurances from member organizations representing a majority of retirees in the respective classes.
- c. Cessation of all litigation, including the cessation of funding of any litigation initiated by any other party, as it related to the City (a) challenging PA 436 or any actions taken pursuant to PA 436, including but not limited to, a dismissal with prejudice of the cases set forth on **Exhibit D**, or (b) seeking to enforce Article IX, Section 24 of the Michigan Constitution.
- d. Active support of the Plan by, a release of and covenant not to sue the State from, and an agreement not to support in any way (including funding) the litigation described in subparagraph 4(c) by the parties listed on **Exhibit C**, or equivalent assurance of litigation finality
- e. Classes 10 and 11 accept the Plan.
- f. By September 30, 2014, the Court enters a final, non-appealable order confirming the Plan that includes, at a minimum, the following:
 - i. A release of the State and State Related Entities by each holder of a Pension Claim of all Liabilities arising from or related to the

City, the Chapter 9 case (including the authorization to file the Chapter 9 Case), the Plan, all Exhibits, the Disclosure Statement, PA 436 and its predecessor or replacement statutes, and Article IX, Section 24 of the Michigan Constitution.

- ii. A requirement that the governing documents of GRS and the governing documents of PFRS be amended to include:
 - a) the governance terms and conditions set forth in Paragraph 2, Exhibit A and Exhibit B of this Agreement; and
 - b) the Income Stabilization Payments, the Income Stabilization Benefit Plus payments, and Income Stabilization Fund described in Paragraph 3 of this Agreement.
- iii. Approval of, and authority for the City to enter into, the UTGO Settlement.
- iv. A requirement that the City irrevocably assigns the right to receive not less than an aggregate amount of \$20,000,000 of the payments on the Reinstated Stub UTGO Bonds to the Income Stabilization Funds of the GRS and PFRS. Such payments will be made to the Income Stabilization Funds in the form of annual installment payments over a 14 year period, **[pursuant to a payment schedule approved by the State.]**
- v. Approval of, and authority for the City to enter into, the DIA Settlement.
- vi. Agreement to and compliance with MCL 141.1561 and cooperation with the transition advisory board appointed pursuant to MCL 141.1563, or compliance with any new legislation that is enacted regarding post-bankruptcy governance.
- g. Evidence satisfactory to the State of an irrevocable commitment by:
 - i. The Foundations to fund \$366,000,000 (or the net present value thereof) as part of the DIA Settlement; and
 - ii. The DIA Corp. to fund \$100,000,000 (or the net present value thereof) as part of the DIA Settlement.
- h. The Plan Effective Date occurs on or before December 31, 2014.

5. Non-occurrence of Conditions Precedent. If the Conditions Precedent are not met to the satisfaction of the Authority and the Treasurer on or before December 31, 2014, upon

written request of the Treasurer, the Authority shall remit the State Contribution to the Department and shall have no further obligations under this Agreement.

6. Default by GRS and PFRS and Remedies.

- a. A System will be in default if the System has not complied with any of the conditions set forth in the Plan, its respective governing documents, or this Agreement, including but not limited to failing to make the required Income Stabilization Payments or Income Stabilization Benefit Plus payments, or using funds in the Income Stabilization Fund for unauthorized purposes.
- b. In the event of default by a System, and failure of the System to promptly cure such default to the satisfaction of the Treasurer within the time period reasonably established by the Treasurer, no portion of the total State Contribution to the defaulting System, as adjusted for earnings and losses, may be taken into consideration by the System during the remainder of the 20 year period following the date of such default for purposes of determining whether benefits reduced by the Plan may be restored. Notwithstanding the foregoing, in the event that a default is cured in a subsequent year, the Treasurer may determine in his or her sole discretion (taking into consideration such factors as the financial impact of the default on the System) that the defaulting System may once again include its State Contribution, as adjusted for earnings and losses, for purposes of determining whether benefits reduced by the Plan may be restored.
- c. Each Board of Trustees shall provide reports to the Treasurer on a semi-annual basis and at such other times as the Treasurer reasonably may request in order for the Treasurer to determine that the conditions set forth herein have been satisfied. The Treasurer shall provide either a certificate of compliance, or in the event of a default that has not been cured to the Treasurer's satisfaction, a notice of default, upon request of the System or any of the independent members of the Board of Trustees.
- d. Notwithstanding the foregoing, in the event of a default, the Treasurer and the Authority shall have the right to pursue all available legal and equitable remedies against the Board of Trustees for the defaulting System, the Investment Committee, or any other person.

7. Execution in Counterparts. This Agreement may be executed in counterparts, each of which when so executed and delivered shall be deemed to be an original and all of which taken together shall constitute one and the same instrument.

8. Governing Law/Jurisdiction. This Agreement shall be construed in accordance with the laws of the State of Michigan, without reference to its conflict of law provisions, and the obligations, rights and remedies of the parties hereunder shall be determined in accordance with

such laws. The Bankruptcy Court of the Eastern District of Michigan shall have exclusive jurisdiction over any action or proceeding solely with respect to this Agreement, and each party, to the extent permitted by law, agrees to submit to such jurisdiction and to waive any defense based on venue or jurisdiction of such court.

9. Amendment. This Agreement may be amended, modified, superseded or canceled, and any of the terms, covenants, representations, warranties or conditions hereof may be waived only by an instrument in writing signed by each of the Parties.

10. Limitation of Liability. The obligation to make the State Contribution is not a general obligation or indebtedness of the State or the Authority and is subject to satisfaction of the conditions described herein. Furthermore, neither the State nor the Authority has any liability or obligation arising from or related to the contributions and funding of the Income Stabilization Fund of each System. Notwithstanding anything contained herein to the contrary, no State Related Entity or board member of the Authority shall have any liability for the representations, warranties, covenants, agreements or other obligations of the State or the Authority hereunder or in any of the certificates, notices or agreements delivered pursuant hereto.

11. Severability. If any one or more of the covenants, agreements or provisions of this Agreement shall be determined by a court of competent jurisdiction to be invalid, the invalidity of any such covenants, agreements and provisions shall in no way affect the validity or effectiveness of the remainder of this Agreement, and it shall continue in force to the fullest extent permitted by law.

12. Headings. Any headings preceding the text of the several articles and sections hereof, and any table of contents or marginal notes appended to copies hereof, shall be solely for convenience or reference and shall not constitute a part of this Agreement, nor shall they affect its meaning, construction or effect.

EXHIBIT A – GRS Governance Terms

In re City of Detroit, Michigan

INVESTMENT COMMITTEE GOVERNANCE
FOR GENERAL RETIREMENT SYSTEM

PREAMBLE	This document was prepared to set forth the pension governance requirements under the State Contribution Agreement applicable to the General Retirement System of the City of Detroit (GRS).
SCOPE OF GOVERNANCE	The GRS is currently administered by a ten (10) member Board of Trustees that is vested with the fiduciary authority for the general administration, management and operation of the Retirement System. The GRS Board currently makes all administrative, actuarial and investment related decisions for the GRS. Upon the Effective Date under the POA, there shall be established, by appropriate action and amendments to governing documents, an Investment Committee (“IC”) which shall be vested with the authority and responsibilities as outlined herein for a period of twenty (20) years after the Effective Date of the POA. All administrative, managerial, and operational matters not addressed in this Term Sheet shall continue to be addressed by the GRS Board in the ordinary course of its affairs.
INVESTMENT COMMITTEE	<p>The GRS Investment Committee (“GRS IC”) shall consist of seven (7) voting members consisting of:</p> <ul style="list-style-type: none">i. Five (5) Independent Members;ii. One (1) Employee Member; andiii. One (1) Retiree Member. <p>Collectively, or individually, “Members” or “Member”.</p> <p>At least two (2) of the five (5) Independent Members of the committee shall be residents of the State of Michigan. None of the Independent Members shall be a party in interest as defined by MCL 38.1132d (4).</p> <p>Each Independent Member of the GRS IC shall have expert knowledge or extensive experience with respect to either: (a) economics, finance, or institutional investments; or (b) administration of public or private retirement plans, executive management, benefits administration or actuarial science. At least one (1) of the GRS IC Independent Members shall satisfy the requirements of (a) above and at least one (1) of the GRS IC Independent Members shall satisfy the requirements of (b) above.</p> <p>The five (5) initial GRS IC Independent Members shall be selected by mutual agreement of the appropriate representatives of the State, the City and the GRS Board, in consultation with the Foundations, and named in the POA. Successor Independent Members shall be appointed by a majority of the remaining Independent Members after three (3) weeks’ notice to the GRS Board and the State Treasurer of the individuals chosen, in accordance with such rules and regulations</p>

	<p>as may be adopted by the GRS IC, provided such rules and regulations are not inconsistent with the POA and this agreement.</p> <p>If the five (5) initial GRS IC Independent Members are not selected by mutual agreement by the time of confirmation of the City's Plan of Adjustment, then the five (5) initial GRS IC Independent Members shall be selected by the Bankruptcy Court.</p> <p>In the event the Bankruptcy Court selects the Independent Members as described immediately above, Successor Independent Members shall be appointed in the same manner as the Independent Member being replaced, as described immediately above, after three (3) weeks' notice to the GRS Board of the individuals chosen, in accordance with such rules and regulations as may be adopted by the GRS IC, provided such rules and regulations are not inconsistent with the POA and this agreement.</p> <p>The Employee Member shall be an employee-elected Member from the GRS Board appointed by the GRS Board. The initial Employee Member will be _____.</p> <p>The Retiree Member shall be a retiree-elected Member from the GRS Board appointed by the GRS Board. The initial Retiree Member will be _____.</p> <p>The terms of office of the initial GRS IC Independent Members shall be staggered at the time of appointment so that Independent Members shall have varying initial terms of office, with one each having a 2, 3, 4, 5 and 6 year term. Each initial Independent Member shall serve until the expiration of his/her initial term. After the initial term of office, the term of office of the GRS IC Independent Members shall be six years. Each successor Independent Member shall be selected in accordance with the provisions above and shall serve until his or her death, incapacity, resignation or removal in accordance with the paragraph below. Upon expiration of his or her term of office, an Independent Member shall continue to serve until his or her successor is appointed. Nothing herein shall bar an initial Independent Member from becoming a successor Independent Member after his/her initial term.</p> <p>A Member may be removed by the remaining Members for any of the following reasons: (a) the Member is legally incapacitated from executing his or her duties as a Member of the GRS IC and neglects to perform those duties, (b) the Member has committed a material breach of GRS provisions, policies or procedures and the removal of the Member is in the interests of the system or its participants or its participants' beneficiaries, (c) the Member is convicted of a violation of law and the removal shall be accomplished by a vote of the GRS IC in accordance with the voting procedures in this agreement, (d) if the Member holds a license to practice and such license is revoked for misconduct by any State or federal government, or (e) if an IC</p>
--	--

	<p>Member shall fail to attend scheduled meetings of the IC for four (4) consecutive meetings, unless in each case excused for cause by the remaining Members attending such meetings, the Member shall be considered to have resigned from the IC, and the IC shall, by resolution, declare the office of the Member vacated as of the date of adoption of such resolution. In addition, a Member of the IC may have voting privileges temporarily suspended by avote of the other members if the Member is indicted or sued by a State or federal government for an alleged violation of the law that relates to his or her service on the GRS IC, or for other alleged financial crimes, including fraud. Any vacancy occurring in the office of Member shall be filled within sixty (60) days following the date of the vacancy, for the unexpired portion of the term, in the same manner in which the office was previously filled.</p> <p>All members of the GRS IC shall be reimbursed for the reasonable, actual and necessary expenses incurred in the performance of their duties. All reasonable and proper expenses related to the administration of the GRS shall be payable out of the investment returns of the GRS.</p> <p>The GRS IC shall be an investment fiduciary to the GRS. An IC Member or other fiduciary under the GRS shall discharge his or her duties with respect to the GRS in compliance with the provisions of Public Act 314 of 1965, as amended. An IC Member shall discharge his or her duties with the care, skill, and caution under the circumstances then prevailing which a prudent person, acting in a like capacity and familiar with those matters, would use in the conduct of an activity of like character and purpose. Members of the GRS IC shall comply with all GRS Board governance policies and procedures, including the Ethics and Code of Conduct Policies, unless such compliance violates the Member's fiduciary duties or conflicts with the terms and conditions of this agreement.</p>
GRS IC MEETINGS	<p>The GRS IC shall meet at least once every other month. The Members shall determine the time for the regular meetings of the IC and the place or places where such meetings shall be held. The Secretary or his or her designee shall be responsible for giving notice of the time and place of such meetings to the other Members.</p> <p>Notice and conduct of all meetings of the IC, both regular and special, shall be held within the City of Detroit and in accordance with applicable law including the Michigan Open Meetings Act (MCL §15.261 <u>et seq.</u>).</p> <p>The GRS IC shall adopt its own rules of procedure and shall keep a record of its proceedings. Five (5) Members shall constitute a quorum at any meeting of the GRS IC, so long as at least three (3) Independent Members are present. Each Member shall be entitled to one vote on each question before the IC and at least four (4) concurring votes shall</p>

	be necessary for a decision of the committee.
INVESTMENT COMMITTEE - RESPONSIBILITY	<p>The GRS IC shall serve in a fiduciary capacity with respect to the Investment Management of all GRS Plan Assets, the investment return assumption, and GRS Board compliance with benefit plan provisions, as set forth more fully below. The GRS IC shall have all the powers as a fiduciary under the first sentence of MCL §38.1133(5).</p> <p>All Investment Management decisions approved by the GRS Board shall require a recommendation by an affirmative vote of the GRS IC, in accordance with the provisions of this agreement. All actions and recommendations of the GRS IC shall be forwarded to the GRS Board for consideration and are subject to GRS Board approval. The GRS Board shall take no action with respect to any matter for which the GRS IC has responsibility and authority, including the Investment Management matters described in the next paragraph, unless and until such action has been approved by affirmative vote of the GRS IC. If the GRS Board fails to act with respect to an Investment Management decision that has been recommended by an affirmative vote of the GRS IC, and such failure continues for 45 days after the date that the recommendation was made to the GRS Board, then the GRS Board shall be deemed to have agreed to the recommended Investment Management decision and the Chief Investment Officer is authorized to implement the decision. If the GRS Board disapproves action recommended by an affirmative vote of the GRS IC and does not provide a detailed written response outlining the reasons for such disapproval, then the GRS Board shall be deemed to have agreed to the recommended Investment Management decision and the Chief Investment Officer is authorized to implement the decision. If the GRS Board disapproves such action and provides a detailed written response outlining the reasons for such disapproval, the IC shall have 45 days after the receipt of the response to either (a) withdraw the recommended Investment Management decision, or (b) request, in writing, a conference with the Board to be held within ten (10) days of such request by the GRS IC, unless a later date is agreed to in writing by the GRS Board and the GRS IC, to discuss the disapproval by the Board described in the written response. Within ten (10) days of the conclusion of the conference, or twenty (20) days following the IC's request for a conference if no conference is held, the IC shall either withdraw the recommended Investment Management decision or provide the Board a written explanation of the IC's decision to proceed with the recommended Investment Management decision. After delivery of such written explanation by the IC, the GRS Board shall be deemed to have agreed to the recommended Investment Management decision and the Chief Investment Officer is authorized to implement the decision.</p> <p>"Investment Management" with respect to GRS Plan Assets shall mean:</p> <ol style="list-style-type: none"> 1. Developing sound and consistent investment goals, objectives and performance measurement standards

	<p>which are consistent with the needs of the Plan.</p> <ol style="list-style-type: none"> 2. Within 120 days after the Effective Date of the POA, all of the GRS assets not already under qualified management, if any, must be managed by qualified managers selected by the IC. 3. Evaluating and selecting Qualified Manager(s) to invest and manage the Plan's assets. 4. Evaluating and selecting the Plan Actuary to prepare annual actuarial valuation reports and any other projections or reports used to determine restoration of pension benefits. 5. Communicating the investment goals, objectives, and standards to the investment managers; including any material changes that may subsequently occur. 6. Determining how Plan assets should be allocated among various asset classes. 7. Determining, in conjunction with the Plan Actuary, any and all calculations and/or assessments underlying the restoration of pension benefits. 8. Reviewing and evaluating the results of the investment managers in context with established standards of performance, including restoration of pension benefits. 9. Any interpretation of Plan documents, existing law, the POA or other financial determination that could affect funding or benefit levels. 10. Taking whatever corrective action is deemed prudent and appropriate when an investment manager fails to perform as expected. 11. Complying with the provisions of pertinent federal, state, and local laws and regulations, specifically Public Act 314 and Plan Investment Guidelines. 12. Reviewing and approving, prior to issuance, the annual audit and all financial reports prepared on behalf of the GRS. 13. Causing an asset/liability valuation study to be performed for GRS every two (2) years, or as requested by the GRS IC or GRS Board. <p>The GRS IC shall give appropriate consideration to and have an understanding of the following prior to the adoption of asset allocation policy, the selection of manager(s), and/or the adoption of investment return assumptions:</p> <ol style="list-style-type: none"> 1. The fiduciary best practices and institutional standards for the investment of public employee retirement system plan assets. 2. In establishing the GRS investment allocation and
--	---

	<p>investment policy target return, the desire to obtain investment returns above the established actuarial investment return assumption to support the restoration of benefits under the Variable Restoration Program, to the extent that is prudent.</p> <p>3. The liquidity needs of the GRS Plan.</p> <p>The fact that the IC makes a recommendation to the Board which is not recommended by the CRS CIO or the Investment Consultant shall not be a basis or factor in determining a breach of fiduciary duty.</p>
CHIEF INVESTMENT OFFICER (CIO)	The IC shall have the exclusive power to retain and discharge the GRS CIO, set and approve any and all compensation for, and terms of employment of, the GRS CIO. With respect to GRS plan assets, the GRS CIO shall report directly to the GRS IC and the GRS Board. The CIO shall be responsible for assisting the GRS IC and the GRS Board in overseeing the GRS's investment portfolio.

EXHIBIT B – PFRS Governance Terms

INVESTMENT COMMITTEE GOVERNANCE FOR POLICE AND FIRE RETIREMENT SYSTEM

PREAMBLE	This document was prepared to set forth the pension governance requirement under the State Contribution Agreement applicable to the Police and Fire Retirement System of the City of Detroit (PFRS).
SCOPE OF GOVERNANCE	The PFRS is currently administered by a ten (10) member Board of Trustees that is vested with the fiduciary authority for the general administration, management and operation of the Retirement System. The PFRS Board currently makes all administrative, actuarial and investment related decisions for the PFRS. Upon the Effective Date under the POA, there shall be established, by appropriate action and amendments to governing documents, an Investment Committee (“IC”) which shall be vested with the authority and responsibilities as outlined herein for a period of twenty (20) years after the Effective Date of the POA. All administrative, managerial, and operational matters not addressed in this Term Sheet shall continue to be addressed by the PFRS Board in the ordinary course of its affairs.
INVESTMENT COMMITTEE	<p>The PFRS Investment Committee (“PFRS IC”) shall consist of nine (9) voting members consisting of:</p> <ul style="list-style-type: none"> i. Five (5) Independent Members; ii. Two (2) Employee Members; and iii. Two (2) Retiree Members. <p>There shall be one Employee Member elected by the active police officers eligible for a pension from the PFRS and one from the active firefighters eligible for a pension from the PFRS.</p> <p>There shall be one Retiree Member elected by the retired police officers receiving a pension from the PFRS and one retired firefighter receiving a pension from the PFRS. Each of the four (4) uniformed Members shall have one-half (1/2) vote.</p> <p>At least two (2) of the five (5) Independent Members of the committee shall be residents of the State of Michigan. None of the Independent Members shall be a party in interest as defined in MCL 38.1132d(4).</p> <p>Each Independent Member of the PFRS IC shall have expert knowledge or extensive experience with respect to either: (a)</p>

	<p>economics, finance, or institutional investments; or (b) administration of public or private retirement plans, executive management, benefits administration or actuarial science. At least one (1) of the PFRS IC Independent Members shall satisfy the requirements of (a) above and at least one (1) of the PFRS IC Independent Members shall satisfy the requirements of (b) above.</p> <p>The five (5) initial GRS IC Independent Members shall be selected by mutual agreement of the appropriate representatives of the State, the City and the GRS Board, in consultation with the Foundations, and named in the POA. Successor Independent Members shall be appointed by a majority of the remaining Independent Members after three (3) weeks' notice to the GRS Board and the State Treasurer of the individuals chosen, in accordance with such rules and regulations as may be adopted by the GRS IC, provided such rules and regulations are not inconsistent with the POA and this agreement.</p> <p>If the five (5) initial GRS IC Independent Members are not selected by mutual agreement by the time of confirmation of the City's Plan of adjustment, then the five (5) initial GRS IC Independent Members shall be selected by the Bankruptcy Court.</p> <p>In the event the Bankruptcy Court selects the Independent Members as described immediately above, Successor Independent Members shall be appointed in the same manner as the Independent Member being replaced, as described immediately above, after three (3) weeks' notice to the GRS Board of the individuals chosen, in accordance with such rules and regulations as may be adopted by the GRS IC, provided such rules and regulations are not inconsistent with the POA and this agreement.</p> <p>The Employee Members shall be employee-elected Members from the PFRS Board appointed by the PFRS Board. The initial Employee Members will be _____.</p> <p>The Retiree Members shall be retiree-elected Members from the PFRS Board appointed by the PFRS Board. The initial Retiree Members will be _____.</p> <p>The terms of office of the initial PFRS IC Independent Members shall be staggered at the time of appointment so that Independent Members shall have varying initial terms of office, with one each having a 2, 3, 4, 5 and 6 year term. Each initial Independent</p>
--	---

	<p>Member shall serve until the expiration of his/her initial term. After the initial term of office, the term of office of the PFRS IC Independent Members shall be six years. Each successor Independent Member shall be selected in accordance with the provisions above and shall serve until his or her death, incapacity, resignation or removal in accordance with the paragraph below. Upon expiration of his or her term of office, an Independent Member shall continue to serve until his or her successor is appointed. Nothing herein shall bar an initial Independent Member from becoming a successor Independent Member after his/her initial term.</p> <p>A Member may be removed by the remaining Members for any of the following reasons: (a) the Member is legally incapacitated from executing his or her duties as a Member of the PFRS IC and neglects to perform those duties, (b) the Member has committed a material breach of PFRS provisions, policies or procedures and the removal of the Member is in the interests of the system or its participants or its participants' beneficiaries, (c) the Member is convicted of a violation of law and the removal shall be accomplished by a vote of the PFRS IC in accordance with the voting procedures in this agreement, (d) if the Member holds a license to practice and such license is revoked for misconduct by any State or federal government, or (e) if an IC Member shall fail to attend scheduled meetings of the IC for four (4) consecutive meetings, unless in each case excused for cause by the remaining Members attending such meetings, the Member shall be considered to have resigned from the IC, and the IC shall, by resolution, declare the office of the Member vacated as of the date of adoption of such resolution. In addition, a Member of the IC may have voting privileges temporarily suspended by a vote of the other members if the Member is indicted or sued by a State or federal government for an alleged violation of the law that relates to his or her service on the PFRS IC, or for other alleged financial crimes, including fraud. Any vacancy occurring in the office of Member shall be filled within sixty (60) days following the date of the vacancy, for the unexpired portion of the term, in the same manner in which the office was previously filled.</p> <p>All members of the PFRS IC shall be reimbursed for the reasonable, actual and necessary expenses incurred in the performance of their duties. All reasonable and proper expenses related to the administration of the PFRS shall be payable out of the investment returns of the PFRS.</p> <p>The PFRS IC shall be an investment fiduciary to the PFRS. An</p>
--	--

	<p>IC Member or other fiduciary under the PFRS shall discharge his or her duties with respect to the PFRS in compliance with the provisions of Public Act 314 of 1965, as amended. An IC Member shall discharge his or her duties with the care, skill, and caution under the circumstances then prevailing which a prudent person, acting in a like capacity and familiar with those matters, would use in the conduct of an activity of like character and purpose. Members of the PFRS IC shall comply with all PFRS Board governance policies and procedures, including the Ethics and Code of Conduct Policies, unless such compliance violates the Member's fiduciary duties or conflicts with the terms and conditions of this agreement.</p>
PFRS IC MEETINGS	<p>The PFRS IC shall meet at least once every other month. The Members shall determine the time for the regular meetings of the IC and the place or places where such meetings shall be held. The Secretary or his or her designee shall be responsible for giving notice of the time and place of such meetings to the other Members.</p> <p>Notice and conduct of all meetings of the IC, both regular and special, shall be held within the City of Detroit and in accordance with applicable law including the Michigan Open Meetings Act (MCL §15.261 <u>et seq.</u>).</p> <p>The PFRS IC shall adopt its own rules of procedure and shall keep a record of its proceedings. Five (5) Members shall constitute a quorum at any meeting of the PFRS IC, so long as at least three (3) Independent Members are present. Each Independent Member shall be entitled to one vote on each question before the IC and each Employee Member and Retiree Member shall be entitled to one-half (1/2) vote on each question before the IC. In each case, at least four (4) concurring votes shall be necessary for a decision of the committee.</p>
INVESTMENT COMMITTEE - RESPONSIBILITY	<p>The PFRS IC shall serve in a fiduciary capacity with respect to the Investment Management of all PFRS Plan Assets, the investment return assumption, and PFRS Board compliance with benefit plan provisions, as set forth more fully below. The PFRS IC shall have all the powers as a fiduciary under the first sentence of MCL §38.1133(5).</p> <p>All Investment Management decisions approved by the PFRS Board shall require a recommendation by an affirmative vote of the PFRS IC, in accordance with the provisions of this agreement. All actions and recommendations of the PFRS IC shall be forwarded to the PFRS Board for consideration and are</p>

	<p>subject to PFRS Board approval. The PFRS Board shall take no action with respect to any matter for which the PFRS IC has responsibility and authority, including the Investment Management matters described in the next paragraph, unless and until such action has been approved by affirmative vote of the PFRS IC. If the PFRS Board fails to act with respect to an Investment Management decision that has been recommended by an affirmative vote of the PFRS IC, and such failure continues for 45 days after the date that the recommendation was made to the PFRS Board, then the PFRS Board shall be deemed to have agreed to the recommended Investment Management decision and the Chief Investment Officer is authorized to implement the decision. If the PFRS Board disapproves action recommended by an affirmative vote of the PFRS IC and does not provide a detailed written response outlining the reasons for such disapproval, then the PFRS Board shall be deemed to have agreed to the recommended Investment Management decision and the Chief Investment Officer is authorized to implement the decision. If the PFRS Board disapproves such action and provides a detailed written response outlining the reasons for such disapproval, the PFRS IC shall have 45 days after the receipt of the response to either (a) withdraw the recommended Investment Management decision, or (b) request, in writing, a conference with the Board to be held within ten (10) days of such request by the PFRS IC, unless a later date is agreed to in writing by the PFRS Board and the PFRS IC, to discuss the disapproval by the Board described in the written response. Within ten (10) days of the commencement of the conference, or twenty (20) days following the IC's request for a conference if no conference is held, the IC shall either withdraw the recommended Investment Management decision or provide the Board a written explanation of the IC's decision to proceed with the recommended Investment Management decision. After delivery of such written explanation by the IC, the PFRS Board shall be deemed to have agreed to the recommended Investment Management decision and the Chief Investment Officer is authorized to implement the decision.</p> <p>“Investment Management” with respect to PFRS Plan Assets shall mean:</p> <ol style="list-style-type: none"> 1. Developing sound and consistent investment goals, objectives and performance measurement standards which are consistent with the needs of the Plan. 2. Within 120 days after the Effective Date of the POA, all of the PFRS assets not already under qualified management, if any, must be managed by qualified managers selected by the IC.
--	---

	<ol style="list-style-type: none"> 3. Evaluating and selecting Qualified Manager(s) to invest and manage the Plan's assets. 4. Evaluating and selecting the Plan Actuary to prepare annual actuarial valuation reports and any other projections or reports used to determine restoration of pension benefits. 5. Communicating the investment goals, objectives, and standards to the investment managers; including any material changes that may subsequently occur. 6. Determining how Plan assets should be allocated among various asset classes. 7. Determining, in conjunction with the Plan Actuary, any and all calculations and/or assessments underlying the restoration of pension benefits. 8. Reviewing and evaluating the results of the investment managers in context with established standards of performance, including restoration of pension benefits. 9. Any interpretation of Plan documents, existing law, the POA or other financial determination that could affect funding or benefit levels. 10. Taking whatever corrective action is deemed prudent and appropriate when an investment manager fails to perform as expected. 11. Complying with the provisions of pertinent federal, state, and local laws and regulations, specifically Public Act 314 and Plan Investment Guidelines. 12. Reviewing and approving, prior to issuance, the annual audit and all financial reports prepared on behalf of the PFRS. 13. Causing an asset/liability valuation study to be performed for PFRS every two (2) years, or as requested by the PFRS IC or PFRS Board. <p>The PFRS IC shall give appropriate consideration to and have an understanding of the following prior to the adoption of asset allocation policy, the selection of manager(s), and/or the adoption of investment return assumptions:</p> <ol style="list-style-type: none"> 1. The fiduciary best practices and institutional standards for the investment of public employee retirement system plan assets. 2. In establishing the PFRS investment allocation and investment policy target return, the desire to obtain investment returns above the established actuarial investment return assumption to support the restoration of benefits under the Variable Restoration Program, to the extent that is prudent.
--	--

	<p>3. The liquidity needs of the PFRS Plan.</p> <p>The fact that the IC makes a recommendation to the Board which is not recommended by the CRS CIO or the Investment Consultant shall not be a basis or factor in determining a breach of fiduciary duty.</p>
CHIEF INVESTMENT OFFICER (CIO)	The IC shall have the exclusive power to retain and discharge the PFRS CIO, set and approve any and all compensation for, and terms of employment of, the PFRS CIO. With respect to PFRS plan assets, the PFRS CIO shall report directly to the PFRS IC and the PFRS Board. The CIO shall be responsible for assisting the PFRS IC and the PFRS Board in overseeing the PFRS's investment portfolio.

Revised Version of State Contribution Agreement Attached to Plan

EXHIBIT I.A.332

STATE CONTRIBUTION AGREEMENT

EXECUTION VERSION

CONTRIBUTION AGREEMENT

This Contribution Agreement (“Agreement”), dated as of _____, 2014, is made by and among the Michigan Settlement Administration Authority, a Michigan body public corporate (the “Authority”), the General Retirement System of the City of Detroit, the Police and Fire Retirement System of the City of Detroit and the City of Detroit (the “City”).

RECITALS

A. The City filed a voluntary petition for relief under chapter 9 of the Bankruptcy Code on July 18, 2013 (the “Chapter 9 Case”) in the United States Bankruptcy Court for the Eastern District of Michigan (the “Court”).

B. During the course of the Chapter 9 Case, the City has asserted that the City’s Police and Fire Retirement System (the “PFRS” or a “System”) and the General Retirement System (the “GRS” or a “System” and collectively with the PFRS, the “Systems”) are underfunded.

C. During the course of the Chapter 9 Case, there have been suggestions that the State of Michigan (the “State”) may be obligated to pay all or a portion of the underfunding of pension benefits payable to retirees, a suggestion the State vigorously disputes.

D. As part of the mediation process in the Chapter 9 Case, the mediators asked the State and other parties to assist in reducing the amount of underfunding in the PFRS and GRS pension funds by providing settlement funds for the benefit of pensioners that would not be otherwise available.

E. As part of its determination that the City was eligible to file the Chapter 9 Case, the Court determined that pension obligations of the City can be impaired or diminished in the Chapter 9 Case and are not protected from such impairment or diminution by the State Constitution.

F. In support of confirmation of the City’s Fourth Amended Plan of Adjustment dated May 5, 2014 (as may be further amended from time to time, the “Plan”), the State has agreed, subject to satisfaction of the terms and conditions set forth herein and in the Plan, to make a contribution to the GRS and PFRS in return for releases from, among others, the GRS and PFRS as set forth in the Support and Release Agreement entered into by the State and each of the Systems in connection with this matter.

G. On June 20, 2014, the Authority was established as the disbursement agent for the State with respect to the State Contribution (as defined below).

H. Capitalized terms used in this Agreement but not defined have the same meanings as set forth in the Plan.

NOW THEREFORE, THE PARTIES HERETO AGREE AS FOLLOWS:

1. State Contribution. On the later of (a) the date on which the Conditions Precedent have been satisfied, and (b) 60 days after the Effective Date of the Plan, the Authority shall disburse \$98,800,000 to GRS and \$96,000,000 to PFRS (collectively, the “State Contribution”) for the purpose of increasing the assets of the PFRS and GRS. The total aggregate State Contribution is equal to the net present value of \$350,000,000 payable over 20 years determined using a discount rate of 6.75%, which results in a total contribution by the State of \$194,800,000. The State Contribution shall only be used to fund payments to holders of GRS Pension Claims and PFRS Pension Claims, each as defined in the Plan.

2. Governance Requirements of the GRS and PFRS. At all times during the 20 year period following the disbursement of the State Contribution to the GRS and PFRS, the GRS and PFRS each must establish an investment committee (the “Investment Committee”) for the purpose of making recommendations to, and approving certain actions by, the respective System's board of trustees and/or making determinations and taking action under and with respect to Investment Management, as set forth in the terms and conditions enumerated on **Exhibit A** and **Exhibit B**, respectively, each attached to and incorporated by reference into this Agreement. Further, the Emergency Manager for the City and any subsequently appointed emergency manager for the City, appointed under PA 436 or under any successor or replacement statutes to PA 436, shall not seek to exercise any powers granted under section 12(1)(m) of PA 436 (or equivalent provision under any successor or replacement statute) against the Board of GRS or the Board of PFRS until the earlier of (a) one year following entry of an order confirming the Plan, and (b) December 31, 2015.

3. Income Stabilization Funds and Income Stabilization Payments. The City, GRS and PFRS shall establish an income stabilization program and amend the governing documents for GRS and the governing documents for PFRS to include the following:

- a. A supplemental pension income stabilization payment (the “Income Stabilization Payments”) payable on an annual basis beginning not later than 120 days after the Effective Date, to each Eligible Pensioner equal to the lesser of (a) the amount needed to restore the Eligible Pensioner's reduced pension benefit to the amount of the pension benefit that the Eligible Pensioner received from GRS or PFRS in 2013, or (b) the amount needed to bring the total annual household income of the Eligible Pensioner up to 130% of the Federal Poverty Level in 2013.
- b. In addition, to the extent an Eligible Pensioner's Estimated Adjusted Annual Household Income in any calendar year is less than 105% of the Federal Poverty Level in that year, the Eligible Pensioner will receive an additional benefit (“Income Stabilization Benefit Plus”). The Income Stabilization Benefit Plus shall be equal to the lesser of either (a) 100% restoration of pension benefits, including escalators and cost of living adjustments; or (b) the amount needed to bring the Eligible Pensioner's Estimated Adjusted Annual Household Income in that calendar year up to 105% of the Federal Poverty Level in that year.

- c. An Eligible Pensioner's "Estimated Adjusted Annual Household Income" shall be calculated as follows: (i) the annual pension benefit amount paid in 2013 shall be subtracted from the Eligible Pensioner's 2013 total household income (per their (or in the case of minor children, their legal guardian's) 2013 income tax returns or equivalent documentation) as adjusted for inflation or Social Security COLA increases to create a base additional income amount, plus (ii) the following three items as applicable, (x) the reduced pension benefit that GRS will pay the Eligible Pensioner for that year, (y) any GRS pension restoration due to an improved GRS funding level, and (z) the Eligible Pensioner's Income Stabilization Benefit. Notwithstanding the foregoing, Income Stabilization Payments, including the Income Stabilization Benefit Plus, under both GRS and PFRS shall not exceed \$20 million in aggregate.
- d. A separate recordkeeping sub-account called the "Income Stabilization Fund" will be set up under each of GRS and PFRS for the sole purpose of paying the Income Stabilization Payments to Eligible Pensioners. The assets credited to the sub-accounts will be invested on a commingled basis with the applicable System's assets and will be credited with a pro-rata portion of the System's earnings and losses.
- e. Amounts credited to the Income Stabilization Fund, including the Assigned UTGO Bond Tax Proceeds, may not be used for any purpose other than the payment of Income Stabilization Payments to Eligible Pensioners, except as expressly provided in subparagraph (f) below.
- f. In 2022, provided that the State has not issued a certificate of default with respect to a System at any time prior to 2022, the Investment Committee for that System shall conduct a valuation to determine the Income Stabilization Payments anticipated to be made from the System in the future, in order for the System to fulfill the obligation to make Income Stabilization Payments (the "Estimated Future Liability"). In the event that 75% of the independent members of the Investment Committee determine that the GRS or PFRS Income Stabilization Fund is credited with assets in excess of its Estimated Future Liability (the "Excess Assets"), the Investment Committee may, in its sole discretion, recommend to the Board of Trustees that the Excess Assets, but not more than \$35 million, be used to fund each System's payment of Adjusted Pension Amounts. The Investment Committee shall have the right to engage professionals to assist in this task as necessary, and such expenses shall be paid by the Systems. If any funds remain in the GRS or PFRS Income Stabilization Fund on the date upon which no Eligible Pensioners under their respective System are living, the remainder of each System's Income Stabilization Fund shall be used to fund each System's payment of Adjusted Pension Amounts.

- g. “Eligible Pensioners” are those retirees or surviving spouses who are at least 60 years of age or those minor children receiving survivor benefits from GRS or PFRS, each as of the Effective Date, whose pension benefit from GRS or PFRS will be reduced by the confirmed Plan, and who have a total household income equal to or less than 140% of the Federal Poverty Line in 2013 (per their (or in the case of minor children, their legal guardian’s) 2013 income tax returns or equivalent documentation). No new persons will be eligible to receive an Income Stabilization Payment at any time in the future, and any minor child receiving survivor benefits shall cease to be an Eligible Pensioner after he or she turns 18 years of age.
- h. The initial determination of Eligible Pensioners, and the amounts of Income Stabilization Payments payable to Eligible Pensioners shall be made by the State in its sole discretion. The State shall transmit the list of Eligible Pensioners to the Investment Committee and the Board of Trustees of GRS and PFRS, as applicable. The Board of Trustees, with the assistance of the Investment Committee of GRS and PFRS, shall be responsible for properly administering the respective Income Stabilization Fund and annually certifying to the Treasurer that it has properly administered the requirements for eligibility and payment of benefits with respect to Eligible Pensioners.

4. Conditions Precedent. The Authority’s obligations under this Agreement are not effective or enforceable until each of the following conditions (the “Conditions Precedent”) have been met to the satisfaction of the Authority and the Treasurer, unless any one or more of such conditions are waived in a writing executed by the Authority and the Treasurer:

- a. The Authority receives the State Contribution from the State.
- b. An endorsement of the Plan by the Official Retiree Committee which will include a letter from the Official Retiree Committee as part of the Plan solicitation package recommending to Classes 10 and 11 a vote in favor of the Plan, or equivalent assurances from member organizations representing a majority of retirees in the respective classes.
- c. Cessation of all litigation, including the cessation of funding of any litigation initiated by any other party, as it relates to the City (a) challenging PA 436 or any actions taken pursuant to PA 436, including but not limited to, a dismissal with prejudice of the cases set forth on **Exhibit D**, or (b) seeking to enforce Article IX, Section 24 of the Michigan Constitution; provided, however, (i) until the State Contribution is received by the Systems, the Systems agree to stay any pending litigation described in this subparagraph, and (ii) that as a condition precedent to the GRS and the PFRS dismissing any pending litigation described in this subparagraph that they are prosecuting, the GRS and the PFRS have the right to receive written confirmation from the Authority

that the Authority is prepared and authorized to disburse the State Contribution in accordance with this Agreement and the Plan, subject only to the dismissal by the GRS and PFRS of any pending litigation described in this subparagraph that they are prosecuting.

- d. Active support of the Plan by, a release of and covenant not to sue the State from, and an agreement not to support in any way (including funding) the litigation described in subparagraph 4(c) by the parties listed on **Exhibit C**, or equivalent assurance of litigation finality (which, as to the Systems, shall be deemed satisfied by the execution of the Support and Release Agreement to be entered into by the State and each of the Systems in connection with this matter).
- e. Classes 10 and 11 accept the Plan.
- f. By December 31, 2014, the Court enters a final, non-appealable order confirming the Plan that includes, at a minimum, the following:
 - i. A release of the State and State Related Entities by each holder of a Pension Claim of all Liabilities arising from or related to the City, the Chapter 9 Case, including the authorization given to file the Chapter 9 Case, the Plan, all Exhibits, the Disclosure Statement, PA 436 and its predecessor or replacement statutes, and Article IX, Section 24 of the Michigan Constitution that such party has, had or may have against the State and any State Related Entities.
 - ii. A requirement that the governing documents of GRS and the governing documents of PFRS be amended to include:
 - a) the governance terms and conditions set forth in Paragraph 2, Exhibit A and Exhibit B of this Agreement; and
 - b) the Income Stabilization Payments and Income Stabilization Fund described in Paragraph 3 of this Agreement.
 - iii. Approval of, and authority for the City to enter into, the UTGO Settlement.
 - iv. A requirement that the City irrevocably assigns the right to receive not less than an aggregate amount of \$20,000,000 of the payments on the Reinstated Stub UTGO Bonds to the Income Stabilization Funds of the GRS and PFRS. Such payments will be made to the Income Stabilization Funds in the form of annual installment payments over a 14 year period, pursuant to a payment schedule approved by the State.

- v. Approval of, and authority for the City to enter into, the DIA Settlement.
- vi. Agreement to and compliance with MCL 141.1561 and cooperation with the transition advisory board appointed pursuant to MCL 141.1563, or compliance with any new legislation that is enacted regarding post-bankruptcy governance.
- g. Evidence satisfactory to the State of an irrevocable commitment by:
 - i. The Foundations to fund \$366,000,000 (or the net present value thereof) as part of the DIA Settlement; and
 - ii. The DIA Corp. to fund \$100,000,000 (or the net present value thereof) as part of the DIA Settlement.
- h. The Plan Effective Date occurs on or before April 1, 2015.

5. Non-occurrence of Conditions Precedent. If the Conditions Precedent are not met to the satisfaction of the Authority and the Treasurer on or before April 1, 2015, upon written request of the Treasurer, the Authority shall remit the State Contribution to the Department and shall have no further obligations under this Agreement.

6. Default by GRS and PFRS; Cure Period; Remedies.

- a. A System will be in default if the System has not materially complied with any of the terms and conditions set forth in (i) the Plan, (ii) the Governing Documents, or (iii) this Agreement, including, but not limited to, failing to make the required Income Stabilization Payments or using funds in the Income Stabilization Fund for unauthorized purposes. For the purposes of this Agreement, “Governing Documents” shall mean, (x) for the GRS, the Combined Plan for the General Retirement System of the City of Detroit, Michigan, and (y) for the PFRS, the Combined Plan for the Police and Fire Retirement System of the City of Detroit, Michigan. Notwithstanding subparagraph ‘e’ below, there shall not be an event of default for purposes of this paragraph 6 unless and until the Treasurer delivers to the alleged defaulting System a written notice declaring and specifically identifying the facts of an alleged default (the “Default Notice”). Nothing herein shall prohibit the subject System from contesting the alleged default; provided, however, until the contest over the alleged default is resolved, the subject System may not include its State Contribution, as adjusted for earnings and losses, for purposes of determining whether benefits reduced by the Plan may be restored.
- b. In the event of a default by a System, the System shall have 100 days after receiving the Default Notice in accordance with subparagraph ‘a’ above (the “Cure Period”) to cure such default by remedying the damages sustained as a result of the default, as well as making any delinquent

Income Stabilization Payments, and restoring any funds improperly removed from any other fund maintained by the System, including the Income Stabilization Fund, as applicable. Prior to the expiration of the Cure Period, at least six of the seven total aggregate votes of the Investment Committee for the defaulting System must certify to the Treasurer that (i) the default has been cured, and (ii) that no material damages have been caused by the default that have not otherwise been remedied (the “Cure Certification”). During the Cure Period, the defaulting System may not include its State Contribution, as adjusted for earnings and losses, for purposes of determining whether benefits reduced by the Plan may be restored.

- c. If the Investment Committee for the defaulting System provides the Cure Certification to the Treasurer in accordance with subparagraph ‘b’ above, then the default will be deemed cured and the defaulting System may once again include its State Contribution, as adjusted for earnings and losses, for purposes of determining whether benefits reduced by the Plan may be restored.
- d. If the Investment Committee for the defaulting System fails to provide the Cure Certification to the Treasurer in accordance with subparagraph ‘b’ above, then no portion of the total State Contribution to the defaulting system, as adjusted for earnings and losses, may be taken into consideration by the System during the remainder of the 20 year period following the date of such default for purposes of determining whether benefits reduced by the Plan may be restored. Notwithstanding the foregoing, if at any time during or after the Cure Period the Investment Committee certifies by a simple majority vote, that (i) the default has been cured; and (ii) that no material damages have been caused by the default that have not otherwise been remedied, then the Treasurer may consent to the defaulting System once again including its State Contribution, as adjusted for earnings and losses, for purposes of determining whether benefits reduced by the Plan may be restored, which consent shall not be unreasonably withheld.
- e. Each Investment Committee shall provide compliance reports to the Treasurer on a semi-annual basis and at such other times as the Treasurer reasonably may request (each, a “Compliance Report”) that certifies that the Investment Committee is not aware of any defaults, or, if the Investment Committee is aware of a default, specifically identifying the facts of such default. After review of a Compliance Report, the Treasurer shall provide to the System either a certificate of compliance or a Default Notice.
- f. Notwithstanding the foregoing, in the event of a default, the Treasurer and the Authority shall have the right to pursue all available legal and

equitable remedies against the Board of Trustees for the defaulting System, the Investment Committee, or any other person.

7. Execution in Counterparts. This Agreement may be executed in counterparts, each of which when so executed and delivered shall be deemed to be an original and all of which taken together shall constitute one and the same instrument.

8. Governing Law/Jurisdiction. This Agreement shall be construed in accordance with the laws of the State of Michigan, without reference to its conflict of law provisions, and the obligations, rights and remedies of the parties hereunder shall be determined in accordance with such laws. The Bankruptcy Court of the Eastern District of Michigan shall have exclusive jurisdiction over any action or proceeding solely with respect to this Agreement, and each party, to the extent permitted by law, agrees to submit to such jurisdiction and to waive any defense based on venue or jurisdiction of such court.

9. Amendment. This Agreement may be amended, modified, superseded or canceled, and any of the terms, covenants, representations, warranties or conditions hereof may be waived only by an instrument in writing signed by each of the Parties.

10. Limitation of Liability. The obligation to make the State Contribution is not a general obligation or indebtedness of the State or the Authority and is subject to satisfaction of the conditions described herein. Furthermore, neither the State nor the Authority has any liability or obligation arising from or related to the contributions and funding of the Income Stabilization Fund of each System. Notwithstanding anything contained herein to the contrary, no State Related Entity or board member of the Authority shall have any liability for the representations, warranties, covenants, agreements or other obligations of the State or the Authority hereunder or in any of the certificates, notices or agreements delivered pursuant hereto.

11. Severability. If any one or more of the covenants, agreements or provisions of this Agreement shall be determined by a court of competent jurisdiction to be invalid, the invalidity of any such covenants, agreements and provisions shall in no way affect the validity or effectiveness of the remainder of this Agreement, and it shall continue in force to the fullest extent permitted by law.

12. Headings. Any headings preceding the text of the several articles and sections hereof, and any table of contents or marginal notes appended to copies hereof, shall be solely for convenience or reference and shall not constitute a part of this Agreement, nor shall they affect its meaning, construction or effect.

EXHIBIT A – GRS Governance Terms

In re City of Detroit, Michigan

INVESTMENT COMMITTEE GOVERNANCE
FOR GENERAL RETIREMENT SYSTEM

PREAMBLE	<p>This document was prepared to set forth the pension governance requirements under the State Contribution Agreement (as that term is defined in the City’s Fourth Amended Plan for the Adjustment of Debts of the City of Detroit, as amended from time to time) applicable to the General Retirement System of the City of Detroit (GRS).</p>
SCOPE OF SETTLEMENT	<p>The GRS is currently administered by a ten (10) member Board of Trustees (the “Board”) that is vested with the fiduciary authority for the general administration, management and operation of the Retirement System. The Board currently makes all administrative, actuarial and investment related decisions for the GRS. Upon the Effective Date under the POA, but subject to consummation of the State Contribution Agreement, there shall be established, by appropriate action and amendments to governing documents, an Investment Committee (“IC”) at GRS which shall be vested with the authority and responsibilities as outlined herein for a period of twenty (20) years after the Effective Date of the POA. All administrative, managerial, and operational matters not addressed in this Term Sheet shall continue to be addressed by the Board in the ordinary course of its affairs.</p>
INVESTMENT COMMITTEE	<p>The IC shall consist of seven (7) voting members consisting of:</p> <ul style="list-style-type: none">i. Five (5) Independent Members;ii. One (1) Employee Member; andiii. One (1) Retiree Member. <p>Collectively, or individually, “Members” or “Member.”</p> <p>At least two (2) of the five (5) Independent Members of the committee shall be residents of the State of Michigan. None of the Independent Members shall be a party in interest as defined by MCL 38.1132d (4) to the City or the GRS.</p> <p>Each Independent Member of the IC shall have expert knowledge or extensive experience with respect to either: (a) economics, finance, or institutional investments; or (b) administration of public or private retirement plans, executive management, benefits administration or actuarial science. At least one (1) of the IC Independent Members shall satisfy the requirements of (a) above and at least one (1) of the IC Independent Members shall satisfy the requirements of (b) above.</p> <p>The five (5) initial IC Independent Members shall be selected by mutual agreement of the appropriate representatives of the State, the City and the Board, in consultation with the Foundation for Detroit’s</p>

	<p>Future. The initial Independent Members and their terms of office will be as follows: Ken Whipple (2 years), David Sowerby (3 years), Robert Rietz (4 years), Doris Ewing (5 years) and Kerrie VandenBosch (6 years). Successor Independent Members shall be recommended by a majority of the remaining Independent Members and confirmed by the Board and the State Treasurer in consultation with the Foundation for Detroit's Future, in accordance with such rules and regulations as may be adopted by the IC, provided such rules and regulations are not inconsistent with the POA and this agreement. In the event the Board and the State Treasurer cannot agree on the successor Independent Member within thirty (30) days of the receipt of the recommendation of the IC, the remaining Independent Members of the IC shall appoint the successor Independent Member.</p> <p>If no mutual agreement is reached as to the selection of one or more of the initial IC Independent Members by the time of confirmation of the City's Plan of Adjustment, then the Bankruptcy Court shall select the Independent Members necessary to fill the five (5) initial IC Independent Member positions for which no agreement has been reached.</p> <p>In the event the Bankruptcy Court selects the initial Independent Members as described immediately above, successor Independent Members shall be appointed in the same manner as the Independent Member being replaced, as described immediately above, after three (3) weeks' notice to the Board of the individuals chosen, in accordance with such rules and regulations as may be adopted by the IC, provided such rules and regulations are not inconsistent with the POA and this agreement.</p> <p>The Employee Member shall be an employee-elected Member from the Board appointed by the Board. The initial Employee Member will be June Nickleberry.</p> <p>The Retiree Member shall be a retiree-elected Member from the Board appointed by the Board. The initial Retiree Member will be Thomas Sheehan.</p> <p>The terms of office of the initial IC Independent Members shall be staggered at the time of appointment so that Independent Members shall have varying initial terms of office, with one each having a 2, 3, 4, 5 and 6 year term. Each initial Independent Member shall serve until the expiration of his/her initial term. After the initial term of office, the term of office of the IC Independent Members shall be six years. Each successor Independent Member shall be selected in accordance with the provisions above and shall serve until his or her death, incapacity, resignation or removal in accordance with the paragraph below. Upon expiration of his or her term of office, an Independent Member shall continue to serve until his or her successor is appointed. Nothing herein shall bar an initial Independent Member from becoming a successor Independent Member after his/her initial</p>
--	--

	<p>term.</p> <p>The terms of office of the Employee Members and Retiree Members of the IC shall conform to their respective terms of office on the Board.</p> <p>A Member may be removed by the remaining Members for any of the following reasons: (a) the Member is legally incapacitated from executing his or her duties as a Member of the IC and neglects to perform those duties, (b) the Member has committed a material breach of GRS provisions, policies or procedures and the removal of the Member is in the interests of the system or its participants or its participants' beneficiaries, (c) the Member is convicted of a violation of law and the removal shall be accomplished by a vote of the IC in accordance with the voting procedures in this agreement, (d) if the Member holds a license to practice and such license is revoked for misconduct by any State or federal government, or (e) if an IC Member shall fail to attend scheduled meetings of the IC for four (4) consecutive meetings, unless in each case excused for cause by the remaining Members attending such meetings, the Member shall be considered to have resigned from the IC, and the IC shall, by resolution, declare the office of the Member vacated as of the date of adoption of such resolution. In addition, a Member of the IC may have voting privileges temporarily suspended by a 70% or higher vote of the other members if the Member is indicted or sued by a State or federal government for an alleged violation of the law that relates to his or her service on the IC, or for other alleged financial crimes, including fraud. Any vacancy occurring in the office of Member shall be filled within sixty (60) days following the date of the vacancy, for the unexpired portion of the term, in the same manner in which the office was previously filled.</p> <p>All members of the IC shall be reimbursed for the reasonable, actual and necessary expenses incurred in the performance of their duties. All reasonable and proper expenses related to the administration of the IC, including but not limited to the purchase of insurance, shall be payable out of the assets of the GRS. The IC may retain actuarial, legal counsel, audit or other professional or support personnel to provide advice to the IC as it deems reasonably necessary to perform its functions and such parties or persons may be reasonably compensated from the assets of the Plan; such engagements shall not be subject to the approval of the Board.</p> <p>The IC shall be an investment fiduciary to the GRS. An IC Member or other fiduciary under the GRS shall discharge his or her duties with respect to the GRS in compliance with the provisions of Public Act 314 of 1965, as amended. An IC Member shall discharge his or her duties with the care, skill, and caution under the circumstances then prevailing which a prudent person, acting in a like capacity and familiar with those matters, would use in the conduct of an activity of like character and purpose. Members of the IC shall comply with all Board governance policies and procedures, including the Ethics and</p>
--	---

	Code of Conduct Policies, unless such compliance violates the Member's fiduciary duties or conflicts with the terms and conditions of this agreement.
IC MEETINGS	<p>The IC shall meet at least once every other month. The Members shall determine the time for the regular meetings of the IC and the place or places where such meetings shall be held. The Secretary or his or her designee shall be responsible for giving notice of the time and place of such meetings to the other Members.</p> <p>Notice and conduct of all meetings of the IC, both regular and special, shall be held within the City of Detroit and in accordance with applicable law including the Michigan Open Meetings Act (MCL §15.261 <u>et seq.</u>).</p> <p>The IC shall adopt its own rules of procedure and shall keep a record of its proceedings. Five (5) Members shall constitute a quorum at any meeting of the IC, so long as at least three (3) Independent Members are present. Each Member shall be entitled to one vote on each question before the IC and at least four (4) concurring votes shall be necessary for a decision of the committee except as otherwise provided in this Term Sheet.</p>
INVESTMENT COMMITTEE - RESPONSIBILITY	<p>The IC shall serve in a fiduciary capacity with respect to the Investment Management of all GRS Plan Assets, determination of the investment return assumption, and Board compliance with benefit plan provisions, as set forth more fully below. The IC shall have all the powers as a fiduciary under the first sentence of MCL §38.1133(5) and (6).</p> <p>All Investment Management decisions approved by the Board shall require a recommendation by an affirmative vote of the IC, in accordance with the provisions of this agreement. All actions and recommendations of the IC shall be forwarded to the Board for consideration and are subject to Board approval. The Board shall take no action with respect to any matter for which the IC has responsibility and authority, including the Investment Management matters described in the next paragraph, unless and until such action has been approved by affirmative vote of the IC. If (a) the Board fails to approve or disapprove an Investment Management decision that has been recommended by an affirmative vote of the IC, and such failure continues for 45 days after the date that the recommendation was made to the Board, or (b) the Board disapproves an Investment Management decision within such 45-day period but fails to provide to the IC within such 45-day period a detailed written response outlining the reasons for such disapproval, then the IC and the Chief Investment Officer are authorized to implement the decision. If the Board disapproves an Investment Management decision within such 45-day period and provides to the IC within such 45-day period a detailed written</p>

	<p>response outlining the reasons for such disapproval, then the IC shall have 45 days after the receipt of the Board response to either (a) withdraw the recommended Investment Management decision, or (b) request, in writing, a conference with the Board to be held within ten (10) days, but not less than five (5) business days, of such request by the IC, unless a later date is agreed to in writing by the Board and the IC, to discuss the disapproval by the Board described in the written response. Any such conference shall be conducted with at least three (3) Independent Members present in person or by phone. Within ten (10) days of the commencement of the conference, or twenty (20) days following the IC's request for a conference if no conference is held, the IC shall either withdraw the recommended Investment Management decision or provide the Board a written explanation of the IC's decision to proceed with the recommended Investment Management decision. After delivery of such written explanation by the IC, the IC and the Chief Investment Officer are authorized to implement the decision. Any action taken by the Board or the IC in violation of the terms of this agreement shall constitute an ultra vires act and the IC or the Board, whichever is applicable, is granted the express right to seek to preliminarily enjoin such violation of the breaching party without the need to show irreparable harm.</p> <p>“Investment Management” with respect to plan assets shall mean:</p> <ol style="list-style-type: none"> 1. Developing an Investment Policy Statement with sound and consistent investment goals, objectives and performance measurement standards which are consistent with the needs of the Plan. 2. Within 120 days after the Effective Date of the POA, all of the plan assets not already under qualified management, if any, must be managed by qualified managers selected by the IC. 3. Evaluating, retaining, terminating, and selecting qualified managers to invest and manage the plan assets. 4. Reviewing and affirming or rejecting the correctness of any and all calculations, actuarial assumptions and/or assessments used by the Plan Actuary including, but not limited to, (i) those underlying the restoration of pension benefits, funding levels and amortization thereof, all in accordance with the Pension Restoration Program attached to the City's Plan of Adjustment, (ii) those underlying the determination of annual funding levels and amortization thereof, and (iii) on or after fiscal year 2024 the recommended annual contributions to GRS in accordance with applicable law. 5. In accordance with approved actuarial work as provided in the immediate preceding paragraph and based on the annual actuarial valuation reports and
--	---

	<p>any other projections or reports as applicable from the Plan Actuary or other professional advisors, the determination of the extent of restoration of pension benefits, including but not limited to the payment of a portion of the 4.5% reduction in base monthly pension amounts and the payment of lost COLA payments, all in conformance to the Pension Restoration Program between the City and the Board attached to the Plan of Adjustment.</p> <ol style="list-style-type: none"> 6. Communicating the investment goals, objectives, and standards to the investment managers; including any material changes that may subsequently occur. 7. Determining and approving the Plan's investment and asset allocation guidelines, taking into account the appropriate liquidity needs of the Plan. 8. Any interpretation of Plan documents, existing law, the POA or other financial determination that could affect funding or benefit levels. 9. Taking whatever corrective action is deemed prudent and appropriate when an investment manager fails to perform as expected. 10. Complying with the provisions of pertinent federal, state, and local laws and regulations, specifically Public Act 314 and Plan Investment Guidelines. 11. Reviewing and approving, prior to final issuance, the annual audit and all financial reports prepared on behalf of the GRS and meet and confer with the Plan's outside auditor or other professional advisors as necessary prior to approving the annual audit or other financial reports. 12. Causing an asset/liability valuation study to be performed for GRS every three (3) years, or as requested by the IC or Board. <p>The IC shall give appropriate consideration to and have an understanding of the following prior to the adoption of the investment guidelines and asset allocation policies, the selection of manager(s), and/or the adoption of investment return assumptions:</p> <ol style="list-style-type: none"> 1. The fiduciary best practices and institutional standards for the investment of public employee retirement system plan assets. 2. The objective to obtain investment returns above the established actuarial investment return assumption to support the restoration of benefits under the Pension Restoration Program, to the extent that is prudent and consistent with the overall funding, liquidity needs and actuarial
--	--

	<p>assumptions governing the Plan.</p> <p>3. The liquidity needs of the GRS Plan.</p>
CHIEF INVESTMENT OFFICER (CIO)	<p>The IC shall evaluate and select the CIO, set and approve any and all compensation for, and terms of employment of, the CIO. With respect to plan assets, the CIO shall report directly to the IC and the Executive Director of the Board. The CIO shall be responsible for assisting the IC and the Board in overseeing the GRS's investment portfolio.</p> <p>The initial CIO is Ryan Bigelow [subject to State due diligence.]</p>
PLAN ACTUARY	<p>The current Plan Actuary is Gabriel Roeder Smith & Company. In the event the Board desires to retain a new actuary, the Board and IC shall collectively participate in the evaluation and selection of a qualified Plan Actuary. The Plan Actuary shall be responsible for assisting the Board and IC in performing its actuarial duties and shall comply with all requests for information or modeling requested by the IC, and shall attend meetings of the IC as requested, so as to allow the IC to perform satisfactorily the rights and duties set forth herein. Furthermore, the Board shall not act on any recommendation made by the Plan Actuary based on any calculation, assumption or assessment rejected by the IC.</p> <p>Nothing herein shall be interpreted as limiting the IC's authority to engage an actuarial consulting firm other than the Plan Actuary to perform actuarial services deemed necessary to fulfill its fiduciary duties to the GRS and other duties to GRS as set forth herein.</p>
CONSISTENCY WITH PLAN OF ADJUSTMENT	<p>Nothing herein shall be interpreted as permitting the IC or the Board to alter or depart from the requirements set forth in the confirmed Plan of Adjustment.</p>

DETROIT 56620-1 1315511v11

EXHIBIT B – PFRS Governance Terms

In re City of Detroit, Michigan

INVESTMENT COMMITTEE GOVERNANCE
FOR POLICE AND FIRE RETIREMENT SYSTEM

PREAMBLE	<p>This document was prepared to set forth the pension governance requirements under the State Contribution Agreement (as that term is defined in the City's Fourth Amended Plan for the Adjustment of Debts of the City of Detroit, as amended from time to time) applicable to the Police and Fire Retirement System of the City of Detroit (PFRS).</p>
SCOPE OF SETTLEMENT	<p>The PFRS is currently administered by a seventeen (17) member Board of Trustees (the "Board") that is vested with the fiduciary authority for the general administration, management and operation of the Retirement System. The Board currently makes all administrative, actuarial and investment related decisions for the PFRS. Upon the Effective Date under the POA, but subject to consummation of the State Contribution Agreement, there shall be established, by appropriate action and amendments to governing documents, an Investment Committee ("IC") at PFRS which shall be vested with the authority and responsibilities as outlined herein for a period of twenty (20) years after the Effective Date of the POA. All administrative, managerial, and operational matters not addressed in this Term Sheet shall continue to be addressed by the Board in the ordinary course of its affairs.</p>
INVESTMENT COMMITTEE	<p>The IC shall consist of nine (9) voting members consisting of:</p> <ol style="list-style-type: none">Five (5) Independent Members;Two (2) Employee Members; andTwo (2) Retiree Members. <p>Collectively, or individually, "Members" or "Member."</p> <p>At least two (2) of the five (5) Independent Members of the committee shall be residents of the State of Michigan. None of the Independent Members shall be a party in interest as defined by MCL 38.1132d (4) to the City or the PFRS.</p> <p>Each Independent Member of the IC shall have expert knowledge or extensive experience with respect to either: (a)economics, finance, or institutional investments; or (b) administration of public or private retirement plans, executive management, benefits administration or actuarial science. At least one (1) of the IC Independent Members shall satisfy the requirements of (a) above and at least one (1) of the IC Independent Members shall satisfy the requirements of (b) above.</p> <p>The five (5) initial IC Independent Members shall be selected by mutual agreement of the appropriate representatives of the State, the</p>

	<p>City and the Board, in consultation with the Foundation for Detroit's Future. The initial Independent Members and their terms of office will be as follows: Rebecca Sorenson (2 years), Joseph Bogdahn (3 years), Robert C. Smith (4 years), McCullough Williams III (5 years) and Woodrow S. Tyler (6 years). Successor Independent Members shall be recommended by a majority of the remaining Independent Members and confirmed by the Board and the State Treasurer in consultation with the Foundation for Detroit's Future, in accordance with such rules and regulations as may be adopted by the IC, provided such rules and regulations are not inconsistent with the POA and this agreement. In the event the Board and the State Treasurer cannot agree on the successor Independent Member within thirty (30) days of the receipt of the recommendation of the IC, the remaining Independent Members of the IC shall appoint the successor Independent Member.</p> <p>If no mutual agreement is reached as to the selection of one or more of the initial IC Independent Members by the time of confirmation of the City's Plan of Adjustment, then the Bankruptcy Court shall select the Independent Members necessary to fill the five (5) initial IC Independent Member positions for which no agreement has been reached.</p> <p>In the event the Bankruptcy Court selects the initial Independent Members as described immediately above, successor Independent Members shall be appointed in the same manner as the Independent Member being replaced, as described immediately above, after three (3) weeks' notice to the Board of the individuals chosen, in accordance with such rules and regulations as may be adopted by the IC, provided such rules and regulations are not inconsistent with the POA and this agreement.</p> <p>The Employee Members shall consist of one active police member and one active fire member from the Board, appointed by the Board. The initial Employee Members will be Mark Diaz and Sean Neary.</p> <p>The Retiree Members shall consist of one retiree-elected police member and one retiree-elected fire member from the Board, each receiving a pension from PFRS and appointed by the Board. The initial elected Retiree Members will be Michael Simon and Louis Sinagra.</p> <p>Each of the four (4) uniformed Members shall have one-half (1/2) vote.</p> <p>The terms of office of the initial IC Independent Members shall be staggered at the time of appointment so that Independent Members shall have varying initial terms of office, with one each having a 2, 3, 4, 5 and 6 year term. Each initial Independent Member shall serve until the expiration of his/her initial term. After the initial term of office, the term of office of the IC Independent Members shall be six years. Each successor Independent Member shall be selected in</p>
--	--

	<p>accordance with the provisions above and shall serve until his or her death, incapacity, resignation or removal in accordance with the paragraph below. Upon expiration of his or her term of office, an Independent Member shall continue to serve until his or her successor is appointed. Nothing herein shall bar an initial Independent Member from becoming a successor Independent Member after his/her initial term.</p> <p>The terms of office of the Employee Members and Retiree Members of the IC shall conform to their respective terms of office on the Board.</p> <p>A Member may be removed by the remaining Members for any of the following reasons: (a) the Member is legally incapacitated from executing his or her duties as a Member of the IC and neglects to perform those duties, (b) the Member has committed a material breach of PFRS provisions, policies or procedures and the removal of the Member is in the interests of the system or its participants or its participants' beneficiaries, (c) the Member is convicted of a violation of law and the removal shall be accomplished by a vote of the IC in accordance with the voting procedures in this agreement, (d) if the Member holds a license to practice and such license is revoked for misconduct by any State or federal government, or (e) if an IC Member shall fail to attend scheduled meetings of the IC for four (4) consecutive meetings, unless in each case excused for cause by the remaining Members attending such meetings, the Member shall be considered to have resigned from the IC, and the IC shall, by resolution, declare the office of the Member vacated as of the date of adoption of such resolution. In addition, a Member of the IC may have voting privileges temporarily suspended by a 70% or higher vote of the other members if the Member is indicted or sued by a State or federal government for an alleged violation of the law that relates to his or her service on the IC, or for other alleged financial crimes, including fraud. Any vacancy occurring in the office of Member shall be filled within sixty (60) days following the date of the vacancy, for the unexpired portion of the term, in the same manner in which the office was previously filled.</p> <p>All members of the IC shall be reimbursed for the reasonable, actual and necessary expenses incurred in the performance of their duties. All reasonable and proper expenses related to the administration of the IC, including but not limited to the purchase of insurance, shall be payable out of the assets of the PFRS. The IC may retain actuarial, legal counsel, audit or other professional or support personnel to provide advice to the IC as it deems reasonably necessary to perform its functions and such parties or persons may be reasonably compensated from the assets of the Plan; such engagements shall not be subject to the approval of the Board.</p> <p>The IC shall be an investment fiduciary to the PFRS. An IC Member or other fiduciary under the PFRS shall discharge his or her duties with respect to the PFRS in compliance with the provisions of Public Act</p>
--	--

	<p>314 of 1965, as amended. An IC Member shall discharge his or her duties with the care, skill, and caution under the circumstances then prevailing which a prudent person, acting in a like capacity and familiar with those matters, would use in the conduct of an activity of like character and purpose. Members of the IC shall comply with all Board governance policies and procedures, including the Ethics and Code of Conduct Policies, unless such compliance violates the Member's fiduciary duties or conflicts with the terms and conditions of this agreement.</p>
IC MEETINGS	<p>The IC shall meet at least once every other month. The Members shall determine the time for the regular meetings of the IC and the place or places where such meetings shall be held. The Secretary or his or her designee shall be responsible for giving notice of the time and place of such meetings to the other Members.</p> <p>Notice and conduct of all meetings of the IC, both regular and special, shall be held within the City of Detroit and in accordance with applicable law including the Michigan Open Meetings Act (MCL §15.261 <u>et seq.</u>).</p> <p>The IC shall adopt its own rules of procedure and shall keep a record of its proceedings. Five (5) Members shall constitute a quorum at any meeting of the IC, so long as at least three (3) Independent Members are present. Each Member shall be entitled to one vote on each question before the IC and at least four (4) concurring votes shall be necessary for a decision of the committee, except as otherwise provided in this Term Sheet.</p>
INVESTMENT COMMITTEE - RESPONSIBILITY	<p>The IC shall serve in a fiduciary capacity with respect to the Investment Management of all PFRS Plan Assets, determination of the investment return assumption, and Board compliance with benefit plan provisions, as set forth more fully below. The IC shall have all the powers as a fiduciary under the first sentence of MCL §38.1133(5) and (6).</p> <p>All Investment Management decisions approved by the Board shall require a recommendation by an affirmative vote of the IC, in accordance with the provisions of this agreement. All actions and recommendations of the IC shall be forwarded to the Board for consideration and are subject to Board approval. The Board shall take no action with respect to any matter for which the IC has responsibility and authority, including the Investment Management matters described in the next paragraph, unless and until such action has been approved by affirmative vote of the IC. If (a) the Board fails to approve or disapprove an Investment Management decision that has been recommended by an affirmative vote of the IC, and such failure continues for 45 days after the date that the recommendation was made to the Board, or (b) the Board disapproves an Investment Management decision within such 45-day period but fails to provide to the IC within</p>

	<p>such 45-day period a detailed written response outlining the reasons for such disapproval, then the IC and the Chief Investment Officer are authorized to implement the decision. If the Board disapproves an Investment Management decision within such 45-day period and provides to the IC within such 45-day period a detailed written response outlining the reasons for such disapproval, then the IC shall have 45 days after the receipt of the Board response to either (a) withdraw the recommended Investment Management decision, or (b) request, in writing, a conference with the Board to be held within ten (10) days, but not less than five (5) business days, of such request by the IC, unless a later date is agreed to in writing by the Board and the IC, to discuss the disapproval by the Board described in the written response. Any such conference shall be conducted with at least three (3) Independent Members present in person or by phone. Within ten (10) days of the commencement of the conference, or twenty (20) days following the IC's request for a conference if no conference is held, the IC shall either withdraw the recommended Investment Management decision or provide the Board a written explanation of the IC's decision to proceed with the recommended Investment Management decision. After delivery of such written explanation by the IC, the IC and the Chief Investment Officer are authorized to implement the decision. Any action taken by the Board or the IC in violation of the terms of this agreement shall constitute an ultra vires act and the IC or the Board is granted the express right to seek to preliminarily enjoin such action without the need to show irreparable harm.</p> <p>"Investment Management" with respect to plan assets shall mean:</p> <ol style="list-style-type: none"> 1. Developing an Investment Policy Statement with sound and consistent investment goals, objectives and performance measurement standards which are consistent with the needs of the Plan. 2. Within 120 days after the Effective Date of the POA, all of the plan assets not already under qualified management, if any, must be managed by qualified managers selected by the IC. 3. Evaluating, retaining, terminating and selecting qualified managers to invest and manage the plan assets. 4. Reviewing and affirming or rejecting the correctness of any and all calculations, actuarial assumptions and/or assessments used by the Plan Actuary including, but not limited to, (i) those underlying the restoration of pension benefits, funding levels and amortization thereof, all in accordance with the Pension Restoration Program attached to the City's Plan of Adjustment, (ii) those underlying the determination of annual funding levels and amortization thereof, and (iii) on or after fiscal year 2024, the recommended annual contributions to PFRS in accordance with applicable law.
--	---

	<ol style="list-style-type: none"> 5. In accordance with approved actuarial work as provided in the immediate preceding paragraph and based on the annual actuarial valuation reports and any other projections or reports as applicable from the Plan Actuary or other professional advisors, the determination of the extent of restoration of pension benefits, including but not limited to the payment of lost COLA payments, all in conformance to the Pension Restoration Program between the City and the Board attached to the Plan of Adjustment. 6. Communicating the investment goals, objectives, and standards to the investment managers; including any material changes that may subsequently occur. 7. Determining and approving the Plan's investment and asset allocation guidelines, taking into account the appropriate liquidity needs of the Plan. 8. Any interpretation of Plan documents, existing law, the POA or other financial determination that could affect funding or benefit levels. 9. Taking whatever corrective action is deemed prudent and appropriate when an investment manager fails to perform as expected. 10. Complying with the provisions of pertinent federal, state, and local laws and regulations, specifically Public Act 314 and Plan Investment Guidelines. 11. Reviewing and approving, prior to final issuance, the annual audit and all financial reports prepared on behalf of the PFRS and meet and confer with the Plan's outside auditor or other professional advisors as necessary prior to approving the annual audit or other financial reports. 12. Causing an asset/liability valuation study to be performed for PFRS every three (3) years, or as requested by the IC or Board. <p>The IC shall give appropriate consideration to and have an understanding of the following prior to the adoption of the investment guidelines and asset allocation policies, the selection of manager(s), and/or the adoption of investment return assumptions:</p> <ol style="list-style-type: none"> 1. The fiduciary best practices and institutional standards for the investment of public employee retirement system plan assets. 2. The objective to obtain investment returns above the established actuarial investment return assumption to support the restoration of benefits under the Pension Restoration Program, to the
--	--

	<p>extent that is prudent and consistent with the overall funding, liquidity needs and actuarial assumptions governing the Plan.</p> <p>3. The liquidity needs of the PFRS Plan.</p>
CHIEF INVESTMENT OFFICER (CIO)	<p>The IC shall evaluate and select the CIO, set and approve any and all compensation for, and terms of employment of, the CIO. With respect to plan assets, the CIO shall report directly to the IC and the Executive Director of the Board. The CIO shall be responsible for assisting the IC and the Board in overseeing the PFRS's investment portfolio.</p> <p>The initial CIO is Ryan Bigelow [subject to State due diligence.]</p>
PLAN ACTUARY	<p>The current Plan Actuary is Gabriel Roeder Smith & Company. In the event the Board desires to retain a new actuary, the Board and IC shall collectively participate in the evaluation and selection of a qualified Plan Actuary. The Plan Actuary shall be responsible for assisting the Board and IC in performing its actuarial duties and shall comply with all requests for information or modeling requested by the IC, and shall attend meetings of the IC as requested, so as to allow the IC to perform satisfactorily the rights and duties set forth herein. Furthermore, the Board shall not act on any recommendation made by the Plan Actuary based on any calculation, assumption or assessment rejected by the IC.</p> <p>Nothing herein shall be interpreted as limiting the IC's authority to engage an actuarial consulting firm other than the Plan Actuary to perform actuarial services deemed necessary to fulfill its fiduciary duties to the PFRS and other duties to PFRS as set forth herein.</p>
CONSISTENCY WITH PLAN OF ADJUSTMENT	<p>Nothing herein shall be interpreted as permitting the IC or the Board to alter or depart from the requirements set forth in the confirmed Plan of Adjustment.</p>

Fed. R. Evid. 1006	15

I. INTRODUCTION

Once again proving the PFRS’s entire point, the City has attached twenty-six separate documents to its papers in an effort to convince this Court what *another* document says. The City points to these twenty-six other exhibits—over 300 pages in total—in an attempt to show what *the Plan* allegedly says. Remarkably absent from the City’s Reply, though, are citations to salient pages or excerpts from *the Plan*. The Plan is not the testimony of the City’s witnesses. The Plan is not the Financial Projections. The Plan is not the Confirmation Opinion.

Under the Plan itself, as set forth in the PFRS’s Response, funding policy decisions (which is what an amortization period is) fall squarely within the ambit of the PFRS Board and Investment Committee. Further, the amended PFRS Pension Plan (the “PFRS Pension Plan”) sets forth the payment procedures for Component II (the legacy/frozen plan) and it clearly states that “after July 1, 2023... the City shall pay such contributions to the Retirement System *during the ensuing Fiscal Year*.” It does *not* say “after July 1, 2023... the City may pay such contributions over thirty years.” And unlike the Financial Projections that the City hangs its hat on, this Court has already held that the amended PFRS Pension Plan is part of the Plan of Adjustment and supersedes any settlement terms that were not expressly included in the Plan. As a result, this quoted language from the PFRS Pension Plan clearly trumps a mere “assumption” used by the City in formulating its Financial Projections—projections which were used to demonstrate the *feasibility* of the Plan but which were not, in and of themselves, “the Plan.”

But because the Plan is not favorable to the City, it instead seeks to build a record of circumstantial evidence to argue that the Plan *must* include a 30-year amortization period; otherwise, the Plan would not have been feasible. While the “record” from plan confirmation is largely irrelevant, as the Plan itself is controlling, the record is clear that ten years ago, at the time of confirmation—even with (i) the amount of the pension underfunding that would exist in 2023 being a complete unknown, and (ii) no amortization period set in stone—the City’s financial expert, the Court’s independent feasibility expert, and this Court all agreed the Plan was still feasible. Plus, feasibility is a red herring because the City *has* the money to pay using the shorter 20-year amortization period selected by the PFRS (it just does not want to).

In the end, after canvassing the entirety of the confirmation trial record in an effort to drum up evidence that a 30-year amortization is required under the Plan, the *only* place the City could find an explicit reference to an amortization period was in the Financial Projections, which were only briefly summarized by the Court—and in a footnote, no less—in the Confirmation Opinion. In the face of express language in the State Contribution Agreement giving the PFRS discretion to set its own funding policies and express language in the PFRS Pension Plan granting the PFRS Board with the authority to “compute the City’s annual contributions” and requiring payment by the City “during the ensuing Fiscal Year[.]” however, the City’s reliance on the Financial Projections falls flat and its Motion should be denied.

II. LEGAL ANALYSIS

A. Under The Terms Of The Plan, The PFRS Does Not Need To Allow The City To Amortize *Any* Of The Post-2023 Pension Payments—Let Alone For 30 Years

Treatment of the PFRS Claim is laid out in the Plan as follows—and notably, the only express term in the Plan itself is that the City will pay the amounts owed after 2023, but there is nothing about an amortization period for these payments:

During the Fiscal Years from the Effective date through Fiscal Year 2023, annual contributions shall be made to fund benefits accrued under the Prior PFRS Pension Plan only in the amounts identified on Exhibit II.B.3.1.ii.A. The exclusive source for such contributions shall be certain DIA proceeds and a portion of the State Contribution. **After June 30, 2023 . . . the City will contribute sufficient funds required to pay each Holder of a PFRS Pension Claim his or her PFRS Adjusted Pension Amount in accordance with and as modified by the terms and conditions contained in the Plan and the Prior PFRS Pension Plan, in accordance with the State Contribution Agreement and exhibits thereto[.]”**

(Plan of Adj., Dkt. No. 8045-1, pg. 315 of 809) (emphasis added). The Plan says nothing of the 40-year Financial Projections when it describes the treatment of the PFRS claim—it does not cite them, reference them, quote them, or incorporate them as an exhibit.¹ It does, however, expressly incorporate the State Contribution Agreement, which as set forth in the PFRS’s Response, bestows the PFRS Board and Investment Committee with the authority to set the appropriate funding policy for the

¹ The City’s argument in its Supplemental brief [Dkt. No. 13678] that the Financial Projections were referenced in the Disclosure Statement is irrelevant, as the Plan controls. (Plan of Adj., Dkt. No. 8045-1, pg. 72) (“Plan Controls. In the event and to the extent that any provision of the Plan is inconsistent with the provisions of the Disclosure Statement, the provisions of the Plan shall control and take precedence.”)

PFRS. In addition, as will be set forth below, the Board’s authority to set an appropriate funding policy for Component II (*i.e.*, the legacy/frozen plan) is laid out in the PFRS Pension Plan, which (unlike the Financial Projections) *is* part of the Plan of Adjustment, as it was expressly incorporated into the Plan. See *In re City of Detroit*, 614 B.R. 255, 266-67 (E.D. Mich. Bkr. Ct. 2020).

(1) The PFRS Pension Plan Documents Contemplate Payment By The City After 2023 With No Amortization Period.

The PFRS would technically be within its rights to insist on payment for the contributions owed by the City with *no* amortization period given the discretion it was given in the State Contribution Agreement and the PFRS Pension Plan. Article G to Component II (the Legacy/Frozen Plan)—entitled “Method of Financing”—governs the City’s payments for funding Component II after the ten-year pension hiatus and this section expressly states that payment is due from the City “during the Fiscal Year” the contribution obligation arises:

Sec. G-5. Contributions to and payments from the Pension Accumulation Fund.

Contributions to and payments from the Pension Accumulation Fund shall be made as follows:

(b) Subject to the Plan of Adjustment, for Fiscal Years commencing prior to July 1, 2014, **and on or after July 1, 2023**, the Board of Trustees annually ascertained and reported to the Mayor and the Council **the amount of contributions due the Retirement System by the City**, and the Council shall appropriate and **the City shall pay such contributions to the Retirement System during the ensuing Fiscal Year.** When paid, such contributions shall be credited to the Pension Accumulation Fund.

(c) For Fiscal Years commencing after June 30, 2014 and prior to July 1, 2023, the City shall make contributions to the Pension Accumulation Fund only as provided in the Plan of Adjustment.

(Ex. D to PFRS Response, Article G-5) (emphasis added). Thus, the payment due “after July 1, 2023” has no amortization period associated with it. Instead, the amended PFRS Pension Plan—which was revised specifically to address the changes under the Plan of Adjustment—explicitly states that the City “shall pay such contributions to the Retirement System *during the ensuing Fiscal Year.*” It does not say that after July 1, 2023, the City “may amortize such payment over thirty years.”

The ten-year hiatus followed by a resumption of normal, unfettered payment obligations is echoed in the next section, too, which addresses appropriations by the City:

Sec. G-9. Appropriations prior to July 1, 2014 **and after June 30, 2023.**

- (a) The Board of Trustees shall certify to the City Council **the amount of the appropriation necessary to pay to the various funds of the Component II** of the Retirement System the amounts payable by the City as enumerated in this Component II, according to legal budget procedure.
- (b) **To cover the requirements of Component II** prior to July 1, 2014 **and after June 30, 2023**, such amounts **as shall be necessary to cover the needs of Component II shall be paid into the Pension Accumulation Fund² and the Expense Fund by special appropriations or transfers to the Retirement System**; provided,

² The “Pension Accumulation Fund” or “PAF” is one of several funds that comprise Component II. (Ex. D to PFRS Response, Article G-1) (“The funds of Component II... shall be the Annuity Savings Fund, Annuity Reserve Fund, Pension Accumulation Fund, Pension Reserve Fund, Deferred Retirement Option Plan Fund, Expense Fund and the Survivors Benefit Fund.”) All payments from the City are paid to the PAF first before being allocated to the other funds.

however that no transfers can be made from the Accrued Liability Fund other than the annual transfer of the scheduled amortizing amount, or transfers under special circumstances pursuant to Section G-4 (as in effect prior to July 1, 2014).³

(Ex. D to PFRS Response, Article G-9) (emphasis added). The PFRS Pension Plan documents state only that the “amount of the appropriation necessary to pay the various funds of the Component II” will be made and that after June 30, 2023, “such amounts as shall be necessary to cover the needs of Component II shall be paid into the Pension Accumulation Fund”—but again, nowhere do these documents state that these payments “shall be paid over thirty years.” Such language simply does not exist.

Next, Article G-17 expressly states that *the Board*—not the City—sets the City’s contribution payment amount, which necessarily includes the authority to choose any amortization schedule that may impact that contribution amount:

[T]he **Board of Trustees shall compute the City’s annual contributions for Fiscal Years commencing prior to July 1, 2014 and after June 30, 2023... using actuarial valuation data... The Board shall report to the Mayor and to the City Council the contribution percents so computed, and such contribution percents shall be used in determining the contribution dollars to be appropriated by the City Council and paid to the Retirement System.**

³ The reference to the Accrued Liability Fund and Section G-4 relates to a special account that was set up in 2005 to receive the proceeds from the Certificates of Participation (“COPs”) transaction and that account was dissolved after the City’s bankruptcy. (Article G-5(b), stating “[a]s soon as practicable following the effective date of the Plan of Adjustment, any amounts remaining credited to the Accrued Liability Fund shall be transferred to the Pension Accumulation Fund and the Accrued Liability Fund shall cease to exist.”). Thus, any reference to a “scheduled amortizing amount” in Article G-9(b) relates to the COPs transaction and an account that no longer exists, so this section does not aid the City’s argument that amortization is permitted.

(Ex. D to PFRS Response, Article G-17) (emphasis added). As the PFRS has repeatedly stated, it has no obligation to allow the City to amortize the contribution payment *at all* (let alone for 30 years). The PFRS has every right to enforce the Plan as written and demand a more aggressive payment schedule for the amounts owed for Component II. However, the PFRS *is* mindful of the City’s desire to fund its reinvestment initiatives. Accordingly, after consultation with its actuaries, the PFRS has set a funding policy that allows the City to pay its contribution amount using a 20-year amortization period—a result which fairly balances the City’s desire to fund its reinvestment initiatives, while still ensuring that the PFRS has faithfully discharged its fiduciary duties to its members.

Lastly, the Plan itself only limits the discretion of the PFRS Board during the ten-year period colloquially referred to as the “pension hiatus” or the “pension holiday.” After that, computation of the City’s employer contribution reverts back to pre-bankruptcy procedures. The Plan of Adjustment states:

G. No Changes in Terms for Ten Years. Except as may be required to maintain the tax-qualified status of the PFRS or to comply with the terms of the Plan, the City, the trustees of the PFRS and all other persons or entities shall be enjoined from and against the subsequent amendment of the terms, conditions and rules of operation of the PFRS, or any successor plan or trust, that govern the calculation of pension benefits ... or against any action that governs the selection of the investment return assumption described in Section II.B.3.q.ii.B, *the contribution to the PFRS or the calculation or amount of PFRS pension benefits for the period ending June 30, 2023*, notwithstanding whether that subsequent amendment or act is created or undertaken by contract, agreement (including collective

bargaining agreement), statute, rule, regulation, ordinance, charter, resolution or otherwise by operation of law.

(Plan of Adj., Section II.B.3.q.ii.G). Thus, the PFRS was forbidden from changing the amount of “the contribution to the PFRS” during the pension holiday, but after June 30, 2023, the amount of the “contribution to the PFRS” shifts back to being computed by the Board in consultation with its actuaries. The Plan does *not* say “after July 2053, the authority to determine the amount of the employer contribution will be returned to the PFRS Board.” Instead, every single citation related to the computation of the City’s pension contribution (in both the Plan of Adjustment as well as in the PFRS Pension Plan) carves out this ten-year period but reverts back to the ordinary employer contribution calculation procedures after 2023. When this provision of the Plan and Article G of the PFRS Pension Plan are read together, the answer to the amortization question is simple—after 2023, it is the Board’s decision (solely) and the only time period when the Board did not have authority to set an amortization period was during the ten-year pension hiatus. After that period ends, the Board resumes its normal fiduciary responsibilities and is once again free to set the applicable funding policy.

The order the City has requested from this Court, however, violates the Plan, the PFRS Pension Plan, the State Contribution Agreement and Michigan law by stripping the PFRS Board of its right to make this critical funding policy decision.⁴

⁴ Under the Plan of Adjustment, unless a rule of law or procedure is supplied by federal law, then “the laws of the State of Michigan. . . shall govern the rights, obligations,

Under well-established Michigan law, the PFRS Board has the sole discretion to calculate the employer contribution payment and set an appropriate amortization period (if any)—not the City. See *Policemen and Firemen Retirement System v. City of Detroit*, 270 Mich.App. 74, 75–77 (Mich. App. 2006), *leave denied*, 477 Mich. 892 (2006). In that case, just like here, the City wanted a longer amortization period to reduce its annual payment amount and argued that it controlled the amortization decision, not the PFRS. The court began its analysis by summarizing the PFRS Board’s authority as follows:

The Board is responsible for the general administration, management, and operation of the Policemen and Firemen Retirement System. . . Part of the Board’s responsibilities is to ensure that the retirement system is properly funded. Accordingly, the Board, after consultation with an actuary, determines the amount of Detroit’s annual pension contribution. . . The 2004 plan was underfunded and, therefore, one component of the pension contribution is the amount of time necessary for Detroit to meet the system’s unfunded accrued liabilities. Logically, the amount of time permitted to satisfy the accrued liabilities, also known as the amortization period, affects the amount Detroit is obligated to contribute to the plan each year. In March 2004, the Board, by a six-to-five vote, adopted a 14–year amortization period to calculate Detroit’s annual contribution to finance the unfunded accrued pension liabilities. However, Detroit maintained that a 20–year amortization period should apply under a local ordinance, notwithstanding that Detroit never followed the ordinance in the past and the Board had set the amortization period for many years.

construction and implementation of the Plan and any contract, articles or certificates of incorporation, bylaws, codes of regulations, similar constituent documents, instrument, release or other agreement or document entered into or delivered in connection with the Plan.” (Plan of Adj., pg. 72(I)). Further, under M.C.L. 38.1133g, the Investment Committee and the Board are obligated to carry out their fiduciary duties in accordance with “applicable law.”

Id. at 75-76. In response to the City’s insistence that it controlled the amortization period decision, the PFRS Board sought a declaratory judgment “that it has the right to determine the time period for the financing of unfunded accrued pension liabilities.” *Id.* at 76. The Board filed a motion for summary disposition and argued that under Michigan law, only it has “the authority to determine the amortization period and that Detroit must abide by its recommendation and pay the amount of pension contribution calculated by the Board.” The trial court disagreed with the PFRS, but the Michigan Court of Appeals reversed and ruled that the power to set amortization was strictly within the PFRS Board’s power, reasoning:

The Board has the authority to adopt the amortization period to finance unfunded accrued pension liabilities . . . Detroit argues that MCL 38.1140m merely places caps on the amortization periods starting in 2006, but that “[i]t does not give the Board the right to decide on the amortization period.” We disagree. The statute provides that the Board, acting on the recommendation of an actuary, makes “the determination of the required employer contribution.” MCL 38.1140m. Further, the statute explicitly provides that the Board “shall confirm” that the plan “provides for the payment of the required employer contribution” and “shall confirm” that the system receives “the required employer contribution....” *Id.* “The word ‘shall’ is unambiguous and is used to denote mandatory, rather than discretionary, action.” . . . Thus, the statutory language is unequivocal that the Board determines the amount the employer (Detroit) contributes annually to the retirement system and that the employer, in turn, is “required” to make the contribution. The Board’s determination also necessarily includes the amount of time in which Detroit must pay the unfunded accrued pension liabilities because the period directly affects the amount Detroit must contribute to the plan each year.

Id. at 81-82 (citation omitted). The court further reasoned:

As noted, MCL 38.1140m [of Act 314] states that the Board is to determine the annual contribution. . . Thus, the statute contemplates that the Board, through an actuary, shall determine the annual payment, which includes a determination of the “amortized portion of the unfunded principal liability.” *Id.* Moreover, the next portion of the statute provides . . . the required employer contribution shall not be determined using an amortization period greater than 30 years. . . A plain reading of this section, in conjunction with the rest of MCL 38.1140m, compels the conclusion that, while the amortization period is capped at no greater than 30 years at the end of 2005, the actuary and the Board have discretion, within that limit, to determine the appropriate amortization period. Indeed, the above language evidences the Legislature’s intent to grant the Board the authority to determine the amortization period because it included limits (caps) in its grant of authority to the Board to determine the employer’s annual contribution. Further, it is self-evident that, because the Board has the responsibility to determine the employer’s annual contribution to the system and to ensure that the system is adequately funded, an integral element of that calculation is how much the city must annually contribute to pay down its unfunded liabilities. Again, how long those liabilities are amortized, according to the calculations of the actuary, directly affects the adequacy of the system funding and the amount Detroit must pay each year.

Id. at 81-82. Thus, the court concluded: “The Legislature granted the Board the authority to determine the annual plan contributions, which necessarily includes the annual amortization period . . . We reverse the trial court’s decision and grant the Board a declaratory judgment that it has the authority under applicable law to set the amortization period.” *Id.*

The same is true here. The PFRS Board is vested with the authority (and the *autonomy*—independent from the pension plan’s funder) to set an appropriate policy to ensure the system is adequately funded. The Plan of Adjustment (at least, post-2023) did not change this. In fact, the PFRS Pension Plan drafted and enacted by the

City in connection with the Plan of Adjustment retains the same process that governed before the bankruptcy—*i.e.*, that the “***board of trustees*** shall annually ascertain and report to the mayor and the council the amount of contributions due the retirement system by the city . . . and the city shall pay such contributions to the retirement system during the ensuing fiscal year” and the “***Board of Trustees*** shall compute the City’s annual contributions[.]”⁵ (emphasis added). Accordingly, the Plan, the PFRS Pension Plan, the State Contribution Agreement (codified in Act 314) and Michigan law all dictate the same result: the PFRS has the sole discretion to select the amortization period.

(2) If The City Had Wanted To Include An Amortization Period For The PFRS, It Knew How To.

The lack of any express term for amortization for the PFRS payment is particularly glaring because in other contexts within the Plan, where amortization periods were expressly negotiated and agreed upon as a material financial term, those amortization periods are explicitly set forth in the Plan itself. For example, for the new LTGO Bonds, the City expressly spelled out the specific amortization terms:

⁵ See *Policemen and Firemen Retirement System*, 270 Mich.App. at 80-82, n. 3-4 (quoting Detroit City Code, § 54-43-4(b) and § 54-2-7); see also PFRS Pension Plan Article G-5, G-17.

Schedule 1
Financial Terms of New LTGO Bonds

Principal: \$55 million

Interest Rate: 5.65% per annum (first 10 years, 5.00% payable in cash and 0.65% capital appreciation added to principal)

Final Maturity: 23 years

Amortization: Interest payable semi-annually

On each anniversary from the sixth through tenth anniversary—\$2 million principal due per year

On each anniversary from the eleventh through twenty-third anniversary—principal payment equal to one-thirteenth (1/13) of the principal outstanding immediately prior to the eleventh anniversary (approximately \$3,735,115 per year)

(Plan of Adj., pg. 282). Similarly, with respect to the New B Notes, the amortization terms were expressly written out in the Plan itself:

NEW B NOTES
SUMMARY OF PRINCIPAL TERMS¹

On the Effective Date, the City shall issue the New B Notes and distribute them as set forth in the Plan. The definitive documentation governing the New B Notes shall provide generally for the following terms:

Obligation	The City's obligations with respect to the New B Notes shall be a general and unsecured obligation of the City.
Initial Principal Amount	\$632.0 million.
Interest Rate	4.0% for the first 20 years; 6.0% for years 21 through 30.
Maturity	30 years.
Amortization	Interest only for 10 years; amortization in 20 equal annual installments beginning on the interest payment date nearest to the 11th anniversary from issuance.
Disclosure	The City will provide a continuing disclosure undertaking under 17 C.F.R. § 240.15c2-12 in connection with the delivery of the New B Notes.

Id. at pg. 315. No similar language was used for the PFRS claim.

B. The Financial Projections, Malhotra's Summary Chart, And Malhotra's Testimony Are Not "The Plan" And Cannot Be Enforced As The Plan

The City claims in its Reply: "E&Y's 40-year projections confirmed that the POA incorporated a settlement between Kevyn Orr and GRS/PFRS that required 30-year amortizations." (Reply at pg. 12) In support of this statement that the POA

“incorporated” a settlement with a 30-year amortization, the City cites two items: (i) Malhotra’s testimony, and (ii) Exhibit 723 from the confirmation trial. However, neither of these is “the Plan.” Witness testimony is not “the Plan.” Exhibits admitted at the confirmation trial are not “the Plan.” The “Plan” is a defined term:

273. “Plan” means this plan of adjustment and all Exhibits attached hereto or referenced herein, as the same may be amended, restated, supplemented or otherwise modified.

(Plan of Adj., pg. 23). Unless the exhibit is attached to or referenced in the Plan itself (like the State Contribution Agreement and the PFRS Pension Plan), it is not the Plan.

Moreover, Exhibit 723 from the confirmation trial (attached to the City’s Reply as Exhibit 18) is merely a summary chart that according to Malhotra, showed the “key items of the settlement with GRS and PFRS.” Even this summary chart, though, does not include the word “amortization.” Further, this document was not an excerpt from the Plan. As such, Exhibit 723 was admitted as merely a “demonstrative aide” and was never intended to be substantive evidence of the Plan:

MR. STEWART [from Jones Day]: And just for the record, let’s put up Exhibit 723. . . Do you see Exhibit 723, Mr. Malhotra?

A. I do.

Q. What is this?

A. It shows the key items of the settlement with GRS and PFRS as a part of the plan of adjustment.

Q. Okay. . . could you tell us what are GRS and PFRS?

A. The General Retirement System and the Police and Fire Retirement System.

Q. Do you know off the top of your head what class each is in?

A. Class 10 and 11.

Q. Now, tell us ... Your honor, if I could, I would move the admission of Exhibit 723 *as a demonstrative exhibit*.

MR. SOTO: No objection, your Honor.

MR. WAGNER: Yeah. No objection as a demonstrative.

THE COURT: It is admitted.

(Ex. G to PFRS Response Brief, Malhotra Tran. at pg. 132-33) (emphasis added). A “demonstrative exhibit” is not substantive evidence and should not be relied upon by a finder of fact. “[D]emonstrative exhibits ‘ha[ve] no probative value in [themselves],’” but “they may be admissible for the purpose of ‘illustrat[ing] oral testimony.’” *Rodriguez v. Village of Port Chester*, 535 F.Supp.3d 202, 218 (S.D.N.Y., 2021) (citation omitted). Courts caution against demonstrative exhibits for precisely the reason presented here—the risk that a demonstrative will improperly be relied upon for its “truth.” *Id.* at 219 (noting that when “determining the admissibility of demonstrative exhibits... courts must carefully weigh whether the exhibits are unduly prejudicial” because the factfinder could “interpret them as real-life recreations of substantive evidence that they must accept as true.”) Unless a summary is being admitted as a summary of a voluminous writing under Fed. R. Evid. 1006 (which Exhibit 723 was not), a summary introduced as a demonstrative aid is “more akin to argument than evidence[.]” *Gomez v. Great Lakes Steel Div.*, 803 F.2d 250, 257 (6th Cir. 1986); *United States v. Milkiewicz*, 470 F.3d 390, 396-98 (1st Cir. 2006) (citations omitted) (noting demonstratives are by definition “less neutral in [their] presentation” and thus not properly considered evidence). Hence, Exhibit 723 should be ignored altogether in favor of the actual Plan language.

Similarly, witness testimony is undisputedly *not* part of the Plan. And even if

it was, Malhotra’s testimony actually supports the PFRS’s position:

THE COURT: Excuse me. Before we leave this one [Exhibit 723] . . . Does the plan commit the city to make the payments in your section of the change here called “Future Contributions”?

THE WITNESS: Those contributions are assumed in the plan, your Honor, and the city—

THE COURT: They are what?

THE WITNESS: They are assumed to be made in the plan, your Honor, so the city is in the projections making those payments beyond 2024 into the pension systems in the plan.

THE COURT: My question was a slightly different one. Does the plan commit the city, legally commit the city to make those payments?

THE WITNESS: My understanding is the city is committed to the fund the unfunded liability. I just don’t know—the city and the Retirement Systems have to decide what the amortization methodology is of the UAAL at the end—at the end of year ten, and the city is committed to fund that underfunded liability. Depending on what amortization schedule gets picked, the payments can change slightly because of the interest rate, but my understanding is the city is committed to make the payments beyond 2024 into those pension systems.

(Ex. G to PFRS Response, Malhotra, 9/29/2014 Hrg. Tran., pg. 139-140). Malhotra’s testimony is actually 100% aligned with the PFRS’s position: the City is legally obligated to make the payment under the Plan (period) and the amortization (if any) gets decided after year ten.

Lastly, the City’s argument that Kevyn Orr and the PFRS reached “a settlement” containing a 30-year amortization period is entirely unavailing. The City blasted this exact argument when the RDPFFA made a similar attempt to claim that it had “reached a settlement” during mediation but the particulars of that settlement did not make their way into the Plan and instead were only on the term sheet from

mediation. In the face of that argument, this Court has already held—as it should—that unwritten settlement terms not expressly incorporated in the Plan of Adjustment are not enforceable. *In re City of Detroit*, 538 B.R. 314, 320 (E.D. Mich. Bkr. 2015) (holding that the RDPFFA term sheet was not “incorporated into or made part of the Plan” and thus the term sheet “did not survive confirmation of the Plan”). Although at least in the RDPFFA case, the disputed term was part of a written term sheet signed by the parties, which is not true with respect to the amortization issue. Here, there is even less basis to find the Financial Projections part of the Plan, as they were created unilaterally by the City (without input or approval by the PFRS or any of the other 27 constituents involved in the pension settlement), they were ever-evolving (indeed, they were changed at least ten times by the City’s own admission), and the 30-year amortization period was merely an “assumption” baked into the projections by the City’s financial expert (presumably because that is what period the City used before the bankruptcy). But perhaps most importantly, financial projections used to show that a plan of adjustment is “feasible” are not *the Plan*. They are merely a piece of evidence used at confirmation trials to demonstrate feasibility but they do not set forth “the Plan.”

C. Financial Projections Designed To Demonstrate Feasibility Of A Plan Are Not “The Plan”

The City attempts to convince the Court that its Financial Projections are “part of the Plan” and not extrinsic evidence because they “were among a very few trial exhibits that were incorporated in the Confirmation Opinion and Order.” (Reply, pg.

13). But the “Plan” is a defined term and exhibits referenced in the Court’s Confirmation Opinion are not part of the Plan:

273. “Plan” means this plan of adjustment and all Exhibits attached hereto or referenced herein, as the same may be amended, restated, supplemented or otherwise modified.

(Plan of Adj., pg. 23). *Of course* the City’s Financial Projections were discussed at length in the Confirmation Opinion. They had to be, since demonstrating that the Plan was financially feasible was an element of the City’s case. But that is a far cry from one line item in the Financial Projections—which were a guess 40 *years* into the future—being transformed into a “contract” or a promise to perform. The purpose of these Financial Projections were merely to show the Court, hypothetically, how the City’s finances could progress in the future. The City is now treating them as gospel. If the opposite was true (and in some cases it is)—that the City fared worse under its projected financial condition—the City would not be here arguing that it should be held to the projections. If the City’s revenues faltered one year and it could not perform as it thought it could a decade ago, the Plan would not retroactively fail the feasibility test and be unwound.

D. Even With The Uncertainty As To Both The Pension Payment Amount And The Amortization Period, The Plan Was Found Feasible

Perhaps the best evidence that the Plan was feasible even without an amortization period set in stone in the Plan is the fact that the City undisputedly *has* the money to pay the unfunded liability for Component II. Under the Plan, the City had ten full years to plan for this part of its financial reorganization, and to its credit,

the City planned accordingly and set aside the money. Thus, the Plan as it is actually spelled out in the documents (with no certainty as to the amount of the pension payment after 2023 and with no amortization schedule agreed upon beforehand) *was* feasible as presented to this Court at plan confirmation—in part, because the Plan gave the City *an entire decade* to plan and budget accordingly.

But because the Plan language is not favorable to the City, it instead seeks to build a record of extrinsic evidence to argue that the Plan *must* include a 30-year amortization period; otherwise, the Plan would not have been feasible. The City attempts to backfill this argument by speculating that any other “plan” would not have been approved by the Court. The record is clear, though. Ten years ago, at the time of confirmation—even with (i) the amount of the pension underfunding after the ten years an unknown, and (ii) no concrete amortization schedule set in stone—the experts and the Court agreed the Plan was still feasible. Kopacz cited the potential wild swing of *over \$1 billion dollars* that could be owed at the end of the ten-year hiatus depending on how the markets fared yet she still concluded it was feasible:

PFRS Average Rate of Return Scenario Analysis⁷

Average Rates of Return July 2014 - June 2023	Estimated Funding Status June 2023	Estimated Projected Unfunded Liability June 2023	Estimated Projected Unfunded Liability Variance
3.00%	43%	\$ 1,717	\$ 1,036
5.00%	60%	\$ 1,208	\$ 527
6.00%	70%	\$ 917	\$ 236
6.75%	78%	\$ 681	\$ -
8.00%	92%	\$ 252	\$ (429)
0% - 1st 5 years; 10% - 2nd five years	53%	\$ 1,439	\$ 758
10% - 1st 5 years; 0% - 2nd five years	64%	\$ 1,097	\$ 416

Kopacz also acknowledged in her Supplemental Report that “the City may have continuing unfunded pension obligations far into the future” and “*these obligations may increase beyond the assumptions presented in the July 2, 2014 financial projections.*” (Ex. F to PFRS Response, Kopacz Supp. Report) (emphasis added).

The City’s financial expert, Malhotra, echoed this exact concern and cited the uncertainty as to the amount of the pension payments due after 2023 as the biggest risk to feasibility. He explained to the Court that unlike the other creditor settlements—which were locked in, both in terms of amount and other economic terms—the pension liability at the end of the ten-year hiatus was not:

THE COURT: Okay. I want to ask you, what are the two or three most critical assumptions in the City's 10-year forecast or projections that concern you the most?

A. The first one, Your Honor, would be the unfunded pension liability of the City at the end of the 10 years because in a lot of this in terms of the settlement to the creditors, we have boxed in what the City's liability will be. On the side of the pensions, we are still using calculations to estimate what that 10-year unfunded liability will be. So that will be my first one as a concern because it's an unknown, it's an estimate, but it's still not boxed in in terms of how we have boxed in our best ability of the other claims.

(Ex. G, Malhotra Hrg. Tr. 9/29/2014, pg. 272). The City pretends as though the uncertainty as to how much would be owed to cover the pension shortfall after the ten-year pension holiday would have prevented the City from being able to prove the Plan was feasible. Not so. “Just as speculative prospects of success cannot sustain feasibility, the mere prospect of financial uncertainty cannot defeat feasibility.” *In re Young Broadcasting Inc.*, 430 B.R. 99, 129 (Bkrtcy.S.D.N.Y.,2010) (citing *In re U.S.*

Truck Co., 47 B.R. 932, 944 (E.D.Mich.1985). “Success need not be guaranteed, so long as the plan has a ‘reasonable likelihood of success.’” *In re Adelphia Bus. Solutions, Inc.*, 341 B.R. 415, 421–22 (Bankr.S.D.N.Y.2003).

The pension-related uncertainties were risks but every plan has some level of risk. The Court even acknowledged this risk but still ultimately found the Plan feasible. *In re City of Detroit*, 524 F.R. 147 at 232 (noting “the risk remains that at the end of FY2023, the UAAL could be much larger than currently projected”).

The City lastly claims the Court’s Confirmation Opinion “adopted and incorporated” the entirety of Kopacz’s report—a report that the City claims “confirms the 30-year amortization period.” (Reply, pg. 7). This is entirely circular, as Kopacz was just summarizing the same portion of the Malhotra Financial Projection. Neither expert’s report—not the Malhotra Financial Projections and not the Kopacz feasibility report—are part of the Plan of Adjustment. The City pretends that the Financial Projections and the Kopacz feasibility report somehow magically transform into “the Plan.” Feasibility, though, was established by more than just a set of Financial Projections and the Kopacz report—it was established (as the Court expressly listed in its Confirmation Opinion) by the testimony of twenty-two witnesses, ranging from Kevyn Orr, Malhotra, Charles Moore, Glenn Bowen of Milliman, Michael Duggan, Brenda Jones (City Council President), Dan Gilbert, and Roger Penske. And exactly none of those witnesses testified that the Plan would only be feasible if the PFRS pension

payment in 2023 was paid over a thirty-year period. In fact, to the contrary: both Kopacz and Moore went on record outright *criticizing* the City and the Retirement Systems’ prior use of lengthy amortization periods and cited it as one of a handful of “practices” that led to chronic underfunding and “contributed to a significant shortfall in the two pension plans” (Ex. F to PFRS Response, Kopacz Supp. Report, Dkt. No. 13634-7, pg. 127) (criticizing the use of “renewing 29- (PFRS) and 30-(GRS) year amortization periods for funding the unfunded pension obligations”) (citing Dkt. No. 13).

The City attempts to undermine the PFRS’s assertion in its Response that the City’s own experts did not support a 30-year amortization period by claiming that (i) the Glenn Bowen deposition testimony cited by the PFRS related to his work early in the bankruptcy case, not at the confirmation phase of the case; and (ii) Chuck Moore’s deposition testimony was an “esoteric and hypothetical discussion of other plan amortization periods[.]” (Reply, pg. 18-19). But the absence of any testimony during plan confirmation from either Bowen or Moore—the two key pension task force experts—in favor of a 30-year amortization period is telling. The reason the record is bereft of any such testimony is because those experts were decidedly *against* long amortization periods and those experts would have been promptly impeached with the testimony cited by the PFRS in its Response if they had shown up at plan confirmation and abandoned their prior unequivocal testimony that lengthy amortization periods were inappropriate for the City. In fact, in addition to his later deposition testimony, Moore’s

first-day declaration has an entire section dedicated solely to his criticism of the 29-year and 30-year amortization periods previously used by the City. In a section entitled “*GRS’ Amortization Method Is Unreasonable*,” Moore chastised the use of a 30-year open amortization because “[t]his causes the UAAL to grow rapidly (due to compounding), and essentially ‘kicks the can’ of responsible pension funding ‘down the road.’” (Dkt. No. 13, Moore Declaration at page 8-9) (emphasis in original). He further noted that while “many governmental plans use long amortization periods to fund liabilities—in part to justify lower current contributions to their pension systems—use of a 30-year amortization period on an open-ended basis simply defers indefinitely the cost to the City of the Systems’ liabilities” which he explained “is especially problematic in mature pension funds like GRS and PFRS[.]” Moore also explained in his declaration that the City asked Milliman to “determine the City’s future contribution obligations using more reasonable amortization periods” and Moore specifically identified more “reasonable” amortization periods as “shorter, closed amortization periods—15 years for PFRS (to account for the fact that the PFRS is already closed for new hires) and 18 years for the GRS.” *Id.* This is *precisely* the position urged by the PFRS’s actuaries as set forth in the PFRS Response. Gabriel Roeder advised the PFRS to reject the City’s request for a 30-year amortization because “[i]n mature legacy plans, the risk of plan insolvency is increased when amortization periods are longer than 10 or 15 years”⁶—

⁶ See Ex. J to PFRS Response, Gabriel Roeder Report.

advice that is in line with the City's *own* pension experts' dim view of lengthy amortization periods. In its current Motion, the City would have this Court believe that it engaged not just one pension expert—but an entire *task force* of pension experts—yet somehow came up with a Plan of Adjustment that adopted the same exact 30-year amortization that those experts lambasted on day one of the bankruptcy filing as well as during their discovery depositions prior to the confirmation trial.

In short, after fly-specking the entire confirmation record, the City's whole case hangs on a self-admitted "assumption" used by a financial expert. That "assumption" was then blindly regurgitated by Kopacz in her report without questioning whether it was actually part of the Plan—yet incredibly, the City stretches this to claim that Kopacz "confirmed" in her report that a 30-year amortization was part of the Plan. The PFRS does not dispute that the City may have used a 30-year amortization period a placeholder in its Financial Projections—what it does dispute is that this term was ever formally incorporated into the Plan itself. It was not.

E. The Plan Controls Over The Confirmation Opinion And Order

Contrary to the City's argument, the Plan controls over the conflicting Confirmation Opinion and Order. See e.g., *In Re Davis Offshore, L.P. v. Nancy Sue Davis Trust*, 644 F.3d 259 (5th Cir. 2011). In *Davis Offshore*, an adversary proceeding was filed six months after the plan was finalized and the confirmation order was entered, at which time it was discovered that the release and exculpation provisions contained in the plan were different than the ones set forth in the confirmation order.

The scope of the release and exculpation provisions were critical to determining whether the adversary proceeding could move forward because under the plan, claims against the buyer of the debtor's assets in the bankruptcy proceeding were discharged. Under the release in the confirmation order, however, they were not. The bankruptcy court, in analyzing the conflicting interpretations of the plan versus the confirmation order, ruled that as a matter of law, the confirmation order took precedence over the plan. *Id.* at 268. The Fifth Circuit reversed, reasoning:

[A]llowing an order of confirmation always to trump the plan, if the two documents are in conflict, encourages error and abuse. In the flurry of activity that normally precedes plan confirmation, the parties have more likely negotiated and studied the terms of the plan itself than the often boilerplate language embodied in the court's order of confirmation. . . . An error in the confirmation order should not overcome the parties' negotiated deal.

Id. at 268. Moreover, the court continued, "allowing the order of confirmation to stand alone, separate and apart from the plan, in the interpretive process would tempt parties to insert other provisions in the confirmation order that might not coincide with a plan...[.]" *Id.*

The same is true here. As pointed out in the PFRS's Response Brief, no less than *twenty-seven* separate parties here heavily negotiated the pension portion of the Plan. The various inter-related documents that form the Grand Bargain (*i.e.*, the State Contribution Agreement and the PFRS Pension Plan) were negotiated by and between numerous parties—the City, State, the Foundations, the two Retirement Systems, and

the Retiree Committee. The Plan was voted on by tens of thousands of retirees. A confirmation opinion—and a mere footnote in that opinion, no less—should not “overcome the parties’ negotiated deal.”

The absurdity of the City’s stance is perhaps best illustrated by the fact that the City has now put forth not one, not two, but *ten* iterations of its financial projections, and under the City’s reasoning, each one of these ever-evolving financial projections was binding and could be unilaterally updated and amended by the City until the close of confirmation trial—even if that financial projection altered the specifically negotiated terms by the parties. “At its simplest, a plan is an offer of promises made by a debtor and accepted by the creditors following serious and frequently protracted negotiations. In many of its most vital aspects, a plan is a kind of contract involving, as it does, matters of offer, acceptance, performance and the like[.]” *In re Doty*, 129 B.R. 571, 590–91 (Bkrtcy.N.D.Ind.,1991) (citations omitted). A plan is *not* a unilaterally crafted financial projection.

F. Neither Law of the Case Nor Res Judicata Apply Here

The City attempts to raise two preclusion doctrines to argue that the PFRS is bound by this Court’s Confirmation Opinion and Order but neither apply.⁷ Res judicata bars relitigation of a legal “claim” or “cause of action” but it does not apply

⁷ As an aside, this Court’s ruling that the PFRS Pension Plan is part of the Plan of Adjustment is entitled to both res judicata and law of the case deference. See *In re City of Detroit*, 538 B.R. 314, 320 (E.D. Mich. Bkr. 2015).

to a factual issue or a party's legal position on a discrete issue. "[A] claim is barred by the res judicata effect of prior litigation if all of the following elements are present: "(1) a final decision on the merits by a court of competent jurisdiction; (2) a subsequent action between the same parties or their 'privies'; (3) an issue in the subsequent action which was litigated or which should have been litigated in the prior action; and (4) an identity of the causes of action." *Winget v. JP Morgan Chase Bank, N.A.*, 537 F.3d 565, 577–78 (6th Cir. 2008). The parties' current dispute was not litigated at the confirmation trial, as the City's recent objection to the PFRS's decision to utilize a 20-year amortization period was the first time it became apparent that the parties even *had* a disagreement relating to the amortization issue. Moreover, as even Malhotra admitted, the amortization issue was always contemplated to be an issue decided in 2023—at the end of the ten-year pension hiatus—so by definition, it could not have been raised and litigated back in 2013.

Similarly, the law of the case doctrine does not aide the City. "Issues decided at an early stage of the litigation, either explicitly or by necessary inference from the disposition, constitute the law of the case." *EEOC v. United Ass'n of Journeymen and Apprentices of the Plumbing & Pipefitting Indus. of the United States and Canada, Local No. 120*, 235 F.3d 244, 249 (6th Cir.2000) (quotation omitted). As set forth above, this issue has not been litigated previously in this case. Moreover, while the "'law of the case' ... expresses the practice of courts generally to refuse to reopen

what has been decided[,]” courts will diverge from a prior ruling if there is a “cogent reason to show the prior ruling is no longer applicable, such as if our prior opinion was a clearly erroneous decision which would work a manifest injustice.” *Brady–Morris v. Schilling (In re Knight Trust)*, 303 F.3d 671, 677-78 (6th Cir. 2002) (quotations omitted). Here, to the extent the Court previously relied on a document that was not the Plan and was inconsistent with the express terms of the Plan, a “cogent reason” certainly exists to depart from (or at least clarify) the footnote in the Confirmation Opinion which summarized the Financial Projection as though it represented the Plan of Adjustment itself.

G. An Adversary Proceeding Is Necessary

The City takes the position that an adversary proceeding is unnecessary. Fed. R. Bank. P. 7001(7) states “[a]n adversary proceeding is governed by the rules of this Part VII. The following are adversary proceedings: . . . (7) a proceeding to obtain an injunction or other equitable relief, except when a chapter 9, chapter 11, chapter 12 or chapter 13 plan provides for the relief.” (emphasis added). The City’s position is that a mere motion is permissible because the Court has authority under the Plan to issue injunctions to “restrain interference by any Entity with consummation, implementation, or enforcement of the Plan or Confirmation Order.” The City’s stance is that the 30-year amortization is part of the consummation/implementation of the Plan, and therefore, the Court has the authority to issue an injunction to enforce it. Thus, the key issue is whether the 30-year amortization period is, in fact, provided for in the Plan

and/or Confirmation Order. If the Court finds that the Plan is silent on the amortization period and finds it necessary to inspect the external record (including the exhibits and testimony from trial) or if the Court finds that the City otherwise needs the funds to implement its “revitalization efforts,” then under FRBP 7001(7), the City must invoke an adversary proceeding in order to properly adjudicate this issue.

25 Proceedings recorded by electronic sound recording;
transcript produced by transcription service.

1 (Time Noted: 2:02 p.m.)

2 THE COURT: Let's call our case that's scheduled
3 for hearing at 2:00 p.m., please.

4 THE COURT CLERK: We'll call the matter of the
5 City of Detroit, Michigan, case number 13-53846.

6 THE COURT: All right. Good afternoon again. The
7 matter scheduled for hearing this afternoon, of course, is
8 the City of Detroit's motion titled City of Detroit's Motion
9 to Enforce Plan of Adjustment and Require 30-Year
10 Amortization, et cetera. It was filed at docket number
11 13602.

12 I have reviewed the -- I believe all of the briefs
13 filed, and other papers filed with respect to this motion,
14 including most recently the City's supplement that was filed
15 on February 6th at docket number 13678.

16 And the corrected sur-reply was filed by the
17 Police and Fire Retirement System of the City of Detroit on
18 February 14th. That's docket 13681.

19 And, of course, the papers filed before those
20 dates and those filings.

21 Good afternoon. Let me begin by having entries of
22 appearance put on the record by the attorneys for the
23 parties.

24 The City of Detroit's attorney?

25 MR. SWANSON: Good afternoon, Your Honor. Marc

1 Swanson and Charles Raimi on behalf of the City of Detroit.

2 THE COURT: All right. Good afternoon to each of
3 you.

4 Attorneys for the Police and Fire Retirement
5 System of the City of Detroit? I, with no objection, will
6 refer to sometimes in this hearing in abbreviated form as the
7 PFRS.

8 MS. GREEN: Good afternoon, Your Honor. Jennifer
9 Green, Roland King, and William Price, on behalf of the PFRS.

10 THE COURT: All right. Good afternoon to each of
11 you.

12 Is there anyone else on the phone who wants to
13 enter an appearance in this case today?

14 MR. BERNSTEIN: Yes, Your Honor. Douglas
15 Bernstein on behalf of the Foundation for Detroit's Future
16 and the Community Foundation for Southeast Michigan.

17 MR. HOWELL: Steve Howell, --

18 THE COURT: Excuse me. Excuse me. Mr. Bernstein,
19 give me the name of the parties you represent again?

20 MR. BERNSTEIN: The Foundation for Detroit's
21 Future, and the Community Foundation for Southeast Michigan.

22 THE COURT: All right, thank you. And next?

23 MR. HOWELL: Steve Howell, Dickinson Wright,
24 appearing on behalf of the State of Michigan.

25 And also on with me today is Patrick Dostine, the

1 Executive Director of the Financial Review Commission.

2 THE COURT: All right, thank you. Good afternoon
3 to each of you.

4 Anyone else want to enter an appearance?

5 MR. RAIMI: This is Chuck Raimi, Deputy Corp
6 Counsel for the City of Detroit. And I believe we have on
7 our -- some of our chief financial officer personnel: Steve
8 Watson, I think is the head of our budget, and I'm not sure
9 if either Jay Rising or John Naglick is on for the City of
10 Detroit.

11 MR. NAGLICK: Yes, Chuck. And, Judge, this is
12 John Naglick, Chief Deputy CFO for the City of Detroit.

13 THE COURT: All right. Good afternoon to you. By
14 the way, we've got, I don't know, some 20 people on the phone
15 listening to this hearing at the moment, the last I heard.

16 Not everyone is here just to listen. They needed
17 to enter an appearance. You can if you want, but you don't
18 have to.

19 My objective in asking for entries of appearances
20 is to get the -- primarily get the attorneys for parties who
21 are appearing for the hearing today.

22 So are there any others?

23 (No response)

24 THE COURT: Anyone else want to enter an
25 appearance for the record in this hearing today?

1 (No response)

2 THE COURT: Someone is breathing. I'm hearing
3 breathing here. You'll need to mute your phone when you're
4 not speaking, please, so we don't hear that sort of noise.
5 Keep breathing, of course, but moot your phone, please.

6 All right. So thank you all, and good afternoon
7 again.

8 What I intend to do is to have your oral argument
9 today in this hearing regarding the City's motion, with first
10 hearing argument from the counsel for the City of Detroit,
11 the Movant, and then hearing argument from counsel for PFRS,
12 the responding party -- the respondent party and the party
13 that -- the only party that filed any response of any kind to
14 the City's motion.

15 And then I'll give an opportunity for the City, as
16 counsel for the moving party here, as I normally do, a brief
17 opportunity in response in support of their motion.

18 So, now, I guess after I hear the opening argument
19 from the attorney for the City, I will give the attorneys,
20 the two attorneys, as I understand it, for other parties who
21 have entered an appearance today an opportunity to speak, if
22 you want it. That's Mr. Bernstein and Mr. Howell.

23 Although, those parties that they represent did
24 not file anything regarding this motion.

25 So let's begin, then. I'll hear first from Mr.

1 Swanson. I assume you're going to argue for the City?

2 MR. SWANSON: No. Chuck Raimi and I are going to,
3 Your Honor.

4 THE COURT: Oh, Mr. Raimi. Okay, that's fine.
5 Thank you. Of course, you are an attorney and you represent
6 the City, and that's fine.

7 So go ahead, please.

8 MR. RAIMI: Thank you. SO, as I'm sure Your Honor
9 has discerned, the City's position here is that the UAAL for
10 the PFRS must be amortized over a 30-year term, as required
11 by the confirmation opinion and order.

12 And PFRS argues to the contrary.

13 And the crux of the dispute is that PFRS argues
14 that 30-year amortization is not required by "the Plan."

15 And PFRS characterizes that the City's position is
16 relying only on "extrinsic evidence," such as financial
17 projections, to support 30-year amortization.

18 And, again, the crux of this dispute is that PFRS
19 refuses to acknowledge or even address the City's actual
20 argument. The City does not rely on extrinsic evidence. The
21 City relies on this Court's confirmation opinion, which was
22 incorporated into the Court's confirmation order, which
23 mandates -- explicitly mandates 30-year amortization.

24 And the Court's confirmation order makes its
25 requirement of 30-year amortization as final and binding as

1 anything that appears in the Plan document itself.

2 And, in fact, as I'll discuss a little later, the
3 confirmation order requiring 30-year amortization actually
4 controls, even if there were anything inconsistent in the
5 Plan itself, which there is not.

6 And we believe that's the start and end of this
7 case.

8 So, again, the Court's confirmation opinion
9 directly rules on how the PFRS legacy plans unfunded
10 actuarial accrued liability, which I think we refer to as
11 UAAL, how that liability will be amortized.

12 The relevant section of the opinion is titled --
13 and this is the Court's confirmation opinion, "The City will
14 be able to service its post-bankruptcy debt." That's the
15 title of the Court section.

16 And in reaching the conclusion the City will be
17 able to service --

18 THE COURT: Excuse me, Mr. Raimi. If you're going
19 to quote from or cite to that opinion, give me the page
20 number, if you would. I'm looking at the published
21 Bankruptcy Reporter version of the opinion, if you can.

22 MR. RAIMI: Yes.

23 THE COURT: Give me the page citation for that so
24 I have it exactly. So what was the citation?

25 MR. RAIMI: Page 231.

1 THE COURT: Okay, thank you. So just for the
2 record, it's 524 B.R. at 231.

3 MR. RAIMI: Yes. Yes, thank you.

4 THE COURT: Again, just for the record, the
5 opinion is reported at 524 B.R. 147. That's where it begins,
6 and that's the citation from December 31, 2014.

7 Thank you, Mr. Raimi. Go ahead.

8 MR. RAIMI: Yes, Your Honor. I apologize. I put
9 the page 231 in my notes here. I didn't put the rest of it.

10 But, in any event, in concluding that the City
11 would be able to service its post-bankruptcy debt, at page
12 231 the Court said, after discussing the pension obligations,
13 the Court said: "The City will then amortize the remaining
14 UAAL for both plans over the next thirty years at an interest
15 rate of 6.75%."

16 And that same ruling appears in footnote 23 of the
17 opinion, "The balance of the under funding in 2023 will be
18 amortized over a thirty year period of time."

19 So the confirmation order, at page 6, paragraph
20 (g), incorporates the confirmation opinion.

21 And then the confirmation order states, at page
22 86, section (e)(28): "The terms of the plan and this order
23 shall be binding upon an inure to the benefit of (a) the
24 City; and (b) any and all holders of claims."

25 So the thirty year amortization ruling inures to

1 the benefit of the City, and is expressly binding on PFRS as
2 a claim holder.

3 So, again, PFRS's entire case relies on the fact
4 that 30-year amortization does not appear in the plan
5 document itself. But in view of the confirmation order's
6 mandate for 30-year amortization, PFRS's argument is
7 meaningless.

8 The confirmation order's requirement of 30-year
9 amortization has precisely the same effect as if the
10 requirement appeared in the plan document, with one
11 exception, and that is this: The confirmation order, at page
12 122, paragraph (x)(83), states: "In the event of a direct
13 conflict between the plan or any agreement, instrument, or
14 document, intended to implement the plan, on the one hand."

15 So on the one hand we're talking about the plan or
16 any related agreement or instrument. If there's a direct
17 conflict between that, "and this confirmation order, on the
18 other hand. The provisions of this order shall govern."

19 So the confirmation order's 30-year amortization
20 ruling actually controls over any conflicting provision of
21 the plan, but there is none.

22 So the Court's confirmation opinion, it not only
23 expressly requires 30-year amortization, it goes through in
24 excruciating detail why 30-year amortization was absolutely
25 critical to the confirmation of the plan.

1 So the plan of adjustment allowed the City to
2 erase many, many obligations. But it also required the City
3 to pay out over the 40-year forecast period billions of
4 dollars of legacy plan payments and other bankruptcy-related
5 obligations, as well as borrowings to fund the City's
6 revitalization initiatives.

7 So you have these billions of dollars that the
8 City needed to pay out over the 40-year forecast period.

9 The foundation of the plan of adjustment was
10 preparation of financial projections that laid out over that
11 40-year time frame the City's projected cash needs and where
12 the money would come from.

13 Now, there were several of those 40-year
14 projections. The earliest that we could find, the earliest
15 projection, was attached to the one and only disclosure
16 statement that was served on the voters who voted on
17 confirmation of the plan. And that was in May of 2014.

18 And that financial statement is exhibit 19 to the
19 City's reply brief.

20 So the second page of the financial projection,
21 and this is immediately after the cover page, is titled "Plan
22 of Adjustment, 40-Year Projection Assumptions."

23 And that page -- it's only a one page summary of
24 the most important provisions of the plan of adjustment, but
25 that page shows the UAAL amounts estimated for both of the

1 legacy plans, PFRS, which is Police and Fire, and GRS, which
2 is the General Retirement System.

3 So that page shows the UAAL amounts estimated for
4 both of those plans as of the date of June 30, 2023.

5 And the significance of that date, June 30, 2023,
6 that is the end of what was supposed to be, but turned out
7 not to be, the City's 10-year pension holiday. And, again,
8 I'll get to that a little later.

9 So then again at page 2 of that same document,
10 after identifying the estimated UAAL as of June 30, 2023, it
11 states that that UAAL will be amortized over 30 years at
12 6.75% interest.

13 Now, that same document also contains detailed
14 financial schedules which lay out the City's projected
15 sources and uses of cash over the 40-year period.

16 And so, for example, page 5 of the document shows
17 the payment by the City of almost \$4 billion dollars in
18 legacy pension obligations, decade-by-decade, over the 30-
19 year amortization period.

20 So all interested parties were clearly informed,
21 at least by May 2014 when they received the disclosure
22 statement, that the plan of adjustment would entail 30-year
23 amortization.

24 Now, there were several later versions of those
25 40-year projections that were introduced at the confirmation

1 trial. Each of those had the same estimate for the legacy
2 plans UAAL as of June 30, 2023.

3 Now, the numbers in the other schedules changed,
4 and that was primarily the result of settlements with the key
5 creditors in the bankruptcy case, Syncora and FGIC. Those
6 settlements added significant additional debt obligations for
7 the City, and the schedules showed when those additional
8 payments would be made in the 40-year forecast period.

9 But again, each of those later financial
10 projections had the same statement at the second page that
11 the UAAL would be amortized over 30 years. And all of the
12 attached schedules likewise showed that the pension
13 obligation, the UAAL, would be amortized over 30 years.

14 So those financial projections were the foundation
15 for the plan of adjustment. The attorneys and the Court
16 itself spent days at trial questioning witnesses about the
17 projections. And the Ernst & Young witness testified without
18 contradiction that the 40-year projection "shows the key
19 items of the settlement with GRS and PFRS as a part of the
20 plan of adjustment." So the settlement was the 30-year
21 amortization.

22 The witness also testified that the 40-year model
23 was "used to really illustrate how the City was going to pay
24 for the over all settlements it has reached with the various
25 classes."

1 GRS and PFRS were two of the many classes of
2 unsecured creditors in the case.

3 So the Court's confirmation opinion relies very
4 heavily on, and it actually incorporates in its entirety, the
5 feasibility opinion by Court appointed expert, Martha Kopacz.

6 The key to Ms. Kopacz's finding the plan was
7 feasible was the following statement in her report: "The
8 plan of adjustment proposes that the City will amortize the
9 remaining UAAL for each retirement system as of June 30,
10 2023, over the following 30-year time frame."

11 And it was on that basis that Kopacz, and
12 ultimately this Court, found the plan feasible.

13 Now, in addition to reliance on Kopacz's opinion,
14 the Court's confirmation opinion exhaustively discusses, and
15 actually cites more than 30 times, the final Ernst & Young
16 40-year projection, which is exhibit 17 to the City's reply
17 brief.

18 The Court approved the plan because the Court
19 found that the financial projects, each of which relied upon
20 and incorporated 30-year amortization, were reasonable.

21 In other words, the Court found that the City
22 would be able to pay out the obligations that it owed over
23 the 40-year forecast period precisely because the huge
24 liabilities to the pension system were to be amortized over
25 30 years.

1 And the Court unambiguously ruled in two separate
2 places in the opinion, and I've quoted those previously, but
3 I will again, that the legacy plans UAAL as of June 30, 2023
4 would be amortized over the following 30 years. That is this
5 Court's order.

6 Now, PFRS has filed a 40-page response brief, a
7 29-page sur-reply, but in those 69 pages. PFRS doesn't even
8 acknowledge or address the fact that this Court's order
9 unambiguously requires 30-year amortization, let alone
10 attempt to explain why PFRS is not bound by that order, an
11 order which by its terms inures to the benefit of the City
12 and is binding on PFRS.

13 Instead, PFRS repeatedly ignores the Court's order
14 and misrepresents the City's position as relying only on
15 extrinsic evidence.

16 So at page 1 of its initial response brief, PFRS
17 argues: "Because it cannot rely on the plan to support its
18 position, the City instead resorts to extrinsic evidence."

19 And at page 16 of its sur-reply, PFRS argues:
20 "The City pretends that the financial projections in the
21 Kopacz feasibility report somehow magically transform into
22 the plan."

23 And page 24 of its sur-reply, PFRS states: "In
24 short, after fly specking the entire confirmation record, the
25 City's whole case hangs on a self-admitted 'assumption' used

1 by the financial expert."

2 To put it as kindly as I can, PFRS completely
3 misstates the City's argument, and completely ignores this
4 Court's confirmation opinion and order which mandate 30-year
5 amortization.

6 So I'd like to change subjects and address some of
7 the PFRS's main arguments in the case, other than its
8 mischaracterization of the City's position.

9 PFRS's initial response brief relied almost
10 entirely on the State of Michigan contribution agreement.
11 And that was the agreement under which the State contributed
12 funds as part of the "grand bargain."

13 And a portion of that State contribution agreement
14 was incorporated into the plan of adjustment.

15 PFRS argued that the agreement, the portion of the
16 agreement incorporated into the plan, conferred on PFRS
17 "unfettered discretion" over the amortization term. So that
18 means that -- so PFRS currently wants 20-year amortization.

19 If it wins this motion under its "unfettered
20 discretion" argument, it would be free to reduce that to 5
21 years or 1 year.

22 And the General Retirement System, which operates
23 under the same language, is also bound by 30-year
24 amortization, by the way, but under PFRS's theory the General
25 Retirement System would be free to amortize to reduce the

1 amortization period in its "unfettered discretion."

2 So in support of its "unfettered discretion"
3 argument, PFRS's brief quotes three times the same language
4 from the State contribution agreement. And this is in its
5 initial response brief. Each quotation has lots of bolded
6 and underlined emphasis.

7 But PFRS makes no attempt to actually analyze the
8 language. PFRS offers no explanation of how the language
9 purports to give PFRS any authority over the amortization
10 term.

11 And, in fact, the quoted language doesn't mention
12 the amortization term.

13 So in our reply brief, we analyzed the actual
14 language and showed that the language cannot be read to give
15 PFRS any control over the amortization term, let alone
16 "unfettered discretion."

17 This Court's order of 30-year amortization
18 controls.

19 So this Court allowed PFRS to file a sur-reply,
20 and they did file a 29-page sur-reply brief. That brief
21 makes no attempt to respond to the City's reply brief
22 argument showing that the contribution agreement gives PFRS
23 no control over the amortization term.

24 PFRS's failure to address the City's discussion is
25 an admission that PFRS's argument has no merit.

1 But even if there were a conflict between the
2 confirmation order and the plan, or the portion of the
3 contribution agreement incorporated in the plan, and there is
4 not, there's no conflict, but even if there were, this
5 Court's ruling in the confirmation order of 30-year
6 amortization would control. And, again, that's paragraph
7 (x) (83) at page 122 of the confirmation order.

8 So in its sur-reply, rather than attempting to
9 defend its prior argument on the State contribution
10 agreement, PFRS makes an entirely new argument.

11 PFRS argues that the plan actually requires the
12 City to pay off the entire UAAL in the first year. In other
13 words, they claim the amortization term is zero years. And,
14 of course, nothing in the plan supports that.

15 PFRS relies on plan provisions that provide for
16 PFRS to compute the City's annual funding contributions
17 starting July 1, 2023. And PFRS does have that obligation.

18 So at page 4 of PFRS's sur-reply, they cite a
19 provision stating that PFRS shall annually determine the
20 required annual contribution, and the City shall pay that in
21 the ensuing fiscal year.

22 But here's the controlling point: In doing that
23 computation, PFRS is bound to use this Court's -- excuse me,
24 is bound by this Court's order to use 30-year amortization.

25 Now, PFRS's sur-reply includes a lengthy

1 discussion of a 2006 Michigan Court of Appeals case where the
2 dispute was between the City and PFRS, and the question was:
3 Who controlled the amortization term?

4 And PFRS raises this issue elsewhere in its briefs
5 as part of PFRS's attempt to frame the issue in this case as
6 "who gets to decide the amortization term? PFRS or the
7 City?"

8 So the answer to that one is easy. The correct
9 answer is that the Court gets to decide, and the Court did
10 decide on 30-year amortization.

11 PFRS's sur-reply points out that for financial
12 instruments such as notes and bonds, amortization periods
13 appear in the plan document itself.

14 Those financial instruments were intended to be
15 traded in financial markets, and it's entirely logical that
16 the plan would include the financial terms.

17 But, again, that has nothing whatsoever to do with
18 the amortization term, which, again, is controlled by the
19 Court's order.

20 I'd like to address for a moment some testimony
21 that was provided by the Ernst & Young witness at the
22 confirmation trial.

23 This was first raised -- this testimony was first
24 raised by PFRS in its initial response brief at pages 19 and
25 20, where it quotes the testimony.

1 PFRS argues that the testimony cuts against 30-
2 year amortization.

3 So we responded in our reply brief at pages 13 and
4 14 quoting the same testimony. And we point out that the
5 testimony upon which PFRS had relied discussed amortization
6 methodology, not the amortization term. And those are two
7 different things.

8 Just like a mortgage might have a 30-year term,
9 there are different ways that the mortgage can be paid
10 depending on whether it's level principal or how the
11 principal is being amortized, and so forth.

12 Similarly, for amortizing the UAAL here, under 30-
13 year amortization the annual funding amounts might differ
14 based on the methodology. For example, straight line
15 principal calculation or level payments are two different
16 methodologies.

17 But, again, that is entirely separate and distinct
18 from the 30-year amortization term.

19 So in our reply brief, when we address the
20 testimony that PFRS had quoted, we point out that the
21 testimony makes that distinction clear. It acknowledges the
22 methodology might affect the annual payments, but the
23 witness, no less than three times in this rather brief
24 quotation, testified that the amortization term is 30 years.

25 So PFRS came back to this subject in its sur-

1 reply. And again it quotes a portion of the testimony at
2 pages 15 and 16 of its sur-reply. But PFRS doesn't address
3 the fact that the witness was discussing amortization
4 methodology and not the amortization term, nor does PFRS even
5 acknowledge that he repeatedly confirmed the amortization
6 period was 30 years.

7 What PFRS did in its sur-reply, it simply deleted
8 the key paragraph of the testimony in which the witness
9 confirmed, again, three times, that the amortization term is
10 30 years.

11 The key testimony was in its initial response
12 brief, but disappeared in the sur-reply.

13 Now, PFRS's sur-reply points out that several City
14 witnesses criticized the General Retirement System pre-
15 bankruptcy conduct. There is a very long line of people that
16 that criticized that conduct, and to my knowledge no one has
17 ever defended it.

18 GRS used an open-ended amortization term, meaning
19 the term -- the amortization term kept rolling over and over
20 and nothing was ever amortized.

21 And making the problem worse, GRS was an open
22 plan, meaning there were new participants who were retiring
23 from the City and being added to the retirement rolls,
24 increasing the obligations.

25 Again, that has nothing to do with the current 30-

1 year amortization. The 30-year period is closed here, not
2 open, so the entire UAAL will be gone at the end of that
3 period.

4 Equally important, the legacy plans are frozen,
5 meaning no new participants are being added.

6 And our opening brief discusses reports, both by
7 PFRS's actuary, Gabriel Roder, and the City's actuarial
8 expert Kyra. Neither firm identified any funding risk, and
9 that was without even considering the \$400-plus million
10 dollars the City has put in to retiree protection trust
11 funds.

12 The only risk identified by either firm was
13 identify Kyra, the City's expert, it pointed out that
14 accelerated amortization would increase the market risk faced
15 by PFRS in the event of a sharp market downturn.

16 Now, PFRS's sur-reply advances another new
17 argument at page 24, "the plan controls over the conflicting
18 confirmation opinion and order."

19 So PFRS cites to the Fifth Circuit case of *In Re*
20 *Davis Offshore*. I don't have that cite. I could look it up
21 if the Court likes. It's in our reply brief. No, it's not
22 in there. It's in the PFRS sur-reply brief. *In Re Davis*
23 *Offshore*.

24 THE COURT: That's fine, Mr. Raimi. I know what
25 case you're talking about, and I did see that in their sur-

1 reply.

2 MR. RAIMI: Okay. All right. In any event, in
3 that case the Fifth Circuit found that the Bankruptcy Court
4 erred in the following conclusion: "The confirmation order
5 must always prevail over the terms of a conflicting plan."
6 That was the Bankruptcy Court's statement.

7 So the Fifth Circuit rejected that dogmatic
8 statement, and observed that confirmation orders are often
9 largely boilerplate, according to the Fifth Circuit.

10 The Court also pointed to the hasty and time
11 pressured process that led to the confirmation order in the
12 underlying bankruptcy case.

13 So here, we have exactly the opposite. First, and
14 again importantly, there is no conflict between the
15 confirmation order and the plan, because the plan document is
16 silent on the amortization term.

17 And, in fact, PFRS itself stated: "The plan is
18 silent as to the specific language of the applicable
19 amortization period." That statement is found at page 3 of
20 the initial response by PFRS.

21 But once again, even if there were some conflict,
22 paragraph (x)(83) of the Court's confirmation order
23 specifically provides that it controls over anything in the
24 plan or any associated document, which would include the
25 State contribution agreement.

1 And I want to apologize. We did not quote and
2 cite that provision to the confirmation order, that paragraph
3 (x) (83), in our papers because we saw no need, because PFRS
4 had conceded in its initial brief that the plan was silent on
5 the amortization term.

6 So it raised that issue in its sur-reply, and
7 that's why we think it's important to mention in oral
8 argument that specific provision of the confirmation order
9 that makes clear it controls over any conflicting provision
10 that might be in the plan or the contribution agreement.

11 So the final issue, and I appreciate the Court's
12 patience, the final issue I'd like to address is *res judicata*
13 and law of the case.

14 We discuss in our reply brief that both doctrines
15 apply, but I want to focus the argument on the law of the
16 case.

17 The parties actually agree on the definition of
18 when that doctrine applies: "Issues decided at an early
19 stage of the litigation, either explicitly or by necessary
20 inference from the disposition, constitute the law of the
21 case."

22 So here, we're not actually really dealing with
23 something that was decided at an early stage. We're dealing
24 with the confirmation order, which was entered after
25 extensive litigation and trial, and which specifically

1 requires 30-year amortization.

2 So in an attempt to get around that, PFRS, at page
3 28 of its sur-reply, relies on a narrow exception to the
4 doctrine of law of the case, as articulated by the Sixth
5 Circuit.

6 And PFRS's brief quotes this exception: "A
7 court's power to reach a result inconsistent with a prior
8 decision reached in the same case is to be exercised very
9 sparingly, and only under extraordinary circumstances."

10 The Court went on to say: "To differ, we must
11 find some cogent reason to show the prior ruling is no longer
12 applicable, such as if a prior opinion was a clearly
13 erroneous decision which would work a manifest injustice."
14 So that's the exception that PFRS relies on.

15 And at page 22 of the sur-reply, PFRS offers one
16 sentence. It's actually a run-on sentence, but it's one
17 sentence to justify application of the exception. That
18 sentence, again, once again, completely ignores this Court's
19 confirmation opinion and order, and, once again, rehashes
20 PFRS's false characterization of the City's position as
21 relying only on "extrinsic evidence" such as the financial
22 projections.

23 And for all of the reasons I've discussed, PFRS's
24 argument is false on all accounts.

25 But the exception that PFRS relies on also

1 requires a showing of manifest injustice. Truly, there could
2 be nothing more manifestly unjust than PFRS's position in
3 this dispute.

4 The Police and Fire retirees receive an enormous
5 benefit from 30-year amortization. Spreading out the
6 payments in that fashion allowed the PFRS retirees to retain
7 essentially their full pensions. The only cut was a 55
8 percent reduction in the cost of living increase.

9 At page 181 of this Court's confirmation opinion,
10 the Court stated that the pension settlement "borders on the
11 miraculous."

12 But now, years after the retirees have locked in
13 their miraculous pension settlement, achieved the 30-year
14 amortization, the retirees, for the very first time, the very
15 first claim, this claim was never raised during the
16 bankruptcy proceeding, was never raised before they filed
17 their brief in this case.

18 The retirees, for the very first time, claim they
19 have the right to accelerate the amortization in their
20 unfettered discretion. The City's finances be damned.

21 This, in our view, is a classic bait-and-switch.

22 Now, there was one other reason the retirees were
23 able to achieve such a miraculous pension recovery. And that
24 was because of a horrific mistake in the calculation of the
25 legacy plans UAAL during the bankruptcy proceedings.

1 The actuaries grossly miscalculated by some \$500
2 million dollars the actual UAAL of the legacy plans. And
3 this is discussed at some length in Duggins' declaration.

4 As he explains, the mistake surfaced in 2015, the
5 year after the City's exit from bankruptcy, and after the
6 miraculous pension settlements had been locked in.

7 The result of the mistake evidently, as far as we
8 can tell, it's never been clear, evidently resulted from the
9 actuaries using the wrong mortality tables. And our
10 understanding is that PFRS's own actuary was actually
11 intimately involved in those calculations.

12 So anyway, the upshot was this: Instead of
13 enjoying a 10-year pension holiday, as the plan of adjustment
14 envisioned, so the plan of adjustment basically said that the
15 City does not have to -- is not supposed to have to make any
16 pension contributions for 10 years, until June 30, 2023.
17 That was called the "pension holiday."

18 But instead of having a pension holiday, the City,
19 to protect the retirees, had put away, without recourse, more
20 than \$400 million dollars into retiree protection trust
21 funds. And that funding was at the cost of funding other
22 critically important City needs, such as public safety.

23 So here is PFRS's position on this, as stated at
24 page 4 of its initial response brief: "Moreover, raising the
25 specter of 'ferasibility,'" so PFRS put the word

1 "feasibility" in quotes for some reason, "raising the specter
2 of feasibility now gets the City nowhere. It is undisputed
3 that the City has the money. To its credit, the City has set
4 aside hundreds of millions of dollars in trust to fund the
5 2023 payment."

6 PFRS says to our credit we put hundreds of
7 millions of dollars away to fund the 2023 payment.

8 So the Mayor's declaration is quite clear, and the
9 City did not set aside hundreds of millions of dollars so
10 PFRS could grab the money and run.

11 The funding is to insure the financial health of
12 both legacy plans throughout the 30-year amortization period.

13 Everything about PFRS's position in this dispute
14 is legally unsound and manifestly unjust.

15 And for those reasons, we ask the Court to grant
16 the City's motion.

17 THE COURT: All right, thank you, Mr. Raimi. As I
18 mentioned earlier, I'll give an opportunity now if you want
19 to speak to the attorney for the parties who did not file any
20 response to the motion here today.

21 Mr. Bernstein, if you want to say anything, please
22 do, but you're not obligated to, of course.

23 MR. BERNSTEIN: No, Your Honor. The Foundation
24 for Detroit's Future's role is strictly to monitor compliance
25 for funding of the grand bargain. So the Foundation for

1 Detroit's Future takes no position on the motion.

2 THE COURT: All right. Thank you, Mr. Bernstein.
3 Mr. Howell, same thing. If you'd like to say anything, you
4 may, but you're not required to.

5 MR. HOWELL: No. I will echo Mr. Bernstein's
6 eloquence.

7 THE COURT: So including your client takes no
8 position on the motion?

9 MR. HOWELL: That is correct.

10 THE COURT: All right, thank you. I believe it's
11 time for the Court to hear oral argument from counsel for
12 PFRS.

13 Ms. Green, who is going to argue for PFRS?

14 (No response)

15 THE COURT: I'm not hearing anything. Are you
16 still on mute?

17 (No response)

18 THE COURT: Ms. Green, are you there?

19 MS. GREEN: We are. Our phone dropped for a
20 moment when you were asking if the Foundation had any
21 comments they would like to make. And our phone line got
22 cut, so we just dialed back in.

23 THE COURT: All right. So I was asking who is
24 going to argue for PFRS. Is that you, or one of the others?

25 MS. GREEN: That is me, Your Honor.

1 THE COURT: Okay. In case you missed it, the main
2 thing I took from what Mr. Bernstein stated and Mr. Howell
3 stated for their clients is that their clients take no
4 position on the City's motion, which I guess is sort of
5 evident from the fact that they filed nothing in response to
6 the motion.

7 So please go ahead. Ms. Green, what would you
8 like to say about the City's motion and PFRS's position on
9 it?

10 MS. GREEN: Well, it should come as no surprise
11 that we have a wildly different take on the matter, Your
12 Honor.

13 We don't believe the City's motion is a motion to
14 enforce the plan at all, but rather, a motion to enforce a
15 financial projection. And what they're really asking this
16 Court to do is to modify the plan.

17 The key sentence that Mr. Raimi has cited to the
18 Court, which states that the City will then amortize the
19 remaining UAAL for both plans over the next 30 years at an
20 interest of 6.5 percent, which is on page 231 of the opinion,
21 appears to be the lynchpin of the case.

22 That particular sentence is just wrong. Not only
23 on the UAAL amortization, but the interest rate of 6.5
24 percent isn't -- 6.75 percent is also in error.

25 The plan itself actually states that the 6.75

1 percent interest rate expires at the end of the 10 years.

2 So that sentence is wrong on both fronts.

3 And the 10-year pension hiatus coincides with an
4 entirely new system, which is where the board gets to decide
5 the amortization period.

6 In our view, the controlling documents that set
7 forth the framework for the Court is not the confirmation
8 opinion or the financial projections, but, rather, the plan
9 of adjustment itself, as well as the State contribution
10 agreement and the PFRS plan documents, and then supplemented
11 by Michigan law, which is Public Act 314 and the Michigan
12 Court of Appeals case that cited.

13 The plan of adjustment language, Your Honor, I
14 think it's important to remember that this board and the PFRS
15 has been deciding amortization for decades and decades before
16 the bankruptcy case ever occurred. And that went on from
17 1974 until the mid-2000s when this issue went to the Michigan
18 Court of Appeals.

19 And at that point in time, the City wanted to do
20 the same thing, which is control the amortization decisions.
21 And the Michigan Court of Appeals said "no, this is a board
22 decision."

23 The board continued until the bankruptcy case to
24 make the amortization decisions consistent with Michigan law.

25 In the bankruptcy case, there was the grand

1 bargain. And for 10 years, there was a period of time where
2 the board did not make that decision.

3 However, when that 10 years expired, that decision
4 remains with the board to decide an appropriate amortization
5 period.

6 The key provision of the plan, Your Honor, is on
7 page 315, which states: "The City will contribute sufficient
8 funds required to pay each holder of a PFRS pension claim,
9 his or her adjusted pension amount."

10 Contributing sufficient funds means that the City
11 has to give enough money to cover the UAAL for component two.
12 That contribution could not be changed for 10 years.

13 But under section (2) (b) (3) (q) (2) (g), which I'm
14 sorry because there's a lot of sections that have to be used
15 here, Your Honor, that expired at the end of the 10 years.
16 And at that point in time, then the PFRS was once again
17 permitted to change the 6.75 percent interest rate, as well
18 as any employer contribution by the PFRS.

19 And that particular section, Your Honor, even
20 states that the PFRS can change the terms, conditions, and
21 rules, of operation of the PFRS.

22 So the only intervening period of time where the
23 PFRS was ever unable to determine the amortization period was
24 during the pension holiday. And the State contribution
25 agreement, which is part of the plan of adjustment, states

1 that an investment committee would be formed to take action,
2 and with respect to certain investment management matters
3 relating to the retirement system, and that they would serve
4 in a fiduciary capacity.

5 The State contribution agreement also states that
6 the investment committee's scope of authority includes annual
7 funding levels and amortization thereof, and annual
8 contributions to the retirement system.

9 Therefore, the 30 years under the State
10 contribution agreement is something that the investment
11 committee has the authority to decide, not the City.

12 And, in fact, the City is not permitted under the
13 State contribution agreement to hold that decision, because
14 it is considered a party-in-interest, and, therefore, it is
15 specifically required to not be part of that voting block.

16 Then you move to the pension plan documents that
17 were attached to the plan of adjustment itself. And this
18 Court has already held, in the *RDPF* lawsuit that the pension
19 plan documents are part and parcel to the plan of adjustment.

20 And those documents lay out in specific detail
21 exactly how the pension plan will work, including that the
22 board sets the employer amount. And these are the citations
23 that were included in the PFRS sur-reply, including paragraph
24 (g) (5), which states that after July 1, 2023, the board of
25 trustees, not the City, will determine the amount of the

1 contributions due to the retirement system.

2 And that provision also states that the City shall
3 pay such contributions to the retirement system during the
4 ensuing fiscal year.

5 The last paragraph of that section, Your Honor,
6 states that after July of 2023, the City shall make the
7 contributions to the pension accumulation fund. That
8 provision, Your Honor, gives the board the right to calculate
9 the amount of the contribution owed by the City.

10 And the third point with that paragraph, Your
11 Honor, is that it once again ties the 10-year period as
12 expiring at 2023.

13 THE COURT: Excuse me, Ms. Green. Exactly where
14 in the PFRS plan documents are you referring to?

15 MS. GREEN: Article (g)(5), Your Honor. It's
16 exhibit E to our response.

17 THE COURT: Wait a minute. Your initial response,
18 right?

19 MS. GREEN: Yes. Article (g)(5). It's quoted in
20 the sur-reply, but it's attached to the response.

21 THE COURT: Hold it. I'm looking at -- what I've
22 got is a copy of the exhibits, the plan exhibits, that
23 consisted -- or that were the PFRS plan, the combined plan,
24 so exhibit 1A254.A, for example.

25 And I've got a copy of exhibit 1.A.281, which is

1 titled prior PFRS pension plan.

2 Which of those documents are you citing at the
3 moment?

4 MS. GREEN: I'm citing the new component to the
5 plan documents, Article (g)(5).

6 THE COURT: In other words, the form of new PFRS
7 active pension plan, exhibit 1A254(a)?

8 MS. GREEN: That should be correct, Your Honor.
9 And it's cited on page 4 of our sur-reply.

10 THE COURT: Okay. So in that document, page what
11 has your section (g)(5) in it? It's a long document. That's
12 why I'm asking.

13 MS. GREEN: Are you asking for the page number of
14 my sur-reply, or the page number in the exhibit?

15 THE COURT: In the actual document, the plan
16 exhibit document that I'm looking at. And I apologize.

17 MS. GREEN: Oh, yes.

18 THE COURT: I want to pin it to that, because
19 that's clearly one of the plan exhibits that was filed with
20 the eighth amended plan.

21 So do you happen to have a page reference?

22 MS. GREEN: I do. I do. And, Your Honor, the
23 version that I have is the one that was actually passed by
24 the emergency manager and attached to the emergency manager
25 order.

1 THE COURT: Yes.

2 MS. GREEN: Following the bankruptcy. So the
3 pinpoint citation in that document is page 123.

4 THE COURT: All right. That document, I believe I
5 know where that is in the record, and I've previously looked
6 at that in prior matters in this case.

7 The version attached to the emergency manager
8 order?

9 MS. GREEN: Yes. And it's exhibit 2 to our
10 initial response, Your Honor.

11 THE COURT: Okay. Thank you. Go ahead.

12 MS. GREEN: That provision, Your Honor, states
13 that the payment is owed during the ensuing fiscal year. And
14 it also states that the decision is of the board of trustees,
15 that the board of trustees will ascertain that amount that is
16 due.

17 And there's nothing in that provision that says
18 anything about an amortization period whatsoever.

19 And the next section is (g)(9), Your Honor, which
20 states that the board sets the amount of the appropriation
21 necessary to pay for component two after June 30th of 2023.

22 And that section (g)(9), Your Honor, which is
23 cited on page 5 of our brief. Again, it states that the
24 board of trustees will determine the amount of the
25 appropriation that will be necessary to cover component two,

1 but that provision says nothing about an amortization period
2 affiliated with the payment.

3 Article (g) (17) says the same thing, that the
4 board, not the City, sets the City's contribution payment
5 amount. And that section states the board of trustees shall
6 compute the City's annual contribution after June 30, 2023,
7 using actuarial valuations data. And it also states that City
8 Council will then appropriate the money. And then that money
9 shall be used in determining the contribution dollars to be
10 appropriated by the City Council and paid to the retirement
11 system.

12 And, once again, that allows the board of trustees
13 to compute that amount, not the City.

14 And an amortization period is part and parcel to
15 what that contribution amount would be. And how do we know
16 that? We know it because the Michigan Court of Appeals
17 already interpreted this language in 2006, and stated and
18 held that a contribution by an employer to a pension plan
19 necessarily requires a calculation and an amortization
20 period.

21 And under the plan of adjustment, that term could
22 not be changed for 10 years. But after the 10 years, and
23 this is in the actual plan of adjustment, not the pension
24 plan documents, the investment rate of return and the
25 contribution level for the PFRS, and a calculation or amount

1 of PFRS pension benefits, could all be changed after the end
2 of the 10 years.

3 And that is directly in conflict with page 231
4 that Mr. Raimi had quoted you earlier, because it states that
5 these are locked in for 30 years, both the interest rate and
6 the contribution amount.

7 If Your Honor would allow me to change gears a
8 little bit?

9 THE COURT: Well, excuse me, before you do that --
10 one moment, please.

11 (Pause)

12 THE COURT: Just a moment. I'm checking
13 something. One moment.

14 (Pause)

15 THE COURT: All right, thank you, Ms. Green. Go
16 ahead and continue, please.

17 MS. GREEN: For the argument by Mr. Raimi that the
18 confirmation opinion controls over the plan documents, the
19 financial projections were simply a placeholder. And the
20 opinion, at page 231, was merely summarizing those financial
21 projections.

22 And if the financial projections were absolutely
23 critical, as Mr. Raimi stated, to the entire plan of
24 adjustment, then why would the 30-year amortization period
25 not be expressly included in the plan itself?

1 And, furthermore, page 231 reliance by the City
2 does not control over the plan under that Fifth Circuit case
3 that we cited to Your Honor, the *In Re Davis* case, because
4 the plan of adjustment was expressly negotiated by the
5 parties in detail, including the detail that we just read
6 through, Article (g)(5), Article (g)(7), Article (g)(17),
7 which expressly states that it's up to the board to decide
8 the amount of the employer contribution.

9 The same goes for the State contribution
10 agreement, which specifically states that the amortization
11 period is something that the investment committee is
12 authorized to decide.

13 And the author of the projections themselves
14 admitted that the amortization and the amount of the UAAL was
15 not set in stone. And the projections were merely one piece
16 of evidence that were used to summarize and to present the
17 City's feasibility arguments, but they were in no way
18 controlling, and they were littered with assumptions,
19 including things about casino revenue, municipal taxes. And
20 it was essentially a best guess into the future.

21 But the amortization piece of it was merely an
22 assumption. A placeholder. And the 30-year amortization
23 period was previously used by the City in determining its
24 contribution amount before the bankruptcy, and they
25 apparently just continued that assumption in their

1 projections.

2 And if 6.75 was used as an assumption, because for
3 the first time you're filing the bankruptcy, that would have
4 been the amount that was going to be applied.

5 The City itself, Your Honor, has admitted that if
6 it's not retained the authority to make this decision, as you
7 may have read in our response brief, Mayor Duggan himself was
8 quoted by the press as stating that his frustration lies in
9 the fact that his administration lacks control over this
10 decision.

11 Similarly, Mr. Raimi, while professing for the
12 last hour that this decision is the City's and only the
13 City's, in exhibit 6 to the motion there is an email from Mr.
14 Raimi to the PFRS that states: "While we understand any
15 funding policy can be changed next year, seeking the adoption
16 of a policy now significantly changes those dynamics."

17 So it appears that both the Mayor and its counsel,
18 prior to filing their motion, admitted that this was a
19 decision for the PFRS.

20 And for the reliance on the Marti Kopacz
21 testimony, Your Honor, at trial she was asked point blank if
22 she was going to be offering an opinion on amortization. And
23 she testified that she was not.

24 She was also specifically asked about the
25 appropriate amortization period, not methodology, but the

1 period that would be used. And she stated she would have "no
2 basis to know whether a 5-year or a 10-year or a 20-year or a
3 30-year amortization period would be important."

4 So if this was so critical to feasibility, then
5 one would assume that the Court's expert, the independent
6 expert, would have offered testimony that this was, in fact,
7 critical to the City's plan of adjustment.

8 And to-date, Your Honor, the City has not at all
9 explained how the pension plan documents or the State
10 contribution agreement somehow don't require it to follow the
11 amortization decision made by the board.

12 The only argument is that the financial
13 projections have a 30-year period, or the Court summarized
14 the financial projections on page 231.

15 Lastly, Your Honor, the proposal for creditors, as
16 well as the pension task force memos that were created prior
17 to the bankruptcy demonstrate that the City has never
18 actually believed that a 30-year amortization period was a
19 sound financial policy.

20 Instead, both before the bankruptcy, as well as on
21 the first day filing, we cited this in our sur-reply, Your
22 Honor, but Chuck Moore's declaration in which he, as a
23 pension task force expert, mandates the City for using a
24 lengthy 29- or 30-year amortization period.

25 That testimony, then continues throughout the case

1 as Glenn Bowen and Chuck Moore both testified during the
2 discovery period leading up to the confirmation that lengthy
3 amortization periods were not sound financial policy for the
4 City.

5 There was no record during confirmation trial in
6 support of an amortization period at all, so it's not as
7 though the Court made a ruling after a detailed evidentiary
8 presentation by the City in order to support that finding.

9 It would be PFRS's position that the four corners
10 of the plan of adjustment control, as the plan is
11 unambiguous, that it requires that the investment committee
12 decide the amortization period, which then gets voted on by
13 the board of the PFRS.

14 THE COURT: Ms. Green, let me interrupt, if I
15 could, with a couple of questions.

16 MS. GREEN: Sure.

17 THE COURT: There's a chart that sort of speaks to
18 this that was put in by the City I think that may give some
19 clues about this.

20 But is there a hard number somewhere in the record
21 of how much more the City would have to contribute in each
22 year of the 20-year amortization period that the board wants
23 to have effective toward the UAAL in 2023, if compared to
24 what the City would -- how much the City would need to
25 contribute if it's a 30-year amortization?

1 MS. GREEN: As of the last valuation report from
2 Gabriel Roeder, Your Honor, I believe it would be \$12 million
3 dollars.

4 THE COURT: Per year?

5 MS. GREEN: Per year.

6 THE COURT: All right. And is that in one of the
7 Gabriel Roeder reports in the record?

8 MS. GREEN: I don't believe the valuation report
9 has been formally issued yet for this particular time period.
10 I believe that the board of trustees for PFRS would still
11 have to adopt that valuation report before it would be
12 formalized.

13 However, I could supplement the record once the
14 board approves that.

15 THE COURT: That's not necessary. But it sounds
16 like what you're saying is consistent with this color coded
17 chart that the City put into their -- I think it was Mayor
18 Duggan's declaration, and also into their motion. You
19 remember the chart I'm talking about.

20 That looks like it shows something a little more
21 than \$10 million dollars a year more from the 20-year versus
22 the 30-year.

23 It sounds like what you're saying is that's
24 correct.

25 MS. GREEN: That's correct, Your Honor.

1 THE COURT: Okay. Then the other thing is, you
2 know, if the Court -- and this is an "if." I'm not saying
3 that I'm going to rule this way, and I don't want you to take
4 -- anybody to take any hints from this. It's just a
5 hypothetical question purely at this point.

6 If the Court agrees that the 30-year amortization,
7 agrees with the City that the 30-year amortization term is
8 part of the plan of adjustment, then it's correct, isn't it,
9 that the documents that you rely on, the PFRS new plan
10 provision, the old plan for that matter, -- well, the new
11 plan, the combined plan, and the State contribution
12 agreement, exhibit B, governance terms, and the Michigan
13 Statute that you cite, Michigan Compiled Law sec. 38.1133(g),
14 all have in them a provision that essentially says, or says
15 in substance, that everything in those documents is subject
16 to a confirmed plan, or the plan of adjustment in the City's
17 case, so that if there's something inconsistent with any
18 provision in these documents with -- in the plan, a term of
19 the confirmed plan, then that does the latter, because the
20 term of the confirmed plan governs.

21 Do you agree with that? I'm not stating it very
22 artfully, really, but do you agree with that concept in
23 substance?

24 MS. GREEN: If I understand what you're saying,
25 the plan of adjustment itself should control. And are you

1 asking whether Michigan law does not permit the amortization
2 period to be 30-years?

3 THE COURT: No. It's really a more simple minded
4 question than that.

5 MS. GREEN: Okay.

6 THE COURT: So let me rephrase it. If I find that
7 the plan, the confirmed plan of adjustment unambiguously
8 includes a 30-year amortization here, as the City argues, and
9 I'm not saying that I'm going to do that yet, but assume
10 hypothetically that I do.

11 Then your arguments about the various terms that
12 you say point to a contrary result in the PFRS plan
13 documents, the State contribution agreement and its exhibit B
14 regarding governance terms, and the Michigan Statute, all
15 contain provisions that require that the term of the
16 confirmed plan trumps anything that might be to the contrary
17 otherwise in any of those documents.

18 Again, not a real artfully stated question, but
19 hopefully you understand what I'm asking.

20 So what's your answer?

21 MS. GREEN: I think I do. And what I would say is
22 the plan of adjustment, in terms of there being anything that
23 would be inconsistent, I think it does all tie out because
24 the plan of adjustment states that for the first 10 years the
25 funding for the pension comes from the grand bargain.

1 At the expiration of that 10 years, the board has
2 the authority to go outside of the plan of adjustment. The
3 plan of adjustment no longer control all of these issues.

4 THE COURT: Your answer is fighting my
5 hypothetical. You're rejecting my hypothetical.

6 MS. GREEN: Oh.

7 THE COURT: And maybe it's -- just giving you an
8 example.

9 As you know, the City cites section 16.6 of the
10 PFRS plan, which says "nothing herein shall be interpreted as
11 permitting the investment committee or the board to alter or
12 depart from the requirements set forth in the Plan of
13 Adjustment."

14 Now, I remember -- I recall your argument in your
15 briefs, one or more of your briefs, that plan of adjustment
16 there should be interpreted only to mean the actual plan, the
17 eighth amended plan filed, and nothing else.

18 But if I find that the confirmed plan of
19 adjustment in this case includes a 30-year amortization, as
20 the City argues, then under section 16.6 there can be nothing
21 in the PFRS plan that would permit the board or the
22 investment committee to alter or depart from the 30-year
23 amortization.

24 Is that a correct statement?

25 MS. GREEN: If I'm understanding what you're

1 saying, it sounds like that would require writing the 30-year
2 amortization period into the plan itself.

3 THE COURT: If I find that it is part of the
4 confirmed plan. That's the big "if" in that question, you
5 see. It's hypothetical at this point. See what I'm mean?
6 What I'm asking? And if not, I don't want to belabor this.

7 MS. GREEN: Well, if what you're saying is that
8 the confirmation opinion is then part of the plan of
9 adjustment, because I don't believe that the 30-year
10 amortization period itself is in the plan.

11 THE COURT: Let's suppose I do rule that way.
12 And, again, I'm not yet that I'm going to, but suppose I do.

13 That ends the dispute, doesn't it?

14 MS. GREEN: That would end -- apparently it would.
15 However, I think it would undermine all of the other
16 documents that are part of the plan of adjustment that do
17 give expressly certain rights to the PFRS board.

18 For example, why would there be an investment
19 committee appointed in the first place if they were not going
20 to have a fiduciary responsibility on any decision making on
21 a go-forward basis?

22 Why would there be a new pension plan document
23 that gives the board the right to compute the amount of the
24 contribution?

25 Why would there be an article in the pension plan

1 documents that states that the City shall appropriate the
2 amounts necessary to cover any needs of component two?

3 So then you would have a completely inconsistent
4 document with internal inconsistent provisions.

5 THE COURT: So then you're saying that what 16.6
6 says makes no sense -- would make no sense.

7 MS. GREEN: Yes. I think the only way that it all
8 ties out, Your Honor, is that, I mean, look at Article G of
9 the plan of adjustment itself, that at the end of the 10
10 years this decision would be decided by the board. And the
11 scrivener of the financial projection that they hang their
12 hat on basically admitted that in his testimony.

13 And there was no other testimony from anyone else
14 by the City, either Bowen or Chuck Moore, that testified
15 otherwise.

16 THE COURT: Well, I think the City disputes what
17 you're saying, but that's -- you know, the parties discussed
18 that in their briefs.

19 All right. So I've interrupted you with these
20 questions. I'll stop now and let you continue with whatever
21 else you wanted to say.

22 (Pause)

23 THE COURT: Ms. Green? You might be on mute. I
24 don't know. The floor is yours now, so go ahead.

25 MS. GREEN: I think the question that Your Honor

1 had was a good one. I think one other item that -- I don't
2 want to lose track of this. The Court has already held that
3 the pension plan documents themselves are, in fact, part of
4 the plan of adjustment.

5 So I think we have another inconsistency if the
6 pension plan documents are not found to be controlling on
7 this issue when in certain related circumstance, the RDPFSA,
8 the pension plan documents were enforced and were held to be
9 part of the plan itself.

10 THE COURT: Excuse me, somebody is breathing
11 without being on mute. So please mute your phones when
12 you're not speaking. Thank you.

13 Go on, Ms. Green.

14 MS. GREEN: Your Honor, one other item. The 6.75
15 percent, which is the interest rate, that's another item that
16 at the end of the 10 years reverts back to the board as a
17 decision. And that is explicit in Article G of the plan of
18 adjustment, the one that ties all of the board's authority to
19 the 10-year pension holiday.

20 And that is directly inconsistent with the
21 sentence that the City hangs its entire hat on, that the City
22 will amortize the remaining UAAL for both plans over the next
23 30 years at an interest rate of 6.75.

24 That is just an erroneous statement in the
25 confirmation opinion. It's completely inconsistent with the

1 plan itself, which says that the 6.75 interest rate expires
2 at the end of the 10 years. And that's part and parcel to
3 the board's authority to set a funding policy on behalf of
4 the pension.

5 And the City has never noted that there is that
6 inconsistency. And I would be curious what Mr. Raimi's
7 response would be to that, because the 6.75 could be changed
8 within the next year by the pension.

9 Quite frankly, if it was changed to a certain
10 interest rate that was low enough, the amortization period
11 would be irrelevant, to a certain extent, because the board
12 has the authority under the plan documents to make decisions,
13 including changing the interest rate, which could then raise
14 the City's contribution on an annual basis.

15 That's another inconsistency between the
16 confirmation opinion and the actual plan document itself.

17 And in terms of the 6.75, Your Honor, there was
18 extensive testimony by Glen Bowen and Alan Perry on that
19 issue at confirmation trial. Hours and hours of testimony.

20 And the Judge made a very specific ruling on page
21 232 going into the 6.75 and why it would be reasonable. And
22 there was no similar record made regarding amortization. The
23 confirmation trial record is basically void of any expert --
24 or even a lay witness, quite frankly, that talked about why a
25 30-year period would be absolutely critical to the plan.

1 THE COURT: By the way, Ms. Green, there's
2 different parties-in-interest here that involves -- have a
3 direct interest in the issue of how the PFRS -- how the UAALs
4 for the PFRS plan were to be paid by the City under the plan.

5 But was there ever an objection to confirmation
6 that objected to the -- or to the disclosure statement, for
7 that matter that was filed by the City, that objected to
8 there being a 30-year amortization either in the plan or
9 assumed for purposes of deciding feasibility of the plan?

10 MS. GREEN: I would say two things:

11 Number one, the document that everyone is
12 referring to in the financial projection calls the 30-year
13 amortization period an assumption, and calls it hypothetical.
14 So I don't know why we would be objecting to a hypothetical
15 scenario, number one. That could change.

16 Number two, we did file -- and I don't know if
17 this is what you mean when you say "an objection." But the
18 PFRS did file a motion to exclude testimony from the Court's
19 feasibility expert, Martha Kopacz, on the amortization issue.

20 Therefore, the record did not have any expert
21 testimony in favor of the 30-year amortization. So between
22 the financial projections themselves being merely a
23 hypothetical, or with an assumption that there would be a 30-
24 year amortization, and the Court's feasibility expert
25 expressly stating, and we quoted her testimony, Your Honor,

1 at page 21 and 22 of our response brief, the Court's
2 feasibility expert taking no position on amortization.

3 And with the other pension task force expert also
4 not speaking to any position on amortization, I don't know
5 what we would have objected to. There was no evidentiary
6 record made, unlike the 6.75 interest rate, which was days
7 worth of testimony.

8 THE COURT: Ms. Green, what was the outcome of the
9 motion in limine that you just referred to?

10 MS. GREEN: She admitted she was not testifying to
11 that issue at all. So if memory serves, the opinion that
12 Judge Rhodes later authored, he said it was moot because she
13 admitted she was not going to testify to amortization at all.

14 And I can read you the testimony. I have it in
15 front of me if you have questions, Your Honor.

16 But he considered it moot because she didn't offer
17 testimony on amortization.

18 THE COURT: Excuse me. Somebody is breathing into
19 the phone. Please mute your phone when you're not speaking.
20 Again I'll ask.

21 So, Ms. Green, back to you. Did the PFRS file --
22 it must have filed an objection to confirmation in order to
23 be involved with motions in limine. There are lots of
24 objections to confirmation, many of which got resolved.

25 But what about the PFRS?

1 MS. GREEN: Your Honor, the PFRS and the City at
2 that point had settled the dispute at confirmation in terms
3 of the settlement that had been reached. So we did not
4 object to the plan, but, again, the plan documents, in our
5 mind, is clear.

6 THE COURT: No, I'm not asking about that. I'm
7 just asking -- you never filed n objection to confirmation,
8 and you've just explained why.

9 Did the PFRS ever file any objection to the City's
10 disclosure statement?

11 MS. GREEN: We had limited objections that we did
12 file, Your Honor. I will say that the financial projection
13 that's attached to the disclosure statement changed ten more
14 times before it was ultimately submitted to the Court in
15 October of 2014. And they were all unilaterally changed by
16 the City after the plan had been negotiated in detail.

17 THE COURT: Excuse me, I didn't ask you about any
18 of that. I simply asked whether the PFRS filed any
19 objections to the disclosure statement.

20 You said you filed limited objections to that, is
21 that correct?

22 MS. GREEN: Yes, Your Honor.

23 THE COURT: And what became of those? What was
24 the result on those?

25 MS. GREEN: They were resolved. I don't believe

1 at the time that the amortization issue was an issue in the
2 case, Your Honor. It's always been --

3 THE COURT: Well, again, I didn't ask you that.
4 My question was pretty limited, and I think you've answered
5 it. It was resolved by what? Some sort of withdrawal of the
6 objection, or a stipulated order regarding the objection, or
7 what? Do you recall?

8 MS. GREEN: If memory serves, Your Honor, and I
9 would have to look back at the docket because it's been
10 decades, the objections I think were withdrawn as part of the
11 larger settlement between the PFRS and the City.

12 THE COURT: Is there an order saying that, or you
13 don't recall?

14 MS. GREEN: I don't recall, but there may have
15 been. I would have to look back at the docket.

16 THE COURT: All right. Thank you. I've again
17 interrupted with questions, but I'm through with those for
18 now. So go on. What else did you want to say, then, Ms.
19 Green?

20 MS. GREEN: Your Honor brings up a good point,
21 because I think that the fundamental disconnect between the
22 City and the retirement system is that, you know, we
23 negotiated these documents heavily over many months.

24 And the explicit provision in the investment
25 committee language that states that the investment committee

1 will be charged with the amortization period is directly
2 contradicted by the opinion of the Court.

3 And I have not heard from the City a distinction
4 between the Fifth Circuit case that states that if there is
5 some kind of inconsistency between the confirmation opinion
6 and the plan documents, that the plan should control, because
7 the plan was heavily negotiated by lots of constituencies.

8 And here, we had 27 different parties that were
9 all negotiating these plan documents. And the State was
10 involved, Foundations were involved, they are on the phone,
11 the retiree committee, tens of thousands of retirees voted on
12 this.

13 Quite frankly, at the end of the 10 years there is
14 nothing in the plan itself that continues to provide that the
15 plan of adjustment controls over the normal fiduciary
16 responsibilities of the board of the PFRS.

17 And to the extent that the extrinsic evidence is
18 delved into, Your Honor, we would also request an adversary
19 proceeding be commenced, to the extent that the Court is
20 going to look at testimony and things outside the four
21 corners of the documents. Things like expert reports and
22 witness testimony.

23 But we also don't think it's necessary because the
24 plan documents themselves, in particular the State
25 contribution agreement and the PFRS revised pension plan

1 documents, expressly state that the amortization decision, as
2 well as all other funding policies, are part of the larger
3 fiduciary responsibility of the investment committee and the
4 board.

5 The other thing, Your Honor, that the PFRS would
6 like to raise with the Court is the scope of the order that's
7 been requested by the City. It seeks to enjoin the PFRS from
8 making any decisions about the amortization or any funding
9 policies, which would then strip the PFRS board of its
10 fiduciary responsibilities in a manner that we believe is
11 inconsistent with our duties under the plan documents.

12 THE COURT: Ms. Green, I don't see where that is
13 in the proposed order that was attached to the City's motion.
14 For the record, this proposed order I'm looking at is docket
15 13602, starting .pdf page 5.

16 It simply is limited to the amortization term, it
17 does appear, isn't it?

18 MS. GREEN: Correct, Your Honor. But that would
19 enjoin us for the -- basically the life of the rest of the
20 particular pension funds from ever making an amortization
21 decision that would affect the funding policy.

22 THE COURT: Well, the lengthy of the amortization,
23 the number of years of amortization, is the only thing that
24 order would restrict you from changing from 30 years to
25 something else, isn't it?

1 MS. GREEN: I agree with you, Your Honor. I'm
2 saying the length of time. It just says that we are enjoined
3 forever from making any decision on that front.

4 THE COURT: Right. Yes. What's wrong with that
5 if I agree with the City's position that the plan requires
6 that? And that's again a big "if" at this point. But if.

7 MS. GREEN: We think that would undermine all of
8 the other parts of the plan that state that we have certain
9 fiduciary responsibilities to the pension itself, as well as
10 the sections that state that we are the ones that have to
11 consult with the actuaries and calculate the amount of the
12 employer contribution.

13 THE COURT: Okay. I guess you don't like my
14 hypothetical questions, because you're not answering them.
15 You're fighting them. And that's okay. I understand.
16 You're representing a client here.

17 So I'm done questioning with you for now, again.
18 Anything further you want to say, please do so concisely. Go
19 ahead.

20 MS. GREEN: I don't have anything further, Your
21 Honor.

22 THE COURT: All right. Thank you, Ms. Green. Mr.
23 Raimi on behalf of the City, as I mentioned at the outset of
24 this hearing, I was going to give you a chance, if you want
25 to, to reply briefly in support of the City's motion.

1 MR. RAIMI: Thank you very much, Your Honor. A
2 couple of points.

3 The Mayor's understanding, as set forth in his
4 declaration, was that the City and the retirement plans had
5 agreed on 30-year amortization. And that's -- we cite that
6 at pages 3 and 4 about that in our reply brief. He was
7 testifying about trial exhibit 723 that shows the UAAL being
8 amortized over the 30 years.

9 And he testified that shows the key items of the
10 settlement with GRS and PFRS as part of the plan of
11 adjustment. So that was certainly the Mayor's understanding,
12 and nobody said otherwise until just very recently when this
13 dispute arose.

14 There is absolutely nothing inconsistent
15 whatsoever about 30-year amortization and the board computing
16 the amount of the annual funding contribution.

17 As I mentioned, there are amortization
18 methodologies, you know, level principal and so forth, that
19 can affect the amount of the annual payment amount.

20 But the first thing you have to ask is: What is
21 the amortization term? And, you know, once again, counsel
22 suggests that the City says it wants to control, that it
23 wants to decide the amortization term.

24 The Court decided the amortization terms at a
25 question of the City versus PFRS. It's the Court's order

1 that controls.

2 And counsel repeatedly says that the State
3 contribution agreement gives the board the authority to
4 decide the amortization term. We addressed that -- they made
5 that blanket assertion. PFRS made that assertion in its
6 response brief, but they never explained how any of the
7 language actually gave the board that authority.

8 And so we addressed it in detail in our reply
9 brief, and said "no, that doesn't even mention amortization
10 term." There is nothing in there that purports to give the
11 board authority over the amortization term.

12 And there was nothing in PFRS's sur-reply that
13 even addressed, that even attempted to defend, the argument
14 that they had made.

15 But on the fundamental point, the fact that the
16 confirmation opinion and order expressly require a 30-year
17 amortization makes it crystal clear that is part and parcel
18 of the plan of adjustment.

19 And, in fact, what appears in the confirmation
20 opinion and order controls over anything to the contrary in
21 the plan of adjustment. So it's absolutely part and parcel
22 of the plan of adjustment.

23 Counsel raises the 6.75 percent interest rate
24 issue. They didn't raise that in any of their briefing. I'm
25 not here to argue about the interest rate. The only issue

1 before the Court is 30-year amortization.

2 And that's required -- there's not only the one
3 sentence that the Court quoted -- I mean, that counsel
4 quoted, that talks about 30-year amortization and the 6.75
5 percent interest rate.

6 But the ruling appears again in footnote 23 of the
7 opinion. The balance of the under-funding in 2023 will be
8 amortized over a 30-year period. It doesn't even mention the
9 interest rate. So that's not the issue before the Court.
10 It's the 30-year amortization.

11 And counsel refers to the funding provisions. And
12 as I wrote down in my notes, counsel said City will
13 contribute sufficient funds pursuant to what the board
14 calculates.

15 Well, that's true. But the overriding point is
16 that the plan, and as per the confirmation order, requires --
17 the calculation requires the board in its calculation to use
18 30-year amortization.

19 So there's nothing inconsistent about any of this.
20 There is nothing in the plan that purports to address the
21 amortization term, other than the requirement in the
22 confirmation order that makes the amortization term 30 years.

23 On the Fifth Circuit case, again, PFRS has already
24 admitted in its initial response brief that the plan document
25 is silent on amortization. So there is no conflict, but,

1 again, the confirmation order says that in the event there
2 were, the order controls. And the order requires 30-year
3 amortization.

4 When you look at the big picture here, it all adds
5 up to confirming that the financial schedules incorporated a
6 settlement, which was 30-year amortization. Otherwise, none
7 of this makes any sense at all.

8 The idea that they would prepare these detailed
9 financial schedules showing decade-by-decade, you know, how
10 the City is going to pay all of the enormous obligations it
11 had to pay, including the billions of dollars of pension
12 funding, and all of this was evidently a joke that after 10
13 years the pension funds could say "oh, we want immediate
14 payment of the amortization amount of UAAL."

15 Their theory is legally unsound. But it just
16 absolutely makes no sense whatsoever when you look at the
17 confirmation opinion, when you look at the exhibits, when you
18 look at the testimony. It just makes no sense whatsoever.

19 I think I may be done. And I appreciate the
20 Court's indulgence. I think that covers what I wanted to
21 say.

22 Oh, I do want to make this point: The idea that
23 Kopacz didn't opine on the amortization term, that wasn't her
24 job. The 30-year amortization term was encased when she was
25 hired to be the feasibility expert. Her job was to take the

1 facts in the proposed plan of adjustment, which required 30-
2 year amortization, and opine whether it would be feasible.

3 So the fact that she wasn't -- first of all, she's
4 not an actuary, nor was she -- that wasn't her job to opine
5 on that number. It was a given.

6 And, similarly, these other folks cited by
7 counsel, Moore and others, they gave deposition testimony
8 that, frankly, had nothing to do with what was going on in
9 the plan of adjustment.

10 But their opinions are -- they were hired to
11 decide that issue. The issue was decided, and everybody
12 agreed with it until just a few years ago when PFRS decided
13 they would like to grab City money sooner rather than later.

14 So for all of those reasons, we ask the Court to
15 grant our motion.

16 THE COURT: All right. Well, thank you all for
17 your arguments and comments in today's hearing. I appreciate
18 it very much. All of you.

19 The Court is going to -- I'm now going to take
20 this motion of the City's under advisement, and I intend to
21 issue a written decision regarding the motion, and to do so
22 as soon as possible. I know the parties are anxious to get a
23 ruling from the Court on this.

24 And 2023 is here, so I understand that. I'll get
25 a written decision out as soon as possible.

1 In the meantime, thank you all very much. That's
2 it for today. Thank you.

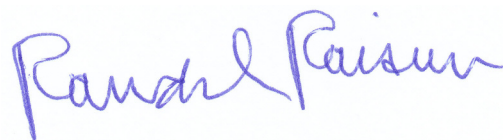

3 MR. RAIMI: Thank you, Your Honor.

UNITED STATES BANKRUPTCY COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION

In re:

Case No. 13-53846

CITY OF DETROIT, MICHIGAN,

Chapter 9

Debtor.

Judge Thomas J. Tucker

**OPINION REGARDING THE CITY OF DETROIT'S MOTION
TO ENFORCE PLAN OF ADJUSTMENT AGAINST THE POLICE AND FIRE
RETIREMENT SYSTEM PENSION PLAN (DOCKET # 13602)**

I. Introduction

The Motion now before the Court in this Chapter 9 case requires the Court to resolve a dispute between the City of Detroit (the “City”) and one of its pension plans, the Police and Fire Retirement System of the City of Detroit, Michigan (the “PFRS”). The City’s motion is entitled “City of Detroit’s Motion to Enforce Plan of Adjustment and Require 30-Year Amortization of the UAAL in the Police and Fire Retirement System Pension Plan” (Docket # 13602, the “Motion”). The PFRS objects to the City’s Motion. After two rounds of extensive briefing by the parties, and the filing of numerous exhibits, the Court held a telephonic hearing on the Motion on March 15, 2023, and then took the Motion under advisement.

In 2014, the City obtained confirmation of its plan of adjustment (the “POA”).¹ One of the City’s many obligations under the POA is to pay a certain unfunded liability to the PFRS for retirement benefits, known as the unfunded actuarial accrued liability (“UAAL”), existing as of June 30, 2023. More specifically, beginning with the year starting on July 1, 2023, the City must

¹ This bankruptcy case was assigned to Judge Steven W. Rhodes until his retirement in February 2015. The case was reassigned to the undersigned judge on February 17, 2015. See “Designation of Bankruptcy Judge,” filed February 17, 2015 (Docket # 9288).

begin making annual payments to the PFRS in order to reduce, and ultimately eliminate, the UAAL.

The City contends that one of the terms under the POA is that these payments are to be made over a period of 30 years, based on a 30-year amortization of the UAAL existing as of June 30, 2023. The PFRS disputes that such a 30-year amortization is part of the POA. Rather, the PFRS contends that *no* particular amortization is part of the POA.

The PFRS argues that it has the authority to decide the amortization term used to compute the City's annual contribution to the UAAL existing as of June 30, 2023. The PFRS argues that "under the terms of the Plan, the PFRS does not need to allow the City to amortize *any* of the post-2023 pension payments - let alone for 30 years[.]”²

The PFRS has recently decided that the City must make the payments over a period of only 20 years, based on a 20-year amortization. The PFRS's 20-year amortization would significantly accelerate the City's payments, compared to a 30-year amortization. The parties agree that if the City is required to pay based on a 20-year amortization, the City's payments will be roughly \$12 million more per year in each of years 1-20 than the payments would be in those years if the City pays based on a 30-year amortization.

The City's Motion seeks declaratory and injunctive relief against the PFRS, precluding the PFRS from shortening the 30-year amortization period.

² PFRS Sur-Reply (Docket # 13681) at pdf p. 6, caption II.A (initial capitalization and bold omitted) (italics on original).

For the reasons stated in this Opinion, the Court concludes that the City is correct, that a 30-year amortization is indeed part of the confirmed POA, and that the PFRS cannot change it. The Court will grant the City's Motion.

II. Background and facts

A. The City's confirmed plan of adjustment

The plan of adjustment in this Chapter 9 bankruptcy case was confirmed on November 12, 2014. The confirmed plan includes the document entitled "Eighth Amended Plan for the Adjustment of Debts for the City of Detroit," filed October 22, 2014 (the "Plan") and all of its many exhibits,³ and it also includes the Order entitled "Order Confirming Eighth Amended Plan for the Adjustment of Debts for the City of Detroit," filed November 12, 2014 (the "Confirmation Order").⁴ (The Plan and the Confirmation Order are collectively referred to as the "POA.") The POA became effective on December 10, 2014.⁵

Significantly, and as discussed below, the Confirmation Order expressly incorporated the Court's written opinion regarding confirmation, which is entitled "Supplemental Opinion Regarding Plan Confirmation, Approving Settlements, and Approving Exit Financing," filed December 31, 2014 (the "Confirmation Opinion").⁶

B. The PFRS UAAL

³ Docket # 8045.

⁴ Docket # 8272.

⁵ See Notice of (I) Entry of Order Confirming Eighth Amended Plan for the Adjustment of Debts for the City of Detroit and (II) Occurrence of Effective Date, filed December 10, 2014 (Docket # 8649).

⁶ Docket # 8993. The Confirmation Opinion was published. See *In re City of Detroit, Michigan*, 524 B.R. 147 (Bankr. E.D. Mich. 2014).

1. Background

The following background facts about the PFRS pension plan, recounted in the City's Motion, are undisputed:

The City historically had two defined benefit pension plans for employees and retirees. The Police and Fire Retirement System ("PFRS") managed the plan for public safety employees and retirees. The General Retirement System ("GRS") managed the plan for all other City employees and retirees. Both plans were frozen in bankruptcy and, under the POA, covered only City retirees and employees who performed services for the City prior to July 1, 2014.

Both plans were replaced going forward with hybrid plans that combined elements of both defined benefit and defined contribution plans. In the POA, the new hybrid plans are known as Component I plans, and the frozen plans are known as Component II plans.

At issue in this case is the PFRS Component II plan that was frozen in bankruptcy and now covers only public safety employees and retirees who provided services prior to July 1, 2014. References in this brief to the PFRS plan are to the PFRS Component II plan that was frozen in bankruptcy. Because the plan was frozen and no new beneficiaries are being added, it is a "closed plan" and will terminate after all beneficiaries have died.

....

At the time of the bankruptcy, both the public safety (PFRS) and general retirement (GRS) legacy (Component II) plans were underfunded. Under financial projections prepared for the POA, the plans were likewise projected to be underfunded at the end of the 10-year [period after confirmation]. Actuaries identify the amount of such underfunding as the plan's "unfunded actuarial accrued liability," or "UAAL."⁷

2. The Fourth Amended Plan and the Fourth Amended Disclosure Statement

⁷ City's Br. in Supp. of Mot. (Docket # 13602) at pdf pp. 17, 19-20 (record citations omitted).

The relevant history of the POA's treatment of the claims of the PFRS, including the UAAL, can be traced back to the plan and disclosure statement filed by the City on May 5, 2014, when the City filed its Fourth Amended Plan and its Fourth Amended Disclosure Statement.⁸

The Fourth Amended Plan treated the pension claims of the PFRS in Class 10 (the "PFRS Pension Claims"),⁹ and the pension claims of the General Retirement System for the City of Detroit (the "GRS") in Class 11 (the "GRS Pension Claims").¹⁰ Under the Fourth Amended Plan, the Class 10 PFRS Pension Claims were to be "allowed in an aggregate amount equal to the sum of approximately \$1,250,000,000,"¹¹ and the Class 11 GRS Pension Claims were to be "allowed in an aggregate amount equal to the sum of approximately \$1,879,000,000."¹²

The Fourth Amended Plan provided that from the Plan's Effective Date "through Fiscal Year 2023," the City would not be obligated to make any contributions to fund accrued benefits "under the Prior PFRS Pension Plan."¹³ During that time, such annual contributions were to come only from other sources, known as "certain DIA Proceeds and a portion of the State

⁸ "Fourth Amended Plan for the Adjustment of Debts of the City of Detroit (May 5, 2014)" (Docket # 4392, the "Fourth Amended Plan"); "Fourth Amended Disclosure Statement with Respect to Fourth Amended Plan for the Adjustment of Debts of the City of Detroit" (Docket # 4391, the "Fourth Amended Disclosure Statement").

⁹ See Fourth Amended Plan (Docket # 4392) at pdf pp. 38-40.

¹⁰ See *id.* at pdf pp. 40-42; 19 (Definition 153, defining "GRS").

¹¹ See *id.* at pdf p. 38.

¹² See *id.* at pdf p. 40.

¹³ See *id.* at pdf p. 39 (Contributions to PFRS).

Contribution.”¹⁴ After June 30, 2023, the PFRS would receive “certain additional DIA Proceeds,” and the City would be required to contribute certain defined funding to the PFRS, discussed below.¹⁵

The Court approved the Fourth Amended Disclosure Statement in an Order filed on May 5, 2014.¹⁶ In that Order, the Court found that the disclosure statement “contains ‘adequate information’” about the Fourth Amended Plan, “as defined by” 11 U.S.C. § 1125(a)(1).¹⁷

Part of that “adequate information” about the plan was in the financial projections in the disclosure statement. Section XI of the Fourth Amended Disclosure Statement was captioned **“PROJECTED FINANCIAL INFORMATION.”**¹⁸ Section XI.A, captioned **“Projections,”** stated, in relevant part:

Attached to this Disclosure Statement as Exhibit I, Exhibit J and Exhibit K are certain financial documents (together, the “Projections”), which provide details regarding the City’s projected

¹⁴ See *id.* Under the Fourth Amended Plan, the “DIA Proceeds” are the “irrevocable funding commitments” of at least \$466 million described in Section IV.F.1 of that plan. See *id.* at pdf pp. 15 ¶ 88, 53-54 ¶ IV.F.1. In the Eighth Amended Plan “DIA Proceeds” means the “irrevocable funding commitments” of at least \$466 million as described in Section IV.E.1 of that plan. See Eighth Amended Plan (Docket # 8045) at pdf pp. 17 ¶ 123, 64 ¶ IV.E.1.

Under the Fourth Amended Plan “‘State Contribution’ means payments to be made to GRS and PFRS by the State [of Michigan (“State”)] or the State’s authorized agent for the purpose of funding Adjusted Pension Amounts in an aggregate amount equal to the net present value of \$350 million payable over 20 years using a discount rate of 6.75%, pursuant to the terms of the State Contribution Agreement.” Fourth Amended Plan (Docket # 4392) at pdf p. 29 ¶ 267. This definition of “State Contribution” also appears in the Eighth Amended Plan (Docket # 8045) at pdf p. 34 ¶ 331.

¹⁵ See Fourth Amended Plan (Docket # 4392) at pdf pp. 39-40.

¹⁶ “Order Approving the Proposed Disclosure Statement” (Docket # 4401).

¹⁷ *Id.* at 2 ¶ 3.

¹⁸ Docket # 4391 at pdf p. 185 (bold and capitalization in original).

operations under the Plan, subject to the assumptions set forth below. In particular, the Projections consist of:

- A ten-year summary of restructuring initiatives, attached hereto as Exhibit I
- A ten-year statement of projected cash flows, attached hereto as Exhibit J
- **A forty-year statement of projected cash flows, attached hereto as Exhibit K¹⁹**

Exhibit K of the Fourth Amended Disclosure Statement, in turn, was entitled “**City of Detroit** Plan of Adjustment - 40 year projections.”²⁰ Exhibit K projections included the assumptions under the Fourth Amended Plan that the City would make no payments on the pension claims of the PFRS and the GRS in the first 10 years of the Plan, and that during that time, payments to the PFRS and the GRS would be made by other parties. Then beginning in year 11, the City would make annual payments to the PFRS and GRS on the UAAL existing as of June 30, 2023. *Those annual payments would be determined by taking the UAAL existing as of June 30, 2023, and amortizing that amount over 30 years at a discount rate of 6.75%.* The projections for the payments to the PFRS included the following:

PFRS		
Pension	Contributions (years 1-10)	Estimated to be \$261m from foundations /State settlement
	Contributions (years 11-40)	UAAL as of June 30, 2023 estimated to be ~\$681m amortized over 30yr , including contributions in second decade from DIA and foundations

¹⁹ *Id.* (bolding of “Projections” and underlining in original) (other bolding added).

²⁰ Docket # 4391-2 at pdf pp. 171-79 (bold in original).

Discount rate	6.75%
Targeted funded status as of 2023	78% ²¹

Other pages in the 40-year projections detailed the sources of income for the City, the City's expenses, the amounts that would be paid on the pension claims of the PFRS and the GRS and other creditors' claims over forty years, and the sources of the payments to the PFRS and the GRS and other creditors.²² These pages *also* projected a 30-year amortization of the payments of the UAAL to the PFRS and the GRS. They listed substantial amounts for "PFRS pension payments" and for "GRS pension payments" over the years "2024-2033," "2034-2043," and "2044-2053."²³

Footnotes to the projections stated that certain payments on the pension claims were the result of settlements with the DIA and the State of Michigan, and that the amount of the UAAL as of June 30, 2023 was subject to change, and that therefore the amount of the City's annual contributions to the PFRS and GRS was subject to change.²⁴ Some of the numbers "subject to change" in the projections were changed, due to later settlements and the updated information received on account of those settlements. But as discussed below, one thing that never changed

²¹ *Id.* at pdf p. 173 (footnote omitted) (bold added).

²² *See id.* at pdf pp. 174-179.

²³ *See id.* at pdf pp. 176-77.

²⁴ *See id.* at pdf p. 173 nn.(a)-(b).

was that the UAAL, existing as of June 30, 2023, would be amortized over 30 years at a discount rate of 6.75%.²⁵

The projections regarding the claims of the PFRS and the GRS were developed by incorporating the key elements of the settlements that were reached with “a number of parties with an interest in the City’s two pension plans [(the PFRS and the GRS pension plans)] and in protecting the City’s art at the DIA[,]” which settlements were incorporated into the Fourth Amended Plan. *In re City of Detroit*, 524 B.R. 147, 169 (Bankr. E.D. Mich. 2014). This collection of settlements incorporated into the Fourth Amended Plan, and incorporated into the later amended plans that were filed, was known as “the Grand Bargain.” The Grand Bargain was the “cornerstone” of the Fourth Amended Plan and all later filed amended plans. *Id.*

The City served the Fourth Amended Plan and the Fourth Amended Disclosure Statement, including the 40-year projections, on all required parties. The Court’s Confirmation Opinion described this process and events that led up to the filing of the Eighth Amended Plan.

The City served solicitation packages, including this [fourth amended] plan and disclosure statement, and plan ballots. (Dkt. ## 4421 and 6179). It also published notice of the [fourth amended] plan and the disclosure statement in the Detroit News, the Detroit Free Press, USA Today and the Wall Street Journal. (Dkt. ## 6209, 6211 and 6253). This [fourth] amended plan incorporated the final aspects of the Grand Bargain, including final

²⁵ See discussion in Part II.C of this Opinion, below; *see, e.g.*, Trial Tr. (Sept. 29, 2014) (Docket # 7819) (testimony of Gaurav Malhotra, an expert on restructuring and financial analysis at Ernst & Young, LLP) at 77-78 (“[Exhibit] 109 is the July 2nd [2014] update of the [P]rojections, and so we would have updated it since May 5th [2014] for the items that we knew had changed because it was during this time frame that there were a couple of settlements that were reached, but on the baseline scenario, other than some changes that we would have made for new information that we would have received, [the] majority of this would have essentially remained the same or close to it.”)).

agreements relating to restoration of pension benefits and pension plan governance, as well as the OPEB settlement.²⁶

City of Detroit, 524 B.R. at 161 (footnote 3 omitted) (footnote added).

The pension creditors in Class 10 (PFRS) voted overwhelming to accept the Plan, by a margin of 82% of the votes cast. *City of Detroit*, 524 B.R. at 175, 180.

The Fourth Amended Plan was later amended several times, as a “result of successive creditor settlements and agreements. . . . On October 22, 2014, the City filed its eighth and last amended plan. . . . [T]he Court concluded that the plans that the City filed after the fourth amended plan did not require new balloting and therefore did not require a new disclosure statement.” *City of Detroit*, 524 B.R. at 147, 161-62. This was so because “[t]he Court [found] that none of the modifications in any of the successive amended plans adversely changed the treatment of any claims.” *Id.* at 253 (citing Fed. R. Bank. P. 3019(a)). The Court found that because “the City modified its plan to incorporate creditor settlements that in each case, maintained or improved the treatment of claims or otherwise clarified various plan provisions[,] . . . the City was not required to re-solicit ballots after the initial solicitation.” *Id.*

3. The Eighth Amended Plan

²⁶ The OPEB Claims are claims against the City for “post-retirement health, vision, dental, life, and death benefits,” for certain retirees “who retired on or before December 31, 2014 and are otherwise eligible for OPEB Benefits, and any eligible surviving beneficiaries of such retiree[,]” which are treated in Class 12 of the fourth amended plan and the Plan. *See* Plan (Docket # 8045) at pdf p. 28 ¶¶ I.A.259-60, 49 ¶¶ B.1., B.3.s.

As with the Fourth Amended Plan, the Eighth Amended Plan treated the pension claims of the PFRS in Class 10, and those claims still were to be “allowed in an aggregate amount equal to the sum of approximately \$1,250,000,000.”²⁷

As with the Fourth Amended Plan, the Eighth Amended Plan provided that from the Plan’s Effective Date “through Fiscal Year 2023,” the City would not be obligated to make any contributions to fund accrued benefits “under the Prior PFRS Pension Plan.”²⁸ During that time, such annual contributions were to come only from other sources, known as “certain DIA Proceeds and a portion of the State Contribution.”²⁹ After June 30, 2023, the PFRS would receive “certain additional DIA Proceeds,” and the City would be required to:

contribute sufficient funds required to pay each Holder of a PFRS Pension Claim his or her PFRS Adjusted Pension Amount in accordance with and as modified by the terms and conditions contained in the Plan and the Prior PFRS Pension Plan, in accordance with the State Contribution Agreement and exhibits thereto.³⁰

4. Confirmation

The Court held a lengthy trial regarding confirmation of the Plan and approval of the settlements incorporated into the Plan, in September and October 2014. As discussed below, the feasibility of the Plan was one of the key issues, and the evidence at trial was premised on the City’s projections, including the 30-year amortization of the UAAL as of June 30, 2023.

²⁷ See Docket # 8045 at pdf p. 45.

²⁸ *Id.*

²⁹ *Id.*

³⁰ *Id.*

On November 7, 2014, the Court issued an oral opinion from the bench (the “Bench Opinion”), announcing that the Court would confirm the Plan and would approve all the settlements.³¹ The Court also stated in its Bench Opinion that “[t]he Court will soon issue a supplemental written opinion that will more fully address all of the issues.”³²

On November 12, 2014, the Court entered its Confirmation Order.³³ As noted above, the City’s POA includes the document entitled “Eighth Amended Plan for the Adjustment of Debtors for the City of Detroit,” filed October 22, 2014 (the Plan), and all of its many exhibits,³⁴ and it also includes the Confirmation Order.³⁵ (As noted above, the Plan and the Confirmation Order are collectively referred to as the POA.)

The Confirmation Order confirmed the Plan, and stated that the Plan and the Confirmation Order are “binding upon” the City and “any and all holders of Claims,” among many others.³⁶

The Confirmation Order incorporated by reference the Confirmation Opinion that was filed later. The Confirmation Order stated that “[t]he Court’s supplemental opinion regarding

³¹ A transcript of the bench opinion is filed at Docket # 8257.

³² *Id.* at 4; *see also id.* at 49, 53.

³³ Docket # 8272 (“Order Confirming Eighth Amended Plan for the Adjustment of Debts for the City of Detroit”).

³⁴ Docket # 8045. The Eighth Amended Plan states that all of the exhibits are part of the Plan. *See* Eighth Amended Plan (Docket # 8045) at pdf p. 30 ¶ 273 (defining “Plan”), pdf p. 22 ¶ 182 (defining “Exhibits”), pdf pp. 6-7 (“Table of Exhibits”). The Plan exhibits were filed at Docket ## 8045-1 through 8045-10.

³⁵ Docket # 8272.

³⁶ *See* Confirmation Order (Docket # 8272) at pdf p. 72 ¶ A.1; pdf p. 90 ¶ E.28; *see generally* 11 U.S.C. § 944(a).

confirmation of the Plan (the “Confirmation Opinion”), to be issued, is incorporated fully herein.”³⁷ Thus, the Confirmation Opinion is part of the Confirmation Order. As such, the Confirmation Opinion is part of the POA.

The Confirmation Order also incorporated by reference all of the findings and conclusions in the Confirmation Opinion. The Confirmation Order stated:

All findings of fact and conclusions of law announced by the Court on the record in connection with confirmation of the Plan or otherwise at the Confirmation Hearing or **in the Confirmation Opinion are incorporated herein by reference.** The findings of fact and conclusions of law set forth herein, **in the Confirmation Opinion** and in the record of the Confirmation Hearing constitute the Court’s findings of fact and conclusions of law pursuant to Rule 52 of the Federal Rules of Civil Procedure, as made applicable herein by Bankruptcy Rules 7052 and 9014.³⁸

The Confirmation Order states:

In the event of a direct conflict between the Plan or any agreement, instrument, or document intended to implement the Plan, on the one hand, and this Order, on the other, the provisions of this Order shall govern.³⁹

By virtue of this language, the Confirmation Order made clear that its provisions, including the provisions of the Confirmation Opinion, which the Confirmation Order expressly incorporated, govern if they conflict with any provision in the Plan or any of its exhibits.

C. The incorporation of the 30-year amortization term into the POA

³⁷ Confirmation Order at pdf p. 10 ¶ G (underlining in original).

³⁸ *Id.* at pdf pp. 73-74 ¶ B.4 (footnote omitted) (emphasis added).

³⁹ *Id.* at pdf p. 126 ¶ 83.

The 30-year amortization of the PFRS UAAL, existing as of June 30, 2023, is part of the confirmed POA and is binding on the PFRS, by virtue of the Confirmation Order's express incorporation of the Confirmation Opinion. The Confirmation Opinion clearly shows the 30-year amortization. It states:

[T]he City's obligations to the GRS and the PFRS are fixed under the plan from FY2014–FY2023. During this time, as the City works to stabilize its finances and implement the [restructuring and reinvestment initiatives, known as the "RRIs"],⁴⁰ the majority of the City's contributions to the GRS and the PFRS will come from the DWSD [(Detroit Water and Sewerage Department)], the State Contribution Agreement,⁴¹ and the Grand Bargain funding. *See Ex.*

⁴⁰ Citing the trial testimony of Charles Moore, the expert who "is the chief architect of the RRs," the Court noted "that the RRs can be broken down into seven categories:"

1. Blight initiatives, which focus on the remediation of primarily residential blight;
2. Public safety initiatives, which focus on police and fire services to improve overall public safety;
3. Resident service initiatives, which focus on departments that primarily interact with residents (such as the Department of Transportation);
4. Business service initiatives, which focus on departments that interact with businesses (such as Buildings, Safety Engineering and Environmental Department);
5. Organizational initiatives, which focus on the departments that serve primarily to support City operations (such as the Finance Department and General Services);
6. Management initiatives, which relate to the mayor's office, city council and the city clerk; and
7. Non-departmental initiatives, which relate to the 36th District Court.

Confirmation Opinion, 524 B.R. at 234.

⁴¹ The State Contribution Agreement refers to the settlement agreement between the City, the State of Michigan (the "State"), the GRS, and the PFRS to settle the State's potential liability for the

793 at 3. However, after 2023, the City projects the retirement systems will remain somewhat underfunded. *See* Ex. 12000 at 133. **The balance of the underfunding in 2023 will be amortized over a thirty year period of time. *Id.***

....

a. The City's Plan Regarding Its Pension Obligations

The [P]lan provides the City with fixed payments toward the pension underfunding for FY2014–FY2023. For the PFRS, 100% of the payments are covered by the funds from the State Contribution Agreement and the Grand Bargain. Ex. 732. For the GRS, which has a larger underfunding claim, the State Contribution Agreement and the Grand Bargain funds cover only 20%. *Id.* The City is obligated to contribute \$575 million in cash. However, approximately \$428.5 million of that will come from DWSD revenues to cover DWSD's portion of the GRS underfunding liability, and another \$31.7 million will come from the UTGO [(Unlimited Tax General Obligation)] millage, . . . This leaves a balance of \$114.6 million. *Id.* Mr. Malhotra testified that \$80 million of this \$114.6 million will come from the City's general fund and that it is included in the Plan Projections. Trial Tr. 84, Oct. 21, 2014. (Dkt. # 8098) The balance will come from the City's parking and library revenues. *Id.* at 81.

However, at the end of FY2023, the GRS and PFRS will remain significantly underfunded. Using the assumptions from the global pension settlement, including the 6.75% discount rate, the City projects that the PFRS will only achieve 78% funding, leaving a UAAL of \$681 million. Ex. 793 at 2. For the GRS, the City projects a 70% funded status by the end of FY2023, leaving a UAAL of \$695 million. *Id.* **The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%. *Id.*** Between FY2024 and FY2033, the City will receive an additional \$68 million in Grand Bargain proceeds to pay toward the UAAL amortization for PFRS, and

UAAL of the GRS and the PFRS under Article IX, § 23 of the Michigan constitution. *See City of Detroit*, 524 B.R. at 170. ("It has been suggested that because pensions are protected by the Michigan constitution, the State may be obligated to pay all or a portion of the UAAL.").

\$188 million for GRS. The balance of the amortized UAAL will come from the City. *Id.* at 5.⁴²

Elsewhere in the Confirmation Opinion, the Court described what it called the “final component of the Grand Bargain,” namely, the “global settlement of pension-related issues, including the treatment of the claims relating to the UAAL of the GRS and the PFRS.”⁴³ In that description, the Court described how the UAAL was to be gradually paid down to zero (*i.e.*, reach 100% funding), ***over the 30-year period of 2023 to 2053:***

The City has also set certain targets at which the UAAL for the GRS and the PFRS must be funded. For 2023, the funding targets are 70% for the GRS and 78% for the PFRS. **For 2053, in 40 years, the targets are 100% for each.** Ex. 723.⁴⁴

Four trial exhibits were cited by the Court in the Confirmation Opinion excerpts quoted above. One of those exhibits (Exhibit 732) concerned only the pension contributions during the first ten years of the Plan.⁴⁵ Each of the other three exhibits clearly shows the 30-year amortization. One of those other exhibits (Exhibit 793), which is quoted below, included 40-year projections that clearly showed the 30-year amortization of the PFRS UAAL.⁴⁶ Another of the exhibits (Exhibit 723) reflected the 30-year amortization, in projecting a PFRS pension funding

⁴² Confirmation Opinion, 524 B.R. at 230 n.23, 231-32 (emphasis added) (footnotes added).

⁴³ *Id.*, 524 B.R. at 179.

⁴⁴ *Id.*, 524 B.R. at 180 (emphasis added).

⁴⁵ It appears that unlike the other exhibits, Exhibit 732 might not be on file in this case, so the Court is filing a copy of that Exhibit today, as a supplement to this Opinion.

⁴⁶ A copy of Exhibit 793 is attached to the City’s reply brief (Docket # 13663) as Exhibit 17, and appears at Docket # 13663-2, beginning at pdf p. 25.

level of 78% in 2023 moving up to a funding level of 100% *30 years later*, in 2053.⁴⁷ The fourth exhibit (Exhibit 12000) was the expert report of Martha E.M. Kopacz, regarding the feasibility of the Plan. The Court cited page 133 of that report, where Ms. Kopacz stated that “the City will amortize the remaining UAAL for each Retirement System – as of June 30, 2023 – over the following thirty-year timeframe.”⁴⁸ *None* of the trial exhibits cited in the Court’s Confirmation Opinion showed an amortization period shorter than, or other than, 30 years.

In Part II.B.2 of this Opinion, above, the Court discussed the 40-year projections that were filed with the City’s Fourth Amended Disclosure Statement on May 5, 2014. As quoted above, those clearly showed the 30-year amortization of the PFRS UAAL existing as of June 30, 2023. As the Court noted in Part II.B.2, those projections were later updated, to reflect later settlements. But in the later, updated projections, the 30-year amortization never changed.

The Court considered four updated 40-year projections during and after the confirmation trial, and cited each of them in the Confirmation Order. As listed by the Court, these were “Exhibits 111 (July 2014), 734 (September 2014), 779 (October 2014) and 793 (October 2014).”⁴⁹ The Court cited these projections in the Confirmation Order as part of the Court’s

⁴⁷ A copy of Exhibit 723 is attached to the City’s reply brief (Docket # 13663) as Exhibit 18, and appears at Docket # 13663-2, pdf p. 41.

⁴⁸ See Confirmation Opinion, 524 B.R. at 230 n.23. A copy of excerpts from the Kopacz expert report (Exhibit 12000) is attached to the City’s reply brief (Docket # 13663) as Exhibit 22, and appears at Docket # 13663-2, beginning at pdf p. 75. Page 133 of that report appears at Docket # 13663-3, pdf p. 14.

⁴⁹ Confirmation Order at pdf p. 41 ¶ 11. Copies of these trial exhibits are attached to the City’s reply brief (Docket # 13663) as Exhibits 19-21 and 17 (Docket # 13663-2).

finding that the Plan was feasible, and the Court found that these 40-year projections were “reasonable” and “accurate.”⁵⁰

Each of these 40-year projections clearly shows the 30-year amortization, in the same way. For example, Exhibit 793 (October 2014), which the Court also cited in the Confirmation Opinion, showed the 30-year amortization in the same way the May 5, 2014 projections did:

PFRS Pension (Class 10) . . .	
Contributions (years 1-10)	Estimated to be \$261m from foundations /State settlement
Contributions (years 11-40)	UAAL as of June 30, 2023 estimated to be ~\$681m amortized over 30yr , including contributions in second decade from DIA and foundations
Discount rate	6.75%
Targeted funded status as of 2023	78% ⁵¹

And, like all the other 40-year projections, this exhibit further showed the 30-year amortization of the payments of the UAAL to the PFRS, where it listed substantial amounts for “PFRS pension payments” over the years “2024-2033,” “2034-2043,” and “2044-2053.”⁵²

⁵⁰ Confirmation Order at pdf p. 41 ¶ 11.

⁵¹ Ex. 793 at 793-002 (copy attached as Exhibit 17 to the City’s reply brief at Docket # 13663-2 at pdf p. 26) (bold added).

⁵² Ex. 793 at 793-005 and 793-006 (Exhibit 17 to the City’s reply brief at Docket # 13663-2 at pdf pp. 29- 30).

The City says that in the Confirmation Opinion the Court cited this Exhibit 793 “more than 30 times.”⁵³ Actually, by this Court’s count, it was 17 times.⁵⁴ And the Court specifically cited the second page of this exhibit, quoted above, when it stated that under the Plan, after “the end of FY 2023,” “[t]he City will then amortize the remaining UAAL for both [the PFRS plan and the GRS plan] over the next thirty years at an interest rate of 6.75%.”⁵⁵

In both the Confirmation Order and the Confirmation Opinion, the Court relied heavily on the 40-year projections, including the 30-year amortization, among other things, in finding that the City’s Plan was feasible.⁵⁶

D. The recent attempt by the PFRS to shorten the amortization period from 30 to 20 years

The PFRS recently has attempted to reduce the 30-year amortization period for the City’s payment of the UAAL existing as of June 30, 2023, to 20 years. On March 4, 2021, the PFRS Board of Trustees adopted a resolution which provides that the UAAL existing at the end of June 30, 2023 be amortized over 20 years.⁵⁷ On October 18, 2021 the PFRS Investment Committee approved a resolution setting a 20-year amortization period for the UAAL existing as of June 30,

⁵³ City’s Reply Br. (Docket # 13663) at pdf p. 17.

⁵⁴ See Confirmation Opinion, 524 B.R. at 224-31.

⁵⁵ *Id.*, 524 B.R. at 231.

⁵⁶ See, e.g., Confirmation Order at pdf p. 45 ¶ 17 (relying on the “Projections” to find feasibility); pdf p. 41 ¶ 11 (defining the “Projections” to include the 10-year and the 40-year projections); Confirmation Opinion, 524 B.R. at 224-33.

⁵⁷ See Ex. 3 to Mot. (Docket # 13602-1) (Minutes of March 4, 2021 Meeting No. 3279 of the Board of Trustees of the PFRS) at pdf pp. 29-30.

2023.⁵⁸ That resolution by the Investment Committee was affirmed by the PFRS Board at a meeting held on November 18, 2021.⁵⁹

These actions were taken despite the City's repeated efforts to persuade the PFRS Investment Committee and the PFRS Board of Trustees not to take these actions.⁶⁰

E. The City's Motion

On August 3, 2022, the City filed the present Motion, seeking an order: (1) declaring that “[t]he resolutions passed and the votes taken by [the PFRS] and the Investment Committee which shortened the amortization period to 20 years are void and of no force or effect;” (2) enjoining and barring the PFRS and the Investment Committee “from shortening the 30-year amortization period;” and (3) requiring the PFRS to amortize the PFRS's UAAL “that will exist as of June 30, 2023, over an additional 30 years commencing on June 30, 2023.”⁶¹

III. Jurisdiction

This Court has subject matter jurisdiction over this Chapter 9 bankruptcy case and this contested matter under 28 U.S.C. §§ 1334(b), 157(a) and 157(b)(1), and E.D. Mich. LR 83.50(a). This is a core proceeding under 28 U.S.C. § 157(b)(2)(O), because it is a proceeding “affecting

⁵⁸ See Ex. 7 to Mot. (Docket # 13602-1) (Minutes of the October 18, 2021 Meeting No. 062 of the PFRS Investment Committee) at pdf p. 65.

⁵⁹ See Ex. 9 to Mot. (Docket # 13602-2) (Minutes of the November 18, 2021 Meeting No. 3296 of the PFRS Board) at pdf p. 9.

⁶⁰ See, e.g., *id.* at pdf p. 8 (proposed resolution not adopted by the PFRS Board, describing a July 21, 2021 memo from the City's office of Chief Financial Officer “sent to legal counsel for the PFRS [Investment Committee] . . . explaining the fundamental reasons why it would be improper for the PFRS [Investment Committee] to approve a shorter funding plan than the POA's 30-year plan and ask[ing] that the PFRS [Investment Committee] hear from both Mayor Duggan and the City's actuarial expert before the PFRS [Investment Committee] and the PFRS Board made any decisions on the funding policy”).

⁶¹ See proposed order attached to Mot. (Docket # 13602) at pdf pp. 5-6 ¶¶ 2-3.

. . . the adjustment of the debtor-creditor . . . relationship.” This is also a core proceeding because it is a proceeding “arising in” a case under title 11, within the meaning of 28 U.S.C. § 1334(b). Matters falling within this category are deemed to be core proceedings. *See Allard v. Coenen (In re Trans-Indus., Inc.)*, 419 B.R. 21, 27 (Bankr. E.D. Mich. 2009) (citing *Mich. Emp. Sec. Comm’n v. Wolverine Radio Co., Inc.*, 930 F.2d 1132, 1144 (6th Cir. 1991)).

Because the City’s Motion asks the Court to interpret and enforce its own Confirmation Order, this is a proceeding “arising in” a case under title 11. *See Palltronics, Inc. v. PALIoT Sols., Inc. (In re Lightning Tech., Inc.)*, 647 B.R. 76, 91-93 (Bankr. E.D. Mich. 2022) (detailed discussion of bankruptcy court’s jurisdiction to interpret and enforce its own orders); *see also In re Chesapeake Energy Corp.*, ___ F.4th ___, No. 21-20323, 2023 WL 3882721, at *6 (5th Cir. June 8, 2023) (citation omitted) (“Within its core jurisdiction, the [bankruptcy] court may also be called upon to interpret the terms of a confirmed reorganization plan.”). This is a proceeding “arising in” a case under title 11, because it is a proceeding that “by [its] very nature, could arise only in bankruptcy cases.” *See Allard v. Coenen*, 419 B.R. at 27.

This dispute is a type over which this Court retained jurisdiction under the confirmed POA. Article VII, Sections G and I of the POA state:

Pursuant to sections 105(c), 945 and 1142(b) of the Bankruptcy Code and notwithstanding entry of the Confirmation Order and the occurrence of the Effective Date, the Bankruptcy Court will retain exclusive jurisdiction over all matters arising out of, and related to, the Chapter 9 Case and the Plan to the fullest extent permitted by law, including, among other things jurisdiction to:

. . . .

G. Resolve any cases, controversies, suits or disputes that may arise in connection with the consummation, interpretation or enforcement of the Plan or any contract, instrument, release or

other agreement or document that is entered into or delivered pursuant to the Plan or any Entity's rights arising from or obligations incurred in connection with the Plan or such documents;

. . . .

- I. Issue injunctions, enforce the injunctions contained in the Plan and the Confirmation Order, enter and implement other orders or take such other actions as may be necessary or appropriate to restrain interference by any Entity with consummation, implementation or enforcement of the Plan or the Confirmation Order[.]⁶²

IV. Discussion

A. Based on the Confirmation Order, the 30-year amortization is part of the POA.

As demonstrated in Parts II.B and II.C of this Opinion, above, the 30-year amortization of the City's payment of the UAAL existing as of June 30, 2023 was incorporated into the POA, by the Confirmation Order. This unambiguously means that the 30-year amortization is part of the confirmed POA. That confirmed POA must be enforced as written.

The PFRS is correct in pointing out that the new PFRS Plan and the State Contribution Agreement were incorporated into the Plan, by the Plan itself, and therefore are part of the POA. For the reasons discussed in Part IV.B of this Opinion below, however, those documents do not conflict with the 30-year amortization in the POA.

The PFRS argues that the Confirmation Order cannot be deemed to incorporate the 30-year amortization, because that would create a conflict with the Plan document and its exhibits, namely, the new PFRS Plan and the State Contribution Agreement. And, according to the PFRS, when there is a conflict between a debtor's plan document(s) on the one hand, and the order

⁶² Plan (copy appended at Docket # 8272) at pdf pp. 209-10; *see also* Confirmation Order (Docket # 8272) at pdf pp. 129-30.

confirming the plan, on the other hand, the plan document(s) must prevail over the confirmation order. In support of this argument, the PFRS cites a case from the Fifth Circuit Court of Appeals, *Evercore Cap. Partners II, L.L.C. v. Nancy Sue Davis Trust (In re Davis Offshore, L.P.)*, 644 F.3d 259 (5th Cir. 2011).

The PFRS is wrong in arguing that there is any conflict in the Plan-related documents. But also the PFRS is wrong in arguing that the Plan document and exhibits control if they conflict with the Confirmation Order. The opposite is true. The PFRS's reliance on the *Davis Offshore* case is misplaced. The *Davis Offshore* case is directly contrary to the law in the Sixth Circuit, and it is clearly distinguishable from this case in any event.

In *Davis Offshore*, one of the Chapter 11 debtor's equity holders filed an adversary proceeding against the debtor and several other defendants, seeking to revoke the confirmation of the debtor's plan, on the ground that it was procured by fraud. One of the issues on appeal was whether one of the defendants, Gregg Davis, had been released from fraud claims by the confirmed plan. The bankruptcy court and the court of appeals both held that Davis was not released by the exculpation clause in the plan of reorganization. But the bankruptcy court had held that Davis was released by the broader release provision in the order confirming the plan. *See* 644 F.3d at 265, 267. The bankruptcy court ruled that the "'broader' terms of the confirmation order would control over the Plan." *Id.* at 265.

On appeal, the Fifth Circuit characterized the bankruptcy court's ruling to be that "if a Plan and confirmation order conflict, the terms of the court's order are dispositive." *Id.* at 267 (footnote omitted); *see also id.* at 268-69. The appeals court described the bankruptcy court's ruling as, in effect, a *per se* rule, that "as a matter of law, . . . the confirmation order must always

prevail over the terms of a conflicting plan.” *Id.* at 268. The court of appeals held that such a *per se* rule is wrong, and noted that such a rule is supported by only “slender” and “minimal” legal authority that was “non-controlling” in the Fifth Circuit. *See id.* at 267-68. Importantly for this Court, however, the contrary legal authority cited by the *Davis Offshore* court includes a Sixth Circuit case. *See id.* at 267 n.8 (citing *Guardian Sav. & Loan Ass’n v. Arbors of Houston Assocs. Ltd. P’ship (In re Arbors of Houston Assocs. Ltd. P’ship)*, No. 97-2099, 172 F.3d 47, 1999 WL 17649, at *4 (6th Cir. Jan. 4, 1999)).

But after rejecting the bankruptcy court’s *per se* rule, the court of appeals in *Davis Offshore* went on to resolve the inconsistency between the plan and the confirmation order in the case before it, by ruling that the broader release provision in the confirmation order prevailed. *See id.* at 269.

In this case, *if* the Court were to find that there is a conflict between the Plan and the Confirmation Order (which the Court does not), then the Court would have to rule that the provisions of the Confirmation Order, including the incorporated 30-year amortization term, prevail. This is so for at least two reasons.

First, the law in the Sixth Circuit is contrary to the Fifth Circuit’s holding in the *Davis Offshore* case. In this circuit, the rule is that “[w]hen [the plan document and the confirmation order are] in conflict, the confirmation order prevails.” *Guardian Sav. & Loan Ass’n*, 1999 WL 17649, at *4 (citations omitted).⁶³ *See also Forklift LP Corp. v. iS3C, Inc. (In re Forklift LP*

⁶³ After so holding, the Sixth Circuit in *Guardian Savings* found that in the case before it, the plan and the confirmation order did not actually conflict.

Corp.), 363 B.R. 388, 396 (Bankr. D. Del. 2007) (citations omitted) (same) (noting that “[a] plan of reorganization has no effect without a court’s confirmation”).

Second, in this case, the Confirmation Order explicitly states that in the event of a conflict between the Plan and the Confirmation Order, the Confirmation Order governs. As noted in Part II.B.4 of this Opinion, the Confirmation Order states:

In the event of a direct conflict between the Plan or any agreement, instrument, or document intended to implement the Plan, on the one hand, and this Order, on the other, the provisions of this Order shall govern.⁶⁴

In this way, this case is different from the *Davis Offshore* case. There is no indication in the court of appeals opinion in *Davis Offshore* that either the confirmation order or the plan had any provision saying what happens in the event of a conflict between the two documents.

B. None of the documents cited by the PFRS conflict with the POA’s 30-year amortization.

In any event, there is no conflict between the Confirmation Order, which incorporates the Confirmation Opinion and therefore incorporates the 30-year amortization term, and any Plan provision. For example, there is nothing in the description of the Plan’s treatment of Class 10 claims that is inconsistent with the 30-year amortization term.

Contrary to the PFRS’s argument, there is no inconsistency between the 30-year amortization term, on the one hand, and any of the following, on the other hand: (1) the governance terms in Exhibit B to the State Contribution Agreement; (2) the new PFRS Plan; and (3) Michigan’s Public Act 314, as amended (Mich. Comp. Laws § 38.1133(g)). The Court will discuss each of these things.

⁶⁴ Confirmation Order (Docket # 8272) at pdf p. 126 ¶ 83.

1. The State Contribution Agreement

The State Contribution Agreement is an exhibit to the Plan,⁶⁵ and therefore is part of the Plan, and it is discussed in the Confirmation Opinion. *See* discussion in Part II.C of this Opinion. As quoted in Part II.B.3 above, the Plan requires the City to make PFRS contributions after June 30, 2023 “in accordance with and as modified by the terms and conditions contained in the Plan and the Prior PFRS Pension Plan, in accordance with the State Contribution Agreement and exhibits thereto.”⁶⁶ Under the Plan, and in accordance with the State Contribution Agreement, an Investment Committee for the PFRS was established. The Plan provides that “[t]he Investment Committee shall be vested with the authority and responsibilities set forth in the State Contribution Agreement for a period of 20 years following the Effective Date.”⁶⁷

Under the State Contribution Agreement, and its Exhibit B (the “Governance Term Sheet”), the PFRS Investment Committee was given certain “investment management” authority with respect to the PFRS Plan. The PFRS relies on the part of the Investment Committee’s authority to make recommendations to the PFRS Board about the following things (bold, italics, and underlining supplied by the PFRS):

4. Reviewing and affirming or rejecting the correctness of any and all calculations, actuarial assumptions and/or assessments used by the Plan Actuary including, but not limited to: (i) those underlying the restoration of pension benefits, **funding levels and amortization thereof**, all in accordance with the Pension Restoration Program [attached to the City’s Plan of Adjustment,]

⁶⁵ The State Contribution Agreement was Plan Exhibit I.A.332 (Docket # 8045-1 at pdf p. 714). A copy of it also is filed at Docket # 13678, at pdf p. 48.

⁶⁶ *See* Docket # 8045 at pdf p. 45 ¶ II.B.3.q.ii.A.

⁶⁷ *See id.* at pdf p. 46 ¶ II.B.3.q.ii.F.

(ii) those underlying the determination of annual funding levels and amortization thereof], and (iii) on or after fiscal year 2024, the recommended annual contributions to PFRS in accordance with applicable law.]

...

8. Any interpretation of Plan documents, existing law, the POA or other financial determination that could affect funding or benefit levels.⁶⁸

The PFRS contends that these provisions give it the authority to determine the term of any amortization of the UAAL existing as of June 30, 2023. The PFRS is wrong, for at least two reasons. First, the provisions quoted above say no such thing. The Court agrees with the City's argument on this point:

PFRS offers no explanation of how any of that language purports to give PFRS unfettered discretion over the **amortization term** for the UAAL as of 2023 or any other time. The first part of [the quotation], which defines the provision's scope, simply gives the Investment Committee (IC) authority to review the "correctness" of "calculations, actuarial assumptions and/or assessments."

The provision goes on to give the IC authority to determine the "correctness" of "annual funding levels and amortization thereof." "Correctness" means checking the calculations. Nothing in the language even purports to give PFRS authority over the amortization term. Indeed, the phrase "amortization thereof" makes no sense because an "annual funding level" does not get "amortized." It is the amount that must be paid in the given year.

....

The City can only presume that the quoted language was intended to address actuarial considerations that underlie the calculation of annual funding payments during the thirty-year amortization. Those are, for example, whether the amount will be determined using straight-line principle calculations or level-payments over the 30-year amortization term. See Malhotra's testimony quoted earlier

⁶⁸ PFRS Br. (Docket # 13634) at pdf p. 16 (quoting Ex. B to State Contribution Agreement (emphasis supplied by PFRS); Ex. B to State Contribution Agreement (Docket # 13678) at pdf pp. 72-73.

where he discusses these “methodology” issues **while confirming that the amortization term was 30-years.**⁶⁹ Presumably, the IC was given authority to determine the “correctness” of those calculations.⁷⁰

There is a second reason why the governance terms in the State Contribution Agreement do not conflict with the 30-year amortization in the POA: the Governance Term Sheet itself precludes the Investment Committee and the PFRS Board from taking any action that is inconsistent with the POA. It does this in two ways. First, it contains an overriding provision at the end of the Governance Term Sheet that says this:

⁶⁹ This reference by the City to Malhotra’s testimony is to Guarav Malhotra’s trial testimony, about how the “amortization methodology” used can affect the City’s required pension contribution level ***over the 30-year amortization*** starting in 2024. The PFRS cited Malhotra’s testimony. In doing so, the PFRS noted that Malhotra was the author of the 40-year financial projections, discussed in Part II.C of this Opinion. The PFRS quoted Malhotra’s testimony, in part, as follows:

Q. . . . How would the change in amortization after 2024 affect the contribution level?

A. ***It depends on the amortization methodology.*** What we have used in the projections is a straight line principal in which the City is making higher payments in the first decade and **over the course of the 30 years** makes lower payments going forward. You can change the amortization methodology to make it like a level payment **over 30 years** in which the City will have lower payments in the first say 10 years, but **over the course of the 30 years** the City will end up paying more because it has to pay more interest. ***So it's more on the methodology aspect as to how that liability gets serviced.***

PFRS Br. (Docket # 13634) at pdf pp. 25-26 (quoting 9/29/2014 testimony of G. Malhotra) (first and last emphasis in original; other emphasis added).

⁷⁰ City’s Reply Br. (Docket # 13663) at pdf pp. 15-16 (emphasis added) (footnote added).

CONSISTENCY WITH PLAN OF ADJUSTMENT	Nothing herein shall be interpreted as permitting the [Investment Committee] or the [PFRS] Board to alter or depart from the requirements set forth in the confirmed Plan of Adjustment. ⁷¹
-------------------------------------	--

Here, the phrase “the confirmed Plan of Adjustment” clearly means the Plan and its exhibits and the Confirmation Order, which incorporates the 30-year amortization. (There is no “confirmed” Plan of Adjustment without the Confirmation Order.)

Second, the Governance Term Sheet expressly requires each member of the PFRS Investment Committee to “discharge his or her duties with respect to the PFRS in compliance with the provisions of Public Act 314 of 1965, as amended.”⁷² As discussed below, that Michigan statute *also* precludes taking any action that is contrary to the POA.

These overriding provisions in the Governance Term Sheet clearly mean that the PFRS Investment Committee and the PFRS Board cannot exercise their authority to change the 30-year amortization term. That is true even if the “investment management” language cited by the PFRS, quoted above, otherwise could include authority to decide the length of the amortization of the City’s payment of the UAAL existing as of June 30, 2023.

2. The new PFRS Plan

The PFRS argues that the new PFRS Plan supports its position. A pre-confirmation form of the new PFRS Plan was an exhibit to the Plan⁷³ and it was finalized and adopted on December

⁷¹ Ex. B to State Contribution Agreement at 7 (Docket # 13678 at pdf p. 74).

⁷² *Id.* at 3-4 (Docket # 13678 at pdf pp. 70-71).

⁷³ Plan Ex. I.A.254.a (Docket # 8045-1 at pdf p. 448) (New Hybrid PFRS Pension Plan) (Component I); Plan Ex. I.A.281 (Docket # 8045-1 at pdf p. 590) (Prior PFRS Pension Plan) (Component II).

8, 2014 based on the confirmed POA.⁷⁴ The PFRS argues that this document shows that *no amortization period is required* for payment of the UAAL existing as of June 30, 2023, let alone a 30-year amortization. But that document does not support the PFRS argument.

The PFRS relies on provisions in Article G of Component II of the new PFRS Plan,⁷⁵ which it also refers to as the “Legacy/Frozen Plan.” First, the PFRS quotes Section G-5(b). In emphasizing certain parts of this Section, however, the PFRS fails to highlight the critical very first words of Section G-5(b) — “Subject to the Plan of Adjustment, . . .” Here is how the PFRS quotes this section (underlining, bold, and italics supplied by the PFRS):

Sec. G-5. Contributions to and payments from the Pension Accumulation Fund.

Contributions to and payments from the Pension Accumulation Fund shall be made as follows:

* * *

(b) Subject to the Plan of Adjustment, for Fiscal Years commencing prior to July 1, 2014, **and on or after July 1, 2023,** the Board of Trustees annually ascertained and reported to the Mayor and the Council **the amount of contributions due the Retirement System by the City,** and the Council shall appropriate and **the City shall pay such contributions to the Retirement System during the ensuing Fiscal Year.** When paid, such

⁷⁴ As this Court explained in detail in a prior opinion, the new PFRS Plan was adopted by Order No. 44 of the Emergency Manager, Kevin D. Orr, issued on December 8, 2014, two days before the effective date of the confirmed POA. *See In re City of Detroit, Michigan*, 614 B.R. 255, 260-61 (Bankr. E.D. Mich. 2020). A copy of the new PFRS Plan, which combines Components I and II, is in the record in this case in the following location, among other possible locations: as part of Exhibit 6I to an earlier motion filed by the City on August 9, 2019, at Docket # 13090. That Exhibit 6I is a copy of Emergency Manager Order No. 44, and a copy of the adopted new PFRS Plan is attached to that Emergency Manager Order as its Exhibit E. The exact location in the record of the adopted new PFRS Plan is Docket # 13090-1, beginning at pdf p. 13.

⁷⁵ The provisions quoted by the PFRS, which this Opinion quotes below, are in the record at Docket # 13090-1, at pdf pp. 147-48, 154.

contributions shall be credited to the Pension Accumulation Fund.⁷⁶

Next, the PFRS quotes Section G-9, which states the following (underlining and bold supplied by the PFRS):

Sec. G-9. Appropriations prior to July 1, 2014 **and after June 30, 2023.**

(a) The Board of Trustees shall certify to the City Council **the amount of the appropriation necessary to pay to the various funds of the Component II** of the Retirement System the amounts payable by the City as enumerated in this Component II, according to legal budget procedure.

(b) **To cover the requirements of Component II** prior to July 1, 2014 **and after June 30, 2023**, such amounts **as shall be necessary to cover the needs of Component II shall be paid into the Pension Accumulation Fund and the Expense Fund by special appropriations or transfers to the Retirement System;** provided, however that no transfers can be made from the Accrued Liability Fund other than the annual transfer of the scheduled amortizing amount, or transfers under special circumstances pursuant to Section G-4 (as in effect prior to July 1, 2014).⁷⁷

Finally, the PFRS quotes Section G-17, which states the following (underlining and bold supplied by the PFRS):

[T]he **Board of Trustees shall compute the City's annual contributions** for Fiscal Years commencing prior to July 1, 2014 **and after June 30, 2023**... using actuarial valuation data... The Board shall report to the Mayor and to the City Council the contribution percents so computed, and such contribution percents **shall be used in determining the contribution dollars to be**

⁷⁶ PFRS's Sur-Reply Br. (Docket # 13681) at pdf p. 7 (bold, underlining, and italics supplied by the PFRS).

⁷⁷ *Id.* at pdf pp. 8-9 (footnotes omitted) (bold and underlining supplied by the PFRS).

appropriated by the City Council and paid to the Retirement System.⁷⁸

These provisions in the new PFRS Plan do not support the PFRS's position. First, Section G-5(b) explicitly says that it is "[s]ubject to the Plan of Adjustment." And the new PFRS Plan defines "Plan of Adjustment" to mean the confirmed POA:

Plan of Adjustment means the Plan for the Adjustment of Debts of the City of Detroit, which has been approved by the United States Bankruptcy Court in *In re City of Detroit, Michigan*, Case No. 13-53846.⁷⁹

Thus, in calculating the City's required annual contributions after June 30, 2023, the PFRS is subject to and bound by the POA's 30-year amortization. Therefore, under Section G-5(b), for each of the 30 years "on and after July 1, 2023," the PFRS is to calculate the City's required contribution for the ensuing Fiscal Year" based on the 30-year amortization, and the City is to pay the required contribution for that ensuing Fiscal Year. When Section G-5(b) is viewed in this light, Sections G-9 and G-17 add nothing that supports the PFRS's position.

In addition, the new PFRS Plan contains an overriding provision that requires the PFRS Board and Investment Committee to comply with the confirmed POA. Section 1.3 states:

The Retirement System is intended to comply with all relevant provisions (including Exhibits) of the Plan for the Adjustment of Debts of the City of Detroit, as approved by the United States Bankruptcy Court in *In re City of Detroit, Michigan, Case No. 13-53846* ("Plan of Adjustment"). Component I and Component II of the Combined Plan shall be interpreted and construed by the City, the Board of Trustees and the Retirement System to give full effect

⁷⁸ *Id.* at pdf p. 9 (bold and underlining supplied by the PFRS).

⁷⁹ New PFRS Plan, Section 2.1(45) (Docket # 13090-1) at pdf p. 42 (italics in original). This definition of "Plan of Adjustment" applies to both Components I and II of the new PFRS Plan. *See id.* at Section A-1(b) (Docket # 13090-1) at pdf p. 97-98.

to the Plan of Adjustment. To the extent that a conflict arises between the Combined Plan Document and the Plan of Adjustment, the City, the Board of Trustees, the Investment Committee and the Retirement System are directed to interpret any inconsistency or ambiguity to give full effect to the Plan of Adjustment.⁸⁰

For these reasons, the new PFRS Plan does not support the PFRS's position.

3. Michigan's Public Act 314, as amended (Mich. Comp. Laws § 38.1133(g))

The PFRS's cites Mich. Comp. Laws § 38.1133(g), but like the State Contribution Agreement and the new PFRS Plan, that statute's relevant provisions all are "subject to" the confirmed POA. The statute provides, in pertinent part:

(1) **Subject to a plan for adjustment**, each large sponsored system shall establish an investment committee.

(2) The investment committee shall recommend to the governing board of the large sponsored system investment management decisions, including, but not limited to, all of the following:

....

(d) **Subject to a plan for adjustment**, all calculations, actuarial assumptions, or assessments used by an actuary, including, but not limited to, those underlying the restoration of pension benefits, funding levels, and amortization of the restoration of pension benefits, and those underlying the determination of annual funding levels and amortization of annual funding levels, and recommended contributions to the large sponsored system in accordance with applicable law.

....

(g) Interpretation of the large sponsored system's governing documents, applicable laws, plans of adjustment approved by United States bankruptcy courts, and other financial determinations affecting the large sponsored system's funding or benefit levels.

⁸⁰ *Id.* at Section 1.3 (Docket # 13090-1) at pdf p. 25. This section applies to both Components I and II of the new PFRS Plan. *See id.* at Section A-1(a) (Docket # 13090-1) at pdf p. 97.

(h) Based on annual actuarial valuation reports and any other projections or reports, as applicable from an actuary or other professional advisors, the determination of the extent of restoration of pension benefits **all in conformance with a plan for adjustment.**

....

(6) As used in this section:

....

(d) **“Plan for adjustment” means a plan for the adjustment of debts entered and approved by a federal bankruptcy court** for a city that has established a large sponsored system.

Mich. Comp. Laws § 38.1133g (emphasis added).

This further confirms that the 30-year amortization in the confirmed POA is binding on the PFRS. It was incorporated into the POA by the Confirmation Order, and as that Order says, the Confirmation Order is “binding upon” the City and “any and all holders of Claims,” including the PFRS.⁸¹

4. Further comment

The 30-year amortization term in the POA did not and should not come as a surprise to anyone, and certainly not the PFRS. As described in detail in Parts II.B and II.C of this Opinion, the 30-year amortization was clear in the 40-year projections from at least as early as the filing of the City’s Fourth Amended Disclosure Statement on May 5, 2014, and in every such set of projections thereafter, and this was clear to everyone during the lengthy confirmation trial. These projections were used as a fundamental basis on which the feasibility of the City’s Plan was demonstrated at trial, and on which the Court found that the Plan was feasible. It should not surprise anyone that this 30-year amortization is part of the POA, based on the Court’s

⁸¹ Confirmation Order (Docket # 8272) at pdf p. 90 ¶ E.28.

Confirmation Order and the Confirmation Opinion that the Court expressly incorporated into the Confirmation Order. And as the Confirmation Order itself states, the Confirmation Order is binding on the PFRS.

C. The City is entitled to the injunctive relief sought in the Motion, and because that relief is provided for in the POA, an adversary proceeding is not required under Fed. R. Bankr. P. 7001(7).

The PFRS argues that the City cannot obtain the injunctive relief it seeks by motion. Rather, the PFRS argues that the City must file an adversary proceeding. The PFRS cites Fed. R. Bankr. P. 7001(7), for the proposition that “a proceeding to obtain an injunction or other equitable relief” requires an adversary proceeding. But that rule does not require an adversary proceeding “when a chapter 9 . . . plan provides for [such] relief.” The rule states:

An adversary proceeding is governed by the rules of this Part VII.
The following are adversary proceedings:

. . . .

(7) a proceeding to obtain an injunction or other equitable relief, except when a chapter 9, chapter 11, chapter 12, or chapter 13 plan provides for the relief[.]

Fed. R. Bankr. P. 7001(7).

The POA in this case provides for the very type of injunction that the City seeks here. As the Court has now ruled, the PFRS’s efforts to impose a 20-year amortization is contrary to the POA. As a result, the PFRS’s conduct violates the following injunction contained in the Confirmation Order:

On the Effective Date, except as otherwise provided in the Plan or in this Order, **all Entities that have been, are or may be holders of Claims against the City, . . . , along with their Related Entities**, shall be, and hereby **are, permanently enjoined from taking any of the following actions against or affecting the City**

or its property . . . (e) **proceeding in any manner in any place whatsoever that does not conform to or comply with the provisions of this Order**, the Plan or the Settlements (to the extent such Settlements have been approved by the Court herein); and (f) **taking any actions to interfere with the implementation or consummation of the Plan.**⁸²

Similarly, the PFRS's conduct violates the injunction in Article III of the Plan, which is applicable to "all Entities that have been, are or may be holders of Claims against the City,"⁸³ and which therefore enjoins the PFRS from:

proceeding in any manner in any place whatsoever that does not conform to or comply with the provisions of the Plan or the settlements set forth herein to the extent such settlements have been approved by the Bankruptcy Court in connection with Confirmation of the Plan; and . . . taking any actions to interfere with the implementation or consummation of the Plan.⁸⁴

Under the Plan, the Court retains jurisdiction to enter injunctions to enforce the confirmed POA. In Article VII, Section I of the Plan, quoted in Part III of this Opinion, the Court retains jurisdiction to:

Issue injunctions, enforce the injunctions contained in the Plan and the Confirmation Order, enter and implement other orders or take such other actions as may be necessary or appropriate to restrain interference by any Entity with consummation, implementation or enforcement of the Plan or the Confirmation Order[.]⁸⁵

Given these provisions in the POA, the Court has authority to further enjoin the PFRS's

⁸² Confirmation Order (Docket # 8272) at pdf pp. 93-94 ¶ H.32 (emphasis added).

⁸³ Plan (copy appended at Docket # 8272) at pdf p. 190.

⁸⁴ *Id.* at pdf p. 190-91, Sections III.D.5.a.5 and III.D.5.a.6.

⁸⁵ *Id.* at pdf p. 210 (emphasis added).

conduct, in the way the City requests, without the need for an adversary proceeding.

V. Conclusion

For the reasons stated in this Opinion, the Court will grant the City's Motion, and will enter an order requiring the PFRS to amortize the UAAL existing as of June 30, 2023 over 30 years; and enjoining the PFRS from any further attempts to shorten that amortization period to 20 years or to any length of time less than 30 years from June 30, 2023 forward.

Case No. 13-53846

CITY OF DETROIT, MICHIGAN,

Chapter 9

Debtor.

Judge Thomas J. Tucker

**ORDER GRANTING THE CITY OF DETROIT'S MOTION
TO ENFORCE PLAN OF ADJUSTMENT AGAINST THE POLICE AND FIRE
RETIREMENT SYSTEM PENSION PLAN (DOCKET # 13602)**

This case is before the Court on the motion by the City of Detroit (the "City") entitled "City of Detroit's Motion to Enforce Plan of Adjustment and Require 30-Year Amortization of the UAAL in the Police and Fire Retirement System Pension Plan" (Docket # 13602, the "Motion"). The Police and Fire Retirement System of the City of Detroit, Michigan (the "PFRS") has objected to the City's Motion. After holding a hearing on the Motion, the Court took the Motion under advisement.

Today the Court has filed a written opinion regarding the Motion (the "Opinion"). For the reasons stated by the Court in its Opinion, the Court enters this Order.

IT IS ORDERED that:

1. The Motion is granted.
2. The resolutions passed and the votes taken by the PFRS and the Investment Committee which shortened the amortization period to 20 years, as discussed in the Court's Opinion, are void and of no force or effect, and the PFRS and the Investment Committee are enjoined and barred from shortening the 30-year amortization period.

3. The PFRS must amortize the PFRS plan's unfunded actuarial accrued liability that will exist as of June 30, 2023, over an additional 30 years commencing on June 30, 2023.
4. The Court will retain jurisdiction over any and all matters arising from the interpretation or implementation of this Order.

I. INTRODUCTION

The Court's Amortization Opinion¹ hinges on a sentence in the Confirmation Opinion which states that the remaining UAAL for the PFRS must be repaid using a 30-year amortization period at a 6.75% interest rate. The problem is that sentence is demonstrably wrong. The 6.75% interest rate does not extend for thirty years—it terminates after ten years under the express terms of the Plan, after which, just like amortization, the PFRS determines what interest rate to adopt based upon recommendations from its actuary and investment consultants.

Under the Plan, the PFRS was originally enjoined for a period of ten years from making changes to the “selection of the investment return assumptions [*i.e.*, the 6.75%]” as well as the calculation of the “contributions” owed by the City. After that, the PFRS was no longer enjoined from making changes to those terms. But this Court's new injunction re-starts the clock, and now the PFRS is enjoined from changing these terms for another thirty years. This is not only inconsistent with the Plan, it is also inconsistent with the Confirmation Opinion *itself*, which expressly approved the PFRS's ability to change terms after the ten-year “pension holiday” in a different section of the Opinion. Thus, elevating this one sentence (a sentence that contains errors, no less) to the status of the “Plan” has not only created irreconcilable inconsistencies within the various Plan-related documents, it has also created an

¹ Capitalized and previously defined terms shall have the same meaning as above and as used in the City of Detroit's Motion to Enforce Plan of Adjustment (Dkt. No. 13602) and PFRS's Response (Dkt. No 13634).

inconsistency within the Confirmation Opinion. In one part of the Confirmation Opinion, the Court approved the settlement between the PFRS and the City, specifically quoted the Plan provisions setting the 6.75% interest rate for only ten years, and affirmed the parties' right to make changes to the "terms" surrounding the amount of the City's annual contribution after that ten years—but now this Court has essentially overruled that portion of the Confirmation Opinion. The Plan is clear—there was supposed to be a decade long "pause," followed by the resumption of the previously agreed upon process for calculating the City's required contribution, and a release of the injunction that forbid the City and the PFRS from making any changes for ten years. This Court already approved those precise terms. Rather confoundingly, a new injunction has issued, and instead of returning the discharge of key fiduciary obligations back to the PFRS at the end of the ten years, the City has somehow managed to extend the original ten-year injunction by *three more decades*.

This goes beyond an inconsistency between the Plan and the Confirmation Opinion. The issue here is that (i) the sentence relied upon by the Court was factually incorrect and an error to begin with, and (ii) elevating that sentence to the weight of the "Plan" has now created a contradiction within the Confirmation Opinion *itself*. Accordingly, the PFRS seeks reconsideration of the Court's ruling, and it also seeks clarity from the Court regarding its adoption of the sentence in the Confirmation Opinion which states that the post-2023 UAAL will be repaid over a 30-year

amortization period using a 6.75% interest rate, because the Plan expressly states that the 6.75% expires on June 30, 2023, and the PFRS is currently analyzing what interest rate to adopt for the following fiscal year. The City acknowledged during the hearing that the issue of whether the 6.75% interest rate could be amended by the PFRS after 2023 was not currently before the Court; however, the Court's adoption of the entirety of the sentence on page 231 of the Confirmation Opinion as "the Plan" raises the question of whether the PFRS is also enjoined from changing the assumed rate of return on a go-forward basis. In an abundance of caution, the PFRS therefore requests clarification that the 6.75% interest rate is not part of this Court's current injunction.

II. LEGAL STANDARDS

As a general rule, Federal Rules of Civil Procedure 59 is applicable and the bankruptcy court may alter or amend a judgment if there has been "(1) a clear error of law; (2) newly discovered evidence; (3) an intervening change in controlling law; or (4) a need to prevent manifest injustice." *Leisure Caviar, LLC v. U.S. Fish & Wildlife Serv.*, 616 F.3d 612, 615 (6th Cir. 2010) (citation omitted). Pursuant to 9024-1(a)(3), the movant seeking reconsideration must not only demonstrate a palpable defect by which the court and the parties have been misled but also show that a different disposition of the case must result from a correction thereof.

III. LEGAL ANALYSIS

A. An Internal Inconsistency Exists in the Confirmation Opinion *Itself* On the Amortization and Interest Rate Issues, So It Cannot Serve as the "Plan"

The Court's Amortization Opinion ultimately rests on the following excerpt

from the Confirmation Opinion:

The Plan provides the City with fixed payments toward the pension underfunding for FY2014-FY2023 . . . However, at the end of FY2023, the GRS and PFRS will remain significantly underfunded. Using the assumptions from the global pension settlement, including the 6.75% discount rate, the City projects that the PFRS will only achieve 78% funding, leaving a UAAL of 681 million. Ex. 793 at 2.^[2] . . . **The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%.**

(Conf. Op. at pg. 231) (emphasis added). The imposition of a 6.75% interest rate for thirty years is a blatant error, though. The Plan explicitly states that the 6.75% interest rate expires after only *ten* years, after which a new interest rate (and an amortization period) can be set by the PFRS—and notably, as will be set forth below, the Court approved that process in a different part of the Confirmation Opinion, which again, proves the point that this entire sentence is erroneous. And even if it was accurate, it was still merely lifted from the “summary page” of the Financial Projections and the two terms quoted above were expressly labeled by both the City *and the Court itself* (see directly above) as “assumptions”—not Plan terms. If both amortization and the 6.75% interest rate are now being imposed for thirty years, it would violate numerous provisions of the Plan and the PFRS Pension Plan, as will be set forth below.

(1) The Plan’s Ten-Year Injunction Against Changes to the Interest Rate and Other Terms Relating to the City’s Contribution Amount

Under the Plan, the City’s annual contributions were paused for ten years, and

² Exhibit 793 is a version of the Financial Projections admitted at the Confirmation Trial.

the only funding was from the Grand Bargain (*i.e.*, the Foundations and the State):

During the Fiscal Years from the Effective date **through Fiscal Year 2023**, annual contributions shall be made to fund benefits accrued under the Prior PFRS Pension Plan only in the amounts identified on Exhibit II.B.3.1.ii.A. The exclusive source for such contributions shall be certain DIA proceeds and a portion of the State Contribution.

(Plan, Section II.B.3.q.ii.A) (emphasis added). After that ten-year period ended, responsibility for funding the pensions reverts back to the City:

After June 30, 2023 . . . the City will contribute sufficient funds required to pay each Holder of a PFRS Pension Claim his or her PFRS Adjusted Pension Amount in accordance with and as modified by the terms and conditions contained in the Plan and the Prior PFRS Pension Plan, in accordance with the State Contribution Agreement and exhibits thereto[.]”

Id. The only other express term in the Plan of Adjustment itself was the imposition of 6.75% as the assumed rate of return, but again—only for a period of ten years:

During the period that **ends on June 30, 2023**, the trustees of the PFRS... **shall adopt and maintain an investment return assumption** and discount rate for purposes of determining the assets and liabilities of the PFRS that **shall be 6.75%**.

(Plan, Section II.B.3.q.ii.B) (emphasis added). However, after that ten-year period, the investment rate of return and other contribution-related “terms” could be changed:

G. No Changes in Terms for Ten Years. ... the City, the trustees of the PFRS and all other persons or entities shall be enjoined from and **against the subsequent amendment of the terms, conditions and rules of operation of the PFRS, ... or against any action that governs the selection of the investment return assumption described in Section II.B.3.q.ii.B, the contribution to the PFRS** or the calculation or amount of PFRS pension benefits **for the period ending June 30, 2023...** [.]

(Plan, Section II.B.3.q.ii.G) (emphasis added). The Plan imposed a ten-year

injunction. After that period ends on June 30, 2023, however, that injunction automatically *expires* and any of the “terms, conditions and rules of operation of the PFRS” including the “selection of the investment return assumption” (*i.e.*, the 6.75%) and “terms” relating to the City’s annual “contribution to the PFRS” can be changed. The Court’s recent adoption of the sentence imposing a 30-year amortization and extending the 6.75% interest rate to thirty years (instead of just ten) directly conflicts with these two provisions, which permit both the interest rate and any other “terms” that relate to the amount of the “contribution to the PFRS” to be amended after June 30, 2023. The Plan states that the parties are “enjoined” from making these changes for ten years—but this Court’s holding erroneously extended that injunction to *thirty* years. This is radically inconsistent with the above two provisions from the Plan (Sections (B) and (G)) as well as several provisions of the PFRS Pension Plan, as will be set forth below.

(2) The Ten Year Carve-Outs Under the PFRS Pension Plan

As it relates to funding policy decisions, every governing provision in both the Plan as well as the PFRS Pension Plan is tied to this ten-year period. After the ten-year “pension holiday,” the Plan returns the normal funding policy decisions to the PFRS. If the Court intended to hold that the entire sentence on page 231 is now “the Plan of Adjustment,” then the following provisions would be read out of the Plan altogether.

(i) Article G-5(c) States that the Amount of the City’s Contribution Is Not Limited by the Plan of Adjustment After 2023

Under the PFRS Pension Plan adopted as part of the Plan, the City’s contributions

are determined by the PFRS and are not solely dictated by the Plan after 2023:

Sec. G-5. Contributions to and payments from the Pension Accumulation Fund. **Contributions to and payments from the Pension Accumulation Fund shall be made as follows:**

(b) Subject to the Plan of Adjustment, for Fiscal Years commencing prior to July 1, 2014, and **on or after July 1, 2023, the Board of Trustees** annually ascertained and reported to the Mayor and the Council **the amount of contributions due the Retirement System by the City**, and the Council shall appropriate and **the City shall pay such contributions to the Retirement System during the ensuing Fiscal Year . . .**

(c) For Fiscal Years commencing after June 30, 2014 and **prior to July 1, 2023, the City shall make contributions to the Pension Accumulation Fund only as provided in the Plan of Adjustment.**

(Dkt. No. 13090-1, PFRS Pension Plan, Article G-5) (emphasis added). In the Amortization Opinion, the Court reasoned that Article G-5(b) contained the words “subject to the Plan of Adjustment,” and therefore, when viewed in conjunction with the sentence in the Confirmation Opinion which cited to the Financial Projection’s assumption that these contributions would be paid over a thirty-year period, it meant that the PFRS was constrained to calculate the annual contribution amount “based on the 30-year amortization.” (Amortization Opinion, pg. 32). What the phrase “subject to the Plan of Adjustment” meant in that section was a reference to the ten-year annual contribution hiatus, not an amortization period: “Subject to the Plan of Adjustment, for Fiscal Years ... on or after July 1, 2023[.]” If the Court’s interpretation was correct, this section should have said “after July 1, **2053.**”

Further, the Court’s ruling ignores subsection (c). Article G-5(c) makes clear that prior to June 2023, the City’s contributions are “*only* as provided in the Plan of

Adjustment,” but after June 2023, the PFRS Board determines the “amount of the contributions due” by the City. This is consistent with the Plan itself, which states that the parties are enjoined from making any changes to the City’s “contributions” for ten years. After June 30, 2023, subsection (c) explicitly states that the City’s “contributions” to the PFRS are no longer solely governed by the Plan of Adjustment. This is consistent with Article G in the Plan itself, which expressly states that the injunction preventing changes to the interest rate or other terms relating to the amount of the City’s “contribution” was lifted at the end of that ten-year period.³

(ii) After 2023, the Board Sets the “Amount of the Appropriation Necessary to Pay... for Component II”

The ten-year hiatus followed by a resumption of normal, unfettered payment obligations is echoed in the next section, too, which addresses appropriations by the City:

Sec. G-9. Appropriations prior to July 1, 2014 **and after June 30, 2023.**

- (a) The Board of Trustees shall certify to the City Council the amount of the appropriation necessary to pay to the various funds of the Component II...
- (b) To cover the requirements of Component II prior to July 1, 2014 and after June 30, 2023, such amounts as shall be necessary to cover the needs of Component II shall be paid . . . by special appropriations or transfers to the Retirement System[.]

³ As previously stated, Article G from the Plan permits the parties to change terms after 2023:

G. No Changes in Terms for Ten Years. ... the City, the trustees of the PFRS and all other persons or entities shall be enjoined from and against the subsequent amendment of the terms, conditions and rules of operation of the PFRS, ... or against any action that governs the *selection of the investment return assumption* described in Section II.B.3.q.ii.B, *the contribution to the PFRS* or the calculation or amount of PFRS pension benefits *for the period ending June 30, 2023*[.]

(Plan of Adj., Section II.B.3.q.ii.G) (emphasis added).

Id. at Article G-9. This says nothing about a required 6.75% interest or a 30-year amortization; to the contrary, it requires the PFRS to calculate the number and the City to pay whatever amount is “necessary to cover the needs of Component II.”

(iii) After 2023, the Board “Computes the City’s Annual Contributions” Based On Recommendations by Its Actuaries—Not Based Upon the Plan

Lastly, Article G-17 expressly states that *the Board*—not the City—sets the contribution amount and that it is based upon *actuarial data*, not based on Plan terms:

[T]he Board of Trustees shall compute the City’s annual contributions for Fiscal Years commencing prior to July 1, 2014 and after June 30, 2023... using actuarial valuation data... The Board shall report to the Mayor and to the City Council the contribution percents so computed, and such contribution percents shall be used in determining the contribution dollars to be appropriated by the City Council and paid to the Retirement System.

Id. at Article G-17 (emphasis added). This section, if it was intended to include a 30-year amortization and 6.75% interest rate until 2053, should have expressly stated so. Instead, this Section directs the Board to make this decision based on “actuarial data” to compute the City’s annual monetary contribution—not to apply a pre-determined 30-year amortization and a 6.75% interest rate assumption.⁴

(iv) The PFRS Pension Plan Requires the IC to Determine All Actuarial Assumptions—including Both Amortization & Interest Rate

The new PFRS Plan also expressly confers the amortization and interest rate

⁴ Notably, all of this language is the same language that governed the operation of the PFRS *before the bankruptcy* and the Michigan Court of Appeals held this language means it is the PFRS Board’s sole duty to select an amortization period, not the City. This same exact language was re-adopted by the City and incorporated into the Plan.

decisions upon the PFRS Investment Committee (“IC”):

[A]n Investment Committee is hereby created for the purpose of making recommendations to the Board of Trustees and taking action under and with respect to certain investment management matters relating to the Retirement System . . . The Investment Committee shall serve in a fiduciary capacity with respect to the investment management of Retirement System assets, determination of investment return assumptions, and Board compliance with provisions of the governing documents[.]

(Dkt. No. 13663, Ex. 23, PFRS Plan, Art. I, Sec. 1.21). Once again, after 2023, the PFRS is the only body authorized under the Plan to make a “determination of investment return assumptions”—*i.e.*, the 6.75% investment return rate. This provision is directly at odds with the sentence this Court adopted as the “Plan” in its Amortization Opinion which states that the amortization and the investment return rate for the post-2023 UAAL would be 6.75% for thirty years, rather than set by the PFRS. The assignment of these duties to the IC was repeated in Article 16.2 of the PFRS Plan:

(1) For purposes of this Combined Plan, “investment management decisions” and “investment management matters” shall include:

(d) *review* and affirmation or rejection of the correctness of *any and all* calculations, *actuarial assumptions* and/or assessments used by the Actuary including, but not limited to (i) those underlying the restoration of pension benefits, funding levels and *amortization* thereof... (ii) *those underlying the determination of annual funding levels and amortization thereof*, and (iii) on or after Fiscal Year 2024, *the recommended annual contribution to the Retirement System* in accordance with applicable law.

(PFRS Plan, Art. 16.2(1)(d)) (emphasis added). The City plucked one word out of this entire lengthy section (“correctness”) and urged the Court to limit the IC’s

authority to merely determining the “correctness” of these items, and the Court agreed. (Amortization Op., pg. 27-28). But such an interpretation wrongly strips the IC of any fiduciary discretion and relegates it to a purely ministerial function (one that IC members would not even be qualified to perform, as the City’s position would result in the dubious situation where IC members are expected to be qualified to double check the “correctness” of actuarial calculations when they are not themselves trained actuaries). Instead, when read in full, this section clearly confers the right upon the IC to “review” any and all “actuarial assumptions” (which is what amortization and assumed rates of return are)—and then decide which ones to adopt.

Moreover, the Court’s interpretation ignores Article 1.21, quoted above, which expressly states that the IC’s role includes the “*determination* of investment return assumptions”—not just reviewing the “correctness” of those assumptions, but actually determining what they should be in the first place. Thus, the Plan is clear—the decision as to amortization period *and* assumed rate of return are within the sole discretion of the PFRS after the ten-year period ends.

B. There Was No Finding of Fact or Conclusion of Law In the Confirmation Opinion Approving an Amortization Or Extending the Interest Rate to 30 Years

Despite the numerous explicit provisions placing actuarial assumptions such as amortization and the interest rate determinations within the PFRS’s sole discretion, the Court has now adopted the following sentence over those sections of the Plan: “The City will then amortize the remaining UAAL for both plans over the next thirty years at an

interest rate of 6.75%.” (Conf. Op., pg. 230). This is not a “ruling” as the City has claimed. This sentence is nothing more than a rote recitation of an exhibit used at trial and as will be set forth below, it is not even an accurate reflection of the assumption used by Malhotra for the limited purpose of his Financial Projections.

As set forth above, the key economic terms relating to the City’s post-2023 UAAL repayment were subject to change at the end of the ten years. (Plan, Section II.B.3.q.ii.G). But the Projections had to include some sort of “best guess” as to the amount the UAAL would be after Year 10 and also what hypothetical terms might govern its repayment in order to show some level of “feasibility,” which necessarily included using some sort of baseline assumption as to what the interest rate could be for those payments, as well as how long those payments could be made. *It was an unknown what interest rate would actually be selected because the Plan only set the 6.75% for a period of ten years—after that, it could be changed by the PFRS.*

Thus, a number had to be inserted as a placeholder in order to permit some sort of mathematical calculation to be performed. It was not entirely illogical for those projections to use the assumption of 6.75% as the assumed rate of return, because that was the rate of return being applied during the 10-year “pension holiday” under the Plan. It was similarly not entirely illogical for the City to use a 30-year amortization because that was the amortization period being used prior to the bankruptcy case. Not surprisingly, the Court agreed and found the Financial

Projections were “reasonable.” But that does not mean that those assumptions have now been converted into binding terms, superseding the Plan’s express terms to the contrary.

(a) The Court’s Ruling as to the 6.75% Interest Rate

In contrast to the amortization issue (which the Court largely ignored in the Confirmation Opinion), the Court *did* make a detailed ruling as it related to the the 6.75% assumed rate of return to be applied for the ten-year period—presumably because the 6.75% interest rate is actually *in the Plan*. In support of the 6.75%, the City offered extensive expert testimony and the Court noted this detailed evidence:

The City presented testimony from its actuaries to support the assumption that the City’s investments will achieve the projected 6.75% growth rate. Glenn Bowen of Milliman testified that the 6.75% rate assumes a lower inflation rate than the vast majority of large public pension plans... The City also presented testimony from Alan Perry, another actuary from Milliman, who testified that the 6.75% rate is “at or near the bottom of the assumption that we would see for the largest public plans.” . . . These two points support a conclusion that the City’s assumptions regarding the investment return rate are conservative. Mr. Bowen testified that in November 2013, Milliman performed a series of calculations based on the City’s asset allocations, and determined that the City could reasonably expect an investment return assumption of at least 7.2% ... **Based on this evidence, the Court concludes that the City’s projection of the UAAL for both retirement systems at the end of FY2023, including the 6.75% investment return assumption, is reasonable and supports a finding that the plan is feasible.**

Id. at 232. After undertaking this detailed evidentiary analysis, the Court reached an actual *conclusion* that this evidence “supports a *finding* that the plan *is feasible*.” This is an example of an actual “finding of fact and conclusion of law.” Not every single word in the Confirmation Opinion rises to that level. Notably, there is no similar “ruling” by the Court citing to any evidence in the record as it relates to the

amortization issue or the use of the 6.75% after 2023—because it was not actually contemplated that these two issues were set in stone after Year 10 under the Plan.⁵

In contrast, the only thing the Court said with respect to amortization and the interest rate to be applied for the UAAL *after* the pension holiday was a cite to an assumption used by the City for the limited purpose of its Financial Projection. (Conf. Op., pg. 231). This is not a finding of fact and conclusion of law. But even more important than this not being an actual “ruling” or “finding” by the Court is that this sentence is just plain *wrong*. Not only is the 30-year amortization portion wrong, the second part of the sentence (relating to the 6.75% interest rate) is demonstrably incorrect under the Plan. The Plan could not be more clear that the 6.75% only lasts for ten years, not thirty. After that ten years was over, the PFRS was free to use whatever interest rate it wanted. *Id.* at Section G. Indeed, as will be shown below, (i) the experts all agree with this, and (i) the Court *itself* approved those terms.

C. The City’s Experts Agreed at Trial That 6.75% Interest Ends 2023

As the City’s lead actuarial expert testified, the 6.75% ended on June 30, 2023:

Q. And are you familiar with the terms governing the use of the 6.75-percent investment return assumption?

A. Yes. . . ***During the period that ends on June 30, 2023***, the trustees of the PFRS ... shall adopt and maintain an investment return assumption and discount rate for purposes of determining the assets and

⁵ Notably, nowhere in this section of the Confirmation Opinion—entitled “Evaluating the Risks in the City’s Plan to Address Its Pension Obligations”—does the Court cite amortization as a “risk” to the City’s pension plan. One would assume that if the Court believed amortization was so crucial to the Plan’s feasibility, it would have identified the amortization period in the section literally entitled “[e]valuating the risks” to the City’s Plan as it relates to the pensions.

liabilities of the PFRS that shall be 6.75% percent.

(Bowen Tr., pg. 221, Dkt. No. 13634, Ex. E) (emphasis added). In fact, Malhotra himself admitted the 6.75% only lasted until 2023, not 2053—even though the Court later mistakenly interpreted his Financial Projection summary page as meaning something else:

Q. Ok. Let's start at the top. There's something called an assumed rate of return. Please tell us how that has changed.

A. That has changed from 7.9 percent for GRS and eight percent for PFRS to ***6.75 percent for GRS and PFRS, which is fixed for the next—through 2023.***

Q. And do you know how the rate of 6.75 percent was derived?

A. It was part of the settlement.

(Malhotra Tr., Ex. G to Dkt. No. 13634, p. 134) (emphasis added). Kopacz echoed this:

The POA assumed investment rate of return of 6.75% was a heavily negotiated component of the POA . . . The POA stipulates the board of trustees of the PFRS and GRS ***'must' maintain a 6.75% investment return assumption through the period ending June 30, 2023; thereafter, that rate is at the discretion of the Retirement Systems.***

(Kopacz Report, pg. 134, Dkt. No. 13663, Ex. 22) (emphasis added). As the City itself even admitted, the PFRS had discretion post-2023 to set its own funding policy terms. In late 2021, when the PFRS was debating the appropriate amortization period to adopt for the Funding Policy to take effect post-2023, the City's legal counsel flat out acknowledged that the PFRS had the discretion to the change the assumptions and adopt a new Funding Policy and admitted this in an email to the PFRS:

My understanding is that ***from the City's perspective, the funding policy need not be adopted until October of next year***, which coincides with the timeframe that the City will begin work on the FY 2024 budget. So, we are surprised at the rush to adopt something . . . ***While we understand any funding policy can be changed next year***, hasty

adoption of a policy now significantly changes the dynamics.

(Dkt. No. 13603, Ex. 6, pg. 1) (emphasis added). The parties both knew Financial Projections did not control the amortization and assumed rate of return post-2023, because there were certain key terms the parties knew could be changed in the future—*i.e.*, after the ten-year hiatus—but it would then have been impossible to forecast things in a way to demonstrate feasibility with any level of certainty at confirmation. At the time of the confirmation trial no one knew what the interest rate would be changed to a decade later—whether it would be changed to 5% or 8%, for example—so the City had to use “assumptions” to come up with a “hypothetical” repayment schedule that would show how this could work for feasibility purposes. But that is wholly different than those two assumptions, which were used to demonstrate feasibility, somehow morphing into binding terms or “the Plan.” In fact, contrary to the sentence in the Confirmation Opinion claiming that there was an amortization period and 6.75% interest rate both set for 30 years, Malhotra’s Financial Projections do not actually state that the 6.75% interest rate would continue for 30 years—it was listed below amortization as a totally separate line item:

PFRS Pension (Class 10)	<i>State and DIA Settlements</i>	
	Contributions (years 1-10)	Estimated to be \$261m from foundations/State settlement
	Contributions (years 11-40)	UAAL as of June 30, 2023 estimated to be ~ \$681m amortized over 30yr, including contributions in second decade from DIA and foundations
	Discount rate	6.75%
	Targeted funded status as of 2023	78%

Thus, while the Court cited this page of the Financial Projection as the “evidence” that the Plan included a 30-year amortization and a 6.75% for thirty years, that

citation is clearly an error. As even Malhotra *himself* testified, the 6.75% interest rate was never intended to be carried out of over thirty years. And that is the danger of viewing a mere “summary page” of the Financial Projections in isolation and not reading that document in conjunction with the actual Plan—in reality, neither the 30-year amortization nor the 6.75% for 30 years are actually in the Plan. As the City *itself* cautioned readers when viewing the Financial Projections,⁶ they must be reviewed in conjunction with the Plan document itself because the assumptions in the Financial Projections were subject to change.⁷

b. Elevating the Sentence from Pg. 231 to “the Plan” Renders the Confirmation Opinion Inconsistent Because It Held Otherwise on Pg. 180.

Further bolstering the PFRS’s position that the errant sentence on page 231 was nothing more than a recitation of an assumption used in a Financial Projection but not intended to operate as “the Plan” is that in a separate portion of the Confirmation Opinion, the Court *itself* made a *different* finding of fact and

⁶ The City expressly cautioned in the Disclosure Statement, that the “Projections are based upon a variety of estimates and assumptions” and that “some assumptions inevitably will not materialize and events and circumstances occurring subsequent to the date on which the projections were prepared may be different from those assumed” and “[e]ach of the Projections should be read in conjunction with the significant assumptions, qualifications, and notes set forth in the Disclosure Statement, the Plan... and other information submitted to the Bankruptcy court[.]” (Dkt. No. 4391, Fourth Am. Disc. Stmt., pg. 170).

⁷ And the City was right—these assumptions *did* change (dramatically). Ten years later, the UAAL for the PFRS was not \$681 million as set forth in the Projections; it was \$820 million as of June 2022 and the projected UAAL as of June 30, 2023 will be \$860 million. The funding level was not 78% in 2023; it was only 74%. *Id.* at pg. 20. Actuarial Valuation for Component II, pg. 2, available at https://cms2.revize.com/revize/rsd/val_0002_CompII%20Report%20Revised.pdf, last accessed July 8, 2023.

conclusion of law as to the 6.75% issue, which *is* consistent with the Plan. And moreover, in that instance, the Court was specifically referencing the actual Plan and the parties' negotiated settlement—not merely pulling from the “summary page” which listed “assumptions” used in the Financial Projections. In an earlier section of the Confirmation Opinion entitled “The Terms of the Pension Global Settlement” and “Governance and Oversight”, the Court explained the Plan terms as follows:

The parties have further agreed that **until June 30, 2023** [*i.e.*, **NOT thirty years**], the boards of trustees of each system will adopt and maintain an investment return assumption and discount rate of 6.75% for purposes of determining the assets and the liabilities of the pension systems.

The plan also includes a provision that all parties are enjoined **until June 30, 2023** [**Again, NOT thirty years**] from making any amendments to the terms, conditions and rules of operation of the GRS and the PFRS relating to the calculation of pension benefits, the selection of investment return assumptions, or the contributions to the pension systems.

(Conf. Op. at 180) (emphasis added). Based on these terms, the court then concluded that it “finds that the pension settlement is reasonable and approves it.” *Id.* at 182. *This* recitation of the *actual* Plan—not a citation pulled from the “summary page” of the Financial Projection—is the Court’s true ruling as to how long the investment return assumptions and the amount of the City’s contribution were set in stone for under the Plan. It was plainly ten years, *only*. And this Court approved it.

In the Court’s recent Amortization Opinion, however, it adopted the errant sentence on page 231 of the Confirmation Opinion as controlling the amortization and interest rate issues, which renders the Confirmation Opinion itself internally

inconsistent. A side-by-side comparison of these two conflicting statements by the Court as to how long the 6.75% interest rate applies is set forth below:

Conf. Op. pg. 180 – 6.75% goes for only 10 years, or “until June 30, 2023”	Conf. Op. pg. 231 – 6.75% continues for another 30 years, or until 2053
<p>The parties have further agreed that until June 30, 2023, the boards of trustees of each system will adopt and maintain an investment return assumption and discount rate of 6.75% for purposes of determining the assets and liabilities of the pension systems.</p> <p>The plan also includes a provision that all parties are enjoined until June 30, 2023 from making any amendment to the terms, conditions and rules of operation of the GRS and the PFRS relating to the calculation of pension benefits, the selection of investment return assumptions, or the contributions to the pension systems.</p> <p>[source = Plan of Adjustment itself]</p>	<p>However, at the end of FY2023, the GRS and PFRS will remain significantly underfunded. Using the assumptions from the global pension settlement, including the 6.75% discount rate, the City projects that the PFRS will only achieve 78% funding, leaving a UAAL of \$681 million. Ex. 793 at 2. For the GRS, the City projects a 70% funded status by the end of FY2023, leaving a UAAL of \$695 million. <i>Id.</i> The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%. <i>Id.</i> Between FY2024 and FY2033, the City *232 will receive an additional \$68 million in Grand Bargain proceeds to pay toward the UAAL amortization for PFRS, and \$188 million for GRS. The balance of the amortized UAAL will come from the City. <i>Id.</i> at 5.</p> <p>[source = summary page of the Financial Projections]</p>

The entry on the left is a correct and accurate recitation of the Plan’s terms—after the ten-year pension holiday ends in June of 2023, the PFRS Board will once again be permitted to change the assumed rate of return from 6.75% to some other actuarially determined assumption, and the Board is also once again permitted to calculate (on its own, without City interference) the “contributions” owed by the City for its pension obligations, which necessarily includes the amortization period.

The entry on the right is a recitation of a Financial Projection (and not even an accurate recitation, at that, since the 6.75% does not extend for 30 years) in which the City had to include *some* sort of assumptions as the repayment terms, since they

were not yet set in stone and would not be until ten years later, after 2023. But it was never intended to have the weight of “the Plan”—it was merely intended to show a hypothetical repayment schedule in order to demonstrate feasibility.⁸

The Court’s Amortization Opinion elevates the sentence on page 231 to “the Plan” and creates an obvious conflict within the Confirmation Opinion itself, which says in one place the 6.75% goes for ten years under “the Plan” but then later the 6.75% goes for thirty years (also, ostensibly, under the “Plan”). Such a result would be incongruous. The only fair read is the one posited by the PFRS. The Court would not have overridden the Plan’s express terms on page 231 after having just approved those terms on page 180. In fact, we know the Court never intended to implicitly override the express terms of the pension settlement because the Court even acknowledged the role that the PFRS would play in the future to select these very assumptions. For example, the Court observed certain recommendations set forth by Kopacz should be adopted because “accurate financial reporting relating to the City’s pension plans will be an essential tool *as the retirement systems* manage the plans’ assets and liabilities and *make critical decisions regarding future estimated rates of returns and annual funding requirements.*” (Conf. Op., pg. 233) (emphasis

⁸ The Court noted in the Amortization Opinion that the various iterations of the Financial Projections that the 30-year amortization did not change. True enough. But the PFRS had no reason to quibble with that assumption—a term had to be selected and dropped in as a placeholder for the time being. Further, while the 30-year amortization did not change as an assumption, neither did the express caveat by the City that this was a mere “assumption” that was subject to change.

added). In this excerpt, the Court (i) admits it is the “retirement systems” who make these “critical decisions,” and (ii) these decisions expressly include both the “rates of return” as well as the “annual funding requirements.”

D. The Parties Adopted the Same Language Governing Amortization Pre-Bankruptcy, Which Had Been Construed Under Michigan Law as Granting the PFRS Sole Discretion to Decide Amortization

For decades prior to the bankruptcy—from 1976 until 2014—the PFRS Board set the amortization period. See *PFRS v. City of Detroit*, 270 Mich.App. 74, 76 n.1 (2006), *leave denied*, 477 Mich. 892 (2006). In 2004, however, the City attempted to lengthen the amortization period in order to decrease the amount of its payments, so the PFRS sought a declaratory judgment that “it has the right to determine the time period for the financing of unfunded accrued pension liabilities” and argued that “under Michigan law, the Board has the authority to determine the amortization period and that Detroit must abide by its recommendation and pay the amount of pension contribution calculated by the Board.” The Michigan court—interpreting the *same exact language that the City agreed to in the Bankruptcy and re-incorporated into the Plan via the PFRS Pension Plan*—agreed with the PFRS, reasoning:

The [PFRS] Board is responsible for the general administration, management, and operation . . . Part of the Board’s responsibilities is to ensure that the retirement system is properly funded. Accordingly, the Board, after consultation with an actuary, determines the amount of Detroit’s annual pension contribution. . . one component of the pension contribution is the amount of time necessary for Detroit to meet the system’s unfunded accrued liabilities. Logically, the amount of time permitted to satisfy the accrued liabilities, also known as the amortization period, affects

the amount Detroit is obligated to contribute to the plan each year.

The City cited a contrary ordinance but the Court rejected it, reasoning it “directly interferes with the Board's *authority to decide the annual contribution, which includes a determination of the amortization period.*” *Id.* at 82. “[B]ecause the Board has the responsibility to determine the employer’s annual contribution to the system and to ensure that the system is adequately funded, an integral element of that calculation is how much the city must annually contribute to pay down its unfunded liabilities. Again, how long those liabilities are amortized, according to the calculations of the actuary, directly affects the adequacy of the system funding and the amount Detroit must pay each year.” *Id.* The court found that the controlling language “is *unequivocal* that the Board determines the amount the employer (Detroit) contributes annually” which “necessarily includes the amount of time in which Detroit must pay the unfunded accrued pension liabilities because the period directly affects the amount Detroit must contribute to the plan each year.” *Id.* at 81 n. 3-4 (emphasis added). Notably, the language the Michigan court found to be “unequivocal” *is the same language that was reincorporated into the Plan by the City as Articles G-17 and G-5 to the PFRS Pension Plan.* *Id.* at n. 3-4. Thus, the PFRS’s right to set the amortization period was not changed by the Plan—it was expressly retained by the Plan.

Further, the Plan’s own choice of law clause states that the PFRS Pension Plan

is to be interpreting under Michigan law—and a Michigan court already interpreted the key language as requiring the PFRS decide amortization, not the City. The Plan specifically adopts Michigan law and provides that unless a rule of law or procedure is supplied by federal law,⁹ then “the laws of the State of Michigan... shall govern the **rights, obligations, construction** and implementation of the Plan **and any contract** . . . instrument, release **or other agreement or document entered into or delivered in connection with the Plan.**” (Plan of Adj., pg. 71(I)) (emphasis added). The PFRS Pension Plan is a contract. The “construction” of that contract and the “rights” and “obligations” of the PFRS under that contract are all governed by Michigan law. A Michigan court has already construed the exact terminology used in the PFRS Pension Plan documents to mean that the PFRS has the “right” to decide amortization. This Court has now injected its own contrary construction, which is a violation of the Plan terms stating that Michigan substantive law governs this issue. Because the meaning of the key language in the PFRS Pension Plan has already been decided under Michigan law, this Court should not have construed the operative

⁹ “In interpreting a confirmed plan, courts use contract principles, since the plan is effectively a new contract between the debtor and its creditors.” *In re Conco, Inc.*, 855 F.3d 703, 711 (6th Cir. 2017). “State law governs those interpretations, and under long settled contract law principles, if a plan term is unambiguous it is to be enforced as written, regardless of whether it is in line with prior parties obligations.” *In re Dow Corning*, 456 F.3d 668, 676 (6th Cir. 2006). “Although a confirmed bankruptcy plan is a judgment rendered by a federal court in a case arising under federal law, because there is little need for a nationally uniform body of law regarding the interpretation of Chapter 11 plans and because state law is regularly incorporated into bankruptcy law, state law constitutes the federal rule of decision here and governs our interpretation of [the debtor’s] plan.” *Hillis Motors, Inc. v. Hawaii Auto. Dealers’ Ass’n*, 997 F.2d 581, 588 (9th Cir. 1993).

language in the PFRS Pension Plan documents in a different manner—instead, it was bound by pre-existing state law directly on point, interpreting the exact same words, in a dispute between the exact same parties.¹⁰ The City knowingly affirmed its prior arrangement with the PFRS and agreed to continue the same division of duties as between the parties that existed before the bankruptcy. If the City had wanted a different outcome, it could have changed the key provisions of the PFRS Pension Plan but it did not. Instead, the City chose to re-incorporate the same language assigning those rights to the PFRS. While there was an intervening bankruptcy, of course, the parties chose to reincorporate the same exact language and the only difference in those sections is the carve-out of the ten-year period where the PFRS was enjoined from deciding amortization for that time period.

In its Amortization Opinion, the Court quoted the same controlling language that the Michigan court interpreted as meaning that the Board controls the amortization decision and found that this language means nothing of the sort. (Amortization Op., pg. 29-32). The Court failed to even mention the Michigan state court case. This was an error of law subject to Rule 59 relief, and/or a palpable error

¹⁰ While this case is from an intermediate court, the Michigan Supreme declined to grant leave so it stands as the highest court's holding in Michigan. *In re City of Detroit*, Mich., 504 B.R. 97, 155 (Bkrcty.E.D.Mich.,2013) (“In construing questions of state law, the federal court must apply state law in accordance with the controlling decisions of the highest court of the state. . . If the state’s highest court has not addressed the issue, the federal court must attempt to ascertain how that court would rule if it were faced with the issue. . . A federal court should not disregard the decisions of intermediate appellate state courts unless it is convinced by other persuasive data that the highest court of the state would decide otherwise.”) (citations omitted).

subject to reconsideration. The Court held that none of the PFRS Pension Plan provisions permit the PFRS to determine amortization because it states that its provisions are “subject to the Plan of Adjustment.” *Id.* at 31-32. It would be one thing if the Plan itself—the portion that was specifically negotiated between the parties, that is—made mention of the alleged 30-year amortization. But the above analysis demonstrates that the Court, in the Confirmation Opinion, mistakenly relied on an assumption from the summary page of the Financial Projections, quoted that page inaccurately, and appears to have inadvertently misinterpreted the summary page as being reflective of the actual Plan rather than a mere “assumption” or “best guess” as to how repayment of the UAAL could look at the end of the ten-year pension holiday. Instead, after ten years, all actuarial assumptions reverted back to being determined at the discretion of the PFRS and extending the Plan’s ten-year injunction to a thirty-year injunction was plainly erroneous. Accordingly, the Amortization Opinion should be reconsidered (or at a minimum, clarified), because it has now rendered the Confirmation Opinion internally inconsistent.

Respectfully submitted,

Rules

F.R.C.P. 59(e).....	1
---------------------	---

STANDARD OF REVIEW

This Court's recent decision of *In re: Shefa, LLC*, 649 B.R. 881 (Bankr. E.D. Mich. 2023), (Hon Thomas J. Tucker), addressed the standard of review when a litigant seeks to alter or amend a judgment under F.R.C.P. 59(e), or seeks reconsideration under Local Rule 9024-1(a)(3). Under Rule 59(e), "[A] motion to alter or amend judgment may be granted only: '(1) to correct a clear error of law; (2) to account for newly discovered evidence or an intervening change in the controlling law; or (3) to otherwise prevent manifest injustice.'" *Id.*, p. 883. Motions for reconsideration are governed by Local Rule 9024-1(a)(3):

"Generally, and without restricting the discretion of the court, a motion for reconsideration that merely presents the same issues ruled upon by the court, either expressly or by reasonable implication, will not be granted. The movant must not only demonstrate a palpable defect by which the court and the parties have been misled but also show that a different disposition of the case must result from a correction thereof."

The Court in *Shefa* found that the debtor had failed to meet either standard for multiple reasons. Debtor's motion attempted to reargue issues previously raised in violation of the quoted Local Rule. The Court also cited *Bank of Ann Arbor v. Everest Nat'l Ins. Co.*, 563 F. App'x 473, 476 (6th Cir. 2014), "reconsideration motions cannot be used as an opportunity to re-argue a case." *Id.* at 883.

The Court also denied the motion in *Shefa* because it attempted to raise new legal arguments that had been waived by debtor's failure to present them prior to the

Court's decision. Id. at 883-884, (citing Sixth Circuit authority for the proposition that "In a motion for reconsideration a party may not 'raise new legal arguments that could have been raised before a judgment was issued' * * *.")

These bedrock principles were recently reiterated by District Judge Paul D. Borman in *Tr. Est. Massey v. Great Lakes Water Authority*, 2020 WL 3868492 (E.D. Mich.):

"A motion for reconsideration [or rehearing] should not be used liberally to get a second bite at the apple, but should be used sparingly to correct *actual* defects in the court's opinion." * * * It should not be "used as a vehicle to re-hash old arguments or to advance positions that could have been argued earlier but were not." Id. at *2.

Before issuing its Amortization Opinion (D.E. 13704), this Court allowed exhaustive briefing and oral argument. PFRS' motion consists entirely of prior arguments that were carefully considered and properly rejected by the Court, or new arguments that not only have been waived but also are patently unsound. PFRS does not identify any "defects" in the Amortization Opinion and there are none.

ARGUMENT

A. PFRS' argument A: "An internal inconsistency exists in the Confirmation Opinion *itself* on the amortization interest rate issues so it cannot serve as the 'Plan.'"

1. PFRS' "conflict" claim is a new argument that has been waived.

The Court's Amortization Opinion carefully addressed and rejected PFRS' multiple arguments that 30-year amortization somehow conflicted with the "Plan"

or Michigan law. Opinion, pp. 24 – 34. The Court held that there was no conflict but, even if there had been, the Court’s express adoption of 30-year amortization in its Confirmation Opinion and Plan would control over any alleged inconsistent provision. Id.

PFRS now raises a new “conflict” issue – namely, whether the 6.75% discount rate used for computing legacy plan contributions expired at the end of ten years (i.e., June 30, 2023). This is a straw man argument because the City has always understood that the 6.75% discount rate could be changed after June 30, 2023; provided, of course, there were sound reasons for doing so.

In any event, this is a new argument that has been waived by PFRS’ failure to raise it in any of PFRS’ lengthy filings. It should be rejected for that reason alone.

2. PFRS’ waived “conflict” argument is premised on a clear misrepresentation of this Court’s Amortization Opinion. And the argument makes no sense.

The first sentence of PFRS’ argument “A” states: “The Court’s Amortization Opinion ultimately rests on the following excerpt from the Confirmation Opinion: [quoting a portion of the Confirmation Opinion including the following sentence “The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%.”].” PFRS brief pp. 3-4. Even if PFRS’ statement were true, and it is not, that one sentence would have been more than sufficient to

support the Court's 30-year amortization holding. But PFRS' claim that the Court's Opinion "ultimately rests" on that one sentence is a clear misrepresentation.

In fact, the very first provision of the Confirmation Opinion that is quoted in the Court's Amortization Opinion makes no mention of the discount rate. It simply states: "The balance of the underfunding in 2023 will be amortized over a thirty year period of time." Am. Op. at pp. 14-15. That sentence is dispositive.

The Confirmation Opinion also cites to, and adopts in its entirety, Martha Kopacz' feasibility report. The key provision of Kopacz' report likewise makes no reference to the discount rate and, instead, states: "The POA proposes that the City will amortize the remaining UAAL for each Retirement System – as of June 30, 2023 – over the following thirty-year timeframe." City ex. 22, p. 133 (Doc. No. 136663-3, page 14 of 74).

Moreover, the Court supported its 30-year amortization holding with a mountain of other evidence having nothing whatever to do with the discount rate. Those materials included the one and only disclosure statement, and the critical 40-year financial projections which formed the basis for the POA and made crystal clear that the UAAL as of June 30, 2023 would be amortized over 30 years. Indeed, the Confirmation Opinion's finding that the Plan was feasible was explicitly premised on 30-year amortization. Amortization Opinion, pp. 19, 34 (40-year projections incorporating 30-year amortization "were used as a fundamental basis on which the

feasibility of the City's Plan was demonstrated at trial, and on which the Court found that the Plan was feasible.")

The Confirmation Opinion's reference to the 6.75% discount rate in the one sentence quoted by PFRS was unnecessary and may have been an error. But that is entirely irrelevant to this Court's eminently correct 30-year amortization holding. Nor does PFRS even suggest how that sentence creates any "conflict" that could in any way cast doubt on the Court's holding.

One need not be an actuary to understand that the 6.75% discount rate, and 30-year amortization, are entirely separate and distinct elements in computing the City's annual contributions to the legacy plans. As this Court explained, 30-year amortization was fundamental to establishing the feasibility of the POA by spreading out the City's contributions to the legacy plans. Separately, it may be prudent in the future to change the discount rate over the 30-year amortization period to reflect then existing economic conditions. One has nothing to do with the other.

3. The remainder of PFRS' argument "A" rehashes arguments that were previously argued and which the Court properly rejected in the Amortization Opinion.

Pages 6-9 of PFRS' reconsideration brief restate PFRS' prior arguments relating to Articles G-5, G-9 and G-17 of the PFRS Plan. PFRS first raised those

arguments in its sur-reply, Doc. No. 13681, pages 3-7.¹ Pages 9-11 of PFRS' reconsideration brief restate PFRS' prior argument that the PFRS IC has "unfettered discretion" over the amortization term; i.e., that PFRS could demand immediate payment of the entire UAAL with no amortization period. PFRS raised that argument in its response brief, Doc. No. 13634, pp. 9-11, 31-33. A reconsideration motion cannot be used to rehash prior arguments and these arguments should be rejected for that reason alone.

Moreover, the Court's Amortization Opinion, at pages 25-34, carefully analyzed and rejected those same arguments. PFRS does not identify any "defect" in the Court's analysis. PFRS simply quotes the same provisions as in its prior briefs and repeats the same unsound arguments.

This Court's Amortization Opinion rejected PFRS's arguments on multiple grounds. The plain language of the provisions do not support PFRS' position. Op. pp 25-34. More fundamentally, all of the provisions upon which PFRS relies are subject to the POA which expressly incorporated 30-year amortization. *Id.* And the Confirmation Opinion expressly requires 30-year amortization which would control if there were any conflict, which there is not.

¹ Those were new arguments and did not respond to anything the City had filed. The Court could have deemed them waived for that reason. "Arguments made for the first time in a reply (or sur-reply) brief are generally considered waived." *Frank v. U.S. Food & Drug Admin.*, 998 F.Supp.2d 596, 602 (E.D. Mich. 2014) (citing *Scottsdale Ins. Co. v. Flowers*, 513 F.3d 546, 553 (6th Cir. 2008)).

PFRS' arguments have not improved with repetition. And the City cannot improve on the Court's Amortization Opinion. Neither this Court nor the City should be required to devote further time or resources on these unsound arguments.

B. PFRS' argument B: "There was no finding of fact or conclusion of law in the confirmation opinion approving an amortization or extending the interest rate to 30 years."

PFRS' argument B focuses on the 6.75% discount rate and essentially rehashes PFRS' waived Argument A. Argument B opens with the demonstrably false claim that the Court's Amortization Opinion rested entirely on one sentence in the Confirmation Opinion – which PFRS quotes once again at the outset of Argument B: "The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%." PFRS brief, pp. 11-12. As discussed earlier, that one sentence would have been fully sufficient to support 30-year amortization, but PFRS' claim that the sentence was the sole support for the Court's Amortization Opinion is clearly incorrect.

Based on that erroneous premise, PFRS goes on to argue that this Court erred in holding that the Confirmation Opinions' requirement of 30-year amortization did not constitute a "finding of fact or conclusion of law." PFRS' only support for that claim is that the one sentence it quotes above – requiring 30-year amortization – "is nothing more than a rote recitation of an exhibit used at trial * * *." PFRS brief, p. 12. Again, PFRS is wrong.

While PFRS refers vaguely to “an exhibit used at trial,” the Confirmation Opinion supports that sentence by citing City trial exhibit 793 (ex. 17 to the City’s reply brief, Doc. No. 13663-2, pages 24-39 of 102). Exhibit 793 is the final 40-year financial projection cited repeatedly in the Confirmation Opinion which was integral to the Confirmation Opinion’s feasibility finding.

Page 2 of exhibit 793 has entirely separate entries for amortization and the discount rate. The PFRS “contributions” entry states: “Contributions (years 11-40) - UAAL as of June 30, 2023 estimated to be ~681m amortized over 30yr, including contributions in second decade from DIA and foundation.” As this Court discussed in its Amortization Opinion, later pages of the exhibit show how the City’s post – June 30, 2023 contributions to PFRS will be spread out over thirty years. Amortization Opinion, pp. 17-19.

Exhibit 793 fully supports this Court’s conclusion that the Confirmation Opinion and POA require 30-year amortization. PFRS’ argument to the contrary is frivolous – even more so because this Court, in its Amortization Opinion, was construing this Court’s own Confirmation Opinion. See *In re I.E. Liquidation, Inc.*, 2015 WL 1568248 (Bankr., N.D. Ohio) at *4:

“Trial courts are given wide discretion when interpreting and enforcing their own prior opinions and orders. *Century Indem. Co. v. Special Metals Corp. (In re Special Metals Corp.)*, 360 B.R. 244, 247 (Bankr.E.D.Ky.2006); see also *Whitney Bank v. SCC Kyle Partners, Ltd. (In re SCC Kyle Partners, Ltd.)*, 518 B.R. 393, 404 (Bankr.W.D.Tx.2014). If a court’s interpretation of its own order or

opinion is appealed, the reviewing court applies an abuse of discretion standard. *Stuart v. Mendenhall (In re Mendenhall)*, 572 Fed.Appx. 858, 861 (11th Cir.2014); *Schwab v. Oscar (In re SII Liquidation Co.)*, 517 B.R. 72, 75–76 (B.A.P. 6th Cir.2014); *In re Special Metals Corp.*, 360 B.R. at 247. “The abuse of discretion standard allows for a range of choice for the court, so long as that choice does not constitute a clear error of judgment.” *In re Mendenhall*, 572 Fed.Appx. at 861. A deferential standard is appropriate because the trial judge “is in the best position to clarify any apparent inconsistencies” with his previous rulings. *Id.* (internal quotations marks omitted).”

C. PFRS’ argument C: “The City’s experts agreed at trial that 6.75% interest ends 2023.”

PFRS’ argument C is a continuation/restatement of its waived argument A. PFRS again argues that the 6.75% discount rate can be changed after June 30, 2023. As stated above the City does not disagree, but that has no relevance to this Court’s correct determination of 30-year amortization. Nor do PFRS’ newly raised, waived arguments about the discount rate suggest otherwise.

D. PFRS’ argument D: “The parties adopted the same language governing amortization pre-bankruptcy, which had been construed under Michigan law as granting the PFRS sole discretion to decide amortization.”

This is another new argument which has been waived. And, once again, it is premised on another misrepresentation.

PFRS’ argument D relies on *PFRS v. City of Detroit*, 270 Mich. App. 74 (2006). There, the Michigan court of appeals held that the PFRS Board determined the amortization period.

PFRS argues that the Michigan court, in that opinion, was “interpreting the **same exact language that the City agreed to in the Bankruptcy and re-incorporated into the Plan via the PFRS Pension Plan * * *.**” PFRS brief, p. 21, emphasis by PFRS in the original. In case the Court missed the point, on page 22 PFRS argues that the language construed by the Michigan court “is the same language **that was reincorporated into the Plan by the City as Articles G-17 and G-5 to the PFRS Pension Plan.**” Emphasis by PFRS in original.

PFRS does not identify, attach or quote the purported “exact same language” that allegedly existed in 2006 when the case was decided. That is because it is **impossible** that the language was “exactly the same.”

As this Court carefully explained, both the State Contribution Agreement and the new component II PFRS plan were part of, and expressly subject to, the POA which requires 30-year amortization. And in the event of any conflict between any provision in those documents and the POA, the Confirmation Opinion’s requirement of 30-year amortization controls. Amortization Op., pp. 24-34.

The Court points out that “Section G-5(b) explicitly says that it is “subject to the Plan of Adjustment.” Amortization Op., p.32. The Court continues: “Thus, in calculating the City’s required annual contributions after June 30, 2023, the PFRS is subject to and bound by the POA’s 30-year amortization.” Id.

Obviously, it would have been impossible for the 2006 plan document cited in the court opinion to contain language that made the calculation of the City's contributions "subject to the [2014] Plan of Adjustment." It is equally obvious that the City's bankruptcy and POA dramatically changed the operations of the legacy plans – and one of the important changes was 30-year amortization. PFRS' reliance on pre-bankruptcy law is specious.

CONCLUSION AND RELIEF

PFRS' motion is procedurally and substantively unsound. The City asks that the motion be denied.

---	---

***EX PARTE* MOTION FOR LEAVE TO FILE REPLY TO THE CITY OF
DETROIT’S RESPONSE TO MOTION FOR RECONSIDERATION**

The Police and Fire Retirement System of the City of Detroit (“PFRS”), by its undersigned counsel, Clark Hill PLC, files this *ex parte* motion for leave to file a Reply to the City of Detroit’s Response [Dkt. No. 13715] to its *Motion to Amend or alter pursuant to Federal Rule of Bankruptcy Procedure 9023, and pursuant to Local Rule 9024-1 for Reconsideration of, the Court’s Order Granting the City of Detroit’s Motion to Enforce Plan of Adjustment Against the Police and Fire Retirement System Pension Plan (Docket #13602)* [Dkt. No. 13707].

1. On June 26, 2023, the Court issued a 37-page *Opinion Regarding the city of Detroit’s Motion to Enforce Plan of Adjustment Against the Police and Fire Retirement System Pension Plan (Docket # 13602)*. [Dkt. No. 13704]

2. On July 10, 2023, the PFRS filed its *Motion to Amend or alter pursuant to Federal Rule of Bankruptcy Procedure 9023, and pursuant to Local Rule 9024-1 for Reconsideration of, the Court’s Order Granting the City of Detroit’s Motion to*

Enforce Plan of Adjustment Against the Police and Fire Retirement System Pension Plan (Docket #13602). [Dkt. No. 13707]

3. On July 13, 2023, the Court ordered the City to file a response brief. [Dkt. No. 13709]

4. On August 10, 2023, the City filed its response brief. [Dkt. No. 13715]

5. Among the issues raised in the PFRS's Motion for Reconsideration, it asks the Court to reconsider or amend its holding that PFRS cannot change the 6.75% interest rate for the next 30 years.

6. In the City's Response, it admits that it "has always understood that the 6.75% discount rate could be changed after June 30, 2023." [Dkt. No. 13715, pg. 6]

7. As such, the City concedes that at least part of the Court's ruling was in error. However, the City offers no explanation as to why the error should not be corrected, or how reconsideration of the reasoning behind the erroneous holding and correction of the resulting error would not alter the Court's other rulings. The PFRS respectfully submit that the issues merit more attention than the City suggests and in light of the City's admission, requests the opportunity to file a Reply to the City of Detroit's Response.

8. In addition, the City recently made a public statement regarding certain changes to the pension benefits that will be made after the ten-year injunction in the Plan of Adjustment expires. These statements are directly relevant to arguments

raised in the Motion for Reconsideration but were not available to the PFRS when it filed its original Motion for Reconsideration. Accordingly, the PFRS seeks to apprise the Court of this new evidence.

9. The PFRS has prepared a reply (Exhibit 7) consisting of 22 pages. Although the length exceeds the typical page limit requirements, given the complexity and importance of the issues, the PFRS requests the length of the response brief be extended to this length pages.¹

10. The PFRS sought concurrence from the City on August 24, 2023, and the City had not responded as of the filing of this Motion.

WHEREFORE, the PFRS respectfully requests that the Court enter an order, substantially in the form attached as **Exhibit 7**, granting the PFRS leave to file a reply in support of its Motion for Reconsideration.

Respectfully submitted,

Date: August 24, 2023

I. INTRODUCTION

By admitting that the inclusion of the 6.75% interest rate over thirty years in the Confirmation Opinion was an error and *not* what the actual Plan calls for, the City has confirmed this Motion is meritorious and the Amortization Opinion requires reconsideration. It proves the point that these issues were inartfully referenced in the Confirmation Opinion, which is understandable given that it was a complex multi-week trial, with dozens of witnesses and 2,300 exhibits. But the City's attempt to divide the salient sentence in half and claim that one of the actuarial assumptions can be changed (the interest rate) whereas the other cannot (amortization) is nonsensical. This newly admitted "error" alone is grounds to warrant reconsideration.

Additional grounds also exist because the Court ignored controlling Michigan case law—the very law that the parties themselves agreed would govern the Plan of

Adjustment and its attendant documents—which has already interpreted the same pension plan language that the parties reincorporated into the new pension plan documents for post-2023 governance purposes. It also erred by ignoring Article G of the Plan of Adjustment which states that actuarial terms (and other terms) can be changed after the ten years—a provision which, as will be set forth below, the City has recently admitted in the media allows changes to be made, even to items that were explicitly *forbidden* under the Plan. This admission also supports the PFRS’s Motion, as newly-acquired evidence is a proper basis for such a request.

Most importantly, though, the Confirmation Opinion itself, which now both approves of the ten-year injunction as part of the Plan and simultaneously *disapproves* of that provision by ostensibly carving actuarial assumptions out of that clause altogether, has been rendered hopelessly inconsistent—even the City was forced to admit as much, as the 6.75% interest rate does not extend for thirty years and this was an error by the Court. But this “error” goes further than that. There is no rhyme or reason why certain actuarial assumptions could be changed but not others if—as the City claims—the “controlling” document in all of this is a set of Financial Projections that seemingly mandated a 6.75% interest rate over thirty years. The City itself was forced to admit in its Response that the Financial Projections it has hung its hat on this entire time are themselves *wrong*, as the 6.75% does *not* continue for 30 years as the City modeled in its Financial Projections.

Instead, the 6.75% over 30 years was merely an *assumption* the City plugged in for the time being in order to run calculations, but it was never intended to be binding for 30 years as “the Plan.” The City’s admission that the interest rate could be changed proves precisely what the PFRS has been arguing all along: the interest rate and amortization period used in the Financial Projections were only “assumptions”—mere placeholders—that would be updated in 2023 when the ten-year Plan injunction expired. Now, based on the City’s admission that the 6.75% over thirty years was an error, the need for reconsideration is irrefutable, as both the Confirmation Opinion *and* the underlying Financial Projections that were the crux of the City’s case are both *mistaken*. The Financial Projections used two crucial and inter-related actuarial assumptions over a thirty-year period but as even the City must now admit, at least one of those assumptions was not written in stone.

When one views the Financial Projections for what they really are as it relates to the PFRS—mere “funding targets” as the Court called them in the Confirmation Opinion—the City’s entire case falls apart. The Financial Projections are admittedly erroneous. A document that is admittedly wrong should not be morphed into a binding document with the weight of the “Plan.” The City’s Response does not even attempt to (i) make a substantive argument to address the internal conflict issue, (ii) distinguish the controlling Michigan case law, or (iii) refute the argument that Article G in the Plan of Adjustment permits changes after ten years to actuarial

assumptions and the amount of the City’s annual contributions—and in fact, the City has now publicly stated in a newspaper interview that the Plan *does* permit such changes after 2023 (and notably, the Court also never reconciled this provision with its amortization ruling). If the Court corrects any one of these errors, or considers either of the two new binding admissions by the City, the Motion should be granted, as a motion for reconsideration is properly brought if it calls “attention to an argument or controlling authority that was overlooked or disregarded in the original ruling, presents evidence or argument that could not previously have been submitted, or successfully points out a manifest error of fact or law.” *Davie v. Mitchell*, 291 F. Supp. 2d 573, 634 (N.D. Ohio 2003), aff’d, 547 F.3d 297 (6th Cir. 2008).

A. The City Has Yet to Craft Any Substantive Argument to Address the 10-Year Injunction in Article G of the Plan of Adjustment

Despite the PFRS raising Article G of the Plan—which clearly permits changes after ten years—in its prior briefing, as well as at oral argument and in its Motion for Reconsideration,¹ the City has still never once set forth a detailed

¹ These issues were not waived. (Dkt. No. 13681, pg. 10 of 33; Hrg. Tr. 3/15/2023 at pg. 56). Article G from the PFRS Claim Treatment Section of the Plan of Adjustment provides that no changes could be made for ten years, but after that, actuarial assumptions impacting the amount of the City’s “contribution,” including the “investment return assumption” could be changed:

G. No Changes in Terms for Ten Years. ... the City, the trustees of the PFRS and all other persons or entities shall be enjoined from and against the subsequent amendment of the terms, conditions and rules of operation of the PFRS, ... or against any action that governs the selection of the investment return assumption described in Section II.B.3.q.ii.B, the contribution to the PFRS or the calculation or amount of PFRS pension benefits for the period ending June 30, 2023... [.]

substantive explanation as how that provision is not dispositive to the issue at hand. The Court also did not address this provision, which is dispositive and outcome determinative. If this error is corrected, the PFRS would prevail. On this ground alone, this Motion should be granted.

B. The City Admits Half of the Sentence It Claims Is Controlling Is Wrong

The Amortization Opinion adopts the following sentence as the “Plan”—half of which the City now readily concedes is erroneous: “The City will then amortize the remaining UAAL for both plans over the next thirty years at an interest rate of 6.75%.” The City’s position is now—for the first time—that the first half of the sentence that relates to amortization is gospel, but the second half of the sentence that relates to the interest rate is rank error. The City cannot have it both ways.

The City half-heartedly attempts to claim that the Confirmation Opinion’s reference to the 6.75% discount rate “may have been an error.” (Response, pg. 5). To say it “may have been an error” is nonsensical, as the City in the next breathe also claims it “has always understood that the 6.75% interest rate could be changed after June 30, 2023[.]”² (Response, pg. 3). The City later reiterated that it “does not disagree” that the interest rate can be changed after June 30, 2023. *Id.* at pg. 9. Thus, the inescapable conclusion is that it was an error, not may have been an error.

Plan, Art. II.B.3.q.ii.G.

² It is inaccurate for the City to claim it has “always” acknowledged that the 6.75% could be changed after ten years, seeing as the PFRS outright asked the City’s counsel at the hearing and the City refused to answer the question, instead stating that it was irrelevant and not at issue.

Given that this acknowledged “error” in the Confirmation Opinion has now been repeated and carried through to the Amortization Opinion, the issue of who determines these actuarial assumptions deserves reconsideration. There are now at least three different reads of the Confirmation and the Amortization Opinions:

- (i) the UAAL has to be paid back over a 30-year period, but the assumed rate of return for that 30-year period can be changed by the PFRS after June 30, 2023 (based upon Footnote 23 of the Conf. Op. and the City’s new concession that the alleged 6.75% “finding of fact” by the Court was an error);
- (ii) the UAAL has to be paid back over a 30-year period and with an assumed rate of 6.75% for that entire 30 years (based upon pg. 231 of the Conf. Op. and the Amortization Opinion); or
- (iii) the actuarial assumptions used to calculate the City’s “contribution” amount can be decided by the PFRS after June 30, 2023—both the interest rate and the amortization period (based upon pg. 180 of the Conf. Op., Article G of the Plan, the State Contribution Agreement, and Articles G-5, G-9 and G-17 of the amended Pension Plan).

Only the third interpretation is viable now that the City has admitted that the interest rate can be changed; thus, the Court should revisit its ruling.

Moreover, the City misunderstands the PFRS’s “internal conflict” argument—it is not enough for the City to merely concede that the 6.75% does not continue for 30 years to resolve the internal conflict in the Confirmation Opinion. The point of raising what the City now agrees was an obvious error in the Confirmation Opinion was to demonstrate: (i) the Court was simply *not* referencing the “Plan” in the first place nor did it intend for that portion of its Opinion to have the force and effect of “the Plan,” and (ii) by deeming this erroneous sentence as part

of “the Plan,” it leads to even more inconsistencies supporting three different possible interpretations of the PFRS’s post-2023 governance authority.

Perhaps most importantly, it also undermines the very Financial Projections that the City claims to be controlling. The Financial Projections spread the UAAL repayment over thirty years, and they applied a 6.75% interest rate over that entire thirty-year time period. As the City now admits, that 6.75% was just a placeholder until such time as the interest rate was changed post-2023. *This renders the entire premise of the City’s argument in this case—that the Financial Projections terms were set in stone, could not be changed, and served as the future “Plan”—utterly baseless.* As the PFRS has repeatedly said, and the City now seemingly agrees, the City had to select *some* actuarial assumptions in order to lay out a hypothetical repayment plan, but everyone understood those assumptions were not set in stone post-2023. This is the one (and only) interpretation that actually reconciles why the Confirmation Opinion seemingly says one thing on page 180 but says something different on page 231, and this conflict should be resolved in a revised ruling.

C. The Confirmation Opinion Does Not Require a 30-Year Amortization

Contrary to the City’s Response, the “conflict” issue goes beyond just the 6.75% interest issue. (Dkt. No. 13715, pg. 3). The conflict is that the Court approved—in one part of the Confirmation Opinion—an express term of the Plan that gave the PFRS the right to make certain changes after ten years, but later—in a

different part of the Confirmation Opinion—seemingly takes away that right. Moreover, the Court calls the Financial Projections mere “funding targets” in one part of the Confirmation Opinion but later they somehow get transformed into binding Plan terms, under the Amortization Opinion. Yet the City repeatedly claims “the Confirmation Opinion expressly *requires* 30-year amortization,” which is simply not true. (Response, pg. 6; see also pg. 7-8) (noting Confirmation Opinion’s “requirement of 30-year amortization” and claiming “Exhibit 793 fully supports this Court’s conclusion that the Confirmation Opinion and POA *require* 30-year amortization”) (emphasis added). In the Confirmation Opinion, the Court was careful to distinguish which creditor payments were “required” and definite under the Plan versus which ones were mere “projections”—and the 30-year amortization period was never characterized as “required.” As set forth in the PFRS’s previous papers, after the ten-year injunction against changes expired, actuarial terms could be changed but there was no crystal ball to know what those terms would actually be a decade later, so the City had no choice but to “project” what *might* reasonably happen. When delving into the Financial Projections decade by decade, the Court was careful to make this distinction between “required” payments versus “projected” payments and “targets”:

For the time period **FY2034–FY2043, the City will be *required* to spend \$450.6 million servicing the New B Notes.** Ex. 793 at 5. **The City *projects* that it will also be required to contribute \$938.5 to the GRS and PFRS UAAL, for a total of \$1.3892 billion.** *Id.*

Finally, for the time period FY2044–FY2053, the City will be required to spend only \$68.9 million to fully satisfy the B Notes. *Id.* The City also projects that it will be required to contribute \$628.9 million to complete payment on the pension underfunding, for a total of \$697.8 million in plan obligations. *Id.*

In re City of Detroit, 524 B.R. at 230 (emphasis added). This is in line with the Court’s characterization of the future funding “targets” as the Court called them in its Confirmation Opinion—*i.e.*, the City was “targeting” full repayment in 30 years. Again, this was a mere “target”—not a “requirement.” As the Court explained:

c. Governance and Oversight

As described previously, the parties have agreed to establish investment committees for the PFRS and the GRS as required by the State Contribution Agreement... The parties have further agreed that until June 30, 2023, the boards of trustees of each system will adopt and maintain an investment return assumption and discount rate of 6.75% for purposes of determining the assets and liabilities of the pension systems.

The plan also includes a provision that all parties are enjoined until June 30, 2023 from making any amendment to the terms, conditions and rules of operation of the GRS and the PFRS relating to the calculation of pension benefits, the selection of investment return assumptions, or the contributions to the pension systems.

The City has also set certain targets at which the UAAL for the GRS and the PFRS must be funded. For 2023, the funding targets are 70% for the GRS and 78% for the PFRS. For 2053, in 40 years, the targets are 100% for each. Ex. 723.

In re City of Detroit, 524 B.R. at 180 (emphasis added). The cited exhibit (Ex. 723) was a version of the 40-year Financial Projections. But when referencing these projections, the Court characterized the 30-year repayment period as mere “targets.”

It was not a “requirement” of the Plan. The Court did not deem these as “imperatives” in order to approve the Plan. In fact, quite the opposite—the Court was careful to distinguish between the express Plan terms, as approved on page 180 of the Confirmation Opinion, versus a recitation of the Financial Projections, which were mere “targets.”

D. Footnote 23 Relies On Projections the City Now Admits Were Erroneous

The only other mention of a 30-year amortization is in footnote 23, which does not reference the 6.75% interest rate. However, now that the Financial Projections are admittedly erroneous as it relates to repayment of the UAAL, the second sentence that the City relies upon also ceases to have any import because these terms are admittedly mere “assumptions” subject to change in 2023. Footnote 23 states:

As discussed in part III.F. above, the City obligations to the GRS and the PFRS are fixed under the plan from FY2014-FY2023. During this time, as the City works to stabilize its finances and implement its RRI, the majority of the City’s contributions to the GRS and the PFRS will come from the DWSD, the State Contribution Agreement, and the Grand Bargain Funding. See Ex. 793 at 3. However, after 2023, the City projects the retirement systems will remain somewhat underfunded. *See* 12000 at 133. The balance of the underfunding will be amortized over a thirty year period of time. *Id.*

Exhibit 12000 cited here is the Kopacz Report, not “the Plan.” The Kopacz Report merely quoted the Financial Projections, *which even the City has now admitted were utilizing certain actuarial assumptions that could be changed in the future.*

Kopacz did not independently opine that feasibility hinged on a 30-year amortization

period (in fact, quite the opposite—she actually reiterated her concern, as pointed out the PFRS’s earlier filings, that a 30-year amortization was too lengthy).³ Instead, Kopacz merely recited the City’s Financial Projection—blindly, without confirming it against actual Plan terms—but either way, Kopacz did not say this amortization period was “required” for the Plan to be feasible. All she stated in her Report was that the City “proposes” to pay it back over thirty years. *Id.* “Proposing” to pay something back over thirty years is a far cry from *requiring* a 30-year amortization. Yet, this sentence in Footnote 23 has somehow transformed into “the City *must* pay over 30 years” based on faulty Financial Projections that the City now admits it fully understands were subject to change in material respects come 2023. Thus, this sentence does not aid the City.

E. The Internal Conflict Argument Was Not Waived

The City claims this “internal conflict” argument was waived, but during the hearing on this matter, the PFRS argued that the sentence ten-year injunction that permits plan changes was “directly in conflict with page 231,” which states that the actuarial assumptions “are locked in for 30 years, both the interest rate and contribution rate.” (Hrg. Tr., pg. 39). Regardless, the more nuanced internal conflict issue could not have been waived, as it was not fully ripe until this Court elevated

³ Ex. F. to PFRS Response, Kopacz Supp. Report, Dkt. No. 1364-7, pg. 127 (criticizing the “29-(PFRS) and 30-(GRS) year amortization periods for funding the unfunded pension obligations”).

the sentence on page 231 of the Confirmation Opinion over conflicting statements by the Court on page 180 (in which the Court approved the term permitting the parties to change actuarial assumptions after ten years—not thirty—and in which the Court called the repayment plan set forth in the Financial Projections mere “funding targets”—not a requirement under the Plan).

Moreover, the internal conflict problem arose in part based upon the manner in which the Court analyzed this issue in the Amortization Opinion. As set forth above, the hypothetical repayment plan set forth in the Financial Projections—as described by the Court itself when laying out the terms of the Plan on page 180—were mere “targets.” Yet in the Amortization Opinion, the Court focused on the fact that there were targets laid out over 30 years rather than focusing on the fact that the Court was merely calling them “funding targets” instead of “required amortization periods.” In the Amortization Opinion, the Court stated:

Elsewhere in the Confirmation Opinion, the Court described what it called the “final component of the Grand Bargain,” namely, the “global settlement of pension-related issues, including the treatment of the claims relating to the UAAL of the GRS and the PFRS.”⁴³ In that description, the Court described how the UAAL was to be gradually paid down to zero (*i.e.*, reach 100% funding), *over the 30-year period of 2023 to 2053*:

The City has also set certain targets at which the UAAL for the GRS and the PFRS must be funded. For 2023, the funding targets are 70% for the GRS and 78% for the PFRS. **For 2053, in 40 years, the targets are 100% for each.** Ex. 723.⁴⁴

(Amortization Opinion, pg. 16) (footnote 43 and 44 are references to pg. 179 and 180, respectively, of the Conf. Op.). The Court’s quotation of this paragraph, only—in a vacuum—while ignoring the directly preceding paragraph in the Confirmation, highlights the internal inconsistency in the Confirmation Opinion. The paragraph directly preceding the one quoted above acknowledged and approved the injunction against changes to repayment terms for the City’s contributions for the first ten years, after which changes could be implemented post-2023:

The plan also includes a provision that all parties are enjoined until June 30, 2023 from making any amendment to the terms, conditions and rules or operation of the GRS and the PFRS relating to the calculation of pension benefits, the selection of investment return assumptions, or the contributions to the pension systems.

Id. at 180. When the two paragraphs are together, the internal conflict is even more obvious, because if the “funding targets” were actually supposed to be pre-ordained and *required* 30-year amortization periods as the City urges, then these two paragraphs are in direct conflict.

When read in conjunction with the paragraph outlining Article G’s ten-year pause from making any changes, the paragraph cited by the Court in the Amortization Opinion—which merely cites to the Financial Projections regarding the City’s “hope” and “intent” to have the PFRS fully funded by a “target” date of 2053 makes sense. In the paragraph directly above, the Court was citing the “Plan” terms and in the next paragraph (the one cited by this Court in its Amortization

Opinion), the Court was merely reiterating the City’s “funding targets” based upon its Financial Projections. The original Confirmation Opinion was careful to note the distinction between the two—the first paragraph on page 180 was a recitation of the actual “Plan” and the next paragraph on page 180 was a recitation of a “funding target” from a Financial Projection. There was no indication in this portion of the Confirmation Opinion that the Court intended for these “funding targets” or Financial Projections to overtake the express terms of the Plan itself.

F. The Disclosure Statement Is Also Internally Inconsistent

The City claims the Disclosure Statement incorporating the Financial Projections, which were in a constant state of flux and expressly cautioned as “subject to change”—should somehow be relied upon as “crystal clear” evidence (Response, pg. 4) that the UAAL would be amortized over 30 years. This is rich, seeing as that exact same Disclosure Statement openly criticized the use of a 29- and 30-year amortization periods and deemed them an “unrealistic assumption” previously used by Retirement Systems that led to “misleading” UAAL figures because the lengthy amortization periods of 29- and 30-years were inappropriate actuarial assumptions that “served to understate substantially the Retirement Systems’ UAAL” and “allow[ed] unfunded liabilities to continue to grow rapidly as a result of compounding.” (Fourth Am. Disc. Stmt., Dkt. No. 4391, Page 120 of 197). The City can hardly claim with a straight face that this Disclosure Statement

made it “crystal clear” that the City intended to use an amortization period that the City *itself* deemed in that same exact document to be an “unrealistic” actuarial assumption that led to “misleading” UAAL figures in the first place.

G. The City Has Now Publicly Admitted the Ten-Year Injunction Has Expired and Changes Can Be Made—Even to Express Terms in the Plan

In its original Response Brief and Sur-Reply, the PFRS argued that the Plan allowed for changes to be made after the first ten years. (Response, pg. 16-17, Sur-Reply, pg. 7-11). The PFRS reiterated this argument at oral argument.⁴ Yet to date, the City has never formulated a substantive response as to why Article G of the Plan does not control the amortization issue (nor has the Court addressed this argument)—but it now appears it is because the City knows full well that the PFRS can make changes starting on June 30, 2023, when the Plan-imposed injunction expires. In fact, the City itself has even recently gone on record that it, too, intends to make changes now that the “shackles” of the ten-year injunction are behind it.

⁴⁴ See Hrg. Tr. 3/15/23 at pg. 46-49 (“for 10 years, there was a period of time where the board did not make that decision [amortization]... under (2)(b)(3)(q)(2)(g)... that expired at the end of the 10 years. And at that point in time, then the PFRS was once again permitted to change the 6.75% interest rate, as well as any employer contribution. And that particular section... even states that the PFRS can change the terms, conditions, and rules of operation of the PFRS. So the only intervening period of time where the PFRS was ever unable to determine the amortization period was during the pension holiday... the plan of adjustment... does all tie out because the plan of adjustment states that for the first ten years the funding for the pension comes from the grand bargain. At the expiration of that 10 years, the board has authority to go outside of the plan of adjustment. The plan of adjustment no longer controls all of these issues . . . look at Article G of the plan of adjustment itself, that at the end of the 10 years this decision would be decided by the board... The 6.75% percent, which is the interest rate, that’s another item that at the end of the 10 years reverts back to the board as a decision. And that is explicit in Article G of the plan of adjustment, the one that ties all of the board’s authority to the ten-year pension holiday”).

Just days after the PFRS filed its Motion for Reconsideration, the City publicly announced that it was considering reinstating the so-called “13th check” program, a pension benefit that had been outright banned under the Plan. During the bankruptcy, the so-called “13th Check Program”—which was where the Retirement Systems paid an additional check at the end of the year—was highly criticized by the City and its experts. The City blamed the “13th Check Program” as one of the leading causes of pension underfunding and outlawed the practice as part of the bankruptcy. (Fourth Am. Disc. Stmt., Dkt. No. 4391, pg. 121 of 197) (“Past Pension Practices. The Retirement Systems’ trustees and certain City officials also have engaged in a variety of practices that exacerbated and, in certain cases, masked the extent of the Retirement Systems’ UAAL... in years in which the actual investment return exceeded the assumed rate of return, the GRS Trustees paid out a portion of the excess to already retired pensioners. Referred to as the “13th check” program... these payments were made in excess of the pensioner’s earned pension and to the detriment of the Retirement Systems... the total cost to the City of the GRS practices of distributing pension-fund earnings over assumed rates of return to retirees and active employees – whether by direct payment via a “13th check” or through excess contributions to employees’ Annuity Savings Plan accounts – as of June 30, 2008, was \$1.92 billion”).

As a result, the Plan of Adjustment expressly forbid any 13th checks from being paid: “The Retirement System ... shall not make any payment ... other than payments that are required by the governing documents of the Retirement System. This prohibition applies to all payments that are not authorized by this Combined Plan, whether such payments are those commonly referred to as a “thirteenth check” or by any other name.” (Eighth Am. Plan of Adj., New Pension Plan Section 1.16(2); see also Art. 13.1(3) (same) and Art. 14.1(3) (same).

Yet the City has now gone to the media touting its plan of reinstate both the 13th check program and the cost-of-living increases that were stripped as a result of the bankruptcy. As the City now openly admits, even the 13th Check Program—a program expressly prohibited by the Plan itself—can be changed because the “shackles” of the ten-year period are off. This admission lines up with the Mayor’s prior public pronouncements on the amortization issue quoted in the PFRS’s original Response—that he is frustrated that the *City* does not have the power to decide the amortization issue—and is also consistent with the PFRS’s interpretation of Article G of the Plan. The Mayor recently gave the following interview:

When the city’s bankruptcy shackles come off next year, Mayor Mike Duggan would like to sweeten pension benefits for Detroit retirees and current employees. Duggan told The Detroit News this week he wants to restore a 13th pension check for retirees of Detroit’s General Retirement System and increase the cost-of-living allowances for retired police officers and firefighters—benefits that were slashed in the city’s bankruptcy a decade ago. The extra monthly pension check was

historically sent to pensioners in December each year. The mayor said the next budget proposal, due out in February, will attempt to restore some of what retired city workers lost in Detroit's historic bankruptcy... "There are two things we're looking at: the pension benefits for our active employees are not competitive enough in the market I'd like to see us make some improvements in those[.]" . . . He's also interested in adding a 13th pension check at the end of 2024 when the city's 2014 exit plan allows Detroit to negotiate changes to retirement benefits with its two pension funds . . . "How those things might be structured and how it might work, I don't know yet but we'll figure it out . . . I think some type of enhancement in terms of a 13th check is fair . . . I'm hopeful that the budget we propose in February will have a 13th check in it."

(Ex. A, Detroit Free Press Article, dated July 14, 2023). This is a party admission under Fed. R. Evid. 801(d) and is therefore admissible evidence.⁵

To be clear, the PFRS is not critical of the Mayor's plans to the extent these changes will assist its members and facilitate restoration of benefits that were lost as a result of the bankruptcy (assuming, of course, these changes do not exacerbate underfunding concerns). The point of raising these plans by the City is because these admissions (which were not available until July 14—four days after the PFRS filed its Motion for Reconsideration) once again support what the PFRS has maintained

⁵ This admission by the Mayor is admissible evidence. *Greene v. Scott*, 637 F. App'x 749, 752 (4th Cir. 2016) (finding Mayor's statements in newspaper article were non hearsay statement by a party-opponent under Fed. R. Evid. 801(d)(2)); *McCowan v. City of Philadelphia*, 603 F.Supp.3d 171, 182 (E.D.Pa., 2022) ("Because the press release was published directly by the Office of the Mayor and is being offered against the City, it falls under Rule 801(d)(2)'s exclusion for statements 'made by the [opposing] party's agent or employee on a matter within the scope of that relationship.'"); *Wilburn v. Robinson*, 480 F.3d 1140, 1148 (D.C. Cir. 2007) (finding deputy mayor's statement was an admission by a party opponent—the District—and therefore, admissible under Rule 801(d)(2)(D)).

all along: everyone knew that under Article G of the Plan of Adjustment, certain go-forward terms were going to have to be reset at the end of the ten years—and as the Mayor now apparently admits, even those terms that were expressly *forbidden* under the Plan, such as the 13th Check Program and COLA increases, could be reinstated.⁶ It appears the motive behind the City seeking to extend the amortization period to 30-years is control, pure and simple, because the inability to pay a higher amount under a 20-year amortization period is clearly not the issue seeing as the City is now proposing adding budget items to cover new, *enhanced* benefit payments.

Thus, the City *agrees* with the PFRS’s position—that even terms that were written in stone for the first ten years are now open to change—the assumed rate of return, contribution amounts, amortization periods, and pension benefit payments such as the 13th check and COLA. This new evidence—particularly when coupled with the City’s recent admission that the 6.75% interest rate can be changed at the ten-year mark—supports the PFRS’s request that the Court reconsider its prior ruling, as submission of new evidence is grounds for such a motion.

H. The Michigan Case Law Argument Was Not Waived; It Was Raised But Not Ruled Upon.

This case was cited by the PFRS, *PFRS v. City of Detroit*, 270 Mich. App. 74,

⁶ These changes—reinstatement of the 13th check and returning COLA increases—are directly contrary to the express provisions of the Plan and the Confirmation Opinion. See *In re City of Detroit*, 524 B.R. at 179 (noting for PFRS pension claims, the “annual cost of living adjustment (‘COLA’) will be reduced to 45% of the amount provided in pre-petition [CBAs]” and for GRS, “COLAs will be eliminated”); see also Pension Plan Section 1.16, Art. 13.1 and Art. 14.1.

81 n. 3-4 (2006), *leave denied*, 477 Mich. 892 (2006), was not waived. (See Sur-Reply, pg. 8-11, see also pg. 8, n. 4; Hrg. Tr., pg. 38). The Court, however, did not address this argument in its Amortization Opinion, so the PFRS's reconsideration request is proper. *Davie*, 291 F. Supp. 2d at 634 (noting motion for reconsideration is properly brought if it calls "attention to an argument or controlling authority that was overlooked or disregarded in the original ruling"). The City's only other real attack on the *PFRS* case is that the PFRS did not "identify, attach, or quote this purported language" that it claims was interpreted favorably by the Michigan Court of Appeals. This is not true. In its Motion, the PFRS quoted the salient provisions of the newly amended Pension Plan and explained that the two provisions interpreted in the *PFRS* case were Articles G-17 and G-5, both of which the PFRS quoted at length (Article G-5 on pg. 6-7 and Article G-17 on pg. 9). The PFRS also provided the pinpoint cite for the two former pension plan provisions, which were quoted by Michigan court in the *PFRS* case. (See Motion, pg. 22) (quoting *PFRS*, 270 Mich. App. at 81 n. 3-4). While the City claims the language between the pre- and post-bankruptcy pension plan provisions could not possibly be the same, this is not the precise argument the PFRS set forth. The PFRS made a slightly more nuanced argument, which was that the parties chose to "reincorporate the same exact language" with the "only difference in those sections" being the "carve-out of the ten-year period where the PFRS was enjoined from deciding amortization for that

time period.” *Id.* Regardless, for the sake of convenience, the PFRS will quote the two provisions side by side to demonstrate that but for the carve-out for the ten-year injunction period under the Plan of Adjustment when the PFRS could not change the actuarial terms or change the City’s contribution amount because it was being paid by third parties, the two provisions that the Michigan Court of Appeals interpreted to mean the PFRS was in control of the amortization period decision are the same:

Former Pension Plan Terms	Amended Pension Plan Post-Bankruptcy
<p>“The board of trustees shall annually ascertain and report to the mayor and the council the amount of contributions due the retirement system by the city, and the city council shall appropriate and the city shall pay such contributions to the retirement system during the ensuing fiscal year[.]”</p> <p>Source: <i>PFRS</i>, 270 Mich. App. at 81 n. 3 (quoting Detroit City Code, § 54–43–4(b))</p>	<p><u>“Subject to the Plan of Adjustment, for Fiscal Years commencing prior to July 1, 2014, and on or after July 1, 2023,</u> the Board of Trustees annually ascertained and reported to the Mayor and the Council the amount of contributions due the Retirement System by the City, and the Council shall appropriate and the City shall pay such contributions to the Retirement System during the ensuing Fiscal Year.”</p> <p>Source: Pension Plan Art. G-5 (emphasis added to reflect addition of ten-year carve-out for pension holiday and Plan injunction)</p>
<p>Based upon the provisions of this ordinance, including any amendments, the Board of Trustees shall compute the City's annual contributions, expressed as a percent of active member compensation, to the retirement system for the fiscal year beginning July 1, 1975, using actuarial evaluation data as of June 30, 1974, and for each subsequent fiscal year using actuarial evaluation data as of the June 30 date which is a year and a day before the first day of such fiscal year. The Board shall report to the Mayor and to the city council the contribution percents so computed and such contribution percent shall be used in determining the</p>	<p>Based upon the provisions of this Article, including any amendments, the Board of Trustees shall compute the City’s annual contributions <u>for Fiscal Years commencing prior to July 1, 2014 and after June 30, 2023,</u> expressed as a percent of active Member compensation, to the Retirement System for the Fiscal Year beginning July 1, 1975, using actuarial valuation data as of June 30, 1974, and for each subsequent Fiscal Year <u>prior to July 1, 2014 and after June 30, 2023,</u> using actuarial valuation data as of the June 30th date which date is a year and a day before the first day of such Fiscal Year. ---	--

Once this case is considered by the Court, the inescapable conclusion is that it was the PFRS’s sole discretion to decide amortization prior to the bankruptcy and far from this being “changed” in the bankruptcy, the parties actually re-incorporated the same language into the revised Pension Plan—the only difference being that this PFRS was prohibited from making this decision until after the ten-year period under the Plan of Adjustment expired on June 30, 2023.

II. CONCLUSION

For the reasons stated above, the PFRS respectfully requests the Court reconsider its prior ruling.

Respectfully submitted,

UNITED STATES BANKRUPTCY COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION

IN RE:

Case No. 13-53846

CITY OF DETROIT, MICHIGAN,

Chapter 9

Debtor.

Judge Thomas J. Tucker

**ORDER: (1) GRANTING THE MOTION BY THE POLICE AND FIRE RETIREMENT
SYSTEM FOR LEAVE TO FILE A REPLY (DOCKET # 13723); AND (2) DENYING
THE MOTION BY THE POLICE AND FIRE RETIREMENT SYSTEM FOR
RECONSIDERATION, AND TO ALTER OR AMEND
THE COURT'S JUNE 26, 2023 ORDER (DOCKET # 13707)**

This case is before the Court on the motion filed by The Police and Fire Retirement System of the City of Detroit (the "PFRS") (Docket # 13707, the "PFRS Motion"), entitled "The Police and Fire Retirement System's Motion to Alter or Amend Pursuant to Federal Rule of Bankruptcy Procedure 9023, and Pursuant to Local Rule 9024-1 for Reconsideration of, the Court's Order Granting The City of Detroit's Motion to Enforce Plan of Adjustment Against the Police and Fire Retirement System Pension Plan (Docket # 13602)." The PFRS Motion seeks reconsideration of, and relief from, the Court's June 26, 2023 Order entitled "Order Granting the City of Detroit's Motion to Enforce Plan of Adjustment Against the Police and Fire Retirement System Pension Plan (Docket # 13602)" (Docket # 13706).

The Court ordered the City of Detroit to file a response to the PFRS Motion, and the City did so, on August 10, 2023 (Docket # 13715, the "City Response"). On August 24, 2023, the PFRS filed a motion seeking leave to file a reply to the City Response (Docket # 13723, the "PFRS Motion for Leave").

Today the Court has filed a written opinion regarding the PFRS Motion and the PFRS Motion for Leave. (Docket # 13831). For the reasons stated by the Court in the written opinion filed today, the Court enters this Order.

IT IS ORDERED that:

1. The PFRS Motion for Leave (Docket # 13723) is granted, and the reply brief attached as Exhibit 7 to the PFRS Motion for Leave is deemed filed.
2. The PFRS Motion (Docket # 13707) is denied.

Signed on November 22, 2023

/s/ Thomas J. Tucker
