A portion of the Portfolio Collateral may have fixed interest rates that remain constant until a specified date or their maturity, and a portion of the Portfolio Collateral will bear interest based on a fixed margin over a reference rate, which margin will generally remain constant until the maturity of such Portfolio Collateral. Accordingly, the market value of the fixed rate Portfolio Collateral will generally decrease as market rates of interest increase. The market value of such Portfolio Collateral will also generally fluctuate with, among other things, general economic conditions, world political events, developments or trends in any particular industry, the conditions of financial markets and the financial condition, results of operations and prospects of the Portfolio Collateral issuers. The Issuer will be relying on Rule 3a-7 and/or Section 3(c)(7) of the U.S. Investment Company Act of 1940, as amended (the "**Investment Company Act**") for its exemption from the Investment Company Act. The Rule 3a-7 exemption restricts the Issuer from disposing of any item of Defaulted Portfolio Collateral, Equity Portfolio Collateral, Credit Risk Portfolio Collateral or Credit Improved Portfolio Collateral or acquiring any item of Portfolio Collateral for the primary purpose of recognizing gains or decreasing losses resulting from market value changes. These restrictions mean that the Issuer may be required to hold an item of Portfolio Collateral or precluded from acquiring an item of Portfolio Collateral when it would have sold such item of Portfolio Collateral or acquired such item of Portfolio Collateral, as applicable, had it based such determination on expected market value changes. As a result, greater losses on the Portfolio Collateral may be sustained and there may be insufficient proceeds on any Payment Date to pay in full any expenses of the Issuer or any amounts payable to the Trustee or the Administrator (all of which

amounts are payable prior to payments in respect of the Notes) and the principal of and interest on the Notes. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

8. Sale of Collateral Upon Default of the Notes. The market value of the Portfolio Collateral will generally fluctuate with, among other things, general economic conditions, world political events, developments or trends in any particular industry, the conditions of financial markets and the financial condition of the issuers of the Portfolio Collateral. In addition, CLO Securities included in the Portfolio Collateral, which will comprise no more than 35% of the Aggregate Principal Amount of the Portfolio Collateral included in the Trust Estate, may have interest rates that remain constant until their maturity. Accordingly, their market value will generally fluctuate with changes in market rates of interest. Therefore, if an Event of Default occurs with respect to the Notes, there can be no assurance that the proceeds of any sale by the Trustee of the Portfolio Collateral and the other collateral securing the Notes will be sufficient to pay in full the principal of and interest on the Notes and any amounts payable to the Trustee. However, certain conditions set forth in the Indenture must be satisfied before the Trustee is permitted to sell the Portfolio Collateral and other collateral pledged as security for the Notes following an Event of Default. See "Legal Structure—The Indenture—Events of Default."

9. Restrictions on Transfer. The Notes have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or under any U.S. state securities or "Blue Sky" laws or the securities laws of any other jurisdiction and are being issued and sold in reliance upon exemptions from registration provided by such laws. There is no market for the Notes being offered hereby and, as a result, a purchaser must be prepared to hold the Notes for an indefinite period of time or until the maturity thereof. No Note may be sold or transferred unless such sale or transfer (i) is exempt from the registration requirements of the Securities Act (for example, in reliance on exemptions provided by Rule 144A or Regulation S under the Securities Act) and applicable state securities laws, (ii) will not constitute or result in a non-exempt "prohibited transaction" under ERISA or Section 4975 of the Code and (iii) does not cause either of the Co-Issuers to become subject to the registration requirements of the Investment Company Act. In addition, the Class B-1L Notes may not be sold or transferred to any Plan or to any person acting on behalf of or with "plan assets" of any such Plan, including an insurance company general account, unless the purchaser or transferee is eligible for the exemptive relief available under PTCE 96-23, 95-60, 91-38, 90-1 or 84-14. Prospective transferees of the Notes will be required pursuant to the terms of the Indenture to deliver a certificate to the Trustee and the Co-Issuers relating to compliance with the Securities Act, applicable state securities laws, ERISA, Section 4975 of the Code and the Investment Company Act. The Co-Issuers will not provide registration rights to any purchaser of the Notes and neither of the Co-Issuers, the Trustee, nor any other person may register the Notes under the Securities Act or any state securities or "Blue Sky" laws nor may the Co-Issuers or the Trustee take such action with respect to the Portfolio Collateral. See "Description of the Notes—General." The Notes will be owned by a relatively small number of investors and it is highly unlikely that an active secondary market for the Notes will develop. Purchasers of the Notes may find it difficult or uneconomic to liquidate their investment at any particular time.

The Issuer has not registered as an investment company under the Investment Company Act in reliance on the exception provided under Rule 3a-7 and/or Section 3(c)(7) thereof. While counsel will opine in connection with the sale of the Notes to the Initial Purchaser that neither the Issuer nor the Co-Issuer is on the Closing Date required to register as an investment company (assuming the Notes are sold to the Initial Purchaser in accordance with the terms of the Purchase Agreement (as defined herein) and that the Servicer services the Portfolio Collateral and other assets of the Issuer in accordance with the terms of the Servicing Agreement (as defined herein)), no opinion or no-action position has been requested of the United States Securities and Exchange Commission (the "**SEC**"). If the SEC or a court of competent jurisdiction were to find that the Issuer or the Co-Issuer is required to register as an investment company, possible consequences include, but are not limited to, the SEC applying to enjoin the violation, investors suing the Issuer or the Co-Issuer, as applicable, to recover any damages caused by the violation and any contract to which the Issuer or the Co-Issuer, as applicable, is a party made in violation or whose performance involves a violation of the Investment Company Act being unenforceable unless enforcing such contract would produce a more equitable result. Should the Issuer or the Co-Issuer be subjected to any or all of the foregoing or to any other consequences, the Issuer or the Co-Issuer, as the case may be, would be materially and adversely affected.

Each transferee of a Note (except with respect to a transfer pursuant to Regulation S under the Securities Act) will be deemed to make certain representations at the time of transfer relating to compliance with Section 3(c)(7) of the Investment Company Act. See "Delivery of the Notes; Transfer Restrictions; Settlement."

The Indenture will provide that if, notwithstanding the restrictions on transfer contained therein, the Issuer determines any beneficial owner or Holder of a Note (other than a Note transferred in reliance on Regulation S of the Securities Act) is not a Qualified Institutional Buyer and a Qualified Purchaser, the Issuer will require that such beneficial owner or Holder sell all of its right, title and interest in such Note to a person who is so qualified, with such sale to be effected within 30 days after notice of such sale requirement is given. If such sale is not effected within such 30 days, upon written direction from the Issuer, the Trustee (or an investment banker selected by the Trustee and approved by the Issuer) will be authorized to conduct a commercially reasonable sale of such Note to a person who does so qualify and pending transfer, no further payments will be made in respect of such Note or any beneficial interest therein.

10. Final Maturity Date; Average Life and Prepayment Considerations; Redemption. The Final Maturity Date of each Class of Notes (other than the Class X Notes) will be the Payment Date occurring in August 1, 2021 and the Final Maturity Date of the Class X Notes will be the Payment Date occurring in August 1, 2013; *provided that*, the Final Maturity Dates of the Notes (other than the Class X Notes) are extendable upon a Maturity Extension (if any) as described herein, in which case the Final Maturity Date of such Notes will be extended to the applicable Extended Final Maturity Date. See "Description of the Notes—Extension of the Revolving Period and the Final Maturity Date". The average life of each Class of Notes is expected to be shorter than the number of years until the Final Maturity Date, and the average lives may vary due to various factors affecting the early retirement of the Portfolio Collateral and the ability of the Servicer to invest collections in Additional Portfolio Collateral or reinvest disposition proceeds in Substitute Portfolio Collateral. Retirement of an item of Portfolio Collateral prior to that item of Portfolio Collateral's respective final maturity will depend, among other things, on the financial condition of the issuer and the characteristics of the underlying item of Portfolio Collateral, including the existence and frequency of exercise of any prepayment or redemption features, the prevailing level of interest rates, the prepayment or redemption price and the actual default rate and the actual amount collected on any Defaulted Portfolio Collateral. See "Maturity and Prepayment Considerations" and "Security for the Notes—Changes in Composition of Portfolio Collateral." The ability of the Issuer to reinvest proceeds in securities with comparable interest rates, with final maturity dates on or before the Calculation Date prior to the Final Maturity Date and otherwise satisfying the criteria specified herein may affect the timing and amount of payments received by the Noteholders and the yield to maturity of the Notes. If the Issuer is unable to reinvest more than U.S.\$2,000,000 of collections of principal in Additional Portfolio Collateral selected by the Servicer meeting the criteria described herein for ninety days after receipt, the Servicer may direct the Trustee to apply such amounts to pay principal of the Notes (other than the Class X Notes) in a Special Redemption. Any such application will affect the timing and amount of payments received by the Noteholders and the average life and yield to maturity of the Notes.

As described herein, the Notes are subject to a Tax Event Redemption on any Payment Date, at the option of the Issuer acting at the direction of at least a Majority of the Preferred Shares or a majority of the Controlling Class (but only if the Aggregate Principal Balance of Portfolio Collateral is less than 100% of the Class A-1L Notes), if as a result of a change in tax law, rule or regulation or the interpretation thereof, the payments to be received on the Portfolio Collateral are reduced as a result thereof as described herein.

As described herein, the Notes will be subject to an Optional Redemption, at the option of the Issuer acting at the direction of the Holders of the requisite amount of the Preferred Shares eligible to vote for any such redemption (See "Description of the Notes—Optional Redemption"), on any Optional Redemption Date, at a price equal to the Optional Redemption Price.

As described herein, at any time that the Notes are Outstanding, if any Overcollateralization Test or, after the second Payment Date, the Interest Coverage Test is not satisfied on any Payment Date, amounts that are junior in right of payment to such test as described under "Description of the Notes—Payments on the Notes; Priority of Distributions", will be applied to the redemption of the Class A Notes and the Class B-1L Notes (or, in the case of the Class B-1L Notes, first to pay accrued and unpaid interest from prior Payment Dates, then to pay principal) in an O/C Redemption on each such Payment Date, in the order described under "Description of the Notes—Payments on the Notes; Priority of Distributions," to the extent necessary to satisfy both the Overcollateralization Tests and the Interest Coverage Test. Further, if following the Effective Date, the Issuer is not able to receive a Rating Confirmation, amounts that are junior in right of payment to such redemption as described herein, will be applied to the redemption of the Notes until the earlier of the Ratings Confirmation being received or each such Class being

paid in full, in the order and according to the priorities described herein. The Class X Notes are not subject to redemption in connection with an O/C Redemption, but are subject to Rating Confirmation Failure Redemption.

The Class B-1L Notes may be retired early as a result of principal payments made to the Class B-1L Notes in connection with the Additional Collateral Deposit Requirement.

As described herein, if the Issuer or the Servicer is unable to use (or commit) the full amount of the Deposit to purchase Original Portfolio Collateral having an Aggregate Principal Amount (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) at least equal to the Required Portfolio Collateral Amount and meeting the specified requirements no later than the Effective Date, an amount (not in excess of the amount of the Deposit not so used or committed for use) equal to the difference between the Required Portfolio Collateral Amount and the par amount of Portfolio Collateral actually acquired (or committed to be acquired) (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) shall be used to make principal payments of the Class A-1LA Notes and the Class X Notes, on a *pro rata* basis, on the Initial Deposit Redemption Date except, if the amount of the Deposit not so used (or committed to be used) does not exceed U.S.\$2,000,000 in the aggregate, such amount will be transferred to the Collection Account on the Effective Date.

11. Maturity Extension Risk. Under the Indenture, the Issuer, at the direction of the Servicer, shall be entitled on each Extension Effective Date, to extend the Revolving Period to the applicable Extended Revolving Period End Date up to a maximum of four times (so that the Notes can only be extended to 2037) if (i) in the case of an Extension Effective Date occurring after the first Extension Effective Date, the Issuer has previously affected a Maturity Extension for each preceding Extension Effective Date, (ii) the Extension Conditions are satisfied and (iii) the Issuer has given written notice of its election to extend the Revolving Period no later than 60 days and no earlier than 90 days prior to such Extension Effective Date. Under the Indenture, if the Revolving Period is so extended, the Final Maturity Date of the Notes (other than the Class X Notes) will be equally extended and the Weighted Average Life Test shall be extended without the requirement for any approval or consent of any Holders of Notes or Preferred Shares; *provided* that if the Extension Conditions are not satisfied because the Holders of the Class A-1LA Notes have failed to deliver an Extension Sale Notice or have failed to provide their written consent to the related Maturity Extension, then the Servicer may exceed seven Business Days after the then proposed Extension Effective Date) if the Servicer shall cause the Extension Conditions set forth in clause (iv) of such definition to be satisfied as of such later date. Holders of the Notes will not be able to prevent or prohibit the extension of the Final Maturity Date so long as the Extension Conditions are satisfied, which include the ability of Holders of such Notes to sell their Notes at the designated purchase price to a designated purchaser under the Indenture. In the case of the Preferred Shares and any Maturity Extension, Holders of Preferred Shares that have received an Internal Rate of Return equal to or in excess of 12.0% as of the Extension Effective Date will not receive any payment in exchange for their Preferred Shares sold in connection with a Maturity Extension. See "Description of the Notes—Extension of the Revolving Period and the Final Maturity Date." As a consequence, if the Servicer elects to extend the Revolving Period and the Extension Conditions are satisfied, the Holders of the Notes (other than the Class X Notes) and the Preferred Shares may either be required to hold their Notes and Preferred Shares for a significantly longer period of time or be forced to sell their Notes and Preferred Shares for the applicable purchase price under the Indenture, resulting in a shorter holding period than expected at the time of investment in the Notes and Preferred Shares.

12. Amendment Buy-Out Risk. Any Non-Consenting Holder of Notes or Preferred Shares with respect to an amendment of the Indenture (which includes Holders that fail to respond to a consent solicitation within the applicable period) may be forced to sell their applicable Notes or Preferred Shares to the Amendment Buy-Out Purchaser at the Amendment Buy-Out Purchase Price, resulting in a shorter holding period than expected at the time of investment in the Notes or Preferred Shares; *provided* that during the Non-Call Period, "Non-Consenting Holder" shall exclude any Holder of Class A-1LA Notes (unless such Holder has consented in writing to be designated as a Non-Consenting Holder) and the Amendment Buy-Out Option shall not be applicable to such Class A-1LA Notes. In the case of the Preferred Shares, the Indenture provides that the Amendment Buy-Out Purchase Price will be zero

for Non-Consenting Holders that have received an Internal Rate of Return equal to or in excess of 12.0% as of the Amendment Buy-Out Date. See "Legal Structure—The Indenture; Amendment Buy-Out." A Holder's ability to vote against an amendment or affect or influence the amendment process with respect to the Indenture will be limited by the possibility of an Amendment Buy-Out. The Amendment Buy-Out will also increase the ability of the Servicer to affect or influence the amendment process.

13. Interest Rate Risk. The Notes generally will bear interest at a rate based on three-month LIBOR, as described herein. While most of the Portfolio Collateral will bear interest at floating rates, up to 5% of the Portfolio Collateral may bear interest at fixed rates. Further, the obligors under the Portfolio Loans which are Floating Rate Collateral may choose different interest indices than the London interbank rate for three-month U.S. dollar deposits or the interest rates on the Floating Rate Collateral may be determined or adjustments may take effect on different dates than is the case for the Notes. Additionally, interest on the Notes is payable quarterly on each Payment Date while a portion of the Portfolio Collateral may provide for semiannual payments of interest. Any such mismatches may adversely affect the Issuer's ability to pay amounts due in respect of the Notes.

14. The Issuer. The Issuer is a recently formed entity and has no significant prior operating history. The Issuer has no significant assets other than the Trust Estate. The Issuer will not engage in any business activity other than the co-issuance of the Notes and the issuance of the Preferred Shares and the ordinary shares as described herein, the acquisition and disposition of Portfolio Collateral as described herein, certain activities conducted in connection with the payment of amounts in respect of the Notes and the Preferred Shares and the management of the collateral and other activities incidental to the foregoing. Income derived from the collateral will be the Issuer's principal source of cash. The Issuer is a limited liability company incorporated under the laws of the Cayman Islands. Because the Issuer is a Cayman Islands company and some of its directors reside in the Cayman Islands, it may not be possible for investors to effect service of process within the United States on such persons or to enforce against them or against the Issuer in United States courts judgments predicated upon the civil liability provisions of the United States securities laws. None of the directors, security holders, members, officers or incorporators of the Co-Issuers, the Servicer, any of their respective affiliates or any other person or entity (other than the Issuer) will be obligated to make payments on the Notes or the Preferred Shares.

15. The Co-Issuer. The Co-Issuer is a newly-formed entity and has no prior operating history. The Co-Issuer has no substantial assets. The Co-Issuer will not engage in any business activity other than the co-issuance of the Class X Notes, the Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class A-4L Notes and the Class B-1L Notes.

16. Fraudulent Conveyance Considerations. Various federal and state laws enacted for the protection of creditors may apply to the Portfolio Collateral by virtue of the Issuer's role as a creditor with respect to such Portfolio Collateral. If a court in a lawsuit brought by an unpaid creditor or representative of creditors of an obligor under an item of Portfolio Collateral, such as a trustee in bankruptcy or the obligor as debtor-in-possession, were to find that the obligor did not receive fair consideration or reasonably equivalent value for incurring indebtedness evidenced by an item of Portfolio Collateral and the grant of any security interest or other lien securing such Portfolio Collateral, and, after giving effect to the incurring of such indebtedness, the obligor (i) was insolvent, (ii) was engaged in a business for which the assets remaining in such obligor constituted unreasonably small capital, or (iii) intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature, such court could invalidate, in whole or in part, such indebtedness and such security interest or other lien as fraudulent conveyances, subordinate such indebtedness to existing or future creditors of the obligor or recover amounts previously paid by the obligor (including to the Issuer) in satisfaction of such indebtedness or proceeds of such security interest or other lien previously applied in satisfaction of such indebtedness. In addition, in the event of the insolvency of an issuer or other obligor of an item of Portfolio Collateral, payments made on the Portfolio Collateral could be subject to avoidance as a "preference" if made within a certain period of time (which may be as long as one year) before insolvency depending on a number of factors, including the amount of equity of the obligor owned by the Issuer and its affiliates and any contractual arrangements between the obligor, on the one hand, and the Issuer and its affiliates, on the other hand. The measure of insolvency for purposes of the foregoing will vary depending on the law of the jurisdiction which is being applied. Generally, however, an obligor would be considered insolvent at a particular time if the sum of its debts was greater than all of its property at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities on its

existing debts as they became absolute and matured. There can be no assurance as to what standard a court would apply in order to determine whether an obligor was insolvent after giving effect to the incurrence of the loan or that, regardless of the method of evaluation, a court would not determine that the obligor was "insolvent" upon giving effect to such incurrence.

In general, if payments on Portfolio Collateral are avoidable, whether as fraudulent conveyances or preferences, such payments can be recaptured either from the initial recipient (such as the Issuer) or from subsequent transferees of such payments, including Holders of the Notes.

17. Lender Liability Considerations. In recent years, a number of judicial decisions in the United States have upheld the right of borrowers to sue lending institutions on the basis of various evolving legal theories, including equitable subordination (collectively termed "**lender liability**"). Generally, lender liability is founded upon the premise that the institutional lender has violated a duty (whether implied or contractual) of good faith and fair dealing owed to the borrower or has assumed a degree of control over the borrower resulting in the creation of a fiduciary duty owed to the borrower. Although the Issuer is not engaged in the business of lending, the Issuer, as a creditor, may be subject to allegations of lender liability. Furthermore, the Issuer and the Servicer may be unable to control the conduct of the lenders under a loan syndication agreement requiring less than a unanimous vote, yet the Issuer may be subject to lender liability for such conduct.

18. Environmental Risks. Real property pledged as security with respect to an item of Portfolio Collateral may be subject to potential environmental risks. Of particular concern may be those mortgaged properties which are, or have been, the site of manufacturing, industrial or disposal activity. Such environmental risks may give rise to a diminution in the value of property securing any item of Portfolio Collateral or liability for cleanup costs or other remedial actions, which liability could exceed the value of such property or the principal balance of the related item of Portfolio Collateral. In certain circumstances, a lender may choose not to foreclose on contaminated property rather than risk incurring liability for remedial actions.

19. Potential Conflicts of Interest. It is expected that Highland Financial Partners, L.P. or an affiliate or subsidiary thereof ("**HFP**") will purchase approximately 45,000,000 of the Class II Preferred Shares of the Issuer on the Closing Date, representing approximately 58% of the total Preferred Shares outstanding (the "**Original HFP Share Amount**"). It is also expected that Highland will purchase approximately 10,000,000 of the preferred shares of Investor Corp. and approximately U.S.\$2,000,000 Aggregate Principal Amount of the Class B-1L Notes on the Closing Date. In addition, the Servicer, entities affiliated with the Servicer or clients of the Servicer (collectively, the "**Servicer Entities**") may also acquire Notes or Preferred Shares upon the occurrence of an Amendment Buy-Out or a Maturity Extension as described herein. The interests of the Holders of the Preferred Shares and the Class B-1L Notes that are Servicer Entities, or any other Notes owned by the Servicer Entities, may be different from or adverse to the interests of the Holders of the other Notes and Preferred Shares. As the result of the ownership of Preferred Shares and Notes by the Servicer Entities, and the ability to vote the Preferred Shares and the Notes owned by the Servicer Entities up to a maximum amount equal to the Original HFP Share Amount, the affirmative vote or approval of the Preferred Shares owned by such Servicer Entities, may be required in order to cause an Optional Redemption or a Tax Redemption of the Notes. Preferred Shares owned or controlled by the Servicer Entities above the Original HFP Share Amount will be excluded from voting on certain matters including any Optional Redemption.

In addition to the Base Servicing Fee, the Servicer is entitled to receive an Additional Servicing Fee and an Supplemental Servicing Fee (if any) after all other distributions (other than certain distributions with respect to the Preferred Shares and certain administrative expenses) are made, which is dependent in large part on the performance of the securities purchased by the Servicer on behalf of the Issuer. This could create an inducement for the Servicer to service the Issuer's assets in such a manner as to seek to maximize the return on such securities. This could result in increasing the volatility of the Portfolio Collateral and could contribute to a decline in the aggregate value of the Portfolio Collateral. However, the Servicer's servicing of the Issuer's assets is restricted by the requirement that it comply with the restrictions described in "Security for the Notes" and by its internal policies with respect to the management of securities accounts.

Various potential and actual conflicts of interest may arise from the overall activity of the Servicer, its affiliates and their respective clients. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

Certain Holders of the Notes and certain Holders of the Preferred Shares may be clients of the Servicer or one of its affiliates. Certain clients of the Servicer and its affiliates may invest in securities that would be appropriate for inclusion in the Trust Estate. Further, the Servicer currently serves and may in the future serve as servicer, collateral manager or the equivalent for other issuers of collateralized debt obligations, including collateralized debt obligation vehicles having objectives similar to those of the Issuer. The Servicer and its affiliates may make asset management decisions for its clients and affiliates that may be different from those made by the Servicer on behalf of the Issuer. The Servicer and its affiliates may also have ongoing relationships with, and may own or invest assets of their clients in, equity securities issued by issuers of Portfolio Collateral. In addition, affiliates and clients of the Servicer may invest in securities that are senior to, or have interests different from or adverse to, the securities included in the Trust Estate. An affiliate of the Servicer may earn fees with respect to financial advisory services rendered to companies in connection with workouts or the subsequent restructuring of such companies. Such fees and advice may continue for a period of time after any such workout or restructure. The Issuer may own an interest in the securities of such companies.

The Amendment Buy-Out will increase the ability of the Servicer to affect or influence the amendment process under the Indenture and will limit any Holder's ability to vote against an amendment or affect or influence the amendment process with respect to the Indenture.

If the Servicer elects to extend the Revolving Period and the Extension Conditions are satisfied, the Holders of the Notes and the Preferred Shares may either be required to hold their Notes and Preferred Shares for a significantly longer period of time or be forced to sell their Notes and Preferred Shares for the applicable purchase price under the Indenture, resulting in a shorter holding period than expected at the time of investment in the Notes and Preferred Shares.

In addition to acting as Servicer to the Issuer, Highland Capital Management L.P. will act as manager for HFP, which will, on the Closing Date, purchase all of the Class II Preferred Shares. Because Highland Capital Management will receive both a servicing fee from the Issuer for servicing the Portfolio Collateral and a management fee from HFP for managing HFP's assets, which will include the Class II Preferred Shares (and therefore a residual interest in the Portfolio Collateral), Highland Capital Management has agreed, in connection with the capital raising of HFP, to waive a portion of its servicing fees from the Issuer for two years following the Closing Date so as not to reduce the return on investment realized by HFP in respect of the Class II Preferred Shares. Thereafter Highland Capital Management may at its discretion continue to waive such portion of its servicing fees or may elect to receive such servicing fees in their entirety. Accordingly, during the first two years following the Closing Date, a portion (representing the percentage ownership of the Preferred Shares represented by the Class II Preferred Shares, which will initially be owned entirely by HFP) of the amounts that would otherwise be payable to the Servicer as a servicing fee will instead be payable on the Class II Preferred Shares as the Class II Preferred Share Dividends in accordance with the Priority of Payments. Thereafter, the Servicer may elect to continue to waive such same portion of the amounts that would otherwise be payable to the Servicer as a servicing fee, or any lesser portion of such amounts, and have such amounts be paid instead as the Class II Preferred Share Dividends. The Class II Preferred Shares and the Class I Preferred Shares will vote together as a single class and the existence of the Class II Preferred Share Dividends may cause HFP to have interests different from the holders of the Class I Preferred Shares.

The Trustee and its affiliates may invest in the loans or securities that would be appropriate for inclusion in the Trust Estate and the Trustee has no duty, in making those investments, to act in a way that is favorable to the Issuer or the Holders of the Notes or the Preferred Shares. The Trustee's affiliates currently serve and may in the future serve as collateral manager or the equivalent for other issuers of collateralized loan obligations.

It is expected that the Issuer will acquire all of the Initial Portfolio Collateral to be acquired on the Closing Date from Bear Stearns or other sources in each case, at prices agreed upon by the Issuer with the advice of the Servicer. Certain of such securities will be securities of issuers for which Bear Stearns has acted as underwriter, agent, placement agent or principal or of which Bear Stearns is an equity owner or which the Servicer or an affiliate

of the Servicer has acted as manager, principal or counterparty. The price to be paid by the Issuer for such securities may be higher or lower, based on market conditions at the time of purchase from such sellers, than the prices the Issuer would have paid had such securities all been purchased from such sellers on the date such securities were sold to the Issuer. After the Closing Date, the Issuer with the advice of the Servicer may acquire from or through Bear Stearns or other sources Portfolio Collateral at current market prices which will be negotiated by or on behalf of the Issuer at such time. In addition, from time to time the Servicer may sell Portfolio Collateral through Bear Stearns. Bear Stearns will also receive compensation for the sale of the Notes and the Preferred Shares. See "Use of Proceeds" and "Plan of Distribution" herein. Bear Stearns has also entered into certain indemnification agreements with the Servicer relating to, among other things, the acquisition of the Initial Portfolio Collateral. An affiliate of the Initial Purchaser may be a Synthetic Security Counterparty and/or a Default Swap Counterparty.

20. Servicer Affiliates Reliance on Rule 3a-7; Potential Indenture Amendments. HFP, an affiliate of the Servicer will, on the Closing Date, purchase all of the Class II Preferred Shares. The Servicer will act as the manager for HFP. HFP and Highland Financial Trust, the owner of substantially all of the limited partnership interests of HFP, are relying on an exception from the definition of investment company and the requirement to register under the Investment Company Act that in turn depends, in part, upon the Issuer not being an investment company required to register under the Investment Company Act by reason of Rule 3a-7 thereunder. It is expected that, in connection with certain capital raising activities of Highland Financial Trust, the SEC may consider the applicability of Rule 3a-7 to the Issuer. If it were determined that the Issuer cannot rely on Rule 3a-7, the Servicer may cause the Issuer to amend the Indenture without the consent of the Holders of the Notes and without the consent of the Holders of the Preferred Shares to enable the Issuer to rely on Rule 3a-7, which could require additional limitations and prohibitions on the circumstances under which the Issuer may sell assets, on the type of assets that the Issuer may acquire out of the proceeds of assets that mature, are refinanced or otherwise sold, on the period during which such transactions may occur, on the level of transactions that may occur or on other provisions of the Indenture and could adversely affect the earnings of the Issuer and its ability to make payments on the Notes and distributions to the Preferred Shares. As a condition to the effectiveness of any such amendment to the Indenture, the Issuer, the Trustee and the Initial Purchaser will (i) satisfy the Rating Condition with respect to such amendment and (ii) receive a customary, unqualified opinion of counsel from a nationally recognized law firm providing that, after giving effect to such amendment and assuming compliance with the Indenture as so amended, the Issuer is exempt from registration as an "investment company" under the Investment Company Act. Such nationally recognized law firm may also be acting as counsel to the Servicer, certain Holders of Notes and/or Preferred Shares. The interests of any such parties may not coincide with the interest of other Holders of Notes and/or Preferred Shares. See "Legal Structure—The Indenture—Modification of Indenture."

21. Dependence on Key Personnel of the Servicer. The performance of the Portfolio Collateral will be highly dependent on the financial and managerial expertise of the Servicer. See "The Servicer" and "The Servicing Agreement." The loss of one or more of the individuals servicing the Portfolio Collateral could have a significant material adverse effect on the performance of the Portfolio Collateral. Although the Servicer will commit a significant amount of its efforts to the servicing of the Portfolio Collateral, it manages and will manage in the future other products and vehicles and is not required (and will not be able) to devote all of its time to the servicing of the Portfolio Collateral.

22. Ratings of the Notes. The ratings of the Notes by S&P address solely the likelihood of timely payment of the Periodic Interest Amount on and the ultimate payment of the Aggregate Principal Amount of each Class of Senior Class A Notes, the timely payment of the Class X Payment and the ultimate payment of the Cumulative Interest Amount and the Aggregate Principal Amount of the Class A-3L Notes, the Class A-4L Notes and the Class B-1L Notes. The ratings of the Notes by Moody's address the ultimate cash receipt of all required payments as provided by the governing documents, and are based on the expected loss to the Noteholders of each Class relative to the promise of receiving the present value of such payments. A rating is not a recommendation to purchase, hold or sell securities, in as much as such rating does not comment as to market price or suitability for a particular investor and may be subject to revision or withdrawal at any time by the assigning rating organization.

23. Certain Tax Considerations. Investors in the Notes should review carefully the tax considerations set forth in "Certain Tax Considerations" herein.

24. Certain ERISA Considerations. Investors in the Notes should review carefully the ERISA considerations set forth in "Certain ERISA Considerations" herein.

25. Legislation and Regulations In Connection With the Prevention of Money Laundering. The Uniting and Strengthening America By Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "**USA PATRIOT Act**"), signed into law on and effective as of October 26, 2001, imposes anti-money laundering obligations on different types of financial institutions, including banks, broker-dealers and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the "**Treasury**") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations. It is not clear whether Treasury will require entities such as the Issuer to enact anti-money laundering policies. It is possible that Treasury will promulgate regulations requiring the Co-Issuers or the Initial Purchaser or other service providers to the Co-Issuers, in connection with the establishment of anti-money laundering procedures, to share information with governmental authorities with respect to investors in the Notes and/or the Preferred Shares. Such legislation and/or regulations could require the Co-Issuers to implement additional restrictions on the transfer of the Notes and/or the Preferred Shares. As may be required, the Issuer reserves the right to request such information and take such actions as are necessary to enable it to comply with the USA PATRIOT Act.

26. Emerging Requirements of the European Union. As part of the harmonization of transparency requirements, the European Commission is scheduled to adopt a directive known as the Transparency Obligations Directive that, among other things, will regulate issuers of securities that are offered to the public or admitted to trading on a European Union regulated market. The listing of Notes on any European Union stock exchange would subject the Issuer to regulation under this directive, although the requirements applicable to the Issuer are not yet fully clarified. The Indenture will not require the Issuer to apply for, list or maintain a listing for any Class of Notes on a European Union stock exchange if compliance with this directive (or other requirements adopted by the European Commission or a relevant member state) becomes burdensome in the sole judgment of the Servicer. Should the Notes be delisted from any exchange, the ability of the Holders of such Notes to sell such Notes in the secondary market may be negatively affected.

27. Document Repository. Pursuant to the Indenture, the Issuer will consent to the posting of this Confidential Offering Circular, the Indenture and certain periodic reports required to be delivered pursuant to the Indenture, together with any amendments or modifications thereto, to the internet-based password protected electronic repository of transaction documents relating to privately offered and sold collateralized debt obligation securities located at "[www.cdolibrary.com](http://www.cdolibrary.com)".

## DESCRIPTION OF THE NOTES

Certain definitions used herein are set forth in the Glossary of Certain Defined Terms (the "**Glossary**") set forth as Annex A hereto.

### General

The Notes will be issued on the Closing Date pursuant to an indenture (the "**Indenture**"), to be dated as of the Closing Date, among the Co-Issuers and JPMorgan Chase Bank, National Association, as trustee (the "**Trustee**") and as securities intermediary. The following summaries generally describe certain provisions of the Notes and the Indenture. The summaries do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the provisions of the Notes and the Indenture. When particular provisions or terms used in the Notes and the Indenture are referred to, the actual provisions (including definitions of terms) are incorporated by reference. Copies of the Indenture may be obtained by Holders of the Notes upon request to the Issuer or the Initial Purchaser.

The Indenture limits the amount of Notes that can be issued thereunder to the Class X Notes, the Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class A-4L Notes and the Class B-1L Notes in the aggregate principal amounts and notional principal amounts, as applicable, set forth on the cover hereof. Subject to the foregoing, the Notes will be issued in minimum denominations of U.S.\$200,000 and integral multiples of U.S.\$1 in excess of such minimum denomination.

**The Notes will be non-recourse obligations of the Co-Issuers and all amounts payable in respect of the Notes will be paid solely from and to the extent of the available proceeds from the Trust Estate. To the extent the assets of the Trust Estate are insufficient to pay all amounts due on the Notes on each Payment Date, on the Final Maturity Date or otherwise, the Co-Issuers shall have no further obligations in respect of the Notes and any sums outstanding and unpaid shall be extinguished.**

The Record Date for each Payment Date (including the Final Maturity Date) is the Business Day immediately preceding such Payment Date; *provided, however*, if Definitive Notes are issued, the Record Date for such Definitive Notes shall be the fifteenth calendar day preceding such Payment Date. Payments of interest and principal or any other amount payable on or in respect of the Notes will be made on each Payment Date by wire transfer to registered Holders of the Notes on the Record Date applicable to such Payment Date to accounts maintained by such registered Holders as reflected in the Note Register. In the case of redemption, notice will be mailed to each Holder of record no later than twenty days before the Payment Date on which the final principal payment is expected to be made to such Holder.

Under the terms of the Indenture, the Trustee will act as a paying agent (together with any other paying agent appointed by the Co-Issuers from time to time, the "**Paying Agents**"). JPMorgan Chase Bank, National Association will act as the paying and transfer agent for the Preferred Shares (the "**Paying and Transfer Agent**"). The Issuer will appoint an off-shore Paying and Transfer Agent (other than in the Cayman Islands) (in addition to and not in lieu of JPMorgan Chase Bank, National Association) if requested by at least 33-2/3% of the Preferred Shares, with the cost of any such agent to be borne by the Issuer. There can be no assurance that any investor requesting payment from an off-shore paying agent will receive payments on the same day that they would have received such payments had the payments been made by JPMorgan Chase Bank, National Association. Payments of principal of and interest on and other amounts in respect of the Notes will be made by the Trustee to the Paying Agents from funds available in the Collection Account established under the Indenture as described herein.

All distributions in respect of the Portfolio Collateral will be deposited directly into the Collection Account and will be available to the extent described herein for the payment of amounts payable in respect of the Notes and, under the circumstances set forth herein and in the Indenture, for the applications described herein.

The Notes are subject to restrictions on transfer. See "—Form, Transfer and Transfer Restrictions." Subject to such restrictions, the Notes may be transferred or exchanged at the office designated by the Trustee for such purposes without the payment of any service charge, other than tax or other governmental charges payable in connection therewith.

Payments on the Notes; Priority of Distributions

**General.** The Class A-1L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class A-1L Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 0.30% with respect to the Class A-1LA Notes and 0.50% with respect to the Class A-1LB Notes, *per annum* above the London interbank offered rate for three-month U.S. dollar deposits (or, for the period from the Closing Date to the first Payment Date, as described herein) ("**LIBOR**") (determined as described herein) (the "**Applicable Periodic Rate**" with respect to the Class A-1LA Notes and the Class A-1LB Notes, as applicable) on the 1st day of November, February, May and August of each year, or, if any such day is not a Business Day, then on the next succeeding Business Day (each such date, a "**Payment Date**"), commencing on the November 1, 2006 Payment Date. Payments of interest on the Class A-1L Notes will be payable *pari passu* among the Class A-1L Notes and with the Class X Notes Payment as described herein. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed. Payments of interest to the Class A-1L Notes and the Class X Payment will be payable *pari passu* among the Class A-1L Notes and the Class X Notes as described herein.

No principal will be payable in respect of the Class A-1L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of an Initial Deposit Redemption, an Optional Redemption, a Special Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-1LA Notes as described herein. On each Payment Date with respect to the Amortization Period, the principal of the Class A-1L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) first to the Class A-1LA Notes and then to the Class A-1LB Notes until the Aggregate Principal Amount of the Class A-1L Notes has been paid in full. The Class A-1LB Notes are subordinated in right of payment to the Class A-1LA Notes to the extent described herein. In addition, all payments of principal on the Class A-1L Notes that are made in connection with an Initial Deposit Redemption, a Rating Confirmation Failure, a Tax Event Redemption or an Optional Redemption will be paid on a *pro rata* basis with the Class X Notes as described herein. All outstanding principal of the Class A-1L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date.

No interest will be payable in respect of the Class A-2L Notes on any Payment Date unless the Holders of the Class A-1L Notes have been paid the Cumulative Interest Amount due to them on such Payment Date, the Holders of the Class X Notes have been paid the Cumulative Class X Payment due to them on such Payment Date and, in the case of the Final Maturity Date, until the Aggregate Principal Amount of the Class A-1L Notes and the Class X Notes have been paid in full.

The Class A-2L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class A-2L Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 0.65% *per annum* above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class A-2L Notes) on each Payment Date commencing on the November 1, 2006 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon at the

Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class A-2L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-2L Notes. In connection with a Special Redemption, a Tax Event Redemption, an Optional Redemption or a Mandatory Redemption, no principal in respect of the Class A-2L Notes will be payable until the Aggregate Principal Amount of the Class A-1L Notes and the Class X Notes (other than with respect to a Special Redemption or an O/C Redemption) have been paid in full. On each Payment Date with respect to the Amortization Period after the Class A-1L Notes and the Class X Notes have been paid in full, principal of the Class A-2L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) until the Aggregate Principal Amount of the Class A-2L Notes has been paid in full. All outstanding principal of the Class A-2L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class A-2L Notes are subordinated in right of payment to the Class A-1L Notes and the Class X Notes to the extent described herein.

No interest will be payable in respect of the Class A-3L Notes on any Payment Date unless the Holders of the Senior Class A Notes have been paid the Cumulative Interest Amount due to them on such Payment Date and the Holders of the Class X Notes have been paid the Cumulative Class X Payment due to them on such Payment Date and, in the case of the Final Maturity Date, until the Aggregate Principal Amount of the Senior Class A Notes and the Class X Notes have been paid in full.

The Class A-3L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class A-3L Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 1.40% *per annum* above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class A-3L Notes) on each Payment Date commencing on the November 1, 2006 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class A-3L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Senior Class A Notes or Class X Notes are Outstanding. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class A-3L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-3L Notes. On each Payment Date with respect to the Amortization Period after the Class A-1L Notes, Class A-2L Notes and the Class X Notes have been paid in full, principal of the Class A-3L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) until the Payment Date on which the Aggregate Principal Amount of the Class A-3L Notes has been paid in full. All outstanding principal of the Class A-3L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class A-3L Notes are subordinated in right of payment to the Senior Class A Notes and the Class X Notes to the extent described herein.

No interest will be payable in respect of the Class A-4L Notes on any Payment Date unless the Holders of the Class A-1L Notes and the Class A-2L Notes have been paid the Cumulative Interest Amount due to them on such Payment Date, the Holders of the Class A-3L Notes have been paid the Periodic Interest Amount due to them

on such Payment Date, the Holders of the Class X Notes have been paid the Cumulative Class X Payment due to them on such Payment Date, and, in the case of the Final Maturity Date, until the Aggregate Principal Amount of the Senior Class A Notes and the Class X Notes have been paid in full.

The Class A-4L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class A-4L Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 1.70% per annum above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class A-3L Notes) on each Payment Date commencing on the November 1, 2006 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon at the Applicable Periodic Rate, the "Periodic Rate Shortfall Amount" and, with the Periodic Interest Amount for such subsequent Payment Date, the "Cumulative Interest Amount" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class A-4L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Senior Class A Notes, the Class A-3L Notes or Class X Notes are Outstanding. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class A-4L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-4L Notes. On each Payment Date with respect to the Amortization Period after the Class A-1L Notes, Class A-2L Notes, Class A-3L Notes and the Class X Notes have been paid in full, principal of the Class A-4L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) until the Payment Date on which the Aggregate Principal Amount of the Class A-4L Notes has been paid in full. In connection with a Special Redemption, a Tax Event Redemption, an Optional Redemption or a Mandatory Redemption, no principal in respect of the Class A-4L Notes will be payable until the Aggregate Principal Amount of the Class A-1L Notes, the Class A-2L Notes, the Class A-3L Notes and (other than with respect to an O/C Redemption or a Special Redemption) the Class X Notes have been paid in full. All outstanding principal of the Class A-4L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class A-4L Notes are subordinated in right of payment to the Senior Class A Notes, the Class A-3L Notes and the Class X Notes to the extent described herein.

No interest will be payable in respect of the Class B-1L Notes on any Payment Date unless the Holders of the Class A-1L Notes and the Class A-2L Notes have been paid the Cumulative Interest Amount due to them on such Payment Date, the Holders of the Class A-3L Notes and Class A-4L Notes have been paid the Periodic Interest Amount due to them on such Payment Date, the Class X Notes have been paid the Cumulative Class X Payment due to them on such Payment Date, the Overcollateralization Tests with respect to the Class A Notes and the Interest Coverage Test have been satisfied, and, on the Final Maturity Date, unless the Aggregate Principal Amount of the Class A Notes and the Class X Notes have been paid in full.

The Class B-1L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class B-1L Notes) (to the extent funds are available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 2.25% *per annum* above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class B-1L Notes) on each Payment Date commencing on the November 1, 2006 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon, at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, together with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class B-1L Notes as a result of insufficient funds being available

therefor will not constitute an Event of Default so long as any Class A Notes or Class X Notes are Outstanding. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class B-1L Notes until the Aggregate Principal Amount of the Class A Notes and the Class X Notes have been paid in full, except with respect to the Additional Collateral Deposit Requirement. Principal payments are not expected to begin until the commencement of the Amortization Period (except in the event of a Special Redemption, an Optional Redemption, a Tax Redemption or a Mandatory Redemption of the Class B-1L Notes or in connection with the Additional Collateral Deposit Requirement) and are to continue until the Payment Date on which the Aggregate Principal Amount of the Class B-1L Notes has been paid in full. In connection with a Special Redemption, a Tax Event Redemption, an Optional Redemption or a Mandatory Redemption, no principal in respect of the Class B-1L Notes will be payable until the Aggregate Principal Amount of the Class A Notes and (other than with respect to an O/C Redemption or a Special Redemption) the Class X Notes have been paid in full. All outstanding principal of the Class B-1L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class B-1L Notes are subordinated in right of payment to the Class A Notes and the Class X Notes to the extent described herein.

The Class X Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class X Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 0.36% per annum above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class X Notes) on each Payment Date, commencing on the November 1, 2006 Payment Date through and including the August 1, 2013 Payment Date. Any such interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed. Such amount may be reduced in connection with a redemption of the Class X Notes, as set forth in the Indenture.

To the extent the Class X Payment is not paid on any Payment Date, the amount of such shortfall will accrue interest at the rate of 0.36% *per annum* above LIBOR (the "**Class X Periodic Interest Rate**") (to the extent funds are available therefor and subject to the priority of distribution provisions described herein) on one or more subsequent Payment Dates (the amount of such shortfall, together with interest thereon, calculated at the Class X Periodic Interest Rate, the "**Class X Shortfall Amount**" and, together with the Class X Payment for such subsequent Payment Date, the "**Cumulative Class X Payment**" with respect to such Payment Date). The Class X Shortfall Amount shall be payable after payment of the Class X Payment relating to such subsequent Payment Date. Any such interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed. The Aggregate Principal Amount of the Class X Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date of the Class X Notes.

Payments of principal on the Class X Notes that are made in connection with an Initial Deposit Redemption, a Tax Event Redemption, an Optional Redemption or a Rating Confirmation Failure Redemption will be paid on a *pro rata* basis with the Class A-1LA Notes as described herein. The Class X Notes are not subject to an O/C Redemption or a Special Redemption. The Aggregate Principal Amount of the Class X Notes will be reduced on each Payment Date by the Class X Principal Payment for such Payment Date. The Holders of the Class X Notes are entitled to receive the Aggregate Principal Amount of the Class X Notes on the Final Maturity Date, whether such Final Maturity Date occurs in connection with a redemption of the Class X Notes as described herein or otherwise.

To the extent assets of the Trust Estate are insufficient to pay all amounts due on the Notes, the Co-Issuers shall have no further obligations in respect of the Notes.

The Co-Issuers will not be required to pay additional amounts to Holders of any Class of Notes if taxes or related amounts are withheld from payments on the Notes or any payments on any item of Portfolio Collateral or other assets of the Co-Issuers. However, such withholding tax on payments on items of Portfolio Collateral could result in the Notes being redeemed by the Issuer. See "—Tax Event Redemption."

Determination of LIBOR

For purposes of calculating the Applicable Periodic Rate, the Issuer initially will appoint JPMorgan Chase Bank, National Association, as agent with respect to the determination of LIBOR (in such capacity, the "**Calculation Agent**"). LIBOR will be determined by the Calculation Agent in accordance with the following provisions:

On the second London Business Day prior to the commencement of a Periodic Interest Accrual Period (each such day, a "**LIBOR Determination Date**"), LIBOR shall equal the rate, as obtained by the Calculation Agent, for three-month U.S. dollar deposits which appears on Telerate Page 3750 (as defined in the 2000 ISDA Definitions and as reported by Bloomberg Financial Markets Commodities News) or such other page as may replace such Page 3750, as of 11:00 a.m. (London time) on such LIBOR Determination Date. Notwithstanding the foregoing, LIBOR for the initial Periodic Interest Accrual Period will be determined through the use of straight-line interpolation by reference to two rates calculated in accordance with the provisions above, one of which shall be for five-month U.S. dollar deposits and the other of which shall be for six-month U.S. dollar deposits.

If, on any LIBOR Determination Date, such rate does not appear on Telerate Page 3750 or such other page as may replace such Page 3750, the Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for three-month (or five-month and six-month, as applicable) U.S. dollar deposits in an amount determined by the Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the LIBOR Determination Date made by the Calculation Agent to the Reference Banks. If, on any LIBOR Determination Date, at least two of the Reference Banks provide such quotations, LIBOR shall equal such arithmetic mean of such quotations. If, on any LIBOR Determination Date, only one or none of the Reference Banks provide such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in The City of New York selected by the Calculation Agent (after consultation with the Servicer) are quoting on the relevant LIBOR Determination Date for three-month (or five-month and six-month, as applicable) U.S. dollar deposits in an amount determined by the Calculation Agent that is representative of a single transaction in such market at such time by reference to the principal London offices of leading banks in the London interbank market; *provided* that, if the Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the previous LIBOR Determination Date. As used herein, "**Reference Banks**" means four major banks in the London interbank market selected by the Calculation Agent (after consultation with the Servicer).

As soon as possible after 11:00 a.m. (New York time) on each LIBOR Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each LIBOR Determination Date, the Calculation Agent will notify the Issuer, the Trustee, the Servicer and (for so long as any Class of Notes is listed on the Irish Stock Exchange) the Irish Stock Exchange, of LIBOR for the next Periodic Interest Accrual Period. The Calculation Agent will also specify to the Issuer the quotations upon which LIBOR is based, and in any event the Calculation Agent shall notify the Issuer before 5:00 p.m. (New York time) on each LIBOR Determination Date that either: (i) it has determined or is in the process of determining LIBOR or (ii) it has not determined and is not in the process of determining LIBOR together with its reasons therefor.

Upon receipt of notice of LIBOR for each Periodic Interest Accrual Period from the Calculation Agent as described in the preceding paragraph, the Trustee will determine the Applicable Periodic Rate for each Class of Notes for such Periodic Interest Accrual Period and notify the Irish Stock Exchange of the Applicable Periodic Rate for each Class of Notes (for so long as any Class of Notes is listed on the Irish Stock Exchange). The determination of LIBOR by the Calculation Agent and the Applicable Periodic Rate by the Trustee (in the absence of manifest error) will be final and binding upon all parties.

The Calculation Agent may be removed by the Issuer at any time. If the Calculation Agent is unable or unwilling to act as such or is removed by the Issuer, or if the Calculation Agent fails to determine LIBOR for a Periodic Interest Accrual Period, the Issuer will promptly appoint as a replacement Calculation Agent a leading bank which is engaged in transactions in U.S. dollar deposits in the international U.S. dollar market and which does not

control or is not controlled by or under common control with the Issuer or its affiliates. The Calculation Agent may not resign or be removed from its duties without a successor having been duly appointed.

On the **Final Maturity Date** (including an Optional Redemption Date or a Tax Event Redemption or any other Payment Date on which the Aggregate Principal Amount of the Notes is paid in full as described herein), in accordance with the Note Valuation Report for the Calculation Date immediately preceding the Final Maturity Date (or in the case of an Optional Redemption or a Tax Event Redemption, in accordance with the related redemption date statement delivered pursuant to the Indenture), Available Funds in the Collection Account in an amount equal to the sum of Adjusted Collateral Collections *plus* Collateral Disposition Proceeds, together with all available funds in the Expense Reimbursement Account and the Loan Funding Account, will be applied by the Trustee in the following order of priority:

- (i) to pay, *pari passu*, the Cumulative Interest Amount with respect to the Class A-1LA Notes, the Cumulative Interest Amount with respect to the Class A-1LB Notes and such Payment Date and the Class X Shortfall Amount plus the Periodic Interest Amount for the Class X Notes and such Payment Date;

The amount and frequency of principal and interest payments will depend on, among other things, the extent to which the Portfolio Collateral pledged to secure the Notes become items of Defaulted Portfolio Collateral, are subject to early payment provisions or are retired prior to the Final Maturity Date through mandatory or optional redemption, sale, maturity or other liquidation or disposition and the extent to which Additional Portfolio Collateral meeting the requirements specified herein are available for purchase in circumstances in which Available Funds are to be used for the purchase of Additional Portfolio Collateral or in circumstances in which the Issuer may dispose of Portfolio Collateral and apply the proceeds thereof to the purchase of Substitute Portfolio Collateral as described herein as well as other factors, including the interest rates obtained in connection with the purchase of any such item of Portfolio Collateral or any Eligible Investment in which funds held in the accounts described herein may be maintained.

Notwithstanding anything contained herein to the contrary, with respect to Adjusted Collateral Collections held in the Collection Account in Eligible Investments pending application to purchase Portfolio Collateral, any such amounts not used to purchase Portfolio Collateral by the last day of the Due Period next succeeding the Due Period in which such amounts were collected may be used to purchase Portfolio Collateral in subsequent Due Periods in accordance with "Security for the Notes."

In addition, notwithstanding anything to the contrary, upon the direction of the Issuer (as directed by and in the time and manner directed by the Servicer), Payment Date Equity Securities may be distributed on any Payment Date in lieu of cash as follows:

(i) Payment Date Equity Securities will be paid as Collateral Interest Collections in accordance with the Priority of Payments with respect to the Preferred Shares, and upon such payment, the aggregate amount of Collateral Interest Collections distributable to the Holders of the Preferred Shares on such Payment Date will be reduced by the value of such Payment Date Equity Securities. Payment Date Equity Securities distributed on any Payment Date shall be distributed to the Holders of the Preferred Shares in the same manner as Collateral Interest Collections would be distributable to such Holders of Preferred Shares on such Payment Date and subject to the same restriction as to payment set out in the Paying and Transfer Agency Agreement; and

(ii) in calculating the amounts of Collateral Interest Collections and Collateral Principal Collections for such Payment Date, Collateral Interest Collections in an amount equal to the value of Payment Date Equity Securities distributed to the Holders of the Preferred Shares shall be recharacterized as Collateral Principal Collections and distributed in accordance with the Priority of Payments herein.

#### Overcollateralization Tests

The "**Overcollateralization Tests**" are applicable until the Notes are retired and all amounts payable in respect thereof are paid, and are satisfied if the Class A Overcollateralization Ratio is at least equal to the Class A Overcollateralization Percentage (the "**Class A Overcollateralization Test**") and the Class B-1L Overcollateralization Ratio is at least equal to the Class B-1L Overcollateralization Percentage (the "**Class B-1L Overcollateralization Test**").

The "**Class A Overcollateralization Percentage**" is 107% and the "**Class B-1L Overcollateralization Percentage**" is 106%.

The "**Class A Overcollateralization Ratio**" means, with respect to a determination made as of any date of calculation, the ratio (expressed as a percentage) obtained by dividing (a) the sum of (1) the Aggregate Principal Amount of the Portfolio Collateral in the Trust Estate as of such date, calculated in accordance with the Overcollateralization Ratio Adjustment *plus* (2) the sum of the Balance of Eligible Investments and cash in the Collection Account representing Collateral Principal Collections *plus* the Balance of Eligible Investments and cash in the Initial Deposit Account *plus* unpaid Purchased Accrued Interest, each as of such date by (b) the sum of the Aggregate Principal Amount of the Class A Notes (including for this purpose any Periodic Rate Shortfall Amounts with respect to such Classes of Notes not paid when due, until such amounts, if any, are paid in full) as of such date.

The "**Class B-1L Overcollateralization Ratio**" is calculated in the same manner, but reduces the numerator by the Overcollateralization Haircut Amount and includes in the denominator the Class B-1L Notes (including, in each case any Periodic Rate Shortfall Amounts with respect to such Classes of Notes not paid when due, until any such amounts are paid in full).

With respect to an item of Portfolio Collateral that it is both eligible to be included in the Overcollateralization Haircut Amount and is subject to an Overcollateralization Ratio Adjustment, for purposes of calculating the Class B-1L Overcollateralization Ratio, such item of Portfolio Collateral will not be discounted multiple times, but will be treated in the category that results in the largest discount to the par amount of the Portfolio Collateral.

The "**Overcollateralization Ratio Adjustment**" means, for purposes of calculating the Overcollateralization Ratios (i) items of Equity Portfolio Collateral shall not be included as Portfolio Collateral, (ii) items of Deferred Interest PIK Bonds and Defaulted Portfolio Collateral shall be included at the lesser of (a) the Market Value of such Deferred Interest PIK Bond and item of Defaulted Portfolio Collateral and (b) the Applicable Percentage for such Deferred Interest PIK Bond and item of Defaulted Portfolio Collateral multiplied by its Principal Balance; *provided that* any Portfolio Loan that has been an item of Defaulted Portfolio Collateral for four years shall not be included as Portfolio Collateral and any CLO Security that has been an item of Defaulted Portfolio Collateral for three years shall not be included as Portfolio Collateral, (iii) with respect to items of Discount Portfolio Collateral, an amount equal to the original purchase price of such item of Discount Portfolio Collateral shall be included as Portfolio Collateral and (iv) to the extent the Aggregate Principal Amount of Current Pay Obligations exceeds 7.5% of the Aggregate Par Amount, such excess shall be included as Defaulted Portfolio Collateral. If an item of Portfolio Collateral could be classified in more than one of the categories set forth in clauses (i) through (iv), such item of Portfolio Collateral will not be discounted multiple times but will be treated in the applicable category that results in the largest discount to the par amount of such item of Portfolio Collateral. Notwithstanding the foregoing, there may be included as Portfolio Collateral (with respect to items (i) through (iv) above) such greater amount as confirmed by the Rating Agencies which will not result in a reduction or withdrawal of the then-current ratings assigned by them to any Class of the Notes.

#### Applicability of Overcollateralization Tests

At any time that the Notes are Outstanding, if any Overcollateralization Test is not satisfied on any Calculation Date related to a Payment Date, amounts that are junior in right of payment to such Overcollateralization Test as described under "—Payments on the Notes; Priority of Distributions", will be applied to the payment of principal of the Class A Notes and the Class B-1L Notes (or, in the case of the Class A-3L Notes, the Class A-4L Notes and Class B-1L Notes, first to pay Periodic Rate Shortfall Amounts and then to pay principal), in the order described under "—Payments on the Notes; Priority of Distributions", in an O/C Redemption to the extent necessary to satisfy the applicable Overcollateralization Tests (recalculated on such Payment Date, but as of such Calculation Date, after taking into account such O/C Redemption) in accordance with the provisions described herein.

In addition, generally, satisfaction or, in certain cases, maintenance, of both Overcollateralization Tests is a condition to the purchase or sale of Portfolio Collateral during certain specified periods. See "Security for the Notes—Changes in Composition of Portfolio Collateral".

Interest Coverage Test

The "**Interest Coverage Test**" is applicable on each Payment Date after the second Payment Date and will be satisfied as of such Payment Date if the Interest Coverage Ratio is at least equal to 1.5%. The "**Interest Coverage Ratio**" means, with respect to any Payment Date after the second Payment Date, a number (expressed as a percentage) calculated by dividing (a) four times the amount by which (i) the Collateral Interest Collections received or scheduled to be received during the Due Period in which such calculation occurs (other than Collateral Interest Collections (including deferred interest thereon) scheduled to be received on any item of Portfolio Collateral that is not paying or expected to pay current interest), exceeds (ii) the Periodic Reserve Amount (excluding amounts payable on the Class B-1L Notes) as of such Payment Date, by (b) the Aggregate Principal Amount of Class A Notes with respect to such Payment Date, as adjusted, to take into account any O/C Redemption to occur on the Payment Date related to such Due Period pursuant the Indenture.

Applicability of Interest Coverage Test

At any time after the second Payment Date that any of the Notes are Outstanding, if the Interest Coverage Test is not satisfied on any Calculation Date related to a Payment Date, amounts that are junior in right of payment to the Interest Coverage Test as described under "—Payments on the Notes; Priority of Distributions", will be applied to the payment of principal of the Class A Notes in the order described under "—Payments on the Notes; Priority of Distributions", in an O/C Redemption to the extent necessary to satisfy the Interest Coverage Test (recalculated on such Payment Date, but as of such Calculation Date, after taking into account such O/C Redemption) in accordance with the provisions described herein.

In addition, satisfaction of the Interest Coverage Test on the prior Payment Date is a condition to certain purchases and sales of Portfolio Collateral during certain specified periods as described herein. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

Additional Collateral Deposit Requirement

On each Payment Date after the second Payment Date, even if the Overcollateralization Tests and the Interest Coverage Test are satisfied, Collateral Interest Collections that would otherwise be used for payments that are junior in right of payment to the Additional Collateral Deposit Requirement, as described under "—Payments on the Notes; Priority of Distributions—Revolving Period," will be applied during the Revolving Period, to the payment of principal of the Class B-1L Notes and will be made available to purchase Additional Portfolio Collateral or, during the Amortization Period, will be applied to the payment of the Class B-1L Notes and to pay principal of the Notes (other than the Class X Notes) in the order described under "—Payments on the Notes; Priority of Distributions—Amortization Period." The "Additional Collateral Deposit Requirement" with respect to any Payment Date is the amount necessary such that:

(a) the sum of:

(i) the Aggregate Principal Amount of the Portfolio Collateral in the Trust Estate as of the Calculation Date relating to such Payment Date, *plus*

(ii) the sum of the Balance of Eligible Investments and cash in the Collection Account representing Collateral Principal Collections *plus* the Balance of Eligible Investments and cash in the Initial Deposit Account *plus* unpaid Purchased Accrued Interest as of such date, less

(iii) the Overcollateralization Haircut Amount (if any),

equals or exceeds:

(b) 107% of the amount necessary, after giving effect to the amount applied to any O/C Redemption of the Notes (other than the Class X Notes) to satisfy the Overcollateralization Tests and the Interest Coverage Test (if applicable) on such Payment Date, to repay the Aggregate Principal Amount of the Notes (other than the Class X Notes), including any Periodic Rate Shortfall Amounts. Notwithstanding the foregoing, if the Additional Collateral

Deposit Requirement is a positive number that is more than the amount available therefor in the Priority of Payments, then the amount distributed with respect to the Additional Collateral Deposit Requirement shall be such lesser amount available.

For purposes of the Additional Collateral Deposit Requirement, no item of Equity Portfolio Collateral shall be included as Portfolio Collateral. In addition for purposes of this requirement, (i) with respect to Defaulted Portfolio Collateral as to which there has occurred a payment default or an event of bankruptcy, only the portion equal to the lesser of (a) the Market Value of such item of Defaulted Portfolio Collateral and (b) the Applicable Percentage multiplied by the Principal Balance of such item of Portfolio Collateral, shall be included as Portfolio Collateral and (ii) with respect to items of Discount Portfolio Collateral, only an amount equal to the original purchase price of such item of Discount Portfolio Collateral shall be included as Portfolio Collateral. For purposes of calculating the Additional Collateral Deposit Requirement, to the extent an item of Portfolio Collateral is considered Defaulted Portfolio Collateral, Discount Portfolio Collateral and/or is included in the Overcollateralization Haircut Amount, such item of Portfolio Collateral will not be discounted multiple times, but will be treated in the category that results in the largest discount to the par amount of the Portfolio Collateral.

#### Rating Confirmation Failure

The Issuer will request that each Rating Agency confirm after the Effective Date that it has not reduced or withdrawn (and not restored) the ratings assigned by it on the Closing Date to the Notes (a "**Rating Confirmation**"). If the Issuer is unable to obtain a Rating Confirmation by the 35th day after the Effective Date (a "**Rating Confirmation Failure**"), on the next Payment Date and on each subsequent Payment Date during the Revolving Period, amounts that are junior in right of payment to such Rating Confirmation Failure, as described under "Description of the Notes—Payments on the Notes; Priority of Distributions", will be applied to the redemption of the Notes (or, in the case of the Class B-1L Notes, first to pay Periodic Rate Shortfall Amounts, then to pay principal) until each such Class is paid in full, in the order and according to the priorities described herein (a "**Rating Confirmation Failure Redemption**"), to the extent necessary to receive a Rating Confirmation, in accordance with the provisions described herein. The Trustee will give notice of a Rating Confirmation Failure Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

#### O/C Redemption

If on any Calculation Date any of the Overcollateralization Tests or the Interest Coverage Test are required to be satisfied and are not satisfied, amounts that are junior in right of payment to such test as described under "—Payments on the Notes; Priority of Distributions", will be applied to the redemption of the Class A Notes and the Class B-1L Notes (or, in the case of the Class B-1L Notes, first to pay Periodic Rate Shortfall Amounts, then to pay principal) in the order described under "—Payments on the Notes; Priority of Distributions" (an "**O/C Redemption**") to the extent necessary in order to satisfy both the Overcollateralization Tests and the Interest Coverage Test. A redemption of the Notes through a Rating Confirmation Failure Redemption or an O/C Redemption is sometimes referred to herein as a "**Mandatory Redemption**". Any Mandatory Redemption will be effected at par. The Class X Notes are not subject to O/C Redemption, but are subject to Rating Confirmation Failure Redemption. The Trustee will give notice of a Mandatory Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

#### Initial Deposit Redemption

On the Effective Date, to the extent that the full amount of the Deposit is not used to purchase or committed to be used to purchase Original Portfolio Collateral having an Aggregate Principal Amount (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) at least equal to the Required Portfolio Collateral Amount in accordance with the guidelines described herein and in the Indenture, an amount (not in excess of the amount of the Deposit not so used to purchase or committed to be used to purchase) equal to the excess of the Required Portfolio Collateral Amount over the par amount of Portfolio Collateral actually acquired (or committed to be acquired) (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original

Portfolio Collateral on or before the Effective Date) will be applied by the Issuer on the November 2006 Payment Date (the "**Initial Deposit Redemption Date**") to make principal payments on the Class A-1LA Notes and the Class X Notes, on a *pro rata* basis (an "**Initial Deposit Redemption**") except, if the amount of the Deposit not so used to purchase or committed to be used to purchase Original Portfolio Collateral does not exceed U.S.\$2,000,000 in the aggregate, such amount will be transferred to the Collection Account on the Effective Date and applied as Collateral Principal Collections. The Trustee will give notice of an Initial Deposit Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

#### Optional Redemption

On any Payment Date after the Non-Call Period (the "**Optional Redemption Date**," which date shall be considered the Final Maturity Date in the case of a Total Optional Redemption (as hereinafter defined)), subject to satisfaction of certain conditions described herein, the Notes will be redeemed, in whole or in part, by the Co-Issuers or the Issuer, as applicable, in accordance with the priority of distributions described herein, if such redemption is directed by the holders of Preferred Shares in the amounts described below.

(a) In the case of an Optional Redemption in whole (a "**Total Optional Redemption**"):

(i) the Holders of at least 75% of the outstanding Preferred Shares eligible to vote direct the Co-Issuer or the Issuer to redeem the Notes; *provided* that any Preferred Shares beneficially owned or controlled by the Servicer, entities affiliated with the Servicer or clients of the Servicer (collectively, the "**Servicer Entities**") in excess of the Original HFP Share Amount, shall be excluded from, and be deemed ineligible to participate in, any such vote to direct any Total Optional Redemption;

(ii) sufficient liquidation proceeds from the Portfolio Collateral must exist to effect the redemption of all Notes in full at their Redemption Price in accordance with the priority of distributions described herein; and

(b) in the case of an Optional Redemption in part (a "**Partial Optional Redemption**" and together with a Total Optional Redemption, referred to herein as an "**Optional Redemption**"):

(i) the Holders of at least 10% of the outstanding Preferred Shares eligible to vote direct the Co-Issuer or the Issuer to redeem the Notes in part; *provided* that any Preferred Shares beneficially owned or controlled by the Servicer Entities, including any HFP Shares, shall be excluded from, and be deemed ineligible to participate in, any such vote to direct any Partial Optional Redemption;

(ii) the Holders of Preferred Shares directing such Partial Optional Redemption shall specify the percentage of Notes that will be subject to redemption *pro rata* (the "**Partial Redemption Percentage**"); *provided* that the Partial Redemption Percentage must be the percentage equivalent to at least 10% of the aggregate outstanding principal amount of the Notes as of the Closing Date; and

(iii) the following conditions must be satisfied:

(1) the Partial Redemption Percentage of the Notes must be redeemed *pro rata* at their respective Optional Redemption Price,

(2) the Collateral Quality Matrix tests, Overcollateralization Tests, Interest Coverage Tests and any other eligibility criteria with respect to the Portfolio Collateral must be satisfied before and after giving effect to such redemption; *provided* that the degree of compliance with the Moody's Weighted Average Rating Test and the Weighted Average Margin Test shall not be diminished after giving effect to such redemption,

(3) any applicable Default Swaps of the Issuer must be modified or terminated in a manner consistent with the economic effect of such redemption and in consideration of the Portfolio Collateral and Eligible Investments that will be owned by the Issuer after giving effect to such redemption, and any net termination payments payable by the Issuer must be paid,

(4) the Rating Condition must be satisfied with respect to each Rating Agency,

(5) not more than three (3) prior Partial Optional Redemptions may have occurred, and

(6) no claims may be pending against the Issuer or the Co-Issuer and no judgments may have been rendered against the Issuer or the Co-Issuer which exceed, or reasonably could be expected to result in liabilities that exceed, in the aggregate, \$100,000, unless adequate funds have been reserved or set aside for the payment thereof.

In connection with any Optional Redemption, the Issuer may use all funds credited to the Collection Account to provide for payment of the Optional Redemption Price. If there are not sufficient funds in the Collection Account as of the date the notice of redemption is given to pay the Optional Redemption Price on the Optional Redemption Date and all such payments, fees and expenses (including any termination payments with respect to any Synthetic Securities and any Default Swaps), the Servicer is required to give the Trustee written direction to sell Portfolio Collateral in an amount sufficient to provide funds to pay the Optional Redemption Price in full. The Trustee will give notice of an Optional Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

The Servicer shall have the right to purchase the Preferred Shares held by any Holder that directs the Issuer to effect a Partial Optional Redemption at a price equal to the liquidation value of such Preferred Shares.

#### Tax Event Redemption

The Notes are also subject to redemption on any Payment Date, at the option of the Issuer, in whole but not in part, at the direction of at least 66-2/3% of the Preferred Shares or a majority of the Controlling Class (but only if the Aggregate Principal Balance of Portfolio Collateral is less than 100% of the Class A-1L Notes) on any Payment Date at the Tax Event Redemption Price, if as a result of (i) change in tax law, rule or regulation or the interpretation thereof, the payments to be received on the Portfolio Collateral are reduced as a result of the imposition of withholding tax, (ii) the Issuer is otherwise subjected to tax such that the income of the Issuer is reduced in an amount determined by such holders of Preferred Shares to be material, (iii) (A) one or more items of Portfolio Collateral that were not subject to withholding tax when the Issuer committed to purchase them have become subject to withholding tax or the rate of withholding has increased on one or more items of Portfolio Collateral that were subject to withholding tax when the Issuer committed to purchase them and (B) in any Due Period the aggregate of the payments subject to withholding tax on new withholding tax obligations and the increase in payments subject to withholding tax on increased rate withholding tax obligations, in each case to the extent not "grossed-up" (on an after-tax basis) by the related obligor, represent 5% or more of Interest Proceeds for the Due Period, or (iv) taxes, fees, assessments or other similar charges are imposed on the Issuer or the Co-Issuer in an aggregate amount in any 12-month period in excess of \$2,000,000, other than liabilities for withholding taxes included in clause (iii) above.

As the result of the ownership of Preferred Shares and Notes by the Servicer Entities, and the ability to vote the Preferred Shares and the Notes owned by the Servicer Entities up to a maximum amount equal to the Original HFP Share Amount, the affirmative vote or approval of the Preferred Shares owned by such Servicer Entities, may be required in order to cause an Optional Redemption or a Tax Redemption of the Notes.

#### Special Redemption

The Notes (other than the Class X Notes) are subject to redemption in part on any Payment Date (and on one or more Payment Dates) during the Revolving Period, at the option of the Issuer acting at the direction of the Servicer, if more than U.S.\$2,000,000 of Collateral Principal Collections received are not applied to the purchase of Additional Portfolio Collateral selected by the Servicer and satisfying the criteria described herein by the earlier of ninety days of receipt or the last day of the Revolving Period, in an amount of at least U.S.\$2,000,000 as described under "—Payments on the Notes; Priority of Distributions—Revolving Period—Collateral Principal Collections".

The Trustee will give notice of any redemption which the Issuer and the Servicer have directed to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

Extension of the Revolving Period and the Final Maturity Date

*General*

The Issuer, if directed by the Servicer, shall be entitled on each Extension Effective Date to extend the Revolving Period to the applicable Extended Revolving Period End Date up to a maximum of four times (so that the Notes can only be extended to 2037) if (i) in the case of an Extension Effective Date occurring after the first Extension Effective Date, the Issuer has previously affected a Maturity Extension for each preceding Extension Effective Date, (ii) the Extension Conditions are satisfied, (iii) the Issuer has given written notice of its election to extend the Revolving Period no later than 60 days and no earlier than 90 days prior to such Extension Effective Date and (iv) no Event of Default has occurred and is continuing. If the Extension Conditions are satisfied, the Final Maturity Date of the Notes (other than the Class X Notes) shall be automatically extended to the related Extended Final Maturity Date and the Weighted Average Life Test shall be extended to the related Extended Weighted Average Life Date, without any requirement for approval or consent of any Holders of Notes (other than the Holders of the Class A-1LA Notes) or Preferred Shares (other than as may be required pursuant to the Extension Conditions) or amendment or supplement to the Indenture or any other transaction document (the "**Maturity Extension**"). In the case of a Maturity Extension, any Holder of Notes or Preferred Shares wishing to sell such Notes or Preferred Shares to an Extension Qualifying Purchaser pursuant to the Extension Conditions must provide the applicable Extension Sale Notice within the Extension Sale Notice Period pursuant to "—Extension Procedure" below (such Notes or Preferred Shares as to which an Extension Sale Notice has been duly given, "**Extension Sale Securities**"). Each Holder providing an Extension Sale Notice shall be deemed to agree that no Extension Sale Securities shall be purchased unless all Extension Sale Securities are purchased and settled at the applicable Extension Purchase Price on the applicable Extension Effective Date and the other Extension Conditions are satisfied as of such date. The Maturity Extension shall be effective only if the following conditions (the "**Extension Conditions**") are satisfied:

(i) the purchase of all Extension Sale Securities has been settled by the designated Extension Qualifying Purchasers at the applicable Extension Purchase Price as of the applicable Extension Effective Date;

(ii) all such purchases of Extension Sale Securities individually and in the aggregate comply with the applicable transfer restrictions herein, in the Indenture and the Preferred Share Paying and Transfer Agency Agreement immediately after such purchase and the legends on such Notes and Preferred Shares and all applicable law, rules and regulations (including, without limitation, rules, regulations and procedures of any applicable securities exchange, self-regulatory organization or clearing agency);

(iii) (a) the Rating Condition has been satisfied with respect to S&P (so long as any Notes are then rated by S&P) and (b) either (A) the Class B-1L Overcollateralization Ratio is at least 107.5% and the Collateral Quality Tests are satisfied as of the related Extension Determination Date and the Interest Coverage Test was satisfied on the immediately preceding Payment Date, the rating of each Class of Notes by Moody's has not been downgraded, withdrawn or qualified from that in effect on the Closing Date (unless it subsequently has been reinstated to the rating assigned on the Closing Date) or (B) the Rating Condition has been satisfied with respect to Moody's (so long as any Notes are then rated by Moody's); and

(iv) (a) the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes have delivered the Extension Sale Notice in the Extension Sale Notice Period or (b) if the Holders of 100% of the Aggregate Outstanding Amount of the Class A-1LA Notes fail to deliver an Extension Sale Notice pursuant to the preceding clause (a), either (A) the Issuer, acting through the Servicer, notifies the Holders of the Class A-1LA Notes in writing not later than the last day of the Extension Sale Notice Period that such Class A-1LA Notes shall constitute "Extension Sale Securities" (as a result of which such Class A-1LA Notes must be purchased by an Extension Qualifying Purchaser) or (B) the Holders of 100% of the Aggregate Outstanding Amount of the Class A-1LA Notes have consented in writing to the Maturity Extension not later than the last day of the Extension Sale Notice Period.

In the case of a Maturity Extension, each Holder of Notes other than Extension Sale Securities and the Class X Notes shall be entitled to receive an amount equal to the applicable Extension Bonus Payment. Holders of Preferred Shares shall not be entitled to receive any Extension Bonus Payment. The obligation to make any Extension Bonus Payment shall not be rated by the Rating Agencies. The Extension Bonus Payment shall be payable to any applicable qualifying beneficial owners who have provided the Trustee with an Extension Bonus Eligibility Certification. Extension Bonus Payments which are not available to be paid on a Payment Date in accordance with the priority of distributions on a Payment Date shall not be considered "due and payable" hereunder. The failure to pay any such Extension Bonus Payment on such date shall not be an Event of Default, unless the Issuer shall fail to pay in full such Extension Bonus Payment on the earlier of the Final Maturity Date and the date of redemption in full of the relevant Notes. Unpaid Extension Bonus Payments shall not accrue interest. Such amounts shall be paid to the accounts designated in the applicable Extension Bonus Eligibility Certification or, to the extent otherwise required by the rules of any applicable securities exchange or clearing agency, in a manner determined by the Issuer.

#### *Extension Procedure*

No later than three Business Days following receipt by the Trustee of the notice given by the Issuer of its election to extend the Revolving Period (the "**Extension Notice**"), the Trustee shall deliver the Extension Notice to all Holders of Notes (other than the Class X Notes) and the Preferred Shares Paying and Transfer Agent (for forwarding to the Holders of the Preferred Shares) and each Rating Agency (so long as any rated Notes are Outstanding), in the form set out in the Indenture, and shall request the Rating Condition for the Maturity Extension from S&P, if applicable. Any Holder of Notes (other than the Class X Notes) and Preferred Shares may give irrevocable notice (an "**Extension Sale Notice**") within 30 days after the Trustee has delivered the Extension Notice (the "**Extension Sale Notice Period**") of its intention to sell its Notes or Preferred Shares to an Extension Qualifying Purchaser in the case of a Maturity Extension. If the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes have not delivered the Extension Sale Notice to the Trustee by the 20th calendar day after the date of the Extension Notice, the Trustee shall notify the Holders of the Class A-1LA Notes of the date on which the Extension Sale Notice Period shall end and include a statement to the effect that (i) no Extension Sale Notice delivered after the end of the Extension Sale Notice Period shall be effective and (ii) the Class A-1LA Notes for which no Extension Sale Notice has been delivered may be treated as Extension Sale Securities pursuant to clause (v) of the Extension Conditions (as a result of which the Class A-1LA Notes must be purchased by an Extension Qualifying Purchaser). Any Extension Sale Notice received by the Trustee after the Extension Sale Notice Period shall be disregarded and deemed not to have been given. No Holder of Notes or Preferred Shares that has not given such an Extension Sale Notice within the Extension Sale Notice Period shall be entitled to sell its Notes or Preferred Shares to an Extension Qualifying Purchaser in connection with the Maturity Extension. If clause (iii)(b)(A) of the Extension Conditions is not satisfied as of the applicable Extension Determination Date as determined by the Issuer (or its agent), the Trustee shall request the Rating Condition to be satisfied with respect to Moody's. On the applicable Extension Determination Date, the Issuer (or its agent) shall confirm (i) whether or not Extension Qualifying Purchasers for all Extension Sale Securities have been designated to purchase such Notes or Preferred Shares in compliance with all transfer restrictions in the Indenture and the legends on such Notes or Preferred Shares and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency), (ii) whether the requirements of clause (iii) of the Extension Conditions are satisfied as of the applicable Extension Determination Date and (iii) whether all other Extension Conditions can be satisfied as of the applicable Extension Effective Date. On each Extension Effective Date, the Maturity Extension shall become effective under the terms of the Indenture; *provided that* all Extension Conditions set forth above are satisfied. No later than two Business Days after each Extension Effective Date, the Trustee based on a determination made by the Issuer, at the expense of the Co-Issuers, shall deliver a notice to all Holders of Notes and the Preferred Shares Paying and Transfer Agent (for forwarding to the Holders of Preferred Shares), the Servicer, the Initial Purchaser, each Rating Agency (so long as any rated Notes are Outstanding) and the Irish Stock Exchange (if and for so long as any Class of Notes is listed thereon) confirming whether or not the Maturity Extension became effective. If the Maturity Extension became effective, the Issuer shall make any required notifications thereof to the Depositary for any Notes subject to the Maturity Extension. None of the Initial Purchaser, the Servicer or any of their respective Affiliates shall have any duty to act as an Extension Qualifying Purchaser.

#### Additional Issuance

At any time during the Revolving Period, the Issuer, as applicable, may issue and sell Additional Preferred Shares and use the proceeds from such issuance and sale (net of any fees and expenses incurred in connection with the issuance thereof, including, without limitation, compensation payable to the Initial Purchaser or any placement agent for any services provided in connection therewith) to purchase additional eligible Portfolio Collateral (which may include eligible Portfolio Collateral purchased from any Servicer Entity on an arms-length transaction basis) (an "**Additional Issuance**"); *provided* that certain conditions are satisfied, including without limitation: (a) such Additional Issuance will be a percentage (the "**Additional Issuance Percentage**") specified by the Servicer, of the original issue price of the Preferred Shares issued and Outstanding on the date of the Additional Issuance; (b) such Additional Preferred Shares must be issued for a cash sales price (the net sale proceeds to be used to purchase eligible Portfolio Collateral (or, pending such applications, deposited into the Collection Account and held in Eligible Investments)); (c) the terms (other than the date of issuance, the issue price, the date from which dividends will accrue and similar matters) of such Preferred Shares must be identical to the terms of the applicable Class of Preferred Shares; (d) the Holders of Preferred Shares must be notified in writing 30 days prior to such issuance; (e) the Servicer must consent to such Additional Issuance; and (f) Initial Purchaser must be notified in writing at least 30 days prior to such issuance.

Any amendment to the Indenture, Issuer's Memorandum of Association and Articles of Association or any other related documents required to provide for or facilitate such Additional Issuance will not require the consent of the Holders of Securities.

#### Prescription

Payment in respect of the Notes will cease to be due if not paid to the Holder due to insufficient instructions for a period of twenty years from the Relevant Date therefor. "**Relevant Date**" means the date on which the final payment in respect of the Notes first becomes due, except that if the full amount of the monies payable has not been duly received by the Paying Agent on or prior to such due date, it means the date on which such monies have been so received.

#### Form, Transfer and Transfer Restrictions

Upon issuance, the Notes of each Class sold to non-U.S. Persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) (each, a "**non-U.S. Person**") in Offshore Transactions (as defined in Regulation S) in reliance on Regulation S, initially will be represented by a single, temporary global note in fully registered form without interest coupons (the "**Temporary Regulation S Global Note**"), which will be deposited with the Trustee as custodian for, and registered in the name of a nominee on behalf of The Depository Trust Company ("**DTC**") on behalf of Euroclear Bank, S.A./N.V., as operator of The Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream**").

Subject to the receipt by the Trustee of a certificate in the form provided by the Indenture from the person holding such interest, a beneficial interest in the Temporary Regulation S Global Note may be exchanged for (i) after the 40th day after the later of the conclusion of the offering and the Closing Date (the "**Exchange Date**"), an interest in a permanent global note in fully registered form without coupons (the "**Permanent Regulation S Global Note**" and, together with the Temporary Regulation S Global Note, the "**Regulation S Global Notes**"), in an amount equal to the aggregate principal amount of such interest in the Temporary Regulation S Global Note or (ii) at any time for an interest in a Rule 144A Global Note (defined below), if a beneficial interest in a Regulation S Global Note will be transferred to a Qualified Institutional Buyer who is a U.S. Person (defined below), which note will be registered in the name of such person.

Upon deposit of the Permanent Regulation S Global Note of a Class with the Trustee, as custodian for DTC or the common depository, as applicable, Euroclear or Clearstream, as the case may be, will credit each purchaser (or its agent or custodian) with a principal amount of Notes of such Class equal to the principal amount thereof for which it has paid. The Holder of the Regulation S Global Notes (which will be DTC or its nominee) shall be the only person entitled to receive payments in respect of the Notes represented by such Regulation S Global Notes, and the Co-Issuers will be discharged by payment to, or to the order of, such Holder of such Regulation S Global Notes in respect of each amount so paid. Each of the persons shown in the records of Euroclear or of Clearstream as the Holder of a particular principal amount of Regulation S Global Notes must look solely to Euroclear or Clearstream, as the case may be, for its share of each payment so made by the Co-Issuers to, or to the order of, the Holder of such

Regulation S Global Notes. No person other than the Holder of the Regulation S Global Notes shall have any claim against the Co-Issuers in respect of any payments due on the Regulation S Global Notes.

Payments on the Regulation S Global Notes will be made pursuant to certain procedures established by DTC, *provided* that the final payment of principal and interest will be made upon presentation and endorsement of such Regulation S Global Notes at the office of a Paying Agent.

Definitive fully registered notes ("**Definitive Notes**") will be issued and exchanged for each Permanent Regulation S Global Note within 30 days of the occurrence of any of the following: (i) the Notes or any of them become immediately due and payable following an Event of Default under the Indenture; (ii) either Euroclear or Clearstream is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business and no alternative clearance system satisfactory to the Trustee is available; or (iii) as a result of any amendment to, or change in, the laws or regulations of the Cayman Islands or of any authority therein or thereof having power to tax or in the interpretation or administration of such laws or regulations which becomes effective on or after the Closing Date, the Co-Issuers or the Paying Agents are or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required were the Notes in definitive registered form. Notwithstanding the foregoing, interests in any Temporary Regulation S Global Note or any definitive registered Note purchased by a non-U.S. Person in an Offshore Transaction in accordance with Regulation S may not be exchanged for a Definitive Note until receipt by the Trustee from the owner of such beneficial interest of a certificate in the form provided by the Indenture.

Upon issuance, the Notes sold in the United States to Qualified Institutional Buyers will be issued in book-entry form ("**Rule 144A Global Notes**") only through the facilities of DTC. So long as DTC or its nominee is the registered Holder of the Rule 144A Global Notes, DTC or such nominee, as the case may be, will be considered the absolute owner or Holder of such the Notes represented by such Rule 144A Global Notes for all purposes under the Indenture and such Notes. DTC or such nominee, as the case may be, will be the only person entitled to receive payments in respect of the Notes represented by such Rule 144A Global Notes and the Co-Issuers will be discharged by payment to DTC or such nominee. Each of the persons shown in the records of DTC as the beneficial owner of a Rule 144A Global Note must look solely to DTC for its share of each payment made by the Issuer to DTC. No person other than DTC shall have any claim against the Co-Issuers in respect of any payment due under the Rule 144A Global Notes.

Payments on the Rule 144A Global Notes will be made in accordance with the established procedures of DTC and the Co-Issuers will have no liability therefor. In addition, no beneficial owner of an interest in a Rule 144A Global Note will be able to exchange or transfer such interest except in accordance with the applicable procedures of DTC. None of the Issuer, the Co-Issuer, the Trustee, the Registrar or any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Rule 144A Global Notes or for maintaining, supervising or reviewing any records relating thereto.

Definitive Notes will be issued and exchanged for each Rule 144A Global Note within 30 days of the occurrence of any of the following: (i) the Notes or any of them become immediately due and payable following an Event of Default under the Indenture; or (ii) DTC notifies the Issuer or the Trustee in writing that it is unwilling or unable to discharge properly its responsibilities as a depository with respect to the Rule 144A Global Notes or it ceases to be a "clearing agency" registered under the Exchange Act (defined below), and the Issuer and the Trustee are unable to locate a qualified successor within 90 days after such notice.

Definitive Notes may be presented for registration of transfer (with the form of transfer endorsed thereon duly executed), at the office of the Registrar, without service charge but upon payment of any taxes and other governmental charges as described in the Indenture. Any registration of transfer will be effected upon the Trustee being satisfied with the documents of title and identity of the person making the request, upon their receipt of any applicable certificates and opinions relating to transfer restrictions, as described below, and subject to such reasonable regulations as the Issuer may from time to time agree with the Trustee, all as described in the Indenture.

The Issuer has initially appointed the Trustee as Registrar. Definitive Notes may be presented for payment or for transfer or exchange at the offices of the Registrar's agent, JPMorgan Chase Bank, National Association, 4 New York Plaza, ground floor, New York, New York 10004, Attention: WSS Window – WSS (Houston) – Rockwall CDO. The Issuer reserves the right to vary or terminate the appointment of the Registrar or to appoint

additional or other registrars or to approve any change in the office through which any Registrar acts, *provided* that there will at all times be an office or agent located in New York, New York at which the Definitive Notes may be presented for payment or for transfer or exchange.

For so long as any Class of Notes is listed on the Irish Stock Exchange and the rules of such exchange shall so require, the Issuer will have a listing agent and a paying agent (which shall be the "**Irish Paying Agent**") for the Notes in Ireland and payments on such Notes may be effected through the Irish Paying Agent. In the event that the Irish Paying Agent is replaced at any time during such period, notice of the appointment of any replacement will be given to the Company Announcements Office of the Irish Stock Exchange.

A beneficial interest in a Regulation S Global Note may only be transferred to (a) a non-U.S. Person in an offshore transaction (as defined in Regulation S) (an "**Offshore Transaction**") in accordance with Regulation S (and in accordance with certain certification requirements in the Indenture) or (b) after the Exchange Date, a person who takes delivery in the form of an interest in a Rule 144A Global Note and who delivers a written certification (in the form provided in the Indenture) to the effect that such person is a Qualified Institutional Buyer and is acquiring such interest for its own account (together with certain other requirements set forth in the Indenture). Upon any exchange of a portion of a Regulation S Global Note for a Definitive Note, the Trustee shall endorse such Regulation S Global Note to reflect the reduction of the principal amount evidenced thereby.

Definitive Notes (or any interest therein) may only be transferred in accordance with the applicable laws of any state of the United States and (a) in a transaction exempt from the registration requirements of the Securities Act involving a Qualified Institutional Buyer who is a U.S. Person as transferee (in accordance with the certification requirements of the Indenture) or (b) to a person who takes delivery in the form of a beneficial interest in a Regulation S Global Note and in such case only upon receipt by the Trustee of a written certification from the transferor (in the form provided in the Indenture) to the effect that such transfer is being made to a non-U.S. Person in accordance with Regulation S. Upon any exchange of a Definitive Note for a beneficial interest in a Regulation S Global Note, the Trustee shall endorse such Regulation S Global Note to reflect the increase in the principal amount evidenced thereby.

The Registrar for the Notes will not be required to accept for registration of transfer any Note except upon presentation of a certificate substantially in the form required by the Indenture representing that these restrictions on transfer have been complied with, and, if requested by the Issuer or the Trustee, an opinion of counsel in form and substance satisfactory to the Issuer or the Trustee to the effect that such transfer has been made in compliance with an applicable exemption from the registration requirements of the Securities Act and in accordance with any applicable securities laws of any state of the United States and any other jurisdiction. See "Delivery of the Notes; Transfer Restrictions; Settlement."

No Note may be sold or transferred unless such sale or transfer will not constitute or result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code. In addition, no Class B-1L Note may be sold or transferred to any Plan, or to any person acting on behalf of or with "plan assets" of any Plan, including an insurance company general account, unless the purchaser or transferee is eligible for the exemptive relief available under PTCE 96-23, 95-60, 91-38, 90-1 or 84-14. See "Certain ERISA Considerations."

In addition, sales or other transfers of the Notes may only be made to a purchaser or other transferee (other than a non-U.S. Person in an offshore transaction under Regulation S) that is a Qualified Purchaser in a sale or transfer that would not require the Co-Issuers to become subject to the requirements of the Investment Company Act and the Notes will bear a legend to this effect. See "Delivery of the Notes; Transfer Restrictions; Settlement."

Each prospective purchaser will be deemed to (i) represent that such prospective purchaser is a Qualified Institutional Buyer and is purchasing or acquiring Notes solely for its own account or is a non-U.S. Person, (ii) that it and each account for which it is purchasing is purchasing a Class of Notes in at least the related minimum denomination, (iii) that it is a 'single beneficial owner' for purposes of Section 3(c)(1) of the Investment Company Act and (iv) have made the additional representations described under "Delivery of the Notes; Transfer Restrictions; Settlement."

DTC is a limited purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Securities Exchange Act of 1934, as amended (the "**Exchange Act**"). DTC was created to hold securities for its participants (the "**DTC Participants**") and to facilitate the clearance and settlement of securities transactions between DTC Participants through electronic computerized book-entries, thereby eliminating the need for physical movement of certificates. DTC Participants include securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to the DTC system also is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly ("**Indirect Participants**").

Unless and until Definitive Notes are issued, all references to actions by Holders of the Rule 144A Global Notes holding through DTC will refer to actions taken by DTC upon instructions received from beneficial owners of the Rule 144A Global Notes through DTC Participants, and all references herein to payments, notices, reports, statements and other information to Holders of Rule 144A Global Notes will refer to payments, notices, reports and statements to DTC or its nominees, as the registered Holder of the Rule 144A Global Notes, for distribution to beneficial owners of Rule 144A Global Notes through DTC Participants in accordance with DTC procedures.

Clearstream is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations ("**Clearstream, Luxembourg Participants**") and facilitates the clearance and settlement of securities transactions between Clearstream, Luxembourg Participants through electronic book-entry changes in accounts of Clearstream, Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to its Clearstream, Luxembourg Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream, Luxembourg Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the Initial Purchaser. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream, Luxembourg Participant, either directly or indirectly.

Euroclear was created to hold securities for participants of Euroclear ("**Euroclear Participants**") and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries generally similar to the arrangements for cross-market transfers with DTC described above. Euroclear is operated by Euroclear Bank S.A./N.V. (the "**Euroclear Operator**"), under contract with Euroclear Clearance System, S.C., a Belgian cooperative corporation (the "**Cooperative**"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the Initial Purchaser. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is the Belgian branch of a New York banking corporation which is a member bank of the Federal Reserve System. As such, it is regulated and examined by the Board of Governors of the Federal Reserve System and the New York State Banking Department, as well as the Belgian Banking Commission.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of Euroclear and applicable Belgian law (collectively, the "**Terms and Conditions**"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawal of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions

only on behalf of Euroclear Participants and has no record of or relationship with persons holding through Euroclear Participants.

#### Option to Acquire Bond Insurance

The Indenture will provide that Holders of any Class of Notes may elect to acquire bond insurance, a surety bond or similar credit enhancement supporting the payment of principal and/or interest on such Class of Notes, on terms and conditions acceptable to such Holders. Any Class of Notes subject to such enhancement will be designated as "**Insured Notes**" of such Class. Premiums for any such enhancement will be payable from amounts otherwise payable to such Class of Insured Notes or in such other manner chosen by such Holder. Any Insured Notes of a Class for substantially all other purposes will be treated as Notes of such Class, except that the issuer of the bond insurance policy, surety bond or other such credit enhancement will generally be deemed to be the Holder of the Notes of such Class enhanced by such entity and will in such capacity be entitled to exercise the rights otherwise exercisable by Holders of such Notes.

### **SECURITY FOR THE NOTES**

The Notes will be secured by the Trust Estate. The Trust Estate will consist of substantially all property of the Issuer, including the Portfolio Collateral, the Collection Account, the Initial Deposit Account, the Loan Funding Account, the Expense Reimbursement Account and the Closing Expense Account.

#### Portfolio Collateral—General

The Portfolio Collateral (including Original Portfolio Collateral, Additional Portfolio Collateral and Substitute Portfolio Collateral) when purchased (or when committed to be purchased) by the Issuer, will consist of (I) United States dollar denominated commercial loans in registered form, including participation and assignment interests therein, collateralized loan obligations, including synthetic securities, of any corporation, partnership, limited liability company or trust, of the United States government or any agency or instrumentality thereof or of other sovereign issuers, which obligations:

- (a) are "eligible assets" as defined in Rule 3a-7;
- (b) except as described below, provide for periodic payments of interest thereon in cash no less frequently than semiannually;
- (c) provide for a fixed amount of principal to be payable according to a fixed schedule or at maturity;
- (d) are not items of Defaulted Portfolio Collateral, items of Equity Portfolio Collateral or a margin stock, or, except as described below, items of Credit Risk Portfolio Collateral;
- (e) except as described below, are not zero-coupon bonds, bonds that provide for a combination of no coupon and a fixed coupon, step-up bonds (except for step-up bonds providing for the payment of current interest at a rate no less than 5% *per annum* or Collateral LIBOR, if floating rate), other than with respect to the Initial Portfolio Collateral on the Closing Date, Partial Deferred Interest Bonds (except for such bonds providing for the payment of current interest at a rate no less than 5% *per annum* or Collateral LIBOR, if floating rate);
- (f) are not currently the subject of an Offer that would result in (i) the Issuer owning a security not meeting the requirements of Portfolio Collateral, not paying current interest, or, in the reasonable judgment of the Servicer, not expected to pay in full at maturity, or (ii) the Issuer receiving Eligible Investments or cash in a par amount less than that of the original security or the subject of an Exchange Offer;
- (g) do not provide for conversion or exchange into equity capital at any time over their respective lives (other than the exercise of any warrant, profit participation or other equity-like interest which is a component of a Unit);

(h) with respect to Portfolio Collateral which consists of Floating Rate Collateral, have an interest rate which adjusts periodically in accordance with changes in one or more established indices at least one of which is the London interbank offered rate for one-, two-, three- or six-month U.S. dollar deposits and which adjusts at least semiannually or, with respect to items of Fixed Rate Collateral, have an interest rate that remains constant until the maturity of such obligations or are Reset Debt Securities; *provided* that not more than 5.0% of the Aggregate Principal Amount of the Portfolio Collateral included in the Trust Estate may include items of Portfolio Collateral the interest rate on which adjusts in accordance with one or more indices that do not include the London interbank offered rate for one-, two-, three-, or six-month U.S. dollar deposits;

(i) have coupon or other payments that are not subject to U.S. withholding tax and are not at time of purchase subject to foreign withholding tax unless the issuer of the security is required to make "gross-up" payments sufficient to cause the net amount to be received on the debt obligations to equal the amount that would have been paid had no such withholding tax applied;

(j) mature on or before August 1, 2021 or, if a Maturity Extension as occurred, the then applicable Extended Final Maturity Date, except that up to 5.0% of the Aggregate Par Amount may mature after such date but before 5 years after such date; *provided that*, with respect to Portfolio Loans, no more than 3.0% of the Aggregate Par Amount may mature after August 1, 2021 or, if a Maturity Extension as occurred, the then applicable Extended Final Maturity Date, but before two years after such date and no Portfolio Loans may mature after two years after such date;

(k) the terms of which do not, unless they are Delayed Drawdown Loans or Revolving Loans, require the Holder to assume or otherwise undertake any funding obligations or liabilities (of a contingent nature or otherwise);

(l) are payable only in United States dollars;

(m) are not Current Pay Obligations

(n) are not Debt Securities;

(o) the S&P Rating of which does not include a subscript of "r", "t", "p", "pi" or "q" unless otherwise agreed to by Standard & Poor's in writing and a Moody's Rating that addresses the full amount of principal or interest indicated would be paid;

(p) and, during the Revolving Period, CLO Securities having a Moody's Rating of "Ba2" or higher and an S&P Rating of "BB" or higher and, after the Revolving Period are not CLO Securities;

(q) are not PIK Bonds which are currently deferring interest payments or receiving payments in-kind pursuant to the terms of the related Underlying Instrument; and

(r) satisfy, together with the other Portfolio Collateral to be concurrently included in the Trust Estate, the other applicable criteria set forth in the Indenture, including the ratings guidelines and guidelines concerning issuer concentration and industry concentration described below; or

(II) Synthetic Securities (as described herein); *provided* that the Servicer concludes, based on advice of counsel, that the Synthetic Securities are "eligible assets" for purposes of Rule 3a-7.

Interests in commercial loans included in the Portfolio Collateral are referred to herein as "**Portfolio Loans**," and interests in collateralized loan obligations in the Portfolio Collateral are referred to herein as "**CLO Securities**." The Issuer may invest in participations ("**Participations**") in Portfolio Loans, or purchase assignments ("**Assignments**") of portions of Portfolio Loans.

In addition, up to 20% of the Aggregate Par Amount may consist of Synthetic Securities. The purchase of Synthetic Securities may involve certain additional risks not present in the purchase of other Portfolio Collateral.

See "Special Considerations—Nature of Collateral Pledged to Secure the Notes; Ability to Obtain Additional Portfolio Collateral; Availability of Funds for Subordinate Payments" For purposes of the eligibility criteria and related tests, a Synthetic Security will generally be included as an item of Portfolio Collateral having the maturity, interest rate and other payment characteristics of the Synthetic Security and not of the Reference Obligation (including characterization as either an item of Fixed Rate Collateral or Floating Rate Collateral) and, with respect to all other characteristics, will be included as an item of Portfolio Collateral having the relevant characteristics of the related Reference Obligation and not of the Synthetic Security.

Notwithstanding anything contained herein to the contrary, in no event may the Issuer acquire or dispose of any item of Portfolio Collateral or other eligible asset (as defined in Rule 3a-7) for the primary purpose of recognizing gains or decreasing losses resulting from market value changes.

Notwithstanding the foregoing, if the Issuer or the Servicer has previously entered into a commitment to purchase an item of Portfolio Collateral to be included in the Trust Estate and at the time of such commitment such item of Portfolio Collateral complied with the definition of Portfolio Collateral, then the Issuer or Servicer may consummate the purchase of such item of Portfolio Collateral notwithstanding that such item of Portfolio Collateral fails to comply with the definition of Portfolio Collateral on the date of settlement.

The Servicer may only direct the Trustee to sell an item of Portfolio Collateral that is the subject of an Offer or call for redemption, if together with its direction to sell such security, the Servicer certifies to the Trustee that the sales price for such Security is equal to or greater than 1% less than the price available pursuant to such Offer or call and such sale will be treated as if the Offer or call were consummated for purposes of determining the Collections for the Due Period relating to the date on which such sale occurs.

The manner and timing for any purchase or sale of any item of Portfolio Collateral and the determination of when any such purchase or sale becomes effective for purposes of any calculations of the Overcollateralization Tests or other collateral criteria shall be set forth in the Indenture.

If an item of Portfolio Collateral becomes subject to an Exchange Offer after it has been purchased by the Issuer, the Servicer will be permitted to take such action with respect to the Underlying Instrument or the issuer thereof as may be required to convert such item of Portfolio Collateral into an item of Equity Portfolio Collateral.

Simultaneously with the issuance of the Notes, an Aggregate Principal Amount of Initial Portfolio Collateral securing the Notes at least equal to the Initial Portfolio Collateral Amount will be acquired or committed to be acquired by the Issuer from the net proceeds of the sale of the Notes and the Preferred Shares. The Issuer will also pledge the Deposit (consisting of cash deposited in the Initial Deposit Account in the approximate amount such that the Issuer can purchase or commit to purchase an Aggregate Principal Amount of Original Portfolio Collateral on or before November 1, 2006 (the "**Effective Date**"), at least equal the Required Portfolio Collateral Amount) to the Trustee on the Closing Date, which Deposit will be used to purchase Eligible Investments at the direction of the Issuer pending application to purchase or commit to purchase Portfolio Collateral on or before the Effective Date, subject to the requirements and restrictions set forth in the Indenture. A portion of the Initial Portfolio Collateral, and the remaining Portfolio Collateral may be, acquired from or through Bear Stearns, the Servicer or their affiliates, at negotiated prices acceptable to the Issuer and the Servicer or if purchased from the Servicer or its affiliates at prices determined in accordance with the procedures described under "Special Considerations—Potential Conflicts of Interest."

The Issuer and the Servicer will seek to use the Deposit to purchase additional Original Portfolio Collateral prior to the Effective Date in accordance with the guidelines described herein and in the Indenture. If the Issuer and the Servicer are unable to use or commit to use the full amount of the Deposit on or prior to the Effective Date to purchase additional Original Portfolio Collateral having an Aggregate Principal Amount (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) at least equal to the Required Portfolio Collateral Amount, the Issuer will be required to effect an Initial Deposit Redemption on the Initial Deposit Redemption Date as described herein except, if the amount of the Deposit not so used or committed does not exceed U.S.\$2,000,000 in the aggregate, such amount will be transferred to the Collection Account as Collateral Principal Collections on the Effective Date.

If a Suspension Trigger Event is in effect, a majority of the Controlling Class may deliver notice to the Issuer directing the Issuer and the Servicer to suspend any purchases of additional items for inclusion in the Trust Estate as an item of Portfolio Collateral. Such suspension shall automatically terminate once a Suspension Trigger Event is no longer in effect.

#### Criteria for Purchase and Substitution of Collateral

The Issuer's entry into a commitment to purchase any additional collateralized loan obligations, synthetic securities and commercial loans after the Effective Date (each, an item of "**Additional Portfolio Collateral**") with Available Funds is subject to the limitations described under "Security for the Notes—Changes in Composition of Portfolio Collateral" and further is subject in each case to the following restrictions: (i) each of the Overcollateralization Tests is satisfied (*provided* that unscheduled principal proceeds may be used to purchase Additional Portfolio Collateral even if such tests are not satisfied, so long as the results of such tests would not be diminished) and (ii) the collateral criteria specified below are satisfied or the degree of compliance with such collateral criteria would not be diminished. In addition, during the Amortization Period, Collateral Principal Collections from any unscheduled prepayment may be used to purchase Additional Portfolio Collateral as described and meeting the requirements herein. The Issuer's entry into a commitment to purchase any substitute collateralized loan obligations, synthetic securities and commercial loans (each, an item of "**Substitute Portfolio Collateral**") with Collateral Disposition Proceeds during the Revolving Period is subject in each case to the following restrictions: (i) the Overcollateralization Tests and the collateral criteria specified herein are satisfied and the Interest Coverage Test (after the second Payment Date) for the most recent Payment Date was satisfied or (ii) if the Overcollateralization Tests and the collateral criteria specified below are not satisfied, the degree of compliance with such tests or criteria would not be diminished. In connection with a sale of an item of Credit Improved Portfolio Collateral after the Revolving Period or the receipt of Collateral Principal Collections in connection with an unscheduled prepayment after the Revolving Period, the Issuer may enter into commitments to apply such net disposition proceeds or such unscheduled prepayments (net of accrued interest and costs) to the purchase of Portfolio Loans either as Additional Portfolio Collateral or Substitute Portfolio Collateral. Substitute Portfolio Collateral may not be purchased with Collateral Disposition Proceeds from the sale of Defaulted Portfolio Collateral unless, after giving effect to such purchase, each of the Overcollateralization Tests is satisfied and the Interest Coverage Test for the most recent Payment Date was satisfied. The Issuer is not required, and may not be permitted under certain circumstances, to purchase or sell Portfolio Collateral and the rules described above are limited as set forth below under "—Changes in Composition of Portfolio Collateral."

Notwithstanding the forgoing, if there is no appointment of a successor Servicer within 90 days after the resignation or termination of the Servicer, any sales or disposition of Portfolio Collateral shall be limited to Credit Risk Portfolio Collateral and Defaulted Portfolio Collateral; provided that such restriction on the sale or disposition of Portfolio Collateral shall not apply if the Portfolio Collateral is being liquidated in whole or in part in connection with an acceleration or early termination of the Notes.

#### S&P CDO Monitor Test

The "**S&P CDO Monitor Test**" will be satisfied if, after giving effect to the purchase or sale of an item of Portfolio Collateral (or both), as the case may be, (i) the S&P Loss Differential (defined below) of the Proposed Portfolio (defined below) is positive or (ii) the S&P Loss Differential of the Proposed Portfolio is greater than the S&P Loss Differential of the Current Portfolio (defined below). The S&P CDO Monitor Test is not applicable and does not have to be satisfied or maintained when reinvesting the proceeds of Defaulted Portfolio Collateral or Credit Risk Portfolio Collateral.

The "**S&P Loss Differential**" at any time, is the rate calculated by subtracting the S&P Scenario Default Rate (defined below) from the S&P Break-Even Default Rate (defined below) at such time.

The "**S&P Scenario Default Rate**" at any time, is an estimate of the cumulative default rate for the Current Portfolio or the Proposed Portfolio, as applicable, consistent with a "AAA" rating by S&P with respect to the Class A-1L Notes and the Class X Notes, a "AA" rating by S&P with respect to the Class A-2L Notes, a "A" rating by

S&P with respect to the Class A-3L Notes, a "A-" rating by S&P with respect to the Class A-4L Notes and a "BBB" rating by S&P with respect to the Class B-1L Notes, determined by application of the S&P CDO Monitor (defined below) at such time.

The "**S&P Break-Even Default Rate**" at any time, is the maximum percentage of defaults which the Current Portfolio or the Proposed Portfolio, as applicable, can sustain, as determined by S&P through application of the S&P CDO Monitor which, after giving effect to S&P's assumptions on recoveries and timing and to the priority of payments, will result in sufficient funds remaining for the principal repayment of the Notes in full and the timely payment, as applicable, of interest on each Class of Notes as set forth in the Indenture.

The "**Current Portfolio**" means the Pledged Securities in the Trust Estate immediately prior to the sale, maturity or other disposition of an item of Portfolio Collateral or immediately prior to the acquisition of an item of Portfolio Collateral, as the case may be.

The "**Proposed Portfolio**" means the Aggregate Par Amount resulting from the sale, maturity or other disposition of an item of Portfolio Collateral or a proposed purchase of an item of Portfolio Collateral, as the case may be.

The "**S&P CDO Monitor**" is a dynamic, analytical computer model developed by S&P and used to estimate default risk of items of Portfolio Collateral and provided to the Servicer and the Issuer on or before the Closing Date, as it may be modified by S&P from time to time in connection with its confirmation of the ratings of the Notes following the Closing Date. The S&P CDO Monitor calculates the cumulative default rate of a pool of Portfolio Collateral consistent with a specified benchmark rating level based upon S&P's proprietary corporate debt default studies. In calculating the S&P Scenario Default Rate, the S&P CDO Monitor considers each obligor's most senior unsecured debt rating, the number of obligors in the portfolio, the obligor and industry concentration in the portfolio and the remaining weighted average maturity of the Portfolio Collateral and calculates a cumulative default rate based on the statistical probability of distributions of defaults on the Portfolio Collateral.

#### Moody's Asset Correlation Test and Weighted Average Rating Test

The Moody's Asset Correlation Test and weighted average rating of the Portfolio Collateral will be calculated in accordance with the methodology prescribed by Moody's and more fully described in the Indenture. The MAC Test and "**Weighted Average Rating Test**" will be satisfied in accordance with the application of the Collateral Quality Matrix described below.

The Moody's Asset Correlation ("**MAC**") Test (the "**MAC Test**") will be satisfied on each Measurement Date if the Moody's Correlation Factor on such Measurement Date (rounded up to the nearest whole number) is equal to or less than the designated Moody's Correlation Factor determined by application of the Collateral Quality Matrix. In connection with the MAC Test, the Moody's Correlation Factor is a single number determined in accordance with the correlation methodology provided to the Servicer and the Collateral Administrator by Moody's.

#### Collateral Quality Matrix Tests

Under the Indenture, the Servicer will be permitted to select from a table (that will be included in the Indenture, the "**Collateral Quality Matrix**"), a different group of thresholds for satisfying or otherwise determining the following tests:

- the Moody's Asset Correlation Test;
- the Minimum Average Recovery Rate Test;
- the Weighted Average Rating Test; and
- the Weighted Average Margin Test.

Therefore, notwithstanding anything to the contrary described herein, after giving effect to the proposed purchase of any Portfolio Collateral, the minimum/maximum amounts required to satisfy each of such tests may vary from time to time. In determining whether the criteria set forth in the Collateral Quality Matrix are satisfied, the Servicer may use the Collateral Quality Formula (as set forth in the Indenture) to interpolate between values of such criteria or may use any other method that is agreed to by the Issuer and Moody's. Depending on the combination of thresholds in the Collateral Quality Matrix selected by the Servicer at any time, except as described below, the minimum required MAC Test can range from 3.0% to 4.0%; the maximum permitted weighted average rating factor prescribed by Moody's can range from 1500 to 2500; the minimum required average recovery rate prescribed by Moody's can range from 40.0% to 45.5% and the minimum Weighted Average Margin can range from 1.50% to 3.00%.

Each group of minimum/maximum amounts included in the Collateral Quality Matrix will include a combination of the minimum/maximum scores that are required to satisfy each of the Collateral Quality Matrix Tests. The Servicer may elect from time to time to have different combinations apply so long as (a) immediately after giving effect to the change in combinations, each of the applicable tests will be satisfied or not diminished and (b) the S&P CDO Monitor Test would have been satisfied as of the date of the most recent purchase or sale of an item of Portfolio Collateral had such test been calculated using the Current Portfolio, the Proposed Portfolio, and the S&P Scenario Default Rate that was in effect immediately prior to such purchase or sale, but using the S&P Break-Even Default Rate applicable to the Notes that would have been applicable after giving effect to the change in combinations. In no event will the Servicer be obligated to change the combinations contemplated by the Collateral Quality Matrix. Notwithstanding the foregoing, the combination of scores required to satisfy each of the Collateral Quality Matrix Tests may be changed if the Rating Condition is satisfied with respect to such change and, as a result, the minimum/maximum amounts may change as well.

#### Weighted Average Margin Test

The "**Weighted Average Margin Test**" will be determined by application of the Collateral Quality Matrix described above, after giving effect to any Coupon Adjustment.

The "**Weighted Average Margin**" refers to the amount (rounded up to the nearest 0.001%) equal to (i) the sum of the products obtained by multiplying the margin over Collateral LIBOR on each item of Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) as of the date of calculation (which will be determined for items of Floating Rate Collateral that do not bear interest based on Collateral LIBOR by expressing the current interest rate on such Floating Rate Collateral as a margin above or below three-month LIBOR on the date of determination, which margin will be expressed as a negative number if such current interest rate is lower than three-month LIBOR) by the Principal Balance of such item of Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) as of such date, divided by (ii) the Aggregate Principal Amount of all such Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) on such date.

For purposes of calculating the Weighted Average Margin for any Delayed Drawdown Loan or Revolving Bank Loan, the principal balance representing the funded portion will be multiplied by the margin above Collateral LIBOR and the principal balance representing the unfunded portion will be multiplied by the commitment fee related thereto.

If an item of Floating Rate Portfolio Collateral does not provide for Collateral LIBOR, the margin for this purpose shall be equal to the then applicable interest rate minus then current LIBOR. If an item of Floating Rate Portfolio Collateral has a Collateral LIBOR floor, the excess of such floor rate over Collateral LIBOR will be added to the margin above Collateral LIBOR for purposes of calculating the Weighted Average Margin of such item of Floating Rate Portfolio Collateral.

#### Weighted Average Coupon Test

The "**Weighted Average Coupon Test**" will be satisfied if, after the Effective Date, none of the Portfolio Collateral is Fixed Rate Portfolio Collateral or if, after giving effect to the proposed purchase of any Portfolio Collateral and after giving effect to any Coupon Adjustment, the Weighted Average Coupon is at least equal to 7.5%

*per annum* as of the date of determination (or such lower per annum rate that the Rating Agencies have confirmed would not result in a withdrawal or downgrade of any of the then current ratings assigned by them to the Notes).

The "**Weighted Average Coupon**" refers to the amount (rounded up to the nearest 0.001%) determined by summing the products obtained by multiplying, for each item of Fixed Rate Collateral then included in the Trust Estate (other than items of Defaulted Portfolio Collateral), the Principal Balance of such item of Portfolio Collateral and the stated rate of interest of such item of Portfolio Collateral and then dividing such sum by the Aggregate Principal Amount of all of the Fixed Rate Collateral included in the Trust Estate (other than items of Defaulted Portfolio Collateral) as of such date of determination.

Minimum Average Recovery Rate Test. The Minimum Average Recovery Rate will be calculated in accordance with the methodology prescribed by Moody's and S&P and more fully described in the Indenture. The "**Minimum Average Recovery Rate Test**" with respect to Moody's, will be determined by application of the Collateral Quality Matrix described above and with respect to S&P, will be determined as set forth in the Indenture.

Weighted Average Life Requirement. The "**Weighted Average Life Requirement**" will be satisfied on any date of determination if the Weighted Average Life on such date of all items of Portfolio Collateral is equal to or less than the number of years set forth in Schedule I to the Indenture opposite the period set forth in Schedule I to the Indenture in which such requirement is being measured or, in the case of a Maturity Extension, the Extended Weighted Average Life Date. Notwithstanding the foregoing, the Weighted Average Life may vary from the restrictions set forth in the Indenture if the Rating Agencies have confirmed such variance would not result in a withdrawal or downgrade of any of the then current ratings assigned by them to the Notes.

The "**Weighted Average Life**" refers to the amount determined by summing the products obtained by multiplying, for each item of Portfolio Collateral (other than items of Defaulted Portfolio Collateral) then included in the Trust Estate, the Principal Balance of such item of Portfolio Collateral and the Average Life (as such term is defined below) of such item of Portfolio Collateral as of such date of determination and then dividing such sum by the Aggregate Principal Amount of all of the Portfolio Collateral (other than items of Defaulted Portfolio Collateral and Current Pay Obligations) included in the Trust Estate as of such date of determination. For any item of Portfolio Collateral, the "Average Life" shall be equal to the number of years obtained by dividing (a) the Principal Balance of such item of Portfolio Collateral into (b) the sum of the products obtained by multiplying (i) the amount of each of the remaining, required principal payments on such item of Portfolio Collateral by (ii) the number of years (calculated to the nearest one-twelfth) that will have elapsed between such date of determination and the making of such payment.

Rating. After giving effect to the proposed purchase of any Portfolio Collateral: (i) at least 90% of the Aggregate Principal Amount of the Portfolio Collateral included in the Trust Estate must be obligations of issuers having at least one class of indebtedness actually rated by Moody's (either publicly or privately) and (ii) at least 90% of the Aggregate Principal Amount of the Portfolio Collateral in the Trust Estate must be obligations of issuers having at least one class of indebtedness actually rated by S&P (either publicly or privately).

CCC/Caa Portfolio Collateral Limitation. The proposed purchase of any Portfolio Collateral may not increase the Aggregate Principal Amount of CCC/Caa Portfolio Collateral in the Trust Estate to more than 5.0% of the Aggregate Par Amount; *provided that* the Issuer may purchase CCC/Caa Portfolio Collateral which would increase the Aggregate Principal Amount of CCC/Caa Portfolio Collateral in the Trust Estate above 5.0% of the Aggregate Par Amount with the proceeds of CCC/Caa Portfolio Collateral; and *provided further* that no CLO Securities may be included in the determination of this CCC/Caa Portfolio Collateral Limitation.

Limitation on Non-U.S. Debt. After giving effect to the proposed purchase of any Portfolio Collateral,

(a) not more than 10% of the Aggregate Par Amount may consist of items of Portfolio Loans that are obligations of Permitted Non-U.S. Obligors;

#### Changes in Composition of Portfolio Collateral

The Portfolio Collateral may be retired prior to their respective final maturities, as a result of, among other things, the existence and frequency of exercise of any optional or mandatory redemption features of such securities. Subject to the terms of the Servicing Agreement and the Indenture, the Servicer is also permitted to direct the Trustee to sell (i) any Defaulted Portfolio Collateral and (ii) any Equity Portfolio Collateral.

In addition, subject to the terms of the Servicing Agreement and the Indenture, including the restrictions described herein, the Servicer may, at any time during the life of the Notes, direct the Trustee to dispose of one or more items of Portfolio Collateral in cases where (i) an item of Portfolio Collateral is, in the Servicer's sole judgment (which judgment shall not be questioned as a result of subsequent events), likely to decline in credit quality and, with the passage of time, become an item of Defaulted Portfolio Collateral; *provided*, that in forming such judgment an increase in credit spread or a decrease in Market Value of such item of Portfolio Collateral may only be utilized as corroboration of other bases of such judgment ("**Credit Risk Portfolio Collateral**") or (ii) an item of Portfolio Collateral has, in the Servicer's sole judgment, improved in credit quality or otherwise satisfies the Credit Improved Criteria (subject to the proviso thereof); *provided*, that in forming such judgment a reduction in credit spread or an increase in Market Value of such item of Portfolio Collateral may only be utilized as corroboration of other bases of such judgment ("**Credit Improved Portfolio Collateral**"). Notwithstanding anything to the contrary stated herein, if any item of Portfolio Collateral is to be purchased with the Collateral Disposition Proceeds of one or more assets that are not Credit Risk Portfolio Collateral, Defaulted Portfolio Collateral, Portfolio Collateral Sold pursuant to a Portfolio Improvement Exchange or Portfolio Collateral that has become subject to withholding tax, the purchase of the proposed item of Portfolio Collateral must (i) restore compliance with the collateral criteria described above, the Interest Coverage Test or the Overcollateralization Tests (or bring the total Portfolio Collateral closer to compliance with any such test or limitation) not then satisfied or (ii) on a net basis improve the quality of the Portfolio Collateral as measured by such collateral criteria, Interest Coverage Test or Overcollateralization Tests and (iii) in the case of each of clause (i) and (ii) without causing any other collateral criteria, Interest Coverage Test or Overcollateralization Test to be violated or significantly increase the likelihood of such violation in the future.

In determining whether any Portfolio Collateral is likely to decline in credit quality and, with the passage of time become Defaulted Portfolio Collateral, the Servicer may, in its sole judgment, consider any relevant factor,

including (without limitation) whether any of the Credit Risk Criteria exist. Notwithstanding the foregoing, the existence or absence of any particular factor shall not require or prevent the Servicer's determination that any Portfolio Collateral is likely to decline in credit quality and, with the passage of time, become Defaulted Portfolio Collateral; *provided* that in forming such determination an increase in credit spread or a decrease in Market Value of such item of Portfolio Collateral may only be used as corroboration of other bases for such determination. Substitute Portfolio Collateral may not be purchased with Collateral Disposition Proceeds from the sale of Defaulted Portfolio Collateral unless, after giving effect to such purchase, each of the Overcollateralization Tests is satisfied and the Interest Coverage Test for the most recent Payment Date was satisfied.

In determining whether any Portfolio Collateral meets the definition of Credit Improved Portfolio Collateral, the Servicer may, in its sole judgment, consider any relevant factor, including (without limitation) whether any of the Credit Improved Criteria exist. Notwithstanding the foregoing, the existence or absence of any particular factor shall not require or prevent the Servicer's determination that any Portfolio Collateral has a market price that is greater than the price that is warranted by its terms and credit characteristics; *provided*, that in forming such judgment a reduction in credit spread or an increase in Market Value of such item of Credit Improved Portfolio Collateral may only be utilized as corroboration or other bases for such judgment.

Subject to the Sale Restriction Condition, Credit Risk Portfolio Collateral may be sold at any time. In connection with a sale of an item of Credit Improved Portfolio Collateral during the Revolving Period, the Servicer (x) is required to identify in writing before the sale one or more specific manners in which it will be able, in accordance with the requirements of the Indenture, to cause the Issuer to apply the Collateral Disposition Proceeds of such sale (net of accrued interest and costs) to the purchase of Substitute Portfolio Collateral having an Aggregate Principal Amount equal to or greater than the Principal Balance of such item of Credit Improved Portfolio Collateral by the end of the immediately succeeding Due Period (it being understood that such identification shall not be considered a requirement or an assurance that my specific purchase will be consummated) and (y) is required to certify that it reasonably believes at the time of such sale that, after giving effect to such sale and subsequent purchase, either (i) the Overcollateralization Tests and all other criteria for the purchase of Portfolio Collateral are satisfied or (ii) if one or more of such tests or criteria is not satisfied, the degree of compliance with such test or criteria would not be diminished. Notwithstanding the foregoing, any Portfolio Collateral may also be sold upon the advice of an opinion of counsel that such item of Portfolio Collateral is, or may become, subject to a withholding or other similar tax. Notwithstanding anything to the contrary stated herein, the Servicer may direct the sale of an item of Portfolio Collateral that was CCC/Caa Portfolio Collateral or Discount Portfolio Collateral at the time of purchase only if it constitutes Credit Risk Portfolio Collateral or Defaulted Portfolio Collateral, is sold in connection with the Optional Redemption of Notes in whole or if the Servicer reasonably expects that the sale and any related purchase of Substitute Portfolio Collateral will restore compliance with any of the Interest Coverage Test, the collateral criteria described above or the Overcollateralization Tests that would be failed or not satisfied in the absence of such sale and purchase.

During any period after the first Due Period (x) with respect to sales of Credit Risk Portfolio Collateral, if the rating of the Class A-1LA Notes, the Class A-1LB Notes or the Class A-2L Notes has been downgraded at least one rating sub-category by Moody's (and has not been restored) or the rating of any of the Class A-3L Notes, the Class A-4L Notes or the Class B-1L Notes has been downgraded by at least two rating sub-categories by Moody's (and has not been restored to a rating no more than one rating sub-category below the original rating of such Class of Notes), or if the Class A Overcollateralization Ratio is less than 90% of the Class A Overcollateralization Percentage, or (y) with respect to sales of Credit Improved Portfolio Collateral, if the rating of the Class A-1L Notes, the Class A-1LB Notes or the Class A-2L Notes has been downgraded at least one rating sub-category by Moody's (and has not been restored) or the rating of any of the Class A-3L Notes, the Class A-4L Notes or the Class B-1L Notes has been downgraded by at least two rating sub-categories by Moody's (and has not been restored to a rating no more than one rating sub-category below the original rating of such Class of Notes) (each applicable condition described in clauses (x) and (y), a "**Sale Restriction Condition**"), the Issuer is required to send a notice to the Trustee and the Holders of the Notes to the effect that for so long as the applicable Sale Restriction Condition exists, unless the Holders of at least 60% in Aggregate Principal Amount of the Notes elect to retain the guidelines in effect on the Closing Date for sales of an item of Credit Risk Portfolio Collateral or Credit Improved Portfolio Collateral, as applicable, (i) no item of Credit Risk Portfolio Collateral may be sold unless (A) the rating of the obligor or of any debt or securities issued by the obligor under such an item of Credit Risk Portfolio Collateral has been lowered, withdrawn or put on any "credit watch" list (or similar list) with negative implications by S&P, Moody's or Fitch, or (B) such an item of Credit Risk Portfolio Collateral satisfies the Credit Risk Criteria and not

objected to by the Holders of more than 60% in Aggregate Principal Amount of the Notes within forty-five (45) days of the date of such notice; *provided* that in making such determination to sell an item of Credit Risk Portfolio Collateral, an increase in credit spread or a decrease in Market Value of such item of Credit Risk Portfolio Collateral may only be used as corroboration of other bases for such determination or (ii) no item of Credit Improved Portfolio Collateral may be sold unless such item of Credit Improved Portfolio Collateral satisfies the Credit Improved Criteria and not objected to by the Holders of more than 60% in Aggregate Principal Amount of the Notes within forty-five (45) days of the date of such notice; *provided*, that in making such determination to sell such item of Credit Improved Portfolio Collateral, a reduction in credit spread or an increase in Market Value of such item of Credit Improved Portfolio Collateral may only be utilized as corroboration or other bases for such judgment.

During the Due Periods relating to the Revolving Period, and under certain circumstances during the Amortization Period as described below, certain Collections identified above under "Description of the Notes—Payments on the Notes; Priority of Distributions" will be used to purchase Additional Portfolio Collateral as described below subject to satisfaction or, in certain cases, maintenance of the Overcollateralization Tests and the collateral criteria described herein and satisfaction of the Interest Coverage Test (after the second Payment Date) for the most recent Payment Date as more specifically set forth in the Indenture.

During any period when certain Collections are to be used to purchase Additional Portfolio Collateral, the Servicer generally will have the authority to commit to a purchase of such Additional Portfolio Collateral upon the receipt (actual or scheduled) in the Collection Account of Collections of an amount at least equal to the Periodic Reserve Amount with respect to the relevant Payment Date. For purposes of this calculation, Collections will be deemed to include, as of any date of determination, the sum of 100% of all cash collections actually received in respect of the Portfolio Collateral as of such date of determination and 100% of all distributions scheduled or otherwise reasonably expected to be received in respect of the Portfolio Collateral (other than any items of Defaulted Portfolio Collateral or Equity Portfolio Collateral) during the period from such date of determination until the end of the applicable Due Period. In addition, the Indenture will permit the Servicer or the Issuer to direct the Trustee to deposit or retain in the Collection Account after the relevant Payment Date amounts that are to be used to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral as long as such amounts are held in Eligible Investments pending such use to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral and are used to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral meeting the specified requirements no later than the last day of the Due Period relating to the Payment Date next following such Payment Date.

In connection with a sale of an item of Credit Improved Portfolio Collateral after the Revolving Period or the receipt of Collateral Principal Collections due to an unscheduled prepayment after the Revolving Period, the Servicer may enter into commitments to apply such Collateral Disposition Proceeds or such unscheduled prepayments (net of accrued interest and costs) to the purchase of Portfolio Loans as either Additional Portfolio Collateral or Substitute Portfolio Collateral having an Aggregate Principal Amount equal to or greater than the Principal Balance of the original item of Portfolio Collateral within 90 days of receipt of such proceeds, so long as the Servicer certifies as of the date of purchase that it reasonably believes at the time of such commitment that, after giving effect to such sale and subsequent purchase, (A) each of the Overcollateralization Tests and the other collateral criteria described herein would be satisfied and the Interest Coverage Test was satisfied for the most recent Payment Date, (B) such Portfolio Loan to be purchased has a Moody's Rating equal to or higher than the Moody's Rating of the original item of Portfolio Collateral, (C) such Portfolio Loan to be purchased has an S&P Rating equal to or higher than the S&P Rating of the original item of Portfolio Collateral, (D) such Portfolio Loan to be purchased has a stated maturity on or prior to the final maturity of such original item of Portfolio Collateral, (E) the Weighted Average Life of the Portfolio Collateral would not be increased and (F) neither Rating Agency has reduced or withdrawn (and not restored) the rating assigned by it on the Closing Date to any Class of Notes.

No purchase of Additional Portfolio Collateral or Substitute Portfolio Collateral will be permitted during the continuance of an Event of Default.

No acquisition or disposition of any item of Portfolio Collateral or other eligible asset (as defined in Rule 3a-7) will be permitted for the primary purpose of recognizing gains or decreasing losses resulting from market value changes. In addition, the Issuer may not dispose of any item of Portfolio Collateral unless such disposition is made on an "arm's-length basis" for fair market value (as determined at the time the Issuer first enters into a binding commitment to dispose of such item of Portfolio Collateral). Any disposition of Portfolio Collateral will be conducted in accordance with the requirements of the Servicing Agreement and, if effected with the Servicer, the

Co-Issuers, the Trustee or any of their affiliates, will be effected in a secondary market transaction on terms as favorable to the holders of the Notes as would be the case if such person were not so affiliated. In the event of an Optional Redemption, or Tax Event Redemption, the Servicer may direct the Trustee to sell certain Portfolio Collateral without regard to the foregoing limitations (except for the limitation that no Portfolio Collateral be disposed of for the primary purpose of recognizing gains or decreasing losses resulting from market value changes); provided that (i) the proceeds therefrom will be at least sufficient to pay certain expenses and other amounts and redeem in whole but not in part all Notes to be redeemed simultaneously; and (ii) such proceeds are used to make such a redemption. See "Description of the Notes-Optional Redemption," "Tax Event Redemption" and "Special Redemption."

The Servicer will select the Initial Portfolio Collateral and will be responsible for monitoring the items of Portfolio Collateral that at any time are included in the Trust Estate, selecting Additional Portfolio Collateral and Substitute Portfolio Collateral and effecting additions and substitutions. Any addition or substitution of an item of Portfolio Collateral by the Servicer shall be in accordance with the applicable requirements provided in the Servicing Agreement.

#### Accounts

All Collections will be remitted to the Collection Account and will be available, to the extent described herein, for application in the manner and for the purposes described herein. Funds held in the Collection Account that are not used to purchase or committed to use to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral will be held by the Trustee, as directed by the Servicer, as soon as practicable in Eligible Investments. All Eligible Investments in the Collection Account must mature on or before the Business Day prior to the next Payment Date. The Trustee may establish any number of sub-accounts to the Collection Account for its convenience in administering the accounts and the Trust Estate.

All cash pledged to the Trustee on the Closing Date which is to be used to purchase additional Original Portfolio Collateral on or before the Effective Date will be deposited into the Initial Deposit Account. Funds held in the Initial Deposit Account pending use to purchase additional Original Portfolio Collateral will be held by the Trustee, as directed by the Servicer, in Eligible Investments. Eligible Investments in the Initial Deposit Account are to mature no later than the Business Day prior to the date on which such funds are to be invested in additional Original Portfolio Collateral; *provided* that, to the extent the Deposit in the Initial Deposit Account is not so used or committed to be used on or before the Effective Date such unused amount will be applied to effect an Initial Deposit Redemption of the Class A-1LA Notes and the Class X Notes, in the order described herein, or deposited in the Collection Account as described herein.

If, at any time on or after the Effective Date, the Aggregate Principal Amount of the Portfolio Collateral (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or prior to such time) exceeds the Required Portfolio Collateral Amount and there are funds remaining from the Deposit held in the Initial Deposit Account, the Servicer may direct the Trustee to transfer up to the lesser of U.S.\$1,000,000 and 25% of such funds to the Collection Account as additional Collateral Interest Collections; *provided* that the Overcollateralization Tests and the collateral criteria described herein are satisfied and the Interest Coverage Test for the most recent Payment Date was satisfied. The remainder of the Deposit shall be used to purchase Portfolio Collateral, as directed by the Servicer.

An Expense Reimbursement Account of U.S.\$50,000 will be established by the Issuer and pledged to the Trustee for the payment of Issuer administrative expenses which become due and must be paid between Payment Dates. Any amounts withdrawn from the Expense Reimbursement Account will be reimbursed on each Payment Date in accordance with the priority of the distribution provisions described herein. Funds held in the Expense Reimbursement Account will be held by the Trustee, as directed by the Servicer, in Eligible Investments. Eligible Investments in the Expense Reimbursement Account are to mature on or before the date on which such funds are expected to be used by the Issuer for the payment of expenses.

A Closing Expense Account will be established by the Trustee. From the Closing Date to the Payment Date occurring in November 2006 (or February 2007, to the extent unpaid expenses are identified to the Trustee), funds deposited in the Closing Expense Account will be used to pay the fees, commissions and expenses associated

with the issuance of the Notes. Funds held in the Closing Expense Account will be held by the Trustee, as directed by the Servicer, in Eligible Investments. On the Payment Date occurring in November 2006 (or February 2007, to the extent unpaid expenses are identified to the Trustee), any remaining funds in the Closing Expense Account (not being held for a pre-approved closing expense) will be transferred to the Collection Account and applied as Collateral Interest Collections.

A Reserve Account will be established by the Trustee for the benefit of the Noteholders and the other secured parties under the Indenture, over which the Trustee shall have exclusive control and the sole right of withdrawal at the direction of the Servicer. On the Closing Date, the Trustee, at the direction of the Issuer, shall deposit into the Reserve Account approximately \$1,600,000 from the net proceeds of the Offering. Amounts on deposit in the Reserve Account shall be held in Eligible Investments in accordance with the Indenture.

A Loan Funding Account will be established by the Issuer with the Trustee into which an amount equal to the Issuer's commitment to make or otherwise fund advances related to the Delayed Drawdown Loans and the Revolving Loans will be deposited. Such amount will be reduced upon a sale in whole or in part of such Delayed Drawdown Loan or Revolving Loan as prescribed in the Indenture. Funds held in the Loan Funding Account will be held by the Trustee, as directed by the Servicer, in Eligible Investments. Eligible Investments in the Loan Funding Account are required to mature no later than one Business Day after the date such Eligible Investment is purchased.

A Default Swap Collateral Account will be established for each Default Swap. The Trustee will deposit into each such Default Swap Collateral Account on the Closing Date or on the date any such Default Swap is entered into, as applicable, the amount required to secure the obligations of the Issuer in accordance with the terms of the related Default Swap, which amount shall be at least equal to the amount referred to in paragraph (iv) of the definition of Default Swap Collateral.

Amounts on deposit in a Default Swap Collateral Account will be maintained in accordance with the terms and provisions of the related Default Swap. Amounts and property credited to a Default Swap Collateral Account shall be withdrawn by the Trustee and applied to the payment of any amounts payable by, or to the delivery of securities deliverable by, the Issuer to the related Default Swap Counterparty in accordance with the terms of such Default Swap. Income received on amounts on deposit in a Default Swap Collateral Account will be applied in accordance with the terms of the applicable Default Swap to the payment of any periodic amounts owed by the Issuer to the applicable Default Swap Counterparty on the date such amounts are due. After application of such amounts, any income then contained in such Default Swap Collateral Account will be withdrawn from such account and deposited in the Collection Account for distribution as Collateral Interest Collections. After payment of all amounts owing by the Issuer to a Default Swap Counterparty in accordance with the terms of the related Default Swap (other than any Default Swap Counterparty Termination Payment) the Trustee shall be directed to withdraw all funds and other property credited to the Default Swap Collateral Account related to such Default Swap and credit such funds and other property to the Collection Account, as Collateral Principal Collections (in the case of cash and Eligible Investments) and the Collateral Account (in the case of Portfolio Collateral and other financial assets) for application as Collateral Principal Collections (other than any income thereon which will be Collateral Interest Collections) in accordance with the terms of the Indenture. Any Default Swap Counterparty Termination Payments owed by the Issuer to the Default Swap Counterparty shall be paid solely from amounts available therefor under the priority of payment provisions described herein.

Except for interest on securities credited to a Default Swap Collateral Account payable to the Issuer as described pursuant to the preceding paragraph, funds and other property standing to the credit of a Default Swap Collateral Account will not be considered to be an asset of the Issuer for purposes of the Interest Coverage Test or the Overcollateralization Tests; *provided, however that* the Default Swap that relates to such Default Swap Collateral Account will be considered an asset of the Issuer for such purposes.

If the terms of any Default Swap require the Default Swap Counterparty to secure its obligations with respect to such Default Swap, the Trustee will cause to be established a Default Swap Issuer Account in respect of such Default Swap. The Trustee shall credit to any such Default Swap Issuer Account all funds and other property received from the applicable Default Swap Counterparty to secure the obligations of such Default Swap Counterparty in accordance with the terms of such Default Swap.

Funds and other property standing to the credit of any Default Swap Issuer Account will not be considered to be an asset of the Issuer for purposes of the Interest Coverage Test or the Overcollateralization Tests; *provided, however that* the Default Swap that relates to such Default Swap Issuer Account will be considered an asset of the Issuer for such purposes.

In accordance with the terms of the applicable Default Swap, funds and other property standing to the credit of the related Default Swap Issuer Account will be withdrawn by the Trustee and applied to the payment of any amount owing by the related Default Swap Counterparty to the Issuer. After payment of all amounts owing by the Default Swap Counterparty to the Issuer in accordance with the terms of the related Default Swap, all funds and other property standing to the credit of the related Default Swap Issuer Account will be withdrawn from such Default Swap Issuer Account and paid or transferred to the related Default Swap Counterparty in accordance with the applicable Default Swap.

#### Note Valuation Report; Noteholder Reports

Promptly after receipt by the Trustee thereof, but in any event not later than the Business Day prior to each Payment Date, the Trustee shall deliver (or otherwise make available) to each Noteholder and each Rating Agency a Noteholder report setting forth certain information regarding payments due to the Noteholders on such Payment Date and the Pledged Securities. In addition, not later than the first day (or, if such day is not a Business Day, on the next succeeding Business Day) of each month (for months in which no Payment Date occurs) or the related Payment Date (for months in which a Payment Date occurs), commencing in July, 2006, the Issuer shall provide, or procure the provision, to each Rating Agency and the Trustee, who shall forward a copy (or otherwise make available) to each Noteholder, a monthly report containing additional information with respect to the Pledged Securities included in the Trust Estate. Except as provided herein, the Indenture provides that the information contained in these reports is confidential and may not be disclosed, except as provided therein.

Pursuant to the Indenture, the Issuer will consent to the posting of each such report, together with this Confidential Offering Circular, the Indenture and any amendments or modifications thereto, to the internet based password protected electronic repository of transaction documents relating to privately offered and sold collateralized debt obligation securities located at "www.cdolibrary.com".

### **MATURITY AND PREPAYMENT CONSIDERATIONS**

The Final Maturity Date of the Class X Notes is the Payment Date occurring in August 2013 and the Final Maturity Date of each other Class of Notes is the Payment Date occurring in August 2021, or, upon a Maturity Extension (if any), the applicable Extended Final Maturity Date, and subject to prior redemption under the circumstances described herein. The average life of each Class of Notes is expected to be shorter than the number of years until the Final Maturity Date, and the average lives may vary due to various factors. The average life of each Class of Notes, refers to the weighted amount of time that will elapse from the date of delivery of such Notes until each dollar of the principal of such securities will be paid to the investor. Such average lives will be determined by the amount and frequency of principal payments which in turn are dependent upon, among other things, the amount of sinking fund payments and other payments received at or in advance of the scheduled maturity of Portfolio Collateral (whether through sale, maturity, redemption, prepayment, default or other liquidation or disposition). The actual average life and final maturity of each Class of Notes will be affected by the financial condition of the issuers of the underlying Portfolio Collateral and the characteristics of such collateral, including the existence and frequency of exercise of any optional or mandatory redemption features, the prevailing level of interest rates, the redemption price, the actual default rate and the actual level and timing of recoveries on any Defaulted Portfolio Collateral, the frequency of tender or exchange offers for such item of Portfolio Collateral, and the ability of the Issuer to reinvest proceeds in Additional Portfolio Collateral or Substitute Portfolio Collateral satisfying the criteria set forth in the Indenture and the interest rates obtained in connection with the purchase of such Additional Portfolio Collateral or Substitute Portfolio Collateral or in connection with the application of proceeds to purchase Eligible Investments. It is expected that a substantial amount (by Principal Balance) of the Portfolio Collateral will be subject to mandatory redemption or optional redemption or prepayment by the issuer thereof or obligor thereunder. Any acquisition of Additional Portfolio Collateral or Substitute Portfolio Collateral or disposition of an item of Portfolio Collateral will likely change the composition and characteristics of the Portfolio Collateral included in the Trust Estate and the rate of payment thereon, and, accordingly, may affect the actual average life of the Notes. See "Security for the Notes—Changes in Composition

of Portfolio Collateral."

In addition, the Notes are subject to redemption at the times and under the circumstances described herein, including Initial Deposit Redemption, O/C Redemption (other than with respect to the Class X Notes), Optional Redemption, Rating Confirmation Failure Redemption, Tax Event Redemption and Special Redemption (other than with respect to the Class X Notes), as described herein. Any such redemption will affect the average lives of the Notes.

Under the assumptions identified below, the Class X Notes are expected to have an average life of approximately 4.35 years and an expected final payment occurring on the Payment Date in August 2013, the Class A-1LA Notes are expected to have an average life of approximately 6.80 years and an expected final payment occurring on the Payment Date in August 2014, the Class A-1LB Notes are expected to have an average life of approximately 8.23 years and an expected final payment occurring on the Payment Date in August 2014, the Class A-2L Notes are expected to have an average life of approximately 8.23 years and an expected final payment occurring on the Payment Date in August 2014, the Class A-3L Notes are expected to have an average life of approximately 8.23 years and an expected final payment occurring on the Payment Date in August 2014, the Class A-4L Notes are expected to have an average life of approximately 8.23 years and an expected final payment occurring on the Payment Date in August 2014, and the Class B-1L Notes are expected to have an average life of approximately 8.23 years and an expected final payment occurring on the Payment Date in August 2014. There can be no assurance that the average lives and expected final payment of any Class of Notes will be as set forth above. Prospective investors should make their own determinations of the payments expected to be made in respect of the Notes.

The hypothetical scenario used to determine the average lives of the Notes is as follows: (i) approximately U.S.\$850,000,000 in Aggregate Principal Amount of various assumed Portfolio Collateral would be purchased on the Closing Date using all funds available on the Closing Date for the purchase of Portfolio Collateral; (ii) 100% of the Portfolio Collateral (by Aggregate Principal Amount) will consist of Floating Rate Collateral which will have a weighted average margin (in order to adjust for not being fully invested in Portfolio Collateral until after the second Payment Date) of (a) 2.5457% from the Closing Date to the first Payment Date and (b) 2.5900% thereafter; (iii) all Floating Rate Collateral bear interest based on three-month LIBOR. Three-month LIBOR is approximately 5.2041% for the first period and 3 month forward LIBOR thereafter; (iv) the Portfolio Collateral has a scheduled maturity date of November 1, 2015, with respect to Portfolio Loans, and August 1, 2014, with respect to CLO Securities, with a weighted average maturity date of May 8, 2015; (v) no Initial Deposit Redemption, Special Redemption, Tax Event Redemption or Rating Confirmation Failure Redemption of the Notes is made; (vi) an Optional Redemption occurs on the Payment Date occurring in August 1, 2014; (vii) the Additional Portfolio Floating Collateral purchased from Collections as described herein will bear interest quarterly at the rate of 2.85% per annum above LIBOR for the first year, 2.95% per annum above LIBOR for the second year, 3.00% per annum above LIBOR for the third year, 3.00% per annum above LIBOR for the fourth year and 3.00% per annum above LIBOR thereafter; (viii) all Additional Portfolio Collateral in the portfolio become callable or prepayable on the payment date immediately following the purchase date and are callable at their respective call price; (ix) all Eligible Investments will bear interest at a rate of LIBOR *minus* 0.25% per annum; (x) the Additional Portfolio Collateral have an initial call price of par; and (xi) the Additional Portfolio Collateral have a 6 year maturity in the case of the Floating Rate Collateral. In addition, it is assumed that no calls or defaults with respect to such Additional Portfolio Collateral will occur on the Final Maturity Date.

Further, the hypothetical scenario assumes that there are no defaults during the period from the Closing Date to February 1, 2007 and there are defaults equal to 3.00% per annum thereafter until the Optional Redemption occurs on the Payment Date occurring in August 1, 2014. The principal recovery on any defaulted Portfolio Loan and any defaulted underlying loan in a CLO Security is assumed to be 75% and in each case such recovery is assumed to occur at the default date. It is also assumed that the Scheduled Distributions on Portfolio Collateral are timely received and that such distributions earn the indicated interest rates until the next payment date without compounding. It is assumed that Floating Rate Collateral has no prepayment for one period after the Closing Date; thereafter prepayments are calculated on a 20% per annum constant prepayment rate basis for Portfolio Loans. It is assumed that during any period when the Overcollateralization Tests or the Interest Coverage Test are not satisfied, principal payments (or, in the case of the Class B-1L Notes, payments of accrued and unpaid interest and then

principal) will be made in respect of the Notes to the extent necessary to satisfy the Overcollateralization Tests or the Interest Coverage Test, as applicable (to the extent funds are available therefor).

The Base Fee Amount and the Additional Fee Amount, are assumed to be approximately 0.55% *per annum* in aggregate, and the Trustee Administrative Expenses, Issuer Base Administrative Expenses and Issuer Excess Administrative Expenses will be 0.0275% (but no less than \$75,000 *per annum*) *plus* U.S.\$250,000 *per annum*, in the aggregate, each as a percentage of either the Aggregate Principal Amount of the Portfolio Collateral as of the first day of the Due Period relating to each Payment Date or the average of the Aggregate Principal Amount of the Portfolio Collateral as of the first day of the Due Period relating to each Payment Date and the last day of the Due Period relating to such Payment Date, as appropriate for the related fee and subject to the availability of funds in the performance scenario. For purposes of calculating the Base Fee Amount and the Additional Fee Amount, the Quarterly Collateral Amount on the first calculation date is assumed to be U.S.\$850,000,000.

Cash received on or before a Calculation Date is assumed to be available on the following Payment Date. Cash collected after the Calculation Date but before the immediately following Payment Date is assumed to be used to purchase Eligible Investments until the second succeeding Payment Date. With respect to Floating Rate Collateral, the accrual date on Portfolio Collateral is assumed to be the full quarterly period before the Payment Date subsequent to the Closing Date.

The weighted average lives and expected final payment dates described above are included only for illustrative purposes. The usefulness of these scenarios is limited by, among other things, the predictive value of the underlying assumptions, the uncertain relevance of the assumptions as compared to other factors which have not been identified or taken into account, and assumptions incorporated with respect to the timing of cash flows, prepayments, defaults and recoveries on the Portfolio Collateral and available interest rates. The assumptions are inherently subject to significant economic uncertainties, all of which are impossible to predict and beyond the control of the Co-Issuers. **There can be no assurance that any particular performance scenario will be realized, and the performance of the Notes may be materially different from that shown. Such scenario is not a projection or forecast and was not prepared with a view to complying with published guidelines of the United States Securities and Exchange Commission or the American Institute of Certified Public Accountants regarding projections or forecasts. Under no circumstances should the inclusion of such information be regarded as a representation, warranty or prediction with respect to their accuracy or the accuracy or appropriateness of the underlying assumptions, or that the Notes will achieve or are likely to achieve any particular results. There can be no assurance that the actual performance of the Notes will not vary materially from the scenario and assumptions set forth herein or otherwise used by a prospective investor. Moreover, to the extent that the individual characteristics of the assumed Portfolio Collateral used for such purposes differ from the individual characteristics of the actual Portfolio Collateral purchased on the Closing Date and thereafter, the actual performance of the Notes may differ. Prospective investors should conduct such financial analysis as they deem prudent, which may include the preparation of their own performance scenarios under a range of economic and other assumptions chosen by such prospective investors or their advisers. Each prospective investor must make its own evaluation of the merits and risks of investment in the Notes. ## LEGAL STRUCTURE

### The Indenture

The following summaries generally describe certain provisions of the Indenture. The summaries do not purport to be complete and are subject to, and qualified in their entirety by reference to, the provisions of the Indenture.

**Modification of Indenture.** Except as set forth below, with the consent of the Requisite Noteholders and the Servicer, the Trustee and the Co-Issuers may execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the Indenture or modify in any manner the rights of the Holders of such

Notes. However, without the consent of the Holders of each Outstanding Note affected thereby, and, to the extent provided in the Paying and Transfer Agency Agreement, the Holders of the Preferred Shares materially adversely affected thereby, no supplemental indenture may (i) change the maturity of the principal of or interest on any Note or reduce the principal amount thereof or the rate of interest thereon or change the time or amount of any other amount payable in respect of any Note, (ii) reduce the percentage of Holders of Notes whose consent is required for the authorization of any supplemental indenture or for any waiver of compliance with certain provisions of the Indenture, (iii) impair or adversely affect the Trust Estate securing the Notes, (iv) permit the creation of any lien ranking prior to or on parity with the lien of the Indenture with respect to any part of the Trust Estate or terminate the lien of the Indenture, (v) reduce the percentage of Holders of Notes whose consent is required to direct the Trustee to liquidate the Trust Estate, (vi) modify any of the provisions of the Indenture with respect to supplemental indentures or waiver of Defaults and their consequences except to increase the percentage of Outstanding Notes whose consent is required for any such action or to provide that other provisions of the Indenture cannot be modified or waived without the consent of the Holder of each Outstanding Note affected thereby, (vii) modify the provisions thereof relating to priority of distributions or subordination or the definition therein of the terms "Holder," "Noteholder," "Majority Noteholder," "Majority Preferred Shareholder," "Outstanding," or "Requisite Noteholder," (viii) modify any provisions in such a manner as to affect the calculation of the amount or timing of any payment of interest or principal due on any Note on any Payment Date (including the calculation of any of the individual components of such calculation) or to affect the rights of the Holders of Notes to the benefit of any provisions for the redemption of such Notes contained in the Indenture; (ix) modify any provision relating to the institution of proceedings for the Issuer or the Co-Issuer to be adjudicated as bankrupt or insolvent, (x) amend any provision that provides that the obligations of the Issuer or the Co-Issuer are non-recourse obligations or (xi) modify any of the provisions of the Indenture in such a manner as to affect the calculation of the amount of any payment of principal of or interest on or other amount in respect of any Note or to affect the right of the Holders of Notes to the benefit of any provisions for the redemption of such Notes contained therein.

The Co-Issuers and the Trustee may also enter into supplemental indentures with the consent of the Servicer but without obtaining the consent of Noteholders, in order to (i) evidence the succession of any person to the Co-Issuers, (ii) evidence the addition of an additional issuer or of a wholly owned subsidiary of the Issuer that, in either case, will acquire securities from the Issuer and pledge its assets to secure the obligations of the Issuer secured by the Trust Estate, to the extent necessary to permit the Issuer to comply with the Bank Holding Company Act of 1956, as amended, and the rules and regulations thereunder or any other statute, rule or regulation applicable to the Issuer, and the assumption by any such additional issuer or subsidiary of the covenants and obligations of the Issuer in the Indenture and, if applicable, in the Notes, (iii) add to the covenants of the Co-Issuers for the benefit of the Holders of the Notes or to surrender any right or power conferred upon the Co-Issuers, (iv) pledge any property to or with the Trustee, (v) evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any of the provisions of the Indenture as shall be necessary to facilitate the administration of the Trust Estate by more than one Trustee, (vi) correct or amplify the description of any property at any time subject to the lien of the Indenture, or to better assure, convey and confirm unto the Trustee any property subject to the lien of the Indenture, (vii) take any action necessary or helpful to prevent the Issuer or the Trustee from becoming subject to any withholding or other taxes or assessments or to reduce the risk that the Issuer will be engaged in a United States trade or business or otherwise subject to United States income tax on a net income basis, (viii) correct any manifest error in the Indenture, (ix) facilitate the delivery and maintenance of the Notes in accordance with the requirements of DTC, Euroclear or Clearstream, (x) facilitate the listing of all or any of the Notes on one or more securities exchanges, (xi) modify the restrictions on and procedures for resale and other transfer of the Notes in accordance with any change in applicable law or regulation or enable the Co-Issuers to rely upon any less restrictive exemption from registration under the Securities Act or the Investment Company Act, (xii) cure any ambiguity, or correct, modify or supplement any provision which is defective or inconsistent with any other provision in the Indenture, (xiii) to effectuate a Noteholder's election to acquire bond insurance, a surety bond or similar credit enhancement as described in the Indenture, or (xiv) prevent the Issuer from becoming an "investment company" as defined in the Investment Company Act or better assure compliance with the requirements of Rule 3a-7 thereunder; *provided* that, as a condition to the effectiveness of any such supplemental indenture, each of the Issuer, the Trustee and the Initial Purchaser shall have (A) satisfied the Rating Condition with respect to such supplemental indenture and (B) received a customary, unqualified opinion of counsel from a nationally recognized law firm providing that, after giving effect to such supplemental indenture, the Issuer is exempt from registration as an "investment company" under the Investment Company Act; *provided* further that (A) any such amendment for any matters described in clauses (i) through (xiii) shall not materially adversely affect the interests of the Holders of the Notes and (B) no

amendment shall be made that would cause the Issuer to register as an "investment company" under the Investment Company Act.

The Trustee will not be permitted to enter into any supplemental indenture if such amendment would materially adversely affect the interests of the Preferred Shareholders without the consent of the Holders representing at least 66-2/3% of the outstanding Preferred Shares.

Not later than 15 Business Days prior to the execution of any proposed supplemental indenture pursuant to the above provisions, the Trustee, at the expense of the Co-Issuers, shall deliver to the Holders of the Notes, the Servicer, the Preferred Share Paying and Transfer Agent (for forwarding to the Holders of Preferred Shares) and each Rating Agency (so long as any rated Notes are Outstanding) a copy of such supplemental indenture and shall request any required consent from the applicable Holders of Notes and Preferred Shares to be given within the Initial Consent Period. Any consent given to a proposed supplemental indenture by the Holder of any Notes or Preferred Shares shall be irrevocable and binding on all future Holders or beneficial owners of Notes or Preferred Shares, irrespective of the execution date of the supplemental indenture. If the Holders of less than the required percentage of the Aggregate Principal Amount of the relevant Notes or required percentage of the Preferred Shares consent to a proposed supplemental indenture within the Initial Consent Period, on the first Business Day after the Initial Consent Period, the Trustee shall notify the Issuer and the Servicer which Holders of Notes and Preferred Shares have consented to the proposed supplemental indenture and, which Holders (and, to the extent such information is reasonably available to the Trustee, which beneficial owners) have not consented to the proposed supplemental indenture. If the Amendment Buy-Out Purchaser intends to exercise the Amendment Buy-Out Option, the Amendment Buy-Out Purchaser shall so notify the Trustee (which notice shall designate a date for the Amendment Buy-Out to occur no earlier than 10 Business Days after the date of such notice) no later than five (5) Business Days after so being notified by the Trustee and the Trustee shall deliver such notice to all Holders of Notes and the Preferred Share Paying and Transfer Agent (for forwarding to the Holders of Preferred Shares). Any Non-Consenting Holder may give consent to the related proposed supplemental indenture until the 5th Business Day prior to the date of the Amendment Buy-Out designated by the Amendment Buy-Out Purchaser, and in such case shall cease to be a Non-Consenting Holder for purposes of the Amendment Buy-Out. If the Amendment Buy-Out Purchaser exercises its Amendment Buy-Out Option and purchases the applicable Notes or Preferred Shares, the Amendment Buy-Out Purchaser, as Holder or beneficial owner of the applicable Notes or Preferred Shares, may consent to the related proposed supplemental indenture within five (5) Business Days of the Amendment Buy-Out.

The Indenture provides that no amendment to any provision of the Indenture or any other transaction document that materially adversely affects the obligations of any Synthetic Security Counterparty will be of any effect without the consent of such Synthetic Security Counterparty and the Issuer will not enter into any such amendment unless such Synthetic Security Counterparty has consented thereto (which consent will not be unreasonably withheld).

The Co-Issuers and the Trustee may also enter into supplemental indentures upon satisfying the Rating Condition and receiving consent from the Servicer, but without obtaining the consent of any other Person, including any Noteholder or any Holder of Preferred Shares, in order to add additional rows to the Collateral Quality Matrix; *provided that* any such supplemental indenture which expands the minimum or maximum ranges of the Collateral Quality Matrix from that set forth in the Indenture on the Closing Date, shall require the prior consent of the Requisite Noteholders.

Notwithstanding the foregoing, the Trustee will not be permitted to enter into any supplemental indenture if, as a result of such supplemental indenture, the rating of any Class of Outstanding Notes (if then rated) would be reduced or withdrawn without the unanimous consent of the Holders of that Class of Notes.

#### Amendment Buy-Out

In the case of any supplemental indenture that requires the consent of one or more Holders of the Notes or Preferred Shares, the Amendment Buy-Out Purchaser shall have the right, but not the obligation, to purchase from Non-Consenting Holders all Notes and Preferred Shares held by such Holder whose consent was solicited with respect to such supplemental indenture (the "**Amendment Buy-Out Option**") for the applicable Amendment Buy-Out Purchase Price; *provided*, however, that the Amendment Buy-Out Purchaser may not exercise the Amendment Buy-Out Option during the Non-Call Period in connection with a proposed amendment to reduce the rate of interest

on any Security, as applicable, or to change the earliest date on which Notes of any Class or Preferred Shares may be redeemed at the option of the Issuer; *provided*, further that notwithstanding the definition of Non-Consenting Holder, any Holder of Notes (other than the Class A-1LA Notes) or Preferred Shares who fails to respond to any such consent solicitation shall be deemed to have consented to any such supplemental indenture. Notwithstanding the foregoing, during the Non-Call Period, "Non-Consenting Holder" shall exclude any Holder of Class A-1LA Notes (unless such Holder has consented in writing to be designated as a Non-Consenting Holder) and the Amendment Buy-Out Option shall not be applicable to such Class A-1LA Notes. If such option is exercised, the Amendment Buy-Out Purchaser must purchase all Notes and Preferred Shares of Non-Consenting Holders, regardless of the applicable percentage of the Aggregate Principal Amount of the Notes or Preferred Shares the consent of whose Holders is required for such supplemental indenture (an "**Amendment Buy-Out**"). By its acceptance of a Note or Preferred Share, each Holder of a Note and Preferred Share agrees that if the Amendment Buy-Out Option is exercised, any Non-Consenting Holder will be required to sell its applicable Note or Preferred Share to the Amendment Buy-Out Purchaser. For the avoidance of doubt, nothing described above or in the Indenture shall in any way limit or restrict the rights of Holders of the Class A-1LA Notes to consent or withhold their consent to a supplemental indenture or otherwise vote their interest both during and after the Non-Call Period.

All purchases made pursuant to the Amendment Buy-Out Option individually and in the aggregate must comply with the applicable transfer restrictions for the relevant Notes and Preferred Shares set forth in "Delivery of the Notes; Transfer Restrictions; Settlement" herein and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency).

Acts of Noteholders. Under the Indenture, with respect to any Noteholder which has notified the Trustee in writing that pursuant to such Noteholder's organizational documents or other documents governing such Noteholder's actions, such Noteholder is not permitted to take any affirmative action approving, rejecting or otherwise acting upon any Issuer request including, but not limited to, a request for the consent of such Noteholder to a proposed amendment or waiver pursuant to this Indenture, the failure by such Noteholder to consent to or reject any such requested action will be deemed a consent by such Noteholder to the requested action.

Consolidation, Merger or Transfer of Assets, Incurrence of Indebtedness, Conduct of Business. The Co-Issuers may not consolidate with, merge into, or transfer or convey all or substantially all of their assets to, any other corporation, partnership, trust or other person or entity (except for sales or exchanges of Portfolio Collateral as contemplated by the Indenture). In addition, the Co-Issuers may not incur any indebtedness other than the Notes and trade debt incidental to the performance of their obligations under the Indenture or engage in any business or activity other than the issuance of the Notes, the Preferred Shares, the ordinary shares and the other transactions and activities, as applicable, contemplated herein. Pursuant to the Indenture and the Co-Issuers' organizational documentation, the Co-Issuers may also not, without the consent of the Requisite Noteholders, amend their organizational documentation if such amendment would have a material adverse effect on the right of the Noteholders.

Events of Default. An event of default ("**Event of Default**") is defined in the Indenture as being (i) a default for four Business Days or more (or in the case of a default in payment due to an administrative error or omission by the Trustee, any Paying Agent or the Note Registrar, for a period of seven Business Days or more, *provided* that the Trustee has notified each Rating Agency of any such administrative error or omission) in the payment of any amount payable in respect of any Note when due when funds in such amount are available for payment in accordance with the Indenture, (ii) a failure after four Business Days (or in the case of a default in payment due to an administrative error or omission by the Trustee, any Paying Agent or the Note Registrar, for a period of seven Business Days or more, *provided* that the Trustee has notified each Rating Agency of any such administrative error or omission), to apply available amounts in accordance with the priority of distribution set forth in the Indenture, (iii) a default for four Business Days or more (or in the case of a default in payment due to an administrative error or omission by the Trustee, any Paying Agent or the Note Registrar, for a period of seven Business Days or more, *provided* that the Trustee has notified each Rating Agency of any such administrative error or omission) in the payment of (A) the Periodic Interest Amount due on any Senior Class A Notes on any Payment Date or a Class X Payment due on any Class X Notes, (B) after the Senior Class A Notes and Class X Notes are paid in full, the Periodic Interest Amount due on the Class A-3L Notes on any Payment Date, (C) after the Senior Class A Notes, the Class A-3L Notes and the Class X Notes are paid in full, the Periodic Interest Amount due on the Class

A-4L Notes on any Payment Date and (D) after the Class A Notes and the Class X Notes are paid in full, the Periodic Interest Amount due on the Class B-1L Notes on any Payment Date; (iv) a default in the payment of the Aggregate Principal Amount and the Cumulative Interest Amount due on any Class of Notes on the Final Maturity Date, (v) a default in the performance, or a breach of any covenant, representation, warranty or other agreement of the Co-Issuers (or either one of them) other than compliance with the Overcollateralization Tests, the Interest Coverage Test or the collateral quality criteria described herein, or the failure of any representation or warranty of the Co-Issuers (or either one of them) in the Indenture or in any certificate or other writing delivered pursuant to or in connection with the Indenture to be correct in all material respects when the same shall have been made, in any such case which materially and adversely affects the rights of any Class of Noteholders and continuance of such default, breach or failure for a period of 30 days after written notice to the Co-Issuers or the Servicer by the Trustee or to the Co-Issuers or the Servicer and the Trustee by the Holders of at least a majority in principal amount of the Notes, (vi) certain events of bankruptcy, insolvency, receivership or reorganization of the Co-Issuers, (vii) either of the Co-Issuers or the pool of assets constituting the Trust Estate becomes required to register as an "investment company" under the Investment Company Act of 1940, (viii) the failure to maintain on any Calculation Date a Senior Class A Overcollateralization Ratio of at least 100%. The failure to pay in full Periodic Interest on the Class A-3L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as the Senior Class A Notes or Class X Notes are Outstanding. The failure to pay in full Periodic Interest on the Class A-4L Notes as a result of insufficient funds being available therefore will not constitute an Event of Default so long as the Senior Class A Notes, the Class A-3L Notes or the Class X Notes are Outstanding. The failure to pay in full Periodic Interest on the Class B-1L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Class A Notes or Class X Notes are Outstanding. An event of insolvency could result if relief has been ordered against the Co-Issuers in a case under applicable bankruptcy law and the Co-Issuers, the trustee, if any, for either of the Co-Issuers or a creditor of either of the Co-Issuers were to file an involuntary petition against either of the Co-Issuers. The filing of a petition against the Co-Issuers under applicable bankruptcy law could adversely affect the rights of the Holders of Notes to receive timely payments.

If an Event of Default (other than an Event of Default specified in clause (vi) above) under the Indenture should occur and be continuing with respect to the Notes, the Trustee may with the consent of the Requisite Noteholders, and shall, at the written direction of the Requisite Noteholders, declare the principal of the Notes to be immediately due and payable. Such declaration may under certain circumstances be rescinded by the Trustee with the consent of the Requisite Noteholders or at the written direction of the Requisite Noteholders. If an Event of Default specified in clause (vi) above should occur and be continuing, the principal of the Notes shall become immediately due and payable without the necessity of notice or any other action. If the Notes are accelerated, or if the Final Maturity Date has occurred, the Holders of the Notes shall be entitled to receive the Cumulative Interest Amount and the Aggregate Principal Amount with respect thereto (as calculated and accrued through the date of payment in full of the Aggregate Principal Amount of each Class of Notes) in the order of priority set forth under "Description of the Notes—Payments on the Notes; Priority of Distributions—Final Maturity Date."

If an Event of Default shall have occurred and be continuing or if the Final Maturity Date has occurred, the Trustee shall refrain from liquidating and shall preserve the Trust Estate intact unless (i) the Requisite Noteholders have directed the Trustee to sell or liquidate the Trust Estate or any portion thereof in the case of (A) an Event of Default resulting from failure to pay interest or principal on a Note or (B) a sale or liquidation of all or a portion of the Trust Estate at or above the aggregate par value of all Collateral so liquidated or sold (and Defaulted Portfolio Collateral may be liquidated or sold without reference to, or inclusion in the calculation of, such limitation), or (ii) 100% of the Noteholders have otherwise directed the Trustee to sell or liquidate the Trust Estate or any portion thereof. In addition, under certain circumstances, if an Event of Default as described under clauses (iii) and (iv) of "Events of Default" shall have occurred and be continuing, the Servicer may be terminated as described under "The Servicing Agreement—Termination of Servicing Agreement."

Pursuant to the Indenture, as security for the payment by the Issuer of the compensation and expenses of the Trustee and the Paying and Transfer Agent and any sums to which the Trustee and the Paying and Transfer Agent may be entitled to receive as indemnification by the Issuer, the Issuer has granted the Trustee a senior lien on the Trust Estate, which is senior to the lien of the Notes on the Trust Estate. These liens are exercisable by the Trustee or the Paying and Transfer Agent only if the Notes have been declared due and payable following an Event of Default, and the acceleration of the maturity of such Notes as a result of such Event of Default has not been rescinded or annulled.

Subject to the provisions of the Indenture relating to the duties of the Trustee in case an Event of Default with respect to the Notes shall occur and be continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any Holders of Notes, unless such Holders shall have offered to the Trustee security or indemnity reasonably satisfactory to it. Subject to such provisions for indemnification and certain limitations contained in the Indenture, the Requisite Noteholders will have the right to direct the time, method and place of conducting any proceeding of any remedy available to the Trustee or exercising any trust or power conferred on the Trustee with respect to the Notes; and, in certain cases, waive any default with respect to such Notes, except a default in payment of any amount payable in respect of any Note or a default in respect of a covenant or provision of the Indenture that cannot be modified without the waiver or consent of the Holder of each Outstanding Note affected thereby.

Rights Under the Indenture. No Holder of a Note will have the right to institute any proceeding with respect to the Indenture, unless (1) such Holder previously has given to the Trustee written notice of an Event of Default with respect to such Notes, (2) the Requisite Noteholders have made written request upon the Trustee to institute such proceedings in its own name as Trustee, (3) such Holder or Holders have offered the Trustee indemnity reasonably satisfactory to it as provided in the Indenture, (4) the Trustee has for 30 days failed to institute any such proceeding, and (5) no direction inconsistent with such written request has been given to the Trustee during such 30-day period by the Requisite Noteholders.

Satisfaction and Discharge of the Indenture. The Indenture will be discharged with respect to the collateral securing the Notes upon delivery to the Trustee for cancellation of all of the Notes, or, within certain limitations (including the obligation to pay principal and interest), upon deposit with the Trustee of cash or Eligible Investments sufficient for the amount thereof.

Trustee. JPMorgan Chase Bank, National Association will be the Trustee under the Indenture for the Notes. The Issuer, the Servicer and their affiliates may maintain other banking relationships in the ordinary course of business with the Trustee. The Indenture provides that the Trustee may appoint one or more co-trustees in the event that Holders of the Notes have conflicting interests and in certain other circumstances. The Trustee or an Affiliate of the Trustee may receive compensation in connection with the purchase of certain Eligible Investments as provided in the Indenture.

The parent company of the Trustee, JPMorgan Chase & Co. ("**JPMorgan**"), has entered into an agreement with The Bank of New York Company, Inc. ("**BNY**") pursuant to which JPMorgan intends to exchange select portions of its corporate trust business, including municipal, corporate and structured finance trusteeships, for BNY's consumer, small-business and middle-market banking businesses. This transaction has been approved by both companies' boards of directors and is subject to regulatory approvals. It is expected to close in the late third quarter or fourth quarter of 2006.

The Indenture contains provisions for the indemnification of the Trustee for any loss, liability or expense incurred without negligence, willful misconduct or bad faith arising out of or in connection with the acceptance or administration of its duties under the Indenture.

The Trustee may resign at any time by giving notice as set forth in the Indenture. The Trustee may be removed for any reason by the Holders of more than 50% of the Aggregate Principal Amount of the Controlling Class, or by the Issuer if at any time the Trustee fails to meet certain eligibility criteria set forth in the Indenture or if the Trustee is adjudged to be bankrupt or insolvent or a receiver or liquidator or similar official of the Trustee or its property is appointed. No resignation or removal of the Trustee shall be effective until a successor trustee has been appointed pursuant to the terms of the Indenture.

Governing Law. The Indenture and the other documents relating to the Notes will be construed in accordance with the laws of the State of New York.

Notices. Notices to the Holders of the Notes will be given by first-class mail, postage prepaid, to the registered Holders of the Notes at their address appearing in the Note Register. In addition, for so long as any Class of Notes is listed on the Irish Stock Exchange and the rules of such exchange so require, notice given to the Holders of any such Class of Notes will also be given to the Company Announcements Office of the Irish Stock Exchange.

Voting Rights of Preferred Shares of HFP. The aggregate amount of the Preferred Shares owned or controlled by HFP and the Servicer Entities in excess of the Original HFP Share Amount will be excluded from voting on certain matters including any Optional Redemption.

### **DELIVERY OF THE NOTES; TRANSFER RESTRICTIONS; SETTLEMENT**

The Notes have not been registered under the Securities Act or any state securities laws and, accordingly, may not be reoffered, resold, pledged or otherwise transferred within the United States or to, or for the account or benefit of, U.S. Persons, except in accordance with the restrictions described under "Notices to Purchasers." Terms used in this paragraph have the meanings given to them by Regulation S.

Without limiting the foregoing, by holding a Note, each Holder will acknowledge and agree, among other things, that such Holder understands that neither of the Co-Issuers is registered as an investment company under the Investment Company Act, but that the Co-Issuers are exempt from registration as such by virtue of Section 3(c)(7) of the Investment Company Act, which in general excludes from the definition of an investment company any issuer whose outstanding securities are beneficially owned solely by Qualified Purchasers and which has not made and does not propose to make a public offering of its securities and Rule 3a-7. Any sale or transfer which would violate these provisions shall be void from the time of such sale or transfer, and no sale or transfer may be made if such sale or transfer would require the Co-Issuers to become subject to the requirements of the Investment Company Act.

Each transferee of a Note (except with respect to a transfer pursuant to Regulation S) will be deemed to represent at time of transfer that the transferee is a Qualified Institutional Buyer and (i) that it is a Qualified Purchaser, (ii) that it is not formed for the purpose of investing in the Notes, unless all of its beneficial owners are Qualified Purchasers, (iii) that it is not a dealer described in paragraph (a)(1)(ii) of Rule 144A unless such transferee owns and invests on a discretionary basis at least U.S.\$25 million in securities of issuers that are not affiliated persons of such dealer, (iv) that it is not a plan referred to in paragraph (a)(1)(i)(D) or (E) of Rule 144A or a trust fund referred to in paragraph (a)(1)(i)(F) of Rule 144A that holds the assets of such plan, unless investment decisions are made solely by the fiduciary, trustee or sponsor of such plan, (v) that it and each account for which it is purchasing is purchasing Notes in at least the minimum denomination and (vi) that it will provide written notice of the foregoing and any other applicable transfer restrictions to any transferee.

The Indenture provides that if, notwithstanding the restrictions on transfer contained therein, the Issuer determines any beneficial owner or Holder of a Note (other than a Note transferred in reliance on Regulation S) is not a Qualified Institutional Buyer and a Qualified Purchaser, the Issuer will require that such beneficial owner or Holder sell all of its right title and interest in such Note to a person who is so qualified, with such sale to be effected within 30 days after notice of such sale requirement is given. If such sale is not effected within such 30 days, upon written direction from the Issuer, the Trustee (or an investment banker selected by the Trustee and approved by the Issuer) will be authorized to conduct a commercially reasonable sale of such Note to a person who does so qualify and pending transfer, no further payments will be made in respect of such Note or any beneficial interest therein.

Except for interests in Notes represented by a Regulation S Global Note or a Rule 144A Global Note as described herein, the Notes will be represented by definitive registered Notes registered in the name of the purchaser thereof.

Unless determined otherwise by the Co-Issuers in accordance with applicable law, the Notes will bear the legend set forth below:

THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), ANY STATE SECURITIES LAWS IN THE UNITED STATES OR THE SECURITIES LAWS OF ANY OTHER JURISDICTION AND MAY NOT BE REOFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, UNITED STATES PERSONS, EXCEPT AS PERMITTED BY THIS LEGEND. THE HOLDER HEREOF, BY ITS ACCEPTANCE OF THIS NOTE, REPRESENTS, ACKNOWLEDGES AND AGREES THAT IT WILL NOT REOFFER, RESELL, PLEDGE OR OTHERWISE TRANSFER THIS NOTE EXCEPT IN COMPLIANCE WITH THE SECURITIES ACT AND OTHER APPLICABLE LAWS AND EXCEPT (A) IN

COMPLIANCE WITH RULE 144A UNDER THE SECURITIES ACT TO A PERSON WHOM THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER, WHOM THE SELLER HAS INFORMED, IN EACH CASE, THAT THE REOFFER, RESALE, PLEDGE OR OTHER TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A, PROVIDED THAT SUCH PURCHASER DELIVERS ALL DOCUMENTS AND CERTIFICATIONS AS THE CO-ISSUERS OR THE TRUSTEE MAY REASONABLY REQUIRE; (B) TO A NON U.S. PERSON OUTSIDE THE UNITED STATES IN COMPLIANCE WITH RULE 903 OR 904 OF REGULATION S UNDER THE SECURITIES ACT; OR (C) TO THE CO-ISSUERS OR THEIR AFFILIATES, IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAW OF ANY STATE OF THE UNITED STATES AND ANY OTHER JURISDICTION. THE HOLDER HEREOF, BY ITS ACCEPTANCE OF THIS NOTE, REPRESENTS, ACKNOWLEDGES AND AGREES THAT IT WILL NOT REOFFER, RESELL, PLEDGE OR OTHERWISE TRANSFER THIS NOTE EXCEPT TO A NON-U.S. PERSON OUTSIDE THE UNITED STATES IN COMPLIANCE WITH REGULATION S OR TO A "QUALIFIED PURCHASER" WITHIN THE MEANING OF SECTION 3(c)(7) OF THE INVESTMENT COMPANY ACT OF 1940, AS AMENDED (THE "INVESTMENT COMPANY ACT"), IN A TRANSACTION THAT DOES NOT CAUSE THE CO-ISSUERS TO BE REQUIRED TO REGISTER UNDER THE INVESTMENT COMPANY ACT. FURTHER, THE CLASS X NOTES, THE CLASS A-1LA NOTES, THE CLASS A-1LB NOTES, THE CLASS A-2L NOTES, THE CLASS A-3L NOTES AND THE CLASS A-4L NOTES MAY NOT BE SOLD OR TRANSFERRED UNLESS SUCH SALE OR TRANSFER WILL NOT CONSTITUTE OR RESULT IN A NON-EXEMPT PROHIBITED TRANSACTION UNDER ERISA OR SECTION 4975 OF THE CODE. THE CLASS B-1L NOTES MAY NOT BE SOLD OR TRANSFERRED TO ANY PLAN SUBJECT TO TITLE I OF ERISA OR SECTION 4975 OF THE CODE, OR TO ANY PERSON ACTING ON BEHALF OF OR WITH "PLAN ASSETS" OF ANY SUCH PLAN, INCLUDING AN INSURANCE COMPANY GENERAL ACCOUNT, UNLESS THE PURCHASER OR TRANSFEREE IS ELIGIBLE FOR THE EXEMPTIVE RELIEF AVAILABLE UNDER PTCE 96-23, 95-60, 91-38, 90-1 OR 84-14.

EACH TRANSFEREE OF A NOTE (EXCEPT WITH RESPECT TO A TRANSFER PURSUANT TO REGULATION S) WILL BE DEEMED TO REPRESENT AT TIME OF TRANSFER THAT SUCH TRANSFEREE IS A QUALIFIED INSTITUTIONAL BUYER OR A NON U.S. PERSON AND (I) THAT IT IS A QUALIFIED PURCHASER, (II) THAT IT IS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE NOTES, UNLESS ALL OF ITS BENEFICIAL OWNERS ARE QUALIFIED PURCHASERS, (III) THAT IT IS NOT A DEALER DESCRIBED IN PARAGRAPH (a)(1)(ii) OF RULE 144A UNLESS SUCH TRANSFEREE OWNS AND INVESTS ON A DISCRETIONARY BASIS AT LEAST U.S.\$25 MILLION IN SECURITIES OF ISSUERS THAT ARE NOT AFFILIATED PERSONS OF SUCH DEALER, (IV) THAT IT IS NOT A PLAN REFERRED TO IN PARAGRAPH (a)(1)(i)(D) OR (E) OF RULE 144A OR A TRUST FUND REFERRED TO IN PARAGRAPH (a)(1)(i)(F) OF RULE 144A THAT HOLDS THE ASSETS OF SUCH PLAN, UNLESS INVESTMENT DECISIONS ARE MADE SOLELY BY THE FIDUCIARY, TRUSTEE OR SPONSOR OF SUCH PLAN, (V) THAT IT AND EACH ACCOUNT FOR WHICH IT IS PURCHASING IS PURCHASING NOTES IN AT LEAST THE MINIMUM DENOMINATION AND (VI) THAT IT WILL PROVIDE WRITTEN NOTICE OF THE FOREGOING AND ANY OTHER APPLICABLE TRANSFER RESTRICTIONS TO ANY TRANSFEREE.

THE INDENTURE PROVIDES THAT IF, NOTWITHSTANDING THE RESTRICTIONS ON TRANSFER CONTAINED THEREIN, THE ISSUER DETERMINES ANY BENEFICIAL OWNER OR HOLDER OF A NOTE (OTHER THAN A NOTE TRANSFERRED IN RELIANCE ON REGULATION S) IS NOT A QUALIFIED INSTITUTIONAL BUYER AND A QUALIFIED PURCHASER, THE ISSUER WILL REQUIRE THAT SUCH BENEFICIAL OWNER OR HOLDER SELL ALL OF ITS RIGHT TITLE AND INTEREST IN SUCH NOTE TO A PERSON WHO IS SO QUALIFIED, WITH SUCH SALE TO BE EFFECTED WITHIN 30

DAYS AFTER NOTICE OF SUCH SALE REQUIREMENT IS GIVEN. IF SUCH SALE IS NOT EFFECTED WITHIN SUCH 30 DAYS, UPON WRITTEN DIRECTION FROM THE ISSUER, THE TRUSTEE (OR AN INVESTMENT BANKER SELECTED BY THE TRUSTEE AND APPROVED BY THE ISSUER) WILL BE AUTHORIZED TO CONDUCT A COMMERCIALY REASONABLE SALE OF SUCH NOTE TO A PERSON WHO DOES SO QUALIFY AND PENDING TRANSFER, NO FURTHER PAYMENTS WILL BE MADE IN RESPECT OF SUCH NOTE OR ANY BENEFICIAL INTEREST THEREIN.

TRANSFERS OF THE NOTES MUST GENERALLY BE ACCOMPANIED BY APPROPRIATE TAX TRANSFER DOCUMENTATION AND ARE SUBJECT TO RESTRICTIONS AS PROVIDED IN THE INDENTURE.

THE FOLLOWING INFORMATION IS PROVIDED PURSUANT TO UNITED STATES TREASURY REGULATION SECTION 1.1275-3(b). THIS NOTE HAS BEEN ISSUED WITH ORIGINAL ISSUE DISCOUNT FOR UNITED STATES FEDERAL INCOME TAX PURPOSES. THE HOLDER OF THIS NOTE MAY OBTAIN THE INFORMATION DESCRIBED IN UNITED STATES TREASURY REGULATION SECTION 1.1275-3(b)(1)(i) FROM THE ADMINISTRATOR, AT THE FOLLOWING ADDRESS: P.O. BOX 1093 GT, GRAND CAYMAN, CAYMAN ISLANDS.

Subject to the restrictions on transfer set forth in the Indenture and the Notes and except with respect to transfer of an interest in a Regulation S Global Note or a Rule 144A Global Note (the procedure for which is set forth in the Indenture), the Holder of any Notes may transfer the same in whole or in part (in a principal amount equal to any authorized denomination) by surrendering such Notes at the corporate trust office of the Trustee or at the office of any transfer agent, together with an executed instrument of assignment and transfer substantially in the form attached to the Indenture. In exchange for any Notes properly presented for transfer with all necessary accompanying documentation, the Trustee will authenticate and deliver at the corporate trust office of the Trustee or the office of the transfer agent, as the case may be, to the transferee or send by first-class mail at the risk of the transferee to such address as the transferee may request, a Note or Notes, for a like aggregate principal amount and in such authorized denomination or denominations as may be requested. The presentation for transfer of any Notes will not be valid unless made at the office of the Trustee designated for such purpose or at the office of a transfer agent by the registered Holder in person, or by a duly authorized attorney-in-fact. The Holder of a Note will not be required to bear the costs and expenses of effecting any transfer or registration of transfer, except that the relevant Holder will be required to bear (i) the expenses of delivery by other than regular mail (if any) and (ii) if the Co-Issuers so require, the payment of a sum sufficient to cover any duty, stamp tax or governmental charge or insurance charges that may be imposed in relation thereto.

#### Settlement

All payments in respect of the Notes shall be made in United States dollars in same-day funds.

### **CERTAIN TAX CONSIDERATIONS**

#### Introduction

The following is a summary of certain of the United States federal income tax consequences of an investment in the Notes by purchasers that acquire their Notes in the initial offering. The discussion and the opinions referenced below are based upon laws, regulations, rulings, and decisions currently in effect, all of which are subject to change, possibly with retroactive effect. Prospective investors should note that no rulings have been or are expected to be sought from the Internal Revenue Service (the "IRS") with respect to any of the United States federal income tax consequences discussed below, and no assurance can be given that the IRS will not take contrary positions. Further, the following summary does not deal with all United States federal income tax consequences applicable to any given investor, nor does it address the United States federal income tax considerations applicable to all categories of investors, some of which may be subject to special rules, such as Non-U.S. Holders (defined below), banks, REITs, RICs, insurance companies, tax-exempt organizations, dealers in securities or currencies, electing large partnerships, natural persons, cash method taxpayers, S corporations, estates and trusts, investors that

hold their Notes as part of a hedge, straddle, or an integrated or conversion transaction, or investors whose "functional currency" is not the United States dollar. Furthermore, it does not address alternative minimum tax consequences, or the indirect effects on investors of equity interests in either a U.S. Holder (as defined below) or a Non-U.S. Holder. In addition, this summary is generally limited to investors that acquire their Notes on the Closing Date for the issue price applicable to such Notes and who will hold their Notes as "capital assets" within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "**Code**"). Investors should consult their own tax advisors to determine the United States federal, state, local, and other tax consequences of the purchase, ownership, and disposition of the Notes.

As used herein, "**U.S. Holder**" means a beneficial owner of a Note that is an individual citizen or resident of the United States for United States federal income tax purposes, a corporation or other entity taxable as a corporation created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), an estate the income of which is subject to United States federal income taxation regardless of its source, or a trust where a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of the trust (or a trust that has made a valid election under United States Treasury Regulations to be treated as a domestic trust). If a partnership holds Notes, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners of partnerships holding Notes should consult their own tax advisors. "**Non-U.S. Holder**" means any holder (or beneficial holder) of a Note that is not a U.S. Holder.

#### United States Federal Income Tax Consequences to the Issuer

Upon the issuance of the Notes, Orrick, Herrington & Sutcliffe LLP, special United States tax counsel to the Issuer, will deliver an opinion generally to the effect that under current law, and assuming compliance with the Indenture (and certain other documents) and based on certain factual representations made by the Issuer and the Servicer, although the matter is not free from doubt, the Issuer will not be engaged in the conduct of a trade or business in the United States. Prospective investors should be aware that opinions of counsel are not binding on the IRS and the IRS might seek to treat the Issuer as engaged in a United States trade or business. In addition, the Issuer and Servicer are entitled to rely upon the advice and/or opinions of their selected counsel with respect to amendments, supplements and other modifications of the terms of the Portfolio Collateral and deviations from the investment guidelines set forth in the Servicing Agreement; the foregoing opinion assumes that any such advice and/or opinions will be correct and complete. It should be noted as well that the United States Treasury Department and the IRS recently announced that they are considering taxpayer requests for specific guidance on, among other things, whether a foreign person may be treated as engaged in a trade or business in the United States by virtue of entering into credit default swaps. No guidance has been issued to date. If any future guidance concludes that foreign persons entering into certain credit default swaps will be treated as engaged in a trade or business in the United States, such guidance would adversely impact the Issuer's ability to pay principal and interest on the Notes. Additionally, it should be noted that gain or loss on a disposition by a foreign person of a United States real property interest may be subject to United States federal income tax as if the foreign person were engaged in a United States trade or business (even if the foreign person is not actually so engaged). Because the determination of whether an asset constitutes a United States real property interest is made periodically, although the Issuer is prohibited from acquiring an asset that constitutes a United States real property interest, it is possible that an asset that was not a United States real property interest at the time such asset was acquired by the Issuer could become a United States real property interest after the asset is acquired. Similarly, if the Issuer accepted a new security in exchange for an existing security or if the terms of an existing security were modified, the new or modified security might cause the Issuer to become engaged in a United States trade or business for United States federal income tax purposes.

The Issuer intends to elect to be (and expects to be) treated as a partnership for United States federal income tax purposes. There can be no assurance, however, that the Issuer will not (at some point in time) become classified as a corporation for United States federal income tax purposes. If the Issuer were to be treated as a corporation and if the IRS were to successfully characterize the Issuer as engaged in a United States trade or business, among other consequences, the Issuer would be subject to net income taxation in the United States (as well as the branch profits tax) on its income that is effectively connected to the United States trade or business. The levying of such taxes would materially affect the Issuer's financial ability to pay principal and interest on the Notes.

The Issuer intends to acquire the Portfolio Collateral the interest on which and any gain from the sale or disposition with respect to which is not expected to be subject to United States federal withholding tax or withholding tax imposed by other countries (unless, in the case of interest, the obligor is required to "gross up" its payments to compensate for these taxes). The Issuer will not, however, make any independent investigation of the circumstances surrounding the issuance of the individual assets comprising the Portfolio Collateral and, thus, there can be no assurance that payments of interest on and gain from the sale or disposition of the Portfolio Collateral will in all cases be received free of withholding tax. It is not expected that the Issuer will derive material amounts of any other items of income that will be subject to United States withholding taxes. Notwithstanding the foregoing, any commitment fee, facility fee or other similar fee that the Issuer earns may be subject to a 30% United States federal withholding tax and any lending fees received under a securities lending agreement may also be subject to such tax.

If withholding or deduction of any taxes from payments on the Notes is required by law in any jurisdiction, the Issuer shall be under no obligation to make any additional payments to any holder in respect of such withholding or deduction.

#### Classification and Tax Treatment of the Notes

The Issuer has agreed and, by its acceptance of a Note, each holder will be deemed to have agreed, to treat each of the Notes as debt of the Issuer for United States federal income tax purposes. Upon the issuance of the Notes, Orrick, Herrington & Sutcliffe LLP will deliver an opinion generally to the effect that, assuming compliance with the Indenture (and certain other documents) and based on certain factual representations made by the Issuer and the Servicer, the Notes should be characterized as debt of the Issuer for United States federal income tax purposes. Prospective investors should be aware that opinions of counsel are not binding on the IRS, and there can be no assurance that the IRS will not seek to characterize any Class of Notes as other than indebtedness. However, except as provided under "Alternative Characterizations of the Notes," the balance of this discussion assumes that the Notes will be characterized as debt of the Issuer for United States federal income tax purposes.

Each U.S. Holder will include interest on the Notes in income in accordance with its regular method of accounting for Federal income tax purposes unless the Notes are viewed as having been issued with original issue discount ("**OID**") in which case, generally, each U.S. Holder would be required to accrue interest on the Note on an accrual basis under a constant yield methodology, based on the original yield to maturity of the Note. Because interest on the Class A-3L Notes, Class A-4L Notes and Class B-1L Notes may be deferred without giving rise to an Event of Default, all interest (including interest on accrued but unpaid interest) will be treated as OID unless the likelihood of deferral is remote. The Issuer has not determined whether the likelihood of interest being deferred is remote for this purpose, and hence will treat the interest on the Class A-3L Notes, Class A-4L Notes and Class B-1L Notes as OID. Even if the likelihood of deferral is remote, if the Issuer does in fact defer interest on a Class of Notes, a U.S. Holder would thereafter be required to accrue interest (including deferred interest) with respect to such Notes as OID. Any accrued but unpaid OID included in income by a U.S. Holder would increase the U.S. Holder's basis in the Note and thereby reduce the amount of gain or increase the amount of loss recognized by the U.S. Holder on a subsequent sale or other disposition of the Note.

If any of the Notes are viewed as having been issued with OID, the OID may be accruable under the special rules set forth in Section 1272(a)(6) of the Code (which apply to debt instruments that may be accelerated by reason of the prepayment of other debt obligations securing such debt instruments). If Section 1272(a)(6) does not apply, the Notes might be treated as "contingent payment debt instruments" ("**CPDIs**") within the meaning of Treasury Regulation Section 1.1275-4. If any Class of Notes were considered CPDIs, among other consequences, gain on the sale of such Notes that might otherwise be capital gain would be ordinary income. Prospective investors should consult their own tax advisors regarding the potential application of Section 1272(a)(6) of the Code to the Notes and the rules governing CPDIs.

The United States federal income tax consequences of a Maturity Extension are unclear. If a Maturity Extension occurs with respect to the Notes (other than the Class X Notes), the Issuer intends to treat such Notes, solely for purposes of sections 1272 and 1273 of the Code, as having been retired and reissued for an amount equal to their adjusted issue price on the date of the new Extension Effective Date. Additionally, U.S. Holders may be deemed for United States federal income tax purpose to have exchanged their Notes in a taxable exchange for new

notes with an extended final maturity date (the "New Notes") if, at such time, the Extension Qualifying Purchaser is related to the Issuer within the meaning of Section 267(b) or 707(b)(1) of the Code. If such relationship existed, U.S. Holders that did not exercise their right to put their Notes to the Extension Qualifying Purchaser may be treated as having acquired such New Notes with market discount or premium (and there might be other possible tax consequences). In addition, if the Notes are treated as exchanged for New Notes, the characterization of the New Notes (as debt or equity) would depend on the facts and circumstances existing at the time of such deemed exchange. In the event of a Maturity Extension, all U.S. Holders are urged to consult their own tax advisors with respect to whether the Extension Qualifying Purchaser is related to the Issuer, and, if so, the United States federal income tax consequences of any deemed exchange.

The tax treatment of the Extension Bonus Payment is also unclear. The Issuer intends to take the position that the Extension Bonus Payment is an incidental payment within the meaning of Treasury Regulation Section 1.1275-2(h)(3), and that the amount of such payment should be includible in income as ordinary income in accordance with the U.S. Holder's normal method of tax accounting. The Issuer's determination with respect to this issue will not be binding on the IRS, but will be binding on any U.S. Holder that does not disclose an objection on its timely filed tax return for the taxable year that includes the acquisition date of such Note. U.S. Holders should consult with their own tax advisors concerning the proper taxation and characterization of such payments, and whether the right to such payments could cause the Notes to be subject to the OID rules or to be treated as CPDIs.

In general, a U.S. Holder of a Note will have a basis in such Note equal to the cost of such Note to such U.S. Holder, increased by any amount includible in income by such U.S. Holder as OID and reduced by any amortized premium, any principal payments and any payments of OID. Upon a sale, exchange or other disposition of a Note, a U.S. Holder will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange or other disposition (less any accrued and unpaid interest, which would be taxable as such) and the U.S. Holder's tax basis in such Note (as reduced by any accrued and unpaid interest). Such gain or loss generally will be long-term capital gain or loss if the U.S. Holder held the Note for more than one year at the time of disposition (other than accrued market discount if the U.S. Holder did not elect to include such discount in income on a current basis). In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

The Indenture provides that Holders of any Class of Notes may elect to acquire credit enhancement on terms and conditions acceptable to such Holders. Prior to acquiring such enhancement, U.S. Holders should consult with their own tax advisors concerning the treatment of the credit enhancement for United States federal income tax purposes (including the viability of integrating the Notes and the credit enhancement).

#### Alternative Characterizations of the Notes

Notwithstanding special United States tax counsel's opinion, U.S. Holders should recognize that there is some uncertainty regarding the appropriate classification of instruments such as the Notes. It is possible, for example, that the IRS may contend that the Class B-1L Notes and, possibly, any other Class of Notes should be treated as equity interests in the Issuer. In such a case, payments on the Notes would likely be viewed as guaranteed payments (rather than as interest) for United States federal income tax purposes. Additionally, U.S. Holders would be required to file information returns with the IRS with respect to their acquisition of the Notes and be subject to significant penalties for failure to do so. Moreover, if the Issuer were classified as a corporation rather than as a partnership for United States federal income tax purposes and the Notes were viewed as equity in this corporation, the Issuer would constitute a passive foreign investment company and, possibly, a controlled foreign corporation, which would produce adverse tax consequences for U.S. Holders. Accordingly, all U.S. Holders are urged to consult their own tax advisors as to the consequences that would result if the Notes were characterized as equity (and the additional consequences that would result if the Issuer were classified as a corporation) for United States federal income tax purposes.

Information Reporting Requirements

Information reporting to the IRS may be required with respect to payments on the Notes, and proceeds of the sale of the Notes to holders other than corporations and certain other exempt recipients. A “backup” withholding tax may also apply to those payments if a holder fails to provide certain identifying information (such as the holder’s taxpayer identification number or an attestation to the status of the holder as a Non-U.S. Holder). Backup withholding is not an additional tax and may be refunded (or credited against the holder’s U.S. federal income tax liability, if any) provided that certain required information is furnished to the IRS in a timely manner.

Prospective investors should consult with their own tax advisors regarding whether they are required to file an IRS Form 8886 in respect of this transaction (relating to certain “reportable transactions”). Thus, for example, if a U.S. Holder were to sell its Notes at a loss, it is possible that this loss could constitute a reportable transaction, and need to be reported on Form 8886. As another example, a transaction may be reportable if it is offered under conditions of confidentiality. In this regard, each holder and beneficial holder of the Notes (and each of their respective employees, representatives or other agents) is hereby advised that it is permitted to disclose to any and all persons, without limitation of any kind, the tax treatment and tax structure of the transactions described herein (including the ownership and disposition of the Notes). Significant penalties apply for failure to file Form 8886 when required, and holders are therefore urged to consult their own tax advisors.

Non-U.S. Holders

Assuming that the Issuer is not engaged in a United States trade or business, a Non-U.S. Holder of a Note that has no connection with the United States and is not related, directly or indirectly, with the Issuer or the holders of the Issuer's equity, will not be subject to United States withholding tax on interest payments. Non-U.S. Holders may be required to make certain tax representations regarding the identity of the beneficial owner of the Notes in order to receive payments free of withholding.

Circular 230

Under 31 C.F.R. part 10, the regulations governing practice before the IRS (Circular 230), we and our tax advisors are (or may be) required to inform you that:

- Any advice contained herein, including any opinions of counsel referred to herein, is not intended or written to be used, and cannot be used by any taxpayer, for the purpose of avoiding penalties that may be imposed on the taxpayer;
- Any such advice is written to support the promotion or marketing of the Notes and the transactions described herein (or in such opinion or other advice); and
- Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

**CAYMAN ISLANDS TAX CONSEQUENCES**

The following discussion of certain Cayman Islands income tax consequences of an investment in the Notes is based on the advice of Maples and Calder as to Cayman Islands law. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It assumes that the Issuer will conduct its affairs in accordance with assumptions made by, and representations made to, counsel. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under existing Cayman Islands laws:

- (i) payments of principal and interest in respect of the Notes will not be subject to taxation in

the Cayman Islands and no withholding will be required on such payments to any Holder of a Note and gains derived from the sale of Notes will not be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax; and

(ii) the Holder of any Note (or the legal personal representative of such Holder) whose Note is brought into the Cayman Islands may in certain circumstances be liable to pay stamp duty imposed under the laws of the Cayman Islands in respect of such Note.

The Issuer has been incorporated under the laws of the Cayman Islands as an exempted company and, as such, has applied for and obtained an undertaking from the Governor In Cabinet of the Cayman Islands in the following form:

### **The Tax Concessions Law**

**(1999 Revision)**

#### **Undertaking as to Tax Concessions**

In accordance with Section 6 of the Tax Concessions Law (1999 Revision) the Governor in Cabinet undertakes with Rockwall CDO Ltd. (the "**Company**"):

- (a) that no law which is hereafter enacted in the Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and
- (b) in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable
  - (i) on or in respect of the shares, debentures or other obligations of the Company; or
  - (ii) by way of the withholding in whole or in part of any relevant payment as defined in Section 6(3) of the Tax Concessions Law (1999 Revision).

These concessions shall be for a period of twenty years from the 21st day of June 2005.

### **CERTAIN ERISA CONSIDERATIONS**

The United States Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), imposes requirements on employee benefit plans (as defined in Section 3(3) of ERISA) subject to Title I of ERISA ("**ERISA Plans**") and on persons who are fiduciaries (as defined in Section 3(21) of ERISA) with respect to such ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of investment prudence and diversification, requirements respecting delegation of investment authority and the requirement that an ERISA Plan's investments be made in accordance with the documents governing the ERISA Plan. Each ERISA Plan fiduciary should give appropriate consideration to the facts and circumstances that are relevant to an investment in the Notes, including the role that an investment in the Notes plays in the Plan's investment portfolio. Before deciding to invest "plan assets" of any ERISA Plan in the Notes, the investing ERISA Plan fiduciary should be satisfied that investment in the Notes is a prudent investment for the ERISA Plan, that the investments of the ERISA Plan, including the investment in the Notes, are diversified so as to minimize the risk of large losses and that an investment in the Notes complies with the ERISA Plan and related trust documents. Any person who decides to invest "plan assets" of an ERISA Plan in the Notes should consider, among other factors, the factors discussed above under "Special Considerations."

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans, as well as individual retirement accounts and Keogh plans, subject to either or both of such statutes (each, a "**Plan**") from engaging in certain transactions with persons that are "parties in interest" under ERISA or "disqualified persons" under Section 4975 of

the Code (collectively, "**Parties in Interest**") with respect to such Plans. A violation of these prohibited transaction rules may result in an excise tax or other penalties and liabilities under ERISA and/or Section 4975 of the Code for such persons.

Certain transactions involving the purchase, holding or transfer of the Notes might be deemed to constitute or result in prohibited transactions under ERISA and/or Section 4975 of the Code. For example, if the "plan assets" of an investing Plan were deemed to include assets of the Issuer and if any of the Portfolio Collateral constitutes an obligation of or is purchased from or sold to a Party in Interest with respect to such Plan, an indirect prohibited transaction in the nature of an extension of credit or a purchase or sale of assets between such Plan and such Party in Interest might be deemed to occur. In addition, if the assets of the Issuer were deemed to be "plan assets" of any Plan investors, Notes sold to a Party in Interest with respect to such Plan would constitute a prohibited extension of credit transaction, possibly subjecting such Noteholder to excise taxes under Section 4975 of the Code. Under regulations issued by the United States Department of Labor, set forth in 29 C.F.R. § 2510.3-101 (the "**Plan Asset Regulations**"), the assets of the Issuer would be treated as "plan assets" of a Plan for purposes of ERISA and Section 4975 of the Code if the Plan acquires an equity interest in the Issuer and none of the exceptions contained in the Plan Asset Regulations applies. An equity interest is defined under the Plan Asset Regulations as any interest in an entity other than an instrument which is treated as indebtedness under applicable local law and which has no substantial equity features.

Although there is no authority directly on point, it is anticipated that the Notes should be treated as indebtedness under local law and should not be treated as having substantial equity features for purposes of the Plan Asset Regulations. However, without regard to whether (i) the Notes are treated as an equity interest for such purposes or (ii) the assets of the Issuer are deemed to be "plan assets" of an investing Plan, the acquisition or holding of Notes by or on behalf of, or with "plan assets" of, a Plan could be considered to give rise to a prohibited transaction if the Issuer, the Trustee, the Initial Purchaser, the Servicer, an issuer of an item of Portfolio Collateral, or any of their respective affiliates is or becomes a Party in Interest with respect to an investing Plan. Certain exemptions from the prohibited transaction rules could apply to the acquisition of a Note by or with "plan assets" of a Plan, depending on the type and circumstances of the Plan fiduciary making the decision to acquire a Note. Included among these exemptions are: Prohibited Transaction Class Exemption ("**PTCE**") 96-23, regarding transactions effected by certain "in-house asset managers"; PTCE 95-60, regarding investments by insurance company general accounts; PTCE 91-38, regarding investments by bank collective investment funds; PTCE 90-1, regarding investments by insurance company pooled separate accounts; and PTCE 84-14, regarding transactions effected by independent "qualified professional asset managers." However, even if the conditions specified in one or more of these exemptions are met, the scope of the relief provided by these exemptions might or might not cover all acts which might be construed as prohibited transactions and in particular would not apply to prohibited transactions arising from the operations of the Issuer.

In any event, a fiduciary or other person investing "plan assets" of any Plan should not purchase Notes if the Issuer, the Initial Purchaser, the Trustee, the Servicer or any of their respective affiliates (a) has investment discretion with respect to the investment of such assets; (b) has authority or responsibility to give or regularly gives investment advice with respect to such assets, for a fee, pursuant to an agreement or understanding that such advice will serve as a primary basis for investment decisions with respect to such assets and that such advice will be based on the particular investment needs of such Plan; or (c) unless PTCE 95-60, 91-38 or 90-1 is applicable, is an employer maintaining or contributing to such Plan. A party that is described in clause (a) or (b) of the preceding sentence is a fiduciary under ERISA with respect to the Plan and any such purchase might result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code.

As a general rule, certain employee benefit plans, including governmental plans (as defined in Section 3(32) of ERISA) and certain church plans (as defined in Section 3(33) of ERISA), are not subject to ERISA's requirements. Accordingly, assets of many such plans may be invested in the Notes without regard to ERISA prohibited transaction considerations described above, subject to the provisions of other applicable federal and state law. However, any such plan which is qualified and exempt from taxation under Sections 401(a) and 501(a) of the Code may nonetheless be subject to the prohibited transaction rules set forth in Section 503 of the Code and, under certain circumstances in the case of church plans, Section 4975 of the Code. Also, some governmental plans are subject to federal, state or local laws which are, to a material extent, similar to the provisions of Title I of ERISA or

Section 4975 of the Code (a "**Similar Law**"). Each governmental plan fiduciary should make its own determination as to the need for and the availability of any exemptive relief under a Similar Law.

*Each Holder of a Class X Note, a Class A-1LA Note, a Class A-1LB, a Class A-2L Note, a Class A-3L Note or a Class A-4L Note, by its acquisition thereof, shall be deemed to represent to the Issuer, the Servicer and the Trustee that either (i) no part of the funds being used to pay the purchase price for such Note constitutes "plan assets" of any Plan, or (ii) if the funds being used to pay the purchase price for such Note includes "plan assets" of any Plan, an exemption to the prohibited transaction rules applies.*

*Each Holder of a Class B-1L Note by its acquisition thereof, shall be deemed to represent to the Issuer, the Servicer and the Trustee that either (a) the purchaser or transferee is not a Plan and is not acquiring the Class B-1L Note with assets of a Plan or (b) it is an insurance company and such funds include only assets of its general account, and its acquisition and holding of such Note are eligible for exemptive relief available under Section I of PTCE 95-60, or the acquisition and holding of the Class B-1L Notes by the purchaser or transferee are eligible for the exemptive relief under PTCE 96-23, 91-38, 90-1 or 84-14.*

**Any person proposing to invest assets of any Plan, or any governmental plan subject to Similar Law, in the Notes should consult with its counsel to confirm that such investment will not constitute or result in any prohibited transaction that is not subject to an exemption and will satisfy the other requirements of ERISA, the Code and, in the case of such a governmental plan, Similar Law.**

#### **CERTAIN LEGAL INVESTMENT CONSIDERATIONS**

Institutions whose investment activities are subject to legal investment laws and regulations or to review by certain regulatory authorities may be subject to restrictions on investments in the Notes. Any such institution should consult its legal advisors in determining whether and to what extent there may be restrictions on its ability to invest in the Notes. Without limiting the foregoing, any financial institution that is subject to the jurisdiction of the Comptroller of Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Office of Thrift Supervision, the National Credit Union Administration, any state insurance commission, or any other federal or state agencies with similar authority should review any applicable rules, guidelines and regulations prior to purchasing the Notes. Depository institutions should review and consider the applicability of the Federal Financial Institutions Examination Council Supervisory Policy Statement on Securities Activities, which has been adopted by the respective federal regulators.

None of the Co-Issuers or the Initial Purchaser make any representation as to the proper characterization of the Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Notes under applicable investment restrictions. The Co-Issuers understand that certain state insurance regulators, in response to a request for guidance, may be considering the characterization (as U.S. domestic or foreign (non-U.S.)) of certain collateralized debt obligation securities co-issued by a non-U.S. issuer and a U.S. co-issuer. There can be no assurance as to the nature of any guidance or other action that may result from such consideration. The uncertainties described above (and any unfavorable future determinations concerning legal investment or financial institution regulatory characteristics of the Notes) may affect the liquidity of the Notes. Accordingly, all institutions whose activities are subject to legal investment laws and regulations, regulatory capital requirements or review by regulatory authorities should consult their own legal advisors in determining whether and to what extent the Notes are subject to investment, capital or other restrictions.

#### **RATINGS**

It is a condition to the issuance of the Notes that the Class X Notes, Class A-1LA Notes and Class A-1LB Notes each be rated "AAA" by S&P and "Aaa" by Moody's, that the Class A-2L Notes be rated at least "AA" by S&P and at least "Aa2" by Moody's, that the Class A-3L Notes be rated at least "A" by S&P and at least "A2" by Moody's, that the Class A-4L Notes be rated at least "A-" by S&P and at least "A3" by Moody's and that the Class B-1L Notes be rated at least "BBB" by S&P and at least "Baa2" by Moody's. Each of the ratings of the Notes described herein assumes that no Maturity Extension occurs after the Closing Date. A security rating is not a

recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating organization.

**The ratings of the Notes by S&P address solely the likelihood of timely payment of the Periodic Interest Amount on and the ultimate payment of the Aggregate Principal Amount of each Class of Senior Class A Notes, the timely payment of the Class X Payment and the ultimate payment of the Cumulative Interest Amount and the Aggregate Principal Amount of the Class A-3L Notes, the Class A-4L Notes and the Class B-1L Notes. The ratings of the Notes by Moody's address the ultimate cash receipt of all required payments as provided by the governing documents, and are based on the expected loss to the Noteholders of each Class relative to the promise of receiving the present value of such payments. A rating is not a recommendation to purchase, hold or sell securities, in as much as such rating does not comment as to market price or suitability for a particular investor and may be subject to revision or withdrawal at any time by the assigning rating organization.**

In the event that any rating initially assigned to the Notes is subsequently lowered for any reason, no person or entity is obligated to provide any additional support or credit enhancement with respect to the Notes. The Issuer has not requested a rating on the Notes by any rating agencies other than S&P and Moody's, although data with respect to the Portfolio Collateral may have been provided to other rating agencies solely for informational purposes. There can be no assurance that, if a rating is assigned to the Notes by any other rating agency, such rating will be as high as that assigned by S&P and Moody's.

#### **USE OF PROCEEDS**

The net proceeds from the sale of the Notes as described herein, together with net proceeds from the sale of the Preferred Shares will be used by the Issuer to fund the purchase of a principal amount of the Initial Portfolio Collateral at least equal to the Initial Portfolio Collateral Amount, to fund the Deposit on the Closing Date of cash in the approximate amount such that the Aggregate Principal Amount of Original Portfolio Collateral originally purchased by the Issuer on or before the Effective Date will equal the Required Portfolio Collateral Amount and to fund the deposit in the Expense Reimbursement Account on the Closing Date of approximately U.S.\$50,000, which Expense Reimbursement Account will be available for payment from time to time of future expenses of the Issuer pending the receipt of collections in respect of the Portfolio Collateral as described herein, to pay organizational, legal and other fees and expenses, related to the transaction, and to fund the Reserve Amount. The net proceeds from the sale of the Notes and the Preferred Shares will be approximately U.S.\$856,312,500.

#### **PLAN OF DISTRIBUTION**

The Initial Purchaser has advised the Co-Issuers that it proposes to offer the Notes to prospective purchasers from time to time in individually negotiated transactions at varying prices to be determined in each case at the time of sale. The price(s) paid by the Initial Purchaser for the Notes may be less than those paid by other purchasers of the Notes. The Initial Purchaser may offer or sell Notes to purchasers at negotiated prices, which may vary among different purchasers of Notes of any Class. In addition to the structuring and placement fees paid to the Initial Purchaser, the Initial Purchaser may be deemed to receive compensation for the sale of the Notes to the extent that the price(s) paid by it for Notes is less than the price(s) at which they are resold. The Notes are offered when, as and if issued by the Co-Issuers, subject to prior sale or withdrawal, cancellation or modification of the offer without notice and subject to approval of certain legal matters by counsel and certain other conditions. It is expected that delivery of the Notes will be made on or about the Closing Date, against payment in immediately available funds.

The Notes have not been registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, United States persons except to (i) Qualified Institutional Buyers in reliance on Rule 144A under the Securities Act and (ii) other persons or entities pursuant to other valid exemptions from the registration requirements of the Securities Act.

Without limiting the foregoing, no transfer of Notes may be made except to a non-U.S. Person in an offshore transaction in compliance with Regulation S or to a Qualified Purchaser or if such transfer would not

require the Issuer or the Co-Issuer to become subject to the registration requirements of the Investment Company Act.

Each of the Co-Issuers and the Initial Purchaser represents and agrees that it (i) has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act of 2000 ("FSMA")) received by it in connection with the issue or sale of any offered securities in circumstances in which Section 21(a) of the FSMA does not apply to the Issuer; and (ii) has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the offered securities, in, from or otherwise involving the United Kingdom.

No invitation may be made to the public in the Cayman Islands to subscribe for the Notes.

Purchasers of Notes sold outside the United States may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the price charged to investors for the Notes.

The Notes are new securities for which there currently is no market. Accordingly, no assurance can be given as to the development or liquidity of any market for the Notes.

Highland Capital has invested over \$250 million of firm capital in its funds, and expects that HFP, one of its Affiliates, will on the Closing Date purchase 100% of the Class II Preferred Shares.

#### Philosophy and Process

Highland Capital has expertise in the fields of syndicated loans, high yield bonds, and distressed assets. Portfolio managers follow each credit and several times each year the entire professional staff reviews all positions during multi-day monitoring meetings. Highland Capital diversifies its portfolios with set limits on exposure to any one given industry or issuer.

Since 1990, Highland Capital has been using a committee to coordinate the selection, monitoring and servicing process. The committee, which consists of senior portfolio managers, Highland Capital's Chief Investment Officer and its Head of Structured Products, meets every morning to discuss the status of the credits. Collectively, the committee utilizes a selection process which is driven by credit research. Each portfolio manager/analyst makes

specific credit recommendations based upon industry coverage. The credit proposal is then brought to the committee for consideration. Based upon the consensus decision, the portfolio manager will direct Highland traders to execute the trade. Highland Capital has also provided its committee with a commitment to technology. The firm developed Wall Street Office® which is a proprietary software system that allows Highland Capital to model, portfolio manage, and trade syndicated loans. This software has been licensed to more than 70 financial institutions that invest in syndicated loans.

## **THE SERVICING AGREEMENT**

The following summary describes certain provisions of the Servicing Agreement. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the Servicing Agreement.

The Servicer will select the Initial Portfolio Collateral and will select all remaining Portfolio Collateral. The Servicer will also monitor the performance and credit quality of all of the Portfolio Collateral on an ongoing basis as further provided in the Servicing Agreement. Pursuant to the terms of the Servicing Agreement and the Indenture, the Servicer will direct the Issuer with respect to the use of collections on Portfolio Collateral to purchase Substitute Portfolio Collateral or Additional Portfolio Collateral, direct the Trustee when to deliver an item of Credit Risk Portfolio Collateral, Credit Improved Portfolio Collateral, Equity Portfolio Collateral or other item of Portfolio Collateral for sale and direct the use of proceeds therefrom to purchase Substitute or Additional Portfolio Collateral and Eligible Investments. The Servicer will advise the Issuer with respect to the use of certain Collections as described herein to purchase Additional Portfolio Collateral meeting the specifications set forth herein. If any Portfolio Collateral is an item of Defaulted Portfolio Collateral, the Servicer will instruct the Trustee as to the appropriate action to be taken against the issuer of such item of Portfolio Collateral and whether to retain or dispose of such item of Portfolio Collateral. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

Upon any disposition of Portfolio Collateral, the Trustee, upon direction of the Servicer, will either deposit the proceeds of such disposition in the Collection Account or apply the proceeds of such disposition to the purchase of an item of Additional Portfolio Collateral or Substitute Portfolio Collateral, all in accordance with the terms of the Indenture. Any such actions directed by the Servicer may change the composition and characteristics of the Portfolio Collateral included in the Trust Estate, the rate of payment thereon, and, accordingly, may affect the actual average life of the Notes.

The Indenture places significant restrictions on the ability of the Issuer to buy and sell securities for the Trust Estate, and the Servicer is subject to compliance with such document. Accordingly, during certain periods or in certain specified circumstances, the Issuer may be unable to buy or sell securities or to take other actions which the Servicer might consider in the interests of the Issuer and its creditors and the Holders of Preferred Shares.

In its capacity as servicer or manager, the Servicer engages in other business and furnishes asset management and other services to other clients which may differ from those followed by the Servicer on behalf of the Issuer, as required by the Indenture. The Servicer may make recommendations or effect transactions which may differ from those effected with respect to the securities in the Trust Estate.

The Servicing Agreement provides that the Servicer will not direct the Trustee to acquire an obligation to be included in the Collateral from the Servicer or any of its Affiliates as principal or to sell an obligation to the Servicer or any of its Affiliates as principal unless (i) the Issuer shall have received from the Servicer such information relating to such acquisition or sale as it may reasonably require and shall have approved such acquisition, which approval shall not be unreasonably withheld, (ii) in the judgment of the Servicer, such transaction is on terms no less favorable than would be obtained in a transaction conducted on an arm's length basis between third parties unaffiliated with each other and (iii) such transaction is permitted by the Investment Advisers Act of 1940. The Servicing Agreement also provides that the Servicer will not direct the Trustee to acquire an obligation to be included in the Collateral directly from any account or portfolio for which the Servicer serves as investment adviser, or direct the Trustee to sell an obligation directly to any account or portfolio for which the Servicer serves as investment adviser unless such acquisition or sale is (i) in the judgment of the Servicer, on terms no less favorable than would be obtained in a transaction conducted on an arm's length basis between third parties unaffiliated with each other and (ii) permitted by the Investment Advisers Act of 1940.

### Compensation

As compensation for its services under the Servicing Agreement, the Servicer will be entitled to receive a Base Servicing Fee, an Additional Servicing Fee and a Supplemental Servicing Fee (if any).

The Base Servicing Fee is a fee that will accrue from the Closing Date and be payable to the Servicer, if and to the extent funds are available for such purpose as described under "Description of the Notes—Payments on the Notes; Priority of Distributions", in arrears on each Payment Date. The Base Servicing Fee will be calculated on the basis of a 360-day year and the actual number of days elapsed. The Base Servicing Fee payable on any Payment Date will be payable from Collateral Interest Collections remaining after payment of certain fees and expenses of the Issuer but prior to payment of interest on the Notes. The Base Servicing Fee will accrue interest if unpaid. To the extent Collateral Interest Collections are insufficient to pay any accrued and unpaid Base Servicing Fee payable on any Payment Date, the Base Servicing Fee will be payable from Collateral Principal Collections available for such purpose as described under "Description of the Notes—Payments on the Notes; Priority of Distributions."

The Additional Servicing Fee is a fee that will accrue from the Closing Date and be payable to the Servicer, if and to the extent funds are available for such purpose as described under "Description of the Note—Payments on the Notes; Priority of Distributions", in arrears on each Payment Date (to the extent provided in the Servicing Agreement). The Additional Servicing Fee will be calculated on the basis of a 360-day year and the actual number of days elapsed. The Additional Servicing Fee payable on any Payment Date will be payable from Collateral Interest Collections remaining after payment of certain fees and expenses of the Issuer, the Base Servicing Fee, interest (and, if any of the Overcollateralization Tests or the Interest Coverage Test are not satisfied on the related Payment Date (other than the Interest Coverage Test on the first or second Payment Date) or if a Rating Confirmation Failure exists, principal) on the Notes and certain other amounts. The Additional Servicing Fee will accrue interest if unpaid.

The Supplemental Servicing Amount means an amount that will be payable to the Servicer in accordance with the Indenture on each Payment Date, if and to the extent funds are available for such purpose as described under "Description of the Notes—Payments on the Notes; Priority of Distributions." Excess cashflow remaining after the payment or deposit of the amounts described under "Description of the Notes—Payments on the Notes; Priority of Distributions" will be paid: (a) if the Internal Rate of Return of the Preferred Shares as of such Payment Date is less than 12%, to the Issuer to be applied to fund distributions to the Holders of the Preferred Shares, but only up to an amount that would cause the Internal Rate of Return of the Preferred Shares to equal 12%, and (b) if the Internal Rate of Return of the Preferred Shares as of such Payment Date is equal to or greater than 12%, after giving effect to any payments made under clause (a) above, (x) 20% of any remaining amount to (1) the Servicer in payment of the Supplemental Servicing Fee for such Payment Date, and (2) the Holders of the Class II Preferred Shares in accordance with the Paying and Transfer Agency Agreement, in payment of the Class II Preferred Share Supplemental Dividend then due and unpaid, and (y) 80% to the Holders of the Preferred Shares in accordance with the Paying and Transfer Agency Agreement, a dividend thereon or the redemption thereof, as applicable

If amounts distributable on any Payment Date as described under "Description of the Notes—Payments on the Notes; Priority of Distributions" are insufficient to pay the Base Servicing Fee or the Additional Servicing Fee, then the payment thereof will be deferred and will be payable with interest on subsequent Payment Dates as described herein.

The Servicer will have a senior lien on the Trust Estate with respect to its Base Servicing Fee and a junior lien on the Trust Estate with respect to its Additional Servicing Fee. The Servicer will receive reimbursement for certain expenses from the proceeds of the issuance of the Notes and the Preferred Shares. The Servicer will generally be responsible for its own expenses incurred in the course of performing its obligations under the Servicing Agreement, but may be reimbursed for certain expenses as provided in the Servicing Agreement. Generally, the Servicer will not be liable to the Issuer, the Trustee, the Holders of Notes or Preferred Shares for any loss incurred as a result of the actions taken or recommended by the Servicer under the Servicing Agreement or the Indenture, except by reason of acts constituting bad faith, willful misconduct, or gross negligence in the performance of its obligations thereunder. The Servicer will be entitled to indemnification by the Issuer under certain circumstances as described in the Servicing Agreement. In addition, the Servicer has entered into certain indemnification agreements with Bear Stearns. Under certain circumstances the Servicer also may resign or be removed.

Amendment to Servicing Agreement

The Servicing Agreement may not be amended (a) without satisfying the Rating Condition with respect to each Rating Agency or (b) if a Majority of the Controlling Class or a Majority of the Preferred Shares have objected in writing to such amendment or modification within 30 days of notice thereof.

Resignation of Servicer

Subject to the provisions for a successor Servicer discussed below, the Servicer may resign, upon 90 days' written notice to the Issuer (or such shorter notice as is acceptable to the Issuer).

Termination of Servicing Agreement

The Servicing Agreement will be terminated, and the Servicer will be removed, by the Issuer, if directed by a Majority of the Controlling Class of Notes or by at least 66 2/3% of the Holders of the Preferred Shares (excluding any Preferred Shares held by the Servicer or its Affiliates or any account for which the Servicer or its Affiliates have discretionary voting authority at the time of such vote), in each case for "cause" upon 10 days' prior written notice to the Servicer and upon written notice to the Noteholders and the Holders of the Preferred Shares as set forth below. For purposes of determining "cause" with respect to any such termination of the Servicing Agreement, such term shall mean any one of the following events:

(i) the Servicer willfully breaches in any respect, or takes any action that it knows violates in any respect, any provision of the Servicing Agreement or any terms of the Indenture applicable to it;

(ii) the Servicer breaches in any material respect any provision of the Servicing Agreement or any terms of the Indenture or the Collateral Administration Agreement applicable to it, or any representation, warranty, certification or statement given in writing by the Servicer shall prove to have been incorrect in any material respect when made or given, and the Servicer fails to cure such breach or take such action so that the facts (after giving effect to such action) conform in all material respects to such representation, warranty, certification or statement, in each case within 30 days of becoming aware of, or receiving notice from, the Trustee of, such breach or materially incorrect representation, warranty certification or statement;

(iii) certain events of bankruptcy or insolvency occur with respect to the Servicer;

(iv) the occurrence of any Event of Default under the Indenture that results from any breach by the Servicer of its duties under the Indenture or the Servicing Agreement, which breach or default is not cured within any applicable cure period; or

(v) (x) the occurrence of an act by the Servicer related to its activities in any securities, servicing, financial advisory or other investment business that constitutes fraud, (y) the Servicer being indicted, or any of its principals being convicted, of a felony criminal offense related to its activities in any securities, servicing, financial advisory or other investment business or (z) the Servicer being indicted for, adjudged liable in a civil suit for, or convicted of a violation of the Securities Act or any other United States Federal securities law or any rules or regulations thereunder.

Successor Servicer

No removal, termination or resignation of the Servicer will be effective under the Servicing Agreement unless the Issuer appoints a successor Servicer:

I. if the Class A-1LA Notes are Outstanding and (i) the sum of (A) the Aggregate Par Amount of Portfolio Collateral other than any Equity Portfolio Collateral and (B) the Market Value of all Equity Portfolio Collateral (as determined by the Servicer in a commercially reasonable manner), if any, is less than (ii) the sum of (A) the Aggregate Principal Amount of the Outstanding Notes other than the Class B-1L Notes plus any accrued and unpaid

interest thereon and (B) 50% of the Aggregate Principal Amount of the Class B-1L Notes plus any accrued and unpaid interest thereon (a "**Preferred Share Event**"), then:

The Co-Issuers are entering into this Indenture, and the Trustee is accepting the trusts created hereby, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged.

It is a condition of issuance of the Notes that the Class A-1LA Notes be rated "AAA" by Standard & Poor's and "Aaa" by Moody's, the Class X Notes be rated "AAA" by Standard & Poor's and "Aaa" by Moody's, the Class A-1LB Notes be rated "AAA" by Standard & Poor's and "Aaa" by Moody's, the Class A-2L Notes be rated at least "AA" by Standard & Poor's and at least "Aa2" by Moody's, the Class A-3L Notes be rated at least "A" by Standard & Poor's and at least "A2" by Moody's, the Class A-4L Notes be rated at least "A-" by Standard & Poor's and at least "A3" by Moody's and the Class B-1L Notes be rated at least "BBB" by Standard & Poor's and at least "Baa2" by Moody's. With respect to the Notes, such ratings by Standard & Poor's address solely the likelihood of the timely payment of the Periodic Interest Amount (which consists of interest accrued on the Aggregate Principal Amount of each applicable Class of Notes at the Applicable Periodic Rate) and the ultimate payment of the Aggregate Principal Amount in the case of the Class A-1LA Notes, the Class A-1LB Notes and the Class A-2L Notes, timely payment of Class X Payments and the ultimate payment of the Cumulative Interest Amount and the Aggregate Principal Amount in the case of the Class A-3L Notes, the Class A-4L Notes and the Class B-1L Notes. Notwithstanding the foregoing, the obligation to make any Extension Bonus Payment will not be rated by the Rating Agencies.

All things necessary to make this Indenture a valid agreement of the Co-Issuers in accordance with its terms have been done.

For any item of Portfolio Collateral (other than items of Defaulted Portfolio Collateral), the "Average Life" shall be equal to the number of years obtained by dividing (a) the Principal Balance of such item of Portfolio Collateral into (b) the sum of the products obtained by multiplying (i) the amount of each of the remaining, required principal payments on such item of Portfolio Collateral by (ii) the number of years (calculated to the nearest one-twelfth) that will have elapsed between such date of determination and the making of such payment.

Notwithstanding the foregoing, the Weighted Average Life may vary from the restrictions set forth above, if the Rating Agencies have confirmed such variance would not result in a withdrawal or downgrade of any of the then current ratings assigned by them to the Notes.

"Weighted Average Margin": The amount (rounded up to the nearest 0.001%) equal to (i) the sum of the products obtained by multiplying the margin over Collateral LIBOR on each item of Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) as of the date of calculation (which will be determined for items of Floating Rate Collateral that do not bear interest based on Collateral LIBOR by expressing the current interest rate on such Floating Rate Collateral as a margin above or below three-month LIBOR on the date of determination, which margin will be expressed as a negative number if such current interest rate is lower than three-month LIBOR) by the Principal Balance of such item of Floating Rate Collateral (other

than items of Defaulted Portfolio Collateral) as of such date, divided by (ii) the Aggregate Principal Amount of all such Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) on such date. For purposes of calculating the Weighted Average Margin for any Delayed Drawdown Loan or Revolving Loan, the principal balance representing the funded portion will be multiplied by the margin above Collateral LIBOR and the principal balance representing the unfunded portion will be multiplied by the commitment fee related thereto. If an item of Floating Rate Portfolio Collateral does not provide for Collateral LIBOR, the margin for this purpose shall be equal to the then applicable interest rate minus then current LIBOR. If an item of Floating Rate Portfolio Collateral has a Collateral LIBOR floor, the excess of such floor rate over Collateral LIBOR will be added to the margin above Collateral LIBOR for purposes of calculating the Weighted Average Margin of such item of Floating Rate Portfolio Collateral.

"Weighted Average Margin Test": A test that will be satisfied by application of the Collateral Quality Matrix, after giving effect to any Coupon Adjustment.

#### Section 1.2. Other Definitional Provisions.

All references in this instrument to designated "Annexes," "Articles," "Sections," "Subsections" and other subdivisions are to the designated Annexes, Articles, Sections, Subsections and other subdivisions of this instrument as originally executed. The words "herein," "hereof," "hereunder" and other words of similar import refer to this Indenture as a whole and not to any particular Annex, Article, Section, Subsection or other subdivision. Unless the context otherwise requires, terms defined in the UCC and not otherwise defined in this Indenture shall have the meanings set forth in the UCC.

Any reference herein to a "beneficial interest" in a security also shall mean, unless the context otherwise requires, a security entitlement with respect to such security, and any reference herein to a "beneficial owner" or "beneficial holder" of a security also shall mean, unless the context otherwise requires, the holder of a security entitlement with respect to such security.

#### Section 1.3. Assumptions as to Portfolio Collateral and Trust Estate.

Except as otherwise expressly set forth herein, in connection with all calculations required to be made pursuant to this Indenture with respect to Scheduled Distributions on any Pledged Security, or any payments on any other assets included in the Trust Estate, and with respect to the income that can be earned on Scheduled Distributions on such Pledged Securities and on any other amounts that may be received for deposit in the Collection Account, the provisions set forth in this Section 1.3 shall apply.

All calculations with respect to Scheduled Distributions on the Pledged Securities shall be made on the basis of information as to the terms of each such Pledged Security and upon accounting of payments, if any, received on such Pledged Security that are furnished by or on behalf of the issuer of such Pledged Security and such information or report may be conclusively relied upon in making such calculations.

For each Due Period, the Scheduled Distributions on any Pledged Security (excluding any item of Defaulted Portfolio Collateral and Equity Portfolio Collateral, as to which Scheduled Distributions shall be assumed to be zero) shall be the amount required to be paid (including coupon payments, accrued interest, scheduled principal payments, if any, by way of sinking fund payments which are assumed to be on a *pro rata* basis or other scheduled amortization of principal (excluding any optional redemption), return of principal, and redemption premium, if any) that, if paid as scheduled, will be available in the Collection Account at the end of such Due Period. For purposes of calculating interest on Pledged Securities that have a rate of interest which varies with an objective index, the interest to be received thereon shall be assumed to be equal to the interest that would be received on such Pledged Security if the rate of interest accruing on such Pledged Security on the date of determination were to remain constant for each succeeding Due Period.

Each Scheduled Distribution with respect to a Pledged Security shall be assumed to be received on the applicable Due Date, and each such Scheduled Distribution shall be assumed to be immediately deposited in the Collection Account and to earn interest at the Assumed Interest Rate. All funds assumed to earn interest as provided herein shall be assumed to continue to earn interest at the applicable rate until the date on which they are required to be available in the Collection Account for application, in accordance with the terms hereof, to payment of principal of or interest on the Notes or other amounts payable or otherwise for application in accordance with the terms of this Indenture.

Notwithstanding anything to the contrary contained in this Indenture if the Trustee receives an Issuer Order or Issuer Request and also receives a Servicer Order or Servicer Request with respect to the same subject matter, the Issuer Order or Issuer Request, as the case may be, shall supersede any such Servicer Order or Servicer Request and be the controlling order or request hereunder.

## ARTICLE II

### THE NOTES

#### Section 2.1. Forms Generally.

(a) The Notes and the Trustee's certificate of authentication thereon shall be in substantially the forms required by this article with such appropriate insertions, omissions, substitutions and other variations as are required or permitted by this Indenture, and may have such letters, numbers or other marks of identification and such legends or endorsements placed thereon, as may, consistently herewith, be determined by the Authorized Officer of the Issuer executing such Notes as evidenced by such Authorized Officer's execution of such Notes. Any portion of the text of any Note may be set forth on the reverse thereof, with an appropriate reference thereto on the face of the Note.

(b) Regulation S Notes. The Class A-1L Notes, the Class A-2L Notes, the Class A-3L Notes, the Class A-4L Notes, the Class B-1L Notes and the Class X Notes initially sold to Non-U.S. Persons in "offshore transactions" (within the meaning of Regulation S) shall be represented initially by single global notes (the "Temporary Regulation S Global Notes") in fully

registered form without coupons, authenticated and delivered in substantially the forms attached hereto as Exhibit A-1L-1, Exhibit A-2L-1, Exhibit A-3L-1, Exhibit B-1L-1 and [Exhibit X-1], respectively. The Issuer shall deposit such Notes on behalf of the subscribers for such Notes with the Trustee as custodian (in such capacity, the "Custodian") for the Depository, registered in the name of a nominee of the Depository for the accounts of each of the Clearance Systems, for credit by the Clearance Systems to the respective accounts designated by the subscribers of such Notes (or to such other accounts as they may direct) at each of the Clearance Systems. The Temporary Regulation S Global Notes shall be exchanged for interests in the Permanent Regulation S Global Notes as set forth below. The Permanent Regulation S Global Notes shall be substantially in the form set forth as Exhibit A-1L-2, Exhibit A-2L-2, Exhibit A-3L-2, Exhibit B-1L-2 and [Exhibit X].

After the expiration of the Distribution Compliance Period beneficial interests in the Temporary Regulation S Global Note of each Class shall be exchanged for a Permanent Regulation S Global Note for such Class pursuant to and as provided below.

Without unnecessary delay but in any event prior to the termination of the Distribution Compliance Period, the Issuer shall deliver to the Trustee or the Authenticating Agent the Permanent Regulation S Global Notes executed by the Co-Issuers. Upon the termination of the Distribution Compliance Period, any Classes of Temporary Regulation S Global Notes shall be surrendered by the Custodian to the Trustee, in each case as the Issuer's agent for such purpose (or, at the Authenticating Agent's option, the Custodian shall be instructed by the Authenticating Agent or the Trustee to endorse each such Temporary Regulation S Global Note to reduce the principal amount thereof), to be exchanged, in whole or from time to time in part, for a Permanent Regulation S Global Note without charge and the Authenticating Agent shall authenticate and deliver to the Custodian for delivery in exchange for each such Temporary Regulation S Global Note or the portions thereof to be exchanged, an equal aggregate principal amount of a Permanent Regulation S Global Note, as shall be specified by the Custodian; *provided that*, upon such presentation by the Custodian: (i) the Trustee receives a certificate substantially in the form set forth in Exhibit F attached hereto, and signed by the respective Clearance System as to the portions of each Temporary Regulation S Global Note held for the respective accounts of such Clearance System, that it has received from each beneficial owner of the portion of each Temporary Regulation S Global Note then to be exchanged, written certification substantially to the effect set forth in Exhibit G attached hereto, with such changes therein as shall be approved by the Issuer, (ii) none of the Trustee or any Paying Agent have actual knowledge, nor have they received notification from the Issuer with respect to the original issuance and distribution of the Global Notes that such Person has actual knowledge, that such certificate is false, and (iii) the Trustee and any Paying Agent do not have a United States address as the address for payment to any Holder of the Permanent Regulation S Global Note issuable upon such exchange. Notwithstanding the foregoing, in the event of redemption in whole or acceleration of all or any part of the Notes prior to the termination of the Distribution Compliance Period, the Permanent Regulation S Global Notes will not be issuable in respect of the Temporary Regulation S Global Note or portion thereof, and payment thereon will be made as provided in the Temporary Regulation S Global Note. Any Class of Note in the form of a Temporary Regulation S Global Note presented to the Trustee for a Permanent Regulation S Global Note shall be endorsed by the Trustee to reduce the principal amount

thereof by the amount so exchanged, and shall then be returned to the Custodian, pending exchange of the remaining balance thereof pursuant to the terms hereof.

On each Payment Date, if any, that falls on or prior to the date on which all Temporary Regulation S Global Notes shall have been exchanged for Permanent Regulation S Global Notes (the "Exchange Date"), interest, if any, and principal on the Temporary Regulation S Global Notes shall be paid to the Custodian acting on behalf of the Clearance System for the benefit of persons for whom the Clearance System holds the Temporary Regulation S Global Notes on each such Payment Date to the extent the Clearance System has delivered a certificate or certificates, appropriately completed and signed, in substantially the form set forth in Exhibit F attached hereto, which certificate or certificates shall be dated the relevant Payment Date and shall be delivered to the Custodian.

The Issuer will obtain from each Clearance System an agreement that it will credit principal and interest, if any, as of each Payment Date that falls on or prior to the termination of the Distribution Compliance Period, received in respect of each Temporary Regulation S Global Note to the respective accounts of the persons for whom the Clearance System holds a Temporary Regulation S Global Note on each such Payment Date, upon, and only upon, receipt of certificates from such account holders in substantially the form set forth in Exhibit G attached hereto to be dated on or before each relevant Payment Date (copies of such form being available from the offices of Clearstream at 67, Boulevard Grande-Duchesse Charlotte, Luxembourg, the offices of Euroclear at 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium, and each other Paying Agent of the Issuer).

Upon any such exchange of a portion of any Temporary Regulation S Global Note for a Permanent Regulation S Global Note, the Custodian shall endorse (or, as provided above, the Trustee shall instruct the Custodian) such Temporary Regulation S Global Note to reflect the reduction of the principal amount evidenced thereby.

(c) Rule 144A Global Notes. The Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class A-4L Notes, the Class B-1L Notes and the Class X Notes initially sold to U.S. Persons (within the meaning of Rule 144A) shall be represented by single global notes (the "Rule 144A Global Notes") in fully registered form without coupons, authenticated and delivered in substantially the forms attached hereto as Exhibit A-1L-3, Exhibit A-2L-3, Exhibit A-3L-3, Exhibit B-1L-3 and [Exhibit X-1] respectively, which the Issuer shall deposit on behalf of the subscribers for such Notes with the Custodian for the Depository and registered in the name of Cede & Co., the nominee of DTC. The Aggregate Principal Amount of each Rule 144A Global Note may from time to time be increased or decreased by adjustments made on the records of the Custodian for DTC or its nominees, as the case may be.

(d) Book-Entry Provisions. This Section 2.1(d) shall apply only to Regulation S Global Notes or Rule 144A Global Notes ("Global Notes") deposited with or on behalf of the Depository. On or prior to the Closing Date, the Issuer shall provide to the Trustee or Authenticating Agent (as applicable) an Issuer Order setting forth the amount of Notes (if any) to be issued on the Closing Date in the form of Temporary Regulation S Global Notes and Rule 144A Global Notes for each Class. With respect to the Notes, a Temporary Regulation S Global

Note may be initially issued for each Class with an outstanding principal balance of zero (and the same may be reduced to zero at any time during the Distribution Compliance Period without cancellation).

(e) Definitive Notes. If at any time (including without limitation during the Distribution Compliance Period) (i) the Temporary Regulation S Global Notes or the Permanent Regulation S Global Notes or any of them become immediately due and repayable pursuant to Article Five hereof or (ii) any of DTC, Euroclear or Clearstream (A) is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or (B) announces an intention permanently to cease business and no alternative clearance system satisfactory to the Issuer is available or (iii) as a result of any amendment to, or change in, the laws or regulations of the Cayman Islands or of any authority therein or thereof having power to tax or in the interpretation or administration of such laws or regulations which becomes effective on or after the Closing Date, the Issuer or any Paying Agent is or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required were the Notes in definitive registered form or (iv) the Issuer so elects by notice to the Noteholders and Euroclear or Clearstream, as the case may be, does not object (as determined by the Issuer), then the Issuer will issue Definitive Notes in exchange for and to the extent of such Global Notes within 30 days of the occurrence of the relevant event set forth in (i), (ii), (iii) or (iv) above.

If at any time (i) the Notes or any of them become immediately due and payable following an Event of Default hereunder or (ii) DTC notifies the Issuer or the Trustee in writing that it is unwilling or unable to discharge properly its responsibilities as a depository with respect to the Rule 144A Global Notes or it ceases to be a "clearing agency" registered under the Exchange Act, and the Issuer is unable to locate a qualified successor within 90 days after such notice, then the Issuer will issue Definitive Notes in exchange for and to the extent of such Rule 144A Global Notes within 30 days of the occurrence of the relevant event set forth in (i) or (ii) above.

The Issuer shall notify the Trustee forthwith upon the occurrence of any of the events referred to in the two immediately preceding paragraphs and the Issuer shall, unless the Trustee agrees otherwise, promptly give notice thereof and of its obligation to issue Definitive Notes to the Noteholders. Upon giving such notice, the Issuer promptly shall cause the Custodian, as the case may be, to present forthwith for exchange and surrender such Global Note to the Trustee for cancellation, together with appropriate exchange, registration, payment and delivery instructions (identifying according to its records the beneficial holders to whom, and in the amounts, the Definitive Notes are to be registered and delivered), upon which the Trustee shall be entitled to rely conclusively. The Issuer shall prepare, execute and deliver to the Trustee at its specified office a sufficient number of duly executed Definitive Notes not later than the 20th day following the date of such notice, and the Trustee shall then promptly authenticate and deliver the appropriate number and amount of such Definitive Notes in accordance with the instructions received from the Custodian.

(f) Form of Notes. The Notes shall be typed, printed, lithographed or engraved or produced by any combination of these methods or may be produced in any other manner, all as

determined by the Authorized Officers of the Co-Issuers, as applicable, executing such Notes, as evidenced by the Authorized Officers' execution of such Notes.

## Section 2.2. Authorized Amount.

The aggregate principal amount of Class A-1LA Notes, the Class A-1LB Notes, Class A-2L Notes, Class A-3L Notes, Class A-4L Notes, Class B-1L Notes and Class X Notes that may be authenticated and delivered under this Indenture is limited to \$538,000,000, \$96,000,000, \$76,000,000, \$36,500,000, \$10,000,000, \$21,000,000 and \$14,000,000, respectively, except for Notes authenticated and delivered upon registration of transfer of, or in exchange for, or in lieu of, other Notes pursuant to Section 2.5, 2.6 or 8.5 hereof.

## Section 2.3. Denominations; Extension of Revolving Period and Final Maturity.

(a) Each Class of the Notes shall be issuable on the Closing Date in the forms set forth herein, without coupons, in minimum denominations of \$200,000 and integral multiples of \$1 in excess thereof (in each case expressed in terms of the stated or principal amounts thereof, as the case may be, at the Closing Date).

(b) The Issuer, if directed by the Board Resolution of the Issuer at the request of the Servicer, shall be entitled on each Extension Effective Date to extend the Revolving Period to the applicable Extended Revolving Period End Date up to a maximum of four times (so that the Notes can only be extended to 2037) if (i) in the case of an Extension Effective Date occurring after the first Extension Effective Date, the Issuer has previously effected a Maturity Extension for each preceding Extension Effective Date in accordance with this Section 2.3, (ii) the Extension Conditions set forth in Section 2.3(d) are satisfied, (iii) the Issuer has given written notice to the Trustee of its election to extend the Revolving Period no later than 60 days and no earlier than 90 days prior to such Extension Effective Date and (iv) no Event of Default has occurred and is continuing. If the Extension Conditions are satisfied, the Final Maturity Date of the Notes (other than the Class X Notes) shall be automatically extended to the related Extended Final Maturity Date and the Weighted Average Life Test shall be automatically extended to the related Extended Weighted Average Life Date, without any requirement for approval or consent of any Holders of Notes or Preferred Shares (other than as may be required pursuant to the Extension Conditions) or amendment or supplement to this Indenture or the Paying and Transfer Agency Agreement (the "Maturity Extension"); *provided* that the Issuer will not be permitted to effect more than four Maturity Extensions. The Final Maturity Date of the Class X Notes is not subject to extension.

(c) In the case of a Maturity Extension, any Holder or Beneficial Owner of Notes (other than Class X Notes) or Preferred Shares wishing to sell such Notes or Preferred Shares to an Extension Qualifying Purchaser pursuant to the Extension Conditions must provide the applicable Extension Sale Notice within the Extension Sale Notice Period pursuant to Section 2.3(d) (such Notes and Preferred Shares as to which an Extension Sale Notice has been duly given, "Extension Sale Securities"). The Class X Notes are not subject to sale in connection with a Maturity Extension and the maturity of the Class X Notes is not subject to extension. Notwithstanding anything to the contrary herein, each Holder providing an Extension Sale Notice shall be deemed to agree that no Extension Sale Securities of any Holder shall be

purchased unless all Extension Sale Securities of all Holders are purchased and settled at the applicable Extension Purchase Price on the applicable Extension Effective Date and the other Extension Conditions are satisfied as of such date.

(d) The Maturity Extension shall be effective only if the following conditions (the "Extension Conditions") are satisfied:

(i) the purchase of all Extension Sale Securities has been settled by the designated Extension Qualifying Purchasers at the applicable Extension Purchase Price as of the applicable Extension Effective Date;

(ii) all such purchases of Extension Sale Securities individually and in the aggregate comply with the applicable transfer restrictions herein, in the Indenture and the Preferred Share Paying and Transfer Agency Agreement immediately after such purchase and the legends on such Notes and Preferred Shares and all applicable law, rules and regulations (including, without limitation, rules, regulations and procedures of any applicable securities exchange, self-regulatory organization or clearing agency);

(iii) the Rating Condition has been satisfied with respect to S&P (so long as any Notes are then rated by S&P) and (b) either (A) the Class B-1L Overcollateralization Ratio is at least 107.5% and the Collateral Quality Tests are satisfied as of the related Extension Determination Date and the Interest Coverage Test was satisfied on the immediately preceding Payment Date, the rating of each Class of Notes by Moody's has not been downgraded, withdrawn or qualified from that in effect on the Closing Date (unless it subsequently has been reinstated to the rating assigned on the Closing Date) or (B) the Rating Condition has been satisfied with respect to Moody's (so long as any Notes are then rated by Moody's); and

(iv) (A) the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes have delivered the Extension Sale Notice in the Extension Sale Notice Period or (B) if the Holders of 100% of the Aggregate Outstanding Amount of the Class A-1LA Notes fail to deliver an Extension Sale Notice pursuant to the preceding clause (A), either (x) the Issuer, acting through the Servicer, notifies the Holders of the Class A-1LA Notes in writing not later than the last day of the Extension Sale Notice Period that such Class A-1LA Notes shall constitute "Extension Sale Securities" (as a result of which such Class A-1LA Notes must be purchased by an Extension Qualifying Purchaser) or (y) the Holders of 100% of the Aggregate Outstanding Amount of the Class A-1LA Notes have consented in writing to the Maturity Extension not later than the last day of the Extension Sale Notice Period.

The Issuer, the Trustee and, by its acceptance of the Notes or Preferred Shares, each Holder or Beneficial Owner of Notes or Preferred Shares agrees that the Placement Agent shall not be responsible for causing the Extension Conditions to be satisfied and shall not be liable to any such person or Holder of Notes or Preferred Shares (whether or not such Holder gave an Extension Sale Notice with respect to its Notes or Preferred Shares) or to any other person if the Extension Conditions are not satisfied. Failure of the Extension Conditions to be satisfied shall not constitute a Default or Event of Default under this Indenture.

(e) The following procedure shall apply to effect any extension of the Revolving Period or the Maturity Date, pursuant to Section 2.3:

(i) No later than three Business Days following receipt by the Trustee of the notice given by the Issuer of its election to extend the Revolving Period (the "Extension Notice"), at the cost of the Issuer the Trustee shall deliver the Extension Notice to all Holders of Notes (other than the Class X Notes) and the Preferred Shares Paying and Transfer Agent (for forwarding to the Holders of the Preferred Shares) and each Rating Agency (so long as any rated Notes are Outstanding), in the form set out in the Indenture, and shall request the Rating Condition for the Maturity Extension from S&P, if applicable. Such Extension Notice shall include a statement to the effect that (i) no Extension Sale Notice delivered after the end of the Extension Sale Notice Period shall be effective and (ii) only the Class A-1LA Notes for which an Extension Sale Notice has been delivered may be treated as Extension Sale Securities pursuant to the Extension Conditions (with the result that the Class A-1LA Notes must be purchased by an Extension Qualifying Purchaser).

(ii) Any Holder of Notes (other than the Class X Notes) or Preferred Shares may give irrevocable notice (an "Extension Sale Notice") within 30 days after the Trustee has delivered the Extension Notice (the "Extension Sale Notice Period") of its intention to sell its Notes or Preferred Shares to an Extension Qualifying Purchaser in the case of a Maturity Extension. Any Extension Sale Notice received by the Trustee after the Extension Sale Notice Period shall be disregarded and deemed not to have been given. No Holder of Notes or Preferred Shares that has not given such an Extension Sale Notice within the Extension Sale Notice Period shall be entitled to sell its Notes or Preferred Shares to an Extension Qualifying Purchaser in connection with the Maturity Extension.

(iii) If the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes have not delivered the Extension Sale Notice to the Trustee by the 20th calendar day after the date of the Extension Notice, the Trustee shall notify the Holders of the Class A-1LA Notes of the date on which the Extension Sale Notice Period shall end and include a statement to the effect that (A) no Extension Sale Notice delivered after the end of the Extension Sale Notice Period shall be effective and (B) the Class A-1LA Notes for which no Extension Sale Notice has been delivered may be treated as Extension Sale Securities pursuant to clause (iv) of the Extension Conditions (as a result of which the Class A-1LA Notes must be purchased by an Extension Qualifying Purchaser).

(iv) On the applicable Extension Determination Date, the Issuer (or its agent) shall confirm (A) whether or not Extension Qualifying Purchasers for all Extension Sale Securities have been designated to purchase such Notes or Preferred Shares in compliance with all transfer restrictions in the Indenture and the legends on such Notes or Preferred Shares and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency), (B) whether the requirements of clause (iii) of the Extension Conditions are satisfied as of the applicable Extension Determination

Date and (C) whether all other Extension Conditions can be satisfied as of the applicable Extension Effective Date.

(v) On each Extension Effective Date, the Maturity Extension shall become effective under the terms of the Indenture; *provided* that all Extension Conditions set forth above are satisfied. No later than two Business Days after each Extension Effective Date, the Trustee based on a determination made by the Issuer, at the expense of the Co-Issuers, shall deliver a notice to all Holders of Notes and the Preferred Shares Paying and Transfer Agent (for forwarding to the Holders of Preferred Shares), the Servicer, the Initial Purchaser, each Rating Agency (so long as any rated Notes are Outstanding) and the Irish Stock Exchange (if and for so long as any Class of Notes is listed thereon) confirming whether or not the Maturity Extension became effective. If the Maturity Extension became effective, the Issuer shall make any required notifications thereof to the Depositary for any Notes subject to the Maturity Extension. None of the Initial Purchaser, the Servicer or any of their respective Affiliates shall have any duty to act as an Extension Qualifying Purchaser.

(vi) In the case of a Maturity Extension, each Holder of Notes (other than Extension Sale Securities) shall be entitled to receive an amount equal to the applicable Extension Bonus Payment to the extent of available funds and as provided in Section 11.1. Holders of the Preferred Shares shall not be entitled to receive any Extension Bonus Payment. The obligation to make any Extension Bonus Payment shall not be rated by Rating Agencies.

(f) The Extension Bonus Payment shall be payable to any applicable qualifying Beneficial Owners who have provided the Trustee with an Extension Bonus Eligibility Certification on or before the 5th Business Day prior to the first Payment Date from and including each Extension Effective Date on which funds are available to be used for such purposes in accordance with Priority of Payments, but in any event, no later than the earlier of the Final Maturity Date and the date of redemption of the Notes (other than the Class X Notes). Extension Bonus Payments which are not available to be paid on a Payment Date in accordance with the Priority of Payments on a Payment Date shall not be considered "due and payable" hereunder but are due and payable on the next Payment Date on which funds are due and payable. The failure to pay any such Extension Bonus Payment on such date shall not be an Event of Default, unless the Issuer shall fail to pay in full such Extension Bonus Payment on the earlier of the Final Maturity Date and the date of redemption in full of the relevant Notes (other than the Class X Notes). Unpaid Extension Bonus Payments shall not accrue interest. Such amounts shall be paid, in the case of the Notes (other than the Class X Notes), to the accounts designated in the applicable Extension Bonus Eligibility Certification or, to the extent otherwise required by the rules of any applicable securities exchange or clearing agency, in a manner determined by the Issuer.

#### Section 2.4. [Execution, Authentication, Delivery and Dating.](#)

The Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class A-4L Notes, the Class B-1L Notes and the Class X Notes shall be executed on behalf of the Issuer, by an Authorized Officer of each of the Issuer or the Co-Issuer,

as applicable. The signature of such Authorized Officers on the Notes may be manual or facsimile.

Notes bearing the manual or facsimile signature of an individual who was at any time the Authorized Officer of the Co-Issuers (as applicable) shall bind the applicable Co-Issuer, notwithstanding the fact that such individual has ceased to hold such office prior to the authentication and delivery of such Notes or did not hold such office at the date of issuance of such Notes.

At any time and from time to time after the execution and delivery of this Indenture, the Co-Issuers may deliver the Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class A-4L Notes, the Class B-1L Notes and the Class X Notes to the Trustee for authentication and the Trustee (or an Authenticating Agent on its behalf), upon Issuer Order, shall authenticate and deliver such Notes as provided in this Indenture and not otherwise.

Each Note authenticated and delivered by the Trustee (or the Authenticating Agent) to or upon Issuer Order on the Closing Date shall be dated as of the Closing Date. All other Notes that are authenticated after the Closing Date for any other purpose hereunder shall be dated the date of their authentication.

Notes issued upon transfer, exchange or replacement of other Notes shall be issued in authorized denominations reflecting the original aggregate stated or principal amount of the Notes so transferred, exchanged or replaced, but shall represent only the stated or principal amount of the Notes so transferred, exchanged or replaced. If any Note is divided into more than one Note in accordance with this Article II, the stated or original principal amount of such Note shall be proportionately divided among the Notes delivered in exchange therefor and shall be deemed to be the aggregate stated or original principal amount of such subsequently issued Notes.

No Note shall be entitled to any benefit under this Indenture or be valid or obligatory for any purpose, unless there appears on such Note a certificate of authentication, substantially in the form provided for herein, executed by the Trustee (or Authenticating Agent, as provided below) by the manual signature of one of its Authorized Officers, and such certificate upon any Note shall be conclusive evidence, and the only evidence, that such Note has been duly authenticated and delivered hereunder.

Upon the request of the Issuer, the Trustee shall and, at the election of the Trustee, the Trustee may, appoint one or more Authenticating Agents with power to act on its behalf and subject to its direction in the authentication of Notes in connection with transfers and exchanges thereof hereunder as fully to all intents and purposes as though each such Authenticating Agent had been expressly authorized by this Indenture to authenticate the Notes; *provided that* any such appointment shall be upon terms and conditions reasonably acceptable to the Trustee (with respect to which the Trustee may require, among other things, appropriate indemnification for any damages, losses or reasonable costs arising from acts or omissions of such Authenticating Agent). For all purposes of this Indenture, the authentication of Notes by an Authenticating

Agent pursuant to this Section shall be deemed to be an authentication of such Notes "by the Trustee."

JPMorgan Chase Bank, National Association, is hereby appointed, at the request of the Issuer, as Authenticating Agent for purposes of authenticating Definitive Notes issued in exchange for beneficial interests in the Global Notes.

RSM Robson Rhodes LLP is hereby appointed, at the request of the Issuer, as the initial Irish Paying Agent with respect to the Notes.

Any corporation into which any Paying Agent, Transfer Agent or Authenticating Agent may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, consolidation or conversion to which any Paying Agent, Transfer Agent or Authenticating Agent shall be a party, or any corporation succeeding to the corporate trust business of any Paying Agent, Transfer Agent or Authenticating Agent, shall be the successor of such Paying Agent, Transfer Agent or Authenticating Agent hereunder, without the execution or filing of any further act on the part of the parties hereto or such Paying Agent, Transfer Agent or Authenticating Agent or such successor corporation.

Any Paying Agent, Transfer Agent or Authenticating Agent may at any time resign by giving written notice of resignation to the Trustee and the Issuer. The Trustee may at any time terminate the agency of any Paying Agent, Transfer Agent or Authenticating Agent by giving written notice of termination to such Paying Agent, Transfer Agent or Authenticating Agent and the Issuer.

The Trustee shall pay to any Paying Agent, Transfer Agent or Authenticating Agent reasonable compensation and shall reimburse each Paying Agent, Transfer Agent or Authenticating Agent for expenses reasonably incurred by such Paying Agent, Transfer Agent or Authenticating Agent in the performance of its duties as a Paying Agent, Transfer Agent or Authenticating Agent, in each case as and to the extent agreed upon between the Trustee and such Paying Agent, Transfer Agent or Authenticating Agent; *provided that* if the appointment of such Paying Agent, Transfer Agent or Authenticating Agent is at the election or request of the Issuer, the Trustee's obligation to make such payments shall be limited to amounts for which it is entitled to be reimbursed pursuant to Section 6.7(b) or (c). The provisions of Section 6.5 shall be applicable to any Paying Agent, Transfer Agent or Authenticating Agent.

Section 2.5. [Registration, Registration of Transfer and Exchange.](#)

(a) The Issuer shall cause to be kept a register (the "Note Register") in which, subject to such reasonable procedures as it may prescribe, the Issuer shall provide for the registration of the Notes and the registration of transfers of the Notes. The Trustee is hereby appointed "Note Registrar" for the purpose of registering and transferring the Notes as herein provided. The Note Registrar shall supply all relevant documents to the Share Registrar necessary for the Share Registrar to maintain the Share Register accordingly and the Share Registrar shall be able to rely upon such information provided by the Note Registrar without any liability on its part. The Issuer will notify the Trustee of any Notes owned by or pledged to the Issuer or any of its Affiliates promptly upon the acquisition thereof or the creation of such

pledge. So long as an Event of Default shall be continuing, the Note Registrar shall promptly, upon the written request of a Noteholder or holder of a Preferred Share, but in no event later than five Business Days following such request, furnish such Noteholder or holder of a Preferred Share with a list of all other Noteholders, holders of Preferred Shares (as applicable); *provided that* the Note Registrar shall have no liability to any person for furnishing the Note Register to any Noteholder or holder of a Preferred Share. The Note Registrar shall, upon request, furnish a copy of the Note Register to the Trustee and the Servicer.

Subject to the provisions of paragraphs (b), (c), (d), (e), (f) and (k) of this Section 2.5, upon surrender for registration of transfer of any Note, the Issuer and the Co-Issuer (as applicable) shall execute, and the Trustee or the Authenticating Agent shall authenticate and deliver, in the name of the designated transferee or transferees, one or more new Notes of the same Class, of any authorized denomination and of a like aggregate principal amount.

Subject to the provisions of paragraphs (b), (c), (d), (e), (f) and (k) of this Section 2.5, at the option of the Holder, Notes may be exchanged for other Notes of the same Class, in any authorized denominations and of a like aggregate stated or principal amount, upon surrender of the Notes to be exchanged at the office of the Trustee. Whenever any Notes are so surrendered for exchange, the Issuer and the Co-Issuer (as applicable) shall execute, and the Trustee or the Authenticating Agent shall authenticate and deliver, the Notes that the Holder making the exchange is entitled to receive.

All Notes issued upon any registration of transfer or exchange of Notes shall be the valid obligations of the Co-Issuers, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Notes, as applicable, surrendered upon such registration of transfer or exchange.

Every Note presented or surrendered for registration of transfer or exchange shall be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Co-Issuers (as applicable) and the Trustee duly executed by the Holder thereof or his attorney duly authorized in writing.

No service charge shall be made to a Holder for any registration of transfer or exchange of Notes, but the Co-Issuers or the Trustee may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any registration of transfer or exchange of Notes.

(b) No Note may be sold or transferred (including, without limitation by pledge or hypothecation) unless such sale or transfer is exempt from the registration requirements of the Securities Act and is exempt under applicable state securities laws. No purported transfer of any interest in any Note or any portion thereof that is not made in accordance with this Section 2.5 shall be given effect by or be binding upon the Trustee or the Co-Issuers (as applicable) and any such purported transfer shall be null and void *ab initio* and vest in the transferee no rights against the Trustee, the Co-Issuers (as applicable) or the Trust Estate.

By its acceptance of a Note or a beneficial interest in a Note, each owner thereof will be deemed to have represented and agreed that transfer thereof is restricted and agrees that it

shall transfer such Note or beneficial interest in such Note, only in accordance with the terms of this Indenture and such Note and in compliance with applicable law.

The applicable rules, regulations and procedures utilized or imposed by any Clearance System or DTC (collectively, "Applicable Procedures") shall be applicable to the Global Notes insofar as and to the extent beneficial interests in such Global Notes are held by the agent members of or participants in Euroclear, Clearstream or DTC, respectively. Account holders or agent members of or participants in Euroclear, Clearstream and DTC shall have no rights under this Indenture with respect to such Global Notes, and DTC (or its nominee) as registered Holder of any Global Notes may be treated by the Co-Issuers, the Trustee, the Note Registrar, the Authenticating Agent and any other Paying Agent (and any agent of any of the foregoing) as the owner of such Global Notes for all purposes whatsoever. Notwithstanding the foregoing, nothing herein shall prevent the Co-Issuers, the Trustee, the Note Registrar, the Authenticating Agent or any Paying Agent from giving effect to any written certification, proxy or other authorization furnished by DTC or any Clearance System or impair, as between DTC, the Clearance System and its agent members or participants, the operation of customary practices governing the exercise of the rights of a Holder of any Notes. Requests or directions from, or votes of, DTC or any Clearance System with respect to any matter shall not be deemed inconsistent if made with respect to (or in separate proportions corresponding to) different beneficial owners. None of the Trustee, the Transfer Agent, the Note Registrar, the Authenticating Agent, nor the Paying Agent shall have any duty to monitor, maintain records concerning (or determine compliance with any of the restrictions on transfer set forth herein with respect to) owners of beneficial interests in the Global Notes. None of the Trustee, the Transfer Agent, the Note Registrar, the Authenticating Agent, nor the Paying Agent shall have any liability for the accuracy of the records of DTC or any Clearance System, or any actions or omissions of DTC or any Clearance System (or of the agent members of or participants in any Clearance System).

A Noteholder may transfer a Note or its beneficial interest in a Note only in accordance with the following provisions:

(i) Definitive Note to Temporary Regulation S Global Note. To the extent permitted by the Applicable Procedures and subject to the provisions of Section 2.5, if a Holder of a Definitive Note of any Class wishes at any time to transfer its beneficial interest in such Definitive Note to a Non-U.S. Person during the Distribution Compliance Period, such Holder shall, subject to the provisions of this Section 2.5, transfer its interest in such Definitive Note for an equivalent beneficial interest in the Temporary Regulation S Global Note of the same Class. Upon (A) the surrender to the Trustee for cancellation of the Definitive Notes representing the beneficial interest to be so transferred and (B) the receipt by the Trustee and the Co-Issuers of (1) an Investor Representation Letter from such Noteholder's transferee, (2) a Regulation S Transferor Certificate from such Noteholder, and (3) a written order in accordance with the Applicable Procedures containing information regarding the Euroclear or Clearstream account to be credited with the increase in the Regulation S Global Note and the name of such account, the Trustee shall cancel such Definitive Note and, concurrently with such cancellation, instruct the Euro Transfer Agent to adjust the Common Depository's position in the Temporary Regulation S Global Note of the same Class to reflect an increase of the

Aggregate Principal Amount thereof by the same amount and to credit or cause to be credited to the account of the transferee a beneficial interest in such Temporary Regulation S Global Note equal to the Aggregate Principal Amount of the Definitive Note so cancelled. In the event of any partial transfer of an interest in a Definitive Note to a Temporary Regulation S Global Note, the Co-Issuers shall execute and provide to the Trustee, and the Trustee shall authenticate and return to the Holder, a Definitive Note evidencing the remaining balance thereof. After the Distribution Compliance Period, interests in any Definitive Notes may not be transferred or exchanged for interests in a Temporary Regulation S Global Note.

(ii) Definitive Note to Permanent Regulation S Global Note. If a Holder of a Definitive Note wishes at any time after the Distribution Compliance Period to transfer its interest in such Definitive Note to a Non-U.S. Person, such Holder shall, subject to the provisions of this Section 2.5, transfer its interest in such Definitive Note for an equivalent beneficial interest in such Permanent Regulation S Global Note of the same Class. Upon (A) the surrender to the Euro Transfer Agent located in London in the case of the Class B-2L Notes, and the Trustee in the case of any other Class of Notes, of the Definitive Note representing the interest to be so transferred, for cancellation and (B) the receipt by the Trustee and the Co-Issuers of (1) an Investor Representation Letter from such Noteholder's transferee, (2) a Regulation S Transferor Certificate from such Noteholder and (3) a written order in accordance with the Applicable Procedures containing information regarding the Euroclear or Clearstream account to be credited with the increase in the Regulation S Global Note and the name of such account, the Trustee shall cancel such Definitive Note, and, concurrently with such cancellation, in the case of the Class B-2L Notes, instruct the Common Depository and in the case of any other Class of Notes, instruct the Custodian to endorse the Permanent Regulation S Global Note to reflect an increase of the Aggregate Principal Amount thereof by the same amount and to credit or cause to be credited to the account of the transferee a beneficial interest in such Permanent Regulation S Global Note equal to the Aggregate Principal Amount of the Definitive Note so cancelled. In the event of any partial transfer of an interest in a Definitive Note to a Permanent Regulation S Global Note, the Co-Issuers or the Issuer, as applicable, shall execute and provide to the Trustee (or the Euro Transfer Agent located in London), and the Trustee (or the Euro Transfer Agent located in London) shall authenticate and return to the Holder, a Definitive Note evidencing the remaining balance thereof (which Definitive Note shall be so mailed or otherwise delivered from a location outside the United States).

(iii) Temporary Regulation S Global Note to Definitive Note or Rule 144A Global Note. To the extent permitted by DTC and subject to the provisions of Section 2.5(k), if a Holder of a beneficial interest in the Temporary Regulation S Global Note of a particular Class wishes at any time during the Distribution Compliance Period to transfer its beneficial interest in such Temporary Regulation S Global Note to a U.S. Person, such holder shall, subject to the provisions of this Section 2.5, transfer its beneficial interest in such Temporary Regulation S Global Note for an equivalent interest in a Rule 144A Global Note. Upon receipt by the Trustee of (A) a certificate substantially in the form of Exhibit G hereto and (B) a written order given in accordance with the Applicable Procedures, the Trustee shall instruct the Custodian to adjust the Depository's position in

the Temporary Regulation S Global Note to reflect a reduction of the Aggregate Principal Amount thereof by the Aggregate Principal Amount of the beneficial interest thereof to be so transferred and concurrently with such reduction, in the case of a Rule 144A Global Note, instruct the Custodian to adjust the Depository's position in the Rule 144A Global Note of the same Class to reflect an increase of the Aggregate Principal Amount thereof by the same amount and to credit or cause to be credited to the account of the transferee a beneficial interest in such Rule 144A Global Note equal to the Aggregate Principal Amount of the Temporary Regulation S Global Note so reduced, and, in the case of a Definitive Note, the Co-Issuers shall execute and furnish to the Trustee, and the Trustee or the Authenticating Agent shall authenticate and deliver to such Holder, a Definitive Note in a principal amount equal to the amount of the reduction in the Aggregate Principal Amount of the Temporary Regulation S Global Note of such Class.

(iv) Transfer of Interests in a Definitive Note. A Holder of a Definitive Note may at any time transfer its interest in such Definitive Note in accordance with this Section 2.5(b)(iv). Any transfer of an interest in a Definitive Note to a Non-U.S. Person during the Distribution Compliance Period shall be made only pursuant to Section 2.5(b)(iii) above. Otherwise, the Trustee shall require, prior to any such transfer of a Definitive Note, receipt by the Trustee and the Co-Issuers of (A) an Investor Representation Letter from such Noteholder's transferee and (B) a Transferor Certificate from such Noteholder (which shall only be a Regulation S Transferor Certificate for transfers to Non-U.S. Persons during the Distribution Compliance Period). Upon receipt of such letter and certificate, and surrender to the Trustee the Definitive Note representing the interest to be so transferred, the Trustee shall cancel such Definitive Note and the Co-Issuers shall execute and provide to the Trustee, and the Trustee or the Authenticating Agent shall authenticate and deliver, a Definitive Note to such transferee (and, in the event of a partial transfer, the Co-Issuers shall execute and provide to the Trustee, and the Trustee or the Authenticating Agent shall authenticate and deliver, a Definitive Note evidencing the remaining balance to the transferring Holder).

(v) Transfer of Interests in the Temporary Regulation S Global Note. Transfers of beneficial interests in the Temporary Regulation S Global Note may only be made (A) in accordance with Section 2.5(b)(i) above or (B) by book-entry transfer of beneficial interests in the Temporary Regulation S Global Note within the Clearance System (and subject to the Applicable Procedures) to Non-U.S. Persons in accordance with Regulation S in "offshore transactions" (as defined in Regulation S).

(vi) Transfer of Interests in a Permanent Regulation S Global Note. If a Holder of a beneficial interest in the Permanent Regulation S Global Note wishes at any time to transfer its beneficial interest in such Permanent Regulation S Global Note to a U.S. Person, such Holder shall, subject to the provisions of this Section 2.5 and the Applicable Procedures, transfer its beneficial interest in such Permanent Regulation S Global Note for an equivalent interest in a Rule 144A Global Note. Upon receipt by the Trustee of (A) a certificate substantially in the form of Exhibit G hereto and (B) a written order given in accordance with the Applicable Procedures, the Trustee shall instruct the Custodian to adjust the Depository's position in the Permanent Regulation S Global Note to reflect a reduction of the Aggregate Principal Amount thereof by the Aggregate

Principal Amount of the beneficial interest thereof to be so transferred and concurrently with such reduction, in the case of a Rule 144A Global Note, instruct the Custodian to adjust the Depository's position in the Rule 144A Global Note of the same Class to reflect an increase of the Aggregate Principal Amount thereof by the same amount and to credit or cause to be credited to the account of the transferee a beneficial interest in such Rule 144A Global Note equal to the Aggregate Amount Principal amount of the Permanent Regulation S Global Note so reduced, and, in the case of a Definitive Note, the Issuer shall execute and furnish to the Trustee (or Paying Agent, as directed by the Trustee) and the Trustee shall authenticate and deliver to such Holder a Definitive Note in the Aggregate Principal Amount equal to the amount of the reduction in the Aggregate Principal Amount of the Permanent Regulation S Global Note (which Definitive Note shall be mailed or otherwise delivered to such Holder from a location outside the United States). Interests in any Permanent Regulation S Global Note shall not be exchanged for or transferred to a Definitive Note (except pursuant to the preceding sentence or Section 2.1, if applicable).

(vii) Transfer of Interest in a Rule 144A Global Note. Subject to the provisions of Section 2.5(k), transfers of beneficial interests in a Rule 144A Global Note may only be made (A) in accordance with the provisions of this Section 2.5(b)(iv) or (B) by book-entry transfer of beneficial interests in a Rule 144A Global Note within DTC (and subject to the Applicable Procedures) and in accordance with the transfer restrictions contained in the legend on such Rule 144A Global Note. If a Holder of a beneficial interest in a Rule 144A Global Note wishes to transfer its beneficial interest in such Rule 144A Global Note to a Non-U.S. Person, such holder shall, subject to the provisions of this Section 2.5 and the Applicable Procedures, transfer its beneficial interest in such Rule 144A Global Note for an equivalent interest in a Temporary Regulation S Global Note or a Permanent Regulation S Global Note, *provided* such transfer occurs after the Distribution Compliance Period. Upon receipt by the Trustee of (A) a Regulation S Transferor Certificate from such Noteholder and (B) a written order given in accordance with the DTC's Applicable Procedures, the Trustee shall instruct the Custodian to adjust the Depository's position in the Rule 144A Global Note to reflect a reduction of the Aggregate Principal Amount thereof by the Aggregate Principal Amount of the beneficial interest thereof to be so transferred and concurrently with such reduction, instruct the Custodian to adjust the Depository's position in such Temporary Regulation S Global Note or the Permanent Regulation S Global Note of the same Class to reflect an increase of the Aggregate Principal Amount thereof by the same amount and to credit or cause to be credited to the account of the transferee a beneficial interest in such Temporary Regulation S Global Note or Permanent Regulation S Global Note equal to the Aggregate Principal Amount of the Rule 144A Global Note so reduced.

(viii) Initial Sale of Notes. Notwithstanding anything in clauses (i) through (v) of this Section 2.5(b) to the contrary, in connection with any sale of Bear Notes by Bear Stearns, no delivery of an Investor Representation Letter or a Transferor Certificate shall be required so long as each purchaser of Notes executes and delivers a transferee certificate acceptable to Bear Stearns (which certificate shall, in the case of any transfer of Definitive Notes, identify each transferee, including name, address, payment

instructions, Taxpayer information and such other information as the Trustee may reasonably require), which transferee certificate shall be delivered to the Trustee.

(ix) Securities Act. No transfer of any Note or any beneficial interest in any Note shall be made unless such transfer (a) is made pursuant to an effective registration statement under the Securities Act and registration or qualification under applicable state securities laws or (b) is exempt from such registration or qualification requirements.

The Investor Representation Letters (and any alternative certification acceptable to Bear Stearns pursuant to clause (vi) above) and the Transferor Certificates furnished pursuant to this Section may be relied on conclusively by the Trustee in determining whether the provisions of this Section have been complied with. None of the Issuer, the Co-Issuer, the Trustee or any other person shall be required to register the Notes under the Securities Act or any state securities laws.

(c) Unless a prospective Holder of a Note (and each beneficial owner of an interest in a Global Note) otherwise provides another representation acceptable to each of the Trustee, the Servicer and the Issuer, each Holder of a Note (other than each beneficial owner of an interest in a Global Note), by its purchase thereof, shall be deemed to have represented to the Issuer, the Servicer and the Trustee that (a) in the case of the Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class A-4L Notes or the Class X Notes, either no part of the funds being used to pay the purchase price for such Notes constitutes an asset of any "employee benefit plan" (as defined in Section 3(3) of ERISA) or "plan" (as defined in Section 4975(e)(1) of the Code) that is subject to Title I of ERISA or Section 4975 of the Code (each a "Plan"), including assets held in an insurance company general account, or (b) if the funds being used to pay the purchase price for such Notes include assets of any Plan, an exemption to the prohibited transaction rules applies to the purchase and holding of such Notes, and (b) in the case of the Class B-1L Notes, either (i) such Holder (or such beneficial owner) is not a Plan and is not acquiring the Class B-1L Notes with the assets of the Plan, (ii) such Holder (or beneficial owner) is an insurance company and the funds being used to pay the purchase price for such Notes includes only assets of its general account and its acquisition and holding of such Notes are eligible for exemptive relief under Section I of U.S. Department of Labor Prohibited Transaction Class Exemption ("PTCE") 95-60, or (iii) the acquisition and holding of such Notes by such Holder (or beneficial owner) are eligible for the exemptive relief under PTCE 96-23, 91-38, 90-1 or 84-14.

(d) No Note shall be sold or transferred (including, without limitation, by pledge or hypothecation), except to Non-U.S. Persons in "offshore transactions" in accordance with Regulation S under the Securities Act, unless the purchaser or transferee is a Qualified Purchaser. Notwithstanding anything to the contrary in this Indenture, no transfer of a Note may be made if such transfer would require registration of the Issuer or Co-Issuer under the Investment Company Act (subject, as regards the Trustee's duties, to Section 2.5(f) below).

(e) At any time when the Issuer is not subject to Section 13 or 15(d) of the United States Securities Exchange Act of 1934, as amended, upon the request of any Noteholder, the Issuer shall promptly furnish to such Noteholder or to a prospective purchaser of any Note designated by such Noteholder, as the case may be, the information which the Issuer determines

to be required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act ("Rule 144A Information") in order to permit compliance by such Noteholder with Rule 144A in connection with the resale of such Note by such Noteholder; *provided that* the Issuer shall not be required to provide audited financial statements more than once a year or to furnish Rule 144A Information in connection with any request made on or after the date that is three years from the later of (i) the date such Note (or any predecessor Note) was acquired from the Issuer or (ii) the date such Note (or any predecessor Note) was last acquired from an "affiliate" of the Issuer within the meaning of Rule 144A, in each case as determined by the Issuer. Upon request by the Issuer, the Trustee shall cooperate with the Issuer in mailing or otherwise distributing (at the Issuer's expense) to such Noteholders or prospective purchasers, at and pursuant to the Issuer's written direction, the foregoing materials prepared and provided by the Issuer; *provided that* the Trustee shall be entitled to affix thereto or enclose therewith such disclaimers as the Trustee shall deem reasonably appropriate, at its discretion (such as, for example, a disclaimer that such Rule 144A Information was assembled by the Issuer and not by the Trustee, that the Trustee has not reviewed or verified the accuracy thereof, and that it makes no representation as to the sufficiency of such information under Rule 144A or for any other purpose).

(f) The Trustee shall not be responsible for ascertaining whether any transfer complies with, or otherwise to monitor or determine compliance with, the requirements or terms of the Securities Act, applicable state securities laws, ERISA, the Code or the Investment Company Act; except that if a certificate is specifically required by the terms of this Section to be provided to the Trustee by a prospective transferee, transferor or the Issuer, the Trustee shall be under a duty to receive and examine the same to determine whether it conforms substantially on its face to the applicable requirements of this Section.

(g) If a Responsible Officer of the Trustee becomes aware that (i) a transfer or attempted or purported transfer of any Note or interest therein was consummated in compliance with the provisions of this Section 2.5 on the basis of a materially incorrect certification from the transferor or purported transferee, (ii) a transferee failed to deliver to the Trustee any certificate required to be delivered hereunder or (iii) the Holder of any Note or interest therein is in material breach of any representation or agreement set forth in any certificate or any deemed representation or agreement of such Holder, the Trustee will direct the Note Registrar not to register such attempted or purported transfer and if a transfer has been registered, such transfer shall be absolutely null and void *ab initio* and shall vest no rights in the purported transferee (such purported transferee, a "Disqualified Transferee") and the last preceding Holder of such Note that was not a Disqualified Transferee shall be restored to all rights as a Holder thereof retroactively to the date of transfer of such Note by such Holder.

(h) For so long as one or more Global Notes are Outstanding:

(i) the Trustee and its directors, officers, employees and agents may deal with the Depository for all purposes (including the making of distributions on, and the giving of notices with respect to, the Global Notes);

(ii) unless otherwise provided herein, the rights of beneficial owner in a Global Note shall be exercised only through the respective Depository and shall be

limited to those established by law and agreements between such beneficial owners and the respective Depository;

(iii) for purposes of determining the identity of and Aggregate Principal Amount of Notes beneficially owned by a Holder, the records of the Depository shall be conclusive evidence of such identity and Aggregate Principal Amount and the Trustee may conclusively rely on such records when acting hereunder;

(iv) the Depository will make book-entry transfers among the Depository participants of the Depository and will receive and transmit distributions of principal of and interest on the Global Notes to such Depository participants; and

(v) the Depository participants of the Depository shall have no rights under this Indenture under or with respect to any of the Global Notes held on their behalf by the Depository, and the Depository may be treated by the Trustee and its agents, employees, officers and directors as the absolute owner of the Global Notes for all purposes whatsoever.

(i) Each transferee of a Note (except with respect to a transfer pursuant to Regulation S) will be deemed to represent at time of transfer that the transferee is a Qualified Institutional Buyer and that (i) it is a Qualified Purchaser, (ii) it is not formed for the purpose of investing in the Notes, unless each of its beneficial owners is a Qualified Purchaser, (iii) it is not a dealer described in paragraph (a)(1)(ii) of Rule 144A unless such transferee owns and invests on a discretionary basis at least U.S.\$25 million in securities of issuers that are not affiliated persons of such dealer, (iv) it is not a plan referred to in paragraph (a)(1)(i)(D) or (E) of Rule 144A or a trust fund referred to in paragraph (a)(1)(i)(F) of Rule 144A that holds the assets of such plan, unless investment decisions are made solely by the fiduciary, trustee or sponsor of such plan, (v) it and each account for which it is purchasing is purchasing Notes in at least the minimum denomination and (vi) it will provide written notice of the foregoing and any other applicable transfer restrictions to any transferee.

(j) Any Note issued upon the transfer, exchange or replacement of Notes shall bear such applicable legend set forth in the relevant Exhibit hereto unless there is delivered to the Trustee, Note Registrar and the Issuer such satisfactory evidence, which may include an Opinion of Counsel, as may be reasonably required by any of the Trustee, Note Registrar and the Issuer to the effect that (i) neither such applicable legend nor the restrictions on transfer set forth therein are required to ensure that transfers thereof comply with the provisions of Rule 144A and to ensure that neither of the Co-Issuers nor the Portfolio Collateral becomes an investment company required to be registered under the Investment Company Act, and (ii) the Co-Issuers and the Portfolio Collateral are exempt from registration under the Investment Company Act other than by reason of Section 3(c)(7) thereof. Upon provision of such satisfactory evidence, the Trustee, at the direction of the Issuer, shall authenticate and deliver Notes that do not bear such applicable legend.

(k) If, notwithstanding the restrictions set forth in this Section 2.5, either of the Co-Issuers determines that any beneficial owner or Holder of a Rule 144A Global Note (i) is a U.S. Person and (ii) is not (A) a Qualified Purchaser or (B) a company beneficially owned

exclusively by Qualified Purchasers, the Co-Issuers may require, by notice to such beneficial owner or Holder, as the case may be, that such beneficial owner or Holder sell all of its right, title and interest to such Note (or interest therein) to a Person that is both (1) a Qualified Institutional Buyer and (2) a Qualified Purchaser or a company beneficially owned exclusively by Qualified Purchasers, with such sale to be effected within 30 days after notice of such sale requirement is given. If such beneficial owner or Holder fails to effect the transfer required within such 30-day period, (x) upon written direction from the Issuer, the Trustee shall, and is hereby irrevocably authorized by such beneficial owner or Holder, as the case may be, to cause its interest in such Note to be transferred in a commercially reasonable sale (conducted by the Trustee or by an investment banking firm selected by the Trustee and approved by the Issuer (whose fees are to be paid exclusively from the proceeds of such sale)), in accordance with Section 9-504(3) of the UCC as applied to securities that are sold on a recognized market or that may decline speedily in value) to a Person that certifies to the Trustee and the Co-Issuers, in connection with such transfer, that such Person is both (1) a Qualified Institutional Buyer and (2) a Qualified Purchaser or a company beneficially owned exclusively by one or more Qualified Purchasers and (y) pending such transfer, no further payments will be made in respect of such Note (or beneficial interest therein) held by such Holder or beneficial owner.

#### Section 2.6. Mutilated, Destroyed, Lost or Stolen Notes.

If (i) any mutilated Note is surrendered to the Trustee or the Issuer or the Trustee and the Issuer receive evidence to their reasonable satisfaction of the destruction, loss or theft of any Note, and (ii) in the case of a destroyed, lost, or stolen Note, there is delivered to the Issuer and the Trustee such security or indemnity as may be required by them to save each of them harmless (an unsecured indemnity agreement of an Institutional Investor organized under the laws of the United States or any State in the United States with a net worth at least equal to twice the amount of the security or indemnity being deemed sufficient to satisfy such security or indemnity requirement), then, in the absence of notice to the Co-Issuers or the Trustee that such Note has been acquired by a protected purchaser, the Co-Issuers shall execute and, upon a written request therefor by the Issuer, the Trustee shall authenticate and deliver, in exchange for or in lieu of any such mutilated, destroyed, lost or stolen Note, a new Note of the same Class, tenor and principal amount, bearing a number not contemporaneously outstanding. If, after the delivery of such new Note, a protected purchaser of the original Note in lieu of which such new Note was issued presents such original Note for payment, the Issuer and the Trustee shall be entitled to recover such new Note from the Person to whom it was delivered or any Person taking title therefrom, except a protected purchaser, and the Issuer and the Trustee shall be entitled to recover upon the security or indemnity provided therefor to the extent of any loss, damage, cost or expense incurred by the Co-Issuers, or the Trustee, in connection therewith. If any such mutilated, destroyed, lost or stolen Note shall have become or shall be about to become due and payable in full, or shall have been called for redemption in full, instead of issuing a new Note, the Co-Issuers may pay such Note without surrender thereof, except that any mutilated Note shall be surrendered.

Upon the issuance of any new Note under this Section 2.6, the Issuer or the Trustee may require the payment of a sum sufficient to cover any tax or other governmental charge that may be imposed or any other reasonable expense in relation thereto.

Every new Note issued pursuant to this Section in lieu of any mutilated, destroyed, lost or stolen Note shall constitute an original additional contractual obligation of the Issuer, whether or not the mutilated, destroyed, lost or stolen Note shall be at any time enforceable by anyone, and shall be entitled to all the benefits of this Indenture equally and proportionately with any and all other Notes of the same Class duly issued hereunder.

The provisions of this Section are exclusive and shall preclude (to the extent lawful) all other rights and remedies with respect to the replacement or payment of mutilated, destroyed, lost or stolen Notes.

Section 2.7. [Payments on the Notes.](#)

(a) No principal will be payable in respect of the Class A-1L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of an Initial Deposit Redemption, an Optional Redemption, a Special Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-1L Notes as described herein. On each Payment Date with respect to the Amortization Period, the principal of the Class A-1L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) first to the Class A-1LA Notes and then to the Class A-1LB Notes, until the Payment Date on which the Aggregate Principal Amount of such Class A-1L Notes have been paid in full. In addition, all payments of principal on the Class A-1LA Notes that are made in connection with an Initial Deposit Redemption, a Rating Confirmation Failure, a Tax Event Redemption or an Optional Redemption and all payments of interest will be paid on a *pro rata* basis with the Class X Notes as described herein. All outstanding principal of the Class A-1L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date.

The unpaid principal amount of the Class A-2L Notes shall accrue interest at the Applicable Periodic Rate for such Class from the Closing Date until such unpaid principal amount is paid in full and such accrued interest shall be payable on each Payment Date. To the extent there is any shortfall in the payment of accrued interest at the Applicable Periodic Rate on any Payment Date with respect to the Class A-2L Notes, the Periodic Rate Shortfall Amount will be paid (to the extent of

available funds therefor and as described herein) on one or more subsequent Payment Dates after payment of the Periodic Interest Amount with respect to the Class A-2L Notes, unless earlier paid upon an Initial Deposit Redemption, an Optional Redemption, a Special Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-2L Notes as described herein. The unpaid principal amount of the Class A-3L Notes shall accrue interest at the Applicable Periodic Rate for such Class from the Closing Date until such unpaid principal amount is paid in full and such accrued interest shall be payable on each Payment Date. To the extent there is any shortfall in the payment of accrued interest at the Applicable Periodic Rate on any Payment Date with respect to the Class A-3L Notes, the Periodic Rate Shortfall Amount will be paid (to the extent of available funds therefor and as described herein) on one or more subsequent Payment Dates after payment of the Periodic Interest Amount with respect to the Class A-3L Notes, unless earlier paid upon an Initial Deposit Redemption, an Optional Redemption, a Special Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-3L Notes as described herein. All outstanding principal of the Class A-3L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date.

(d) No principal will be payable in respect of the Class A-4L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-4L Notes, but only after the Aggregate Principal Amount of the Class A-1L Notes, the Class A-2L Notes, the Class A-3L Notes (other than with respect to a Special Redemption or an O/C Redemption) and the Class X Notes have been paid in full. The unpaid principal amount of the Class A-4L Notes shall accrue interest at the Applicable Periodic Rate for such Class from the Closing Date until such unpaid principal amount is paid in full and such accrued interest shall be payable on each Payment Date. To the extent there is any shortfall in the payment of accrued interest at the Applicable Periodic Rate on any Payment Date with respect to the Class A-4L Notes, the Periodic Rate Shortfall Amount will be paid (to the extent of available funds therefor and as described herein) on one or more subsequent Payment Dates after payment of the Periodic Interest Amount with respect to the Class A-4L Notes, unless earlier paid upon an Initial Deposit Redemption, an Optional Redemption, a Special Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-4L Notes as described herein. All outstanding principal of the Class A-4L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date.

(e) Except in connection with the application of the Additional Collateral Deposit Requirement as described herein, no principal will be payable in respect of the Class B-1L Notes during the Revolving Period, except in the event of a Special Redemption, an Optional

Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class B-1L Notes. The principal amount of the Class B-1L Notes shall be due and payable (to the extent of funds available therefore and in the order of priority as described herein) on each Payment Date during the Amortization Period, but only after the Aggregate Principal Amount of the Class A-1L Notes, the Class A-2L Notes, the Class A-3L, the Class A-4L (other than with respect to a Special Redemption or an O/C Redemption) and the Class X Notes have been paid in full. The unpaid principal amount of the Class B-1L Notes shall accrue interest at the Applicable Periodic Rate for such Class from the Closing Date until such unpaid principal amount is paid in full and such accrued interest shall be payable on each Payment Date. To the extent there is any shortfall in the payment of accrued interest at the Applicable Periodic Rate on any Payment Date with respect to the Class B-1L Notes, the Periodic Rate Shortfall Amount will be paid (to the extent of available funds therefor and as described herein) on one or more subsequent Payment Dates after payment of the Periodic Interest Amount with respect to the Class B-1L Notes, unless earlier paid upon an Initial Deposit Redemption, an Optional Redemption, a Special Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class B-1L Notes as described herein. All outstanding principal of the Class B-1L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date.

(f) The Class X Notes will provide for the Class X Payment (to the extent funds are available therefore as described herein) on each Payment Date, commencing on the November 2006 Payment Date through and including the August 2013 Payment Date. The Aggregate Principal Amount of the Class X Notes will be due and payable on the Final Maturity Date of the Class X Notes. To the extent the Class X Payment will not be paid on any Payment Date, the resulting Class X Shortfall Amount will be paid (as described herein) on one or more subsequent Payment Dates after payment of the Class X Payment with respect to such Class X Notes.

(g) Holders of the Notes of each Class as of the Record Date in respect of a Payment Date or as of the Redemption Record Date with respect to the Initial Deposit Redemption Date, an Optional Redemption Date, a Special Redemption Date, a Tax Event Redemption Date or a Mandatory Redemption Date, shall be entitled, to the extent provided for herein, to the interest accrued and payable and principal payable (or Initial Deposit Redemption Price, an Optional Redemption Price, a Special Redemption Price, a Tax Event Redemption Price or a Mandatory Redemption Price payable, as applicable) on such Payment Date or Redemption Record Date with respect to the Initial Deposit Redemption Date, an Optional Redemption Date, a Special Redemption Date, a Tax Event Redemption Date or a Mandatory Redemption Date. (h) Interest accrued with respect to any Class of Notes shall be computed on the basis of a 360-day year and the actual number of days elapsed during each Periodic Interest Accrual Period.

(i) Notwithstanding any other provision of this Indenture, the obligations of the Co-Issuers' under this Indenture and the payment of principal of, interest on and all other amounts payable on or in respect of the Class A-1L Notes, the Class A-2L Notes, the Class A-3L Notes, Class A-4L Notes, the Class B-1L Notes and the Class X Notes will constitute nonrecourse obligations of the Co-Issuers, payable solely from the Trust Estate. Having realized the Collateral and distributed the net proceeds thereof, in each case in accordance with this Indenture, neither the Trustee nor any holders of Notes may take any further steps against the Co-Issuers to recover any sum still unpaid in respect of any claims under this Indenture or the Notes issued under this Indenture and all claims against the Co-Issuers in respect of any such sum due but still unpaid shall be extinguished and shall not revive. Neither of the Co-Issuers, nor any of their respective agents, partners, beneficiaries, officers, directors, employees or any Affiliate of any of them or any of their respective successors or assigns shall be personally liable for any amounts payable, or performance due, under the Notes or this Indenture. It is understood that the foregoing provisions of this paragraph shall not (A) prevent recourse to the Trust Estate for the sums due or to become due under any security, instrument or agreement which is part of the Trust Estate or (B) constitute a waiver, release or discharge of any indebtedness or obligation evidenced by the Notes or secured by this Indenture, but the same shall continue until paid or discharged or (C) constitute a waiver of an otherwise valid cause of action with respect to the performance of the Servicer's obligations as set forth in the Servicing Agreement or (D) constitute a waiver of any otherwise valid cause of action against the Co-Issuers wherein the loss complained of is directly attributable to the willful misconduct or fraud of the Co-Issuers in making their respective representations or warranties or the performance of their respective obligations under this Indenture or (E) limit the right of any person to name the Co-Issuers as parties defendant in any action, suit or in the exercise of any other remedy under the Notes or in this Indenture, so long as no judgment in the nature of a deficiency judgment or seeking personal liability shall be asked for or (if obtained) enforced against any such person or entity.

#### Section 2.8. [Persons Deemed Owners.](#)

The Co-Issuers, the Trustee, the Note Registrar and the Servicer, and any agent of the Co-Issuers, the Trustee, the Note Registrar and the Servicer shall treat the Person in whose name any Note is registered as it appears on the Note Register as the owner of such Note for the purpose of receiving payments on such Note, and for all other purposes whatsoever (whether or not such Note is overdue), and none of the Issuer, the Trustee, the Note Registrar or the Servicer, nor any agent of any of them, shall be affected by notice to the contrary.

#### Section 2.9. [Cancellation.](#)

All Notes surrendered for payment, registration of transfer, exchange or redemption, or deemed destroyed, lost or stolen, shall, if surrendered to any Person other than the Trustee, be delivered to the Trustee and shall be promptly cancelled by it. No Notes shall be authenticated in lieu of or in exchange for any Notes cancelled as provided in this Section 2.9, except as expressly permitted by this Indenture. All cancelled Notes held by the Trustee shall be destroyed or held by the Trustee in accordance with its standard retention policy unless the Issuer shall direct by an Issuer Order that they be returned to the Issuer.

Section 2.10. [Tax Purposes.](#)

Each of the Co-Issuers shall, and each Holder by acceptance of its Note shall be deemed to have agreed to, treat the Notes as debt solely of the Issuer for United States federal income tax purposes.

Section 2.11. [Calculation Agent; Determination of LIBOR.](#)

(a) The Issuer hereby agrees that for so long as any of the Notes remain Outstanding, there will at all times be an agent appointed to calculate LIBOR in respect of each Periodic Interest Accrual Period in accordance with the terms of the Notes. The Issuer has initially appointed JPMorgan Chase Bank, National Association, as agent with respect to the determination of LIBOR (in such capacity, the "[Calculation Agent](#)"). The Calculation Agent may be removed by the Issuer at any time. If the Calculation Agent is unable or unwilling to act as such or is removed by the Issuer, or if the Calculation Agent fails to determine LIBOR for a Periodic Interest Accrual Period, the Issuer will promptly appoint as a replacement Calculation Agent a leading bank which is engaged in transactions in U.S. dollar deposits in the international U.S. dollar market and which does not control or is not controlled by or under common control with the Co-Issuers or their Affiliates. The Calculation Agent may not resign or be removed from its respective duties without a successor having been duly appointed.

(b) The Calculation Agent shall determine LIBOR for each Periodic Interest Accrual Period in accordance with the following provisions:

On each LIBOR Determination Date, LIBOR shall equal the rate, as obtained by the Calculation Agent, for three-month U.S. dollar deposits which appears on Telerate Page 3750 (as reported by Bloomberg Financial Markets Commodities News) or such other page as may replace such Page 3750, as of 11:00 a.m. (London time) on such LIBOR Determination Date. Notwithstanding the foregoing, LIBOR for the initial Periodic Interest Accrual Period shall be determined through the use of straight-line interpolation by reference to two rates calculated in accordance with the provisions above, one of which shall be for five-month U.S. dollar deposits and the other of which shall be for six-month U.S. dollar deposits.

If, on any LIBOR Determination Date, such rate does not appear on Telerate Page 3750 (as reported by Bloomberg Financial Markets Commodities News) or such other page as may replace such Page 3750, the Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks (as defined below) to leading banks in the London interbank market for three-month (or five-month or six-month, as applicable) U.S. dollar deposits in an amount determined by the Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the LIBOR Determination Date made by the Calculation Agent to the Reference Banks. If, on any LIBOR Determination Date, at least two of the Reference Banks provide such quotations, LIBOR shall equal such arithmetic mean of such quotations. If, on any LIBOR Determination Date, only one or none of the Reference Banks provide such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that leading banks in The City of New York selected by the Calculation Agent (after consultation with the Servicer) are quoting on the relevant LIBOR Determination Date for three-month (or five-month or six-month, as applicable) U.S. dollar deposits in an

amount determined by the Calculation Agent that is representative of a single transaction in such market at such time by reference to the principal London offices of leading banks in the London interbank market; *provided that*, if the Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the previous LIBOR Determination Date. As used herein, "Reference Banks" means four major banks in the London interbank market selected by the Calculation Agent (after consultation with the Servicer).

For purposes of any calculations referred to in this paragraph (b), all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point.

(c) As soon as possible after 11:00 a.m. (New York time) on each LIBOR Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each LIBOR Determination Date, the Calculation Agent will notify the Issuer, the Trustee, the Irish Paying Agent (as long as any of the Notes are listed on the Irish Stock Exchange) and the Servicer of LIBOR for the next Periodic Interest Accrual Period. The Calculation Agent will also specify to the Issuer the quotations upon which LIBOR is based, and in any event the Calculation Agent shall notify the Issuer before 5:00 p.m. (New York time) on each LIBOR Determination Date that either: (i) it has determined or is in the process of determining LIBOR or (ii) it has not determined and is not in the process of determining LIBOR together with its reasons therefor.

(d) Upon receipt of notice of LIBOR for each Periodic Interest Accrual Period from the Calculation Agent pursuant to subsection (c) of this Section 2.11, the Trustee shall determine the Applicable Periodic Rate with respect to the Notes for such Periodic Interest Accrual Period and notify the Irish Stock Exchange of the Applicable Periodic Rate for each Class of Note (as long as any of the Notes are listed on the Irish Stock Exchange).

(e) The determination of LIBOR by the Calculation Agent and the Applicable Periodic Rate with respect to the Notes by the Trustee (in the absence of manifest error) shall be final and binding upon all parties.

#### Section 2.12. [Option to Acquire Credit Enhancement.](#)

Holders of any Class of Notes may elect to acquire bond insurance, a surety bond or similar credit enhancement supporting the payment of principal and/or interest on such Class of Notes, on terms and conditions acceptable to such Holders and at the sole expense of such Holders. Any Class of Notes subject to such enhancement will be designated pursuant to a supplemental indenture adopted pursuant to Section 8.1 as "Insured Notes" of such Class. Premiums for any such enhancement (together with any other amounts payable to the issuer of such bond insurance policy, surety bond or similar credit enhancement, including, without limitation, amounts payable to any such issuer to reimburse it for draws thereunder, together with interest thereon), and costs incurred by the Co-Issuers in connection with such enhancement will be payable from amounts otherwise payable to such Class of Insured Notes, or in such other manner chosen by such Holder (*provided that* any such payment does not adversely affect any other Noteholder or holder of a Preferred Share). Any Insured Notes for substantially all other

purposes will be treated as Notes of such Class, except that the issuer of the bond insurance policy, surety bond or other such credit enhancement will generally be deemed to be the Holder of the Notes of such Class, enhanced by such entity and will in such capacity be entitled to exercise the rights otherwise exercisable by Holders of such Notes.

Section 2.13. Prescription.

Payment in respect of any Note will cease to be due if not paid to the Holder of such Note due to insufficient payment instructions from such Holder to the Trustee or the Paying Agent for a period of twenty years from the Relevant Date.

Account Income in the Initial Deposit Account shall be transferred to the Collection Account on the Effective Date and shall constitute Collateral Interest Collections.

(b) If an Initial Deposit Redemption is required, the Issuer, not later than the third Business Day immediately following the Effective Date, shall notify the Trustee and each Rating Agency in writing that an Initial Deposit Redemption is required pursuant to Section 3.3(a) hereof and the amount of the Class A-1LA Notes and the Class X Notes required to be redeemed pursuant thereto.

(c) Notice of an Initial Deposit Redemption shall be given by the Trustee by first-class mail, postage prepaid, mailed not less than ten calendar days prior to the Initial Deposit Redemption Date, to each Holder of the Class A-1LA Notes and the Class X Notes to be redeemed at the address for such Holder in the Note Register and so long as any Notes are listed on the Irish Stock Exchange, to the Irish Paying Agent. All notices of Initial Deposit

Redemption shall state the Initial Deposit Redemption Date, the Redemption Record Date with respect thereto, the Aggregate Principal Amount of the Class A-1LA Notes and the Class X Notes to be redeemed, and that no interest or other amount in excess of the Initial Deposit Redemption Amount shall be payable on the amount of the Class A-1LA Notes and the Class X Notes to be redeemed.

(d) If an Initial Deposit Redemption is required, all Eligible Investments in the Initial Deposit Account representing the Deposit not applied to the purchase of Portfolio Collateral on or before the Effective Date shall be liquidated on the Business Day immediately preceding the Initial Deposit Redemption Date and the proceeds thereof shall be held in the Initial Deposit Account. On the Initial Deposit Redemption Date, the Trustee shall withdraw from the Initial Deposit Account all funds therein and apply such funds to the payment of Holders of the Notes in an amount equal to the Initial Deposit Redemption Amount or to a deposit in the Collection Account, as applicable.

Section 3.4. Purchase of Portfolio Collateral between the Closing Date and the Effective Date; Effective Date Conditions.

(a) The Issuer may (i) purchase Original Portfolio Collateral on any Business Day during the period from and including the Closing Date to and including the Effective Date or (ii) enter into a commitment to purchase Original Portfolio Collateral on any Business Day during the period from and including the Closing Date to and including the Effective Date for purchase on or as soon as practicable thereafter (*provided that* the agreed to settlement date shall not be more than thirty (30) days after the Effective Date), in each case, for inclusion in the Trust Estate in an aggregate amount equal to the Deposit in the Initial Deposit Account. Upon receipt of a Servicer Order requesting the purchase of Original Portfolio Collateral the Trustee shall pay out of the Initial Deposit Account, during the period commencing on the Closing Date and ending on the Effective Date, all or a portion of the funds available therein for the purpose of purchasing Original Portfolio Collateral.

No Original Portfolio Collateral may be purchased prior to the Effective Date unless immediately following the purchase of such item of Portfolio Collateral (as certified by Servicer Order), the remaining Deposit in the Initial Deposit Account, after giving effect to such purchase, is sufficient as of the date of determination to purchase Original Portfolio Collateral in an Aggregate Principal Amount at least equal to the Required Portfolio Collateral Amount for delivery into the Trust Estate (taking into account the Initial Portfolio Collateral and Original Portfolio Collateral already in the Trust Estate (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to any of the Original Portfolio Collateral on or before the Effective Date)).

Notwithstanding the foregoing, or any other provision hereof, if the Issuer has previously entered into a commitment to purchase an item of Portfolio Collateral to be included in the Trust Estate, such commitment not to exceed thirty (30) days, and at the time of such commitment such an item of Portfolio Collateral complied with the definition of Portfolio Collateral and this Section 3.4(a), then the Issuer may consummate the purchase of such an item

of Portfolio Collateral notwithstanding that such an item of Portfolio Collateral fails to comply with the definition of Portfolio Collateral and such criteria on the date of settlement.

(b) The Servicer shall cause to be delivered to the Trustee on the Effective Date an amended Schedule A to this Indenture listing all Original Portfolio Collateral (including the Initial Portfolio Collateral then in the Trust Estate) and all commitments to purchase Original Portfolio Collateral, which schedule shall supersede any prior Schedule A delivered to the Trustee.

(c) The Issuer will use its commercially reasonable efforts to purchase, or to enter into binding agreements to purchase, Original Portfolio Collateral by the Effective Date, that, including the Initial Portfolio Collateral, will satisfy, as of the Effective Date, the Collateral Quality Tests, the criteria set forth in Section 12.2 and the Overcollateralization Tests. Within 5 Business Days after the Effective Date, the Issuer or the Servicer (on behalf of the Issuer) shall request a Rating Confirmation on behalf of the Issuer and shall provide a report to the Rating Agencies identifying the Original Portfolio Collateral and the Issuer shall obtain and deliver to the Trustee and the Rating Agencies, together with the delivery of a report (and an electronic file of the Original Portfolio Collateral to S&P) substantially in the form of a Monthly Report as of the Effective Date, an Accountants' Certificate (a) confirming the maturity date, rating, spread, coupon and recovery rate for each item of Original Portfolio Collateral as of the Effective Date and the information provided by the Issuer with respect to every other asset included or to be included in the Trust Estate, by reference to such sources as shall be specified therein, (b) confirming that as of the Effective Date (1) each Overcollateralization Test is met; (2) the Aggregate Principal Amount of the Original Portfolio Collateral that the Issuer owned or committed to purchase as of the Effective Date is at least equal to the Required Portfolio Collateral Amount and (3) the Portfolio Collateral complies with all of the requirements of the Collateral Quality Tests and the criteria set forth in Section 12.2 and (c) specifying the procedures undertaken by them to review data and computations relating to the foregoing statements. If a Rating Confirmation Failure should occur, the Notes will be redeemed pursuant to Section 9.2 hereof.

(d) Notwithstanding any provision in this Indenture to the contrary, if, on the Effective Date, the Aggregate Principal Amount of the Portfolio Collateral (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or prior to such time) exceeds the Required Portfolio Collateral Amount and there are funds remaining from the Deposit held in the Initial Deposit Account, the Servicer may direct the Trustee to transfer up to the least of (i) 25% of such funds and (iii) \$1,000,000, to the Collection Account as additional Collateral Interest Collections; *provided* that the Overcollateralization Tests and the collateral criteria described herein are satisfied and the Interest Coverage Test for the most recent Payment Date was satisfied. The remainder of the Deposit shall be transferred by the Trustee to the Collection Account to be applied as Collateral Principal Collections on the Payment Date immediately following the date of determination.

Section 3.5. [Intermediaries.](#)

(a) Notwithstanding anything herein to the contrary, to the extent any items of Portfolio Collateral issued by an issuer that is not the United States of America, an agency or instrumentality thereof, or some other U.S. Person (collectively, "Non-U.S. Portfolio Securities") are Granted to the Trustee, such Non-U.S. Portfolio Securities may be delivered to and held by the Trustee through one or more Foreign Sub-custodians or Foreign Clearance Systems (as those terms are defined in the Section below; collectively, "[Foreign Intermediaries](#)") if such Non-U.S. Portfolio Securities cannot be Delivered to the Trustee.

(b) The Trustee, for the purpose of receiving and holding any Non-U.S. Portfolio Securities (as defined in Section 3.5(a)), may appoint one or more banking or securities institutions located outside the United States (each a "[Foreign Sub-custodian](#)") and/or clearing agencies or systems located outside the United States (each, a "[Foreign Clearance System](#)"), including without limitation Euroclear and Clearstream. With respect to Non-U.S. Portfolio Securities (and related cash) held through Foreign Intermediaries, such Foreign Intermediaries may be authorized to hold Non-U.S. Portfolio Securities in central securities depositories or clearing agencies in which such Foreign Intermediaries participate.

(c) The Trustee's responsibility with respect to the selection or appointment of Foreign Intermediaries shall be limited to a duty to exercise reasonable care in the selection or retention of such Foreign Intermediaries in light of prevailing settlement and securities handling practices, procedures and controls in the relevant market and subject to Section 6.3 hereof; *provided that* the appointment of Euroclear or Clearstream to act as Foreign Intermediary shall be deemed to have been made in the exercise of due care. With respect to any costs, expenses, damages, liabilities, or claims (including, without limitation, attorneys' and accountants' fees) incurred by the Issuer as a result of the acts or the failure to act by any Foreign Intermediaries, the Trustee shall take reasonable action to recover such costs, expenses, damages, liabilities, or claims from such Foreign Intermediaries; *provided that* the Trustee's sole liability in that regard shall be limited to amounts actually received by it from such Foreign Intermediaries (exclusive of related costs and expenses incurred by the Trustee). The Trustee shall not be responsible or liable for any failure or delay in the performance of its obligations under this Indenture arising out of or caused, directly or indirectly, by circumstances beyond its reasonable control, including without limitation, acts of God; earthquakes or fires; floods, wars, civil or military disturbances; sabotage; epidemics; riots; interruptions, loss or malfunctions of utilities, computer (hardware or software) or communication service; accidents; labor disputes; acts of civil or military authority; governmental actions; or inability to obtain labor, material, equipment or transportation.

## Section 5.2. [Acceleration of Maturity; Rescission and Annulment.](#)

(a) If an Event of Default (other than an Event of Default specified in Section 5.1(c) or (d)) with respect to the Notes occurs and is continuing, the Trustee may, with the consent of the Requisite Noteholders, and shall, at the direction of the Requisite Noteholders, declare the principal of the Notes to be immediately due and payable, by a notice in writing to the Issuer and the Servicer. If an Event of Default as specified in Section 5.1(c) or (d) occurs and is continuing, the principal of the Notes shall be and become immediately due and payable without the necessity of notice or any other action of any Person. If the Notes are declared to be immediately due and payable or if an Event of Default specified in Section 5.1(c) or (d) hereof occurs, the Holders of each Class of Notes shall be entitled to receive, as applicable, and in the order of priority set forth in Section 11.1(d), the Cumulative Interest Amount and the Aggregate Principal Amount with respect thereto (in each case as calculated and accrued through the date of

(b) At any time after such a declaration of acceleration of maturity has been made and before a judgment or decree for payment of the money due has been obtained by the Trustee as provided in this Article, the Requisite Noteholders, by written notice to the Trustee and the Co-Issuers, may rescind and annul such declaration and its consequences if:

(i) the Issuer has paid or deposited with the Trustee a sum sufficient to pay:

(B) to the extent that payment of interest on such amount is lawful, interest on such overdue amounts at the Applicable Periodic Rate; and

(C) all unpaid Trustee Administrative Expenses, Preferred Shares Administrative Expenses, Issuer Base Administrative Expenses, Issuer Excess Administrative Expenses, and other sums paid or advanced by the Trustee and the Paying and Transfer Agent hereunder and under the Paying and Transfer Agency Agreement and the reasonable compensation, expenses, disbursements and advances of the Trustee and the Paying and Transfer Agent, their agents and counsel.

(ii) the Trustee has (A) received written evidence that the sum paid or deposited with the Trustee by the Issuer pursuant to clause (i) above is sufficient, and (B) determined that all Events of Default, other than the nonpayment of such amount that has become due solely by such acceleration, have been (1) cured, and the Requisite Noteholders by written notice to the Trustee have agreed with such determination (which agreement shall not unreasonably be withheld), or (2) waived as provided in Section 5.15 hereof.

### Section 5.3. Proceedings.

If an Event of Default has occurred and is continuing and the Notes have been declared due and payable and such declaration and its consequences have not been rescinded and annulled, or at any time on or after the Final Maturity Date, the Trustee may in its discretion proceed to protect and enforce its rights and the rights of the Noteholders by such appropriate Proceedings, in its own name and as trustee of an express trust, as the Trustee shall deem most effective or as the Trustee may be directed by the Requisite Noteholders to protect and enforce any such rights, whether for the specific enforcement of any covenant or agreement in this Indenture or in aid of the exercise of any power granted herein, or for collection of sums due and unpaid, or to enforce any other proper remedy or legal or equitable right vested in the Trustee by this Indenture or by law, but subject, however, to the terms of Section 5.4 hereof. The reasonable compensation, costs, expenses, disbursements and advances incurred or paid by the Trustee, and its agents and counsel, in connection with any such Proceeding, including, without limitation, the exercise of any remedies pursuant to Section 5.4 hereof, shall be reimbursed to the Trustee pursuant to Section 6.7 hereof.

Section 5.4. [Remedies.](#)

(a) If the Notes have been declared due and payable and such declaration and its consequences have not been rescinded or annulled, or at any time on or after the Final Maturity Date, the Trustee may, after written notice to the Noteholders, and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent, and shall, upon direction by the Requisite Noteholders, to the extent permitted by applicable law, do one or more of the following:

(ii) institute Proceedings for the complete or partial foreclosure of this Indenture with respect to the Trust Estate securing the Notes;

(iii) exercise any remedies of a secured party under the UCC including the sale or liquidation of the Trust Estate in accordance with Section 5.18 hereof and take any other appropriate action to protect and enforce the rights and remedies of the Trustee or the Holders of the Notes hereunder; or

(iv) exercise any other rights and remedies that may be available at law or in equity;

*provided that* the Trustee may not sell or liquidate the Trust Estate, or any portion thereof, or any rights or interest therein, unless (x) in the case of an acceleration resulting from an Event of Default set forth in Section 5.1(a) hereof, or a sale or liquidation of any portion of the Trust Estate at or greater than its par value (*provided that* Defaulted Portfolio Collateral may be liquidated without reference to, or inclusion in the calculation of, such limitation), the Requisite Noteholders have so directed the Trustee in writing to sell or liquidate the Trust Estate or any portion thereof or (y) in the case of any other Event of Default or resulting sale or liquidation, 100% of the Noteholders have so directed the Trustee in writing to sell or liquidate the Trust Estate or any portion thereof; *provided further* that no Default Swap or Synthetic Security may be terminated so long as a declaration of acceleration may be rescinded or annulled pursuant to Section 5.2(b). The Trustee shall send written notice to each of the Noteholders, with a copy to the Rating Agencies and so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent, of any proposed sale or liquidation of the Trust Estate together with a brief description thereof and such written notice shall be accompanied by an Accountant's Certificate (i) confirming the information with respect to such sale or liquidation (to the extent such accountants shall be able and willing to confirm such information) and (ii) specifying the procedures, if any, undertaken by them to review the data and computations relating to such sale or liquidation. The cost of such Accountant's Certificate shall be reimbursed to the Trustee pursuant to Section 6.7 hereof. If the applicable Noteholders direct any sale or liquidation of the Trust Estate, or any portion thereof, the Trustee shall sell or liquidate the Trust Estate, or portion, thereof, in accordance with Section 5.18 hereof at one or more public or private sales conducted in any manner permitted by law.

(b) If an Event of Default as described in Section 5.1(b) hereof has occurred and is continuing, the Trustee may, after written notice to the Noteholders, with a copy to the Rating Agencies, and so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent, and shall, upon direction of the Requisite Noteholders, institute a Proceeding to compel performance of the covenant or to cure the representation or warranty, the breach of which gave rise to the Event of Default under such Section and enforce any decree or order arising from such Proceeding.

(c) If an Event of Default described in Sections 5.1(a)(iii) or 5.1(a)(iv) hereof has occurred and is continuing, the Trustee shall, upon written direction of the Requisite Noteholders, terminate the services of the Servicer in accordance with the terms of the Servicing Agreement.

#### Section 5.5. Preservation of Trust Estate.

(a) If an Event of Default has occurred and is continuing or if the Final Maturity Date has occurred and subject to Section 5.4 hereof, the Trustee shall retain the Trust Estate securing the Notes intact, collect and cause the collection of the proceeds thereof and make and apply all payments and deposits and maintain all accounts in respect of the Notes in accordance with the provisions of Sections 10.1, 10.2(a), 10.2(b) and 11.1 hereof (unless and until the Notes have been declared due and payable and the applicable Noteholders have directed the Trustee pursuant to Section 5.4(a) hereof to sell or liquidate the Trust Estate or any portion thereof). The Trustee shall give written notice of the retention of the Trust Estate to the Issuer. If the Notes have been declared due and payable pursuant to Section 5.2 hereof or if the Final Maturity Date has occurred, any such retention pursuant to this Section 5.5(a) may be rescinded at any time by written notice to the Trustee and the Co-Issuers from the applicable Noteholders directing the Trustee to sell or liquidate the Trust Estate or any portion thereof.

(b) Nothing contained in Section 5.5(a) hereof shall be construed to require the Trustee to preserve the Trust Estate securing the Notes if prohibited by applicable law.

#### Section 5.6. Trustee May File Proofs of Claim.

In case there shall be pending Proceedings relative to the Issuer or any other obligor upon the Notes under the Bankruptcy Code or any other applicable bankruptcy, insolvency or other similar law, or in case a receiver, assignee or trustee in bankruptcy or reorganization, liquidator, sequestrator or similar official shall have been appointed for or taken possession of the Issuer or its property or such other obligor or its property, or in case of any other comparable Proceedings relative to the Issuer or other obligor, or in case of any voluntary dissolution, liquidation or winding-up of the Issuer, regardless of whether the principal of any Notes shall then be due and payable as therein expressed or by declaration or otherwise and regardless of whether the Trustee shall have made any demand pursuant to the provisions of Section 5.3 hereof, the Trustee is hereby entitled and empowered to, and may and at the direction of the Requisite Noteholders, shall, by intervention in such Proceedings or otherwise:

Nothing herein contained shall be deemed to authorize the Trustee to authorize or consent to or vote for or accept or adopt on behalf of any Noteholder any plan of reorganization, arrangement, adjustment or compromise affecting the Notes or the rights of any Holder thereof, or to authorize the Trustee to vote in respect of the claim of any Noteholder in any such Proceeding except, as aforesaid, to vote for the election of a trustee in bankruptcy (or person performing similar functions in comparable Proceedings) or to participate as a member of any committee of creditors.

In any Proceedings brought by the Trustee (and also any Proceedings involving the interpretation of any provision of this Indenture to which the Trustee shall be a party) the Trustee shall be held to represent all the Holders of the Notes subject to the provisions of this Indenture, and it shall not be necessary to make any Holders of the Notes parties to any such Proceedings.

it being understood and intended that no one or more Holders of Notes shall have any right in any manner whatever by virtue of, or by availing of, any provision of this Indenture to affect, disturb or prejudice the rights of any other Holders of Notes of the same Class or to obtain or to seek to obtain priority or preference over any other Holders of Notes of the same Class or to enforce any right under this Indenture, except in the manner herein provided and for the equal and ratable benefit of all the Holders of Notes of the same Class.

Furthermore, the Holder of any Note shall have the right, which is absolute and unconditional, to institute Proceedings for the enforcement of any such payment, and such right shall not be impaired without the consent of such Holder. Notwithstanding any other provision in this Section 5.10 or otherwise in this Indenture to the contrary, (i) Holders of the Class A-3L Notes shall have no right to institute Proceedings for the enforcement of any such payment until such time as no Senior Class A Notes remain Outstanding, (ii) Holders of the Class A-4L Notes shall have no right to institute Proceedings for the enforcement of any such payment until such time as no Senior Class A Notes remain Outstanding, and (iii) Holders of the Class B-1L Notes shall have no right to institute Proceedings for the enforcement of any such payment until such time as no Class A Notes remain Outstanding, and, in each case, any such right to institute Proceedings shall be subject to the provisions of Section 5.9 hereof.

#### Section 5.11. Restoration of Rights and Remedies.

If the Trustee or any Noteholder has instituted any Proceeding to enforce any right or remedy under this Indenture and such Proceeding has been discontinued or abandoned for any reason, or has been determined adversely to the Trustee or to such Noteholder, then and in every such case the Issuer, the Trustee and the Noteholder shall, subject to any determination in such Proceeding, be restored severally and respectively to their former positions hereunder, and thereafter all rights and remedies of the Trustee and the Noteholders shall continue as though no such Proceeding had been instituted.

#### Section 5.12. Rights and Remedies Cumulative.

No right or remedy herein conferred upon or reserved to the Trustee or to the Holders of the Notes is intended to be exclusive of any other right or remedy, and every right and remedy shall, to the extent permitted by law, be cumulative and in addition to every other right

and remedy given hereunder or now or hereafter existing by law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other appropriate right or remedy.

Section 5.13. [Delay or Omission Not Waiver.](#)

No delay or omission of the Trustee or of any Holder of any Note to exercise any right or remedy occurring upon any Event of Default shall impair any such right or remedy or constitute a waiver of any such Event of Default or an acquiescence therein. Every right and remedy given by this Article V or by law to the Trustee or to the Noteholders may be exercised from time to time, and as often as may be deemed expedient, by the Trustee or by the Noteholders, as the case may be.

Section 5.14. [Control by Noteholders.](#)

Notwithstanding any other provision of this Indenture, the Requisite Noteholders, on behalf of the Holders of all the Notes, shall have the right (a) to cause the institution of and direct the time, method and place of conducting any Proceeding for any remedy available to the Trustee or (b) subject to Section 6.3(e) hereof, to direct the Trustee with respect to its exercise of any right, remedy, trust or power conferred on the Trustee; *provided that*:

(i) such direction shall not be in conflict with any rule of law or with any express provision of this Indenture (including, without limitation, any provision hereof providing express personal protection to the Trustee or a limitation on the liability of the Co-Issuers as set forth in Section 2.7(i) hereof), and

(ii) the Trustee may take any other action deemed proper by the Trustee that is not inconsistent with such direction; *provided that*, subject to Section 6.1 hereof, the Trustee need not take any action that it reasonably determines might involve it in liability.

Section 5.15. [Waiver of Past Defaults.](#)

Prior to the time a judgment or decree for payment of the money due has been obtained by the Trustee, the Requisite Noteholders may on behalf of the Holders of all the Notes waive any past Default and its consequences, with notice to the Rating Agencies, except a Default:

(a) in the payment of the principal of or interest on any Note, or

(b) in respect of a covenant or provision hereof that under Section 8.2 hereof cannot be modified or amended without the consent of the Holder of each Outstanding Note affected.

In the case of any such waiver, the Issuer, the Trustee and the Holders of the Notes shall be restored to their former positions and rights hereunder, respectively; but no such waiver shall extend to any subsequent or other Default or impair any right consequent thereto. Upon such waiver, such Default shall cease to exist, and any Event of Default arising therefrom

shall be deemed to have been cured, for every purpose of this Indenture; but no such waiver shall extend to any subsequent or other Default or impair any right consequent thereon.

Section 5.16. [Undertaking for Costs.](#)

All parties to this Indenture agree, and each Holder of any Note by his acceptance thereof shall be deemed to have agreed, that any court may in its discretion require, in any suit for the enforcement of any right or remedy under this Indenture, or in any suit against the Trustee for any action taken, or omitted by it as Trustee, the filing by any party litigant in such suit of an undertaking to pay the costs of such suit, and that such court may in its discretion assess reasonable costs, including reasonable attorneys' fees, against any party litigant in such suit, having due regard to the merits and good faith of the claims or defenses made by such party litigant; but the provisions of this Section 5.16 shall not apply to any suit instituted by the Trustee, to any suit instituted by any Noteholder, or group of Noteholders, holding in the aggregate more than 10% in Aggregate Principal Amount of the Notes, or to any suit instituted by any Noteholder for the enforcement of the payment of the principal of or interest on any Note on or after the Final Maturity Date expressed in such Note.

Section 5.17. [Waiver of Stay or Execution Laws.](#)

Each of the Co-Issuers covenants (to the extent that it may lawfully do so) that it will not at any time insist upon, or plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay or execution law wherever enacted, including, but not limited to, filing a voluntary petition under the Bankruptcy Code now or at any time hereafter in force, which may affect the covenants or the performance of or the exercise of any remedies under this Indenture; and each of the Co-Issuers (to the extent that they may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it will not hinder, delay or impede the execution of any power herein granted to the Trustee or any Noteholder, but will suffer and permit the execution of every such power as though no such law had been enacted.

Section 5.18. [Sale of Trust Estate.](#)

(a) The power to effect any sale (a "Sale") of any portion of the Trust Estate pursuant to Section 5.4 and Section 5.5 hereof shall not be exhausted by any one or more Sales as to any portion of such Trust Estate remaining unsold, but shall continue unimpaired until the entire Trust Estate securing the Notes shall have been sold or all amounts payable on the Notes under this Indenture with respect thereto shall have been paid. The costs of any such sale of the Trust Estate shall be reimbursable to the Trustee pursuant to Section 6.7 hereof. The Trustee may, upon notice to the Noteholders, and so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent, and shall, upon direction of the Requisite Noteholders, postpone any Sale by public announcement made at the time of and place of such Sale. The Trustee hereby expressly waives its right to any amount fixed by law as compensation for any Sale.

(b) The Trustee may bid for and acquire any portion of the Trust Estate in connection with a Sale thereof on an arm's length basis to the extent not prohibited by applicable law, and may pay all or part of the purchase price by crediting against amounts owing on the

Notes or other amounts secured by this Indenture, all or part of the net proceeds of such Sale after deducting the reasonable costs, charges and expenses incurred by the Trustee in connection with such Sale notwithstanding the provisions of Section 6.7 hereof. The Notes need not be produced in order to complete any such Sale, or in order for the net proceeds of such Sale to be credited against amounts owing on the Notes. The Trustee may hold, lease, operate, manage or otherwise deal with any property so acquired in any manner permitted by law in accordance with this Indenture.

(c) If any portion of the Trust Estate consists of securities issued without registration under the Securities Act ("Unregistered Securities"), the Trustee may seek an Opinion of Counsel, or, if no such Opinion of Counsel can be obtained and with the consent of the Requisite Noteholders, seek a no-action position from the Securities and Exchange Commission or any other relevant Federal or state regulatory authorities, regarding the legality of a public or private sale of such Unregistered Securities (the costs of which in each case, shall be reimbursable to the Trustee pursuant to Section 6.7 hereof).

(d) The Trustee shall execute and deliver an appropriate instrument of conveyance transferring its interest in any portion of the Trust Estate in connection with a Sale thereof. In addition, the Trustee is hereby irrevocably appointed the agent and attorney-in-fact of the Issuer to transfer and convey its interest in any portion of the Trust Estate in connection with a Sale thereof and to take all action necessary to effect such Sale. No purchaser or transferee at such a Sale shall be bound to ascertain the Trustee's authority, inquire into the satisfaction of any conditions precedent or see to the application of any monies.

#### Section 5.19. Action on Notes.

The Trustee's right to seek and recover judgment on the Notes or under this Indenture shall not be affected by the seeking or obtaining of or application for any other relief under or with respect to this Indenture. Neither the lien of this Indenture nor any rights or remedies of the Trustee or the Noteholders hereunder shall be impaired by the recovery of any judgment by the Trustee.

### ARTICLE VI

#### THE TRUSTEE

#### Section 6.1. Certain Duties and Responsibilities.

(a) Except during the continuance of an Event of Default (other than a Trustee Payment-Related Event of Default):

(1) the Trustee undertakes to perform such duties and only such duties as are specifically set forth in this Indenture, and no implied covenants or obligations shall be read into this Indenture against the Trustee; and

(2) in the absence of bad faith on its part, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates or opinions furnished to the Trustee and conforming to the

requirements of this Indenture; *provided that* in the case of any such certificates or opinions which by any provision hereof are specifically required to be furnished to the Trustee, the Trustee shall be under a duty to examine the same to determine whether or not they conform on their face to the requirements of this Indenture and shall promptly notify the party delivering the same if such certificate or opinion does not so conform. If a corrected certificate or opinion shall not have been delivered to the Trustee within 15 days after such notice from the Trustee, the Trustee shall so notify the Noteholders.

(b) In case an Event of Default (other than a Trustee Payment-Related Event of Default) of which the Trustee has actual knowledge has occurred and is continuing, the Trustee shall, prior to the receipt of directions, if any, from the Requisite Noteholders, exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs.

(c) No provision of this Indenture shall be construed to relieve the Trustee from liability for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:

(1) this subsection shall not be construed to limit the effect of subsection (a) of this Section;

(2) the Trustee shall not be liable for any error of judgment made in good faith by a Responsible Officer, unless it shall be proven that the Trustee was negligent in ascertaining the pertinent facts;

(4) no provision of this Indenture shall require the Trustee to expend or risk its own funds or incur any extraordinary financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers, if it shall have reasonable grounds for believing that repayment of such funds or indemnity satisfactory to it against such risk or liability is not reasonably assured to it (provided that the unsecured agreement of any Noteholder that is an Institutional Investor organized under the laws of the United States or any State in the United States shall constitute adequate assurance with respect to repayment and indemnity; *provided that* the aggregate net worth of the Institutional Investors providing such unsecured agreements shall be not less than \$200,000,000); *provided that* the reasonable costs of performing its ordinary services under this Indenture shall not be deemed an "extraordinary financial liability" for purposes hereof; and

(5) the Trustee shall not be liable to the Noteholders for any action taken or omitted by it at the direction of the Issuer, the Servicer and/or the Holders of the

Notes under circumstances in which such direction is required or permitted by the terms of this Indenture.

(d) Whether or not therein expressly so provided, every provision of this Indenture relating to the conduct or affecting the liability of or affording protection to the Trustee shall be subject to the provisions of this Section 6.1 and Section 6.3 hereof.

(e) The Trustee, promptly after receipt by a Responsible Officer, shall transmit by first class mail all Holders of Notes, as their names and addresses appear on the Note Register, all written communications that are required hereunder to be delivered to the Trustee and are received from or on behalf of the Issuer or the Servicer (excluding in the case of the Holders (i) information provided by the Trustee to the Issuer pursuant to Section 10.4 hereof, (ii) so long as no Event of Default (other than a Trustee Payment-Related Event of Default) has occurred and is continuing, Servicer Orders received by the Trustee pursuant to Sections 10.2, 11.3 and 12.4 hereof, and (iii) Monthly Reports received pursuant to Section 10.5(a) hereof, unless, in any such case, requested by any Holder) and any notification or other communication received from any of the Rating Agencies stating that the rating of any Class of Notes has been, or will be, changed or withdrawn.

#### Section 6.2. [Notice of Default.](#)

Promptly (and in no event later than 5 Business Days) after the occurrence of any Default or Event of Default of which a Responsible Officer of the Trustee has actual knowledge or after any declaration of acceleration has been made by or delivered to the Trustee pursuant to Section 5.2 hereof, the Trustee shall transmit by mail to the Rating Agencies, to all Holders of Notes, as their names and addresses appear on the Note Register, and to the Issuer and the Servicer, notice of all Defaults or Events of Default hereunder of which a Responsible Officer of the Trustee has actual knowledge, unless such Default or Event of Default shall have been cured or waived.

#### Section 6.3. [Certain Rights of Trustee.](#)

Except as otherwise provided in Section 6.1 hereof:

(a) the Trustee may rely and shall be protected in acting or refraining from acting upon any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, note or other paper or document (including but not limited to any reports prepared and delivered under Article X hereunder) believed by it in good faith to be genuine and to have been signed or presented by the proper party or parties;

(b) any request or direction of the Servicer mentioned herein shall be sufficiently evidenced by a Servicer Request or Servicer Order, as the context may require;

(c) whenever in the administration of this Indenture the Trustee shall (i) deem it desirable that a matter be proved or established prior to taking, suffering or omitting any action hereunder, the Trustee (unless other evidence be herein specifically prescribed) may, in the absence of bad faith on its part, rely upon an Officer's Certificate or (ii) be required to determine the value of any Collateral or funds hereunder or the cash flows projected to be received

therefrom, the Trustee may, in the absence of bad faith on its part, rely on reports of nationally recognized accounting firms or other persons qualified to provide the information required to make such determination including nationally recognized dealers in securities of the type being valued and securities quotation services;

(d) as a condition to the taking or omitting of any action by it hereunder, the Trustee may consult with counsel and the advice of such counsel or any Opinion of Counsel shall be full and complete authorization and protection in respect of any action taken or omitted by it hereunder in good faith and in reliance thereon;

(e) the Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any of the Noteholders pursuant to this Indenture unless such Noteholders shall have offered to the Trustee security reasonably satisfactory to it or indemnity against all costs, expenses and liabilities which might reasonably be incurred by it in compliance with such request or direction (an unsecured indemnity agreement of an Institutional Investor organized under the laws of the United States or any state in the United States shall be deemed sufficient; *provided that* the aggregate net worth of the Institutional Investors providing such unsecured agreements shall not be less than \$200,000,000);

(h) to the extent permitted by applicable law, the Trustee shall not be required to give any bond or surety in respect of the execution of this Indenture or otherwise;

(i) the Trustee shall not be deemed to have notice or knowledge of any matter unless a Responsible Officer within the Corporate Trust Office has actual knowledge thereof or unless written notice thereof is received by the Trustee at the Corporate Trust Office and such notice references the Notes generally, the Issuer or this Indenture. Whenever reference is made in this Indenture to a Default or an Event of Default such reference shall, insofar as determining any liability on the part of the Trustee is concerned, be construed to refer only to a Default or an Event of Default of which the Trustee is deemed to have knowledge in accordance with this paragraph;

(j) the permissive right of the Trustee to take or refrain from taking any actions enumerated in this Indenture shall not be construed as a duty;

(n) the Trustee will not be liable for the actions or omissions of the Servicer, and without limiting the foregoing, the Trustee will not be under any obligation to monitor, evaluate or verify compliance by the Servicer with the terms hereof or the Servicing Agreement, or to verify or independently determine the accuracy of the information received by it from the Servicer (or from any selling institution, agent, bank, trustee or similar source) with respect to the Portfolio Collateral.

#### Section 6.4. [Not Responsible for Recitals or Issuance of Notes.](#)

No appointment of a successor Trustee shall become effective until the date ten days after notice of such appointment has been given to each Noteholder, and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent.

Section 6.11. [Merger, Conversion, Consolidation or Succession to Business of Trustee.](#)

Any corporation into which the Trustee may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, conversion or consolidation to which the Trustee shall be a party, or any corporation succeeding to all or substantially all of the corporate trust business of the Trustee, shall be the successor of the Trustee hereunder; *provided* such corporation shall be otherwise qualified and eligible under this Article, without the execution or filing of any paper or any further act on the part of any of the parties hereto. In case any Notes have been authenticated, but not delivered, by the Trustee then in office, any successor by merger, conversion or consolidation to such authenticating Trustee may adopt such authentication and deliver the Notes so authenticated with the same effect as if such successor Trustee had itself authenticated such Notes.

Section 6.12. [Certain Duties of Trustee Related to Delayed Payment of Proceeds.](#)

If in any month the Trustee shall not have received a payment with respect to any Pledged Security on its Due Date, (a) the Trustee shall promptly notify the Issuer and the Servicer in writing and, (b) unless within three Business Days after such notice such payment

shall have been received by the Trustee, or the Issuer shall have made provision for such payment satisfactory to the Trustee in accordance with Section 10.2(a) hereof, the Trustee shall request the issuer of such Pledged Security, the trustee under the related Underlying Instrument or paying agent designated by either of them, as the case may be, to make such payment as soon as practicable after such request but in no event later than three Business Days after the date of such request. If such payment is not made within such time period, the Trustee shall take such action as the Servicer shall direct in writing; *provided that* any expenses incurred or to be incurred in taking any such action shall be deemed to be an "extraordinary financial liability" under clause (4) of Section 6.1(c) hereof. Any such action shall be without prejudice to any right to claim a Default or Event of Default under this Indenture. In the event that the Issuer or the Servicer requests a release of a Pledged Security and/or delivers Substitute Portfolio Collateral in connection with any such action under the Servicing Agreement, such release and/or substitution shall be subject to Section 10.3 hereof and Article XII of this Indenture as the case may be. Notwithstanding any other provision hereof the Trustee shall deliver to the Issuer or its designee any payment with respect to any Pledged Security received after the Due Date thereof to the extent the Issuer previously made provisions for such payment satisfactory to the Trustee in accordance with this Section 6.12 and such payment shall not be deemed part of the Trust Estate.

#### Section 6.13. Non-Petition.

None of the Trustee, the Secured Parties, the Noteholders or the Paying and Transfer Agent, shall cause or join in the filing of a petition in bankruptcy against the Issuer or the Co-Issuer for any reason, including for the nonpayment to any such party of any amounts due hereunder or under the Paying and Transfer Agency Agreement or under the Notes, as applicable, until the expiration of the period which is one year and one day (or such longer preference period as may be in effect) after the final payment on the Notes; *provided, however*, nothing herein shall be deemed to prohibit the Trustee from filing proofs of claim for itself and on behalf of the Noteholders.

#### Section 6.14. Withholding.

(a) If any withholding tax is imposed on the Co-Issuers' payment (or allocations of income) to any Noteholder, such tax shall reduce the amount otherwise distributable to such Noteholder. The Trustee is hereby authorized and directed to retain from amounts otherwise distributable to any Noteholder sufficient funds for the payment of any tax that is legally owed by the Trust Estate or the Co-Issuers (as directed to it in writing by the Co-Issuers) (but such authorization shall not prevent the Trustee from contesting any such tax in appropriate Proceedings and withholding payment of such tax, if permitted by law, pending the outcome of such Proceedings), or that the Trustee may otherwise determine it is obligated to withhold under applicable law or regulation. The amount of any withholding tax imposed with respect to any Noteholder shall be treated as cash distributed to such Noteholder at the time it is withheld by the Trustee and remitted to the appropriate taxing authority. If there is a possibility that withholding tax is payable with respect to a distribution, the Trustee may in its sole discretion withhold such amounts in accordance with this Section 6.14 (a). If any Noteholder wishes to apply for a refund of any such withholding tax, the Trustee shall reasonably cooperate with such Noteholder in making such claim so long as such Noteholder agrees to reimburse the Trustee for any out-of-pocket expenses incurred. Nothing in this Section 6.14 shall be construed to impose upon the

Trustee any obligation or duty to determine the tax liability or responsibilities of the Co-Issuers or the Trust Estate other than the duties required under applicable law, or otherwise to perform any related tax administration or return preparation or filing responsibilities, or to impose upon the Trustee any duty or obligation to commence Proceedings to contest any tax.

(b) In order to receive payments on its Note free of U.S. federal withholding and backup withholding tax, each Holder shall timely furnish the Issuer or its agents any U.S. federal income tax form or certification (such as Internal Revenue Service ("IRS") Form W-8BEN (Certification of Foreign Status), Form W-8IMY (Certification of Foreign Intermediary Status), Form W-9 (Request for Taxpayer Identification Number and Certification) or Form W-8ECI (Certification of Foreign Person's Claim for Exemption from Withholding on Income Effectively Connected with Conduct of a U.S. Trade or Business) or any successors to such IRS forms) that the Issuer or its agents may reasonably request and shall update or replace such form or certification in accordance with its terms or its subsequent amendments.

#### Section 6.15. The Securities Intermediary.

(a) There shall at all times be one or more securities intermediaries appointed for purposes of this Indenture (the "Securities Intermediary"). JPMorgan Chase Bank, National Association, is hereby appointed as the initial Securities Intermediary hereunder (in such capacity, "JPMorgan Chase"), and JPMorgan Chase accepts such appointment.

(b) The Securities Intermediary shall be, and JPMorgan Chase as initial Securities Intermediary hereby represents and warrants that it is as of the date hereof and shall be, for so long as it is the Securities Intermediary hereunder, a corporation or national bank that in the ordinary course of its business maintains securities accounts for others and is acting in that capacity hereunder. The Securities Intermediary shall, and JPMorgan Chase as initial Securities Intermediary does, agree with the parties hereto that each Account shall be an account to which financial assets may be credited and undertake to treat the Trustee as entitled to exercise the rights that comprise such financial assets. The Securities Intermediary shall, and JPMorgan Chase as initial Securities Intermediary does, agree with the parties hereto that each item of property credited to each Account shall be treated as a financial asset. The Securities Intermediary shall, and JPMorgan Chase as initial Securities Intermediary does, agree with the parties hereto that, for purposes of the UCC and the United States Regulations, the securities intermediary's jurisdiction of the Securities Intermediary with respect to the Trust Estate shall be the State of New York. The Securities Intermediary shall, and JPMorgan Chase as initial Securities Intermediary does, represent and covenant that it is not and will not be (as long as it is the Securities Intermediary hereunder) a party to any agreement that is inconsistent with the provisions of this Indenture. The Securities Intermediary shall, and JPMorgan Chase as initial Securities Intermediary does, covenant that it will not take any action inconsistent with the provisions of this Indenture applicable to it. The Securities Intermediary shall, and JPMorgan Chase as initial Securities Intermediary does, agree that any item of property credited to any Account shall not be subject to any security interest, lien, encumbrance or right of setoff in favor of the Securities Intermediary or anyone claiming through the Securities Intermediary (other than the Trustee).

(c) It is the intent of the Trustee and the Co-Issuers that each Account shall be a securities account of the Trustee and not an account of the Co-Issuers. Nonetheless, the Securities Intermediary shall agree to comply with entitlement orders originated by the Trustee without further consent by the Co-Issuers or any other person or entity, and JPMorgan Chase as initial Securities Intermediary agrees that, for so long as it is the Securities Intermediary hereunder, it will comply with entitlement orders originated by the Trustee without further consent by the Co-Issuers or any other person or entity. The Securities Intermediary shall covenant that it will not agree with any person or entity other than the Trustee that it will comply with entitlement orders originated by any person or entity other than the Trustee, and JPMorgan Chase as initial Securities Intermediary hereby covenants that, for so long as it is the Securities Intermediary hereunder, it will not agree with any person or entity other than the Trustee that it will comply with entitlement orders originated by any person or entity other than the Trustee.

(d) Nothing herein shall imply or impose upon the Securities Intermediary any duties or obligations other than those expressly set forth herein and those applicable to a securities intermediary under the UCC and the United States Regulations (and the Securities Intermediary shall be entitled to all of the protections available to a securities intermediary under the UCC and the United States Regulations). Without limiting the foregoing, nothing herein shall imply or impose upon the Securities Intermediary any duties of a fiduciary nature (such as, without limitation, the fiduciary duties of the Trustee hereunder).

(e) The Securities Intermediary may at any time resign by notice to the Trustee and may at any time be removed by notice from the Trustee; *provided however* that it shall be the responsibility of the Trustee to appoint a successor Securities Intermediary and to cause the Accounts to be established and maintained with such successor Securities Intermediary in accordance with the terms hereof; and the responsibilities and duties of the retiring Securities Intermediary hereunder shall remain in effect until all of the Trust Estate credited to the Accounts held by such retiring Securities Intermediary have been transferred to such successor. Any corporation into which the Securities Intermediary may be merged or converted or with which it may be consolidated, or any corporation resulting from any merger, consolidation or conversion to which the Securities Intermediary shall be a party, shall be the successor of the Securities Intermediary hereunder, without the execution or filing of any further act on the part of the parties hereto or such Securities Intermediary or such successor corporation.

#### Section 6.16. Eligible Investments.

Eligible Investments acquired with available funds in an Account shall be credited by the Trustee to such Account.

#### Section 6.17. Fiduciary For Noteholders; Agent for the Other Secured Parties.

With respect to the security interest created hereunder, the Delivery of any item of Collateral to the Trustee is to the Trustee as representative of the Noteholders and agent for the other Secured Parties. In furtherance of the foregoing, the possession by the Trustee of any item of Collateral, the indorsement to or registration in the name of the Trustee of any item of Collateral and the status of the Trustee as entitlement holder with respect to the Accounts are all undertaken by the Trustee in its capacity as representative of the Noteholders and agent for the

other Secured Parties. The Trustee shall not by reason of this Indenture be deemed to be acting as a fiduciary for the Secured Parties other than the Noteholders; *provided that* the foregoing shall not limit any of the express obligations of the Trustee under this Indenture.

## ARTICLE VII

### COVENANTS

#### Section 7.1. Payment of Principal and Interest.

The Co-Issuers (as applicable) will duly and punctually pay the principal of, interest on and all other amounts payable on or in respect of the Notes in accordance with the terms of the Notes and this Indenture.

#### Section 7.2. Maintenance of Office or Agency.

The Trustee will maintain an office or agency in the Borough of Manhattan, the City of New York, the State of New York, where Notes may be presented or surrendered for payment. The Trustee hereby initially appoints the office of JPMorgan Chase Bank, National Association (the "New York Presenting Agent"), currently located at JPMorgan Chase Bank, 4 New York Plaza, ground floor, New York, New York 10004, Attention: WSS Window – WSS (Houston)—Rockwall CDO, as such office or agency. The Trustee shall give prompt written notice to the Co-Issuers and the Noteholders of any change in the location of the New York Presenting Agent. If the location of the New York Presenting Agent changes and such notice is not given or the Trustee fails to maintain any such office or agency, presentations and surrenders of the Notes may be made or served at the Corporate Trust Office.

#### Section 7.3. Money for Note Payments to Be Held in Trust.

All payments of amounts due and payable with respect to any Notes that are to be made from amounts withdrawn from the Collection Account shall be made on behalf of the Issuer by the Trustee.

#### Section 7.4. Existence of Co-Issuers; Corporate Formalities.

(a) Each of the Co-Issuers will, to the maximum extent permitted by applicable law, maintain in full force and effect its existence, rights and franchises as a company or corporation incorporated or organized under the laws of the jurisdiction of its incorporation or organization, as the case may be, and will obtain and preserve its qualification to do business as a foreign corporation in each jurisdiction in which such qualification is or shall be necessary to protect the validity and enforceability of this Indenture, the Notes or any of the Pledged Securities or other property included in the Trust Estate. Each of the Co-Issuers shall comply with its charter documents and shall not amend its charter documents without the consent of the Requisite Noteholders if such amendment would have a material adverse effect on the rights of the Noteholders and, for so long as any Notes are then rated, shall notify the Rating Agencies of any amendment and shall not amend its charter document in any material way without satisfaction of the Rating Condition.

(b) The Issuer shall ensure that all corporate or other formalities regarding its existence (including, to the extent required, holding, to the extent required, regular meetings of the board of directors and shareholders) are followed. The Issuer shall not take any action, or conduct its affairs in a manner, that is likely to result in its separate existence being ignored or its assets and liabilities being substantively consolidated with any other Person in a bankruptcy, reorganization or other insolvency proceeding. Without limiting the foregoing, (i) the Issuer shall not have any subsidiaries except the Co-Issuer, and (ii) the Issuer shall not (A) have any employees (other than its directors), (B) engage in any transaction with any shareholder that would constitute a conflict of interest, *provided, however, that* the entry into the Administration Agreement and the Paying and Transfer Agency Agreement with Maples Finance Limited shall not be deemed a conflict of interest or (C) pay dividends other than in accordance with the terms of this Indenture, its organizational documents, and with regard to its Preferred Shares, in accordance with the terms of the Paying and Transfer Agency Agreement.

Section 7.5. Protection of Trust Estate.

(a) The Issuer shall authorize, execute, deliver and file all such supplements and amendments hereto and all such financing statements, amendments of financing statements, continuation statements, instruments of further assurance and other instruments and shall take such other action as may be necessary or advisable to:

- (i) Grant more effectively all or any portion of the Trust Estate;
- (ii) maintain or preserve the lien of this Indenture or to carry out more effectively the purposes hereof;
- (iii) perfect, publish notice of, or protect the validity of any Grant made or to be made by this Indenture;
- (iv) enforce any of the Pledged Securities or other instruments or property included in the Trust Estate;
- (v) preserve and defend title to the Trust Estate and the rights therein of the Secured Parties against the claims of all other Persons; and
- (vi) pay any and all taxes levied or assessed upon all or any part of the Trust Estate.

The Issuer hereby authorizes the filing of financing statements (and amendments of financing statements and continuation statements) that name the Issuer as debtor and the Trustee as secured party and that cover all personal property of the Issuer. The Issuer also hereby ratifies the filing of any such financing statements (or amendments of financing statements or continuation statements) that were filed prior to the execution hereof. The Issuer hereby designates the Trustee its agent and attorney-in-fact to take any action or authorize or execute any financing statement, amendment of financing statement, continuation statement or other instrument required pursuant to this Section 7.5; *provided that* such appointment shall not impose upon the Trustee any of the Issuer's obligations under this Section 7.5.

The Trustee shall give written notice to the Issuer, the Servicer and the legal counsel who rendered the most recent Opinion of Counsel received by the Trustee under Section 7.6(a) of the pending expiration of the financing statement filed in connection with the closing of the transaction contemplated herein and any continuation statement relating thereto, no earlier than six months prior to the scheduled expiration date of such financing statement or continuation statement, as applicable, and no later than two months prior to such scheduled expiration date.

(b) The Trustee shall not, except in accordance with the provisions of this Indenture, release any portion of the Trust Estate from the security interest and lien hereunder or remove any portion of the Trust Estate from the jurisdictions indicated in Section 10.3(a) hereof; *provided that* the Trustee shall be entitled to remove the Trust Estate or any portion thereof to a jurisdiction other than the applicable jurisdiction or jurisdictions indicated in Section 10.3(a) hereof if the Trustee shall have first obtained an Opinion of Counsel, at its own expense, to the effect that the lien and security interest created by this Indenture with respect to such property, including the perfection and priority thereof, will continue to be maintained after giving effect to such action, and *provided further that* the Trustee shall thereafter (for so long as such property continues to be so located in such other jurisdiction) obtain at its own expense an annual Opinion of Counsel, on or before the date specified in Section 7.6(a) hereof, confirming the matters required by such Section to the extent governed by the law of such other jurisdiction.

(c) The Issuer shall pay or cause to be paid taxes, if any, levied on account of the beneficial ownership by the Issuer of any Pledged Securities.

(d) The Issuer hereby represents and warrants that its registered office is, and always has been, in the Cayman Islands; it has never had any offices in the United States of America, and the only offices of any type it has ever had have been in the Cayman Islands.

#### Section 7.6. Opinions and Tax Certificates.

(a) On or before May 31 in each calendar year, commencing in 2007, the Issuer shall cause to be delivered to the Trustee an Opinion of Counsel (and the Trustee shall deliver copies of such to the Servicer and the Rating Agencies), stating that, in the opinion of such counsel, as of the date of such opinion, the Indenture creates in favor of the Trustee a security interest in the Trust Estate and that such security interest is perfected.

(b) If required to prevent the withholding and imposition of United States income tax, the Issuer shall deliver or cause to be delivered (as applicable) a United States Internal Revenue Service Form W-8BEN or W-8IMY (with applicable supporting documentation), or any successor forms thereto, to each issuer of any Portfolio Collateral and each issuer of an Eligible Investment in the Trust Estate at the time such Portfolio Collateral or Eligible Investment is purchased by the Issuer and annually thereafter.

(c) The Issuer will elect to be treated as a partnership for U.S. federal income tax purposes. In the event that the Issuer is treated as a corporation, the Issuer will take all actions necessary in order to permit any holder of a Preferred Share, any holder of equity in the Issuer or any Holder of a Note or other security that is or may reasonably be characterized as an equity

interest in the Issuer for United States federal income tax purposes to make a "qualified electing fund" election for United States federal income tax purposes and to satisfy the ongoing requirements with respect to such an election. Further, in such event, the Issuer will provide, upon the reasonable request of any holder of a Preferred Share, any holder of equity in the Issuer or any such Holder of a Note, any information the Issuer has available to it that assists such holders with regard to filing requirements such holders may have as a result of the controlled foreign corporation rules under the Code.

(d) The Issuer will not take the position that it is engaged in a United States trade or business for federal income tax purposes.

#### Section 7.7. [Performance of Obligations.](#)

(a) The Co-Issuers shall not take any action, and, where applicable, will not consent to any action proposed to be taken by others, that would release any Person from any of such Person's covenants or obligations under any instrument included in the Trust Estate, except in the case of enforcement action taken with respect to any Defaulted Portfolio Collateral in accordance with the provisions hereof and as otherwise required hereby.

(b) The Co-Issuers may contract with other Persons, including JPMorgan Chase Bank, National Association, and the Servicer, for the performance by such Persons of the Issuer's obligations hereunder and under the Servicing Agreement. Notwithstanding any such arrangement, the Issuer shall remain primarily liable with respect thereto. With respect to any such contract, the performance of such obligations by such Persons shall be deemed to be performance of such obligations by the Issuer.

#### Section 7.8. [Negative Covenants.](#)

(a) The Issuer will not:

(1) sell, transfer, exchange or otherwise dispose of, or pledge, mortgage, hypothecate or otherwise encumber (or permit such to occur or suffer such to exist), any part of the Trust Estate, except as expressly permitted by this Indenture and the Servicing Agreement;

(2) claim any credit on, or make any deduction from, the amount payable with respect to the Notes other than amounts withheld pursuant to Section 6.14 hereof, or assert any claim against any present or future Noteholder, by reason of the payment of any taxes levied or assessed upon any part of the Trust Estate;

(3) incur or assume any indebtedness other than pursuant to this Indenture or the Paying and Transfer Agency Agreement, or incur, assume or guaranty the indebtedness of any Person, issue any additional class of securities or issue any additional shares, shares of stock or membership interests;

(4) (A) permit the validity or effectiveness of this Indenture or any Grant hereunder to be impaired, or permit the lien of this Indenture to be amended, hypothecated, subordinated, terminated or discharged, or permit any Person to be released from

any covenants or obligations with respect to this Indenture or the Notes, except, in each case, as may be expressly permitted hereby, thereby, or by the Servicing Agreement, (B) permit any lien, charge, adverse claim, security interest, mortgage or other encumbrance (other than the lien of this Indenture) to be created on or extend to or otherwise arise upon or burden the Trust Estate or any part thereof, any interest therein or the proceeds thereof except as may be expressly permitted hereby, or (C) take any action that would permit the lien of this Indenture not to constitute a valid first priority perfected security interest in the Trust Estate except as may be expressly permitted hereby;

(5) act as agent, negotiator or structurer with respect to any Portfolio Collateral, act as a participant in negotiating the terms of a primary loan agreement, except to the extent provided in the Servicing Agreement, enter into a binding commitment to purchase any Portfolio Collateral prior to the issuance of such Portfolio Collateral or engage in any transaction or activity that would cause the Issuer to be treated as engaged in a trade or business in the United States within the meaning of section 864 of the Code;

(6) change its name or its type or jurisdiction of organization unless it has first (i) made all filings and taken all actions in all relevant jurisdictions under the applicable Uniform Commercial Code and other applicable law as are necessary to continue and maintain the priority and perfection of the security interest of the Trustee in the Trust Estate, and (ii) delivered to the Trustee an Opinion of Counsel to the effect that all necessary filings have been made under the applicable Uniform Commercial Code in all relevant jurisdictions as are necessary to continue and maintain the priority and perfection of the security interest of the Trustee in the Trust Estate;

(7) enter into any agreements or amendments thereto unless such agreements and any amendments thereto contain "non-petition" and "limited recourse" provisions, except with respect to any agreements involving the purchase and sale of Portfolio Collateral having customary purchase or sale terms and documented with customary trading documentation;

(9) commingle any of the Collateral with the assets of any other Person, except as expressly permitted by this Indenture and the Servicing Agreement.

(b) The Co-Issuer will not enter into any agreement, contract or indenture other than this Indenture and shall not incur or assume any indebtedness other than pursuant to or as may be expressly permitted by this Indenture, or incur, assume or guaranty the indebtedness of any Person.

(c) The Trustee shall not sell, transfer, exchange or otherwise dispose of, or enter into or engage in any business with respect to, any part of the Trust Estate, except as expressly permitted by this Indenture or the Servicing Agreement.

(d) Neither of the Co-Issuers shall to the maximum extent permitted by applicable law (i) commence any case, proceeding or other action under any existing or future law of any jurisdiction, domestic or foreign, relating to bankruptcy, insolvency, reorganization or relief of debtors, seeking to have any order for relief entered with respect to it, or seeking reorganization, arrangement, adjustment, winding-up, liquidation, dissolution, composition or other relief with respect to it or its debts, or (ii) seek appointment of a receiver, trustee, custodian or other similar official for it or for all or any substantial part of its assets, or make a general assignment for the benefit of its creditors; neither of the Co-Issuers shall take any action in furtherance of, or indicating its consent to, approval of, or acquiescence in, any of the acts set forth above; and each of the Co-Issuers shall generally pay debts as they become due and not admit in writing its inability to pay its debts as they become due.

(e) Except as permitted by Section 8.2 hereof, the Issuer shall not waive nor permit the amendment of Section 19 or Section 20 of the Servicing Agreement or Section 20 of the Paying and Transfer Agency Agreement.

(1) a review of the activities of the Issuer during such year and of the Issuer's performance under this Indenture has been made under his or her supervision; and

(2) to the best of his or her knowledge, based on such review, the Issuer has fulfilled all of its obligations under this Indenture throughout such year, or, if there has been a Default hereunder, specifying each such Default known to him or her and the nature and status thereof, including any actions taken to remedy the same.

Section 7.10. [Issuer and Co-Issuer May Not Consolidate or Merge.](#)

Neither the Issuer nor the Co-Issuer shall engage in any business or activity other than (i) the issuance and redemption of the Notes and the Preferred Shares, the issuance and redemption of its ordinary shares, and acquiring, owning, managing, holding and pledging the Pledged Securities and any other instrument or property included in the Trust Estate and (ii) engaging in any other activities that are necessary, suitable or convenient to accomplish the foregoing or are incidental thereto or connected therewith.

Section 7.12. [Purchase of Notes.](#)

Notwithstanding anything contained in this Indenture to the contrary, the Issuer may acquire Notes in open market or privately negotiated transactions or otherwise (and the Issuer shall give prompt written notice thereof to the Trustee): *provided that* so long as any Class A Notes are Outstanding, the Issuer shall not acquire any Class B-1L Notes. Any Notes acquired by the Issuer shall be delivered to the Trustee for cancellation.

Section 7.13. [Notice of Rating.](#)

Notwithstanding anything to the contrary contained herein, the failure by the Issuer to maintain a rating of each Class of the Class A Notes and the Class B-1L Notes shall not constitute a Default or an Event of Default.

(b) The Issuer shall promptly notify the Trustee in writing (and the Trustee shall promptly notify the Noteholders and the Servicer) if at any time the rating of any Class of Notes has been, or the Issuer knows will be, changed or withdrawn.

Section 7.14. [Process Agent.](#)

#### Section 7.16. [Representations and Warranties of the Co-Issuers.](#)

Each of the Co-Issuers represents and warrants to the Trustee with respect to itself, as of the Closing Date that:

(a) Such Co-Issuer is a corporation duly incorporated or organized, as the case may be, validly existing and in good standing under the laws of the jurisdiction of its incorporation and in each jurisdiction where the conduct of its business requires such license, qualification or good standing, except where the failure to be so licensed or qualified or in good standing would not adversely affect the validity or enforceability of this Indenture or the other Transaction Documents to which it is a party, or the ability of such Co-Issuer to perform its obligations hereunder or thereunder.

(b) Such Co-Issuer has the power and authority to execute and deliver the Transaction Documents and all other documents and agreements contemplated hereby and thereby to which it is a party, as well as to carry out the terms hereof and thereof.

(c) Such Co-Issuer has taken all necessary action, including but not limited to all requisite corporate action, to authorize the execution, delivery and performance of the Transaction Documents and all other documents and agreements contemplated hereby and thereby to which it is a party. When executed and delivered by such Co-Issuer and the other parties thereto, each of the Transaction Documents will constitute the legal, valid and binding obligation of such Co-Issuer enforceable in accordance with its terms subject, as to enforcement, to applicable bankruptcy, insolvency, reorganization, moratorium or other similar laws now or hereafter in effect affecting the enforcement of creditors' rights in general, and except as such enforceability may be limited by general principles of equity (whether considered in a suit at law or in equity) and to the payment of stamp duty.

(d) All authorizations, licenses, permits, certificates, franchises, consents, approvals and undertakings which are required to be obtained by such Co-Issuer under any applicable law which are material to (i) the conduct of its business, (ii) the ownership, use, operation or maintenance of its properties and (iii) the performance by such Co-Issuer of its obligations under or in connection with the Transaction Documents, the Notes and the Preferred Shares have been received and all such authorizations, licenses, permits, certificates, franchises, consents, approvals and undertakings are in full force and effect.

(e) The execution, issuance and delivery of, and performance by such Co-Issuer of its respective obligations under the Transaction Documents and any and all instruments or documents required to be executed or delivered pursuant to or in connection herewith or therewith were and are within the powers of such Co-Issuer and will not violate any provision of any law, regulation, decree or governmental authorization applicable to such Co-Issuer, or its charter or by-laws or other organizational documents and will not violate or cause a default under any provision of any contract, agreement, mortgage, indenture or other undertaking to which such Co-Issuer is a party or which is binding upon such Co-Issuer or any of its property or assets, and will not result in the imposition or creation of any lien, charge, or encumbrance upon any of its properties or assets of such Co-Issuer pursuant to the provisions of any such contract, agreement, mortgage, indenture or undertaking, other than as specifically set forth herein.

(f) There are no legal, governmental or regulatory Proceedings pending to which such Co-Issuer is a party or of which any of its property is the subject, which if determined adversely to such Co-Issuer would individually or in the aggregate have a material adverse effect on the performance by such Co-Issuer of the Transaction Documents or the consummation of the transactions contemplated hereunder or thereunder; and to the best of its knowledge, no such Proceedings are threatened or contemplated.

(g) Neither the Notes nor the Preferred Shares are required to be registered pursuant to the Securities Act, such Co-Issuer is not required to be registered as an investment company pursuant to the Investment Company Act, and the Indenture is not required to be qualified under the Trust Indenture Act of 1939, as amended.

(h) Except with respect to amounts owed under the Notes and the Preferred Shares and liabilities incurred in connection with the issuance of the Notes, the Preferred Shares and the Transaction Documents, such Co-Issuer has not incurred any indebtedness for borrowed money or any other material liabilities.

(i) The Issuer has no subsidiaries other than the Co-Issuer.

(j) The Issuer is not a securities intermediary, broker, or commodity intermediary as defined in the UCC, or a Participant as defined in the United States Regulations.

Section 7.17. [Representations Relating to the Security Interests in the Collateral.](#)

(a) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral:

(i) The Issuer owns and has good and marketable title to such Collateral free and clear of any lien, claim or encumbrance of any person, other than such as are created under, or expressly permitted by, this Indenture.

(ii) Other than the security interest granted to the Trustee pursuant to this Indenture and conveyances permitted by this Indenture, the Issuer has not pledged, assigned, sold, granted a security interest in, or otherwise conveyed such Collateral. The Issuer has not authorized the filing of and is not aware of any financing statements against the Issuer that include a description of collateral covering such Collateral other than any financing statement relating to the security interest granted to the Trustee hereunder or that has been terminated. The Issuer is not aware of any judgment, Pension Benefit Guaranty Corporation or tax lien filings against the Issuer.

(iii) Such Collateral is comprised of "instruments", "security entitlements", "general intangibles", "tangible chattel paper", "deposit accounts", "accounts", "certificated securities", "uncertificated securities" or "securities accounts" (each as defined in the applicable Uniform Commercial Code).

(iv) All Accounts constitute "securities accounts" as defined in the applicable Uniform Commercial Code.

(v) This Indenture creates a valid and continuing security interest (as defined in the applicable Uniform Commercial Code) in such Collateral in favor of the Trustee, which security interest is prior to all other liens and is enforceable as such against creditors of and purchasers from the Issuer except as expressly permitted under this Indenture.

(vi) The Issuer has received all consents and approvals required by the terms of such Collateral to the transfer to the Trustee of its interest and rights in such Collateral hereunder.

(b) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing

Collateral that constitutes "securities accounts", the Indenture creates a valid and continuing security interest (as defined in the applicable Uniform Commercial Code) in the Accounts in favor of the Trustee, which security interest is perfected by control (as defined in the applicable Uniform Commercial Code) because the Trustee has control of each security entitlement carried in each Account.

(c) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral that constitute "instruments":

(i) All original executed copies of each promissory note or mortgage note that constitutes or evidences such instruments have been delivered to the Trustee and (ii) none of the promissory notes or the mortgage notes that constitute or evidence such instruments has any marks or notations indicating that it has been pledged, assigned or otherwise conveyed to any person other than the Trustee.

(d) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral that constitute "security entitlements":

(i) All of such security entitlements have been credited to one of the Accounts. The securities intermediary for each Account has agreed to treat all assets credited to such Account as "financial assets" within the meaning of the applicable Uniform Commercial Code.

(ii) The Issuer has taken all steps necessary to cause the securities intermediary to identify in its records the Trustee as the person having a security entitlement against the securities intermediary in each of the Accounts.

(iii) The Accounts are not in the name of any person other than the Trustee. The Issuer has not consented to the securities intermediary of any Account to comply with the entitlement order of any person other than the Trustee.

(e) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral that constitutes "general intangibles" or "accounts":

(i) The Issuer has caused or will have caused, within ten days after the Closing Date, the filing of all appropriate financing statements in the proper filing office in the appropriate jurisdictions under applicable law in order to perfect the security interest in such general intangibles or accounts granted to the Trustee hereunder.

(f) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral that constitutes "tangible chattel paper":

(i) (A) All original executed copies of each agreement that constitutes or evidences such tangible chattel paper have been delivered to the Trustee and (B) none of the agreements that constitute or evidence such tangible chattel paper has any marks or notations indicating that it has been pledged, assigned or otherwise conveyed to any person other than the Trustee.

(ii) The Issuer has taken all steps necessary to perfect the security interest against the account debtor in the property securing the agreements that constitute such tangible chattel paper.

(g) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral that constitutes "deposit accounts":

(i) The Issuer has taken all steps necessary to cause the Trustee to become the account holder of such deposit accounts.

(ii) Such deposit accounts are not in the name of any person other than the Trustee. The Issuer has not consented to the bank maintaining any such deposit account to comply with the instructions of any person other than the Trustee.

(h) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral that constitutes a certificated security, such certificated security has been delivered to the Trustee and, if in registered form, has been indorsed to the Trustee or in blank by an effective indorsement or has been registered in the name of the Trustee upon original issue or registration of transfer by the issuer of such certificated security.

(i) The Issuer hereby represents that, as of the Closing Date (which representations and warranties shall survive the execution of this Indenture and, with respect to Collateral Delivered after the Closing Date, be deemed to be repeated on the date on which such Collateral is Delivered as if made at and as of that time), with respect to the then existing Collateral that constitutes an uncertificated security, the issuer of such uncertificated security has registered the Trustee as the registered owner of such uncertificated security.

(j) None of the provisions of this Section 7.17 shall be waived without the prior written confirmation from S&P that such waiver shall not result in a reduction or withdrawal of the then-current rating of any Class of Notes.

Section 7.18. [No "Gross-up" Amounts.](#)

The Co-Issuers shall not be required to pay any "gross-up" or other additional amounts to the Holders of any Class of Notes because taxes or related amounts are required to be withheld from payments on the Notes or any payments to either of the Co-Issuers on any item of Portfolio Collateral or other assets of the Co-Issuers.

Section 7.19. [Securities Lending.](#)

(a) So long as no Event of Default is continuing and if after the completion of the transaction the limit in subsection 12.2(u) would be satisfied, the Servicer may cause Portfolio Collateral that are not Defaulted Portfolio Collateral to be lent for a term of 90 days or less to banks, broker-dealers, and other financial institutions (other than insurance companies) having long-term and short-term senior unsecured debt ratings or guarantors with ratings of at least "A1" (and not "A1" but on credit watch with negative implications) and "P-1" (and not on credit watch for possible downgrade) from Moody's and a long-term senior unsecured debt rating of at least "A+" from S&P (each, a "Securities Lending Counterparty") pursuant to one or more agreements (each, a "Securities Lending Agreement"); *provided* that Portfolio Collateral whose Market Value cannot be determined under clauses (a), (b) or (c) of that definition may not be lent pursuant to a Securities Lending Agreement; *provided, further*, that the gross income from all such transactions during any fiscal year shall not exceed 15% of the gross income of the Issuer for such fiscal year. Upon receipt of an Issuer Order, the Trustee shall release any lent Portfolio Collateral to a Securities Lending Counterparty as directed by the Servicer. The Securities Lending Counterparties may be Affiliates of the Placement Agent or Affiliates of the Servicer. The duration of any Securities Lending Agreement shall not exceed the Final Maturity Date of the Notes.

(b) Each Securities Lending Agreement shall be on market terms as determined by the Servicer (except as may be required below) and shall:

(i) require that the Securities Lending Counterparty return to the Trustee debt obligations that are identical (in terms of issue and class) to the lent items of Portfolio Collateral;

(ii) require that the Securities Lending Counterparty pay to the Trustee amounts equivalent to all interest and other payments that the owner of the lent items of Portfolio Collateral is entitled to for the period during which the Portfolio Collateral is lent and require that any such payments not be subject to withholding tax imposed by any jurisdiction unless the Securities Lending Counterparty is required under the Securities Lending Agreement to make "gross-up" payments to the Issuer that cover the full amount of the withholding tax on an after-tax basis;

(iii) require that the Rating Condition with respect to each Rating Agency shall be satisfied with respect to the execution of the Securities Lending Agreement;

(iv) satisfy any other requirements of Section 1058 of the Code and the Treasury Regulations promulgated under it;

(v) be governed by the laws of New York;

(vi) permit the Issuer to assign its rights under the Securities Lending Agreement to the Trustee pursuant to this Indenture;

(vii) provide for early termination and the delivery of any lent item of Portfolio Collateral from the Issuer with no penalty if the Portfolio Collateral becomes Credit Risk Portfolio Collateral or is subject to redemption in accordance with its terms;

(viii) provide for early termination and the delivery of any lent item of Portfolio Collateral with no penalty upon any redemption of the Notes in whole;

(ix) require the Securities Lending Counterparty to post with the Trustee collateral consisting of Cash or direct registered debt obligations of the United States of America that have a maturity date no later than the Business Day preceding the stated termination date of the Securities Lending Agreement (the "Securities Lending Collateral") to secure its obligation to return the Portfolio Collateral;

(x) provide that the Securities Lending Collateral shall be maintained at all times in an amount equal to at least 102% of the current Ask-Side Market Value (determined daily and monitored by the Servicer) of the lent Portfolio Collateral and if securities are delivered to the Trustee as security for the obligations of the Securities Lending Counterparty under the related Securities Lending Agreement, the Servicer on behalf of the Issuer will negotiate with the Securities Lending Counterparty a rate for the loan fee to be paid to the Issuer for lending the lent Collateral Obligations;

(xi) the lent Portfolio Collateral shall be marked-to-market on a daily basis by the Servicer on the basis of their Market Value;

(xii) the Collateral will include the Issuer's rights under the related Securities Lending Agreement rather than the lent Portfolio Collateral;

(xiii) provide for early termination within 10 days at the option of the Issuer and the delivery of any lent Portfolio Collateral from the Issuer with no penalty if the Securities Lending Counterparty is no longer in compliance with the requirements relating to the credit ratings of the Securities Lending Counterparty and the noncompliance is not cured as provided in this Indenture; and

(xiv) contain appropriate limited recourse and non-petition provisions that survive the termination of the agreement (to the extent the Issuer has contractual payment obligations to the Securities Lending Counterparty) equivalent (*mutatis mutandis*) to those in this Indenture.

(c) If either Moody's or S&P downgrades a Securities Lending Counterparty such that the Securities Lending Agreements to which the Securities Lending Counterparty is a party are no longer in compliance with the requirements relating to the credit ratings of the Securities Lending Counterparty, then the Servicer on behalf of the Issuer, within 10 days of the downgrade, shall

(i) terminate its Securities Lending Agreements with the Securities Lending Counterparty unless a guarantor for the Securities Lending Counterparty's obligations under the Securities Lending Agreements has been obtained; or

(ii) reduce the percentage of the Aggregate Principal Balance of the Portfolio Collateral lent to the downgraded Securities Lending Counterparty so that the Securities Lending Agreements to which the Securities Lending Counterparty is a party, together with all other Securities Lending Agreements, are in compliance with the requirements relating to the credit ratings of Securities Lending Counterparties; or

(iii) take any other steps Moody's or S&P may require to cause the Securities Lending Counterparty's obligations under the Securities Lending Agreements to which the Securities Lending Counterparty is a party to be treated by Moody's or S&P, as the case may be, as if the obligations were owed by a counterparty having a rating at least equivalent to the rating that was assigned by Moody's or S&P, as the case may be, to the downgraded Securities Lending Counterparty before its being downgraded.

(d) In connection with any such direction by the Servicer to enter into a Securities Lending Agreement, the Trustee may receive and rely on an Issuer Order to the effect that the Securities Lending Agreement, and its Securities Lending Counterparty, is each in compliance with the requirements of this Indenture (including the definition of "Securities Lending Counterparty"). The Issuer and the Trustee may enter into any Securities Lending Agreement at the instruction of the Servicer, and deliver and accept delivery and return of any Portfolio Collateral pursuant to the Securities Lending Agreement, or pursuant to instructions from the Servicer in connection with the Securities Lending Agreement. The Trustee may take any actions and exercise any rights and remedies under any Securities Lending Agreement that the Servicer instructs. The Trustee need not enter into any Securities Lending Agreement that would in its judgment, subject it to any liability, whether financial or otherwise, or cause it to incur or subject it to risk of any cost or disbursement for which it is not, in its judgment, adequately indemnified, or that would impose on it any obligations or administrative burdens that are unacceptable to it. The Servicer shall instruct the Trustee in writing with respect to the administration of any Securities Lending Agreement (including with respect to any default and the exercise of rights under it). The Trustee shall not have any responsibility for evaluating the sufficiency, validity, or acceptability of any Securities Lending Agreement or for the qualifications or eligibility of any Securities Lending Counterparty. Nothing in this Indenture shall be construed to cause the Trustee to have any fiduciary duties to any Securities Lending Counterparty.

So long as any Portfolio Collateral is on loan pursuant to a Securities Lending Agreement, (a) the Trustee shall have no liability for any failure or inability on its part to receive any information or take any action with respect to the Portfolio Collateral because of its being on loan (including any failure to take action with respect to a notice of redemption, consent solicitation, exchange or tender offer, or similar corporate action), and (b) the lent Portfolio Collateral shall not be disqualified for return to the Trustee as an item of Portfolio Collateral by any change in circumstance or status during the time while on loan (including any change that would cause the Portfolio Collateral to be ineligible for purchase by the Issuer under this Indenture if applied to a proposed purchase of it in the open market at the time of its return from loan).

### SUPPLEMENTAL INDENTURES

#### Section 8.1. Supplemental Indentures Without Consent of Noteholders.

Without the consent of the Holders of any Notes, but with the consent of the Servicer, the Co-Issuers and the Trustee, at any time, may enter into one or more indentures supplemental hereto, in form satisfactory to the Trustee, for any of the following purposes:

(1) to correct or amplify the description of any property at any time subject to the lien of this Indenture, or better to assure, convey and confirm unto the Trustee any property subject or required to be subjected to the lien of this Indenture, or to subject to the lien of this Indenture additional property;

(2) to evidence the succession of another Person to the Issuer or the Co-Issuer, and the assumption by any such successor of the covenants of the Issuer or the Co-Issuer contained herein and in the Notes;

(3) to add to the covenants of the Issuer, the Co-Issuer or the Trustee, for the benefit of the Holders of the Notes, or to surrender any right or power herein conferred upon the Issuer or the Co-Issuer;

(4) to Grant any property to the Trustee;

(5) to evidence and provide for the acceptance of appointment hereunder by a successor Trustee and to add to or change any of the provisions of this Indenture as shall be necessary to facilitate the administration of the Trust Estate by more than one Trustee, pursuant to the requirements of Section 6.9 or 6.10 hereof;

(6) to cure any ambiguity, or to correct, modify or supplement any provision which is defective or inconsistent with any other provision herein;

(7) to take any action necessary or helpful to prevent the Issuer or the Trustee from becoming subject to any withholding or other taxes or assessments or to reduce the risk that the Issuer will be engaged in a United States trade or business or that the Issuer (or the beneficial owners thereof) will be subject to United States income tax on a net income basis;

(8) to correct any manifest error in any provision hereof upon receipt by the Trustee of written direction from the Issuer or Co-Issuer (as to which the Trustee may rely) describing in reasonable detail such error and the modification necessary to correct such error; or

(9) to effectuate the provisions of Section 2.12 hereof *provided that* such amendment shall not, as evidenced by an Officer's Certificate of the Issuer, adversely affect in any material respect the interests of any Noteholder; or

(10) to facilitate the delivery and maintenance of the Notes in accordance with the requirements of DTC, Euroclear or Clearstream;

(11) to authorize the appointment of any listing agent, Transfer Agent, Paying Agent or additional registrar for any Class of Notes required or advisable in connection with the listing of the Notes on the Irish Stock Exchange or any other stock exchange and otherwise to amend this Indenture to incorporate any changes required or requested by any governmental authority, stock exchange authority, listing agent, Transfer Agent, Paying Agent or additional registrar for such Notes in connection therewith;

(12) to modify the restrictions on and procedures for resale and other transfer of the Notes in accordance with any change in any applicable law or regulation (or the interpretation thereof) or to enable the Co-Issuers to rely upon any less restrictive exemption from registration under the Securities Act or the Investment Company Act or to remove restrictions on resale and transfer to the extent not required thereunder;

(13) evidence the addition of an additional issuer or of a wholly owned subsidiary of the Issuer that, in either case, will acquire securities from the Issuer and pledge its assets to secure the obligations of the Issuer secured by the Trust Estate, to the extent necessary to permit the Issuer to comply with the Bank Holding Company Act of 1956, as amended, and the rules and regulations thereunder or any other statute, rule or regulation applicable to the Issuer, and the assumption by any such additional issuer or subsidiary of the covenants and obligations of the Issuer in this Indenture; or

(14) prevent the Issuer from becoming an "investment company" as defined in the Investment Company Act or better assure compliance with the requirements of Rule 3a-7 thereunder; *provided* that, as a condition to the effectiveness of any such supplemental indenture, each of the Issuer, the Trustee and the Initial Purchaser shall have received (A) a Rating Condition with respect to such supplemental indenture and (B) a customary, unqualified opinion of counsel from a nationally recognized law firm (which may be supported as to factual matters by any relevant certificates or other documents necessary or advisable in the judgment of counsel delivering such opinion) providing that, after giving effect to such supplemental indenture, the Issuer is exempt from registration as an "investment company" under the Investment Company Act;

*provided further* that (A) such amendment for any matters described in clauses (1) through (13) shall not, as evidenced by an Opinion of Counsel (which may be supported as to factual matters by any relevant certificates or other documents necessary or advisable in the judgment of counsel delivering such opinion), adversely affect in any material respect the interests of any Noteholder and (B) no amendment shall be made that would cause the Issuer to register as an "investment company" under the Investment Company Act.

The Trustee is hereby authorized to join in the execution of any such supplemental indenture and to make any further appropriate agreements and stipulations that may be therein contained. At the cost of the Issuer, the Trustee shall provide to the Servicer and for so long as any Notes are then rated, each Rating Agency then rating any Notes a copy of any proposed supplemental indenture at least 10 days prior to the execution thereof by the Trustee

and request written confirmation that the entering into of such supplemental indenture satisfies the Rating Condition. The Trustee shall not enter into any such supplemental indenture if such supplemental indenture does not satisfy the Rating Condition, and, as soon as practicable after the execution by the Trustee and the Issuer of any such supplemental indenture, the Issuer or the Trustee at the request of the Issuer shall provide to the Servicer and each Rating Agency then rating any Notes a copy of the executed supplemental indenture.

Section 8.2. [Supplemental Indentures with Consent of Noteholders.](#)

With the consent of the Requisite Noteholders, the Servicer and the Holders of the Preferred Shares, to the extent described in the Paying and Transfer Agency Agreement, the Co-Issuers and the Trustee may enter into an indenture or indentures supplemental hereto for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, this Indenture or of modifying in any manner the rights of the Holders of the Notes under this Indenture; *provided that*, notwithstanding any Amendment Buy-Out Option described in Section 9.4(b), no such supplemental indenture shall, without the consent of each Noteholder of each Class adversely affected thereby:

(1) change the Final Maturity Date or Payment Date of any Note, or reduce the principal amount, notional principal amount or stated amount thereof, as the case may be, or the means of determining the Applicable Periodic Rate, the Optional Redemption Price, the Special Redemption Price, the Tax Event Redemption Price or the Mandatory Redemption Price, as applicable, with respect thereto, change the provisions of this Indenture relating to the application of proceeds of the Trust Estate to the payment of the Notes or change the jurisdiction where any Note is payable, or the coin or currency in which, any Note or any amount thereunder is payable, or impair the right to institute suit for the enforcement of any such payment on or after the maturity thereof;

(2) reduce the percentage in Aggregate Principal Amount, the consent of the Holders of which is required for the execution of any such supplemental indenture, or the consent of the Holders of which is required for any waiver of compliance with certain provisions of this Indenture or certain Events of Default hereunder and their consequences provided for in this Indenture;

(3) impair or adversely affect the Trust Estate except as otherwise permitted herein;

(4) permit the creation of any lien ranking prior to or on a parity with the lien of this Indenture with respect to any part of the Trust Estate or terminate the lien of this Indenture on any property at any time subject hereto (other than pursuant to the terms of this Indenture) or deprive the Holder of any Note or any other party expressly secured hereby of the security afforded by the lien of this Indenture;

(5) reduce the percentage of the Aggregate Principal Amount of the Notes whose Holders must direct the Trustee to preserve the Trust Estate or must consent before any request is made to rescind the Trustee's election to preserve the Trust Estate pursuant to Section 5.5 hereof, or to sell or liquidate the Trust Estate pursuant to Section 5.4, 5.5 or 9.7

hereof or modify the requirement for consent of any other party to which the right to consent is expressly granted hereby;

(6) modify any of the provisions of this Section or Section 5.15 hereof, except to increase any such percentage or to provide that certain other provisions of this Indenture cannot be modified or waived without the consent of the Holder of each Outstanding Note affected thereby;

(7) modify the provisions of Article XI hereof or the definition of the term "Holder," "Noteholder," "Majority Noteholders," "Majority Preferred Shareholders," "Requisite Noteholders" or of the term "Outstanding";

(8) amend any provision of this Indenture relating to the institution of proceedings for the Issuer or the Co-Issuer to be adjudicated as bankrupt or insolvent, or the consent by the Issuer or the Co-Issuer to the institution of bankruptcy or insolvency proceedings against it, or the filing with respect to the Issuer or the Co-Issuer of a petition or answer or consent seeking reorganization or relief under the Bankruptcy Code or any other similar applicable law, or the consent by the Issuer or the Co-Issuer to the filing of any such petition as to the appointment of a receiver, liquidator, assignee, trustee or sequestrator (or other similar official) of the Issuer or the Co-Issuer or of any substantial part of its property, respectively;

(9) amend any provision of this Indenture or other such document that provides that the obligations of the Co-Issuer or the Issuer, as the case may be, are non-recourse obligations of the Co-Issuer or the Issuer, respectively, payable solely from the Collateral in accordance with the terms hereof; or

(10) modify any of the provisions of this Indenture in such a manner as to affect the calculation of the amount or timing of any payment of interest or principal due on any Note on any Payment Date (including the calculation of any of the individual components of such calculation) or to affect the rights of the Holders of Notes to the benefit of any provisions for the redemption of such Notes contained herein.

With respect to any action that requires consent from 100% of the Noteholders, if any Noteholder has notified the Trustee in writing that pursuant to such Noteholder's organizational documents or other documents governing such Noteholder's actions, the Noteholder is not permitted to take any affirmative action approving, rejecting or otherwise acting upon any Issuer request under the Indenture, the failure by such Noteholder to consent to or reject any such requested action will be deemed a consent by such Noteholder to the requested action.

Not later than 15 Business Days prior to the execution of any proposed supplemental indenture pursuant to this Section, the Trustee shall mail to the Servicer and, so long as any Notes are then rated by any Rating Agency, to each such Rating Agency, a copy of such supplemental indenture and, if any Notes are then rated, prior to the execution of the proposed supplemental indenture, the Rating Condition must be satisfied with respect to such supplemental indenture.

It shall not be necessary in connection with any consent of Noteholders under this Section for the Noteholders to approve the specific form of any proposed supplemental indenture, but it shall be sufficient if such consent shall approve the substance thereof.

In the event that any supplemental indenture is consented to by the Issuer, the Co-Issuer and 100% of the Aggregate Outstanding Amount of each Class of Notes and the Rating Condition is satisfied or is specifically waived by all consenting parties, all conditions precedent to the execution of such supplemental indenture shall be deemed satisfied, the execution of such supplemental indenture shall be authorized or permitted by this Indenture, and the Trustee shall execute and accept the additional trusts created by such supplemental indenture pursuant to this Article VIII or modification thereby of the trusts created by this Indenture without obtaining an Opinion of Counsel.

Promptly after the execution by the Co-Issuers and the Trustee of any supplemental indenture pursuant to this Section 8.2, the Issuer or the Trustee at the request of the Issuer shall deliver to the Holders of the Notes, the Servicer, each Rating Agency then rating any Notes and the Repository (for posting on the Repository in the manner described in Section 13.17), a copy thereof.

#### Section 8.3. [Execution of Supplemental Indentures.](#)

In executing or accepting the additional trusts created by any supplemental indenture permitted by this Article VIII or the modifications thereby of the trusts created by this Indenture, the Trustee shall be entitled to receive, and (subject to Section 6.3(d) hereof) shall be fully protected in relying upon, an Opinion of Counsel stating that the execution of such supplemental indenture is authorized or permitted by this Indenture, and that all conditions precedent applicable thereto under this Indenture have been satisfied. The Trustee may, but shall not be obligated to, enter into any such supplemental indenture which affects the Trustee's own rights, duties or immunities under this Indenture or otherwise.

#### Section 8.4. [Effect of Supplemental Indentures.](#)

Upon the execution of any supplemental indenture under this Article VIII, this Indenture shall be modified in accordance therewith, and such supplemental indenture shall form a part of this Indenture for all purposes; and every Holder of Notes theretofore and thereafter authenticated and delivered hereunder shall be bound thereby.

#### Section 8.5. [Reference in Notes to Supplemental Indentures.](#)

Notes authenticated and delivered after the execution of any supplemental indenture pursuant to this Article VIII may, and if required by the Trustee shall, bear a notation in form approved by the Trustee as to any matter provided for in such supplemental indenture. If the Issuer shall so determine, new Notes, so modified as to conform in the opinion of the Trustee and the Issuer to any such supplemental indenture, may be prepared and executed by the Issuer and authenticated and delivered by the Trustee in exchange for Outstanding Notes.

(4) the Rating Condition must be satisfied with respect to each Rating Agency,

(5) not more than three (3) prior Partial Optional Redemptions may have occurred, and

(6) no claims may be pending against the Issuer or the Co-Issuer and no judgments may have been rendered against the Issuer or the Co-Issuer which exceed, or reasonably could be expected to result in liabilities that exceed, in the aggregate, \$100,000, unless adequate funds have been reserved or set aside for the payment thereof.

In connection with any Optional Redemption, the Issuer may use all funds credited to the Collection Account to provide for payment of the Optional Redemption Price. If there are not sufficient funds in the Collection Account as of the date the notice of redemption is given to pay the Optional Redemption Price on the Optional Redemption Date and all such payments, fees and expenses (including any termination payments with respect to any Synthetic Securities and any Default Swaps), the Servicer is required to give the Trustee written direction to sell Portfolio Collateral in an amount sufficient to provide funds to pay the Optional Redemption Price in full. The Trustee will give notice of an Optional Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

The Servicer shall have the right to purchase the Preferred Shares held by any Holder that directs the Issuer to effect a Partial Optional Redemption at a price equal to the liquidation value of such Preferred Shares.

(c) The election of the Issuer to redeem any Notes pursuant to this Section 9.1 shall be set forth in an Issuer Order, given to the Trustee in accordance with Section 9.5 hereof, directing the Trustee to make the payment of the Optional Redemption Price for all the Notes, from funds in the Collection Account and/or from monies deposited with the Trustee by the Issuer pursuant to Section 9.8 hereof.

(d) The Issuer shall, simultaneously with electing to redeem Notes under this Section 9.1, set the Optional Redemption Date and the Redemption Record Date for any redemption pursuant to this Section and give notice thereof to the Trustee pursuant to Section 9.6 hereof.

(e) The Issuer shall have the option to withdraw the notice of redemption until the earlier of the fifth Business Day prior to the proposed Optional Redemption Date and the date on which a forward purchase contract is entered into pursuant to Section 9.8 by written notice to the Trustee and the Servicer on or prior to such earlier day.

(f) On the Optional Redemption Date, the Optional Redemption Price shall be distributed pursuant to Section 11.1(d) after payment of all amounts required to be paid pursuant to Section 11.1(b).

Section 9.2. [Mandatory Redemption.](#)

If either the Interest Coverage Test or the Overcollateralization Tests are not satisfied as of any applicable Calculation Date or a Rating Confirmation Failure occurs, all or a portion of the Notes shall be redeemed (or, in the case of the Class A-3L Notes, the Class A-4L Notes and the Class B-1L Notes, any Periodic Rate Shortfall Amounts shall be paid and then the Notes shall be redeemed) by the Issuer, in the order set forth in Section 11.1 hereof, on the Payment Date immediately following such Calculation Date at the Mandatory Redemption Price (pursuant to the applicable provisions of Sections 11.1 and 11.2 hereof) in an amount sufficient such that the Interest Coverage Test and Overcollateralization Tests are satisfied or a Rating Confirmation is received, as applicable. The amount of any Mandatory Redemption hereunder shall be determined in accordance with the provisions of Section 11.2 hereof.

Section 9.3. [Additional Collateral Deposit Requirement.](#)

On each Payment Date after the second Payment Date, the Additional Collateral Deposit Requirement shall be applied by the Issuer in the order set forth in Section 11.1 hereof.

Section 9.4. [Special Redemption; Amendment Buy-Out](#)

(a) The Notes (other than Class X) shall be redeemable in part on any Payment Date during the Revolving Period at the option of the Issuer, as directed by and at the discretion of the Servicer, to the extent more than U.S. \$2,000,000 of Collateral Principal Collections held in the Collection Account are not applied to the purchase of Additional Portfolio Collateral satisfying the criteria contained in Section 11.3 hereof by the earlier of the last day of the next succeeding Due Period or the last day of the Revolving Period, in the order and priority set forth in Section 11.1 hereof.

(b) In the case of any supplemental indenture pursuant to Section 8.2 that requires the consent of one or more Holders of Notes or Preferred Shares, the Amendment Buy-Out Purchaser shall have the right, but not the obligation, to purchase from Non-Consenting Holders all Notes (other than the Class A-1LA Notes) or Preferred Shares held by such Holders of the Class of Notes or Preferred Shares whose consent was solicited with respect to such supplemental indenture (the "Amendment Buy-Out Option") for the applicable Amendment Buy-Out Purchase Price; *provided, however*, that the Amendment Buy-Out Purchaser may not exercise the Amendment Buy-Out Option during the Non-Call Period in connection with a proposed amendment to reduce the rate of interest on any Security, as applicable, or to change the earliest date on which Notes of any Class or Preferred Shares may be redeemed at the option of the Issuer; *provided further*, that notwithstanding the definition of Non-Consenting Holder, any Holder of Notes (other than the Class A-1LA Notes) or Preferred Shares who fails to respond to any such consent solicitation shall be deemed to have consented to any such supplemental indenture. Notwithstanding the foregoing, during the Non-Call Period, "Non-Consenting Holder" shall exclude any Holder of Class A-1LA Notes (unless such Holder has

consented in writing to be designated as a Non-Consenting Holder) and the Amendment Buy-Out Option shall not be applicable to such Class A-1LA Notes. If the Amendment Buy-Out Option is exercised, the Amendment Buy-Out Purchaser must purchase all such Notes or Preferred Shares of Non-Consenting Holders, regardless of the applicable percentage of the Aggregate Outstanding Amount of the Notes or Preferred Shares the consent of whose Holders is required for such supplemental indenture (an "Amendment Buy-Out"). By its acceptance of its Securities or Preferred Shares hereunder, each Holder of Notes or Preferred Shares agrees that if the Amendment Buy-Out Option is exercised, any Non-Consenting Holder will be required to sell its applicable Notes or Preferred Shares to the Amendment Buy-Out Purchaser. For the avoidance of doubt, nothing described above shall in any way limit or restrict the rights of Holders of the Class A-1LA Notes to consent or withhold their consent to a supplemental indenture or otherwise vote their interest both during and after the Non-Call Period. Neither the Amendment Buy-Out Purchaser nor any other Person shall have any liability to any Holder or Beneficial Owner of Securities or Preferred Shares as a result of an election by the Amendment Buy-Out Purchaser not to exercise the Amendment Buy-Out Option. For the avoidance of doubt, (i) nothing described above or in the Indenture shall in any way limit or restrict the rights of the Holders of the Class A-1LA Notes to consent or withhold their consent to a supplemental indenture or to otherwise vote their interest both during and after the Non-Call Period and (ii) the Trustee shall have no responsibility for overseeing the Servicer's compliance with the Amendment Buy-Out provisions herein.

(c) All purchases made pursuant to an Amendment Buy-Out Option individually and in the aggregate must comply with the applicable transfer restrictions for the relevant Securities or Preferred Shares set forth herein and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency).

#### Section 9.5. Tax Event Redemption.

(a) The Notes shall be redeemable, in whole but not in part, by the Issuer at the direction of 66-2/3% of the Preferred Shares or a majority of the Controlling Class (but only if the Aggregate Principal Balance of Portfolio Collateral is less than 100% of the Class A-1L Notes) on any Payment Date at the Tax Event Redemption Price, if as a result of (i) change in tax law, rule or regulation or the interpretation thereof, the payments to be received on the Portfolio Collateral are reduced as a result of the imposition of withholding tax, (ii) the Issuer is otherwise subjected to tax such that the income of the Issuer is reduced in an amount determined by such holders of Preferred Shares to be material, (iii) (A) one or more items of Portfolio Collateral that were not subject to withholding tax when the Issuer committed to purchase them have become subject to withholding tax or the rate of withholding has increased on one or more items of Portfolio Collateral that were subject to withholding tax when the Issuer committed to purchase them and (B) in any Due Period the aggregate of the payments subject to withholding tax on new withholding tax obligations and the increase in payments subject to withholding tax on increased rate withholding tax obligations, in each case to the extent not "grossed-up" (on an after-tax basis) by the related obligor, represent 5% or more of Interest Proceeds for the Due Period, or (iv) taxes, fees, assessments or other similar charges are imposed on the Issuer or the Co-Issuer in an aggregate amount in any 12-month period in excess of \$2,000,000, other than liabilities for withholding taxes included in clause (iii) above. No redemption pursuant to this Section 9.5

shall occur unless all Outstanding Notes are redeemed and unless all payments, fees and expenses are paid in full on the date of such redemption.

(b) The election of the Issuer to redeem any Notes pursuant to this Section 9.5 shall be set forth in an Issuer Order, given to the Trustee in accordance with Section 9.6 hereof, directing the Trustee to make the payment of the Tax Event Redemption Price from funds in the Collection Account and/or from monies deposited with the Trustee by the Issuer pursuant to Section 9.8 hereof.

(c) The Issuer shall, simultaneously with electing to redeem Notes under this Section 9.5, set the Tax Event Redemption Date and the Redemption Record Date for any redemption pursuant to this Section 9.5 and give notice thereof to the Trustee pursuant to Section 9.6 hereof.

(d) The Issuer shall have the option to withdraw the notice of redemption until the earlier of the fifth Business Day prior to the proposed Tax Event Redemption Date and the date on which a forward purchase contract is entered into pursuant to Section 9.8(b) hereof by written notice to the Trustee and the Servicer on or prior to such earlier day.

(e) On the Tax Redemption Date, the Tax Event Redemption Price shall be distributed pursuant to Section 11.1(d) hereof after payment of all amounts required to be paid pursuant to Section 11.1(b) hereof.

Section 9.6. [Notice to Trustee, Rating Agencies and the Servicer.](#)

(a) The Issuer shall by Issuer Order, in connection with an Optional Redemption pursuant to Section 9.1 or a Tax Event Redemption pursuant to Section 9.5, not later than the twentieth Business Day immediately preceding the proposed Optional Redemption Date or Tax Event Redemption Date, as applicable, notify in writing the Trustee, each Rating Agency then rating any Class of Notes and the Servicer of such proposed Optional Redemption Date or Tax Event Redemption Date, as applicable, and the proposed Redemption Record Date and Optional Redemption Price for each Class of Notes.

(b) If any Mandatory Redemption is required pursuant to Section 9.2 hereof, the Issuer shall, not later than the third Business Day after the related Calculation Date, notify in writing the Trustee, each Rating Agency then rating any Class of Notes, the Servicer and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent that such redemption is required and the amount of the Notes of each Class required to be redeemed pursuant to the provisions of Section 11.2 hereof.

(c) If any Special Redemption is required pursuant to Section 9.4 hereof, the Issuer shall, not later than twentieth Business Day preceding the proposed Special Redemption Date, notify in writing the Trustee, each Rating Agency then rating any Class of Notes, the Servicer and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent that such proposed redemption is required and the amount of the Notes of each Class to be redeemed.

Section 9.7. [Notice of Optional Redemption and Tax Event Redemption by the Issuer.](#)

(a) If notice thereof has been received by the Trustee from the Issuer pursuant to Section 9.6 hereof, notice of an Optional Redemption shall be given by the Trustee by first-class mail, postage prepaid, mailed not less than twenty calendar days prior to the proposed Redemption Record Date, to each Holder of Notes to be redeemed at the address in the Note Register (with a copy to the Rating Agencies at the addresses specified in Section 10.7 hereof), and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent.

All notices of Optional Redemption shall state: the proposed Optional Redemption Date; the proposed Redemption Record Date; and that on such proposed Optional Redemption Date, all Outstanding Notes are to be redeemed and paid in full and that applicable interest thereon shall cease to accrue on the date specified in the notice and the place where such Notes may be surrendered for payment of the Optional Redemption Price, which shall be the agency of the Trustee to be maintained as provided in Section 7.2 hereof; and that the Issuer may withdraw such election at any time on or prior to the earlier of the Business Day prior to such proposed Optional Redemption Date and the date before which a forward purchase contract is entered into pursuant to Section 9.8(a) hereof.

At the cost of the Issuer, the Trustee shall give notice of any withdrawal of the notice of redemption pursuant to Section 9.1(d) hereof (to the extent feasible) by overnight courier guaranteeing next day delivery, sent not later than the third Business Day prior to the previously proposed Optional Redemption Date, to each Holder of Notes to be redeemed at the address in the Note Register, and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent.

Notice of Optional Redemption of the Notes shall be given by the Issuer or, at the Issuer's request, by the Trustee in the name of the Issuer and at the expense of the Issuer. Failure to give notice of redemption or notice of withdrawal, or any defect therein, to any Holder of any Note shall not impair or affect the validity of the redemption of the Notes or give rise to any claim based upon such failure or defect.

(b) If notice thereof has been received by the Trustee from the Issuer pursuant to Section 9.6 hereof, notice of a Tax Event Redemption shall be given by the Trustee by first-class mail, postage prepaid, mailed not less than twenty calendar days prior to the proposed Redemption Record Date, to each Holder of Notes to be redeemed at the address in the Note Register (with a copy to the Rating Agencies at the addresses specified in Section 10.7 hereof), and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent.

All notices of a Tax Event Redemption shall state: the proposed Tax Event Redemption Date; the proposed Redemption Record Date; and that on such proposed Tax Event Redemption Date, all of the Notes (to the extent of the Aggregate Principal Amount) are to be redeemed and paid in full and that interest thereon shall cease to accrue on the date specified in the notice and the place where such Notes may be surrendered for payment of the Tax Event Redemption Price, which shall be the agency of the Trustee to be maintained as provided in Section 7.2 hereof; and that the Issuer may withdraw such election at any time on or prior to the

earlier of the fifth Business Day prior to such proposed Tax Event Redemption Date and the date before which a forward purchase contract is entered into pursuant to Section 9.8(b) hereof.

At the cost of the Issuer, the Trustee shall give notice of any withdrawal of the notice of redemption pursuant to Section 9.5 hereof (to the extent feasible) by overnight courier guaranteeing next day delivery, sent not later than the third Business Day prior to the previously proposed Tax Event Redemption Date, to each Holder of Notes to be redeemed at the address in the Note Register (with a copy to the Rating Agencies at the addresses specified in Section 10.7 hereof), and, so long as any Class of Notes is listed on the Irish Stock Exchange, the Irish Paying Agent.

Notice of Tax Event Redemption of the Notes shall be given by the Issuer or, at the Issuer's request, by the Trustee in the name of the Issuer and at the expense of the Issuer. Failure to give notice of redemption or notice of withdrawal, or any defect therein, to any Holder of any Note shall not impair or affect the validity of the redemption of the Notes or the withdrawal thereof or give rise to any claim based upon such failure or defect.

Section 9.8. Deposit of Optional Redemption Price and Tax Event Redemption Price.

(a) In the case of an Optional Redemption, on or before the fifth Business Day preceding the proposed Optional Redemption Date contained in the notice of redemption as provided in Section 9.6 hereof, the Issuer shall deposit with the Trustee cash or Eligible Investments maturing no later than the Business Day prior to the Optional Redemption Date (unless such Eligible Investments are issued by the Person acting as Trustee, in which event they may mature on the Optional Redemption Date), or any combination thereof, in an amount sufficient to provide for payment of the Optional Redemption Price with respect to the Outstanding Notes and all amounts due under Sections 11.1(b) and 11.1(d) hereof. The Issuer may use all available funds in the Collection Account to provide for payment of the Optional Redemption Price in accordance with Section 11.1 hereof. In the event that there are not sufficient available funds in the Collection Account as of the date the notice of redemption is sent out pursuant to Section 9.6 hereof to pay the Optional Redemption Price on the Optional Redemption Date in accordance with Sections 11.1(b) and 11.1(d) hereof, the Servicer shall give the Trustee written direction to sell Portfolio Collateral in an amount sufficient to provide available funds to pay the Optional Redemption Price in full pursuant to Sections 11.1(b) and 11.1(d) hereof, and shall give the Issuer written direction to enter into, as of a date which is not later than five (5) Business Days prior to the Optional Redemption Date, forward contracts (each of which shall provide for "payment versus delivery" and shall direct that payment be made to the Trustee) with a financial institution rated "A-1+" by Standard & Poor's and "P-1" by Moody's to sell such Portfolio Collateral for settlement at least three Business Days prior to the Optional Redemption Date, and shall provide a copy of such contract to the Trustee prior to such Business Day preceding such redemption date; and pursuant to such instruction, the Trustee shall release and sell such Portfolio Collateral for purposes of such redemption. In determining whether the proceeds of any Optional Redemption will be sufficient to pay the Optional Redemption Price on the Optional Redemption Date, the Issuer and the Trustee may rely on the Market Value of the Portfolio Collateral when entering into any forward purchase agreements.

(b) In the case of a Tax Event Redemption, on or before the fifth Business Day preceding the proposed Tax Event Redemption Date contained in the notice of redemption as provided in Section 9.6 hereof, the Issuer shall deposit with the Trustee cash or Eligible Investments maturing no later than the Business Day prior to the Tax Event Redemption Date (unless such Eligible Investments are issued by the Person acting as Trustee, in which event they may mature on the Tax Event Redemption Date), or any combination thereof, in an amount sufficient to provide for payment of the Tax Event Redemption Price with respect to the Outstanding Notes and all amounts due under Sections 11.1(b) and 11.1(d) hereof. The Issuer may use all available funds in the Collection Account to provide for payment of the Tax Event Redemption Price in accordance with Section 11.1 hereof. In the event that there are not sufficient available funds in the Collection Account as of the date the notice of redemption is sent out pursuant to Section 9.6 hereof to pay the Tax Event Redemption Price on the Tax Event Redemption Date in accordance with Sections 11.1(b) and 11.1(d) hereof, the Servicer shall give the Trustee written direction to sell Portfolio Collateral in an amount sufficient to provide available funds to pay the Tax Event Redemption Price in full pursuant to Sections 11.1(b) and 11.1(d) hereof, and shall give the Issuer written direction to enter into, as of a date which is not later than five Business Days prior to the Tax Event Redemption Date, forward contracts (each of which shall provide for "payment versus delivery" and shall direct that payment be made to the Trustee) with a financial institution rated "A-1+" by Standard & Poor's and "P-1" by Moody's to sell such Portfolio Collateral for settlement at least three Business Days prior to the Tax Event Redemption Date, and shall provide a copy of such contract to the Trustee prior to such third Business Day preceding such redemption date; and pursuant to such instruction, the Trustee shall release and sell such Portfolio Collateral for purposes of such redemption.

#### Section 9.9. Notes Payable on Optional Redemption Date.

In the event that notice of Optional Redemption pursuant to Section 9.1 hereof has been given as provided in Section 9.6 hereof and not withdrawn, all Outstanding Notes shall on the Optional Redemption Date become due and payable at the Optional Redemption Price, and (unless the Issuer shall default in the payment of the Optional Redemption Price) all Outstanding Notes shall cease to bear interest on the Optional Redemption Date. Each Holder shall present and surrender its Note at the place specified in the notice of Optional Redemption on or prior to such Optional Redemption Date; *provided that* if there is delivered to the Issuer and the Trustee such security or indemnity as may be required by them to save each of them harmless (an unsecured indemnity agreement of an Institutional Investor organized under the laws of the United States or any state in the United States with a net worth at least twice the amount of the security or indemnity being deemed sufficient to satisfy such security or indemnity requirement) and an undertaking thereafter to surrender such Note, then, in the absence of notice to the Issuer or the Trustee that the applicable Note has been acquired by a protected purchaser, such payment shall be made without presentation or surrender.

If any Note called for redemption shall not be so paid upon surrender thereof for Optional Redemption (or the delivery of the indemnity pursuant to the preceding paragraph), the principal shall, until paid, bear interest from the Optional Redemption Date at the Applicable Periodic Rate.

Section 9.10. [Notes Payable on Mandatory Redemption Date.](#)

In the event of a Mandatory Redemption pursuant to Section 9.2 hereof, principal of the Notes (or, in the case of the Class A-3L Notes, Class A-4L Notes and the Class B-1L Notes, any Periodic Rate Shortfall Amount and then any principal) in an amount determined pursuant to Section 11.2 hereof shall on the Mandatory Redemption Date become due and payable, and (unless the Issuer shall default in the payment of the Mandatory Redemption Price) such amounts shall cease to bear interest on the Mandatory Redemption Date.

Section 9.11. [Notes Payable on Tax Event Redemption.](#)

In the event that notice of a Tax Event Redemption pursuant to Section 9.5 hereof has been given as provided in Section 9.6 hereof and not withdrawn, all Outstanding Notes shall on the Tax Event Redemption Date become due and payable at the Tax Event Redemption Price, and (unless the Issuer shall default in the payment of the Tax Event Redemption Price) all Outstanding Notes shall cease to bear interest on the Tax Event Redemption Date. Each Holder shall present and surrender its Note at the place specified in the notice of redemption on or prior to such Tax Event Redemption Date; *provided that* if there is delivered to the Issuer and the Trustee such security or indemnity as may be required by them to save each of them harmless (an unsecured indemnity agreement of an Institutional Investor organized under the laws of the United States or any state in the United States with a net worth at least twice the amount of the security or indemnity being deemed sufficient to satisfy such security or indemnity requirement) and an undertaking thereafter to surrender such Note, then, in the absence of notice to the Issuer or the Trustee that the applicable Note has been acquired by a bona fide purchaser, such payment shall be made without presentation or surrender.

If any Note called for a Tax Event Redemption shall not be so paid upon surrender thereof for a Tax Event Redemption (or the delivery of the indemnity pursuant to the preceding paragraph), the principal shall, until paid, bear interest from the Tax Event Redemption Date at the Applicable Periodic Rate.

Section 9.12. [Initial Deposit Redemption.](#)

The Class A-1LA Notes and the Class X Notes shall be subject to Initial Deposit Redemption pursuant to the terms of Section 3.3 hereof.

Section 9.13. [Reserved.](#)

Section 9.14. [Notes Payable on Special Redemption Date.](#)

## ACCOUNTS, ACCOUNTINGS AND RELEASES

Section 10.1. Collection of Money.

Except as otherwise expressly provided herein, the Trustee may demand payment or delivery of, and shall receive and collect, directly and without intervention or assistance of any fiscal agent or other intermediary, all money and other property payable to or receivable by the Trustee pursuant to this Indenture, including all payments due on the Pledged Securities included in the Trust Estate, in accordance with the terms and conditions of such Pledged Securities. The Trustee shall segregate and hold all such money and property received by it in trust for the Holders of the Notes and shall apply it as provided in this Indenture.

Section 10.2. Accounts.

(a) The Trustee shall, on or prior to the Closing Date, establish ten non-interest bearing segregated trust accounts (collectively, the "Accounts") which shall be designated as the "Collection Account," the "Collateral Account," the "Reserve Account," the "Initial Deposit Account," the "Expense Reimbursement Account," the "Loan Funding Account," the "Closing Expense Account," the "Securities Lending Account," the "Default Swap Collateral Account," and the "Default Swap Issuer Account," respectively, identified as held in trust for the benefit of the Noteholders and the applicable Secured Parties or, in the case of the Default Swap Collateral Account, as held in trust for the benefit of the related Default Swap Counterparty and, to the extent provided in this Indenture, the other Secured Parties. The Trustee may establish any number of sub-accounts to the Collection Account for its convenience in administering the Accounts and Trust Estate.

Each Account (including any sub account) shall be a securities account established with the Securities Intermediary in the name of the Trustee in accordance with Section 6.15.

A Default Swap Collateral Account shall be established for each Default Swap. The Trustee shall credit to each such Default Swap Collateral Account on the Closing Date or on the date any such Default Swap is entered into, as applicable, the amount required to secure the obligations of the Issuer in accordance with the terms of the related Default Swap, as directed by the Servicer, which amount shall be at least equal to the amount referred to in paragraph (iv) of the definition of Default Swap.

Amounts credited to a Default Swap Collateral Account shall be maintained in accordance with the terms and provisions of the related Default Swap. Amounts and property credited to a Default Swap Collateral Account shall be withdrawn by the Trustee and applied to the payment of any amounts payable by, or to the delivery of investment property deliverable by, the Issuer to the related Default Swap Counterparty, as directed by the Servicer, in accordance with the terms of such Default Swap. Income received on amounts credited to a Default Swap Collateral Account will be applied in accordance with the terms of the applicable Default Swap to the payment of any periodic amounts owed by the Issuer to the applicable Default Swap

Counterparty on the date such amounts are due. After application of such amounts, any income then contained in such Default Swap Collateral Account will be withdrawn from such Account and credited to the Collection Account for distribution as Collateral Interest Collections. After payment of all amounts owing by the Issuer to a Default Swap Counterparty in accordance with the terms of the related Default Swap (other than any Default Swap Counterparty Termination Payment) the Trustee shall be directed by the Servicer to withdraw all funds and other property credited to the Default Swap Collateral Account related to such Default Swap and credit such funds and other property to the Collection Account, as Collateral Principal Collections (in the case of cash and Eligible Investments) and the Collateral Account (in the case of Portfolio Collateral and other financial assets) for application as Collateral Principal Collections (other than any income thereon which will be Collateral Interest Collections) in accordance with the terms of the Indenture. Any Default Swap Counterparty Termination Payments owed by the Issuer to the Default Swap Counterparty shall be paid solely from amounts available therefor under the priority of payment provisions described herein.

Except for interest on securities credited to a Default Swap Collateral Account payable to the Issuer as described pursuant to the preceding paragraph, funds and other property standing to the credit of a Default Swap Collateral Account will not be considered to be an asset of the Issuer for purposes of the Interest Coverage Test or the Overcollateralization Tests; *provided, however that* the Default Swap that relates to such Default Swap Collateral Account will be considered an asset of the Issuer for such purposes.

If the terms of any Default Swap require the Default Swap Counterparty to secure its obligations with respect to such Default Swap, the Trustee will cause to be established a Default Swap Issuer Account in respect of such Default Swap. The Trustee shall credit to any such Default Swap Issuer Account all funds and other property received from the applicable Default Swap Counterparty to secure the obligations of such Default Swap Counterparty in accordance with the terms of such Default Swap.

Funds and other property standing to the credit of any Default Swap Issuer Account will not be considered to be an asset of the Issuer for purposes of the Interest Coverage Test or the Overcollateralization Tests; *provided, however that* the Default Swap that relates to such Default Swap Issuer Account will be considered an asset of the Issuer for such purposes.

In accordance with the terms of the applicable Default Swap, funds and other property standing to the credit of the related Default Swap Issuer Account will be withdrawn by the Trustee, as directed by the Servicer, and applied to the payment of any amount owing by the related Default Swap Counterparty to the Issuer. After payment of all amounts owing by the Default Swap Counterparty to the Issuer in accordance with the terms of the related Default Swap, all funds and other property standing to the credit of the related Default Swap Issuer Account will be withdrawn from such Default Swap Issuer Account and paid or transferred to the related Default Swap Counterparty in accordance with the applicable Default Swap.

The Collection Account shall be a segregated trust account (or, at the Trustee's option, may be comprised of two separate, segregated trust accounts, designated for the collection of Collateral Interest Collections and Collateral Principal Collections, respectively), to which money required to be credited to the Collection Account (and Eligible Investments in

which such money may be held from time to time, which Eligible Investments shall be acquired and held pursuant to the terms of Section 6.16 hereof) shall be credited.

All Portfolio Collateral Delivered to the Trustee shall be credited to the Collateral Account.

On or before the date on which the Issuer enters into a Securities Lending Agreement and delivers a copy of it to the Trustee, the Trustee shall create a segregated trust account designated as the Securities Lending Account with respect to any such Securities Lending Agreement. All Securities Lending Collateral posted by any Securities Lending Counterparty in support of its respective obligation under a Securities Lending Agreement shall be immediately credited to the Securities Lending Account and posted to a sub-account related to the Securities Lending Account. The only permitted withdrawal from or application of funds credited to the Securities Lending Account shall be: (i) for application to obligations of the relevant Securities Lending Counterparty to the Issuer under a Securities Lending Agreement if the Securities Lending Agreement becomes subject to early termination or in the exercise of remedies under the related Securities Lending Agreement upon any "event of default" under and as defined in the related Securities Lending Agreement, including liquidating the related Securities Lending Collateral, or (ii) to return the Securities Lending Collateral to the relevant Securities Lending Counterparty when and as required by the relevant Securities Lending Agreement, in each case as directed by the Servicer.

Amounts credited to the Securities Lending Account shall be applied pursuant to this Section 10.2. To the extent provided in a Securities Lending Agreement, earnings on amounts credited to the Securities Lending Account shall be payable by the Issuer to the related Securities Lending Counterparty.

Amounts credited to the Securities Lending Account shall not be considered an asset of the Issuer for the purposes of the Coverage Tests, but the loaned security or asset that relates to the Securities Lending Account shall be so considered an asset of the Issuer.

The Trustee shall credit to the Collection Account (i) all Collections and (ii) all amounts required to be credited thereto pursuant to this Indenture, including but not limited to, Section 10.3(e)(i) hereof.

The Trustee shall credit to the Initial Deposit Account (i) the Deposit received on the Closing Date for credit to the Initial Deposit Account pursuant to Section 3.2(e) hereof, (ii) all amounts required to be credited thereto pursuant to this Indenture, including but not limited to, Sections 3.2(e), 10.3(e)(ii) and 11.3 hereof and (iii) all proceeds received with respect to the sale of the Post-Closing Sale Collateral, notwithstanding anything to the contrary herein.

Upon the purchase of any item of Portfolio Collateral that is a Delayed Drawdown Loan or a Revolving Loan, the Trustee (as instructed by the Servicer) shall credit Collateral Principal Collections to the Loan Funding Account in an amount equal to the Issuer's maximum future funding obligations under the terms of such Delayed Drawdown Loan or a Revolving Loan and the Collateral Principal Collections so credited shall be considered part of the purchase price of such Delayed Drawdown Loan or Revolving Loan for purposes of Article

XII hereof. When Collateral Principal Collections are received by the Trustee with respect to a Delayed Drawdown Loan or a Revolving Loan, the amount of such Collateral Principal Collections that may thereafter be re-borrowed under the terms of the Delayed Drawdown Loan or the Revolving Loan shall be credited to the Loan Funding Account.

The Trustee shall credit to the Expense Reimbursement Account (i) on the Closing Date the \$50,000 received on the Closing Date for credit to the Expense Reimbursement Account pursuant to Section 3.2(f) hereof, (ii) all amounts required to be credited thereto from available amounts in the Collection Account pursuant to Section 11.1 hereof and (iii) all amounts required to be credited thereto pursuant to Section 10.3(e)(iii) hereof.

The Trustee shall credit to the Closing Expense Account on the Closing Date the amount specified pursuant to Section 3.2(f) hereof.

In addition, the Issuer may, but under no circumstances shall be required to, credit such monies to the Collection Account as it deems, in its sole discretion, to be advisable in the event that, but for such action, an Event of Default would occur.

All monies, instruments, investment property and other property credited to the Collection Account, the Initial Deposit Account, the Expense Reimbursement Account, the Loan Funding Account, the Closing Expense Account and the Reserve Account pursuant to this Indenture, and all Portfolio Collateral and other property credited to the Collateral Account, shall be held by the Trustee as part of the Trust Estate and shall be applied in the manner set forth herein.

The Trustee shall pay free and clear of the lien of the Indenture, upon receipt (or withdrawal from the Collection Account if previously credited thereto), all Retained Accrued Interest, as directed by Bear Stearns.

(ii) (1) each Overcollateralization Test and the Interest Coverage Test are satisfied and (2) the Collateral Quality Tests and the criteria set forth in Section 12.2 hereof are satisfied or if any of the Collateral Quality Tests or the criteria set forth in Section 12.2 is not satisfied, the degree of compliance with such criteria would not be diminished; *provided however*, with respect to Additional Portfolio Collateral purchased with Unscheduled Principal Proceeds, if any of the Overcollateralization Tests or the Interest Coverage Test is not satisfied as set forth in clause (1), the degree of compliance with such tests would not be diminished;

(iii) the Trustee shall have received (i) a certificate of the Servicer dated as of the date of the purchase and the Grant of such Additional Portfolio Collateral to the effect that such purchase is in compliance with the requirements of this Section 11.3 and Section 12.5(a) hereof and (ii) the certificate required pursuant to Section 12.2 hereof.

(b) For purposes of calculating the Collections for this Section 11.3 (and the Balance in the Collection Account for purposes of subsection (a) hereof), Collections shall be deemed to include, as of any date of determination, the sum of 100% of all cash collections actually received in respect of the Portfolio Collateral during such Due Period as of such date of determination and 100% of all Scheduled Distributions to be received (including those which are reasonably expected to be received) in respect of the Portfolio Collateral during such Due Period (excluding, however, any Scheduled Distributions to be received with respect to an item of Defaulted Portfolio Collateral or an item of Equity Portfolio Collateral during such Due Period).

All monies held in the trust accounts described in the first sentence of this Section 11.4 shall be held as part of the Trust Estate subject to the provisions of this Indenture.

## ARTICLE XII

### SALE OF PORTFOLIO COLLATERAL; SUBSTITUTION

#### Section 12.1. Sale of Portfolio Collateral

(a) Provided that no Event of Default has occurred and is continuing and subject to the satisfaction of the conditions specified in Section 10.3 hereof and the restrictions in this Article, the Servicer may direct the Trustee, by Servicer Order, to sell, and the Trustee shall release (or cause to be released) from the lien of this Indenture and sell in the manner directed by the Servicer, any Defaulted Portfolio Collateral, Equity Portfolio Collateral, Credit Risk Portfolio Collateral or Credit Improved Portfolio Collateral (as described in such direction) so long as, with respect to an item of Credit Improved Portfolio Collateral or Credit Risk Portfolio Collateral, the Servicer certifies to the Trustee, as applicable, that:

(i) in the case of an item of Credit Improved Portfolio Collateral (including in connection with a Portfolio Improvement Exchange), in writing before the sale, that the Servicer has identified one or more specific manners in which it will be able, in compliance with the criteria set forth in Section 12.2 and the other requirements of Article XII (and in connection with a Portfolio Improvement Exchange, the requirements set forth in the definition of such term), to cause the Issuer to purchase with the applicable Collateral Disposition Proceeds net of accrued interest and costs, no later than the end of the immediately succeeding Due Period (it being understood that such identification shall not be considered either a requirement or an assurance that any specified purchase will be consummated), one or more items of Substitute Portfolio Collateral having an Aggregate Principal Balance equal to or greater than the Principal Balance of such Credit Improved Portfolio Collateral; and

(ii) in the case of an item of Credit Improved Portfolio Collateral, after giving effect to such sale and the subsequent purchase described in (a) above, the Servicer is required to certify that it reasonably believes that (x) either the Collateral Quality Tests and the criteria set forth in Section 12.2 hereof are satisfied or if one or more of such Collateral Quality Tests or criteria is not satisfied, the degree of compliance therewith would not be diminished and (y) either the Overcollateralization Tests and the Interest Coverage Test are satisfied or if any Overcollateralization Test or the Interest Coverage Test is not satisfied, the degree of compliance with such tests would not be diminished.

(b) An item of Credit Risk Portfolio Collateral may be sold at any time, subject to the Sale Restriction Condition as set forth below.

(c) Notwithstanding any term hereof to the contrary and *provided that* no Event of Default has occurred and is continuing and subject to compliance with the conditions specified in Section 10.3 hereof, any Portfolio Collateral may be sold upon delivery to the Trustee of a certificate of the Servicer to the effect that it has reasonably determined, which may be based upon the advice of an opinion of counsel (a copy of which opinion shall be included with such certificate), that such Portfolio Collateral is, or may become, subject to a withholding or other similar tax (or to an increased rate of withholding or other similar tax). Further, notwithstanding

anything to the contrary stated herein, the Servicer may direct the sale of an item of Portfolio Collateral that was CCC/Caa Portfolio Collateral or Discount Portfolio Collateral at the time of purchase only if it constitutes Credit Risk Portfolio Collateral or Defaulted Portfolio Collateral, is sold in connection with the Optional Redemption of Notes in whole or if the Servicer reasonably expects that the sale and any related purchase of Substitute Portfolio Collateral will restore compliance with any of the Interest Coverage Test, the criteria set forth in Section 12.2 or the Overcollateralization Tests that would be failed or not satisfied in the absence of such sale and purchase.

(d) During any period after the first Due Period if a Sale Restriction Condition occurs, the Issuer shall send a notice to the Trustee and the Holders of the Notes to the effect that, for so long as the applicable Sale Restriction Condition exists, unless the Holders of at least 60% in Aggregate Principal Amount of the Notes elect to retain the guidelines in effect on the Closing Date for sales of an item of Credit Risk Portfolio Collateral or Credit Improved Portfolio Collateral, as applicable, (i) no item of Credit Risk Portfolio Collateral may be sold unless (A) the rating of the obligor or of any debt or securities issued by the obligor under such an item of Credit Risk Portfolio Collateral has been lowered, withdrawn or put on any "credit watch" list for possible downgrade (or similar list) with negative implications by S&P, Moody's or Fitch or (B) such an item of Credit Risk Portfolio Collateral satisfies the Credit Risk Criteria and is not objected to by the Holders of more than 60% in Aggregate Principal Amount of the Notes within forty-five (45) days of the date of such notice, or such later date as extended by the Trustee at the direction of the Servicer *provided* that in making such determination to sell an item of Credit Risk Portfolio Collateral, an increase in credit spread or a decrease in Market Value of such item of Credit Risk Portfolio Collateral may only be used as corroboration of other bases for such determination or (ii) no item of Credit Improved Portfolio Collateral may be sold unless such item of Credit Improved Portfolio Collateral satisfies the Credit Improved Criteria and is not objected to by the Holders of more than 60% in Aggregate Principal Amount of the Notes within forty-five (45) days of the date of such notice, or such later date as extended by the Trustee at the direction of the Servicer *provided*, that in making such determination to sell such item of Credit Improved Portfolio Collateral, a reduction in credit spread or an increase in Market Value of such item of Credit Improved Portfolio Collateral may only be utilized as corroboration or other bases for such judgment.

(e) Notwithstanding anything to the contrary set forth above, the Servicer may at any time direct the Trustee to sell any item of Portfolio Collateral that (i) was obtained as a result of any reorganization or restructuring of any Credit Risk Portfolio Collateral or other Portfolio Collateral of an issuer under financial distress, or (ii) does not comply with the criteria set forth in Section 12.2.

Notwithstanding anything in this Indenture to the contrary, no acquisition or disposition of Portfolio Collateral or other eligible asset (as defined in Rule 3a-7) shall be effected by or on behalf of the Issuer for the primary purpose of recognizing gains or decreasing losses resulting from market value changes.

Notwithstanding the forgoing, if there is no appointment of a successor Servicer with 90 days after the resignation or termination of the Servicer, any sales or disposition of Portfolio Collateral shall be limited to Credit Risk Portfolio Collateral and Defaulted Portfolio

Collateral and Equity Portfolio Collateral; *provided* that such restriction on the sale or disposition of Portfolio Collateral shall not apply if the Portfolio Collateral is being liquidated in whole or in part in connection with an acceleration or early termination of the Notes.

Section 12.2. Eligibility Criteria and Replacement Restrictions

Subject to Section 3.4 (with respect to Original Portfolio Collateral) in connection with dates occurring prior to the Effective Date, a security to be Granted to the Trustee after the Closing Date for inclusion in the Trust Estate as an item of Portfolio Collateral will be eligible for purchase by the Issuer and inclusion in the Trust Estate only if, as of the date of such Grant of such security the following conditions are met, as certified to the Trustee by Servicer Order, the Overcollateralization Tests, the Interest Coverage Test and the criteria set forth below in this Section 12.2 hereof are satisfied or if one of such tests or criteria is not satisfied, the degree of compliance with such tests or criteria would not be diminished except as otherwise required by Sections 11.3 and 12.4. In addition, if a Suspension Trigger Event is in effect, a majority of the Controlling Class may deliver notice to the Issuer directing the Issuer to suspend any purchases of additional items for inclusion in the Trust Estate as an item of Portfolio Collateral. Such suspension shall automatically terminate once a Suspension Trigger Event is no longer in effect.

Notwithstanding the foregoing provisions of this Section 12.2 and Section 11.3, if the Issuer or the Servicer has previously entered into a commitment to purchase an item of Portfolio Collateral to be included in the Trust Estate and at the time of such commitment such item of Portfolio Collateral complied with the definition of Portfolio Collateral and each of the foregoing criteria in this Section 12.2, then the Issuer may consummate the purchase of such item of Portfolio Collateral notwithstanding that such item of Portfolio Collateral fails to comply with the definition of Portfolio Collateral and such criteria on the date of settlement, *provided that* the agreed to settlement date shall not be more than thirty (30) days after the commitment to acquire such item of Portfolio Collateral or, if settlement occurs more than 30 days following the commitment, such item of Portfolio Collateral satisfies the criteria of this Section 12.2 as of the date of settlement.

Notwithstanding the foregoing provisions of this Section 12.2 and Section 11.3, the Issuer or the Servicer on behalf of the Issuer shall be deemed to have purchased or sold (as the case may be) any Portfolio Collateral as of the date on which the Issuer delivers to the Trustee a commitment to purchase or sell (as the case may be) such items of Portfolio Collateral, in each case entitling the Issuer (or the Trustee as assignee thereof) to receive or sell (as the case may be), and requiring the purchaser to purchase (in the case of a sale), such Portfolio Collateral and, in such event, the Issuer shall be deemed to have purchased or sold (as the case may be) such Portfolio Collateral on such date. Under the circumstances described in the immediately preceding sentence, if the transaction contemplated by the commitment referred to therein does not settle on or before the thirtieth (30th) day following the scheduled settlement date, the deemed purchase or sale shall be deemed not to have occurred.

Further, notwithstanding the foregoing provisions of this Section 12.2 and Section 11.3, any certifications or other documents required to be delivered by the Servicer or the Issuer in connection with the purchase or sale of any item of Portfolio Collateral during the Revolving Period may be delivered by the Issuer or the Servicer on the settlement date for such item of Portfolio Collateral even if such date occurs after the Revolving Period.

#### Section 12.3. Sale of Portfolio Collateral Subject to Offer or Call

(a) The Servicer may only direct the Trustee to sell an item of Portfolio Collateral that is the subject of an Offer or call for redemption, if together with its direction to sell such security, the Servicer certifies to the Trustee that the sales price for such Security is equal to or greater than 1% less than the price available pursuant to such Offer or call and such sale will be treated as if the Offer or call were consummated for purposes of determining the Collections for the Due Period relating to the date on which such sale occurs.

(b) If an item of Portfolio Collateral becomes subject to an Exchange Offer after it has been purchased by the Issuer, the Servicer will be permitted to take such action with respect to the Underlying Instrument or the issuer thereof as may be required to convert such item of Portfolio Collateral into an item of Equity Portfolio Collateral.

#### Section 12.4. Purchase of Substitute Portfolio Collateral

(a) Upon receipt by the Trustee of a Servicer Order with respect thereto, the Collateral Disposition Proceeds received during any Due Period during the Revolving Period may be paid out of the Collection Account, on any Business Day during such Due Period or the immediately succeeding Due Period, for the purpose of purchasing one or more items of Substitute Portfolio Collateral for inclusion in the Trust Estate in an amount not to exceed the amount of such proceeds and specified in such Servicer Order; *provided that* the Trustee shall have received (i) a certificate of the Servicer dated as of the date of the purchase and the Grant of such Substitute Portfolio Collateral to the effect that such purchase is in compliance with the requirements of this Section 12.4 and Section 12.5(a) hereof and (ii) the certificate required pursuant to Section 12.2 hereof.

(b) In addition to the requirements set forth in 12.4(a), in connection with Substitute Portfolio Collateral purchased with Collateral Disposition Proceeds from the sale of Defaulted Portfolio Collateral, each of the Overcollateralization Tests and the Interest Coverage Test are satisfied, in each case both before and after giving effect to such purchase.

(c) In connection with a sale of an item of Credit Improved Portfolio Collateral after the Revolving Period or the receipt of Collateral Principal Collections due to an unscheduled prepayment after the Revolving Period, the Servicer may enter into commitments to apply such Collateral Disposition Proceeds or such unscheduled prepayments (net of accrued interest and costs) to the purchase of Portfolio Loans as either Additional Portfolio Collateral or Substitute Portfolio Collateral having an Aggregate Principal Amount equal to or greater than the Principal Balance of the original item of Portfolio Collateral within 90 days of receipt of such proceeds, so long as the Servicer certifies as of the date of purchase that it reasonably believes at the time of such commitment that, after giving effect to such sale and subsequent purchase, (A)

each of the Overcollateralization Tests and the other collateral criteria described herein would be satisfied and the Interest Coverage Test was satisfied for the most recent Payment Date, (B) such Portfolio Loan to be purchased has a Moody's Rating equal to or higher than the Moody's Rating of the original item of Portfolio Collateral, (C) such Portfolio Loan to be purchased has an S&P Rating equal to or higher than the S&P Rating of the original item of Portfolio Collateral, (D) such Portfolio Loan to be purchased has a stated maturity on or prior to the final maturity of such original item of Portfolio Collateral and (E) neither Rating Agency has reduced or withdrawn (and not restored) the rating assigned by it on the Closing Date to any Class of Notes.

Section 12.5. Conditions Applicable to all Transactions Involving Purchases of Portfolio Collateral

(a) Any transaction effected under this Article or under Sections 3.4, 10.2, 10.3, 11.3 or 12.4 hereof involving the Servicer and one or more Affiliates of the Servicer shall be conducted on an arm's-length basis. Any such transaction effected with an Affiliate of the Servicer, the Issuer or the Trustee, shall be effected on terms as favorable to the Noteholders as would be the case if such Person were not so affiliated; *provided that* the Trustee shall have no responsibility to oversee compliance with this clause by the Issuer or Servicer.

(b) Upon any purchase or substitution pursuant to this Article or Sections 11.3, 12.3(b) or 12.4 hereof, each such Pledged Security shall be Delivered to the Trustee.

(c) The Issuer hereby represents and warrants and will certify to the Trustee in an Officer's Certificate as of the date of each purchase and Grant to the Trustee of each Portfolio Collateral pursuant to Section 11.3, Section 12.3(b) and Section 12.4 hereof:

(i) the Issuer is the owner of such item of Portfolio Collateral and the Deposit free and clear of any liens, claims (including any adverse claims) or encumbrances of any nature whatsoever, except for those granted or expressly permitted pursuant to this Indenture and due bills, if any, with respect to interest, or a portion thereof, accrued on such Portfolio Collateral prior to the first payment date and owed by the Issuer to the seller of such Portfolio Collateral;

(ii) the Issuer has acquired its ownership in such item of Portfolio Collateral and the Deposit in good faith without notice of any adverse claim, except as described in paragraph (i) above;

(iii) the Issuer has Delivered such item of Portfolio Collateral to the Trustee and has not assigned, pledged or otherwise encumbered any interest in such Portfolio Collateral or the Deposit other than interests granted or expressly permitted pursuant to this Indenture;

(iv) the Issuer has full right to Grant and does hereby Grant such item of Portfolio Collateral and the Deposit to the Trustee;

(v) the information set forth with respect to such item of Portfolio Collateral in Schedule A hereto is correct; and

(vi) such item of Portfolio Collateral satisfies the requirements of the definition of Portfolio Collateral.

#### Section 12.6. [Sale of Warrants](#)

The Servicer may direct the Trustee in writing to sell, and the Trustee shall release from the lien of this Indenture and sell in the manner directed by the Servicer, any warrant that is part of a Unit at any time after such warrant becomes separately tradable.

#### Section 12.7. [Underlying Instruments](#)

(a) With respect to each Portfolio Loan acquired by a Participation, the Issuer shall cause the Trustee to hold at its office in the State of New York an original executed Underlying Instrument entered into between the Issuer and the Selling Institution which, except in the case of a Portfolio Loan evidenced by an instrument (the original of which shall be delivered to the Trustee), may be a copy thereof, which may be sent by telecopier, certified by the Servicer or the Issuer as a true and accurate copy (which in the case of a Participation shall include the loan and security documentation with respect to the underlying loan) as provided to it by the Servicer, and, *provided that* the Trustee has sufficient advance notice of such transaction, the Trustee shall send a notice to the Selling Institution and the underlying obligor of such Floating Rate Portfolio Collateral on or prior to the Business Day on which such Floating Rate Portfolio Collateral is to be included in the Trust Estate.

(b) The Issuer (upon Servicer Order) may enter into any amendment of or supplement to any Underlying Instrument with respect to any item of Portfolio Collateral, without notice to or consent of any Noteholder, but with prior written notice to the Trustee, if the amendment or supplement is required (a) by the provisions of the Underlying Instrument or this Indenture, (b) to cure any ambiguity, inconsistency or formal defect or omission, (c) in connection with any authorized amendment of or supplement to this Indenture, or (d) to make any other change deemed necessary or beneficial by the Issuer (upon Servicer Order); *provided that*, unless such Portfolio Loan is in default, or default is reasonably foreseeable, after giving effect to such amendment or supplement, such item of Portfolio Collateral satisfies the definition of Portfolio Collateral hereunder. The Issuer shall be under no obligation to enter into any such amendment or supplement, and the Servicer and the Issuer shall be under no obligation to provide any Person with any information related thereto (other than to confirm to the Trustee compliance with this Section), to the extent that the Servicer or the Issuer, as the case may be, believes in good faith that any action so taken is necessary in order not to violate any law, regulation or contractual arrangement. The Servicer shall retain any appropriate records of such amendments.

(c) If an amendment of or supplement to any Underlying Instrument without any consent of Noteholders is not permitted by subsection (b), the Issuer may enter into, and the Trustee shall, as directed by the Issuer, accept, or if necessary consent to, such amendment or supplement, with at least 10 days' prior written notice to the Trustee and the Holders of the Notes, unless the Trustee and the Issuer have received notification by the more than 33-1/3% of the Aggregate Principal Amount of the Notes objecting to such amendment or supplement within 10 days of such notice.

(d) If the Servicer determines that any amendment to the Underlying Instrument of a DIP Loan materially affects the credit quality of such DIP Loan, the Servicer shall promptly notify the Rating Agencies of such amendment, prior to execution of such amendment.

Section 12.10. [Synthetic Securities; Strip Securities](#)

For purposes of the eligibility criteria and related tests herein, a Synthetic Security will generally be included as an item of Portfolio Collateral having the maturity, interest rate and other payment characteristics of the Synthetic Security and not of the Reference Obligation (including characterization as either an item of Fixed Rate Portfolio Collateral or Floating Rate Portfolio Collateral) and, with respect to all other characteristics, will be included as an item of Portfolio Collateral having the relevant characteristics of the related Reference Obligation and not of the Synthetic Security. The Servicer will notify Moody's and Standard & Poor's in writing or electronically with respect to each purchase of a Synthetic Security not later than the trade date for such Synthetic Security; except that, if, at any time, the rating by Moody's on any Class of Notes then rated by Moody's has been downgraded at least one rating sub-category (and has not been restored) or is put on credit watch (with negative implications), no Synthetic Security will be purchased by the Issuer for inclusion in the Trust Estate unless Moody's has received notice of such purchase and any information necessary to evaluate such purchase, receipt of which shall be acknowledged by a Vice President or more senior member of Moody's CDO Group, in writing or electronically, and after such receipt is acknowledged, either Moody's shall inform the Servicer that such purchase will not cause Moody's to withdraw or further downgrade any of the then-current ratings assigned by Moody's to any of the Notes within 10 Business Days, or after 10 Business Days the Servicer may assume that such purchase will not cause Moody's to withdraw or further downgrade any of the then-current ratings assigned by Moody's to any of the Notes. If after the trade date for any Synthetic Security, there is any modification to the terms of such Synthetic Security, the Servicer will provide notice of such modification to Moody's and Standard & Poor's. Further, unless otherwise agreed by Moody's or as otherwise contemplated in the definition of Synthetic Security in Section 1.1 hereof, upon maturity, acceleration or early termination of a Synthetic Security or the related Reference Obligation, the Issuer will accept only the Reference Obligation or the par amount thereof unless the Reference Obligation would be characterized as Credit Risk Portfolio Collateral, Defaulted Portfolio Collateral or Credit Improved Portfolio Collateral, in which case the Issuer may accept the current fair market value thereof, except in the event of the exercise of any put or call provision of the Synthetic Security or Reference Obligation, in which case the Issuer shall only accept the Reference Obligation or an amount greater than or equal to the par amount thereof, and the Issuer will take all commercially reasonable actions under the Synthetic Security to accomplish the foregoing. Notwithstanding anything in this Indenture to the contrary, in connection with the acquisition of a Synthetic Security and in lieu of all or a portion of the purchase price for such Synthetic Security, the Issuer may grant the related Synthetic Security a first priority security interest in cash and Eligible Investments designated by the Issuer and the proceeds thereof, which may be released from the lien of the Indenture and deposited with such Synthetic Security Obligor (or an intermediary or agent therefor) and invested as provided by the

terms of such Synthetic Security, and the proceeds of which may be applied to make periodic payments under such Synthetic Security. For purposes of this Indenture, the grant of such security interest shall be treated as the payment of a purchase price equal to the value of the cash and Eligible Investments granted, and the Issuer's obligation to make periodic payments under such Synthetic Security shall be disregarded.

#### Section 12.11. [Delayed Drawdown Loans and Revolving Loans](#)

A Delayed Drawdown Loan will not be eligible for purchase by the Issuer for inclusion in the Trust Estate unless the related Underlying Instrument provides (i) that advances may be made for a period not to exceed one (1) year from the date of origination of the Delayed Drawdown Loan and in any event before the end of the Revolving Period; (ii) for a maximum amount that can be borrowed from the Issuer on one or more specified borrowing dates; (iii) that funds borrowed from the Issuer and subsequently repaid may not be reborrowed; and (iv) that the borrower is entitled to such additional advances only upon the achievement of financial performance or other objective criteria established at origination and set forth in such credit agreement.

In addition, simultaneously with the Issuer's purchase of any Delayed Drawdown Loan or Revolving Loan, the Issuer is required to deposit into the Loan Funding Account the full amount of any advances or delayed draws that may be required of the Issuer thereunder and principal repaid under any Revolving Loan is required to be deposited in the Loan Funding Account to the extent the Issuer's obligation to fund any future advances has not been irrevocably reduced.

conduct and consummation of proceedings at law or in equity, (iii) the right to receive all notices, accountings, consents, releases and statements thereunder and (iv) the right to do any and all other things whatsoever that the Issuer is or may be entitled to do thereunder; *provided* so long as no Event of Default has occurred and is continuing hereunder, the Trustee hereby grants the Issuer a license to exercise all of the Issuer's rights pursuant to the Servicing Agreement without notice to or the consent of the Trustee (except as otherwise expressly required by this Indenture, including, without limitation, as set forth in paragraph (f) of this Section 14.1 hereof), which license shall be and is hereby deemed to be automatically revoked upon the occurrence of any Event of Default hereunder until such time, if any, as the Event of Default is cured or waived. The Trustee shall have no liability with respect to any act or failure to act by the Issuer under the Servicing Agreement (provided that this sentence shall not limit or relieve the Trustee from any responsibility it may have under this Indenture upon the occurrence of and during the continuance of any Event of Default).

(b) The assignment made hereby is executed as collateral security, and the execution and delivery hereby shall not in any way impair or diminish the obligations of the Issuer under the provisions of the Servicing Agreement, nor shall any of the obligations contained in the Servicing Agreement be imposed on the Trustee.

(c) Upon the retirement of the Notes and the release of the Trust Estate from the lien of this Indenture, this assignment and all rights herein assigned to the Trustee for the benefit of the Noteholders shall cease and terminate and all the estate, right, title and interest of the Trustee in, to and under the Servicing Agreement shall revert to the Issuer and no further instrument or act shall be necessary to evidence such termination and reversion.

(d) The Issuer represents that it has not executed any other assignment of the Servicing Agreement.

(e) The Issuer agrees that this assignment is irrevocable, and that it will not take any action which is inconsistent with this assignment or make any other assignment inconsistent herewith. The Issuer will, upon the request of the Trustee, execute all instruments of further assurance and all such supplemental instruments with respect to this assignment as the Trustee may specify.

(f) The Issuer hereby agrees, and hereby undertakes to obtain the agreement of the Servicer in the Servicing Agreement, to the following:

(1) The Servicer consents to, and agrees to perform, the provisions hereof applicable to the Servicer.

(4) Except as set forth in the Servicing Agreement, neither the Issuer nor the Servicer will enter into any agreement amending, modifying or terminating the Servicing Agreement or selecting or consenting to a successor manager (other than an amendment or modification of the type that may be made to this Indenture without Holder consent), (a) without satisfying the Rating Condition and (b) so long as the Requisite Holders have not objected in writing to such amendment or modification within 30 days of notice thereof; and any such amendment, modification, termination, selection or consent (in each case, other than pursuant to the provisions of the Servicing Agreement) without confirmation by the Rating Agencies or if the Requisite Holders have objected shall be void; *provided that* the consent of Requisite Noteholders or confirmation by Moody's and S&P shall not be required for an amendment or modification to cure any ambiguity, to correct or supplement any provisions therein, to comply with any changes in law, or to make any other provisions with respect to matters or questions arising under the Servicing Agreement which shall not be inconsistent with the provisions thereof or of this Indenture, so long as such amendment or modification does not affect in any material respects the interests of any Noteholder (as evidenced by an Opinion of Counsel acceptable to the Trustee) and each of Moody's and S&P is notified in writing of such amendment or modification. Notwithstanding the foregoing, nothing in this subsection shall limit, in any way, any of the rights or remedies available to the Servicer pursuant to the Servicing Agreement.

(5) Except as set forth herein and in the Servicing Agreement, the Servicer shall continue to serve as Servicer under the Servicing Agreement notwithstanding that the Servicer shall not have received amounts due it under the Servicing Agreement because sufficient funds were not then available hereunder to pay such amounts in accordance with Article XI hereof, and agrees not to cause the filing of a petition in bankruptcy against the Issuer for any reason whatsoever, including without limitation the non-payment to the Servicer, until the payment in full of all Notes issued under this Indenture and the expiration of a period equal to one year and one day following all such payments; *provided that* nothing in this clause shall preclude, or be deemed to estop, the Servicer (A) from taking any action prior to the expiration of the aforementioned one year and one day period in (x) any case or proceeding voluntarily filed or commenced by the Issuer or the Co-Issuer, as the case may be, or (y) any involuntary insolvency proceeding filed or commenced against the Issuer or the Co-Issuer, as the case may be, by a Person other than the Servicer or its Affiliates, or (B) from commencing against the Issuer or the Co-Issuer or any properties of the Issuer or the Co-Issuer any legal action which is not a bankruptcy, reorganization, arrangement, insolvency, moratorium or liquidation proceeding. Notwithstanding the foregoing, nothing in this subsection shall limit, in any way, any of the rights or remedies available to the Servicer pursuant to the Servicing Agreement.

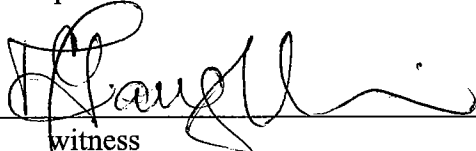

(6) The Servicer will perform its obligations with respect to any conflict of interest in accordance with the applicable requirements of the Investment Advisers Act of 1940.

**Rating Methodology for the Standard & Poor's Rating**

**S&P RATING**

The S&P Rating of an item of Portfolio Collateral as of any date of determination shall be determined in accordance with the following methodology:

(i) If there is an issuer credit rating of the borrower of the item of Portfolio Collateral (the "Borrower"), or the guarantor who unconditionally and irrevocably guarantees the item of Portfolio Collateral (the "Guarantor") by S&P, the most current issuer credit rating for such Borrower or Guarantor;

(ii) (a) if there is not an issuer credit rating of the Borrower or its Guarantor by S&P, but there is a rating by S&P on a senior secured obligation of the Borrower or its Guarantor, then the S&P Rating of the item of Portfolio Collateral will be one subcategory below such rating; (b) if there is not a rating by S&P on a senior secured obligation of the Borrower or its Guarantor, but there is a rating by S&P on a senior unsecured obligation of the Borrower or its Guarantor, then the S&P Rating will be such rating; and (c) if there is not a rating by S&P on a senior obligation of the Borrower or its Guarantor, but there is a rating by S&P on a subordinated obligation of the Borrower or its Guarantor, then the S&P Rating will be two subcategories above such rating if such rating is "BBB-" or higher and will be one subcategory above such rating if such rating is "BB+" or lower;

(iii) if there is neither an issuer credit rating of the Borrower or its Guarantor by S&P nor a rating by S&P on an obligation of the Borrower or its Guarantor, then the S&P Rating may be determined using any one of the methods below:

(A) if an obligation of the Borrower or its Guarantor is publicly rated by Moody's, then the S&P Rating will be determined in accordance with the methodologies for establishing the Moody's Default Probability Rating, except that the S&P Rating of such obligation will be (1) one subcategory below the S&P equivalent of the rating assigned by Moody's if such security is rated "Baa3" or higher by Moody's and (2) two subcategories below the S&P equivalent of the rating assigned by Moody's if such security is rated "Ba1" or lower by Moody's; provided that item of Portfolio Collateral constituting no more than 5% of the Maximum Investment Amount (which concentration may be increased to 10% upon satisfaction of the Rating Condition with respect to S&P) may be given a S&P Rating based on a rating given by Moody's as provided in this subclause (a) (after giving effect to the addition of the relevant item of Portfolio Collateral, if applicable);

(B) if no other security or obligation of the Borrower or its Guarantor is rated by S&P or Moody's, then the Servicer may apply to S&P for a S&P credit rating estimate, which will be its S&P Rating; or

(C) (1) if such item of Portfolio Collateral (other than a Current-Pay Obligation) is not rated by Moody's or S&P, no other security or obligation of the Borrower or its Guarantor is rated by S&P or Moody's and if the Servicer determines in its sole discretion based on information available to it after reasonable inquiry that such Borrower (x) is not subject to any bankruptcy or reorganization proceedings nor in default on any of its obligations (unless the subject of a good faith business dispute), (y) is a legally constituted corporate entity having the minimum legal, financial and operational infrastructure to carry on a definable business, deliver and sell a product or service and report its results in generally accepted accounting terms as verified by a reputable audit firm and (z) is not so vulnerable to adverse business, financial and economic conditions that default in its financial or other obligations is foreseeable in the near term if current operating trends continue, then the S&P Rating will be "B-"; provided that the Servicer must apply to S&P for a S&P credit rating on such Borrower within 30 days after the addition of the relevant item of Portfolio Collateral; provided, further, that items of Portfolio Collateral constituting no more than 5% of the Maximum Investment Amount may be given an S&P Rating based on this subclause (C) (after giving effect to the addition of the relevant item of Portfolio Collateral, if applicable) or (2) if such item of Portfolio Collateral is a Current-Pay Obligation and is not rated by Moody's or S&P and no other security or obligation of the Borrower or its Guarantor is rated by S&P or Moody's, then the S&P Rating will be "CCC-"; or

(iv) if the item of Portfolio Collateral is a CLO Security (a) if the CLO Security has an S&P credit rating, then the S&P Rating shall be such credit rating; otherwise, (b) the S&P Rating shall be the written credit estimate issued by S&P for that item of Portfolio Collateral;

provided that if (i) the relevant Borrower or Guarantor or obligation is placed on any positive "credit watch" list by S&P, such rating will be increased by one rating subcategory or (ii) the relevant Borrower or Guarantor or obligation is placed on any negative "credit watch" list by S&P, such rating will be decreased by one rating subcategory.

Notwithstanding the foregoing, in the case of an item of Portfolio Collateral that is a DIP Loan, the S&P Rating shall be (A) the rating assigned thereto by S&P if the rating is public, (B) the rating assigned by S&P if the rating is confidential, but only if all appropriate parties have provided written consent to its disclosure and use, (C) the rating assigned by S&P thereto through an estimated rating or (D) the rating assigned thereto by S&P in connection with the acquisition thereof upon the request of the Servicer. In the case of an item of Portfolio Collateral that is a PIK Security, Structured Finance Obligation or Synthetic Securities, the S&P Rating may not be determined pursuant to clause (iii)(A) above.

S&P Ratings for entities or obligations relevant hereunder other than Borrowers and items of Portfolio Collateral shall be determined in a corresponding manner.

Moody's Weighted Average Rating Factor Test Procedures

### CALCULATION OF WEIGHTED AVERAGE RATING

The "Weighted Average Rating" is determined by summing the products obtained by *multiplying* the principal amount of each item of Portfolio Collateral (excluding Defaulted Portfolio Collateral, but including Current Pay Obligations), *by* its Moody's Rating Factor, *dividing* such sum *by* the aggregate principal amount of all such securities (excluding Defaulted Portfolio Collateral, but including Current Pay Obligations) and rounding the result up to the nearest whole number. The "Moody's Rating Factor" relating to any Portfolio Collateral is the number set forth in the table below opposite the Rating of such Portfolio Collateral.

<b>Moody's</b>	<b>Moody's</b>	<b>Moody's</b>	<b>Moody's</b>

For purposes of the Weighted Average Rating Test, any item of Portfolio Collateral issued or guaranteed by the United States government or any agency or instrumentality thereof is assigned a Moody's Rating Factor of 1. Short-term securities rated "P-1" will be assigned a Moody's Rating Factor equivalent to that of the senior unsecured rating of the issuer. Short-term securities rated "P-1" of an issuer that does not have such a senior unsecured rating will be assigned a Moody's Rating Factor of 120. For purposes of calculating the Weighted Average Rating and the Weighted Average Rating Test, no item of Defaulted Portfolio Collateral will be taken into account in either the denominator or numerator of such test.

The "Moody's Rating" of any item of Portfolio Collateral shall be determined pursuant to the following method:

- (a) Reserved.
- (b) With respect to any Portfolio Collateral that is a Moody's Senior-Secured Loan, the following:
  - (i) if the borrower of such Portfolio Collateral, or a guarantor that unconditionally and irrevocably provides a guarantee solely for such Portfolio Collateral, has a Moody's corporate family rating, such rating (regardless of whether there is a published rating by Moody's on the Portfolio Collateral of such borrower held by the Issuer);
  - (ii) if the borrower of such Portfolio Collateral does not have a Moody's corporate family rating, then the Moody's Rating of such Portfolio Collateral shall be deemed to be the rating thereof as may be assigned by Moody's upon the request of the Issuer or the Servicer;
  - (iii) if the borrower of such Portfolio Collateral does not have a Moody's corporate family rating, but another security or obligation of the borrower is rated by Moody's and Moody's has not assigned a rating pursuant to subclause (ii) above, then the Moody's Rating of such Portfolio Collateral shall be determined in the following order:
    - (a) if there is a rating on a senior unsecured obligation of the borrower, then the Moody's Rating of such Portfolio Collateral shall equal such rating;
    - (b) if there is a rating on a senior secured obligation of the borrower, then the Moody's Rating of such Portfolio Collateral shall be one subcategory below such rating;
    - (c) if there is a rating on a subordinated obligation of the borrower, then the Moody's Rating of such Portfolio Collateral shall be one subcategory above such rating;or
  - (iv) if such Portfolio Collateral is not rated by Moody's, and no other security or obligation of the borrower is rated by Moody's and neither the Issuer nor the Servicer obtains a Moody's Rating for such Portfolio Collateral pursuant to subclause (ii) above, then the Moody's Rating of such Portfolio Collateral may be determined using any one of the methods provided below (provided that no more than 5% of the Aggregate Principal Amount may have a Moody's Rating determined pursuant to subclauses (B), (C), (D) and (E) below):
    - (A) (1) if there is an issuer rating of the borrower by S&P (excluding a corporate credit estimate), then the Moody's Rating of such Portfolio Collateral shall be (a) one (1) subcategory below Moody's equivalent of such rating assigned by S&P if such rating is "BBB-" or higher by S&P and (b) two (2) subcategories below the Moody's equivalent of the rating assigned by S&P if such rating is "BB+" or lower by S&P; provided that no more than 10% of the Aggregate Principal Amount may be assigned a Moody's Rating as provided in this subclause (A) and clause (b)(iii);

(2) if there is not an issuer rating of the borrower by S&P but a security or obligation of the borrower is rated by S&P (excluding a corporate credit estimate) (a "parallel security"), then the rating of such parallel security shall be determined in accordance with the methodology set forth in subclause (A)(1) above, and the Moody's Rating of such Portfolio Collateral shall be determined in accordance with the methodology set forth in clause (iii) above (for such purposes treating the parallel security as if it were rated by Moody's at the rating determined pursuant to this subclause (A)(2));

(B) if the borrower of such Portfolio Collateral is a U.S. borrower and such Portfolio Collateral is a obligation of the borrower and (1) neither the borrower nor any of its Affiliates is subject to reorganization or bankruptcy proceedings, (2) no debt securities or obligations of the borrower are in default, (3) neither the borrower nor any of its Affiliates have defaulted on any debt during the past two (2) years, (4) the borrower has been in existence for the past five (5) years, (5) the borrower is current on any cumulative dividends, (6) the fixed-charge coverage ratio for the borrower exceeds 125% for each of the past two (2) fiscal years and for the most recent quarter, (7) the borrower had a net profit before tax in the past fiscal year and the most recent quarter, and (8) the annual financial statements of the borrower are unqualified and certified by a firm of independent accountants of international reputation, and quarterly statements are unaudited but signed by a corporate officer, the Moody's Rating of such Portfolio Collateral shall be "B3";

(C) if the borrower of such Portfolio Collateral is a U.S. borrower and such Portfolio Collateral is a obligation of the borrower and (1) neither the borrower nor any of its Affiliates is subject to reorganization or bankruptcy proceedings and (2) no debt security or obligation of the borrower has been in default during the past two (2) years, the Moody's Rating of such Portfolio Collateral shall be "Caa2"; or

(D) if any debt security or obligation of the borrower of such Portfolio Collateral has been in default during the past two (2) years, the Moody's Rating of such Portfolio Collateral shall be "Ca";

(c) With respect to any Portfolio Collateral that is a Non Senior Secured Portfolio Loan, the following:

(i) if such Portfolio Collateral is rated by Moody's, such rating;

(ii) with respect to Portfolio Collateral issued by U.S. issuers if such Portfolio Collateral is not rated by Moody's but another security or obligation of the issuer is rated by Moody's, then the Moody's Rating of such Portfolio Collateral shall be determined as follows:

(A) if there is a rating of an obligation of the issuer of the same priority, then the Moody's Rating of such Portfolio Collateral shall be such rating;

(B) if the rating is on a senior unsecured obligation of the issuer, then,

(1) if such Portfolio Collateral is a senior secured obligation of the issuer, then the Moody's Rating of such Portfolio Collateral shall be one subcategory above such rating, with a rating of "Aaa" remaining the same;

(2) if such rating is "B1" or higher and if such Portfolio Collateral is a subordinated obligation of the issuer, then the Moody's Rating of such Portfolio Collateral shall be two subcategories below such rating;

(3) if such rating is between "B2" and "Ca", inclusive, and if such Portfolio Collateral is a subordinated obligation of the issuer, then the Moody's Rating of such Portfolio Collateral shall be one subcategory below such rating; and

(4) if such rating is lower than "Ca" the Moody's Rating of such Portfolio Collateral shall be "C", if such Portfolio Collateral is a subordinated obligation of the issuer;

(C) if the rating is on a subordinated obligation of the issuer and if such Portfolio Collateral is a senior secured obligation of the issuer, then

(1) if the rating is "Baa3" or higher, the Moody's Rating of such Portfolio Collateral shall be one subcategory above such rating;

(2) if such rating is "B2" or higher but lower than "Baa3", the Moody's Rating of such Portfolio Collateral shall be two subcategories above such rating;

(3) if such rating is "B3", the Moody's Rating of such Portfolio Collateral shall be one subcategory above such rating; and

(4) if such rating is lower than "B3", the Moody's Rating of such Portfolio Collateral shall equal such rating;

(D) if there is a rating on a subordinated obligation of the issuer and if such Portfolio Collateral is a senior unsecured obligation of the issuer, then

(1) if such rating is "B3" or higher, the Moody's Rating of such Portfolio Collateral shall be one subcategory above such rating; and

(2) if such rating is lower than "B3", the Moody's Rating of such Portfolio Collateral shall equal such rating;

(E) if the rating is on a senior secured obligation of the issuer, then,

(1) if such rating is "Ca" or higher and such Portfolio Collateral is a senior unsecured obligation of the issuer, the Moody's Rating of such Portfolio Collateral shall be one subcategory below such rating;

(2) if such rating is "Caa2" or higher and such Portfolio Collateral is a subordinated obligation of the issuer, the Moody's Rating of such Portfolio Collateral shall be two subcategories below such rating, and

(3) if such rating is lower than "Caa2", the Moody's Rating of such Portfolio Collateral shall be "C";

(iii) if such Portfolio Collateral is not rated by Moody's, and no other security or obligation of the issuer is rated by Moody's, then the Moody's Rating of such Portfolio Collateral may be determined using any one of the methods below:

(A) (1) if such Portfolio Collateral is rated by S&P (excluding a corporate credit estimate), then (a) if such rating is "BBB-" or higher, the Moody's Rating of such Portfolio Collateral shall be one subcategory below the Moody's equivalent of such rating assigned by S&P; and (b) if such rating is "BB+" or lower, the Moody's Rating of such Portfolio Collateral shall be two subcategories below the Moody's equivalent of such rating assigned by S&P; and

(2) if such Portfolio Collateral is not rated by S&P but another security or obligation of the issuer is rated by S&P (excluding a corporate credit estimate) (a "parallel security"), then the Issuer or the Servicer on behalf of the Issuer may elect (a) first to establish the Moody's equivalent of the rating of such parallel security determined in accordance with the methodology set forth in clause (iii)(A)(1) above, in which case the Moody's Rating of the Portfolio Collateral shall be determined in accordance with the methodology set forth in clause (ii) above, treating the parallel security as if it were rated by Moody's at the rating determined pursuant to this subclause (2) or (b) to present such Portfolio Collateral to Moody's for an estimate of such Portfolio Collateral's rating factor as provided in clause (B) below;

(B) if such Portfolio Collateral is not rated by Moody's and (x) no other security or obligation of the issuer is rated by Moody's or S&P, or (y) another security or obligation of the issuer is rated by S&P (excluding a corporate credit estimate) and the Issuer or the Servicer on behalf of the Issuer so elects as provided in clause (A)(2)(b) above, then the Issuer or the Servicer on behalf of the Issuer, may, within three (3) Business Days after the later of (a) the date on which the Issuer commits to purchase such Portfolio Collateral and (b) the date on which the Issuer is allocated a commitment to purchase such Portfolio Collateral, present such Portfolio Collateral to Moody's for an estimate of such Portfolio Collateral's rating factor, from which its corresponding Moody's Rating may be determined; provided that after such presentation and pending receipt from Moody's of such estimate, if the Servicer certifies to the Trustee that the Servicer believes that such estimate shall be at least "B3", then such Portfolio Collateral shall have a Moody's Rating of "B3"; and

(iv) with respect to Portfolio Collateral that are Synthetic Securities, the Moody's Rating assigned in connection with the acquisition of such Synthetic Security.

(d) Any item of Portfolio Collateral (other than CLO Securities) that is on any "credit watch" list with positive or negative implications by Moody's shall be deemed to have a rating one sub-category above or below, as the case may be, the actual rating of such item of Portfolio Collateral. Any CLO Security with a Moody's rating of "Aaa" that is on any "credit watch" list with negative implications by Moody's shall be deemed to have a rating two sub-categories below the actual rating of such item of Portfolio Collateral. Any CLO Security with a Moody's rating lower than "Aaa" that is on any "credit watch" list with positive or negative implications by Moody's shall be deemed to have a rating two sub-categories above or below, as the case may be, the actual rating of such item of Portfolio Collateral.

(e) Any item of Portfolio Collateral that is a DIP Loan, shall be deemed to have a rating one sub-category below the actual rating of such item of Portfolio Collateral.

For the avoidance of doubt, all references to "obligor" or "borrower" in this Schedule F shall include such obligor or borrower and any guarantor of the obligations of such obligor or borrower under the applicable underlying instruments, and, for the purposes of determining the Moody's Rating of any item of Portfolio Collateral, the applicable Moody's Rating for such obligor or borrower shall be the rating of such obligor or borrower or of any guarantor of such obligor or borrower, whichever is higher.

## Annex A

### Methodology for Calculating the Amount of an O/C Redemption

For any Payment Date with respect to which one or more of the Overcollateralization Tests are not satisfied, the amount (the “O/C Redemption Amount”) of Available Adjusted Collateral Interest Collections or Available Adjusted Collateral Principal Collections (as applicable) to be applied to the payment of principal of the Class A Notes and the Class B-1L Notes as an O/C Redemption (pursuant to the relevant clause of Section 11.2) in order to satisfy such Overcollateralization Test(s) shall be calculated by the Issuer according to the following formula:

If  $I \geq ((L \times R) - A) / (R)$ ; then

$O/C \text{ Redemption Amount} = ((L \times R) - A) / (R)$ ; otherwise

$O/C \text{ Redemption Amount} = I + (((L-I) \times R) - A) / (R - 1)$

On any Payment Date with respect to which more than one of the Overcollateralization Tests is not satisfied:

(a) the O/C Redemption Amount required to satisfy the Overcollateralization Test relating to the Class A Notes on such Payment Date shall be reduced by the amount of cash in the Collection Account that was applied to the making of an O/C Redemption that results from the failure of the Overcollateralization Test relating to the Class A Notes with respect to such Payment Date; and

(b) the O/C Redemption Amount required to satisfy the Overcollateralization Test relating to the Class B-1L Notes on such Payment Date shall be reduced by the amount of cash in the Collection Account that was applied to the making of an O/C Redemption that results from the failure of the Overcollateralization Test or Tests relating to the Class A Notes with respect to such Payment Date.

For purposes of applying the foregoing formula:

(a) Class A Note O/C Test Redemptions. In connection with an O/C Redemption required to satisfy the Overcollateralization Test relating to the Class A Notes:

“L” (for “liabilities”) shall be the Aggregate Principal Amount of the Class A Notes (including for this purpose any unpaid Periodic Rate Shortfall Amounts with respect to the Class A Notes) as of the related date of calculation;

“R” shall be the required Class A Overcollateralization Percentage;

“A” (for “assets”) shall be the Aggregate Par Amount plus unpaid Purchased Accrued Interest as of the related date of calculation; and

“I” (for “interest collections”) shall be the amount of Collateral Interest Collections available to cure the Class A Overcollateralization Test.

(b) Class B-1L Note O/C Test Redemptions. In connection with an O/C Redemption required to satisfy the Overcollateralization Test relating to the Class B-1L Notes:

“L” (for “liabilities”) shall be the Aggregate Principal Amount of the Class A Notes and the Class B-1L Notes (including for this purpose any unpaid Periodic Rate Shortfall Amounts with respect to the Class A Notes and the Class B-1L Notes) as of the related Calculation Date;

“R” shall be the required Class B-1L Overcollateralization Percentage;

“A” (for “assets”) shall be the Aggregate Par Amount *plus* unpaid Purchased Accrued Interest *less* the Overcollateralization Haircut Amount as of the related date of calculation; and

“I” (for “interest collections”) shall be the amount of Collateral Interest Collections available to cure the Class B-1L Overcollateralization Test.

For purposes of making each of the foregoing calculations, the provisions in the Overcollateralization Ratio Adjustment definition shall apply.

## **Annex B**

### **Methodology for Calculating the Interest Coverage Test Redemption**

For any Payment Date with respect to which the Interest Coverage Test is not satisfied, the amount (the “O/C Redemption Amount”) of Available Adjusted Collateral Interest Collections or Available Adjusted Collateral Principal Collections (as applicable) to be applied to the payment of principal of the Class A Notes as an O/C Redemption (pursuant to the relevant clause of Section 11.2) in order to satisfy such Interest Coverage Test shall be calculated by the Issuer according to the following formula:

$$\text{O/C Redemption Amount} = [L - 4 \times (I - \text{PRA}) / (R)]$$

For purposes of applying the foregoing formula:

(a) I/C Test Redemptions. In connection with an O/C Redemption required to satisfy the Interest Coverage Test:

“L” (for “liabilities”) shall be the Aggregate Principal Amount of the Class A Notes (including for this purpose any unpaid Periodic Rate Shortfall Amounts with respect to the Class A Notes) as of the related Calculation Date;

“R” shall be the required Interest Coverage Ratio;

“PRA” – shall be the Periodic Reserve Amount (but not including amounts payable to the Class B-1L Notes);

“I” (for “interest collections”) shall be the amount of Collateral Interest Collections as of any date plus Scheduled Distributions representing Collateral Interest Collections to be received during the next Due Period (plus, if the amount of Collateral Interest Collections is not calculated on a Calculation Date, Scheduled Distributions for the remainder of the then current Due Period) other than Collateral Interest Collections (including deferred interest thereon) scheduled to be received on any Pledged Security that is not paying or expected to pay current interest with respect to such Due Period, divided by two.

**Annex C**  
**Methodology for Calculating the Amount Required**  
**to Satisfy the Additional Collateral Deposit Requirement**

For any Payment Date with respect to which the Additional Collateral Deposit Requirement is a positive number, the amount (the “Additional Coverage Amount”) of Available Adjusted Collateral Interest Collections to be applied in accordance with the Indenture shall be calculated by the Issuer according to the following formula:

$$\text{Additional Coverage Amount} = (L \times R) - A$$

For purposes of applying the foregoing formula:

“L” (for “liabilities”) shall be, as of the related Calculation Date, the Aggregate Principal Amount of the Class A Notes and the Class B-1L Notes plus any unpaid Periodic Rate Shortfall Amounts plus, if the amount determined under clause (2) under “Assets” below is a negative number, such amount (after giving effect to the amount to be applied to any O/C Redemption of the Class A Notes and the Class B-1L Notes to satisfy the Overcollateralization Tests and the Interest Coverage Test (if applicable) on the related Payment Date);

“R” shall be the percentage described in clause (b) of the definition of the Additional Collateral Deposit Requirement; and

“A” (for “assets”) shall be the sum of:

- (1) the Aggregate Principal Amount of the Portfolio Collateral in the Trust Estate as of the related Calculation Date; *plus*
- (2) the sum of the Balance of Eligible Investments and cash in the Collection Account representing Collateral Principal Collections plus the Balance of Eligible Investments and cash in the Initial Deposit Account, if any, plus unpaid Purchased Accrued Interest as of such date; *less*
- (3) the Overcollateralization Haircut Amount (if any).

For purposes of making the foregoing calculations, no item of Equity Portfolio Collateral shall be included as Portfolio Collateral. In addition for purposes of this requirement, (i) with respect to Defaulted Portfolio Collateral as to which there has occurred a payment default or an event of bankruptcy, only the portion equal to the lesser of (a) the Market Value of such item of Defaulted Portfolio Collateral and (b) the Applicable Percentage multiplied by the Principal Balance of such item of Portfolio Collateral, shall be included as Portfolio Collateral and (ii) with respect to items of Discount Portfolio Collateral, only an amount equal to the original purchase price of such item of Discount Portfolio Collateral shall be included as Portfolio Collateral. For purposes of calculating the Additional Collateral Deposit Requirement, to the extent an item of Portfolio Collateral is considered Defaulted Portfolio Collateral, Discount Portfolio Collateral and/or is included in the Overcollateralization Haircut Amount, such item of Portfolio Collateral will not be discounted multiple times, but will be treated in the category that results in the largest discount to the par amount of the Portfolio Collateral.

The Issuer shall appoint an off-shore paying agent (in addition to and not in lieu of JPMorgan Chase Bank, National Association as Paying Agent) if requested by at least 33-2/3% of the Holders of the Preferred Shares, the cost of such agent to be borne by the Issuer. The Issuer may at any time and from time to time vary or terminate the appointment of the Paying Agent or appoint one or more additional Paying Agents. The Issuer will give prompt written notice to the Trustee of the appointment or termination of the Paying Agent and of the location and any change in the location of the Paying Agent’s office or agency. The Paying Agent shall provide notice to the Holders of any such change or variation of which it receives notice.

(b) The Issuer hereby further appoints the Paying Agent to act as the Transfer Agent for the Preferred Shares upon the terms, and subject to the conditions, set forth herein. The Issuer shall appoint an off-shore transfer agent (in addition to and not in lieu of JPMorgan Chase Bank, National Association as Transfer Agent) if requested by at least 33-2/3% of the Holders of the Preferred Shares, the cost of such agent to be borne by the Issuer. The Issuer may at any time and from time to time vary or terminate the appointment of the Transfer Agent or appoint one or more additional Transfer Agents. The Issuer will give prompt written notice to the Trustee of the appointment or termination of the Transfer Agent and of the location and any change in the location of the Transfer Agent’s office or agency. The Transfer Agent shall provide notice to the Holders of any such change or variation of which it receives notice.

(c) On or prior to the Closing Date, the Paying Agent shall establish a segregated non-interest bearing account designated as the **“Preferred Shares Collection Account,”** the deposits into which shall be held for the exclusive benefit of the Holders of the Preferred Shares. Any amounts deposited to the Preferred Shares Collection Account that constitute Class II Preferred Share Dividends shall for the benefit of and distributable only to the Holders of the Class II Preferred Shares.

(d) The Paying Agent shall deposit any funds received from the Trustee pursuant to the Indenture representing payments on the Preferred Shares (including, without limitation, all distributions made to the Paying Agent by the Trustee pursuant to Article XI of the Indenture) into the Preferred Shares Collection Account, all of which shall be distributed to the Preferred Shareholders in accordance with Sections 4, 5, 6 and 25 of this Agreement.

Section 3. Authorized Representatives.

From time to time the Issuer will furnish the Paying Agent and the Transfer Agent (with a copy to the Trustee) with a signature list certifying the incumbency and specimen signatures of the Authorized

Representatives. Each of the Paying Agent, the Transfer Agent and the Trustee shall be entitled to rely on the last such certificate delivered to it for the purposes of determining the identity of Authorized Representatives.

Section 4. Payment of Dividends.

(a) Subject to clause (c) below, on each Payment Date and the Redemption Date, the Holders of each Class of the Preferred Shares shall be entitled to receive dividends on each respective Class of the Preferred Shares in an amount equal to the amount of Excess Cash Flow allocable to such Class for such Payment Date less, with respect to the Redemption Date, such part of the Excess Cash Flow paid to redeem each respective Class of the Preferred Shares pursuant to Section 6 (in each case, subject to the Issuer having sufficient distributable profits and/or share premium of the Preferred Shares out of which to pay such amounts and, in the case of a payment from share premium, the Issuer being able to pay its debts as they fall due in the ordinary course of its business following such payment).

Any Excess Cash Flow that constitutes part of the Class II Preferred Share Dividend will not be allocable to the Class I Preferred Shares, rather, such amounts will only be available for distributions on the Class II Preferred Shares.

The Paying Agent, on behalf of the Issuer, shall promptly give notice of the amount of all Excess Cash Flow distributed hereunder (specifically identifying any Class II Preferred Shares Dividend Amount) for the relevant Payment Date to the Holders of the each Class of Preferred Shares in accordance with Section 12 hereof and to the Issuer, the Servicer and to Bear, Stearns & Co. Inc. The Paying Agent shall also make such information available to each Class of Preferred Shareholders at the offices of the Paying Agent.

(b) Dividends, if any, will be paid on each Payment Date to the Holders of the Preferred Shares who are registered at the close of business on the Record Date for such Payment Date. Dividends payable to the Preferred Shares from Excess Cash Flow (other than those amounts constituting the Class II Preferred Share Dividend) shall be paid by the Paying Agent *pro rata* in the proportion that the number of Preferred Shares held by a Holder bears to the total number of Preferred Shares outstanding. Excess Cash Flow constituting Class II Preferred Share Dividends shall be paid by the Paying Agent *pro rata* in the proportion that the number of Class II Preferred Shares held by the related Holder bears to the total number of Class II Preferred Shares outstanding.

(c) On each Payment Date, Excess Cash Flow shall be paid to the Issuer, free and clear of the lien of the Indenture, to be applied to fund distributions to the holders of each respective Class of the Preferred Shares.

(d) To the extent the requirements under Cayman Islands law described in this Section 4 are not met, amounts otherwise payable to the Holders of the Preferred Shares will be retained in the Preferred Shares Collection Account until, in the case of any payment by way of dividend, the next succeeding Payment Date on which the Issuer notifies the Paying Agent that such requirements are met. Amounts on deposit in the Preferred Shares Collection Account will not be available to pay amounts due to the Holders of the Notes, the Trustee or any other creditor of the Issuer whose claim is limited in recourse to the Portfolio Collateral. However, amounts on deposit in the Preferred Shares Collection Account may be subject to the claims of creditors of the Issuer that have not contractually limited their recourse to the Portfolio Collateral.

Section 5. Procedures for Payment of Dividends and Redemption Price; Persons Deemed Owners; Withholding.

(a) All payments of dividends on the Preferred Shares and the payment of the Redemption Price for the Preferred Shares will be made in U.S. dollars and/or Payment Date Equity Securities. All of such payments in U.S. dollars shall be made by wire transfer from an account maintained by the Paying Agent (subject to usual and necessary banking procedures regarding U.S. Dollar denominated accounts), and payments of dividends shall be subject in all cases to any tax, fiscal or other laws or regulations applicable in the place of payment. Holders shall deliver a request to the Paying Agent setting forth the numbers of the Preferred Shares held by it and the Class designation of such Preferred Shares for which it shall receive payment by wire transfer and specifying the banking institution and account number (with any other appropriate information necessary to enable the Paying Agent to transmit such payment and to assure proper credit to such Holder's account) to which such payments are to be transferred. A record of each payment made will be maintained by or on behalf of the Paying Agent in accordance with its customary procedures, and such record shall be *prima facie* evidence that the payment in question has been made. The Issuer and the Paying Agent shall be fully protected in relying upon any such request in making payments on the Preferred Shares, and any payment transmitted in accordance with such request shall be deemed to have been made upon transmission thereof to the banking institution identified in such request.

(b) Unless the Holders request an off-shore Paying Agent pursuant to Section 2(a), all payments with respect to the Preferred Shares shall be made pursuant to presentation of a certificate representing the Preferred Shares, or the making of any other demand for payment, in the United States of America.

(c) In the case where the Trust Termination Date or Redemption Date shall not be a Business Day, then payment need not be made on such date, but may be made on the next succeeding Business Day with the same force and effect as if made on the nominal date of any such Trust Termination Date or Redemption Date, as the case may be.

The Issuer shall not be obligated to pay any additional amounts to the Holders of the Preferred Shares in the event that amounts are withheld from (i) payments to the Issuer on any of the Portfolio Collateral included in the Trust Estate or (ii) payments on the Notes or the Preferred Shares. As a condition to the payment of capital and dividends on any Preferred Share without the imposition of United States withholding tax, the Issuer shall require that certification acceptable to it be furnished to the Issuer and the Paying Agent in order to enable the Issuer and the Paying Agent to determine their duties and liabilities with respect to any taxes or other charges that they may be required to deduct or withhold from payments in respect of such Preferred Share under any present or future law or regulation of the United States or any present or future law or regulation of any political subdivision thereof or taxing authority therein or to comply with any reporting or other requirements under any such law or regulation.

(d) The Issuer, the Paying Agent, the Transfer Agent and the Share Registrar shall deem and treat the registered Holder of any Preferred Share as the absolute owner of such Preferred Share, notwithstanding any notation of ownership or other writing on any certificate representing such Preferred Share, for the purpose of receiving dividends and the Redemption Price thereof and for all other purposes, and none of the Issuer, the Paying Agent, the Transfer Agent nor the Share Registrar shall be affected by any notice to the contrary. All such payments so made to such Holder or upon such Holder's order shall be valid and, to the extent of the sum or sums so paid, effectual to satisfy and discharge the liability for the monies payable upon any such Preferred Share.

Section 6. Redemption.

(a) On the Redemption Date, subject to the Issuer having sufficient distributable profits and/or share premium of the Preferred Shares out of which to pay such amounts and, in the case of a payment from share premium, the Issuer being able to pay its debts as they fall due in the ordinary course of business following such payment, the Preferred Shares shall be redeemed in whole at the Redemption Price.

(b) All redemption payments (other than those amounts constituting the Class II Preferred Share Dividend) to a Holder shall be made *pro rata* in the proportion that the number of Preferred Shares held by such Holder bears to the total number of Preferred Shares. Any redemption payments constituting Class II Preferred Share Dividends paid to a Holder of a Class II Preferred Share shall be made *pro rata* in the proportion that the number of Class II Preferred Shares held by such Holder bears to the total number of Class II Preferred Shares.

(c) To the extent the requirements under Cayman Islands law described in this Section 6 are not met, amounts otherwise payable to the Holders of the Preferred Shares will be retained in the Preferred Shares Collection Account until, in the case of any payment which would otherwise be payable on a redemption date of the Preferred Shares, the next succeeding Business Day on which the Issuer notifies the Paying Agent that such requirements are met. Amounts on deposit in the Preferred Shares Collection Account will not be available to pay amounts due to the Holders of the Notes, the Trustee or any other creditor of the Issuer whose claim is limited in recourse to the Portfolio Collateral. However, amounts on deposit in the Preferred Shares Collection Account may be subject to the claims of creditors of the Issuer that have not contractually limited their recourse to the Portfolio Collateral.

Section 7. Accountings; Reports by Paying Agent; Information to Holders.

(a) With respect to each Calculation Date, the Paying Agent shall render an accounting, determined as of such Calculation Date, and delivered to the Holders, the Issuer, the Servicer and the Initial Purchaser not later than the Business Day prior to the Payment Date related to such Calculation Date. The Paying Agent shall render such accounting by reference to the accounting delivered by the Issuer pursuant to Section 10.5(b) of the Indenture. Such accounting shall contain the following information (stated in aggregate):

(i) the amount of Excess Cash Flow to be received by the Paying Agent from the Trustee on the related Payment Date;

(ii) the amounts payable as dividends on each Class of Preferred Shares on such Payment Date, specifically identifying any Class II Preferred Share Dividend payments; and

(iii) if such accounting relates to the Redemption Date, the Redemption Price payable with respect to the Preferred Shares on such Redemption Date and the amount, if any, payable as a dividend on such Redemption Date specifically identifying any Class II Preferred Share Dividend payments.

(b) On or prior to each Payment Date, the Paying Agent shall provide the Holders of each Class of Preferred Shares with a copy of the Note Valuation Report and Noteholder Report prepared for delivery pursuant to Section 10.5 of the Indenture (including the most recent Monthly Report delivered therewith), with the report prepared by the Paying Agent pursuant to Section 7(a) hereof.

(c) The Paying Agent shall provide the Holders of each Class of Preferred Shares with all notices and any ballots required pursuant to the terms of the Indenture and the Servicing Agreement.

**Section 8. Share Register; Registration, Transfer, Exchange; Persons Deemed Owners.**

(a) The Issuer shall cause to be kept a register (the “**Share Register**”) in which, subject to such reasonable regulations as it may prescribe and to the Companies Law (2004 Revision) of the Cayman Islands (as amended from time to time), the Issuer shall provide for the registration of the Preferred Shares (and any other share capital of the Issuer) and the registration of transfers of the Preferred Shares (and any other share capital of the Issuer). The Administrator is hereby irrevocably appointed by the Issuer to act as the “**Share Registrar**” for the purpose of registering the Preferred Shares (and any other share capital of the Issuer) and all transfers of the Preferred Shares (and any other share capital of the Issuer) as herein provided (it being hereby acknowledged that nothing contained herein shall limit, bar or restrict the ability or the right of the Transfer Agent to appoint agents or to delegate duties from time to time); provided, however, that a duplicate Share Register shall be maintained at the offices of the Transfer Agent, who shall promptly provide a copy to the Administrator and the Trustee following the Closing Date and thereafter promptly upon any transfer or exchange information the Transfer Agent receives and shall notify the Administrator and the Trustee of any transfer or exchange of a Preferred Share. The Administrator will maintain the original Share Register. The Share Registrar and the Issuer may rely conclusively on any information or documentation provided by the Transfer Agent without any liability on their part. For purposes of distributions, notices or otherwise, the Paying Agent, the Transfer Agent and the Trustee may conclusively rely on the duplicate copy of the Share Register maintained by the Transfer Agent.

Preferred Shares sold outside the United States to non-U.S. Persons in reliance on Regulation S shall be represented by one or more permanent physical share certificates, in fully registered definitive form and substantially in the form of Exhibit A-2 attached hereto (the “**Regulation S Global Preferred Shares**” and, each, a “**Regulation S Global Preferred Share**”), which will be deposited with the Specialized Depositary on behalf of Euroclear Bank S.A./N.V., as operator of Euroclear and/or Clearstream. Euroclear and/or Clearstream, as applicable, will credit the Regulation S Global Preferred Shares to the respective accounts designated by the subscribers of such Preferred Shares at Euroclear or Clearstream, as applicable. The registered owner of the relevant Regulation S Global Preferred Share (as indicated in the Share Register) shall be the only person entitled to receive payments in respect of the Preferred Shares represented by a Regulation S Global Preferred Share, and the Issuer will be discharged by payment to, or to the order of, the registered owner of such Regulation S Global Preferred Share in respect of each amount so paid. No person other than the registered owner of the relevant Regulation S Global Preferred Share shall have any claim against the Issuer in respect of any payment due on that Regulation S Global Preferred Share.

Preferred Shares sold in the United States to “qualified institutional buyers” within the meaning of Rule 144A under the Securities Act (“**Qualified Institutional Buyers**” and, each, a “**Qualified Institutional Buyer**”) who are U.S. Persons will be represented, on issue, by share certificates in definitive, fully registered form and substantially in the form of Exhibit A-3 attached hereto (“**Definitive Preferred Shares**” and, each, a “**Definitive Preferred Share**”).

Every certificate representing a Preferred Share presented or surrendered for registration of transfer or exchange shall (if so required by the Issuer or the Transfer Agent) be accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Transfer Agent duly executed by the Holder thereof or its attorney-in-fact duly authorized in writing.

No service charge shall be made to a Holder for any registration of transfer or exchange of Preferred Shares, but the Issuer and/or the Transfer Agent may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any registration of transfer or exchange of Preferred Shares.

During the period of 15 days preceding any Payment Date, the Issuer shall not register the transfer of or to exchange any Preferred Shares.

Subject to the receipt by the Transfer Agent of a written certification substantially in the form of Exhibit D attached hereto (a “**Regulation S Transferor Certificate**”), a beneficial interest in a Global Preferred Share may be exchanged at any time for a Definitive Preferred Share if such beneficial interest will be transferred to a Qualified Institutional Buyer who is a U.S. Person. Such Definitive Preferred Share will be registered in the name of the transferee.

Definitive Preferred Shares will be issued and exchanged for each Regulation S Global Preferred Share within thirty days of the occurrence of any of the following: (i) either Euroclear or Clearstream is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business and no alternative clearance system satisfactory to the Paying Agent is available, (ii) as a result of any amendment to, or change in, the laws or regulations of Cayman Islands or of any authority therein or thereof having power to tax or in the interpretation or administration of such laws or regulations which becomes effective on or after the Closing Date, the Issuer or the Paying Agent are or will be required to make any deduction or withholding from any payment in respect of the Preferred Shares which would not be required were the Preferred Shares held as Definitive Preferred Shares, or (iii) the Issuer so elects by notice to the Holders of the Preferred Shares in accordance with this Agreement and Euroclear and/or Clearstream, as applicable, does not object. Notwithstanding the foregoing, a beneficial interest in a Regulation S Global Preferred Share may be exchanged for a Definitive Preferred Share only upon the receipt by the Transfer Agent from the owner of such beneficial interest of a Regulation S Transferor Certificate.

(b) No Preferred Shares may be sold or transferred (including, without limitation by pledge or hypothecation) unless such sale or transfer is exempt from the registration requirements of the Securities Act and is exempt from registration under applicable state securities laws. No purported transfer of any interest in any Preferred Share or any portion thereof that is not made in accordance with this Section 8 shall be given effect by or be binding upon the Transfer Agent or the Issuer, and any such purported transfer shall be null and void *ab initio* and vest in the transferee no rights against the Paying Agent, the Transfer Agent or the Issuer.

A Holder of a Preferred Share may transfer a Preferred Share or its beneficial interest in a Preferred Share only in accordance with the following provisions:

(i) The Holder of a Preferred Share who is a Non-U.S. Person pursuant to Regulation S under the Securities Act may transfer such Preferred Share prior to the expiration of a one-year period beginning on the later of the Closing Date or on the day on which the offer of the Preferred Shares is completed (as notified in writing to the Paying Agent) (the “**Distribution Compliance Period**”), only (1) to a Non-U.S. Person who certifies that it is not a U.S. Person and is not acquiring the Preferred Share for the account or benefit of any U.S. Person and is a “qualified institutional buyer” within the meaning of Rule 144A under the Securities Act or (2) to a U.S. Person who agrees to receive a Restricted Preferred Share (as such term is defined in paragraph (ii) below) and who certifies that it is a “qualified institutional buyer” within the meaning of Rule 144A under the Securities Act and, in each case, agrees to resell such Preferred Share only in accordance with the provisions of Regulation S and Rule 144A, pursuant to

registration under the Securities Act, or pursuant to an available exemption from registration under the Securities Act and agrees not to engage in hedging transactions with regard to such securities unless in compliance with the Securities Act. Each Holder of a Preferred Share (other than Non-U.S. Persons purchasing Preferred Shares in reliance on Regulation S and Rule 144A) is required to be a "qualified purchaser" within the meaning of Section 3(c)(7) of the Investment Company Act or a "knowledgeable employee" within the meaning of Rule 3c-5 of the Investment Company Act and may only transfer such Preferred Share to a U.S. Person if that U.S. Person is also a "qualified purchaser" within the meaning of Section 3(c)(7) of the Investment Company Act or a "knowledgeable employee" within the meaning of Rule 3c-5 of the Investment Company Act.

(ii) A Holder of a Preferred Share (a "**Restricted Preferred Share**") who is a U.S. Person may at any time transfer its interest in such Preferred Share only (a) to a Non-U.S. Person pursuant to Regulation S who is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act and (b) to a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act not requiring registration under the Securities Act, and, in the case of clause (b), only to a transferee who is also a "qualified purchaser" within the meaning of Section 3(c)(7) of the Investment Company Act or a "knowledgeable employee" within the meaning of Rule 3c-5 of the Investment Company Act.

(iii) The Transfer Agent shall require, prior to any such transfer of a Preferred Share, receipt by the Transfer Agent and the Issuer of (A) an Investor Certificate from such Preferred Shareholder's transferee and (B) a Regulation S Transferor Certificate and a Rule 144A Transferor Certificate from such Holder, in each case certifying to the foregoing and the other matters covered by the forms of such certificates prescribed by this Agreement. Upon receipt of the Investor Certificate and the relevant Transferor Certificate, and the surrender to the Transfer Agent of the Preferred Share Certificate to be so transferred, the Transfer Agent shall cancel such Preferred Share Certificate, and the Issuer shall execute and provide to the Transfer Agent, and the Transfer Agent shall deliver, a Preferred Share Certificate representing the Preferred Shares intended to be transferred to such transferee (and, in the event of a partial transfer, the Issuer shall execute and provide to the Transfer Agent, and the Transfer Agent shall deliver, a Preferred Share Certificate representing the remaining balance to the transferring Holder). The Issuer shall cause the Share Register to be updated accordingly.

(iv) Transfers of beneficial interests in the Regulation S Global Preferred Shares may only be made by book-entry transfer of beneficial interests in the Regulation S Global Shares within Euroclear and/or Clearstream (and subject to the Specialized Depository's applicable procedures) to non-U.S. Persons in accordance with Regulation S who are also "qualified institutional buyers" within the meaning of Rule 144A under the Securities Act. Each subsequent transferee shall be deemed to have made the applicable representation set forth in this Section 8(b)

(v) Notwithstanding anything to the contrary herein, in the event any Holder of Class II Preferred Shares wishes to transfer all or a portion of its Class II Preferred Shares (the "**Class II Seller**") to any qualified third party purchaser (the "**Class II Buyer**"), including any holders of preferred shares (the "**Holding Preferred Shares**") of Rockwall Investors Corp. ("**Investors Corp.**"), such transfer shall only be effected by the Issuer redeeming such Class II Preferred Shares and correspondingly issuing new Class I Preferred Shares and Investors Corp. issuing new Holding Preferred Shares in accordance with this Section 8(b)(v) and the applicable provisions of the Articles of Association of each of the Issuer and Investors Corp. At least 10 days prior to any transfer by a Class II Seller to a Class II Buyer, such Class II Seller and Class II Buyer shall

jointly notify the Issuer, the Transfer Agent, the Servicer and Investors Corp. of their intention to effect such transfer of Class II Preferred Shares, in the form of Exhibit F (attached hereto) indicating the number of Class II Preferred Shares to be sold and the corresponding number of Class I Preferred Shares to be issued and transferred to Investors Corp. and the number of Holding Preferred Shares to be issued and acquired by the Class II Buyer, the price for such purchase and sale and the date on which such purchase and sale is expected to occur (such notice, the "**Sale Notice**"). The Issuer shall, on the date indicated in the Sale Notice subject to such redemption being approved in writing by the Board of Directors of the Issuer and subject to such redemption being in respect of 200,000 Class II Preferred Shares or more, redeem the indicated number of Class II Preferred Shares to be sold by the Class II Seller and issue an equal number of Class I Preferred Shares registered in the name of Investors Corp. Simultaneously with such redemption and new issuance by the Issuer, Investors Corp., pursuant to the Investors Corp. Paying and Transfer Agency Agreement and its Articles of Association, shall issue new Holding Preferred Shares to the Class II Buyer equal in number to the number of Class II Preferred Shares being sold by the Class II Seller as indicated in the Sale Notice. The Class II Buyer shall pay Investors Corp. for its subscription to such newly issued Holding Preferred Shares in an amount indicated in the Sale Notice, Investors Corp. shall immediately apply such amount to pay the subscription price to the Issuer for the newly issued Class I Preferred Shares, and the Issuer shall immediately apply such amount to pay the redemption price to the Class II Seller for the redemption of such Class II Seller's Class II Preferred Shares.

(vi) Notwithstanding anything to the contrary herein, in the event the Holder of any Class II Preferred Shares (the "**Holding Buyer**") wishes to acquire any Holding Preferred Shares from any holder of Holding Preferred Shares (the "**Holding Seller**"), such transfer shall only be effected by the Investors Corp. redeeming Holding Preferred Shares and the Issuer redeeming a corresponding number of Class I Preferred Shares and issuing new Class II Preferred Shares in accordance with this Section 8(b)(vi) and the applicable provisions of the Articles of Association of each of the Issuer and Investors Corp. At least 10 days prior to any transfer by a Holding Seller to a Holding Buyer, such Holding Seller and Holding Buyer shall jointly notify the Issuer, the Transfer Agent, the Servicer and Investors Corp. of their intention to effect such acquisition of Holding Preferred Shares, indicating the number of Holding Preferred Shares to be sold by the Holding Seller, the corresponding number of Class I Preferred Shares to be redeemed by the Issuer and the number of Class II Preferred Shares to be issued and acquired by the Holding Buyer, respectively, the price for such purchase and sale and the date on which such purchase and sale is expected to occur (such notice, the "**Acquisition Notice**"). On the date indicated in the Sale Notice, Investors Corp. shall, subject to such redemption being approved in writing by the Board of Directors of Investors Corp. and subject to such redemption being in respect of 200,000 Holding Preferred Shares or more, redeem the indicated number of Holding Preferred Shares to be sold by Holding Seller and the Issuer shall, subject to such redemption being approved in writing by the Board of Directors of the Issuer, redeem Class I Preferred Shares in an amount equal to the number of Holding Preferred Shares being sold as indicated in the Acquisition Notice. Simultaneously with such redemption of Class I Preferred Shares, the Issuer shall issue Class II Preferred Shares to the Holding Buyer in an amount equal to the amount of Class I Preferred Shares being redeemed as indicated in the Acquisition Notice. The Holding Buyer shall pay the Issuer for its subscription to such newly issued Class II Preferred Shares in an amount indicated in the Acquisition Notice, the Issuer shall immediately apply such amount to pay the redemption price to Investors Corp. for the redemption of the Class I Preferred Shares, and Investors Corp. shall immediately apply such amount to pay the redemption price to Holding Seller for the redemption of the Holding Preferred Shares.

The Investor Certificate and any Rule 144A Transferor Certificate or Regulation S Transferor Certificate furnished pursuant to this Section 8(b) may be relied on conclusively by the Transfer Agent in determining whether the provisions of this Section 8(b) have been complied with. None of the Issuer, the Transfer Agent, or any other Person shall be required to register the Preferred Shares under the Securities Act or any state securities laws.

Notwithstanding anything in this Section 8 to the contrary, in connection with any sale of Bear Preferred Shares by Bear Stearns, no delivery of an Investor Certificate, a 144A/Transferor Certificate or a Regulation S Transferor Certificate (as applicable) shall be required so long as each purchaser of Notes executes and delivers a transferee certificate acceptable to Bear Stearns (which certificate shall contain a representation that the transferee is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act and shall, in the case of any transfer pursuant to Section 8(b)(iii), identify each transferee of a beneficial interest in the Regulation S Global Preferred Share, including name, address, payment instructions and such other information as the Transfer Agent or Common Depositary reasonably may require), which transferee certificate shall be delivered to the Transfer Agent.

(c) The applicable procedures utilized or imposed from time to time by any Clearance System (collectively, "**Applicable Procedures**") shall be applicable to the Regulation S Global Preferred Shares insofar as and to the extent beneficial interests in such Regulation S Global Preferred Shares are held by the agent members of or participants in Euroclear or Clearstream. Account holders or agent members of or participants in Euroclear or Clearstream shall have no rights under this Agreement with respect to such Regulation S Global Preferred Shares, and the Specialized Depositary as registered Holder of the Regulation S Global Preferred Shares may be treated by the Issuer and the Paying Agent as the owner of such Regulation S Global Preferred Shares for all purposes whatsoever. Notwithstanding the foregoing, nothing herein shall prevent the Issuer or the Paying Agent from giving effect to any written certification, proxy or other authorization furnished by any Clearance System or impair, as between the Clearance System and its agent members or participants, the operation of customary practices governing the exercise of the rights of a Holder of any Regulation S Global Preferred Shares. Requests or directions from, or votes of the Specialized Depositary or any Clearance System with respect to any matter shall not be deemed inconsistent if made with respect to (or in separate proportions corresponding to) different beneficial owners. The Paying Agent shall have no duty to monitor, maintain records concerning (or determine compliance with any of the restrictions on transfer set forth herein with respect to) owners of beneficial interest in the Regulation S Global Preferred Shares. The Paying Agent shall have no liability for the accuracy of the records of the Specialized Depositary or any Clearance System, or any actions or omissions of the Specialized Depositary or any Clearance System (or of the agent members of or participants in any Clearance System).

(d) Except with respect to Preferred Shares sold to the Initial Purchaser, the minimum number of Preferred Shares (including the Preferred Share Components of the Combination Notes) that may be sold by the Issuer on the Closing Date or transferred by any Holder of Preferred Shares shall be 200,000 and integral multiples of \$1 share in excess thereof.

(e) Global Preferred Shares will trade nominally in an amount equal to \$1 for each Preferred Share.

(f) The Preferred Shares may not be acquired or held by any employee benefit plan (as defined in Section 3(3) of ERISA) subject to Title I of ERISA ("**ERISA Plan**" and, together with individual retirement accounts and Keogh plans subject to Section 406 of ERISA or Section 4975 of the Code, "**Plans**") or Plan or other "benefit plan investor" (as defined in 29 C.F.R. Section 2510.3-101) ("**Benefit Plan Investor**"), including a life insurance company general account or a governmental or foreign plan that is generally not subject to Title I of ERISA or Section 4975 of the Code. However, Preferred Shares

may be acquired and held by or on behalf of, or with “plan assets” of, a Plan or other Benefit Plan Investor if (a)(1)(A) the investor is purchasing the Preferred Shares with assets of an “insurance company general account” (within the meaning of PTCE 95-60) (a “**General Account**”); (B) the investor’s purchase and holding of the Preferred Shares are eligible for the exemptive relief afforded under Section I of PTCE 95-60; (C) less than 25% of the assets of such General Account constitute “plan assets” of Benefit Plan Investors; and (D) if, after the initial acquisition of the Preferred Shares, during any calendar quarter, 25% or more of the assets of such General Account (as determined by such insurance company) constitute “plan assets” of any Plan or other Benefit Plan Investor and full exemptive relief from the prohibited transaction prohibitions of Section 406 of ERISA and Section 4975 of the Code is not available under Section 401(c) of ERISA and the regulations thereunder then such investor will dispose of all of the Preferred Shares then held in such General Account by the end of the next following calendar quarter; (2) the investor’s purchase and holding of the Preferred Shares are eligible for the exemptive relief afforded under PTCE 96-23, 91-38, 90-1 or 84-14; or (3) it is purchasing the Preferred Shares solely with “plan assets” not subject to Title I of ERISA, Section 4975 of the Code or similar law; and (b) after giving effect to such purchase and all other purchases occurring simultaneously therewith, less than 25% of each Class of the Preferred Shares (excluding the Preferred Shares held by the Servicer and its affiliates or clients) will constitute “plan assets” of Benefit Plan Investors. Additionally, no transfer may be made unless the Issuer shall have determined that the transfer is not being effected through an “established securities market” within the meaning of Treasury Regulation Section 1.7704-1(b) and will not result in the Issuer having more than 75 shareholders (determined in conformity with Treasury Regulation Section 1.7704-1(h)(3)).

By its purchase of the Preferred Shares, each purchaser and transferee will be required to represent, warrant and agree in writing that (i) its purchase and holding of such Preferred Shares will satisfy the ERISA requirements described in the preceding paragraph and (ii) it will not assign or transfer such Preferred Shares unless (1) the proposed assignee or transferee delivers a letter to the Issuer evidencing its agreement to the foregoing ERISA representations and covenants with respect to its purchase, holding and transfer of such Preferred Shares; and (2) if the investor (x) is not (and is not acting on behalf of) a Benefit Plan Investor, the assignee or transferee will also not be a Benefit Plan Investor; or (y) is (or is acting on behalf of) a General Account, the assignee or transferee will be accurately identified in such letter as either another General Account or a person who is not (and is not acting on behalf of) a Benefit Plan Investor; or (z) is (or is acting on behalf of or with “plan assets” of) a Benefit Plan Investor (other than a General Account), the assignee or transferee will be accurately identified in such letter as either a General Account, another Benefit Plan Investor or a person who is not (and is not acting on behalf of) any Benefit Plan Investor; provided that for purposes of clauses (x), (y) and (z), a transfer by a Holder (the “**Transferring Holder**”) to Bear, Stearns & Co. Inc. in a secondary market transaction and subsequent transfers by Bear, Stearns & Co. Inc. to a Holder (the “**Transferee Holder**”), shall be deemed to be a transfer by the Transferring Holder to the Transferee Holder and Bear, Stearns & Co. Inc. may therefore transfer such Preferred Shares to any potential Holder to whom the Transferring Holder would be permitted to transfer.

(g) No Preferred Share shall be sold or transferred (including, without limitation, by pledge or hypothecation) to a U.S. Person unless such purchaser or transferee is a “qualified purchaser” within the meaning of Section 3(c)(7) of the Investment Company Act or a “knowledgeable employee” within the meaning of Rule 3c-5 of the Investment Company Act. The Transfer Agent may conclusively rely on the statement in any Investor Certificate, and shall be entitled to rely conclusively on the continuing accuracy thereof from time to time (unless and until a Responsible Officer is otherwise notified in writing by the signatory thereto or by the Issuer) in determining whether the provisions of this Section 8(f) have been complied with. Notwithstanding anything to the contrary in this Agreement, no transfer of a Preferred Share may be made if such transfer would require registration of the Issuer or the Co-Issuer under the Investment Company Act (subject, with respect to the Transfer Agent’s duties, to Section 8(g) below).

(h) At any time when the Issuer is not subject to Section 13 or 15(d) of the United States Securities Exchange Act of 1934, as amended, upon the request of any Preferred Shareholder, the Issuer shall promptly furnish to such Preferred Shareholder or to a prospective purchaser of any Preferred Share designated by such Preferred Shareholder, as the case may be, the information which the Issuer determines to be required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act (“**Rule 144A Information**”) in order to permit compliance by such Preferred Shareholder with Rule 144A in connection with the resale of such Preferred Share by such Preferred Shareholder; *provided that* the Issuer shall not be required to provide audited financial statements more than once a year or to furnish Rule 144A Information in connection with any request made on or after the date that is three years from the later of (i) the date such Preferred Share (or any predecessor Preferred Share) was acquired from the Issuer or (ii) the date such Preferred Share (or any predecessor Preferred Share) was last acquired from an “affiliate” of the Issuer within the meaning of Rule 144A, in each case as determined by the Issuer. Upon request by the Issuer, the Transfer Agent shall cooperate with the Issuer in mailing or otherwise distributing (at the Issuer’s expense) to such Preferred Shareholders or prospective purchasers, at and pursuant to the Issuer’s written direction, the foregoing materials prepared and provided by the Issuer, *provided that* the Transfer Agent shall be entitled to affix thereto or enclose therewith such disclaimers as the Transfer Agent shall deem reasonably appropriate, at its discretion (such as, for example, a disclaimer that such Rule 144A Information was assembled by the Issuer, and not by the Transfer Agent, that the Transfer Agent has not reviewed or verified the accuracy thereof, and that it makes no representation as to the sufficiency of such information under Rule 144A or for any other purpose).

(i) Neither the Transfer Agent nor the Paying Agent shall be responsible for ascertaining whether any transfer of the Preferred Shares complies with, or otherwise for monitoring or determining compliance with, the requirements or terms of the Securities Act, applicable state securities laws, ERISA, the Code or the Investment Company Act; except that if a certificate is specifically required by the terms of this Section 8 to be provided to the Transfer Agent or the Paying Agent by a transferee of the Preferred Shares, a transferor of the Preferred Shares, or the Issuer, the Transfer Agent or the Paying Agent, as applicable, shall be under a duty to receive and examine the same to determine whether it conforms substantially on its face to the applicable requirements of this Section 8.

(j) If a Responsible Officer of the Transfer Agent becomes aware that (i) a transfer or attempted or purported transfer of any of the Preferred Shares or any interest therein was consummated in compliance with the provisions of this Section 8 on the basis of a materially incorrect certification from the transferor or purported transferee, (ii) a transferee failed to deliver to the Transfer Agent any certificate required to be delivered hereunder, or (iii) the Holder of any Preferred Share or interest therein is in material breach of any representation or agreement set forth in any certificate or any deemed representation or agreement of such Holder, then the Transfer Agent will not register such attempted or purported transfer, and, if a transfer has been registered, such transfer shall be absolutely null and void *ab initio* and shall vest no rights in the purported transferee (such purported transferee, a “**Disqualified Transferee**”), and the last preceding Holder of such Preferred Share that was not a Disqualified Transferee shall be restored to all rights as a Holder thereof retroactively to the date of transfer of such Preferred Share by such Holder.

#### Section 9. Liability.

Neither the Paying Agent nor the Transfer Agent nor the directors, officers, employees or agents of either of them shall be liable for any act or omission hereunder except that the Paying Agent and the Transfer Agent shall be liable in the case of gross negligence, bad faith, or willful misconduct of the Paying Agent or the Transfer Agent or any of their respective directors, officers, employees, affiliates or agents, as the case may be, in violation of the duties of the Paying Agent or the Transfer Agent under this Agreement. The duties and obligations of the Paying Agent and the Transfer Agent and their respective

employees or agents shall be determined solely by the express provisions of this Agreement, and they shall not be liable except for the performance of such duties and obligations as are specifically set forth herein, and no implied covenants shall be read into this Agreement against them. The Paying Agent and the Transfer Agent may consult with counsel selected by them with reasonable care and shall be protected in any action reasonably taken in good faith in accordance with the advice of such counsel.

The Paying Agent and the Transfer Agent each may rely conclusively on any notice, certificate or other document furnished to it hereunder and reasonably believed by it in good faith to be genuine. Neither the Paying Agent nor the Transfer Agent shall be liable for any action taken by it in good faith and reasonably believed by it to be within the discretion or powers conferred upon it, or taken by it pursuant to any direction or instruction by which it is governed hereunder, or omitted to be taken by it by reason of the lack of direction or instruction required hereby for such action. The Paying Agent and the Transfer Agent shall in no event be liable for the application or misapplication of funds by any other Person, or for the acts or omissions of any other Person. The Paying Agent and the Transfer Agent shall not be bound to make any investigation into the facts or matters stated in any certificate, report or other document; *provided that*, if the form thereof is prescribed by this Agreement, the Paying Agent and the Transfer Agent, as the case may be, shall examine the same to determine whether it conforms on its face to the requirements hereof. The Paying Agent and the Transfer Agent each may exercise or carry out any of its duties under this Agreement either directly or indirectly through agents or attorneys, and shall not be responsible for any acts or omissions on the part of any such agent or attorney appointed with due care, provided that the Paying Agent or, as the case may be, the Transfer Agent ensure that such agent or attorney are directly liable to the Issuer. To the extent permitted by applicable law, neither the Paying Agent nor the Transfer Agent shall be required to give any bond or surety in the execution of its duties. Neither the Paying Agent nor the Transfer Agent shall be deemed to have knowledge or notice of any matter unless actually known by a Responsible Officer of the Paying Agent or Transfer Agent, as applicable, or unless the Paying Agent or the Transfer Agent, as applicable, has received written notice thereof from the Issuer, the Servicer, the Trustee, or the Holder of a Preferred Share. The Paying Agent shall not be obligated to make payments hereunder unless it has received (or is reasonably certain it will receive) the applicable amounts from the Trustee for which such payment is to be made.

#### Section 10. Indemnification.

Subject to the terms of the Indenture, the Issuer agrees to indemnify and hold harmless the Paying Agent and the Transfer Agent, and their respective directors, officers, employees, affiliates and agents from and against any and all liabilities, costs and expenses (including reasonable legal fees and expenses) relating to or arising out of or in connection with its or their performance under this Agreement, except to the extent that they are caused by the gross negligence, bad faith, or willful misconduct of the Paying Agent or the Transfer Agent, as the case may be. The foregoing indemnity includes, but is not limited to, any action taken or omitted in good faith within the scope of this Agreement upon telephone, telecopier or other electronically transmitted instructions, if authorized herein, received from or reasonably believed by the Paying Agent or the Transfer Agent, as the case may be, acting in good faith, to have been given by, an Authorized Representative. This indemnity shall survive the resignation or removal of the Paying Agent or the Transfer Agent, as the case may be, and the satisfaction or termination of this Agreement.

#### Section 11. Compensation of the Paying Agent and Transfer Agent.

Pursuant to, and at the times and to the extent contemplated by the Indenture, the Issuer shall pay to the Paying Agent and the Transfer Agent compensation at such amounts and/or rates as shall be agreed between the Issuer and, as applicable, the Paying Agent and the Transfer Agent and from time to time shall reimburse the Paying Agent and the Transfer Agent for their respective reasonable out-of-pocket expenses (including reasonable legal fees and expenses), disbursements, and advances incurred or made

in accordance with any provisions of this Agreement, except any such expense, disbursement, or advance that may be attributable to its gross negligence, bad faith or willful misconduct. The obligations of the Issuer to the Paying Agent and the Transfer Agent pursuant to the Indenture and this Section shall survive the resignation or removal of the Trustee and the satisfaction or termination of this Agreement. Notwithstanding any provision of this Agreement to the contrary (other than with respect to Section 28), to the extent any amounts owing to the Paying Agent and/or the Transfer Agent from time to time pursuant to this Section 11 shall remain unpaid, the Paying Agent and/or the Transfer Agent shall be entitled, after having provided reasonable notice in writing to the Issuer, the Trustee, to pay to itself, for application to such unpaid amounts, any funds held or received by it at any time or times under or pursuant to this Agreement prior to making payment of amounts otherwise required under this Agreement to be made to the Preferred Shareholders (or any other Persons).

## Section 12. Notices.

(a) All communications by or on behalf of the Issuer relating to the transfer, exchange, or payment in respect of a Preferred Share or any interest therein shall be directed to the Paying Agent and the Transfer Agent at its address set forth in subsection (c)(ii) hereof.

(b) The Paying Agent shall notify the Preferred Shareholders of the occurrence of any Event of Default under the Indenture of which it receives notice from the Trustee.

Where this Agreement provides for notice to Preferred Shareholders of any event, such notice shall be sufficiently given (unless otherwise herein expressly provided) if such notice is in writing and mailed, first-class postage prepaid, to each Preferred Shareholder affected by such event, at such Preferred Shareholder's address as it appears on the Share Register, in the case of (a) or (b) not later than the latest date, and not earlier than the earliest date, prescribed for the giving of such notice.

Neither the failure to mail such notice, nor any defect in any notice so mailed, to any particular Preferred Shareholder shall affect the sufficiency of such notice with respect to other Preferred Shareholders. Any notice that is given in the manner herein provided shall conclusively be presumed to have been duly given whether or not actually received by such Preferred Shareholder. Any notice to Preferred Shareholders provided for in this Agreement will be deemed to have been given on the date of mailing.

Where this Agreement provides for notice in any manner, such notice may be waived in writing by any Person entitled to receive such notice, either before or after the event, and such waiver shall be the equivalent of such notice. Waivers of notice by Preferred Shareholders shall be filed with the Paying Agent but such filing shall not be a condition precedent to the validity of any action taken in reliance upon such waiver.

In the event that, by reason of the suspension of the regular mail service as a result of a strike, work stoppage or similar activity, it shall be impractical to mail notice of any event to Preferred Shareholders when such notice is required to be given pursuant to any provision of this Agreement, then any manner of giving such notice as shall be satisfactory to the Paying Agent shall be deemed to be a sufficient giving of such notice.

Section 13. Resignation or Removal of Paying Agent and Appointment of Successor Paying Agent; Merger, Conversion and Consolidation.

(a) The Issuer agrees, for the benefit of the Holders from time to time of the Preferred Shares, that there shall at all times be a Paying Agent and a Transfer Agent hereunder, each of which shall be a company authorized to engage in the activities set forth in this Agreement, subject to supervision or examination by governmental authorities, until all the Preferred Shares shall have been redeemed.

(b) The Paying Agent or the Transfer Agent may at any time resign as such agent by giving written notice to the Issuer and S&P of such intention on its part, specifying the date on which its desired resignation shall become effective; *provided that* such date shall be not less than 90 days after the giving of such notice by the Paying Agent or the Transfer Agent to the Issuer. The Paying Agent or the Transfer Agent may be removed at any time by the filing with it of an instrument in writing signed by an Authorized Representative of the Issuer and specifying such removal and the date, which shall be at least thirty days after the date of such written notice, upon which it is intended to become effective. The Issuer shall give written notice of any removal of the Paying Agent or Transfer Agent to S&P. Any such resignation or removal shall take effect on the date of the appointment by the Issuer of a successor Paying Agent or Transfer Agent and the acceptance of such appointment by such successor Paying Agent or Transfer Agent that qualifies as such under Section 13(a) hereof. The Issuer shall give written notice of the appointment of any successor Paying Agent or Transfer Agent to S&P. In the event of resignation by the Paying Agent or Transfer Agent, if a successor agent has not been appointed by the Issuer within 90 days after the giving of notice by the Paying Agent or Transfer Agent of its intention to resign, the Paying Agent or Transfer Agent, as applicable, may, at the expense of the Issuer, petition any court of competent jurisdiction for appointment of a successor Paying Agent or Transfer Agent provided that it shall be qualified under Section 13(a) hereof. Upon any such resignation or removal, the Paying Agent shall transfer to the successor Paying Agent or Transfer Agent (or, if none shall have been appointed, to the Issuer) all monies held by the Paying Agent or Transfer Agent on behalf of the Issuer in respect of any Preferred Shares and all books and records related to Preferred Shares maintained by the Paying Agent or Transfer Agent, including a copy of the Share Register.

(c) Any corporation or bank into which the Paying Agent or the Transfer Agent hereunder may be merged or converted, or any corporation or bank with which the Paying Agent or the Transfer Agent may be consolidated, or any corporation or bank resulting from any merger, conversion or consolidation to which the Paying Agent or the Transfer Agent shall be a party, or any corporation or bank to which the Paying Agent or the Transfer Agent shall sell or otherwise transfer all or substantially all of the assets and business of the Paying Agent or the Transfer Agent, provided that it shall be qualified under Section 13(a) hereof, shall be the successor Paying Agent or successor Transfer Agent, as applicable, under this Agreement, without the execution or filing of any paper or any further act on the part of any of the parties hereto.

(d) The successor Paying Agent or the successor Transfer Agent, as applicable, shall give prompt notice of the resignation and removal of the Paying Agent or the Transfer Agent, as applicable, and the appointment of a successor Paying Agent or successor Transfer Agent, as applicable, by notifying the Holders of the Preferred Shares in accordance with Section 12 hereof. Each notice shall include the name of the successor Paying Agent or successor Transfer Agent, as applicable, and the address of the office from which this Agreement shall be administered.

Section 14. Benefit of Agreement.

This Agreement is solely for the benefit of the parties hereto, the Holders of the Preferred Shares from time to time, and their respective successors and assigns, and nothing herein, express or implied,

shall give to any other persons any benefits or any legal or equitable right, remedy or claim under or by virtue of this Agreement. No party hereto may assign any of its rights or obligations hereunder except with the prior written consent of all the parties hereto.

Section 15. Preferred Shares Held by the Paying Agent; Other Business Relations.

Each of the Paying Agent or the Transfer Agent, in its individual or other capacity, may become the owner or pledgee of Preferred Shares with the same rights it would have if it were not acting as Paying Agent or Transfer Agent hereunder. The Paying Agent and the Transfer Agent may each conduct other business with the Issuer from time to time (including but not limited to its appointment and service as a paying agent under the Indenture).

Section 16. Amendment.

(a) Without the consent of any Holders of Preferred Shares, the Issuer, the Paying Agent and the Transfer Agent, at any time, may enter into one or more agreements supplemental hereto for any of the following purposes:

(1) to evidence the succession of a successor entity to the Issuer and the assumption by any such successor of the covenants of the Issuer herein and in the Preferred Shares;

(2) to take any action deemed reasonably necessary by the Issuer to prevent the reduction of dividends payable on the Preferred Shares as a result of the imposition of any taxes;

(3) to evidence and provide for the acceptance of appointment hereunder by a successor Paying Agent or Transfer Agent with respect to the Preferred Shares;

(4) to correct any manifest error with respect to any provision herein;

(5) to cure any ambiguity, correct or supplement any provision herein which may be inconsistent with any other provision hereunder, or to make any other provisions with respect to matters or questions arising herein;

(6) to take any action necessary or helpful to prevent the Issuer from being subject to any withholding or other taxes, fees or assessments or to reduce the risk that the Issuer or the Paying Agent, as applicable, will be engaged in a United States trade or business or otherwise subject to United States income tax on a net income basis; or

(7) to prevent the Issuer from becoming an "investment company" as defined in the Investment Company Act or better assure compliance with the requirements of Rule 3a-7 thereunder; *provided* that, as a condition to the effectiveness of any such supplemental agreement, each of the Issuer, the Trustee and the Initial Purchaser shall have (A) satisfied the Rating Condition with respect to such supplemental agreement and (B) received a customary, unqualified opinion of counsel from a nationally recognized law firm providing that, after giving effect to such supplemental agreement, the Issuer is exempt from registration as an "investment company" under the Investment Company Act;

*provided* that in each case that such action for any matters described in clauses (1) through (6) will not adversely affect the interests of the Holders of Preferred Shares in any material respect.

(b) With the consent of the Majority Preferred Shareholders affected by a supplemental agreement or agreement referred to below, the Issuer and the Paying Agent and/or Transfer Agent, as

applicable, may enter into an agreement or agreements supplemental hereto for the purpose of adding any provisions to, or changing in any manner or eliminating any of the provisions of, this Agreement or of modifying in any manner the rights of the Holders of Preferred Shares under this Agreement; *provided* that no such supplemental agreement will, without the consent of the Holder of each outstanding Preferred Share affected thereby:

(1) change the method or methods by which dividends will be determined for any Preferred Share or reduce the par value thereof or change the coin or currency in which such amounts are payable, or impair the right to institute suit for the enforcement of any such payment on or after the stated maturity thereof;

(2) reduce the percentage amount of the outstanding Preferred Shares, the consent of whose Holders is required for any such supplemental agreement, or the consent of whose Holders is required for any waiver of compliance with certain provisions of this Agreement or certain defaults hereunder and their consequences provided for in this Agreement; or

(3) modify any of the provisions of this Agreement relating to the modification thereof, except to increase any such percentage or to provide that certain other provisions of this Agreement cannot be modified or waived without the consent of the Holder of each outstanding Preferred Share affected thereby.

The Issuer shall provide to each Initial Rating Agency then rating any Notes, written notice of any such supplemental agreement or agreement supplemental to this Agreement at least 5 days prior to the execution thereof.

Prior to executing any amendment, the Issuer shall provide to the Paying Agent and the Transfer Agent an Opinion of Counsel stating that such amendment is authorized and permitted hereunder.

In the event that any amendment is consented to by the Issuer and 100% of the aggregate outstanding Preferred Shares and the Rating Condition is satisfied or is specifically waived by all consenting parties, all conditions precedent to the execution of such amendment shall be deemed satisfied, the execution of such amendment shall be authorized or permitted by this Agreement, and the Paying and Transfer Agent shall execute and accept the such amendment pursuant to this Section 16 without obtaining an Opinion of Counsel.

In the case of any supplemental Indenture that requires the consent of one or more Holders of the Notes or Preferred Shares, the Amendment Buy-Out Purchaser shall have the right, but not the obligation, to purchase from Non-Consenting Holders all Notes and Preferred Shares held by such Holder whose consent was solicited with respect to such supplemental Indenture (the "**Amendment Buy-Out Option**") for the applicable Amendment Buy-Out Purchase Price. If such option is exercised, the Amendment Buy-Out Purchaser must purchase all Notes and Preferred Shares of Non-Consenting Holders, regardless of the applicable percentage of the Aggregate Principal Amount of the Notes or Preferred Shares the consent of whose Holders is required for such supplemental indenture (an "**Amendment Buy-Out**"). By its acceptance of a Note or Preferred Share, each Holder of a Note and Preferred Share agrees that if the Amendment Buy-Out Option is exercised, any Non-Consenting Holder shall be required to sell its applicable Note or Preferred Share to the Amendment Buy-Out Purchaser.

All purchases made pursuant to the Amendment Buy-Out Option individually and in the aggregate must comply with the applicable transfer restrictions for the relevant Preferred Shares set forth herein and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency).

Section 17. Governing Law.

This Agreement is to be delivered and performed in, and shall be construed and enforced in accordance with, and the rights of the parties shall be governed by, the laws of the State of New York.

Section 18. Counterparts.

This Agreement may be executed by the parties hereto in any number of counterparts, and by each of the parties hereto in separate counterparts, and each such counterpart, when so executed and delivered, shall be deemed to be an original, but all such counterparts shall together constitute but one and the same instrument.

Section 19. Exhibits.

The exhibits to this Agreement are hereby incorporated and made a part hereof and are an integral part of this Agreement.

Section 20. No Petition.

The Paying Agent and the Transfer Agent, by entering into this Paying and Transfer Agency Agreement, each hereby covenant and agree that they will not at any time institute against the Issuer or the Co-Issuer, or voluntarily join in any institution against the Issuer or the Co-Issuer of, any bankruptcy, reorganization, arrangement, insolvency or liquidation proceedings, or other proceedings under any Cayman Islands, United States federal or state bankruptcy or similar law of any jurisdiction within or without the United States in connection with any obligations relating to the Preferred Shares or this Paying and Transfer Agency Agreement for a period of one-year and one-day (or, if longer, the applicable preference period then in effect) following the Trust Termination Date or, if later, the date upon which the Preferred Shares are redeemed.

Section 21. Prescription.

Dividends and the Redemption Price payable with respect to the Preferred Shares will cease to be payable by the Issuer if the share certificates with respect to the Preferred Shares are not presented for payment within ten years from the related Relevant Date therefor. **"Relevant Date"** means the date on which the final payment in respect of the Preferred Shares first becomes due, except that if the full amount of the monies payable has not been duly received by the Paying Agent on or prior to such due date, it means the date on which such monies have been so received.

Section 22. Identification of Preferred Shareholders.

On demand of the Issuer, a Holder of a Preferred Share will notify the Issuer whether or not the Preferred Share is held by a U.S. Person and the name and status of the Holder as an individual, partnership, limited liability company, corporation, trust or other entity and such other information the Issuer shall reasonably request for purposes of tax reporting of the Issuer or other Preferred Shareholders (including, in the case of a Holder that is a pass-through entity for federal income tax purposes, information relating to the beneficial owners of the Holder).

Section 23. QEF Election/Subpart F Income /Withholding.

(a) If required to prevent the withholding and imposition of United States income tax, the Issuer shall deliver or cause to be delivered a United States Internal Revenue Service Form W-8IMY to each

withholding agent related to an item of Portfolio Collateral and each issuer of an Eligible Investment included in the Trust Estate at the time such item of Portfolio Collateral or Eligible Investment is purchased by the Issuer and annually thereafter.

(b) It is the intention of the parties hereto and, by its acceptance of a Preferred Share, each holder of a Preferred Share shall be deemed to have agreed not to treat the Issuer as being engaged in the active conduct of a banking, financing, insurance, or other similar business for purposes of section 954(e)(2) of the Code.

(c) Notwithstanding that the Issuer anticipates being characterized as a partnership for federal income tax purposes, the Issuer will take all actions necessary in order to permit any holder of equity in the Issuer (including Holders of Preferred Shares) or any holder of a Note that is or may reasonably be characterized as an equity interest in the Issuer for United States federal income tax purposes, to make a protective "qualified electing fund" election with respect to the Issuer for United States income tax purposes.

Section 24. Acceptance of Section 13.12 of the Indenture.

The Paying Agent and the Transfer Agent shall be bound by Section 13.12 of the Indenture entitled "No Issuer Office Within the United States."

Section 25. Termination of the Trust Estate by the Trustee.

Within one Business Day of, the Trust Termination Date, the Trustee shall remit to the Paying Agent all Excess Cash Flow, and the Paying Agent shall distribute all of such Excess Cash Flow to the Preferred Shareholders in redemption of the Preferred Shares and, if applicable, in payment of dividends with respect to the Preferred Shares.

Section 26. Covenants of the Issuer.

(a) The Issuer, for the benefit of the Holders of the Preferred Shares hereby incorporates *mutatis mutandis* the covenants of the Issuer set forth in the Indenture.

(b) The Issuer shall not take the following actions without consent of the Majority Preferred Shareholders:

- (i) the exercise of the Optional Redemption pursuant to Section 9.1 of the Indenture;
- (ii) the exercise of the Tax Event Redemption pursuant to Section 9.5 of the Indenture; or
- (iii) any amendment to the Indenture increasing the Applicable Periodic Rate for any Class X Notes, Class A Notes or Class B Notes, the Aggregate Principal Amount of any Class of Notes, the Optional Redemption Price or the Mandatory Redemption Price or modifying Article XI of the Indenture in a manner that affects or limits in any respect the amount of distributions that will be made with respect to the Preferred Shares.

It shall be the responsibility of the Issuer to satisfy the Paying Agent as to the compliance with the foregoing conditions (on which the Paying Agent may rely in good faith).

(c) Without the consent of Preferred Shareholders representing at least 66-2/3% of the Preferred Shares materially and adversely affected thereby, the Issuer shall not enter into any amendment or supplement to the Indenture that shall:

(i) change the Final Maturity Date of any Note or the Payment Date of any Note or Preferred Share, reduce the principal amount, notional principal amount or stated amount of any Note, as the case may be, or the means of determining the Applicable Periodic Rate, the Optional Redemption Price, the Special Redemption Price or the Mandatory Redemption Price, as applicable, with respect thereto, change the provisions of the Indenture relating to the application of proceeds of the Trust Estate to the payment of the Notes or the Preferred Shares or change the jurisdiction where any Note or Preferred Share is payable, or the coin or currency in which, any Note, any Preferred Share or any amount thereunder is payable, or impair the right to institute suit for the enforcement of any such payment on or after the maturity thereof;

(ii) reduce the percentage in Aggregate Principal Amount of the Notes or amount of the Preferred Shares, the consent of the Holders of which is required for the execution of any amendment or supplement to the Indenture, or the consent of the Holders of which is required for any waiver of compliance with certain provisions of the Indenture or certain Events of Default thereunder and their consequences provided for in the Indenture;

(iii) impair or adversely affect the Trust Estate except as otherwise permitted in the Indenture;

(iv) permit the creation of any lien ranking prior to or on a parity with the lien of the Indenture with respect to any part of the Trust Estate or terminate the lien of the Indenture on any property at any time subject hereto (other than pursuant to the terms of the Indenture) or deprive the Holder of any Note or any other party expressly secured thereby of the security afforded by the lien of the Indenture;

In connection with our proposed purchase of such [Class I][Class II] Preferred Shares we acknowledge, represent, agree and confirm that:

2. We are (i)(A)(1) a "qualified institutional buyer" (within the meaning of Rule 144A under the Securities Act) or (2) an "accredited investor" (within the meaning of Rule 501(a) under the Securities Act) and (B) a financial institution or other permitted offeree or purchaser for purposes of any applicable state securities or "Blue Sky" laws and have such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of our investment in the [Class I][Class II] Preferred Shares for an indefinite period of time or (ii) not a "U.S. person" within the meaning of Regulation S under the Securities Act (a "Non-U.S. Person"). (a) The Servicer shall provide services to the Issuer as follows:

(i) Subject to and in accordance with the terms this Agreement and the other Transaction Documents, the Servicer shall supervise and direct the administration, acquisition and disposition of the Collateral, and shall perform on behalf of the Issuer those duties and obligations of the Servicer required by the Indenture and the other Transaction Documents, and including the furnishing of Orders, Requests and officer's certificates, and such certifications as are required of the Servicer under the Indenture with respect to permitted purchases and sales of the Portfolio Collateral, Eligible Investments and other assets, and other matters, and, to the extent necessary or appropriate to perform such duties, the Servicer shall have the power to execute and deliver all necessary and appropriate documents and instruments on behalf of the Issuer with respect thereto. The Servicer shall, subject to the terms and conditions of this Agreement and the other Transaction Documents, perform its obligations hereunder and thereunder with reasonable care, using a degree of skill and attention no less than that which the Servicer exercises with respect to comparable assets that it services or manages for others having similar objectives and restrictions, and in a manner consistent with practices and procedures followed by institutional servicers or managers of national standing relating to assets of the nature and character of the Collateral for clients having

similar objectives and restrictions, except as expressly provided otherwise in this Agreement and/or the other Transaction Documents. To the extent not inconsistent with the foregoing, the Servicer shall follow its customary standards, policies and procedures in performing its duties under the Indenture and hereunder. The Servicer shall comply with all terms and conditions of the other Transaction Documents affecting the duties and functions to be performed hereunder. The Servicer shall not be bound to follow any amendment to any Transaction Document until it has received written notice thereof and until it has received a copy of the amendment from the Issuer or the Trustee; provided, however, that the Servicer shall not be bound by any amendment to any Transaction Document that affects the rights, powers, obligations or duties of the Servicer unless the Servicer shall have consented thereto in writing. The Issuer agrees that it shall not permit any amendment to the Indenture that (x) affects the rights, powers, obligations or duties of the Servicer or (y) affects the amount or priority of any fees payable to the Servicer to become effective unless the Servicer has been given prior written notice of such amendment and consented thereto in writing;

(ii) the Servicer shall select any Collateral which shall be acquired by the Issuer pursuant to the Indenture in accordance with the Collateral criteria set forth herein and in the Indenture;

(iii) the Servicer shall monitor the Collateral on an ongoing basis and provide to the Issuer all reports, certificates, schedules and other data with respect to the Collateral which the Issuer is required to prepare and deliver under the Indenture, in the form and containing all information required thereby and in reasonable time for the Issuer to review such required reports, certificates, schedules and data and to deliver them to the parties entitled thereto under the Indenture; the Servicer shall undertake to determine to the extent reasonably practicable whether a Portfolio Collateral has become a Defaulted Portfolio Collateral;

(iv) the Servicer, subject to and in accordance with the provisions of the Indenture may, at any time permitted under the Indenture, and shall, when required by the Indenture, direct the Trustee (x) to dispose of a Portfolio Collateral, Equity Security or Eligible Investment or other securities received in respect thereof in the open market or otherwise, (y) to acquire, as security for the Notes in substitution for or in addition to any one or more Portfolio Collateral or Eligible Investments included in the Collateral, one or more substitute Portfolio Collateral or Eligible Investments, or (z) direct the Trustee to take the following actions with respect to a Portfolio Collateral or Eligible Investment:

- (1) retain such Portfolio Collateral or Eligible Investment;
- or
- (2) dispose of such Portfolio Collateral or Eligible Investment in the open market or otherwise; or
  - (3) if applicable, tender such Portfolio Collateral or Eligible Investment pursuant to an Offer; or
  - (4) if applicable, consent to any proposed amendment, modification or waiver pursuant to an Offer; or

(5) retain or dispose of any securities or other property (if other than cash) received pursuant to an Offer; or

(6) waive any default with respect to any Defaulted Portfolio Collateral; or

(7) vote to accelerate the maturity of any Defaulted Portfolio Collateral; or

(8) exercise any other rights or remedies with respect to such Portfolio Collateral or Eligible Investment as provided in the related Underlying Instruments, including in connection with any workout situations, or take any other action consistent with the terms of the Indenture which is in the best interests of the Holders of the Securities; and

(v) the Servicer shall (a) on or prior to any day which is a Redemption Date, direct the Trustee to enter into contracts to dispose of the Portfolio Collateral and any other Collateral pursuant to the Indenture and otherwise comply with all redemption procedures and certification requirements in the Indenture in order to allow the Trustee to effect such redemption and (b) conduct Auctions in accordance with the terms of the Indenture.

(b) In performing its duties hereunder, the Servicer shall seek to preserve the value of the Collateral for the benefit of the Holders of the Securities taking into account the Collateral criteria and limitations set forth herein and in the Indenture and the Servicer shall use reasonable efforts to select and service the Collateral in such a way that will permit a timely performance of all payment obligations by the Issuer under the Indenture; provided, that the Servicer shall not be responsible if such objectives are not achieved so long as the Servicer performs its duties under this Agreement in the manner provided for herein, and provided, further, that there shall be no recourse to the Servicer with respect to the Notes or the Preferred Shares. The Servicer and the Issuer shall take such other action, and furnish such certificates, opinions and other documents, as may be reasonably requested by the other party hereto in order to effectuate the purposes of this Agreement and to facilitate compliance with applicable laws and regulations and the terms of this Agreement.

(c) The Servicer hereby agrees to the following:

(i) The Servicer agrees not to institute against, or join any other Person in instituting against, the Issuer or the Co-Issuer any bankruptcy, reorganization, arrangement, insolvency, moratorium or liquidation proceedings or other proceedings under federal or state bankruptcy or similar laws of any jurisdiction until at least one year and one day (or if longer, any applicable preference period plus one day) after the payment in full of all Notes issued under the Indenture; provided, however, that nothing in this clause (i) shall preclude, or be deemed to estop, the Servicer (A) from taking any action prior to the expiration of such period in (x) any case or proceeding voluntarily filed or commenced by the Issuer or the Co-Issuer, as the case may be, or (y) any involuntary insolvency proceeding filed or commenced against the Issuer or the Co-Issuer, as the case may be, by a Person other than the Servicer, or (B) from commencing against the Issuer or the Co-Issuer or any properties of the Issuer or the Co-Issuer any legal action which is not a bankruptcy, reorganization, arrangement, insolvency, moratorium, liquidation or similar proceeding. The provisions of this Section 2(c)(i) shall survive termination of this Agreement.

(ii) The Servicer shall cause each sale or purchase of any Portfolio Collateral or Eligible Investment to be conducted on an arm's-length basis.

(d) The Servicer shall not act for the Issuer in any capacity except as provided in this Section 2. In providing services hereunder, the Servicer may employ third parties, including its Affiliates, to render advice (including advice with respect to the servicing of the Collateral) and assistance; provided, however, that the Servicer shall not be relieved of any of its duties or liabilities hereunder regardless of the performance of any services by third parties. Notwithstanding any other provision of this Agreement, the Servicer shall not be required to take any action required of it pursuant to this Agreement or the Indenture if such action would constitute a violation of any law.

(e) Notwithstanding any other provision of this Agreement or the Indenture, (i) any granted signatory powers or authority granted to the Servicer on behalf of the Issuer with respect to the Special Procedures Obligations shall be conditioned upon the prior written approval of the Independent Advisor and (ii) neither the Servicer nor any Affiliate of the Servicer shall have any authority to enter into agreements, or take any action, on behalf of the Issuer with respect to the Special Procedures Obligations without the prior written approval of the Independent Advisor.

### 3. Brokerage.

The Servicer shall seek to obtain the best prices and execution for all orders placed with respect to the Collateral, considering all reasonable circumstances. Subject to the objective of obtaining best prices and execution, the Servicer may take into consideration research and other brokerage services furnished to the Servicer or its Affiliates by brokers and dealers which are not Affiliates of the Servicer. Such services may be used by the Servicer or its Affiliates in connection with its other servicing or advisory activities or operations. The Servicer may aggregate sales and purchase orders of securities placed with respect to the Collateral with similar orders being made simultaneously for other accounts serviced or managed by Servicer or with accounts of the Affiliates of the Servicer, if in the Servicer's reasonable judgment such aggregation shall result in an overall economic benefit to the Issuer, taking into consideration the advantageous selling or purchase price, brokerage commission and other expenses. In the event that a sale or purchase of a Portfolio Collateral or Eligible Investment (in accordance with the terms of the Indenture) occurs as part of any aggregate sales or purchase orders, the objective of the Servicer (and any of its Affiliates involved in such transactions) shall be to allocate the executions among the accounts in an equitable manner and consistent with its obligations hereunder and under applicable law.

In addition to the foregoing and subject to the provisions of Section 2 and the limitations of Section 5, the objective of obtaining best prices and execution and to the extent permitted by applicable law, the Servicer may, on behalf of the Issuer, direct the Trustee to acquire any and all of the Eligible Investments or other Collateral from, or sell Portfolio Collateral or other Collateral to, the Initial Purchaser, the Trustee or any of their respective Affiliates, or any other firm.

4. Additional Activities of the Servicer.

Nothing herein shall prevent the Servicer or any of its Affiliates from engaging in other businesses, or from rendering services of any kind to the Trustee, the Holders of the Securities, or any other Person or entity to the extent permitted by applicable law. Without prejudice to the generality of the foregoing, the Servicer and partners, directors, officers, employees and agents of the Servicer or its Affiliates may, among other things, and subject to any limits specified in the Indenture:

(a) serve as directors (whether supervisory or managing), officers, partners, employees, agents, nominees or signatories for any issuer of any obligations included in the Collateral or their respective Affiliates, to the extent permitted by their Governing Instruments, as from time to time amended, or by any resolutions duly adopted by the Issuer, its Affiliates or any issuer of any obligations included in the Collateral or their respective Affiliates, pursuant to their respective Governing Instruments; provided, that in the reasonable judgment of the Servicer, such activity shall not have a material adverse effect on the enforceability of Collateral or the ability of the Issuer to comply with each Overcollateralization Ratio and the Interest Coverage Test; provided, further, that nothing in this paragraph shall be deemed to limit the duties of the Servicer set forth in Section 2 hereof;

(b) receive fees for services of any nature rendered to the issuer of any obligations included in the Collateral or their respective Affiliates; provided, that in the reasonable judgment of the Servicer, such activity shall not have a material adverse effect on the enforceability of Collateral or the ability of the Issuer to comply with each Overcollateralization Ratio and the Interest Coverage Test; and provided, further that if any portion of such services are related to the purchase by the Issuer of any obligations included in the Collateral, the portion of such fees relating to such obligations shall be applied to the purchase price of such obligations; and

(c) be a secured or unsecured creditor of, or hold an equity interest in, the Issuer, its Affiliates or any issuer of any obligation included in the Collateral; provided, that in the reasonable judgment of the Servicer, such activity shall not have a material adverse effect on the enforceability of Collateral or the ability of the Issuer to comply with each Overcollateralization Ratio and the Interest Coverage Test; provided, further, that nothing in this paragraph shall be deemed to limit the duties of the Servicer set forth in Section 2 hereof.

It is understood that the Servicer and any of its Affiliates may engage in any other business and furnish servicing, investment management and advisory services to others, including Persons which may have policies similar to those followed by the Servicer with respect to the Collateral and which may own securities of the same class, or which are the same type, as the Portfolio Collateral or other securities of the issuers of Portfolio Collateral. The Servicer shall be free, in its sole discretion, to make recommendations to others, or effect transactions on behalf of itself or for others, which may be the same as or different from those effected with respect to the Collateral.

Unless the Servicer determines in its reasonable judgment that such purchase or sale is appropriate, the Servicer may refrain from directing the purchase or sale hereunder of securities issued by (i) Persons of which the Servicer, its Affiliates or any of its or their officers, directors or employees are directors or officers, (ii) Persons for which the Servicer or its Affiliate act as financial adviser or underwriter or (iii) Persons about which the Servicer or any of its Affiliates have information which the Servicer deems confidential or non-public or otherwise might prohibit it from trading such securities in accordance with applicable law. The Servicer shall not be obligated to have or pursue any particular strategy or opportunity with respect to the Collateral.

5. Conflicts of Interest.

(a) The Servicer shall not direct the Trustee to acquire an obligation to be included in the Collateral from the Servicer or any of its Affiliates as principal or to sell an obligation to the Servicer or any of its Affiliates as principal unless (i) the Issuer shall have received from the Servicer such information relating to such acquisition or sale as it may reasonably require and shall have approved such acquisition, which approval shall not be unreasonably withheld, (ii) in the judgment of the Servicer, such transaction is on terms no less favorable than would be obtained in a transaction conducted on an arm's length basis between third parties unaffiliated with each other and (iii) such transaction is permitted by the Investment Advisers Act.

(b) The Servicer shall not direct the Trustee to acquire an obligation to be included in the Collateral directly from any account or portfolio for which the Servicer serves as servicer or investment adviser, or direct the Trustee to sell an obligation directly to any account or portfolio for which the Servicer serves as servicer or investment adviser unless such acquisition or sale is (i) in the judgment of the Servicer, on terms no less favorable than would be obtained in a transaction conducted on an arm's length basis between third parties unaffiliated with each other and (ii) permitted by the Investment Advisers Act.

(c) In addition, the Servicer shall not undertake any transaction described in this Section 5 unless such transaction is exempt from the prohibited transaction rules of ERISA and the Code.

6. Records; Confidentiality.

The Servicer shall maintain appropriate books of account and records relating to services performed hereunder, and such books of account and records shall be accessible for inspection by a representative of the Issuer, the Trustee, the Collateral Administrator, the Holders of the Securities and the Independent accountants appointed by the Issuer pursuant to the Indenture at a mutually agreed time during normal business hours and upon not less than three Business Days' prior notice. At no time shall the Servicer make a public announcement concerning the issuance of the Notes or the Preferred Shares, the Servicer's role hereunder or any other aspect of the transactions contemplated by this Agreement and the other Transaction Documents. The Servicer shall keep confidential any and all information obtained in connection with the services rendered hereunder and shall not disclose any such information to non-affiliated third parties except (i) with the prior written consent of the Issuer, (ii) such information as either Rating Agency shall reasonably request in connection with the rating of any class of Securities, (iii) as required by law, regulation, court order or the rules or regulations of any self regulating organization, body or official having jurisdiction over the Servicer, (iv) to its professional advisers, (v) such information as shall have been publicly disclosed other than in violation of this Agreement, or (vi) such information that was or is obtained by the Servicer on a non-confidential basis, provided, that the Servicer does not know or have reason to know of any breach by such source of any confidentiality obligations with respect thereto. For purposes of this Section 6, the Trustee, the Collateral Administrator and the Holders of the Securities shall in no event be considered "non-affiliated third parties."

Notwithstanding anything in this Agreement or the Indenture to the contrary, the Servicer, the Co-Issuers, the Trustee and the Holders of the Securities (and the beneficial owners thereof) (and each of their respective employees, representatives or other agents) may disclose to any and all Persons, without limitation of any kind, the U.S. tax treatment and U.S. tax structure of the transactions contemplated by this Agreement and all materials of any kind (including opinions or other tax analyses) that are provided to them relating to such U.S. tax treatment and U.S. tax structure, as such terms are defined under U.S. federal, state or local tax law.

7. Obligations of Servicer.

Unless otherwise specifically required by any provision of the Indenture or this Agreement or by applicable law, the Servicer shall use its best reasonable efforts to ensure that no action is taken by it, and shall not intentionally or with reckless disregard take any action, which would (a) materially adversely affect the Issuer or the Co-Issuer for purposes of Cayman Islands law, United States federal or state law or any other law known to the Servicer to be applicable to the Issuer or the Co-Issuer, (b) not be permitted under the Issuer's Amended and Restated Memorandum and Articles of Association or the Co-Issuer's Certificate of Incorporation or By-Laws, (c) violate any law, rule or regulation of any governmental body or agency having jurisdiction over the Issuer or the Co-Issuer including, without limitation, any Cayman Islands or United States federal, state or other applicable securities law the violation of which has or could reasonably be expected to have a material adverse effect on the Issuer, the Co-Issuer or any of the Collateral, (d) require registration of the Issuer, the Co-Issuer or the pool of Collateral as an "investment company" under the Investment Company Act, (e) cause the Issuer or the Co-Issuer to violate the terms of the Indenture, including, without limitation, any representations made by the Issuer or Co-Issuer therein, or any other agreement contemplated by the Indenture or (f) not be permitted by Annex 1 hereto and would subject the Issuer to U.S. federal or state income or franchise taxation or cause the Issuer to be engaged in a trade or business in the United States for U.S. federal income tax purposes. The Servicer covenants that it shall comply in all material respects with all laws and regulations applicable to it in connection with the performance of its duties under this Agreement and the Indenture. Notwithstanding anything in this Agreement to the contrary, the Servicer shall not be required to take any action under this Agreement or the Indenture if such action would violate any applicable law, rule, regulation or court order.

8. Compensation.

(a) The Issuer shall pay to the Servicer, for services rendered and performance of its obligations under this Agreement, the Servicing Fee, which shall be payable in such amounts and at such times as set forth in the Indenture. The provisions of the Indenture which relate to the amount and payment of the Servicing Fee shall not be amended without the written consent of the Servicer. If on any Payment Date there are insufficient funds to pay the Servicing Fee (and/or any other amounts due and payable to the Servicer) in full, the amount not so paid shall be deferred and shall be payable on such later Payment Date on which funds are available therefor as provided in the Indenture.

(b) The Servicer shall be responsible for the ordinary expenses incurred in the performance of its obligations under this Agreement, the Indenture and the other Transaction Documents; provided, however, that any extraordinary expenses incurred by the Servicer in the performance of such obligations (including, but not limited to, any fees, expenses or other amounts payable to the Rating Agencies, the Collateral Administrator, the Trustee and the accountants appointed by the Issuer, the reasonable expenses incurred by the Servicer to employ outside lawyers or consultants reasonably necessary in connection with the evaluation, transfer or restructuring of any Portfolio Collateral or other unusual matters arising in the performance of its duties under this Agreement and the Indenture, any reasonable expenses incurred by the Servicer in obtaining advice from outside counsel with respect to its obligations under this Agreement, brokerage commissions, transfer fees, registration costs, taxes and other similar costs and transaction related expenses and fees arising out of transactions effected for the Issuer's account and the portion allocated to the Issuer of any other fees and expenses that the Servicer customarily allocates among all of the funds or portfolios that it services or manages) shall be reimbursed by the Issuer to the extent funds are available therefor in accordance with and subject to the limitations contained in the Indenture.

(c) If this Agreement is terminated pursuant to Section 12, Section 14 or otherwise, the fees payable to the Servicer shall be prorated for any partial periods between Payment Dates during which this Agreement was in effect and shall be due and payable on the first Payment Date following the date of such termination and on any subsequent Payment Dates to the extent remaining unpaid and in accordance with, and to the extent provided in, the Indenture.

9. Benefit of the Agreement.

The Servicer agrees that its obligations hereunder shall be enforceable at the instance of the Issuer, the Trustee, on behalf of the Noteholders, or the requisite percentage of Noteholders or the Holders of the Preferred Shares, as applicable, as provided in the Indenture.

10. Limits of Servicer Responsibility; Indemnification.

(a) The Servicer assumes no responsibility under this Agreement other than to render the services called for hereunder and under the terms of the other Transaction Documents made applicable to it pursuant to the terms of this Agreement in good faith and, subject to the standard of liability described in the next sentence, shall not be responsible for any action of the Issuer or the Trustee in following or declining to follow any advice, recommendation or direction of the Servicer. The Servicer, its directors, officers, stockholders, partners, agents and employees, and its Affiliates and their directors, officers, stockholders, partners, agents and employees, shall not be liable to the Issuer, the Co-Issuer, the Trustee, the Holders of the Securities or any other person, for any losses, claims, damages, judgments, assessments, costs or other liabilities (collectively, "Liabilities") incurred by the Issuer, the Co-Issuer, the Trustee, the Holders of the Securities or any other person, that arise out of or in connection with the performance by the Servicer of its duties under this Agreement and under the terms of the other Transaction Documents made applicable to it pursuant to the terms of this Agreement, except by reason of (i) acts or omissions constituting bad faith, willful misconduct, gross negligence or breach of fiduciary duty in the performance, or reckless disregard, of the obligations of the Servicer hereunder and under the terms of the other Transaction Documents made applicable to it pursuant to the terms of this Agreement or (ii) with respect to any information included in the Offering Circular in the section entitled "The Servicer" that contains any untrue statement of material fact or omits to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading (the preceding clauses (i) and (ii) collectively being the "Servicer Breaches"). For the avoidance of doubt, the Servicer shall have no duty to independently investigate any laws not otherwise known to it in connection with its obligations under this Agreement, the Indenture and the other Transaction Documents. The Servicer shall be deemed to have satisfied the requirements of the Indenture and this Agreement relating to not causing the Issuer to be treated as engaged in a trade or business in the United States for U.S. federal income tax purposes (including as those requirements relate to the acquisition (including manner of acquisition), ownership, enforcement, and disposition of Collateral) to the extent the Servicer complies with the requirements set forth in Annex 1 hereto.

(b) The Issuer shall indemnify and hold harmless (the Issuer in such case, the "Indemnifying Party") the Servicer, its directors, officers, stockholders, partners, agents and employees (such parties collectively in such case, the "Indemnified Parties") from and against any and all Liabilities, and shall reimburse each such Indemnified Party for all reasonable fees and expenses (including reasonable fees and expenses of counsel) (collectively, the "Expenses") as such Expenses are incurred in investigating, preparing, pursuing or defending any claim, action, proceeding or investigation with respect to any pending or threatened litigation (collectively, the "Actions"), caused by, or arising out of or in connection with, the issuance of the Securities, the transactions contemplated by the Offering Circular, the Indenture or this Agreement, and/or any action taken by, or any failure to act by, such Indemnified Party; provided, however, that no Indemnified Party shall be indemnified for any Liabilities

or Expenses it incurs as a result of any acts or omissions by any Indemnified Party constituting Servicer Breaches. Notwithstanding anything contained herein to the contrary, the obligations of the Issuer under this Section 10 shall be payable solely out of the Collateral in accordance with the priorities set forth in the Indenture and shall survive termination of this Agreement.

(c) With respect to any claim made or threatened against an Indemnified Party, or compulsory process or request or other notice of any loss, claim, damage or liability served upon an Indemnified Party, for which such Indemnified Party is or may be entitled to indemnification under this Section 10, such Indemnified Party shall (or with respect to Indemnified Parties that are directors, officers, stockholders, agents or employees of the Servicer, the Servicer shall cause such Indemnified Party to):

(i) give written notice to the Indemnifying Party of such claim within ten (10) days after such Indemnified Party's receipt of actual notice that such claim is made or threatened, which notice to the Indemnifying Party shall specify in reasonable detail the nature of the claim and the amount (or an estimate of the amount) of the claim; provided, however, that the failure of any Indemnified Party to provide such notice to the Indemnifying Party shall not relieve the Indemnifying Party of its obligations under this Section 10 unless the Indemnifying Party is materially prejudiced or otherwise forfeits rights or defenses by reason of such failure;

(ii) at the Indemnifying Party's expense, provide the Indemnifying Party such information and cooperation with respect to such claim as the Indemnifying Party may reasonably require, including, but not limited to, making appropriate personnel available to the Indemnifying Party at such reasonable times as the Indemnifying Party may request;

(iii) at the Indemnifying Party's expense, cooperate and take all such steps as the Indemnifying Party may reasonably request to preserve and protect any defense to such claim;

(iv) in the event suit is brought with respect to such claim, upon reasonable prior notice, afford to the Indemnifying Party the right, which the Indemnifying Party may exercise in its sole discretion and at its expense, to participate in the investigation, defense and settlement of such claim;

(v) neither incur any material expense to defend against nor release or settle any such claim or make any admission with respect thereto (other than routine or incontestable admissions or factual admissions the failure to make which would expose such Indemnified Party to unindemnified liability) nor permit a default or consent to the entry of any judgment in respect thereof, in each case without the prior written consent of the Indemnifying Party; and

(vi) upon reasonable prior notice, afford to the Indemnifying Party the right, in its sole discretion and at its sole expense, to assume the defense of such claim, including, but not limited to, the right to designate counsel reasonably acceptable to the Indemnified Party and to control all negotiations, litigation, arbitration, settlements, compromises and appeals of such claim; provided, that if the Indemnifying Party assumes the defense of such claim, it shall not be liable for any fees and expenses of counsel for any Indemnified Party incurred thereafter in connection with such claim except that if such Indemnified Party reasonably determines that counsel designated by the

Indemnifying Party has a conflict of interest in connection with its representation of such Indemnified Party, such Indemnifying Party shall pay the reasonable fees and disbursements of one counsel (in addition to any local counsel) separate from its own counsel for all Indemnified Parties in connection with any one action or separate but similar or related actions in the same jurisdiction arising out of the same general allegations or circumstances; provided, further, that prior to entering into any final settlement or compromise, such Indemnifying Party shall seek the consent of the Indemnified Party and use its commercially reasonable efforts in the light of the then prevailing circumstances (including, without limitation, any express or implied time constraint on any pending settlement offer) to obtain the consent of such Indemnified Party as to the terms of settlement or compromise. If an Indemnified Party does not consent to the settlement or compromise within a reasonable time under the circumstances, the Indemnifying Party shall not thereafter be obligated to indemnify the Indemnified Party for any amount in excess of such proposed settlement or compromise.

(d) In the event that any Indemnified Party waives its right to indemnification hereunder, the Indemnifying Party shall not be entitled to appoint counsel to represent such Indemnified Party nor shall the Indemnifying Party reimburse such Indemnified Party for any costs of counsel to such Indemnified Party.

(e) The U.S. federal securities laws impose liabilities under certain circumstances on persons who act in good faith; accordingly, notwithstanding any other provision of this Agreement, nothing herein shall in any way constitute a waiver or limitation of any rights which the Issuer or the Holders of the Securities may have under any U.S. federal securities laws.

#### 11. No Partnership or Joint Venture.

The Issuer and the Servicer are not partners or joint venturers with each other and nothing herein shall be construed to make them such partners or joint venturers or impose any liability as such on either of them. The Servicer's relation to the Issuer shall be deemed to be that of an independent contractor.

#### 12. Term; Termination.

(a) This Agreement shall commence as of the date first set forth above and shall continue in force and effect until the first of the following occurs: (i) the payment in full of the Notes, the termination of the Indenture in accordance with its terms and the redemption in full of the Preferred Shares; (ii) the liquidation of the Collateral and the final distribution of the proceeds of such liquidation to the Securityholders; or (iii) the termination of this Agreement in accordance with subsection (b), (c), (d) or (e) of this Section 12 or Section 14 of this Agreement.

(b) Subject to Section 12(e) below, the Servicer may resign, upon 90 days' written notice to the Issuer (or such shorter notice as is acceptable to the Issuer). If the Servicer resigns, the Issuer agrees to appoint a successor Servicer to assume such duties and obligations in accordance with Section 12(e).

(c) This Agreement shall be automatically terminated in the event that the Issuer determines in good faith that the Issuer or the pool of Collateral has become required to be registered under the provisions of the Investment Company Act, and the Issuer notifies the Servicer thereof.

(d) If this Agreement is terminated pursuant to this Section 12, neither party shall have any further liability or obligation to the other, except as provided in Sections 2(c)(i), 8, 10 and 15 of this Agreement.

(e) No removal or resignation of the Servicer shall be effective unless:

I. if the Class A-1LA Notes are Outstanding and (i) the sum of (A) the Aggregate Par Amount of Portfolio Collateral other than any Equity Portfolio Collateral and (B) the Market Value of all Equity Portfolio Collateral (as determined by the Servicer in a commercially reasonable manner), if any, is less than (ii) the sum of (A) the Aggregate Principal Amount of the Outstanding Notes other than the Class B-1L Notes plus any accrued and unpaid interest thereon and (B) 50% of the Aggregate Principal Amount of the Class B-1L Notes plus any accrued and unpaid interest thereon (a "Preferred Share Event"), then:

(i) (A) the Issuer appoints a successor Servicer at the written direction of a Majority in Aggregate Outstanding Amount of the Notes (voting as a single class and excluding any Notes held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP), (B) such successor Servicer has agreed in writing to assume all of the Servicer's duties and obligations pursuant to this Agreement and the Indenture and (C) such successor Servicer is not objected to within 30 days after notice of such succession by a Majority of the Controlling Class of Notes); or

(ii) if a Majority in Aggregate Outstanding Amount of the Notes (voting as a single class and excluding any Notes held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP) has nominated two or more possible successor Servicers that have been objected to pursuant to the preceding clause (i)(C) or has otherwise failed to appoint a successor Servicer that has not been objected to pursuant to the preceding clause (i)(C) within 30 days of the date of notice of such removal or resignation of the Servicer (or, if later, within 30 days of the last failure to successfully appoint a successor Servicer), then (A) the Issuer appoints a successor Servicer at the written direction of a Majority of the Controlling Class of Notes, (B) such successor Servicer has agreed in writing to assume all of the Servicer's duties and obligations pursuant to this Agreement and the Indenture and (C) such successor Servicer is not objected to within 30 days after notice of such succession by a Majority in Aggregate Outstanding Amount of the Notes (voting as a single class and excluding any Notes held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP); or

(iii) if the Issuer fails to appoint a successor Servicer pursuant to the preceding clauses (i) and (ii) within 90 days of any notice of resignation or removal of the Servicer, (A) a Majority of the Controlling Class of Notes may petition a court of competent authority to appoint a successor Servicer, (B) such court appoints a successor Servicer and (C) such successor Servicer has agreed in writing to assume all of the Servicer's duties and obligations pursuant to this Agreement and the Indenture.

II. if there is no Preferred Share Event in effect, then:

(i) (A) the Issuer appoints a successor Servicer at the written direction of a Majority of the Preferred Shares (excluding any Preferred Shares held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority, other than HFP which may exercise its vote with respect to Preferred Shares it owns, up to the Original HFP Share Amount), (B) such successor Servicer has agreed in writing to assume all of the Servicer's duties and obligations pursuant to this Agreement and the Indenture and (C) such successor Servicer is not objected to within 30 days after notice of such succession by either (x) a Majority of the Controlling Class of Notes or (y) a Majority in Aggregate Outstanding Amount of the Notes (voting as a single class and excluding any Notes held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP); or

(ii) if a Majority of the Preferred Shares (excluding any Preferred Shares held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP) has nominated two or more possible successor Servicers that have been objected to pursuant to the preceding clause (i)(C) or has otherwise failed to appoint a successor Servicer that has not been objected to pursuant to the preceding clause (i)(C) within 30 days of the date of notice of such removal or resignation of the Servicer (or, if later, within 30 days of the last failure to successfully appoint a successor Servicer), then (A) the Issuer appoints a successor Servicer at the written direction of a Majority of the Controlling Class of Notes, (B) such successor Servicer has agreed in writing to assume all of the Servicer's duties and obligations pursuant to this Agreement and the Indenture and (C) such successor Servicer is not objected to within 45 days after notice of such succession by either of (x) a Majority of the Preferred Shares (excluding any Preferred Shares held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP which may exercise its vote with respect to Preferred Shares it owns, up to the Original HFP Share Amount) or (y) a Majority in Aggregate Outstanding Amount of the Notes (voting as a single class and excluding any Notes held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP); or

(iii) if the Issuer fails to appoint a successor Servicer pursuant to the preceding clauses (i) and (ii) within 90 days of any notice of resignation or removal of the Servicer, (A) a Majority of the Controlling Class of Notes may petition a court of competent authority to appoint a successor Servicer, (B) such court appoints a successor Servicer and (C) such successor Servicer has agreed in writing to assume all of the Servicer's duties and obligations pursuant to this Agreement and the Indenture.

In addition, any successor Servicer must be an established institution which (i) has demonstrated an ability to professionally and competently perform duties similar to those imposed upon the Servicer hereunder, (ii) is legally qualified and has the capacity to act as Servicer hereunder, as successor to the Servicer under this Agreement in the assumption of all of the responsibilities, duties and obligations of the Servicer hereunder and under the applicable terms of the Indenture, (iii) shall not cause the Issuer or the pool of Collateral to become required to register under the provisions of the Investment Company Act, (iv) shall perform its duties as Servicer under this Agreement and the Indenture without

causing the Issuer, the Co Issuer or any Holder of Preferred Shares to become subject to tax in any jurisdiction where such successor Servicer is established as doing business and (v) each Rating Agency has confirmed that the appointment of such successor Servicer shall not cause its then current rating of any Class of Notes to be reduced or withdrawn. No compensation payable to a successor Servicer from payments on the Collateral shall be greater than that paid to the Servicer without the prior written consent of a Majority of the Noteholders and a Majority of the Preferred Shares. The Issuer, the Trustee and the successor Servicer shall take such action (or cause the retiring Servicer to take such action) consistent with this Agreement and the terms of the Indenture applicable to the Servicer, as shall be necessary to effectuate any such succession.

If there has been no appointment of a successor Servicer within 90 days following the resignation or termination of the Servicer, until a successor Servicer has been appointed and has assumed its duties hereunder, any sales or disposition of Portfolio Collateral shall be limited to Credit Risk Portfolio Collateral, Defaulted Portfolio Collateral and Equity Portfolio Collateral; provided, that, such restriction on the sale or disposition of Portfolio Collateral shall not apply if the Portfolio Collateral is being liquidated in whole or in part in connection with an acceleration or early termination of the Notes.

(f) In the event of removal of the Servicer pursuant to this Agreement, the Issuer shall have all of the rights and remedies available with respect thereto at law or equity, and, without limiting the foregoing, the Issuer or, to the extent so provided in the Indenture, the Trustee may by notice in writing to the Servicer as provided under this Agreement terminate all the rights and obligations of the Servicer under this Agreement (except those that survive termination pursuant to Section 12(d) above). Subject to Section 12, any assignment of this Agreement to any Person, in whole or in part, by the Servicer shall be deemed null and void unless (i) such assignment is consented to in writing by the Issuer, the Requisite Noteholders and the Holders of a Majority of the Preferred Shares (excluding Notes and Preferred Shares held by the Servicer or any of its Affiliates other than HFP) and (ii) the Rating Agency Confirmation is satisfied with respect to any such assignment. Any assignment consented to by the Issuer, the Requisite Noteholders and the Holders of Preferred Shares shall bind the assignee hereunder in the same manner as the Servicer is bound. In addition, the assignee shall execute and deliver to the Issuer and the Trustee a counterpart of this Agreement naming such assignee as Servicer. Upon the execution and delivery of such a counterpart by the assignee and consent thereto by the Issuer, the Requisite Noteholders and the Holders of the Preferred Shares, the Servicer shall be released from further obligations pursuant to this Agreement, except with respect to its obligations arising under Section 10 of this Agreement prior to such assignment and except with respect to its obligations under Sections 2(c)(i)

and 15 hereof. This Agreement shall not be assigned by the Issuer without the prior written consent of the Servicer and the Trustee, except in the case of assignment by the Issuer to (i) an entity which is a successor to the Issuer permitted under the Indenture, in which case such successor organization shall be bound hereunder and by the terms of said assignment in the same manner as the Issuer is bound thereunder or (ii) the Trustee as contemplated by the Indenture. In the event of any assignment by the Issuer, the Issuer shall cause its successor to execute and deliver to the Servicer such documents as the Servicer shall consider reasonably necessary to effect fully such assignment. The Servicer hereby consents to the matters set forth in Article 15 of the Indenture.

14. Termination by the Issuer for Cause.

Subject to Section 12(e) above, this Agreement shall be terminated and the Servicer shall be removed by the Issuer for cause upon 10 days' prior written notice to the Servicer and upon written notice to the Holders of the Securities as set forth below, but only if directed to do so by (1) a Majority of the Controlling Class of Notes or (2) the Holders of at least 66-2/3% of the Preferred Shares (excluding any Preferred Shares held by the Servicer or any of its Affiliates and accounts over which the Servicer or any of its Affiliates exercise discretionary voting authority, other than HFP which may exercise its vote with respect to Preferred Shares it owns, up to the Original HFP Share Amount). If any of the events specified in this Section 14 shall occur, the Servicer shall give prompt written notice thereof to the Issuer, the Trustee and the Holders of all outstanding Notes and Preferred Shares upon the Servicer's becoming aware of the occurrence of such event.

15. Action Upon Termination.

(a) From and after the effective date of termination of this Agreement, the Servicer shall not be entitled to compensation for further services hereunder, but shall be paid all compensation accrued to the date of termination, as provided in Section 8 hereof, and shall be entitled to receive any amounts owing under Section 10 hereof. Upon the effective date of termination of this Agreement, the Servicer shall as soon as practicable:

No consent of any other person, including, without limitation, creditors of the Servicer, and no license, permit, approval or authorization of, exemption by, notice or report to, or registration, filing or declaration with, any governmental authority is required by the Servicer in connection with this Agreement or the execution, delivery, performance, validity or enforceability of this Agreement or the obligations required hereunder or under the terms of the other Transaction Documents applicable to the Servicer. This Agreement has been, and each instrument and document required hereunder or under the terms of the other Transaction Documents applicable to the Servicer shall be, executed and delivered by a duly authorized partner of the Servicer, and this Agreement constitutes, and each instrument and document required hereunder or under the terms of the other Transaction Documents applicable to the Servicer when executed and delivered by the Servicer hereunder or under the terms of the other Transaction Documents applicable to the Servicer shall constitute, the valid and legally binding obligations of the Servicer enforceable against the Servicer in accordance with their terms, subject to (a) the effect of bankruptcy, insolvency or similar laws affecting generally the enforcement of creditors' rights and (b) general equitable principles.

(iii) The execution, delivery and performance of this Agreement and the terms of the other Transaction Documents applicable to the Servicer and the documents and instruments required hereunder or under the terms of the other Transaction Documents applicable to the Servicer shall not violate or conflict with any provision of any existing law or regulation binding on or applicable to the Servicer, or any order, judgment, award or decree of any court, arbitrator or governmental authority binding on the Servicer, or the Governing Instruments of, or any securities issued by the Servicer or of any mortgage, indenture, lease, contract or other agreement, instrument or undertaking to which the Servicer is a party or by which the Servicer or any of its assets may be bound, the violation of which would have a material adverse effect on the business, operations, assets or financial condition of the Servicer or its ability to perform its obligations under this Agreement and the provisions of the other Transaction Documents applicable to the Servicer, and shall not result in or require the creation or imposition of any lien on any of its material property, assets or revenues pursuant to the provisions of any such mortgage, indenture, lease, contract or other agreement, instrument or undertaking.

(iv) There is no charge, investigation, action, suit or proceeding before or by any court pending or, to the best knowledge of the Servicer, threatened that, if determined adversely to the Servicer, would have a material adverse effect upon the performance by the Servicer of its duties under, or on the validity or enforceability of, this Agreement and the provisions of the other Transaction Documents applicable to the Servicer.

(v) The Servicer is a registered investment adviser under the Investment Advisers Act.

(vi) The Servicer is not in violation of its Governing Instruments or in breach or violation of or in default under any contract or agreement to which it is a party or by which it or any of its property may be bound, or any applicable statute or any rule, regulation or order of any court, government agency or body having jurisdiction over the Servicer or its properties, the breach or violation of which or default under which would have a material adverse effect on the validity or enforceability of this Agreement or the provisions of the other Transaction Documents applicable to the Servicer, or the performance by the Servicer of its duties hereunder.

18. Binding Nature of Agreement; Successors and Assigns.

This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, personal representatives, successors and permitted assigns as provided herein. The Servicer hereby consents to the collateral assignment of this Agreement as provided in the Indenture and further agrees that the Trustee may enforce the Servicer's obligations hereunder.

19. Entire Agreement.

This Agreement contains the entire agreement and understanding among the parties hereto with respect to the subject matter hereof, and supersedes all prior and contemporaneous agreements, understandings, inducements and conditions, express or implied, oral or written, of any nature whatsoever with respect to the subject matter hereof. The express terms hereof control and supersede any course of performance and/or usage of the trade inconsistent with any of the terms hereof. This Agreement may not be modified or amended other than by an agreement in writing executed by the parties hereto and in accordance with the terms of Section 14.1(f)(4) of the Indenture.

20. Conflict with the Indenture.

Subject to the last two sentences of Section 2(a)(i), in the event that this Agreement requires any action to be taken with respect to any matter and the Indenture requires that a different action be taken with respect to such matter, and such actions are mutually exclusive, the provisions of the Indenture in respect thereof shall control.

21. Priority of Payments.

The Servicer agrees that the payment of all amounts to which it is entitled pursuant to this Agreement and the Indenture shall be due and payable only in accordance with the priorities set forth in the Indenture and only to the extent funds are available for such payments in accordance with such priorities.

22. Governing Law.

**THIS AGREEMENT SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE STATE OF NEW YORK, WITHOUT REFERENCE TO ITS PROVISIONS THAT WOULD RESULT IN THE APPLICATION OF THE LAWS OF ANOTHER JURISDICTION.**

23. Indulgences Not Waivers.

Neither the failure nor any delay on the part of any party hereto to exercise any right, remedy, power or privilege under this Agreement shall operate as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power or privilege preclude any other or further exercise of the same or of any other right, remedy, power or privilege, nor shall any waiver of any right, remedy, power or privilege with respect to any occurrence be construed as a waiver of such right, remedy, power or privilege with respect to any other occurrence. No waiver shall be effective unless it is in writing and is signed by the party asserted to have granted such waiver.

24. Costs and Expenses.

Except as may otherwise be agreed in writing, the costs and expenses (including the fees and disbursements of counsel and accountants) incurred by each party in connection with the negotiation and preparation of and the execution of this Agreement, and all matters incident thereto, shall be borne by such party.

25. Titles Not to Affect Interpretation.

The titles of paragraphs and subparagraphs contained in this Agreement are for convenience only, and they neither form a part of this Agreement nor are they to be used in the construction or interpretation hereof.

26. Execution in Counterparts.

This Agreement may be executed in any number of counterparts by facsimile or other written form of communication, each of which shall be deemed to be an original as against any party whose signature appears thereon, and all of which shall together constitute one and the same instrument. This Agreement shall become binding when one or more counterparts hereof, individually or taken together, shall bear the signatures of all of the parties reflected hereon as the signatories.

27. Provisions Separable.

In case any provision in this Agreement shall be invalid, illegal or unenforceable as written, such provision shall be construed in the manner most closely resembling the apparent intent of the parties with respect to such provision so as to be valid, legal and enforceable; provided, however, that if there is no basis for such a construction, such provision shall be ineffective only to the extent of such invalidity, illegality or unenforceability and, unless the ineffectiveness of such provision destroys the basis of the bargain for one of the parties to this Agreement, the validity, legality and enforceability of the remaining provisions hereof or thereof shall not in any way be affected or impaired thereby.

28. Number and Gender.

Words used herein, regardless of the number and gender specifically used, shall be deemed and construed to include any other number, singular or plural, and any other gender, masculine, feminine or neuter, as the context requires.

29. Written Disclosure Statement.

The Issuer and the Trustee acknowledge receipt of Part II of the Servicer's Form ADV filed with the Securities and Exchange Commission, as required by Rule 204-3 under the Investment Advisers Act, more than 48 hours prior to the date of execution of this Agreement.

30. Miscellaneous.

(a) In the event that any vote is solicited with respect to any Portfolio Collateral, the Servicer, on behalf of the Issuer, shall vote or refrain from voting any such security in any manner permitted by the Indenture that the Servicer has determined in its reasonable judgment shall be in the best interests of the Holders of the Securities. In addition, with respect to any Defaulted Portfolio Collateral, the Servicer, on behalf of the Issuer, may instruct the trustee for such Defaulted Portfolio Collateral to enforce the Issuer's rights under the Underlying Instruments governing such Defaulted

Portfolio Collateral and any applicable law, rule or regulation in any manner permitted under the Indenture that the Servicer has determined in its reasonable judgment shall be in the best interests of the Holders of the Securities. In the event any Offer is made with respect to any Portfolio Collateral, the Servicer, on behalf of the Issuer, may take such action as is permitted by the Indenture and that the Servicer has determined in its reasonable judgment shall be in the best interests of the Holders of the Securities.

(b) In connection with taking or omitting any action under the Indenture or this Agreement, the Servicer may consult with counsel and may rely in good faith on the advice of such counsel or any opinion of counsel.

Any corporation, partnership or limited liability company into which the Servicer may be merged or converted or with which it may be consolidated, or any corporation, partnership or limited liability company resulting from any merger, conversion or consolidation to which the Servicer shall be a party, or any corporation, partnership or limited liability company succeeding to all or substantially all of the asset servicing and collateral management business of the Servicer, shall be the successor to the Servicer without any further action by the Servicer, the Co-Issuers, the Trustee, the Noteholders or any other person or entity.

31. Limitation of Liabilities.

The Issuer's obligations hereunder are solely the corporate obligations of the Issuer and the Servicer shall not have any recourse to any of the directors, officers, shareholders, members or incorporators of the Issuer with respect to any claims, losses, damages, liabilities, indemnities or other obligations in connection with any transactions contemplated hereby, except for any claims, losses, damages, liabilities, indemnities or other obligations caused by the gross negligence, bad faith or willful misconduct of such directors, officers, shareholders, members or incorporators of the Issuer. The obligations of the Issuer hereunder shall be limited to the net proceeds of the Collateral, if any, and following realization of the Collateral and its application in accordance with the Indenture, any outstanding obligations of the Issuer hereunder shall be extinguished and shall not thereafter revive. The provisions of this section shall survive termination of this Agreement.

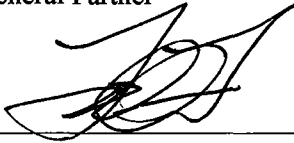

32. Consent to Posting of Documents on Repository.

The Servicer hereby consents to (i) the posting of the final Offering Circular and the Indenture (collectively, the "Documents") and the periodic reports to be delivered pursuant to the Documents and any amendments or other modifications thereto on the Repository (as such term is defined in the Indenture) for use in the manner provided in the Repository; and (ii) the display of its name on the Repository in connection therewith.

## ANNEX 1

### Certain Tax Provisions

Unless otherwise noted, references to the Issuer in this Annex 1 include the Servicer and any other person acting on the Issuer's behalf. Capitalized terms used but not defined herein will have the meanings ascribed to them in the Indenture.

For purposes of this Annex 1,

"Affiliate" means, with respect to a specified Person, (a) any other Person that directly, or indirectly through one or more intermediaries, controls or is controlled by, or is under common control with, the specified Person and (b) any Person that is a member, director, officer or employee of (i) the specified Person or (ii) a Person described in clause (a) of this definition; and

"Person" means an individual, a corporation, a limited liability company, a partnership, an association, a trust or any other entity or organization, including a government or political subdivision or an agency or instrumentality thereof.

### Section I. General Restrictions.

As provided in this Annex 1, the Issuer (and the Servicer acting on the Issuer's behalf) shall only purchase debt securities, interests in loans and other assets (each a "Portfolio Collateral") only in secondary-market transactions and shall not engage in any lending or underwriting activities or otherwise participate in the structuring or origination of any Portfolio Collateral.

#### A. Communications and Negotiations.

1. The Issuer will not have any communications or negotiations with the obligor of a Portfolio Collateral or a Reference Obligation (directly or indirectly through an intermediary such as the seller of such Portfolio Collateral or the Synthetic Security) in connection with the issuance or funding of such Portfolio Collateral or Reference Obligation or commitments with respect thereto, except for communications of an immaterial nature or customary due diligence communications; provided, that the Servicer may provide comments as to mistakes or inconsistencies in loan documents (including with respect to any provisions that are inconsistent with the terms and conditions of purchase of the loan by the Issuer).

2. By way of example, permitted due diligence activities may include, but are not limited to, (a) attendance at an obligor's general "roadshow" or other presentations to investment professionals, (b) direct private discussions with personnel of the obligor, arranged by a sponsor, lead bank or other arranger, and (c) other due diligence activities of the kind customarily performed by offerees of the type of Portfolio Collateral being offered, but may not include any negotiations with the obligor, employees or agents of the obligor of any terms or conditions of the Portfolio Collateral being offered.

3. Negotiations between the Servicer and the underwriter, placement agent or broker of Portfolio Collateral are permitted solely to the extent that they are limited to responses to customary pre-offering period and offering period inquiries by the underwriter or placement agent (e.g., "If we offered you 10-year senior subordinated bonds of XYZ company, what spread

would it require to interest you?” or “If you will not buy the bonds as offered, would you buy if we convinced the obligor to add a fixed charge coverage test?”). For purposes of this Section I.A., “negotiations” shall not include (i) commenting on offering documents to an unrelated underwriter or placement agent when the ability to comment was generally available to other investors, or (ii) communicating certain objective criteria (such as the minimum yield or maturity) the Issuer generally uses in purchasing the relevant type of Portfolio Collateral.

4. The Issuer may consent or otherwise act with respect to amendments, supplements or other modifications of the terms of any Portfolio Collateral (other than a Subsidiary Obligation (as defined in Section III)) requiring consent or action after the date on which any such Portfolio Collateral is acquired by the Issuer if (a) such amendment, supplement or modification would not constitute a Significant Modification (as defined below), (b) (i) in the reasonable judgment of the Servicer, the obligor is in financial distress and such change in terms is desirable to protect the Issuer’s interest in such Portfolio Collateral and (ii) the Portfolio Collateral is described in clause 5(b) of this Section I.A., (c) the amendment or modification would not be treated as the acquisition of a new Portfolio Collateral under paragraph 5 of this Section I.A., or (d) otherwise, if it has received advice of counsel that its involvement in such amendment, supplement or modification will not cause the Issuer to be treated as engaged in a trade or business within the United States.

A “Significant Modification” means any amendment, supplement or other modification that involves (a) a change in the stated maturity or a change in the timing of any material payment of any Portfolio Collateral (including deferral of an interest payment), that would materially alter the weighted average life of the Portfolio Collateral, (b) any change (whether positive or negative) in the yield on the Portfolio Collateral immediately prior to the modification in excess of the greater of (i) 25 basis points or (ii) 5 percent of such unmodified yield, (c) any change involving a material new extension of credit, (d) a change in the obligor of any Portfolio Collateral (as determined for purposes of section 1001 of the Code), or (e) a material change in the collateral or security for any Portfolio Collateral, including the addition or deletion of a co-obligor or guarantor that results in a material change in payment expectations.

5. In the event the Issuer owns an interest in a Portfolio Collateral the terms of which are subsequently amended or modified, or in the case of a workout situation not described in Section III hereof, which Portfolio Collateral is subsequently exchanged for new obligations or other securities of the obligor of the Portfolio Collateral, such amendments or modifications or exchange will not be treated as the acquisition of an interest in a new Portfolio Collateral for purposes of this Annex 1, provided, that (a) the Issuer does not, directly or indirectly (through the Servicer or otherwise), seek the amendments or modifications or the exchange, or participate in negotiating the amendments or modifications or the exchange, and (b) at the time of original acquisition of the interest in the Portfolio Collateral, it was not reasonably anticipated that the terms of the Portfolio Collateral would, pursuant to a workout or other negotiation, subsequently be amended or modified.

B. Fees. The Issuer will not earn or receive from any Person any fee or other compensation for services, however denominated, in connection with its purchase or sale of a Portfolio Collateral or entering into a Synthetic Security; the foregoing prohibition shall not be construed to preclude the Issuer from receiving (i) commitment fees or facility maintenance fees that are received by the Issuer in connection with revolving or delayed drawdown Loans; (ii) yield maintenance and prepayment penalty fees; (iii) fees on account of the Issuer’s consenting to amendments, waivers or other modifications of the terms of any Portfolio Collateral; (iv) fees from permitted securities lending; or (v) upfront payments in lieu of periodic payments under a Synthetic Security. The Issuer will not provide services to any Person;

the foregoing prohibition shall not be construed to preclude the Issuer from activities relating to the receipt of income described in (i) through (v) of the preceding sentence.

Section II. Loans and Forward Purchase Commitments.

A. Any understanding or commitment to purchase a loan, a participation, a loan subparticipation or a collateralized loan obligation (collectively, "Loans") from a seller before completion of the closing and full funding of the Loan by such seller shall only be made pursuant to a forward sale agreement at an agreed price (stated as a dollar amount or as a percentage) (a "Forward Purchase Commitment"), unless such an understanding or commitment is not legally binding and neither the Issuer nor the Servicer is economically compelled (e.g., would otherwise be subject to a significant monetary penalty) to purchase the Loan following the completion of the closing and full funding of the Loan (i.e., the Servicer will make an independent decision whether to purchase such Loan on behalf of the Issuer after completion of the closing of the Loan) (a "Non-Binding Agreement").

B. No Forward Purchase Commitment or Non-Binding Agreement shall be made until after the seller (or a transferor to such seller of such Loan) has made a legally binding commitment to fully fund such Loan to the obligor thereof (subject to customary conditions), which commitment cannot be conditioned on the Issuer's ultimate purchase of such Loan from such seller.

C. In the event of any reduced or eliminated funding, the Issuer shall not receive any premium, fee, or other compensation in connection with having entered into the Forward Purchase Commitment or Non-Binding Agreement.

D. The Issuer shall not close any purchase of a Loan subject to a Forward Purchase Commitment or a Non-Binding Agreement earlier than 48 hours after the time of the closing of the Loan (i.e., execution of definitive documentation), and, in the case of a Forward Purchase Commitment, the Issuer's obligation to purchase such Loan is subject to the condition that no material adverse change has occurred in the financial condition of the Loan's obligor or the relevant market on or before the relevant purchase date.

E. The Issuer cannot have a contractual relationship with the borrower with respect to a Loan until the Issuer actually purchases the Loan.

F. The Issuer cannot be a signatory on the original lending agreement, and cannot be obligated to fund an assignment of or a participation in a Loan, prior to the time specified in subsection D above.

G. The Issuer will not enter into any Forward Purchase Commitment or Non-Binding Agreement in which it knows that the counterparty has acted or described itself as acting as the Issuer's agent in making or committing to make the loan to which the Forward Purchase Commitment or Non-Binding Agreement relates, and for the avoidance of doubt no such agreement shall be entered into with the understanding that the counterparty will disclose to the borrower the Issuer's intention to purchase the underlying Loan prior to execution of final legal documentation of the Loan.

Section III. Distressed Debt Obligations.

A. The Issuer may only purchase a Debt Instrument that is a Potential Workout Obligation to the extent permitted by this Section III.

B. Neither the Issuer nor the Servicer on behalf of the Issuer shall purchase a Subsidiary Obligation from any Issuer Subsidiary.

C. Special Procedures for Subsidiary Obligations.

1. Potential Workout Obligations. On or prior to the date of acquisition, the Servicer on behalf of the Issuer shall identify each Portfolio Collateral that is a Potential Workout Obligation.

2. Transfer of Subsidiary Obligations. From and after the occurrence of a Workout Determination Date with respect to a Subsidiary Obligation, neither the Issuer nor the Servicer on behalf of the Issuer shall knowingly take any action in respect of such Subsidiary Obligation that may result in the Issuer being engaged, or deemed to be engaged, in a trade or business within the United States for United States federal income tax purposes. As soon as practicable, but in any event within 30 calendar days following a Workout Determination Date, the Servicer shall cause the Issuer either (i) to sell or dispose of any Subsidiary Obligation identified on such Workout Determination Date to a Person that is not an Affiliate of the Issuer or Servicer or (ii) to assign any Subsidiary Obligation identified on such Workout Determination Date to an Issuer Subsidiary.

For purposes of this Annex 1, an "Issuer Subsidiary" means any wholly-owned corporate subsidiary of the Issuer to which a Special Workout Obligation may be transferred in accordance with this Annex 1.

3. Consideration for Assignment of Subsidiary Obligations. Consideration given by an Issuer Subsidiary for the assignment to it of Subsidiary Obligations may be in the form of cash or in the form of indebtedness of, or equity interests in, such Issuer Subsidiary.

4. Classification of Issuer Subsidiaries. Each Issuer Subsidiary shall be an entity treated as a corporation for United States federal income tax purposes and formed under the laws of any state of the United States.

As used herein:

"Potential Workout Obligation" means any debt instrument (any such instrument, including an interest in a Loan, a "Debt Instrument") which, as of the date of acquisition by the Issuer or an Issuer Subsidiary, based on information specific to such Debt Instrument or the circumstances of the obligor thereof, is a Workout Obligation or, in the reasonable determination of the Servicer, has a materially higher likelihood of becoming a Workout Obligation as compared to debt obligations that par or other non-distressed debt purchasers or funds customarily purchase and expect to hold to maturity.

"Subsidiary Obligation" means any Potential Workout Obligation (a) as to which the Issuer on any Workout Determination Date either (i) owns more than 40% of the aggregate principal amount of such class of Potential Workout Obligation outstanding or (ii) is one of the two largest holders of any class of debt of the issuer of such Potential Workout Obligation (based

on the outstanding principal amount of such class of debt owned by the Issuer as a percentage of the aggregate outstanding principal amount of such class of debt) unless not fewer than three other holders and the Issuer collectively own at least 65% of such class of debt and, if the Issuer is the largest holder of such class, the Issuer's percentage of such class does not exceed the percentage held by the next largest holder of the debt by more than 5% of such class or (b) that would, upon foreclosure or exercise of similar legal remedies, result in the Issuer directly owning assets (other than securities treated as debt, equity in a partnership not engaged in a trade or business within the United States, or corporate equity for United States federal income tax purposes, provided in the case of corporate equity that the corporation is not a "United States real property holding corporation" within the meaning of section 897 of the Code) which are "United States real property interests" within the meaning of section 897 of the Code or which the Servicer reasonably expects it would, on behalf of the Issuer, be required to actively manage to preserve the value of the Issuer's interest therein; provided that a Potential Workout Obligation shall not be treated as a Subsidiary Obligation if the Issuer obtains a Tax Opinion that, based on all the surrounding circumstances, the activities in which the Issuer intends to engage with respect to such Potential Workout Obligation will not cause the Issuer to be treated as engaged in a trade or business for United States federal income tax purposes.

"Workout Determination Date" means any date on which, in connection with the occurrence of any event described in clauses (a) through (c), inclusive, of the definition of Workout Obligation, either (a) any material action by the Issuer is required to be taken, (b) the Servicer receives written notice that such material action shall be required or (c) the Servicer reasonably determines that the taking of such material action is likely to be required.

"Workout Obligation" means any Debt Instrument as to which the Servicer on behalf of the Issuer (a) consents to a Significant Modification in connection with the workout of a defaulted Portfolio Collateral, (b) participates in an official or unofficial committee or similar official or unofficial body in connection with a bankruptcy, reorganization, restructuring or similar proceeding, or (c) exercises, or has exercised on its behalf, rights of foreclosure or similar judicial remedies.

#### Section IV. Purchases from the Servicer or its Affiliates.

A. If the Servicer or an Affiliate of the Servicer acted as an underwriter, placement or other agent, arranger, negotiator or structuror, or received any fee for services (it being understood that receipts described in clauses (i) through (v) of Section I.B. are not construed as so treated), in connection with the issuance or origination of a Portfolio Collateral or was a member of the original lending syndicate with respect to the Portfolio Collateral (any such Portfolio Collateral, a "Special Procedures Obligation"), the Issuer will not acquire any interest in such Special Procedures Obligation (including entering into a commitment or agreement, whether or not legally binding or enforceable, to acquire such obligation directly or synthetically), from the Servicer, an Affiliate of the Servicer, or a fund managed by the Servicer, unless (i) the Special Procedures Obligation has been outstanding for at least 90 days, (ii) the holder of the Special Procedures Obligation did not identify the obligation or security as intended for sale to the Issuer within 90 days of its issuance, (iii) the employees or agents of the Servicer responsible for selecting Portfolio Collateral for the Issuer were not directly involved in the origination of the Special Procedures Obligation on behalf of the Servicer, an Affiliate of the Servicer, or a fund serviced or managed by the Servicer, (iv) the price paid for such Special Procedures Obligation by the Issuer is its fair market value at the time of acquisition by the Issuer, and (v) the transaction is proposed to, and the ultimate purchase is approved on behalf of the Issuer by, one or more Independent Advisors to the Issuer in accordance with the provisions of Section IV.B. below. The Issuer will not acquire any Special Procedures Obligation if, immediately following such acquisition, the fair market value of all Special

Procedures Obligations owned by the Issuer would constitute more than 49% of the fair market value of all of the Issuer's assets at such time.

B. An "Independent Advisor" is a Person who is not an Affiliate of the Issuer, the Servicer or any fund serviced or managed by the Servicer.

1. The Issuer may not purchase or commit to enter into any such Special Procedures Obligation without prior approval by an Independent Advisor. If the Independent Advisor declines to approve a proposed Special Procedures Obligation, at least three months must elapse before any proposal with respect to a purchase of debt or other obligations of the same obligor is proposed or considered.

2. The Issuer shall engage the Independent Advisor in an agreement the terms of which shall in substantial form set forth:

(a) the representation of the Independent Advisor, which the Servicer shall not know not to be incorrect, that it has significant financial and commercial expertise, including substantial expertise and knowledge in and of the loan market and related investment arenas;

(b) the agreement between the Independent Advisor, the Issuer and the Servicer generally to the effect that (i) the Independent Advisor will operate pursuant to procedures consistent with maintaining his or her independence from the Servicer and its Affiliates, (ii) the Independent Advisor will have the sole authority and discretion to approve or reject acquisition proposals made by the Servicer with respect to any Special Procedures Obligation, (iii) all proposals for the Issuer to acquire any Special Procedures Obligation will be first submitted to the Independent Advisor, (iii) the Servicer will prepare the materials it deems necessary to describe the Special Procedures Obligation to the Independent Advisor, (iv) the Investment Advisor will not be required to make any decision to accept or decline a Special Procedures Obligation at the price offered prior to its review of the materials prepared, plus any additional information requested by the Independent Advisor, and (v) no Independent Advisor may be proposed to be replaced by the Servicer, unless for cause or in the event of a resignation of such Independent Advisor; and

(c) such other commercially reasonable terms and conditions, including terms and conditions to the effect that (i) the Independent Advisor will be paid a reasonable fee for its services plus reimbursement of any reasonable expenses incurred in performance of his or her responsibilities, (ii) the Independent Advisor may be removed or replaced only by a majority (whether by positive act or failure to object) of the probable equity owners (as determined for United States federal income tax purposes) of the Issuer, (iii) if at any time there is more than one Independent Advisor to the Issuer, a majority of such Independent Advisors must approve any Special Procedures Obligation subject to Independent Advisor approval, (iv) an Independent Advisor may not engage, directly or indirectly, in the negotiation of the terms of any Special Procedures Obligation to be acquired by the Issuer (provided however, that an Independent Advisor may negotiate with the Servicer or the seller with respect to the price and terms of the Issuer's purchase of the Special Procedures Obligation, provided further that the Independent Advisor will not make suggestions to the Servicer or any other person about alternative or modified terms of the underlying Special Procedures Obligation on which they might be willing to approve such a Special Procedures Obligation).

3. Any servicing agreement or other document under which the Servicer is granted signatory powers or other authority on behalf of the Issuer will provide that such powers or authority with respect to Special Procedures Obligations are conditioned upon the prior written approval of the Independent Advisor

4. No Special Procedures Obligation will be presented to an Independent Advisor until at least 90 days have elapsed since the later of (a) the execution of final documentation and (b) the funding in whole or part of the Special Procedures Obligation and there will have been no commitment or arrangement prior to that time that the Issuer will acquire any such Special Procedures Obligation; provided, further, that if the person from whom the Issuer will acquire the Special Procedures Obligation is an Affiliate of the Servicer, such person will not be treated as owning the Special Procedures Obligation for any day during which it does not enjoy substantially all of the benefits and burdens of ownership (for example, because it has hedged its credit exposure to the Special Procedures Obligation).

5. The Issuer will have no obligation to, or understanding that it will refund, reimburse or indemnify any person (including an Affiliate of the Servicer), directly or indirectly, for "breakage" costs or other costs or expenses incurred by such person if the Independent Advisor determines that the Issuer should decline to purchase any Special Procedures Obligation.

6. Neither the Servicer nor any Affiliate of the Servicer will have any authority to enter into agreements, or take any action, on behalf of the Issuer with respect to Special Procedures Obligations without the prior written approval of an Independent Advisor. Except as may be conditioned upon such prior written approval, neither the Servicer nor any Affiliate of the Servicer may hold itself out as having signatory powers on behalf of the Issuer or authority to enter into agreements with respect to Special Procedures Obligations on behalf of the Issuer.

#### Section V. Synthetic Securities.

A. The Issuer shall not (i) acquire or enter into any Synthetic Security with respect to any Reference Obligation the direct acquisition of which would violate any provision of this Annex 1 or (ii) use Synthetic Securities as a means of making advances to the Synthetic Security Counterparty following the date on which the Synthetic Security is acquired or entered into (for the avoidance of doubt, the establishment of Synthetic Security collateral accounts and the payment of Synthetic Security Counterparties from the amounts on deposit therein, shall not constitute the making of advances).

B. With respect to each Synthetic Security, the Issuer will not acquire or enter into any Synthetic Security which does not satisfy all of the following additional criteria unless the Servicer has first received advice of counsel that the ownership and disposition of such Synthetic Security would not cause the Issuer to be engaged in a trade or business within the United States for United States federal income tax purposes:

1. the criteria used to determine whether to enter into any particular Synthetic Security was similar to the criteria used by the Servicer in making decisions to acquire debt securities;

2. the Synthetic Security is acquired by or entered into by the Issuer for its own account and for purposes of holding with the expectation of realizing a profit from income earned on the securities (and any potential rise in their value during the interval of time between their

purchase and sale) or hedging purposes and not with an intention to trade or to sell for a short-term profit;

3. the Issuer enters into the Synthetic Security with a counterparty that is not a special purpose vehicle and is a broker-dealer or that holds itself out as in the business of entering into such contracts;

4. neither the Issuer nor any Person acting on behalf of the Issuer advertises or publishes the Issuer's ability to enter into Synthetic Securities;

5. except with respect to (x) credit-linked notes or similar Synthetic Securities and (y) any other Synthetic Securities where standard form ISDA documentation is not applicable, the Synthetic Security is written on standard form ISDA documentation;

6. the net payment from the Issuer to the Synthetic Security Counterparty is not determined based on an actual loss incurred by the Synthetic Security Counterparty or any other designated person;

7. there exists no agreement, arrangement or understanding that (i) the Synthetic Security Counterparty is required to own or hold the related Reference Obligation while the Synthetic Security remains in effect or (ii) the Synthetic Security Counterparty is economically or practically compelled to own or hold the related physical Reference Obligation while the Synthetic Security remains in effect;

8. the Synthetic Security provides for (i) all cash settlement, (ii) all physical settlement or (iii) the option to either cash settle or physically settle; provided that, in the latter two cases, physical settlement provides the settling party the right to settle the Synthetic Security by delivering deliverable obligations which *may* include the Reference Obligation and the settling party must not be required to deliver the related Reference Obligation upon the settlement of such Synthetic Security.

Notwithstanding the preceding paragraph, a Synthetic Security providing for physical settlement may require a party to deliver the related Reference Obligation if either:

(i) at the time the Issuer enters into such Synthetic Security, such Reference Obligation is readily available to purchasers generally in a liquid market; or

(ii) the advice of both United States federal income tax and insurance counsel of nationally recognized standing in the United States experienced in such matters is that, under the relevant facts and circumstances with respect to such Synthetic Security, the acquisition of such Synthetic Security will not cause the Issuer to be engaged, or deemed to be engaged, in a trade or business within the United States for United States federal income tax purposes or otherwise to be subject to United States federal income tax on a net basis and should not cause the Issuer to be treated as writing insurance in the United States under the law of the state in which the Synthetic Security Counterparty is organized.

9. the Synthetic Security is not treated by the Issuer as insurance or a financial guarantee sold by the Issuer for United States or Cayman Islands regulatory purposes.

As used herein:

“Reference Obligation” means a debt security or other obligation upon which a Synthetic Security is based.

“Synthetic Security” means any swap transaction or security, other than a participation interest in a Loan, that has payments associated with either payments of interest and/or principal on a Reference Obligation or the credit performance of a Reference Obligation.

“Synthetic Security Counterparty” means an entity (other than the Issuer) required to make payments on a Synthetic Security (including any guarantor).

Section VI. Other Types of Assets.

A. Equity Restrictions. The Issuer will not purchase any asset (directly or synthetically) that is:

1. not treated for U.S. federal income tax purposes as debt if the issuing entity is a “partnership” (within the meaning of Section 7701(a)(2) of the Code) unless such entity is not engaged in a trade or business within the United States, or
2. a “United States real property interest” as defined in section 897 of the Code and the Treasury Regulations promulgated thereunder.

The Issuer may cause an Issuer Subsidiary to acquire assets set forth in clause (i) or (ii) above (each, an “ETB/897 Asset”) in connection with the workout of defaulted Portfolio Collateral, so long as the acquisition of ETB/897 Assets by such Issuer Subsidiary will not cause the stock of such Issuer Subsidiary to be deemed to be an ETB/897 Asset.

B. Revolving Loans and Delayed Drawdown Loans. All of the terms of any advance required to be made by the Issuer under any revolving or delayed drawdown Loan will be fixed as of the date of the Issuer’s purchase thereof (or will be determinable under a formula that is fixed as of such date), and the Issuer and the Servicer will not have any discretion (except for consenting or withholding consent to amendments, waivers or other modifications or granting customary waivers upon default) as to whether to make advances under such revolving or delayed drawdown Loan.

C. Securities Lending Agreements. The Issuer will not purchase any Portfolio Collateral primarily for the purpose of entering into a securities lending agreement with respect thereto.

Section VII. General Restrictions on the Issuer. The Issuer itself shall not:

A. hold itself out, through advertising or otherwise, as originating Loans, lending funds, or making a market in or dealing in Loans or other assets;

B. register as, hold itself out as, or become subject to regulatory supervision or other legal requirements under the laws of any country or political subdivision thereof as, a broker-dealer, a bank, an insurance company, financial guarantor, a surety bond issuer, or a company engaged in Loan origination;

C. knowingly take any action causing it to be treated as a bank, insurance company, or company engaged in Loan origination for purposes of any tax, securities law or other filing or submission made to any governmental authority;

D. hold itself out, through advertising or otherwise, as originating, funding, guaranteeing or insuring debt obligations or as being willing and able to enter into transactions (either purchases or sales of debt obligations or entries into, assignments or terminations of hedging or derivative instruments, including Synthetic Securities) at the request of others;

E. treat Synthetic Securities as insurance, reinsurance, indemnity bonds, guaranties, guaranty bonds or suretyship contracts for any purpose;

F. allow any non-U.S. bank or lending institution who is a holder of a Security to control or direct the Servicer's or Issuer's decision to acquire a particular asset except as otherwise allowed to such a holder, acting in that capacity, under the related indenture or acquire a Portfolio Collateral conditioned upon a particular person or entity holding Securities;

G. acquire any asset the holding or acquisition of which the Servicer knows would cause the Issuer to be subject to income tax on a net income basis;

H. hold any security as nominee for another person; or

I. buy securities with the intent to subdivide them and sell the components or to buy securities and sell them with different securities as a package or unit.

Section VIII. Tax Opinion; Amendments.

A. In furtherance and not in limitation of this Annex 1, the Servicer shall comply with all of the provisions set forth in this Annex 1, unless, with respect to a particular transaction, the Servicer acting on behalf of the Issuer and the Trustee shall have received written advice of Skadden, Arps, Slate, Meagher & Flom LLP or Orrick, Herrington & Sutcliffe LLP or an opinion of other counsel of nationally recognized standing in the United States experienced in such matters (a "Tax Opinion"), that, under the relevant facts and circumstances with respect to such transaction, the Servicer's failure to comply with one or more of such provisions will not cause the Issuer to be engaged, or deemed to be engaged, in a trade or business within the United States for United States federal income tax purposes or otherwise to be subject to United States federal income tax on a net basis.

B. The provisions set forth in the Annex 1 may be amended, eliminated or supplemented by the Servicer if the Issuer, the Servicer and the Trustee shall have received a Tax Opinion that the Servicer's compliance with such amended provisions or supplemental provisions or the failure to comply with such provisions proposed to be eliminated, as the case may be, will not cause the Issuer to be engaged, or deemed to be engaged, in a trade or business within the United States for United States federal income tax purposes or otherwise to be subject to United States federal income tax on a net basis.

WHEREAS, the Requisite Holders have not timely objected in writing to this Amendment;

NOW, THEREFORE, the parties hereto agree as follows:

SECTION 1. Defined Terms.

For purposes of this Amendment, all capitalized terms which are used but not otherwise defined herein shall have the respective meanings assigned to such terms in the Indenture.

## SECTION 2. Amendment.

Section 8(a) of the Servicing Agreement is hereby amended and replaced in its entirety with the following:

### 8. Compensation.

(a) The Issuer shall pay to the Servicer, for services rendered and performance of its obligations under this Agreement, the Servicing Fee, which shall be payable in such amounts and at such times as set forth in the Indenture. The provisions of the Indenture which relate to the amount and payment of the Servicing Fee shall not be amended without the written consent of the Servicer. If on any Payment Date there are insufficient funds to pay the Servicing Fee (and/or any other amounts due and payable to the Servicer) in full, the amount not so paid shall be deferred and shall be payable on such later Payment Date on which funds are available therefor as provided in the Indenture.

The Servicer hereby agrees to waive the Class II Preferred Share Portion of the Servicing Fees which would otherwise be payable to the Servicer as Servicing Fees, on each Payment Date until February 3, 2008. After February 3, 2008, the Servicer may, in its sole discretion, at any time waive the Class II Preferred Share Portion of its Servicing Fees then due and payable. All waived amounts will be paid to the Class II Preferred Shares as Class II Preferred Share Dividends pursuant to the Indenture. For purposes of any calculation under this Agreement and the Indenture, the Servicer shall be deemed to have received the Servicing Fee in an amount equal to the sum of the Servicing Fee actually paid to the Servicer and the amount distributed to the Holders of the Class II Preferred Shares as Class II Preferred Share Dividends.

In addition, notwithstanding anything set out above, the Servicer may, in its sole discretion waive all or any portion of the Additional Servicing Fee or Supplemental Servicing Fee, any funds representing the waived Additional Servicing Fees and Supplemental Servicing Fees to be retained in the Collection Account for distribution as either Interest Proceeds or Principal Proceeds (as determined by the Servicer) pursuant to the Priority of Payments.

## SECTION 3. Effect of Amendment.

Upon execution of this Amendment, the Indenture shall be, and be deemed to be, modified and amended in accordance herewith and the respective rights, limitations, obligations, duties, liabilities and immunities of the Issuer, Co-Issuer and the Servicer shall hereafter be determined, exercised and enforced subject in all respects to such modifications and amendments, and all the terms and conditions of this Amendment shall be deemed to be part of the terms and conditions of the Indenture for any and all purposes. Except as modified and expressly amended by this Amendment, the Indenture is in all respects ratified and confirmed, and all the terms, provisions and conditions thereof shall be and remain in full force and effect.

## SECTION 4. Binding Effect.

The provisions of this Amendment shall be binding upon and inure to the benefit of the Issuer, the Co-Issuer and the Servicer and each of their respective successors and assigns.

THIS AMENDMENT TO THE INDENTURE SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE STATE OF NEW YORK APPLICABLE TO AGREEMENTS MADE AND TO BE PERFORMED THEREIN WITHOUT REFERENCE TO ITS CONFLICT OF LAW PROVISIONS, AND THE OBLIGATIONS, RIGHTS AND REMEDIES OF THE PARTIES HEREUNDER SHALL BE DETERMINED IN ACCORDANCE WITH SUCH LAWS.

SECTION 6. Severability of Provisions.

All outstanding principal of the Class B-2L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class B-2L Notes are subordinated in right of payment to the Class A Notes and any Class B-1L Notes to the extent described herein.

Application of Funds

On each Payment Date and on the Final Maturity Date, Collateral Interest Collections and Collateral Principal Collections, to the extent of Available Funds in the Collection Account, will be applied by the Trustee in the manner and order of priority set forth herein under "Description of the Notes—Payments on the Notes; Priority of Distributions."

Overcollateralization Tests

The "**Overcollateralization Tests**" are applicable until the Notes are retired and all amounts payable in respect thereof are paid, and are satisfied if the Class A Overcollateralization Ratio is at least equal to the Class A Overcollateralization Percentage (the "**Class A Overcollateralization Test**"), the Class B-1L Overcollateralization Ratio is at least equal to the Class B-1L Overcollateralization Percentage (the "**Class B-1L Overcollateralization Test**") and the Class B-2L Overcollateralization Ratio is at least equal to the Class B-2L Overcollateralization Percentage (the "**Class B-2L Overcollateralization Test**").

Applicability of Overcollateralization Tests

At any time that any of the Notes are Outstanding, if on any Calculation Date related to a Payment Date any Overcollateralization Test (other than the Class B-2L Overcollateralization Test) is not satisfied, amounts that are junior in right of payment to such Overcollateralization Test, as described under "Description of the Notes—Payments on the Notes; Priority of Distributions," will be applied to the redemption of the Class A Notes and the Class B-1L Notes (or, in the case of the Class B-1L Notes, first to pay accrued and unpaid interest from prior Payment Dates, then to pay principal) until each such Class is paid in full, in the order and according to the priorities described herein, to the extent necessary to satisfy such Overcollateralization Test, in accordance with the provisions described herein. Notwithstanding the foregoing, if the Class B-2L Overcollateralization Test is failing on any Payment Date 50% of available Interest Proceeds will be applied to pay principal on the Class B-2L Notes and 50% (or, after the Class B-2L Notes are paid in full, 100%) of available Interest Proceeds will be applied sequentially to pay principal on the Notes, and Principal Proceeds will be applied sequentially to pay principal on the Notes, to the extent such amounts have not been paid from Interest Proceeds, in each case, according to the priorities described herein. In addition, generally, satisfaction or, in certain cases, maintenance of the Overcollateralization Tests is a condition to the purchase or sale of Portfolio Collateral during certain specified periods.

Interest Coverage Test

The "**Interest Coverage Test**" is applicable on each Payment Date after the second Payment Date and on certain measurement dates after the second Payment Date, and is satisfied if the Interest Coverage Ratio (as described under "Description of the Notes—Interest Coverage Test") is at least 1.5%.

Applicability of Interest Coverage Test

At any time after the second Payment Date, if on any Calculation Date related to a Payment Date the Interest Coverage Test is not satisfied, amounts that are junior in right of payment to the Interest Coverage Test as described under "Description of the Notes—Payments on the Notes; Priority of Distributions," will be applied to the redemption of the Class A Notes until each such Class is paid in full, in the order and according to the priorities described herein, to

the extent necessary to satisfy the Interest Coverage Test in accordance with the provisions described herein. In addition, satisfaction of the Interest Coverage Test on the prior Payment Date is a condition to certain purchases and sales of Portfolio Collateral during certain specified periods as described herein.

Additional Collateral  
Deposit Requirement

As described under "Description of the Notes—Additional Collateral Deposit Requirement," even if the Overcollateralization Tests and the Interest Coverage Test are satisfied, on each Payment Date after the second Payment Date, Collateral Interest Collections that would otherwise be used for payments that are junior in right of payment to the Additional Collateral Deposit Requirement as described under "Description of the Notes—Payments on the Notes; Priority of Distributions," will be applied (i) during the Revolving Period, to the payment of principal of the Class B-2L Notes and to the purchase of Additional Portfolio Collateral, as described herein, and (ii) during the Amortization Period, to the payment of principal of the Class B-2L Notes and to the payment of principal of each Class of Notes, in each case, in the order and according to the priorities described herein, in an amount equal to the Additional Collateral Deposit Requirement as described herein.

Rating Confirmation Failure

The Issuer will request that each Rating Agency confirm after the Effective Date that it has not reduced or withdrawn (and not restored) the ratings assigned by it on the Closing Date to the Notes (a "**Rating Confirmation**"). If the Issuer is unable to obtain a Rating Confirmation by the 35th day after the Effective Date (a "**Rating Confirmation Failure**"), on the next Payment Date and on each subsequent Payment Date during the Revolving Period, amounts that are junior in right of payment to such Rating Confirmation Failure, as described under "Description of the Notes—Payments on the Notes; Priority of Distributions," will be applied to the redemption of the Notes (or, in the case of the Class B-1L Notes and the Class B-2L Notes, first to pay accrued and unpaid interest due to such Notes from prior Payment Dates, then to pay principal) until each such Class is paid in full, in the order and according to the priorities described herein (a "**Rating Confirmation Failure Redemption**"), to the extent necessary to receive a Rating Confirmation, in accordance with the provisions described herein.

O/C Redemption

If on the Calculation Date related to any Payment Date any Overcollateralization Test (other than the Class B-2L Overcollateralization Test) or, after the second Payment Date, the Interest Coverage Test is not satisfied, amounts that are junior in right of payment to such test as described under "Description of the Notes—Payments on the Notes; Priority of Distributions," will be applied by the Issuer to the redemption of the Class A Notes and the Class B-1L Notes (or, in the case of the Class B-1L Notes, first to pay accrued and unpaid interest from prior Payment Dates, then to pay principal) until each such Class is paid in full, in each case on a *pro rata* basis among the Noteholders of the applicable Class and in the order and according to the priorities described herein to the extent necessary to satisfy the Overcollateralization Tests (other than the Class B-2L Overcollateralization Test) and the Interest Coverage Test, as applicable. If on any Payment Date the Class B-2L Overcollateralization Test is not satisfied, 50% of available Interest Proceeds will be applied to pay principal on the Class B-2L Notes and 50% (or, after the Class B-2L Notes are paid in full, 100%) of available Interest Proceeds will be applied sequentially to pay principal on the Notes, and Principal Proceeds will be applied sequentially to pay principal on the Notes, to the extent such amounts have not been paid from Interest Proceeds, in each case, according to the priorities described

herein. See "Description of the Notes—O/C Redemption." A redemption of the Notes in connection with any Overcollateralization Test or Interest Coverage Test (an "**O/C Redemption**"), together with a redemption of the Notes through a Rating Confirmation Failure Redemption is sometimes referred to herein as a "**Mandatory Redemption**."

#### Initial Deposit Redemption

To the extent that the full amount of the Deposit is not used to purchase or commit to purchase Original Portfolio Collateral having an Aggregate Principal Amount (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) at least equal to the Required Portfolio Collateral Amount in accordance with the guidelines described herein on or before the Effective Date, an amount (not in excess of the unused amount of the Deposit) equal to the difference between the Required Portfolio Collateral Amount and the par amount of Portfolio Collateral actually acquired (or committed to be acquired) (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) will be applied by the Issuer on the November 1, 2007 Payment Date (the "**Initial Deposit Redemption Date**") to principal payments of the Class A-1LA Notes (an "**Initial Deposit Redemption**"), except, if the amount of the Deposit not so used to purchase or commit to purchase Original Portfolio Collateral does not exceed U.S.\$2,000,000 in the aggregate, such amount will be transferred to the Collection Account on the Effective Date and applied as Collateral Principal Collections. See "Description of the Notes—Initial Deposit Redemption."

#### Special Redemption

The Notes are redeemable in part at the option of the Issuer, as directed by and at the discretion of the Servicer, on one or more Payment Dates during the Revolving Period, to the extent the Issuer is unable to reinvest more than U.S.\$2,000,000 of principal collections in Additional Portfolio Collateral selected by the Servicer and satisfying the criteria described herein for at least ninety days after receipt, in an amount of at least U.S.\$2,000,000. See "Description of the Notes—Special Redemption."

#### Optional Redemption

The Notes are redeemable in whole at the option of the Issuer at the direction of at least 66-2/3% of the Preferred Shares eligible to vote (including any Class II Preferred Shares held by Highland Financial Partners L.P. or an affiliate or subsidiary thereof ("**HFP**") and any other Preferred Shares held by the Servicer, entities affiliated with the Servicer or clients of the Servicer (collectively, the "**Servicer Entities**") up to a maximum amount equal to the amount of Class II Preferred Shares acquired by HFP on the Closing Date ("**Original HFP Share Amount**"), but excluding any other Preferred Shares beneficially owned or controlled by the Servicer Entities which shall be deemed ineligible to vote) (an "**Optional Redemption**" or an "**Optional Redemption by Liquidation**"), on any Payment Date after the Non-Call Period (the "**Optional Redemption Date**") which date shall then be considered the Final Maturity Date at a price equal to the Optional Redemption Price. In addition, any Class of Notes may be redeemed in whole, but not in part, on any Payment Date after the Non-Call Period from the proceeds of a Refinancing (defined below) with the consent of the holders of at least a Majority of the Preferred Shares eligible to vote (including any Preferred Shares held by the Servicer Entities up to the Original HFP Share Amount, but excluding any other Preferred Shares beneficially owned or controlled by the Servicer Entities which shall be deemed ineligible to vote), or at the direction of the holders of at least a majority of such Preferred

Shares (an "**Optional Redemption**" or an "**Optional Redemption by Refinancing**"), if the Servicer, on behalf of the Issuer, gives notice thereof (with a copy to the Trustee and the Rating Agencies) at least 30 days prior to the Payment Date fixed by the Issuer for such redemption (such date, the "**Refinancing Date**") to redeem such Notes, by obtaining a loan or an issuance of a replacement class of notes, the terms of which loan or issuance will be negotiated by, and acceptable to, the Servicer, on behalf of the Issuer, from one or more financial institutions or purchasers (which may include the Servicer or its affiliates) selected by the Servicer (a Refinancing provided pursuant to such loan or issuance, a "**Refinancing**"), to the extent and subject to the restrictions described herein. See "*Description of the Notes—Optional Redemption.*" Redemption Payments in connection therewith shall be made in the manner and order of priority set forth herein under "*Description of the Notes—Payments on the Notes; Priority of Distributions.*"

#### Tax Event Redemption

The Notes are redeemable, at the option of the Issuer, acting at the direction of at least a Majority of the Preferred Shares (or a Majority of the Controlling Class if the Aggregate Principal Balance of Portfolio Collateral is less than 100% of the Class A-1L Notes) (a "**Tax Event Redemption**"), in whole but not in part, at a price equal to the Tax Event Redemption Price if as a result of a change in tax law, rule or regulation or the interpretation thereof, the payments to be received on the Portfolio Collateral are reduced as a result of the imposition of withholding tax or the Issuer is otherwise subjected to tax such that the income of the Issuer is reduced in an amount determined by such Holders of the Preferred Shares to be material. See "*Description of the Notes—Tax Event Redemption.*"

#### Amendment Buy-Out

In the case of any supplemental indenture that requires the consent of one or more Holders of the Notes or Preferred Shares, the Amendment Buy-Out Purchaser shall have the right, but not the obligation, to purchase from all Non-Consenting Holders all Notes and Preferred Shares held by such Holders whose consent was solicited with respect to such supplemental indenture, with certain exceptions as set forth in "Legal Structure—The Indenture—Amendment Buy-Out" (the "**Amendment Buy-Out Option**") for the applicable Amendment Buy-Out Purchase Price. If such option is exercised, the Amendment Buy-Out Purchaser must purchase all Notes and Preferred Shares of Non-Consenting Holders (an "**Amendment Buy-Out**"). By its acceptance of a Note or Preferred Share, each such Holder agrees that if the Amendment Buy-Out Option is exercised, any Non-Consenting Holder will be required to sell its Notes or Preferred Shares to the Amendment Buy-Out Purchaser. See "Legal Structure—The Indenture—Amendment Buy-Out."

All purchases made pursuant to the Amendment Buy-Out Option individually and in the aggregate must comply with the applicable transfer restrictions for the relevant Notes set forth in "Delivery of the Notes; Transfer Restrictions; Settlement" herein and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency).

#### Security for the Notes

The Notes, with the exception of the Class B-2L Notes, are non-recourse obligations of the Co-Issuers and the Class B-2L Notes are non-recourse obligations of the Issuer, with recourse therefor limited solely to any funds and other assets available in the Trust Estate, including the Portfolio Collateral and the proceeds therefrom, and the Hedge Agreements. All payments on the Notes are subject to the priority of distribution provisions described herein.

The Notes will be secured by the Trust Estate, consisting of substantially all property of the Issuer, including the Portfolio Collateral, any Hedge Agreements, the Collection Account, the Initial Deposit Account, the Loan Funding Account, the Expense Reimbursement Account, the Closing Expense Account, the Reserve Account, each Default Swap Collateral Account and the Default Swap Issuer Account (collectively, the "**Trust Estate**"). The security interest granted under the Indenture in each Default Swap Collateral Account is subject to and subordinate to the security interest and rights of the relevant Default Swap Counterparty in and to such Default Swap Collateral Account and the security interest granted under the Indenture in the Default Swap Issuer Account is subject to the rights of the relevant Default Swap Counterparty to the extent described in the related Default Swap. References to the Collection Account, the Initial Deposit Account, the Loan Funding Account, the Expense Reimbursement Account, the Closing Expense Account, the Reserve Account, the Default Swap Collateral Account and the Default Swap Issuer Account, when used with respect to the contents of the Trust Estate, shall include all proceeds of such Accounts and all Eligible Investments purchased with funds on deposit in such Accounts.

#### The Cap Agreement

On the Closing Date, the Issuer and Bear Stearns Capital Markets Inc. (the "**Cap Provider**") will enter into the cap agreement (the "**Cap Agreement**"), pursuant to which, the Issuer will make a single fixed payment to the Cap Provider at the beginning of such transaction. The Cap Agreement will provide that for each Payment Date, commencing with the Payment Date occurring in February 2008 through the Payment Date occurring in August 2009, on which LIBOR (determined on the related LIBOR Determination Date) exceeds 6% *per annum* (the "**Cap Strike Rate**"), the Cap Provider will pay to the Issuer an amount (the "**Cap Payment**") equal to the excess of LIBOR for such Periodic Interest Accrual Period over the Cap Strike Rate on the notional amount set forth on Annex B hereto for such Payment Date (the "**Cap Notional Amount**") calculated on the basis of a year of 360 days and the actual number of days elapsed. See "Special Considerations—Interest Rate Risk" and "The Hedge Agreements—The Cap Agreement."

#### Cashflow Swap Agreements

In addition to the Cap Agreement, after the Closing Date, the Issuer may enter into one or more timing swap agreements, including coupon timing swaps (each a "**Cashflow Swap Agreement**" and, together with the Cap Agreement collectively, the "**Hedge Agreements**"), as directed by the Servicer, with any one or more institutions entering into or guaranteeing a Cash Flow Swap Agreement with the Issuer (each a "**Cashflow Swap Counterparty**" and, together with the Cap Provider, a "**Hedge Counterparty**"); *provided* that any such Cashflow Swap Agreement has a maximum term of 10 years. The Servicer, on behalf of the Issuer, shall obtain the approval of each new Cashflow Swap Agreement from each Cashflow Swap Counterparty to a then-existing Cashflow Swap Agreement and the approval of a Majority of the Controlling Class. The Trustee shall only pay amounts due by the Issuer to any Cashflow Swap Counterparties on Payment Dates and in accordance with the priority of payments described herein. See "The Hedge Agreements—Cashflow Swap Agreements."

#### Portfolio Collateral and Deposit

The Portfolio Collateral will consist of United States dollar denominated commercial loans and collateralized loan obligations, including synthetic securities, that are rated primarily below investment grade issued by corporations, partnerships, limited liability companies or trusts. Interests in commercial loans included in the Portfolio Collateral, which may be in the form of participations and assignments, are referred to herein as "**Portfolio**

**Loans**" and the collateralized loan obligations included in the Portfolio Collateral are referred to herein as "**CLO Securities**." See "Security for the Notes—Portfolio Collateral—General."

The Issuer will acquire all of the Initial Portfolio Collateral from various sources, including Bear, Stearns & Co. Inc., in each case, at negotiated prices acceptable to the Issuer. Between the Closing Date and the Effective Date, purchases of additional Original Portfolio Collateral from the Deposit together with the Initial Portfolio Collateral will be required to meet the criteria described herein. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

During the Revolving Period, certain collections and disposition proceeds in respect of Portfolio Collateral may be applied to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral, respectively, subject to satisfaction of the collateral criteria described herein and the satisfaction or, in certain cases, maintenance of the Overcollateralization Tests and, after the second Payment Date, the Interest Coverage Test. In addition, after the Revolving Period, certain limited collections and certain disposition proceeds in respect of Portfolio Collateral may be applied to purchase Additional Portfolio Collateral and Substitute Portfolio Collateral subject to satisfaction of the Overcollateralization Tests, the Interest Coverage Test and the collateral criteria contained herein. The Indenture also authorizes the Servicer to direct the Trustee to sell items of Defaulted Portfolio Collateral, Equity Portfolio Collateral, Credit Risk Portfolio Collateral, Credit Improved Portfolio Collateral and other items of Portfolio Collateral, subject to the limitations set forth therein and described herein under "Security for the Notes—Changes in Composition of Portfolio Collateral," "The Servicer" and "The Servicing Agreement." During any Due Period when certain collections are to be used to purchase Additional Portfolio Collateral, the Servicer generally will have the authority to commence the purchase of such Additional Portfolio Collateral if collections have been or are scheduled to be received during such Due Period in an amount at least equal to the sum of the Periodic Reserve Amount.

Notwithstanding anything contained herein to the contrary, no item of Portfolio Collateral may be disposed of, and no item of Portfolio Collateral may be acquired, for the primary purpose of recognizing gains or decreasing losses resulting from market value changes. See "Security for the Notes—Portfolio Collateral—General."

Extension of the Revolving Period  
and the Final Maturity Date

The Issuer, if directed by the Servicer, shall be entitled on each Extension Effective Date up to a maximum of four times (so that the Notes can only be extended to 2040) to extend the Revolving Period to the applicable Extended Revolving Period End Date if (i) in the case of an Extension Effective Date occurring after the first Extension Effective Date, the Issuer has previously affected a Maturity Extension for each preceding Extension Effective Date, (ii) the Extension Conditions are satisfied, (iii) the Issuer has given written notice of its election to extend the Revolving Period no later than 60 days and no earlier than 90 days prior to such Extension Effective Date and (iv) no Event of Default has occurred and is continuing. For purposes of the foregoing, "**Extension Effective Date**" means if an Extension has occurred, the sixteenth Payment Date after the then current Extension Effective Date (or, in the case of the first Extension Effective Date, the Payment Date in August 2014) and "**Extended Revolving Period End Date**" means, if an Extension has occurred, the sixteenth Payment Date after the then current

Extended Revolving Period End Date (or, in the case of the first Extension, the Payment Date in August 2018). If the Extension Conditions are satisfied, the Final Maturity Date of the Notes shall be extended to the related Extended Final Maturity Date and the Weighted Average Life Test shall be automatically extended to the related Extended Weighted Average Life Date, without any requirement for approval or consent of any Holders of the Notes or the Preferred Shares or amendment or supplement to the Indenture or any other transaction document (the "**Maturity Extension**"). For purposes of the foregoing, "**Extended Final Maturity Date**" means, if a Maturity Extension has occurred, the sixteenth Payment Date after the then current Extended Final Maturity Date (or, in the case of the first Extended Final Maturity Date, the Payment Date in August 2028) and "**Extended Weighted Average Life Date**" means, if a Maturity Extension has occurred, the sixteenth Payment Date after the then current Extended Weighted Average Life Date (or, in the case of the first Extended Weighted Average Life Date, May 1, 2024); *provided* that if the Extension Conditions are not satisfied because the Holders of the Class A-1LA Notes have failed to deliver an Extension Sale Notice or have failed to provide their written consent to the related Maturity Extension, then the Servicer may extend the Extension Sale Notice Period by seven Business Days if the Servicer shall cause the Extension Conditions set forth in clause (iv) of such definition to be satisfied as of such later date. As a condition to a Maturity Extension, any Holder of Notes will have the right to offer to sell their Notes to one or more Extension Qualifying Purchasers for purchase on the applicable Extension Effective Date. If all Extension Conditions are satisfied and a Maturity Extension is effected, each Holder of such Notes, other than Extension Sale Securities will be entitled to receive the applicable Extension Bonus Payment, in each case to the extent of available funds and as provided in the priority of payments. Holders of Preferred Shares will not be entitled to receive any Extension Bonus Payment. The obligation to make any Extension Bonus Payment shall not be rated by the Rating Agencies. See "Special Considerations—A Maturity Extension," "Maturity and Prepayment Considerations," "Description of the Notes—Extension of the Revolving Period and the Final Maturity Date."

#### Additional Issuance

At any time during the Revolving Period, the Issuer, as applicable, may issue and sell Additional Preferred Shares and use the proceeds therefrom to purchase additional eligible Portfolio Collateral and pay the expenses of such additional issuance (an "**Additional Issuance**"); *provided* that certain conditions precedent specified in the Indenture (as described herein) are satisfied. See "Description of the Notes—Additional Issuance." Any amendment to the Indenture, Issuer's Memorandum of Association and Articles of Association or any other related documents required to provide for or facilitate such Additional Issuance will not require the consent of the Holders of Securities.

#### Accounts

All Collections (together with any income thereon and any upfront payments received from a Hedge Counterparty under a Hedge Agreement) will be remitted to the Trustee and deposited into the Collection Account and will be available, to the extent described herein, for application in the manner and for the purposes as described herein. Funds held in the Collection Account that are not used to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral will be applied as promptly as practicable to purchase Eligible Investments. All cash pledged to the Trustee on the Closing Date which is to be subsequently used to purchase Original Portfolio Collateral on or before the Effective Date will be deposited into the Initial Deposit Account. Funds held in the Initial Deposit Account pending application to purchase Original Portfolio

Collateral will be held in Eligible Investments at the direction of the Issuer. A Closing Expense Account will be established by the Trustee for the payment of fees, commissions and expenses associated with the issuance of the Notes. A Reserve Account will be established by the Trustee to fund a portion of the payments to be made in accordance with the Priority of Payments, or to otherwise fund any payments of interest or principal on the Notes at the direction of the Servicer. An Expense Reimbursement Account of U.S.\$50,000 will be established by the Trustee for the payment of Issuer administrative expenses which become due and must be paid between Payment Dates. Any amounts withdrawn from the Expense Reimbursement Account will be reimbursed on each Payment Date in accordance with the priority of distribution provisions described herein. The Trustee will establish a Loan Funding Account into which certain amounts with respect to any Delayed Drawdown Loans and Revolving Bank Loans will be deposited. The Trustee will establish the Default Swap Collateral Account to which Default Swap Collateral will be credited for the benefit of the related Default Swap Counterparties. In addition, if the terms of any Default Swap require the related Default Swap Counterparty to secure its obligations with respect to such Default Swap, the Trustee will cause to be established a Default Swap Issuer Account in respect of such Default Swap. Funds held in such Accounts will be held in Eligible Investments. See "Security for the Notes—Accounts."

The Servicer

Highland Capital Management, L.P. (the "**Servicer**" or "**Highland**"), will service the Portfolio Collateral and perform certain other reporting functions pursuant to a servicing agreement with the Issuer (the "**Servicing Agreement**"). See "The Servicer" and "The Servicing Agreement."

It is expected that Highland Financial Partners, L.P. or an affiliate or subsidiary thereof ("**HFP**") will purchase approximately 13,450,000 Class I Preferred Shares and 44,000,000 of the Class II Preferred Shares of the Issuer on the Closing Date, representing approximately 67% of the total Preferred Shares outstanding (the "**Original HFP Share Amount**"). In addition, the Servicer Entities may also acquire Notes or Preferred Shares upon the occurrence of an Amendment Buy-Out or a Maturity Extension as described herein. See "Special Considerations—Conflicts of Interest," "Special Considerations—Amendment Buy-Out Risk," "Special Considerations—Amendment Buy-Out Risk," "Legal Structure—The Indenture—Amendment Buy-Out," "Description of the Notes—Extension of the Revolving Period and the Final Maturity Date" and "The Servicing Agreement."

The Trustee

Investors Bank & Trust Company, as Trustee under the Indenture. The Trustee maintains its principal corporate trust offices at 200 Clarendon Street, Mail Code: EUC108, Boston, MA 02116, at which the Notes may be surrendered for payment or for transfer or exchange.

Independent Accountants

A firm of Independent Accountants as selected by the Servicer, or any successor accounting firm selected pursuant to the Indenture, will periodically perform certain procedures with respect to the Portfolio Collateral and the compliance with the Overcollateralization Tests and the Interest Coverage Test as required by the Indenture.

The Administrator

Maples Finance Limited (the "**Administrator**") will act as administrator for the Issuer in the Cayman Islands and will perform certain administrative services on behalf of the Issuer. The Administrator maintains its offices at P.O. Box 1093 GT, Queensgate House, South Church Street, George Town, Grand Cayman, Cayman Islands.

Option to Acquire Credit  
Enhancement

The Indenture will provide that Holders of any Class of Notes may elect to acquire bond insurance, a surety bond or similar credit enhancement supporting the payment of principal and/or interest on such Class of Notes, on terms and conditions acceptable to such Holders. Any Class of Notes subject to such enhancement will be designated as Insured Notes of such Class. Premiums for any such enhancement will be payable from amounts otherwise payable to such Class of Insured Notes or in such other manner chosen by such Holder. Any Insured Notes of a Class for substantially all other purposes will be treated as Notes of such Class, except that the issuer of the bond insurance policy, surety bond or other such credit enhancement will generally be deemed to be the Holder of the Notes of such Class enhanced by such entity and will in such capacity be entitled to exercise the rights otherwise exercisable by Holders of such Notes.

Certain Federal Income  
Tax Consequences

*Federal Income Tax Consequences to U.S. Holders of Notes.* The Notes should be treated as debt of the Issuer for United States federal income tax purposes. Under rules applicable to original issue discount, a U.S. Holder of a Class A-3L Note, a Class B-1L Note or a Class B-2L Note may need to include all stated interest as original issue discount in gross income as it accrues according to a constant yield method based on daily compounding, regardless of such Holder's method of accounting. See "Certain Tax Considerations."

*Federal Income Tax Consequences to Non-U.S. Holders.* A Non-U.S. Holder that has no connection with the United States other than holding its Note will generally not be subject to United States federal withholding tax or income tax on payments of principal and interest (including original issue discount) in respect of a Note. See "Certain Tax Considerations—Non-U.S. Holders."

*Federal Income Tax Consequences to the Issuer.* The Issuer intends to acquire the Portfolio Collateral and Eligible Investments the interest on which and any gain from the sale or disposition with respect to which is not expected to be subject to United States federal withholding tax or withholding tax imposed by other countries (unless, in the case of interest, the obligor is required to "gross up" its payments to compensate for these taxes). Moreover, the Issuer does not expect to be subject to U.S. net income tax because the Issuer does not expect that it will be engaged in a trade or business in the U.S. for U.S. federal income tax purposes. See "Certain Tax Considerations – United States Federal Income Tax Consequences to the Issuer."

Certain ERISA Considerations

Fiduciaries and other persons investing "plan assets" of employee benefit or other plans subject to Title I of the Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), or Section 4975 of the Internal Revenue Code of 1986, as amended (the "**Code**") (each, a "**Plan**"), should consider the fiduciary investment standards and prohibited transaction rules of ERISA and Section 4975 of the Code before authorizing an investment of "plan assets" of any Plan in the Notes. Each person purchasing a Class A-1LA Note, a Class A-1LB Note, a Class A-2L Note or a Class A-3L Note will be deemed to have made certain representations regarding the prohibited transaction rules of ERISA and Section 4975 of the Code. The Class B-1L Notes may not be sold or transferred to any Plan, or to any person acting on behalf of or with "plan assets" of any Plan, including an insurance company general account, unless the purchaser or transferee is eligible for the exemptive relief available under any of Section 408(b)(17) of ERISA or PTCE 96-23, 95-60, 91-38, 90-1 or 84-14. The Class B-2L Notes may not be sold or transferred to any Plan, or to any person acting on behalf of or with "plan assets" of any Plan, or to any other "benefit plan investor" (as defined in Section 3(42) of ERISA) (a

"Benefit Plan Investor"), including an insurance company general account, except in accordance with the restrictions set forth herein. See "Certain ERISA Considerations." See "Certain ERISA Considerations."

#### Legal Investment

Institutions whose investment activities are subject to legal investment laws and regulations or to review by certain regulatory authorities may be subject to conditions on investment in the Notes. See "Certain Legal Investment Considerations."

#### Rating of Notes

It is a condition to the issuance of the Notes that the Class A-1LA Notes and the Class A-1LB Notes be rated "AAA" by Standard & Poor's Ratings Services ("**S&P**") and "Aaa" by Moody's Investors Service, Inc. ("**Moody's**"), that the Class A-2L Notes be rated at least "AA" by S&P and at least "Aa2" by Moody's, that the Class A-3L Notes be rated at least "A" by S&P and at least "A2" by Moody's, that the Class B-1L Notes be rated at least "BBB" by S&P and at least "Baa2" by Moody's and that the Class B-2L Notes be rated at least "BB" by S&P and at least "Ba2" by Moody's. Each of S&P and Moody's is sometimes referred to herein as a "**Rating Agency**." Each of the ratings of the Notes described herein assume that no Maturity Extension occurs after the Closing Date.

**The ratings of the Notes by S&P address solely the likelihood of timely payment of the Periodic Interest Amount on and the ultimate payment of the Aggregate Principal Amount of each Class of Senior Class A Notes, the ultimate payment of the Cumulative Interest Amount and the Aggregate Principal Amount of the Class A-3L Notes, the Class B-1L Notes and the Class B-2L Notes. The ratings of the Notes by Moody's address the ultimate cash receipt of all required payments as provided by the governing documents, and are based on the expected loss to the Noteholders of each Class relative to the promise of receiving the present value of such payments. Any obligation to make an Extension Bonus Payment will not be rated by the Rating Agencies. A rating is not a recommendation to purchase, hold or sell securities, in as much as such rating does not comment as to market price or suitability for a particular investor and may be subject to revision or withdrawal at any time by the assigning rating organization.**

Security ratings are subject to revision or withdrawal at any time by the assigning Rating Agency. In the event that any rating initially assigned to the Notes is subsequently lowered for any reason, no person or entity is obligated to provide any additional support or credit enhancement with respect to the Notes, nor will any other remedies be available to Noteholders. The Issuer has not requested a rating on the Notes by any rating agencies other than S&P and Moody's, although data with respect to the Portfolio Collateral may have been provided to other rating agencies solely for informational purposes. There can be no assurance that, if a rating is assigned to the Notes by any other rating agency, such rating will be as high as that assigned by the applicable Rating Agencies.

#### Listing

Application may be made to the Irish Stock Exchange to admit the Notes to the Official List. There can be no assurance that such admission will be granted or maintained.

## SPECIAL CONSIDERATIONS

Prospective Holders of Notes should consider, among other things, the following factors in connection with the purchase of the Notes.

1. Non-recourse Obligations. The Notes, with the exception of the Class B-2L Notes, will be non-recourse obligations of the Co-Issuers and the Class B-2L Notes will be non-recourse obligations of the Issuer, payable solely from the Portfolio Collateral (including the Portfolio Collateral initially pledged to secure the Notes, as well as Additional Portfolio Collateral and Substitute Portfolio Collateral to be purchased from time to time as described herein), any Hedge Agreement, the Collection Account, the Initial Deposit Account, the Loan Funding Account, the Default Swap Collateral Account (subject to the rights of the related Default Swap Counterparty), the Default Swap Issuer Account (subject to the rights of the related Default Swap Counterparty) the Expense Reimbursement Account and the Closing Expense Account, including all proceeds of such Accounts and all Eligible Investments purchased with funds on deposit in such Accounts (collectively, the "**Trust Estate**") pledged to secure the Notes. The Issuer, as a special purpose Cayman Islands company, will have no significant assets other than the Trust Estate. The Co-Issuer will have no substantial assets, and no other person or entity except for the Co-Issuers will be obligated to make any payments on the Notes. Consequently, Holders of the Notes must rely solely upon distributions on the Trust Estate for the payment of amounts payable in respect of the Notes. If distributions on the Trust Estate are insufficient to make payments on the Notes, no other assets of the Issuer or any other person or entity will be available for the payment of the deficiency, the Co-Issuers shall have no further obligation to pay such deficiency, and any sums outstanding and unpaid shall be extinguished.

2. Subordination. The Class A-1LB Notes are subordinated to the Class A-1LA Notes with respect to principal only, to the extent described herein, the Class A-2L Notes are subordinated to the Class A-1L Notes, the Class A-3L Notes are subordinated to the Senior Class A Notes, the Class B-1L Notes are subordinated to the Class A Notes and the Class B-2L Notes are subordinated to the Class B-1L Notes, and, in the case of each Class of Notes, to the payment of certain fees and expenses as described herein. Payments of principal and interest on the Notes are subject to the priority of distribution provisions described herein. The failure to pay interest on the Class A-3L Notes will not constitute an Event of Default so long as any Senior Class A Notes remain Outstanding, the failure to pay interest on the Class B-1L Notes will not constitute an Event of Default so long as any Class A Notes remain Outstanding and the failure to pay interest on the Class B-2L Notes will not constitute an Event of Default so long as any Class A Notes or Class B-1L Notes remain Outstanding. In addition, in the case of a Default or an Event of Default, so long as any Senior Class A Notes remain Outstanding, the Holders of such Senior Class A Notes will generally be entitled to determine the remedies to be exercised under the Indenture. Remedies pursued by the Holders of the Class A-1LA Notes could be adverse to the interests of the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class B-1L Notes and the Class B-2L Notes. Once an Event of Default has occurred and the Notes have been accelerated, Holders of the Class A-2L Notes are not entitled to be paid the Cumulative Interest Amount with respect thereto and the Aggregate Principal Amount thereof unless the Class A-1L Notes have been paid such amounts in full in cash, Holders of the Class A-3L Notes are not entitled to be paid the Cumulative Interest Amount with respect thereto and the Aggregate Principal Amount thereof unless the Senior Class A Notes have been paid such amounts in full in cash, the Holders of the Class B-1L Notes are not entitled to be paid the Cumulative Interest Amount with respect thereto and the Aggregate Principal Amount thereof unless the Class A Notes have been paid such amounts in full in cash and the Holders of the Class B-2L Notes are not entitled to be paid the Cumulative Interest Amount with respect thereto and the Aggregate Principal Amount thereof unless the Class B-1L have been paid such amounts in full in cash. Notwithstanding such subordination, the Holders of the Class B-2L Notes may be entitled to payments of principal in connection with the Additional Collateral Deposit Requirement and upon the failure of the Class B-2L Overcollateralization Test before the Notes senior thereto receive any payments of principal.

3. Nature of Collateral Pledged to Secure the Notes; Ability to Obtain Additional Portfolio Collateral; Availability of Funds for Subordinate Payments. The Portfolio Collateral pledged to secure the Notes includes commercial loans and collateralized loan obligations of both U.S. and certain non-U.S. obligors rated below investment grade, which have greater credit and liquidity risk than more highly rated obligations, and synthetic securities.

The Portfolio Collateral will consist primarily of senior secured floating rate term commercial loans. Other loans in which the Issuer may invest include unsecured loans, second lien loans, debtor-in-possession financings and delayed drawdown loans and revolving bank loans. Loans are not generally traded on organized exchange markets but rather would typically be traded by banks and other institutional investors engaged in loan syndications. The liquidity of the Portfolio Loans will therefore depend on the liquidity of this market. Trading in loans is subject to delays as transfers may require extensive and customized documentation, the payment of significant fees and the consent of the agent bank or underlying obligor. Furthermore, Portfolio Loans typically provide that the applicable interest rate may be computed by reference to any of several base indices, at the option of the obligor. The interest rates of the Notes generally are calculated by reference to three-month LIBOR as an index. See "—Interest Rate Risk."

The Issuer intends to purchase Participations of Portfolio Loans in certain circumstances. Participations held by the Issuer in a Selling Institution's portion of a Portfolio Loan typically result in a contractual relationship only with such Selling Institution, not with the obligor. The Issuer has the right to receive payments of principal, interest and any fees to which it is entitled only from the Selling Institution selling the Participation and only upon receipt by such Selling Institution of such payments from the obligor. In connection with purchasing Participations, the Issuer generally will have no right to enforce compliance by the obligor with the terms of the related loan agreement, nor any rights of set-off against the obligor and the Issuer may not directly benefit from the collateral supporting the Portfolio Loan in which it has purchased the Participation. As a result, the Issuer will assume the credit risk of both the obligor and the Selling Institution selling the Participation. In the event of the insolvency of such Selling Institution, the Issuer may be treated as a general creditor of such Selling Institution, and may not benefit from any set-off between such Selling Institution and the obligor. When the Issuer holds a Participation in a Portfolio Loan it may not have the right to vote to waive enforcement of any restrictive covenant breached by an obligor or, if the Issuer does not vote as requested by the Selling Institution, it may be subject to repurchase of the Participation at par. Selling Institutions voting in connection with a potential waiver of a restrictive covenant may have interests different from those of the Issuer, and such Selling Institutions may not consider the interests of the Issuer in connection with their votes.

The Issuer will also purchase Assignments. The purchaser of an Assignment typically succeeds to all the rights and obligations of the assignor of the loan and becomes a lender under the loan agreement and other operative agreements relating to the Portfolio Loan. Assignments are, however, arranged through private negotiations between potential assignees and potential assignors, and the rights and obligations acquired by the purchaser of an Assignment may differ from, and be more limited than, those held by the assignor of the loan. In contrast to the rights of the Issuer as an owner of a Participation, the Issuer, as an assignee, will generally have the right to receive directly from the obligor all payments of principal, interest and any fees to which it is entitled. In some Assignments, the obligor may have the right to continue to make payments to the assignor with respect to the assigned portion of the Portfolio Loan. In such a case, the assignor would be obligated to receive such payments as agent for the Issuer and to promptly pay over to the Issuer such amounts as are received. As a purchaser of an Assignment, the Issuer typically will have the same voting rights as other lenders under the applicable loan agreement and will have the right to vote to waive enforcement of breaches of covenants. The Issuer will also have the same rights as other lenders to enforce compliance by the obligor with the terms of the loan agreement, to set-off claims against the obligor and to have recourse to collateral supporting the Portfolio Loan. As a result, the Issuer may not bear the credit risk of the assignor and the insolvency of an assignor of a loan should have little effect on the ability of the Issuer to continue to receive payments of principal, interest or fees from the obligor. The Issuer will, however, assume the credit risk of the obligor. Non-performing Portfolio Loans may require substantial workout negotiations or restructuring that may entail, among other things, a substantial reduction in the interest rate, a substantial write-down of the principal and/or a substantial extension of the amortization and/or maturity date of the Portfolio Loan. Any such reduction, write-down or extension will likely cause a significant decrease in the interest collections on the Portfolio Loans and any such write-down or extension will likely also cause a significant decrease in the principal collections on the Portfolio Loans.

The Portfolio Collateral will also consist of CLO Securities. CLO Securities generally are limited-recourse obligations of the issuer thereof payable solely from the underlying securities of such issuer or proceeds thereof. Consequently, holders of CLO Securities must rely solely on distributions on the underlying securities or proceeds thereof for payment in respect thereof. If distributions on the underlying securities are insufficient to make payments on the CLO Securities, no other assets will be available for payment of the deficiency and following

realization of the underlying assets, the obligations of such issuer to pay such deficiency shall be extinguished. Such underlying securities are expected to consist mainly of loans and other debt instruments, generally rated below investment grade (or of equivalent credit quality). In addition, certain CLO Securities (particularly subordinated CLO Securities) provide that the non payment of interest in cash on such securities will not constitute an event of default in certain circumstances and the holders of such securities will not have available to them any associated default remedies. Interest not paid in cash will generally be capitalized and added to the outstanding principal balance of the related security. Any such deferral will reduce the yield on such CLO Securities. Loan securities may be unsecured and may be subordinated to certain other obligations of the issuer thereof. The lower rating of below investment grade loans reflects a greater possibility that adverse changes in the financial condition of an issuer or in general economic conditions or both may impair the ability of the issuer to make payments of principal or interest. Such Portfolio Collateral may be speculative.

Issuers of CLO Securities may acquire interests in loans and other debt obligations by way of sale, assignment or participation. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, its rights can be more restricted than those of the assigning institution.

CLO Securities are also subject to interest rate risk. The underlying securities of an issuer of CLO Securities may bear interest at a floating rate while the CLO Securities issued by such issuer may bear interest at a fixed rate (or the reverse may be true). As a result, there could be a floating/fixed rate or basis mismatch between such CLO Securities and underlying securities. In addition, there may be a timing mismatch between the CLO Securities and underlying securities that bear interest at a floating rate, as the interest rate on such floating rate underlying securities may adjust more frequently or less frequently, on different dates and based on different indices, than the interest rates on the CLO Securities. As a result of such mismatches, an increase or decrease in the level of the floating rate indices could adversely impact the ability of the issuers thereof to make payments on the CLO Securities.

In order to purchase and hold CLO Securities, the Issuer must satisfy at all times the investor qualifications in the indenture for each such obligation and in applicable securities laws. Generally, such indentures and applicable securities laws require that the Issuer either be a Qualified Institutional Buyer which is also a Qualified Purchaser or that it be a non-U.S. Person (as defined in Regulation S) which is also not a U.S. resident for purposes of the Investment Company Act. There can be no assurance that the Issuer will satisfy these requirements. In the event that the Issuer does not satisfy these requirements at any time, it will not be able to purchase CLO Securities, and it may be required under the underlying indentures for such underlying securities to sell CLO Securities which it previously purchased; any such "forced sale" by the Issuer is likely to be made at a loss.

In addition, a portion of the Portfolio Collateral may consist of Synthetic Securities, the Reference Obligations of which satisfy the definition of Portfolio Collateral (except as to payment terms). Investments in such types of assets through the purchase of Synthetic Securities present risks in addition to those resulting from direct purchases of such Portfolio Collateral. With respect to Synthetic Securities, the Issuer will usually have a contractual relationship only with the counterparty of such Synthetic Security, and not the Reference Obligor of the related Reference Obligation. The Issuer generally will have no right directly to enforce compliance by the Reference Obligor with the terms of the Reference Obligation nor any rights of set-off against the Reference Obligor, nor have any voting or other consensual rights of ownership with respect to the Reference Obligation. The Issuer will not directly benefit from any collateral supporting the Reference Obligation and will not have the benefit of the remedies that would normally be available to a holder of such Reference Obligation. In addition, in the event of the insolvency of the counterparty, the Issuer will be treated as a general creditor of such counterparty, and will not have any claim with respect to the Reference Obligor or the Reference Obligation. Consequently, the Issuer will be subject to the credit risk of the counterparty as well as that of the Reference Obligor. As a result, concentrations of Synthetic Securities entered into with any one counterparty will subject the Notes to an additional degree of risk with respect to defaults by such counterparty as well as by the Reference Obligor. One or more affiliates of Bear Stearns may act as counterparty with respect to all or a portion of the Synthetic Securities. These relationships may create certain conflicts of interest. See "—Potential Conflicts of Interest."

With respect to a Synthetic Security under which the Issuer is the seller of protection and the related Default Swap Counterparty is the buyer of protection, following the occurrence of a Credit Event with respect to a Reference Obligor or Reference Obligation, as applicable, under and as defined in the related Synthetic Security and

subject to the satisfaction of applicable conditions to settlement, the Issuer will be required to pay to such Default Swap Counterparty an amount equal to the relevant physical settlement amount (as defined in the related Synthetic Security) or otherwise satisfy its settlement obligations in respect thereof. The obligation of the Issuer to make payments to a Default Swap Counterparty under the Synthetic Securities creates credit exposure to the related Reference Obligor (as well as to the default risk of the Synthetic Security Counterparties).

All or some of the Reference Obligations may currently be or may fall below investment grade (or the equivalent credit quality) in which case it will be more likely that a Credit Event will occur and that the Issuer, as the seller of protection, will be required to make payment of a physical settlement amount. Any such payments of physical settlement amounts and termination payments by the Issuer under a Synthetic Security will reduce the amount that is available to make payments on the Notes and consequently the Notes could be adversely affected thereby.

The Synthetic Securities may consist of "pay as you go" credit default swaps (a "**PAUG Synthetic Security**"). The obligation of the Issuer to make payments to the Default Swap Counterparties under the Default Swaps creates credit exposure to the related Reference Obligations (as well as to the default risk of the Default Swap Counterparties described above). Following the occurrence of a Credit Event under the related PAUG Synthetic Security, the Issuer will be required to pay to the Default Swap Counterparty an amount equal to the relevant "physical settlement amount" in return for the related Reference Obligation. The payment of any physical settlement amount will be funded by the Issuer by drawing on amounts standing to the credit of the related Default Swap Collateral Account. In addition, each PAUG Synthetic Security will require the Issuer, in its capacity as protection seller, to pay "floating amounts" to the Default Swap Counterparty equal to any principal shortfalls, writedowns and interest shortfalls under the Reference Obligation upon the occurrence thereof (any such payment, a "**Credit Protection Payment**"). Although the Default Swap Counterparty, in its capacity as protection buyer, will be obligated to reimburse all or part of such Credit Protection Payments to the Issuer if the writedowns of the related shortfalls are ultimately paid to holders of the Reference Obligations or if the related Reference Obligations are written up, the amounts available to the Issuer to make payments in respect of the Notes and Preferred Shares will be reduced after payment by the Issuer of the relevant Credit Protection Payment to the Default Swap Counterparty until the Issuer receives such reimbursement, if any, from the Default Swap Counterparty. Under the PAUG Synthetic Securities, a writedown or failure to pay principal in respect of a Reference Obligation will entitle the Default Swap Counterparty, as protection buyer, to elect whether to require the Issuer to pay a physical settlement amount or a Credit Protection Payment under the related PAUG Synthetic Security.

Each PAUG Synthetic Security referencing a CLO Security will have either a "Fixed Cap" or "Variable Cap." Under a "Fixed Cap," upon the occurrence of any interest shortfall with respect to the related Reference Obligation, the fixed rate amount payable by the Default Swap Counterparty to the Issuer will be reduced by an amount equal to such interest shortfall (a "**Fixed Rate Shortfall Amount**"), such reduction amount not to exceed the fixed rate payment. Under a "Variable Cap," upon the occurrence of any interest shortfall with respect to the related Reference Obligation, the Fixed Rate Shortfall Amount payable by the Issuer will be calculated in accordance with the Variable Cap description under the related Synthetic Security and may be greater than the fixed rate payment. To the extent the Fixed Rate Shortfall Amount exceeds the fixed rate payable by the Default Swap Counterparty, the Issuer shall be obligated to pay the difference to the Default Swap Counterparty. In certain other circumstances in which a PAUG Synthetic Security may be terminated early, a termination payment may be due to or from the Issuer. If the Issuer is required to make a termination payment to the Default Swap Counterparty, such termination payment may be substantial and may affect the ability of the Issuer to make payments to the Noteholders and to the Holders of the Preferred Shares. Termination payments payable by the Issuer in respect of any PAUG Synthetic Security will include the market value to the Default Swap Counterparty of such terminated Default Swap, which may expose the Issuer to deterioration in the credit of the Reference Obligations and result in losses to the Issuer, even where no Credit Event has occurred. Even if the Default Swap Counterparty is required to make a termination payment to the Issuer, there is no assurance that the amount of such payment would be sufficient such that payments to the Holders of the Notes and the Preferred Shares would not be affected.

It is expected that the Issuer will acquire all of the Initial Portfolio Collateral to be acquired on the Closing Date from various sources, including Bear Stearns, at prices agreed upon by the Issuer with the advice of the Servicer. The price to be paid by the Issuer for such securities may be higher or lower, based on market conditions at the time of purchase by Bear Stearns or such other sources than the prices the Issuer would have paid had such

securities all been purchased by such persons on the date such securities were sold to the Issuer. After the Closing Date, the Issuer with the advice of the Servicer may acquire from or through various sources, including Bear, Stearns & Co. Inc., Portfolio Collateral at current market prices which will be negotiated by or on behalf of the Issuer at such time. The Indenture does not restrict the ability of the Issuer to invest in Portfolio Collateral on the basis of its market value.

As described herein, the Indenture provides that the Servicer and the Issuer will seek to invest the Deposit in Original Portfolio Collateral having an Aggregate Principal Amount at least equal to the Required Portfolio Collateral Amount no later than the Effective Date, and that during certain specified periods thereafter significant portions of the collections received in respect of the Portfolio Collateral will be used to purchase Additional Portfolio Collateral to secure the Notes, which securities in any such case must satisfy the criteria specified in the Indenture. In addition, Collateral Disposition Proceeds may be used to purchase Substitute Portfolio Collateral, subject to satisfaction of the specified criteria. The ability of the Issuer to obtain such Original Portfolio Collateral, Additional Portfolio Collateral or Substitute Portfolio Collateral (and the rates and other terms thereof) and the terms on which such securities can be obtained, as well as the timing and amount of draws under the Delayed Drawdown Loans and the Revolving Loans and the rates and other terms obtained in connection with the funds held in Eligible Investments (including the Loan Funding Account), may affect the timing and amount of payments received by the Noteholders.

The Issuer will purchase and sell Portfolio Collateral from or to the Servicer and its affiliates, including assets managed by the Servicer and its affiliates, only to the extent the Servicer determines that such purchases and sales are consistent with the collateral guidelines and objectives of the Issuer, the restrictions contained in the Indenture and the Servicing Agreement and applicable law. In any event, all purchases or sales of Portfolio Collateral from such entities will be on an arms'-length basis for a price at least equal to the Market Value thereof.

On each Payment Date, subject to the satisfaction of the Overcollateralization Tests and, after the second Payment Date, the Interest Coverage Test and application of the Additional Collateral Deposit Requirement, and in accordance with the priority of distribution provisions described herein, certain collections on the Portfolio Collateral will be used to make certain subordinate payments free and clear of the lien of the Indenture, including payment of certain fees to the Servicer, payment of certain administrative expenses of the Issuer and payment to fund distributions to Holders of the Preferred Shares. To the extent that any such distributions are made rather than retained as additional collateral for the Notes, the amounts so distributed will not be available to support payments of principal and interest subsequently payable in respect of the Notes.

4. Default Rates of Commercial Loans and CLO Securities. There are varying sources of statistical default rate data for commercial loans and collateralized loan obligations and numerous methods for measuring default rates. The historical performance of the loan market or collateralized loan market is not necessarily indicative of its future performance. Should increases in default rates occur with respect to the type of collateral comprising the Portfolio Collateral, the actual default rates of the Portfolio Collateral may exceed the hypothetical default rates used herein. See "Maturity and Prepayment Considerations." PROSPECTIVE PURCHASERS OF THE NOTES SHOULD CONSIDER AND DETERMINE FOR THEMSELVES THE LIKELY LEVEL OF DEFAULTS AND THE LEVEL OF RECOVERIES ON THE PORTFOLIO COLLATERAL DURING THE TERM OF THE NOTES.

5. Potential Illiquidity of Portfolio Collateral. There is no established, liquid secondary market for many of the CLO Securities and Portfolio Loans which the Issuer may purchase and the lack of such an established, liquid secondary market may have an adverse effect on the market value of such CLO Securities and Portfolio Loans and the Issuer's ability to dispose of them. Such illiquidity may adversely affect the price and timing of the Issuer's liquidation of CLO Securities and Portfolio Loans, including the liquidation of CLO Securities and Portfolio Loans following the occurrence of an Event of Default under the Indenture or in connection with a redemption of the Notes.

Further, the items of Portfolio Collateral will be subject to certain transfer restrictions that may further restrict liquidity. Therefore, no assurance can be given that if the Issuer were to dispose of a particular item of Portfolio Collateral held by the Issuer, it could dispose of such Portfolio Collateral at the previously prevailing

market price. A decrease in the market value of Portfolio Collateral would adversely affect the sale proceeds that could be obtained upon the sale of Portfolio Collateral and could ultimately affect the ability of the Co-Issuers to effect an Optional Redemption or Tax Event Redemption or pay the principal of the Notes, upon a liquidation of the Portfolio Collateral following the occurrence of an Event of Default.

The market value of the Portfolio Collateral will generally fluctuate with, among other things, changes in prevailing interest rates, general economic and political conditions, the condition of certain financial markets, developments or trends in any particular industry and the financial condition of the issuers of the Portfolio Collateral.

Any concentration of Portfolio Collateral in any one issuer, servicer or other characteristic may expose the Issuer to greater risk than would be the case if the Portfolio Collateral were more diversified, which would affect the Issuer's ability to make payments on the Notes.

The description of the Portfolio Collateral herein and the risks related thereto is general in nature and prospective purchasers should review the descriptions and risk factors relating to each item of Portfolio Collateral set forth in the underlying disclosure documents, transaction documents and servicing reports. PROSPECTIVE PURCHASERS SHOULD ASSESS FOR THEMSELVES THE RISKS INHERENT IN THE PORTFOLIO COLLATERAL.

6. The Issuer and Investors Will Have Limited Control of the Administration and Amendment of Portfolio Loans. The Servicer will cause the Issuer to exercise or enforce, or refrain from exercising or enforcing, any or all of its rights in connection with the Portfolio Loans or any related documents or will refuse amendments or waivers of the terms of any Portfolio Loan and related documents in accordance with its customary business practices as if the Servicer were administering the Portfolio Loans for its own account. The authority of the Servicer to cause the Issuer to change the terms of the Portfolio Loans will generally not be restricted by the Indenture or the Servicing Agreement. As a result, the Issuer will be relying on the Servicer's customary business practices with respect to the servicing of the Portfolio Loans. The Holders of the Notes and the Issuer will not have any right to compel the Issuer or the Servicer to take or refrain from taking any actions other than in accordance with its customary business practices.

The terms and conditions of the loan agreements and related assignments may be amended, modified or waived only by the agreement of the lenders. Generally, any such agreement must include a majority or a super majority (measured by outstanding loans or commitments) or, in certain circumstances, a unanimous vote of the lenders. Consequently, the terms and conditions of the payment obligation arising from loan agreements could be modified, amended or waived in a manner contrary to the preferences of the Servicer or the Issuer, as the case may be, if a sufficient number of the other lenders concurred with such modification, amendment or waiver. There can be no assurance that any obligations arising from a loan agreement will maintain the terms and conditions to which the Issuer originally agreed.

The exercise of remedies may also be subject to the vote of a specified percentage of the lenders thereunder. The Servicer will have the authority to cause the Issuer to consent to certain amendments, waivers or modifications to the Portfolio Loans requested by obligors or the lead agents for loan syndication agreements. The Servicer may, in accordance with its servicing standards and subject to the transaction documents, cause the Issuer to extend or defer the maturity, adjust the outstanding balance of any Portfolio Loan, reduce or forgive interest or fees, release material collateral or guarantees, or otherwise amend, modify or waive the terms of any related loan agreement, including the payment terms thereunder. The Servicer will make such determinations in accordance with its servicing standards. Any amendment, waiver or modification of a Portfolio Loan could postpone the expected maturity of the Notes and/or reduce the likelihood of timely and complete payment of interest or principal under the Notes, as well as the timing and amount of payments to Holders of the Preferred Shares.

7. Sale of Portfolio Collateral by Servicer Under Certain Circumstances. Under the Indenture, the Servicer may only direct the disposition of Portfolio Collateral under certain limited circumstances. More specifically, the Servicer may direct the disposition of Portfolio Collateral that meets the definition of Defaulted Portfolio Collateral, Equity Portfolio Collateral, and, subject to satisfaction of the conditions set forth herein, Credit Risk Portfolio Collateral, Credit Improved Portfolio Collateral or Collateral other than Credit Risk Portfolio

Collateral. Furthermore, the Servicer's ability to dispose of Portfolio Collateral may be subject to greater restrictions if any Class of Notes is downgraded. See "Security for the Notes—Changes in Composition of Portfolio Collateral." **Notwithstanding such restrictions and satisfaction of the conditions set forth in the Indenture, sales and purchases by the Servicer of Portfolio Collateral could result in losses by the Issuer, which losses may result in the reduction or withdrawal of the rating of any or all of the Notes by any of the Rating Agencies.** On the other hand, circumstances may exist under which the Servicer may believe that it is in the best interests of the Issuer to dispose of Portfolio Collateral, but the Issuer will not be permitted to do so under the restrictions and conditions of the Indenture.

A portion of the Portfolio Collateral may have fixed interest rates that remain constant until a specified date or their maturity, and a portion of the Portfolio Collateral will bear interest based on a fixed margin over a reference rate, which margin will generally remain constant until the maturity of such Portfolio Collateral. Accordingly, the market value of the fixed rate Portfolio Collateral will generally decrease as market rates of interest increase. The market value of such Portfolio Collateral will also generally fluctuate with, among other things, general economic conditions, world political events, developments or trends in any particular industry, the conditions of financial markets and the financial condition, results of operations and prospects of the Portfolio Collateral issuers. The Issuer will be relying on Rule 3a-7 and/or Section 3(c)(7) of the U.S. Investment Company Act of 1940, as amended (the "**Investment Company Act**") for its exemption from the Investment Company Act. The Rule 3a-7 exemption restricts the Issuer from disposing of any item of Defaulted Portfolio Collateral, Equity Portfolio Collateral, Credit Risk Portfolio Collateral or Credit Improved Portfolio Collateral or acquiring any item of Portfolio Collateral for the primary purpose of recognizing gains or decreasing losses resulting from market value changes. These restrictions mean that the Issuer may be required to hold an item of Portfolio Collateral or precluded from acquiring an item of Portfolio Collateral when it would have sold such item of Portfolio Collateral or acquired such item of Portfolio Collateral, as applicable, had it based such determination on expected market value changes. As a result, greater losses on the Portfolio Collateral may be sustained and there may be insufficient proceeds on any Payment Date to pay in full any expenses of the Issuer or any amounts payable to the Trustee or the Administrator (all of which amounts are payable prior to payments in respect of the Notes) and the principal of and interest on the Notes. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

8. Sale of Collateral Upon Default of the Notes. The market value of the Portfolio Collateral will generally fluctuate with, among other things, general economic conditions, world political events, developments or trends in any particular industry, the conditions of financial markets and the financial condition of the issuers of the Portfolio Collateral. In addition, CLO Securities included in the Portfolio Collateral, which will comprise no more than 35% of the Aggregate Principal Amount of the Portfolio Collateral included in the Trust Estate, may have interest rates that remain constant until their maturity. Accordingly, their market value will generally fluctuate with changes in market rates of interest. Therefore, if an Event of Default occurs with respect to the Notes, there can be no assurance that the proceeds of any sale by the Trustee of the Portfolio Collateral and the other collateral securing the Notes will be sufficient to pay in full the principal of and interest on the Notes and any amounts payable to the Trustee. However, certain conditions set forth in the Indenture must be satisfied before the Trustee is permitted to sell the Portfolio Collateral and other collateral pledged as security for the Notes following an Event of Default. See "Legal Structure—The Indenture—Events of Default."

9. Restrictions on Transfer. The Notes have not been registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or under any U.S. state securities or "Blue Sky" laws or the securities laws of any other jurisdiction and are being issued and sold in reliance upon exemptions from registration provided by such laws. There is no market for the Notes being offered hereby and, as a result, a purchaser must be prepared to hold the Notes for an indefinite period of time or until the maturity thereof. No Note may be sold or transferred unless such sale or transfer (i) is exempt from the registration requirements of the Securities Act (for example, in reliance on exemptions provided by Rule 144A or Regulation S under the Securities Act) and applicable state securities laws, (ii) will not constitute or result in a non-exempt "prohibited transaction" under ERISA or Section 4975 of the Code and (iii) does not cause either of the Co-Issuers to become subject to the registration requirements of the Investment Company Act. In addition, the Class B-1L Notes may not be sold or transferred to any Plan or to any person acting on behalf of or with "plan assets" of any such Plan, including an insurance company general account, unless the purchaser or transferee is eligible for the exemptive relief available under any of Section 408(b)(17) of ERISA or PTCE 96-23, 95-60, 91-38, 90-1 or 84-14. The Class B-2L Notes may not be sold or transferred to any Plan, or to any person acting on behalf of or with "plan assets" of any such Plan, or to any other "benefit plan investor" (as

defined in Section 3(42) of ERISA) (a "Benefit Plan Investor"), including an insurance company general account, except in accordance with the restrictions set forth herein. Prospective transferees of the Notes will be required pursuant to the terms of the Indenture to deliver a certificate to the Trustee and the Co-Issuers relating to compliance with the Securities Act, applicable state securities laws, ERISA, Section 4975 of the Code and the Investment Company Act. The Co-Issuers will not provide registration rights to any purchaser of the Notes and neither of the Co-Issuers, the Trustee, nor any other person may register the Notes under the Securities Act or any state securities or "Blue Sky" laws nor may the Co-Issuers or the Trustee take such action with respect to the Portfolio Collateral. See "Description of the Notes—General." The Notes will be owned by a relatively small number of investors and it is highly unlikely that an active secondary market for the Notes will develop. Purchasers of the Notes may find it difficult or uneconomic to liquidate their investment at any particular time.

The Issuer has not registered as an investment company under the Investment Company Act in reliance on the exception provided under Rule 3a-7 and/or Section 3(c)(7) thereof. While counsel will opine in connection with the sale of the Notes to the Initial Purchasers that neither the Issuer nor the Co-Issuer is on the Closing Date required to register as an investment company (assuming the Notes are sold to the Initial Purchasers in accordance with the terms of the Purchase Agreement (as defined herein) and that the Servicer services the Portfolio Collateral and other assets of the Issuer in accordance with the terms of the Servicing Agreement (as defined herein)), no opinion or no-action position has been requested of the United States Securities and Exchange Commission (the "SEC"). If the SEC or a court of competent jurisdiction were to find that the Issuer or the Co-Issuer is required to register as an investment company, possible consequences include, but are not limited to, the SEC applying to enjoin the violation, investors suing the Issuer or the Co-Issuer, as applicable, to recover any damages caused by the violation and any contract to which the Issuer or the Co-Issuer, as applicable, is a party made in violation or whose performance involves a violation of the Investment Company Act being unenforceable unless enforcing such contract would produce a more equitable result. Should the Issuer or the Co-Issuer be subjected to any or all of the foregoing or to any other consequences, the Issuer or the Co-Issuer, as the case may be, would be materially and adversely affected.

Each transferee of a Note (except with respect to a transfer pursuant to Regulation S under the Securities Act) will be deemed to make certain representations at the time of transfer relating to compliance with Section 3(c)(7) of the Investment Company Act. See "Delivery of the Notes; Transfer Restrictions; Settlement."

The Indenture will provide that if, notwithstanding the restrictions on transfer contained therein, the Issuer determines any beneficial owner or Holder of a Note (excluding a Note (other than a Class B-2L Note) transferred in reliance on Regulation S of the Securities Act but including a Class B-2L Note transferred in reliance on Regulation S of the Securities Act) is not a Qualified Institutional Buyer and a Qualified Purchaser, the Issuer will require that such beneficial owner or Holder sell all of its right, title and interest in such Note to a person who is so qualified, with such sale to be effected within 30 days after notice of such sale requirement is given. If such sale is not effected within such 30 days, upon written direction from the Issuer, the Trustee (or an investment banker selected by the Trustee and approved by the Issuer) will be authorized to conduct a commercially reasonable sale of such Note to a person who does so qualify and pending transfer, no further payments will be made in respect of such Note or any beneficial interest therein.

10. Final Maturity Date; Average Life and Prepayment Considerations; Redemption. The Final Maturity Date of each Class of Notes will be the Payment Date occurring in August 2024; *provided* that, the Final Maturity Dates of the Notes are extendable upon a Maturity Extension (if any) as described herein, in which case the Final Maturity Date of such Notes will be extended to the applicable Extended Final Maturity Date. See "Description of the Notes—Extension of the Revolving Period and the Final Maturity Date." The average life of each Class of Notes is expected to be shorter than the number of years until the Final Maturity Date, and the average lives may vary due to various factors affecting the early retirement of the Portfolio Collateral and the ability of the Servicer to invest collections in Additional Portfolio Collateral or reinvest disposition proceeds in Substitute Portfolio Collateral. Retirement of an item of Portfolio Collateral prior to that item of Portfolio Collateral's respective final maturity will depend, among other things, on the financial condition of the issuer and the characteristics of the underlying item of Portfolio Collateral, including the existence and frequency of exercise of any prepayment or redemption features, the prevailing level of interest rates, the prepayment or redemption price and the actual default rate and the actual amount collected on any Defaulted Portfolio Collateral. See "Maturity and Prepayment Considerations" and "Security for the Notes—Changes in Composition of Portfolio Collateral." The ability of the Issuer to reinvest proceeds in securities with comparable interest rates, with final maturity dates on or before the Calculation Date prior to the Final Maturity Date and otherwise satisfying the criteria specified herein may affect the

timing and amount of payments received by the Noteholders and the yield to maturity of the Notes. If the Issuer is unable to reinvest more than U.S.\$2,000,000 of collections of principal in Additional Portfolio Collateral selected by the Servicer meeting the criteria described herein for ninety days after receipt, the Servicer may direct the Trustee to apply such amounts to pay principal of the Notes in a Special Redemption. Any such application will affect the timing and amount of payments received by the Noteholders and the average life and yield to maturity of the Notes.

As described herein, the Notes are subject to a Tax Event Redemption on any Payment Date, at the option of the Issuer acting at the direction of at least a Majority of the Preferred Shares (or a Majority of the Controlling Class if the Aggregate Principal Balance of Portfolio Collateral is less than 100% of the Class A-1L Notes), if as a result of a change in tax law, rule or regulation or the interpretation thereof, the payments to be received on the Portfolio Collateral are reduced as a result thereof as described herein.

As described herein, the Notes will be subject to an Optional Redemption, at the option of the Issuer acting at the direction of the Holders of the requisite amount of the Preferred Shares eligible to vote for any such redemption (see "Description of the Notes—Optional Redemption"), on any Optional Redemption Date, at a price equal to the Optional Redemption Price. In addition, in the case of an Optional Redemption by Refinancing, a Majority of the Preferred Shares may cause an Optional Redemption by Refinancing with respect to any Class of Notes subject to the requirements set forth herein. Among other reasons, the holders of the Preferred Shares may elect to direct the Issuer to effect an Optional Redemption by Refinancing if interest rates on investments similar to one or more Classes of Notes fall below current levels or if such holders otherwise expect the Issuer to be able to achieve improved pricing. If exercised, such redemption would result in the Notes being redeemed at the Optional Redemption Price at a time when they may be trading in the market at a premium and when other investments bearing the same rate of interest relative to the level of risk assumed may be difficult or expensive to acquire. In addition, if the holders of the Preferred Shares cause one or more Classes of the Notes to be redeemed pursuant to an Optional Redemption by Refinancing in which additional notes are issued or borrowings under secured loans are made, the Preferred Shares will be subordinate to payments on such additional notes or secured loans. The additional notes issued, or secured loans obtained, as the case may be, in connection with an Optional Redemption by Refinancing would have such terms and priorities as are negotiated at the time and that are set forth in a supplemental indenture.

As described herein, at any time that the Notes are Outstanding, if any Overcollateralization Test (other than the Class B-2L Overcollateralization Test) or, after the second Payment Date, the Interest Coverage Test is not satisfied on any Payment Date, amounts that are junior in right of payment to such test as described under "Description of the Notes—Payments on the Notes; Priority of Distributions", will be applied to the redemption of the Class A Notes and the Class B-1L Notes (or, in the case of the Class B-1L Notes, first to pay accrued and unpaid interest from prior Payment Dates, then to pay principal) in an O/C Redemption on each such Payment Date, in the order described under "Description of the Notes—Payments on the Notes; Priority of Distributions," to the extent necessary to satisfy both the Overcollateralization Tests and the Interest Coverage Test. Further, if following the Effective Date, the Issuer is not able to receive a Rating Confirmation, amounts that are junior in right of payment to such redemption as described herein, will be applied to the redemption of the Notes until the earlier of the Ratings Confirmation being received or each such Class being paid in full, in the order and according to the priorities described herein.

If on any Payment Date the Class B-2L Overcollateralization Test is not satisfied, 50% of available Interest Proceeds will be applied to pay principal on the Class B-2L Notes and 50% (or, after the Class B-2L Notes are paid in full, 100%) of available Interest Proceeds will be applied sequentially to pay principal on the Notes according to the priorities described herein until the Class B-2L Overcollateralization Test is satisfied. In addition, Principal Proceeds will be applied sequentially to pay principal on the Notes, to the extent such amounts have not been paid from Interest Proceeds, as described further herein under "Description of the Notes—Priority of Payments."

The Class B-2L Notes may be retired early as a result of principal payments made to the Class B-2L Notes in connection with the Additional Collateral Deposit Requirement or upon the failure of the Class B-2L Overcollateralization Test.

As described herein, if the Issuer or the Servicer is unable to use (or commit) the full amount of the Deposit to purchase Original Portfolio Collateral having an Aggregate Principal Amount (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or

dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) at least equal to the Required Portfolio Collateral Amount and meeting the specified requirements no later than the Effective Date, an amount (not in excess of the amount of the Deposit not so used or committed for use) equal to the difference between the Required Portfolio Collateral Amount and the par amount of Portfolio Collateral actually acquired (or committed to be acquired) (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) shall be used to make principal payments of the Class A-1LA Notes on the Initial Deposit Redemption Date except, if the amount of the Deposit not so used (or committed to be used) does not exceed U.S.\$2,000,000 in the aggregate, such amount will be transferred to the Collection Account on the Effective Date.

11. Maturity Extension Risk. Under the Indenture, the Issuer, at the direction of the Servicer, shall be entitled on each Extension Effective Date, to extend the Revolving Period to the applicable Extended Revolving Period End Date up to a maximum of four times (so that the Notes can only be extended to 2040) if (i) in the case of an Extension Effective Date occurring after the first Extension Effective Date, the Issuer has previously affected a Maturity Extension for each preceding Extension Effective Date, (ii) the Extension Conditions are satisfied and (iii) the Issuer has given written notice of its election to extend the Revolving Period no later than 60 days and no earlier than 90 days prior to such Extension Effective Date. Under the Indenture, if the Revolving Period is so extended, the Final Maturity Date of the Notes will be equally extended and the Weighted Average Life Test shall be extended without the requirement for any approval or consent of any Holders of Notes or Preferred Shares; *provided* that if the Extension Conditions are not satisfied because the Holders of the Class A-1LA Notes have failed to deliver an Extension Sale Notice or have failed to provide their written consent to the related Maturity Extension, then the Servicer may extend the Extension Sale Notice Period by seven Business Days if the Servicer shall cause the Extension Conditions set forth in clause (iv) of such definition to be satisfied as of such later date. Holders of the Notes will not be able to prevent or prohibit the extension of the Final Maturity Date so long as the Extension Conditions are satisfied, which include the ability of Holders of such Notes to sell their Notes at the designated purchase price to a designated purchaser under the Indenture. In the case of the Preferred Shares and any Maturity Extension, Holders of Preferred Shares that have received an Internal Rate of Return equal to or in excess of 12.0% as of the Extension Effective Date will not receive any payment in exchange for their Preferred Shares sold in connection with a Maturity Extension. See "Description of the Notes—Extension of the Revolving Period and the Final Maturity Date." As a consequence, if the Servicer elects to extend the Revolving Period and the Extension Conditions are satisfied, the Holders of the Notes and the Preferred Shares may either be required to hold their Notes and Preferred Shares for a significantly longer period of time or be forced to sell their Notes and Preferred Shares for the applicable purchase price under the Indenture, resulting in a shorter holding period than expected at the time of investment in the Notes and Preferred Shares.

12. Amendment Buy-Out Risk. Any Non-Consenting Holder of Notes or Preferred Shares with respect to an amendment of the Indenture (which includes Holders that fail to respond to a consent solicitation within the applicable period) may be forced to sell their applicable Notes or Preferred Shares to the Amendment Buy-Out Purchaser at the Amendment Buy-Out Purchase Price, resulting in a shorter holding period than expected at the time of investment in the Notes or Preferred Shares; *provided* that during the Non-Call Period, "Non-Consenting Holder" shall exclude any Holder of Class A-1LA Notes (unless such Holder has consented in writing to be designated as a Non-Consenting Holder) and the Amendment Buy-Out Option shall not be applicable to such Class A-1LA Notes. In the case of the Preferred Shares, the Indenture provides that the Amendment Buy-Out Purchase Price will be zero for Non-Consenting Holders that have received an Internal Rate of Return equal to or in excess of 12.0% as of the Amendment Buy-Out Date. See "Legal Structure—The Indenture—Amendment Buy-Out." A Holder's ability to vote against an amendment or affect or influence the amendment process with respect to the Indenture will be limited by the possibility of an Amendment Buy-Out. The Amendment Buy-Out will also increase the ability of the Servicer to affect or influence the amendment process.

13. Inaction by Certain Noteholders may be Deemed Consent. With respect to any action that requires consent from 100% of the Noteholders, if any Noteholder has notified the Trustee in writing that pursuant to such Noteholder's organizational documents or other documents governing such Noteholder's actions, the Noteholder is not permitted to take any affirmative action approving, rejecting or otherwise acting upon any Issuer request under the Indenture, the failure by such Noteholder to consent to or reject any such requested action will be deemed a consent by such Noteholder to the requested action. See "Legal Structure—The Indenture—Acts of Noteholders"

herein. In addition, with respect to an Amendment Buy-Out Option, any Noteholder (other than the Holders of the Class A-1LA Notes) or Holders of the Preferred Shares who fails to respond to a consent solicitation with respect to a supplemental indenture, shall be deemed to have consented to any such supplemental indenture. See "Legal Structure—The Indenture—Amendment Buy-Out" herein.

14. Interest Rate Risk. The Notes generally will bear interest at a rate based on three-month LIBOR, as described herein. While most of the Portfolio Collateral will bear interest at floating rates, up to 5% of the Portfolio Collateral may bear interest at fixed rates. In order to reduce the effect of such mismatches, on the Closing Date the Issuer will enter into the Cap Agreement. Notwithstanding the foregoing, mismatches may still occur. In addition, no payments are required to be made to the Issuer under the Cap Agreement until the Payment Date occurring in February 2008 or after the Payment Date occurring in August 2009. Further, no payments are required to be made on a Payment Date by the Cap Provider unless LIBOR exceeds the Cap Strike Rate set forth in the Cap Agreement. Further, the obligors under the Portfolio Loans which are Floating Rate Collateral may choose different interest indices than the London interbank rate for three-month U.S. dollar deposits or the interest rates on the Floating Rate Collateral may be determined or adjustments may take effect on different dates than is the case for the Notes. Additionally, interest on the Notes is payable quarterly on each Payment Date while a portion of the Portfolio Collateral may provide for semiannual payments of interest. As a result, the Cap Agreement and the Floating Rate Collateral may be insufficient to compensate for changes in LIBOR. Any such mismatches may adversely affect the Issuer's ability to pay amounts due in respect of the Notes. To the extent described herein, the Issuer may enter into Cashflow Swap Agreements to reduce the effect of timing mismatches. However, there can be no assurance that the Issuer will enter into such Cashflow Swap Agreements or that, if entered into, such Cashflow Swap Agreements will significantly reduce the effect of such timing mismatches.

15. The Issuer. The Issuer is a recently formed entity and has no significant prior operating history. The Issuer has no significant assets other than the Trust Estate. The Issuer will not engage in any business activity other than the co-issuance of the Notes (other than the Class B-2L Notes) and the issuance of the Class B-2L Notes, the Combination Notes, the Preferred Shares and the ordinary shares as described herein, entering into the Hedge Agreements, the acquisition and disposition of Portfolio Collateral as described herein, certain activities conducted in connection with the payment of amounts in respect of the Notes, the Combination Notes and the Preferred Shares and the management of the collateral and other activities incidental to the foregoing. Income derived from the collateral will be the Issuer's principal source of cash. The Issuer is a limited liability company incorporated under the laws of the Cayman Islands. Because the Issuer is a Cayman Islands company and some of its directors reside in the Cayman Islands, it may not be possible for investors to effect service of process within the United States on such persons or to enforce against them or against the Issuer in United States courts judgments predicated upon the civil liability provisions of the United States securities laws. None of the directors, security holders, members, officers or incorporators of the Co-Issuers, the Servicer, any of their respective affiliates or any other person or entity (other than the Issuer) will be obligated to make payments on the Notes, the Combination Notes or the Preferred Shares.

16. The Co-Issuer. The Co-Issuer is a newly-formed entity and has no prior operating history. The Co-Issuer has no substantial assets. The Co-Issuer will not engage in any business activity other than the co-issuance of the Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class B-1L Notes and the Class B-2L Notes.

17. Fraudulent Conveyance Considerations. Various federal and state laws enacted for the protection of creditors may apply to the Portfolio Collateral by virtue of the Issuer's role as a creditor with respect to such Portfolio Collateral. If a court in a lawsuit brought by an unpaid creditor or representative of creditors of an obligor under an item of Portfolio Collateral, such as a trustee in bankruptcy or the obligor as debtor-in-possession, were to find that the obligor did not receive fair consideration or reasonably equivalent value for incurring indebtedness evidenced by an item of Portfolio Collateral and the grant of any security interest or other lien securing such Portfolio Collateral, and, after giving effect to the incurring of such indebtedness, the obligor (i) was insolvent, (ii) was engaged in a business for which the assets remaining in such obligor constituted unreasonably small capital, or (iii) intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature, such court could invalidate, in whole or in part, such indebtedness and such security interest or other lien as fraudulent conveyances, subordinate such indebtedness to existing or future creditors of the obligor or recover amounts previously paid by the obligor (including to the Issuer) in satisfaction of such indebtedness or proceeds of such security interest or other lien previously applied in satisfaction of such indebtedness. In addition, in the event of the

insolvency of an issuer or other obligor of an item of Portfolio Collateral, payments made on the Portfolio Collateral could be subject to avoidance as a "preference" if made within a certain period of time (which may be as long as one year) before insolvency depending on a number of factors, including the amount of equity of the obligor owned by the Issuer and its affiliates and any contractual arrangements between the obligor, on the one hand, and the Issuer and its affiliates, on the other hand. The measure of insolvency for purposes of the foregoing will vary depending on the law of the jurisdiction which is being applied. Generally, however, an obligor would be considered insolvent at a particular time if the sum of its debts was greater than all of its property at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities on its existing debts as they became absolute and matured. There can be no assurance as to what standard a court would apply in order to determine whether an obligor was insolvent after giving effect to the incurrence of the loan or that, regardless of the method of evaluation, a court would not determine that the obligor was "insolvent" upon giving effect to such incurrence.

In general, if payments on Portfolio Collateral are avoidable, whether as fraudulent conveyances or preferences, such payments can be recaptured either from the initial recipient (such as the Issuer) or from subsequent transferees of such payments, including Holders of the Notes.

18. Lender Liability Considerations. In recent years, a number of judicial decisions in the United States have upheld the right of borrowers to sue lending institutions on the basis of various evolving legal theories, including equitable subordination (collectively termed "**lender liability**"). Generally, lender liability is founded upon the premise that the institutional lender has violated a duty (whether implied or contractual) of good faith and fair dealing owed to the borrower or has assumed a degree of control over the borrower resulting in the creation of a fiduciary duty owed to the borrower. Although the Issuer is not engaged in the business of lending, the Issuer, as a creditor, may be subject to allegations of lender liability. Furthermore, the Issuer and the Servicer may be unable to control the conduct of the lenders under a loan syndication agreement requiring less than a unanimous vote, yet the Issuer may be subject to lender liability for such conduct.

19. Environmental Risks. Real property pledged as security with respect to an item of Portfolio Collateral may be subject to potential environmental risks. Of particular concern may be those mortgaged properties which are, or have been, the site of manufacturing, industrial or disposal activity. Such environmental risks may give rise to a diminution in the value of property securing any item of Portfolio Collateral or liability for cleanup costs or other remedial actions, which liability could exceed the value of such property or the principal balance of the related item of Portfolio Collateral. In certain circumstances, a lender may choose not to foreclose on contaminated property rather than risk incurring liability for remedial actions.

20. Potential Conflicts of Interest. It is expected that Highland Financial Partners, L.P. or an affiliate or subsidiary thereof ("**HFP**") will purchase approximately 13,450,000 of the Class I Preferred Shares and 44,000,000 of the Class II Preferred Shares of the Issuer on the Closing Date, representing approximately 67% of the total Preferred Shares outstanding (the "**Original HFP Share Amount**"). In addition, the Servicer, entities affiliated with the Servicer or clients of the Servicer (collectively, the "**Servicer Entities**") may also acquire Notes or Preferred Shares upon the occurrence of an Amendment Buy-Out, a Maturity Extension or an Optional Redemption by Refinancing as described herein. The interests of the Holders of the Preferred Shares that are Servicer Entities, or any other Notes owned by the Servicer Entities, may be different from or adverse to the interests of the Holders of the other Notes and Preferred Shares. As the result of the ownership of Preferred Shares and Notes by the Servicer Entities, and the ability to vote the Preferred Shares and the Notes owned by the Servicer Entities up to a maximum amount equal to the Original HFP Share Amount, the affirmative vote or approval of the Preferred Shares owned by such Servicer Entities, may be required in order to cause an Optional Redemption or a Tax Event Redemption of the Notes. Preferred Shares owned or controlled by the Servicer Entities above the Original HFP Share Amount will be excluded from voting on certain matters including any Optional Redemption.

In addition to the Base Servicing Fee, the Servicer is entitled to receive an Additional Servicing Fee and an Supplemental Servicing Fee (if any) after all other distributions (other than certain distributions with respect to the Preferred Shares and certain administrative expenses) are made, which is dependent in large part on the performance of the securities purchased by the Servicer on behalf of the Issuer. This could create an inducement for the Servicer to service the Issuer's assets in such a manner as to seek to maximize the return on such securities. This could result in increasing the volatility of the Portfolio Collateral and could contribute to a decline in the aggregate value of the

Portfolio Collateral. However, the Servicer's servicing of the Issuer's assets is restricted by the requirement that it comply with the restrictions described in "Security for the Notes" and by its internal policies with respect to the management of securities accounts.

Various potential and actual conflicts of interest may arise from the overall activity of the Servicer, its affiliates and their respective clients. The following briefly summarizes some of these conflicts, but is not intended to be an exhaustive list of all such conflicts.

Certain Holders of the Notes and certain Holders of the Preferred Shares may be clients of the Servicer or one of its affiliates. Certain clients of the Servicer and its affiliates may invest in securities that would be appropriate for inclusion in the Trust Estate. Further, the Servicer currently serves and may in the future serve as servicer, collateral manager or the equivalent for other issuers of collateralized debt obligations, including collateralized debt obligation vehicles having objectives similar to those of the Issuer. The Servicer and its affiliates may make asset management decisions for its clients and affiliates that may be different from those made by the Servicer on behalf of the Issuer. The Servicer and its affiliates may also have ongoing relationships with, and may own or invest assets of their clients in, equity securities issued by issuers of Portfolio Collateral. In addition, affiliates and clients of the Servicer may invest in securities that are senior to, or have interests different from or adverse to, the securities included in the Trust Estate. An affiliate of the Servicer may earn fees with respect to financial advisory services rendered to companies in connection with workouts or the subsequent restructuring of such companies. Such fees and advice may continue for a period of time after any such workout or restructure. The Issuer may own an interest in the securities of such companies.

The Amendment Buy-Out will increase the ability of the Servicer to affect or influence the amendment process under the Indenture and will limit any Holder's ability to vote against an amendment or affect or influence the amendment process with respect to the Indenture.

If the Servicer elects to extend the Revolving Period and the Extension Conditions are satisfied, the Holders of the Notes and the Preferred Shares may either be required to hold their Notes and Preferred Shares for a significantly longer period of time or be forced to sell their Notes and Preferred Shares for the applicable purchase price under the Indenture, resulting in a shorter holding period than expected at the time of investment in the Notes and Preferred Shares.

In addition, at any time after the Non-Call Period, the Holders of a Majority of the Preferred Shares may consent to or request an Optional Redemption by Refinancing. As a result of the foregoing, and so long as they hold a controlling block of Preferred Shares, the vote of HFP and/or its applicable subsidiaries will be required for such Optional Redemption. If the Holders of the Class I Preferred Shares seek an Optional Redemption by Refinancing, the Holders of the Class II Preferred Shares could prevent their ability to achieve this.

In addition to acting as Servicer to the Issuer, Highland Capital Management L.P. will act as manager for HFP, which will, on the Closing Date, purchase all of the Class II Preferred Shares and 32% of the Class I Preferred Shares. Because Highland Capital Management will receive both a servicing fee from the Issuer for servicing the Portfolio Collateral and a management fee from HFP for managing HFP's assets, which will include the Preferred Shares (and therefore a residual interest in the Portfolio Collateral), Highland Capital Management has agreed, in connection with the capital raising of HFP, to waive a portion of its servicing fees from the Issuer until February 3, 2008 so as not to reduce the return on investment realized by HFP in respect of the Class II Preferred Shares. Thereafter Highland Capital Management may at its discretion continue to waive such portion of its servicing fees or may elect to receive such servicing fees in their entirety. Accordingly, during the period from the Closing Date until February 3, 2008, a portion (representing the percentage ownership of the Preferred Shares represented by the Class II Preferred Shares, which will initially be owned entirely by HFP) of the amounts that would otherwise be payable to the Servicer as a servicing fee will instead be payable on the Class II Preferred Shares as the Class II Preferred Share Dividends in accordance with the Priority of Payments. Thereafter, the Servicer may elect to continue to waive such same portion of the amounts that would otherwise be payable to the Servicer as a servicing fee, or any lesser portion of such amounts, and have such amounts be paid instead as the Class II Preferred Share Dividends. The Class II Preferred Shares and the Class I Preferred Shares will vote together as a single class and the existence of the Class II Preferred Share Dividends may cause HFP to have interests different from the holders of the Class I Preferred Shares.

The Trustee and its affiliates may invest in the loans or securities that would be appropriate for inclusion in the Trust Estate and the Trustee has no duty, in making those investments, to act in a way that is favorable to the Issuer or the Holders of the Notes or the Preferred Shares. The Trustee's affiliates may currently, or in the future, serve as collateral manager or the equivalent for other issuers of collateralized loan obligations.

It is expected that the Issuer will acquire all of the Initial Portfolio Collateral to be acquired on the Closing Date from Bear Stearns or other sources in each case, at prices agreed upon by the Issuer with the advice of the Servicer. Certain of such securities will be securities of issuers for which Bear Stearns has acted as underwriter, agent, placement agent or principal or of which Bear Stearns is an equity owner or which the Servicer or an affiliate of the Servicer has acted as manager, principal or counterparty. The price to be paid by the Issuer for such securities may be higher or lower, based on market conditions at the time of purchase from such sellers, than the prices the Issuer would have paid had such securities all been purchased from such sellers on the date such securities were sold to the Issuer. After the Closing Date, the Issuer with the advice of the Servicer may acquire from or through Bear Stearns or other sources Portfolio Collateral at current market prices which will be negotiated by or on behalf of the Issuer at such time. In addition, from time to time the Servicer may sell Portfolio Collateral through Bear Stearns. Bear Stearns will also receive compensation for the sale of the Notes and the Preferred Shares. See "Use of Proceeds" and "Plan of Distribution" herein. Bear Stearns has also entered into certain indemnification agreements with the Servicer relating to, among other things, the acquisition of the Initial Portfolio Collateral. An affiliate of Bear Stearns may be a Synthetic Security Counterparty and/or a Default Swap Counterparty. In addition, it is expected that an affiliate of Bear Stearns will purchase certain of the Notes from Cantor Fitzgerald & Co. on the Closing Date.

21. Servicer Affiliates Reliance on Rule 3a-7; Potential Indenture Amendments. HFP, an affiliate of the Servicer will, on the Closing Date, purchase all of the Class II Preferred Shares and 32% of the Class I Preferred Shares. The Servicer will act as the manager for HFP. HFP and Highland Financial Trust, the owner of substantially all of the limited partnership interests of HFP, are relying on an exception from the definition of investment company and the requirement to register under the Investment Company Act that in turn depends, in part, upon the Issuer not being an investment company required to register under the Investment Company Act by reason of Rule 3a-7 thereunder. It is expected that, in connection with certain capital raising activities of Highland Financial Trust, the SEC may consider the applicability of Rule 3a-7 to the Issuer. If it were determined that the Issuer cannot rely on Rule 3a-7, the Servicer may cause the Issuer to amend the Indenture without the consent of the Holders of the Notes and without the consent of the Holders of the Preferred Shares to enable the Issuer to rely on Rule 3a-7, which could require additional limitations and prohibitions on the circumstances under which the Issuer may sell assets, on the type of assets that the Issuer may acquire out of the proceeds of assets that mature, are refinanced or otherwise sold, on the period during which such transactions may occur, on the level of transactions that may occur or on other provisions of the Indenture and could adversely affect the earnings of the Issuer and its ability to make payments on the Notes and distributions to the Preferred Shares. As a condition to the effectiveness of any such amendment to the Indenture, the Issuer, the Trustee and the Initial Purchasers will (i) satisfy the Rating Condition with respect to such amendment and (ii) receive a customary, unqualified opinion of counsel from a nationally recognized law firm providing that, after giving effect to such amendment and assuming compliance with the Indenture as so amended, the Issuer is exempt from registration as an "investment company" under the Investment Company Act. Such nationally recognized law firm may also be acting as counsel to the Servicer, certain Holders of Notes and/or Preferred Shares. The interests of any such parties may not coincide with the interest of other Holders of Notes and/or Preferred Shares. See "Legal Structure—The Indenture—Modification of Indenture."

22. Dependence on Key Personnel of the Servicer. The performance of the Portfolio Collateral will be highly dependent on the financial and managerial expertise of the Servicer. See "The Servicer" and "The Servicing Agreement." The loss of one or more of the individuals servicing the Portfolio Collateral could have a significant material adverse effect on the performance of the Portfolio Collateral. Although the Servicer will commit a significant amount of its efforts to the servicing of the Portfolio Collateral, it manages and will manage in the future other products and vehicles and is not required (and will not be able) to devote all of its time to the servicing of the Portfolio Collateral.

23. Ratings of the Notes. The ratings of the Notes by S&P address solely the likelihood of timely payment of the Periodic Interest Amount on and the ultimate payment of the Aggregate Principal Amount of each Class of Senior Class A Notes, the ultimate payment of the Cumulative Interest Amount and the Aggregate Principal Amount

of the Class A-3L Notes, the Class B-1L Notes and the Class B-2L Notes. The ratings of the Notes by Moody's address the ultimate cash receipt of all required payments as provided by the governing documents, and are based on the expected loss to the Noteholders of each Class relative to the promise of receiving the present value of such payments. A rating is not a recommendation to purchase, hold or sell securities, in as much as such rating does not comment as to market price or suitability for a particular investor and may be subject to revision or withdrawal at any time by the assigning rating organization.

24. Certain Tax Considerations. Investors in the Notes should review carefully the tax considerations set forth in "Certain Tax Considerations" herein. By its acceptance of a Note, each Holder of a Note and beneficial owner thereof that is a Non-U.S. Holder thereof shall be deemed have represented that it is not purchasing its Notes in order to reduce its United States federal income tax liability pursuant to a tax avoidance plan within the meaning of Treasury Regulation Section 1.881-3(b), and each Holder of a Note and beneficial owner thereof shall be deemed to have agreed (a) to treat the Notes as indebtedness of the Issuer, treat the Preferred Shares as equity of the Issuer and take no action inconsistent with such treatment; (b) to timely furnish the Issuer or its agents any United States federal income tax form or certification (such as IRS Form W-8BEN, Form W-8IMY, Form W-8ECI or Form W-9 or any successors to such forms) that the Issuer or its agents may reasonably request and to update or replace such form or certification in accordance with its terms or its subsequent amendments; (c) to provide the Issuer, upon request, with such information as may reasonably be requested by the Issuer (including but not limited to information relating to the beneficial owner of the Note) in connection with the Issuer's fulfillment of its tax reporting, notification, withholding and similar obligations arising under the Code (as amended from time to time) or the Transaction Documents; and (d) not to treat the Issuer as being engaged in the active conduct of a banking, financing, insurance, or other similar business for purposes of Section 954(h)(2) of the Code.

25. Certain ERISA Considerations. Investors in the Notes should review carefully the ERISA considerations set forth in "Certain ERISA Considerations" herein.

26. Legislation and Regulations In Connection With the Prevention of Money Laundering. The Uniting and Strengthening America By Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "**USA PATRIOT Act**"), signed into law on and effective as of October 26, 2001, imposes anti-money laundering obligations on different types of financial institutions, including banks, broker-dealers and investment companies. The USA PATRIOT Act requires the Secretary of the United States Department of the Treasury (the "**Treasury**") to prescribe regulations to define the types of investment companies subject to the USA PATRIOT Act and the related anti-money laundering obligations. It is not clear whether Treasury will require entities such as the Issuer to enact anti-money laundering policies. It is possible that Treasury will promulgate regulations requiring the Co-Issuers or the Initial Purchasers or other service providers to the Co-Issuers, in connection with the establishment of anti-money laundering procedures, to share information with governmental authorities with respect to investors in the Notes and/or the Preferred Shares. Such legislation and/or regulations could require the Co-Issuers to implement additional restrictions on the transfer of the Notes and/or the Preferred Shares. As may be required, the Issuer reserves the right to request such information and take such actions as are necessary to enable it to comply with the USA PATRIOT Act.

27. Emerging Requirements of the European Union. As part of the harmonization of transparency requirements, the European Commission is scheduled to adopt a directive known as the Transparency Obligations Directive that, among other things, will regulate issuers of securities that are offered to the public or admitted to trading on a European Union regulated market. The listing of Notes on any European Union stock exchange would subject the Issuer to regulation under this directive, although the requirements applicable to the Issuer are not yet fully clarified. The Indenture will not require the Issuer to apply for, list or maintain a listing for any Class of Notes on a European Union stock exchange if compliance with this directive (or other requirements adopted by the European Commission or a relevant member state) becomes burdensome in the sole judgment of the Servicer. Should the Notes be delisted from any exchange, the ability of the Holders of such Notes to sell such Notes in the secondary market may be negatively affected.

In addition to the Class II Preferred Share Dividends payable on the Class II Preferred Shares, regular dividends will be payable on the Class II Preferred Shares and the Class I Preferred Shares on each Payment Date in the amounts and in the priority described under the Priority of Payments; *provided* that, if and to the extent sufficient funds to pay such regular dividends in accordance with the Priority of Payments and Cayman Islands law are not available on any Payment Date, such unpaid regular dividends will cease to be payable on such Payment Date or any other date. The Combination Notes will consist of two components: (i) the Note Component having an aggregate initial principal amount of U.S.\$6,750,000 Class B-1L Notes and (ii) the Preferred Share Component representing 3,250,000 Class I Preferred Shares. The Combination Notes represent an ownership interest in such Class B-1L Notes and such Class I Preferred Shares and do not represent an additional obligation of the Issuer. The Combination Notes are a stapled security and comprise two components which are not transferable; however, a holder may exchange its Combination Notes for the corresponding interests in the component securities. For all purposes under the Indenture and the Paying and Transfer Agency Agreement, the holders of the Combination Notes are holders of the Class B-1L Notes and Class I Preferred Shares. The Combination Notes are not offered hereby.

### **DESCRIPTION OF THE NOTES**

Certain definitions used herein are set forth in the Glossary of Certain Defined Terms (the "**Glossary**") set forth as Annex A hereto.

#### General

The Notes will be issued on the Closing Date pursuant to an indenture (the "**Indenture**"), to be dated as of the Closing Date, among the Co-Issuers and Investors Bank & Trust Company, as trustee (the "**Trustee**") and as securities intermediary. The following summaries generally describe certain provisions of the Notes and the Indenture. The summaries do not purport to be complete and are subject to, and are qualified in their entirety by reference to, the provisions of the Notes and the Indenture. When particular provisions or terms used in the Notes and the Indenture are referred to, the actual provisions (including definitions of terms) are incorporated by reference. Copies of the Indenture may be obtained by Holders of the Notes upon request to the Issuer or the Initial Purchasers.

The Indenture limits the amount of Notes that can be issued thereunder to the Class A-1LA Notes, the Class A-1LB Notes, the Class A-2L Notes, the Class A-3L Notes, the Class B-1L Notes and the Class B-2L Notes in the aggregate principal amounts and notional principal amounts, as applicable, set forth on the cover hereof. Subject to the foregoing, the Notes will be issued in minimum denominations of U.S.\$ 200,000 and integral multiples of U.S.\$1 in excess of such minimum denomination.

**The Notes, with the exception of the Class B-2L Notes, will be non-recourse obligations of the Co-Issuers, the Class B-2L Notes will be non-recourse obligations of the Issuer, and all amounts payable in respect of the Notes will be paid solely from and to the extent of the available proceeds from the Trust Estate. To the extent the assets of the Trust Estate are insufficient to pay all amounts due on the Notes on each Payment Date, on the Final Maturity Date or otherwise, the Co-Issuers shall have no further obligations in respect of the Notes and any sums outstanding and unpaid shall be extinguished.**

The Record Date for each Payment Date (including the Final Maturity Date) is the Business Day immediately preceding such Payment Date; *provided, however*, if Definitive Notes are issued, the Record Date for such Definitive Notes shall be the fifteenth calendar day preceding such Payment Date. Payments of interest and principal or any other amount payable on or in respect of the Notes will be made on each Payment Date by wire transfer to registered Holders of the Notes on the Record Date applicable to such Payment Date to accounts maintained by such registered Holders as reflected in the Note Register. In the case of redemption, notice will be mailed to each Holder of record no later than twenty days before the Payment Date on which the final principal payment is expected to be made to such Holder.

Under the terms of the Indenture, the Trustee will act as a paying agent (together with any other paying agent appointed by the Co-Issuers from time to time, the "**Paying Agents**"). Investors Bank & Trust Company will act as the paying and transfer agent for the Preferred Shares (the "**Paying and Transfer Agent**"). The Issuer will appoint an off-shore Paying and Transfer Agent (other than in the Cayman Islands) (in addition to and not in lieu of Investors Bank & Trust Company) if requested by at least 33-2/3% of the Preferred Shares, with the cost of any such agent to be borne by the Issuer. There can be no assurance that any investor requesting payment from an off-shore paying agent will receive payments on the same day that they would have received such payments had the payments been made by Investors Bank & Trust Company. Payments of principal of and interest on and other amounts in respect of the Notes will be made by the Trustee to the Paying Agents from funds available in the Collection Account established under the Indenture as described herein.

All distributions in respect of the Portfolio Collateral will be deposited directly into the Collection Account and will be available to the extent described herein for the payment of amounts payable in respect of the Notes and, under the circumstances set forth herein and in the Indenture, for the applications described herein.

The Notes are subject to restrictions on transfer. See "—Form, Transfer and Transfer Restrictions." Subject to such restrictions, the Notes may be transferred or exchanged at the office designated by the Trustee for such purposes without the payment of any service charge, other than tax or other governmental charges payable in connection therewith.

#### Payments on the Notes; Priority of Distributions

General. The Class A-1L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class A-1L Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 0.25% with respect to the Class A-1LA Notes and 0.55% with respect to the Class A-1LB Notes, *per annum* above the London interbank offered rate for three-month U.S. dollar deposits (or, for the period from the Closing Date to the first Payment Date, as described herein) ("**LIBOR**") (determined as described herein) (the "**Applicable Periodic Rate**" with respect to the Class A-1LA Notes and the Class A-1LB Notes, as applicable) on the first day of February, May, August and November of each year, or, if any such day is not a Business Day, then on the next succeeding Business Day (each such date, a "**Payment Date**"), commencing on the November 2007 Payment Date. Payments of interest on the Class A-1L Notes will be payable *pari passu* among the Class A-1L Notes as described herein. "**Periodic Interest Accrual Period**" is the period from the Closing Date through the day preceding the subsequent Payment Date and during each period thereafter from each Payment Date through the day preceding the subsequent Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class A-3L Notes as a result of insufficient funds being available therefore will constitute an Event of Default. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class A-1L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of an Initial Deposit Redemption, an Optional Redemption, a Special Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-1L Notes as described herein. On each Payment Date with respect to the Amortization Period, the principal of the Class A-1L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) first to the Class A-1LA Notes and then to the Class A-1LB Notes until the Aggregate Principal Amount of the Class A-1L Notes has been paid in full. The Class A-1LB Notes are subordinated in right of payment to the Class A-1LA Notes to the extent described herein. All outstanding principal of the Class A-1L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date.

No interest will be payable in respect of the Class A-2L Notes on any Payment Date unless the Holders of the Class A-1L Notes have been paid the Cumulative Interest Amount due to them on such Payment Date and, in the case of the Final Maturity Date, until the Aggregate Principal Amount of the Class A-1L Notes has been paid in full.

The Class A-2L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class A-2L Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 0.70% *per annum* above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class A-2L Notes) on each Payment Date commencing on the November 2007 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class A-2L Notes as a result of insufficient funds being available therefore will constitute an Event of Default. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class A-2L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-2L Notes. In connection with a Special Redemption, a Tax Event Redemption, an Optional Redemption or a Mandatory Redemption, no principal in respect of the Class A-2L Notes will be payable until the Aggregate Principal Amount of the Class A-1L Notes has been paid in full. On each Payment Date with respect to the Amortization Period after the Class A-1L Notes have been paid in full, principal of the Class A-2L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) until the Aggregate Principal Amount of the Class A-2L Notes has been paid in full. All outstanding principal of the Class A-2L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class A-2L Notes are subordinated in right of payment to the Class A-1L Notes to the extent described herein.

No interest will be payable in respect of the Class A-3L Notes on any Payment Date unless the Holders of the Senior Class A Notes have been paid the Cumulative Interest Amount due to them on such Payment Date and, in the case of the Final Maturity Date, until the Aggregate Principal Amount of the Senior Class A Notes has been paid in full.

The Class A-3L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class A-3L Notes) (to the extent of funds available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 1.00% *per annum* above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class A-3L Notes) on each Payment Date commencing on the November 2007 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent

Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class A-3L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Senior Class A Notes are Outstanding. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class A-3L Notes (and principal collections on the Portfolio Collateral will be applied as described herein) during the Revolving Period, except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class A-3L Notes. On each Payment Date with respect to the Amortization Period after the Class A-1L Notes, Class A-2L Notes have been paid in full, principal of the Class A-3L Notes will be payable (to the extent of funds available therefor and in the order of priority described herein) until the Payment Date on which the Aggregate Principal Amount of the Class A-3L Notes has been paid in full. In connection with a Special Redemption, a Tax Event Redemption, an Optional Redemption or a Mandatory Redemption, no principal in respect of the Class A-3L Notes will be payable until the Aggregate Principal Amount of the Class A-1L Notes and the Class A-2L Notes have been paid in full. All outstanding principal of the Class A-3L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class A-3L Notes are subordinated in right of payment to the Senior Class A Notes to the extent described herein.

No interest will be payable in respect of the Class B-1L Notes on any Payment Date unless the Holders of the Class A-1L Notes, the Class A-2L Notes and the Class A-3L Notes have been paid the Cumulative Interest Amount due to them on such Payment Date, the Overcollateralization Tests with respect to the Class A Notes and the Interest Coverage Test have been satisfied, and, on the Final Maturity Date, unless the Aggregate Principal Amount of the Class A Notes has been paid in full.

The Class B-1L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class B-1L Notes) (to the extent funds are available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 2.25% *per annum* above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class B-1L Notes) on each Payment Date commencing on the November 2007 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon, at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, together with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class B-1L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Class A Notes are Outstanding. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class B-1L Notes until the Aggregate Principal Amount of the Class A Notes have been paid in full. Principal payments are not expected to begin until the commencement of the Amortization Period (except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class B-1L Notes) and are to continue until the Payment Date on which the Aggregate Principal Amount of the Class B-1L Notes has been paid in full. In connection with a Special Redemption, a Tax Event Redemption, an Optional Redemption or a Mandatory Redemption, no principal in respect of the Class B-1L Notes will be payable until the Aggregate Principal Amount of the Class A Notes has been paid in full. All outstanding principal of the Class B-1L Notes, together with the other amounts described herein, will be due and payable on the Final Maturity Date. The Class B-1L Notes are subordinated in right of payment to the Class A Notes to the extent described herein.

The Class B-2L Notes will provide for the payment of periodic interest on the Aggregate Principal Amount thereof ("**Periodic Interest**" and, the amount of such periodic interest, the "**Periodic Interest Amount**" with respect to the Class B-2L Notes) (to the extent funds are available therefor as described herein) for each Periodic Interest Accrual Period at the rate of 4.25% per annum above LIBOR (the "**Applicable Periodic Rate**" with respect to the Class B-2L Notes) on each Payment Date commencing on the November 2007 Payment Date. To the extent Periodic Interest accrued at the Applicable Periodic Rate with respect to any Periodic Interest Accrual Period is not paid on the related Payment Date, the amount of such interest shortfall will accrue interest at the Applicable Periodic Rate and will be paid (to the extent funds are available therefor as described herein) on one or more subsequent Payment Dates after payment of interest at the Applicable Periodic Rate with respect to the Periodic Interest Accrual Period relating to such subsequent Payment Date (the amount of such shortfall, together with interest thereon, at the Applicable Periodic Rate, the "**Periodic Rate Shortfall Amount**" and, together with the Periodic Interest Amount for such subsequent Payment Date, the "**Cumulative Interest Amount**" with respect to such Payment Date). The failure to pay in full Periodic Interest on the Class B-2L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Class A Notes and Class B-1L Notes are Outstanding. Interest will be calculated on the basis of a year of 360 days and the actual number of days elapsed.

No principal will be payable in respect of the Class B-2L Notes until the Aggregate Principal Amount of the Class A Notes and Class B-1L Notes have been paid in full, except with respect to the Additional Collateral Deposit Requirement or upon the failure of the Class B-2L Overcollateralization Test. Principal payments are not expected to begin until the commencement of the Amortization Period (except in the event of a Special Redemption, an Optional Redemption, a Tax Event Redemption or a Mandatory Redemption of the Class B-2L Notes or in connection with the Additional Collateral Deposit Requirement) and are to continue until the Payment Date on which the Aggregate Principal Amount of the Class B-2L Notes has been paid in full. The Class B-2L Notes are subordinated in right of payment to the Class A Notes and the Class B-1L Notes to the extent described herein.

To the extent assets of the Trust Estate are insufficient to pay all amounts due on the Notes, the Co-Issuers shall have no further obligations in respect of the Notes.

The Co-Issuers will not be required to pay additional amounts to Holders of any Class of Notes if taxes or related amounts are withheld from payments on the Notes or any payments on any item of Portfolio Collateral or other assets of the Co-Issuers. However, such withholding tax on payments on items of Portfolio Collateral could result in the Notes being redeemed by the Issuer. See "—Tax Event Redemption."

#### Determination of LIBOR

For purposes of calculating the Applicable Periodic Rate, the Issuer initially will appoint Investors Bank & Trust Company, as agent with respect to the determination of LIBOR (in such capacity, the "**Calculation Agent**"). LIBOR will be determined by the Calculation Agent in accordance with the following provisions:

On the second London Business Day prior to the commencement of a Periodic Interest Accrual Period (each such day, a "**LIBOR Determination Date**"), LIBOR shall equal the rate, as obtained by the Calculation Agent, for three-month U.S. dollar deposits which appears on Telerate Page 3750 (as defined in the 2000 ISDA Definitions and as reported by Bloomberg Financial Markets Commodities News) or such other page as may replace such Page 3750, as of 11:00 a.m. (London time) on such LIBOR Determination

Date. Notwithstanding the foregoing, LIBOR for the initial Periodic Interest Accrual Period will be determined through the use of straight-line interpolation by reference to two rates calculated in accordance with the provisions above, one of which shall be for five-month U.S. dollar deposits and the other of which shall be for six-month U.S. dollar deposits.

If, on any LIBOR Determination Date, such rate does not appear on Telerate Page 3750 or such other page as may replace such Page 3750, the Calculation Agent shall determine the arithmetic mean of the offered quotations of the Reference Banks to leading banks in the London interbank market for three-month (or five-month and six-month, as applicable) U.S. dollar deposits in an amount determined by the Calculation Agent by reference to requests for quotations as of approximately 11:00 a.m. (London time) on the LIBOR Determination Date made by the Calculation Agent to the Reference Banks. If, on any LIBOR Determination Date, at least two of the Reference Banks provide such quotations, LIBOR shall equal such arithmetic mean of such quotations. If, on any LIBOR Determination Date, only one or none of the Reference Banks provide such quotations, LIBOR shall be deemed to be the arithmetic mean of the offered quotations that one or more leading banks in The City of New York selected by the Calculation Agent (after consultation with the Servicer) are quoting on the relevant LIBOR Determination Date for three-month (or five-month and six-month, as applicable) U.S. dollar deposits in an amount determined by the Calculation Agent that is representative of a single transaction in such market at such time by reference to the principal London offices of leading banks in the London interbank market; *provided* that, if the Calculation Agent is required but is unable to determine a rate in accordance with at least one of the procedures provided above, LIBOR shall be LIBOR as determined on the previous LIBOR Determination Date. As used herein, "**Reference Banks**" means four major banks in the London interbank market selected by the Calculation Agent (after consultation with the Servicer).

As soon as possible after 11:00 a.m. (New York time) on each LIBOR Determination Date, but in no event later than 11:00 a.m. (New York time) on the Business Day immediately following each LIBOR Determination Date, the Calculation Agent will notify the Issuer, the Trustee, the Servicer and (for so long as any Class of Notes is listed on the Irish Stock Exchange) the Irish Stock Exchange, of LIBOR for the next Periodic Interest Accrual Period. The Calculation Agent will also specify to the Issuer the quotations upon which LIBOR is based, and in any event the Calculation Agent shall notify the Issuer before 5:00 p.m. (New York time) on each LIBOR Determination Date that either: (i) it has determined or is in the process of determining LIBOR or (ii) it has not determined and is not in the process of determining LIBOR together with its reasons therefor.

Upon receipt of notice of LIBOR for each Periodic Interest Accrual Period from the Calculation Agent as described in the preceding paragraph, the Trustee will determine the Applicable Periodic Rate for each Class of Notes for such Periodic Interest Accrual Period and notify the Irish Stock Exchange of the Applicable Periodic Rate for each Class of Notes (for so long as any Class of Notes is listed on the Irish Stock Exchange). The determination of LIBOR by the Calculation Agent and the Applicable Periodic Rate by the Trustee (in the absence of manifest error) will be final and binding upon all parties.

The Calculation Agent may be removed by the Issuer at any time. If the Calculation Agent is unable or unwilling to act as such or is removed by the Issuer, or if the Calculation Agent fails to determine LIBOR for a Periodic Interest Accrual Period, the Issuer will promptly appoint as a replacement Calculation Agent a leading bank which is engaged in transactions in U.S. dollar deposits in the international U.S. dollar market and which does not control or is not controlled by or under common control with the Issuer or its affiliates. The Calculation Agent may not resign or be removed from its duties without a successor having been duly appointed.

#### Adjusted Collateral Collections

On each Payment Date, in accordance with the Note Valuation Report for the Calculation Date immediately preceding such Payment Date, Collateral Interest Collections, to the extent of Available Funds in the Collection Account (excluding from such Available Funds, with respect to the purchase of Additional Portfolio Collateral as described in the Indenture, certain Collateral Principal Collections with respect to which the Issuer has entered into a commitment to purchase Portfolio Collateral prior to the end of such Due Period), and a portion of the proceeds from the sale of the Notes in an amount equal to U.S.\$1,500,000 (the "**Reserve Amount**") *plus* any amounts received from any Hedge Counterparty will be, will be applied by the Trustee to pay each of the following in the order of priority set forth below:

The amount and frequency of principal and interest payments will depend on, among other things, the extent to which the Portfolio Collateral pledged to secure the Notes become items of Defaulted Portfolio Collateral, are subject to early payment provisions or are retired prior to the Final Maturity Date through mandatory or optional redemption, sale, maturity or other liquidation or disposition and the extent to which Additional Portfolio Collateral meeting the requirements specified herein are available for purchase in circumstances in which Available Funds are to be used for the purchase of Additional Portfolio Collateral or in circumstances in which the Issuer may dispose of Portfolio Collateral and apply the proceeds thereof to the purchase of Substitute Portfolio Collateral as described herein as well as other factors, including the interest rates obtained in connection with the purchase of any such item of Portfolio Collateral or any Eligible Investment in which funds held in the accounts described herein may be maintained.

Notwithstanding anything contained herein to the contrary, with respect to Adjusted Collateral Collections held in the Collection Account in Eligible Investments pending application to purchase Portfolio Collateral, any such amounts not used to purchase Portfolio Collateral by the last day of the Due Period next succeeding the Due Period in which such amounts were collected may be used to purchase Portfolio Collateral in subsequent Due Periods in accordance with "Security for the Notes."

In addition, notwithstanding anything to the contrary, upon the direction of the Issuer (as directed by and in the time and manner directed by the Servicer), Payment Date Equity Securities may be distributed on any Payment Date in lieu of cash as follows:

(i) Payment Date Equity Securities will be paid as Collateral Interest Collections in accordance with the Priority of Payments with respect to the Preferred Shares, and upon such payment, the aggregate amount of Collateral Interest Collections distributable to the Holders of the Preferred Shares on such Payment Date will be reduced by the value of such Payment Date Equity Securities. Payment Date Equity Securities distributed on any Payment Date shall be distributed to the Holders of the Preferred Shares in the same manner as Collateral Interest Collections would be distributable to such Holders of Preferred Shares on such Payment Date and subject to the same restriction as to payment set out in the Paying and Transfer Agency Agreement; and

(ii) in calculating the amounts of Collateral Interest Collections and Collateral Principal Collections for such Payment Date, Collateral Interest Collections in an amount equal to the value of Payment Date Equity Securities distributed to the Holders of the Preferred Shares shall be recharacterized as Collateral Principal Collections and distributed in accordance with the Priority of Payments herein.

#### Overcollateralization Tests

The "**Overcollateralization Tests**" are applicable until the Notes are retired and all amounts payable in respect thereof are paid, and are satisfied if the Class A Overcollateralization Ratio is at least equal to the Class A Overcollateralization Percentage (the "**Class A Overcollateralization Test**"), the Class B-1L Overcollateralization Ratio is at least equal to the Class B-1L Overcollateralization Percentage (the "**Class B-1L Overcollateralization Test**") and the Class B-2L Overcollateralization Ratio is at least equal to the Class B-2L Overcollateralization Percentage (the "**Class B-2L Overcollateralization Test**").

The "**Class A Overcollateralization Percentage**" is 107.0%, the "**Class B-1L Overcollateralization Percentage**" is 106.0% and the "**Class B-2L Overcollateralization Percentage**" is 103.63%.

The "**Class A Overcollateralization Ratio**" means, with respect to a determination made as of any date of calculation, the ratio (expressed as a percentage) obtained by *dividing* (a) the sum of (1) the Aggregate Principal Amount of the Portfolio Collateral in the Trust Estate as of such date, calculated in accordance with the Overcollateralization Ratio Adjustment *plus* (2) the sum of the Balance of Eligible Investments and cash in the Collection Account representing Collateral Principal Collections *plus* the Balance of Eligible Investments and cash in the Initial Deposit Account *plus* unpaid Purchased Accrued Interest, each as of such date, by (b) the sum of the Aggregate Principal Amount of the Class A Notes (including for this purpose any Periodic Rate Shortfall Amounts with respect to such Classes of Notes not paid when due, until such amounts, if any, are paid in full) as of such date.

The "**Class B-1L Overcollateralization Ratio**" is calculated in the same manner as the Class A Overcollateralization Ratio, but includes in the denominator the Class B-1L Notes (including, in each case any Periodic Rate Shortfall Amounts with respect to such Classes of Notes not paid when due, until any such amounts are paid in full).

The "**Class B-2L Overcollateralization Ratio**" is calculated in the same manner as the Class B-1L Overcollateralization Ratio, but reduces the numerator by the Overcollateralization Haircut Amount and includes in the denominator the Class B-2L Notes (including, in each case any Periodic Rate Shortfall Amounts with respect to such Classes of Notes not paid when due, until any such amounts are paid in full).

With respect to an item of Portfolio Collateral that it is both eligible to be included in the Overcollateralization Haircut Amount and is subject to an Overcollateralization Ratio Adjustment, for purposes of calculating the Class B-2L Overcollateralization Ratio, such item of Portfolio Collateral will not be discounted multiple times, but will be treated in the category that results in the largest discount to the par amount of such item of Portfolio Collateral.

The "**Overcollateralization Ratio Adjustment**" means, for purposes of calculating the Overcollateralization Ratios (i) items of Equity Portfolio Collateral shall not be included as Portfolio Collateral, (ii) items of Deferred Interest PIK Bonds and Defaulted Portfolio Collateral shall be included at the lesser of (a) the Market Value of such Deferred Interest PIK Bond and item of Defaulted Portfolio Collateral and (b) the Applicable Percentage for such Deferred Interest PIK Bond and item of Defaulted Portfolio Collateral *multiplied* by its Principal Balance; *provided* that any Portfolio Loan that has been an item of Defaulted Portfolio Collateral for four years shall not be included as Portfolio Collateral and any CLO Security that has been an item of Defaulted Portfolio Collateral for three years shall not be included as Portfolio Collateral, (iii) with respect to items of Discount Portfolio Collateral, an amount equal to the original purchase price of such item of Discount Portfolio Collateral shall be included as Portfolio Collateral, (iv) to the extent the Aggregate Principal Amount of Current Pay Obligations exceeds 7.5% of the Aggregate Par Amount, such excess shall be included as Defaulted Portfolio Collateral and (v) items of Portfolio Collateral characterized as Current Pay Obligations in clause (iii)(c) of the Current Pay Obligation definition shall be included at 95% of the Market Value of such item of Portfolio Collateral.

If an item of Portfolio Collateral could be classified in more than one of the categories set forth in clauses (i) through (iv), such item of Portfolio Collateral will not be discounted multiple times but will be treated in the applicable category that results in the largest discount to the par amount of such item of Portfolio Collateral. Notwithstanding the foregoing, there may be included as Portfolio Collateral (with respect to items (i) through (iv) above) such greater amount as confirmed by the Rating Agencies which will not result in a reduction or withdrawal of the then-current ratings assigned by them to any Class of the Notes.

#### Applicability of Overcollateralization Tests

At any time that the Notes are Outstanding, if any Overcollateralization Test (other than the Class B-2L Overcollateralization Test) is not satisfied on any Calculation Date related to a Payment Date, amounts that are junior in right of payment to such Overcollateralization Test as described under "—Payments on the Notes; Priority of Distributions," will be applied to the payment of principal of the Class A Notes and the Class B-1L Notes (or, in the case of the Class B-1L Notes, first to pay Periodic Rate Shortfall Amounts and then to pay principal), in the order described under "—Payments on the Notes; Priority of Distributions," in an O/C Redemption to the extent necessary to satisfy the applicable Overcollateralization Tests (recalculated on such Payment Date, but as of such Calculation Date, after taking into account such O/C Redemption) in accordance with the provisions described herein.

If on any Payment Date the Class B-2L Overcollateralization Test is not satisfied, 50% of available Interest Proceeds will be applied to pay principal on the Class B-2L Notes and 50% (or, after the Class B-2L Notes are paid in full, 100%) of available Interest Proceeds will be applied sequentially to pay principal on the Notes, in each case, until the Class B-2L Overcollateralization Test is satisfied, and Principal Proceeds will be applied sequentially to pay principal on the Notes, as described further herein under "Description of the Notes—Priority of Payments."

In addition, generally, satisfaction or, in certain cases, maintenance, of both Overcollateralization Tests is a condition to the purchase or sale of Portfolio Collateral during certain specified periods. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

#### Interest Coverage Test

The "**Interest Coverage Test**" is applicable on each Payment Date after the second Payment Date and will be satisfied as of such Payment Date if the Interest Coverage Ratio is at least equal to 1.5%. The "**Interest Coverage Ratio**" means, with respect to any Payment Date after the second Payment Date, a number (expressed as a percentage) calculated by *dividing* (a) four times the amount by which (i) the Collateral Interest Collections received or scheduled to be received during the Due Period in which such calculation occurs (other than Collateral Interest Collections (including deferred interest thereon) scheduled to be received on any item of Portfolio Collateral that is not paying or expected to pay current interest), exceeds (ii) the Periodic Reserve Amount (excluding amounts payable on the Class B-1L Notes and the Class B-2L Notes) as of such Payment Date, by (b) the Aggregate Principal Amount of Class A Notes with respect to such Payment Date, as adjusted, to take into account any O/C Redemption to occur on the Payment Date related to such Due Period pursuant the Indenture.

#### Applicability of Interest Coverage Test

At any time after the second Payment Date that any of the Notes are Outstanding, if the Interest Coverage Test is not satisfied on any Calculation Date related to a Payment Date, amounts that are junior in right of payment to the Interest Coverage Test as described under "—Payments on the Notes; Priority of Distributions," will be applied to the payment of principal of the Class A Notes in the order described under "—Payments on the Notes; Priority of Distributions," in an O/C Redemption to the extent necessary to satisfy the Interest Coverage Test (recalculated on such Payment Date, but as of such Calculation Date, after taking into account such O/C Redemption) in accordance with the provisions described herein.

In addition, satisfaction of the Interest Coverage Test on the prior Payment Date is a condition to certain purchases and sales of Portfolio Collateral during certain specified periods as described herein. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

Additional Collateral Deposit Requirement

On each Payment Date after the second Payment Date, even if the Overcollateralization Tests and the Interest Coverage Test are satisfied, Collateral Interest Collections that would otherwise be used for payments that are junior in right of payment to the Additional Collateral Deposit Requirement, as described under "—Payments on the Notes; Priority of Distributions—Revolving Period," will be applied during the Revolving Period, to the payment of principal of the Class B-2L Notes and will be made available to purchase Additional Portfolio Collateral or, during the Amortization Period, will be applied to the payment of the Class B-2L Notes and to pay principal of the Notes in the order described under "—Payments on the Notes; Priority of Distributions—Amortization Period." The "Additional Collateral Deposit Requirement" with respect to any Payment Date is the amount necessary such that:

(a) the sum of:

(i) the Aggregate Principal Amount of the Portfolio Collateral in the Trust Estate as of the Calculation Date relating to such Payment Date, *plus*

(ii) the sum of the Balance of Eligible Investments and cash in the Collection Account representing Collateral Principal Collections *plus* the Balance of Eligible Investments and cash in the Initial Deposit Account *plus* unpaid Purchased Accrued Interest as of such date, *less*

(iii) the Overcollateralization Haircut Amount (if any),

equals or exceeds:

(b) 104.63% of the amount necessary, after giving effect to the amount applied to any O/C Redemption of the Notes to satisfy the Overcollateralization Tests and the Interest Coverage Test (if applicable) on such Payment Date, to repay the Aggregate Principal Amount of the Notes, including any Periodic Rate Shortfall Amounts. Notwithstanding the foregoing, if the Additional Collateral Deposit Requirement is a positive number that is more than the amount available therefor in the Priority of Payments, then the amount distributed with respect to the Additional Collateral Deposit Requirement shall be such lesser amount available.

For purposes of the Additional Collateral Deposit Requirement, no item of Equity Portfolio Collateral shall be included as Portfolio Collateral. In addition for purposes of this requirement, (i) with respect to Defaulted Portfolio Collateral as to which there has occurred a payment default or an event of bankruptcy, only the portion equal to the lesser of (a) the Market Value of such item of Defaulted Portfolio Collateral and (b) the Applicable Percentage *multiplied* by the Principal Balance of such item of Portfolio Collateral, shall be included as Portfolio Collateral and (ii) with respect to items of Discount Portfolio Collateral, only an amount equal to the original purchase price of such item of Discount Portfolio Collateral shall be included as Portfolio Collateral. For purposes of calculating the Additional Collateral Deposit Requirement, to the extent an item of Portfolio Collateral is considered Defaulted Portfolio Collateral, Discount Portfolio Collateral and/or is included in the Overcollateralization Haircut Amount, such item of Portfolio Collateral will not be discounted multiple times, but will be treated in the category that results in the largest discount to the par amount of the Portfolio Collateral.

Rating Confirmation Failure

The Issuer will request that each Rating Agency confirm after the Effective Date that it has not reduced or withdrawn (and not restored) the ratings assigned by it on the Closing Date to the Notes (a "**Rating Confirmation**"). If the Issuer is unable to obtain a Rating Confirmation by the 35th day after the Effective Date (a "**Rating Confirmation Failure**"), on the next Payment Date and on each subsequent Payment Date during the Revolving Period, amounts that are junior in right of payment to such Rating Confirmation Failure, as described under "Description of the Notes—Payments on the Notes; Priority of Distributions," will be applied to the redemption of the Notes (or, in the case of the Class B-1L Notes and Class B-2L Notes, first to pay Periodic Rate Shortfall Amounts due to such Notes, then to pay principal) until each such Class is paid in full, in the order and according to the priorities described herein (a "**Rating Confirmation Failure Redemption**"), to the extent necessary to receive a Rating Confirmation, in accordance with the provisions described herein. The Trustee will give notice of a Rating Confirmation Failure Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

O/C Redemption

If on any Calculation Date any of the Overcollateralization Tests (other than the Class B-2L Overcollateralization Test) or the Interest Coverage Test are required to be satisfied and are not satisfied, amounts that are junior in right of payment to such test as described under "—Payments on the Notes; Priority of Distributions," will be applied to the redemption of the Class A Notes and the Class B-1L Notes (or, in the case of the Class B-1L Notes, first to pay Periodic Rate Shortfall Amounts, then to pay principal) in the order described under "—Payments on the Notes; Priority of Distributions" to the extent necessary in order to satisfy both the Overcollateralization Tests (other than the Class B-2L Overcollateralization Test) and the Interest Coverage Test. If on any Payment Date the Class B-2L Overcollateralization Test is not satisfied, 50% of the available Interest Proceeds will be applied to pay principal on the Class B-2L Notes and 50% (or, after the Class B-2L Notes are paid in full, 100%) of available Interest Proceeds will be applied sequentially to pay principal on the Notes, and Principal Proceeds will be applied sequentially to pay principal on the Notes, in each case, as described in "—Payments on the Notes; Priority of Distributions." A redemption of the Notes in connection with any Overcollateralization Test or Interest Coverage Test (an "**O/C Redemption**"), together with a redemption of the Notes through a Rating Confirmation Failure Redemption or an O/C Redemption is sometimes referred to herein as a "**Mandatory Redemption**." Any Mandatory Redemption will be effected at par. The Trustee will give notice of a Mandatory Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

Initial Deposit Redemption

On the Effective Date, to the extent that the full amount of the Deposit is not used to purchase or committed to be used to purchase Original Portfolio Collateral having an Aggregate Principal Amount (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) at least equal to the Required Portfolio Collateral Amount in accordance with the guidelines described herein and in the Indenture, an amount (not in excess of the amount of the Deposit not so used to purchase or committed to be used to purchase) equal to the excess of the Required Portfolio Collateral Amount over the par amount of Portfolio Collateral actually acquired (or committed to be acquired) (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) will be applied by the Issuer on the November 1, 2007 Payment Date (the "**Initial Deposit Redemption Date**") to make principal payments on the Class A-1LA Notes (an "**Initial Deposit Redemption**") except, if the amount of the Deposit not so used to purchase or committed to be used to purchase Original Portfolio Collateral does not exceed U.S.\$2,000,000 in the aggregate, such amount will be transferred to the Collection Account on the Effective Date and applied as Collateral Principal Collections. The Trustee will give notice of an Initial Deposit Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

Optional Redemption*Optional Redemption by Liquidation*

On any Payment Date after the Non-Call Period (the "**Optional Redemption Date**," which date shall be considered the Final Maturity Date), subject to satisfaction of certain conditions described herein, the Notes will be redeemed, in whole but not in part, by the Co-Issuers or the Issuer, as applicable, at the direction of the Holders of at least 66-2/3% of the outstanding Preferred Shares eligible to vote (excluding any Preferred Shares beneficially owned or controlled by the Servicer, entities affiliated with the Servicer or clients of the Servicer (collectively, the "**Servicer Entities**") in excess of the Original HFP Share Amount) at the Optional Redemption Price. No such Optional Redemption by Liquidation may occur unless all Outstanding Notes are redeemed, all amounts due to or advanced by any Hedge Counterparty under the related Hedge Agreement have been paid or reimbursed and unless all other payments, fees and expenses are paid in full.

In connection with any Optional Redemption, the Issuer may use all funds credited to the Collection Account to provide for payment of the Optional Redemption Price. If there are not sufficient funds in the Collection Account as of the date the notice of redemption is given to pay the Optional Redemption Price on the Optional

Redemption Date and all such payments, fees and expenses (including any termination payments with respect to any Synthetic Securities and any Default Swaps), the Servicer is required to give the Trustee written direction to sell Portfolio Collateral in an amount sufficient to provide funds to pay the Optional Redemption Price in full. The Trustee will give notice of an Optional Redemption to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

*Optional Redemption by Refinancing*

Any Class of Notes may be redeemed in whole, but not in part, on any Payment Date after the Non-Call Period from the proceeds of a Refinancing (as defined below) (the "**Refinancing Proceeds**") with consent of the holders of at least a Majority of the Preferred Shares eligible to vote (including any Preferred Shares held by the Servicer Entities up to the Original HFP Share Amount, but excluding any other Preferred Shares beneficially owned or controlled by the Servicer Entities which shall be deemed ineligible to vote), or at the direction of such Majority of the Preferred Shares (an "**Optional Redemption**" or an "**Optional Redemption by Refinancing**"), if the Servicer, on behalf of the Issuer, gives notice thereof to the Holders of the Preferred Shares (with a copy to the Trustee and the Rating Agencies) at least 30 days prior to the Payment Date fixed by the Issuer for such redemption (such date, the "**Refinancing Date**") to redeem such Notes, by obtaining a loan or an issuance of a replacement class of notes, the terms of which loan or issuance will be negotiated by, and acceptable to, the Servicer, on behalf of the Issuer, from one or more financial institutions or purchasers (which may include the Servicer or its affiliates) selected by the Servicer (a Refinancing provided pursuant to such loan or issuance, a "**Refinancing**"), to the extent and subject to the restrictions described herein, and, if such Refinancing has not been directed by a Majority of the Preferred Shares eligible to vote (including any Preferred Shares held by the Servicer Entities up to the Original HFP Share Amount, but excluding any other Preferred Shares beneficially owned or controlled by the Servicer Entities which shall be deemed ineligible to vote), such proposal is consented to by such Majority of the Preferred Shares prior to the Refinancing Date. The Issuer will obtain a Refinancing only if the Servicer determines to its satisfaction that: (i) the principal amount of any obligations providing the Refinancing is no greater than the principal amount of the Notes being redeemed *plus* the fees and administrative expenses of the Issuer related to the Refinancing; (ii) the stated maturity of the obligations providing the Refinancing is no earlier than the Stated Maturity of the Notes being redeemed; (iii) the interest rate payable in respect of the obligations providing the Refinancing is less than the interest rate payable on the Notes being redeemed; (iv) the agreements relating to the Refinancing contain non-recourse and non-petition provisions, investor qualification provisions and transfer restrictions equivalent to those applicable to the Notes being redeemed, as set forth in the Indenture; (v) the proceeds from the Refinancing will be at least sufficient to redeem the applicable Notes (at the Optional Redemption Price therefor) and to pay any fees and administrative expenses of the Issuer related to the Refinancing; (vi) the Refinancing Proceeds will be used (to the extent necessary) to redeem the applicable Notes; (vii) the Rating Condition for each Rating Agency shall be satisfied (other than with respect to the Notes being redeemed); (viii) the obligations providing the Refinancing are subject to the Priority of Payments and do not rank higher in priority pursuant to the Priority of Payments than the Class of Notes being redeemed; and (ix) the expenses in connection with the Refinancing have been paid or will be adequately provided for. Any Refinancing Proceeds will not constitute Collateral Interest Collections or Collateral Principal Collections but will be applied directly on the related Refinancing Date pursuant to the Indenture to redeem the Notes being refinanced without regard to the Priority of Payments; *provided* that, to the extent that any Refinancing Proceeds are not applied to redeem the Notes being refinanced, such Refinancing Proceeds will be treated as Collateral Principal Collections or, if the Rating Condition is satisfied with respect to such application, as Collateral Interest Collections. None of the Co-Issuers, the Trustee or any other Person will be liable to the Holders of the Preferred Shares for the failure to issue additional notes or to obtain secured loans.

Any notice of redemption may be withdrawn by the Issuer until (i) the earlier of the fifth Business Day prior to the scheduled redemption date and the date on which a forward purchase contract is entered into pursuant to the Indenture by written notice from the Issuer to the Trustee, the holders of the Preferred Shares requesting or consenting to such optional redemption and the Servicer or (ii) the fifth Business Day prior to the proposed Refinancing Date, if (A) in the case of an Optional Redemption by Liquidation, the Servicer shall be unable to deliver the sale agreement or agreements or certifications required under the Indenture, as the case may be, in form satisfactory to the Trustee or (B) in the case of an Optional Redemption by Refinancing, the Servicer does not make the determinations required under the Indenture or (C) in the case of any Optional Redemption, a Majority of the Preferred Shares eligible to vote in such Optional Redemption direct such notice be withdrawn. Notice of

withdrawal having been given as aforesaid, the Trustee shall provide notice of such withdrawal to each Holder as required by the Indenture and, for so long as any Class of Notes is listed on any stock exchange and the rules of such stock exchange so require, to such Stock Exchange.

#### Tax Event Redemption

The Notes are also subject to redemption on any Payment Date, at the option of the Issuer, in whole but not in part, at the direction of at least a Majority of the Preferred Shares (or a Majority of the Controlling Class if the Aggregate Principal Balance of Portfolio Collateral is less than 100% of the Class A-1L Notes) on any Payment Date at the Tax Event Redemption Price, if as a result of (i) change in tax law, rule or regulation or the interpretation thereof, the payments to be received on the Portfolio Collateral are reduced as a result of the imposition of withholding tax, (ii) the Issuer is otherwise subjected to tax such that the income of the Issuer is reduced in an amount determined by such holders of Preferred Shares to be material, (iii) (A) one or more items of Portfolio Collateral that were not subject to withholding tax when the Issuer committed to purchase them have become subject to withholding tax or the rate of withholding has increased on one or more items of Portfolio Collateral that were subject to withholding tax when the Issuer committed to purchase them and (B) in any Due Period the aggregate of the payments subject to withholding tax on new withholding tax obligations and the increase in payments subject to withholding tax on increased rate withholding tax obligations, in each case to the extent not "grossed-up" (on an after-tax basis) by the related obligor, represent 5% or more of Interest Proceeds for the Due Period, (iv) (A) the Cap Provider being required to deduct or withhold from any payment to the Issuer under the Cap Agreement for or on account of any tax for whatever reason and such obligor or Cap Provider is not required to pay to the Issuer such additional amount as is necessary to ensure that the net amount actually received by the Issuer (free and clear of taxes, whether assessed against such obligor, the Cap Provider or the Issuer) will equal the full amount that the Issuer would have received had no such deduction or withholding occurred or (B) the Issuer being required to pay to the Cap Provider an additional amount for or on account of any tax for whatever reason, the Issuer does not receive the full amount under the Cap Agreement that it would otherwise be entitled to receive or (v) taxes, fees, assessments or other similar charges are imposed on the Issuer or the Co-Issuer in an aggregate amount in any 12-month period in excess of \$2,000,000, other than liabilities for withholding taxes included in clause (iii) above. No such Tax Event Redemption may occur unless all Outstanding Notes are redeemed, all amounts due to or advanced by any Hedge Counterparty under the related Hedge Agreement have been paid or reimbursed and unless all other payments, fees and expenses are paid in full.

As the result of the ownership of Preferred Shares and Notes by the Servicer Entities, and the ability to vote the Preferred Shares and the Notes owned by the Servicer Entities up to a maximum amount equal to the Original HFP Share Amount, the affirmative vote or approval of the Preferred Shares owned by such Servicer Entities, may be required in order to cause an Optional Redemption or a Tax Event Redemption of the Notes.

#### Special Redemption

The Notes are subject to redemption in part on any Payment Date (and on one or more Payment Dates) during the Revolving Period, at the option of the Issuer acting at the direction of the Servicer, if more than U.S.\$2,000,000 of Collateral Principal Collections received are not applied to the purchase of Additional Portfolio Collateral selected by the Servicer and satisfying the criteria described herein by the earlier of ninety days of receipt or the last day of the Revolving Period, in an amount of at least U.S.\$2,000,000 as described under "—Payments on the Notes; Priority of Distributions—Revolving Period—Collateral Principal Collections."

The Trustee will give notice of any redemption which the Issuer and the Servicer have directed to the Company Announcements Office of the Irish Stock Exchange if any Class of Notes is then listed on the Irish Stock Exchange.

#### Extension of the Revolving Period and the Final Maturity Date

##### *General*

The Issuer, if directed by the Servicer, shall be entitled on each Extension Effective Date to extend the Revolving Period to the applicable Extended Revolving Period End Date up to a maximum of four times (so that the Notes can only be extended to 2040) if (i) in the case of an Extension Effective Date occurring after the first Extension Effective Date, the Issuer has previously affected a Maturity Extension for each preceding Extension

Effective Date, (ii) the Extension Conditions are satisfied, (iii) the Issuer has given written notice of its election to extend the Revolving Period no later than 60 days and no earlier than 90 days prior to such Extension Effective Date and (iv) no Event of Default has occurred and is continuing. If the Extension Conditions are satisfied, the Final Maturity Date of the Notes shall be automatically extended to the related Extended Final Maturity Date and the Weighted Average Life Test shall be extended to the related Extended Weighted Average Life Date, without any requirement for approval or consent of any Holders of Notes (other than the Holders of the Class A-1LA Notes) or Preferred Shares (other than as may be required pursuant to the Extension Conditions) or amendment or supplement to the Indenture or any other transaction document (the "**Maturity Extension**"). In the case of a Maturity Extension, any Holder of Notes or Preferred Shares wishing to sell such Notes or Preferred Shares to an Extension Qualifying Purchaser pursuant to the Extension Conditions must provide the applicable Extension Sale Notice within the Extension Sale Notice Period pursuant to "—Extension Procedure" below (such Notes or Preferred Shares as to which an Extension Sale Notice has been duly given, "**Extension Sale Securities**"). Each Holder providing an Extension Sale Notice shall be deemed to agree that no Extension Sale Securities shall be purchased unless all Extension Sale Securities are purchased and settled at the applicable Extension Purchase Price on the applicable Extension Effective Date and the other Extension Conditions are satisfied as of such date. The Maturity Extension shall be effective only if the following conditions (the "**Extension Conditions**") are satisfied:

(i) the purchase of all Extension Sale Securities has been settled by the designated Extension Qualifying Purchasers at the applicable Extension Purchase Price as of the applicable Extension Effective Date;

(ii) all such purchases of Extension Sale Securities individually and in the aggregate comply with the applicable transfer restrictions herein, in the Indenture and the Preferred Share Paying and Transfer Agency Agreement immediately after such purchase and the legends on such Notes and Preferred Shares and all applicable law, rules and regulations (including, without limitation, rules, regulations and procedures of any applicable securities exchange, self-regulatory organization or clearing agency);

(iii) (a) the Rating Condition has been satisfied with respect to S&P (so long as any Notes are then rated by S&P) and (b) either (A) the Class B-2L Overcollateralization Ratio is at least 105% and the Collateral Quality Tests are satisfied as of the related Extension Determination Date and the Interest Coverage Test was satisfied on the immediately preceding Payment Date, the rating of each Class of Notes by Moody's has not been downgraded, withdrawn or qualified from that in effect on the Closing Date (unless it subsequently has been reinstated to the rating assigned on the Closing Date) or (B) the Rating Condition has been satisfied with respect to Moody's (so long as any Notes are then rated by Moody's); and

(iv) (a) the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes have delivered the Extension Sale Notice in the Extension Sale Notice Period or (b) if the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes fail to deliver an Extension Sale Notice pursuant to the preceding clause (a), either (A) the Issuer, acting through the Servicer, notifies the Holders of the Class A-1LA Notes in writing not later than the last day of the Extension Sale Notice Period that such Class A-1LA Notes shall constitute "Extension Sale Securities" (as a result of which such Class A-1LA Notes must be purchased by an Extension Qualifying Purchaser) or (B) the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes have consented in writing to the Maturity Extension not later than the last day of the Extension Sale Notice Period; *provided* that if the Extension Conditions are not satisfied because the Holders of the Class A-1LA Notes have failed to deliver an Extension Sale Notice or have failed to provide their written consent to the related Maturity Extension, then the Servicer may extend the Extension Sale Notice Period by seven Business Days if the Servicer reasonably believes that it will receive such Extension Sale Notice or written consent within seven Business Days following the end of the Extension Sale Notice Period.

In the case of a Maturity Extension, each Holder of Notes other than Extension Sale Securities shall be entitled to receive an amount equal to the applicable Extension Bonus Payment. Holders of Preferred Shares shall not be entitled to receive any Extension Bonus Payment. The obligation to make any Extension Bonus Payment shall not be rated by the Rating Agencies. Extension Bonus Payments which are not available to be paid on a Payment Date in accordance with the priority of distributions on a Payment Date shall not be considered "due and payable" hereunder. The failure to pay any such Extension Bonus Payment on such date shall not be an Event of Default, unless the Issuer shall fail to pay in full such Extension Bonus Payment on the earlier of the Final Maturity Date and the date of redemption in full of the relevant Notes. Unpaid Extension Bonus Payments shall not accrue interest. Such amounts shall be paid in accordance with the Priority of Payments.

### *Extension Procedure*

No later than three Business Days following receipt by the Trustee of the notice given by the Issuer of its election to extend the Revolving Period (the "**Extension Notice**"), the Trustee shall deliver the Extension Notice to all Holders of Notes and the Preferred Shares Paying and Transfer Agent (for forwarding to the Holders of the Preferred Shares) and each Rating Agency (so long as any rated Notes are Outstanding), in the form set out in the Indenture, and shall request the Rating Condition for the Maturity Extension from S&P, if applicable. Any Holder of Notes and Preferred Shares may give irrevocable notice (an "**Extension Sale Notice**") within 30 days after the Trustee has delivered the Extension Notice (the "**Extension Sale Notice Period**") of its intention to sell its Notes or Preferred Shares to an Extension Qualifying Purchaser in the case of a Maturity Extension. If the Holders of 100% of the Outstanding Aggregate Principal Amount of the Class A-1LA Notes have not delivered the Extension Sale Notice to the Trustee by the 20th calendar day after the date of the Extension Notice, the Trustee shall notify the Holders of the Class A-1LA Notes of the date on which the Extension Sale Notice Period shall end and include a statement to the effect that (i) no Extension Sale Notice delivered after the end of the Extension Sale Notice Period shall be effective and (ii) the Class A-1LA Notes for which no Extension Sale Notice has been delivered may be treated as Extension Sale Securities pursuant to clause (iv) of the Extension Conditions (as a result of which the Class A-1LA Notes must be purchased by an Extension Qualifying Purchaser). Any Extension Sale Notice received by the Trustee after the Extension Sale Notice Period shall be disregarded and deemed not to have been given. No Holder of Notes (other than the Class A-1LA Notes, as described in clause (iv) (b)(A) of the Extension Conditions) or Preferred Shares that has not given such an Extension Sale Notice within the Extension Sale Notice Period shall be entitled to sell its Notes or Preferred Shares to an Extension Qualifying Purchaser in connection with the Maturity Extension. If clause (iii)(b)(A) of the Extension Conditions is not satisfied as of the applicable Extension Determination Date as determined by the Issuer (or its agent), the Trustee shall request the Rating Condition to be satisfied with respect to Moody's. On the applicable Extension Determination Date, the Issuer (or its agent) shall confirm (i) whether or not Extension Qualifying Purchasers for all Extension Sale Securities have been designated to purchase such Notes or Preferred Shares in compliance with all transfer restrictions in the Indenture and the legends on such Notes or Preferred Shares and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency), (ii) whether the requirements of clause (iii) of the Extension Conditions are satisfied as of the applicable Extension Determination Date and (iii) whether all other Extension Conditions can be satisfied as of the applicable Extension Effective Date. On each Extension Effective Date, the Maturity Extension shall become effective under the terms of the Indenture *provided* that all Extension Conditions set forth above are satisfied. No later than two Business Days after each Extension Effective Date, the Trustee based on a determination made by the Issuer, at the expense of the Co-Issuers, shall deliver a notice to all Holders of Notes and the Preferred Shares Paying and Transfer Agent (for forwarding to the Holders of Preferred Shares), the Servicer, Bear Stearns, each Rating Agency (so long as any rated Notes are Outstanding) and the Irish Stock Exchange (if and for so long as any Class of Notes is listed thereon) confirming whether or not the Maturity Extension became effective. If the Maturity Extension became effective, the Issuer shall make any required notifications thereof to the Depository for any Notes subject to the Maturity Extension. None of the Initial Purchasers, the Servicer or any of their respective Affiliates shall have any duty to act as an Extension Qualifying Purchaser.

### Additional Issuance

At any time during the Revolving Period, the Issuer, as applicable, may issue and sell Additional Preferred Shares and use the proceeds from such issuance and sale (net of any fees and expenses incurred in connection with the issuance thereof, including, without limitation, compensation payable to the Initial Purchasers or any placement agent for any services provided in connection therewith) to purchase additional eligible Portfolio Collateral (which may include eligible Portfolio Collateral purchased from any Servicer Entity on an arms-length transaction basis) (an "**Additional Issuance**"); *provided* that certain conditions are satisfied, including without limitation: (a) such Additional Issuance will be a percentage (the "**Additional Issuance Percentage**") specified by the Servicer, of the original issue price of the Preferred Shares issued and Outstanding on the date of the Additional Issuance; (b) such Additional Preferred Shares must be issued for a cash sales price (the net sale proceeds to be used to purchase eligible Portfolio Collateral (or, pending such applications, deposited into the Collection Account and held in Eligible Investments)); (c) the terms (other than the date of issuance, the issue price, the date from which dividends will accrue and similar matters) of such Preferred Shares must be identical to the terms of the applicable Class of

Preferred Shares; (d) the Holders of Preferred Shares must be notified in writing 30 days prior to such issuance; (e) the Servicer must consent to such Additional Issuance; and (f) each Initial Purchaser must be notified in writing at least 30 days prior to such issuance.

Any amendment to the Indenture, Issuer's Memorandum of Association and Articles of Association or any other related documents required to provide for or facilitate such Additional Issuance will not require the consent of the Holders of Securities.

#### Prescription

Payment in respect of the Notes will cease to be due if not paid to the Holder due to insufficient instructions for a period of twenty years from the Relevant Date therefor. "**Relevant Date**" means the date on which the final payment in respect of the Notes first becomes due, except that if the full amount of the monies payable has not been duly received by the Paying Agent on or prior to such due date, it means the date on which such monies have been so received.

#### Form, Transfer and Transfer Restrictions

Upon issuance, the Notes of each Class sold to non-U.S. Persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) (each, a "**non-U.S. Person**") in Offshore Transactions (as defined in Regulation S) in reliance on Regulation S, initially will be represented by a single, temporary global note in fully registered form without interest coupons (the "**Temporary Regulation S Global Note**"), which in the case of the Notes of each Class, will be deposited with the Trustee as custodian for, and registered in the name of a nominee on behalf of The Depository Trust Company ("**DTC**") on behalf of Euroclear Bank, S.A./N.V., as operator of The Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme ("**Clearstream**").

Subject to the receipt by the Trustee of a certificate in the form provided by the Indenture from the person holding such interest, a beneficial interest in the Temporary Regulation S Global Note may be exchanged for (i) after the 40th day after the later of the conclusion of the offering and the Closing Date (the "**Exchange Date**"), an interest in a permanent global note in fully registered form without coupons (the "**Permanent Regulation S Global Note**" and, together with the Temporary Regulation S Global Note, the "**Regulation S Global Notes**"), in an amount equal to the aggregate principal amount of such interest in the Temporary Regulation S Global Note or (ii) at any time for an interest in a Rule 144A Global Note (defined below) or, in the case of a Class B-2L Note, a Definitive Note (defined below), if a beneficial interest in a Regulation S Global Note will be transferred to a Qualified Institutional Buyer who is a U.S. Person (defined below), which note will be registered in the name of such person.

Upon deposit of the Permanent Regulation S Global Note of a Class with the Trustee, as custodian for DTC or the common depository, as applicable, Euroclear or Clearstream, as the case may be, will credit each purchaser (or its agent or custodian) with a principal amount of Notes of such Class equal to the principal amount thereof for which it has paid. The Holder of the Regulation S Global Notes (which will be DTC or its nominee, in the case of each Class of Notes) shall be the only person entitled to receive payments in respect of the Notes represented by such Regulation S Global Notes, and the Co-Issuers will be discharged by payment to, or to the order of, such Holder of such Regulation S Global Notes in respect of each amount so paid. Each of the persons shown in the records of Euroclear or of Clearstream as the Holder of a particular principal amount of Regulation S Global Notes must look solely to Euroclear or Clearstream, as the case may be, for its share of each payment so made by the Co-Issuers to, or to the order of, the Holder of such Regulation S Global Notes. No person other than the Holder of the Regulation S Global Notes shall have any claim against the Co-Issuers in respect of any payments due on the Regulation S Global Notes.

Payments on the Regulation S Global Notes will be made pursuant to certain procedures established by DTC, *provided* that the final payment of principal and interest will be made upon presentation and endorsement of such Regulation S Global Notes at the office of a Paying Agent.

Definitive fully registered notes ("**Definitive Notes**") will be issued and exchanged for each Permanent Regulation S Global Note within 30 days of the occurrence of any of the following: (i) the Notes or any of them become immediately due and payable following an Event of Default under the Indenture; (ii) either Euroclear or Clearstream is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or

otherwise) or announces an intention permanently to cease business and no alternative clearance system satisfactory to the Trustee is available; or (iii) as a result of any amendment to, or change in, the laws or regulations of the Cayman Islands or of any authority therein or thereof having power to tax or in the interpretation or administration of such laws or regulations which becomes effective on or after the Closing Date, the Co-Issuers or the Paying Agents are or will be required to make any deduction or withholding from any payment in respect of the Notes which would not be required were the Notes in definitive registered form. Notwithstanding the foregoing, interests in any Temporary Regulation S Global Note or any definitive registered Note purchased by a non-U.S. Person in an Offshore Transaction in accordance with Regulation S may not be exchanged for a Definitive Note until receipt by the Trustee from the owner of such beneficial interest of a certificate in the form provided by the Indenture.

Upon issuance, the Notes (other than the Class B-2L Notes) sold in the United States to Qualified Institutional Buyers will be issued in book-entry form ("**Rule 144A Global Notes**") only through the facilities of DTC. So long as DTC or its nominee is the registered Holder of the Rule 144A Global Notes, DTC or such nominee, as the case may be, will be considered the absolute owner or Holder of such the Notes represented by such Rule 144A Global Notes for all purposes under the Indenture and such Notes. DTC or such nominee, as the case may be, will be the only person entitled to receive payments in respect of the Notes represented by such Rule 144A Global Notes and the Co-Issuers will be discharged by payment to DTC or such nominee. Each of the persons shown in the records of DTC as the beneficial owner of a Rule 144A Global Note must look solely to DTC for its share of each payment made by the Issuer to DTC. No person other than DTC shall have any claim against the Co-Issuers in respect of any payment due under the Rule 144A Global Notes.

Payments on the Rule 144A Global Notes will be made in accordance with the established procedures of DTC and the Co-Issuers will have no liability therefor. In addition, no beneficial owner of an interest in a Rule 144A Global Note will be able to exchange or transfer such interest except in accordance with the applicable procedures of DTC. None of the Issuer, the Co-Issuer, the Trustee, the Registrar or any Paying Agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Rule 144A Global Notes or for maintaining, supervising or reviewing any records relating thereto.

Definitive Notes will be issued and exchanged for each Rule 144A Global Note within 30 days of the occurrence of any of the following: (i) the Notes or any of them become immediately due and payable following an Event of Default under the Indenture; or (ii) DTC notifies the Issuer or the Trustee in writing that it is unwilling or unable to discharge properly its responsibilities as a depository with respect to the Rule 144A Global Notes or it ceases to be a "clearing agency" registered under the Exchange Act (defined below), and the Issuer and the Trustee are unable to locate a qualified successor within 90 days after such notice.

Upon issuance, the Class B-2L Notes sold in the United States to Qualified Institutional Buyers who are U.S. Persons will be issued as Definitive Notes.

Definitive Notes may be presented for registration of transfer (with the form of transfer endorsed thereon duly executed), at the office of the Registrar, without service charge but upon payment of any taxes and other governmental charges as described in the Indenture. Any registration of transfer will be effected upon the Trustee being satisfied with the documents of title and identity of the person making the request, upon their receipt of any applicable certificates and opinions relating to transfer restrictions, as described below, and subject to such reasonable regulations as the Issuer may from time to time agree with the Trustee, all as described in the Indenture.

The Issuer has initially appointed the Trustee as Registrar. Definitive Notes may be presented for payment or for transfer or exchange at the offices of the Registrar's agent, Investors Bank & Trust Company, 33 Maiden Lane, 4th Floor, New York, NY 10038, Attention: CDO Services (Rockwall CDO II Ltd.). The Issuer reserves the right to vary or terminate the appointment of the Registrar or to appoint additional or other registrars or to approve any change in the office through which any Registrar acts, *provided* that there will at all times be an office or agent located in New York, New York at which the Definitive Notes may be presented for payment or for transfer or exchange.

For so long as any Class of Notes is listed on the Irish Stock Exchange and the rules of such exchange shall so require, the Issuer will have a listing agent and a paying agent (which shall be the **"Irish Paying Agent"**) for the Notes in Ireland and payments on such Notes may be effected through the Irish Paying Agent. In the event that the Irish Paying Agent is replaced at any time during such period, notice of the appointment of any replacement will be given to the Company Announcements Office of the Irish Stock Exchange.

A beneficial interest in a Regulation S Global Note may only be transferred to (a) a non-U.S. Person, who, in the case of the Class B-2L Notes, is also a Qualified Institutional Buyer, in an offshore transaction (as defined in Regulation S) (an **"Offshore Transaction"**) in accordance with Regulation S (and in accordance with certain certification requirements in the Indenture) or (b) after the Exchange Date, a person who takes delivery in the form of an interest in a Rule 144A Global Note or, in the case of the Class B-2L Notes, a Definitive Note, and who delivers a written certification (in the form provided in the Indenture) to the effect that such person is a Qualified Institutional Buyer and is acquiring such interest for its own account (together with certain other requirements set forth in the Indenture). Upon any exchange of a portion of a Regulation S Global Note for a Definitive Note, the Trustee shall endorse such Regulation S Global Note to reflect the reduction of the principal amount evidenced thereby.

Definitive Notes (or any interest therein) may only be transferred in accordance with the applicable laws of any state of the United States and (a) in a transaction exempt from the registration requirements of the Securities Act involving a Qualified Institutional Buyer who is a U.S. Person as transferee (in accordance with the certification requirements of the Indenture) or (b) to a person who takes delivery in the form of a beneficial interest in a Regulation S Global Note and in such case only upon receipt by the Trustee of a written certification from the transferor (in the form provided in the Indenture) to the effect that such transfer is being made to a non-U.S. Person, who, in the Class of the Class B-2L Notes, is also a Qualified Institutional Buyer, in accordance with Regulation S. Upon any exchange of a Definitive Note for a beneficial interest in a Regulation S Global Note, the Trustee shall endorse such Regulation S Global Note to reflect the increase in the principal amount evidenced thereby.

The Registrar for the Notes will not be required to accept for registration of transfer any Note except upon presentation of a certificate substantially in the form required by the Indenture representing that these restrictions on transfer have been complied with, and, if requested by the Issuer or the Trustee, an opinion of counsel in form and substance satisfactory to the Issuer or the Trustee to the effect that such transfer has been made in compliance with an applicable exemption from the registration requirements of the Securities Act and in accordance with any applicable securities laws of any state of the United States and any other jurisdiction. See "Delivery of the Notes; Transfer Restrictions; Settlement."

In addition, sales or other transfers of the Notes may only be made to a purchaser or other transferee (excluding any transferee of a Note (other than a Class B-2L Note) who is a non-U.S. Person in an offshore transaction under Regulation S but including any transferee of a Class B-2L Note who is a non-U.S. Person in an offshore transaction under Regulation S) that is a Qualified Purchaser in a sale or transfer that would not require the Co-Issuers to become subject to the requirements of the Investment Company Act and the Notes will bear a legend to this effect. See "Delivery of the Notes; Transfer Restrictions; Settlement."

Each prospective purchaser will be deemed to (i) represent that such prospective purchaser is a Qualified Institutional Buyer and is purchasing or acquiring Notes solely for its own account or is a non-U.S. Person, (ii) that it and each account for which it is purchasing is purchasing a Class of Notes in at least the related minimum denomination, (iii) that it is a 'single beneficial owner' for purposes of Section 3(c)(1) of the Investment Company Act and (iv) have made the additional representations described under "Delivery of the Notes; Transfer Restrictions; Settlement." See "Certain ERISA Considerations."

DTC is a limited purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Securities Exchange Act of 1934, as amended (the **"Exchange Act"**). DTC was created to hold securities for its participants (the **"DTC Participants"**) and to facilitate the clearance and settlement of securities transactions between DTC Participants through electronic computerized book-entries, thereby eliminating the need for physical movement of certificates. DTC Participants include securities brokers and

dealers, banks, trust companies and clearing corporations. Indirect access to the DTC system also is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly ("**Indirect Participants**").

Unless and until Definitive Notes are issued, all references to actions by Holders of the Rule 144A Global Notes holding through DTC will refer to actions taken by DTC upon instructions received from beneficial owners of the Rule 144A Global Notes through DTC Participants, and all references herein to payments, notices, reports, statements and other information to Holders of Rule 144A Global Notes will refer to payments, notices, reports and statements to DTC or its nominees, as the registered Holder of the Rule 144A Global Notes, for distribution to beneficial owners of Rule 144A Global Notes through DTC Participants in accordance with DTC procedures.

Clearstream is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations ("**Clearstream, Luxembourg Participants**") and facilitates the clearance and settlement of securities transactions between Clearstream, Luxembourg Participants through electronic book-entry changes in accounts of Clearstream, Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to its Clearstream, Luxembourg Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream, Luxembourg Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the Initial Purchasers. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream, Luxembourg Participant, either directly or indirectly.

Euroclear was created to hold securities for participants of Euroclear ("**Euroclear Participants**") and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries generally similar to the arrangements for cross-market transfers with DTC described above. Euroclear is operated by Euroclear Bank S.A./N.V. (the "**Euroclear Operator**"), under contract with Euroclear Clearance System, S.C., a Belgian cooperative corporation (the "**Cooperative**"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the Initial Purchasers. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is the Belgian branch of a New York banking corporation which is a member bank of the Federal Reserve System. As such, it is regulated and examined by the Board of Governors of the Federal Reserve System and the New York State Banking Department, as well as the Belgian Banking Commission.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of Euroclear and applicable Belgian law (collectively, the "**Terms and Conditions**"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawal of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants and has no record of or relationship with persons holding through Euroclear Participants.

#### Option to Acquire Bond Insurance

The Indenture will provide that Holders of any Class of Notes may elect to acquire bond insurance, a surety bond or similar credit enhancement supporting the payment of principal and/or interest on such Class of Notes, on terms and conditions acceptable to such Holders. Any Class of Notes subject to such enhancement will be

designated as "**Insured Notes**" of such Class. Premiums for any such enhancement will be payable from amounts otherwise payable to such Class of Insured Notes or in such other manner chosen by such Holder. Any Insured Notes of a Class for substantially all other purposes will be treated as Notes of such Class, except that the issuer of the bond insurance policy, surety bond or other such credit enhancement will generally be deemed to be the Holder of the Notes of such Class enhanced by such entity and will in such capacity be entitled to exercise the rights otherwise exercisable by Holders of such Notes.

## **SECURITY FOR THE NOTES**

The Notes will be secured by the Trust Estate. The Trust Estate will consist of substantially all property of the Issuer, including the Portfolio Collateral, any Hedge Agreements, the Collection Account, the Initial Deposit Account, the Loan Funding Account, the Expense Reimbursement Account and the Closing Expense Account.

### Portfolio Collateral—General

The Portfolio Collateral (including Original Portfolio Collateral, Additional Portfolio Collateral and Substitute Portfolio Collateral) when purchased (or when committed to be purchased) by the Issuer, will consist of (I) United States dollar denominated commercial loans in registered form, including participation and assignment interests therein, collateralized loan obligations, including synthetic securities, of any corporation, partnership, limited liability company or trust, of the United States government or any agency or instrumentality thereof or of other sovereign issuers, which obligations:

- (a) are "eligible assets" as defined in Rule 3a-7;
- (b) except as described below, provide for periodic payments of interest thereon in cash no less frequently than semiannually;
- (c) provide for a fixed amount of principal to be payable according to a fixed schedule or at maturity;
- (d) are not items of Defaulted Portfolio Collateral, items of Equity Portfolio Collateral, a margin stock, or items of Credit Risk Portfolio Collateral;
- (e) except as described below, are not zero-coupon bonds, bonds that provide for a combination of no coupon and a fixed coupon, step-up bonds (except for step-up bonds providing for the payment of current interest at a rate no less than 5% *per annum* or Collateral LIBOR, if floating rate), other than with respect to the Initial Portfolio Collateral on the Closing Date, Partial Deferred Interest Bonds (except for such bonds providing for the payment of current interest at a rate no less than 5% *per annum* or Collateral LIBOR, if floating rate);
- (f) are not currently the subject of an Offer that would result in (i) the Issuer owning a security not meeting the requirements of Portfolio Collateral, not paying current interest, or, in the reasonable judgment of the Servicer, not expected to pay in full at maturity, or (ii) the Issuer receiving Eligible Investments or cash in a par amount less than that of the original security or the subject of an Exchange Offer;
- (g) do not provide for conversion or exchange into equity capital at any time over their respective lives (other than the exercise of any warrant, profit participation or other equity-like interest which is a component of a Unit);
- (h) with respect to Portfolio Collateral which consists of Floating Rate Collateral, have an interest rate which adjusts periodically in accordance with changes in one or more established indices at least one of which is the London interbank offered rate for one-, two-, three- or six-month U.S. dollar deposits and which adjusts at least semiannually or, with respect to items of Fixed Rate Portfolio Collateral, have an interest rate that remains constant until the maturity of such obligations or are Reset Debt Securities; *provided* that not more than 5.0% of the Aggregate Principal Amount of the Portfolio Collateral included in the Trust Estate may include items of Portfolio Collateral the interest rate on which adjusts in accordance with one or more indices that do not include the London interbank offered rate for one-, two-, three-, or six-month U.S. dollar deposits;

(i) have coupon or other payments (other than commitment fees, facility fees or other similar fees) that are not subject to U.S. withholding tax and are not at time of purchase subject to foreign withholding tax unless the issuer of the security is required to make "gross-up" payments sufficient to cause the net amount to be received on the debt obligations to equal the amount that would have been paid had no such withholding tax applied;

(j) mature on or before August 1, 2024 or, if a Maturity Extension as occurred, the then applicable Extended Final Maturity Date, except that up to 5% of the Aggregate Par Amount may mature after such date but before 5 years after such date; *provided* that, with respect to Portfolio Loans, no more than 3% of the Aggregate Par Amount may mature after August 1, 2024 or, if a Maturity Extension as occurred, the then applicable Extended Final Maturity Date, but before two years after such date and no Portfolio Loans may mature after two years after such date;

(k) the terms of which do not, unless they are Delayed Drawdown Loans or Revolving Loans, require the Holder to assume or otherwise undertake any funding obligations or liabilities (of a contingent nature or otherwise);

(l) are payable only in United States dollars;

(m) are not Current Pay Obligations;

(n) are not Debt Securities;

(o) the S&P Rating of which does not include a subscript of "r", "t", "p", "pi" or "q" unless otherwise agreed to by Standard & Poor's in writing and a Moody's Rating that addresses the full amount of principal or interest indicated would be paid;

(p) during the Revolving Period, CLO Securities having a Moody's Rating of "Ba2" or higher and an S&P Rating of "BB" or higher and, after the Revolving Period are not CLO Securities;

(q) are not obligations of Non-U.S. Obligor;

(r) are not PIK Bonds which are currently deferring interest payments or receiving payments in-kind pursuant to the terms of the related Underlying Instrument; and

(s) satisfy, together with the other Portfolio Collateral to be concurrently included in the Trust Estate, the other applicable criteria set forth in the Indenture, including the ratings guidelines and guidelines concerning issuer concentration and industry concentration described below; or

(II) Synthetic Securities (as described herein); *provided* that the Servicer concludes, based on advice of counsel, that the Synthetic Securities are "eligible assets" for purposes of Rule 3a-7.

Interests in commercial loans included in the Portfolio Collateral are referred to herein as "**Portfolio Loans**," and interests in collateralized loan obligations in the Portfolio Collateral are referred to herein as "**CLO Securities**." The Issuer may invest in participations ("**Participations**") in Portfolio Loans, or purchase assignments ("**Assignments**") of portions of Portfolio Loans.

In addition, up to 20% of the Aggregate Par Amount may consist of Synthetic Securities. The purchase of Synthetic Securities may involve certain additional risks not present in the purchase of other Portfolio Collateral. See "Special Considerations—Nature of Collateral Pledged to Secure the Notes; Ability to Obtain Additional Portfolio Collateral; Availability of Funds for Subordinate Payments" For purposes of the eligibility criteria and related tests, a Synthetic Security will generally be included as an item of Portfolio Collateral having the maturity, interest rate and other payment characteristics of the Synthetic Security and not of the Reference Obligation (including characterization as either an item of Fixed Rate Portfolio Collateral or Floating Rate Collateral) and, with respect to all other characteristics, will be included as an item of Portfolio Collateral having the relevant characteristics of the related Reference Obligation and not of the Synthetic Security.

Notwithstanding anything contained herein to the contrary, in no event may the Issuer acquire or dispose of any item of Portfolio Collateral or other eligible asset (as defined in Rule 3a-7) for the primary purpose of recognizing gains or decreasing losses resulting from market value changes.

Notwithstanding the foregoing, if the Issuer or the Servicer has previously entered into a commitment to purchase an item of Portfolio Collateral to be included in the Trust Estate and at the time of such commitment such item of Portfolio Collateral complied with the definition of Portfolio Collateral, then the Issuer or Servicer may consummate the purchase of such item of Portfolio Collateral notwithstanding that such item of Portfolio Collateral fails to comply with the definition of Portfolio Collateral on the date of settlement.

The Servicer may only direct the Trustee to sell an item of Portfolio Collateral that is the subject of an Offer or call for redemption, if together with its direction to sell such security, the Servicer certifies to the Trustee that the sales price for such Security is equal to or greater than 1% of the price available pursuant to such Offer or call and such sale will be treated as if the Offer or call were consummated for purposes of determining the Collections for the Due Period relating to the date on which such sale occurs.

The manner and timing for any purchase or sale of any item of Portfolio Collateral and the determination of when any such purchase or sale becomes effective for purposes of any calculations of the Overcollateralization Tests or other collateral criteria shall be set forth in the Indenture.

If an item of Portfolio Collateral becomes subject to an Exchange Offer after it has been purchased by the Issuer, the Servicer will be permitted to take such action with respect to the Underlying Instrument or the issuer thereof as may be required to convert such item of Portfolio Collateral into an item of Equity Portfolio Collateral.

Simultaneously with the issuance of the Notes, an Aggregate Principal Amount of Initial Portfolio Collateral securing the Notes at least equal to the Initial Portfolio Collateral Amount will be acquired or committed to be acquired by the Issuer from the net proceeds of the sale of the Notes, the Combination Notes and the Preferred Shares. The Issuer will also pledge the Deposit (consisting of cash deposited in the Initial Deposit Account in the approximate amount that, when added to the Initial Portfolio Amount, would allow the Issuer to purchase or commit to purchase an Aggregate Principal Amount of Original Portfolio Collateral on or before November 1, 2007 (the "**Effective Date**"), at least equal the Required Portfolio Collateral Amount) to the Trustee on the Closing Date, which Deposit will be used to purchase Eligible Investments at the direction of the Issuer pending application to purchase or commit to purchase Portfolio Collateral on or before the Effective Date, subject to the requirements and restrictions set forth in the Indenture. A portion of the Initial Portfolio Collateral, and the remaining Portfolio Collateral may be, acquired from or through Bear Stearns, the Servicer or their affiliates, at negotiated prices acceptable to the Issuer and the Servicer or if purchased from the Servicer or its affiliates at prices determined in accordance with the procedures described under "Special Considerations—Potential Conflicts of Interest."

The Issuer and the Servicer will seek to use the Deposit to purchase additional Original Portfolio Collateral prior to the Effective Date in accordance with the guidelines described herein and in the Indenture. If the Issuer and the Servicer are unable to use or commit to use the full amount of the Deposit on or prior to the Effective Date to purchase additional Original Portfolio Collateral having an Aggregate Principal Amount (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or before the Effective Date) at least equal to the Required Portfolio Collateral Amount, the Issuer will be required to effect an Initial Deposit Redemption on the Initial Deposit Redemption Date as described herein except, if the amount of the Deposit not so used or committed does not exceed U.S.\$2,000,000 in the aggregate, such amount will be transferred to the Collection Account as Collateral Principal Collections on the Effective Date.

If a Suspension Trigger Event is in effect, a Majority of the Controlling Class may deliver notice to the Issuer directing the Issuer and the Servicer to suspend any purchases of additional items for inclusion in the Trust Estate as an item of Portfolio Collateral. Such suspension shall automatically terminate once a Suspension Trigger Event is no longer in effect.

### Criteria for Purchase and Substitution of Collateral

The Issuer's entry into a commitment to purchase any additional collateralized loan obligations, synthetic securities and commercial loans after the Effective Date (each, an item of "**Additional Portfolio Collateral**") with Available Funds is subject to the limitations described under "Security for the Notes—Changes in Composition of Portfolio Collateral" and further is subject in each case to the following restrictions: (i) each of the Overcollateralization Tests is satisfied (*provided* that unscheduled principal proceeds may be used to purchase Additional Portfolio Collateral even if such tests are not satisfied, so long as the results of such tests would not be diminished) and (ii) the collateral criteria specified below are satisfied or the degree of compliance with such collateral criteria would not be diminished. In addition, during the Amortization Period, Collateral Principal Collections from any unscheduled prepayment may be used to purchase Additional Portfolio Collateral as described and meeting the requirements herein. The Issuer's entry into a commitment to purchase any substitute collateralized loan obligations, synthetic securities and commercial loans (each, an item of "**Substitute Portfolio Collateral**") with Collateral Disposition Proceeds during the Revolving Period is subject in each case to the following restrictions: (i) the Overcollateralization Tests and the collateral criteria specified herein are satisfied and the Interest Coverage Test (after the second Payment Date) for the most recent Payment Date was satisfied or (ii) if the Overcollateralization Tests and the collateral criteria specified below are not satisfied, the degree of compliance with such tests or criteria would not be diminished. In connection with a sale of an item of Credit Improved Portfolio Collateral after the Revolving Period or the receipt of Collateral Principal Collections in connection with an unscheduled prepayment after the Revolving Period, the Issuer may enter into commitments to apply such net disposition proceeds or such unscheduled prepayments (net of accrued interest and costs) to the purchase of Portfolio Loans either as Additional Portfolio Collateral or Substitute Portfolio Collateral. Substitute Portfolio Collateral may not be purchased with Collateral Disposition Proceeds from the sale of Defaulted Portfolio Collateral unless, after giving effect to such purchase, each of the Overcollateralization Tests is satisfied and the Interest Coverage Test for the most recent Payment Date was satisfied. Additional Portfolio Collateral or Substitute Portfolio Collateral consisting of CLO Securities may not be purchased with Available Funds during the period from the August 2011 Payment Date through the August 2012 Payment Date unless each of the Class B-1L Overcollateralization Ratio and the Class B-2L Overcollateralization Ratio are at least equal to their respective levels as of the Effective Date. The Issuer is not required, and may not be permitted under certain circumstances, to purchase or sell Portfolio Collateral and the rules described above are limited as set forth below under "—Changes in Composition of Portfolio Collateral."

Notwithstanding the forgoing, if there is no appointment of a successor Servicer within 90 days after the resignation or termination of the Servicer, any sales or disposition of Portfolio Collateral shall be limited to Credit Risk Portfolio Collateral and Defaulted Portfolio Collateral; *provided* that such restriction on the sale or disposition of Portfolio Collateral shall not apply if the Portfolio Collateral is being liquidated in whole or in part in connection with an acceleration or early termination of the Notes.

### S&P CDO Monitor Test

The "**S&P CDO Monitor Test**" will be satisfied if, after giving effect to the purchase or sale of an item of Portfolio Collateral (or both), as the case may be, (i) the S&P Loss Differential (defined below) of the Proposed Portfolio (defined below) is positive or (ii) the S&P Loss Differential of the Proposed Portfolio is greater than the S&P Loss Differential of the Current Portfolio (defined below). The S&P CDO Monitor Test is not applicable and does not have to be satisfied or maintained when reinvesting the proceeds of Defaulted Portfolio Collateral or Credit Risk Portfolio Collateral.

The "**S&P Loss Differential**" at any time, is the rate calculated by subtracting the S&P Scenario Default Rate (defined below) from the S&P Break-Even Default Rate (defined below) at such time.

The "**S&P Scenario Default Rate**" at any time, is an estimate of the cumulative default rate for the Current Portfolio or the Proposed Portfolio, as applicable, consistent with a "AAA" rating by S&P with respect to the Class A-1L Notes, a "AA" rating by S&P with respect to the Class A-2L Notes, a "A" rating by S&P with respect to the Class A-3L Notes, a "BBB" rating by S&P with respect to the Class B-1L Notes and a "BB" rating by S&P with respect to the Class B-2L Notes, determined by application of the S&P CDO Monitor (defined below) at such time.

The "**S&P Break-Even Default Rate**" at any time, is the maximum percentage of defaults which the Current Portfolio or the Proposed Portfolio, as applicable, can sustain, as determined by S&P through application of the S&P CDO Monitor which, after giving effect to S&P's assumptions on recoveries and timing and to the priority of payments, will result in sufficient funds remaining for the principal repayment of the Notes in full and the timely payment, as applicable, of interest on each Class of Notes as set forth in the Indenture.

The "**Current Portfolio**" means the Pledged Securities in the Trust Estate immediately prior to the sale, maturity or other disposition of an item of Portfolio Collateral or immediately prior to the acquisition of an item of Portfolio Collateral, as the case may be.

The "**Proposed Portfolio**" means the Aggregate Par Amount resulting from the sale, maturity or other disposition of an item of Portfolio Collateral or a proposed purchase of an item of Portfolio Collateral, as the case may be.

The "**S&P CDO Monitor**" is a dynamic, analytical computer model developed by S&P and used to estimate default risk of items of Portfolio Collateral and provided to the Servicer and the Issuer on or before the Closing Date, as it may be modified by S&P from time to time in connection with its confirmation of the ratings of the Notes following the Closing Date. The S&P CDO Monitor calculates the cumulative default rate of a pool of Portfolio Collateral consistent with a specified benchmark rating level based upon S&P's proprietary corporate debt default studies. In calculating the S&P Scenario Default Rate, the S&P CDO Monitor considers each obligor's most senior unsecured debt rating, the number of obligors in the portfolio, the obligor and industry concentration in the portfolio and the remaining weighted average maturity of the Portfolio Collateral and calculates a cumulative default rate based on the statistical probability of distributions of defaults on the Portfolio Collateral.

#### Moody's Asset Correlation Test and Weighted Average Rating Test

The Moody's Asset Correlation Test and weighted average rating of the Portfolio Collateral will be calculated in accordance with the methodology prescribed by Moody's and more fully described in the Indenture. The MAC Test and "**Weighted Average Rating Test**" will be satisfied in accordance with the application of the Collateral Quality Matrix described below.

The Moody's Asset Correlation ("**MAC**") Test (the "**MAC Test**") will be satisfied on each Measurement Date if the Moody's Correlation Factor on such Measurement Date (rounded up to the nearest whole number) is equal to or less than the designated Moody's Correlation Factor determined by application of the Collateral Quality Matrix. In connection with the MAC Test, the Moody's Correlation Factor is a single number determined in accordance with the correlation methodology provided to the Servicer and the Collateral Administrator by Moody's.

#### Collateral Quality Matrix Tests

Under the Indenture, the Servicer will be permitted to select from a table (that will be included in the Indenture, the "**Collateral Quality Matrix**"), a different group of thresholds for satisfying or otherwise determining the following tests:

- the Moody's Asset Correlation Test;
- the Minimum Average Recovery Rate Test;
- the Weighted Average Rating Test; and
- the Weighted Average Margin Test.

Therefore, notwithstanding anything to the contrary described herein, after giving effect to the proposed purchase of any Portfolio Collateral, the minimum/maximum amounts required to satisfy each of such tests may vary from time to time. In determining whether the criteria set forth in the Collateral Quality Matrix are satisfied, the Servicer may use the Collateral Quality Formula (as set forth in the Indenture) to interpolate between values of such criteria or may use any other method that is agreed to by the Issuer and Moody's. Depending on the

combination of thresholds in the Collateral Quality Matrix selected by the Servicer at any time, except as described below, the maximum required MAC Test can range from 3.0% to 5.5%; the maximum permitted weighted average rating factor prescribed by Moody's can range from 1500 to 2500; the minimum required average recovery rate prescribed by Moody's can range from 36.5% to 46.0% and the minimum Weighted Average Margin can range from 1.60% to 3.05%.

Each group of minimum/maximum amounts included in the Collateral Quality Matrix will include a combination of the minimum/maximum scores that are required to satisfy each of the Collateral Quality Matrix Tests. The Servicer may elect from time to time to have different combinations apply so long as (a) immediately after giving effect to the change in combinations, each of the applicable tests will be satisfied or not diminished and (b) the S&P CDO Monitor Test would have been satisfied as of the date of the most recent purchase or sale of an item of Portfolio Collateral had such test been calculated using the Current Portfolio, the Proposed Portfolio, and the S&P Scenario Default Rate that was in effect immediately prior to such purchase or sale, but using the S&P Break-Even Default Rate applicable to the Notes that would have been applicable after giving effect to the change in combinations. In no event will the Servicer be obligated to change the combinations contemplated by the Collateral Quality Matrix. Notwithstanding the foregoing, the combination of scores required to satisfy each of the Collateral Quality Matrix Tests may be changed if the Rating Condition is satisfied with respect to such change and, as a result, the minimum/maximum amounts may change as well.

#### Weighted Average Margin Test

The "**Weighted Average Margin Test**" will be determined by application of the Collateral Quality Matrix described above, after giving effect to any Coupon Adjustment.

The "**Weighted Average Margin**" refers to the amount (rounded up to the nearest 0.001%) equal to (i) the sum of the products obtained by *multiplying* the margin over Collateral LIBOR on each item of Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) as of the date of calculation (which will be determined for items of Floating Rate Collateral that do not bear interest based on Collateral LIBOR by expressing the current interest rate on such Floating Rate Collateral as a margin above or below three-month LIBOR on the date of determination, which margin will be expressed as a negative number if such current interest rate is lower than three-month LIBOR) by the Principal Balance of such item of Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) as of such date, *divided* by (ii) the Aggregate Principal Amount of all such Floating Rate Collateral (other than items of Defaulted Portfolio Collateral) on such date.

For purposes of calculating the Weighted Average Margin for any Delayed Drawdown Loan or Revolving Bank Loan, the principal balance representing the funded portion will be *multiplied* by the margin above Collateral LIBOR and the principal balance representing the unfunded portion will be *multiplied* by the commitment fee related thereto.

If an item of Floating Rate Collateral does not provide for Collateral LIBOR, the margin for this purpose shall be equal to the then applicable interest rate *minus* then current LIBOR. If an item of Floating Rate Collateral has a Collateral LIBOR floor, the excess of such floor rate over Collateral LIBOR will be added to the margin above Collateral LIBOR for purposes of calculating the Weighted Average Margin of such item of Floating Rate Collateral.

#### Weighted Average Coupon Test

The "**Weighted Average Coupon Test**" will be satisfied if, after the Effective Date, the Weighted Average Coupon of the Fixed Rate Portfolio Collateral is at least equal to 7.5% *per annum* as of the date of determination (or such lower *per annum* rate that the Rating Agencies have confirmed would not result in a withdrawal or downgrade of any of the then current ratings assigned by them to the Notes).

The "**Weighted Average Coupon**" refers to the amount (rounded up to the nearest 0.001%) determined by summing the products obtained by *multiplying*, for each item of Fixed Rate Portfolio Collateral then included in the Trust Estate (other than items of Defaulted Portfolio Collateral), the Principal Balance of such item of Portfolio Collateral and the stated rate of interest of such item of Portfolio Collateral and then *dividing* such sum by the Aggregate Principal Amount of all of the Fixed Rate Portfolio Collateral included in the Trust Estate (other than items of Defaulted Portfolio Collateral) as of such date of determination.

Minimum Average Recovery Rate Test. The Minimum Average Recovery Rate will be calculated in accordance with the methodology prescribed by Moody's and S&P and more fully described in the Indenture. The "**Minimum Average Recovery Rate Test**" with respect to Moody's, will be determined by application of the Collateral Quality Matrix described above and with respect to S&P, will be determined as set forth in the Indenture.

Weighted Average Life Requirement. The "**Weighted Average Life Requirement**" will be satisfied on any date of determination if the Weighted Average Life on such date of all items of Portfolio Collateral is equal to or less than the number of years set forth in Schedule I to the Indenture opposite the period set forth in Schedule I to the Indenture in which such requirement is being measured or, in the case of a Maturity Extension, the Extended Weighted Average Life Date. Notwithstanding the foregoing, the Weighted Average Life may vary from the restrictions set forth in the Indenture if the Rating Agencies have confirmed such variance would not result in a withdrawal or downgrade of any of the then current ratings assigned by them to the Notes.

The "**Weighted Average Life**" refers to the amount determined by summing the products obtained by *multiplying*, for each item of Portfolio Collateral (other than items of Defaulted Portfolio Collateral) then included in the Trust Estate, the Principal Balance of such item of Portfolio Collateral and the Average Life (as such term is defined below) of such item of Portfolio Collateral as of such date of determination and then *dividing* such sum by the Aggregate Principal Amount of all of the Portfolio Collateral (other than items of Defaulted Portfolio Collateral and Current Pay Obligations) included in the Trust Estate as of such date of determination. For any item of Portfolio Collateral, the "Average Life" shall be equal to the number of years obtained by *dividing* (a) the Principal Balance of such item of Portfolio Collateral into (b) the sum of the products obtained by *multiplying* (i) the amount of each of the remaining, required principal payments on such item of Portfolio Collateral by (ii) the number of years (calculated to the nearest one-twelfth) that will have elapsed between such date of determination and the making of such payment.

Rating. After giving effect to the proposed purchase of any Portfolio Collateral: (i) at least 90% of the Aggregate Principal Amount of the Portfolio Collateral included in the Trust Estate must be obligations of issuers having at least one class of indebtedness actually rated by Moody's (either publicly or privately) and (ii) at least 90% of the Aggregate Principal Amount of the Portfolio Collateral in the Trust Estate must be obligations of issuers having at least one class of indebtedness actually rated by S&P (either publicly or privately).

CCC/Caa Portfolio Collateral Limitation. The proposed purchase of any Portfolio Collateral may not increase the Aggregate Principal Amount of CCC/Caa Portfolio Collateral in the Trust Estate to more than 5% of the Aggregate Par Amount; *provided* that the Issuer may purchase CCC/Caa Portfolio Collateral which would increase the Aggregate Principal Amount of CCC/Caa Portfolio Collateral in the Trust Estate above 5% of the Aggregate Par Amount with the proceeds of CCC/Caa Portfolio Collateral; and *provided further* that no CLO Securities may be included in the determination of this CCC/Caa Portfolio Collateral Limitation.

Limitation on Non-U.S. Debt. After giving effect to the proposed purchase of any Portfolio Collateral,

In addition, simultaneously with the Issuer's purchase of any Delayed Drawdown Loan or Revolving Loan, the Issuer is required to deposit into the Loan Funding Account the full amount of any advances or delayed draws that may be required of the Issuer thereunder and principal repaid under any Revolving Loan is required to be deposited in the Loan Funding Account to the extent the Issuer's obligation to fund any future advances has not been irrevocably reduced.

#### Changes in Composition of Portfolio Collateral

The Portfolio Collateral may be retired prior to their respective final maturities, as a result of, among other things, the existence and frequency of exercise of any optional or mandatory redemption features of such securities. Subject to the terms of the Servicing Agreement and the Indenture, the Servicer is also permitted to direct the Trustee to sell (i) any Defaulted Portfolio Collateral and (ii) any Equity Portfolio Collateral.

In addition, subject to the terms of the Servicing Agreement and the Indenture, including the restrictions described herein, the Servicer may, at any time during the life of the Notes, direct the Trustee to dispose of one or more items of Portfolio Collateral in cases where (i) an item of Portfolio Collateral is, in the Servicer's sole judgment (which judgment shall not be questioned as a result of subsequent events), likely to decline in credit quality and, with the passage of time, become an item of Defaulted Portfolio Collateral; *provided*, that in forming such judgment an increase in credit spread or a decrease in Market Value of such item of Portfolio Collateral may only be utilized as corroboration of other bases of such judgment ("**Credit Risk Portfolio Collateral**") or (ii) an item of Portfolio Collateral has, in the Servicer's sole judgment, improved in credit quality or otherwise satisfies the Credit Improved Criteria (subject to the proviso thereof); *provided*, that in forming such judgment a reduction in credit spread or an increase in Market Value of such item of Portfolio Collateral may only be utilized as corroboration of other bases of such judgment ("**Credit Improved Portfolio Collateral**"). Notwithstanding anything to the contrary stated herein, if any item of Portfolio Collateral is to be purchased with the Collateral Disposition Proceeds of one or more assets that are not Credit Risk Portfolio Collateral, Defaulted Portfolio Collateral, Portfolio Collateral sold pursuant to a Portfolio Improvement Exchange or Portfolio Collateral that has become subject to withholding tax, the purchase of the proposed item of Portfolio Collateral must (i) restore compliance with the collateral criteria described above, the Interest Coverage Test or the Overcollateralization Tests (or bring the total Portfolio Collateral closer to compliance with any such test or limitation) not then satisfied or (ii) on a net basis improve the quality of the Portfolio Collateral as measured by such collateral criteria, Interest Coverage Test or Overcollateralization Tests and (iii) in the case of each of clause (i) and (ii) without causing any other collateral criteria, Interest Coverage Test or Overcollateralization Test to be violated or significantly increase the likelihood of such violation in the future.

In determining whether any Portfolio Collateral is likely to decline in credit quality and, with the passage of time become Defaulted Portfolio Collateral, the Servicer may, in its sole judgment, consider any relevant factor, including (without limitation) whether any of the Credit Risk Criteria exist. Notwithstanding the foregoing, the

existence or absence of any particular factor shall not require or prevent the Servicer's determination that any Portfolio Collateral is likely to decline in credit quality and, with the passage of time, become Defaulted Portfolio Collateral; *provided* that in forming such determination an increase in credit spread or a decrease in Market Value of such item of Portfolio Collateral may only be used as corroboration of other bases for such determination. Substitute Portfolio Collateral may not be purchased with Collateral Disposition Proceeds from the sale of Defaulted Portfolio Collateral unless, after giving effect to such purchase, each of the Overcollateralization Tests is satisfied and the Interest Coverage Test for the most recent Payment Date was satisfied.

In determining whether any Portfolio Collateral meets the definition of Credit Improved Portfolio Collateral, the Servicer may, in its sole judgment, consider any relevant factor, including (without limitation) whether any of the Credit Improved Criteria exist. Notwithstanding the foregoing, the existence or absence of any particular factor shall not require or prevent the Servicer's determination that any Portfolio Collateral has a market price that is greater than the price that is warranted by its terms and credit characteristics; *provided*, that in forming such judgment a reduction in credit spread or an increase in Market Value of such item of Credit Improved Portfolio Collateral may only be utilized as corroboration or other bases for such judgment.

Subject to the Sale Restriction Condition, Credit Risk Portfolio Collateral may be sold at any time. Following any sale of Credit Risk Portfolio Collateral as described below, at the direction of the Servicer during the Revolving Period, the Issuer shall use commercially reasonable efforts to purchase additional Portfolio Collateral (to the extent the purchase is in the best interest of the Issuer) with an Aggregate Principal Amount at least equal to the sale proceeds received by the Issuer with respect to the Portfolio Collateral sold. For this purpose, the Aggregate Principal Amount or Delayed Drawdown Loan shall only include its funded amount. In connection with a sale of an item of Credit Improved Portfolio Collateral during the Revolving Period, the Servicer (x) is required to identify in writing before the sale one or more specific manners in which it will be able, in accordance with the requirements of the Indenture, to cause the Issuer to apply the Collateral Disposition Proceeds of such sale (net of accrued interest and costs) to the purchase of Substitute Portfolio Collateral having an Aggregate Principal Amount equal to or greater than the Principal Balance of such item of Credit Improved Portfolio Collateral by the end of the immediately succeeding Due Period (it being understood that such identification shall not be considered a requirement or an assurance that any specific purchase will be consummated) and (y) is required to certify that it reasonably believes at the time of such sale that, after giving effect to such sale and subsequent purchase, either (i) the Overcollateralization Tests and all other criteria for the purchase of Portfolio Collateral are satisfied or (ii) if one or more of such tests or criteria is not satisfied, the degree of compliance with such test or criteria would not be diminished. Notwithstanding the foregoing, any Portfolio Collateral may also be sold upon the advice of an opinion of counsel that such item of Portfolio Collateral is, or may become, subject to a withholding or other similar tax. Notwithstanding anything to the contrary stated herein, the Servicer may direct the sale of an item of Portfolio Collateral that was CCC/Caa Portfolio Collateral or Discount Portfolio Collateral at the time of purchase only if it constitutes Credit Risk Portfolio Collateral or Defaulted Portfolio Collateral, is sold in connection with the Optional Redemption of Notes in whole or if the Servicer reasonably expects that the sale and any related purchase of Substitute Portfolio Collateral will restore compliance with any of the Interest Coverage Test, the collateral criteria described above or the Overcollateralization Tests that would be failed or not satisfied in the absence of such sale and purchase.

During any period after the first Due Period (x) with respect to sales of Credit Risk Portfolio Collateral, if the rating of the Class A-1LA Notes, the Class A-1LB Notes or the Class A-2L Notes has been downgraded at least one rating sub-category by Moody's (and has not been restored) or the rating of any of the Class A-3L Notes, the Class B-1L Notes or the Class B-2L Notes has been downgraded by at least two rating sub-categories by Moody's (and has not been restored to a rating no more than one rating sub-category below the original rating of such Class of Notes), or if the Class A Overcollateralization Ratio is less than 90% of the Class A Overcollateralization Percentage, or (y) with respect to sales of Credit Improved Portfolio Collateral, if the rating of the Class A-1LA Notes, the Class A-1LB Notes or the Class A-2L Notes has been downgraded at least one rating sub-category by Moody's (and has not been restored) or the rating of any of the Class A-3L Notes, the Class B-1L Notes or the Class B-2L Notes has been downgraded by at least two rating sub-categories by Moody's (and has not been restored to a rating no more than one rating sub-category below the original rating of such Class of Notes) (each applicable condition described in clauses (x) and (y), a "**Sale Restriction Condition**"), the Issuer is required to send a notice to the Trustee and the Holders of the Notes to the effect that for so long as the applicable Sale Restriction Condition

exists, unless the Holders of at least 60% in Aggregate Principal Amount of the Notes elect to retain the guidelines in effect on the Closing Date for sales of an item of Credit Risk Portfolio Collateral or Credit Improved Portfolio Collateral, as applicable, (i) no item of Credit Risk Portfolio Collateral may be sold unless (A) the rating of the obligor or of any debt or securities issued by the obligor under such an item of Credit Risk Portfolio Collateral has been lowered, withdrawn or put on any "credit watch" list (or similar list) with negative implications by S&P, Moody's or Fitch, or (B) such an item of Credit Risk Portfolio Collateral satisfies the Credit Risk Criteria and not objected to by the Holders of more than 60% in Aggregate Principal Amount of the Notes within forty-five (45) days of the date of such notice; *provided* that in making such determination to sell an item of Credit Risk Portfolio Collateral, an increase in credit spread or a decrease in Market Value of such item of Credit Risk Portfolio Collateral may only be used as corroboration of other bases for such determination or (ii) no item of Credit Improved Portfolio Collateral may be sold unless such item of Credit Improved Portfolio Collateral satisfies the Credit Improved Criteria and not objected to by the Holders of more than 60% in Aggregate Principal Amount of the Notes within forty-five (45) days of the date of such notice; *provided*, that in making such determination to sell such item of Credit Improved Portfolio Collateral, a reduction in credit spread or an increase in Market Value of such item of Credit Improved Portfolio Collateral may only be utilized as corroboration or other bases for such judgment.

During the Due Periods relating to the Revolving Period, and under certain circumstances during the Amortization Period as described below, certain Collections identified above under "Description of the Notes—Payments on the Notes; Priority of Distributions" will be used to purchase Additional Portfolio Collateral as described below subject to satisfaction or, in certain cases, maintenance of the Overcollateralization Tests and the collateral criteria described herein and satisfaction of the Interest Coverage Test (after the second Payment Date) for the most recent Payment Date as more specifically set forth in the Indenture.

During any period when certain Collections are to be used to purchase Additional Portfolio Collateral, the Servicer generally will have the authority to commit to a purchase of such Additional Portfolio Collateral upon the receipt (actual or scheduled) in the Collection Account of Collections of an amount at least equal to the Periodic Reserve Amount with respect to the relevant Payment Date. For purposes of this calculation, Collections will be deemed to include, as of any date of determination, the sum of 100% of all cash collections actually received in respect of the Portfolio Collateral as of such date of determination and 100% of all distributions scheduled or otherwise reasonably expected to be received in respect of the Portfolio Collateral (other than any items of Defaulted Portfolio Collateral or Equity Portfolio Collateral) during the period from such date of determination until the end of the applicable Due Period. In addition, the Indenture will permit the Servicer or the Issuer to direct the Trustee to deposit or retain in the Collection Account after the relevant Payment Date amounts that are to be used to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral as long as such amounts are held in Eligible Investments pending such use to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral and are used to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral meeting the specified requirements no later than the last day of the Due Period relating to the Payment Date next following such Payment Date.

In connection with a sale of an item of Credit Improved Portfolio Collateral after the Revolving Period or the receipt of Collateral Principal Collections due to an unscheduled prepayment after the Revolving Period, the Servicer may enter into commitments to apply such Collateral Disposition Proceeds or such unscheduled prepayments (net of accrued interest and costs) to the purchase of Portfolio Loans as either Additional Portfolio Collateral or Substitute Portfolio Collateral having an Aggregate Principal Amount equal to or greater than the Principal Balance of the original item of Portfolio Collateral within 90 days of receipt of such proceeds, so long as the Servicer certifies as of the date of purchase that it reasonably believes at the time of such commitment that, after giving effect to such sale and subsequent purchase, (A) each of the Overcollateralization Tests and the other collateral criteria described herein would be satisfied and the Interest Coverage Test was satisfied for the most recent Payment Date, (B) such Portfolio Loan to be purchased has a Moody's Rating equal to or higher than the Moody's Rating of the original item of Portfolio Collateral, (C) such Portfolio Loan to be purchased has an S&P Rating equal to or higher than the S&P Rating of the original item of Portfolio Collateral, (D) such Portfolio Loan to be purchased has a stated maturity on or prior to the final maturity of such original item of Portfolio Collateral, (E) the Weighted Average Life of the Portfolio Collateral would not be increased and (F) neither Rating Agency has reduced or withdrawn (and not restored) the rating assigned by it on the Closing Date to any Class of Notes.

No purchase of Additional Portfolio Collateral or Substitute Portfolio Collateral will be permitted during the continuance of an Event of Default.

No acquisition or disposition of any item of Portfolio Collateral or other eligible asset (as defined in Rule 3a-7) will be permitted for the primary purpose of recognizing gains or decreasing losses resulting from market value changes. In addition, the Issuer may not dispose of any item of Portfolio Collateral unless such disposition is made on an "arm's-length basis" for fair market value (as determined at the time the Issuer first enters into a binding commitment to dispose of such item of Portfolio Collateral). Any disposition of Portfolio Collateral will be conducted in accordance with the requirements of the Servicing Agreement and, if effected with the Servicer, the Co-Issuers, the Trustee or any of their affiliates, will be effected in a secondary market transaction on terms as favorable to the holders of the Notes as would be the case if such person were not so affiliated. In the event of an Optional Redemption, or Tax Event Redemption, the Servicer may direct the Trustee to sell certain Portfolio Collateral without regard to the foregoing limitations (except for the limitation that no Portfolio Collateral be disposed of for the primary purpose of recognizing gains or decreasing losses resulting from market value changes); *provided* that (i) the proceeds therefrom will be at least sufficient to pay certain expenses and other amounts and redeem in whole but not in part all Notes to be redeemed simultaneously; and (ii) such proceeds are used to make such a redemption. See "Description of the Notes-Optional Redemption," "Tax Event Redemption" and "Special Redemption."

The Servicer will select the Initial Portfolio Collateral and will be responsible for monitoring the items of Portfolio Collateral that at any time are included in the Trust Estate, selecting Additional Portfolio Collateral and Substitute Portfolio Collateral and effecting additions and substitutions. Any addition or substitution of an item of Portfolio Collateral by the Servicer shall be in accordance with the applicable requirements provided in the Servicing Agreement.

#### Securities Lending Agreements

So long as no Event of Default is continuing and if after the completion of the transaction no more than 20% of the Aggregate Par Amount may include Portfolio Collateral subject to any securities lending agreement as set forth in the Indenture, the Servicer, pursuant to the terms of the Indenture, may cause Portfolio Collateral that is not Defaulted Portfolio Collateral to be lent for a term of 90 days or less to banks, broker-dealers, and other financial institutions (other than insurance companies) having long-term and short-term senior unsecured debt ratings or guarantors with ratings of at least "A1" (and not "A1" but on credit watch with negative implications) and "P-1" (and not on credit watch for possible downgrade) from Moody's and a long-term senior unsecured debt rating of at least "A+" from S&P (each, a "**Securities Lending Counterparty**") pursuant to one or more agreements (each, a "**Securities Lending Agreement**"); *provided* that Portfolio Collateral whose Market Value cannot be determined under clauses (a), (b) or (c) of that definition may not be lent pursuant to a Securities Lending Agreement; *provided, further*, that the gross income from all such transactions during any fiscal year shall not exceed 15% of the gross income of the Issuer for such fiscal year. Upon the direction of the Issuer, the Trustee shall release any lent Portfolio Collateral to a Securities Lending Counterparty as directed by the Servicer. The Securities Lending Counterparties may be Affiliates of the Initial Purchasers or Affiliates of the Servicer. The duration of any Securities Lending Agreement shall not exceed the Final Maturity Date of the Notes.

#### Accounts

All Collections (and any upfront payments received from a Hedge Counterparty under a Hedge Agreement) will be remitted to the Collection Account and will be available, to the extent described herein, for application in the manner and for the purposes described herein. Funds held in the Collection Account that are not used to purchase or committed to use to purchase Additional Portfolio Collateral or Substitute Portfolio Collateral will be held by the Trustee, as directed by the Servicer, as soon as practicable in Eligible Investments. All Eligible Investments in the Collection Account must mature on or before the Business Day prior to the next Payment Date. The Trustee may establish any number of sub-accounts to the Collection Account for its convenience in administering the accounts and the Trust Estate.

All cash pledged to the Trustee on the Closing Date which is to be used to purchase additional Original Portfolio Collateral on or before the Effective Date will be deposited into the Initial Deposit Account. Funds held in the Initial Deposit Account pending use to purchase additional Original Portfolio Collateral will be held by the Trustee, as directed by the Servicer, in Eligible Investments. Eligible Investments in the Initial Deposit Account are to mature no later than the Business Day prior to the date on which such funds are to be invested in additional

Original Portfolio Collateral; *provided* that, to the extent the Deposit in the Initial Deposit Account is not so used or committed to be used on or before the Effective Date such unused amount will be applied to effect an Initial Deposit Redemption of the Class A-1LA Notes, or deposited in the Collection Account as described herein.

If, at any time on or after the Effective Date, the Aggregate Principal Amount of the Portfolio Collateral (without giving effect to any reductions of that amount that may have resulted from scheduled principal payments, principal prepayments or dispositions made with respect to the Original Portfolio Collateral on or prior to such time) exceeds the Required Portfolio Collateral Amount and there are funds remaining from the Deposit held in the Initial Deposit Account, the Servicer may direct the Trustee to transfer up to the lesser of U.S.\$1,000,000 and 25% of such funds to the Collection Account as additional Collateral Interest Collections; *provided* that the Overcollateralization Tests and the collateral criteria described herein are satisfied and the Interest Coverage Test for the most recent Payment Date was satisfied. The remainder of the Deposit shall be used to purchase Portfolio Collateral, as directed by the Servicer.

An Expense Reimbursement Account of U.S.\$50,000 will be established by the Issuer and pledged to the Trustee for the payment of Issuer administrative expenses which become due and must be paid between Payment Dates. Any amounts withdrawn from the Expense Reimbursement Account will be reimbursed on each Payment Date in accordance with the priority of the distribution provisions described herein. Funds held in the Expense Reimbursement Account will be held by the Trustee, as directed by the Servicer, in Eligible Investments. Eligible Investments in the Expense Reimbursement Account are to mature on or before the date on which such funds are expected to be used by the Issuer for the payment of expenses.

A Closing Expense Account will be established by the Trustee. From the Closing Date to the Payment Date occurring in November 2007 (or February 2008, to the extent unpaid expenses are identified to the Trustee), funds deposited in the Closing Expense Account will be used to pay the fees, commissions and expenses associated with the issuance of the Notes. Funds held in the Closing Expense Account will be held by the Trustee, as directed by the Servicer, in Eligible Investments. On the Payment Date occurring in November 2007 (or February 2008, to the extent unpaid expenses are identified to the Trustee), any remaining funds in the Closing Expense Account (not being held for a pre-approved closing expense) will be transferred to the Collection Account and applied as Collateral Interest Collections.

A Reserve Account will be established by the Trustee for the benefit of the Noteholders and the other secured parties under the Indenture, over which the Trustee shall have exclusive control and the sole right of withdrawal at the direction of the Servicer. On the Closing Date, the Trustee, at the direction of the Issuer, shall deposit into the Reserve Account approximately \$1,500,000 from the net proceeds of the Offering. Amounts on deposit in the Reserve Account shall be held in Eligible Investments in accordance with the Indenture.

A Loan Funding Account will be established by the Issuer with the Trustee into which an amount equal to the Issuer's commitment to make or otherwise fund advances related to the Delayed Drawdown Loans and the Revolving Loans will be deposited. Such amount will be reduced upon a sale in whole or in part of such Delayed Drawdown Loan or Revolving Loan as prescribed in the Indenture. Funds held in the Loan Funding Account will be held by the Trustee, as directed by the Servicer, in Eligible Investments. Eligible Investments in the Loan Funding Account are required to mature no later than one Business Day after the date such Eligible Investment is purchased.

A Default Swap Collateral Account will be established for each Default Swap. The Trustee will deposit into each such Default Swap Collateral Account on the Closing Date or on the date any such Default Swap is entered into, as applicable, the amount required to secure the obligations of the Issuer in accordance with the terms of the related Default Swap, which amount shall be at least equal to the amount referred to in paragraph (iv) of the definition of Default Swap Collateral, such amounts to be credited to any such Default Swap Collateral Account shall be transferred by the Trustee from the Collection Account or the Initial Deposit Account, as directed by the Servicer.

Amounts on deposit in a Default Swap Collateral Account will be maintained in accordance with the terms and provisions of the related Default Swap. Amounts and property credited to a Default Swap Collateral Account shall be withdrawn by the Trustee and applied to the payment of any amounts payable by, or to the delivery of securities deliverable by, the Issuer to the related Default Swap Counterparty in accordance with the terms of such

Default Swap. Income received on amounts on deposit in a Default Swap Collateral Account will be applied in accordance with the terms of the applicable Default Swap to the payment of any periodic amounts owed by the Issuer to the applicable Default Swap Counterparty on the date such amounts are due, as directed by the Servicer. After application of such amounts, any income then contained in such Default Swap Collateral Account will be withdrawn from such account and deposited in the Collection Account for distribution as Collateral Interest Collections. After payment of all amounts owing by the Issuer to a Default Swap Counterparty in accordance with the terms of the related Default Swap (other than any Default Swap Counterparty Termination Payment) the Trustee shall be directed to withdraw all funds and other property credited to the Default Swap Collateral Account related to such Default Swap and credit such funds and other property to the Collection Account, as Collateral Principal Collections (in the case of cash and Eligible Investments) and the "collateral account" established pursuant to the Indenture (in the case of Portfolio Collateral and other financial assets) for application as Collateral Principal Collections (other than any income thereon which will be Collateral Interest Collections) in accordance with the terms of the Indenture. Any Default Swap Counterparty Termination Payments owed by the Issuer to the Default Swap Counterparty shall be paid solely from amounts available therefor under the priority of payment provisions described herein.

Except for interest on securities credited to a Default Swap Collateral Account payable to the Issuer as described pursuant to the preceding paragraph, funds and other property standing to the credit of a Default Swap Collateral Account will not be considered to be an asset of the Issuer for purposes of the Interest Coverage Test or the Overcollateralization Tests; *provided, however*, that the Default Swap that relates to such Default Swap Collateral Account will be considered an asset of the Issuer for such purposes.

If the terms of any Default Swap require the Default Swap Counterparty to secure its obligations with respect to such Default Swap, as directed by the Servicer, the Trustee will cause to be established a Default Swap Issuer Account in respect of such Default Swap. The Trustee shall credit to any such Default Swap Issuer Account all funds and other property received from the applicable Default Swap Counterparty to secure the obligations of such Default Swap Counterparty in accordance with the terms of such Default Swap.

Funds and other property standing to the credit of any Default Swap Issuer Account will not be considered to be an asset of the Issuer for purposes of the Interest Coverage Test or the Overcollateralization Tests; *provided, however*, that the Default Swap that relates to such Default Swap Issuer Account will be considered an asset of the Issuer for such purposes.

In accordance with the terms of the applicable Default Swap, funds and other property standing to the credit of the related Default Swap Issuer Account will be withdrawn by the Trustee and applied to the payment of any amount owing by the related Default Swap Counterparty to the Issuer. After payment of all amounts owing by the Default Swap Counterparty to the Issuer in accordance with the terms of the related Default Swap, all funds and other property standing to the credit of the related Default Swap Issuer Account will be withdrawn from such Default Swap Issuer Account and paid or transferred to the related Default Swap Counterparty, as directed by the Servicer, in accordance with the applicable Default Swap.

On or before the date on which the Issuer enters into a Securities Lending Agreement and delivers a copy of it to the Trustee, the Trustee shall create a segregated trust account designated as the "**Securities Lending Account**" with respect to any such Securities Lending Agreement. All collateral posted by any Securities Lending Counterparty and received by the Trustee in support of its respective obligation under a Securities Lending Agreement shall be immediately credited to the Securities Lending Account and posted to a sub-account related to such Securities Lending Account. The only permitted withdrawal from or application of funds credited to the Securities Lending Account shall be: (i) for application to obligations of the relevant Securities Lending Counterparty to the Issuer under a Securities Lending Agreement if the Securities Lending Agreement becomes subject to early termination or in the exercise of remedies under the related Securities Lending Agreement upon any "event of default" under and as defined in the related Securities Lending Agreement, including liquidating the related collateral, or (ii) to return the posted collateral to the relevant Securities Lending Counterparty when and as required by the relevant Securities Lending Agreement, in each case as directed by the Servicer.

Note Valuation Report; Noteholder Reports

Promptly after receipt by the Trustee thereof, but in any event not later than the Business Day prior to each Payment Date, the Trustee shall deliver (or otherwise make available) to each Noteholder and each Rating Agency a Noteholder report setting forth certain information regarding payments due to the Noteholders on such Payment Date and the Pledged Securities. In addition, not later than the first day (or, if such day is not a Business Day, on the next succeeding Business Day) of each month (for months in which no Payment Date occurs) or the related Payment Date (for months in which a Payment Date occurs), commencing in July, 2007, the Issuer shall provide, or procure the provision, to each Rating Agency and the Trustee, who shall forward a copy (or otherwise make available) to each Noteholder, a monthly report containing additional information with respect to the Pledged Securities included in the Trust Estate. Except as provided herein, the Indenture provides that the information contained in these reports is confidential and may not be disclosed, except as provided therein.

Pursuant to the Indenture, the Issuer will consent to the posting of each such report, together with this Confidential Offering Circular, the Indenture and any amendments or modifications thereto, to the internet based password protected electronic repository of transaction documents relating to privately offered and sold collateralized debt obligation securities located at "www.cdolibrary.com".

**THE HEDGE AGREEMENTS**The Cap Agreement

On the Closing Date, the Issuer and Bear Stearns Capital Markets Inc. (the "**Cap Provider**") will enter into the Cap Agreement (the "**Cap Agreement**"). The Issuer will make a single fixed payment to the Cap Provider at the beginning of such transaction. The Cap Agreement will provide that for each Payment Date, commencing with the Payment Date occurring in February 2008 through the Payment Date occurring in August 2009, on which LIBOR (determined on the related LIBOR Determination Date) exceeds 6% *per annum* (the "**Cap Strike Rate**"), the Cap Provider will pay to the Issuer an amount (the "**Cap Payment**") equal to the excess of LIBOR for such Periodic Interest Accrual Period over the Cap Strike Rate on the notional amount set forth on Annex B hereto for such Payment Date (the "**Cap Notional Amount**") calculated on the basis of a year of 360 days and the actual number of days elapsed. If the guarantor of the Cap Provider (or in certain limited cases, the Cap Provider) fails to maintain certain rating levels described in the Indenture or the Cap Agreement, the Cap Provider may be required to post collateral or assign its rights and obligations under the Cap Agreement to a replacement Cap Provider and, if the Cap Provider does not take such action as required under the Cap Agreement, the Issuer will be permitted to terminate such Cap Agreement. See "Special Considerations—Interest Rate Risk" for a discussion of certain considerations with respect to the Cap Agreement.

Cap Events of Default and Termination Events

The Cap Agreement may be terminated, whether or not the Notes have been paid in full on or prior to such termination, upon, among other things, (i) certain events of bankruptcy, insolvency, conservatorship, receivership or reorganization of the Issuer or the Cap Provider, (ii) failure on the part of the Issuer or the Cap Provider to make any payment under the Cap Agreement within the applicable grace period, or (iii) a change in law making it illegal for either the Issuer or the Cap Provider to be a party to, or perform an obligation under, the Cap Agreement. Notwithstanding the foregoing, the Issuer will not terminate the Cap Agreement unless the Rating Condition is satisfied in connection with such termination.

Payment Amounts

If an event of default or a termination event under the Cap Agreement occurs, a lump-sum amount would be payable by the Cap Provider to the Issuer or by the Issuer to the Cap Provider. Such termination amount would generally be based on the sum of payments under the Cap Agreement that became due prior to the date on which the Cap Agreement (or portion thereof) are terminated, but remain unpaid. If the Issuer or the Cap Provider, as applicable, fails to pay such lump-sum amount on the date specified in the Cap Agreement (which would generally be the date designated as the "Early Termination Date" under the Cap Agreement), then in accordance with the Cap Agreement, interest will accrue on such lump-sum amount at a rate equal to the payee's cost of funds *plus* 1%, compounded daily, and the termination amount will be equal to the sum of the original lump-sum amount and such accrued interest.

Any termination amounts payable by the Issuer as a consequence of termination of the Cap Agreement pursuant to an event as to which the Issuer is the "Defaulting Party" (as defined in the Cap Agreement), in the case of a Cap Event of Default, or the "Affected Party" (as defined in the Cap Agreement), in the case of a Termination Event, is generally payable prior to distributions on the Notes.

#### Collateral and Substitution Requirements under the Cap Agreement

The Cap Agreement entered into by the Issuer and Bear Stearns Capital Markets Inc. is expected to provide that in the event that (a) an S&P First Level Downgrade occurs and is continuing, then within 30 days after such rating withdrawal or downgrade, the Cap Provider shall, subject to satisfaction of the Rating Condition with respect to S&P, at its own expense, either (i) procure a Permitted Transfer, (ii) obtain an Eligible Guaranty or (iii) post collateral in accordance with the related CSA; (b) an S&P Second Level Downgrade occurs and is continuing, then within 10 Local Business Days (as defined in the Cap Agreement) after such rating withdrawal or downgrade, the Cap Provider shall, subject to satisfaction of the Rating Condition with respect to S&P, at its own expense, either (i) procure a Permitted Transfer or (ii) obtain an Eligible Guaranty; and (c) a Moody's Second Level Downgrade occurs and is continuing, the Cap Provider shall as soon as reasonably practicable thereafter, at its own expense and using commercially reasonable efforts, either (i) procure a Permitted Transfer or (ii) obtain an Eligible Guaranty.

The Cap Agreement also is expected to provide that the following will constitute "Additional Termination Events" under the Cap Agreement upon the occurrence of which the Issuer will have the right to terminate the Cap Agreement: (a) if an S&P First Level Downgrade has occurred and is continuing and the Cap Provider fails to take any action described in clause (a) in the preceding paragraph within the time period specified therein; (b) an S&P Second Level Downgrade has occurred and is continuing and the Cap Provider fails to take any action described in clause (b) in the preceding paragraph within the time period specified therein; (c)(i) a Moody's Second Level Downgrade has occurred and been continuing for 30 or more Local Business Days and (ii) the Cap Provider has failed to comply with or perform any obligation to be complied with or performed by the Cap Provider in accordance with the CSA; and (d)(i) a Moody's Second Level Downgrade has occurred and been continuing for 30 or more Local Business Days and (ii) either (I) at least one Eligible Replacement has made a Firm Offer to be the transferee or (II) at least one entity that satisfies the Moody's Approved Ratings Threshold has made a Firm Offer to provide an Eligible Guaranty in respect of all of the Cap Provider's present and future obligations under the Cap Agreement.

The Cap Agreement will provide that the Cap Provider may assign its obligations under the Cap Agreement to any institution which satisfies the Rating Condition with respect to such assignment.

#### Sale of Rights under Cap Agreement

If, after the end of Revolving Period, the sum of the notional amount of the Cap Agreement and the minimum amount of the Floating Rate Collateral allowed exceeds the sum of the Aggregate Principal Amounts of the Notes at any time, upon satisfaction of the Rating Condition and with the Cap Provider's consent, the Servicer will be permitted to sell the Issuer's right to receive the payments with respect to the Cap Agreement to the extent of such excess notional amount. Proceeds from any such sale will be distributed as Collateral Interest Collections on the Payment Date relating to the Due Period in which such sale occurs. In no event shall all or any portion of such rights with respect to such Cap Agreement be sold if such sale would result in a net loss by the Issuer and no such sale may be consummated unless the Issuer is relieved of liability with respect to the portion of such Cap Agreement sold.

The Cap Provider ratings requirements, termination events and the required consents and actions described herein are subject to modification prior to the Closing Date, and may be revised thereafter upon satisfaction of the Rating Condition. The description of the provisions of the Cap Agreement herein may vary from the actual Cap Agreement to be entered into by the Issuer and Bear Stearns Capital Markets Inc. on the Closing Date.

#### The Cap Provider

The information appearing in this section headed "The Cap Provider" has been prepared by the Cap Provider and has not been independently verified by the Co-Issuers, the Servicer, the Trustee or the Initial Purchasers. Accordingly, notwithstanding anything to the contrary herein, none of the Co-Issuers, the Servicer, the Trustee or the Initial Purchasers assumes any responsibility for the accuracy, completeness or applicability of any such information.

Bear Stearns Capital Markets Inc., or the Cap Provider, is incorporated in the State of Delaware. The Cap Provider is engaged in fixed income derivatives transactions and hedges associated therewith. The Cap Provider is an affiliate of Bear Stearns.

The most recent Annual Report on Form 10-K, the Quarterly Reports on Form 10-Q and the Current Reports on Form 8-K of BSC are on file with and available from the Securities and Exchange Commission. Copies of these documents will be provided upon request and without charge to each person, including any Noteholder, who receives a copy of this Confidential Offering Circular. #### The Cashflow Swap Agreements

In addition to the Cap Agreement, on or after the Closing Date, the Issuer may enter into one or more timing swap agreements, including coupon timing swap agreements (each a "**Cashflow Swap Agreement**" and, together with the Cap Agreement, the "**Hedge Agreements**"), as directed by the Servicer, with any one or more institutions entering into or guaranteeing a Cashflow Swap Agreement with the Issuer (each a "**Cashflow Swap Counterparty**" and, together with the Cap Provider, a "**Hedge Counterparty**"), *provided* that any such Cashflow Swap Agreement has a maximum term of 10 years. The Cashflow Swap Agreements would allow the Issuer to manage potential mismatches between the timing of receipts of interest on the Portfolio Collateral and Eligible Investments and the timing of interest payments due on the Notes in accordance with the Priority of Payments, pursuant to which the Issuer is entitled to receive payments from the related Cashflow Swap Counterparty on a certain date in exchange for the Issuer's obligation to make payments to such Cashflow Swap Counterparty on one or more Payment Dates. Each such Cashflow Swap Agreement will be documented as one or more confirmations under a master swap agreement in the form published by the International Swaps and Derivatives Association, Inc. ("**ISDA**"). Each Cashflow Swap Agreement will be governed by New York law (or, at the option of the Issuer, English law). The Servicer, on behalf of the Issuer, shall obtain the approval of each new Cashflow Swap Agreement from each Cashflow Swap Counterparty to a then-existing Cashflow Swap Agreement and the approval of a Majority of the Controlling Class. The Trustee shall only pay amounts due by the Issuer to any Cashflow Swap Counterparties on Payment Dates and in accordance with the priority of payments described herein.

Subject to the terms of the Indenture, the Trustee shall take all steps necessary to enforce the Issuer's rights under any Cashflow Swap Agreements, including receiving payments from the Cashflow Swap Counterparty when due and exercising the Issuer's rights under any Cashflow Swap Agreements. If the Cashflow Swap Agreement has been terminated without a replacement, and all termination amounts owed to the Cashflow Swap Counterparty under the Cashflow Swap Agreement, if any, have been paid, all rights of the Cashflow Swap Counterparty under the Indenture (including all of its rights as a secured party) shall terminate and be of no force and effect.

The Indenture requires that if at any time any Cashflow Swap Agreement becomes subject to early termination due to the occurrence of an event of default or a termination event, the Issuer and the Trustee shall take such actions (following the expiration of any applicable grace period) to enforce the rights of the Issuer and the Trustee under such Cashflow Swap Agreement as may be permitted by the terms of such Cashflow Swap Agreement and consistent with the terms hereof, and shall apply the proceeds of any such actions (including, without limitation, the proceeds of the liquidation of any collateral pledged by the Cashflow Swap Counterparty thereunder) to enter into a replacement Cashflow Swap Agreement. Any costs attributable to entering into a replacement Cashflow Swap Agreement which exceed the sum of the proceeds of the liquidation of any such Cashflow Swap Agreement shall be borne solely by the Cashflow Swap Counterparty.

The Trustee will agree to any reduction in the notional amount of any Cashflow Swap Agreement proposed by the related Cashflow Swap Counterparty and agreed to by the Servicer, or any termination, replacement and/or other modification of any such Cashflow Swap Agreement or any additional Cashflow Swap Agreement proposed by the Servicer; *provided*, that, in the case of any such replaced Cashflow Swap Agreement, modified Cashflow Swap Agreement or additional Cashflow Swap Agreement to be entered into that is not an interest rate swap, floor and/or cap agreement, including without limitation an interest rate basis swap agreement, such Cashflow Swap Agreement does not impose any increased duties, obligations or liabilities on the Trustee.

Each Hedge Agreement may be terminated pursuant to its terms upon an Optional Redemption or Tax Event Redemption of the Notes or an acceleration of maturity of the Notes after an Event of Default. A Hedge Agreement will not be permitted to be terminated as the result of a Default, Event of Default or redemption of the Notes unless any acceleration of maturity of the Notes resulting from the Event of Default or any such redemption, as the case may be, is no longer permitted to be rescinded pursuant to the Indenture.

### **MATURITY AND PREPAYMENT CONSIDERATIONS**

The Final Maturity Date each Class of Notes is the Payment Date occurring in August 2024, or, upon a Maturity Extension (if any), the applicable Extended Final Maturity Date, and subject to prior redemption under the circumstances described herein. The average life of each Class of Notes is expected to be shorter than the number of years until the Final Maturity Date, and the average lives may vary due to various factors. The average life of each Class of Notes, refers to the weighted amount of time that will elapse from the date of delivery of such Notes until each dollar of the principal of such securities will be paid to the investor. Such average lives will be determined by the amount and frequency of principal payments which in turn are dependent upon, among other things, the amount of sinking fund payments and other payments received at or in advance of the scheduled maturity of Portfolio Collateral (whether through sale, maturity, redemption, prepayment, default or other liquidation or disposition). The actual average life and final maturity of each Class of Notes will be affected by the financial condition of the issuers of the underlying Portfolio Collateral and the characteristics of such collateral, including the existence and frequency of exercise of any optional or mandatory redemption features, the prevailing level of interest rates, the redemption price, the actual default rate and the actual level and timing of recoveries on any Defaulted Portfolio Collateral, the frequency of tender or exchange offers for such item of Portfolio Collateral, and the ability of the Issuer to reinvest proceeds in Additional Portfolio Collateral or Substitute Portfolio Collateral satisfying the criteria set forth in the Indenture and the interest rates obtained in connection with the purchase of such Additional Portfolio Collateral or Substitute Portfolio Collateral or in connection with the application of proceeds to purchase Eligible Investments. It is expected that a substantial amount (by Principal Balance) of the Portfolio Collateral will be subject to mandatory redemption or optional redemption or prepayment by the issuer thereof or obligor thereunder. Any acquisition of Additional Portfolio Collateral or Substitute Portfolio Collateral or disposition of an item of Portfolio Collateral will likely change the composition and characteristics of the Portfolio Collateral included in the Trust Estate and the rate of payment thereon, and, accordingly, may affect the actual average life of the Notes. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

In addition, the Notes are subject to redemption at the times and under the circumstances described herein, including Initial Deposit Redemption, O/C Redemption Optional Redemption, Rating Confirmation Failure Redemption, Tax Event Redemption and Special Redemption, as described herein. Any such redemption will affect the average lives of the Notes.

Under the assumptions identified below, the Class A-1LA Notes are expected to have an average life of approximately 8.59 years and an expected final payment occurring on the Payment Date in August 2016, the Class A-1LB Notes are expected to have an average life of approximately 9.23 years and an expected final payment occurring on the Payment Date in August 2016, the Class A-2L Notes are expected to have an average life of approximately 9.23 years and an expected final payment occurring on the Payment Date in August 2016, the Class A-3L Notes are expected to have an average life of approximately 9.23 years and an expected final payment occurring on the Payment Date in August 2016, the Class B-1L Notes are expected to have an average life of approximately 9.23 years and an expected final payment occurring on the Payment Date in August 2016 and the Class B-2L Notes are expected to have an average life of approximately 8.97 years and an expected final payment occurring on the Payment Date in August 2016. There can be no assurance that the average lives and expected final payment of any Class of Notes will be as set forth above. Prospective investors should make their own determinations of the payments expected to be made in respect of the Notes.

The hypothetical scenario used to determine the average lives of the Notes is as follows: (i) approximately U.S.\$1,000,000,000 in Aggregate Principal Amount of various assumed Portfolio Collateral would be purchased on the Closing Date using all funds available on the Closing Date for the purchase of Portfolio Collateral; (ii) 100% of the Portfolio Collateral (by Aggregate Principal Amount) will consist of Floating Rate Collateral which will have a weighted average margin (in order to adjust for not being fully invested in Portfolio Collateral until after the second Payment Date) of (a) 2.5001% from the Closing Date to the first Payment Date and (b) 2.5001% thereafter; (iii) all Floating Rate Collateral bear interest based on three-month LIBOR. Three-month LIBOR is approximately 5.3702%

for the first period and 3 month forward LIBOR thereafter; (iv) the Portfolio Collateral has a scheduled maturity date of 6/1/2015, with respect to Portfolio Loans, and 9/25/2013, with respect to CLO Securities, with a weighted average maturity date of December 11, 2014; (v) no Initial Deposit Redemption, Special Redemption, Tax Event Redemption or Rating Confirmation Failure Redemption of the Notes is made; (vi) an Optional Redemption occurs on the Payment Date occurring in August 2016; (vii) the Additional Portfolio Floating Collateral purchased from Collections as described herein will bear interest quarterly at the rate of 2.60% per annum above LIBOR for the first year, 2.60% per annum above LIBOR for the second year; 2.60% per annum above LIBOR for the third year; 2.60% per annum above LIBOR for the fourth year and 2.60% per annum above LIBOR thereafter; (viii) all Additional Portfolio Collateral in the portfolio become callable or prepayable on the payment date immediately following the purchase date and are callable at their respective call price; (ix) all Eligible Investments will bear interest at a rate of LIBOR minus .25% per annum; (x) the Additional Portfolio Collateral have an initial call price of par; and (xi) the Additional Portfolio Collateral have a 6 year maturity in the case of the Floating Rate Collateral. In addition, it is assumed that no calls or defaults with respect to such Additional Portfolio Collateral will occur on the Final Maturity Date.

Further, the hypothetical scenario assumes that there are no defaults during the period from the Closing Date to May 1, 2008 and there are defaults equal to 3% per annum thereafter until the Optional Redemption occurs on the Payment Date occurring in August 2016. The principal recovery on any defaulted Portfolio Loan and any defaulted underlying loan in a CLO Security is assumed to be 75% and in each case such recovery is assumed to occur at the default date. It is also assumed that the Scheduled Distributions on Portfolio Collateral are timely received and that such distributions earn the indicated interest rates until the next payment date without compounding. It is assumed that Floating Rate Collateral has no prepayment for one period after the Closing Date; thereafter prepayments are calculated on a 20% per annum constant prepayment rate basis for Portfolio Loans. It is assumed that during any period when the Overcollateralization Tests or the Interest Coverage Test are not satisfied, principal payments (or, in the case of the Class B-1L Notes and the Class B-2L Notes, payments of accrued and unpaid interest and then principal) will be made in respect of the Notes to the extent necessary to satisfy the Overcollateralization Tests or the Interest Coverage Test, as applicable (to the extent funds are available therefor).

The Base Fee Amount and the Additional Fee Amount, are assumed to be approximately 0.55% per annum in aggregate, and the Trustee Administrative Expenses, Issuer Base Administrative Expenses and Issuer Excess Administrative Expenses will be .0275% (but no less than \$75,000 per annum) plus U.S.\$250,000 per annum, in the aggregate, each as a percentage of either the Aggregate Principal Amount of the Portfolio Collateral and Eligible Investments as of the first day of the Due Period relating to each Payment Date or the average of the Aggregate Principal Amount of the Portfolio Collateral and Eligible Investments as of the first day of the Due Period relating to each Payment Date and the last day of the Due Period relating to such Payment Date, as appropriate for the related fee and subject to the availability of funds in the performance scenario. For purposes of calculating the Base Fee Amount and the Additional Fee Amount, the Quarterly Collateral Amount on the first calculation date is assumed to be U.S.\$1,000,000,000.

Cash received on or before a Calculation Date is assumed to be available on the following Payment Date. Cash collected after the Calculation Date but before the immediately following Payment Date is assumed to be used to purchase Eligible Investments until the second succeeding Payment Date. With respect to Floating Rate Collateral, the accrual date on Portfolio Collateral is assumed to be the full quarterly period before the Payment Date subsequent to the Closing Date.

The weighted average lives and expected final payment dates described above are included only for illustrative purposes. The usefulness of these scenarios is limited by, among other things, the predictive value of the underlying assumptions, the uncertain relevance of the assumptions as compared to other factors which have not been identified or taken into account, and assumptions incorporated with respect to the timing of cash flows, prepayments, defaults and recoveries on the Portfolio Collateral and available interest rates. The assumptions are inherently subject to significant economic uncertainties, all of which are impossible to predict and beyond the control of the Co-Issuers. **There can be no assurance that any particular performance scenario will be realized, and the performance of the Notes may be materially different from that shown. Such scenario is not a projection or forecast and was not prepared with a view to complying with published guidelines of the United States Securities and Exchange Commission or the American Institute of Certified Public Accountants regarding projections or forecasts. Under no circumstances should the inclusion of such information be regarded as a representation, warranty or prediction with respect to their accuracy or the accuracy or**

appropriateness of the underlying assumptions, or that the Notes will achieve or are likely to achieve any particular results. There can be no assurance that the actual performance of the Notes will not vary materially from the scenario and assumptions set forth herein or otherwise used by a prospective investor. Moreover, to the extent that the individual characteristics of the assumed Portfolio Collateral used for such purposes differ from the individual characteristics of the actual Portfolio Collateral purchased on the Closing Date and thereafter, the actual performance of the Notes may differ. Prospective investors should conduct such financial analysis as they deem prudent, which may include the preparation of their own performance scenarios under a range of economic and other assumptions chosen by such prospective investors or their advisers. Each prospective investor must make its own evaluation of the merits and risks of investment in the Notes. See "Special Considerations—Nature of Collateral Pledged to Secure the Notes; Ability to Obtain Additional Portfolio Collateral; Availability of Funds for Subordinate Payments," "Special Considerations—Sale of Portfolio Collateral by Servicer under Certain Circumstances" and "Special Considerations—Default Rates of Commercial Loans and CLO Securities."

## LEGAL STRUCTURE

### The Indenture

The following summaries generally describe certain provisions of the Indenture. The summaries do not purport to be complete and are subject to, and qualified in their entirety by reference to, the provisions of the Indenture.

Modification of Indenture. Except as set forth below, with the consent of the Requisite Noteholders and the Servicer, the Trustee and the Co-Issuers may execute a supplemental indenture to add provisions to, or change in any manner or eliminate any provisions of, the Indenture or modify in any manner the rights of the Holders of such Notes. However, without the consent of the Holders of each Outstanding Note affected thereby, and, to the extent provided in the Paying and Transfer Agency Agreement, the Holders of the Preferred Shares materially adversely affected thereby and the Cap Provider (to the extent the amendment would have a material adverse effect on the Cap Provider), no supplemental indenture may (i) change the maturity of the principal of or interest on any Note or Combination Note or reduce the principal amount thereof or the rate of interest thereon or change the time or amount of any other amount payable in respect of any Note or Combination Notes, (ii) reduce the percentage of Holders of Notes whose consent is required for the authorization of any supplemental indenture or for any waiver of compliance with certain provisions of the Indenture, (iii) impair or adversely affect the Trust Estate securing the Notes, (iv) permit the creation of any lien ranking prior to or on parity with the lien of the Indenture with respect to any part of the Trust Estate or terminate the lien of the Indenture, (v) reduce the percentage of Holders of Notes whose consent is required to direct the Trustee to liquidate the Trust Estate, (vi) modify any of the provisions of the Indenture with respect to supplemental indentures or waiver of Defaults and their consequences except to increase the percentage of Outstanding Notes whose consent is required for any such action or to provide that other provisions of the Indenture cannot be modified or waived without the consent of the Holder of each Outstanding Note affected thereby, (vii) modify the provisions thereof relating to priority of distributions or subordination or the definition therein of the terms "Holder," "Noteholder," "Majority Noteholder," "Majority Preferred Shareholder," "Outstanding," or "Requisite Noteholder," (viii) modify any provisions in such a manner as to affect the calculation of the amount or timing of any payment of interest or principal due on any Note on any Payment Date (including the calculation of any of the individual components of such calculation) or any other amount in respect of any Note, or to affect the rights of the Holders of Notes to the benefit of any provisions for the redemption of such Notes contained in the Indenture, (ix) modify any provision relating to the institution of proceedings for the Issuer or the Co-Issuer to be adjudicated as bankrupt or insolvent, or (x) amend any provision that provides that the obligations of the Issuer or the Co-Issuer are non-recourse obligations.

In addition, upon the proposal of the Servicer, on behalf of the Issuer and subject to the consent of a Majority of the Preferred Shares eligible to vote (including any Preferred Shares held by the Servicer Entities up to the Original HFP Share Amount, but excluding any other Preferred Shares beneficially owned or controlled by the Servicer Entities which shall be deemed ineligible to vote) on such proposal, or at the direction of such Majority of the Preferred Shares, the Co-Issuers and the Servicer, the Trustee and the Co-Issuers may enter into one or more supplemental indentures (i) in connection with an Optional Redemption by Refinancing involving the issuance of

additional notes, to accommodate the issuance of such additional notes and to establish the terms thereof or (ii) in connection with an Optional Redemption by Refinancing involving secured loans, to accommodate borrowings under such secured loans and to establish the terms thereof; *provided* that, if a supplemental indenture is entered into in connection with the issuance of additional notes or incurrence of secured loans related to an Optional Redemption by Refinancing, such supplemental indenture shall not be effective unless each of the Rating Agencies has (a) if additional notes are issued in substantially the same capital structure as the Notes issued on the Closing Date, (i) *provided* a Rating Confirmation and (ii) *provided* a rating to the additional notes to be issued or the secured loans to be incurred as agreed upon by the purchasers of such additional notes in such Optional Redemption by Refinancing or (b) in any other case, *provided* a rating to the additional notes to be issued or the secured loans to be incurred as agreed upon by the purchasers of such additional notes in such Optional Redemption by Refinancing.

The Co-Issuers and the Trustee may also enter into supplemental indentures with the consent of the Servicer and the Cap Provider (to the extent the amendment would have a material adverse effect on the Cap Provider) but without obtaining the consent of Noteholders, in order to (i) evidence the succession of any person to the Co-Issuers, (ii) evidence the addition of an additional issuer or of a wholly owned subsidiary of the Issuer that, in either case, will acquire securities from the Issuer and pledge its assets to secure the obligations of the Issuer secured by the Trust Estate, to the extent necessary to permit the Issuer to comply with the Bank Holding Company Act of 1956, as amended, and the rules and regulations thereunder or any other statute, rule or regulation applicable to the Issuer, and the assumption by any such additional issuer or subsidiary of the covenants and obligations of the Issuer in the Indenture and, if applicable, in the Notes, (iii) add to the covenants of the Co-Issuers for the benefit of the Holders of the Notes and to the Combination Notes or to surrender any right or power conferred upon the Co-Issuers, (iv) pledge any property to or with the Trustee, (v) evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any of the provisions of the Indenture as shall be necessary to facilitate the administration of the Trust Estate by more than one Trustee, (vi) correct or amplify the description of any property at any time subject to the lien of the Indenture, or to better assure, convey and confirm unto the Trustee any property subject to the lien of the Indenture, (vii) take any action necessary or helpful to prevent the Issuer or the Trustee from becoming subject to any withholding or other taxes or assessments or to reduce the risk that the Issuer will be engaged in a United States trade or business or otherwise subject to United States income tax on a net income basis, (viii) correct any manifest error in the Indenture, (ix) facilitate the delivery and maintenance of the Notes or the Combination Notes in accordance with the requirements of DTC, Euroclear or Clearstream, (x) facilitate the listing of all or any of the Notes on one or more securities exchanges, (xi) modify the restrictions on and procedures for resale and other transfer of the Notes or the Combination Notes in accordance with any change in applicable law or regulation or enable the Co-Issuers to rely upon any less restrictive exemption from registration under the Securities Act or the Investment Company Act, (xii) cure any ambiguity, or correct, modify or supplement any provision which is defective or inconsistent with any other provision in the Indenture, (xiii) to effectuate a Noteholder's election to acquire bond insurance, a surety bond or similar credit enhancement as described in the Indenture, or (xiv) prevent the Issuer from becoming an "investment company" as defined in the Investment Company Act or better assure compliance with the requirements of Rule 3a-7 thereunder; *provided* that, with respect to clause (xiv) only, as a condition to the effectiveness of any such supplemental indenture, each of the Issuer, the Trustee and each Initial Purchaser shall have (A) satisfied the Rating Condition with respect to such supplemental indenture and (B) received a customary, unqualified opinion of counsel from a nationally recognized law firm providing that, after giving effect to such supplemental indenture, the Issuer is exempt from registration as an "investment company" under the Investment Company Act; *provided further* that (A) any such amendment for any matters described in clauses (i) through (xiii) shall not materially adversely affect the interests of the Holders of any Class of the Notes and (B) no amendment shall be made that would cause the Issuer to register as an "investment company" under the Investment Company Act. Except for any proposed amendment that would affect the terms of the Combination Notes as such, Holders of the Combination Notes shall be entitled to vote only as Holders of the related component parts.

The Trustee will not be permitted to enter into any supplemental indenture if such amendment would materially adversely affect the interests of the Preferred Shareholders without the consent of the Holders representing at least 66-2/3% of the outstanding Preferred Shares. The Trustee shall be entitled to receive and reply upon an opinion of counsel or an officer's certificate to the effect that a proposed supplemental indenture does not materially adversely affect the interests of the Holders of any Class of Notes or the interest of the Preferred Shareholders; *provided* that any such opinion of counsel may rely on an officer's certificate covering any relevant factual matters.

Not later than 15 Business Days prior to the execution of any proposed supplemental indenture pursuant to the above provisions, the Trustee, at the expense of the Co-Issuers, shall deliver to the Holders of the Notes, the Servicer, the Preferred Share Paying and Transfer Agent (for forwarding to the Holders of Preferred Shares and the Combination Notes) and each Rating Agency (so long as any rated Notes are Outstanding) a copy of such supplemental indenture and shall request any required consent from the applicable Holders of Notes, Combination Notes and Preferred Shares to be given within the Initial Consent Period. Any consent given to a proposed supplemental indenture by the Holder of any Notes, Combination Notes or Preferred Shares shall be irrevocable and binding on all future Holders or beneficial owners of Notes, Combination Notes or Preferred Shares, irrespective of the execution date of the supplemental indenture. If the Holders of less than the required percentage of the Aggregate Principal Amount of the relevant Notes or required percentage of the Preferred Shares consent to a proposed supplemental indenture within the Initial Consent Period, on the first Business Day after the Initial Consent Period, the Trustee shall notify the Issuer and the Servicer which Holders of Notes and Preferred Shares have consented to the proposed supplemental indenture and, which Holders (and, to the extent such information is reasonably available to the Trustee, which beneficial owners) have not consented to the proposed supplemental indenture. If the Amendment Buy-Out Purchaser intends to exercise the Amendment Buy-Out Option, the Amendment Buy-Out Purchaser shall so notify the Trustee (which notice shall designate a date for the Amendment Buy-Out to occur no earlier than 10 Business Days after the date of such notice) no later than five (5) Business Days after so being notified by the Trustee and the Trustee shall deliver such notice to all Holders of Notes and the Preferred Share Paying and Transfer Agent (for forwarding to the Holders of Preferred Shares and the Combination Notes). Any Non-Consenting Holder may give consent to the related proposed supplemental indenture until the 5th Business Day prior to the date of the Amendment Buy-Out designated by the Amendment Buy-Out Purchaser, and in such case shall cease to be a Non-Consenting Holder for purposes of the Amendment Buy-Out. If the Amendment Buy-Out Purchaser exercises its Amendment Buy-Out Option and purchases the applicable Notes or Preferred Shares, the Amendment Buy-Out Purchaser, as Holder or beneficial owner of the applicable Notes or Preferred Shares, may consent to the related proposed supplemental indenture within five (5) Business Days of the Amendment Buy-Out.

The Indenture provides that no amendment to any provision of the Indenture or any other transaction document that materially adversely affects the obligations of any Synthetic Security Counterparty will be of any effect without the consent of such Synthetic Security Counterparty and the Issuer will not enter into any such amendment unless such Synthetic Security Counterparty has consented thereto (which consent will not be unreasonably withheld).

Notwithstanding anything to the contrary contained herein (so long as the Rating Condition has been satisfied), with the consent of the Servicer and, except as provided above, without the consent of the Holders of any Notes or the Holders of the Combination Notes or Preferred Shares, the Co-Issuers and the Trustee may enter into an indenture or indentures supplemental thereto (other than as may otherwise be permitted under the Indenture): (a) to add additional rows to the Collateral Quality Matrix (other than in accordance with clause (ii) of the second sentence of the definition of "Collateral Quality Matrix" as such term is defined in the Indenture); (b) to change the definition of Collateral Quality Formula (and any related definitions), (c) to change the definition of Weighted Average Life Requirement (and any related definitions), (d) to change the definition of Minimum Average Recovery Rate Test (and any related definitions) and (e) to change the definition of S&P CDO Monitor Test (and any related definitions); *provided* that the Trustee must receive the consent of a Majority of the Controlling Class with respect to any indenture or supplemental indenture with respect to items (a) (other than in accordance with clause (ii) of the second sentence of the definition of "Collateral Quality Matrix" as such term is defined in the Indenture), (b), (c), (d) and (e) above.

Notwithstanding the foregoing, the Trustee will not be permitted to enter into any supplemental indenture if, as a result of such supplemental indenture, the rating of any Class of Outstanding Notes or Combination Notes (if then rated) would be reduced or withdrawn without the unanimous consent of the Holders of that Class of Notes or Combination Notes.

#### Amendment Buy-Out

In the case of any supplemental indenture that requires the consent of one or more Holders of the Notes or Preferred Shares, the Amendment Buy-Out Purchaser shall have the right, but not the obligation, to purchase from Non-Consenting Holders all Notes and Preferred Shares held by such Holder whose consent was solicited with

respect to such supplemental indenture (the "**Amendment Buy-Out Option**") for the applicable Amendment Buy-Out Purchase Price; *provided, however*, that the Amendment Buy-Out Purchaser may not exercise the Amendment Buy-Out Option during the Non-Call Period in connection with a proposed amendment to reduce the rate of interest on any Security, as applicable, or to change the earliest date on which Notes of any Class or Preferred Shares may be redeemed at the option of the Issuer; *provided, further*, that notwithstanding the definition of Non-Consenting Holder, any Holder of Notes (other than the Class A-1LA Notes) or Preferred Shares who fails to respond to any such consent solicitation shall be deemed to have consented to any such supplemental indenture. Notwithstanding the foregoing, during the Non-Call Period, "Non-Consenting Holder" shall exclude any Holder of Class A-1LA Notes (unless such Holder has consented in writing to be designated as a Non-Consenting Holder) and the Amendment Buy-Out Option shall not be applicable to such Class A-1LA Notes. If such option is exercised, the Amendment Buy-Out Purchaser must purchase all Notes and Preferred Shares of Non-Consenting Holders, regardless of the applicable percentage of the Aggregate Principal Amount of the Notes or Preferred Shares the consent of whose Holders is required for such supplemental indenture (an "**Amendment Buy-Out**"). By its acceptance of a Note or Preferred Share, each Holder of a Note and Preferred Share agrees that if the Amendment Buy-Out Option is exercised, any Non-Consenting Holder will be required to sell its applicable Note or Preferred Share to the Amendment Buy-Out Purchaser. For the avoidance of doubt, nothing described above or in the Indenture shall in any way limit or restrict the rights of Holders of the Class A-1LA Notes to consent or withhold their consent to a supplemental indenture or otherwise vote their interest both during and after the Non-Call Period.

All purchases made pursuant to the Amendment Buy-Out Option individually and in the aggregate must comply with the applicable transfer restrictions for the relevant Notes and Preferred Shares set forth in "Delivery of the Notes; Transfer Restrictions; Settlement" herein and all applicable laws, rules and regulations (including, without limitation, any rules, regulations and procedures of any securities exchange, self-regulatory organization or clearing agency).

Acts of Noteholders. Under the Indenture, with respect to any action that requires consent from 100% of the Noteholders and with respect to any Noteholder which has notified the Trustee in writing that pursuant to such Noteholder's organizational documents or other documents governing such Noteholder's actions, such Noteholder is not permitted to take any affirmative action approving, rejecting or otherwise acting upon any Issuer request including, but not limited to, a request for the consent of such Noteholder to a proposed amendment or waiver pursuant to this Indenture, the failure by such Noteholder to consent to or reject any such requested action will be deemed a consent by such Noteholder to the requested action. In addition, any consent required from a Noteholder or a Holder of a Preferred Share pursuant to the Indenture may be evidenced by one or more instruments (which may be an electronic document, including, but not limited to, in the form of email, to the extent permitted by applicable law), signed by Noteholders or Holders of Preferred Shares in person or by agents duly appointed in writing (*provided* that no signature shall be required on electronic documents, including, but not limited to, in the form of email to the extent permitted by law).

Consolidation, Merger or Transfer of Assets, Incurrence of Indebtedness, Conduct of Business. The Co-Issuers may not consolidate with, merge into, or transfer or convey all or substantially all of their assets to, any other corporation, partnership, trust or other person or entity (except for sales or exchanges of Portfolio Collateral as contemplated by the Indenture). In addition, the Co-Issuers may not incur any indebtedness other than the Notes and trade debt incidental to the performance of their obligations under the Indenture or engage in any business or activity other than the issuance of the Notes, the Preferred Shares, the ordinary shares and the other transactions and activities, as applicable, contemplated herein. Pursuant to the Indenture and the Co-Issuers' organizational documentation, the Co-Issuers may also not, without the consent of the Requisite Noteholders, amend their organizational documentation if such amendment would have a material adverse effect on the right of the Noteholders.

Events of Default. An event of default ("**Event of Default**") is defined in the Indenture as being (i) a default for four Business Days or more (or in the case of a default in payment due to an administrative error or omission by the Trustee, any Paying Agent or the Note Registrar, for a period of seven Business Days or more, *provided* that the Trustee has notified each Rating Agency of any such administrative error or omission) in the payment of any amount payable in respect of any Note when due when funds in such amount are available for payment in accordance with the Indenture, (ii) a failure after four Business Days (or in the case of a default in payment due to an administrative error or omission by the Trustee, any Paying Agent or the Note Registrar, for a period of seven Business Days or more, *provided* that the Trustee has notified each Rating Agency of any such

administrative error or omission), to apply available amounts in accordance with the priority of distribution set forth in the Indenture, (iii) a default for four Business Days or more (or in the case of a default in payment due to an administrative error or omission by the Trustee, any Paying Agent or the Note Registrar, for a period of seven Business Days or more, *provided* that the Trustee has notified each Rating Agency of any such administrative error or omission) in the payment of (A) the Periodic Interest Amount due on any Senior Class A Notes on any Payment Date, (B) after the Senior Class A Notes are paid in full, the Periodic Interest Amount due on the Class A-3L Notes on any Payment Date, (C) after the Class A Notes are paid in full, the Periodic Interest Amount due on the Class B-1L Notes on any Payment Date and (D) after the Class A Notes and the Class B-1L Notes are paid in full, the Periodic Interest Amount due on the Class B-2L Notes on any Payment Date; (iv) a default in the payment of the Aggregate Principal Amount and the Cumulative Interest Amount due on any Class of Notes on the Final Maturity Date, (v) a default in the performance, or a breach of any covenant, representation, warranty or other agreement of the Co-Issuers (or either one of them) other than compliance with the Overcollateralization Tests, the Interest Coverage Test or the collateral quality criteria described herein, or the failure of any representation or warranty of the Co-Issuers (or either one of them) in the Indenture or in any certificate or other writing delivered pursuant to or in connection with the Indenture to be correct in all material respects when the same shall have been made, in any such case which materially and adversely affects the rights of any Class of Noteholders and continuance of such default, breach or failure for a period of 30 days after written notice to the Co-Issuers or the Servicer by the Trustee or to the Co-Issuers or the Servicer and the Trustee by the Holders of at least a majority in principal amount of the Notes, (vi) certain events of bankruptcy, insolvency, receivership or reorganization of the Co-Issuers, (vii) either of the Co-Issuers or the pool of assets constituting the Trust Estate becomes required to register as an "investment company" under the Investment Company Act of 1940, (viii) the failure to maintain on any Calculation Date a Senior Class A Overcollateralization Ratio of at least 100%. The failure to pay in full Periodic Interest on the Class A-3L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as the Senior Class A Notes are Outstanding. The failure to pay in full Periodic Interest on the Class B-1L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Class A Notes are Outstanding. The failure to pay in full Periodic Interest on the Class B-2L Notes as a result of insufficient funds being available therefor will not constitute an Event of Default so long as any Class A Notes or Class B-1L Notes are Outstanding. An event of insolvency could result if relief has been ordered against the Co-Issuers in a case under applicable bankruptcy law and the Co-Issuers, the trustee, if any, for either of the Co-Issuers or a creditor of either of the Co-Issuers were to file an involuntary petition against either of the Co-Issuers. The filing of a petition against the Co-Issuers under applicable bankruptcy law could adversely affect the rights of the Holders of Notes to receive timely payments.

If an Event of Default (other than an Event of Default specified in clause (vi) above) under the Indenture should occur and be continuing with respect to the Notes, the Trustee may with the consent of the Requisite Noteholders, and shall, at the written direction of the Requisite Noteholders, declare the principal of the Notes to be immediately due and payable. Such declaration may under certain circumstances be rescinded by the Trustee with the consent of the Requisite Noteholders or at the written direction of the Requisite Noteholders. If an Event of Default specified in clause (vi) above should occur and be continuing, the principal of the Notes shall become immediately due and payable without the necessity of notice or any other action. If the Notes are accelerated, or if the Final Maturity Date has occurred, the Holders of the Notes shall be entitled to receive the Cumulative Interest Amount and the Aggregate Principal Amount with respect thereto (as calculated and accrued through the date of payment in full of the Aggregate Principal Amount of each Class of Notes) in the order of priority set forth under "Description of the Notes—Payments on the Notes; Priority of Distributions—Final Maturity Date."

If an Event of Default shall have occurred and be continuing or if the Final Maturity Date has occurred, the Trustee shall refrain from liquidating and shall preserve the Trust Estate intact unless (i) the Requisite Noteholders have directed the Trustee in writing to sell or liquidate the Trust Estate or any portion thereof in the case of (A) an Event of Default resulting from failure to pay interest or principal on a Note or (B) a sale or liquidation of all or a portion of the Trust Estate at or above the aggregate par value of all Collateral so liquidated or sold (and Defaulted Portfolio Collateral may be liquidated or sold without reference to, or inclusion in the calculation of, such limitation), (ii) in the case of an acceleration resulting from an Event of Default set forth in clause (viii) above, the Holders of more than 50% of the Aggregate Principal Amount of the Outstanding Senior Class A Notes (or, if the Senior Class A Overcollateralization Ratio is less than 85%, then 60% of the Controlling Class) have so directed the Trustee in writing to sell or liquidate the Trust Estate or any portion thereof or (iii) 100% of the Noteholders have otherwise directed the Trustee to sell or liquidate the Trust Estate or any portion thereof. In addition, under certain

circumstances, if an Event of Default as described under clauses (iii) and (iv) of "Events of Default" shall have occurred and be continuing, the Servicer may be terminated as described under "The Servicing Agreement—Termination of Servicing Agreement."

Pursuant to the Indenture, as security for the payment by the Issuer of the compensation and expenses of the Trustee and the Paying and Transfer Agent and any sums to which the Trustee and the Paying and Transfer Agent may be entitled to receive as indemnification by the Issuer, the Issuer has granted the Trustee a senior lien on the Trust Estate, which is senior to the lien of the Notes on the Trust Estate. These liens are exercisable by the Trustee or the Paying and Transfer Agent only if the Notes have been declared due and payable following an Event of Default, and the acceleration of the maturity of such Notes as a result of such Event of Default has not been rescinded or annulled.

Subject to the provisions of the Indenture relating to the duties of the Trustee in case an Event of Default with respect to the Notes shall occur and be continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any Holders of Notes, unless such Holders shall have offered to the Trustee security or indemnity reasonably satisfactory to it. Subject to such provisions for indemnification and certain limitations contained in the Indenture, the Requisite Noteholders will have the right to direct the time, method and place of conducting any proceeding of any remedy available to the Trustee or exercising any trust or power conferred on the Trustee with respect to the Notes; and, in certain cases, waive any default with respect to such Notes, except a default in payment of any amount payable in respect of any Note or a default in respect of a covenant or provision of the Indenture that cannot be modified without the waiver or consent of the Holder of each Outstanding Note affected thereby.

Rights Under the Indenture. No Holder of a Note will have the right to institute any proceeding with respect to the Indenture, unless (1) such Holder previously has given to the Trustee written notice of an Event of Default with respect to such Notes, (2) the Requisite Noteholders have made written request upon the Trustee to institute such proceedings in its own name as Trustee, (3) such Holder or Holders have offered the Trustee indemnity reasonably satisfactory to it as provided in the Indenture, (4) the Trustee has for 30 days failed to institute any such proceeding, and (5) no direction inconsistent with such written request has been given to the Trustee during such 30-day period by the Requisite Noteholders.

Satisfaction and Discharge of the Indenture. The Indenture will be discharged with respect to the collateral securing the Notes upon delivery to the Trustee for cancellation of all of the Notes, or, within certain limitations (including the obligation to pay principal and interest), upon deposit with the Trustee of cash or Eligible Investments sufficient for the amount thereof.

Trustee. Investors Bank & Trust Company will be the Trustee under the Indenture for the Notes. The Issuer, the Servicer and their affiliates may maintain other banking relationships in the ordinary course of business with the Trustee. The Indenture provides that the Trustee may appoint one or more co-trustees in the event that Holders of the Notes have conflicting interests and in certain other circumstances. The Trustee or an Affiliate of the Trustee may receive compensation in connection with the purchase of certain Eligible Investments as provided in the Indenture.

The Indenture contains provisions for the indemnification of the Trustee for any loss, liability or expense incurred without negligence, willful misconduct or bad faith arising out of or in connection with the acceptance or administration of its duties under the Indenture.

The Trustee may resign at any time by giving notice as set forth in the Indenture. The Trustee may be removed for any reason by the Holders of more than 50% of the Aggregate Principal Amount of the Controlling Class, or by the Issuer if at any time the Trustee fails to meet certain eligibility criteria set forth in the Indenture or if the Trustee is adjudged to be bankrupt or insolvent or a receiver or liquidator or similar official of the Trustee or its property is appointed. No resignation or removal of the Trustee shall be effective until a successor trustee has been appointed pursuant to the terms of the Indenture.

Governing Law. The Indenture and the other documents relating to the Notes will be construed in accordance with the laws of the State of New York.

Notices. Notices to the Holders of the Notes will be given by first-class mail, postage prepaid, to the registered Holders of the Notes at their address appearing in the Note Register. In addition, for so long as any Class of Notes is listed on the Irish Stock Exchange and the rules of such exchange so require, notice given to the Holders of any such Class of Notes will also be given to the Company Announcements Office of the Irish Stock Exchange.

Voting Rights of Preferred Shares of HFP. The aggregate amount of the Preferred Shares owned or controlled by HFP and the Servicer Entities in excess of the Original HFP Share Amount will be excluded from voting on certain matters including any Optional Redemption.

### **DELIVERY OF THE NOTES; TRANSFER RESTRICTIONS; SETTLEMENT**

The Notes have not been registered under the Securities Act or any state securities laws and, accordingly, may not be reoffered, resold, pledged or otherwise transferred within the United States or to, or for the account or benefit of, U.S. Persons, except in accordance with the restrictions described under "Notices to Purchasers." Terms used in this paragraph have the meanings given to them by Regulation S.

Without limiting the foregoing, by holding a Note, each Holder will acknowledge and agree, among other things, that such Holder understands that neither of the Co-Issuers is registered as an investment company under the Investment Company Act, but that the Co-Issuers are exempt from registration as such by virtue of Section 3(c)(7) of the Investment Company Act, which in general excludes from the definition of an investment company any issuer whose outstanding securities are beneficially owned solely by Qualified Purchasers and which has not made and does not propose to make a public offering of its securities and Rule 3a-7. Any sale or transfer which would violate these provisions shall be void from the time of such sale or transfer, and no sale or transfer may be made if such sale or transfer would require the Co-Issuers to become subject to the requirements of the Investment Company Act.

Each transferee of a Note (excluding any transferee of a Note (other than a Class B-2L Note) who is a non-U.S. Person in an offshore transaction under Regulation S but including any transferee of a Class B-2L Note who is a non-U.S. Person in an offshore transaction under Regulation S) will be deemed to represent at time of transfer that the transferee is a Qualified Institutional Buyer and (i) that it is a Qualified Purchaser, (ii) that it is not formed for the purpose of investing in the Notes, unless all of its beneficial owners are Qualified Purchasers, (iii) that it is not a dealer described in paragraph (a)(1)(ii) of Rule 144A unless such transferee owns and invests on a discretionary basis at least U.S.\$25 million in securities of issuers that are not affiliated persons of such dealer, (iv) that it is not a plan referred to in paragraph (a)(1)(i)(D) or (E) of Rule 144A or a trust fund referred to in paragraph (a)(1)(i)(F) of Rule 144A that holds the assets of such plan, unless investment decisions are made solely by the fiduciary, trustee or sponsor of such plan, (v) that it and each account for which it is purchasing is purchasing Notes in at least the minimum denomination and (vi) that it will provide written notice of the foregoing and any other applicable transfer restrictions to any transferee.

The Indenture provides that if, notwithstanding the restrictions on transfer contained therein, the Issuer determines any beneficial owner or Holder of a Note (excluding any transferee of a Note (other than a Class B-2L Note) who is a non-U.S. Person in an offshore transaction under Regulation S but including any transferee of a Class B-2L Note who is a non-U.S. Person in an offshore transaction under Regulation S) is not a Qualified Institutional Buyer and a Qualified Purchaser, the Issuer will require that such beneficial owner or Holder sell all of its right title and interest in such Note to a person who is so qualified, with such sale to be effected within 30 days after notice of such sale requirement is given. If such sale is not effected within such 30 days, upon written direction from the Issuer, the Trustee (or an investment banker selected by the Trustee and approved by the Issuer) will be authorized to conduct a commercially reasonable sale of such Note to a person who does so qualify and pending transfer, no further payments will be made in respect of such Note or any beneficial interest therein.

Except for interests in Notes represented by a Regulation S Global Note or a Rule 144A Global Note as described herein, the Notes will be represented by definitive registered Notes registered in the name of the purchaser thereof.

Unless determined otherwise by the Co-Issuers in accordance with applicable law, the Notes will bear the legend set forth below:

THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), ANY STATE SECURITIES LAWS IN THE UNITED STATES OR THE SECURITIES LAWS OF ANY OTHER JURISDICTION AND MAY NOT BE REOFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, UNITED STATES PERSONS, EXCEPT AS PERMITTED BY THIS LEGEND. EACH TRANSFEREE OF A NOTE (EXCLUDING A TRANSFER OF A NOTE (OTHER THAN A CLASS B-2L NOTE) PURSUANT TO REGULATION S BUT INCLUDING A TRANSFER OF A CLASS B-2L NOTE PURSUANT TO REGULATION S) WILL BE DEEMED TO REPRESENT AT TIME OF TRANSFER THAT SUCH TRANSFEREE IS A

QUALIFIED INSTITUTIONAL BUYER OR A NON U.S. PERSON AND (I) THAT IT IS A QUALIFIED PURCHASER, (II) THAT IT IS NOT FORMED FOR THE PURPOSE OF INVESTING IN THE NOTES, UNLESS ALL OF ITS BENEFICIAL OWNERS ARE QUALIFIED PURCHASERS, (III) THAT IT IS NOT A DEALER DESCRIBED IN PARAGRAPH (a)(1)(ii) OF RULE 144A UNLESS SUCH TRANSFEREE OWNS AND INVESTS ON A DISCRETIONARY BASIS AT LEAST U.S.\$25 MILLION IN SECURITIES OF ISSUERS THAT ARE NOT AFFILIATED PERSONS OF SUCH DEALER, (IV) THAT IT IS NOT A PLAN REFERRED TO IN PARAGRAPH (a)(1)(i)(D) OR (E) OF RULE 144A OR A TRUST FUND REFERRED TO IN PARAGRAPH (a)(1)(i)(F) OF RULE 144A THAT HOLDS THE ASSETS OF SUCH PLAN, UNLESS INVESTMENT DECISIONS ARE MADE SOLELY BY THE FIDUCIARY, TRUSTEE OR SPONSOR OF SUCH PLAN, (V) THAT IT AND EACH ACCOUNT FOR WHICH IT IS PURCHASING IS PURCHASING NOTES IN AT LEAST THE MINIMUM DENOMINATION AND (VI) THAT IT WILL PROVIDE WRITTEN NOTICE OF THE FOREGOING AND ANY OTHER APPLICABLE TRANSFER RESTRICTIONS TO ANY TRANSFEREE.

THE INDENTURE PROVIDES THAT IF, NOTWITHSTANDING THE RESTRICTIONS ON TRANSFER CONTAINED THEREIN, THE ISSUER DETERMINES ANY BENEFICIAL OWNER OR HOLDER OF A NOTE (EXCLUDING A TRANSFER OF A NOTE (OTHER THAN A CLASS B-2L NOTE) PURSUANT TO REGULATION S BUT INCLUDING A TRANSFER OF A CLASS B-2L NOTE PURSUANT TO REGULATION S) IS NOT A QUALIFIED INSTITUTIONAL BUYER AND A QUALIFIED PURCHASER, THE ISSUER WILL REQUIRE THAT SUCH BENEFICIAL OWNER OR HOLDER SELL ALL OF ITS RIGHT TITLE AND INTEREST IN SUCH NOTE TO A PERSON WHO IS SO QUALIFIED, WITH SUCH SALE TO BE EFFECTED WITHIN 30 DAYS AFTER NOTICE OF SUCH SALE REQUIREMENT IS GIVEN. IF SUCH SALE IS NOT EFFECTED WITHIN SUCH 30 DAYS, UPON WRITTEN DIRECTION FROM THE ISSUER, THE TRUSTEE (OR AN INVESTMENT BANKER SELECTED BY THE TRUSTEE AND APPROVED BY THE ISSUER) WILL BE AUTHORIZED TO CONDUCT A COMMERCIALY REASONABLE SALE OF SUCH NOTE TO A PERSON WHO DOES SO QUALIFY AND PENDING TRANSFER, NO FURTHER PAYMENTS WILL BE MADE IN RESPECT OF SUCH NOTE OR ANY BENEFICIAL INTEREST THEREIN.

TRANSFERS OF THE NOTES MUST GENERALLY BE ACCOMPANIED BY APPROPRIATE TAX TRANSFER DOCUMENTATION AND ARE SUBJECT TO RESTRICTIONS AS PROVIDED IN THE INDENTURE.

[FOR THE CLASS A-3L NOTES, THE CLASS B-1L NOTES AND THE CLASS B-2L NOTES ONLY] THE FOLLOWING INFORMATION IS PROVIDED PURSUANT TO UNITED STATES TREASURY REGULATION SECTION 1.1275-3(b). THIS NOTE HAS BEEN ISSUED WITH ORIGINAL ISSUE DISCOUNT FOR UNITED STATES FEDERAL INCOME TAX PURPOSES. THE HOLDER OF THIS NOTE MAY OBTAIN THE INFORMATION DESCRIBED IN UNITED STATES TREASURY REGULATION SECTION 1.1275-3(b)(1)(i) FROM THE ADMINISTRATOR, AT THE FOLLOWING ADDRESS: P.O. BOX 1093 GT, GRAND CAYMAN, CAYMAN ISLANDS.

Subject to the restrictions on transfer set forth in the Indenture and the Notes and except with respect to transfer of an interest in a Regulation S Global Note or a Rule 144A Global Note (the procedure for which is set forth in the Indenture), the Holder of any Notes may transfer the same in whole or in part (in a principal amount equal to any authorized denomination) by surrendering such Notes at the corporate trust office of the Trustee or at the office of any transfer agent, together with an executed instrument of assignment and transfer substantially in the form attached to the Indenture. In exchange for any Notes properly presented for transfer with all necessary accompanying documentation, the Trustee will authenticate and deliver at the corporate trust office of the Trustee or the office of the transfer agent, as the case may be, to the transferee or send by first-class mail at the risk of the transferee to such address as the transferee may request, a Note or Notes, for a like aggregate principal amount and

in such authorized denomination or denominations as may be requested. The presentation for transfer of any Notes will not be valid unless made at the office of the Trustee designated for such purpose or at the office of a transfer agent by the registered Holder in person, or by a duly authorized attorney-in-fact. The Holder of a Note will not be required to bear the costs and expenses of effecting any transfer or registration of transfer, except that the relevant Holder will be required to bear (i) the expenses of delivery by other than regular mail (if any) and (ii) if the Co-Issuers so require, the payment of a sum sufficient to cover any duty, stamp tax or governmental charge or insurance charges that may be imposed in relation thereto.

#### Settlement

All payments in respect of the Notes shall be made in United States dollars in same-day funds.

### **CERTAIN TAX CONSIDERATIONS**

#### Introduction

The following is a summary of certain of the United States federal income tax consequences of an investment in the Notes by purchasers that acquire their Notes in the initial offering. The discussion and the opinions referenced below are based upon laws, regulations, rulings, and decisions in effect and available on the date hereof, all of which are subject to change, possibly with retroactive effect. Prospective investors should note that no rulings have been or are expected to be sought from the Internal Revenue Service (the "**IRS**") with respect to any of the United States federal income tax consequences discussed below, and no assurance can be given that the IRS will not take contrary positions. Further, the following summary does not deal with all United States federal income tax consequences applicable to any given investor, nor does it address the United States federal income tax considerations applicable to all categories of investors, some of which may be subject to special rules, such as Non-U.S. Holders (defined below), banks, grantor trusts, REITs, RICs, insurance companies, tax-exempt organizations, dealers or traders in securities or currencies, electing large partnerships natural persons, cash method taxpayers, S corporations, certain expatriates, estates and trusts, investors that hold their Notes as part of a hedge, straddle, or an integrated or conversion transaction, or investors whose "functional currency" is not the United States dollar. Furthermore, it does not address alternative minimum tax consequences, estate or gift tax consequences, or the indirect effects on investors of equity interests in either a U.S. Holder (as defined below) or a Non-U.S. Holder. In addition, this summary is generally limited to investors that acquire their Notes on the Closing Date for the issue price applicable to such Notes and who will hold their Notes as "capital assets" within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "**Code**"). Also, because any Non-U.S. Holder of Notes will be deemed to have represented, by virtue of its acquisition of the Notes, that it did not purchase the Notes pursuant to a tax avoidance plan with respect to United States federal income taxes (within the meaning of Treasury Regulation § 1.881-3(b)), this summary does not address the tax consequences applicable to Non-U.S. Holders that acquire their Notes pursuant to such a plan. Investors should consult their own tax advisors to determine the United States federal, state, local, and other tax consequences of the purchase, ownership, and disposition of the Notes.

As used herein, "**U.S. Holder**" means any Holder or beneficial owner of a Note that is an individual citizen or resident of the United States for United States federal income tax purposes, a corporation or other entity taxable as a corporation created or organized in or under the laws of the United States or any state thereof (including the District of Columbia), an estate the income of which is subject to United States federal income taxation regardless of its source, or a trust where a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons (as defined in the Code) have the authority to control all substantial decisions of the trust (or a trust that has made a valid election under United States Treasury Regulations to be treated as a domestic trust). "**Non-U.S. Holder**" means any Holder or beneficial owner of a Note that is not a U.S. Holder, other than a partnership. If a partnership holds Notes, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. Partners of partnerships holding Notes should consult their own tax advisors regarding the tax consequences of an investment in the Notes (including their status as U.S. Holders or Non-U.S. Holders).

#### United States Federal Income Tax Consequences to the Issuer

Upon the issuance of the Notes, Orrick, Herrington & Sutcliffe LLP, special United States tax counsel to the Issuer, will deliver an opinion generally to the effect that under current law, and assuming compliance with the Indenture (and certain other documents) and based on certain factual representations made by the Issuer and the

Servicer, although the matter is not free from doubt, the permitted activities of the Issuer will not cause the Issuer to be engaged in the conduct of a trade or business in the United States. Accordingly, the Issuer does not expect to be subject to net income taxation in the United States. Prospective investors should be aware that opinions of counsel are not binding on the IRS and the IRS might seek to treat the Issuer as engaged in a United States trade or business. If the IRS were successfully to characterize the Issuer as engaged in a United States trade or business, among other consequences, the Issuer would be subject to net income taxation in the United States (as well as the branch profits tax) on its income that is effectively connected to the United States trade or business. The levying of such taxes would materially affect the Issuer's financial ability to pay principal and interest on the Notes.

The opinion of special U.S. tax counsel is subject to several considerations. Thus, the Issuer and Servicer are entitled to rely upon advice of counsel with respect to deviations from the investment guidelines set forth in the Servicing Agreement; the foregoing opinion assumes (except in instances where Orrick, Herrington & Sutcliffe LLP is providing the advice) that any such advice will be correct and complete. Additionally, it should be noted that the United States Treasury Department and the IRS recently announced that they are considering taxpayer requests for specific guidance on, among other things, whether a foreign person may be treated as engaged in a trade or business in the United States by virtue of entering into credit default swaps. No guidance has been issued to date. If any future guidance concludes that foreign persons entering into certain credit default swaps will be treated as engaged in a trade or business in the United States, such guidance would adversely impact the Issuer's ability to pay principal and interest on the Notes. Further, it should be noted that gain or loss on a disposition by a foreign person of a United States real property interest may be subject to United States federal income tax as if the foreign person were engaged in a United States trade or business (even if the foreign person is not actually so engaged). The determination of whether an asset constitutes a United States real property interest is made periodically and, therefore, it is possible that an asset that was not a United States real property interest at the time it was acquired by the Issuer could, thereafter, become a United States real property interest. Finally, if the Issuer accepted a new security in exchange for an existing security or if the terms of an existing security were modified, the new or modified security might cause the Issuer to become engaged in a United States trade or business for United States federal income tax purposes.

The Issuer intends to acquire the Portfolio Collateral and Eligible Investments the interest on which and any gain from the sale or disposition with respect to which is not expected to be subject to United States federal withholding tax or withholding tax imposed by other countries (unless, in the case of interest, the obligor is required to "gross up" its payments to compensate for these taxes). The Issuer will not, however, make any independent investigation of the circumstances surrounding the issuance of the individual assets comprising the Portfolio Collateral and, thus, there can be no assurance that payments of interest on and gain from the sale or disposition of the Portfolio Collateral will in all cases be received free of withholding tax. It is not expected that the Issuer will derive material amounts of any other items of income that will be subject to United States withholding taxes. Notwithstanding the foregoing, any commitment fee, facility fee or other similar fee that the Issuer earns may be subject to a 30% United States federal withholding tax and any lending fees received under a Securities Lending Agreement may also be subject to such tax. Additionally, if the Issuer is a CFC (defined below), the Issuer would incur United States withholding tax on interest received from a related United States person. If withholding or deduction of any taxes is required from payments received by the Issuer or is required from any payments made by the Issuer on the Notes, the Issuer shall be under no obligation to make any additional payments to any holder in respect of such withholding or deduction.

#### Tax Treatment of U.S. Holders of the Notes

The Issuer has agreed and, by its acceptance of a Note, each holder will be deemed to have agreed, to treat each of the Notes as debt of the Issuer for United States federal income tax purposes. Upon the issuance of the Notes, Orrick, Herrington & Sutcliffe LLP will deliver an opinion generally to the effect that, assuming compliance with the Indenture (and certain other documents) and based on certain factual representations made by the Issuer and the Servicer, the Notes should be characterized as debt for United States federal income tax purposes. Prospective investors should be aware that opinions of counsel are not binding on the IRS, and there can be no assurance that the IRS will not seek to characterize any Class of Notes as other than indebtedness. However, except as provided under "Alternative Characterizations of the Notes," the balance of this discussion assumes that the Notes will be characterized as debt of the Issuer for United States federal income tax purposes.

Each U.S. Holder will include interest on the Notes in income in accordance with its regular method of accounting for Federal income tax purposes unless the Notes are viewed as having been issued with original issue discount ("**OID**") in which case, generally, each U.S. Holder would be required to accrue interest on the Note on an accrual basis under a constant yield methodology, based on the original yield to maturity of the Note. Because interest on the Class A-3L Notes, the Class B-1L Notes and Class B-2L Notes may be deferred without giving rise to an Event of Default, all interest (including interest on accrued but unpaid interest) will be treated as OID unless the likelihood of deferral is remote. The Issuer has not determined whether the likelihood of interest being deferred is remote for this purpose, and hence will treat the interest on the Class A-3L Notes, the Class B-1L Notes and Class B-2L Notes as OID. (Additionally, the Issuer will treat a Class of Notes as having been issued with OID if (A) such Class is issued at a discount equal to or in excess of the product of 0.25% of the stated redemption price at maturity of such Class and the anticipated weighted average life of such Class or (B) in the case of certain Classes of Notes that bear interest at a floating rate, the issue price of such Class exceeds the principal amount thereof by more than the lesser of (i) 15% or (ii) 0.015 multiplied by the anticipated weighted average maturity of the Class of Notes.) Any accrued but unpaid OID included in income by a U.S. Holder would increase the U.S. Holder's basis in the Note and thereby reduce the amount of gain or increase the amount of loss recognized by the U.S. Holder on a subsequent sale or other disposition of the Note.

If any of the Notes are viewed as having been issued with OID, the OID may be accruable under the special rules set forth in Section 1272(a)(6) of the Code (which apply to debt instruments that may be accelerated by reason of the prepayment of other debt obligations securing such debt instruments). If Section 1272(a)(6) does not apply, the Notes might be treated as "contingent payment debt instruments" ("**CPDIs**") within the meaning of Treasury Regulation Section 1.1275-4. If any Class of Notes were considered CPDIs, among other consequences, gain on the sale of such Notes that might otherwise be capital gain would be ordinary income. Prospective investors should consult their own tax advisors regarding the potential application of Section 1272(a)(6) of the Code to the Notes and the rules governing CPDIs.

The United States federal income tax consequences of a Maturity Extension are unclear. If a Maturity Extension occurs with respect to the Notes, the Issuer intends to treat such Notes, solely for purposes of sections 1272 and 1273 of the Code, as having been retired and reissued for an amount equal to their adjusted issue price on the date of the new Extension Effective Date. Additionally, U.S. Holders may be deemed for United States federal income tax purpose to have exchanged their Notes in a taxable exchange for new notes with an extended final maturity date (the "**New Notes**") if, at such time, the Extension Qualifying Purchaser is related to the Issuer within the meaning of Section 267(b) or 707(b)(1) of the Code. If such relationship existed, U.S. Holders that did not exercise their right to put their Notes to the Extension Qualifying Purchaser may be treated as having acquired such New Notes with market discount or premium (and there might be other possible tax consequences). In addition, if the Notes are treated as exchanged for New Notes, the characterization of the New Notes (as debt or equity) would depend on the facts and circumstances existing at the time of such deemed exchange. In the event of a Maturity Extension, all U.S. Holders are urged to consult their own tax advisors with respect to whether the Extension Qualifying Purchaser is related to the Issuer, and, if so, the United States federal income tax consequences of any deemed exchange.

The tax treatment of the Extension Bonus Payment and CDS/TRS Termination Payment is also unclear. The Issuer intends to take the position that these payments are either incidental payments within the meaning of Treasury Regulation Section 1.1275-2(h)(3) or constitute options that the Issuer is presumed not exercise pursuant to the rules set forth in Treasury Regulation Section 1.1272-1(c)(5), such that the amount of the payments would not be treated as OID but, instead, would be includible in income as ordinary income in accordance with the U.S. Holder's normal method of tax accounting. The Issuer's determination with respect to this issue will not be binding on the IRS, but will be binding on any U.S. Holder that does not disclose an objection on its timely filed tax return for the taxable year that includes the acquisition date of such Note. U.S. Holders should consult with their own tax advisors concerning the proper taxation and characterization of such payments, and whether the right to such payments could cause the Notes to be subject to the OID rules or to be treated as CPDIs.

In general, a U.S. Holder of a Note will have a basis in such Note equal to the cost of such Note to such U.S. Holder, increased by any amount includible in income by such U.S. Holder as OID and any market discount that the U.S. Holder has elected to include in income on a current basis and reduced by any amortized premium, any principal payments and any payments of OID. Upon a sale, exchange or other disposition of a Note, a U.S. Holder

will generally recognize gain or loss equal to the difference between the amount realized on the sale, exchange or other disposition (less any accrued and unpaid interest, which would be taxable as such) and the U.S. Holder's tax basis in such Note (as reduced by any accrued and unpaid interest). Such gain or loss generally will be long-term capital gain or loss if the U.S. Holder held the Note for more than one year at the time of disposition (other than accrued market discount if the U.S. Holder did not elect to include such discount in income on a current basis). In certain circumstances, U.S. Holders that are individuals may be entitled to preferential treatment for net long-term capital gains; however, the ability of U.S. Holders to offset capital losses against ordinary income is limited.

The Indenture provides that Holders of any Class of Notes may elect to acquire credit enhancement on terms and conditions acceptable to such Holders. Prior to acquiring such enhancement, U.S. Holders should consult with their own tax advisors concerning the treatment of the credit enhancement for United States federal income tax purposes (including the viability of integrating the Notes and the credit enhancement).

#### Alternative Characterizations of the Notes

Notwithstanding special United States tax counsel's opinion, U.S. Holders should recognize that there is some uncertainty regarding the appropriate classification of instruments such as the Notes. It is possible, for example, that the IRS may contend that the Class B-2L Notes and, possibly, other Classes of Notes should be treated as equity interests (or as part debt, part equity) in the Issuer. Such a recharacterization might result in materially adverse tax consequences to U.S. Holders.

If U.S. Holders of a Class of Notes were treated as owning equity interests in the Issuer for United States federal income tax purposes, subject to the rules discussed below relating to "passive foreign investment companies" ("PFICs") and "controlled foreign corporations" ("CFCs"), payments on such Notes should be treated as dividends to the extent of the current or accumulated earnings and profits of the Issuer. Payments characterized as dividends would be taxable at regular marginal income tax rates applicable to ordinary income, and would not be entitled to the benefit of the dividends received deduction or any reduction in tax rates that may be available for certain dividends. Distributions in excess of the Issuer's earnings and profits would be non-taxable to the extent of, and would be applied against and reduce, the U.S. Holder's adjusted tax basis in the Notes and, to the extent in excess of such basis, would be taxable as gain from the sale or exchange of property.

The tax consequences discussed in the preceding paragraph are likely to be significantly modified as a result of the application of the PFIC and CFC rules discussed below. Thus, U.S. Holders of a Class of Notes characterized as equity for United States federal income tax purposes will be viewed as owning stock in a PFIC and, possibly, in a CFC (depending, in the latter instance, on the percentage of voting equity that is acquired and held by certain U.S. Holders). If applicable, the rules pertaining to CFCs would generally override those pertaining to PFICs, although in certain circumstances both set of rules could apply simultaneously.

Under the PFIC rules, U.S. Holders of any Class of Notes characterized as equity for United States federal income tax purposes (other than U.S. Holders that make a timely "QEF election," as described below) will be subject to special rules relating to the taxation of "excess distributions" – with excess distributions being defined to include certain distributions made by a PFIC on its stock as well as gain recognized on a disposition of PFIC stock. (For this purpose, a U.S. Holder that uses its Notes as security for an obligation may be treated as having made a disposition of PFIC stock.) In general, Section 1291 of the Code provides that the amount of any "excess distribution" will be allocated to each day of the U.S. Holder's holding period for its PFIC stock. The amount allocated to the current year will be included in the U.S. Holder's gross income for the current year as ordinary income. With respect to amounts allocated to prior years, the tax imposed for the current year will be increased by the "deferred tax amount," which is an amount calculated with respect to each prior year by multiplying the amount allocated to such year by the highest rate of tax in effect for such year, together with an interest charge as though the amounts of tax were overdue.

In order to avoid the application of the PFIC rules, each U.S. Holder should consider making a qualified electing fund election (the "**QEF election**") provided in Section 1295 of the Code on a "protective" basis (although such protective election may not be respected by the IRS because current regulations do not authorize protective QEF elections for debt that may be recharacterized as equity). In lieu of the PFIC rules discussed above, a U.S.

Holder of Notes characterized as equity for United States federal income tax purposes that makes a valid QEF election will, in very general terms, be required to include its pro rata share of the Issuer's ordinary income and net capital gains, unreduced by any prior year losses, in income for each taxable year (as ordinary income and long-term capital gain, respectively) and to pay tax thereon, even if the amount of that income is not the same as the interest or OID, if any, paid on the Notes during the year. If the Issuer later distributes the income or gain that the U.S. Holder has already included in income under the QEF rules, the amounts so distributed will not again be included in income in the hands of the U.S. Holder. A U.S. Holder's tax basis in any Notes characterized as equity for United States federal income tax purposes as to which a QEF election has been validly made will be increased by the amount included in such U.S. Holder's income as a result of the QEF election and decreased by the amount of nontaxable distributions received by the U.S. Holder. On the disposition (including redemption or retirement) of a Note characterized as equity for United States federal income tax purposes, a U.S. Holder making the QEF election generally will recognize capital gain or loss equal to the difference, if any, between the amount realized upon such disposition and its adjusted tax basis in the Note. In general, a protective QEF election should be made on or before the due date for filing a U.S. Holder's federal income tax return for the first taxable year for which the U.S. Holder has held its Notes. In this regard, a QEF election is effective only if certain required information is made available by the Issuer. Upon request, the Issuer will provide any U.S. Holder of a Class of Notes that may reasonably be characterized as equity in the Issuer for United States federal income tax purposes with the information necessary for such U.S. Holder to make the QEF election. Nonetheless, there can be no assurance that such information will always be available.

The Issuer may be treated as holding securities issued by non-U.S. corporations that are characterized as equity in one or more PFICs for United States federal income tax purposes. In that event, U.S. Holders of Notes characterized as equity for United States federal income tax purposes would be treated as holding an interest in these indirectly-owned PFICs. Because the U.S. Holder – and not the Issuer – would be required to make any QEF election with respect any such indirectly-owned PFIC, and because PFIC information statements necessary for any such election may not be made available by the PFIC, there can be no assurance that a U.S. Holder would be able to make a QEF election with respect to any particular indirectly-held PFIC. If the U.S. Holder of any Notes characterized as equity for United States federal income tax purposes has not made a QEF election with respect to an indirectly-owned PFIC, the U.S. Holder would be subject to the consequences described above with respect to the excess distributions of such PFIC (including gain indirectly realized with respect to such PFIC on the sale of the Issuer's interest in the PFIC and gain indirectly realized with respect to such PFIC on the sale by the U.S. Holder of its Notes). Alternatively, if the U.S. Holder has made a QEF election with respect to the indirectly-owned PFIC, the U.S. Holder would be required to include in income its share of the indirectly-owned PFIC's ordinary earnings and net capital gain.

United States tax law contains special provisions relating to CFCs. A foreign corporation is a CFC if "U.S. Shareholders" in the aggregate own, directly or indirectly, more than 50% of the voting power or value of the stock of such corporation. For this purpose, a United States person that owns, directly or indirectly, ten percent or more of the voting stock of a CFC is considered a "U.S. Shareholder" with respect to the CFC. If any U.S. Holder of Notes recharacterized as equity were properly viewed as a U.S. Shareholder of the Issuer under the CFC rules, the U.S. Holder would be subject each year to U.S. income tax (at ordinary income rates) on its pro rata share of the income of the Issuer (assuming that the Issuer is properly classified as a CFC for the year and that the U.S. Holder holds its Notes as of the end of the year), regardless of the amount of cash distributions received by the U.S. Holder with respect to its Notes during the year. Earnings subject to tax to a U.S. Holder under the CFC rules generally would not be taxed again when distributed to the U.S. Holder. In addition, if the Issuer is a CFC and a U.S. Holder is a U.S. Shareholder with respect to the Issuer, all or a portion of the income that otherwise would be characterized as capital gain upon a sale of U.S. Holder's Notes may be classified as ordinary income. Certain income generated by a corporation conducting a banking, financing, insurance, or other similar business is not includible in a U.S. Shareholder's income under the CFC rules. However, by its acceptance of a Note, each Holder will be deemed to have agreed that the Issuer is not engaged in any such business. Accordingly, if the CFC rules were to apply, a U.S. Holder of any Class of Notes that is characterized as equity for United States federal income tax purposes and that constitutes a U.S. Shareholder under the CFC rules would generally be subject to tax on its share of all of the Issuer's income.

Prospective investors should be aware that, in computing the Issuer's earnings for purposes of the CFC rules, losses on dispositions of securities in bearer form may not be allowed. Additionally, in computing the Issuer's ordinary earnings and net capital gains for purposes of the PFIC rules, losses on dispositions of securities in bearer

form may not be allowed, and any gain on such securities may be ordinary rather than capital. Further, investors should be aware that, in the event that any of the Notes is not fully paid upon maturity (other than Notes, if any, characterized as equity for United States federal income tax purposes), the Issuer may recognize cancellation of indebtedness income for United States federal income tax purposes, without any corresponding offsetting loss (due to tax character differences or otherwise). In such a case, U.S. Holders of any Class of Notes treated as equity for United States federal income tax purposes may need to recognize phantom income as a result of such recognition by the Issuer (pursuant to the QEF and CFC rules discussed above), as to which an offsetting loss may not be available to the U.S. Holders.

#### Information Reporting Requirements

Information reporting to the IRS may be required with respect to payments on the Notes, and proceeds of the sale of the Notes to Holders other than corporations and certain other exempt recipients. A "backup" withholding tax may also apply to those payments if a Holder fails to provide certain identifying information (such as the Holder's taxpayer identification number or an attestation to the status of the Holder as a Non-U.S. Holder). Backup withholding is not an additional tax and may be refunded (or credited against the Holder's U.S. federal income tax liability, if any) *provided* that certain required information is furnished to the IRS in a timely manner.

Prospective investors should consult with their own tax advisors regarding whether they are required to file an IRS Form 8886 in respect of this transaction (relating to certain "reportable transactions"). Thus, for example, if a U.S. Holder were to sell its Notes at a loss, it is possible that this loss could constitute a reportable transaction, and need to be reported on Form 8886. As another example, a transaction may be reportable if it is offered under conditions of confidentiality. In this regard, each Holder and beneficial owner of the Notes (and each of their respective employees, representatives or other agents) is hereby advised that it is permitted to disclose to any and all persons, without limitation of any kind, the tax treatment and tax structure of the transactions described herein (including the ownership and disposition of the Notes). Significant penalties apply for failure to file Form 8886 when required, and Holders and beneficial owners of the Notes are therefore urged to consult their own tax advisors.

If the Class B-2L Notes or any other Class of Notes were classified as equity for U.S. federal income tax purposes, U.S. Holders of such Notes may be required to file Forms with the IRS under applicable reporting provisions of the Code. Thus, for example, under Section 6038, 6038B and/or 6046 of the Code, such U.S. Holders would be required to supply the IRS with certain information regarding the U.S. Holder, other U.S. Holders and/or the Issuer if (i) such U.S. Holder owns at least 10% of the total value or 10% of the total combined voting power of all classes of stock entitled to vote or (ii) the acquisition of Notes, when aggregated with certain other acquisitions that may be treated as related under applicable regulations, exceeds \$100,000. Upon request, the Issuer will provide U.S. Holders of any Class of Notes that may reasonably be recharacterized as equity for United States federal income tax purposes with information available to the Issuer that may be needed by the U.S. Holder to complete any Form that is so required. In the event a U.S. Holder fails to file a form when required to do so, the U.S. Holder could be subject to substantial tax penalties.

#### Tax Treatment of Non-U.S. Holders of the Notes

A Non-U.S. Holder of a Note that has no connection with the United States other than holding its Notes should generally not be subject to United States withholding tax on interest payments (including original issue discount) in respect of a Note and also should not be subject to United States federal income tax on gains recognized in connection with the sale or other disposition of the Notes, *provided* that the non U.S. Holder makes certain tax representations regarding the identity of the beneficial owner of the Notes (and, with respect to gain recognized in connection with the sale or other disposition of Notes by a non resident alien individual, *provided* that such individual is not present in the United States for 183 days or more in the taxable year of the sale or other disposition).

#### Circular 230

Under 31 C.F.R. part 10, the regulations governing practice before the IRS (Circular 230), the Co-Issuers and their tax advisors are (or may be) required to inform prospective investors that:

- Any advice contained herein, including any opinions of counsel referred to herein, is not intended or written to be used, and cannot be used by any taxpayer, for the purpose of avoiding penalties that may be imposed on the taxpayer;
- Any such advice is written to support the promotion or marketing of the Notes and the transactions described herein (or in such opinion or other advice); and

Each taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

### **CAYMAN ISLANDS TAX CONSEQUENCES**

The following discussion of certain Cayman Islands income tax consequences of an investment in the Notes is based on the advice of Maples and Calder as to Cayman Islands law. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It assumes that the Issuer will conduct its affairs in accordance with assumptions made by, and representations made to, counsel. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under existing Cayman Islands laws:

- (i) payments of principal and interest in respect of the Notes will not be subject to taxation in the Cayman Islands and no withholding will be required on such payments to any Holder of a Note and gains derived from the sale of Notes will not be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax; and
- (ii) the Holder of any Note (or the legal personal representative of such Holder) whose Note is brought into the Cayman Islands may in certain circumstances be liable to pay stamp duty imposed under the laws of the Cayman Islands in respect of such Note.

The Issuer has been incorporated under the laws of the Cayman Islands as an exempted company and, as such, has applied for and obtained an undertaking from the Governor In Cabinet of the Cayman Islands in the following form:

#### **The Tax Concessions Law**

**(1999 Revision)**

#### **Undertaking as to Tax Concessions**

- (b) in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable
  - (i) on or in respect of the shares, debentures or other obligations of the Company; or
  - (ii) by way of the withholding in whole or in part of any relevant payment as defined in Section 6(3) of the Tax Concessions Law (1999 Revision).

These concessions shall be for a period of twenty years from the 2nd day of May 2006.

### CERTAIN ERISA CONSIDERATIONS

The United States Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), imposes requirements on employee benefit plans (as defined in Section 3(3) of ERISA) subject to Title I of ERISA ("**ERISA Plans**") and on persons who are fiduciaries (as defined in Section 3(21) of ERISA) with respect to such ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including the requirement of investment prudence and diversification, requirements respecting delegation of investment authority and the requirement that an ERISA Plan's investments be made in accordance with the documents governing the ERISA Plan. Each ERISA Plan fiduciary should give appropriate consideration to the facts and circumstances that are relevant to an investment in the Notes, including the role that an investment in the Notes plays in the Plan's investment portfolio. Before deciding to invest "plan assets" of any ERISA Plan in the Notes, the investing ERISA Plan fiduciary should be satisfied that investment in the Notes is a prudent investment for the ERISA Plan, that the investments of the ERISA Plan, including the investment in the Notes, are diversified so as to minimize the risk of large losses and that an investment in the Notes complies with the ERISA Plan and related trust documents. Any person who decides to invest "plan assets" of an ERISA Plan in the Notes should consider, among other factors, the factors discussed above under "Special Considerations."

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans, as well as individual retirement accounts and Keogh plans, subject to either or both of such statutes (each, a "**Plan**") from engaging in certain transactions with persons that are "parties in interest" under ERISA or "disqualified persons" under Section 4975 of the Code (collectively, "**Parties in Interest**") with respect to such Plans. A violation of these prohibited transaction rules may result in an excise tax or other penalties and liabilities under ERISA and/or Section 4975 of the Code for such persons.

Certain transactions involving the purchase, holding or transfer of the Notes might be deemed to constitute or result in prohibited transactions under ERISA and/or Section 4975 of the Code. For example, if the "plan assets" of an investing Plan were deemed to include assets of the Issuer and if any of the Portfolio Collateral constitutes an obligation of or is purchased from or sold to a Party in Interest with respect to such Plan, an indirect prohibited transaction in the nature of an extension of credit or a purchase or sale of assets between such Plan and such Party in Interest might be deemed to occur. In addition, if the assets of the Issuer were deemed to be "plan assets" of any Plan investors, Notes sold to a Party in Interest with respect to such Plan would constitute a prohibited extension of credit transaction, possibly subjecting such Noteholder to excise taxes under Section 4975 of the Code. Under regulations issued by the United States Department of Labor (the "**DOL**"), set forth in 29 C.F.R. § 2510.3-101, as modified by Section 3(42) of ERISA (the "**Plan Asset Regulations**"), the assets of the Issuer would be treated as "plan assets" of a Plan for purposes of ERISA and Section 4975 of the Code if the Plan acquires an equity interest in the Issuer and none of the exceptions contained in the Plan Asset Regulations applies. An equity interest is defined under the Plan Asset Regulations as any interest in an entity other than an instrument which is treated as indebtedness under applicable local law and which has no substantial equity features.

Although there is no authority directly on point, it is anticipated that the Notes (other than the Class B-2L Notes) should be treated as indebtedness under local law and should not be treated as having substantial equity features for purposes of the Plan Asset Regulations. However, without regard to whether (i) the Notes are treated as an equity interest for such purposes or (ii) the assets of the Issuer are deemed to be "plan assets" of an investing Plan, the acquisition or holding of Notes by or on behalf of, or with "plan assets" of, a Plan could be considered to give rise to a prohibited transaction if the Issuer, the Trustee, the Initial Purchasers, the Servicer, an issuer of an item of Portfolio Collateral, or any of their respective affiliates is or becomes a Party in Interest with respect to an investing Plan. Certain exemptions from the prohibited transaction rules could apply to the acquisition of a Note by or with "plan assets" of a Plan, depending on the type and circumstances of the Plan fiduciary making the decision to acquire a Note. Included among these exemptions are the statutory prohibited transaction exemption available to "service providers" to Plans (*provided* that the service provider is neither a fiduciary with respect to the "plan assets" being used to acquire the Notes nor an affiliate of such a fiduciary, and that the transaction is for adequate consideration), DOL Prohibited Transaction Class Exemption ("**PTCE**") 96-23, regarding transactions effected by certain "in-house asset managers"; PTCE 95-60, regarding investments by insurance company general accounts; PTCE 91-38, regarding investments by bank collective investment funds; PTCE 90-1, regarding investments by insurance company pooled separate accounts; and PTCE 84-14, regarding transactions effected by independent "qualified professional asset managers." However, even if the conditions specified in one or more of these

exemptions are met, the scope of the relief provided by these exemptions might or might not cover all acts which might be construed as prohibited transactions and in particular would not apply to prohibited transactions arising from the operations of the Issuer.

In any event, a fiduciary or other person investing "plan assets" of any Plan should not purchase Notes if the Issuer, the Initial Purchasers, the Trustee, the Servicer or any of their respective affiliates (a) has investment discretion with respect to the investment of such assets; (b) has authority or responsibility to give or regularly gives investment advice with respect to such assets, for a fee, pursuant to an agreement or understanding that such advice will serve as a primary basis for investment decisions with respect to such assets and that such advice will be based on the particular investment needs of such Plan; or (c) unless PTCE 95-60, 91-38 or 90-1 is applicable, is an employer maintaining or contributing to such Plan. A party that is described in clause (a) or (b) of the preceding sentence is a fiduciary under ERISA with respect to the Plan and any such purchase might result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code.

As a general rule, certain employee benefit plans, including governmental plans (as defined in Section 3(32) of ERISA) and certain church plans (as defined in Section 3(33) of ERISA), are not subject to ERISA's requirements. Accordingly, assets of many such plans may be invested in the Notes without regard to ERISA's prohibited transaction considerations described above, subject to the provisions of other applicable federal and state law. However, any such plan which is qualified and exempt from taxation under Sections 401(a) and 501(a) of the Code may nonetheless be subject to the prohibited transaction rules set forth in Section 503 of the Code and, under certain circumstances in the case of church plans, Section 4975 of the Code. Also, some governmental plans are subject to federal, state or local laws which are, to a material extent, similar to the provisions of Title I of ERISA or Section 4975 of the Code (a "**Similar Law**"). Each governmental plan fiduciary should make its own determination as to the need for and the availability of any exemptive relief under a Similar Law.

***Each Holder of a Class A-1LA Note, a Class A-1LB, a Class A-2L Note or a Class A-3L Note, by its acquisition thereof, shall be deemed to represent to the Issuer, the Servicer and the Trustee that either (i) no part of the funds being used to pay the purchase price for such Note constitutes "plan assets" of any Plan, or (ii) if the funds being used to pay the purchase price for such Note includes "plan assets" of any Plan, an exemption to the prohibited transaction rules applies.***

***Each Holder of a Class B-1L Note, by its acquisition thereof, shall be deemed to represent to the Issuer, the Servicer and the Trustee that either (a) the purchaser or transferee is not a Plan and is not acquiring the Class B-1L Note with assets of a Plan or (b) it is an insurance company and such funds include only assets of its general account, and its acquisition and holding of such Note are eligible for exemptive relief available under Section I of PTCE 95-60, or the acquisition and holding of the Class B-1L Notes by the purchaser or transferee are eligible for the exemptive relief under any of Section 408(b)(17) of ERISA or PTCE 96-23, 91-38, 90-1 or 84-14.***

Although there is no authority directly on point, it is anticipated that the Class B-2L Notes will be treated as equity interests for purposes of the Plan Asset Regulations. An exception under the Plan Asset Regulations provides that an investing Plan's assets will not include any of the underlying assets of an entity if equity participation in the entity by "benefit plan investors" is not "significant." Section 3(42) of ERISA defines a "benefit plan investor" as including (i) an employee benefit plan (as defined in Section 3(3) of ERISA), that is subject to Title I of ERISA; (ii) a plan described in and subject to Section 4975 of the Code; and (iii) an entity whose underlying assets include "plan assets" by reason of a Plan's investment in the entity (a "**Benefit Plan Investor**"). The Plan Asset Regulations provide that equity participation in an entity by Benefit Plan Investors is "significant" if, immediately after the most recent acquisition of any equity interest in the entity, 25% or more of the value of any class of equity interests in the entity is held by Benefit Plan Investors. For purposes of determining whether this 25% threshold has been met or exceeded, the value of any equity interests held by a person (other than such Benefit Plan Investor) who has discretionary authority or control with respect to the assets of the entity, or any person who provides investment advice for a fee (directly or indirectly) with respect to such assets, or any affiliate of such person, is disregarded.

Accordingly, except as set forth below, the Class B-2L Notes may not be acquired or held by or on behalf of, or with "plan assets" of, any Plan or other Benefit Plan Investor, including an insurance company general account. However, the Class B-2L Notes may be acquired and held by or on behalf of, or with "plan assets" of, a Plan or other Benefit Plan Investor if:

(a) (1)(A) The investor is purchasing the Class B-2L Notes with assets of an "insurance company general account" (within the meaning of PTCE 95 60) (a "**General Account**"); (B) the investor's purchase and holding of the Class B-2L Notes are eligible for the exemptive relief available under Section I of PTCE 95 60; (C) less than 25% of the assets of such General Account constitute "plan assets" of Benefit Plan Investors; and (D) if, after the initial acquisition of Class B-2L Notes, during any calendar quarter 25% or more of the assets of such General Account (as determined by such insurance company) constitute "plan assets" of any Plan or other Benefit Plan Investor and full exemptive relief from the prohibited transaction prohibitions of Section 406 of ERISA and Section 4975 of the Code is not available under Section 401(c) of ERISA and the regulations thereunder then such investor will dispose of all of the Class B-2L Notes then held in such General Account by the end of the next following calendar quarter; or (2) the investor's purchase and holding of the Class B-2L Notes are eligible for the exemptive relief available under any of Section 408(b)(17) of ERISA or PTCE 96-23, 91-38, 90-1 or 84-14 and the purchase and holding of such Note does not constitute a violation of similar law; and

(b) After giving effect to such purchase and all other purchases occurring simultaneously therewith, less than 25% of the Class B-2L Notes (excluding any Class B-2L Notes held by the Servicer or its affiliates) will be held by Benefit Plan Investors.

In addition, except as otherwise provided in the Indenture, if an investor (whether or not it is a Plan or a Benefit Plan Investor) purchases a Class B-2L Note and if, after giving effect to such purchase, the investor (or its affiliates) will own 50% or more of the aggregate par value of the Class B-2L Notes, the investor should consult with its counsel regarding the effect such an investment may have on its ability (and that of its affiliates and their Plans) to purchase Class A Notes or Class B-1L Notes in reliance upon any of PTCE 96-23, 95-60, 91-38, 90-1 or 84-14.

Except with respect to certain secondary market transactions through Bear Stearns, as more fully described in the Indenture, by its purchase of the Class B-2L Notes, each purchaser and transferee will be required to represent and warrant to and agree with the Issuer, the Servicer and the Trustee that (i) its purchase and holding of such Class B-2L Notes will satisfy the ERISA requirements with respect to the 25% limitation described above and (ii) it will not assign or transfer such Class B-2L Notes unless (1) the proposed assignee or transferee delivers a letter to the Issuer evidencing its agreement to the foregoing ERISA representations and covenants with respect to its purchase, holding and transfer of such Class B-2L Notes and (2) if the investor:

(x) Is not (and is not acting on behalf of) a Benefit Plan Investor, the assignee or transferee will also not be a Benefit Plan Investor; or

(y) Is (or is acting on behalf of) a General Account, the assignee or transferee will be accurately identified in such letter as either another General Account or a person who is not (and is not acting on behalf of) a Benefit Plan Investor; or

(z) Is (or is acting on behalf of or with "plan assets" of) a Benefit Plan Investor (other than a General Account), the assignee or transferee will be accurately identified in such letter as either a General Account, another Benefit Plan Investor or a person who is not (and is not acting on behalf of) any Benefit Plan Investor.

*Each Holder of a Class B-2L Note, by its acquisition thereof, shall be deemed to represent to the Issuer, the Servicer and the Trustee that either (a) no part of the funds being used to pay the purchase price for such Note constitutes "plan assets" of any Plan, or (b) if the funds being used to pay the purchase price for such Note include "plan assets" of any Plan or any other Benefit Plan Investor, (1) either (i) it is an insurance company and such funds include only assets of its general account, and its acquisition and holding of such Class B-2L Note are eligible for the exemptive relief available under Section I of PTCE 95-60 or (ii) its acquisition and holding of such Class B-2L Note are eligible for the exemptive relief available under any of Section 408(b)(17) of ERISA or PTCE 96-23, 91-38, 90-1 or 84-14 and the purchase and holding of such Note does not constitute a violation of similar law, and (2) the ERISA restrictions set forth above have been satisfied.*

**Any person proposing to invest assets of any Plan, or any governmental plan subject to Similar Law, in the Notes should consult with its counsel to confirm that such investment will not constitute or result in any prohibited transaction that is not subject to an exemption and will satisfy the other requirements of ERISA, the Code and, in the case of such a governmental plan, Similar Law.**

### **CERTAIN LEGAL INVESTMENT CONSIDERATIONS**

Institutions whose investment activities are subject to legal investment laws and regulations or to review by certain regulatory authorities may be subject to restrictions on investments in the Notes. Any such institution should consult its legal advisors in determining whether and to what extent there may be restrictions on its ability to invest in the Notes. Without limiting the foregoing, any financial institution that is subject to the jurisdiction of the Comptroller of Currency, the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Office of Thrift Supervision, the National Credit Union Administration, any state insurance commission, or any other federal or state agencies with similar authority should review any applicable rules, guidelines and regulations prior to purchasing the Notes. Depository institutions should review and consider the applicability of the Federal Financial Institutions Examination Council Supervisory Policy Statement on Securities Activities, which has been adopted by the respective federal regulators.

None of the Co-Issuers or the Initial Purchasers make any representation as to the proper characterization of the Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Notes for legal investment or other purposes, or as to the ability of particular investors to purchase the Notes under applicable investment restrictions. The Co-Issuers understand that certain state insurance regulators, in response to a request for guidance, may be considering the characterization (as U.S. domestic or foreign (non-U.S.)) of certain collateralized debt obligation securities co-issued by a non-U.S. issuer and a U.S. co-issuer. There can be no assurance as to the nature of any guidance or other action that may result from such consideration. The uncertainties described above (and any unfavorable future determinations concerning legal investment or financial institution regulatory characteristics of the Notes) may affect the liquidity of the Notes. Accordingly, all institutions whose activities are subject to legal investment laws and regulations, regulatory capital requirements or review by regulatory authorities should consult their own legal advisors in determining whether and to what extent the Notes are subject to investment, capital or other restrictions.

### **RATINGS**

It is a condition to the issuance of the Notes that the Class A-1LA Notes and Class A-1LB Notes each be rated "AAA" by S&P and "Aaa" by Moody's, that the Class A-2L Notes be rated at least "AA" by S&P and at least "Aa2" by Moody's, that the Class A-3L Notes be rated at least "A" by S&P and at least "A2" by Moody's, that the Class B-1L Notes be rated at least "BBB" by S&P and at least "Baa2" by Moody's and that the Class B-2L Notes be rated at least "BB" by S&P and at least "Ba2" by Moody's. Each of the ratings of the Notes described herein assumes that no Maturity Extension occurs after the Closing Date. A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating organization.

**The ratings of the Notes by S&P address solely the likelihood of timely payment of the Periodic Interest Amount on and the ultimate payment of the Aggregate Principal Amount of each Class of Senior Class A Notes and the ultimate payment of the Cumulative Interest Amount and the Aggregate Principal Amount of the Class A-3L Notes, the Class B-1L Notes and the Class B-2L Notes. The ratings of the Notes by Moody's address the ultimate cash receipt of all required payments as provided by the governing documents, and are based on the expected loss to the Noteholders of each Class relative to the promise of receiving the present value of such payments. A rating is not a recommendation to purchase, hold or sell securities, in as much as such rating does not comment as to market price or suitability for a particular investor and may be subject to revision or withdrawal at any time by the assigning rating organization.**

In the event that any rating initially assigned to the Notes is subsequently lowered for any reason, no person or entity is obligated to provide any additional support or credit enhancement with respect to the Notes. The Issuer has not requested a rating on the Notes by any rating agencies other than S&P and Moody's, although data with respect to the Portfolio Collateral may have been provided to other rating agencies solely for informational purposes. There can be no assurance that, if a rating is assigned to the Notes by any other rating agency, such rating will be as high as that assigned by S&P and Moody's.

### USE OF PROCEEDS

The net proceeds from the sale of the Notes as described herein, together with net proceeds from the sale of the Preferred Shares and the Combination Notes will be used by the Issuer to fund the purchase of a principal amount of the Initial Portfolio Collateral at least equal to the Initial Portfolio Collateral Amount, to fund the Deposit on the Closing Date of cash in the approximate amount such that the Aggregate Principal Amount of Original Portfolio Collateral originally purchased by the Issuer on or before the Effective Date will equal the Required Portfolio Collateral Amount and to fund the deposit in the Expense Reimbursement Account on the Closing Date of approximately U.S.\$50,000, which Expense Reimbursement Account will be available for payment from time to time of future expenses of the Issuer pending the receipt of collections in respect of the Portfolio Collateral as described herein, to pay organizational, legal and other fees and expenses, related to the transaction, and to fund the Reserve Amount. The net proceeds from the sale of the Notes, the Combination Notes and the Preferred Shares will be approximately U.S.\$1,006,890,000.

### PLAN OF DISTRIBUTION

The Initial Purchasers have advised the Co-Issuers that they propose to offer the Notes to prospective purchasers from time to time in individually negotiated transactions at varying prices to be determined in each case at the time of sale. The price(s) paid by each Initial Purchaser for the Notes may be less than those paid by other purchasers of the Notes. Each Initial Purchaser may offer or sell Notes to purchasers at negotiated prices, which may vary among different purchasers of Notes of any Class. In addition to the structuring and placement fees paid to each Initial Purchaser, each Initial Purchaser may be deemed to receive compensation for the sale of the Notes to the extent that the price(s) paid by it for Notes is less than the price(s) at which they are resold.

The Notes are offered when, as and if issued by the Co-Issuers, subject to prior sale or withdrawal, cancellation or modification of the offer without notice and subject to approval of certain legal matters by counsel and certain other conditions. It is expected that delivery of the Notes will be made on or about the Closing Date, against payment in immediately available funds.

The Notes have not been registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, United States persons except to (i) Qualified Institutional Buyers in reliance on Rule 144A under the Securities Act and (ii) other persons or entities pursuant to other valid exemptions from the registration requirements of the Securities Act.

Without limiting the foregoing, no transfer of Notes may be made except to a non-U.S. Person in an offshore transaction in compliance with Regulation S, who, in the case of the Class B-2L Notes is also a Qualified Institutional Buyer, or to a Qualified Purchaser or if such transfer would not require the Issuer or the Co-Issuer to become subject to the registration requirements of the Investment Company Act.

Each of the Co-Issuers and each of the Initial Purchasers represents and agrees that it (i) has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act of 2000 ("FSMA")) received by it in connection with the issue or sale of any offered securities in circumstances in which Section 21(a) of the FSMA does not apply to the Issuer; and (ii) has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the offered securities, in, from or otherwise involving the United Kingdom.

No invitation may be made to the public in the Cayman Islands to subscribe for the Notes.

Purchasers of Notes sold outside the United States may be required to pay stamp taxes and other charges in accordance with the laws and practices of the country of purchase in addition to the price charged to investors for the Notes.

The Notes are new securities for which there currently is no market. Accordingly, no assurance can be given as to the development or liquidity of any market for the Notes.

### Philosophy and Process

Highland Capital has expertise in the fields of syndicated loans, high yield bonds, and distressed assets. Highland Capital seeks to construct portfolios to (a) maximize relative value based on its credit views and (b) maximize diversification in order to minimize the effect of isolated credit events on the overall portfolio, utilizing Highland Capital's infrastructure to minimize defaults of underlying assets and to maximize recoveries in the case of defaults. Portfolio managers actively follow each credit and several times each year the entire staff reviews all positions during multi-day monitoring meetings. Highland Capital diversifies its portfolios with set limits on exposure to any one given industry or issuer.

Highland Capital focuses on a "team" approach that it has used since 1990. A committee of senior portfolio managers and analysts, Highland Capital's Chief Investment Officer and its Head of Structured Products meets every morning to discuss the status of the credits. Collectively, the committee utilizes a selection and monitoring process which is driven by fundamental credit research. Each portfolio manager/analyst makes specific credit recommendations based upon industry coverage. The credit recommendation is then brought to the committee for consideration. Based upon the consensus decision, the portfolio manager with the recommendation will direct Highland traders to execute the trade. Highland Capital has also provided its committee with a strong commitment to technology. The firm developed Wall Street Office® which is a proprietary software system that allows Highland Capital to model, portfolio manage, and trade syndicated loans. This software has been licensed to more than 70 financial institutions that acquire syndicated loans.

## THE SERVICING AGREEMENT

The following summary describes certain provisions of the Servicing Agreement. The summary does not purport to be complete and is subject to, and qualified in its entirety by reference to, the Servicing Agreement.

The Servicer will select the Initial Portfolio Collateral and will select all remaining Portfolio Collateral. The Servicer will also monitor the performance and credit quality of all of the Portfolio Collateral on an ongoing basis as further provided in the Servicing Agreement. Pursuant to the terms of the Servicing Agreement and the Indenture, the Servicer will direct the Issuer with respect to the use of collections on Portfolio Collateral to purchase Substitute Portfolio Collateral or Additional Portfolio Collateral, direct the Trustee when to deliver an item of Credit Risk Portfolio Collateral, Credit Improved Portfolio Collateral, Equity Portfolio Collateral or other item of Portfolio Collateral for sale, direct the use of proceeds therefrom to purchase Substitute or Additional Portfolio Collateral and Eligible Investments and direct the Trustee with respect to Securities Lending Agreements, if any. The Servicer will advise the Issuer with respect to the use of certain Collections as described herein to purchase Additional Portfolio Collateral meeting the specifications set forth herein. If any Portfolio Collateral is an item of Defaulted Portfolio Collateral, the Servicer will instruct the Trustee as to the appropriate action to be taken against the issuer of such item of Portfolio Collateral and whether to retain or dispose of such item of Portfolio Collateral. See "Security for the Notes—Changes in Composition of Portfolio Collateral."

Upon any disposition of Portfolio Collateral, the Trustee, upon direction of the Servicer, will either deposit the proceeds of such disposition in the Collection Account or apply the proceeds of such disposition to the purchase of an item of Additional Portfolio Collateral or Substitute Portfolio Collateral, all in accordance with the terms of the Indenture. Any such actions directed by the Servicer may change the composition and characteristics of the Portfolio Collateral included in the Trust Estate, the rate of payment thereon, and, accordingly, may affect the actual average life of the Notes.

The Indenture places significant restrictions on the ability of the Issuer to buy and sell securities for the Trust Estate, and the Servicer is subject to compliance with such document. Accordingly, during certain periods or in certain specified circumstances, the Issuer may be unable to buy or sell securities or to take other actions which the Servicer might consider in the interests of the Issuer and its creditors and the Holders of Preferred Shares.

In its capacity as servicer or manager, the Servicer engages in other business and furnishes asset management and other services to other clients which may differ from those followed by the Servicer on behalf of the Issuer, as required by the Indenture. The Servicer may make recommendations or effect transactions which may differ from those effected with respect to the securities in the Trust Estate.

The Servicing Agreement provides that the Servicer will not direct the Trustee to acquire an obligation to be included in the Collateral from the Servicer or any of its Affiliates as principal or to sell an obligation to the Servicer or any of its Affiliates as principal unless (i) the Issuer shall have received from the Servicer such information relating to such acquisition or sale as it may reasonably require and shall have approved such acquisition, which approval shall not be unreasonably withheld, (ii) in the judgment of the Servicer, such transaction is on terms no less favorable than would be obtained in a transaction conducted on an arm's length basis between third parties unaffiliated with each other and (iii) such transaction is permitted by the Investment Advisers Act of 1940. The Servicing Agreement also provides that the Servicer will not direct the Trustee to acquire an obligation to be included in the Collateral directly from any account or portfolio for which the Servicer serves as investment adviser, or direct the Trustee to sell an obligation directly to any account or portfolio for which the Servicer serves as investment adviser unless such acquisition or sale is (i) in the judgment of the Servicer, on terms no less favorable than would be obtained in a transaction conducted on an arm's length basis between third parties unaffiliated with each other and (ii) permitted by the Investment Advisers Act of 1940.

### Compensation

As compensation for its services under the Servicing Agreement, the Servicer will be entitled to receive a Base Servicing Fee, an Additional Servicing Fee and a Supplemental Servicing Fee (if any).

The Base Servicing Fee is a fee that will accrue from the Closing Date and be payable to the Servicer, if and to the extent funds are available for such purpose as described under "Description of the Notes—Payments on the Notes; Priority of Distributions", in arrears on each Payment Date. The Base Servicing Fee will be calculated

on the basis of a 360-day year and the actual number of days elapsed. The Base Servicing Fee payable on any Payment Date will be payable from Collateral Interest Collections remaining after payment of certain fees and expenses of the Issuer but prior to payment of interest on the Notes. The Base Servicing Fee will accrue interest if unpaid. To the extent Collateral Interest Collections are insufficient to pay any accrued and unpaid Base Servicing Fee payable on any Payment Date, the Base Servicing Fee will be payable from Collateral Principal Collections available for such purpose as described under "Description of the Notes—Payments on the Notes; Priority of Distributions."

The Additional Servicing Fee is a fee that will accrue from the Closing Date and be payable to the Servicer, if and to the extent funds are available for such purpose as described under "Description of the Note—Payments on the Notes; Priority of Distributions", in arrears on each Payment Date (to the extent provided in the Servicing Agreement). The Additional Servicing Fee will be calculated on the basis of a 360-day year and the actual number of days elapsed. The Additional Servicing Fee payable on any Payment Date will be payable from Collateral Interest Collections remaining after payment of certain fees and expenses of the Issuer, the Base Servicing Fee, interest (and, if any of the Overcollateralization Tests or the Interest Coverage Test are not satisfied on the related Payment Date (other than the Interest Coverage Test on the first or second Payment Date) or if a Rating Confirmation Failure exists, principal) on the Notes and certain other amounts. The Additional Servicing Fee will accrue if unpaid, with interest thereon at a rate equal to LIBOR plus 3.00% per annum.

The Servicer may in its sole discretion also elect to waive payment of all or a portion of the Additional Servicing Fee that is due and payable in accordance with the priority of distributions as described under "Description of the Notes—Payments on the Notes; Priority of Distributions" on any Payment Date, other than the Final Payment Date, by providing written notice to the Trustee of such election at least four Business Days prior to such Payment Date. If the Servicer waives the Additional Servicing Fee in whole or in part in such manner, the amount so waived (the "**Waived Additional Servicing Fee**") shall be used to acquire Additional Portfolio Collateral as described under "Description of the Notes—Payments on the Notes; Priority of Distributions." The Servicer shall have no interest in and no reimbursement rights with respect to any Waived Additional Servicing Fees.

The "**Supplemental Servicing Amount**" means an amount that will be payable to the Servicer in accordance with the Indenture on each Payment Date, if and to the extent funds are available for such purpose as described under "Description of the Notes—Payments on the Notes; Priority of Distributions," except to the extent that the Servicer elects, in its sole discretion, to waive such amount in the manner described below. On each Payment Date, the Collateral Manager will receive the Supplemental Servicing Fee, payable to the extent amounts are available therefor on such Payment Date.

If amounts distributable on any Payment Date as described under "Description of the Notes—Payments on the Notes; Priority of Distributions" are insufficient to pay the Base Servicing Fee or the Additional Servicing Fee, then the payment thereof will be deferred and will be payable with interest on subsequent Payment Dates as described herein.

The Servicer may in its sole discretion also elect to waive payment of all or a portion of the Supplemental Servicing Fee that is due and payable in accordance with the priority of distributions as described under "Description of the Notes—Payments on the Notes; Priority of Distributions" on any Payment Date, other than the Final Payment Date, by providing written notice to the Trustee of such election at least four Business Days prior to such Payment Date. If the Servicer waives the Supplemental Servicing Fee in whole or in part in such manner, the amount so waived (the "**Waived Supplemental Servicing Fee**", and, together with the Waived Additional Servicing Fee, the "**Waived Servicing Fees**") shall be used to acquire Additional Portfolio Collateral as described under "Description of the Notes—Payments on the Notes; Priority of Distributions." The Servicer shall have no interest in and no reimbursement rights with respect to any Waived Supplemental Servicing Fee.

The Servicer will have a senior lien on the Trust Estate with respect to its Base Servicing Fee and a junior lien on the Trust Estate with respect to its Additional Servicing Fee. The Servicer will receive reimbursement for certain expenses from the proceeds of the issuance of the Notes and the Preferred Shares. The Servicer will generally be responsible for its own expenses incurred in the course of performing its obligations under the Servicing Agreement, but may be reimbursed for certain expenses as provided in the Servicing Agreement.

Generally, the Servicer will not be liable to the Issuer, the Trustee, the Holders of Notes or Preferred Shares for any loss incurred as a result of the actions taken or recommended by the Servicer under the Servicing Agreement or the Indenture, except by reason of acts constituting bad faith, willful misconduct, or gross negligence in the performance of its obligations thereunder. The Servicer will be entitled to indemnification by the Issuer under certain circumstances as described in the Servicing Agreement. In addition, the Servicer has entered into certain indemnification agreements with Bear Stearns. Under certain circumstances the Servicer also may resign or be removed.

Notwithstanding the foregoing, if the Servicer is removed or resigns, any accrued and unpaid Servicing Fees will immediately become due and be payable in accordance with the priority of distributions as described under "Description of the Notes—Payments on the Notes; Priority of Distributions" on the next Payment Date to the outgoing Servicer; *provided*, that with respect to the Supplemental Servicing Fee, any Supplemental Servicing Fee payable on the Payment Date occurring immediately following the date of such removal or resignation will be payable in accordance with the priority of distributions as described under "Description of the Notes—Payments on the Notes; Priority of Distributions" on such Payment Date to the outgoing Servicer and the successor Servicer *pro rata* based on the number of days each served as Servicer in the related Due Period.

#### Termination of Servicing Agreement

The Servicing Agreement will be terminated, and the Servicer will be removed, by the Issuer, if directed by a Majority of the Controlling Class of Notes or by at least 66-2/3% of the Holders of the Preferred Shares (excluding any Preferred Shares held by the Servicer or its Affiliates or any account for which the Servicer or its Affiliates have discretionary voting authority at the time of such vote, other than the HFP which may exercise its vote with respect to the Preferred Shares it owns, up to the Original HFP Share Amount), in each case for "cause" upon 10 days' prior written notice to the Servicer and upon written notice to the Noteholders and the Holders of the Preferred Shares as set forth below. - (iii) the occurrence of an Event of Default under the Indenture relating to payments described under clauses (iii) and (iv) under "Legal Structure—The Indenture—Events of Default;"
- (iv) certain events of bankruptcy or insolvency occur with respect to the Servicer;

(v) the occurrence of any Event of Default under the Indenture that results from any breach by the Servicer of its duties under the Indenture or the Servicing Agreement, which breach or default is not cured within any applicable cure period; or

(vi) (x) the occurrence of an act by the Servicer related to its activities in any securities, servicing, financial advisory or other investment business that constitutes fraud, (y) the Servicer being indicted, or any of its principals being convicted, of a felony criminal offense related to its activities in any securities, servicing, financial advisory or other investment business or (z) the Servicer being indicted for, adjudged liable in a civil suit for, or convicted of a violation of the Securities Act or any other United States Federal securities law or any rules or regulations thereunder.

#### Successor Servicer

(b) if a Majority of the Preferred Shares (excluding any Preferred Shares held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP) has nominated two or more successor Servicers that have been objected to pursuant to clause (a)(C) above or has otherwise failed to appoint a successor Servicer that is not objected to pursuant to clause (a)(C) above within 30 days of the date of receipt of notice of such removal, termination or resignation of the Servicer (or, if later, within 30 days of the last failure to successfully appoint a successor Servicer), then a Majority of the Controlling Class may appoint a successor Servicer, which shall be the successor Servicer if, (A) such successor has agreed in writing to assume all of the Servicer's duties and obligations pursuant to the Servicing Agreement and the Indenture and (B) such successor Servicer is not objected to within 45 days after notice of such succession by either (x) the Majority of the Preferred Shares (excluding any Preferred Shares held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority other than HFP or any subsidiary of HFP up to the Original HFP Share Amount) or (y) a Majority of the Outstanding Aggregate Principal Amount of the Notes (voting as a single Class (excluding any Notes held by the retiring Servicer or any of its Affiliates and accounts over which the retiring Servicer or any of its Affiliates exercise discretionary voting authority, other than HFP up to the Original HFP Share Amount)).

If the Majority of the Controlling Class fails to appoint a successor Servicer pursuant to clause I(b) or clause II(b) above, or its appointee is objected to as therein *provided*, within 90 days of the date of notice of such removal, termination or resignation of the Servicer, the Majority of the Controlling Class may petition a court of competent authority to appoint a successor Servicer.

No compensation payable to a successor from payments on the Collateral shall be greater than that paid to the Servicer without the prior written consent of a Majority of the Controlling Class of Notes, a Majority of the Notes (voting collectively) and a Majority of the Preferred Shares (voting collectively).

If there is no appointment of a successor Servicer within 90 days after the resignation or termination of the Servicer, any sales or disposition of Portfolio Collateral shall be limited to Credit Risk Portfolio Collateral, Defaulted Portfolio Collateral and Equity Portfolio Collateral; *provided* that such restriction on the sale or disposition of Portfolio Collateral shall not apply if the Portfolio Collateral is being liquidated in whole or in part in connection with an acceleration or early termination of the Notes.
